

What could really be seen as an outdated technology and something that a lot of people can't afford to assess, nor even make sense for them to use in short segments within the valley. Yes, it may make sense possibly if you had a fast train that could go all the way from San Francisco to L.A. and complete that.

One of the things brought up is that in order for the project to be technically legal, they would only have to send one train per day in each direction at full, nonstop length. They would have other trains perhaps that are making all these stops, stopping at every little burg along the way. That is not high-speed rail. That is glorified Amtrak, glorified local commuters. That is not the intent of voters or anybody on this measure, or for that funding which is scarce money these days in California. The huge problems we have in trying to get a budget done and move eventually towards the balance in our Federal budget, it isn't a priority that we should be doing.

So, Mr. Speaker, I just want to note that again Congressman DENHAM will be having a hearing tomorrow in his Transportation and Infrastructure subcommittee on rail that will be at 10 a.m. in Washington time, developing more on this situation. So I would invite you to participate, or watch that, and expose what really needs to happen with Federal funding as well as maybe perhaps the people in California have an opportunity to weigh in on Assemblyman Gorell's proposal to have this back on the ballot and maybe perhaps shift our scarce funds to other things.

With that, Mr. Speaker, I thank you for the time here tonight, and I yield back the balance of my time.

LEAVE OF ABSENCE
