

They want to cut the Office of Science by \$1.1 billion. Science and innovation. Where do the members of the Republican caucus think the jobs are going to be? And if you cannot get people to work, then you can't get them to pay taxes; and if you can't get them to pay taxes, then we're not going to lower the deficit. But still, they want to cut the Office of Science \$1.1 billion.

The Internal Revenue Service. They want to cut the Internal Revenue Service. Aren't those the guys who actually go get the money to deal with the budget deficit, Mr. Speaker? They want to cut the Internal Revenue Service \$593 million. They want to cut the people who actually go get the money to help fill the budgetary holes. That is absolutely not logical. They want to deal with the folks who go get—who don't pay, who don't pay their taxes. They want to get rid of the people who go get that revenue.

International Trade Administration. Now, our country could do much more in the area of exports. International Trade Administration helps to produce and promote exports. That's us selling things to foreigners which makes money for our country which helps us push down the deficit. They say cut it. They don't have a vision for growing our economy. They have a vision, a dark vision of just cutting it, reducing it, lowering it. They have a defensive view of America and not a bold courageous view of America.

The COPS program. The COPS program, community-oriented policing. They want to cut it \$600 million. How many of our Nation's brave members of law enforcement wearing those blue uniforms, protecting our streets all over this country are employed through a COPS grant? Quite a few. The Republican caucus says get rid of them.

What about NASA? Space exploration? So many important things come from space exploration, from satellites, all kinds of important things that we have learned here and get from NASA, \$379 million. Get rid of it.

The EPA, you would think we can keep the program that keeps us breathing clean air. Nope, got to get rid of those; and, you know, I can go right on down the line.

What about WIC: women, infants and children? WIC. A poor mom and her kids better figure out what they're going to do because the Republican caucus wants to cut \$758 million out of that program. That's just cold-hearted and mean right there.

And let's keep on marching down the list. HUD community development block grants which have helped cities all over this country apply funds to problems that are facing them and doing it on a flexible basis because it's not just for this program or for that you give the city block grant money. They decide how they apply those funds. Cut that \$530 million.

LIHEAP contingency fund. This is so people who live in cold northern States

can have some heat. Now you want to cut that program, so people can be in the cold? Literally in the cold and figuratively, too.

What about the Drinking Water State Revolving Fund? I actually am a big fan of clean drinking water, Mr. Speaker, and the Republican caucus wants to get rid of that one to the tune of \$250 million.

It goes on and it goes on and it goes on and on and on. Important programs that are literally powered by men and women who work for the Federal Government, tossed away and will result in the pain and injury to this very fragile economy.

You know, people listening to this broadcast tonight, Mr. Speaker, should know that if I am a public employee and somebody else works for a private employer and we both go to the local grocery store and buy groceries, the dollars spend the same way. You cut all these people out, you're going to cut consumer demand and you're going to send this economy back into recession.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. PLATTS (at the request of Mr. CANTOR) for today on account of attending a funeral.
