COMMERCE, JUSTICE, SCIENCE,
AND RELATED AGENCIES APPRO-
PRIATIONS ACT, 2010

SPEECH OF

HON. LINDA T. SÁNCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 16, 2009

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2847) making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes:

Ms. LINDA T. SÁNCHEZ of California. Mr. Chair, I rise today to urge my colleagues to support this amendment to increase funding for the State Criminal Alien Assistance Program (SCAAP). When the Federal government passed SCAAP in 1994, it recognized its responsibility to reimburse states and localities for the arrest, incarceration, and transportation costs associated with criminal aliens.

Unfortunately, this program has been consistently under-funded. This year was not the first time a President proposed no funding for the SCAAP program. Fortunately, the Appropriations Committee allocated \$300 million to the program. While this level is significantly better than zero, it remains \$100 million below the 2009 funding level. Our amendment will provide that additional \$100 million for SCAAP.

Even with \$400 million, states and localities would still only receive reimbursement for a small fraction of what they are spending. This inadequate funding has had a devastating effect on public safety, especially in California and other border states. At a time when many states and counties face budget shortfalls, every dollar reduction in SCAAP reimbursement means one less dollar to spend on essential public safety services. Following SCAAP funding cuts in 2003, the LA County Sheriff's Department was forced to implement a new “early release” policy for inmates convicted of misdemeanors.

From a public safety perspective, it is far better for criminals to serve their full sentences. Without adequate resources, other programs will have to be scaled back or terminated to accomplish this goal. Basic police protection, anti-gang activities, homicide investigations, anti-terrorism activities; and rehabilitation programs to reduce recidivism are programs that could face cuts in California and across the nation if this amendment does not pass.

We introduced this bipartisan amendment to ensure that police chiefs and sheriffs do not

have to choose between keeping our youth out of gangs and incarcerating criminal aliens.

I urge my colleagues to support this amendment.

Currently, we are the only law enforcement agency handling, exclusively, computer crime cases from investigation to prosecution. The computer labs utilize working relationships with federal, state and local agencies across the nation. The labs have made a tremendous impact on computer crime and are enabling local and state law enforcement personnel to utilize yet another tool in the prosecution of criminal activity. Additionally, investigators and prosecutors are also available for instruction and have been enlisted on numerous occasions to speak to the public about internet safety, as well as, train local/state law enforcement on the basics of information sharing, computer crime/digital evidence and multiple courses designed for first responders. Furthermore, since the programs inception in 2006, we have assisted more than 75 plus outside law enforcement agencies and analyzed over 2000 pieces of electronic evidence in approximately 851 criminal cases resulting in a multitude of convictions.

The capability of such teams is entirely dependent upon the quality of the dog, the dog's training, and instruction of its handler. This program would make available to AL LEO the highest state-of-the-art detector dogs, training, and handler instruction. AU proposes continuation and expansion of the FY09 program to provide AL LEO access to the services of CDTC in order to enhance public and, in particular, school safety in AL communities.

EARMARK DECLARATION

HON. DANIEL E. LUNGREN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 17, 2009

Mr. DANIEL E. LUNGREN of California. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I rise today to submit the following information regarding an earmark I received as part of the Homeland Security Appropriation.

The following earmark was requested by my office and is listed for funding in this bill:

CITY OF ELK GROVE—EMERGENCY OPERATIONS CENTER

Requesting Member: DANIEL E. LUNGREN

Bill Number: 2010 Homeland Security Appropriation

Account: Federal Emergency Management Agency

Requesting Agency: City of Elk Grove

Agency Address: 8401 Laguna Palms Way, Elk Grove, CA 95758

Amount: \$750,000

Description: The Emergency Operations Center will provide the necessary tools to receive, assess, and respond to a critical incident. The communications system must provide for a redundant path to ensure that both situational awareness information and strategic orders can pass into and out of the facility without interruption.

The proposed EOC will include an Intelligent Transportation System (ITS). The ITS will be an important component of the EOC as it will provide a mechanism for controlling local traffic patterns to ensure transportation safety and mobility during an emergency. The system can be used to relieve traffic congestion and through the use of advanced video communications technologies, provide the Elk Grove EOC with a bird's eye view of critical intersections and roadways leading in and out of the City. Wireless video technology will also be deployed at locations determined to be "sensitive" for the purposes of Homeland Security.

The Emergency Operations Center has a clear federal nexus. As a result of such national events as 9/11 and Hurricane Katrina, there has been a renewed demand for local entities around the country to focus on local preparedness and accountability during emer-

gency situations. Elk Grove is home to 140,000 residents and a likely destination for evacuees from the Sacramento and San Francisco Bay areas. In addition, the Sacramento region is subject to potential flooding due to an intricate and aged levee system. Elk Grove has multiple freight and passenger rail lines, one of the largest above-ground propane storage facilities, an airport, and two heavily traveled freeways, Interstate 5 and State Route 99. It is essential that the City of Elk Grove has an Emergency Operations Center to coordinate emergency response efforts in the event of a disaster or terrorist attack.

Having the ability to work regionally and have interoperability between different agencies is critical in the event of an emergency. With the use of advanced communications technology, Elk Grove will be able to work in concert with the County and City of Sacramento, State of California Office of Homeland Security, and the U.S. Department of Homeland Security to share information and respond rapidly to any event.

THE ENHANCED SUPPLY AND PRICE REDUCTION ACT OF 2009

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 17, 2009

Mr. MARKEY of Massachusetts. Madam Speaker, today I am introducing legislation with the gentleman from Maryland, Mr. VAN HOLLEN, and the gentleman from Vermont, Mr. WELCH, in order to provide relief for American consumers at the pump in the short term and save taxpayer dollars. Last summer, gas prices soared to record highs above \$4 per gallon. This year, American consumers are beginning to experience a bad case of *déjà vu*. Incredibly, today marks the 50th straight day that gas prices have risen. As a result, prices at the pump have already increased by more than one dollar a gallon since the beginning of the year. For American families who are already struggling through a down economy, these rising prices are hitting especially hard.

The Enhanced Supply and Price Reduction Act of 2009, or Enhanced SPR Act, directs the Secretary of Energy to sell 70 million barrels of light sweet crude—less than 10 percent of the total oil in the Strategic Petroleum Reserve (SPR)—and replace it with heavy crude oil over a period of five years. Swapping oil from the SPR has a proven record of lowering oil prices in the short term. In 1991, when President Bush's father deployed oil from the reserve, oil prices fell 33.4 percent in two days. In 2000, President Clinton conducted a time exchange of oil from the SPR and prices again immediately dropped by 18.7 percent. And in 2005, when President Bush himself released oil following Hurricane Katrina, prices fell 9.1 percent. That's an average drop in the price of oil of 19.2 percent.

In addition, this legislation would implement a number of recommendations made by the Government Accountability Office (GAO) to better use taxpayer funds. First, swapping a small percentage of light oil in the reserve for heavier crude has been recommended by the GAO to save taxpayers money. Replacing a small percentage of light oil currently in the reserve with heavy oil would also better match up with the needs of our nation's refineries and protect us against supply disruptions from unstable countries such as Venezuela.

The legislation would also implement GAO's recommendation to purchase a constant dollar value rather than constant volume of oil to fill the SPR in the future. In testimony before the Select Committee on Energy Independence and Global Warming last year, GAO testified that if the Department of Energy had taken this approach between 2001 and 2005, it would have saved American taxpayers nearly \$600 million or roughly 10 percent cost to fill the SPR during that period. Finally, the bill would authorize the Secretary to purchase and store refined petroleum product in the SPR in order to further enhance our national security.

The House has already voted in support of similar legislation in the last Congress in an
