

minute and to revise and extend his remarks.)

Mr. ROGAN. Mr. Speaker, we Republicans are the first to urge government to do more with less. However there are limits, and the United States military has reached them. More and more experts are becoming alarmed at the level of funding available to meet our defense needs. U.S. military forces are being called to perform more and more missions, but they are being given fewer and fewer resources to accomplish them.

Mr. Speaker, while precious resources are being diverted to the Balkans, our critical missions in both Iraq and Korea are falling under severe strain. Our forces are short on ammunition, and our force levels have been reduced to dangerously low levels. Since 1989, the Army and Air Force have been cut by almost 50 percent, the Navy by 36 percent, and the Marine Corps by 12 percent. All while our commitments overseas have increased some 300 percent.

This mismatch must not continue, Mr. Speaker.

WE NEED A PATIENTS' BILL OF RIGHTS

(Mr. WYNN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WYNN. Mr. Speaker, I rise today to talk about the Patients' Bill of Rights.

As my colleagues know, health care in America works real well until we get sick or until we grow old. Then HMOs begin to tell us, "Well, your concerns don't meet our criteria." or "We're not going to refer you to the specialist that you need to see." or "The person who is reviewing your case is not in; he's on vacation." Then our system breaks down critically.

People are concerned about access to specialists. Sixty-two percent of the American population say they have a problem with HMOs because they cannot get access to needed specialists. "Your specialist is not in our network." That is what we often hear.

We need a Patients' Bill of Rights. We need to guarantee access to specialists. We need to guarantee redress in the courts when HMOs make decisions that hurt our health. We need to have a deterrent which says if they deny people access to specialists, if they deny people access to care, then they can be brought to a court of law, and they can be made to pay for it. That not only gives the victim a remedy, it gives the HMOs a strong incentive to provide high quality care.

SUPREME COURT SHIFTS POWER FROM FEDERAL GOVERNMENT BACK TO THE STATES

(Mr. WELDON of Florida asked and was given permission to address the

House for 1 minute and to revise and extend his remarks.)

Mr. WELDON of Florida. Mr. Speaker, this morning we hear the hue and cry of big government liberals everywhere, and what are they languishing over today? Not once, not twice, but three times yesterday the Supreme Court struck down overreaching Federal laws and uplifted the concept of State federalism. This was like a punch in the nose to those who relish more and more federal laws. They are now staggering under the blow.

Mr. Speaker, what is their nose bent out of shape about? The Supreme Court shifted power from the Federal Government back to the States. More importantly, it said that the Federal Government has no business in usurping State sovereignty by placing layers and layers of Federal statutes on them.

Mr. Speaker, yesterday the Supreme Court rightly halted decades of presumption and arrogance by the Federal Government, and they are right moving the powers back to where it belongs, outside the Beltway and back to the people.

Three cheers for the checks and balances.

UNIONS IN AMERICA

(Ms. SANCHEZ asked and was given permission to address the House for 1 minute.)

Ms. SANCHEZ. Mr. Speaker, I rise today to pay tribute to the unions of America.

Unless someone is a member of a union or unless they grew up in a union household they may not understand the advantages in the workplace that have been made because of unions for the American worker.

Like many Americans, I know how hard it is to earn a paycheck. I worked my way through college as a clerk at a Sav-on Drug store in Anaheim, and I was a member of the Retail Clerks Union in Orange County.

If someone is a worker in America and they have a pension, they should thank the unions. They understand about dignity and retirement. Thank the unions for their efforts to secure the 8-hour workday, the 40-hour work week, overtime pay and compensatory time off. Unions have been instrumental in obtaining health benefits for workers. We all know how expensive health care is, and without the unions' efforts think of how many workers and families would be without health insurance.

Quality of life; unions understand this.

Today I thank the unions for all they have done to make our country better.

WHAT DOES IT TAKE TO GET LIBERALS OUTRAGED?

(Mr. SCHAFFER asked and was given permission to address the House for 1 minute.)

Mr. SCHAFFER. Mr. Speaker, what would it take to get Congress outraged over high taxes, a tax code that looks like it was designed by Saddam Hussein and an IRS less accountable than the weather man? Is there anything at all that would provoke liberal Democrats to denounce the greedy hand of government, the insatiable force of government and the government's sponsored erosion of our liberties?

If they knew that Taxpayer Freedom Day, the day when Americans are finally finished paying Uncle Sam was May 12, would that outrage them? If the White House knew that average middle class families pay somewhere around half of their income to the government, would that outrage them?

If they knew that most Americans pay more in payroll taxes than they do in Federal income taxes, would that outrage them? If they knew that the tax code was so complicated that even Members of Congress on the House Committee on Ways and Means have to hire professional help to figure out their tax forms, would that get anyone's attention around here?

If they knew that the IRS is simply incapable of reforming itself, would that spark their outrage?

Mr. Speaker, just what does it take?

REPUBLICANS PREVENTING DEBATE ON HEALTH CARE REFORM

(Mr. MCDERMOTT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCDERMOTT. Mr. Speaker, yesterday was a watershed day. I never thought I would pick up the Washington Post and have it read: AMA Votes to Unionize Doctors.

Now I graduated from medical school in 1963, and the thought of being in a union or being an employee of an insurance company never ever crossed our minds. But this world has changed, and doctors are frustrated.

This was not the leadership of the AMA that came forward with this. This came from the grass roots, and the reason it came is that as HMOs have taken over the control of the health care industry in this country, they and the patients have lost control.

Now the Republican party gets total control, and they get total everything for making this happen because they would not have a debate on a Patients' Bill of Rights. The longer they push and prevent us discussing this issue, the more they drive the doctors into the arms of the Democratic party and the labor unions, and they destroy the health care system we know.

Bring up health care debate.

THE MIRACLE AND GIFT OF HUMAN LIFE

(Mr. PITTS asked and was given permission to address the House for 1
