

As soon as FBI agents discovered Lee had transferred massive amounts of secret data to his unclassified computer, Richardson ordered to shut down, Mr. Richardson is now the head of the Energy Department, Richardson ordered a shutdown of the classified computers at Los Alamos, Lawrence Livermore and Sandia National Laboratories.

The problem is this: The cat is out of the bag. The secrets have been taken by the Chinese communists. The things that our taxpayers spent millions and millions and millions of dollars and hundreds and thousands of man-hours researching to protect the citizens of this country have been given away through espionage to the Chinese communists, endangering every man, woman and child in this country.

My committee will continue to investigate the illegal campaign contributions. The Cox report which looked into this espionage should be made public. The White House has blocked, according to the information I have, the White House has continued to block the Cox report from being made public. Much of it has been leaked to the American people through the media, but not all, and that information needs to be made known to every man, woman and child.

Because if this administration has been derelict in its responsibilities and endangered every man, woman and child, it is more important than Kosovo. It is more important than anything. And we need to get to the bottom of it and those who let this happen, for whatever reason, campaign contributions or because they like the Chinese or whatever reason. They need to be held accountable and brought to justice.

Mr. STEARNS. Mr. Speaker, if the gentleman will yield, I would just echo what the gentleman says. If nothing else, at some point we in the House should have an up-or-down vote to make the Cox report public if the White House continues to procrastinate on this, and at that point the House can redact or take out the things that they think would compromise some of our agents, but somehow we have to get this report public.

So I think the gentleman's effort here this afternoon in trying to say to the American people, this is important to us, this is important to Congress, we have to get to the bottom of this, is right on target. As the gentleman pointed out earlier, the Department of Energy as well as the administration knew all about this a long time ago. They relaxed the security provisions, and that in itself is terrible. The fact that the White House did not move quickly to put in place more secure operations is a sad commentary.

Mr. BURTON of Indiana. Mr. Speaker, one other thing. Just a few weeks ago the President denied he had knowledge of any of this, and yet we know

that he was briefed by Sandy Berger as far back as 1997. I can not understand why he is saying that.

This chart, which I did not get to today, but I will get to in a future Special Order, and I hope the gentleman from Florida will once again join me as I get additional information for people regarding this espionage.
