

This bill, which I strongly support, the Public Buildings Reform and Savings Act of 2016, may seem quite technical to those who have heard it described, but I do want to congratulate my friends, the chairman and the ranking member, for a bill that will have great substantive impact on the way that GSA does its business. I particularly appreciate the bipartisan way in which both of them have always performed. I also thank them both for accepting my amendments: one, in keeping with both this bill and the prior bill, for a new, federal footprint here, and a smaller Department of Energy; and then an amendment that is not related to any of this, for lactation space for visitors to Federal buildings.

I appreciate the acceptance of an amendment that allows the GSA to sell or exchange the Department of Energy Forrestal Complex that is right in the heart of The Mall area, at 1000 Independence Avenue, in accordance with the so-called Southwest Ecodistrict Plan, which means that all the appropriate planning has been done, given where this location is and how important it is to official Washington.

My amendment has two purposes. Because the DOE building is larger than necessary and results in wasteful spending, we now require a smaller footprint. It allows the Cotton Annex, close to the Department of Energy on The Mall, to be sold, and gives the GSA what a developer needs—that is what GSA is, a developer—the flexibility to develop this priceless land and assures that development will occur soon—GSA has to come back by June, and we are almost there—with a process for disposing of the Cotton Annex.

I want to thank both gentlemen for agreeing to my amendment that I call the “motherhood” bill. GSA already requires that employees be given lactation space, but we discovered that some employees at the Smithsonian were not getting it. When I called the Smithsonian, they immediately provided the regional space. It is not new space, only existing space for a mother to pump or to nurse a baby, if she is a Federal employee. I simply added visitors and guests to Federal facilities as those that can use this space.

The Nation’s capital is a tourist mecca, so there will be some nursing mothers.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. CARSON of Indiana. Mr. Speaker, I yield the gentlewoman an additional 3 minutes.

Ms. NORTON. Mr. Speaker, the benefits of breastfeeding are well documented. Children’s immune systems build up. Studies have shown that even risks of asthma, diabetes, and the like are reduced in breastfed babies. There are benefits also to nursing mothers as well. The risk of diabetes and cancer are reduced.

This bill isn’t very much related to the important substance of the underlying bill, but the relationship is clear

enough. I very much thank my two good friends for accepting these two amendments to the underlying bill. I strongly support the underlying bill this evening.

Mr. CARSON of Indiana. Mr. Speaker, I yield back the balance of my time.

Mr. BARLETTA. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. ZINKE). The question is on the motion offered by the gentleman from Pennsylvania (Mr. BARLETTA) that the House suspend the rules and pass the bill, H.R. 4487, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### REMEMBERING JUDGE EDMUND V. LUDWIG

(Mr. FITZPATRICK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FITZPATRICK. Mr. Speaker, tonight my constituents back home in Pennsylvania are gathering to remember and celebrate the life of a wonderful citizen. Judge Edmund V. Ludwig will be remembered for his contributions to the community and the courtroom, and for his leadership as a jurist, educator, mentor, and historian.

Judge Ludwig died on May 17, 2016, at the age of 87. He will also be remembered for his wit and wisdom. His legal accomplishments include leading the way to improve access to counsel for the poor, reformation of the juvenile system, and improvement to State services for the mentally ill.

Judge Ludwig founded many of these organizations and served on several of the boards. His well-known affinity for history led to the founding in 1955 of the Doylestown Historical Society, where he served as chairman until 2011.

The former judge of the Bucks County Court of Common Pleas was appointed in 1985 to the United States District Court by President Ronald Reagan. He was honored with the William J. Brennan Jr. Distinguished Jurist Award by the Philadelphia Bar Association in 2005.

Judge Ludwig’s life of service is imprinted in the history of Bucks County, Pennsylvania.

#### COMBATING THE ZIKA VIRUS

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON LEE. Mr. Speaker, it is certainly time for Congress to do its job.

Just last week we were briefed by the Centers for Disease Control regarding the Zika virus. Earlier today in my congressional district in Houston, one of the infectious disease specialists

called Houston and the Gulf region the epicenter of the Zika virus.

It is well known that treatment for any child that is infected will cost \$10 million. Frankly, the brain is literally destroyed by the virus. So the deformity is the fact that there is no brain functioning in these children.

This map indicates the whole Gulf region. That is clearly in the eye of the storm. This map indicates that Houston, among other big cities, is number one as it relates to the Zika virus.

So my call today is for us to fully fund the President’s emergency supplemental. This is a picture of the mosquito causing these impacts. We discussed today a task force, which I created in my district.

Finally, just to leave this information, this is the mosquito. Use DEET. This is a serious matter. We need full funding to combat the Zika virus and save lives.

#### COMMENDING PENN STATE

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, last Friday I visited Penn State University for their annual Energy Days program—focused efforts in research and education involving America’s energy sectors.

As many people from Pennsylvania know, the university was founded as one of our Nation’s first colleges of agricultural science. Now under the leadership of Penn State President Eric Barron, the university is taking strides to become known as the energy university.

Courses of study are already being offered that prepare students for careers in the Marcellus Shale industry, many of which offer a starting wage that can support a family.

I applaud the efforts of Penn State in striving to meet the needs of our energy sector, combining expertise in energy-related research, teaching, and service with contributions from leaders in the energy industries.

The new initiative will greatly expand efforts in energy policy, fossil fuels, renewable energy, systems and technology, and environmental impact. More importantly, those efforts will be expanded across the State at the university’s 24 campuses.

Our energy industries, such as coal, natural gas, and oil, are vital to the history, heritage, and future of Pennsylvania.

#### ISIS MURDERS CHRISTIAN GIRL

(Mr. POE of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POE of Texas. Mr. Speaker, last week, ISIS terrorists came to the house of a Christian family in Iraq to collect the religious tax imposed on all non-Muslims.
