

EXTENSIONS OF REMARKS

ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

SPEECH OF

HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 8, 2011

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2354) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2012, and for other purposes:

Mr. HONDA. Mr. Chair, the Energy and Water Development Appropriations bill is yet another glaring example of the flawed nature of the Republican budget. To try to meet their unrealistic goal of reducing the deficit solely through domestic non-defense discretionary spending cuts, Republicans are proposing to make crippling cuts to our national investment in improving energy efficiency and the development of renewable energy sources.

These cuts will only serve to make our Nation more dependent on the coal, oil, and gas interests that own the Republican Party and more dependent on importing our energy from insecure foreign sources. Meanwhile, our global competitors recognize that this is an area in which there are many gains to be made and they are investing heavily to develop their own renewable resources and promote domestic economic and job growth.

Investment in clean energy is much more cost effective than continued giveaways to the oil and gas industry—the Commerce Department has found that clean energy generates 17 jobs for every \$1 million spent on it, compared to just 5 jobs for every \$1 million we throw at an oil and gas industry that doesn't need subsidies but continues to fight for subsidies and tax breaks.

As a representative from Silicon Valley, I hear every day from the companies in and around my district about how renewable energy sources like solar, wind, fuel cells, and hydrokinetic are the wave of the future. To reach their full potential, these sources must be enabled by basic science underlying new energy technologies, by the development of advanced batteries for electricity storage and through improved energy efficiency across the board, through solid state lighting technologies, building technologies, and smarter electronic devices that know when to reduce their energy consumption.

These fields are where the jobs are—WIRED magazine asked the professional networking service LinkedIn to survey its members who have switched industries in the last 5 years, and what it found was that the growth in Renewables and the Environment was 56.8 percent, far more than any other. The Silicon Valley Leadership Group, an organization of influential high-tech CEOs, includes “greater deployment of clean energy and clean technology coupled with investments in energy ef-

iciency” in its federal policy agenda, because they know it “will contribute to this objective [energy independence] while generating hundreds of thousands of new, sustainable jobs here in the United States.”

Sadly, this Energy and Water Development Appropriations bill does not reflect these important priorities. Instead, it provides only \$1.3 billion for Energy Efficiency and Renewable Energy programs, 27 percent below the current funding level and 59 percent below the President's Budget Request. Funding is slashed for many activities: solar energy, 64 percent below the President's request; fuel efficient vehicle technologies, 57 percent below the President's request; building technologies, 68 percent below the President's request; biomass and bio-refinery research and development, 56 percent below the President's request; home weatherization assistance, nearly 90 percent below the President's request; and the Advanced Research Projects Agency—Energy, 82 percent below the President's request.

The unrealistic Republican budget has left us with an allocation for this bill that is too small for our Nation's needs, and too small to offer meaningful amendments to improve these woefully inadequate funding levels. To make matters worse, Republicans have been so driven by ideology that they required the chairman to include an offset in this bill for emergency spending to deal with recovery from the storms and flooding along the Mississippi River, an offset that would gut our national investment in High Speed Rail. This requirement marks yet another way in which this Energy and Water Development bill would take our Nation backwards, away from achieving a sustainable future.

We need to do better than this bill. We need to aggressively pursue clean energy while we still have control of the game, before it is too late and our climate has changed forever, we are running out of oil, and we are running out of time. Silicon Valley is ready to lead, we just need the rest of the Nation to join us. I oppose this bill because it fails our Nation.

HONORING LUPUS AND COMMUNITY EMPOWERING SUPPORT ORGANIZATION

HON. HENRY C. “HANK” JOHNSON, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 11, 2011

Mr. JOHNSON of Georgia. Mr. Speaker, I submit the following proclamation.

Whereas, In 2003, Ms. Kim Schofield founded the Lupus And Community Empowering Support organization better known as “LACES”; and

Whereas, LACES is an organization that continues to serve those who live with or are affected by the chronic autoimmune disorder lupus, by empowering patients, bringing attention to the disease, and leading the way to find a cure through research; and

Whereas, today LACES sponsors its 3rd Annual Ride 4 Lupus Motorcycle ride to raise awareness and funds to assist individuals living with lupus; and

Whereas, this unique organization has given of themselves tirelessly and unconditionally to advocate for our citizens and their families who battle lupus; and

Whereas, LACES continues to serve our county, state and country by being the sword and shield for those who live with lupus, encouraging better treatments, funding research and educating people about the disease to help heal families and strengthen our resolve to find a cure; and

Whereas, the U.S. Representative of the Fourth District of Georgia has set aside this day to honor and recognize LACES for their outstanding service to our District;

Now therefore, I, HENRY C. “HANK” JOHNSON, JR. do hereby proclaim July 9, 2011 as Lupus And Community Empowering Support Day in the 4th Congressional District.

Proclaimed, this 9th day of July, 2011.

HONORING EVA LYNN GANS

HON. STEVEN R. ROTHMAN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, July 11, 2011

Mr. ROTHMAN of New Jersey. Mr. Speaker, I rise today to honor my dear friend, Eva Lynn Gans, outgoing president of the Jewish Center of Teaneck and a dedicated leader of the Jewish community in northern New Jersey.

Throughout her tenure as president, Eva's inspired leadership and unwavering devotion has been instrumental in strengthening the Jewish Center of Teaneck and moving the synagogue toward a bright future. She has guided the center's transition from what was an independent traditional/conservative Jewish congregation to a fully Orthodox congregation, which puts the center in a great position to benefit from exciting new growth in the Teaneck community. With nearly 80 years of serving the community, the Center is Teaneck's first and oldest Jewish house of worship, and Eva is its first-ever female president. She is no stranger to this particular accomplishment, having also been the first woman to serve as president of the Endowment Foundation of the United Jewish Appeal (UJA) Federation of Bergen County and its successor organization, UJA Federation of Northern New Jersey; as well as the first female Campaign Chairman for the Bergen County Federation. Additionally, Ms. Gans has served as the Women's Division President of the United Jewish Communities (UJC) of Bergen County.

Eva Lynn Gans is a proven local leader, yet she also works to strengthen the Jewish community on the national level and abroad. She is a member of the Board of Trustees for the Jewish Federation of North America, as well as several national committees. She has traveled to Israel an impressive 26 times since
