Resolved by the Legislature of the State of Arizona

1. That the policy of the State of Arizona, its governor and the legislature is to preserve and protect our way of life, our heritage and our natural environment as the economic base of the rural areas of this state.

2. That the endangered species act must be modified to: (a) Recognize, protect and conserve human interests at the same time and on the same priority level as environmental interests. (b) Provide for a more flexible and accommodating administration and enforcement system, through sound scientific analysis and research, so that the United States fish and wildlife service and other federal agencies work with, rather than impose on, the people of this state. (c) Allow the courts flexibility to issue rulings that protect human interests as well as environmental interests.

3. That the Secretary of State transmit copies of this Resolution to the President of the United States, the Secretary of the United States Department of the Interior, the President of the United States Senate, the Speaker of the United States House of Representatives and to each member of the Arizona Congressional delegation.

POM-137. A concurrent resolution adopted by the Legislature of the State of West Virginia relative to the Appalachian Development Highway System; to the Committee on Environment and Public Works.

HOUSE JOINT RESOLUTION 2001

Whereas, the endangered species act of 1973 (P.L. 93–205; 87 Stat. 884; 16 United States Code sections 1531 et seq.), as amended, was enacted for the purpose of the conservation and recovery of endangered and threatened species of wildlife, providing for protecting and conserving habitat and related ecosystems; and

Whereas, in pursuing that policy, the endangered species act provides for no consideration or accommodation of human activities, requirements or interests; and

Whereas, the United States fish and wildlife service of the department of the interior has shown little regard or willingness to make administrative adjustments to accommodate human activities, requirements or interests, including and enforcing the endangered species act; and

Whereas, much of the enforcement pursuant to the endangered species act is based on dubious scientific research and outcome-oriented analysis; and

Whereas, the Arizona game and fish department has recommended against the listing of several species of animals as threatened or endangered based on sound biological information, thereby ignoring scientifically supported accommodation ignored by the United States fish and wildlife service and the secretary of the interior; and

Whereas, the endangered species act allows the courts discretion in imposing the requirements of the act over all human activity that may remotely affect the species; and

Whereas, the result of the implementation and enforcement of the endangered species act is to threaten and endanger the economy and well being of the residents of this state; and

Whereas, the industries that depend on harvesting, extracting or otherwise using natural resources are particularly endangered.

Whereas, harvesting trees for timber and pulp wood is threatened throughout the western states and has been all but eliminated in Arizona, except on Indian reservations, thereby eliminating much needed rural employment and causing a dangerous buildup of wildfire fuel; and

Whereas, livestock ranching is endangered by massive reductions in federal grazing allotments leaving ranches and ranch families near bankruptcy with no option but that of selling their private land for development thereby losing the traditional responsible stewardship for the land and other resources; and

Whereas, the mining industry is endangered to the brink of extinction and the loss of quality employment for thousands of mine workers an economic component of the economy of the state of Arizona and other western states; and

Whereas, certain single issue special interest groups are able to abuse the endangered species act to achieve their narrow personal agenda by litigating against productive economic activities, as well as hunting, fishing and other outdoor activities, all to the detriment of our heritage, our culture and our society; therefore be it

Resolved by the Legislature of West Virginia:

1. That the members of the West Virginia delegation to the United States Congress are hereby authorized to use all available efforts to support and assist the implementation of the Coalfields Expressway into the Appalachian Development Highway System; and, be it

Further Resolved, That the Clerk of the House of Delegates is hereby directed to forward a copy of this Resolution to all members of the West Virginia delegation to the United States Congress, to the Clerk of the United States House of Representatives, to the Clerk of the United States Senate and to the Executive Director of the Coalfields Expressway.
