Mr. Cininis. Mr. Speaker, I would like to take this brief moment to congratulate and thank Mike Perry for his service and leadership on behalf of the Grand Valley over the last 15 years. In that time, Mike has overseen the opening of the newly ribboned Dinosaur Valley, served as the Director of the Museum of Western Colorado, and, for the last nine years, worked as the Executive Director of the Dinosaur National Monument International Society. In that time, Mike has distinguished himself greatly. What's more, he has made our community a better place in which to live.

Unfortunately for western Colorado, Mike will be leaving the Grand Valley next month to pursue an outstanding professional opportunity in The Dalles, Oregon. Mike has taken the job of Director at the Columbia Gorge Discovery Center and Wasco County Historical Museum in The Dalles area.

While saddened that Mike will no longer be a part of our community, I know that western Colorado is a better, more culturally vibrant place because of his service. Our loss, is Colorado's gain.

As Mike moves on to this new challenge, Mr. Speaker, I wish him only the best of luck in all of his personal and professional endeavors. We are thankful for his service over the past 15 years and wish him all the best in the future.

Mr. Udall of New Mexico. Mr. Speaker, today I rise to introduce a resolution recognizing the growing observance of Earth Day. On April 22, 1970, 20 million Americans celebrated the first Earth Day. Since Earth Day's first observance, the number of Americans celebrating Earth Day and the number of countries observing Earth Day has steadily risen. In fact, Earth Day is now observed in more than 140 countries.

Every year on April 22, millions of Americans and millions of people throughout the world participate in activities that call attention to harmful human activities that impact our natural environment. These calls have not gone unanswered. Since the first observance of Earth Day, Congress has passed the Clean Air Act, the Clean Water Act, and the Endangered Species Act in an effort to halt and roll back the harmful impacts of human activity. In addition, we have seen the creation of the U.S. Environmental Protection Agency, and just recently, in the House Committee on Resources, we witnessed a successful bipartisan effort to provide funding for an array of conservation and wildlife programs.

Earth Day provides an opportunity to learn about the positive actions we can take to improve energy efficiency, to develop safe, renewable energy sources; to design goods that are durable, reusable, and recyclable; and to eliminate the production of harmful wastes while protecting our environment and encouraging sustainable development throughout the world.

Mr. Speaker, this resolution recognizes the importance of Earth Day and calls on the House of Representatives to recognize that Earth Day should be established to draw attention to the impact of human activity on the natural environment, to alert the world to environmental threats to human health and well-being, and advocate personal actions and public policies to promote and preserve a healthy, diverse, resilient, and productive world for our children and our children's children.

This is a companion measure to one already introduced in the other chamber by Senator Jeff Bingaman of New Mexico.

Mr. Speaker, I ask this body to support this worthy resolution.

Mr. Cininis. Mr. Speaker, I would like to take this brief moment to congratulate and thank Mike Perry for his service and leadership on behalf of the Grand Valley over the last 15 years.
