

any clear problem of the existing framework of protections, I do not see why these substances should be further regulated under Section 112 of the Clean Air Act.

By regulating flammable fuels under this provision of the Clean Air Act, fuel distributors might be hurt. For example, distributors might reduce their storage capacity of flammable fuels affecting their ability to meet local customer demands. Also if businesses and farmers reduce their stored levels of flammable fuels, fuel switching might be encouraged further adversely affecting distributors. This could limit the flexibility and health of these small businesses and farmers. Basically, it would ensure that the "Hank Hills" of the world (a character on the Fox network who is a propane small businessman) are not put out of business.

Thus, I trust my colleagues will rise with me to support this bill to provide relief for small businesses and farmers struggling to survive while ensuring security against disclosure of explosive information to potential terrorists.
