DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2000

SPEECH OF
HON. GEORGE R. NETHERCUTT, JR.
OF WASHINGTON
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 22, 1999

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2561) making appropriations for the Department of Defense for the fiscal year ending September 30, 2000, and for other purposes:

Mr. NETHERCUTT. Mr. Chairman, in my previous statement in support of H.R. 2561, I addressed the much anticipated KC–135 tanker aircraft that this bill provides. It is my hope that the Air Force will look at locating these reengineed National Guard aircraft consistent with ongoing total force initiatives to maximize Guard and Active efficiencies through enhanced integration and commonality of equipment.

I am also supportive of the quality of life initiatives contained in this legislation. We have provided for significant increases in spare parts, $453 million over the request, equipment repair, $279 million over the request, and real property maintenance, $854 million over the request. We also provide an additional $88 million for soldier support equipment, such as cold weather clothing and initial issue equipment. Spare parts, well-maintained facilities and quality equipment is as important a construct for a soldier’s morale as a pay raise, and this bill meets both requirements.

As Chairman of the Diabetes Caucus, I am pleased that the bill also supports a continuing project with the Joslin Diabetes Center, which serves to enhance the lives of military personnel and their dependents. The partnership with Joslin will reduce human suffering and health care costs associated with diabetes for DOD personnel and VA beneficiaries, using strengths in the areas of research, detection, prevention and managed care protocols.

This legislation will meet critical modernization and quality of life needs and deserves the support of all members.
