PROVIDING FOR CONSIDERATION OF H.R. 3854, SMALL BUSINESS FINANCING AND INVESTMENT ACT OF 2009

SPEECH OF

HON. JARED POLIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 29, 2009

Mr. POLIS. Madam Speaker, I rise in support of this rule and the underlying bill H.R. 3854, the Small Business Financing and Investment Act. I would like to thank Chairwoman VELÁZQUEZ and my colleagues on the Small Business Committee for bringing us a comprehensive well thought-out bill. I would also like to acknowledge and thank my friend from Oregon, Representative SCHRADER for introducing this legislation and working hard on such an important issue.

Madam Speaker, while there are positive economic indicators and reasons to believe that we are on a path of recovery, this fragile,

budding recovery could be stalled if we do not provide our small businesses with the tools to maintain their operations, begin to expand and create new jobs, and restore consumer confidence.

H.R. 3854 will significantly improve access to credit and capital for small businesses at each stage of growth and in any economic climate. An update of the SBA's portfolio of lending and investment programs is 10 years overdue, and the current recession makes the task of helping more small firms, grow, prosper, and save and create jobs even more vital.

As we speak, once frozen credit markets are beginning to thaw, and the Small Business Financing and Investment Act will prove to be a welcome heat gun. This bill will improve credit conditions for small businesses and stabilize small business lending markets, improving the availability of capital for small firms. This includes increasing the guaranty on 7(a) loans to 90 percent, waiving fees on 7(a) and CDC loans, and improving the Business Stabilization Loans by increasing the loan amounts to \$50,000.

By raising SBA loan guarantees and reducing risk for lenders, this bill allows banks to make lending more accessible to small firms early next year. By helping small firms purchase new equipment and inventory, the bill will help stimulate the economy and help reduce overall unemployment. As an added benefit, an increase in lending activity will also improve the health of our banking industry.

Through this bill, bankers will be able to recapitalize—through their efforts of supporting business—instead of seeking Federal bailouts. Recognizing the benefit to their industry, H.R. 3854 has received the endorsement of American Bankers Association.

This bill will benefit businesses nationwide. It makes permanent the Rural Lender Outreach Program, Community Express, and Veteran Participation Loan Program. Each of these programs share a common goal of assisting borrowers who have not accessed SBA programs or who have traditionally had limited access to capital.

On behalf of my constituents in Colorado, I would like to particularly thank the Chairwoman and Committee for their work on drafting Subtitle B—expanded investment in small business renewable energy, and title VII (seven)—the small business early-stage investment program. The spirit of entrepreneurship in my district is only matched by our commitment and talent to lead in the renewable energy economy. These programs encourage new businesses to start; encourage all businesses to recognize cost saving through energy conservation; and promote new firms to develop and market renewable energy resources. And they are all strongly supported by the people of Colorado's second Congressional district.

Without discounting the struggles of those who have lost their jobs, it should be noted that Colorado enjoys one of the lowest unemployment rates in the nation at seven percent. This, in part, is due to the diversity of my state's economy, the predominance of small businesses, and the efforts by state and local governments to foster entrepreneurship across all industries.

Nationwide, small businesses create 64 percent of new jobs. This bill is expected to support \$44 billion in small business lending every year, and will help save or create 1.3 million

jobs each year. Small firms comprise 99.7 percent of all employer companies; this bill is more than an investment in small businesses, it is an investment in American job growth.

Madam Speaker, oftentimes, the psychology of recovery is as important as the funds spent to drive it. By passing this legislation, this Congress makes a plain statement that we have great confidence in our fellow Americans to help each other get back to work.

We state that with a little help local bankers and local merchants can come together to stock shelves and pay salaries. We tell our businesses that we will provide the tools to weather the remainder of the storm; we use traditional market mechanisms to do it; and we back our confidence with the full faith and credit of the United States government. This is a powerful message and I am proud to lend my voice to this cause.

Once again I recognize the efforts of Chairwoman VELÁZQUEZ and the Small Business Committee on job growth and I thank Representative SCHRADER introducing this legislation that we will have the opportunity to vote on today. I strongly support this rule and ask my colleagues to join me in supporting this rule and the underlying bill.

INTRODUCTION OF NATIONAL
MINER'S DAY RESOLUTION**HON. NICK J. RAHALL II**

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 4, 2009

Mr. RAHALL. Madam Speaker, as we, in the Congress, continue to debate the course of energy in America; as we consider the science of efficiency, the effects of power generation on the environment, and the impact of energy supply on the economy and on national security, I believe we also need to remember some very fundamental things.

We need, for example, to pay acute attention to the effects that the decisions we make in Washington will have on the men and women, the families, and the communities back home who have, for generations, provided the natural energy resources that fuel America.

Today I am proud to introduce—along with my colleagues from West Virginia, Representatives ALAN B. MOLLOHAN and SHELLEY MOORE CAPITO—a resolution honoring America's miners.

The government has long recognized that it has an obligation to do all that it can to ensure that our coal miners have safe, healthy workplaces. But I contend that we also have an obligation to do all we can to ensure that our miners simply have work.

America has grown strong through the labor of coal miners. Their work has provided, light, warmth, and economic security for generations of growing American families. It has fueled the steel furnaces that built our great cities and our military might. And the labor of miners has made reality of the creative imaginings of America's most inventive minds.

These hard-working, selfless, earnest men and women, their livelihoods, their way of life, and the future of their families and their communities are at stake. Mining can be difficult, dangerous work, but mining is also a noble, honest profession, and miners and their families are proud of the work they do for America, as well they should be.

We can mine and use coal more safely, more cleanly, and more efficiently. And we will. Our future depends upon it.

So, Madam Speaker, I introduce this resolution to support the goals and ideals of a National Miner's Day that will commemorate the work and the sacrifice of miners past and present. But I do so, as well, as a demonstration of support for the jobs of miners future.

THE INTRODUCTION OF THE NATIVE HAWAIIAN HEALTH CARE IMPROVEMENT REAUTHORIZATION ACT OF 2009

HON. MAZIE K. HIRONO

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 4, 2009

Ms. HIRONO. Madam Speaker, I rise today to introduce the Native Hawaiian Health Care Improvement Reauthorization Act of 2009. This legislation is a companion to S. 76, which was introduced earlier this year by Senator DANIEL K. INOUE.

Native Hawaiians, like American Indians and Alaska Natives, are an indigenous, native people. The Native Hawaiian Health Care Act of 1988, 42 U.S.C. 11701 et seq., provided the authority for the establishment of a range of programs and services designed to improve the health care status of the native people of Hawaii. While Native Hawaiian health care programs have been continuously funded since 1988, they have not been reauthorized since 1992. The bill I introduce today will reauthorize the Native Hawaiian Health Care Act through 2014.

Native Hawaiians have the highest cancer mortality rates in the State of Hawaii—216.8 out of every 100,000 male residents and 191.6 out of every 100,000 female residents. These cancer rates are 21 percent higher than for the total state male population—179.0 out of every 100,000 residents—and 64 percent higher than that for the total state female population—117.0 per 100,000. With respect to breast cancer, Native Hawaiians have the highest mortality rates in the State of Hawaii and nationally Native Hawaiians have the third highest mortality rates.

The death rate from heart disease for Native Hawaiians is 68 percent higher than that for the entire population of the State of Hawaii. The death rate from hypertension is 84 percent higher and the death rate from stroke is 20 percent higher for Native Hawaiians than for the general population of the State of Hawaii.

Congress has previously recognized the unique and historical relationship between the United States and the indigenous people of Hawaii. I urge my colleagues continued support for the health and well-being of Native Hawaiians.

Mahalo (thank you).
