

in my hometown of Pierre, SD. After graduating from Pierre High School in 1948, Jim attended the South Dakota School of Mines and Technology, where he was the quarterback for the Miners when they won a championship in 1951.

After graduating from SDM&T in 1952, Jim decided law school was the best route for him, and this South Dakota boy moved to the big city to attend George Washington School of Law in Washington, DC. Like many hard-working South Dakotans, Jim worked his way through law school, starting his career operating the very same Senate elevators we take today in the U.S. Capitol.

Jim's work ethic caught the eye of many, and he eventually moved on to work for his home State Senator, Karl Mundt. Jim worked as a legislative assistant for Senator Mundt and went on to become minority counsel on the Senate Foreign Affairs Subcommittee on Intergovernmental Relations.

After his time working on Capitol Hill, Jim began a successful career in the banking sector until he was called back to government service, this time with the U.S. Treasury where he served as Deputy Undersecretary. In 1973, Jim became the first South Dakotan appointed as Comptroller of the Currency, an office created by President Abraham Lincoln in 1863.

Jim Smith served as Comptroller of the Currency under two Presidents and eventually left to rejoin the private sector in 1976. He went on to have a successful career partnering with another government relations professional to establish their own firm, which will continue to bear his name even after his retirement.

Jim Smith embodies the work ethic and attitude we are known for in our State. He has earned his place on the pages of South Dakota history books.

To Jim Smith and his wife of 37 years, Karen, I wish you the best on your retirement, and I thank you for your years of dedicated public service. Thank you for making South Dakota proud.●

#### ADDITIONAL STATEMENTS

##### TRIBUTE TO DR. CARL ZULAUF

● Mr. BROWN. Mr. President, I wish to honor today the distinguished career of Dr. Carl Zulauf on the occasion of his retirement from the faculty of the Ohio State University.

Raised on a farm himself, Carl's passion for agriculture began at an early age. His family's diversified farm raised livestock and crops. His connection to the land has remained a common thread throughout his life and career, and Carl hopes to use his retirement as an opportunity to refocus on his family's farm.

With the seeds of interest firmly planted, Carl pursued his education in what he knew best: agriculture. First, where he earned a degree in Agricul-

tural Economics at the Ohio State University and later at Stanford University where he obtained his PhD. Dr. Zulauf credits his upbringing on a farm as the foundation for his interest in strengthening our Nation's domestic farming and the special appreciation he has for the issues facing American farmers and the agricultural sector.

Since 1980, Carl had been a pillar of OSU's College of food, agricultural, and environmental sciences. The depth and breadth of his research portfolio is impressive and includes dozens of peer-reviewed journal articles and over 1,000 articles developed for broader public consumption. Not just a researcher, Carl is a dedicated educator. Thousands of students have benefited from his teaching, leadership, and mentoring. Carl served as academic adviser to more than 200 students. For over a decade, he has been a faculty adviser for Ohio State's SPHINX Senior Honorary—which each year pays tribute to 24 students who “embody the highest ideals of scholarship, leadership, camaraderie, citizenship, and service at The Ohio State University.” Additionally, he has helped organize programs with students to travel to China and the Czech Republic to study agriculture. As a professor, his interest in his students can be seen by the large number of farmers across my State that talk about their time in Dr. Zulauf's classroom. The dozens of accolades that have been awarded to him throughout his tenure at OSU serve as witness to his impact as both a teacher and scholar. Carl's many contributions are a reminder that the values of the SPHINX—service, camaraderie, leadership, and scholarship—are not solely the domain of OSU's students.

Beyond his exemplary work as a researcher and educator, Carl has been an engaged member of both Ohio's and the broader agriculture community. He has been a leader in the Ohio agribusiness community, taking part in a number of strategic planning committees. He continues to be a regular contributor to FarmDoc, a project of the University of Illinois at Urbana-Champaign, which serves as an online resource for farmers across the country.

He inspired many students in his work at OSU, and one cannot fully understand Ohio's agricultural sector without knowing the name Carl Zulauf. However, his most noteworthy contribution to agriculture in the United States must be his work on farm policy. In 1985, Carl joined Senator John Glenn's office to help with agriculture policy, an experience he described as eye-opening. With his academic background and experience growing up on a farm, Carl brought an informed and diverse perspective. Though he went back to teaching following his time in Washington, Carl's time in Senator Glenn's office left an indelible mark and would guide his work on agriculture policy in the decades to come.

One pivotal example of Carl's work on agriculture policy was for the 2008

farm bill with the development of the Average Crop Revenue Election, ACRE, program, which represented a novel approach to risk management for our Nation's farmers. Carl worked with my office in 2008, as well as the office of Senator DURBIN, to draft legislation that would become the ACRE program. ACRE was based on years of research and conversations with farmers and some of the best minds in our agriculture industry. My staff worked on ACRE which later became the ARC, Average Risk Coverage, program—legislation that I worked on with Senator THUNE and which we were able to include the 2014 farm bill. Over 90 percent of our Nation's corn and soybean farmers choose to enroll in the ARC program which will serve as a crucial safety net for farmers at risk of low yields and was the first revenue-based rather than fixed-price program. The overwhelming participation in these programs serves as validation of Carl's work and cements his reputation as a key architect of our Nation's food and farm policy. Carl's fingerprints will be on agriculture policy for many future iterations of the farm bill.

From his tenure as a motivating and engaging professor at OSU to the role and voice he continues to play in Ohio and across the Nation as a leading thinker on the future of our farm and food policy, Carl has served as a resource guide and mentor for many. Thousands of students have benefited from his teaching, and thousands of farmers will benefit from his work that has informed our Nation's agricultural policies. I wish him the best in his retirement and applaud his contributions to his profession and thank him for his service to America's farmers, his university, and our Nation.●

#### RECOGNIZING THE ROCKY MOUNTAIN RIFLE CLUB

● Mr. DAINES. Mr. President, I would like to recognize the Rocky Mountain Rifle Club, RMRC, for their efforts to support the Teton County 4-H Shooting Sports Air Rifle and Air Pistol clubs. I appreciate RMRC's efforts to honor Montana's strong hunting legacy and protect our Second Amendment rights.

There are currently 20 Montana kids enrolled in the Teton program. Three students are among the top 10 Montana shooters for their age groups: Berit Bedord, age 14; Ashley Pearson, age 13; and Luke Ostberg, age 12. These three have been the longest lasting members of the Teton club and have steadily earned top scores in State competitions.

The aim of the Teton County 4-H program is to introduce young Montanans to shooting with a focus on safety and the proper and ethical use of firearms. The shooting sports program is one of the most popular 4-H programs in the country, according to Brian Bedord, the coordinator for the Teton 4-H shooting program.

The Rocky Mounty Rifle Club has been a strong supporter of the Teton
