

RECOGNIZING TERRY SANFORD
HIGH SCHOOL'S CENTENNIAL
GRADUATION

HON. RENEE L. ELLMERS

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 16, 2013

Mrs. ELLMERS. Mr. Speaker, I rise today to recognize Terry Sanford High School of Fayetteville, NC as they celebrate their centennial graduation on June 6, 2013.

Recognized by US News and World Report for receiving the Silver Medal in the annual list of America's Best High Schools in 2006, as well as being ranked one of the top 25 high schools in North Carolina this year, Terry Sanford is a shining example of a school preparing our students for the challenges of the 21st Century.

Terry Sanford offers fourteen different Advanced Placement courses as well as a variety of honors courses. In addition, Terry Sanford is home to the School of Global Studies which offers a rigorous, liberal arts college preparatory education in order to promote academic excellence, global awareness, and cultural and social growth.

I would like to congratulate Terry Sanford High School and its staff for 100 years of excellence and I commend them for their outstanding service in North Carolina education.

IMPORTANCE OF HOME
HEALTHCARE

HON. TODD C. YOUNG

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 16, 2013

Mr. YOUNG of Indiana. Mr. Speaker, I rise to address the value of home healthcare to the people of Indiana's Ninth Congressional District. In addition to being a preferred place for care for most eligible seniors, home health consistently offers seniors the lowest cost venue. In Indiana alone, over 61,000 Medicare beneficiaries receive home health services from more than 8,000 Hoosiers who provide their care. Home health services, properly regulated, need to be encouraged rather than discouraged, to fulfill their mission of quality care for America's seniors and greater value for our Medicare program.

I appreciate the home health care community's efforts to develop their own proposal to weed out bad actors in their industry. One proposal that might save money within Medicare would place reasonable per-provider limitations on 60-day episodes of home care. Such limitations aim to ensure beneficiary access to care and stop abusive billing practices that appear to exist in a small number of counties nationwide. MedPAC's March Report to Congress referenced 25 counties in the nation where a reasonable reduction in home care utilization with an episode limit could achieve up to \$1 billion in savings per year.

A reasonable but stable reimbursement environment is necessary for home care providers to continue accomplishing their mission. Since 2010, the home care industry has been subjected to nearly \$70 billion in reimbursement cuts, 21% of their total funding. I have said time and again that our Medicare system

needs broad reform to make it sustainable for future generations. We cannot continue to impose cut after cut on our providers and expect to fix the system without shifting more of the financial burden to our senior population or harming patient care. Working together to implement creative reforms like this, we will ensure that this valuable service continues to improve the lives of our seniors in their homes in Indiana and across the nation.

BLM PREVENTS JOB OPPORTUNITIES
IN THE CENTRAL VALLEY

HON. DAVID G. VALADAO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 16, 2013

Mr. VALADAO. Mr. Speaker, this month, the United States Bureau of Land Management indefinitely cancelled all oil and natural gas lease sales in California. This includes 1,278 acres of prime oil and natural gas land in Kern and Fresno counties located in my District—California 21.

This land is part of the Monterey Shale Formation located in the Central Valley. The Monterey Shale contains 2/3 of our country's shale oil reserves—the equivalent of 15.4 billion barrels. If tapped, it could generate half a million jobs and generate \$4.5 billion in revenue. This would have a significant impact on my district which has faced chronic unemployment for years.

However, citing sequestration, BLM is suspending all future lease sales in California. The decision was made despite the fact that these leases provide significant revenue for the federal government.

This is just another example of the Administration using sequestration to further their environmental policy agenda at the expense of American families. BLM's efforts to prevent energy development are depriving my constituents of quality jobs and increasing energy prices for hardworking families across the country.

It is unacceptable that BLM is halting lease auctions in regions that have been used for oil and gas development for over a century. These auctions generate revenue for the federal government, reduce our nation's dependency on foreign oil, and lead to direct economic benefits as well as local job creation.

Thousands in the Central Valley remain unemployed as the job-creating opportunities within lease sales remain untapped. If we took advantage of these employment opportunities, small businesses would have more customers and local government could direct more revenue dollars to public safety and education. Those of us in the Central Valley are proud of our energy and agriculture heritage.

It is time for Washington bureaucrats to get out of the way and let our valley flourish.

A TRIBUTE TO RECOGNIZE JULIUS
KNAPP AND EVAN KWEREL ON
RECEIVING PRESIDENTIAL RANK
AWARDS

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 16, 2013

Ms. ESHOO. Mr. Speaker, I rise today to recognize Julius Knapp and Evan Kwerel on receiving Presidential Rank Awards. Every year the President confers these prestigious awards to a select group of career senior executives with the designation of Distinguished Executive, and Meritorious Executive.

Last month, Julius Knapp, Chief of the Federal Communications Commission's (FCC) Office of Engineering and Technology and a dedicated agency employee for nearly 39 years, received the Distinguished Executive Presidential Rank Award. This award recognizes Julius for his ongoing work to unleash new technological innovation.

Evan Kwerel, the FCC's Senior Economic Advisor and a 30-year agency employee, received the Meritorious Executive Presidential Rank Award. As the "father of FCC spectrum auctions," Evan was recognized for his keen economic analysis that has made an extraordinary impact on modern communications policy.

Mr. Speaker, I ask the entire House to join me in congratulating Julius Knapp and Evan Kwerel on receiving these very special awards and for their dedicated years of service to the Federal Communications Commission and to the people of our nation whom they have served in an exemplary fashion.

IN RECOGNITION OF LILLIAN
KAFKA

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 16, 2013

Mr. KEATING. Mr. Speaker, I rise today to recognize Lillian Kafka as she celebrates her ninetieth birthday this month.

Ms. Kafka, or "Libby" as she is referred to by her many friends, was born on May 18, 1923, to Louis and Mae Dubinsky of Sharon, Massachusetts. The Dubinsky family owned Sunset Lodge, a popular summer resort hotel on the idyllic shore of Lake Massapoag in Sharon. Ms. Kafka, along with her siblings Aaron and Edith, would often help their parents with the daily tasks of the family business. Upon the passing of Louis, the Dubinsky children helped their mother even more with running the hotel until it was sold to the Archdiocese of Boston several years later.

On June 18, 1944, Ms. Kafka celebrated her wedding to husband Milton Kafka at the Sunset Lodge, and the two remained happily married until Milton's passing in 2006. The Kafkas welcomed five children into their family: Louis, Millie, Benjamin, Kenneth, and Hirsh. Ms. Kafka has seen her family grow exponentially over the years, and is now the proud grandmother of twelve and great-grandmother of seventeen.

Today, Ms. Kafka stays quite active with her large family, and spends much time in particular with her great-grandchildren, who lovingly refer to her as "G.G." When she is not
