Whereas nurse-managed health clinics are nonprofit community-based health care sites that offer primary care and wellness services based on the nursing model; and

Whereas the nursing model emphasizes the protection, promotion, and optimization of health, the prevention of illness, the alleviation of suffering, and the diagnosis and treatment of illness and illness; and

Whereas nurse-managed health clinics are led by advanced practice nurses and staffed by an interdisciplinary team of highly qualified health care professionals; and

Whereas nurse-managed health clinics offer a broad scope of services including treatment for acute and chronic illnesses, routine physical exams, immunizations for adults and children, disease screenings, health education, prenatal care, dental care, and drug and alcohol treatment; and

Whereas nurse-managed health clinics have a proven track record, as the first federally funded nurse-managed health clinic was created more than 35 years ago; whereas, as of June 2011, more than 250 nurse-managed health clinics provided care across the United States and recorded more than 2,000,000 client encounters annually; whereas nurse-managed health clinics serve a unique dual role as both health care safety net access points and health workforce development sites, given that the majority of nurse-managed health clinics are affiliated with schools of nursing and serve as clinical education sites for students entering the health profession; whereas nurse-managed health clinics strengthen the health care safety net by expanding access to primary care and chronic disease management services for vulnerable and medically underserved populations in diverse rural, urban, and suburban communities; whereas research has shown that nurse-managed health clinics experience high patient retention and patient satisfaction rates, and nurse-managed health clinic patients experience higher rates of generic medication fills and lower hospitalization rates when compared to similar safety net providers; and

Whereas the use of nurse-managed health clinics offering both primary care and wellness services will help meet this increased demand in a cost-effective manner: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week of October 2 through October 8, 2011, as "National Nurse-Managed Health Clinic Week";

(2) supports the ideals and goals of National Nurse-Managed Health Clinic Week; and

(3) encourages the expansion of nurse-managed health clinics so that nurse-managed health clinics may continue to serve as health care workforce development sites for the next generation of primary care providers.

Mr. INOUYE. Mr. President, today Senator Alexander and I rise to recognize over 250 Nurse-Managed Health Clinics in a Resolution designating the week of October 2, 2011, as National Nurse-Managed Health Clinic Week. Nurse-managed health clinics provide primary care and wellness services to a diverse population through all age groups and ethnicities. These clinics provide care to over two million patients in underserved or vulnerable areas across this country. Nurse-managed health clinics offer a full range of accessible and affordable health services, including primary care, health promotion, and disease prevention to low-income, as well as un-and under insured patients, regardless of their ability to pay. The care is primarily provided by nurse practitioners working in partnership with a multidisciplinary team of health professions including clinical nurse specialists, registered nurses, health educators, community outreach workers, health care students, and collaborating physicians. As recognized by the Institute of Medicine's "Future of Nursing" report, the nurse managed clinics play a critical role in community-based preventive health care and have done so since their inception three decades ago.

A Senate resolution will help pave the way for this effort. We ask our colleagues to join us in supporting this tribute to Nurse-Managed Health Clinics.
