

this little orange, less than 4 percent, about 12.1 million people. This is 47 million all together. And if you look at the color code on the chart, we have illegal immigrants there in the yellow. We have those that are yellow in the 5-year bar, no welfare for 5 years by law. That's another 5 or so million people. You have those that are earning more than \$75,000 a year, Americans without affordable options. They can find a way to insure themselves. And then you've got those that are eligible for government programs, primarily Medicaid, that's 9.7 million. And then you have those eligible for employer offers that don't opt in or opt out of their employer's plan, that's about 6 million. And then we have the Americans without affordable options. So all of these folks here, there's another answer for that; less than 4 percent to change 100 percent of the entire insurance and health care delivery system.

I thank the gentleman from Arizona and the Speaker, and I yield back the balance of my time.
