

the Television Chair and Co-Chair of the Communications Committee of the International Association of Fish and Wildlife Agencies, Chair of the National Archery Museum, and a member of the Hunting and Conservation Committee, Public Affairs Committee and Bowhunting Subcommittee of the National Rifle Association. Of note for the Congress is Dick's service as a member of the board of directors of the Congressional Sportsmen's Foundation and his sponsorship of the Congressional Sportsmen's Caucus Task Force on Bowhunting. In his personal life, Dick has volunteered his time and financial resources to his community through his church and for causes such as the needs of homeless Americans.

For his lifetime of dedication to archery and bowhunting, Dick was inducted to the Archery Hall of Fame on January 9, 1999. Dick now joins the legends of archery and bowhunting as a peer and will forever rightfully share a distinguished place in the history of conservation and hunting in North America.

Mr. Speaker, if we want our citizens to be driven by the needs of the country and to be examples of selflessness, commitment and accomplishment, then we must continue to honor and praise individuals like Dick Lattimer. We ask you and all of our colleagues to join us in commending Dick Lattimer as an icon of the archery and bowhunting world but also as a great American sportsman and humanitarian.

REPORT FROM LAPORTE COUNTY,
INDIANA

HON. DAVID M. McINTOSH

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 4, 1999

Mr. McINTOSH. Mr. Speaker, I rise today to give my "Report from Indiana" where I honor distinguished Hoosiers who are actively engaged in their communities helping others.

Mr. Speaker, it has always been my strong belief that individuals and communities can do a better job of caring for those who need help in our society than the federal government. The wonderfully kind and committed Hoosiers who I have met traveling around Indiana have not changed my view.

Ruthie and I have met hundreds of individuals who are committed to making our communities a better place in which to live and raise our children—we call them "Hoosier Heroes".

I recognized this genuine Hoosier Hero in LaPorte County, Indiana recently in front of the LaPorte County Republican Party at a Lincoln Day dinner speech. He is Keith Jones, who is a very active and successful business man here in LaPorte County. By working tirelessly on behalf of the less fortunate, Keith epitomizes a Hoosier Hero.

Keith has been awarded the "Outstanding Citizen Award" by the LaPorte Rotary Club as well as the LaPorte Jaycees. Last, he also received the "Distinguished Award" by the LaPorte YMCA. Incredibly, his charitable works even extend beyond his community and country. He is the founder of the Aruba Friends of the Handicapped and has raised

over \$700,000 to help people there suffering from disabilities.

Keith's work has given so many people the most precious gift possible, hope. He doesn't do it for the pay, which is zilch, he does it for the smiles and laughter. You are a true hero in my book, doing good works for others with no other motive than Christian charity.

Keith Jones deserves the gratitude of his country, state, and nation and I thank him here today on the floor of the House of Representatives.

IN HONOR OF NOBEL PRIZE
WINNER LINUS PAULING

HON. DAVID DREIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 4, 1999

Mr. DREIER. Mr. Speaker, on May 15, the California Institute of Technology will host an exhibit on the life and works of Linus Pauling, the only man to have received two unshared Nobel Prizes, one for science and the other for peace.

The California Institute of Technology, nestled beneath the beautiful San Gabriel Mountains in Pasadena, California, is one of the finest institutions of higher learning in the world. Its contributions to our understanding of the universe around us, from space exploration to molecular biology, are unmatched among scientific institutions throughout the world. For years, Linus Pauling served on its faculty, earning a reputation that has immortalized his contributions to science as the Father of Modern Chemistry.

The exhibit is jointly sponsored by Cal Tech, the Pauling family, Oregon State University, and the Soka Gokkai International. I would note that its President, Daisaku Ikeda, is one of the great Ambassadors for peace in the world today, and was a close personal friend of Professor Pauling. In fact, the exhibit was inspired and launched by Ikeda as a tribute to his friend and colleague in a manner befitting Pauling's life. It was this idea that led Ikeda to propose the exhibit that would inspire and educate young people for leadership in the 21st century.

The exhibit is expected to attract young people from all over southern California. It will graphically demonstrate the intimate relationship between the search for knowledge of the universe and the pursuit of peace. It will also provide young people with a role model of a man whose life epitomized courage, wisdom and determination, values that will well serve today's youth as they prepare to become tomorrow's leaders.

It is with great joy that I announce the opening of the exhibit and recognize those who are responsible for making it available to the public, especially the young people of my district and of southern California.

This exhibit will run from May 16 to June 19 on the campus of Cal Tech in the Winnett Center, and will be open to the public on Wednesdays from 4pm to 9pm, on Saturday's from 10am to 6pm. Special group and school tours can be booked by calling (323) 938-8255. The exhibit is free to the public.

MATTHEW COPUS IS A WINNER OF THE PRUDENTIAL SPIRIT AWARD

HON. HEATHER WILSON

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 4, 1999

Mrs. WILSON. Mr. Speaker, I wish to bring to your attention a young man in our community, Matthew Copus, who has been named one of New Mexico's top youth volunteers for 1999 in The Prudential Spirit of Community Award.

Matthew's volunteer efforts truly reflect the spirit of community. For the past two years he has volunteered at All Faiths Receiving Home, a home for abused and neglected children. Matthew has worked hard to earn the trust of the children. His efforts include art projects, games and activities to encourage the children to communicate and regain social skills that have been damaged by abuse. Beyond his own volunteer time, Matthew has recruited other young people to volunteer and has raised money to help pay for supplies needed for projects. Matthew is committed to reducing child abuse and spreads the word through speaking engagements in the community.

One of the most important factors in a child's life is a person who cares. Matthew makes a positive difference in the lives of many children and in our entire community. He is one of America's top youth volunteers. Join me in thanking Matthew Copus for the positive impact he has in Albuquerque, New Mexico.

IN HONOR OF THE LATE GORDON
MCMILLAN

HON. MICHAEL P. FORBES

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 4, 1999

Mr. FORBES. Mr. Speaker, I rise today to honor a true visionary in education and champion of children, Gordon McMillan, a veteran Long Island teacher who passed away recently at the age of 64.

Ask any parent or student and I'm sure they'll agree that elementary and secondary education in this country must be reformed. But the system needs more than an infusion of money, it needs an infusion of innovative ideas as well. Innovative ideas were Gordon McMillan's specialty.

Today, and every school day, computers are being purchased, unpacked, and delivered to classrooms on Long Island and across the country in the hope that teachers will do wonderful things with those computers to assist the educational process. The tireless efforts of technology pioneers like Gordon McMillan made this possible. Like many teachers in our public schools, Gordon started teaching before the era of personal computers, but unlike other teachers, Gordon understood the power of change and the potential of computers as new educational tools.

Gordon was born in Cambria Heights, Queens, in 1935 and attended New York City's public school system. After graduating in
