

from a time when suffrage was denied to whole classes of our population based on race, gender, religion, national origin, and property. Ex-felons who have been lawfully released from prisons have paid their debts to society. To continue denying them the ability to reclaim rights as citizens resurrects historic unenlightened practices of our society. Ultimately, I believe that we fail not only ex-offenders by denying them the right to vote, but the rest of a society that has struggled throughout its history to be legitimate and inclusive. Just like poll taxes and literacy tests, it is long past time that these restrictions be relegated to unenlightened history.

THE INTRODUCTION OF THE
DEREK M. HODGE VIRGIN IS-
LANDS IMPROVEMENT ACT OF
2011

HON. DONNA M. CHRISTENSEN

OF THE VIRGIN ISLANDS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 16, 2011

Mrs. CHRISTENSEN. Mr. Speaker, I rise today to introduce the Derek M. Hodge U.S. Virgin Islands Public-Private Investment Act. This legislation would create an innovative pilot program to leverage private pension assets to raise approximately \$250 million a year

dedicated to the infrastructure of the U.S. Virgin Islands, while simultaneously raising an additional \$500 million a year for the U.S. Treasury.

In short, the bill would allow taxpayers a onetime transfer of existing IRA, 401k, and other tax deferred investments—up to a total limit of \$50 billion—into a special fund with no tax or penalties at the time of the initial transfer. The transferred funds would receive "Roth" like treatment at retirement if taxes are paid as follows:

For the first ten years, a 1.5 percent tax would be collected by the U.S. Treasury and divided 1.0 percent to the U.S. Treasury and 0.5 percent to the Virgin Islands.

During the second ten years, a 1.0 percent tax would be divided equally between the U.S. Treasury and the Virgin Islands.

After twenty years, a 1 percent tax would be continually collected only for the benefit of the U.S. Treasury.

The tax funds allocated to the Virgin Islands would be deposited in an escrow account. The Department of Interior would approve the release of the escrowed funds to pay for projects set out under an approved reconstruction plan.

Under my bill, the Virgin Islands would receive a twenty-year dedicated source of revenue that would enable it to build a modern infrastructure to move the islands toward self-sufficiency and reduce unemployment.

Mr. Speaker, the Virgin Islands has neither the tax base nor will it receive sufficient federal assistance to make the necessary investments in basic infrastructure like water, sewer, storm-water, roads, telecommunications, and electric grid. The current infrastructure is not "hardened" against frequent tropic storms, and therefore must be repaired often—further exacerbating the unwillingness of the private sector to invest in basic industries on the islands. These investments would substantially mitigate the federal government's cost for rebuilding after tropical storms and are essential to job creation and providing basic services to the citizens of the Virgin Islands.

Mr. Speaker, the legislation I introduce today is named in honor of former Virgin Islands Lieutenant Governor and former President of the Legislature of the Virgin Islands, Derek M. Hodge, who recently passed away. Derek was the driving force behind this bill and he dedicated the last several years of his life towards its passage because of what it would mean for his beloved Virgin Islands. There would not be a more fitting tribute to his life's work than the enactment of this bill into law.

In these days of budget cuts and growing unwillingness to fund for essential infrastructure, my bill will ensure the necessary investment in the Virgin Islands through a wholly voluntary funding source—a win for the citizens of the U.S. Virgin Islands and the American taxpayers.
