

is 100 percent correct when that process has been completed?

The SPEAKER pro tempore. The House will be informed of the accuracy of the vote, and the Chair just asks Members' indulgence.

Mr. DINGELL. I thank the Speaker. I may have further parliamentary inquiries, Mr. Speaker.

The SPEAKER pro tempore. The Chair has been informed that the accuracy of the vote cannot be established with 100 percent accuracy.

On this occasion, the Chair will direct the Clerk to call the roll to record the yeas and nays, as provided in clause 2(b) of rule XX.

PARLIAMENTARY INQUIRY

Mr. ABERCROMBIE. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman from Hawaii will state his parliamentary inquiry.

Mr. ABERCROMBIE. Mr. Speaker, may I take it from the Speaker's remarks that he cannot do anything without me?

The SPEAKER pro tempore. The Clerk will call the roll alphabetically.

Mr. ABERCROMBIE. I thank the Speaker.

The SPEAKER pro tempore. The Chair will inform Members that this is the only valid vote on the resolution, H. Res. 323, on the rule, and this will be the only recorded vote. It is not a recapitulation.

The question was taken; and there were—yeas 221, nays 209, not voting 4, as follows:

[Roll No. 483]

YEAS—221

Aderholt	Cook	Greenwood
Archer	Cooksey	Gutknecht
Armey	Cox	Hansen
Bachus	Crane	Hastert

NOT VOTING—4

Delahunt	Scarborough
McKinney	Watts (OK)

□ 1404

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

MALFUNCTIONS WITH VOTING MACHINE NOT UNPRECEDENTED

(Mr. THOMAS asked and was given permission to address the House for 1 minute.)

Mr. THOMAS. Mr. Speaker, to briefly explain what occurred on the machinery, this is not unprecedented. On May 4, 1988, the same situation occurred. As one might guess, it is a human error.

There was a Member who had a card, and we all know that these new cards are much better than the old laminated ones but they do go bad. When that Member's name was adjusted on the visual screen, it was placed first, out of order alphabetically, and so when the votes were recorded they skipped one. They did not match up.

I want to assure every Member that the computer is far more sophisticated than that. These lights are for visual purposes only. The machine records the vote according to a unique identifier number. Regardless of where a Member might be placed alphabetically the unique number from the card records the vote.

However, I want to compliment the gentleman from Michigan (Mr. DINGELL), who is one of the few Members around here who remembers this is the way we used to do business on an ordinary basis, about a quarter of a century it was done under this system, the other half with lights. The votes were recorded accurately, but given the concern over the visual reference it was entirely appropriate to go through this procedure. It was a revisiting of a previous existence of the Congress.

Our hope is that the human errors are now minimized, but the actual vote that is recorded, notwithstanding the visual display, was recorded accurately by the machine.

QUALITY CARE FOR THE UNINSURED ACT OF 1999

Mr. BLILEY. Mr. Speaker, pursuant to House Resolution 323, I call up the bill (H.R. 2990) to amend the Internal Revenue Code of 1986 to allow individuals greater access to health insurance
