

schools, organizations, families, and the public free of any charges. This important training will keep our children safer, build better cybercitizens, and allow those who will drive the future of our country to take advantage of all the opportunities that technology offers without fear.

These funds, which will be used to complete the development of grade 5 through 9 curricula for Internet Safety, will benefit every citizen in the State of Washington as well as throughout the United States—every school district, not-for-profit organization, parent, child or senior citizen—by providing free online skills for life in the 21st Century on the Internet.

With initial private funding, LOOKBOTHWAYS developed a full curriculum outline for grades K–12, a prototype lesson and supporting materials, a program brochure and fundraising collateral materials. LOOKBOTHWAYS has also identified partners for marketing the program to educators, and developed a detailed business plan that outlines their funding, marketing, development, and distribution goals and strategies. With the next infusion of funding they are ready to ramp up quickly to write the curriculum and create the accompanying media and begin teacher training and get it into schools within 6 months.

3) \$500,000 for Seattle University's Fostering Scholars Program

Requesting Entity: Seattle University 901 12th Ave., P.O. Box 222000, Seattle, WA 98122-1090

Agency: Department of Education  
Account: Higher Education (includes FIPSE)  
Funding Requested by: Reps DAVE REICHERT, JIM McDERMOTT

In Washington State, only 3 in 10 foster youth graduate from high school and only 25% enroll in a post-secondary education program. The Fostering Scholars Program provides full-tuition scholarships, year-round room and board, health insurance, personal support, a program of cohort and leadership development, work-study jobs, and opportunity to study abroad, access to tutoring, therapy and counseling as needed, and the benefit of emergency funds to foster children who have aged out of the foster care system.

Education is key to economic independence. Seattle University is taking the initiative and devoting resources to help foster care alumni who more often live below the poverty line and lack a post-secondary education compared to the national average. It is a benefit to taxpayers to make a small investment in the education of foster children so they will no longer be dependent as adults on government funded social services.

Studies have shown that anywhere from 25%–49% of foster care alumni will experience homelessness at some point in their lives. The economic impact of this funding is that these foster youth that might never achieve a post-secondary education and be living at the poverty line would be entering the Washington State workforce with a college degree and the skills needed to secure a high wage job contributing to the economy of the state.

**Finance Plan:**

**EARMARK DECLARATION**

**HON. PHIL GINGREY**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 24, 2009

Mr. GINGREY of Georgia. Madam Speaker, pursuant to the Republican Leadership standards on earmarks as well as in accordance with Clause 9 of Rule XXI, I am submitting the

following information regarding earmarks I received as part of H.R. 3293, the Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman PHIL GINGREY

Bill Number: H.R. 3293  
Account: Department of Health and Human Services; Health Resources and Services Administration

Legal Name of Requesting Entity: Cobb County (GA) Government

Address of Requesting Entity: 100 Cherokee St, Marietta, GA 30090

Description of Request: The Cobb County (GA) Government will assist in building a 22,000 sq. ft multipurpose senior center with limited healthcare services. The center is accessible to both private and public transportation, will offer a variety of programs and services, and will be the first multipurpose senior center within the city limits of Marietta.

The Center will accommodate services, programs and activities for seniors and the issues that affect them. Health and wellness programs including nutrition, fitness, lifestyle, and diabetes care, education and issue-related seminars such as Medicare, identity theft, fraud, grandparents raising grandchildren, and Alzheimer's, volunteer opportunities, advocacy, and socialization opportunities will be offered.

As individuals experience longer life-expectancy, health and wellness play an even bigger part in our lives. The proposed Multi-Purpose Senior Health Center will offer limited health services as well as opportunities for improved physical, mental, and social health.

The \$500,000 included in H.R. 3293 will be used for renovation and development of an existing building and for necessary equipment. Specifically, the Fiscal Year 2010 federal funds will consist of the following budget items: Construction—Architect Fees: \$136,000; Facade, Parking, and Landscaping: \$212,500. Equipment—\$151,500.

Requesting Member: Congressman PHIL GINGREY

Bill Number: H.R. 3293  
Account: Department of Health and Human Services; Health Resources and Services Administration

Legal Name of Requesting Entity: Floyd Medical Center

Address of Requesting Entity: 304 Turner McCall Boulevard, Rome, GA 30165

Description of Request: The counties in Northwest Georgia in Floyd Medical Center's service area (Floyd, Chattooga, and Polk) have a high rate of breast cancer-related mortality. While the State of Georgia is on par with national averages—with roughly 20% of breast cancer cases being terminal—two of these counties have terminal breast cancer rates of 26% in Polk County and 25% in Chattooga County. Unfortunately, there is currently not a single dedicated Breast MRI machine for the hospital's service area.

Floyd Medical Center will procure, operate, and maintain a state-of-the-art dedicated a Breast MRI machine to provide 2,800 screenings for patients who would otherwise have to travel two hours to the nearest facility with a Breast MRI machine. This machine will be incorporated into Floyd Medical Center's new Breast Cancer Center, which serves as a single point-of-care by providing a full spectrum of cancer diagnosis, prevention, and treatment services.
