WASHINGTON, TUESDAY, MARCH 8, 2011

No. 34

Senate

The Senate met at 9:30 a.m. and was called to order by the Honorable JEFF MERKLEY, a Senator from the State of Oregon.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Almighty God, whose word has taught us to pray without ceasing, guide us to pray according to Your will. May our Senators pray not only in challenging times, or to ask for special blessings, but because they love You and desire to do Your will. Remind them that our Nation was born in the spirit of prayer and that the intercession of righteous people has helped America survive and prosper. Use their vibrant prayer life to make them kind but firm, compassionate but resolute, loyal but independent. May Your grace be sufficient for all their needs.

We pray in Your loving Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JEFF MERKLEY led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

GASOLINE PRICES

Mr. BARRASSO. Mr. President, I come to the floor of the Senate to discuss an issue that is critically facing the American people: It is the price of gasoline at the pump. It is something that, in my opinion, will impact our economy, impact the economic recovery we are all hoping will continue in this country. But with every penny the cost of gasoline goes up, it has been estimated it takes about a billion dollars away from the amount of money that can be spent on other things in this country and to growing the economy.

We are at a point where the American people, who have to balance their budgets every year—and States have to do it, of course. Washington doesn't do that, but the American people do. They

have to focus on their pocketbooks. When they are going to fill up with gas at the pump and are noticing that they are approaching a point where it is going to be \$100 to get a fill-up, they worry about the impact on the quality of their life, their ability to put food on the table for their children, and clothing on their children, and even have the money to get back and forth to work—those fortunate enough to have jobs.

One can say: Well, is it really a problem? I believe it is. I filled up yesterday morning in Casper. A young man in front of me at the filling station was filling up his pickup truck. He was watching the numbers go up and up. I filled up a week ago in Wyoming as well. We use a lot of gasoline in Wyoming. We travel long distances. I was filling up in the evening. I put my credit card in, and it stopped at \$75 because apparently they have to reset these pumps. One would think that with \$75 one would have enough money to fill up. But not as these gas prices continue to rise.

My concern is that so much of this money is being sent overseas to people who are trying to blow us up. We have an opportunity to be much more secure in our energy resources by developing our energy resources at home. It just seems that this administration's policies are making it that much harder.

One may say: How high can gasoline prices go? With the unrest in the Middle East, a front-page story a few days ago in USA TODAY said: "If unrest spreads, gas may hit \$5 a gallon"—\$5 a gallon by summer.

We need to do some things in this country that this administration has continued to block. We need to find more of our own energy, be reliant more on ourselves and less on foreign sources of energy. That means doing three things: exploring offshore, exploring on Federal land, and exploring in Alaska. We know there are huge reserves of oil, of energy in those locations. Yet day by day those efforts are
