

Description of Request: In the arid climate of Southern California, it is critically important to provide a coordinated effort to conserve water resources by controlling water usage. In particular, Orange County's growing population requires extensive conservation measures to adequately provide sufficient water resources for its residents. Funding for the Irrigation Controller Installation Program would allow for the installation of a smart irrigation controller system that uses innovative technology to regulate the amount of water that is delivered based on weather conditions, soil, slope, and type of landscape. Supported by local government entities and the Natural Resources Conservation Service, this computerized landscape sprinkler system will save the residents of Orange County 30,000 acre-feet of water every year, directly benefiting more than two million Orange County residents. This program has direct national significance by relieving pressure from imported water sources such as the Colorado River Aqueduct and the San Francisco Bay Delta. In addition, its implementation will help reduce urban runoff, preventing pollutants from reaching natural waterways and the ocean.

CONGRATULATING ARJUN
KANDASWAMY

HON. DAVID WU

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 9, 2009

Mr. WU. Madam Speaker, I rise today to offer my congratulations to Arjun Kandaswamy for his accomplishments in the Oregon State Geography Bee and in the National Geographic 21st Annual Geography Bee.

Arjun is an exceptional middle school student who participates in Oregon's Summa Program for gifted students. After winning the State of Oregon Geography Bee, Arjun represented Oregon in the National Geographic Bee, one of the most difficult in the nation. At the age of fourteen, Arjun topped 53 students from across the nation and earned second place and an accompanying college scholarship.

I, therefore, again gladly extend my congratulations to Arjun and wish him a bright academic future and continued success in all his endeavors.

CONGRATULATING THE CLARKSON
UNIVERSITY RACQUETBALL
TEAM UPON WINNING THE 2009
NATIONAL INTERCOLLEGIATE
RACQUETBALL CHAMPIONSHIP

HON. JOHN M. MCHUGH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 9, 2009

Mr. MCHUGH. Madam Speaker, I rise today to congratulate the Clarkson University Golden Knights upon winning the 2009 NCAA Division II Racquetball National Championship, their second national championship since 2005. I am proud to represent Clarkson University and the community of Potsdam.

In April, Clarkson University won the Division II National Championship in Tempe, Ari-

zona, which involved 330 players representing more than 50 colleges and universities. The Golden Knights did so by having the highest combined total of the men's and women's team points, which were attained by defeating competing players in individual matches.

The Clarkson men's team included Marco B. Fontana, Joseph V. Kapas, Justin A. Konopaske, Brian C. Robertshaw, Brian T. Straub, and Joseph E. Tabor of Nicholville, New York, which is located in New York's 23rd Congressional District. The women's team was comprised of Michelle E. Turk and Rachel D. Weiss, captain of the combined teams. Professor Norbert Ackermann has served as the team's advisor for more than a decade.

Madam Speaker, it takes a tremendous amount of dedication, hard work, perseverance, and teamwork to win a national collegiate championship. Thus, I am pleased to extend my congratulations to these young men and women, and I ask my colleagues to join me in recognizing the entire Clarkson University Golden Knights racquetball team for this very significant accomplishment.

PERSONAL EXPLANATION

HON. PAUL C. BROUN

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 9, 2009

Mr. BROUN of Georgia. Madam Speaker, on Wednesday, July 8, 2009, I missed the following votes: rollcall Nos. 480, 481, 482, 483, 484, 485, 486, 487, and 488. If I had been able to make these votes, I would have voted "aye" on rollcall votes 481 and 488. I would have voted "nay" on rollcall votes 480, 482, 483, 484, 485, 486, 487.

PERSONAL EXPLANATION

HON. J. GRESHAM BARRETT

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 9, 2009

Mr. BARRETT of South Carolina. Madam Speaker, due to unforeseen circumstances, I unfortunately missed two recorded votes on the House floor on Wednesday, July 8, 2009.

Had I been present, I would have voted "no" on rollcall vote No. 480 (On agreeing to H. Res. 610) and "aye" on rollcall vote No. 481 (on motion to suspend the rules and pass H.R. 1275).

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

SPEECH OF

HON. MAZIE K. HIRONO

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2997) making ap-

propriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes:

Ms. HIRONO. Mr. Chair, I rise in strong support of H.R. 2997, the FY2010 Agriculture Appropriations bill, which makes important investments in agricultural research; conservation, rural development, and nutrition programs; as well as a number of other programs that support agriculture and rural communities in our nation.

I am very grateful to the Committee, and especially to Chair ROSA DELAURO, for support of many of my high-priority requests and for recognizing the special challenges faced by Hawaii farmers.

Yesterday as we were getting ready to begin debate, I was surprised to learn that another member had filed an amendment to eliminate funding for one of my Hawaii requests included in the final bill. The amendment would have eliminated a \$153,000 earmark, titled Agricultural Diversification in Hawaii, to assist Hawaii farmers succeed in growing and marketing new crops to replace sugarcane and pineapple. It was a bit disappointing because the amendment was drafted by a member from Texas, a state that enjoys far more substantial federal support for its farmers in the form of direct payments and other agricultural services than Hawaii.

Ultimately, the member from Texas decided not to offer his amendment. If he had, I would have offered the following defense for this important program.

Hawaii is the most geographically isolated state.

Hawaii imports 85 percent of the food consumed by residents and visitors and is estimated to have a 4–7 day food supply in the event of a shipping disruption of any kind.

Our major agricultural industries of sugar and pineapple production have declined precipitously in the last 15 years. Of our last two sugar companies, one announced it was going out of business last year. Our longstanding leaders in pineapple production have moved their fruit production operations out of the state. As a result, Hawaii has been making a difficult transition from plantation to diversified agriculture.

Increased food production for local and export markets is a key component to addressing food security in Hawaii.

Most of the research done in mainland university and research institutions does not have much relevance in Hawaii. We grow different crops and have a year-round growing season, which means year-round pest and disease issues.

There are no large national agricultural organizations to lobby for the interests of papaya, pineapple, banana, or coffee farmers. Rice and cotton growers in Texas can find support from growers in other states who will make sure that their needs are understood and met.

The Hawaii Agricultural Diversification program has evolved over time from identifying alternative crops to replace sugarcane and pineapple, to assessments on aquaculture crops, to the current emphasis on tropical fruits.

The overall tropical fruit industry in Hawaii comprises nearly 1300 farmers who produce crops for tropical fruit markets with an annual farm gate value of more than \$30 million.
