

this is such a vital and important benefit for this great Nation of ours.

At the end of the day, what has made our country great, going back to those first settlers who all gathered together to help one another raise their homes and their barns and plow and sow and reap the benefits of their fields, Americans have rallied to come together, rallied with one another from the time the Thirteen Colonies formed the Union to today of our 50 States. Our States are unique, our States all have special qualities, but the one quality that we all share is that we are Americans.

Social Security is America's program. It is what Roosevelt recognized, as did the Congresses back then, the importance of dealing in our system of entrepreneurialism and capitalism and risk taking, that that gives us an unbelievable strength in a global and world economy, but it has to be balanced off with the value and the notion that if you work hard and play by the rules that your Nation is there for you as well, and that you can't retire into poverty after working all your life, that some calamity or misfortune, a disability, a tragic death can't ruin you or your family because it is part of a larger family, the United States of America.

God bless you. God bless America. Thank you for listening to this presentation.

We have 56 original cosponsors of this bill, and we know all across this country, the more that we talk about this straightforward, commonsense, practical solution to Social Security, Americans are going to require that Congress steps up to the plate and meets its responsibility and obligation to make sure that no senior, no individual can retire into poverty, and the system that has worked so extraordinarily well for every American is there not only today and tomorrow, but well into the future without raising the national debt and only calling upon Americans to do what they have done traditionally: contribute to a program that guarantees a secure retirement and pension and benefits that they will reap throughout a lifetime.

I yield back the balance of my time.
