TRIBUTE TO ATWATER PARK CENTER

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, August 24, 2018

Mr. SCHIFF. Mr. Speaker, I rise today to honor the hundreds of staff and volunteers who have helped to create and sustain the Atwater Park Center (APC) in Los Angeles as it celebrates its 50th anniversary.

In 1968, volunteers from a local church organized one of the first early childhood engagement programs in Los Angeles County with the goal of helping local families maximize their young children's development by providing networking opportunities and support. From this endeavor, a secular, non-profit organization, Atwater Park Center (APC) was established, renting classrooms in Atwater Baptist Church, to provide a variety of family services, which continues to this day.

Now, 50 years later, the award-winning APC has served thousands of children throughout the Los Angeles region, providing developmentally sensitive childcare and education. The center also offers home and educational services and support programs for families in both English and Spanish, making it accessible to a wide variety of people. It is also a training site for numerous colleges whose students major in nursing, occupational therapy, child development, and early childhood education, giving hands-on experience to students who want to dedicate their careers to enriching the lives of others.

The staff and volunteers of the Atwater Park Center understand that nothing comes close to the relationship a child has with his or her parents but that group care with teachers and caregivers can add to a child's development,

helping them stay emotionally secure, confident, and involved in classroom activities. With this feeling of security, children are more likely to explore and make connections with others, and APC presents an atmosphere where children are encouraged to cooperatively live, work, and play. Play spurs communication, imagination, and the development of abstract thought, and children are encouraged to find the style of play that best suits them. The center recognizes the extent to which play is critical in a child's development and focuses on equipping them with as many tools and resources as possible to pave the way to a successful life.

I am honored to recognize the volunteers and staff of the Atwater Park Center for its remarkable achievements over the last five decades. I ask all Members to join me in congratulating the APC for their dedicated service to children and families in the greater Los Angeles area.

HONORING MUTHUVEL KARUNANITHI

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, August 24, 2018

Mr. DANNY K. DAVIS of Illinois. Mr. Speaker, some of my Tamil American constituents brought to my attention the passing of an extraordinary man: Muthuvel Karunanithi who was born June 3, 1924 and passed away August 7, 2018.

Muthuvel Karunanithi became involved in social justice issues at age of 14, publishing a handwritten journal that has been published as a weekly ever since. He wrote regularly until he fell ill at the age of 92.

Muthuvel Karunanithi was a poet, writer, publisher, orator, novelist, and literary critic in the Tamil language. His books sold millions of copies and his movie scripts shattered old boundaries of political possibility, articulating a new vision of human relationships.

He ran for political office thirteen times and never lost over a seventy year period. He was chief minister of the state of Tamil Nadu in southern India five times. His career was marked by a lifelong commitment to breaking the barriers of the caste system, especially for the lowest caste people who handle human waste. Karunanithi led a successful effort for an affirmative action program for their admittance to medical schools and subsequent admission to the practice of medicine. He visited Chicago in 1972.

Muthuvel Karunanithi was a man from the lowest rung of the social ladder who climbed the highest political mountains, but kept his lifestyle simple and his thoughts and actions fixed on the highest aspirations for all of his people.

Friday, August 24, 2018

Ms. BORDALLO. Mr. Speaker, I rise today to recognize the life and accomplishments of Mr. Frederick Quinene. Fred is a longtime friend who has spent his life serving our community, working for the government of Guam in different capacities and as a school teacher. Fred is most known on island for his poetry. Fred was named the Poet Laureate of Guam by my late husband, Governor Ricky Bordallo in 1986 by Executive Order No. 86-14. Fred was recognized for his ability to write beautiful, lyrical pieces that truly celebrated Guam's unique and rich cultural heritage. Fred was to be called upon to use his talents of writing whenever necessary.

Fred has been writing poetry since he was a young boy, and most recently published the book, "An Islander's Voice." His newest book is a compilation of poems about love and family, his home, politics, legends, the Chamorro people, and special occasions. Fred worked closely with the University of Guam Press to publish this compilation of his poetry as his gift to the island.

I join the people of Guam in recognizing the life and countless accomplishments of Frederick Quinene. I commend Fred for his gift to

our island and recognize his wife, Cecilia Ungacta Quinene, their children and grandchildren for their support of Fred's art.

HONORING MS. TERRI HOLLAND

HON. MICHELLE LUJAN GRISHAM

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Friday, August 24, 2018

Ms. MICHELLE LUJAN GRISHAM of New Mexico. Mr. Speaker, I rise today to honor Ms. Terri Holland, who passed away earlier this year at the age of 70. Terri was a tireless advocate for fairness and justice who became a cherished friend and ally for many New Mexico public officials, including myself, over the years.

Born in Middletown, New York, Terri made New Mexico her adopted home and quickly became a force in the state. For over a dec-

ade, she oversaw operations at The Target Group and made sure that all facets of the business ran smoothly. When her boss at Target, Diane Denish, decided to seek public office, she was right by her side and went on to serve in a number of prominent roles including Director of Party Affairs at the Democratic Party of New Mexico and Executive Director of the Democratic Party of Bernalillo County. Terri also served our state as Deputy Director of the New Mexico State Personnel Office and Special Assistant at the Bernalillo County Assessor's Office.

When I decided to run for Congress in 2012, Terri was one of my most trusted advisors. She displayed fierce loyalty, a strong moral compass, and the courage to always stand up for what she believed in. These values were especially visible in her work assisting people dealing with bankruptcy and other financial difficulties. Terri believed that people shouldn't be denied fairness and dignity just because they are poor. Indeed, it was her passionate defense of the less fortunate that made her such an effective advocate.

Mr. Speaker, I want to express my sincere condolences to all of Terri's loved ones including her son, Ben; her brother Joe and his wife, Rosie; her nephew, Sean; and her dear friend of many years, Richard Cooley. I hope they are comforted by cherished memories of Terri and by the fact that so many in our community mourn her loss and celebrate her life with them.

CONGRATULATING DR. ABERRA
MOLLA

HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, August 24, 2018

Mr. COFFMAN. Mr. Speaker, I rise today to congratulate Dr. Aberra Molla on his achievements in computerizing the Ethiopic or Ga'ez alphabet.

Dr. Aberra Molla is a scientist, inventor, and pioneer in the computerization of the Ethiopic alphabet. Dr. Molla invented a method for Ethiopians to render their language, which contains more than 564 Unicode glyphs, accu-

ately on a computer, using, at most, two key-strokes per character. He now owns two U.S. patents for his invention of this unique system.

I am grateful for Dr. Aberra Molla's contribution to the Ethiopian people in Ethiopia, in Colorado, and throughout the rest of the world. His hard work and ingenuity has enabled Ethiopians to use their language and alphabets effectively and efficiently on the standard size keyboards that are synonymous with today's technology. Additionally, I would like to thank Dr. Molla for making his invention available to the general public to use free of charge, improving the everyday lives of all Ethiopians.

I have the honor of representing the largest Ethiopian community living in Colorado in my Congressional District and deeply appreciate the value of Dr. Molla's invention to them. Further, it has been my pleasure to get to know Dr. Molla through the years and I am pleased to have this opportunity to recognize him on the House floor here today.
