

about the size and cost of the facility as well as how the new bridge would be paid for and I would like to make several points:

First, the project is a federal responsibility. The bridge is owned by the Federal government. In fact, it is the only federally-owned bridge on the interstate system. Funding provided for it should be commensurate with the federal ownership of the bridge.

Second, the replacement bridge must be built in accordance with the same standards as applied to bridges owned by state jurisdictions. Just replacing the existing structure is not an acceptable option because it would continue the current bottleneck at the bridge and because it would not meet the Federal Highway Administration's own guidelines which require states in building new structures to meet projected future carrying capacity needs. This means the replacement structure must be able to accommodate current as well as projected future traffic growth and that the related interchanges and approaches to the bridge should match the new bridge. It should also provide for pedestrian and bicycle access as well as accommodate future transit useage. What is needed is not a quick fix that we will have to revisit in several years, but a long term solution that will carry us well into the next century.

Third, we should not lose sight of the fact that if a replacement is not undertaken in the very near future, it will be necessary to impose significant restrictions on the use of the existing bridge and this will have enormous economic and transportation related consequences throughout the entire region.

Last year we took a significant step forward in replacing the Woodrow Wilson Bridge by authorizing \$900 million in new contract authority in TEA-21. The legislation which we are introducing today, when enacted, will help ensure that the federal responsibility to this bridge is met, and that it will meet the region's needs as we move into the next century.

I want to commend Secretary Slater and his staff at the Department of Transportation for their support and assistance in developing this legislation and I urge my colleagues to join me in supporting this measure.

S. CON. RES. 45

Whereas the Apollo-11 mission successfully landed a manned spacecraft on the Moon on July 20, 1969, marking the first time in history that humans have walked on the surface of the Moon or any other planet;

Whereas the 6 Apollo missions successfully departed Earth aboard a Saturn V Rocket, the largest and most powerful American rocket ever produced, en route to the Moon;

Whereas 12 Americans successfully landed on the surface of the Moon where they performed various experiments and collected samples for study, and planted the flag of the United States of America in the lunar soil achieving a milestone in American and human history;

Whereas the contributions of other Americans who made up the thousands of contractors and Government employees who worked on the Apollo program are recognized; and

Whereas the events of the Apollo missions are examples of the great achievements of the American space program reflecting the explorer's spirit of the American people: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring),* That it is the sense of Congress that the 30th anniversary of the first lunar landing should be a day of celebration and reflection on the Apollo-11 mission to the Moon and the accomplishments of the Apollo program throughout the 1960's and 1970's.
