

needy during the holidays. I commend the faculty of the school as well as all the students, parents, and individuals who contributed to their benefit. Their selfless dedication has provided warmth, comfort, and happiness to families in Colorado. That the school produced so much for the Salvation Army for the benefit of the needy is testament to the true meaning of the spirit of Christmas and Hanukkah. Let us remember, as these good people have, that the holiday season is one of giving, one of joy, and one of hope. Let the children's example during the holidays be a beacon to us all throughout the year.

#### PERSONAL EXPLANATION

### HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 4, 1999*

Mrs. CAPPS. Mr. Speaker, due to a family illness, I was unable to attend votes this week. Had I been here I would have made the following votes: Roll Call No. 29—"aye," Roll Call No. 30—"aye," Roll Call No. 31—"aye," Roll Call No. 32—"aye," and Roll Call No. 33—"aye."

#### THE ANNIVERSARY OF THE HUNGARIAN REVOLUTION

### HON. JOHN D. DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 4, 1999*

Mr. DINGELL. Mr. Speaker, 1848 was a year of great tumult across the continent of Europe. Men, women, and children rebelled against the shackles of repressive aristocracies to demand a greater voice and greater freedoms. From these heroic uprisings, the seeds of change were permanently planted in Europe. Today, I rise to join Hungarian-Americans and the people of Hungary in commemorating the anniversary of start of one of these noble uprisings, the 1848 Hungarian revolution.

On March 3, 1848—as revolution gripped much of Europe—a brave Hungarian patriot, Louis Kossuth, stood up against the ruling Austrian Hapsburg empire. In his "inaugural address of the revolution", Kossuth enumerated 12 sweeping reforms that reflected some of the most progressive ideas of the age, such as a reduction of feudal rights and the emancipation of the peasant. This declaration struck an immediate chord with the Hungarian people. The reforms immediately spurred the Austrian people to demand similar rights, and on March 13, a full-fledged revolution broke out in Vienna.

On March 15, while Kossuth was in Vienna presenting his 12 points to the Habsburg monarchy, students in Buda-Pest armed only with Kossuth's reforms seized control in what has come to be known as the bloodless revolution. The following day the Hungarian delegation, led by Kossuth, submitted Hungary's demands before Emperor-King Ferdinand. The Austrian monarch quickly agreed to the points, prompt-

#### EXTENSIONS OF REMARKS

ing the Hungarian Diet to put the revolutionary reforms into effect. Thus, Hungary's future was forever influenced as the result of a peaceful, lawful revolution.

The Hungarian Diet immediately began to work nonstop to pass new laws. By April the Diet had passed 31 progressive measures, which essentially amounted to a new constitution. These "April laws" attempted to provide for the needs of a nation moving towards modernization.

Unfortunately, Hungarians did not have long to experience the effects of the new laws, because factions in the Austrian government were intent on squashing any semblance of Hungarian independence. On September 10, Baron Lelacic, with encouragement from the Habsburgs, let 40,000 Croatian troops across the Hungarian frontier. Hungary, led by Kossuth, was in the process of building up its army, and initially lost several battles to the invaders. Finally, General Arthur-Gorgey, who was to become one of Hungary's greatest generals, was given control of the Hungarian army. By April 1849 Gorgey's military brilliance and the tremendous bravery of the elite Hungarian Honved troops had driven all of the invaders out of Hungary, and Hungary had officially declared its independence from Austria.

The Habsburg's were humiliated and forced to call on Russian Czar Nicholas I for assistance in bringing the now independent Hungary back under Austrian control. As a result, Hungary's independence was short-lived because in June, 1849, a joint Austrian-Russian offensive overwhelmed the valiant Hungarian defenders. On August 13, Gorgey's forces laid down their arms before the Russians at Vilagos. Kossuth was forced to flee his beloved homeland and would live the rest of his life traveling the world to gain support for Hungary's cause. In a speech made prior to his departure, Kossuth said, "My principle were those of George Washington. I love you, Europe's most loyal nation."

It is fitting that within this building—this house of democracy—sits a statue of Louis Kossuth. This is only right and appropriate.

Although, the Hungarian revolution of 1848 did not end in prolonged independence for Hungary, it did result in at least one very noble achievement. The revolution prevented the Austrian government from revoking the emancipation of the peasants and all other unfree persons in the Habsburg's empire. For this historic accomplishment and for striving towards the ideal of the American Revolution, Hungarian and Americans of Hungarian descent should always be proud. I join with the strong Hungarian-American population in the downriver communities to celebrate the Hungarian revolution of 1848, truly an important turning point in the history of the Hungarian nation.

#### THE INTRODUCTION OF THE Y2K STATE AND LOCAL GOVERNMENT ASSISTANCE PROGRAMS ACT

### HON. ROBERT A. UNDERWOOD

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 4, 1999*

Mr. UNDERWOOD. Mr. Speaker, our contemporary world is ever more dependent upon computers to assist with and manage our daily lives. From the ATM Machine to the desktop PC, to the pacemaker to air traffic control systems—computers and their myriad of programs all work in concert to make our lives better and more productive. On my home island of Guam, computers have improved mass communication with the mainland and overseas areas in all facets of life—law, business, government, commerce, military, trade, transportation and perhaps most important: staying in touch with our families. Because our lives are so intertwined with computers, the Year 2000 or Y2K problem may pose quite a crippling problem to many communities. The Y2K problem was created by a programming oversight. As a result of an archaic, two-digit dating system in computer software and hardware, vital systems may be knocked off-line on January 1, 2000 creating cyber-havoc for many. This concern has led the General Accounting Office to elect the Y2K problem to the top of the "High Risk" list for every federal agency.

There exists a Congressional Research Service (CRS) report, requested at the behest of Senator DANIEL PATRICK MOYNIHAN over three years ago, detailing the implication of the Y2K problem. The report states, among other things, that the Year 2000 problem is a serious problem and the cost of rectifying it will indeed be rather high.

The Federal Government has become rather proficient in getting its agencies and departments to comply with the inevitable re-programming that is required to fixing this bug. But not without some effort. The Senate and the House of Representatives have truly taken the lead on this pressing issue. Under the gentle prodding of Senators MOYNIHAN, BENNETT, and DODD as well as Congressman STEVE HORN, the President appointed a Y2K Council to get the government focused on this issue. They have done well enough that many citizens do not fear the year's end despite the rhetoric of many doomsayers. That said, to paraphrase Robert Frost, we have many miles to go before we sleep.

Up until today, states, territories and local authorities have been left to their own devices in terms of fixing the Year 2000 problem. While most of the Federal Government's critical services may be Y2K compliant by January 1, 2000, many of the states and local jurisdictions will not be. This includes the territories. In Guam, for example, the local Office of the Public Auditor released a study outlining the territorial Y2K problem. While some of GovGuam's departments are Y2K compliant ahead of schedule many are not. Guam's Department of Public Works and the Department of Public Health and Social Services—both lifeblood agencies for both Guam's public infrastructure and poor and handicapped—do
