

Preparing our students for the 21st century workforce, I would argue, is absolutely critical. But it is also essential that we empower the unemployed to be retrained to pursue careers in the STEM field right back at home and across our country.

Back home, I'm working with the College of Lake County, which is working hard to provide STEM education to adults who are interested in preparing themselves for new careers. The College of Lake County will be hosting a STEM education day on Saturday, February 25. This is to motivate our young people about the importance of STEM education, and to especially focus on young women to learn more about careers in the fields of science and technology.

I am impressed with the work that the College of Lake County and other community colleges are doing to bridge the gap between industry and education. By teaming up with local employers, the College of Lake County is putting in place programs that can train the workforce and also help local manufacturers in need.

In the weeks to come, I'll be hosting a manufacturing and education summit at ETA/Cuisenaire in Vernon Hills. The goal of this summit is to find ways in which local industry can invest in local education so that our region has the resources and trained workforce it needs to expand and to invest in the manufacturing sector of our economy.

I will continue to work with Republicans, with Democrats on promoting this critical initiative of STEM education. This will not only help put people back to work, but will enable manufacturers to hire workers right here at home so that they can continue to grow and expand in our local communities.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 11 o'clock and 7 minutes a.m.), the House stood in recess.

□ 1200

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker at noon.

#### PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer:

We give You thanks, O God, for giving us another day.

There have been many prayers this day rising to You from those engaged in the political discourse of this Nation. We give You thanks for those who were able to gather at the National Prayer Breakfast and those across this land who joined their prayer intentions with the many who attended.

Bless the Members of this people's House now as they gather to do the legislative work they are called to do. May their prayers this day be authentic and heard by You, the living God.

May their work be fruitful and beneficial to those whom You favor, the poor. And may all they do be done in humility and charity, knowing that they are all earthen vessels through whom Your spirit might shine forth.

And finally, may all that is done this day be for Your greater honor and glory.

Amen.

#### THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Minnesota (Mr. ELLISON) come forward and lead the House in the Pledge of Allegiance.

Mr. ELLISON led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

#### YUCCA MOUNTAIN MUST RECEIVE PERMIT

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, the President's Blue Ribbon Commission, which was tasked with making recommendations for dealing with our country's nuclear waste, recently issued their findings. After conducting a 2-year study, the commission discovered that measures must be taken to deal with nuclear waste currently and interim storage at 121 sites across the country. The editorial response by the Aiken Standard to this anemic obvious conclusion is summarized by one word: "Duh."

We have known for decades that this waste must be properly dealt with and discarded in the proper setting. The scientific community has determined that Yucca Mountain is the ideal location for a safe national repository.

The President and the liberal-controlled Senate must quit playing political games and allow the Nuclear Regulatory Commission to finish analyzing the license permit. It's time to let science dictate policy, not politics.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

#### WILLIAM STREET POSTAL FACILITY

(Ms. HOCHUL asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HOCHUL. Mr. Speaker, I stand with my good colleague from western New York, Congressman BRIAN HIGGINS, united in opposition to the proposed elimination of the postal processing and distribution center in Buffalo and the 700 jobs of people that are currently employed there.

I understand the Postal Service has gone through some tough times. They need to make some hard decisions. Up in our neck of the woods, 700 jobs is a very big deal. That is 700 families making mortgage payments, 700 families making their car payments, and 700 families that haven't been able to make their tuition payments.

In addition to these individuals, businesses, seniors, and rural communities we represent would be adversely affected if this were to end. This would end the overnight delivery of first-class mail in the Buffalo region, impacting all the businesses that depend on this service. It would probably slow commerce, delay the delivery of medication to our seniors, and impair communications for rural families who don't have Internet access.

At a time when the Postal Service is struggling to retain business, they need to be creative and find new ways to garner more customers.

#### STOP ATTACKING COAL JOBS

(Mr. JOHNSON of Ohio asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. JOHNSON of Ohio. Mr. Speaker, President Obama's activist EPA is at it again. This destructive agency, in advancing the administration's war on coal, is forcing the closure of six coal-fired power plants in three States. Just a few weeks ago, it was announced that the Muskingum River Power Plant in my district would have to close and eliminate over 100 jobs because of burdensome EPA regulations.

President Obama's war on coal is nothing new. With just one proposed rewrite of one rule, President Obama is putting tens of thousands of direct and indirect coal-related jobs at risk. Just over a week ago, the President stood in this Chamber and told Americans that he wants to create jobs and grow the economy, but his policies do the exact opposite.

Hardworking taxpayers across America deserve better. They deserve effective leadership that moves us forward rather than holding us back. With over 14 million Americans out of work, we can't afford more of the same failed
