Description of Request: The purpose of this appropriation is to provide \$100,000 for the Clemson University Advanced Materials Innovation Center. With many manufacturing jobs going overseas, there is a critical need in the United States, and particularly in South Carolina, of incubators such as the Advanced Ma-

The Advanced Materials Innovation Center at Clemson's Advanced Materials Center in Anderson County will serve as a research and development campus for start-up companies devoted to cutting-edge research, development, and job creation in the advanced materials fields. The Innovation Center will also house fledgling high-technology companies that focus on such advanced materials as optics, nanotechnology, and biomaterials. These federal funds will be used to develop laboratories at the Advanced Materials Innovation Center. CONGRESSIONAL RECOGNITION FOR FORT HUACHUCA BROWNIE TROOP 2181

HON. GABRIELLE GIFFORDS

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 16, 2009

Ms. GIFFORDS. Madam Speaker, I rise today to honor the leaders and members of Fort Huachuca Brownie Troop 2181, from Si-

erra Vista, Arizona, for their initiative in coordinating and conducting the Fort Huachuca Sun Oven Cook-off. This event will take place on the U.S. Army's Fort Huachuca on Saturday, July 18.

On that day, using specially designed solar ovens and only the power of the sun, the 18 members of Troop 2181 will prepare a spaghetti feast and then cakes for auction. In doing so, they will raise funds to purchase solar ovens for needy members of their community while simultaneously educating people about the benefits and capabilities of solar energy.

Solar energy is the most abundant and widely available energy source on our planet. It is also clean, safe, and affordable. As the United States and other countries across the globe look for ways to secure a more peaceful, prosperous, and sustainable future, solar technologies have an important role to play. I applaud the members of Troop 2181 for their leadership in demonstrating the benefits of solar energy in their community and for using the proceeds to help those in need.

In performing this project, the members of Troop 2181 will learn valuable lessons about the power of public service and the many benefits of solar energy. They will learn about areas where help is needed in their community, and they will learn that they can make a positive difference.

I wish to single out a few people who deserve special recognition for their leadership in making this project a reality: Ken Robinson, Command Information Chief for the Fort Huachuca Public Affairs, was influential in paving the way for this project; Valerie McCaffrey, Chair of Baja Arizona Sustainable Agriculture, helped secure the solar ovens at cost; and Kristen Engasser has performed exemplary service as leader of Troop 2181.

I applaud all of these community leaders for empowering the young people of Southern Arizona and helping them develop critical leadership skills that will allow them to create a better world.
