

engendered that success—JoAnn's gift for innovative ideas her keen sense of the public's tastes and preferences, and her amazing ability to enlist volunteers to share her vision and accomplish common goals.

Over 20 years ago, her imagination inspired the creation of Walleye Weekend, Fond du Lac's signature festival that draws hundreds of volunteers and tens of thousands of festival goers to the city's Lakeside Park each June. JoAnn has either originated or taken a lead role in developing and enhancing scores of other Fond du Lac area special events and festivals, including the annual Taste of Fond du Lac, the Fond du Lac Jazz Festival and the International Acrobatic Competition, which has been hosted by Fond du Lac the past 29 years.

She has built attractions centered around the natural beauty of the area and the unique assets of its residents, and has helped the many businesses that depend on conventions and tourism to capitalize on their strengths. A tireless worker and consummate promoter of both her community and the state of Wisconsin, JoAnn Ward has never accepted limits on her ability to try out new ideas or strive for new levels of achievement.

JoAnn's influence has extended beyond Fond du Lac to larger metropolitan areas and to national and international organizations. A recipient of the Wisconsin Tourism Federation's Award for Outstanding Contributions, she was appointed by Governor Tommy Thompson to the state's prestigious Sesqui-centennial Commission, which over a three-year period organized and oversaw planning for the huge, multifaceted 150th celebration of Wisconsin's statehood in 1998.

In 1995, she served as the Sixth District delegate to the White House Conference on Tourism. And in 1997, JoAnn was inducted into the International Festival & Events Association's Hall of Fame.

But it is at home where her impact has been most keenly felt. JoAnn has succeeded in making my hometown of Fond du Lac not only a desirable travel destination but a better place to live. It is testament to her stature in the Fond du Lac community that her retirement announcement was not only front page news, but the main headline in the daily newspaper. A later editorial stated, "It will take a rare combination of enterprise, persuasiveness, grace and good humor to build a successor for this woman who has done so much for Fond du Lac."

I am proud to call attention to the many accomplishments of my friend, JoAnn Ward, and join the members of the Fond du Lac community in honoring her as she continues to pursue new horizons.

HEALTH RESEARCH AND QUALITY ACT OF 1999

SPEECH OF

HON. BRIAN P. BILBRAY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 28, 1999

The House in Committee of the Whole House on the State of the Union had under

consideration the bill (H.R. 2506) to amend title IX of the Public Health Service Act to revise and extend the Agency for Health Care Policy and Research:

Mr. BILBRAY. Mr. Chairman, the grant program included in Representative JOHNSON's amendment has broad bipartisan support of over 190 Members of the House, including the chairs, ranking members and other members of subcommittees and committees of jurisdiction—the Commerce, Ways and Means and Appropriations Committees. I am a proud co-sponsor of Representative JOHNSON's related legislation and I look forward to the passage of this amendment.

Children's Hospitals across this Nation, especially Children's Hospital and Health Center in San Diego, are critical to the future of pediatric medicine and therefore to the future health of all children. Because of the inequity in our current federal GME funding structure, our Children's Hospitals are disadvantaged when compared to other teaching facilities. Because GME funds are based on the amount of Medicare patients in each hospital, and Children's Hospitals rarely treat patients that use Medicare funds as payments, these hospitals are treated unfairly compared to other teaching schools that receive funds allocated through the Medicare Program.

The grant program in this amendment would provide \$280 million in FY 2000 and \$285 million in FY 2001. Since comprehensive GME reform will take more time to develop, this amendment would provide immediate financial assistance through a capped, time-limited authorization of appropriations.

Children's Hospital and Health Center in San Diego is the region's only pediatric medical center, a 220-bed hospital offering comprehensive programs in diagnosis and treatment, research, rehabilitation, medical education, outcomes and community outreach and education. Founded in 1954 to treat polio victims, Children's has continually grown in direct response to the needs of the communities it serves through the San Diego and Imperial regions.

Mr. Chairman, I look forward to working with Representative JOHNSON and my other colleagues on this issue because the education and training programs of these institutions are critical to the future of pediatric medicine and the health of our children.

DR. KATHLEEN C. CRATES NAMED PRINCIPAL OF THE YEAR

HON. MICHAEL G. OXLEY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 1999

Mr. OXLEY. Mr. Speaker, it is my honor to recognize my former Findlay High School classmate, Dr. Kathleen C. Crates, upon her selection as Ohio's 1999 Principal of the Year.

This award, sponsored by MetLife and given by the National Association of Secondary School Principals (NASSP), acknowledges the achievements of Ohio's most outstanding secondary school principal. Candidates were judged based on their relationships with teaching staff, their ability to promote positive

change, and their use of creativity in solving problems. In announcing Dr. Crates's selection, Ohio NASSP Director Steven Raines cited her outstanding leadership skills and her creation of a caring environment at Findlay High School, a facility that serves more than 2,100 students.

Before she was named principal of our alma mater in 1995, Dr. Crates served as principal of Findlay's Donnell Middle School, assistant principal at Findlay High School, and as a teacher of learning disabled students. She completed her undergraduate work at Findlay College, now the University of Findlay, in 1968, and earned her master's and doctoral degrees from nearby Bowling Green State University. Dr. Crates has supplemented her skills through seminars at Harvard, Johns Hopkins, and the University of California.

In her honor, March 12, 1999, was designated "Dr. Kathleen Crates Day" by the students and staff of Findlay High School. Last month, Dr. Crates was further honored as one of six Ohio educators chosen to receive Ohio's first ever Pioneer in Education Awards, presented by the Ohio Department of Education.

Dr. Crates will now compete on the national level with 49 of her peers, as they vie for the title of National Principal of the year.

I am proud to join the chorus of voices saluting Kathy's quarter century of dedication to the young people of Findlay. I congratulate her on a job well done, and wish her the best of luck in the national competition and in all her future endeavors.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, September 30, 1999 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

OCTOBER 5

9:30 a.m.

Environment and Public Works
Clean Air, Wetlands, Private Property, and
Nuclear Safety Subcommittee

To hold hearings on the Environmental
Protection Agency's Blue Ribbon Panel
findings on methyl tertiary-butyl
ether.
