

Dr. Lewis published widely in military and naval-related journals including "Military Affairs," the "U.S. Naval Institute Proceedings," "The Military Engineer," "Capitol Studies," "U.S. Naval Institute Proceedings," "Military Engineer," "Dictionary of American History," "Encyclopedia of the United States Congress," and "Warship International." Editors of the latter publication honored his work in their annual "Best Articles of the Year" on three separate occasions.

In 1969 working for System Development Corporation of Santa Monica, CA, considered the world's first computer software company, Dr. Lewis co-authored "The Educational Information Center: An Introduction," a general guide to the process of establishing an educational information center.

Born to Siberian immigrants in Oakland, CA, November 30, 1928, Dr. Lewis attended the University of California at Berkeley (BA/MA) and the University of Oregon (PhD). While enrolled at the University of Oregon he studied with a grant from the National Institutes of Mental Health (NIMH). He became a tenured psychology professor in the Oregon University System for a half-dozen years. Dr. Lewis was among the first psychology professors to participate in the creation of the Oregon State Board of Psychologist Examiners, and the first Oregon professor to teach on campus through television.

Dr. Lewis had a life-long love of public spaces and actively worked to preserve parkland. On May 27, 1937 at age 8, he joined his parents and his brother Albert, now deceased, in walking across the Golden Gate Bridge on opening day. He donated specimens unearthed at forts to national and state parks, including Fort Stevens at the mouth of the Columbia River in Oregon.

To honor his father, Jacob A. Lewis, Dr. Lewis donated ten acres to the city of Hayward, CA—the "J.A. Lewis Park" is now part of the Hayward (CA) Area Recreation and Park District. The elder Lewis had donated the same land area—ten acres—in San Francisco to build Congregation Ner Tamid.

In 1965, Dr. Lewis prepared "A History of San Francisco Harbor Defense Installations: Forts Baker, Barry, Cronkhite, and Funston" for the State of California Division of Beaches and Parks. This work, which evolved into Dr. Lewis' later book on coastal fortification, was instrumental in the formation of the Golden Gate National Recreation Area (GGNRA) in 1972. In 1971 Dr. Lewis was called to testify before a subcommittee of the House Interior Committee during hearings on creating the GGNRA.

Dr. Lewis was well-known to House Members and especially staff who sought his help in researching issues before the Congress. He was regarded as a friendly curmudgeon who could be relied on to quickly locate helpful historical information. The time he saved those staffers, however, was all too frequently consumed in conversation about whatever matter Dr. Lewis happened to be engaged in researching at the time.

His curiosity and love of learning spanned a wide range of interests. Those interests were manifested in his personal collection authentic African spears, including several purchased in Umhlanga, South Africa, which were used in the 1879 Anglo-Zulu War; the muzzle of a 16-inch gun from the USS Indiana now on display at the Navy Museum in Washington, D.C.; a

1954 MG which was best of show in the 25th Anniversary of the "Concours d'Elegance" June 29, 1997 in Forest Grove, Oregon; and Soviet Field Marshal memorabilia. Side interests included the study of California geography, and Native American tribes—the House Librarian was once called upon by Vice President Spiro Agnew for advice on the authentic pronunciation of tribal names.

It was fitting that the House Librarian—in the tradition of Jefferson—held thousands of books in his personal collection.

Ray's passions for travel and collecting items of interest came together when it came to trains. It's hard to know whether his collection of train models, especially those of the Southern Pacific Daylight, came from the time he spent riding the rails, but we know he loved traveling by train. His adventures included a cross-country excursion from Washington, DC to San Francisco, as well as passage on the Trans-Siberian Railway from Khabarovsk to Moscow. Along with his trips on the Canadian and Pacific Railways, Ray's rail experiences, like so much of his life, were full and adventurous.

For all his scholarly activities, Lewis took great pleasure in hanging out with some of the legendary cultural figures of his time—jazz greats Louis Armstrong and Dave Brubeck, as well as comedy giants Lenny Bruce and Mort Sahl at San Francisco's "Hungry i."

An engaging and enthusiastic raconteur, Lewis could entertain with stories of juicy irony from the day's news, or of his time playing slots with Frank Sinatra in Reno, Nevada when the singer was obtaining his divorce from Ava Gardner. His own performing exploits—he sang and played guitar—ended with producing musicals and comedies in graduate school.

Born with a rare cholesterol disorder, Dr. Lewis first entered NIH in 1964 as an inpatient, and was involved in the National Heart, Lung, and Blood Institutes' research protocols that led to the discovery of the statin drugs. Dr. Donald S. Fredrickson, named by President Gerald Ford to become head of the National Institutes in 1974, was Lewis's doctor; Lewis was a research patient in Dr. Fredrickson's 1967 paper describing the classification of lipoprotein abnormalities in five types. This became known as the "Frederick classification," later adopted as a standard by the World Health Organization in 1972.

A devoted atheist, Dr. Lewis became a minister in the Universal Life Church, Inc., in the 1960s—he liked to joke that he could marry you or bury you—your choice. In 1999, he experienced a lifetime thrill when he met the Dalai Lama at a dinner in Washington, D.C. The Lewises had recently visited Lhasa, Tibet and at the dinner presented the Dalai Lama with photographs of Norbulingka, the summer palace from which he escaped the Chinese in March 1959.

Ray Lewis, to the end of his life, digested life, welcomed life. Tennyson wrote, in his poem *Ulysses*: 'I am a part of all that I have met;/yet all experience is an arch which thro' gleams that untravell'd world whose margin fades/for ever and forever when I move./How dull it is to pause, to make an end,/to rust unburnish'd, not to shine in use!'

That was Ray Lewis's philosophy. He saw life as an ever-expanding opportunity to enrich himself and others with his intellect and his excitement for what could be done in this

House. His knowledge, his intellect, his humor, his engaging personality truly shined upon us all.

Ray was my friend. He was an American to be admired by us all, a good citizen, a great American, a man of the House. I join in expressing my sympathy to Eleanor, their son Joseph, and the extended Lewis family for their loss but also to all of us for our loss of a good and decent man who made such an extraordinary contribution to this country and to all who serve it in the People's House.

RECOGNIZING LT. COL. KENDALL LEMLEY

HON. STEVE CHABOT

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 28, 2014

Mr. CHABOT. Mr. Speaker, I would like to take a moment to recognize the distinguished service of a constituent of mine, Lt. Col. Kendall Lemley, USAF Reserve. Lt. Col. Lemley has announced his retirement from the position of Admissions Liaison Officer for the United States Air Force Academy after more than thirteen years of guiding and advising our best and brightest young men and women. I've had the pleasure of working with Lt. Col. Lemley at numerous academy information nights, held for students interested in attending a U.S. Service Academy. He was always prepared and enthusiastic about speaking with students interested in military service.

Lt. Col. Lemley is a 1992 graduate of the United States Air Force Academy where he earned his B.S. in Computer Science. He also holds Masters Degrees from the U.S. Air Force Institute of Technology and Central Michigan University. In the midst of a busy career as a computer officer in the Air Force and an IT manager in the private sector, he always set aside time to assist my office and my constituents in their scholastic pursuits. I cannot thank him enough for being such a strong advocate of our nation's military, and I wish him the best in his future endeavors.

RECOGNIZING AZERBAIJAN REPUBLIC DAY

HON. VIRGINIA FOXX

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 28, 2014

Ms. FOXX. Mr. Speaker, I invite my colleagues to join me today in recognizing the 96th Azerbaijan Republic Day.

Republic Day celebrates Azerbaijan's declaration of independence from the Russian Empire in 1918.

That hard-won independence, however, was short-lived as the new Democratic Republic of Azerbaijan was soon occupied by the Soviet Union. After the Soviet collapse in 1990, Azerbaijan regained its independence.

A valuable international ally, Azerbaijan was among the first nations offering unconditional support to the United States in the war against al Qaeda, providing a safe transit route to resupply our troops in Afghanistan.

Azerbaijan leads the Central Asian area in regional economic cooperation and is a key player in European energy security matters.

Mr. Speaker, I ask the House to join me in thanking the people of Azerbaijan for their friendship and in congratulating Azerbaijanis around the world on the anniversary of Republic Day.

HONORING THE AMERICAN HELLENIC EDUCATIONAL PROGRESSIVE ASSOCIATION RECEPTION

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 28, 2014

Mr. VISCLOSKY. Mr. Speaker, it is with great pleasure that I stand before you to recognize the American Hellenic Educational Progressive Association (AHEPA) as members come together for the annual AHEPA/Daughters of Penelope District #12 and #13 Convention, which will take place at Dynasty Banquets in Hammond, Indiana, from Friday, May 30 to Sunday, June 1, 2014.

The Order of AHEPA was founded on July 26, 1922, in Atlanta, Georgia, joining the NAACP and B'nai B'rith in a joint effort to end racism, bigotry and discrimination against all immigrants. AHEPA's mission is in accordance with the principles of ancient Greece, to promote civic responsibility, education, philanthropy, family, and individual excellence through community service. AHEPA is the largest American-based Greek heritage organization and is made up of over 500 chapters throughout North America.

The AHEPA organization has continuously and passionately supported many charitable organizations throughout the region and abroad. AHEPA has raised thousands of dollars for Greek relief programs, feeding hundreds of families and children in Greece. They support national efforts, including the Saint Baldrick's Foundation for children's cancer research, the National Hellenic Foundation, and the National Hellenic Museum, among many others. Through each chapter, AHEPA serves as an inspiration to local communities.

As a proud member of AHEPA Chapter 78, based in Merrillville, Indiana, I can attest to the tireless efforts our local chapters, which serve more people and raise more funding for charitable organizations than ever before. The many organizations throughout the region that have been assisted by the extraordinary generosity of local AHEPA chapters include the Ross Township Food Pantry, Boys and Girls Club, American Red Cross, Salvation Army, Meals on Wheels, Veterans Life Changing Services, and Rebuilding Together, among many others. One example of the tremendous contributions of AHEPA Chapter 78 is the completion of six apartment complexes in Merrillville, which provide accessible housing for senior citizens. Chapter members also give unselfishly of their time through volunteer efforts, delivering meals to the elderly and serving in local soup kitchens. For enthusiastically helping so many families, children, veterans, elderly, and those in need, the members of AHEPA are worthy of the highest praise.

I would also like to recognize my dear friend Sam Benjamin for his continued commitment to advancing AHEPA's mission as he assumes the role of District 12 Governor. Sam's exceptional leadership and dedication to philanthropic efforts will prove invaluable to chap-

ters throughout the district. In addition, I congratulate Matthew Kochevar who is completing his term as District 12 Governor. Matthew has dedicated his time and efforts to AHEPA. He is an outstanding public servant and has had a tremendous impact on many lives through his work with the organization.

Mr. Speaker, at this time, I ask that you and my other distinguished colleagues join me in honoring the American Hellenic Educational Progressive Association. For their remarkable leadership and commitment, as demonstrated through their service to so many in need throughout Northwest Indiana and across the nation, AHEPA's members are an inspiration to us all, and the organization, one to be emulated and admired.

HOWARD P. "BUCK" MCKEON NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2015

SPEECH OF

HON. ANN WAGNER

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 20, 2014

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 4435) to authorize appropriations for fiscal year 2015 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for such fiscal year, and for other purposes:

Mrs. WAGNER. Mr. Chair, I would like to thank Chairman MCKEON and the Members of the House Armed Services Committee for the Committee's work on the Fiscal Year 2015 National Defense Authorization Act. I support the final bill; it is crafted thoughtfully and carefully to reflect the needs of the warfighter while enjoying bipartisan support from this body. Its passage is a testament to the Committee's leadership and hard work to support our men and women in uniform.

I am particularly thankful for the support of the United States Navy's "unfunded priority" request of additional EA-18G Growlers. Early in the budget cycle, following the release of the Administration's Department of Defense budget, the Navy Chief of Naval Operations (CNO) Admiral Jonathan Greenert testified that there is a growing demand for electronic attack capabilities. Specifically, he requested 22 additional EA-18G Growlers above the President's Budget request to meet that demand.

The EA-18G Growler provides the Navy and all Department of Defense forces with the ability to control the entire electromagnetic spectrum, the only aircraft in the entire inventory with that capability. With warfare increasingly operating within the cyber, information and electronic domains, there is increasing importance in not just understanding, but dominating the electromagnetic spectrum. For this reason, CNO Greenert testified why he believes that the Growler is essential to the warfighter. From the Committee's work, we also understand that the Navy is undertaking further analysis this year to determine the final requirement for the airborne electronic attack (AEA) capability.

Without additional aircraft, the EA-18G Growler manufacturing line is likely to be shut-

tered before the Navy can fulfill its requirements for additional electronic attack. If this scenario is allowed to occur, the Department of Defense would also lose its ability to produce F/A-18E/F Super Hornet strike fighters, which are manufactured alongside the Growler in the same production line. Such a loss would affect our Nation's ability to surge strike fighters, meet increasing demand in electronic warfare, and provide competition in tactical aviation. The Growler program has been a model defense acquisition program, meeting all of its cost targets and delivering ahead of the Navy's schedule deadlines. Moreover, the F/A-18 and EA-18G production lines support 60,000 jobs, including 13,000 jobs in my home state of Missouri.

I am pleased that the Committee included support for 5 EA-18G Growlers above the President's Budget Request. While this overall increase will not meet the Navy's total unfunded priority, it demonstrates the Committee's position that the Growler is an essential resource that our Nation requires. Further, the Committee urged the Navy to take steps to keep the manufacturing line solvent until the Department can meet the basic needs of the warfighter in electronic attack. I will continue my work with the House Appropriations Committee to ensure that the Navy receives a sufficient number of Growlers to meet its emerging requirements and keep the manufacturing line open throughout Fiscal Year 2015.

My voice is not alone in trying to support the Navy unfunded priority for additional Growlers. The request has strong support across Congress, as evidenced by a letter circulated earlier in the year that collected 109 House signatures in support of the Growler. This is a strong showing for any program, and one that received significant bipartisan validation. That letter is attached at the conclusion of my remarks.

In closing, the Nation faces many challenges as we send our sons and daughters into harm's way to defend our freedom and liberty. The Committee's bill is always a statement about its judgment on how best to serve those warfighters. I am glad that they have made EA-18G Growlers a high priority, and I look forward to working with them over the course of Fiscal Year 2015.

Additionally, I have included a support letter for the EA-18G Growler that I authored with Representative LACY CLAY that is signed by 109 Members of Congress.

CONGRESS OF THE UNITED STATES,

Washington, DC, April 11, 2014.

Hon. HOWARD P. "BUCK" MCKEON,
Chairman, House Armed Services Committee,
Washington, DC.

Hon. ADAM SMITH,
Ranking Member, House Armed Services Committee,
Washington, DC.

Hon. RODNEY FRELINGHUYSEN,
Chairman, House Defense Appropriations Subcommittee,
Washington, DC.

Hon. PETER VISCLOSKY,
Ranking Member, House Defense Appropriations Subcommittee,
Washington, DC.

GENTLEMEN: It has come to our attention the Fiscal Year 2015 Budget Request of the President does not include funding for the United States Navy F/A-18 program, which includes the EA-18G Growler. If accepted by Congress, the result would be the premature end to this critical production line.

As you know, the EA-18G Growler is the Nation's only full spectrum airborne electronic attack (AEA) and protection aircraft. It provides this capability not just for the
