time the 6 o'clock news reports school violence, it reports the violence of war. So I wonder and I ask out loud, is it possible that our children are imitating the actions of our government, that every time we have a difference with another country, we use violence to solve that difference?

Second, this week on the agriculture appropriation bill we will say “no” once again to selling food and medicine to Cuba. Food and medicine. Economic violence. Is it possible that our children are simply imitating the violence they see coming from our adult behavior?

ON MILK POLICY

(Mr. GUTKNECHT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GUTKNECHT. Mr. Speaker, very soon a great debate will begin to rage here in the halls of Congress. That debate will be about how we price milk. My friends from other regions of the country will complain that if the system is reformed and the playing field is leveled, their dairy farmers would receive less or they would lose relative to other parts of the country.

But, Mr. Speaker, we should understand that dairy farmers in my region of the country have been losers under the current convoluted milk marketing order system for over 60 years. This makes no economic sense. Even Justice Anton Scalia has called the system “Byzantine.” All we are asking for is equal pay for equal milk, and we will not give up this fight until we get it.

TRADE DEFICIT HITS RECORD HIGH

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, another record. For the third straight month, America’s trade deficit is going through the roof. It is now averaging $20 billion a month. That is 400,000 good-paying American jobs being lost every single month. It is so bad even Commerce Secretary Daley said America cannot continue to subsidize the world. Unbelievable. Something stinks.

Why is this administration still codding China on MFN and WTO membership? Enough is enough. America is buying the rocket fuel. I once again to selling food and medicine to Cuba. Food and medicine. Economic violence. Is it possible that our children are simply imitating the violence they see coming from our adult behavior?

OPPOSE H.R. 45 AND KEEP NUCLEAR WASTE OUT OF NEVADA

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, when I was a young child, people used to say that little green men lived on Mars and the moon was made of cheese. That is when fantasies and rumors were the tools that shaped opinions and science was the unattainable.

Unfortunately, many of my colleagues look at transporting and storing high-level nuclear waste in Nevada in much the same way.

Fantasy and nonsense have no place in scientific studies, studies which prove that a repository site at Yucca Mountain is 10 times more prone to earthquakes and lava flows than government scientists previously estimated, studies that show Nevada ranks third in the Nation for current earthquake activity and has experienced over 650 earthquakes in the last 20 years.

That means with over 30 earthquakes a year. Clearly Yucca Mountain is not suitable and is one of the worst places to store the deadliest material ever created by man.

The space program proved that the moon is not made of cheese and that little green men do not live on Mars, and if the DOE properly addresses this new scientific information as the law requires them to do, there will not force green people to live in Nevada.

Mr. Speaker, oppose H.R. 45 and place true science before fantasy, misinformation and conjecture.

COMBATTEING SCHOOL VIOLENCE

(Mr. WISE asked and was given permission to address the House for 1 minute.)

Mr. WISE. Mr. Speaker, mercifully events in Georgia last week produced no deaths in the school shooting. But this shows why it is that all of us at every level of government and every part of our community have to be working harder to reduce school violence. There are things that this Congress can do, things that our communities can be doing.

One area that I have learned following four hearings across our State is that there is no one-size-fits-all. We have to tailor our responses to each community and to each school. But we also have to dedicate ourselves to the proposition that as school ends this year, that when it resumes next year the schools will be safer than they have been.
