

Account: Army Corps of Engineers, Construction

Legal Name of Requesting Entity: County of Orange

Address of Requesting Entity: 10 Civic Center Plaza, Santa Ana, California 92701

Funding Secured: \$52,193,000

Description of Request: The Santa Ana River Mainstream Project, including Prado Dam, provide urban flood protection to the growing communities in Los Angeles, Orange, and San Bernardino Counties, and has been a high priority project for the Army Corps of Engineers since it was first authorized in 1986. The Santa Ana River has been recognized as the worst flood threat west of the Mississippi River. The Army Corps of Engineers estimates if flood mitigation is not completed, a major storm event could flood over 110,000 acres, kill 3,000 people, and destroy up to \$15 billion worth of property in Orange, Riverside, and San Bernardino Counties. Floods from the Santa Ana River would destroy interstate transportation facilities, railroads and highways, and have long-term effects on business activities on a national level. The project, which extends some 75 miles along the Santa Ana River, will increase levels of flood protection to more than 3.35 million people in the area. Federal assistance for the start of construction was approved in the Fiscal Year 1990 federal budget and has been included in the federal budget every year since.

Requesting Member: Congressman GARY G. MILLER

Bill Number: H.R. 3138

Account: Bureau of Reclamation, Water and Related Resources

Legal Name of Requesting Entity: Orange County Water District

Address of Requesting Entity: P.O. Box 8300, Fountain Valley, California 92728

Funding Secured: \$100,000

Description of Request: The Ground Water Replenishment (GWR) System Mid-Basin Injection Pilot Facilities Project will determine the feasibility, and the benefits and costs of constructing a full-scale project that would inject GWR System product water directly into the principal aquifer in an area of high volume groundwater pumping. The purpose of the GWR System Mid-Basin Injection Pilot Facilities Project is to reduce reliance on imported water by expanding local water supplies. This will be accomplished by increasing recharge of the Orange County groundwater basin through direct injection of purified, recycled water into the groundwater basin. This project will install one pilot test well and two monitoring wells, evaluating hydro-geologic data, and developing a preliminary plan for full-scale construction.

Account: Bureau of Reclamation, Water and Related Resources

Legal Name of Requesting Entity: Orange County Water District

Address of Requesting Entity: P.O. Box 8300, Fountain Valley, California 92728

Funding Secured: \$100,000

Description of Request: The Groundwater Replenishment System (GWR System) is a jointly funded project of the Orange County Water District (OCWD) and the Orange County Sanitation District (OCSD) with OCWD serving as the lead or constructing agency. When

complete, the GWR System will be the largest water recycling project of its kind in the world, reusing 140,000 acre feet per year (AFY) of advance treated wastewater (recycled water). The GWR System will supplement existing water supplies by providing a new, reliable, high-quality source of water to recharge the Orange County Groundwater Basin and protect the Basin from further degradation due to seawater intrusion. By treating excess storm flows along the Santa Ana River, the GWR System project also postpones the need for OCSD to construct a new ocean outfall in Huntington Beach.

#### RECOGNIZING GENESIS AT THE CROSSROADS

### HON. MIKE QUIGLEY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 24, 2009

Mr. QUIGLEY. Madam Speaker, I rise today in recognition of Genesis at the Crossroads, a non-profit organization whose mission is to bridge cultures in conflict through the arts and to create innovative arts-education programs around the world.

Founded in 1999 by Dr. Wendy Sternberg, Genesis at the Crossroads utilizes the arts as a form of diplomacy, using expression to foster understanding. The organization brings together ethnic artists to share their talents and unite their audiences in celebrations of diversity.

Art is the adhesive that keeps world cultures united. Artistic expression and appreciation are fostered by Genesis at the Crossroads through programs such as the HAMSA-Fest, which celebrates Middle Eastern and North African art, and Our World One Piece at a Time, a peace quilt program that fosters philanthropy and understanding among youth.

Genesis at the Crossroads creates the unique and rare opportunity to truly work in unison with those of differing and often conflicting backgrounds. The success of the organization, now in its tenth year, is a testament to the power of the arts.

We congratulate Genesis at the Crossroads on their ten-year anniversary and thank their artists, organizers, and audiences that have participated in their programs. Genesis at the Crossroads has proven understanding is possible regardless of conflict, when we combine passion for the arts and compassion for others.
