

makes our system work is everybody doing their share of supporting our way of life even in the smallest of ways.

When I was younger I did not give much thought to all the freedoms we have in America, and how we got or kept them. I was just a kid running around having fun. Then I remember my dad started telling me how and why we are free, and how so many Americans sacrificed so much for our country. I am being honest when I say I used to get so tired of Dad preaching this to me so many times. But Dad had, and was doing his duty to his country by being a Master Sergeant in the United States Marines, and by passing on to me the values that make America what it is today. I am extremely proud of my dad for many reasons. Today when I see many people not doing their share to support America, it reminds me of when I was a little kid, just running around having fun. All Americans need to be educated and informed on a regular basis why we are free, and what it means to be an American and the responsibilities that entails. I believe my dad has served his country in every possible way. Because of my dad, when I see our flag flying, or hear the National Anthem, my pride and emotions start to swell. When I see our flag flying it is not just a piece of material with a pattern on it. It is the symbol of our country and stands for all the sacrifices made by our veterans to keep us free. In movies or on TV when I see all the white crosses at Arlington National Cemetery, or American flags on grave markers in common cemeteries, I am reminded of why we are free. Those brave and honored Americans gave the ultimate "See to America".

PERSONAL EXPLANATION

HON. JULIA CARSON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 14, 1999

Ms. CARSON. Mr. Speaker, I was unavoidably absent on Monday, April 12, 1999, and Tuesday, April 13, 1999, attending a family funeral, and as a result, missed rollcall votes 78 through 82. Had I been present, I would have voted "yes" on rollcall vote 78, "yes" on rollcall vote 79, "yes" on rollcall 80, "yes" or rollcall 81, and "yes" on rollcall 82.

HONORING HOUSTON POLICE DEPARTMENT OFFICER VONDA HIGGINS

HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 14, 1999

Mr. BENTSEN. Mr. Speaker, I rise to honor Houston Police Department Officer Vonda Higgins, who is being honored as the Honorary Chairlady of the Top Ladies of Distinction on April 10, 1999. Officer Higgins is certainly deserving of this honor.

Mr. Speaker, police officers across the country show courage and bravery everyday. Vonda Higgins displayed this courage as an undercover narcotics officer protecting Houstonians from the evils of drugs. For five years she worked in this role to stop criminals

from dealing drugs and ruining lives and neighborhoods. Vonda Higgins loved her work and was passionate about her work.

On February 4, 1998, Officer Higgins was working to stop drug dealers from overrunning an area on Bellaire Boulevard where children played, Buddhists worshipped, and families lived. On that day, while trying to apprehend a criminal, Officer Higgins was shot by an assailant. The bullet entered her neck and paralyzed her. She is now in a wheelchair.

Mr. Speaker, Vonda Higgins now faces a new challenge in life. She is facing that challenge with the same dignity, courage, passion, and integrity that she displayed while on the job. She is supported by loving parents and a new dog, "Latin," named after a fellow police officer.

Fortunately, the perpetrator of this despicable act of cowardice was charged and sentenced to 24 years in prison. The effects of Vonda Higgins and the efforts of the Houston Police Department have stopped the scourge of deadly drugs into the area on far west Bellaire Boulevard. Instead of criminals and needles, flags and balloons fly in front of the landscaped entrance of the Arbor Daily Ashford.

Mr. Speaker, Vonda Higgins is an inspiration to all of us working to make this world a better and safer place for our children and our neighbors. We wish her Godspeed as she recovers from this terrible tragedy. We wish her the best and with hard work and determined prayers, we know she will overcome.

IN MEMORY OF THE LATE PAUL WILLIAM TANNER

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 14, 1999

Mr. VISCLOSKY. Mr. Speaker, northwest Indiana lost an outstanding citizen last month. Paul William Tanner, Sr., who devoted his life to our county, passed away on March 10, 1999.

Throughout his life, Mr. Tanner served as an exceptional example of a good American. As a United States Army World War II veteran of the North African campaign against General Rommel, Mr. Tanner demonstrated the enduring qualities of loyalty, honor, devotion, and service to our country.

While serving in the Armed Forces during World War II, he suffered shrapnel wounds and was captured by the Germans. Following his capture, he was forced to march to Tunis, the capital of Tunisia, from where he was flown to Italy, where he remained for about a month. During his stay in Italy, he was fed one small bowl of cabbage daily. From Italy, he was forced to march to various countries, including Austria and Germany. As a prisoner of war, Mr. Tanner was required to work on a farm thrashing barley, and while performing this difficult manual labor, he inhaled thick dust which weakened his lungs. He contracted tuberculosis, which led to a lifelong debilitating battle with bronchitis and emphysema. After gaining his freedom and returning to the United States, Mr. Tanner completed his col-

lege education and became a public school teacher. His weakened lungs forced him to take an early retirement and led to his eventual death at the age of 76.

Mr. Speaker and my distinguished colleagues, I ask you to join me in commending Mr. Paul William Tanner, Sr., for his dedication to this country. His family and friends can be proud of his strong devotion and service to the United States. He will be missed by all who loved him.

H.R. 1285, THE CANCER SCREENING COVERAGE ACT OF 1999

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 14, 1999

Mrs. MALONEY of New York. Mr. Speaker, I rise today to discuss a very important bipartisan piece of health legislation—H.R. 1285, The Cancer Screening Coverage Act of 1999 (CASCA). This bill was recently introduced by myself and Representative SUE KELLY. It provides coverage for cancer screening to private insurance patients.

Cancer is extremely prevalent in the United States. It is the second leading cause of death in the United States and, according to the Centers for Disease Control, almost half of these deaths are among women. One out of every 4 deaths is from cancer. The American Cancer Society has said that approximately 563,100 Americans will die from this disease this year. That's 1,500 cancer-related deaths per day. Everyone is at risk. Men have a 1 in 2 lifetime risk of developing or dying from cancer and women have a 1 in 3 lifetime risk. Those are pretty high odds.

Cancer also costs both individuals and our society a great deal. The National Institutes of Health has estimated that cancer has an annual lost productivity cost due to premature death of \$59 billion.

Since 1990, approximately 5 million people have died from cancer. In this day and age, getting diagnosed with cancer is not necessarily a death sentence. Treatments are being improved every day and the overall survival rate has increased dramatically in the last decade. However, according to the American Cancer Society, treatments are most effective if cancer is caught at an early stage. Early detection has been a particular problem for minorities. Cancers among African Americans are more frequently diagnosed after the cancer has metastasized.

The first step that needs to be taken to reduce the number of cancer related deaths is to increase access to screening exams in the private sector. We have already increased access for those over 65. In 1997, Congress gave Medicare patients many of the same benefits that are included in my bill. Americans under the age of 65 deserve this same benefit.

Cancer screening and early detection offer many benefits. Screening is the search for disease in persons who do not have symptoms or who do not recognize that they have the disease. Early detection can extend life, reduce treatment, and improve cancer patients'
