EXPLANATORY STATEMENT SUBMITTED BY MR. FRELINGHUYSEN OF NEW JERSEY, CHAIRMAN OF THE HOUSE COMMITTEE ON APPROPRIATIONS, REGARDING THE HOUSE AMENDMENT TO THE SENATE AMENDMENTS ON H.R. 244

- Division E—Financial Services and General Government Appropriations Act, 2017
- Division F—Department of Homeland Security Appropriations Act, 2017

- Division M—Other Matters
- Division N—Honoring Investments in Recruiting and Employing American Military Veterans Act of 2017 (This is the original subject matter of H.R. 244.)

Section 1 of the Act is the short title of the bill.

Section 2 of the Act displays a table of contents.

Section 3 of the Act states that, unless expressly provided otherwise, any reference to “this Act” contained in any division shall be treated as referring only to the provisions of that division.

Section 4 of the Act states that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this legislation as if it were a joint explanatory statement of a committee of conference.

Section 5 of the Act provides a statement of appropriations.

Section 6 of the Act states that each amount designated by Congress as an emergency requirement is contingent on the President so designating all such emergency amounts and transmitting such designations to Congress. The section further states that each amount designated by Congress as being for Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) is contingent on the President so designating all such OCO/GWOT amounts and transmitting such designations to Congress. The provision is consistent with the requirements in the Budget Control Act of 2011.

Section 7 of the Act addresses possible technical scorekeeping differences for fiscal year 2017 between the Office of Management and Budget and the Congressional Budget Office.

Section 8 of the Act makes a technical correction to the long title of the Further Continuing and Security Assistance Appropriations Act, 2017.

The Act does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2017

CONGRESSIONAL DIRECTIVES

The explanatory statement is silent on provisions that were in both the House Report (H. Rpt. 114-531) and Senate Report (S. Rpt. 114-259) that remain unchanged by this agreement, except as noted in this explanatory statement.

The agreement restates that executive branch wishes cannot substitute for Congress’s own statements as to the best evidence of congressional intentions, which are the official reports of the Congress. The agreement further points out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: “Appropriations shall be ap-

plied only to the objects for which the appropriations were made except as otherwise provided by law.”

The House and Senate report language that is not changed by the explanatory statement is approved and indicates congressional intentions. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment of this Act, unless otherwise directed.

Hereafter, in division A of this statement, the term “the Committees” refers to the Committees on Appropriations of the House of Representatives and the Senate.

For the appropriations provided by this Act and previous Acts, the departments and agencies funded by this agreement are reminded that the Committees use the definitions for transfer, reprogramming, and program, project, and activity as defined by the Government Accountability Office (GAO) in GAO-04-261SP Appropriations Law—Vol. I and GAO-05-734SP Budget Glossary.

A transfer is the shifting of funds between appropriations. It applies to (1) transfers from one agency to another, (2) transfers from one account to another within the same agency, and (3) transfers to an interagency or intra-agency working fund. In each instance, statutory authority is required.

Reprogramming is the utilization of funds in an appropriation account for purposes other than those contemplated at the time of appropriation. It is the shifting of funds from one object to another within an appropriation.

A program, project, or activity (PPA) is an element within a budget account. PPAs are identified by reference to include the most specific level of budget items identified in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2017, accompanying Committee reports, explanatory statements, the Statement of Managers, and budget justifications. Program activity structures are intended to provide a meaningful representation of the operations financed by a specific budget account by project, activity, or organization.

For fiscal year 2017, the Committees continue to include bill language requiring advanced notification of certain agency actions. Notification will be required at least 15 days in advance of any action if (1) a major capital investment is modified; (2) an office is realigned or reorganized; and (3) activities are carried out that were not described in the budget request.

The agreement directs the Office of Budget and Program Analysis (OBPA) of the U.S. Department of Agriculture (USDA) to provide an organizational chart for each agency funded by this Act to the division and subdivision level, as appropriate, by June 1, 2017. The agreement also directs the Food and Drug Administration (FDA) and the Farm Credit Administration (FCA) to provide an organizational chart of each agency respectively to the division and subdivision level, as appropriate, by June 1, 2017.

Further, USDA and FDA should be mindful of Congressional authority to determine and set final funding levels for fiscal year 2018. Therefore, the agencies should not presuppose program funding outcomes and prematurely initiate action to redirect staffing prior to knowing final outcomes on fiscal year 2018 program funding. The agreement directs OBPA to provide the Committees with the number of staff years and employees on board for each agency funded by this Act on a quarterly basis.

The agreement includes the authority to spend \$8,608,000 to address expenses incurred at the National Finance Center resulting from the February 2017 tornado to ensure continuity of vital services at the existing location.

The agreement directs NIFA to study the recent infestation of oak mites and focus on suppression and eradication possibilities.

The U.S. cotton industry has experienced three years of market returns well below the cost of production without a viable safety net for producers under the current Farm Bill. Market projections for 2017 and subsequent years indicate an acute need for immediate relief and long-term program security. Within 60 days of the enactment of this Act, the Secretary is directed to issue a report detailing administrative options for financial relief and recommended legislative actions to provide the cotton industry with a viable safety net.

The Margin Protection Program for Dairy Producers, which was included in the Agricultural Act of 2014, was intended to provide a safety net for dairy producers in times of low margins. However, that program has not worked as anticipated, and dairy farmers have been hit with milk prices that have plummeted since 2014, as well as new challenges with our export markets. This has resulted in sharply reduced incomes and a significant number of dairy operations going out of business, and many more dairy producers who are struggling to keep their operations financially sound. Prompt congressional action is needed to fix the program so that it provides the support that was intended. The Secretary is encouraged to use all available methods and authorities, including the use of the Commodity Credit Corporation Charter Act, to provide immediate assistance to these producers until such time as a revised safety net program can be provided.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$946,212,000 for the Animal and Plant Health Inspection Service (APHIS), Salaries and Expenses.

The agreement includes a net increase of \$51,797,000 for high priority initiatives in order to protect the plant and animal resources of the Nation from pests and diseases. Nearly half of this increase is applied to the agency's request for \$24,000,000 in new funding for Emergency Preparedness and Response. This increase stemmed from the agency's experience with the 2015 outbreak of Highly Pathogenic Avian Influenza that cost taxpayers nearly \$1 billion. The agreement also provides increases within the total funding level of: \$2,518,000 for Animal Health and Technical Services; \$500,000 for the Equine, Cervid, and Small Ruminant Health Program; \$1,175,000 for the National Veterinary Stockpile; \$3,000,000 for the Veterinary Diagnostics program; \$7,000,000 for the Zoonotic Disease Management program; \$1,430,000 for the Agricultural Quarantine Inspection program; \$8,500,000 for the Specialty Crop Pests program; \$2,199,000 for the Wildlife Damage Management program; \$500,000 for the Agriculture Import-Export program; and, \$400,000 for Animal Welfare in order for APHIS to provide oversight of animal research at the Agricultural Research Service.

The agreement provides a one-time increase of \$1,000,000 for the Animal Health Technical Services program to conduct a pilot program for the study of the effectiveness in improving disease traceability, cost, and durability of Ultra High Frequency (UHF) Radio-frequency identification (RFID) back tags in comparison to the other types of animal identification methods currently used by the livestock industry within USDA's Animal Disease Traceability framework.

The agreement provides \$28,810,000 for the Animal Welfare program, an increase of \$400,000, and directs APHIS to continue its inspections of ARS facilities, to post its inspection reports online, and to provide copies of the reports to the Committees.

The agreement includes funding to collect additional data that will inform policy related to the appropriate antibiotic use in all settings across agriculture and clinical medicine. The agreement provides an increase of \$7,000,000 within Zoonotic Disease Management for on-farm surveillance, data collec-

tion, sampling, surveillance, and testing to enhance the understanding of on-farm levels of antibiotic use and the impact on antimicrobial resistance levels. The information collected should clearly delineate between antibiotics used for food-producing and companion animals. Further, to avoid duplication with existing programs like the National Antimicrobial Resistance Monitoring System, the agreement expects surveys regarding on-farm usage to be limited to collecting information about the antibiotics used and should not be utilized for other regulatory purposes.

The agreement includes no less than \$3,500,000 for cervid health activities. Within the funds provided, APHIS should give consideration to indemnity payments if warranted.

The agreement provides an increase of \$24,000,000 for emergency preparedness and response to establish a more robust agency framework for addressing animal and plant disease outbreaks. The Highly Pathogenic Avian Influenza outbreak of 2015 exposed a number of challenges facing the agency. Additional funds will allow APHIS to increase veterinarians and animal health technicians; health, safety and biosecurity officers; and develop resources and technologies for the early detection of foreign animal diseases and improved response options.

The agreement includes \$28,000,000 under Wildlife Damage Management for national rabies management, surveillance, and eradication efforts and \$2,000,000 for Wildlife Services education and training. The agreement also provides \$1,600,000 for combatting wildlife depredation to production aquaculture and an additional \$5,000,000 for increased feral swine surveillance.

The agreement remains concerned about the devastating impact citrus greening disease has had on our nation's citrus production. The agreement maintains increased funding for Huanglongbing Emergency Response within the Specialty Crop Pests line item and provides an additional \$5,500,000 to support the Huanglongbing Multi-Agency Coordination (HLB MAC) group. The agreement encourages APHIS to allocate sufficient resources to continue vital management, control, and associated activities to address citrus greening and to support priorities and strategies identified by the HLB MAC group.

The agreement provides funding for NAHLN through both APHIS and NIFA at approximately \$12,000,000 and \$4,300,000, respectively, for a total investment of \$16,300,000 for fiscal year 2017.

The agreement expects that USDA will not fully implement the final rule allowing the importation of lemons from Argentina until the Operational Work Plan ensures that Ar-

gentina can meet the same phytosanitary risk standards required by the other current countries importing citrus into the United States.

RISK MANAGEMENT AGENCY

SALARIES AND EXPENSES

The agreement provides \$74,829,000 for the Risk Management Agency (RMA), Salaries and Expenses.

The agreement supports the development of insurance products that recognize and cover livestock products such as milk as 'agricultural commodities' separately and distinctly from coverage developed for 'livestock.' The statute only refers to livestock and lists types of livestock in the definition (7 U.S.C. 1523(b)), but lists no livestock products. There is no indication that Congress intended for livestock products to fall under the limitation of livestock insurance policies

and this restriction has unnecessarily hindered the availability of policies for livestock products like milk. The agreement encourages RMA to present this reinterpretation to the Federal Crop Insurance Corporation board at the next scheduled meeting and develop additional policies for milk to provide dairy farmers with more robust risk management options before the end of the year.

However, the average monthly participation rate was 8.0 million for fiscal year 2015, and the average for fiscal year 2016 was 7.7 million.

The agreement is supportive of ensuring pregnant women are educated on the various methods for preventing exposure to the Zika virus during pregnancy. The agreement provides \$2,759,378,000 in new discretionary budget authority and \$1,895,711,000 in definite user fees for a total of \$4,655,089,000 for Food and Drug Administration (FDA), Salaries and Expenses. This total does not include permanent, indefinite user fees for the Mammography Quality Standards Act; Color Certification; Export Certification; Priority Review Vouchers Pediatric Disease; Food and Feed Recall; Food Reinspection; Voluntary Qualified Importer Program; the Third Party Auditor Program; Outsourcing Facility; and Medical Countermeasure Priority Review Vouchers. The agreement accepts \$13,516,000 in proposed administrative savings and expects FDA to continue all projects, activities, laboratories, and programs as included in fiscal year 2016 unless otherwise specified.

The agreement also includes a general provision providing \$10,000,000 for FDA to prevent, prepare for, and respond to emerging health threats, including the Ebola and Zika viruses, domestically and internationally and to develop necessary medical countermeasures and vaccines.

As part of the increases, the agreement provides an additional \$35,675,000 to support the implementation of the Food Safety Modernization Act (FSMA). Of this amount, \$18,672,000 is provided for the National Integrated Food Safety System and \$16,913,000 is provided for Import Safety. Funds for import safety should help FDA ensure an even playing field in the application of FSMA regulations as it relates to both domestic and imported producers, processors, and manufacturers of food and animal feed. The agreement notes that FSMA implementation places additional requirements on state governments and private stakeholders, and therefore urges the FDA to provide sufficient resources to State education and inspection programs to address these needs. The agree-

ment continues to require quarterly reports to the Committees with a breakdown on funding allocations, as well as projections for future needs.

The agreement provides an increase of \$10,911,000 for medical product safety initiatives including \$2,500,000 for efforts to support the Precision Medicine initiative. This increase should supplement efforts authorized in the 21st Century Cures Act. In addition, an increase of \$4,000,000 is provided for Pediatric Device Consortium Grants and postmarket activities within the Medical Device program. Lastly, the agreement provides an increase of \$4,411,000 for animal drug and medical device review activities. The agreement continues to include the fiscal year 2016 funding to evaluate over-the-counter sunscreen products.

The \$2,500,000 increase above the amount provided in fiscal year 2016 for foreign high-risk inspections will allow FDA's Office of the Global Regulatory Operations Policy to continue efforts to develop and utilize a targeted, risk-based, and efficient inspection model that incorporates commercially available information on high-risk establishments for onsite verifications. FDA is directed to provide the Committees with an update on these efforts, including estimated efficiencies and concerns, and plans to continue or expand this effort in the future.

Employees charged with implementing federal programs are expected to carry out their duties in a legal and ethical manner, free from conflicts of interest, without seeking private gain or advancing a private agenda, and without giving preferential treatment to any outside organization or individual. The agency is reminded of its responsibility to ensure that federal employees handle information, including information received from the employees, offices, or Committees of the Congress, in a professional and confidential manner according to the federal government's code of conduct, standards, regulations, and statutes.

The agreement strongly urges the FDA to continue to work with Congress to address the issues and concerns regarding the regulation of Laboratory Developed Tests.

The agreement provides \$6,000,000 for Pediatric Device Consortia Grants.

The agreement remains concerned with the draft MOU that the FDA proposed under Section 503A of the FDCA. Section 503A distinguishes between "distribution" and "dispensing" for the purposes of the MOU. In the DQSA, Congress only allowed the FDA to regulate "distribution." The MOU appears to exceed the authority granted in the statute by redefining "distribution" in a manner that includes dispensing. Congress did not intend to include dispensing of compounded drugs over state lines within the scope of the MOU. The MOU should not address dispensing of compounded drugs to a patient over state lines if all other requirements of 503A are met.

BUILDINGS AND FACILITIES

The agreement provides \$11,788,000 for the Food and Drug Administration Buildings and Facilities.

INDEPENDENT AGENCY

FARM CREDIT ADMINISTRATION

Report language included in House Report 114-605 (“the House report”) or Senate Report 114-239 (“the Senate report”) that is not changed by this explanatory statement or this Act is approved. The explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein. In cases where both the House report and the Senate report address a particular issue not specifically addressed in the explanatory statement, the House report and the Senate report should be read as consistent and are to be interpreted accordingly. In cases where the House report or the Senate report directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations (“the Committees”).

Each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying explanatory statement, and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to: funds provided in this Act; unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2017; and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2017. These procedures are specified in section 505 of this Act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project or activity cited in this statement, or in the House report or the Senate report and not changed by this Act or statement, shall be construed as the position of the Congress and shall not be subject to reductions or reprogramming without prior approval of the Committees. Further, any department or agency funded in this Act that plans a reduction-in-force shall notify the Committees by letter no later than 30 days in advance of the date of any such planned personnel action.

When a department or agency submits a reprogramming or transfer request to the Committees and does not receive identical responses, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the differences between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved. Departments and agencies shall not submit reprogramming notifications after July 1, 2017, except in extraordinary circumstances. Any such notification shall include a description of the extraordinary circumstances.

In compliance with section 533 of this Act, each department and agency funded in this Act shall submit spending plans, signed by the respective department or agency head, for the Committees’ review not later than 45 days after enactment of this Act.

As a modification to Senate report language, ATF is directed to expeditiously conduct the environmental contaminants and noise studies outlined in the fiscal year 2016 ATF National Center for Explosives Training and Research Report, and provide a timeline for completing these studies and reporting the findings to the Committees on Appropriations as part of the Department's spending plan.

TITLE III—SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

This Act includes \$5,555,000 for the Office of Science and Technology Policy.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

This Act includes \$19,653,300,000 for the National Aeronautics and Space Administration (NASA). The agreement clarifies that NASA shall continue to provide information to the GAO for its assessment of selected large-scale projects, to include any technology demonstration activities or communications and tracking services and related infrastructure refreshment activities, which have life cycle costs that exceed \$250,000,000. The agreement does not include House direction regarding Federally Funded Research and Development Centers. Instead, NASA is encouraged to increase and strengthen partnerships between the NASA Centers and academia.

Continuity.—Over the past decade, Congress has consistently reaffirmed through both funding and policy its commitment to a balanced NASA portfolio that enhances aeronautics and aerospace, enables breakthrough scientific discoveries, promotes the development of commercial spaceflight, and expands human and robotic exploration through missions only NASA can undertake. NASA's diverse portfolio cannot be undertaken efficiently, effectively, and safely during times of budgetary and policy uncertainty. Maintaining an appropriate funding plan to achieve mission goals is crucial to avoid needless delays and unnecessary additional costs.

SCIENCE

This Act includes \$5,764,900,000 for Science. *Earth Science.*—This Act includes \$1,921,000,000 for Earth Science. In lieu of

House language regarding prioritization, the agreement includes \$90,000,000 for the Pre-Aerosol, Clouds, and Ocean Ecosystem mission and \$130,900,000 for LandSat-9.

Planetary Science.—This Act includes \$1,846,000,000 for Planetary Science. Of this amount, \$363,000,000 is for Outer Planets, of which \$275,000,000 is for the Europa mission

as outlined by the House. Senate language regarding an analysis of options regarding Europa is not included. The agreement also provides \$284,700,000 for Planetary Research, including \$60,000,000 for Near Earth Object Observations as directed by the Senate; \$224,800,000 is for Discovery; \$136,500,000 is for New Frontiers; and \$190,000,000 is for Technology. Also included is \$647,000,000 for Mars, including \$408,000,000 for the Mars 2020 mission as directed by the House. The agreement adopts House language regarding a Mars helicopter technology demonstration but directs that if this activity will delay the overall Mars 2020 mission, that it not be included as part of Mars 2020.

Astrophysics.—This Act includes \$750,000,000 for Astrophysics. Given the restrained funding in this agreement for Astrophysics, the agreement supports continued appropriate low level exoplanet technology development for a starshade. The recommendation also includes \$105,000,000 for the Wide-Field Infrared Survey Telescope (WFIRST) and retains Senate language regarding a cost cap for this mission and includes up to \$5,000,000 as directed by the Senate for segmented aperture telescope activities. The agreement also provides \$85,200,000 for the Stratospheric Observatory for Infrared Astronomy and \$98,300,000 for the Hubble Space Telescope.

James Webb Space Telescope (JWST).—This Act includes \$569,400,000 for JWST.

Heliophysics.—This Act includes \$678,500,000 for Heliophysics. In lieu of Senate language on the Diversify, Realize, Integrate, Venture, Educate initiative, the agreement supports continued implementation of this program.

Education and Public Outreach (EPO).—The recommendation includes \$37,000,000 for STEM education programs, to be derived equally from Planetary Science and Astrophysics. This activity shall continue to be administered by the Astrophysics Division.

AERONAUTICS

This Act includes \$660,000,000 for Aeronautics. Within these amounts, up to \$169,400,000 is provided for the Airspace Operations and Safety Program as described by the House.

SPACE TECHNOLOGY

This Act includes \$686,500,000 for Space Technology. Within this amount, \$35,000,000 is for nuclear propulsion; \$30,000,000 is for small launch capabilities; \$25,000,000 is for additive manufacturing; \$25,718,000 is for optical communications; and \$66,600,000 is for solar electric propulsion activities.

EXPLORATION

Exploration.—This Act includes \$4,324,000,000 for Exploration. The agreement directs NASA to continue advanced propulsion; asteroid deflection; and grappling technologies associated with the asteroid redirect mission but that these activities should not distract from the overarching goal of sending humans to Mars. The agreement provides up to \$75,000,000 for habitation augmentation activities to support human exploration beyond low Earth orbit.

SPACE OPERATIONS

Space Operations.—This Act provides \$4,950,700,000 for Space Operations. The agreement clarifies House language regarding the International Space Station and that efforts should focus on maintaining a U.S. presence in low Earth orbit in order to continue research in a microgravity environment. The recommendation includes up to \$20,000,000 for 21st Century Space Launch Complex program activities and provides that no less than half of 21st Century Space Launch Complex funding shall be for the Wallops Flight Facility as described in the Senate report.

Commercial Crew.—This Act provides up to \$1,184,800,000 for NASA's Commercial Crew

program. The Committees are aware that Commercial Crew milestones have slipped and that concerns have been raised with respect to safety and appropriate NASA oversight. The Committees emphasize and underscore House and Senate language regarding human spaceflight safety and direct NASA to notify the Committees if safety concerns are not addressed as directed by NASA.

Commercial Cargo.—The agreement provides up to the requested amount of \$1,028,000,000 to fund domestic cargo resupply flights. Over the past year, both providers under their CRS-1 contracts have returned to flight after experiencing the loss of vehicles and NASA payloads. Despite the successful resumption of cargo flights, NASA has chosen to rely on proven vehicles for delivery of valuable or unique cargo. As regular cargo flights are resumed, NASA is encouraged to continue flights from facilities where NASA has invested significant resources to enable commercial cargo flights.

Space shuttle closeout costs.—This Act does not include funds for space shuttle closeout costs. The Committees understand that NASA has reached an agreement on amounts necessary for closure of contracts related to the former space shuttle program and has determined that no additional costs will be charged to the government after September 30, 2016, and that no additional funds will be required in fiscal year 2017 and beyond.

EDUCATION

This Act includes \$100,000,000 for Education, including \$18,000,000 for the Experimental Program to Stimulate Competitive Research; \$40,000,000 for Space Grant; \$32,000,000 for the Minority University Research and Education Project; and \$10,000,000 for STEM Education and Accountability Projects.

SAFETY, SECURITY AND MISSION SERVICES

This Act includes \$2,768,600,000 for Safety, Security and Mission Services, including \$39,100,000 for Independent Verification and Validation services as directed by the Senate. Given infrastructure revitalization language included in Public Law 115–10, the *National Aeronautics and Space Administration Transition Authorization Act of 2017*, the agreement does not include House language regarding a facilities revitalization plan. The agreement adopts Senate language regarding cybersecurity, strong governance, and information security and provides no less than the fiscal year 2016 level for these activities. The agreement acknowledges that recoveries of prior year obligations are available in this account.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

This Act includes \$360,700,000 for Construction and Environmental Compliance and Restoration.

NATIONAL SCIENCE FOUNDATION

This Act includes \$7,472,215,000 for the National Science Foundation (NSF).

RESEARCH AND RELATED ACTIVITIES

Section 503 provides that the expenditure of any appropriation contained in this Act for any consulting service through procurement contracts shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law or existing Executive order issued pursuant to existing law.

Section 504 provides that if any provision of this Act or the application of such provision to any person or circumstance shall be held invalid, the remainder of this Act and the application of other provisions shall not be affected.

Section 506 provides that if it is determined that any person intentionally affixes a "Made in America" label to any product that was not made in America that person shall not be eligible to receive any contract or subcontract with funds made available in this Act. DIVISION C—DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2017

The following is an explanation of the effects of this Act, which makes appropriations for the Department of Defense for fiscal year 2017. Unless otherwise noted, references to the House and Senate reports are to House Report 114-577 and Senate Report 114-263, respectively. The language contained in the House and Senate reports warrant full compliance and carry the same weight as language included in this explanatory statement unless specifically addressed to the contrary in the bill or this explanatory statement. While repeating some language from the House or Senate reports for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119), and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2017, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action.

The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget request for fiscal year 2018, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and the “O-1” which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2018.

REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). For operation and maintenance accounts, the Secretary of Defense shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008. The dollar threshold for reprogramming funds shall remain at \$10,000,000 for military personnel; \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Depart-

ment shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M-1), an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

BUDGET LIAISON SUPPORT TO THE HOUSE AND SENATE DEFENSE APPROPRIATIONS SUBCOMMITTEES

The House and Senate Defense Appropriations Subcommittees rely heavily on offices within the Comptroller organizations of the military departments and the Office of the Secretary of Defense to conduct their oversight responsibilities and make funding recommendations for the Department of Defense. Established in the 1970s in accordance with a recommendation of the Blue Ribbon Defense Panel, these offices facilitate the appropriate flow of information between the House and Senate Defense Appropriations Subcommittees and the Comptroller of the respective department or agency. In the early 1990s, the House and Senate Defense Appropriations Subcommittees restated the support these organizations provide to the Committees and noted that “while the various offices of legislative affairs offer great assistance to DoD and the Congress, they do not provide the expertise and the direct relationship to the Comptroller organizations which are essential to the effective communication between DoD and the Committees on Appropriations.”

Further, the explanatory statement accompanying the Department of Defense Appropriations Act, 2016 echoed the imperative to maintain the existing liaison structure to achieve the highest level of communication and trust between the Department of Defense and the House and Senate Defense Appropriations Subcommittees.

The House and Senate Defense Appropriations Subcommittees repeat this support for the budget liaison organizations and reiterate previously stated concerns that efforts to incorporate these organizations into the military and Office of the Secretary of Defense legislative affairs offices would be deleterious to the appropriations process and to the utility of the budget liaison operation.

Therefore, the agreement retains a provision in title II of this Act from previous years that prohibits the use of funds in this Act to plan or implement the consolidation of a budget or appropriations liaison office of the Office of the Secretary of Defense, the office of the Secretary of a military department, or the Service headquarters of one of the Armed Forces into a legislative affairs or legislative liaison office.

CYBERSPACE ACTIVITIES

The agreement fully funds the fiscal year 2017 base budget requirement of \$6,734,000,000 for the Army, Navy, Marine Corps, Air Force, and the defense agencies cyberspace activities, an increase of \$992,000,000 over the fiscal year 2016 enacted level.

While the Service and defense-wide budget justification material, as well as the Department of Defense classified cyberspace activities information technology investments budget justification materials, provide some level of detail, much of the funding is encompassed within larger programs and funding lines, which limits visibility and congressional oversight of requested funding for cyberspace activities specifically.

Beginning in fiscal year 2018, the Department of Defense Chief Information Officer is directed to modify the cyberspace activities exhibit in order to provide increased visibility and clarity into the cyberspace activities funding requirements and changes to funding requirements from the previous fiscal year enacted levels, to segregate civilian and military pay, and to provide a crosswalk between the cyberspace activities justification books and the Services and defense-wide budget justification material.

Further, in order to provide additional clarity and to enhance oversight, the Department of Defense Chief Information Officer, in coordination with the Under Secretary of Defense (Comptroller) and the Service Secretaries, is directed to conduct a review of the budget justification material and provide a proposal to the House and Senate Appropriations Committees not later than September 1, 2017, for how to clearly delineate the Department of Defense cyber investment activities requested in the operation and maintenance, procurement, and research, development, test and evaluation accounts as part of the budget justification material beginning with the fiscal year 2019 budget submission. The Under Secretary of Defense (Comptroller) and the Chief Information Officer are encouraged to consider establishing a unique cyber sub-activity group for operation and maintenance accounts and individual cost codes, projects, or program elements for procurement and research, development, test and evaluation accounts as part of this review.

The Department of Defense cyberspace activities table provided shows the amount of funding provided to each Service and defense-wide account in fiscal years 2016 and 2017. Funding appropriated therein may be used only for cyberspace activities as defined by the classified cyberspace activities information technology investment budget request for fiscal year 2017. The Secretary of Defense is directed to use normal prior approval reprogramming procedures to transfer funding out of any operation and maintenance, procurement, or research, development, test and evaluation accounts as identified in the table titled “Department of Defense Cyberspace Activities” for any purpose other than cyberspace activities. The Department of Defense Chief Information Officer shall submit to the House and Senate Appropriations Committees two reports not later than May 30, 2017, and November 30, 2017, which provide the mid-year and end of fiscal year financial obligation and execution data for cyberspace activities of each year.

This language replaces the language included under the heading “Cyberspace Operations” in House Report 114-577.

MILITARY PERSONNEL OVERVIEW

The agreement provides the resources required for an additional 24,000 active forces and 12,000 selected reserve forces, as authorized by current law and above the requested end strength levels, in order to meet operational needs for fiscal year 2017. The agreement also provides the funding necessary to support a 2.1 percent pay raise for all military personnel, as authorized, effective January 1, 2017.

REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2017 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned re-

port is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$10,000,000.

MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

MILITARY BANDS

Military bands honor and celebrate warfighters, promote patriotism during community events, inspire servicemembers, and enhance efforts to recruit and retain troops. Band engagements play an important support role for national security and joint operations, opening diplomatic doors for political and military discussions while building trust and confidence with foreign military and civilian authorities. However, the activities of military bands must not detract from the core competencies of the military. The Secretary of Defense should review opportunities to ensure that only the critical functions of military bands are supported while minimizing impacts on funding for essential readiness, military personnel, modernization, and research and development activities.

REPROGRAMMING GUIDANCE FOR OPERATION
AND MAINTENANCE ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2017 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

Army:

Maneuver units
Modular support brigades
Land forces operations support
Force readiness operations support
Land forces depot maintenance
Base operations support
Facilities sustainment, restoration, and modernization

Navy:

Mission and other flight operations
Aircraft depot maintenance
Mission and other ship operations
Ship depot maintenance
Facilities sustainment, restoration, and modernization

Marine Corps:

Depot maintenance
Facilities sustainment, restoration, and modernization

Air Force:

Primary combat forces
Combat enhancement forces
Operating forces depot maintenance
Facilities sustainment, restoration, and modernization

Mobilization depot maintenance
Training and recruiting depot maintenance
Administration and service-wide depot maintenance

Air Force Reserve:

Depot maintenance

Air National Guard:

Depot maintenance

Additionally, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

Operation and Maintenance, Army National Guard:

Other personnel support/recruiting and advertising

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures.

OPERATION AND MAINTENANCE SPECIAL
INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

READINESS

The agreement provides additional readiness funds for the Services within the operation and maintenance accounts. This funding shall be used only to improve military readiness, including increased training, depot maintenance, and base operations support. None of the funding provided may be used for recruiting, marketing, or advertising programs. The funding provided is a congressional special interest item. The Secretary of Defense and the Service Secretaries are directed to submit a detailed spending plan by sub-activity group to the House and Senate Appropriations Committees not less than 30 days prior to the obligation of these funds. These transfers may be implemented 30 days after congressional notification unless an objection is received from either the House or Senate Appropriations Committees.

ENERGY INDEPENDENCE AND SECURITY ACT

The agreement does not include a provision included in the House-passed version of

H.R. 5293 that referenced the Energy Independence and Security Act of 2007. It is noted that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Service Secretaries should work to ensure that costs associated with fuel purchases necessary to carry out their respective missions should be minimized to the greatest extent possible.

CIVILIAN PAY RAISE

Although the agreement does not include additional funds specifically for the civilian pay increase from 1.6 percent to 2.1 percent, sufficient funding is available within the appropriations accounts to fully fund the increase due to assets created by the civilian hiring freeze and the extended length of H.R. 2028, the Further Continuing and Security Assistance Appropriations Act, 2017.

AQUEOUS FILM FORMING FOAM

The use of the fire-extinguishing agent Aqueous Film Forming Foam (AFFF) by the Department of Defense has been linked to elevated levels of perfluorinated chemicals (PFCs) on military bases and in neighboring communities. According to the Centers for Disease Control and Prevention and the National Institutes of Health, PFCs have adverse impacts on human health. The Navy and Air Force have begun remediation of PFC contamination. The Secretary of Defense is encouraged to require all Services to establish procedures for prompt and cost-effective remediation. In addition, the Secretary of Defense is directed to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act that assesses the number of formerly used and current military installations where AFFF was or is currently used and the impact of PFC contaminated drinking water on surrounding communities. The report should also include plans for prompt community notification of such contamination, when the contamination was detected, and the procedures for timely remediation.

NATIONAL GUARD STATE PARTNERSHIP
PROGRAM LANGUAGE ENHANCEMENT PROGRAM

For more than twenty years, the National Guard State Partnership Program (SPP) has been successfully building unique security relationships with more than 75 nations around the globe. To build on the success of this program, the agreement recommends that the Chief of the National Guard Bureau

encourage the enhancement of individual language skills and prioritize language school appointments of soldiers and airmen within the program to help further strengthen these international relationships. Additionally, servicemembers of the National Guard that participate in, and are from states with units assigned to state partnership activities should strive to attend lan-

guage schools, both defense-sponsored and otherwise; obtain computer-assisted language-learning software; and use international visits through the SPP as a means of language skill immersion.

REPROGRAMMING GUIDANCE FOR ACQUISITION
ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional

defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

JOINT STRIKE FIGHTER BUDGET JUSTIFICATIONS
AND CONTRACTING

Throughout the fiscal year 2017 budget review process, the Joint Strike Fighter (JSF) Joint Program Office provided insufficient justification and incomplete information in an untimely manner. It is imperative that requested information is received promptly for proper congressional oversight of this major defense acquisition program.

It is understood that the Secretary of Defense is reviewing potential alternative management structures for the JSF program as directed by the National Defense Authorization Act for Fiscal Year 2017 (Public Law 114-328). This review will provide an oppor-

tunity to improve communication between the JSF Program Executive Officer (PEO), the Services, and the congressional defense committees to ensure the program’s funding requirements are fully understood, communicated, and justified.

Additionally, there is concern that the number of F-35s enacted in annual Department of Defense Appropriations Acts are not being placed on contract by the JSF PEO in a timely manner. Four F-35s included in the Department of Defense Appropriations Act, 2015 and 13 F-35s included in the Department of Defense Appropriations Act, 2016 were not part of their respective low rate initial production (LRIP) contracts due to the PEO’s contracting strategy. Specifically, only four F-35Cs were included on LRIPs 9 and 10, rather than the ten F-35Cs enacted in the Department of Defense Appropriations Acts, 2015 and 2016, impeding production efficiencies. The agreement directs the JSF PEO to use a contracting approach that would award all aircraft included in each Department of Defense Appropriations Act on the respective production contract for that fiscal year. The agreement includes funding for 74 F-35 aircraft. The JSF PEO is directed to brief the congressional defense committees not later than 45 days after the enactment of this Act on the contracting strategy for these aircraft.

UH-72 LAKOTA LIGHT UTILITY HELICOPTER

The agreement provides \$187,000,000 to procure 28 UH-72 Lakota Light Utility Helicopters for the Army in support of ongoing mission requirements at the Army Aviation Center of Excellence at Fort Rucker, the

Combat Training Centers, and the Army Test and Evaluation Center. The agreement notes that this investment is consistent with previous appropriations and was included in the Army's unfunded priority list. The Secretary of the Army is encouraged to request

funding for UH-72 Lakota Light Utility Helicopters to address ongoing mission requirements in future budget submissions.

DDG-51 FLIGHT IIA DESTROYERS

The Navy currently is procuring DDG-51 Flight IIA destroyers under a fiscal year 2013 to fiscal year 2017 multi-year procurement shipbuilding contract awarded in June 2013, as authorized by section 8010 of Public Law 113-6. Additionally, the Navy is addressing increasing ballistic and cruise missile threats through the development and acquisition of an Air and Missile Defense Radar, which is planned for integration on the DDG-51 class of ships through an engineering change proposal, resulting in a new Flight III configuration. However, a recent Government Accountability Office report (GAO 16-

613) details concerns regarding a lack of sufficient acquisition and limited detail design knowledge to support the Navy's current Flight III procurement strategy. Further concerns remain regarding the full costs of DDG-51 Flight III destroyers. Therefore, the Secretary of the Navy should award and complete the additional DDG-51 ship, fully funded in fiscal years 2016 and 2017, as an additional DDG-51 Flight IIA ship. The Secretary of the Navy is directed to expeditiously award this ship construction contract.

POLAR ICEBREAKER RECAPITALIZATION PROJECT

The Navy and the Coast Guard are collaborating to refine requirements and an acquisi-

tion strategy for procurement of an affordable polar icebreaker. This collaboration continues to refine program costs and requirements in an effort to award a detailed design and construction contract for the lead ship in fiscal year 2019. The agreement supports this effort and provides \$150,000,000 in advance procurement funding to buy long-lead time material for the program's initial ship. The Coast Guard is encouraged to budget for follow-on efforts.

REPROGRAMMING GUIDANCE FOR ACQUISITION
ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or

20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

RESEARCH, DEVELOPMENT, TEST AND
EVALUATION SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for”

or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement.

JOINT STRIKE FIGHTER FOLLOW-ON
MODERNIZATION

The Joint Strike Fighter Program Executive Officer is directed to comply with the reporting requirement included under the heading “Joint Strike Fighter Follow-on Modernization” in Senate Report 114-263. The Secretary of Defense is not required to comply with the reporting requirement included under the heading “Joint Strike Fighter Follow-on Development” in House Report 114-577.

LONG RANGE STRIKE BOMBER

The Inspector General of the Department of Defense is directed to conduct an evaluation and submit a report as described under this heading in Senate Report 114-263 not later than 180 days after the enactment of this Act. In addition, the agreement designates the long range strike bomber program as a congressional special interest item for purposes of transfer of funds and prior approval reprogramming procedures.

JOINT SURVEILLANCE TARGET ATTACK RADAR SYSTEM RECAPITALIZATION

The agreement includes a provision that prohibits the obligation or expenditure of

funds provided for the Joint Surveillance Target Attack Radar System (JSTARS) recapitalization program on pre-milestone B activities after March 31, 2018. The agreement fully funds the request of \$128,019,000 for the program, of which only \$68,000,000 is required to conclude sufficient progress on radar risk reduction activities. The Secretary of the Air Force should apply the remaining funds to other risk reduction activities and the source selection process to accelerate entry into the engineering and manufacturing development (EMD) phase of the program.

The Secretary of the Air Force and the Under Secretary of Defense (Acquisition,

Technology, and Logistics) are directed to provide a briefing to the congressional defense committees not later than 90 days after the enactment of this Act on a compressed acquisition schedule and funding profile for the JSTARS recapitalization program to achieve initial operational capability and full operational capability as early as possible. The briefing shall detail the schedule for the EMD phase including source selection and contract award for EMD.

REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

Concerns remain regarding the transfer of funds from the In-House Care budget sub-activity to pay for contractor-provided medical care. To limit such transfers and improve oversight within the Defense Health Program operation and maintenance account, the agreement includes a provision which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying explanatory statement language should not be interpreted as limiting the amount of funds that may be transferred to the In-House Care budget sub-activity from other budget sub-activities within the Defense Health Program. In addition, funding for the In-House Care budget sub-activity continues to be designated as a congressional special interest item. Any transfer of funds from the In-House Care budget sub-activity into the Private Sector Care budget sub-activity or any other budget sub-activity requires the Secretary of Defense to follow prior approval reprogramming procedures for operation and maintenance funds.

The Secretary of Defense is directed to provide written notification to the congressional defense committees of cumulative transfers in excess of \$10,000,000 out of the Private Sector Care budget sub-activity not later than fifteen days after such a transfer. Furthermore, the Secretary of Defense is directed to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds in excess of \$10,000,000, and the dates any transfers occurred, from the Private Sector Care budget sub-activity to any other budget sub-activity groups for fiscal year 2016.

The Assistant Secretary of Defense (Health Affairs) is directed to provide quarterly reports to the congressional defense committees on budget execution data for all of the Defense Health Program budget activities and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The agreement provides \$60,000,000 for the peer-reviewed cancer research program to research cancers not addressed in the breast, prostate, ovarian, kidney, and lung cancer research programs.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: bladder cancer, brain cancer, colorectal cancer, immunotherapy, listeria-based regimens for cancer, liver cancer, lymphoma, melanoma and other skin can-

cers, mesothelioma, neuroblastoma, pancreatic cancer, pediatric brain tumors, stomach cancer, and cancer in children, adolescents, and young adults.

The reports directed under this heading in House Report 114-577 and Senate Report 114-263 are still required.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The agreement provides \$300,000,000 for a peer-reviewed medical research program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to the following areas: acute lung injury, antimicrobial resistance, arthritis, burn pit exposure, chronic migraine and post-traumatic headache, congenital heart disease, constrictive bronchiolitis, diabetes, diarrheal diseases, dystonia, early trauma thermal regulation, eating disorders, emerging infectious diseases, epidermolysis bullosa, focal segmental glomerulosclerosis, Fragile X, Guillain-Barre syndrome, hepatitis B and C, hereditary angioedema, hydrocephalus, immunomonitoring of intestinal transplants, inflammatory bowel diseases, influenza, integrative medicine, interstitial cystitis, malaria, metals toxicology, mitochondrial disease, musculoskeletal disorders, nanomaterials for bone regeneration, non-opioid pain management, pancreatitis, pathogen-inactivated dried cryoprecipitate, polycystic kidney disease, post-traumatic osteoarthritis, pulmonary fibrosis, respiratory health, Rett syndrome, rheumatoid arthritis, scleroderma, sleep disorders, spinal muscular atrophy, sustained-release drug delivery, tinnitus, tuberculosis, vaccine development for infectious disease, vascular malformations, and women's heart disease. The additional funding provided under the peer-reviewed medical research program shall be devoted only to the purposes listed above.

ELECTRONIC HEALTH RECORD SYSTEM

Concerns remain with the progress being made by the Departments of Defense and Veterans Affairs to fully develop, procure, and deploy an interoperable electronic health record solution. The two systems must be completely and meaningfully interoperable, and the Under Secretary of Defense (Acquisition, Technology, and Logistics) is encouraged to focus on the overall goal of seamless compatibility between the two Departments' electronic health record systems.

For the necessary oversight of this important program, the Program Executive Officer (PEO) for the Defense Healthcare Management Systems (DHMS) is directed to provide quarterly reports to the congressional defense committees and the Government Ac-

countability Office on the cost and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports. These reports should also include any changes to the deployment timeline, including benchmarks, for full operating capability; any refinements to the cost estimate for full operating capability and the total lifecycle cost of the program; an assurance that the acquisition strategy will comply with the acquisition rules, requirements, guidelines, and systems acquisition management practices of the federal government; the status of the effort to achieve interoperability between the electronic health record systems of the Departments of Defense and Veterans Affairs, including the scope, cost, schedule, mapping to health data standards, and performance benchmarks of the interoperable record; and the progress toward developing, implementing, and fielding the interoperable electronic health record throughout the two Departments' medical facilities.

The PEO DHMS is directed to continue briefing the House and Senate Appropriations Committees on a quarterly basis, coinciding with the report submission. Given that full deployment of the new electronic health record is not scheduled until fiscal year 2022, the Department of Defense is expected to continue working on interim modifications and enhancements to the current system to improve interoperability in the near-term. Additionally, the PEO DHMS is directed to provide written notification to the House and Senate Appropriations Committees prior to obligating any contract, or combination of contracts, for electronic health record systems in excess of \$5,000,000.

Additionally, the Director of the Interagency Program Office is directed to continue to provide quarterly briefings on standards development, how those standards are being incorporated by the two Departments, and the progress of interoperability to the House and Senate Appropriations Subcommittees for Defense and Military Construction, Veterans Affairs, and Related Agencies. In an effort to ensure government-wide accountability, the PEO DHMS, in coordination with the appropriate personnel of the Department of Veterans Affairs, is directed to provide the Federal Chief Information Officer of the United States with monthly updates on progress made by the two Departments to reach interoperability and modernize their respective electronic health records.

NATIONAL GUARD AND RESERVE EQUIPMENT

The agreement provides \$750,000,000 for National Guard and Reserve Equipment. Of that amount \$247,500,000 is designated for the Army National Guard, \$247,500,000 for the Air National Guard, \$105,000,000 for the Army Reserve, \$105,000,000 for the Air Force Reserve, \$37,500,000 for the Navy Reserve, and \$7,500,000 for the Marine Corps Reserve.

This funding will allow the reserve components to procure high priority equipment that may be used for combat and domestic response missions. Current reserve component equipping levels are among the highest in recent history and the funding provided by the agreement will help ensure component interoperability and sustained reserve component modernization.

The Secretary of Defense is directed to ensure that the account be executed by the Chiefs of the National Guard and reserve

components with priority consideration given to the following items: acoustic hailing devices including hail and warning escalation of force systems, advanced cargo handling systems for CH-47, air broadband for C-12, airborne sense and avoid systems for remotely piloted aircraft, all-digital radar warning receivers, chemical biological protective shelters, combat uniforms and cold weather protective clothing, common access card for remote access virtual private network with pre-tunnel authentication, computer-assisted language learning software, crashworthy ballistically tolerant auxiliary fuel systems, integrated facial protection components for standard issue helmets, large aircraft infrared countermeasures, advanced targeting pods, electromagnetic in-flight propeller balance systems, electro-optical infrared sensors, frequency hopping multiplexers, handheld and manpack and mid-tier networking vehicular radios, handheld explo-

JOINT IMPROVISED-THREAT DEFEAT FUND

The fiscal year 2017 budget request includes \$408,272,000 in Overseas Contingency Operations funding for the Joint Improvised-Threat Defeat Fund. To preserve the essential joint capabilities of the Joint Improvised-Threat Defeat Organization (JIDO) and eliminate any duplication with Service capabilities, the agreement recommends transferring \$62,800,000 to the Operation and Maintenance, Defense-Wide account in title IX.

The budget request proposed consolidating the sub-accounts under the appropriation into a single account titled Rapid Acquisition and Threat Response. This flexibility would allow for quick reaction changes in spending; however, it would prevent the congressional defense committees from having any insight into why or when these funding changes occur. Therefore, the agreement provides the following funding levels for JIDO programs: \$101,286,000 for Rapid Capability Delivery; \$200,886,000 for Assist Situational Understanding; and \$37,300,000 for Enable Department of Defense Responsiveness. The Director of the JIDO is directed to provide quarterly reports to the congressional defense committees should funding be shifted between the accounts no later than 15 days after the end of the fiscal quarter.

OFFICE OF THE INSPECTOR GENERAL

The agreement provides \$22,062,000 for the Office of the Inspector General.

The following statement to the House of Representatives and the Senate is submitted in explanation of the agreed upon Act making appropriations for energy and water development for the fiscal year ending September 30, 2017, and for other purposes.

This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language and allocations set forth in House Report 114-532 and Senate Report 114-236 and that direction shall be complied with unless specifically addressed to the contrary in the accompanying bill or explanatory statement. Additionally, where this explanatory statement states that the “agreement only includes” or “the following is the only” direction, any direction included in the House or Senate report on that matter shall be considered as replaced with the direction provided within this explanatory statement. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to the Committees on Appropriations of both Houses of Congress. House or Senate reporting requirements with deadlines prior to or within 15 days of the enactment of this Act shall be submitted no later than 60 days after the enactment of this Act. All other reporting deadlines not changed by this explanatory statement are to be met.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

In fiscal year 2017, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), the following information provides the definition of the term “program, project, or activity” for departments and agencies under the jurisdiction of the Energy and Water Development Appropriations Act. The term “program, project, or activity” shall include the most specific level of budget items identified in the Energy and Water Development Appropriations Act, 2017 and the explanatory statement accompanying the Act.

National Ocean Policy.—No specific funding was provided in fiscal year 2016 and none was requested by any agencies funded in this Act in fiscal year 2017 to implement the National Ocean Policy. Consequently, no specific funds for National Ocean Policy activities are included for any agency funded in this Act.

**TITLE I—CORPS OF ENGINEERS—CIVIL DEPARTMENT OF THE ARMY
CORPS OF ENGINEERS—CIVIL**

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects, and activities of the Corps of Engineers. Additional items of the Act are discussed below.

Recent statutory changes regarding the Inland Waterways Trust Fund (IWTF) have resulted in an increase to the size of the capital improvement program that can be supported by the IWTF. The agreement reflects congressional interest in supporting this larger program. The Corps is directed to take the preparatory steps necessary to ensure that new construction projects can be initiated as soon as can be supported under the larger capital program (i.e., as ongoing projects approach completion).

Concerns persist that the effort to update the Water Resources Principles and Guidelines did not proceed consistent with the language or intent of section 2031 of the Water

Resources Development Act of 2007. No funds provided to the Corps of Engineers shall be used to develop or implement rules or guidance to support implementation of the final Principles and Requirements for Federal Investments in Water Resources released in March 2013 or the final Interagency Guidelines released in December 2014. The Corps shall continue to use the document dated March 10, 1983, and entitled “Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies” during the fiscal year period covered by the Energy and Water Development Appropriations Act for 2017.

Asian Carp.—In lieu of House direction on Asian Carp and Senate direction on Aquatic Nuisance Species, the Corps is expected to release the draft Great Lakes and Mississippi River Interbasin Study (GLMRIS) Brandon Road Study consistent with the urgency of its previous actions. The Corps is directed to adhere to a public and agency review process that is open and transparent. Further, the Corps is directed to provide quarterly updates to the Committees on Appropriations of both Houses of Congress on the progress and status of efforts to prevent the further spread of the carp as well as the location and density of Asian Carp populations, including the use of emergency procedures.

Aquaculture Activities.—The agreement only includes direction on aquaculture activities in the Regulatory account.

ADDITIONAL FUNDING

The fiscal year 2017 budget request significantly underfunds the Civil Works program of the Corps of Engineers. The agreement, however, includes funding in addition to the budget request to ensure continued improvements to our national economy, public safety, and environmental health that result from water resources projects. This funding is for additional work that either was not included in the budget request or was inadequately budgeted. The bill contains a provision requiring the Corps to allocate funds in accordance with only the direction in this agreement. In lieu of all House and Senate report direction regarding additional funding and new starts, the Corps shall follow the direction included in this explanatory statement.

The Corps again is directed to develop rating systems for use in evaluating studies and projects for allocation of the additional funding provided in this title. These evaluation systems may be, but are not required to be, individualized for each account, category, or subcategory. Each study and project eligible for funding shall be evaluated under the applicable ratings system. A study or project may not be excluded from evaluation for being “inconsistent with Administration policy.” The Corps retains complete control over the methodology of these ratings systems. The executive branch retains complete discretion over project-specific allocation decisions within the additional funds provided, subject to only the direction here and under the heading “Additional Funding” or “Additional Funding for Ongoing Work” within each of the Investigations, Construction, Mississippi River and Tributaries, and Operation and Maintenance accounts.

The Administration is reminded that these funds are in addition to the budget request, and Administration budget metrics shall not be a reason to disqualify a study or project from being funded. It is expected that all of the additional funding provided will be allocated to specific programs, projects, or activities. The focus of the allocation process shall favor the obligation, rather than expenditure, of funds. With the significant backlog of work in the Corps’ inventory,

there is no reason for funds provided above the budget request to remain unallocated.

A project or study shall be eligible for additional funding within the Investigations, Construction, and Mississippi River and Tributaries accounts if: (1) it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years; (2) it was previously funded and could reach a significant milestone, complete a discrete element of work, or produce significant outputs in fiscal year 2017; or (3) as appropriate, it is selected as one of the new starts allowed in accordance with this Act and the additional direction provided below. None of the additional funding in any account may be used for any item where funding was specifically denied or for projects in the Continuing Authorities Program. Funds shall be allocated consistent with statutory cost share requirements.

Funding associated with each category may be allocated to any eligible study or project, as appropriate, within that category; funding associated with each subcategory may be allocated only to eligible studies or projects, as appropriate, within that subcategory. The list of subcategories is not meant to be exhaustive.

Work Plan.—Not later than 45 days after the enactment of this Act, the Corps shall provide to the Committees on Appropriations of both Houses of Congress a work plan including the following information: (1) a detailed description of the ratings system(s) developed and used to evaluate studies and projects; (2) delineation of how these funds are to be allocated; (3) a summary of the work to be accomplished with each allocation, including phase of work; and (4) a list of all studies and projects that were considered eligible for funding but did not receive funding, including an explanation of whether the study or project could have used funds in fiscal year 2017 and the specific reasons each study or project was considered as being less competitive for an allocation of funds.

New Starts.—The agreement includes up to six new study starts and six new construction starts to be distributed across the three main mission areas of the Corps. Of the new study starts, one shall be for a navigation study, one shall be for a flood and storm damage reduction study, three shall be for additional navigation or flood and storm damage reduction studies, and one shall be for an environmental restoration study. Of the new construction starts, one shall be for a navigation project, one shall be for a flood and storm damage reduction project, three shall be for additional navigation or flood and storm damage reduction projects, and one shall be for an environmental restoration project. No funding shall be used to initiate new studies, programs, projects, or activities in the Mississippi River and Tributaries or Operation and Maintenance accounts.

The Corps is directed to propose a single group of new starts as a part of the work plan. The Corps may not change or substitute the new starts selected once the work plan has been provided to the Committees on Appropriations of both Houses of Congress. Each new start shall be funded from the appropriate additional funding line item. Any project for which the new start requirements are not met by the end of fiscal year 2017 shall be treated as if the project had not been selected as a new start; such a project shall be required to compete again for new start funding in future years. Consideration of studies and projects for selection as new starts shall not be limited to only those proposed in the fiscal year 2017 budget request. As all new starts are to be chosen by the Corps, all shall be considered of equal importance, and the expectation is that future

budget submissions will include appropriate funding for all new starts selected.

There continues to be confusion regarding the executive branch's policies and guidelines regarding which studies and projects require new start designations. Therefore, the Corps is directed to notify the Committees on Appropriations of both Houses of Congress at least 7 days prior to execution of an agreement for construction of any project except environmental infrastructure projects and projects under the Continuing Authorities Program. Additionally, the agreement reiterates and clarifies previous congressional direction as follows. Neither study nor construction activities related to individual projects authorized under section 1037 of the Water Resources Reform and Development Act (WRRDA) of 2014 shall require a new start or new investment decision; these activities shall be considered ongoing work. No new start or new investment decision shall be required when moving from feasibility to preconstruction engineering and design (PED). A new start designation shall be required to initiate construction of individually-authorized projects funded within programmatic line items. No new start or new investment decision shall be required to initiate work on a separable element of a project when construction of one or more separable elements of that project was initiated previously; it shall be considered ongoing work. A new construction start shall not

be required for work undertaken to correct a design deficiency on an existing federal project; it shall be considered ongoing work.

In addition to the priority factors used to allocate all additional funding provided in the Investigations account, the Corps should give careful consideration to the out-year budget impacts of the studies selected and to whether there appears to be an identifiable local sponsor that will be ready and able to provide, in a timely manner, the necessary cost share for the feasibility and PED phases. The Corps is reminded that the flood and storm damage reduction mission area can include instances where non-federal sponsors are seeking assistance with flood control and unauthorized discharges from permitted wastewater treatment facilities.

In addition to the priority factors used to allocate all additional funding provided in the Construction account, the Corps also shall consider the out-year budget impacts of the selected new starts; legal requirements, including responsibilities to Tribes; and the cost sharing sponsor's ability and willingness to promptly provide the cash contribution (if any), as well as required lands, easements, rights-of-way, relocations, and disposal areas. When considering new construction starts, only those that can execute a project cost sharing agreement not later than September 30, 2017, shall be chosen.

To ensure that the new construction starts are affordable and will not unduly delay

completion of any ongoing projects, the Secretary is required to submit to the Committees on Appropriations of both Houses of Congress a realistic out-year budget scenario prior to issuing a work allowance for a new start. It is understood that specific budget decisions are made on an annual basis and that this scenario is neither a request for nor a guarantee of future funding for any project. Nonetheless, this scenario shall include an estimate of annual funding for each new start utilizing a realistic funding scenario through completion of the project, as well as the specific impacts of that estimated funding on the ability of the Corps to make continued progress on each previously funded construction project (including impacts to the optimum timeline and funding requirements of the ongoing projects) and on the ability to consider initiating new projects in the future. The scenario shall assume a Construction account funding level at the average of the past three budget requests.

INVESTIGATIONS

The agreement includes \$121,000,000 for Investigations. The agreement includes legislative language regarding parameters for new study starts.

Updated Capability.—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2017.

Additional Funding.—The Corps is expected to allocate the additional funding provided in this account primarily to specific feasibility and PED phases, rather than to Remaining Items line items as has been the case in past work plans. The activities funded under Remaining Items address core agency competencies, which means the budget request should reflect sufficient funding. When allocating the additional funding provided in this account, the Corps shall consider giving priority to completing or accelerating ongoing studies or to initiating new studies that will enhance the nation's economic development, job growth, and international competitiveness; are for projects located in areas that have suffered recent natural disasters; or are for projects to address legal requirements. While the additional funding is shown in the feasibility column, the Corps shall use these funds for additional work in both the feasibility and PED phases. The agreement includes sufficient additional funding to un-

dertake a significant amount of feasibility and PED work. The Administration is reminded that a project study is not complete until the PED phase is complete.

Hydraulic Modeling.—The agreement does not include direction included in the Senate report.

Water Resources Priorities Study.—No funding shall be used for this study.

Research and Development, Additional Topic—Urban Flood Damage Reduction and Stream Restoration in Arid Regions.—The agreement supports but includes no specific level of funding for activities included in the Senate report.

Disposition of Completed Projects.—The agreement includes funding only for reviews included in the budget request.

National Flood Risk Management Program.—The agreement does not include direction included in the House report.

Flood Control and Wastewater Treatment Facilities.—The agreement includes direction included in the House report with the further direction that the list be developed using readily available information.

Puget Sound.—The Corps is encouraged to proceed with the tiered implementation strategy using all existing authorities as

outlined in the Puget Sound Nearshore Ecosystem Restoration Project Feasibility Study, Completion Strategy Guidance dated June 2015. The Corps is directed to recognize the Puget Sound Nearshore Study as the feasibility component for the purposes of section 544 of the Water Resources Development Act of 2000.

Missouri River Projects.—None of the funds made available by this Act may be used for the study of the Missouri River Projects authorized in section 108 of the Energy and Water Development and Related Agencies Appropriations Act, 2009 (Public Law 111-8).

Coastal Resiliency Projects.—The agreement only includes language in the Construction account under the heading "Continuing Authorities Program".

CONSTRUCTION

The agreement includes \$1,876,000,000 for Construction. The agreement includes legislative language regarding parameters for new construction starts.

Updated Capability.—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2017.

Chicago Sanitary and Ship Canal Dispersal Barrier, Illinois.—The budget request includes funding for this project in the Operation and Maintenance account. During the period of the continuing resolution, however, the Corps informed the Committees on Appropriations of both Houses of Congress that the budget request is required in the Construction account. The agreement accommodates this shift in funding.

Additional Funding.—The agreement includes additional funds for projects and activities to enhance the nation's economic growth and international competitiveness. Of the additional funds provided in this account, the Corps shall allocate not less than \$12,450,000 to projects with riverfront development components. Of the additional funding provided in this account for flood and storm damage reduction and flood control, the Corps shall allocate not less than \$14,000,000 to additional nonstructural flood control projects. Of the additional funds provided in this account for flood and storm damage reduction, navigation, and other authorized project purposes, the Corps shall allocate not less than \$10,000,000 to authorized reimbursements for projects with executed project cooperation agreements and that have completed construction or where non-federal sponsors intend to use the funds for additional water resources development activities. Of the additional funding provided in this account for flood and storm damage reduction and flood control, the Corps shall allocate not less than \$10,500,000 to continue construction of projects that principally include improvements to rainfall drainage systems that address flood damages.

When allocating the additional funding provided in this account, the Corps is encouraged to evaluate authorized reimbursements in the same manner as if the projects were being evaluated for new or ongoing construction and shall consider giving priority to the following:

1. benefits of the funded work to the national economy;
2. extent to which the work will enhance national, regional, or local economic development;
3. number of jobs created directly by the funded activity;

4. ability to obligate the funds allocated within the calendar year, including consideration of the ability of the non-federal sponsor to provide any required cost share;

5. ability to complete the project, separable element, or project phase with the funds allocated;

6. for flood and storm damage reduction projects (including authorized nonstructural measures and periodic beach renourishments),

a. population, economic activity, or public infrastructure at risk, as appropriate; and

b. the severity of risk of flooding or the frequency with which an area has experienced flooding;

7. for shore protection projects, projects in areas that have suffered severe beach erosion requiring additional sand placement outside of the normal beach renourishment cycle or in which the normal beach renourishment cycle has been delayed;

8. for navigation projects, the number of jobs or level of economic activity to be supported by completion of the project, separable element, or project phase;

9. for projects cost shared with the Inland Waterways Trust Fund (IWTF), the economic impact on the local, regional, and national economy if the project is not funded, as well as discrete elements of work that can be completed within the funding provided in this line item;

10. for other authorized project purposes and environmental restoration or compliance projects, to include the beneficial use of dredged material; and

11. for environmental infrastructure, projects with the greater economic impact, projects in rural communities, projects in communities with significant shoreline and instances of runoff, projects in or that benefit counties or parishes with high poverty rates, and projects in financially distressed municipalities.

The agreement provides funds making use of all estimated annual revenues in the IWTF. The Corps shall allocate all funds provided in the IWTF Revenues line item along with the statutory cost share from funds provided in the Navigation line item prior to allocating the remainder of funds in the Navigation line item. The Corps has indicated that several construction contract options are set to expire in the very near future. If the decision is made by the Administration to fund any of those projects in the work plan, but the funding is not made available in time to exercise the existing options,

costs could escalate unnecessarily. Therefore, notwithstanding the work plan deadline established in the title I front matter, the Corps shall allocate the additional funding provided for construction of IWTF projects, and notify the Committees on Appropriations of both Houses of Congress of such allocations, not later than 10 days after the enactment of this Act.

Aquatic Plant Control Program.—Of the funding provided for the Aquatic Plant Control Program, \$4,000,000 shall be for nationwide research and development to address invasive aquatic plants; within this funding, the Corps is encouraged to support cost shared aquatic plant management programs. Of the funding provided for the Aquatic Plant Control Program, \$5,000,000 shall be for watercraft inspection stations, as authorized by section 1039 of the Water Resources Reform and Development Act of 2014, and related monitoring.

Continuing Authorities Program (CAP).—The agreement continues to support all sections of the Continuing Authorities Program. Funding is provided for eight CAP sections at a total of \$34,500,000, an increase of \$31,000,000 above the budget request, which proposed funding for only four sections. This program provides a useful tool for the Corps to undertake small localized projects without the lengthy study and authorization process typical of larger Corps projects. Within the Continuing Authorities Program and to the extent already authorized by law, the Corps is encouraged to consider projects that enhance coastal and ocean ecosystem resiliency. The management of the Continuing Authorities Program should continue consistent with direction provided in previous fiscal years.

Public-Private Partnerships.—The agreement only includes direction in the Expenses account.

Reimbursements.—The agreement only includes direction under the heading "Additional Funding" in this account.

Environmental Infrastructure.—The agreement does not include direction included in the Senate report.

Efficiency Review.—The agreement only includes direction in the Expenses account.

Updated Capability.—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2017.

Additional Funding for Ongoing Work.—When allocating the additional funding provided in this account, the Corps shall consider giving priority to the following:

1. ability to complete ongoing work maintaining authorized depths and widths of harbors and shipping channels, including where contaminated sediments are present;
2. ability to address critical maintenance backlog;
3. presence of the U.S. Coast Guard;
4. extent to which the work will enhance national, regional, or local economic development, including domestic manufacturing capacity;
5. extent to which the work will promote job growth or international competitiveness;
6. number of jobs created directly by the funded activity;
7. ability to obligate the funds allocated within the calendar year;
8. ability to complete the project, separable element, project phase, or useful increment of work within the funds allocated;
9. risk of imminent failure or closure of the facility;
10. for harbor maintenance activities,
 - a. total tonnage handled;
 - b. total exports;
 - c. total imports;
 - d. dollar value of cargo handled;
 - e. energy infrastructure and national security needs served;
 - f. designation as strategic seaports;
 - g. lack of alternative means of freight movement; and
 - h. savings over alternative means of freight movement; and
11. for other authorized project purposes, authorized activities related to flood and drought monitoring.

The additional funding provided in this account for donor and energy transfer ports shall be allocated in accordance with 33 U.S.C. 2238c.

Facility Protection.—The agreement includes direction included in the House report.

Monitoring of Completed Navigation Projects.—Of the funding provided, \$3,700,000 shall be for continued development and field-testing of platforms to enable scalable, cost effective structural health monitoring of critical civil infrastructure and not less than \$2,000,000 shall be for research described in the Senate report under the heading “Operations and Maintenance—Fisheries.”

Water Operations Technical Support.—Funding in addition to the budget request is included for research into atmospheric rivers first funded in fiscal year 2015.

Great Lakes Navigation System.—The agreement includes funding for individual projects within this System that exceeds the funding level envisioned in section 210(d)(1)(B)(ii) of the Water Resources Development Act of 1986.

REGULATORY PROGRAM

The agreement includes \$200,000,000 for the Regulatory Program.

Aquaculture Activities.—Since 2007, shellfish growers in the State of Washington have submitted approximately 1,000 requests to initiate or expand aquaculture activities. Significant progress has been made in the last year to process permit requests. The Corps of Engineers completed Endangered Species Act consultations with the National Marine Fisheries Service and the U.S. Fish and Wildlife Service in September 2016. The Corps is directed to expeditiously process the

shellfish growers' requests using the final Biological Opinions and in accordance with the recently completed 2017 Nationwide Permit 48. The Corps is encouraged to communicate directly with the regulated industry and other interested stakeholders to ensure all have clarity on permitting requirements.

Army Corps of Engineers and Underserved Communities.—The Corps is encouraged to take steps to expedite and support economic development projects in underserved urban communities, particularly economically disadvantaged communities with populations of less than 100,000 residents. These communities often are overlooked unintentionally and face complex challenges that impede economic development due to years of neglect, an abundance of abandoned industrial areas, or a lack of consistent local funding sources.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The agreement includes \$112,000,000 for the Formerly Utilized Sites Remedial Action Program.

FLOOD CONTROL AND COASTAL EMERGENCIES

The agreement includes \$32,000,000 for Flood Control and Coastal Emergencies.

EXPENSES

The agreement includes \$181,000,000 for Expenses. The agreement includes \$1,000,000 for the Corps to initiate the evaluation of project partnership agreements authorized under section 1013 of the Water Resources Reform and Development Act of 2014.

Public-Private Partnership Program.—As discussed in fiscal year 2016, there is strong support among many Members of the Congress and within the senior leadership of the Corps for public-private partnerships (P3). These arrangements have the potential to be project delivery tools to help sustain the performance of existing infrastructure and construct new infrastructure more quickly. Unfortunately, actions to date will serve to undermine, rather than promote, the use of P3s. For instance, the executive branch selected a P3 project as one of its fiscal year 2016 new starts, yet did not include funding for this project in its fiscal year 2017 budget request, claiming the project did not meet budget criteria. Without a clear signal from the federal government that it will honor its commitments under a P3 arrangement, it is unlikely that communities or private investors will put their resources at risk with a P3 arrangement.

More broadly, concerns persist that the Corps is attempting to develop individual, project-specific P3 arrangements, rather than developing the policy by which such arrangements, developed by project stakeholders and private investors, will be evaluated. This program will generate stronger interest and allow all interested non-federal sponsors equal opportunity to develop P3 proposals for the Corps to review under established guidelines. An established policy would also ensure that selected projects will meet budget criteria.

It was for these reasons that the Congress, in fiscal year 2016, directed the Corps to develop a policy on how P3 proposals will be considered by the Corps and how these partnerships will be incorporated into the budget policy. There has been no indication that the Corps has done any work to comply with this direction. Therefore, due to the concerns detailed above and until such time as a comprehensive policy is established and provided to the Committees on Appropriations of both Houses of Congress, the Corps shall discontinue all work on project-specific public-private partnerships beyond the P3 project selected as a new start in fiscal year 2016.

OFFICE OF THE ASSISTANT SECRETARY OF THE ARMY FOR CIVIL WORKS

The agreement includes \$4,764,000 for the Office of the Assistant Secretary of the Army for Civil Works. The agreement includes legislative language that restricts the availability of funding until the Secretary submits a work plan that allocates at least 95 percent of the additional funding provided in each account (i.e., 95 percent of additional funding provided in Investigations, 95 percent of additional funding provided in Construction, etc.). This restriction shall not affect the roles and responsibilities established in previous fiscal years of the Office of the Assistant Secretary of the Army for Civil Works, the Corps headquarters, the Corps field operating agencies, or any other executive branch agency.

The Congress counts on a timely and accessible executive branch in the course of fulfilling its constitutional role in the appropriations process. The requesting and receiving of basic, factual information is vital in order to maintain a transparent and open governing process. Some discussions internal to the executive branch are pre-decisional in nature and, therefore, not subject to disclosure. However, the access to facts, figures, and statistics that inform these decisions are not subject to this same sensitivity and are critical to the budget process. The Administration needs to ensure timely and complete responses to these inquiries.

TITLE II—DEPARTMENT OF THE INTERIOR

CENTRAL UTAH PROJECT

CENTRAL UTAH PROJECT COMPLETION ACCOUNT

The agreement includes a total of \$10,500,000 for the Central Utah Project Completion Account, which includes \$7,850,000 for Central Utah Project construction, \$1,300,000 for transfer to the Utah Reclamation Mitigation and Conservation Account for use by the Utah Reclamation Mitigation and Conservation Commission, and \$1,350,000 for necessary expenses of the Secretary of the Interior.

BUREAU OF RECLAMATION

In lieu of all House and Senate report direction regarding additional funding and the fiscal year 2017 work plan, the agreement includes direction under the heading “Additional Funding for Water and Related Resources Work” in the Water and Related Resources account.

Salt Cedar.—The WIIN Act authorized the Secretary of the Interior, in coordination with the Secretary of Agriculture, to enter into an agreement with the National Academy of Sciences to conduct a comprehensive study on the effectiveness and environmental impacts of salt cedar biological control efforts on increasing water supplies and improving riparian habitats of the Colorado River and its principal tributaries. Not later than 180 days after completion of such a study, the Bureau of Reclamation shall submit to the Committees on Appropriations of both Houses of Congress a report on the conclusions applicable to the Bureau of Reclamation and any plans for changes at Reclamation-managed lands.

Implementation Plans.—The Secretary of the Interior is directed to provide to the Committees on Appropriations of both

Houses of Congress, not later than September 30, 2017, implementation plans to execute the Delta smelt distribution study pursuant to section 4010(a)(4), the expanded use of conservation fish hatcheries pursuant to section 4010(b)(5), and the pilot projects to implement the CALFED invasive species program pursuant to section 4010(e) of Public Law 114-322. At a minimum, each implementation plan shall describe the roles and responsibilities, including funding, of each relevant agency.

Scoggins Dam, Tualatin Project, Oregon.—The agreement includes only the language in the House report.

Additional Funding for Water and Related Resources Work.—The agreement includes funds in addition to the budget request for Water and Related Resources studies, projects, and activities. Priority in allocating these funds should be given to advance and complete ongoing work, including preconstruction activities and where environmental compliance has been completed; improve water supply reliability; improve water deliveries; enhance national, regional, or local economic development; promote job growth; advance tribal and nontribal water settlement studies and activities; or address critical backlog maintenance and rehabilitation activities. Of the additional funding provided under the heading “Water Conservation and Delivery”, \$67,000,000 shall be for water storage projects as authorized in section 4007 of Public Law 114-322. Of the additional funding provided under the heading “Environmental Restoration or Compliance”, \$7,000,000 shall be for activities authorized under sections 4001 and 4010 of Public Law 114-322 or as set forth in federal-state plans for restoring threatened and endangered fish species affected by the operation of the Bureau of Reclamation’s water projects. Not later than 45 days after the enactment of this Act, Reclamation shall provide to the Committees on Appropriations of both Houses of Congress a report delineating how these funds are to be distributed, in which phase the work is to be accomplished, and an explanation of the criteria and rankings used to justify each allocation.

Indian Water Rights Settlements.—The agreement includes funds for these activities in the Water and Related Resources account, instead of in a separate account as proposed in the budget request. To maintain the visibility of these projects, the agreement includes the three projects under the Regional Programs heading with a subheading called Indian Water Rights Settlements.

The agreement does not include Senate report direction regarding legislative solutions.

CALFED Water Storage Feasibility Studies.—With the passage of California Proposition 1 in 2014, the California Water Commission is expected to begin allocating \$2,700,000,000 for the public benefits of water storage projects in 2018. To ensure that the

CALFED water supply projects are able to compete for the available State funding, Reclamation is directed to take such steps as are necessary to ensure that each of the authorized CALFED water storage feasibility studies, and associated environmental impact statements, are completed as soon as practicable, and that, at a minimum, publicly available drafts of such studies and environmental reviews are completed expeditiously in accordance with congressional direction.

Buried Metallic Water Pipe.—The agreement only includes direction in the Policy and Administration account.

CENTRAL VALLEY PROJECT RESTORATION FUND

The agreement provides \$55,606,000 for the Central Valley Project Restoration Fund.

TITLE IV—INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

The agreement provides \$152,000,000 for the Appalachian Regional Commission (ARC). To diversify and enhance regional business development, \$10,000,000 is provided to continue the program of high-speed broadband deployment in distressed counties within the Central Appalachian region that have been most negatively impacted by the downturn in the coal industry. This funding shall be in addition to the 30 percent directed to distressed counties.

Within available funds, \$70,000,000 is provided for base funds and \$50,000,000 is for the POWER Plus Plan.

Within available funds, \$16,000,000 is provided for a program of industrial site and workforce development in Southern and South Central Appalachia, focused primarily on the automotive supplier sector and the aviation sector. Up to \$13,500,000 of that amount is provided for activities in Southern Appalachia. The funds shall be distributed according to ARC's Distressed Counties Formula, which comprises land area, population estimates, and a proportion of the number of distressed counties.

In addition, the agreement provides \$6,000,000 for a program of basic infrastructure improvements in distressed counties in Central Appalachia. Funds shall be distributed according to ARC's Distressed Counties Formula and shall be in addition to the regular allocation to distressed counties.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

SALARIES AND EXPENSES

The agreement provides \$30,872,000 for the Defense Nuclear Facilities Safety Board.

DELTA REGIONAL AUTHORITY

SALARIES AND EXPENSES

The agreement provides \$25,000,000 for the Delta Regional Authority (DRA). The agreement includes a waiver of DRA's 5 percent administration cap. However, DRA is encouraged to prioritize and allocate funding consistent with its authorized purposes and prevent administrative expenses from exceeding 5 percent of the appropriated amount.

DENALI COMMISSION

The agreement provides \$15,000,000 for the Denali Commission. The agreement includes a provision regarding cost share payments.

NORTHERN BORDER REGIONAL COMMISSION

The agreement provides \$10,000,000 for the Northern Border Regional Commission.

SOUTHEAST CRESCENT REGIONAL COMMISSION

The agreement provides \$250,000 for the Southeast Crescent Regional Commission.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The Commission's mission is to ensure the safety and security of the nation's use of nuclear power and nuclear materials and protect the workers and public who use and benefit from these materials and facilities. The agreement provides \$905,000,000 for Nuclear Regulatory Commission (Commission) salaries and expenses. This amount is offset by estimated revenues of \$794,580,000, resulting in a net appropriation of \$110,420,000. The agreement reflects additional savings identified by the Commission as part of its rebaselining efforts. The agreement does not in-

clude the savings from the rebaselining proposal to reduce resources devoted to maintaining expertise in deep geological repository analysis. The Commission shall apply these rebaselining savings in a manner that continues to ensure the protection of public health and safety and maintain the effectiveness of the current inspection program. The agreement includes \$5,000,000 for activities related to the development of regulatory infrastructure for advanced nuclear reactor technologies, which are not subject to the Commission's general fee recovery collection requirements. The agreement also directs the use of \$23,000,000 in prior-year unobligated balances.

The agreement includes the following direction in lieu of all direction included in the House and Senate reports:

Nuclear Reactor Safety.—The agreement includes \$462,300,000 for Nuclear Reactor Safety. This control point includes the Commission's Operating Reactors and New Reactors business lines.

Integrated University Program.—The agreement includes \$15,000,000 for the Integrated University Program. Of this amount, \$5,000,000 is to be used for grants to support projects that do not align with programmatic missions but are critical to maintaining the discipline of nuclear science and engineering.

Nuclear Materials and Waste Safety.—The agreement includes \$113,700,000 for Nuclear Materials and Waste Safety. Included within this control point are the Fuel Facilities, Nuclear Material Users, and Spent Fuel Storage and Transportation business lines.

Decommissioning and Low-Level Waste.—The agreement includes \$27,200,000 for Decommissioning and Low-Level Waste.

Corporate Support.—The agreement includes \$309,800,000 for Corporate Support. The agreement provides, within available funds, not more than \$7,500,000 for the salaries, travel, and other support costs for the Office of the Commission. These salaries and expenses shall include only salaries and benefit and travel costs, and are not to include general, administrative, or infrastructure costs. The use and expenditure of these funds shall be jointly managed through majority vote of the Commission. The Commission shall continue to include a breakout and explanation of the Commission salaries and expenses in its annual budget requests. If the Commission wishes to change the composition of the funds in future years, it must do so in an annual budget request or through a reprogramming.

Budget Execution Plan.—The Commission shall provide a specific budget execution plan to the Committees on Appropriations of both Houses of Congress no later than 30 days after the enactment of this Act. The plan shall include details at the product line level within each of the control points.

If the Fund elects to issue grants in this manner, the Fund is directed to submit a report not later than the end of calendar year 2017 to the Committees on Appropriations of the House and Senate, the Committee on Financial Services of the House, and the Committee on Banking, Housing, and Urban Affairs of the Senate to include parameters for award issuance, a profile of CDFI participants competing for these funds, and metrics

to be used by the Fund to track how funds are spent to support projects for individuals with disabilities.

Not later than the end of fiscal year 2019, the CDFI Fund must submit a second report that includes the number of awards, amount of each award, and anticipated projects funded, if funds are dispersed for this purpose, as well as findings and recommendations related to the efficacy of award efforts and impacts on the disability community.

Persistent Poverty.—As was previously enacted in fiscal year 2012, the bill requires that no less than 10 percent of funds are awarded to persistent poverty counties, using decennial census data from 1990, 2000, and 2010. The CDFI Fund previously used the American Community Survey (ACS) data, which was a subset of the decennial census, to fulfill this requirement, but the ACS has since been published separately from the decennial census. Therefore, the CDFI Fund may use the 2015 ACS data to fulfill this requirement.

DIVISION F—DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2017

The following is an explanation of Division F, which makes appropriations for the Department of Homeland Security (DHS) for fiscal year 2017. Funding provided in this Act not only sustains existing programs that protect the nation from all manner of threats, it ensures DHS's ability to improve preparedness at the federal, state, and local levels, to prevent and respond to terrorist attacks, and to hire, train, and equip DHS frontline forces protecting the homeland.

Unless otherwise noted, references to the House and Senate reports are to House Report 114-668 and Senate Report 114-264, respectively. The language and allocations contained in the House and Senate reports carry the same weight as language included in this explanatory statement unless specifically addressed to the contrary in the bill or this explanatory statement. While this explanatory statement repeats some language from the House or Senate reports for emphasis, it does not negate the language contained in those reports unless expressly stated. When this explanatory statement refers to the Committees or the Committees on Appropriations, these references are to the House Appropriations Subcommittee on Homeland Security and the Senate Appropriations Subcommittee on Homeland Security.

This explanatory statement refers to certain laws and organizations as follows: the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, is referenced as the 9/11 Act; the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288, is referenced as the Stafford Act; the Department of Homeland Security is referenced as DHS or the Department; the Government Accountability Office is referenced as GAO; and the Office of Inspector General of the Department of Homeland Security is referenced as OIG. In addition, "full-time equivalents" are referred to as FTE; "full-time positions" are referred to as FTP; "Information Technology" is referred to as IT; the DHS "Working Capital Fund" is referred to as WCF; "program, project, and activity" is referred to as PPA; and any reference to "the Secretary" should be interpreted to mean the Secretary of the Department of Homeland Security.

On March 16, 2017, the President delivered a budget amendment to the Congress that requested an additional \$3,000,000,000 for DHS to strengthen border security and enhance enforcement of immigration laws. Appropriations related to that request are included in title VI of this division.

CHANGES TO THE STRUCTURE OF THE BILL AND REPORT

Since DHS was established in 2002, the 22 agencies that were consolidated into a single department have formulated and executed their respective budgets using their legacy

appropriation account structures and budgeting practices. Within months of being confirmed, then-Secretary Jeh Johnson announced a Unity of Effort campaign with the goal of maturing DHS into an organization that functions in a more integrated and joint fashion. A strategic imperative of that campaign was to develop and institutionalize standard planning, budgeting, acquisition, and resourcing processes that every component would be required to follow.

The Department's more than 70 disparate accounts were contributing to a lack of transparency and comparability among components and programs, and were adding unnecessary complexity to spending prioritization. To address these issues, the Department recommended that the existing account structure be simplified into four common account categories under which programs and activities could be funded consistently across departmental components based on common assumptions and definitions. The categories are: Operations and Support; Procurement, Construction, and Improvements; Research and Development; and Federal Assistance. In fiscal year 2016, Congress supported the concept of common appropriations accounts for every component and authorized DHS to propose the fiscal year 2017 DHS budget in a structure that incorporated these four account types.

In accordance with this authority, DHS proposed the fiscal year 2017 budget request in a common format for every organization except the Coast Guard, which requires additional time to coordinate the change as it also transitions to a new financial management system. The appropriations account and PPA structure reflected in this Act is the culmination of that two year effort.

In addition to incorporating the new standard structure, the fiscal year 2017 Department of Homeland Security Appropriations bill has been re-written, updated, and streamlined. The bill continues to be divided into titles, the first four of which contain appropriations. Each appropriations paragraph begins with a lump sum appropriation, followed by any necessary carve-outs of amounts for specific activities or for multi-year availability, and concludes with spending limitations, when needed. Administrative provisions specific to a single component are included at the end of its respective title, while general provisions that pertain to multiple components are located in title V. This explanatory statement is organized in the same manner.

Every appropriating paragraph has been scrutinized and drafted to follow the Comptroller General's *Federal Principles of Appropriations Law* and adheres to a core principal that the purpose of a lump sum appropriation is determined in the context of the agency's enabling and authorizing legislation. As such, appropriations paragraphs do not enumerate every statute that authorizes DHS to act, in order for funding to be available for those purposes.

Likewise, the appropriating paragraphs do not need, nor is it possible, to explicitly enu-

merate every item or activity for which the appropriation is available. Accordingly, previously enumerated activities that are considered to be part of a component's necessary expenses are no longer expressly included. Further, the format of the bill has been restructured to move those provisions not organic to the appropriation of funds into administrative or general provisions. Certain language from prior Acts that directed policies or practices was eliminated if its appearance in statute is no longer required, although directives related to such policies or practices are in some cases continued through language in this statement or in the House or Senate reports.

DHS provided assistance in identifying instances where specificity in appropriations paragraphs was required for funds to be used for certain purposes. As presented, the bill reflects that careful consideration. With regard to expired authorizations, the bill provides explicit extensions where so intended.

CHEMICAL, BIOLOGICAL, RADIOLOGICAL, NUCLEAR, AND EXPLOSIVES OFFICE

The fiscal year 2017 budget request proposed the consolidation of the Office of Health Affairs, the Domestic Nuclear Detection Office, the Office of Bombing Prevention, and selected activities of the Science and Technology Directorate, into a new Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE) Office. As this proposed CBRNE consolidation was not authorized by Congress, the amounts appropriated for these activities for fiscal year 2017 are provided to the component for which the funds were appropriated in prior years. The amounts requested for CBRNE are displayed in the table at the end of this statement.

CLASSIFIED PROGRAMS

Recommended adjustments to classified programs are addressed in a classified annex to this explanatory statement.

TITLE I—DEPARTMENTAL MANAGEMENT, OPERATIONS, INTELLIGENCE, AND OVERSIGHT

OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

OPERATIONS AND SUPPORT

A total of \$137,034,000 is provided for Operations and Support, including not more than \$40,000 for official reception and representation (ORR) expenses. A decrease of \$5,000 is assessed to the Secretary's ORR funds due to the assumption of \$880,000,000 in unauthorized fee revenue in the fiscal year 2017 budget request that artificially reduced the amount of net discretionary appropriations required to fully fund the Transportation Security Administration. DHS should be prepared for additional decrements to ORR funds and other headquarters activities in the future should future requests include similar proposals.

The amount provided for this appropriation by PPA is as follows:

Privacy Office	7,851,000	7,851,000
Subtotal, Operations and Support	\$136,451,000	\$137,034,000
Total, Office of the Secretary and Executive Management	\$136,451,000	\$137,034,000

OFFICE OF THE SECRETARY

A total of \$18,632,000 is provided for the Office of the Secretary. Instead of including funds for the Office of Community Partnerships within this amount, as proposed by the Senate, funds for that program are included in the Office of Partnership and Engagement PPA, as proposed by the House.

In lieu of direction provided in the House and Senate reports regarding activities of the Joint Requirements Council (JRC), the Department shall provide status updates on these activities to the Committees on a monthly basis. Specifically, the updates shall include a list of the requirements documents that have been validated as well as those that remain in the analysis phase at the DHS JRC level. Validated documents shall be made available to the Committees upon request.

The Secretary is directed to convene a Public Complaint and Feedback System working group, as described in the House Report, and to provide briefings to the Committees within 90 days and 270 days of the date of enactment of this Act on the group's progress and findings.

OFFICE OF POLICY

A total of \$37,461,000 is provided for the Office of Policy.

Section 107 of the Act withholds \$2,000,000 from the Office of the Secretary until two long-standing required reports are provided to the Congress. First, as described in the Senate report, DHS is legally obliged to submit an annual report estimating the U.S. population of nonimmigrant aliens who have

overstayed their visas. The Department submitted such a report for fiscal year 2015, but has not yet submitted a report for fiscal year 2016. DHS is expected to improve upon the scope of the data provided in the fiscal year 2015 report in its forthcoming report.

Second, under the headings "Border Security Metrics" and "Public Reporting of Operational Statistics," the Senate report outlines congressional and public interest in border security metrics and immigration operations data. Recently issued executive orders also require public reporting of such data, which the Department has begun to post. For years, Congress has directed DHS to develop border security metrics that quantify the operational impact of border security investments. Though progress has been made, DHS has still failed to produce these metrics. The Department shall brief the Committees within 90 days of the date of enactment of this Act on its plan to develop and publish the metrics described in the Senate report.

As directed in the Senate report, \$600,000 above the request shall support qualified data analysts in the Office of Immigration Statistics.

In addition to the House directive to provide a comprehensive review of the number and locations of all DHS personnel deployed overseas, the Office of Policy shall identify where redundant staff are located and explain why they are required.

As directed in the Senate report, the Department shall report on the deployment and usage of International Mobile Subscriber

Identity (IMSI) catchers and related technologies within 180 days of the date of enactment of this Act.

OFFICE OF PARTNERSHIP AND ENGAGEMENT

A total of \$15,206,000 is provided for the Office of Partnership and Engagement, which includes \$3,514,000 for the Office of Community Partnerships.

A total of \$819,000 is provided for the Blue Campaign, as requested. DHS is directed to fully account for and provide justification material for this program in future budget requests.

OFFICE FOR CIVIL RIGHTS AND CIVIL LIBERTIES

A total of \$22,571,000 is provided for the Office for Civil Rights and Civil Liberties.

As directed in the House Report, the increase of \$1,168,000 above the President's request supports enhancements to programs in the Compliance Branch.

MANAGEMENT DIRECTORATE

OPERATIONS AND SUPPORT

A total of \$597,817,000 is provided for Operations and Support of the Management Directorate. Of this amount, not more than \$2,000 is available for official reception and representation expenses. Within the total, \$194,092,000 is available until September 30, 2018, to include \$4,800,000 for St. Elizabeths, \$186,361,000 for the Chief Information Officer (CIO), and \$2,931,000 for headquarters operations at the Nebraska Avenue Complex.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Operations and Support:		
Immediate Office of the Under Secretary for Management	\$3,758,000	\$3,564,000
Office of the Chief Readiness Support Officer	128,177,000	54,275,000
Office of the Chief Human Capital Officer	36,446,000	39,026,000
Office of the Chief Security Officer	61,723,000	63,102,000
Office of the Chief Procurement Officer	101,450,000	98,076,000
Office of the Chief Financial Officer	100,041,000	53,700,000
Office of the Chief Information Officer	296,176,000	286,074,000
Subtotal, Operations and Support	\$727,771,000	\$597,817,000

IMMEDIATE OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

A total of \$3,564,000 is provided for the Immediate Office of the Under Secretary for Management, reflecting a reduction to the request of \$194,000 based on updated hiring projections. The requirement from prior years to submit a Comprehensive Acquisition Status Report with future budget requests and quarterly updates is discontinued.

OFFICE OF THE CHIEF READINESS SUPPORT OFFICER

A total of \$54,275,000 is provided for the Office of the Chief Readiness Support Officer, to include \$26,180,000 for St. Elizabeths headquarters operations and a reduction of \$500,000 from the request based on updated hiring projections.

In addition to the funding provided under this heading for St. Elizabeths, \$13,253,000 is provided in title V of this Act for tenant designs for a new FEMA headquarters and remaining elements of the Center Building Complex.

For several years, CBP's Air and Marine Operations has been refining a flight hour model similar to that of the Coast Guard to track costs and link them to mission requirements. The Department is directed to review the model to ensure consistency across both CBP and the Coast Guard, and to brief the Committees on a quarterly basis until flight hour costs are captured completely and accurately across the Department's air fleet.

OFFICE OF THE CHIEF HUMAN CAPITAL OFFICER

A total of \$39,026,000 is provided for the Office of the Chief Human Capital Officer. A re-

duction of \$240,000 is assessed based on an updated hiring projection, and an increase of \$2,820,000 is provided to transition the Cyber Student Volunteer Program into a DHS Cybersecurity Internship Program.

As directed in the Senate and House reports, DHS is directed to continue working with every component to develop metrics on hiring, attrition, the processes used to bring staff on board, and a hiring corrective action plan. DHS shall brief the Committees not later than 90 days after the date of enactment of this Act on its strategy to decrease the number of days it takes to hire new employees. As part of this briefing, DHS shall provide quarterly hiring metrics by component and detail its progress toward monthly metrics reporting. Further, the briefing shall address progress made to establish reciprocity with other agencies on polygraph examinations and security clearances. CBP shall continue monthly reporting of hiring gains and attrition losses.

OFFICE OF THE CHIEF SECURITY OFFICER

A total of \$63,102,000 is provided for the Office of the Chief Security Officer, to include an increase of \$1,379,000 for recurring security needs at the Nebraska Avenue Complex.

OFFICE OF THE CHIEF PROCUREMENT OFFICER

A total of \$98,076,000 is made available for the Office of the Chief Procurement Officer, to include a reduction of \$3,347,000 based on an updated hiring projection.

OFFICE OF THE CHIEF FINANCIAL OFFICER

A total of \$53,700,000 is provided for the Office of the Chief Financial Officer (OCFO). DHS is directed to retain its Appropriations Liaison Office as part of OCFO.

The Department shall continue submitting obligation plans to the Committees on a quarterly basis, with the first plan due within 45 days of enactment of this Act. These plans shall be consistent with direction provided in the explanatory statement accompanying Public Law 114-113, which required comparisons of planned and actual obligations, by PPA, of all salaries and benefits funding.

At congressional direction, DHS plans to improve the clarity and completeness of budget justification materials, particularly for procurement accounts. Clarity and completeness is equally important for Operations and Support accounts, given the size of many of these appropriations and the flexibility DHS currently has to move funds among PPAs. Therefore, in future budget justification materials, DHS is directed to include a breakdown of each account by cost driver, including cost drivers for any proposed programmatic changes. Additionally, the materials must clearly justify any changes in cost driver assumptions from the prior fiscal year to the budget year.

Funding provided in this Act shall be obligated in accordance with Section 2.0 of Chapter 2 of the Department of Homeland Security Financial Management Policy Manual, dated October 1, 2016, entitled "DHS Appropriations Structure." The Department is directed to notify the Committees regarding any substantive revisions to this manual.

OFFICE OF THE CHIEF INFORMATION OFFICER

A total of \$286,074,000 is provided for the Office of the Chief Information Officer, to include reductions of \$8,002,000 based on an updated hiring projection and \$2,100,000 to Legacy Information Technology Services.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

A total of \$18,839,000 is provided for the Management Directorate for procurement, construction, and improvements.

RESEARCH AND DEVELOPMENT

A total of \$2,500,000 is provided for the Management Directorate for research and development.

INTELLIGENCE, ANALYSIS, AND OPERATIONS COORDINATION

OPERATIONS AND SUPPORT

A total of \$263,551,000 is provided for Intelligence, Analysis, and Operations Coordination, of which \$106,115,000 is available until September 30, 2018.

Within the amount, the Office of Intelligence and Analysis (I&A) is directed to implement the Document and Media Exploitation program and to build an Analytic Innovation Cell. Both programs will provide actionable intelligence to DHS's front line, enabling capabilities ranging from the identification of fraudulent passports to the exploitation of information that disrupts transnational criminal organizations. I&A is commended for prioritizing its budget requirements to support DHS's operational components.

As directed by the Senate, I&A is directed to assess the level of effort it provides to support the Department's critical border security mission.

OFFICE OF INSPECTOR GENERAL OPERATIONS AND SUPPORT

A total of \$175,000,000 is provided for the Office of Inspector General (OIG). The agreement does not include a proposed \$24,000,000 transfer to the OIG from the Federal Emergency Management Agency (FEMA) Disaster

Relief Fund (DRF). Instead, the OIG is directed to allocate not less than \$20,856,000 to disaster-related investigations and audits. Additionally, the recommendation includes a decrease of \$3,000,000 from the request based on updated hiring projections.

TITLE I—ADMINISTRATIVE PROVISIONS—THIS ACT

Section 101. A provision proposed by the House and Senate is continued requiring the Secretary to submit the Future Years Homeland Security Program at the time of the President's budget proposal for fiscal year 2018.

Section 102. A provision proposed by the House and Senate is continued and modified requiring the Chief Financial Officer to submit monthly budget execution and staffing reports within 30 days after the last day of each month.

Section 103. A provision proposed by the House and Senate is continued requiring the Inspector General to review grants and contracts awarded by means other than full and open competition and report the results to the Committees.

Section 104. A provision proposed by the House and Senate is continued directing the Secretary to require contracts providing award fees to link such fees to successful acquisition outcomes.

Section 105. A provision proposed by the House and Senate is continued requiring the Secretary, in conjunction with the Secretary of the Treasury, to notify the Committees of any proposed transfers from the Department of Treasury Forfeiture Fund to any agency at DHS. No funds may be obligated prior to such notification.

Section 106. A provision proposed by the House and Senate is continued related to the official travel costs of the Department's Secretary and Deputy Secretary.

Section 107. A provision proposed by the Senate is continued and modified requiring the Secretary to submit a report on visa overstay data and to post border security metrics on the Department's website. The House proposed no similar provision.

Section 108. A new provision is included requiring the Secretary to certify whether U.S. Immigration and Customs Enforcement is administering and executing its Enforcement and Removal Operations activities consistent with available budgetary authority.

TITLE II—SECURITY, ENFORCEMENT, AND INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION

OPERATIONS AND SUPPORT

A total of \$10,900,636,000 is provided for Operations and Support, of which \$681,441,500 is made available for two years to provide flexibility in the year of execution. The total includes increases of \$3,000,000 for the Border Security Deployment Program; \$4,000,000 for small unmanned aerial systems (UAS); and \$15,000,000 for UAS fleet upgrades. Reductions to the request include: \$236,430,000 due to the denial of the requested transfer of the Office of Biometric Identity Management (OBIM) into CBP; and to support a realistic number of FTE, \$200,633,000 from pay and benefits and \$10,000,000 for non-pay and benefit funding.

The bill reduces funding for staffing by \$200,633,000 based on technical assistance provided by CBP in March of 2017 indicating it would hire 3,000 fewer staff than originally projected. Analysis of this revised hiring projection, however, indicates a further problem with CBP's funding estimates for personnel, because a reduction of 3,000 personnel should translate into savings of at least \$450,000,000. CBP is directed to provide greater details underlying its personnel costs and FTE model in the fiscal year 2018 request, and to revise its hiring projections at least quarterly to ensure the Committees have timely, accurate projections while formulating the funding levels for CBP's fiscal year 2018 appropriations.

The amount provided for this appropriation by PPA is as follows:

BORDER SECURITY OPERATIONS

Although the agreement does not include a provision from prior years mandating a workforce floor for Border Patrol Agents

(BPA), CBP is directed to continue working to develop a fully justified workforce staffing model that will provide validated requirements for all U.S. borders and to brief the Committees on its progress in this re-

gard not later than 30 days after the date of enactment of this Act.

Prior to completion of a BPA workforce staffing model, CBP is directed to maintain a minimum staffing presence of 2,212 agents

along the northern border, and is expected to increase that number as warranted by ongoing assessments of risk.

Within 120 days of the date of enactment of this Act, CBP shall brief the Committees on actions taken to track the costs and measure the effectiveness of consequence delivery systems. In addition, CBP and the Science and Technology Directorate shall jointly brief the Committees on requirements and a concept of operations for small UAS, as directed in the House report.

TRADE AND TRAVEL OPERATIONS

As directed in the House report, CBP shall provide a detailed expenditure plan for biometric exit activities within 90 days of the date of enactment of this Act. To the extent practicable, the plan should outline how innovative technology and effective collaboration with airports and airlines will minimize the need for additional CBP staffing.

Within 180 days of the date of enactment of this Act, CBP shall provide an updated resource allocation model for the Office of Field Operations detailing specific staffing, overtime, hours of operation, and funding for and implementation of planned enforcement initiatives, delineated by field office.

As directed in the House and Senate reports, CBP shall provide a multi-year investment plan for Non-Intrusive Inspection equipment with the fiscal year 2019 budget.

CBP recently implemented its Electronic Visa Update System (EVUS) before securing authority from Congress to impose fees that would cover its costs. As a result, U.S. taxpayers are left to foot a bill of \$27,800,000 for activities that are more appropriately borne by visitors to the United States who use the system. The Committees caution that providing appropriated resources for a program benefitting a selected group of travelers is not sustainable. CBP shall provide monthly updates on its efforts to secure statutory authority for fee collections.

INTEGRATED OPERATIONS

An increase of \$15,000,000 above the request is provided to upgrade the UAS fleet to a single configuration. CBP is directed to use any contract savings associated with the UAS reconfiguration to implement high-priority improvements to UAS operations. CBP is also directed to utilize any contract savings

from other programs for the deployment, operation, and maintenance of modern DoD-Reuse aerostats to help modernize and enhance surveillance capability, including increased maritime domain awareness of the littoral borders and the integration of data from deployed aerostats into the Air and Marine Operations Center network for analysis and information sharing. An increase of \$8,000,000 above the request is provided for facilities improvements, buildout, and other enhancements necessary to ensure continuity of UAS training programs.

MISSION SUPPORT

In the fiscal year 2018 request, CBP is directed to detail all of the costs associated with operating Enterprise Services, including all staffing and administrative support, planned contract awards, and efficiencies realized by establishing this new organizational unit.

CBP is directed to provide quarterly briefings on progress in implementing each of the 39 recommendations made by the CBP Integrity Advisory Panel, as detailed in the Senate report, and on the status of implementing other recommendations on the use of force and employee misconduct, as described in the House report.

CBP continues to struggle to maintain funded levels of Border Patrol agents and CBP officers, particularly at remote locations along the northern and southern borders. CBP is directed to work with the Office of Personnel Management as necessary to identify and utilize incentives to improve retention in hard to fill locations and to evaluate the potential impact of offering additional career path enhancements to personnel who choose those locations. CBP is encouraged to work with community, local, and tribal colleges to assist with recruitment efforts. In addition, CBP should continue collaborating with DOD, as required by the Border Jobs for Veterans Act (Public Law 114-68), to facilitate the recruitment of personnel exiting the military.

Within 120 days of the date of enactment of this Act, CBP shall brief the Committees on a comprehensive recruitment and retention strategy, including an assessment of options to address agency human capital requirements. In addition, CBP is directed to in-

clude the most critical components of this strategy in the fiscal year 2018 budget request, and to continue providing monthly data to the Committees on frontline staffing levels.

CBP continues performing capabilities gap (C-GAP) analyses, and more than one year after inquiries on how the analyses fit together, has not articulated how CBP leadership will use the reviews to improve CBP and DHS-wide collaboration and coordination. Within 90 days of the date of enactment of this Act, CBP shall brief the Committees on coordination and results of the requirements analysis process, as detailed in the Senate report.

CBP's finalization of the Single Window streamlined certain manual and automated processes, but more work remains to ensure that industry and Partner Government Agencies communicate efficiently and effectively. Within 90 days of the date of enactment of this Act, CBP shall brief the Committees on the prioritization of development efforts, as well as estimated timelines and costs for refining the Automated Commercial Environment (ACE). CBP is directed to ensure that the rescission of prior year funding included in this Act does not impact the development or operation and maintenance of ACE.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

A total of \$273,617,000 is provided for Procurement, Construction, and Improvements. The bill includes increases of \$15,941,000 for an additional multi-role enforcement aircraft, \$31,500,000 for additional light enforcement helicopters, and \$43,459,000, as requested, for continued deployment of Integrated Fixed Towers, including replacement of SBInet Block 1. The bill also includes the following reductions to the request: \$11,000,000 from Non-Intrusive Inspection equipment due to planned carryover of funds into fiscal year 2018; \$19,000,000 associated with a proposed construction project for which insufficient funds were requested; and \$56,507,000 due to the denial of the request to transfer OBIM from NPPD to CBP.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Procurement, Construction, and Improvements:		
Border Security Assets and Infrastructure	\$45,942,000	\$45,942,000
Trade and Travel Assets and Infrastructure	130,349,000	60,842,000
Integrated Operations Assets and Infrastructure:		
Airframes and Sensors	68,617,000	116,058,000
Construction and Facility Improvements	39,775,000	20,775,000
Mission Support Assets and Infrastructure	38,707,000	30,000,000
Subtotal, Procurement, Construction, and Improvements	\$323,390,000	\$273,617,000

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT

OPERATIONS AND SUPPORT

A total of \$6,168,532,000 is provided for Operations and Support. ICE is directed to brief the Committees on its obligation plan for the use of these funds, as specified under title I of this statement.

ICE continues to struggle with financial management across the agency. The underlying problems stem, in large part, from the limited authority and organizational placement of the ICE Chief Financial Officer (CFO) position, which is subordinated to the Executive Associate Directors of the operational units—Homeland Security Investigations and ERO.

The Director of ICE has an inherent fiduciary responsibility to ensure that funding provided by taxpayers to the agency is executed in the most efficient and effective manner possible. As the senior resource manager, the CFO has a vital role as a neutral

advisor to the Director on financial management issues. Unless the CFO reports directly to the Director, that individual is not positioned to provide the Director with unfiltered financial information, provide advance warning of concerns, or recommend resource-conscious alternatives. In essence, this lack of information denies the Director full knowledge of resource issues and the ability to make sound decisions based on all relevant information. The Director of ICE is strongly urged to elevate the position of CFO within the organization and to expand the CFO's responsibilities to include agency-wide resource management activities and funds control.

Financial management weaknesses have been a particular problem within ERO, as discussed below under the Custody Operations heading. The lack of fiscal discipline and cavalier management of funding for detention operations, evidenced by inaccurate budget formulation and uneven execution,

seems to be the result of a perception that ERO is funded by an indefinite appropriation. This belief is incorrect. ICE has a duty and responsibility to the Department, the Congress, and to taxpayers to be forthright in the identification of its requirements and the proper execution of its funding. It must manage-to-budget and cannot operate under the false perception that Congress will provide a bailout if financial controls fail or are simply ignored.

To begin to address these concerns, a provision in this Act requires the Secretary or the DHS CFO to certify to the Committees on a monthly basis whether ERO is operating consistently with the annual funding levels provided in this Act. The first certification will occur not later than 30 days after the date of enactment of this Act.

Another obstacle to sound financial management at ICE has been its approach to paying for service-wide costs (SWC), such as

rent, overtime, utilities, and security. Instead of budgeting transparently for these costs, ICE has historically relied on post-enactment assessments against the appropriations of agency components and programs to support them. Burying SWC in mission budgets makes oversight by ICE leadership and Congress significantly more difficult, leading to unchecked cost growth. In Custody Oper-

ations, for instance, SWC funding within the bed rate grew by 40 percent between fiscal year 2015 and fiscal year 2016; it is estimated to increase by another 33 percent in fiscal year 2017.

OMB Circular A-76 sets a standard of 12 percent as the estimated federal agency overhead factor. Given that ICE also budgets for these types of costs in its Mission Sup-

port PPA, it is likely that the agency's overhead total significantly exceeds the OMB standard. For the fiscal year 2018 budget, ICE is directed to provide separate budget estimates and detailed justifications for SWC in appropriate Mission Support sub-PPAs or through one or more new SWC PPAs.

The amount provided for this appropriation by PPA is as follows:

HOMELAND SECURITY INVESTIGATIONS

Domestic Investigations. A total of \$1,834,017,000 is provided for Domestic Investigations to support activities outlined in the House and Senate reports. ICE is directed to maintain increased levels of effort for all high-priority mission areas, including overstay enforcement and efforts to combat human trafficking and child exploitation, as detailed in the statement accompanying Public Law 114-113.

Not less than \$305,000 is to promote public awareness of the child pornography tip line and for activities to counter child exploitation, and not less than \$15,770,000 is for investigations of forced labor law violations, to include forced child labor. ICE is directed to submit an annual report on expenditures and performance metrics associated with forced labor law enforcement activities.

Of the total amount provided, \$10,000,000 is for continuing expanded overstay enforcement investigations and investigative support. ICE is expected to target such investigations on individuals who pose a risk to the public, and shall brief the Committees on the proposed use of these funds and on its overall overstay enforcement efforts, including its support of Department-wide activities as described in Senate Report 114-264, within 60 days of the date of enactment of this Act.

In addition, not less than \$10,000,000 is for expanding investigations into severe forms of human trafficking and against suspected human traffickers.

Within the total for Domestic Investigations, \$5,000,000 is provided above the request to fully fund ICE's implementation of International Megan's Law, including the Angel Watch Center. In addition, \$3,000,000 above the request is provided for enhancements at the Child Exploitation Investigations Unit (CEIU) at the Cyber Crimes Center, including \$2,000,000 for the Child Victim Identification Section and \$1,000,000 for CEIU operations.

The Student and Exchange Visitor Information System (SEVIS) was launched in 2002 to mitigate critical vulnerabilities exploited by the 9/11 hijackers. ICE is urged to make use of the full \$171,000,000 in anticipated fee revenue for SEVIS, \$26,000,000 more than the estimate included in the budget request, to expedite system development and dedicate additional investigative hours to ensuring that students who fail to comply with the terms of their visas face appropriate consequences.

International Investigations. A total of \$159,035,000 is provided for International Investigations, including \$18,000,000 above the

request for the Visa Security Program to annualize the costs of the previously funded program expansion and for expansion to additional high priority locations. ICE is directed to use the risk-based methodologies and enforcement metrics outlined in the Senate report to continue to plan and budget for Visa Security Program expansion to at least two high-threat locations per year in future budget requests. Efforts to combat the smuggling and trafficking of children from Central America shall be continued in fiscal year 2017 at not less than the fiscal year 2016 level.

ICE shall allocate not less than \$5,300,000 for war crime investigations, including but not limited to training, transportation, and hiring additional personnel at the OPLA Human Rights Law Section and the HSI Human Rights Violators and War Crimes Unit.

ENFORCEMENT AND REMOVAL OPERATIONS

A total of \$3,471,806,000 is provided for Enforcement and Removal Operations.

ICE's sex offender notifications are not consistently reaching the appropriate law enforcement agencies, despite prior direction from the Senate to remediate this problem. The agreement includes an additional \$2,000,000 to enhance and augment current efforts to apprise local law enforcement agencies of offender releases. This funding shall be used for contracts with entities to notify the appropriate local law enforcement agencies in real time based on an address given by offenders upon their release from ICE. Notifications should include specific crime code information so that they can be properly handled and received by the assigned personnel within the local law enforcement agencies.

Custody Operations. A total of \$2,557,542,000 is provided for Custody Operations, an increase of \$378,579,000 over the requested amount. This additional funding reflects the surge in the number of aliens placed into removal proceedings and detention after crossing our southern border during the first quarter of fiscal year 2017.

Even without the increased flow of aliens into the country, ICE's fiscal year 2017 budget request negligently and knowingly used a flawed projection of the Average Daily Population (ADP) based on a seasonally low data point, despite knowing full well that historical trends supported a higher annual detention bed requirement. Further, the daily bed rate used to calculate the funding requirement for family detention was almost half of the actual rate because ICE assumed sub-

stantial but unrealistic savings that were not based on a validated cost estimation methodology.

For the past several years, the agency's forecast for the required number of detention beds and its cost estimates have resulted in budget requests that missed the mark by wide margins. In fiscal years 2014 and 2015, ICE reprogrammed a combined total of \$83,000,000 out of Custody Operations because of a lower than planned ADP, only to reprogram \$127,000,000 into Custody Operations in fiscal year 2016 because the estimated number of beds needed and the average daily cost used in the budget request were grossly insufficient.

Accurately formulating the budget request for detention beds depends on two key variable—the cost per bed and the number of beds needed, as determined by the ADP. While ICE has the tools to develop reliable and detailed cost estimates for detention beds, it does not consistently use those tools in the formulation of the budget request. Even with more accurate estimates of bed rates, however, ICE simply has no model for estimating ADP. While there are factors beyond ICE's control that affect the size of the ADP in detention, such as the number of apprehensions by CBP, a model better informed by historical averages and seasonal trends would be a more prudent approach for forecasting the number of beds needed in the next fiscal year.

It is apparent that additional oversight and audit work in this area is needed. Therefore, the Government Accountability Office (GAO) is directed to review ICE's current methodologies for determining detention resource requirements, including its approach to estimating the ADP requirement; evaluate ICE's efforts to improve the accuracy of its cost estimates and projections; and report to the Committees within 180 days of the date of enactment of this Act on GAO's conclusions, including any appropriate recommendations.

To ensure costs are estimated using sound methodology, in the fiscal year 2018 Congressional Budget Justification, ICE shall fully detail the methodology used to determine the bed rate, including the bed model output costs assumed for each area of responsibility and facility type. All changes in the various cost categories must be fully explained, rather than generally justified as an increase in the bed rate. The inclusion of indirect, service-wide costs into the calculation for beds obscures the actual cost for detention beds and allows ICE to increase overhead costs

without identifying the true nature of the increase. Therefore, ICE shall no longer include indirect costs in the calculation for detention beds.

ICE must also improve its contracting process for detention beds. The agency has approximately 400 contracts with more than 200 detention facilities, each having varying services, costs, terms, and conditions. While contracts for detention beds are negotiated by the Office of Acquisition Management (OAQ), the Field Offices notify OAQ when more beds are needed and are responsible for reviewing vendor invoices for accuracy before submitting them for payment. However, there is neither a standard template for contracts nor a consistent method for Field Offices to validate invoices. ICE is directed to brief the Committees on actions it has taken to improve this process not later than 30 days after the date of enactment of this Act.

Also within 30 days of the date of enactment of this Act, and quarterly thereafter, ICE shall provide an update on its oversight of adult and family detention facilities. These updates shall include information on the number of detention facility inspections conducted, detailed results of the inspections, and the estimated costs of such reviews. Additionally, updates on family facilities are to incorporate recommendations for improvements made by the Advisory Committee on Family Residential Centers or as a result of ICE's community liaison office.

Within 45 days after the date of enactment of this Act, ICE shall report on its progress in implementing the 2011 Performance Based National Detention Standards, including the 2016 revisions, and requirements related to the Prison Rape Elimination Act, as detailed in the House report.

Fugitive Operations. A total of \$151,795,000 is provided for Fugitive Operations. ICE is directed to continue support for Mobile Criminal Alien Teams and to target individuals who pose a threat to the public, as described in the Senate report.

Criminal Alien Program. A total of \$312,350,000 is provided for the Criminal Alien Program, including support for 287(g) memoranda of agreement and \$34,500,000 for resources and full-time law enforcement personnel at the Law Enforcement Support Center (LESC). As discussed in the Senate report, ICE shall avoid duplicating LESC activities in other parts of the country. While ICE has expanded its enforcement priorities, it is expected that the agency will continue to emphasize the apprehension and removal of individuals posing the greatest threat to the safety and security of communities.

Section 10 of Executive Order 13768, *Enhancing Public Safety in the Interior of the*

United States, directed the Secretary to terminate the Priority Enforcement Program (PEP) and reinstate the Secure Communities program. The essential distinction between the two programs is the manner in which ICE seeks the transfer of individuals into its custody from local law enforcement agencies (LEA). Under Secure Communities, ICE issues detainers to LEAs, requesting that they maintain custody of individuals identified by ICE as enforcement priorities for up to 48 hours beyond the time the individuals would otherwise be released. Under PEP, ICE primarily issued requests that law enforcement agencies notify ICE prior to when such individuals would normally be released, although detainers were still issued under some circumstances.

In 2016, ICE reported that PEP's notification alternative was effective in eliciting cooperation from most jurisdictions that, by 2015, had stopped honoring ICE detainers. Before Secure Communities was replaced by PEP, 377 jurisdictions refused to comply with some or all ICE detainers. By the end of 2016, 280 of those jurisdictions (74 percent) had reestablished some level of cooperation with ICE by responding to requests for notification, honoring detainers, or both, including 21 out of the largest 25 such jurisdictions. ICE should ensure that the reinstatement of the Secure Communities program does not undermine the progress it made through PEP in 2015 and 2016. Specifically, ICE should continue to work with LEAs that are willing to notify ICE prior to releasing individuals who are enforcement priorities. To the extent that notifications from LEAs have not always provided ICE with enough advance warning to take custody of criminal aliens, ICE should continue working with LEAs to ensure that notifications are made in a more timely fashion.

Within 60 days of the date of enactment of this Act and quarterly thereafter, ICE shall provide a report to the Committees on the number of detention requests issued and actual custody transfers to ICE by state and local law enforcement jurisdiction, criminal category, immigration status, gender, country of citizenship, and enforcement priority. In addition, the report shall detail the same information for criminal aliens released by non-participating jurisdictions, and should describe ICE's efforts to solicit the cooperation of such jurisdictions.

ICE is actively planning to expand participation in the 287(g) program to several jurisdictions. A state or local law enforcement entity selected for the program receives specialized training in immigration law and other topics at the Federal Law Enforcement

Training Centers and enters into a joint Memorandum of Agreement with ICE in order to receive delegated authority to enforce immigration laws within their jurisdictions. Upon arrest of a suspect, the local law enforcement partner enters identifying information into both criminal and immigration databases during booking. Historically, this approach, used in penitentiaries, jails, or other detention facilities, has proven effective in identifying and removing criminal aliens while reducing allegations of racial profiling more common in the task force model. The specific funding level provided for the program has been eliminated from the bill, as the level was outdated and did not reflect the current, let alone the proposed, level of resources dedicated to this program. ICE is directed to brief the Committees on proposed expansion and metrics used to evaluate participation within 90 days of the date of enactment of this Act.

Alternatives to Detention. A total of \$125,883,000 is provided for the Alternatives to Detention (ATD) program. ICE shall prioritize ATD participation for vulnerable populations, including families, as appropriate.

Transportation and Removal Program. A total of \$324,236,000 is provided for the Transportation and Removal Program, an increase of \$1,542,000 above the amount requested.

MISSION SUPPORT

A total of \$364,533,000 is provided for Mission Support. Within the total, \$82,000,000 is for the Office of Professional Responsibility and \$6,000,000 is provided to develop and execute a comprehensive plan for immigration data improvement, as detailed in the Senate report. To ensure high-level engagement in support of this critical endeavor, the Act withholds \$25,000,000 from obligation under ICE's Operations and Support account until the Director submits a comprehensive plan to the Committees.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

A total of \$29,800,000 is provided for Procurement, Construction, and Improvements. Within the total, \$16,000,000 is for TECS Modernization, a funding level in line with projected fiscal year 2017 obligations. ICE is directed to brief the Committees on the development of this system as specified in the Committee reports.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Procurement, Construction, and Improvements:		
Operational Communications/Information Technology	\$21,000,000	\$16,000,000

TRANSPORTATION SECURITY ADMINISTRATION OPERATIONS AND SUPPORT

A total of \$7,105,047,000 is provided for Operations and Support, an amount that is par-

tially offset by \$2,130,000,000 in estimated aviation security fee collections that are credited to this appropriation, as authorized, resulting in a net appropriation of \$4,975,047,000. In addition, a mandatory ap-

propriation totaling \$250,000,000 is available through the Aviation Security Capital Fund.

AVIATION SCREENING OPERATIONS

A total of \$4,751,716,000 is provided for Aviation Screening Operations.

In fiscal year 2016, the air travel industry experienced significant growth, resulting in passenger volume at TSA checkpoints that exceeded the capacity supported by the agency's budgeted resources. In response, Congress swiftly approved three requests to reprogram and transfer funds to address immediate staffing needs and other urgent operational requirements to reduce wait times and increase security at TSA checkpoints, including the hiring of additional Transportation Security Officers (TSOs) and the procurement of critical screening equipment and canines. The total provided for fiscal year 2017 reflects increases to annualize the costs of these actions and address the continued growth in passenger volume, including: \$136,592,000 for an additional 1,396 FTE; \$38,591,000 for additional overtime and other unanticipated screener costs; \$3,451,000 for training for TSOs; \$22,528,000 to annualize the cost of 50 additional canine teams and associated requirements; and \$4,443,000 for support costs associated with the hiring of new TSOs and canine teams. An increase of \$7,600,000 is also provided to fully fund fiscal year 2017 requirements for the Screening Partnership Program. The total also reflects decreases to the request totaling \$6,040,000 due to projected under execution of proposed FTE in non-screener programs.

As directed in the House and Senate reports, TSA shall brief the Committees not later than 30 days after the date of enactment of this Act on a comprehensive assessment of operational requirements to improve the security and efficiency of passenger and baggage screening, including long-term efforts and contingency plans to predict and respond to changing passenger volumes without compromising security.

TSA is directed to brief the Committees on its canine requirements and future plans for expanding the National Explosives Detection Canine Team Program not later than 30 days after the date of enactment of this Act. TSA shall consider passenger volume and risk assessments when determining the deployment of the 50 new canine teams and the re-deployment of existing teams.

In lieu of the funding and direction in the House and Senate reports, the bill includes \$3,400,000 to establish a program whereby

third parties can perform air cargo screening services using canines. TSA shall work with the air cargo industry and canine providers, as well as any relevant law enforcement organizations to identify initial locations for implementing the program. Based on lessons learned at the initial sites, TSA shall work with stakeholders to outline minimum criteria for future entrance to the program. The criteria should consider the potential benefits of using third-party canine teams in the air cargo environment. Further, in assessing the right model for canine team certification, TSA shall ensure that costs to taxpayers are minimized and that scalability to meet industry demand is maximized. TSA is directed to brief the Committees not later than 60 days after the date of enactment of this Act on a timeline for implementation of the program.

Sufficient funds are included to support TSA's training activities at the Glynco Campus of the Federal Law Enforcement Training Centers, which now provides a basic training program for all new screeners. Before TSA moves forward with permanent investments in the campus related to this training, it must develop a business case to justify the cost of such training, including metrics related to increased TSO performance, improved morale, and better managed attrition. Further, TSA must assess the appropriate timing in a screener's onboarding process for such basic training to occur. TSA shall brief the Committees within 30 days of the date of enactment of this Act on the business case.

In lieu of the direction in the Senate report, TSA shall implement a pilot program for airports that procure, install, and operate exit lane breach control (ELBC) systems on a non-reimbursable basis that, for the duration of the pilot, reallocates any resulting FTE savings to address screening capacity challenges at the same airport where the exit lane pilot is being conducted. The reallocated personnel shall be in addition to existing screening staff assigned to the airport checkpoint prior to the deployment of ELBC technology. The procurement of ELBC systems shall be consistent with TSA's Airport Exit Lane toolbox and exit lane security guidelines, including technologies in use at airports today.

OTHER OPERATIONS AND ENFORCEMENT

A total of \$1,407,491,000 is provided for Other Operations and Enforcement. Within

the total are decreases totaling \$21,130,000 due to projected under execution of proposed FTE. Also within the total is an increase of \$2,500,000 for the Federal Flight Deck Officer (FFDO) and Flight Crew Training Program, including \$2,000,000 to ensure training slots are available to interested pilots and \$500,000 to conduct an analysis of training facility requirements for the FFDO Program.

TSA has convened appropriate stakeholders to initiate a national partnership framework for public area security in airports. This effort is overdue, given long-acknowledged threats and tragic incidents in the U.S. and around the globe, and stakeholders should be commended for their active participation. TSA shall brief the Committees within 180 days of the date of enactment of this Act on its progress in establishing principles and developing the framework.

MISSION SUPPORT

A total of \$945,840,000 is provided for Mission Support, which accounts for the annualized support costs associated with the hiring and training of additional TSOs and canine teams, as well as the projected under execution of proposed FTE and other administrative savings.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

A total of \$206,093,000 is provided for Procurement, Construction, and Improvements (PC&I).

Under the new DHS appropriations structure, all components are expected to use common, standardized appropriations and PPAs to fund activities and other spending items that are based on a consistent definition. As defined in the DHS Financial Policy Manual, the PC&I appropriation is intended to fund the "costs associated with buying, building, or improving end items—tools, assets, systems, and facilities—prior to sustainment." However, TSA's proposed fiscal year 2017 PC&I budget included numerous spending items that are not appropriately funded within this appropriation. TSA is directed to adhere to the guidance in the DHS Financial Policy Manual in its fiscal year 2018 budget request.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate	Final Bill
Procurement, Construction, and Improvements:		
Aviation Screening Infrastructure:		
Checkpoint Support	\$111,079,000	\$111,079,000
Checked Baggage	59,331,000	59,331,000
Infrastructure for Other Operations:		
Air Cargo	14,383,000	14,383,000
Surface Programs	15,000,000	15,000,000
Vetting Programs	6,300,000	6,300,000
Subtotal, Procurement, Construction, and Improvements	\$206,093,000	\$206,093,000

AVIATION SCREENING INFRASTRUCTURE

A total of \$170,410,000 is provided for Aviation Screening Infrastructure. TSA is directed to brief the Committees not later

than 90 days after the date of enactment of this Act on the progress of the Innovation Task Force and the status of any pilot programs.

RESEARCH AND DEVELOPMENT

A total of \$5,000,000 is provided for Research and Development.

COAST GUARD

OPERATING EXPENSES

A total of \$7,079,628,000 is provided for Operating Expenses, including \$502,692,000 for defense activities, of which \$162,692,000 is designated for overseas contingency operations (OCO) and the global war on terrorism (GWOT), which may be allocated without regard to section 503 in title V of this Act.

Included in the total is \$4,490,000 to increase the staffing of the Coast Guard's Cyber Command and to establish a Cyber Protection Team to enhance the Coast Guard's cyber capabilities. Not later than 90 days after the date of enactment of this Act, the Coast Guard shall brief the Committees on plans, including a funding strategy, for improving the cybersecurity posture of the Coast Guard and balancing requirements of operating within the ".mil" domain while adhering to DHS cyber directives.

The Coast Guard is directed to submit to the Committees a Capital Investment Plan (CIP) for fiscal years 2018 through 2022 by June 30, 2017.

The Coast Guard is directed to move quickly in approving additional ballast water management systems (BWMS) and shall

work with the Environmental Protection Agency to reexamine whether the most probable number method can be used as an alternative for testing the effectiveness of treatment systems. The Coast Guard is further directed to brief the Committees on the status of its ballast water management systems (BWMS) testing efforts as set forth in the House report.

Within the amount appropriated for Operating Expenses, a total of \$6,000,000 is included to initiate fishing safety grant programs, as authorized by the Coast Guard Authorization Act of 2010. This amount is offset by savings derived from lower than expected fuel costs.

Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to the Committees a report on the Coast Guard's plans to ensure long-term search and rescue coverage for the Arctic. This report shall also address the Coast Guard's capability for conducting response missions throughout the Western Alaska Captain of the Port Zone, including the Bering Sea and Arctic Ocean. The report shall provide details on pollution response equipment; spill response organizations; spill pre-

vention and mitigation methods; and response partnerships with federal, state, and local entities.

Within the total for Operating Expenses, an additional \$4,750,000 is provided for the procurement of small response boats in fiscal year 2017. This amount is offset by savings derived from lower than expected fuel costs. In addition, long-standing language is included in the bill authorizing the use of up to \$31,000,000 from the Operating Expenses appropriation for certain small boat purchases and repairs.

Within the amount appropriated for Operating Expenses, \$5,000,000 is included for the National Coast Guard Museum, subject to the limitations specified in 98(b) of title 14, United States Code.

The Coast Guard Yard, located at Curtis Bay, Maryland, directly supports fleet readiness and has been a vital part of the Coast Guard's readiness and infrastructure for more than 100 years. Sufficient industrial work should be assigned to the Yard to maintain this capability.

The amount provided for this appropriation by PPA is as follows:

Civilian Pay and Benefits. A total of \$808,969,000 is provided for Civilian Pay and Benefits, including \$8,355,000 in adjustments reflecting a more realistic hiring and attrition level for the fiscal year. The total includes \$788,000 for additional personnel needed to implement the Blended Retirement System.

Overseas Contingency Operations/Global War on Terrorism Funding. Funding for Coast Guard OCO/GWOT activities is provided directly through the Operating Expenses appropriation instead of through the Navy's Operation and Maintenance account. The Coast Guard is directed to brief the Committees not later than 30 days after the date of enactment of this Act on any changes expected in the funding requirement for OCO/GWOT activities during fiscal year 2017. Further, the Coast Guard is directed to include details of its current and future support to Central Command in the classified annex of the fiscal year 2018 budget request.

VESSELS

Survey and Design—Vessels and Boats. A total of \$9,500,000 is provided in support of survey and design, including \$2,000,000 for initial survey and design work associated with the acquisition of icebreaking capacity on the Great Lakes, as detailed in the Senate report, and \$1,000,000 for the Inland River Tender fleet.

National Security Cutter. A total of \$255,400,000 is provided for the National Security Cutter (NSC) program. The total includes \$95,000,000 for procurement of long lead time materials associated with a tenth National Security Cutter, and \$3,400,000 for post-delivery activities for the ninth NSC. In addition, \$30,000,000 is included to support a necessary Structural Enhancement Dry-dock Availability (SEDA) for the second NSC.

Offshore Patrol Cutter. The policy requiring the Coast Guard to obtain appropriations for the total acquisition cost of a vessel, including long lead time materials, production costs, and post-production costs, before a production contract can be awarded has the potential to create shipbuilding inefficiencies, force delays in the obligation of production funds, and require post-production funds far in advance of when they will be used. The Office of Management and Budget is expected to give the Coast Guard the flexibility to acquire vessels, including the Offshore Patrol Cutter (OPC), in the most efficient manner within the guidelines of strict governance measures.

Fast Response Cutter. A total of \$325,000,000 is provided for the Fast Response Cutter program for the acquisition of six cutters.

Polar Ice Breaker. To support the procurement of a heavy ice breaker, \$25,000,000 is provided for a new joint acquisition strategy developed by the Coast Guard and the U.S. Navy through a Polar Ice Breaking Vessel Integrated Program Office (IPO). These

funds are in addition to \$30,000,000 already reprogrammed to this effort in fiscal year 2017. Under the new strategy, the IPO will obtain detailed industry feedback through trade-off analyses to further refine and validate operational requirements. A report on polar icebreaker requirements, preferred design, overall acquisition strategy, and a breakout of funds necessary to support the acquisition shall be submitted to the Committees not later than 90 days after the date of enactment of this Act.

AIRCRAFT

The recommendation includes a decrease to the President's budget request of \$21,044,000 to fund a realistic and achievable number of FTE. Within the total, \$42,966,000 is available until September 30, 2018, to include \$6,000,000 for investigations related to missing and exploited children; \$5,557,000 for the James J. Rowley Training Center; \$8,909,000 for Operational Mission Support; \$18,000,000 for protective travel; and \$4,500,000 for National Special Security Events (NSSE).

Subtotal, Operations and Support	\$1,777,992,000	\$1,821,451,000

The recommendation includes \$13,000,000 to implement new overtime payment authority for agents and officers authorized by Public Law 114-31. Due to the heavy demands of the 2016 presidential campaign, and also as a result of the attrition and hiring challenges that have plagued the United States Secret Service (USSS) over the last several years, many agents and officers exceeded the previous legislative cap on overtime pay. This additional funding supports compensation for overtime, combined with basic pay, up to the annual rate of basic pay for level II of the Executive Schedule.

Increases to the request are also included to fully support permanent change of station requirements and for necessary retention initiatives. The USSS is directed to fully budget for all known requirements in future years for these efforts. Congress should not

be forced to fund known requirements purposely omitted from the budget request.

The agreement includes \$13,869,000 to enhance current USSS investigative initiatives, including the Electronic Crimes Special Agent Program and Electronic Crimes Task Force missions, and basic and advanced computer forensics training. The Secret Service shall provide periodic briefings to the Committees on the status of investigations and ensure that the associated funding and personnel resources continue to be identified in future budgets.

The bill sustains the fiscal year 2016 funding level of \$2,366,000 for forensic and investigative support related to missing and exploited children and \$6,000,000 for grants related to investigations of missing and exploited children.

In addition, the bill continues to provide \$4,500,000, as requested, to defray costs specific to Secret Service execution of its statu-

tory responsibilities to direct the planning and coordination of NSSEs. A general provision in the Act prohibits the use of funds to reimburse any federal department or agency for its participation in an NSSE. The Secret Service is directed to provide periodic updates to the Committees on NSSEs planned for fiscal year 2017 prior to and following each event.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

NATIONAL PROTECTION AND PROGRAMS DIRECTORATE

OPERATIONS AND SUPPORT

A total of \$1,372,268,000 is provided for Operations and Support of the National Protection and Programs Directorate (NPPD), including \$235,429,000 for the Office of Biometric Identity Management (OBIM). Based on under-execution of funding for personnel, the Act reduces the request by \$37,781,890 and 386 FTE. To help address the need to retain and hire personnel with the requisite cybersecurity skills, however, the total includes all funding requested for special cyber pay and bonuses.

In lieu of the briefing required in Senate Report 114-264, NPPD is directed to include with the fiscal year 2018 budget request a five-year plan to ensure appropriate office space for headquarters, regional, and field staff. The plan shall ensure headquarters staff is appropriately consolidated and whenever possible regional offices are collocated with other components to maximize mission collaboration.

Not later than 90 days after the date of enactment of this Act, NPPD shall provide a report to the Committees describing the definition and process used to categorize each amount in the NPPD PPAs as either defense or non-defense.

In lieu of the requirement in the Senate report regarding strategic documentation for proposed increases for Protective Security Advisors or Cyber Security Advisors, NPPD shall include detailed justifications in the budget request.

The National Cybersecurity and Communications Integration Center (NCCIC) is funded at \$196,904,000, including \$147,975,000 for Computer Emergency Response Teams (CERT).

Within 120 days of the date of enactment of this Act, NPPD shall brief the Committees on the types of assistance, including technical and formal ongoing engagement, available to state and local governments, including law enforcement agencies, to protect their networks. The Department shall also work to include state and local law enforcement agencies in the National Cybersecurity Review, and shall continue raising awareness among these agencies on the need to strengthen their own cyber-defenses and on the resources available for such purposes.

Cybersecurity Education and Awareness. The bill includes a total of \$14,133,000 for cybersecurity education, of which \$13,698,000 is provided through the Cyber Infrastructure Resilience PPA and \$435,000 is provided through the Mission Support PPA. Any future proposed funding reductions to cybersecurity education will not be considered unless the Directorate provides a clear plan for how the funded activities would be fully realigned within other agencies in a manner that sustains the objectives of this critical effort.

Federal Cybersecurity. NPPD continues efforts to find common strategies and security solutions across the federal government for cybersecurity, such as Einstein and Continuous Diagnostics and Mitigation. Funds appropriated to DHS, however, should supple-

ment but not supplant appropriations of other federal departments and agencies. NPPD is directed to develop a strategic plan, in conjunction with OMB and partner departments and agencies, for securing civilian federal networks. The plan shall include an effective cost model whereby departments and agencies assume responsibility for the costs of their own systems while also using NPPD subject matter expertise and bulk-buying capabilities when it enhances security and is cost effective. NPPD shall provide the strategic plan to the Committees not later than 250 days after the date of enactment of this Act, including a proposed governance structure, roles and responsibilities of departments and agencies, responsibilities inherent to NPPD, and a model for ensuring a long-term and sound financing structure for federal cybersecurity needs.

INFRASTRUCTURE PROTECTION

A total of \$186,292,000 is provided for Infrastructure Protection, including the requested level of funding for the National Infrastructure Coordination Center and \$39,723,000 for Protective Security Advisors. Reductions to the request reflect adjustments to hiring projections.

Although the fiscal year 2017 request proposed the transfer of OBIM from NPPD to CBP, in the absence of authorizing legislation directing such a realignment, this Act continues to fund OBIM through NPPD.

Until the Secretary or his designee briefs the Committees, as specified in section 301 of this Act, on how OBIM is addressing stakeholder concerns regarding requirements and priorities, \$20,000,000 is withheld from obligation.

FEDERAL PROTECTIVE SERVICE

A total of \$1,451,078,000 is made available for the Federal Protective Service (FPS), as requested. This funding is generated by collections of security fees from federal agencies based on security services provided by FPS. The Secretary and the Director of OMB shall certify in writing to the Committees, not later than 60 days after the date of enactment of this Act, that FPS operations will be fully funded in fiscal year 2017 through the collection of security fees. Should sufficient revenue not be collected to fully fund operations, an expenditure plan is required describing how security risks will be adequately addressed. In lieu of direction in the Senate bill regarding a strategic human capital plan, the Director of FPS shall provide a semi-annual briefing to the Committees detailing the alignment of staffing resources with mission requirements based on a current threat assessment.

GRANTS

A total of \$2,709,531,000 is provided for Grants. FEMA grantees shall continue to provide reports on their use of funds, as determined necessary by the Secretary.

FEMA preparedness grants are primarily designed to build core capabilities to address terrorist attacks. Because the threat environment has become more dynamic, however, it has created a tension between sustaining current capabilities and addressing changes in the threat landscape. The FEMA risk formula, which determines the distribution of homeland security preparedness grants, should evolve with the changing threat environment while also maintaining capabilities for traditional and known threats. While FEMA updates data points for incorporation, and considers comments from grantees on how the risk formula might be improved, it is not clear that there is a comprehensive process for re-evaluating the risk formula as part of the larger strategic context. FEMA is directed to brief the Committees not later than 180 days after the date of enactment of this Act on how developing and maintaining core capabilities addresses current and emerging threats; how FEMA adjusts the risk formula and training needs for emerging threats; and on innovative ways to increase responsiveness of the annual grant allocation process to address current threats.

Urban Area Security Initiative. Consistent with the 9/11 Act, FEMA shall conduct risk assessments for the 100 most populous metropolitan statistical areas prior to making UASI grant awards. It is expected that UASI

funding will be limited to urban areas representing up to 85 percent of the cumulative national terrorism risk to urban areas and that resources will continue to be allocated in proportion to risk.

Countering Violent Extremism. The fiscal year 2016 Consolidated Appropriations Act provided \$50,000,000, available until September 30, 2017, for emergent threats from violent extremism and from complex, coordinated terrorist attacks, like the 2015 incident in Paris, France. Of this total, \$10,000,000 was dedicated specifically for countering violent extremism (CVE) to explore ways to prevent radicalization and deter recruitment of vulnerable people who could be inspired to commit acts of terror. Although grant awards were announced in accordance with congressional intent on January 13, 2017, Congress has learned the grants have so far been withheld from obligation. The Department is reminded of the requirements set forth in the Impoundment Control Act (ICA). If the Administration is withholding this budget authority from obligation—temporarily or permanently—it is required under the ICA to send a “special message” to Congress and the Comptroller General of the United States that specifies why the funds are being withheld from obligation. Importantly, funds cannot be deferred for policy reasons. Given the current impasse and the currently available funds, no additional funds are provided for CVE grants in this Act. The Secretary is directed to fulfill congressional intent by releasing the fiscal year 2016 funding without delay.

Flood Hazard Mapping and Risk Analysis. A total of \$177,531,000 is provided for Flood Hazard Mapping and Risk Analysis. FEMA shall ensure data collection and modeling processes are transparent from beginning to end and involve the active participation of local jurisdictions to ensure maps accurately reflect local conditions and minimize costs to local communities.

Emergency Food and Shelter Program. A total of \$120,000,000 is provided for the Emergency Food and Shelter Program (EFSP). Once again, the budget request included a provision allowing the FEMA Administrator to transfer EFSP to the Department of Housing and Urban Development (HUD). While this proposal may have merit, Congress and other stakeholders have not been properly consulted in developing support for such a transfer. If future budget requests again propose moving EFSP to HUD, they should do so directly within the HUD budget, including the justification for moving the program; a plan for funds transfer, including previously obligated amounts and recoveries; a five-year strategic outlook for the program within HUD; a timeline for an interagency agreement effecting the transfer; and a description of efforts to consult with the EFSP National Board on the proposed move.

EDUCATION, TRAINING, AND EXERCISES

A total of \$273,927,000 is provided for Education, Training, and Exercises. Within the total, \$8,000,000 is for Continuing Training, including \$3,500,000 for rural first responder training.

A total of \$44,000,000 is provided for the United States Fire Administration, including \$42,500,000 under this heading and \$1,500,000 under the Procurement, Construction, and Improvements appropriation. Funding described in the Senate report for facilities at the Center for Domestic Preparedness is also included as part of the Procurement, Construction, and Improvements appropriation.

DISASTER RELIEF FUND

A total of \$7,328,515,000 is provided for the Disaster Relief Fund (DRF), of which \$6,713,000,000 is designated as being for disaster relief for major disasters pursuant to section 251(b)(2)(D) of the Balanced Budget and Emergency Deficit Control Act of 1985. In lieu of transferring funding from the DRF to the OIG for audits of disaster-related grant awards, as proposed in the budget and directed in prior appropriations Acts, funding for DRF audits is provided directly to the OIG for better congressional oversight.

As directed in Senate Report 114-264, FEMA shall provide a report, not later than 180 days after the date of enactment of this Act, outlining specific actions and timeframes for state and local governments to better share information about fiscal preparation for disaster costs.

NATIONAL FLOOD INSURANCE FUND

A total of \$181,799,000 is provided for the National Flood Insurance Fund.

TITLE IV—RESEARCH, DEVELOPMENT, TRAINING, AND SERVICES

U.S. CITIZENSHIP AND IMMIGRATION SERVICES OPERATIONS AND SUPPORT

A total of \$103,912,000 is provided in discretionary appropriations for E-Verify. DHS is continuing to evaluate tools to analyze relevant social media in vetting for certain types of immigration benefits. It is crucial that DHS efficiently, effectively, and appropriately examine all relevant social media data sources from both conventional networks and the "dark web," with special emphasis on those networks used outside the U.S. where most of the postings are in languages other than English. In addition, DHS must maintain persistent access to these sources throughout the adjudication process. Until DHS is able to incorporate social media more comprehensively into its vetting processes, USCIS is directed to work with the Department of State to ensure appropriate social media vetting for the highest risk persons seeking admission into the United States or seeking benefits while in the United States.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

A total of \$15,227,000 is provided in discretionary appropriations for E-Verify.

FEDERAL ASSISTANCE

In lieu of a discretionary appropriation for the Citizenship and Integration Grant Program, and consistent with prior years, an administrative provision is included at the end of title IV to permit USCIS to obligate not more than \$10,000,000 from user fee revenue to support grants to benefit individuals who are lawfully admitted into the United States. In addition to the fee revenue made available for this purpose, the Department has the authority to accept private donations that will support activities that promote citizenship and integration. To facilitate the acceptance and use of such donations by USCIS, the bill establishes a Treasury account for that purpose.

FEDERAL LAW ENFORCEMENT TRAINING CENTERS

OPERATIONS AND SUPPORT

A total of \$242,518,000 is provided for Operations and Support, including \$50,748,000, made available for two years, for materials and support costs related to Federal law enforcement basic training and \$27,553,000, made available for three years, for minor alterations and maintenance of facilities. FLETC shall provide to the Committees quarterly plans for the obligation of funds, as specified in the explanatory statement accompanying Public Law 114-113, and include a review of FLETC's hiring campaigns and attrition levels.

FLETC shall detail in its annual budget submission how data supports its core business decision-making processes, including its facility utilization processes, and shall provide semi-annual updates on this ongoing initiative, beginning within the first 90 days of the date of the enactment of this Act.

FLETC is encouraged to support continued testing and evaluation of both prototype and proven active shooter response technologies and to share its findings with its partner organizations.

Subtotal, Research and Development	\$448,505,000	\$470,624,000

RESEARCH, DEVELOPMENT, AND INNOVATION

A total of \$430,124,000 is provided for Research, Development, and Innovation (RD&I). In lieu of the \$12,000,000 transfer from BioWatch proposed by the Senate, the bill allows up to \$2,000,000 to be transferred

from OHA to S&T for the advancement of next generation biosurveillance tools. In addition, \$3,900,000 is included for S&T RD&I to initiate long-term research in leap-ahead technologies that can be applied across more varied operational biosurveillance environ-

ments. This work includes the establishment of key performance parameters for bioterrorism, while leveraging the bioterrorism research investments of other federal agencies, most notably the Department of Defense.

S&T is directed to brief the Committees on the proposed allocation of RD&I funds by not later than 60 days after the date of enactment of this Act.

In lieu of the direction in the Senate report, S&T is directed to brief the Committees not later than 90 days after the date of enactment of this Act on how external peer review is incorporated into its current processes.

As directed in the House report, DHS shall issue a Management Directive formalizing the Integrated Product Team construct to ensure continued progress towards institutionalizing repeatable processes within S&T.

S&T has formalized relationships with academic partners on UAS research, testing, and development, as directed in the Senate report. S&T is directed to expeditiously execute agreements for activities necessary to mature and institutionalize DHS's efficient, effective use of UAS.

As directed in the Senate report, S&T shall update the Committees on the outcome of the feasibility study for installing grid reliability technology not later than 30 days after its completion. In the event of a favorable outcome from the study, S&T is encouraged to continue development of the Resilient Electric Grid in partnership with the relevant utility companies.

UNIVERSITY PROGRAMS

A total of \$40,500,000 is provided for University Programs. S&T shall prioritize collaborations with qualified research universities to support critical research topics in priority areas, including border security, cybersecurity, and first responder technology.

PROCUREMENT, CONSTRUCTION, AND IMPROVEMENTS

A total of \$101,053,000 is provided for Procurement, Construction, and Improvements, of which \$53,709,000 is for Large Scale Detection Systems and \$47,344,000 is for Human Portable Radiation/Nuclear Detection Systems. The reduction below the request reflects \$1,300,000 in unobligated carryover balances that should be used to support planned Human Portable Radiation/Nuclear Detection System procurements in fiscal year 2017.

RESEARCH AND DEVELOPMENT

A total of \$155,061,000 is provided for Research and Development.

The amount provided for this appropriation by PPA is as follows:

Table with 2 columns: Budget Estimate, Final Bill. Rows include Research and Development, Architecture Planning and Analysis, Transformational Research and Development, Detection Capability Development, Detection Capability Assessments, Nuclear Forensics, and Subtotal, Research and Development.

Including the funds provided within the Operations and Support appropriation, the bill provides a total of \$22,000,000 for Securing the Cities.

TITLE IV—ADMINISTRATIVE PROVISIONS—THIS ACT

Section 401. A provision proposed by the House and Senate is continued allowing USCIS to acquire, operate, equip, and dispose of up to five vehicles under certain scenarios.

Section 402. A provision proposed by the House and Senate is continued prohibiting USCIS from granting immigration benefits unless the results of background checks are completed prior to the granting of the benefit and the results do not preclude the granting of the benefit.

Section 403. A provision proposed by the Senate is continued limiting the use of A-76 competitions by USCIS. The House proposed no similar provision.

Section 404. A provision proposed by the House and Senate is continued and modified making immigration examination fee collections explicitly available for immigrant integration grants, not to exceed \$10,000,000, in fiscal year 2017, and allowing for related donations.

Section 405. A provision proposed by the House and Senate is continued authorizing the Director of FLETC to distribute funds for incurred training accreditation.

Section 406. A provision proposed by the House and Senate is continued directing the Director of FLETC to ensure FLETC training facilities are operated at capacity throughout the fiscal year.

Section 408. A new provision proposed by the House is modified establishing the "Federal Law Enforcement Training Centers—Procurement, Construction, and Improvements" appropriation, and allowing for the acceptance of transfers from government agencies into this appropriation. The Senate proposed no similar provision.

Section 409. A provision proposed by the House and Senate is continued classifying FLETC instructor staff as inherently governmental for certain considerations.

TITLE V—GENERAL PROVISIONS (INCLUDING TRANSFERS AND RESCISSIONS OF FUNDS)

Section 501. A provision proposed by the House and Senate is continued directing that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. A provision proposed by the House and Senate is continued providing authority to merge unexpended balances of prior appropriations with new appropriation accounts, to be used for the same purpose, subject to reprogramming guidelines.

Section 503. A provision proposed by the House and Senate is continued and modified limiting reprogramming authority for funds within an appropriation and providing limited authority for transfers between appropriations. The Department must notify the Committees on Appropriations prior to each reprogramming of funds that would reduce programs, projects, activities, or personnel by more than ten percent. Notifications are also required for each reprogramming of funds that would increase a program, project, or activity by more than \$5,000,000 or ten percent, whichever is less. The Department must submit these notifications to the Committees on Appropriations at least 15 days in advance of any such reprogramming.

For transfers, accounts may not be reduced by more than five percent or increased by more than ten percent. The Committees on Appropriations must be notified 30 days in advance of any transfer.

Transfer authority is provided to give the Department flexibility in responding to emerging requirements and significant changes in circumstances, but is not primarily intended to facilitate the implementation of new programs, projects, or activities that were not proposed in a formal budget submission. To avoid violations of the Anti-Deficiency Act, the Secretary shall ensure that any transfer of funds is carried out in compliance with the limitations and requirements of section 503(b). In particular, the Secretary should ensure that any such transfers adhere to the opinion of the Comptroller General's decision in The Matter of:

John D. Webster, Director, Financial Services, Library of Congress, dated November 7, 1997, with regard to the definition of an appropriation subject to transfer limitations.

For purposes of reprogramming notifications, "program, project, or activity" is defined as an amount identified in the detailed funding table located at the end of this statement or an amount directed for a specific purpose in this statement.

Also for purposes of reprogramming notifications, the creation of a new program, project, or activity is defined as any significant new activity that has not been explicitly justified to the Congress in budget justification material and for which funds have not been appropriated by the Congress. For further guidance when determining which movements of funds are subject to section 503, the Department is reminded to follow GAO's definition of "program, project, or activity" as detailed in GAO's A Glossary of Terms Used in the Federal Budget Process. Within 30 days of the date of enactment of this Act, the Department shall submit to the Committees a table delineating PPAs subject to section 503 notification requirements, as defined in this paragraph.

All agencies funded by the Department of Homeland Security Appropriations Act, 2017, must comply with these reprogramming requirements. In addition, the Department shall submit requests on a timely basis and provide complete explanations of the proposed reallocations, including detailed justifications for the increases and offsets, and any specific impact the proposed changes would have on the budget request for the following fiscal year and future-year appropriations requirements. Each notification submitted to the Committees should include a detailed table showing the proposed revisions to funding and FTE—at the account, program, project, and activity level—for the current fiscal year, along with any funding and FTE impacts on the budget year.

The Department shall manage its PPAs within the levels appropriated, and should only submit reprogramming or transfer notifications in cases of unforeseeable and compelling circumstances that could not have been predicted when formulating the budget request for the current fiscal year. When the Department submits a reprogramming or transfer notification and does not receive

identical responses from the House and Senate Committees, it is expected to reconcile the differences before proceeding.

The Department is not to submit a reprogramming or transfer notification after June 30 except in extraordinary circumstances that imminently threaten the safety of human life or the protection of property. If an above-threshold reprogramming or a transfer is needed after June 30, the notice should contain sufficient documentation as to why it meets this statutory exception.

The section 503(a)(5) limitation on reprogramming funds for the purpose of reorganizing components is not intended to apply to routine or small reallocations of personnel or functions within components. Instead, this language is directed at larger reorganizations of the Department, to include the allocation or reallocation of functions across components and the establishment, consolidation, alteration, or discontinuation of organizational units authorized pursuant to section 872 of the Homeland Security Act of 2002. A notification under this subsection is not required for a change of homeport for USCG vessels.

Deobligated funds are also subject to the reprogramming and transfer limitations and requirements set forth in this section.

Section 503(e) authorizes the Secretary to transfer up to \$20,000,000 to address immigration emergencies after notifying the Committees of such transfer at least five days in advance.

Section 504. A provision proposed by the House and Senate is continued prohibiting funds appropriated or otherwise made available to the Department to make payment to the Working Capital Fund (WCF), except for activities and amounts allowed in the President's fiscal year 2017 budget request. Funds provided to the WCF are available until expended. The Department can only charge components for direct usage of the WCF and these funds may be used only for the purposes consistent with the contributing component. Any funds paid in advance or for reimbursement must reflect the full cost of each service. The Department shall submit a notification prior to adding a new activity to the fund or eliminating an existing activity from the fund. For activities added to the fund, such notifications shall detail the source of funds by PPA. In addition, the Department shall submit quarterly WCF execution reports to the Committees that include activity-level detail.

Section 505. A provision proposed by the House and Senate is continued and modified providing that not to exceed 50 percent of unobligated balances from prior year appropriations for each Operations and Support appropriation, the Coast Guard's Operating Expenses appropriation, and amounts for salaries and expenses in the Coast Guard's Reserve Training and Acquisition, Construction, and Improvements accounts, shall remain available through fiscal year 2018, subject to section 503 reprogramming requirements.

Section 506. A provision proposed by the House and Senate is continued that deems intelligence activities to be specifically authorized during fiscal year 2017 until the enactment of an Act authorizing intelligence activities for fiscal year 2017.

Section 507. A provision proposed by the House and Senate is continued requiring notification to the Committees at least three days before DHS executes or announces grant allocations; grant awards; contract awards, including contracts covered by the Federal Acquisition Regulation; other transaction agreements; letters of intent; a task or delivery order on multiple award contracts totaling \$1,000,000 or more; a task or

delivery order greater than \$10,000,000 from multi-year funds; or sole-source grant awards. Notifications shall include a description of projects or activities to be funded and their location, including city, county, and state.

Section 508. A provision proposed by the House and Senate is continued prohibiting all agencies from purchasing, constructing, or leasing additional facilities for Federal law enforcement training without advance notification to the Committees.

Section 509. A provision proposed by the House and Senate is continued prohibiting the use of funds for any construction, repair, alteration, or acquisition project for which a prospectus, if required under chapter 33 of title 40, United States Code, has not been approved.

Section 510. A provision proposed by the House and Senate is continued and modified that includes and consolidates by reference prior-year statutory provisions related to a contracting officer's technical representative training; sensitive security information; and the use of funds in conformance with section 303 of the Energy Policy Act of 1992.

Section 511. A provision proposed by the House and Senate is continued prohibiting the use of funds in contravention of the Buy American Act.

Section 512. A provision proposed by the House and Senate is continued regarding the oath of allegiance required by section 337 of the Immigration and Nationality Act.

Section 513. A provision proposed by the House is continued prohibiting funds for the Principal Federal Official during a Stafford Act declared disaster or emergency, with certain exceptions. The Senate proposed no similar provision.

Section 517. A provision proposed by the House and Senate is continued prohibiting the use of funds for the transfer or release of individuals detained at United States Naval Station, Guantanamo Bay, Cuba into or within the United States.

Section 518. A provision proposed by the House and Senate is continued prohibiting funds in this Act to be used for first-class travel.

A provision proposed by the House and Senate is continued prohibiting funds appropriated or otherwise made available by this Act to pay for award or incentive fees for contractors with below satisfactory performance or performance that fails to meet the basic requirements of the contract.

Section 521. A provision proposed by the House and Senate is continued requiring that any new processes developed to screen aviation passengers and crews for transportation or national security consider privacy and civil liberties, consistent with applicable laws, regulations, and guidance.

Section 522. A provision proposed by the House and Senate is continued prohibiting the use of funds to enter into a federal con-

tract unless the contract meets requirements of the Federal Property and Administrative Services Act of 1949 or chapter 137 of title 10 U.S.C., and the Federal Acquisition Regulation, unless the contract is otherwise authorized by statute without regard to this section.

Section 524. Section 544. A new provision is included providing an additional \$41,000,000 to reimburse extraordinary law enforcement personnel costs for protection activities directly and demonstrably associated with a residence of the President that is designated for protection. Although the federal government does not otherwise reimburse costs of state or local law enforcement for activities in support of the United States Secret Service protection mission, these funds are being provided in recognition of the extraordinary costs borne by a small number of jurisdictions in which a residence of the President is located. The funding may not be used to supplant state or local funds for personnel costs that would otherwise have been expended by a jurisdiction, and shall not be available to reimburse the cost of equipment.

TITLE VI—DEPARTMENT OF HOMELAND SECURITY—ADDITIONAL APPROPRIATIONS

SECURITY, ENFORCEMENT, AND INVESTIGATIONS

A total of \$1,520,242,000 is provided for enhanced border security, including \$1,140,121,000 in this title and \$380,121,000 in title II of this Act. As directed in title I of this Act, DHS shall provide obligation plans to the Committees for these funds not later than 45 days after the date of enactment of this Act.

U.S. CUSTOMS AND BORDER PROTECTION OPERATIONS AND SUPPORT

An additional appropriation of \$274,813,000 is provided for Operations and Support.

The Anti-Border Corruption Act (ABCA) of 2010 requires U.S. Customs and Border Protection (CBP) to administer polygraph examinations to all law enforcement applicants prior to their hiring. As an alternative to its current polygraph exam, the Law Enforcement Pre-employment Test (LEPET), CBP is considering adopting a shorter, alternative test, the Test for Espionage, Sabotage, and Corruption (TES-C). As a precursor to adopting any alternative to the LEPET, CBP is directed to first carry out a trial implementation of the alternative standard for a subset of Border Patrol applicants for no longer than a six month period. After completing the trial, CBP shall submit a detailed report to the Committees on Appropriations of the Senate and the House of Representatives, the Committee on Homeland Security and Government Affairs of the Senate, and the Committee on Homeland Security of the House of Representatives describing the trial and its results, including the rationale for considering an alternate standard; changes in hiring efficiencies; comparisons between the results of the LEPET and the alternative standard; an analysis of risks that would be associated with adopting the alternative

standard and planned efforts to mitigate such risk; and the costs of implementation.

DIVISION G—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2017

The following statement is an explanation of the effects of Division G, which makes appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2017. Report language contained in House Report 114-632 and Senate Report 114-281 providing specific guidance to agencies regarding the administration of appropriated funds and any corresponding reporting requirements carries the same emphasis as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary herein. This explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

In cases where the House report, Senate report, or this explanatory statement directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.—Where this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment, and Related Agencies and the Senate Subcommittee on Interior, Environment, and Related Agencies.

The Committees direct each department and agency funded in this Act to follow the directions set forth in this Act and the accompanying statement, and not reallocate resources or reorganize activities except as provided herein or otherwise approved by the Committees through the reprogramming process as described in this explanatory statement. This explanatory statement addresses only those agencies and accounts for which there is a need for greater explanation than provided in the Act itself. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2016 enacted level and the fiscal year 2017 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to “this Act” or “at the end of this

statement” shall be treated as referring only to the provisions of this division.

Recreation Fee Authority.—The one-year extension of recreation fee authority for the Department of the Interior and U.S. Forest Service contained in the budget request and included in both fiscal year 2017 House and Senate Interior, Environment, and Related Agencies Appropriations bills was included in the Continuing Appropriations and Military Construction, Veterans Affairs, and Related Agencies Appropriations Act, 2017 and Zika Response and Preparedness Act (Public Law 114-223).

Making Litigation Costs Transparent.—The Department of the Interior, EPA, and the Forest Service are directed to provide to the House and Senate Committees on Appropriations, and to make publicly available no later than 60 days after enactment of this Act, detailed Equal Access to Justice Act (EAJA) fee information as specified in the explanatory statement accompanying Division G of the Consolidated Appropriations Act, 2016 (Public Law 114-113).

State Wildlife Data.—The Department of the Interior and U.S. Forest Service are expected to prioritize continued coordination with other Federal agencies and State fish and wildlife agencies to recognize and fully utilize State fish and wildlife data and analyses as a primary source to inform land use, planning, and related natural resource decisions. Federal agencies should not unnecessarily duplicate raw data, but when appropriate, evaluate existing analysis of data prepared by the States, and reciprocally share data with State wildlife managers, to ensure that the most complete data set is available for decision support systems.

Paper Reduction Efforts.—The Committees urge each agency funded by this Act to work with the Office of Management and Budget (OMB) to reduce printing and reproduction costs and direct each agency to report to the Committees as part of its fiscal year 2018 budget request on specific management actions taken to achieve this goal and estimated cost savings created by these actions.

Land Grants, Acequias and Community Ditches.—The Secretaries of the Interior and Agriculture are urged to recognize the traditional use of State-recognized community

land grants, acequias, and community ditches in the American Southwest during the land use planning process.

Executive Order #13783.—On March 28, 2017, Executive Order #13783 established policies for domestic energy production. The Order directs executive branch departments and agencies to immediately review all actions with respect to domestic energy resources. The Committees note that several specific directives apply to entities under the jurisdiction of the Subcommittee on Interior, Environment, and Related Agencies, including a review of the Clean Power Plan and related rules, and a review of methane and other regulations related to oil and gas development. The Committees also note that the Secretary of the Interior signed two secretarial orders on March 29, 2017, to overturn the moratorium on all new coal leases on Federal land, and to take additional steps to immediately comply with the Executive Order. The Committees expect the Department of the Interior and the Environmental Protection Agency to keep the Committees fully apprised of any actions taken to comply with the directives specified in the Executive Order or related secretarial orders.

Transparency of Information.—The Committees expect that Federal agencies funded under this Act shall, to the extent practicable, clearly state within materials used for advertising or educational purposes that the communication is funded by taxpayer dollars.

Fleet Management Practices.—Agencies shall provide supporting documentation on their methods for determining their optimal fleet inventories and justification for any deviation from the General Services Administration’s Federal Property Management Regulations upon request of the Committees on Appropriation. Agency inspectors general shall provide results from audits of fleet management practices and make them publicly available.

Land and Water Conservation Fund.—The agreement includes \$400,000,000 derived from the Land and Water Conservation Fund (LWCF) for programs consistent with chapter 2003 of title 54 of the United States Code, as identified in the table below.

The Committees urge each of the agencies to comply with any Congressional requests for full and accurate accounting of cost, acreage, and location data of lands acquired with LWCF funds. In future budget justifications, the agencies are directed to include a detailed explanation on the use of prior year funds for recreational access projects and inholdings.

The Committees direct the agencies to continue to consider and rank Federal land acquisition projects consistent with the process used in prior years, and upon request, to provide a prioritized project list for any funding levels above the budget request being considered by the House or Senate Committees.

The Committees believe increasing access to our public lands for hunting, fishing, and

other recreational activities is important and again include funding for these projects. The Committees expect the same factors used to determine suitability of listed projects will apply to recreational access projects and the agencies should work through their respective regions, State offices, and/or management units to consider projects that may not rise to the level of listed projects. The agencies are directed to include an explanation of the process and criteria used for allocating funds for recreational access in future budget justifications. Further, the Committees are to be informed about the selection process and how the agencies are meeting the outlined objectives prior to proceeding with projects.

Public Access.—The Department of the Interior and the Forest Service are directed to

notify the House and Senate Committees on Appropriations in advance of any proposed project specifically intending to close an area to recreational shooting, hunting, or fishing on a non-emergency basis of more than 30 days.

National Ocean Policy.—The President’s budget submission for fiscal year 2018 shall identify by agency and account all funding and associated actions proposed for the implementation of the coastal and marine spatial planning and ecosystem-based management components of the National Ocean Policy developed under Executive Order 13547.

Harassment-Free Workplace.—The Committees believe all Federal employees have the right to a harassment-free workplace and

continue to be deeply concerned about reports of harassment and hostile work environments at some of the agencies funded through this Act, especially the long-term pattern of unacceptable behavior at several national park system units. The Committees direct the Department of the Interior to report to the Committees regarding: 1) what specific corrective actions the National Park Service is taking to preclude additional incidents from occurring in the future, and 2) what steps the Department is taking to ensure that all of its bureaus and offices have strong and consistent anti-harassment policies in place. The Forest Service is also directed to provide a report that describes in detail the policy and process changes it has made to address past incidents. Finally, the EPA Office of Inspector General is directed to provide a report describing existing EPA policy, procedure and training regarding harassment at the Agency and any policy and process changes it has made. The reports shall be provided to the Committees within 120 days of enactment of this Act.

Access for Inspectors General.—Consistent with the Inspector General Act of 1978, the Committees expect departments and agencies funded by this Act to provide their respective Inspectors General access to all appropriate records, documents, and other materials in a timely manner. Accordingly, agencies and departments shall not prevent or impede access to records, documents or materials unless otherwise provided by law.

Restrictions on lobbying with appropriated funds.—The Committees remind the entities and employees funded under the jurisdiction of this bill that no part of the money appropriated by any enactment of Congress shall, in the absence of express authorization by Congress, be used in a manner inconsistent with 18 U.S.C 1913.

REPROGRAMMING GUIDELINES

The agreement retains the reprogramming guidelines contained in the joint explanatory statement of Division G of the Consolidated Appropriations Act, 2016 (Public Law 114-113).

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

Bureau of Land Management Directives.—The Bureau is reminded of the importance of the directives included in House Report 114-632 and Senate Report 114-281 not addressed herein, as well as the new directives in this statement, including the front matter.

The agreement provides \$1,095,375,000 for Management of Lands and Resources. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

Rangeland Management.—The Bureau is directed, to the greatest extent practicable, to

make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or wildfire.

Wild Horses and Burros.—The Committees are aware of proposals to overhaul the program to ensure the humane treatment of animals in holding and on the range, improve the use of annual appropriations, and continue implementing the reforms recommended by the 2013 National Academy of Sciences' report. The Bureau is expected to review all serious proposals from non-governmental organizations, to keep the Committees informed throughout its decision-making process, and to transmit to Congress within 180 days of enactment of this Act a plan to achieve long-term sustainable populations on the range in a humane manner.

Greater Sage-grouse Conservation.—The agreement provides a total of \$68,900,000 for greater sage-grouse conservation activities, including the implementation of the National Seed Strategy, which is an increase of \$8,900,000 above the fiscal year 2016 enacted level. The Committees direct that the funds provided for greater sage-grouse be used for on-the-ground conservation measures as indicated in the fiscal year 2017 budget justification and House and Senate reports.

The Committees believe conservation is most successful when all partners trust and work cooperatively together. The Committees expect the Secretary and the Bureau to work collaboratively with States, communities, industry, and partners to address concerns with the Resource Management Plans and related Land Use Planning Amendments. The Committees remind the Bureau of the concerns noted in the House and Senate reports and direct the Bureau to report within 60 days of enactment of this Act how it has addressed each issue.

Internet Oil and Gas Leasing.—The Bureau is directed to provide the House and Senate Appropriations Committees with a plan to achieve cost-savings and efficiencies by transitioning to Internet-based oil and gas leasing within 180 days of enactment of this Act.

BLM and ONRR Coordination.—The Bureau and Office of Natural Resources Revenue are encouraged to better coordinate their respective leasing and revenue collection databases to increase efficiency and improve customer service.

Abandoned Mine Lands.—The agreement provides that funds may be used for projects included on the Bureau's high-priority mine reclamation list, such as the Red Devil Mine.

Pipeline Safety.—The Bureau is encouraged to continue to share standardized pipeline safety data, when appropriate, to enhance pipeline safety.

Law Enforcement.—The Bureau is encouraged to focus on visitor safety and archae-

ological resource protection, and work with the Department of Justice and the Department of Homeland Security on other matters of Federal law not unique to Bureau lands or property.

Cooperative Efforts in Alaska.—The Bureau, as the largest Federal landowner in the State of Alaska's Arctic region, is directed to work cooperatively with local stakeholders to enhance economic opportunities for the people who live and work in the region. The Bureau also is reminded of the directions contained in the Senate report regarding Legacy Wells, and Alaska Native lands in need of remediation. The Bureau is instructed to review recently executed land management plans to determine whether decisions to retain certain mineral closures are consistent with Federal law, including the Alaska National Interest Lands Conservation Act and the Federal Land Policy Management Act, including a determination whether sufficient notice was provided prior to the creation of Areas of Critical Environmental Concern. Further, the Bureau is encouraged to work cooperatively with the State of Alaska to lift Public Land Orders that no longer serve their original purpose.

Bureau of Land Management Foundation.—The agreement provides for the creation of a Bureau of Land Management Foundation, the purpose of which is to undertake, conduct, and encourage programs and activities that support the mission of the Bureau. This should include educational, technical, scientific, and other assistance or activities to assist the Bureau with wild free-roaming horses and burros; recreation, cultural, and historic resources; protection of Native American archaeological and cultural sites; and activities that support the reclamation and remediation of abandoned mine lands, contaminated Native lands, legacy and orphaned oil and gas well sites, and public lands affected by development connected to mineral exploration and development activities. Reclamation activities should include, but not be limited to, the remediation of soil and water contamination, the restoration of wildlife habitat in order to restore the natural, scenic, historic, cultural, and ecological values of such areas, or the promotion of the economic potential of such areas.

LAND ACQUISITION

The bill provides \$31,416,000 for Land Acquisition. The amounts recommended by this bill compared with the budget estimates by activity and project are shown in the table below, listed in priority order pursuant to the budget request for fiscal year 2017. RANGE IMPROVEMENTS

The agreement provides \$10,000,000 to be derived from public lands receipts and Bankhead-Jones Farm Tenant Act lands grazing receipts.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The agreement provides an indefinite appropriation estimated to be \$31,050,000 for Service Charges, Deposits, and Forfeitures.

MISCELLANEOUS TRUST FUNDS

The agreement provides an indefinite appropriation estimated to be \$24,000,000 for Miscellaneous Trust Funds.

UNITED STATES FISH AND WILDLIFE SERVICE
RESOURCE MANAGEMENT

The bill provides \$1,258,761,000 for Resource Management. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following details and instructions. The Service is also reminded of the guidance and reporting requirements contained in House Report 114-632 and Senate Report 114-281 that should be complied with unless specifically addressed to the contrary herein, as explained in the front matter of this explanatory statement.

Listing.—The agreement does not include the critical habitat directive contained in the House report. The Service is urged to follow the guidance contained in House Report 114-170 regarding the yellow-billed cuckoo.

Planning and Consultation.—The agreement includes: \$2,859,000 as requested for activities in the Bay Delta; \$4,000,000 as requested to handle the Service's increased permitting workload in the Gulf of Mexico as a result of the 2010 Deepwater Horizon oil spill; and a \$1,000,000 general program increase to be distributed in accordance with the backlog of requests from outside the Service for technical assistance and consultations, including habitat conservation planning and hatchery genetic management planning. The House directive regarding the Gulf of Mexico is not included.

Conservation and Restoration.—The agreement includes: \$1,390,000 as requested to implement the Coastal Barrier Resources Act; \$3,471,000 for the national wetlands inventory; and \$3,250,000 as requested for the sagebrush steppe ecosystem.

Recovery.—The agreement includes: \$1,659,000 as requested for activities in the Bay Delta; \$2,500,000 for the annual State of the Birds assessment; \$3,000,000 to reduce the delisting and downlisting backlog; a \$1,016,000 general program increase; \$1,000,000 to implement the wolf-livestock demonstration program as authorized by Public Law 111-11; \$2,000,000 to recover native bat species exposed to white-nose syndrome; and \$500,000 for multi-partner recovery actions. The Service is directed to prioritize the recovery of the California condor and northern aplomado falcon and provide the necessary funding to enable the longstanding public-private partnerships to continue to support the wild populations through captive propagation, releases, and management, as the Service and the States work to address the continued environmental threats to these species.

The Committees urge the Service to focus on only those ESA mandates which are inherently Federal, and not to engage in other activities such as implementing recovery actions unless the costs are at least matched by partners outside the Service. The Service

is urged to complete all status reviews within the five-year period required by law, and, for any determination on the basis of such review whether a species should be delisted, downlisted, or uplisted, promulgate an associated regulation prior to initiating the next status review for such species. So that trends in the endangered species recovery program may be observed, the Service is encouraged to include in its next such report to Congress "species status" and all categories from the report entitled, "Report to Congress on the Recovery of Threatened and Endangered Species, Fiscal Years 2009–2010".

The agreement contains the directive in Senate Report 114-281 that, should a status review of the American Burying Beetle make a finding that delisting or downlisting is warranted, the Service is directed to prioritize this rulemaking and move forward with a delisting or downlisting proposal as soon as is practicable.

The Service is urged to address consultations and permitting of public and private projects related to the Preble's meadow jumping mouse and the New Mexico meadow jumping mouse as one of the highest priorities.

Regarding exotic wildlife, the Committees acknowledge the important role private landowners play in conserving some exotic wildlife species. The Committees recognize current permitting practices by the Service regarding the following exotic U.S. bred wildlife: Red Lechwe, Barasingha, Arabian Oryx, Eld's Deer. Prior to changing current permitting practices, the Committees encourage the Service to engage stakeholders and brief the Committees about the outcome of such engagement.

On April 26, 2017, the Service announced its intention to take the final administrative step necessary to delist recovered gray wolves in the State of Wyoming. This action occurred as the result of a unanimous ruling in the Court of Appeals upholding the Service's 2012 rule delisting wolves in Wyoming. The Committees note that the Service's 2012 final rule delisting gray wolves in the western Great Lakes region remains in litigation. The Service has determined that the wolf population in the western Great Lakes region exceeds recovery goals in that region, and the Committees remain supportive of science-based decisions. If the court upholds the Service's 2012 rule, the Service is urged to reissue the rule.

Partners for Fish and Wildlife.—The agreement includes \$1,285,000 as requested for regional fisheries enhancement.

National Wildlife Refuge System.—The agreement includes: \$2,835,000 as requested to manage subsistence fishing and hunting; \$9,726,000 as requested for invasive species; \$1,500,000 for the Pacific Remote Islands Marine National Monument; a \$500,000 increase for maintenance support; and a \$500,000 increase to reduce the maintenance backlog. The agreement also continues funding for volunteers and for urban wildlife refuge partnerships at not less than the fiscal year 2016 enacted levels. Budget justifications are the vehicles for the Administration to clearly explain how they propose to expend the funds they are requesting. This information should not be difficult to discern and future justifications should note base funding that will be used to enhance any program increases requested.

The Committees support the directive in the House report instituting signage on any individual refuge where trapping occurs and establishing guidance to be included in the refuge manual. The Committees understand that different authorities creating Waterfowl Production Areas, easements, and Coordination Areas will influence the signage at these locations.

The agreement includes the directive in Senate Report 114-281 for the Service to prepare a formal compatibility determination to determine whether nutrient enrichment in Karluk Lake for fish rehabilitation is compatible with the Kodiak National Wildlife Refuge's Comprehensive Conservation Plan. In addition, if the Service determines the enrichment is compatible with the refuge's Comprehensive Conservation Plan, the Service is directed to engage with interested stakeholders and publish a list of approved tools to accomplish such rehabilitation.

The Service is reminded that solutions to recreational-use conflicts in national wildlife refuges should begin with refuge managers engaging their local communities and collaborating with local officials and other representatives of recreational users to find mutually-agreeable solutions to conflicts. Failure to do so can result in significant public backlash, as happened with boating restrictions at Havasu National Wildlife Refuge.

The Committees urge the U.S. Fish and Wildlife Service not to place stricter environmental or financial standards on oil and gas operators on national wildlife refuges than oil and gas operators on other Federal lands set aside for conservation purposes.

Migratory Bird Management.—The agreement includes: \$1,738,000 as requested for aviation management; \$350,000 to minimize predation on livestock; and \$3,371,000 to issue permits.

The Service is directed to expedite the review process to authorize take of double-crested cormorants, ensuring they have satisfied the NEPA requirements and addressed the court's concerns, and should include an analysis of the economic impacts of cormorant control activities on several stakeholder groups, including aquaculture producers. While advancing this review, the Service should explore any and all viable alternatives to assist impacted aquaculture producers, including through the issuance of individual predation permits.

Law Enforcement.—The agreement includes \$75,053,000 as requested for law enforcement, including \$7,500,000 to fight wildlife trafficking.

International Affairs.—The agreement includes \$15,816,000 as requested for international affairs, including \$550,000 to support the Arctic Council and \$1,920,000 to fight wildlife trafficking.

Fish and Aquatic Conservation.—Within National Fish Hatchery System Operations, the agreement includes: a \$2,000,000 general program increase; \$1,475,000 for the mass marking program; \$800,000 for the Aquatic Animal Drug Approval Partnership; and \$1,430,000 for the national wild fish health survey program. None of the funds may be used to terminate operations or to close any facility of the National Fish Hatchery System. None of the production programs listed in the March, 2013, National Fish Hatchery System Strategic Hatchery and Workforce Planning Report may be reduced or terminated without advance, informal consultation with affected States and Tribes. The Service is commended for recommitting to the National Fishery Artifacts and Records Center and the Collection Management Facility in South Dakota, and for sharing the costs nationwide.

The agreement includes the directive in the Senate report related to the continued operation of mitigation hatcheries. The agreement requires that future budget requests ensure Federal partners have committed to sufficiently reimbursing the Service for mitigation hatcheries before the Service proposes to eliminate funding for mitigation hatcheries.

Within Maintenance and Equipment, the agreement includes a \$3,000,000 increase as

requested to reduce the maintenance backlog.

Within Aquatic Habitat and Species Conservation, the agreement includes: \$13,998,000 for the National Fish Passage Program; \$3,000,000 to continue implementing the Klamath Basin Restoration Agreement; \$9,554,000 as requested to manage subsistence fishing; and \$16,660,000 to manage aquatic invasive species, of which \$8,400,000 is for Asian carp, \$2,000,000 is for quagga and zebra mussels, \$711,000 is for sea lamprey, \$2,038,000 is for other prevention efforts nationwide, and \$2,566,000 is for State plans, National Invasive Species Act implementation, and coordination.

Cooperative Landscape Conservation.—The agreement includes \$12,988,000, of which \$700,000 is for Gulf Coast ecosystem restoration as requested.

Science Support.—The agreement includes \$931,000 as requested to restore the Gulf Coast ecosystem and \$2,500,000 as requested to continue to search for a cure for white-nose syndrome in bats.

General Operations.—The agreement includes the requested \$153,000 transfer from External Affairs to Recovery and the requested \$2,600,000 increase for maintenance of the National Conservation Training Center.

CONSTRUCTION

The bill provides \$18,615,000 for Construction. The detailed allocation of funding by activity is included in the table at the end of this explanatory statement. The Service is expected to follow the project priority list in the table below. When a construction project is completed or terminated and appropriated funds remain, the Service may use those balances to respond to unforeseen reconstruction, replacement, or repair of facilities or equipment damaged or destroyed by storms, floods, fires and similar unanticipated events.

LAND ACQUISITION

The bill provides \$59,995,000 for Land Acquisition. The amounts recommended by this bill compared with the budget estimates by activity and project are shown in the table below, listed in priority order pursuant to the budget request for fiscal year 2017. Further instructions are contained under the

Land and Water Conservation Fund heading in the front of this explanatory statement.

In a time when budgetary constraints allow for only a limited number of new land acquisition projects, the Committees are encouraged by programs that leverage public/private partnerships for land conservation like the Highlands Conservation Act, which

has a record of more than a 2 to 1 ratio in non-Federal matching funds. Therefore, the Committees include \$10,000,000 for the Highlands Conservation Act Grants and direct the Fish and Wildlife Service to work with the Highlands States regarding priority projects for fiscal year 2017.

tailed allocation of funding by activity is included in the table at the end of this explanatory statement.

STATE AND TRIBAL WILDLIFE GRANTS

The bill provides \$62,571,000 for State and Tribal Wildlife Grants. The detailed allocation of funding by activity is included in the table at the end of this explanatory statement.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The agreement provides \$2,425,018,000 for the Operation of the National Park System. The detailed allocation of funding by program area and activity is included in the table at the end of this division.

Operation of the National Park System. The agreement includes \$55,422,000 in new discretionary funding within the Operation of the National Park System (ONPS) account which support the Centennial Initiative and related efforts including 50 percent of the fixed costs included in the budget request to cover the balance of the fiscal year remaining.

Specifically, the agreement includes \$11,000,000 in new funds within the Park Support line item to support the Centennial,

which fully funds the budget request to support new areas and critical responsibilities across the System including, but not limited to, the 2017 Presidential inauguration; operations at sites associated with the Civil Rights Movement; and the Manhattan Project National Historical Park. Funds are also provided to support new park units including the Pullman and Honouliuli units as well as critical operating needs as described in further detail below. The recommendation also provides requested funding for the Valles Caldera National Preserve and the Belmont-Paul Women's Equality National Monument. The agreement provides discretionary funding to address deferred maintenance needs including a \$25,000,000 increase for repair and rehabilitation projects and a \$13,689,000 increase to address cyclic maintenance needs. These funds are supplemented by \$20,000,000 provided within the Centennial Challenge matching grant program account dedicated to funding joint public-private investments in parks. The agreement continues directives provided within the Visitor Services line item contained in House Report 114-632. The final allocation of funds supporting the Centennial Initiative, including

the detailed allocation of new areas and critical responsibilities funding described above, shall be provided to the Committees as part of the Service's annual operating plan for the ONPS account no later than 60 days after enactment of this Act. Such plan shall be subject to the reprogramming guidelines contained in this explanatory statement.

Quagga and Zebra Mussel Control.—The Committees remain concerned about the spread of quagga and zebra mussels in the West and, consistent with fiscal year 2016, have provided \$2,000,000 for continued containment, prevention, and enforcement efforts.

White-Nose Syndrome in Bats.—The Committees provide funds as requested to support monitoring and surveillance activities associated with white-nose syndrome in bats.

Eastern Legacy Study (Lewis and Clark Trail Study).—The Eastern Legacy Study, authorized to determine the feasibility of extending the Lewis and Clark National Historic Trail, is now three years overdue. The Committees direct the Service to complete the study expeditiously.

Big South Fork National River and Recreation Area.—The Committees urge the Service to identify and assess the potential costs of visitor experience improvements including year-round restroom facilities and campsite enhancements at Big South Fork National River and Recreation Area.

Death Valley National Park.—The Committees urge the Service to provide in its fiscal year 2018 budget justification a detailed estimate of funds necessary to complete repairs to Scotty's Castle, a historic national landmark in Death Valley National Park, which has been closed to the public since flash floods damaged the visitor center, museum, and nearby roads in 2015. The Committees further direct the Service to take steps to ensure the security and protection of Scotty's Castle, and the contents of the museum, from theft and trespassing.

Mississippi National River and Recreation Area.—The Committees direct the Service to report, within 180 days of enactment of this Act, on progress in identifying potential site options and associated costs for the development of a permanent headquarters and visitor use facility, in collaboration with suitable governmental and non-governmental partners, at the Mississippi National River and Recreation Area as described in the explanatory statement accompanying Public Law 114-113.

James A. Garfield Memorial.—The Committees direct the Service to expeditiously complete its ongoing reconnaissance study to assess the eligibility of the James A. Garfield Memorial at Lake View Cemetery for designation as an affiliated area of the national park system.

Biscayne National Park.—The Committees are aware of the considerable controversy relating to natural resource management actions at Biscayne National Park, including the decision to implement a new marine reserve zone as outlined by the park's new General Management Plan (GMP). These issues are articulated in House Report 114-632, including concerns raised by the Florida Fish and Wildlife Conservation Commission (FWC) and local anglers and recreational and boating-dependent businesses regarding limitations on fishing within the park. The Committees recognize that it was the intent of the Service to create the marine reserve zone to protect the park's natural coral reef ecosystem, as mandated by the legislation creating the park. Nonetheless, the Committees are concerned that adequate consideration was not given to the economic impact of this action nor to data provided by the FWC. However, the Committees are pleased with recent efforts by Biscayne National Park to

re-establish open dialogue and productive coordination with Congress and the FWC regarding special rulemaking for the marine reserve zone. The Committees understand the importance of preparing an economic analysis and baseline scientific monitoring report for the proposed marine reserve zone as required by the record of decision on the park's GMP. The Service is directed to make these documents available to the House and Senate Committees on Appropriations and to the public no less than 90 days before proposing any special rule to designate the marine reserve zone. The Committees understand that the park is moving forward, in partnership with FWC, to implement some non-controversial, common sense elements of the plan without unnecessary delay, including the installation of mooring buoys to help protect coral reefs from anchors and markers to indicate shallow waters and manatee zones. The Committees recognize the State of Florida's openness toward partnering on these initiatives and believe a close working partnership between the Park and the FWC may serve as an important step toward future cooperation on other areas of the GMP. Consistent with the record of decision, the Service is also expected to defer enforcement actions related to the marine reserve zone until the agency has finalized this special rule.

Arlington Memorial Bridge.—The Memorial Bridge rehabilitation and reconstruction effort requires the active, bipartisan support of Federal, State, and local leaders. The Committees are aware of the recent approval of a \$90 million Department of Transportation grant for bridge repairs and urge the Service to work with Federal, State, and local entities to build coalitions and partnerships to leverage and secure additional necessary funding to complete this critical project in a timely manner.—The Committees further direct the Service to provide a funding plan and construction schedule for completion of this work as part of the fiscal year 2018 budget request.

Bottled Water.—The Committees note continued expressions of concern relating to a bottled water ban implemented under Policy Memorandum 11-03. The report provided to the Committees in April 2016, in response to a directive in the explanatory statement accompanying Division G of the Consolidated Appropriations Act, 2016, did not provide sufficient data to justify the Service's actions. The Committees understand that the Service plans to reconsider this policy and therefore directs the incoming National Park Service Director to review Policy Memorandum 11-03 and to report to the Committees on the results of this evaluation. Accordingly, the Committees direct the Service to suspend further implementation of Policy Memorandum 11-03 and urge the Service to examine opportunities to partner with non-governmental entities in developing a comprehensive program that uniformly addresses plastic waste recycling system-wide.

Ozark National Scenic Riverways.—The Service is directed to work collaboratively with affected parties to ensure that implementation of the General Management Plan for the Ozark National Scenic Riverways addresses the concerns of affected stakeholders including, but not limited to, local communities and businesses.

Point Reyes National Seashore.—The Committees have noted the importance of historic dairying and ranching operations within the Point Reyes National Seashore and reiterate the directives contained in House Report 114-632 and Senate Report 114-281 regarding the completion of planning and use authorizations related to ranching operations.

Leasing of Historic Buildings.—The agreement maintains the directive related to

Leasing of Historic Buildings contained in House Report 114-632.

Ste. Genevieve Special Resource Study.—With regard to the Ste. Genevieve Special Resource Study, the Service shall follow the guidance contained in Senate Report 114-281.

Blackstone River Valley National Historical Park.—The agreement includes requested funding for the Blackstone River Valley National Historical Park with the expectation that the Service will continue to make funds available to the local coordinating entity to maintain staffing and capacity to assist in management of the park as authorized in Public Law 113-291.

Nicodemus, Kansas.—The Committees are encouraged by discussions between the Service and the Nicodemus Historic Society regarding a new or enhanced cooperative agreement that will increase visitor interaction and transfer greater control of the on-site interpretive services of the Nicodemus National Historic Site to descendants of Nicodemus and local community members. The Committees urge the Service to work in an expedited manner with local community leaders to finalize such agreement.

Golden Gate National Recreation Area.—The Committees understand that the Service has placed a hold on the proposed rule for dog management at the Golden Gate National Recreation Area. The Service is directed to conduct an independent assessment of the planning process used to develop the proposed rule and report back to the Committees on its findings within 90 days of enactment of this Act.

NATIONAL RECREATION AND PRESERVATION

The agreement provides \$62,638,000 for National Recreation and Preservation with the following specific directives:

Chesapeake Gateways and Trails Program.—As requested, the agreement includes \$2,020,000 for the Chesapeake Gateways and Trails Program.

Heritage Partnership Program.—The agreement provides \$19,821,000 for the Heritage Partnership Program. In order to provide stable funding for all national heritage areas, the agreement continues funding for longstanding areas at fiscal year 2016 levels; provides a total of \$300,000 to areas with recently approved management plans, known as tier 2 areas; and provides \$150,000 to each tier 1 area that has been authorized and is still in the process of having its management plan approved. The Committees believe that the current method used to allocate funding for individual heritage areas is likely to be unsustainable given the fiscal environment and the need for areas with more recent Congressional authorizations to build program capacity. The Committees expect participating heritage areas to reach agreement and propose a new funding allocation model to the Committees and the Service within 90 days of enactment of this Act that maintains the core services of the more established areas but allows for more resources to newer areas to expand and provide additional economic and cultural opportunities in the communities they serve.

Mormon Pioneer National Heritage Area (MPNHA).—The Service and the Mormon Pioneer National Heritage Area are encouraged to work cooperatively with Snow College's Mormon Pioneer Heritage Institute to ensure the long-term viability of the MPNHA.

Feasibility Study.—The Committees understand that the Service has no intent to initiate or conduct a feasibility study to establish a national heritage area in Baca, Bent, Crowley, Huerfano, Kiowa, Las Animas, Otero, Prowers, and Pueblo counties, Colorado. In the event the Service alters its intentions, the Committees direct the Service

to notify the Committees 120 days in advance of initiating such a study.

American Battlefield Protection Program Assistance Grants.—The Committees are aware of increased workload and associated delays in grant processing due to the program’s expansion of eligibility to sites associated with the Revolutionary War and the War of 1812, and have provided funds within the Land Acquisition and State Assistance account to allow for timely review and processing of grants.

HISTORIC PRESERVATION FUND

The agreement provides \$80,910,000 for the Historic Preservation Fund. Within this amount, \$47,925,000 is provided for grants to States and \$10,485,000 is provided for grants to Tribes. The recommendation also includes

\$13,500,000 for competitive grants of which \$500,000 is for grants to underserved communities and \$13,000,000 is for competitive grants to document, interpret, and preserve historical sites associated with the Civil Rights Movement. The agreement also includes \$4,000,000 for competitive grants to Historically Black Colleges and Universities (HBCUs) and \$5,000,000 for the Save America’s Treasures competitive grant program for preservation of nationally significant sites, structures, and artifacts. Prior to execution of these funds, the Service shall submit a spend plan to the Committees on Appropriations of the House and Senate.

CONSTRUCTION

The agreement provides \$209,353,000 for Construction with the following specific directive:

Line Item Construction.—The agreement provides \$131,992,000 for line item construction projects in the fiscal year 2017 budget request as revised by the Service and provided to the House and Senate Committees on Appropriations on April 6, 2017, and shown in the table below. Increases above fiscal year 2016 base funds support the Centennial Initiative, particularly deferred maintenance needs nationwide, and construction projects as described in Senate Report 114-281. Requests for reprogramming will be considered pursuant to the guidelines in the front of this explanatory statement.

LAND AND WATER CONSERVATION FUND (RESCISSION)

The agreement includes a rescission of \$28,000,000 in annual contract authority. This authority has not been used in recent years and there are no plans to use this authority in fiscal year 2017.

LAND ACQUISITION AND STATE ASSISTANCE

The bill provides \$162,029,000 for Land Acquisition and State Assistance. The amounts

recommended by this bill compared with the budget estimates by activity and project are shown in the table below, listed in priority order pursuant to the budget request for fiscal year 2017. Funds provided for the “Grand Teton NP—State Land” shall be used to repay fiscal year 2016 land acquisition projects and other balances reprogrammed during the first quarter of fiscal year 2017 in order to complete this project before Decem-

ber 31, 2016. From within funds for acquisition management, \$252,000 is provided to support the administration of the American Battlefield Protection Program and to ensure the timely awarding of grants. Further instructions are contained under the Land and Water Conservation Fund heading in the front of this explanatory statement.

CENTENNIAL CHALLENGE

The agreement provides \$20,000,000 for the Centennial Challenge matching grant program, a key component of the Service’s Centennial Initiative. The program provides dedicated Federal funding to leverage partnerships for signature projects and programs for the national park system. The Committees expect these funds to be used by the Service to address projects which have a deferred maintenance component in order to alleviate the sizeable deferred maintenance backlog within the national park system. A one-to-one matching requirement is required for projects to qualify for these funds. The

Service is urged to give preference to projects that demonstrate additional leveraging capacity from its partners.

UNITED STATES GEOLOGICAL SURVEY SURVEYS, INVESTIGATIONS, AND RESEARCH

The agreement provides \$1,085,167,000 for Surveys, Investigations, and Research of the U.S. Geological Survey (USGS). The detailed allocation of funding by program area and activity is included in the table at the end of this explanatory statement. The Survey is directed to report to the Committees within 180 days of enactment of this Act on what new studies and projects over \$1,000,000 have

been initiated within the last three fiscal years.

Ecosystems.—The bill provides \$159,732,000, which includes an increase of \$250,000 to address white-nose syndrome in bats and \$250,000 as requested, for Great Lakes Fisheries Assessments. The Committees expect Great Lakes Restoration Initiative (GLRI) funds to be allocated in accordance with the funding allocation methodology used in fiscal year 2016, and provide \$5,620,000 for the Survey to address Asian Carp issues in the Great Lakes and Upper Mississippi River. The Committees remain concerned about

new and emerging invasive species and expect the Survey to continue to focus on early detection and rapid response as a way to address the threats posed by invasive plants and animals.

Climate and Land Use Change.—The agreement provides \$149,275,000, which includes the Senate directive for Arctic research, and \$85,794,000 for the Land Remote Sensing program. The Survey is directed to apply carry-over balances from the satellite operations account so that Landsat-9 is fully funded.

Energy, Minerals, and Environmental Health.—The bill provides \$94,311,000 for Energy, Minerals, and Environmental Health. The Committees do not accept the proposed decrease of \$1,500,000 for geophysical and remote sensing activities, and expect this work to continue in the Yukon-Tanana Upland. The Committees understand that the Survey is spending approximately \$3,000,000 on studies related to oil and gas resources in low-permeability reservoirs and expect this work to continue. Further, the Committees direct the Survey to consult with State geological surveys to conduct the initial research needed for new assessments in the Arctic petroleum province. The Committees support the Survey's comprehensive research on cyanobacterial harmful algal blooms within the Toxic Substances Hydrology program and expect this work to continue at the fiscal year 2016 enacted funding level.

Natural Hazards.—Funding for the Natural Hazards program includes \$64,303,000 for earthquake hazards, of which \$10,200,000 is provided for continued development of an earthquake early warning system. The bill also provides an additional \$800,000 as requested for the Central and Eastern U.S. Seismic Network (CEUSN) and an increase of \$1,000,000 for regional seismic networks to work with the Survey to meet ANSS standards by incorporating data from active Earthscope earthquake monitoring instruments. The Committees understand that the cost benefit analysis as required by P.L. 114-113 is complete; therefore, the Survey is directed to report back to the Committees within six months of enactment of this Act with an implementation plan, including cost estimates, for the adoption of future seismic stations.

The bill provides \$28,121,000 for volcano hazards. A \$1,000,000 increase over enacted is provided for the repair and upgrade of analog systems on high-threat volcanos, and an additional \$1,000,000 is provided for next-generation lahar detection systems.

Water Resources.—The bill provides \$214,754,000 for Water Resources, with \$59,927,000 directed to activities associated with the Cooperative Matching Funds for the highest priority work in WaterSMART: Water Use Research, Tribal cooperative funding, and critical Enhanced Cooperative Activities and Urban Waters work. Specifically, the bill provides \$45,052,000 for the Water Availability and Use Science program, including an additional \$1,000,000 for Water Use Research and \$2,000,000 for groundwater resource studies in the Mississippi River Alluvial Plain; \$72,673,000 for the Groundwater and Streamflow Information program, including increases of \$500,000 for the groundwater network, \$700,000 for streamgages, and \$160,000 to reestablish a transboundary river streamgage affected by discharges caused by mines across the Canadian border; \$90,529,000 for the National Water Quality program, including a \$717,000 increase for Enhanced Cooperative Activities and Urban Waters and \$63,000,000 for NAWQA Cycle 3; and \$6,500,000 for the Water Resources Research Act program.

Core Science Systems.—The bill provides \$116,050,000, including increases to the 3D Elevation Program (3DEP), of which:

\$1,500,000 is for National Enhancement; \$2,500,000 is for Alaska Mapping and Map Modernization; and \$500,000 is for Landscape Level Assessments—Chesapeake Bay.

Facilities.—It has come to the Committees' attention that additional resources may be needed for facilities challenges in Menlo Park, California; Lakewood, Colorado; and Madison, Wisconsin. The Survey is expected to expeditiously move forward on innovative proposals for resolving these issues, to address funding needs in the fiscal year 2018 budget submission, and to keep the Committees informed of developments related to these facilities.

Prohibition on Destruction of Records.—The Office of Inspector General's report on Scientific Integrity at the USGS Energy Geochemistry Laboratory in Lakewood, Colorado, concluded the incident "has had numerous real and potential adverse impacts on customers, products, and the organizational integrity of USGS." While the Survey has taken action and closed the laboratory involved, it is critical the Survey adhere to Federal records management requirements and abide by the prohibitions against unlawful removal or destruction of Federal records, specifically those regarding, related to, or generated by the Inorganic Section of this laboratory while USGS and Congressional assessments of the incident are ongoing.

BUREAU OF OCEAN ENERGY MANAGEMENT
OCEAN ENERGY MANAGEMENT

The bill provides \$169,560,000 for Ocean Energy Management to be partially offset with the collection of rental receipts and cost recovery fees totaling \$94,944,000, for a net discretionary appropriation of \$74,616,000. The request did not include any funds for coastal marine spatial planning and accordingly the bill provides no funds for such activities. The agreement includes the following additional guidance:

Air Quality Studies.—The Committees expect the Bureau to complete ongoing air quality modelling studies and consult with affected coastal States prior to finalizing any new requirements.

Financial Assurance.—The Committees understand that the Bureau has extended the implementation timeline for changes to its Risk Management and Financial Assurance Program to allow for continued stakeholder input.

Five-year lease plan.—The Committees are aware that the Department is reviewing the 2017-2022 offshore lease plan and expect the review to proceed expeditiously and to carefully consider updates for the plan consistent with stakeholder input.

Offshore Revenues.—The Committees expect the Department will distribute revenues from Gulf of Mexico operations in a manner consistent with the Gulf of Mexico Energy Security Act of 2006 (P.L. 109-432).

Offshore Wind Energy Development.—The Committees understand that the Bureau is continuing to work in North Carolina with local stakeholders, industry, and State task forces and that there will be no lease sales in the Wilmington Wind Energy Area during fiscal year 2017.

Renewable Energy.—The Bureau should follow the direction under this heading in Senate Report 114-281.

BUREAU OF SAFETY AND ENVIRONMENTAL ENFORCEMENT
OFFSHORE SAFETY AND ENVIRONMENTAL ENFORCEMENT
(INCLUDING RESCISSION OF FUNDS)

The bill provides \$189,772,000 for Offshore Safety and Environmental Enforcement to be partially offset with the collection of rental receipts, cost recovery fees and in-

spection fees totaling \$96,530,000 for a net discretionary appropriation of \$93,242,000. The bill also includes a \$25,000,000 rescission of unobligated balances.

Blowout Preventer Systems and Well Control Rule.—The Committees encourage the Bureau to evaluate information learned from additional stakeholder input and ongoing technical conversations to inform implementation of this rule. To the extent additional information warrants revisions to the rule that require public notice and comment, the Bureau is encouraged to follow that process to ensure that offshore operations promote safety and protect the environment in a technically feasible manner.

Other.—The Committees direct the Bureau to review its current policy concerning the acquisition of helicopter fuel in the Gulf of Mexico from third parties and submit a report to the Committees within 90 days of enactment of this Act. The report should include an analysis of how frequently fuel is acquired by the agency and the criteria used to determine compensation for fuel owned by third parties.

OIL SPILL RESEARCH

The bill provides \$14,899,000 for Oil Spill Research.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT
REGULATION AND TECHNOLOGY

The bill provides \$121,017,000 for Regulation and Technology. Within this amount, the bill funds regulatory grants at \$68,590,000, equal to the fiscal year 2016 enacted level.

Of the funds provided, \$27,163,000 shall be derived from the Abandoned Mine Reclamation Fund and \$105,000,000 shall be derived from the General Fund. The agreement provides \$105,000,000 for grants to States for the reclamation of abandoned mine lands in conjunction with economic and community development and reuse goals. As provided in the bill, \$75,000,000 shall be distributed in equal amounts to the three Appalachian States with the greatest amount of unfunded needs and \$30,000,000 shall be distributed in equal amounts to the three Appalachian States with the subsequent greatest amount of unfunded needs. Such grants shall be distributed to States in accordance with the goals, intent and direction provided under this heading in House Report 114-632.

BUREAU OF INDIAN AFFAIRS AND BUREAU OF INDIAN EDUCATION
OPERATION OF INDIAN PROGRAMS

The bill provides \$2,339,346,000 for Operation of Indian Programs. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes requested fixed costs and transfers, and the following details and instructions. The Bureaus are reminded of the guidance and reporting requirements contained in House Report 114-632 and Senate Report 114-281 that should be complied with unless specifically addressed to the contrary herein, as explained in the front matter of this explanatory statement.

Tribal Government.—The agreement includes \$308,185,000 for Tribal government programs, of which \$160,000 is for new Tribes. If additional Tribes are recognized during fiscal year 2017 beyond those contemplated in the budget request, the Bureau is urged to support their capacity building efforts to the extent feasible. The Small and Needy Tribes program is funded at \$4,448,000, ensuring that all Tribes receive the maximum base level provided by the Bureau to run Tribal governments.

Road maintenance is funded at \$30,307,000. The Bureau is urged to focus the program increase on roads and bridges in poor or failing condition, particularly along school bus routes. The Bureau is directed to consolidate the reporting requirements for road maintenance contained in the House and Senate reports and to report back to the Committees within 60 days of enactment of this Act.

Human Services.—The Bureau is directed to report back to the Committees within 90 days of enactment of this Act on the performance measures being used to monitor and track the Tiwahe initiative's effectiveness in Indian Country.

Trust—Natural Resources Management.—The agreement includes \$11,266,000 for the Tribal Management/Development Program and a \$2,000,000 program increase for Alaska subsistence programs as requested, including consideration of funding for the projects and pilot programs referenced in the budget submission including the Ahtna Subsistence Cooperative Management Project and the Kuskokwim River Inter-Tribal Fisheries Commission. Forestry is funded at \$54,155,000 and includes a \$2,000,000 program increase for forest thinning projects. The Fish, Wildlife, and Parks program is funded at \$15,203,000 and includes program increases of \$545,000 for Tribal hatcheries currently not receiving BIA hatchery operations funding as outlined in the Senate report, and \$1,000,000 for fish hatchery operations. The ongoing Seminole and Miccosukee water study is funded at \$390,000 as requested.

The agreement does not include the directive contained in the House report regarding reservation boundary recognition.

The Committees are concerned that the Bureau does not adequately maintain rights-of-way records. The Bureau is encouraged to develop a plan to update and digitize its inventory of records and to make the records publicly available in a commonly used mapping format, consistent with the guidance provided in Senate Report 114-281.

Bureau of Indian Education.—The agreement includes \$891,513,000 for the Bureau of Indian Education, of which: \$400,223,000 is for ISEP formula funds; \$2,500,000 is for the development and operation of Tribal departments or divisions of education (TEDs) as authorized by 25 U.S.C. 2020; \$55,995,000 is for student transportation; \$18,659,000 is for early child and family development and should be used to expand the Family and Child Education (FACE) program; \$80,165,000 is to fully fund Tribal grant support costs, based upon updated information provided by the Bureau; \$66,219,000 is for facilities operations; \$59,043,000 is for facilities maintenance; \$7,414,000 is for Tribal technical colleges; \$22,117,000 is for the Bureau-owned and operated Haskell Indian University and Southwestern Indian Polytechnic Institute (SIPI), as requested; \$34,783,000 is for scholarships and adult education; \$2,992,000 is for special higher education scholarships; \$24,763,000 is for education program management; \$10,287,000 is for information technology; and \$12,201,000 is for education pro-

The Committees support efforts to revitalize and maintain Native languages and expand the use of language immersion programs and have provided \$2,000,000 within education program enhancements for capacity building grants for Bureau and tribally operated schools to expand existing language immersion programs or to create new programs. Prior to distributing these funds, the Bureau shall coordinate with the Department of Education and Department of Health and Human Services to ensure that Bureau investments compliment, but do not duplicate, existing language immersion programs. The Committees also direct the Bureau to submit a report to the Committees within 180 days of enactment of this Act regarding the distribution of these funds and the status of Native language classes and immersion programs offered at Bureau-funded schools.

The Johnson O'Malley program is funded at the fiscal year 2016 enacted level. The Committees remain concerned that the distribution of funds is not an accurate reflection of the distribution of students. The Bureau is directed to consolidate the program reporting requirements contained in the House and Senate reports and to report back to the Committees within 60 days of enactment of this Act.

The one-time increase of \$5,100,000 provided in fiscal year 2016 to forward fund Tribal technical colleges has been transferred to forward fund the Institute of American Indian Arts in fiscal year 2017. The Bureau is encouraged to forward fund Haskell and SIPI in future budget requests so that all Tribal colleges are on the same funding schedule.

The Committees remain concerned about recent Government Accountability Office (GAO) reports detailing problems within the K-12 Indian education system at the Department of the Interior, in particular as they pertain to organizational structure, accountability, finance, health and safety, and ultimately student performance. As the Department takes steps to reform the system, the Secretary is reminded that future support from Congress will continue to be based in large part upon successful implementation of GAO report recommendations. In particular, consistent with GAO report 13-774, the Secretary is urged to reorganize Indian Affairs so that control and accountability of the BIE system is consolidated within the BIE, to present such reorganization proposal in the fiscal year 2018 budget request, and to submit to the Committees a corresponding updated workforce plan. Consistent with GAO testimonies 15-389T, 15-539T, 15-597T, and any subsequent reports, the Secretary is urged to personally oversee immediate actions necessary to ensure the continued health and safety of students and employees at BIE schools and facilities.

Public Safety and Justice.—The agreement includes \$385,735,000 for public safety and justice programs, of which: \$202,000,000 is for criminal investigations and police services and includes a \$1,000,000 program increase to implement the Native American Graves Protection and Repatriation Act; \$96,507,000 is for detention/corrections; \$10,319,000 is for law enforcement special initiatives; and \$30,753,000 is for Tribal courts.

Funding for Tribal justice support is restored to \$17,250,000, of which not less than \$10,000,000 is to address the needs of Tribes affected by Public Law 83-280. The Committees remain concerned about Tribal court needs as identified in the Indian Law and Order Commission's November 2013 report, which notes Federal investment in Tribal justice in "P.L. 280" States has been more limited than elsewhere in Indian Country.

The Committees expect the Bureau to work with Tribes and Tribal organizations in these States to fund plans that design, promote, sustain, or pilot courts systems subject to jurisdiction under Public Law 83-280. The Bureau is also directed to formally consult and maintain open communication throughout the process with Tribes and Tribal organizations on how this funding supports the technical infrastructure and future Tribal court needs for these jurisdictions.

Community and Economic Development.—The agreement includes \$41,844,000 for community and economic development, of which: \$12,504,000 is for job placement and training; \$25,304,000 is for minerals and mining; and \$2,235,000 is for community development central oversight.

Executive Direction and Administrative Services.—The agreement provides \$228,824,000 for executive direction and administrative services, of which: \$10,006,000 is for Assistant Secretary Support, \$2,970,000 is for safety and risk management; \$23,060,000 is for human capital management; \$23,552,000 is for intra-governmental payments. The reductions from Assistant Secretary Support and human capital management reflect a transfer of school-related responsibilities, personnel, and budget to the Bureau of Indian Education.

Tribal Recognition.—The Committees acknowledge concerns expressed by certain Tribes, States, and bipartisan members of Congress regarding effects of recent changes in Tribal recognition policy on standards that have been applied to new applicants since 1978. Federal acknowledgement of a Tribe impacts the Federal budget, other Tribes, State and local jurisdictions, and individual rights. The Committees expect the Administration to maintain rigorous recognition standards while implementing a more transparent, efficient, and workable process.

CONTRACT SUPPORT COSTS

The bill provides an indefinite appropriation for contract support costs, consistent with fiscal year 2016 and estimated to be \$278,000,000.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$192,017,000 for Construction. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

Education.—The agreement includes \$133,257,000 for schools and related facilities within the Bureau of Indian Education system, equal to the fiscal year 2016 enacted level after accounting for a one-time funding surge in 2016 to reduce the backlog of critical deferred maintenance projects. The Bureau is directed to submit an allocation plan to the Committees for campus-wide replacement and facilities replacement within 30 days of enactment of this Act.

Indian Affairs is directed to reallocate \$2,000,000 from prior year unobligated balances in order to accelerate advance planning and design of replacement schools and school facilities as proposed. Of these unobligated balances, \$1,000,000 shall be from the Construction Management activity and \$1,000,000 shall be from the General Administration activity.

The agreement does not include an authorizing provision in the House bill to reconstitute the National Fund for Excellence in American Indian Education. The Committees continue to strongly support innovative financing options to supplement annual appropriations and accelerate repair and replacement of Bureau of Indian Education schools, including through the use of construction bonds, tax credits, and grant programs. The Department is urged to revise

and resubmit its proposal to reconstitute the Fund and to include authority for the Fund to facilitate public-private partnership construction projects.

INDIAN LAND AND WATER CLAIMS SETTLEMENTS
AND MISCELLANEOUS PAYMENTS TO INDIANS

The bill provides \$45,045,000 for Indian Land and Water Claims Settlements and Miscellaneous Payments to Indians. In addition, the Bureau shall reallocate \$5,916,000 in prior-year unobligated funds that remain after completion of settlement requirements, for a total program level of \$50,961,000. The Department is directed to submit an allocation plan for these funds to the Committees within 90 days of enactment of this Act.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The bill provides \$8,757,000 for the Indian Guaranteed Loan Program Account to facilitate business investments in Indian Country.

ADMINISTRATIVE PROVISIONS

(INCLUDING RESCISSION OF FUNDS)

The bill includes a rescission of \$3,400,000 from prior year unobligated balances within the Operation of Indian Programs account. The Bureau is directed to take the rescission from no-year funds within the Executive Direction and Administrative Services activity.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

DEPARTMENTAL OPERATIONS

The agreement provides \$271,074,000 for Departmental Offices, Office of the Secretary, Departmental Operations. The detailed allocation of funding by program area and activity is included in the table at the end of the statement.

Increases above the fiscal year 2016 enacted level within the Leadership and Administration activity are outlined within Senate Report 114-281 and include \$225,000 as requested for equipment associated with monitoring classified computers and communications devices supporting the Office of the Secretary and the intelligence community in light of ongoing terrorist threats to national icons. Within the Management Services activity, an additional \$110,000 is provided for law enforcement and investigative activities, including combatting counterfeit activities and enforcement functions related to Indian art and craftwork. The agreement provides \$11,000,000 for the Office of Valuation Services. The agreement also includes an additional \$968,000 as requested within the Office of Natural Resources Revenue (ONRR) to address certain Trust responsibilities for the Osage Nation consistent with the services ONRR already provides to every other Tribe. Full funding for the Payments in Lieu of Taxes (PILT) program for fiscal year 2017 is included in a separate account under Department-Wide Programs. The agreement includes language as requested establishing the Department of the Interior Experienced Services Program.

National Monument Designations.—The Department is directed to collaboratively work with interested parties, including Congress, States, local communities, Tribal governments, and others before making national monument designations.

Arecibo Observatory.—The Committees recognize the importance of world-class scientific research conducted at the Arecibo Observatory in Puerto Rico and direct the Department to notify the Committees prior to taking any actions that could affect the future operation of the facility.

Energy and Minerals Programs and Management.—The Committees are aware that the Department is administratively addressing many of the energy-related provisions and directives contained in the House and Senate

and reports with the goal of increasing responsible and sustainable energy development on Federal lands, while providing economic benefits to States, Tribes, communities, and the economy.

Office of Navajo and Hopi Indian Relocation.—The Department is directed to work with the Office of Navajo and Hopi Indian Relocation (ONHIR) on a plan to close ONHIR and transfer any remaining functions to another agency or organization, as described in further detail under the ONHIR heading within this explanatory statement.

The agreement provides \$3,318,000 for Compact of Free Association. The detailed allocation of funding is included in the table at the end of this explanatory statement.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

The agreement provides \$65,769,000 for the Office of the Solicitor. The detailed allocation of funding is included in the table at the end of this explanatory statement.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The agreement provides \$50,047,000 for the Office of Inspector General. The detailed allocation of funding is included in the table at the end of this explanatory statement.

OFFICE OF THE SPECIAL TRUSTEE FOR

AMERICAN INDIANS

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$139,029,000 for the Office of the Special Trustee for American Indians. The detailed allocation of funding by activity is included in the table at the end of this explanatory statement.

DEPARTMENT-WIDE PROGRAMS

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides a total of \$942,671,000 for Department of the Interior Wildland Fire Management. Of the funds provided, \$395,000,000 is for suppression operations. The bill fully funds wildland fire suppression at the 10-year average. The detailed allocation of funding for these accounts is included in the table at the end of this explanatory statement.

Fuels Management.—The agreement provides \$180,000,000 for hazardous fuels management activities, which is \$10,000,000 above the fiscal year 2016 enacted level.

FLAME WILDFIRE SUPPRESSION RESERVE FUND

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$65,000,000 for the FLAME Wildfire Suppression Reserve Fund, which is designated as emergency spending.

CENTRAL HAZARDOUS MATERIALS FUND

The agreement provides \$10,010,000 for the Central Hazardous Materials Fund.

NATURAL RESOURCE DAMAGE ASSESSMENT AND

RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The agreement provides \$7,767,000 for the Natural Resource Damage Assessment Fund. The detailed allocation of funding by activity is included in the table at the end of this explanatory statement.

WORKING CAPITAL FUND

The agreement provides \$67,100,000 for the Department of the Interior, Working Capital Fund.

PAYMENTS IN LIEU OF TAXES

The agreement provides \$465,000,000 for the Payments in Lieu of Taxes (PILT) program, the fully authorized level of funding for fiscal year 2017 as determined by the most recent Department of the Interior calculation and provided to the Committees on April 20, 2017. The initial estimate was made during formulation of the fiscal year 2017 President's Budget, over 20 months before enactment of the appropriation. This estimate was overstated because it was predicated on the relevant inflation rate at the time—nearly twice the current rate. Additionally, the initial estimate presumed average historical prior-year payment information, which has now been updated with current data from States and counties.

GENERAL PROVISIONS, DEPARTMENT OF THE
INTERIOR

(INCLUDING TRANSFERS OF FUNDS)

The agreement includes various legislative provisions affecting the Department in Title I of the bill, "General Provisions, Department of the Interior." The provisions are:

TITLE II—ENVIRONMENTAL PROTECTION AGENCY

The bill provides \$8,058,488,000 for the Environmental Protection Agency (EPA).

Congressional Budget Justification.—The Agency is directed to continue to include the information requested in House Report 112-331 and any proposals to change State allocation formulas that affect the distribution of appropriated funds in future budget justifications.

Reprogramming.—The Agency is held to the reprogramming limitation of \$1,000,000 and should continue to follow the reprogramming directives as provided in the front of this explanatory statement. It is noted that such reprogramming directives apply to proposed reorganizations, workforce restructuring, reshaping, transfer of functions, or downsizing, especially those of significant national or regional importance, and include closures, consolidations, and relocations of offices, facilities, and laboratories. Further, the Agency may not use any amount of deobligated funds to initiate a new program, office, or initiative, without the prior approval of the Committees.

Within 30 days of enactment of this Act, the Agency is directed to submit to the House and Senate Committees on Appropriations its annual operating plan for fiscal year 2017, which shall detail how the Agency plans to allocate funds at the program project level.

Other.—It is noted that the current workforce is below the fiscal year 2016 level, therefore, the agreement includes rescissions in the Science and Technology and Environmental Programs and Management accounts that capture expected savings associated with such changes. The Agency is directed to first apply the rescissions across program project areas to reflect routine attrition that will occur in those program project areas in fiscal year 2017 and then to reflect efficiency savings in a manner that seeks, to the extent practicable, to be proportional among program project areas. Amounts provided in this Act are sufficient to fully fund Agency payroll estimates. The Committees understand that the Agency routinely makes funding payroll requirements a top priority, and the Committees expect the Agency will continue to do so as it executes its fiscal year 2017 appropriation and applies the rescissions. The Committees do not expect the Agency will undertake adverse personnel actions or incentive programs to comply with the rescissions. As specified in the bill language, the rescissions shall not apply to the Geographic Programs, the National Estuary Program, and the National Priorities funding in the Science and Technology and Environmental Programs and Management accounts. The Agency is directed to submit, as part of the operating plan, detail on the application of such rescissions at the program project level.

SCIENCE AND TECHNOLOGY

(INCLUDING RESCISSION OF FUNDS)

For Science and Technology programs, the bill provides \$713,823,000 to be partially offset

by a \$7,350,000 rescission for a net discretionary appropriation of \$706,473,000. The bill transfers \$15,496,000 from the Hazardous Substance Superfund account to this account. The bill provides the following specific funding levels and direction:

Research: National Priorities.—The bill provides \$4,100,000 which shall be used for extramural research grants, independent of the Science to Achieve Results (STAR) grant program, to fund high-priority water quality and availability research by not-for-profit organizations who often partner with the Agency. Because these grants are independent of the STAR grant program, the Agency should strive to award grants in as large an amount as is possible to achieve the most scientifically significant research. Funds shall be awarded competitively with priority given to partners proposing research of national scope and who provide a 25 percent match. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

Additional Guidance.—The agreement includes the following additional guidance:

Computational Toxicology.—The Agency shall follow the direction under this heading in Senate Report 114-281.

Enhanced Aquifer Use.—The Agency shall follow the direction under this heading in Senate Report 114-281.

Integrated Risk Information System (IRIS).—The Committees are aware of efforts to implement the 2011 National Academy of Science's (NAS) Chapter 7 and 2014 NAS report recommendations for the IRIS program, including six specific recommendations. These recommendations include objective evaluation of the strengths and weaknesses of critical studies, the need for weight of evidence evaluation and integration, and clearer rationale for selecting studies to calculate toxicity values. Additionally, the NAS identified specific recommendations and considerations when evaluating the hazards of formaldehyde. The Committees believe that EPA should contract with the NAS to conduct the peer review of the revised draft IRIS assessment of formaldehyde, should it be released in fiscal year 2017, to verify the recommendations from the previous NAS report of 2011 have been fully resolved scientifically.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT (INCLUDING RESCISSION OF FUNDS)

For Environmental Programs and Management, the bill provides \$2,619,799,000 to be partially offset by a \$21,800,000 rescission for a net discretionary appropriation of \$2,597,999,000. The bill provides the following specific funding levels and direction:

Environmental Protection: National Priorities.—The bill provides \$12,700,000 for a competitive grant program to provide technical assistance for improved water quality or safe drinking water to rural and urban communities or individual private well owners. The Agency is directed to provide on a national or multi-State regional basis, \$11,000,000 for grants to qualified not-for-profit organizations, including organizations authorized by Section 1442(e) of the Safe Drinking Water Act (42 U.S.C.300j-1(e)(8)), for the sole purpose of providing on-site training and technical assistance for water systems in rural or urban communities. The Agency is also directed to provide \$1,700,000 for grants to qualified not-for-profit organizations for technical assistance for individual private well owners, with priority given to organizations that currently provide technical and educational assistance to individual private well owners. The Agency shall require each grantee to provide a minimum 10 percent match, including in-kind contributions. The Agency is directed to allocate funds to

grantees within 180 days of enactment of this Act.

Geographic Programs.—The bill provides \$435,857,000, as distributed in the table at the end of this division, and includes the following direction:

Great Lakes Restoration Initiative.—The bill provides \$300,000,000 and the Agency shall continue to follow the direction as provided in House Report 112-589. In addition, as EPA distributes funds across the five focus areas, Tribal related activities shall be maintained at not less than the fiscal year 2016 level.

Chesapeake Bay.—The bill provides \$73,000,000 and the Agency shall allocate funds consistent with the direction under this heading in Senate Report 114-281.

Water: Ecosystems.—The agreement includes \$47,788,000. The Committees recognize that Public Law 114-161 created a competitive grant program to help prioritize challenging issues within estuaries. Passage of this law occurred after the Agency's budget submission. After the Agency provides \$600,000 to each of the 28 national estuaries in the program, the Committees urge the Agency to fund a competitive grant program using available resources, and consistent with House report 114-632. In addition, the Committees direct EPA to use the funds provided to accelerate the processing of mining permits with the Corps of Engineers. Further, the Committees direct EPA, in consultation with the Corps of Engineers, to continue to report monthly on the number of Section 404 permits under EPA's review, consistent with the direction under this heading in House Report 114-170.

Additional Guidance.—The agreement includes the following additional guidance:

Accidental Release Prevention Requirements.—The Committees note that EPA has postponed the effective date for implementation by 90 days as it reviews and reevaluates the rule. The Committees expect EPA to work with State regulators, facility managers, small businesses, and other stakeholders as it reevaluates the rule.

Agricultural Operations.—The Committees note that Congress never intended the Solid Waste Disposal Act to govern animal or crop waste, manure, or fertilizer, or constituents derived from such sources. The Agency's longstanding regulations accurately reflect Congress' intent not to regulate manure and crop residues under the Solid Waste Disposal Act, and the Committees support legislative efforts to clarify and codify the treatment of agricultural byproducts under the Solid Waste Disposal Act.

Clean Air Act Economic Analysis.—The Committees note that Section 321(a) of the Clean Air Act states that the EPA "shall conduct continuing evaluations of potential loss or shifts of employment". On October 17, 2016, a Federal district court opinion found that the Agency has a non-discretionary duty to compile such evaluations, and ordered the Agency to develop a plan for compliance. In January 2017, the Federal district court directed the EPA to develop an economic analysis of the effects of regulations on the coal mining and power generation industries by July 1, 2017. EPA has also been directed to demonstrate by the end of the year that it has measures in place to monitor employment shift as a result of its regulations. The Committees expect the Agency will keep the Committees apprised of progress to comply with the recent court orders.

Coal Combustion Residuals.—Section 2301 of the WIIN Act (P.L. 114-322) amended the Solid Waste Disposal Act to authorize the Agency to review and approve, as appropriate, State programs for permits or other systems of prior approval and conditions under State law for the regulation of coal combustion residuals. To expedite the process for reviewing and approving such State

programs, the Agency should establish, as expeditiously as is practicable, streamlined procedures for prompt approval of those State programs.

Combined Sewer Overflows.—Senate Report 114-281 included language directing the EPA to report to Congress, within 60 days of enactment of this Act, the plan and timeline for the implementation of public notice requirements for treatment works discharging sewage into the Great Lakes as required by the Consolidated Appropriations Act, 2016. The Committees remind the Agency that the bill language in the Consolidated Appropriations Act, 2016, specifically defined the term “Great Lakes” for purpose of the public notice requirements. Additionally, the Committees note that the bill language did not require immediate public notice. As such, the Committees recommend the Agency give utilities flexibility to ensure that the ratepayers are not severely impacted by the cost of implementing this public notice requirement.

Ecolabels for Federal Procurement.—The agreement includes the direction in Senate Report 114-281 to provide a report on the Agency’s Ecolabel program within 60 days of enactment of this Act. The Committees are aware that the Agency has been developing guidelines to evaluate ecolabels that are used in Federal purchasing for building construction and other uses and recommend that any process be fair, transparent, and consistent with other product requirements.

Exempt Aquifers.—The Committees are aware that EPA has received and will be receiving exempt aquifer applications from the State of California for processing and approval. The Committees continue to support protecting underground sources of drinking water and promoting robust economic development. Accordingly, the Committees continue to urge EPA to work expeditiously to process exempt aquifer applications and use the existing regulatory framework to process these applications as provided in House Report 114-170 and House Report 114-632.

Integrated Planning.—The Committees strongly support efforts to use an integrated planning approach to help municipalities meet Clean Water Act obligations. The Committees urge the Agency to work with communities in fiscal year 2017 to develop elements of integrated plans for municipal wastewater and stormwater management.

Lead Test Kit.—The Committees reiterate support for activities that result in safe and proper reduction of lead paint in homes and the protection of sensitive populations. Such support along with concerns about implementation challenges were expressed in House Report 114-632 and Senate Report 114-281. Consistent with the concerns outlined in the Committee reports, EPA should identify options to remedy implementation challenges that have persisted since 2009.

National Ambient Air Quality Standards.—Concerns remain about potentially overlapping implementation schedules related to the 2008 and 2015 standards for ground-level ozone. Because the Agency did not publish implementing regulations for the 2008 standard of 75 parts per billion [ppb] until February 2015, and then revised the standard to 70 ppb in October 2015, States now face the prospect of implementing two national ambient air quality standards for ozone simultaneously. It is likely that, based on Agency data, a number of counties will be in non-attainment with both the 2008 standard and the 2015 standard. Additionally, Agency data suggests that a number of marginal non-attainment counties will meet the 2015 standard by 2025 due to other air regulations. In an effort to find the most sensible path to reduce ground level ozone, some flexibility must be granted to States that face the bur-

den of implementing these potentially overlapping standards. Within 90 days of the date of enactment of this Act, the Agency is directed to provide the Committees with a report examining the potential for administrative options to enable States to enter into cooperative agreements with the Agency that provide regulatory relief and meaningfully clean up the air.

Pesticides Registration Improvement Act.—In addition to the direction under this heading in Senate Report 114-281,—the Agency is directed to provide the Committees with a quarterly report detailing the amount of previously collected maintenance fees that are currently unavailable for obligation.

Science Advisory Board.—Regarding language under both the Science and Technology account and the Environmental Programs and Management account, the Committees are aware that EPA did not fulfill the fiscal year 2016 directive to provide updated policy statements to GAO for review.

Significant New Alternatives Policy (SNAP) Program.—The Committees reiterate the concern expressed in Senate Report 114-281 with respect to the proposed timeframes for delistings. Historical experience indicates that manufacturers often need several years to modify manufacturing processes in order to transition between new materials. Since EPA’s deadlines are not driven by statutory mandates, additional transition time is allowable, and warranted, in order to avoid unintended consequences. To allow manufacturers to fully integrate new chemicals into their product lines following rigorous efficacy and safety testing, EPA is directed to consider harmonizing the status of any previously approved refrigerant or foam-blowing agent with other domestic and international programs for refrigeration and commercial air conditioning applications, and corresponding deadlines for military, space- and aeronautics-related applications.

Small and Art Glass Manufacturers.—The Committees note there are significant concerns in the small and art glass manufacturing industry over potential changes to the definitions and standards for National Emission Standards for Hazardous Air Pollutants requirements. The Committees recommend that the Agency maintain current thresholds and definitions particularly related to operators that produce less than 50 tons per year or use non-continuous furnaces in their operations.

Small Refinery Relief.—The agreement includes the directive contained in Senate Report 114-281 related to small refinery relief.

Spill Prevention Requirements.—The WIIN Act (P.L. 114-322) modified the applicability of EPA’s Spill Prevention, Control and Countermeasure regulations with respect to smaller containers on farms. The Committees urge EPA to continue to explore options for additional flexibilities for farmers and ranchers subject to the rule.

Toxic Substances Control Act Modernization.—The agreement includes bill language that will enable the EPA to collect and spend new fees to conduct additional chemical reviews, as authorized by the Frank R. Lautenberg Chemical Safety for the 21st Century Act (P.L. 114-182). Since collections will begin partway through the year, the Congressional Budget Office estimates that fee collections will total \$3,000,000 for fiscal year 2017 and are estimated to increase to \$25,000,000 per year once the program is fully implemented. Finally, this bill includes language ensuring that new fee collections will supplement, not supplant, appropriated resources for these activities.

Uranium.—The Committees note that EPA has decided to re-propose the Part 192 rule and solicit additional public comment. As the Agency works through the public com-

ment process, the Committees encourage EPA to work with State regulators, the Nuclear Regulatory Commission, and the uranium recovery industry to collect sufficient data to determine if any updates are needed to the existing generally applicable standards.

Worker Protection Standards.—The Committees note that the process for developing and providing guidance, educational materials, and training resources to the States has not followed the schedule originally envisioned in the rule. Accordingly, the Agency has received petitions requesting extensions of implementation dates until January 2018 that would allow for a smoother transition to new requirements. The Agency should consider extending implementation deadlines until 2018, and whether further engagement with stakeholders regarding implementation issues would be beneficial.

HAZARDOUS WASTE ELECTRONIC MANIFEST SYSTEM FUND

The bill provides \$3,178,000 for the Hazardous Waste Electronic Manifest System Fund.

OFFICE OF INSPECTOR GENERAL

The bill provides \$41,489,000 for the Office of Inspector General.

BUILDINGS AND FACILITIES

The bill provides \$34,467,000 for Buildings and Facilities.

HAZARDOUS SUBSTANCE SUPERFUND

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,088,769,000 for the Hazardous Substance Superfund account and includes bill language to transfer \$8,778,000 to the Office of Inspector General account and \$15,496,000 to the Science and Technology account. The bill provides the following additional direction:

Financial Assurance.—The Committees are aware of concerns raised by States, stakeholders, and the Small Business Administration’s Office of Advocacy regarding the Agency’s proposed rule on financial assurance for hardrock mining. The Agency has extended the comment period on the proposed rule for hardrock mining until July 11, 2017. It is expected that the Agency will take those comments into account in recommending its course of action to finalize the rule.

Sediment Guidance.—The Committees note that the Agency completed a report on sediment guidance in February 2017. The Committees urge the Agency to ensure compliance with the Agency’s Contaminated Sediment Guidance.

LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The bill provides \$91,941,000 for the Leaking Underground Storage Tank Trust Fund Program.

INLAND OIL SPILL PROGRAMS

The bill provides \$18,209,000 for Inland Oil Spill Programs.

STATE AND TRIBAL ASSISTANCE GRANTS

The bill provides \$3,527,161,000 for the State and Tribal Assistance Grants program and includes the following specific funding levels and direction:

Targeted Airshed Grants.—The bill provides \$30,000,000 for targeted airshed grants to reduce air pollution in non-attainment areas. These grants shall be distributed on a competitive basis to non-attainment areas that EPA determines are ranked as the top five most polluted areas relative to annual ozone or particulate matter 2.5 standards as well as the top five areas based on the 24-hour particulate matter 2.5 standard where the design values exceed the 35 µg/m³ standard. To determine these areas, the Agency shall use

the most recent design values calculated from validated air quality data. The Committees note that these funds are available for emission reduction activities deemed necessary for compliance with national ambient air quality standards and included in a State Implementation Plan submitted to EPA. Not later than the end of fiscal year 2017, EPA should provide a report to the Committees on Appropriations that includes a table showing how fiscal year 2016 and 2017 funds were allocated. The table should also include grant recipients and metrics for anticipated or actual results.

Animas River Spill.—The Gold King Mine spill into the Animas River significantly impacted areas in New Mexico, Colorado, Arizona, Utah, and the Navajo Nation. As authorized by P.L. 114-322, the bill provides \$4,000,000 for a long-term water quality monitoring program, and EPA is directed to continue to work in consultation with affected States and Tribes on that effort. The Agency is strongly encouraged to follow the requirements detailed in House report 114-632 regarding the temporary water treatment plant and in Senate Report 114-281 regarding reimbursements for State, local and Tribal costs related to the spill. Finally, a recent legal decision has left many stakeholders concerned that they will not be compensated for property damage, business losses, and other negative financial impacts. EPA should further explore all legal and financial recourses that could compensate individuals for such damages and, if available, should ensure that recourses will be extended to individuals located in all areas impacted by the spill in New Mexico, Colorado, Arizona, Utah, and the Navajo Nation. The Agency is required to report to the Committees within 60 days of enactment of this Act on the details and timeline for such efforts, including plans for stakeholder engagement in all areas affected by the spill.

Categorical Grants.—The bill provides \$1,066,041,000 for Categorical Grants and funding levels are specified in the table at the end of this division. The Agency shall allocate radon grants in fiscal year 2017 following the direction in House Report 114-632. The amount also includes \$228,219,000 for the State and Local Air Quality Management grant program, and the Agency is directed to allocate funds for this program using the same formula as fiscal year 2015. The Committees understand the Office of Air and Radiation was able to provide some additional funds to the States in fiscal year 2016 using balances. The Committees encourage the Agency to do the same in fiscal year 2017 and to provide those additional funds to the regions with the highest need.

Use of Iron and Steel.—The bill includes language in Title IV General Provisions that stipulates requirements for the use of iron and steel in State Revolving Fund projects, and the agreement includes only the following guidance. The Committees acknowledge that EPA may issue a waiver of said requirements for de minimis amounts of iron and steel building materials. The Committees emphasize that any coating processes that are applied to the external surface of iron and steel components that otherwise qualify under the procurement preference shall not render such products ineligible for the procurement preference regardless of where the coating processes occur, provided that final assembly of the products occurs in the United States.

WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT

This bill provides an additional \$10,000,000 for the WIFIA program. When combined with funds provided under Sec. 197 of P.L. 114-254, the WIFIA program is funded at a total

\$30,000,000 for fiscal year 2017, which has the ability to be leveraged for a total of \$3,049,000,000 in loans. Of the amounts provided in this bill and in P.L. 114-254, EPA may use up to \$5,000,000 for administrative expenses to administer the program and issue loans. The Committees note that \$2,200,000 had previously been provided in other accounts for staffing and administrative needs in order to establish the program. The agreement concurs with the budget consolidation of those resources into this new account.

ADMINISTRATIVE PROVISIONS—ENVIRONMENTAL PROTECTION AGENCY (INCLUDING TRANSFERS AND RESCISSION OF FUNDS)

The bill continues several administrative provisions from previous years.

Rescission.—The bill rescinds \$61,198,000 of unobligated balances from the State and Tribal Assistance Grants account. The Agency shall calculate the requisite percent reduction necessary to rescind such amounts from new obligational authority and apply it across program areas by formula. The Agency is directed to submit, as part of the operating plan, detail on the application of such rescissions by program project area.

TITLE III—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

Forest Service Directives.—The Forest Service is reminded of the importance of the directives included in House Report 114-632 and Senate Report 114-281 not addressed herein, as well as the new directives in this statement, including the front matter. The Service is expected to provide the research report, as required by the House report, within 30 days of enactment of this Act.

Forest Service Accounting, Budgeting, and Management.—The agreement includes bill language and directives to increase transparency and confidence in the Service's management of its programs and activities.

The agreement includes a new administrative provision requiring the Service to report within 30 days after the close of each quarter, through the Office of Budget and Program Analysis, its current and prior year unobligated balances to the House and Senate Committees on Appropriations. The Service is directed to provide this report for all mandatory and discretionary funds, including receipts and permanent appropriations, as well as funds subject to notification requirements and transfers of unobligated balances.

Although the agreement does not include reprogramming guidelines in bill language, as proposed by the House, the Committees expect the Service to follow the letter and spirit of the reprogramming requirements in this explanatory statement and direct the Service to submit requests through the Office of Budget and Program Analysis.

The agreement assigns fiscal-year limits to certain Forest Service accounts. This modification will require funds to be tracked by year, budget line item, and account, and encourage the Service to expeditiously award contracts, settle reimbursable agreements, and conduct forest management activities. The agreement also establishes a non-recurring expenses account that will allow certain unobligated funds to be captured and used for fuel reduction and post-fire rehabilitation purposes. The Committees believe that fiscal-year limits will not impede the Service's ability to effectively fight wildfire or meet wildfire obligations relating to agreements with Federal, State, or other partners.

To further support the Service's efforts in centralizing and standardizing budgeting and accounting practices among the Regions and program offices, the Service is directed to improve and better manage its procurement

and financial management processes to ensure funds are spent in an appropriate and timely manner. The Service should also make certain that sufficient internal controls are in place to ensure that unliquidated obligations are consistently and systematically evaluated for validity, and that unliquidated obligations found unnecessary are promptly adjusted to make funds available for authorized purposes.

According to the information provided as required by Senate Reports 114-82 and 114-70, the Service has significantly higher costs of printing for public distribution compared to other Department of Agriculture agencies. The Service is directed to update the information provided in the report to the Committees within 30 days of enactment of this Act, and to significantly reduce its printing expenditures.

FOREST AND RANGELAND RESEARCH

The agreement provides \$288,514,000 for Forest and Rangeland Research, including \$77,000,000 for Forest Inventory and Analysis.

Forest Products Laboratory.—Of the funds available to the Forest Products Laboratory, no less than \$1,000,000 is to sustain funding with existing academic partners focused on research and technology development to create new and expanded markets and to advance high-value, high-volume wood markets from restorative actions on the Nation's public and private forests.

Joint Fire Science Research.—The agreement accepts the proposal to shift the Joint Fire Science Research program into the Forest and Rangeland Research account and provides no less than \$3,000,000 for the program.

Forest Research Priorities.—The Committees are concerned that the research program is not well aligned with the needs of the National Forest System. When assessing the value of new proposals, significant weight should be given to projects whose findings could be incorporated into management and decision-making.

STATE AND PRIVATE FORESTRY

(INCLUDING RESCISSION OF FUNDS)

The agreement provides \$216,921,000 for State and Private Forestry. The following directions are also provided:

Federal and Cooperative Lands.—The Committees understand the Service has obligated \$5,000,000 in prior year balances to address the forest health crisis in Region 5.

Forest Legacy.—The bill provides \$62,347,000 for the Forest Legacy program. This includes \$6,400,000 for program administration and \$55,947,000 for projects. The Service should fund projects in priority order according to the competitively selected national priority list submitted by the Forest Service as part of its fiscal year 2017 budget request. In lieu of the direction included in the House report, the Committees expect the Forest Service to prudently track unobligated and deobligated balances and to provide the Committees with prompt notification of such changes to avoid accumulating large balances within the Forest Legacy account. The Committees include a rescission of \$12,002,000 in Forest Legacy funds. This funding rescission is from cost savings of some projects and funds returned from failed or partially failed projects.

NATIONAL FOREST SYSTEM

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,513,318,000 for the National Forest System. The following directions are also provided:

The agreement accepts the proposal to consolidate the Land Management Planning and Inventory and Monitoring accounts into a Land Management Planning, Assessment, and Monitoring account.

Integrated Resource Restoration (IRR).—The agreement continues the IRR pilot in Regions 1, 3, and 4, as proposed by the Senate.

The Service is directed to require standardized, integrated planning and budgeting for all of its programs, projects, and activities in order to improve priority-setting and cooperation, and to continue to improve its integrated performance measures.

Rangeland Management.—The Service is directed, to the greatest extent practicable, to make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or wildfire.

Forest Products.—The additional funds provided for forest products are directed to be used to build the timber program capacity by facilitating the necessary planning work and the hiring and training of timber management personnel to deliver increased volume levels.

Forest Product Outputs.—The Service is directed to include information on the amount of firewood removed for personal use in its reports on the forest products program.

Recreation, Heritage and Wilderness.—The agreement provides \$264,595,000 for recreation, heritage and wilderness. Of the funds provided for recreation management, \$750,000 shall be for the maintenance of rural airstrips.

Minerals and Geology Management.—The Committees understand that the Service has obligated \$5,500,000 in prior year balances to address the Service's cleanup liabilities, pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, associated with historic uranium mining at the Ross-Adams Mine Site on Bokan Mountain.

Bighorn and Domestic Sheep.—The Committees direct the Forest Service to continue the quantitative, science-based analyses of the risk of disease transmission between domestic and bighorn sheep required in the fiscal year 2016 explanatory statement.

CAPITAL IMPROVEMENT AND MAINTENANCE
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$364,014,000 for Capital Improvement and Maintenance programs offset by a \$16,000,000 scoring credit related to the road and trail fund.

LAND ACQUISITION

The agreement provides \$54,415,000 for Land Acquisition. The amounts recommended by this bill compared with the budget estimates by activity and project are shown in the table below, listed in priority order pursuant to the budget request for fiscal year 2017. The Committees have provided additional funding for the updated appraisal of projects, as requested, for the fiscal year 2017 project list. The Service is expected to use the Critical Inholdings/Wilderness account to acquire high priority lands, such as wilderness and lands of significant value in designated conservation units, to consolidate Federal ownership. Further instructions are contained under the Land and Water Conservation Fund heading in the front of this explanatory statement.

The Committees continue to encourage the Forest Service to explore all funding avenues to resolve the long-standing management challenges related to school trust lands within the Boundary Waters Canoe Area in Superior National Forest.

The agreement provides \$950,000 for the Acquisition of Lands for National Forests Special Acts.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The agreement provides \$216,000 for the Acquisition of Lands to Complete Land Exchanges.

RANGE BETTERMENT FUND

The agreement provides \$2,320,000 for the Range Betterment Fund.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

The agreement provides \$45,000 for Gifts, Donations and Bequests for Forest and Rangeland Research.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The agreement provides \$2,500,000 for the Management of National Forest Lands for Subsistence Uses.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides a total of \$2,833,415,000 for Forest Service Wildland Fire Management. Of the funds provided, \$1,248,000,000 is for suppression operations. The bill fully funds wildland fire suppression at the 10-year average.—The detailed allocation of funding for these accounts is included in the table at the end of this explanatory statement.

Hazardous Fuels Management.—The agreement provides \$390,000,000 for hazardous fuels management activities, which is \$15,000,000 above the fiscal year 2016 enacted level.

Within this amount, \$15,000,000 is for biomass utilization grants.

FLAME WILDFIRE SUPPRESSION RESERVE FUND
(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$342,000,000 for the FLAME Wildfire Suppression Reserve Fund, which is designated as emergency spending.

DEPARTMENT OF HEALTH AND HUMAN SERVICES
INDIAN HEALTH SERVICE
INDIAN HEALTH SERVICES

The agreement provides \$3,694,462,000 for Indian Health Services. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes specified fixed costs and transfers, as well as the following instructions and program changes to fiscal year 2016 enacted levels. The Service is also reminded of the guidance and reporting requirements contained in House Report 114-632 and Senate Report 114-281 that should be complied with unless specifically addressed to the contrary herein, as explained in the front matter of this explanatory statement.

Current Services.—The agreement includes \$50,269,000 to partially maintain current levels of service, of which \$13,164,000 is for pay costs and \$37,105,000 is for inflation. Except as otherwise provided, the agreement includes an increase equal to 50 percent of pay and inflation costs requested in the fiscal year 2017 President's Budget for each program to cover the balance of the fiscal year remaining.

Staffing for New Facilities.—The agreement includes \$14,323,000 for staffing newly opened health facilities, which is the full amount based upon updated estimates provided to the Committees. Funds for the staffing of

new facilities are limited to facilities funded through the Health Care Facilities Construction Priority System or the Joint Venture Construction Program that have opened in fiscal year 2016 or will open in fiscal year 2017. None of these funds may be allocated to a facility until such facility has achieved beneficial occupancy status.

Accreditation Emergencies.—The Committees consider the loss or potential loss of a Medicare or Medicaid agreement with the Centers for Medicare and Medicaid Services (CMS) at any facility to be an accreditation emergency. The agreement includes a total of \$29,000,000 for accreditation emergencies at an alarming number of facilities over the past year. Funds may be used for personnel or other expenses essential for sustaining operations of an affected service unit, including but not to exceed \$4,000,000 for Purchased/Referred Care. These are not intended to be recurring base funds. The Director should reallocate the funds annually as necessary to ensure that agreements with CMS are reinstated, and to restore third-party collection shortfalls. Shortfalls should be calculated as described in the House report.

Hospitals and Health Clinics.—The agreement includes: \$4,000,000 as requested for domestic violence prevention; a total of \$11,000,000 for operations and maintenance of tribally leased clinics, of which \$2,000,000 is transferred from Direct Operations; \$1,000,000 for prescription drug monitoring as described in the House report; and \$29,000,000 for accreditation emergencies as discussed above, of which \$2,000,000 is transferred from Direct Operations, as requested.

Dental Health.—The agreement includes \$3,914,000 for current services and a transfer of \$800,000 to Direct Operations in order to

backfill vacant dental health positions in headquarters. The Service is urged to establish a centralized credentialing system.

Mental Health.—The agreement includes \$6,946,000 for behavioral health integration and \$3,600,000 for the zero suicide initiative.

Alcohol and Substance Abuse.—The agreement includes: \$6,500,000 for the Generation Indigenous initiative; \$1,800,000 for the youth pilot project; and \$2,000,000 to fund essential detoxification and related services provided by the Service's public and private partners to IHS beneficiaries.

The Committees are aware that the community of Gallup, N.M., continues to face significant demand for substance abuse treatment, residential services and detoxification services to address an ongoing crisis of alcohol-related deaths of Tribal members, and continues to depend on the non-profit Na' Nizhoozhi Center to provide an important safety net to help prevent these deaths. Consistent with the guidance in Senate Report 114-281, the Committees expect the Service to use funds provided in this Act to continue its partnership with the Center and to work with the Center and other Federal, State, local, and Tribal partners to develop a sustainable model for the Center to enhance its clinical capacity.

Purchased/Referred Care.—The agreement includes \$14,691,000 for current services. The agreement does not include the directive in the House report regarding the allocation of funds.

Immunization.—The agreement includes \$91,000 for current services.

Urban Indian Health.—The agreement includes \$1,800,000 for current services and a \$1,137,000 program increase.

Indian Health Professions.—The agreement includes a \$500,000 program increase. The agreement does not include the House report language pertaining to the definition of health profession; instead the Service is urged to consider making health administrators a higher priority for loan repayments, in consultation with Tribes.

Direct Operations.—The agreement includes \$1,282,000 for current services, and transfers as discussed above.

Governing Board.—The agreement does not include the House provision authorizing a pilot program for an alternate governing board model at direct service facilities. The accreditation crisis in the Great Plains and the subsequent House provision have highlighted the need for IHS facilities to be significantly more inclusive of Tribes in the decision-making process. The Committees are encouraged by the IHS's own recent initiative to reform its governing boards, but reforms are limited under existing statutes. The Committees are aware that the authorizing committees of jurisdiction are examining this issue and support these efforts to improve the communication and collaboration between the IHS and Tribes at direct service facilities.

CONTRACT SUPPORT COSTS

The bill provides an indefinite appropriation for contract support costs, consistent with fiscal year 2016 and estimated to be \$800,000,000.

INDIAN HEALTH FACILITIES

The agreement provides \$545,424,000 for Indian Health Facilities. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following details and changes relative to fiscal year 2016 enacted levels:

Current Services.—The agreement includes \$9,274,000 to partially maintain current levels of service, of which \$1,220,000 is for pay costs and \$8,054,000 is for inflation. Except as otherwise provided, the agreement includes an increase equal to 50 percent of pay and infla-

tion costs requested in the fiscal year 2017 President's Budget for each program to cover the balance of the fiscal year remaining.

Staffing for New Facilities.—The agreement includes \$1,659,000 for staffing newly opened health facilities, which is the full amount based upon updated estimates provided to the Committees. The stipulations included in the "Indian Health Services" account regarding the allocation of funds pertain to this account as well.

Maintenance and Improvement.—The agreement fully funds inflation costs and provides a program increase of \$259,000 to reduce the maintenance backlog.

Sanitation Facilities.—The agreement fully funds inflation costs.

Health Care Facilities Construction.—The agreement includes \$6,000,000 for quarters and \$5,000,000 for small ambulatory facilities. The committees encourage the Service to give strong consideration to utilizing the new resources provided for the small ambulatory clinic program to assist with infrastructure improvements at remote sites such as Gambell and Savoonga on St. Lawrence Island, Alaska.

The Committees remain dedicated to providing access to health care for IHS patients across the system. The IHS is expected to aggressively work down the current Health Facilities Construction Priority System list, as well as work with the Department and Tribes to examine alternative financing arrangements and meritorious regional demonstration projects authorized under the Indian Health Care Improvement Act that would effectively close the service gap. Within 60 days of enactment of this Act, the Service shall submit a spending plan to the Committees that details the project-level distribution of funds provided for healthcare facilities construction.

The IHS has no defined benefit package and is not designed to be comparable to the private sector health care system. IHS does not provide the same health services in each area. Health services provided to a community depend upon the facilities and services available in the local area, the facilities' financial and personnel resources (42 CFR 136.11 (c)), and the needs of the service population. In order to determine whether IHS patients across the system have comparable access to healthcare, the IHS is directed to conduct and publish a gap analysis of the locations and capacities of patient health facilities relative to the IHS user population. The analysis should include: facilities within the IHS system, including facilities on the Health Facilities Construction Priority System list and the Joint Venture Construction Program list; and where possible facilities within private or other Federal health systems for which arrangements with IHS exist, or should exist, to see IHS patients.

CHEMICAL SAFETY AND HAZARD INVESTIGATION
BOARD

SALARIES AND EXPENSES

The agreement provides \$11,000,000 for the Chemical Safety and Hazard Investigation Board and includes the direction in the House report that funding has not been provided for organizing an annual symposium. The Board is directed to develop internal guidance over its annual budget process and provide it to the Committees within 90 days of enactment of this Act. Additionally, the Board is directed to provide a report and briefing to the Committees dealing with the scope of and justification for a study on land use and facility siting prior to expending any funds on the study.

The Committees remind the Board they are to avoid any communication with outside groups that would jeopardize their impartiality.—The Committees continue to closely monitor Inspector General reports on Board activities and expect expeditious implementation of any recommendations on internal controls, governance, operations, and management challenges. The Board should focus on its statutory jurisdiction and refrain from conducting official business over personal email.

OFFICE OF NAVAJO AND HOPI INDIAN
RELOCATION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$15,431,000 for the Office of Navajo and Hopi Indian Relocation, as requested. The Committees have directed the Office to begin to communicate with Congress, the affected Tribes, and the Department of the Interior about what will be required to ensure relocation benefits and necessary support services are provided in accordance with the specifications in Public Law 93-531 and to initiate closure of the Office. The Committees request continuation of the quarterly reports and a comprehensive plan for closing the Office, as outlined in the House report. The comprehensive plan is to be submitted with the fiscal year 2018 budget request. Legal analysis on whether any enacting legislation is required to transfer or maintain any identified functions to another agency or organization should also be included. The Office should be transparent about the path forward and should actively consult with all affected parties and agencies.

INSTITUTE OF AMERICAN INDIAN AND ALASKA
NATIVE CULTURE
AND ARTS DEVELOPMENT
PAYMENT TO THE INSTITUTE

The bill provides \$15,212,000 for the Institute of American Indian Arts. The increase provided shall be used to complete the Institute's transition to forward funding during fiscal year 2017. Amounts provided for fiscal year 2017 shall be supplemented by \$2,000,000 in prior-year carryover funds, for a total operating level of \$9,835,000. Requested increases for fixed costs and academic program requirements are included within the agreement.

SMITHSONIAN INSTITUTION
SALARIES AND EXPENSES

The agreement provides a total of \$863,347,000 for all Smithsonian Institution accounts, of which \$729,444,000 is provided for salaries and expenses. The Committees maintain their longstanding commitment to the preservation of priceless, irreplaceable Smithsonian collections and have provided funds as requested for collections care and preservation. The recommendation provides sufficient funds for staffing and maintenance needs at the National Museum of African

American History and Culture in 2017. The Committees have provided funds, as requested, to address security needs at the Smithsonian's highest risk facilities. The Committees provide funds as requested for the Institution's Latino initiatives and support the Smithsonian Latino Center's goal of promoting the inclusion of Latino contributions in Smithsonian Institution programs, exhibitions, collections, and public outreach. The Committees continue to urge collaboration between the Smithsonian Latino Center and appropriate Federal and local organizations in order to advance these goals and expand the American Latino presence at the Institution. Further, the Committees provide funds as requested for the Institution's Asian Pacific American initiatives and continue to support the Institution's efforts of developing programs and expanding outreach to promote a better understanding of the Asian Pacific American experience. The Committees also include funds as requested for the preservation of cultural heritage affected by natural and manmade disasters in the United States and around the world. The recommendation supplements funding from other government partners and leverages support for cultural recovery efforts from numerous private sources.

FACILITIES CAPITAL

The agreement provides \$133,903,000 for the Facilities Capital account. The recommendation includes funding for the construction of the Dulles Storage Module at the National Air and Space Museum's Udvar-Hazy Center.

National Air and Space Museum Revitalization. The Committees recognize the critical need to replace the façade and the internal building systems of the National Air and Space Museum on the National Mall.— However, the Committees are also deeply concerned that the multi-year cost estimates for the revitalization project in future fiscal years are approaching \$700 million, an amount nearly five times the size of the Institution's entire annual construction budget. Given the scale of the project and its potential impact on other critical funding priorities in this Act, it is imperative that the Institution make available to the Committees on a timely basis the most updated and comprehensive information on project requirements. It is essential that the Committees have sufficient, reliable information about specific funding requirements and any additional costs that may arise in future fiscal years. Therefore, no later than 90 days after enactment of this Act, the Institution is directed to provide a report to the Committees that outlines the expected scope, scheduling, phasing, and overall projected costs for the project. The Government Accountability Office is also directed to review and analyze the Institution's cost estimates and report to the Committees on whether these estimates are comprehensive, accurate, and credible.

The Institution is directed to submit to the House and Senate Committees on Appropriations, within 60 days of enactment of this Act, a detailed list and description of projects funded within the Facilities Capital account.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS GRANTS AND ADMINISTRATION

The agreement provides \$149,849,000 for the National Endowment for the Arts (NEA). The Committees commend the NEA for its work through its Healing Arts Partnership program with Walter Reed National Military Medical Center, Fort Belvoir Community Hospital, and the new clinical sites included in the initiative to incorporate arts therapy into the treatment of active-duty military patients and their families. The Committees continue to support the expansion of this successful program to assist service members and their families in their recovery, reintegration, and transition to civilian life. The Committees also urge State arts agencies, which have a longstanding collaborative relationship with the NEA, to explore providing arts therapy programs to service members and their families at the local level. The Committees direct that priority be given to providing services and grant funding for projects, productions, or programs that encourage public knowledge, education, understanding, and appreciation of the arts. The Committees maintain support for the 40 percent allocation for State arts agencies as proposed in the NEA's budget. Any reduction in support to the States for arts education should be no more than proportional to other funding decreases taken in other NEA programs.

NATIONAL ENDOWMENT FOR THE HUMANITIES GRANTS AND ADMINISTRATION

The agreement provides \$149,848,000 for the National Endowment for the Humanities (NEH). The Committees commend the NEH for its support of grant programs to benefit wounded warriors and to ensure educational opportunities for American heroes transitioning to civilian life. The Committees commend the NEH for its ongoing support to American Indian and Alaska Native communities in preserving their cultural and linguistic heritage through the Documenting Endangered Languages program and a variety of preservation and access grants that enable American Indian and Alaska Native communities to preserve cultural artifacts and make them broadly accessible. The Committees also commend the NEH Federal/State partnership for its ongoing, successful collaboration with State humanities councils in each of the 50 States as well as Washington, DC, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa. The Committees urge the NEH to provide program funding to support the critical work of State humanities councils consistent with guidance provided in the Consolidated Appropriations Act, 2016 (P.L. 114-113).

DWIGHT D. EISENHOWER MEMORIAL COMMISSION SALARIES AND EXPENSES

The agreement provides \$1,600,000 for the Salaries and Expenses account. The Committees support the construction of a permanent memorial to Dwight D. Eisenhower and are pleased that concerns over the memorial's design have now been addressed. It is the Committees' expectation that, following necessary approvals from the Commission of Fine Arts and the National Capital Planning Commission, the Commission will use prior-year unobligated construction funds to begin site preparation in anticipation of memorial construction commencing in 2017. The agreement includes in Section 419 of Title IV General Provisions bill language extending the memorial's site authority.

CAPITAL CONSTRUCTION

The agreement provides \$45,000,000 for the Capital Construction account.

WOMEN'S SUFFRAGE CENTENNIAL COMMISSION

The agreement includes \$2,000,000 to establish the Women's Suffrage Centennial Commission as authorized in this Act.
