FAMILY SMOKING PREVENTION
AND TOBACCO CONTROL ACT

Mr. REID. Madam President, there are a number of amendments that have been filed that are at the desk. They haven’t been offered as yet. Amendments on both sides in agreement should be considered. We were close to getting an agreement to do just that. The vast majority of the amendments will be germane postcloture. I have indicated that for those that are arguably germane, I would be willing to work with the person who offered the amendment to have a vote on it. But one Senator has held this up. That is the way things can happen around here. It is unfortunate, but it does happen. We worked for a couple of days trying to arrive at the point we are. The same part about it is the Senator who has held all this up has an amendment that isn’t remotely germane to this bill, but he has lodged an objection to this agreement that is agreed to by all other Senators. I would hope that the Senator would reconsider this objection over the next few days.

In the meantime, I have had conversations with the managers of the bill. I have had a lot of time with Senator Dodd. It is an important piece of legislation. I watched the Presiding Officer offer her speech today. What a bad thing, the man she spoke about. A picture is worth a thousand words. The picture that she had when she was talking about this bill and how important it is was worth more than a thousand words.

I will have more to say about this on Monday, when everyone in my family smokes. Sadly, my parents are dead. My dad’s miner’s consumption was terribly exacerbated by his smoking. So when did he start smoking? He was a kid. He started smoking as a little boy. The same with my mother. The same with all of my other brothers and sisters when he was in the Air Force. He was I guess 20 years old or something like that. He wasn’t very old. But the others, all of my other family members, started smoking as kids. One of my brothers chewed tobacco. I can remember I had a friend who learned that my brother chewed tobacco. He was a lobbyist for the tobacco industry and he said, Oh, I will send him a case of— whatever he lost that lawsuit. But when all the lawyers got together to go after the tobacco companies big time, they pooled their money and went after the tobacco companies, and they used all of his pleadings. He said even the misspelled words they used. They didn’t change anything. Ultimately, that led to the favorable ruling by the courts that tobacco companies were liable for the damages in the billions of dollars.

It is important to move forward. I hope that cloture would be invoked on this Monday afternoon. It is one of the most popular pieces of legislation we could do. I am sorry we weren’t able to work anything out on the amendments, but we simply were not able to do so. No one can complain that this entire Congress that we haven’t had the ability to offer amendments. We were concerned for a lot of reasons. One is we have the supplemental appropriations bill floating around here and we didn’t want to amend non-germane amendments on this, but there were no restrictions whatsoever on even non-germane amendments. We just wanted—every Republican wanted to look at ours; we wanted to look at theirs. We wanted to have time to do this. We still can do this. But no one can claim and use it as an excuse to not vote for this bill, that we haven’t given them a chance to offer amendments.

So I hope Senators will take a look at this tonight. Let us invoke cloture and complete this legislation. I have already indicated I would be happy to work out something that would be fair to dispose of the amendments that are germane to this bill that have been filed.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Madam President, I wanted to begin by thanking the majority leader for his efforts and those of others, and Senator Kennedy’s help, he was the one who invoked on this Monday afternoon. It is important that we move forward. Let us invoke cloture and complete this legislation. I hope that cloture would be in

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The assistant legislative clerk read as follows:

CLOTURE MOTION
We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on Calendar No. 47, H.R. 1256, Family Smoking Prevention and Tobacco Control Act.

Harry Reid, Christopher J. Dodd, Robert P. Casey, Jr., Debbie Stabenow, Blanche Lincoln, Patty Murray, Ron Wyden, Jack Reed, Sheldon Whitehouse, Maria Cantwell, Roland W. Burris, Richard Durbin, Mark Udall, Edward E. Kaufman, Benjamin L. Cardin, Bill Nelson.

Mr. REID. Madam President, I now ask unanimous consent that the mandatory quorum under rule XXII be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Madam President, I ask unanimous consent to go into a period of morning business, with Senators permitted to speak for up to 10 minutes each.

Mr. McCAIN. Madam President, I am very appreciative of the difficulties the majority leader faces on a bill of this nature, the challenges of amendments being nongermane, and also the difficulties he faces in managing legislation. This issue has been around for a long time, I say to my friend from Nevada, we should address it. It is important to the American people. It does have a lot to do with pharmaceuticals in this country and the availability.

Again, I point out to the majority leader that there should not be a lot of debate on this. People have taken their positions.

I have an e-mail that was sent to us by mistake by the lobby for PhRMA, regarding how important it is to stop this amendment and not have a vote on it. If my friend will indulge me, this is urgent. This is from, as I understand it, one of the lobbyists for PhRMA:

The Senate is on the tobacco bill today. Unless we get some significant movement, the full-blown KSam or Vitter bill will pass as an amendment and a Cochran or Brownback safety amendment will fail.

(1) We need to locate a Democratic lead co-sponsor for the amendment which will be either Brownback or Cochran. Can the J&J, Merck, Novartis, Pfizer and the other New Jersey companies coordinate and contact Senator Menendez's office and ask him to take the lead?

(2) We are trying to get Senator Dorgan to back down—calling the White House and Senator Reid. Our understanding is that at least Senator McCain has said he will offer regardless, so even if Dorgan withdraws, he may still go forward.

We believe we have 39 'yes' votes for a safety second degree amendment and 25 members in the 'undecided' column. Kennedy—who whips this for us last time—is not here.

We are scheduling a call for later this morning to follow up on our targets from yesterday's whip call. Please make sure your staff is fully engaged in this process. This is real. We only had six companies participate in the last call.

My friends, that is a little insight as to how the special interests in Washington work. I would like to have a vote on this amendment, I say to my friend from Nevada, with a full appreciation of the difficulties he has in getting this legislation through—a very important piece of legislation.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS
Mr. REID. Madam President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar No. 132, the nomination of William Sessions to be Chair of the U.S. Sentencing Commission.

The PRESIDING OFFICER. Is there objection?

Mr. MCCONNELL. Madam President, we have not had an opportunity to get that cleared on this side. Therefore, I object.

The PRESIDING OFFICER. Objection is barred.

Mr. REID. Madam President, I ask unanimous consent that the Senate proceed to executive session to consider the nomination of Robert Groves to be Director of the Census.

The PRESIDING OFFICER. Is there objection?

Mr. MCCONNELL. Madam President, I make the same observation with regard to this nominee. We have not yet...
