

for the Patriot, Avenger, Stinger, and other advanced missile defense systems.

The McGregor Range comprises more than half of the Fort Bliss installation land area, and the range and its restricted airspace in conjunction with the White Sands Missile Range, is crucial to the development and testing of the Army Tactical Missile System and the Theater High Altitude Area Defense System.

The high quality and unique training capabilities of the McGregor Range allow the verification of our military readiness in air-to-ground combat, including the Army's only opportunity to test the Patriot missile in live fire, tactical scenarios, as well as execute the "Roving Sands" joint training exercises held annually at Fort Bliss.

The Military Lands Withdrawal Act of 1986 requires that the withdrawal from public use of all military land governed by the Army, including McGregor Range, must be terminated on November 6, 2001, unless such withdrawal is renewed by an Act of Congress.

Mr. Speaker, in closing I would like to reiterate the importance of the McGregor Range land for the testing and training for Fort Bliss and the White Sands Missile Range. By being designated as the Army's Air Defense Artillery Center of Excellence, Fort Bliss has already received the status as an intricate part of the nations military defense systems. Tactical scenarios would not be possible without McGregor Range to conduct the projects. The Military Lands Withdrawal Act is necessary in order to continue these projects that ensure the prosperity of the nation's defense systems.

TRIBUTE TO SALVE REGINA
UNIVERSITY

HON. PATRICK J. KENNEDY

OF RHODE ISLAND
IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 26, 1999

Mr. KENNEDY of Rhode Island. Mr. Speaker, it is with great pride that I rise today to congratulate Salve Regina University for being selected to receive the 1999 National Preservation Award from the National Trust for Historic Preservation. Indeed, I cannot think of many college campuses that would qualify for such a distinctive and prestigious Award.

It is no secret, Mr. Speaker, that Newport is home to many of the 19th century "summer cottages" which personified the Gilded Age. Indeed, the city by the Sea enjoys a rich history of the splendid architecture of that Age. What is not widely known, however, is that Salve Regina's unique campus is comprised of 18 of these restored summer estates on some 60 manicured acres along the Atlantic coast. Salve Regina was recognized by the National Trust for its ongoing restoration of its campus and its accredited historic preservation educational program. The award was presented on October 22nd in Washington, D.C. at the National Trust's annual preservation conference.

Beginning in 1947 with the gift of an estate designed by noted architect Richard Morris Hunt, the University has added the former summer homes of Vice President Levi Morton, international sportsman James Van Alen, and

New York financier William Watts Sherman to its collection. Some of the homes were designed by H.H. Richardson or McKim, Mead and White, and feature details by Louis Comfort Tiffany, John LaFarge, or Karl Bitter. This architectural treasure trove, which also includes landscapes designed by Frederick Law Olmstead, has been preserved in its entirety by Salve Regina.

The Salve Regina campus with its Gilded Age mansions, shingled Victorian cottages, and classically-designed landscapes is a working laboratory of American history and architecture. One such unique home is Ochre Court. It was the first of a group of spectacular Newport houses in the Grand Manner designed by Richard Morris Hunt, America's foremost architect of the late 19th century. Commissioned by the Goelet family in 1888, the stately 50 room mansion was given as a gift by the family in 1947 to the Sisters of Mercy to begin Salve Regina. Ochre Court now serves as the University's administration building and is a treasure trove of mythology, literature, and the arts and sciences.

Mr. Speaker, Salve Regina is also the home of the Pell Center for International Relations and Public Policy, named in honor of our former colleague Senator Claiborne Pell of Newport. In 1997 Salve Regina acquired Fairlawn to be the home of the Penn Center. Built in 1852, Fairlawn became the home of Vice President Levi Morton in 1860. Morton added a ballroom to this mansion in 1870 to accommodate a visit by President Ulysses S. Grant.

Aside from its many architectural treasures, Salve Regina is also recognized for its wonderful educational system. Having recently celebrated its 50th anniversary, the University is emerging into national recognition as a co-educational institution where academic excellence is fostered in a context of ethical living. In the tradition of its founders, the Religious Sisters of Mercy, Salve Regina embraces a mission of commitment to learning and community enrichment for students of all backgrounds and faiths. Over two thousand undergraduate and graduate students from 43 states and 26 foreign countries are enrolled in 32 undergraduate concentrations and 11 graduate programs, including a doctoral program in Humanities.

It gives me great pleasure, Mr. Speaker, to congratulate Salve Regina University for receiving this national award. It is a testament to the leadership of the University under the incomparable Sister Therese Antone, the faculty, and the student body that their campus has been selected as one of our nation's top historic treasures. It is also symbolic of the ability of the University to not only adapt to this rich environment, but to continually feel the responsibility to preserve it for future generations of students, members of the community and visitors to Newport.
