

Madam Speaker, I rise today to recognize a truly exceptional Hoosier company and a great friend in Langham Logistics and its President, Cathy Langham.

Today, Langham Logistics will be celebrating their 25th anniversary. Langham Logistics was founded by two sisters, Cathy and Margaret Langham who took the risk of starting a transportation company. Cathy and Margaret literally built Langham from the ground up—starting in a small office space and now operating a 300,000 square foot state-of-the-art warehouse that operates and advises supply chains from the smallest of companies to multibillion dollar corporations throughout the world. Their story is not unlike so many people in this country who dared to dream and then succeeded beyond, even their own, wildest dreams.

Their customers are not the only ones who have noticed their hard work and success. In 2003, then President George W. Bush visited Langham Logistics to highlight them as a model startup business that succeeded and was continuing to expand at an amazing rate. It was at that event that I first met Cathy Langham.

Not only has Cathy and her family built this amazing operation, but they did it the right way. They gave back and continue to give back every chance they can along the way. I could list all of the numerous charities and causes that Cathy, her team, and her family support, but it is not in Cathy's nature to promote her good work.

But one story, that I find remarkable and worth noting here today is that of Cathy's role in the Indianapolis 2012 Super Bowl Host Committee.

While most of us would jump at the chance to highlight Indiana and plan the Super Bowl, Cathy did something quite different with the opportunity. She, along with her friends, launched Indy's Super Cure to benefit the Komen for the Cure Tissue Bank at the Indiana University Simon Cancer Center and to help women who are facing breast cancer.

While many of us would have been distracted, focusing on the Super Bowl, Cathy and her friends made sure to use the event to give back to the community. And Mr. Speaker, honestly, I cannot think of any better example to describe who Cathy is to a stranger, to my colleagues, or to the friends that will gather later today to celebrate this occasion.

On behalf of 4th District Hoosiers, I say congratulations to Cathy and Langham Logistics. May you have another 25 years like the last 25.

NATIONAL SUICIDE PREVENTION WEEK

(Ms. ESTY asked and was given permission to address the House for 1 minute.)

Ms. ESTY. Madam Speaker, this week is National Suicide Prevention Week.

More than 38,000 Americans die by suicide every year, 90 percent of whom have at least one treatable mental illness.

Veterans account for 20 percent of suicides in this country, and military suicide is at an all-time high. The July 2012 cover of Time Magazine described the tragedy of military suicide with a

simple headline: One a Day. One year later, these rates have remained largely unchanged, and we owe far better to those who have worn or do wear the uniform.

Earlier this summer, I added an amendment to Defense appropriations to add \$10 million for military suicide awareness and prevention. It is our responsibility to care for our troops and for our veterans, and more work needs to be done.

During National Suicide Prevention Week, let us commit to ensuring that every American has access to treatment.

LNG EXPORT CAUCUS

(Mr. FARENTHOLD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FARENTHOLD. Madam Speaker, America has a lot of clean-burning natural gas.

The Eagle Ford Shale, in the district I represent, has created 400,000 jobs and roughly \$2.6 billion in salaries and benefits in the 13-county area. Similar booms are happening in other parts of the country like North Dakota and Pennsylvania.

Our domestic energy creates widespread economic prosperity and will continue if we don't ruin it with overregulation and red tape.

Exporting some of America's huge supply of natural gas will create tens of thousands more jobs, narrow our trade deficit by billions, and help both our allies in need like Japan and the environment. When you factor in transportation costs, gas here at home will always be cheaper.

The DOE recently conditionally approved additional LNG export licenses, but there's still a lot of red tape to wade through before these properties open. I worry these contingent licenses artificially overstate the potential for future LNG exports, and the lengths of time these approvals take risks our competitive and economic advantage over Middle Eastern countries.

I, along with three of my colleagues, JIM COSTA, JOE BARTON, and FILEMON VELA, created the LNG Export Caucus to help the development and timely export of LNG and encourage a rational regulatory environment that ensures the production and export of LNG, creating jobs, helping the economy, and cleaning the environment.

PARTNERING FOR ILLINOIS' ECONOMIC FUTURE

(Mrs. BUSTOS asked and was given permission to address the House for 1 minute.)

Mrs. BUSTOS. Madam Speaker, I rise today to talk about the most pressing issues facing my region of Illinois, and that's creating good-paying jobs and growing the economy. That's why, last month, I launched Partnering for Illinois' Economic Future. The goal of

this initiative is to bring together regional leaders from across economic sectors—from business, educational institutions, and community organizations.

We gathered to discuss ways to increase collaboration, to create jobs and bolster the region's economy and manufacturing sectors. We held regional meetings in Rockford, Peoria, and the Quad Cities in conjunction with the University of Illinois. We will also be holding a District-wide economic summit later this fall.

Before we do this, I want to hear directly from the hardworking people of my region to get their thoughts on how best to create economic opportunity for all. The insight and input from my constituents, combined with the information we collected from the regional meetings, will help us develop solutions that will benefit all of our communities.

THE SYRIAN CIVIL WAR AND U.S. INVOLVEMENT

(Mr. POE of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POE of Texas. Madam Speaker, the United States is considering sending missiles into Syria. Also, CIA-funded weapons have begun flowing to Syrian rebels.

The rebels are made up of the Free Syrian Army, al Qaeda, and others. It seems the Free Syrian Army is liberating areas, and al Qaeda comes in behind and imposes strict Islamic shari'a law in those territories. Al Qaeda is a terrorist group that is at war with the United States.

Richard Engel, with NBC, interviewed Abu Abdul Rahman, one of the thousands of al Qaeda fighters in Syria. In the interview, Engel asked Rahman this question:

The United States is considering launching military strikes against Syria. Would that help you?

Rahman replied:

We have a prayer: "Allah, please annihilate our enemies by other enemies." Assad is an enemy and America is an enemy. Let them fight.

Madam Speaker, in this civil war, why would we ever consider getting involved by launching missiles into Syria or arming the rebels, which include our enemy, al Qaeda?

And that's just the way it is.

IN HONOR OF MS. ALENE WASHINGTON

(Mr. VEASEY asked and was given permission to address the House for 1 minute.)

Mr. VEASEY. Madam Speaker, I rise today to honor Ms. Alene Washington from my hometown of Fort Worth, Texas. She is a recent recipient of the President's Award for Service for her dedication and service to Tarrant County senior adults.
