

S. RES. 50

Whereas the ancient Greeks developed the concept of democracy, in which the supreme power to govern was invested in the people;

Whereas the Founding Fathers of the United States of America drew heavily upon the political experience and philosophy of ancient Greece in forming our representative democracy;

Whereas the founders of the modern Greek state modeled their government after that of the United States in an effort to best imitate their ancient democracy;

Whereas Greece is one of the only 3 nations in the world, beyond the former British Empire, that has been allied with the United States in every major international conflict this century;

Whereas the heroism displayed in the historic World War II Battle of Crete epitomized Greece's sacrifice for freedom and democracy as it presented the Axis land war with its first major setback and set off a chain of events which significantly affected the outcome of World War II;

Whereas these and other ideals have forged a close bond between our 2 nations and their peoples;

Whereas March 25, 1999, marks the 178th anniversary of the beginning of the revolution which freed the Greek people from the Ottoman Empire; and

Whereas it is proper and desirable to celebrate with the Greek people and to reaffirm the democratic principles from which our 2 great nations were born: Now, therefore, be it

Resolved, That the Senate—

(1) designates March 25, 1999, as "Greek Independence Day: A National Day of Celebration of Greek and American Democracy"; and

(2) requests the President to issue a proclamation calling upon the people of the United States to observe the day with appropriate ceremonies and activities.

S. RES. 47

Whereas the National Inhalant Prevention Coalition has declared the week of March 21 through March 27, 1999, "National Inhalants and Poisons Awareness Week";

Whereas inhalant abuse is nearing epidemic proportions, with almost 20 percent of all youths admitting to experimenting with inhalants by the time they graduate from high school, and only 4 percent of parents suspecting their children of inhalant use;

Whereas according to the National Institute on Drug Abuse, inhalant use ranks third behind the use of alcohol and tobacco for all youths through the eighth grade;

Whereas the over 1,000 products that are being inhaled to get high are legal, inexpensive, and found in nearly every home and every corner market;

Whereas using inhalants only once can lead to kidney failure, brain damage, and even death;

Whereas inhalants are considered a gateway drug, leading to the use of harder, more deadly drugs; and

Whereas because inhalant use is difficult to detect, the products used are accessible and affordable, and abuse is so common, increased education of young people and their parents regarding the dangers of inhalants is an important step in our battle against drug abuse: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week of March 21 through March 27, 1999, as "National Inhalants and Poisons Awareness Week";

(2) encourages parents to learn about the dangers of inhalant abuse and to discuss those dangers with their children; and

(3) requests that the President issue a proclamation calling upon the people of the United States and interested groups to observe such week with appropriate ceremonies and activities.
