LEGISLATIVE RESOLUTION 10

Whereas, the delegates to the 1788 Constitutional Convention discussed whether the term of office for a representative should be one year or three years and compromised on a two-year term; and

Whereas, communications systems and travel accommodations have improved over the last two hundred years which allows quicker and easier communication with constituents and more direct contact; and

Whereas, the American people would be better served by having the members of the House of Representatives focus on issues and matters before the Congress rather than constantly running a campaign; and

Whereas, a biennial election of one-half of the Members of the House of Representatives would still allow the American people to express their will every two years. Now therefore, be it

Resolved by the Members of the Ninety-Sixth Legislature of Nebraska, First Session:

That the Legislature hereby petitions the Congress of the United States to propose to the states an amendment to Article I, section 2, of the United States Constitution that would increase the length of the terms of office for members of the House of Representatives from two years to four years with one-half of the Member's terms expiring every two years.

2. That official copies of this resolution be prepared and forwarded to the Speaker of the House of Representatives and President of the Senate of the Congress of the United States and to all Members of the Nebraska delegation to the Congress of the United States, with the request that it be officially entered in the CONGRESSIONAL RECORD as a memorial to the Congress of the United States.

3. That a copy of the resolution be prepared and forwarded to President William J. Clinton.

Whereas, the sole constitutional purpose of the decennial census is to apportion the seats in Congress among the several states;

Whereas, an accurate and legal decennial census is necessary to properly apportion U.S. House of Representatives seats among the 50 states and to create legislative districts within the states;

Whereas, an accurate and legal decennial census is necessary to enable states to comply with the constitutional mandate of drawing state legislative districts within the states;

Whereas, Article 1, Section 2 of the U.S. Constitution, in order to ensure an accurate count, and to minimize the potential for political manipulation, mandates an "actual enumeration" of the population, which requires a physical headcount of the population and prohibits statistical guessing or estimates of the population;

Whereas, Title 13, Section 195 of the U.S. Code, consistent with this constitutional
