□ 1106

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated against:

Mr. VAN HOLLEN. Mr. Speaker, on rollcall 294, I was unavoidably detained. Had I been present, I would have voted "no."

GENERAL LEAVE

Mr. HASTINGS of Washington. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the bill, H.R. 1230.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

RESTARTING AMERICAN
OFFSHORE LEASING NOW ACT

The SPEAKER pro tempore (Mr. SCALISE). Pursuant to House Resolution 245 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 1230.

□ 1106

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1230) to require the Secretary of the Interior to conduct certain offshore oil and gas lease sales, and for other purposes, with Mr. WOMACK in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Washington (Mr. HASTINGS) and the gentleman from Massachusetts (Mr. MARKEY) each will control 30 minutes.

The Chair recognizes the gentleman from Washington.

Mr. HASTINGS of Washington. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the national average price of gasoline has gone up 10 cents in just the last week, and is now about 1½ cents nationally from \$4 a gallon. By comparison, the price was \$1.84 a gallon when President Obama was sworn into office.

In my home district in Central Washington last week, I heard from farmers, the foundation of our region's economy, who are finding it harder and harder to pay these high energy prices. And I have no doubt that my col-

leagues from other parts of the country have heard similar stories from their constituents.

The pain being felt today has been exacerbated by the actions of this administration, this administration which, for the past 2 years, has repeatedly blocked, hindered, and raised the cost to access to our American energy resources.

The House Natural Resources Committee recently passed three bills, H.R. 1229, 1230, and 1231, with bipartisan support, all of which reverse specific actions taken by the Obama administration to block offshore energy production. These bills will increase American energy production. They will create jobs, and they will lower energy prices. These are the first of an array of bills that will be introduced by our committee as part of the American energy initiative that will focus on expanding renewable energy, onshore production, hydropower, coal, critical minerals, and address offshore drilling revenue sharing and other needed reforms.

Today we are debating H.R. 1230, the Restarting America Offshore Leasing Now Act. This bill requires the Secretary of the Interior to conduct oil and natural gas lease sales in the Gulf of Mexico and offshore Virginia that have been delayed or canceled by this administration.

□ 1110

The Virginia lease sale, for example, was scheduled to happen this year; but due to the Obama administration actions, the earliest this lease sale could occur is now 2017.

This bill will create thousands of jobs and, according to CBO, it will generate \$40 million in new revenue to the Federal Government over the next 10 years.

I will note that very soon after this bill passed out of committee, with bipartisan support, the Obama administration announced that it would move forward on one gulf lease sale. Prior to this sudden action, the Obama administration was on course to make 2011 the first year since 1958 that the Federal Government would not have held an offshore lease sale.

Squeezing one conveniently timed offshore lease sale does not undo the Obama administration's long track record of blocking and delaying American energy production. This bill that we are considering today is necessary to hold their feet to the fire and to ensure that these lease sales move forward.

Americans instinctively understand the pain inflicted by rising gasoline prices, but yet we continue to hear the same excuses on why we shouldn't act. And let me give you several examples.

My colleagues across the aisle will say that expanding drilling will do nothing to lower gasoline prices. The truth is, and this is the important part, it will send a strong signal to the world markets that the U.S. is serious about
