

H.R. 2189 requires States to report to the Attorney General on quarterly basis information regarding the death of any person who is detained, arrested, en route to incarceration, or incarcerated in state or local facilities or a boot camp prison. To encourage compliance with this requirement States that fail to comply must pay a penalty. H.R. 2189 also requires the head of each Federal law enforcement agency to provide a report directly to the Attorney General. The Attorney General will then study the information and report on means by which it can be used to reduce the number of such deaths.

Summarily H.R. 2189 reauthorizes the Death in Custody Reporting Act. This legislation requires the submission of death statistics at the Federal, State and local levels. The legislation also provides for reductions of up to ten percent of Federal Byrne JAG grant funds at the discretion of the Attorney General, in the event of a State's non-compliance with the reporting requirements. H.R. 2189 also requires an accurate and complete study and report of information on deaths that occurred in custody. Further, H.R. 2189 does not authorize or require any additional spending.

For these reasons I support this legislation and firmly believe it can be used to advance our understanding of mortality in the criminal justice system, which will one day save a life. We must continue to protect persons who are in the custody of Federal, State, and local authorities. I urge my colleagues to lend their support to the bill.
