

should be on the floor of the House as we approach all of the excitement of graduation, when young people will be coming out of college doors, looking for the opportunity that America has always promised when they say we all are created equal.

I'll be going to a number of graduations. I know I will. You'll be speaking at graduations. What will you be saying to them? That America is a land of opportunity, yet we pound day after day after day after day, month after month, year after year on a bill that has been passed, signed into law and is being implemented, where physicians and researchers are saying thank you for the Affordable Care Act. For the items we have to fix, let's fix them together.

So I came to the floor to just say that I want to join the chorus of getting to work; I want to join the chorus of creating jobs. In fact, I want to join the chorus of putting our heads together and creating a summer youths' job program for the young people, high school students that are coming out in the middle of their high school years. We always used to be able to find work. No one cannot tell me that when we did it in 2009, the first year of President Obama's administration, it was a grand and exciting—it was not an experiment, but a grand and exciting response to all those young people who were in the high schools preparing to go to college.

Let me finish by saying this and just throw a little something on the table just to say that if we want to work, let's move toward immigration reform. That is another job creator and one that answers the questions of America's businesses. Let's do that. If we want to work—of course, I know I'll see a couple of my friend running out the door, but we can find sensible gun legislation. But I'll just say that if nothing else, can we get something that says store your guns?

Over the last weeks, we've been seeing people leave guns around and do this. So could you do that? Could you just have a simple—H.R. 65 says to hold people responsible for storing their guns.

I want to thank my friend for your leadership. It has been a persistent and pronounced leadership that I've been delighted to join you on. And I want to thank our leader, NANCY PELOSI, for her pointedness about can we get to work and her rising leadership, if you will, in the backdrop of the tenor that she had as Speaker to be able to get things done. And, of course, all the leadership, including the leading spokesperson for Make It in America, our friend, STENY HOYER, and I must mention all of our leaders, Mr. CLYBURN, Chairman BECERRA, and our vice chair in Mr. CROWLEY, along with our committee ranking members.

But our message has been that we can do all of the fussing; we can fix the IRS; we can talk about issues that are occurring with leaks. That's our job.

We understand that. But it is not our job to come back over and over again and revive a bill that is the law of the land not only by the vote of the United States Congress, but by the United States Supreme Court. What more do we need to answer that question?

So I hope to accomplish this in partnership with the gentleman. We're writing legislation, as well. Let me throw one other point in there. We joined in on some legislation about doing human exploration again. That creates jobs, as well. It builds the Orion that's on the books right now that is getting ready to be built. There are so many things we can do together bipartisan. And I want to thank the gentleman for his leadership.

Mr. GARAMENDI. SHEILA JACKSON LEE, thank you so very much. You are a leader in all of these issues. You've often and almost always present these issues to the American people on the floor of the House, and you do it with passion and knowledge.

There was an hour spent earlier by our colleagues about the 37th time that they're going to attempt to repeal the Affordable Health Care Act. It reminded me that they also have a piece of legislation to end Medicare as we know it. If you go back to when Medicare was put in place in the sixties, 1964, 1965, the Republican Party opposed it then and have often, through those years, to this date, attempted in various ways to eviscerate or to end it as we know it. Apparently they're going to try to do the same thing with the Affordable Health Care Act. It is such a waste of time because these programs are so fundamental to our ability to survive. This is health care for Americans and spreading that opportunity out.

It's a long discussion. We've had that discussion on the floor for many days. What we really ought to be focusing on is putting Americans back to work. This piece of legislation is one of about 30 pieces of legislation that's put in by the Democratic Caucus. This is mine. It deals with your tax money. It simply says that it's going to be spent on American-made clean energy, solar panels, wind turbines and the like. It's not a bad idea to spend your tax money on American-made equipment, American jobs, American businesses.

There's another bill that I have dealing with the transportation system. It's the same thing. That bill is now finding its way into the rewrite of the highway transportation program, the transportation bill; and hopefully it will be there. It's a very strong buy-American provision for our buses, our trains, our light rail, locomotives and steel and concrete for bridges.

We've got a lot of work to do in America. We've got a lot of work and a lot of need; and this House ought to be spending its time on that.

We'll take another night and we'll go into the tax policy side of this, which there is a lot to be said about changing our taxes to encourage manufacturing.

Some of that has been done. I'll leave the one example that 2 years ago when the Democrats controlled this House, we eliminated about \$12 billion of tax breaks that American companies received for shipping American jobs overseas. We put a stop to that. There's about another \$5 billion that needs to be done, but we no longer control this House. But we ought to bring those jobs back home. We ought to flip that over and give a tax break for reshoring, bringing the jobs back to America.

That's another night's discussion. We'll take that up in another evening. But for tonight, it's about putting Americans back to work. It's about focusing the attention of this Chamber, the 435 of us, on what we really need in this country, which is a very strong and growing economy.

We've seen progress every quarter since the beginning of 2010. Every quarter we've seen private sector employment grow. We're not where we ought to be. We have more work to do. And when we finally rebuild the American manufacturing sector, when once again we make it in America, Americans are going to make it.

Mr. Speaker, I yield back the balance of my time.
