

On behalf of the citizens of the 1st Congressional District, I wish to express our gratitude to Rabbi Steven Foster and Senator Joyce Foster. Through their commitment to public service and social justice, they have made our community a better place. We look forward the continued involvement of this remarkable couple in our civic life. Please join me in commending these distinguished public servants.

HONORING MRS. DEBBIE SPERO
FOR RECEIVING THE JOHN
CAMPANIUS HOLM AWARD

HON. BART GORDON

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 19, 2009

Mr. GORDON of Tennessee. Madam Speaker, I rise today to honor Mrs. Debbie Spero, recipient of the 2009 John Campanius Holm Award.

Each year, the National Weather Service honors Cooperative Weather Observers with this prestigious award, named after John Holm. During the years 1644 and 1645, Holm recorded observations of the local weather twice a day, and he is the first known person to have kept these observations.

Since September 1, 1985, Debbie Spero has been involved with the NWS Cooperative Observer Program in Bethpage, Tennessee, reporting daily weather and precipitation data to the Army Corps of Engineers. Her reports are used to document the climate of Middle Tennessee and are also used by local NWS officials to verify forecasts, warnings and precipitation patterns.

Through her 24 year involvement, Debbie has been an incredibly reliable observer. Her observations are complete and in near real time. When she has been unable to make her observations because of illness or travel, she has enlisted help to ensure as few breaks in the record as possible.

In her spare time, Debbie is an active community member. As a Girl Scout leader for more than 14 years, her troop has helped serve underprivileged girls in the Bethpage area by meeting with them weekly. Debbie also works as a Youth Leader at Grace Baptist Church and has served as President of the Bethpage Parent Teacher Organization.

Each year, the John Campanius Holm award is given to only 25 Cooperative Observers from more than 11,000 in the program. The award is based on complete and accurate observations, outstanding enthusiasm for imparting observational knowledge, and civic involvement in the community. The award is only given to active observers of more than 20 years.

Debbie, thank you for your hard work and dedication in serving your community. I wish you all the best in the years to come.

CONGRATULATIONS TO PRESIDENT
HAMID KARZAI

HON. JOE WILSON

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 19, 2009

Mr. WILSON of South Carolina. Madam Speaker, as co-chairman of the Afghanistan

Caucus, I want to congratulate President Hamid Karzai on his inauguration for a second term in Afghanistan. In his speech, I am pleased President Karzai stated that he is committed to tackling corruption and restoring security in his nation.

I support the position of Secretary of State Hillary Clinton, who attended the inauguration, that President Karzai has his chance to "have accountability and tangible results that will improve the lives of the people." In my nine visits to Afghanistan, I have learned of the dedication of Defense Minister Abdul Raheem Wardak and Interior Minister Haneef Atmar. I know firsthand of the capabilities of the Afghan police and army units, who were trained by my former National Guard unit, the 218th Brigade led by Brigadier General Bob Livingston, 2007–2008, of the South Carolina Army National Guard.

It is vitally important that in order for Afghanistan to turn the corner, the U.S. must do everything promised to the people of Afghanistan to provide for a secure and stable society. We must grant the necessary resources with our NATO allies to President Karzai to get the job done.

I was grateful to learn last night at a dinner with Slovak Foreign Minister Miroslav Lajcak to commemorate the 20th anniversary of the Velvet Revolution that Slovakia is doubling its troop commitment in Afghanistan. Slovakia is a revered partner of America promoting freedom and democracy.

CONGRATULATING TURKEY AND
ARMENIA FOR THEIR STEPS
TOWARDS PEACE

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 19, 2009

Mr. BURTON of Indiana. Madam Speaker, last month in Zurich, Switzerland, with the strong support of the United States, the foreign ministers of Turkey and Armenia took an unprecedented step forward in their efforts to overcome decades of animosity and distrust between their two countries.

Almost before the ink was dry special interest groups in both countries and abroad who profit from the status quo were attacking the deal which means that there are still immense hurdles left before Turkey and Armenia full normalize diplomatic and bilateral relations. Nevertheless, the two protocols offering a "road map" signed on October 10, 2009, is the right course of action for both countries. The process is very fragile, but enjoys the support of the international community.

The protocols have been submitted to the Turkish and Armenian parliaments for debate and ratification. The stage is now set for the two parliaments to both deliberate the contents of and hopefully pass the protocols. It will not be an easy vote but the political, economic and international benefits for both sides are enormous; that is if Turks and Armenians are willing to take the chance for real peace; and willing to give up business as usual.

For years I have come to this Floor advocating that issues concerning Turkey and Armenia should be resolved at the negotiating table by the two countries in question. I urge my colleagues to strongly support this process.

INTRODUCTION OF THE CLEAN RE-
NEWABLE WATER SUPPLY BOND
ACT OF 2009

HON. XAVIER BECERRA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 19, 2009

Mr. BECERRA. Madam Speaker, I rise today to introduce the Clean Renewable Water Supply Bond Act of 2009 with Representative GINNY BROWN-WAITE. This legislation would authorize public water agencies to issue tax credit bonds as a financing vehicle for certain innovative new water supply technologies.

Drought, global climate change, population growth, and increased competition for urban, agricultural, and environmental needs have combined to create potential water shortages of crisis proportions in the decades ahead unless Congress acts quickly to invest in new, alternative water supply facilities.

Fresh water is a limited resource in high demand. Population growth continues to strain available and quickly diminishing water supplies, leading to a growing need for new investments in water supply and treatment facility projects. The U.S. General Accounting Office has stated that even under normal water conditions, 36 States anticipate water shortages in the next 10 years.

However, innovative technologies exist that can help provide new sources of clean water while helping to improve the environment. While the costs of these technologies continue to decline, the initial capital expenditures required to build their infrastructure is still too high to use conventional financing mechanisms. A deeper subsidy is needed and can be achieved through the use of tax credit bonds.

This legislation would authorize the use of tax credit bonds, Clean Renewable Water Supply bonds, or "CREWS", to finance certain kinds of innovative water supply facilities. These facilities include water-recycling facilities, projects to clean up and use impaired groundwater, and both seawater and brackish groundwater desalination projects. These CREWS bonds would be issued by public water agencies in exactly the same way as those agencies can presently issue conventional tax-exempt municipal bonds.

The proceeds from the sale of the bonds would result in an interest-free loan to the water agency. Instead of the agency having to make interest payments to the bondholders, as would be the case with conventional tax-exempt municipal bonds, the Federal Government would provide the bondholders with a tax credit equal to what the interest payments would have been. Under the proposal, the agency would save over \$60 million in interest payments on a \$100 million water supply project, which is the type of subsidy necessary to offset the upfront capital expenditure.

Working with Representative BROWN-WAITE, I hope this Congress moves with all due speed to consider and pass this vital legislation. Let me also take this opportunity to invite all of my colleagues to join me in sponsoring this bill that takes concrete action to address our nation's future water needs.
