Mr. REID. Madam President, I send a cloture motion to the desk. This is on the bill itself.

Mr. REID. Madam President, I now ask unanimous consent that the mandatory quorum under rule XXII be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Madam President, I ask unanimous consent to go into a period of morning business, with Senators permitted to speak for up to 10 minutes each.

Mr. MCCAIN. Reserving the right to object, what did we do?

Mr. REID. We just went into morning business. We would like to go into morning business.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. MCCAIN. Madam President, I have an amendment that I have been trying to get a vote on. I would say to the distinguished majority leader, and it certainly is important to the American people.

It is certainly important on this bill and the function of the FDA concerning the importation of prescription drugs into this country. I believe the Senator from North Dakota has an amendment. I would agree to a time agreement of an hour to be equally divided, or half hour, and then vote on it. I think the American people ought to know whether we are going to be able to import prescription medications into this country so we can save them billions of dollars every year, rather than taking so much of their hard-earned money, especially retirees.

Mr. REID. Madam President, I am happy to respond to my friend. We have been trying for 2 days to move forward on germaine amendments. I have had several conversations with Senator Dorgan. I know how important it is to him. I voted with him, and I do every time this matter comes up. As I indicated earlier, I would be happy to work out some kind of agreement.

At this time, until we get some ability to vote on the germaine amendments, it doesn’t seem like the right thing to do, as I have indicated to my friend, Senator Dorgan, to work out an arrangement for him to offer this amendment. This is something that should have been done, I am sorry to say, years ago, not weeks ago. I will talk to the Senator from Arizona on this drug reimportation issue, which is important. At this stage, we simply cannot do it; I know of no way to get from here to there.

As I said—and the manager of the bill is here—if we can work something out by Monday, I will be happy to try to work something out. Nobody is trying to stop the Senator from offering that amendment. We have to have an agreement to move forward on the other stuff first because it is germane.

Mr. MCCAIN. Will the Senator yield?

Mr. REID. Yes, without losing my right to the floor.

Mr. MCCAIN. Mr. President, I am very appreciative of the difficulties the majority leader faces on a bill of this nature, the challenges of amendments being nongermane, and also the difficulties he faces in managing legislation. This issue has been around for a long time, I say to my friend from Nevada. We should address it. It is important to the American people. It does have a lot to do with pharmaceuticals in this country and the availability.

Again, I point out to the majority leader that there should not be a lot of debate on this. People have taken their positions.

I have an e-mail that was sent to us by mistake by the lobby for PhRMA, regarding how important it is to stop this amendment and not have a vote on it. If my friend will indulge me, this is urgent. This is from, as I understand it, one of the lobbyists for PhRMA:

The Senate is on the tobacco bill today. Unless we get some significant movement, the full-blown Lanham or Vitter bill will pass as an amendment and a Cochran or Brownback safety amendment will fail.

(1) We need to locate a Democratic lead co-sponsor for the second degree amendment which will be either Brownback or Cochran. Can the J&J, Merck, Novartis, Pfizer and the other New Jersey companies coordinate and contact Senator Menendez’s office and ask him to take the lead?

(2) We are trying to get Senator Dorgan to back down—calling the White House and Senator Reid. Our understanding is that at least Senator McCain has said he will offer regardless, so even if Dorgan withdraws, he may still go forward.

We believe we have 39 ‘yes’ votes for a safety second degree amendment and 25 members in the ‘undecided’ column. Kennedy—who wrapped this for us last time—is not here.

We are scheduling a call for later this morning to follow up on our targets from yesterday’s whip call. Please make sure your staff is fully engaged in this process. This is real. We only had six companies participate in the last call.

My friends, that is a little insight as to how the special interests in Washington work. I would like to have a vote on this amendment, I say to my friend from Nevada, with a full appreciation of the difficulties he has in getting this legislation through—very important piece of legislation.

I suggest the absence of a quorum. The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS
Mr. REID. Madam President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT REQUESTS—EXECUTIVE CALENDAR
Mr. REID. Madam President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar No. 132, the nomination of William Sessions to be Chair of the U.S. Sentencing Commission.

The PRESIDING OFFICER. Is there objection?

Mr. MCCONNELL. Madam President, we have not had an opportunity to get that cleared on this side. Therefore, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. REID. Madam President, I ask unanimous consent that the Senate proceed to executive session to consider the nomination of Robert Groves to be Director of the Census.

The PRESIDING OFFICER. Is there objection?
be able to clear it on this side. Therefore, I object.

Mr. REID. Madam President, for the information of Senators, there will be no more votes today. I indicated earlier that we would be out by 6 today. A number of things are going on. We will work on a number of issues over the weekend, including the tobacco issue and other issues. We will vote on Monday at 5:30 on the cloture motions that were filed earlier this afternoon.

Mr. DODD. Madam President, I listened carefully to the conversation between the majority leader and our colleague from Arizona. As the manager of this bill on smoking, I for one have been a strong advocate for the reimportation proposal. Others have also expressed interest in this. Most of my colleagues have expressed views, and a majority have expressed support for the idea. This is not about denying a vote on reimportation. We would all like that opportunity.

However, this bill on smoking and children is about as fragile a proposal as I have seen here in a long time. There are strong voices that wish to kill this legislation, and they effectively have. The FDA has jurisdiction over almost every product—except tobacco—including pet food. We waited 10 years trying to get to this bill. If you lose one or two votes on this—if we lose this again, we are back to the last decade.

There will be any number of attractive ideas proposed to this legislation, many of which I have either supported or would like to, but we will run the risk of breaking up the necessary 60 votes to deal with children and smoking. So no matter how appealing some amendments may be, understand what you may be doing, and that is destroying the ability to deal with the 3,000 to 4,000 kids who start smoking every day and the 400,000 people who die every year from tobacco. I want to vote on reimportation as well and a lot of other issues. If every time we bring up a bill of this significance and somebody offers a very appealing proposal—understand that the danger is that you fracture that relationship. That has denied us the opportunity to pass this for a decade, despite the fact that both bodies have voted overwhelmingly but not in the same Congress.

We are on the brink of getting this done. What better thing could we accomplish on the eve of the health care debate, on the eve of saying goodbye to children? I have 76,000 kids in Connecticut who will die because they are smokers if we do nothing. There are 6 million children today who are going to die prematurely because of smoking if we do nothing. As much as I want to deal with reimportation of drugs, if we do that and it is adopted and we lose the coalition on smoking, what have we achieved? The bill dies. You lose both reimportation as well as the smoking proposal.

Mr. REID. Madam President, the majority leader talking from this side. I know where he stands on this. Senator Reid has been one of re-importation. That is not the issue here. It is whether at long last, a decade later, our colleague from Massachusetts, Senator KENNEDY, and Senator DeWine, a former colleague from Ohio, Henry Waxman from California, Tom Davis of Virginia, who on a bipartisan basis have tried year in and year out to get this done—we can finally achieve it. So I know the game. But this is not a game, this is life and death for people. For 10 long years, we have not been able to pass involving kids and smoking. We can get it done in the next few days. If people insist upon nongermane amendments based on a short-term appeal that denies us that opportunity, we will have done great damage to our country.
