

served as pilot, air operations officer, staff director, chief of staff, and commander of the Florida Air National Guard. In 1996, Brigadier General Burnett became the Assistant Adjunct General as well as Commander of the Florida Air National Guard.

On November 3, 2001, for the first time in the history of the Florida National Guard an Air National Guard officer was appointed The Adjunct General of Florida (TAG), overseeing 12,000 soldiers and airmen. As the new leader of all Guardsmen, MG Burnett, who was well versed in blue suit issues, immersed himself in soldier, or green suit, issues including the proper usage of the word hoorah. He studied basic infantry tactics, weaponry and other army equipment. His preparation paid off as he became a wartime TAG. General Burnett set the highest standards for excellence and then led by example to reach and surpass those goals. Using his personality, skill, resourcefulness and the ability to manage and juggle priorities to meet the support needs of the Guard and their families, General Burnett has upheld the highest traditions of the Florida National Guard. He became fluent in two languages—Army and Air Force—and understood that the crew chief on a flight line is as committed as the soldier crawling through the mud. His engaged leadership was the catalyst behind the Florida National Guard being positioned to not only respond to the Global War on Terror but maintain its state duties and react to 14 hurricanes, five firefighting seasons, major tornadoes, and border security missions. More than 11,000 Florida Guardsmen have served in combat zones around the world over the last nine years.

General Burnett worried that his Guardsmen, who were called to active duty, would not be as well equipped as the active duty military units. He worked with the Florida Congressional Delegation and as a result, his troops received both the training and the equipment they needed in battle. This “hands-on” General saw another problem—troops were being deployed not for six months but for longer periods of time. His citizen soldiers left jobs and higher paychecks for military compensation. Debts based on the higher pay still came due even when the service member was “doing his duty.” Families became frightened. So, General Burnett traveled the state explaining to families why their soldiers were serving and promising to support the families. He worked with the Florida Legislature to ensure that Florida offers the military, including Guardsmen, the best benefits of any state.

Under his watch, General Burnett made readiness the watch word of the Florida National Guard. He realized and stressed that you can't take a reserve force and put them on active duty capable of fulfilling the missions unless they are ready. His readiness mantra has served his soldiers and airmen well. The Florida National Guard has built a reputation that its members are not only ready to serve but capable of fulfilling its missions overseas as well as here in Florida.

This Saturday, June 26, 2010, Major General Douglas Burnett will retire after 47 years, four months and 12 days, setting a record as the longest serving Air Force officer. He will miss the people committed like he was to serving his country and state. Florida will miss his dedicated leadership and commitment to excellence.

And on behalf of the State of Florida and the 4th Congressional District, it is my privi-

lege to recognize the dedication, caring and leadership that makes Major General Douglas Burnett a leader among men and an outstanding Floridian.

FORMALDEHYDE STANDARDS FOR COMPOSITE WOOD PRODUCTS ACT

SPEECH OF

HON. BETTY SUTTON

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 23, 2010

Ms. SUTTON. Madam Speaker, I rise today in support for Formaldehyde Standards for Composite Wood Products Act (S. 1660).

And I'd like to commend my friend, Rep. MATSUI, for her leadership on this issue.

This bill will protect the health of American families from high uses of formaldehyde in common household products like flooring, paneling, cabinets, and doors.

Currently foreign manufacturers who use unsafe levels of harmful toxins like formaldehyde are able to undercut domestic manufacturers who put safety above profits.

When a family installs a new countertop or paneling, they expect that the wood products are harmless.

And we must ensure that is the case regardless of where the products are made.

Recently, the Economic Policy Institute published a report stating that 2.4 million American jobs have been lost since 2001 directly because of unfair trade tactics by China.

The report states that in the “wood products” segment, our trade deficit was a negative \$862 million in 2001.

By 2008, our trade deficit in “wood products” alone had more than doubled to \$1.8 billion.

This trade imbalance from unfair trade practices like using cheaper and often dangerous materials like formaldehyde has cost our nation millions of jobs and endangered American families.

Today, we can help to level the playing field for domestic manufacturers by taking action against unsafe amounts of formaldehyde.

Vote yes on Formaldehyde Standards for Composite Wood Products Act.
