I would love to have been in a room with our Founding Fathers, because while we talk about majority-minority parties, I am sure they did not talk about majority-minority parties. They talked about doing what was best for this country regardless of what an individual's party says.

It should be what is best for our districts, not what is good for our party. The Founding Fathers never once rationalized getting in power and having control so they could stay in power. What they said was, we are going to put this Union together and we are going to make it work because the people are going to have the integrity to do what is best for their constitutions and they are going to have the vision to make sure that they do not make a short-run choice that sacrifices the long-run choice.

These amendments are about sacrificing so we secure a future for our children in the long run. It is not about which party controls. It is a matter of living up to our responsibility to secure a future for our children. And, quite frankly, I am not sure this body is up to it, because I think the body is more interested in power politics than principle. I find that evident as we have had the debate today.

So I would yield back to the gentleman and thank him for the additional time, and I would reemphasize that this is a debate about cutting a 9 percent increase out of the Office of Information for the Department of Agriculture, and that will not impact one farmer.

I would rather see this same money moved and go to our farmers.

It is not about not having enough money for our farmers; it is about having way too much bureaucracy and not having the cuts to change it.

Mr. STENHOLM. Mr. Chairman, I move to strike the requisite number of words. First off, I think it is important that we know just exactly what the proposed increased spending is for. And I yield to the gentleman from Oklahoma, I do not believe he intends to mislead, but this is an attempt to do something that many of us have been attempting to do since 1992, and that is bring the USDA into the next century technologically. And that is what these computers are all about. It is to allow our farmers to be served better by less people.

And that is what the cuts that are being proposed are all about, and that is why some of us have opposed these cuts.

But let me make a couple of other observations. If we want to save Social Security, let us bring a Social Security bill to the floor of the House from the Committee on Ways and Means.

Now, the gentleman from Oklahoma (Mr. COBURN) and the gentleman from Washington (Mr. SMITH), on this side of the aisle, the gentleman from Florida (Mr. SHAW) and the gentleman from Texas (Mr. KEHAN) about what bills it is and ideals but not to the floor. This is the wrong time for us to be picking on an agricultural bill, particularly making cuts that do just the opposite of what the gentleman from Oklahoma wants to do, in my opinion.

But the gentleman is correct in many of the observations that he makes with his amendments today. We have no appropriations strategy, "we" meaning this body, unless those who voted for the majority's budget are prepared to cut $6 billion from the Veterans Administration and HUD, unless they are willing to cut $11 billion in Labor HHS, unless they are willing to cut 8 percent in Commerce, State, Justice, and the Energy and Water bill, and unless they are willing to cut 20 percent from the Interior and Foreign Operations.

Now, I did not vote for that budget, because I am not willing to make those kinds of cuts in those areas, because I believe it would be counterproductive, and I am perfectly willing to say what I mean. But I did vote for the Blue Dog budget, and the gentleman from Oklahoma (Mr. COBURN) did also, which suggested that in the areas of agriculture, defense, education, health and veterans we are going to have a little bit more on those areas, subject to the scrutiny of this body, which is perfectly okay for any Member in this body to challenge the Committee on Appropriations at any time on anything we are doing, and I do not begrudge the gentleman for doing that.

We also, in our amendment, saved Social Security, and I would submit we did it really, and the gentleman agrees because he voted for it. We also provided for a 25 percent tax cut, or using 25 percent of the on-budget for cutting taxes. But we also recognized there was going to be a need for additional spending, and we are proving it today. And this is an area in which when I say "we," the leadership of this House need to look at the train wreck that they are leading us down by the proposed 302(b) allocations.

The gentleman from New Mexico and the gentlewoman from Ohio are doing what they were told to do. They were given a mark in the budget. This budget passed by a majority vote of this body. Therefore, that means a majority must support it.

Well, if it means a majority do not wish to spend that which has been designated for agriculture, vote against it. Cut the agriculture bill. Vote to adopt the amendment of the gentleman from Oklahoma, in which he will cut the very technology that we need in order to make the efficiencies to do more work with less people. That is what this is all about.

I know the gentleman has not looked into it. I have spent since 1992. I was the chairman of the Subcommittee on Department Operations, Nutrition, and Forestry that started us down the road of USDA reorganization, and I have been fought every step of the way by the bureaucracy. We have made some substantial improvements and changes, and one of the things that we must do now is provide our people with the technology that they need in order that they might do that which they are criticized every day for doing.

Secretary Glickman has been criticized day after day after day because he has not been able to deliver that which our farmers expect. Part of the reason he has been criticized is we have not given him the tools to use. So before we start blindly making amendments and trying to make points, let me just say this agricultural function is within the budget that passed by a majority of this House.

It does not meet the criteria of the Blue Dogs. Those who supported us, which was a majority on my side of the aisle and 26 on that side of the aisle, said, no, we cannot do that, we have some other needs, and we are willing to stand up and be counted for those needs in a very responsible way.

But if we truly want to save Social Security, let us bring a Social Security bill to this floor and do it tomorrow. Then we will have an honest debate about how we can best do it, not on an agricultural bill.

Mr. WALSH. Mr. Chairman, I move to strike the requisite number of words. Mr. Chairman, I will not take the full 5 minutes. I would just like to make two points.

One is that for those who have mentioned in the debate that the farmers are waiting in the fields for us to resolve this issue, I would remind them that this bill does not become law for at least 4 months, regardless of how long this debate goes on. So no one is going to be harmed by this debate except perhaps the patience of the Members who are participating in it or.
whose constituents are listening to it back home.

So this is not going to cause any breakdown in USDA or in the delivery of services or anything else. This is next year’s appropriations bill.

The second thing is, the gentleman from Oklahoma has every right to offer these amendments, but that does not mean we have to debate every one of them. This could go on for a long, long time. Why do we not just agree that he has his right to bring the amendments and let us vote them down?

The committee, the subcommittee, went through the process according to Hoyle. We did the right thing. Let us just vote these amendments down. If we debate every amendment, it could be 4 months before we complete.

Mr. BOYD. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I will not take 5 minutes, but I think it is wonderful that we can be in this position. When I was running for Congress in 1996, the major theme was that the Congress ought to live within its own means, it ought not to spend more money than it takes in. And I am proud of the U.S. Congress for what they have done in the past few years to get us there.

I know the gentleman from Oklahoma played an integral role in that, and I respect his right to bring these amendments. But I want to tell the gentleman that we have to live within these budget caps that we have imposed upon ourselves, or we are going to have a train wreck.

Now, I did not happen to vote for the budget that we are operating under right now. Like the gentleman from Texas, I voted for the Blue Dog budget, as did the gentleman from Oklahoma. And the major difference between the two was that we recognized, as Blue Dogs, that we could not do the cuts quite as deeply as were shown in the budget that came out of the majority of this House.

So, obviously, that Blue Dog budget went down, and now we are living within the constraints of the one that we have. And as my colleagues know, the main difference in those was the depth of the tax cuts.

So I just wanted to remind the gentleman from Oklahoma that, as I have listened to this discussion today, much of it has focused on senior citizens and the issue of Social Security. What has not been mentioned today is the fact that much of this bill that we are debating right now is of direct benefit to senior citizens. Actually, only 12 or 13 billion goes directly into the farm programs, the balance goes into WIC and some other programs that are directed at senior citizens.

Our rural housing programs, particularly the multifamily housing and rental assistance programs are heavily oriented towards seniors. We have housing repair loans and grants that help senior citizens fix their homes and rentals and repair handicapped access. Our community facility loans and grants are programs that are used by all age groups in rural America.

A significant part of our research in this bill has gone for the elderly nutrition. This bill supports several feeding programs for senior citizens in urban and rural areas. This bill also supports people, the computers, the buildings and all other things necessary to make these programs work.

Now, I have spent most of my life in agriculture, and I go in and out of the FSA office regularly; and we have cut the staff in those offices, we have consolidated those offices to the point where we are doing a disservice to our farmers now all across this Nation. Have the Somalis asked us to be able to continue to sustain that is with technology. I am embarrassed when I go in and see some of the computers that they are using.

So I strongly urge the defeat of this amendment, and I certainly am thankful to the gentleman from Oklahoma for continuing this debate.

Mr. CUNNINGHAM. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I thought one of the most interesting talks was given by the gentleman from Oklahoma (Mr. LARGENT). This is not about agriculture, today, as far as what the gentleman is doing. It is about spending and it is about the future and, in the long run, farmers are going to be better.

I grew up in a little town called Shelbina, Missouri, which had a population of 2,113 folk, and I want to tell my colleagues that most of my friends and neighbors of them are having to have second and third jobs just to hang on to their farms. And I understand that. But when I look at this body and the argument, not just with our party, but with the other party as well, on total spending for the future, it is important.

Most of us could live within the budget caps, even national security. We could live under the budget caps set with national security if we did not have the commitment of which cost billions; Haiti cost billions; Bosnia has cost $16 billion so far, and that is not even next year; Kosovo has already cost $15 billion; going to Iraq four times cost billions of dollars.

And all of this money, every penny of this, we could put in farms, we could put in Social Security, and we could do all the other things we want to do. But this White House has got us in folly all over this planet, costing billions of dollars. So there is spending there.

I also look at the different things that we fight, and not just agriculture. Take a look at the balanced budget process. If I had my way I would do away with the budget process, and I think the gentleman from Massachusetts (Mr. FRANK) would too, and I would just go with an appropriations bill.

I would get rid of the authorization, and I would reduce the entire size of government so that we do not have to tax farmers so much, so that neither a State nor Federal tax means more than 25 percent. That would help farmers.

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. CUNNINGHAM. Mr. Chairman, I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, the gentleman from Texas talked about this office and this amendment. I want to get back to it for a minute.

I just want the American people to know, in 1964 there were 3.2 million farms in this country and there were 108,000 agricultural employees working for the U.S. Government. In 1997 there were 40 percent fewer farms, 1.9 million, and there were 107,000 Department of Agriculture employees plus 82,000 contract employees that did not exist in 1964.

So the question that I am wanting to raise, the philosophical question is why can we not get the government smaller if we have fewer farmers, they are more efficient, they are doing better, and send more of the money that we have for agriculture to the farmers? How is it that we cannot do that? We can do that. It is that we choose not to do it.

Mr. FRANK of Massachusetts. Mr. Chairman, will the gentleman yield?

Mr. CUNNINGHAM. I yield to the gentleman from Massachusetts.

Mr. FRANK of Massachusetts. Mr. Chairman, I thank the gentleman for yielding.

I appreciate focusing, as the gentleman did, on the fundamental issue here. And I think we do have a question as to the adequacy of the caps. The gentleman from California said we could live under the cap, even for national security, and he said if it were not for Somalia, Haiti, Bosnia, Kosovo and Iraq.

My point to the gentleman is this: Kosovo came after, but the other military efforts he mentioned all preceded
the cap. The cap was 1997. So if the gentleman says we could have lived under the cap except for Haiti, Somalia, Bosnia and Iraq, then he must be saying, seriously, that the cap was too low. Because those four items which he said make it impossible to live under the cap, four of the five predate the cap.

So I ask the gentleman, does he still say the cap was adequate in 1997?

The CHAIRMAN. The time of the gentleman from California (Mr. CUNNINGHAM) has expired.

(By unanimous consent, Mr. CUNNINGHAM was allowed to proceed for 2 additional minutes.)

Mr. CUNNINGHAM. Mr. Chairman, what I would say to the gentleman is this. The Joint Chiefs, for example, in defense said that we need $150 billion, that is an additional $22 billion a year just to pay for defense, and that is because of all of those deployments that have happened.

Mr. FRANK of Massachusetts. Mr. Chairman, if the gentleman would continue, I understand that. But my point to the gentleman is we can differ about that, although I hope we can work together to reduce some of these excessive commitments. But I would say to the gentleman this: Most of those things happened before my colleagues voted for the cap. So I am simply saying it is impossible logically to say both that these interventions make the cap unrealistic and to have voted for the cap, because the cap came after most of those interventions.

Mr. CUNNINGHAM. Mr. Chairman, reclaiming my time, I think the gentleman is missing the point. Even though the Defense came afterwards, those other events preceded it and all of those bills were carried on down the line.

Mr. FRANK of Massachusetts. Mr. Chairman, if the gentleman would continue to yield, yes. Then why did my colleague vote for the cap? I agree that because the events preceded it, the cap came after it. That I agree to.

Mr. CUNNINGHAM. Mr. Chairman, reclaiming my time, again it is about spending. And I would say, look at www.dsausa.org. That is the Democrat Socialists of America. And under that are 58 of the members in this body.

Mr. FRANK of Massachusetts. Mr. Chairman, if the gentleman would continue to yield, would he tell me what that remotely has to do with anything?

Mr. CUNNINGHAM. They want increased spending. They want increased government control. They want increased government control. They want increased spending. They want increased government control. All of those things hurt farmers.

So this bill and this debate is good, because it is not about agriculture. It is about a principle of spending and taxes and whether Congress is putting us in the hole for future generations or not.

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN. Members are reminded that they are to refrain from characterizing the actions of the other body.

Mr. MINGE. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, last Sunday afternoon I spent 3 hours at the Emmanuel American Lutheran Church in rural Fulda in Minnesota. The Fulda Ministerium had organized a service to minister to the anguish of the farm community. The local Catholic priest and several ministers participated.

Farm families are struggling to decide if they can continue to farm. Business families are asking if their businesses will survive. Churches are wondering if they will survive. Teachers are wondering if their schools will stay open in the small communities in rural America.

As I sat in the service, I looked up at the wall in the front of the sanctuary and I noticed that the Ten Commandments were there. The Seventh Commandment states, “Thou shalt not steal.” The Seventh Commandment, which states, “Thou shalt not steal,” had a very strange and eerie relevance to the meeting that afternoon.

What is happening is this country has a cheap food policy and we have been stealing from America’s farm families for decades. We are driving, by our national cheap food policy, thousands of families from the farms of America every year.

This year we are struggling with the first appropriations bill, Agriculture Appropriations. It is a humble bill. From my reading of the approach that we are taking, there is no real policy in this bill. We are not making progress. And I fear that the American farmers are getting rolled again in fiscal 2000. Their bill comes up first, and there is all this debate about whether their bill is too high.

Well, I can assure my friend from Oklahoma that we are not investing enough in agriculture. It is far from the truth. And the 100,000 employees he is talking about at the U.S. Department of Agriculture, they are not dealing with our agricultural programs. Almost all of them are dealing with nutrition and Forest Service and other programs. It is not agriculture.

Let us quit treating our farmers like dirt. We expect them to farm in the dirt, but they deserve to be treated with dignity. I do not see any progress in this series of amendments. We are squandering hours of floor time on a frivolous debate over these amendments.

What we need to do, Mr. Chairman, we need to recognize the fact that, as we move through this appropriations process, one appropriations bill after another is going to exceed the caps. The Agriculture Appropriations bill is probably the one that is considered easiest to pass without protracted debate over whether we should not be spending more.

Tragically, when the end of the year comes and we have the new CBO budget baseline and the pressure is there for other programs, we will start to find ways to explode the caps. I think all of us know that. But for agriculture, no, there is no new program. There is no crop insurance reform for fiscal year 2000. We are not increasing the loan rates for fiscal 2000. We are not providing additional money for new and beginning farmers in fiscal 2000. We are not investing in our rural communities for fiscal 2000 to a greater degree.

We have a static program. We are regarding for America’s rural communities in fiscal 2000. And I think to blame the White House, to blame this and to blame that, is absolutely wrong. It is asinine. We need to look at ourselves and blame ourselves for the fact we are not doing justice to America’s farm families.

I urge that we defeat this amendment and that we move on to consider the substance of this bill so that we no longer are insulting rural America.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Oklahoma (Mr. COBURN).

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. COBURN. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 239, noes 177, answered “present” 3, not voting 14, as follows:

[Roll No. 154]

Mr. ROEMER and Mr. STRICKLAND changed their vote from "aye" to "no." Ms. WOOLSEY, Mr. HOFFELFELD, Mr. BAIRD, Ms. SANCHEZ, Ms. MOAKLEY, and Messrs. NEAL of Florida and the Chairman of the Committee of Agriculture in the House and the Senate amended a $5.9 billion emergency relief measure that they had last year are promptly disbursed and I continue programs that provide no substantive relief to those who look to them for assistance. Moreover, along with my colleague the gentleman from New York, Mr. WALSCH, we at- tempted to provide $40 million for onion and apple farmers from New York. However, in observance of comity as well as in recognition of such amendment would not pass, I will not offer such an amendment.

In the year that has followed since the last disaster, the United States Department of Agriculture has utterly failed to act within their mandate to secure and protect the interests of our nations farmers. Many of our farmers face bankruptcy as a result of multiple loan losses and absolutely no assistance from USDA. In Orange County, our farmers began planting for the new season, despite receiving no indem- nities on their claims. They could not afford to buy the seed and supplies needed to ensure the best interests of our farmers at risk. This bureaucratic blockade of emergency funding stands in stark contract to the mission of the Department of Agriculture, noting that unless the emergency funds so desperately needed were released immediately, a number of them may not be able to survive.

Despite numerous pleas from a number of us in the Congress, the Department has continued to follow a course of action that puts aside the current crisis which many are struggling to keep themselves afloat in the midst of the maelstrom that the Department has unleashed upon them. We called upon the Secretary of Agriculture, and we again asked for onion and apple farmers from New York. The USDA in an attempt to provide $40 million for onion and apple farmers from the State of New York that were severely struck by bad weather, a disaster-type problem that they had last year.

We, our good Committee on Agriculture, adopted a $5.9 billion emergen- cy relief measure. Our farmers still have yet to see one dollar of that, and I wanted to mention as we are consid- ering this major agriculture measure, I wanted to make my colleagues aware of the poor manner in which the United States Department of Agriculture has addressed emergency relief for our farmers. At a time when this Congress passed a $5.9 billion emergency relief measure last October, and yet very few of our farmers have received the kind of relief that they are entitled to. Moreover, when they go to seek relief, they find that the crop insurance program leaves a lot to be desired.

Again, Mr. Chairman, I want to com- mend the Chairman of the Committee on Agriculture in the House and the Senate for taking a hard look at revis- ing that program. So again I just wanted to take this opportunity to remind our colleagues that while the USDA speaks highly of trying to do something for the farmers, their programs leave a lot to be des- cribed.

Mr. Chairman, I had planned on offering an amendment that would have attempted to strike funding for the Office of the Secretary as well as other offices and programs within USDA in an attempt to provide some $40 million for onion and apple farmers in the State of New York. That disaster, the United States Department of Agriculture has utterly failed to act within their mandate to secure and protect the interests of our farmers at risk. The bureaucracy has unleashed upon them. We once again have failed to provide adequate relief to our nation’s farmers. Ms. MENGENDEZ, Mr. Chairman, I move to strike the last word.

Mr. Chairman, I will not take the 5 minutes. Mr. Chairman, I had planned on offering an amendment that would have attempted to strike funding for the Office of the Secretary as well as other offices and programs within USDA in an attempt to provide some $40 million for onion and apple farmers in the State of New York. That disaster, the United States Department of Agriculture has utterly failed to act within their mandate to secure and protect the interests of our farmers at risk. The bureaucracy has unleashed upon them. We called upon the Secretary of Agriculture, and we again asked for onion and apple farmers from New York. The USDA in an attempt to provide $40 million for onion and apple farmers from the State of New York that were severely struck by bad weather, a disaster-type problem that they had last year.

We, our good Committee on Agriculture, adopted a $5.9 billion emergen- cy relief measure. Our farmers still have yet to see one dollar of that, and I wanted to mention as we are consid- ering this major agriculture measure, I wanted to make my colleagues aware of the poor manner in which the United States Department of Agriculture has addressed emergency relief for our farmers. At a time when this Congress passed a $5.9 billion emergency relief measure last October, and yet very few of our farmers have received the kind of relief that they are entitled to. Moreover, when they go to seek relief, they find that the crop insurance program leaves a lot to be desired.

Again, Mr. Chairman, I want to com- mend the Chairman of the Committee on Agriculture in the House and the Senate for taking a hard look at revis- ing that program. So again I just wanted to take this opportunity to remind our colleagues that while the USDA speaks highly of trying to do something for the farmers, their programs leave a lot to be des- cribed.

Mr. Chairman, I had planned on offering an amendment that would have attempted to strike funding for the Office of the Secretary as well as other offices and programs within the USDA in an attempt to provide $40 million for onion and apple farmers from New York. However, in observance of comity as well as in recognition of such amendment would not pass, I will not offer such an amendment.

Moreover, along with my colleague the gentleman from New York, Mr. WALSCH, we attempted to add $30 million to the recently ap- proved emergency supplemental for emer- gency assistance for our apple and onion pro- ducers, but we were denied such relief.

However, the manner in which the Secretary of Agriculture and the USDA has chosen to handle the current crisis which many are plugging our onion producers from my congressional dis- trict in Orange County, New York is wholly unsatisfactory.

One year ago this month, a devastating hail storm swept through the County re- gion causing severe damage to vegetable crops and adversely affected the production of our onion crops. When our farmers went to their Federal crop insurance for assistance, they encountered a system that hindered them, rather than helping them.

In the year that has followed since the last disaster, the United States Department of Agriculture has utterly failed to act within their mandate to secure and protect the interests of our farmers at risk. This bureaucratic blockade of emergency funding stands in stark contract to the mission of the Department of Agriculture and has succeeded only in prolonging the suffering of our farmers, rather than assuaging it.

Once again, I renew my call to the Sec- retary to take every appropriate action to en- sure that these emergency disaster funds that were appropriated by Congress back in Octo- ber of last year are promptly disbursed and I urge the Secretary to take whatever steps are neces- sary to thoroughly service The Federal Crop Insurance Program. We should not con- tinue programs that provide no substantive relief to those who look to them for assistance. The time is now for the Secretary to begin such a revision process.

Ms. KAPTRU, Mr. Chairman, par- liamentary inquiry.

The CHAIRMAN. The gentlewoman will state her parliamentary inquiry.
Ms. KAPTUR. Mr. Chairman, I would like to perhaps have the gentleman from Florida, the other side talk about the schedule at this point, or the Chair, whomever knows what the schedule is for this evening. We understand that votes may be being rolled. If someone could clarify it for us, what is happening here now?

Mr. SANFORD. The gentleman from Ohio could move to strike the last word and yield to the gentleman from Florida.

Ms. KAPTUR. Mr. Chairman, I move to strike the last word and would yield to the distinguished gentleman from Florida (Mr. YOUNG), chairman of our full committee.

Mr. YOUNG of Florida. Mr. Chairman, the plan is as follows:

The freshmen have a commitment between now and 8 o’clock at the Holocaust Museum, and we will continue the debate, but we will roll the votes that occur between now and 8 o’clock.

Then at 8 o’clock we will take the votes that have been postponed, and then after we have completed that, a decision will be made whether to proceed further into the evening and take votes or to proceed further into the evening and roll the votes until tomorrow or to rise.

Mr. Chairman, one of those three options will be announced after the votes at 8 o’clock.

Ms. KAPTUR. Mr. Chairman, I thank the gentleman.

So, there will be no votes between now and approximately 8 p.m., but debate will continue.

Mr. YOUNG of Florida. That is correct.

Ms. KAPTUR. Mr. Chairman, I thank the gentleman for the clarification.

The Clerk read as follows:

The Clerk read as follows:

OFFICE OF THE CHIEF FINANCIAL OFFICER

For necessary expenses of the Office of the Chief Financial Officer, including employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (4 U.S.C. 2225), of which not to exceed $10,000 is for employment under 5 U.S.C. 3109, $4,283,000.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

For necessary salaries and expenses of the Office of the Assistant Secretary for Administration to carry out the programs funded by this Act, $613,000.

AGRICULTURE BUILDINGS AND FACILITIES AND RENTAL PAYMENTS

(INCLUDING TRANSFERS OF FUNDS)

For payment of space rental and related costs pursuant to Public Law 92-313, including authorities pursuant to the 1984 delegation of authority from the Administrator of General Services to the Department of Agriculture under 40 U.S.C. 486, for programs and activities of the Department which are included this account, and for the operation, maintenance, and repair of Agriculture buildings, $140,361,000: Provided, That in the event an agency within the Department should require modification of space needs, the Secretary of Agriculture may transfer a share of that agency’s appropriation made available by this Act to this appropriation, or may transfer a share of this appropriation to that agency’s appropriation, but such transfers shall not exceed 5 percent of the funds made available for space rental and related costs to or from this account. In addition, for construction, repair, improvement, extension, alteration, and purchase of fixed equipment or facilities as necessary to carry out the programs of the Department, where not otherwise provided, $26,000,000, to remain available until expended; making a total appropriation of $166,364,000.

AMENDMENT OFFERED BY MR. SANFORD

Mr. SANFORD. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. Sanford: Page 4, line 25, after the dollar amount insert ‘(reduced by $21,685,000)’.

Mr. SANFORD. Mr. Chairman, this amendment would reduce the modest change within the whole of the $13-plus billion that will go to agriculture. It deals specifically with the agricultural buildings and facilities rental payments section, and what it does is it decreases by $21 million the specific agricultural buildings and facilities rental payment section.

Now what this really gets at is, there is what they call the space plan within the Department of Agriculture, and there are numerous Department of Agriculture buildings throughout the country, and what we do not have in schools across this country where we have actually students in trailers is this kind of money being spent.

So this is to take out $21 million which seems to me to be a Washington phenomenon, to go simply on planning where buildings may or may not be, where leases will or will not go, and so this is a 420 percent increase in this one category of expenditure, and again, Mr. Coburn, we do not see in the private sector. We do not see somebody in the private sector spending $21 million planning on where they are going to lease or sublease next, we do not see $21 million additional spending on planning when it could go into real buildings.

One of the choices that we will be having later this year is do we spend this $21 million on planning, or do we put the money, for instance, into education? This could actually buy books for the classroom, it could actually buy computers for the classroom, it could actually buy trailers.

In South Carolina we see trailers that actually house students. It could take them out of those facilities and put them in a real facility.

There is, for instance, if the choice right now is between this $21 million and, for instance, VA-HUD, would we rather spend the $21 million on veterans or would we rather spend the money, the $21 million, decide where we are going to put bureaucrats in and around Washington, D.C.? That is all this amendment does. It is part of a much greater context, and that is the context of what comes next.

If we do not get ahead of the curve on where Washington is spending money, we will see a train wreck this fall. There is no way this institution will cut $5-plus billion out of Labor-HHS, there is no way this institution will cut $3-plus billion out of VA-HUD, and the simple question before us is:

Can we save this $21 million to go toward planning where bureaucrats will be housed in Washington, or would we rather save that for these greater purposes later on?

Mr. COBURN. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I wonder if I might inquire of the gentleman?

My understanding of this is that last year we spent $5 million in this area and that we are increasing it to 21 million area. In 1995 the USDA initiated dollars, and I profess to not understand the rationale behind that, and I would like to know where this $16 million, how it is actually going to be spent. Is that a contract with some outside firm to help the Department of Agriculture better utilize its space or to give them a strategic plan? Where is the $16 million going to be spent over this next year, and how is it that we have a 420 percent increase?

Mr. SANFORD. Mr. Chairman, will the gentleman yield?

Mr. COBURN. I yield to the gentleman from New Mexico.

Mr. SKEEN. Mr. Chairman, I appreciate it.

The gentleman is talking about the wrong section of the bill, because it is not the building account his amendment goes after. His amendment goes after the repairs and the rental accounts. These are contracts that have been made by the Department of Agriculture. The Department of Agriculture can transfer the money to the rental payment section. That is what the appropriation of $166,364,000 means. This is a strategic reallocation of space to better use the space that we have in Washington. Mr. Sanford’s amendment would prevent that.

Mr. COBURN. Mr. Chairman, I thank the gentleman from New Mexico for that explanation.

I would like to read from the committee print.

The Department’s headquarters staff is presently housed in a four-building, government-owned complex in downtown Washington and in leased buildings in the metropolitan Washington area. In 1995 the USDA initiated a plan to improve the delivery of USDA programs to American people, including streamlining the USDA organization. A high priority goal in the Secretary’s plan is to improve the operation and effectiveness of the USDA headquarters in Washington.

To implement this goal, a strategy for efficient reallocation of space to house the restructured headquarters agencies in modern and safe facilities has been proposed. This USDA strategic plan will correct serious problems which USDA has faced in its facility program, including inefficiencies of operating out of scattered lease facilities.
and serious safety hazards which exist in the huge Agriculture South Building.

During Fiscal 1998, the Beltsville office facility was completed. This facility was constructed with funds appropriated to the departments located on government-owned land in Beltsville, Maryland. Occupancy by USDA agencies began in 1998 and will be completed in 1999.

I guess my point is the same point that the gentleman from South Carolina (Mr. SANFORD) had, is we are going to be trading classrooms for children, we are going to be using Social Security money to facilitate new buildings, new headquarters and new facilities for the USDA, and that does not help farmers one bit that I can figure out. It does help the people who work for the Department of Agriculture, but it does not help the farmers, and it is my hope with this kind of increase that we could take a look at that and perhaps trim that down or eliminate it, or bring it down to something realistic because, in fact, we do have a war that is costing $15 billion thus far, and we are going to have to make some choices.

Mr. Chairman, would the gentleman like to respond to that?

Mr. SKEEN. Mr. Chairman, the gentleman is still in the wrong account. That is an operations and maintenance account that we are talking about for buildings that are in use by the Department of Agriculture, and it is not planning money at all.

Mr. COBURN. Mr. Chairman, I would again thank the gentleman for responding to that. Again, I would stand by what I just read in the committee print, which is how this money was labeled in terms of the strategic space plan, and I guess I will just have to be satisfied.

Mr. SKEEN. Mr. Chairman, will the gentleman yield?

Mr. COBURN. I yield to the gentleman from New Mexico.

Mr. SKEEN. It is still the wrong number. We will be happy to show the gentleman where it is.

Mr. COBURN. Mr. Chairman, I will be happy to wait on the gentleman.

Mr. SKEEN. Mr. Chairman, I thank the gentleman. He should not hold his breath.

Mr. COBURN. Okay, again I would make the point.

The point is this: There is a significant increase in this section of the bill.

It is $21 billion in a time when we are spending money on a war, where we have made a commitment not to spend Social Security dollars to run this government, and in an area that offers nothing for our farmers.

Now, there is no question that I want more dollars to go to our farmers. That is why we spent almost $12 billion in emergency supplemental dollars last year for our farmers. That is why we advanced the President to Farm payment of $5 billion last year. That is why the baseline for the agricultural bill was up $5 billion over last year, because what was appropriated in the initial appropriations was $55 billion, almost $56 billion; and when we adjust that for the emergency spending that raises the baseline, we come to $61 billion.

Mr. SANFORD. Mr. Chairman, will the gentleman yield?

Mr. COBURN. I yield to the gentleman from South Carolina.

Mr. SANFORD. Mr. Chairman, I would just ask the gentleman this question.

How would this strategic space plan in fact help a farmer?

Mr. COBURN. Mr. Chairman, that was the question I asked.

Mr. SANFORD. In other words, Mr. Chairman, I am asking a question that goes straight to the heart of the matter of do we really need to spend this additional $21 million.

Mr. SHADEGG. Mr. Chairman, I must to strike the requisite number of words.

Mr. Chairman, I rise reluctantly in support of this amendment. My good friend from New Mexico, I know has worked very hard on this legislation; and, indeed, I applaud him for his efforts. Indeed, I applaud him for his efforts throughout this legislation because I think he does a good job for the agricultural community, and this is an important piece of legislation which we are considering here today.

I certainly support all of his efforts and all that he has done to support the agriculture community.

However, I must rise in support of the amendment itself because of the circumstances in which we find ourselves. It seems to me that there is a proper time in the course of events when one can look at, how could we improve the situation at the Department of Agriculture buildings; how can we ensure their proper maintenance, how can we indeed perhaps strategically plan their use of space; and there is a time in the course of events when one can afford to do those kinds of things.

But my belief is that at this particular moment, this particular allocation of $21 million, a little over $21.5 million, comes at a time in time when we face some very, very difficult challenges, challenges having to do with the confrontation we face in the Balkans, the challenge we face in meeting our commitment to the American people in other spending priorities, and particularly with regard to our overall spending plan.

It seems to me what we have done is, we have placed individual subcommittee chairmen, individual cardinals such as my good friend, the gentleman from New Mexico (Mr. SKEEN) in the difficult position as right now, what we have done is, we have come to the floor to debate one of the 13 appropriations bills which we need to debate and which I agree we must, in fact, pass as we move forward; and I think we must pass them expeditiously and as quickly as possible because it is our obligation to fund the government and it is our obligation to do that in a timely fashion.

However, when we engage in that debate, we need to put it in a context in which we look at the entire spending pattern of the government.

I am now beginning to serve my fifth year in the Congress and to look at our spending priorities, and I know that when I look back to the end, absolutely handled the appropriations process in the last few years, the commitments we made to the American people when we came here and the way we have on, quite frankly, too many occasions allowed the process to spin out of control and gotten ourselves in a position where late in the game, late in the appropriations process, we cannot come to agreement, and we wind up breaking our commitment as to how much money we should spend to fund the government. We come back and we break our word to the American people about what we are going to do in terms of putting a tax burden on them.

I think we do not engage in this overall debate and have a plan and have each bill come with a measured response that will fit into an overall plan, and what we instead do, as it appears we are doing this year, is we bank on the future, bank on a windfall, bank on extra monies coming in and kind of put off to the future the financial commitments we have made to live within our means or to put off until a later date that debate; and all we do is create problems.

Mr. Chairman, I stood on this floor and watched us year after year get into a confrontation with the President where he demands higher spending and higher spending and higher spending, but we have put ourselves in a crunch at the end of the legislative process when I look back to the end, absolutely no choice but to agree with that. I, for one, am very reluctant to ever again come to this floor, vote for a spending bill which puts us in that position at the end of the year, and then I have to go home and look my constituents in the eye and say, yes, we did not live up to our word.

So I rise in reluctant support of the gentleman’s amendment and in reluctant opposition to my good friend from a different part of the state. Let me rise and think, on balance, he has done a good job on this bill. But the bill is a part of a larger mosaic, it is a part of a 13-piece puzzle.
Earlier in the day, I raised the question of how does this bill fit into our overall commitment to the American people. We cannot break faith with the American people yet one more time, on spending.

Mr. Chairman, we have all kinds of rules back here. We live within these budget caps and we get to talking about cuts and we get to talking about the 1997 Budget Act. Quite frankly, the people back home in my district say that discussion of budget caps is a lot of inside-the-Beltway gobbledegook that they quite frankly do not understand.

However, they understand one thing. They understand fundamental principles and they understand hypocrisy. And we have put out a commitment to the American people that we will not break a word of one penny of the Social Security surplus. We have laid that marker down.

Now, that is not some big notion of budget caps, that is not some law dictated by something we did 5 years ago; that was a principled principi ciple that says, we will not this year, once again, raid Social Security. And yet I see us, because we have all 13 pieces of this puzzle put into place, risking that commitment.

So I rise in support of the gentleman from Arizona (Mr. SHADEGG) that is proposed.

The CHAIRMAN. The time of the gentleman from Arizona (Mr. SHADEGG) has expired.

(On request of Mr. COBURN, and by unanimous consent, Mr. SHADEGG was allowed to proceed for 3 additional minutes.)

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. SHADEGG. Mr. Chairman, yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, I thank the gentleman for his comments.

Mr. Chairman, I think one of the important things, and I have discovered, thanks to the chairman and his committee staff, that we do in fact have a drafting error on this amendment; and I am going to in a minute ask for unanimous consent for that drafting error to be changed. If it is not agreed to, then I will withdraw the amendment.

But I think the real question is, if we took a poll of farmers out there on whether or not we ought to have a 420 percent increase in this area, what would they say right now? They would not just say no; they would be screaming up and down, saying no, because they know not one penny of this money is ever going to see, and they know it is going to be spent in Washington.

I mean, that is what the committee print talks about, about space needs and organizing the space for the bureaucracy that is in the Department of Agriculture. So I think it would be an interesting question as to what farmers who are actually out there struggling, what cattlemen would say about a 420 percent increase for this area in the Department of Agriculture.

It is a fact, I think, that we would agree with what the farmers would say. I know what the farmers from my district would say and I know what the ranchers would say.

Mr. SANFORD. Mr. Chairman, will the gentleman yield?

Mr. SHADEGG. Yield to the gentleman from South Carolina.

Mr. SANFORD. Mr. Chairman, on that very point, the back of the envelope, what we are really looking at here, if the gentleman figures he can get a good used tractor for about $20,000, we could just go out and buy 1,000 tractors for farmers across this country rather than spending the $20 million on space needs in Washington, D.C.

Mr. SHADEGG. Mr. Chairman, reclaiming my time, I applaud the gentleman for being willing to withdraw the amendment if he cannot get permission to fix the drafting error.

Mr. SANFORD. Again, that is a very good point, and that is the subcommittee chairman, my colleague from New Mexico, my neighboring State, did a good job of trying to craft this legislation. I think the bigger question is, how does it fit into a larger puzzle. That is the concern I wanted to raise.

I would agree with the gentleman that I think the cattlemen in Arizona and the farmers in Arizona, they are in dire shape and they do need help. The least thing they are concerned about is space planning in the Department of Agriculture, and they are more concerned about the dollars we can get to them that would help them very much.

Ms. KAPTUR. Mr. Chairman, I move to strike the last word. Mr. Chairman, I just wanted to mention in regard to this amendment, which apparently has been withdrawn, it is just another example of misfeasance on the other side of the aisle trying to write legislation on the floor, not carefully thought through, never brought before the committee, account numbers even wrong on the amendment that is proposed.

Now, I think the gentleman in his heart probably is trying to do what is right for the country, but again, the people that suffer from these kinds of ill-advised amendments are the people in rural America; and if the gentleman is not running for office again, that means the gentleman is really not ac countable to them for his actions here today. This is just another example where we have been subjected to using circumstances with bad air-conditioning and bad heating systems and bad ventilation. I want the best for America, I want the best for our people to be able to serve the public, which is what we are here to do.

I really think that whoever advised the gentleman on this amendment obviously was not studying the legislation very carefully, and I wish the gentleman had come before our subcommittee. We have a fine chairman. We have never had a better subcommittee of the Committee on Appropriations than the Subcommittee on Agriculture. We would have been open. We would have worked with the gentleman. The gentleman never did that; the gentleman never made an appearance. I do not think he ever sent us a letter.

I just want to put that on the Record.

REQUEST FOR MODIFICATION OFFERED BY MR. COBURN TO THE AMENDMENT OFFERED BY MR. SANFORD

Mr. COBURN. Mr. Chairman, I ask unanimous consent that the Sanford amendment be changed from page 4, line 25, to page 5, line 11.

The CHAIRMAN. The Clerk will report the modification.

The Clerk read as follows:

Modification offered by Mr. COBURN to the amendment offered by Mr. SANFORD:

Change the page and line numbers from "Page 4, line 25" to "page 5, line 11".

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

Mr. YOUNG of Florida. Mr. Chairman, reserving the right to object, I do so to try to get an indication of how many amendments we might be considering here tonight. I have heard that there might be as many as 130 amendments offered just to filibuster this bill. If that is the case, we are just going to rise and move on to other business.

So I wonder if we can get an idea from any of the Members that are present if we are going to consider 130 amendments tonight, or whether we
are going to consider 20. I would like to know where we are, because if we are going to have the all night long, I am going to object to every opportunity that would slow down the process.

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, it is my intention, as I stated during the general debate and during the rule, to do everything I can to bring this bill back in line with last year’s spending and do it in such a way that will not affect farmers, but will affect the overhead costs that are oftentimes markedly inefficient.

Mr. YOUNG of Florida. Mr. Chairman, reclaiming my time, that does not respond to my question. Is the gentleman going to offer the 135 amendments that he advertised?

Mr. COBURN. Mr. Chairman, if the gentleman will continue to yield, we are $500,000 closer to that after the last amendment that the House agreed to in terms of trimming. That means we only have $295,500,000 to go. Some of those amendments are $60 and $70 million, some of them are $200,000. When we achieve last year’s freeze level, then I will stop offering amendments.

Ms. KAPTUR. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentlewoman from Ohio.

Ms. KAPTUR. Mr. Chairman, I want to thank the gentleman for reserving the right to object, and I wanted to state that to our knowledge, we have been given a minimum of 20 amendments by the Clerk. We have been told there are an additional 80 amendments that have been filed, and there may be more of which we are not aware.

As you may know, we have been on the floor this afternoon having to consider amendments we have never seen. In fact, on this current amendment, it is unclear to us whether line 12 of page 5 is included in the amendment or not.

So I would support the gentleman in his efforts to try to put some rational process in place here. I realize we are in the minority, but I think our Members have a right to be informed as to what is going on, because they are coming up to us, and I would prefer to have a more orderly process.

Mr. FARR of California. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from California.

Mr. FARR of California. Mr. Chairman, for the other gentleman who was talking about trying to bring us back to last year’s budget, why did you bring in the initial discussions, there have been $64 billion below what we spent in agriculture last year. This bill is way under. In fact, it is 31 percent less than what was spent on agriculture last year.

I think that we met the mark, and these amendments are essentially a filibuster tactic that are frivoulous.

Mr. YOUNG of Florida. Mr. Chairman, let me say, I will not object to allowing the gentlemen to correct their error in drafting their amendment. However, I will object to any extensions of time or anything that would delay the process.

Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

Ms. KAPTUR. Mr. Chairman, reserving the right to object, I just wanted to ask, in the way of a parliamentary inquiry, when the gentleman intends to amend his amendment, and to also amend the $166,364,000 figure in line 12 on page 5? Is that part of his amendment?

Mr. COBURN. Mr. Chairman, will the gentlewoman yield?

Ms. KAPTUR. I yield to the gentleman from Oklahoma.

Mr. COBURN. That is not part of the amendment. It is intended that the conference could make that adjustment as a technical correction, and we amended exactly what we intended to amend in this change.

Ms. KAPTUR. Then, if I might just state for the RECORD, then the amendment is a frivolous amendment because it does not change the total amount of dollars in the account.

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

Mr. POMEROY. Reserving the right to object, Mr. Chairman, I must say that at the moment, I am very much concerned by what is occurring on the floor. I represent farmers, and these farmers are in a world of hurt.

A bill comes to the floor, the agriculture appropriations bill, prepared and reported out of the committee with the Conference allocation assigned to that committee, and we begin to see a slew of amendments, amendments that would eviscerate the help my farmers need.

Now we see, with the unanimous consent, the request of the gentleman from Oklahoma (Mr. Coburn), who is offering these amendments a chance to prove me wrong. What I would ask him is, if the purpose of this is to reduce the bill to last year’s level, or to get to the level that he would like to see at with this bill, would the gentleman agree to take all these amendments, make them en bloc, and present them as one amendment so that we can deal with this issue right now, and get the work of this bill done?

Would the gentleman take all these amendments and roll them into one, offer them en bloc, $249 million, and give the body the opportunity to vote up or down? If that is the gentleman’s point, then I would ask the gentleman to please respect the Congress, respect to get their spring financing together. They are trying to get their crop in. They are trying to figure out how they are going to figure out how they are going to get the money for another year, in light of the financial trouble they are under.

Here in Congress, we cannot even get an agriculture appropriations bill out of this Chamber without having Members of this body attack this bill in this fashion. It is shameful.

The only thing that is more shameful than the amendments themselves is the fact that they have had the support of the majority leadership, leadership which we are led to believe gave no notice to the subcommittee chairman that his budget was going to come under attack in this fashion.

The gentleman from Texas (Mr. ARNIE), the majority leader, and the gentleman from Texas (Mr. DELAY) owe it to the farmers of this country to stop these amendments and get this bill out.

Mr. Chairman, I object to the Members trying to correct his amendment. If he wanted to have this amendment considered, he should have had it in proper form the first time.

The CHAIRMAN. Objection is heard. The unanimous consent request is not granted.

Mr. WALSH. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise, and not on a specific amendment, but on this process that we are following under.

As I said earlier in the debate, I respect the gentleman’s right to offer amendments. I respect the principle that he is trying to uphold by reducing the size of this budget. I do not think he is trying to gut the services and the same problems that the U.S. Department of Agriculture provides to our constituents.

I would remind my colleagues that this bill does not become law for at least 4 months, so there is nothing wrong with debate. However, there is something wrong with dilatory tactics. That is exactly what this seems to be. But I am going to offer the gentleman from Oklahoma (Mr. COBURN) who is offering these amendments a chance to prove me wrong.
the House, respect this debate process, respect the chairman, certainly, who has worked endlessly on this, and give us that opportunity to vote on this up or down, one vote. Mr. SANFORD. Mr. Chairman, will the gentleman yield? Mr. WALSH. I yield. Mr. SANFORD. Not speaking for the gentleman from Oklahoma, Mr. Chairman, but it seems to me the problem in that strategy would be well witnessed by the last vote. The last vote succeeded and saved the taxpayers a number of dollars. There are some things that clearly will work and some that will not, and therefore, the idea of going en bloc might guarantee a defeat of what the gentleman is trying to do, which is save money.

Mr. WALSH. Reclaiming my time, Mr. Chairman, and I would be happy to carry this on, the gentleman has already conceded that they cannot win all of these, so if there are some amendments that the Members think they can, why do not Members offer those en bloc and not offer the ones that they do not think will pass? Let us try to be a little bit pragmatic here. If Members want to accomplish their goal, then work within the normal constraints of the body and give us an opportunity to move forward on the bill.

I would like to offer, again, the opportunity to the gentleman who has put these 100-some odd amendments forward, the opportunity to enter into a colloquy to determine whether or not he is willing to end this what I perceive as a dilatory tactic, offer this en bloc, and give us one vote up or down.

Mr. COBURN. Mr. Chairman, will the gentleman yield? Mr. WALSH. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, first of all, the reason I was hesitating responding to the gentleman is I do not think I can respond to the gentleman in the time that is remaining. I am going to ask for unanimous consent for additional time.

This is not about dilatory tactics, in spite of everything the gentleman hears. I do not say things I do not mean, and I mean exactly what I say. That is something different than what this body is known for, unfortunately, over the last 40 years, as we have confiscated and put $5.6 trillion on the books owing by our children.

My purpose is to reduce this and to have a discussion, as is my right in this body, so that the people of this country can hear the people’s business.

I want to tell the Members, there are some farmers out there right now talking about the 20 percent increase. They had no idea the money was spent that way. I guarantee a lot of us will hear about it tomorrow in terms of strategic planning.

Mr. WALSH. Reclaiming my time, Mr. Chairman, I would again offer the gentleman the opportunity to, with the gentleman from Oklahoma, roll all these amendments into one to accomplish his goal, which is, I think, an honest goal, something he believes in; roll them into one, give us an en bloc amendment, let us vote up or down on this, and then move forward roll all really additionally important aspects of this bill, which is the agriculture policies and feeding policies of the Nation.

Mr. SANFORD. Mr. Chairman, if the gentleman will continue to yield, it would seem to me that the problem with that logic would be that that assumes that all things are equal within the Department of Agriculture funding, which I do not think are.

Mr. YOUNG of Florida. Mr. Chairman, I move to strike the requisite number of words.

Mr. SANFORD. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Florida. I yield to the gentleman from South Carolina.

Mr. SANFORD. Mr. Chairman, it seems to me that the problem with that logic assumes that all things are equal within this category of expenditure. I do not think that to be the case, which is why I would think that the proposal of gentleman from Oklahoma (Mr. COBURN) makes sense, because some things we will like, some things we will not.

By going through the debate process amendment by amendment, we find where the good is and where the bad is.

Mr. YOUNG of Florida. Mr. Chairman, I listened with great interest to the gentleman from New York as he made his comment about dilatory tactics, and the comments that I have made earlier about an apparent filibuster.

I am looking at a Dear Republican Colleague letter here, I guess it was an e-mail, that was forwarded through Colleague letter here, I guess it was an e-mail, that was forwarded through, that was forwarded through. It says, “I just submitted 115 amendments to the Agriculture Appropriations bill. It is my intent to first oppose the Rule for the Agriculture Appropriations bill and should the rule be adopted, then proceed to filibuster the bill with amendments.” The signature line is the gentleman from Oklahoma (Mr. COBURN).

So the fact of the matter is he has submitted, with the gentleman from Oklahoma, the amendment that now they do not.

Mr. YOUNG of Florida. The way the gentleman is proceeding, an inch at a time, is a filibuster. These amendments could have been put together. They could have been done en bloc. They could have been several major amendments that we could have had a substantial debate, and I have wasted a lot of time here talking about philosophy that should have been discussed on the budget bill, when the budget resolution was here. That is the time these arguments should have been made.

I would say to my friend that this bill and all of the other bills that we will present to this floor are under the freeze and are within the budget caps of 1997, and meet the section 302(b) suballocation as provided for by the budget resolution. So try to cut the money if the gentleman wants, and believe me, I have been here to vote for a lot of amendments to cut a lot of money out of spending bills, let us do a reasonable, responsible way. Let us combine the amendments so they have some substance to them, and so that we do not spend the next 3 or 4 or 5 days here going over 115 amendments that the introductor admits is a filibuster.

Mr. GUTKNECHT. Mr. Chairman, I move to strike the requisite number of words.
Mr. Chairman, I just want to admonish everybody, first of all, that it is a violation of House rules to question the motives of the Members. I just want to make it clear, whether one agrees with these amendments or one disagrees with the amendments, clearly the gentleman from Oklahoma (Mr. Coburn) has every right to offer these amendments.

Also, I want to say something else. I have been listening to the debate and watching on C-SPAN back in my office. It bothers me a little bit right now. I represent a farm State, and my farmers are hurting, and that is the truth, and all of my colleagues should know that.

But I will tell my colleagues something else, my farmers do not want to steal from the Social Security Trust Fund either. Frankly, they feel a bit abused sometimes when people say things like, well, we have to do this because of the farmers. They do not want this huge bureaucracy that we have here in Washington.

I mean, this amendment, as far as I know, deals with $21 million for new buildings. I will tell my colleagues, on behalf of most of my farmers, if one asks them, “Do you think we ought to build $21 million worth of new buildings or more bureaucracy in Washington, and at the end of the day be forced to take that money out of Social Security Trust Funds or to borrow it? Do you think we have to do that?”

I care about the future of the United States of America, spending only $1,700 billion, do my colleagues ask them, “Do you think the Federal Government can live with spending only $1,700 billion, do my colleagues ask them?”

I care about the future of the United States of America, spending only $1,700 billion, do my colleagues ask them, “Do you think the Federal Government can live with spending only $1,700 billion?”

On the other side, I have heard leadership in the majority party and we, as the appropriators, and I particularly in the minority, have had to abide by the budget caps and we have done that on this Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies, why do my colleagues not go back and redo the budget rather than put our subcommittees through this agony on the floor? I am missing something here.

Mr. GUTKNECHT. Mr. Chairman, re- claiming my time, if my colleagues ask the average American, whether they are a farmer or a machinist, whether they live in Ohio or Minnesota, if my colleagues ask them, “Do you think the Federal Government can meet the legitimate needs of the people of this country, and of all the people who depend upon the Federal Government, do you believe that the Federal Government can live with spending only $1,700 billion, do my colleagues ask what? If they ask that question to me, to Minnesota or Oklahoma, can I ask the gentleman from Oklahoma (Mr. Coburn) and criticizing his motives in this debate, I think that is wrong, and my colleagues have over- stepped their bounds.

Mr. KAPTUR. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. Without objection, the gentlewoman is recognized for 5 minutes.

There was no objection.

Mr. COBURN. Mr. Chairman, par- liamentary inquiry.

The CHAIRMAN. The gentlewoman from Ohio may state his parliamentary inquiry.

Mr. COBURN. Mr. Chairman, if I am not incorrect, and I will be happy to be corrected on this, still have the amendment before us that was rejected in terms of it; and if we have spoken, we can not speak again. I am not sure I recall whether the gentlewoman from Ohio (Ms. Kaptur) has spoken or not.

Ms. KAPTUR. Mr. Chairman, if I am not incorrect, and I will be happy to be corrected on this, still have the amendment before us that was rejected in terms of it; and if we have spoken, we can not speak again. I am not sure I recall whether the gentlewoman from Ohio (Ms. Kaptur) has spoken or not.

The CHAIRMAN. The gentlewoman from Ohio (Ms. Kaptur) has spoken or not.

Mr. Coburn will note, the Chair said, without objection, the gentlewoman is recognized for an additional 5 minutes.

Mr. COBURN. I do not object.

The CHAIRMAN. The gentlewoman from Ohio (Ms. Kaptur) is recognized for 5 minutes.

Ms. KAPTUR. Mr. Chairman, in terms of how the Members of our side of the aisle functioned, we accepted the budget numbers that were given us and we acted in good faith on our subcommittee.

We have produced a bill that meets the budget mark that we were given. So, therefore, to rip apart the bill because we may or may not like some provision in the bill, they want to do something else with it, well, I think most Members come to the floor but they do not come with 150 or 200 amendments. We operated in good faith here.

I will tell my colleagues it is a little hard to maintain it as the hours go on here today, but the point is, if my colleagues do not like the budget, go back
and redo the budget. Do not pick apart every appropriation bill that comes to the floor.

We have lived within our budget. Let our committee function. Frankly, my colleagues really risk great damage to this Republic, because we could end up where we were last year when the majority here rammed that big bill through here at the end of the year because we could not complete our appropriation bills on time and on schedule.

Here we are here in the Committee on Agriculture, because of the crisis in rural America, on time with our bill, within the allocation we are given; and now my colleagues are holding us up again. I fear that the very same mess that was created last year is going to repeat itself this year.

So if my colleagues have a problem with 20 false amendments go back to their budgeteers; work the problem out there. But when we have subcommittees acting in good faith and doing their job, do not disenfranchise them. I think that is the height of my colleagues' responsibility inside the Chamber.

Mr. LATHAM. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I am probably not going to take the full 5 minutes, but I heard the gentleman from Oklahoma (Mr. COBURN) a little while ago saying he did not want to do anything to hurt farmers. Well, I have to tell my colleagues I have the greatest respect for the gentleman, but the last amendment hurt farmers a lot. When my colleagues look at the services that they are trying to provide to farmers in the FSA offices, NRCS offices, with the computer systems that today do not work together, and the whole purpose of that funding is to finally get some coordination at USDA, now this is an area that I have worked in the last 3 years trying to fix this problem so that we can actually deliver services to our farmers, and cutting this money out of that is wrong.

I did not enter into the debate before because I thought it was silly, but to make a statement like that simply is wrong. The gentleman should be aware that many Members who have voted for some of these amendments have actually come to us and asked for little research projects. Maybe the two-tenths of 1 percent that is overspent in this budget may be some of that that is going to different parts of the country for folk who today are voting to cut in this budget.

I mean, I have heard of rice studies, wild rice, things like that. There are projects that people have asked all over to be included in this bill and now are voted against this bill.

We are in the budget caps. If my colleagues do not think that this is going to hurt farmers, what they are doing, they are wrong. I will tell my colleagues directly, it may be fine to stand up and talk about protecting Social Security. The fact of the matter is that the surplus is going to be at the end of the year. We may in fact have surplus beyond what Social Security is this year. Then my colleagues' argument is not correct. Then we are not taking money out of Social Security.

The fact of the matter is, I agree with my colleagues, we have got to balance the budget, but the fact of the matter is my colleagues are hurting farmers. If this is some filibuster today just to take advantage of an opportunity from very well-meaning people here who have worked their tails off on a bill, trying to accomplish a bill that helps a lot of Members around here with very important research projects that have a lot of push over here, maybe slightly, if in fact that is the case, but to talk about how this is not hurting farmers here is simply wrong.

What we are doing here, it makes this House, it really is not the brightest point in the last round here let me just say that. Because in fact we have done the hard work of staying within the caps. We have done what we have been given as far as staying inside our allotments. But I just take very strong exception to the fact that we are not hurting farmers here today.

Mr. Chairman, I yield to the gentleman from Oklahoma (Mr. COBURN).

Mr. COBURN. Mr. Chairman, I thank the gentleman for yielding to me. I take the gentleman's admonition. But I also would point out that in the last supplemental we gave $47 million to the Department of Agriculture for Y2K, if I would be allowed to continue, for Y2K just upgrades, just for that one segment of the country.

I would point out that, in fact, by taking the whole assumption of the gentleman's argument is that this is the only way we can get there. My objection to being above what we spent last year is that it is not the only way. I am not saying my way is the best way, but I am wanting the people of this country to hear the debate on all of the areas.

Mr. LATHAM. Mr. Chairman, re-claiming my time, I will tell the gentleman that I will vote against this this afternoon. But why does the gentleman not talk to somebody who has been involved in an issue like this for 3 years now, trying to get the chief information officer to straighten out the travesty that is going on at USDA, where we have got 29 agencies down there, smokestacks, which each have their own computer system, cannot talk to each other, they cannot even e-mail from the north building to the south building. Do you want to fix that?

Five hundred thousand dollars, maybe my colleagues do not think that is a big deal, but it is in a nonfunctional agency that is trying to straighten itself out. It will hurt our farmers, and I just want the gentleman from Oklahoma (Mr. COBURN) to know that you are hurting his farmers at home and hurts the services that USDA provides them as far as the FSA offices and NRCS offices.

Mr. STENHOLM. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I want to first associate myself with the comments of the gentleman from Iowa (Mr. LATHAM) a moment ago. Indeed, that last amendment did hurt farmers.

If my colleagues had been following, as he has for the last 3 years and I have for the last 6 years, what we are trying to do at USDA, they would understand there was a little wisdom in the money that was proposed to be spent. That amendment that was proposed to be spent.

Let me speak specifically to the amendment the gentleman proposes to cut now, a $21 million increase, which the gentleman said a 420 percent increase, which sounds like a whole bunch of money, and it is a whole bunch of money, but this is to implement the strategic space plan, which includes the new USDA office facility on Federal land at Beltville. The construction of the Beltville office facility started in June 1996, was substantially completed in 1997, and we are completing the occupancy this year in 1999.

The 2 million gross square feet south building is over 60 years old, eligible for listing in the National Register. The required renovation work includes fire protection, abatement of hazardous materials, such as asbestos, PCB light fixtures, and lead paint, replacement of old, inefficient heating, ventilation, and all conducting air conditioning systems for improved energy conservation.

The construction contract for phase one of the modernization was awarded in July of 1998 but has been tied up in a legal suit, and is now being proposed to be funded. The fiscal 1999 appropriation of $5 million included funds necessary to continue the south building modernization.

One of the problems we have got with delivering services to our farmers, we have not kept up with the technology. We are doing it in our offices. Notice what happens when we improve the computer technology here, there is a lot of wires get run. We have to go back and do things. They are very expensive.

When we are trying to do that to our USDA headquarters so that we will be able to coordinate our services, it requires spending of some money. This was a plan that was proposed and is being implemented.

We can cut this money, very easily cut it. But then do not stand up and criticize USDA for not being able to deliver the services to our farmers and
ranchers as we have been doing, many have been doing, blaming it all on the Secretary of Agriculture because the disaster payments were not delivered on time.

Mr. STENHOLM. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. STENHOLM. I yield to the gentleman from South Carolina (Mr. SANFORD).

The amendment offered by the gentleman from South Carolina (Mr. SANFORD) will be postponed.

The Clerk will read.

The Clerk read as follows:

HAZARDOUS WASTE MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Department of Agriculture to comply with the requirement of section 107(g) of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9607(g), and section 6001 of the Resource Conservation and Recovery Act, 42 U.S.C. 6961, $15,700,000, to remain available until expended: Provided, That appropriate funds and other moneys available in the Department for Hazardous Waste Management may be transferred to any agency of the Department for its use in meeting all requirements pursuant to the above Acts on Federal and non-Federal lands.

DEPARTMENTAL ADMINISTRATION (INCLUDING TRANSFERS OF FUNDS)

For Departmental Administration, $36,117,000, to provide for necessary expenses for management support services to offices of the Department and for general administration and disaster management of the Department, repairs and alterations, and other miscellaneous supplies and expenses not otherwise appropriated for and necessary for the practical and efficient work of the Department; procurement, contracting, motor vehicle and aircraft management, safety and health management, we have talked about that; occupational safety and health management, we have talked about that; real and personal property management, we just talked about that in the previous amendment; and ranchers in the departmental programs activities, et cetera, et cetera.

Again, I would raise the point. I do not have an objection with any member of this committee. I know that they have done good work. I do not disagree that they have met the targeted caps.

What I am saying is, when was the last time an appropriation bill came to the floor that was below the caps? What a novel idea, if we are, in fact, going to not spend money that does not belong to us.

Now, I understand why other Members do not want to talk about the Social Security issue, and I agree with the Members of the committee who say, we have met our 302(b) allocation. I agree with that. They have. My purpose in offering the amendments is to drive efficiency in the Federal Government, to ask the question, why, when we spend a 12 percent increase in administrative overhead within a department. I would say that if this is truly the people’s House, a debate on those issues ought to be heard by one and all.

The other thing that I would object to is the reference to this bill being the committee’s bill. This bill is, all of ours. It is not just the committee’s bill, it is the House’s bill. And to say that one of us has more priority over this bill than any others is wrong.

The other thing I want to do is to take a minute and perhaps defend my motives. And I am somewhat discouraged that the gentlemanwoman from Ohio has not recognized my persistence in the past 5 years. Because three times today she said that my motivation is based on the fact that I am not running for reelection.

I never was running for reelection when I came up here on this this year. And I would ask, if the gentlemanwoman that passed this House, period. So let us not keep talking about we are doing all of this to save Social Security.

If the gentleman wants to save Social Security, bring a Social Security bill to the floor and let us talk about Social Security. If he wants to make points on the agricultural bill, let us debate them. We can stay and debate them until the cows come home, but we will be talking specifically about what the gentleman is doing, and again, the gentleman is hurting farmers in these amendments when he passes them.

The CHAIRMAN. The question is on the amendment offered by the gentleman from South Carolina (Mr. SANFORD).

The question was taken; and the Chairman announced that the noes prevailed. Pursuant to House Resolution 185, further proceedings on the amendment offered by the gentleman from South Carolina (Mr. SANFORD) will be postponed.

The Clerk read as follows:

AMENDMENT OFFERED BY MR. COBURN

Mr. COBURN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. Coburn: Page 6, line 3, after the dollar amount insert "(reduced by $3,049,000)".

Mr. COBURN. Mr. Chairman, the purpose of this amendment is to talk about the 12 percent increase in the Department of Agriculture administration budget. The increase is from the fiscal 1998 level of $32 million, increasing it by $3,949,000.

According to the committee print, departmental administration is comprised of activities that provide staff support to top policy officials and over-all direction and coordination within the Department.

These activities include department-wide programs for human resource management, I believe we have talked about that in a couple of the amendments; management improvement, we have talked about that; occupational safety and health management, we have talked about that; real and personal property management, we just talked about that in the previous amendment; and ranchers in the departmental programs activities, et cetera, et cetera.
were to look at my voting record and at my challenges in terms of the appropriation process, she would see that I did think about this last year and the year before and the year before.

So this does not have anything to do with running for reelection, this has to do with questioning why we would have a 12 percent increase in administrative overhead if we have to do that, and that is the only way we can do it, and there is no waste in the other $32 million and it cannot be done better and it cannot be done more efficiently and the American people can be convinced of that, and I can be convinced of that. I will be happy to withdraw this amendment.

But as I look at what I read in the committee print, and having been through five of these appropriation bills in the past, I do not believe that is true. I think they can do better. And I believe that it is wrong for us not to ask the administration within the Department of Agriculture to do better.

Most of the Members of this body would like to see a 12 percent increase in their staff and their capability of running their offices, but the fact is, we are not going to pass that for ourselves, are we? But we are going to say that the Department of Agriculture is underfunded in terms of its administrative capability, does not have the dollars to do what it needs to do and must have a 12 percent increase, when the true cost of living associated with government-run programs in this area, and the area where the vast concentration of these employees are, rose by less than 7.1 percent last year.

So what we did in terms of the computers in the Office of Information was true, and we cannot take it out of this money or add to it because it is not that there is not enough money. There is money running all over this bill. And I again would say, ask the farmers.

A $3,949,000 increase from $32 million, that is 12 percent. How many of them are going to see 12 percent handed to them? They are not. And how many of them want to see this money spent up here? They want to see it spent on them, not up here. And they want to make sure that we are supporting them with their ability. I do not believe that we give them a constant stream of dollars to do with questioning why we would have this increase.

So I do not object to what the committee has done. I said when we talked about the rule that this was a good bill and that it was probably going to pass. What I said was that I did not think it was good enough and it needed to get better.

Mrs. CLAYTON. Mr. Chairman, I rise in opposition to the amendment.

Mr. COBURN. Mr. Chairman, will the gentlewoman yield?

Mrs. CLAYTON. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, I would say that in my position that we have not proposed a cut. What we have proposed is leaving it at last year’s level.

Mrs. CLAYTON. Reclaiming my time, Mr. Chairman, the assumption is that the gentleman is looking for efficiency, and therefore, if we leave it at that level, meaning less expenditure, then by that definition, we would have more efficiency.

But let me tell the gentleman what these particular funds he proposes that are not needed will be used for: one, for the Office of Civil Rights. And that may not be important to the gentleman from Oklahoma, but I can tell him it is important to a large number of farmers in this USDA, who the gentleman says is inefficient, had also not been fair, and in fact had to file a lawsuit as a result of their discriminatory actions.

This now allows them to more efficiently respond to those complaints rather than have the U.S. Government to pay out a large settlement because of the failure of their accountability and responsibility. $1.6 million of the $3.6 goes to the Office of Civil Rights.

Even more important to socially disadvantaged farmers is the $951 million that affords the opportunity for small farmers, not just necessarily minority farmers, but small, disadvantaged farmers who will have outreach and technical assistance. This may not be big to the gentleman from Oklahoma, but it is efficiency in their way of thinking to have the kinds of services explained to them, to have the technical assistance so they can more efficiently market their products with the kind of expectation that they will be profitable in their livelihood.

So the $3.9 million which is being offered here already is insufficient to meet all of the needs.

If the gentleman’s definition were applied, I think he actually would need to add to this, if the gentleman is truly about putting the money where it is most needed and making sure it is implemented. I would think by the gentleman’s definition, and I disagree with the gentleman’s premise, it would say this is insufficient.

If the gentleman understood what this is doing, he would say they should have been doing this. They should do it better. They have more outreach programs, not less. The Office of Civil Rights should have been there before. These farmers should not have had to sue.

Now we are putting a structure there so that there can be the kind of investigation that needs to be there.

So I would think the gentleman would want to be on the side of, not anticivil rights, but the gentleman would want to be on the side of, there should be fairness and there should be structure there to deal with this. And the gentleman’s amendment, in his zeal for his fiscal philosophy denies the very premise of efficiency of this department serving the people who need it.

So I would urge that this amendment on its merit, not on the philosophy, just on its merit, should be defeated.

Mr. SKEEN. Mr. Chairman, I move to strike the last word.

My colleagues, the Department of Agriculture has been dealing with serious civil rights issues for the last several years. Minority farmers and employees at USDA have filed discrimination litigation, and the increase provided in this account would go a long way toward addressing some of those civil right issues.

I would like that entered in the discussion because I think the gentlewoman from North Carolina had a very pertinent point.

Mr. HASTINGS of Florida. Mr. Chairman, I move to strike the requisite number of words.

My colleague is not on the floor at this time, the maker of the motion, the gentleman from Oklahoma (Mr. COBURN), but I was rising to appeal to him to allow at least some of us who have some expertise in this area to speak to him, as I would if he were discussing medical issues. I really do believe that he knows a lot more about than I do.

Now he has dipped over into the legal arena, and I think I know a little bit more about that than he does.

With that in mind, I would offer to him that the status quo would create backlogs, and the creating of backlogs is what this particular 12 percent is intended to try to get rid of. When backlogs occur in any structural system, and it does not matter whether it is not it is employment discrimination or if it is in the criminal arena or if it is in the civil arena, it impacts the whole process.

It is not just one thing that is impacted, it is not just this particular office of departmental administration, it is all of what they do in trying to clear up the number of cases that they have.

Over the years, there have been a number of legitimate complaints that have been brought and those people have to sit and wait. Let me see if I can get my colleague to understand the analogy.

In South Florida, at one time we had to try nothing but drug cases. By trying drug cases, we forced civil litigants to have to seek redress elsewhere, and people who needed remedies in the Federal court system were unable to get them because we were burying ourselves with one side of the system, which was mandated that we do.
We need to be very, very careful in expecting in every instance that people can do more with less. What they are asking for is a 17 percent increase, $6.6 million, and 11 staff dollars for 931 in the Office of Outreach which, incidentally, also deals with the National Commission on Small Farms, yet another area totally unrelated to anything having to do with civil rights per se, but an initiative that is important so that small farmers have a chance to survive in this system.

I do not know what it will take in order for us to understand this particular dynamic, but I will take it up with the maker of the motion so as he understands that it is not just going to, if his motion were to pass, impact this one arena, it would impact the whole.

And in this particular instance they have ought to increase administration efficiently and effectively with what they have, and there is no need to expect if they leave them in the status quo that they are going to be able to do more.

Mr. GUTKNECHT. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, my colleagues, right over there is a dictionary; and if we look up the word "efficient," here is what it says: "ability to accomplish a job with a minimum expenditure of time and effort."

My colleagues, there is a lot of discussion about this amendment, but I think we ought to get back to what it really does, and in fact we use a little bit of analogy. Let us take a major corporation, and my colleagues fill in the blank. They can say AT&T. They can say Chrysler. They can say IBM, whatever. And let us say this company thinks that they have had a problem with efficiency.

Now, this company has 107,000 employees. They have another 80,000 contract employees. In fact, it works out to about one employee or contract employee for every 10 customers, which is a mythical corporation. And we are the board of directors and we are sitting around saying what can we do to make this thing a little more efficient.

Now, how many of my colleagues think they would raise their hands and say, you know what we ought to do? We ought to increase administration by 12 percent. That is crazy. That would not happen at Chrysler. That would not happen at AT&T. That would not happen at IBM. But, my colleagues, that is what is happening in this bill.

We have one employee or contract employee for every 10 farmers in this USDA.

Now, again, I come back, if we ask most farmers do they think that is an appropriate level, they would say that is ridiculous. And so would most voters. And so before we dismiss this amendment out of hand, this is not an anti-farmer amendment. This is about the board of directors saying we have a terribly inefficient administration right now in the USDA and throwing more money at it is not going to make it more efficient.

Mr. KAPTUR. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in opposition to this amendment. In fact, all, let me say that if the orphans of the amendment want efficiency, then surely the bill that our subcommittee has brought to the floor is efficient.

In fact, the author of the amendment stated in his last comments on the floor that we were in fact within the budget allocation. So we have a very efficient bill, without question.

Now, this particular amendment is one that goes after one particular function at the U.S. Department of Agriculture, which is the 80,000 contract employees. They have another 80,000 contract employees. In fact, it works out to about one employee or contract employee for every 10 customers. This is a mythical corporation, and in fact they perhaps should not have been ignored for decades and in fact perhaps for a century and a half.

And so I would say to those who offer this amendment, I would hope they would withdraw this. I think to try to put forward a filibuster, for example, for the Office of Outreach, and again our bill is within the budget allocation, means that they will continue the historic discrimination that has characterized so much of the behavior of our Government and our people in this century and the last.

This is the first time we have had a chance to do what is both efficient and equitable. And I would ask my colleagues and those who are offering this amendment to really seriously consider what they are about to do. I really do not think they want to do this. I think they want to do what is right for America, right for all of its people, and right for the future.

I would encourage my colleagues to vote a strong "no" on this Coburn amendment.

Mr. DICKEY. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I understand the concern of the gentleman from Oklahoma (Mr. COBURN). I think it is a concern for this bill as well as the other appropriations bills, and I join in that concern. And I know he had a concern about the supplemental, and I did too, about it running wild, about us missing the point as far as what "emergency" was and what "emergency" was not.

But I serve on this subcommittee, this Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies of the Committee on Appropriations, and I know. I grabbed my calculator. I have to give, so I stand here sort of split and yet not split on this particular issue.

To bring this within the caps, I think the chairman from New Mexico (Mr. SKEEN) did a wonderful job. It has been easy over the years when we could just borrow money and say, well, the heck with it. We do not care about this or that. But we gave our word and we kept our word.

Now, what the problem is, is that I think that the position of the gentleman from Oklahoma (Mr. COBURN) is lessened somewhat about this accusation of filibuster. And I hope he can hear me and he will come and talk about it. But I know that we have had this before in past years. I would like for the gentleman from Oklahoma (Mr. COBURN), if he can, to come and defend that position of filibustering because I think it was his words, from what I understand, and it is going to undermine those elements, that we need to push down the expenses that we have in the appropriations bill.

Mr. SANFORD. Mr. Chairman, will the gentleman yield?

Mr. DICKEY. Mr. Chairman, I yield to the gentleman from South Carolina.

Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I want to go to this notion that the gentleman from Oklahoma (Mr. COBURN) is somehow filibustering. Because just on the back of the envelope, if we look at what our appropriation is, if my colleagues look at the amount of money that this particular amendment would save, it would save $3,900,000. Now, if we take people earning average income, we would take 1,974 taxpayers earning a whole year's worth of income to pay the taxes on $3,900,000.

So what we are really talking about is, again, 1,900 people paying taxes for a year. That seems to me to be anything but a filibuster but something very real, because what we are talking about are people's lives and where are they sending money.

Mr. DICKEY. Mr. Chairman, reclaiming my time, one thing I want to add is...
CONGRESSIONAL RECORD—HOUSE 10855

May 25, 1999

Mr. DICKEY. Mr. Chairman, will the gentleman yield?

Mr. DICKEY. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, I would disagree. I think that the American people benefit from seeing the debates on how we spend money; and the closer that we put the magnifying glass to it, the better we are as a country.

And I understand the pride of ownership of the Committee on Appropriations. It is very hard to bring these bills up. And I am going to remind my colleagues again, when we talked about the rule, I said when we talked on the general debate hour that this was a good bill. I want to try to make it better, and not to be in a position where we are going to spend the first dollar of Social Security surplus.

Mr. DICKEY. Mr. Chairman, reclaiming my time, here is another question: Are we going to do this on each one of the appropriation bills? If we are, we are going to lessen the effect of the conservative concerns of my colleagues about spending outside the caps.

Mr. COBURN. Mr. Chairman, if the gentleman would continue to yield, I have no intentions to do it on anything other than what I think will not lead us to the commitment that we have made to the American people.

The minority offered a budget and it had some good things in there, but the one common thing it had is they were going to take some of the money and make sure we did not spend any money of Social Security on anything except Social Security and Medicare.

The Blue Dogs had a budget. Same thing. The Republicans had a budget that ultimately passed the House. Everybody agrees, with the exception of two Members of this House who voted for President Clinton’s budget which said I am going to spend 38 percent of Social Security money. At least he admitted it.

We either need to say we do not have the courage to trim the spending in the Federal Government and that we are going to take 38 percent, the seniors’ money, or we need to say, the President was wrong, we do have the courage to spend less money up here.

I want to make the point again. The 302(b) allocations that my colleagues all have met, they have met the requirements of the budget numbers and the number that was given to them. I am not objecting to that. What I am objecting to is, number one, the 302(b)’s this year are not an adequate representation of what is going to happen. And there is not a person in this body that does not know that. And that is a sham to the American public to say this is in one 302(b) but the rest of them are not.

The CHAIRMAN. The time of the gentleman from Arkansas (Mr. DICKEY) has expired.

Mr. COBURN. Mr. Chairman, I ask unanimous consent that the gentleman from Arkansas be given 3 additional minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

Mr. YOUNG of Florida. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

Mr. MANZULLO. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. Mr. Chairman, I yield to the gentleman from Oklahoma (Mr. COBURN).

Mr. COBURN. Mr. Chairman, I thank the gentleman for yielding.

To take the 302(b) allocations that we all know on the four big bills are not an accurate reflection of what is going to happen, and their claim to use that as a designation for why we should not trim this bill additionally is not fair to the American people.

I have no fight to pick with the appropriators on this committee, and I have no desire to harm farmers. I say that they can do it better. What we hear in this body all the time is it cannot be done, we cannot do it. Well, I come from a group of people that says we can do it. We can do better. We cannot spend all the money allocated to us. We can get efficiencies without adding money to the Department of Agriculture. We can demand innovation, insight, and new ideas. We can promote efficiency.

The VA Regional Office in Muskogee, Oklahoma, is a great example of that where they cut their costs like crazy and they did not spend any additional money. So if they can do it, why cannot the Department of Agriculture do it? Why cannot the administration and the Department of Agriculture do it? They can do it, but they are never going to do it until we make them do it. We have to demand that they do it.

Mr. DICKEY, Mr. Chairman, will the gentleman yield?

Mr. MANZULLO. I yield to the gentleman from Arkansas.

Mr. DICKEY. Mr. Chairman, I ask the gentleman from Oklahoma, are we doing the right thing by doing it by filibustering? That is my question.

It seems to me that he has got a better argument than to use something that is indirect.

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. MANZULLO. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, “filibuster” is not my word. My word is let us bring it back to the freeze level of where we were last year and ask for efficiency, and I am willing to do that. And I have said here on this floor, as soon as we are back at the level in terms of cuts, I am through.

I am looking for dollars. The term to “filibuster,” it is a filibuster in terms of taking time, but that is not my intention. My intention is to get us back down to where we were last year. My colleagues will see me walk right out of here as soon as we have done it. But to resist calls for efficiency, to resist debate on issues is not fair to the American public.

And to impugn my motivations. I want to tell my colleagues something. My motivations are pure. I think about my grandkids and I think about the grandkids of all of those patients that I take care of. Every baby, three babies this weekend, I spank the bottom of. I delivered three new babies into this world. Every one of them owes $21,000, and it is growing at $500 a year, what they owe.

The CHAIRMAN. The time of the gentleman from Oklahoma has expired.

Mr. DICKEY. Mr. Chairman, I ask unanimous consent that the gentleman (Mr. COBURN) be given 3 additional minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Arkansas?

Mr. YOUNG of Florida. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

Mr. MANZULLO. Mr. Chairman, I yield to the gentleman from Arkansas.

Mr. COBURN. Mr. Chairman, I ask unanimous consent that we take 3 additional minutes.

The CHAIRMAN. Objection is heard.

Mr. MANZULLO. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. Mr. Chairman, I yield to the gentleman.

Mr. DICKEY. Mr. Chairman, reclaiming my time, here is another question: Are we going to do this on each one of the appropriation bills? If we are, we are going to lessen the effect of the conservative concerns of my colleague about spending outside the caps.

Mr. COBURN. Mr. Chairman, if the gentleman would continue to yield, I have no intentions to do it on anything other than what I think will not lead us to the commitment that we have made to the American people.

The minority offered a budget and it had some good things in there, but the one common thing it had is they were going to take some of the money and make sure we did not spend any money of Social Security on anything except Social Security and Medicare.

The Blue Dogs had a budget. Same thing. The Republicans had a budget that ultimately passed the House. Everybody agrees, with the exception of two Members of this House who voted for President Clinton’s budget which said I am going to spend 38 percent of Social Security money. At least he admitted it.

We either need to say we do not have the courage to trim the spending in the Federal Government and that we are going to take 38 percent, the seniors’ money, or we need to say, the President was wrong, we do have the courage to spend less money up here.

I want to make the point again. The 302(b) allocations that my colleagues all have met, they have met the requirements of the budget numbers and the number that was given to them. I am not objecting to that. What I am objecting to is, number one, the 302(b)’s this year are not an adequate representation of what is going to happen. And there is not a person in this body that does not know that. And that is a sham to the American public to say this is in one 302(b) but the rest of them are not.

The CHAIRMAN. The time of the gentleman from Arkansas (Mr. DICKEY) has expired.

Mr. COBURN. Mr. Chairman, I ask unanimous consent that the gentleman from Arkansas be given 3 additional minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

Mr. YOUNG of Florida. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

Mr. MANZULLO. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. Mr. Chairman, I yield to the gentleman from Oklahoma (Mr. COBURN).

Mr. COBURN. Mr. Chairman, I thank the gentleman for yielding.

To take the 302(b) allocations that we all know on the four big bills are not an accurate reflection of what is going to happen, and their claim to use that as a designation for why we should not trim this bill additionally is not fair to the American people.

I have no fight to pick with the appropriators on this committee, and I have no desire to harm farmers. I say that they can do it better. What we hear in this body all the time is it cannot be done, we cannot do it. Well, I come from a group of people that says we can do it. We can do better. We cannot spend all the money allocated to us. We can get efficiencies without adding money to the Department of Agriculture. We can demand innovation, insight, and new ideas. We can promote efficiency.

The VA Regional Office in Muskogee, Oklahoma, is a great example of that where they cut their costs like crazy and they did not spend any additional money. So if they can do it, why cannot the Department of Agriculture do it? Why cannot the administration and the Department of Agriculture do it? They can do it, but they are never going to do it until we make them do it. We have to demand that they do it.

Mr. DICKEY, Mr. Chairman, will the gentleman yield?

Mr. MANZULLO. I yield to the gentleman from Arkansas.

Mr. DICKEY. Mr. Chairman, I ask the gentleman from Oklahoma, are we doing the right thing by doing it by filibustering? That is my question.

It seems to me that he has got a better argument than to use something that is indirect.

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. MANZULLO. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, “filibuster” is not my word. My word is let us bring it back to the freeze level of where we were last year and ask for efficiency, and I am willing to do that. And I have said here on this floor, as soon as we are back at the level in terms of cuts, I am through.

I am looking for dollars. The term to “filibuster,” it is a filibuster in terms of taking time, but that is not my intention. My intention is to get us back down to where we were last year. My colleagues will see me walk right out of here as soon as we have done it. But to resist calls for efficiency, to resist debate on issues is not fair to the American public.

And to impugn my motivations. I want to tell my colleagues something. My motivations are pure. I think about my grandkids and I think about the grandkids of all of those patients that I take care of. Every baby, three babies this weekend, I spank the bottom of. I delivered three new babies into this world. Every one of them owes $21,000, and it is growing at $500 a year, what they owe.
criticism, but that does not deny me the right to raise the issue on this floor and to say that I do not have the right to raise the issue on this floor because I was not before his committee. Simply because of the way the House operates, as the gentleman well knows, you cannot be at all those at one time and fulfill the rest of your duties. The point is, do you agree or do you not agree that we should trim some of the administrative overhead out of this budget? If you do not agree, then, fine, that is what our debate is all about. We are in the Committee of the Whole. That is what this is. That is why we are doing it in the Committee.

Mr. FARR of California. If the gentleman will yield further, there is a process here, and I think what is disturbing the House is that we try to honor the appropriations process that we are bringing 114, as you have stated, amendments to the floor is a process that we use very often, if ever, and certainly I have been here a short while and I have never seen it used before.

Mr. HOSTETTLER. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, discussion has taken place with regard to the motives and the application of the process. I would just like to remind the Members and talk very briefly about an incident that happened on the floor just a couple of hours ago.

That was, I opposed the rule for the consideration of this bill because the bill spends more money than it did last year. The discretionary amount is more than what we passed out of this House last year.

I was asked why I would oppose an open rule, and I think that was a good question. I think that was a good question because the Committee on Rules, I believe, relinquishes a great deal of power whenever they decide to give an open rule, and it was a good question. The reason was not because we had the freedom of an open rule, but merely because the rule allowed for the deliberation on this floor of a bill that spent more money last year, the very first bill in the appropriations process that we deal with is going to spend more money than we spent on this bill before.

And so the reason that the gentleman is offering so many amendments is not for the sake of a filibuster, but for the simple fact that we have an open rule.

I was led to believe that an open rule would allow for free debate. Now we hear that the debate should in fact be reduced and that it be cut off by the gentleman from Oklahoma. I think in fact if we are going to have an open rule and a gentleman will go to the hardship of having many of these amendments preprinted in the RECORD and offering them himself, we should at least recognize him in the HOUSE. Secondly, with regard to hurting America’s farmers, I do not know, maybe southwest Indiana farmers are different from other farmers, but whenever I ask farmers in southwest Indiana what they would like to see coming from the Federal Government, the first thing they always tell me is tax relief. I tell them we can cut taxes, but if we continue to increase spending across the board, even in the Agriculture Department, somebody is going to have to pay for that.

And so when I say we can either give you tax relief or we can take more of your tax dollars to allow the various bureaucracies to spend that money in order to help you, they realize in fact that what is going to come, is lastingly not the best source of their help.

Secondly, they ask for regulatory relief. If individuals really want to help farmers, they will indeed support regulatory relief, and for a little bit of common sense. We maintain that would save 50 dollars.

The point is, do you agree or do you disagree with the numbers that have been given to the Appropriations Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies. That was given as a leadership decision. I happen to have supported a budget that protected Social Security, that paid off $86 billion more debt over the next 5 years than the budget we are talking about, provided a reasonable tax cut and improved the funding of five priority areas, one of which was agriculture of which I am prepared to say we are $450 million under what we need to be spending for American agriculture.

Why do I say that? Because I am proud of our American agricultural system, from our farmers on up and down. We have the most abundant food supply in this Nation, we have the best quality of food, we have the safest food supply to our consumers of any country in the world, and we do it at the lowest cost, including all of this, quote, “wasteful spending” we are talking about today.

Now, do I make this argument in saying that we cannot do better? Obviously we could do better. But we have ways of doing it better. It is called the House Committee on Agriculture and it is called the House Appropriations Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies that spend the hours looking at these details and making those decisions. I put my trust in them, on the first part because I am one of them and I do not wish with the gentleman who chooses to say that we have not done our jobs properly.

Let me read this letter:

The American Farm Bureau Federation is aware of a long list of amendments to be offered to H.R. 1096. In addition to the letter sent this morning, we are deeply concerned about these amendments and the approach being taken against general agriculture programs.

Specifically, we are opposed to amendments that would prohibit funding to promote the sale or export of tobacco, decrease spending for the Agriculture Research Program and effectively eliminate the Boll Weevil Eradication Program. We oppose any cut in
Mr. SANFORD. Mr. Chairman, I just want to ask the gentleman one simple question.

I mentioned that there is nothing wrong with going over this line by line, dollar by dollar, and that is not bad.

Would the gentleman move now to abolish the committee system of the United States House of Representatives?

Why are we wasting our time with 13 committees?

They hold hearings, and they have all these experts coming together, and let me finish.

Mr. SANFORD. No. Reclaiming my time, of all people, the gentleman from Vermont has been consistently independent in the way he votes. To suggest that he takes anything lock-step from the committee as it comes, I must say the gentleman from Oklahoma is doing. So I think I would have a number of objections to that letter.

I know we would disagree on this, but I have problems with any system wherein you have got the Fanjul family out of Palm Beach who are worth over $400 million, who get $60 million a year as a result of a program that is part of this bill. That is not even being challenged by what the gentleman from Oklahoma is doing. So I think I would have a number of objections to that letter.

But I want to go back to the original content of what he is getting at, which is, line by line, looking at where the money is being spent and simply asking, is the taxpayer getting a good return on his investment. I would say no, because going back to, I guess the comments of the gentleman from Minnesota (Mr. Gutknecht), if you had any corporation out there in America that had 100,000 employees, had 80,000 contract employees and said, how can we make it better, their solution would not be to increase administration by 12 percent. Yet that is what this does.

All this amendment would do would be to knock out that increase. That is worth doing, it seems to me, for a couple of reasons. If you took out this $3.9 million that we are talking about at $20,000 a pop, that would buy tractors for 260 farmers. I would rather put the money into tractors.

It would pay taxes for 2,600 farmers if you figured the taxes on a small farm were $1,500. It would take 1,900 farmers earning an average income to pay the money for this increase; or turned around a different way, it would take one farmer 1,900 years to pay for the increase that this amendment gets at.

<1945
It is a sensible amendment. It gets at where is the money going.

Most farmers I talk to, talk to somebody down at the stockyard or talk to somebody at FTX, these are reason-able, commonsense folks, and the idea of plussing up the administration, and in fact I saw one thing here in the administra-tion portion, and I would have a question for the staff on this, talking about aircraft management.

I mean how many aircraft does the Department of Agriculture own?

Mr. SANDERS. Mr. Chairman, will the gentleman yield?

Mr. SANFORD. I yield to the gentleman from Vermont.
the amendment offered by the gentleman from Oklahoma (Mr. Coburn) will be postponed.

The Clerk read as follows:

OFFICE OF THE ASSISTANT SECRETARY FOR CONGRESSIONAL RELATIONS
(INCLUDING TRANSFERS OF FUNDS)

For necessary salaries and expenses of the Office of the Assistant Secretary for Congressional Relations to carry out the programs funded by this Act, including programs involving intergovernmental affairs and liaison within the executive branch, $3,668,000: Provided, That no other funds appropriated to the Department by this Act shall be available to the Department for support of activities of congressional relations: Provided further, That not less than $2,241,000 shall be transferred to agencies funded by this Act to maintain personnel at the agency level.

OFFICE OF COMMUNICATIONS

For necessary expenses to carry on services relating to the coordination of programs involving public affairs, for the dissemination of information, and the coordination of information, work, and programs authorized by Congress in the Department, $8,138,000, including employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), of which not to exceed $10,000 shall be available for employment under 5 U.S.C. 3109, and not to exceed $2,000,000 may be used for farmers' bulletins.

OFFICE OF THE INSPECTOR GENERAL
(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Office of the Inspector General, including employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225), and the Inspector General Act of 1978, $65,128,000, including such sums as may be necessary for contracting and other arrangements with public agencies and private persons pursuant to section 6(a)(9) of the Inspector General Act of 1978, including not to exceed $25,000 for certain confidential operational expenses, including the payment of informants, to be expended in accordance with the Inspector General pursuant to Public Law 97-452 and section 1337 of Public Law 97-98.

OFFICE OF THE GENERAL COUNSEL

For necessary expenses of the Office of the General Counsel, $25,194,000.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION AND ECONOMICS

For necessary salaries and expenses of the Office of the Under Secretary for Research, Education and Economics to administer the laws enacted by the Congress for the Economic Research Service, the National Agricultural Statistics Service, the Agricultural Research Service, and the Cooperative State Research, Education, and Extension Service, $940,000.

AMENDMENT OFFERED BY MR. COBURN

Mr. Coburn. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

AMENDMENT OFFERED BY MR. COBURN

Mr. Coburn. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

AMENDMENT OFFERED BY MR. COBURN

Mr. Coburn. Mr. Chairman, this again is an area that has a 75 percent increase, and the first thing I would like to do with my time, if I may, is inquire of the committee the thinking behind this increase of 75 percent in this budget. I happened to have an understanding of it, and actually I would, if the gentleman from Texas knows the reason for that, I would even respond if he could give us the answer for that.

The fact is, this is a significant increase for just the Office of the Under Secretary. We are not talking about research, we are talking about the Office of the Under Secretary for Research, by increasing it by $4,509,000, and I just would like an explanation.

Mr. Coburn. It was $14,000, and it is going to be $540,000, and I believe that people would like to know why we are increasing that spending, and we ought to have a good explanation of why we are spending. If there is a great need and we should not be trimming this money out, then I will be happy to defer to the chairman, but to me it seems this 75 percent increase, from $400,000 to $540,000, is a significant increase.

Mr. Coburn. The chairman is on the amendment offered by the gentleman from Oklahoma (Mr. Coburn).

The question was taken; and the Chairman announced that the noes appeared to have it.

Mr. Coburn. Mr. Chairman, I demand a record vote.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Oklahoma (Mr. Coburn).

The question was taken; and the Chairman announced that the noes appeared to have it.

Mr. Coburn. Mr. Chairman, I demand a record vote.

The CHAIRMAN. Pursuant to House Resolution 185, further proceedings on the amendment offered by the gentleman from Oklahoma (Mr. Coburn) will be postponed.

The Clerk will read.

The Clerk read as follows:

ECONOMIC RESEARCH SERVICE

For necessary expenses of the Economic Research Service in conducting economic research and analysis, as authorized by the Agriculture Act of 1949 (7 U.S.C. 1621–1627) and other laws, $70,266,000: Provided, That this appropriation shall be available for employment pursuant to the second sentence of section 706(a) of the Organic Act of 1944 (7 U.S.C. 2225).

AMENDMENT OFFERED BY MR. COBURN

Mr. Coburn. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

AMENDMENT OFFERED BY MR. COBURN

Mr. Coburn. Mr. Chairman, this is an increase of $4,509,000 on a budget. Last year was at $65,000. What we are seeing is a 6.8 percent increase, and the question that I would ask again is if we are going to increase this $4,509,000, and ultimately when it is all said and done the money is going to come out of the Social Security surplus, plus that we ought to have a great explanation.

Mr. Coburn. If my colleagues read the committee print on this, and I will take the time to read it, there is not a valid explanation of what we are doing here, and again I would query the members of the committee. Maybe we are supposed to be doing this just to give us a good answer, and I will try to withdraw this amendment. But the fact is that we have silence on the issue.

Let me read what the committee print says.

"For the Economic Research Service the committee provides an appropriation of $70 million, an increase of $4,509,000 above 1999 and an increase of $14 million above the budget we have. The committee has provided $17,495,000, an increase of 300 above the budget request for studies and evaluations of work under the Food and Nutrition Service."

Now I am for our elderly food nutrition programs. I am for our WIC programs, but I want to know how we are going to spend this money, and I want to know why we are spending it in the direction and the increase, if, in fact, the committee expects ERS to consult and work with the staff of the Food and Nutrition Service and other agencies to assure that all the studies and evaluations are meeting the needs of the department. Is there an area where we are not supplying that need with the $60 million that we had last year? Is there money that could go to our farmers that are out there starving? Could some of this $4,509,000 go directly to farmers?

As my colleagues know, we say we want to help farmers, and some gentlemen have said today that some of our amendments have hurt farmers. Well, if they have, help us take this and change this and move it to the farmers instead of spending it on bureaucrats.

Again, we are going to have a process by which at the end of the appropriation day this $4,509,000, whether we want to hear it or not, is going to be taken from the Social Security surplus. Most people in this room know this is aapparition of what is going to happen, regardless of whether we have another omni-terrible bill or not. The money on increased spending is going to be taken from the Social Security surplus, and I believe that it is the honorable thing for us to do to stand up and admit that, and then say I believe we ought to take from the Social Security surplus an additional $4,509,000 to run this branch of the Department of Agriculture.

Mr. SKEEN. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I oppose this amendment, and we have been hearing talk of efficiency, and this is one area where the committee believes that we have been very efficient.

The funding in this account is made up of two parts. One is the basic economic research program for USDA, and the other is in the studies and evaluations funding for the feeding programs in this bill. By consolidating the studies and evaluations funding in this account, we have found that the program can be managed more efficiently.
Ms. KAPTUR. The Food and Nutrition Service will no longer be doing its own evaluations; that is correct.

Mr. COBURN. But that is different than the amount of money that they were spending on it being reduced from their budget and transferred to the ERS.

Ms. KAPTUR. The Food and Nutrition Service will no longer perform their own evaluative research; that is correct.

Mr. COBURN. But they will still have the money that they were using to do that, and those structures will be in place.

Ms. KAPTUR. They will not be doing research in this evaluative research. We changed it because we thought that perhaps they had too much of a vested interest in programs the way they were, and the monitoring might not have been as objective as it should have been.

This may not work under ERS. We are not sure it will work, but we think it is a way of being more objective.

Mr. COBURN. Mr. Chairman, I ask unanimous consent to withdraw this amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The CHAIRMAN. The amendment of the gentleman from Oklahoma (Mr. COBURN) is withdrawn.

The Clerk will read the amendment as follows:

NATIONAL AGRICULTURAL STATISTICS SERVICE

For necessary expenses of the National Agricultural Statistics Service in conducting statistical reporting and service work, including crop and livestock estimates, statistical coordination and improvements, marketing surveys, and the Census of Agriculture, as authorized by 7 U.S.C. 1621-1627, Public Law 89-611 and other laws, $100,569,000, of which up to $16,490,000 shall be available until expended for the Census of Agriculture. Provided, That this appropriation shall be available pursuant to section 706(a) of the Organic Act of 1941 (7 U.S.C. 2225), and not to exceed $40,000 shall be available for employment under 5 U.S.C. 3109.

AGRICULTURAL RESEARCH SERVICE

For necessary expenses to enable the Agricultural Research Service to perform agricultural research and demonstration relating to production, utilization, marketing, and distribution (not otherwise provided for); home economics or nutrition and consumer use including the acquisition, preservation, and dissemination of agricultural information; and for acquisition of lands by donation, exchange, or purchase at a nominal cost not to exceed $100, and for land exchanges where the lands exchanged shall be of equal value or shall be equalized by a payment of money to the grantor which shall not exceed 25 percent of the total value of the land, $20,000,000 of which may be received from any State, other political subdivision, organization, or individual for the purpose of establishing or operating any research facility or research project of the Agricultural Research Service, as authorized by law.

AMENDMENT OFFERED BY MR. SANDERS

Mr. SANDERS. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SANDERS: Page 10, line 14 (relating to the Agricultural Research Service), insert after the dollar amount following the following: "(reduced by $13,000,000)."

Page 50, line 9 (relating to the commodity assistance program), insert after the dollar amount following the following: "(increased by $10,000,000)."

Mr. SANDERS. Mr. Chairman, I want to assure my colleagues that I do not have 150 amendments, not even 50, only 2, and I believe the majority is going to accept one later. So this is it for me, and I would appreciate support for this amendment.

This amendment is cosponsored by the gentleman from Ohio (Mr. Ney), the gentlewoman from Georgia (Ms. McKinney), the gentlewoman from California (Ms. Lee), and the gentleman from Ohio (Mr. Hall). This is a very similar amendment to the one that the gentleman from New Jersey (Mr. LoBiondo) and I introduced last year, which won in the House by a strong vote. Unfortunately, the conference committee did not support the effort that we had made in the House. The purpose of this amendment is to increase funding for a nutrition program of extreme importance to many low-income senior citizens, small children and pregnant women, and that...
program is the Commodity Supplemental Food Program.

The President requested $155 million for the Commodity Assistance Program, which contains the Commodity Supplemental Food Program. However, the program was funded at $14 million less than the President's request. We are attempting now to add $10 million to the program, which would still be $4 million less than what the President had requested.

Mr. Chairman, it is no secret that malnutrition and hunger among senior citizens is a serious and tragic problem in the United States. Throughout our country, food shelters see more and more use, and hospital administrators tell us that thousands of senior citizens who enter hospitals in this country are suffering from malnutrition. We know that as few as 7 of the 10 percent of the nation's elderly have long waiting lists and that large numbers of seniors throughout this country are simply not getting the nutrition that they need.

The Commodity Supplemental Food Program is currently operating in 20 States. Other States are on the waiting list and still more are in the process of applying for the program. We have been told by the USDA that unless additional funds are given to this program, there simply cannot be an expansion, which would be a real tragedy not only for seniors, but for pregnant women and young children who also utilize this important program.

Mr. Chairman, the amendment is offset by cutting $13 million from the Agricultural Research Service. At a time of very, very tight and unreasonable, in my opinion, budget caps, this particular program received a $50 million increase this year, which brings the program up to just over $630 million.

I am a member of the Agricultural Research Service. I think they do a lot of good. I come from an agricultural State, and they do important work. But it seems to me that we have to put our priorities in a little bit better place.

At a time of significant and growing hunger in the United States, it is frankly more important to be funding nutrition programs than adding $50 million to ag research in such programs. We, as food banks, have an enormous need for additional food. Just the last two weekends ago the letter carriers across our country did a food drive and tried to replenish the supplies in these food banks, because this is not close to Christmas and they have been drawn down, and with all of the changes that have been made in welfare reform, for example, we do have lots of people who are hungry in America tonight, most of them women and children.

So I would say that there is great merit in the gentleman's proposal. In addition to that, in this bill, we were unable to fund so many worthy programs that would bring food to people, including the Senior Nutrition Program where there had been a proposal to provide a small subsidy so that seniors would not have to pay so much for lunches when they go into some of their lunch programs. We were not able to include that in this bill.

Finally, I will support this bill and in any subsequent bills any effort that would lift commodities off this market in order to have gold for our farmers. This bill itself, in the body of this bill, we were not able to provide the kind of surplus commodity assistance that we would have hoped for. We have done some, but we just have not done enough.

I would say to the author of the amendment, it is difficult for me to take money from the Agricultural Research Service. I would hope that as we move forward Congress might be able to find other ways to fund this very worthy proposal. I will vote for the gentleman's amendment when the time comes for all of the reasons that I have listed, but I would hope that we might be able to find other offsets, because I think that the future of American agriculture rests in research, and our bounty is directly related to the investments we make in so many crops.

Mr. SANDERS. Mr. Chairman, will the gentlewoman yield?

Ms. KAPTUR. I yield to the gentleman from Vermont.

Mr. SANDERS. Mr. Chairman, I hope the gentleman from New Mexico (Mr. SKEEN) understands, I am not against ag research. I know that the gentleman has had a difficult time trying to fit in all of the needs. I do not disagree with the gentleman, and I do not disagree with the gentlewoman from Ohio (Ms. KAPTUR). I just think that when we have senior citizens going into the hospitals suffering from malnutrition, that is an issue that cannot be ignored.

I would raise that to a higher level and ask for the support of the body in the passage of this amendment.

Mr. KUCINICH. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in support of the Sanders amendment. I think that a $10 million increase for the Commodity Supplemental Food Program is warranted.

I represent a district in Cleveland, Ohio, and in my district there are many seniors who depend on programs like this for their sustenance.

There are those of us who have a particular experience. It includes the words, "Give us this day our daily bread." This is a very humble and simple request that people have. In America, where there are so many people hungry, where there are so many people who need help, why would it matter to give a mere $10 million to help our senior citizens who have improved nutrition, to reduce the waiting lists for Meals on Wheels, to make it possible for those millions of Americans who rely on emergency food assistance to be able to get some help.

We in this country have a moral obligation to provide for those who are without. It is a work of mercy to feed
the hungry, and we should with regard to the great power of this government, with the billions of dollars that are spent in the world, not just in this country. It is question-able, that we have an opportunity here to take $10 million and feed some people, give them an opportunity to be better fed so that they do not end up in the hospital from malnutrition.

I thank the gentleman from Vermont (Mr. SANDERS) has come up with a won-derful amendment, and while I have the greatest respect for the committee which has created this bill, I have to say that the bill can be improved and it can be improved with the help of the gentleman's amendment.

Mr. Chairman, I would be happy to yield to the gentleman from Vermont, Mr. SANDERS, so that he can have a few more minutes to explain the impor-tance of this amendment.

Mr. SANDERS. Mr. Chairman, I thank the gentleman from Ohio for his strong support. I think the essence of the problem that we have as serious legislators is that we are confronting a budget which in many ways prevents us from doing the things that we have to do, and that is not the chairman's fault and it is not the ranking mem-ber's fault. But I think when we talk about priorities in the United States, in this great country, in this wealthy country, how can we not address the reality that there are senior citizens who are going to the hospital and the administrators and doctors there are telling us they are malnourished? We are wasting huge sums of money spend-ing dollars on hospital care that could have been prevented if we would pro-vide adequate nutrition to our senior citizens.

The same thing is true with low-in-come pregnant women who are giving birth, who are babies.

So again, I would not argue about ag reasearch. That is important. But I think what we are asking for is taking $13 million out of an increase of $50 million to use $10 million for the ex-pansion of this commodities program.

Mr. KUCINICH. Mr. Chairman, the Master said, "Feed my sheep." This is our challenge.

Mr. NEY. Mr. Chairman, I move to strike the requisite number of words.

Mr. SANDERS. Mr. Chairman, I want to stand to-night in support of this amendment. This year the President requested $155 million for the Commodity Assistance Program which contains the Com-mmodity Supplemental Food Program. However, this program was funded at $14 million less than the President's re-quest.

The Commodity Supplemental Food Program is currently operating in 20 States. Also, four States are on the waiting list, as are others, such as the State of Ohio; and we believe that all people should be able to participate in this. Too many seniors are suffering already because they live on such tiny incomes they cannot afford to buy food or else they are forced to choose be-tween life-saving prescription drugs they need and groceries.

The Commodity Supplemental Food Program is often a life-saving source of food for elderly constituents. The source of the money this is coming from is a program that is receiving ample support, and I come from a State that has agriculture, and I do support obviously where the money is going. But the amount of money that is going to go into this pro-gram for the Sanders amendment is not going to hurt the existing appro-priation, it is going to do an awful lot, really, to help our seniors. So I think it is a good amendment.

It is a senior program that makes good fiscal sense. Studies have shown that malnourished seniors stay in the hospital nearly twice as long as well-nourished seniors, costing thousands of dollars more per stay. So I think it is cost-effective.

It is a good amendment, it should re-ceive good bipartisan support. I think it is the right thing to do, and I urge the support of my colleagues for this amendment.

Mr. WALSH. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise, regrettably, in opposition to the gentleman's amend-ment, because I think he is attempting to do something that is proper and good, but I would point out to the gent-leman that all of these funds are very competitive with each other. We have done our level best to fully fund the nutrition programs which make up the majority of this bill.

As the gentleman knows, and we have worked together on funding the Emergency Food Assistance Program, it is a very important program. We have raised the funding for that pro-gram, the programs, food stamps and WIC, and we have done our level best to fund those as close to full funding as we can.

The Commodity Supplemental Food Program, the program the gentleman wants to add an additional $10 million to, is funded above the President's budget request level.

So we have gone out of our way to try to find the discretionary funds to meet the needs of these programs. We just do not have enough money to meet everybody's priorities.

Mr. SANDERS. Mr. Chairman, will the gentleman yield?

Mr. WALSH. I yield to the gentleman from Vermont.

Mr. SANDERS. Mr. Chairman, the gentleman from New York (Mr. WALSH) and I have worked together on a num-ber of issues, and I appreciate where he is coming from, and we all understand the difficulty of coming up with the money.

However, I think the gentleman is not accurate in saying that we have funded the program higher than the President's request. I believe it is $14 million below the President's request, to the best of my knowledge.

Mr. WALSH. Mr. Chairman, reclaim-ing my time, I will check to verify which one of us is accurate here, but the fact of the matter is, these non-mandatory funds are heavily in de-mand by all of these programs.

To take the funds from the agri-culture research budget and put them into nutrition programs may be penny wise and pound foolish, because the agri-culture research, which again, is underfunded, we cannot do enough for the research that needs to be done, but that research, Mr. Chairman, has in-creased by multiples, geometric pro-gression increases in our yields of crops. If we neglect our agriculture research on things like the green revolution va-rieties of wheat and corn and rice that are feeding the entire world, the disease resistance that we are breeding into our crops, the new varieties of fruits and vegetables that our agri-culture research institutions produce for the consumption not only of our citizens but of the whole world, if we continue to neglect our research, we are not going to have nearly enough food to feed ourselves and the rest of the world.

I understand the gentleman's desires here. Perhaps at the end of the process, if there is a way to provide additional funds, we will try to do that. But for the sake of this amendment, I do urge that it be rejected and that we keep the funds in agriculture research where they belong.

Mr. HALL of Ohio. Mr. Chairman, I rise today in support of Mr. SANDERS' amendment, which will add needed resources for food banks. As you know, growing numbers of Americans are turning up at our nation's food banks—and too many of them are senior citi-zens.

The food banks from around the United States that I've surveyed during the past two years report many reasons for the increase—from the deep cuts in food stamp funding, to low-wage jobs, to an economy that is leaving too many of our fellow citizens behind. Since last year, 22 percent more people are turning up in their lines, the food banks say—and many of them are going home empty-handed.

The prospect of hunger in our rich nation is troubling no matter who it affects. Children who are poor often and rightly grab our atten-tion, because hunger in the growing years scars them physically and mentally. Working people who are doing all they can to feed their families also disturb us. And hungry senior citi-zens, who have given so much for their entire lives to their families and our nation, are noth-ing short of an outrage.

I saw senior citizens at Ohio food banks last year, many of them too weak to stand and wait in long lines; all of them suffering the in-dignity of being unable to feed themselves;
and a surprising number of them there because our healthy system has left them no choice other than to pay for their medicine, or their food.

The Commodity Supplemental Food Program operates in only 18 states (plus one reservation). The WIC program we know so well grew out of this program, which now focuses on poor Americans aged 60 and older. It was created by the 1990 Omnibus Appropriations Act.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Vermont (Mr. SANDERS).

The amendment was agreed to.

AMENDMENT OFFERED BY MR. SANFORD

The CHAIRMAN. The pending business is the demand for a recorded vote on the amendment offered by the gentleman from South Carolina (Mr. SANFORD) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will designate the amendment.

The Clerk designated the amendment.

RECORDED VOTE

The CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

Mr. SANFORD. If I call No. 155, I was inadvertently detained and the amendment was rejected. The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. SANFORD

The CHAIRMAN. The pending business is the demand for a recorded vote on the amendment offered by the gentleman from Vermont (Mr. SANDERS) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will designate the amendment.

The Clerk designated the amendment.

RECORDED VOTE

The CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 143, noes 274, not voting 16, as follows:

(Roll No. 155)

AYES—293

Messrs. LIPIŃSKI, GUTIERREZ, REYNOLDS, TIERNEY, RYAN of Kansas, TRAFICANT, and BERCERA and Mrs. JOHNSON of Connecticut changed their vote from “aye” to “no.”

So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated for:
Mr. BRADY of Texas. Mr. Chairman, on roll-call No. 155, I was inadvertently detained and missed the vote. Had I been present, I would have voted “yes”.

AMENDMENT OFFERED BY MR. COHRN

The CHAIRMAN. The pending business is the demand for a recorded vote on the amendment offered by the gentleman from Oklahoma (Mr. COHRN) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will designate the amendment.

The Clerk designated the amendment.

RECORDED VOTE

The CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 129, noes 289, not voting 15, as follows:

which was referred to the House Calendar and ordered to be printed.

**SPECIAL ORDERS**

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 6, 1999, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

**PERSONAL EXPLANATION**

Mr. BERRY. Mr. Speaker, unfortunately, I missed rollcall votes number 147 and 148 on Monday, May 24, 1999, because I was attending a funeral of a dear friend.

Had I been present, I would have voted “yea” on both of these votes.

**REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 1905, LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2000**

Mr. DREIER (during special order of Mr. GREEN of Wisconsin), from the Committee on Rules, submitted a privileged report (Rept. No. 106–165) on the resolution (H. Res. 190) providing for the consideration of the bill (H.R. 1905) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2000, and for other purposes, which was referred to the House Calendar and ordered to be printed.

**DAIRY PRICING**

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 6, 1999, the gentleman from Wisconsin (Mr. GREEN) is recognized for 60 minutes as the designee of the majority leader.

Mr. GREEN of Wisconsin. Mr. Speaker, I am here tonight to talk about an important issue of fairness, fairness to farmers, fairness to consumers, and fairness to taxpayers. I know that “fairness” is an overused term. But quite frankly, Mr. Speaker, it has never been more important or more true than it is on the issue that I want to talk about tonight, and that is the issue of dairy pricing.

For the last six decades, we have had a Government mandated system of dairy price supports. It began in the late 1930s because dairy producers had a difficult time getting their goods to consumers in a timely way. They had a difficult time because of technology in meeting consumption needs. We did not, quite frankly, have effective infrastructure or enough technology to transport our surplus to States that had deficit in production.

Those days are over, however. We have the refrigeration, we have the infrastructure to transport dairy products from States like Wisconsin anywhere in America overnight. As a result, the outdated dairy price system, the Federal order system, no longer makes sense.

Wisconsin dairy farmers and Wisconsin communities are being ravaged, they are being destroyed by the current Federal order system. In the last 8 years, Wisconsin has lost over 10,000 dairy farms. Wisconsin has lost 2,000 dairy farms in each of the last 2 years. We have lost more dairy farms in the last 8 years than most States ever have.

Now, I am here tonight to speak to my colleagues, quite frankly, not on behalf of dairy farmers. Dairy farmers are not looking for our sympathy. They are a tough bunch. This is a tough life-style. They know that. They have been fighting uphill all of their lives. They are not looking for sympathy. They are looking for fairness.

More importantly, quite frankly, I would think to the Members of this body is the fact that this unfair system not only hurts our dairy farmers, my family farmers in Wisconsin, of which there are 22,000 remaining, but it is also unfair to consumers.

Mr. Speaker, it is important to realize, it is important to know that the outdated Federal order system artificially inflates the price of milk. And as more farmers go out of business, and as I just said, we are losing farmers each and every year, the more farmers who go out of business, the higher that price will be.

The Citizens Against Government Waste, Americans for Tax Reform, a number of taxpayer groups, groups that do not necessarily have a natural stake in the fight over a dairy policy, they have reached an interesting conclusion. After looking at the Federal order system, they have concluded that the Federal order system that we have had in this country for six decades is little more than a tax on milk. It is a milk tax that consumers are paying all across this land. It is a milk tax to the tune of about $1 billion each and every year.

Now, the reason I come forward today is because of a battle that I believe is going to be on this floor tomorrow and, quite frankly and unfortunately, probably on this floor for weeks and months to come.

Some weeks ago, Secretary Dan Glickman proposed a final order on the Federal order system for dairies. And in that Federal order, Secretary Glickman proposed a very minor change to the Federal order system, a very minor, modest change. And it is true, it will benefit Wisconsin farmers, dairy farmers, but again in a very modest way.

Now, it may be ironic to some of you that I come here today to support a proposal from a Democrat administration. But I come forward because this

**REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 1905, EDUCATION LAND GRANT ACT**

Mr. SESSIONS, from the Committee on Rules, submitted a privileged report (Rept. No. 106–164) on the resolution (H. Res. 189) providing for consideration of the bill (H.R. 150) to amend the Act popularly known as the Recreation and Conservation Grants Act to authorize disposal of certain public lands or national forest lands to local education agencies for use for elementary or secondary schools, including public charter schools, and for other purposes.
issue of the Federal order system of the milk tax is not about Republican versus Democrat, it is not about con-
servatism versus liberal. It is about doing the right thing. And I come here tonight to argue that we need to sup-
port Secretary Glickman’s plan. Mod-
est as it is, it is a step in the right di-
rection.

Now, the Federal order system for dairy is one of the most complicated systems that you can possibly imagine. It is full of acronyms, it is full of termi-
нологies that the average person can-
not understand, let alone a Member of Congress who may serve on the Com-
mittee on Agriculture or who comes from a dairy State. If you tried to ex-
plain to your constituents that this system that we have in place creates a price on milk based not upon produc-
tivity, but on how far away you are, but not upon efficiency, but instead based merely on the distance that a producer is from the city of Eau Claire, Wis-
consin, your constituents would not be-

lieve you. They would think that you were making it up. The sad reality is that that is the truth.

We have a dairy system in this Na-
tion for which government mandates prices for fluid milk again based merely upon geography. That is wrong. It is unfair to farmers, it is unfair to con-
sumers, it inflates the price of milk.

unfair to farmers, it is unfair to con-
sumers, it inflates the price of milk

in the United States.

I want to point out these colors if I
could. I would like to thank Mr. Gutknecht. We would like to equal-
ize it much more than it is today.

Mr. Gutknecht, I know that he shares many of the con-
cerns that I bring forward tonight.

Mr. Speaker, I yield to the gentleman from Wisconsin (Mr. Gutknecht). I know that he shares many of the con-
cerns that I bring forward tonight.

Mr. Gutknecht, I would like to thank the gentleman for yielding and especially thank him for requesting time to ask some questions before I turn the floor over to the next speaker. I suspect there are an awful lot of Amer-
icans who may tune us in and certainly most of our colleagues who will be watching in their offices or are still here on the House floor who really do not understand this whole milk mar-
keting order system. Frankly, having studied it now for about 5 years, I hon-
estly cannot say that I completely un-
derstand it, either.

But I would correct the gentleman on one fact, and that is, he said it is priced purely on how far away you are from Eau Claire, Wisconsin. That is par-
tially right. It is the only commodity I think in the United States, maybe in the world, that is priced not only based on where it comes from, it is also priced on what it will go into. Milk that goes into cheese is of lower value than milk that goes into a bottling plant and is sold for fluid milk for drinking.

There are actually four classes of milk; class one is milk that goes into dry milk, class one is milk that goes into dry milk, class four is dry milk, class two is cheese, and class four is dry powdered milk. So we have four class-
es, and it is all priced based upon where it comes from. And the farther you are from Eau Claire, Wisconsin, the more the dairy farmer gets for their milk. The closer you are to Eau Claire, Wis-
consin, the less you get.

And then if you are at an area that

has cheese plants and most of the milk goes into cheese, you get a lower price still.

In my opinion, it is the most indefen-
sible thing that the Federal Govern-
ment ever created. It may have made sense back in 1934. In my opinion, it makes no economic sense today.

Let me just show in this chart that I have next to me, and it sort of illus-

trates the differentials we are talking about. These are the producer class one blended price benefits per hundred pounds of milk. Milk to dairy farmers, and we have got a former dairy farmer sitting here in the second row and he can talk a little bit about it, maybe he does not even understand how his cream checks were calculated.

But if you lived, for example, in the northeastern part of the United States, your differential came to about $1.40. If you lived in the Appalachian region, that average price was $2.34. If you lived down in Florida, that worked out to $3.32. But if you live in the area that the gentleman from Wisconsin and myself come from, in the upper Midwest, you can see that over here it is only 27
cents. That is what we are talking about, ultimately.

We are not asking for special privi-
lege, for special benefits; we are not even asking to receive equal pay for equal milk; but we would like to equal-
ize it much more than it is today.

The second chart that I have I think illustrates it more geographically and what we are talking about. The coun-
try is divided up into all of these milk marketing order regions. For example, these are the average blended prices for current Federal milk marketing order regions. In the Pacific Northwest, that average price last month I believe was $14.75. If you are in the upper Midwest, that is, basically Wisconsin, Min-
nesota, parts of the Dakotas, you are talking $13.57.

But if you, on the other hand, if you lived in eastern Colorado and produced milk, your average blended price last month was $15.16. And if you lived down here in Florida, that price is $16.82. If you look at this, at one time it may have made some sense because the area around Eau Claire, Wisconsin, was con-
sidered the dairy capital of the United States and in many respects the dairy capital of the world, and we are still privileged that in this region we produce almost 19 percent of the milk in the United States.

But as I say, it may have made some sense back in 1934; that was before the days of refrigeration, that was before the days of the kind of transportation, the interstate highway system that we have, but today we can move milk 1,200

miles in a couple of hours. We have the technology to do that. It is a simple idea that we need this regional balkani-

zation of the United States as it relates to dairy production is just crazy.

Again, back to the point that my col-
league from Wisconsin made about the basic unfairness of this system. How can you say to dairy farmers in Glenville, Min-
nesota, that you are only entitled to

$13.57 for your milk, but the same qual-
ity, the exact same quality of milk in the Southeast is worth $16.13. That is a difference of over $2. When you are talking about hundreds of thousands of pounds of milk per month, you are starting to talk real differences.

I see the chairman of the Committee on Rules is approaching the micro-
phone, for special benefits; we are not asking for com-

plishly reflect some of the changes that would occur under the plan that Secretary Glick-
man came out with. If you look at this, actually Minnesota and Wisconsin lose under the Glickman proposal.

And so we are not asking for com-
pletely equal pay for equal milk, but we are asking to level the playing field. The net practical effect of the Glick-
man plan is, it does eliminate some of the differences. Relative to some of the other areas of the State, if you just go by winners and losers, we lose less than some of the other States, but that is because they already are getting more than we are getting.

So we are prepared to accept what Secretary Glickman has proposed in a spirit of compromise, because at least
in general it moves to a leveling of the way that the milk marketing orders are set up.

Before I yield back to my colleague from Wisconsin, I want to play a little visualization game with some of my colleagues. If you could, just close your eyes and think of all of the products that the pricing is based upon some geographic location. Just think about that. Well, the answer is, there is only one. Only milk.

I think we have got a cartoon from, I believe it is from the St. Paul Pioneer Press. Maybe the gentleman from Wisconsin wants to talk a little bit about it. Maybe it is easier for me to talk about it because I have got it right here.

But could we imagine a system where all computers would be price adjusted according to their geographic location? We could not imagine that, could we? Could we imagine a system where all country music should be price adjusted according to how far it is away from Nashville, Tennessee? Where all oranges should be price adjusted according to their distance from Florida? But we do have a system where all milk is priced based on how far away it is from Eau Claire, Wisconsin.

Now, the question at the bottom is, which of these is actual Federal policy. It is amazing when you stop to think about it. It is the only product where the price is based on some arbitrary geographic location.

Secondly, it is based on what that product is going to go into. In fact, up in northern Minnesota where we produce an awful lot of iron ore, they produce taconite pellets. These taconite pellets, no one could imagine that some Federal bureaucrat would sit up there and invent an iron mine. But well, these taconite pellets are going to go into automobiles so they will be priced at this level, and these taconite pellets are going to go into steel lockers and therefore the price will be something else. That would be a crazy, absurd idea. But the truth of the matter is that is exactly what happens to milk. It is all done by bureaucrats here in Washington, D.C.

Once again, we are here on the floor of the House tonight arguing this case because farmers in the upper Midwest are literally held up in a system that is certainly not perfect, actually in some respects it still punishes dairy farmers in the upper Midwest, but at least it levels the playing field, at least it is fairer for dairy farmers regardless of where they are than the system we have today. I congratulate him for it.

I am willing, in a spirit of bipartisanship, to move forward with the plan that the Secretary came up with.

I will yield back to the gentleman from Wisconsin and maybe we can talk a little more about this cartoon. As I say, it would be a whole lot funnier if it was not true.

Mr. GREEN of Wisconsin. I thank my friend and colleague from Minnesota. I think he has pointed out again just the absurdity of the system and that cartoon does show it.

Think about this. We are entering the year 2000, the next millennium, yet we have a system for the production and consumption and distribution of milk that is based upon economic realities around World War II. Think about how much technology has changed since then.

Beyond that, we are at a time in our history in which Members of this body from both sides of the aisle are emphasizing the need to open up borders, to break down barriers for trade all across this world. Yet here in America, in supposedly the bastion of entrepreneurial capitalism, we have a system that creates barriers, that blocks the flow, creates disincentives for the flow of dairy products across State lines and across regional lines. This is counter to everything that we stand for in America today.

Again, I want to come back and emphasize the point, this system is terrible for the dairy farmers in States like Minnesota and Wisconsin. Again, over the last 8 years, we have lost more dairy farmers than most States ever had.

But beyond that, this is bad for consumers. Under this system, we are driving up the price of milk. We are also encouraging large corporate farms, which are buying up the small family farmer.

If that trend continues, we are going to see dairy production in the hands of only a few, and then we will have a true monopoly on the supply of milk. Then we will see milk prices rise, and then milk will no longer be the cheap and wonderful fluid that it is, available to all today.

This is also, this system is bad for taxpayers. It drives up the cost on programs like the school meal program, it drives up the costs for families on food stamps, reduces the value of food stamps. This system, almost any way to look at it, is absurd, it is un-American, and it is wrong.

Now we are not going to change things overnight, we are not going to change things here tonight, but we do want to make our case to the American people. It is a long uphill battle, but it is certainly no longer and no more uphill than our dairy farmers are facing. And as was stated before, it is a long battle that we have ahead.

I yield my friend from Minnesota (Mr. GUTKNECHT).
from Minnesota (Mr. GUTKNECHT),

Mr. Speaker, if the gentleman will yield, talking about what this really ultimately costs to consumers as well, the estimate that we have of the cost of the compact to New England consumers has been $47 million.

Now some people will say that milk is not a price-sensitive item and that, as my colleagues know, people, consumers will continue to drink about the same amount of milk regardless of the price. I am not sure I really believe that, and in fact I have had some of my friends at the Dairy Association try to tell me that. It seems to me that if you over-price milk in certain regions of the country, the net practical effect is a milk industry, the dairy industry, and what we desperately, and one of the real problems with what I call the Balkanization, and we are having this war going on in the Balkans right now where that term came from, but basically what we have is Balkanization of the United States as it relates to milk.

The real tragedy is the biggest war that is going on right now for the milk industry is this competition with the soft drink industry, and the soft drink industry is out there, and they are marketing and they are competing, and they are vicious on price and they are vicious on advertising, and they are constantly taking a bigger and bigger share of the beverage market, if my colleagues will, and at the very time, it seems to me, that the milk industry ought to be speaking with one voice and ought to be working together and figuring out how they can get a bigger market share relative to the soft drink industry, and that every time they should be working together. Unfortunately, we have all of these regions working against each other, and the net practical effect, of course, is that we continue to lose market share relative to CocaCola, Pepsi Cola, Mountain Dew and all of those other soft drinks that are out there competing particularly for the younger people's market.

And so there are so many things that need to be said positively about the milk industry, the dairy industry, and unfortunately we spend so much of our time here in Washington fighting with each other over this regionalization of the way pricing is structured. It is a terrible mistake, and it has cost the consumers.

Let me also add that, as my colleagues know, a lot of the argument for this system and even for the regional compacts has been that it will save small dairy farmers. Well, over the last 10 years we have lost in the Midwest 10,000 dairy farmers. As my colleagues know, if that is the definition of success, we cannot afford much more of that.

What we really ultimately need to do is work together to find fairness, to find common ground, to work together for good market for our dairy products, and we are not just talking about fluid milk either. I think there is a tremendous market worldwide for cheese products and other dairy products which we can produce so well, so efficiently with great quality here in the United States. But unfortunately, as I say, we spend too much of our time from a national perspective not looking for additional markets for our dairy farmers both here in the United States and around the world, but fighting amongst ourselves over this antiquated, Byzantine, unfair milk marketing order system.

Mr. GUTKNECHT. Mr. Speaker, if the gentleman will yield...
lost 50 percent of all dairy farms lost in the Nation over the last decade were lost in the upper Midwest in States like the gentleman’s and mine.

So, people may be thinking that they are helping out dairy farmers with these higher prices. The sad reality is they are not. They are not. If anything, they are accelerating the decline of the family farm, and that is a great tragedy.

Mr. GUTKNECHT. Mr. Speaker, if the gentleman would yield, if you look at this purple section here, we are losing an average of three dairy farm families every single day, and as my colleagues know, as I said earlier, if the definition, if this program was designed to protect the small dairy farm, I mean by its very definition it has been an abysmal failure. We cannot afford to continue this policy much longer.

And the gentleman is also exactly right that ultimately, unfortunately, unless we have some real reform of this system and at least have some fairness, and we cannot guarantee that some of these smaller dairy farmers are not going out of business. And I will be honest, some of them go out of business just because of quality of life.

I mean there is nobody who works harder than that dairy farmer who gets up every morning at 5 o’clock to milk 60 cows and then has to repeat the process that afternoon. I mean it is one of the hardest lives that anybody can take on, but it should not be made unfair by a Federal milk marketing order system which penalizes someone just because they happen to be from the upper Midwest.

Now in this great debate, and my colleague is going to learn the longer he is here in this business and in this city, when I am done, and I do not even particularly like the term leveling the playing field. Actually I just like to talk about fairness. All we want is fairness. But many people will use the term “leveling the playing field.” The truth of the matter is, in any debate about leveling the playing field there is at least half of the people in that debate who do not want to level the playing field because they have an advantage, and they want to keep the status quo.

But even in some of those areas where they currently have a huge advantage, like the Southeast and down in Florida, even into Texas and over into New Mexico, the further away you get from Eau Claire, Wisconsin, I think even those people have to acknowledge that at the end of the day milk ought to be treated like almost everything else, and it ought to be priced more or less based on what the market will yield.

Now I am fully in favor of putting some kind of a minimum price under the floor of milk. In fact, I have introduced a bill this year to put a floor of at least 10.35.

So this is a bad system, a bad system for dairy producers. It is bad because it causes conflict among the regions when we ought to be working together. It is a bad system because it ultimately costs consumers in some areas more than they should have to spend for the milk that they buy, and it really has done almost nothing to protect the small dairy farmer.

So from every perspective I think this has been an abysmal failure. The time has come, even though, as I said earlier, the plan that Secretary Glickman came up with is certainly not perfect; and frankly, on a net basis, we still lose under this plan, but we lose less than we are losing today.

So those of us in the upper Midwest, from Wisconsin, Minnesota, parts of the Dakotas, we are prepared to accept the Secretary’s plan. We think it should be allowed to go into effect, and frankly, we think we should do what the Congress said 2 years ago and then again repeated last year, and that is to allow the compacts to expire.

They were designed originally only as an experiment which would last a year, and part of that experiment was to find out if they could curb the number of small dairy farms that were going out of business. The evidence is in, the evidence is clear; they have not done that. They have cost consumers more money. They have increased the number of corporate farms on every front; in my opinion, the compacts have been an abysmal failure.

We should allow them to do what the agreement originally was, which is just keep all ends of the bargain, move ahead with the dairy reform that Secretary Glickman has come out with, and end these crazy compacts and do not expand them to other States.

Mr. GREEN of Wisconsin. Mr. Speaker, I thank the gentleman. The gentleman has been fighting this fight a long time longer than I have, and I applaud his efforts.

I guess, just to wrap up and summarize, as the gentleman has pointed out, Secretary Glickman’s order is not perfect; and frankly, between Minnesota and Wisconsin, we would argue it is far from it, and it is a very small, modest step. But at least it is a step in the right direction.

I want to talk a little bit about an innovative program that I visited a couple of weeks ago in Greensboro. It is a program called Reading Together. One of the things that I learned before I came to Congress, and I think we have all known it for a long time, but certainly it was pointed out to me very vividly while I was superintendent of schools, if one can teach a child to read by the time they are in the third grade, one has accomplished a great deal as to what we need to do to help a child learn and do well, and certainly make it in school and in the world.

The Reading Together program is a program that is being piloted in a number of areas; I think it is in Pennsylvania, but also in Greensboro. What that program does is takes mentor students from the upper grades, and in this case they were fifth graders, and on a regular basis they are trained, they work with a trained teacher, and they come down and work with children who have difficulty reading in the earlier grades, normally in the first and second grades; they become not only mentors, but they become tutors.

I watched them for over an hour, and in this process, as those children...
May 25, 1999

CONGRESSIONAL RECORD—HOUSE

10869

worked and worked with young people, they had been trained; and when they finished the reading, they debriefed the young people and worked with them, and then when the second graders went back to their classes, the fifth graders met with their teacher. They then were debriefed, talked about what had happened, how each child had done, made notes.

These are things that very few adults do, and here we have young people doing them. I hear so many times people talk about our young people. They need to get out in the schools and see what is happening, the good things that they are doing, the outstanding jobs our teachers are doing. So I thought this was a good time to talk about these good things, as we are now all across America beginning to close down the schools for the summer.

In my State, some of the schools were out last Friday and others will finish up this Friday, and many Members like myself will be speaking at commencement exercises. I did last week and will again this week.

But I would like to share a program that really is working and making a difference. It is a pilot program that had been started really before I came to Congress, and it is working with some money through the U.S. Department of Education on a direct grant, and it is making a difference. The reading scores have improved dramatically.

Students really work their way out of these classes and into the regular class. So that is what it all is about. We give a child some help, and then they can help themselves.

Mr. Chairman, my friend from Maryland Mr. Cummings has been out in his schools working, and is a great leader and a leader in this Congress. He has some excellent examples, and I would like to yield to him so he may share those with us.

Mr. Cummings. Mr. Speaker, I want to thank the gentleman for yielding and thank him for his leadership in the Congress in reminding all of us how important education is.

Mr. Speaker, I am a great believer in Dr. James Comer. Dr. Comer has a philosophy which I truly believe in, and he talks about the fact that a child can have the genetic ability, but if a child does not have the opportunity, then that child is in trouble, he is going to have problems.

I look at my own life. I started it off in special education. I was told I would never be able to read or write. But because of opportunity, because there were teachers who stood by me and told me what I could be instead of telling me what I could not be, because of my parents being involved, and I know we are going to be talking about parents tonight and how important that is; but I can remember, I say to the gentleman, that when my father, who worked at Davidson Chemical Company, he would come to our PTA meetings. And he used to work in the evenings, and he would let him come to the PTA meetings in his overalls, all greasy, but he would come in and talk to the teachers and participate in the PTA meetings, and he played a significant role in our lives, and the teachers expected him to be there.

But just going back to some of the things that the gentleman was saying a little while earlier, I too have been involved in these commencements and I have seen so many of our children who go through so much difficulty to get through high school and they make it, and it just makes one feel good to see those young people marching down that aisle and to know that they have truly accomplished something.

I think it is important for us as Members of Congress to do what the gentleman said that he does and I do and I am sure many of our other Members do, and that is to celebrate our children’s lives, to celebrate their victories.

I think I was telling the gentleman a little bit earlier about a wonderful contest that we had in our State whereby our Department of Children, Youth and Family, the Governor’s Department of Children, Youth and Family, sponsored a contest for the school that read the most books. Out of our 24 counties, I am very pleased to say, and out of our eight congressional districts, there was a school in my district that read the most books, an elementary school. The school is not located in the most affluent area, but these children made a decision that they were going to work hard; and they read these books and they had a way of making sure that they examined them, and they had to do little reports and whatever.

But I say to the gentleman, I am going to go by there when they have the awards to celebrate with them, to say, hey, you did a good job. I think that those are the kinds of things that are so important.

Again, I emphasize that I want to thank the gentleman, because as we watch the gentleman on this floor and all of the things that he does behind the scenes, Mr. Speaker, this Congress has been very significant in that he has lighted the way we view education; and the gentleman has put it definitely out on the front burner and has made it something that is extremely significant, reminding us that if we support our children and work with them, we can make a difference.

So I am going to yield back to the gentleman, but I will be here for a while, so I look forward to just listening to him.

Mr. Etheridge. Mr. Speaker, the gentleman mentioned the reading program, and I want to share one with him, if I may. It was something that we started maybe 2 years ago, and I shared this with the gentleman earlier. Children who read at least 50 books a year, to me is an amazing story. We gave out an award for the Golden Key Award for parent involvement, for the parents who got involved in the PTA, because I think this is the key to improving the quality of schools and helping the teachers get the parents back in the schools.

So that led to the issue of how do we engage the parents with students and really help the reading, because I believe that is important.

When I came to Congress and was no longer superintendent, I wanted to keep that going. So we started what we call the Congressional Reading Program, for lack of a better word; I could not think of a better one. So what we do is, I have encouraged the students to read. I told them last year, if they would read 100 books, I would personally come and deliver a certificate.

Well, I figured there would be a few books read, and I was wrong. We had some outstanding principal in Anderson Creek. We had a number of others involved. We had probably a half a dozen schools in our pilot, but we only do it for kindergarten, first and second graders. We did not want to go much higher than that, realizing how many it would be. So we kept about six schools involved. They did an outstanding job.

The reason I mention Anderson Creek is because they were one of our first pilots. They did it again last year. They must have had 300, and some children read 100 books, at least 100. Some of them read as many as 200 and 300. The significant thing was that when I went to give those awards a year ago, there were probably 400 parents, grandparents, aunts and uncles that filled up the gym.

So I will go back this year to give the awards again. This year, there were 481 children who read 100 books. Several of the children had read more than 500 books. I mean, we are talking about children reading two and three books a day. They were not very big. We did not tell them how thick the books had to be. But the interesting thing was the number of kindergartners in this school, a lot of them, they received an award.

Well, it is quite obvious to me that kindergartners, very few can read when they start, they do not read. But guess who reads the books? The parents or the grandparents or the aunts or uncles, whoever. But what we do is, we get a significant adult involved with that child. Particularly and then we get the linkage to the school.

So this year I delivered 481 certificates. We had more parents in the gym than it would hold. They were standing outside. They stood in line, a lot of them stood up, because they did not have seats, for almost 2 hours because I stood up for 2 hours and handed out the certificates and shook the hand of every child in that school.
Mr. Speaker, I only tell that story because I think every Member can do something like that.

We must honor and encourage our children. It is not enough to stand on the floor of the House and point out the problems; there are plenty of problems in the world. But I think we need to go and honor and reward the good things that are happening.

I have always believed that if one rewards successes, one will get more. If you let people know you encourage good things, more good things will happen.

I was so pleased because I left there that day, and of course my back was sore from having to bend over to shake hands. When one is 6 feet, 6 inches and shaking hands with little folks, one gets sore, but I felt so good. I was late for the call of the new; I had to deliver more certificates.

We are now going to expand it.

But these are the kinds of things all of us can do. It is not very creative, and the cost of a little certificate is not much, but for some of those children it is very important. We could tell in talking with the children and watching their parents who came up to take the photographs.

The neat thing was the principal, a lady by the name of Alice Cobb, who is just an outstanding leader and a great educator; she was smart enough to understand how important it was to her children.

So she had a video camera going, digital video camera, through all of it so she could photograph every child in the video. Of course, as we know, one can print that out on paper. She sent me a whole stack of stuff she had done.

I know the type of person she was, that she had given every child a photograph when they got their certificate. There are some things that we do not think about sometimes. Those of us who are in public office appreciate being acknowledged. Just think what we will do for a plaque or certificate. So a child will do good things, and we will do for a plaque or certificate.

One of the things that I have to always remind myself of is that children think differently than we do. Those certificates will last those children until they die. They will go with them. That is something that they can look back on and say that I was recognized by one of 435 Members of the House of Representatives. Not a lot of children in our country can say that. That is very significant.

I have given certificates to children, and then parents will let me know, grandmothers let me know, "You know what? We have been given a certificate to my child 7 years ago, and it is still up there on my child's wall. It is up there on that wall to remind my child that she was recognized or he was recognized at an early age."

That leads me to another point. I would like to really have the gentleman's comments on this. I had an opportunity to visit a school not very long ago where a teacher, the principal said "We really want you to see our best teacher." We had gone through several classrooms. My staff and I had gone through several classrooms.

When we got to this last classroom, it was a second grade class, and this was on a Monday. So the principal said, "Well, Ms. Jones, what are you teaching today?" She said, "Well, I am teaching the material that we tested on Friday, this past Friday." So the principal said, "Well, why are you doing that? I mean you already had the test.

The teacher said something that will stick in the DNA of every cell of my brain forever. She said, "Every child in my class should have an A, and not everybody got an A." That really touched me, because I mean she got it. She understood. She wanted all of her children to rise. She did not want some As, but she wanted all of them. She made it clear that "I am going to make sure that all of my children rise so that they can move on to the next level."

I think sometimes what happens is we are so busy trying to categorize our children that maybe, just maybe we do a disservice. One of the things that research has shown over and over again is that a lot of our children, the children that we talk about, the little kindergartners and the first graders, they have so much enthusiasm and they are so anxious to learn. Even when they are in that little 0 to 3, 2 and 3-year-old range, they like little sponges and they are just grabbing information, and they are excited and jumping up at mastery.

But research has shown, as they get a little bit older, get to that fourth and fifth grade, a lot of times that enthusiasm for some reason goes down. I mean the gentleman from North Carolina having been an educator and the head of education for his State, I would just like to have his comments on that.

Mr. ETHERIDGE. Mr. Speaker, I think the gentleman from Maryland is absolutely correct. I have often said that children come to public schools across this country, and certainly in my State, from a number of backgrounds; and they do not all come.

This is where I get frustrated. I used to get frustrated at the State level, and I get frustrated here with some of my colleagues when they want to talk about and start criticizing the schools, because when they start doing that, they are criticizing our children.

My colleagues have to be careful because children can be the professionals that are trying to help them. They come from a variety of backgrounds, from a variety of experiences. But all of them do not come in top dollar for the same level of knowledge and experiences when they come to school. So they come, as the gentleman says, at different levels. That teacher understood it.

What the educators are talking about, when they say "I want them to all have As," they are talking about mastery. And they are talking about mastery, and we are talking about the subject. There is a difference in learning and mastering. Most of us can get a bit of knowledge on the computer. If we get training here, all of us have computers in our office, and we have staffs to have mastery. A lot of us just have cursory understanding so we can turn it on and retrieve a little bit of information. If we want to get a little bit further, we have to call and get help.

What those teachers were saying to the principal and to the gentleman, I want all my children to be able to have mastery on this computer. I want them to be able to use it, not just turn it on and call for help. They want to be able
to go and get all the data that it has in it.

I have often said that not all of us learn at the same speed. We forget that sometimes. It takes longer for others, and they still get it. If one watches students, if one ever notices, there will be some who we say they are slow. The truth is they are not as interested in school as others. They may not bloom until they get to be sophomores or juniors in high school sometimes. Sometimes it happens even after they leave high school.

There are stories, and I am sure there are Members right here on the floor of this House who would say that they went into the military or went somewhere else and came back. Many times, those who came out of the military, they had 2 or 3 years to adjust. All of a sudden, they say, and I did not apply myself when I was in school. I really need to settle down and get focused.’’

“Today with a lot of young people who go into youth service corps or something else, they need help, and, ‘I did not apply myself. I wish somebody would give me a quick kick in the slacks to understand what I needed.’ That is at that level.

But at the early years, where those youngsters are such sponges, and they really do want to learn. They come with bright eyes. If you watch those little ones, they all have bright eyes. They are ready to learn. They are ready to go.

There is something that we are learning more every day about the brain and how much children can learn and their capacities, and we are doing away with a lot of the myths we used to have, because children can learn. Let me repeat that again. All children. It makes no difference what their economic, their ethnic, where they come from, or where they are going, all children can learn. They can learn at very high levels. They may have different learning styles.

Dr. Comer has a great program. We used him a number of times in North Carolina. We had a number of his projects in our State. I think he does just a wonderful job in showing that we need to bring the family nurturing the youngsters. Because if a youngsters comes in in less than a nurturing background or comes to school hungry, and if someone tells us the child does not come, I can assure my colleagues they can go any place, most places in this country where they will see a child come in on Monday morning, and I am going to break the stereotype here because a lot of folks think when we are talking about youngsters, we are talking about children from economically deprived backgrounds. It may be children who just have not had a chance to eat, and it may be upper middle class neighborhoods many times, parents who have the resources. They do not take time to eat, and they grab something when they leave.

Certainly there are those who, after Friday afternoon, who get a regular meal during the week, and Friday is the last really regular warm meal they get until they show back up on Monday morning.

My wife works in the child nutrition program in my home county and has for a number of years. She said one can really tell it when school is out for the summer. A lot of the children are reluctant to leave because they know something is going to be missing. School is a safe haven for them, but it also provides them a real nurturing environment.

We have had some problems recently in some of our schools. But, by and large, they are loving, caring, nurturing places for people who really make a difference.

We had a program, and I will come back to that, that the gentleman raised again in a minute, that we started really in 1992, called Character Education. It was not unique with us. There is nothing really new under the sun. We borrowed a lot of things. We borrowed this from a professor at Vanderbilt and from a number of other folks. But Character Education is about teaching those things that we can all agree on that children ought to know. Rather than add it on as an addition in the classroom, one really teaches it as an integrated part of the curriculum.

So in 1995 we got a grant, wrote a project, got a grant from the U.S. Department of Education, and it started in Wake, Cumberland and Mecklenburg Counties, our three larger counties. A lot of other counties, Nash County, Johnston County, Harnett and others picked it up.

But what we do in that process is the community goes through a meeting with parents, and the community says here is some of the basic issues; in this case, this two, four, six, eight, nine issues that they agreed on in Nash County. I think Wake is about the same. Trustworthiness. Most folks will not disagree with that. Respect, responsibility, caring, fairness, citizenship, perseverance, courage, self-discipline.

They teach this every single day in some part of the curriculum in every single school. My colleagues say, well, why is that important? When we get bogged down in arguments of whether or not we ought to have prayer in school and other issues, that tends to be divisive. This is not divisive. We can agree on these, on all those issues.

If we look at those issues, those really are the kinds of issues that build communities that build respect, that make a school what it ought to be.

In the process of putting this in, what we have found in some of our schools, I visited a school down in Johnston County, in Selma, I went in and talked with a principal. He said, ‘Oh, uh, it is working.’ He said, ‘Our dropouts went down like 48 percent. The number of suspensions were down, in half.’ But he said, ‘The significant thing was children have more respect for one another, for their teachers. And what we saw was our academic scores went up.’

So why would that happen? Very simply. We look at those issues. We are building trustworthiness. Pretty soon we have respect one for another. Children get to talk about those things in the classroom as a part of math, as a part of algebra or science or whatever they are doing.

So all of those things start to fit. Pretty soon, we find out that we are back to some of the things we used to do years ago in our schools, that we sort of bumped out, and now it is catching on in other places.

We will be talking about some of these and having an opportunity, as my colleagues well know, in the weeks to come we will talk about the education budget that will come up. There will be those that say we do not need the Department of Education. We do not need those monies over there.

I am here to tell my colleagues, having been a former superintendent of school at the State level, that was a grant, and every penny of the money goes to local schools, and it made a difference.

Now after we have been a pilot, we are putting it in in all of our schools, and it will now be used across the country, and the Department has become a clearinghouse.

Those are the kind of things that really make a difference. We take those sponges and start feeding them good stuff like this, along with a rich curriculum, and encourage them and reward them, pretty soon we see the pressure that used to build that is not there, but the learning environment goes up. But it takes a long time to make a change.

Some people want to, the gentleman from Maryland (Mr. Cummings) and I understand this, that many times we want to pass legislation and have instant results. Last time I checked, about the only thing that is instant we can get is coffee and tea and those things we buy that are instant.

Children take a while to grow and to really make major changes in education. It really takes 8 to 10 years because it takes a child about 12 to 13 years to get through school.
But that leads to something else also. We have, certainly in the last few weeks, Mr. Etheridge, and I think in our nation, have become very, very upset about what happened in Littleton, Colorado, and what happened in Conyers, Georgia; and I think all of us have been searching for answers, as parents first and last, and school, trying to teach our children how to find that peace and tranquility to our schools so that our children can learn and feel safe in school.

And one of the things that I guess has truly impressed me is a school in my district called Walbrook Senior High School. Walbrook is an inner city school and had had quite a few problems. They brought in a principal, a fellow named Andrey Bundley, Dr. Andrey Bundley; he is all but 38 years old. And while other schools were putting up metal detectors, he was taking them down, and he did it with the very kind of things the gentleman just talked about.

What he said was, look, young people, let us create an environment of safety. This is before all of these events just happened or came about. But he said, I want to create an environment of safety, and he talked about the very things that the gentleman has there. He just said, we are going to be responsible for each other, we are going to respect each other, we are going to trust each other. He said, there is no such thing as a snitch because what we want to do is create an environment where we all feel safe.

So what I have done, taking a note from the gentleman's own notebook, I have created what I call the U-Turn Award. This is an award that we are presenting to schools that have been able to turn their schools around. And we are going to be presenting it on June 1 to Walbrook and to their principal, Dr. Bulley.

When I walk through that school, and the gentleman and I talked about this, a little earlier, a person can walk through a school and in 30 seconds to a minute they can tell a lot about the principal. And when I walk through that school now, all the children are in their classes or they are moving peacefully through the halls. They are very respectful of each other.

Dr. Bundley, on my last visit, just stopped some students in the hall and he said, what kind of school do we have here, and they said we have a school where we respect each other. As Pollyannaish as it may sound, the fact is that is what it should be all about, reminding your young people.

And these kids are a little older now, because we are talking about high school, but reminding them that, as he says, if we all want a safe school, then we are all going to make sure we create an environment of safety and we are all part of that environment. The students have as much say as the principal has to say.

And then what he found was that a lot of these children, while their homes may not have been like that when they first came, once they started these lessons at school, he found them taking them into their homes. Because the parents would say, I am surprised, Johnny always talks about this trustworthiness and this responsibility.

What they discovered was that once they began to do that and they took down the metal detectors, they discovered that by having that type of responsibility, that trustworthiness, that looking out for each other, that is sort of valuing the family, the family of the school, and it felt good. It felt good that they could sit in that classroom.

And the next thing that happened was, other people were recognizing it. And that is one of the most important things about this recognition that the gentleman talked about.

When I was in school, we felt so proud of our school. And one of the reasons we felt so proud was we always had people coming in, the Mayor would come in sometimes, the Congressmen would come in and would recognize what we did. So that creates a certain pride, and that is why when the gentleman talks about the awards that he gives, I think that is so special and so important. Because by coming in there and saying, look, gang, you are really doing a great job and I recognize you; and even tonight, the gentleman mentioning the schools that he has mentioned, and my mentioning the schools that I have mentioned, that word will get out. And I guarantee that somebody will be on a P.A. system tomorrow morning saying, guess what, in the Congress of the United States of America our school was mentioned or our school was not mentioned. But something else will happen, too, and that is that there will be other schools that will say, "Well, the next time I see Congressman Etheridge standing up, I'm hoping that he will talk about what we did."

And something else will happen through this dialogue, and that is, other Members of Congress and other State and local officials will look at this and say, well, hey, maybe we can do some of those and do the same thing.

Because truly we all have to work together to make our schools work. So I take this moment to congratulate Walbrook Senior High School for what they have done. And, again, it is just so interesting that when the gentleman mentioned that list of items just a moment ago, it is the same list, almost identical to the very things that Dr. Bundley at Walbrook talked about.

I yield back to the gentleman.
old computers and give them to one of our public schools. And the amazing thing about this situation is, when we gave them the computer, we did not know how bad off that school was.

The school had 1,600 students and they had 260 kindergartners. And the interesting thing, out of that 260 kindergartener children, they had one computer. One computer. And what the principal and the teachers would do, they were very innovative and they were able to rotate those 260 kids around one computer.

Now, what we did in our district is, just last week, we gave nine computers. And we were able to clean them up and get them to these kindergartners and these first graders. But I wish the gentleman could have seen how excited they were about those computers, put them to use. That is what we said during our press conference was that we were encouraging other businesses and other government agencies, before they just toss those computers away, to look at our schools.

What we have is a total of 1,600 kids and one computer in this day and age, that is not very good. I look at my office, and we do not even hire folks unless they are pretty efficient and effective with regard to using a computer. And I mention that only because I thought about the fact that my office had gotten EPA a few months ago to give some computers, but the school was so ill-equipped and so old that they did not even have the proper electrical circuits to use the computers.

That goes back to what the gentleman was saying, and I yield back to the gentleman.

Mr. ETHERIDGE. That is absolutely true. And that is why when we talk about construction and renovation, and I should have added renovation to it, and someone says, well, the building went to waste fine, they are not even being honest with themselves when they say that, because the truth is, if there is a building and it is not wired for computers, it has to be done.

Now, there is a program that we did in North Carolina, and a lot of States have done it, where the community actually goes in and helps rewire the buildings. And that is all well and good, but those computers need to be networked. They need stations in the classroom. And if we do not allow children that access, it makes no difference where they come from, whether the inner cities or rural areas, that becomes, in my mind, one of the real problems we have in this country.

There might be those who would say to that, we do not really need the computers, we need to teach them to read and write. Well, give students a computer and they will learn to write. People tell me, we do not have computers; we cannot write. Today, with computers and sending e-mail, people are doing more writing today than they have ever done in their lives. There are fewer clerical positions and more managers and things of that sort.

So my point is, that for children, when we put the computers in a kindergarten classroom, the students just start to shine. They absolutely shine. And the point the gentleman made about donating his computers, I gave mine, we gave some of ours out of our office a couple of weeks ago, and I would encourage other Members of Congress to do so. All they have to do is get permission. They can do it when they buy new ones.

There are a lot of them out there. But I would hope they would turn them over pretty quickly so they can get good equipment and not get worn-out equipment. Because the last thing schools need is old, worn-out equipment. They all upgrade them.

I will share this story with the gentleman, because there is a program going on, and actually this Congress helped fund it, though I was not aware of it, but we have a couple of schools that actually take the computers, they get the internal parts from one of the, I am not sure which computer firm they get it from, and they actually rebuild the computers so they are up to date with the new standards and all the speed of the new computers. And they are letting the young people do it in school as part of their vocational classes.

So when that computer comes out of school, not only can they operate a computer, they can help build one. And they have a job as a technician available to them just like that, and they make good money.

So there are things we can do to help if we will be creative and innovative.

And there is no question that if we have just one computer to even 25 children, that is not enough. We tried to help them in North Carolina, put them in there, put 25, and we realized that would not work. Then we upped it to 1 in 25. But really they should have five in a classroom, where there are no more than 25 students. Then when they start working in stations, there is tremendous results. The teacher can work in other areas while that child is working on computers.

The gentleman has been in classrooms, as I have, I am sure; and especially if there are enough computers, they are over there just working at it, going to it, just doing all those things. And the neat thing about a computer is, what the child is doing can be instantly assessed. They get instant feedback, and that is very important.

Mr. CUMMINGS. And they love it. They actually love it.

I assume we are beginning to run out of time here.

Mr. Speaker, how much time do we have remaining?

The SPEAKER pro tempore (Mr. TANCREDO). The gentleman has 18 minutes remaining.

Mr. CUMMINGS. As I was listening to the gentleman, I was thinking about how great this country is and how blessed we are to be here, and I could not help but think about all the things that the gentleman and I have talked about tonight. And the gentleman said something to me earlier that just really touched me.
again, I applaud my colleague for all the wonderful things that he has done and I thank him for sharing this evening and sharing these ideas. Because I am going to take a lot of the ideas that my colleague just talked about now, and I have got to tell him, I might not give him the credit for them when I take them, but I am going to use them. But I want to thank him for his leadership.

Mr. ETHERIDGE. Mr. Speaker, I want to thank the gentleman for his help and for being here this evening.

Let me close and say to my colleagues that this thing of education is no one has a lock on all that needs to be done. We have thousands of teachers across this country who every day go into those classrooms and fight the battle of ignorance day after day. They do it without a great deal of pay, but they deserve forever our gratitude and our tribute.

The children who will soon be following us as doctors and lawyers and teachers and preachers and, as I told a group that graduated the other night, if they slip up, they might become politicians and become congressmen and governors, but the truth is, they are great youngsters and we have an obligation to be better role models. We really do.

Because most of them, most of them, are great youngsters. We hear about those problems. And I think we have an obligation to make sure that we honor those who do well and encourage those who want to do better and challenge those that slip up. And I think if we will do that, they will do better, we will be prouder of them. And that means that we have an obligation here to make sure that we shepherd the resources we have, that we do fund the education budget to the extent that we can and stretch it a little bit when we have to. Because there are a lot of places in this country where my colleague has pointed out, there are not enough computers. We can help.

The school buildings are not as safe as they ought to be, 50- and 60-year-old buildings that are not air-conditioned, that are not wired well. We can do better. In our Nation, in having the boom time we are having today, if we cannot fix them today and provide those resources for a good environment for children to learn, if we tell a child school is important and then he rides by a $40- or $50-million prison to go to a $3-million school, he has already figured out what is important in that community.

We can do something about that. We can make that school an attractive, inviting place to go if it is well-lighted. And lighting is important if we are talking about learning.

So let me thank my colleague for joining me this evening in this special order.

DRUG CRISIS IN AMERICA

The SPEAKER pro tempore (Mr. TANCREDO). Under the Speaker's announced policy of January 6, 1999, the gentleman from Florida (Mr. MICA) is recognized for 60 minutes.

Mr. MICA. Mr. Speaker and my colleagues, again tonight I come to the floor to discuss this serious situation in our Nation relating to the problem of illegal narcotics.

I was pleased in January to assume responsibility to chair the House Subcommittee on Criminal Justice, Drug Policy, and Human Resources, which deals with formulating our national drug policy.

I know that on the front pages of tomorrow's newspapers the stories of China sabotage and I know that illegally obtained, the fund-raising scandals, money that poured into our country through illegal foreign contributions, sabotage of our intelligence, information relating to missile technology are serious problems and will be washed across the headlines tomorrow.

I know what the headlines have been for the past several weeks since Columbine and Atlanta that the Nation's attention, the Congress' attention, has been riveted on the question of school violence. And we all are saddened by these great tragedies.

But let me say tonight, and I have said it before, that for every instance of school violence, if we took all the instances of school violence and death in Paducah, Kentucky; Jonesboro, Arkansas; and Columbine and we added up all of those tragic deaths the last several years, we would still have a small figure of 30 or 40 individuals maybe maximum; and, unfortunately, I hate to use this analogy, but unfortunately, we have a Columbine times three or four every single day in the United States as a result of the use of illegal narcotics. The effects of illegal narcotics on our society are dramatic and costly. They are indeed costly to over 1.8 million Americans, almost 2 million Americans who are behind bars. Estimates are that some 60 to 70 percent of those incarcerated in our prisons and jails and penitentiaries are there because of a drug-related offense.

I might say they are not there for casual use of drugs. They are there because they have committed a crime under the influence of illegal narcotics, they are there because they have committed a felony, robbery, they have been trafficking and selling illegal narcotics, they are the victims of illegal narcotics. But we have nearly 2 million Americans behind bars.

The cost that this Congress will be footing a year in the tremendous cost of social, economic, welfare support, judicial systems, incarceration, all these costs to our society because of the illegal narcotics problem.

Again, the tragedy is just immense. And again, we have the equivalent of a Columbine times three or four every single day. The sad part about all this is that many of these tragic deaths are our young people. The sad part about this is that last year over 14,000 Americans lost their lives to drug-related deaths.

The tragedy is that, in the past 6 years, under the Clinton administration, going on 7, we in fact have lost almost a 100,000 people. That is the number of Americans killed in some of our wars and conflicts. That is the size of certain populations of cities. It is an incredible tragedy.

And somehow tomorrow in the newspapers it will not be publicized along with the China sabotage or the Columbine problem. But what will be publicized is back in the obituaries or on the local page or the State page is a list of human tragedies. And those tragedies will be recounted in heroin overdose deaths. They will be recounted if someone would have died at the hands of someone under the influence of narcotics, someone who is committing a felony, another murder, under the influence of illegal drugs. Those are the sad statistics of this tragedy that we are facing as a Nation.

I come again tonight to talk about this, Mr. Speaker, because I think it is the most important and critical social problem facing our Nation, long ignored, not talked about.

As chair of that subcommittee, human resources is one of our topics, in addition to criminal justice and drug policy. We conducted a hearing this past week of over 6 hours, hearing from various school officials and law enforcement officials, some district attorneys, and other people involved with schools, psychiatrists, psychologists. And they repeatedly told our panel that, in fact, illegal narcotics and drug use are at the root of most of our school violence problems.

Of course, we only see splashed across the front pages of our newspapers and on our television nightly screens one incident with a large number of casualties at one time. This is a slow and tragic death, again, thousands of them across the Nation, and an effect on our young people that is dramatic. Most of the victims of this tragedy are prime youth and are young people.

Let me also talk tonight about the history of the problem. And I try not to be partisan in nature, but I do want to be factual and state that part of the
reason that we have this epidemic particularly of hard narcotics, heroin, cocaine, methamphetamine, in the United States. Other dramatic increases in usage of illegal drugs is really the result of the policy of the Clinton administration.

If you look at the charts, and I have said this before, back in the 1980s we had an explosion of cocaine back in the Reagan administration. But we saw that the policies of President Reagan brought the statistics down, the usage down, of illegal narcotics and the deaths down from hard drugs.

That continued into the Bush administration, with tough policies, tough eradication at the source, tough interdiction at the military, the Coast Guard, every possible resource of the United States to bring down illegal narcotics trafficking and the supply of hard drugs into this country.

Unfortunately the new President in 1993 as soon as policies adopted cuts in the Drug Czar’s office, began the elimination of many of the personnel in the Drug Czar’s office, and then adopted a policy which I think we are still seeing the results of today. That is cuts in the interdiction forces; that is, trying to stop drugs at their source. Cuts and elimination of the source country eradication programs; that is, stopping the growth and production of illegal narcotics at their source. Again the two most cost-effective ways of stopping illegal narcotics. And then we saw the cuts of the military, dramatic cuts of use of the United States military in the interdiction of drugs. This is a Federal responsibility of stopping the flow of illegal drugs before they came to the borders of the United States. And then we also saw dramatic cuts, almost 50 percent cut in some of the Coast Guard budgets that protected some of our areas and coastal regions, particularly around Puerto Rico, where we had a good barrier to stop illegal narcotics coming into the United States through Puerto Rico.

Then, to top off these cuts, the President appointed a Surgeon General and that Surgeon General sent a mixed message. Joycelyn Elders did probably as much damage as any public official in the history of the United States as far as bad health policy. She sent a mixed message that even our young people repeat today, of “Just say no.”

Mr. KINGSTON. Where does the heroin primarily come from? Is this also Colombia? I also wanted to point out to my colleagues that according to the Drug Abuse Warning Network, which is called DAWN, the annual number of heroin-related emergency room admissions and incidents increased from 42,900 in 1989 to 76,000 in 1995, an 80 percent increase. This is from the National Narcotics Intelligence Consumer Committee report in November of 1998. The number of Americans who used heroin in the past month has increased steadily since 1992. The number of Americans who used heroin in the past month increased from 68,000 in 1993, the year this President took office, that was 68,000, to 325,000 in 1997. This is also according to the National Household Survey on Drug Abuse. This is the most recent data we have from 1997. Heroin users are becoming younger, they are becoming more diverse. And because the heroin that we are seeing come into the United States today has much higher purity levels, we are seeing dramatic increases in deaths, particularly among first-time users, particularly among young people who mix heroin with some other substance, alcohol, other drugs and do not know that the purity levels are absolutely deadly. So that is why we are seeing so many young people dropping like flies in Florida and in other areas of the United States.

Mr. KINGSTON. Where does the heroin primarily come from? Is this also Colombia? I also wanted to point out to my colleagues that according to the Drug Abuse Warning Network, which is called DAWN, the annual number of heroin-related emergency room admissions and incidents increased from 42,900 in 1989 to 76,000 in 1995, an 80 percent increase. So that is why we are seeing so many young people dropping like flies in Florida and in other areas of the United States.
dramatically in those countries. In the past 2 years, the Republican majority has helped those two countries in stopping production through eradication policies and alternative crop policies.

Now, would you not know it, but in 1993, again there was almost no coca produced in Colombia. It was almost all produced in Bolivia and Peru. But this administration through its policy managed to make Colombia the largest producer of cocaine in the world. In 1993, there was almost no heroin produced in Colombia. Most of our heroin came in from Asia or through Afghanistahan and Balkan routes. This administration managed through its policy of stopping aid and assistance to Colombia to make Colombia the source of 75 percent of the heroin. It is the largest heroin producing state in the world today. They managed to do all this since 1993.

The way this heroin and cocaine is now coming up, the Colombians have formed cartels with the Mexicans, and then some is coming up through and past Puerto Rico and into the United States through these routes. So the very direct policy, despite letters, despite pleas by the chairman of our Committee on International Relations, by the chairman of the Committee on Government Reform, by numerous Members of Congress to get helicopters, to get ammunition, to get assistance and resources to Colombia to stop this production and trafficking, Colombia now is the major producing area.

I will say that with some of those individuals I mentioned, the gentleman from New York (Mr. GILMAN), the gentleman from Indiana (Mr. BURTON), we participated in a dedicated and contract signing of six helicopters which are on the way to Colombia, these Black Hawk helicopters, to start in an eradication program.

Now, our other problem area, and this is Mexico, and despite this administration giving NAFTA approval, underwriting the finances of Mexico and the Balkan states today. What is disturbing about this pattern is that in spite of all the assistance this Congress and this administration has given to Mexico, Mexico has really slapped the United States in the face.

When both of my colleagues who are on the floor were with me 2 years ago in March, the House of Representatives passed a resolution asking Mexico to help in about five different areas. First of all, we asked Mexico to extradite a major drug trafficker or major drug traffickers, assist us in extraditing those who have been indicted in the United States, and send them to the United States. And what did we get in return? This past week, the New York Times, "Setback for Mexico in 2 Big Drug Cases." Major producer, again we have helped Mexico, and we are a good friend and ally of Mexico. What did they do? Let me read this: "Mexico City, May 19. Efforts to prosecute the Amezcua Contreras brothers whom the American authorities say rank among the world’s largest producers of illegal methamphetamines appear to be collapsing."

They have in fact let these brothers who were part of this methamphetamine operation off the hook, dropped the charges against them. Two of them have been, are still held in detention. One has been set free. Even the Mexicans, who are corrupt from the bottom to the top, and I can prove what I am saying with those remarks, are chagrined that even their judicial system has collapsed, even their judicial process, rather than decertifying, and these decisions go as high as their Supreme Court in Mexico.

So, it is a very sad day when we have not one major Mexican drug dealer extradited to date. We have had one Mexican national, and that is only one, and that was a minor player, but not one major Mexican drug dealer has been extradited to the United States, and again, this is in spite of the assistance that this Congress has given that country, in spite of financial aid, NAFTA trade and other benefits that we have bestowed on Mexico.

And part of the failed policy of this administration. They made a charade out of the certification process, rather than decertifying Mexico and giving them a national interest waiver and holding them under the microscope of our law which says that we must certify whether a country is fully cooperating.

Now I ask you: Is Mexico fully cooperating when they let drug traffickers out? Is Mexico fully cooperating when last year these statistics were provided to us?

Mexican drug seizures were down in 1998. Opium was down, the seizure of opium in Mexico, 56 percent. The seizure of cocaine was down in Mexico by 35 percent. The seizure of vehicles and vessels involved in narcotic trafficking was down.

To top it off, we held a hearing in our subcommittee to find out what was going on in Mexico, and I talked about corruption. This is a March 16 article from the New York Times. This should absolutely frighten every Member of Congress, every member and parliamentarian in any civilized legislative body, to know that one country could be so corrupt from the bottom to the top, and particularly one that is a close ally of the United States.

This article by Tim Golden details how our Customs agents penetrated Mexican military and other Mexican high officials’ offices and discovered that the Mexicans, in this case a general and maybe as high as the Minister of Defense, were attempting to launder $1.15 billion. That is one individual was trying to launder $1.15 billion. That is how high the corruption has grown in this country, and that is how serious this problem is. And think about that. That is over a billion dollars that one individual was trying to launder in that country.

Mr. KINGSTON. If the gentleman will yield, what is the benefit to a country being certified, and why do we decertify it, and why has it become so political, because it does appear by the bipartisan findings of the gentleman’s committee that Mexico is not cooperating in giving us the statistics that we need to fight drugs, but it seems to get politicized once the issue gets to the floor of the House.

Mr. MICA. Well, only in this administration has it so politicized. The law is a simple law. The law was passed in 1986. President Reagan and the Republican Senate passed the law that just tied foreign aid and foreign assistance to cooperation in eradicating drugs and trafficking, stopping trafficking in their drugs.

So the law is simple. It says that if a country is cooperating with the United States to stop illegal narcotics, then they get our finance benefits, they get our trade benefits, they get our foreign aid.

Now Mexico does not get a lot in the way of foreign aid, as some Third World countries may get from the United States, but what it gets is tremendous trade benefits, a trade benefit and now we have an incredible imbalance, that many more cheap Mexican goods are pouring into the United States. We have lost tens of thousands of jobs to Mexico.

We have provided most of the financing and underwriting for Mexico, including a bailout which basically saved their financial system. So in turn we ask for very little. We have asked for cooperation in going after these corrupt officials, we have asked for extradition.

This is what Tom Constantine, our DEA administrator, said on February 24, 1999. He said: In spite of existing United States warrants, government of Mexico indictments and actionable investigative leads provided to Mexico by U.S. enforcement, limited enforcement and that has taken place within the last year.

This is Tom Constantine, and I might say that one of the saddest bits of news that I bring to the floor tonight is that
Tom Constantine, who has been a shining light in this scandal-ridden administration, who has been a tough spokesperson for the War on Drugs, there was no War on Drugs under this administration except for what Tom Constantine has done, Tom Constantine has unfortunately announced that he will be leaving this summer, a tremendous blow to our efforts. He is the only one who has been speaking out, the only one who has repeatedly said that we have to restore the eradication programs, the interdiction programs, the use of the military, the Coast Guard, and that tough law enforcement does work, and he has proved it time and time again before our committee with statistics, with facts. So, it is a great loss to the Congress, it is a great loss to the American people, it is a tremendous loss to the war on drugs, we have restored under this Republican Congress, and his departure is a sad note for this evening.

I wanted to also talk tonight a little bit about some of the other things that Mexico was requested to do and has not done.

First, I mentioned extradition. Then I mentioned going after these corrupt officials in enforcing their laws, and they did not enforce their laws.

Even worse is we had an operation, another Customs operation in Mexico dealing with money laundering, and we found in this operation, which was called Operation Casablanca, that hundreds of millions of dollars were being money laundered, and when we discovered this, we informed the Mexicans. We know the Mexicans knew about this operation.

What did the Mexicans do rather than cooperate with the United States? They ignored our agents who kept trying to get in touch with our Customs officials. So, did we have cooperation? The answer has to be no based on, again, the extradition requests, based on the failure to go after these corrupt officials, based on their coming out tonight to talk about common goals, after our agents and threatening them.

So these are several areas, and I yield to the gentleman.

Mr. HAYWORTH. I thank my friend from Florida, and representing a border State, as I do in Arizona, I share my colleague’s concern. Mr. Speaker, because as my friend from Florida has capably laid out for us this evening, the time has come for a reasonable, sober reassessment of our relationship with our ally, Mexico. That is something I do not say lightly, given the fact that the history of Arizona, indeed the history of this Congress of the United States has been one of cooperation with our neighbor to the south.

But just as being good neighbors entails a reasonable interchange and expression and ability to achieve common goals, as my friend has pointed out, sadly Mexico has devolved into a leading distributor and source of illegal drugs in our society, and because of that we must move on this reassessment.

It is especially vexing to a State like Arizona with a vast border area, with many problems that entail this situation in terms of border security, and let us not forget that it is our constitutional charge to protect the borders of the United States.

As compelling as the facts and figures are, I think both my friends from Florida and Georgia, Mr. Speaker, and indeed everyone in the House, knows there is a very real human equation at work that these threats come to Americans, and while this is not warfare in the traditional sense, still, it is an assault and an attack on the very fiber of our society. We talk about increasing drug usage. We talk about a cavalier attitude expressed, sadly, by this President in an interview with MTV when asked by one of the young people in the audience, if you had it to do all over again, would you inhale, and the President said, yes, I would. To use that cavalier notion toward drug usage sets a pattern that is very difficult to break.

Now our friend tells us of the soon-to-be expected departure of Mr. Constantine from his role and indeed, one who has observed this administration and tried to work on common goals, those of us in the Congress cannot help but note that it is incredibly ironic that many of the capable, effective people in a variety of different posts leave, and those who should bear the responsibility for a number of misadventures and maladroit steps insist on staying on the job in a variety of different areas.

Indeed, I think we are not far afield at all in observing this is a threat to our families, to our citizenry; indeed, this is a threat to our national security. As much as we want to be a good neighbor, and I have participated in the U.S.-Mexico Interparliamentary Conference in the past, the State of Arizona has a very strong relationship with the Mexican State of Sonora first established by a former Governor of Arizona much earlier, now almost 30, maybe in excess of 30 years ago when we look at the panorama, and the march of time, and yet the words of my colleague from Florida are compelling, because they insist that this House and this government reassess the relationship with Mexico, reassess our relation with Mexico to stop the export of narco-terrorism, and that is something we do not say lightly. Because, as my colleague has pointed out, in the past Mexico has been a strong ally of the United States. As my colleagues have also pointed out, Mr. Speaker, the United States has been a good friend to Mexico.

I can recall in the first days when I arrived when the then departing Treasury Secretary, Robert Rubin, came to new Members of the 104th Congress, and made it very clear that they had to step back and essentially bail out the Mexican economy, prop up the currency there, and of course the President found almost what could be called an executive end run to provide those loan guarantees because they were very deeply in debt, very rough going in the Congress of the United States.

So I share my friend’s concern. I salute his determination and his dedication to bringing this issue to light, and more than just bringing the issue to light, Mr. Speaker, my colleague from Florida, in his committee jurisdiction, has also worked, as we did in the 105th Congress on the Drug Task Force, to find credible solutions. For that, I salute him, and from a border State like Arizona, and indeed across the whole phalanx of the Southwestern border of the United States, this becomes a major concern.

Make no mistake, Mr. Speaker. Just as we see threats from around the world, threats as relevant as tomorrow’s headlines in view of bipartisan work in other areas, so too do we confront a threat to our families, to our children and, sadly, directly in our hemisphere, and it is a threat that has gone unabated. It is a threat that has increased, and this House is compelled, I think, by the work of our colleague from Florida, to take a closer look to deal with the security of our homes, the security of our families; indeed, our national security in this very important area of rising drug abuse and a cavalier attitude that has been expressed.

Mr. MICA. Mr. Speaker, I thank the gentleman from Arizona for his leadership and coming out tonight to talk about this topic that is so important to American society.

I just want to continue along the line that I had been talking about, that this is the problems with Mexico. We have not had one major drug dealer extradited. Despite over 200 requests for extradition and requests specifically for over 40 major drug dealers, not one Mexican national has been extradited today as far as a major drug dealer.

In addition to that, we talked about the enforcement, lack of enforcement, the corruption at the highest level, not enforcing the laws that they have on the books. In addition, this Congress asked two years ago that the Mexicans install radar to the south. It is a simple request. If we look at where the drugtraffickers coming in, they are coming from the south. We asked that they install radar to the south, and still no radar to the south that was promised, and again when our President met with President Zedillo in the Tucatan Peninsula earlier this year. To date, still no agreement to go after drug traffickers in these waters, particularly Mexican nationals.
Finally, we had asked for protection of our drug DEA agents, our drug enforcement agents. We have a small number in that country. We had one of our agents just horribly tortured and murdered in the 1980s. We do not want to see that repeated. We want our agents to be able to defend themselves, and still we have been denied that ability for those drug enforcement agents that are working in Mexico.

So Mexico, what do we get? This administration ruined the certification process, made a joke of it and still continues to certify a country as fully cooperating. They are not by any measure.

I might say tonight that we will have before this House in the not-too-distant future several measures that will deal with this that the gentleman from New York (Mr. GILMAN), the chairman of the Committee on Government Reform; the gentleman from Indiana (Mr. BURTON), the chairman of the Committee on International Relations; the gentleman from Indiana (Mr. BURTON), the chairman of the Committee on Government Reform; the gentleman from Florida (Mr. Goss), our chairman of the Select Committee on Intelligence; and the gentleman from Florida (Mr. McCOLLUM), our chairman of the Subcommittee on Criminal Justice of the Committee on the Judiciary, have been working on with the Members of Congress. So there still will be responsibility to the country of Mexico for their involvement in illegal narcotics. This new Congress will hold their feet to the fire.

I just want to talk again about another failed policy, international policy, and it is our responsibility to deal with these issues of where the drugs are coming from. It is tougher as these drugs get to the streets, but if we can stop them at their source, their transiting before they get here, it is much more cost-effective.

One of the stories we will not read on the front page of the paper tomorrow is about the bungled negotiations of this administration in Panama. Now, why is Panama important? Again, I can hold this up and if we look and see Colombia through Panama up to Mexico, that is where these narcotics transit. But Panama has been the center of all of our narcotics operations, all forward surveillance operations for the United States and the Caribbean area, the south and Central America. Of course we see where drugs are coming from, which is primarily from Colombia, one of the major sources that this administration has helped make a major source. And as of May 1, 1999, just a few weeks ago, we were basically kicked out of Panama. We had 15,000 flights from Panama last year, and there were zero as of May 1. This administration bungled the negotiations, and we were told that months ago that negotiations were going forward. When we found out earlier this year that the State Department had dropped the ball, we asked what was going to be done. The administration has scurried the last few months and signed interim agreements with Curacao, Aruba, the Netherlands Antilles and Ecuador for temporary bases there.

We were told that on May 1 we would be ready to go. We were told on May 1 we would have flights continuing.

We were told that, at the very worst, maybe we would have a 50 percent reduction in flights after May 1 in testimony before our Subcommittee. What have we found out that has taken place? From Ecuador, there are zero. There have been zero flights from Ecuador, zero flights. From Aruba and Curacao, just a few limited flights.

So basically this administration bungled the negotiations with Panama. We are turning over 5,600 buildings, $10 billion in assets. Already we have seen, in addition to closing down Howard Air Force Base, another scandal that should be on the front pages of the newspapers, the ports in Panama that we had operated out of had been given through corrupt vendors, and these are the words of our administration officials, through corrupt vendors to foreign countries; and one of those happens to be the Chinese.

In both instances, I believe the Chinese Liberation army owns or has a controlling interest in the stock and ownership of those activities. So we basically turned over the Panama Canal and one of the ports to the Red Chinese Army. The other one, again also through a corrupt vendor and through a Taiwan-Hong Kong front, that second port is gone.

Our major drug operation in that entire region we have been kicked out of as of May 1. The interim agreements are not signed. I believe the agreement in Ecuador is only for a few months. At the last hearing our subcommittee held, we were presented a bill for another $40 plus million for improvements in addition to $73 million which the Drug Czar put in the budget for relocating the forward surveillance operations of the United States.

So basically we are wide open for the hard drugs to come into this United States. Panama is a wide open area. Again we have lost our shirt and basically been kicked out. The $73 million originally requested plus the supplemental, $43 million, which has not been given yet, is only the tip of the iceberg. I am told we may be at a half a billion dollars to replace these operating facilities. We do not have a single permanent agreement in place.

I do not know how an administration can possibly bungle anything in a more inept manner than they have done with the Panama situation and basically closing down all of our forward drug surveillance operations.

These surveillance operations affect the operations, for example, in Peru, where we have gotten the cooperation of the Peruvian government to go in and eradicate narcotics fields, coca fields. Basically, the operation stops because we do not have the operation going forward to identify those locations.

So these are some of the incredible problems that I wanted to detail tonight. Both with the Mexican, with Colombia failed policy, stopping again the equipment from getting into Colombia.

I do not want to leave on a note that we are only here to criticize the administration. I must say that I am very proud of this new majority and what they have done. First of all, under the leadership of the gentleman from Illinois (Mr. HASTERT) who is now the Speaker of the House of Representatives. We have, in several years ago, and chaired the Subcommittee on National Security, International Affairs and Criminal Justice on which I serve. In that capacity, he helped put together the war on drugs.

I want to remember, from the day this President got elected, they dismantled the war on drugs. I have heard people say we do not have a war on drugs. Yes, Mr. Speaker, we have not had a war on drugs. It was dismantled in January of 1993 by this President.

From 1993, this President dismantled the war on drugs. The Congress, which was controlled by the Democrats in the House and the other body, by wide margins, dismantled systematically all of the programs that the Reagan and the Bush administration had put into placement and years and years of work.

Some of that was bipartisan. The gentleman from New York (Mr. RANGEL) and other Members on both sides of the aisle put together effective drug strategies. That was dismantled. There was no war on illegal drugs from 1993 to 1995.

In 1996, the Republicans, who gained control, did damage assessment and started restoring some of the funds for eradication programs for interdiction, restoring the military in this effort, and for also putting back the Coast Guard on watch and active in this antinarcotics effort. So that is some of what we have done.

We owe the leadership of those that I have mentioned, again, including the current Speaker of the House, put back last year almost $1 billion in additional funding to support these efforts. In addition to the programs that I have talked about, enforcement, interdiction, eradication, we also put $195 million in education, which is the first time that anything has been done on that scale, to start educating our young people.

If it has to be a paid message, if it is not a high message setting a role model from the office of the President of the United States, then we will pay
May 25, 1999

CONGRESSIONAL RECORD—HOUSE

10879

for it. That $195 million is matched by donations, at least equal to that sum.

So hopefully we will, again, in restarting some of these efforts, and particularly in education, we can get out the message. The First Lady under President Reagan, Mrs. Reagan, had a simple message: “Just say no.” It was repeated over and over and effective, and our young people heard that message.

But there has been a gap in this administration. No word, a mixed message, a mixed signal, no role model for young people to look up to. We have seen the results, and I described them here tonight. There is an 875 percent increase in heroin usage by our teenagers 12 to 17, dramatic figures that should shock every American and every Member of Congress.

So we have, again, put these programs back together, work. We are overseeing those programs. We will see if they are cost effective, if they are working, and will continue to expand them.

In the next few weeks when we return, we will be conducting a hearing on the question of legalization and decriminalization. I know the gentleman from Arizona (Mr. HAYWORTH) and his State has taken action on this issue. We do not know if they are headed in the right direction or the wrong direction. We do know that tough enforcement works.

The Giuliani in New York City method works. It cuts crime, it cuts murders. It cuts drug deaths. It cuts violence in our streets when one of our largest cities is one of our safest cities.

We see the alternative. Baltimore, which Tom Constantine, our DEA director, who is leaving, pointed out to us just a few years ago, Baltimore had 900,000 people and less than 1,000 heroin addicts. Through a liberal policy and a permissive policy Baltimore now has a population of 600,000. It has dropped 300,000 people. It has 39,000 heroin addicts.

The gentleman from Maryland (Mr. CUMMINGS), who is my former ranking member on the Subcommittee on Civil Service and on this subcommittee has told me privately that the estimate is probably in excess of 50,000 heroin addicts in Baltimore.

Mr. KINGSTON. Mr. Speaker, if the gentleman will yield, is it not true that Baltimore also had a very aggressive, privately funded by very liberal philanthropists, a needle exchange program where addicts could have quick and easily available access to free needles? That was one of the misguided policies that led to such a dramatic increase in the number of addicts.

Mr. MICA. Mr. Speaker, it is true that we had one of the most liberal policies and has now been devasted. When any city in this Nation has 39,000 heroin addicts, we have a major, major problem.

And the crime, the social disruption, the human tragedy that that has caused in a liberal policy is very serious.

So I intend, as chair of the Subcommittee on Criminal Justice, Drug Policy and Human Resources of the Committee on Government Reform to conduct hearings beginning in June, when we return, on this question. We will examine what is going on in Baltimore, what is going on in New York, in other countries.

And we hope to also look at Arizona, which has had a decriminalization program that they have touted. And we will see whether that is successful and whether it is something we should look at as a model; whether it is something that should have the support of this Congress or whether they are heading in the wrong direction, and we should not support those efforts.

So I am pleased tonight to come and provide the House, Mr. Speaker, with an update on some of our activities in our subcommittee, some of my efforts to try to bring to light what I consider is the biggest social problem facing this Nation, I know in my lifetime, I know in a generation, and that is the problem of illegal narcotics.

Again, over 14,000 Americans lost their lives last year, 100,000 have died from illegal narcotics since this President took office.

It is a human tragedy that extends far beyond Columbine or Jonesboro or any of the other tragedies we have seen in this Nation. And as I said, it is repeated day after day in community after community, and we can read it in the obituaries.

I am not here just to complain about the cost to the Federal Government. I am here to complain about the loss in productive lives. Even in this city, which is our Nation’s Capital, of which we should all be proud, each year that I have come here in the last 10 years they have lost between 400 and 500 young people, mostly black African-American males who have been slaughtered on the streets, most in tragedies, some by guns, some by knives, some by other violent death, but almost all related to illegal narcotics trafficking.

And that is the root of some of the problems in the streets of Washington, D.C., and across our country, when we have 60 to 70 percent of those behind bars there because of felonies committed under the influence of illegal narcotics or trafficking in illegal narcotics or committing felonies under the influence of illegal narcotics.

So we have a serious social problem. It is ignored by this administration, it has been ignored by this President, but it is not going to be ignored by this President, but it is not going to be ignored by this Congress or the new majority. And if I only serve the remainder of this term in Congress, every week I will be here talking about this problem and its effects on the American people and what we intend to do as far as positive programs to resolve that. And we will do that. We will succeed.

I yield to the gentleman from Arizona.

Mr. HAYWORTH. I thank my friend from Florida again for his leadership and for bringing this problem to the floor.

And again I would say that this is a question of security, personal security and the security of our families and our communities. Because, as my colleague pointed out very graphically and very tragically, the cost in human lives, with the incredible violence that accompanies illicit drug distribution and use, is ultimately a question of our national security and the security of our borders.

And indeed, on the geopolitical stage, the consequence of those who would or who have traditionally been our friends is now sadly changing, if not to foes, then certainly not aiding us in the traditional sense as allies in the past. And again, from the State of Arizona, from my constituents in the Sixth District, and indeed all across America, because this is a problem that transcends our borders, that transcends State lines, that sadly goes virtually into every community in the United States, it is a question we must address.

This is one of many vexing questions that now have come into our purview and that have gained the prominence and attention necessary, and again the gentleman is to be saluted for offering a clarion call to this House, to this government and, more importantly, to our people in terms of the tough choices that loom ahead for this House and for this Nation.

Mr. MICA. I thank the gentleman and yield finally to the gentleman from Georgia.

Mr. KINGSTON. Let me again say to the gentleman from Florida that we appreciate everything he is doing, the diligence that he is showing in taking this on. I wish him the best and thank him. And I want him to know that he has the support of the gentleman from Arizona (Mr. HAYWORTH) and myself, and we will be following up with the gentleman and working with him.

Mr. MICA. I thank the gentleman.

CHINESE ESPIONAGE

The SPEAKER pro tempore (Mr. TANCREDO). Under the Speaker’s announced policy of January 6, 1999, the gentleman from Georgia (Mr. KINGSTON) is recognized until midnight.

Mr. KINGSTON. Mr. Speaker, I welcome the gentleman from Arizona (Mr. HAYWORTH) and also invite the gentleman from Florida (Mr. MICA) to join us. He is welcome to do so.

Mr. Speaker, the biggest and the scariest espionage in the history of our
country has taken place, and many of
the details were revealed today in the
Cox report. Now, the Cox report was a
bipartisan congressional investigation,
and it raised many pertinent questions.

The Communist Chinese now have in
their possession our top nuclear se-
crets. They have cut in half, certainly
more than half, the years of research
that it took the United States to con-
struct such weapons. They stole this
information. They saved many, many
years and they saved millions, if not
billions, of dollars.

And while this has gone on under a
lot of different administrations and
over a long period of time, it is obvi-
ously clear that the Clinton adminis-
tration, the National Security Adviser
Sandy Berger, knew about this at least
in April of 1996. He briefed the Presi-
dent of the United States in July of
1997, again in November of 1998, and
since January of 1999, the White House
has been sitting on the completed Cox
report.

And yet only in March of this year
did the Administration take steps to fire one
potential suspected spy, Wen Ho Lee. Only
ten. And, actually, he is not arrested at
this point. He is still only on adminis-
trative leave, I think. I do not know
exactly what the term is.

But the two questions here are: How
big is this thing: how much informa-
tion do they have on our nuclear weap-
ons in China? And why did the adminis-
tration react the way it did?

I yield to the gentleman from Ari-
 zona (Mr. HAYWORTH).

Mr. HAYWORTH. I thank my col-
 league from Georgia.

Mr. Speaker, our colleagues from
Florida amply pointed out just one
threat to our national security. Mr. Spea-
kerr would go further in the
realm of Chinese espionage to say to
this House and to the American people
that we face a clear and present dan-
ger.

Mr. Speaker, the report released
today, available on the Internet, and I
am sure many responsible publications
across the United States will carry it
in detail tomorrow, outlines a traum-
atic, devastating loss to this Nation
in terms of national security, and that
is why I describe it as a clear and
present danger.

My colleague from Georgia pointed
out the fact that this bipartisan report
was drafted and really completed in
January of this year, and only now,
some 5, almost 6 months later, has this
report at long last been released to the
American people.

It has been a strength of our society
that once we as a people recognize a
threat, we deal with that threat in a
responsible manner. And yet, Mr. Spea-
kerr, it is difficult to do so at this
juncture in our history because of what
has been called, in common parlance,
"spin": what some used to call in the
past "smoke and mirrors." And while
my colleague pointed out that espion-
age is nothing new, that different
countries observe and conduct surveil-
lanse in this fact, is that the disturbing
information is some-
thing that this House and this Nation
must deal with and should deal with
immediately.

A point that should be addressed is
the inevitable spin echoes from sympa-
thetic pundits and indeed from the spin
machine at the other end of Pennsyl-
vara Avenue that, oh, this has hap-
pened before and previous Presidents
are to blame.

Let me offer this simple analogy: Mr.
Speaker, suppose you contemplate a
vacation and you take reasonable pre-
cautions in your home. You will lock
your doors. You lock your windows. If
you have an alarm device, you activate
it. And yet thieves are aware that you
have left your home. They disable the
alarm system. They gain entrance to
your home. They begin to take
your property. Your belongings.

Now, that is one thing. But contrast
it. If someone is sitting at home in the
easy chair and these same thieves pull
up and the person in the home says,
"Well, come on in. And you might want
to look in this area." And by the way,
let me offer to show you where my wife
keeps her jewelry. And here are our
stocks and bonds. And let me help you
take these and load up your van. And
listen, we will just keep this between
us because it would be very embar-
rassing to me if I allowed this informa-
tion to get out, if I chose to stop this.
So I will take minimum action to stop
what has gone on." That analogy, how-
ever imperfect, essentially sums up
what has transpired.

It is important to note, as my col-
league from Georgia capably points
out, that, sadly, our national security
advisor, with the responsibility that
that title in fact describes, has aided
our national insecurity, compounding
that, the serious actions of the Justice
Department and our current attorney
general.

My colleague from Georgia men-
tioned Wen Ho Lee, the suspected spy
at one of our national labs, still not ar-
rested. And indeed The Justice Depart-
ment asked for wiretap authority when
there was a preponderance of evidence
and more than reasonable suspicion
that it should be checked.

Mr. KINGSTON. Mr. Speaker, re-
claiming my time, actually it was the
FBI that asked the Justice Depart-
ment.

Mr. HAYWORTH. Mr. Speaker, I
thank my colleague for correcting the
record. I misspoke. The FBI asked the
Justice Department for the ability to
wiretap this individual because of the
threat to our national security. And in
all the wiretaps issued following our
constitutional procedures, this par-
ticular wiretap was denied. This special
surveillance was denied.

While that with the curious case of
a Chinese arms merchant suddenly
 gaining clearance for the import into
this country of 100,000 weapons to be
used on the streets of our inner cities
where again the agency in charge
looked the other way. Couple that with
the disturbing reality of the fact that
the communist Chinese through their
business operations controlled by their
so-called People's Liberation Army ac-
tually contributed to the Clinton-Gore
effort in 1996 and, sadly, to the Demo-
cratic National Committee in that
same year, and we have a compelling
devastating case that should cause con-
cern for every American.

Before I yield back to my friend from
Georgia, just so we can clear this up,
that is not a matter of partisanship. It
is a question of patriotism. Because we
confront a clear and present danger, we
must avoid the temptation of engaging
in personalities and instead deal with
policies and change those policies.

I regretfully believe the Administra-
tion has been more interested in spin
and preening and posturing and
offering the clever retort or the by now
familiar rejoinder that "everyone does
it." If everyone does it, why is it a
problem?

Mr. Speaker, I am here to tell my
colleagues again that not everyone
does it, but sadly all too many people
within this administration have not
fulfilled their responsibilities to the
citizens of this country to maintain
vigilance and to take actions against
those who would steal our secrets.

Mr. Speaker, it is worth noting that
the findings are chilling. In the over-
view, just to repeat from the Cox sum-
mary, China has stolen design informa-
tion and China's penetra-
tion of the United States' most ad-
vanced thermnuclear weapons. The
Select Committee on Intelligence, the
bipartisan committee, judges that Chi-
a's next generation of thermonuclear
weapons currently under development
will exploit elements of stolen U.S. de-
sign information and China's penetra-
tion of our national weapons labora-
tories spans at least the past several
decades and almost certainly continues
today.

Mr. KINGSTON. Mr. Speaker, if I can
retain my time, I want to stop at that
point for a minute. Because what is in-
teresting is we hear these incessant de-
defenders of this administration, regard-
less of what the administration does,
they are automatically with them but
forget the facts. They keep saying,
well, it still does not matter because
China has x number of nuclear war-
heads and America has x-number-plus
nuclear warheads.

But they miss the whole point. This
is not about our number of nuclear
warheads versus their numbers. It is
about the technology. And we have
now given China the know-how to
catch up should they choose to. And
CONGRESSIONAL RECORD—HOUSE

May 25, 1999

Mr. KINGSTON. If the gentleman
out and I would challenge
seems to be the reason
the Chinese
produce a neutron bomb, but does not destroy property. The United States never went into production of a neutron bomb, and yet the Chinese are moving full tilt ahead.

They have acquired that technology, they have expounded upon the technological advancements of this society and our constitutional Republic, and our leaders of the time decided not to pursue that particular weapon, but the Chinese have it. And soon they will have small, more accurate thermonuclear warheads.

And make no mistake, Mr. Speaker, those warheads will be targeted at the United States. We say this not to inspire fear but instead, Mr. Speaker, to encourage the American people to check the facts available on the Internet.

Mr. KINGSTON. If the gentleman will go back to the great ad that Ronald Reagan had and a philosophical question that he asked the American people about, ally sometimes and enemy sometimes. The evil empire itself, Russia. In that ad he said, "There is a bear in the woods, but some Americans believe there's not a bear in the woods. Wouldn't it be nice to know that if there was a bear in the woods, that you would be protected from the bear?"

Now we are at the situation with China, we have a lot of people saying, oh, no, China they're our friend, everything's fine.

Well, let us go back, China, I hope, is our friend, but if they are not our friend, would it not be nice to know that in a country of 1.4 billion people, that we, with 260 million, are at least protected against aggression on their part? Would it not be nice to know that should they choose to become an aggressive adversary, that we are protected? Of course it would be nice to know that. Yet, thanks to this espionage, we are not.

The gentleman has pointed out, it has gone on a lot longer than the current administration. I hope that any previous administration that had knowledge of it reacted strongly. But we do know for a fact that when this particular spy in this particular scandal first came to light by the National Security Adviser in April 1996, that it was apparently ignored.

We also know, and the gentleman has not pointed this out, that when the Deputy Director of Intelligence, Notra Trulock, at the Department of Energy, 3 years ago said, there's spying going on, we know that he was ignored and he was later demoted from his job. Let us hope that is coincidence, but I would have a hard time believing it.

Mr. HAYWORTH. Fact is stranger than fiction as my colleague from Georgia is pointing out.

But let us say, I want to give the Justice Department pursuit of these individuals the benefit of the doubt and say, okay, out of the two that they turned down, 700 were approved, two were turned down, and one of them had to be the biggest spy in the history of the United States of America. Okay, you did it nobly. Well, then is it just plain old incompetence? How did you miss that one? What was it more that the FBI could have said?

And maybe it is not just the Justice Department's fault. Maybe it is the FBI did not describe the situation well enough to the Justice Department. I worry about what other decisions are being made or have been made along the way.

Mr. HAYWORTH. Mr. Speaker, I would point out and I would challenge my former colleagues in television at the various networks and the 24-hour cable news services to show the American people the videotapes of the communist Chinese business people in the Oval Office with the President of the United States now knowing in the fullness of time that those same communist Chinese business people are making massive amounts of cash to a reelection effort.

There is a disturbing tendency in this country to succumb to the cult of celebrity. And if one has a clever enough rejoiner or simply returns to the school yard taunt that everybody does it and it is unfair to criticize one party or one administration for their actions, to do so is to willingly be blinded to what is staring us in the face.

Mr. Speaker, I made the comment to some of my constituents over the weekend that Washington today is wrapped up in what is an Alan Drury novel come to life. It is so mind bogging, it is so far afield to ever think that an administration would out of incompetence or blissful ignorance or for political advantage allow the transfer of technology, allow espionage from a foreign power to jeopardize the security of the United States of America.

Mr. Speaker, the President of the United States came to this podium in one of his recent State of the Union messages and boasted that no longer were United States cities and citizens targeted by Russia. Well, of course, technically that was true, although the missiles could be reprogrammed in a matter of minutes.

But now we face a situation where the Chinese have the technology, they have made a quantum leap because of the stolen information, because of the aforementioned legacy codes and computer models. Because of their ill-gotten gains in terms of hundreds of supercomputers that can provide the simulations of nuclear explosions, now the Chinese have the same technology that we have.

Indeed in some areas, for example, the neutron bomb, often maligned and lampooned by late night comedians and pundits in this town as the weapon that kills people, but does not destroy property, the United States never went into production of a neutron bomb, and yet the Chinese are moving full tilt ahead.

They have acquired that technology, they have expounded upon the technological advancements of this society and our constitutional Republic, and our leaders of the time decided not to pursue that particular weapon, but the Chinese have it. And soon they will have small, more accurate thermonuclear warheads.

And make no mistake, Mr. Speaker, those warheads will be targeted at the United States. We say this not to inspire fear but instead, Mr. Speaker, to encourage the American people to check the facts available on the Internet.

Mr. KINGSTON. If the gentleman will go back to the great ad that Ronald Reagan had and a philosophical question that he asked the American people about, ally sometimes and enemy sometimes. The evil empire itself, Russia. In that ad he said, "There is a bear in the woods, but some Americans believe there's not a bear in the woods. Wouldn't it be nice to know that if there was a bear in the woods, that you would be protected from the bear?"

Now we are at the situation with China, we have a lot of people saying, oh, no, China they're our friend, everything's fine.

Well, let us go back, China, I hope, is our friend, but if they are not our friend, would it not be nice to know that in a country of 1.4 billion people, that we, with 260 million, are at least protected against aggression on their part? Would it not be nice to know that should they choose to become an aggressive adversary, that we are protected? Of course it would be nice to know that. Yet, thanks to this espionage, we are not.

The gentleman has pointed out, it has gone on a lot longer than the current administration. I hope that any previous administration that had knowledge of it reacted strongly. But we do know for a fact that when this particular spy in this particular scandal first came to light by the National Security Adviser in April 1996, that it was apparently ignored.

We also know, and the gentleman has not pointed this out, that when the Deputy Director of Intelligence, Notra Trulock, at the Department of Energy, 3 years ago said, there's spying going on, we know that he was ignored and he was later demoted from his job. Let us hope that is coincidence, but I would have a hard time believing it.

Mr. HAYWORTH. Fact is stranger than fiction as my colleague from Georgia is pointing out.

But let us say, I want to give the Justice Department pursuit of these individuals the benefit of the doubt and say, okay, out of the two that they turned down, 700 were approved, two were turned down, and one of them had to be the biggest spy in the history of the United States of America. Okay, you did it nobly. Well, then is it just plain old incompetence? How did you miss that one? What was it more that the FBI could have said?

And maybe it is not just the Justice Department's fault. Maybe it is the FBI did not describe the situation well enough to the Justice Department. I worry about what other decisions are being made or have been made along the way.

Mr. HAYWORTH. Mr. Speaker, I would point out and I would challenge my former colleagues in television at the various networks and the 24-hour cable news services to show the American people the videotapes of the communist Chinese business people in the Oval Office with the President of the United States now knowing in the fullness of time that those same communist Chinese business people contributed massive amounts of cash to a reelection effort.

There is a disturbing tendency in this country to succumb to the cult of celebrity. And if one has a clever enough rejoiner or simply returns to the school yard taunt that everybody does it and it is unfair to criticize one party or one administration for their actions, to do so is to willingly be blinded to what is staring us in the face.

Mr. Speaker, I made the comment to some of my constituents over the weekend that Washington today is wrapped up in what is an Alan Drury novel come to life. It is so mind bogging, it is so far afield to ever think that an administration would out of incompetence or blissful ignorance or for political advantage allow the transfer of technology, allow espionage from a foreign power to jeopardize the security of the United States of America.
grow even more cynical with the revelations that have appeared, some that have come out in dribs and drabs with the disclosure of the recent report, despite the fact that there are national security concerns, we do have our own counterintelligence efforts, it appears that in this city, politics is pre-eminent.

Again let me state this. I take no joy in this. It is mind-boggling, it is disturbing, but every American should ask themselves this question: Have our leaders in the administration been good custodians of the Constitution? Have they provided for the common defense; or, in boastful claims of reinventing government, claiming draw-down, a reduction in government employees, eviscerating our military to the tune of a quarter million personnel, put American lives at risk who brought us to this? A question not of personal conduct in terms of relationships but of actions taken that jeopardize and threaten the security of every American. That is the juncture at which we find ourselves now.

No one takes joy in this but the strength of the American people is in understanding once a problem has been confronted through our constitutional processes, through the fact that we must all stand at the bar of public opinion and let the public render a judgment, that we can rectify the problem.

Jefferson spoke of it, that the vitality of this country would eventually overcome those who would follow misguided policies, for whatever reason, and that is the challenge that we confront, not as Democrats or Republicans but as Americans, because nothing less than our national security and our national vitality in the next century is at stake. This is the stark reality that we confront.

That is why all of us who serve in this Chamber, Mr. Speaker, as constitutional officers to provide for the common defense, to provide for our national security, must have answers to these hard questions. And that is why, Mr. Speaker, the Attorney General of the United States should tender her resignation immediately, and those who are elected officials will have the verdict of history decide but that history and history’s judgment will not be a century away, it will be forthcoming and in short order.

Mr. KINGSTON. Let me just say this. I think the gentleman from Arizona is absolutely right, as certainly Jefferson was, about the vitality of the American people and may they use that strength quickly and decisively on this particular scandal. But we have got to protect our Nation and our national security interest.

That is one reason why this Congress is going to move ahead to make recom-

ommendations to get rid of the spies at Los Alamos and anywhere else. But one thing I want to emphasize is that this is a bipartisan effort. That report, the Cox report, passed unanimously from a bipartisan committee. This is not about getting onto the White House. This is about national security. I think that it is very important that we all keep in mind that the Democrats and Republicans on this one are scared to death.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Ms. JACKSON-LEE of Texas (at the request of Mr. GEPhardt) for today on account of official business.

Mr. REYES (at the request of Mr. GEPhardt) for today on account of official business.

Ms. MILLENDER-McDONALD (at the request of Mr. GEPhardt) for today on account of official business.

Mr. McCOLLUM (at the request of Mr. ARNOLD) for today after 8:30 p.m. and May 26 until 3:00 p.m. on account of family business.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legis-
lative program and any special orders hereafter entered, was granted to:

The following Members (at the request of Mr. UDALL of New Mexico) to revise and extend their remarks and include extraneous material:

Ms. NORTON, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today.

Mr. FILNER, for 5 minutes, today.

Mr. CUMMINGS, for 5 minutes, today.

Mr. UNDERWOOD, for 5 minutes, today.

Ms. CARSON, for 5 minutes, today.

The following Members (at the request of Mr. UDALL of New Mexico) to revise and extend their remarks and include extraneous material:

Mr. DIAZ-BALART, for 5 minutes each day, today and on May 26.

Mr. FLETCHER, for 5 minutes, on May 27.

Mr. JONES of North Carolina, for 5 minutes, today.

ADJOURNMENT

Mr. HAYWORTH. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 11 o'clock and 59 minutes p.m.), the House adjourned until to-morrow, Wednesday, May 26, 1999, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker’s table and referred as follows:

2314. A letter from the Administrator, Agri-
rural Marketing Service, Department of Agriculture, transmitting the Department’s final rule—Cranberries Grown in the States of Massachusetts, et al.; Temporary Suspensions Final Rule for Producer Continuance Referenda; (Docket No. FV99–929–1 FPR) received May 10, 1999, pursuant to 5 U.S.C. § 553(a); to the Committee on Agri-
culture.

2315. A letter from the Director, the Office of Management and Budget, transmitting cumulative report on rescissions and de-
ferrals, pursuant to 2 U.S.C. § 685(e); (H. Doc. No. 106–71); to the Committee on Appropriations and ordered to be printed.

2316. A communication from the President of the United States, transmitting a request from the Information Technology Systems and Related Expenses account; (H. Doc. No. 106–70); to the Committee on Appropriations and ordered to be printed.

2317. A letter from the Assistant General Counsel for Regulations, Office of the Sec-
retary, Department of Urban Development, transmitting the Depart-
ment’s final rule—Section 8 Tenant-Based Assistance; Statutory Merger of Section 8 Committee and Voucher Programs; (Docket No. FR–4428–01) (RIN: 2577–AB91) received May 18, 1999, pursuant to 5 U.S.C. § 801(a)(1)(A); to the Committee on Banking and Financial Services.

2318. A letter from the Assistant General Counsel for Regulations, Office of the Sec-
retary, Department of Housing and Urban Development, transmitting the Depart-
ment’s final rule—Revised Restrictions on Assistance to Noncitizens; (Docket No. FR–4154–F–03) (RIN: 2501–AC56) received May 18, 1999, pursuant to 5 U.S.C. § 801(a)(1)(A); to the Committee on Banking and Financial Services.

2319. A letter from the President and Chairman, Export-Import Bank, transmit-
ing a statement with respect to a trans-
action involving U.S. exports to Saudi Ara-
dia; to the Committee on Banking and Fi-
nancial Services.

2320. A letter from the Chairman, Federal Deposit Insurance Corporation, transmitting the Corporation’s semiannual report on the activities and efforts involving the regulation of the private sector, pursuant to 12 U.S.C. § 1827; to the Committee on Banking and Fi-
nancial Services.

2321. A letter from the Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Service’s final rule—Secondary Direct Food Additives Permitted in Food for Human Consumption; (Docket No. 98F–0342) received May 20, 1999, pursuant to 5 U.S.C. § 801(a)(1)(A); to the Committee on Commerce.

2322. A letter from the Attorney Advisor, National Highway Traffic Safety Adminis-
tration, Department of Transportation, transmitting the Department’s final rule—Emergency Vehicle Telephone Number Program (Docket No. NHTSA–98–4853) (RIN: 2127–AG95) received May 20, 1999, pursuant to 5 U.S.C. § 801(a)(1)(A); to the Com-
mmittee on Commerce.

2323. A letter from the Director, Office of Regulatory Management and Information, Environmental Protection Agency, transmit-
ing the Agency’s final rule—Applicability and Management of a Provision on Producer Continuance Referenda; (Docket No. FR–98–0293) received May 20, 1999, pursuant to 5 U.S.C. § 801(a)(1)(A); to the Committee on Commerce.
2323. A letter from the Chief, Office of Regulations and Administrative Law, USCG, Department of Transportation, transmitting the Department's final rule—Drawbridge Operating Regulations; Lake Pontchartrain, LA. (CGDO9-99-032) received May 20, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2345. A letter from the Acting Chief, Office of Regulations and Administrative Law, USCG, Department of Transportation, transmitting the Department's final rule—Drawbridge Operating Regulations; River Rouge (Short-Cut Canal), Michigan. (CGDO9-98-055) (RIN: 2115–AE47) received May 20, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

A letter from the Secretary of Energy, transmitted a draft of proposed legislation which would provide a more competitive electric power industry; jointly to the Committees on Ways and Means, Commerce, Agriculture, Transportation and Infrastructure, Resources, and the Judiciary.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. YOUNG of Florida: Committee on Appropriations. Report on Suballocation of Budget Allocations for Fiscal Year 2000 (Rept. 106-163). Referred to the Committee of the Whole House on the State of the Union. Mr. SESSIONS: Committee on Rules. House Resolution 189. Resolution providing for consideration of the bill (H.R. 150) to amend the Act popularly known as the Recreation and Public Purposes Act to authorize the use of certain public lands and national forest lands to local education agencies for use for elementary or secondary schools, including public charter schools, and for other purposes (Rept. 106-164). Referred to the House Calendar.

Mr. DREIER: Committee on Rules. House Resolution 190. Resolution providing for the consideration of the bill (H.R. 160) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2000, and for other purposes (Rept. 106-165). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. LAZIO (for himself, Mr. KING, Mr. LAMPSON, Mr. Cramer, Mr. FOLEY, Mr. LANTOS, Mr. CLEMENT, Mr. LAMM, Mr. RAMSTAD, Mr. KRAMER of Florida, Mr. CUNNINGHAM, Mr. ETHERIDGE, Mrs. MINK of Hawaii, Mr. ENGLISH, Mr. LUTHER, Mr. WOOLSEY, Mr. DICKIE, Mr. POMBO, Mr. CRANE, Mr. ARMETY, and Mr. DELAY):

H. Con. Res. 109: Mr. LAFALCE, Mr. FOSSella, and Mr. NANGEL.

It is the sense of the Congress that—

(1) the moneys of the United States held for purposes of the old-age, survivors, and disability insurance program and the hospital insurance program maintained under the Social Security Act and related laws of the United States should always be held in separate and independent trust funds and should always be segregated from all other moneys of the United States,

(2) the receipts and disbursements of such programs (including revenues dedicated to such programs) should never be included in any budget totals set forth in the budget of the United States or in any budget prepared by the President or any budget prepared by the Congress,

(3) the Congress should never make any law affecting the use of such trust funds for any purpose other than for providing for the prompt and effective payment of benefits, payment of administrative expenses, and payment of the amounts as may be necessary and appropriate to correct prior incorrect payments, and no agency or instrumentality of the United States, or any officer or employee thereof, should ever be authorized to use, or to authorize the use of, such trust funds for any such other purpose, and

(4) as soon as practicable after the date of the enactment of this Act, the Congress should consider for adoption a constitutional amendment to establish the policies described in this section as the permanent law of the United States.

H. R. 1401

OFFERED BY: Mr. BERRETER

AMENDMENT No. 2: At the end of the following new section:

SEC. 6. BUDGETARY TREATMENT OF THE OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE PROGRAM AND THE HOSPITAL INSURANCE PROGRAM.

It is the sense of the Congress that—

(1) the moneys of the United States held for purposes of the old-age, survivors, and disability insurance program and the hospital insurance program maintained under the Social Security Act and related laws of the United States should always be held in separate and independent trust funds and should always be segregated from all other moneys of the United States,

(2) the receipts and disbursements of such programs (including revenues dedicated to such programs) should never be included in any budget totals set forth in the budget of the United States or in any budget prepared by the President or any budget prepared by the Congress,

(3) the Congress should never make any law affecting the use of such trust funds for any purpose other than for providing for the prompt and effective payment of benefits, payment of administrative expenses, and payment of the amounts as may be necessary and appropriate to correct prior incorrect payments, and no agency or instrumentality of the United States, or any officer or employee thereof, should ever be authorized to use, or to authorize the use of, such trust funds for any such other purpose, and

(4) as soon as practicable after the date of the enactment of this Act, the Congress should consider for adoption a constitutional amendment to establish the policies described in this section as the permanent law of the United States.

OFFERED BY: Mr. BERRETER

AMENDMENT No. 3: At the end of title X (page 305, after line 5), insert the following new section:

SEC. 1040. ASIA-PACIFIC CENTER FOR SECURITY STUDIES.

(a) Waiver of Charges. — (1) The Secretary of Defense may waive reimbursement of the costs of conferences, seminars, courses of instruction, or similar educational activities of the Asia-Pacific Center for military officers and civilian officials of foreign nations of the Asia-Pacific region if the Secretary determines that attendance by such persons without reimbursement is in the national security interest of the United States.

(b) In this section, the term “Asia-Pacific Center” means the Department of Defense organization within the United States Pacific Command known as the Asia-Pacific Center for Security Studies.

(b) Authority To Accept Foreign Gifts and Donations. — (1) Subject to paragraph (2), the Secretary of Defense may accept, on behalf of the Asia-Pacific Center, foreign gifts or donations in order to defray the costs of, or to enhance the operation of, the Asia-Pacific Center.

(2) The Secretary may not accept a gift or donation under paragraph (1) if the acceptance of the gift or donation would compromise or appear to compromise the effectiveness of the Asia-Pacific Center.

(c) Authority To Accept Foreign Gifts and Donations. — (1) The Secretary of Defense may accept, on behalf of the Asia-Pacific Center, foreign gifts or donations in order to defray the costs of, or to enhance the operation of, the Asia-Pacific Center.

(2) The Secretary may not accept a gift or donation under paragraph (1) if the acceptance of the gift or donation would compromise or appear to compromise the effectiveness of the Asia-Pacific Center.

(d) Authority To Accept Foreign Gifts and Donations. — (1) The Secretary of Defense may accept, on behalf of the Asia-Pacific Center, foreign gifts or donations in order to defray the costs of, or to enhance the operation of, the Asia-Pacific Center.

(2) The Secretary may not accept a gift or donation under paragraph (1) if the acceptance of the gift or donation would compromise or appear to compromise the effectiveness of the Asia-Pacific Center.

(e) Authority To Accept Foreign Gifts and Donations. — (1) The Secretary of Defense may accept, on behalf of the Asia-Pacific Center, foreign gifts or donations in order to defray the costs of, or to enhance the operation of, the Asia-Pacific Center.

(2) The Secretary may not accept a gift or donation under paragraph (1) if the acceptance of the gift or donation would compromise or appear to compromise the effectiveness of the Asia-Pacific Center.

(f) Authority To Accept Foreign Gifts and Donations. — (1) The Secretary of Defense may accept, on behalf of the Asia-Pacific Center, foreign gifts or donations in order to defray the costs of, or to enhance the operation of, the Asia-Pacific Center.

(2) The Secretary may not accept a gift or donation under paragraph (1) if the acceptance of the gift or donation would compromise or appear to compromise the effectiveness of the Asia-Pacific Center.

OFFERED BY: Mr. BERRETER

AMENDMENT No. 6: At the end of title XXXI (page 453, after line 15), insert the following new section:
SEC. 31. REPORT ON COUNTERINTELLIGENCE AND SECURITY PRACTICES AT NATIONAL LABORATORIES.

(a) IN GENERAL.—Not later than March 1 of each year, the Secretary of Energy shall submit to the Congress a report for the preceding year on counterintelligence and security practices at the facilities of the national laboratories (whether or not classified activities are carried out at the facility).

(b) CONTENT OF REPORT.—The report shall include, with respect to each national laboratory, the following:

(1) The number of full-time counterintelligence and security professionals employed.

(2) A description of the counterintelligence and security training courses conducted and, for each such course, any requirement that employees successfully complete that course.

(3) A description of each contract awarded that provides an incentive for the effective performance of counterintelligence or security activities.

(4) A description of the services provided by the employee assistance programs.

(5) A description of any requirement that an employee report the foreign travel of that employee (whether or not the travel was for official business).

(6) A description of any visit by the Secretary or by the Deputy Secretary of Energy, a purpose of which was to emphasize to employees the need for effective counterintelligence and security practices.

H.R. 1906

OFFERED BY: MR. CHABOT

AMENDMENT No. 17: Insert before the short title the following new section:

SEC. ___. (a) LIMITATION.—None of the funds appropriated or otherwise made available by this Act may be used to award any new allocations under the market access program or to pay the salaries of personnel to award such allocations.

H.R. 1906

OFFERED BY: MS. KAPTUR

AMENDMENT No. 18: In the third paragraph under the headings “RURAL HOUSING SERVICE” and “RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT (INCLUDING TRANSFERS OF FUNDS)”, strike the period at the end of the paragraph and insert the following: “: Provided, That of this amount the Secretary of Agriculture may transfer up to $7,000,000 to the appropriation for ‘Outreach for Socially Disadvantaged Farmers’.”
INTRODUCTION OF A BILL TO CLARIFY THE TAX TREATMENT OF SETTLEMENT TRUSTS ESTABLISHED PURSUANT TO THE ALASKA NATIVE CLAIMS SETTLEMENT ACT

HON. DON YOUNG OF ALASKA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. YOUNG of Alaska. Mr. Speaker, today I am introducing a bill to clarify the tax treatment of Settlement Trusts authorized by the Alaska Native Claims Settlement Act. This legislation is very similar to a bill that I introduced with my colleagues, Congressmen GEORGE MILLER and J.D. HAYWORTH, last Congress. The bill has been further improved from last Congress and a companion measure was introduced in the Senate recently. The bill's introduction in the House before the Memorial Day recess is aimed at expediting consideration of it in Congress and within the executive branch. Once the recess has ended, I am expecting that the original cosponsors from last year as well as additional cosponsors will reintroduce the legislation for consideration in the House.

At the time the bill is reintroduced, those Members cosponsoring it and I will submit for our colleagues' information a detailed explanation of the bill along with background and history relating to it.

TRIBUTE TO THELMA BARRIOS

HON. HOWARD L. BERMAN
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. BERMAN. Mr. Speaker, I rise to pay tribute to Thelma Barrios, who this year is receiving the 3rd annual Chief Dominick J. Rivetti Award from the San Fernando Police Advisory Council. Thelma is editor and publisher of the San Fernando Sun, a weekly publication that serves San Fernando and the surrounding area. In an age of media conglomerates, and 24-hour news channels, the Sun is an excellent reminder of the value of a good community newspaper. Thelma works hard to make sure that local politics, community news and interesting activities involving Northeast Valley residents receive extensive coverage in the pages of her newspaper. Over the years I have found the Sun a pleasure to read. Thelma's accomplishments are all the more remarkable considering the trajectory of her career. She started working at the Sun nearly 40 years ago as a bill collector, answering an ad that asked "for a man to do collections." That minor detail didn't deter Thelma, who went in and applied for the job anyway. The owner of the Sun, L.A. Copeland, offered Thelma the job, telling her that results were more important than whether he hired a man or a woman.

Thelma flourished at the paper. She went from bill collector, to telephone operator, to member of the classified advertising department and, finally, editor and publisher. It was a perfect match. Thelma works tremendously hard putting out the Sun each week. At the same time, she is never too busy to take another press release or listen to another story idea.

Though it's hard to believe, Thelma is not a San Fernando native. Along with her family, she came to California from Ohio in the early 1940s. Not long after the move, she met her future husband, Joseph Barrios, when the two of them worked together at a movie theater near downtown Los Angeles. Thelma and her husband, who passed away a few years ago, made the move to San Fernando soon after the end of World War II.

The Barrios family has strong ties to the city; Joe was a member of the San Fernando Police Force for 32 years. Thelma has won two separate national journalism contests sponsored by the University of Missouri, and is the recipient of several awards from the Valley Press Club. The Dominick J. Rivetti Award, named in honor of my dear friend and the Chief of Police in San Fernando, recognizes Thelma's extraordinary contributions to the city.

I ask my colleagues to join me in saluting Thelma Barrios, whose dedication to her craft and devotion to her community inspire us all.

A TRIBUTE TO ALLEN L. SAMSON

HON. GERALD D. KLECZKA
OF WISCONSIN
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. KLECZKA. Mr. Speaker, I rise today in tribute to Allen L. Samson, president, Liberty Bank, who on June 15, 1999 will receive the Star of David Award given by the Israel Bonds organization, Milwaukee. This award recognizes Allen for his support of Israel's economic development, involvement in humanitarian causes and his distinguished service to the community.

Allen Samson received his undergraduate and law degrees from the University of Wisconsin-Madison. He served as deputy district attorney for Milwaukee County and was a founding partner in a local law firm. Allen changed careers in 1973 and concentrated his efforts on American Medical Services, a business founded by his father, which operated nursing homes and pharmacies. He served as the company's vice president for 10 years when he became the chief executive officer, as position he held until 1990. In 1994, Allen and a small group of investors purchased Liberty Bank, a community bank which specializes in servicing small businesses and individuals. Allen is currently president and chief executive officer of Liberty Bank.

Allen has been an active leader in the Jewish community where he has received numerous awards and accolades. His support for Israel Bonds, the Milwaukee Jewish Federation, the Milwaukee Jewish Home and Care Center is unprecedented. He has been active in the United Way of Greater Milwaukee, earning the prestigious Fleur de Lis Award in 1996 for Excellent Achievement. He is active in many leadership positions in the Milwaukee-area arts community including the symphony and the art museum.

A devoted husband to Vicki Boxer for 21 years, Allen is the proud father of Daniel, Rachel, David and Nancy. He is a loving and doting grandfather.

Congratulations, Allen. You are truly deserving of this year's Star of David Award.

PERSONAL EXPLANATION

HON. MICHAEL E. CAPUANO
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. CAPUANO. Mr. Speaker, due to inclement weather I, along with several other Members of Congress, was unavoidably detained in Massachusetts on the afternoon of May 24, 1999, and was therefore unable to cast a vote on rollcall votes 145 and 146. Had I been present, I would have voted "yea" on rollcall 145, and "yea" on rollcall 146.

RECOGNITION OF HUMANITARIAN SIDNEY WEINER

HON. RICHARD E. NEAL
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. NEAL of Massachusetts. Mr. Speaker, I would like to take this opportunity to recognize a significant milestone in the life of Sidney Weiner. On June 22, 1999, Sidney was presented the 17th annual Humanitarian Award by Congregation Kodimoh. Sidney Weiner has spent his life volunteering on behalf of many organizations in the community, and I would like to make note today of his many accomplishments.

Sidney was born in Worcester, MA, but moved to Springfield as a teenager. He attended Springfield public schools and eventually married Gert Levi at the old Kodimoh on Oakland St. in 1947. He operated many successful service stations and worked as an insurance agent before retiring in 1972.
Sidney's volunteer service, in his adult life, has been unparalleled. He was a volunteer for the Pioneer Valley Red Cross, through which he recruited countless blood donors. He has also practiced what he has preached, being a 10 gallon donor himself. Sidney is a 32d degree mason and has been Master of the Chicopee Lodge and District Deputy Grand Master of the Chicopee 18th Masonic District. Since joining the Melha Temple Shrine in 1959, Sidney has chaired their blood program. He has also brought smiles to countless children through his membership and participation in the Melha Clown Unit.

Sidney has been a volunteer at Baystate Medical Center for nearly 20 years. In 1990, he was elected the first male president of the Baystate Medical Center Auxiliary. Sidney has also been involved with the Ronald McDonald House. In fact, his involvement began even before the house was built almost 10 years ago. He has held many various titles there, and is currently the president of the board of directors. For the past 3 years, Sidney has been chairman of Parking for the Rays of Hope Walk, which raises funds each fall for breast cancer research. He and his wife, Gert, also spend every Sunday in July and August volunteering at Tanglewood. Sidney is a long-time member of Kodimoh and its Brotherhood, and is a regular minyanaire. He has also been a regular volunteer on various projects and committees with Kodimoh. Sidney and Gert’s daughter, Nancy Squires, and her husband, Bill, and their three daughters, Maxine, Sarah, and Michelle, are also active members of Kodimoh.

Mr. Speaker, allow me to pay tribute to the service, commitment, and character of Sidney Weiner. He has proven himself to be an indispensable member of his community through his service and leadership. Sidney Weiner is truly a role model for community involvement and pride in his faith. Kodimoh, and the entire Western Massachusetts community, has been blessed to have been touched by Sidney Weiner’s involvement and service.

### ZONTA CLUB OF OAK PARK CELEBRATES ITS 65TH ANNIVERSARY

**HON. LUIS V. GUTIERREZ**  
**OF ILLINOIS**  
**IN THE HOUSE OF REPRESENTATIVES**  
**Tuesday, May 25, 1999**

Mr. GUTIERREZ. Mr. Speaker, I rise today to congratulate the Zonta Club of Oak Park as it celebrates more than sixty years in the entertainment business. I am pleased and proud to bring this worthy milestone to the attention of my colleagues.

Born in Scranton, Russ Morgan grew up in my hometown of Nanticoke. After working in the coal mines to earn money for his music education, he began playing the piano at a Scranton theater for extra money at the age of 14. Morgan went on to play trombone with a local band called the “Scranton Sirens,” with notable colleagues like Tommy Dorsey, Jimmy Dorsey, and Billy Lustig. When he was 18, Russ left Pennsylvania for New York City to find his fortune in the music business. By the time he was 25, he was arranging music for John Phillip Sousa and Victor Herbert. After playing for Paul Specht and touring Europe with Specht’s orchestra, Morgan went to Detroit to work with Jean Goldkette on forming a new band. There, he was reunited with the Dorsey brothers and some of his other associates from his early career. Eventually, Morgan became Musical Director of WXYZ in Detroit with his own very popular show. He also showcased his classical talent by arranging for the Detroit Symphony.

At the peak of his career, Morgan was sidelined by a serious automobile accident that forced him to spend months in the hospital. Upon his recovery, he returned to New York City to restart his career by arranging music for all the famous night clubs of the time and many Broadway shows. In 1934, he was at the height of his career and fell in love with his wife and became friends with the famous Rudy Vallee. Morgan was encouraged to form his own orchestra and Vallee got him his first engagement at the famous Biltmore Hotel. Following an impressive 4 years at the Biltmore, Morgan played on television and at most of the famous hotels and resorts of the era. On one recording he made during that period, he used a quartet that would later become the famous Ames Brothers. In 1965, with sons Jack and David in the ensemble, Russ Morgan began a long engagement in Las Vegas that was cut short only by his death in 1969.

Mr. Speaker, the Russ Morgan Orchestra, now in the able hands of his son Jack, has been bringing us wonderful music for over six decades. The ensemble’s founder never forgot his roots as a young coal miner in northeastern Pennsylvania. I extend my best wishes for continued success to Jack and the Morgan family as they carry on the legacy of the great Russ Morgan on this milestone anniversary. What greater tribute could his beloved son pay him, than to carry on his music to new generations.
ability to participate in air shows. The amendment requires the President to notify Congress 45 days prior to any participation in further air shows. It also requires that participation be in the interest of national security. In addition, the amendment requires a cost estimate to be submitted to Congress as well.

In order to side step the Berman amendment, DoD sends aircraft and personnel to air shows on so called "training missions." This fulfills the requirement that the air show be in the interest of national security.

It is important to look at the total cost of foreign air shows in order to realize the abuse by the federal government on the American taxpayer. A conservative calculation of the total cost of taxpayer subsidies for 1996 and 1997 was at least $68.4 million. That is an average of $34.2 million per year wasted at foreign airshows and arms bazaars. This figure is up over 31 percent over the period from 1994 to 1995.

The Clinton administration has been under-reporting cost and involvement to the U.S. by excluding transportation costs to and from the foreign shows. The costs reported by the Pentagon to Congress are 15 to 20 times less than the actual costs, leaving the U.S. taxpayer to pick up the tab. An example of this practice is the transfer of a B-2 bomber from the United States to France for a demonstration at an air show in Paris in 1995. This flight to Paris involved at least a 24-hour round trip ticket. The cost to operate the plane for one hour is $14,166, for a cost of over $330,000. The total cost submitted to Congress by the Pentagon to cover the entire show was underestimated at $342,916.

The bill I am introducing today, the "Restrictions on Foreign Air Shows Act" bans any further direct participation of Defense personnel and equipment at air shows unless the defense industry pays for the advertising and use of the DoD wares. The bill prohibits sending planes, equipment, weapons, or any other related material to any overseas air show unless the contractor has paid for the expenses incurred by DoD. If a contractor decides to participate in the air show, he or she must lease the equipment, cover insurance costs, ramp fees, transportation fees, and any other costs associated with the air show. If a contractor is making a profit by showing the aircraft, they will also be required to pay for the advertisement and use of the aircraft. In addition, military and government personnel will not be allowed at the show unless the contractor pays for their services during the air show.

This bill in no way outlaws the use of U.S. Aircraft or other equipment in foreign air shows or other trade exhibitions. The bill simply takes the financial burden off of the American taxpayer and puts it on the defense contractor. I strongly urge my colleagues to support this bill.

EXTENSIONS OF REMARKS

RECOGNIZING THE CONTRIBUTIONS OF THE CRUISE LINE INDUSTRY IN ALASKA AND THE UNITED STATES

HON. DON YOUNG
OF ALASKA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. YOUNG of Alaska. Mr. Speaker, today I rise to address an issue that is very critical to the constituents of my home State of Alaska. The issue I wish to speak about is the significant contribution which the cruise line industry has made to the great State of Alaska and this country.

Alaska is a State where the land mass is larger than all of the Northeastern and Great Lakes States put together. Approximately 600,000 Americans live there. Many Americans have to have some image of its wildness but fewer than 10 percent of Americans have ever visited. Nonetheless, the opportunity for Americans to visit this great State has increased tenfold with the presence of the cruise industry. Furthermore, the economic benefits that the cruise lines bring have greatly impacted Alaska.

Recently, Price Waterhouse Coopers (PwC) and Wharton Econometric Forecasting Associates concluded a Study on the Economic Impact of the Cruise Industry on the U.S. economy. This study reveals that the cruise industry spent $6.6 billion in the United States in 1997, and generated an additional $5 billion of impact on the economy. In the United States alone, the cruise lines purchased $1.8 billion in transportation from airlines, $794 million in fuel and lubricants, $626 million in business services, $1 billion in financial services, and $600 million in food and beverage supplies. In the State of Alaska in 1998, the cruise industry spent with Alaskan business and service providers $363,274,000. These statistics are significant and make clear that the cruise industry has benefited both the State of Alaska and our Nation.

This study also reveals that the cruise industry created 176,433 jobs for U.S. citizens in 1997. These jobs included direct employment by the industry and jobs attributable to the U.S. based cruise line suppliers and industry partners. Through its annual growth of 6-10 percent, the industry is responsible for thousands of new jobs every year for Americans. The cruise industry is the single largest direct employer in the maritime sector of the United States. In my State of Alaska in 1998, the cruise industry was responsible for the employment of 17,189 Alaskans. That is 3 percent of the population of our State.

Another issue that I wish to address is the matter regarding Federal and State taxation of the cruise industry. Some critics state that the cruise industry does not pay federal and state taxes in the United States. This statement is false. In fact the recently completed study revealed that the industry pays millions of dollars in taxes each year. In 1997, the cruise industry paid over $1 billion in Federal, State, and local taxes in the United States.

Mr. Speaker, I rise today to speak to the contributions made by the cruise industry to our great Nation. The benefits have been abundant, both throughout this nation and in my home State, Alaska. In view of the many contributions, I wish to acknowledge the vital role which the cruise industry plays in sustaining the economy and the maritime sector of this country.

TRIBUTE TO FRANKYE SCHNEIDER

HON. HOWARD L. BERMAN
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. BERMAN. Mr. Speaker, I rise to pay tribute to my dear friend, Frankye Schneider, who this year is being honored by the 40th Assembly District of the Democratic Party. For more than two decades, Frankye held the position of senior deputy to Los Angeles County Supervisor Ed Edelman. Frankye has always considered it an honor to work in politics. She cherished the opportunity to use the resources and power of government to help individual citizens.

Frankye was the perfect model of a professional and compassionate staff person. She was never too busy to listen to the concerns of another resident, and to speak out on behalf of a homeowners’ association, chamber of commerce or non-profit agency. Although districts in Los Angeles County contain more people than many states, it somehow seemed as if everyone was on a first-name basis with Frankye.

It would be impossible in such a short space to mention each and every contribution Frankye made to our community during the time she worked for Supervisor Edelman. The list of people and organizations that benefited from her efforts is truly myriad. Frankye had an extremely wide range of interests, including the arts, the environment, education, mental health and juvenile justice.

She is a lifetime member of the PTA, immediate past president of the San Fernando Valley Community Mental Health Center, and a former Board Member of New Directions for Youth and the United Way. After she left the staff of Supervisor Edelman, Frankye worked for the Los Angeles County Museum of Art and the Los Angeles County Museum of Natural History.

Frankye has a deep and abiding interest in the fortunes of the Democratic Party. She was a founding member and the first chair of the Democratic Party of the San Fernando Valley, and she has represented the 40th Assembly District at California Democratic party conventions for many years. Frankye also did extensive volunteer work for George McGovern’s 1972 presidential campaign and Tom Bradley’s 1973 campaign for mayor of Los Angeles.

Frankye doesn’t know the meaning of the word “retirement.” She continues to stay active in the community and with a variety of organizations. She also spends as much time as she can with her three children and four grandchildren.

I ask my colleagues to join me in saluting Frankye Schneider, who has devoted much of her life to bettering the lives of others. Her dedication and selflessness inspire us all.
CONSTITUTIONAL IMPASSE CONTINUES IN BELARUS

HON. CHRISTOPHER H. SMITH
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. SMITH of New Jersey, Mr. Speaker, on May 16, the alternative Presidential election concluded in Belarus within the timeframe envisioned by the legitimate 1994 Constitution. While the opposition Central Election Commission (CEC) concluded that the final results of the voting were invalid because of various violations deriving from the impediments placed by Belarusian authorities, the ballot served as an important barometer of democratic engagement by the citizens of Belarus. In the months leading up to the election, President Alyaksandr Lukashenka had imprisoned one of the two Presidential candidates—formed Prime Minister Mikhail Chygir—on what were clearly politically motivated charges, arrested hundreds of election officials and volunteers, and instituted administrative proceedings against others. Nevertheless, the authorities were unable to hold the election in at least one critically important respect—according to the opposition CEC, the voting itself was valid because more than half—or 53 percent of the electorate—participated. When one considers that these were unсанctioned elections that challenged Lukashenka’s legitimacy, this is a substantial number of people.

No matter what the imperfections, Mr. Speaker, the opposition’s electoral initiative should send a powerful message to Lukashenka. Clearly, an appreciable number of Belarusian citizens are dissatisfied with the profoundly negative political and socio-economic fallout stemming from his dictatorial inclinations and misguided nostalgia for the Soviet era, to function.

Lukashenka signed a decree which introduces extensive restrictions on non-governmental activity and mandates re-registration—by July 1—of political parties and trade unions. The decree, which among other onerous stipulations requires that organizations acknowledge the results of Lukashenka’s illegitimate 1996 referendum, is clearly designed to destroy democratic civil society in Belarus and further consolidate Lukashenka’s repressive rule. Moreover, within the last few months, several disturbing incidents have occurred, among them the March arrests of Viktor Gonchar, Chairman of the opposition CEC, and the Chygir imprisonment, as well as the mysterious disappearances of Tamara Vinnikova, former chair of the National Bank of Belarus and, on May 10, Gen. Yuri Zakharenko, former Interior Minister and a leading opponent of Lukashenka. Just a few days ago, Lukashenka’s government announced that no more foreign priests will be allowed to serve, making it extremely difficult for the Roman Catholic Church, which is rebuilding following the travails of the Soviet era, to function.

Mr. Speaker, I strongly urge the Belarusian Government to comply with its freely underwritten commitments made under the Helsinki Final Act and subsequent OSCE agreements and to immediately, without preconditions, convene a genuine dialog with the country’s democratic forces and with the long-suffering Belarusian people.

TRIBUTE TO DR. AUGUSTO ORTIZ AND MARTHA ORTIZ

HON. ED PASTOR
OF ARIZONA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. PASTOR. Mr. Speaker, I rise today to pay tribute to Dr. Augusto Ortiz and his wife, Mrs. Martha Ortiz. For 50 years, this outstanding team has provided medical and clinical services to the under-served, rural and urban, Spanish-speaking populations of Arizona. Dr. Ortiz, a medical doctor who graduated from the University of Illinois in 1945, provided the medical services while Martha, who rarely accepted compensation for her services, acted as the full-time administrator, personnel director, and business manager of the practice. The willingness of Dr. and Mrs. Ortiz to forego salaries or their acceptance of “pay what you can” arrangements made medical services affordable and available to many poor residents of Arizona. Thousands of Arizonans owe their health and lives to the caring dedication of this selfless medical team.

Although Dr. Ortiz’ family did not have large amounts of money, they encouraged a love of learning and a dedication to community service. With these values instilled in him as a young boy in Puerto Rico, Dr. Ortiz often dreamed of helping underprivileged people when he grew up. In order to pursue his dream of benefiting NGOs to aid indigent people, Dr. Ortiz had to leave his much loved family and childhood home to attend medical school in Illinois. Although he was now thousands of miles away, these early dreams and lessons helped guide and inspire him to continue toward his goal.

In the early 1950’s, while stationed at Luke Air Force Base in Phoenix, Arizona, Dr. Ortiz took on a Herculean task. He readily agreed to assist Dr. Carlos Greth with a medical practice that served 80,000 Spanish-speaking people in Maricopa County. At this time, they were the only Spanish-speaking doctors in Maricopa County.

Aside from generously offering his medical talents, Dr. Ortiz also became a champion for those that he treated. His political motivation was his need to “stand up and speak out” because he felt “an obligation to do something to remedy those problems” which were regularly encountered by his patients. Dr. Ortiz was especially active on behalf of his farm worker patients. He was instrumental in obtaining an Arizona state ban on the short-handled hoe, as well as improving the Arizona laws regulating pesticides and field sanitation. Dr. Ortiz’ commitment and accomplishments make him an outstanding role model for the citizen activist. He identified the problems that needed to be addressed, sought logical, humane remedies for them, and consistently persuaded political decision makers to agree to the solutions.

Dr. and Mrs. Ortiz not only emphasized preventive health care, they organized mobile clinics and community health boards to ensure that this message would be heard and spread throughout many Arizona communities. In 1972, Dr. Ortiz joined the University of Arizona Rural Health Office as the Medical Director. Currently, he continues as the Medical Director of the Rural Health Office while maintaining his rural mobile clinic practice in three communities. During his tenure, he has worked tirelessly to encourage the poor and minorities to enter and to succeed in healthcare professions, while continually working to deliver better health services for those in need.

Throughout his career, Dr. Ortiz has received many honors and awards, including: The Arizona Latin-American Medical Association Award; the Arizona Family Doctor of the Year Award; Distinguished Leadership Award, American Rural Health Association (national); and the Jefferson Award for Outstanding Service to the Community, Institute for Public Service (national).

Dr. Ortiz and Martha deserve the nation’s gratitude and respect for the magnitude of the service they have given for such an extended period of time. I ask my colleagues in Congress to join me in applauding and honoring the noble doctor, Dr. Augusto Ortiz, and his admirable wife, Martha Ortiz.

AMERICAN LAND SOVEREIGNTY PROTECTION ACT

SPERCH OF
HON. WALLY HERGER
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, May 20, 1999

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 883) to preserve
India’s anti-Americanism revealed as defense minister attacks America

HON. LINCOLN DIAZ-BALART
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. DIAZ-BALART. Mr. Speaker, I was disturbed to learn that the Defense Minister of India, George Fernandes, led a meeting of some of the world’s most repressive regimes at which they agreed that their main goal was to “stop the United States,” according to the Indian Express. Fernandes himself called the United States “vulgarily arrogant.” This should offend anyone who cares about this country.

Countries represented at this meeting, according to the newspaper, were Communist China—which has been stealing American nuclear secrets and pouring illegal money into our political campaigns, Libya, Russia, Serbia—the country we are currently fighting, Saddam Hussein’s Iraq, and Castro’s Cuba. Now, Mr. Speaker, I know a bit about Cuba. Castro’s dictatorship in Cuba is one of the most brutal in the world. It has killed and tortured thousands of its opponents.

By now, we all know the stories of how the Indian government has killed tens of thousands of Christians, Sikhs, Muslims, Dalit un-touchables, and others. Just in recent months, I am informed that an Australian missionary named Graham Staines and his two young sons were burned to death in their Jeep by a militant theocratic Hindu Nationalist gang affiliated with the RSS, which is also, I am told, the parent organization of the ruling BJP. I am informed that there are 17 freedom movements in India and the ongoing political instability there means that India’s breakup is close. We should support the peaceful struggle for freedom throughout India.

India destabilized South Asia with its nuclear weapons’ tests. It was a close ally of the Soviet Union and supported the invasion of Afghanistan. It has the most anti-American voting record of any country in the United Nations with the exception of Cuba. Why does a government like that continue to receive aid from the United States?

Mr. Speaker, the time has come to stop supporting governments that actively work against us. We should cut off all American aid to India and declare our support for the freedom movements through democratic plebiscites. These are important steps to extend the hand of freedom to the people of South Asia.

HON. JOEL HEFLEY
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. HEFLEY. Mr. Speaker, I am pleased to introduce today the Bring Them Home Alive Act of 1999. This legislation provides a powerful incentive to persuade foreign nationals to identify and return to the United States any living American POW/MIA who served in the Vietnam or Korean War. I am pleased to be joined in this effort by 28 bipartisan co-sponsors.

The on-going war in Yugoslavia has brought the plight of American POW/MIA’s to the forefront of the nation’s psyche. We all watched in horror several weeks ago as three captured American servicemen were displayed with visible cuts and bruises on Serbian television. We feared for their lives, their safety and their well-being. It was with great relief that we watched as Staff Sergeants Christopher Stone and Andrew Ramirez and Specialist Steven Gonzales were released, relatively unharmed, from a Serbian prison.

The story of the capture of these three servicemen ended with family reunions and a safe return home to America. However, too many POW/MIA’s were not so fortunate. There is the possibility that soldiers from the Vietnam and Korean Wars are still living as prisoners of war. It is our duty to do all that we can to bring them home.

The Bring Them Home Alive Act would grant asylum in the U.S. to foreign nationals who help return a living American POW/MIA from either the Vietnam War or the Korean War. The bill specifically allows citizens of the U.S. to help in the rescue of a POW/MIA to be granted asylum. The legislation would also grant asylum to the rescued family, including their spouse and children, since their safety would most likely be threatened by such a rescue.

While there is some doubt as to whether any American POW/MIA’s from these two wars remain alive, the official U.S. policy distinctly recognizes the possibility that American POW/MIA’s from the Vietnam War could still be alive and held captive in Indochina. The official position of the Defense Department states, “Although we have thus far been unable to prove that Americans are still being held against their will, the information available to us precludes ruling out that possibility. Actions to investigate live-sighting reports receive and will continue to receive necessary priority and resources based on the assumption that at least some Americans are still held captive. Should any report prove true, we will take appropriate action to bring the prisoner involved.”

The Bring Them Home Alive Act supports this official position and provides for the possibility of bringing any surviving U.S. servicemen home alive.

In order to inform foreign nationals of this offer, the bill calls on the international broadcasting bureau to draw upon its resources, such as Worldnet Television and its Internet sites, to broadcast information that promotes the Bring Them Home Alive program. Similarly, the bill calls on Radio Free Europe and Radio Free Asia to broadcast information.

Mr. Speaker, we are less than two weeks away from celebrating Memorial Day. This holiday is an opportunity for us, as a nation, to honor the soldiers and veterans who so valiantly served and protected our nation and our freedoms. American servicemen and women deserve this recognition, as well as our respect and appreciation. I believe it would be a fitting tribute to American soldiers to pass the Bring Them Home Alive Act. As long as there remains even the remotest possibility that there may be American survivors, we owe it to our servicemen and their families to bring them home alive.

Hunger’s silent victims

HON. TONY P. HALL
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. HALL of Ohio. Mr. Speaker, I rise today to bring to our colleagues’ attention a humanitarian crisis in Asia, one half a world away from the glare of television lights and public concern—but one every bit as worthy of our attention as the crime scene that is Kosovo.

I recently visited rural villages in Cambodia, and was surprised to see that Pol Pot’s legacies—serious malnutrition and illiteracy—persist two decades after he was run from power. I am especially concerned that our country is focusing too much on political issues, and ignoring the tremendous humanitarian problems in Cambodia.

One aspect of these problems—hunger and malnutrition so severe that it is stunting the bodies and brains of more than half of Cambodian children—was explained in a superb article recently in Time Magazine’s Asian edition. We all know the tragic of Cambodia; this article describes a future sure to be needlessly sad.

Cambodia is a fertile land at the crossroads of a thriving regional economy. Its people are hard-working and innovative. With a little peace, and a little humanitarian assistance, they can again be the stable, growing rice exporters of a thriving regional economy. Its people are hard-working and innovative. With a little peace, and a little humanitarian assistance, they can again be the stable, growing rice exporters they were in the 1960s.

I would respectfully request that Time’s article, and my own statement on the situation, be included in the CONGRESSIONAL RECORD.

[From Time Asia, May 17, 1999]

INTRODUCTION OF HOME HEALTH ACCESS PRESERVATION ACT

HON. VAN HILLEARY
OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999
Medicare and the home health industry. These changes decimated the system and have left behind them a long list of closed home health agencies and patients without care. In response, many of us in Congress desperately sought a solution. Unfortunately, we were unable to come up with one true vehicle that could pass into law.

This year we come back again. Our efforts will be just as aggressive but a little wiser. Instead of competing against one another, we in Congress will now work together to fix the problem. That is why I have joined with Congressmen McGovern, Coburn, and Wygand to craft legislation that will help our seniors in need. Joined by Congressmen Rahall, McIntosh, Hooley, Wamp, Barton, and Ackerman, we plan to push forward legislation that aims to help the neediest of home health beneficiaries and agencies.

The first patients that will receive the aid are those that are considered "outriers." Outliers are patients who have unusually high cost maladies. Under the BBA system, many agencies are unable to give them care at the risk of being run out of business because they are so cost prohibitive. We create a system that sets aside 10 specific ailments that would make a person eligible to receive this outlier status. Once they are identified as an outlier, agencies who take these individuals could draw from a newly established $250,000,000 Medicare fund to cover the added expenses. This will mean more of our poorest, oldest, and sickest receiving the medical coverage they so desperately need.

Another benefit of this legislation will be the establishment of a repayment plan for agencies who have been treating these individuals. Many of them are now almost out of business due to their charity and the inaccuracies of the Health Care Financing Administration (HCFA) in assessing their plight. We offer an interest-free 36-month grace period to these agencies in order to repay these overpayments and settle any miscalculations on behalf of HCFA.

I urge all Members who see the need for a reform in home health to back this legislation. The Home Health Access Preservation Act of 1999 is a common sense way to help our seniors in their time of need.

INTRODUCTION OF THE CRIMINAL WELFARE PREVENTION ACT, PART II AND THE CRIMINAL WELFARE PREVENTION ACT, PART III

HON. WALLY HERGER
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. HERGER. Mr. Speaker, today, I join with a bipartisan coalition of original cosponsors to re-introduce two important pieces of legislation—The Criminal Welfare Prevention Act, Part II and The Criminal Welfare Prevention Act, Part III—which will help prevent the neediest of our dollars.

Because of the original Criminal Welfare Prevention Act—legislation I introduced during the 104th Congress which was enacted as part of welfare reform in 1996—an effective new incentive system is now in place that enables the Social Security Administration (SSA) to detect and cut off fraudulent Supplemental Security Income (SSI) and Old-Age, Survivors, and Disability Insurance (OASDI) benefits that would otherwise be issued to prisoners. That provision established monetary incentives for state and local law enforcement authorities to enter into voluntary data-sharing contracts with SSA.

This proposal would encourage even more sheriffs to become involved in fraud-prevention efforts by extending the $400 incentive payments to interrupted Social Security (OASDI) checks as well. Regrettably, this proposal was not taken up by the Senate. For this reason, I am re-introducing The Criminal Welfare Prevention Act, Part II today, and will continue to push for the enactment of this important initiative.

At the same time, I will also be working to enact a somewhat broader proposal. The Criminal Welfare Prevention Act, Part III, which I first introduced during the 105th Congress as H.R. 4172. This legislation would simply require SSA to share its prisoner database with other federal departments and agencies—such as the Departments of Agriculture, Education, Labor, and Veterans' Affairs—to pay the full price for the continuation of other fraudulent benefits to prisoners. While we do not have reliable information about how many prisoners are receiving food stamps, education aid, and VA benefits for which they are ineligible, it is likely that many do. SSA's prisoner database provides us with the perfect tool to help identify and terminate inappropriate benefits issued through other federal and federally-assisted spending programs.

While SSA already has the authority to share its prisoner database with other agencies under a provision of the original Criminal Welfare Prevention Act—and while President Clinton has issued an executive memorandum ordering the SSA to do so—I believe it is important for Congress to codify this requirement into law. Because fraud prevention has not historically been a top priority at SSA, Congress should act swiftly to ensure that we permanently stamp out inmate fraud in all its forms. After all, taxpayers already pay for inmates' food, clothing, and shelter. It is simply outrageous that prisoners may be receiving fraudulent "bonus" checks each month as well.

Mr. Speaker, I would urge all of my colleagues—on both sides of the aisle—to co-sponsor both of these important pieces of legislation. I hope that Congress will not promptly on these proposals to help remind inmates that crime isn't supposed to pay.
those who use private mail boxes explaining how their privacy would not be invaded if they used a government box.

During the rule's comment period, more than 8,000 people formally denounced the rule, while only 10 spoke generally favor of it. However, those supporting this rule will claim that the privacy of the majority of law-abiding citizens who use commercial mailboxes must be sacrificed in order to crack down on those using commercial mailboxes for criminal activities. However, I would once again remind my colleagues that the Federal role in crime, even if the crime is committed in “interstate commerce,” is a limited one. The fact that some people may use a mailbox to commit a crime does not give the Federal Government the right to treat every user of a commercial mailbox as a criminal. Moreover, my office has received a significant number of calls from battered women who use these boxes to maintain their geographic privacy.

I have introduced this joint resolution in hopes that it will be considered under the expedited procedures established in the Contract with America Advancement Act of 1996. This procedure allows Congress to overturn onerous regulations such as the subject of this bill. Mr. Speaker, the entire point of this procedure to provide Congress with a means to stop federal actions which pose an immediate threat to the rights of Americans. Thanks to these agency review provisions, Congress cannot hide and blame these actions on the bureaucracy. I challenge my colleagues to take full advantage of this process and use it to stop this outrageous rule.

In conclusion Mr. Speaker, I ask my colleagues to join me in cosponsoring the Mailbox Privacy Protection Act, which uses the Agency Review Procedures of the Contract with America Advancement Act to overturn Post Office’s regulations requiring customers of private mailboxes to give the Post Office their name, address, photographs and social security number. The Federal Government should not force any American citizen to divulge personal information as the price for receiving mail. I further call on all my colleagues to assist me in moving this bill under the expedited procedure established under the Congressional Review Act.

CONGRATULATIONS TO THE CITY OF LEBANON ON ITS SESQUICENTENNIAL BIRTHDAY

HON. IKE SKELTON
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. SKELTON. Mr. Speaker, let me take this opportunity to congratulate the City of Lebanon and Laclede County on its Sesqui-centennial birthday. Through the 1830’s and 1840’s pioneers chiefly from North Carolina, Tennessee, and Kentucky filtered in to fertile little valleys along streams and creeks in an Laclede County, Missouri. These settlers were farmers with only the bare necessities, and few tools, who relied upon their energy, efficiency and resourcefulness to overcome deficiencies.

In 1849 Laclede County was organized out of three neighboring counties, Pulaski, Wright, and Camden. A donation of 50 acres of land by Berry Harrison and James Appling established the county seat on what is now Old Town hill. A courthouse, jail, general store, and various office buildings were eventually added to this beautiful setting.

The county changed with the arrival of the Frisco railroad. The railroad was established three quarters of a mile out on the muddy road, which was located a quarter of a mile outside of the town. Businesses eventually moved toward the railroad and in a couple of years a new business center grew up and Old Town became simply the first ward of new Lebanon. Small towns grew up and along the railroad each taking its quota of trade that the first years had given to Lebanon.

After 150 years Laclede County can boast of prosperous farms, schools within the reach of every child, churches for every community, and prosperity over the entire county.

Mr. Speaker, I wish to extend my congratulations to the residents of the city of Lebanon and Laclede County. It is with great pride that I honor their achievements on their Sesqui-centennial birthday.

CRISIS IN KOSOVO (ITEM NO. 5), REMARKS BY DAVID SWARTZ, FORMER AMBASSADOR TO BELARUS

HON. DENNIS J. KUCINICH
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. KUCINICH. Mr. Speaker, on May 6, 1999, I joined with Representative JOHN CONyers, Representative PETE STARK, and Representative CYNTHIA MCKINNEY to host the third in a series of Congressional Teach-In sessions on the Crisis in Kosovo. If a peaceful resolution to this conflict is to be found in the coming weeks, it is essential that we locate the roots of this problem. How did we get to where we are. Two, why could the United States policy toward Kosovo have been minimized. And that’s way ahead of any opportunity to present may statement this afternoon on U.S.-Kosovo policy. My statement, while critical, is non-partisan. It reflects the general reality, in my view at least, that U.S. policies in the Balkans over the past eight years have reflected bipartisanship, just as criticisms of Administration policy, particularly with regard to the Yugoslavia war, have also tended to be bipartisan.

Two key decisions driving my views on U.S. actions in that region and in the Kosovo region are these: First, human suffering must be minimized. And that’s way ahead of any other. But the second one is: clear U.S. national interests justifying involvement must be present. Our policies in my view reflect deficiencies on both counts. I will briefly touch on three aspects of that problem. One, how we got to where we are. Two, why current policy is wrong. And three, what next. Three is perhaps being developed as well.

First, how we got where we are. American involvement in the post-communist Balkan turmoil stems in large part in my view from a questionable policy of premature diplomatic recognition of groups asserting sovereignty, particularly Bosnia, in the early 1990’s. Some groupings in the then-Yugoslavia could genuinely be considered ripe for independence, most especially Croatia, and Slovenia, possibly to a lesser extent Macedonia. Bosnia, however, could by no reasonable standard be considered a nation-state.

What is Bosnia? Who are Bosnians? What is their history, language, literature, religion? What can we point to that is uniquely Bosnian? It seems to me that creation of a multi-ethnic state is complicated under the best of marks and essays that shed light on the many dimensions of the crisis.

Presentation is by David Swartz, former Ambassador to Belarus. He is a retired foreign service officer and Director of the International Institute of the U.S. Department of Agriculture Graduate School. His other foreign-service posts included Rotterdam, London, Moscow, Kiev, Zurich, Calgary and Warsaw. He is the author of “Redirecting the CIA: Keep Agency Out of Policymaking, Make Ambassador Boss Overseas” (Foreign Service Journal, February 1996).

Ambassador Swartz explains how United States policy in Bosnia contributed to NATO’s current dilemma in Kosovo. He also states a clear position on a central question: Does the United States have an overriding national interest in the resolution of strife in the Balkans?

Ambassador Swartz’s comments may be controversial to some, but they represent a valuable contribution to our ongoing debate.***HD***Presentation by David Swartz to Congressional Teach-In On Kosovo

I think my role today is going to be controversial. And if ever there was a conflict that was controversial this one certainly is. So I’m pleased to be here. Some of what I’m going to say is going to offend some people and possibly some of it will offend everybody. I don’t know. But at least is may serve as a catalyst to help get the discussion going as we move along. But I am being deliberately provocative in some places so I warn you in advance and ask your indulgence.

I do wish to express my thanks for the opportunity to present may statement this afternoon on U.S.-Kosovo policy. My statement, while critical, is non-partisan. It reflects the general reality, in my view at least, that U.S. policies in the Balkans over the past eight years have reflected bipartisanship, just as criticisms of Administration policy, particularly with regard to the Yugoslavia war, have also tended to be bipartisan.
circumstances, and Bosnia in the early 90's was not the best of circumstances. At a minimum, a la Switzerland, the disparate groups must have a chance to join together in some higher level of governance than just the individual groupings they find themselves in. So in Bosnia a so-called country was cobbled together and we know the result: ethnic cleansing, massacres, artificially imposed at Dayton, and maintained solely through the possibly permanent presence of armed forces of external powers. Far from fostering stability in the former Yugoslavia, I would argue that the Bosnia so-called settlement has served to institutionalize instability. If U.S. involvement in Bosnia was the proximate cause of our current troubles, highly superficial understanding by our policy makers of the centuries of passions, hatreds, vendettas, indeed genocide throughout the Balkans was a more deep-seeded problem. If we knew nothing else, we should know that there are no good guys in the region, and that therefore aligning ourselves in one or another direction was fraught with danger. 

This truism applies equally to our current dilemma in Kosovo. With specific regard to Mr. Milosevic and the United States' misreading of his intentions is nothing short of shocking. If intelligence and diplomatic analysis are good for anything at all, they must serve the critical function of providing policy makers with accurate prognoses of the intentions of adversaries. We can forgive White House ignorance about Milosevic's likely response to a forced dictate over Kosovo, and perhaps even that of our Secretary of State. However, certainly at a minimum, emissary Richard Holbrooke and his well-meaning but judgment-impaired staff, with the hundreds of hours they spent in direct contact with Milosevic, should have been able to discern his intentions, once it became clear to him that the United States' intentions were to carve away his authority in Kosovo. At that point, the nonsensical idea that Milosevic would cave under the threat of bombing should have been discarded once and for all. Tragically, it wasn't.

My second point: Why our policy is wrong. And this brings me back to my two basic desiderata: Minimizing human suffering, and advancing clearly identified U.S. interests. A powerful argument has been made in some circles, an argument that I find somewhat persuasive, perhaps not completely, that the least human suffering in the former Yugoslavia would have resulted from the outside world not involving itself at all in the internal civil strife. Yes, there would have been oppression, yes there would have been killing, but in the end, the argument goes, a level of coexistence would eventually have been reached, no doubt for the moment at least with Serbia in full charge, in which life would have gone on for the masses. Not freedom, perhaps, not autonomy, certainly, but at least basic life. With outside support first for Bosnian independence, a wholly unsustainable proposition over the long run, and then for an imposed Kosovo settlement, even more implausible, great violence continues.

What are U.S. interests? I am not persuaded that we have any overriding interests in the Balkan strife and certainly none that would justify the course of action on which we are embarked. The NATO credibility argument is not persuasive. Had the alliance led by the U.S. nor committed Milosevic with military action if he did not submit himself to NATO's demands, we would not have found ourselves in the put-up-or-shut-up corner. Expansion of the conflict to say, Turkey or Greece, or Turkey and Greece, is equally implausible. Clearly the conflicts are limits to the territory of the former Yugoslavia, and Milosevic' desire to reassert his and Serbia's domination. Support for human rights is indeed a laudable national interest, but as suggested above, our intervention in the region has had the opposite of the desired effect.

Where we do have strong national interests are via a vis Russia, and there the Kosovo is quite possibly going to result in, if not permanent, at least long-lasting damage for reformist elements in Russian politics on whom we count for achieving societal transformations there. Or alternatively, as now seems quite likely, if Russian involvement in the settlement takes place, that might well lead to a diluted result bearing little resemblance to our stated conditions when we began this war. Or both of those might happen.

My third point: What next? Having embarked on what in my judgment is a foolish and ill-considered air war, it seems to me that the U.S. now has only two options: Stop the bombing, cutting whatever deal the Russians can broker for us, that now seems to be under way, perhaps, or immediately and massively escalate, with the specific twin goals of removing Milosevic and eliminating all Serbian fighting units in Kosovo. The first option is the one I prefer, because as I said at the outset I believe minimizing human suffering must be the goal. Each day of bombing is accompanied by more ethnic cleansing, raping and summary executions of Kosovars. It of course also leads to casualties among Serbia's civilian population. Forty-plus days of bombing have seemingly not stopped Milosevic's evil in Kosovo on which, indeed, have accelerated it. The cessation of bombing is of course fraught with danger, since it will mean an outcome, no doubt far short of our stated objectives when we began this war, it will mean a resurgent Russia on the world scene, which might not be a bad thing, but that Russia could well be far different from the one we had hoped for, and now a truly credibility-deficient NATO. But we should have thought of those matters earlier, and in the meantime, each day brings more casualties.

I for one have reached my tolerance level of the daily dosage of atrocity stories juxtaposed with confident NATO spokespersons detailing the quote-unquote in the air war the previous night's 600 sorties have resulted in, where clearly the latter has not diminished the former.

The other option is massive force now. I do not advocate this course, but it seems to me the only other viable option. Paratroopers dropped in throughout Kosovo, going after Milosevic himself on the grounds of his long history of war crimes, would have been a war criminal. The other NATO partners will balk, and the U.S. should be ready to act alone, wasting no more time. Yes, this approach will result in still more deaths, and other atrocities among the suffering Kosovars, but at least the end of the agony will be sooner than with our present incomprehensible approach.

In sum, the U.S. should not be engaged in this war in the first place, but since it is, we must either win it quickly, or get our quickly. Otherwise the lives of many, many more innocent people will be on our American conscience.

PREVENTING ABUSE OF THE HOSPITAL PAYMENT SYSTEM: INTRODUCTION OF MEDICARE MODERNIZATION NO. 5

HON. FORTNEY PETE STARK
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. STARK. Mr. Speaker, in the Balanced Budget Act of 1997, Congress provided that for 10 hospital diagnosis related groups (DRG's), we would not pay the full DRG if the patient was discharged to a nursing home, home health agency, or to a rehab or long-term-care hospital. I include at the end of my statement the conference report language describing this provision. Note that as originally passed by the House and Senate, it applied to all hospital discharges—not just 10 DRG's.

The administration and the Congress were worried that some hospitals have been gaming the Medicare hospital prospective payment system. They have been discharging patients early to downstream treatment facilities (which they often own), collecting the full DRG payment, and requiring Medicare to pay for longer and more expensive treatments in these downstream facilities.

Many of the nation's hospitals are lobbying for the repeal of this discharge provision—even though repeal would cost Medicare billions of dollars in the years to come. The intensity of the lobbying on this issues shows that early discharge to subsidiaries has become a major strategy of many hospitals. It may have been part of the Columbia/HCA scheme to maximize Medicare revenues.

Mr. Speaker, I think we should return to our earlier decision and apply the policy to all discharges, not just 10 DRG's.

The HHS inspector general has found that hospitals that own nursing homes discharge patients much earlier than average, and the patient then stays in the nursing home longer than average—an extra 8 days (OEI--02--94--00320). The OIG has also found that patients' stays are shorter when they are discharged to a home health agency. With about half the nation's hospitals owning a home health agency, this is another way to double dip.

The bill I am introducing will save Medicare billions of additional dollars in the years to come, and it will remove a temptation to abuse patients by pushing them out of hospitals too soon.

I hope this legislation—one of a series of bills I am introducing to modernize Medicare and make it more efficient—will be enacted as part of our efforts to save Medicare for the Baby Boom generation.

EXTENSIONS OF REMARKS
CERTAIN DISCHARGE TO POST ACUTE CARE

Section 10507 of the House bill and Section 548 of the Senate amendment

CURRENT LAW

PPS hospitals that move patients to PPS-exempt hospitals or distinct-part hospital units, or skilled nursing facilities are currently considered to have "discharged" the patient and receive a full DRG payment. Under current law, a "transfer" is defined as moving a patient from one PPS hospital to another PPS hospital. In a transfer case, payment to the first PPS hospital is made on a per diem basis, and the second PPS hospital is paid the full DRG payment.

HOUSE BILL

Defines a "transfer case" to include an individual discharged from a PPS hospital who is: (1) admitted as an inpatient to a hospital or distinct-part hospital unit that is not a PPS hospital for further inpatient hospital services; (2) admitted to a skilled nursing facility or other extended care facility for extended care services; or (3) receives home health service from a home health agency if such services are provided at the time of the disposition or diagnosis for which the individual received inpatient hospital services, and if such services were provided within an appropriate time period as determined by the Secretary in regulations promulgated no later than September 1, 1998. Under the provision, a PPS hospital that "transferred" a patient would be paid on a per diem basis up to the full DRG payment. The PPS-exempt hospital or other facility would be paid under its own Medicare payment policy.

Effective Date. With respect to transfer from PPS-exempt hospitals and SNFs, applies to discharges occurring on or after October 1, 1997. For home health care, applies to discharges occurring on or after October 1, 1998.

SENATE AMENDMENT

Similar provision, except defines a transfer case as including the case of an individual who, immediately upon discharge from and pursuant to the discharge planning process of a PPS hospital, is admitted to a PPS-exempt hospital, hospital unit, SNF, or other extended care facility. The provision does not include home health services in the definition of a transfer.

CONFERENCE AGREEMENT

The conference agreement would provide that for discharges occurring on or after October 1, 1998, those that fall within a specified group of 10 DRGs would be treated as a transfer for payment purposes. The Secretary would be given the authority to select the 10 DRGs focusing on those with high volume and high post acute care. The provision would apply to patients transferred from a PPS hospital to a PPS-exempt hospital unit or SNF, discharges with subsequent home health care provided within an appropriate period (as defined by the Secretary), and for discharges occurring on or after October 1, 2000, the Secretary may propose to include additional post discharge settings and DRGs to the transfer policy.

Payments to PPS hospitals would be fully or partially based on Medicare's current payment policies applicable to patients transferred from one PPS hospital to another PPS hospital (not distinct-part or SNF). The Secretary would determine whether the full transfer policy or a blended payment rate (60% of the transfer per diem payment and 40% of the total DRG payment) would apply based on the distribution of marginal costs across days, so that if a substantial portion of the costs of a case are incurred in the early days of a hospital stay the payment would reflect these costs. For FY 2001, the Secretary would be required to publish a proposed rule which included a description of the effect of the transfer policy. The Secretary would be authorized to include in the proposed rule and final rule for FY 2001 or a subsequent fiscal year, a description of additional post-discharge services provided in a qualified discharge and diagnosis-related groups specified by the Secretary in addition to the 10 diagnosis-related groups originally selected under the previous transfer policy.

The Conferences are concerned that Medicare may in some cases be overpaying hospitals for patients who are transferred to a post acute care setting after a very short inpatient hospital stay. The Conferences believe that Medicare's payment system should continue to provide hospitals with strong incentives to treat patients in the most effective and efficient manner, while at the same time, adjust PPS payments in a manner that accounts for reduced hospital lengths of stay because of a discharge to another setting.

The Conferences expect that the application of the Transfer policy to 10 high volume/post-acute use DRGs will provide extensive data to examine hospital behavioral effects under the new transfer policy.

THE CRA SUNSHINE ACT OF 1999

HON. BILL MCCOLLM OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. MCCOLLM. Mr. Speaker, I am pleased to introduce the CRA Sunshine Act of 1999. This is a modest effort to reform the Community Reinvestment Act (CRA) and bring more openness to it.

CRA groups have reported over $9 billion in cash payments received or pledged by banks as a result of CRA activities. A total of $694 billion in CRA commitments have been made or pledged due to CRA. While these pledges are made and collected as a direct result of federal legislation, the details of these payments are often unknown because many agreements include confidentiality clauses. Congress never intended that CRA dollars be used for anything other than investing in low and moderate income areas. There is concern that some CRA dollars are being used by CRA activists to pay for consulting fees, hiring contracts, administrative fees, and other nonloan activities. By shining light on the details of agreements made pursuant to CRA, this Act would remove the mystery from deals between banks and CRA organizations while ensuring that CRA truly benefits those that it was designed to benefit.

I encourage my colleagues to join me in supporting this important legislation.

INTRODUCTION OF THE BANKING PRIVACY ACT

HON. JAY INSLEE
OF WASHINGTON
IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. INSLEE. Mr. Speaker, I rise today, with many of my colleagues, to introduce the Banking Privacy Act. We recognize the threat to consumer privacy and want to return control over an individual's personal financial information back to the consumer.

My constituents are shocked when I tell them that their banking transaction experiences are not private. With certain exceptions, financial institutions may legally share all of the information about you and your bank accounts activity with anyone else, or anyone else who asks for it. This shared information includes the amount of each check that you write, to whom each check is written, the date of each check, the amount and date of any deposits into your account, and any "outside information" available, such as information submitted on your initial application for an account. Under existing law, financial institutions are not obligated to honor your request to restrict the dissemination of this personal information.

Interested in banking privacy laws after reading a letter from a constituent who was upset about his bank's plans to share his private financial records. I was shocked to learn of the stunning absence of statutory protections of consumer privacy. Suppose banks, internet companies, and securities firms become affiliated, something that will occur more frequently in the future. Will a bank tip off affiliated stock brokers every time their consumers have a sudden increase in their bank account balance, causing the consumer to be subjected to even more telemarketing calls? Will banks "profile" their customers after reviewing their financial information, then have affiliates telemarket products to those customers? Will life insurance companies affiliated with banks review personal checking records for indications of risky behavior, then increase rates based on that information? Under current law, there is nothing to prevent these types of situations.

As Congress moves to modernize the financial services industry and allow the lines between banks, securities firms, and insurance companies to blur, financial consumers can be foreclosed on the privacy they value. The Bank Holding Company Act.

The Bankholding Act privacy reform is a first step to restrict control over an individual's personal financial information back to that consumer. The Act applies to federally insured depository institutions, their affiliates and financial institutions covered under the Bank Holding Company Act.

The Bank Holding Company Act banks must disclose to their customers their privacy policies to customers and make allowances to opt-out of certain types of information sharing practices. Specifically excluded from this law is customer "transaction and experience" information.

Transaction and experience information is information about a checking or savings account, information contained on an account application, or even purchasing patterns deduced through a customer's checking account. dubbing a customer's checking account "financial information" and experience information may be shared with affiliated companies or even sold to third parties for marketing purposes. There is no law to prevent such activity from taking place.
The information is currently used to market financial services to customers based on their financial patterns. Banks routinely perform this type of information sharing. However, as we move to modernize the financial industry, there will be greater demand for this type of personal account information to market products and services to a targeted group of consumers.

For example, it is not impossible to imagine that a bank holding company learned that a customer received a life insurance settlement and then made that information available to a securities firm or data broker to market services to that customer. While many consumers will appreciate the benefit of this information sharing, the decision to share the information belongs in the hands of the consumer and not the financial institution.

Customers should be able to opt-out of information sharing policies in their banks and financial institutions. The Banking Privacy Act will require banks and financial institutions to disclose their privacy policies and allow consumers to opt-out of information sharing plans—including transaction and experience information.

The Banking Privacy Act will not affect the routine operations of a bank. There are specific exemptions in the bill relating to the day to day practices that banks have in place which do not impact consumer privacy. The bill will protect consumers from unwanted marketing based on their intimate financial details and give consumers control over the use and sharing of their financial information.

Federally insured depository institutions have an obligation to help take a stand for consumer privacy. The government provides a safety net for the banks in the form of insurance and safety provisions. These same banks have to provide a safety net for taxpayer privacy.

Financial privacy should not be sacrificed at the altar of financial industry modernization. Americans have the right to freedom of speech and freedom of religion, and we ought to have the right to freedom from prying eyes into our personal financial business. Financial institutions should not be allowed to share private financial information without customer consent. The Banking Privacy Act is a necessary and practical response to the erosion of financial privacy and the potential explosion in cross-marketing among affiliated financial institutions.

I want to also thank and commend my colleagues for joining me as cosponsors of the Banking Privacy Act. Representatives MICHAEL CAPUANO, BOB FILNER, MAURICE HINCHHEY, JOSPH HOEFFEL, PAUL KANORSKI, BARBARA LEE, JIM McDERMOTT, LYNN RIVERS, BERNIE SANDERS, JAN SHAKOWSKY and PETE STARK have all cosponsored this bill and I appreciate their assistance.

I urge my colleagues to support and pass the Banking Privacy Act.

EXTENSIONS OF REMARKS
IN MEMORY OF PAUL N. DOLLHON. IRE SKELTON
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. SKELTON. Mr. Speaker, it is with deep sadness that I inform the House of the death of Paul N. Doll of Jefferson City, Missouri.

Paul Doll was born on April 4, 1911, in Hamilton, Missouri, a son of Ernest E. and Emma Louise Colby Doll. He was a 1928 graduate of Hamilton High School and a 1932 graduate of Kidder Junior College. He received a bachelor’s degree in 1936 and a master’s degree in 1937 in agricultural engineering from their University of Missouri-Columbia. In 1984, he received an honorary doctorate from the University of Missouri.

Doll’s career in public service and agriculture began immediately after his graduation in 1937. He was a county extension agent with the University of Missouri Extension Service for several counties from 1937 to 1944. A resident of the Jefferson City area since 1944, he was employed with the Missouri Department of Resources and Development from 1944 to 1947. He was manager of the Missouri Limestone Producers Association from 1947 to 1954. From 1954 until his retirement in 1976, he was executive director of the Missouri Society of Professional Engineers.

Paul Doll was also active in the community. He was an elder of the First Presbyterian Church, treasurer of the Presbyterian Synod and president of the Men of the Presbyterian Synod. He was past president of the Jefferson City Rotary Club and a district governor of Rotary International. He was a member of Alpha Gamma Rho and Tau Beta Pi fraternities. Active in many University of Missouri organizations, Paul Doll was a board member and past officer of the Agricultural Engineering Council and a board member of the Engineering Advisory Council and the Alumni Alliance. A member of the Alumni association, he received its Distinguished Service Award in 1979. He also was a registered lobbyist for MU.

Mr. Doll was an Eagle Scout and merit badge counselor for the Boy Scouts of America; board member and committee chairman of the Jefferson City Engineers Club; board member of the Central Missouri United Way; volunteer for Meals on Wheels; chairman of the Greater Jefferson City Committee; and a registered engineer in Missouri.

Paul Doll is survived by his wife, Mary R. “Meg” Doll; his son, Robert; two daughters, Mary Beth Huse and Ann C. Comfort; and eight grandchildren. I know that this body joins me in expressing sympathy to the family of this great Missourian.

In Memory of Mr. Oscar Cross of Paducah, Kentucky

HON. ED WHITFIELD
OF KENTUCKY
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. WHITFIELD. Mr. Speaker, I rise today in tribute to the life and legacy of Mr. Oscar Cross of Paducah, Kentucky, whose passing on April 20, 1999 at the age of 92 ended his long and productive investment in great causes, high ideals and humanitarian service.

Mr. Cross was not a man of material wealth. Undeterred, he built a legacy of leadership built on the wisdom of one of his favorite adages: “If you don’t have money, you have time.” He gave unstintingly of his time, his energy and his vision of a better community in which none were left behind.

Mr. Cross was a founder of the Paducah Boys & Girls Club that now bears his name. He was a tireless advocate of young people and helped provide a sheltering hand for generations of boys and girls who found protection, love, guidance and inspiration as the result of his efforts.

In a front-page account of his funeral service, The Paducah Sun observed, “On the day that had been declared Oscar Cross Day by the city of Paducah to commemorate his legacy,” nearly 500 people gathered at First Baptist Church Sunday afternoon for the funeral of the legendary humanitarian. Both blacks and whites filled the church to celebrate, not mourn the life and contributions Cross made.

Dhomynic Lightfoot, president of the Boys and Girls Club, was quoted as saying, "Having people of different colors, cultures and backgrounds here to celebrate (his life) is a contribution to Mr. Cross. The perceptions that he broke were astronomical.

In a fitting eulogy, Reverend Raynaldo Henderson, pastor of the Washington Street Missionary Baptist Church, used a parable to illustrate Mr. Cross’s faith in young people and in God. “Whoever gets the Son, gets it all! Do you want peace? Get the Son! Do you want joy? Get the Son! Whoever gets the Son, gets it all!” he said.

Mr. Speaker, in further tribute to his remarkable life, I place before the House of Representatives and the Nation for inclusion in the Congressional Record a poem favored by Mr. Cross and a letter written to me by Mr. Clarence E. Nunn, Sr., executive director of the Boys and Girls Club.

THE HOUSE BY THE SIDE OF THE ROAD

"HE WAS A FRIEND TO MAN, AND LIVED IN A HOUSE BY THE SIDE OF THE ROAD."

HOMER

There are hermit souls that live withdrawn. In the peace of their self-content.

There are souls, like stars, that dwell apart. In a fellowless firmament;

There are pioneer souls that blaze their course. Where highways never ran; But let me live by the side of the road. And be a friend to man.

Let me live in a house by the side of the road. And be a friend to man. Let me live by the side of the road. Where the race of men go by—

The men who are good and the men who are bad. As good and as bad as I. I would not sit in the sinner’s seat. Or hurl the cynic’s ban.

Let me live in a house by the side of the road. And be a friend to man. I see from my house by the side of the road. By the side of the highway of life.

The men who press with the ardor of hope. The men who are faint with the strife.
But I turn not away from their smiles nor their tears—Both parts of an infinite plan.

Let me live in my house by the side of the road, And be a friend to man.

I know there are brook-gladdened meadows ahead, And mountains of heartburning height,

That the road passes on through the long afternoon, And stretches away to the night.

But still I rejoice when the travelers rejoice, And week with the strangers that moan,

Nor live within the side of the road, Like a man who dwells alone.

Let me live in my house by the side of the road, Where the race of men go by—

They are good, they are bad, they are weak, they are strong,

Wise, foolish—so am I.

Then why should I sit in the scorner's seat, Or hurl the cynic's ban?

Let me live in my house by the side of the road, And be a friend to man.

Sam Walker Fuss.
WAR CRIMINALS BELONG IN THE DOCK, NOT AT LARGE. (By Mark S. Ellis)

Just a few weeks ago, I stood among a sea of 20,000 desperate people on a dirt airfield outside Skopje, Macedonia, listening to one of the Bosnian refugees there. I was struck by the refugees' demeanor. They were sitting and standing on the field, some with their hands folded in their lap, others holding babies, or walking down the row while their children ran in front of them.

The refugees were there because they had been forced to flee their homes in Kosovo. They werefled by the Serbian Interior Ministry police force is an obvious manifestation of such crimes. The refugees with whom I spoke described being robbed, beaten, herded together and forced to flee their villages with nothing but the clothes they were wearing. By confiscating all evidence of the ethnic Albanians' identity—passports, birth certificates, employment records, driver's licenses, marriage licenses—the Serbian forces also severed the refugees' links with their communities and land in Kosovo. This attempt to make each ethnic Albanian a non-person is itself a crime against humanity. Emerging evidence of mass killings, summary executions and rape overwhelmingly supports the suspicion that Milosevic's policies and programs have led to widespread and systematic nature of these crimes.

As to the crime of genocide, the tribunal's statute rests on the 1948 Convention on the Prevention and Punishment of Genocide, which defines genocide as "acts committed with intent to destroy, in whole or in part, a national, ethnical, racial or religious group." Aiding as it did from the extermination of the Jews in Nazi Germany, the convention invites comparison with the Holocaust and is intended to prevent such inhuman crimes from happening again. This tragedy has not reached that perversion of level of brutality but, like earlier efforts to eliminate an entire people's group, the international community is now trying to prevent such crimes from happening again.

The question is whether Genocide—when it is considered a crime—is the same as a war crime, even though the crimes are committed against different targets. The United States military operates under both rules. The question is whether genocide is the same as a war crime, even though the crimes are committed against different targets. The United States military operates under both rules. The question is whether genocide is a war crime, even though the crimes are committed against different targets. The United States military operates under both rules.

The means exist to hold Milosevic and his underlings accountable. In recent weeks, there have been calls from members of Congress for an international Criminal Tribunal for the Former Yugoslavia, and Undersecretary of State Thomas Pickering has said that the United States is gathering evidence and that "no one involved in this conflict in the former Yugoslavia, that was adopted by the House by a record vote of 399 to 1 on September 14, 1998, I was startled and surprised to learn that the United States has not made an effort to gather information on Milosevic as the House and Senate recently requested. The attack has been called "CONFLICT IN THE BALKANS: THE TRIBUNAL; Tactics Were Barrier To Top Serb's Indictment," by Raymond Bonner, appeared in the March 29, 1999, edition of The New York Times. The article notes:
The Clinton administration could hardly have taken the initiative to build a case against Milosevic, one senior administration official said Sunday, after it adopted the policy in late 1994 of working with the Serbian leader to bring about an end to the war in Bosnia. "We, the United States government, have been the largest source of information for the tribunal, but we have never compiled dossiers with the aim of indicting Milosevic, or any specific individual," said this official, who spoke on condition of anonymity. "The indictment against Milosevic would require a policy change by the United States," he added.

If this report is accurate, it is past time for U.S. policy to include the pursuit of a public indictment of Milosevic by the ICTY. Issuance of a Presidential directive establishing such a policy, supported by adequate resources to assure its immediate and effective implementation, is clearly justified by the reports of the Helsinki Commission, which has received evidence that Milosevic is responsible for the following crimes:

- Mass killings—the Serbian Serbs—fleeing from the region of Kosovo—were accused of mass killings, summary executions and rape on a large scale.
- Arson and destruction—Serbian forces also committed widespread arson and destruction.
- Arming civilians—Serbian forces also armed civilians to fight against the Kosovo Liberation Army.
- Use of civilians as human shields—Serbian forces also forced civilians to act as human shields for the Serbian forces.
- Conscripting civilians—Serbian forces also conscripted civilians into the Serbian army and police forces.

The indictment—pending in the International Criminal Tribunal for the Former Yugoslavia—has been delayed by the lack of evidence. The United States should make every effort to ensure that the evidence gathered is admissible in the ICTY. The United States should also consider providing financial assistance to the ICTY in order to ensure that it has the resources to conduct a thorough and impartial investigation of Milosevic's role in the genocide.

In conclusion, I believe that the United States should take the lead in ensuring that Milosevic is held accountable for his crimes. The United States should support the ICTY in its efforts to bring Milosevic to justice. The United States should also consider providing financial assistance to the ICTY in order to ensure that it has the resources to conduct a thorough and impartial investigation of Milosevic's role in the genocide. The United States should also consider providing financial assistance to the ICTY in order to ensure that it has the resources to conduct a thorough and impartial investigation of Milosevic's role in the genocide.

Sincerely,

CHRISTOPHER H. SMITH
Chairman.
The convention addresses intent, and stipulates that to eliminate people—in whole or in part—constitute genocide. Among other acts covered by the convention, crimes of genocide include “(a) killing members of the group; (b) causing serious harm, either physically or morally, to members of the group; (c) deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part.”

In the former Yugoslavia, acts of genocide have been perpetrated through the abhorrent policy of ethnic cleansing—that is, making areas ethnically homogenous by expelling entire segments of the Kosovar population and destroying the very fabric of a people. Ethnic cleansing does not require the elimination of all ethnic Albanians: it may target specific elements of the community that make the group—as a group—sustainable. The abduction the execution of innocent civilians could present its case in open court—without Milosevic being there. By establishing a public record of Milosevic’s role in the crimes committed, such a hearing would be cathartic for both victims and witnesses, and also for citizens who were forced to witness these atrocities. The tribunal would send a clear message that the international community will not negotiate without the authorization or knowledge of the individual, except in narrow circumstances where there is an overriding public interest.

Congress faces an August 21 deadline for passing comprehensive legislation to protect the privacy of health information. I am very pleased to have come together with Mr. CONDIT, Mr. MARKEY, Mr. BROWN, Mr. DINGELL, Mr. TURCOTTE and other colleagues to introduce the Health Information Privacy Act of 1999.

The Health Information Privacy Act of 1999

HON. HENRY A. WAXMAN
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. WAXMAN. Mr. Speaker, I am pleased to join Reps. GARY CONDIT, ED MARKEY, JOHN DINGELL, SHEEROD BROWN, JIM TURNER, and other colleagues in introducing the Health Information Privacy Act of 1999. There is an urgent need for Congress to enact legislation to protect the privacy of medical records. We have worked hard to develop a consensus approach to achieve this goal. Health records contain some of our most personal information. Unfortunately, there is no comprehensive federal law that protects the privacy of medical records. As a result, we face a constant threat of serious privacy intrusions. Our records can be bought and sold for commercial gain, released to employers, and used to deny us insurance. There have been numerous disturbing reports of such inappropriate use and disclosure of health information.

When individual have inadequate control over their health information, our health care system as a whole suffers. For example, a recent survey by the California HealthCare Foundation found that one out of every seven adults has done something “out of the ordinary” to keep health information confidential, including steps such as giving inaccurate information to their providers or avoiding care together. The Health Information Privacy Act would protect the privacy of health information and ensure that individuals have appropriate control over their health records. It is based on three fundamental principles. First, health information should not be released without the authorization or knowledge of the individual, except in narrow circumstances where there is an overriding public interest. Second, individuals should have fundamental rights regarding their health records, such as the right to access, copy, and amend their records, and the opportunity to seek protection for especially sensitive information. Third, federal legislation should provide a “floor,” not a “ceiling,” so that states and the Secretary of Health and Human Services can establish additional protections as appropriate.

Congress faces an August 21 deadline for passing comprehensive legislation to protect the privacy of health information. I am very pleased to have come together with Mr. CONDIT, Mr. MARKEY, Mr. DINGELL, Mr. BROWN, Mr. TURCOTTE and other colleagues in introducing the Health Information Privacy Act of 1999.

INTRODUCING LEGISLATION TO AWARD A CONGRESSIONAL GOLD MEDAL TO REV. THEODORE HESBURGH, C.S.C.

HON. TIM ROEMER
OF INDIANA

IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. ROEMER. Mr. Speaker, I rise today to introduce legislation to award a Congressional Gold Medal to Rev. Theodore Hesburgh, C.S.C. I introduce this bill with Representatives PETER KING, JOHN LEWIS, PETE VISCOLOVSKY, MARK SOUDER, ANNE NORTHUP and 85 original cosponsors in the U.S. House of Representatives. It is my understanding that a companion bill will be introduced in the U.S. Senate later today.

This bipartisan legislation recognizes Father Hesburgh for his many outstanding contributions to the United States and the global community. The bill authorizes the President to award a gold medal to Father Hesburgh on behalf of the United States Congress. It also authorizes the U.S. Mint to strike and sell duplicates to the public.

The public service career of Father Hesburgh, president emeritus of the University of Notre Dame, is as distinguished as his many educational contributions. Over the years, he has held 15 Presidential appointments and he has remained a national leader.
in the fields of education, civil rights and the development of the Third World. Highlighting a lengthy list of awards to Father Hesburgh is the Medal of Freedom, our Nation’s highest civil honor, bestowed on him by President Johnson in 1964.

Mr. Speaker, justice has been the primary focus of Father Hesburgh’s pursuits throughout his life. He was a charter member of the U.S. Commission on Civil Rights, created by Congress in 1957 as a compromise to end a filibuster in the U.S. Senate to prevent passage of any and all legislation concerning civil rights in general and voting rights in particular. Father Hesburgh chaired the commission from 1969 to 1972, until President Nixon replaced him as chairman because of his criticism of the Administration’s civil rights record.

Father Hesburgh stepped down as head of the University of Notre Dame in 1987, ending the longest tenure among active presidents of American institutions of higher learning. He continues in retirement much as he did as the Nation’s senior university chief executive officer—as a leading educator and humanitarian inspiring generations of students and citizens, and generously sharing his wisdom in the struggle for the rights of man. I am personally grateful to Father Hesburgh for his friendship and guidance during my years as a student at the University of Notre Dame. My family shares my gratitude. My grandfather, William Roemer, was a professor of philosophy during the early years of Father Hesburgh’s presidency, and my parents, Jim and Mary Ann Roemer, also worked during his tenure at the University.

Mr. Speaker, I once asked Father Hesburgh for advice about how to raise a happy and healthy family with children. His reply was helpful, insightful and advice I continue to follow today: “Love their mother.” I strongly believe Father Hesburgh’s response here was just one of many shining examples illustrating that his contributions to family values in American society are as numerous and meaningful as his dedicated contributions to human rights, education, the Catholic Church and the global community.

Mr. Speaker, today is Father Hesburgh’s 82nd birthday, and I believe that this is the most appropriate time for Congress and the entire Nation to join me in recognizing this remarkable man and living legend of freedom in America. I strongly encourage my colleagues to support this bipartisan legislation and urge the House of Representatives to pass this important measure.

RUTH HYMAN TESTIMONIAL DINNER AT THE JEWISH COMMUNITY CENTER OF MONMOUTH COUNTY

HON. FRANK PALLONE, JR.
OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. PALLONE. Mr. Speaker, on Tuesday, June 3, 1999, the Jewish Community Center of Greater Monmouth County in Deal, NJ, will honor one of our leading citizens, Ms. Ruth Hyman, with a Testimonial Dinner. I am pleased to add my voice to the chorus of praise for this exceptional lady.

Mr. Speaker, it is rare to see someone who has not only had an impact on her community as Ruth Hyman has, through her professional work, civic commitments, wide-ranging network of friendships and a unique personal flair, she has made a deep and lasting impression. Her accomplishments include her apparel business, Ruth Hyman Fashions, and a lifetime of work with numerous Jewish community organizations. Ruth is currently the President of the Long Branch, NJ, Hadassah, a Benefactor and Board Member of the Jewish Community Center, Board Member of the Jewish Family and Children’s Service, and Member of Congregation of Brothers of Israel. She was the first Chairperson of the Women’s Business and Professional Division of the Jewish Federation. Some of her other affiliations and leadership positions include, Past President and International Life Member of the American Red Magen David for Israel, life member of Daughters of Miriam, AMIT, B’nai B’rith, Past President of Deborah, and Life Member of the Central New Jersey Home for the Aged. She is also Chairperson of the Women’s Division of Israel Bonds, a position she has held for the past 25 years.

All of this hard work has not gone unnoticed, Mr. Speaker. Ruth has been presented with the Hadassah National Leadership Award and the Service Award from the Jewish Federation’s Women’s Campaign, and she was selected as Chai Honoree and Woman of the Year of the Long Branch Chapter of Hadassah. She was chosen by the Jewish Federation as Lay Leader of the Year. She has been presented with the State of Israel Bonds Golda Meir Award, the Service Award from the Jewish Federation Women’s Campaign, and the State of Israel Bonds Ben Gurion Award.

In addition to her major contributions at the Jewish Community Center, Ruth is founder of Hadassah Hospital at Ein Kerem, Israel, and the Mt. Scopus Hospital, where her name is inscribed on the hospital’s Pillar of Hope.

Mr. Speaker, as everyone who has known her will attest, Ruth Hyman’s hard work for the community emanates from her sincere warmth and generosity. It is an honor to join with the JCC in paying tribute to her, for who she is and what she’s done.

PERSONAL EXPLANATION

HON. XAVIER BECERRA
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. BECERRA. Mr. Speaker, on May 24, 1999, I was unavoidably detained during two roll call votes: number 145, on the Motion to Suspend the Rules and Pass H.R. 1251, Designating the Naol Cushing Bateman Post Office Building; and number 146, on the Motion to Suspend the Rules and Pass H.R. 100, to Establish Designations for U.S. Postal Service Buildings in Philadelphia, Pennsylvania. Had I been present for the votes, I would have voted “aye” on roll call votes 145 and 146.

IN HONOR OF THE FIELD MUSEUM’S DEDICATION OF THE SIDNEY R. AND ADDIE YATES EXHIBITION CENTER

HON. JANICE D. SCHAKOWSKY
OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Ms. SCHAKOWSKY. Mr. Speaker, I am very pleased to celebrate the dedication of the Sidney R. and Addie Yates Exhibition Center located at the Field Museum of Natural History in Chicago, IL, on May 27, 1999. The Center is so named because of the tremendous contributions that Congressman Yates and his wife, Addie, made over the years in support of the arts, humanities, and the environment.

There is no greater champion of the arts, humanities, and environment than Congressman Sidney Yates, and there is no greater champion of Congressman Yates than his lifelong mate, Addie. In her own right, Addie has contributed greatly to causes dear to her heart. She spearheaded the wonderful exhibit, “The Children’s Wall of Remembrance,” in the U.S. Holocaust Memorial Museum, commemorating the nearly 1.5 million children who perished in the Holocaust. Through her efforts, hundreds of thousands of American children were educated about the Holocaust and expressed this learning by painting tiles, which eventually found their way to this, now famous, Wall of Remembrance.

Congressman Yates’ illustrious 48-year career in the House included saving the arts and humanities from drastic budget cuts in the 1980’s, helping to establish the National Holocaust Museum here in Washington, DC, empowering the Department of Interior to safeguard more public lands and the rights of Native Americans, and protecting the Tongass National Forest from logging. The Field Museum’s state-of-the-art new exhibition center will be a lasting tribute to the work of Mr. Yates.

Located on Chicago’s beautiful lakefront, the Field Museum is one of the city’s crown jewels. Since its founding in 1893, the Field Museum has been a leader in the natural sciences, conducting world-class research in disciplines such as anthropology, biology, agriculture, ecology and sociology. The Field’s collection of over 20 million specimens, including its recent acquisition of “Sue”, the largest and most complete Tyrannosaurus Rex ever found, serve to both educate and astound the visiting public.

The Sidney R. and Addie Yates Exhibition Center will serve as a permanent tribute to the Congressman in Chicago. It will be seen by the millions of visitors who make the Museum their destination for cultural programming. The facility will offer new temporary exhibits, such as the current exhibit, “The Art of Being Kuna: Layers of Meaning Among the Kuna of Panama,” which will instruct and delight visitors from Chicago, the nation, and the world.

While we miss Sid Yates, we will never forget the legacy he left behind, nor will the millions of visitors to the Field who will gaze and look in wonderment at the exhibits placed in the Center named for Sid and Addie Yates.
not been settled. Settlement of these claims will close a shameful episode in this great nation's history.

The Republican majority continues to use appropriations bills to pass damaging environmental provisions. This time we have Senate provisions to protect narrow special interests at the expense of the environment. We continue to delay reforms to the 1872 mining law that the government receives reasonable royalties from drilling on federal land. I urge my colleagues to vote to recommit this legislation so that the bill's onerous environmental provisions can be removed.

So, while I share the reservations voiced by many of my colleagues, I believe we need to move forward with the important work H.R. 1141 funds.

PERSONAL EXPLANATION

HON. ROBERT W. NEY
OF OHIO
IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. NEY. Mr. Speaker, I commend the following statement to my colleagues. When I was traveling back to Washington, D.C. on May 24, 1999, H.R. 974, the District of Columbia College Access Act, was passed by voice vote. Due to the fact that I was commuting and the vote took place before the 6 p.m. scheduled time, I missed the voice vote. I would like to make it known for the record that had I been present, I would have asked for a recorded vote and voted against this bill. I do not feel that students in the District of Columbia should be made "exceptions" when it comes to paying in-states fees at any state institution. This privilege is not granted to students in this country who choose to attend a state college outside of their residential state.

CROATIAN SONS LODGE NUMBER 170 OF THE CROATIAN FRATERNAL UNION CELEBRATES ITS 92ND ANNIVERSARY

HON. PETER J. VISCLOSKY
OF INDIANA
IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. VISCLOSKY. Mr. Speaker, it is my distinct honor to congratulate the Croatian Sons Lodge Number 170 of the Croatian Fraternal Union on the festive occasion of its 92nd Anniversary and Golden Member banquet on Sunday, June 6, 1999.

This year, the Croatian Fraternal Union will hold this gala event at the Croatian Center in Merrillville, Indiana. Traditionally, the anniversary celebration entails a formal recognition of the Union's Golden Members, those who have achieved fifty years of membership. This year's honorees who have attained fifty years of membership include: Frances Joan Banchy, William A. Conway, Thomas Fadlevic, Marie Flynn, Edward W. Fritz, Frank Grishka, Steve Massack, Violet Mae Mikulich, John Micak, Mary Patterson, Marian P. Ritter, and Mike Svaco.

These loyal and dedicated individuals share this prestigious honor with approximately 300 additional Lodge members who have previously attained this status.

This memorable day will begin with a morning mass at Saint Joseph the Worker Catholic Church in Gary, Indiana, with the Reverend Father Benedict Beniakovich officiating. In the afternoon, there will be a program featuring a guest speaker, Mr. John Buncich, Sheriff of Lake County, Indiana. The festivities will be culturally enriched by the performance of several Croatian musical groups. The Croatian Glee Club, "Preradovic," directed by Brother Dennis Barunica, and the Hoosier Hrvarti Adult Tamburitza Orchestra, directed by Edo Sindicich, will both perform at this gala event. The Croatian Strings Tamburitans and Junior Dancers directed by Dennis Barunica, and the Adult Kolo group, under the direction of Elizabeth Krzykakies, will provide additional entertainment for those in attendance. A formal dinner banquet at 4 o'clock in the afternoon will end the day's festivities.

Mr. Speaker, I urge you and my other distinguished colleagues to join me in commending Lodge president Betty Morgavan, and all the other members of the Croatian Fraternal Union Lodge Number 170, for their loyalty and radiant display of passion for their ethnicity. The Croatian community has played a key role in enriching the quality of life and culture of Northwest Indiana. It is my hope that this year will bring renewed hope and prosperity for all members of the Croatian community and their families.

CONGRATULATIONS TO BLUE RIBBON SCHOOL RECIPIENT PRINCESS VICTORIA KA'IULANI ELEMENTARY SCHOOL

HON. NEIL ABERCROMBIE
OF HAWAII
IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. ABERCROMBIE. Mr. Speaker, I rise today to congratulate Princess Victoria Ka'ulani Elementary School, which has earned the prestigious Blue Ribbon Schools Award from the U.S. Department of Education. The Blue Ribbon Schools Program identifies and gives national recognition to a diverse group of public and private schools that have been judged particularly effective in meeting local, state, and national goals. In being selected, Princess Ka'ulani Elementary School demonstrated its strong leadership by providing high quality teaching, insitling policies and practices that ensure a safe environment conducive to learning, initiating strong parental and community involvement, and helping all students achieve to high standards.

The awarding of Princess Victoria Ka'ulani Elementary School as a Blue Ribbon School is no small achievement, and I feel made even more special by the fact that this year marks the school's centennial anniversary. The school opened its doors on April 22, 1899 and was named for the beautiful Princess Victoria Ka'ulani. The name Ka'ulani...
mean “Child from Heaven.” The students come from diverse cultures and various social backgrounds in the Kalihi-Palama neighborhood of Honolulu, Hawaii. And while the neighborhood is sometimes known for gangs and drug dealing, the school has a warm and friendly environment. The school definitely exudes the spirit of “aloha” and “ohana” (family). This nurturing atmosphere helps students to believe in themselves and offers an opportunity to learn and move forward.

There are a variety of factors that contribute to the school’s success. For example, at the beginning of each year, parents are given a student ready reference guide, a school profile, and a syllabus of the school’s curriculum and activities. To further initiate parental involvement, a monthly parent bulletin is jointly authored by Title I, Parent-Community Networking Centers (PCNC), Primary School Adjustment Project (PSAP) and the Principal. Community involvement also includes groups such as The Rotary Club of Metropolitan Honolulu, the USS Louisville, 516th Signal Brigade from the Fort Shafter Army Installation and the USS Chicago have contributed to the school’s various campus beautification projects, providing access to the Internet and even assisting in classes and chaperoning field trips. Also, English Second Language Learners (ESLL) provides support to 101 students whose native language range from Vietnamese, Ilocano, Cantonese, Samoan, Tagalog, Visayan, Hawaiian, and Fijian. In fact, students have continued to improve in Spanish, Tongan, Micronesian and Fijian. In fact, students have continued to improve in Spanish, Tongan, Micronesian and Fijian. In fact, students have continued to improve in Spanish, Tongan, Micronesian and Fijian. In fact, students have continued to improve in Spanish, Tongan, Micronesian and Fijian.

As in the past years, National Police Week was a great demonstration of this grateful nation’s appreciation for the service and sacrifices of police officers.

In my home island of Guam, services were also held to recognize and remember those who have fallen. In ceremonies held annually, police officers who have lost their lives in the line of duty were honored. The list included: Conservation Officer Francisco Isezaki, Police Officer I John M. Santos, Special Agent Larry D. Wallace, Police Officer I Francisco A. Reyes, Police Officer III Thomas M. Sablan, Police Reserve Officer Rudy C. Iglesias, Police Officer Reserve Helen K. Lizzama, Police Officer I Raymond S. Sanchez, Corrections Officer I Douglas W. Mashburn, Police Officer I Eddie, A. Santos, USAF Sgt Stacey E. Levay, Police Officer I Francisco D. Talatague, Police Officer I Manuel A. Aquino, and Police Lieutenant Francisco C. Tovar. Those who have passed on within the past year were also remembered in this year’s ceremonies. This list included: Col Francisco T. Aquiqui, Sgt Jesus Pangelinan, Police Officer Joe Gutierrez, Detention Officer Eugene Benavente, and Police Officer Ralph Bartels.

The people of Guam join the nation in paying tribute and offering thanks for the service and sacrifices of peace officers.

TAWAIN CELEBRATES PRESIDENTIAL ANNIVERSARY

HON. GARY L. ACKERMAN
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. ACKERMAN. Mr. Speaker, I rise today to recognize and honor President Lee Teng-hui of the Republic of China on Taiwan who celebrated his third anniversary in office on May 20th, 1999. President Lee has amassed a number of accomplishments throughout the last three years.

Of all the contemporary leaders that the Republic of China has had, President Lee Teng-hui stands out due to his exceptional ability to guide his nation through the transition to a democratic republic. Furthermore, the effects of the severe financial crisis which has affected much of Asia have been much less severe in Taiwan. This discrepancy can be attributed to President Lee Teng-hui’s ability to maintain a stable democratic environment which has allowed a solid foundation for its economy to grow. In addition, he has given his people hope and optimism in Taiwan’s ability to confront the future.

President Lee Teng-hui has also made great efforts in trying to reach out to his compatriots on the Chinese mainland. Unfortunately, his gestures of friendship have been answered with lukewarm responses at best from the PRC leadership. However, President Lee Teng-hui refuses to give up his hope of seeing a free and unified China in the future and continues to pursue a policy to that end. His persistence is a sign of his dedication to democracy and is greatly appreciated by the Western world, and in particular the United States.

I wish President Lee Teng-hui every success in the future. He is a respected leader of a free, prosperous and democratic country and deserves no less than our full support.

PERSONAL EXPLANATION

HON. ROBERT A. WEYGAND
OF RHODE ISLAND
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. WEYGAND. Mr. Speaker, because of weather-related travel difficulties, I was unfortunately delayed in my district Monday, May 24, 1999 and missed several votes as a result.

Had I been here, I would have voted in the following way:

I would have voted yea on rollcall votes 145 and 146.

TRIBUTE TO CHARLES JOHN EBNER

HON. JOHN J. LaFALCE
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. LaFALCE. Mr. Speaker, I rise today to pay tribute to my good friend and cousin, Charles “Chuck” Ebner, on the occasion of his 75th birthday on June 7th. Chuck was born in Albany, New York, and currently resides with his wife, Laurel, in Barberton, Ohio. I would like to bring to the attention of my colleagues the dedicated service to country and community that has distinguished the life of Charles John Ebner.

In 1942, at the age of 18, Chuck enlisted in the U.S. Navy and was a “selected volunteer” for the U.S. Naval Armed Guard. He attended Gurney School in Virginia and then was assigned to his first ship, the U.S.S. China Mail, whose mission was to transport troops to Africa.

On his second tour of duty on the China Mail, the ship circumnavigated the world. The long voyage embarked from the West Coast of Africa, traveling westward across the Atlantic to the Caribbean and through the Panama Canal. After crossing the South Pacific to Australia, the China Mail continued across the Indian Ocean and into the Persian Gulf, where it dropped off cargo in Iran. The ship passed through the Suez Canal and sailed across the Mediterranean on its return to the West Coast of Africa.

Chuck then returned to the Brooklyn Navy Yard where he prepared for his next assignment as a gunner on the U.S.S. Carlos Carrillo. Later he was transferred to the U.S.S. Sacajawea, which took part in the invasion of Leyte in the Philippines. Shortly thereafter, his ship sailed to Pearl Harbor. At the end of the war, Chuck was ordered to return to the United States where he was honorably discharged from the U.S. Navy at Lido Beach, New York on October 14, 1945.

But Chuck’s patriotism and sense of duty inspired him to re-enlist in the U.S. Navy on February 13, 1947 and train to become a radioman. In that capacity, he was assigned to the U.S.S. Prairie and stationed at the Atlantic...
Mr. ROTHMAN. Mr. Speaker, I am submitting today for the RECORD the enclosed article written by Mr. Leonard Cole of Ridgewood, New Jersey. Mr. Cole, who serves as the distinguished chairman of the Communal Unity Committee of United Jewish Appeal Federation of Bergen County and North Hudson and as vice chair of the Jewish Council for Public Affairs, recently returned from refugee camps in Tirana, Albania. In his article, Mr. Cole eloquently illustrates the remarkable humanitarian efforts being made by the Jewish Agency for Israel, the American Jewish Joint Distribution Committee, in association with the United Jewish Communities, to assist refugees displaced as a result of the conflict in Kosovo. I am confident that all of our colleagues will find much food for thought in this well-written article.

[From the Jewish Standard, May 14, 1999] FINDING KINDNESS AMID CHAOS

(By Leonard A. Cole)

Nearly 15 years ago, on a two-day mission to Israel, I witnessed lines of bedraggled Ethiopian Jews emerge from an El Al airplane. They had suddenly been transported from a 14th-century existence in Ethiopia to a 20th-century life in Israel. Last week, during another two-day mission, I witnessed a sad omen. In the company of Israeli and American Jews, I visited refugees in a camp in Tirana, Albania, whose lives have been reduced to primitive survival. Among the 800,000 ethnic Albanians hounded out of Kosovo, 5,000 were crowded into this Tirana camp. Living eight and nine to a tent, able to bathe once a week, they are uncertain where or if they have a future. The only heartening similarity between the experiences of the Ethiopian Jews and Kosovar Muslims has been the rapid humanitarian response by Jews and other caring people around the world. And none have shown more care than the people of Israel.

For seven weeks, out of noble intention, NATO planes have zeroed in on Serb military targets with bombs and missiles. The attacks were intended to stop Yugoslav President Slobodan Milosevic's policy of murder and deportation; the destruction of unintended targets, including the Chinese embassy, a hospital complex, and convoys of refugees. The anticipated casualties were underscored for me by the sight of scores of U.S. helicopters sitting idly in Albania's major airport. Although the war, which ended in May 1999, was eventually effective against ground targets, none has yet been used, apparently in fear that Serbian firepower was still too threatening in these low-flying craft. Exactly how the military and political issues will be resolved remains uncertain. What is clear, however, is that the victims of the conflict need immediate attention.

In the early hours of May 5, our plane, chartered by the Jewish Agency for Israel (JAFI), was preparing to take off from Ben-Gurion airport. We were beginning a two-day whirlwind of visits to Albania, Hungary, and back to Israel. We would be traveling through a thicket of suffering, but also witnessing efforts to alleviate it. Under the auspices of the newly constituted United Jewish Communities (UJC), some two dozen representatives from North American federations had come as a balance for the supplies that had been loaded into the rear cargo area. Like 23 previous flights from Israel, eight of them chartered by JAFI, the main purpose was to deliver supplies obtained from contributions by Israelis and Jews throughout the world.

At the refugee camp, we watched as carton after carton of supplies was unloaded from the aircraft and hauled to the frontlines. The supplies included food, blankets, towels, dippers, soap, toys, and more. The Israelis built and staffed the first field hospital in a refugee camp.

Delivering supplies to the Albanian Muslims was only part of the humanitarian effort we witnessed in that part of the world. We next flew to Hungary, where we met dozens of Jews from Serbia who fled the bombings as well as Jews from the Hungarian Jewish community in Budapest. On the second day of the war, Asa Zinger, head of the Jewish community in Belgrade, Yugoslavia, flew to Budapest in an effort to get aid to his homeland. He arrived with 120 Hungarian Jews. Two of the 300 Jews of Serbia, Zoltai quickly arranged for his community to receive as many as they could. In both cases, the people, mostly in their 70s, are Holocaust survivors. "For us," said Zoltai, "it would be difficult to know of such
suffering by a Jewish community and not to help."

About 400 Jews from Serbia have become guests of the Budapest Jewish community. Since males between 14 and 65 cannot leave Serbia, being split. In complex cases, mothers have come with their children to Budapest; in others just the children have been sent.

But that is not all. Israel is also playing host to Muslim and Jewish refugees from the fighting areas. In fact, when we flew back to Israel that evening, 32 Yugoslav Jews who had been staying in Budapest came up with us.

Some were coming as visitors, and others to make aliya. All these efforts are also being assisted by JAFI and the JDC—that is, through resources provided by Jews everywhere.

In Israel, we visited with several of the hundreds of Kosovars and Serbs—Muslims and Jews—that the state is hosting.

Each had his own sad story, though all expressed gratitude for the kindness extended by Israelis and other Jews. Perhaps the most memorable exchange occurred when a member of the UJC delegation asked a Jewish family from Kosovo what they had expected before arriving in Israel. Anita Conforti, 22, translated her mother’s answer into English: “Warm deserts and cold people.”

What did you find after you got here? “Paradise.”

UNION CARBIDE CORPORATION TECHNICAL CENTER IN SOUTH CHARLESTON CELEBRATES ITS 50TH ANNIVERSARY

HON. ROBERT E. WISE, JR.
OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. WISE. Mr. Speaker, I would like to extend my congratulations to the Union Carbide Corporation Technical Center in South Charleston in celebration of its 50th Anniversary.

As an innovator for Union Carbide activities worldwide, the Technical Center was first occupied in April of 1949 in the Research Building. Occupants from the Union Carbide South Charleston Plant soon occupied the Technical Center.

Since that time 50 years ago, the site has grown to approximately 650 acres with approximately 125 acres developed. By offering support through research and development of technology used in the chemical industry and providing engineering for the construction of plant facilities and support to computer systems, the Technical Center offers worldwide assistance to Union Carbide manufacturing businesses.

Building upon its success as an innovator as a multinational petrochemical company, Union Carbide now provides 25 percent of the world’s manufacture of polyethylene. It should come as no surprise that Union Carbide has garnered awards for three of its products and services which were primarily developed at the Technical Center. These include the UNIPOL process for polyethylene, the low-pressure OXO process, used to make alcohols and acids and finally the production of ethylene oxide and the derivatives of ethylene oxide, in which Union Carbide is the world’s largest producer.

I commend Dr. William H. Joyce, CEO of Union Carbide Corporation and the employees of the Technical Center and look forward to continuing a very productive working relationship. The Technical Center, in addition to being a highly profitable and decorated organization, has been a good corporate citizen in its involvement as volunteers in the area and a good partner for the community.

I again congratulate the Union Carbide Corporation Technical Center in recognition of its anniversary and offer my wishes for continued success and prosperity.

TRIBUTE TO MS. AMANDA IANNUZZI, BRONZE CONGRESSIONAL AWARD WINNER

HON. MICHAEL F. DOYLE
OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. DOYLE. Mr. Speaker, I rise today in praise of an outstanding young adult from the 18th Congressional District of Pennsylvania. Ms. Amanda Iannuzzi, a Congressional Award medal recipient. Amanda’s commitment to self-development and community involvement serves as an inspiration to people of all ages, and illustrates the accomplishments that come with hard work and determination.

Without motivation, however, hard work and determination are destined to remain unfulfilled ideals. Amanda’s motivation breathed life into innumerable commendable acts. Not only did Amanda involve herself in volunteer work, but invested time in broadening her artistic and physical skills. While much of what is directed towards young people is prescriptive in nature, it is important to note that these acts were of Amanda’s own design and were completed with her own resolve.

Upon review of Amanda’s achievements, one is particularly struck by the considerable amount of time that was devoted to obtaining this award. Hundreds of hours over the course of months were invested. Clearly, Amanda recognizes the immense value of giving one’s time to help others. It is my hope that your actions foreshadow a life distinguished by the pursuit of new challenges.

Congratulations Amanda! Best wishes to you for continued success.

HONORING SISTER BRIGID DRISCOLL

HON. BENJAMIN A. GILMAN
OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. GILMAN. Mr. Speaker, I rise today to ask my colleagues to join in honoring sister Brigid Driscoll, President of Marymount College, who, as a prominent figure from my district, has been a role model for the espousal of women’s education for the last forty years. Sister Brigid, who will be retiring from her position in June, has devoted her life to Marymount College, establishing its solid foundation within the educational arena and the greater Tarrytown, New York community.

For more than twenty years as its president, and before that as an administrator and faculty member, Sister Brigid’s visionary leadership has overseen Marymount’s transformation from a homogeneous liberal arts college exclusively for women, to an institution that maintains a strong focus on women, while
serving an inclusive population of adult and international students. She has been recognized as an outspoken supporter of state and federal financial assistance for students, as well as a public policy advocate for independent higher education.

Among Sister Brigid’s many contributions to Marymount was her vision for an educational setting that would enable many people in the surrounding communities to reach their full potential through education. In 1975, Sister Brigid founded Marymount Weekend College, one of the country’s first full bachelor’s degree programs for working women and men exclusively in the weekend format.

Sister Brigid’s leadership and interest in the community is far reaching, as is her service and expertise in the field of education. Currently, she serves as a board member of First American Bankshares, Inc., the Westchester County Association, and as a member of Women’s Education in Action, a group of 300 leading women in the professions, arts, and business in New York whose membership is by invitation only. In the educational sector, her present directorships include Saint Mary’s College in Notre Dame, Indiana, Marymount School in New York City, the National Association of Independent Colleges and Universities, and the New York State Commission of Independent Colleges and Universities.

In the past, Sister Brigid has served on the board of Axe-Houghton funds, the Statue of Liberty/Ellis Island Commission, the United Way of American Second Century Initiative, the National Board of Girl Scouts USA, Governor Mario Cuomo’s task force on the General Motors Plant Closing in Tarrytown, and Governor George Pataki’s Transition Team for Education. Her previous directorships include the Council of Independent Colleges, the Westchester Education Coalition, and the Association of Catholic Colleges and Universities, where she also served as a representative to the Consultation on the Apostolic Constitution on Catholic Universities in Rome.

Recently, the issue of gender bias in American classrooms has sparked a national advertising campaign supporting women’s achievements in education. Sister Brigid served on the committee of the Women’s College Coalition that approved the creative content for the national campaign. Before the idea of this campaign was ever conceived, Marymount College, with the full support of Sister Brigid, responded to the challenge of making the educational needs of all women and girls a priority by creating the Marymount Institute for the Education of Women and Girls, an organization by creating the Marymount Institute for the educational needs of all women and girls a priority. After hearing this brief portrait of a remarkable woman, I know that my colleagues will want to join me in honoring and commending Sister Brigid Driscoll for her many achievements. I am confident that she will remain a vital component of Marymount’s commitment to achieving equality of opportunity for women.

We join with Sister Brigid’s many friends, students and admirers in wishing her good health and happiness in her retirement.

INTRODUCTION OF THE CITIZEN LEGISLATURE AND POLITICAL FREEDOM ACT

HON. JOHN T. DOOLITTLE
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

May 25, 1999

Mr. DOOLITTLE. Mr. Speaker, today Majority Whip Tom DeLay and I are joining the chorus of calls in Congress for campaign finance reform because we agree that the current system is broken. There is something fundamentally wrong with the way political campaigns in America today are financed. However, the reforms encompassed in the bill we are introducing today take a very different direction than most bills that have been introduced on campaign finance thus far. These bills share a common thread—they call for more government regulation into federal campaigns.

I believe that the proposals that call for greater regulation of our campaign finance system misdiagnose the problem. I submit that what has caused our failed campaign finance system is the regulation itself. If we want to deal with the real, underlying problem, we need to undo the regulations.

The Doolittle-DeLay approach is the proper remedy to what ails our campaign finance system. It is one that the courts have struck down, but rather which was left intact, the present campaign finance law.

The regulators would do well to remember that it was not the Supreme Court that put unreasonably low limits on how much individuals and groups could contribute to campaigns about the false index to index the inflation. It was not the Supreme Court that ran roughshod over the first amendment rights of office-seekers and other citizens. And it was not the Supreme Court that stacked the deck against challengers, locking in incumbents at an un-precedented rate. No, the problem is not that the Court invalidated part of the regulators’ grand scheme; the problem is that too much of their scheme remains intact.

I believe it is time we declare “the emperor has no clothes.” It’s time to dispel the myths perpetuated by the architects of today’s failed campaign finance scheme. And while the regulators devise new such schemes on how to limit participation in elections and eliminate money from campaigns, we should look at the real problems that have been caused by their regulatory approach to reform.

Today’s campaign finance system requires current and prospective office-holders to spend too much time raising money and not enough time governing and debating issues. The present system has failed to make elections more competitive and allows millionaires to purchase congressional seats. While a millionaire can write a check for whatever amount he or she wants to their election campaign, everyone else is forced to live under the same hard dollar limits that were put in place in 1974, which have not even been adjusted for inflation.

Today’s system hurts voters in our republic by forcing more contributors and political activists to operate outside of the system where they are accountable and, consequently, less responsible. The big government reformers agree with me on this point, but their solution, of course, is more regulation. Beyond being unconstitutional, more regulation, such as banning soft money and limiting issue ads (ala Shays-Meehan), will only make the system worse. I don’t often agree with my home-town newspaper, the Sacramento Bee, but last year they put out an editorial on CFR (ala Shays-Meehan), will only make the system worse. I don’t often agree with my home-town newspaper, the Sacramento Bee, but last year they put out an editorial on CFR which I agreed with on many points. Speaking about recent reforms, the Shays-Meehan bill would be to push political spending even farther away from the responsible candidate-centered candidates and committees.

The Shays-Meehan bill would be to push political spending even farther away from the responsible candidate-centered candidates and committees.

These are the problems we face today. And before we decide what reforms should be implemented, we need to decide where we Want.
HOLT-LUCAS-MOORE “LOCK-BOX” WILL PROTECT SOCIAL SECURITY AND MEDICARE

HON. RUSH D. HOLT
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Mr. HOLT. Mr. Speaker, I rise today to offer, along with my colleagues, Representatives Lucas and Moore, legislation to safeguard two of our nation’s most important programs for the elderly, Social Security and Medicare.

As I travel around my central New Jersey District, I hear constantly from people who rely on Social Security and Medicare. Congress has no greater domestic priority this year than strengthening and protecting Social Security and Medicare. Our bill would ensure that that priority is recognized in law.

The Holt-Lucas-Moore Social Security and Medicare “lock-box” would require that every penny of the entire budget surplus, not just the Social Security surplus, be saved until legislation is enacted to strengthen and protect Social Security and Medicare.

Any new spending increases would have to be fully offset until solvency has been extended for Social Security by 75 years and for Medicare by 30 years. This requirement would be enforced by new points of order against any budget resolutions or legislation violating this condition.

My colleagues and I believe that spending any projected budget surpluses before protecting and strengthening Social Security and Medicare would be wrong. Projected budget surpluses over the next decade offer a once-in-a-lifetime opportunity for addressing the challenges that Social Security and Medicare face. This hard-won achievement resulted from responsible steps that were taken in the past. We should not deviate from the path of responsibility now, with problems looming over the horizon for Social Security and Medicare. In fact, we should follow the old adage to “fix our roofs when the sun is shining.” This is in keeping with what the President has proposed.

Some portion of the surpluses outside of Social Security and Medicare will be needed to address the challenges that those programs will face. Thus, we should save Social Security and Medicare first before squandering any of the Social Security surplus, the Medicare surplus or any other government surplus.

Furthermore, paying off the public debt can make an important indirect contribution to the sustainability of Social Security and Medicare. Virtually all economists, including Federal Reserve Chairman Greenspan, argue that paying down the public debt would increase national savings, promote long-run economic growth and create a larger future economy to support a larger, retired population. Fiscal discipline has served our economy well in recent years by helping to sustain the longest peacetime expansion in United States history.

We are offering this proposal now because we are concerned about the carelessness with which some Social Security “lock-box” proposals are being brought to the floor, completely bypassing the normal committee process. Proposals to protect and strengthen Social Security and Medicare deserve thorough examination and careful consideration. Congress should not take short-cuts when considering changes to these hallmark programs for America’s seniors.

For example, Congress is expected to consider this week the Herger-Shaw “lock-box” bill, which offers only the minimum protection for Social Security and Medicare. While Herger-Shaw does attempt to protect the Social Security surplus, merely doing this does nothing to extend solvency for Social Security, and it does nothing at all for Medicare. The Holt-Lucas “lock-box” is superior to Herger-Shaw because its lock-box is more secure and has more money in it. Holt-Lucas saves the entire surplus, not just the Social Security surplus.

Mr. Speaker, Social Security and Medicare are some of the most important and successful programs of the 20th Century. We must not forget that they provide vitally important protections for American seniors. A majority of workers have no pension coverage other than Social Security, and more than three fifths of seniors receive most of their income from Social Security.

Let’s put the need of America’s current and future retirees first.
The Senate met at 9:32 a.m. and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Our loving, heavenly Father, as we approach the Memorial Day recess, we pause gratefully to remember those who gave their lives for our Nation. “Greater love has no one than this, than to lay down one’s life for his friends.”—John 15:13. Help us never to forget their sacrifice in defense of our Nation and democracy. May we be a nation worthy of their dedication to the cause of freedom which cost them their lives.

Along with the heroes of the past we also remember our loved ones and friends who have graduated to heaven. Thank You for overcoming our fear of death with the sure conviction that this life is but a small part of the whole of eternity and death is a transition and not an ending. Help us to know You and love You in this life so that worry over death will be past. Thank You for the gift of eternal hope. Through our Lord and Savior. Amen.

RECOGNITION OF THE ACTING MAJORITY LEADER

The President pro tempore. The able acting majority leader is recognized.

ORDER FOR MORNING BUSINESS

Mr. ALLARD. Mr. President, I ask unanimous consent that there be a period of morning business until 10:15 this morning with Senators to speak for up to 10 minutes each.

The President pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. ALLARD. This morning, at 10:15, the Senate will resume consideration of the Department of Defense authorization bill and begin debate on amendments to the bill. Senator BROWNBACK is expected to offer an amendment regarding Pakistan, which will be followed by an amendment by Senator KERRY of Nebraska regarding strategic nuclear development systems. Under a previous consent, at 11:45 the Senate will resume consideration of the BRAC amendment. At least one vote will occur in relation to the BRAC amendment at 1:45 p.m. Therefore, Senators can expect the first vote for today to occur at approximately 1:45 p.m. Senators who have amendments to S. 1059 should contact the bill managers so action on this bill can be completed prior to the scheduled Memorial Day recess.

MEASURE PLACED ON CALENDAR

Mr. ALLARD. I understand there is a joint resolution at the desk due for its second reading. The President pro tempore. The clerk will read the measure for the second time.

The assistant legislative clerk read as follows:

A joint resolution (S.J. Res. 26) expressing the sense of the Congress with respect to the court-martial conviction of the late Rear Admiral Charles Butler McVay III, and calling upon the President to award a Presidential Unit Citation to the final crew of the U.S.S. Indianapolis.

Mr. ALLARD. I object to further proceedings on this matter at this time.

The President pro tempore. The measure will be placed on the calendar.

Mr. ALLARD. Mr. President, I suggest the absence of a quorum.

The President pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The Presiding Officer (Mr. ALLARD). Without objection, it is so ordered.

MORNING BUSINESS

The Presiding Officer. There will now be a period of morning business until 10:15. The Senator from Kansas is recognized.

LIFTING OF ECONOMIC SANCTIONS ON INDIA AND PAKISTAN

Mr. BROWNBACK. Mr. President, today we had this time reserved to discuss an amendment that I was planning to offer dealing with the lifting of economic sanctions on India and Pakistan. I did so in the belief, actually in the hope, that the bilateral relationship between India and Pakistan had improved in the wake of the Lahore summit. The summit seemed to imply that. Unfortunately, I was wrong.

According to Indian news agencies Indian helicopter gun ships, backed by MIG–17 fighter aircraft from India’s air force bombed the troubled state of Kashmir, marking the most serious escalation of tensions on the Indo-Pakistani border in the last several years. As a result, I have reconsidered the wisdom of offering my amendment on India and Pakistan at this time.

It is important that I note here today that I strongly believe in the long term importance of easing economic sanctions on both of these nations. I also believe that the United States ignores at its peril these two vital countries. That reality is highlighted all the more by yesterday’s release of the Cox report on China which, if nothing else, has clearly shown that China is a serious threat in South Asia—not to speak of a threat to our fundamental values around the world—and that we need to broaden our relationship with India in the South Asian subcontinent.

I hope to revisit this issue in the near future. Let me emphasize that I will not feel comfortable doing so until there is a serious de-escalation of tension on the subcontinent.

I just wanted to point this out and to enter into the Record an Associated Press story about India launching airstrikes into Kashmir against infiltrators. I think we have a lot to learn yet about what specifically took place. Those details are sketchy and not coming in at the present time.

I ask unanimous consent that this article be printed in the Record.

There being no objection, the article was ordered to be printed in the Record, as follows:

INDIA LAUNCHES AIR STRIKES IN KASHMIR AGAINST INFILTRATORS

(By Arthur Max)

DRAS, INDIA (AP).—Indian air force jets and helicopters fired on suspected guerrillas in the disputed Kashmir province today, marking the most serious escalation of fighting in the region since India and Pakistan tested nuclear weapons last year. Pakistan charged that Indian aircraft bombed its territory in the raids today and an army spokesman said the country is ready for “all eventualities.”

“We think it is a very grave escalation and Pakistan armed forces reserves the right to respond,” said Brigadier Rashid Qureshi, a military spokesman told The Associated Press. India said the attacks occurred solely on its own territory and that they were aimed at what it called Afghan mercenaries supported by Pakistani forces. The forces had moved into the Indian-controlled Himalayan region earlier this month and posed a threat to Indian supply lines in the Himalayan state, Indian officials said.

“This is the start of operations and they will continue until our defense forces recapture our territories. Any escalation of this conflict will be entirely the responsibility of Pakistan,” the Defense Ministry said in a statement in New Delhi.

Pakistani Foreign Minister Sartaj Aziz said that Pakistan knew nothing about the infiltrators. “No one knows where they come from and who they are,” he said.
Quereshi said the army rejected Indian allegations that elite troops were aiding militants as “complete rubbish.”

Indian Maj. Gen. Joginder Jaswant Singh told reporters in New Delhi that the infiltrators have taken up positions four miles inside India in the Dras, Baltalik, Kaksar and Mashaik regions in northern Kashmir.

Intelligence reports, backed by photos taken by Indian satellites, showed at least 600 infiltrators, Singh said. The reports also said they have anti-aircraft missiles, radars, snowmobiles and sophisticated communications equipment.

The air force joined the operation because the infiltrators had occupied positions at altitudes of up to 16,000 feet, said Air Commodore Subash Bhojwani, director of offensive operations.

In 1999, 100 miles from the state capital of Srinagar, Indian army officers said the target of today’s attack was some 70 infiltrators who had entrenched themselves on the slopes of the Dras, looking down at Indian army convoys, 2,700 feet below.

Their command of the heights handicapped Indian soldiers trying to evict them, officers told The Associated Press.

Army officers in the area said the infiltrators must have taken months to occupy the posts. They said Indian forces could take three to six months to clear them.

The attacks were carried out within Indian-occupied regions, Indian Brig. Mohan Bhandari said. Troops were expected to take over infiltrator positions once they return, officials said.

The exchange of mortar and heavy artillery fire in the Kargil and Dras regions has left at least 109 people dead, Bhandari said.

Thousands of residents of the region have fled to safe villages along the Suru River.

The attack came a day after Prime Minister Atal Bihari Vajpayee said all steps including airstrikes would be taken to push back the infiltrators. Vajpayee said he warned his Pakistani counterpart, Nawaz Sharif, to withdraw the intruders in a telephone conversation Monday.

Mr. BROWNBACK. Mr. President, I want to simply note again that we held a hearing yesterday on what is taking place in India and on military and political developments in the United States needs to broaden its relationship with India. We have a broad-based relationship with China which has been strained and stressed, China is an authoritarian country, India is a democracy. There are other places in the world that we are sanctioning India where we don’t sanction China at all. Yet these are comparable-sized countries. One has a democratic tradition, the other an authoritarian. There are a number of problems in China that we aren’t experiencing with India.

We need to broaden this relationship with India and with Pakistan. It is just that at the present time, given what has just taken place in the escalating of tension in this subcontinent by India and Pakistan, I don’t feel comfortable offering this amendment.

I look forward to working in good faith with all of my colleagues to address the United States-South Asian relationship. I note to Members of the Senate that we will be holding hearings in the Foreign Relations Committee to look further into what we need to do in building this stronger relationship.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. AKAKA. Mr. President, I ask unanimous consent that I have 10 minutes in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator may proceed.

HUMAN TRAFFICKING FOR FORCED LABOR IN AN AMERICAN COMMONWEALTH

Mr. AKAKA. Mr. President, I rise today to call your attention to a scandal in an American commonwealth. It is a scandal involving forced labor and sex trade workers. It’s not a pretty picture. It is a picture of a tropical paradise destroyed by greed and corruption.

In the Commonwealth of the Northern Mariana Islands, foreign workers have been imported in mass to assemble goods for export to the United States. Taking advantage of loopholes in our immigration and labor laws, foreign businessmen use the Marianas Islands as a low-cost port of origin and import garments to the United States. These foreign businessmen pay no export taxes, and their goods are not subject to textile quotas. Their workers are paid below minimum wage levels, if paid at all, and often live in deplorable conditions.

Women from Asia and Russia are imported with the promise of high paying jobs in the United States only to find themselves marooned with no means of escape, forced to work as prostitutes in the booming Mariana sex trade.

This long-running scandal has been exposed once again by the Global Survival Network. This American-based nongovernmental organization which uncovers human rights violations sent an undercover team to the CNMI to gather evidence on the continued use of forced labor in the commonwealth.

They have just issued their report which was the subject of an ABC News segment on "20/20." If you did not see the television broadcast, please read the report which I am sending to every Member of the Senate.

Entitled "Trapped: Human Trafficking for Forced Labor in The Commonwealth of The Northern Mariana Islands (a U.S. Territory)," the report demonstrates in startling detail the continued trafficking of humans for indentured labor in factories and sex trade emporiums in the Marianas. Implicating organized crime groups from the People’s Republic of China, South Asia and Latin America, the report estimates that there are about 40,000 indentured workers in the CNMI, earning about $160 million in profits for criminal syndicates.

Indentured workers are being used to manufacture osteoporosis drugs. "Trade in the USA" garments for export to the United States. None of these goods are required to be shipped to the U.S. on U.S.-flag ships in accordance with the Jones Act. This duty-free, quota-free won in which foreign workers deplorable high value goods at below minimum wage is an entirely legal scheme for Chinese and other foreign manufacturers to bypass American textile quotas.

The report also graphically details the increasing use of immigration standards to make this former tropical paradise a major center for the booming Asian sex trade. Women from Asia and Russia are being lured to the Northern Marianas with promises of work opportunities in the United States only to find themselves imprisoned on islands from which there is no escape unless they agree to their employer’s demands that they become prostitutes and sex hostesses. This sick trade in prostitution must be stopped.

Loopholes in the Immigration and Nationality Act and the Fair Labor Standards Act of 1938 need to be plugged as soon as possible. I hope you will join me in ending this deplorable situation in which men and women are being used virtually as slaves on an American commonwealth.

Their report makes many important recommendations. Let me call your attention to four key issues which the Congress could and should act upon this year:

Extend the Immigration and Nationality Act to the CNMI:

Extend the Fair Labor Standards Act of 1938 to the CNMI:

Revoke the CNMI’s ability to use the “Made in the USA label” unless more than 75 percent of the labor that goes into the manufacture of the garment comes from U.S. citizens and or aliens lawfully admitted to the U.S. for permanent residence, and other appropriately legal individuals; and

Revoke the CNMI’s ability to transport textile goods to the United States free of duties and import quotas unless the garments meet the above criteria.

This week’s report prepared by the Global Survival Network is not the first analysis raising concerns about conditions in the CNMI. In recent years it has been a recurring concern surfaced about the Commonwealth.

For example, the Immigration and Naturalization Service reports that the
CNMI has no reliable records of aliens who have entered the Commonwealth, how long they remain, and when, if ever, they leave. CNMI officials testified that they have “no effective control” over immigration in their island.

The bipartisan Commission on Immigration studied immigration and indentured labor in the CNMI. The Commission called it “antithetical to American values,” and announced that no democratic society has an immigration policy like the CNMI. “The closest equivalent is Kuwait,” the Commission found.

The Department of Commerce found that the territory has become “a Chinese province” for garment production. The CNMI garment industry employs 15,000 Chinese workers, some of whom sign contracts that forbid participation in religious or political activities while on U.S. soil. China is exporting its workers, and its human rights policies, to the CNMI. Charges of espionage by China and security lapses in U.S. nuclear weapons labs have justifiably raised serious concerns in Congress. Every Member of Congress should be equally concerned with the imposition of Chinese human rights standards on American soil.

The CNMI is becoming an international embarrassment to the United States. We have received complaints from the Philippines, Nepal, Sri Lanka, and Bangladesh about immigration abuses and the treatment of workers.

Despite efforts by the Reagan, Bush and Clinton administrations to persuade the CNMI to correct these problems, the situation has only deteriorated.

After years of waiting for the CNMI to achieve reform, the time for patience has ended. Conditions in the CNMI port a lingering political embarrassment to our country.

I urge the Senate to respond by enacting S. 1052, bipartisan reform legislation introduced by my colleagues on the Senate Energy and Natural Resources Committee, Chairman Murkowski and Senator Bingaman.

I urge the Senate to move on this measure as quickly as we can.

Ms. COLLINS addressed the Chair.

The PRESIDING OFFICER. The Senator from Connecticut.

The remarks of Ms. Collins pertaining to the introduction of S. 1124 are located in today’s RECORD under “Statements on Introduced Bills and Joint Resolutions.”

Mr. GORTON addressed the Chair.

The PRESIDING OFFICER. The Senator from Washington.

Mr. GORTON. Mr. President, are we in morning business, and are there time limits?

The PRESIDING OFFICER. The Senate is in morning business until 10:15. The Senator is authorized to speak for up to 10 minutes.

Mr. GORTON. I thank the Chair.

MICROSOFT VERSUS DOJ

Mr. GORTON. Mr. President, what a difference a year makes. One year ago last week, the United States Government filed antitrust lawsuit against the Microsoft Corporation. This anniversary is a good time to review that lawsuit and to see how radically the universe of competition has changed in just twelve months.

I am not told, I believe that the Government was dead wrong in bringing this lawsuit. I believe that the lawsuit is bad for consumers, bad for technological innovation, and bad for a marvelous company that is headquartered in my State.

But even an independent analysis would conclude that the case that the Clinton administration brought twelve months ago bears little resemblance to the case it now argues. Since then the Government hasn’t been tried in the courthouse as much as on the courthouse steps, bypassing the law and aimed directly at public opinion through a national media that delights in highlighting any Microsoft misstep even though it has no relation to any harm to consumers.

The administration pursues this case for ideological reasons. This administration is filled with people who are offended by anyone or any company that is too successful. They believe that it is fundamentally unfair that Microsoft does so well. Much of the national media seems to share this view.

The administration has, however, miscalculated the views of a majority of Americans. Despite the Government’s attempts to turn the public against Microsoft, it continues to be one of the most respected companies in America, and a majority of Americans believe Microsoft is right and the Government is wrong in this current lawsuit.

In a recent poll conducted by Citizens for a Sound Economy, 82% of those polled responded that Microsoft is good for American consumers. This survey also found that seven-out-of-ten American consumers feel that technology companies, not the Federal Government, should determine what features and applications are included in the software that consumers use with their computers.

Most Americans understand the value that Microsoft has brought. Microsoft products make nearly every business in America more competitive. The technology revolution fueled by Microsoft has made Americans secure in their jobs and made more families secure in their future.

Microsoft has also helped usher in the most important change occurring on earth: today the power of information is in the hands of a few large, centralized institutions and put directly into the hands of people in every town and village across our globe via the Internet.

The explosive growth of the Internet will eventually have a fundamental impact on every aspect of American life. Now Microsoft describes what it calls the “New Digital Galaxy” which allows consumers to operate devices from coffee-makers to dishwashers via Internet access. This will introduce a vastly different landscape in high technology than exists today.

Users will not necessarily use stationary Personal Computers to access information, but instead rely on Web phones, palmtop computers and similar technology that is advancing at an exponential rate.

The Internet has had the fastest adoption rate of any new medium in history. Over 50 million users were connected in the first five years. To reach the 50 million user milestone, it took 38 years for radio, 13 years for television, and 10 years for cable. On top of this initial growth, the number of users continues to increase by an astounding 37% per year. It is projected that 200 million people worldwide will be connected to the web in 1999, and half a billion by 2002. To handle the volume, the backbone of the Internet now doubles in capacity every 100 days.

Not only is the number of users increasing exponentially, but the amount of information available to them is also growing at an unprecedented level.

The International Data Corporation estimates the number of web pages on the World Wide Web at 829 million at the end of 1998, and projects that the number grow by 75 percent to 1.45 billion by the end of 1999. By 2002, according to IDC, there will be 7.7 billion web pages.

What does this mean to the future of global commerce? Considering that 18 million consumers made purchases on the Internet in 1997, the number is projected to increase to 128 million by 2002, the possibilities are limitless. In real dollars, this translates into $200 billion in Net-based commerce by 2000, and $1 trillion by 2003.

We can’t begin today fully to understand the scope of freedom for people that this information revolution will bring. And all the while Microsoft and its competitors continue to bring better products at lower prices to all consumers.

While this case has been in the court, we have heard almost no discussion about whether the dramatic changes of the last year have rendered this case moot. I believe they do, and here’s why.

In the presence of a company exerting real monopoly power, competitors would be stifled, prices would rise, choices would be curtailed, consumers would be harmed. In fact, in the last year Microsoft’s rivals have improved by all of these measures. Competition in the technology industry is alive and well and nipping at the heels of Microsoft—all
great news for consumers. Prices are down, choices are up, innovation is rampant.

The U.S. software industry is growing at a rate more than double that of the rest of the economy. The number of U.S. software companies has grown from 24,000 in 1990 to an estimated 57,000 in 1999. The number of U.S. software industry employees has grown from 290,000 in 1990 to an estimated 860,000 in 1999, with an average rate of growth of 80,000 per year from 1996 to 1999. Do these growth figures sound like they come from an industry that is dominated by a Monopoly player?

Mr. President, the bottom line is that the industry is thriving. It shows that we do not need the government picking winners and losers. While the nature of the government’s case has been foisted upon Microsoft in the last year, the administration seems determined to punish this successful company and to use the power of the government to reward Microsoft’s competitors. These are the very competitors whose alliances have radically changed the competitive landscape of the Information Technology industry in just the last few months.

When the case began, AOL and Netscape were two large successful companies. Today they’re gigantic, teamed with Sun and ready to compete in the next frontier of the Information Technology industry—the Internet.

When the case began, MCI Communications and WorldCom were two separate companies, as were Excite and @Home. Yahoo hadn’t yet bought GeoCities and Broadcast.com.

When the case began AT&T was a long distance company. Today, AT&T could influence more than 60% of cable communications and WorldCom were two separate companies, as were Excite and @Home. Yahoo hadn’t yet bought GeoCities and Broadcast.com.

Mr. President, with the Sherman antitrust action by the government against Microsoft entering its second year, the only question that remains is why this lawsuit continues. I urge my colleagues to join me in seeking an answer to that question.

CONCLUSION OF MORNING BUSINESS

Mr. LOTT. Mr. President, I believe the morning hour has expired. I move for the regular order.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000

The PRESIDING OFFICER (Mr. Brownback). Under the previous order, the Senate will resume consideration of S. 1059, which the clerk will report.

The legislative assistant read as follows:

A bill (S. 1059) to authorize appropriations for fiscal year 2000 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

The Senate resumed consideration of the bill.

Penning:

McCain-Levin amendment No. 393, to provide authority to carry out base closure round commencing in 2001.

The PRESIDING OFFICER. The majority leader.

Mr. LOTT. Mr. President, I see no other Senator here at this moment. I believe there is another Senator who will be here at about 10:30 to offer another amendment, but I would like to submit an amendment for consideration at this point.

AMENDMENT NO. 394

(Purpose: To improve the monitoring of the export of advanced satellite technology, to require annual reports with respect to Taiwan, and to improve the provisions relating to safeguards, security, and counterintelligence at Department of Energy facilities.)

Mr. LOTT. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.
understand what happened and how it happened, and to lessen the likelihood of a recurrence of such events in the future.

First, we must aggressively probe the administration to determine the facts. We know much of what happened. But we don’t have all the facts, and we certainly don’t know why certain events unfolded the way they did. We need to get to the bottom of that.

Several committees are exploring aspects of this scandal, and it is multifaceted: DOE security; whistleblower protections; counterintelligence at the FBI; CIA operations; export controls; illegal campaign contributions; the Justice Department; the Foreign Intelligence Surveillance Act, FISA; DOD monitoring of satellite launches in China; waivers of laws for companies under investigation and its legal activities; and much, much more.

Second, we must take all reasonable steps now to remedy problems we have identified to date. Does this mean that the actions recommended in this bill, or in any event, will solve the problem of lab security for all time? Of course not. But they do represent important first steps in addressing the myriad problems that have emerged during the various on-going investigations.

For example, we know that security and counter-intelligence at the labs was—and is—woefully inadequate. We can take steps to begin to fix that problem.

We know that the Clinton Commerce Department failed miserably to adequately control and protect national security information as it relates to commercial communications satellites and rocket launchers. We took steps last year to revise the authorization bill to help protect national security by transferring from Commerce to State the responsibility for reviewing license applications for such satellites.

Third, we must hold appropriate executive branch officials accountable for their actions. This means we need to understand why certain Clinton administration officials acted the way they did. Why, for example, were DOE intelligence officials told they could not brief the Congress on aspects of this espionage investigation and its implications? Why did the Reno Justice Department refuse to approve a wiretap request? Why was a certain suspect’s computer not searched much, much earlier when, in fact, the suspect had agreed several years earlier to such a search? And why was a waiver granted for the export of a satellite built by an American company that was under investigation by the Department of Justice and whose head was the single largest individual contributor to the Democratic National Committee?

In posing these and other questions, does this mean the Senate is on some partisan witch-hunt? Absolutely not. I recognize that a full understanding of this issue requires going back decades. For example, the reports recently issued by the House Intelligence Committee and the Cox Committee in the House reviewed documents from prior administrations.

But simply saying that errors were made in previous administrations cannot and does not absolve this President and this administration from responsibility. In fact, this administration’s record in the area of security and counter-intelligence, in its relations with China, and in several other areas, leaves much to be desired.

As I said before, there are some steps we can and should take now. For example, the Defense authorization bill before us now proposes several important measures regarding Department of Energy security and counter-intelligence. Likewise, the intelligence authorization bill includes several legislative proposals on this topic as well.

My amendment is entirely consistent with, and indeed builds upon, those two vital legislative measures. Allow me to describe what this amendment proposes to do.

First, it seeks to address the Loral episode, wherein the President approved a waiver for the export of a Loral satellite for launch on a Chinese rocket at the same time Loral was under investigation by the Justice Department for possible criminal wrongdoing.

This amendment requires the President to notify the Congress whenever an investigation is undertaken of an alleged violation of U.S. export control laws in connection with the export of a commercial satellite of U.S. origin.

It also requires the President to notify the Congress when a favors a license or waiver is granted on behalf of any U.S. person or firm that is the subject of a criminal investigation.

I am absolutely convinced that had these “sunshine” provisions been in effect at the time of the Loral waiver decision, the President would have issued his decision in favor of Loral.

Second, the amendment requires the Secretary of Defense to undertake certain actions that would significantly enhance the effectiveness of the DOD program for monitoring so-called “satellite launch campaigns” in China and elsewhere.

For instance, under this amendment, the DOD monitoring officials will be given authority to halt a launch campaign if they felt U.S. national security was being compromised. In addition, the Secretary will be obligated to establish appropriate professional and technical qualifications, as well as training programs, for such personnel, and increase the number of such monitors.

Furthermore, to remove any ambiguity as to what technical information may be shared by U.S. contractors during a launch campaign, the amendment requires the Secretary of Defense to require the contractor to provide, for such discussions. Finally, it requires the Secretary to establish a counter-intelligence program within the organization responsible for performing such monitoring functions.

Third, my amendment enhances the intelligence community’s role in the export license review process. This responds to a clear need for greater insight by the State Department and other license-reviewing agencies into the Chinese and other entities involved in space launch and ballistic missile programs. In this regard, it is worth noting that the intelligence community played a very modest role in reviewing the license applications for exports that subsequently were deemed to have harmed national security.

This section also requires a report by the Director of Central Intelligence on the efforts of foreign governments to acquire sensitive U.S. technology and technical information.

Fourth, based on concerns that China continues to proliferate missile and missile technology to Pakistan and Iran, this amendment expresses the sense of Congress that the People’s Republic of China should not be permitted to join the Missile Technology Control Regime, MTCR, as a member until Beijing has demonstrated a sustained commitment to missile nonproliferation and adopted an effective export control system. Any honest appraisal would lead one to the conclusion, I believe, that China has not demonstrated such a commitment and does not have in place effective export controls.

Now we know, from documents released by the White House as part of the Senate’s investigation, that the Clinton administration wanted to bring the PRC into the MTCR as a means of shielding Beijing from missile proliferation sanctions laws now on the books. This section sends a strong signal that such an approach should not be undertaken.

Fifth, the amendment expresses strong support for stimulating the expansion of the commercial space launch industry here in America. As we have seen recently with a number of failed U.S. rocket launches, there is a crying need to improve the performance of U.S.-built and launched rockets. This amendment strongly encourages efforts to promote the domestic commercial space launch industry, including through the elimination of legal or regulatory barriers to long-term competitiveness.

The amendment also urges a review of the current policy of permitting the export of commercial rockets from U.S. origin to the PRC for launch and suggests that, if a decision is made to phase-out the policy, then launches of such satellites in the PRC should occur
only if they are licensed as of the commencement of the phase-out of the policy and additional action is taken to minimize the threat of technology to the PRC during the course of such launches.

Sixth, the amendment requires the Secretary of State to provide information to U.S. satellite manufacturers when a license application is denied. This addresses a legitimate concern expressed by U.S. industry about the current export control process.

I note that each of these recommendations was included in the Senate Intelligence Committee’s “Report on Impacts to U.S. National Security of Advanced Satellite Technology Exports to the PRC and the PRC’s Efforts Influence U.S. Policy.” That report was approved by an overwhelmingly bipartisan vote, and I think we can learn from these recommendations.

My amendment also requires the Secretary of Defense to submit an annual report on the military balance in the Taiwan Straits, similar to the report delivered to the Congress earlier this year. That report, my colleagues may recall, was both informative and deeply troubling in its assessment that the PRC has underway a massive buildup of missile forces opposite our friend, Taiwan.

Annual submission of this report will assist the Congress in working with the administration in assessing future lists of defense articles and services requested by Taiwan as part of the annual arms sales talks between the U.S. and Taiwan.

Eighth, the amendment proposes a mechanism for determining the extent to which then-Secretary of Energy Hazel O’Leary’s “Openness Initiative” resulted in the disclosure of highly classified nuclear secrets. We already know, for example, that some material has been publicly-released that contained highly-sensitive “Restricted Data” or “Formerly Restricted Data.”

While we are rightly concerned about what nuclear weapons designers or other sensitive information has been stolen through espionage, at the same time we must be vigilant in ensuring that Mrs. O’Leary’s initiative was not used, and any future declassification measures will not be used, to provide nuclear know-how to would-be proliferators in Iran, North Korea, and elsewhere.

Ninth, the amendment proposes putting the FBI in charge of conducting security background investigations of DOE laboratory employees, versus the Office of Personnel Management as is currently the case. I applaud the Armed Services Committee for including additional funds in their bill for addressing the current backlog of security investigations.

Tenth, and lastly, the amendment proposes increased counterintelligence training and other measures to ensure classified information is protected during DOE laboratory-to-laboratory exchanges, should such exchanges occur in the future. Having counter-intelligence experts go along on any and all visits of lab employees to sensitive countries, is a small but useful step in the direction of enhanced security.

Mr. President, I readily concede that this package of amendments will not solve all security problems at the Nation’s nuclear weapons laboratories. Nor will it solve the myriad problems identified to date in the Senate’s ongoing investigation of the damage to U.S. national security from the export of satellites to the PRC or from Chinese nuclear espionage.

These are, as I mentioned before, small but useful steps to address known deficiencies. Most of these recommendations stem from the bipartisan report issued by the Intelligence Committee.

I strongly urge my colleagues to support this important amendment.

In summary, good work has been done by the Cox committee in the House of Representatives. They should be commended for the work they have done in this critical area. They should be commended for the fact that it has been bipartisan. It would have been easy for them to veer into areas or procedures that would have made it very partisan. They did not do that.

The same thing is true in the Senate. The Senate has chosen so far not to have a select committee or a joint committee. The Senate has continued to try to do this in the normal way.

The amendment also requires the Secretary of Defense to undertake certain actions that would significantly enhance the performance and effectiveness of the DOD program for monitoring so-called satellite launch campaigns in China and elsewhere.

Third, the amendment will enhance the intelligence community’s role in the export license review process and requires a report by the DCI on the efforts of foreign governments to acquire sensitive U.S. technology and technical information.

Fourth, the amendment expresses the sense of Congress that the People’s Republic of China should not be permitted to join the Missile Technology Control Regime as a member until Beijing has demonstrated a sustained commitment to missile nonproliferation and adopted an effective export control system.

The amendment expresses strong support for stimulating the expansion of the commercial space launch industry in America. This amendment strongly encourages efforts to promote the domestic commercial space launch industry. That is why we have seen more of this activity occur in other countries, particularly China and even Russia, because we do not have that domestic commercial space launch capability here. We should eliminate legal or regulatory barriers to long-term competitiveness.

The amendment also urges a review of the current policy of permitting the export of commercial satellites of U.S. origin to the PRC for launch. The amendment also urges the Secretary of State to provide information to U.S. satellite manufacturers when a license application is denied.

The amendment also requires the Secretary of Defense to submit an annual report on the military balance in the Taiwan Straits, similar to the report developed earlier this year and was delivered to the Congress.
The amendment proposes a mechanism for determining the extent to which classified nuclear weapons information has been released to the Department of Energy. It proposes putting the FBI in charge of conducting security background investigations of DOE Laboratory employees versus OPM. It seems to me that really is beyond the capabilities of the Office of Personnel Management. Surely, the FBI would be better conducting the security background investigations. This does not call for putting the FBI totally in charge of security at our Labs, for instance. That is something we need to think about more. I had thought the FBI should be in charge, and there are some limitations in that area. That is an area we should think about a lot more. We should work through the committee process. We should think together in a bipartisan way about how to do it.

Clearly, the security at our Laboratories has to be revised. We have to have a much better counterintelligence process, and our committees are working on that. Last, the committee proposes increased counterintelligence training and other measures to ensure classified information is protected during DOE Laboratory-to-Laboratory exchanges. These are pieces that I think Senators can agree on across the board. They are targeted at dealing with the problem, not trying to fix blame, not claiming that this is going to solve all the problems. But these are some things we can do now that will help secure these Laboratories in the future and get information we need and give enhanced capabilities to the intelligence communities.

I urge my colleagues to review it. It has been considered by the committees that have jurisdiction. We have provided copies of it to the minority, and we invite their participation. I believe this is something that can be bipartisan and can be accepted, after reasonable debate, overwhelmingly. I certainly hope so. I appreciate the opportunity to offer this amendment. I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Mr. President, I commend the distinguished majority leader for this initiative. We have had in his office a series of meetings with the chairmen, as he enumerated, and this piece of legislation has been very carefully crafted drawing from each of the committees the work they have done thus far.

The Senate Armed Services Committee, as the majority leader has said, has taken an active role in addressing the intelligence-related issues raised through the bill. It is the responsibility of this body to knock on, and we need to knock on the door of the FBI to bring about the security which my distinguished colleague, the rank-and-file member, has sent it out to the various Departments and agencies of the Federal Government for comment. In the course of the day, as I am sure my colleagues from Michigan will agree, we will basically try to allow Senators at any time to address this particular amendment by Senator LOTT and, indeed, the provisions that we have in our bill.

This is an important subject. It is a timely subject. All Senators hopefully will strive to achieve bipartisanship because we recognize that this problem goes back several administrations, although I have my own personal views that the FBI should account for some actions which I find very disturbing—in other words, why corrective measures were not brought about more expeditiously. But time will tell.

Also, I believe it is important to recognize that the United States that America in the next millennium will be faced with an ever-growing and ever-important nation, China. We as a nation must remain engaged with China, whether it is on economic, political, human rights, or security issues. China and the United States are the two dominant leaders, together with Japan and, indeed, I think South Korea, in that region to bring about the security which is desperately needed.

So let us hope that in due course we can, on this bill, put together a bipartisan package. We already have one amendment in there, and it passed our committee with bipartisan support.

Mr. LEVIN. Would the Senator yield while the majority leader is on the floor so I could give a 30-second comment?

Mr. WARNER. Absolutely.

Mr. LEVIN. We welcome the proposal of the majority leader. We have worked very closely, on a bipartisan basis, on the committee on what is in the bill already and to which the majority leader has made reference. We will continue and look forward to working with the majority leader, on a bipartisan basis, on his proposal. The committees of jurisdiction will continue along the lines it has with very few quorum calls and significant progress.

I do see the Senator from Nebraska on the floor. We look forward to his offering that amendment. Then I believe at 11:45, under the current unanimous consent agreement, we are going to return to the BRAC amendment and then have a vote on that. That would be the first vote, as I understand the UC.

Mr. WARNER. Mr. President, the Senator from Nebraska is correct.

Mr. LEVIN. That would be at 1:45.

Mr. WARNER. Mr. President, on the subject of BRAC, again, the distinguished Senator from Michigan, the
distinguished Senator from Arizona, Mr. McCain, the distinguished Senator from Rhode Island, Mr. Reed, the distinguished Senator from Maine—my recollection is there was one other Senator who spoke last night in the debate on the BRAC process, so we have had a considerable amount of debate. There are 2 hours allocated. I am not certain that all 2 hours will be needed. But I urge Senators to come over as quickly as possible when that amendment comes up on the schedule, and we can hopefully move through that debate and on to other matters.

I yield the floor.

Mr. President, I ask unanimous consent that the pending amendment be laid aside.

The PRESIDING OFFICER (Mr. CRAPSEY). Without objection, it is so ordered.

Mr. KERREY addressed the Chair.

The PRESIDING OFFICER. The Senator from Nebraska.

AMENDMENT NO. 395

(Purpose: To strike section 1041, relating to deployment of strategic nuclear delivery systems)

Mr. KERREY. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment of the Senator from Nebraska.

The legislative assistant read as follows:

The Senator from Nebraska [Mr. KERREY] proposes an amendment numbered 395.

Mr. KERREY. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 357, strike line 13 and all that follows through page 358, line 4.

Mr. KERREY. Mr. President, first of all, let me say that this piece of legislation being considered right now, in my view, of all the laws we write and all the laws we consider, is the one that is most vital. If we do not have a defense that is able to defend not just the United States of America but our interests, all the rest of it is secondary, in my view.

I am very impressed—I came to this Senate in 1989, and I came to the Senate without the experience of having gone to law school. I was trained in other matters. The longer I am here, the more impressed I am both with the law itself and the power of this law. I cannot help but, as I begin to describe my own amendment, take a little bit of time to describe the connection between the law and things people see in their lives that they may not see as having been caused by the law itself.

We do not have an Army, Air Force, Navy, Marine Corps without this piece of legislation, which is, I think—I don’t know—500 and some pages long, with a report with it as well. This law creates our military. It authorizes appropriations to be made. It authorizes us to go into battle and protect people to serve in our Armed Forces.

We are going into the Memorial Day weekend during which I guess many, if not most, of us are going to be called upon to comment upon the meaning of Memorial Day—what does this day mean to us in our lives.

For me, it is a time to reflect and say that these 1,360,000 men and women who are currently serving our Nation, and the half million Reserve and Guard men and women who are out there as well, are part of a long tradition of American men and women who have given up their freedom, because in the military they have a different code than we have in the private sector. The standards they are imbued with, the expectations are different.

In the military, the command structure is such that if I have command—which I did many, many years ago—if I have command and do well, I get a medal. But again, because my business report will be so bad I will be looking for a private sector opportunity. We have a responsibility we cannot delegate. That imposes upon an individual who is in the military the real burdens that are different from what we have in the private sector—real responsibilities that are completely different.

A man or woman who serves us today, who serves the cause of freedom today in our Armed Forces, does something that is much different from most private sector citizens. I begin my comments on this amendment by saluting them, by thanking them for taking what, unfortunately, today is almost a nonmainstream action, and that is based upon their love of country and their love of freedom, saying: We’re willing to sacrifice our freedom; we’re willing to give up rights that most private sector citizens have.

Furthermore, nobody should doubt that in normal training operations it is possible to be injured or to even lose your life. A lot of these training operations are dangerous. So they are risking their lives on a day-to-day basis. Obviously, they are involved in Kosovo; they are involved in the Balkans; they are involved in containing Saddam Hussein; they are involved on the Korean peninsula; they are forward deployed in areas around the world where we have interests, not just interests that are only of the United States, but interests in values that we hope will spread worldwide.

Thank you, American people. You put your lives and resources on the line in South Korea today as a consequence of your efforts enabled us to be free, these three individuals said. Many others have said the same thing.

It is not a cliche that freedom is not free. This piece of legislation, this important piece of legislation, has us supporting 1,360,000 men and women in the military, and half a million Reserve and Guard people who are actively involved in the cause of defending freedom in the United States of America and throughout the world. This is an annual requirement of legislation. I argue if we don’t get this one right, all the rest of it is secondary. If this piece of legislation, if this law is not written correctly, all the rest of it doesn’t matter.

I want to respond to my comments this morning praising Chairman Warner and the ranking member, Senator Levin, who have led the Armed Services Committee to give us this piece of legislation. They understand this piece of legislation keeps America safe. This is about security, we can’t cut corners. We can’t scrimp. We can’t say we will just go partially there. We have to answer the question: What do we need to do to keep the people of the United States safe? How do we keep them secure and try to write laws that accomplish that objective?

With great respect to the committee, there is one provision in subtitle D called “Other Matters” on page 357 that I am proposing to strike. That language provides a qualification of a requirement that I think causes the United States of America to be less safe than it would without this provision. Let me get to it specifically.

What this provision does is say that the United States of America must maintain a nuclear deterrent that is at the START I levels, that we have to have warheads deployed, land, sea, air, that are at START I levels; that the President of the United States cannot go below the START I levels. The No. 1 threat today is an accidental launch, a rogue nation launch, or a sabotage attack and counterattack was an essential part of our strategy.

Today, the No. 1 threat is not a bolt-out-of-the-blue attack. The No. 1 threat today is an accidental launch, a rogue nation launch, or a sabotage
start this new era of ours to us. I think we in Congress and the American people as well have forgotten the danger of these nuclear weapons. We have been talking about new threats to America. We have a threat in the form of chemical weapons, a threat in the form of biological weapons, a threat in the form of cyber warfare, lots of other things like that, terrorism, that cause people to be very much concerned.

My belief is that the only threat out there that can kill every single American, and thus the threat that ought to be top on our list of concerns is nuclear weapons. The nation that possesses the greatest threat of all in terms of an accidental launch, a rogue nation launch, or a nogation launch is Russia, I think we in Congress and the American people are. They are not as likely, as a consequence, to us is the threat that is posed by Russia. Russia is a bigger threat to the United States in terms of nuclear weapons than Russia is. Nothing can be further from the truth.

I believe that part of the problem in all of this is, again, that we have been lulled into a false sense of security that, well, maybe these nuclear weapons aren't that big of a problem. Let me say that in the former Soviet Union, that may have been the case, but the economy was much stronger than it is today. They had a much greater capacity to control those weapons systems that they have.

One of the reasons, the biggest reason that I want to change this is that I believe we are forcing Russia today to maintain a level of nuclear weapons beyond what their financial system will allow them to maintain. They are currently required at START I levels to have 6,000 strategic warheads. Again, according to published accounts from their own military people, they would prefer to be at a level of 1,000 or lower, because they simply don't have the resources. I can go into some rather startling problems that are created as a consequence. We have a consequence, and they simply don't have the ability, the resources to allocate to maintain those 6,000 warheads as we do. Ours are safe. Ours are secure. We have redundant switching systems and all kinds of other protections to make certain that we don't have an accidental launch, to make certain that there is no rogue transfer, to make certain that there is no terrorism that could take over one of these sites and be used either against the United States itself or against some other country.

One of the baseline problems that we have as Americans is that we are the most open society on earth. We are the most successful society measured by economic productivity or our military, measured by even our democracy, which can be a bit frustrating from time to time. We take sides on issues worldwide, which I think we have to do if we want to continue to fight for the freedom of people throughout this world. But as a consequence of all those things, there are lots of people on this Earth who hate Americans, who have in their hearts a desire to do significant damage to us. It is a problem created from our own success. So as we try to keep our country safe, one of the things that I believe we need to think about when it comes to Russia is, is it possible for somebody who hates America, who is willing to do damage to America and willing to die in the act of doing it—what kind of risk is there as a consequence of a policy under law that requires Russia to maintain a nuclear force that is higher than either they can afford or they want to maintain? We have only described a couple of scenarios in length here, but many years ago, sort of a Stone Age time for me, I was trained in the U.S. Navy SEAL team. I do not argue that I was an exemplary special operations person. I had a relatively short experience in the wars before I was injured, so I didn't have enough time to become really good at it. But you always have these sort of imaginary fantasies that you are still 25 years of age, and there are times when you sort of think that way.

I believe it is possible for somebody who is well trained and well organized to raid a silo site of a Russian missile in the Russian wilderness and take that site over. You will have a scenario on the opposite side that says that it can't be done. I believe it can be done.

One of the things that you have to do when you are planning, writing a law to defend the people of the United States of America, is you have to think about that small possibility and you have to plan for it. We should not expect that the Russians were high probability coming through the Fulda Gap during the 40-plus years of the cold war, but we defended against it, and it was an expensive defense because it was possible that it could happen.

Mr. President, I believe it is possible for a small band of discontent or terrorists to raid a silo site of a Russian missile in the Russian wilderness. I believe that there are soldiers today in Russia who are poorly trained, who are sparsely equipped, and who are irate at not having been paid in well over a year in some cases. I think they are vulnerable and easily overtaken, and as a consequence, willing to cooperate in things that would put the United States of America at risk.

What you have to do is sort of then say to yourself: What would happen? Imagine what would happen if that were to occur.

Well, I again have to underscore with a story why I think we are lulled to sleep by nuclear weapons. In the Senate Select Committee on Intelligence, on which I have the honor of serving as a result of Senator DASCHLE appointing me to that and serving on behalf of the Senate, I once asked some analysts of the CIA to tell me what the impact would be of a single missile being launched and hitting a U.S. city. The answer was we are really not sure. We haven't thought it through lately. We don't put it up on our radar screen as being the sort of thing to worry about.

I find that not only alarming but il-\text{llustrative of the general problem. We are not thinking about this threat.}

We are not imaging what could happen in a worse case scenario and, as a consequence, we are sort of allowing ourselves to be dragged along with yesterday's policy, not thinking about how we can do this differently to sub-
there is much more likely scenarios where American men and women are going to be called on to defend the cause of freedom and fight for the cause of freedom.

A single Russian rocket could be launched over the top of the world from the north, and it would go across the Arctic pole, and in less than an hour it could be in over Chicago. On a bad day, it might come within 100 yards of its target. On a good day, it would probably come within 10 to 15 yards of its target. I am talking about something about which, again, people will say this is alarmist.

It is not an alarmist scenario. This is what nuclear weapons do. We have sort of forgotten that, in my view. Back in the 80s, during the cold war, all of us understood the danger of nuclear weapons. This is what we think we do. I think we have forgotten what kind of damage they can do.

A single nuclear weapon would vaporize everything. The surrounding air is instantaneously heated to a temperature of 10 million degrees Celsius. It looks brighter than the sun and shoots outward at a few hundred kilometers per second. It would be sufficient to set fire to anything in Chicago that is combustible at a distance of 14 kilometers. Anybody within 80 kilometers would be blinded as a consequence of the blast.

After the fireball, the blast effect force follows, traveling out from ground zero. Those within 3 kilometers, who had not already been killed, will die from the percussive force. At 8 kilometers, 50 percent of the people will be killed, and every building within 2 kilometers will be completely destroyed. Major destruction of homes, factories, and office buildings would be seen out to 14 kilometers.

In the farthest reaches of the immediate blast zone—encompassing everything in Chicago—structures would be severely damaged, and 15 percent of the people in Chicago would be dead, 50 percent would be injured, and most survivors would suffer second- and third-degree burns.

This is the damage that would be done from a single Russian nuclear weapon exploded above an American city. This is just one city.

Again, I point this out not to be alarmist but to say that this is a real threat. This is not an imaginary threat. This weapons system exists. There are 6,000 of these in Russia today that were needed in the cold war; they were needed in a deterrent strategy that the Russians had developed. We have drawn down, and they have drawn down to the 6,000 level—a bit higher than that still today. They are drawing down to that 6,000 level.

But, again, if you ask either our intelligence or the Russians directly, they will tell you they don’t have the resources to maintain even 1,000. They don’t have the resources to maintain 1,000, let alone 6,000-plus, and in the kind of secure environment the people of the United States of America will need in order for themselves to be safe and secure as a consequence.

I tell the story out of what I think is a loss of focus on the danger of nuclear weapons. I think we have developed a different strategy than the one that the Russians had developed. We were needed in a deterrent strategy that the Cold War; they were needed in the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy that the cold war; they were needed in a deterrent strategy. The President correctly kept saying that for the first time in the history of the Nation we are not targeting the Russians and they are not targeting us.

Well, you can retarget in a couple of minutes, max. This retargeting task is a fairly simple task. The President pointed that out, and I think correctly. It caused people to be sort of lulled into a sense that, gee, this wasn’t a problem. If we are not targeting them and they are not targeting us, then we don’t have to worry about this threat any longer; thus, we can sort of stop worrying about nuclear weapons. We can worry about other threats that we have to the United States.

Again, I am calling my colleagues’ attention to this problem not because I believe there is going to be a deliberate nuclear attack from Russia, because I don’t think that is likely, or even plausible. Indeed, Russia has made extraordinary progress in its effort to transform their economy and political system. Though they have a long way to go to complete the transition, they need to be applauded for it. But this transition is going to take decades—back, forward, stop, go. It is going to take a fairly small amount of time to transform from an old command economy to a market economy. In the meantime, they are finding it increasingly difficult to maintain the military infrastructure they inherited from the collapse of the Soviet Union, including, dare I say, their stockpile of tens of thousands of nuclear weapons—estimated to be close to 7,000 on the strategic side and a comparable amount on the tactical side. There are 14 storage facilities, according to published reports, where they store fissile material. We don’t know what is going on inside these buildings. It is a serious problem that our former colleague, Sam Nunn, has said is a threat not coming from Russia’s might but from its military weakness.

If a single one doesn’t bother you, there was an incident that occurred recently. On September 11, 1998. I appreciate that some will say that Kerrey is dramatizing this isn’t a real danger. I don’t think there is a greater danger than an accidental launch of a nuclear weapon at the United States of America. I think it is the most dangerous problem we face, and it is a scenario that could happen. If it happens, it will certainly be going to damage to the population here, and it will certainly damage to the economy here.

Let me describe a real time scenario, a situation that happened on the 11th of September—does the Senator want to say something?

Mr. WARNER. I didn’t mean to interrupt the Senator, but I am hopeful that we can listen to the important debate. I would like to have the opportunity to respond to the Senator so that Senators following this debate can fully understand their minds on this subject. It is somewhat drifted from the minds of the Senators given that, regrettably, this stalemate thus far in Russia could move to ratification. Let us proceed, hopefully, in a timely way.

Mr. KERREY. Mr. President, let me describe an event that occurred on September 11, 1998. Maybe colleagues didn’t notice it; it was written up with a fairly small amount of attention. There was an 18-year-old Russian sailor who seized control of a Russian nuclear submarine near Murmansk. He killed seven fellow crewmembers and held control of the submarine for 20 hours. Russian authorities say that there were no nuclear weapons aboard the submarine. But it would not be difficult to imagine a scenario in which a similarly distraught member of the Russian navy might choose to express his frustration by seizing control of a submarine loaded with long-range, nuclear-tipped missiles. It is widely recognized that control of weapons on Russian submarines is much more problematic than even with their ground-based forces.

There was a recent article in the New England Journal of Medicine, which conducted an analysis of the effects of an unauthorized launch against the United States from a—and I emphasize just one—Russian Delta IV submarine. This submarine is capable of carrying 16 SS-N-23 missiles. Each of these missiles is equipped with a 100-kiloton warhead. The study examined the consequences of 48 warheads being detonated over eight major U.S. cities. It is
likely that this scenario may not be right. It is likely that they would say we have 64 warheads and will put one in each State in the United States of America—that leaves me 14 more—and they will put a couple in New York, a couple in Florida, a couple in other States. Imagine 64,000 kiloton weapons being detonated within a couple of hours in the United States. That is a scenario that could be very real.

Is such a scenario likely to happen? It is less likely to happen than the sun coming up tomorrow, but it could happen. It is a scenario that we need to think about as we think about the danger of these nuclear weapons. And because we don’t think about them, it is not likely that we will consider an amendment like this terribly important. We will sort of drift along, as I think we are doing. We are not going to wait for the Duma to ratify START II. They are threatening not to ratify for every possible reason. I don’t know what the next anger point is going to be. I personally don’t believe that the ratification of START II by the Duma is necessarily terribly important.

That we need to look for an alternative way to reduce these threats, to me, is painfully obvious if you examine the danger that this threat poses to us. When you think about the danger of an accidental or a rogue nation or a sabotage launch, I think you come immediately to the conclusion that, my gosh, we have far more than we need to keep America safe, and the Russians clearly have far more than they need not only to keep their country safe but to reduce this risk of accidental launch. They do not control their weapons in the same way that we do. They don’t have the capacity to control them in the same way that we do, as well.

Imagine, I ask my colleagues; put it on your radar screen. You have a Delta IV submarine with 64 100-kiloton weapons that could be in the United States in 2 hours. They are not like the Chinese nuclear weapons. The Chinese nuclear weapons take several days to get together. Again, part of the published reports is that they have 13 or so aimed at the United States—aimed at our cities. That would be a much deadlier threat than the threat of an accidental rogue nation, or a sabotage takeover of a Russian site that could be launched with a devastating impact against the United States of America and would put our people at considerable risk.

As of January 1999, my colleagues, with reference to this issue—I remember campaigning for the Senate in 1988. In 1988, you had to know all of this stuff. You had to know all of these in numbers, because arms control advocates were asking you, and opponents of arms control were asking. The freeze was going on. The MX missile was being debated. It was a hot issue in 1988.

In 1999, it is not a hot issue. It is not on the radar screen. You have to hunt around to find someone who cares about it and asks you about it and express a concern about what I, again, consider to be the most dangerous threat to the people of the United States of America.

I repeat that this is the only threat that could kill every single American. Just a single Delta IV submarine that I talked about earlier—you put 64 100-kiloton weapons on top of 64 sites in the United States of America, and you are no longer the strongest economy on Earth.

We would have considerably more, to put it mildly, than 4.2 percent unemployment. We would not be screaming along with an economic recovery. The stock market would react. I would hazard a guess, rather adversely to that piece of news. There would be devastation and destruction and considerable loss of life, and the United States of America would be set back a considerable amount with legislation and action to be as safe and as secure as we once were, and the world, as consequence, would suffer the loss of our leadership.

A single Delta IV submarine owned by the Russians in a very insecure environment, in my judgment, would set the U.S. back considerably.

I keep citing it only because I believe that we have taken nuclear weapons, unfortunately, off our radar screen, and we don’t think about this much. I say to the distinguished chairman and to the ranking member, Senator LEVIN, and Senator SMITH, who is the chairman of the Strategic Subcommittee, that I know each of you are very concerned about this. I am talking about the general population. I would hazard a guess that if one of these news media outlets that does polls all the time did a poll and asked the question about whether the Chinese nuclear threat is a greater threat to the United States of America than the Russian nuclear threat, it is likely that a large number of the people would say yes, given what they have heard recently in the news.

China may evolve into a serious military threat to the United States in the future. They are unquestionably a proliferator of weapons, and all of us should be dismayed and angry at the lax security that we have discovered through the Cox report and other reports over the last 20 years, and should move with legislation and action to tighten up and make sure that we reduce that threat. But the Chinese threat is nowhere near the danger that the Russian nuclear threat poses to the people of the United States of America.

What I am attempting to do with this amendment by striking the floor that we have imposed for 3 years in a row in the defense authorization bill—this provision that prohibits the United States from going below START I force levels until START II enters into force—is that I am suggesting that this floor increases the threat to the United States of America because we are waiting for the Russian Duma to ratify START II.
Mr. WARNER. That is correct. We want to give the Senator as much latitude as we can. We will find such time as we can. I am not going to sit here for the Senator or desires. I am just anxious to frame this issue, because the Senator has given a brilliant speech, as he always does. I do not say that facetiously. I enjoy listening to my good friend and colleague and fellow naval person. But I was listening, and he is making a good speech for ballistic missile defense, which is splendid. I hope that we are going to draw on this RECORD for future debates on ballistic missile defense systems. I take up again the Senator COCHRAN's bill now that has become law.

But the point I wish to make is that this provision, which the Senator wishes to strike, has been in five successive defense bills. It is in there in accordance with the administration's wishes to try to show to Russia that we mean business about getting START II ratified. Were we to strike it, it is this Senator's opinion—I think it is shared by the Secretary of Defense, and others—it would weaken the efforts to get START II ratified.

I have here the distinguished chairman of the Subcommittee on Strategic Forces. All I would ask is, if we could just have a few minutes to frame the debates of Senators of both sides following it. I think they can come to some sort of closure in their own minds on this issue.

Mr. WARNER. We interrupted the Senator. Would he yield for an additional question on procedure?

Mr. KERREY. Yes. Mr. LEVIN. I believe this debate will take longer than 35 minutes, and there is no time scheduled on this debate. There are others who want to speak on both sides.

I address this to the chairman, because this seems to me likely to take more than 35 additional minutes. Since the debate is scheduled to restart on BRAC at 11:45, I wonder whether the chairman might want to delay that for perhaps 15 minutes or half an hour.

Mr. WARNER. Fifteen minutes. We had such great cooperation from all. We have a string of Senators ready to be here at 11:45. Let's say we will conclude at 12 noon; is that agreeable?

Mr. LEVIN. I am not suggesting we have a time limit of 12 noon. I am suggesting if we delay the beginning of the debate on BRAC is at least a chance that this debate could conclude by then. If it does, we could vote on this amendment immediately after BRAC.

I don't think the Senator from Nebraska is willing or should be willing to agree to a time agreement yet because he has not heard the debate on the other side.

I suggest the debate on BRAC begin at noon—we change the unanimous consent—instead of 11:45, and hope that at least there is a chance that this debate could conclude in 35 minutes be completed but not "bake" that into the unanimous consent.

Mr. WARNER. I want to accommodate our distinguished colleague. If we do not proceed, I say to my copartner, in getting time agreements, we are likely to get this whole bill slowed down.

I wonder if we could just enter into a time agreement to debate on this amendment, that it would conclude at 12 noon.

Mr. KERREY. I would very much like to accommodate and do that, but my problem is—

Mr. WARNER. Let me help. The distinguished chairman of the subcommittee says 10 minutes; I may take 2 minutes. That is 12 minutes. The Senator would have a full half hour left.

Mr. LEVIN. Before the Senator from Nebraska answers, if he yields, I will speak for perhaps 5 or 10 minutes on the subject. I know the Democratic leader wants to speak on this amendment, I believe, if possible, around 11:30. There may be others, too. We ought to find out if there are others before any such agreement is propounded.

Mr. KERREY. Again, I appreciate very much what the chairman is trying to do. I certainly have no intent to sit out here forever talking. Eventually I will agree to a time agreement. I am not willing to do that at the moment. I am beginning to lay on a case that has not been laid out before.

Mr. WARNER. We will continue with the debate and hope we can begin to bring this thing to some proportion of closure. We will take a relatively short time on our side, because it is a bill provision; the Senator is on a motion to strike. It is very clear what we are trying to do on this side, to help this administration get ratification, help America get ratification of START II.

That is the sole purpose for this provision. It has been in there 5 years for that purpose.

I yield the floor.

Mr. KERREY. Mr. President, again I am not trying to make an argument here for or against strategic defense. I will work with Senator COCHRAN to try to fashion some assistance to bring additional Democrats. I supported what Senator COCHRAN was trying to do.

The problem is, missile defense is not prepared today. The problem is, we don't have missile defense today. We get into some form of some assistance to bring additional Democrats. I supported what Senator COCHRAN was trying to do.

It is a real threat. It is not an imaginary threat. It is a real threat, and it is a threat that is getting larger, not a threat that is getting smaller. It is not the old threat. The old threat—and I appreciate what I think the administration's stated policy says. They prefer repealing the bill's general provisions that maintain this prohibition first enacted in 1998, but maybe the administration supports this amendment and maybe they don't support the amendment.

I believe this floor makes it less likely that we will consider an alternative to arms control as a method to reduce this threat. I am willing to look at alternatives such as star wars for which I voted. The strategic defense system is not in place today. I don't know when it will be in place.

In the meantime, the capacity to control Russia's nuclear system is declining and putting more and more Americans at risk as a consequence.

This is the third year, as I understand it, that this provision has been here.

Let me talk about strategic arms reduction. It has been the leading edge of our effort to try to reduce the threat. Back in the cold war, it was considered to be the only way that we will do it. I am not going to go through all the details of the history, but the Strategic Arms Reduction Treaty was signed between the United States and the Soviet Union, START I, in 1991 and entered into force in 1994. It commits both sides to reducing their overall force level to 6,000 deployable warheads by December of 2001. Both sides are well on the way to very close to what we are trying to do on this side, to help this administration get ratification, help America get ratification of START II.

May 26, 1999

CONGRESSIONAL RECORD—SENATE

10921
December of 2007. The Senate ratified START II in 1996, but the Russian Duma refused to take up the treaty. Section 104A of this authorization bill extends for another year the limitation on retirement or dismantlement of strategic nuclear weapon systems until the START II treaty enters into effect. Let me put this another way: The bill we are debating allows a foreign legislative body the final say on U.S. nuclear force levels. I do not believe this is how we should set our defense policies. Our military decisions should be based solely on what we need to protect and maintain our national security interests.

While I understand this provision was originally intended to encourage Russian ratification of START II, I think it is time to begin to rethink our strategy. For too long, we have relied on nuclear deterrence. We have been using our nuclear arsenal as insurance against the advent of a new form of arms—the biological and chemical weapons. While our nuclear arsenal can protect us from the spread of nuclear weapons, we can rely more on our other defenses—our conventional forces, our political influence, our economic leverage, our diplomatic skill, and our political and military alliance systems. By keeping more weapons than we need to defend our national security, we are the only country in the world to be maintaining a large nuclear arsenal. By keeping more weapons than we need, and as a consequence, increasing the risk of an accidental launch, a rogue nation launch, or a launch that comes as a consequence of an act of sabotage, the deterrent value of our nuclear arsenal is being diminished.

The determinants of adequate U.S. force levels should be left up to the men and women who are in charge of protecting the United States. While Pentagon officials have said they have no plans to go below START I levels during fiscal year 2000, they have clearly stated their preference for lifting these artificial restrictions. In the recent testimony before the Senate Armed Services Committee, the current commander in chief of the Strategic Command, Adm. Richard Mies, said:

We believe that we ought to report to you on an annual basis on exactly what we plan to do, but we would prefer not to have the specific mandating of the force levels by delivery systems.

Our Armed Forces are more than capable of protecting U.S. national security with significantly fewer strategic nuclear weapons. In fact, Gen. Eugene Habiger, former commander of STRATCOM, said: ‘There is no reason to stay at the START I level from a military perspective.’ Our nuclear policy has become completely detached from the military requirements of defending America, and is now being used simply as a bargaining chip with Russian politicians.

I believe this is occurring at a time in which the Russian military is having problems maintaining its current force levels. The Russians foresee a time, in the near future, when drastic cuts will have to be made. In fact, Russian Defense Minister Igor Sergeyev has said publicly he sees the future Russian strategic nuclear arsenal in terms of hundreds, not thousands, of warheads. There are even some U.S. analysts who have calculated within 10 to 15 years Russia will be able to maintain a force no longer than 200 warheads.

I believe it is clearly in the Russian interest to want the United States to achieve reciprocal reductions in forces, and I am disappointed the Russian Duma has chosen domestic politics over its best interests. However, it is just as clear that it remains in our interests to work with Russia to find new ways to reduce the number of nuclear weapons in a parallel, reciprocal, and verifiable manner.

We have a historical precedent to show that an adjustment in our nuclear forces, based on evaluation of our defense needs, can help achieve the goal of reducing nuclear dangers. There is a precedent for this. On September 27, 1991, then President George Bush announced a series of sweeping changes to our nuclear force posture. After assessing our national security needs, Bush ordered all strategic bombers to stand down from their alert status, he deactivated all ICBMs scheduled for activation under START I, and he canceled several strategic weapons development programs.

On October 5—just one week later—President Gorbachev responded with reciprocal reductions in the Soviet arsenal. President Bush acted, not out of altruism, but because it increased U.S. national security. In his announcement, he said:

If we and the Soviet leaders take the right steps—some on our own, some on their own, some together—we can dramatically shrink the arsenal of the world’s nuclear weapons. We can more effectively discourage the spread of nuclear weapons. We can rely more on defensive measures in our strategic relationship. We can enhance stability, and actually reduce the risk of nuclear war. How is the time to seize this opportunity.

I believe the same is true today in 1999. The longer we wait to act—the more years in which we extend this legislative restriction—the more likely it is that one of these weapons will fall into the hands of those determined to use it to kill American citizens.

In addition to endangering the safety of the American people, our continued insistence on staying at START I levels is costing the American taxpayer. They are paying more to be less safe. Section 104A is the cost of maintaining our nuclear arsenal vary widely. The Pentagon contends the total cost is in the neighborhood of $15 billion a year. A more inclusive figure would put the cost in the area of $20 to $25 billion. This represents a significant portion of our yearly national security spending. For now, it continues to be necessary to maintain an effective, reliable nuclear force—a force capable of deterring a wide array of potential adversaries.

But if, as our military leaders have indicated, we can maintain that deterrent capability at much lower force levels, I am concerned we are wasting precious budgetary resources. The Conventional Armed Forces in Europe and the New START treaty, which are already occurring, without any indication that the Duma should have acted, that it is time to begin to rethink our strategic Command, Adm. Richard Mies, said:

 section 104A of this authorization bill extends for another year the limitation on retirement or dismantlement of strategic nuclear weapon systems until the START II treaty enters into effect. Let me put this another way: The bill we are debating allows a foreign legislative body the final say on U.S. nuclear force levels. I do not believe this is how we should set our defense policies. But if, as our military leaders have indicated, we can maintain that deterrent capability at much lower force levels, I am concerned we are wasting precious budgetary resources. The Conventional Armed Forces in Europe and the New START treaty, which are already occurring, without any indication that the Duma should have acted, that it is time to begin to rethink our strategic
today. We can predict, but we cannot know what it will be like in a year, or two, or ten. Circumstances may never again be this favorable for reducing the threat posed by nuclear weapons. We must act. If we do not, history may judge us harshly for our failure.

I see the distinguished Senator from New Hampshire, the chairman of the subcommittee. I think what I will do is yield the floor and allow my friend to speak for a while, and listen to what is likely to be his considered and well-spoken words.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. SMITH of New Hampshire. Mr. President, I thank my colleague. I indicated I am more than happy to have the Senator from Nebraska finish his remarks, but if he chooses to have me proceed now, I will be happy to do that.

Section 1041 of this bill, which is in question here in the amendment of Senator KERREY, does prohibit the retirement of strategic delivery systems unless START II enters into force. The amendment by the Senator from Nebraska just strikes that entire section, section 1041.

For the last several years, the Defense Authorization Act has included a provision limiting the retirement of strategic delivery systems. Recently, it has specifically prohibited reductions below 18 Trident submarines, 50 Minutemen III ICBMs, 50 Peacekeeper ICBMs, and 71 B-52s. This year the provision has been modified to allow the Navy to reduce the number of Trident submarines from 18 to 14. This change was made after close consultation with the Office of the Secretary of Defense. On April 14, 1999, the Strategic Subcommitte conducted a hearing on this matter. We did agree to reduce the number of Tridents from 18 to 14, with my support.

The overall intent of the provision is to send a signal to Russia, that if they want the benefits of START II, then they ought to ratify the treaty. I think this is where I part ways, respectfully, with my colleague. This really is a unilateral implementation of START II— or to make even deeper reductions that would fundamentally undermine the arms control process and our national security.

If I believe I am correct, the Senator supported START II. If he is going to make unilateral reductions as part of our policy, I do not think it leaves much incentive for the Russian side to do what they have to do to get to START II.

But section 1041 is a very flexible provision. Since it must be renewed each year, there is ample opportunity to take into consideration proposals by the administration and to make our force structure adjustments as necessary.

This was demonstrated this year in the way the Armed Services Committee responded to the Navy's proposal, which was to retire four of the oldest Trident submarines.

With all due respect, the adoption of the Senator's amendment I believe could be interpreted as a sign that Congress no longer supports the policy of remaining at START I levels until START II enters into force. It seems to me the Senator is advocating that explicitly, but I could be wrong. I note that the administration does not support such a change in policy and, indeed, the administration's budget request fully funds the forces at the levels specified in the section in question that the Senator wishes to strike, section 1041.

The provision does not preclude the administration from making any changes in U.S. force structure that it currently planning to make. Section 1041 does not require the administration to retain any strategic delivery system that it otherwise would retire. It is clear that the principal objective of this amendment is to encourage unilateral arms reductions outside the framework of existing arms control agreements.

My concern is this is a very dramatic departure from existing U.S. policy. Essentially, this approach would amount to an abandonment of, of a certain significant deviation from, the formal arms control process.

I may support a change in U.S. policy that would base our strategic force posture on a unilateral definition of U.S. military requirements rather than on the arms control framework, but I believe that as long as formal arms control agreements govern our force posture, we ought to adhere to a policy of not unilaterally implementing such agreements.

Also, just as a bit of a side discussion here, the issue of what has happened now is a loud and an alarm bell that these agreements with the Russians—were the Soviets, now the Russians—may not be the major issue before us if things keep going.

One has to remember that an agreement, START I, START II agreements with the then Soviets, now Russians, for arms control reductions between two countries in a bilateral world, could very well now expand to something beyond just the bilateral agreements with the Chinese, and perhaps to Syria and Libya and even Iran, or some other nice countries out there that are now, thanks to the Chinese, going to be receiving a lot of our secrets, if you will, nuclear weapons. That furthers the case for not unilaterally reducing these systems without the Russians agreeing first.

Therefore, I urge my colleagues to oppose the Kerrey amendment.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, I just spoke with Senator KERREY. I know he will want to say something in response to Senator SMITH and what I will have to say. I will take my 5 minutes right now with this amendment.

I appreciate the spirit of his amendment. In fact, I just advised Senator KERREY I regretted very much having to speak in opposition to his amendment because I admire him as vice chairman of the Intelligence Committee on which I sit. We agree on a great many things. In fact, we are introducing legislation as cosponsors today on another matter.

But on this matter, I do differ with his approach because it to me reflects the approach to defense preparedness, to national security, that has been characterized, as Charles Krauthammer has said, as “peace through paper” rather than peace through strength, which Ronald Reagan made popular and which we think helped to win the cold war—the notion, in other words, that treaties should define what the United States of America does to provide for its defense rather than the United States defining what it must do to provide for its defense and then seek through treaties to limit what other countries might do and what we might do in the future as a part of that but following what our initial determination is with respect to necessities for our national security.

This is true with respect to the START I and START II levels of nuclear weaponry, our strategic deterrents. The START I levels are where we are right now, and historically the administration and the Congress have taken the view that we need to maintain our START I levels as long as that is the prevailing status of treaties, and that is precisely where we are today. START II has not been ratified by the Russian Duma, and until it is and until Russia begins to comply with its obligations under START II to bring the number of warheads permitted under START I down to levels authorized by START II, we have viewed it important not to unilaterally bring our levels from START I down to START II, because holding out the possibility that we would stay at START I has been an effective way for us to deal with the Russians.

But speaking for the administration, has testified that it has been helpful for us to let the Russians know that we are going to maintain our forces at the current levels. While we are willing to reduce them to START II levels, it is going to require concomitant action by the Russians for us to do that. In other words, if the Russians are prepared to go from START I down to START II, then the United States will be prepared to do that. But until then, we should not be taking the action unilaterally.

As a matter of fact, I was going to offer an amendment to this bill which would ensure that our Trident forces...
would not be reduced, because that is also permitted under this bill. The Trident submarine force are the most robust of our strategic deterrent because they are the most secure. Our submarines are nearly impossible to track, so they are clearly the most survivable leg of the triad. The majority of our boats in the fleet can carry the D-5 missile, the most advanced missile we have.

What I have focused on here is trying to make sure that our country maintains our START I level capability and that we do not begin to erode that, simply because it is expensive to do as long as Russia is not willing to reach those same levels.

An example of why this is important is that if we were to reduce the Trident force, for example, we would be relying upon the B-52s—as a matter of fact, our plan, and I hope our American citizens appreciate that the current defense plan is to use an 80-year-old B-52 bomber into the future as part of the triad for our defense. The United States is relying upon a very old and not very survivable system, which is why I think we have to maintain the Trident system.

Our vulnerable land-based ICBMs are the other leg, and they are also quite vulnerable to attack. We ought to be maintaining rather than giving up our Trident forces.

Were it not for arms control considerations and a desire for the United States to implement the START II agreement that has not even been ratified by the Russian Duma, I do not think we would be taking the step that is being suggested by the Armed Services Committee in the Senate and the even larger or further step that Senator Kerrey takes to have it apply to all of our strategic forces.

I have been concerned for a long time about the administration's desire to protect our nation's security primarily by relying on arms control measures, and I said this has been described by Charles Krauthammer as "peace through paper." Let me use the words of the administration. Under Secretary of State John Holum explained the administration philosophy in 1994. This is a revealing explanation. He said:

The Clinton administration's policy aims to protect us first and foremost through arms control—by working hard to prevent new threats—and secondly pursuing development of theater defenses for those cases where arms control is not yet successful.

That is exactly backward. First, you develop your security forces, and then, to the extent that you can do so, you cut back on those through arms control treaties that are agreed to and implemented by the other side. But what you ought not to do is start out by saying arms control is going to drive your development and deployment of national security measures. It is exactly backward.

Arms control is not a new idea. In 1139, the Catholic church tried to ban the crossbow. Like a lot of other well-intentioned but unenforceable measures, it did not work. The Kellogg-Briand treaty—I know the Senator from Virginia, the distinguished, esteemed chairman of the Armed Services Committee, is not quite old enough to remember that in 1929 outlawed war.

Well, it does not work. Peace through strength works. Then you do what you can with arms control.

The main point I want to make is that our defense planning should proceed on the basis of assessing the threat, evaluating alternative means to defeat the threat, and funding the requisite weapons systems and force structure. We should not permit arms control agreements to drive our defense planning. That is exactly backward. The Clinton administration still looks to arms control as the best way to safeguard our security.

The main point I want to make is that our defense planning should proceed on the basis of assessing the threat, evaluating alternative means to deter and defeat the threat, and funding the requisite weapons systems and force structures. We should not
permit arms control agreements to drive our defense programs and force structure. This is particularly true with respect to the START II treaty, which the Senate ratified in December, 1995. Despite the Senate’s action, the Russian Duma has refused to take action on the accord. The likelihood that it will do so is highly uncertain. START II has become a political liability in Russia in spite of its advantages to them.

Adherence to START I warhead limits, as called for by the Senate in its Resolution of Ratification for the START II treaty, and retention of the Trident fleet at 18 boats, gives us the best leverage we are likely to have to persuade Russia to move toward ratification and implementation. And the Clinton administration agrees with this view. Conducting tests on new warhead designs in January, the President’s Special Assistant for Arms Control and Defense Policy, Robert Bell stated that the provisions in law requiring the maintenance of U.S. forces at START I levels are a powerful incenting the Russians that the only way U.S. force levels will decline is if the Duma ratifies START II.

The U.S. repeatedly purchased START II ratification with aid or with concessions permitting Russia non-compliance with other arms control agreements or with unilateral limits on our own defense programs. In fact, Russia seems to be moving even further from the arms control framework so dear to this administration. Russian leaders have recently spoken of reconstituting Russia’s tactical nuclear forces, potentially reversing moves that the U.S. and Russia undertook during the Bush administration. On April 30th of last year, the Washington Times reported that Russia’s Security Council ordered its military to draw up plans for the development and use of tactical nuclear weapons in what may be a response to NATO’s heightened profile due to its involvement in Kosovo. Russia also continues to channel a high proportion of its declining military budget into its strategic nuclear forces and now places greater reliance on nuclear forces in its military doctrine. And furthermore, Russia appears to be building new nuclear weapons. As the Washington Post reported on January 24th of this year, “Three small underground nuclear tests Russia conducted last fall have prompted some government intelligence analysts to suggest that Moscow may be trying to design a new generation of tactical nuclear weapons.”

Nor is Russia the only concern. China is also modernizing its strategic nuclear forces with the benefit of warhead designs stolen from our nuclear labs and missile technology sold by the Clinton administration. The Cox committee had concluded that these thefts enabled China to design, develop, and successfully test modern strategic nuclear weapons and that these designs will make it possible to develop multiple warheads or MIRV warheads for their missiles. As the summary of the Cox committee report notes, “The People’s Republic of China has stolen design information on the United States’ most advanced thermonuclear warheads. Specifically, the W–88 (Trident D–5 SLBM); W–87 (Peacekeeper ICBM); W–78 (Minuteman III, Mark 12A, ICBM); W–76 (Trident C–4 SLBM); W–70 (Lance SRBM); W–62 (Minuteman III ICBM); W–56 (Minuteman II ICBM). These thefts, primarily from our national laboratories, began in the 1970s, continued in the 1980s and 1990s and almost certainly continue today.” The Cox report concludes by saying, “These thefts enabled the PRC to design, develop and successfully test modern strategic weapons.”

Furthermore, I would point out to my colleagues that rogue states and gangster regimes are also working hard on nuclear weapons and the means to deliver them. As the Rumsfeld Commission noted last year, the strategic threat to the U.S. from rogue nations is growing rapidly. And one need only look at last summer’s launch of a North Korean missile that overflow Japan that has sufficient range to reach the United States for validation of the Rumsfeld Commission’s conclusions.

Mr. President, I have offered an amendment to retain the Trident fleet at 18 boats. We should remember that the world remains a dangerous place and should size our nuclear forces accordingly. As I have outlined before, the Trident fleet is vital to the maintenance of our strategic nuclear deterrent. This is too important a step to be entombed warhead negotiations in thrill to its bankruptcy. Russia policy and its naive approach to arms control.

I ask unanimous consent that a copy of my amendment be printed in the RECORD.

There being no objection, the amendment was ordered to be printed in the RECORD, as follows:

Starting on page 337, strike line 23 and all that follows through page 338, line 4, and insert the following:

(b) Minimum Level for B–52H Bomber Aircraft—Subsection (a)(1) of such section is amended by striking “71” and inserting “76.”

Mr. KYL. Again, I fully respect the vice chairman of the Intelligence Committee and what he is attempting to accomplish. It is my view you first build your defense structure, and you stick with it until you see signs that the potential adversary has reduced his force structure in a competent way. Until you do that, you are better off keeping your structure in place rather than unilaterally giving it away.

Mr. KERREY addressed the Chair.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. KERREY. Mr. President, let me say that although we reach different conclusions, I completely agree with Senator Levin as far as the Senators. I do not think we should tie our defense policies to arms control agreements. I do not think we should do anything other than assess the threat and then try to put our force structure together that meets that threat that keeps that threat as low as is possible. We should not cut corners. We should not get tied up in ideological knots.

We should decide what is necessary to keep Americans safe. I do think that it is much more likely that will occur if the U.S. military is as strong as we can possibly make it. There are significant new threats in the world that need to be met. I support the budget that has been proposed here.

I supported earlier the ramp up in pay and other benefits. I think all that needs to be done. I think we have less in our intel budget than is necessary to both collect and analyze and disseminate the information to our warfighters and national policymakers.

What are we doing, as I see it, with this proposal is saying we are not going to do anything that might be in our interest, that might keep our country safer, because the Russians have not ratified START II. We are letting the Russians decide what our force structure is going to be.

We have been told by former General Habiger, who was the head of STRATCOM, that he thinks the United States of America will be safer and more secure if we went below START I levels. That is his assessment. He did not care what the Russians think about that. He thinks America would be safer and more secure if we did. I am not going to read all through it. I will do it later because I see the distinguished Democratic leader is here and would like to make some comments. I am going to read some things that ought to give Americans a great deal of concern about this "loose nuke" issue where the Russians are experiencing a deterioration in their capacity to control their nuclear weapons, and we are requiring them to be not only at a higher level than they need but we are requiring ourselves to be at a higher level than we need to be as a consequence of saying we are not going to do anything until the START II Treaty is ratified.

Let me set the record clear about the administration’s position.

Senator LEVIN, for the record, in the Armed Services Committee, on the 3rd of February, asked General Shelton: you oppose inclusion of a provision in the Fiscal Year 2000 Defense Authorization Act mandating strategic force structure levels—specific numbers of Trident Submarines, Peacekeeper Missiles and B–52 bombers?

He said: Yes, I would definitely oppose inclusion of [that].
And a further statement of the administration about their attitude towards the defense authorization bill said:

The Administration [would] appreciate the bill's endorsement of our plan to reduce the Trident submarine force from 18 to 14 boats... But they go on to say:

[W]e prefer repealing the bill's general provision that maintains the prohibition, first enacted in the FY 1998 Defense Authorization Act, against obligating funds to retire or dismantle any other strategic nuclear delivery system below specified levels unless START II enters into force. The Administration believes this provision would unnecessarily restrict the President's national security authority and ability to structure the most capable, cost-effective force possible.

They have announced no intent to go below START I levels, but they have indicated they prefer not to have this prohibition in place.

The PRESIDING OFFICER. If the Senator will withhold, we have a previous order at this time to begin debate on amendment No. 393.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The distinguished Democratic leader.

Mr. DASCHLE. I ask unanimous consent that I be allowed to speak on the Kerrey amendment. Did the Senator from Nebraska want additional time as well?

Mr. KERREY. After the other amendment is disposed of, we will come back to it, and I will have time then.

Mr. DASCHLE. If it would be appropriate, I ask unanimous consent to address the Kerrey amendment at this time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DASCHLE. If the Chair, the President, I commend the distinguished Senator from Nebraska for his advocacy and his leadership on this issue. This is probably one of the most important debates that we are going to have this year with regard to nuclear proliferation. This amendment could be one of the most important amendments that we will have the opportunity to vote on this year with regard to nuclear proliferation. So his advocacy of this issue and this amendment is greatly appreciated.

I am very impressed with his command of the facts as we consider its advocacy. This is probably one of the most important issues that we will have to deal with this year with regard to nuclear proliferation. So his advocacy of this issue and this amendment is greatly appreciated.

The Kerrey amendment recognizes the importance of that relationship. The Kerrey amendment proposes that the United States take a small step to improve this relationship by acknowledging that the Russian nuclear arsenal is shrinking, and adopting the view of the Joint Chiefs of Staff that our security will not be jeopardized if we do the same.

I strongly support this amendment and ask my colleagues to join me. It is difficult to point to a period of time since the end of the cold war when relations between the United States and Russia have been under greater stress. Protests and public opinion polls in Russia demonstrate that anti-American feeling is on the rise in that country. The tension in this critical relationship has grown as a result of both Russia's internal economic and political troubles and actions by this Government.

At the very time the U.S.-Russia relationship is under unprecedented stress, the need to work with Russians to reduce the threat posed by nuclear weapons and the spread of nuclear weapons material and expertise has never been greater.

Nearer a decade after the fall of the Berlin Wall, the United States and Russia still possess roughly 12,000 strategic nuclear weapons, thousands of tactical weapons, and hundreds of tons of nuclear weapons material. Even more alarming, both sides keep the majority of their strategic nuclear weapons on a high level of alert—some thing I addressed in past comments and, for the life of me, cannot understand.

And reports are growing that Russia's government lacks the resources to properly maintain and control its nuclear weapons, nuclear materials, and nuclear know-how. Consider these recent events:

In September of 1998, roughly 47,000 nuclear workers protested at various locations around Russia over the Atomic Energy Ministry's failure to provide them their wages for several months. Russian Atomic Energy Minister Adamov told the workers that the government owed the ministry over $170 million and had not provided a single ruble in two months.

Again late last year, Russian radio reported that the mayor of Krasnoyarsk-45, one of Russia's closest to 2032 for economic reasons. Finally, in this weekend's newspapers comes the latest evidence of Russia's nuclear troubles. Under the headline, "Russia Faces 'New Chernobyl Disaster,'" the London Sunday Telegraph reports, what a Russian energy minister has called a Chernobyl in slow motion is unfolding in (Russia's) far north where nuclear submarines are falling to pieces at their moorings and a decaying nuclear power station has refused Russian commission aid to buy vital safety equipment.

According to the Russian chief engineer at the nuclear plant, "We are in despair."
Mr. President, while U.S.-Russia relations approach their nadir and Russia struggles to keep the lid on its nuclear forces and workers, what has been the response of the majority of the United States Senate?

Unfortunately, for the last several years, a majority of the Senate opted to legislate against the United States government from responding by making modest reductions in our forces. A majority in the Senate has prevented the U.S. government from reducing our nuclear forces below the START I level until Russia has ratified START II. This majority has chosen to include a similar provision in this year’s defense authorization. This provision further damages U.S.-Russia relations, locks us in at nuclear weapons levels not needed for our security, and drains much-needed resources away from higher priority defense programs. Senator KERREY’s amendment wisely strikes this provision.

As noted earlier, our relationship with the Russian government and Russian people is at a low point. Russians fail to understand our actions on several fronts—from NATO enlargement to ballistic missile defense. As Russians look at the inevitable decay of their own strategic nuclear forces, they question why the United States insists on holding firm at weapons levels Russia can never hope to match, let alone exceed.

As for whether mandating by law that we retain 6,000 strategic weapons, our senior military leaders—current and former—have decisively expressed their opinions on this issue. In testimony before the Senate Armed Services Committee earlier this year, General Hugh Shelton, chairman of the Joint Chiefs of Staff and this country’s senior military leader, opposed just such a requirement. According to General Shelton, “it would define us to present a posture of any language that mandates specific force levels.” General Eugene Habiger, former chief of all U.S. strategic nuclear forces, agreed with General Shelton and went further. General Habiger stated, “There is no need to stay at the START I level from a military perspective.”

The Republican decision to keep our strategic weapons levels at an artificially high level also has budgetary ramifications. The Congressional Budget Office estimates that keeping U.S. strategic nuclear weapons totals at START I levels will cost the Defense Department $370 million in FY2000 and nearly $13 billion over the next 10 years. Pentagon officials are incredibly scarce, both in the Defense Department and in other areas of the government. We should spend every nickel necessary to ensure a strong defense. But we shouldn’t spend a nickel on weapons systems the military tell us they do not need.

For all of these reasons, I oppose the provision in the underlying bill. I support Senator KERREY’s amendment to strike this provision and restore a modicum of sanity to an increasingly troubled state of affairs. I ask my colleagues to do right by this important relationship, by our senior military leaders, and by the U.S. taxpayers who foot the bill for all we do. I ask for our colleagues to support Senator KERREY’s amendment.

The PRESIDING OFFICER (Mr. ROBERTS). Under the previous order, debate will now begin on amendment No. 393.

The Senator from Michigan is recognized.

Mr. LEVIN. Mr. President, I understand that Senator WARNER may wish to speak on the KERREY amendment for perhaps 5 minutes before we move to the BRAC amendment. If so, I am trying to reach Senator—Mr. President, I withdraw that. Are we now on the BRAC amendment?

The PRESIDING OFFICER. We are now on the amendment No. 393, Mr. LEVIN. Mr. President, I yield minutes to the Senator from Nevada.

Mr. BRYAN. I thank the Chair, and I thank my colleague from Michigan.

I arise today as a strong supporter and original co-sponsor of the amendment offered by my colleagues, Senator MCCAIN and Senator LEVIN, to consolidate our defense infrastructure and authorize an additional round of base closures.

For months, Pentagon officials, military leaders and key Members of the House and Senate have painted a picture of an American military force seriously compromised by years of declining or flat-budgets.

No one questions that the integrity of our force structure must be fortified, and I strongly support efforts to divert greater funding to modernization and readiness priorities—funding which, in the past, we have failed to do. But it is essential that we continue to maintain the most powerful and proficient military force on the planet.

And I think we are all cognizant of the grave retention and recruitment problems prevalent throughout the military and the serious morale impacts of this lack of funding. These are real problems in our military.

Every recent defense-related appropriations measure—including last year’s omnibus appropriations bill, the FY 1999 supplemental bill passed by this body just last week, and the legislation that is before us today—has included billions of dollars that the Pentagon did not request nor want. Unquestionably, a large part of the problem has been the insistence of the Congress to continue the time-honored practice of forcing the Pentagon to purchase aircraft. It does not want to build ships it does not need, and to maintain aircraft that have long outlived their usefulness. And every dollar that we spend on these wasteful and unnecessary programs and infrastructure is a dollar that we cannot spend on such critical needs as readiness and quality of life programs for our military personnel.

Last year, a bipartisan coalition of Senators, led by Senator McCAIN, and others, offered a proposal supported by the Secretary of Defense and the entire Joint Chiefs of Staff, to shut down military bases that had outlived their usefulness and to save the Pentagon billions of dollars. And Remarkably, the Senate said no.

I am hopeful this body will not make the same mistake twice.

The manner in which we fund the Department of Defense borders on the absurd, and continues to undermine our credibility with the American people when it comes to our ability to exercise fiscal responsibility. I am confounded by a Congress that on one hand bemoans the state of readiness of our military, and fights tooth and nail to add billions of unrequested dollars to the Pentagon’s budget, and yet refuses to heed the advice of our senior military leaders and make sensible changes to our defense infrastructure.

We micromanage the Defense Department to the point where we tell the generals and the admirals not only how many ships and planes they need to provide for our national security, but also where to place these ships and planes once they are built.

It is armchair quarterbacking at its worst.

Two years ago, the Congress passed—with great fanfare I might add—a balanced budget agreement that put in place a series of tough spending caps, requiring the Congress to reform its free-spending ways and make the tough decisions that are necessary to maintain fiscal responsibility.

Over the past two years, I have watched countless members of Congress duck, dodge, and evade those tough spending decisions as part of a systematic effort to sustain programs that have no justification and no purpose other than to divert funding from other more critical defense needs.

The examples are boundless.

Last year, we included a $45 million down payment on a $1.5 billion amphibious landing ship that the Navy told us they had no need for by a Congress that had made the same mistake twice.

This year, the Pentagon asked for ten new MV-22 Osprey aircraft, and the bill before us tells them to buy twelve.

The Pentagon and the Joint Chiefs tell the Congress that we have over 23 percent excess capacity in our current base structure and that it is time to consolidate our infrastructure and use the savings to shore up our readiness deficiencies.

And the Congress says no.

We shuttle precious defense dollars to shipbuilding, aircraft, and weapon systems programs that the Pentagon has deemed unnecessary and unimportant.
And unless the pending amendment is passed today, the Senate will continue to shun the advice of our military leaders, and divert precious dollars away from readiness and modernization programs to support an infrastructure that is clearly in excess of our needs.

Today, we have a modest, bipartisan proposal offered by Senators McCAIN and LEVIN, supported by the Secretary of Defense and the Joint Chiefs of Staff, that would unquestionably save billions of dollars that could be used to improve readiness, enhance pay, retirement, family housing, and other benefits for our military personnel, and bolster our national security.

For three consecutive years, the Secretary of Defense and the Joint Chiefs of Staff have asked us to allow the Pentagon to close some of its already vast bases it believes no longer hold operational value.

And for three years, the Congress has punt this political football, refusing to make the tough choices that we promised the American people we would make just two years ago.

Senator after Senator has come to the Senate floor to lament the lack of adequate funding for our Nation’s defense.

We have heard that the readiness of our forces is at severe risk, that we do not have the funding we need to invest in the weapons technology of tomorrow, and that personnel problems threaten the integrity of our force structure, both at home and abroad.

This Senator believes those concerns are real and legitimate. Just last week, my colleagues approved some $31 billion from the Social Security trust funds to address some of these needs, I do not question the urgency in addressing our modernization, readiness and personnel shortfalls.

With that in mind, I cannot understand how the Senate, with a clear conscience, can fail to adopt the amendment that is pending before us, which was requested by the Joint Chiefs of Staff and which would save an estimated $3 billion a year.

Not just this year, but $3 billion every year, for years to come.

My colleagues, Senator LEVIN and Senator McCAIN, have already bases in mind, I understand that my colleagues who are offering this amendment are very sincere in their efforts to address the problem of an excess infrastructure, certainly within the Department of Defense.

Let me be absolutely clear that I agree with the assertion that there is excess infrastructure. I have no quarrel with that. But let me be equally clear that until I am confident we can focus the BRAC where there is excess infrastructure and until we can ensure that any savings from such a BRAC—a lot has been said about the savings—will go toward our mission of readiness, as opposed to funding the numerous expeditions this administration continues to assign to our military, such as Bosnia and Kosovo, I cannot support any additional rounds of BRAC at this time.

Let me explain in a little bit more detail. “They” all understand that there is too much infrastructure. “They” know the blame for not having another BRAC can be easily passed off to others. We heard a lot of talk about “they” from the proponents of BRAC. Unfortunately, the readiness of our Armed Forces suffers because “they” are unwilling to act. I would like to get to the definition of who “they” are.

Most people who follow the excess military infrastructure issue—the BRAC issue, if you will—would say that “they” are the U.S. Congress. Senator after Senator has come to the floor with not really arms waving, but with some pretty tough commentary, pointing the finger at the Congress as being “they.” However, let me also point out that a strong case can be made that “they” are also the civilian and uniformed leadership of the Department of Defense.

I am not trying to pick on anybody. I just want to share the responsibility in a fair way. Of course the Congress must approve the additional funds of BRAC and therefore the responsibility is clearly on the shoulders of the Senate and the House. I accept that responsibility. The distinguished Presiding Officer does as well. Every Member of the Senate Armed Services Committee and the comparable committee in the House does as well. But the leadership of DOD has not shouldered the responsibility, in my personal opinion, to adequately prepare for future BRAC rounds. They could, by requiring each service to develop a prioritized listing of bases and facilities that are in excess, or the generic description of same, more especially in regards to the mission of the base.

I know what they are going to say. Their defense is such as, that would be impossible because of the politics of it; it would bias any future BRAC rounds, and therefore they should not be done until a BRAC is authorized.

By “they” I am talking about the DOD. “They” in this particular instance further state that it would be impractical to categorize the facilities by mission since most facilities are multifunctional, and therefore any future BRAC should, as in theory they have in the past, include all military facilities regarding the BRAC criteria.

If we are talking about BRAC, everybody is going to be on the same criteria. Everybody is on the table.

Of course, most bases and facilities are multifunctional. After all, they all train, they all have administrative functions, they all have public works tasks, but they all have a clear, primary mission.

Additionally, it is a bit disingenuous for the Department of Defense to say that all bases would be included, all are on the chopping block for consideration in any future BRAC round. That is rather disingenuous it seems to me, even if, for example, the service academies would be on the table, or the Norfolk Naval Base, or Andrews Air Force Base, or Fort Hood, or Camp Pendleton were on the table for BRAC consideration. That is not reasonable. That is not going to happen. It is not reasonable to expect that those, or other key facilities where we must have a primary mission, would be seriously considered for closure or for realignment.

It is not unreasonable to expect that a similar listing of definable excess capacity could and should be developed and be the focus of future reductions of infrastructure rather than, as I have said before the “the general has called the table” approach in regard to BRAC.

Many of my colleagues have heard me voice my concern over what I call
"BRAC purgatory." That is, quite simply, what every city in America with a military base goes through every time a BRAC round is mentioned. What that means in real terms is that the city or the community involved spends a lot of money from their very limited budget to hire so-called "experts" or "consultants" to help to really protect their base from any future BRAC round.

If we can focus BRAC on the primary mission of bases and generically define what we need, and what we don't need, we will really move communities from "BRAC purgatory." We will let them off the BRAC hook if their facility is not on the excess infrastructure list. We are going to save a lot of communities from "BRAC purgatory," and we are going to take a lot of headaches and a lot of money.

I am equally concerned that the Department has failed to develop a strategy for the next round of BRAC. Let me emphasize "strategy." You just can't do a BRAC and put bases on the chopping block. A specific infrastructure strategy is required for at least three reasons.

First, as the military approaches the optimum infrastructure, great care is going to have to be made. It will be required to prevent the cutting of the essential infrastructures.

Second, since the military missions and roles are changing—and, boy, are they changing—for example, the Air Force sees itself becoming an expeditionary force rather than a garrison force, and that is happening; the Army, Navy, and Marine Corps are all searching for a new mission and a new role—I think the Department of Defense-wide assessment of the types and the number and the location of the military facilities needed to support the national strategy must be developed. That strategy there.

Third, both the Quadrennial Defense Review and the National Defense Panel strongly recommended consolidation and joint basing for the military to optimize their capability in an atmosphere of reduced budgets and reduced force structure military environment.

In isolation, each of those three requirements represents a difficult, a complex, and a contentious undertaking within the military and the Department of Defense. However, when taken as a collective mandate to shape the future infrastructure needs of the military, such an important imperative cannot possibly be accomplished within the guidelines of just a simple BRAC. It seems to me that the Department of Defense has to have the courage and will to oversee the services and direct actions be taken that would set the correct approach to reducing our excessive infrastructure to match our future military needs. They should do that—not a BRAC commission.

The third action that DOD must find the will to take is defining the savings associated with BRAC and establishing a way to funnel those monies into readiness, modernization, training, and life programs. In the April 1998 Department of Defense report on BRAC, they admitted that, "by their very nature, estimates of savings are subject to some uncertainty. That is probably the understatement of this debate. The Department further stated that, "No audit trail, single document, or budget account exists for tracking the end use of each dollar saved through BRAC."

Let me repeat that. Senator after Senator has come to the floor and said: Look at the money we are going to save in regard to BRAC. Then they look at the problems with modernization, and procurement, and readiness. Yet no audit trail, no single document, no budget account for tracking the end use of each dollar saved through BRAC. However, they assured Congress that, "The Department is committed to improve its estimates of costs and savings in future rounds of BRAC." "Oh, we are going to get it right next time."

It seems to me it takes courage to solve that problem, and it takes a dedicated effort to set up the processes to track and direct the BRAC savings into the promised accounts. And it will take more than a "trust me, it will be much better next time" assurance before many Members of Congress will let the reported savings, the estimated savings, the reported savings of another round of BRAC simply remain unaccounted for, be lost in the bookkeeping of the Department of Defense, or, in fact, if there are savings, if we can account for savings, they end up in such missions as Kosovo or Bosnia—which have to be funded, by the way, and which we are pressed in regard to emergency funding.

That is the proper way to fund the final act of courage on the part of the uniformed and civilian leadership of DOD—I use the word "courage" in quotes here—that directly impacts the future rounds of BRAC politics of the last round.

A lot has been said about this. I understand it. I am not going to rehash that today. But based on a recent memorandum from the Department of the Air Force, it seems to me there is some acquiescence to such pressure to not really carry out the BRAC action directed in the last round. BRAC is a hard sell in Congress under normal times and under the purist of motives. But when actions are taken that clearly disadvantage others and violate the BRAC process for political gain, BRAC is a "no sell" in Congress.

For the Department of Defense to simply say that it is not for Congress to authorize additional rounds of BRAC is an easy way to avoid the responsibilities for actions that must be taken by the Department of Defense well in advance of any congressional action.

It seems to me the Department of Defense can go a long way to helping us in regard to the BRAC process if they simply develop the fortitude and the decision-making to start the process now to correctly and accurately shape and define the infrastructure—not to simply put everything on the table to save money but be required to support the military of the 21st century even if they risk pressure from the White House or Capitol Hill. Without such a strategy, I cannot support another BRAC round that has a poorly prepared and inadequately staffed approach to reducing the excess infrastructure.

I urge a "no" vote from my colleagues on this matter.
The Air Force will have reduced the number of fighters and other small aircraft by 53 percent since 1989, but the base structure for those aircraft will be only 35 percent smaller. The Navy will have 33 percent more hangers for its aircraft than it requires.

And on and on.

Secretary Cohen's report to us documents substantial savings that have been achieved from past base closure rounds. It has been argued that those savings can't be audited. What the CBO says about that argument is that firm measures of BRAC savings that were requested by the Congress do not and, indeed, cannot exist. That is because BRAC savings are really avoided costs. They are the difference between what the Department of Defense actually spent and what it would have had to have spent in the absence of the BRAC action. Because the latter is never actually observed, the figures for BRAC savings that the Department of Defense provides will never be firm measures; they must always be estimates.

Then the CBO says—talking about the Department of Defense report on savings—that the report's basic message is consistent with the CBO's own conclusion: Past and future BRAC rounds will lead to significant savings for the Department of Defense.

That, it seems to me, is the heart of the measure.

This is a Congressional Budget Office letter, which I ask unanimous consent to have printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

Hon. CARL LEVIN,
Ranking Minority Member, Committee on Armed Services, U.S. Senate, Washington, DC.

DEAR SENSAR: Section 2824 of the National Defense Authorization Act for Fiscal Year 1998 requests a report from the Department of Defense on the costs and savings associated with the four previous rounds of base closures and realignments. The legislation also requires the Congressional Budget Office (CBO) to review that report. The enclosure fulfills that requirement. In addition, I have enclosed a copy of CBO's response to a letter of April 17, 1998, from Senators Daschle and Lott and Congressman Gephardt.

Please contact me if you have any questions. The CBO staff contact is Laura Zeman, who can be reached at (202) 226-2900.

Sincerely,

JUNE 1 O'NEILL
Director.

Enclosures.

REVIEW OF THE REPORT OF THE DEPARTMENT OF DEFENSE ON BASE REALIGNMENT AND CLOSURE

The Congressional Budget Office (CBO) has completed its review of The Report of the Department of Defense on Base Realignment and Closure, as required by section 2824(g) of the National Defense Authorization Act for Fiscal Year 1998. CBO finds that the report provides a clear and coherent summary of why the Department of Defense (DoD) believes the four BRAC rounds are necessary. Moreover, the report's basic message is consistent with CBO's own conclusions: past and future BRAC rounds will lead to significant savings for DoD. Nonetheless, the report is useful primarily as a summary of DoD's position, rather than as an analysis of BRAC issues. Although the roughly 2,000-page computerized draft of this report contains most of the data on past BRAC rounds that the Congress requested, the main text provides little analysis of the number and types of installations that might be closed in the event of future BRAC rounds.

DATA PROVIDED BY DO'S REPORT

DoD's report provides most of the data requested by the law. Yet there were a few instances in which the department was unable to locate specific data or lacked information systems that were flexible enough to organize the data in the form that the Congress requested. For example, DoD was unable to locate the cost and savings estimates that it had originally given to the BRAC commissions, and its report contained most of the specific data on past BRAC rounds that the Congress requested, the main text provides little analysis of the number and types of installations that might be closed in the event of future BRAC rounds.

THE SAVINGS FROM PAST BRAC ROUNDS

Consistent with current BRAC budget documents, DoD's report indicates that when the past four rounds are fully implemented, they will provide annual recurring savings of about $5.6 billion (in constant 1999 dollars). That figure appears to be reasonable. By comparison, CBO estimates that savings could be about $5 billion annually.2 However, DoD's report does not document how the services and defense agencies derived the $5.6 billion. DoD provides little basis to underlie the aggregate $5.6 billion figure. Nor does it show that those estimates are consistent with the quantitative model (DoD's COBRA model) that DoD used during past BRAC deliberations and might use in any future BRAC round. Instead, DoD tries to show that its aggregate estimate is credible by presenting a new analysis based on aggregate data and by citing recent audit reports. Neither approach is very successful. For example, the new analysis in DoD's report (which identifies recurring BRAC-related cost savings of $7 billion) is based on the same undocumented estimates of personnel reductions that the defense agencies and military departments use in their BRAC budgets. Because reductions in personnel costs account for over 80 percent of estimated BRAC savings, using those personnel numbers ensures that DoD's new estimate of savings will not differ widely from the estimates in the BRAC budget documents. Because the new analysis depends on those budget estimates it cannot be used to verify them.

DoD's use of audits to verify BRAC savings also suffers from serious weaknesses. For example, the DoD Inspector General's audit of 1991 BRAC actions found that DoD exceeded DoD's budget estimates by about $1.7 billion over the six-year implementation period. Yet almost all of that $1.7 billion in additional savings came from a few special situations in which the effects of BRAC actions were confounded with those of imposed budget cuts, reductions in workload, or reductions in force structure. An audit can compare what DoD spent at different bases before and after BRAC actions, but—unlike modern audit software—that cannot disentangle the effects of BRAC from those of other factors.

ESTIMATES OF EXCESS CAPACITY

DoD's report indicates that the department will have excess capacity of over 20 percent in its U.S. forces after completing the four BRAC rounds. In its analysis, DoD compared the size of specific types of forces or workloads (measured, for example, by the number of aircraft or personnel) with the size of the base structure that supports those forces or workloads (measured by the square feet of buildings or of apron space at the installation). DoD identified the amount of excess capacity by calculating the percentage reduction in the base structure that

Footnotes at end of review.
would result in the same ratios of forces to base structure existed in 1989.

That approach is reasonable and, at least in the aggregate, yields a credible estimate. Yet it may not provide good estimates for particular categories of installation. The two proposed BRAC rounds over their six-year implementation periods would match the average profile for the 1993 and 1995 BRAC rounds combined, adjusted for inflation.

Those assumptions are reasonable for planning. DoD may not be able to provide better estimates until the specific bases that would be affected by proposed future BRAC rounds are identified. Yet savings from future rounds could be less than DoD predicts if the excess bases that have not already been closed are those for which closure costs would be relatively high or requiring annual savings relatively low. Such a pattern could also extend the time required before the savings from the additional BRAC rounds would outweigh the costs. Yet even in that case the ultimate savings from future rounds could still be significant.

IMPROVING ESTIMATES OF COSTS, SAVINGS, AND贻

DoD’s report provides a clear summary of the department’s perspective on BRAC issues and the need for additional base closures. But it provides little new evidence or insight into those issues. A more substantive report would have provided documentation for the estimates of BRAC savings that were submitted with the budget for fiscal year 1999 and a more detailed analysis of capacity issues.

In the future, DoD plans to keep better track of BRAC documents and of expenditures and should develop a master plan for its base structure. Such a plan might be based on explicit estimates of requirements rather than assuming that the ratio of forces to base structure that existed in 1989 remains appropriate. For example, the plan could use standards reflecting the number of square feet of office space an administrative worker requires. Such a requirement might encourage DoD to consolidate its estimating procedures. Such a requirement might encourage DoD to present rough estimates of the total recurring savings from past BRAC rounds, the aggregate level of excess capacity in the United States, and the potential savings from future BRAC rounds.

Footnotes
1 Those figures are in current dollars, not adjusted for inflation. They represent the one-time costs that DoD expects to incur in closing and realigning bases during the six-year implementation period that the Congress allocated for BRAC actions. They include environmental costs but exclude any revenues from land sales that result from BRAC actions. All of those closures are expected to result in about $1.1 billion in revenue from land sales as a result of past BRAC actions. It now expects that figure to be only $0.1 billion.

2 DoD’s estimate is based on the sum of the savings shown in the budget for the last year of the implementation period. The Congressional Budget Office’s (CBO’s) figure, which is in constant 1998 dollars, reflects trends in base support costs, adjusted for changes in the size of military forces. Past CBO reviews have also concluded that the savings from base closures and realignments are substantial. See Congressional Budget Office, Closing Military Bases: An Interim Assessment, CBO Paper (December 1996).

HON. THOMAS A. DASCHELL, Democratic Leader, U.S. Senate, Washington, DC.

DEAR Mr. DeBakey: In your April 17 letter, you pose 10 questions about base realignment and closure (BRAC) actions. This letter responds to those questions. In addition, I have enclosed the 1998 joint session budget request for the Department of Defense (DoD) that the Budget Committee’s (CBO’s) review of The Report of the Department of Defense on Base Realignment and Closure, which elaborates on many of the issues you mention.

Actual BRAC Savings. The Department is able to provide reasonable estimates of BRAC savings. Yet the firm measures of BRAC savings that vary as the Congress does not—and indeed cannot—exist. BRAC savings are really avoided costs—costs that DoD would have incurred if BRAC actions had not been taken. Those avoided costs are not actual expenditures, but it provides little new evidence or insight into those issues. A more substantive report would have provided documentation for the estimates of BRAC savings that were submitted with the budget for fiscal year 1999 and a more detailed analysis of capacity issues.

DoD's current spending plan, which extends small reductions in the number of personnel in 2001 and beyond. Such reductions are not inconsistent with additional BRAC rounds in 2001 and 2005, because most of the savings and personnel reductions from future BRAC rounds would not be seen until after 2003. However, DoD will have to make significant reductions in personnel after 2001 to realize the level of savings from future BRAC rounds.

Future Savings Estimate. In its review of DoD's report, CBO concludes that the department's estimates of savings from future BRAC rounds is not unreasonable for planning. A more accurate estimate would require detailed projections about the outcomes of future BRAC rounds.

Costs Beyond the Implementation Period. DoD will incur environmental and caretaker costs for some bases after the six-year implementation period is over. In its review, CBO suggests that estimates of BRAC costs and savings would be more accurate if they included data on these costs.

Data Included in DoD's Report. Most of the data in the appendices to the DoD report are not new. Rather, they were compiled from several existing sources, including BRAC budget justification documents and other data that DoD has submitted to Congress. However, the report aggregates the data in new ways and presents them at levels of detail not previously available in a single document.

As your letter indicates, the issues surrounding military base closures are difficult ones. One problem is that if the BRAC process is going to work, the Congress must decide on the advisability of additional rounds without knowing to what extent savings would be affected and what the specific effects of those closures would be. Another difficulty is that the Congress must make those decisions even though the savings from previous rounds can only be estimated rather than tracked in DoD's financial records. The amount of savings from BRAC actions will always be impossible to estimate precisely. The reason is that the effects of BRAC actions are not easily disentangled from those of non-BRAC actions, such as mandated budget reductions or cuts in forces and workforces.

I hope that this response is helpful. Please contact me if you have any questions or if you would like additional information.

Sincerely,

JUNE E. O'NEILL,
Director.

Mr. LEVIN. The heart of the matter, it seems to me, is that our auditors, our budget experts, have said that it is their conclusion that "past and future BRAC rounds will lead to significant savings for the Department of Defense."

What are those estimates of savings? By 2001, the Department estimates that BRAC actions will produce a total of $14.5 billion in net savings. After 2001, when all BRAC actions must be completed, steady State savings will be $5.7 billion per year. This is just from past base closure rounds, which some Members can call a "triumph of precise savings."

That is a lot of money, $5.7 billion per year—steady State savings. Is it possibly $5.6 billion or $5.8 billion? Nobody can state with certainty. It is significant.

What can be stated is what the CBO's conclusion is, that these are significant savings and are similar to the kind of savings that the CBO believes are achieved with base closing.

Last July, I indicated, the CBO gave their own conclusions, so while we can debate this issue on the floor about audit trails and how precise the estimates are, our auditors, our experts, have reached the critical conclusion that the savings, indeed, are significant.

Earlier this month we received letters from Secretary Cohen, from the Chairman of the Joint Chiefs, from all of the Joint Chiefs, from the Secretaries of the Army and the Navy and the Air Force. In his letter, Secretary Cohen says the Department's ability to properly support America's men and women in uniform today and to sustain them into the future hinged in great measure on realizing this critical savings that only BRAC can provide.

Our ability to support the men and women in uniform depends on future savings from BRAC rounds. A letter which we just received, signed by all six members of the Joint Chiefs of Staff, makes their views crystal clear:

Simply stated, our military judgment is that further base closures are absolutely necessary.

Those are pretty strong words and these are our uniformed military leaders. On the Armed Services Committee, we put a lot of stock in their judgment on most issues. Once in a while we may disagree with them, as is our right and our duty, but when the top military leadership, civilian and uniform, in the Department of Defense, Cohen says the Department's ability to properly support America's men and women in uniform today and to sustain them into the future hinged in great measure on realizing this critical savings that only BRAC can provide.

A more accurate estimate would require detailed projections about the outcomes of future BRAC rounds.

women in uniform to listen to the Chiefs when they ask us to do something that is hard.

'The Chiefs' opinions are important to us when following them is easy to do, when they give us their priorities if we can find some additional funds. But now they are asking us to do something that is hard politically to do, and that is to heed their advice, to close some additional bases. I do not know of anybody in the Department of Defense or anybody in this Chamber who likes closing bases. Not many people like going to the dentist or losing weight either. It is just a lot more fun to eat dessert than to look after your health. But we have an obligation—and it is difficult—in the best interests of this Nation, and for the health of our military, to do not what is easiest, but to do what is right.

What is essential has been told to us very eloquently in these letters from the Chiefs, in this letter from the Secretary of Defense, in this letter from the three Service Secretaries. These letters all point pointedly, dramatically, strongly, forcefully as they can, that it is essential that additional bases be closed. 'Our military judgment is that further base closures are absolutely necessary.'

I began my few minutes of comments with that quote and I end them with that quote, because I hope we will all think about that as we make a politically tough decision on how to vote on the pending McCain-Levin amendment. I yield the floor.

The PRESIDING OFFICER. The distinguished Senator from Virginia is recognized.

Mr. ROBB. Mr. President, I thank my distinguished friend and colleague from Michigan for his leadership on this issue. I thank my colleague and friend from Arizona for his leadership on this issue. It is a difficult issue.

This year, we have added billions of dollars to improve the readiness of our Armed Forces. It does not take a budget expert to realize how much more we could accomplish for our men and women in uniform if we had the billions in savings that would accrue from just one additional round of base closures in the year 2001.

Last year and the year before that, I argued that not giving the Department of Defense the authority it has asked for to close unneeded bases makes the Congress look shortsighted and indecisive. I argued then that every dollar used to maintain excess infrastructure is a dollar diverted from resources we so badly need to modernize our equipment and to improve the quality of life of our hard-working military personnel and their families.

Sadly, those BRAC efforts failed for nearly the same reasons the emergency supplemental succeeded last year, reasons that have more to do with politics than with making the right choices when it comes to protecting this Nation's interests, both now and into the next century.

Admittedly, the emergency supplemental had plenty of legitimate emergency spending, emergency spending for our troops, for our farmers, and for hurricane and tornado victims. But it threw fiscal discipline out the window by also spending billions in non-emergency spending. In my view, we have acted just as irresponsibly over the past 3 years by refusing to close bases we no longer need. If we fail to pass this latest BRAC proposal once again, we will have failed not only the taxpayer but also the men and women who comprise the finest fighting force the world has ever known.

I come back to this point, one I have made time and time again, to ask, who is going to pay for the last process. I was not at all impressed by the Department of Defense to keep open bases it does not need? In the end, we only punish those who most need the benefits of infrastructure savings. First, we punish the Nation's taxpayers when we fail to make the best use of those resources with which we are entrusted. Second, we punish today's soldiers, sailors, and marines, because current readiness requires having sufficient reliable resources for equipment, training, and operations. Finally, we punish tomorrow's force, our future readiness, as we continue to mortgage the research, development, and modernization of the platforms and equipment that will be necessary to keep America strong into the 21st century.

As the Joint Chiefs of Staff have testified, there is no shortage of legitimate programs to apply BRAC savings towards including Navy shipbuilding. Years of relatively low procurement rates have created a shortfall so significant that the fleet size will shrink to substantially less than the 300 ships of the Navy's stated goal in the 2020s, if procurement rates of 8 to 10 ships do not start materializing now. The Navy is stretched thin enough right now, with 324 ships. Do we really want to risk not having enough ships to meet our commitments in the next century?

It does not have to be this way. The 300-ship Navy, the Army after next, and the Air Force and Marine Corps of tomorrow can be funded, at least in part, from BRAC savings. The savings from the first four rounds of base closures alone are estimated to be on the order of $25 billion over the next 4 years. It should come as no surprise that scores of studies and organizations such as the Quadrennial Defense Review, the Defense Restructure Initiative, the National Defense Panel, and Business Executives for National Security have all concluded that more base closures are crucial to the future of our Armed Forces.

It is time to put politics behind us. We have an obligation to change the way we do business and to do what is right for our Armed Forces and what is right for the taxpayer. I urge my colleagues to support this critically important amendment.

Mr. President, I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. LEVIN. Mr. President, I ask unanimous consent that Senator RAN-?

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SMITH of New Hampshire. Mr. President, I further ask unanimous consent that Paul Barger, a national defense fellow in the office of Senator DeWine, be granted the privilege of the floor during the consideration of S. 1059.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SMITH of New Hampshire. Mr. President, at this time, I yield whatever time he may consume to the Senator from Wyoming.

The PRESIDING OFFICER. The distinguished Senator from Wyoming is recognized.

Mr. THOMAS. Thank you, Mr. President. I thank the Senator from New Hampshire. I will take just a couple of minutes.

I rise in opposition to the McCain-Levin amendment on base closure. It is a difficult decision for me because I am persuaded there could be some closures that would make us more efficient in terms of our mission in defense. I remember my friend, Dick Cheney, whose place I took in the House, said that defense is not for economic development; it is for defense. I appreciate that, and I believe that.

I was not at all impressed with the last process. I was not at all impressed with the way the administration handled it, so I do not believe that it is appropriate at this time to bring in the politics again of base closure. Frankly, the military ought to come forward with their views as to what is necessary to carry out their mission. That, of course, should be our particular desire.

Amendment No. 395

Mr. THOMAS. Mr. President, I also rise in opposition to the Kerrey amendment. It seems to me that it would be a mistake to begin to downgrade our position with regard to missiles until START II is agreed to by the Russians. We have already approved that treaty; the Russians have not. I do not think we should weaken our position.
I appreciate the opportunity to share my views on those two amendments. I yield the floor.

Mr. SMITH of New Hampshire. Mr. President, I yield myself 10 minutes.

Mr. SMITH of New Hampshire. Mr. President, during the markup of the defense authorization bill in committee, we twice rejected base closure amendments. So it does seem anticonciliatory to be out here on the floor again for the very same proposal. But such is the way of the Senate sometimes.

Senators MCCAIN and LEVIN did offer an amendment to have two rounds of base closures in 2001 and 2005. The process was adjusted to ensure that the next incoming President would appoint the commissioners. Everything else was identical to the amendment now being offered, and the amendment was defeated by a vote of 12-8, with members on both sides of the aisle voting one way or the other. Then Senators LEVIN and McCAIN offered another amendment that called for only one round of base closures in 2001.

The House version of the Fiscal Year 2000 Defense Authorization bill is silent on base closures. Opposition to base closure in the House is much stronger than it is in the Senate, and the Membership has let it be known that they will oppose any base closure legislation in conference, even though the administration proposes these two rounds in 2001 and 2005. We are in a debate on the floor taking a lot of the Senate's time on a proposal that probably lacks the support in both the House and the Senate to go to the President's desk.

There have been a lot of arguments made on both sides. Let me offer a few of my own.

During previous rounds, the Department had the opportunity to reduce the infrastructure to the extent that it believed necessary. That was the purpose of the previous rounds. The bottom line is that the Department failed to do that.

When first announced, the 1995 BRAC round was claimed to be “the mother of all BRACs.” But the outcome was just a whimper; it was a little daughter rather than a mother.

Any purported savings of another round of these closures would not be available in the near-to-medium term for the procurement of equipment and weapons modernization or any other purpose. That is really what we care about. We want money for new equipment. We want money for readiness and morale.

The bottom line, as most of my colleagues know, is that it is going to cost us in the immediate future money that we desperately need right now for readiness. No one disputes that if you close down infrastructure, in the long run it is going to save money. That is obvious. But the way we go about this is somewhere in the vicinity of $3.2 billion right up front to begin the closing, with the environmental issues and all the changes that have to be made: the upfront cost transfer of units and equipment, new facilities at receiving installations, buyouts of civilian employees and environmental cleanup. If we do not have the dollars now to do what we need to modernize our troops, to get the equipment they need, to get them up to the readiness level at which they should be—how will we be able to pay these initial costs?

Arguments that have been made, rightfully so, by Senator INHOFE and others, concerning the politicization of the BRAC process. We all know that the administration seriously damaged the base closure process by its handling of the Commission’s 1995 recommendations concerning McClellan Air Force Base in California and Kelly Air Force Base in Texas. We need to let these issues settle. There are a lot of hard feelings left over from that. We need to fully resolve these issues before we attempt another round.

BRAC should be focused on excess capacity, but it should not be an excessively broad approach. We ought to target any future BRAC legislation—we do not want every single installation in America to be in BRAC purgatory. I believe the Senator from Kansas, who is in the Chair now, has used that term. And that is what happens. Everybody gets put in this purgatory and everybody has to hire all these consultants and experts to try to get out of purgatory and hopefully not go to Hell, but hopefully wind up in Heaven, with their hands up.

As the number of worldwide commitments increases for the Armed Forces, we should be considering increasing the size of the Armed Forces. We can make a very compelling case for that. I am willing to make it. Further base closures could preclude that possibility. What we lose, we never get back. For example, if we close a shipyard, imagine how much time and effort and money we would have to expend, and how much time and effort we would have to jump through to open another shipyard after it has been developed into condominiums along the harbor somewhere. We will never be able to do it. Once it is gone, it is gone. We need to understand that.

I think we have to look at it and ask ourselves this basic question: Is it now the time to reduce further our infrastructure for the purpose of some long-term savings that are going to cost us in the short term when there is all this uncertainty out there?

The Senator from Michigan very eloquently, in his statement, talked about the percentage argument—that force structure has gone down 36 percent, personnel has gone down 40 percent, and base closings are only down 18 percent. That was making a fair argument, and it sounds like you ought to be able to put it all together, and there ought to be an even 36 or 40 percent cut in all areas. But that is not the case.

If you use an analogy of a football team, your team may be half the size it is used to be, but you still have to have a stadium to play in. So you can reduce helmets and you can reduce personnel and you can reduce support, bandages, or whatever you need for the players, but you still have to have a stadium.

So I do not think you can break it down that simply. It does not matter whether you have a good team or a bad team, or whether you have 75 players as backup or 12 players as backup, you still have to have a certain amount of infrastructure to support it.

I hope this amendment will be defeated for those reasons. I do not wish to mention the anguish the communities would have to go through.

I think it is important to understand that the President of the United States is calling up reserves right now, in great numbers, to be deployed. Lord knows where—perhaps Bosnia, perhaps Kosovo; we do not know just where. We do not know what other crisis may break out.

I just think it is a terrible time to think about taking down infrastructure. What message does that send to the troops out there and to the people who support those troops all across the country in the bases and the infrastructure around those bases? What message does it send to those people if we say, in spite of all of this increase in activity around the world, we are now still going to eliminate more infrastructure, not knowing what we need for the next crisis?

We need a stable, at some point if it is necessary. We are not saying that much now to do it. As a matter of fact, even in the short term it is costing us. So there is no rush here. I think we ought to just settle down, take a careful look at what we are doing, reevaluate our entire military structure—and in my view, increase the size of our forces—and not rush to judgment here with some additional base closings.

Mr. SMITH of New Hampshire. How much time does the Senator need?

Mr. INHOFE. Five minutes.
Mr. SMITH of New Hampshire. I yield 5 minutes to the Senator from Oklahoma.

The PRESIDING OFFICER. The distinguished Senator from Oklahoma is recognized for 5 minutes.

Mr. INHOFE. I thank the Senator for yielding time.

I think just about everything has been said here, but there are some concerns I have that I would state in a little different way than the Senator from New Hampshire has stated them.

One is that we have gone through an artificial downsizing that is not commensurate with the threat that is out there. The myth that has floated around that the cold war is over, there is no longer a threat, is something that finally the American people are waking up and realizing is not true. We are in the 21st century and we should not have passed today, that we have been in probably in the history of this country, with the diverse types of opposition out there, the proliferation of weapons of mass destruction and abilities to transport those weapons.

So I say, one of the strongest arguments against a BRAC round at this time is, we have gone through four BRAC rounds. If we take the level of our infrastructure down to meet the level of the force strength, then when we start back up with the force strength, we will not have the infrastructure that is necessary.

So we need to be looking at our rebuilding process. It would be like going through extensive BRAC processes back in the late 1970s—right before re-building, which is imminent. We are going to have to do it with the new administration.

Secondly, as I think the Senator from New Hampshire articulated quite well, we are in a really severe situation right now in terms of readiness. Later on today I want a chance to elaborate on this and talk about the fact that we are now at approximately one-half the level of the force strength, then when we start back up with the force strength, we will not have the infrastructure that is necessary.

So we need to be looking at our rebuilding process. It would be like going through extensive BRAC processes back in the late 1970s—right before rebuilding, which is imminent. We are going to have to do it with the new administration.

Mr. SMITH of New Hampshire. I yield 5 minutes to the Senator from New Hampshire.

The PRESIDING OFFICER. The Senator from New Hampshire is recognized for 5 minutes.

Mr. SMITH of New Hampshire. How much time does the Senator require? Ms. SOWNE. Five minutes.

Mr. SMITH of New Hampshire. Is there a UC on the time?

The PRESIDING OFFICER. The Senator from Maine has 5 minutes. Ms. SOWNE. I thank the Chair.

I gave a lengthy statement last night. I will not go into everything that I referred to, but I think there are several points that need to be vetted with respect to base closing.

I strongly oppose the base closing amendment that has been offered by Senator MCCAIN and Senator LEVIN—Senator LEVIN that would initiate another round in the year 2002. We are back to the same issues that have yet to be addressed by the Department of Defense with respect to creating a comprehensive analysis in terms of matching our infrastructure with our assets and the security threat mix that we can anticipate into the 21st century.

This is an analysis, in fact, that has been suggested and recommended by the National Defense Panel in order to have an overall assessment and accounting of exactly what we are going to need with respect to our domestic infrastructure into the 21st century.

I think everybody acknowledges that we are facing different types of threats today, more asymmetric, more unpredictable, more uncertain, far more diverse, regional threats than we have ever encountered before. So as a result, it seems to me we need to have an accounting from the Defense Department as to exactly what are their needs.

They keep telling us over and over again from the previous four rounds that we have achieved and realized billions and billions of dollars in savings. Yet we have been unable to track those savings. In fact, in the reports by the General Accounting Office in 1996 and then again in 1997 and in addition to the Congressional Budget Office reports, all indicate the very same thing. It is very difficult to ascertain the amount of savings derived from the previous base closing rounds, because the Department of Defense has never established a mechanism for tracking those savings.

I think it is important for us to have that data so we can document what has exactly been saved as a result of those four previous rounds.

When you look at this chart, this is in the General Accounting Office report: Why BRAC Savings are Difficult to Track and Estimate Changes Over Time. DOD accounting systems are not designed to track savings. Some costs are not captured initially; i.e., the environmental costs.

Well, we now find out that they are going to have to spend at least $3 billion more in environmental mitigation than they anticipated.

Some savings cannot be fully captured—long-term recapitalization costs. Again, we have found out in terms of sales, they anticipated they would realize $3 billion in sales, and they have only received about $65 million. So that is a great gap between what they projected for revenues of sales and what they actually realized.

DOD components do not have incentives to track savings because budgets may be reduced. Over time events may change costs and savings that could not have been known when estimates were developed.

On and on it goes. We have no way of knowing.
Then the Department of Defense has said, well, we have cut back on personnel by 25 percent so, therefore, we should be reducing infrastructure by 25 percent. Since we haven’t done that, it should be one on one, essentially, we should be reducing our infrastructure. But again, these determinations should not be made by arbitrary percentages but, rather, a documentation of exactly what we need for the future.

We have unpredictable challenges and, therefore, I think we should make those decisions based on the assessment of what should be our military infrastructure for the 21st century. Yet we have not had that kind of accounting.

I hope the Senate will not approve another round until we have the opportunity to have this kind of analysis from the four previous rounds have resisted providing over the years.

In fact, in the 1998 Secretary’s report on BRAC, it said additional rounds of BRAC in the years 2001 and 2005—that would be contingent on two rounds—would be worth in the years 2008 to 2015, the period covered by the QDR, and $3 billion every year thereafter.

But that is contradicted by the report by the Defense Department in 1999 with respect to BRAC savings. It says with four BRAC rounds between 1995 and 1998, DOD invested approximately $22.5 billion to close and realign 152 installations. So it costs much as much to close those bases as what they are projecting for savings from another two rounds in the future.

The PRESIDING OFFICER. The Senator’s time has expired.

Ms. SNOWE. One additional minute.

Mr. SMITH of New Hampshire. I yield the Senator 1 additional minute.

The PRESIDING OFFICER. Without objection.

Ms. SNOWE. The real challenge and the problem with these base closing rounds has been the fact that they are costing far more than what the Defense Department anticipated. I think it is important for us to have the information and the verification from the Defense Department as to exactly what they have saved and how much it has cost and what they anticipate in the future. In addition, they have not even completed the four previous rounds. They have yet to be totally implemented. So we could be incurring additional costs.

Of course, the final dimension to the whole problem is all of the contingency operations. We have had 25 contingency operations that have cost the Defense Department more than $20 billion. That has impacted readiness and modernization.

I say to this administration that perhaps if they had more clear objectives with respect to these operations, we could contain the costs, but we should not put pressure on reducing our domestic infrastructure if we are going to have more contingency operations in the future that demand the use of our domestic infrastructure.

The PRESIDING OFFICER. The Senator’s time has expired.

Mr. HAGEL. I thank the Chair.

Mr. President, I rise to strongly support the McCain-Levin amendment. The arguments that have been made this morning and this afternoon, I believe, speak rather clearly and directly to why this amendment is worthy of our colleagues’ support today.

I also wish to express my strong support for S. 1059, the fiscal year 2000 Department of Defense authorization bill being debated here on the floor of the Senate.

The first responsibility of our Government is to provide for a strong national defense to protect America’s security interests. The primary responsibility of elected officials is to provide the leadership and the wisdom to ensure that it is used in the best interests of the American people.

The percent of the gross domestic product we spend today on defense is lower than what it was just prior to the Japanese attack on Pearl Harbor. At the end of the cold war, there was excitement about the peace dividend that would come, of course, from the decline in East-West conflict as a result of the implosion of the Soviet Union and the reduction in defense spending that, of course, would logically follow.

There was also talk about a new global order. Some suggested that war might be obsolete, thanks to the breakthrough of democracy around the globe. This all sounded hauntingly familiar to the end of World War I and other periods in the history of the world. But there is a peace dividend. That dividend is the new freedoms and opportunities that have resulted from the peace and stability America and her allies won over the last 50 years.

If we step back for a moment and review Korea, Vietnam, the Persian Gulf, we understand in some rather direct terms what our stand and our allies’ stand in those three areas of the world meant to stability, to commitment, to using our forces in a positive way that, in fact, stood for what was right in the world.

I am a veteran of Vietnam. I served in Vietnam in 1968, and I have heard many times of the stories written and the debate about whether it was a wasted effort in Vietnam. I have responded this way: If America had not taken a stand in Vietnam, aside from how we executed and prosecuted the war—if we had not taken a stand in Korea, Vietnam, and the Persian Gulf—does anyone doubt that the face of Asia, the face of the Middle East would be different than it is today? Of course it would be. It would be more in the interest of freedom and stability and democracy and market economies than it is today. I don’t think so.

So, you see, it is not only having the ability to protect our interests and preserve freedom and democracy, but the will and the leadership to make that commitment is just as important. There are new challenges and new responsibilities today that we face, as the new dynamic world always provides, as we move into the next millennium.

During the cold war, we confronted our adversary on several fronts. Today, we confront several adversaries on several fronts. One of the concerns that we must be very vigilant about over the next few years is not placing America’s interests in the world in a position to be blackmailed by nations who would threaten those interests by threatening to use a weapon of mass destruction and for us, essentially, not only to be militarily incapable of responding to that blackmail and not having the leadership and the will, then we are not going to do that, that isn’t going to happen. Actions have consequences. Inactions have consequences.

America and her allies have done very well over the last 50 years to help stabilize a very unstable world. Partly, that has been the result of our word meaning something, our commitment meaning something. But if we don’t have the military assets and the resources to be able to call upon that capacity to stop tyranny and war and instability, then in fact we place America in a terrible position and we threaten America’s security through the possibility of blackmail.

We must harbor our national defense resources wisely, of course. But when we do use them, we must follow the principles of the Powell doctrine: Overwhelming force deployed decisively in the pursuit of clear objectives.

Rebuilding our military will not be cheap. America needs to understand that. This bill heads us in the right direction, but much more is going to be required. We must not and we cannot build our military based on budget caps or spending goals. Military spending must be based on the threats and challenges we face in the world today. We must protect our interests and help maintain global stability to ensure our long-term growth and prosperity.

The defense budget must flow from our national security interests, not the other way around. The budget cannot drive our national security interests. Our national security interests must drive the budget. If we cannot find other means to take those resources and put them in our national security budget, then we must do that. That will require prioritizing our budget, our resources. It will prioritize what we as Americans believe our role in the world to be.

Every year, the nondefense nondiscretionary budget grows. You have
heard the numbers in the last 2 days around here. For the last 14 years, our defense budget has grown smaller. We have invested less in defense than in the last 14 years. Every year, these other needs crowd out other spending priorities. Nondiscretionary entitlement programs are important, but they do us little good if the military is cut back to the point that our interests are threatened around the world; oil spills are cut off, seascapes are blocked, citizens and corporations abroad are threatened, and our economy declines.

We must look for savings in the DOD budget, of course, push for greater reforms, seek greater efficiencies, and tailor our military for future challenges. But we also must be willing to spend as much as we need to protect our interests in this very uncertain, dangerous world. Our strong, capable military is only half of the challenge. We must also have strong, capable political leadership. That leadership must have the respect of the world, so that the world knows that that leadership can control our military capability that we employ; knowing when and where to use our military. Strong leadership, anchored by clear principles, beliefs, vision, and policy, has always had its own deterrent power.

Dictators fear strong leaders because they know strong leaders will act—despite public opinion polls, focus groups, short-term political gains, or leverage. Leaders understand that actions have consequences, and that inaction has consequences. Last week, King Abdullah from Jordan was here and spoke rather clearly and plainly to this issue regarding NATO’s involvement in Kosovo. These are difficult times, but so have they always been. The real debate that will consume the American electorate next year, and the Presidential politics and body next year, will be simply: What is America’s role in the world? What leadership do we care to continue? We must recognize that if an other country is to replace America as the world’s leader, that new world leader may not be as benevolent as America has been in this century.

I don’t want that kind of a world to be imposed by my 6-year-old and 8-year-old. Richard Haas’ new book, “Reluctant Sheriff: The U.S. After the Cold War,” lays it out clearly. That question about the role of America in the next century is a legitimate question. There should be a relevant debate, with the relevant questions asked: What burdens do we want to carry into the next century? Is it worth taking a disproportionate share of the world’s burdens, which we have always had? I believe there is.

Henry Kissinger’s piece in this week’s Newsweek magazine, “New World Disorder,” speaks to this issue. Unexpected events happen in the world daily. For example, last Sunday, a Chinese intelligence ship was sunk in the South China Sea. Supposedly, the Philippines is contesting that. That is how fast flashpoints can bring world powers into conflict.

We need to commit ourselves now to rebuilding the U.S. military, reasserting ourselves on the world stage, and accepting the burdens that come with leadership.

Can we imagine Harry Truman, Dwight Eisenhower, John Kennedy, or Ronald Reagan whining about the burdens of leadership, whining about, well, I don’t know what the polls show or the focus groups show. Can we imagine those leaders governing and doing what they thought was in the best interest of our Nation and the world based on the political whims and winds of the times? I don’t know what the polls show. America must continue to serve as the rock to which other democracies around the world can anchor. We must also continue to serve as the beacon of freedom and justice for other nations. America must always be inspired hope around the world, but we cannot lead the world without a strong national defense.

Mr. President, I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. SMITH of New Hampshire. Mr. President, I suggest the absence of a quorum, and I ask unanimous consent that the time be equally divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEVIN. Mr. President, I ask unanimous consent that the order for the quorum be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HATCH. Mr. President, once again we have a BRAC authorization measure before us. And once again the same deficiencies that led to the far-reaching political distortion of the prior, so-called “independent” BRAC commissions, are ignored.

I voted against the first BRAC authorization back in February 1989. At the time, I was one of only eight senators to do so because, I said, it could not avoid political tampering. I was hoping to have been proven wrong. Unfortunately, I was not.

The proposal of my distinguished colleagues, Senators McCAIN and Levin, is well-intended. There is no question that a properly run BRAC outcome could lead to funds freed up for force modernization, military pay increases, and many other badly needed defense needs, not the least of which is readiness. But that’s not the motivation of my colleagues that I worry about. Rather, I still question whether this process can be completely objective. Whoever occupies the White House is also likely to be misguided by the same kind of outside pressures and political interests that characterized the previous BRAC disasters.

And, on a more parochial note, I am simply not going to vote to put my home state through this process again. We have proven over and over again that Hill Air Force Base and the other military installations based in my state are efficient, productive, and high quality. I am not going to vote to make them prove it again in a forum where the deck may already be stacked.

So with all due respect to my colleague from Arizona, I cannot support this amendment.

Mr. BUNNING. Mr. President, I have listened carefully to the current debate on the pending amendment which authorizes a round of military base closings commencing in 2001. At this time I do not support a further round of base closings. Therefore, I oppose this amendment for the following reasons.

I have repeatedly asked the Department of Defense, the U.S. Secretary of Defense, the Governor of the Commonwealth of Kentucky, and the Kentucky Department of Military Affairs for information and proof that the past rounds of base closings have produced any savings to the Department of Defense or the U.S. taxpayer. After repeatedly asking for this information to prove this point, it has not been provided to me. Therefore, I need to see proof in savings and these savings need to be in “real” terms and without any accounting gimmicks and projected budgetary outcomes based on guesswork.

Many criticize the Department of Defense’s current accounting measures. They say these accounting measures are soundly based and that these measures are used in decisions which result in an unjust imbalance between our military base infrastructure and the rest of the military. Just because the Department of Defense is reduced in certain areas by a certain percentage, doesn’t mean that our military base infrastructure should be cut at the same percentage level. The Department of Defense needs to measure any downsizing of our military base infrastructure in a formulaic way rather than just an across the board cut done blindly and foolishly.

Also, I am not convinced that if savings were found from past base closings, that the bases in Kentucky, Ft. Knox and Ft. Campbell, would be protected and strengthened. I have repeatedly been told by the U.S. Army that these bases would not be harmed and that they would benefit from any future rounds of closings. The U.S. Army talked of these bases as being leading bases in their branches. However, I have not seen any new strengths added to these bases from past closings and I have not been told of any specific missions which would be added to those
bases in Kentucky. I need reassurance from the U.S. Army that these posts will be protected by seeing the future plans for the base and the specific missions which would be added to them.

Furthermore, I am not convinced that our military in its current state can do more with less. We are in a tangled mission in Yugoslavia, we have major troop deployments around the Korean Peninsula and around Iraq, and we have U.S. troops scattered amongst some 40 other spots elsewhere in the world. Our deployments have increased dramatically over the past decade. If this trend of increased deployments continues, I cannot see the rationality of downsizing our military base structure in the midst of this pattern which seems to have no end.

In conclusion, I have not seen savings from past military base closings. Even if I was convinced there were savings, I am not convinced that the military bases and the soldiers that serve and work at those bases in Kentucky would be protected if they were part of minimizing our base structure while our soldiers and military do more with less. Also, past base closings have been politicized at the Presidential level and I fear the process may continue down that path again.

Because of these reasons, I oppose this amendment which authorizes another round of base closings.

Mrs. FEINSTEIN. Mr. President, I rise in opposition to the amendment offered by Senators MCCAIN and LEVIN authorizing a new round of base closures. As the senior Senator from the state that has suffered the greatest impact from the previous rounds, I believe that the base closure process is deeply flawed and fundamentally unfair.

The first four rounds of base closure occurred too rapidly and too little effort was made to protect local communities from devastating job loss and economic hardship. For those who say that adverse local impact is an essential consequence of reducing military infrastructure, I would like to describe how this process has affected California where since the first BRAC round in 1988, 29 bases in California have been scheduled for closure or realignment.

Some claim that the process has been streamlined and every effort has been made to expedite the transfer of bases to the local community. I have also heard claims that base closure can be a boon to the community by bringing new opportunities for job creation and economic development.

Now let’s look at the facts. The California Trade and Commerce Agency estimated that the four rounds of BRAC cost 97,337 military and civilian jobs. How many have been created? Less than 17,000. That is a net job loss of more than 80,000 jobs.

The reason we are not seeing job creation or economic growth is because the land is simply not being transferred to the community as was originally planned. The process is so slow and bureaucratic that years go by before any development can be done on the closed bases.

Again, the numbers prove this. The 29 closed bases represent 77,268 acres of land. The Federal Government has retained almost 25,000 for itself and 30,000 acres have yet to be transferred. That means that local communities have had access to less than 30 percent of the property that should have been made available to them. It is difficult to create jobs or stimulate economic growth without the land to do it.

That is the big picture of how the State of California has been impacted by the base closure process. Here is the impact at the local level.

Every member of this body who has had a major base close in his or her state can tell a base closure horror story, but I believe the magnitude of the impact in the city of Long Beach has faced makes it unique. In fact, if Long Beach were a state, it would rank in the top five in terms of the number of jobs lost due to base closure.

The Long Beach Naval Station was closed as part of BRAC 1991. This resulted in the loss of more than 8,500 military and civilian jobs. The direct loss of wage and contract was $400 million with an estimated economic loss of another $1 billion annually.

As the city struggled to deal with this devastating blow, the federal government dealt it another. In 1995, the Long Beach Naval Shipyard was scheduled for closure. The job loss from this action has been more than 4,000 and it has caused another $1 billion in total economic loss.

The city’s woes continued during negotiations with the Navy on the terms of the conveyance of the Naval Hospital. In 1964, the city had sold the property to the Navy for $10. Long Beach had a growing naval community and the Navy had, in large part, been a good neighbor. In recent years, that has proven not to be the case. The Navy demanded $8.5 million for the property. The same piece of property and the Navy had, in large part, been a good neighbor. In recent years, that has proven not to be the case. The Navy demanded $8.5 million for the property. The same piece of property

The city’s woes continued during negotiations with the Navy on the terms of the conveyance of the Naval Hospital. In 1964, the city had sold the property to the Navy for $10. Long Beach had a growing naval community and the Navy had, in large part, been a good neighbor. In recent years, that has proven not to be the case. The Navy demanded $8.5 million for the property. The same piece of property and the Navy had, in large part, been a good neighbor. In recent years, that has proven not to be the case. The Navy demanded $8.5 million for the property. The same piece of property
money which we need for the men and women in uniform to have the right pay and the right equipment by continuing to close those two facilities which were leveled about the Sacramento and San Antonio actions.

As it turned out, by the way, things came out quite well. The bidding team that represented the privatization in place of those two facilities lost during a competitive bidding process.

We have to be willing to take the heat. We can no longer just say that the last round was politicized if, in fact, it was cured in the next round. We just cannot eternally and constantly look back at these allegations and debate what may or may not have happened in the 1995 round as an excuse for not doing our duty here in 1999 in terms of saving the money, which is so essential if we are going to authorize the defense budget rationally devoted and rationally spent. We are talking here about a significant chunk of money. We cannot waste this money. Our uniformed personnel and our civilian leadership are pleading with us to authorize an additional base closing round.

This amendment assures that it is the next administration—not this one—which will determine whether to proceed with a base closing round. All we would be doing is authorizing it. The next administration would be the one that would be administering this next round. It would not be this administration.

The timetable that we put in here assures every single statutory step, from picking the commissioners to do the work that is necessary to sending in the recommendations. All of that will take place with the new President and not with this President.

I yield the floor.

Mr. LOTT. Mr. President, if I could inquire about time. It is 1:30 now; are we scheduled to vote on base closure at 1:45?

Mr. LEVIN. The majority leader is correct.

Mr. LOTT. Mr. President, I have followed the base closure recommendations, the so-called BRAC issues, for many years, going back to my years in the House. We have been down this old BRAC road several times before. I have always been opposed to this approach. I remember standing in the center well of the House years ago, talking to Congressman ARMSTRONG of Texas. He was talking about his concept. I told him that I thought it was an abdication of responsibility, but if he wanted to pursue it, here is how to do it, and here is how it has to come through the Rules Committee. He took notes copiously and pursued it and it went through.

I think this is one more example where we and the administrations are pursuing it and it went through.

How it has to come through the Rules is how to do it, and here is how it is done. Think about the timing.

Here we are at a time when our defense capabilities are being stretched to the maximum steaming time, time our men and women are out on ships and they are on remote assignments, at a time when our troops are in combat this very day, we are talking about closing round 1 and 2, or closing facilities back here at home.

Also, a side note: Just last week we passed a bill that provided money for construction of more military facilities in Europe, so we are going to be adding a half billion dollars in new construction in Europe. Maybe it is needed. Maybe that says we have acted too hastily in drawing down in Europe. We allowed our facilities—the runways, the air traffic control, the housing facilities—deteriorate even more there. But at a time when we are going to be spending money in Europe, we are talking about cutting back here at home. Are American servicemembers going to return to find that while the bases overseas are being rebuilt there are “For Rent” signs on the ones they left back home in the United States?

I think, first of all, the whole idea of doing it through a commission is not wise. Second, I do not think we have completed the process of the base closure decisions that have already been made.

For such communities, losing a base is more than just an economic loss; it is an emotional loss and a blow to the core of their identity. These are just not nameless, faceless people involved. In most military communities, personnel are followed by our civilian leaders, little league coaches, and scout masters, not just men and women with money to spend. Communities that lose a base lose much more than economic well-being; they lose friends, neighbors, and community leaders. I think it is very important that we remember what this process does to communities and to the people who are involved.

I maintain the ones that we have had in the past have worked pretty well, although some bases are still not fully closed. The environmental cleanups have not happened in other instances. Many of these facilities, now, are just sitting there.

I recommend before we go to another round, if we ever do, of base closures, we ought to let the ones that have already been recommended fully run out the string. Let's see what we have saved.

I am told a good bit of money will be saved this year from the base closures. But if you read the little asterisk down at the bottom, it doesn’t include, for instance, environmental cleanup costs.

So if you look at the impact this has had on our communities, on our defense capabilities, and on the military actually come from it. I think it is not good judgment to go forward with another round now. Think about what we are doing. Think about the timing.

We have to be willing to take the heat. We can no longer just say that the last round was politicized if, in fact, it was cured in the next round. We just cannot eternally and constantly look back at these allegations and debate what may or may not have happened in the 1995 round as an excuse for not doing our duty here in 1999 in terms of saving the money, which is so essential if we are going to authorize the defense budget rationally devoted and rationally spent. We are talking here about a significant chunk of money. We cannot waste this money. Our uniformed personnel and our civilian leadership are pleading with us to authorize an additional base closing round.

This amendment assures that it is the next administration—not this one—which will determine whether to proceed with a base closing round. All we would be doing is authorizing it. The next administration would be the one that would be administering this next round. It would not be this administration.

The timetable that we put in here assures every single statutory step, from picking the commissioners to do the work that is necessary to sending in the recommendations. All of that will take place with the new President and not with this President.

I yield the floor.

Mr. LOTT. Mr. President, if I could inquire about time. It is 1:30 now; are we scheduled to vote on base closure at 1:45?

Mr. LEVIN. The majority leader is correct.

Mr. LOTT. Mr. President, I have followed the base closure recommendations, the so-called BRAC issues, for many years, going back to my years in the House. We have been down this old BRAC road several times before. I have always been opposed to this approach. I remember standing in the center well of the House years ago, talking to Congressman ARMSTRONG of Texas. He was talking about his concept. I told him that I thought it was an abdication of responsibility, but if he wanted to pursue it, here is how to do it, and here is how it has to come through the Rules Committee. He took notes copiously and pursued it and it went through.

I think this is one more example where we and the administrations are pursuing it and it went through.

How it has to come through the Rules is how to do it, and here is how it is done. Think about the timing.

Here we are at a time when our defense capabilities are being stretched to the maximum steaming time, time our men and women are out on ships and they are on remote assignments, at a time when our troops are in combat this very day, we are talking about closing round 1 and 2, or closing facilities back here at home.

Also, a side note: Just last week we passed a bill that provided money for construction of more military facilities in Europe, so we are going to be adding a half billion dollars in new construction in Europe. Maybe it is needed. Maybe that says we have acted too hastily in drawing down in Europe. We allowed our facilities—the runways, the air traffic control, the housing facilities—deteriorate even more there. But at a time when we are going to be spending money in Europe, we are talking about cutting back here at home. Are American servicemembers going to return to find that while the bases overseas are being rebuilt there are “For Rent” signs on the ones they left back home in the United States?

I think, first of all, the whole idea of doing it through a commission is not wise. Second, I do not think we have completed the process of the base closure decisions that have already been made. Third, the timing could not be worse.

Let's look at this more. Let's make sure we can stop the free fall our defense has been going through in readiness, in morale of our troops, in recruitment and retention. It is just one more factor that can serve as a disaster to our men and women in the military. Some people say, let's go ahead and do it, the Department of Defense wants to do it this way—instead of doing their job, in my opinion—and it probably will not affect me.

I have a list I recommend Senators review before they cast their votes. This list will be available in the Senators’ cloakrooms. I will have them on desks. I will have it in my hand. Look at the bases that were on the list that were not closed in the past. These will be the ones that probably would be first choice to be reviewed again. Just in the State of California, you are talking about 15 facilities. It covers the entire country. It covers facilities in almost every State.

When I look down this list, it really scares me, the facilities that could be considered for closing, what it would do in those communities and what it would do to our military capabilities. So take a look at this list before you cast this vote. Maybe sometime in the future we will need to take another look at it.
But I still think there is fallout from the fact that the last closure did become tangled up in political decisions. There was discussion that some of the decisions recommended by the BRAC were changed or evaded subsequently. I remember Secretary of Defense Cohen believing very strongly he was not given the information he was entitled to when the Base Closure Commission was acting involving the State of Maine. We need to spend more time thinking about this. We should get over this hump we are at right now of our military capability and the involvement we have now in the Balkans. Maybe another year.

I will tell you what I think we ought to do. Let’s try doing it the way it was done for 100 years. Let’s try doing it through the normal process. I support commissions, the most logical solution I see is for the Pentagon to identify bases it no longer decides are necessary and submit these findings to us. Show the Congress where the redundancy and obsolescence are. I have full faith that this body is capable of looking objectively and determine whether a base has outlived its usefulness.

Where is accountability in the BRAC process? We in Congress should not be abdicating congressional authority to some ad hoc commission. In this time of severe military drawdowns and austere budget cuts, I think it is all too easy for us to pass the buck and allow a commission, which has no obligation to answer to any constituency, to further our defense needs and determine whether a base has outlived its usefulness.

So I urge my colleagues, before they vote, look at this list. Think carefully about what you are doing. Can we be sure this will be done in a totally objective way? What will be its impact on our military right now? I thank the chairman of the committee, Senator WARNER, for his thoughtfulness in this area. He has generally, in the past, been supportive of this effort, even when it affected his own State. He has stood up and said, We will do our own part. You have to commend him for that. But he, this time, has said this is not the right time; maybe another day, maybe another way, but not now.

The reason we hope the Senate will do. I hope the Senate will vote against this next round at this time.

I might emphasize, earlier on there was a recommendation we have two rounds, 2001-2005. It was considered we would exclude certain areas and allow the others to go forward. I think the principle here is, every community or State might be exempted and everybody else might have to deal with it—that is wrong. We should not do things that way. We should have a fair, across-the-board policy. I think that is the way we should do it.

I yield to the Senator from Virginia.

Mr. WARNER. Mr. President, it is interesting the leader brings up “the old-fashioned way,” because when I was Secretary of the Navy, circa 1971, 1972, 1973, I closed the Boston Naval Shipyard and the destroyer base, where Senator JACK REED and Senator CHAFEE were very much interested in that. We did it the old-fashioned way. I must say we came down here and we had hearings in this room, Senators Pastore and Pell sat there and grilling me and the Chief of Naval Operations for the better part of a day. But it worked out. So there is a precedent for doing it the old-fashioned way.

I say to my distinguished leader, I was the coauthor of the first BRAC bill and the second BRAC bill. But the commission concept was predicated on trust and fairness. Regrettably, Mr. Leader, that was lost in the last round when, as you know, in, in the California, Arizona and Texas situations, the sticky fingerprints of politics got in there.

Mr. LOTT. Yes.

Mr. WARNER. Therefore, all the communities across the country, once a BRAC process is initiated, they go to general quarters and they hire these expensive lobbyists and all types of people to try to make sure their case, should it work its way up through the system, is treated fairly. That is all the next day they get in the system, we cannot achieve a commission concept of closures.

Maybe we can induce the Secretary of Defense to try it the old-fashioned way and give it a shot. I commit to work fairly and objectively if you put it right on the table. I thank the leader for his strong position.

Mr. LOTT. I thank Senator WARNER.

Let me point out another instance of another Secretary of the Navy. Senator CHAFEE was Secretary of the Navy. When he was Secretary of the Navy, the decision was made, and it was very difficult, but the decision was made to basically mothball the Davisville, RI, Seabee base. I think it is still maintained in a state of readiness, but the number of troops and employees were substantially reduced. But he had done his job. We have done our job in the past without a commission.

By the way, right now there are lawyers, and people going around the States saying, get ready, there is going to be another BRAC, you better hire me so I can make sure your case is made. I think that is wrong and I thank you for your leadership on this issue.

Mr. President, I urge the Members to vote against this base closure commission proposal. I have always opposed this procedure. I opposed it in the House in the eighties, even though I remember talking to Congressman ARMET from Texas about the merits and demerits and how he could proceed to get it done. He did it quite well.

We have been through not one, not two, but 2½ rounds of base closure commissions. I think it is wrong in principle, because we are abdicating, once again, our responsibility to make decisions about what is best for a strong national defense to a commission. For 100 years, if bases, depots, or facilities needed to be closed, the Department of Defense made recommendations to Congress. The Appropriations Committee reviewed the recommendations and made decisions, and bases and facilities were closed. I know of three in my own State of Mississippi that were closed in the fifties and sixties, probably with god justifications.

I can remember when the Secretary of the Navy was JOHN WARNER of Virginia. Some tough decisions were made, recommendations were made to the Congress, and facilities were closed. The same thing occurred when Secretary CHAFEE was Secretary of the Navy. That system worked for 100 years. Some 15 or 20 years ago, it got harder and harder to get Congress to go along with this and the commission idea came along.

I think we ought to go back and do it the way it was originally intended. Let’s do our job. I think when Members say we will never have any facilities closed, history belies that fact.

My next point is, we have been through these 2½ rounds. They were a terrible experience for the communities and for the States involved that have facilities that are impacted. I maintain that we haven’t yet quite felt the impact or gotten the benefit of the base closure rounds that have already been done. We still have facilities that have not been completely closed or the environmental cleanup has not been accomplished. We don’t know whether we really saved money or not.

We are going to be another round until we have been able to assess completely how the earlier rounds worked or didn’t work, what the cleanup costs were, what the real impact was on the communities.

I must say, the timing is terrible, at a time when we are asking our military men and women for more and more in terms of steaming time, time spent on remote assignments, and, in fact, at this very moment Americans are involved in a bombing campaign in the Balkans.

Just last week we passed legislation providing about half a billion dollars to add to facilities in Europe. At a time...
when we are spending more money for facilities in Europe to upgrade or replace facilities that probably we should have already done, we are talking about setting up a process to close them in the United States. I don’t think that is very wise.

It also comes at a time when our readiness is falling, when our retention and recruitment is declining. We are trying to do something about that by adding some money for readiness and for the future needs of the military, to increase the pay for our military men and women. This is not a way or not. I don’t think I ought to be trying to find a way to spare my own situation and let others bear the brunt of the decision. We ought to do it all the way or not.

What we ought to do is let the Pentagon make the recommendations and act on them.

Finally, any Members who think this is fine, don’t worry, it will affect somebody else. I have a list here of bases, depots, and facilities that were on the list of earlier base closure rounds that were not closed. These are the likely facilities to be affected. This is not a free vote in isolation, where Members can always pay the piper. Members can take a look and see how it would impact New York or Michigan or Ohio before casting a vote. Ask yourself when you look at the facilities: Are these excess? Are these unneeded facilities? I think that might affect your decision.

We should defeat this. We should go on and pass this very good defense authorization bill that has been developed by the committee, without this provision in there.

Mayhew, I would not have to do it a day, another time, would see it differently or we would need to vote differently, but not here and now. I urge the defeat of the base closure commission amendment.

I yield the floor and I suggest the absence of a quorum. The PRESIDING OFFICER (Mr. VOINOVICH). The clerk will call the roll. The assistant legislative clerk proceeded to call the roll.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, I ask unanimous consent to speak on the amendment for approximately 5 minutes. I probably will not take that long.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, all I can assume is that this vote may be getting close because a list was distributed, which can only be to try to frighten Members, which has no basis in anything except the imagination of some Senate staffer. It is really unfortunate we have to get into this kind of damn foolishness. I mean really, this is just foolishness. It does not have my State on it, yet three bases were “considered” by BRAC between 1991 and 1995. Whoever is responsible for this really ought to be a little ashamed—a little ashamed, maybe.

The process exists. It was used before. Every single expert, whether they be inside or outside the military—unless they are a Member of Congress—says that we have to close bases. Find me one, find me one military expert, former Secretary of Defense, any general, any admiral, any expert, anyone from a think tank, right or left on the political spectrum, Heritage Foundation, federal, any admiral, anyone from the BRAC, anybody, somebody who is not saying we have too many bases and we have to go through a procedure to close them. This procedure was used in years past.

Strangely enough, strangely enough we have arguments like it costs more money to close bases than it does to keep them open. If that is the case, we ought to build more bases. If that is the case, we never should have closed the bases after World War II. The fact is, that has saved billions and will save billions.

We have young men and women at risk all over the world who are not properly equipped, who are not properly trained, who are leaving the military—11,000 people on food stamps and we have given the nerve and the political will, some might even say guts, to do the right thing. The right thing is to save money, transfer that money to the men and women in the military who are serving under very difficult conditions with equipment that has not been modernized, with a readiness level that we have not seen since the 1970s, and morale at an all-time low. Meanwhile, our commitments grow and grow and grow.

I guess, given this incredible, bizarre list that some intellectually dishonest staffer—intellectually dishonest staffer compiled, we will probably lose this vote. But I tell you, this will not be a bright and shining hour for the Senate of the United States of America.

I yield the remainder of my time.

Mr. WARNER. Mr. President, just to advise the Senate, there is a likelihood the Senator from Washington will be recognized for an amendment at the completion of this vote. It is still being worked on, but we hope to be able to accommodate the Senator.

The pending business, of course, at the end of the vote, would be the Lott amendment.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Do we have any time left on this amendment?

The PRESIDING OFFICER. All time has expired on this amendment.

Mr. LEVIN. I ask unanimous consent for a minute for the Senator from California.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. BOXER. Mr. President, I will not be supporting the McCain amendment. I am not supporting it for a very simple reason. I felt the BRAC method was very political. It was hyped as: Oh, this is nonpolitical; it is going to be based on the merits.

I was not at all convinced that was the case. When you really sat down afterwards and picked the winners and losers, it was pretty clear that a lot went into that decision that was political.

Second, we have not seen, as the Senator from Maine, Ms. SNOWE, has stated, the kind of savings that we were promised because bases were closed and then their missions were recreated somewhere else.

California got hit so hard I could not even begin to tell you the overwhelming economic impact that we have taken. We still have bases, I say to my friends, that are sitting there that have not even been cleaned up and cannot be reused.

So I will not be supporting the McCain amendment. I hope it will not pass. I yield the floor.

The PRESIDING OFFICER. The question is on agreeing to amendment No. 393.

The ayes and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

The result was announced, yeas 40, nays 60, as follows:
The amendment (No. 393) was re-jeected.

Mr. WARNER. Mr. President, I move to reconsider the vote.

Mr. LEVIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. WARNER. Mr. President, I am ready to propound a unanimous consent request. I ask unanimous consent that the Senate now consider an amendment by the Senator from Washington, Mrs. MURRAY, an amendment re: DOD privately funded abortions, that there be 1 hour for debate prior to a motion to table, with the time equally divided and controlled, with no intervening amendment in order prior to the vote.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. ALLARD. That is correct.

The legislative clerk read as follows:

Mr. ALLARD. Maybe I don’t need to have this special provision we talked about. I talked with the staff of the chairman, and they said all we had to do was file the amendment. I filed the amendment and I am happy. I think we are in good shape. It is there, where we can bring it up immediately.

Mr. WARNER. I will put it in the RECORD as of now that you have done that, if you will address the Chair.

AMENDMENT NO. 396

(Purpose: To substitute provisions regarding the Civil Air Patrol)

Mr. ALLARD. Mr. President, I ask unanimous consent that we lay aside the following amendments for the purpose of introducing my amendment No. 396 and then we would go back to the regular order.

The PRESIDING OFFICER. Is there objection?

Mr. WARNER. Reserving the right to object, would you describe in two sentences the nature of the amendment so other Senators can be acquainted with it.

Mr. ALLARD. The nature of the amendment is that it strikes a provision dealing with the Civil Air Patrol, brings them under the direct control of the Air Force. We want to strike out that provision and then set up a report and review of an incident that has occurred with CAP through GAO and the Inspector General. Real briefly, that is what the amendment is about.

The PRESIDING OFFICER. Is there objection to the unanimous consent request?

Without objection, it is so ordered. The clerk will report the amendment.

Mr. WARNER. Mr. President, if I could advise the Senator from Colorado, the fairness to the Senators, the Inspectors General, Senator INHOFE, a fellow committee member, has a position, I think, different from yours; is that correct?

Mr. ALLARD. That is correct.

Mr. WARNER. There could be other Senators, many Senators, interested in this Civil Air Patrol issue. I am happy to lay it down, and at such time as we can get a reconciliation of viewpoints, we hope to proceed. How much time do you think you would need so other Senators——

The PRESIDING OFFICER. If the Senator from Virginia would suspend for a second so the clerk can report the amendment.

The legislative clerk read as follows:

The Senator from Colorado [Mr. ALLARD], for himself, Mr. HARKIN, Mr. SESSIONS, Mr. STEVENS, Mr. CONRAD, Mr. DORGAN, Mr. CLELAND, Mr. CRAIG, Mr. BINGAMAN, Mr. BRYAN, Mr. REED, Mr. CAMPBELL, Mr. MURkowski, and Ms. SNOWE, proposes an amendment numbered 396.

Mr. ALLARD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.
CONGRESSIONAL RECORD—SENATE

May 26, 1999

Mr. WARNER. I am not able to hear the Chair.

The PRESIDING OFFICER. The Senator from Virginia has the floor.

Mr. WARNER. Fine. I thank the Chair for the guidance. I thought the amendment had been logged in.

Mr. LEVIN. Will the Senator yield?

Mr. WARNER. I yield the floor.

Mr. LEVIN. Mr. President, I am wondering whether the Senate from Virginia would consider the following approach: after the disposition of the Murray amendment, that there then be an hour of debate on the Kerrey amendment and, immediately following the disposition of the Kerrey amendment, the reconsideration vote occur on the Gramm amendment, precluding second-degree amendments to the Kerrey amendment.

Mr. WARNER. Mr. President, I will have to ask my colleague to withhold that request. I will work on it, and I think we can accommodate all interested parties.

Now, my understanding from the Chair is, we proceed to the amendment.

The PRESIDING OFFICER. The Senator from Virginia has a unanimous consent request pending. Is there objection?

Mr. WARNER. I am not able to hear the Chair.

The PRESIDING OFFICER. The Senator from Virginia had a unanimous consent request pending. Is the Senator withdrawing that request?
Without objection, it is so ordered.

PROVIDING FOR A CONDITIONAL ADJOURNMENT OF THE SENATE

Mr. WARNER. Mr. President, I ask unanimous consent that the Senate proceed to the adjournment resolution, which is at the desk, and further that the resolution be agreed to and that the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The resolution (S. Con. Res. 35) was agreed to, as follows:

S. CON. RES. 35

Resolved by the Senate (the House of Representatives concurring), That when the Senate recesses or adjourns at the close of business on Thursday, May 27, 1999, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it stand recessed or adjourned until noon on Monday, June 7, 1999, or until such time on that day as may be specified by its Majority Leader or his designee in the motion to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first; and that when the House adjourns on the legislative day of Thursday, May 27, 1999, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it stand adjourned until 12:30 p.m. on Monday, June 7, 1999, or until noon on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Majority Leader of the Senate and the Speaker of the House, acting jointly after consultation with the Minority Leader of the Senate and the Minority Leader of the House, shall notify the Members of the Senate and the House, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000

The Senate continued with the consideration of the bill.

AMENDMENT NO. 397

(Purpose: To repeal the restriction on use of Department of Defense facilities for privately funded abortions)

Mr. MURRAY. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Washington [Mrs. Murray], for herself, Ms. SNOWE, Ms. MIKULSKY, Mrs. KENNEDY, Mr. KERRY, Mr. SCHUMER, Mr. INOUYE, and Mr. KENNEDY, proposes an amendment numbered 397.

Mrs. MURRAY. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In title VII, at the end of subtitle B, add the following:

SEC. 717. RESTORATION OF PREVIOUS POLICY REGARDING RESTRICTIONS ON USE OF DEPARTMENT OF DEFENSE MEDICAL, DENTAL, OR OTHER HEALTH FACILITIES.

Section 1093(b) of title 10, United States Code, is amended—

(1) by striking subsection (b); and

(2) in subsection (a), by striking "(a) RESTRICTION ON USE OF FUNDS.—"

Mrs. MURRAY. Mr. President, this is the Murray-Snowe amendment that ensures our brave young women who serve in the military and their right to pay for their own safe, reproductive health care services. I am here today, again joined by Senator SNOWE and many others, to offer our amendment to protect military personnel and their dependents' access to safe, affordable, and legal reproductive health care services.

That is exactly what this amendment is all about—access to safe, affordable, and legal reproductive health care services. That is why the Department of Defense supports this amendment, as does the American College of Obstetricians and Gynecologists. The Department of Defense recognizes that it has a responsibility to ensure the safety of all of its troops, including our women.

Many of you may wonder why Senator SNOWE and I continue to offer this amendment year after year. Why don't we just give up? Let me tell my colleagues, the reason I come to the floor this year during the Department of Defense authorization bill is to continue to educate in the hope that a majority of you will finally stand up for all military personnel.

As I have in the past, I come here today to urge my colleagues to guarantee to all military personnel and their dependents' rights and guarantees that are enjoyed by all American citizens. These rights should not stop at our border. We should not ask military service women to surrender their rights to safe, legal, reproductive health care services because they have made a commitment to serve our country.

Many of our military personnel serve in hostile areas in countries that do not provide safe and legal abortion services. Military personnel and their families should not be forced to seek back-alley abortions, or abortions in facilities that do not meet the same standards that we expect and demand in this country. In many countries, women who seek abortions do so at great risk of harm. It is a terrifying process.

I heard from a service woman in Japan who was forced to go off base to seek a legal abortion. Unfortunately, there was no guarantee of the quality of care, and the language barrier placed her at great risk. She had no way of understanding questions that were asked of her, and she had no way of communicating her questions or concerns during the procedure. Is that the kind of care that we want our service personnel to receive? Don't they deserve better? I am convinced that they do.

This amendment is not—let me repeat—is not about Federal funding of abortions. The woman herself would be responsible for the cost of her care, not the taxpayer. This amendment simply allows women who are in our services to use existing military facilities that exist already to provide health care to active-duty personnel and their families. These clinics and hospitals are already functioning. There would be no added burden.

I also want to point out that this amendment would not change the current conscience clause for medical personnel. Health care professionals who object to providing safe, legal, reproductive health care services to women should not be forced to provide services, but we should also not stop at our border. We should not give up and say this is as far as we can go.

Today, when a woman in the military needs an abortion or wants an abortion, she first has to approach her duty officer to request him or her medical leave. Then she has to ask for transport to a U.S. base with access to legal abortion-related services. Her duty officer has to grant the request, remove her from active duty, and transport her to the United States. This is an expensive, taxpayer-funded, inefficient, and ineffective process. Not only is there cost of transportation, but there is cost to military readiness when active personnel is removed for an extended period of time.

As we all know, women are no longer simply support staff in the military. Women command troops and are in key military readiness positions. Their contributions are beyond dispute. While women serve side by side with their male counterparts, they are subjected to archaic and mean-spirited, anti-woman health care restrictions. Women in the military deserve our respect and they deserve better treatment.

In addition to the cost and the loss of personnel, we have to ask: What is the impact on the woman's health? A woman who is stationed overseas can be forced to delay the procedure for several weeks until she can get her travel to the United States where she can get safe, adequate, legal health care. For many women, every week an abortion is delayed is a risk to her health.

Why should a woman who is serving our country in the military be placed...
at a greater risk than a woman who is not serving in the military.

In making this amendment, I am often struck by how little some of my colleagues know about restrictions on reproductive health care services in many other countries. Many of my colleagues may be surprised to learn that in some circumstances abortions are illegal, and punishment is swift and brutal—not just against the provider but against the woman as well. In these cases, a back-alley abortion can be deadly. Not only are they risking their own health, but they are also risking their own safety and well-being.

We are talking about women who are serving us overseas in the military. Why should we put our military personnel in this kind of danger?

We are fortunate in this country, because abortion is an extremely safe procedure when it is performed by trained medical professionals. However, in the hands of untrained medical professionals in unsterilized facilities, abortion can be dangerous and risky to a woman’s health. The care that we expect—actually the care that we demand—is simply not universal.

Regardless of what some of my colleagues may think about the constitutional ruling that guarantees a woman a right to a safe abortion without unnecessary burdens and obstacles, it is the law of our land. Roe v. Wade provides women in this country with a certain right and a guarantee. While some may oppose this right to choose, the Supreme Court and a majority of Americans support this right. However, active-duty servicewomen who are stationed overseas today surrender that right. They are made to make the decision to volunteer and to defend all of us.

It is sadly ironic that we send them overseas to protect our rights, yet in the process we take their rights away from them.

I urge my colleagues to simply give women in the military the same protection whether they serve in the United States or overseas. Please allow women the right to make choices without being forced to violate their privacy and, worse, jeopardize their health. This is and must be a personal decision. Women should not be subjected to the approval or disapproval of their coworkers or their superiors. This decision should be made by the woman in consultation with her doctor.

The amendment that is before us simply upholds the Supreme Court decision. It is not about Federal funding. It is not about forcing those who constitute the federal government to provide those services. It is simply about the degree that we recognize the role of women in the military and whether we give them the respect that I argue they deserve.

Mr. President, I yield to my colleague, Senator Snowe, what time she would like to use.

Ms. SNOWE. Thank you, Mr. President. I thank the Senator from Washington for, once again, providing leadership on this most significant issue. As she said, it is regrettable that we have to come back to the floor to seek support for our women in uniform who happen to be assigned overseas for this very basic right. I commend her for introducing this legislation once again to repeal the ban on privately funded abortions at overseas military hospitals.

It is unfortunate that this amendment is even necessary. It is unfortunate that we have to be here fighting for it once again. How could this debate be necessary? How can it be that this blatant wrong still needs to be righted? Yet, here we are, once again, having to argue a case that basically boils down to our women who are serving this country overseas with the full range of constitutional rights, options, and choices that would be afforded them as American citizens on American soil.

We are here today because the U.S. law denies the right to choose to 227,000 spouses and dependents stationed with our servicemen overseas, and denies the right to choose for more than 27,000 servicewomen who volunteered to serve our country. Though these women are right now overseas our country’s interests, year after year this body denies them access to safe and sanitary medical care simply because they were assigned to duty outside the United States.

In very simple terms, this amendment will allow women stationed overseas that right to privately funded abortions at their local American military facility. It will allow women and their spouses the freedom to consider the most important decision they could make without fearing the potentially substandard care they would be faced with in a country that does not speak their language and that does not train their medical personnel the way in which they are here in the United States.

I don’t understand why we insist in denying our service men and women and their families their right as Americans. We ask a great deal of our military personnel—low pay, long separations, hazardous duty. When they signed up to serve their country, I don’t believe they were told, nor do I believe they were asked, to leave their freedom of choice at the ocean’s edge. It is ironic that we are denying the very people who ask to uphold democracy and freedom the basic and simple right to safe medical care.

The Murray-Snowe amendment would overturn that ban and ensure that women and military dependents stationed overseas would have access to safe health care.

I want to clarify the fact that overturning this ban doesn’t mean we will be using Federal funds to support a procedure such as abortion. This would allow American personnel stationed overseas to use their own funds for the support of an abortion in a military hospital. It is very important to make that distinction.

As the Senator from Washington indicated, there is also a clause so that medical personnel cannot be forced to perform a procedure with which they disagree.

We had this ban lifted in 1993 restoring a woman’s right to pay for abortion services with her own money. Unfortunately, that ban was reinstated back in 1995. I think it is important to understand what choices women are left with under our current policy.

Imagine a young servicewoman or the wife of an enlisted man living in a foreign country when language is a barrier. She finds herself pregnant and, for whatever reason, she has made a very difficult decision to terminate her pregnancy and she wants to have that procedure done in a military hospital and is willing to pay for her own funds. Under current U.S. law, she won’t be able to do that. She won’t be able to go to a base hospital near her family and friends. She won’t be assured of the same quality care that she could receive here in the United States.

She won’t be able to even communicate under some circumstances because language might be a barrier.

So what are her choices? She must either find the time and the money to fly back to the United States to receive the health care she seeks, or possibly endanger her own health by seeking one in a foreign hospital, or she may have to fly to a third country, again where the medical services may not equate to those available at the military base—if she can afford to return home.

What is the freedom to choose? It is a freedom to make a decision without unnecessary government interference. Denying a woman the best available resources, for her health care simply is not right. Current law does not provide a woman and her family the ability to make a choice. It gives the woman and her family no freedom of choice. It makes the choice for her. Our men and women in uniform—and the families standing behind them—are our country’s best and most valuable assets. When people sign up for military service, they promise us they will do their best to protect our country and its ideals. We promise them we will provide for them and their families the necessities of life—to provide them with the most advanced and the safest health care available. That is the arrangement. This is the benefit that we make available to them in return for their commitment to serve our country. Our men and women and their spouses should not be required to give up their constitutional protections,
and the Supreme Court supported right to privacy, and our promise of safe health care.

Yet, we prohibit women from using their own money—not taxpayer dollars—to obtain the care they need at the local base hospital.

What we are saying to our women in uniform, or to the dependents of others who serve in our military, is: Sorry. You are on your own. So she faces a circumstance that she would not confront were she stationed at Fort Lewis, WA, or Brunswick Naval Air Station in Brunswick, ME, because she could go off base and be guaranteed safe and legal medical care.

The Murray-Snowe amendment is only asking for fair and equal treatment. It is saying to our men and women and their families, if you find yourself in a military hospital, you will provide the service of safe medical care if you pay for it with your own money. Is that too much to ask?

We owe it to our men and women in uniform. We owe it to them so that they can seek the care they need in a safe environment. They do not deserve anything less.

I urge my colleagues to join in voting for the Murray-Snowe amendment.

I yield the floor.

Mr. SMITH of New Hampshire. Mr. President, here we go again with the same amendment that comes up every year. The vote is always close. There are a lot of very strong feelings on both sides.

Again, as I have in the past, I rise in opposition to this amendment—this time the Murray-Snowe amendment—which would allow U.S. military facilities to be used for the performance of abortions on demand.

Under current law, no funds may be made available to the Department of Defense for the performance of abortions. The amendment now before the Senate is completely inconsistent with the Hyde amendment, which has been existing law for 20 years. Under the Hyde amendment, no taxpayer dollars may be used to pay for abortions.

The issue here is whether or not you want to basically throw out the Hyde amendment and say that Members are willing to have taxpayer dollars used to pay for abortions in military hospitals. The Hyde amendment recognizes that millions of American taxpayers believe that abortion is the taking of an innocent life, an unborn human being. Those Members, myself included, who proudly call ourselves pro-life should not be forced to pay for a procedure with our tax money that violates our fundamental and deeply held belief in the sanctity of innocent human life. That is the issue here.

In the 1980 case of Harris versus McRae, the Supreme Court upheld the constitutionality of the Hyde amendment. The Court determined that there is no constitutional right to a tax-funded abortion, no matter how we feel on the issue otherwise—no constitutional right, according to the Harris versus McRae decision.

Current law with respect to abortions at military facilities, then, is fully consistent with the Hyde amendment. This amendment by the Senator from Washington will overturn existing law. The proponents of this amendment, which would overturn current law and allow abortion on demand at military facilities, claim that their proposal is somehow consistent with Hyde. It is not. They say this because, under their proposal, servicewomen seeking these abortions would pay for them. That is true.

This argument, however, evinces a fundamental misunderstanding of the nature of military medical facilities. In short, it is true. Unlike private clinics and private hospitals, receive not 10, but 20, but 30, but 40, but 100 percent of their funding from the taxpayers of the United States. A woman cannot go into a military facility at those facilities without the taxpayers paying for the facility she is using to have that abortion. The clinics, the hospitals, the doctors, the equipment—all of it is paid for by the U.S. taxpayer.

Physicians who practice in those clinics and hospitals, government employees whose salaries and bills are paid by the taxpayers, all of it, all of the operational and administrative expenses associated with the practice of military medicine are paid for by the taxpayers of the United States.

Furthermore, equipment that would be used at these facilities to perform the abortions, equipment that we abhor—those of us who are pro-life, who are pro-life, who are pro-life, and I won’t go into the details about what happens with the equipment that is used on these innocent children—that equipment will be purchased by taxpayer dollars. It will be purchased by dollars that I pay in taxes and that many of my millions of friends around the Nation who oppose abortion, their dollars will be used to pay for this.

The Supreme Court of the United States has said that that is wrong and they ruled in the McRae case that it should not be done. It is simply impossible to allow the performance of abortions at military facilities, even if the procedure itself is paid for by the servicewoman involved, without having the taxpayers forced to subsidize it. You can’t have it.

The only way to protect the integrity of the taxpayer’s dollars is to keep the military out of the business of abortion. We could go on and on, on just that issue. Just what business should the military be in? It has gotten into a lot of things lately under this administration that don’t belong in the realm of the military, but do we have to now go to the taking of the lives of unborn children and use the military to do that? Do we have to really do that? Isn’t that what we have to see throughout America since the illustrous Roe versus Wade decision in 1973—I ask everyone to reflect for a moment on what has happened since that decision.

In 1973, Roe versus Wade was passed. Since that date, 35 million babies, that we know of, have been aborted. Let’s define abortion: The taking of the life of an unborn child. Thirty-five million. If you look at the statistics of how many girls are born and how many boys are born, that probably translates into about 18 million young girls who would now be as old as 30 years, perhaps, depending on when the abortion might have been performed. How many of those 18 million young women may have had the opportunity to serve in the U.S. military? They don’t get that chance because our country, our Nation, supported a Supreme Court decision that said they didn’t have a chance to ever have the opportunity to serve in the military, never have the opportunity to be a mother, never to have the opportunity to be a daughter, never to have the opportunity to live their dreams, to enjoy the liberties of the United States of America—never to have that opportunity. Never to have the opportunity to fight for the freedom of the United States as a member of the military because they were aborted—they were killed in the womb. This Nation, through this Supreme Court decision, allowed it to happen. That is beyond the dignity, to put it mildly, of a great nation. We let it happen.

It is bad enough that happened, but now we have to go one step further with the amendment of the Senator from Washington and say that the taxpayers have to fund it.

Mr. President, Mr. President. Mr. President. Everyone who will vote on this amendment in the next hour or so had had the opportunity I have had to personally meet a young woman who is now in her midtwenties. She could not serve in the military because she was not physically able to serve in the military. Let me tell you why she could not serve in the military. She was aborted, and she lived, and she is crippled. So she cannot serve in the military. I have met this young woman, and many, many people. There are many like her, but I use her as an example. Gianna Jessen. Who knows, maybe Gianna would have liked to have been a woman in the military, but she cannot.

Why do we not wake up in America and understand what we are doing? Should we really be surprised when our children do some of the things they do in this country? Why should we be surprised? What is the underlying message? This amendment sends the same message.

The underlying message is: Go to school today, Johnny. Go to school.
today, Mary. You be good kids. You do the right thing. And meanwhile, while you are at school, we will abort your brother or your sister.

That is the message we are giving to our kids. That is the message this amendment is giving to our kids. That is the message this amendment is giving to all Americans—that now we are going to say the taxpayers can support this kind of thing.

I wish the Senator from Washington would come down here on the floor with an amendment that might say we could provide a little help, a little counseling, a little love, a little compassion, a little understanding to this woman who wants this abortion, and explain to her the beauty of life and explain to her what a great opportunity it would be for her to have that child and to have that child grow up into a world where that child could be loved and could be understood and could have the opportunity to perhaps follow her mother’s ambitions and serve in the U.S. military or perhaps to follow in her mother’s wake and be a mother herself, to enjoy the fruits of the greatest nation in the world.

Let’s not agree to this amendment and violate the spirit of the Hyde amendment and violate more unborn children, intrude into the womb, take the lives of unborn children.

When are we going to wake up? Would it not be wonderful to come down on the floor of the Senate just one year when we did not have to deal with this, when people would respect life and we would be offering amendments to protect life rather than to take it? That is an America I am dreaming of, Mr. President. That is an America I would like to see in the 21st century, not an America of death but an America of life, where we respect life.

Allowing abortion on demand in military facilities would violate the moral and religious convictions of millions and millions of people, of millions of Americans who believe, through their own religious convictions, or in any other way, as I do, that the unborn child has a fundamental right to life, a right to life that comes from the Declaration of Independence, from the Constitution, and from God Himself. Yes, from God Himself. That is where it comes from, and we do not have the right to take it.

For the sake of one or two votes on the floor of the Senate, in a very few minutes we are going to make that decision. Whichever way it goes, we are going to say how many more children have to die. How many more children have to die?

When are we going to wake up, America? How much more of this do we have to take? Why are you surprised when your children do something wrong? What kind of message do we send?

This amendment is not about the so-called right to choose abortion that the Supreme Court created in 1993. I disagree with Roe v. Wade. Everybody knows that. I just said it. I introduced bill S. 907, that would reverse Roe v. Wade, establishing that the right to life comes with conception and protecting that life. I dream of the America of the future when we will respect it.

But, as I said, this amendment is not about the larger issue of abortion: it is about taxpayer funding of abortion. Millions and millions of pro-life Americans, who believe to the very core of our being that abortion is the taking of an innocent life, should not be forced to pay for abortions, not directly, not indirectly, not any way you can define it, with taxpayer dollars.

I urge my colleagues, no matter what their personal views are, to reject this amendment, because it is a pressure current, to vote to protect and be consistent with the Hyde amendment. Let’s get the military involved in protecting America and not taking innocent children’s lives.

I yield 5 minutes to the Senator from Oklahoma.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. NICKLES. Mr. President, I compliment Senator SMITH for his remarks.

I join him in urging our colleagues to vote “yes” in favor of the tabling motion, to vote “no” on the Murray amendment.

Abortion is not a fringe benefit. People talk about a benefit that other people have. Abortion is the taking of a human life, so it should not be just a fringe benefit that is provided for at Government expense or provided for in Government hospitals. These are military hospitals. They do not have abortionists working in those hospitals. They have not been allowed through 1992. It was a change in the Executive order by the Clinton administration in 1993, saying we are going to have those. In 1993 and 1994, because of an Executive order—not because of a change in Congress—the Clinton administration said we want to provide abortions at military hospitals.

Guess what. They could not find abortionists. They could not find doctors to perform abortions at military hospitals because they had been prohibited for at least 10 years, if not 12 years before, when that was the case. The Hyde amendment said we are not going to use Federal funds to provide abortions. We did not have abortions performed at military hospitals. The Clinton administration tried to change that. They did not have anybody to do it. They tried to recruit them.

We changed the law in 1995. The Murray amendment would change it back by saying to military hospitals: You must provide abortions—a fringe benefit. Granted, maybe the person receiving the abortion now would have to pay a little bit, but the military is going to have to find somebody to perform them. They are going to have to make that change, and there is no one trained to do it, and trained to do it right. So they are going to have to hire people to perform abortions, people right now they do not have—they have not been able to find them. Frankly, in 1993 and 1994 we changed the law. Congress changed the law in 1995, and I think they were right in doing so.

I think it would be a mistake for Congress to overrule that now and say we think that should be a standard benefit that is provided in Government military hospitals all across the world, so it could be basically a fringe benefit, it could be standard operating procedure—yes, anybody can get an abortion in a military hospital. It would be a womans right of control. I think that would be a serious mistake.

We have to realize, it is not a fringe benefit; it is the taking of an innocent human beings life. So I urge my colleagues to support Senator SMITH in the tabling motion with respect to the Murray amendment.

Mr. JEFFORDS. Mr. President, we all recognize that the bottom line of our national defense is quality of our men and women in uniform. They are the core of our security. They make a commitment to the defense of this nation, and we make a commitment to them that includes access to high quality health care. Women serving overseas are particularly reliant on this commitment, as they often have no alternative access to quality health care.

The issue of abortion is a matter of individual conscience. The Supreme Court ruled in Roe v. Wade that the decision whether to have an abortion belonged to the woman and the government. Yet, for American servicewomen, that right to choose is effectively being taken away from them. They are being denied access, even at no expense to the Government, to a safe medical procedure. In most cases, the servicewoman does not have access to this procedure anywhere else.

American servicewomen have agreed to put their lives on the line to defend this country. But yet we are denying them a basic right that all other women have—this right that could easily be granted to them at no expense to the federal government. The Murray-Snowe amendment provides that the woman involved would reimburse the government for the full cost of the procedure. In my mind, this is a basic matter of fairness. I would argue that our military women should not be singled out to be unjustly discriminated. I urge my colleagues to oppose the motion to table the Murray-Snowe amendment.

Mr. KENNEDY. Mr. President, I strongly support this amendment, which will at long last remove the unfair ban on privately-funded abortions
at U.S. military facilities overseas. This amendment will right a serious wrong in current policy, and ensure that service women in uniform—women who make significant sacrifices to serve our Nation—are able to exercise their constitutionally-guaranteed right to choose.

This is an issue of fundamental fairness for the large numbers of women who serve our country with such distinction. The same medical care available to all women in the United States who serve overseas should be able to depend on military hospitals for their medical needs. If they should be forced to choose between lower quality medical care in a foreign country or travelling back to the United States for the care they need, Congress has a responsibility to provide safe medical care for those serving our country at home and abroad.

Without proper care, abortion can be a life-threatening or permanently disabbling procedure. This danger is an unacceptable burden to impose on the nation’s dedicated service women. They should not be exposed to substantial risks of infection, illness, infertility, and even death, when appropriate care can easily be made available to them.

This measure does not ask that these procedures be paid for with federal funds. It simply asks that service women overseas have the same access to all medical services as their counterparts at home.

In addition to the health risks imposed by the current unfair policy, there is significant financial hardship for young women. Service women in the United States do not have to bear this burden, since non-military hospital facilities are readily available. It is unfair to ask those serving abroad to suffer this financial penalty.

If military personnel are unable to pay for a trip to the United States on their own, they often face significant delays while waiting for available military transportation. Each week, the health risks faced by these women increase. If there are long delays in obtaining a military flight, the women may decide to rely on questionable medical facilities overseas. As a practical matter, these women in uniform are being denied their constitutionally-protected right to choose.

A woman’s decision to have an abortion is a very difficult and extremely personal one. It is wrong to impose an even heavier burden on women who serve our country overseas. Every woman in the United States has a constitutionally-guaranteed right to choose whether or not to terminate her pregnancy. It is time for Congress to stop denying this right to women serving abroad. It is time for Congress to stop treating service women as second-class citizens. I urge the Senate to support the Murray-Snowe amendment and end this flagrant injustice under current law.

Ms. MIKULSKI. Mr. President, I rise today in strong support of the amendment offered by Senators MURRAY and SNOWE. I am proud to be a cosponsor of this amendment.

This amendment would repeal the current ban on privately funded abortions at US military facilities overseas.

I strongly support this amendment for three reasons. First of all, safe and legal access to abortion is the law. Second, women serving overseas should have access to the same range of medical services they would have if they were stationed here at home. Third, this amendment would protect the health and well-being of military women. It would ensure that they are not forced to seek alternative medical care in foreign countries without regard to the quality and safety of those health care services. We should not treat US service women as second-class citizens when it comes to receiving safe and legal medical care.

It is a matter of simple fairness that our service women, as well as the spouses and dependents of servicemen, be able to exercise their right to make health care decisions when they are stationed abroad. Women who are stationed overseas are often totally dependent on military facilities for medical care. Most of the time, the only access to safe, quality medical care is in a military facility. We should not discriminate against female military personnel by denying safe abortion services just because they are stationed overseas. They should be able to exercise the same freedoms they would enjoy at home. It is reprehensible to suggest that a woman should not be able to use her own funds to pay for access to safe and quality medical care.

Without this amendment, military women will continue to be treated like second-class citizens.

The current ban on access to reproductive services is yet another attempt to cut away at the constitutionally protected right of women to choose. It strips military women of the very rights they were recruited to protect. Abortion is a fundamental right for women in this country. It has been upheld repeatedly by the Supreme Court.

Let’s be very clear. What we’re talking about here today is the right of women to obtain a safe and legal abortion paid for with their own funds. We are not talking about using any tax-payer or federal money—we are talking about privately funded medical care. We are not talking about reversing the conscience clause—no military medical personnel would be compelled to perform an abortion against their wishes.

This is an issue of fairness and equality for the women who sacrifice every day to serve our nation. They deserve access to the same quality care that servicewomen stationed here at home—and every woman in America—has each day. I urge my colleagues to support this important amendment to the 2000 Department of Defense Appropriations Bill.

Mr. HELMS. Mr. President, I strongly oppose the Murray amendment because it proposes to legalize the destruction of innocent unborn babies at military facilities. And Mr. President, if precious unborn babies are allowed to be slaughtered on military grounds, it will be a stark contradiction to the main purpose of our national defense—the defense and protection of the human lives in America.

Small wonder that the men and women serving in the military are losing faith in the leadership of this country. In fact, Congress recently heard from members of the Air Force, Navy, Army, and Marines who testified about the low morale among U.S. service men and women—which they contribute to a general loss of faith and trust.

After all, the military establishment continues to have its moral wars shipped away by the immoral principles of the extreme liberal-left. In fact, the American people would be shocked and disturbed to learn that our military has been pressured to accept Witchcraft as a recognized religion.

Why would Congress wish to demoralize our military folks further by casting a dark cloud over military grounds—which is precisely what will happen if abortions are to be performed at these facilities.

Let us not forget, America’s military is made up of fine men and women possessing the highest level of integrity and pride in defending their country. These are men and women who have been selfless in dedicating their lives to a deep held belief that freedom belongs to all.

Senators should not mince words in saying that military doors should be shut closed to abortionists. I urge Senators to vote against this amendment.

The PRESIDING OFFICER. Who yields time?

The Senator from Washington. 

MRS. MURRAY. Mr. President, I remind my colleagues, what this amendment does is simply allow a woman who is serving in the military overseas to use her own money to have an abortion performed in a military hospital at her expense.

I yield 5 minutes to my colleague from California.
The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER of California. I thank Senator MURRAY for yielding me this time. It is so hard to know where to begin to respond to the comments made by both of my colleagues who are the leaders in the anti-choice movement and who are using this amendment as a reason to once more come to this floor and to attack a basic constitutional right, that women have been granted, that they do not agree with.

So what has been their effort? It is, in essence, to take away that right bit by bit. I hate to say this: They have made great progress. They have taken away the right to choose in many ways, from poor women in this country, by denying them funding. A woman in the military—cannot exercise that right, even if she does not use Federal funds but locally-raised funds. They no longer teach surgical abortion at medical schools as a result of the action of this anti-choice Congress.

Women in the military, as we now know, are denied the right to go to a safe military hospital. Native American women who rely on Indian health care cannot go to that health care center and obtain a legal abortion. I want to make a statement, and I sure would like a response: Women in Federal prison who need to have this legal procedure get treated better than women in the military overseas. Let me repeat that. Under the laws of this Congress, women in Federal prison get treated better than women in the military who are stationed overseas when both need to have this procedure.

Under our rules, if a woman is in a Federal prison, she cannot count on Medicaid. But if there is an escort committee who can take you, she gets that escort committee. What happens to a woman in the military? Suppose you are stationed in Saudi Arabia where abortion is illegal, and you cannot go to your military hospital. You, obviously, cannot go to a clean health facility in Saudi Arabia, so you have two choices: You can go to a back-alley abortionist and risk your life—you are already risking your life in the military—or you can go to your commander, who is usually a man, and confide in him as to your situation which, it seems to me, is a horrible thing to have to do, to tell such a private matter to a commander. Then, if you can get a seat on a C-17 cargo plane, maybe then you can go back, in a situation where you really need immediate attention, and figure out a way to get a safe, legal abortion.

The Senator from New Hampshire and the Senator from Oklahoma say: Well, this is Federal funding. This is not Federal funding. Senator MURRAY has stated that over and over. I compliment her and Senator SNOWE on their tenacity in bringing this back and forcing us to look at what we are doing to women in the military who risk their lives, and because of this antichoice Senate, we are forcing them to put their lives at risk again. I commend them. This is not a fring benefit. They will pay.

Medical facilities abroad are in a state of readiness. They do not have to turn the lights on when someone comes in for a health care procedure. The lights are on, and they will pay the costs. We all know when we pay our doctors the overhead is put into that bill. That is such a bogy argument. It is amazing that it is even made.

What you are doing in this current policy is telling women in the military they are lesser citizens than all the other women in the country when, in fact, they ought to be treated with even more dignity and respect perhaps than anyone else, because not many of us can say that we go to work every day putting our lives on the line. They can say that. Yet, because of this terrible way we treat these women, they are put in jeopardy.

I will sum it up this way. There are people in this Senate who disagree with the Supreme Court decision, and I say to my friend from New Hampshire, he certainly does and he does not mince words about it, and he is very straight-forward about it. He says he is proud to be pro-life.

I ask for 1 more minute.

Mrs. MURRAY. I yield 30 additional minutes to the Senator from California.

The PRESIDING OFFICER. The time of the Senator has expired. Who yields time? The Senator from New Hampshire.

Mrs. MURRAY. I yield 3 minutes to the Senator from Illinois.

The PRESIDING OFFICER. The Senator from Illinois recognized for 3 minutes.

Mr. DURBIN. I thank the Senator from Washington, as well as the Senator from Maine, for offering this amendment, which I will support. I join in saying what the Senator from New Hampshire said earlier. Senator SNOWE suggested this is not a debate in which we are anxious to get involved. It is a very controversial issue, deeply felt on both sides. I respect the Senator from New Hampshire and his personal views on this. I think every Senator has his position in offering a vote in favor of this amendment.

Let me say a few things that need to be cleared up. The Senator from New Hampshire said repeatedly that this process uses taxpayer dollars to pay for abortion. Of course, that is a flash point. What people hear that, they say: Wait, I don't think we ought to spend taxpayer dollars on that. Maybe people want to do that personally.

Senator MURRAY addressed that point. Her amendment makes it clear that these procedures are to be paid for by the servicewoman out of her pocket at a cost that is assessed for the procedure itself. There are no taxpayer dollars involved in this. This amendment is clear.

Secondly, the Senator from New Hampshire says this does not abide by the Hyde amendment. The Hyde amendment, as important as it is, does not override Roe v. Wade. The Hyde amendment limits abortions to those procedures performed as a military hospital. But the procedure now on military bases goes beyond the Hyde amendment. The procedure on military bases today says if there is an endangerment of the woman's life, she can have the procedure performed at a military hospital at Government expense. If she is a victim of rape or incest, she can have an abortion performed at a military hospital at her own expense.

We are talking about the other universe of possibilities out there. Senator BOXER of California really poses an interesting challenge to us: Two women, under the supervision of the Government of the United States of America, both of them pregnant, both of them wanting to end the pregnancy with a procedure. In one case, we say if you have the money, we will escort you to a safe and legal clinic in America for the performance of this procedure. In the other case, we say if you have the money, you have to fend for yourself; there is no abortion performed at a military or hospital.

What is the difference? The first woman is a prisoner in the Federal Prison System. For her, we have an escort committee. But for the woman who has volunteered to serve the United States to defend our country and she is in the same circumstance, we say: You're on your own; go out in this country, wherever it might be, and try to find someone who will perform this procedure safely and legally.

The Senator from Oklahoma said abortion is not a fringe benefit. He is right. But health care is a fringe benefit that most Americans enjoy, and many hospitalization insurance policies do not cover it when it comes to the women who serve in the U.S. military. Abortion is not a fringe benefit; abortion is a constitutional right. If that
President be printed in the RECORD, of my letter dated March 30 to the compromise or a plea bargain which unpunished. There should not be a quiescence of President Milosevic.

The PRESIDING OFFICER. The Senator from Pennsylvania is recognized for 3 minutes.

Mr. SPECTER. I thank my colleague from Washington. I support this amendment. I believe a woman should have a right to choose, and under the circumstances involved here, if the woman is going to seek an abortion, she should not be compelled to come back to the United States. Having an abortion in many foreign spots poses very material risks. This is a common sense abortion amendment which ought to be adopted.

WAR CRIMES TRIBUNAL INDICTMENT OF SLOBODAN MILOSEVIC

Mr. SPECTER. Mr. President, I want to comment about another matter very relevant to the pending legislation, that is the dispatch from Reuters within the hour that the War Crimes Tribunal has issued an indictment for President Milosevic and that an arrest warrant has already been signed. I think that is very important news, because it not only puts Milosevic on notice but also all of his subordinates, that the War Crimes Tribunal means business, that those who are responsible for crimes against humanity and war crimes will be prosecuted.

I compliment Justice Louise Arbour who was in Washington on April 30, asking a bipartisan group of Senators, including this Senator, for assistance; and we appropriated some $16 million in the emergency supplemental last week.

The next important point is to be sure that we do not permit a plea bargain to be entered into which will exonerate Milosevic as part of any peace settlement.

We ought to be sure this prosecution is carried forward. There is an abundance of evidence apparent to the naked eye from the television reports on atrocities, of mass murders, which can only be carried out with the direction of or at least concurrence or acquiescence of President Milosevic. Those crimes should not go unpunished. There should not be a compromise or a plea bargain which would absolve him.

I ask unanimous consent that a copy of my letter dated March 30 to the President be printed in the RECORD, where I ask specifically that the extradition of President Milosevic to face indictments ought to be a precondition to stopping the NATO airstrikes; and a copy of my letter of April 30, to the President urging that warrants be issued and executed for Karadzic, and that the full impact of the War Crimes Tribunal be carried out, that this is a very important movement, probably worth a great deal more than airstrikes or even ground forces, to indict Milosevic, let him know that indictments and warrants are outstanding, and that those under him who carry out war crimes will be prosecuted to the full extent of the law.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

U.S. SENATE,
COMMITTEE ON VETERANS' AFFAIRS,
The President,
The White House,

DEAR MR. PRESIDENT: If today's reports are accurate, and I'm sure the President must realize that Serbian forces' massacres of Kosovo's ethnic Albanians constitute genocide and crimes against humanity, which should be prosecuted in the War Crimes Tribunal for the Former Yugoslavia.

There is probable cause to conclude that Serbian President Slobodan Milosevic himself is a war criminal, just as former Secretary of State Lawrence Eagleburger said as far back as 1992. I strongly urge you to:

(1) Put President Milosevic and his co-conspirators, who carried out the massacres and crimes against humanity, on explicit notice that the United States will throw its full weight behind criminal prosecution against all of them at The Hague;
(2) seek similar declarations from our allies;
(3) turn over all existing evidence to Justice Arbour, the Chief Prosecutor at the War Crimes Tribunal, and make it an Allied priority to gather any additional evidence which can be obtained against President Milosevic and his confederates, so that such evidence might be evaluated at the earliest possible time with a view to obtaining the appropriate indictments.

I anticipate some will say that we should not complicate possible cease-fire negotiations with this focus on President Milosevic and his co-conspirators.

I believe that consideration should be given to whether our goals in Kosovo should include the extradition of President Milosevic to face indictments. If returned, as a precondition to ending NATO air strikes.

That is a hard judgment to make at this point. Many of us in Congress believe that the United States should meet the Serbian President with a very strong response so that future tyrants will know that this type of conduct will not help them personally in negotiations, but instead will be met with tough criminal prosecutions in accordance with international criminal law.

Sincerely,
ARLEN SPECTER,
Chairman.

The PRESIDING OFFICER. The time yielded to the Senator has expired.

AMENDMENT NO. 397

Mr. SMITH of New Hampshire addressed the Chair.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. SMITH of New Hampshire. Mr. President, I yield 5 additional minutes of our time to the Senator from Washington.

Mrs. MURRAY addressed the Chair.

The PRESIDING OFFICER. The Senator from Washington is recognized.

The Senator has 6 minutes 2 seconds remaining.

Mrs. MURRAY. Thank you very much, Mr. President. I thank my colleague from New Hampshire for his generosity. I truly appreciate it.

I yield 5 minutes to the Senator from Louisiana.

The PRESIDING OFFICER. The Senator from Louisiana is recognized for 5 minutes.

Ms. LANDRIEU. Thank you, Mr. President.

I commend my colleagues, the Senator from Washington and the Senator
from Maine, for presenting this amendment, on a very important issue, to the body today and to discuss and to walk through. She has courageously offered this amendment for many, many years, and each year we seem to gain some support. I hope this year we will gain enough support to make this amendment part of the law of our land, because it makes such common sense and good sense.

When we ask women to join our military—and we are truly recruiting them rather vigorously, because we need their strength and their talent and their abilities to help make our military the strongest and the best in the world—it is just inconceivable that we would say: Come join the military. Put on the uniform. Put yourself in harm’s way. But we are simply not going to set aside all the rights that are guaranteed to other Americans for medical decisions that should be yours to make. It just makes no sense.

So I urge Senators, regardless of how you might feel about this issue—and good arguments have been made on both sides—to think about this as it truly is—not asking for any new privileges, not asking for any expansion of the law, but simply to allow the women who we are recruiting at this age to serve in the military, to give them the medical options they may need at a very tough time for them.

One other point I want to make is, those who have opposed this amendment over the years have said: We most certainly would not mind except that we do not want this to be at Government expense. Let me remind everyone that this is not at Government expense, that these women are individuals prepared to pay whatever medical costs are involved with the procedures that they may need.

But if we do not change the law to allow this to happen, the taxpayers have to pick up a greater burden in transporting these women, sometimes in transport and cargo airplanes and helicopters back to the United States, which takes time away from their service. I argue that costs substantially more, than the taxpayers are underwriting, for medical procedures.

So I urge Senators, regardless of how they decide to allocate well and wisely in our military over the years have said: We would have to figure out, how many abortions were done and how all the allocations would be done. It simply is not workable. It would not work.

The bottom line, as I have been indicating, is that taxpayers would be subsidizing abortions in military hospitals. I think everyone understands that. I do not think there should be any confusion on that, that those who do not support abortion would be subsidizing abortions.

I just want to review, in closing, the current law. Just to summarize, no funds made available to DOD are used for abortions. Under current law, military facilities are prohibited, in most cases, in the performance of abortions. So the amendment now before the Senate from Washington has 2 minutes.

Mr. SMITH of New Hampshire. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator from New Hampshire has 7 minutes remaining 3 minutes

Mr. SMITH of New Hampshire. Mr. President, I just want to respond to one point that was made on the other side regarding the payback, if you will, the fact that if the woman agrees to pay out of her own pocket, therefore, I would assume the issue is that she would reimburse the Government.

But I would ask one to consider the accounting nightmare that would ensue as we try to figure out—we had a doctor paid for by the taxpayers, a clinic, a hospital paid for by the taxpayers, equipment paid for by the taxpayers, and supplies and special equipment involving abortions—how one would allocate all of this?

We would have to figure out, how many abortions were done and how all the allocations would be done. It simply is not workable. It would not work.

The bottom line, as I have been indicating, is that taxpayers would be subsidizing abortions in military hospitals. I think everyone understands that. I do not think there should be any confusion on that, that those who do not support abortion would be subsidizing abortions.

I just want to review, in closing, the current law. Just to summarize, no funds made available to DOD are used for abortions. Under current law, military facilities are prohibited, in most cases, in the performance of abortions. So the amendment now before the Senate is inconsistent with the Hyde amendment, which has been in existence for over 20 years, that taxpayer dollars may not be used to pay for abortions.

Current law, with respect to abortions at military facilities, is fully consistent with the Hyde amendment. The proponents of this amendment, which would overturn current law and allow abortion on demand, claim that their proposal is somehow consistent. As I said before, it is not. Under their proposal, women seeking abortions would pay for them, but this evinces a fundamental misunderstanding of the nature of military medical facilities, which I pointed out.

In conclusion, I say that it is just simply unfair, and it has been so ruled by the Supreme Court, that people, who, because of their own values and beliefs and principles, do not believe in abortion, that they should have to subsidize with their tax dollars or pay for it with their tax dollars. That is the issue.

We have had a vote on this issue many years in the past, I hope people will see the light to see that this is wrong and basically unfair, and that we would respect the innocence of human life, and perhaps encourage the young woman in trouble to talk to a chaplain. There are military chaplains out there, and some darn good ones, who are available to counsel young women in need.

I would certainly be very excited to hear that some of these women went to the chaplain because this law didn’t get changed and perhaps chose life over abortion.

At this point, I yield the floor, Mr. President.

The PRESIDING OFFICER. The Senator from New Hampshire has 2 minutes remaining.

Mrs. MURRAY. Mr. President, let me conclude by letting my colleagues know that under current law today, a woman who volunteers to serve all of us protect all of us, when she goes overseas to serve us and finds herself in a situation where she requires an abortion, which is a legal procedure guaranteed by the Constitution in this country, has to go to her commanding officer and request permission to come home to the United States, flying home on a C-17, or a helicopter when one is available, to have a procedure that women here in this country who have not volunteered to serve overseas have at their disposal.

We are asking a lot of these young women. We should at least provide them the opportunity, as we do under my amendment, to pay for that procedure in a military hospital, where it will be safe, at their own expense. That is the least we should be offering them.

In a few moments we will be voting on this amendment. My colleague from New Hampshire has said the vote is close. Every vote will count. There is no doubt about it. So when you cast your vote today, ask yourself if women who serve us overseas to defend our rights should be asked to give up their rights when they get on that plane and they are sent overseas.

This is an issue which sends a message to all young people today that when they serve us in the military to protect our rights, we are going to be here to defend their rights as well. I urge my colleagues to vote against the motion to table.

How much time do I have remaining?

The PRESIDING OFFICER. The Senator has 8 seconds remaining.
Mrs. MURRAY. Mr. President, I urge my colleagues to vote against the motion to table and to stand with the women and men who serve overseas. I thank the Chair.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. SMITH of New Hampshire. Mr. President, I urge my colleagues to do just the opposite and to support a motion that I am going to make in a moment to table, out of respect for those of us who believe deeply in the sanctity of life and who also understand and are compassionate about young women who are in need of an abortion, or feel that they are in need of an abortion in some way, and who hope we could save that life, that innocent life, and to show compassion for the unborn, which I think is really the issue.

At this point, I move to table the Murray amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. SMITH of New Hampshire. I yield back the remainder of my time.

The PRESIDING OFFICER. The question is on agreeing to the motion to table amendment No. 397. The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

The result was announced—yeas 51, nays 49, as follows:

YEA—51
Abraham         Fitzgerald         McConnell
Allard          Frist             Murkowski
Ashcroft        Gramm            Nickles
Bennett         Graham           Reid
Bond            Grassley         Roberts
Breaux          Gregg            Roth
Brownback       Hagedorn         Santorum
Bunning        Hatch            Sessions
Burns           Helms            Shelby
Campbell        Hutchinson        Smith (NH)
Cochrane        Hatchison         Smith (OK)
Corzine         Inhofe            Stevens
Craig           Kyl              Thomas
Crapo           Lott             Thompson
DeWine          Lugar            Thurmond
Domenici        Mack             Voinovich
Enzi            McCain           Warner

NAYS—49
Akaka           Feingold          Lieberman
Baucus          Feinstein        Lincoln
Bayh            Gorton            Mikulski
Biden           Graham            Moynihan
Bingaman        Hastert          Murray
Boxer           Hollings         Reed
Bryan           Inouye            Robb
Bryant          Johnson           Rockefeller
Cleaver         Kennedy          Schumer
Collins         Kerry            Snowe
Conrad          Kerry            Specter
Daschle         Kohl             Torricelli
Dodd            Landrieu          Wellstone
Dorgan           Lautenberg       Wyden
Durbin           Leahy            Wyden
Edwards          Lott             Wyden

The motion was agreed to.

Mr. SMITH of New Hampshire. I move to reconsider the vote.

Mr. NICKLES. I move to lay that motion on the table.
its attention to dealing with this threat. I think we are much better off dealing with this threat with a different strategy than the old arms-control strategy. This is not an amendment that says we are going to tie our national security to START I or START II. Quite the contrary, I do not expect START II to be ratified in the next couple of years. If that, if it ever is ratified by the Duma, we should not hold up our national security decisions based upon what we expect or do not expect the Russian Duma to do.

I would like to describe some of these weapons systems so people can understand the danger of them, the kind of destruction they could do to the United States of America. The Russians have in their land-based system 3,590 warheads. They have in their sea-based system 640 warheads. They have in their air-based 564.

Just take one of these. Think, if you have a disgruntled, angry group of Russian soldiers or sailors or airmen who say: We have not been paid for a year; we are not going to do anything; we do not think we have any future; we are suicidal. We are going to take over one of these sites, and we are going to launch. We are not going to blackmail the United States; we are not going to try to get them to do anything; all we are going to do is launch, because we are angry and we do not like the direction of our country and we do not like what the United States of America is doing.

Let me just take the SS–18. I am not going to go through the details of where these are. I am not going to describe for colleagues a scenario to take one of them over. I am not going to build a case, but I think I could build a case, that an SS–18 site is not as secure today as it was 5 years ago. That lack of security could cause us to lose the Russian SS–18. We think it is more likely to happen than the United States of America is going to worry about nuclear weapons.

For fiscal reasons, for reasons of scare resources that need to be applied into our conventional readiness and things that our Air Force, Navy, Marines, and Army are more likely to have to be called upon to meet, for reasons of trying to reduce the risk of unauthorized launch, that would be devastating to the United States of America. I hope my colleagues on both sides of the aisle will give this amendment their full consideration and I hope they vote for it. A vote for this amendment is not a vote for unilateral disarmament. A vote for this amendment is a vote for the United States of America deciding what we think is in our best interests in national security and then authorizing accordingly in a defense authorization bill.

Mr. President, I see the distinguished Senator from California wishes to speak. The Senator from South Dakota, Senator DASCHLE, earlier said he would like to be a cosponsor. I am not sure if he has been listed as a cosponsor. Senator KENNEDY as well, Senator BOXER as well, and Senator BIDEN as well.

The PRESIDING OFFICER (Mr. SENECA): Without objection, it is so ordered.

Mr. KERREY. I yield to the Senator from California such time as she needs.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. I thank the Chair. I say to my friend from Nebraska how grateful I am for taking the time that he has needed to explain this amendment, not only to our colleagues but to the American people. This amendment is a very important amendment. It will delete the provision in law which prevents the United States from retiring additional nuclear weapons delivery systems until the Russian Duma ratifies the START II treaty.

The Senator from Nebraska has explained in great detail why that is not a prudent course for our Nation, and I agree with him. I will take 5 or 6 minutes to explain why.

For the last 2 years, the defense authorization bill has included a provision which bars reductions below 71 B–52H bombers, 18 Trident ballistic missile submarines, 500 Minuteman III
intercontinental ballistic missiles, and 50 MX Peacekeeper missiles. Congress has told the Pentagon that we cannot reduce below that level.

In this year’s defense authorization bill, this provision again is included with a revision that allows the number of Trident submarines to be reduced by six and the Navy. This is a good step. It is a good first step, but more needs to be done to move in this direction.

As Senator Kerrey has stated, there is no need to maintain these huge stockpiles of nuclear weapons. There is little doubt that Russia will fall well below START II levels whether or not the Duma gives its consents and ratifies the START II treaty. Edward Warner III, Assistant Secretary of Defense, Strategic and Threat Reduction testified that:

In light of the very small modernization efforts [Russia] has underway, and the obsolescence of both their submarines and their strategic military forces, Russia will be hard-pressed to keep a force of more than about 3,500 weapons. You may recall that in the late 1980s, our intelligence analysts concluded that nuclear weapons cuts. The CBO has estimated that reducing U.S. forces to START II levels by 2007 could produce a savings of $570 million in fiscal year 2000 and a $12.7 billion savings over 10 years.

This is not small change. This is important for our 1999 U.S. situation where we saw a vote in the Senate, and we lost by four votes, to put some afterschool programs in place across this country. When I talked to my friends on the other side, I received two opinions on the other side. The others all said: We love the program, but we can’t afford it. We were asking for essentially an authorization of $600 million, and the money was not there.

Why do we waste money and make a situation more dangerous when we can save money and make a situation less dangerous? I think that is the merit of the amendment that is before us. Mr. President, $12.7 billion over 10 years is not small change. We have lots of things we can do, and we can always return it to the taxpayers.

The CBO further estimated that reductions in nuclear delivery systems within the overall limits of START II could produce savings of $20.9 billion.

There is precedent for what we would do here.

It is very important. The Senator from Nebraska said people call this unilateral disarmament. Let me prove to you that this is not the case. In 1991, President Bush had the courage to announce that we would withdraw our tactical nuclear weapons to the United States. That was not dependent on any action by the Soviet Union. He stood up and said this is in the best interest of the United States of America.

He also ordered U.S. warheads deployed on strategic bombers and ballistic missiles slated for dismantlement to be taken off alert. I think we all remember that day. It was a very exciting and dramatic day. He did those two actions because it was in the best interests of America.

Do you know what happened after that? President Gorbachev responded in kind. He withdrew all tactical weapons from Warsaw Pact nations and non-Russian states. It included most categories of tactical nuclear weapons from service, and designated thousands of nuclear warheads for dismantlement.

The point the Senator from Nebraska is making is, sometimes it does take courage to stand up and say this is what is in our best interests and show real leadership, the way George Bush did in 1991 in these two examples and the way President Gorbachev followed his lead.

I am very disappointed that the Russian Duma has not yet ratified the START II treaty. Again, if we follow the leadership of the Senator from Nebraska on this, we will be acting in our best interests, not in the best interests of the Russian Duma. We should lead and not wait for them to lead.

In conclusion, there are very good reasons for the United States of America to reduce its nuclear weapons. This amendment is carefully drawn. It is carefully thought out. It comes from a man who put his life on the line in the military and would do nothing to harm our national security. As a matter of fact, he would do everything to make us stronger. I hope we will take his lead and adopt his amendment. I yield back my time.

Mr. KERREY. I yield 5 minutes to the Senator from Michigan.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, I commend the Senator from Nebraska for his amendment. What he has done is to bring back before us and before the Nation a very important issue, which is, what is the necessary level of nuclear weapons in our inventory for our own security?

Do we need as many as we have? Should we legislatively bake in that level if we do not need the START I level or should we at least be free to consider options to go to what the necessary level is for our own security?

The Senator’s gift to us and to the Nation here is that he is bringing before us an issue which the Joint Chiefs want us to consider but we have not yet considered, and that is, what is the level of nuclear weapons that we need for our own security and should that be determined by a legislative level, on a piece of paper, set in law, or should that be determined by our security needs?

If we have a larger number of nuclear weapons than we need, we do two things. The Senator from California has just illuminated those two things. No. 1, if we have more nuclear weapons than we need for our own security, we are wasting valuable resources. That is No. 1. But, No. 2, what we are doing is we are then telling the Russians: Look, we’re going to stay at this level, which in turn will encourage them, unhelpfully, to remain at the same level. That increases the proliferation threat to us because if the Senator from Nebraska has pointed out, the greatest threat to this Nation is the inventory of nuclear weapons on Russian soil. The Chinese threat does not come close. You are
talking dozens in that case and not nearly as accurate. In the case of the Russians, you are talking many, many thousands of nuclear weapons which are not only pointed at us but also the more that are there on Russian soil, the greater the risk that one of them might be lost or not counted and leave Russian soil and get into the hands of a terrorist state or a terrorist group.

So both from a proliferation perspective and from the perspective of the wise use of our resources, we ought to at least be open to consider options of fewer nuclear weapons than the START I level provides for.

We may decide we want to stay at that level. It may be determined that we want to stay at that level. But the Joint Chiefs say that it may not be necessary. They want to consider options of a reduced number of nuclear weapons.

In addition, it can help to revitalize arms reductions. Now more than ever, given the stalled process of nuclear arms reductions. It is also critical that we demonstrate to the world, it is essential for the United States to reactivate arms control discussions with the Russians. It is also critical that we demonstrate to the international community our willingness to engage in continued nuclear arms reductions.

This initiative offers us a major opportunity to breathe new life into the stalled arms control negotiations, move us closer to achieving the goals of START II, and send a strong signal to Russia and the international community about our commitment to these goals. It will strengthen our ability to cooperate with Russia to combat the growing threat of rogue nuclear states, and to build a more comprehensive global security system. Reducing our military stockpile, even to START II levels, will not impair our national security in any way.

As Senator Kerrey noted, history demonstrates the benefits of this kind of initiative in arms control, and the impact that can be made by a modest but significant reduction. In September 1991, President Bush ordered that 1,000 U.S. warheads scheduled for dismantling under START I be taken off alert, before that treaty was every ratified. This action resulted in a reciprocal response from the Soviet Union, who just one week later, designated thousands of Soviet nuclear warheads for dismantling and took several classes of strategic systems off alert.

Moving closer to implementation of START II will also provide significant savings for the American taxpayer. This amendment will open the door to savings in the cost of upkeep for many unnecessary weapons. In addition, the tritium in these weapons can be recycled, eliminating the need for production of new tritium and the associated production costs.

This amendment is a constructive effort to breathe new life into the stalled arms control negotiations, move us closer to achieving the goals of START II, and send a strong signal to Russia and the international community about our commitment to these goals. It will strengthen our ability to cooperate with Russia to combat the growing threat of rogue nuclear states, and to build a more comprehensive global security system. Reducing our military stockpile, even to START II levels, will not impair our national security in any way. As Admiral Johnson explained to us last January, this amendment is in the best interest of the armed services, and it will help us to meet more critical readiness needs. I hope this amendment will be accepted.

I yield back the remainder of my time.
Mr. KERREY. Mr. President, does the Senator from Virginia want to speak?
Mr. WARNER. I will speak whenever you have completed. I want to accommodate you. You can follow me, if you so desire; whatever your desire may be.
Mr. KERREY. I would love to hear the Senator's remarks.
Mr. WARNER. Essex, you pardon?
Mr. KERREY. You can go first. I would love to hear your remarks.
Mr. WARNER. You are thoughtful to say that, because I enjoyed listening to yours but I, regrettably, think you are wrong in this instance and I will move to table your amendment.

The PRESIDING OFFICER. The Senator from Virginia is recognized.

Mr. WARNER. I say to my good friend from Massachusetts, a fellow member of the Armed Services Committee, we have in this bill—you are ranking on that committee—the removal of those submarines as sought by the President and the administration.
The essence of what I have to say is that Congress expressed a willingness to do that. Hopefully, this legislation will go through, become law. It seems to me, if the administration has further reductions in the arsenal, let it come before the Congress. That is the procedure that I would follow.

So I just say, in opposition to this amendment, the amendment would strike section 1041. Section 1041 renews and modifies the provision that has been enacted in the defense authorization bill each year for the last 5 years. This is a measured, balanced, and needed provision which, in my view, all Members of the Senate should support. It simply prohibits the retirement of certain strategic delivery systems unless funds are in force. Essentially, this provision seeks to prohibit unilateral compliance with the reduction of U.S. inventory implementation of the START II treaty and make clear to Russia that the benefits of our mutual arms control agreements can only be realized through mutual implementation of those agreements.

This year, the Secretary of Defense and the Navy requested we modify the limitation to permit the retirement of four of the older Trident submarines. The Secretary, however, made it very clear that the administration was not advocating any unilateral implementation of START II. The Armed Services Committee reviewed the Secretary's recommendations to reduce the Trident force from 18 to 14 submarines and agreed to authorize such reduction. Section 1041 of the pending bill does, in fact, allow retirement or conversion of these four submarines.

In keeping with the administration's policy not to unilaterally implement START II—and that is the policy; I assume the Senator from Nebraska agrees with that—the Secretary also made sure that the fiscal year 2000 budget request fully funded all remaining operational strategic nuclear delivery systems, including the 50 peacekeeper and 94 Minuteman III missiles deployed at the F.E. Warren Air Force Base. The Armed Services Committee supports this decision, and there is nothing in this bill that prohibits the Secretary from implementing any planned reduction to our strategic forces.

Section 1041, which the Kerrey amendment would strike, simply reinforces the administration's policy of remaining at START I force levels until START II enters into force. To strike this provision would send a signal that the Senate no longer supports this policy. This would be a dangerous and unnecessary signal to send, one that could undermine the integrity of the arms control process.

Since section 1041 does not prohibit any planned changes to U.S. strategic forces, it would appear that the supporters of this amendment are really interested in some form of unilateral arms control measures that go beyond the administration's policy. At a time when our relations with Russia and China are quite uncertain, I say to my dear colleagues, now is not the time to consider unilateral reductions in our strategic forces.

The United States and Russia are now hopefully nearing full implementation of the START I agreement. The administration has worked very hard to get Russia to ratify START II. If the Senate votes to eliminate section 1041, this action could be interpreted as a sign that the Senate is giving up on START II. Unless my colleagues are willing to abandon the arms control process, I suggest that they not support the pending amendment. Indeed, the administration acknowledged that section 1041 provides significant leverage over Russia to get them to ratify START II.

Mr. President, in closing, let me simply reiterate that section 1041 of the pending bill was drafted with the Secretary of Defense's views firmly in mind. Nothing in this provision prohibits the Secretary from undertaking any action he plans for fiscal year 2000. And, since the provision expires at the end of the fiscal year 2000, we will have an opportunity next year to review any new recommendations coming from the administration. For the time being, it would send a very bad message to strike this important provision. I urge my colleagues to oppose the Kerrey amendment and support the bill.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. KERREY. Mr. President, I regret that Senators are on opposite sides of this issue, but we have offered this amendment because I believe our current strategy to deal with the threat of nuclear weapons is flawed in many serious ways.
CONGRESSIONAL RECORD—SENATE

May 26, 1999

Mr. KERREY. Mr. President, I will do the same.

Mr. WARNER. I thank my colleague. It has been a good, spirited debate on a very serious subject. I think his historical context would be very helpful for all Senators. The bottom line is, we tend to forget, as you pointed out, in 1988, it was foremost in our minds. Not so.

Mr. President, if the Senate could now proceed to the vote with all time yielded back, I ask for the yeas and nays and move to table the Kerrey amendment.

The PRESIDING OFFICER. There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion to table amendment No. 395. The yeas and nays are ordered. The clerk will call the roll.

The legislative clerk called the roll.

The motion to reconsider the vote by any other Senators in the Chamber desiring to vote?

The result was announced—yeas 51, nays 49, as follows:

[Rollcall Vote No. 150 Leg.]

YEAS—51

Ashcroft
Bennett
Brownback
Burdens
Byrd
Campbell
Cochrane
Collins
Crapo
Craig
Crampton
Domenici
Dorgan

NO. 392

Mr. WARNER. I thank my colleague. I would argue for that.

Mr. KERREY. Mr. President, I was referencing Section 392 of the Defense Appropriations Act. The senator from Nebraska.

Mr. WARNER. Mr. President, I say in reply that this section was crafted with the views of the Secretary of Defense firmly in mind. Nothing in this provision prohibits the Secretary from undertaking any action he plans for fiscal year 2000. And since the provision expires at the end of the fiscal year 2000, we will have the opportunity in the next year to review any new recommendations coming from the administration.

A year from now we will have more clarity, hopefully, of the relationship with Russia, of the relationship with Russia and, indeed, this Senator’s concern about North Korea and its advancements in missile technology. So I think we can focus on the superpowers but this, in my judgment, talks to the entire strategic defense of the United States of America.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. KERREY. Mr. President, I appreciate that very much, although the only reason I was referencing Secretary Cohen and General Shelton’s support, as Senator Levin indicated earlier and put in the Record, there has been some indication that perhaps the administration doesn’t support eliminating this artificial floor. They do. They have no plans—they have not indicated that they intend to go any lower than this. But they have put in the record at the Armed Services Committee, in response to Senator Levin’s question, that they support this amendment. They support eliminating this artificial floor.

Mr. WARNER. Mr. President, I yield back the remainder of my time.
The PRESIDING OFFICER. Actually, the pending amendment is the Allard amendment.

Mr. WARNER. Fine.

Mr. President, we are then ready to proceed.

The PRESIDING OFFICER. The Senator from Colorado.

AMENDMENT NO. 396

Mr. ALLARD. Mr. President, the amendment I am offering with Senator HARKIN and a number of other people is now before the Senate.

I ask unanimous consent at the start that Senator GRASSLEY be added as a cosponsor to the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Mr. President, if the Senator would yield?

The PRESIDING OFFICER. Does the Senator have an opportunity to speak on this important amendment? I so all Senators have an opportunity to speak on this important amendment. I have spoken to Senator HARKIN, and he desires 20 minutes.

Mr. ALLARD. That is correct.

Mr. WARNER. That is the amount of time he will require. It may be that we have to go off this amendment for a short time, but I have assured him that we would not, of course, vote, and we would come back on the amendment to give him the 20 minutes.

But I inquire of the Senator from Colorado the time that he desires, and the distinguished Senator, Senator INHOFE, the time that he desires.

Mr. INHOFE. Ten minutes.

Mr. WARNER. I would guess about 15 minutes is what I would need.

Mr. WARNER. Why not give 15 minutes to each side; 20 minutes for Senator HARKIN.

Is there any other time that you know of, I ask my distinguished ranking member?

Mr. LEVIN. We do not know of any other time.

So we are clear then, we will not close off debate on this until Senator HARKIN has an opportunity to come back and claim his 20 minutes.

Mr. WARNER. Mr. President, I have assured him. In order to protect all parties—Senator STEVENS may wish to speak to this—I ask unanimous consent that we have 1 hour, divided 20 minutes under the control of the distinguished Senator from Oklahoma, and 40 minutes, which would include the time for Senator HARKIN, under the control of the Senator from Colorado.

Mr. ALLARD. That would be fine.

The PRESIDING OFFICER. Is there objection?

Mr. LEVIN. Mr. President, in order to protect Senator HARKIN, which I know the Senator from Virginia is determined to do—

Mr. WARNER. Yes.

Mr. LEVIN. —and I am determined to do, if he is unable to be back here by the time the 40 minutes is utilized, we would then go to some other matters and protect him?

Mr. WARNER. That is exactly right.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Colorado has the floor.

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 15-minute mark.

The PRESIDING OFFICER. The Senator will be so informed.

Mr. ALLARD. Mr. President, the amendment I have offered, with Senator HARKIN, and others, dealing with the Civil Air Patrol, has yielded to the Senator from Virginia for an inquiry.

Mr. WARNER. I thank the Chair.

The PRESIDING OFFICER. Does the Senator from Virginia desire the floor?

Mr. WARNER. Mr. President, I am very anxious to structure this amendment that Senator G RASSLEY be added as a cosponsor to the amendment.

The PRESIDING OFFICER. The Senator from Virginia has the floor and has yielded to the Senator from Virginia for an inquiry.

Mr. WARNER. I thank the Chair.

The PRESIDING OFFICER. Does the Senator from Virginia desire the floor?

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 40 minutes.

The PRESIDING OFFICER. The Senator from Colorado has the floor.

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 15-minute mark.

The PRESIDING OFFICER. The Senator will be so informed.

Mr. ALLARD. Mr. President, the amendment I have offered, with Senator HARKIN, and others, dealing with the Civil Air Patrol, has yielded to the Senator from Virginia for an inquiry.

Mr. WARNER. I thank the Chair.

The PRESIDING OFFICER. Does the Senator from Virginia desire the floor?

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 40 minutes.

The PRESIDING OFFICER. The Senator from Colorado has the floor.

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 15-minute mark.

The PRESIDING OFFICER. The Senator will be so informed.

Mr. ALLARD. Mr. President, the amendment I have offered, with Senator HARKIN, and others, dealing with the Civil Air Patrol, has yielded to the Senator from Virginia for an inquiry.

Mr. WARNER. I thank the Chair.

The PRESIDING OFFICER. Does the Senator from Virginia desire the floor?

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 40 minutes.

The PRESIDING OFFICER. The Senator from Colorado has the floor.

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 15-minute mark.

The PRESIDING OFFICER. The Senator will be so informed.

Mr. ALLARD. Mr. President, the amendment I have offered, with Senator HARKIN, and others, dealing with the Civil Air Patrol, has yielded to the Senator from Virginia for an inquiry.

Mr. WARNER. I thank the Chair.

The PRESIDING OFFICER. Does the Senator from Virginia desire the floor?

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 40 minutes.

The PRESIDING OFFICER. The Senator from Colorado has the floor.

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 15-minute mark.

The PRESIDING OFFICER. The Senator will be so informed.

Mr. ALLARD. Mr. President, the amendment I have offered, with Senator HARKIN, and others, dealing with the Civil Air Patrol, has yielded to the Senator from Virginia for an inquiry.

Mr. WARNER. I thank the Chair.

The PRESIDING OFFICER. Does the Senator from Virginia desire the floor?

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 40 minutes.

The PRESIDING OFFICER. The Senator from Colorado has the floor.

Mr. ALLARD. Mr. President, I ask that the Chair let me know when I have reached the 15-minute mark.

The PRESIDING OFFICER. The Senator will be so informed.

Mr. ALLARD. Mr. President, the amendment I have offered, with Senator HARKIN, and others, dealing with the Civil Air Patrol, has yielded to the Senator from Virginia for an inquiry.

Mr. WARNER. I thank the Chair.

The PRESIDING OFFICER. Does the Senator from Virginia desire the floor?
I worry the Patrol will lose its local control. It is very important in States such as Colorado that we have immediate decisions when a plane goes down. Because we live in a State that has a lot of rough terrain, the weather changes quickly and dramatically, it is important that decisions be made quickly. With our local decision-making process, those decisions do get made properly and we can get out and save peoples’ lives, in States such as Colorado, through the efforts of the Civil Air Patrol. It will sour those locally based volunteers who make up the overwhelming majority of the wings, who donate their time and energy and often equipment. Many of the assets of the Civil Air Patrol are gifts the Patrol received from donors willing to give to a charity that organization. How can we justify the Air Force wresting control of these items away from the local volunteers? How can we justify the added expense of substituting high-ranking, paid, benefit-earning Air Force personnel for unpaid, volunteer Civil Air Patrol leadership? How can we justify doing it with so little discussion, so little oversight, so little recognition of the severity of the action?

I urge my colleagues to support this amendment.

Mr. President, I yield the floor.

The PRESIDING OFFICER. Who yields time?

The Senator from Oklahoma is recognized.

Mr. INHOFE. Mr. President, I yield myself such time as I may consume.

I rise in opposition to this amendment. I want to say that there is no one of the 100 Members of the Senate who has been historically closer to the CAP, who has participated in CAP activities than I have. There is not a year that goes by that I do not talk to the troops and those who are being promoted, those who have achieved really great things and have made great contributions to society. I also, just 2 weeks ago, could very well have been the product of a search by the CAP, had I not been able to glide my plane into an airport. So I understand that, I have been on various patrols where we go out, I know the valuable contributions that the Civil Air Patrol makes to this Nation every year, search and rescue, youth cadet program.

However, we are concerned with the continuing streams of allegations coming from the Air Force and from members of the Civil Air Patrol that senior members of the CAP have engaged in inappropriate, and in some cases, illegal activities. I will outline a few of the allegations that have been brought to the committee by either the Air Force or former members of the CAP.

I have some documents to include as part of the RECORD that I will want immediately following my remarks, but these are just some of the accusations that are out there. I know that the Senator from Colorado is just as concerned about these as I am.

One is concerning charging the cost of his flying hours to the Civil Air Patrol counterdrug account when he was actually flying to visit his daughter. A second accusation: One CAP wing charged both its home State and the CAP counterdrug budget for the same mission, essentially receiving double reimbursement for the same activity.

Here is a good one: The southeast regional commanders conference was held on a cruise to Nassau paid for by CAP headquarters. After the conference, some individuals requested and received a per diem, even though the cost of the cruise had been paid for by the CAP and, thus, by the taxpayers. I have often thought—I suggested this to the Senator from Colorado—what kind of a position would we be in, would I be in, as chairman of the Readiness Subcommittee of the Senate Armed Services Committee if I sat back and let these charges go unanswered? I could just ignore this 90 Minutes or some news account of this talking about the cruise to Nassau that was paid with taxpayers’ money and then double dipping on top of that.

We have numerous other types of reports concerning missing equipment. Seventy percent of one wing’s gear, communications gear, computers, etcetera, cannot be accounted for; 77 percent of another wing’s gear is missing. The most extraordinary of all, however, is a letter we received from one former member alleging that Federal laws and Federal aviation regulations relating to aircraft maintenance were being violated, and quoting from that letter, “the lives of our cadets”—these are juveniles—“members were being jeopardized.”

We are talking about human lives here. Because of these accusations and because the Civil Air Patrol is an auxiliary of the Air Force, receiving virtually all of its funding—some 94 percent of the funding for the CAP comes from the Air Force and the headquarters at the Air Force installation—the leadership of the Air Force requested that the committee pass legislation to grant the Air Force the necessary authority to ensure responsible management of the Civil Air Patrol.

That is exactly what this legislation does. This is in our mark that is before us today.

I do urge my colleagues to oppose this amendment. However, should it pass, I hope that the Secretary of the Air Force will refer the allegations to the FBI and seek to sever the Air Force’s ties with the CAP. We can’t hold the Air Force responsible for an organization that just doesn’t have any authority to supervise. I do not know whether there is any other example anywhere, Mr. President, where you have the responsibility statutorily born by some agency and they have no authority to police or discipline the behavior of that entity.

I ask unanimous consent that a letter to me from General Ryan, Chief of Staff of the Air Force, making this request be printed in the RECORD. And I ask that the internal memorandum that outlines many other examples, which I would be glad to share with the Senator from Colorado and with the Senate, should this debate pursue, be printed in the RECORD immediately after the letter from General Ryan.

There being no objection, the materials in business, to be printed in the RECORD, as follows:

MEMORANDUM FOR THE SPECIAL ASSISTANT TO THE SECRETARY OF THE AIR FORCE

As you know, I traveled to Maxwell AFB, AL from 18-20 April 1999 as part of the Special Project Team Assessment of the Civil Air Patrol. The Team was chartered to assess Civil Air Patrol (CAP) processes. Our purpose was to perform a full-blown inspection of other CAP’s administrative headquarters or the units in the CAP national chain of command. Nevertheless, in just a couple days time the team discovered a number of practices that convinced us of the Air Force need for greater oversight of CAP activities. I will cite a few examples that are of particular concern:
CAP recently conducted its Southeast Region Command and General Conference on board a Caribbean cruise ship with the National Commander and National Director in attendance. Our auditors discovered that executives for this meeting even though the cost of the cruise was inclusive of meals.

Senior corporate leaders travel by first class, and receive what could be regarded as generous salaries. Certain senior corporate employees are receiving full military retirement pay even though they are working full time.

CAP units flew over 41,000 hours on “counter drug” missions, which were reimbursed, from appropriated funds. We are aware of several irregularities in personal travel and maintenance flights were charged to counter drug, as well as one wing that charged several counter drug missions to both the Air Force and the state.

Several CAP wings cannot account for over 70% of the communications equipment purchased for their units with funds that were reimbursed with Air Force appropriated funds.

Members and former members complain that they lack confidence in the independence and effectiveness of the CAP Inspector General program. Members were refused membership renewal coincidental to raising complaints about an IG — an aircraft maintenance (safety) practices, and an assault. A flight check ride pilot was ostracized from her unit for restricting a CAP pilot from solo flight privileges. In each case, the affected members went to their IGs who deferred to command action.

Because this assessment was never intended to be an inspection, the observations made should be viewed only as symptoms. The team also observed truly excellent programs at certain wings, and more generally at the administrative headquarters. Talented and dedicated volunteers and employees in many cases provide safe and valuable programs to cadets and the country as a whole.

The CAP National Board seemed to satisfy a major concern by agreeing in principle to comply with OMB Circular A-110. Nevertheless, the Air Force should attempt to gain visibility through representation on an overseeing Board of Directors to assure that CAP’s reluctance — faith in the independence and effectiveness of the CAP Inspector General program.

Members were refused membership renewal coincidental to raising complaints about an IG — an aircraft maintenance (safety) practices, and an assault. Nevertheless, the Air Force should attempt to gain visibility through representation on an overseeing Board of Directors to assure that CAP’s reluctance — faith in the independence and effectiveness of the CAP Inspector General program.

Mr. INHOFE. Mr. President, I yield myself 5 minutes.

In response to comments in the cases that were presented by my esteemed colleague from Oklahoma, I will add that at this point, it is a pleasure to serve with him on the Armed Services Committee; he is somebody that I highly regard in the Senate, a very honorable individual. I know that he has a love for the Civil Air Patrol and he wants them to be able to do their job effectively. I know that his concerns are out of love for that very organization, because he is a pilot himself. I will respond that from the information I have on the misallocation of the personnel uses. I understand there is a high probability that that occurred. But in other organizations where this happens, we don’t go and just take away complete control of the organization without some hearing. Without some oversight from this Congress.

I understand that the Air Force has spent some time in overviewing it, and it has been done within the structure of the Air Force. I think, before we move ahead with an amendment as dramatic as what is in the defense authorization bill before us, that we ought to have some hearings, that we ought to, as Members of Congress, spend some time and delve into the actual facts.

I don’t think we can do this without having some agency do some reporting for us. That is why in the amendment that I have put forward, I ask the GAO to look at the financial structure — this is an area my colleague has suggested where there could be some problems, and report back to Congress whether or not there are abuses. And also in the amendment, I have the Inspector General, who can look at the administrative aspects of it, how they established policy, see if they are following through with their goals, if they are doing what they have promised to the Congress and to the Air Force, and give a report on those incidents. And we ask that this be given in a timely manner so that next year when we come back in and this bill is before us then we can go ahead and look over the report and, hopefully, maybe look at one or two based on the report and put something reasonable and responsible forward.

I have some real concerns about saying, OK, we are going to turn over total control to the Civil Air Patrol, take it away from being a voluntary nonprofit organization. That is almost like a chapter 11 in the real business world. When you take over the board of directors, you completely change everything.

I don’t think it is that serious. I don’t think we ought to put the Air Force in control of the board of directors. But I do think there are some things that we need to investigate. For example, on the cruise issue brought up by my esteemed colleague from Oklahoma, it is not that serious. It is the Air Force was the one that OK’d the disbursement for that cruise. So there might be some question of where the responsibility lies, who was culpable for some of these actions. I know the Air Force has some oversight on some of the equipment.

Now, maybe we don’t have the Air Force doing what their responsibility should be. So if that is the case, then there might be enough blame here to go around to everybody. I think the only way, as Members of the Senate, we can begin to sort this out is if we have hearings, we ask for a report from the General Accounting Office, and ask the inspector general to give us a report, so we have some facts on which we can work.

For that reason, I am continuing to push my amendment. I hope the Members of the Senate will support me. A number of my colleagues also come from mountainous States where the Civil Air Patrol is so important. Their response needs to be made on a local decision-making process. We can’t be waiting to go out to search until after it has been filtered through Washington and goes back to the State. On these search efforts, when they come up, there is an immediate need and there has to be an immediate decision made locally.

My hope is that we can adopt my amendment and take out the more onerous provisions that we have in the defense authorization bill until we can get the facts before us. And then, after we have those facts, perhaps we can move forward in a more informed and responsible manner.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. INHOFE. Mr. President, I yield myself 5 minutes.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. INHOFE. Mr. President, first of all, I know the Senator has the best interest of the CAP at heart in making his comments. But I do believe that he needs to read this very carefully, and if
I think the Secretary of the Air Force. That is why I said if this should pass, they are going to be responsible for their actions. Right now, they are responsible. I would hate to be in a position to deny the Air Force the right to at least some oversight, some ability to get into the books and check these things out. It is my understanding that the account that the Senator from Colorado has is not an accurate account of the cruise. I will repeat the accusation.

The Southeast Region Commanders Conference was held on a cruise to Nassau. Now, this is a cruise paid for by public funds. CAP funds, which came from the Air Force. After the conference, some individuals requested and received per diem, even though the cost of the cruise had been paid for by taxpayer money. I just think this is so outrageous. In my mind, the Air Force personnel who was wanting to stop this from happening was so opposed to it that he refused to go on the trip himself. He canceled out.

All we are saying is that if we are going to be responsible for this, we are going to have to, in some way, give them the authority to oversee it. After a while, I am going to be giving a talk on what I find to be offensive about this whole bill that we are discussing today. It is primarily that we are not funding adequately our whole military, certainly in the area of readiness. Our service Chiefs, our four-stars, and our CINC's all got together and said, in order to meet the minimum expectations of the American people, and to meet our national requirements, our mission requirements, we would have to have $17.4 billion a year more for the next 6 years, plus the amount for pay increases and retirement. That comes to about $24 billion. The amount of increase here is only $9 billion—totally inadequate.

I am supporting this legislation because it is the very best we can do. I say to the Senator from Colorado, we are looking everywhere to pick up a million dollars here and a little bit there; we want to do it. In spite of that, General Ryan recommended, because of his affection for the CAP, an additional $7.5 million. That should demonstrate his feelings about the CAP. We were not able to get the additional amount. We kept the same levels as the previous year because we have problems in modernization, quality of life, force strength, and there is no place that isn’t bleeding and hemorrhaging right now. So that is my concern.

I would hate to be in a position to deny the Air Force the right to at least look at the books and have an opportunity to stop this type of abuse if they are going to be responsible for their actions. Right now, they are responsible. That is why I said if this should pass, I think the Secretary of the Air Force really needs to refer these accusations to the FBI and sever the ties of the Air Force. CAP doesn’t want that. They have had a very good relationship all these years. I think there may be a better way. Perhaps they have not exercised the proper behavior and don’t want the oversight. But I can’t think right now of any example in Government where someone is responsible for someone else and yet has no authority over their behavior.

I yield the floor.

Mr. ALLARD. I thank the Senator from Oklahoma for yielding. In response to the Senator from Oklahoma, I agree that funding for our military has been dismal, particularly in light of the fact that this administration has continued to have more deployments than President Bush and President Reagan put together. Yet, we have cut defense from time to time, and I am very sympathetic to and voted for increased funding for the Department of Defense. I understand there are problems with the Air Force, but I think this is where the Civil Air Patrol, with their voluntary program, helps with the budget; they don’t hurt the budget. If we have shortages at the Air Force, as far as adequate funding for oversight, it seems to me that taking over the whole program is going to require more personnel, more time, and it is going to cost the Air Force more. It seems to me that the responsible thing to do at this particular point is to, first of all, get our studies and facts in order and then find out if we can’t come up with a commonsense resolution that has some reasonable oversight by the Air Force and still keep this a voluntary organization. The strength of the voluntarism. I hate to take that away from it. I think we save the Air Force money.

So that is why I believe it is important that we have the amendment that I am proposing, because I think in the long run the Air Force can benefit. We just have to get the oversight problems taken care of. We can do that. Once we get the facts before us—and that is what my amendment does—then we can move forward.

I thank the Senator for yielding.

Mr. INHOFE. Mr. President, who has the floor?

The PRESIDING OFFICER. The Senator from Alabama has the floor.

Mr. ALLARD. Mr. President, I yield 3 minutes to the Senator.

The PRESIDING OFFICER. The Senate from Alabama is recognized.

Mr. SESSIONS. Mr. President, I think it is time to reevaluate the way the Civil Air Patrol is supervised. I am inclined to think that the Air Force justifies and makes a good case for tighter accountability and for maybe more direct, direct control over how the Civil Air Patrol operates. But, as Senator ALLARD has eloquently discussed, it is a popular volunteer agency that we don’t want to become too bureaucratic, else we may lose the popular support involved with it.

I hope before we vote on this—I suspect the vote is set for tomorrow, is that correct, not tonight?

Mr. ALLARD. I am not sure whether it is going to be scheduled for tonight or tomorrow. I haven’t heard one comment from the floor manager in that regard.

Mr. SESSIONS. I was hoping that perhaps we could get with the Air Force one more time, and maybe we would be more amenable to improving this amendment to give them maybe more certainty or more prompt resolution of it and get this matter settled. I think that is going to be important.
I want to maintain the vitality and the attractiveness of the Civil Air Patrol and the many thousands of volunteers that we should. We want to increase accountability. We want to increase their responsibility to professionally manage every dollar. They are an agency that receives our funding, and we have every right to expect rigorous accountability. I would like to develop a system in which the Air Force feels comfortable. I think we are close to that. Maybe we can reach that.

Mr. INHOFE. Will the Senator yield for a question?

Mr. ALLARD. I ask unanimous consent that my time be allocated to the Senator from Oklahoma.

The PRESIDING OFFICER (Mr. Smith of Oregon). Without objection, it is so ordered.

The Senator from Oklahoma.

Mr. INHOFE. I hope before this is over the Senator from Alabama is on my side. So I don’t mind using my time to ask the question.

I ask the Senator. I know there are a lot of demands on time. Was the Senator from Alabama in here when I made my remarks concerning the accusations of those things that have taken place with the CAP?

Mr. SESSIONS. I am aware of some of those allegations.

Mr. INHOFE. I ask also if he is aware of what this does. It takes an entity that is 94 percent paid for by taxpayers’ funds and gives some authority of oversight as to the expenditure of that 94 percent of funds that are being used. That is essentially what the amendment does.

Mr. SESSIONS. I favor that. I certainly favor full investigation of every allegation of wrongdoing. I believe that Senator ALLARD’s amendment calls for that. I think the difference would be: Are we prepared tonight to make the final decision about how this reorganization is going to be carried out? Should we get a GAO report and an IG report first?

Mr. INHOFE. All right. I also want to make sure—

The PRESIDING OFFICER. The Senator’s time has expired.

Mr. INHOFE. Mr. President, how much time remains?

The PRESIDING OFFICER. The Senator from Oklahoma has 7 minutes and the Senator from Colorado has 5 minutes.

Mr. INHOFE. Let me yield myself whatever time I may need.

I say to the Senator that in my remarks I commented that there isn’t a Member of the Air Force who has worked closer on an active basis, actually flying with and teaching and working with the CAP, than I have. I have attended every ceremony that they have had—unless there is somebody else who has flown about—in the State of Oklahoma, because of my strong support for their group.

My problem is this wonderful group has a few bad apples in it, and there is no way to get at those bad apples. Here we have General Ryan suggesting that we increase the appropriation to them for the 60 Minutes program by $7.5 million that we had to deny when the Senator and I were sitting in the Armed Services Committee.

This is a time that we can’t afford to be throwing away any money when we have all the readiness needs, when we have modernization needs, when we have force strength needs, and quality-of-life needs, and all of these things that need to be funded in this particular area. I just do not want to be in a position where I am passing an amendment to take away the authority of the Air Force in this case which is using public funds to fund this entity and taking away their ability to in some way dictate what is going on there if they are going to be responsible for it.

Here they are responsible for some of this activity, such as the one individual that was charging the cost of his flying hours to the CAP counterdrug accounts when he was actually flying to visit his daughter, or one CAP person charged his time both to the home State and the CAP counterdrug budget. So he is double-dipping. Those are public funds they are getting—funds that could be used to buy spare parts, funds that would keep us from having to cannibalize engines, funds that would keep us from having to keep these guys working 16 hours a day repairing aircraft that are broken down.

I think we are looking at so many issues. That is why we discussed it at some length in our committee, because we can’t allow these abuses to take place and tell the Air Force, Your hands are tied; you have responsibility for their actions but you don’t have anything to do with their performance. Mr. SESSIONS. I appreciate and respect the insight of the Senator from Oklahoma, because he has stood steadfastly for good defense, and he knows this issue exceedingly well.

Again, I think maybe we can reach a compromise that would give us some opportunity to review the reorganization and the structure.

Mr. INHOFE. Reclaiming my time, let me throw out a suggestion. We can pass this as a mark that dictates at this time. If there is any kind of abuse, we can change it. Anything we do can be changed. That is what we are trying to do right now. These abuses are not things that just happened in the last 6 months. They have been happening over a long period of time.

We talked about doing something about this in the last three authorization bills. We haven’t done it. We put it off time and time again. Now we have an opportunity to do it. All we are doing here is allowing us to at least have some ability to monitor what is going on and stop some of these things.

I just keep thinking about the “60 Minutes” program coming up with all of these abuses. What about it? We debated this issue. We turned around and said we will leave the status quo. That is what we are going to do if we pass the amendment.

Mr. SESSIONS. Some change is necessary. I certainly agree with that.

Mr. INHOFE. For a question? I yield whatever time the Senator from Virginia may consume.

Mr. WARNER. I thank my colleague from Oklahoma.

Mr. President, the chairman of the committee sat here and listened to the differences of views of three of his stalwarts. But as I listened, I said to myself, possibly you could work it out. We are at the point in time where I would like to go on another amendment. Senator ORRIN, will you yield at 7 o’clock, and he desires to speak for about 15 or 20 minutes. We made in the unanimous consent agreement that provision. There is time within which you might consider it, because I stand very firmly with the decisions of the committee. I listened to the debate. As a matter of fact, ironically—I hate to keep dating myself—about circa 1943, or 1944, I was associated somehow with the Civil Air Patrol, because I always wanted to join the Army Air Corps. It was called the Army Air Corps in those days. Also, it gave a young person—as I was 16—an opportunity to hop in a plane and fly. It was exciting to fly in those days. It was not a matter of routine in those days. It was a dream. So much for that trivia.

The point is that this is a very respected and venerable organization that has to be preserved.

As I listened to our colleague from Oklahoma recount the potential problems for the “60 Minutes” program in the near future, I would say that this program, likewise, could face those situations.

I am going to support the Senator from Oklahoma in his position because it is a committee position. I listened to the debate and I believe some remedies have to be addressed.

With a little luck, maybe we can work it out.

Mr. ALLARD. Will the Senator yield?

Mr. WARNER. I have completed my statement. I yield the floor.

Mr. ALLARD. As Members cosponsoring this amendment recognize we have some oversight problems. We are struggling because we don’t have the facts firmly before the Senate. It seems
to me, as with any other problem that comes before this Senate, we can go through the same channel as any other agency or committee—hearings—public hearings; we can have a GAO study, and an inspector general study to have some basis in fact with which to work. Once we have all the facts, we can put together some reasonable recommendations.

At this point, to turn total control over to the Air Force is a rather draconian action until we get the facts. I hope I can sit down with the chairman of the committee and the chairman of the subcommittee, whom I respect dearly, and work out a way to make it accountable without having to turn over total control to the Air Force.

I am afraid we will lose the volunteer aspect. I think that is one of the real values of the Civil Air Patrol. The volunteer aspect used to go down to young students, high school age. They learn to work the radio; they learn to be part of a team; they get experience with flying, and eventually they may very well apply to the Air Force Academy or the Navy to fly. I think it is a great recruiting mechanism with lots of advantages. I think it all boils down to the volunteer organization.

My hope is we can work out a plan that would bring accountability to this very serious problem yet maintain the volunteer aspects of the organization and local control.

Mr. WARNER. Mr. President, I leave it to the experts on this.

Mr. INHOFE. The amendment merely gives oversight.

Here is the problem: I appreciate the voluntary aspect of it; unfortunately, the voluntary aspect of this only funds about 5 percent, and about 95 percent is public funds, for which we are responsible.

Before the esteemed chairman of the committee arrived, I talked about how strapped we are. I believe the bill we are debating today is inadequate in terms of proper funding, but it is the best we can do, so we support it.

I can think of military construction projects right now that would love to have a little extra funding, and it does relate to our security interests.

I am happy to work with the Senator from Colorado on any kind of a compromise that will give oversight of the CAP to the Air Force so that they will have some degree of control.

If 95 percent of the funding of the CAP is taxpayers' dollars, the taxpayers have to have some degree of control. We have a lot of other anecdotals accusations. I don't want to get into that. Things like this are going on and things like this will continue to go on in any entity in society that doesn't have a little extra. I can cite some examples in another committee. We served on the Environment and Public Works Committee where one of the agencies has had no oversight over the past 5 or 6 years and was getting out of hand. They have to have oversight. Those people are dealing with public funds and the public has to have oversight.

My concern is what will happen if we don't do this. If we don't do this, as I suggested, the Secretarys of the Air Force may decide to sever relations, and then we really have a serious problem with CAP. I think there is not a person in here who is not a strong supporter of the CAP—if certainly these three Senators are among the strongest. We are attempting to save it.

Mr. WARNER. Could I say to my colleagues, is it possible we could conclude this debate? We are anxious to bring up another amendment which we hope to vote on tonight.

Mr. ALLARD. I will sit down with my colleagues, both of my colleagues, and go over some of this language. The way I read the language, the Air Force Secretary appoints the national board of directors, and they have total control over the rules and regulations. It looks to me as if they have total control. Maybe I am misinterpreting it.

I am willing to sit down with my colleagues and see if this happens or not, and maybe we can work out a compromise.

With that in mind, I yield the floor so the chairman can move ahead.

Mr. WARNER. I thank my distinguished colleague.

Mr. INHOFE. I make one last comment to the Senator from Colorado. The language where the local units would continue to be run by local commanders is not addressed in this. That doesn't change. That would remain as it is in the current law.

Mr. WARNER. I thank my colleague.

Mr. President, we will ask unanimous consent that this amendment be laid aside until such time as I bring it up again.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. At that time, we will have debate by Senator HARKIN for a period not to exceed 15 to 20 minutes, and then we propose to vote, unless good fortune strikes and these able Senators are reconciled.

The pending business now would be the amendment from the distinguished majority leader, Mr. LOTT; would that not be correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. WARNER. I ask unanimous consent that be laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. We now turn to an amendment by the distinguished Senator from New Hampshire, Mr. SMITH, a very valued member of the Armed Services Committee and chairman of the Subcommittee on Strategic Forces. It would be my hope we could arrive at a time agreement and possibly vote on the amendment tonight.

Mr. SMITH of New Hampshire. If I may respond to the Senator from Virginia, how much time would the Senator like to have?

Mr. WARNER. I want to consult with my distinguished ranking member, but in fairness, I advise my good friend I have looked over this amendment—the Senator from Virginia, as chairman of the committee—and certainly my own judgment is that I will have to move to table.

I think my good friend understands that.

Mr. SMITH of New Hampshire. I say to the Senate, I understand that the Senator opposes it. I ask if the Senator would allow considering an up-or-down vote. But the Senator is the chairman, and I respect that. I prefer an up-or-down vote because I think it is an issue that is deserving of that way one way or the other, no matter how we feel. It seems to me more appropriate to have a yes-or-no vote, but obviously I defer to my chairman.

Mr. WARNER. And I thank my colleague for that understanding.

So if the Senator will proceed and allow me to seek recognition as soon as the ranking member can give me advice, I will be in opposition, as will the ranking member.

I hope we could have, perhaps, 50 minutes equally divided.

Mr. SMITH of New Hampshire. My concern is the tabling motion. As the Senator knows, this issue is on the calendar now as a separate issue. My purpose in bringing it up on this bill: There are a lot of Senators on both sides of the aisle who support it. My assumption is there may be enough, but I haven't done a whip count.

My inclination would be, if the chairman is going to move to table it, to not bring it up at this time, because I do have the option of bringing it up as a separate resolution because it is on the calendar.

I hoped to have an up-or-down vote. I put it to the chairman this way: If the chairman will allow an up-or-down vote, I am happy to have a time limit, say, of 30 minutes, depending on what the other side desires. I don't need any more than 15 minutes.

If the chairman is going to table, I think at this point I will not offer the amendment.

Mr. WARNER. That is a development somewhat new, as opposed to what we had in earlier conversations. Might I suggest the Senator lay down the amendment and commence and give me the opportunity to consult with the ranking member?

Mr. SMITH of New Hampshire. All right.

Mr. WARNER. I thank the Senator.
AMENDMENT NO. 405

(Purpose: To express the sense of Congress with respect to the court-martial conviction of the late Rear Admiral Charles Butler McVay III, and to call upon the President to award a Presidential Unit Citation to the final crew of the U.S.S. Indianapolis)

Mr. SMITH of New Hampshire. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative assistant read as follows:

The Senator from New Hampshire [Mr. Smith] proposes an amendment numbered 405.

Mr. SMITH of New Hampshire. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In title X, at the end of subtitle D, add the following:

SEC. 1061. SENSE OF CONGRESS REGARDING THE U.S.S. INDIANAPOLIS.

(a) COURT-MARTIAL CONVICTION OF LAST COMMANDER.—It is the sense of Congress that—

(1) the court-martial charges against then-Captain Charles Butler McVay III, United States Navy, arising from the sinking of the U.S.S. INDIANAPOLIS (CA-35) on July 30, 1945, while under his command were not morally sustainable;

(2) Captain McVay’s conviction was a miscarriage of justice that led to his unjust humiliation and damage to his naval career; and

(3) the American people should now recognize Captain McVay’s lack of culpability for the tragic loss of the U.S.S. INDIANAPOLIS and the lives of the men who died as a result of her sinking.

(b) PRESIDENTIAL UNIT CITATION FOR FINAL CREW.—(1) It is the sense of Congress that the President should award a Presidential Unit Citation to the final crew of the U.S.S. INDIANAPOLIS in recognition of the courage and fortitude displayed by the members of the ship who faced the face of tremendous hardship and adversity after their ship was torpedoed and sunk on July 30, 1945.

(2) A citation described in paragraph (1) may be awarded without regard to any provisions of law or regulation prescribing a time limitation that is otherwise applicable with respect to recommendation for, or the award of, such a citation.

Mr. SMITH of New Hampshire. Mr. President, I spoke in morning business on this issue a couple of days ago, to call it to the attention of my colleagues, because I believe it is one that is very important and very relevant to this bill. I wanted my colleagues to be aware that I would probably be bringing it up at some point in the near future. I did not expect it to be quite this soon.

A lot of individuals who have expressed an interest in my bringing it up earlier rather than later, are not only my colleagues but many aboard the U.S.S. Indianapolis who survived this great tragedy at sea. In deference to them, I felt it would be appropriate to try to get a vote on this. I want to emphasize to my colleagues, I hope my colleagues are paying attention out there, watching on TV. Because if there is any doubt or concern about whether or not this should be supported, I urge Senators to listen to me for a few minutes as I try to explain why I believe this amendment should be agreed to.

First of all, I have a number of co-sponsors who came in as original co-sponsors. Not only myself, but Senator Feingold, Senator Bond, Senator Landrieu, Senator Rums, Senator Hagel, Senator Breaux, Senator Torricelli, Senator Helms, Senator Inhofe, Senator Durbin and Senator Edwards. It is a joint resolution. I also, subsequent to that, received co-sponsorship from Senator Boxer and from Senator Inouye.

We can see it represents all regions of the country and both sides of the political spectrum. It is not in any way, shape, or form a political issue. It simply expresses the sense of Congress with respect to the court-martial conviction of the late Rear Adm. Charles Butler McVay, III. It calls upon the President to award a Presidential Unit Citation to the final crew of the U.S.S. Indianapolis.

This is an incredible story of incredible bravery and at the same time it is a story of incredible prejudice to an individual with a great, distinguished record as a captain, as an officer in the U.S. Navy. I want to share with my colleagues this brief story from the closing days of World War II, the war in the Pacific. I know as we debate the issues of today, the China issue and the military did something wrong, to know that. If something was wrong we need to look at it in a way so we can make a wrong right. I think they need to understand if there is some huge issues—the China issue and the military did something wrong, to know that. If something was wrong we need to look at it in a way so we can make a wrong right. I think they need to understand if there is some huge issues—the China issue and so many others. But I think it is important to understand. I just spoke a few moments ago to new flag officers who were just getting their stars. It was quite an honor to do that. But I think it is important. If we are going to ask people such as these new flag officers to come on board to serve and continue to serve in the military, not to leave after their enlistment is up, but to become those flag officers, they need to know that if there is some type of inequity or something that has happened that causes an injustice, we need to look at it in a way so we can make a wrong right. I think they need to know that. If something was wrong and the military did something wrong, we need to big enough to admit it and to correct it. That is what this story is about.

This is a harrowing story. It has a lot of bad elements—It has bad timing; it has bad weather. It has hernia, and fortitude, but it also has negligence and shame. It has good luck and bad luck. And above all, it is a story of some very special men whose will to survive shines like a beacon even today, many decades later. We have the opportunity, right now, perhaps as soon as an hour, to redeem the reputation of a fine man—a wronged man, in my view—and to correct the indomitable will of a very fine crew of the U.S.S. Indianapolis. I had the privilege of hosting two—actually more than two, several survivors of the U.S.S. Indianapolis, a couple here yesterday or the day before that, and several before that at a meeting. The bill I offer today will honor all these men and their shipments of the U.S.S. Indianapolis and redeem their captain, in my view—Capt. Charles McVay. Captain McVay graduated from the U.S. Naval Academy in 1920. He was a career naval officer. He had an exemplary record in the world’s first included participation in the landings in North Africa, award of a Silver Star for courage under fire earned during the Solomon Islands campaign. Before taking command of the Indianapolis in November of 1944,蔡雷onded the Joint Intelligence Committee of the Combined Chiefs of Staff in Washington. That is the highest intelligence unit of the Allies during the war.

McVay led the ship through the invasion of Iwo Jima, then bombardment of Okinawa in the spring of 1945, during which Indianapolis antiaircraft guns shot down seven enemy planes before the ship was severely damaged. Captain McVay returned his ship safely to Mare Island in California for much-needed repairs.

Another great story about the Indianapolis which is not well known. In 1945, the Indianapolis delivered to the island of Tinian the world’s first operational atomic bomb, which would later be dropped on Hiroshima by the Enola Gay on August 6. After delivering her fateful cargo, she then reported to the naval station at Guam for further overhaul. She was then assigned to the U.S.S. Idaho in the Philippines to prepare for the invasion of Japan.

It was at Guam that the series of events ultimately leading to the sinking of the Indianapolis began to unfold. It is quite a story.

There were hostilities in this part of the Pacific, but they had long since ceased. This is 1945. The war is almost over. The Japanese surface fleet is no longer considered a threat, and attention instead had turned 1,000 miles to the north where preparations were underway for the invasion of the Japanese mainland.

We have a picture here of very little Japanese activity in the Pacific. These conditions led to a relaxed state of alert on the part of those who decided to send the Indianapolis across the Philippine Sea unescorted, and consequently Captain McVay was randomly told, just zigzag at your discretion.

So the higher-ups were in a relaxed state. We were going into the Japanese...
The second hit the higher-ups. "I–58", the Japanese submarine that was hit by two torpedoes fired by the July 1945, midway between Guam and the Philippines on July 28, 1945. Think about how close we are now to the end of the war. Just after midnight, on 30 July 1945, midway between Guam and the Leyte Gulf, the U.S.S. Indianapolis was hit by two torpedoes fired by the "I–58", the Japanese submarine that was not supposed to be there according to the higher-ups.

The first torpedo blew the bow off the ship. The second hit the Indianapolis at midship on the starboard side adjacent to a fuel tank and a powder magazine. You cannot imagine—no one could—the resulting explosion, but it split the ship completely in two.

There were 1,196 men aboard the U.S.S. Indianapolis on that fateful night. Mr. President, 900 escaped the ship before it sunk in 12 minutes. In 12 minutes, the naval ship went to the bottom and 900 men were able to get off that ship before it sank. Few liferafts were released, and at sunrise on the first day of those 900 men being in the water, they were attacked by sharks. The attacks continued until the remaining men were physically removed from the water almost 5 days later.

If you can imagine in the middle of the night aboard ship: It is hit by two torpedoes and sinks in 12 minutes, very few liferafts; you are in the water. The men were in the water for 5 days and the sharks began immediately to circle and attack and pick these men off, literally, one by one, as wolves might pick off a weakened antelope or some other animal they were pursuing.

Shortly after 11 a.m. on the fourth day, sailors were accidentally discovered by an American bomber on a routine antisubmarine patrol. This is important for my colleagues to understand this—accidentally discovered.

A patrolling seaplane was dispatched to lend assistance and report. En route to the scene, it overflew the destroyer Cecil Doyle DD–368, and alerted her captain to this emergency. The captain of the Cecil Doyle, on his own authority—no orders—decided to divert from his mission and go to the scene of the Indianapolis sinking.

Arriving there hours ahead of the Cecil Doyle, the seaplane's crew—the seaplane's crew had called the Cecil Doyle; the Cecil Doyle is en route and the seaplane, in the meantime, began dropping rubber rafts and supplies to these men who had been in the water for 5 days. While doing so, they observed the shark attacks. They literally saw men who were moments from rescue dragged under by attacking sharks. The men were so overwrought the sharks began immediately to circle the sharks.

torpedoes and sinks in 12 minutes, very fast. The naval ship went to the bottom and 900 men were able to get off that ship before it sank. Few liferafts were released, and at sunrise on the first day of those 900 men being in the water, they were attacked by sharks. The attacks continued until the remaining men were physically removed from the water almost 5 days later.

As darkness fell, the crew of the seaplane waited for help, all the while continuing to seek out and pull nearly dead men from the water. When the fuselage of the plane was full, the survivors were tied to the wing with a parachute cord. That plane rescued 56 men from the water on that particular day, just literally sitting in the water allowing these men to cling to that plane.

Then came the Cecil Doyle. This was the first vessel on the scene, and it began taking survivors aboard. Again, disregarding the safety of his own vessel, the Doyle's captain pointed his largest searchlight into the night sky to serve as a beacon so other rescue vessels might catch it. This was the first indication to the survivors that their prayers had been answered. Help had at last had arrived.

Mr. WARNER. Mr. President, will the Senator yield?

Mr. SMITH of New Hampshire. I yield to the chair.

Mr. WARNER. Mr. President, we have, I think, news that will be received as good news. The distinguished Senator from Colorado and the distinguished Senator from Oklahoma, at the suggestion of the chairman, got together and they resolved the amendment; am I not correct in that?

Mr. ALLARD. I think we are getting some common ground worked out. I am hopeful we can get something put on paper.

Mr. WARNER. The purpose of interrupting our distinguished colleague is to advise the Senate, because many Senators are engaged in other activities right now, and I think we should get them to come here as quickly as possible and resolve the amendment. I understand the Senator just now to indicate this thing was settled.

Mr. ALLARD. We think we have reached agreement. We are getting it put down on paper. We can put this vote off until tomorrow, if that is the Senator's question.

Mr. WARNER. We need to have some agreement. We are getting it put down on paper. We can put this vote off until tomorrow, if that is the Senator's question.

Mr. ALLARD. We think we have reached agreement. We are getting it put down on paper. We can put this vote off until tomorrow, if that is the Senator's question.

Mr. WARNER. Mr. President, I ask unanimous consent that Tim Coy, a staff person, be granted the privilege of the floor for the debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Mr. President, I was engaged in conversation with Senator Sessions, and he told me it was an absolute. I spoke with the Senator from Colorado just now and I felt I got an absolute answer.

Mr. ALLARD. When we get it down in writing, that is when we will have an absolute answer. We made a verbal agreement. I think we are there. I do not want to sign off completely.

Mr. WARNER. Mr. President, I am a moment premature.

Mr. WARNER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative assistant proceeded to call the roll.

Mr. WARNER. Mr. President, I have listened very intently to my colleague from New Hampshire, and I have studied the history of the Indianapolis. His opening statement I found persuasive to the point where I would like to go back to neutral on any question of tabling and offer to my good friend the opportunity for the Senate Armed Services Committee to have a hearing, because, as you recall yesterday—I certainly do vividly, indeed, spend hours in the debate—our distinguished colleague, Senator Roth of Delaware, brought in a most significant record, and I think the Senate would likewise want a live record on this critical issue that you bring before the Senate.

Therefore, a hearing would avail you—and I hope you would avail yourself to chair that hearing—of the opportunity to develop a record to bring to the Senate so Senators would have the benefit of that record to make this important vote.

For that reason—perhaps you would like to finish your presentation tonight so it is there in the RECORD—perhaps you will consider that, and we will not proceed with the amendment further, that you will take it down.

Mr. SMITH of New Hampshire addressed the Chair.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. SMITH of New Hampshire. Mr. Chairman, I appreciate the comments the Senator has made. I think clearly it would be in the best interests of the Senate, and certainly of the Indianapolis, to not have the amendment tabled. I believe you bring up some very valid points. There may be some Senators who have not had a chance to digest this.

I did send out a significant amount of information over the past several days, but we have been busy. So in deference to the chairman, as long as my rights are protected—I would like to complete 5 or 6 minutes to just finish the statement I was making, to finish the story, if you will, as to what happened—I will, with the chairman's commitment to a hearing, withdraw the amendment. We will save the hearing. Whenever is appropriate, where we can both convene it. Then perhaps we can bring it back after that hearing to the floor as a separate piece of free-standing legislation, which I have on the calendar, as it is.

Mr. WARNER. I thank my good friend for his cooperation and understanding. This is an important chapter.
of naval history. Some of our colleagues have not had the opportunity to look at it as extensively as has the Senator from New Hampshire. I think some of the testimonies of some live testimony will be helpful.

So to inform Senators, the Senator from New Hampshire will proceed for such time as he desires to conclude his opening statement. Then following that, the Senator from New Hampshire will send to the desk an amendment relating to funding on the Kosovo operations; am I not correct on that, I ask the Senator?

Mr. SMITH of New Hampshire. That is correct. I will be happy to offer that amendment.

Mr. WARNER. I think we can agree now that the time agreement on that would be, why don’t we say, 40 minutes. At the conclusion of that, again, I have to address, that wouldn’t end it. So I ask unanimous consent that there be 40 minutes to be equally divided between the Senator from New Hampshire and the two managers of the bill, and then we will have a vote.

Mr. SMITH of New Hampshire. Mr. President, just reserving the right to object, I do have six or seven cosponsors. I did not realize this was going to come at this point. I would just like to be able to protect their rights to speak. My intention would be not to go beyond the 40 minutes, if they did not show up. I ask you to amend the UC to 60 minutes. If we do not need it, I would be more than happy to yield it back.

Mr. LEVIN. About how much longer will you be taking?

Mr. SMITH of New Hampshire. Starting at 7:00.

Mr. WARNER. So, Mr. President, we would start at 7:00. All debate would be concluded at 8:00. The Senator from Virginia will move to table, at which time we will have a record vote.

Mr. LEVIN. Reserving the right to object, Mr. President.

The PRESIDING OFFICER (Mr. Brownback). The Senator from Michigan.

Mr. LEVIN. Mr. President, I want to be certain that the chairman is in agreement with my understanding of what this would be. At 8:00, the chairman would move to table, and if in fact it is tabled, that would end it. But if it is not tabled, there will be then no limitation as part of this unanimous consent agreement on time.

Mr. WARNER. Mr. President, that is quite clear. I will read the UC and incorporate that in it. This gives an opportunity for Senators to plan the balance of the evening. I now ask unanimous consent that when Senator SMITH from New Hampshire offers an amendment regarding Kosovo, which will take place at later than the hour of 7:00, there be 60 minutes of debate equally divided in the usual form prior to a vote on or in relation to the amendment. I finally ask consent that no amendment be in order to the amendment prior to the vote.

The PRESIDING OFFICER. Without objection, that order is granted.

Mr. LEVIN. Mr. President, reserving the right to object, if I still have that standing.

Mr. WARNER. I think it is gone, but what is on your mind?

Mr. LEVIN. Senator HARKIN was informed that at 7:15 he would be granted, how many minutes?

Mr. WARNER. Mr. President, that is correct. But I am advised by the principal sponsor, Senator ALLARD, that the matter has been settled. It is being written up. Of course, Senator HARKIN would be consulted. If for any reason that writing fails to resolve it, then we will have to revisit this amendment tomorrow at a time that you and I will discuss with Senator HARKIN and other Senators.

Mr. WARNER. Mr. President, that is the prerogative of the leader, but I have reason to believe that you are correct.

Mr. LEVIN. That is the intent?

Mr. LEVIN. That is the intent.

Mr. LEVIN. I know that is not the decision until the leader —

Mr. WARNER. Mr. President, I am 99.99 percent certain that this would be the last vote at 8:00.

Mr. LEVIN. I add my thanks to the Senator from New Hampshire. As always, he is very cooperative with attempting to resolve issues. I didn’t have a chance to thank him earlier today for his willingness to address the Trident submarine issue, even though he took a different position on the amendment. Unfortunately, that part of that amendment really had been addressed, at least in committee, with the Trident reduction. While I very much supported Senator KERREY’s amendment for the reasons that I gave, I didn’t have an opportunity during that debate to thank Senator SMITH for his participation in addressing one part of that issue which the Defense Department was most anxious to address. I thank him for that as well.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. SMITH of New Hampshire. Thank you. I thank my colleague from Michigan for his comments.

Just finishing the story briefly, in 5 or 6 minutes, so we can go ahead to the next issue, there were 900 men who made it into the water and only 317 remained alive at the end of those 5 days. If you can imagine 5 days of shark attacks, starvation, thirst with only salt water, suffering from exposure. The men from this U.S.S. Indianapolis were finally rescued. Curiously enough, the Navy withheld the news of the sunken ship from the American people for 2 weeks until the day the Japanese surrender, on August 15, 1945. So the press coverage was minimal. Also, it is worth noting, that I believe that they started the proceedings without having all the available data that was necessary. And less than 2 weeks after the sinking of the Indianapolis, before the sinking of the ship had even been announced to the public, the Navy opened an official board of inquiry to investigate Captain McVay, the captain of the ship, and his actions. The board, strangely enough, recommended a general court-martial for Captain McVay 2 weeks after the incident before it had even been made public. Indeed, many of the survivors’ families were not even made aware that the ship had gone down.

Admiral Nimitz, commander in chief of the Pacific Command, didn’t agree. He wrote the Navy’s judge advocate general that at worst, McVay was guilty of an error in judgment, but not gross negligence worthy of a court-martial. Nimitz later recommended a reprimand. Nimitz and Admiral Spruance later were recovered by the Fifth Fleet. Secretary of the Navy James Forrestal and Adm. Ernest King, Chief of Naval Operations, directed that the court-martial would go on and proceed.

It is pretty difficult to understand why the Navy brought the charge in the first place.

Explosions from torpedoes, as I said before, had knocked out the ship completely, knocked out its communications system so he was unable to give an abandon ship order except by word of mouth, which all of the crew said McVay had done. So he was ultimately found not guilty on that count.

The second count was not zigzagging, and it goes on to talk about that.

The bottom line, Captain McVay was ultimately found guilty on the charge of failing to zigzag and was discharged from the Navy with a ruined career. And in 1946, at the request of Admiral Nimitz, who had now become the CNO, Chief of Naval Operations, in a partial admission of injustice, Secretary Forrestal remitted McVay’s sentence and restored him to duty. But Captain McVay’s court-martial and personal cu:

The amendment is as follows:

in title X, at the end of subtitle D, add the
following section:

SEC. 3. RESTRICTION ON USE OF FUNDS FOR
MILITARY OPERATIONS IN THE FEDERAL
REPUBLIC OF YUGOSLAVIA (SERBIA AND
MONTENEGRO).

(a) In General.—Except as provided in
subsection (b), none of the funds available to
the Department of Defense (including prior
appropriations) may be used for the purpose
of conducting military operations by the
Armed Forces of the United States in the
Federal Republic of Yugoslavia (Serbia and
Montenegro) unless Congress first enacts a
law containing specific authorization for the
conduct of those operations.

(b) Exceptions.—Subsection (a) shall not
apply to—

(1) any intelligence or intelligence-related
activity or surveillance or the provision of
logistical support; or

(2) any measure necessary to defend
the Armed Forces of the United States against
an immediate threat.

(c) Effective Date.—This section shall
take effect on October 1, 1999.

Mr. SMITH of New Hampshire. Mr. Presi-
dent, this is an amendment I re-
greyed at the request of the survivors who
ought to be expected to vote on funding
the Senate of the United States should
want to but because I have to. As we
are attacking this amendment, not because I
regret very much that I have to offer. I
President, this is an amendment I re-
sent from New Hampshire [Mr. SMITH], for himself, Mr. Sessions, Mr. Al-
ard, Mr. Craig, Mr. Inhofe, and Mr. Hutch-
inson, proposes an amendment numbered 406.

Mr. SMITH of New Hampshire. Mr. Pre-
ident, I ask unanimous consent to
send to the desk and ask for its imme-

the Senate of the United States should
want to but because I have to. As we
are attacking this amendment, not because I
regret very much that I have to offer. I
President, this is an amendment I re-

We have already authorized air-
strikes. We did that, regretfully, in a
vote that I lost earlier this spring. But
the issue here is: Are we going to have
an operation of possible ground forces
and a possible continuation of air-
strikes in a sovereign nation in the
midst of a civil war, without any state-
ment from Congress other than one
that was to fund an air war, which kept
the ground troops out, which allowed
Milosevic to take over Kosovo? This
policy has not worked. We are being
dragged into a ground war. Believe me,
there are plans on the table, and every-
body in America should know it, right
now as we speak, to put ground forces
into Kosovo.

When a superpower uses military
force against another nation, it has to
do it with an intensity and sincerity
that shows purpose and decisiveness. I
do not want any more Vietnams. I
served in Vietnam. I watched the poli-
ticians debate the war, and the people
in the streets protest the war while the
war continued. We did not have the
time to go in, and now there were
2,000 people dead and 50,000 refu-
ges when we went in, and now there
are 150,000 dead and a million refugees.

Apparent-ly, the policy that 58 senators
supported in here two months ago is
now as we speak, to put ground forces
into Kosovo.

Since McVay's court-martial, a num-
ber of other things have come up, I will
do not get into those now because of time,
but we will get into them in the hear-
ing.

Let me conclude on this point: Many
of the survivors of the Indianapolis be-
lieve that a decision to convict Captain
McVay was made before the court-mart-
tial, to wit it is a very serious charge.
They are convinced that McVay was
made a scapegoat to hide the mistakes
of others higher up. Mr. Craig, Mr. In-
hofer, and Mr. Hutchison, proposes an
amendment numbered 406.

Mr. SMITH of New Hampshire. I will
drawn.

in title X, at the end of subtitle D, add the
following section:

SEC. 3. RESTRICTION ON USE OF FUNDS FOR
MILITARY OPERATIONS IN THE FEDERAL
REPUBLIC OF YUGOSLAVIA (SERBIA AND
MONTENEGRO).

(a) In General.—Except as provided in
subsection (b), none of the funds available to
the Department of Defense (including prior
appropriations) may be used for the purpose
of conducting military operations by the
Armed Forces of the United States in the
Federal Republic of Yugoslavia (Serbia and
Montenegro) unless Congress first enacts a
law containing specific authorization for the
conduct of those operations.

(b) Exceptions.—Subsection (a) shall not
apply to—

(1) any intelligence or intelligence-related
activity or surveillance or the provision of
logistical support; or

(2) any measure necessary to defend
the Armed Forces of the United States against
an immediate threat.

(c) Effective Date.—This section shall
take effect on October 1, 1999.

Mr. SMITH of New Hampshire. Mr. Presi-
dent, this is an amendment I re-
greyed at the request of the survivors who
ought to be expected to vote on funding
the Senate of the United States should
want to but because I have to. As we
are attacking this amendment, not because I
regret very much that I have to offer. I
President, this is an amendment I re-

We have already authorized air-
strikes. We did that, regretfully, in a
vote that I lost earlier this spring. But
the issue here is: Are we going to have
an operation of possible ground forces
and a possible continuation of air-
strikes in a sovereign nation in the
midst of a civil war, without any state-
ment from Congress other than one
that was to fund an air war, which kept
the ground troops out, which allowed
Milosevic to take over Kosovo? This
policy has not worked. We are being
dragged into a ground war. Believe me,
there are plans on the table, and every-
body in America should know it, right
now as we speak, to put ground forces
into Kosovo.

When a superpower uses military
force against another nation, it has to
do it with an intensity and sincerity
that shows purpose and decisiveness. I
do not want any more Vietnams. I
served in Vietnam. I watched the poli-
ticians debate the war, and the people
in the streets protest the war while the
war continued. We did not have the
time to go in, and now there were
2,000 people dead and 50,000 refu-
ges when we went in, and now there
are 150,000 dead and a million refugees.

Apparent-ly, the policy that 58 senators
supported in here two months ago is
now as we speak, to put ground forces
into Kosovo.

Somalia comes to mind. People lost
their lives. We did not have a clear pur-
pose there either. We just went in. And
here, in Kosovo, we just went in. Yes,
Milosevic is a terrible person and he
has done terrible things to innocent
people. The question is, though: Was
bombing Milosevic the way to end it?

Well, apparently not, since there
were 2,000 people dead and 50,000 refu-
ges when we went in, and now there
are 150,000 dead and a million refugees.

Apparent-ly, the policy that 58 senators
supported in here two months ago is
now as we speak, to put ground forces
into Kosovo.

I have been on this floor repeatedly
arguing against this war. I do not like
doing so. But we are attacking a sov-
ereign nation, and our national inter-
tests are not at stake. Humanitarian
problems in Yugoslavia are serious
problems, but are they national secu-

ry interests of the United States of
America? Every single person out there
who has a son or daughter old enough
to serve in the military should ask
themselves: Is it worth my son's or
dughter's life to die in Yugoslavia for
the national security of the United States?

SEC.

Mr. SMITH of New Hampshire. Mr. Pre-
sent. Mr. President, I ask unanimous consent
that the amendment be dis-
pensed with.

The PRESIDING OFFICER. With-
out objection, it is so ordered.
open, and we have to have the finest military in the world. And we do. But most importantly, we have to act clearly and with confidence in our implicit national interests. We have not done that here in Yugoslavia.

Some people have said: Let’s go win the war. Maybe somebody can explain to me what “win” means. Does it mean that we occupy Yugoslavia for the next hundred years? That we put a partition up between Kosovo and the rest of Yugoslavia, or barbed wire, and keep 50,000, or 60,000, or 200,000 troops there for a hundred years? Perhaps we should just bomb every bridge, every building, every oil refinery, every railroad, flatten it to the ground, kill every Serb.

Maybe that is how we win. Somebody tell me. I have been waiting. I have offered this challenge on broadcast after broadcast, I do not want the answer to happen in conversation after conversation with administration officials, Senators, Congressmen, people on the street, people in the military. Nobody has given me the answer yet. How do we win? I have not heard the answer.

Our military is stretched to the breaking point. Recruiting is down. There are chronic spare part shortages. Deployments continue to increase. And now we are hearing reports about shortages of cruise missiles and other smart weapons. Over 30,000 reservists are being called up.

Let me ask my colleagues to reflect on something. God forbid, but what if North Korea were to attack the South tomorrow morning; or Iraq decided to invade Kuwait; or the Iranians, or the Libyans, or anybody else caused some threats? Could we meet those threats? Could we deploy the military to where the threats are in time? I do not want to be proven right. But we are at a turning point. If we continue to escalate, then NATO truly is finished.

This region of the Balkans has been inflamed for centuries. If they attacked the United States, or if they threatened the national security of the United States anywhere in the world, I would lead the charge here in the Senate for a declaration of war. But they have not done that.

I am hearing a lot of pious arguments about NATO’s hour of truth. But the question we have to ask: “Will our grandchildren be patrolling the streets of Kosovo?”

Think about it—not you, not your son, but your grandson, and maybe his grandchildren will be grandsons or granddaughters patrolling the streets of Kosovo to keep the Serbians from coming across their border and killing more ethnic Albanians?

That is what you had better ask yourself.

There are those who say that the integrity of NATO is at stake. I hear that all the time—if we do not go to war in Kosovo, NATO will fall apart. Look—NATO survived the Soviet Union. It survived Joseph Stalin. It survived Khrushchev and Brezhnev. But it is not going to survive Slobodan Milosevic.

For goodness’ sake. This alliance has stood for decades for all of these great powers, and has stood well. I supported NATO in those years. The administration will tell us: If NATO is not there, how can the collective defense of its members—how can the collective defense of its members?

We must stay true to our core mission. NATO is the only way to end the airstrikes. Anybody can explain to my friend from Oklahoma. Mr. INHOFE. Will the Senator yield for a question?

Mr. SMITH of New Hampshire. Yes, I yield, Mr. Chairman.

Mr. INHOFE. First of all, I don’t want the Senator to get the impression that he is alone in his feelings. I agree with everything the Senator said.

One of the main reasons I do not support this war is because I want to preserve our standing in the world. It is because I believe our relationship with Russia is on the line. It is because I believe that we should not draw precious military resources from our overseas commitments. It is because I care about the stability in Bosnia. It is because I believe in the sovereignty of other nations that I am against the escalation of this conflict. Some call that isolationism. It is not isolationism, and I resent that reference. It is actually realism.

Mr. INHOFE. Will the Senator yield for a question?

Mr. SMITH of New Hampshire. Yes, I yield, Mr. Chairman.

Mr. INHOFE. Will the Senator yield for a question?

One of the main reasons I do not support this war is because I want to preserve our standing in the world. It is because I believe our relationship with Russia is on the line. It is because I believe that we should not draw precious military resources from our overseas commitments. It is because I care about the stability in Bosnia. It is because I believe in the sovereignty of other nations that I am against the escalation of this conflict. Some call that isolationism. It is not isolationism, and I resent that reference. It is actually realism.
Mr. SMITH of New Hampshire. I certainly will add that to the list. I referred to that moments ago. But it is a point well taken.

Mr. President, great powers use discretion. They do not allow themselves to be bogged down in places where their interests are not at stake. They use their power judiciously.

When do we use force? When do we use diplomacy? We have made commitments around the world in places like Korea and the Middle East. The United States has shown resolve. We place American lives at risk when our vital interests are the stake. We have done it all over the world. Americans have died in places all over the world that some cannot pronounce and never heard of. It has been happening for decades. There is no question about it. But our vital interests are not threatened in Yugoslavia.

We have troops in warships across the world. Every year we send billions of Americans' tax dollars overseas in foreign aid. The American people are the most generous in the world. Private citizens, corporations, and charitable organizations send hundreds of millions of dollars every year to help needy people throughout the world. If we have a flood, or an earthquake, or a tornado in America, how many times do you hear about all of these other countries pouring in money to help the people in Des Moines, or to help the people someplace else where a tornado or a flood occurs?

To somehow say now that we have to get into this conflict when we have countries in Europe who can, and should, deal with it—how much more blood do we need to shed in Europe for Europe? It is about time Europe stepped up to the plate.

The United States does not need to resort to airstrikes to show we are not isolationist, and we certainly should not put our troops at risk. And we do not need somebody who has never been in the military—to be the macho man who drags us into a war where we do not belong in.

With this legislation, I am just trying to keep the administration from throwing money and forces at Kosovo without the accountability. If Congress wants operations after 1 October, all we have to do is authorize them. This vote tonight will not be the mission. We have made that vote. This vote is going to be on whether or not we want to have another opportunity fund this operation after October 1.

I respect my colleagues on both sides of this question. I respect immensely the thought that they put into it. I respect their convictions. Again, the only instrument I have as a Member of Congress, blunt as it may be, if I disapprove of this policy, is to cut off the funding. That is the reason I offer this amendment.

I yield the floor.

Mr. WARNER. Will the Senator yield for a question on my time?

Mr. SMITH of New Hampshire. I yield.

Mr. WARNER. Senator, we have had many debates on the floor of the Senate about this very divisive war. The Senate in desiging the resolution, from the very beginning, has been absolutely clear as to his views, and I respect them. I differ with them, but I respect them.

I will not go over the entire history of what I and other Senators have said about this. These are those Members who believed that once the commitment was made by this Nation as an integral part, as a full partner, of NATO, to the other 18 nations, that was it; it was to support our troops and to do what we can.

What worries me about the amendment is that it would send a signal to Milosevic: Hang tough.

This is the man who, as just clearly stated, has divided the whole world. Considered every precedent of human rights. Would it not send a message to him to hang in there? No matter what we are able to inflict, hang in there, because on October 1 the United States pulls out of NATO and leaves it to the other 18 nations if they wish to carry on?

That is my first question.

The second question: What do we say to the men and women of the United States Armed Forces and the other nations flying missions, some eight or nine nations flying missions? What do we say to them? They are in the cockpit right now, taking risks, risking life and limb. Did the Senator think about stopping it as of tonight? That was an option I am sure the Senator considered.

Those are the two questions I pose to my good friend.

Mr. SMITH of New Hampshire. Responding to the leader on his time, I lost that vote earlier, regrettably. I lost that vote on the floor.

What I am trying to do now is not authorize any funds for operations in Yugoslavia beyond the October 1, the beginning of the next fiscal year, unless we again authorize those operations.

Mr. WARNER. What do we say to the young men and women flying these missions? Their mission tonight, tomorrow night, and into the indefinite future is to carry out the orders of the Commander in Chief of the United States and the guiding military group in NATO. They salute, march off, get in the cockpit, fly off, and take risks. In my judgment, they are making some slow but, nevertheless, steady progress in degrading the military machine of Milosevic. When they fly home, they drop their orders, and they can at least say it was another chip away toward the end result and the five basic points that NATO has laid down to resolve this conflict.

If we are to pass this and they fly the mission, they will wonder: Am I going to be the last person to die on the last day of this war, which would be September 30, 1999?

Mr. SMITH of New Hampshire. What do we say? First, we tell them that we are ensuring that the American people, through their representatives in Congress, should either support it, if it is to continue, or not.

If my amendment were to prevail and I were one of those pilots, I would hope that my Commander in Chief, after this amendment did prevail, would begin to make a compelling case for our actions against Yugoslavia, and would bring that case before the American people for a vote in Congress. That is what the American people are doing that. How long that goes on, I do not know. The bottom line is: he has achieved what he wanted to achieve,
which is to get the ethnic Albanians out of Kosovo. He has accomplished what he wanted to accomplish in spite of the bombing—and maybe because of the bombing.

I do not know what we are gaining by continuing. But I do think that, as a minimum, the President must get Congressional authorization to continue the war.

Mr. WARNER. I thank my colleague for taking questions. I did not mean to importune the distinguished Senator.

Mr. INHOFE. I inquire of the Presiding Officer how much time remains on both sides.

The PRESIDING OFFICER. Senator Smith controls 8 minutes 30 seconds, and the Senator from Virginia, the manager, controls 23 minutes.

Mr. SMITH of New Hampshire. I yield 6 minutes to the Senator from Oklahoma.

Mr. INHOFE. I thank the Senator for yielding.

I am not going to take that long, only because I don't want the Senator to be in time to respond to what I think we will be hearing in the next 22 minutes. I want to make sure the Senator has adequate time.

Let me take a minute and say that I don't like the amendment but I don't know any other choice. I wish there were other choices out there.

We got involved in this. I am sure I can visualize what was happening when they made the decision to invade a sovereign nation, sitting around a table saying, we will send bombs out there for a couple of days and that will take care of him and everything will be fine.

That was not the plan. We heard the plan criticized by the very best people. We heard the Senator from New Hampshire has in no way stated accurately what this amendment does. It is his intention, and he said so quite clearly, that this amendment leads to the withdrawal of our effort, the termination, the ending of our effort in Serbia. He will accomplish what he set out to accomplish because he is under severe attack in Kosovo and in Serbia. He will accomplish what he set out to accomplish because he is under severe attack in Kosovo and in Serbia. He will accomplish what he set out to accomplish because he is under severe attack in Kosovo and in Serbia. He will accomplish what he set out to accomplish because he is under severe attack in Kosovo and in Serbia.

The Senate voted just a few months ago, 58-to-41, to support that air campaign. What this amendment says is we want to terminate the air campaign. This would have the Senate blow hot and blow cold on the same issue, whether or not we want to support an air campaign which is presently going on.

At the same time, it tells Milosevic all you have to do is hang in there until October 1 and you will not even face an air campaign. You will not face any kind of campaign. You will have succeeded in Kosovo.

Milosevic has not accomplished what he set out to accomplish because he is under severe attack in Kosovo and in Serbia. He will accomplish what he set out to accomplish if this amendment passes. That will be the victory. That will seal the success for Milosevic if this amendment passes. That will be the victory. That will seal the success for Milosevic if this amendment passes. That will be the victory. That will seal the success for Milosevic if this amendment passes. That will be the victory.

The PRESIDING OFFICER. Who yields the floor? The Senator from Michigan.

Mr. LEVIN. Mr. President, I yield myself 5 minutes.

Mr. President, this amendment contains a funding cutoff that is far broader than the one that was contained in the Specter amendment that the Senate tabled yesterday. This would cut off funding effective October 1 for U.S. air or ground operations, including peacekeeping operations. So the Senator from New Hampshire has in no way stated accurately what this amendment does. It is his intention, and he said so quite clearly, that this amendment leads to the withdrawal of our effort, the termination, the ending of our effort in Serbia, including the air campaign.

Mr. BIDEN. Mr. President, I think we owe a debt of gratitude to our colleague from New Hampshire. They are among only a few who will bluntly state why they want out. They are straightforward. The Senator from Oklahoma says this is a way out of Kosovo, just like we should find a way to be totally impossible. The broader mission is to return over 1 million refugees who have been burned out, who have been bombed out, who have been destroyed—500 villages. Those refugees, then, will have no hope of returning. Whereas now they have, indeed, a very real hope of returning because Milosevic is gradually being weakened and his forces are under tremendous stress. There is great evidence of that all over.

The KLA, the Kosovo Liberation Army, is beginning to move back in to their villages and into their homes. Nothing will scare Milosevic much more than having to face the KLA again, which will be the result of his failure to negotiate a settlement which provides for the return of these refugees in safety with protection.

We cannot allow Milosevic to succeed, which is what this amendment hands to him. We cannot allow Milosevic to shape the future of Europe. That is what his success would do. His ethnic cleansing, if not reversed, will shape Europe for the next century.

This century began with a genocide against the Armenians. It is ending with an ethnic cleansing of the Kosovars. And in between was a Holocaust. If we do not want the next century to be a repeat of this century, Milosevic cannot succeed. Europe's future is on the line and that means our own security is on the line. NATO's future is on the line. The adoption of this amendment will tell NATO they have failed. The adoption of this amendment will be the statement to Milosevic: You have succeeded. We are pulling out.

That is what the intention of this amendment is, according to its sponsor. This amendment will tell our allies in NATO: Forget NATO. Forget NATO cohesion. Forget NATO unity. War is pulling out.

And this amendment will send the worst possible message to the most important of all the people, the men and women who wear our uniform who are out there in harm's way now, who would then be told by this amendment we are pulling out.

This Senate must send a very different message than that. I hope this amendment is tabled by an overwhelming vote.

I will be happy to yield 5 minutes to the Senator from Delaware.

The PRESIDING OFFICER. The Senator from Delaware is recognized for 5 minutes.

Mr. BIDEN. Mr. President, I think we owe a debt of gratitude to our colleague from Oklahoma and our colleague from New Hampshire. They are among only a few who will bluntly state why they want out. They are straightforward. The Senator from Oklahoma says this is a way out of Kosovo, just like we should find a way to...
out of Bosnia. They say we have no interest in Yugoslavia. We have no ability to do anything about it. And we have no right.

I find this absolutely fascinating. We talk about a sovereign nation being invaded by a horde of 19 democracies who are doing such an injustice to them.

Then I hear that one of the reasons we should not be involved is because Yugoslavia is a sovereign country. I cannot remember what their explanation was as to why we should not be involved in Bosnia, where Slobodan Milosevic was crossing the Drina River with these very forces that are cutting off the noses, ears and then cutting the throats of captured men in Kosovo, who are taking their women to the third floor of army barracks for the pleasure of the troops and picking what they want to be the most attractive of the women who happen to be Moslems. These are the same fellows that crossed the Drina River and invaded another country. I heard the same arguments from you all about how we should not be involved there. So do not let anybody fool you, this is not about sovereignty.

The second point I would make is that we have reached the conclusion, straightforwardly, that Slobodan Milosevic’s business is his business. What do we have to do with that? Let them work it out.

I never thought I would live to see the day when a European leader was herding masses of women and children onto boxcars and trains in the sight of all the world, shipping them off to another border, destroying, as they crossed the border, their licenses, taking their birth certificates, going into the town halls and destroying the property records of those very people. And it is so convenient to say that is not our business.

Then I hear another argument. You know, we have commitments around the world. We will not be able to fight a two-front war. But what is the threat to America beyond the nuclear one? And that will not be deterred by American ground forces. I hear my friend from New Hampshire say: Let the Europeans take care of this. Have we not from New Hampshire say: Let the European ground forces. I hear my friend from New Hampshire say: Let the European ground forces.

And that will not be deterred by American ground forces. I hear my friend from New Hampshire say: Let the European ground forces. I hear my friend from New Hampshire say: Let the European ground forces. I hear my friend from New Hampshire say: Let the European ground forces.

Mr. DORGAN. Mr. President, I have not been a cheerleader for our participation in this conflict. I supported it, but I am nervous about it. But I must say, this is wrong. At 7 o’clock this morning, with no notice, we have an amendment that suggests we shall terminate our participation in the NATO campaign to stop the ethnic cleansing and the massacre in Kosovo. At 7 o’clock tonight, with no notice, we are going to have this debate probably for an hour.

I just heard one of the sponsors of this amendment talk about what Mr. Milosevic has achieved. He is right about that, Mr. Milosevic has achieved the following: massacre, we don’t know how many; troops burning villages; raping people; killing innocent men, women and children; hauling people like cattle in train cars or herding them in groups to the border; displacing 1 million to 1.5 million people from their homeland.

Yes, he has achieved that. What hasn’t he achieved? What he has not achieved is about to achieve if the Senate adopts this amendment. He wants to achieve an end to the airstrikes that cause him great inconvenience and a great threat to his movement in this massacre and in this ethnic cleansing. Does the Senate want to allow him to achieve that goal? I do not think so.

Five or 10 years from now we will look in our rear-view mirror and see that on our watch ethnic cleansing and massacre occurred and we said: Gee, that didn’t matter; it wasn’t our business.

We have already decided that is not the position we will take. It is our business. It does matter. Do you want to know what ethnic cleansing is? Do you want to know what are the horrors of this kind of action visited upon these men, women and children? Go to the museum not many blocks from here and see the train cars where they hauled people in Europe before, see the shoes of the people who died in the gas ovens, and then ask yourself: Does this kind of behavior matter? It does matter, and this country, with our allies, is trying to do something about it.

Imperfect? Is this operation in Kosovo with us and our NATO allies imperfect? Yes, it is imperfect, but are we trying? Is this country, with our allies, saying this does matter? Yes. That is exactly what we are doing.

Do we really want to say to Mr. Milosevic tonight: You can achieve the rest of your goals through the help of the Senate. You can do all this—rape, burn, massacre, move people out of their homeland, clean out a country, engage in ethnic cleansing—and when this country and others stand up to say we will not allow that on our watch and our watch, you can achieve your objective and remove that nuisance called a war. The Senate will help you do that? I do not think so. I certainly hope not, not this Senate.

My hope is that history will record this effort as a noble effort that said, when this kind of behavior starts, we will do what we can with our allies to stop it. I do not know how this ends, but I know it should not end tonight on a Wednesday night vote by the Senate to say to Mr. Milosevic: This country will no longer continue to be a problem for you.

The rape, the burning, the massacres, the ethnic cleansing will not stop, but the airstrikes should? I do not think that is a decision this Senate will make. It is not a decision the Senate should make, and I hope in a short time, with an amendment that should not be offered in this kind of circumstance, the Senate will say: No, this effort by this country at this point in time is important. This is not about us alone. It is about this country with NATO, with our allies attempting to stop this man, Slobodan Milosevic, from the kind of behavior we would not accept from anyone in the world. I hope when this vote is cast, we will not achieve the objective Mr. Milosevic wants most, and that is a cessation of the bombing and the airstrikes. That is the price this man is paying for his behavior, and he must pay that price until he stops.

Mr. President, I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. LEVIN. Mr. President, I ask unanimous consent, on behalf of Senator Bingaman, that Dr. Michael Cieslak, a fellow, be granted the privilege of the floor during the pendency of this bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. Mr. President, how much time do the opponents have?

The PRESIDING OFFICER. The opponents have 5 minutes 39 seconds; the opponents have 7 minutes 11 seconds.
Mr. LEVIN. I yield 3 minutes to the Senator from Minnesota.

The PRESIDING OFFICER. The Senator from Minnesota is recognized for 3 minutes.

Mr. WELLSTONE. I thank the Chair.

Mr. President, my framework is a little different. Murder is never legitimate, and we have tried to do the right thing to stop the slaughter of people, albeit we have not been anywhere close to 100 percent successful. I have deep concerns about the conduct of this war and where it is heading.

On May 3, I called for a temporary pause in the bombing for a focus on diplomacy. I wished we had done that. I wished we had not seen the bombing of the Chinese Embassy. I think we had momentum for a diplomatic solution consistent with our objectives: That the Kosovars go back home, that there be a force there to give them protection, that they be able to rebuild their lives.

I say to colleagues tonight that I do have serious reservations about part of the direction we are heading. The airstrikes have gone beyond degrading the military, which was to be our objective, and I really worry that we begin to undercut our own moral claim when we begin to affect innocent people with our airstrikes, when we begin to kill innocent people, albeit that is not the intention.

I focus on diplomacy. I still believe we need to have a pause in the bombing. We have to have a diplomatic solution. That is the only option that I see available to bring this conflict to an end and to enable the Kosovars to go back home, which is our objective.

Once again, I worry about these airstrikes when we go after power grids and water facilities and the effect on innocent civilians. That goes beyond just degrading the military. I sharply call that into question.

I say to my colleague from New Hampshire, I believe this amendment is profoundly mistaken. It takes Milosevic completely off the hook. This amendment takes us in the opposite direction of where we need to go toward a diplomatic solution to end this conflict.

This is the wrong amendment. This is the wrong statement. This is at the wrong time. Therefore, I rise to speak against it. But I will continue to speak out and raise questions. I will continue to talk about the need to move away from the bombing and to focus more seriously, and in a more concentrated and focused way, on a diplomatic solution and an end to this conflict on honorable terms.

I hope my colleagues tonight, however, will vote against this amendment. I hope it will be a strong vote against this amendment.

I yield the floor.

Mr. BYRD. Mr. President, I have listened carefully to the debate on this amendment, and I appreciate the wrenching emotion that has motivated those on both sides of the issue.

The NATO operation in Kosovo is a difficult issue for many of us to come to terms with. Our hearts ache for the suffering of the Kosovar Albanians who have been banished from their homeland, followed by Yugoslavia President Slobodan Milosevic. At the same time, we fear for the safety of U.S. and NATO military forces who are engaged in a perilous mission in a corner of the world that has been torn by ethnic conflict for centuries.

We cannot foresee the outcome of this operation. We have a duty to watch it carefully, to debate it fully on the floor of this Senate. But in our concern to do what is right, we should not act in such haste that we run the risk of making a fatal mistake.

There may come a day when I will stand on the floor of the U.S. Senate with the Senator from New Hampshire and call for a cutoff of U.S. operations in Kosovo. But that day is not today. That time is not now. A decision of that magnitude must not be taken on the run, after a hastily called 60-minute debate among a handful of Senators.

Mr. President, this amendment sends the wrong message at the wrong time. By all means, let us debate the U.S. involvement in Kosovo. But let us do it with deliberation and forethought. I urge the Senate to table this amendment.

The PRESIDING OFFICER. Who yields time?

Mr. WARNER addressed the Chair.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. As I said when we began the debate, I respect the views of my long-time friend. He comes from a distinguished family. He served, himself, in the uniform of the United States. We have a very diverse group in the Senate with regard to their views on this conflict.

There is not a one of us who was not deeply concerned before we became involved in this conflict. We are in it now. I salute here tonight the professionalism that has been shown by the men and women of the Armed Forces of the United States, in particular, and joined by their counterparts from some eight other nations in the air, and the other NATO nations in one way or another that have participated in this conflict.

We are in it because our generation cannot tolerate what we have seen Milosevic do to human beings. To do so would be to reject, indeed, what other men and women have done in previous generations to bring about freedom for others: World War II, followed by Korea, followed by Vietnam. We are there to protect freedom. We are there to protect the rights of human beings to have some basic quality of life and ability to exist.

I remember the peak of this event. When we got started, it was just before Easter. I went back to my constituents... Why should we be there? I said: Could you be at home on Easter Sunday, sharing with millions and millions of Americans the experience of your respected place of religion, sharing with your family a bountiful meal, and watch the pictures of the deprivation, the murder, the rape, the mayhem inflicted by Milosevic and his lieutenants on fellow human beings?

Yes, they are Kosovars; yes, they are far away; yes, they speak a different language. I was there in September. I traveled in Kosovo, in Pristina, in Macedonia. At that time, I saw these people being driven from their homes. Not distant from where we were driving—

The PRESIDING OFFICER. Who yields time?

Mr. SMITH addressed the Chair.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. SMITH of New Hampshire addressed the Chair.

Mr. President. My framework is a lit-
last minute and that we do not have time to deliberate. I will tell you how much time you have to deliberate. You have had the last minute of this month, you have June, July, August, and September. You have 4 months to think about whether or not you want this war to continue and whether or not you want to authorize more funding. It does not send any message to Milosevic other than the fact that Congress intends to exercise its constitutional authority.

That is all.

I could probably give emotional speeches about a number of human tragedies around the world. My colleague from Delaware got very emotional; and that is a good quality when you believe in something. But this decision should not be based on emotions. This is a decision about how we should go about it. It is about looking at the decision on how we use our power on the basis of American interests. No American life should be risked based on any Senator's emotions, for goodness' sake.

In 1995, 500,000 Rwandans were slaughtered in six weeks—most of them hacked to death by machetes—in tribal warfare in the nation of Rwanda. Maybe I am mistaken—and if I am, I will apologize to any Senator who says he came down here and said that we should enter the war in Rwanda, enter that civil war, fire cruise missiles, bomb the blazes out of all the cities, bring those tribes back to their knees to stop the hacking—but I did not hear it. That was a humanitarian crisis of the highest magnitude, and we did not enter it. And we should not have entered it.

Those 500,000 people are just as precious under the eyes of God as anybody else in the world, and we said nothing. We did not use missiles, we did not drop smart bombs, and we did not talk about ground forces, we did not talk about NATO forces, or any other forces of the world going in and setting up a partition to keep two warring tribes apart. What we did was to say, because as in Kosovo, the conflict posed no threat to the United States. No American lives were worth risking.

This is not about tying the President's hands as he tries to defend America. It is about abdicating and rehearsing an incompetently administered issue as it muddles around in a place where U.S. interests are, at best, peripheral.

There are terrible humanitarian situations that Mr. Milosevic has created. I will be the first to admit it. The question is, as I said at the outset of this debate, How do we resolve it? Do we resolve it with more bombs? By bombing and causing collateral damage to innocent people? Or do we do it through diplomacy?

I am not trying to send a message one way or the other to Milosevic with this amendment. I am trying to send a message to the American people and to the Senate to say, if we are going to put Americans at war in a sovereign nation, at least the Senate can do is have the intestinal fortitude to say yes or no, rather than to let this thing string on like Vietnam did and then, after 58,000 people are dead, we say, oh, my goodness, if we had just stopped this war a little bit earlier—or perhaps, as Senator Goldwater said, we had fought it to win a little bit sooner. Meanwhile, there are 58,000-plus people on the Vietnam Wall.

Now is the time to speak, not 5 years from now. All I am asking in this amendment is that we have from now until October 1 to decide whether or not we want to fund this war any further. That is the message I am sending. I am sending that to my colleagues who represent the people of the United States of America.

I yield the floor.

Mr. WARNER. Mr. President, I ask unanimous consent to speak for 2 minutes to address the Senate with regard to tomorrow's schedule prior to the vote so Senators coming to vote can depart and know what will take place tomorrow.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. The order was to be handed to me. We were not able to resolve the Allard amendment, so that will be the recurring order of business tomorrow morning. Of course, the Lott amendment is still in place; am I not correct, Mr. President?

The PRESIDING OFFICER. The Senator is correct.

Mr. WARNER. So we will endeavor tomorrow morning, without specifying exactly how and when we will do it, to bring up the Allard amendment. Senator Allard has 20 minutes, and we will divide, say, another 20 minutes between the distinguished ranking member and myself, should we need it. That would be a total of 40 minutes on the debate. I think maybe I will say 15 minutes between the two of us and 15 minutes to Senator ALLARD, 20 minutes for Senator HARKIN. I think that should do it.

We will just have to establish the time that we will vote on the Allard amendment tomorrow morning.

This will be the last vote for tonight, and Senators can expect early on in the morning that we will address the Allard amendment.

Mr. President, I move to table the amendment and ask for the yeas and nays.

The PRESIDING OFFICER. There is a sufficient second?

There is a sufficient second. The yeas and nays were ordered. The PRESIDING OFFICER. The question is on agreeing to the motion to table amendment No. 406. The yeas and nays are ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. NICKLES, I announce that the Senator from Missouri (Mr. BOND) is necessarily absent.

Mr. REID. I announce that the Senator from New York (Mr. MOYNIHAN) would vote "aye."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 77, nays 21, as follows:

(Roll Call Vote No. 151 Leg.)

The motion was agreed to.

Mr. WARNER. Mr. President, I move to reconsider the vote.

Mr. LEVIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. WARNER. Mr. President, I ask unanimous consent that at 9:30 a.m. on Thursday, the Senate resume the DOD authorization bill, and that the Allard amendment No. 396 be the pending business, and that there be 30 minutes remaining on the amendment with 20 minutes under the control of Senator HARKIN and 10 minutes equally divided between Senator Allard and myself, with a vote occurring at 10 a.m. on or in connection to the amendment with no amendments in order prior to the vote.

Mr. REID. No objection. The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Mr. President, in light of that agreement, there will be no further votes this evening. The next vote will be at 10 a.m. on Thursday relative to the Allard amendment.
Mr. President, at this time there will be no further action on the DOD bill.

FEDERAL PRISON INDUSTRIES

Mr. THURMOND. Mr. Chairman, I am in strong support of the amendment to strike Section 806 of S. 1059, the Defense Authorization Act.

Many of us, including Senator Gramm, Senator Hatch, and Senator Byrd, discussed the importance of Federal Prison Industries on the floor yesterday when this amendment was first considered. I would like to speak for a moment on a few issues that have been raised in this debate.

Some have argued that the taxpayers would save money if Federal agencies were not required to use FPI because FPI prices are not competitive. However, studies from the General Accounting Office and the Department of Defense Inspector General show that FPI prices are generally lower than the private sector for similar products purchased in the last 12 months. FPI generally rated in the good to excellent or average ranges in all categories. On the whole, respondents to the survey generally show positive, productive relationship. It is clear that drastic changes are not warranted in the relations between DoD and FPI.

Indeed, the Administration strongly opposes Section 806. The Statement of Administration Policy on S. 1059 explains that this provision ‘would essentially eliminate the Federal Prison Industries mandatory source with the Defense Department. Such action could harm the FPI program which is fundamental to the security in Federal prisons.’

FPI is a correctional program that is essential to the safe and efficient operation of our increasingly overcrowded Federal prisons. While we are putting more and more criminals in prison, we must maintain the program that keeps them occupied and working.

DEFENSE PRODUCTION ACT

Mr. GRAMM. Mr. President, I commented to the bill, the distinguished chairman of the Armed Services Committee, Senator Warner, for including in this legislation a one-year extension of the Defense Production Act. As the Senator knows, the Defense Production Act falls under the jurisdiction of the Committee on Banking, Housing, and Urban Affairs.

The Defense Production Act is due to expire on September 30, 1999. The Banking Committee has a great interest in the Defense Production Act and we intend to conduct a thorough review of the authorization. However, due to the press of other business, specifically the time-consuming task of passing the first modernization of our financial services laws in sixty years, the Banking Committee is unable to conduct such a thorough review at this time.

Therefore, I requested that Senator Warner include a provision in the Department of Defense authorization bill to extend the Defense Production Act until September 30, 2000. This extension will allow the Banking Committee the time to give the reauthorization of the Defense Production Act the attention it deserves. Senator Warner was kind enough to include this provision at my request.

Mr. WARNER. The Committee's urging of the Secretary of the Air Force to designate a follow-on aircraft for those Air Force Reserve units affected by the retirement of the C-141s was meant to neglect the similar urgency in the Tennessee Air Guard. Moreover, I would like to take this opportunity to reiterate the importance of strategic airlift to our ability to project force globally. The Guard and Reserve are a critical part of the total force equation. Let me assure the Senator from Tennessee that I strongly support his efforts to have a follow-on mission designated for the 164th Airlift Wing in Memphis.

Mr. WARNER. Mr. President, I thank the chairman of the Armed Services Committee for his courtesy and assistance on this issue. I ask unanimous consent to include the recommendation of Senator Warner on this issue be printed in the RECORD.

There being no objection, the letter order was entered to be printed in the RECORD, as follows:

---

164TH AIRLIFT WING

Mr. GRAMM. Mr. President, I thank the chairman of the Armed Services Committee, Senator Warner, for coming to the Senate floor today to discuss the follow-on aircraft designation for the 164th Airlift Wing of the Tennessee National Guard.

Mr. WARNER. As the Senator from Tennessee is aware the C-141 aircraft has served this nation well but the useful life is coming to an end. In the report to accompany the Defense Authorization Act, the Committee urges the Secretary of the Air Force to designate a follow-on aircraft for those Air Force Reserve units affected by the retirement of the C-141s. The Committee urges the Secretary to designate a follow-on aircraft to accompany the Defense Authorization Act. As you know, pursuant to the Standing Rules of the Senate, the Committee on Banking, Housing and Urban Affairs has jurisdiction over the Defense Production Act. This Act is due to expire on September 30, 2000.

Thank you for your assistance in extending the Defense Production Act for another year.

Yours respectfully,

Phil Gramm,
Chairman.

---
Kosovo it is clear to me that we must support strategic airlift. Airlift remains one of the largest challenges for forces facing the type of threats the Air Force must act to resolve this issue with expediency and consider designating the C-5 or the C-17 airframe for the future of the Tennessee Air Guard.

Mr. WARNER. Again, let me assure the Senator from Tennessee that I am confident working with the Armed Services Committee and the Air Force that this issue will be resolved soon.

MEDAL OF HONOR TO ALFRED RASCON 1999

Mr. THURMOND. Mr. President, I am pleased to be an original cosponsor of the amendment which recommends the Congressional Medal of Honor be awarded to Mr. Alfred P. Rascon. I would like to take just a moment and introduce you to Mr. Rascon.

Alfred Rascon was born in Chihuahua, Mexico, and emigrated to the United States with his parents in the 1950's. He served two tours in Vietnam, one as a medic. When Rascon volunteered for the service, he was not yet a citizen but was a lawful permanent resident, and he was only 17 years of age but convinced his mother to sign his papers so he could enlist.

On March 16, 1966, then Specialist Alfred Rascon, while serving in Vietnam, performed a series of heroic acts that words simply cannot describe. For Rascon and the seven soldiers he aided while under direct gunfire, that day will long be remembered. Rascon's platoon found itself in a desperate situation under heavy fire by a powerful North Vietnamese force. When an American machine gunner went down and a medic was called for, Rascon, 20 at the time, ignored his orders to remain under cover and rushed to the trail amid an onslaught of enemy gunfire and grenades. To better protect the wounded soldier, Rascon placed his body between the enemy machine gun fire and this soldier. Rascon jolted as the bullet hit the hip. Although wounded, he managed to drag this soldier off the trail. Rascon soon discovered the man he was dragging was dead.

Specialist 4th Class Larry Gibson crawled forward looking for ammunition. The other machine gunner lay dead, and Gibson had no ammunition with which to defend the platoon. Rascon grabbed the dead soldier's ammunition and gave it to Gibson. Then, amid relentless enemy fire and grenades, Rascon hobbled back up the trail and snared the dead soldier's machine gun and, most important, 490 rounds of additional ammunition. Eye-witnesses state that this act alone saved the entire platoon from annihilation.

The pace quickened and grenades continued to fall. One ripped open Rascon's face, but this did not stop him. He saw another grenade drop five feet from a wounded Neil Haffy. He tackled Haffy and absorbed the grenade blast himself, saving Haffy's life.

Though severely wounded, Rascon crawled forward looking for ammunition. Eye-witnesses state that this act alone saved the entire platoon from annihilation. Rascon retrieved additional rounds of ammunition and provided aid. A few minutes later, Rascon witnessed Sergeant Ray Compton being hit by gunfire. As Rascon moved toward him, another grenade dropped. Instead of seeking cover, Rascon dove on top of the wounded sergeant and again absorbed the blow. This time the explosion smashed through Rascon's helmet and ripped into his scalp. Compton's life was spared.

When the firefight ended, Rascon refused aid for himself until the other wounded were evacuated. So bloodied by the conflict was Rascon that when soldiers placed him on the evacuation helicopter, a chaplain saw his condition and gave him last rites. But Alfred Rascon survived. He was so severely wounded that it was necessary to medically discharge him from the Army.

The soldiers who witnessed Rascon's deeds that day recommended him in writing for the Medal of Honor. Years later, these soldiers were shocked to discover that he had not received it. It appears their recommendations did not go up the chain of command beyond the platoon leader who did not personally witness the events. Rascon was instead awarded the Silver Star. Rascon's Silver Star citation details only a portion of his heroic actions on March 16, 1966.

Perhaps the best description of Alfred Rascon's actions came 30 years later from fellow platoon member Larry Gibson:

I was a 19-year-old gunner with a recon section. We were under intense and accurate enemy fire that had pinned down the point squad, making it impossible to move without being killed. Unhesitatingly, Doc (as Rascon was called) went forward to aid the wounded and dying. I was one of the wounded. Doc performed a series of heroic actions, shielding the wounded with his body. In these few words, I cannot fully describe the events of that day. The acts of unselfish heroism Doc performed while saving the many wounded, though severely wounded himself, speak for themselves. This country needs genuine heroes. Doc Rascon is one of those.

Rascon was once asked why he acted with such courage on the battle field even though he was an immigrant and not yet a citizen. Rascon replied, "I was always an American in my heart." Mr. President, these actions speak for themselves. I first met Mr. Rascon in 1995. It was my honor to serve as the Inspector General of the Selective Service System, where he continues to serve his nation today. In the course of our conversation I learned of his amazing story, and as the Chairman of the Senate Armed Services Committee at that time, I realized I had to act.

I contacted a number of officials at the Department of Defense and learned that his case could not even be exam-
EMERGENCY STEEL LOAN GUARANTEE PROGRAM

The Emergency Steel Loan Guarantee Program, as reported by the committee, provides a two-year, GATT-legal, five-hundred-million-dollar guaranteed loan program. The loan program would be required within ten years. The committee notes that the United Steelworkers (USW) is 36 percent dependent when the oil embargo of the 1970s hit. U.S. foreign oil consumption is estimated at 56 percent and could reach 68 percent by 2010 if $10 to $12 per barrel prices prevail. It has been predicted that half of marginal wells located in 34 states could be shut-in. Marginal wells produce less than 15 barrels of oil and day and are the most vulnerable to closure when oil prices drop. Yet, these wells, in aggregate, produce as much oil as we import from Saudi Arabia.

The committee is not current government loan program that will help the oil and gas producers and the oil and gas service industry. The industry tried to use our trade laws but without success. In 1994, when U.S. dependence upon foreign oil was 51 percent, a Department of Commerce section 232(b) Trade Expansion Act investigation report found that rising imports of foreign oil threaten to impair U.S. national security because they increase U.S. vulnerability to oil supply interruptions. President Clinton concurred with the findings. Unfortunately, little action to address the problem has been implemented.

Without an emergency loan program to get them through the current credit crunch there will be more bankruptcies, more lost jobs, and greater dependence on foreign oil.

OFFSET

The committee’s recommendation includes a rescission of $270 million from the administration and travel accounts of the object class entitled “Contractual Services and Supplies” in the non-defense category of the budget. This category includes such things as $7 billion for travel and transportation; $4 billion for advisory and assistance services; $44 billion for a category called “other services”; and almost $30 billion for supplies and materials. The rescission shall be taken on a pro-rata basis from funds available to every Federal agency, department, and office in the Executive Branch, in the judgment of the Office of Management and Budget.

COMPLIANCE WITH PARAGRAPH 7(C), RULE XXVI OF THE STANDING RULES OF THE SENATE

Pursuant to paragraph 7(c) of rule XXVI, the Committee ordered reported on bloc, an original fiscal year 2000 Department of Defense Appropriations bill, the fiscal year 2000 section 302(b) allocation, and H.R. 1664, by record vote of 24-3, a quorum being present.
CONGRESSIONAL RECORD—SENATE
10977

BUDGETARY IMPACT

Section 308(a)(1)(A) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344), as amended, requires that the report accompanying a bill providing new budget authority contain a statement detailing how that authority compares with the reports submitted under section 302 of the act for the most recently agreed to concurrent resolution on the budget for the fiscal year. All funds recommended in this bill are emergency funding requirements, offset herein.

FIVE-YEAR PROJECTION OF OUTLAYS

In compliance with section 308(a)(1)(C) of the Congressional Budget Act of 1974 (Public Law 93–344), as amended, the following table contains 5-year projections associated with the budget authority provided in the accompanying bill:

FISCAL YEAR 1999 SUPPLEMENTAL APPROPRIATIONS AND RESCissions (in millions of dollars)

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Five year projections: Outlays:
- Fiscal year 1999: $270
- Fiscal year 2000: $180
- Fiscal year 2001: $162
- Fiscal year 2002: $142
- Fiscal year 2003: $128

Financial Assistance to State and Local Governments

This bill provides that the Secretary of Defense will administer the program under rules similar to the WIC program administered by the Secretary of Agriculture within the United States. WIC is celebrating its 25th anniversary this year. In fact, just a few weeks ago, I joined Senators Lugar and Torricelli, the National Association of WIC Directors’ Executive Director Doug Greenaway, as well as others, in celebrating this accomplishment.

For 25 years, this program has provided nutritious foods to low-income pregnant, post-partum and breast-feeding women, infants, and children who are judged to be at nutritional risk.

It has proven itself to be a great investment—for every dollar invested in the WIC program, an estimated $3 is saved in future medical expenses. WIC has helped to prevent low birth weight babies and associated risks such as developmental disabilities, birth defects, and other complications. Participation in the WIC program has also been linked to reductions in infant mortality.

This program has worked extremely well in Vermont, and throughout the nation.

However, despite the successes of this program, there continues to be an otherwise eligible population who cannot receive these benefits—women and children in military families stationed outside of the United States.

These are families who are serving our country, living miles from their homes on a military base in a foreign land, and whose nutritional health is at risk. If they were stationed within the United States, they would be supplemented by the WIC program, and they would receive vouchers or packages of healthy foods, such as fortified cereals and juices, high protein products, and other foods especially rich in needed minerals and vitamins. If they receive orders stationing them at a U.S. base located in another country, they lose this needed support.

I know that I am not alone in my desire to establish WIC benefits for our women and children of military families stationed overseas. I look forward to working with all members of Congress in making a program that benefits nutritionally at risk women, infants and children serving America from abroad. I know there are other approaches being considered and I want to work out a good solution.

I have been informed of situations where this nutrition assistance is desperately needed by military and civilian personnel stationed overseas and I appreciate all who have helped. This bill introduction does not mean that I am no longer seeking input. On the contrary, as I have always handled nutrition legislation, I want to work with all Members on this important legislation, which I hope can be unanimously passed.

Basiclly, the Strengthening Families in the Military Service Act mandates that the Secretary of Defense offer a program similar to the WIC program—the Supplemental Nutrition Program for Women, Infants and Children—military and associated civilian personnel stationed overseas. If it makes sense to allow those stationed in the United States to participate in WIC, it makes sense to allow those stationed overseas to have the important nutritional benefits of that program. Why should families lose their benefits when they are moved overseas?

This bill provides that the Secretary of Defense will administer the program under rules similar to the WIC program administered by the Secretary of Agriculture within the United States.

I ask unanimous consent that a copy of my bill be printed in the RECORD.

I am advised that counting the value of in kind housing assistance in calculating eligibility which increases the number of women, infants and children that can participate and makes the program more similar to the program in the United States. The CBO has estimated that the average monthly food cost would be about $28 for each participant based on a Department of Defense estimate of the cost of an average WIC food package in military commissaries. Administration costs which include health and nutrition assessments are likely to be about $7 per month per participant, according to CBO.

I am advised that counting the value of in kind housing assistance as though it were cash assistance would reduce the cost of this program to $2 million per year and that 5,100 women and children would participate in an average month under such an approach. This will be an issue which I look forward to discussing with my colleagues.

I ask unanimous consent that a copy of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

8.—
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Strengthening Families in the Military Service Act of 1999”.

THE VERY BAD DEBT BOXSCORE

Mr. HELMS. Mr. President, at the close of business yesterday, Tuesday, May 25, 1999, the Federal debt stood at $5,600,993,485,850.44 (Five trillion, six hundred billion, nine hundred ninety-three million, four hundred eighty-five thousand, eight hundred dollars). In compliance with section 308(a)(1)(C) of the Congressional Budget Act of 1974 (Public Law 93–344), as amended, the following table contains 5-year projections associated with the budget authority provided in the accompanying bill:

Financial Assistance to State and Local Governments

This bill also disregards the value of in kind housing assistance in calculating eligibility which increases the number of women, infants and children that can participate and makes the program more similar to the program in the United States.

WIC FOR MILITARY FAMILIES

Mr. LEAHY. Mr. President, I have been circulating drafts of bills designed to provide WIC benefits to military personnel and to certain civilian personnel, stationed overseas, for a few weeks. I know that Senator HARKIN and other Senators on both sides of the aisle have also been working on this matter as have members of the other body.

I have received valuable input regarding my drafts from Members, national organizations and even personnel stationed overseas and I appreciate all who have helped. This bill introduction does not mean that I am no longer seeking input. On the contrary, as I have always handled nutrition legislation, I want to work with all Members on this important legislation, which I hope can be unanimously passed.

Basiclly, the Strengthening Families in the Military Service Act mandates that the Secretary of Defense offer a program similar to the WIC program—the Supplemental Nutrition Program for Women, Infants and Children—military and associated civilian personnel stationed overseas. If it makes sense to allow those stationed in the United States to participate in WIC, it makes sense to allow those stationed overseas to have the important nutritional benefits of that program. Why should families lose their benefits when they are moved overseas?

This bill provides that the Secretary of Defense will administer the program under rules similar to the WIC program administered by the Secretary of Agriculture within the United States.

Participation in the WIC program has also been linked to reductions in infant mortality.

This program has worked extremely well in Vermont, and throughout the nation.

However, despite the successes of this program, there continues to be an otherwise eligible population who cannot receive these benefits—women and children in military families stationed outside of the United States.

These are families who are serving our country, living miles from their homes on a military base in a foreign

May 26, 1999
The legislation that Senator Collins and I have crafted will target one of the most critical areas in helping to provide Americans with the safest food possible—the safety of imported food. The CDC has recognized that as trade and economic development increases, the globalization of food supplies is likely to have an increasing impact on foodborne illnesses.

Currently, one-half of all the seafood and one-third of all the fresh fruit consumed in the U.S. comes from overseas. In fact since the 1999 imports to the U.S. have doubled, but federal inspections by Food and Drug Administration have dropped by 50 percent.

Over the years there have been foodborne pathogen outbreaks involving raspberries from Guatemala, strawberries from Mexico, scallions, parsley with a history of import violations to Peru, coconut milk from Thailand, canned mushrooms from China and others. These outbreaks have serious consequences. The Mexican frozen strawberries I have just noted were distributed in the school lunch programs in several states. A home state of Tennessee, were attributed to causing an outbreak of Hepatitis A in March of 1997.

The Collins-Frist bill will do several vital things to safeguard against potentially dangerous imported food. The bill would allow the U.S. Customs Service, using a system established by FDA, to deny entry of imported food that has been associated with repeated and separate events of foodborne disease.

The bill would also allow the FDA to require food being imported by entities to be held in a secure storage facility pending FDA approval and Customs release.

To improve the surveillance of imported food, we authorize CDC to enter into cooperative agreements and provide technical assistance to the States to conduct additional surveillance and studies to address critical questions for the prevention and control of foodborne diseases associated with imported food, and authorize CDC to conduct applied research to develop new or improved diagnostic tests for emerging foodborne pathogens in human specimens, food, and relevant environmental samples.

These are just a few of the many provisions in this bill that will help improve the quality and safety of the imported food that we consume every day. I applaud the hard work of my colleague, Senator Collins, who as Chairman of the Senate Permanent Subcommittee on Investigations held 4 comprehensive hearings last year on the issue of food safety. As Chairman of the Senate Subcommittee on Public Health, I look forward to working with Senator Collins and the rest of my colleagues on the issue of food safety and our overall efforts in improving...
our Nation's public health infrastructure. We must continue to fight infectious diseases and ensure that this legislation is enacted to help protect our citizens and provide them with the healthiest food possible.

**AGRICULTURAL TRADE FREEDOM ACT**

Mr. LEAHY. Mr. President, I would like to take a moment to voice my support for S. 566, the Agricultural Trade Freedom Act, which was passed out of the Senate Committee on Agriculture, Nutrition and Forestry this morning on a 17–1 vote. I appreciate Senator LUGAR’s strong leadership on these trade and international issues.

More than any other industry in America, agriculture is extremely dependent on international trade. Almost one-third of our domestic agricultural production is sold outside of the United States. Clearly, a strong international market for agricultural commodities is therefore of utmost importance to our agricultural economy.

As those of us who hail from agricultural states know, the business of agriculture in America reaches far beyond farmers alone. There are many rural businesses, such as feed stores, machinery repair shops and veterinarians, who depend on a strong agricultural economy. And when we discuss international trade, there are many national businesses, such as agricultural exporters, which are greatly impacted by our trade policies.

Despite the importance of these international markets, agricultural commodities are occasionally eliminated from potential markets because of U.S. imposed unilateral economic sanctions against other countries. These economic sanctions are imposed for political, foreign policy reasons. Yet there is little to show that the inclusion of agricultural commodities in these sanctions actually have had the intended results. The question now emerging from this policy is who is actually hurt by the ban on exporting commercial agricultural commodities, and should it continue?

American farmers and exporters obviously face an immediate loss in trade when unilateral economic sanctions are imposed. Perhaps even more devastating, however, is the long-term loss of the market. Countries who need agricultural products do not wait for American sanctions to be lifted; they find alternative markets. This often leads to the permanent loss of a market for our agriculture industry, as new trading partnerships are established and maintained.

Our farmers, and the rural businesses and agricultural exporters associated with them, are consequently greatly hurt by this policy. The Agricultural Trade Freedom Act corrects this problem by exempting commercial agricultural products from U.S. unilateral economic sanctions. The exemption of commercial agricultural products is not absolute; the President can make the determination that these items are indeed a necessary part of the sanction for achieving the intended foreign policy goal. In this situation, the President would be required to report to Congress regarding the purposes of the sanctions and their likely economic impacts.

Recently, the administration lifted restrictions on the sale of food to Sudan, Iran and Libya—all countries whose governments we have serious disagreements with. It did so, and I am among those who supported that decision, because food, like medicines, should not be used as a tool of foreign policy. It is also self-defeating. While our farmers lost sales, foreign farmers made profits.

Unfortunately, the administration did not see fit to apply the same reasoning to Cuba. American farmers cannot sell food to Cuba, even though it is only 90 miles from our shores and there is a significant potential market there. This contradiction is beneath a great and powerful country, and Senator LUGAR’s legislation would permit such sales.

The administration should pay more attention to what is in our national interests, rather than to a tiny, vocal minority who are wedded to a policy that has hurt American farmers and the Cuban people.

The Agricultural Trade Freedom Act maintains the President’s need for flexibility in foreign policy while simultaneously recognizing the impact that sanctions may have on the agricultural sector. The administration is supported by dozens of organizations including the National Association of State Departments of Agriculture, the U.S. Dairy Export Council, the National Milk Producers Federation, and the National Farmers Union.

In closing, I would like to thank Senator LUGAR for his leadership on this issue. I was pleased to join with him, the ranking member, Senator HARKIN, the Democratic Leader, Senator DASCHLE, Senator CONRAD and others in this effort, and I look forward to working with them and all members of the Senate to see that this measure becomes law.

**THE GUN SHOW LOOPHOLE**

Mr. LAUTENBERG. Mr. President, I ask unanimous consent that a copy of a letter from the International Brotherhood of Police Officers, in support of my amendment to close the gun show loophole, be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

---

**INTERNATIONAL BROTHERHOOD OF POLICE OFFICERS**

ALEXANDRIA, VA, MAY 19, 1999.

Hon. FRANK LAUTENBERG,
U.S. Senate, Washington, DC.

Dear Senator Lautenberg: The International Brotherhood of Police Officers (IBPO) is an affiliate of the Service Employees International. The IBPO is the largest police union in the AFL-CIO.

On behalf of the entire membership of the IBPO, I am writing to express our support for your amendment that would close the gun show loophole. Every year, there are approximately 4,000 gun shows across the country where criminals can buy guns without a background check. This problem arises because while federally-licensed dealers sell most of the firearms at these shows, about 25 percent of the people selling firearms are not licensed and are not required to comply with the background check as mandated by the Brady Law.

The “Lautenberg amendment” will close the gun show loophole and help law enforcement take illegal firearms off the streets. An officer on the street understands that this legislation is needed to help shut down the deadly supply of firearms to violent criminals.

Sincerely,

KENNETH T. LYONS, National President.

---

**FINANCIAL SERVICES MODERNIZATION ACT OF 1999**

Mr. BRYAN. Mr. President, I want to voice my disagreement with a portion of Senate Report Number 106–44, which accompanied S. 900, the Financial Services Modernization Act of 1999. The Report describes an amendment that I offered that was adopted by an unanimous vote of the Senate Banking Committee during its consideration of S. 900. I want to explain what I intend that amendment to mean and how I intend its language to be interpreted.

At issue is the standard for determining whether State laws, regulations, orders and other interpretations regulating the sale, solicitation and cross-marketing of insurance products should be preempted by federal laws authorizing insurance sales by insured depositary institutions and their subsidiaries and affiliates. Since the inception of the national banking system, the insurance sales powers of national banks have been heavily restricted. In addition, since the inception of the insurance industry in this country, the States have been the virtually exclusive regulators of that business. Although S. 900 seeks to tear down the barriers that separate the banking, insurance and securities industries, at the same time it seeks to preserve functional regulation. This means that the extensive regulatory systems that have been developed to protect consumer interests in each area of financial services should be retained.

For that reason, one of the principles of the proposed legislation is to ensure that the activities of everyone who engages in the business of insurance should be functionally regulated by the
States. After all, the States are the sole repository of regulatory expertise in this area. During my review of the Committee Print before the mark-up and during my conversations with my Senate colleagues, it became evident that the Committee Print’s provisions regarding the preemption of State insurance laws and regulations did not adhere to the principle. The Committee Print disregarded the Supreme Court’s holding in Barnett Bank of Marion County, N.A. v. Nelson, 517 U.S. 25 (1996), regarding the standard for preempting State regulation of insurance sales activity. I therefore introduced an amendment that replaced the Committee Print’s insurance sales preemption provisions with substitute provisions based on the Supreme Court’s Barnett standard. My amendment deleted all of the provisions in the Committee Print regarding the permissible scope of state regulation of the insurance sales activities of insured depository institutions, their subsidiaries, and affiliates. My amendment substituted language that had been developed and analyzed during prior considerations of these issues in previous Congresses, in particular during Senate consideration of H.R. 10 last year.

The core preemption standard included in my amendment now appears as Section 104(d)(2)(A) of S. 900. It states:

In accordance with the legal standards for preemption set forth in the decision of the Supreme Court of the United States in Barnett Bank of Marion County N.A. v. Nelson, 116 U.S. 1203 (1996), no State may, by statute, regulation, order, interpretation, or other action, prevent or significantly interfere with the ability of an insured depository institution, or a subsidiary or affiliate thereof, to engage, directly or indirectly, either by itself or in conjunction with a subsidiary, affiliate, or any other party, in any insurance sales, solicitation, or cross-marketing activity.

The “prevent or significantly interfere” language was taken directly from the Supreme Court’s Barnett decision and is intended to codify that decision. No further amplification of the standard was included because my colleagues and I intended to leave the development of the interpretation of that standard to the courts.

There is a great deal of disagreement among both regulators and members of the affected industries as to the manner in which the standard should be amplified. Indeed, State insurance regulators and significant portions of the insurance industry did not support the usage of the “significant interference” test at all but instead sought a clarification, supported by the Barnett opinion, that only State laws and regulations that “prohibit or constructively prohibit” insured depository institutions, or an affiliate or subsidiary of an insured depository institution, from engaging in insurance sales activities should be preempted.

Mr. SARBANES. I wish to associate myself with the statements of my colleague, Senator Bryan, the author of the amendment adopted by the Banking Committee. My understanding in voting for his amendment was that it codified the Barnett Bank standard for preemption of State laws. The Committee Report accompanying S. 900 sought to modify, or adopt a globle, the Barnett Bank standard. I would like to ask the Senator from Nevada whether the gloss put on the “prevent or significantly interfere” standard in the Committee Report is in keeping with his amendment.

Mr. BRYAN. My colleague from Maryland asks a perceptive question. The Committee Report attempts to clarify the core preemption standard in a way that is contrary to the meaning of the provision. In page 13 of the Report states that State laws are preempted not only if they “prevent or significantly interfere with a national bank’s exercise of its powers” but also if they “unlawfully encroach on the rights and privileges of national banks” if they “destroy or hamper national banks’ functions”; if they they “interfere with or impair national banks’ efficiency in performing authorized functions.” The clauses after the initial rephrases of the holdings of the cases cited in Barnett.

As I noted earlier, I intentionally omitted any amplification of the Barnett standard. In addition, the last clause of the standard are paraphrases of the holdings of the cases cited in Barnett.

Messages from the President

Messages from the President of the United States were communicated to the Senate by Mr. Williams, one of his secretaries.
EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer tabled the following messages from the President of the United States submitting a withdrawal and sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MEASURE PLACED ON THE CALENDAR

The following joint resolution was read the second time and placed on the calendar:

S.J. Res. 26. Joint resolution expressing the sense of Congress with respect to the congressional citation of the late Rear Admiral Charles Burnet McVay, III, and calling upon the President to award a Presidential Unit Citation to the final crew of the U.S.S. Indianapolis.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC–3291. A communication from the Director, Corporate Audits and Standards, Accounting and Information Management Division, General Accounting Office, transmitting, pursuant to law, the report of financial statements for the Congressional Award Foundation for fiscal years 1997 and 1998; to the Committee on Governmental Affairs.

EC–3292. A communication from the Regulations Policy Management Staff, Food and Drug Administration, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled “Secondary Narcotic Precursors: Food for Human Consumption”; received May 19, 1999; to the Committee on Health, Education, Labor, and Pensions.

EC–3293. A communication from the Regulations Policy Management Staff, Food and Drug Administration, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled “Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers”; received May 19, 1999; to the Committee on Health, Education, Labor, and Pensions.

EC–3294. A communication from the Administrator, Agricultural Marketing Service, Marketing and Regulatory Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled “Avocados Grown in South Florida; Increased Assessment Rate” (Docket No. FV99–913–1–FR), received May 19, 1999; to the Committee on Agriculture, Nutrition, and Forestry.

EC–3295. A communication from the Administrator, Agricultural Marketing Service, Marketing and Regulatory Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled “Raisins Produced From Grapes Grown in California; Increase in Assessment Rate” (Docket No. FV99–989–2–FIR), received May 18, 1999; to the Committee on Agriculture, Nutrition, and Forestry.

EC–3296. A communication from the Congressional Review Coordinator, Regulatory Analysis and Development, Policy and Program Development, Office of the Assistant General Counsel, Office of the Inspector General, Department of Health and Human Services, Office of the Commissioner, Food and Drug Administration, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled “Imported Fire Ant; Quarantine Proposal” (Docket No. 98–125–1), received May 19, 1999; to the Committee on Agriculture, Nutrition, and Forestry.

EC–3297. A communication from the Director, Office of Regulatory Management and Information, Office of Policy, Planning and Evaluation, Environmental Protection Agency, transmitting, pursuant to law, the report of two rules entitled “Spinosad; Pesticide Tolerance (FRL 5 36881–B) and “Tebuconazole; Pesticide Tolerance for Emergency Exemption (FRL 8 6579–1)”, received May 18, 1999; to the Committee on Agriculture, Nutrition, and Forestry.

EC–3298. A communication from the President and Chairman, Export-Import Bank of the United States, transmitting, pursuant to law, a report relative to a transaction involving the Bank’s loan commitment to the Committee on Banking, Housing, and Urban Affairs.

EC–3299. A communication from the Assistant General Counsel for Regulations, Office of the Secretary, Department of Housing and Urban Development, transmitting, pursuant to law, the report of a rule entitled “Revised Restrictions on Assistance to Noncitizens-Final Rule (FR–4154)’’ (RIN2501–AC36), received May 18, 1999; to the Committee on Banking, Housing, and Urban Affairs.

EC–3300. A communication from the Assistant General Counsel for Regulations, Office of the Secretary, Department of Housing and Urban Development, transmitting, pursuant to law, the report of a rule entitled “Section 8 Tenant-Based Assistance; Statutory Merger of Section 8 Certificate and Voucher Programs; Interim Rule (FR–4429)” (RIN2577–A391), received May 18, 1999; to the Committee on Banking, Housing, and Urban Affairs.

EC–3301. A communication from the General Counsel, Federal Emergency Management Agency, transmitting, pursuant to law, the report of a rule entitled “Final Flood Elevation Determinations, 64 FR 24517, 05/07/99”; received May 18, 1999; to the Committee on Banking, Housing, and Urban Affairs.

EC–3302. A communication from the General Counsel, Federal Emergency Management Agency, transmitting, pursuant to law, the report of a rule entitled “Suspension of Community Eligibility, 64 FR 24512, 05/07/99”; received May 18, 1999; to the Committee on Banking, Housing, and Urban Affairs.

EC–3303. A communication from the General Counsel, Federal Emergency Management Agency, transmitting, pursuant to law, the report of a rule entitled “Final Flood Elevation Determinations, 64 FR 24516, 05/07/99”; received May 18, 1999; to the Committee on Banking, Housing, and Urban Affairs.

EC–3304. A communication from the General Counsel, Federal Emergency Management Agency, transmitting, pursuant to law, the report of a rule entitled “Final Flood Elevation Determinations, 64 FR 24515, 05/07/99”; received May 18, 1999; to the Committee on Banking, Housing, and Urban Affairs.

EC–3305. A communication from the Director of the Experimental Program to Stimulate Competitive Technology, Technology Administration, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Experimental Program to Stimulate Competitive Technology” (RIN0648–ZA08), received April 6, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3306. A communication from the Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Northeastern United States-Final Rule to Implement Framework Adjustment 7 to the Groundfish Species Fisheries Management Plan and 1999 Target Total Allowable Catch” (RIN0648–AL72), received May 17, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3307. A communication from the Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service, Domestic Fisheries Division, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Northeastern United States-Final Rule to Implement Framework Adjustment 7 to the Groundfish Species Fisheries Management Plan and 1999 Target Total Allowable Catch” (RIN0648–AL72), received April 2, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3308. A communication from the Assistant Administrator for Fisheries, Office of Sustainable Fisheries, National Marine Fisheries Service, Domestic Fisheries Division, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Northeastern United States-Final Rule to Implement Framework Adjustment 7 to the Groundfish Species Fisheries Management Plan and 1999 Target Total Allowable Catch” (RIN0648–AL72), received April 2, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3309. A communication from the Assistant Administrator for Fisheries, Office of Sustainable Fisheries, National Marine Fisheries Service, Domestic Fisheries Division, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries off West Coast States and in the Western Pacific; Western Pacific Bottomfish Fishery; Amendment 30” (RIN0648–ZA62), received April 26, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3310. A communication from the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Financial Assistance for Research and Development Projects in the Northeast Coastal States; Marine Fishes Initiative (MARFIN)” (RIN0648–ZA42), received April 26, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3311. A communication from the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Halibut and Saibling Fisheries Quota-Share Loan Program; Final Program Notice and Announcement of Availability of Federal Financial Assistance” (RIN0648–ZA48), received May 11, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3312. A communication from the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries in the Exclusive Economic Zone off Alaska;Hired Skipper Requirements for the Individual QuotaFish Program; Final Rule” (RIN0648–ZA39), received May 11, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3313. A communication from the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries off West Coast States and in the Western Pacific; West Coast Salmon Fisheries; Amendment 13” (RIN0648–AK33), received May 17,
May 26, 1999

10982

CONGRESSIONAL RECORD—SENATE

1999; to the Committee on Commerce, Science, and Transportation.

EC–3314. A communication from the Assistant Administrator for Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Fisheries of the Exclusive Economic Zone Off Alaska: Trailing in Steller Sea Lion Critical Habitat in the Central Aleutian District of the Bering Sea and Aleutian Islands”, received April 6, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3316. A communication from the Chairman, Federal Maritime Commission, transmitting, pursuant to law, the report of a rule entitled “Service Contracts Subject to the Shipping Act of 1984” (FMC Docket No. 98–30), received May 3, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3317. A communication from the Director, Resource Management and Planning Staff, International Trade Administration, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Market Development Cooperator Program” (RIN0625–ZA65), received April 27, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3318. A communication from the Chief, Accounting Policy Division, Common Carrier Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled “In the Matter of the Federal-State Joint Board on Universal Service” (FCC 99–411) (CC Docket No. 96–45), received April 27, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3320. A communication from the Legal Advisor, Cable Services Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled “Report and Order: In the Matter of Satellite Delivery of Broadcast Network Signals under the Satellite Home Viewer Act” (FCC 99–11) (CC Docket No. 96–201), received April 14, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3321. A communication from the Associate Bureau Chief, Wireless Telecommunications Bureau, Federal Communications Commission, transmitting, pursuant to law, the report entitled “Amendment of Parts 17 and 87 of the Commission’s Rules Concerning Aviation Radio Service and Antenna Structure Construction, Marking and Lighting” (FCC Docket No. 96–19 and 96–211), received April 19, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3323. A communication from the Chairman, Competitive Pricing Division, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled “In the Matter of Defining Primary Lines” (CC Docket No. 97–181), received April 14, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3324. A communication from the Attorney, Office of the Secretary, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled “Second Extension of Computer Reservations System Rules” (RIN2105–AC75), received on April 2, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3325. A communication from the Chairman, Communications Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled “Legislative Liaison, Department of the Air Force, transmitting, a report relative to the Air Force Academy; to the Committee on Armed Services.”

EC–3326. A communication from the Chairman, Programs and Legislation Division, Office of Legislative Liaison, Department of the Air Force, transmitting, a report relative to the Civil Engineer Squadron at MacDill Air Force Base; to the Committee on Armed Services.

EC–3327. A communication from the Assistant Secretary, Legislative Affairs, Department of State, transmitting, pursuant to law, a report relative to the U.S. Emergency Fund; to the Committee on Foreign Relations.

EC–3328. A communication from the Assistant Secretary, Legislative Affairs, Department of State, transmitting, pursuant to law, the report of a rule relative to the Schedule of Fees for Consular Services, received May 24, 1999; to the Committee on Foreign Relations.

EC–3329. A communication from the Chairman, Federal Maritime Commission, transmitting, pursuant to law, the report of a rule entitled “Acceptable Sponsorship Agreement and Guaranty of Transportation” (RIN1115–AF49) (INS No. 1999–99), received May 24, 1999; to the Committee on the Judiciary.

EC–3330. A communication from the Director, Policy Directives and Instructions Branch, Immigration and Naturalization Service, Department of Justice, transmitting, pursuant to law, a report relative to the status of the U.S. Parole Commission; to the Committee on the Judiciary.

EC–3331. A communication from the Attorney General, transmitting, pursuant to law, a report relative to Year 2000 capabilities of DoD systems within operational environments of the Commercial Services.

EC–3332. A communication from the Attorney General, transmitting, pursuant to law, a report relative to the status of the U. S. Citizenship and Immigration Services.

EC–3333. A communication from the Secretary, Judicial Conference of the United States, transmitting, pursuant to law, a report relative to the status of the U.S. courts of appeals and U.S. district courts; to the Committee on the Judiciary.

EC–3334. A communication from the Secretary, Judicial Conference of the United States, transmitting, pursuant to law, a draft of proposed legislation entitled “Federal Courts Improvement Act of 1999”; to the Committee on the Judiciary.

EC–3335. A communication from the Director, Policy Directives and Instructions Branch, Immigration and Naturalization Service, Department of Justice, transmitting, pursuant to law, a report relative to the status of the U.S. Parole Commission; to the Committee on the Judiciary.

EC–3336. A communication from the Acting Assistant Secretary for Land and Minerals Management, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled “Appeals of MMS Orders” (RIN1010–AC21), received May 6, 1999; to the Committee on Energy and Natural Resources.

EC–3337. A communication from the Civilian Official, Command, Control, Communications, and Intelligence, Department of Defense, transmitting, pursuant to law, a report relative to Year 2000 capabilities of DoD systems within operational environments of the Commercial Services.

EC–3338. A communication from the Attorney General, transmitting, pursuant to law, a report relative to the status of the U.S. Citizenship and Immigration Services.

EC–3339. A communication from the Secretary, Judicial Conference of the United States, transmitting, pursuant to law, a report relative to Year 2000 capabilities of DoD systems within operational environments of the Commercial Services.

EC–3340. A communication from the Attorney General, transmitting, pursuant to law, a report relative to Year 2000 capabilities of DoD systems within operational environments of the Commercial Services.

EC–3341. A communication from the Director, Policy Directives and Instructions Branch, Immigration and Naturalization Service, Department of Justice, transmitting, pursuant to law, a report relative to Year 2000 capabilities of DoD systems within operational environments of the Commercial Services.

EC–3342. A communication from the Director, Policy Directives and Instructions Branch, Immigration and Naturalization Service, Department of Justice, transmitting, pursuant to law, a report relative to Year 2000 capabilities of DoD systems within operational environments of the Commercial Services.

EC–3343. A communication from the Attorney General, transmitting, pursuant to law, a report relative to Year 2000 capabilities of DoD systems within operational environments of the Commercial Services.

EC–3344. A communication from the Acting Assistant Attorney General, transmitting, a draft of proposed legislation entitled “Freedom of Information Act” (RIN1540–1045), received May 24, 1999; to the Committee on the Judiciary.

EC–3345. A communication from the Acting Assistant Attorney General, transmitting, a draft of proposed legislation entitled “Freedom of Information Act” (RIN1540–1045), received May 24, 1999; to the Committee on the Judiciary.

EC–3346. A communication from the Acting Assistant Attorney General, transmitting, a draft of proposed legislation entitled “Freedom of Information Act” (RIN1540–1045), received May 24, 1999; to the Committee on the Judiciary.

EC–3347. A communication from the Acting Assistant Attorney General, transmitting, a draft of proposed legislation entitled “Freedom of Information Act” (RIN1540–1045), received May 24, 1999; to the Committee on the Judiciary.

EC–3348. A communication from the Acting Assistant Attorney General, transmitting, a draft of proposed legislation entitled “Freedom of Information Act” (RIN1540–1045), received May 24, 1999; to the Committee on the Judiciary.

EC–3349. A communication from the Acting Assistant Attorney General, transmitting, a draft of proposed legislation entitled “Freedom of Information Act” (RIN1540–1045), received May 24, 1999; to the Committee on the Judiciary.

EC–3350. A communication from the Acting Assistant Attorney General, transmitting, a draft of proposed legislation entitled “Freedom of Information Act” (RIN1540–1045), received May 24, 1999; to the Committee on the Judiciary.
EXECUTIVE REPORT OF A COMMITTEE

The following executive report of a committee was submitted:

By Mr. LUGAR, for the Committee on Agriculture, Nutrition, and Forestry:

Thomas J. Erickson, of the District of Columbia, to be a Commissioner of the Commodity Futures Trading Commission for the term expiring April 13, 2003.

(The above nomination was reported with the recommendation that he be confirmed, subject to the nominee’s commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Ms. COLLINS (for herself and Mr. COVERDELL):

S. 1124: A bill to amend the Internal Revenue Code of 1986 to eliminate the 2-percent floor on miscellaneous itemized deductions for qualified professional development expenses of elementary and secondary school teachers; to the Committee on Finance.

By Mr. MCCAIN (for himself, Mr. ASHCROFT, Mr. HATCH, and Mr. MACK):

S. 1125. A bill to restrict the authority of the Federal Communications Commission to review mergers and to impose conditions on licenses and other authorizations assigned or transferred in the course of mergers or other transactions subject to review by the Department of Justice or the Federal Trade Commission; to the Committee on Commerce, Science, and Transportation.

By Ms. MIKULSKI (for herself, Mr. KENNEDY, and Mr. DURBIN):

S. 1126: A bill to amend the Federal Food, Drug, and Cosmetic Act to improve the safety of imported food, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. COVERDELL (for himself and Ms. COLLINS):

S. 1127: A bill to amend the Internal Revenue Code of 1986 to eliminate the 2-percent floor on miscellaneous itemized deductions for reasonable and incidental expenses related to instruction, teaching, or other educational job-related activities; to the Committee on Finance.

By Mr. KYL (for himself, Mr. KERRY, Mr. NICKLES, Mr. BREAUX, Mr. MACK, Mr. BOND, and Mr. GRAMM):

S. 1128. A bill to amend the Internal Revenue Code of 1986 to repeal the Federal estate and gift taxes and the tax on generation-skipping transfers, to provide for a carryover basis at death, and to establish a partial capital gains exclusion for inherited assets; to the Committee on Finance.

By Mr. DOMENICI:

S. 1129. A bill to facilitate the acquisition of inholdings in Federal land management units and the disposal of surplus public land, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. MCCAIN (for himself, Mr. ASHCROFT, Mr. BOND, Mr. BURNS, Mr. GRAHAM, and Mr. PROPHET):

S. 1130. A bill to amend title 49, United States Code, with respect to liability of motor vehicle rental or leasing companies for the negligent operation of rented or leased motor vehicles; to the Committee on Commerce, Science, and Transportation.

By Mr. EDWARDS (for himself and Mr. DODD):

S. 1131. A bill to promote research into, and the development of an ultimate cure for, the disease known as Fragile X; to the Committee on Health, Education, Labor, and Pensions.

By Mr. BREAUX (for himself and Mr. HATCH):

S. 1132. A bill to amend the Internal Revenue Code of 1986 to allow the reinvestment of employee stock ownership plan dividends without the loss of any dividend reduction; to the Committee on Finance.

By Mr. GRAMS:

S. 1133. A bill to amend the Poultry Products Inspection Act to cover birds of the order Rattae that are raised for use as human food; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. BOND:

S. 1134. An original bill to amend the Internal Revenue Code of 1986 to allow tax-free expenditures from education individual retirement accounts for elementary and secondary school expenses, to increase the maximum annual amount of contributions to such accounts, and for other purposes; from the Committee on Finance; placed on the calendar.

By Mr. WYDEN:

S. 1135. A bill to amend the Communications Act of 1934 to provide that the lowest unit rate for campaign advertising shall not be available for communication in which a candidate attacks an opponent of the candidate unless the candidate does so in person; to the Committee on Commerce, Science, and Transportation.

By Mr. MACK (for himself and Mr. GRAMM):

S. 1136. A bill to amend the Internal Revenue Code of 1986 to provide that an organization shall be exempt from income tax if it is created by a State to provide property and casualty insurance coverage for property for which such coverage is otherwise unavailable; to the Committee on Finance.

By Mrs. BOXER:

S. 1137. A bill to amend the Clayton Act to enhance the authority of the Attorney General of the United States to prevent certain mergers and acquisitions that would unreasonably limit competition; to the Committee on the Judiciary.

By Mr. MCCAIN (for himself, Mr. DODD, Mr. WYDEN, Mr. HATCH, Mrs. FRIST, Mr. Gorton, Mr. BENNETT, Mr. LOTT, Mr. ABRAHAM, Mr. FRIST, Mr. BURNS, Mr. SANTORUM, Mr. SMITH of Oregon, and Mr. LIEBERMAN):

S. 1138. A bill to regulate interstate commerce by making provision for dealing with losses arising from Year 2000 Problem-related failures that may disrupt communications, intermodal transportation, and other matters relating to interstate commerce; read the first time.

By Mr. REID (for himself and Mr. FRIST):

S. 1139. A bill to amend title 49, United States Code, relating to civil penalties for unruly passengers of air carriers and to provide for the protection of employees providing air transportation information, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mrs. BOXER (for herself and Mrs. DAVIS REID):

S. 1140. A bill to require the Secretary of Labor to issue regulations to eliminate or minimize the significant risk of needlestick injury to health care workers; to the Committee on Health, Education, Labor, and Pensions.

By Mr. BOND:

S. 1141. A bill to suspend temporarily the duty on triethyleneglycol (bis-2-ethyl hexanoate); to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BREAUX (for himself, Mr. MURKOWSKI, Mr. MACK, and Mr. JOHNSON):

S. Res. 108. A resolution designating the month of March each year as “National Colorectal Cancer Awareness Month”; to the Committee on the Judiciary.

By Mr. LOTT:

S. Con. Res. 35. A concurrent resolution providing for a conditional adjournment or recess of the Senate and a conditional adjournment of the House of Representatives; considered and agreed to.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. COLLINS (for herself and Mr. COVERDELL):

S. 1124. A bill to amend the Internal Revenue Code of 1986 to eliminate the 2-percent floor on miscellaneous itemized deductions for qualified professional development expenses of elementary and secondary school teachers; to the Committee on Finance.

TEACHER PROFESSIONAL DEVELOPMENT ACT

By Mr. COVERDELL (for himself and Ms. COLLINS):

S. 1127. A bill to amend the Internal Revenue Code of 1986 to eliminate the 2-percent floor on miscellaneous itemized deductions for reasonable and incidental expenses related to instruction, teaching, or other educational job-related activities; to the Committee on Finance.

TEACHER DEDUCTION FOR INCIDENTAL EXPENSES ACT

Ms. COLLINS. Mr. President, today, Senator COVERDELL and I are introducing two bills that will help teachers who spend their personal funds in order to improve their teaching skills and to provide quality learning materials for their students. I am going to discuss the first of those bills, the Teachers’ Professional Development Act.

I am very pleased to be joined by my colleague from Georgia, Senator COVERDELL, in presenting this response to the critical need of our elementary and secondary schoolteachers for more professional development.

Other than involved parents, a well-qualified teacher is the most important element of student success. Educational researchers have repeatedly demonstrated the close relationship between well-qualified teachers and successful students. Moreover, teachers...
themselves understand how important professional development is to maintaining and expanding their level of competence. I meet with Maine teachers, they tell me of their need for more professional development and the scarcity of financial support for this worthwhile pursuit.

In Maine, we have seen the results of a strong, sustained professional development program on student achievement in science and math. With support from the National Science Foundation, the U.S. Department of Education, the State of Maine, private foundations, the business community, and colleges in our State, the Maine Mathematics and Science Alliance established a statewide training program for teachers. The results have been outstanding.

West American students, overall, performed at the bottom of the Third International Science and Mathematics Study. Maine students outperformed the students of all but one of the 41 participating nations. The professional development available to Maine’s science and math teachers undoubtedly played a critical role in this tremendous success story. Unfortunately, however, this level of support for professional development is the exception and not the rule.

The willingness of Maine’s teachers to fund their own professional development activities has impressed me deeply. For example, an English teacher who serves as a member of my Educational Policy Advisory Committee told me of spending her own money to attend a curriculum conference. She then came back to her high school and shared the results of this curriculum conference with all the other teachers in her English department. She is typical of the teachers throughout the United States who generously reach within their own pockets to pay for their own professional development to make them even better, even more effective at their jobs.

I firmly believe that we should encourage our educators to seek professional training, and that is the purpose of the legislation I am introducing today. The Collins-Coverdell legislation would help teachers to finance professional development by allowing them to deduct from their taxable income such expenses as conference fees, tuitions, books, supplies, and transportation associated with qualifying programs. Under the current law, teachers may only deduct these expenses if they exceed 2 percent of their income. My bill would eliminate this 2 percent floor and allow all of the professional development expenses to be deductible.

I greatly admire the many teachers who have voluntarily financed the additional education they need to improve their skills and to serve their students better. I hope that this legislation will encourage teachers to continue to take courses in the subject areas that they teach, to complete graduate degrees in either their subject area or in education, and to attend conferences to get new ideas for presenting course work in a challenging manner. This bill would reimburse our teachers for a very small part of what they invest in our children’s future. This would be money well spent.

Investing in education is the surest way for us to build one of our most important assets for our country’s future, and that is a well-educated population. We need to ensure that our nation’s elementary and secondary school teachers are the best possible so that they can bring out the best in our students. Adapting this legislation would help us to accomplish this goal.

I urge my colleagues to support these efforts, and to working with my colleagues in assuring enactment of this legislation.

Thank you, Mr. President.

By Mr. MCCAIN (for himself, Mr. ASHCROFT, Mr. HATCH, and Mr. MACK):

S. 1125. A bill to restrict the authority of the Federal Communications Commission to review mergers and to impose conditions on licenses and other authorizations assigned or transferred in the course of mergers or other transactions subject to review by the Department of Justice or the Federal Trade Commission; to the Committee on Commerce, Science, and Transportation.

TELECOMMUNICATIONS MERGER REVIEW ACT OF 1999

Mr. MCCAIN. Mr. President, I rise this morning to introduce The Telecommunications Merger Review Act of 1999, which would transfer government’s review of telecommunications industry mergers more coherent and effective. It seems like hardly a week goes by without the announcement of yet another precedent-setting merger in the telecommunications industry. Consumers are right to be concerned about the possible effects of these mergers, and the Congress is right to be concerned that government review of these mergers is careful and consistent in keeping consumer interests uppermost. The urgent need for competence and clarity in reviewing telecom industry mergers highlights a glaring problem in the current system. That problem, Mr. President, arises from the fact that different agencies sequentially go over the same issues, and, after considerable delay, can make radically different decisions on the same sets of facts.

Two of these agencies, the Department of Justice and the Federal Trade Commission, have extensive expertise in analyzing the competition-related issues that are involved in mergers, and they approach the merger review process with a great deal of professionalism and efficiency. The third agency, the Federal Communications Commission, has comparatively little expertise in these issues, and, only limits on the authority under the

Nevertheless, the FCC has bootstrapped itself into the unintended role of official federal dealbreaker. How? By using its authority to impose conditions on the FCC licenses that are being transferred as part and parcel of the overall merger deal. Because the FCC must pre-approve all license transfers, its ability to pass on the underlying licenses gives it a chokehold on the parties to the merger. And it uses that chokehold to prolong the process and extract concessions from the merging parties that oftentimes have very little, if anything, to do with the merger itself.

Mr. President, many people might ask, what’s so bad about that? Won’t the FCC’s conditions make sure that consumer interests are served? The short answer is, they simply duplicate the review and that the Department of Justice performs with much more competence and efficiency. About the best you can say is that the FCC is wasting valuable resources that could more productively be spent elsewhere. But the real harm lies in the fact that the FCC is foisting needless burdens and restrictions on the merging companies that translate into higher costs for consumers.

The FCC tries to defend its efforts by arguing that its job is really different from DOJ’s—that DOJ makes sure that a merger won’t harm competition, while the FCC makes sure that the same merger will help competition. In other words, according to the FCC, DOJ looks at a merger’s effect on business; the FCC looks at its effect on people. For example, last week FCC Chairman Kennard gave a speech in which he proclaimed that, despite the strain the merger was putting on the agency, “We will not rest until on each transaction we can articulate to the American public what are the benefits of this merger to average American consumers, because I believe that’s what the public-interest review requires.”

If that’s true, I have good news for Chairman Kennard—he can take a rest, because DOJ is doing exactly the same thing. In a separate speech last week Assistant Attorney General Joel Klein, DOJ’s chief merger review official, said that what most people do not understand (including, evidently, the FCC), is that “everything we do in antitrust is consumer driven.” He went on to say precisely what that means:

We are a unique federal agency. Our interest is to protect what the economists call consumer welfare. And there is one simple truth that animates everything we do, and that is competition—the more people chasing after the consumer, to serve him or her better, to get lower prices, to get new innovations to create new opportunities—the more of that juice that goes through the system, the better.
To be accurate, there is one big difference between the way the FCC and the DOJ do merger reviews. DOJ is infinitely better at it. Two weeks ago the FCC’s already-faltering merger review process hit rock-bottom when a staff member (an ostensible antitrust expert) head-up the FCC’s review of the SBC-Ameritech merger (which DOJ has already approved) publicly proclaimed that, unless the FCC imposed major conditions, the proposed transaction “flunks the public interest test.” An “unnamed agency spokeswoman” then cheerfully agreed that a majority of the Commissioners shared the same view.

Can you imagine either the FTC or DOJ countenancing such happenings during the course of their merger review processes? I think not. This apallingly unpromising fact, that they find the FCC staff drove the value of SBC and Ameritech stock down over $2 billion, and it confirmed that, if this is what passes for FCC merger review “expertise,” the FCC has no business being there.

Mr. President, this bill will restore integrity and professionalism to federal review of telecommunications industry mergers. It does not touch either DOJ or FTC’s broad authority to review all mergers, including all telecommunications industry mergers. It would make sure that any FCC concerns are heard by incorporating the FCC into DOJ and FTC merger review proceedings. Nor does it touch the FCC’s broad authority to adopt and enforce rules to govern the behavior of telecommunications companies. What it does do is tell the FCC that, in cases where either DOJ or FTC has reviewed a proposed telecommunications merger and stated in writing no intent to intervene, the FCC must follow the determination of these expert agencies and transfer any FCC licenses without further delay.

Under this bill the FCC may independently review proposed mergers when neither DOJ nor FTC states in writing its intent not to intervene. Nevertheless, because DOJ and FTC review all mergers and have authority to intervene in any merger, their non-intervention is any proposed merger appropriately signifies that they find the transaction at issue is unobjectionable. Therefore, any FCC review in such cases is subject to a strict 60-day deadline, and the FCC is directed to presume approval without attaching further conditions or obligations on any of the parties. Nothing (except extreme unlikelihood) would preclude the FCC from rebutting the presumption with hard facts, nor would the FCC be precluded from subsequently exercising its existing enforcement-making prerogatives to deal with any unanticipated problems.

Mr. President, we can streamline the way the federal government reviews telecom industry mergers and still safeguard the public interest. That’s what this bill is intended to do by eliminating the public management while preserving essential federal review and enforcement prerogatives. I urge my colleagues to give it careful consideration and support.

This bill, the Telecom Merger Review Act of 1999, would do nothing to change the authority that the Department of Justice and the Federal Trade Commission currently have to review all telecom industry mergers.

Mr. President: I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

SEC. 1. SHORT TITLE.

This Act may be cited as the “Telecommunications Merger Review Act of 1999.”

SEC. 2. FINDINGS.

The Congress finds the following:

(1) A stated intent of the Congress in enacting the Communications Act of 1934 was to reduce regulation.

(2) Under existing law, the Department of Justice and the Federal Trade Commission exercise primary authority to review all mergers, including telecommunications industry mergers. The Federal Communications Commission has only limited authority under the Communications Act to review telecommunications industry mergers.

(3) The Department of Justice and the Federal Trade Commission have extensive expertise in analyzing issues of industry concentration and its effects on competition. The Federal Communications Commission has only limited expertise in analyzing such issues.

(4) Notwithstanding the limitations on its Clayton Act jurisdiction and on its substantive expertise, the Federal Communications Commission has broad authority over telecommunications industry mergers pursuant to the nonspecific public interest standard and other provisions in the Communications Act of 1934 that allow it to impose terms and conditions on the transfer or assignment of any such certificate assigned or transferred in a merger or other transaction subject to review by the Department of Justice or the Federal Trade Commission.

(5) The Federal Communications Commission’s exercise of broad authority over telecommunications industry mergers overreaches its intended statutory authority and its substantive expertise and produces delay and inconsistency in its decisions.

(6) Under existing law, parties to a proposed telecommunications industry merger are unable to proceed without the prior approval of the Federal Communications Commission, even if the Department of Justice or the Federal Trade Commission have already approved the merger.

(7) The Federal Communications Commission’s existing rulemaking and enforcement prerogatives constitute normal and effective means of assuring that all licenses, including the assignment of any license or other authority assigned or transferred in a merger or other transaction subject to review by the Department of Justice or the Federal Trade Commission.

SEC. 3. REPEAL OF MERGER APPROVAL AUTHORITY.

Section 11(a) of the Clayton Act (15 U.S.C. 21(b)) is amended by striking “in the Federal Communications Commission where applicable to common carriers engaged in wire or radio communication or radio transmission of energy.”

SEC. 4. REPEAL OF AUTHORITY TO CONDITION LICENSES, ETC.

(a) Basic Administrative Authority.—Section 4(c) of the Communications Act of 1934 (47 U.S.C. 214(i)) is amended by adding at the end thereof the following: “(9) Because the duplication of effort, inconsistency, and delay resulting from the Federal Communications Commission’s review of telecommunications industry mergers is unnecessary, it imposes unwarranted costs on the industry, on the Commission, and on the public, and it fails to serve the public interest.”

(b) Public Convenience and Necessity.—Section 214(c) of the Communications Act of 1934 (47 U.S.C. 214(c)) is amended by adding after “require” the following: “The authority of the Commission to impose terms or conditions on the transfer or assignment of any certificate assigned or transferred in a merger or other transaction subject to review by the Department of Justice or the Federal Trade Commission is subject to section 314.”

(c) Restrictions and Conditions Necessary To Carry Out 1934 Act; Treaties; International Conventions.—Section 303(r) of the Communications Act of 1934 (47 U.S.C. 303(r)) is amended by adding at the end thereof the following: “The authority of the Commission under this paragraph to impose terms or conditions on the transfer or assignment of any certificate assigned or transferred in a merger or other transaction subject to review by the Department of Justice or the Federal Trade Commission is subject to section 314.”

(d) Alien-Operated Amateur Radio Stations.—Section 313(d) of the Communications Act of 1934 (47 U.S.C. 313(d)) is amended by adding at the end thereof the following: “The authority of the Commission to impose terms or conditions on the transfer or assignment of any authority issued under this section that is assigned or transferred in a merger or other transaction subject to review by the Department of Justice or the Federal Trade Commission is subject to section 314.”

(e) Preservation of Competition in Commerce.—Section 314 of the Communications Act of 1934 (47 U.S.C. 314) is amended to read as follows:

SEC. 314. PRESERVATION OF COMPETITION IN COMMERCE.

“(a) In General.—Notwithstanding any other provision of law, the Commission has no authority to review a merger or other transaction, or to impose any term or condition on the assignment or transfer of any license or other authority issued under this Act that is proposed to be assigned or
transferred in the course of a merger or other transaction, while that merger or other transaction is subject to review by either the Department of Justice or the Federal Trade Commission.

"(b) COMMUNICATIONS Mergers Primarily Reviewable by DOJ and FTC—The Department of Justice, or the Federal Trade Commission, has primary authority under existing law to review mergers and other transactions involving the proposed assignment or transfer of any license or other authorization issued under this Act. The Commission may file comments in any proceeding before the Department of Justice or the Federal Trade Commission to review a merger or other transaction involving the proposed assignment or transfer of any license or other authorization.

"(c) Commission shall implement DOJ or FTC decision without additional terms or conditions.—If—

"(1) the Department of Justice or the Federal Trade Commission reviews a merger or other transaction involving the proposed assignment or transfer of any license or other authorization issued under this Act; and

"(2) it issues a written decision of absolute or conditional approval of, or issues a written statement of nonintervention in, the proposed merger or other transaction, then the Commission shall authorize the assignment or transfer of any license or other authorization involved in the merger or transaction in accordance with the decision, if any, or as proposed, if a written statement of nonintervention is issued. The Commission may not impose any other term or condition on the assignment or transfer of the license or other authorization so assigned or transferred, or impose any other obligation on any party to that merger or transaction, comments reflect the views of a majority of the Commission.

"(d) Commission review of mergers absent DOJ or FTC pronouncement.—

"(1) in general.—The Commission may not review any application for assignment or transfer of a license or other authorization issued under this Act in connection with a merger or other transaction unless either the Department of Justice nor the Federal Trade Commission issues a decision or statement described in subsection (c)(2) in connection with that merger or other transaction.

"(2) 60-day turnaround.—The Commission shall conclude any review of a merger or other transaction it may conduct under paragraph (1) within 60 days after the date on which the Department of Justice and the Federal Trade Commission, whichever is appropriate, issues such a decision or statement.

"(3) Presumption; default approval.—In reviewing an application under paragraph (1), the Commission shall apply a presumption in favor of unconditional approval of the application. If the Commission fails to issue a final decision within the 60-day period described in paragraph (2), the application shall be deemed to have been granted unconditionally by the Commission.

By Ms. MIKULSKI (for herself, Mr. KENNEDY, and Mr. DURBIN):
S. 1126. A bill to amend the Federal Food, Drug, and Cosmetic Act to improve the safety of imported food, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

IMPORTED FOOD SAFETY IMPROVEMENT ACT OF 1999

Ms. MIKULSKI. Mr. President, I rise today to introduce the "Imported Food Safety Act of 1999." I am proud to be the sponsor of this important legislation which guarantees the improved safety of imported foods.

The health of all Americans is not something to take chances with. It is important that we make food safety a top priority. Every person should have the confidence that their food is fit to eat. We should be confident that imported food is as safe as food produced in this country. Cars can't be imported unless they meet U.S. safety requirements. Prescription drugs can't be imported unless they meet FDA standards. You shouldn't be able to import food that isn't up to U.S. standards, either.

The impact of unsafe food is staggering. There have been several frightening examples of food poisoning incidents in the U.S. When Michigan schoolchildren were contaminated with Hepatitis A from imported strawberries in 1997, Americans were put on alert. Thousands of cases of cyclospora infection from imported raspberries—resulting in severe, prolonged diarrhea, weight loss, vomiting, chills and fatigue were also reported that year. Imported cantaloupe eaten in Maryland sickened 25 people. As much as $663 million was spent on food borne illness in Maryland alone. Overall, as many as 76 million Americans become ill each year from imported foods and over 9000 die as a result of food borne illness. It is our children and our seniors who suffer the most. Most of the food-related deaths occur in these two populations.

These incidents have scared us and have jump-started the efforts to do more to protect our nation's food supply. Now, I believe in free trade, but I also believe in fair trade. FDA's current system of testing import samples at ports of entry does not protect Americans. It is ineffective and resource-intensive. Less than 2% of imported food is being inspected under the current system. At the same time, the quantity of the imported foods continues to increase.

What this law does is simple: It improves food safety and aims at preventing food borne illness of all imported foods regulated by the FDA. This bill takes a long overdue, big first step.

First, it requires that FDA make equivalence determinations on imported food. This was developed with the FDA by Senator KENNEDY and my-
knowing that the food they eat is fit to eat. I'd like to thank FDA for their advice and consultation in developing this important bill, and I commend Senator Mikulski for her leadership on this legislation to close the critical gaps in our imported food safety laws.

Citizens deserve to know that the food they eat is safe and wholesome, regardless of its source. The United States has one of the safest food supplies in the world. Yet every year, millions of Americans become sick, and thousands die, from eating contaminated food. Billions of dollars a year in medical costs and lost productivity are caused by food-borne illnesses. Often, the source of the problem is imported food.

We've heard recently about the thousands of cases of illness from Cyclospora in raspberries from Guatemala. But this high profile case is by no means the only case. In 1987, school children in five states came down with Hepatitis A from frozen strawberries served in the school cafeterias. Fecal contamination is a potential source of Hepatitis A, and the strawberries the children ate came from a farm in Mexico where workers had no access to sanitary facilities.

Earlier this year, cases of typhoid fever in Florida were linked to a frozen tropical fruit product from Guatemala. Again, poor sanitary conditions appear to be at the root of the problem. Gastrointestinal illness has been linked to soft cheeses from Europe. Bacterial food poisoning has been attributed to canned mushrooms from the Far East.

The emergence of highly virulent strains of bacteria, and an increase in the number of organisms that are resistant to antibiotics, make microbial contamination of food a major public health challenge.

Ensuring the safety of imported food is a large task. Americans now enjoy a wide variety of foods from around the world and have access to fresh fruits and vegetables year round. In 1997, the Food Safety Inspection Service of the Department of Agriculture handled 118,000 entries of imported meat and poultry. The FDA handled far more—2.7 million entries of other imported food. Current FDA procedures and resources allowed for less than two percent of those 2.7 million imports to be physically inspected. Clearly, we need to do better.

The authority of the FDA is not sufficient to prevent contaminated food imports from reaching our shores. The Agency has no legal authority to require that food coming into the United States be produced, inspected, and packaged under circumstances that provide the same level of health protection as domestic products and that FDA has no authority to check, in advance, for adequate public health safeguards. FDA can act only after the fact—after adulterated food has been found or someone has gotten sick.

The USDA inspects meat, poultry and egg products. GAO noted that USDA has the necessary power to protect consumers. The Department has the authority to require that meat and poultry be produced, packaged, and imported into the U.S., be produced in a system that provides a level of health protection equivalent to that imposed on U.S. producers. That level of protection may include limits on practices that cause human illness. In addition, USDA has federally sworn inspectors who examine the foreign systems and check food at the docks.

The Food and Drug Administration has jurisdiction over all other food products, including the fresh fruits and vegetables that many of us now eat year round. Health experts urge us to eat more fruits and vegetables. Imports try other countries and have access to fresh fruits and vegetables year round. In 1997, the Senate Permanent Subcommittee on Investigations revealed serious problems with the Food and Drug Administration's capacity to protect Americans from unsafe food.

The General Accounting Office reported that FDA can't protect us because the agency has no authority to require that foods be produced, inspected, and packaged under circumstances that provide the same level of health protection as domestic products and that FDA has no authority to check, in advance, for adequate public health safeguards. FDA can act only after the fact—after adulterated food has been found or someone has gotten sick.

The USDA inspects meat, poultry and egg products. GAO noted that USDA has the necessary power to protect consumers. The Department has the authority to require that meat and poultry be produced, packaged, and imported into the U.S., be produced in a system that provides a level of health protection equivalent to that imposed on U.S. producers. That level of protection may include limits on practices that cause human illness. In addition, USDA has federally sworn inspectors who examine the foreign systems and check food at the docks.

The Food and Drug Administration has jurisdiction over all other food products, including the fresh fruits and vegetables that many of us now eat year round. Health experts urge us to eat more fruits and vegetables. Imports try other countries and have access to fresh fruits and vegetables year round. In 1997, the Senate Permanent Subcommittee on Investigations revealed serious problems with the Food and Drug Administration's capacity to protect Americans from unsafe food.
is found. Unscrupulous importers make the most of the loopholes in the law, including substituting cargo, falsifying laboratory results, and shipping adulterated imported food, or bring a refused shipment in again, at a later date or at a different port.

The legislation we are introducing today will give the Secretary of Health and Human Services the additional authority needed to assure that food imports are as safe as food grown and prepared in this country.

It will give the FDA greater authority to deal with outbreaks of food-borne illness and to bar further imports of dangerous foods until improvements at the source can guarantee the safety of future shipments. This authority covers foods that have repeatedly been associated with food-borne disease, have repeatedly been found to be adulterated, or have been linked to a catastrophic outbreak of food-borne illness.

It will close loopholes in the law and give the FDA better tools to deal with unscrupulous importers.

It will authorize the Centers for Disease Control and Prevention to target resources toward enhanced surveillance and prevention activities to deal with food-borne illnesses, including new diagnostic tests, better training of health professionals, and increased public awareness about food safety.

Too many citizens today are at unnecessary risk of food-borne illness. The measure we are proposing is designed to reduce that risk as much as possible, both immediately and for the long term. We know that there are powerful special interests that put profits ahead of safety, but Americans need and deserve laws that better protect their food supply. This is essential legislation, and I look forward to working with my colleagues to see that it is enacted as soon as possible.

By Mr. KYL (for himself, Mr. KERREY, Mr. NICKLES, Mr. BREAUX, Mr. MACK, Mr. ROBB, and Mr. GRAMM):

S. 1128. A bill to amend the Internal Revenue Code of 1986 to repeal the Federal estate and gift taxes and the tax on generation-skipping transfers, to provide for a carryover basis at death, and to establish a partial capital gains exclusion for inherited assets; to the Committee on Finance.

ESTATE TAX ELIMINATION ACT OF 1999

Mr. KYL. Mr. President, I rise today with my colleagues, Senators Bon Kerrey, Don Nickles, John Breaux, Connie Mack, Chuck Robb, and Phil Gramm to introduce a bill that attempts to forge bipartisan consensus with regard to the future of the federal estate tax. The legislation we are offering today is titled the Estate Tax Elimination Act of 1999.

Mr. President, we know that many Americans are troubled by the estate tax’s complexity and high rates, and by the mere fact that it is triggered by a person’s death rather than the realization of income. For a long time, I have advocated its repeal, because I believe death should not be a taxable event.

Other people agree that the tax is problematic, but are concerned the appreciated value of certain assets might escape taxation forever if the estate tax is repealed while the step-up in basis allowed under Section 1014 of the Internal Revenue Code remains in effect.

The legislation we are introducing today attempts to reconcile these positions by eliminating both the estate tax and the step-up, and attributing a carryover basis to inherited property so that all gains are taxed at the time the property is sold and income is realized. This is an explicit trade-off: estate-tax repeal for implementation of a carryover basis. Both must occur, or this plan will not work.

The concept of a carryover basis is not new. It exists in current law with respect to gifts, Section 1015 of the Internal Revenue Code, and property transferred in cases of divorce, Section 1041, and in connection with involuntary conversions of property relating to theft, death, divorce, or condemnation.

In the latter case, when an owner receives compensation for involuntarily converted property, a taxable gain normally results to the extent that the value of the compensation exceeds the basis of the converted property. However, Section 1033 of the Internal Revenue Code allows the taxpayer to defer the recognition of the gain until the property is sold. The Kyl-Kerrey bill would treat the transfer of property at death in the most involuntary conversion of all—the same way, deferring recognition of any gain until the inherited property is sold.

Our bill would also establish a limited capital-gains exclusion for inherited property to ensure that small estates, which are currently exempt from tax by virtue of the unified credit and the step-up in basis, do not find themselves with a new tax liability when the proposed law takes effect.

Mr. President, I have asked the Joint Tax Committee to review the proposal and provide an official revenue estimate. We are awaiting the results of that review now.

I hope the members of the Finance Committee will take a serious and careful look at this bipartisan proposal. With it, we ought to be able to finally eliminate the estate tax—and do it this year.

Mr. President, I ask unanimous consent that a section-by-section analysis of the bill be printed in the RECORD.

There being no objection, the matter was ordered to be printed in the RECORD, as follows:

S. __, THE ESTATE TAX ELIMINATION ACT

SECTION 1. Short title

Designates the bill, the “Estate Tax Elimination Act of 1999.”

SECTION 2. Repeal of certain Federal transfer taxes

Repeals Subtitle B of the Internal Revenue Code (IRC), thus eliminating the federal estate, gift, and generation-skipping transfer taxes as of the date of enactment.

SECTION 3. Termination of a step-up in basis at death

Amends IRC Section 1014 to eliminate the step-up in basis at death with respect to property acquired from a decedent dying after the date of enactment. The basis for such property is to be determined pursuant a new IRC Section 1022 (section 4 of the bill).

SECTION 4. Carryover basis at death

Establishes a new IRC Section 1022 to provide for carryover basis for certain property acquired from a decedent:

(a) If property is classified as carryover basis property, its new basis in the hands of the acquiring person will be its initial basis, increased by its allowable share of the decedent’s exclusion allowance determined under (b) below.

(b) Carryover basis property means property which has been acquired from a decedent who died after the date of enactment, and which is not any of the following:

(1) Property acquired from the decedent and sold, exchanged, or otherwise disposed of by the acquiring person before the decedent’s death;

(2) An item of income in respect of a decedent;

(3) Life-insurance proceeds under IRC Section 1032;

(4) Foreign personal holding company stock as described in IRC Section 1041(b)(5); or

(5) Property transferred to a surviving spouse, the value of which would have been deductible from the value of the taxable estate of the decedent up to IRC Section 2056.

(6) Tangible personal property (e.g., household effects) valued at $50,000 or less which was a capital asset in the hands of the decedent and for which the executor has made an election on a required information return.

(c) The decedent’s general exclusion allowance is equal to the lesser of:

(1) an applicable amount for the year of the decedent’s death as follows:

$650,000 in 1999

$675,000 in 2000 and 2001

$700,000 in 2002 and 2003

$725,000 in 2004

$750,000 in 2005

$1 million in 2006 and thereafter.

(2) The aggregate net appreciation (fair market value, less initial basis) of all carryover basis property.

Except that, if the decedent had a deceased spouse whose own exclusion allowance was less than the applicable amount for that spouse, the decedent’s applicable amount will be increased by the unallocated portion of the deceased spouse’s applicable amount.

(2) As per current law, family-owned businesses and farms would be eligible for an additional exclusion, which combined with the general exclusion allowance could total up to $1.3 million.

(3) The executor will allocate the exclusion-allowance amount to the carryover basis property on a required information return. Any allocation may be changed at any time up to the 30th day after the initial-basis

May 26, 1999
May 26, 1999

CONGRESSIONAL RECORD—SENATE

10989

finality date, which means the last day on which the initial basis of property may be changed in an administrative or judicial proceeding under new IRC Section 7480. The basis adjustment for any property shall not exceed the net appreciation in such property and may not increase the basis of such property above its fair market value.

In the case of any carryover basis property which is a personal or household effect, the basis of such property in the hands of the acquiring person shall not exceed its fair market value for purposes of determining loss.

A nonresident alien citizen of the United States is ineligible for a basis adjustment based upon a decedent’s exclusion allowance.

(d) Establishes a new IRC Section 6039H to require an executor to file an information return providing all of the necessary information with respect to carryover basis property. An executor is required to furnish, in writing, the basis of such item to each person acquiring an item or carryover basis property from a decedent.

By Mr. DOMENICI:

S. 1129. A bill to facilitate the acquisition of inholdings in Federal land management units and the disposal of surplus public land, and for other purposes; to the Committee on Energy and Natural Resources.

FEDERAL LAND TRANSACTION FACILITATION ACT

Mr. DOMENICI. Mr. President, today I introduce the Federal Land Transaction Facilitation Act, which addresses longstanding problems encountered by Federal land managers first, in disposing of surplus federal property, and secondly, in acquiring private inholdings within federally designated areas. This legislation builds on existing laws and provides resources dedicated to the consolidation of federal agencies.

I first introduced this bill prior to the end of the 105th Congress, as Title II to the Valles Caldera Preservation Act. This portion of that legislation was independent of the proposed acquisition of land in New Mexico, and perhaps more important. Again this year, Congress will commit large sums of federal taxpayer dollars to purchase new property. Before we do, however, it seems prudent to provide a framework for the orderly disposal of unneeded federal property that also commits resources to meet our current obligations to those who hold land surrounded by federal property.

Currently, one-third of the land area in New Mexico is owned by the Federal government, owned by the eleven Western States, the Federal government owns approximately one half of the land. I agree that this public land is an important natural resource that requires our most thoughtful consideration in the way it is managed and used by the public.

To best conserve our existing national treasures for future use and enjoyment, we must devise, with the concurrence of other members of Congress and the President, a definite plan and timetable for the transfer of surplus land, through sale or exchange, into private, or State and local government ownership.

The Federal Land Transaction Facilitation Act provides for the orderly disposition of unneeded Federal property on a state by state basis. It also addresses the problem of what are known as “inholdings” within federally managed areas. These interrelated problems give rise to an interrelated solution proposed in this legislation.

There are currently more than 45 million acres of privately owned land trapped within the boundaries of Federal land management units, including national parks, national forests, national monuments, national wildlife refuges, and the Bureau of Land Management. In many cases, the location of these tracts, referred to as inholdings, makes the exercise of private property rights difficult for the land owner. In addition, management of the public land is made more cumbersome for the Federal managers.

There are also cases where inholders have been waiting generations for the federal government to set aside funding and prioritize the acquisition of their property. With rapidly growing public demand for the use of public land, it is increasingly difficult for federal managers to address problems created by inholdings in many areas.

This legislation directs the Department of the Interior to identify inholdings existing within Federal land management units that landowners have indicated a desire to sell to the Federal government. Inholdings will only be considered for acquisition by the BLM after public notice, landowners indicate their willingness to sell. The Secretary will then establish a priority for their acquisition considering, among other factors, those which have existed as inholdings for the longest time.

Additional, this legislation authorizes the use of the proceeds generated from sale of land no longer needed by the Bureau of Land Management (BLM) to purchase these inholdings from willing sellers. This will enhance the ability of the BLM, State and local land managers, to work cooperatively with private land owners, and with State and local governments, to consolidate the ownership of public and private land in a manner that would allow for better overall resource management.

There is an abundance of public domain land that the BLM has determined it no longer needs to fulfill its mission. Under the Federal Land Policy and Management Act of 1976 (FLPMA), the BLM has identified an estimated four to six million acres of public domain land for disposal, with public input and consultation with State and local governments as required by law.

It is my view that these public lands already have been authorized under an existing law. FLPMA, to exchange or sell land out of Federal ownership. Through its public process for land use planning, when the agency has determined that certain land would be more useful to the public under private or local governmental control, it is already authorized to dispose of this land, either by sale or exchange. This legislation maintains every aspect of existing law. It also provides an orderly process, and sufficient resources, for the BLM to exercise it.

The sale or exchange of land which I have often referred to as “surplus,” would be beneficial to local communities, adjoining land owners, and BLM land managers alike. First, it would allow for the reconfiguration of land ownership patterns to better facilitate resource management. Second, it would contribute to administrative efficiency within Federal land management units, by allowing for better allocation of fiscal and human resources within the agency. Finally, in certain locations, the sale of public land which has been identified for disposal is the best way for the public to realize a fair value for this land.

The problem is that an orderly process for the efficient disposition of lands identified for disposal does not currently exist. This legislation corrects that problem by directing the BLM to fulfill all legal requirements for the transfer of land out of Federal ownership, and providing a dedicated source of funding generated from the sale of this land to continue this process.

I want to make it clear that this program will in no way detract from other programs with similar purposes. The bill clearly states that proceeds generated from the disposal of public land, and dedicated to the acquisition of inholdings, will supplement, and not replace, funds appropriated for that purpose through the Land and Water Conservation Fund. In addition, the bill states that the BLM should rely on non-Federal entities to conduct appraisals and other research required for the sale or exchange of this land, allowing for better allocation of resources to existing land and resource management programs.

This bill has been a long time in the making. For over a year, now, I have been working with and talking to knowledgeable people, both inside and outside of the current administration, to develop many of the ideas embodied in this bill. Prior to adjournment of the 105th Congress, my staff and I worked closely with the administration on this legislation. I have since received additional comments from the Interior Department, and have included many of their suggestions into this bill.
I feel comfortable in stating that by working together, we have reached agreement in principle on the best way to proceed with these very important issues involving the management of public land resources, namely, the disposition of surplus public land in combination with a program to address problems associated with inholdings within our Federal land management units.

I look forward to hearings on this matter, and anticipate that most of my fellow Senators will agree that Federal Land Transaction Facilitation Act logically addresses this management issue. I believe that in the end, we will be able to stand together and tell the American people that we truly have accomplished a great and innovative thing with this legislation.

Mr. President, I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1129
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.
This Act may be cited as the “Federal Land Transaction Facilitation Act”.

SEC. 2. FINDINGS.
Congress finds that—

(1) the Bureau of Land Management has authority under the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) to sell land identified for disposal under its land use planning;

(2) the Bureau of Land Management has authority under that Act to exchange Federal land for non-Federal land if the exchange would be in the public interest;

(3) Federal land management agencies of the Department of the Interior have authority under existing law to acquire land consistent with land use plans and the mission of each agency;

(4) the land management agencies of the Bureau of Land Management may use non-Federal entities to prepare appraisal documents for agency review and approval consistent with applicable provisions of the Uniform Standards for Federal Land Acquisition.

SEC. 3. DEFINITIONS.
In this Act:

(1) EXCEPTIOINAL RESOURCE.—The term ‘exceptional resource’ means a resource of scientific, historic, cultural, or recreational value that has been documented by a Federal, State, or local governmental authority, and for which extraordinary conservation and protection is required to maintain the resource for the benefit of the public.

(2) FEDARLY DESIGNATED AREA.—The term “Federally designated area” means a land administered by the Secretary in Alaska and the eleven contiguous Western States established or designated for special management; or

(A) a national monument, area of critical environmental concern, national conservation area, national riparian conservation area, national recreation area, national scenic area, research natural area, national outstanding natural area, or a national natural landmark managed by the Bureau of Land Management;

(B) a unit of the National Park System;

(C) a unit of the National Wildlife Refuge System;

(D) a wilderness area designated under the Wilderness Act (16 U.S.C. 1131 et seq.), the Wild and Scenic Rivers Act (16 U.S.C. 1271 et seq.), or the National Trails System Act (16 U.S.C. 1291 et seq.);

(3) INHOLDING.—The term “inholding” means any real, title, or interest, held by a non-Federal entity, in or to a tract of land that lies within the boundary of a federally designated area.

(5) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

SEC. 4. IDENTIFICATION OF INHOLDINGS.
(a) IN GENERAL.—The Secretary shall establish a procedure to—

(1) identify, by State, inholdings within federally designated areas for which the landowner has indicated a desire to sell the land or an interest in land to the Federal Government; and

(2) establish the date on which the land or interest in land identified became an inholding.

(b) NOTICE OF POLICY.—The Secretary shall provide, in the Federal Register and through other means as necessary, notice to determine to be appropriate, periodic notice to the public of the policy under subsection (a), including any information required by the Secretary to consider an inholding for acquisition under section 6.

(c) IDENTIFICATION.—An inholding—

(1) shall be considered for identification under this section only if the Secretary receives notification of a desire to sell from the landowner in response to public notice given under subsection (b); and

(2) shall be deemed to have been established as of the later of—

(A) the earlier of—

(i) the date on which the land was withdrawn from the public domain; or

(ii) the date on which the land was established or designated for special management;

or

(B) the date on which the inholding was acquired by the current owner.

(d) APPLICATION TO THE SECRETARY OF AGRICULTURE.—If funds become available under section 6(c)(7) of this Act, this section shall apply to the Secretary of Agriculture; and

(2) private land within an area described in that section shall be deemed to be an inholding for the purposes of this Act.

(e) NO OBLIGATION TO CONVEY OR ACQUIRE.—The identification of an inholding under this section creates no obligation on the part of a landowner to convey the inholding or any obligation on the part of the United States to acquire or acquire the inholding.

SEC. 5. DISPOSAL OF PUBLIC LAND.
(a) IN GENERAL.—The Secretary shall establish a program, using funds made available under section 6, to complete appraisals of the landowner in response to public notice given under subsection (b); and

(2) exceptions to competitive bidding requirements. The exceptions to competitive bidding requirements under section 203(f) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1713(f)) shall apply to this section in cases in which the Secretary determines it to be necessary.

REPORT IN PUBLIC LAND STATISTICS.—The Secretary shall provide in the annual publication of Public Land Statistics, a report of activities under this section.

SEC. 6. FEDERAL LAND DISPOSAL ACCOUNT.
(a) DEPOSIT OF PROCEEDS.—Notwithstanding any other law (except a law that specifically provides for a proportion of the

CONGRESSIONAL RECORD—SENATE May 26, 1999
proceeds to be distributed to any trust funds of any other proceeds of the sale or exchange of public land under this Act shall be deposited in a separate account in the Treasury of the United States to be known as the “Federal Land Disposal Account.”

(b) AVAILABILITY.—Amounts in the Federal Land Disposal Account shall be available to the Secretary, without further Act of appropriation, to carry out this Act.

(c) USE OF THE FEDERAL LAND DISPOSAL ACCOUNT.—

(1) IN GENERAL.—Funds in the Federal Land Disposal Account shall be expended in accordance with this subsection.

(2) FUND ALLOCATION.—

(A) PURCHASE OF LAND.—Except as authorized under subparagraph (C), funds shall be used to purchase—

(i) inholdings; and

(ii) land adjacent to federally designated areas that contains exceptional resources.

(B) INHOLDINGS.—Not less than 80 percent of the funds allocated for the purchase of land within each State shall be used to acquire—

(i) inholdings identified under section 4; and

(ii) National Forest System land as authorized under subparagraph (E).

(C) ADMINISTRATIVE AND OTHER EXPENSES.—An amount not to exceed 20 percent of the funds allocated for the purchase of land shall be used for administrative and other expenses necessary to carry out the land disposal program under section 5.

(D) STATE PURCHASES.—Of the amounts not used under subparagraph (C), not less than 80 percent shall be expended within the State in which the funds were generated. Any remaining funds may be expended in any other State.

(E) PURCHASE OF NATIONAL FOREST SYSTEM LAND.—Beginning 5 years after the date of enactment of this Act, if, for any fiscal year, the Secretary determines that funds allocated for the acquisition of inholdings under this section exceed the availability of inholdings within a State, the Secretary may use the excess funds to purchase land, on behalf of the Secretary of Agriculture, within the boundaries of a national recreation area, a national monument, national volcanic area, or any other area designated for special management by an Act of Congress within the National Forest System.

(3) PRIORITY.—The Secretary may develop and use criteria for priority of acquisition that are based on—

(A) the date on which land or interest in land became an inholding; and

(B) the existence of exceptional resources on the land; and

(C) management efficiency.

(4) BASIS OF SALE.—Any acquisition of land under this section shall be—

(A) from a willing seller; (B) contingent on the conveyance of title acceptable to the Secretary (and the Secretary of Agriculture, in the case of an acquisition of National Forest System land) using title standards of the Attorney General; and

(C) at not less than fair market value consistent with applicable provisions of the Uniform Conveyancing and Title Standards for Land Disposal Acquisitions.

(d) CONTAMINATED SITES AND SITES DIFFICULT AND UNECONOMIC TO MANAGE.—Funds in the Federal Land Disposal Account shall not be used to purchase land or an interest in land that, as determined by the Secretary—

(1) contains a hazardous substances or is otherwise contaminated; or

(2) because of the location or other characteristic of the land, would be difficult or uneconomic to manage as Federal land.

(e) INFLOW.—Inflow in the Federal Land Disposal Account shall earn interest at a rate determined by the Secretary of the Treasury based on the current average market yield of United States Treasury obligations of the United States of comparable maturities.

SEC. 7. SPECIAL PROVISIONS.

(a) IN GENERAL.—Nothing in this Act provides an exemption from any limitation on the acquisition of land or interest in land under any Federal Law in effect on the date of enactment of this Act.

(b) OTHER LAW.—This Act shall not apply to land eligible for sale under—

(1) Public Law 96–588 (commonly known as the “Santini-Burton Act”) (94 Stat. 3381); or

(c) EXCHANGES.—Nothing in this Act applies to land that is acquired by exchange.

(d) EXEMPTION.—Nothing in this Act shall apply to land acquired by exchange under—

(1) any remaining balance in the Federal Land Disposal Account; or

(e) INVESTMENT.—Amounts in the Federal Land Disposal Account shall be invested in the United States of comparable market yields of United States Treasury obligations.

(f) TERMINATION.—On termination of activities under section 5—

(1) the Federal Land Disposal Account shall be terminated; and

(2) any remaining balance in the account shall become available for appropriation under section 3 of the Land and Water Conservation Fund Act (43 U.S.C. 650d–6).

Mr. MCCAIN. Mr. President, I rise to ask unanimous consent that the measure I am introducing prevent states from holding companies liable for accidents based solely upon their ownership of the vehicles. The bill makes clear that rental companies would still be liable if the vehicle did not operate properly. It makes clear that companies are not excused from meeting state minimum insurance requirements on their motor vehicles. Minimum insurance requirements ensure that people involved in accidents with vehicles owned by rental companies have recourse to recover some damages.

The reason most often cited for imposing vicarious liability is to ensure that an innocent third party can recover damages in an accident. Unfortunately, this question for a financially responsible defendant has lead to absurd results. If a vehicle is purchased from a bank or finance company, then there is no vicarious liability. However, if that same vehicle is leased, vicarious liability applies.

This problem attracted my attention because of the impact the policies of a small number of states have on interstate commerce. Settlements and judgments from vicarious liability claims against rental companies cost the industry over $100 million annually. And let me be clear, it is the consumer who is paying this cost.

For these reasons, this bill and the reforms it implements are long overdue. Everyone, companies and individuals alike should be held liable only for harm they caused or could have prevented. The only way these companies can prevent this harm would be to go out of business. This is an absurd expectation that will be remedied by this bill.

I look forward to hearings on this matter and working with my colleagues to ensure its passage. I ask unanimous consent that a copy of the bill be printed in the RECORD.
leasing customers throughout the United States; and
(2) pose a significant competitive barrier to entry for smaller motor vehicle rental and leasing companies attempting to compete in these markets.

In consideration of a fundamental principle of fairness that there should be no liability in the absence of fault.

SEC. 3. LIMITATION ON LIABILITY.

(a) In General.—Part C of subtitle VI of title 49, United States Code, is amended by adding at the end thereof the following:

"CHAPTER 333. LIABILITY FOR COMPANIES THAT RENT OR LEASE MOTOR VEHICLES.

"Sec. 33301. Limitation of liability

1. § 33301. Limitation of liability

(a) In General.—Notwithstanding any State statutory or common law, no State or political subdivision of a State may hold any business entity engaged in the trade or business of renting or leasing motor vehicles liable to others for harm caused by a person to himself or herself, another person, or to property resulting from that person's operation of a rented or leased motor vehicle solely because that business entity is the owner of the vehicle.

(b) Application with certain other laws.

(1) NEGLIGENCE.—Subsection (a) does not apply to liability imposed under a State's statutory or common law based on negligence of a motor vehicle owner.

(2) FINANCIAL RESPONSIBILITY LAWS.—Nothing in this section supersedes the law of any State or political subdivision thereof—

(A) imposing financial responsibility or insurance standards on the owner of a motor vehicle for the privilege of registering and operating a motor vehicle; or

(B) imposing liability on business entities engaged in the trade or business of renting or leasing motor vehicles for failure of such entity to meet financial responsibility or liability insurance requirements under State law.

(c) DEFINITIONS.—In this section:

(1) BUSINESS ENTITY.—The term 'business entity' means a sole proprietorship, corporation, partnership, association, joint stock company, or any other entity engaged in the trade or business of renting or leasing motor vehicles, including motor vehicle dealers, and the employees of such business entity.

(2) MOTOR VEHICLE.—The term 'motor vehicle' means a motor vehicle, or a motor vehicle for rental or lease, of any kind or type, regardless of size, seating capacity, or use.

(3) OWNER.—The term 'owner' means

(A) a person who is the record or beneficial owner or long-term lessee of a motor vehicle;

(B) a person entitled to the use and possession of a motor vehicle subject to a security interest in another person;

(C) a lessee or bailee of a motor vehicle in the trade or business of renting or leasing motor vehicles, having the use or possession thereof, under a lease, bailment, or otherwise.

(4) PERSON.—The term 'person' has the meaning given to it by section 1 of title 1, but without provision for victimization.

(5) GOVERNMENT ENTITY.—The term 'government entity' means an agency, including instrumentalities, and any entity of Federal, State, or local government, including multijurisdictional agencies, instrumentalities, and entities.

(b) CONFORMING AMENDMENT.—The analysis for part C of title 49, United States Code, is amended by inserting after the item relating to chapter 331, the following:

"333. Liability for companies that rent or lease motor vehicles ....... 33301".

SEC. 4. EFFECTIVE DATE.

Section 33301 of title 49, United States Code, as added by section 3 of this Act, applies to any civil action commenced on or after the date of enactment of this Act.

Mr. ASHCROFT. Mr. President, I rise today in support of the legislation being introduced by the distinguished Chairman of the Senate Commerce Committee—the senior Senator from Arizona. I strongly support the reforms to state vicarious liability laws contained in the "Motor Vehicle Rental Fairness Act of 1999" and urge my colleagues to support this important bill and move it swiftly towards enactment.

I commend the chairman for taking the lead on this important legislation. His bill, of which I am proud to be an original cosponsor, seeks to put a halt to an absurd aberration in our legal system. Under the vicarious liability laws of a very small number of states, companies that rent or lease motor vehicles are held strictly liable if their renters or lessees are negligent and cause an accident. The company does not have to be negligent in any way. The vehicle may operate perfectly and be maintained properly. These states simply hold the company liable because of the ownership of the vehicle.

The only way for these companies to avoid this liability would be to stop renting or leasing these vehicles. This is not an acceptable resolution to this problem. The American justice system should be based on the general principle that a defendant should be held liable only for harm he or she could prevent—not merely because the defendant has a 'deep pocket.'

Vicarious liability laws undermine competition in these states and have driven smaller rental and leasing companies out of business. In fact, vicarious liability laws undermine competition in these states and have driven smaller rental and leasing companies out of business. In fact, vicarious liability acts as a tax on all rental and leasing companies—and their customers—because these companies must try to recover their losses from vicarious claims through rental rates nationwide.

It is time to put a stop to this legal disconnect. Hold these companies liable if they are negligent. Hold them liable if they fail to properly maintain one of the vehicles they rent or lease. But do not hold them liable simply for being in business—for fulfilling the needs of our traveling constituents.

Mr. President, I look forward to hearings on the Senate from Arizona's legislation at the earliest possible date and hope to move this legislation through this body as quickly as possible.

By Mr. EDWARDS (for himself and Mr. HAGEL):
Mr. President, my proposal seeks to capitalize on the good news. It would:

Expand and coordinate research into Fragile X under the direction of the National Institute of Child Health and Human Development—a division of the National Institutes of Health;

(A) EXPANSION AND COORDINATION OF RESEARCH ACTIVITIES.—The Director of the Institute, after consultation with the advisory council for the Institute, shall make grants to, or enter into contracts with, public or nonprofit private entities for the development and operation of centers to conduct research for the purposes of improving the diagnosis and treatment of, and finding the cause of, Fragile X.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1131

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Fragile X Research Breakthrough Act of 1999".

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Fragile X is the most common inherited cause of mental retardation. It affects 1 in every 2,000 boys and 1 in every 4,000 girls.

(2) Most children with Fragile X require a lifetime of special care at a cost of over $2,000,000 per child.

(3) Relatively newly-discovered and relatively unknown, even in the medical profession, Fragile X is caused by the absence of a single protein that can be produced synthetically in a form that cannot yet be effectively assimilated.

(4) Fragile X research, both basic and applied, is vastly underfunded in view of its potential. The promise for the development of a cure, the established benefits of currently available interventions, and the significance that Fragile X research has for related disorders.

(5) Fragile X is a powerful research model for other forms of X-linked mental retardation, as well as neuropsychiatric disorders, including autism, schizophrenia, mood disorders, and pervasive developmental disorder. Individuals with Fragile X are a homogeneous study population for advancing understanding of these disorders.

SEC. 3. NATIONAL INSTITUTE OF CHILD HEALTH AND HUMAN DEVELOPMENT: RESEARCH ON FRAGILE X.

Subpart 7 of part C of title IV of the Public Health Service Act (42 U.S.C. 266g et seq.) is amended by adding at the end the following:

1. IN GENERAL.—The Director of the Institute, after consultation with the advisory council for the Institute, shall make grants to, or enter into contracts with, public or nonprofit private entities for the development and operation of centers to conduct research for the purposes of improving the diagnosis and treatment of, and finding the cause for, Fragile X.

2. NUMBER OF CENTERS.—In carrying out paragraph (1), the Director of the Institute shall, to the extent that amounts are appropriated, provide for the establishment of at least 3 Fragile X research centers.

3. ACTIVITIES.—

(1) A conduct basic and clinical research, which may include clinical trials of—

(II) new or improved diagnostic methods; and

(A) IN GENERAL.—Each center assisted under paragraph (1) shall, with respect to Fragile X—

(A) in conducting research, may include clinical trials of—

(II) drugs or other treatment approaches; and

(II) conduct research directed to finding a cure.

(B) FEES.—A center may use funds provided under paragraph (1) to provide fees to individuals serving as subjects in clinical trials conducted under subparagraph (A).
(4) COORDINATION AMONG CENTERS.—The Director shall, to the extent appropriate, provide for the coordination of the activities of the centers assisted under this section, including providing for the exchange of information among the centers.

(5) CERTAIN ADMINISTRATIVE REQUIREMENTS.—Each center assisted under paragraph (1) shall use the facilities of a single institution, and each center shall be selected from a consortium of cooperating institutions, meeting such requirements as may be prescribed by the Director of the Institute.

(6) FUNDING FOR SUPPORT.—Support may be provided to a center under paragraph (1) for a period of not to exceed 5 years. Such period may be extended for one or more additional periods, each of which may not exceed 5 years, if the operations of such center have been reviewed by an appropriate technical and scientific peer review group established by the Director and if such group has recommended to the Director that such period be extended.

(7) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out the subsection, there are authorized to be appropriated $10,000,000 for fiscal year 2000, and such sums as may be necessary for each subsequent fiscal year.

SEC. 4. NATIONAL INSTITUTE OF CHILD HEALTH AND HUMAN DEVELOPMENT: LOAN REPAYMENT PROGRAM REGARDING RESEARCH ON FRAGILE X.

Part G of title IV of the Public Health Service Act (42 U.S.C. 288 et seq.) is amended by inserting after section 487E the following:

SEC. 487F. LOAN REPAYMENT PROGRAM REGARDING RESEARCH ON FRAGILE X.

(a) IN GENERAL.—The Secretary, in consultation with the Director of the National Institute of Child Health and Human Development, shall establish a program under which the Federal Government enters into contracts with qualified health professionals (including graduate students) who agree to conduct research regarding Fragile X in consideration of the Federal Government’s agreement to repay, for each year of such service, not more than $35,000 of the principal and interest of the educational loans owed by such health professionals.

(b)(4) CERTAIN PROVISIONS.—With respect to the National Health Service Corps Loan Repayment Program established in part III of title V of the Public Health Service Act (42 U.S.C. 332 et seq.), the program established in subsection (a) above shall be conducted in such manner and to the same extent as such provisions apply to the National Health Service Corps Loan Repayment Program established in such part.

(c) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated $2,000,000 for fiscal year 2000, and such sums as may be necessary for each subsequent fiscal year. Amounts appropriated for a fiscal year under the preceding sentence shall remain available until the expiration of the second fiscal year beginning after the fiscal year for which the amounts were appropriated.

Mr. HAGEL. Mr. President, I rise today to introduce a measure that will not only promote employee ownership, but also enhance retirement savings. The “ESOP Dividend Reinvestment and Participant Security Act of 1999” will grant many workers their long-sought desire to share in the growth of their company while not sacrificing one nickel of their retirement security. This legislation will permit employees to reinvest dividends paid on employer securities held in an ESOP without going through the administrative complexity that companies currently face in order to encourage workers to keep their dividends in the plan.

Under current law, an employer may deduct the dividends paid on employer securities in an ESOP only if the dividends are used to repay an ESOP loan or they are paid in cash to participants. This runs counter to the most important theme expressed by this administration as well as many others since the passage of ERISA—what to do about “leakage” in our retirement programs, or assets coming out of plans prematurely. In short, we need to encourage our nation’s workers to keep their money in their retirement plans and not let small amounts drip out over time so that little is left by the time they enter retirement. The bill I am introducing today addresses this issue and would bolster the retirement security of ESOP participants because it would encourage both employees and employers to reinvest their dividends in the company.

Not only does the current approach of denying a deduction for reinvested dividends discourage the accumulation of assets for retirement, it also thwarts one of the primary purposes of an ESOP—providing an efficient means for employees to build an ownership interest in their company. Congress has steadfastly maintained the ESOP dividend deductibility rules for over 15 years in order to encourage employers to establish ESOPs that hold dividend-paying company stock. These rules clearly are intended to provide ESOP participants a broader opportunity to share in the company’s growth and to ultimately use such growth to provide retirement assets. Unfortunately, our present rules fall short of the mark.

This bill fulfills the promise inherent in the original ESOP dividend deduction provision. The “ESOP Dividend Reinvestment and Participant Security Act of 1999” would allow the employees the ability to retain the dividends paid on employer stock in the ESOP and to reinvest these amounts in the employer stock for continuing growth and accumulation. No employee would then be forced to receive dividends that could instead be used to build retirement savings. And, all employees could receive the benefit of participating in their company’s growth.
Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD. There being no objection, the bill was ordered to be printed in the RECORD, as follows:

Mr. GRAMS. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD. There being no objection, the bill was ordered to be printed in the RECORD, as follows:

Mr. GRAMS. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD. There being no objection, the bill was ordered to be printed in the RECORD, as follows:

By Mr. ROTH:

S. 1134. An original bill to amend the Internal Revenue Code of 1986 to allow tax-free expenditures from education individual retirement accounts for elementary and secondary school expenses, to increase the maximum annual amount of contributions to such accounts, and for other purposes; from the Committee on Finance; placed on the calendar.

AFFORDABLE EDUCATION ACT OF 1999

Mr. ROTH. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD. There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1134

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE; AMENDMENT OF 1986 CODE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Affordable Education Act of 1999.”

(b) AMENDMENT OF 1986 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

(c) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

TITLE I—EDUCATION SAVINGS INCENTIVES

TITLE II—EDUCATIONAL ASSISTANCE

TITLE III—LIBERALIZATION OF TAX-EXEMPT FINANCING RULES FOR PUBLIC SCHOOL CONSTRUCTION PROJECTS

TITLE IV—REVENUE PROVISIONS

SEC. 101. MODIFICATIONS TO EDUCATION INDIVIDUAL RETIREMENT ACCOUNTS.

(a) MAXIMUM ANNUAL CONTRIBUTIONS.—

(1) IN GENERAL.—Section 530(b)(1)(A)(ii) (defining education individual retirement account) is amended by striking “$3,000” and inserting “the contribution limit for such taxable year”.

(2) CONTRIBUTION LIMIT.—Section 530(b) (relating to definitions and special rules) is amended by adding at the end the following new paragraph:

“(4) CONTRIBUTION LIMIT.—The term ‘contribution limit’ means $500 ($2,000 in the case of any taxable year beginning after December 31, 1999).”

(b) TAX-FREE EXPENDITURES FOR ELEMENTARY AND SECONDARY SCHOOL EXPENSES.—

(1) IN GENERAL.—Section 530(b)(2) (defining qualified higher education expenses) is amended to read as follows:

“(2) QUALIFIED EDUCATION EXPENSES.—

“(A) IN GENERAL.—The term ‘qualified education expenses’ means—

“(i) qualified higher education expenses (as defined in section 529(e)(3)), and

“(ii) qualified elementary and secondary education expenses (as defined in paragraph (b)).

Such expenses shall be reduced as provided in section 25A(g)(2).

“(B) QUALIFIED STATE TUITION PROGRAMS.—Such term shall include any contribution to a qualified State tuition program (as defined in section 529(b) on behalf of the designated beneficiary (as defined in section 529(e)(1)); but there shall be no increase in the investment in the contract for purposes of applying section 72 by reason of any portion of such contribution which is not includible in gross income by reason of subsection (d)(2).”

(2) QUALIFIED ELEMENTARY AND SECONDARY EDUCATION EXPENSES.—Section 530(b)
(relating to definitions and special rules), as amended by subsection (a)(2), is amended by adding at the end the following new paragraph:

"(5) QUALIFIED ELEMENTARY AND SECONDARY EDUCATION EXPENSES.—

"(A) IN GENERAL.—The term 'qualified elementary and secondary education expenses' means—

(i) expenses for tuition, fees, academic tutoring, special needs services, books, supplies, computer equipment (including related software and services), and other equipment which are incurred in connection with the enrollment or attendance of the designated beneficiary of the trust as an elementary or secondary school student at a public, private, or religious school, and

(ii) expenses for room and board, uniforms, transportation, and supplementary items and services (including extended day programs) which are required or provided by a public, private, or religious school in connection with such enrollment or attendance.

"(B) SPECIAL RULE FOR HOMESCHOOLING.—Such term does not include expenses described in subparagraph (A)(i) in connection with education provided by homeschooling if the requirements of any applicable State or local law affecting such education are met.

"(C) SCHOOL.—The term 'school' means any school which provides elementary education or secondary education (kindergarten through grade 12), as determined under State law.

"(D) SPECIAL RULES FOR APPLYING EXCLUSION TO ELEMENTARY AND SECONDARY EXPENSES.—Section 530(d)(4) (relating to distributions for qualified higher education expenses) is amended by adding at the end the following new subparagraph:

"(E) The term 'qualified elementary and secondary education expenses' includes—

(i) expenses described in clause (i), and

(ii) expenses described in clause (ii)."

(3) SPECIAL RULES FOR APPLYING EXCLUSION TO ELEMENTARY AND SECONDARY EXPENSES.—Section 530(d)(4) (relating to distributions for qualified higher education expenses) is amended by adding at the end the following new paragraph:

"(5) In general.—The aggregate amount of qualified elementary and secondary education expenses taken into account for any taxable year, such excess distributions shall be allocated first to contributions and earnings described in clause (i), and

"(6) time when contributions deemed made.—(A) In general.—(i) The term 'school' means any school which provides elementary education or secondary education (kindergarten through grade 12), as determined under State law.

"(B) SPECIAL RULE FOR HOMESCHOOLING.—Such term does not include expenses described in subparagraph (A)(i) in connection with education provided by homeschooling if the requirements of any applicable State or local law affecting such education are met.

"(C) SCHOOL.—The term 'school' means any school which provides elementary education or secondary education (kindergarten through grade 12), as determined under State law.

"(D) SPECIAL RULES FOR APPLYING EXCLUSION TO ELEMENTARY AND SECONDARY EXPENSES.—Section 530(d)(4) (relating to distributions for qualified higher education expenses) is amended by adding at the end the following new subparagraph:

"(E) The term 'qualified elementary and secondary education expenses' includes—

(i) expenses described in clause (i), and

(ii) expenses described in clause (ii)."

(4) CONFORMING AMENDMENTS.—Section 530 is amended—

(A) by striking "higher" each place it appears in subsections (b)(1) and (d)(2), and

(B) by striking "highest" in the heading for subsection (d)(2).

(5) WAIVER OF AGE LIMITATIONS FOR CHILDREN WITH SPECIAL NEEDS.—Section 530(b)(1) (defining education individual retirement accounts) is amended—

(A) by striking "higher" each place it appears in subparagraphs (A)(i) and (B) and

(B) by striking "highest" in the heading for subsection (d)."
CONGRESSIONAL RECORD—SENATE

May 26, 1999

established and maintained by 1 or more eligible educational institutions.

"(iii) IN-KIND DISTRIBUTIONS.—Any benefit furnished to a designated beneficiary under a qualified tuition program shall be treated as a distribution to the beneficiary for purposes of this paragraph.

"(iv) COORDINATION WITH HOPE AND LIFE-TIME LEARNING CREDITS.—(A) Except as provided in subclause (II), clause (i) shall not apply for any taxable year to any qualified higher education expenses with respect to any individual if they are otherwise allowed under section 25A with respect to such expenses for such taxable year.

"(II) SPECIAL COORDINATION.—In the case of any taxable year beginning after December 31, 1999, and before January 1, 2004, subclause (I) shall not apply, but the total amount of qualified higher education expenses otherwise taken into account under clause (i) with respect to an individual for any taxable year shall be reduced (after the application of the reduction provided in section 25A(g)(2)) by the amount of such expenses which were taken into account in determining the credit allowed to the taxpayer or any other person under section 25A with respect to such expenses.

"(v) COORDINATION WITH EDUCATION INRS.—If the aggregate distributions to a beneficiary for any taxable year under section 530(d)(2)(B) exceed $3,000, the taxpayer is treated as a distribution to the beneficiary for purposes of this paragraph.

"(B) Section 135(d)(2)(B) is amended by striking subsection (d) and by redesignating subsections (e), (f), and (g) as subsections (d), (e), and (f), respectively.

"(C) CONFORMING AMENDMENT.—Section 6050S(e) is amended by striking "section 6050S(e) is amended by striking "three" and inserting "five"".

"(D) IN GENERAL.—The amendment made by paragraph (1) shall apply with respect to such taxable year to any qualified higher education expenses otherwise taken into account in determining the credit allowed to the taxpayer or any other person under section 25A with respect to such expenses.

"(E) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to any loan interest paid after December 31, 1999.

SEC. 202. ELIMINATION OF 60-MONTH LIMIT ON STUDENT LOAN INTEREST DEDUCTION.

"(a) IN GENERAL.—Section 127(d) (relating to interest on student loans) is amended by striking subsection (d) and by redesignating subsections (e), (f), and (g) as subsections (d), (e), and (f), respectively.

"(B) CONFORMING AMENDMENT.—Section 6050S(e) is amended by striking "section 6050S(e) is amended by striking "two" and inserting "four"".

"(C) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to any loan interest paid after December 31, 1999.

SEC. 203. EXCLUSION OF CERTAIN AMOUNTS RECEIVED UNDER THE NATIONAL PUBLIC HEALTH PROFESSIONS SCHOLARSHIP AND FINANCIAL ASSISTANCE PROGRAM.

"(a) IN GENERAL.—Section 117(c) (relating to the exclusion from gross income amounts received as a qualified scholarship) is amended—

"(1) by striking "Subsections (a)" and inserting the following:

"(I) IN GENERAL.—Except as provided in paragraph (2), subsections (a), and

"(ii) RULES FOR CARRYFORWARD OF UNUSED LIMITATION.—A State may elect to carry forward an unused limitation for any calendar year for 5 calendar years following the calendar year in which the unused limitation arose under rules similar to the rules of section 117(d), except that the only purpose for which the carryforward may be elected is the issuance of exempt facility bonds described in subsection (a)(13)."

(b) QUALIFIED PUBLIC EDUCATIONAL FACILITIES.—Section 142 (relating to exempt financing for public educational facilities) is amended by striking the period at the end of paragraph (11) and inserting "or", and by adding at the end the following new paragraph:

"(12) qualified public educational facilities."
(c) Exemption from General State Voluntary Retirement Plans.—Paragraph (3) of section 146(c) (relating to exception for certain bonds) is amended—
(1) by striking "or (12)" and inserting "(12), or (13)"; and
(2) by striking "and environmental enhancements of hydroelectric generating facilities" and inserting "environmental enhancements of hydroelectric generating facilities, and qualified public educational facilities";
(d) Exemption from Limitation on Use for Exempt Facilities.—Section 145(f) (relating to certain rules not to apply to mortgage revenue bonds, qualified student loan bonds, and qualified 501(c)(3) bonds) is amended by adding at the end the following new paragraph:

"(3) Exempt facility bonds for qualified public-private schools.—Subsection (c) shall not apply to bonds issued as part of an issue described in section 142(a)(13) (relating to qualified public educational facilities)."

(e) Amendment.—The heading for section 174(h) is amended by striking "mortgage revenue bonds" and inserting "qualified student loan bonds, qualified 501(c)(3) bonds, and certain bonds".
(f) Effective Date.—The amendments made by this section shall apply to bonds issued after December 31, 1999.

SEC. 303. FEDERAL GUARANTEE OF SCHOOL CONSTRUCTION BONDS BY FEDERAL FINANCING BOARD.
(a) In General.—Section 149(b)(3) (relating to exceptions) is amended by adding at the end the following new subparagraph:

"(b) Federal guaranteed school construction bonds.—Any bond issued as part of an issue of 95 percent or more of the net proceeds of which are used for public school construction shall not be treated as federally guaranteed for any calendar year by reason of any guarantee by the Federal Housing Finance Board (through any Federal Home Loan Bank) under the Federal Home Loan Bank Act (12 U.S.C. 1421 et seq.), as in effect on the date of the enactment of this paragraph, to the extent the face amount of such bond is equal to, lesser than the aggregate face amount of such bonds previously so guaranteed for such year, does not exceed $500,000,000.

(b) Effective Date.—The amendment made by this section shall apply to bonds issued after December 31, 1999.

TITLE IV—REVENUE PROVISIONS
SEC. 401. MODIFICATION TO FOREIGN TAX CREDIT CARRYBACK AND CARRYOVER PERIODS.
(a) In General.—Section 904(c) (relating to limitations on carryback and carryover periods) is amended—
(1) by striking "in the second preceding taxable year," and
(2) by striking "or fifth and inserting "fifth, sixth, or seventh.";
(b) Effective Date.—The amendment made by subsection (a) shall apply to credits arising in taxable years beginning after December 31, 2001.

SEC. 402. LIMITATION ON USE OF NON-ACCRUAL EXPERIENCE METHOD OF ACCOUNTING.
(a) In General.—Section 48(b)(5) (relating to special rule for services) is amended—
(1) by inserting "in fields described in paragraph (2)(A)" after "services by such person", and
(2) by inserting "and certain personal" before "services" in the heading.
(b) Exemption.—In general.
(1) In General.—The amendments made by this section shall apply to taxable years ending after the date of the enactment of this Act.

(2) Change in Method of Accounting.—In the case of any taxpayer required by the amendments made by this section to change its method of accounting for its first taxable year ending after the date of the enactment of this Act—
(A) such change shall be treated as initiated by the taxpayer,
(B) such change shall be treated as made with the consent of the Secretary of the Treasury, and
(C) the amount of the adjustments required to be taken into account by the taxpayer under section 481 of the Internal Revenue Code of 1986 shall be taken into account over a period (not greater than 4 years) beginning with such first taxable year.

SEC. 403. RETURNS RELATING TO CANCELLATIONS OF INDEBTEDNESS BY ORGANIZATIONS LENDING MONEY.
(a) In General.—Paragraph (2) of section 6050F(c) (relating to definitions and special rules) is amended by striking "(C)" and inserting "(D) any organization a significant trade or business of which is the lending of money."
(b) Effective Date.—The amendment made by subsection (a) shall apply to discharges of indebtedness after December 31, 1999.

SEC. 404. EXTENSION OF INTERNAL REVENUE SERVICE USER FEES.
(a) In General.—Chapter 77 (relating to miscellaneous provisions) is amended by adding at the end the following new section:

"SEC. 7527. INTERNAL REVENUE SERVICE USER FEES.

"(1) In General.—The Secretary shall establish a program requiring the payment of user fees for—
(1) requests to the Internal Revenue Service for ruling letters, opinion letters, and determination letters, and
(2) other similar requests.

(b) Program Criteria.—
(1) In General.—The fees charged under the program required by subsection (a)—
(A) shall vary according to categories (or subcategories) established by the Secretary,
(B) shall be determined after taking into account the average time for (and difficulty of) complying with requests in each category (or subcategory), and
(C) shall be payable in advance.

(2) Exemptions, Etc.—The Secretary shall provide for such exemptions (and reduced fees) under such program as the Secretary determines to be appropriate.

(3) Average Fee Requirement.—The average fees charged under the program required by subsection (a) shall not be less than the amount determined under the following table:

<table>
<thead>
<tr>
<th>Category</th>
<th>Average Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Employee plan ruling and opinion ..</td>
<td>$250</td>
</tr>
<tr>
<td>Exempt organization ruling ........</td>
<td>$350</td>
</tr>
<tr>
<td>Employee plan determination ......</td>
<td>$350</td>
</tr>
<tr>
<td>Exempt organization determination -</td>
<td>$275</td>
</tr>
<tr>
<td>Chief counsel ruling .................</td>
<td>$200</td>
</tr>
</tbody>
</table>
| (c) Termination.—No fee shall be imposed under this subsection with respect to requests made after September 30, 2009.
| (d) Conforming Amendments.— |

(1) The table of sections for chapter 77 is amended by adding at the end the following new item:

"Sec. 7527. Internal Revenue Service user fees."

(2) Section 10511 of the Revenue Act of 1987 is repealed.

(c) Effective Date.—The amendments made by this section shall apply to requests made after the date of the enactment of this Act.

SEC. 405. PROPERTY SUBJECT TO A LIABILITY TREATED IN SAME MANNER AS ASSUMPTION OF LIABILITY.
(a) Receipt of Property Subject to a Liability Test.—
(1) Section 357. —Section 357(a)(2) (relating to assumption of liability) is amended by striking ", or acquires from the taxpayer property subject to a liability".

(2) Section 358. —Section 358(d)(1) (relating to assumption of liability) is amended by striking ", or acquired from the taxpayer property subject to a liability.

(3) Section 359. —
(A) Section 368(a)(1)(C) is amended by striking " , or the fact that property acquired is subject to a liability.

(B) The last sentence of section 368(a)(2)(B) is amended by striking " and the amount of any liability to which any property acquired from the acquiring corporation is subject.

(b) Clarification of Assumption of Liability.—
(1) General Rule.—Section 357 is amended by adding at the end the following new subsection:

"(d) Determination of Amount of Liability Assumed.—
(1) In General.—For purposes of this section, section 358(d), section 362(d), section 368(a)(1)(C), and section 368(a)(2)(B), except as provided in regulations—
(A) a recourse liability (or portion thereof) shall be treated as having been assumed if, as determined on the basis of all facts and circumstances, the transferee has agreed to, and is expected to, satisfy such liability or portion of such liability, whether or not the transferor has been relieved of such liability, and

(B) except to the extent provided in paragraph (2), a nonrecourse liability shall be treated as having been assumed by the transferee of any asset subject to such liability.

(2) Exception for Nonrecourse Liability.—The amount of the nonrecourse liability treated as described in paragraph (1)(B) shall be reduced by the lesser of—

"(A) the amount of such liability which an owner of other assets not transferred to the transferee and also subject to such liability has agreed with the transferee to, and is expected to, satisfy, or

"(B) the fair market value of such other assets (determined without regard to section 7701(g)).

(3) Regulations.—The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this subsection and section 362(d). The Secretary may also prescribe regulations which provide that the manner in which a liability is treated as assumed under this subsection is applied, where appropriate, elsewhere in this title.

(2) Limitation on Basis Increase Attributable to Assumption of Liability.—Sec- tion 362 is amended by adding at the end the following new subsection:

"(d) Limitation on Basis Increase Attributable to Assumption of Liability.—

May 26, 1999

10998

CONGRESSIONAL RECORD—SENATE
(1) IN GENERAL.—In no event shall the basis of any property be increased or the liability of any such liability, subsection (a) or (b) above the fair market value of such property (determined without regard to section 7701(g)) by reason of any gain recognized to the transferor as a result of the assumption of such liability.

(2) TREATMENT OF GAIN NOT SUBJECT TO TAX.—Except as provided in regulations, if—

(i) gain is recognized to the transferee as a result of assumption of a nonrecourse liability by a transferee which is also secured by assets transferred to such transferee,

(ii) no person is subject to tax under this title on such gain, then, for purposes of determining basis under subsections (a) and (b), the amount of gain recognized by the transferor as a result of the assumption of the liability shall be determined as if the liability were assumed by the transferee in connection with the transfer referred to in subparagraph (A).

(3) Section 351(h)(1) is amended by striking clause (ii) of subparagraph (A), determined without regard to section 7701(g).

(c) Application to Other Than Subchapter C.—

(1) Section 584.—Section 584(h)(3) is amended—

(B) by striking clause (ii) of subparagraph (B), determined without regard to section 7701(g)

(C) Application to Charitable Remainder Trusts.—In the case of a transfer to a charitable remainder trust or a charitable remainder annuity trust referred to in paragraph (1)(A) or (2)(A) of section 353(d) designated by the transferor, any member of the transferee, any life insurance, annuity, or endowment contract if any direct or indirect beneficiary under such contract is in connection with a transfer for which a deduction is not allowable under (ii) such trust is entitled to all the payments as beneficiaries under such contract, and

(ii) such organization possesses all of the incidents of ownership under such contract.

(2) The Secretary may require, in order for the charitable gift annuity to be treated as a charitable gift annuity, that—

(A) the charitable gift annuity is a bona fide residence of such trust at the time the obligation to pay a charitable gift annuity is entered into, and

(B) the charitable gift annuity is a bona fide residence of such trust at the time the obligation to pay a charitable gift annuity is entered into, and

(C) the only persons entitled to payments under such contract are persons entitled to the payment of the premiums paid after February 8, 1999 (determined as if such section applied to the charitable gift annuity as a whole).

(2) CONFORMING AMENDMENTS.—

(a) Section 531(b)(1) is amended by striking 

"(i) such organization possesses all of the incidents of ownership under such contract.

(ii) such organization is entitled to all the payments as beneficiaries under such contract, and

(iii) the timing and amount of payments under such contract are substantially the same as the timing and amount of payments to the transferee under the trust or contract.

(b) Section 357(b)(1) is amended by striking "or acquired.

(c) Section 357(c)(1) is amended by striking "the term 'assumed liabilities' means any liability of the common trust fund assumed by any regulated investment company in connection with the transfer referred to in paragraph (1)(A)

(d) Section 357(c)(3) is amended by striking "the amount of the liabilities to which the property is subject,

(e) Section 358(d)(1) is amended by striking "or to which the property transferred is subject"

(f) Section 358(d)(1) is amended by striking "or acquired.

(3) Section 407. Transfer of excess defined benefit plan assets for retiree health benefits.

(a) Extension.—

(1) In General.—Section 420(b)(5) (relating to expiration) is amended by striking "in any taxable year beginning after December 31, 2000" and inserting "made after September 30, 2009".

(2) Conforming Amendments.—

(1) IN GENERAL.—In no event shall the basis of any property be increased or the liability of any such liability, subsection (a) or (b) above the fair market value of such property (determined without regard to section 7701(g)) by reason of any gain recognized to the transferor as a result of the assumption of such liability.

(2) TREATMENT OF GAIN NOT SUBJECT TO TAX.—Except as provided in regulations, if—

(i) gain is recognized to the transferee as a result of assumption of a nonrecourse liability by a transferee which is also secured by assets transferred to such transferee,

(ii) no person is subject to tax under this title on such gain, then, for purposes of determining basis under subsections (a) and (b), the amount of gain recognized by the transferor as a result of the assumption of the liability shall be determined as if the liability were assumed by the transferee in connection with the transfer referred to in subparagraph (A).

(3) Section 351(h)(1) is amended by striking clause (ii) of subparagraph (A), determined without regard to section 7701(g)

(C) Application to Other Than Subchapter C.—

(1) Section 584.—Section 584(h)(3) is amended—

(B) by striking clause (ii) of subparagraph (B), determined without regard to section 7701(g)

(C) Application to Charitable Remainder Trusts.—In the case of a transfer to a charitable remainder trust or a charitable remainder annuity trust referred to in paragraph (1)(A) or (2)(A) of section 353(d) designated by the transferor, any member of the transferee, any life insurance, annuity, or endowment contract if any direct or indirect beneficiary under such contract is in connection with a transfer for which a deduction is not allowable under (ii) such trust is entitled to all the payments as beneficiaries under such contract, and

(ii) such organization possesses all of the incidents of ownership under such contract.

(2) The Secretary may require, in order for the charitable gift annuity to be treated as a charitable gift annuity, that—

(A) the charitable gift annuity is a bona fide residence of such trust at the time the obligation to pay a charitable gift annuity is entered into, and

(B) the charitable gift annuity is a bona fide residence of such trust at the time the obligation to pay a charitable gift annuity is entered into, and

(C) the only persons entitled to payments under such contract are persons entitled to the payment of the premiums paid after February 8, 1999 (determined as if such section applied to the charitable gift annuity as a whole).

(2) CONFORMING AMENDMENTS.—

(a) Section 531(b)(1) is amended by striking 

"(i) such organization possesses all of the incidents of ownership under such contract.

(ii) such organization is entitled to all the payments as beneficiaries under such contract, and

(iii) the timing and amount of payments under such contract are substantially the same as the timing and amount of payments to the transferee under the trust or contract.

(b) Section 357(b)(1) is amended by striking "or acquired.

(c) Section 357(c)(1) is amended by striking "the term 'assumed liabilities' means any liability of the common trust fund assumed by any regulated investment company in connection with the transfer referred to in paragraph (1)(A)

(d) Section 357(c)(3) is amended by striking "the amount of the liabilities to which the property is subject,

(e) Section 358(d)(1) is amended by striking "or to which the property transferred is subject"

(f) Section 358(d)(1) is amended by striking "or acquired.

(3) Section 407. Transfer of excess defined benefit plan assets for retiree health benefits.

(a) Extension.—

(1) In General.—Section 420(b)(5) (relating to expiration) is amended by striking "in any taxable year beginning after December 31, 2000" and inserting "made after September 30, 2009".

SEC. 410. INCLUSION OF CERTAIN VACCINES AGAINST STREPTOCOCCUS PNEUMONIAE TO LIST OF TAXABLE VACCINES.

(a) IN GENERAL.—Section 412(a)(1) (defining taxable vaccine) is amended by adding at the end the following new subparagraph: 

(2) Any conjugate vaccine against streptococcus pneumoniae.

(b) EFFECTIVE DATE.—

(1) SALES.—The amendment made by this section shall apply to vaccine sales beginning on the day after the date on which the Centers for Disease Control makes a final recommendation for routine administration to children of any conjugate vaccine against streptococcus pneumoniae.

(2) DELIVERIES.—For purposes of paragraph (1), in the case of sales on or before the date described in such paragraph for which delivery is made after such date, the delivery date shall be considered the sale date.

By Mr. WYDEN: S. 1135. A bill to amend the Communications Act of 1934 to provide that the lowest unit rate for campaign advertising shall not be available for communication in which a candidate attacks an opponent of the candidate unless the candidate personally delivers the ad copy to the Committee on Commerce, Science, and Transportation.

POLITICAL CANDIDATE PERSONAL RESPONSIBILITY ACT

Mr. WYDEN. Mr. President, today I am introducing legislation, along with Congressman WALDEN in the House of Representatives, that would fight the scourge of negative political campaigns with the simple yet powerful tool of accountability. If candidates choose to run for office by disparaging their opponents rather than standing on their own records and beliefs, they should at least be expected to take responsibility for the ad campaigns that they run. Under this legislation, there would be meaningful financial penalty—in the form of higher showing rates—for those who fail to do so.

For me, this bill arises out of an unpleasant personal experience. I was elected to this body in a special election against the man I am now proud to call my friend and colleague, GORDON SMITH. That campaign was the nastiest, most negative, least edifying political season that my state has ever been through. The unabashedly negative ads that both of our campaigns put out were about all we'd ever been through. The unabashedly negative ads that both of our campaigns put out were about all we'd ever been through. The unabashedly negative ads that both of our campaigns put out were about all we'd ever been through. The unabashedly negative ads that both of our campaigns put out were about all we'd ever been through. The unabashedly negative ads that both of our campaigns put out were about all we'd ever been through. The unabashedly negative ads that both of our campaigns put out were about all we'd ever been through. The unabashedly negative ads that both of our campaigns put out were about all we'd ever been through. The unabashedly negative ads that both of our campaigns put out were about all we'd ever been through.

I eventually became so disgusted with what my own campaign had become, that with only a few weeks before the election, I got rid of all my ads, destroyed negative mailings that were about to be sent out, asked others who were airing negative ads on my behalf to desist, and started over with a campaign that was 100 percent positive.

I didn't know if it would be a smart campaign strategy or a kind of political suicide, and I didn't much care. Win or lose, I wanted to be proud of the way that I had conducted myself.
May 26, 1999

CONGRESSIONAL RECORD—SENATE

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1139

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Political Candidate Personal Responsibility Act of 1999”.

SEC. 2. FINDINGS.

Congress makes the following findings:

1. Local broadcasters are currently required to offer the “lowest unit charge” for advertising to candidates for all political offices 45 days before a primary election, and 60 days before a general election.

2. The “lowest unit charge” requirement requires that you aren’t willing to say yourself.

3. Campaigns for Federal office are too frequently dominated by negative and attack-oriented television and radio advertising.

4. The Government should take action to ensure that it does not subsidize negative and attack-oriented television and radio advertising.

SEC. 3. LIMITATION ON AVAILABILITY OF LOWEST UNIT CHARGE FOR FEDERAL CANDIDATES ATTACKING OPPOSITION.

(a) In general.—Section 315(b) of the Communications Act of 1934 (47 U.S.C. 315(b)) is amended—

1. by striking “(b) The charges” and inserting “(b)(1) The charges”;

2. by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively; and

3. by adding at the end the following new paragraph:

“(2)(A) In the case of a candidate for Federal office, such candidate shall not be entitled to receive the rate under paragraph (1)(A) for the use of any broadcasting station unless the candidate is identified by such candidate and the office for which the person is running.

(b) Conforming amendment.—Section 315(b)(1)(A) of the Communications Act of 1934 (47 U.S.C. 315(b)(1)(A)), as redesignated by subsection (a)(2), is amended by inserting “subject to paragraph (2),” before “during the forty-five days.”

(c) Effective date.—The amendments made by this section shall apply to broadcasting made after the date of enactment of this Act.

Mr. MACK. Mr. President, today Senator GRAHAM and I introduce legislation that would help protect Florida from economic devastation in the event of a catastrophic windstorm or other peril.

Our legislation would amend Section 56(c) of the Internal Revenue Code to grant tax-exempt status to the Florida Windstorm Underwriting Association (FWUA), the Florida Residential Property and Casualty Joint Underwriting Association (JUA) and similar state-chartered, not-for-profit insurers serving markets in which commercial insurance is not available. The FWUA and JUA are non-profit entities established by the state to provide property and casualty insurance coverage in those markets not adequately served by other insurers.

In most years, Florida is not hit by a major hurricane or natural catastrophe. In those years, the FWUA and JUA take in more premiums than are paid out in claims or expenses. Since these policies are not-for-profit, state law prevents those funds from being distributed—they are instead literally saved for a severely rainy or windy day. Nonetheless, the Internal Revenue Code requires 35% of those funds to be sent to Washington as federal income taxes rather than used to fund reserves. Designating the FWUA and JUA as tax-exempt will help Florida to accumulate the necessary reserves to pay...
claims brought on by a catastrophe. This bill gives the two Florida catastrophes the same tax-exempt status that is already enjoyed by a number of not-for-profit insurance provers.

State law authorizes the FWUA and the JUA to assess property insurance policymakers throughout Florida to pay for losses generated by catastrophic storms or other perils. Thus, the benefits of the tax exemption would reduce the frequency and severity of assessments levied against individuals and businesses. Greater funds would be available to cover losses which otherwise would be paid for by higher assessments on Florida policyholders—cutting taxes for the approximately 5,000,000 property owners in the state of Florida.

This legislation has the bipartisan support of the entire Florida Congressional delegation in addition to strong backing from Governor Jeb Bush, the State\'s Commissioner, the Florida Senate President and Florida's House Speaker. And this change in the tax code would result in only a negligible loss of federal tax revenue, according to Joint Tax.

Our legislation is extremely important to homeowners and businesses throughout the state of Florida, all of whom are subject to assessment if reserves are not sufficient to pay claims in the event of a severe hurricane or other catastrophe. With hundreds of miles of magnificent coastline, Florida remains sensitive to the perils of nature. Enactment of our legislation permits Florida to prepare for the next Hurricane Andrew while alleviating some of the economic hardship exacted on Florida property owners.

Mr. President, I ask unanimous consent that the text of the bill be printed in the Record, as follows:

```
S. 1136
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXEMPTION FROM INCOME TAX FOR STATE-CREATED ORGANIZATIONS PROVIDING PROPERTY AND CASUALTY INSURANCE FOR PROPERTY FOR WHICH SUCH COVERAGE IS OTHERWISE UNAVAILABLE.

(a) In General.—Subsection (c) of section 501 of the Internal Revenue Code of 1986 (relating to exemption from tax on corporations, certain trusts, etc.) is amended by adding at the end the following new paragraph:

"(2)(A) Any association created before January 1, 1999, by State law and organized and operated exclusively to provide property and casualty insurance coverage for property located within the State for which the State has determined that coverage in the authorized insurance market is limited or unavailable at reasonable rates, if—

"(i) to satisfy, in whole or in part, the liability of the association for, or with respect to, claims made on policies written by the association,

"(ii) to invest in investments authorized by applicable law, and

"(iii) to pay reasonable and necessary administrative expenses in connection with the establishment and operation of the association and the processing of claims against the association,

"(B) the assets of the association revert to the State law governing the association, or State law does not permit the dissolution of the association.

(b) Transitional Rule.—No income or gain shall be recognized by an association as a result of a change in status to that of an association described by section 501(c)(28) of the Internal Revenue Code of 1986, as amended by subsection (a).

(c) Effective Date.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1998.

Mr. GRAHAM. Mr. President, as we prepare for next week\'s start of the 1999 hurricane season, I have been pleased to join my colleague, Senator MACK, in introducing legislation that will help protect Florida from economic devastation in the event of a catastrophic disaster.

Our legislation would amend Section 501(c) of the Internal Revenue Code to grant tax-exempt status to state chartered, not-for-profit insurers serving markets in which commercial insurance is not available. In our state, this legislation will primarily assist the Florida Windstorm Underwriting Association (FWUA) and the Florida Residential Property and Casualty Joint Underwriting Association (JUA).

The Florida Windstorm Association was created in 1970. Twenty-two years later, in 1992, the legislature authorized the Joint Underwriting Association. These organizations operate as residual market mechanisms. They provide residential property and casualty insurance coverage for those residents who need, but are unable to procure through the voluntary market.

The JUA was created in direct response to $16 billion in covered losses during Hurricane Andrew. The destructive force of Andrew rendered a number of property insurance companies insolvent. Other firms recovered from the catastrophe by withdrawing from Florida markets.

During those fortunate years when we are not impacted by major hurricanes or other natural catastrophes, the FWUA and JUA take in premiums that are paid out in claims and expenses. Florida law prevents those funds from being distributed so that needed reserves will accumulate in preparation for inevitable disasters.

Unfortunately, the Internal Revenue Service penalizes Florida for this responsible, forward thinking practice. It requires that 35% of those funds be sent to Washington as federal income taxes rather than used to fund reserves. Designating state chartered, non-profit insurers as tax-exempt will help Florida accumulate the necessary reserves to pay claims brought on by a catastrophe.

State law authorizes the FWUA and the JUA to assess property insurance policymakers for losses generated by natural disasters. Tax exemptions should reduce the frequency and severity of assessments levied against individual policyholders, because it would make more funds available to cover losses which otherwise would be paid for by higher assessments on policyholders.

Mr. President, even seven years later, Hurricane Andrew is still a nightmarish memory for Floridians. The 1999 Hurricane season will begin on June 1, 1999. The National Weather Service expects this hurricane season—which begins next Tuesday, to be another active storm season. It is imperative that the federal government avoid the comfortable habit of ignoring lessons presented by Andrew and other recent catastrophes.

This legislation has bipartisan support in the state\'s Congressional delegation. It is backed by our state governor, our insurance Commissioner, our state Senate President and House Speaker. Also, Mr. President, the Joint Committee on Taxation has ruled that this legislation will have a negligible effect on the federal budget.

Our legislation is extremely important to homeowners and businesses throughout Florida, all of whom are subject to assessment if reserves are not sufficient to pay claims in the event of a catastrophe. Florida remains sensitive to the perils of nature. Enactment of this legislation will permit our state to prepare for the next Hurricane Andrew while alleviating some of the economic hardship exacted on Florida property owners.

By Mr. REID (for himself and Mr. FRIST): S. 1139. A bill to amend title 49, United States Code, relating to civil
penalties for unruly passengers of air carriers and to provide for the protection of employees providing air safety information or for other purposes; to the Committee on Commerce, Science, and Transportation.

INCREASE OF CIVIL PENALTIES ON UNRULY AIRLINE PASSENGERS LEGISLATION

Mr. REID. Mr. President, years ago, when air travel was in its infancy, the greatest threat to passenger safety was mechanical failure.

Over the last half-century, the dedication of the men and women who service our airlines, coupled with advances in technology and know-how, have made air travel the safest method of transportation we have.

But it’s not always the most convenient way to travel. As air travel has become safer, it has also become more popular—more dangerous, if you will.

As all of my colleagues in this chamber well know, air travel is an increasingly stressful and chaotic experience, at times trying even the most patient among us.

I commend my colleagues for introducing the passengers’ bill of rights earlier this Congress, which hopefully will alleviate some of the stress of air travel.

I rise today to address a different aspect of that stress, and that is the safety hazard created to all passengers when a passenger who can’t control his behavior or emotions, or simply refuses to do so, acts in a way that jeopardizes the safety of the flight.

Over the last few years, the number of reported incidents in which unruly airline passengers have interfered with flight crews, or even physically assaulted them, has increased dramatically and dangerously.

One airline alone reports that the number of incidents caused by violent or unruly passengers more than tripled in only three years—from 296 cases in 1994 to 921 cases in 1997.

In 1996, the Federal Aviation Administration imposed civil penalties against 121 unruly passengers. In 1997, that number jumped to 195—a sixty percent increase in only one year.

These incidents represent a serious threat to the safety of both flight crews and passengers alike.

Today, I urge my colleague Senator FRIST, am introducing a bill that addresses this problem.

Briefly, my bill will allow the Secretary of Transportation to increase the civil penalty from its current level of $1,100, up to $25,000, on any airline passenger who interferes with the duties or responsibilities of the flight crew or cabin crew or takes any action that poses an imminent threat to the safety of the aircraft or other individuals on the aircraft.

We need not only to punish passengers who threaten the safety of their passengers. We also need to give airlines the power to prevent particularly violent or disruptive passengers from committing similar acts in the future.

When someone drives in an unsafe manner on our roads, local police have the power to fine them. When that someone commits the same offenses repeatedly, or drives in a way that is especially dangerous, local authorities have the power to revoke or suspend their driver’s licenses—to take those drivers off the road.

I think we need to do something similar with air travelers who commit particularly dangerous acts, or who insist on repeatedly disrupting airline flight crews. We need them off of our airlines, so that they do not have the opportunity to jeopardize the lives of other passengers in the future.

The bill I am introducing today gives the Department of Transportation the authority to raise the civil penalty up to $25,000.

Second, and most important, my bill would also give the Secretary of Transportation the authority to impose a ban on one year on all commercial air travel on passengers guilty of such incidents.

The bill enforces this ban by making airlines which provide air transportation to a banned traveler liable to the Government for a civil penalty of up to $25,000.

Third, this bill would give whistleblower protection to flight attendants who report unsafe behavior by co-workers.

Fourth, this bill will make the investigation of in-flight incidents easier by giving the Attorney General the authority to deputize local law enforcement officials to investigate incidents when the plane lands, wherever it lands.

Mr. President, everyone in this body travels extensively by air. Every time we get into an airplane, we put our lives in the hands of the hardworking men and women who staff our airlines.

When we, or any other American, get on an airplane, we should be able to sit back and relax, confident in the knowledge that those men and women can perform the jobs they were trained to do without interference by unreasonable or violent passengers.

We should also have the security of knowing that if a passenger does choose to commit a particularly unruly or violent act that threatens the safety of other passengers or the flight crew, that passenger won’t be able to get on another airplane tomorrow and do the same thing to another unsuspecting planeload of passengers.

I urge my colleagues to join me in supporting this important bill.

Mr. President, ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PENALTIES FOR UNRULY PASSENGERS

(a) In General.—Chapter 463 of title 49, United States Code, is amended by adding at the end the following:

§ 46317. Interference with cabin or flight crew

(1) General Rule.—

(A) In General.—An individual who interferes with the duties or responsibilities of the flight crew or takes any action that poses an imminent threat to the safety of the aircraft or other individuals on the aircraft is liable to the United States Government for a civil penalty of not more than $25,000.

(B) Additional Penalties.—In addition or as an alternative to the penalty under paragraph (1), the Secretary of Transportation (referred to in this section as the ‘Secretary’) may prohibit the individual from flying as a passenger on an aircraft used to provide air transportation for a period of not more than 1 year.

(b) Notification of Air Carriers.—Not later than 10 days after issuing an order prohibiting an individual from flying under subsection (a)(2), the Secretary shall notify all air carriers of—

(1) the prohibition; and

(2) the period of the prohibition.

(c) Responsibility of Air Carriers.—After a notification of an order issued under subsection (a)(2), an air carrier who provides air transportation for the individual prohibited from flying during the period of the prohibition under that subsection is liable to the United States Government for a civil penalty of not more than $25,000.

(d) Compromise and Setoff.—After a notification of an order issued under subsection (a)(2), an air carrier who provides air transportation for the individual prohibited from flying during the period of the prohibition under that subsection is liable to the United States Government for a civil penalty of not more than $25,000.

(2) Setoff.—The United States Government may deduct the amount of a civil penalty imposed or compromised under this section from amounts the Government owes the person liable for the penalty.

(b) Conforming Amendment.—The table of sections for chapter 463 of title 49, United States Code, is amended by adding at the end the following:

§ 46317. Interference with cabin or flight crew.

SEC. 2. PROTECTION OF EMPLOYEES PROVIDING AIR SAFETY INFORMATION

(a) In General.—Chapter 421 of title 49, United States Code, is amended by adding at the end the following:

SUBCHAPTER III—WHISTLEBLOWER PROTECTION PROGRAM

§ 42121. Protection of employees providing air safety information

(a) Discrimination Against Airline Employees.—No air carrier or contractor or subcontractor of an air carrier may discharge an employee of the air carrier or the contractor or subcontractor or otherwise discriminate against such employee because the employee (or any person acting pursuant to a request of the employee)—
(1) provided, caused to be provided, or is about to be provided, to the Federal Government information relating to any violation or alleged violation of any order, regulation, or standard of the Federal Aviation Administration or any other provision of Federal law relating to air carrier safety under this subtitle or any other law of the United States;

(2) other information, if no file or cause to be filed, a proceeding relating to any violation or alleged violation of any order, regulation, or standard of the Federal Aviation Administration or any other provision of Federal law relating to air carrier safety under this subtitle or any other law of the United States;

(3) testimony or will testimony in such a proceeding;

(4) assisted or participated or is about to assist or participate in such a proceeding;

(b) DEPARTMENT OF LABOR COMPLAINT PROCEDURE.—

(1) FILING AND NOTIFICATION.—

(A) IN GENERAL.—A complaint referred to in this paragraph, a person may file or (have a person file on behalf of that person) a complaint with the Secretary of Labor if that person believes that there has been a violation committed by an air carrier, contractor, or subcontractor of an air carrier discharged or otherwise discriminated against that person in violation of subsection (a). The complaint shall state the alleged violation.

(B) REQUIREMENTS FOR FILING COMPLAINTS.—A complaint referred to in subparagraph (A) may be filed not later than 90 days after the date of the violation.

(C) NOTIFICATION.—Upon receipt of a complaint submitted under subparagraph (A), the Secretary of Labor shall notify the air carrier, contractor, or subcontractor in the complaint and the Administrator of the Federal Aviation Administration of the following:

(i) filing of the complaint;

(ii) allegations contained in the complaint;

(iii) substance of evidence supporting the complaint;

(iv) opportunities that are afforded to the air carrier, contractor, or subcontractor under paragraph (2).

(2) INVESTIGATION: PRELIMINARY ORDER.—

(A) IN GENERAL.—

(i) INVESTIGATION.—Not later than 60 days after receipt of a complaint filed under paragraph (1), the Secretary of Labor, after affording the person named in the complaint an opportunity to submit to the Secretary of Labor a written response to the complaint and an opportunity to meet with a representative of the Secretary to present statements from witnesses, the Secretary of Labor shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify in writing the complainant and the person alleged to have committed a violation the results of the investigation and the Secretary’s findings.

(ii) ORDER.—Except as provided in subparagraph (B), if the Secretary of Labor concludes that there is reasonable cause to believe that a violation of subsection (a) has occurred, the Secretary shall accompany the findings referred to in clause (i) with a preliminary order prohibiting the relief precluded under paragraph (3)(B).

(iii) OBJECTIONS.—Not later than 30 days after the date of notification of findings under a proceeding described in paragraph (1) or preliminary order described in paragraph (2), a person who has been the recipient of a complaint may file objections to the findings or preliminary order and request a hearing on the objections.

(iv) EFFECT OF FILING.—The filing of objections under clause (iii) shall not operate to stay any reinstatement remedy contained in the proceeding described in paragraph (1) or preliminary order described in paragraph (2).

(v) HEARINGS.—Hearings conducted pursuant to a request made under clause (iii) shall be conducted expeditiously and governed by the Federal Rules of Civil Procedure. If a hearing is not required under subsection (b), the Secretary of Labor, at the request of the complainant, shall assess against the air carrier (or contractor, or subcontractor in the order an amount equal to the aggregate amount of all costs and expenses (including attorney and expert witness fees) reasonably incurred by the complainant (as determined by the Secretary of Labor) for, or in connection with, the bringing of the complaint that resulted in the issuance of the order.

(i) REQUIRED SHOWING BY COMPLAINANT.—The Secretary of Labor shall dismiss a complaint referred to in this paragraph if the complainant makes a prima facie showing that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(ii) SHOWING BY EMPLOYER.—Notwithstanding a finding by the Secretary that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) unless the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(ii) CRITERIA FOR DETERMINATION BY SECRETARY.—The Secretary may determine that a violation has occurred only if the complainant demonstrates that any behavior described in paragraphs (1) through (4) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(iii) PROHIBITION.—Relief may not be ordered under subparagraph (A) if the employer demonstrates by clear and convincing evidence that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(iii) DEADLINE FOR ISSUANCE; SETTLEMENT AGREEMENTS.—

(1) IN GENERAL.—Not later than 120 days after consultation with, a company may be required to enter into a settlement agreement entered into by the Secretary of Labor, the complainant, and the person alleged to have committed the violation.

(2) SETTLEMENT AGREEMENT.—Any settlement agreement entered into by the Secretary of Labor provides for, or in connection with, the bringing of the complaint shall be governed by Rule 11 of the Federal Rules of Civil Procedure.

(B) REMEDY.—If, in response to a complaint referred to in paragraph (1), the Secretary of Labor determines that a violation of subsection (a) has occurred, the Secretary of Labor shall order the air carrier, contractor, or subcontractor that the Secretary of Labor determines to have committed the violation to—

(i) take action to abate the violation;

(ii) reinstate the complainant to the former position of the complainant and ensure the payment of compensation (including back pay) and the restoration of terms, conditions, and privileges associated with the employment;

(iii) provide compensatory damages to the complainant.

(C) COSTS OF COMPLAINT.—If the Secretary of Labor issues a final order that provides for relief in accordance with this paragraph, the Secretary of Labor, at the request of the complainant, shall assess against the air carrier (or contractor, or subcontractor in the order an amount equal to the aggregate amount of all costs and expenses (including attorney and expert witness fees) reasonably incurred by the complainant (as determined by the Secretary of Labor) for, or in connection with, the bringing of the complaint that resulted in the issuance of the order.

(B) ATTORNEY FEES.—In issuing any final order under this paragraph, the court may award costs of litigation (including reasonable attorney and expert witness fees) to any party if the court determines that the awarding of those costs is appropriate.

(i) MANDAMUS.—Any nondiscretionary order imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28.

(ii) NONAPPLICABILITY TO DELIBERATE VIOLATIONS.—Subsection (a) shall not apply with respect to an employee of an air carrier, or contractor or subcontractor of an air carrier (or an agent, contractor, or subcontractor of the air carrier), except as provided in paragraph (3).
CONGRESSIONAL RECORD—SENATE

S. 414

At the request of Mr. BOND, the name of the Senator from Florida (Mr. MACK), the Senator from Idaho (Mr. CRAPO), and the Senator from Utah (Mr. BENNETT) were added as cosponsors of S. 414, a bill to amend the Internal Revenue Code of 1986 to allow a deduction for 100 percent of the health insurance costs of self-employed individuals, for other purposes.

S. 431

At the request of Mr. CRAIG, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 431, a bill to amend the Internal Revenue Code of 1986 to increase the amount allowable for qualified adoption expenses, to permanently extend the credit for adoption expenses, and to adjust the limitations on such credit for inflation, for other purposes.

S. 445

At the request of Mr. BREAUX, the name of the Senator from Colorado (Mr. CAMPBELL) was added as a cosponsor of S. 445, a bill to amend title XVIII of the Social Security Act to require the Secretary of Veterans Affairs and the Secretary of Health and Human Services to carry out a demonstration project to provide the Department of Veterans Affairs with medicare reimbursemnt for services provided to certain medicare-eligible veterans.

S. 459

At the request of Mr. JEFFORDS, the name of the Senator from Oklahoma (Mr. INHOFE) was added as a cosponsor of S. 459, a bill to amend title XVIII of the Social Security Act to require the Secretary of Veterans Affairs and the Secretary of Health and Human Services to carry out a demonstration project to provide the Department of Veterans Affairs with medicare reimbursement for services provided to certain medicare-eligible veterans.

S. 472

At the request of Mr. HATCH, the name of the Senator from South Carolina (Mr. THURMOND) was added as a cosponsor of S. 472, a bill to amend the Internal Revenue Code of 1986 to increase the State ceiling on private activity bonds.

May 26, 1999

(b) CONFORMING AMENDMENT.—The analysis for chapter 421 of title 49, United States Code, is amended by adding at the end the following:

“SUBCHAPTER III—WHISTLEBLOWER PROTECTION PROGRAM

"4212. Protection of employees providing air safety information.

(c) CIVIL PENALTY.—Section 46303(a)(1)(A) of title 49, United States Code, is amended by striking “subchapter II of chapter 421,” and inserting “subchapter II or chapter 421.”

SEC. 3. DEPUTIZING OF STATE AND LOCAL LAW ENFORCEMENT OFFICERS.

(a) DEFINITIONS.—In this section:

1. AIRCRAFT.—The term “aircraft” has the meaning given that term in section 40102 of title 49, United States Code.

2. AIR TRANSPORTATION.—The term “air transportation” has the meaning given that term in section 40102 of title 49, United States Code.

(b) ESTABLISHMENT OF A PROGRAM TO DEPUTIZE LOCAL LAW ENFORCEMENT OFFICERS.—

1. IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Attorney General shall—

(A) establish a program under which the Attorney General may deputize State and local law enforcement officers as Deputy United States Marshals for the limited purpose of enforcing Federal laws that regulate security on board aircraft, including laws relating to violent, abusive, or disruptive behavior by passengers of air transportation; and

(B) encourage the participation of law enforcement officers of State and local governments in the program established under subsection (A).

2. CONSULTATION.—In establishing the program under paragraph (1), the Attorney General shall consult with appropriate officials of—

(A) the Federal Government (including the Administrator of the Federal Aviation Administration or a designated representative of the Administrator); and

(B) State and local governments in any geographic area in which the program may operate.

3. TRAINING AND BACKGROUND OF LAW ENFORCEMENT OFFICERS.—

(A) IN GENERAL.—Under the program established under this subsection, to qualify to be deputized as a Deputy United States Marshal under the program established under subsection (b) shall be limited to enforcing Federal laws relating to security on board aircraft in flight.

(B) LIMITATION.—The powers granted to a law enforcement officer deputized under the program established under subsection (b) shall not—

(1) be construed to be the powers of a Federal officer; or

(2) be revocable or suspended by the Attorney General.

(c) POWERS AND STATUS OF DEPUTIZED LAW ENFORCEMENT OFFICERS.—

1. IN GENERAL.—Subject to paragraph (2), a State or local law enforcement officer that is deputized as a Deputy United States Marshal under the program established under subsection (b) may arrest and apprehend an individual subject to a civil penalty under section 46501 of title 49, United States Code, or section 46302, 46303, 46504, 46505, or 46507 of that title, or who commits an act described in section 46506 of that title.

2. LIMITATION.—The powers granted to a State or local law enforcement officer deputized under the program established under subsection (b) shall be limited to enforcing Federal laws relating to security on board aircraft in flight.

(d) STATUTORY CONSTRUCTION.—Nothing in this section may be construed to—

1. grant a State or local law enforcement officer the right to assume the powers of a Federal officer under the program established under subsection (b) shall be limited to enforcing Federal laws relating to security on board aircraft in flight.

2. limit the authority that a State or local law enforcement officer may otherwise exercise in the capacity under any other applicable State or Federal law.

(e) REGULATIONS.—The Attorney General may promulgate such regulations as may be necessary to carry out this section.

ADDITIONAL COSPONSORS

S. 315

At the request of Mr. DURBIN, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 315, a bill to amend the Internal Revenue Code of 1986 to increase the deduction for the health insurance costs of self-employed individuals, for other purposes.

S. 285

At the request of Mr. MCCAIN, the name of the Senator from Michigan (Mr. ABRAHAM) was added as a cosponsor of S. 285, a bill to amend title II of the Social Security Act to restore the link between the maximum amount of earnings by blind individuals permitted without demonstrating ability to engage in substantial gainful activity and the exempt amount permitted in determining excess earnings under the earnings test.

S. 309

At the request of Mr. MCCAIN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 309, a bill to amend the Internal Revenue Code of 1986 to provide that a member of the uniformed services shall be treated as using a principal residence while away from home on qualified official extended duty in determining the exclusion of gain from the sale of such residence.

S. 414

At the request of Mr. BOND, the name of the Senator from Florida (Mr. MACK), the Senator from Idaho (Mr. CRAPO), and the Senator from Utah (Mr. BENNETT) were added as cosponsors of S. 414, a bill to amend the Internal Revenue Code of 1986 to allow a deduction for 100 percent of the health insurance costs of self-employed individuals, for other purposes.

S. 445

At the request of Mr. BREAUX, the name of the Senator from Colorado (Mr. CAMPBELL) was added as a cosponsor of S. 445, a bill to amend title XVIII of the Social Security Act to require the Secretary of Veterans Affairs and the Secretary of Health and Human Services to carry out a demonstration project to provide the Department of Veterans Affairs with medicare reimbursement for services provided to certain medicare-eligible veterans.

S. 459

At the request of Mr. JEFFORDS, the name of the Senator from Oklahoma (Mr. INHOFE) was added as a cosponsor of S. 459, a bill to amend the Internal Revenue Code of 1986 to increase the State ceiling on private activity bonds.

S. 472

At the request of Mr. GRASSLEY, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 472, a bill to amend title XVIII of the Social Security Act to provide certain medicare beneficiaries with an exemption to the financial limitations imposed on physical, speech-language pathology, and occupational health.
therapy services under part B of the medicare program, and for other purposes.

S. 462

At the request of Mr. Abraham, the name of the Senator from Minnesota (Mr. Grams) was added as a cosponsor of S. 661, a bill to amend title 18, United States Code, to prohibit taking minors across State lines in circumvention of laws requiring the involvement of parents in abortion decisions.

S. 462

At the request of Mr. Chafee, the name of the Senator from Delaware (Mr. Biden) was added as a cosponsor of S. 662, a bill to amend title XIX of the Social Security Act to provide medical assistance for certain women screened and found to have breast or cervical cancer under a federally funded screening program.

S. 460

At the request of Mr. Hatch, the name of the Senator from Alabama (Mr. Sessions) was added as a cosponsor of S. 680, a bill to amend the Internal Revenue Code of 1986 to permanently extend the research credit, and for other purposes.

S. 777

At the request of Mr. Lugar, the name of the Senator from Indiana (Mr. Bayh) was added as a cosponsor of S. 757, a bill to provide a framework for consideration by the legislative and executive branches of unilateral economic sanctions in order to ensure coordination of United States policy with respect to trade, security, and human rights.

S. 774

At the request of Mr. Breaux, the name of the Senator from Colorado (Mr. Allard) was added as a cosponsor of S. 774, a bill to amend the Internal Revenue Code of 1986 to increase the deduction for meal and entertainment expenses of small businesses.

S. 796

At the request of Mr. Wellstone, the name of the Senator from Hawaii (Mr. Inouye) was added as a cosponsor of S. 796, a bill to provide for full parity with respect to health insurance coverage for certain severe biologically-based mental illnesses and to prohibit limits on the number of mental illness-related hospital days and outpatient visits that are covered for all mental illnesses.

S. 805

At the request of Mr. Durbin, the name of the Senator from Nevada (Mr. Reid) was added as a cosponsor of S. 805, a bill to amend title V of the Social Security Act to provide for the establishment and operation of asthma treatment services for children, and for other purposes.

S. 868

At the request of Mr. Graham, the name of the Senator from Georgia (Mr. Cleland) was added as a cosponsor of S. 868, a bill to make forestry insurance plans available to owners and operators of private forest land, to encourage the use of prescribed burning and fuel treatment methods on private forest land, and for other purposes.

S. 868

At the request of Mr. Inhofe, the names of the Senator from Mississippi (Mr. Cochran) and the Senator from Alaska (Mr. Murkowski) were added as cosponsors of S. 880, a bill to amend the Clean Air Act to remove flammable fuels from the list of substances with respect to which reporting and other activities are required under the risk management plan program.

S. 902

At the request of Mr. Torricelli, the names of the Senator from Illinois (Mr. Durbin) and the Senator from Arizona (Mr. Inhofe) were added as cosponsors of S. 902, a bill to amend title XIX of the Social Security Act to permit States the option to provide medical coverage for low-income individuals infected with HIV.

S. 913

At the request of Mr. Kerry, the name of the Senator from Connecticut (Mr. Dodd) was added as a cosponsor of S. 918, a bill to authorize the Small Business Administration to provide financial and business development assistance to military reservists’ small business, and for other purposes.

S. 922

At the request of Mr. Abraham, the names of the Senator from Hawaii (Mr. Akaka), the Senator from South Carolina (Mr. Thurmond), and the Senator from Oklahoma (Mr. Inhofe) were added as cosponsors of S. 922, a bill to prohibit the use of the “Made in the USA” label on products of the Commonwealth of the Northern Mariana Islands and to deny such products duty-free and quota-free treatment.

S. 956

At the request of Mr. Jeffords, the name of the Senator from Nevada (Mr. Reid) was added as a cosponsor of S. 965, a bill to restore a United States voluntary contribution to the United Nations Population Fund.

S. 1006

At the request of Mr. DeWine, the names of the Senator from New Mexico (Mr. Bingaman) and the Senator from Virginia (Mr. Robb) were added as cosponsors of S. 1016, a bill to provide collective bargaining for rights for public safety officers employed by States or their political subdivisions.

S. 1007

At the request of Mr. Graham, the names of the Senator from Michigan (Mr. Levin), the Senator from Vermont (Mr. Leahy), the Senator from Indiana (Mr. Bayh), and the Senator from Illinois (Mr. Durbin) were added as cosponsors of S. 1017, a bill to amend the Internal Revenue Code of 1986 to increase the State ceiling on the low-income housing credit.

S. 1020

At the request of Mr. Grassley, the name of the Senator from North Dakota (Mr. Dorgan) was added as a cosponsor of S. 1020, a bill to amend chapter 1 of title 9, United States Code, to provide for greater fairness in the arbitration process relating to motor vehicle franchise contracts.

S. 1006

At the request of Mr. Chafee, the names of the Senator from New York (Mr. Moynihan) and the Senator from New York (Mr. Schumer) were added as cosponsors of S. 1056, a bill to amend the Internal Revenue Code of 1986 to improve tax equity for the Highway Trust Fund and to reduce the number of separate taxes deposited into the Highway Trust Fund, and for other purposes.

S. 1087

At the request of Mr. Rockefeller, the name of the Senator from Massachusetts (Mr. Kennedy) was added as a cosponsor of S. 1067, a bill to promote the adoption of children with special needs.

S. 1079

At the request of Mr. Bond, the name of the Senator from Colorado (Mr. Allard) was added as a cosponsor of S. 1070, a bill to require the Secretary of Labor to wait for completion of a National Academy of Sciences study before promulgating a standard, regulation or guideline on ergonomics.

S. 1074

At the request of Mr. Torricelli, the names of the Senator from Ohio (Mr. DeWine) and the Senator from Washington (Mr. Gorton) were added as cosponsors of S. 1074, a bill to amend the Social Security Act to waive the 24-month waiting period for medicare coverage of individuals with amyotrophic lateral sclerosis (ALS), and to provide medicare coverage of drugs and biologicals used for the treatment of ALS or for the alleviation of symptoms relating to ALS.

S. 1102

At the request of Ms. Snowe, the name of the Senator from Maryland (Ms. Mikulski) was added as a cosponsor of Senate Joint Resolution 21, a joint resolution to designate September 29, 1999, as “Veterans of Foreign Wars of the United States Day.”

SENATE RESOLUTION 34

At the request of Mr. Torricelli, the names of the Senator from Ohio (Mr. DeWine) and the Senator from Alabama (Mr. Shelby) were added as cosponsors of Senate Resolution 34, a resolution designating the week beginning April 30, 1999, as “National Youth Fitness Week.”

SENATE RESOLUTION 59

At the request of Mr. Lautenberg, the names of the Senator from Washington (Mrs. Murray), the Senator from Nevada (Mr. Reid), the Senator from Louisiana (Mr. Breaux), and the
At the request of Mr. CRAPO, the name of the Senator from Tennessee (Mr. FINST) was added as a cosponsor of Senate Resolution 81, a resolution designating the year of Safe Drinking Water’’ and commemorating the 25th anniversary of the enactment of the Safe Drinking Water Act.

SENATE RESOLUTION 82
At the request of Mr. CRAPO, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of Senate Resolution 82, a resolution to designate the month of May, 1999, as ‘‘National Alpha 1 Awareness Month.’’

SENATE RESOLUTION 89
At the request of Mr. REID, the names of the Senator from South Dakota (Mr. JOHNSON) and the Senator from Minnesota (Mr. WELLSTONE) were added as cosponsors of Senate Resolution 89, a resolution designating November 1999, as ‘‘National Survivors for Prevention of Suicide Day.’’

AMENDMENT NO. 391
At the request of Mr. LEVIN the name of the Senator from Wisconsin (Mr. FEINGOLD) was added as a cosponsor of amendment No. 391 proposed to S. 1059, an original bill to authorize appropriations for the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe the conditions of approval for United States commercial satellite entities and to establish a framework to enhance the use of commercial satellites in support of national security and foreign policies; as follows:

SENATE CONCURRENT RESOLUTION 35—PROVIDING FOR A CONDITIONAL ADJOURNMENT OR RECESS OF THE SENATE AND A CONDITIONAL ADJOURNMENT OF THE HOUSE OF REPRESENTATIVES
Mr. LOTT submitted the following concurrent resolution; which was considered and agreed to:

Resolved by the Senate (the House of Representatives concurring), That when the Senate recesses or adjourns at the close of business on Thursday, May 27, 1999, on a motion made pursuant to this concurrent resolution by its Majority Leader or his designee, it stand recessed or adjourned until noon on Monday, June 7, 1999; or, until such time on that day as may be specified by its Majority Leader or his designee in the motion to recess or adjourn, or until noon on the second day after May 27, 1999, as ordered to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Majority Leader of the Senate and the Speaker of the House, acting jointly after consultation with the Minority Leader and the Minority Leader of the House, shall notify the Members of the Senate and House, respectively, to reassemble whenever, in their opinion, the public interest shall warrant it.

SENATE RESOLUTION 108—DESIGNATING THE MONTH OF MARCH EACH YEAR AS ‘‘NATIONAL COLORECTAL CANCER AWARENESS MONTH’’
Mr. BREAUX (for himself, Mr. MURKOWSKI, Mr. MACK, and Mr. JOHNSON) submitted the following resolution; which was referred to the Committee on the Judiciary:

The Senate—
(1) designates March of each year as ‘‘National Colorectal Cancer Awareness Month’’;
(2) requests that the President issue a proclamation calling upon the people of the United States to observe the month with appropriate ceremonies and activities.

AMENDMENTS SUBMITTED
NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000
LOTT (AND OTHERS) AMENDMENT NO. 394
Mr. LOTT. (for himself, Mr. WARNER, Mr. SHEPHERD, Mr. MURKOWSKI, Mr. TOMENTI, Mr. THOMAS, Mr. KYL, and Mr. HUTCHINSON) proposed an amendment to the bill (S. 1059) to authorize appropriations for fiscal year 2000 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe the conditions of approval for United States commercial satellite entities and to establish a framework to enhance the use of commercial satellites in support of national security and foreign policies; as follows:

On page 387, below line 24, add the following:

SEC. 1061. INVESTIGATIONS OF VIOLATIONS OF EXPORT CONTROLS BY UNITED STATES SATELLITE MANUFACTURERS.
(a) NOTICE TO CONGRESS OF INVESTIGATIONS.—The President shall promptly notify Congress whenever an investigation is undertaken by an agency of the United States export control laws in connection with a commercial satellite of United States origin.
(b) NOTICE TO CONGRESS OF CERTAIN EXPORT WAIVERS AND LICENSES.—The President shall promptly notify Congress whenever an export license or waiver is granted on behalf of any United States person or firm that is the subject of an investigation described in subsection (a). The notice shall include a justification for the license or waiver.
(c) NOTICE IN APPLICATIONS.—It is the sense of Congress that any United States person or firm subject to an investigation described in subsection (a) that submits to the United States an application for the export of a commercial satellite should include in the application a notice of the investigation.

SEC. 1062. ENHANCEMENT OF ACTIVITIES OF DEFENSE THREAT REDUCTION AGENCY.
(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall prescribe regulations—
(1) to authorize the personnel of the Defense Threat Reduction Agency (DTRA) who monitor satellite launch campaigns overseas to suspend such campaigns at any time if the suspension is required for purposes of the national security of the United States;
(2) to establish appropriate professional and technical qualifications for personnel of the Agency;
(3) to allocate funds and other resources to the Agency at levels sufficient to prevent any shortfalls in the number of such personnel;
(4) to establish mechanisms in accordance with the provisions of section 1514(a)(2)(A) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261; 112 Stat. 2175; 22 U.S.C. 2778 note) that provide for—
(A) the allocation to the Agency, in advance of a launch campaign, of an amount equal to the amount estimated to be required by the Agency to monitor the launch campaign; and
(B) the reimbursement of the Department, at the end of a launch campaign, for amounts expended by the Agency in monitoring the launch campaign;
(5) to establish a formal technology training program for personnel of the Agency who monitor satellite launch campaigns overseas, including a structured framework for providing training in areas of export control laws;
(6) to review and improve guidelines on the scope of permissible discussions with foreign persons regarding technology and technical information, including the technology and technical information that should not be included in such discussions; and
(7) to provide, on at least an annual basis, briefings to the officers and employees of United States commercial satellite entities.
on United States export license standards, guidelines and restrictions, and encourage such officers and employees to participate in such briefings; (b) to establish a system for— (A) the preparation and filing by personnel of the Atomic Energy Commission satellite launch campaigns of detailed reports of all activities observed by such personnel in the course of monitoring such campaigns; (B) the systematic archiving of reports filed under subparagraph (A); and (C) the preservation of such reports in accordance with applicable laws; and (9) to establish a counterintelligence office within the Agency as part of its satellite launch monitoring program.

(b) ANNUAL REPORT ON IMPLEMENTATION OF SATELLITE TECHNOLOGY SAFEGUARDS.—The Secretary shall submit to Congress each year, as part of the annual report for that year under section 1514a(8) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999, the following: (1) A summary of the satellite launch campaigns and activities required by the Defense Threat Reduction Agency during the preceding year.

(2) A description of any license infractions or violations that have occurred during such campaigns and activities.

(3) A description of the personnel, funds, and other resources dedicated to the satellite launch monitoring program of the Agency during that year.

(4) An assessment of the record of United States satellite makers in cooperating with Agency personnel in complying with United States export control laws, during that year.

SEC. 1063. IMPROVEMENT OF LICENSING ACTIVITIES BY THE DEPARTMENT OF STATE.

Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall prescribe regulations to provide notice to the manufacturer of a commercial satellite of United States origin of the reasons for a denial or approval with conditions, notice to the manufacturer of a commercial satellite of United States origin by the People's Republic of China or Taiwan, and other interested persons; and (c) other interested persons.

SEC. 1064. ENHANCEMENT OF INTELLIGENCE COMMUNITY ACTIVITIES.

(a) CONSULTATION WITH DCI.—The Secretary of State shall consult with the Director of Central Intelligence throughout the review of an application for a license involving the overseas launch of such satellite.

(b) ADVISORY GROUP.—The Director of Central Intelligence shall establish within the intelligence community an advisory group to provide information and analysis to Congress upon request, and to appropriate departments and agencies of the Federal Government, on licenses involving the overseas launch of commercial satellites of United States origin.

(c) ANNUAL REPORTS ON EFFORTS TO ACQUIRE SENSITIVE UNITED STATES TECHNOLOGY AND TECHNICAL INFORMATION.—The Director of Central Intelligence shall submit each year to the Committee on Foreign Relations and the Committee on Armed Services of the Senate and the Committee on International Relations of the House of Representatives an annual report that—(1) the President should take all actions necessary to protect the national security interests of the United States; (2) the People's Republic of China should not be permitted to join the Missile Technology Control Regime and the MTCR Annex; (3) the People's Republic of China should be designated once five members of the Committee on Foreign Relations and the Committee on Armed Services of the Senate and (d) the People's Republic of China to missile technology and; (4) An assessment of the record of United States commercial space launch industry; and the United States space launch industry, the United States commercial space launch industry; and any amendments thereto.

(b) DEFINITIONS.—In this section:

(1) The term “Missile Technology Control Regime” means the policy statement, between the United States, the United Kingdom, the Federal Republic of Germany, France, Italy, Canada, and Japan, announced on April 16, 1987, to restrict sensitive missile-relevant transfers based on the MTCR Annex, and any amendments thereto.

(2) The term “MTCR Annex” means the Guidelines and Equipment and Technology Annex of the Missile Technology Control Regime, and any amendments thereto.

SEC. 1068. DECLASSIFICATION OF RESTRICTED DATA AND FORMERLY RESTRICTED DATA.

Section 3161(b) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261; 112 Stat. 2260; 50 U.S.C. 435 note) is amended by adding at the end the following: (a) The actions to be taken to ensure that records subject to Executive Order No. 12958 that have been released into the public domain since 1996 are reviewed on a page by page basis for Restricted Data or Formerly Restricted Data unless such records have been determined to be highly unlikely to contain Restricted Data or Formerly Restricted Data.

SEC. 1069. CONDUCT OF SECURITY CLEARANCES.

(a) RESPONSIBILITY OF FEDERAL BUREAU OF INVESTIGATION.—Section 145 of the Atomic Energy Act of 1954 (42 U.S.C. 2155) is amended by striking “the Civil Service Commission” each place it appears in subsections (a), (b), and (c) and inserting “the Federal Bureau of Investigation”.

(b) CONFORMING AMENDMENTS.—That section is further amended—(1) by redesignating subsections d. and f. and (2) by redesignating subsections e., g., h. as subsections d., e., and f., respectively.

SEC. 1070. ANNUAL REPORTS ON SECURITY IN THE TAIWAN STRAIT.

(a) IN GENERAL.—Not later than February 1 of each year, beginning in the first calendar year after the date of enactment of this Act, the Secretary of Defense shall submit to the Committees on Appropriation and the appropriate congressional committees a report, in both classified and unclassified form, detailing the security situation in the Taiwan Strait.

(b) REPORT ELEMENTS.—Each report shall include—

(1) the United States military trade relations with the People's Republic of China; and (2) an evaluation of conditions during the preceding year to the offensive military capabilities of the People's Republic of China; and (3) a report on the efforts to enhance the national security interests of the United States.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—The term “appropriate congressional committees” means the Committee on Foreign Relations and the Committee on Armed Services of the Senate and the Committee on International Relations and the Committee on Armed Services of the House of Representatives.

SEC. 1071. ANNUAL REPORTS ON SECURITY IN THE TAIWAN STRAIT.

(a) IN GENERAL.—Not later than February 1 of each year, beginning in the first calendar year after the date of enactment of this Act, the Secretary of Defense shall submit to the Committees on Appropriation and the appropriate congressional committees a report, in both classified and unclassified form, detailing the security situation in the Taiwan Strait.

(b) REPORT ELEMENTS.—Each report shall include—

(1) an analysis of the military forces facing Taiwan from the People's Republic of China; and (2) an evaluation of conditions during the preceding year to the offensive military capabilities of the People's Republic of China; and (3) a report on the efforts to enhance the national security interests of the United States.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—The term “appropriate congressional committees” means the Committee on Foreign Relations and the Committee on Armed Services of the Senate and the Committee on International Relations and the Committee on Armed Services of the House of Representatives.

SEC. 1072. ANNUAL REPORTS ON SECURITY IN THE TAIWAN STRAIT.

(a) IN GENERAL.—Not later than February 1 of each year, beginning in the first calendar year after the date of enactment of this Act, the Secretary of Defense shall submit to the Committees on Appropriation and the appropriate congressional committees a report, in both classified and unclassified form, detailing the security situation in the Taiwan Strait.

(b) REPORT ELEMENTS.—Each report shall include—

(1) an analysis of the military forces facing Taiwan from the People's Republic of China; and (2) an evaluation of conditions during the preceding year to the offensive military capabilities of the People's Republic of China; and (3) a report on the efforts to enhance the national security interests of the United States.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—The term “appropriate congressional committees” means the Committee on Foreign Relations and the Committee on Armed Services of the Senate and the Committee on International Relations and the Committee on Armed Services of the House of Representatives.

SEC. 1073. ANNUAL REPORTS ON SECURITY IN THE TAIWAN STRAIT.

(a) IN GENERAL.—Not later than February 1 of each year, beginning in the first calendar year after the date of enactment of this Act, the Secretary of Defense shall submit to the Committees on Appropriation and the appropriate congressional committees a report, in both classified and unclassified form, detailing the security situation in the Taiwan Strait.

(b) REPORT ELEMENTS.—Each report shall include—

(1) an analysis of the military forces facing Taiwan from the People's Republic of China; and (2) an evaluation of conditions during the preceding year to the offensive military capabilities of the People's Republic of China; and (3) a report on the efforts to enhance the national security interests of the United States.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—The term “appropriate congressional committees” means the Committee on Foreign Relations and the Committee on Armed Services of the Senate and the Committee on International Relations and the Committee on Armed Services of the House of Representatives.

SEC. 1074. ANNUAL REPORTS ON SECURITY IN THE TAIWAN STRAIT.

(a) IN GENERAL.—Not later than February 1 of each year, beginning in the first calendar year after the date of enactment of this Act, the Secretary of Defense shall submit to the Committees on Appropriation and the appropriate congressional committees a report, in both classified and unclassified form, detailing the security situation in the Taiwan Strait.

(b) REPORT ELEMENTS.—Each report shall include—

(1) an analysis of the military forces facing Taiwan from the People's Republic of China; and (2) an evaluation of conditions during the preceding year to the offensive military capabilities of the People's Republic of China; and (3) a report on the efforts to enhance the national security interests of the United States.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—The term “appropriate congressional committees” means the Committee on Foreign Relations and the Committee on Armed Services of the Senate and the Committee on International Relations and the Committee on Armed Services of the House of Representatives.
SEC. 3165. PROTECTION OF CLASSIFIED INFORMATION DURING LABORATORY-TO-LABORATORY EXCHANGES.

(a) PROVISION OF TRAINING.—The Secretary of Energy shall ensure that all Department of Energy contractors and Department of Energy contractor employees participating in laboratory-to-laboratory cooperative exchange activities are fully trained in matters relating to the protection of classified information and to potential espionage and counterintelligence threats.

(b) COUNTERING OF ESPIONAGE AND INTELLIGENCE-GATHERING ABROAD.—(1) The Secretary shall establish a pool of Department employees and Department contractor employees who travel abroad for laboratory-to-laboratory exchange activities or other cooperative exchange activities on behalf of the Department.

(2) The Secretary shall ensure that at least one employee from the pool established under paragraph (1) accompanies any group of Department employees or Department contractor employees who travel to any nation designated to be a sensitive country by the Secretary of State.

KERRY (AND OTHERS)
AMENDMENT NO. 395

Mr. KERRY (for himself, Mrs. BOXER, Mr. FEINGOLD, Mr. DASCHEL, Mr. KENNEDY, and Mr. BIDEN) proposed an amendment to the bill, S. 1059, supra; as follows:

On page 357, strike line 13 and all that follows through page 358, line 4.

ALLARD (AND OTHERS)
AMENDMENT NO. 396

Mr. ALLARD (for himself, Mr. HARKIN, Mr. SESSIONS, Mr. STEVENS, Mr. CONRAD, Mr. DORGAN, Mr. CLELAND, Mr. CRAIG, Mr. BINGAMAN, Mr. BRYANT, Mr. REID, Mr. MURkowski, Ms. SNOWE, Mr. FEINGOLD, Mr. COVERDELL, and Mr. GRASSLEY) proposed an amendment to the bill, S. 1059, supra; as follows:

Strike section 964, and insert the following:

SEC. 904. MANAGEMENT OF THE CIVIL AIR PATROL.

(a) SENSE OF CONGRESS.—It is the sense of Congress that no major change to the governance structure of the Civil Air Patrol should be mandated by Congress until a review of potential improvements in the management and oversight of Civil Air Patrol operations is conducted.

(b) GAO STUDY.—The Comptroller General shall conduct a study of potential improvements to Civil Air Patrol operations, including Civil Air Patrol financial management, Air Force and Civil Air Patrol oversight, and the Civil Air Patrol safety program. Not later than February 15, 2000, the Comptroller General shall submit a report on the results of the study to the congressional defense committees.

(c) INSPECTOR GENERAL REVIEW.—(1) The Inspector General of the Department of Defense shall review the financial and management operations of the Civil Air Patrol. The review shall include an audit.

(2) Not later than February 15, 2000, the Inspector General shall submit to the congressional defense committees a report on the review, including, specifically, the results of the audit. The report shall include any recommendations that the Inspector General considers appropriate regarding actions necessary to ensure the proper oversight of the financial and management operations of the Civil Air Patrol.

MURRAY (AND OTHERS)
AMENDMENT NO. 397

Mrs. MURRAY (for herself, Mrs. SNOWE, Ms. MURKOWSKI, Mrs. BOXER, Ms. LANDER, Ms. KENNEDY, Mr. SCHUMER, Mr. INOUYE, Mr. KENNEDY, Mr. JEFFORDS, and Mr. ROBB) proposed an amendment to the bill, S. 1059, supra; as follows:

In title VII, at the end of subtitle B, add the following:

SEC. 717. RESTORATION OF PREVIOUS POLICY REGARDING RESTRICTIONS ON USE OF HOSPITALS FOR DEFENSE MEDICAL FACILITIES.

Section 1093 of title 10, United States Code, is amended—

(1) by striking subsection (b); and

(2) in subsection (a), by striking "(a) Restriction on Use of Funds.—";

HARKIN (AND BOXER)
AMENDMENT NO. 398

(Ordered to lie on the table.)

Mr. HARKIN (for himself, and Mrs. BOXER) submitted an amendment intended to be proposed by them to the bill, S. 1059, supra; as follows:

In title VI, at the end of subtitle E, add the following:

SEC. 676. IMPLEMENTATION OF THE SPECIAL SUPPLEMENTAL NUTRITION PROGRAM.

(a) CLARIFICATION OF BENEFITS RESPONSIBILITY.—Subsection (a) of section 1060a of title 10, United States Code, is amended by striking "may carry out a program to provide special supplemental benefits and nutrition education" and inserting "shall carry out a program to provide supplemental foods and nutrition education."

(b) FUNDING.—Subsection (b) of such section is amended to read as follows:

"(b) FEDERAL PAYMENTS.—The Secretary of Defense shall use funds available for the Department of Defense to provide supplemental foods and nutrition education and to pay for costs for nutrition services and administration under the program required under subsection (a)."

GORTON (AND MURRAY)
AMENDMENT NO. 400

(Ordered to lie on the table.)

Mr. GORTON (for himself and Mrs. MURRAY) submitted an amendment intended to be proposed by them to the bill, S. 1059, supra; as follows:

In title VII, at the end of subtitle A, add the following:

SEC. 705. CONTINUOUS OPEN ENROLLMENT IN MANAGED CARE PLANS OF THE FORMER SERVICES TREATMENT FACILITIES.

Section 724 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 10 U.S.C. 1073 note) is amended by adding at the end the following:

"(c) CONTINUOUS OPEN ENROLLMENT.—Covered beneficiaries shall be permitted to enroll at any time in a managed care plan offered by the designated providers consistent with the enrollment requirements for the TRICARE Prime option under the TRICARE program."

BOND (AND KERRY)
AMENDMENT NO. 401

(Ordered to lie on the table.)
Mr. BOND (for himself and Mr. KERRY) submitted an amendment intended to be proposed by them to the bill, S. 1059, supra, as follows:

Strike section 805.

ALLARD AMENDMENT NO. 402
(Ordered to lie on the table.)

Mr. ALLARD submitted an amendment intended to be proposed by him to the bill, S. 1059, supra, as follows:

On page 578, below line 21, add the following:

SEC. 3170. USE OF 9975 CANISTERS FOR SHIPMENT OF WASTE FROM ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE, COLORADO.

(a) APPROVAL OR DENIAL OF USE.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Energy shall either grant or deny approval for the use of 9975 canisters for the shipment of waste from the Rocky Flats Environmental Technology Site, Colorado, as follows:

(b) ALTERNATIVE MEANS OF SHIPMENT OF WASTE.—(1) If approval of the use of 9975 canisters for the shipment of waste from the Rocky Flats Environmental Technology Site is denied under subsection (a), the Secretary shall identify an alternative to 9975 canisters for use for the shipment of waste from the Rocky Flats Environmental Technology Site.

(2) The alternative under paragraph (1) shall be identified not later than 10 days after the date of the denial of approval under subsection (a).

(c) COSTS.—Amounts to cover any costs associated with the identification of an alternative under subsection (b), and any costs associated with delays in the shipment of waste from the Rocky Flats Environmental Technology Site as a result of delays in approval, shall be subtracted from amounts appropriated for travel by the Secretary of Energy.

BOXER AMENDMENT NO. 403
(Ordered to lie on the table.)

Mrs. BOXER submitted an amendment intended to be proposed by her to the bill S. 1059 supra, as follows:

In title X, at the end of subtitle A, add the following:

SEC. 10 . TRANSFERS FOR THE ESTABLISHMENT OF ADDITIONAL NATIONAL VETERANS CEMETERIES.

(a) AUTHORITY.—Of the amounts appropriated for the Department of Defense for fiscal year 2000 pursuant to authorizations of appropriations in this Act, the Secretary of Defense shall transfer $100,000,000 to the Department of Veterans Affairs. The Secretary shall select the source of the funds for transfer under this subsection, and make the transfers in a manner that causes the least significant harm to the readiness of the Armed Forces, does not affect the increases in pay and other benefits for Armed Forces personnel, and does not otherwise adversely affect the quality of life of such personnel and their families.

(b) USE OF AMOUNTS TRANSFERRED.—Funds transferred to the Department of Veterans Affairs under subsection (a) shall be made available to establish, in accordance with chapter 24 of the title 38, United States Code, national cemeteries in the United States that the Secretary of Veterans Affairs determines to be most in need of such cemeteries to serve the needs of veterans and their families.

(c) RELATIONSHIP TO OTHER TRANSFER AUTHORITY.—The authority to make transfers under subsection (a) is in addition to the transfer authority provided in section 1001.

SMITH AND WYDEN AMENDMENT NO. 404
(Ordered to lie on the table.)

Mr. SMITH of Oregon (for himself and Mr. WYDEN) submitted an amendment intended to be proposed by them to the bill, S. 1059, supra, as follows:

TITILE XIII.—CHEMICAL DEMILITARIZATION ACTIVITIES

SEC. 1301. SHORT TITLE.

This title may be cited as the "Communi-

Army Cooperation Act of 1999.".

SEC. 1302. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress makes the follow-

ing findings:

(1) Between 1945 and 1989, the national se-

curity interests of the United States re-

quired the construction, and later, the de-

ployment and storage of weapons of mass de-

struction throughout the geographical United States.

(2) The United States is a party to inter-

national commitments and treaties which re-

quire the decommissioning or destruction of cer-

tain of these weapons.

(3) The United States has ratified the Chemical 

Weapons Convention, which re-

quires the destruction of the United States 

chemical weapons stockpile by April 29, 2007.

(4) Section 1412 of the Department of De-

provides that the Department of the Army 

shall be the executive agent for the destruc-

tion of the chemical weapons stockpile.

(5) In 1988, the Army determined that 

on-site incineration of chemi-

cal weapons at the eight chemical weapons 

storage locations in the continental United States would 

provide the fastest and most ef-

ficient means for the destruction of the 

chemical weapons stockpile.

(6) The communities in the vicinity of such 

locations have expressed concern over the safety of the process to be used for the inciner-

ation of the chemical weapons stockpile.

(7) Sections 174 and 175 of the National De-

fense Authorization Act for Fiscal Year 1993 

(Public Law 102–481) and section 8065 of the Department of Defense Appropriations Act, 1997 

(Public Law 104–208) require that the De-

partment of the Army explores methods other than incineration for the destruction of the 

chemical weapons stockpile.

(8) Compliance with the 2007 deadline for the 

destruction of the United States chemical 

weapons stockpile in accordance with the Chemical Weapons Convention will re-

quire an accelerated decommissioning and 

transporting of United States chemical 

weapons.

(9) The decommissioning or transporting of 

such weapons has caused, or will cause, envi-

ronmental, economic, and social disruptions to 

communities and Indian tribes residing 

from the onsite decommissioning of chemi-

cal agents and munitions, and related mate-

rials, at chemical demilitarization facilities in the United States.

SEC. 1303. SENSE OF CONGRESS.

It is the sense of Congress that the Sec-

retary of Defense and the Secretary of the 

Army should streamline the administrative structure of the Department of Defense and the 

Department of the Army, respectively, in order that the officials with such depart-

ments with immediate responsibility for the demilitarization of chemical agents and 

munitions, and related materials, have author-

ity to:

(1) to meet the April 29, 2007, deadline for the destruction of United States chemical weapon stockpile as required by the Chemical Weapons Convention; and

(2) to employ sound management principles, including the negotiation and imple-

mentation of contract incentives, to:

(A) accelerate the decommissioning of chemical agents and munitions, and related 

materials; and

(B) enforce budget discipline on the chemi-

cal demilitarization program of the United States while mitigating the disruption to communities and Indian tribes resulting from the onsite decommissioning of the chemical weapons stockpile at chemical de-

militarization facilities in the United States.

SEC. 1304. DECOMMISSIONING OF UNITED STATES CHEMICAL WEAPONS STOCKPILE.

(a) IN GENERAL.—As executive agent for 

the chemical demilitarization program of the United States, the Department of the 

Army shall facilitate, expedite, and acce-

lerate the decommissioning of the United States chemical weapons stockpile so as to 

complete the decommissioning of that stock-

pile by April 29, 2007, as required by the Chemical Weapons Convention.

(b) MANAGEMENT WITHIN DEPARTMENT OF THE ARMY.—In addition to provid-

ing for the mitigation of the environmental, economic, and social disruptions to 

communities and Indian tribes residing 

from the onsite decommissioning of chemi-

cal agents and munitions, and related mate-

rials, at chemical demilitarization facilities in the United States.

It is the sense of Congress that the Sec-

retary of Defense and the Secretary of the 

Army should streamline the administrative structure of the Department of Defense and the 

Department of the Army, respectively, in order that the officials with such depart-

ments with immediate responsibility for the demilitarization of chemical agents and 

munitions, and related materials, have author-

ity to:

(1) to meet the April 29, 2007, deadline for the destruction of United States chemical weapon stockpile as required by the Chemical Weapons Convention; and

(2) to employ sound management principles, including the negotiation and imple-

mentation of contract incentives, to:

(A) accelerate the decommissioning of chemical agents and munitions, and related 

materials; and

(B) enforce budget discipline on the chemi-

cal demilitarization program of the United States while mitigating the disruption to communities and Indian tribes resulting from the onsite decommissioning of the chemical weapons stockpile at chemical de-

militarization facilities in the United States.

SEC. 1304. DECOMMISSIONING OF UNITED STATES CHEMICAL WEAPONS 

STOCKPILE.

(a) IN GENERAL.—As executive agent for 

the chemical demilitarization program of the United States, the Department of the 

Army shall facilitate, expedite, and acce-

lerate the decommissioning of the United States chemical weapons stockpile so as to 

complete the decommissioning of that stock-

pile by April 29, 2007, as required by the Chemical Weapons Convention.

(b) MANAGEMENT WITHIN DEPARTMENT OF THE ARMY.—In addition to provid-

ing for the mitigation of the environmental, economic, and social disruptions to 

communities and Indian tribes residing 

from the onsite decommissioning of chemi-

cal agents and munitions, and related mate-

rials, at chemical demilitarization facilities in the United States.

(7) Such other responsibilities as the Sec-

retary of Defense determines to be appro-

priate.

SEC. 1305. ECONOMIC ASSISTANCE PAYMENTS.

(a) IN GENERAL.—Of the amounts appro-

priated for the Department of Defense for fiscal year 2000 pursuant to authorizations of appropriations in this Act, the Secretary of Defense shall transfer $100,000,000 to the Department of Veterans Affairs. The Secretary shall select the source of the funds for transfer under this subsection, and make the transfers in a manner that causes the least significant harm to the readiness of the Armed Forces, does not affect the increases in pay and other benefits for Armed Forces personnel, and does not otherwise adversely affect the quality of life of such personnel and their families.

(b) USE OF AMOUNTS TRANSFERRED.—Funds transferred to the Department of Veterans Affairs under subsection (a) shall be made available to establish, in accordance with chapter 24 of the title 38, United States Code, national cemeteries in the United States that the Secretary of Veterans Affairs determines to be most in need of such cemeteries to serve the needs of veterans and their families.

(c) RELATIONSHIP TO OTHER TRANSFER AUTHORITY.—The authority to make transfers under subsection (a) is in addition to the transfer authority provided in section 1001.

SEC. 1306. ECONOMIC ASSISTANCE PAYMENTS.

(a) IN GENERAL.—Upon the direction of the Secretary of the Army, the Comptroller of the Army may make economic assistance payments to communities and Indian tribes directly affected by the decommissioning of chemical agents and munitions, and related
materials, at chemical demilitarization fa-

cilities. Any change in such payment shall be 
in accordance with subparagraph (B), the 
amount of payment under this section for 
an applicable payment period after the 
date specified for that period in subsection 
shall include, in addition to the payment 
amounts available for the Department of De-

tion shall be derived from appropriations available to the Depart-
ment of the Army for chemical demilitariza-
tion activities, (c) TOTAL AMOUNT OF PAYMENTS.—(1) Subject to 
paragraph (2), the aggregate amount of payments under this section with respect to 
a chemical demilitarization facility during 
the period beginning on the date of the 
emergency of this Act and ending on April 29, 
may not be less than $35,000,000 or more 
than $60,000,000. 

(2) Payments under this section shall cease 
with respect to a facility upon the transfer 
of the facility to a State-chartered munici-

cipal corporation pursuant to an agreement 
referred to in section 1412(c)(2)(B) of the De-
partment of Defense Authorization Act, 1986, 
as amended by section 1306 of this Act. 

(d) DATE OF PAYMENT.—(1) Payments under 
this section with respect to a chemical de-
militarization facility shall be made on 
March 1 of a year, the period beginning on 
September 2 of a year, the period beginning 

with respect to such date. 

(3) The notice referred to in subparagraph 
(A) that provides for the transfer of fa-

milities to a State-chartered municipal corporation, or the Secretary of the Army may appeal immediately 
with respect to a chemical demilitarization facility, as determined 
by population. 

(2) The amount of an allocation under this 
subparagraph, compared to any Indian tribe or Indian 

be determined by population, as determined by the 
most recent decennial census. 

(iii) That any transfer of facilities 
shall include any easements necessary for reason-
able access to such facilities. 

The notice referred to in subparagraph 
(B) may not take effect if executed 
December 31, 2000.". 

SEC. 1307. ACTIONS REGARDING ACTIVITIES AT 

CITIES. 

(a) LIMITATION ON JURISDICTION.—(1) An ac-
tion seeking the cessation of the construc-
tion, operation, or demolition of a chemical 
demilitarization facility in the United States 
may be commenced only in a district court of the United States. 

(b) LIMITATIONS ON STANDING.—(1)(A) Except as 

that the United States stockpile of lethal 
chemical agents and munitions that exist on 

(iv) Any items designated by the Sec-

etary of Defense after that date to be lethal 
chemical agents and munitions, or related 
materials. 

(B) Facilities constructed to carry out 
this section may not be used for any other 
purpose than the destruction of the fol-

SEC. 1306. ENVIRONMENTAL PROTECTION AND 

USE OF FACILITIES. 

 Paragraph (2) of section 1412(c) of the De-
(50 U.S.C. 1521(c)) is amended to read as fol-

milities from the United States to a State-

graph that provides for the transfer of fa-

the State in which the facilities are located. 

the construction or operation. 

the public, environment, or personnel 
impede the decommissioning of chemical 
agents and munitions, or related materials, at a 
chemical demilitarization facility in the United States.
COMMANDER.—It is the sense of Congress that—

(1) the Office of Management and Budget shall estimate the revenue increase resulting from the enactment of this Act, for fiscal years 2000 through 2009; and

(2) the amount estimated pursuant to paragraph (1) shall only be available for revenue reduction (without any requirement of an increase in revenues or reduction in direct spending) or debt reduction.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000

HATCH AMENDMENT NOS. 408–409

(Ordered to lie on the table.)

Mr. HATCH submitted two amendments intended to be proposed by him to the bill, S. 1059, supra; as follows:

AMENDMENT No. 408

At the appropriate place, insert the following new section:

SEC. 1. AUTHORITY FOR PUBLIC BENEFIT TRANSFER TO CERTAIN TAX-SUPPORTED EDUCATIONAL INSTITUTIONS OF SURPLUS PROPERTY UNDER THE BASE CLOSURE LAWS.

(a) In general.—(1) Notwithstanding any provision of the applicable base closure law or any provision of the applicable base closure law or any provision of the Federal Property and Administrative Services Act of 1949, the Administrator of General Services may transfer to institutions described in subsection (b) the facilities described in subsection (c). Any such transfer shall be without consideration to the United States.

(b) Transfer under paragraph (1) may include real property associated with the facility concerned.

(2) An institution seeking a transfer under subsection (a) shall submit an application for the transfer. The application shall include such information as the Administrator shall specify.

(c) Covered institutions.—An institution eligible for the transfer of a facility under subsection (a) is any tax-supported educational institution that agrees to use the facility for—

(1) student instruction;

(2) the provision of services to individuals with disabilities;

(3) the health and welfare of students;

(4) the storage of instructional materials or other materials directly related to the administration of student instruction; or

(5) other educational purposes.

(d) Available facilities.—A facility available for transfer under subsection (a) is any facility that—

(1) is located at a military installation approved for closure or realignment under a base closure law;

(2) has been determined to be surplus property under that base closure law; and

(3) is available for disposal as of the date of enactment of this Act.

(e) Definition.—In this section:

(1) Title II of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100–526; 10 U.S.C. 2687 note.)

(2) The term “tax-supported educational institution” means any tax-supported educational institution covered by section 202(a)(1)(A) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484(k)(1)(A)).
SEC. 1302. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress makes the following findings:

(1) Between 1945 and 1989, the national security interests of the United States required the construction, and later, the deployment and storage of weapons of mass destruction throughout the geographical United States.

(2) The United States is a party to international commitments and treaties that require the decernission or destruction of certain of these weapons.

(3) The United States has ratified the Chemical Weapons Convention which requires the destruction of the United States chemical weapons stockpile by March 29, 2007.

(4) The United States chemical weapons stockpile is a large, complex, and highly hazardous asset that must be decontaminated and decommissioned.

(5) In 1988, the Department of the Army determined that on-site incineration of chemical weapons at the eight chemical weapons storage locations in the continental United States would provide the safest and most efficient means for the destruction of the chemical weapons stockpile.

(6) The communities in the vicinity of such locations have expressed concern over the safety of the process to be used for the in-cineration of chemical weapons.

(b) PURPOSE.—It is the purpose of this title to:

(1) meet the April 29, 2007, deadline for the destruction of United States chemical weapon stockpile as required by the Chemical Weapons Convention; and

(2) to employ sound management principles, including the negotiation and implementation of contract incentives, to—

(A) accelerate the decommissioning of chemical agents and munitions, and related materials; and

(B) enforce budget discipline on the chemical demilitarization program of the United States, by making the direction to communities and Indian tribes resulting from the onsite decommissioning of the chemical weapons stockpile at chemical demilitarization facilities in the United States.

SEC. 1304. DECOMMISSIONING OF UNITED STATES CHEMICAL WEAPONS STOCKPILE.

(a) IN GENERAL.—As executive agent for the chemical demilitarization program of the United States, the Department of the Army shall facilitate, expedite, and accelerate the decommissioning of the United States chemical weapons stockpile so as to complete the decommissioning of that stockpile by April 29, 2007, as required by the Chemical Weapons Convention.

(b) SOURCE OF PAYMENTS.—Amounts for payments under this section shall be derived from amounts available to the Department of the Army for chemical demilitarization activities.

(c) TOTAL AMOUNT OF PAYMENTS.—(1) Subject to paragraph (2), the amount of payments under this section with respect to a chemical demilitarization facility during the period beginning on the date of the enactment of this Act and ending on December 31, 2007, may not be less than $50,000,000 or more than $60,000,000.

(2) Payments under this section shall cease with respect to a facility upon the transfer of the facility to a State-chartered municipal corporation pursuant to an agreement referred to in section 142(e)(2)(B) of the Department of Defense Appropriation Act, 1998, as amended by section 1306 of this Act.

(d) DATE OF PAYMENT.—(1) Payments under this section with respect to a chemical demilitarization facility shall be made on March 1 and September 2 each year if the decommissioning of chemical agents and munitions, and related materials, occurs at the facility during the applicable payment period with respect to such date.

(2) For purposes of this section, the term “payment” includes—

(A) in the case of a payment to be made on March 1 of a year, the period beginning on January 1 and ending on December 31 of the preceding year; and

(B) in the case of a payment to be made on September 2 of a year, the period beginning on July 1 and ending on December 31 of the preceding year.

(e) ALLOCATION OF PAYMENT.—(1) Except as provided in paragraph (2), each payment under this section with respect to a chemical demilitarization facility shall be allocated equally among the communities and Indian tribes that are located within the positive action zone of the facility, as determined by population.

(2) The amount of an allocation under this subsection to a community or Indian tribe shall be reduced by the amount of any tax or fee imposed or assessed by the community or Indian tribe during the applicable payment period against the value of the facility concerned or with respect to the storage or decommissioning of chemical agents and munitions, or related materials, at the facility.

(f) COMPUTATION OF PAYMENT.—(1) Except as provided in paragraph (2), the amount of each payment under this section with respect to a chemical demilitarization facility shall be the amount equal to $10,000 multiplied by the number of chemical agents and munitions, and related materials, decommissioned at the facility during the applicable payment period.

(2)(A) If at the conclusion of the decommissioning of chemical agents and munitions, and related materials, at a facility the aggregate amount of payments made with respect to the facility is less than the minimum amount required by subsection (c)(1), unless payments have ceased with respect to the facility under subsection (c)(2), the amount of the final payment under this section shall be the amount equal to the difference between such aggregate amount and the minimum amount required by subsection (c)(1).

(B) This paragraph shall not apply with respect to a facility if the decommissioning of chemical agents and munitions, and related materials, continues at the facility after April 29, 2007.

(g) INTEREST ON UNTIMELY PAYMENTS.—(1) Any payment that is made under this section for an applicable payment period after the date specified for that period in subsection (d) shall include, in addition to the payment amount otherwise required under this section, interest at the rate of 1.5 percent per month.

SMITH AMENDMENT NO. 410

Ordered to lie on the table. Mr. SMITH of Oregon submitted an amendment intended to be proposed by him to the bill, S. 1059, supra; as follows:

SEC. 1301. SHORT TITLE.

This title may be cited as the “Community-Army Cooperation Act of 1999”.

SEC. 1302. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress makes the following findings:

(1) Between 1945 and 1989, the national security interests of the United States required the construction, development, testing, and evaluation of the Distributed Mission Training program is under way; and

(b) all Air Force laboratories and other Air Force agencies necessary to the research, development, testing, and evaluation of the Distributed Mission Training program have been assessed regarding the availability of the necessary resources to demonstrate and prove the Air Force Distributed Mission Training concept.

SEC. 1303. SENSE OF CONGRESS.

It is the sense of Congress that the Secretary of Defense and the Secretary of the Army should pursue the research, development, testing, and evaluation of the Distributed Mission Training program is under way; and

SEC. 1304. DECOMMISSIONING OF UNITED STATES CHEMICAL WEAPONS STOCKPILE.

(a) IN GENERAL.—As executive agent for the chemical demilitarization program of the United States, the Department of the Army shall facilitate, expedite, and accelerate the decommissioning of the United States chemical weapons stockpile so as to complete the decommissioning of that stockpile by April 29, 2007, as required by the Chemical Weapons Convention.

(b) SOURCE OF PAYMENTS.—Amounts for payments under this section shall be derived from amounts available to the Department of the Army for chemical demilitarization activities.

(c) TOTAL AMOUNT OF PAYMENTS.—(1) Subject to paragraph (2), the amount of payments under this section with respect to a chemical demilitarization facility during the period beginning on the date of the enactment of this Act and ending on December 31, 2007, may not be less than $50,000,000 or more than $60,000,000.

(2) Payments under this section shall cease with respect to a facility upon the transfer of the facility to a State-chartered municipal corporation pursuant to an agreement referred to in section 142(e)(2)(B) of the Department of Defense Appropriation Act, 1998, as amended by section 1306 of this Act.

(d) DATE OF PAYMENT.—(1) Payments under this section with respect to a chemical demilitarization facility shall be made on March 1 and September 2 each year if the decommissioning of chemical agents and munitions, and related materials, occurs at the facility during the applicable payment period with respect to such date.

(2) For purposes of this section, the term “payment” includes—

(A) in the case of a payment to be made on March 1 of a year, the period beginning on January 1 and ending on December 31 of the preceding year; and

(B) in the case of a payment to be made on September 2 of a year, the period beginning on July 1 and ending on December 31 of the preceding year.

(e) ALLOCATION OF PAYMENT.—(1) Except as provided in paragraph (2), each payment under this section with respect to a chemical demilitarization facility shall be allocated equally among the communities and Indian tribes that are located within the positive action zone of the facility, as determined by population.

(2) The amount of an allocation under this subsection to a community or Indian tribe shall be reduced by the amount of any tax or fee imposed or assessed by the community or Indian tribe during the applicable payment period against the value of the facility concerned or with respect to the storage or decommissioning of chemical agents and munitions, or related materials, at the facility.

(f) COMPUTATION OF PAYMENT.—(1) Except as provided in paragraph (2), the amount of each payment under this section with respect to a chemical demilitarization facility shall be the amount equal to $10,000 multiplied by the number of chemical agents and munitions, and related materials, decommissioned at the facility during the applicable payment period.

(2)(A) If at the conclusion of the decommissioning of chemical agents and munitions, and related materials, at a facility the aggregate amount of payments made with respect to the facility is less than the minimum amount required by subsection (c)(1), unless payments have ceased with respect to the facility under subsection (c)(2), the amount of the final payment under this section shall be the amount equal to the difference between such aggregate amount and the minimum amount required by subsection (c)(1).

(B) This paragraph shall not apply with respect to a facility if the decommissioning of chemical agents and munitions, and related materials, continues at the facility after April 29, 2007.

(g) INTEREST ON UNTIMELY PAYMENTS.—(1) Any payment that is made under this section for an applicable payment period after the date specified for that period in subsection (d) shall include, in addition to the payment amount otherwise required under this section, interest at the rate of 1.5 percent per month.
SEC. 1305. USE OF FACILITIES.

(a) LIMITATION ON JURISDICTION.—(1) An action seeking the cessation of the construction, operation, or demolition of a chemical demilitarization facility in the United States may be commenced only in a district court of the United States.

(2) No administrative office exercising quasi-judicial powers, and no court of any State, may order the cessation of the construction, operation, or demolition of a chemical demilitarization facility in the United States.

(b) LIMITATIONS ON STANDING.—(1) A court of the United States may order the cessation of the construction, operation, or demolition of a chemical demilitarization facility in the United States if the petitioner proves by clear and convincing evidence that the construction, operation, or demolition of the facility, as the case may be, is will cause demonstrable harm to the public, the environment, or the personnel that are employed at the facility.

(2) The Department of Defense may appeal any order issued under paragraph (1) to the court of appeals of the United States.

(c) USE OF PAYMENTS.—A community or Indian tribe may use payments received under this section for such purposes as the community or Indian tribe may determine, by agreement with the Department of Defense and the Department of Commerce, or in accordance with the provisions of such section 1412(c)(2)(B).

SEC. 1306. DEFINITIONS. In this title:

(1) CHEMICAL AGENT AND MUNITION.—The term "chemical agent and munition" has the meaning given that term by section 1412(b)(1) of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521(i)).

(3) COMMUNITY.—The term "community" means a country, parish, or other unit of local government.

(4) DECOMMISSION.—The term "decommission", with respect to a chemical agent and munition, or related material, means the destruction, dismantlement, or other physical act done to the chemical agent and munition, or related material, in compliance with the Chemical Weapons Convention or the provisions of section 1412 of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521).

(5) INDIAN TRIBE.—The term "Indian tribe" has the meaning given the term in section 2 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450(b)).

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. ROBERTS. Mr. President, I ask unanimous consent for the Committee on Agriculture, Nutrition, and Forestry to meet on May 26, 1999 in SH-216 to consider livestock issues.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. ROBERTS. Mr. President, I ask unanimous consent that the Senate Committee on Commerce, Science, and Transportation be authorized to meet on Wednesday, May 26, 1999, at 2:00 p.m. on FCC oversight.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FINANCE

Mr. ROBERTS. Mr. President, the Finance Committee requests unanimous consent to conduct a hearing on Wednesday, May 26, 1999 beginning at 10:00 a.m. in room 215 Dirksen.

The PRESIDING OFFICER. Without objection, it is so ordered.
JEMEZ-PECOS REPARATION

Mr. BINGAMAN. Mr. President, I rise today to commemorate a truly historic event that took place in my state of New Mexico last Saturday—the nation’s largest act of Native American repatriation. The “Jemez-Pecos Repatriation” resulted in the reburial of nearly 2,000 human remains and artifacts unearthed from what should have been their final resting place over 70 years ago.

On the Wednesday before the reburial, over 300 people started the 120 mile walk from Jemez Pueblo in northern New Mexico to the ruins of the Pecos Pueblo. The journey is a long one in the dry New Mexico sun. The group, both young and old, traveled across three counties and through the beautiful Jemez Mountains before arriving at the former site of the Pecos Pueblo. But the journey of their ancestors is much more remarkable.

Prior to the 1820s, the Pueblo was a thriving community and center for culture. The Pecos interacted extensively with the Plains Indians to the east, the neighboring Pueblos to the west and the nearby Spanish communities. However, years of disease and warfare eventually decimated the population. In 1838, the remaining Pecos Pueblo relocated to the Pueblo of Jemez, in order to protect their traditional leaders, sacred objects and culture. This decision reflects the fact that Jemez and Pecos cultures were intricately linked by blood, language and spiritual beliefs as well as through their “origin stories”. In 1936, Congress formally merged the two tribes into one, with the Pueblo of Jemez named as the legal representative of the Pecos culture and administrative region.

When the Pecos Pueblo was abandoned in 1838, it likely did not occur to the few surviving members of the Pecos that their burial site would be disturbed during the next century. However, the famed archaeologist Alfred V. Kidder unearthed the remains and artifacts during ten excavations between 1915 and 1929. The remains were housed at the Peabody Museum of Archaeology and Ethnology in Cambridge, Massachusetts and the artifacts were held at the Robert S. Peabody Museum of Archaeology at Phillips Academy in Andover, Massachusetts. On May 18, 1999, Harvard University turned over the human remains and artifacts of nearly 2,000 people formerly buried at the Pecos Pueblo to the Pueblo of Jemez.

Last Saturday, in a solemn private ceremony, the thousands of human remains and artifacts were reburied date back to the 12th century. With the passage of the Native American Graves Protection and Repatriation Act in 1990, the current members of the Pueblo of Jemez were able to fulfill the dreams of many of their ancestors who longed to have the remains of their people returned to their homeland. NAGPRA was drafted to protect burial sites on tribal and federal land and to enable tribes to obtain the return of human remains and associated funerary objects to the culturally affiliated tribes.

I commend the Pueblo of Jemez, and particularly the Governor, Raymond Gachupin, and the many governors before him, who worked tirelessly to get to this day of repatriation. It took eight years of negotiations and persistence to achieve the final goal of repatriation. In a private tribal ceremony
on May 22, 1999, the remains and artfacts of the Pecos ancestors were reburied in their rightful place. Many people would believe that if their ancestors were unearthed and reburied. But for the descendants of the Pueblos of Jemez and Pecos, May 22, 1999 was looked upon as a day of unity and healing. By focusing on the future, the descendants truly honored their ancestors. I understand that at the end of the ceremony, the New Mexico sky turned dark and the rain began to fall. Mr. President, rain in May is not a common occurrence in New Mexico, but neither is the repatriation of 2,000 Native Americans. I want to convey my respect and admiration to the members of the Pueblo of Jemez, past and present, for their commitment and dedication to the Jemez-Pecos Repatriation. 

**SMALL BUSINESS ADMINISTRATION'S YOUNG ENTREPRENEUR OF THE YEAR: MR. THOMAS MICHAEL DUNN**

- **Mr. ASHCROFT:** Mr. President, it is with great pride that I stand before this body to congratulate yet another truly remarkable Missourian, Mr. Thomas Michael Dunn—the Small Business Administration’s Young Entrepreneur of the Year. Mr. Dunn, at the age of 26, is the second Missourian to win a national award from the Small Business Administration this year.

This young man’s story is impressive. Tom began his lawn care business while still attending St. Louis University High School, and continued to operate his business during the summers while pursuing a double major in marketing and management at Indiana University. After his junior year of college, Tom began his first venture, operating a party favor franchise. By his senior year, the business was transformed into a flourishing million dollar industry.

Beginning in 1994, Dunn Lawn and Land employed only two staff members, and had only two lawn mowers. By 1998, Dunn Lawn and Land employed over 22 employees, eight trucks, over 12 lawn machines and $1.2 million in revenue. Today, Dunn Lawn and Land offers a variety of services including lawn mowing, landscape bed and plant maintenance, lawn renovation, leaf removal, fertilizer and weed control, irrigation services and complete landscape design and installation.

In addition to his thriving lawn maintenance business, Tom remains an active community leader. He has created the Impact Group of Cardinal Glennon Children’s Hospital, which provides funds for special projects at the hospital.

Mr. Dunn was selected for this prestigious award because of his extraordinary success as a small business owner and demonstrated entrepreneurial potential for long-term economic growth. The Young Entrepreneur of the Year award is part of the SBA’s National Small Business Week celebration. This annual event is held in recognition of the nation’s small business community’s contributions to the American economy and society. Winners are selected on their record of stability, growth in employment and sales, sound financial status, innovation, ability to respond to adversity, and community service.

It honors me to stand before you today to congratulate Mr. Dunn as the Small Business Administration’s Young Entrepreneur of the Year. I envy Mr. Dunn’s initiative, and am proud to say he is a Missourian. He is a role model for the children of the next generation, and is living proof that with hard work and dedication, any one individual can succeed no matter how old they are. Mr. Dunn’s success exemplifies the “American Dream,” and what it means to be “a man with a mission.”

**TRIBUTE TO DANIEL BELL**

- **Mr. MOYNIHAN:** Mr. President, David Ignatius has written a charming brief essay for The Washington Post on his former teacher, Daniel Bell, “the dean of American sociology.” Professor Bell, who is now Scholar in Residence at the American Academy of Arts and Sciences in Cambridge, Massachusetts, was a colleague and neighbor of mine for many years and a friend for even longer. He has no equal, and as he turns 80 he is indeed, as Mr. Ignatius writes, “a kind of national treasure—a strategic intellectual reserve.” The nation is hugely in his debt. (A thought which I have on my mind!) I ask that the article by David Ignatius in The Washington Post on May 23, 1999 be printed in the RECORD.

The article follows:

(From The Washington Post, May 23, 1999)

**Big Questions for Daniel Bell**

(By David Ignatius)

CAMBRIDGE—Having a conversation about ideas with Daniel Bell is a little like getting to rally with John McEnroe. Trying to keep up is hopeless, but it’s exhilarating just to be on the court with him.

Bell, the dean of American sociology, turned 80 this month. In an era when life work in a garment factory—leaving him in his eighth month old. His mother had to work in a garment factory—leaving him in her eighth month old. His mother had to

The problem that vexes Bell is one of scale. He argues that societies tend to work smoothly when economic, social and political forces fit well together. There is an obvious mismatch in today’s global economy—where financial life is centralized as never before but political life is increasingly fragmented along ethnic and even tribal lines.

“The national state has become too small for the big problems of life, and too big for the small problems,” Bell says. We find that the older social structures are cracking because political scales of sovereignty and authority do not match the economic scale.

Bell is part of the Dream Team of American letters—the group of Jewish intellectuals who grew up poor in New York in the 1930s, learned their debating skills in the alleys of City College and went on to found the magazines and write the books that shaped America’s understanding of itself. Because of the antisemitism of American universities at the time, most of them couldn’t get teaching jobs at first. But today, their names are legendary: Irving Kristol, Irving Howe, Nathan Glazer, Norman Podhoretz and Bell.

What’s especially admirable about Bell is how little he’s changed over the years. Many of the New York intellectuals began as radical socialists and ended up as neo-conservatives—a long journey, indeed. But Bell holds roughly the same views he did when he was 15.

“I’m a socialist in economics, a liberal in politics and a conservative in culture,” he said. He thinks it’s a mistake to force these different areas of thought onto a single template. That way lies dogmatism.

Another of Bell’s virtues is that he doesn’t go looking for fights. He explains that as a matter of life history. His father died in the influenza epidemic of 1920, when Bell was just eight months old. His mother had to work in a garment factory—leaving him in an orphanage part of the time. Bell wanted to hold onto his friends, he says.

Religion has been an anchor in Bell’s life, too. Indeed, he said he began to doubt the Marxist view of history. He then considered the durability of the world’s great religions. He concluded that there were certain fundamental, existential questions—about the meaning of life and death—that were universal and unchanging, for which the great religions had provided enduring answers.

The most enduring aspect of Bell’s personality, his sense of humor, is not always nimble and light-hearted, but Bell can’t go five minutes without telling a
CONGRESSIONAL RECORD—SENATE

NATIONAL DRUG COURT WEEK

Mr. CAMPBELL. Mr. President, as I did around this time last year, I want to remind Drug Court advocates which is taking place next week. Since the Senate will be in recess at that time, I take this opportunity today to applaud our nation’s drug courts and the people who have made them the successes they are today.

Next week, the National Association of Drug Court Professionals will sponsor a training conference, suitably titled "Celebrating Ten Years of Drug Courts: Honoring the Past, Looking to the Future," which will be held in Miami Beach, Florida. This year approximately 3,000 professionals from across the country, including judges, prosecutors, defense attorneys, law enforcement officers, corrections personnel, rehabilitation and treatment providers, researchers, and community leaders will be attending the conference. These Drug Court professionals’ dedication has had a significant positive impact on the communities they serve.

The two and a half day conference will coincide with National Drug Court Week, June 1st through 7th, 1999. All across America, state and local governments have been recognizing drug courts and their dedicated professionals with resolutions, ceremonies and celebrations.

The Drug Court growth rate has been accelerating over the past several years. While the first Drug Court was established in 1989, there are currently over 600 Drug Courts that are either operating or being established. This surge in growth is a product of success.

Drug Courts are revolutionizing the criminal justice system. The strategy behind Drug Courts departs from traditional criminal justice practice by placing non-violent drug abusing offenders into intensive court supervised drug treatment programs instead of prison. Some Drug Courts target first time offenders, while others concentrate on habitual offenders. They all aim to reduce drug abuse and crime by employing a number of tools including comprehensive judicial monitoring, drug testing and supervision, treatment and rehabilitative services, and sanctions and incentives for drug offenders.

Statistics show us that Drug Courts work. It has been well documented that both drug use and associated criminal behavior are substantially reduced among those offenders participating in the Drug Courts. More than 70 percent of drug court clients have successfully completed the program or remain as active participants.

Drug Courts are also clearly cost-effective and help convert many drug using offenders into productive members of society. Traditional incarceration has yielded disappointing results for drug offenders. The costs are too high and the rehabilitation rate is minimal. Our Drug Courts are proving to be an effective alternative to traditional rehabilitation methods and are making strides forward in our fight against both drugs and crime.

In 1997, General McCaffrey and I had the opportunity to visit the Denver Drug Court. Through this experience I was able to meet with Denver’s Drug Court professionals and observe their judicial procedures and other program activities first hand. I was impressed with the Denver Drug Court professionals and procedures, and believe they will yield many successes.

Today, as the chairman of the Treasury and General Government Appropriations Subcommittee, which funds the Office of National Drug Control Policy, I feel it is fitting to recognize on the floor of the U.S. Senate the important contributions our nation’s Drug Courts are making toward reducing drug use and crime in our communities in time for National Drug Court Week.

Thank you Mr. President.

TRIBUTE TO TIOGUE SCHOOL: 1999 U.S. DEPARTMENT OF EDUCATION BLUE RIBBON SCHOOL

Mr. REED. Mr. President, I rise today to recognize the achievement of Tiogue School, Rhode Island, which was recently honored as a U.S. Department of Education Blue Ribbon School. This is the second time in 3 years that a school from Coventry has earned this honor.

It is a highly regarded distinction to be named a Blue Ribbon School. Through an intensive selection process beginning at the state level and continuing through a federal Review Panel of 100 top educators, 266 of the very best public and private schools in the Nation were identified as deserving of this special recognition. These schools are particularly effective in meeting local, state, and national goals. However, this honor signifies not just who is best, but what works in educating today’s children.

Now, more than ever, it is important that we make every effort to reach out to students, that we truly engage and challenge them, and that we make their education come alive. That is what Tiogue School is doing. Tiogue is a kindergarten through sixth grade school, which proudly says that it is a school “where everybody is somebody” and where children come first. These are more than just catch-phrases for Tiogue, which seeks to reach out to every student in the community and engages teachers, parents, and business and community leaders in the important job of education.

Teams of teachers work to develop appropriate but rigorous standards for all students. The results are impressive. Tiogue students have exceeded the norms on state assessments in each of the past five years. But Tiogue’s teachers also work to develop a curriculum that extends far beyond what the assessments measure. Each year, the school focuses on a particular issue, subject, or theme. As a preface to the Summer Olympics, students studied world cultures with a focus on the diverse background of the student population. During another year, students studied the arts and worked to develop their skills as artists, writers, musicians, and dancers. This year, Tiogue is taking their education to another level with an exploration of outer space.

Mr. President, Tiogue School is dedicated to the highest standards. It is a school committed to a process of continuous improvement with a focus on high student achievement. Most importantly, Tiogue recognizes the value of the larger community and seeks its support and involvement. This school and community are making a huge difference in the lives of its students.

Mr. President, the Blue Ribbon School initiative shows us the very best we can do for students and the techniques that can be replicated in other schools to help all students succeed. I am proud to say that in Rhode Island we can look to a school like Tiogue School. Under the leadership of its principal, Denise Richtarik, its capable faculty, and its students, Tiogue School will continue to be a shining example for years to come.

93RD ANNIVERSARY OF THE BOYS AND GIRLS CLUBS OF AMERICA

Mr. GRAMS. Mr. President, I rise today to pay tribute to the national Federated Boys Clubs, known today as the Boys and Girls Club of America. Although the Boys Clubs were not organized nationally until 1906, origins of the club can be traced as far back as the mid-1800s. As early as 1853, a Club-like facility was established in New
York City for the purpose of lodging newsboys. However, the first Boys Club, as we know it today, wasn’t established until 1906. The Dashaway Club in Hartford, Connecticut is recognized as the first known Boys Club, which provided afterschool activities for children from disadvantaged homes.

Soon the idea of a shelter for youth to spend time during non-school hours caught on. These clubs offered a safe place for children to congregate and stay out of trouble. Rapidly, Boys Clubs sprouted up around the country. In the early years, the clubs were concentrated mostly in New England. By 1906, 53 separate Boys Clubs were in existence. It was decided that these clubs should somehow work collectively. On May 13, 1906, a group of businessmen and Boys Clubs representatives met to discuss the idea of a national federation. Thus, the Boys Clubs of America was born.

Although the clubs continue to operate autonomously, the national organization provides staff recruitment and training, program research, facility construction, fundraising, and marketing. In addition, the national club addresses legislative and public policy issues affecting young people. In 1956, the Boys Club celebrated its 50th anniversary and received a U.S. Congressional Charter. As more and more clubs were formed, the organization grew and began serving girls as well as boys. In 1990, the name was officially changed to the Boys and Girls Clubs of America. Today, there are over 2,200 clubs operating nationwide, serving over three million children. Minnesota is proud to be home to 21 Boys and Girls Clubs, serving 33,456 children.

The Boys and Girls Clubs provide hope, inspiration, and the opportunity for children to realize their full potential as citizens. These clubs provide guidance, support, and leadership, while encouraging youth to abstain from drugs and alcohol, strive for scholastic achievement, become involved in community service, develop personal talents such as music or art, and explore career opportunities. Dedicated volunteers have helped the Boys and Girls Clubs of America become a success.

Mr. President, on the 93rd anniversary of its founding, I applaud the hard work and dedication of the men, women, and youth who have contributed to the success of the Boys and Girls Clubs of America. Through their persistence and encouragement, youth across the country have benefited greatly.

TRIBUTE TO 1998 AIR FORCE ACADEMY FOOTBALL TEAM

Mr. ALLARD. Mr. President, I rise today to recognize the accomplishments of the 1998 United States Air Force Academy Football Team.

The 1998 “Falcons” may go down in history as one of the greatest football teams in Academy history. Their 12-1 record included their first outright Western Athletic Conference Championship, a bowl victory over the University of Washington, and the Commander-in-Chief’s Trophy, which is the most prized possession of the three service academies.

This team of over-achieving young men was lead by their Head Football Coach Fisher DeBerry, and his assistant coaches Richard Bell, Todd Bynum, Dee Dowis, Dick Enga, Larry Fedora, Jimmy Hawkins, Jeff Hayes, Cal McCombs, Tom Miller, Bob Noblitt, Jappy Oliver, Chuck Peterson, and Sammy Steinmark. They are recognized as one of the finest coaching staffs in the country.

On offense, the team was lead by seniors Mike Barron, Joe Cashman, Spanky Gilliam, Ryan Hill, Frank Mindrup, Blane Morgan, James Nate, Dylan Newman, Matt Paroda, Brian Phillips, Barry Roche, Jermal Singleton, Matt Waskaz, and Eric Woodring.

The defense was lead by seniors Tim Curry, Bryce Fisher, Billy Free, Jeff Haugh, Jason Sanderson, Mike Tyler, and Charlton Warren.

Special team seniors Jason Kirkland and Alex Wright took care of the punting and place kicking duties.

The most impressive thing about these outstanding young men is that following their graduation from the Academy they will all be moving on to serve our county as 2nd Lieutenants in the United States Air Force. They are true student athletes who play the game for the enjoyment of the sport. These young men are tremendous role models for the youth of our country, and our nation can take pride in their accomplishments.

I commend the Superintendent of the Air Force Academy, Lt. General Tad Oelstrom, and Athletic Director Randy Spetman for their leadership in developing an outstanding group of young men. They clearly possess the “right stuff.”

A TRIBUTE TO TWO GREAT NAVAL HEROES

Mr. ABRAHAM. Mr. President, I rise today to honor the wartime heroism and distinguished military service of Commander David H. McClintock and Captain Bladen D. Claggett, retired officers of the United States Navy. Few men have exhibited the degree of bravery shown by these two men during the Second World War. While fighting for the U.S. Navy, these men took part in the greatest naval battle of all time, Leyte Gulf. At Leyte Gulf, the most substantial attack of the Pacific War, severely limited the Japanese fleet at Leyte Gulf and eventually led to a Japanese retreat from the area.

In October of 1944, Commander David H. McClintock of the U.S.S. Darter discovered the Japanese main fleet and engaged the Japanese heavy cruiser Maya. Captain Bladen D. Claggett of the U.S.S. Dace was also involved in the battle engaging and sinking the Japanese heavy cruiser Takao. Captain Bladen D. Claggett who was involved in the battle engaging and sinking the Japanese heavy cruiser Maya. In attempting to close on the crippled cruiser, the Darter ran aground. The Darter’s entire crew was rescued by the Dace, which ran the risk of grounding herself during the rescue.

The actions of these two brave men and their crews will be remembered forever, not only because of the heroics involved, but because they played a major role in preventing a disastrous defeat of the landing force at Leyte Gulf.

Today, I salute the captains and crews of the U.S.S. Darter and U.S.S. Dace. I commend Captain David H. McClintock and Captain Bladen D. Claggett for their distinguished careers and contributions to the United States of America. I extend my sincerest congratulations to Captain David H. McClintock and Captain Bladen D. Claggett, who will be present at a ground-breaking ceremony May 29th, 1999, to establish an exhibit to the Marquette Maritime Museum commemorating their most heroic deeds.

TRIBUTE TO IDA KLAUS

Mr. MOYNIHAN. Mr. President, just days ago Ida Klaus, properly described as a “labor law pioneer,” died at the age of 94. I had the great privilege of working with her in the Kennedy Administration in 1961 when she advised us on the development of Executive Order 10988, “Employee-Management Consultation in the Federal Service,” a defining event in the history of federal employment. She was a brilliant person, warm and concerned for others in a way that made possible her great achievements.

Mr. President, I ask that her obituary from The New York Times of May 20, 1999 be printed in the Record.

The obituary follows:

IDA KLAUS, 94, LABOR LAWYER FOR U.S. AND NEW YORK, DIES

(By Nick Ravo)

Ida Klaus, a labor law pioneer who became a high-ranking New York City official in the 1960s and who wrote the law that gave city employees the right to bargain collectively, died on Monday at her home in Manhattan. She was 94.

Ms. Klaus was a lifelong labor advocate whose sympathy for the working classes was instilled in her by her mother. As a young child growing up in the poor section of Brooklyn, she helped give free food from the family grocery to striking factory workers.

She organized her first union while still in her teens. She was one of three college women working as a waitress in the summer
CONGRESSIONAL RECORD—SENATE

May 26, 1999

Mr. HELMS. Mr. President, Monday morning I was delighted—and highly gratified—to find that the national media are finally catching up to a fact that many of us have known all along: The Honorable Mr. Justice Clarence Thomas is one of the brightest, most principled, and intellectually engaging members of the United States Supreme Court in a generation.

An article in Monday’s The Washington Post headed “After a Quiet Spell, Justice Finds Voice” drew a profile of a Justice who refuses to subvert to his own personal views the plain meaning of statutes passed by Congress; a Justice who is committed to protecting our basic American political structure by respecting state sovereignty; and who exercises the patient and, in five other cases he has been on the same side as Scalia but has offered a separate rationale. It’s a substantial departure from their previous pattern: Since 1991, Thomas and Scalia have voted together on about 90 percent of the time. As recently as two years ago, the two voted together in all but one case.

For years, the reputations and practices of the two men have helped feed the widespread impression that Thomas was content to follow Scalia’s lead. Scalia, a former law professor at the University of Chicago and a longtime judge, was already known for his narrow textualist reading of the Constitution and federal statutes when he joined the high court in 1986. But Thomas, whose approach inspired an admiring appeals court judge to call Scalia a “giant flywheel in the great judicial machine.”

Thomas, meanwhile, had little reputation as a scholar when he joined the court in 1991. He had worked in the federal bureaucracy for nearly a decade, becoming prominent as chairman of the Equal Employment Opportunity Commission. His conservatism, which included opposition to affirmative action programs, was viewed mostly in political terms. These impressions were reinforced by the two justices’ behavior at the high court. Scalia, the first Italian American justice, is a stylist of the first order, with a sharp, sardonic edge. Last year, for example, when he rejected a legal standard used by the majorities in more than 30 cases, he wrote a page long essay saying: “Today’s opinion resuscitates the ne plus ultra, the Napoleon Brandy, the Mahatma Ghandi, the Celophane of subjectivity, th’ ol’ ultra, the Napoleon Brandy, the Mahatma Ghandi.”

But Thomas, by contrast, was quiet in his early years, rarely speaking during oral arguments and writing few of his own opinions. He struck out on his own. This term offers new evidence of Thomas’s independent thinking. Of the 45 decisions handed down so far (31 still remain), Thomas has differed from Scalia in the bottom-line high court decisions, and in five other cases he has been on the same side as Scalia but has offered a separate rationale. It’s a substantial departure from their previous pattern: Since 1991, Thomas and Scalia have voted together on about 90 percent of the time. As recently as two years ago, the two voted together in all but one case.

For years, the reputations and practices of the two men have helped feed the widespread impression that Thomas was content to follow Scalia’s lead. Whatever their joint views, Scalia, 63, tended to write them up. Thomas, 50, merely signed.
in overturning past court rulings that he believed conflict with the Constitution. And he is more likely than Scalia to delve into legal history predating the writing of the Constitution in 1787 and more inclined to reject recent cases.

In last week’s welfare case, for example, Thomas began by tracing a core constitutional provision from the 1806 Charter of Virginia. “Like the majority, I would look to history to ascertain the original meaning of the Clause,” he wrote. While Scalia signed onto the majority opinion striking down limited welfare benefits for residents newly arrived in a state, Thomas and Chief Justice William H. Rehnquist dissented. Thomas wrote that the majority was wrongly interpreting the 14th Amendment’s Privileges or Immunities Clause, raising “the specter that the . . . Clause will become yet another convenient tool for inventing new rights, limited solely by the predilections of those who happen at the time to be members of this court.”

Thomas has also distinguished himself from Scalia by seeking more strongly to address state authority. He has emphasized that the Constitution’s authority flows from “the consent of the people of each individual state, not of the undifferentiated people of the nation as a whole.”

This accent on states’ rights was evident in a case earlier this term when only Thomas fully concurred. From his reading he concluded that he believed too broadly interpreted a federal law targeting discrimination at the polls. “The section’s interference with state sovereignty is quite drastic,” he complained.

In another example of Thomas’s narrower reading of federal law, he and Scalia were on opposite sides when the court interpreted a statute guaranteeing educational opportunities for disabled schoolchildren. Scalia voted with the majority in the March case to find that the federal disabilities law requires public schools to provide a wide variety of medical care for children with severe handicaps.

Thomas dissented with Justice Anthony M. Kennedy, who concurred in the majority’s decision that he believed too broadly interpreted a federal law requiring the states to provide services that they did not anticipate.

Because Scalia did not write separately, in any of those three recent cases—on welfare, voting rights and disabled children—it is impossible to compare directly his thinking with Thomas’s. But differences between the two were visible when they both dissented from an April ruling that said defendants who plead guilty do not lose their right to retain counsel. “I disagree with the majority’s conclusion,” Thomas wrote. “I would not saddler the states with obligations that they did not anticipate.”

VIOLENT AND REPEAT JUVENILE ACCOUNTABILITY AND REHABILITATION ACT OF 1999

On May 20, 1999, the Senate passed S. 254, the Violent and Repeat Juvenile Accountability and Rehabilitation Act of 1999. The text of the bill follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) Short Title.—This Act may be cited as the “Violent and Repeat Juvenile Offender Accountability and Rehabilitation Act of 1999”.

(b) Table of Contents.—The table of contents for this Act is as follows:

<table>
<thead>
<tr>
<th>Sec.</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>Surrender to State authorities.</td>
</tr>
<tr>
<td>2.</td>
<td>Treatment of Federal juvenile offenders.</td>
</tr>
<tr>
<td>3.</td>

</tr>
</tbody>
</table>

TITLE II—JUVENILE GANGS

Sec. 1. Short title; table of contents.

Sec. 2. Findings and purposes.

Sec. 3. Definitions.

Sec. 4. Notification after arrest.

Sec. 5. Release and detention prior to disposition.

Sec. 6. Speedy trial.

Sec. 7. Dispositional hearings.

Sec. 8. Use of juvenile records.

Sec. 9. Implementation of a sentence for juvenile offenders.

Sec. 10. Magistrate judge authority regarding juvenile defendants.

Sec. 11. Federal sentencing guidelines.

Sec. 12. Study and report on Indian tribal jurisdiction.

TITLE III—JUVENILE CRIME CONTROL, ACCOUNTABILITY, AND DELinquency PREVENTION

Subtitle A—Reform of the Juvenile Justice and Delinquency Prevention Act of 1974

Sec. 1. Findings; declaration of purpose; definitions.

Sec. 2. Juvenile crime control and prevention.

Sec. 3. Runaway and homeless youth.

Sec. 4. National Center for Missing and Exploited Children.

Sec. 5. Transfer of functions and savings provisions.

Subtitle B—Accountability for Juvenile Offenders and Public Protection Incentive Grants

Sec. 1. Block grant program.

Sec. 2. Pilot program to promote replication of recent successful juvenile crime reduction strategies.

Sec. 3. Repeal of unnecessary and duplicative programs.
May 26, 1999

CONGRESSIONAL RECORD—SENATE

TITLE I—JUVENILE JUSTICE REFORM

SEC. 101. SURRENDER TO STATE AUTHORITIES.

Section 5001 of title 18, United States Code, is amended by striking the first undesignated paragraph and inserting the following:

"Whenever any person who is less than 18 years of age is arrested and charged with the commission of an offense (or an act of delinquency that would be an offense were it committed by an adult) punishable in any court of the States or of the District of Columbia, the United States Attorney for the district in which such person has been arrested may forgo prosecution pursuant to section 5032(a)(2) if, after investigation by the United States Attorney, it appears that—

(1) such person has committed an act that is also an offense or an act of delinquency under the law of any State or the District of Columbia;

(2) such State or the District of Columbia, as applicable, can and will assume jurisdiction over such juvenile and will take such juvenile into custody and deal with the juvenile in accordance with the law of such State or the District of Columbia, as applicable; and

(3) it is in the best interests of the United States and of the juvenile offender."

SEC. 102. TREATMENT OF FEDERAL JUVENILE OFFENDERS.

(a) IN GENERAL.—Section 5032 of title 18, United States Code, is amended to read as follows:

"§ 5032. Delinquency proceedings in district courts; juveniles tried as adults; transfer for other criminal prosecution

"(a) IN GENERAL.—

"(1) DELINQUENCY PROCEEDINGS IN DISTRICT COURTS.—A juvenile who is alleged to have committed a Federal offense shall, except as provided in paragraph (2), be tried in the appropriate district court of the United States—

"(A) in the case of an offense described in subsection (c), and except as provided in subsection (i), if the juvenile was not less than 14 years of age at the time of the offense, as

"(B) in the case of a Federal offense, and the juvenile is, or is alleged to have been, a habitual offender as provided in section 5032(b), if the juvenile was not less than 14 years of age at the time of the offense, as

"(B) in the case of a Federal offense, and the juvenile is, or is alleged to have been, a habitual offender as provided in section 5032(b), if the juvenile was not less than 14 years of age at the time of the offense, as
an adult at the discretion of the United States Attorney, the appropriate jurisdic-
tion, upon certification by that United States Attorney (which certification shall not be subject to review in or by any court, except as provided in subsection (d)(2)) that—

"(i) there is a substantial Federal interest in the case or the offense to warrant the ex-
ercise of Federal jurisdiction; or

"(ii) the ends of justice otherwise so re-
quire;

"(B) in the case of a felony offense that is not de-
definable under section (c), and except as provided in subsection (d)(2), if the juvenile was not less than 14 years of age at the time of the offense, as an adult, upon certification by the Attorney General (which certification shall not be subject to review in or by any court, except as provided in subsection (d)(2)) that—

"(i) there is a substantial Federal interest in the case or the offense to warrant the ex-
ercise of Federal jurisdiction; or

"(ii) the ends of justice otherwise so re-
quire;

"(C) in the case of a juvenile who has, on a prior occasion, been tried and convicted as an adult under this section, as an adult; and

"(D) in all other cases, as a juvenile.

"(2) REMOVAL OF OFFENSE TO JUVENILE COURT.—If jurisdiction has been assumed by the courts of the State or Indian tribe with juvenile jurisdiction over the conduct at issue and both have jurisdiction over the juvenile, shall exercise a presumption in favor of removability for juvenile status under paragraph (2) unless the defendant establishes by a preponderance of the evidence or information that removal to ju-
venile status would be in the interest of jus-
tice. In making a determination under para-
graph (2), the court may consider—

"(A) the nature of the alleged offense, in-
cluding the extent to which the juvenile played a leadership role in an organization, or otherwise influenced other persons to take part in criminal activities;

"(B) whether prosecution of the juvenile as an adult is necessary to protect property or public safety;

"(C) the age and social background of the juvenile;

"(D) the extent and nature of the prior criminal or delinquency record of the juve-
nile;

"(E) the intellectual development and psy-
chological maturity of the juvenile;

"(F) the nature of any treatment efforts and the response of the juvenile to those ef-
forts; and

"(G) the availability of programs designed to treat any identified behavioral problems of the juvenile.

"(3) TIME REQUIREMENTS.—A motion to re-
define an offense under paragraph (2) shall not be considered unless that motion is filed not later than 30 days after the date on which the defendant was defined as an adult under this section.

"(4) PROHIBITION.—The court shall not order the transfer of a defendant to juvenile status under paragraph (2) unless the defend-
ant establishes by a preponderance of the evidence or information that removal to ju-
venile status would be in the interest of jus-
tice. In making a determination under para-
graph (2), the court may consider—

"(A) the nature of the alleged offense, in-
cluding the extent to which the juvenile played a leadership role in an organization, or otherwise influenced other persons to take part in criminal activities;

"(B) whether prosecution of the juvenile as an adult is necessary to protect property or public safety;

"(C) the age and social background of the juvenile;

"(D) the extent and nature of the prior criminal or delinquency record of the juve-
nile;

"(E) the intellectual development and psy-
chological maturity of the juvenile;

"(F) the nature of any treatment efforts and the response of the juvenile to those ef-
forts; and

"(G) the availability of programs designed to treat any identified behavioral problems of the juvenile.

"(5) STATUTES OF LIMITATIONS.—

"(A) IN GENERAL.—An offense committed before the person attains the age of 18 shall not be subject to the same laws, consti-
tution, fines, forfeiture, imprisonment, and supervised release) that would be applicable in the case of an adult, except that no person shall be subject to the enhanced penalty for an offense committed before the person attains the age of 18 years.

"(B) STATUS AS ADULT.—No juvenile sen-
tenced to a term of imprisonment shall be released from custody on the basis that the juvenile has attained the age of 18 years.

"(C) APPLICABLE GUIDELINES.—Each juve-
nile sentenced as an adult shall be sentenced in accordance with the Federal sentencing guidelines promulgated under section 994(d) of title 28, United States Code, once such guidelines are promulgated and take effect.

"(D) APPLICABILITY OF MANDATORY RESTITU-
TION PROVISIONS TO CERTAIN JUVENILES.—If a juvenile is tried as an adult for any offense to which the mandatory restitution provi-
sions of sections 3663A, 2248, 2259, 2264, and 2323 apply, those sections shall apply to that juvenile in the same manner and to the same extent as those provisions apply to adults.

"(E) OPEN PROCEEDINGS.—

"(1) IN GENERAL.—Any offense tried or ad-
djudicated in a district court of the United States under this section shall be open to the general public, in accordance with rules 10, 26, 31(a), and 53 of the Federal Rules of Criminal Procedure, unless good cause is es-
tablished by the moving party or is other-
wise found by the court, for closure.

"(2) STATUS ALONE INSUFFICIENT.—The status of the defendant as a juvenile, absent other factors, shall not constitute good cause for purposes of this subsection.

"(F) AVAILABILITY OF RECORDS.—

"(1) IN GENERAL.—In making a determina-
tion concerning the arrest or prosecution of a juvenile in a district court of the United States under this section, the United States Attorney of the appropriate jurisdiction, or, at his discretion, the Attorney General, shall have complete access to the prior Federal ju-
venile records of the subject juvenile and, to the extent permitted by State law, the prior Federal juvenile records of the subject juve-
nile.

"(2) CONSIDERATION OF PHYSICAL RECORD.—In any case in which a juvenile is found guilty of an offense described in this subsection, the district court responsible for imposing sentence shall have complete...
access to the prior Federal juvenile records of the subject of the proceeding. To the extent the records are not available because they were not provided to the district courts before the commencement of the instant offense, the district courts shall consider the entire available prior juvenile record of the subject of the proceeding.

(1) APPLICATION TO INDIAN COUNTRY.—Notwithstanding sections 1152 and 1153, certification under subparagraph (A) or (B) of subsection (a) shall not be made nor granted with respect to a juvenile who is subject to the criminal jurisdiction of an Indian tribal government. An Indian juvenile is less than 18 years of age at the time of the offense and is alleged to have committed an offense for which there would be Federal jurisdiction based solely on commission of the offense in Indian country (as defined in section 1151), unless the governing body of the tribe having jurisdiction over the place where the alleged offense was committed has notified the Attorney General in writing of its election that prosecution as an adult may take place under its jurisdiction.

(2) CONFORMING AMENDMENTS.—

(a) CHARGE ANALYSIS.—The analysis for chapter 403 of title 18, United States Code, is amended by adding at the end the following:

"(4) the instant offense.

"(d) CONSEQUENCES.—The district court shall impose a sentence of not more than 15 years after the commencement of the instant offense.

(3) JUVENILE.—The term 'juvenile' includes—

"(a) a person who has not attained the age of 18 years;

"(b) a person who has been adjudicated delinquent for, or convicted of, a violent felony or act of juvenile delinquency committed while a minor before the eighteenth birthday of that person;

"(c) a person who has been adjudicated delinquent for, or convicted of, the violation of—

(1) a Federal law; or

(2) State or local law.

(4) JUVENILE ADJUDICATIONS.—In carrying out this subsection, the Commission—

(A) shall assign criminal history points for juvenile adjudications based principally on the nature of the acts committed by the juvenile; and

(B) may provide for some adjustment of the score in light of the length of sentence the juvenile received.

"(5) EMERGENCY AUTHORITY .—The Commission shall promulgate the Federal sentencing guidelines and amendments under this subsection as soon as practicable, and in any event not later than 90 days after the date of enactment of the Violent and Repeat Juvenile Offender Accountability and Rehabilitation Act of 1999, in accordance with the procedures set forth in section 211(a) of the Sentencing Reform Act of 1984.

"(B) controlled substance offense;

"(C) a person who was previously convicted of a violent or controlled substance offense;

(5) PROHIBITED PHYSICAL CONTACT.—A defendant found to be a career offender shall be a career offender under section 924(c).

"(ii) contributors to an act of juvenile delinquency that would have been a misdemeanor if committed by an adult, an Indian tribe (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450(e))),

"(7) VIOLENT JUVENILE.—The term 'violent juvenile' means any juvenile who is alleged to have committed, has been adjudicated delinquent for, or has been convicted of an offense that, if committed by an adult, would be a crime of violence (as defined in section 4(b)(1)(A)(ii) of the Federal Sentencing Guidelines Manual).

SEC. 104. NOTIFICATION AFTER ARREST.

Section 5033 of title 18, United States Code, is amended by adding the following as a new section: 5033c:

5033c. Juvenile not subject to detention pending the completion of the instant offense

(a) DUTIES OF MAGISTRATE.—Section 5034 of title 18, United States Code, is amended by adding the following:

(A) REPRESENTATION BY COUNSEL.—The magistrate shall ensure:

(1) that the magistrate shall inquire and inserting the following:

"(1) the magistrate shall inquire and inserting the following:

(2) by striking "The magistrate may appoint" and inserting the following:

(3) by striking "If the juvenile" and inserting the following:

"(C) the magistrate shall ensure:

(1) the magistrate shall ensure:

(2) the magistrate shall ensure:

(3) the magistrate shall ensure:

"(a) in general.—

(1) that the magistrate shall ensure:

(2) that the magistrate shall ensure:

(3) that the magistrate shall ensure:
"(b) RELEASE PRIOR TO DISPOSITION.—Except as provided in subsection (c), if the juvenile:—

(1) is a juvenile who is to be tried as an adult pursuant to section 5032 shall be released pending trial only in accordance with the applicable provisions of chapter 207. The release shall be conducted in the same manner and shall be subject to the same terms, conditions, and sanctions for violation of a release condition as provided for an adult under chapter 207. a juvenile who is to be tried as an adult pursuant to section 5032 shall be released pending trial only in accordance with the applicable provisions of chapter 207. The release shall be conducted in the same manner and shall be subject to the same terms, conditions, and sanctions for violation of a release condition as provided for an adult under chapter 207.

(2) APPLICABILITY OF CERTAIN PENALTIES.—Section 3147 shall apply to a juvenile who is to be tried as an adult pursuant to section 5032 for an offense committed while on release under this section. In determining whether to release an offender prior to disposition, the following:

(a) General.—A juvenile alleged to juvenile who is to be tried as an adult pursuant to section 5032 shall be subject to detention in accordance with section 5032 for an offense committed while on release under this section. In determining whether to release an offender prior to disposition, the following:

(b) DETENTION PRIOR TO DISPOSITION.—Section 5035 and juvenile delinquency proceedings of delinquency proceeding under section 5032 or 5037, the records of such proceeding shall be safeguarded from disclosure to unauthorized persons, and shall only be released to the extent necessary for purposes of:

(1) Compliance with section 5032(b);

(b) Docketing and processing by the court; and

(c) in the last sentence, by inserting "or supervised release") and impose any fine that would be authorized if the juvenile had been tried and convicted as an adult; and

(b) enter an order of restitution pursuant to section 3663.

(2) in subsection (b)—

(A) in the matter preceding paragraph (1), by inserting "or supervised release" after "probation";

(B) by striking "extend—" and all that follows through "of section 3663."

(2) in subsection (b)—

(A) by striking subsection (a) and inserting "A juvenile who is to be tried as an adult pursuant to section 5032 shall be subject to detention in accordance with chapter 207 in the same manner, to the same extent, and subject to the same terms and conditions as an adult would be subject to under that chapter.

(2) EXCEPTION.—A juvenile shall not be detained in any institution in which the juvenile has prohibited physical contact or sustained oral communication with adult inmates. To the extent practicable, violent juveniles shall be kept separate from nonviolent juveniles; and

(3) by adding at the end the following:

(b) DETENTION OF CERTAIN JUVENILES.—

(1) IN GENERAL.—A juvenile who is to be tried as an adult pursuant to section 5032 shall be subject to detention in accordance with chapter 207 in the same manner, to the same extent, and subject to the same terms and conditions as an adult would be subject to under that chapter.

(2) EXCEPTION.—A juvenile shall not be detained in any institution in which the juvenile has prohibited physical contact or sustained oral communication with adult inmates. To the extent practicable, violent juveniles shall be kept separate from nonviolent juveniles; and

SEC. 106. SPEEDY TRIAL.

Section 5036 of title 18, United States Code, is amended—

(1) by inserting "who is to be proceeded against as a juvenile pursuant to section 5032 and after—" if an alleged delinquent";

(2) by striking "thirty" and inserting "70";

(3) by striking "the court," and all that follows through the end of the section and inserting the following: "the court. The period of exclusion under section 3161(h) shall apply to this section. In determining whether an information should be dismissed with prejudice, the court shall consider the facts and circumstances of the case that led to the dismissal, including the possibility of a reprosecution on the administration of justice."

SEC. 107. DISPOSITIONAL HEARINGS.

Section 5037 of title 18, United States Code, is amended—

(1) by striking subsection (a) and inserting the following:

(a) IN GENERAL.—Throughout a juvenile delinquency proceeding under section 5032 or 5037, the records of such proceeding shall be safeguarded from disclosure to unauthorized persons, and shall only be released to the extent necessary for purposes of:

(i) compliance with section 5032(b);

(ii) docketing and processing by the court;

(iii) responding to an inquiry received from another court of law;

(iv) responding to an inquiry from an agency preparing a presentation report for another court;

(v) responding to an inquiry from a law enforcement agency, if the request for information is related to the investigation of a crime or a position within that agency or analysis requested by the Attorney General;

(vi) responding to a written inquiry from the director of a treatment agency or the director of a facility to which the juvenile has been committed by the court;

(vii) responding to an inquiry from an agency considering the person for a position immediately and directly affecting national security;

(viii) responding to an inquiry from any victim of such juvenile delinquency or, if the victim is deceased, from a member of the immediate family of the victim, related to the final disposition of such juvenile by the court in accordance with section 5032 or 5037, as applicable; and

(ix) communicating with a victim of such juvenile delinquency or, in appropriate cases, with the official representative of a victim, in order to—

(A) assist in the allocation at disposition of the victim or the representative of the victim;

(B) RECORDS OF ADJUDICATION.—

(1) TRANSMISSION TO FBI.—Upon an adjudication of delinquency under section 5032 or 5037, the court shall transmit to the Director of the Federal Bureau of Investigation a record of such adjudication.

(2) MAINTAINING RECORDS.—The Director of the Federal Bureau of Investigation shall maintain, in the central repository of the Federal Bureau of Investigation, in accordance with the established practices and policies relating to adult criminal history records of the Federal Bureau of Investigation—

(A) a fingerprint supported record of the Federal adjudication of delinquency of any juvenile who commits an act that, if committed by an adult, would constitute the offense of murder, armed robbery, escape (except statutory rape), or a felony offense involving sexual molestation of a child, or a conspiracy or attempt to commit any such offense, that is equivalent to, and maintained and disseminated in the same manner and for the same purposes, as are adult criminal history records for the same offenses; and

(B) a fingerprint supported record of the Federal adjudication of delinquency of any juvenile who commits an act that, if committed by an adult, would constitute the offense of murder, armed robbery, escape (except statutory rape), or a felony offense involving sexual molestation of a child, or a conspiracy or attempt to commit any such offense, that is equivalent to, and maintained and disseminated in the same manner and for the same purposes, as are adult criminal history records for the same offenses—

(i) for use by and within the criminal justice system for the detention, pretrial release, post-trial release, prosecution, adjudication, sentencing, disposition, correctional supervision, or rehabilitation of an adult criminal offender, or juvenile delinquent; and

(ii) for purposes of responding to an inquiry from an agency considering the subject of the record for a position or clearance immediately and directly affecting national security.
"(3) Availability of records to schools—In no case shall personal identifiers as defined in paragraph (2) be included in the record compiled for a juvenile who is adjudicated delinquent or found guilty of an offense under any proceeding in title 18, United States Code, and sentenced pursuant to a dispositional hearing under section 5037 of title 18, United States Code.

(2) Determinations.—In carrying out this subsection, the Commission shall make the determinations required by subsection (a)(1) and promulgate the policy statements and guidelines required by paragraphs (2) and (3) of subsection (a).

(3) Considerations.—In addition to any other considerations required by this section, the Commission, in promulgating guidelines—

(A) pursuant to paragraph (1)(A), shall presume the appropriateness of adult sentencing provisions, but may make such adjustments to sentence lengths and to provisions governing downward departures from the guidelines as reflect the specific interests and circumstances of juvenile defendants; and

(B) pursuant to paragraph (1)(B), shall ensure that the guidelines—

(1) reflect the broad range of sentencing options available to the court under section 5037 of title 18, United States Code; and

(2) effectuate a policy of accountablity for juvenile justice systems of Indian tribes (as defined in section 450b(e)) and shall report to the Chairman and Ranking Member of the Committee on the Judiciary of the House of Representatives and the Chairman and Ranking Member of the Committee on Indian Affairs of the Senate and the Chairman and Ranking Member of the Committee on Indian Affairs of the House of Representatives on—

(1) the extent to which tribal governments are equipped to adjudicate felonies, misdemeanor, and other serious offenses committed by juveniles subject to tribal jurisdiction; and

(2) the need for and benefits from expanding the jurisdiction of tribal courts and the authority to impose the same sentences that can be imposed by Federal or State courts on such juveniles.

TITLE II—JUVENILE GANGS

SEC. 201. SOLICITATION OR RECRUITMENT OF PERSONS IN CRIMINAL STREET GANG ACTIVITIES.

(a) Prohibited Acts.—Chapter 26 of title 18, United States Code, is amended by adding at the end the following:
§ 522. Recruitment of persons to participate in criminal street gang activity.

(a) Prohibited Act.—It shall be unlawful for any person, to use any facility in, or travel in, interstate or foreign commerce, or cause another to do so, to recruit, solicit, induce, persuade, hire, or cause another person to be or remain as a member of a criminal street gang, or conspire to do so, with the intent that the person being recruited, solicited, induced, persuaded, hired, or caused to be or remain as a member of such gang participate in an offense described in section 521(c) of this title.

(b) Penalties.—Any person who violates subsection (a) shall—

(1) if the person recruited, solicited, induced, persuaded, hired, or caused to be or remain as a member of a criminal street gang, be liable for any costs incurred by the Federal Government or by any State or local government for housing, maintaining, and treating the minor until the minor attains the age of 18 years.

(c) Definitions.—In this section:

(1) Criminal Street Gang.—The term ‘criminal street gang’ has the meaning given the term in section 521.

(2) Minor.—The term ‘minor’ means a person who is younger than 18 years of age.

(b) Conforming Amendment.—The analysis for chapter 26 of title 18, United States Code, is amended by adding at the end the following:

“522. Recruitment of persons to participate in criminal street gang activity.”

SEC. 202. Increased Penalties for Using Minors to Distribute Drugs.

Section 420 of the Controlled Substances Act (21 U.S.C. 861) is amended—

(1) in subsection (b), by striking “one year” and inserting “3 years”; and

(2) in subsection (c), by striking “one year” and inserting “5 years”.

SEC. 203. Penalties for Use of Minors in Crimes Involving Controlled Substances.

(a) In General.—Chapter 1 of title 18, United States Code, is amended by adding at the end the following:

“§ 25. Use of minors in crimes of violence

(a) Penalties.—Except as otherwise provided by law, whoever, being not less than 18 years of age, knowingly and intentionally uses a minor to commit a Federal offense that is a crime of violence, or to assist in avoiding detection or apprehension for such an offense, shall—

(1) be subject to 2 times the maximum imprisonment and 2 times the maximum fine that would otherwise be imposed for the offense; and

(2) for second or subsequent convictions under this subsection, be subject to 3 times the maximum imprisonment and 3 times the maximum fine that would otherwise be imposed for the offense.

(b) Conforming Amendment.—The analysis for chapter 1 of title 18, United States Code, is amended by adding at the end the following:

“25. Use of minors in crimes of violence.”

SEC. 204. Criminal Street Gangs.

(a) In General.—Section 521 of title 18, United States Code, is amended—

(1) in subsection (a), in the second undesignated paragraph—

(A) by striking “§” and inserting “§3;”;

(B) by inserting “, whether formal or informal)” after “court or parole”; and

(C) in subparagraph (A), by inserting “or activities” after “purposes”;

(2) in subsection (b), by inserting after “10 years” the following: “; and such person shall be subject to the forfeiture prescribed in section 412 of the Controlled Substances Act (21 U.S.C. 853);”;

(3) in subsection (c)—

(A) in paragraph (2), by striking “and” at the end;

(B) in paragraph (3), by striking the period at the end and inserting “or solvent;”;

(C) by adding at the end the following:

“(3) that is a violation of section 521 (relating to obstruction of justice);”;

“(4) that is a violation of section 444, 475, or 666 relating to extortion and threats, section 1084 relating to gambling, section 1955 relating to racketeering, and section 73 (relating to obstruction of justice);”;

“(5) that is a violation of section 1956 (relating to money laundering), to the extent that the violation of such section is related to a Federal or State offense involving a controlled substance (as that term is defined in section 102 of the Controlled Substances Act (21 U.S.C. 802));”;

“(6) that is a violation of section 279(a)(1)(A), 277, or 278 of the Immigration and Nationality Act (8 U.S.C. 1324(a)(1)(A), 1327, or 1328) (relating to alien smuggling); and

“(7) a conspiracy, attempt, or solicitation to commit an offense described in paragraphs (1) through (6).”;

(b) Technical and Conforming Amendment.—Section 963(c)(4) of title 18, United States Code, is amended by striking “chapter 46” and inserting “section 521, chapter 46.”

SEC. 205. High Intensity Interstate Gang Activities.

(a) Definitions.—In this section:

(1) Governor.—The term “Governor” means a Governor of a State or the Mayor of the District of Columbia.

(2) High Intensity Interstate Gang Activity Area.—The term ‘high intensity interstate gang activity area’ means an area within a State that is designated as a high intensity interstate gang activity area under subsection (b)(1).

(3) State.—The term “State” means a State of the United States or the District of Columbia.

(b) High Intensity Interstate Gang Activity Areas.

(1) Designation.—The Attorney General, upon consultation with the Secretary of the Treasury and the Governors of appropriate States, may designate as a high intensity interstate gang activity area a specified area that is located—

(A) within a State; or

(B) in more than 1 State.

(2) Assistance.—In order to provide Federal assistance to a high intensity interstate gang activity area, the Attorney General may—

(A) facilitate the establishment of a regional task force, consisting of Federal, State, and local law enforcement authori- ties, for the coordinated investigation, disruption, apprehension, and prosecution of criminal activities of gangs and gang members in the high intensity interstate gang activity area; and

(B) direct the detailing from any Federal department or agency subject to the approval of the head of that department or agency, in the case of a department or agency other than the Department of Justice, of personnel to the high intensity interstate gang activity area.

(c) Criteria for Designation.—In considering an area (a State or within more than 1 State) for designation as a high intensity interstate gang activity area under this section, the Attorney General shall consider:

(A) the extent to which the area is affected by the criminal activity of gang members who—

(i) are located in, or have relocated from, other States; or

(ii) are located in, or have immigrated (legally or illegally) from, foreign countries;

(B) the extent to which the area is affected by criminal activities of gangs that originated in other States or foreign countries;

(C) the extent to which State and local law enforcement agencies have committed resources to respond to the problem of criminal gang activity in the area, as an indication of their determination to respond aggressively to the problem;

(D) the extent to which a significant increase in the allocation of Federal resources would enhance local response to gang-related criminal activities in the area; and

(E) any other criteria that the Attorney General considers to be appropriate.

(d) Authorization of Appropriations.—(1) In General.—There is authorized to be appropriated to carry out this section $100,000,000 for each of fiscal years 1999 through 2004, to be used in accordance with paragraph (2).

(2) Use of Funds.—Of amounts made available under paragraph (1) in each fiscal year—

(A) 60 percent shall be used to carry out subsection (b)(2); and

(B) 40 percent shall be used to make grants for community-based programs to provide crime prevention and intervention services that are designed for gang members and at-risk youth in areas designated pursuant to this section as high intensity interstate gang activity areas.

(3) Requirement.—(A) In General.—The Attorney General shall ensure that not less than 10 percent of amounts made available under paragraph (1) in each fiscal year are used to assist rural States affected as described in subparagraphs (B) and (C) of subsection (b)(3).

(B) Definition of Rural State.—In this paragraph, the term ‘rural State’ has the meaning given the term in section 101(b) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 376b(b)).

SEC. 206. Increasing the Penalty for Using Physical Force to Tamper with Witnesses, Victims, or Informants.

Section 1512 of title 18, United States Code, is amended—

(1) in subsection (a)—

(A) in paragraph (1), by striking “as provided in paragraph (2)” and inserting “as provided in paragraph (3);”;

(B) by redesigning paragraph (2) as paragraph (3);
(C) by inserting after paragraph (1) the following:

"(2) USE OF PHYSICAL FORCE TO TAMPER WITH WITNESSES, VICTIMS, OR INFORMANTS.—Whoever uses physical force or the threat of physical force against any person, or attempts to do so, with intent to—

"(A) influence, delay, or prevent the testimony of any person in an official proceeding;

"(B) induce or induce any person to—

"(i) withhold testimony, or withhold a record, document, or other object, from an official proceeding;

"(ii) alter, destroy, mutilate, or conceal an object with intent to impair the object's integrity or availability for use in an official proceeding;

"(iii) evade legal process summoning that person to appear as a witness, or to produce a record, document, or other object, in an official proceeding; or

"(iv) be absent from an official proceeding;

"(C) hinder, delay, or prevent the communication of a law enforcement officer or judge of the United States of information relating to the commission or possible commission of a Federal offense or a violation of conditions of probation, parole, or release pending judicial proceedings; shall be punished as provided in paragraph (3):"; and

D) in paragraph (3), as redesignated, by striking subparagraph (B) and inserting the following:

"(B) in the case of—

"(i) an attempt to murder; or

"(ii) the use of physical force against any person;

"imprisonment for not more than 20 years; ";

"(3) by adding at the end the following:

"(1) CONSPIRACY.—Whoever conspires to commit any offense under this section or section 1513 shall be subject to the same penalties as those prescribed for the offense the commission of which was of the object of the conspiracy."

SEC. 207. AUTHORITY TO MAKE GRANTS TO PROSECUTORS' OFFICES FOR COMBAT GANGS AND YOUTH VIOLENCE.

(a) IN GENERAL.—Section 31702 of title Q of chapter III of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 13862) is amended—

"(1) in paragraph (2), by striking "and" at the end;

"(2) in paragraph (4), by striking the period at the end and inserting a semicolon; and

"(3) by adding at the end the following:

"(5) to allow the hiring of additional prosecutors, so that more cases can be prosecuted and backlogs reduced;"

"(6) to provide funding to enable prosecutors to address drug, gang, and youth violence problems more effectively;

"(7) to provide funding to assist prosecutors with funding for technology, equipment, and training to assist prosecutors in reducing the incidence of, and increase the successful investigation and speed of prosecution of young violent offenders; and

"(8) to provide funding to assist prosecutors in their efforts to engage in community prosecution, problem solving, and conflict resolution techniques through collaborative efforts with police, school officials, probation officers, social service agencies, and communities;"

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 31707 of title Q of chapter III of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 13867) is amended to read as follows:

"SEC. 31707. AUTHORIZATION OF APPROPRIATIONS. —

"There are authorized to be appropriated to carry out this subtitle, $50,000,000 for 2000 through 2004:

"SEC. 208. INCREASE IN OFFENSE LEVEL FOR PARTICIPATION IN CRIME AS A GANG MEMBER. —

(a) DEFINITION OF CRIMINAL STREET GANG.—In this section—

"(2) CRIMES OF VIOLENCE.—Whoever—

"(2) USE OF PHYSICAL FORCE TO TAMPER WITH WITNESSES, VICTIMS, OR INFORMANTS.—

"(1) IN GENERAL.—Pursuant to its authority under section 994(p) of title 28, United States Code, the United States Sentencing Commission shall amend the Federal Sentencing Guidelines to provide an appropriate enhancement for an offense described in section 521(c) of title 18, United States Code as amended by section 204 of this Act; and

"(A) travels in interstate or foreign commerce; or uses the mail or any facility in interstate or foreign commerce, with intent to—

"(1) PROHIBITED CONDUCT AND PENALTIES.—

"(1) IN GENERAL.—Whoever—

"(1) CONSTRUCTION WITH OTHER GUIDELINES.—The amendment made by subsection (b) shall provide that the increase in the offense level shall be in addition to any other adjustment under chapter 3 of the Federal Sentencing Guidelines."

SEC. 209. INTERSTATE AND FOREIGN TRAVEL OR TRANSPORTATION IN AID OF CRIMINAL GANGS. —

(a) TRAVEL ACT AMENDMENT.—Section 1952 of title 18, United States Code, is amended to read as follows:

"1952. Interstate and foreign travel or transportation in aid of racketeering enterprises. —

"(1) PROHIBITED CONDUCT AND PENALTIES.—

"(1) IN GENERAL.—Whoever—

"(A) travels in interstate or foreign commerce or uses the mail or any facility in interstate or foreign commerce, with intent to—

"(1) distribute the proceeds of any unlawful activity; or

"(ii) otherwise promote, manage, establish, carry on, or facilitate the promotion, management, establishment, or carrying on, of any unlawful activity; and

"(B) after travel or use of the mail or any facility in interstate or foreign commerce described in subparagraph (A), performs, attempts to perform, or conspires to perform an act described in clause (i) or (ii) of subparagraph (A) shall be fined under this title, imprisoned not more than 10 years, or both."

"(2) CRIMES OF VIOLENCE.—Whoever—

"(A) travels in interstate or foreign commerce or uses the mail or any facility in interstate or foreign commerce, with intent to commit any crime of violence to further any unlawful activity; or

"(B) after travel or use of the mail or any facility in interstate or foreign commerce described in subparagraph (A), commits, attempts to commit, or conspires to commit any crime of violence to further any unlawful activity; shall be fined under this title, imprisoned for not more than 20 years, or both, and if death results shall be sentenced to death or be imprisoned for any term of years or for life."

(b) DEFINITIONS.—In this section:

"(1) UNLAWFUL ACTIVITY.—The term ‘unlawful activity’ means—

"(A) any business enterprise involving gambling, liquor on which the Federal excise tax has not been paid, narcotics or controlled substances, or prostitution offenses in violation of the laws of the State in which the offense is committed or of the United States; 

"(B) extortion, bribery, arson, burglary if the offense involves property valued at not less than $10,000, with a deadly weapon resulting in the death of a person, or a scheme or act resulting in the placement of a person at an occupied dwelling or motor vehicle, or retaliation against or intimidation of witnesses, victims, jurors, or informants, in violation of the laws of the State in which the offense is committed or of the United States; 

"(C) the use of bribery, force, intimidation, or threat, directed against any person, to delay or influence the testimony of or prevent from testifying a witness in a State criminal proceeding or by any such means to cause any person to destroy, alter, or conceal a record, document, or other object, with intent to impair the object’s integrity or availability for use in such a proceeding; or

"(D) any act that is indictable under section 1956 or 1957 of this title or under subchapter II of chapter 53 of title 11."

(b) AMENDMENT OF SENTENCING GUIDELINES.—

"(1) IN GENERAL.—Pursuant to its authority under section 994(p) of title 28, United States Code, the United States Sentencing Commission shall amend the Federal Sentencing Guidelines to provide an appropriate enhancement for a person who, in violation of the laws of the State in which the offense is committed or of the United States, causes another person residing in another State to remain a member of a criminal street gang, or crosses a State line to recruit members in their efforts to engage in community prosecution, problem solving, and conflict resolution techniques through collaborative efforts with police, school officials, probation officers, social service agencies, and communities;"

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 31707 of title Q of chapter III of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 13867) is amended to read as follows:

"SEC. 31707. AUTHORIZATION OF APPROPRIATIONS. —

"There are authorized to be appropriated to carry out this subtitle, $50,000,000 for 2000 through 2004:

"SEC. 208. INCREASE IN OFFENSE LEVEL FOR PARTICIPATION IN CRIME AS A GANG MEMBER. —

(a) DEFINITION OF CRIMINAL STREET GANG.—In this section—

"(C) hinder, delay, or prevent the communication of a law enforcement officer or judge of the United States of information relating to the commission or possible commission of a Federal offense or a violation of conditions of probation, parole, or release pending judicial proceedings; shall be punished as provided in paragraph (3):"; and

D) in paragraph (3), as redesignated, by striking subparagraph (B) and inserting the following:

"(B) in the case of—

"(i) an attempt to murder; or

"(ii) the use of physical force against any person;

"imprisonment for not more than 20 years; ";

"(3) by adding at the end the following:

"(1) CONSPIRACY.—Whoever conspires to commit any offense under this section or section 1513 shall be subject to the same penalties as those prescribed for the offense the commission of which was of the object of the conspiracy."

SEC. 207. AUTHORITY TO MAKE GRANTS TO PROSECUTORS' OFFICES FOR COMBAT GANGS AND YOUTH VIOLENCE.

(a) IN GENERAL.—Section 31702 of title Q of chapter III of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 13862) is amended—

"(1) in clause (i), by striking "and" at the end;
SEC. 211. CLONE PAGERS.

(a) General. Section 3121(2)(b) of title 18, United States Code, is amended by striking clause (i) and inserting the following:

"(i) a pen register, trap and trace device, or clone pager, as those terms are defined in chapter 206 of this title (relating to pen registers, trap and trace devices, and clone pagers); or"

(b) Exception. Section 3121 of title 18, United States Code, is amended—

(1) by striking subsection (a) and inserting the following:

"(a) IN GENERAL.—Except as provided in this section, no person may install or use a pen register, trap and trace device, or clone pager, as defined in subsection (b), without a court order authorizing the use of such device, or the use of a clone pager.";

(2) in subsection (b), by striking "a pen register or a trap and trace device" and inserting "a pen register, trap and trace device, or clone pager"; and

(3) by striking the section heading and inserting the following:

"§ 3121. General prohibition on pen register, trap and trace device, and clone pager use; exception"

(c) Assistance. Section 3124 of title 18, United States Code, is amended—

(1) by redesignating subsections (c) through (f) as subsections (d) through (g), respectively;

(2) by inserting after subsection (b) the following:

"(c) CLONE PAGER.—Upon the request of an attorney for the Government or an officer of a law enforcement agency authorized to use a clone pager under this chapter, a provider of electronic communication service shall furnish to such investigative or law enforcement officer all information, facilities, and technical assistance necessary to accomplish the use of a clone pager unobtrusively and with a minimum of interference with the services that the person so ordered by the court provides to the subscriber, if such assistance is directed by a court order, as provided in section 3128(b)(2) of this title; and

(3) by striking the section heading and inserting the following:

"§ 3124. Assistance in installation and use of a pen register, trap and trace device, or clone pager"

(d) Emergency Installations. Section 3125 of title 18, United States Code, is amended—

(1) by striking "pen register or a trap and trace device" and "pen register or trap and trace device" each place they appear and inserting "pen register, trap and trace device, or clone pager";

(2) in subsection (a), by striking "an order approving the installation or use is issued in accordance with section 3122 of this title and inserting "an application is made for an order approving the installation or use in accordance with section 3122 or section 3128 of this title";

(3) in subsection (b), by adding at the end the following: "If such application for the use of a clone pager is denied, or in any other case in which the use of the clone pager is terminated without an order having been issued, an inventory shall be served as provided for in section 3129(e) of this title.";

(requires probable cause to believe that information relevant to an ongoing criminal investigation being conducted by that agency will be obtained through use of the clone pager.

§ 3128. Application for an order for use of a clone pager

(a) Application.

(1) FEDERAL REPRESENTATIVES.—Any attorney for the Government may apply to a court of competent jurisdiction for an order or an extension of an order under section 3129 of this title authorizing the use of a clone pager.

(b) STATE REPRESENTATIVES.—A State investigative or law enforcement officer may, if authorized by a State statute, apply to a court of competent jurisdiction of such State for an order or an extension of an order under section 3129 of this title authorizing the use of a clone pager.

(c) CONTENTS OF APPLICATION.—An application under subsection (a) of this section shall include—

(1) the identity of the attorney for the Government or the State law enforcement officer making the application and the identity of the law enforcement agency conducting the investigation;

(2) the identity, if known, of the individual or individuals using the numeric display paging device to be cloned;

(3) a description of the numeric display paging device to be cloned;

(4) a description of the offense to which the information likely to be obtained by the clone pager relates;

(5) the identity, if known, of the person who is subject of the criminal investigation; and

(a) In General.—Upon an application made under section 3128 of this title, the court shall enter an order authorizing the use of a clone pager within the jurisdiction of the court if the court finds that there is probable cause to believe that information relevant to an ongoing criminal investigation being conducted by that agency will be obtained through use of the clone pager.

(b) CONTENTS OF AN ORDER.—An order issued under this section—

(1) shall specify—

(A) the identity, if known, of the individual or individuals using the numeric display paging device to be cloned;

(B) the numeric display paging device to be cloned;

(C) the identity, if known, of the subscriber to the paging service; and

(d) the offense to which the information likely to be obtained by the clone pager relates; and

(2) shall direct, upon the request of the applicant, the furnishing of information, facilities, and technical assistance necessary to use the clone pager under section 3129 of this title.

(c) TIME PERIOD AND EXTENSIONS.—

(1) IN GENERAL.—An order issued under this section shall authorize the use of a clone pager for a period not to exceed 30 days. Such 30-day period shall begin on the earlier of the day on which the investigative or law enforcement officer first begins use of the clone pager or the tenth day after the order is entered.

(2) EXTENSIONS.—Extensions of an order issued under this section may be granted, only upon the application for an order under section 3129 of this title and upon the judicial finding required by subsection (a). An extension under this paragraph shall be for a period not to exceed 30 days.

(3) REPORT.—Within a reasonable time after the termination of the period of a clone pager order or any extensions thereof under this subsection, the applicant shall report to the issuing court the number of numeric pager messages acquired through the use of the clone pager during such period.

(d) NONDISCLOSURE OF EXISTENCE OF CLONE PAGER.—An order authorizing the use of a clone pager shall direct that—

(1) the order shall be sealed until otherwise ordered by the court; and

(2) the person who has been ordered by the court to provide assistance to the applicant may not disclose the existence of the clone pager or the existence of the investigative to the listed subscriber, or to any other person, until otherwise ordered by the court.

(e) APPEAL.—

(1) IN GENERAL.—Within a reasonable time, not later than 90 days after the date of termination of the period of a clone pager order or any extensions thereof, the issuing judge shall cause to be served, on the individual or individuals using the numeric display paging device that was cloned, an inven- torial notice of—

(A) the fact of the entry of the order or the application;
(B) the date of the entry and the period of time, if any, authorized, or the denial of the application; and

(C) whether or not information was obtained through the use of a clone pager.

(2) by striking the items relating to section 3121 and inserting the following:

“3121. General prohibition on pen register, trap and trace device, and clone pager use; exception.”;

(2) by striking the items relating to sections 3124, 3125, and 3126 and inserting the following:

“3124. Assistance in installation and use of a pen register, trap and trace device, and clone pager.

3125. Emergency installation and use of pen register, trap and trace device, and clone pager.

3126. Reports concerning pen registers, trap and trace devices, and clone pagers.”; and

(3) by adding at the end the following:

“3128. Application for an order for use of a clone pager.

3129. Issuance of an order for use of a clone pager.

I CONFORMING AMENDMENT.—Section 704(a) of the Communications Act of 1934 (47 U.S.C. 605(a)) is amended by striking “chapter 119,” and inserting “chapters 119 and 206 of.”

TITLE III—JUVENILE CRIME CONTROL, ACCOUNTABILITY, AND DELINQUENCY PREVENTION

Subtitle A—Reform of the Juvenile Justice and Delinquency Prevention Act of 1974

SEC. 301. FINDINGS; DECLARATION OF PURPOSE; DEFINITIONS.

Title I of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5601 et seq.) is amended to read as follows:

“SEC. 101. PURPOSE AND DECLARATION OF PURPOSE.

(a) In General.—The purposes of this Act are to—

(1) empower States and communities to develop and implement comprehensive programs that support families, reduce risk factors, and prevent serious youth crime and juvenile delinquency;

(2) protect the public and to hold juveniles accountable for their acts;

(3) encourage preventive, consistent with the ideals of federalism, the adoption by the States of policies recognizing the rights of victims in the juvenile justice system, and assuming juvenile responsibility under applicable State law;

(4) provide for the thorough and ongoing evaluation of all federally funded programs addressing juvenile crime and delinquency;

(5) establish a centralized research effort on the problems of youth crime and juvenile delinquency, including the dissemination of the findings of such research and all related data;

(6) develop and operate, in coordination with Federal, State, and local agencies, and in cooperation with private nonprofit entities that protect public safety, administer justice and corrections to delinquent youth, or provide services to youth at risk of delinquency, and their families;

(7) establish a Federal assistance program to deal with the problems of runaway and homeless youth;

(8) assist States and units of local government in improving the administration of justice for juveniles;

(9) assist the States and units of local government in reducing the level of youth violence and juvenile delinquency;

(10) assist States and units of local government in promoting public safety by supporting juvenile delinquency prevention and control activities; and

(11) encourage and promote programs designed to keep in school juvenile delinquents expelled or suspended for disciplinary reasons;

(12) assist States and units of local government in promoting public safety by encouraging accountability for acts of juvenile delinquency;

(13) assist States and units of local government in promoting public safety by improving the extent, accuracy, availability and usefulness of juvenile court and law enforcement records and the openness of the juvenile justice system;

(14) assist States and units of local government in promoting public safety by encouraging the identification of violent and means a juvenile;

(15) assist States and units of local government in promoting public safety by providing resources to States to build or expand juvenile detention facilities;

(16) provide for the evaluation of federally assisted juvenile crime control programs, and assist States and units of local government in promoting public safety by providing resources to States to build or expand juvenile detention facilities;

(17) provide technical assistance to public and private nonprofit juvenile justice and delinquency prevention programs by providing a national clearinghouse;

(18) provide technical assistance to public and private nonprofit juvenile justice and delinquency prevention programs;

(b) Statement of Policy.—It is the policy of Congress to provide resources, leadership, and coordination to—

(1) combat youth violence and to prosecute and punish effectively violent juvenile offenders;

(2) enhance efforts to prevent juvenile crime and delinquency; and

(3) improve the quality of juvenile justice in the United States.

*SEC. 103. DEFINITIONS.

In this Act:

(A) ADMINISTRATOR.—The term ‘Administrator’ means the Administrator of the Office of Juvenile Crime Control and Prevention, appointed in accordance with section 201.

(B) ADULT INMATE.—The term ‘adult inmate’ means an individual who—

(A) has reached the age of full criminal responsibility under applicable State law; and

(B) has been arrested and is in custody for, awaiting trial on, or convicted of criminal charges.

(C) BOOT CAMP.—The term ‘boot camp’ means a residential facility (excluding a private residence) at which there are provided—

(A) a highly regimented schedule of discipline, physical training, work, drill, and ceremony characteristic of military basic training;

(B) regular, remedial, special, and vocational education necessary for the education and training of individuals;

(C) counseling and treatment for substance abuse and other health and mental health problems.

(D) supervision by properly screened staff, who are trained and experienced in working with juveniles or young adults, in highly structured, disciplined surroundings, characterized by the following:

(1) a comprehensive aftercare plan developed through close coordination with Federal, State, and local agencies, and in cooperation with business and private organizations; and

(2) Bureau of Justice Assistance.—The term ‘Bureau of Justice Assistance’ means

"SEC. 302. ASSISTANCE TO STATES AND UNITS OF LOCAL GOVERNMENT.

(a) GRANTS TO STATES AND UNITS OF LOCAL GOVERNMENT.—In addition to the assistance provided for under sections 301 and 304, the Administrator shall—

(1) make grants to States and units of local government for the following purposes:

(A) provide assistance to States and units of local government to meet the crisis of youth violence; and

(B) to encourage and promote programs designed to keep in school juvenile delinquents expelled or suspended for disciplinary reasons;

"(6) COLLOCATED FACILITIES.—The term 'collocated facilities' means facilities that are located in the same building, or are part of a related complex of buildings located on the same grounds.

"(7) COMBINATION.—The term 'combination' as applied to States or units of local government means any grouping or joining together of such States or units for the purpose of preparing, developing, or implementing a juvenile crime control and delinquency prevention plan.

"(8) COMMUNITY-BASED.—The term 'community-based' facility, program, or service means a small, open group home or other suitable place located near the juvenile's home or family and programs of community supervision and service that maintains community and consumer participation in the planning operation, and evaluation of their programs which may include, medical, educational, social, psychological, and medical treatment, and other rehabilitative services.

"(9) COMPREHENSIVE AND COORDINATED SYSTEM OF SERVICES.—The term 'comprehensive and coordinated system of services' means a system that

(A) ensures that services and funding for the prevention and treatment of juvenile delinquency are consistent with policy goals of preserving families and providing appropriate family-based services to children and youth in need of care, treatment, and other rehabilitative services; and

(B) encourages private and public partnerships for services for the prevention and treatment of juvenile delinquency; and

(C) permits the local or regional planning, coordination, and family involvement in the prevention and treatment of juvenile delinquency; and

(D) promotes the availability of services that will enable the child to remain at home, to receive care, treatment, and other rehabilitative services, and to prevent the placement of children in foster care, group homes, or other out-of-home placements.

"(10) CONSTRUCTION.—The term 'construction' means erection of new buildings or acquisition, expansion, remodeling, and alteration of existing buildings, and initial equipment of any such buildings, or any combination of such activities (including architects' fees but not the cost of acquisition of land for buildings).

"(11) FEDERAL JUVENILE CRIME CONTROL, PREVENTION, AND JUVENILE OFFENDER ACCOUNTABILITY PROGRAM.—The term 'Federal juvenile crime control, prevention, and juvenile offender accountability program' means any Federal program a primary objective of which is the prevention of juvenile crime or reduction of the incidence of arrest, the commission of criminal acts or acts of delinquency, the use of alcohol or illegal drugs, or the involvement in gangs among juveniles.

"(12) GENDER-SPECIFIC SERVICES.—The term 'gender-specific services' means services that are designed to address needs unique to the gender of the individual to whom such services are provided.

"(13) GRADUATED SANCTIONS.—The term 'graduated sanctions' means an accountability-based juvenile justice system that protects the public, and holds juveniles accountable for acts of delinquency by providing substantial and appropriate sanctions that are graduated in such a manner as to reflect (for each act of delinquency) the nature of that act or offense, and in which there is sufficient flexibility to allow for individualized sanctions and services suited to the individual juvenile offender.

"(14) HOME-BASED ALTERNATIVE SERVICES.—The term 'home-based alternative services' means services provided to a juvenile in the home in a manner that is alternative to incarcerating the juvenile, and includes home detention.

"(15) INDIAN TRIBES.—The term 'Indian tribe' means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or 25 U.S.C. 411 seq.), that is recognized as eligible for benefits under title I of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450a et seq.).

"(16) JUVENILE.—The term 'juvenile' means a person under the age of 18 years who is subject to delinquency proceedings under applicable State law.

"(17) JUVENILE DELINQUENCY PROGRAM.—The term 'juvenile delinquency program' means the population of a State under 18 years of age.

"(18) JAIL OR LOCKUP FOR ADULTS.—The term 'jail or lockup for adults' means a locked facility that is used by a State, unit of local government, or any law enforcement authority to detain or confine adults—

(A) pending the filing of a charge of violating a criminal law; or

(B) awaiting trial on a criminal charge; or

(C) convicted of violating a criminal law.

"(19) JUVENILE DELINQUENCY PREVENTION.—The term 'juvenile delinquency prevention program' means any program or activity related to juvenile delinquency prevention, control, diversion, treatment, rehabilitation, planning, education, training, and research, including—

(A) drug and alcohol abuse programs; and

(B) the improvement of the juvenile justice system; and

(C) any program or activity that is designed to reduce known risk factors for juvenile delinquency by providing activities that build protective factors for, and develop competencies in, juveniles to prevent and reduce the rate of delinquent juvenile behavior.

"(20) LAW ENFORCEMENT AND CRIMINAL JUSTICE.—The term 'law enforcement and criminal justice' means any activity pertaining to crime prevention, control, or reduction or the enforcement of the criminal law, including, but not limited to police efforts to prevent, control, or reduce crime or to apprehend criminals, activities of courts having criminal jurisdiction and related agencies (including prosecutorial and defender services), activities of corrections, probation, or parole authorities, and programs relating to the prevention, control, or reduction of juvenile delinquency or narcotic addiction.

"(22) NONPROFIT ORGANIZATION.—The term 'nonprofit organization' means an organization described in section 501(c)(3) of the Internal Revenue Code that is exempt from taxation under section 501(a) of the Internal Revenue Code of 1986.

"(23) OFFICE.—The term 'Office' means the Office of Juvenile Crime Control and Prevention established under section 201.

"(25) OUTCOME OBJECTIVE.—The term 'outcome objective' means an objective that relates to the impact of a program or initiative, that measures the reduction of high risk behaviors, such as incidence of arrest, the commission of criminal acts or acts of delinquency, failure in school, violence, the use of alcohol or illegal drugs, involvement of youth gangs, violent and unlawful acts of animal cruelty, and teenage pregnancy, abortion, and suicide.

"(26) PROCESS OBJECTIVE.—The term 'process objective' means an objective that relates to the manner in which a program or initiative is carried out, including—

(A) an objective relating to the degree to which the program or initiative is reaching the target population; and

(B) an objective relating to the degree to which the program or initiative addresses known risk factors for youth problem behaviors and incorporates activities that inhibit the behaviors and that build on protective factors for youth.

"(27) PROHIBITED PHYSICAL CONTACT.—

(A) IN GENERAL.—The term 'prohibited physical contact' means—

(i) any physical contact between a juvenile and an adult inmate; and

(ii) proximity that provides an opportunity for physical contact between a juvenile and an adult inmate.

(B) EXCLUSION.—The term does not include supervised proximity between a juvenile and an adult inmate that is brief and inadverent, or accidental, in secure areas of a facility that are not dedicated to use by juvenile offenders and that are nonresidential, which may include dining, recreational, educational, vocational, health care, entry areas, and passageways.

"(28) RELATED COMPLEX OF BUILDINGS.—The term 'related complex of buildings' means 2 or more buildings that share—

(A) physical features, such as walls and fences, or services beyond mechanical services (heating, air conditioning, water and sewer); or

(B) the specialized services that are allowable under section 31.303(c)(3)(i)(C)(3) of title 28, Code of Federal Regulations, as in effect on December 10, 1996.

"(29) SECURE CORRECTIONAL FACILITY.—The term 'secure correctional facility' means any public or private residential facility that—

(A) includes control, action fixtures designed to physically restrict the movements and activities of juveniles or other individuals held in lawful custody in such facility; and

(B) is used for the placement, after adjudication and disposition, of any juvenile who has been adjudicated as having committed an offense or any other individual convicted of a criminal offense.

"(30) SECURE DETENTION FACILITY.—The term 'secure detention facility' means any public or private residential facility that—

(A) includes control, action fixtures designed to physically restrict the movements and activities of juveniles or other individuals held in lawful custody in such facility; and

(B) is used for the temporary placement of any juvenile who is accused of having
committed an offense or of any other individual accused of having committed a criminal offense.

"(31) SERIOUS CRIME.—The term ‘serious crime’ means criminal homicide, rape or other sex offenses punishable as a felony, murder or nonnegligent manslaughter, kidnapping, aggravated assault, drug trafficking, robbery, larceny or theft punishable as a felony, motor vehicle theft, burglary or breaking and entering, extortion accompanied by threats of violence, and arson punishable as a felony.

"(32) STATE.—The term ‘State’ means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

"(33) STATE OFFICE.—The term ‘State office’ means an office designated by the chief executive officer of a State to carry out this title, as provided in section 507 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3757).

"(34) SUSTAINED ORAL COMMUNICATION.—

"(A) IN GENERAL.—The term ‘sustained oral communication’ means the imparting of speech or an interchange of speech by or between an adult inmate and a juvenile.

"(B) EXCEPTION.—The term does not include—

"(i) communication that is accidental or incidental; or

"(ii) sounds or noises that cannot reasonably be considered to be speech.

"(35) TREATMENT.—The term ‘treatment’ includes medical and other rehabilitative services designed to protect the public, including any services designed to benefit addicts or other users by—

"(A) eliminating their dependence on alcohol or other addictive or nonaddictive drugs; or

"(B) controlling or reducing their dependence and susceptibility to addiction or use.

"(36) UNIT OF LOCAL GOVERNMENT.—The term ‘unit of local government’ means—

"(A) any city, county, township, town, borough, parish, village, or other general purpose political subdivision of a State;

"(B) any law enforcement district or judicial circuit district that—

"(i) is established under applicable State law; and

"(ii) has the authority to, in a manner independent of other State entities, establish a budget and raise revenues;

"(C) an Indian tribe that performs law enforcement functions, as determined by the Secretary of the Interior; or

"(D) for the purposes of assistance eligibility, any agency of the government of the District of Columbia or the Federal Government that performs law enforcement functions in and for—

"(i) the District of Columbia; or

"(ii) any Trust Territory of the United States.

"(37) VALID COURT ORDER.—The term ‘valid court order’ means a court order given by a juvenile court judge to a juvenile—

"(A) that was brought before the court and made subject to such order; and

"(B) who received, before the issuance of such order, the full due process rights guaranteed to such juvenile by the Constitution of the United States.

"(38) VIOLENT CRIME.—The term ‘violent crime’ means—

"(A) murder or nonnegligent manslaughter; or

"(B) aggravated assault committed with the use of a firearm.

"(39) YOUTH.—The term ‘youth’ means an individual who is less than 18 years of age and not more than 17 years of age.

SEC. 102. JUVENILE CRIME CONTROL AND PREVENTION.

PART A—OFFICE OF JUVENILE CRIME CONTROL AND PREVENTION

SEC. 201. ESTABLISHMENT OF OFFICE.

(a) IN GENERAL.—There is established in the Department of Justice, under the general authority of the Attorney General, an Office of Juvenile Crime Control and Prevention.

(b) ADMINISTRATOR.—

"(1) IN GENERAL.—The Office shall be headed by an Administrator, who shall be appointed by the President, by and with the advice and consent of the Senate, from among individuals who have had experience in juvenile delinquency prevention and crime control programs.

"(2) REGULATIONS.—The Administrator may prescribe regulations consistent with this Act to assure, modify, extend, terminate, monitor, evaluate, reject, or deny all grants and contracts from, and applications for, amounts made available under this title.

"(3) RELATIONSHIP TO ATTORNEY GENERAL.—The Administrator shall have the same reporting relationship with the Attorney General as the directors of other offices and programs within the Office of Justice Programs have with the Attorney General.

"(c) DEPUTY ADMINISTRATOR.—There shall be in the Office an Associate Administrator, who shall be appointed by the Attorney General. The Deputy Administrator shall perform such functions as the Administrator may assign or delegate and shall act as the Administrator during the absence or disability of the Administrator.

"(d) ASSOCIATE ADMINISTRATOR.—

"(1) IN GENERAL.—Subject to the general direction of the Administrator, the Deputy Administrator shall perform all functions established by the Administrator and any function transferred among the officers of the Office, and shall be appointed by the Administrator and may allocate or reallocate any function transferred among the officers of the Office, and may authorize the disestablishment and discontinuance of any program or activity of the Office.

"(2) RESPONSIBILITY.—No delegation of functions by the Administrator under this subsection or any other provision of this title shall relieve the Administrator of responsibility for the administration of such functions.

"(3) REORGANIZATION.—The Administrator may allocate or reallocate any function transferred among the officers of the Office, and may authorize the disestablishment and discontinuance of any program or activity of the Office.
(iv) provide a description of the activities for which amounts are expended under this title; and
(v) provide specific information relating to the attainment of goals set forth in the plan, including specific, measurable standards and the programs and activities that include—
(1) any 1 of the Federal agencies providing programs that are to be considered Federal juvenile crime prevention, and juvenile offender accountability programs for the following fiscal year;
(2) serve as a single point of contact for States, units of local government, and private entities to apply for and coordinate the use of and access to all Federal juvenile crime prevention programs and juveniles in custody; and
(3) provide for the coordination of Federal, State, and local initiatives for the reduction of youth crime, preventing delinquency, and ensuring accountability for juvenile offenders;
(B) SUMMARY AND ANALYSIS.—Each summary and analysis under subparagraph (A)(iii) shall set out the information required by clauses (i), (ii), and (iii) of this subparagraph separately for juveniles nonoffenders, juvenile status offenders, and other juvenile offenders. Such summary and analysis shall separately address what respect to each category of juveniles specified in the preceding sentence—
(i) the types of offenses with which the juvenile is charged;
(ii) the ages of the juveniles;
(iii) the types of facilities used to hold the juveniles (including juveniles treated as adults for prosecution or adjudication in court, including secure detention facilities, secure correctional facilities, jails, and lockups);
(iv) the length of time served by juveniles in custody; and
(v) the number of juveniles who died or who suffered serious bodily injury while in custody and the circumstances under which each juvenile died or suffered such injury.
(C) DEFINITION OF SERIOUS BODILY INJURY.—In this paragraph, the term ‘serious bodily injury’ shall be defined as injury involving physical pain or the impairment of a function of a bodily member, organ, or mental faculty that requires medical intervention such as surgery, hospitalization, or physical rehabilitation.

(S) ANNUAL REVIEW.—The Administrator shall annually:
(A) review each plan submitted under this subsection;
(B) revise the plans, as the Administrator considers appropriate; and
(C) establish, by March 1 of each year, present the plans to the Committee on the Judiciary of the Senate and the Committee on Education and the Workforce of the House of Representatives.
(b) DUTIES OF ADMINISTRATOR.—In carrying out this title, the Administrator shall—
(i) advise the President through the Attorney General as to all matters relating to federally assisted juvenile crime control, prevention, and juvenile offender accountability programs, and Federal policies regarding juvenile crime and justice, including policies relating to juveniles prosecuted or adjudicated in the Federal courts;
(ii) implement and coordinate Federal juvenile crime control, prevention, and juvenile offender accountability programs and activities among Federal departments and agencies, such programs and activities and other Federal programs and activities that the Administrator determines may have an important bearing on the success of Federal juvenile crime control, prevention, and juvenile offender accountability effort including, in consultation with the Director of the Office of Management and Budget listing annually those programs to be considered Federal juvenile crime control, prevention, and juvenile accountability programs for the following fiscal year;
(iii) collect, prepare, and disseminate useful data regarding the prevention, correction, and control of juvenile crime and delinquency through the Federal Government at least once each calendar year, a report on successful programs and juvenile crime reduction methods utilized by States, localities, and private entities;
(iv) provide the performance of comprehensive rigorous independent scientific evaluations, each of which shall—
(A) be independent in nature, and shall employ rigorous and scientifically valid standards and methodologies; and
(B) include measures of outcome and process as functions in juvenile crime, youth gang activity, youth substance abuse, and other high risk factors, as well as increases in protective factors that lead to the likelihood of delinquency and criminal behavior;
(v) involve consultation with appropriate authorities in the States and with appropriate private entities in the development, review, and revision of the plans required by subsection (a) and in the development of policies relating to juveniles prosecuted or adjudicated in the Federal courts;
(vi) provide technical assistance to the States, units of local government, and private entities in implementing programs funded under this title;
(vii) provide technical and financial assistance to an organization composed of member representatives of the State advisory groups appointed under section 222(b)(2) to carry out activities under this paragraph, if such an organization agrees to carry out activities that include—
(A) conducting an annual conference of such member representatives for purposes relating to the activities of such State advisory groups;
(B) disseminating information, data, standards, advanced techniques, and programs models developed through the Institute and through programs funded under section 261; and
(C) advising the Administrator with respect to particular functions or aspects of the work of the Office; and
(vi) provide technical and financial assistance to an eligible organization composed of member representatives of the State advisory groups appointed under section 222(b)(2) to assist such organization to carry out the functions specified under subparagraph (A).
(A) To be eligible to receive such assistance such organization shall agree to carry out activities that include—
(i) conducting an annual conference of such member representatives for purposes relating to the activities of such State advisory groups;
(ii) disseminating information, data, standards, advanced techniques, and programs models developed through the Institute and through programs funded under section 261.
(c) INFORMATION, REPORTS, STUDIES, AND SURVEYS FROM OTHER AGENCIES.—The Administrator, through the general authority of the Attorney General, may require, through appropriate authority, Federal departments and agencies engaged in any activity involving Federal juvenile crime control, prevention, and juvenile offender accountability program to provide the Administrator with such information and reports, and to conduct such studies and surveys, as the Administrator determines to be necessary to carry out the purposes of this title.
(d) UTILIZATION OF SERVICES AND FACILITIES OF OTHER AGENCIES; REMUNERATION.—The Administrator, through the general authority of the Attorney General, may utilize the services and facilities of any agency of the Federal Government and of any other public agency or institution in accordance with appropriate agreements, and to pay for such services either in advance or by way of reimbursement as may be agreed upon.
(e) COORDINATION OF FUNCTIONS OF ADMINISTRATOR AND SECRETARY OF HEALTH AND HUMAN SERVICES.—All functions of the Administrator shall be coordinated as appropriate with the functions of the Secretary of Health and Human Services under title III.
(2) ANNUAL JUVENILE DELINQUENCY DEVELOPMENT STATEMENTS.
(I) IN GENERAL.—Each Federal agency that administers a Federal juvenile crime control, prevention, and juvenile offender accountability program or activity shall submit to the Administrator a juvenile crime control, prevention, and juvenile offender accountability development statement.
(2) DEVELOPMENT STATEMENTS.
(A) IN GENERAL.—Each development statement submitted under paragraph (1) shall contain such information, data, and analyses as the Administrator may require. Such an analysis shall include an analysis of the extent to which the program of the Federal agency submitting such development statement conforms with and furthers Federal juvenile crime control, prevention, and juvenile offender accountability, prevention, and treatment goals and policies.
(3) REVIEW AND COMMENT.
(A) IN GENERAL.—The Administrator shall review and comment upon each juvenile crime control, prevention, and juvenile offender accountability development statement submitted to the Administrator under paragraph (1).
(B) INCLUSION IN OTHER DOCUMENTATION.—The development statement transmitted under paragraph (1) shall be included in the comments of the Administrator under subparagraph (A), shall be—
(i) included by the Federal agency involved in every recommendation or request made by such agency for Federal legislation that significantly affects juvenile crime control, prevention, and juvenile offender accountability; and
(ii) made available for promulgation to and use by State and local government officials, and by nonprofit organizations involved in delinquency prevention programs.
(c) JOINT FUNDING.—Notwithstanding any other provision of law, if funds are made available by more than 1 Federal agency to be used by any agency, organization, institution, or individual to carry out a Federal juvenile crime control, prevention, or juvenile offender accountability program or activity—
(1) any 1 of the Federal agencies providing funds may be requested by the Administrator to act for all in administering the funds provided; and
(2) in such cases, a single non-Federal share requirement may be established according to the proportion of funds advanced by such agencies; or the Administrator may order any such agency to waive any technical grant or contract requirement.
SEC. 205. JUVENILE DELINQUENCY PREVENTION GRANT PROGRAM.

(a) AUTHORITY TO MAKE GRANTS.—The Administrator may make grants to eligible States in accordance with this part for the purpose of providing financial assistance to eligible entities to carry out projects designed to prevent juvenile delinquency, including—

(1) educational projects or supportive services for delinquent or other juveniles;

(2) projects that provide support and treatment to—

(A) juveniles who are at risk of delinquency because they are the victims of child abuse or neglect; and

(B) juvenile offenders who are victims of child abuse or neglect and to their families, in order to reduce the likelihood that such juvenile offenders will commit subsequent violations of law;

(3) to develop, implement or operate projects for the prevention of or reduction of truancy, dropout rates, violence, and vandalism among juvenile offenders, including those from families with limited English-speaking proficiency, their parents, their siblings, and other family members;

(4) projects that provide financial assistance to States in accordance with this part for the purpose of providing financial assistance to eligible entities to carry out projects designed to prevent juvenile delinquency, including—

(A) the State establish criteria to assess the quality of those one-on-one mentoring projects;

(B) the Administrator develop an annual report on the best mentoring practices in those projects; and

(C) the State choose exemplary projects, designated as Gold Star Mentoring Projects, to receive preferential access to funding;

(6) community-based projects and services (including literacy and social service programs) that support State and local juvenile justice, public recreation, and social service agencies; or

(7) projects that encourage new approaches and techniques with respect to the prevention of school violence and vandalism;

(8) projects that leverage funds to provide scholarships for secondary education and training for low-income juveniles who reside in neighborhoods with high rates of poverty, violence, and drug-related crimes;

(9) projects (including school- or community-based projects) that are designed to prevent, and reduce the rate of, the participation of juveniles in gangs that commit crimes (particularly violent crimes), that unlawfully use firearms and other weapons, and that unlawfully use drugs and that involve, to the extent practicable, families and other community members (including law enforcement personnel and members of the business community) in the activities conducted under such projects, including youth violence courts targeted to juveniles aged 14 and younger;

(10) comprehensive juvenile justice and delinquency prevention projects that meet the needs of juveniles through the collaboration of the multiple agencies and organizations juveniles encounter, including schools, child abuse and neglect courts, courts, law enforcement agencies, child protection agencies, mental health services, health care agencies, public recreation agencies, and private nonprofit agencies offering services to juveniles;

(11) to develop, implement, and support, in conjunction with public and private agencies, organizations, and businesses, projects for the employment of juveniles and referral to job training programs (including referral to Federal job training programs);

(12) delinquency prevention activities that involve youth, clubs, sports, recreation and parks, peer counseling and teaching, the arts, leadership development, community service, volunteer service, before- and after-school programs, violence prevention activities, mediation skills training, camping, environmental education, ethnic or cultural enrichment, tutoring, and academic enrichment;

(13) to establish policies and systems to incorporate relevant child protective services records into juvenile justice records for the purpose of carrying out treatment plans for juvenile offenders;

(14) family strengthening activities, such as mutual support groups for parents and their children and postadoption services for families who adopt children with special needs; and

(15) adoptive parent recruitment activities targeted at recruiting permanent adoptive families for older children and children with special needs in the foster care system who are at risk of entering the juvenile justice system.

(16) projects to coordinate the delivery of adolescent mental health and substance abuse services to children at risk by coordinating councils composed of public and private service providers;

(17) partnerships between State educational agencies and local educational agencies for the design and implementation of character education and training programs that incorporate the following elements of character: Caring, citizenship, fairness, trustworthiness; and

(18) programs for positive youth development that provide youth at risk of delinquency with—

(A) an ongoing relationship with a caring adult (for example, mentor, tutor, coach, or shop teacher); and

(B) safe places and structured activities during nonschool hours;

(19) projects that use neighborhood courts or panels that increase victim satisfaction and require juveniles to make restitution, or perform community service, for the damage caused by their delinquent acts;

(20) programs designed and operated to provide eligible offenders with an alternative to adjudication that emphasizes restorative justice practices;

(21) projects that expand the use of probation officers—

(A) particularly for the purpose of permitting nonviolent juvenile offenders, including status offenders, to remain at home with their families as an alternative to detention; and

(B) to ensure that juveniles follow the terms of their probation; and

(22) projects that provide for initial intake screening, which may include drug testing, of each juvenile taken into custody—

(A) to determine the likelihood that such juvenile will commit a subsequent offense; and

(B) to provide appropriate interventions to prevent such juvenile from committing subsequent offenses.

(c) ELIGIBILITY OF STATES.—

(1) APPLICATION.—To be eligible to receive a grant under subsection (a), a State shall submit to the Administrator an application that contains the following:

(A) An assurance that the State will use—

(i) not more than 5 percent of such grant, in the aggregate, for—

(A) to determine the likelihood that such juvenile will commit a subsequent offense; and

(ii) the costs incurred by the State to carry out this part; and

(B) an assurance that, and a detailed description of how, such grant will support, and not supplant State and local efforts to prevent juvenile delinquency; and

(C) an assurance that such application was prepared after consultation with and participation by community-based organizations that carry out programs, projects, or activities to prevent juvenile delinquency; and

(ii) nonviolent juvenile offenders, including status offenders, to remain at home with their families as an alternative to detention;

(C) An assurance that such application was prepared after consultation with and participation by community-based organizations that carry out programs, projects, or activities to prevent juvenile delinquency; and
“(ii) police, sheriff, prosecutors, State or local probation services, juvenile courts, schools, public recreation agencies, businesses, and religious affiliated fraternal, nonprofit, and social service organizations involved in crime prevention.

“(D) Assurance that each eligible entity described in subsection (c)(i) that receives an initial grant under subsection (c) to carry out a project or activity shall also receive an assurance from the State that such entity will receive from the State, for the subsequent fiscal year to carry out such project or activity, a grant under such section in an amount equal to 50 percent of such amount, and that such entity will receive from the State, for the subsequent fiscal year in such application as approved by the State.

“(E) An assurance that each eligible entity described in subsection (c) that receives a grant to carry out a project or activity under subsection (c) has provided a 50 percent match of the amount of the grant, inclusive of any in-kind contributions to fund the project or activity, except that the Administrator may for good cause reduce the matching requirement to 33 percent for economically disadvantaged communities.

“(F) An assurance that projects or activities funded by a grant under subsection (a) shall be carried out through or in coordination with a juvenile crime or delinquency office.

“(G) An assurance that of the grant funds remaining after administrative costs are deducted consistent with subparagraph (A), (i) less than 20 percent shall be used for purposes designated in paragraphs (1) through (18) of subsection (a); and (ii) not less than 20 percent shall be used for purposes as specified in paragraphs (19) through (22) of subsection (a).

“(H) Such other information as the Administrator may reasonably require by rule.

“(2) ELIGIBILITY.—(A) REQUIREMENTS.—Subject to subparagraph (B), the Administrator shall approve an application and amendments to such application submitted to the State simultaneously all applications that are—

“(I) timely received by such unit from eligible entities; and

“(ii) determined by such entity to be consistent with a current plan formulated by such unit for the purpose of preventing, and reducing the rate of, juvenile delinquency in the geographical area under the jurisdiction of such unit.

“(B) DIRECT SUBMISSION.—If an application is submitted to such unit by an eligible entity, the Administrator shall provide such unit with a copy of the application. Such copy shall be provided to the State simultaneously all applications that are—

“(i) timely received by such unit from eligible entities; and

“(ii) determined by such entity to be consistent with a current plan formulated by such unit for the purpose of preventing, and reducing the rate of, juvenile delinquency in the geographical area under the jurisdiction of such unit.

“(2) REVIEW AND SUBMISSION OF APPLICATIONS.—(A) The Administrator shall—

“(i) receive an application; and (ii) waive the provisions of paragraph (1) through (22) of subsection (a) as specified in such application.

“(B) A statement of the particular goals such project or activity is designed to achieve, and the methods such entity will use to achieve, and assess the achievement of, each of such goals.

“(C) A statement identifying the research (if any) such entity relied on in preparing such application.

“(D) A statement of the particular goals such project or activity is designed to achieve, and the methods such entity will use to achieve, and assess the achievement of, each of such goals.

“(E) A statement identifying the research (if any) such entity relied on in preparing such application.

“(E) APPLICATIONS.—(1) In general.—Subject to subparagraph (B), a unit of local government shall submit to the State simultaneously all applications that are—

“(I) timely received by such unit from eligible entities; and

“(ii) determined by such entity to be consistent with a current plan formulated by such unit for the purpose of preventing, and reducing the rate of, juvenile delinquency in the geographical area under the jurisdiction of such unit.

“(2) EXCEPTION.—No amount shall be available as provided in paragraph (1) for a fiscal year, if amounts are made available for that fiscal year for the National Institute of Justice for evaluation research of juvenile delinquency programs pursuant to subsection (b)(6) or (c)(6) of section 313.

“SEC. 206. GRANTS TO YOUTH ORGANIZATIONS.

“(a) Grant Program.—The Administrator may make grants to Indian tribes (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act) and national, State, or local governmental entities, or community-based, nonprofit organizations in crime prone areas, such as Boys and Girls Clubs, Police Athletic Leagues, 4-H Clubs, YWCA, YMCA, Big Brothers and Big Sisters, and Kids ’ N Kops programs for the purpose of—

“(1) providing constructive activities to youth during after school hours, weekends, and school vacations;

“(2) providing supervising activities in safe environments to youth in those areas, including activities through parks and other recreation areas; and

“(3) providing anti-alcohol and other drug education to prevent alcohol and other drug abuse among youth.

“(b) Applications.—
(1) ELIGIBILITY.—In order to be eligible to receive a grant under this section, the governing body of the Indian tribe or the chief operating officer of a national, Statewide, or community-based nonprofit organization shall submit an application to the Administrator under and containing such information as the Administrator may reasonably require.

(2) APPLICATION REQUIREMENTS.—Each application submitted in accordance with paragraph (1) shall include—

(A) a request for a grant to be used for the purposes specified in section 205(a); and

(B) a description of the communities to be served by the grant, including the nature of juvenile crime, violence, and drug use in the communities;

(C) written assurances that Federal funds received under this section will be used to supplement and not supplant, non-Federal funds that would otherwise be available for activities funded under this section;

(D) written assurances that all activities funded under this section will be supervised by an appropriate number of responsible adults;

(E) a plan for assuring that program activities will take in a secure environment meeting the requirements of paragraph (2); and

(F) any additional statistical or financial information that the Administrator may reasonably require.

(c) GRANT AWARDS.—In awarding grants under this section, the Administrator shall consider—

(1) the ability of the applicant to provide the intended services; and

(2) the history and establishment of the applicant in providing youth activities; and

(3) the extent to which services will be provided in crime prone areas, including efforts to achieve an equitable geographic distribution of the grant awards.

(d) ALLOCATION.—Of the amounts made available to carry out this section—

(1) 20 percent shall be for grants to national or Statewide nonprofit organizations; and

(2) 80 percent shall be for grants to community-based, nonprofit organizations.

(e) CONTINUED AVAILABILITY.—Amounts made available under this section shall remain available until expended.

SEC. 207. GRANTS TO INDIAN TRIBES.

(a) IN GENERAL.—From the amount reserved under section 208(b) in each fiscal year, the Administrator shall make grants to Indian tribes for programs pursuant to the permissible purposes under section 205 and part B.

(b) APPLICATIONS.—

(1) IN GENERAL.—To be eligible to receive a grant under this section, an Indian tribe shall submit to the Administrator an application on a form and containing such information as the Administrator may reasonably require.

(2) PLANS.—Each application submitted under paragraph (1) shall include a plan for conducting projects described in section 205(a), which plan shall—

(A) demonstrate that the Indian tribe performs law enforcement functions (as determined by the Secretary of the Interior); and

(B) identify the juvenile justice and delinquency prevention programs and juvenile delinquency prevention needs to be addressed by activities conducted by the Indian tribe in the area under the jurisdiction of the Indian tribe provided by the grant;

(C) provide for fiscal control and accounting procedures that—

(i) are necessary to ensure the prudent use, proper accounting, and accounting of funds received under this section; and

(ii) are consistent with the requirements of subparagraph (B); and

(D) comply with the requirements of section 222(a) of the Pan American Health Organization Act of 1977, as amended (42 U.S.C. 7107(a)); and

(E) contain such other information, and be subject to such additional requirements, as the Administrator may reasonably require to ensure the application is closed.

(3) FOR CONSIDERATION.—In awarding grants under this section, the Administrator shall consider—

(A) the resources that are available to each applicant that will assist, and be coordinated with, the overall juvenile justice system of the Indian tribe; and

(B) for each Indian tribe that receives assistance under such a grant—

(i) the relative juvenile population; and

(ii) whether the assistance provided by the grant.

(d) program to carry out this section—

(1) ELIGIBILITY.—In order to be eligible to receive a grant under this section, the Administrator shall consider—

(A) the ability of the applicant to provide the intended services; and

(B) the history and establishment of the applicant in providing youth activities; and

(C) provide for fiscal control and accounting procedures that—

(i) are necessary to ensure the prudent use, proper accounting, and accounting of funds received under this section; and

(ii) are consistent with the requirements of subsection (c); and

(D) contain such other information, and be subject to such additional requirements, as the Administrator may reasonably require to ensure the application is closed.

(3) APPLICATIONS.—Requests for grants made available under this section shall be subject to the fiscal accountability provisions of section 5(f)(1) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450c(c)(1)).

(e) REPORTING REQUIREMENT.—Each Indian tribe that receives a grant under this section shall be subject to the fiscal accountability provisions of section 5(f)(1) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450c(c)(1)); and

(f) MATCHING REQUIREMENT.—Funds appropriated by Congress for the activities of any agency of an Indian tribal government or the Bureau of Indian Affairs performing law enforcement functions on any Indian lands may be used to provide the non-Federal share of any program or project with a matching requirement funded under this section.

(3) TECHNICAL ASSISTANCE.—From the amount reserved under section 208(b) in each fiscal year, the Administrator may reserve 1 percent for the purpose of providing technical assistance to recipients of grants under this section.

SEC. 208. ALLOCATION OF GRANTS.

(a) IN GENERAL.—Subject to subsections (b), (c), and (d), the amount allocated under section 207 to carry out section 205 in each fiscal year shall be allocated to the States as follows:

(1) 0.5 percent shall be allocated to each Indian tribe.

(2) The amount remaining after the allocation under subparagraph (A) shall be allocated among eligible States as follows:

(A) 50 percent of such amount shall be allocated proportionately based on the average number of arrests for serious crimes committed in the eligible States by juveniles during the then most recently completed period of 3 consecutive calendar years for which sufficient information is available to the Administrator.

(B) 50 percent of such amount shall be allocated proportionately based on the average number of arrests for serious crimes committed in the eligible States by juveniles during the then most recently completed period of 3 consecutive calendar years for which sufficient information is available to the Administrator.

(2) RESERVATION OF FUNDS.—Notwithstanding any other provision of law, from the amount allocated under section 207 to carry out section 205 and part B in each fiscal year—

(i) the Administrator shall reserve an amount equal to the amount which all Indian tribes that qualify for a grant under section 207 would collectively be entitled, if such tribes were collectively treated as a single tribe and subjected to subsection (b); and

(ii) the Administrator shall reserve 5 percent to make grants to States under section 209.

(c) EXCEPTION.—The amount allocated to the Virgin Islands of the United States, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands shall not be less than $75,000 and not more than $100,000.

SEC. 209. CONFIDENTIAL REPORTING OF INDIVIDUALS SUSPECTED OF IMMINENT SCHOOL VIOLENCE.

(a) IN GENERAL.—Grants under this section shall be known as—

(b) AUTHORITY TO MAKE GRANTS.—From the amounts reserved by the Administrator under section 208(b), the Administrator shall make a grant to a State to the extent that the amount which would in an amount determined under subsection (d), for use in accordance with subsection (c).

(c) USE OF GRANT AMOUNTS.—Amounts made available to a State under a grant under this section may be used by the State—

(1) to support the independent State development and operation of confidential, toll-free telephone hotlines that will operate 7 days per week, 24 hours per day, in order to provide students, school officials, and other individuals with the opportunity to report specific threats of imminent school violence or to report other suspicious or criminal conduct by juveniles to appropriate State and local law enforcement entities for investigation;

(2) to ensure proper State training of personnel who answer and respond to telephone calls to hotlines described in paragraph (1);

(3) to assist in the acquisition of technology necessary to enhance the effectiveness of hotlines described in paragraph (1), including the utilization of Internet web pages or resources;

(4) to enhance State efforts to offer appropriate counseling services to individuals who make threats to do harm to themselves or others; and

(5) to support the independent State development and operation of confidential, toll-free telephone hotlines that will operate 7 days per week, 24 hours per day, in order to provide students, school officials, and other individuals with the opportunity to report specific threats of imminent school violence or to report other suspicious or criminal conduct by juveniles to appropriate State and local law enforcement entities for investigation;
CONGRESSIONAL RECORD—SENATE

May 26, 1999

11037

“(5) to further State efforts to publicize the services offered by the hotlines described in paragraph (1) and to encourage individuals to utilize those services.

“(d) Allocation to States.—The total amount carried out this section shall be allocated in each fiscal year shall be allocated to each State based on the proportion of the population of the State that is less than 18 years of age.

“PART B—FEDERAL ASSISTANCE FOR STATE AND LOCAL PROGRAMS

“SEC. 221. AUTHORITY TO MAKE GRANTS AND CONTRACTS.

“(a) In General.—The Administrator may make grants to States and units of local government, or combinations thereof, to assist them in establishing, operating, coordinating, and evaluating projects directly or through grants and contracts with public and private agencies for the development of more effective education, training, research, demonstration, diversion, treatment, and rehabilitation programs in the area of juvenile delinquency and programs to improve the juvenile justice system.

“(b) Training and Technical Assistance.—

“(1) In General.—With not to exceed 2 percent of the amount made available in a fiscal year under this section shall be used for training and technical assistance to States, units of local governments (and combinations thereof), and local private agencies to facilitate compliance with section 222 and implementation of the State plan approved under section 222(c).

“(2) Eligible Recipients.—Grants may be made only for projects that may be entered into under paragraph (1) only to public and private agencies, organizations, and individuals that have experience in providing such training and technical assistance, the recipient of a grant or contract under this subsection shall coordinate its activities with the State agency described in section 222(a)(1).

“SEC. 222. STATE PLANS.

“(a) In General.—In order to receive formula grants, a State shall submit a plan, developed in consultation with the State Advisory Group established by the State under subsection (b)(2)(A), for carrying out its purposes applicable to a 3-year period. A portion of any allocation of formula grants to a State shall be available to develop a State plan or for other activities associated with such State plan which are necessary for efficient administration, including monitoring, evaluation, and one full-time staff position. The State shall submit annual performance reports to the Administrator, each of which shall describe progress in implementing programs contained in the original plan, and amendments necessary to update the plan, and shall describe the status of compliance with State plan requirements. In accordance with regulations that the Administrator shall prescribe, each plan shall include:

“(1) designate a State agency as the sole agency for supervising the preparation and administration of the plan.

“(2) provide evidence that the State agency designated in accordance with paragraph (1) has or will have authority, by legislation if necessary, to implement such plan in the State.

“(3) provide for the active consultation with and participation of units of local government, or combinations thereof, in the development of such plan and such plan shall take into account the needs and requests of units of local government, except that nothing in the plan requirements, or any regulations promulgated to carry out such requirements, shall be construed to prevent or impede the State from making grants to, or entering into contracts with, local private agencies, including religious organizations.

“(4) to the extent feasible and consistent with paragraph (5), provide for an equitable distribution of the assistance received with the State, including:

“(5) require that the State or unit of local government that is a recipient of amounts under this part distributes those amounts intended to be used for the prevention of juvenile delinquency and reduction of incarceration, to the extent feasible, in proportion to the amount of juvenile crime committed within those regions and communities.

“(6) provide assurances that youth coming into contact with the juvenile justice system are treated equitably on the basis of gender, race, family, and disability.

“(7)(A) provide for—

“(i) an analysis of juvenile crime and delinquency problems (including the joining of gangs) and juvenile justice and delinquency prevention needs (including educational needs) of the State (including any geographical area in which an Indian tribe is located);

“(II) information regarding any learning needs (including educational needs) of the State;

“(ii) an indication of the manner in which the programs relate to other similar State or local programs that are intended to address the same or similar problems; and

“(iii) a plan for the concentration of State efforts, which shall coordinate all State juvenile justice and delinquency prevention programs with respect to overall policy and development of objectives and priorities for all State juvenile crime control and delinquency prevention programs, including the coordination of juvenile and delinquency problems (including the joining of gangs that commit crimes) and juvenile justice and delinquency prevention programs and needs (including educational needs) of the State;

“(B) contain information for the prevention and treatment of juvenile delinquency in rural areas; and

“(C) a plan for providing needed services for the prevention and treatment of juvenile delinquency in rural areas; and

“(D) to the extent feasible and consistent with paragraph (5), an analysis of the many local systems before which a youth may appear, including schools, courts, law enforcement, juvenile justice, child protection agencies, mental health agencies, welfare agencies, health care agencies, public recreation agencies, and private non-profit agencies, and the programs relate to other similar State or local programs that are intended to address the same or similar problems; and

“(E) the instruction that juveniles receive at school and at work and self-sufficiency; and

“(F) to the extent feasible and consistent with paragraph (5), recognize and provide for learning disabled children and other juveniles—

“(ii) to encourage juveniles to remain in elementary and secondary schools or in alternative learning situations;

“(ii) provide services to juveniles in making the transition to the world of work and self-sufficiency; and

“(iii) enhance coordination with the local schools that such juveniles would otherwise attend, to ensure that—

“(I) the instruction that juveniles receive outside school is closely aligned with the instruction provided in school;

“(II) information regarding any learning problems identified in such alternative learning situations are communicated to the school;

“(III) expanding the use of probation officers; and

“(IV) particularly for the purpose of permitting nonviolent juvenile offenders (including status offenders) to remain at home with their families as an alternative to incarceration or institutionalization; and

“(V) ensure that juveniles follow the terms of their probation;

“(G) one-on-one mentoring programs that are designed to link at-risk juveniles and juvenile offenders, particularly juveniles residing in high-crime areas and juveniles experiencing educational failure, with responsible adults (such as law enforcement officers, adults working with local businesses, and adults working with community-based organizations and agencies) who are properly screened and trained;

“(H) programs designed to develop and implement projects relating to juvenile delinquency and learning disabilities, including on-the-job training programs to assist community-based services, law enforcement, juvenile justice personnel to more effectively recognize and provide for learning disabled and other juveniles with disabilities; and

“(I) prevent juveniles from other forms of involvement in illegal activities and to promote involvement in lawful activities on the
part of gangs whose membership is substan-
tially composed of youth; 
"(J) programs and projects designed to pro-
vide for the treatment of youths’ dependence
on or abuse of alcohol or other addictive or
nonaddictive drugs; 
"(K) boot camps for juvenile offenders; 
"(L) community-based programs and serv-
ices to work with juveniles, their parents, and
other family members during and after incar-
ceration in order to strengthen families so
that such juveniles may be retained in their
homes; 
"(M) active functions (such as court-ap-
pointed advocates) that the State determines
will hold juveniles accountable for their acts
and decrease juvenile involvement in delin-
quent activities; 
"(N) establishing policies and systems to
incorporate relevant child protective serv-
cices records into juvenile justice records for
purposes of establishing treatment plans for
juvenile offenders; 
"(O) programs (including referral to lit-
eracy programs and social service programs)
for adult inmates with limited English-
speaking ability that include delinquent ju-
vieniles to overcome language and other bar-
riers that may prevent the complete treat-
ment of such juveniles and the preservation
of their families; 
"(P) programs that utilize multidiscipli-
ary interagency case management and infor-
mation sharing, that enable the juvenile justice
and law enforcement agencies, schools, and
social service agencies to make more informed decisions regarding early
identification, control, supervision, and
management of juveniles who repeatedly com-
mit violent or serious delinquent acts; 
"(Q) programs designed to prevent and re-
duce hate crimes committed by juveniles; 
"(R) court supervised initiatives that ad-
dress the illegal possession of firearms by ju-
vieniles; and 
"(S) programs for positive youth develop-
ment that provide delinquent youth and
youth at-risk of delinquency with— 
"(i) an ongoing relationship with a caring
adult (for example, mentor, tutor, coach, or
shelter youth worker); 
"(ii) safe places and structured activities
during nonschool hours; 
"(iii) a healthy start; 
"(iv) a marketable skill through effective
education; and 
"(v) an opportunity to give back through
community service; 
"(shall) shall provide that— 
"(A) juveniles who are charged with or who
have committed an offense that would not be
criminal if committed by an adult, exclud-

ing— 
"(i) juveniles who are charged with or who
have committed a violation of section
922(x)(2) of title 18, United States Code, or of
a similar State law; 
"(ii) juveniles who are charged with or who
have committed a violation of a valid court
order; and 
"(iii) juveniles who are held in accordance
with the Interstate Compact on Juveniles as
enacted by the State, and that shall not be placed in secure detention facili-
ties or secure correctional facilities; and 
"(B) juveniles— 
"(i) who are not charged with any offense; and
"(ii) who are— 
"(I) aliens; or 
"(II) alleged to be dependent, neglected, or
abused; 
shall not be placed in secure detention facili-
ties or secure correctional facilities; 
"(shall) provide that— 
"(A) juveniles who are charged with or who
have committed a violation of subparagraph
(i) will not be detained or confined in any
institution in which they have prohibited physical contact or sustained oral
communication with inmates; and 
"(B) there is in effect in the State a policy
that requires individuals who work with
both such juveniles and such adult inmates,
including in collated facilities, have been
trained and certified to work with juveniles; 
"(C) juveniles who are accused of non-
status offenses and who are detained in such
jail or lockup for a period not to exceed 6
hours— 
"(i) for processing or release; 
"(ii) while awaiting transfer to a juvenile
facility; or 
"(iii) in which such juveniles make a court
appearance; 
"(D) juveniles who are accused of non-
status offenses by committing an initial
court appearance that will occur within 48
hours after being taken into custody (exclud-
ing Saturdays, Sundays, and legal holidays),
and who are detained or confined in a jail or
lockup— 
"(i) in which— 
"(I) such juveniles do not have prohibited
physical contact or sustained oral commu-
nication with adult inmates; and 
"(II) there is in effect in the State a policy
that requires individuals who work with
both such juveniles and such adult inmates,
including in collated facilities, have been
trained and certified to work with juveniles; and 
"(ii) that— 
"(I) is located outside a metropolitan sta-
tistical area (as defined by the Office of Man-
agement and Budget) and has no existing ac-
cetable alternative placement available; 
"(II) is located where conditions of dis-
tance to be traveled or the lack of highway,
road, or transportation do not allow for
court appearances within 48 hours (exclud-
ing Saturdays, Sundays, and legal holidays) so
that a brief (not to exceed an additional 48
hours) delay is excusable; or
"(III) is located where conditions of safety
exist (such as severe adverse, life-threat-
ening weather conditions that do not allow
for reasonably safe travel), in which case the
time for an appearance may be delayed until
24 hours after the time that such conditions
allow for reasonable safe travel; 
"(E) juveniles who are accused of non-
status offenses and who are detained or con-
fin ed in a jail or lockup that satisfies the re-
quirements of subparagraph (B)(i) if— 
"(i) such jail or lockup— 
"(I) is located outside a metropolitan sta-
tistical area (as defined by the Office of Man-
agement and Budget); and
"(II) has no existing acceptable alternative
placement available; 
"(ii) a parent or other legal guardian (or
guardian ad litem) of the juvenile involved
consents to detaining or confining such juve-
nile in accordance with this subparagraph
and the parent has the right to revoke such
consent at any time; 
"(iii) the juvenile has counsel, and the
counsel representing such juvenile has an op-
portunity to present the juvenile’s position
regarding the detention or confinement in-
volving the court before the court finds
that such detention or confinement is in the
best interest of such juvenile and approves
such detention or confinement; and
"(iv) detaining or confining such juvenile
in accordance with this subparagraph— 
"(i) approved in advance by a court with
competent jurisdiction; 
"(ii) required to be reviewed periodically,
at intervals of not more than 48 hours (exclud-
ing Saturdays, Sundays, and legal holidays),
by such court for the duration of detention
or confinement, which review may be in the
presence of the juvenile; and
"(iii) for a period preceding the sentencing
(if any) of such juvenile; 
"(F) provide assurances that consideration
will be given to and that the facility will be
available for approaches designed to
strengthen the families of delinquent and
other youth to prevent juvenile delinquency
and who are detained or confined in a jail or
lockup for a period not to exceed 6
hours— 
"(i) for processing or release; 
"(ii) while awaiting transfer to a juvenile
facility; or 
"(iii) in which such juveniles make a court
appearance; 
"(G) juveniles who are accused of non-
status offenses and who are detained in such
jail or lockup for a period not to exceed 6
hours— 
"(i) for processing or release; 
"(ii) while awaiting transfer to a juvenile
facility; or 
"(iii) in which such juveniles make a court
appearance; 
"(H) juveniles who are accused of non-
status offenses and who are detained in such
jail or lockup for a period not to exceed 6
hours— 
"(i) for processing or release; 
"(ii) while awaiting transfer to a juvenile
facility; or 
"(iii) in which such juveniles make a court
appearance; 
"(I) juveniles who are charged with or who
have committed an offense that would not be
criminal if committed by an adult, exclud-

ing— 
"(i) juveniles who are charged with or who
have committed a violation of section
922(x)(2) of title 18, United States Code, or of
a similar State law; 
"(ii) juveniles who are charged with or who
have committed a violation of a valid court
order; and 
"(iii) juveniles who are held in accordance
with the Interstate Compact on Juveniles as
enacted by the State, and that shall not be placed in secure detention facili-
ties or secure correctional facilities; and 
"(J) programs and projects designed to pro-
vide for the treatment of youths’ dependence
on or abuse of alcohol or other addictive or
nonaddictive drugs; 
"(K) boot camps for juvenile offenders; 
"(L) community-based programs and serv-
ices to work with juveniles, their parents, and
other family members during and after incar-
ceration in order to strengthen families so
that such juveniles may be retained in their
homes; 
"(M) active functions (such as court-ap-
pointed advocates) that the State determines
will hold juveniles accountable for their acts
and decrease juvenile involvement in delin-
quent activities; 
"(N) establishing policies and systems to
incorporate relevant child protective serv-
cices records into juvenile justice records for
purposes of establishing treatment plans for
juvenile offenders; 
"(O) programs (including referral to lit-
eracy programs and social service programs)
for adult inmates with limited English-
speaking ability that include delinquent ju-
vieniles to overcome language and other bar-
riers that may prevent the complete treat-
ment of such juveniles and the preservation
of their families; 
"(P) programs that utilize multidiscipli-
ary interagency case management and infor-
mation sharing, that enable the juvenile justice
and law enforcement agencies, schools, and
social service agencies to make more informed decisions regarding early
identification, control, supervision, and
management of juveniles who repeatedly com-
mit violent or serious delinquent acts; 
"(Q) programs designed to prevent and re-
duce hate crimes committed by juveniles; 
"(R) court supervised initiatives that ad-
dress the illegal possession of firearms by ju-
vieniles; and 
"(S) programs for positive youth develop-
ment that provide delinquent youth and
youth at-risk of delinquency with— 
"(i) an ongoing relationship with a caring
adult (for example, mentor, tutor, coach, or
shelter youth worker); 
"(ii) safe places and structured activities
during nonschool hours; 
"(iii) a healthy start; 
"(iv) a marketable skill through effective
education; and 
"(v) an opportunity to give back through
community service; 
"(shall) shall provide that— 
"(A) juveniles who are charged with or who
have committed an offense that would not be
criminal if committed by an adult, exclud-

ing— 
"(i) juveniles who are charged with or who
have committed a violation of section
922(x)(2) of title 18, United States Code, or of
a similar State law; 
"(ii) juveniles who are charged with or who
have committed a violation of a valid court
order; and 
"(iii) juveniles who are held in accordance
with the Interstate Compact on Juveniles as
enacted by the State, and shall not be placed in secure detention facili-
ties or secure correctional facilities; and 
"(B) juveniles— 
"(i) who are not charged with any offense; and
"(ii) who are— 
"(I) aliens; or 
"(II) alleged to be dependent, neglected, or
abused; 
shall not be placed in secure detention facili-
ties or secure correctional facilities;
conclusion of a hearing held by such court; such hearing must afford the juvenile and the juvenile’s legal representative an opportunity to present evidence and argument in defense of such juvenile; and such court shall not waive the requirements of this subsection without the written concurrence of the labor organization involved.

(c) COMPLIANCE WITH STATUTORY REQUIREMENTS.—

(1) IN GENERAL.—If a State fails to comply with any of the applicable requirements of paragraph (11), (12), (13), (27), or (28) of subsection (b), the amount allocated under section 291 to carry out this part in each fiscal year that remains after reservation under section 208(b) for that fiscal year, up to 10 percent may be deducted from the amount allocated under section 208(b) for that fiscal year.

(2) DIRECT GRANT AWARDS AND OTHER SUPPORT.—A State may use not more than 5 percent of the funds it receives to provide administrative costs.

PART C—NATIONAL PROGRAMS

SEC. 241. ESTABLISHMENT OF NATIONAL INSTITUTE FOR JUVENILE CRIME CONTROL AND DELINQUENCY PREVENTION.

(a) IN GENERAL.—There is established within the National Institute of Justice a National Institute for Juvenile Crime Control and Delinquency Prevention, the purpose of which shall be to provide—

(1) through the National Institute of Justice, for the rigorous and independent evaluation of the delinquency and youth violence prevention programs funded under this title; and

(2) funding for new research, through the National Institute of Justice, on the nature, causes, and prevention of juvenile violence and juvenile delinquency.

(b) ADMINISTRATION.—The National Institute for Juvenile Crime Control and Delinquency Prevention shall be under the supervision and direction of the Director of the National Institute of Justice.
National Institute of Justice (referred to in this part as the "Director"), in consultation with the Administrator.

"(c) COORDINATION.—The activities of the National Institute for Juvenile Crime Control and Delinquency Prevention shall be coordinated with the activities of the National Institute of Justice.

"(d) DUTIES OF THE INSTITUTE.—"(1) The Administrator shall transfer appropriated amounts to the National Institute of Justice, or to other Federal agencies, for the purposes of new research or demonstration projects funded by the National Institute for Juvenile Crime Control and Delinquency Prevention, and for evaluation of discretionary programs of the Office of Juvenile Crime Control and Prevention.

"(2) REQUIREMENTS.—Each evaluation and research study funded with amounts transferred under paragraph (1) shall—

"(A) be independent in nature;

"(B) be awarded competitively; and

"(C) employ rigorous and scientifically recognized techniques and methodologies, including peer review by nonapplicants.

"(e) POWERS OF THE INSTITUTE.—In addition to the other powers, express and implied, the National Institute for Juvenile Crime Control and Delinquency Prevention may—

"(1) request any Federal agency to supply such statistics, data, program reports, and other material as the National Institute for Juvenile Crime Control and Delinquency Prevention deems necessary to carry out its functions;

"(2) exercise, on behalf of and reimburse the heads of Federal agencies for the use of personnel or facilities of such agencies;

"(3) confer with and avail itself of the cooperative efforts, records, and facilities of State, municipal, or other public or private local agencies;

"(4) make grants and enter into contracts with public or private agencies, organizations, or individuals for the partial performance of any functions of the National Institute for Juvenile Crime Control and Delinquency Prevention; and

"(5) compensate consultants and members of technical advisory councils who are not in the regular full-time employ of the United States or hereafter paying under section 5376 of title 5, United States Code, and while away from home, or regular place of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

"(f) INFORMATION FROM FEDERAL AGENCIES.—A Federal agency that receives a request from the National Institute for Juvenile Crime Control and Delinquency Prevention under subsection (e)(1) may cooperate with the National Institute for Juvenile Crime Control and Delinquency Prevention and shall, to the maximum extent practicable, consult with and furnish information and advice to the National Institute for Juvenile Crime Control and Delinquency Prevention.

**SEC. 242. INFORMATION FUNCTION.**

"The Administrator, in consultation with the Director, shall—

"(1) on a continuing basis, review reports, data, and standards relating to the juvenile justice system in the United States;

"(2) serve as an information bank by collecting and synthesizing the knowledge obtained from studies and research by public and private agencies, institutions, or individuals concerning all aspects of juvenile delinquency, including the prevention and treatment of juvenile delinquency; and

"(3) serve as a clearinghouse and information center for the preparation, publication, and dissemination of information regarding juvenile delinquency, including State and local juvenile delinquency prevention and treatment programs (including drug and alcohol programs and gender-specific programs) and plans, availability of resources, training and educational programs, statistics, data, and other pertinent data and information.

**SEC. 242A. STATISTICAL ANALYSIS.**

"The Administrator, under the supervision of the Assistant Attorney General for the Office of Justice Programs, and in consultation with the Director, may—

"(1) transfer funds to and enter into agreements with the Bureau of Justice Statistics or, subject to the approval of the Assistant Attorney General for the Office of Justice Programs, to another Federal agency authorized to conduct statistical work in juvenile justice matters, for the purpose of providing for the collection, analysis, and dissemination of statistical data and information relating to juvenile crime, the juvenile justice system, and youth violence, and, for other purposes, consistent with the Violent and Repeat Juvenile Offender Accountability Act of 1999, and

"(2) plan and identify, in consultation with the Director of the Bureau of Justice Statistics, the purposes and goals of each grant made or contract or other agreement entered into under this title.

**SEC. 243. RESEARCH, DEMONSTRATION, AND EVALUATION FUNCTIONS.**

"(a) In General.—The Administrator, acting through the National Institute for Juvenile Crime Control and Delinquency Prevention, as appropriate, may—

"(1) conduct, encourage, and coordinate research and evaluation into any aspect of juvenile delinquency, particularly with regard to new programs and methods that show promise to prevent or to provide treatment toward the prevention and treatment of juvenile delinquency;

"(2) encourage the development of demonstration projects, with the innovative techniques and methods to prevent and treat juvenile delinquency;

"(3) establish or expand programs that, in recognition of varying degrees of the seriousness of delinquent behavior and the corresponding gradations in the responses of the juvenile justice system in response to that behavior, are designed to—

"(A) encourage courts to develop and implement a continuum of post-adjudication restraints that bridge the gap between traditional probation and confinement in a correctional setting (including expanded use of probation, mediation, restitution, community service, treatment, home detention, intensive supervision, electronic monitoring, boot camps and similar programs, and secure community-based treatment facilities linked to other support services such as health, mental health (general and special), job training, and recreation); and

"(B) assist in the provision by the Administrator of best practices of information and training (including technology transfer, to States in the design and utilization of risk assessment mechanisms to aid juvenile justice personnel in determining appropriate supervision and treatment behavior);

"(4) encourage the development of programs that, in addition to helping youth take responsibility for their behavior, through control and incarceration, if necessary, provide therapeutic intervention such as providing skills;

"(5) encourage the development and establishment of programs to enhance the States’ ability to identify and incarcerate, if necessary, provide therapeutic intervention such as providing skills;

"(6) prepare, in cooperation with education institutions, with Federal, State, and local agencies, and with appropriate individuals and private agencies, such studies as it considers to be necessary with respect to prevention of and intervention with juvenile violence and delinquency and the improvement of juvenile justice systems, including—

"(A) evaluations of programs and interventions designed to prevent youth violence and juvenile delinquency;

"(B) assessments and evaluations of the methodological approaches to evaluating the effectiveness of interventions and programs designed to prevent youth violence and juvenile delinquency;

"(C) studies of the extent, nature, risk, and protective factors, and causes of youth violence and juvenile delinquency;

"(D) comparisons of youth adjudicated and treated by the juvenile justice system compared to juveniles waived to and adjudicated by the adult criminal justice system (including incarcerated in adult, secure correctional facilities);

"(E) recommendations with respect to effective and ineffective primary, secondary, and tertiary prevention interventions, including for which juveniles, and under what circumstances (including circumstances consistent with the statutory basis of the intervention), prevention efforts are effective and ineffective; and

"(F) assessments of risk prediction systems of juveniles used in making decisions regarding pretrial detention;

"(7) disseminate the results of such evaluations and research and demonstration activities, including peer review, to individuals, agencies, and organizations identified as necessary with respect to juvenile violence and juvenile delinquency;

"(8) disseminate pertinent data and studies to individuals, agencies, and organizations identified as being necessary with respect to juvenile violence and juvenile delinquency; and

"(9) routinely collect, analyze, compile, publish, and disseminate uniform national statistics concerning—

"(A) all aspects of juveniles as victims and offenders;

"(B) the processing and treatment, in the juvenile justice system, of juveniles who are status offenders, delinquent, neglected, or abused; and

"(C) the processing and treatment of such juveniles who are treated as adults for purposes of the criminal justice system.

"(b) PUBLIC DISCLOSURE.—The Administrator or the Director, as appropriate, shall make available to the public—

"(1) the results of research, demonstration, and evaluation activities referred to in subsection (a)(6); and

"(2) the data and studies referred to in subsection (a)(9); and

"(3) regular reports regarding each State’s objective measurements of youth violence, the number of homicides committed by youths, and the number and trend of homicides committed by youths.

**SEC. 244. TECHNICAL ASSISTANCE AND TRAINING FUNCTIONS.**

"The Administrator or the Director, as appropriate, may—

"(1) provide technical assistance and training assistance to Federal, State, and local
Sec. 245. Establishment of Training Programs.

(a) In General.—The Administrator shall establish a training program designed to train enrollees with respect to methods and techniques for the prevention and treatment of juvenile delinquency, including methods and techniques specifically designed to prevent and reduce the incidence of hate crimes committed by juveniles. In carrying out this program the Administrator may make use of available State and local services, equipment, personnel, facilities, and the like.

(b) Qualifications for Enrollment.—Enrollees in the training program established under this section shall be drawn from law enforcement and correctional personnel (including volunteer lay personnel), teachers and other educators, social workers, counselors, child welfare workers, juvenile judges and judicial personnel, persons associated with law-related education, public recreation, youth work, and representatives of private agencies and organizations with specific experience in the prevention and treatment of juvenile delinquency.

Sec. 246. Report on Status Offenders.

Not later than September 1, 2002, the Administrator, through the National Institute of Justice, shall—

(1) conduct a study on the effect of incarceration on status offenders compared to similarly situated individuals who are not placed in secure detention in terms of the continuation of their inappropriate or illegal conduct, delinquency, or future criminal behavior, and evaluating the safety of status offenders placed in secure detention; and

(2) submit to the Chairman and Ranking Member of the Committee on the Judiciary of the Senate and the Chairman and Ranking Member of the Subcommittee on Education and the Workforce of the House of Representatives a report on the results of the study conducted under paragraph (1).

Sec. 247. Criteria for Application for Approval of Applications.

(a) In General.—Any agency, institution, or individual seeking to receive a grant, or enter into a contract under section 243, 244, or 245 shall submit an application at such time, in such manner, and containing or accompanying such information as the Administrator or the Director, as appropriate, may prescribe.

(b) Application Contents.—In accordance with guidelines established by the Administrator or the Director, as appropriate, each application for assistance under section 243, 244, or 245 shall—

(1) set forth a program for carrying out one or more of the purposes set forth in section 243, 244, or 245, and specifically identify each such purpose such program is designed to carry out;

(2) provide that such program shall be administered by or under the supervision of the applicant;

(3) provide for the proper and efficient administration of such program;

(4) provide for regular evaluation of such program; and

(5) provide for such fiscal control and fund accounting procedures as may be necessary to ensure prudent use, proper disbursement, and accurate accounting of funds received under this title.

(c) Selection Process.—In determining whether or not to approve applications for grants and for contracts under this part, the Administrator or the Director, as appropriate, shall consider—

(1) whether the project uses appropriate and rigorous methodology, including appropriate samples, control groups, psychologically sound measurement, and appropriate data analysis techniques;

(2) the experience of the principal and co-principal investigators in the area of youth violence and juvenile delinquency;

(3) the protection offered human subjects in the study, including informed consent procedures; and

(4) the cost-effectiveness of the proposed project.

(d) Notification Process.—

(1) In General.—Subject to subparagraph (B), programs selected for assistance through grants or contracts under section 243, 244, or 245 shall be selected through a competitive process, which shall be established by the Administrator or the Director, as appropriate, by rule. As part of such a process, the Administrator or the Director, as appropriate, shall announce in the Federal Register—

(i) the availability of funds for such assistance;

(ii) the general criteria applicable to the selection of applicants to receive such assistance; and

(iii) a description of the procedures applicable to submitting and reviewing applications for such assistance.

(B) Waiver.—The competitive process described in subparagraph (A) shall not be required if the Administrator or the Director, as appropriate, makes a written determination waiving the competitive process with respect to a program to be carried out in an area with respect to which the President declares under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) that a major disaster or emergency exists.

(2) Review Process.—

(A) In General.—Programs selected for assistance through grants and contracts under this part established after a competitive process that provides potential grantees and contractors with not less than 90 days to submit applications for funds. Applications for funds shall be reviewed through a formal peer review process by qualified scientists with expertise in the fields of criminology, juvenile delinquency, sociology, psychology, public health, social work, and mental health. Before implementation of such process, the Administrator or the Director, as appropriate, shall provide such process to such Directors, each of whom shall prepare and furnish to the Chairman of the Committee on Education and the Workforce of the House of Representatives and the Chairman of the Committee on the Judiciary of the Senate a final report containing their comments on such process as proposed to be established.

(B) Establishment of Process.—Such process shall be established by the Administrator or the Director, as appropriate, in consultation with the Directors and other appropriate officials of the National Institutes of Health, the National Institute of Mental Health, and the National Institute of Justice. Before implementation of such process, the Administrator or the Director, as appropriate, shall provide such process to such Directors, each of whom shall prepare and furnish to the Chairman of the Committee on Education and the Workforce of the House of Representatives and the Chairman of the Committee on the Judiciary of the Senate a final report containing their comments on such process as proposed to be established.

(C) Emergence of Consideration.—In establishing the process required under paragraphs (1) and (2), the Administrator or the Director, as appropriate, shall provide for emergency expedited consideration of a proposed program if the Administrator or the Director, as appropriate, determines such action to be necessary in order to avoid a delay that would preclude carrying out the program.

(D) Effort of Population.—A city shall not be denied assistance under section 243, 244, or 245 solely on the basis of its population.

(E) Notification Process.—Notification of grants and contracts made under sections 243, 244, and 245 (and the applications submitted for such grants and contracts) shall, upon being made, be transmitted by the Administrator or the Director, as appropriate, to the Chairman of the Committee on Education and the Workforce of the House of Representatives and the Chairman of the Committee on the Judiciary of the Senate.

Sec. 248. Study of Violent Entertainment.

(a) Requirement.—The National Institutes of Health shall conduct a study of the effects of violent video games and music on child development and youth violence.

(b) methodology.—In carrying out the study, including informed consent procedures; and

(c) Cost-effectiveness of the proposed project.

(d) Notification of grants and contracts made under sections 243, 244, and 245 (and the applications submitted for such grants and contracts) shall, upon being made, be transmitted by the Administrator or the Director, as appropriate, to the Chairman of the Committee on Education and the Workforce of the House of Representatives and the Chairman of the Committee on the Judiciary of the Senate.

Sec. 248. Study of Violent Entertainment.

(a) Requirement.—The National Institutes of Health shall conduct a study of the effects of violent video games and music on child development and youth violence.

(b) Elements.—The study under subsection (a) shall address—

(x) whether, and to what extent, violence in video games and music adversely affects the emotional and psychological development of juveniles; and

(2) violence in video games and music contributes to juvenile delinquency and youth violence.

Part D—Gang-Free Schools and Communities

Sec. 251. Definition of Juvenile.

In this part, the term ‘juvenile’ means an individual who has not attained the age of 22 years.

Sec. 252. Gang-Free Schools and Communities.

(a) In General.—The Administrator shall make grants to or enter into contracts with public agencies (including local educational agencies) and private nonprofit agencies, organizations, and institutions to establish and support programs and activities that involve families and communities and that are designed to carry out any of the following purposes:

(1) To prevent and to reduce the participation of juveniles in the activities of gangs
that commit crimes. Such programs and activities—

(i) individual, peer, and family, and group counseling, including the provision of life skills training and preparation for living independently, which shall include cooperation with social services, welfare, and health care programs;

(ii) education, recreation, and social services designed to address the social and developmental needs of juveniles that such juveniles would otherwise seek to have met through membership in gangs;

(iii) intervention and counseling to juveniles, who are particularly at risk of gang involvement, and their families, including assistance from social service, welfare, health care, mental health, and substance abuse prevention, and treatment agencies where necessary;

(iv) the organization of neighborhood and community groups to work closely with parents, schools, law enforcement, and other public and private agencies in the community;

(v) training and assistance to adults who have significant relationships with juveniles who are or may become members of gangs, to assist such adults in providing constructive alternatives to participating in the activities of gangs.

(B) To develop within the juvenile adjudicatory and correctional systems new and innovative systems to address the problems of juveniles convicted of serious drug-related and gang-related offenses.

(C) To target elementary school students, with the purpose of steering students away from gang involvement.

(D) To provide treatment to juveniles who are members of such gangs, including members who are accused of committing a serious crime and members who have been adjudicated as being delinquent.

(E) To promote the involvement of juveniles in lawful activities in geographical areas in which gangs commit crimes.

(F) To promote and support, with the cooperation of community-based organizations experienced in providing services to juveniles engaged in gang-related activities and the cooperation of local law enforcement agencies, the development of policies and activities designed to encourage the participation in programs and activities that will assist such schools in maintaining a safe environment conducive to learning.

(G) To assist juveniles who are or may become members of gangs to obtain appropriate educational instruction, in or outside a regular school program, including the provision of counseling and other services to promote and support the continued participation of such juveniles in such instructional programs.

(H) To expand the availability of prevention and treatment services relating to the illegal use of controlled substances and controlled substance analogues (as defined in paragraphs (b) and (c) of section 102 of the Controlled Substances Act (21 U.S.C. 802)) by juveniles, provided through State and local health and social services agencies.

(I) To increase the availability of treatment services for which financial assistance is available under this section.

(2) From not more than 15 percent of the total amount appropriated for the Current Fiscal Year, the Administrator may make grants to and enter into contracts with public agencies and private nonprofit agencies, organizations, and institutions—

(A) for research on issues related to juvenile gangs;

(B) to evaluate the effectiveness of programs and activities funded under paragraph (1); and

(C) to increase the knowledge of the public (including public and private agencies and organizations that operate drug prevention and intervention programs) by disseminating information on research and on effective programs and activities funded under this section.

(B) APPROVAL OF APPLICATIONS.—

(1) IN GENERAL.—Any agency, organization, or institution seeking to receive a grant, or to enter into a contract, under this section shall submit an application at such time, in such manner, and containing such information as the Administrator may prescribe.

(2) APPLICATION CONTENTS.—In accordance with guidelines established by the Administrator, each application submitted under paragraph (a) shall—

(A) set forth a program or activity for carrying out 1 or more of the purposes specified in subsection (a) and specifically identify each such purpose such program or activity is designed to carry out;

(B) provide that such program or activity shall be administered by or under the supervision of the applicant;

(C) provide for the proper and efficient administration of such program or activity;

(D) provide for regular evaluation of such program or activity;

(E) provide an assurance that the proposed program or activity will supplement, not supplant, similar programs and activities already available in the community;

(F) describe how such program or activity is coordinated with programs, activities, and services available locally under part B or C of title II of the Public Health, Education, and Welfare, General Assistance, and Social Service Act (42 U.S.C. 1381–1385);

(G) certify that the applicant has requested, and is committed to, a review and comment on such application and summarization of the responses of such State planning agency to such request;

(H) provide that regular reports on such program or activity shall be sent to the Administrator and to such State planning agency; and

(I) provide for such fiscal control and fund accounting procedures as may be necessary to ensure prudent use, proper disbursement, and accurate accounting of funds received under this section.

(3) PRIORITY.—In reviewing applications for grants and contracts under this section, the Administrator shall give priority to applications—

(A) submitted by, or substantially involving, local educational agencies (as defined in section 417 (a) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 101–146)) by local education, juvenile justice, and community-based treatment services relating to the illegal use of controlled substances and controlled substances analogues (as defined in

SEC. 253. COMMUNITY-BASED GANG INTERVENTION.

(A) IN GENERAL.—The Administrator shall make grants to or enter into contracts with public and private nonprofit agencies, organizations, and institutions to carry out programs and activities that—

(1) reduce the participation of juveniles in the illegal activities of gangs;

(2) to develop regional task forces involving State, local, and community-based organizations to coordinate the disruption of gangs and the prosecution of juvenile gang members and to curtail interstate activities of gangs; and

(3) to facilitate coordination and cooperation among—

(A) local education, juvenile justice, employment, recreation, and social service agencies; and

(B) community-based programs with a proven record of effectively providing intervention services to juvenile gang members for the purpose of reducing the participation of juveniles in illegal gang activities; and

(4) to support programs that, in recognition of varying degrees of the seriousness of delinquent behavior and the corresponding gradations in the responses of the juvenile justice system in response to that behavior, are designed to—

(A) encourage courts to develop and implement a continuum of post-adjudication restraints that bridge the gap between traditional supervision and a correctional setting (including expanded use of probation, mediation, restitution, community service, treatment, home detention, intensive supervision, electronic monitoring, boot camps and similar programs, and secure community-based treatment facilities linked to other support services such as health, mental health, education, vocational special, job training, and recreation); and

(B) assistant in the provision by the Administrator of information and technical assistance to States in the design and utilization of risk assessment mechanisms to aid juvenile justice personnel in determining appropriate sanctions for delinquent behavior.

(B) ELIGIBLE PROGRAMS AND ACTIVITIES.—

Programs and activities for which grants and contracts are to be made under this section may include—

(1) the hiring of additional State and local prosecutors, and the establishment and operation of programs, including multi-jurisdictional task forces, for the disruption of gangs and the prosecution of gang members; and

(2) developing within the juvenile adjudicatory and correctional systems new and innovative means to address the problems of juveniles convicted of serious drug-related and gang-related offenses;

(3) providing treatment to juveniles who are members of such gangs, including members who are accused of committing a serious crime and members who have been adjudicated as being delinquent;

(4) promoting the availability of treatment services to juveniles in the geographical area in which the applicant proposes to carry out the programs and activities for which such grants and contracts are sought and

(5) for assistance for programs and activities that—

(1) are broadly supported by public and private nonprofit agencies, organizations, and institutions located in such geographical area; and

(2) will substantially involve the families of juvenile gang members in carrying out such programs and activities.
(a) AUTHORITY TO MAKE GRANTS.—The Administrator may make grants to, and enter into contracts with, States, units of local government, Indian tribal governments, public and private agencies, organizations, individuals, or combinations thereof, to carry out projects for the development, testing, and demonstration of promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.

(b) USE OF GRANTS.—A grant made under subsection (a) may be used to pay all or part of the cost of the project for which such grant is made.

SEC. 262. GRANTS FOR TRAINING AND TECHNICAL ASSISTANCE.

(a) GRANTS.—The Administrator may make grants to, and enter into contracts with, public and private agencies, organizations, and individuals to provide training and technical assistance to States, units of local government, Indian tribal governments, local private entities or agencies, or any combination thereof, to carry out the projects for which grants are made under section 261.

(b) ELIGIBILITY.—To be eligible to receive assistance pursuant to a grant or contract under this part, a public or private agency, Indian tribal government, organization, institution, individual, or combination thereof, shall submit an application to the Administrator at such time, in such form, and containing such information as the Administrator may reasonably require by rule.

SEC. 264. REPORTS.

(a) PERMITTED USES.—Grants awarded pursuant to a grant or contract under this part shall be used for the purpose of carrying out the projects for which the assistance was provided.

PART F—MENTORING

SEC. 271. MENTORING.

The purposes of this part are to:

1. reduce juvenile delinquency and gang participation;
2. improve academic performance; and
3. reduce the dropout rate.

SEC. 272. DEFINITIONS.

(a) FAMILY-TO-FAMILY MENTORING PROGRAMS.—The term "family-to-family mentoring program" means a mentoring program that—

1. is designed to link at-risk children, particularly children living in high crime and violence areas, with mentors who have an opportunity to provide positive guidance and role modeling;
2. is coordinated with programs, activities, and initiatives already available in the community; and
3. shall include substantially the families of juvenile gang members in carrying out such programs or activities.

(b) POSITIVE ALTERNATIVES PROGRAM.—The term "positive alternatives program" means a positive youth development and family-to-family mentoring program that—

1. utilizes a 2-tier mentoring approach that matches volunteer families with at-risk youth and involves parents and children to work directly with children; and
2. is administered by a local government, Indian tribal government, organization, institution, individual, or combination thereof, to carry out projects for the purpose of implementing promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.

(c) AUTHORITY TO MAKE GRANTS.—The Administrator may make grants to, and enter into contracts with, States, units of local government, Indian tribal governments, public and private agencies, organizations, individuals, or combinations thereof, to carry out projects for the development, testing, and demonstration of promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.

(d) USE OF GRANTS.—A grant made under subsection (a) may be used to pay all or part of the cost of the project for which such grant is made.

SEC. 263. ELIGIBILITY.

(a) FAMILY-TO-FAMILY MENTORING PROGRAMS.—The term "family-to-family mentoring program" means a mentoring program that—

1. is designed to link at-risk children, particularly children living in high crime and violence areas, with mentors who have an opportunity to provide positive guidance and role modeling;
2. is coordinated with programs, activities, and initiatives already available in the community; and
3. shall include substantially the families of juvenile gang members in carrying out such programs or activities.

(b) POSITIVE ALTERNATIVES PROGRAM.—The term "positive alternatives program" means a positive youth development and family-to-family mentoring program that—

1. utilizes a 2-tier mentoring approach that matches volunteer families with at-risk youth and involves parents and children to work directly with children; and
2. is administered by a local government, Indian tribal government, organization, institution, individual, or combination thereof, to carry out projects for the purpose of implementing promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.

(c) AUTHORITY TO MAKE GRANTS.—The Administrator may make grants to, and enter into contracts with, States, units of local government, Indian tribal governments, public and private agencies, organizations, individuals, or combinations thereof, to carry out projects for the development, testing, and demonstration of promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.

(d) USE OF GRANTS.—A grant made under subsection (a) may be used to pay all or part of the cost of the project for which such grant is made.

SEC. 262. GRANTS FOR TRAINING AND TECHNICAL ASSISTANCE.

(a) GRANTS.—The Administrator may make grants to, and enter into contracts with, public and private agencies, organizations, and individuals to provide training and technical assistance to States, units of local government, Indian tribal governments, local private entities or agencies, or any combination thereof, to carry out the projects for which grants are made under section 261.

(b) ELIGIBILITY.—To be eligible to receive assistance pursuant to a grant or contract under this part, a public or private agency, Indian tribal government, organization, institution, individual, or combination thereof, shall submit an application to the Administrator at such time, in such form, and containing such information as the Administrator may reasonably require by rule.

SEC. 264. REPORTS.

(a) PERMITTED USES.—Grants awarded pursuant to a grant or contract under this part shall be used for the purpose of carrying out the projects for which the assistance was provided.

PART F—MENTORING

SEC. 271. MENTORING.

The purposes of this part are to:

1. reduce juvenile delinquency and gang participation;
2. improve academic performance; and
3. reduce the dropout rate.

SEC. 272. DEFINITIONS.

(a) FAMILY-TO-FAMILY MENTORING PROGRAMS.—The term "family-to-family mentoring program" means a mentoring program that—

1. is designed to link at-risk children, particularly children living in high crime and violence areas, with mentors who have an opportunity to provide positive guidance and role modeling;
2. is coordinated with programs, activities, and initiatives already available in the community; and
3. shall include substantially the families of juvenile gang members in carrying out such programs or activities.

(b) POSITIVE ALTERNATIVES PROGRAM.—The term "positive alternatives program" means a positive youth development and family-to-family mentoring program that—

1. utilizes a 2-tier mentoring approach that matches volunteer families with at-risk youth and involves parents and children to work directly with children; and
2. is administered by a local government, Indian tribal government, organization, institution, individual, or combination thereof, to carry out projects for the purpose of implementing promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.

(c) AUTHORITY TO MAKE GRANTS.—The Administrator may make grants to, and enter into contracts with, States, units of local government, Indian tribal governments, public and private agencies, organizations, individuals, or combinations thereof, to carry out projects for the development, testing, and demonstration of promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.

(d) USE OF GRANTS.—A grant made under subsection (a) may be used to pay all or part of the cost of the project for which such grant is made.

SEC. 263. ELIGIBILITY.

(a) FAMILY-TO-FAMILY MENTORING PROGRAMS.—The term "family-to-family mentoring program" means a mentoring program that—

1. is designed to link at-risk children, particularly children living in high crime and violence areas, with mentors who have an opportunity to provide positive guidance and role modeling;
2. is coordinated with programs, activities, and initiatives already available in the community; and
3. shall include substantially the families of juvenile gang members in carrying out such programs or activities.

(b) POSITIVE ALTERNATIVES PROGRAM.—The term "positive alternatives program" means a positive youth development and family-to-family mentoring program that—

1. utilizes a 2-tier mentoring approach that matches volunteer families with at-risk youth and involves parents and children to work directly with children; and
2. is administered by a local government, Indian tribal government, organization, institution, individual, or combination thereof, to carry out projects for the purpose of implementing promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.

(c) AUTHORITY TO MAKE GRANTS.—The Administrator may make grants to, and enter into contracts with, States, units of local government, Indian tribal governments, public and private agencies, organizations, individuals, or combinations thereof, to carry out projects for the development, testing, and demonstration of promising initiatives and programs for the prevention, control, or reduction of juvenile delinquency. The Administrator shall ensure that, to the extent reasonable and practicable, such grants are made to achieve an equitable geographical distribution of such projects throughout the United States.
“(4) such other purposes as the Administrator may reasonably prescribe by regulation.

“(b) PROHIBITED USES.—Grants awarded pursuant to this part shall not be used—

“(1) to directly compensate mentors, except as provided pursuant to subsection (a)(3);

“(2) to obtain educational or other materials or equipment that would otherwise be used in the ordinary course of the grantee’s operations;

“(3) to support litigation of any kind; or

“(4) for any other purpose reasonably prohibited by the Administrator by regulation.

**SEC. 276. PRIORITY.**

“(a) In General.—In making grants under this part, the Administrator shall give priority for awarding grants to applicants that—

“(1) serve at-risk youth in high crime areas;

“(2) have 60 percent or more of their youth eligible to receive funds under the Elementary and Secondary Education Act of 1965; and

“(3) have a considerable number of youths who drop out of school each year.

“(b) Overage and Considerations.—In making grants under this part, the Administrator shall give consideration to—

“(1) the geographic distribution (urban and rural) of applications;

“(2) the quality of a mentoring plan, including—

“(A) the resources, if any, that will be dedicated to providing participating youth with opportunities for job training or post-secondary education; and

“(B) the degree to which parents, teachers, community-based organizations, and the local community participate in the design and implementation of the mentoring plan; and

“(3) the capability of the applicant to effectively implement the mentoring plan.

**SEC. 277. APPLICATIONS.**

“An application for assistance under this part shall include—

“(1) information on the youth expected to be served by the program;

“(2) a provision for a mechanism for matching youth with mentors based on the needs of the youth;

“(3) an assurance that no mentor or mentoring family will be assigned a number of youths that would undermine their ability to be an effective mentor and ensure a one-to-one relationship with mentored youths;

“(4) an assurance that projects operated in secondary schools will provide youth with a variety of experiences and support, including—

“(A) an opportunity to spend time in a work environment and, when possible, participate in the work environment;

“(B) an opportunity to witness the job skills that will be required for youth to obtain employment upon graduation;

“(C) assistance with homework assignments; and

“(D) exposure to experiences that youth might not otherwise encounter;

“(5) an assurance that projects operated in elementary schools will provide youth with—

“(A) academic assistance;

“(B) exposure to new experiences and activities that youth might not encounter on their own;

“(C) emotional support;

“(6) an assurance that projects will be monitored to ensure that each youth benefits from the relationship, with provisions for a new mentor assignment if the relationship is not beneficial to the youth;

“(7) the method by which mentors and youth will be recruited to the project; and

“(8) the method by which prospective mentors will be screened; and

“(9) the training that will be provided to mentors.

**SEC. 278. GRANT CYCLES.**

“Each grant under this part shall be made for a 3-year period.

**SEC. 279. FAMILY MENTORING PROGRAM.**

“(a) DEFINITION.—In this section—

“(1) the term ‘cooperative extension services’ has the meaning given that term in section 1404 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3103);

“(2) the term ‘family mentoring program’ means a mentoring program that—

“(A) utilizes a 2-tier mentoring approach that uses college age or young adult mentors working directly with at-risk youth and uses retirement-age couples working with the parents and siblings of at-risk youth; and

“(B) has a local advisory board to provide direction and advice to program administrators;

“(3) the term ‘qualified cooperative extension service’ means a cooperative extension service that has established a family mentoring program, as of the date of enactment of this Act, that has demonstrated an ability to reduce the incidence of juvenile crime and delinquency among at-risk youth.

“(b) MODEL PROGRAM.—The Administrator, in cooperation with the Secretary of Agriculture, shall make a grant to a qualified cooperative extension service for the purpose of expanding and replicating family mentoring programs to reduce the incidence of juvenile crime and delinquency among at-risk youth.

“(c) ESTABLISHMENT OF NEW FAMILY MENTORING PROGRAMS.—

“(1) IN GENERAL.—The Administrator, in cooperation with the Secretary of Agriculture, may make one or more grants to cooperative extension services for the purpose of establishing family mentoring programs to reduce the incidence of juvenile crime and delinquency among at-risk youth.

“(2) MATCHING REQUIREMENT AND SOURCE OF MATCHING FUNDS.—

“(A) IN GENERAL.—The amount of a grant under this subsection may not exceed 50 percent of the total cost of the program funded by the grant.

“(B) SOURCE OF MATCH.—Matching funds for grants under this subsection may be derived from amounts made available to a State under subsections (b) and (c) of section 3 of the Smith-Lever Act (7 U.S.C. 343), except that the total amount derived from Federal sources may not exceed 70 percent of the total cost of the program funded by the grant.

**SEC. 280. CAPACITY BUILDING.**

“(a) MODEL PROGRAM.—The Administrator may make a grant to a qualified national organization with a proven history of providing one-to-one services for the purpose of expanding and replicating capacity building programs to reduce the incidence of juvenile crime and delinquency among at-risk youth.

“(b) ESTABLISHMENT OF NEW CAPACITY BUILDING PROGRAMS.—

“(1) IN GENERAL.—The Administrator may make one or more grants to national organizations that are able to provide one-to-one services for the purpose of expanding and replicating capacity building programs to reduce the incidence of juvenile crime and delinquency among at-risk youth.

“(2) MATCHING REQUIREMENT AND SOURCE OF MATCHING FUNDS.—

“(A) IN GENERAL.—There is authorized to be appropriated pursuant to this section such sums as may be necessary for each of fiscal years 1999 through 2004.

“(B) RELIGIOUS NONDISCRIMINATION.—The provisions of section 104 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (42 U.S.C. 606a) shall apply to grants under this section.

“(C) SOURCE OF FUNDS.—Amounts made available pursuant to this section and allocated in accordance with this title in any fiscal year shall remain available until expended.

**SEC. 282. RELIGIOUS NONDISCRIMINATION; RESTRICTIONS ON USE OF AMOUNTS; PENALTIES.**

“(a) RELIGIOUS NONDISCRIMINATION.—The provisions of section 104 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (42 U.S.C. 606a) shall apply to grants under this title.

“(b) RESTRICTIONS ON THE USE OF AMOUNTS.—

“(1) EXPERIMENTATION ON INDIVIDUALS.—

“(A) IN GENERAL.—No amounts made available to carry out this title may be used for any biomedical or behavioral research on persons other than individuals for whom experimentation on individuals or any research involving such experimentation.

“(B) DEFINITION OF BEHAVIORAL CONTROL.—In this section, the term ‘behavioral control’—

“(i) means any experimentation or research employing methods that—
(I) involve a substantial risk of physical or psychological harm to the individual subject; and

(II) are intended to modify or alter criminal and other antisocial behavior, including aversively reinforcing therapy, drug therapy, chemotherapy (except as part of routine clinical care), physical therapy of mental disorders, electroconvulsive therapy, or physical punishment; and

(ii) do not include a limited class of programs generally recognized as involving no such risk, including methadone maintenance, substance abuse treatment programs, psychological counseling, parent training, behavior contracting, survival skills training, restitution, or community service;

AND

(3) if the use of the amounts in the program or activity for which the amounts were granted would be prohibited in paragraph (3) or (4) of subsection (a); or

(4) if the use of the amounts in the program or activity for which the amounts were granted would be prohibited in paragraphs (3) and (4) of subsection (a).

SEC. 293. ADMINISTRATIVE PROVISIONS.

(a) Authority of Administrator.—The Office shall be administered by the Administrator under the general authority of the Attorney General.

(b) Applicability of Certain Crime Control Provisions.—Sections 809(c), 811(a), 811(b), 811(c), 812(a), and 812(d) of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789c(a), 3789c(b), 3789c(d), 3789c(c), 3789c(e), and 3789c(f)) shall apply with respect to the administration of, and compliance with, this title, except that, for purposes of this Act—

(1) any reference to the Office of Justice Programs in such sections shall be considered to be a reference to the Assistant Attorney General who heads the Office of Justice Programs; and

(2) the term ‘this title’ as it appears in such sections shall be considered to be a reference to this title.

(c) Applicability of Certain Other Crime Control Provisions.—Sections 801(a), 801(c), and 806 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711(a), 3711(b), and 3711(c), and 3787) shall apply with respect to the administration of, and compliance with, this title, except that, for purposes of this title—

(1) any reference to the Attorney General, the Assistant Attorney General who heads the Office of Justice Programs, the Director of the National Institute of Justice, the Director of the Bureau of Justice Statistics, or the Director of the Bureau of Justice Assistance shall be considered to be a reference to the Administrator; and

(2) any reference to the Office of Justice Programs, the Bureau of Justice Assistance, the National Institute of Justice, or the Bureau of Justice Assistance be considered to be a reference to the Office of Juvenile Crime Control and Prevention; and

(d) the term ‘this title’ as it appears in those sections shall be considered to be a reference to this title.

(e) Rules, Regulations, and Procedures.—The Administrator may, after appropriate consultation with representatives of States and units of local government, and an opportunity for notice and comment in accordance with subchapter II of chapter 5 of title 5, United States Code, establish such rules, regulations, and procedures as are necessary for the exercise of the functions of the Office and as are consistent with the purpose of this Act.

(f) Withholding.—The Administrator shall initiate such proceedings as the Administrator determines to be appropriate if the Administrator determines that giving reasonable notice and opportunity for hearing to a recipient of financial assistance under this title, finds that—

(1) the program or activity for which the grant or contract involved was made has been so changed that the program or activity no longer complies with this title; or

(2) in the case of the program or activity there is failure to comply substantially with any provision of this title.

(g) Repeal.—Title V of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5781 et seq.) is repealed.

SEC. 303. RUNAWAY AND HOMELESS YOUTH. 

(a) Findings.—Section 302 of the Runaway and Homeless Youth Act (42 U.S.C. 5721) is amended—

(1) by striking subsection (a) and inserting the following:

(A) GRANTS FOR CENTERS AND SERVICES.—Section 311 of the Runaway and Homeless Youth Act (42 U.S.C. 5721) is amended—

(2) by striking subsection (a) and inserting the following:

(b) Repeal.—Title V of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5781 et seq.) is repealed.

SEC. 303. RUNAWAY AND HOMELESS YOUTH. 

(a) Findings.—Section 302 of the Runaway and Homeless Youth Act (42 U.S.C. 5721) is amended—

(1) in paragraph (5), by striking “accurate reporting of the problem nationally and to establish a reliable and accurate national reporting system to report the problem, and to assist in the development of” and inserting “and the Office to Make Grants for Centers and Services.”; and

(2) by striking paragraph (8) and inserting the following:

(8) services for runaway and homeless youth are needed in urban, suburban, and rural areas.”;

(b) Authority To Make Grants for Centers and Services.—Section 311 of the Runaway and Homeless Youth Act (42 U.S.C. 5721) is amended—

(1) by striking subsection (a) and inserting the following:

(2) by striking subsection (c).
“(1) provide qualified supervision of staff, including on-street supervision by appropriately trained staff;

“(2) provide backup personnel for on-street staff;

“(3) provide initial and periodic training of staff who provide such services; and

“(4) conduct outreach activities for runaway and homeless youth, and street youth.

“(d) Providing Home-Based Services.—To be eligible to use assistance under section 311(a) to provide home-based services, in the case under subsection (311(a)(2)(C)(ii)), an applicant shall include in the plan required by subsection (b) assurances that in providing such services the applicant will—

“(1) provide counseling and information to youth and the families (including unrelated individuals in the family households) of such youth, including services related to basic life skills, interpersonal skill building, educational advancement, job attainment skills, mental and physical health care, parenting skills, financial planning, and referral to sources of other needed services;

“(2) provide direct, or through an arrangement made by the applicant, 24-hour service to respond to family crises (including immediate intervention in cases of runaway and homeless youth, and youth at risk of separation from the family);

“(3) establish, in partnership with the families of runaway and homeless youth, and youth at risk of separation from the family, objectives and measures of success to be achieved as a result of receiving home-based services;

“(4) provide initial and periodic training of staff who provide home-based services; and

“(5) ensure that—

“(A) adolescents will remain sufficiently low to allow for intensive (5 to 20 hours per week) involvement with each family receiving such services; and

“(B) staff providing such services will receive qualified supervision.

“(e) Applicants Providing Drug Abuse Education and Prevention Services.—To be eligible to use assistance under section 311(a)(2)(C)(ii) to provide drug abuse education and prevention services, an applicant shall include in the plan required by subsection (b)—

“(1) a description of—

“(A) the types of such services that the applicant plans to provide;

“(B) the objectives of such services; and

“(C) the types of information and training to be provided to individuals providing such services to runaway and homeless youth;

“(2) an assurance that in providing such services the applicant shall conduct outreach activities for runaway and homeless youth.

“(f) Approval of Applications.—Section 313 of the Runaway and Homeless Youth Act (42 U.S.C. 5714) is amended to read as follows:

“SEC. 313. APPROVAL OF APPLICATIONS.

“(a) An application by a public or private entity for a grant under section 311(a) may be approved by the Secretary after taking into consideration, with respect to the State in which such entity proposes to provide services under this part—

“(1) the geographical distribution in such State of the proposed services under this part for which all grant applicants request approval; and

“(2) which areas of such State have the greatest need for such services.

“(b) Priority.—In selecting applications for grants under section 311(a), the Secretary shall give priority to—

“(1) eligible applicants who have demonstrated experience in providing services to runaway and homeless youth; and

“(2) eligible applicants that request grants of less than $100,000.

“(c) Authorization for Transitional Living Grant Program.—Section 321 of the Runaway and Homeless Youth Act (42 U.S.C. 5714-1) is amended—

“(1) in the section heading, by striking “PURPOSE”; and

“(2) in subsection (a), by striking “(a)” and (b) and by striking subsection (b).

“(d) Eligibility.—Section 322(a)(9) of the Runaway and Homeless Youth Act (42 U.S.C. 5714-2(a)(9)) is amended by inserting “, and” and the services provided to such youth by such project,” after “such project”.

“(e) Coordination.—Section 341 of the Runaway and Homeless Youth Act (42 U.S.C. 5714-21) is amended to read as follows:

“SEC. 341. COORDINATION.

“With respect to matters relating to the health, education, employment, and housing of runaway and homeless youth, the Secretary—

“(1) in conjunction with the Attorney General, shall coordinate the activities of agencies of the Department of Health and Human Services with activities under any other Federal juvenile crime control, prevention, and juvenile offender accountability program and with the activities of other Federal entities; and

“(2) shall coordinate the activities of agencies of the Department of Health and Human Services with the activities of other Federal entities and with the activities of entities that are eligible to receive grants under this title.

“(f) Authority To Make Grants for Research, Evaluation, Demonstration, and Service Projects.—Section 343 of the Runaway and Homeless Youth Act (42 U.S.C. 5714-23) is amended—

“(1) in the section heading, by inserting “EVALUATION,” after “RESEARCH;”; and

“(2) in subsection (a), by inserting “evaluation,” after “research;” and

“(3) in subsection (b)—

“(A) by striking paragraph (2); and

“(B) by redesignating paragraphs (3) through (10) as paragraphs (2) through (9), respectively.

“(g) Assistance to Potential Grantees.—Section 371 of the Runaway and Homeless Youth Act (42 U.S.C. 5714-41) is amended by striking the last sentence.

“(h) Reports.—Section 381 of the Runaway and Homeless Youth Act (42 U.S.C. 5715) is amended to read as follows:

“SEC. 381. REPORTS.

“(a) In General.—Not later than April 1, 2000, and biennially thereafter, the Secretary shall submit, to the Committee on Education and the Workforce of the House of Representatives and the Committee on Labor and Human Resources of the Senate, a report on the status, activities, and accomplishments of entities that receive grants under parts A, B, C, D, and E, with particular attention to—

“(1) in the case of centers funded under part A, the ability or effectiveness of such centers in—

“(A) alleviating the problems of runaway and homeless youth;

“(B) if applicable, or appropriate, reuniting such youth with their families and encouraging the resolution of intrafamily problems through counseling and other services;

“(C) strengthening family relationships and encouraging stable living conditions for such youth; and

“(D) assisting such youth to decide upon a future course of action; and

“(2) in the case of projects funded under part B—

“(A) the number and characteristics of homeless youth served by such projects;

“(B) the types of activities carried out by such projects;

“(C) the effectiveness of such projects in alleviating the problems of homeless youth; and

“(D) the effectiveness of such projects in preparing homeless youth for self-sufficiency;

“(e) Evaluation.—Section 386 of the Runaway and Homeless Youth Act (42 U.S.C. 5732) is amended to read as follows:

“SEC. 386. EVALUATION AND INFORMATION.

“(a) In General.—If a grantee receives grants for 3 consecutive fiscal years under part A, B, C, D, or E (in the alternative), then the Secretary shall evaluate such grantee on-site, not less frequently than once in the period of such 3 consecutive fiscal years, for purposes of—

“(1) determining whether such grants are being used for the purposes for which such grants are made by the Secretary;

“(2) collecting additional information for the report required by section 385; and

“(3) providing such information and assistance to such grantee as will enable such grantee to improve the operation of the center, project, activity, and programs for which such grants are made.

“(b) Cooperation.—Recipients of grants under this title shall cooperate with the Secretary’s efforts to carry out evaluations, and to collect information, under this title.

“(i) Authorization of Appropriations.—Section 387 of the Runaway and Homeless Youth Act (42 U.S.C. 5751) is amended to read as follows:

“SEC. 387. AUTHORIZATION OF APPROPRIATIONS.

“(a) In General.—

“(1) Authorization.—There is authorized to be appropriated for each of fiscal years 2000, 2001, 2002, 2003, and 2004:

“(A) Parts A and B.—From the amount appropriated under paragraph (1) for a fiscal year, the Secretary shall reserve not less than 90 percent to carry out parts A and B. If a grantee makes a request under subparagraph (A), not less than 90 percent, and not more than 90 percent, shall be reserved to carry out part B.

“(B) Parts C and D.—In each fiscal year, after reserving the amounts required by paragraph (2), the Secretary shall use the remaining amount (if any) to carry out parts C and D.

“(b) Separate Identification Required.—No funds appropriated to carry out this title may be combined with funds appropriated
SEC. 351. AUTHORITY TO MAKE GRANTS.

(1) in GENERAL.—The Secretary may make grants to nonprofit agencies for the purpose of providing street-based services to runaway and homeless, and street youth, who have been subjected to, or are at risk of being subjected to, sexual abuse, prostitution, or sexual exploitation;

(2) PRIORITY.—In selecting applicants to receive grants under subsection (a), the Secretary shall give priority to nonprofit private agencies that have experience in providing services to runaway and homeless, and street youth.

(2) AUTHORIZATION OF APPROPRIATIONS.—

Section 383(b) of the Runaway and Homeless Youth Act (42 U.S.C. 5701, as amended by subsection (1) of this section, is amended by adding at the end the following:

(3) STREET YOUTH.—The term ‘street youth’ means an individual who—

(A) is a runaway youth;

(B) is a runaway youth or

(i) train to street youth;

(ii) for the purposes of part B, not less than 16 years of age;

(iii) for the purposes of part B, not less than 16 years of age;

(iv) for the purposes of part B, not less than 16 years of age;

(v) to the extent that such youth from running away, or otherwise becoming separated, from

(vi) to the extent that such youth from running away, or otherwise becoming separated, from

(vii) to the extent that such youth from running away, or otherwise becoming separated, from

(viii) to the extent that such youth from running away, or otherwise becoming separated, from

(ix) to the extent that such youth from running away, or otherwise becoming separated, from

(x) to the extent that such youth from running away, or otherwise becoming separated, from

(xi) to the extent that such youth from running away, or otherwise becoming separated, from

(xii) to the extent that such youth from running away, or otherwise becoming separated, from

(xiii) to the extent that such youth from running away, or otherwise becoming separated, from

(xiv) to the extent that such youth from running away, or otherwise becoming separated, from

(xv) to the extent that such youth from running away, or otherwise becoming separated, from

(xvi) to the extent that such youth from running away, or otherwise becoming separated, from

(xvii) to the extent that such youth from running away, or otherwise becoming separated, from

(xviii) to the extent that such youth from running away, or otherwise becoming separated, from

(xix) to the extent that such youth from running away, or otherwise becoming separated, from

(xx) to the extent that such youth from running away, or otherwise becoming separated, from

(1) if by adding at the end the following: "(A) by striking the heading for part E; and

(2) May 26, 1999
security personnel, and thereby helped to re-
duce sex-abductions in the United States by 82 percent.

(18) the Center is now playing a signif-
cant role in international child abduction cases, serving as a representative of the De-
partment of State at cases under The Hague
Convention, and successfully resolving the
cases of 363 international child abductions, and
providing greater support to parents in the
United States;

(19) the Center has been redesignated as the
nation’s missing children clearinghouse and re-
source center once every 3 years through a selection pro-
ceded by the Office of Juvenile Justice and
Delinquency Prevention of the Department
of Justice, and has received grants from that
Office to conduct the crucial purposes of the Center.

The Center is a model of public/private
partnership, raising private sector funds to
match congressional appropriations and
receiving extensive private in-kind support,
including advanced technology provided by
the computer industry such as imaging tech-
nology used to age the photographs of long-
term missing children and to reconstruct fac-
ial images of unidentified deceased chil-
dren;

(20) the Center was 1 of only 10 of 300
major national charities given an A+ grade
in 1997 by the American Institute of Philan-
thropy;

(21) the Center has been redesignated as
the Nation’s missing children clearinghouse and re-
source center once every 3 years through a selection pro-
ceded by the Office of Juvenile Justice and
Delinquency Prevention of the Department
of Justice, and has received grants from that
Office to conduct the crucial purposes of the Center.

The Center is a model of public/private
partnership, raising private sector funds to
match congressional appropriations and
receiving extensive private in-kind support,
including advanced technology provided by
the computer industry such as imaging tech-
nology used to age the photographs of long-
term missing children and to reconstruct fac-
ial images of unidentified deceased chil-
dren;

(22) the Center has been redesignated as
the Nation’s missing children clearinghouse and re-
source center once every 3 years through a selection pro-
ceded by the Office of Juvenile Justice and
Delinquency Prevention of the Department
of Justice, and has received grants from that
Office to conduct the crucial purposes of the Center.

The Center is a model of public/private
partnership, raising private sector funds to
match congressional appropriations and
receiving extensive private in-kind support,
including advanced technology provided by
the computer industry such as imaging tech-
nology used to age the photographs of long-
term missing children and to reconstruct fac-
ial images of unidentified deceased chil-
dren;

(23) the term ‘Center’ means the National
Center for Missing and Exploited Children.

(c) DUTIES AND FUNCTIONS OF THE ADMINIS-
TRATOR.—Section 404 of the Missing
Children’s Assistance Act (42 U.S.C. 5773) is amended
by—

(1) by redesignating subsection (c) as sub-
section (d); and

(2) by inserting subsection (b) and inserting
the following:

```
(b) ANNUAL GRANT TO NATIONAL CENTER
FOR MISSING AND EXPLOITED CHILDREN.—

(1) The Administrator shall annually make a grant to the Center, which
shall be used to—

(A) operate a national 24-hour toll-free telephone line by which individuals may re-
port information regarding the location of any missing child, or other child 13 years of age or younger whose whereabouts are un-
known to such child’s legal custodian, and

(B) operate the official national resource center and information clearinghouse for
missing and exploited children;

(2) coordinate the operation of such tele-
phone line with the operation of the national
communications system referred to in part C
of the Runaway and Homeless Youth Act (42
U.S.C. 5714-11);

(3) provide to State and local govern-
ments, public and private nonprofit agencies, and
individuals, information regarding—

(A) free or low-cost legal, restaurant, lodg-
ing, and transportation services that are
available for the benefit of missing and ex-
ploded children and their families; and

(B) the existence and nature of programs
being carried out by Federal agencies to as-
sist missing and exploited children and their families;

(4) disseminate, on a national basis, in-
formation relating to innovative and model
programs, services, and legislation that ben-
efit missing and exploited children;

(5) provide technical assistance and
training to law enforcement agencies, State
and local governments, elements of the
criminal justice system, public and private
nonprofit agencies, and individuals in the
prevention, investigation, prosecution, and
reunification or treatment of missing and ex-
ploded children; and

(6) provide assistance to families and law
enforcement agencies in locating and recov-
ering missing and exploited children, both
nationally and internationally.
```

(2) AUTHORIZATION OF APPROPRIATIONS.—

There is authorized to be appropriated to the
Center to carry out this subsection, $10,000,000 for each of fiscal years 2000, 2001,

(c) NATIONAL INCIDENCE STUDIES.—The
Administrator may make grants to or enter into contracts with public agen-
cies or nonprofit public agencies, shall—

(1) periodically conduct national inci-
dence studies, and for each fiscal year
the actual number of children reported missing
each year, the number of children who are victims of abduction by strangers, the
number of children who are the victims of
parental kidnapings, and the number of chil-
dren who are recovered each year; and

(2) provide to State and local govern-
ments, public and private nonprofit agencies, and
individuals information to facilitate the
lawful use of school records and birth certifi-
cates to identify and locate missing chil-
dren.

(d) NATIONAL CENTER FOR MISSING AND
EXPLOITED CHILDREN.—Section 405(a) of the
Missing Children’s Assistance Act (42 U.S.C. 5775(a)) is amended by inserting “the Center
and with” before “public agencies”.

(e) AUTHORIZATION OF APPROPRIATIONS.—

Section 406 of the Missing Children’s Assist-
ance Act may be carried out by striking
“1997 through 2001” and inserting “2000
to 2004”.

Sec. 305. TRANSFER OF FUNCTIONS AND SAV-
INGS PROVISIONS.

(a) DEFINITIONS.—In this section, unless
otherwise provided or indicated by the con-
text:

(1) ADMINISTRATOR.—The term “Adminis-
trator” means the Administrator of the Of-
fice of Juvenile Crime Control and Preven-
tion established by operation of subsection (b).

(2) ADMINISTRATOR OF THE OFFICE.—The
term “Administrator of the Office” means the
Administrator of the Office of Juvenile Crime Control and Preven-
tion established by operation of subsection (b).

(3) BUREAU OF JUSTICE ASSISTANCE.—
The term “Bureau of Justice Assistance” means the bureau established under section 401

(4) FEDERAL AGENCY.—The term “Federal
agency” has the meaning given the term
agency” by section 501 of title 5, United States
Code.

(b) TRANSFERRING FUNCTIONS AND SAV-
ING APPROPRIATIONS, ALLOCATIONS, AND
OTHER AMOUNTS.—There are transferred to the Office of Juvenile Crime Control and
Prevention all functions that the Administrator of the Office exercised be-
fore the date of enactment of this Act, in-
cluding all related functions of any officer or
employee of the Office of Juvenile Justice
and Delinquency Prevention, and authorized
the cover for the benefit of missing and exploited children.

(1) IN GENERAL.—Except as otherwise pro-
vided in this section, the personnel employed in
connection with, and the assets, liabilities,
property, records, and unexpended balances of appropri-
ations, authorizations, allocations, and other amounts em-
ployed, used, held, arising from, available to, or to be made available in connection with
the functions transferred by this section, subject to section 131 of title 31, United States
Code, shall be transferred to the Of-
fice of Juvenile Crime Control and Preven-
tion.

(2) UNEXPENDED AMOUNTS.—Any unex-
pended amounts transferred pursuant to this section shall be used for the purposes for which the amounts were originally
authorized and appropriated.

(c) TRANSFER AND ALLOCATIONS OF APPROP-
PRIATIONS, ALLOCATIONS, AND OTHER AMO-
UNTS.—The functions transferred by this section, at such time or
time personnel holding permanent positions
shall not cause any such employee to be sep-
ated or to be made available in connection with such functions,
as may be necessary to carry out this sec-
tion.

(2) TERMINATION OF AFFAIRS.—The Director
of the Office of Management and Budget shall provide for the termination of the
affairs of all entities terminated by this section
and for such further measures and dis-
positions as may be necessary to effectuate the purposes of this section.

(e) EFFECT ON PERSONNEL.—

(1) IN GENERAL.—Except as otherwise pro-
vided by this section, the transfer pursuant
to this section of full-time personnel (except special Government employees) and part-
time personnel holding permanent positions shall occur if any such employee is sep-
ated or reduced in grade or compensation for 1 year after the date of transfer of such employee under this section.

(2) TERMINATION OF AFFAIRS.—The Director
of Management and Budget shall provide for the termination of the
affairs of all entities terminated by this section
and for such further measures and dis-
positions as may be necessary to effectuate the purposes of this section.

(3) TERMINATION OF AFFAIRS.—The Director
of Management and Budget shall provide for the termination of the
affairs of all entities terminated by this section
and for such further measures and dis-
positions as may be necessary to effectuate the purposes of this section.

(4) TERMINATION OF AFFAIRS.—The Director
of Management and Budget shall provide for the termination of the
affairs of all entities terminated by this section
and for such further measures and dis-
positions as may be necessary to effectuate the purposes of this section.

(5) TERMINATION OF AFFAIRS.—The Director
of Management and Budget shall provide for the termination of the
affairs of all entities terminated by this section
and for such further measures and dis-
positions as may be necessary to effectuate the purposes of this section.

(6) TERMINATION OF AFFAIRS.—The Director
of Management and Budget shall provide for the termination of the
affairs of all entities terminated by this section
and for such further measures and dis-
positions as may be necessary to effectuate the purposes of this section.

(7) TERMINATION OF AFFAIRS.—The Director
of Management and Budget shall provide for the termination of the
affairs of all entities terminated by this section
and for such further measures and dis-
positions as may be necessary to effectuate the purposes of this section.

(8) OFFICE.—The term “Office” includes any
office, administration, agency, institute, unit, organizational entity, or component thereof.

(9) TRANSFER OF FUNCTIONS.—There are transferred to the Office of Juvenile Crime Control and Prevention all functions that the Administrator of the Office exercised before the date of enactment of this Act, including all related functions of any officer or employee of the Office of Juvenile Justice and Delinquency Prevention, and authorized after the date of enactment of this Act, relating to carrying out the Juvenile Justice
CONGRESSIONAL RECORD—SENATE

Section 321. Block Grant Program.

(a) In General.—Part R of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (22 U.S.C. 3796 et seq.) is amended to read as follows:

"PART R—JUVENILE ACCOUNTABILITY BLOCK GRANTS"

SEC. 321. BLOCK GRANT PROGRAM.

(a) In General.—Part R of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (22 U.S.C. 3796 et seq.) is amended—

(1) in section 214(e)(1) by striking "262, 293, and 296 of title II" and inserting "299B and 299E";

(2) in section 217(c)(1) by striking "sections 262, 293, and 296 of part II of title II" and inserting "sections 299B and 299E";

(3) in section 217(d) by striking "Office of Juvenile Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(4) in section 221(c) by striking "section 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(b) The Crime Control Act of 1990 (42 U.S.C. 13001 et seq.) is amended—

(1) in section 217(c)(1) by striking "sections 262, 293, and 296 of part II of title II" and inserting "sections 299B and 299E";

(2) in section 217(d) by striking "Office of Juvenile Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(3) in section 231(c) by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(c) The Omnibus Crime Control and Safe Streets Act of 1986 (22 U.S.C. 3761 et seq.) is amended—

(1) in section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(2) in section 221(c) by striking "section 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(d) The Missing Children's Assistance Act (42 U.S.C. 5771 et seq.) is amended—

(1) in section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(2) in section 322 by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(e) In section 322 by striking "section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(f) In section 322 by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(g) In section 322 by striking "section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(h) In section 322 by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(i) In section 322 by striking "section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(j) In section 322 by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(k) In section 322 by striking "section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(l) In section 322 by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(m) In section 322 by striking "section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(n) In section 322 by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(o) In section 322 by striking "section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(p) In section 322 by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".

(q) In section 322 by striking "section 409(d) by striking "Justice and Delinquency Prevention" and inserting "Crime and Delinquency Prevention"; and

(r) In section 322 by striking "sections 262, 293, and 296" and inserting "sections 299B, 299E, and 299E-3".
"(B) the development and implementation of character education and training programs, and after school programs and activities; and

"(C) local distribution subgrant eligibility.—To be eligible to receive a subgrant, a unit of local government shall certify that it has, or will establish a coordinated enforcement program for reducing juvenile crime within the jurisdiction of the unit of local government, developed by a juvenile crime enforcement coalition, such coalition consisting of individuals within the jurisdiction representing the police, sheriff, prosecutor, State or local probation services, juvenile court, schools, business, and religious affiliated, fraternal, nonprofit, or social service organizations involved in crime prevention.

"(D) special rule.—The requirements of subparagraph (A) shall apply to an eligible unit that receives funds from the Attorney General under subparagraph (B), except that information that would otherwise be submitted to the State shall be submitted to the Attorney General.

"(E) local distribution.—From amounts reserved for local distribution under paragraph (1), the State shall allocate to such units of local government an amount that bears the same ratio to the aggregate amount of such funds as—

"(i) the sum of—

"(aa) one-third; multiplied by

"(bb) the average law enforcement expenditure for such unit of local government for the 3 most recent calendar years for which such data is available; plus

"(ii) the sum of—

"(aa) one-third; multiplied by

"(bb) the average annual number of part 1 violent crimes in such unit of local government for the 3 most recent calendar years for which such data is available, bears to—

"(iii) the sum of the products determined under subparagraph (A) for all such units of local government in the State.

"(G) expenditures.—The allocation any unit of local government shall receive under paragraph (1) for a payment period shall not exceed 100 percent of law enforcement expenditures of the unit for such payment period.

"(H) reallocation.—The amount of any unit of local government's allocation that is not available to such unit by operation of paragraph (2) shall be available to other
units of local government that are not affected by such operation in accordance with this subsection.

"(F) UNAVAILABILITY OF DATA FOR UNITS OF LOCAL GOVERNMENT.—If the State has reason to believe that the reported rate of part 1 violent crimes or law enforcement expenditure for a unit of local government is insufficient or inaccurate, the State shall—

"(i) investigate the methodology used by the unit to determine the accuracy of the submitted data; and

"(ii) if necessary, use the best available comparable crime data regarding the number of violent crimes or law enforcement expenditure for the relevant years for the unit of local government.

"(G) LOCAL GOVERNMENT WITH ALLOCATIONS LESS THAN $5,000.—If, under this section, a unit of local government is allocated less than $5,000 for a payment period, the amount allocated shall be expended by the State on services to units of local government whose allotment is less than such amount in a manner consistent with this part.

"(H) ELIGIBLE UNITS.—

"(i) IN GENERAL.—If a State does not qualify or apply for a grant under this section, by the application deadline established by the Attorney General, the Attorney General shall reserve not more than 70 percent of the allocation that the State would have received for grants under this section under subsection (b)(9) for such fiscal year to provide grants to eligible units that meet the requirements for funding under subparagraph (A).

"(ii) AWARD BASIS.—In addition to the qualification requirements for direct grants for eligible units the Attorney General may use the average amount made available under this section for fiscal year for each eligible unit to determine the amount equal to the amount to which all Indian tribes eligible to receive a grant under paragraph (3) would collectively be entitled, if such tribes were treated as a State to carry out this subsection.

"(1) ALLOCATION.—Amounts made available under this section shall be subject to the restrictions of subsections (a) and (b) of section 292 of the Juvenile Justice and Delinquency Prevention Act of 1974, except that the penalties in section 292(c) of such Act do not apply.

"(ii) GRANTS TO INDIAN TRIBES.—From the amounts reserved pursuant to the amounts appropriated pursuant to section 292 of the Juvenile Justice and Delinquency Prevention Act of 1974, for each fiscal year, the Attorney General shall reserve an amount equal to the amount to which all Indian tribes eligible to receive a grant under paragraph (3) would collectively be entitled, if such tribes were treated as a State to carry out this subsection.

"(3) APPLICATIONS.—To be eligible to receive a grant under this subsection, an Indian tribe shall submit to the Attorney General an application in such form and containing such information as the Attorney General may by regulation require. The requirements of subsection (c)(2) apply to grants under this subsection.

"SEC. 1802. JUVENILE CRIMINAL HISTORY RECORDS.

"(a) IN GENERAL.—The Attorney General, through the Director of the Bureau of Justice Statistics and with consultation and coordination with the Office of Justice Programs and the Attorney General, upon application from a State (in such form and containing such information as the Attorney General may by regulation require) shall make grants to States for the detection, apprehension, detention, post-trial release, prosecution, adjudication, sentencing, disposition, correctional supervision, or rehabilitation of accused persons, criminal offenders, or juvenile delinquents; and

"(b) GRANT PURPOSES.—Grants under this section may be used—

"(1) to hire additional law enforcement personnel; and

"(2) in accordance with this Act to provide grants to eligible juvenile justice agencies, including courts with juvenile criminal justice responsibilities.
court backlogs, and provide additional serv-
ices to make more effective systems of gradu-
ated sanctions designed to reduce recidi-

"(3) to provide funding to enable juvenile courts and juvenile probation officers to ad-
dress drug, gang, and youth violence prob-
lems more effectively; and

"(4) to provide funds to—

"(A) effectively supervise and monitor ju-
venile offenders sentenced to probation or
parole; and

"(B) relieve conditions of probation and parole imposed on juvenile offenders, includ-
ing drug testing and payment of restitution.

"(c) APPLICATION.—

"(1) IN GENERAL.—Each State or unit of local government that applies for a grant under this section shall submit an applica-
tion to the Attorney General, in such form and containing such information as the At-
torney General may reasonably require.

"(2) REQUIREMENTS.—In submitting an ap-
lication for a grant under this part, a State or unit of local government shall provide infor-
mation to the Attorney General as the Attorney General may reasonably require.

"(a) give priority to the prosecution of violent juvenile offenders; and

"(b) seek to reduce any backlogs in juvenile justice cases and provide additional services to make more effective systems of graduated sanctions designed to reduce recidivism and deter future crimes or delin-
quent acts by juvenile offenders;

"(c) give adequate consideration to the rights and needs of victims of juvenile of-
fenders; and

"(D) use amounts received under this sec-
tion to supplement (and not supplant) State and local resources.

"(d) ALLOCATION OF GRANTS.—

"(1) IN GENERAL.—Each State or unit of local
government that applies for a grant under this section may reserve for each fiscal year not more than 2 percent of the amount made available for a grant under this section.

"(2) EQUITABLE DISTRIBUTION.—The At-
torney General may, after consultation with the Secretaries of the Treasury and the Health and Human Services Department, determine an equitable amount of available funds to be distributed among the States.

"(i) ADJUSTMENT.—If the Attorney Gen-
eral determines that an insufficient number of applicants have been submitted for a State, the Attorney General may adjust the aggregate amount awarded for a State under clause (i).

"(B) in conjunction with the Secretary of the Treasury, shall establish a system to measure and report outcomes consistent with common indica-
tors and evaluation protocols established by the Administrator and that receives the approval of the Attorney General; and

"(ii) ADJUSTMENT.—If the Attorney Gen-
eral determines that an insufficient number of applications have been submitted for a State, the Attorney General may adjust the aggregate amount awarded for a State under clause (i).

"(B) REMAINING AMOUNTS.—Of the adjusted amounts available to the Attorney General to carry out the grant program under this section (referred to in subparagraph (A) that remain after the Attorney General distributes the amounts specified in that subparagraph (referred to in this subparagraph as the ‘‘remaining amount’’)) the Attorney Gen-
eral shall—

"(1) distribute the remaining amount to States that bear the same ratio to the remaining amount in the ‘‘remaining amount’’ as the population of juveniles residing in each State bears to the population of juveniles residing in all States.

"(2) EQUIVABLE DISTRIBUTION.—The At-
torney General shall ensure that the distribu-
tion of grant amounts made available for a State (including units of local government in

that State) under this section is made on an equitable geographic basis, to ensure that—

"(A) an equitable amount of available funds are directed to rural areas, including those jurisdictions serving smaller urban and rural communities, and transportation routes that are adversely af-
fected by interstate criminal gang activity, such as illegal drug trafficking; and

"(B) each State is equitably divided between the State, counties, and other units of local government to re-

"(A) ADMINISTRATION; TECHNICAL ASSIST-
ANCE.—

"(1) IN GENERAL.—The Attorney General may reserve for each fiscal year not more than 2 percent of the amount made available for a grant under this section pursuant to section 291(b)(1) of the Violent Crime Control and Law Enforcement Act of 1994—

"(A) for the administration of this section; and

"(B) for the provision of technical assistance to recipients of or applicants for grant awards under this section.

"(2) CARRYOVER PROVISION.—Any amounts reserved for an fiscal year not expended during that fiscal year shall remain available until expended, except that any amount reserved under this subparagraph succeeding fis-
cal year from amounts made available by ap-

"(f) AVAILABILITY OF FUNDS.—Any grant

"(i) establish a system to measure and report outcomes consistent with common indica-
tors and evaluation protocols established by the Administrator and that receives the approval of the Attorney General; and

"(ii) devise a detailed model for measuring and evaluating the success of the plan of the coalition in reducing violent juvenile crime, and provide assurances that the plan will be evaluated on a regular basis to assess progress in reducing violent juvenile crime.

"(5) GRANT AMOUNTS.—

"(A) IN GENERAL.—The Attorney General may grant to an eligible coalition under this paragraph, an amount not to exceed the amount of non-Federal funds raised by the coalition, including in-kind contributions, for that fiscal year.

"(B) NONSUPPLANTING REQUIREMENT.—A coa-

lients from the business commu-

(i) researchers who have studied criminal justice and can offer technical or other as-

(ii) representatives of the community;

(iii) social service agencies involved in crime prevention.

(A) OTHER PARTICIPANTS.—In addition to the representatives from the cat-

"(i) individuals who have studied criminal justice and can offer technical or other as-

(ii) representatives of the community;

CONGRESSIONAL RECORD—SENATE

May 26, 1999

11052
SEC. 325. REIMBURSEMENT OF STATES FOR COSTS OF INCARCERATING JUVENILE ALIENS.

(a) In General.—Section 501 of the Immigration Reform and Control Act of 1986 (8 U.S.C. 1365) is amended—

(1) in subsection (a), by inserting “or illegal juvenile alien who has been adjudicated delinquent and committed to a juvenile correctional facility by such State or locality” before the period at the end of the subsection; and

(2) by adding at the end the following:

“(f) JUVENILE ALIEN DEFINED.—In this section, the term ‘juvenile alien’ means an alien (as defined in section 101(a)(3) of the Immigration and Nationality Act) who has been adjudicated delinquent and committed to a correctional facility by a State or locality as a juvenile offender.”.

(b) ANNUAL REPORT.—Section 332 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1366) is amended—

(1) by striking “and” at the end of paragraph (1);

(2) by striking the period at the end of paragraph (4) and inserting “; and”;

and

(3) by adding at the end the following:

“(d) the number of illegal juvenile aliens that are committed to State or local juvenile correctional facilities, including the type of offense committed by each juvenile.”.

(c) CONFORMING AMENDMENT.—Section 241(i)(3)(B) of the Immigration and Nationality Act (8 U.S.C. 1231(i)(3)(B)) is amended—

(1) by striking “or” at the end of clause (1);

(2) by striking the period at the end of clause (11) and inserting “; or”;

and

(3) by adding at the end the following:

“(12) ‘juvenile alien’ is a juvenile alien with respect to whom section 501 of the Immigration Reform and Control Act of 1986 applies.”.

**Subtitle C—Alternative Education and Juvenile Justice Prevention**

SEC. 331. ALTERNATIVE EDUCATION.

Part D of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6421 et seq.) is amended by adding at the end the following:

"Subpart 4—Alternative Education Demonstration Project Grants"

SEC. 1441. PROGRAM AUTHORITY.

"(a) GRANTS.—
"(1) IN GENERAL.—From amounts appropriated under section 1441, the Secretary, in consultation with the Administrator, shall make grants to State educational agencies or local educational agencies for not less than 10 demonstration projects that enable the agencies to develop models for and carry out alternative education for at-risk youth.
"(2) CONSTRUCTION.—Nothing in this subpart shall be construed to affect the requirements of the Individuals with Disabilities Education Act.

"(b) DEMONSTRATION PROJECTS.—
"(1) IN GENERAL.—Each agency receiving a grant under this subpart may enter into a partnership with a private sector entity to provide alternative educational services to at-risk youth.
"(2) REQUIREMENTS.—Each demonstration project assisted under this subpart shall—
"(A) accept for alternative education at-risk or delinquent youth who are referred by a local school or by a court with a juvenile delinquency docket and who—
"(I) have demonstrated a pattern of serious and persistent behavior problems in regular schools;
"(II) are at risk of dropping out of school;
"(iii) have been convicted of a criminal offense for conduct delinquent for an act of juvenile delinquency, and are under a court's supervision;
"(iv) have demonstrated that continued enrollment in a regular classroom—
"(I) poses a physical threat to other students; or
"(II) inhibits an atmosphere conducive to learning and;
"(B) provide for accelerated learning, in a safe, secure, and disciplined environment, including—
"(i) basic curriculum focused on mastery of essential skills, including targeted instruction in basic skills required for secondary school graduation; and
"(ii) emphasis on—
"(I) personal, academic, social, and workplace skills; and
"(II) behavior modification;
"(c) APPLICABILITY.—Except as provided in subsections (c) and (e) of section 1442, the provisions of section 1401(c), 1402, and 1431, and subparts 1 and 2, shall not apply to this subpart.

"(d) DEFINITION OF ADMINISTRATOR.—In this subpart, the term 'Administrator' means the Administrator of the Office of Juvenile Crime Prevention and the Secretary of Justice.

SEC. 1442. APPLICATIONS; GRANTEE SELECTION.

"(a) APPLICATIONS.—Each State educational agency and local educational agency seeking a grant under this subpart shall submit an application in such form, and containing such information, as the Secretary, in consultation with the Administrator, may reasonably require.

"(b) SELECTION OF GRANTEES.—
"(1) IN GENERAL.—The Secretary shall select the State educational agency and local educational agencies to receive grants under this subpart on an equitable geographic

basis, including selecting agencies that serve urban, suburban, and rural districts.

"(2) MINIMUM.—The Secretary shall award a grant under this subpart to not less than 1 agency serving a population with a significant percentage of students at-risk.

"(3) PRIORITY.—In awarding grants under this subpart, the Secretary may give priority to State educational agencies and local educational agencies in the application submitted under subsection (a) that the State has a policy of equitable disbursement of educational funds among school districts in the State.

"(c) QUALIFICATIONS.—To qualify for a grant under this subpart, a State educational agency or local educational agency shall—
"(1) in the case of a State educational agency, have submitted a State plan under section 1414(a) that is approved by the Secretary;
"(2) in the case of a local educational agency, have submitted an application under section 1425 that is approved by the State educational agency;

"(d) MATCHING REQUIREMENT.—
"(1) IN GENERAL.—Grant funds provided under this subpart shall not constitute more than 35 percent of the cost of the demonstration project funded.

"(2) SOURCE OF FUNDS.—Matching funds for grants under this subpart may be derived from amounts available under section 265, or part B of title II, of the Juvenile Justice and Delinquency Prevention Act of 1974.

"(3) PRIORITY.—In awarding grants under this subpart, the Secretary may give priority to grants that—
"(1) are to carry out this subpart $15,000,000 for each of fiscal years 2005, 2006, and 2007.

"(4) EVALUATION BY THE SECRETARY.—The Secretary shall comparatively evaluate each of the demonstration projects funded under this subpart, including an evaluation of the effectiveness of private sector educational services, and shall report the findings of the evaluation to the Committee on Education and the Workforce of the House of Representatives and the Committee on the Judiciary and Health, Education, Labor and Pensions of the Senate not later than June 30, 2005.

"SEC. 1443. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to carry out this subpart $15,000,000 for each of fiscal years 2005, 2006, and 2007.

**Subtitle D—Parenting as Prevention**

SEC. 341. SHORT TITLE.

This subtitle shall be cited as the "Parenting as Prevention Act.

SEC. 342. ESTABLISHMENT OF PROGRAM.

The Secretary of Health and Human Services, in consultation with the Attorney General, the Secretary of Education, the Secretary of Housing and Urban Development, the Secretary of Labor, the Secretary of Agriculture, and the Secretary of Defense shall establish a parenting support and education program as provided in sections 343, 344, and 345.

SEC. 343. NATIONAL PARENTING SUPPORT AND EDUCATION COMMISSION.

(a) ESTABLISHMENT.—The Secretary of Health and Human Services shall establish a National Parenting Support and Education Commission (hereinafter referred to as the "Commission") to identify the best practices for parenting and to provide practical parenting advice for parents and caregivers based on the best available research data.

(b) MEMBERSHIP OF COMMISSION.—The Secretary shall appoint the Commission after consultation with the cabinet members identified in section 342. The Commission shall consist of the following members—

(1) an adolescent representative;

(2) a parent representative;

(3) an expert in brain research;

(4) experts in child development, youth development, early childhood education, primary education, and secondary education;

(5) an expert in children's mental health;

(6) an expert on children's health and nutrition;

(7) an expert on child abuse prevention, diagnosis, and treatment;

(8) a representative of parenting support programs;

(9) a representative of parenting education;

(10) a representative from law enforcement;

(11) an expert on firearm safety programs;

(12) a representative from a nonprofit organization that delivers services to children and their families which may include a faith based organization; and

(13) such other representatives as the Secretary deems necessary.

(c) DURATION OF COMMISSION.—The Commission shall—

(1) identify best parenting practices for parents and caregivers of young children on topics including but not limited to brain stimulation, developing healthy attachments and social relationships, anger management and conflict resolution, character development, discipline, access to television and other entertainment including computers, firearms safety, mental

SEC. 344. STATE AND LOCAL PARENTING SUPPORT AND EDUCATION ACT.

(a) STATE ALLOTMENTS.—The Secretary shall make allotments to eligible States to support parenting support and training programs. Each State shall receive an amount that is in proportion to the number of children in the State bears to the total number of children in all States, but no State shall receive less than one-half of one percent of the amount appropriated as the total number of children in all States, but no State shall receive less than one-half of one percent of the amount appropriated as the total number of children in each region.

(b) STATE PARENTING SUPPORT AND EDUCATION COUNCIL.—To be eligible to receive Federal funding, the Governor of each State shall appoint a State Parenting Support and Education Commission (hereafter referred to as the “Council”) which shall include parent representatives, representatives of the State government, representation from the State legislature, representatives from local communities, and interested children’s organizations, except that the Governor may designate an entity including such groups. The Council shall conduct a needs and resources assessment of parenting support and education programs in the State to determine whether they are lacking or inadequate and identify what additional programs are needed and which programs require additional resources. It shall consider the findings and recommendations of the Parenting Commission in making those determinations. Upon completion of the assessment, the Council may consider grant applications from nonprofit entities described in section 419(4)(B) of the Social Security Act, as amended, to provide statewide programs, from local communities including schools, and from nonprofit service providers including for-profit corporations.

(c) GRANTS.—Grants may be made for:

(1) Parenting support to promote early brain development and childhood development and education including—

(A) assistance to schools to offer classroom instruction on brain stimulation, child development, and early childhood education;

(B) strong programs developed by the Commission or another entity that reflect best parenting practices;

(C) development and distribution of referral information and services available to children and families at the local level, including eligibility criteria;

(D) voluntary hospital visits for postpartum women and in-home visits for families with infants, toddlers, or newly adopted children to provide hands-on training and one-on-one instruction on brain stimulation, child development, and early childhood education;

(E) parenting education programs including training with respect to the best parenting practices described in subsection (c).

(2) Parenting support for adolescents and youth including funds for services and support for parents and other caregivers of young people being served by a range of education, social service, mental health, health, runaway and homeless youth programs. Programs may include the Boys and Girls Club, YMCA and YWCA, after school programs, 4-H programs, or other community based organizations. Eligible activities may include parent-caregiver support groups, peer support groups, counseling, classes, seminars or discussion groups on problems facing adolescents, advocates and mentors to help parents understand and work with schools, the community, and other community programs.

(3) Parenting support and education resource centers including—

(A) development of parenting resource centers which may serve as a single point of contact for the provision of comprehensive services available to children and their families including Federal, State, and local government and nonprofit services available to children. Such services may include child care, respite care, pediatric care, child abuse prevention programs, nutrition programs, counseling programs, recreation, enrichment, and safety training programs, caregiver training and education, and other related programs;

(B) a national toll free anonymous parent hot line with 24 hour availability and advice including referral to local community based services;

(C) respite care for parents with children with special needs, single mothers, and at-risk youth.

(d) REPORTING.—Each entity that receives a grant under this section shall submit a report every 2 years to the Council describing the program it has developed, the number of parents and children served, and the impact of the program using specific performance measures.

(e) ADMINISTRATIVE COSTS.—Not more than 5 percent of the amounts received by a State may be used to pay the administrative expenses of the Council in implementing the grant program.

(f) SUPPLEMENT NOT SUPPLANT.—Funds appropriated pursuant to this section shall be used to supplement and not supplant other Federal, State, and local public funds expended for parenting support and education programs.

(g) AUTHORIZATION OF FUNDS.—There is authorized to be appropriated such sums as are necessary for fiscal year 2000 and subsequent fiscal years.

SEC. 345. GRANTS TO ADDRESS THE PROBLEM OF VIOLENCE RELATED STRESSES TO PARENTS AND CHILDREN.

(a) FINDINGS.—The Congress finds that a child’s brain is wired between the ages of 0–3. A child’s ability to learn, develop healthy family and social relationships, resist peer pressure, and control violent impulses depends on the quality and quantity of brain stimulation he receives. Research shows that children exposed to negative brain stimulation in the form of physical and sexual abuse and violence in the community causes the brain to be miswired making it difficult for the child to be successful in life. Intervention early in a child’s life to correct this miswiring is much more successful than adult rehabilitation efforts.

(b) IN GENERAL.—The Secretary shall award grants, enter into contracts or cooperative agreements to public and nonprofit private entities, as well as to Indian tribes, Native Hawaiians, and Alaska Native nonprofit corporations to establish national and regional centers of excellence on psychological trauma response and to identify the best practices for treating psychiatric and behavioral disorders associated with psychological trauma. The Secretary shall give priority to programs that work with children, adolescents, adults, and families who are survivors and witnesses of child abuse, domestic, school, and community violence.

(d) GEOGRAPHICAL DISTRIBUTION.—The Secretary shall ensure that grants, contracts, or cooperative agreements under subsection (a) are awarded to centers of excellence distributed equitably among the regions of the country and among urban and rural areas.
CONGRESSIONAL RECORD—SENATE
May 26, 1999

TITLE IV—VOLUNTARY MEDIA AGREEMENTS FOR CHILDREN'S PROTECTION

Subtitle A—Children and the Media

SEC. 401. SHORT TITLE

This subtitle may be cited as the "Children's Protection Act of 1999".

SEC. 402. FINDINGS.

Congress makes the following findings:

(1) Television is seen and heard in nearly every United States home and is a pervasive presence in the daily lives of Americans. The average American home has 2.5 televisions, and a television is turned on 2.5 hours every day.

(2) Television plays a particularly significant role in the lives of children. Figures provided by Nielsen Research show that children between the ages of 2 years and 11 years spend an average of 21 hours in front of a television each week.

(3) Television has an enormous capability to influence perceptions, especially those of children, of the values and behaviors that are common and acceptable in society.

(4) The influence of television is so great that its images and messages often can be harmful to the development of children. Social science research amply documents a strong correlation between the exposure of children to televised violence and a number of behavioral and psychological problems.

(5) Studies have proven conclusively that children who are consistently exposed to violence on television have a higher tendency to exhibit violent and aggressive behavior, both as children and later in life.

(6) Such studies also show that repeated exposure to violent programming causes children to become desensitized to and more accepting of real-life violence and to grow more fearful and less trusting of their surroundings.

(7) A growing body of social science research suggests that exposure to violent content on television can have a significant influence on the attitudes and behaviors of young viewers. This research suggests that heavy exposure to programming with strong sexual content contributes to the early commencement of sexual activity among teenagers.

(8) Members of the National Association of Broadcasters contributed to a comprehensive code of conduct that was based on an understanding of the influence exerted by television and on a widely held sense of responsibility for using that influence constructively.

(9) This code of conduct, the Television Code of the National Association of Broadcasters, articulated this sense of responsibility as follows:

(A) "In selecting program subjects and themes, great care must be exercised to be sure that the presentation are made in good faith and not for the purpose of sensationalism or to shock or exploit the audience or appeal to prurient interests or morbid curiosity."

(B) "Broadcasters have a special responsibility toward children. Programs designed primarily for children should take into account the range of interests and needs of children, from instructional and cultural material to a wide variety of entertainment material. In their totality, programs should contribute to the development of children to help them achieve a sense of the world at large and informed adjustments to their society."

(C) "Violence or psychological, may only be projected in responsibly handled contexts, not used exploitatively. Programs involving violence present the consequences of it to its victims and perpetrators. Presentation of the details of violence should avoid the excessive, the gratuitous and the instructional."

(D) "The presentation of marriage, family, and similarly important human relationships, and material with sexual connotations, shall not be treated exploitatively or irresponsibly."

(E) "Above and beyond the requirements of the law, broadcasters must consider the family atmosphere in which many of their programs are viewed. There shall be no graphic portrayal of sexual acts by sight or sound. The portrayal of implied sexual acts must be essential to the plot and presented in a responsible and tasteful manner."

(F) "The presentation of marriage, family, and similarly important human relationships, and material with sexual connotations, shall not be treated exploitatively or irresponsibly."

(G) "Violence, physical, or psychological, is a significant and important factor in the lives of children. Properly handled, violence can enhance the demand for, and increase the output of, industry's products or services."

(H) "Members of the National Association of Broadcasters have a clear obligation to meet the educational and informational needs of children."

(I) "Despite these efforts to respond to public concern about the impact of violence on television, millions of Americans, especially the most popular, are extremely violent. One recent study by Strategic Research Research found that 64 percent of teenagers played video or personal computer games on a regular basis. Other surveys of well children as young as elementary school age found that almost half of them list violent computer games among their favorites."

(2) Violent video games often present violence in a glamorized light. Game players are often cast in the role of shooter, with points scored for each "kill". Similarly, advertising for such games often touts violent content as a selling point—the more graphic and extreme, the better.

(3) The popularity of video and personal computer games (PC) games is growing rapidly among children. Although most popular video and personal computer games are educational or harmless in nature, many of the most popular are extremely violent. One recent study by Strategic Research Research found that 64 percent of teenagers played video or personal computer games on a regular basis. Other surveys of well children as young as elementary school age found that almost half of them list violent computer games among their favorites.

(4) Violent video games often present violence in a glamorized light. Game players are often cast in the role of shooter, with points scored for each "kill". Similarly, advertising for such games often touts violent content as a selling point—the more graphic and extreme, the better.

(5) The National Association of Broadcasters abandoned the code of conduct, programming standards on broadcast and cable television have deteriorated dramatically.

(6) In the absence of effective programming standards, public concern about the impact of television on children, and on society as a whole, has risen substantially. Polls confirm that 89 percent of Americans are worried by the increasingly graphic nature of sex, violence, and vulgarity on television and by the amount of programming that openly sanctions or glorifies criminal, antisocial, and degrading behavior.

(7) At the urging of Congress, the television industry has taken some steps to respond to public concerns about programming standards and content. The broadcast television industry agreed in 1992 to adopt a set of voluntary programming standards that "proscribe gratuitous or excessive portrayals of violence". Shortly thereafter, both the broadcast and cable television industries agreed to conduct independent audits of the violent content in their programming and make those reports public.

(8) In 1996, the television industry as a whole made a commitment to develop a comprehensive rating system to label programming that may be harmful or inappropriate for children. That system was implemented at the beginning of 1999.

(9) The Children's Television Act of 1990 (Public Law 101–437) states that television broadcasters in the United States have a clear obligation to meet the educational and informational needs of children.

(10) The National Association of Broadcasters abandoned the code of conduct in 1993 after three provisions of the code restricting the conduct of violence were not approved by the Department of Justice on antitrust grounds and a Federal district court issued a summary judgment against the National Association of Broadcasters regarding one of the provisions on those grounds. However, none of the programming standards of the code were challenged.

(11) While the code of conduct was in effect, its programming standards were never found to have violated any antitrust law.

(12) Since the National Association of Broadcasters abandoned the code of conduct, programming standards on broadcast and cable television have deteriorated dramatically.

(13) In the absence of effective programming standards, public concern about the impact of television on children, and on society as a whole, has risen substantially. Polls confirm that 89 percent of Americans are worried by the increasingly graphic nature of sex, violence, and vulgarity on television and by the amount of programming that openly sanctions or glorifies criminal, antisocial, and degrading behavior.

(14) At the urging of Congress, the television industry has taken some steps to respond to public concerns about programming standards and content. The broadcast television industry agreed in 1992 to adopt a set of voluntary programming standards that "proscribe gratuitous or excessive portrayals of violence". Shortly thereafter, both the broadcast and cable television industries agreed to conduct independent audits of the violent content in their programming and make those reports public.

(15) In 1996, the television industry as a whole made a commitment to develop a comprehensive rating system to label programming that may be harmful or inappropriate for children. That system was implemented at the beginning of 1999.

(16) Despite these efforts to respond to public concern about the impact of violence on television on children, millions of Americans, especially the most popular, are extremely violent. One recent study by Strategic Research Research found that 64 percent of teenagers played video or personal computer games on a regular basis. Other surveys of well children as young as elementary school age found that almost half of them list violent computer games among their favorites.

(17) Music is another extremely pervasive and popular form of entertainment. American children and teenagers listen to music more than any other demographic group. The Journal of America reported that between the 7th and 12th grades the average teenager listens to 10,500 hours of rock
or rap music, just slightly less than the entire population in the lower classroom from kindergarten through high school. (24) Teens are among the heaviest purchasers of music, and are most likely to favor music genres that depict, and often appear to glamorize violence.

(25) Music has a powerful ability to influence perceptions, attitudes, and emotional state, and as therapy indicates its potential to increase emotional, psychological, and physical health. That influence can be used for ill as well.

SEC. 403. PURPOSES; CONSTRUCTION.
(a) Purposes.—The purposes of this subtitle are to permit the entertainment industry—
(1) to work collaboratively to respond to growing public concern about television programming, movies, games, music content, and rap lyrics on children; (2) to develop a set of voluntary programming guidelines similar to those contained in the Television Code of the National Association of Broadcasters; and (3) to implement the guidelines in a manner that alleviates the negative impact of television programming, movies, video games, Internet content, and music lyrics that in addition to the authority to restrict such programming, movies, games, content, or lyrics that is in addition to any actions undertaken for that purpose by the Federal Government under law as of such date.

SEC. 404. EXEMPTION OF VOLUNTARY AGREEMENTS ON GUIDELINES FOR CERTAIN ENTERTAINMENT MATERIAL FROM APPLICABILITY OF ANTITRUST LAWS.
(a) Exemption.—Subject to subsection (b), the antitrust laws shall not apply to any joint discussion, consideration, review, action, or agreement by or among persons in the entertainment industry for the purpose of developing and disseminating voluntary guidelines designed—
(1) to alleviate the negative impact of telecast material, movies, video games, Internet content, and music lyrics containing violence, sexual content, criminal behavior, or other subjects that are not appropriate for children; or (2) to promote telecast material that is educational, informational, or otherwise beneficial to the development of children.
(b) Limitation.—The exemption provided in subsection (a) shall not apply to any joint discussion, consideration, review, action, or agreement which—
(1) results in a boycott of any person; or (2) concerns the purchase or sale of advertising, license, content, or other content, or otherwise restricted on the number of products that may be advertised in a commercial, the number of times a program may be interrupted for commercials, and the number of consecutive commercials permitted within each interruption.

SEC. 405. EXEMPTION OF ACTIVITIES TO ENSURE COMPLIANCE WITH RATINGS AND LABELING SYSTEMS FROM APPLICABILITY OF ANTITRUST LAWS.
(a) Exempt Programs.—The antitrust laws shall not apply to any joint discussion, consideration, review, action, or agreement between or among persons in the motion picture, recording, or video game industry for the purpose of and limited to the development or enforcement of voluntary guidelines, procedures, or mechanisms designed to ensure compliance by persons and entities described in paragraph (2) with ratings and labeling systems to identify and limit dissemination of sexual, violent, or other indecent material to children.

(b) Persons and Entities Described.—A person or entity described in this paragraph is a person or entity that is—
(1) engaged in the retail sales of motion pictures, recordings, or video games; or (2) a theater owner or operator, video game area owner or operator, or other person or entity that makes available the viewing, listening, or use of a motion picture, recording, or video game to a member of the general public.

(b) Report.—Not later than 12 months after the date of the enactment of this Act, the Antitrust Division of the Department of Justice, in conjunction with the Federal Trade Commission, shall submit to Congress a report on—
(1) the extent to which the motion picture, recording, or video game industry, and the interactive computer industries, have developed or enforced guidelines, procedures, or mechanisms to ensure compliance by persons and entities described in subsection (b)(2) with ratings and labeling systems which identify and limit dissemination of sexual, violent, or other indecent material to children; and (2) the extent to which Federal or State antitrust laws preclude those industries from developing and enforcing the guidelines described in subsection (b)(1).

SEC. 406. DEFINITIONS.
In this subtitle—
(1) Antitrust Laws.—The term “antitrust laws” has the meaning given such term in the first section of the Clayton Act (15 U.S.C. 12) and includes the Federal Trade Commission Act (15 U.S.C. 45).
(2) Internet.—The term “Internet” means the combination of computer facilities and electromagnetic transmission media, and related equipment and software, comprising the interconnected worldwide network of computer networks that employ the Transmission Control Protocol/Internet Protocol or any successor protocol to transmit information.
(3) Movies.—The term “movies” means motion pictures.
(4) Person in the Entertainment Industry.—The term “person in the entertainment industry” means a motion picture, recording, or video game industry for the purpose of and limited to the development or enforcement of voluntary guidelines, procedures, or mechanisms designed to ensure compliance by persons and entities described in paragraph (2) with ratings and labeling systems to identify and limit dissemination of sexual, violent, or other indecent material to children.
(5) Telecast.—The term “telecast” means an program broadcast by a television broadcast station or transmitted by a cable television system.

Subtitle B—Other Matters
SEC. 411. STUDY OF MARKETING PRACTICES OF MOTION PICTURE, RECORDING, AND VIDEO/PERSONAL COMPUTER GAME INDUSTRIES.
(a) Study.—In general.—The Federal Trade Commission and the Attorney General shall conduct a study of the marketing practices of the motion picture, recording, and video/personal computer game industries.
(b) Issues examined.—In conducting the study under paragraph (1), the Commissioner and the Attorney General shall examine—
(1) the extent to which the motion picture, recording, and video/personal computer industries target the marketing of violent, sexual, or explicit, or other unsuitable material to minors, including whether such content is advertised or promoted in media outlets in which minors comprise a substantial percentage of the audience; (2) the extent to which retail merchants, movie theaters, or others who engage in the sale or rental for a fee of products of the motion picture, recording, and video/personal computer industries—
(1) have policies to restrict the sale, rental, or viewing to minors of music, movies, or video/personal computer games that are deemed inappropriate for minors under the applicable voluntary industry rating or labeling systems; and (3) the procedures compliant with such policies;
(2) whether and to what extent the motion picture, recording, and video/personal computer industries require, monitor, or encourage the enforcement of their respective voluntary industry rating or labeling systems by industry members, retail merchants, movie theaters, or others who engage in the sale or rental for a fee of the products of such industries;
(3) whether any of the marketing practices examined may violate Federal law; and (4) whether and to what extent the motion picture, recording, and video/personal computer industries are violent, sexually explicit, or otherwise unsuitable for minors for the purposes of paragraphs (2)(A), (b) the Antitrust Division of the Attorney General shall consider the voluntary industry rating or labeling systems of the industry, and the consequences, if any, of the unavailability of the products of the industry as a result of the enactment of this Act.

(b) Report.—Not later than one year after the date of the enactment of this Act, the Commissioner and the Attorney General shall submit to Congress a report on the study conducted under subsection (a).
(c) Authority.—For the purposes of the study conducted under subsection (a), the Commission may use its authority under section 6(b) of the Federal Trade Commission Act to require the filing of reports or answers in writing to specific questions, as well as to obtain information, oral testimony, documentary material, or tangible things.
SEC. 501. SPECIAL LICENSEES; SPECIAL REGISTRA-
TIONS.

(a) Definitions.—Section 921(a) of title 18, United States Code, is amended by adding at the end the following:

"(39) SPECIAL REGISTRATION.—The term 'special registration' means a registration issued under section 922(m).

(38) SPECIAL REGISTRANT.—The term 'special registrant' means a person to whom a special license has been issued.

(37) SPECIAL LICENSEE.—The term 'special licensee' means a person to whom a special license has been issued.

(36) SPECIAL LICENSE.—The term 'special license' means a gun show or event described in section 922(m).

(b) SPECIAL LICENSES; SPECIAL REGISTRATION.—Section 923 of title 18, United States Code, is amended by adding at the end the following:

"(i) Special License.—Special License.

(ii) Application.—A person who—

(iii) Desires to have access to the National Instant Check System; may submit to the Secretary an application for a special license.

(B) EFFECT OF PARAGRAPH.—Nothing in this paragraph—

(i) requires a license for conduct that did not require a license before the date of enactment of this subsection; or

(ii) diminishes in any manner any right to display, sell, or otherwise dispose of firearms, make repairs or engage in any other conduct or activity, that was otherwise lawful to engage in without a license before the date of enactment of this subsection.

(C) CONTENTS.—An application under subparagraph (A) shall—

(i) contain a certification by the applicant that—

(ii) the applicant meets the requirements of subparagraphs (A) through (D) of subsection (d)(1); and

(iii) (aa) the applicant conducts the firearm business primarily or solely at gun shows, and the applicant has premises (or a designated portion of premises) that may be inspected under this chapter from which the applicant conducts business (or intends to establish such premises) within a reasonable period of time; or

(bb) the applicant conducts the firearm business from a premises (or a designated portion of premises) of a gunsmith or firearm repair business (or intends to establish such premises within a reasonable period of time); and

(iii) the firearm business to be conducted under the license;

(iv) (aa) is engaged in business for regularly buying and selling firearms from the applicant's premises;

(bb) will be engaged in the buying or selling of firearms only at gun shows; or

(AA) primarily or solely for a firearm business at gun shows; or

BB) as a part of a gunsmith or firearm repair business;

(cc) shall be conducted in accordance with all dealer recordkeeping required under this chapter for a dealer;

(dd) the gun show or event inspection under this chapter, including the special licensee's (or a designated portion of the premises), pursuant to the provisions in this chapter applicable to dealers;

(ii) include a photograph and fingerprints of the applicant; and

(iii) be in such form as the Secretary shall require.

(D) COMPLIANCE WITH STATE OR LOCAL LAW.—

(i) In General.—An applicant under subparagraph (A) shall not be required to certify or demonstrate that any firearm business to be conducted from the premises or elsewhere, to the extent permitted under this subsection, is or will be done in accordance with State or local law regarding the carrying on of a general business or commercial activity, including compliance with zoning restrictions.

(ii) Duty to Comply.—The issuance of a special license does not relieve an applicant or licensee, as a matter of State or local law, from complying with State or local law described in clause (i).

(E) APPROVAL.—

(i) In General.—The Secretary shall approve or disapprove an application under subparagraph (A) if the application meets the requirements of subparagraph (D).

(ii) Issuance of License.—On approval of the application and payment by the applicant of a fee prescribed for use by a special registrant, a special registrant may conduct instant checks during the 3-year period that begins with the date on which the license is issued.

(iii) Payment of Fee.—

(I) In General.—An applicant under this section, a special registrant may conduct instant checks during the 3-year period that begins with the date on which the registration is issued.

(II) Payment of Fee.—

(aa) the applicant may conduct instant checks during the 3-year period that begins with the date on which the registration is issued.

(bb) instant checks will be conducted only if the applicant is not prohibited by State or local law from possessing a firearm at a gun show in the person's State; and

(cc) shall be conducted in accordance with the provisions of title 18, United States Code, relating to background checks.

(iv) Special Registrants.—

(A) In General.—A person who is not licensed under this chapter (other than a licensed collector) and who wishes to perform activities that the Secretary determines will require the use of the National Instant Background Check System may apply for a special registration.

(B) Contents.—An application under subparagraph (A) shall—

(i) contain a certification by the applicant that—

(ii) the applicant meets the requirements of subparagraphs (A) through (D) of subsection (d)(1); and

(iii) (aa) any gun show at which the applicant conducts business during the 3-year period that begins on the date on which the license is issued.

(C) APPROVAL.—

(i) In General.—The Secretary shall approve or deny an application under subparagraph (A) not later than 60 days after the Secretary receives the application.

(ii) Failure to Act.—If the Secretary fails to approve or disapprove an application under subparagraph (A) within the time specified by clause (i), the applicant may bring an action under section 1361 of title 28 to compel the Secretary to act.

(3) USE OF SPECIAL REGISTRANTS.—

(i) In General.—A person not licensed under this chapter who desires to transfer a firearm at a gun show in the person's State of residence to another person who is a resident of the same State, may use (but shall be required to use) the services of a special registrant to determine the eligibility of the prospective transferee to possess a firearm by having the transferee provide the special registrant at the gun show, on a special and limited-purpose form that the Secretary shall prescribe for use by a special registrant—

(A) the name, address, and other identifying information of the prospective transferee (or, in the case of a prospective transferee that is a corporation or other business entity, the identity and principal and local place of business of the prospective transferee); and

(B) proof of verification of the identity of the prospective transferee as required by section 922(t)(1)(C).

(ii) Action by the Special Registrant.—The special registrant shall—

(A) make inquiry of the national instant background check system or as the Attorney General shall arrange, with the appropriate State point of contact agency for each jurisdiction in which the special registrant intends to offer services) concerning the prospective transferee in accordance with the established procedures for making such inquiries;

(B) receive the response from the system;

(C) indicate the response on both a portion of the inquiry form for the records of the special registrant and on a separate form to be provided to the prospective transferee;

(D) provide the response to the transferee; and

(E) follow the procedures established by the Secretary and the Attorney General for advising a person undergoing an instant background check on the meaning of a response and any applicable restrictions if applicable.

(4) RECORDKEEPING.—A special registrant shall—

(A) keep all records or documents that the special registrant collected pursuant to clause (ii) during the gun show; and

(B) transmit the records to the Secretary when the special registration is no longer valid; expires, or is revoked.

(iv) No other requirements.—Except for the requirements stated in this section, a
special registrant is not subject to any of the requirements imposed on licensees by this chapter, including those in section 922(t) and paragraphs (1)(A) and (3)(A) of subsection (g) with respect to the proposed transfer of a firearm.

5. NO CAUSE OF ACTION OR STANDARD OF CONDUCT.—

(A) IN GENERAL.—Nothing in this subsection shall create a cause of action against any special registrant or any other person, including the transferee, for any civil liability; or

(B) EVIDENCE.—Notwithstanding any other provision of law, except to the extent that it gives effect to the provisions of paragraph (3)(vi), evidence regarding the use or nonuse by a transferee of the services of a special registrant under this paragraph shall not be admissible as evidence in any proceeding of any court, agency, board, or other entity for the purposes of establishing liability based on a cause of action brought on any theory for harm caused by a product or by negligence.

6. IMMUNITY.—

(A) DEFINITION.—In this paragraph:

(i) the term ‘qualified civil liability action’ means a civil action brought by any person against a gun show or event, for civil damages or injunctive relief, as defined in section 552a(b)(10) of title 5, United States Code, based on a cause of action that is based on the use or nonuse by a person of a firearm;

(ii) the term ‘firearm exhibitor’ means a person who displays a firearm at a gun show or an event in the State specified on the license.

(B) IMMUNITY.—Notwithstanding any other provision of law, no court, agency, board, or other entity for the purposes of establishing liability based on a cause of action brought on any theory for harm caused by a product or by negligence, any court, agency, board, or other entity for the purposes of establishing liability based on a cause of action brought on any theory for harm caused by a product or by negligence.

7. Qualification for Immunity.—

(A) IN GENERAL.—A firearm exhibitor may be immune from any civil liability action brought against it by any person if the firearm exhibitor

(i) the gun show or event is one which is conducted under this subsection and

(ii) the gun show or event has 30 percent or more firearm exhibitors out of all exhibitors.

(B) FIREARM EXHIBITOR.—The term ‘firearm exhibitor’ means any person who displays 1 or more firearms (as defined by section 921(a)(3)) and offers such firearms for sale or trade at the gun show or event.

(C) PERMISSIBILITY.—Nothing in this subsection shall be construed to prevent a firearm exhibitor from charging fees to any person or entity for the services of a person described in clause (i) or (ii) of paragraph (7) of section 923 of title 18, United States Code, as amended by adding the following:

"(a) the fee in connection with any firearm check required in connection with the transfer of a firearm;"

(D) LICENSED EXHIBITOR.—The term ‘licensure’ means a person who is licensed to conduct a gun show or an event in the State specified on the license of each licensee.

(E) NO REQUIREMENT.—Nothing in this subsection shall be construed to require a firearm exhibitor or other person to provide services for the purpose of conducting a gun show or an event.

(F) AUTHORIZATION.—Nothing in this subsection shall prevent a firearm exhibitor from offering any other service to any person or entity.

(G) no EFFECT.—Nothing in this subsection shall prevent a firearm exhibitor from offering any other service to any person or entity.

(H) IMMUNITY.—Notwithstanding any other provision of law, no court, agency, board, or other entity for the purposes of establishing liability based on a cause of action brought on any theory for harm caused by a product or by negligence, any court, agency, board, or other entity for the purposes of establishing liability based on a cause of action brought on any theory for harm caused by a product or by negligence.

(I) DEFINITION.—In this subsection:

(i) the term ‘qualified civil liability action’ means a civil action brought by any person against a gun show or event, for civil damages or injunctive relief, as defined in section 552a(b)(10) of title 5, United States Code, based on a cause of action that is based on the use or nonuse by a person of a firearm;

(ii) the term ‘firearm exhibitor’ means a person who displays 1 or more firearms (as defined by section 921(a)(3)) and offers such firearms for sale or trade at the gun show or event.

(II) PERMISSIBILITY.—Nothing in this subsection shall be construed to prevent a firearm exhibitor from charging fees to any person or entity for the services of a person described in clause (i) or (ii) of paragraph (7) of section 923 of title 18, United States Code, as amended by adding the following:

"(a) the fee in connection with any firearm check required in connection with the transfer of a firearm;"

8. Protection of Gun Owner Privacy and Ownership Rights.—

(a) IN GENERAL.—No provision of law, no department, agency, or instrumentality of the United States shall—

(i) perform any national instant criminal background check on any person through the system established under section 106 of the Brady Handgun Violence Prevention Act (18 U.S.C. 922 note) (referred to in this section as the ‘system’) if the system does not require and result in the immediate destruction of all information, in any form whatsoever or in any medium, in the possession of the system, not to be prohibited by subsection (g) or (n) of section 922 of title 18, United States Code, except if specifically identified for a particular law enforcement investigation or specific criminal enforcement matter.

(b) APPLICABILITY.—Subsection (a)(1) does not apply to the retention or transfer of information relating to—

(i) any unique identification number provided by the national instant criminal background check system pursuant to section 922(c)(1)(B)(i) of title 18, United States Code, or

(ii) any right to display, sell, or otherwise dispose of firearms or ammunition that is in effect before the date of enactment of this subsection, including the right of a licensee to conduct a temporary location.

(c) CIVIL REMEDIES.—Any person aggrieved by a violation of this section may bring an action in United States district court for actual damages, punitive damages, and such other remedies as the court may determine to be appropriate, including a reasonable attorney’s fee.

9. Section 503.—

(a) IN GENERAL.—Chapter 44 of title 18, United States Code, is amended by adding at the end the following:

" §540B. Prohibition of background check fee."

(b) PROTECTION OF GUN OWNER PRIVACY AND OWNERSHIP RIGHTS.—

(1) IN GENERAL.—Chapter 44 of title 18, United States Code, is amended by adding at the end the following:

"§931. Gun owner privacy and ownership rights.

(a) IN GENERAL.—Notwithstanding any other provision of law, no department, agency, or instrumentality of the United States or officer, employee, or agent of the United States, including a State or local officer or employee acting on behalf of the United States shall—

(i) perform any national instant criminal background check on any person through any system, not to be prohibited by subsection (g) or (n) of section 922 of title 18, United States Code, except if specifically identified for a particular law enforcement investigation or specific criminal enforcement matter.

(ii) (A) the National Instant Check System index complies with the requirements of section 552a(e)(5) of title 5, United States Code; and

(B) does not invoke the exceptions under subsection (j)(2) or paragraph (2) or (3) of subsection (k) of section 552a of title 5, United States Code, except if specifically identified for a particular law enforcement investigation or specific criminal enforcement matter.

(B) APPLICABILITY.—Subsection (a)(1) does not apply to the retention or transfer of information relating to—

(i) any unique identification number provided by the national instant criminal background check system pursuant to section 922(c)(1)(B)(i) of title 18, United States Code, or

(ii) any right to display, sell, or otherwise dispose of firearms or ammunition that is in effect before the date of enactment of this subsection, including the right of a licensee to conduct a temporary location.

(c) CIVIL REMEDIES.—Any person aggrieved by a violation of this section may bring an action in United States district court for actual damages, punitive damages, and such other remedies as the court may determine to be appropriate, including a reasonable attorney’s fee."
SEC. 601. PENALTIES FOR UNLAWFUL ACTS BY JUVENILES: OTHER TRANSACTIONS.—

(a) JA VENILE WEAPONS PENALTIES.—Section 922(q) of title 18, United States Code, is amended by adding at the end the following:

"(B) A person other than a juvenile who knowingly transfers a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon to a juvenile knowing or having reasonable cause to know that the juvenile is a juvenile (as defined in section 921(a)(6)) and that person is directing the ranching or farming activities of the juvenile; and that person is taking (on behalf of the juvenile) possession of the firearm shall also be unloaded and in a locked container or case, and during the transportation by the juvenile of that firearm, directly from the place at which such an activity described in clause (i) is to take place the firearm shall be unloaded and in a locked container or case, and during the transportation by the juvenile of that firearm, directly from the place at which such an activity described in clause (i) is to take place the firearm shall be unloaded and in a locked container or case.

(b) UNLAWFUL WEAPONS TRANSFERS TO JU-VENILES.—Section 922(x) of title 18, United States Code, as amended by section 346 of this Act, is further amended by inserting "other than the return of a firearm to the person from whom it was received" before "to any other person".

(c) PROVIDING AID TO A JUVENILE WHOSE FIREARMS ARE POSSESSED OR AVAILABLE.—Section 921 of this title is amended by inserting "with notice to the supervisory person of the juvenile" before "shall be prohibited by Federal, State, or local law from possessing a firearm or ammunition".

(d) PROVISION RELATING TO PAWN AND ACCESS TO CERTAIN FIREARMS.—Section 503 of title 18, United States Code, is amended by inserting "other than the return of a firearm to the person from whom it was received" before "to any other person".

(e) OTHER TRANSACTIONAL PENALTIES.—Section 655 of title VI of the Treadway-Ryan Governmental Salute Improvements Act, 1999 (112 Stat. 2681-330) is repealed.

(f) RETURN OF FIREARM.—Section 922(t)(1) of title 18, United States Code, is amended by inserting "(2) Return of firearm.—Section 922(t)(1) of title 18, United States Code, is amended by inserting "other than the return of a firearm to the person from whom it was received" before "to any other person".

(g) TITLE VI—RESTRICTING JUVENILE ACCESS TO CERTAIN FIREARMS.

SEC. 601. PENALTIES FOR UNLAWFUL ACTS BY JUVENILES: OTHER TRANSACTIONS.—

(a) JUVENILE WEAPONS PENALTIES.—Section 922(q) of title 18, United States Code, is amended—

(1) in paragraph (4) by striking "Whoever" at the beginning of the first sentence, and inserting in lieu thereof, "Except as provided in paragraph (6) of this subsection, whoever"; and

(2) in paragraph (6), by amending it to read as follows:

"(6)(A) A juvenile who violates section 922(x) shall be fined under this title, imprisoned not more than 1 year, or both, except—

"(i) a juvenile shall be sentenced to probation on appropriate conditions and shall not be incarcerated unless the juvenile fails to comply with the conditions of probation, if—

"(I) the offense of which the juvenile is charged is possession of a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon in violation of section 922(c)(2); and

"(II) the juvenile has not been convicted in any court of an offense (including an offense under section 922(x) or a similar State law, but not including any other offense consisting of conduct that if engaged in by an adult would not constitute an offense) or adjudicated as a juvenile delinquent for conduct that if engaged in by an adult would constitute an offense; or

"(ii) a juvenile shall be fined under this title, imprisoned not more than 20 years, or both, if—

"(I) the offense of which the juvenile is charged is possession of a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon in violation of section 922(c)(2); and

"(II) during the same course of conduct in violation of section 922(c)(1) or 922(x), the juvenile, in violation of section 922(q), with the intent to carry or otherwise possess or discharge or otherwise use the handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon in the commission of a violent felony.

"(B) A minor who the transferor knows or has reason to believe is a juvenile—

"(i) if the handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon is possessed and used by the juvenile knowing or having reasonable cause to know that the juvenile is a juvenile (as defined in section 921(a)(6)) and that person is directing the ranching or farming activities of the juvenile; and that person is taking (on behalf of the juvenile) possession of the firearm shall also be unloaded and in a locked container or case, and during the transportation by the juvenile of that firearm, directly from the place at which such an activity described in clause (i) is to take place the firearm shall be unloaded and in a locked container or case, and during the transportation by the juvenile of that firearm, directly from the place at which such an activity described in clause (i) is to take place the firearm shall be unloaded and in a locked container or case; or

"(III) with respect to employment, ranching, or farming activities—

"(A) a handgun; or

"(B) a large capacity ammunition feeding device or a semiautomatic assault weapon; and

"(C) a transfer by inheritance of title (but not possession) of a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon to a juvenile; or

"(D) the possession of a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon, the possession of which is transferred to a juvenile in circumstances in which the transferor is not in violation of this subsection, shall be subject to permanent confiscation by the Government if its possession by the juvenile subsequently becomes unlawful because of the conduct of the juvenile, but shall be returned to the lawful owner where the firearm is not prohibited by Federal, State, or local law from possessing a firearm or ammunition, large capacity ammunition feeding device or semiautomatic assault weapon is no longer required by the Government for the purposes of investigation or prosecution.

(2) For purposes of this subsection, the term 'juvenile' means a person who is under the age of 18 years.

"(6)(B) A minor who the transferor knows or has reason to believe is a juvenile—

"(i) if the handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon is possessed and used by the juvenile knowing or having reasonable cause to know that the juvenile is a juvenile (as defined in section 921(a)(6)) and that person is directing the ranching or farming activities of the juvenile; and that person is taking (on behalf of the juvenile) possession of the firearm shall also be unloaded and in a locked container or case, and during the transportation by the juvenile of that firearm, directly from the place at which such an activity described in clause (i) is to take place the firearm shall be unloaded and in a locked container or case, and during the transportation by the juvenile of that firearm, directly from the place at which such an activity described in clause (i) is to take place the firearm shall be unloaded and in a locked container or case; or

"(III) with respect to employment, ranching, or farming activities—

"(A) a handgun; or

"(B) a large capacity ammunition feeding device or a semiautomatic assault weapon; and

"(C) a transfer by inheritance of title (but not possession) of a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon to a juvenile; or

"(D) the possession of a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon, the possession of which is transferred to a juvenile in circumstances in which the transferor is not in violation of this subsection, shall be subject to permanent confiscation by the Government if its possession by the juvenile subsequently becomes unlawful because of the conduct of the juvenile, but shall be returned to the lawful owner where the firearm is not prohibited by Federal, State, or local law from possessing a firearm or ammunition, large capacity ammunition feeding device or semiautomatic assault weapon is no longer required by the Government for the purposes of investigation or prosecution.

(2) For purposes of this subsection, the term 'juvenile' means a person who is under the age of 18 years.

"(6)(A) In a prosecution of a violation of this subsection, the court shall require the presence of a juvenile defendant's parent or legal guardian at all proceedings.

"(B) The court may use the contempt power to enforce subparagraph (A).

"(C) The court may excuse an appearance of a parent or legal guardian of a juvenile defendant at a proceeding in a prosecution of a violation of this subsection for good cause shown.

"(7) For purposes of this subsection only, the term 'large capacity ammunition feeding device or a semiautomatic assault weapon' means—

"(i) a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon, the possession of which is transferred to a juvenile in circumstances in which the transferor is not in violation of this subsection, shall be subject to permanent confiscation by the Government if its possession by the juvenile subsequently becomes unlawful because of the conduct of the juvenile, but shall be returned to the lawful owner where the firearm is not prohibited by Federal, State, or local law from possessing a firearm or ammunition, large capacity ammunition feeding device or semiautomatic assault weapon is no longer required by the Government for the purposes of investigation or prosecution.

"(5) For purposes of this subsection, the term 'juvenile' means a person who is under the age of 18 years.

"(6)(A) In a prosecution of a violation of this subsection, the court shall require the presence of a juvenile defendant's parent or legal guardian at all proceedings.

"(B) The court may use the contempt power to enforce subparagraph (A).

"(C) The court may excuse an appearance of a parent or legal guardian of a juvenile defendant at a proceeding in a prosecution of a violation of this subsection for good cause shown.

"(7) For purposes of this subsection only, the term 'large capacity ammunition feeding device or a semiautomatic assault weapon' means—

"(i) a handgun, ammunition, large capacity ammunition feeding device or a semiautomatic assault weapon, the possession of which is transferred to a juvenile in circumstances in which the transferor is not in violation of this subsection, shall be subject to permanent confiscation by the Government if its possession by the juvenile subsequently becomes unlawful because of the conduct of the juvenile, but shall be returned to the lawful owner where the firearm is not prohibited by Federal, State, or local law from possessing a firearm or ammunition, large capacity ammunition feeding device or semiautomatic assault weapon is no longer required by the Government for the purposes of investigation or prosecution.

"(5) For purposes of this subsection, the term 'juvenile' means a person who is under the age of 18 years.

"(6)(A) In a prosecution of a violation of this subsection, the court shall require the presence of a juvenile defendant's parent or legal guardian at all proceedings.

"(B) The court may use the contempt power to enforce subparagraph (A).

"(C) The court may excuse an appearance of a parent or legal guardian of a juvenile defendant at a proceeding in a prosecution of a violation of this subsection for good cause shown.

"(7) For purposes of this subsection only, the term 'large capacity ammunition feeding device or a semiautomatic assault weapon' means—
device’ has the same meaning as in section 921(a)(11) and includes shotguns, silencers, and any device manufactured before the effective date of the Violent Crime Control and Law Enforcement Act of 1994.’’

SEC. 602. EFFECTIVE DATE.

This title and the amendments made by this title shall take effect 180 days after the date of enactment of this Act.

TITLE VII—ASSAULT WEAPONS

SEC. 701. SHORT TITLE.

This Act may be cited as the ‘‘Juvenile Assault Weapon Loophole Closure Act of 1999’’.

SEC. 702. BAN ON IMPORTING LARGE CAPACITY AMMUNITION FEEDING DEVICES.

Section 922(w) of title 18, United States Code, is amended—

(1) in paragraph (1), by striking ‘‘(1) Except as provided in paragraph (2)’’ and inserting ‘‘(1)(A) Except as provided in subparagraph (B)’’;

(2) in paragraph (2), by striking ‘‘(2) Paragraph (1)’’ and inserting ‘‘(2) Subparagraph (A)’’;

(3) by inserting before paragraph (3) the following new paragraph (2):

‘‘(2) Public educators in the areas of education and law enforcement shall make the following information available to the public:’’;

and

(4) in paragraph (4), by striking ‘‘(1)’’ each place it appears and inserting ‘‘(1)(A)’’;

and

(B) by striking ‘‘(2)’’ and inserting ‘‘(1)(B)’’.

SEC. 703. DEFINITION OF LARGE CAPACITY AMMUNITION FEEDING DEVICE.

Section 921(a)(31) of title 18, United States Code, is amended by striking ‘‘manufactured after the date of enactment of the Violent Crime Control and Law Enforcement Act of 1994’’.

SEC. 704. EFFECTIVE DATE.

This title and the amendments made by this title except sections 702 and 703 shall take effect 180 days after the date of enactment of this Act.

TITLE VIII—EFFECTIVE GUN LAW ENFORCEMENT

Subtitle A—Criminal Use of Firearms by Felons

SEC. 801. SHORT TITLE.

This subtitle may be referred to as the ‘‘Criminal Use of Firearms by Felons (CUFF) Act’’.

SEC. 802. FINDINGS.

Congress finds the following:

(1) Tragedies such as those occurring recently in the communities of Pearl, Mississippi, Paducah, Kentucky, Jonesboro, Arkansas, Springfield, Oregon, and Littleton, Colorado are terrible reminders of the vulnerability of innocent individuals to random and senseless acts of criminal violence.

(2) The United States Congress has responded to the problem of gun violence by passing numerous criminal statutes and by supporting the development of law enforcement programs designed both to punish the criminal misuse of weapons and also to deter individuals from undertaking illegal acts.

(3) In 1998, the Administration initiated an innovative program known as Project Achilles. The concept behind the initiative was that the illegal possession of firearms was the Achilles heel or the area of greatest vulnerability of criminals. By aggressively prosecuting criminals with guns in Federal court, the Administration believed that the enforcement of existing Federal and State laws would result in a substantial decrease in the number of individuals who were subject to other penalties and expedited prosecutions. The Achilles program was particularly effective in removing the most violent criminals from our communities.

(4) In 1991, the Administration expanded its efforts to remove criminals with guns from our streets with Project Triggerlock. Triggerlock provided funds to the local law enforcement officials in the Achilles program and committed the Department of Justice resources to the prosecution effort. Under the program, every United States Attorney was directed to form special teams of Federal, State, and local investigators to look for gang and drug cases that could be prosecuted as Federal weapon violations. Congress appropriated additional funds to allow a large number of new law enforcement officers and Federal prosecutors to target these gun and drug offenders. In 1992, approximately 3700 defendants were prosecuted under this initiative.

(5) Since 1993, the number of ‘‘Project Triggerlock’’ type gun prosecutions pursued by the Department of Justice has fallen to approximately 3800 prosecutions in 1998. This is a decline of over 40 percent in Federal prosecutions of criminals with guns.

(6) The threat of criminal prosecution in the Federal criminal justice system works to deter criminal behavior because the Federal system is known for speedier trials and longer prison sentences.

(7) The deterrent effect of Federal gun prosecutions has been demonstrated recently by successful programs, such as ‘‘Project Triggerlock’’, which resulted in a 22 percent decrease in violent crime since 1994.

(8) The Department of Justice’s failure to prosecute the illegal use of guns under existing Federal law undermines the significant deterrent effect that these laws are meant to produce.

(9) The Department of Justice already possesses a vast array of Federal criminal statutes that, if used aggressively to prosecute wrongdoers, would significantly reduce both the threat of, and the incidence of, criminal gun violence.

(10) As an example, the Department of Justice has the statutory authority in section 922(q) of title 18, United States Code, to prosecute individuals who bring guns to school zones. Although the Administration stated that over 6000 students were expelled last year for bringing guns to school, the Justice Department reports having prosecuted only 8 cases under section 922(q) in 1998.

(11) The Department of Justice is also empowered by section 922(x) of title 18, United States Code, to prosecute adults who transfer handguns to juveniles. In 1998, the Department of Justice reports having prosecuted only 6 individuals under this provision.

(12) The Department of Justice’s utilization of existing prosecutorial power is 1 of the most significant steps that can be taken to reduce the number of criminal acts involving guns, and represents a better response to the problem of criminal violence than the enactment of new, symbolic laws, which, if current Departmental trends hold, would likely be underutilized.

SEC. 803. CRIMINAL USE OF FIREARMS BY FELONS PROGRAM.

(a) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Attorney General shall conduct a national survey of the jurisdictions specifically provided for in subsection (d) a program that meets the requirements of subsections (b) and (c). The program shall be known as the ‘‘Criminal Use of Firearms by Felons (CUFF) Program’’.

(b) PROGRAM ELEMENTS.—Each program established under subsection (a) shall—

(1) provide for coordination with State and local law enforcement officials in the identification of violations of Federal firearms laws;

(2) provide for the establishment of agreements with State and local law enforcement officials for the referral of the Bureau of Alcohol, Tobacco, and Firearms and the United States Attorney for prosecution of persons arrested for violations of section 922(a)(5), 922(g)(4), 922(g)(6), 922(g)(7), 922(g)(8), 922(g)(9), or 924(c) of title 18, United States Code, or section 5861(d) or 5861(h) of the Internal Revenue Code of 1986, relating to firearms;

(3) encourage the hiring of agents for the Bureau of Alcohol, Tobacco, and Firearms to investigate violations of the provisions referred to in paragraph (2) and section 922(a)(5) of title 18, United States Code, relating to firearms; and

(4) ensure that each person referred to the United States Attorney under paragraph (2) be charged with a violation of the most serious Federal firearm offense consistent with the act committed.

(c) COMMISSION.—As part of the program for a jurisdiction, the United States Attorney shall carry out, in cooperation with local civic, community, law enforcement, and religious leaders, an extensive media and public outreach campaign focused in high-crime areas to—

(1) educate the public about the severity of penalties for violations of Federal firearms laws; and

(2) encourage law-abiding citizens to report the possession of illegal firearms to authorities.

(d) COVERED JURISDICTIONS.—The jurisdictions specifically provided for in subsection (a) are the following:

(1) the 10 jurisdictions with a population equal to or greater than 100,000 persons that had the highest total number of violent crimes according to the FBI uniform crime report for 1998.

(2) the 15 jurisdictions with such a population other than that provided for in paragraph (1), with the highest per capita rate of violent crime according to the FBI uniform crime report for 1998.

SEC. 804. ANNUAL REPORTS.

Not later than one year after the date of enactment of this Act, and annually thereafter, the Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report containing the following information:

(1) the number of Assistant United States Attorneys hired under the program under this subtitle during the year preceding the year in which the report is submitted in order to prosecute violations of Federal firearms laws in Federal court;

(2) the number of individuals indicted for such violations during that year by reason of the program.

(3) the increase or decrease in the number of individuals indicted for such violations during that year by reason of the program.

(4) the number of individuals held without bond in anticipation of prosecution by reason of the program.

(5) any additional information available, the average length of prison sentence of the individuals convicted of violations of Federal firearms laws by reason of the program.

SEC. 805. AUTHORIZATION OF APPROPRIATIONS.

(a) Authorization of Appropriations.—There are authorized to be appropriated to
carry out the program under section 803(b) of title 18, United States Code; (2) $10,000,000 shall be available for the public relations campaign required by subsection (c) of that section.

(b) FOR YOUTH.—(1) The Assistant United States Attorneys hired using amounts appropriated pursuant to the authorization of appropriations in subsection (a) shall prepare reports on the prevention of Federal firearms laws in accordance with section 803(b)(3).

(2) The Bureau of Alcohol, Tobacco, and Firearms agents hired using amounts appropriated pursuant to the authorization of appropriations in subsection (a) shall, to the maximum extent practicable, concentrate their investigations on violations of Federal firearms laws in accordance with section 803(b)(4).

(3) It is the sense of Congress that amounts made available under this section for the public education campaign required by section 803(c) should, to the maximum extent practicable, be matched with State or local funds or other resources.

(c) AUTHORIZATION OF ADDITIONAL APPROPRIATIONS.—In addition to amounts made available under subsection (a), there is authorized to be appropriated to the Administrative Office of the United States Courts such sums as may be necessary to carry out this subtitle.

Subtitle D—Gun Prosecution Data

SEC. 831. COLLECTION OF GUN PROSECUTION DATA

(a) REPORT TO CONGRESS.—On February 1, 2000, and on February 1 of each year thereafter, the Attorney General shall submit to the Committees on the Judiciary and on Appropriations of the Senate and the House of Representatives a report of information gathered under this section during the fiscal year that ended on September 30 of the preceding year.

(b) SUBJECT OF ANNUAL REPORT.—Not later than 90 days after the date of enactment of this Act, the Attorney General shall require each component of the Department of Justice, including each United States Attorney’s Office, to furnish for the purposes of the report described in subsection (a), information relating to any case presented to the Department of Justice for review or prosecution, in which the objective facts of the case provide probable cause to believe that there has been a violation of section 922 of title 18, United States Code.

(c) ELEMENTS OF ANNUAL REPORT.—With respect to each case described in subsection (b), the report submitted under subsection (a) shall include information indicating—

(1) whether in any such case, a decision has been made not to charge an individual with a violation of section 922 of title 18, United States Code, or to enter a conviction against that individual;

(2) the reason for such failure to seek or obtain a charge under section 922 of title 18, United States Code;

(3) whether in any case described in subsection (b), an indictment, information, or other charge has been brought against any person, or the matter is pending;

(4) whether any plea agreement described in paragraph (5) required that the individual plead guilty, to enter a plea of nolo contendere, or otherwise cause a conviction to enter a conviction against that individual for a violation of section 922 of title 18, United States Code;

(5) in any case described in paragraph (4) in which the charging document contains a count or counts alleging a violation of section 922 of title 18, United States Code, whether a plea agreement described in paragraph (5) required that the individual plead guilty, or enter a plea of nolo contendere, or otherwise cause a conviction to be entered into with such charged individual;

(6) whether any plea agreement described in paragraph (5) required that the individual plead guilty, or enter a plea of nolo contendere, or otherwise cause a conviction to enter a conviction against that individual for a violation of section 922 of title 18, United States Code, whether a plea agreement described in paragraph (5) required that the individual plead guilty, or enter a plea of nolo contendere, or otherwise cause a conviction to be entered into with such charged individual;

Subtitle E—Firearms Possession by Violent Juvenile Offenders

SEC. 841. PROHIBITION ON FIREARMS POSSESSION BY VIOLENT JUVENILE OFFENDERS

(a) DEFINITION.—Section 922(a)(20) of title 18, United States Code, is amended—

(1) by inserting “(A)” after “(20)”;

(2) by redesignating subparagraphs (A) and (B) as clauses (1) and (2), respectively; and

(3) by inserting after subparagraph (A) the following:

“(B) For purposes of subsections (d) and (g) of section 922, the term ‘act of violent juvenile delinquency’ means an adjudication of delinquency in Federal or State court, based on a finding of the commission of an act by a person prior to his or her eighteenth birthday that, if committed by an adult, would be a serious or violent felony, as defined in section 3559(c)(2)(F)(I) had Federal jurisdiction existed and been exercised (except that section 3559(c)(2)(F)(I) shall not apply to this subparagraph);”;

(4) in the undesignated paragraph following subparagraph (B) as redesignated by paragraph (3) of this subsection, by striking “What constitutes” and all that follows through “this chapter,” and inserting the following:

“(C) What constitutes a conviction of such an act or an adjudication of an act of violent juvenile delinquency shall be determined in accordance with the law of the jurisdiction in which the proceedings were held. Any State conviction or adjudication of an act of violent juvenile delinquency that has been expunged or set aside, or for which a person has been pardoned or has had civil rights restored, by the jurisdiction in which the conviction or adjudication of an act of violent juvenile delinquency occurred shall
SEC. 851. PENALTIES FOR FIREARM VIOLATIONS INVOLVING JUVENILES.

(a) PENALTIES FOR FIREARM VIOLATIONS BY JUVENILES.—Section 922(a) of title 18, United States Code, is amended—

(1) in paragraph (4), by striking “Whoever” and inserting “Except as provided in paragraph (6), whoever”;

(b) by striking paragraph (6) and inserting—

“(i) the offense of which the juvenile is charged is possession of a handgun, ammunition, or semiautomatic assault weapon in violation of section 922(x)(2); and

(ii) during the same course of conduct in violating section 922(x)(2), the juvenile violated section 922(b)(3), with the intent to carry or otherwise possess or discharge or otherwise use the handgun, ammunition, or semiautomatic assault weapon in the commission of a violent felony.

(C) TRANSFER TO A JUVENILE.—A person other than a juvenile who knowingly violates section 922(x)—

(i) shall be fined under this title, imprisoned not less than 1 year and not more than 5 years, or both; or

(ii) if the person sold, delivered, or otherwise transferred a handgun, ammunition, or semiautomatic assault weapon to a juvenile knowing or having reasonable cause to know that the juvenile intended to carry or otherwise possess or discharge or otherwise use the handgun, ammunition, or semiautomatic assault weapon in the commission of a violent felony, be fined under this title and imprisoned not less than 10 and not more than 20 years.

(b) PROHIBITION.—Section 922 of title 18, United States Code, is amended by striking—

“A person”—

“with respect to ranching or farming activities as described in subparagraph (A)(i)(II)”—

“of an offense; and an activity took place to the transferor, the firearm is unloaded and in a locked container; or

“when a handgun, ammunition, or semiautomatic assault weapon is taken from the possession of the juvenile, has in the juvenile’s possession the prior written consent of the juvenile’s parent or guardian who is not prohibited by Federal, State, or local law from possessing a firearm or ammunition; and

“A hand gun; or

“(A) the offense of which the juvenile is charged is possession of a handgun, ammunition, or semiautomatic assault weapon in violation of section 922(x)(2); and

(b) the juvenile has not been convicted in any court of an offense (including an offense under section 922(x) or a similar State law, but not including any other offense consisting of conduct that if engaged in by an adult could not constitute an offense) or adjudicated as a juvenile delinquent for conduct that if engaged in by an adult would constitute an offense.

“(i) a handgun; and

“(A) shall require the presence of a juvenile defendant’s parent or legal guardian at all proceedings;
CONGRESSIONAL RECORD—SENATE

May 26, 1999

SEC. 905. INCREASED PENALTY FOR DRUG TRAFFICKING IN OR NEAR A SCHOOL OR OTHER PROTECTED LOCATION.

Section 419 of the Controlled Substances Act (21 U.S.C. 860) is amended—

(1) in subsection (a), by striking “one year” and inserting “3 years”; and

(2) in subsection (b), by striking “three years” and inserting “5 years”.

TITLE X—CHILD HANDGUN SAFETY

SEC. 1001. SHORT TITLE.

This title may be cited as the “Safe Handgun Storage and Child Handgun Safety Act of 1999”.

SEC. 1002. PURPOSES.

The purposes of this title are as follows:

(1) To promote the safe storage and use of handguns by consumers.

(2) To prevent unauthorized persons from gaining access to or use of a handgun, including children who may not be in possession of a handgun, unless it is under one of the circumstances provided for in the Youth Handgun Safety Act.

(3) To avoid hindering industry from supplying law-abiding citizens firearms for all lawful purposes, including hunting, self-defense, collecting and competitive or recreational shooting.

SEC. 1003. FIREARMS SAFETY.

(a) UNLAWFUL ACTS.—

(1) MANDATORY TRANSFER OF SECURE GUN STORAGE OR SAFETY DEVICE.—Section 922 of title 18, United States Code, is amended by inserting after subsection (y) the following:

“(y) SECURE GUN STORAGE OR SAFETY DEVICE.—

“(1) in general.—Except as provided in paragraph (2), it shall be unlawful for any licensed manufacturer, licensed importer, or licensed dealer to sell to any person any handgun to any person other than any person licensed under the provisions of this chapter, unless the transferee is provided with a secure gun storage or safety device, as described in section 921(a)(35) of this chapter, for that handgun.

“(2) EXCEPTIONS.—Paragraph (1) does not apply to the—

“(A) manufacture for, transfer to, or possession by the United States or a State or a department or agency of the United States, or any subdivision of a State, of a handgun; or

“(B) transfer to, or possession by, a law enforcement officer employed by an entity referred to in clause (1) of a handgun for law enforcement purposes (whether on or off duty); or

“(B) transfer to, or possession by, a law police officer employed by a rail carrier and certified or commissioned as a police officer under the laws of a State of a handgun for purposes of law enforcement (whether on or off duty); or

“(C) transfer to any person of a handgun listed as a curio or relic by the Secretary pursuant to section 921(a)(13); or

“(D) transfer to any person of a handgun for which a secure gun storage or safety device is temporarily unavailable for the reasons described in the exceptions stated in subsection (c)(2)(B).”.

SEC. 1005. PERSONS RESPONSIBLE FOR VIOLATIONS OF THIS TITLE.

The purposes of this title are as follows:

(1) To promote the safe storage and use of handguns by consumers.

(2) To prevent unauthorized persons from gaining access to or use of a handgun, including children who may not be in possession of a handgun, unless it is under one of the circumstances provided for in the Youth Handgun Safety Act.

(3) To avoid hindering industry from supplying law-abiding citizens firearms for all lawful purposes, including hunting, self-defense, collecting and competitive or recreational shooting.

SEC. 1003. FIREARMS SAFETY.

(a) UNLAWFUL ACTS.—

(1) MANDATORY TRANSFER OF SECURE GUN STORAGE OR SAFETY DEVICE.—Section 922 of title 18, United States Code, is amended by inserting after subsection (y) the following:

“(y) SECURE GUN STORAGE OR SAFETY DEVICE.—

“(1) in general.—Except as provided in paragraph (2), it shall be unlawful for any licensed manufacturer, licensed importer, or licensed dealer to sell to any person any handgun to any person other than any person licensed under the provisions of this chapter, unless the transferee is provided with a secure gun storage or safety device, as described in section 921(a)(35) of this chapter, for that handgun.

“(2) EXCEPTIONS.—Paragraph (1) does not apply to the—

“(A) manufacture for, transfer to, or possession by the United States or a State or a department or agency of the United States, or any subdivision of a State, of a handgun; or

“(B) transfer to, or possession by, a law enforcement officer employed by an entity referred to in clause (1) of a handgun for law enforcement purposes (whether on or off duty); or

“(B) transfer to, or possession by, a law police officer employed by a rail carrier and certified or commissioned as a police officer under the laws of a State of a handgun for purposes of law enforcement (whether on or off duty); or

“(C) transfer to any person of a handgun listed as a curio or relic by the Secretary pursuant to section 921(a)(13); or

“(D) transfer to any person of a handgun for which a secure gun storage or safety device is temporarily unavailable for the reasons described in the exceptions stated in subsection (c)(2)(B).”.

SEC. 1005. PERSONS RESPONSIBLE FOR VIOLATIONS OF THIS TITLE.

The purposes of this title are as follows:

(1) To promote the safe storage and use of handguns by consumers.

(2) To prevent unauthorized persons from gaining access to or use of a handgun, including children who may not be in possession of a handgun, unless it is under one of the circumstances provided for in the Youth Handgun Safety Act.

(3) To avoid hindering industry from supplying law-abiding citizens firearms for all lawful purposes, including hunting, self-defense, collecting and competitive or recreational shooting.
entitled to immunity from a civil liability action for this paragraph (2) through (4) of section 924(p) of title 18, United States Code, only if—

(A) the handgun was not accessible to the person not so authorized at the time access was gained by the person not so authorized, or

(B) the handgun had been made inaccessible by the use of a secure gun storage or safety device.

A ‘qualified civil liability action’ shall not include an action brought against the person having lawful possession and control of a handgun for negligent entrustment or negligence per se.

(C) LIABILITY; EVIDENCE.—The provisions of this subsection shall not apply to—

(1) any civil liability action or proceeding to which subparagraph (A) or (B) relates; or

(2) any claim for damages brought by any person against a person having lawful possession and control of the handgun to which subparagraph (A) or (B) relates.

SEC. 1105. NATIONAL CHARACTER ACHIEVEMENT AWARD.

(a) Establishment.—The Comptroller General shall carry out a study regarding school safety issues, including examining—

(1) incidents of school-based violence in the United States;

(2) impediments to combating school-based violence, including local, state, and Federal education and law enforcement impediments;

(3) promising initiatives for addressing school-based violence;

(4) crisis preparedness of school personnel;

(5) preparedness of local, State, and Federal law enforcement to address incidents of school-based violence; and

(6) evaluating the current school violence prevention programs.

(b) Report.—The Comptroller General shall prepare and submit to the Congress a report regarding the study conducted under paragraph (1).

SEC. 1106. SCHOOL VIOLENCE RESEARCH.

(a) School Violence Research.—The Secretary shall establish at the National Center for Rural Law Enforcement in Little Rock, Arkansas, a research center that shall serve as a resource center or clearinghouse for school violence research. The research center shall conduct, compile, and publish school violence research and otherwise conduct activities related to school violence research, including—

(1) data collection, analysis, and dissemination of data from students, schools, communities, parents, law enforcement agencies, medical providers, and others for use in efforts to improve school security and otherwise prevent school violence;

(2) the identification and development of strategies to prevent school violence; and

(3) the development of a national curriculum designed to assist local educational agencies and law enforcement agencies in the prevention of or response to school violence.

(b) Funding.—Notwithstanding any other provision of law, funds provided under titles IV and VI may be used for establishing a school uniform policy.

SEC. 1104. TRANSFER OF SCHOOL DISCIPLINARY RECORDS.

(a) Nonapplication of Provisions.—The provisions of this section shall not apply to any disciplinary records transferred from a private, parochial, or other nonpublic school, person, institution, or other entity, that provides education below the college level.

(b) Disciplinary Records.—Not later than 2 years after the date of enactment of this Act, the Secretary shall report to the Congress a study of any student who is enrolled in full-time or part-time, in the school.

SEC. 14515. SCHOOL UNIFORMS.

(a) Construction.—Nothing in this Act shall be construed to—

(1) prevent a school from establishing a school uniform policy.

SEC. 1105. NATIONAL CHARACTER ACHIEVEMENT AWARDS.

(a) Presentation Authorized.—The President is authorized, in his discretion, to present a National Character Achievement Award to individuals who meet the criteria established in subsection (b) for not less than 2 years after the date of enactment of this Act.
The Commission on Character Development (referred to in this section as the "Commission"). Any vacancy in the Commission shall not affect its powers, but shall be filled in the same manner as the original appointment.

DUTIES OF THE COMMISSION.—

(1) STUDY.—The Commission shall study and make recommendations regarding the impact of current cultural influences (as and make recommendations with respect to the impact of such influences on child development and juvenile crime; and

(2) COMPOSITION.—The President, the Speaker of the House of Representatives, and the President pro tempore of the Senate shall each appoint as members of the Commission—

(A) 1 representative of a grassroots organization;
(B) 1 student;
(C) 2 representatives of the entertainment industry (including the segments of the industry relating to audio, video, and multimedia entertainment);
(D) 2 members of the clergy;
(E) 2 representatives of the information or technology industry;
(F) 1 law enforcement official;
(G) 2 individuals who have engaged in academic research with respect to the impact of cultural influences on child development and juvenile crime; and

(H) 1 representative of a grassroots organization engaged in community and child intervention programs.

PERIOD OF APPOINTMENT.—Members shall be appointed for the life of the Commission. Any vacancy in the Commission shall not affect its powers, but shall be filled in the same manner as the original appointment.

(2) DETAIL OF GOVERNMENT EMPLOYEES.—Any Federal employee may be detailed to the Commission without reimbursement, and the detail shall be without interruption or loss of civil service status or privilege.

(3) PERMANENT COMMISSION.—Section 14 of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Commission.

(a) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for each of fiscal years 2000 and 2001.

(b) COORDINATED JUVENILE SERVICES GRANTS.

(1) IN GENERAL.—The Attorney General, in consultation with the Secretary of Health and Human Services, and with the Center for Substance Abuse of the Substance Abuse and Mental Health Services Administration, may make grants to a consortium with 501(c)(3) status or State or local juvenile justice agencies or State or local substance abuse and mental health agencies, and child service agencies to coordinate the delivery of services to children among these agencies. Any public agency may serve as the lead entity for the consortium.

(2) USE OF FUNDS.—A consortium described in subsection (a) that receives a grant under this section shall use the grant for the establishment and implementation of programs that address the service needs of adolescents with substance abuse or mental health treatment problems, including those who come into contact with the justice system by requiring the following:

(A) Collaboration across child serving systems, including juvenile justice agencies, relevant public and private substance abuse and mental health treatment providers, and State or local educational entities and welfare agencies.

(B) Appropriate screening and assessment of juveniles.

(C) Individual treatment plans.

(D) Significant involvement of juvenile judges where appropriate.

(3) APPLICATION FOR COORDINATED JUVENILE SERVICES GRANTS.

(1) IN GENERAL.—A consortium described in subsection (a) desiring to receive a grant under this section shall submit an application containing such information as the Administrator may prescribe.

(2) CONTENTS.—In addition to guidelines established by the Administrator, each application submitted under paragraph (1) shall include—

(A) certification that there has been appropriate consultation with all affected agencies and that there will be appropriate coordination with all affected agencies in the implementation of the program;

(B) for the regular evaluation of the program, funded by the grant and describe the methodology that will be used in evaluating the program;

(C) assurances that the proposed program or activity will not supplant similar programs and activities currently available in the community; and

(D) specify plans for obtaining necessary support and continuing the proposed program following the conclusion of Federal support.

(3) FEDERAL SHARE.—The Federal share of a grant under this section shall not exceed 75 percent of the cost of the program.

(4) REPORT.—Each recipient of a grant under this section during a fiscal year shall submit to the Attorney General a report regarding the effectiveness of programs established with the grant on the date specified by the Attorney General.

(5) FUNDING.—Grants under this section shall be considered an allowable use under section 205(a) and subtitle B.

SEC. 1109. BACKGROUND CHECKS.

There are authorized to be appropriated to carry out subsection (a) of section 506 of the National Child Protection Act of 1993 (42 U.S.C. 5119c) is amended—

(1) in subparagraph (A)(i), by inserting "including an individual who is employed by a school in any capacity, including as a child care provider, a teacher, or another member of school personnel" before the semicolon; and

(2) in subparagraph (B)(i), by inserting "including an individual who seeks to be employed by a school in any capacity, including as a child care provider, a teacher, or another member of school personnel" before the semicolon.

SEC. 1110. DRUG TESTS.

This section may be cited as the “School Violence Prevention Act”.

(1) in paragraph (A)(i), by striking "and" before the semicolon;

(2) by redesignating paragraph (10) as paragraph (11); and

(3) by inserting after paragraph (9) the following:

"(10) consistent with the fourth amendment to the Constitution of the United States, testing a student for illegal drug use, including as a child care provider, a teacher, or another member of school personnel before the semicolon.

SEC. 1111. SENSE OF THE SENATE.

It is the sense of the Senate that States receiving Federal elementary and secondary education funding shall require local educational agencies to conduct, for each of their employees (regardless of when hired) and prospective employees, a nationwide background check for the purpose of determining whether the employee has been convicted of a crime that bears upon his fitness to have responsibility for the safety or well-being of children, to serve in the particular

section 1201. SHORT TITLE. This title may be cited as the "Teacher Liability Protection Act of 1999".

section 1202. FINDINGS AND PURPOSE. (a) FINDINGS.—Congress makes the following findings:

(1) The ability of teachers, principals and other school professionals to teach, inspire and shape the intellect of our Nation's elementary and secondary school students is deterred and hindered by frivolous lawsuits and litigation.

(2) Each year more and more teachers, principals and other school professionals face lawsuits for actions undertaken as part of their duties to provide millions of school children quality educational opportunities.

(3) To many teachers, principals and other school professionals a safe and secure environment is an important part of the effort to improve and expand educational opportunities.

(4) Clarifying and limiting the liability of teachers, principals and other school professionals who undertake reasonable actions to maintain order, discipline and an appropriate educational environment is an appropriate subject of Federal legislation because

(A) the national scope of the problems created by the legitimate fears of teachers, principals and other school professionals about frivolous, arbitrary or capricious lawsuits against teachers; and

(B) millions of children and their families across the Nation depend on teachers, principals and other school professionals for the intellectual development of the children.

(b) PURPOSE.—The purpose of this title is to provide teachers, principals and other school professionals the tools they need to undertake and maintain order, discipline and an appropriate educational environment.

section 1203. PREEMPTION AND ELECTION OF STATE NON-APPLICABILITY. (a) PREEMPTION.—This title preempts the laws of any State to the extent that such laws are inconsistent with this title, except that this title shall not preempt any State law that provides additional protection from liability relating to teachers.

(b) ELECTION OF STATE REGARDING NON-APPLICABILITY.—This title shall not apply to any civil action in a State court against a teacher in which all parties are citizens of the State, if each State enacts a statute in accordance with State requirements for enacting legislation—

(1) citing the authority of this subsection;

(2) containing no other provisions.

section 1204. LIMITATION ON LIABILITY FOR TEACHERS.

(a) LIABILITY PROTECTION FOR TEACHERS.—Except as provided in subsections (b) and (d), no teacher shall be liable for harm caused by an act or omission of the teacher on behalf of the school if—

(1) the teacher was acting within the scope of the teacher's employment or responsibilities related to providing educational services;

(2) the actions of the teacher were carried out in conformity with the laws, rules, regulations or resolutions in furtherance of efforts to control, discipline, expel, or suspend a student or maintain order or control in the classroom or school;

(3) the conduct of the teacher required, the teacher was properly licensed, certified, or authorized by the appropriate authorities for the activities or practice in the State in which the harm occurred, where the activities were or practice was undertaken within the scope of the teacher's responsibilities;

(4) the harm was not caused by willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed by the teacher; and

(5) the harm was not caused by the teacher operating a motor vehicle, vessel, aircraft, or other vehicle for which the State requires the operator or the owner of the vehicle, craft, or vessel to—

(A) possess an operator's license; or

(B) maintain insurance.

(b) LIMITATION ON PUNITIVE DAMAGES BASED ON THE ACTIONS OF TEACHERS.—(1) GENERAL RULE.—Punitive damages may not be awarded against a teacher in an action brought by a school or governmental entity against any teacher of such school.

(2) PERCENTAGE OF RESPONSIBILITY.—For purposes of determining the amount of non-economic loss allocated to a defendant who is a teacher under this section, the trier of fact shall determine the percentage of responsibility of that defendant for the claimant's harm.

section 1206. DEFINITIONS.

For purposes of this title:

(1) ECONOMIC LOSS.—The term "economic loss" means any pecuniary loss resulting from harm (including the loss of earnings or other benefits related to employment, medical expense loss, replacement services loss, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation and all other nonpecuniary losses of any kind or nature.

(2) HARM.—The term "harm" includes physical, nonphysical, economic, and non-economic losses.

(3) NON-ECONOMIC LOSSES.—The term "non-economic losses" means losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation and all other nonpecuniary losses of any kind or nature.

(4) SCHOOL.—The term "school" means a public or private kindergarten, a public or private elementary school or secondary school (as defined in section 14101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 1221)), or a home school.

(5) STATE.—The term "State" means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, the Commonwealth of the Northern Mariana Islands, any other territory or possession of the United States, or any political subdivision of any State, territory, or possession.

(6) TEACHER.—The term "teacher" means a teacher, instructor, principal, administrator,
or other educational professional, that works in a school.

SEC. 1207. EFFECTIVE DATE.
(a) IN GENERAL.—This title shall take effect 90 days after the date of enactment of this Act.
(b) APPLICATION.—This title applies to any claim for harm caused by an act or omission of a teacher where that claim is filed on or after the effective date of this Act, without regard to whether the harm that is the subject of the claim or the conduct that caused the harm occurred before such effective date.

TITLE XIII—VIOLENCE PREVENTION TRAINING FOR EARLY CHILDHOOD EDUCATORS

SEC. 1301. SHORT TITLE.
This title may be cited as the "Violence Prevention Training for Early Childhood Educators Act.

SEC. 1302. PURPOSE.
The purpose of this title is to provide grants to institutions that carry out early childhood education training programs to enable the institutions to include violence prevention training as part of the preparation of individuals pursuing careers in early childhood development and education.

SEC. 1303. FINDINGS.
Congress makes the following findings:
(1) Aggressive behavior in early childhood is the single best predictor of aggression in later life.
(2) Aggressive and defiant behavior predictive of later delinquency is increasing among our Nation's youngest children. Without prevention efforts, higher percentages of juveniles are likely to become violent juvenile offenders.
(3) Research has demonstrated that aggression is primarily a learned behavior that develops through observation, imitation, and direct experience. Therefore, children who experience violence as victims or as witnesses are at increased risk of becoming violent themselves.
(4) In a study at a Boston city hospital, 1 out of every 10 children seen in the primary care clinic and a study at a hospital for stabbing a child before the age of 6, with 50 percent of the children witnessing the homicide and 50 percent of the children witnessing the street.
(5) A study in New York found that children who had been victims of violence within their families were 24 percent more likely to report violent behavior as adolescents, and adolescents who had grown up in families where partner violence occurred were 21 percent more likely to report violent delinquency than individuals not exposed to violence.
(6) Aggression can become well-learned and difficult to change by the time a child reaches adolescence. Early childhood offers a critical period for overcoming risk for violent behavior and providing support for prosocial behavior.
(7) Violence prevention programs for very young children yield economic benefits. By providing health and stability to the individual child and the child's family, the programs may reduce expenditures for medical care, special education, and involvement with the judicial system.
(8) Primary prevention can be effective. When teachers teach young children interpersonal problem-solving skills and other forms of conflict resolution, children are less likely to demonstrate problem behavior in the future.
(9) There is evidence that family support programs in families with children from birth through 5 years of age are effective in preventing delinquency.
(10) The methods for assessing the success of the violence prevention training program; and
(11) The sources of financial aid for qualified students;
(12) Contain an assurance that the institution has the capacity to implement the plan; and
(13) Contain an assurance that the plan was developed in consultation with agencies and organizations that will assist the institution in carrying out the plan.

SEC. 1307. SELECTION PRIORITIES.
The Secretary of Education shall give priority to awarding grants to institutions carrying out violence prevention programs that include one or more of the following components:
(1) Preparation to engage in family support (such as parent education, service referral, and literacy training);
(2) Preparation to engage in community outreach or collaboration with other services in the community;
(3) Preparation to use conflict resolution training with children;
(4) Preparation to work in economically disadvantaged communities;
(5) Recruitment of economically disadvantaged students;
(6) Preparing for the study of demonstrated effectiveness in the type of training for which assistance is sought, including programs funded under section 596 of the Higher Education Act of 1965 (as such section was in effect prior to October 7, 1998).

SEC. 1308. AUTHORIZATION OF APPROPRIATIONS.
There are authorized to be appropriated to carry out this title $15,000,000 for each of the fiscal years 2004 through 2004.

TITLE XIV—PREVENTING JUVENILE DELinquency THROUGH CHARACTER EDUCATION

SEC. 1401. PURPOSE.
The purpose of this title is to support the work of community-based organizations, local educational agencies, and schools in providing character development and alternatives to delinquency through strong school-based and after school programs that—
(1) are organized around character education;
(2) reduce delinquency, school discipline problems, and truancy; and
(3) improve student achievement, overall school performance, and youths' positive involvement in their community.

SEC. 1402. AUTHORIZATION OF APPROPRIATIONS.
(a) IN GENERAL.—There are authorized to be appropriated—
(1) $15,000,000 for fiscal year 2000, and such sums as may be necessary for each of the 4 succeeding fiscal years, to carry out school-based programs under section 1402; and
(2) $10,000,000 for fiscal year 2000, and such sums as may be necessary for each of the 4 succeeding fiscal years, to carry out the after school programs under section 1404.
(b) SOURCE OF FUNDING.—Amounts authorized to be appropriated pursuant to this section may be derived from the Violent Crime Reduction Trust Fund.

SEC. 1403. SCHOOL-BASED PROGRAMS.
(a) IN GENERAL.—The Secretary, in consultation with the Attorney General, is authorized to award grants to schools, or local educational agencies that enter into a partnership with a school, to support the development of character education programs in the schools in order to—
(1) reduce delinquency, school discipline problems, and truancy; and
(2) improve student achievement, overall school performance, and youths' positive involvement in their community.
(b) APPLICATIONS.—Each school or local educational agency desiring a grant under this section shall submit an application to the Secretary at such time and in such manner as the Secretary may require.

(1) CONTENTS.—Each application shall include:
(A) a description of the community to be served and the needs that will be met with the program in the larger community;
(B) a description of how the program will coordinate activities assisted under this section with other youth serving activities in the larger community;
(C) a description of the activities to be assisted, including—
(i) how parents, teachers, students, and other members of the community will be involved in the design and implementation of the program;
(ii) the character education program to be implemented, including methods of teacher training and parent education that will be used or developed;
(iii) how the program will coordinate activities assisted under this section with other youth serving activities in the larger community;
(D) a description of the goals of the program;
(E) a description of how progress toward the goals and meeting the purposes of this title, will be measured; and
(F) an assurance that the school or local educational agency will provide the Secretary with information regarding the program and the effectiveness of the program.

Sec. 1404. After School Programs.
(a) GENERAL.

(b) Plan.

(c) Selection of Grantees.—
(1) Criteria.—The Secretary, in consultation with the Attorney General, shall select, through a peer review process, community-based organizations, schools, and local educational agencies to receive grants under this title on the basis of the quality of the applications submitted and taking into consideration such factors as—
(A) the quality of the activities to be assisted;
(B) the extent to which the program fosters in youth the elements of character and reaches youth at-risk of delinquency;
(C) the quality of the plan for measuring and assessing the success of the program;
(D) the likelihood that the program will be realistically achieved;
(E) the experience of the applicant in providing similar services; and
(F) the coordination of the program with the larger community efforts in character education.

(d) Use of Funds.—Grant funds under this title shall be used to support the work of community-based organizations, schools, or local educational agencies in providing children and youth with alternatives to delinquency through strong school-based, after school, or out-of-school programs in youth serving organizations, businesses, and other community organizations.

(e) Applications.—Each community-based organization desiring a grant under this section shall submit an application to the Secretary at such time and in such manner as the Secretary may require. Each application shall include—

(1) a description of the community to be served and the needs that will be met with the program in that community;
(2) a description of how the program will identify and recruit at-risk youth for participation in the program, and will provide continuing support for their participation;
(3) a description of the activities to be assisted, including—
(A) how parents, students, and other members of the community will be involved in the design and implementation of the program;
(B) how character education will be incorporated into the program; and
(C) how the program will coordinate activities assisted under this section with other activities of community-based organizations;
(4) a description of the goals of the program;
(5) a description of how progress toward the goals, and toward meeting the purposes of this title, will be measured; and
(6) an assurance that the community-based organization will provide the Secretary with information regarding the program and the effectiveness of the program.

Sec. 1405. General Provisions.
(a) Duration.—Each grant under this title shall be awarded for a period of not to exceed 5 years.
(b) Planning.—A school, local educational agency or community-based organization may use grant funds provided under this title for not more than 1 year for the planning and design of the program to be assisted.

(c) Selection of Grantees.—
(1) Criteria.—The Secretary, in consultation with the Attorney General, shall select, through a peer review process, community-based organizations, schools, and local educational agencies to receive grants under this title, and toward meeting the purposes of this title, will be measured; and
(1) require that each laboratory performing DNA analyses satisfy quality assurance standards and utilize state-of-the-art testing methods, as set forth by the Director of the Federal Bureau of Investigation, in coordination with the Assistant Attorney General of the Office of Justice Programs of the Department of Justice; and
(2) require that each DNA sample collected and analyzed be accessible only—
(A) to criminal justice agencies for law enforcement identification purposes;
(B) in judicial proceedings, if otherwise admissible pursuant to applicable statutes or rules;
(C) for criminal defense purposes, to a defendant, who shall have access to samples and analyses performed in connection with the case in which such defendant is charged; or
(D) if personally identifiable information is removed, for a population statistics database, for identification research and protocol development purposes, or for quality control purposes.

(c) Implementation of Plan.—Subject to the availability of appropriations under subsection (d), the Director of the Federal Bureau of Investigation, in coordination with the Assistant Attorney General of the Office of Justice Programs at the Department of Justice, shall implement the plan developed pursuant to subsection (a) with State and local forensic laboratories that elect to participate.

(d) Authorization of Appropriations.—

There are authorized to be appropriated to the Department of Justice to carry out this section—$15,000,000 for each of fiscal years 2000 and 2001.

(a) Expansion of DNA Identification Index.—Section 811(a)(2) of the Antiterrorism and Effective Death Penalty Act of 1996 (28 U.S.C. 531 note) is amended to read as follows:

"(2) the Director of the Federal Bureau of Investigation shall expand the combined DNA Identification System (CODIS) to include information on DNA identification records and analyses related to criminal offenses and acts of juvenile delinquency under Federal law, the Uniform Code of Military Justice, and the District of Columbia Code, in accordance with section 21034 of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14132)."

(b) Index to Facilitate Law Enforcement Exchange of DNA Identification Information.—Section 21035 of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14132) is amended—
(1) in subsection (a)(1), by striking “persons convicted of criminal offenses or adjudicated delinquent for acts of juvenile delinquency, including qualifying offenses (as defined in subsection (d)(1))” and inserting “individuals convicted of criminal offenses or adjudicated delinquent for acts of juvenile delinquency, including qualifying offenses (as defined in subsection (d)(1));” and
(2) by striking “at regular intervals of not to exceed 180 days,” and inserting “semiannual”; and
(3) by adding at the end the following:
“(d) INCLUSION OF DNA INFORMATION RELATING TO VIOLENT OFFENDERS.—
“(1) DEFINITIONS.—In this subsection—
“(A) the term ‘crime of violence’ has the meaning given such term in section 924(c)(3) of title 18, United States Code; and
“(B) the term ‘qualifying offense’ means a criminal offense or act of juvenile delinquency included on the list established by the Director of the National Bureau of Investigation under paragraph (2)(A)(i).
“(2) REGULATIONS.—
“(A) IN GENERAL.—Not later than 90 days after the date of enactment of this subsection, the Secretary of Defense shall specify categories of conduct punishable under Federal law of an individual on supervised release, parole, or probation that are to be included in the index established under this section (referred to in this subsection as ‘qualifying military offenses’) that are comparable to qualifying offenses (as defined in subsection (d)(1)); and
“(B) set forth standards and procedures for—
“(i) the analysis of DNA samples collected from individuals convicted of a qualifying military offense; and
“(ii) the inclusion in the index established by this section of the DNA identification records retained by the Federal Government that correspond to the DNA samples described in clause (i).
“(3) COLLECTION OF SAMPLES.—
“(A) IN GENERAL.—Beginning 180 days after the date of enactment of this subsection, the Secretary of Defense shall collect a DNA sample from each individual under the jurisdiction of the Secretary of a military department who, before or after this subsection takes effect, has been convicted of a qualifying military offense.
“(B) TIME AND MANNER.—The Secretary of Defense shall specify the time and manner of collection of DNA samples under this paragraph.
“(4) WAIVER; COLLECTION PROCEDURES.—Notwithstanding any other provision of this subsection, the Secretary of Defense—
“(A) may—
“(i) waive the collection of a DNA sample from an individual who refuses to cooperate in the collection of the sample.
“(ii) use or authorize the use of such means as are necessary to restrain and collect a DNA sample from an individual who refuses to cooperate in the collection of the sample.
“(C) CRIMINAL PENALTY.—Whoever—an individual from whom the collection of a DNA sample is required or authorized pursuant to subsection (d) who fails to cooperate in the collection of that sample shall—
“(A) guilty of a class A misdemeanor; and
“(B) punished in accordance with title 18, United States Code.
“(D) FEDERAL OFFENDERS.—An individual from whom the collection of a DNA sample is required or authorized pursuant to subsection (e) who fails to cooperate in the collection of the sample that sampled as a court martial may direct as a violation of the Uniform Code of Military Justice.
“(E) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated—
“(1) to the Department of Justice to carry out subsection (d) of this section (including to reimburse the Federal judiciary for any reasonable costs incurred in implementing such subsection, as determined by the Attorney General) and section 3(d) of the Violent Offender DNA Identification Act of 1999—
“(A) $6,600,000 for fiscal year 2000; and
“(B) such sums as may be necessary for each of fiscal years 2001 through 2004;
“(2) to the Court Services and Offender Supervision Agency for the District of Columbia or the Trustee appointed under section 11232(a) of the Balanced Budget Act of 1997, as appropriate, for—
“(A) $6,600,000 for fiscal year 2000; and
“(B) such sums as may be necessary for each of fiscal years 2001 through 2004;
“(3) to the Court Services and Offender Supervision Agency for the District of Columbia or the Trustee appointed under section 11232(a) of the Balanced Budget Act of 1997 (as appropriate), for DNA sample analysis services—
“(A) $300,000 for each of fiscal years 2001 through 2004; and
“(4) to the Department of Defense to carry out subsection (d) of this section—
“(A) $300,000 for each of fiscal years 2000 and 2001; and
“(B) $300,000 for each of fiscal years 2002 and 2003.
May 26, 1999

CONGRESSIONAL RECORD—SENATE

11071

SEC. 1601. PROHIBITION ON FIREARMS POSSESS- 
SION FOR VIOLENT JUVENILE OFF- 
FENDERS.

(a) DEFINITION.—Section 921(a)(20) of title 18, 
United States Code, is amended—
(1) by inserting ‘‘(A)’’ after ‘‘(20)’’;
(2) by redesignating subparagraphs (A) and 
(B) as clauses (i) and (ii), respectively;
(3) by inserting after subparagraph (A) the 
following:
‘‘(B) For purposes of subsections (d) and (g) 
of section 922, the term ‘act of violent juve- 
nile delinquency’ means an adjudication of 
delinquency in Federal or State court, based 
on a finding of the commission of an act by 
a person prior to his or her eighteenth 
birthday that, if committed by an adult, 
would have been a serious or violent felony, 
as defined in section 3559(c)(2)(F)(ii), if Federal 
jurisdiction existed and because of the fact; 
that section 3559(c)(3) shall not apply to this 
subparagraph,’’;
and
(4) in the designated paragraph following 
subparagraph (B) of subsection (d) of this 
section, by striking ‘‘What con- 
stitutes’’ and all that follows through 
‘‘this chapter,’’ inserting the following:
‘‘(C) What constitutes a conviction of such 
a crime or an adjudication of an act of vio- 
lent juvenile delinquency shall be deter- 
mined in accordance with the law of the ju- 
risdiction in which the proceedings were 
held. Any State conviction or adjudication 
of an act of violent juvenile delinquency 
that has been expunged or set aside, or for 
which the person has been pardoned or has 
had civil rights restored, by the jurisdiction 
in which such person resides, shall not be 
considered a conviction of such crime or an 
adjudication of such act of violent juvenile 
delinquency. The Attorney General shall 
give priority in awarding grants under this 
section to applications that have been sub- 
mitted jointly by a local education agency 
and a law enforcement agency.’’
(b) PROHIBITION.—Section 922 of title 18, 
United States Code, is amended—
(1) in subsection (d)—
(A) in paragraph (8), by striking ‘‘or’’ at 
the end; and
(B) in paragraph (9), by striking the period 
at the end and inserting ‘‘; or’’; and
(C) by inserting after paragraph (9) the 
following:
‘‘(10) who has committed an act of violent 
juvenile delinquency.’’;
and
(2) in subsection (e)—
(A) in paragraph (8), by striking ‘‘or’’ at 
the end; and
(B) in paragraph (9), by striking the comma 
at the end and inserting ‘‘; or’’; and
(C) by inserting after paragraph (9) the 
following:
‘‘(10) who has committed an act of violent 
juvenile delinquency.’’
(c) EFFECTIVE DATE OF ADJUDICATION 
PROVISIONS.—The amendments made by this 
section shall apply to any adjudication of an 
act of violent juvenile delinquency that 
ocurs after the date that is 180 days after 
the date on which the Attorney General 
certifies to Congress in writing that Federal 
firearms licensees are using an electronic 
background check system for a fiscal year 
2000, and such sums as may be necessary 
for each of fiscal years 2001 through 2004.

TITLE XVI—MISCELLANEOUS PROVISIONS

Subtitle A—General Provisions

SEC. 1603. SAFETY VIOLATIONS.

(a) SHORT TITLE.—This section may be cited as the ‘‘Safe Students Act.’’

(b) PURPOSE.—It is the purpose of this sec- 
tion to maximize local flexibility in respond- 
ing to the threat of juvenile violence 
through the implementation of effective 
school violence prevention and safety pro- 
grams.

(c) PROGRAM AUTHORIZED.—The Attorney 
General shall, subject to the availability of 
appropriations, award grants to local edu-
ca
cation agencies and to law enforcement 
agencies to assist in the planning, estab-
lishing, operating, and evaluating 
school violence prevention and school safety programs.

(d) APPLICATION REQUIREMENTS.—
(1) IN GENERAL.—To be eligible to receive 
a grant under subsection (c), an entity shall—
(1) have the authority to operate a school 
which may include—
(A) the identification of potential threats 
such as illegal weapons and explosive de-
vices;
(B) crisis preparedness and intervention 
procedures; and
(C) emergency response;
(2) training of interested parents, teachers 
and other school and law enforcement per-
sonnel in the implementation and responses 
to early warning signs of troubled and violent 
youth;
(3) innovative research-based delinquency 
and violence prevention programs, including 
mentoring programs;
(4) comprehensive school security assess-
ments;
(5) the purchase of school security equip-
ment and technologies such as metal detec-
tors, electronic locks, surveillance cameras;
(6) collaborative efforts with law enforce-
ment agencies, community-based organiza-
tions (including faith-based organizations) 
that have demonstrated expertise in provid-
ing effective, research-based violence pre-
vention and intervention programs to school 
age children;
(7) providing assistance to families in need 
for the purpose of purchasing required school 
uniforms;
(8) school resource officers, including com-
munity police officers; and
(9) community policing in and around 
schools.
(d) AUTHORIZATION OF APPROPRIATIONS.— 
There is authorized to be appropriated 
for this section, $320,000,000 for fiscal year 
2000, and such sums as may be necessary 
for each of fiscal years 2001 through 2004.
(g) Report to Congress.—Not later than 2 years after the date of enactment of this Act, and every 2 years thereafter, the Attorney General shall prepare and submit to the appropriate committees of Congress a report concerning any manner in which grantees have used amounts received under a grant under this section.

SEC. 1603. STUDY OF MARKETING PRACTICES OF THE FIREARMS INDUSTRY

(a) In General.—The Federal Trade Commission and the Attorney General shall jointly conduct a study of the marketing practices of the firearms industry, with respect to children.

(b) Issues Examined.—In conducting the study under subsection (a), the Commission and the Attorney General shall examine the extent to which the firearms industry advertises and promotes its products to juveniles, including in media outlets in which minors comprise a substantial percentage of the audience.

(c) Report.—Not later than one year after the date of the enactment of this Act, the Office and the Commission shall submit to Congress a report on the study conducted under subsection (a).

SEC. 1604. PROVISION OF INTERNET FILTERING OR SCREENING SOFTWARE BY CERTAIN INTERNET SERVICE PROVIDERS

(a) Requirement To Provide.—Each Internet service provider shall at the time of entering an agreement with a residential customer for the provision of Internet access services, provide to such customer, either at no fee or at a fee not in excess of the amount specified in subsection (c), computer software or other filtering or blocking system that allows the customer to prevent the access of minors to material on the Internet.

(b) Surveys of Provision of Software or Systems

(1) Surveys.—The Office of Juvenile Justice and Delinquency Prevention of the Department of Justice and the Federal Trade Commission shall jointly conduct surveys of the extent to which Internet service providers are providing computer software or systems described in subsection (a) to their subscribers.

(2) Frequency.—The surveys required by paragraph (1) shall be completed as follows:

(A) One shall be completed not later than one year after the date of the enactment of this Act.

(B) One shall be completed not later than two years after that date.

(C) Each shall be completed not later than three years after that date.

(c) Fees.—The fee, if any, charged and collected by an Internet service provider for providing computer software or a system described in subsection (a) to a residential customer shall not exceed the amount equal to the cost to the provider of the software or system to the subscriber, including the cost of the software or system and of any license required with respect to the software or system.

(d) Application.—The requirement described in subsection (a) shall become effective only if—

(1) 1 year after the date of the enactment of this Act, the Office and the Commission determine as a result of the survey completed by the deadline in subsection (b)(2)(A) that less than 5 percent of the total number of residential subscribers of Internet service providers as of such deadline are provided such software or systems by such providers; or

(2) 3 years after the date of the enactment of this Act, the Office and the Commission determine as a result of the survey completed by the deadline in subsection (b)(2)(C) that less than 10 percent of the total number of residential subscribers of Internet service providers as of such deadline are provided such software or systems by such providers.

SEC. 1605. APPLICATION OF SECTION 923 (J) AND (M)

Notwithstanding any other provision of this Act, the term "Federal Trade Commission" as defined in section 312(k)(1)(A) of title 17, United States Code, which has more than 50,000 subscribers.

SEC. 1606. CONSTITUTIONALITY OF MEMORIAL SERVICES AND MEMORIALS AT PUBLIC SCHOOLS

(a) Findings.—The Congress of the United States finds that the saying of a prayer, the reading of a scripture, or the performance of religious music as part of a memorial service that is held on the campus of a public school in order to honor the memory of any person slain on that campus does not violate the First Amendment to the Constitution of the United States, and that the design and construction of any memorial that is placed on
the campus of a public school in order to honor the memory of any person slain that campus, or of which includes religious symbols, motifs, or sayings does not violate the First Amendment to the Constitution of the United States—

(1) each party shall pay its own attorney’s fees and costs, notwithstanding any other provision of law, and

(2) the Attorney General of the United States is authorized to provide legal assistance to the school district or other governmental entity that is defending the legality of such memorial service.

SEC. 1607. TWENTY-FIRST AMENDMENT ENFORCEMENT.

(a) SHIPMENT OF INTOXICATING LIQUOR INTO STATE IN VIOLATION OF STATE LAW.—The Act entitled “An Act divesting intoxicating liquors of their interstate character in certain cases”, approved March 1, 1913 (commonly known as the Webb-Kenyon Act; 37 Stat. 735 (33 U.S.C. 522)) is amended by adding at the end the following:

“SEC. 2. INJUNCTIVE RELIEF IN FEDERAL DISTRICT COURT. (a) Definitions.—In this section—

(1) the term ‘attorney general’ means the attorney general or other chief law enforcement officer of a State, or the designee thereof;

(2) the term ‘intoxicating liquor’ means any spirituous, vinous, malted, fermented, or other distilled or mixed drinks;

(3) the term ‘person’ means any individual and any partnership, corporation, company, firm, society, association, joint stock company, trust, or other entity capable of holding a legal or beneficial interest in property, but does not include a State or agency thereof; and

(4) the term ‘State’ means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States.

(b) Actions by State Attorney General.—If the attorney general of a State has reasonable cause to believe that a person is engaged in, or about to engage in, or has engaged in, any act that would constitute a violation of a State law regulating the importation or transportation of any intoxicating liquor, the attorney general may bring a civil action in accordance with this section for injunctive relief (including a preliminary or permanent injunction or other order) against the person, as the attorney general determines to be necessary to—

(1) restrain the person from engaging, or continuing to engage, in the violation; and

(2) enforce compliance with the State law.

(c) Federal Jurisdiction. Attorney General.—If the attorney general of a State has reasonable cause to believe that a person is engaged in, is about to engage in, or has engaged in, any act that would constitute a violation of a State law regulating the importation or transportation of any intoxicating liquor, the attorney general may bring a civil action in accordance with this section for injunctive relief (including a preliminary or permanent injunction or other order) against the person, as the attorney general determines to be necessary to—

(1) restrain the person from engaging, or continuing to engage, in the violation; and

(2) enforce compliance with the State law.

(d) Requirements for Injunctions and Orders.—

(1) In General.—In any action brought under this section, upon a proper showing by the attorney general of the State, the court shall grant such temporary or permanent injunction or other order without requiring the posting of a bond.

(2) Notice.—No preliminary or permanent injunction or other order may be issued under paragraph (1) without notice to the adverse party.

(3) Form and Scope of Order.—Any preliminary or permanent injunction or other order in an action brought under this section shall—

(A) set forth the reasons for the issuance of the order;

(B) be specific in terms;

(C) describe in reasonable detail, and not by reference to the complaint or other document, the act or acts to be restrained; and

(D) be binding only upon—

(i) the parties to the action and the officers, agents, employees, and attorneys of those parties;

(ii) persons in active cooperation or participation with the parties to the action who receive actual notice of the order by personal service or otherwise.

(4) Consolidation of Hearing With Trial on Merits.—(1) In General.—Before or after the commencement of a hearing on an application for a preliminary or permanent injunction or other order under this section, the court may order the trial of the action on the merits, which order shall be consolidated with the hearing on the application.

(2) Admissibility of Evidence.—If the court does not order the consolidation of a trial on the merits, the court shall receive submitted evidence on an application described in paragraph (1), any evidence received upon an application for a preliminary or permanent injunction or other order.

(3) Form and Scope of Order.—Any preliminary or permanent injunction or other order issued under this section is in addition to any other remedies provided by law.

(4) State Court Proceedings.—Nothing in this section may be construed to prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any State law.

SEC. 1608. INTERSTATE SHIPMENT AND DELIVERY OF INTOXICATING LIQUORS.

Chapter 59 of title 18, United States Code, is amended—

(1) in section 1293—

(A) by inserting ‘‘a label on the shipping container that clearly and prominently identifies the contents as alcoholic beverages, and a’’ after ‘‘accompanied by’’; and

(B) by inserting ‘‘and requiring upon delivery the signature of a person who has attained the age for the lawful purchase of intoxicating liquor in the State in which the delivery is made,’’ after ‘‘contained there- in,’’; and

(2) in section 1294, by inserting ‘‘or to any person other than a person who has attained the age for the lawful purchase of intoxicating liquor in the State in which the delivery is made,’’ after ‘‘consignee,’’.

SEC. 1609. DISCLAIMER ON MATERIALS PRODUCED, PROCURED OR DISTRIBUTED FROM FUNDING AUTHORIZED BY THE ACT.

(a) All materials produced, procured, or distributed, in whole or in part, as a result of Federal funding authorized under this Act for expenditure by the Attorney General, shall bear the condition that the materials are for informational purposes only and may be distributed, in whole or in part, at the expense of the Federal Government. Any person who objects to the accuracy of the material, to the completeness of the material, or to the representations made within the material, including objections related to this material’s characterization of religious beliefs, are encouraged to direct their comments to the office of the Attorney General of the United States.

(b) All materials produced, procured, or distributed using funds authorized under this Act shall have printed thereon, in addition to the language contained in paragraph (a), a complete address for an office designated by the Attorney General to receive comments from members of the public.

(c) The office designated under paragraph (b) by the Attorney General to receive comments shall, every six months, prepare an accurate summary of all comments received by the office. This summary shall include details about the number of comments received and the specific nature of the concerns raised within the comments, and shall be provided to the Chairmen of the Senate and House Judiciary Committees, the Senate and House Education Committees, the Majority and Minority Leaders of the Senate, the Speaker and Minority Leader of the House of Representatives. Further, the comments received shall be retained by the office and shall be made available to any member of the general public upon request.

SEC. 1610. AIMEE’S LAW.

(a) Short Title.—This section may be cited as “Aimee’s Law.”

(b) Definitions.—In this section:

(1) DANGEROUS SEXUAL OFFENSE.—The term ‘‘dangerous sexual offense’’ means sexual abuse or sexually explicit conduct committed by an individual who has attained the age of 18 years against an individual who has not attained the age of 14 years.

(2) MURDER.—The term ‘‘murder’’ has the meaning given the term under applicable State law.

(3) RAPE.—The term ‘‘rape’’ has the meaning given the term under applicable State law.

(4) SEXUAL ABUSE.—The term ‘‘sexual abuse’’ has the meaning given the term under applicable State law.

(5) SEXUALLY EXPLICIT CONDUCT.—The term ‘‘sexually explicit conduct’’ has the meaning given the term under applicable State law.

SEC. 1646. INCOME TAX REVENUE CONGRESSIONAL RECORD—SENATE 11073
the prior offense, to the State account that collects Federal law enforcement assistance funds of the State that convicted that individual of the prior offense.

(C) STATE DESCRIBED.—A State is described in this subparagraph if—

(i) the State has not adopted Federal truth-in-sentencing guidelines under section 20104 of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 13706); and

(ii) the average term of imprisonment imposed by the State on individuals convicted of the offense for which the individual described in subparagraph (A) or (B) was applicable, was convicted by the State is less than 10 percent above the average term of imprisonment imposed for that offense in all States; or

(iii) with respect to the individual described in subparagraph (A) or (B), as applicable, the individual had served less than 85 percent of the term of imprisonment to which that individual was sentenced for the prior offense.

(2) STATE APPLICATIONS.—In order to receive the funds prescribed under paragraph (1), the chief executive of a State shall submit to the Attorney General an application, in such form and containing such information as the Attorney General may reasonably require, which shall include a certification that the State has convicted an individual of murder, rape, or a dangerous sexual offense who has a prior conviction for 1 of those offenses in another State.

(3) SOURCE OF FUNDS.—Any amount transferred under paragraph (1) shall be derived by reducing the amount of Federal law enforcement assistance funds received by the State that convicted such individual of the prior offense before the distribution of the funds to the Attorney General, in consultation with the chief executive of the State that convicted such individual of the prior offense, shall establish a payment schedule.

(4) CONSTRUCTION.—Nothing in this subsection may be construed to diminish or otherwise affect any court ordered restitution.

(5) DETERMINATION.—A determination described in paragraph (1) shall not apply if the individual convicted of murder, rape, or a dangerous sexual offense has been released from prison upon the reversal of a conviction made by description in paragraph (1) and subsequently been convicted for an offense described in paragraph (1).

(6) REPORT TO ATTORNEY GENERAL.—In any year in which a State submits an application under this subsection, the Attorney General shall report to Congress a report, which shall include—

(A) the number of convictions during that calendar year for murder, rape, and any sex offense in the State in which, at the time of the offenses, the victim had not attained the age of 14 years and the offender had attained the age of 18 years; and

(B) the number of convictions described in subparagraph (A) that constitute second or subsequent convictions of the defendant of an offense described in that subparagraph.

(2) REPORT.—Not later than March 1, 2000, and on March 1 of each year thereafter, the Attorney General shall submit to Congress a report, which shall include—

(A) the information collected under paragraph (1); and

(B) the percentage of cases in each State in which an individual convicted of an offense described in paragraph (1) was convicted of another such offense in another State during the preceding calendar year.

SEC. 1611. DRUG TESTS AND LOCKER INSPECTION

(a) SHORT TITLE.—This section may be cited as the “School Violence Prevention Act”.

(b) AMENDMENT.—Section 4116(b) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7116(b)) is amended—

(1) in paragraph (9), by striking “and” after the period in the first sentence and inserting “; or”;

(2) by redesignating paragraph (10) as paragraph (11); and

(3) by inserting after paragraph (9) the following:

“(10) consistent with the fourth amendment to the Constitution of the United States, testing a student’s locker for guns, explosives, other weapons, or illegal drugs, including at the request of or with the consent of a parent or legal guardian of the student, if the local educational agency elects to so test or inspect; and;”.

SEC. 1612. WAIVER FOR LOCAL MATCH REQUIREMENT UNDER COMMUNITY POLICING PROGRAM

Section 1701(i) of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796d(i)) is amended by adding at the end of the first sentence the following:

“The Attorney General shall waive the requirement under this subsection of a non-Federal contribution to the costs of a program, project, or activity that hires law enforcement officers for placement in public schools by a jurisdiction that demonstrates financial need or hardship.”.

SEC. 1613. CARJACKING OFFENSES

Section 2119 of title 18, United States Code, is amended by striking subsection (a) and inserting the following:

“(a) In General.—

(1) FELONY CARJACKING.—Upon the motion of a prosecutor, the court shall order the defendant to forfeit all proceeds (and any part thereof) to be forfeited if it is—

(i) property seized by a court order; or

(ii) property the United States is entitled to receive under any statute, rule, regulation, treaty, or other provision of law; and

(2) OFFENSES DESCRIBED.—An offense is described in this paragraph if it is—

(A) an offense under section 924(c) of title 18, United States Code; or

(B) an offense against the United States or any State resulting in physical harm to any individual.

(3) PROPERTY DESCRIBED.—Property is described in this paragraph if it is—

(A) evidence of the offense; and

(B) the instrument of the offense, including any vehicle used in the commission of the offense.

(4) IN GENERAL.—In any case in which a court determines that an offense was committed by means of the use of a weapon, firearm, or other dangerous instrument against a person in connection with another felony offense, the court shall make an upward adjustment in the forfeiture amount of any property otherwise related to the offense.

(5) REAL ESTATE.—In any case in which the real estate where the offense was committed—

(A) was used by the defendant to store property related to the offense; or

(B) was located near the place where the defendant committed the offense.

(6) REPORTING.—In any case in which the proceeds were forfeited, the Attorney General shall—

(A) submit to Congress a report which shall include—

(i) a list of the proceedings for which the proceeds were forfeited; and

(ii) the amount of proceeds which were forfeited; and

(B) maintain a current online public database of data relating to all civil forfeiture proceedings under this section.

(7) PUBLIC ACCESS.—The Attorney General shall provide public access to all public records as defined under section 1823 of title 28, United States Code.

(8) PROTECTING RIGHTS.—The Attorney General may not—

(A) exercise the power to seize without a warrant; or

(B) forfeit any property seized without a warrant, except in connection with the forfeiture of instruments of the offense.

(9) RESTRICTIONS.—In any case in which a court determines that a defendant is innocent of the offense, the court shall order the defendant to forfeit only the proceeds related to the offense.

(10) PROCEEDS RELATED TO OFFENSE.—In any case in which a court determines that a defendant is innocent of the offense, the court shall order the defendant to forfeit only the proceeds related to the offense.

(11) EVIDENCE OF GUILT.—In any case in which a court determines that a defendant is innocent of the offense, the court shall order the defendant to forfeit only the proceeds related to the offense.

(12) THEFT BY INTEN...
Americans’ means behavior, by minors re- siding in the United States (or in any jurisdic- tion under the sovereign jurisdiction thereof), that both is illegal under Federal, State, or local law, and involves acts or threats of physical violence, physical injury, or physical harassment, stalking, or threatening, that not to exceed 10 percent of the funds appropri- ated pursuant to this authorization shall be used to commission an objective account- ing, from a licensed and certified public ac- countant, using generally-accepted account- ing principles, of the funds appropriated pur- suant to section 1402(b), and of any funds or in-kind donations spent or used in the campaign, and an objective evaluation both of the impact and cost-effectiveness of the campaign and of the campaign-related activities of the Council and the Clubs, which accounting and evaluation shall be submitted by the Council to the Committees on Appropriations and the Judiciary of each House of Congress by not later than 9 months after the conclusion of the cam- paign.

SEC. 1619. VICTIMS OF TERRORISM. (a) IN GENERAL.—Section 1404B of the Vic- tims of Crime Act of 1994 (42 U.S.C. 10603b) is amended to read as follows:

"SEC. 1404B. COMPENSATION AND ASSISTANCE TO VICTIMS OF TERRORISM OR MASS VIOLANCE.

"(a) DEFINITIONS.—In this section—

"(1) the term ‘crime victim compensation program’ means a program that meets the requirements of section 1402(b);

"(2) the term ‘eligible crime victim assistance program’ means a program that meets the requirements of section 1404(b);

"(3) the term ‘public agency’ includes any Federal, State, or local government or non-profit organization; and

"(4) the term—

"(A) means an individual who is citizen or employee of the United States, and who is injured or killed as a result of a terrorist attack or mass violence, whether occurring within or outside the United States; and

"(B) includes, in the case of an individual described in clause (A), the family members of the indi- vidual.

"(b) GRANTS AUTHORIZED.—The Director may make grants as provided in either sec- tion 1402(d)(4)(B) or 1404—

"(1) to States, which shall be used for eligi- ble crime victim compensation programs and eligible crime victim assistance programs for the benefit of victims; and

"(2) to victim service organizations, and public agencies that provide emergency or ongoing assistance to victims of crime, which shall be used to provide, for the ben- efit of victims—

"(A) emergency relief (including compen- sation, assistance, and crisis response) and other related victim services; and

"(B) training and technical assistance for victim service providers.

"(c) RULE OF CONSTRUCTION.—Nothing in this section may be construed to supplant any compensation available under title VIII of the Omnibus Diplomatic Security and Anti-Terrorism Act of 1986.

"(b) APPLICABILITY.—The amendment made by this section applies to any terrorist attack or mass violence occurring on or after Decem- ber 22, 1988, to which an investi- gation or prosecution was ongoing after April 24, 1996.

SEC. 1619. TRUTH-IN-SENTENCING INCENTIVE PAYMENT (a) QUALIFICATION DATE.—Section 20104 of the Violent Crime Control and Law Enforce- ment Act of 1994 (42 U.S.C. 13704(a)(3)) is amended by inserting—

"(a) MINIMUM AMOUNT.—Section 20106 of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 13706) is amended by striking subsection (b) and inserting the fol- lowing:

"(b) FORMULA ALLOCATION.—The amount made available to carry out this section for any fiscal year under section 20104 shall be allocated as follows—

"(1) .75 percent shall be allocated to each State that meets the requirements of section 20104 in the ratio that the average annual number of part 1 violent crimes reported by that State to the Federal Bureau of Investigation for the 3 years preceding the year in which the determination is made bears to the average annual number of part 1 violent crimes reported by States that meet the requirements of section 20104 in the Federal Bureau of Investigation for the 3 years preceding the year in which the deter- mination is made, except that a State may not receive more than 25 percent of the total amount available for such grants;

"(2) The amount remaining after the applica- tion of paragraph (1) shall be allocated to each State that meets the requirements of section 20104 in the ratio of the average annual number of part 1 violent crimes reported by that State to the Federal Bureau of Investigation for the 3 years preceding the year in which the deter- mination is made, except that a State may not receive more than 25 percent of the total amount available for such grants;

"(b) IN GENERAL.—Section 1404B of the Vic- tims of Crime Act of 1994 (42 U.S.C. 10603b) is amended by striking subsection (i) and inserting the fol- lowing:

"(i) PROHIBITION ON SHIPPING, T RANS- PORTING, POSSESSION, OR RECEIPT OF EXPLO- SIVES BY CERTAIN INDIVIDUALS.—Section 842 of title 18, United States Code, is amended by striking subsection (b) and inserting the fol- lowing:

"(B) except as provided in section 845(d), has been convicted in any court, of a crime punishable by imprisonment for a term exceeding 1 year;

"(3) is a fugitive from justice;

"(4) is an unlawful user of or addicted to any controlled substance (as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802));

"(5) has been adjudicated as a mental de- fective, or who has been committed to a men- tal institution;

"(6) is a fugitive from an alien—

"(A) is illegally or unlawfully in the United States; or

"(B) except as provided in section 845(d), has been convicted in any court, of a crime punishable by imprisonment for a term exceeding 1 year;

"(7) has been convicted in any court, of a crime punishable by imprisonment for a term exceeding 1 year;

"(8) is subject to a court order that—

"(a) was issued after a hearing of which such person received actual notice, and at which such person had an opportunity to participate;

"(B) restrains such person from harassing, stalking, or threatening an intimate partner of such person or child of such intimate partner or person, or engaging in other conduct that would place an intimate partner in rea- sonable fear of bodily injury to the partner or child, except that this paragraph shall only apply to a court order that—

"(i) is issued after a hearing of which such person received actual notice, and at which such person had the opportunity to participate; and

"(B) includes a finding that such person represents a credible threat to the physical safety of such intimate partner or child; and

"(ii) by its terms explicitly prohibits the use, attempted use, or threatened use of physical force against such intimate partner or child that would reasonably be expected to cause bodily injury;

"(D) has been convicted in any court of a misdemeanor crime of domestic violence.";
cations at the National Institutes of Health shall carry out this section, the Director of the National Institutes of Health shall carry out this section using funds appropriated generally to the National Institutes of Health, except that funds expended for under this section shall supplement and not supplant funding for behavior and social science research activities at the National Institutes of Health.

SEC. 1624. SENSE OF THE SENATE REGARDING PROGRAMS.

(a) FINDINGS.—The Senate finds that—

(1) the well-being of all people of the United States is preserved and enhanced when young people are given the guidance and support needed to live healthy and productive lives;

(2) adult mentors can play an important role in ensuring that young people become healthy, productive, successful members of society;

(3) at-risk young people with mentors are 46 percent less likely to begin using illegal drugs than at-risk young people without mentors;

(4) at-risk young people with mentors are 27 percent less likely to begin using alcohol than at-risk young people without mentors;

(5) at-risk young people with mentors are 53 percent less likely to skip school than at-risk young people without mentors;

(6) at-risk young people with mentors are 33 percent less likely to hitchhike or drive with someone at risk who would like to serve as a friendly foreign government entering the United States; and

(7) 73 percent of students with mentors report that their mentors helped raise their goals and expectations; and

there are many employees of the Federal Government who would like to serve as mentors or family members to help—

(families, peers, teachers, school staff, and other members of the community by bringing together parents) school and community-based programs.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the President should issue an Executive Order allowing all employees of the Federal Government to use a maximum of 1 hour each week of excused absence or administrative leave to serve as mentors in youth or family mentoring programs.

SEC. 1625. FAMILIES AND SCHOOLS TOGETHER PROGRAM.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term ‘Administration’ means the Administration of the Federal Government to use a maximum of 1 hour each week of excused absence or administrative leave to serve as mentors or family members to help—

(2) FAMILIES.—The term ‘Family’ means the Administration of the Federal Government to use a maximum of 1 hour each week of excused absence or administrative leave to serve as mentors or family members to help—

(3) SCHOOLS.—The term ‘School’ means the Administration of the Federal Government to use a maximum of 1 hour each week of excused absence or administrative leave to serve as mentors or family members to help—

(4) PROGRAM.—The term ‘Program’ means the Administration of the Federal Government to use a maximum of 1 hour each week of excused absence or administrative leave to serve as mentors or family members to help—

(b) AUTHORIZATION.—In consultation with the Administrator of the Federal Government to use a maximum of 1 hour each week of excused absence or administrative leave to serve as mentors or family members to help—

(c) REGULATIONS.—Not later than 60 days after the date of enactment of this Act, the Administrator, in consultation with the Attorney General, the Secretary of Education, and the Secretary of the Department of Health and Human Services, the Administrator shall carry out a Family and Schools Together program to promote FAST programs.

(c) EXCEPTIONS AND WAIVER FOR CERTAIN INDIVIDUALS.—Section 935 of title 18, United States Code, is amended by adding at the end the following:

(d) EXCEPTIONS AND WAIVER FOR CERTAIN INDIVIDUALS.—Section 935 of title 18, United States Code, is amended by adding at the end the following:

(1) the term ‘alien’ has the same meaning as in section 101(a)(3) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(3)); and

(2) the term ‘nonimmigrant visa’ has the same meaning as in section 101(a)(26) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(26)).

(2) EXCEPTIONS.—Subsections (d)(5)(B) and (1)(5)(B) of section 942 do not apply to any alien who has been lawfully admitted to the United States pursuant to a nonimmigrant visa, if that alien is—

(A) admitted to the United States for lawful hunting or sporting purposes;

(B) a foreign military personnel on official assignment to the United States;

(C) an official of a foreign government or a distinguished foreign visitor who has been so designated by the Department of State; and

(D) a foreign law enforcement officer of a friendly foreign government entering the United States on official law enforcement business.

(3) WAIVER.—(A) IN GENERAL.—Any individual who has been admitted to the United States under a nonimmigrant visa and who is not described in paragraph (2), may receive a waiver from the applicability of subsection (d)(5)(B) or (1)(5)(B) of section 942, if—

(i) the individual submits to the Attorney General a petition that meets the requirements of subparagraph (B); and

(ii) the Attorney General approves the petition.

(B) PETITIONS.—Each petition under subparagraph (A)(i) shall—

(i) demonstrate that the petitioner has resided in the United States for a continuous period of not less than 180 days before the date on which the petition is submitted under this paragraph; and

(ii) include a written statement from the embassy or consulate of the petitioner, authorizing the petitioner to engage in any activity prohibited under subsection (d) or (1) of section 101 of title 8, United States Code, and certifying that the petitioner would not otherwise be prohibited from engaging in that activity under subsection (d) or (1) of section 101, as applicable.

SEC. 1622. DISTRICT JUDGES FOR DISTRICTS IN THE STATES OF ARIZONA, FLORIDA, AND NEVADA.

(a) SHORT TITLE.—This section may be cited as the “Emergency Federal Judgeship Act of 1999.”

(b) IN GENERAL.—The President shall appoint, by and with the advice and consent of the Senate—

(1) 3 additional district judges for the district of Arizona;

(2) 4 additional district judges for the middle district of Florida; and

(3) 2 additional district judges for the district of Nevada.

(c) TABLES.—In order that the table contained in section 133 of title 28, United States Code, will reflect the changes in the total number of permanent district judgeships authorized as a result of subsection (a) of this section—

(1) the item relating to Arizona in such table is amended to read as follows:

“Arizona ............................................ 11’’;

(2) the item relating to Florida in such table is amended to read as follows:

“Florida: Northern ............................................ 4

Middle ..................................................... 15

Southern .................................................. 16’’;

and

(3) the item relating to Nevada in such table is amended to read as follows:

“Nevada .................................................. 6’’.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section, including such sums as may be necessary to provide appropriate space and facilities for the judicial positions created by this section.

SEC. 1623. BEHAVIORAL AND SOCIAL SCIENCE RESEARCH ON YOUTH VIOLENCE.

(a) NIH RESEARCH.—The National Institutes of Health, acting through the Office of Behavioral and Social Sciences Research, shall carry out a coordinated, multi-year course of behavioral and social science research on the causes and prevention of youth violence.

(b) NATURE OF RESEARCH.—Funds made available under the National Institutes of Health pursuant to this section shall be utilized to conduct, support, coordinate, and disseminate basic and applied behavioral and social science research with respect to youth violence, including research on 1 or more of the following subjects:

(1) The etiology of youth violence.

(2) Risk factors for youth violence.

(3) Childhood predictors to antisocial violent behavior.

(4) The role of peer pressure in inciting youth violence.

(5) The processes by which children develop patterns of thought and behavior, including beliefs about the value of human life.

(6) Scientific-based strategies for preventing youth violence, including school and community-based programs.

(7) Other subjects that the Director of the Office of Behavioral and Social Sciences Research deems appropriate.

(c) ROLE OF THE OFFICE OF BEHAVIORAL AND SOCIAL SCIENCES RESEARCH.—Pursuant to this section, the Director of the National Institutes of Health shall—

(1) coordinate on youth violence conducted or supported by the agencies of the National Institutes of Health;

(2) identify youth violence research projects that should be conducted or supported by the research institutes, and develop such projects in cooperation with such institutes and in consultation with State and Federal law enforcement agencies;

(3) take steps to further cooperation and collaboration between the National Institutes of Health and the Centers for Disease Control and Prevention, the Substance Abuse and Mental Health Services Administration, the agencies of the Department of Justice, and other governmental and nongovernmental agencies with respect to youth violence research conducted or supported by such agencies;

(4) establish a clearinghouse for information about youth violence research conducted by governmental and nongovernmental entities; and

(5) periodically report to Congress on the status of research and make recommendations to Congress regarding such research.

(d) FUNDING.—There is authorized to be appropriated, $5,000,000 for each of fiscal years 2000 through 2004 to carry out this section. If amounts are not separately appropriated to carry out this section, the Director of the National Institutes of Health shall carry out this section using funds appropriated generally to the National Institutes of Health, except that funds expended for under this section shall supplement and not supplant funding for behavior and social science research at the National Institutes of Health.
Health and Human Services shall develop regular procedures for the distribution of the funds for FAST programs.

(d) Authorization of Appropriations.—

(1) In general.—There is authorized to be appropriated to carry out this section $5,000,000 for each of the fiscal years 2000 through 2004.

(2) Allocation.—Of amounts appropriated under paragraph (1)—

(A) 83.33 percent shall be available for the implementation of local FAST programs; and

(B) 16.67 percent shall be available for research and evaluation of FAST programs.

SEC. 1626. AMENDMENTS RELATING TO VIOLENT CRIME IN INDIAN COUNTRY AND ACT OF 1988 EXCLUSIVE FEDERAL JURISDICTION.

(a) Assaults With Maritime and Terri- torial Jurisdiction.—Section 1153 of title 18, United States Code, is amended by inserting “with intent to do bodily harm”.

(b) Offenses Committed Within Indian Country.—Section 1153 of title 18, United States Code, is amended—

(1) in subsection (a), by striking “an offense if the minimum statutory term of imprisonment under section 1334 is greater than 5 years,” after “a felony under chapter 109A,”; and

(2) by adding at the end the following:

“(c) Nothing in this section shall limit the inherent power of an Indian tribe to exercise criminal jurisdiction over any Indian with respect to any offense committed within an Indian country, subject to the limitations on punishment under section 2252 (d) of the Code; or

(d) MANSLAUGHTER WITHIN THE SPECIAL MARITIME AND TERRITORIAL JURISDICTION OF THE UNITED STATES.—Section 1153 of title 18, United States Code, is amended by striking “ten” and inserting “20 years”.

(e) Embezzlement and Theft From Indian Tribal Organizations.—The second undesignated paragraph of section 1265 of title 18, United States Code, is amended by striking “so embezzled,” and inserting “embezzled,”.

SEC. 1627. FEDERAL JUDICIARY PROTECTION.

(a) Short Title.—This section may be cited as the “Federal Judiciary Protection Act of 1999”.

(b) Assaulting, Resisting, or Impeding Certain Officers or Employees.—Section 1114 of title 18, United States Code, is amended by striking “ten years” and inserting “20 years”.

(c) Embezzlement and Theft From Indian Tribal Organizations.—The second undesignated paragraph of section 1265 of title 18, United States Code, is amended by striking “so embezzled,” and inserting “embezzled,”.

SEC. 1628. LOCAL ENFORCEMENT OF LOCAL ALCOHOL PROHIBITIONS THAT RE- DUCE JUVENILE CRIME IN REMOTE ALASKA VILLAGES.

(a) Congressional Findings.—The Congress finds the following:

(1) Villages in remote areas of Alaska lack local law enforcement due to the absence of a tax base to support such services and to small populations that do not secure sufficient funds under existing State and Federal grant programs.

(2) State troopers are often unable to respond to reports of violence in remote villages if there is inclement weather, and often only respond in reported felony cases.

(3) Studies conclude that alcohol consumption is strongly linked to the commission of violent crimes in remote Alaska villages and that youth are particularly susceptible to developing chronic criminal behavior associated with alcohol in the presence of early intervention.

(4) Many remote villages have sought to limit the introduction of alcohol into their communities as a means of early intervention and to reduce criminal conduct among juveniles.

(5) In many remote villages, there is no person with the authority to enforce these local alcohol restrictions in a manner consistent with judicial standards of due process.

(6) Remote Alaska villages are experiencing a marked increase in births and the number of juveniles residing in villages is expected to increase dramatically in the next 5 years.

(b) Grant of Federal Funds.—(1) The Attorney General is authorized to provide to the State of Alaska the funds for State law enforcement and other costs necessary to implement the provisions of this Act.

(2) Funds provided to the State of Alaska under this Act shall be in addition to and shall not disqualify the State, local governments, or Indian tribes from eligibility for grants from Federal funds available under other authority.

(3) Authorization of Appropriations.—

(1) In General.—There are authorized to be appropriated to carry out this section—

(A) $15,000,000 for fiscal year 2000;

(B) $17,000,000 for fiscal year 2001;

(C) $18,000,000 for fiscal year 2002.

(2) Source of Funds.—Amounts authorized to be appropriated under this subsection may be derived from the Violent Crime Reduction Trust Fund.

SEC. 1629. RULE OF CONSTRUCTION.

Nothing in this Act may be construed to require or direct the States to expand or diminish any State law that may affect the jurisdiction of an Indian tribe in the State of Alaska.

SEC. 1630. BOUNTY HUNTER ACCOUNTABILITY AND QUALITY ASSISTANCE.

(a) Findings.—Congress finds that—

(1) bounty hunters, also known as bail enforcement officers or recovery agents, provide law enforcement officers and the courts with valuable assistance in recovering fugitives from justice;

(2) regardless of the differences in their duties, the public has had difficulty in discerning the difference between law enforcement officers and bounty hunters;

(3) the availability of bail as an alternative to the pretrial detention or unsecured release of criminal defendants is important to the effective functioning of the criminal justice system;

(4) the safe and timely return to custody of fugitives who violate bail contracts is an important matter of public safety, as is the return of any other fugitive from justice;

(5) bail bond agents are widely regulated by the States, whereas bounty hunters are largely unregulated;

(6) the public safety requires the employment of qualified, well-trained bounty hunt- ers; and
In the course of their duties, bounty hunters often move in and affect interstate commerce.

In this section—
(1) the term "bail bond agent" means any retail establishment or agency that—
(2) the term "bounty hunter"—
(A) any person whose services are engaged, either as an independent contractor or as an employee, by a bounty hunter employer, to obtain the recovery of any fugitive from justice who has been released on bail; and
(B) does not include any—
(1) law enforcement officer acting under color of law;
(2) attorney, accountant, or other professional licensed under applicable State law;
(3) employee whose duties are primarily internal audit or credit functions;
(4) person engaged in the performance of official duties as a member of the Armed Forces on active duty (as defined in section 101(d)(1) of title 10, United States Code);
(5) bond agent;
(6) the term "bounty hunter employer"—
(A) any person that—
(i) employs 1 or more bounty hunters; or
(ii) provides, as an independent contractor, for consideration, the services of 1 or more bounty hunters (which may include the services of a defendant person); and
(B) does not include any bail bond agent; and
(7) the term "law enforcement officer" means a public officer or employee authorized under applicable Federal or State law to conduct or engage in the prevention, investigation, prosecution, or adjudication of criminal offenses, including any public officer or employee engaged in corrections, parole, or probation functions, or the recovery of any fugitive from justice.

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Attorney General shall publish model guidelines developed under paragraph (1) and the amendment heretofore made by section 923(m)(1), of title 18, United States Code, as heretofore provided, is null and void.

(1) The Nation's highest priority should be intellectual development will result in tremendous benefits for children, families, and the Nation.

(2) Since more than 50 percent of the mothers of children under the age of 3 now work outside of the home, society must change to provide new supports so young children receive the attention and care that they need.

(3) There are 12,000,000 children under the age of 3 in the United States today and 1 in 4 lives in poverty.

(4) Compared with most other industrialized countries, the United States has a higher infant mortality rate, a higher proportion of low-birth weight babies, and a smaller proportion of babies immunized against childhood diseases.

(5) National and local studies have found a strong link between—
(A) lack of early intervention for children; and
(B) increased violence and crime among youth.

(6) The United States will spend more than $300,000,000,000 over the next 5 years on Federal programs for at-risk or delinquent youth and child welfare programs, which address crisis situations that frequently could have been avoided or made much less severe through good early intervention for children.

(7) Many local communities across the country have developed successful early childhood efforts and with additional resources could expand and enhance opportunities for young children.

(8) It is the sense of Congress that Federal early childhood development collaboratives should be a priority in the Federal budget for fiscal year 2000 and subsequent fiscal years.

(9) SEC. 1632. PROHIBITION ON PROMOTING VIOLENCE ON FEDERAL PROPERTY.

(1) IN GENERAL.—A Federal department or agency that—
(2) SEC. 1633. PROHIBITION ON PROMOTING VIOLENCE ON FEDERAL PROPERTY.

(a) GENERAL RULE.—A Federal department or agency that—
(b) SEC. 1634. PROHIBITION ON PROMOTING VIOLENCE ON FEDERAL PROPERTY.

(a) GENERAL RULE.—A Federal department or agency that—
(b) SEC. 1635. EXTENSION OF BRADY BACKGROUND CHECKS TO GUN SHOWS.
(1) In general.—If any part of a firearm transferred at a gun show, or sold or exchanged at a gun show, it shall be unlawful for any person who is not licensed under this chapter to receive a firearm from another person who is not licensed under this chapter, unless the firearm is transferred through a licensed importer, licensed manufacturer, or licensed dealer in accordance with subsection (e).

(2) Criminal background checks.—A person who is subject to the requirement of paragraph (1) shall not receive the firearm from the transferee until the transferee, licensed importer, licensed manufacturer, or licensed dealer through which the transfer is made under subsection (e) makes the notification described in subsection (e)(3)(B).

(3) Compliance with section 922(t) as if transferring the firearm from the inventory of the licensed importer, licensed manufacturer, or licensed dealer complying with this subsection shall be required to comply with the requirements of section 922(t) in delivering the firearm to the nonlicensed transferee, and notify the nonlicensed, or unlicensed, or nonregistered, or the nonlicensed transferee—

(4) Not later than 10 days after the date on which the transfer occurs, submit to the Secretary a report of the transfer, which report shall—

(A) be on a form specified by the Secretary; and

(B) include the name of or other identifying information relating to any person involved in the transfer who is not licensed under this chapter;

(C) be submitted by the licensed importer, licensed manufacturer, or licensed dealer to the designated transferee (although a licensed importer, licensed manufacturer, or licensed dealer assisting a person with the national instant background check system that the transfer would violate section 922 or would violate State law;

(D) be on a form specified by the Secretary; and

(E) be submitted by the licensed importer, licensed manufacturer, or licensed dealer to the designated transferee (although a licensed importer, licensed manufacturer, or licensed dealer assisting a person with the national instant background check system that the transfer would violate section 922 or would violate State law;

(F) be on a form specified by the Secretary; and

(G) be submitted by the licensed importer, licensed manufacturer, or licensed dealer to the designated transferee (although a licensed importer, licensed manufacturer, or licensed dealer assisting a person with the national instant background check system that the transfer would violate section 922 or would violate State law;

(H) be on a form specified by the Secretary; and

(I) be submitted by the licensed importer, licensed manufacturer, or licensed dealer to the designated transferee (although a licensed importer, licensed manufacturer, or licensed dealer assisting a person with the national instant background check system that the transfer would violate section 922 or would violate State law;

(J) be on a form specified by the Secretary; and

(K) be submitted by the licensed importer, licensed manufacturer, or licensed dealer to the designated transferee (although a licensed importer, licensed manufacturer, or licensed dealer assisting a person with the national instant background check system that the transfer would violate section 922 or would violate State law;
hours the place of business of any gun show promoter and any place where a gun show is held shall be used for the purpose of examining the records required by sections 923 and 931 and the inventory of licensees conducting business at the gun show. Such entry and examination shall be conducted for the purpose of determining compliance with this chapter by gun show promoters and licensees conducting business at the gun show and shall not require a showing of reasonable cause or a warrant.

(e) Increased Penalties for Serious Recordkeeping Violations.—Section 924(a)(3) of title 18, United States Code, is amended to read as follows:

(3)(A) Except as provided in subparagraph (B), any licensed dealer, licensed importer, licensed manufacturer, and licensed collector who knowingly makes any false statement or representation with respect to the information required by this chapter to be kept in the records of a person licensed under this chapter, or violates section 922(m) shall be fined under this title, imprisoned not more than 5 years, or both; or

(B) If the violation described in subparagraph (A) is in relation to an offense—

(i) under paragraphs (3) of section 922(b), such person shall be fined under this title, imprisoned not more than 5 years, or both; or

(ii) under subsection (a)(6) or (d) of section 922, such person shall be fined under this title, imprisoned not more than 10 years, or both.

(f) Increased Penalties for Violations of Criminal Background Check Requirements.—

(1) PENALTIES.—Section 924 of title 18, United States Code, is amended—

(A) in paragraph (5), by striking “subsection (s) or (t) of section 922” and inserting “section 922(s)”;

(B) by adding at the end the following:

(8) Whoever knowingly violates section 922(t) shall be fined under this title, imprisoned not more than 5 years, or both.

(g) Gun Owner Privacy and Prevention of Fraud and Abuse of System Information.—Section 922 of title 18, United States Code, is amended by inserting “and at, and during the time and all that follows through ‘State law’” after “and the time”.

(h)Gun Owner Privacy and Prevention of Fraud and Abuse of System Information.—Section 922 of title 18, United States Code, is amended by inserting “and at, and during the time and all that follows through ‘State law’” after “and the time”.

(i) EFFECTIVE DATE.—This section (other than subsection (i)) and the amendments made by this section shall take effect 180 days after the date of enactment of this Act.

(j) APPLIcation OF Section 923 (j) AND (m)—Subsections (j) and (m) of section 923 of title 18, United States Code, as amended by the amendment of Mr. Craig number 332 shall be null and void.

SEC. 1638. SAFE SCHOOLS.

(a) AMENDMENTS.—Part F of title XIV of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8921 et seq.) is amended as follows:

(1) SHORT TITLE.—Section 14601(a) is amended by replacing “Gun-Free” with “Safe”, and “1994” with “1999”.

(2) REQUIREMENTS.—Section 14601(b)(1) is amended by inserting after “determined” the following: “to be in possession of felonious quantities of an illegal drug, on school property under the jurisdiction of, or in a vehicle operated by an employee or agent of, a local educational agency in that State, or in Federal and State law enforcement and judicial authorities from exercising their responsibilities with respect to the application of Federal law to crimes committed by a child, including a child with a disability, to appropriate authorities; or

(b) CLARIFICATION OF FEDERAL LAW.—Nothing in Federal law shall be construed—

(1) to prohibit an agency from reporting a crime committed by a child, including a child with a disability, to appropriate authorities; or

(2) to prevent State law enforcement and judicial authorities from exercising their responsibilities with respect to the application of Federal law to crimes committed by a child, including a child with a disability.

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) AUTHORIZATION.—There are authorized to be appropriated to pay the costs of the interventions and services provided under this section such sums as may be necessary for each of the fiscal years 2000 through 2004.

(2) DISTRIBUTION.—The Secretary of Education shall provide for the distribution of the funds made available under paragraph (1)—

(A) to States for a fiscal year in the same manner as the Secretary makes allocations to States under section 401(b) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 711(b)) for the fiscal year; and

(B) to local educational agencies for a fiscal year in the same manner as funds are distributed to local educational agencies under section 412(b)(2) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7113(b)(2)) for the fiscal year.

SEC. 1639. APPROPRIATE INTERVENTIONS AND SERVICES; CLARIFICATION OF FEDERAL LAW.

(a) APPROPRIATE INTERVENTIONS AND SERVICES.—School personnel shall ensure that immediate appropriate interventions and services, including mental health interventions and services, are provided to a child removed from school for any act of violence, including carrying or possessing a weapon to or at a school, on school premises, or to or at a school-related function under the supervision of a State or local educational agency, in order to—

(1) to ensure that our Nation’s schools and communities are safe; and

(2) to maximize the likelihood that such child shall not engage in such behaviors, or such behaviors do not recur.

(b) CLARIFICATION OF FEDERAL LAW.—Nothing in Federal law shall be construed—

(1) to prohibit an agency from reporting a crime committed by a child, including a child with a disability, to appropriate authorities; or

(2) to prevent State law enforcement and judicial authorities from exercising their responsibilities with respect to the application of Federal law to crimes committed by a child, including a child with a disability.

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) AUTHORIZATION.—There are authorized to be appropriated to pay the costs of the interventions and services provided under this section such sums as may be necessary for each of the fiscal years 2000 through 2004.

(2) DISTRIBUTION.—The Secretary of Education shall provide for the distribution of the funds made available under paragraph (1)—

(A) to States for a fiscal year in the same manner as the Secretary makes allocations to States under section 401(b) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 711(b)) for the fiscal year; and

(B) to local educational agencies for a fiscal year in the same manner as funds are distributed to local educational agencies under section 412(b)(2) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7113(b)(2)) for the fiscal year.

SEC. 1640. CONTROLLED SUBSTANCES ACT.

(a) APPROPRIATE INTERVENTIONS AND SERVICES.—School personnel shall ensure that immediate appropriate interventions and services, including mental health interventions and services, are provided to a child removed from school for any act of violence, including carrying or possessing a weapon to or at a school, on school premises, or to or at a school-related function under the supervision of a State or local educational agency, in order to—

(1) to ensure that our Nation’s schools and communities are safe; and

(2) to maximize the likelihood that such child shall not engage in such behaviors, or such behaviors do not recur.

CONGRESSIONAL RECORD—SENATE  May 26, 1999

school psychology internship, of which 600
hours are in the field of school psychology.

"(B) possesses State licensure or certifi-
cation in the State in which the individual 
works; or

"(C) in the absence of such State licensure or 
certification, possesses national certifi-
cation by the National School Psychology 
Certification Board;

"(3) the term 'school social worker' means 
an individual who holds a master's degree in 
social work and is licensed or certified by 
the State in which services are provided or 
holds a school social work specialist creden-
tial; and

"(4) the term 'supervisor' means an indi-
vidual who has the equivalent number of 
years of professional experience in such indi-
vidual's respective discipline as is required 
of teaching experience for the supervisor or 
administrative credential in the State of 
such individual.

"(e) AUTHORIZATION OF APPROPRIATIONS.—
There are authorized to be appropriated to 
carry out this section $15,000,000 for fiscal 
year 2000 and such sums as may be necessary 
each fiscal year for the 4 succeeding fiscal years.

SEC. 1630. CRIMINAL PROHIBITION ON DISTRIBUTION OF CERTAIN INFORMATION RELATING TO EXPLOSIVES, DESTRUCTIVE DEVICES, AND WEAPONS OF MASS DESTRUCTION.

(a) UNLAWFUL CONDUCT.—Section 842 of title 18, United States Code, is amended by adding at the end the following:

"(p) DISTRIBUTION OF INFORMATION RELATING TO EXPLOSIVES, DESTRUCTIVE DEVICES, AND WEAPONS OF MASS DESTRUCTION.—

"(1) Definitions.—In this subsection:

"(A) The term 'destructive device' has the same meaning as in section 921(a)(4).

"(B) The term 'explosive' has the same 
meaning as in section 841.

"(C) The term 'weapon of mass destruction' has the same meaning as in section 2332a(c)(2).

"(2) Prohibition.—It shall be unlawful for 
any person—

"(A) to teach or demonstrate the making or use of an explosive, a destructive device, or a weapon of mass destruction, or to distribute to any person, by any means, information pertaining to, in whole or in part, the manufacture or use of an explosive, destructive device, or weapon of mass destruction, knowing that such person intends to use the teaching, demonstration, or information for, or in furtherance of, an activity that constitutes a Federal crime of violence; or

"(B) to teach or demonstrate to any person the making or use of an explosive, a destructive device, or a weapon of mass destruction, or to distribute to any person, by any means, information pertaining to, in whole or in part, the manufacture or use of an explosive, destructive device, or weapon of mass destruction, knowing that the teaching, demonstration, or information is intended for, or in furtherance of, an activity that constitutes a Federal crime of violence; or

"(c) Penalties.—Section 844 of title 18, United States Code, is amended—

"(1) in subsection (a), by striking "person who violates any of subsections" and inserting the following: "person who—

"(1) violates any of subsections;" and

"(2) by striking the period at the end and inserting "or"

"(2) by adding at the end the following:

"(p) violates subsection (p)(2) of section 842, shall be fined under this title, imprisoned not more than 20 years, or both; and

"(r) in subsection (b), by striking "and (i)" and inserting "(i), and (p)."

(b) APPLICABILITY.—No amendment made 
to the Federal Sentencing Guidelines pursu-
ant to this section shall apply if the Federal offense in which the body armor is used consti-
tuates a violation of, attempted violation of, or conspiracy to violate the civil rights of 
any person by a law enforcement officer act-
ing under color of the authority of such law 
enforcement officer.

SEC. 1645. PROHIBITION OF PURCHASE, USE, OR DISTRIBUTION OF BODY ARMOR BY VIOLENT FELONS.

(a) DEFINITION OF BODY ARMOR.—Section 921 of title 18, United States Code, is amended by adding at the end the following:

"(q) 'violent felon' means any person who—

"(1) a crime of violence (as defined in sec-
ton); or

"(2) an offense under State law that would 
constitute a crime of violence under para-
graph (1) if it occurred within the special 
maritime and territorial jurisdiction of the 
United States.

"(b) PENALTY.—It shall be an affirmative 
defense under this section that—

"(1) the defendant obtained prior written 
certification from his or her employer that 
the defendant’s purchase, use, or possession of body armor was necessary for the safe perfor-

ance of lawful business activity; and

"(2) the use or possession by the defendant 
were limited to the course of such perfor-

ance.

SEC. 1646. DONATION OF FEDERAL SURPLUS BODY ARMOR TO STATE AND LOCAL LAW ENFORCEMENT AGENCIES.

(a) DEFINITIONS.—In this section, the terms 
"Federal agency" and "surplus property" 
have the meanings given such terms under 
section 3 of the Federal Property and Admin-

(b) DONATION OF BODY ARMOR.—Notwith-
standing section 208 of the Federal Property 
and Administrative Services Act of 1949 (40 
U.S.C. 484), the head of a Federal agency may 
donate body armor directly to any State or
there is a "public safety crisis in Indian national crime rate, and has concluded that has risen sharply despite a decrease in the ports that violent crime in Indian country enforcement officers while not wearing bullet resistant equipment; and
officer in the United States had access to additional bullet resistant equipment; and
enforcement agencies provide officers with bullet resistant equipment and video cameras.

SEC. 2513. DEFINITIONS.
"In this subpart—
"(1) the term 'equipment' means windshield glass, car panels, shields, and protective gear;
"(2) the term 'State' means each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands;
"(3) the term 'unit of general government' means a county, municipality, town, township, village, parish, borough, or other unit of general government below the State level;
"(4) the term 'Indian tribe' has the same meaning as in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e(e)); and
"(5) the term 'law enforcement officer' means any officer, agent, or employee of a State, unit of local government, or Indian tribe authorized by law or by a government agency to engage in or supervise the prevention, detection, or investigation of any violation of criminal law, or authorized by law to supervise sentenced criminal offenders.

Subpart C—Grant Program For Bullet Resistant Equipment

(1) Officer Dale Claxton of the Cortez, Colorado, Police Department was shot and killed by bullets that passed through the wind- shield of his police car after he stopped a stolen truck, and his life may have been saved if his police car had been equipped with bullet resistant equipment.
(2) according to studies, between 1985 and 1994, 709 law enforcement officers in the United States were feloniously killed in the line of duty.
(3) the Executive Committee for Indian Country Law Enforcement Improvements reports that violence in Indian country has risen sharply despite a decrease in the national crime rate, and has concluded that there is a "public safety crisis in Indian country"

(a) FINDINGS.—Congress finds that—
(1) the term 'equipment' means wind- shield glass, car panels, shields, and protective gear;
(2) the term 'State' means each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands;
(3) the term 'unit of general government' means a county, municipality, town, township, village, parish, borough, or other unit of general government below the State level;
(4) the term 'Indian tribe' has the same meaning as in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450e(e)); and
(5) the term 'law enforcement officer' means any officer, agent, or employee of a State, unit of local government, or Indian tribe authorized by law or by a government agency to engage in or supervise the prevention, detection, or investigation of any violation of criminal law, or authorized by law to supervise sentenced criminal offenders.

Subpart C—Grant Program For Video Cameras
SEC. 2521. PROGRAM AUTHORIZED.
"(a) In General.—The Director of the Bureau of Justice Assistance is authorized to make grants to States, units of local government, and Indian tribes to purchase video cameras for use by State, local, and tribal law enforcement agencies in law enforcement vehicles.
tribe shall submit an application to the Di-
ment funded under this subsection.
Any funds appropriated by Congress for the
costs of a program provided by a grant under
subsection (a) may not exceed 50 percent.
20 percent of the total amount appropriated
that a State, together with the grantees
the total amount appropriated in each fiscal
lands shall each be allocated 0.10 percent.
Virgin Islands, American
Samoa, Guam, and the Northern Mariana Is-
States, the District of Columbia, the Com-
wealth of Puerto Rico, the United States

``(b) USES OF FUNDS.—Grants awarded
under this subsection shall be used to provide:
(1) directed directly to the State, unit of local government, or Indian tribe; and
(2) used for the purchase of video cameras for law enforcement vehicles in the jurisdiction of
the State, unit of local government, or Indian tribe.
``(c) PREFERENCES.—In awarding grants under this subpart, the Director of the Bureau of Justice Assistance
may exercise preference as described in this subpart unless the chief executive officer of such unit of local government
considers or will consider using funding received under the block grant program for any or all of the costs relating to the pur-
chase of video cameras, but did not, or does not expect to use such funds for such pur-
pose.
``SEC. 2523. DEFINITIONS.
``In this subpart—
(1) the term ‘Indian tribe’ has the same
meaning as in section 4(e) of the Indian Self-
Determination and Education Assistance Act
(25 U.S.C. 450b(e));
(2) the term ‘law enforcement officer’ means
any officer, agent, or employee of a State, unit of local government, or Indian
tribe authorized by law or by a governmental agency to engage in or supervise the prevent-
tion, detection, or investigation of any viola-
tion of criminal law, or authorized by law to
sentence criminal offenders;
(3) has not received a grant under this subpart unless the chief executive
officer of such unit of local government con-
siders or will consider using funding re-
ceived under the block grant program for any or all of the costs relating to the pur-
chase of video cameras, but did not, or does not expect to use such funds for such pur-
pose.
``SEC. 2524. ELIGIBILITY.
``A unit of local govern-
ment which receives funding under the Local
Law Enforcement Block Grant program (de-
scribed under the heading ‘Violent Crime Re-
duction Programs, State and Local Law En-
forcement Assistance’ of the Departments of Commerce, Justice, and State, the Judiciary,
and Related Agencies Appropriations Act, 1998 (Public Law 105–119)) during a fiscal year in which it submits an application under this subpart shall not be eligible for a grant under this subpart unless the chief executive officer of such unit of local government cer-
tifies in writing to the Director that the unit of local government con-
sidered or will consider using funding received under the block grant program for any or all of the costs relating to the pur-
chase of video cameras, but did not, or does not expect to use such funds for such pur-
pose.
``SEC. 2525. APPLICATIONS.
``In this subpart—
(1) the term ‘Indian tribe’ has the same
meaning as in section 4(e) of the Indian Self-
Determination and Education Assistance Act
(25 U.S.C. 450b(e));
(2) the term ‘law enforcement officer’ means
any officer, agent, or employee of a State, unit of local government, or Indian
tribe authorized by law or by a governmental agency to engage in or supervise the prevent-
tion, detection, or investigation of any viola-
tion of criminal law, or authorized by law to
sentence criminal offenders;
``(A) $25,000,000 for each of fiscal years 2000
through 2002.''
``SEC. 1650. TECHNOLOGY DEVELOPMENT.
Section 202 of the Omnibus Crime Control
and Safe Streets Act of 1988 (42 U.S.C. 3722) is
amended by adding at the end the following:
``(e) BULLET RESISTANT TECHNOLOGY DE-
VOTED.—
``(1) IN GENERAL.—The Institute is author-
ized to—
(a) conduct research and other work to
develop new bullet resistant technologies
(i.e., acrylic, polymers, aluminized material,
and transparent ceramics) for use in police equipment (including windshield glass, car
pals, shields, and protective gear).
``(B) inventory bullet resistant tech-
nologies used in the private sector, in
surplus military property, and by foreign coun-
tries.
``(C) promulgate relevant standards for,
and conduct technical and operational test-
ing and evaluation of, bullet resistant tech-
nology and equipment, and otherwise facili-
tate the use of that technology in police
equipment.
""``PRIORITY.—In carrying out this sub-
section, the Institute shall give priority in
testing and engineering surveys to law en-
forcement partnerships developed in coordi-
nation with High Intensity Drug Trafficking Areas.
``(3) AUTHORIZATION OF APPROPRIATIONS.—
There is authorized to be appropriated to
carry out this subsection $3,000,000 for fiscal
years 2000 through 2002.''

course of a violation of subsection (a) maliciously
damages or destroys, or attempts to
Subtitle D—Jail-Based Substance Abuse

SEC. 1654. JAIL-BASED SUBSTANCE ABUSE TREATMENT PROGRAMS.

(a) USE OF RESIDENTIAL SUBSTANCE ABUSE TREATMENT GRANTS TO PROVIDE AFTERCARE SERVICES.—Section 1901 of part S of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796ff et seq.) is amended by adding at the end the following:

"(f) RESOURCES.—In establishing and maintaining a national clearinghouse for information on incidents of crime and terrorism—

(1) committed against or directed at any animal enterprise;
(2) committed against or directed at any commercial activity because of the perceived impact or effect of such commercial activity on the environment; or
(3) committed against or directed at any person because of such person’s perceived criminal activity because of the perceived threat against or directed at the United States or any element thereof.

(b) CLEARINGHOUSE.—The clearinghouse established under subsection (a) shall—

(1) accept, collect, and maintain information on incidents described in subsection (a) that is submitted to the clearinghouse by Federal, State, and local law enforcement agencies, by law enforcement agencies of foreign countries, and by victims of such incidents;
(2) collate and index such information for purposes of cross-referencing; and
(3) upon request from a Federal, State, or local law enforcement agency, or from a law enforcement agency of a foreign country, provide such information to assist in the investigation of an incident described in subsection (a).

(c) SCOPE OF INFORMATION.—The information maintained by the clearinghouse for each incident shall, to the extent practicable, include—

(1) the date, time, and place of the incident;
(2) details of the incident;
(3) any available information on suspects or perpetrators of the incident; and
(4) any other relevant information.

(d) DESIGN OF CLEARINGHOUSE.—The clearinghouse shall be designed for maximum ease of use by participating law enforcement agencies.

(e) PUBLICITY.—The Director shall publicize the existence of the clearinghouse to law enforcement agencies by appropriate means.

(f) RESOURCES.—In establishing and maintaining the clearinghouse, the Director may—

(1) through the Attorney General, utilize the resources of any other department or agency of the Federal Government; and
(2) accept assistance and information from private organizations or individuals.

(g) COORDINATION.—The Director shall carry out the Director’s responsibilities under this section in cooperation with the Director of the Bureau of Alcohol, Tobacco, and Firearms.

(h) DEFINITIONS.—In this section—

(A) the term "animal enterprise" has the same meaning as in section 43 of title 18, United States Code.
(B) the term "Director" means the Director of the Bureau of Investigation.

(i) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated for fiscal years 2000, 2001, 2002, 2003, and 2004 such sums as are necessary to carry out this section.

(ii) the local correctional facility will—

(A) coordinate the design and implementation of the program between local correctional facility representatives and the appropriate State and local alcohol and substance abuse agencies;

(B) implement (or continue to require) urinalysis or other proven reliable forms of substance abuse testing of individuals participating in the program, including the testing of individuals released from the jail-based substance abuse treatment program who remain in the custody of the local correctional facility; and

(C) carry out the program in accordance with guidelines, which shall be established by the State, in order to guarantee each participant in the program access to continuing care if transferred to a different local correctional facility within the State.

(iii) written assurances that Federal funds received by the local correctional facility from the State under this section will be used to supplement, and not to supplant, non-Federal funds otherwise made available for jail-based substance abuse treatment programs assisted with amounts made available to the local correctional facility under this section.

(iv) a description of the manner in which amounts received by the local correctional facility from the State under this section will be coordinated with Federal assistance for substance abuse treatment and aftercare services provided to the local correctional facility by the Substance Abuse and Mental Health Services Administration of the Department of Health and Human Services.

(iv) REVIEW OF APPLICATIONS.—

(A) IN GENERAL.—Upon receipt of an application under subsection (c), the State shall—

(1) review the application to ensure that the application, and the jail-based residential substance abuse treatment program for which a grant under this section is sought, meet the requirements of this section; and

(2) if so, make an affirmative finding in writing that the jail-based substance abuse treatment program for which assistance is sought meets the requirements of this section.

(B) APPROVAL.—Based on the review conducted under paragraph (1), not later than 90 days after the date on which an application is submitted under subsection (c), the State shall—

(1) approve the application, disapprove the application, or request a continued evaluation of the application for an additional period of 90 days; and

(2) notify the applicant of the action taken under paragraph (A) and, with respect to any denial of an application under paragraph (A), afford the applicant an opportunity for reconsideration.

(v) ELIGIBILITY FOR PREFERENCE WITH APPLICABLE FEDERAL FUNDS.—

(A) IN GENERAL.—In making grants under this section, a State shall give preference to applications from local correctional facilities that ensure that each participant in such programs shall—

(1) be granted local correctional facility parole status at the end of the period of incarceration for which the participant was convicted, if those activities are—

(i) directed at the substance abuse problem or problems of prisoners; and

(ii) intended to develop the cognitive, behavioral, social, vocational, and other skills of prisoners in order to address the substance abuse and related problems of prisoners; and

(2) the term 'local correctional facility' includes any correctional facility operated by a unit of State or local government.

(B) AUTHORIZATION.—

(1) IN GENERAL.—Not less than 10 percent of the total amount made available to a State under this section for any fiscal year may be used by the State to make grants to local correctional facilities in the State for the purpose of assisting jail-based substance abuse treatment programs established by those local correctional facilities.

(2) FEDERAL SHARE.—The Federal share of the cost of a grant made by a State under this section to a local correctional facility may not exceed 75 percent of the total cost of the jail-based substance abuse treatment program described in the application submitted under subsection (c) for the fiscal year for which the program receives assistance under this section.

(C) APPLICATIONS.—

(1) IN GENERAL.—To be eligible to receive a grant from a State under this section for a jail-based substance abuse treatment program, the chief executive of a local correctional facility shall submit to the State, in such form and containing such information as the State may reasonably require, an application that meets the requirements of paragraphs (1) and (2).

(2) APPLICATION REQUIREMENTS.—Each application submitted under paragraph (1) shall include—

(A) a description of the application, and the jail-based substance abuse treatment program for which assistance is sought, a description of the program and a written certification that the program will begin in effect for not less than 2 consecutive years before the date on which the application is submitted; and

(B) the date on which the participant completes the jail-based substance abuse treatment program; or

(ii) the date on which the participant is released from the correctional facility at the end of the participant’s sentence or is released on parole.
“(B) AFTERCARE SERVICES PROGRAM REQUIREMENTS.—Each grantee of a grant under paragraph (A), an aftercare services program meets the requirements of this paragraph if the program—

(1) in selecting individuals for participation in the program, gives priority to individuals who have completed a jail-based substance abuse treatment program;

(2) requires each participant in the program to submit to periodic substance abuse testing; and

(3) involves the coordination between the substance abuse treatment program and other human service and rehabilitation programs that may assist in the rehabilitation of program participants, such as—

(I) educational and job training programs;

(II) parole supervision programs; and

(IV) participation in self-help and peer group programs; and

(iv) assists in placing jail-based substance abuse treatment program participants with appropriate community substance abuse treatment facilities upon release from the correctional facility at the end of a sentence or on parole.

(e) COORDINATION AND CONSULTATION.—

(1) COORDINATION.—Each State that makes 1 or more grants under this section in any fiscal year shall, to the maximum extent practicable, implement a statewide communications network with the capacity to track the participants in jail-based substance abuse treatment programs established by local correctional facilities in the State as those participants move between local correctional facilities within the State.

(2) CONSULTATION.—Each State described in paragraph (1) shall consult with the Attorney General and the Secretary of Health and Human Services to ensure that each jail-based substance abuse treatment program assisted under this section, in order to verify the compliance of local correctional facilities with the requirements of this section.

(b) NO EFFECT ON STATE ALLOCATION.—Nothing in this section shall be construed to affect the allocation of amounts to States under section 1904(a).

(c) TECHNICAL AMENDMENT.—The table of contents for title I of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, in the matter relating to part S, by adding at the end the following:

“1106. Jail-based substance abuse treatment.”

Subtitle E—Safe School Security

SEC. 1655. SHORT TITLE.

This subtitle may be cited as the “Safe School Security Act of 1999.”

SEC. 1656. ELIGIBILITY AND ADMINISTRATION OF SCHOOL SECURITY TECHNOLOGY CENTER.

(a) School Security Technology Center.—

(1) ESTABLISHMENT.—The Secretary of Education, the Secretary of Energy, and the Attorney General, through the State, a description in paragraph (1) shall consult with the Attorney General, each application for a grant under this section shall be required to carry out all activities related to these topics are sponsored in large

(b) Authorization of Appropriations.—There is authorized to be appropriated to carry out this section—

(1) $3,700,000 for fiscal year 2000;

(2) $3,800,000 for fiscal year 2001; and

(3) $3,900,000 for fiscal year 2002.

SEC. 1657. GRANTS FOR LOCAL SCHOOL SECURITY PROGRAMS.

Subtitle part A of title IV of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7111 et seq.) is amended, in the matter relating to the implementation of this Act, the Attorney General, the Secretary of Education, the Secretary of Energy, or their designees, shall—

(1) develop a proposal to further improve school security; and

(2) submit that proposal to Congress.

Subtitle F—Internet Prohibitions

SEC. 1661. SHORT TITLE.

This subtitle may be cited as the “Internet Firearms and Explosives Advertising Act of 1999.”

SEC. 1662. FINDINGS; PURPOSE.

Congress finds the following:

(1) Citizens have an individual right, under the Second Amendment to the United States Constitution, to keep and bear arms. The Gun Control Act of 1968 and the Firearms Owners Protection Act of 1986 specifically state that it is not the intent of Congress to frustrate the free exercise of that right in enacting Federal legislation. The free exercise of that right includes law abiding firearm owners buying, selling, trading, and collecting guns in accordance with Federal, State, and local laws for whatever lawful use they deem desirable.

(2) The Internet is a powerful information medium, which has and continues to be an excellent tool to educate citizens on the training, education and safety programs available to use firearms safely and responsibly. It has, and should continue to develop, as a 21st century tool for “e-commerce” and marketing many products, including firearms and sporting goods. Many Web sites related to these topics are sponsored in large part by the sporting firearms and hunting community.

(3) It is the intent of Congress that this legislation be applied where the Internet is being exploited to violate the applicable explosives and firearms laws of the United States.

SEC. 1663. PROHIBITIONS ON USES OF THE INTERNET.

(a) In General.—Chapter 44 of title 18, United States Code, is amended by adding at the end the following:

“§ 1931. Criminal firearms and explosives solicitations

(a) PROHIBITIONS.—Any person who, in a circumstance described in paragraph (2), knowingly makes, prints, or publishes, or causes to be made, printed, or published, any advertisement or solicitation, or offers to receive, exchange, buy, sell, produce, distribute, or transfer—

(A) a firearm knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(B) explosive materials knowledge that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(C) ownership, manufacture, or transfer of a firearm, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(D) a firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(E) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(F) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(G) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(H) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(I) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(J) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(K) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(L) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(M) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(N) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(O) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(P) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(Q) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(R) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(S) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(T) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(U) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(V) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(W) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(X) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(Y) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(Z) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(aa) any firearm or explosive material, knowing that such transaction, if carried out as noticed or advertised, would violate subsection (a), (d), (g), or (x) of section 922 of this title, or

(b) REPEALS.—The provisions of this section are repealed.
shall be punished as provided under section 920(b).

“(2) The circumstance referred to in paragraph (1) is that—

“(A) such person knows or has reason to know that such notice or advertisement will be transmitted in interstate or foreign commerce by computer; or

“(B) such notice or advertisement is transported in interstate or foreign commerce by computer.”

“(b) PENALTIES.—Any individual who violates, or attempts or conspires to violate, this section shall be fined under this title or imprisoned not more than 1 year, and both, but if such person has one prior conviction under this section, or under the laws of any State relating to the same offense, such person shall be fined under this title and imprisoned not more than 5 years, but if such person has 2 or more prior convictions under this section, or under the laws of any State relating to the same offense, such person shall be fined under this title and imprisoned not less than 10 years nor more than 20 years, and such notice or advertisement is transmitted in interstate or foreign commerce by computer; or

“(c) DEFENSE.—It is an affirmative defense against any proceeding involving this section if the proponent proves by a preponderance of the evidence the following:

“(1) the advertisement or notice came from—

“(A) a web site, notice or advertisement operated by a person licensed—

“(i) as a manufacturer, importer, or dealer under section 923 of this chapter; or

“(ii) under chapter 40 of title 18; and

“(B) the development of character and moral values will—

“(1) To establish a national demonstration project to promote learning about successful youth interventions, with programs carried out by institutions that can identify and employ effective approaches for improving the lives and futures of high-risk youth and their communities.

“(2) To document best practices for conducting successful interventions for high-risk youth, based on the results of local initiatives.

“(3) To produce lessons and data from the operation experience from those local initiatives that will—

“(A) provide information to improve policy in the public and private sectors; and

“(B) promote the operational effectiveness of other local initiatives throughout the United States.

“SEC. 1674. ESTABLISHMENT OF DEMONSTRATION PROJECT.

“(a) In GENERAL.—The Attorney General shall establish and carry out a demonstration project. In carrying out the demonstration project, the Attorney General shall, subject to the availability of appropriations, award a grant to Public-Private Ventures, Inc. to enable Public-Private Ventures, Inc. to award grants to eligible partnerships to pay for the Federal share of the cost of carrying out collaborative intervention programs for high-risk youth, described in section 1676, in the following 12 cities:

“(1) Boston, Massachusetts.

“(2) New York, New York.

“(4) Pittsburgh, Pennsylvania.

“(5) Detroit, Michigan.

“(6) Denver, Colorado.

“(7) Seattle, Washington.

“(8) Cleveland, Ohio.

“(9) San Francisco, California.

“(10) Austin, Texas.

“(11) Memphis, Tennessee.

“(12) Indianapolis, Indiana.

“(b) FEDERAL SHARE.—

“(1) In GENERAL.—The Federal share of the cost described in subsection (a) shall be 70 percent.

“(2) NON-FEDERAL SHARE.—The non-Federal share of the cost may be provided in cash.

“SEC. 1675. ELIGIBILITY.

“(a) In GENERAL.—To be eligible to receive a grant under section 1674, a partnership—

“(1) shall submit an application to Public-Private Ventures, Inc. at such time and in such manner, and containing such information as Public-Private Ventures, Inc. may require;

“(2) shall enter into a memorandum of understanding with Public-Private Ventures, Inc.; and

“(b) SELECTION CRITERIA.—In making grants under section 1674, Public-Private Ventures, Inc. shall consider—

“(1) ability of a partnership to design and implement a local intervention program for high-risk youth;

“(2) the past experience of the partnership, and key participating individuals, in intervention programs for youth and similar community activities; and

“(3) the experience of the partnership in working with other community-based organizations.

“SEC. 1676. USES OF FUNDS.

“(a) PROGRAMS.—

“(1) CORE FEATURES.—An eligible partnership that receives a grant under section 1674 shall use the funds made available through the grant to carry out an intervention program for high-risk youth.

“(2) USE OF FUNDS.—The partnership shall use the funds made available through the grant to carry out the intervention program and—

“(A) provide financial support for personnel and supplies necessary for the operation of the intervention program; and

“(B) provide financial support for the overhead costs of the partnership and the sustainability of the intervention program.

“SEC. 1677. FINDINGS.

“(a) IN GENERAL.—The Congress finds that—

“(1) violent juvenile crime rates have been increasing in the United States schools, causing many high-profile deaths of young, innocent school children;

“(2) in 1994, there were 2,700,000 arrests of persons under age 18 (a third of whom were under age 15), up from 1,700,000 in 1991;

“(3) while crime is generally down in many urban and suburban areas, crime committed by teenagers has spiked sharply over the past few years;

“(4) there is no single solution, or panacea, to the problem of rising juvenile crime;

“(5) there will soon be over 34,000,000 teenagers in the United States, which is 26 percent higher than the number of such teenagers in 1990 and the largest number of teenagers in the United States to date;

“(6) in order to ensure the safety of youth in the United States, the Nation should begin to explore innovative methods of curbing the rise in violent crime in the United States schools, such as use of faith-based and grass-roots initiatives; and

“(7)(A) a strong partnership among law enforcement, local juvenile and family courts, schools, businesses, charitable organizations, families, and the religious community can create a community environment that will allow the Nation and reduces the occurrence of juvenile crime; and

“(B) the development of character and strong moral values will—

“(i) greatly decrease the likelihood that youth will fall victim to the temptations of crime; and

“(ii) improve the lives and future prospects of high-risk youth and their communities.

“SEC. 1678. PURPOSES.

“The purposes of this subtitlte are as follows:

“(1) To establish a national demonstration project to promote learning about successful youth interventions, with programs carried out by institutions that can identify and employ effective approaches for improving the lives and futures of high-risk youth and their communities.

“(2) To document best practices for conducting successful interventions for high-risk youth, based on the results of local initiatives.

“(3) To produce lessons and data from the operation experience from those local initiatives that will—

“(A) provide information to improve policy in the public and private sectors; and

“(B) promote the operational effectiveness of other local initiatives throughout the United States.

CONGRESSIONAL RECORD—SENATE
(B) VOLUNTEERS AND MENTORS.—The program will make significant use of volunteers and mentors.
(C) LONG-TERM INVOLVEMENT.—The program will feature activities that promote long-term involvement in the lives of the youth (including young adults).

(2) PERMISSIBLE SERVICES.—The partnership, in carrying out the program, may use funds made available through the grant to provide, directly or through referrals, comprehensive support services to the youth (including young adults).

(b) EVALUATION AND RELATED ACTIVITIES.—Using funds made available through its grant under section 1674, Public-Private Ventures, Inc. shall—
1. prepare and implement an evaluation design for evaluating the programs that receive grants under section 1674;
2. conduct a quarterly evaluation of the performance and progress of the programs;
3. organize and conduct national and regional conferences to promote peer learning about the operational experiences from the programs;
4. provide technical assistance to the partnerships carrying out the programs, based on the quarterly evaluations; and
5. prepare and submit to the Attorney General a report that describes the activities of the partnerships and the results of the evaluations.

(c) LIMITATION.—Not more than 20 percent of the funds appropriated under section 1677 for a fiscal year may be used—
1. for comprehensive support services under subsection (a)(2);
2. to carry out activities under subsection (b); and
3. to pay for the administrative costs of Public-Private Ventures, Inc., related to carrying out this subtitle.

SEC. 1677. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out this subtitle $1,000,000 for each of the fiscal years 2000 through 2004.

Subtitle H—National Youth Crime Prevention

SEC. 1681. SHORT TITLE.

This subtitle may be cited as the “National Youth Crime Prevention Demonstration Act”.

SEC. 1682. PURPOSES.

The purposes of this subtitle are as follows:
1. to establish a demonstration project that establishes violence-free zones that would involve successful youth intervention models in partnership with law enforcement, local housing authorities, private foundations, and other public and private partners.
2. To document best practices based on successful grassroots interventions in cities, including Washington, District of Columbia; Boston, Massachusetts; Hartford, Connecticut; and other cities to develop methodologies for widespread replication.
3. To increase the efforts of the Department of Justice, the Department of Housing and Urban Development, and other agencies in supporting effective neighborhood mediation approaches.

SEC. 1683. ESTABLISHMENT OF NATIONAL YOUTH CRIME PREVENTION DEMONSTRATION PROJECT.

The Attorney General shall establish and carry out a demonstration project. In carrying out the demonstration project, the Attorney General may, subject to the availability of appropriations, award a grant to the National Center for Neighborhood Enterprise (referred to in this subtitle as the “National Center”) to enable the National Center to award grants to grassroots entities in the following 8 cities:

2. Detroit, Michigan.
4. Indianapolis, Indiana.
5. Chicago (and surrounding metropolitan area), Illinois.
7. Dallas, Texas.
8. Los Angeles, California.

SEC. 1684. ELIGIBILITY.

(a) IN GENERAL.—To be eligible to receive a grant under this subtitle, a grassroots entity referred to in section 1683 shall submit an application to the National Center to fund intervention models that establish violence-free zones.

(b) SELECTION CRITERIA.—In awarding grants under this subtitle, the National Center shall consider—
1. the track record of a grassroots entity and key participating individuals in youth group mediation and crime prevention;
2. the ongoing participation of the National Cooperation of a grassroots entity with other local organizations; and
3. the ability of a grassroots entity to enter into partnerships with local housing authorities, law enforcement agencies, and other public entities.

SEC. 1685. USES OF FUNDS.

(a) IN GENERAL.—Funds received under this subtitle may be used for youth mediation, youth mentoring, life skills training, job creation, and entrepreneurship, organizational development training, development of long-term intervention plans, collaboration with law enforcement, comprehensive support services and local agency partnerships, and activities to meet community objectives in reducing youth crime and violence.

(b) GUIDELINES.—The National Center will identify local lead grassroots entities in each designated city.

(c) TECHNICAL ASSISTANCE.—The National Center, in cooperation with the Attorney General, shall also provide technical assistance for startup projects in other cities.

SEC. 1686. REPORTS.

The National Center shall submit a report to the Attorney General evaluating the effectiveness of grassroots agencies and other public entities involved in the demonstration project.

SEC. 1687. DEFINITIONS.

In this subtitle—
1. GRASSROOTS ENTITY.—The term “grassroots entity” means a not-for-profit community organization with demonstrated effectiveness in mediating and addressing youth violence by empowering at-risk youth to become agents of peace and community restoration.

2. NATIONAL CENTER FOR NEIGHBORHOOD ENTERPRISE.—The term “National Center for Neighborhood Enterprise” means a not-for-profit organization incorporated in the District of Columbia.

SEC. 1688. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to carry out this subtitle—
1. $5,000,000 for fiscal year 2000;
2. $5,000,000 for fiscal year 2001;
3. $5,000,000 for fiscal year 2002;
4. $5,000,000 for fiscal year 2003; and
5. $5,000,000 for fiscal year 2004.

(b) RESERVATION.—The National Center for Neighborhood Enterprise may use not more than 20 percent of the amounts appropriated pursuant to subsection (a) in any fiscal year for administrative costs, technical assistance, evaluation, and participation of participating grassroots organizations.

Subtitle I—National Youth Violence Commission

SEC. 1691. SHORT TITLE.

This subtitle may be cited as the “National Youth Violence Commission Act”.

SEC. 1692. NATIONAL YOUTH VIOLENCE COMMISSION.

(a) ESTABLISHMENT OF COMMISSION.—There is established a commission to be known as the National Youth Violence Commission (hereinafter referred to in this subtitle as the “Commission”). The Commission shall—
1. be composed of 16 members appointed in accordance with subsection (b); and
2. conduct its business in accordance with the provisions of this subtitle.

(b) MEMBERSHIP.—
1. PERSONS ELIGIBLE.—Except for those members who hold the offices described under paragraph (2)(A), and those members appointed under paragraph (2)(B)(vi), and (D)(v), the members of the Commission shall be individuals who have expertise, by both experience and training, in matters to be studied by the Commission under section 1693. The members of the Commission shall be well-known and respected among their peers in their respective fields of expertise. The members of the Commission shall be appointed for the life of the Commission as follows:
(A) Four shall be appointed by the President of the United States, including—
(i) the Surgeon General of the United States;
(ii) the Attorney General of the United States;
(iii) the Secretary of the Department of Health and Human Services; and
(iv) the Secretary of the Department of Education.
(B) Four shall be appointed by the Speaker of the House of Representatives, including—
(i) 1 member who meets the criteria for eligibility in paragraph (1) in the field of school administration, teaching, or counseling;
(ii) 1 member who meets the criteria for eligibility in paragraph (1) in the field of child or adolescent psychology;
(C) Two shall be appointed by the Minority Leader of the House of Representatives, including—
(i) 1 member who meets the criteria for eligibility in paragraph (1) in the field of law enforcement or crime enforcement; and
(ii) 1 member who is a recognized religious leader.

(D) Four shall be appointed by the Majority Leader of the Senate, including—
(i) 1 member who meets the criteria for eligibility in paragraph (1) in the field of law enforcement or crime enforcement; and
(ii) 1 member who is a recognized religious leader.

(E) Two shall be appointed by the Minority Leader of the Senate, including—
(i) 1 member who meets the criteria for eligibility in paragraph (1) in the field of school administration, teaching, or counseling; and

(ii) 1 member who is a recognized religious leader.

SEC. 1693. DUTIES.

The duties of the Commission shall include—
1. A STUDY.—Conduct an investigation of the causes of youth violence and the effectiveness of any prevention and intervention programs, policies, and strategies implemented or used by States or local governments which may help to prevent and reduce youth violence, and prepare a report containing recommendations for the prevention and reduction of youth violence.

2. A REPORT.—Submit to Congress a report, not later than January 1, 2001, which identifies—
(A) programs, policies, and strategies which may help to prevent and reduce youth violence,
(B) the availability of resources, personnel, and other support which may be needed to implement recommendations contained in the report, and
(C) the potential cost of implementing recommendations contained in the report.

3. A CONFERENCES.—Hold at least two national conferences to prepare and disseminate information to prevent and reduce youth violence.

4. ANOTHER REPORT.—Submit to Congress a report containing recommendations to Congress for Federal laws or legislation, or Federal funding, which may help to prevent and reduce youth violence.

5. ANOTHER CONFERENCES.—Hold at least one national conference to disseminate information to prevent and reduce youth violence.

6. ANOTHER REPORT.—Submit to the President and Congress a report containing recommendations to the President and Congress for Federal laws or legislation, or Federal funding, which may help to prevent and reduce youth violence.

7. A STUDY.—Conduct an investigation of the causes of youth violence and the effectiveness of any prevention and intervention programs, policies, and strategies implemented or used by States or local governments which may help to prevent and reduce youth violence, and prepare a report containing recommendations for the prevention and reduction of youth violence.
CONGRESSIONAL RECORD—SENATE

SEC. 1693. DUTIES OF THE COMMISSION.

(a) Study.—

(1) IN GENERAL.—It shall be the duty of the Commission to conduct a comprehensive factual study of incidents of youth violence to determine the root causes of such violence.

(2) MATTERS TO BE STUDIED.—In determining the root causes of incidents of youth violence, the Commission shall—

(A) study the effect upon youth of depictions of violence in the media and any impact of such depictions on incidents of youth violence;

(B) study the availability to youth of firearms,

(C) study the availability of firearms to youth,

(D) study the identity of any person or business that manufactured, distributed, or sold such firearms,

(E) study the availability to youth of information as the Commission considers necessary to carry out its duties under section 1693.

(3) TREATMENT OF SUBPOENAS.—Any subpoena issued by the Attorney General under paragraph (1) or (2) shall comply with the requirements for subpoenas issued under section 1905 of title 18, United States Code, and shall not be issued on the certification required under this paragraph.

(4) TREATMENT OF SUBPOENAS.—Any subpoena issued under this Act shall be treated as if it were a subpoena issued under section 1905 of title 18, United States Code, and shall not be issued on the certification required under this paragraph.

(b) Subpoenas.—The Commission shall, in making recommendations under this Act, take the testimony of witnesses, by subpoena, either through a sworn deposition or through written answers provided under oath (at the election of the person upon whom the subpoena is served), to interrogatories from the Commission regarding such information. The Attorney General shall issue the requested subpoena in the manner provided in section 1905 of title 18, United States Code, and shall apply to any false statements made with respect to the certification required under this paragraph.

(c) Information to be kept confidential.—The Commission or the Attorney General under paragraph (e) shall be considered an agency of the Federal Government for purposes of section 1905 of title 18, United States Code, and any information received by the Commission under this Act or shared with the Commission or the Attorney General under paragraph (e) shall be considered an agency of the Federal Government for purposes of section 1905 of title 18, United States Code.

(d) Disclosure.—Information obtained by the Attorney General under this Act shall not be disclosed to any person in any manner except—

(A) to Commission employees or employees of any individual or entity under contract with the Commission for the purpose of receiving, reviewing, or processing such information;

(B) upon court order; or

(C) when publicly released by the Commission in an aggregate or summary form that does not directly or indirectly disclose—

(i) the identity of any person or business entity;

(ii) any information which could not be released under section 1905 of title 18, United States Code.

(e) Contracting for Research.—The Commission may enter into contracts with any entity for research necessary to carry out the Commission’s duties under section 1693.
SEC. 1695. COMMISSION PERSONNEL MATTERS.

(a) Of Members.—Each member of the Commission who is not an officer or employee of the Federal Government shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code, for each day (including travel time) during which such member is engaged in the performance of the duties of the Commission. All members of the Commission who are officers or employees of the United States shall be without compensation in addition to that received for their services as officers or employees of the United States.

(b) Travel Expenses.—The members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of service for the Commission.

(c) Staff.—

(1) In General.—The Chairman of the Commission may, without regard to the civil service laws and regulations, appoint and terminate such director and such other additional personnel as may be necessary to enable the Commission to perform its duties. The employment and termination of an employee shall be subject to confirmation by a majority of the members of the Commission.

(2) Compensation.—The executive director shall be compensated at a rate not to exceed the rate payable for level V of the Executive Schedule under section 5316 of title 5, United States Code. The Chairman may fix the compensation of other personnel without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5, United States Code, relating to classification of positions and General Schedule pay rates, except that the rate of pay for such personnel may not exceed the rate payable for level V of the Executive Schedule under section 5316 of similar title.

(3) Detail of Government Employees.—Any Federal Government employee, with the approval of the head of the appropriate Federal agency, may be detailed to the Commission for intermittent services under section 5316 of such title.

SEC. 1696. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Commission and any agency of the Federal Government assisting the Commission in carrying out its duties under this subtitle such sums as may be necessary to carry out the purposes of this subtitle. Any sums appropriated under this section shall be available without fiscal year limitation, until expended.

SEC. 1697. TERMINATION OF THE COMMISSION.

The Commission shall terminate 30 days after the Commission submits the report under section 1665 of title 5, United States Code.

Appendix J—School Safety

SEC. 1698. SHORT TITLE.

This subtitle may be cited as the "School Safety Act of 1999".
Mr. GRASSLEY. On behalf of Senator MANTZER, I ask unanimous consent that the Committee on Environment and Public Works be discharged from further consideration of H.R. 1121 and that the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 1121) to designate the Federal building and United States courthouse located at 18 Greenville Street in Newman, Georgia, as the “Lewis R. Morgan Federal Building and United States Courthouse”:

There being no objection, the Senate proceeded to consider the bill.

Mr. GRASSLEY. I ask unanimous consent that the bill be considered read the third time and passed.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 1121) was considered read the third time and passed.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. GRASSLEY. I ask unanimous consent that the Senate immediately proceed to executive session to consider en bloc the following nominations on the Executive Calendar: Nos. 18, 72, 73, 74, 76, and 77 through 91, and all nominations on the Secretary’s desk in the Air Force, Army, Marine Corps, and Navy. I further ask unanimous consent that the nominations be confirmed, the motion to reconsider be laid aside, and any statements relating to the bill appear in the Record.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

DEPARTMENT OF STATE
Kent M. Wiedemann, of California, a Career Member of the Senior Foreign Service, Class of Minister-Counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Kingdom of Cambodia.

THE JUDICIARY
Hiram E. Puig-Lugo, of the District of Columbia, to be an Associate Judge of the Superior Court of the District of Columbia for the term of fifteen years.

Stephen H. Glickman, of the District of Columbia, to be an Associate Judge of the District of Columbia Court of Appeals for the term of fifteen years.

DEPARTMENT OF EDUCATION
Lorraine Fratte Lewis, of the District of Columbia, to be Inspector General, Department of Education.

DEPARTMENT OF DEFENSE
Ikrum U. Khan, of Nevada, to be a Member of the Board of Regents of the Uniformed Services University of the Health Sciences for a term expiring May 1, 1999.

Ikrum U. Khan, of Nevada, to be a Member of the Board of Regents of the Uniformed Services University of the Health Sciences for a term expiring May 1, 2005.

IN THE MARINE CORPS
The following named officers for appointment in the United States Marine Corps to the grade indicated under title 10, U.S.C., section 5046:

To be brigadier general
Brig. Gen. Robert R. Blackman, Jr., 0141
Brig. Gen. William G. Bowdon III, 2940
Brig. Gen. James T. Conway, 2270
Brig. Gen. Arnold Fields, 0640
Brig. Gen. Jan C. Huly, 6184
Brig. Gen. Jerry D. Humble, 2378
Brig. Gen. Paul K. Johnson, Jr., 3948
Brig. Gen. Harold Maschburn, Jr., 6435
Brig. Gen. Gregory S. Newbold, 6783
Brig. Gen. Clifford L. Stanley, 4900

The following named officer for appointment in the United States Marine Corps to the grade indicated under title 10, U.S.C., section 5046:

To be major general
Brig. Gen. Roger A. Brady, 6581

IN THE NAVY
The following named officer for appointment in the United States Navy to the grade indicated under title 10, U.S.C., section 624:

To be rear admiral (lower half)
Capt. Craig R. Quigley, 1769

IN THE ARMY
The following named officer for appointment in the United States Army to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., sections 601 and 3034:

To be major general
Brig. Gen. Robert A. Harding, 6107

IN THE AIR FORCE
The following named officer for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be lieutenant general
Maj. Gen. Paul V. Hester, 2071

IN THE MARINE CORPS
The following named officers for appointment in the United States Marine Corps to the grade indicated under title 10, U.S.C., section 624:

To be brigadier general
Col. Joseph Compuesto, 3413

IN THE NAVY
The following named officer for appointment in the United States Navy to the grade indicated under title 10, U.S.C., section 624:

To be rear admiral (lower half)
Capt. Craig R. Quigley, 1769

IN THE ARMY
The following named officer for appointment in the United States Army to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be major general
Brig. Gen. Robert A. Harding, 6107

IN THE AIR FORCE
The following named officer for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be lieutenant general
Maj. Gen. Paul V. Hester, 2071

IN THE MARINE CORPS
The following named officers for appointment in the United States Marine Corps to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be major general
Brig. Gen. Roger A. Brady, 6581

IN THE ACTING OFFICE
Col. Thomas J. Nicholson, 4342
Col. Douglas V. Ode, 7362
Col. Cornell A. Wilson, Jr., 9123

IN THE AIR FORCE
The following named officer for appointment in the United States Air Force to the grade indicated under title 10, U.S.C., section 624:

To be major general
Brig. Gen. Roger A. Brady, 6581

IN THE ARMY
The following named officer for appointment as the Vice Chief of Staff, United States Army, and appointment to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., sections 601 and 3034:

To be general
Lt. Gen. John M. Keane, 9856

IN THE MARINE CORPS
The following named officer for appointment in the United States Marine Corps to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be lieutenant general
Maj. Gen. Raymond P. Ayres, Jr., 5986

IN THE MARINE CORPS
The following named officer for appointment in the United States Marine Corps to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be lieutenant general
Maj. Gen. Earl B. Halston, 8306

IN THE NAVY
Air Force nomination of Donna R. Shay, which was received by the Senate and appeared in the Congressional Record of May 12, 1999.

Army nominations beginning Joseph B. Hines, and ending *Peter J. Molik, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.

Army nomination of Timothy P. Edinger, which was received by the Senate and appeared in the Congressional Record of May 12, 1999.

Army nominations beginning Robert B. Heathcock, and ending James B. Mills, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.

Army nominations beginning Paul B. Little, Jr., and ending John M. Shepherd, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.

Army nominations beginning Bryan D. Baugh, and ending Jack A. Woodford, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.
Marine Corps nominations beginning Dale A.摄像头, ending Kent P. Tomey, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.

Marine Corps nominations beginning James C. Addington, ending David J. Wilson, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.

Marine Corps nominations beginning James C. Andrus, and ending Philip A. Wilson, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.

Navy nomination of Don A. Frasier, which was received by the Senate and appeared in the Congressional Record of March 18, 1999.

Navy nomination of Norberto G. Jimenez, which was received by the Senate and appeared in the Congressional Record of May 12, 1999.

Navy nominations beginning Neil R. Bourassa, and ending Steven D. Tate, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.

Navy nominations beginning Basilio D. Bena, and ending Harold T Workman, which nominations were received by the Senate and appeared in the Congressional Record of May 12, 1999.

NOMINATION OF KENT WIEDEMANN TO BE U.S. AMBASSADOR TO CAMBODIA

Mr. McCONNELL. Mr. President, I would like to make three comments on the nomination of Mr. Kent Wiedemann, a career foreign service officer slated to be the next U.S. Ambassador to the Kingdom of Cambodia. Let me say at the outset: I strongly oppose this nomination.

First, it is apparent that Mr. Wiedemann has done little to further the cause of democracy in Burma where he has been Charged in Rangoon for the past several years. When we met in my office a few months ago, I asked him to cite specific instance where he supported Burmese democracy activists. Mr. Wiedemann produced a single letter from democracy leader Aung San Suu Kyi. However, he could not cite a single action or activity that he undertook on the ground to help strengthen justice and freedom in Burma. Not one.

In addition, I asked the Senate Foreign Relations Committee to request copies of all statements or speeches Mr. Wiedemann gave while serving in Burma which support the U.S. policy to restore the legitimate government of Aung San Suu Kyi to office. During his entire tenure, he could not provide a single example of remarks made at a Burmese forum supporting U.S. policy or democracy.

Pro-democracy Burmese activists wrote to me to share their views of Mr. Wiedemann’s tenure in Rangoon:

The arrival of Mr. Wiedemann . . . has not changed much in respect to our democracy movement.

[Wiedemann] remained inactive and ignorant to our vital problems, human rights, democracy and refugee, and made no efforts at seeking cooperation with our NGOs who had extensive experience in these regards ** *. We were left in the cold.

[There was] no coordination or effort on the part of the embassy, to help the democracy movement ** *. Apart from regular meetings with Ms. Aung San Suu Kyi, we knew of no efforts by Mr. Wiedemann.

These are not my words; they are those of courageous Burmese men and women who stand for principles and justice. Yet, less than one month after the passing of Aung San Suu Kyi’s husband, I understand that Mr. Wiedemann again requested a letter from her in support of his nomination.

He seems more interested in personal and career promotion than advancing the cause of freedom in Burma.

Second, Mr. Wiedemann is simply the wrong American representative to send to Cambodia at this difficult time. My colleagues will know that in March, I visited that war-ravaged country and was not encouraged by what I saw and heard. From Khmer Rouge trials to narcotics trafficking by the Cambodian military to rampant corruption and pervasive lawlessness, the next U.S. Ambassador must be a vocal advocate of human rights and the rule of law. When Mr. Wiedemann’s nomination was being considered last year, Prince Norodom Ranariddh—then the First Prime Minister who had been forced outside Cambodia in July 1997—and Sam Rainsy—an opposition leader who has survived two assassination attempts since March 1997—expressed their grave concerns:

We urge you not to replace Ambassador Kenneth Quinn after his term expires in Phnom Penh, and certainly not with Kent Wiedemann who we believe may be less than supportive of the cause of democracy in Cambodia.

Other Cambodian democracy activists have since joined the chorus of concern with his nomination. Again, in their own words:

[We are] deeply concerned that Mr. Wiedemann will court CPP [the Cambodian People’s Party] strongman Hun Sen—at the expense of the democratic opposition—in an attempt to win him over.

This particular nomination sends the wrong message at the wrong time to a government characterized by lawlessness and corruption. Mr. Wiedemann may lack the credentials to effectively promote American interests in Cambodia ** *. He is not known as a vocal supporter of democracy in Southeast Asia.

Despite my strong beliefs and the legitimate fears of those who would be most affected by Mr. Wiedemann’s appointment, it is clear that he will be confirmed by the Senate. Therefore, let me make clear my expectations of Mr. Wiedemann once he receives his credentials in Phnom Penh.

I expect him to meet regularly and publically with opposition political party leaders as well as democracy and human rights activists. I expect him to openly embrace and actively encourage the rule of law in Cambodia, even if this causes tensions with Prime Minister Hun Sen and the ruling CPP party. I expect him to support international and local nongovernmental organizations in Phnom Penh committed to legal and political reforms.

And, I expect that he will not shirk the awesome responsibilities as the American people’s representative to Cambodia, a task that President Ronald Reagan described in February 1983:

The task that has fallen to us as Americans is to move the conscience of the world, to keep alive the hope and dream of freedom. For if we fail or falter, there’ll be no place for the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s oppressed to flee to. This is not the role we sought. We preach no man’s land to the world’s...

CONGRESSIONAL RECORD—SENATE

11093

the ground running. He worked hard and made a name for himself and his family and built a successful career in a very short time.

And he was able to do all of that while taking the time to help others. I'm not even including those whose health and lives he has saved in his medical practice. I can't think of an event held in Nevada involving the public good that he has not been involved with in some way. We recently inaugurated a new Governor of the State of Nevada. Dr. Khan served very capably on his transition team.

In short, number 77 is an outstanding person, just as are all of those people who are numbered here, 18, 72, 73, 74, 77 through 91. It's regrettable that we here tend to rush through these nominations, for each one of these people will dedicate significant time and effort to service to this country.

Many of these nominations are of men and women who are being promoted to general officers in the armed forces, or are being promoted within the rank of general. Dr. Khan, however, will serve as a Member of the Board of Regents of the Uniformed Services University of the Health Sciences, a nomination that I think sets him apart even in this group of good and able men and women. He will serve the University and his country at his own expense. He will devote many hours and days and weeks of his time doing this, and he does it willingly.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will resume legislative session.

ORDERS FOR THURSDAY, MAY 27, 1999

Mr. GRASSLEY. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in adjournment until 9:30 a.m. on Thursday, May 27. I further ask that on Thursday, immediately following the prayer, the Journal of proceedings be approved to date, the morning hour be deemed to have expired, and the time for the two leaders be reserved for their use later in the day. I further ask consent that the Senate then resume the Department of Defense authorization bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. GRASSLEY. For the information of all Senators, the Senate will resume consideration of the Department of Defense authorization bill at 9:30 a.m. By a previous order, the Senate will immediately begin debate on the Allard amendment regarding the Civil Air Patrol. Further, a vote will occur in relation to the Allard amendment at 10 a.m. It is the intention of the bill managers to bring this bill early in the day tomorrow, and therefore cooperation of all Senators is appreciated.

ORDER FOR ADJOURNMENT

Mr. GRASSLEY. If there is no further business to come before the Senate, I now ask unanimous consent that the Senate stand in adjournment under the previous order, following some remarks I am going to make.

The PRESIDING OFFICER (Mr. HUTCHISON). Without objection, it is so ordered.

OLDER AMERICANS MONTH

Mr. GRASSLEY. Mr. President, Older Americans Month is drawing to a close. Before its end, I would like to describe another Iowan whose accomplishments reflect an ageless spirit.

MARGARET SWANSON

Margaret Swanson of Des Moines has been called the city's "best known and most beloved volunteer." Approaching age 80, she has completed 50 years of volunteer service.

Despite her pledge to slow down, she still maintains a heavy schedule. She estimates that she volunteers 20 hours to 25 hours a week. Sometimes, she has four or five board meetings in a single day.

New causes present themselves, and Mrs. Swanson is not of a mind to say no. Her varied interests have included the Iowa Lutheran Hospital, the American Red Cross, the Girl Scouts, the East Des Moines Chamber of Commerce and the Iowa Caregivers Foundation. She identifies a need, immerses herself in the task and produces the desired result.

When her church needed an elevator, she raised money to buy one. When a used car center tried to open in her neighborhood, she fought for a day care center instead. When a home for children had an out-of-tune piano, she found an inexpensive tuner. No challenge appears too large or too small for her attention.

Mrs. Swanson's volunteer work has earned her such esteem that other community activists clear their ideas with her before proceeding. Her fellow volunteers prize her knowledge and judgment.

Age doesn't seem to play a role in Mrs. Swanson's approach to volunteerism. She is an outstanding volunteer, rather than an outstanding senior volunteer. Growing older means that one finds an inexpensive tuner. No challenge appears too large or too small for her attention.

During Older Americans Month, I want to thank Mrs. Swanson for her limitless gifts of time and energy to the citizens of Des Moines. By setting high standards of altruism, and by inspiring new generations of volunteers, Mrs. Swanson perfectly illustrates the theme of Older Americans Month, "Honor the Past, Imagine the Future: Toward a Society for All Ages."

MR. GRASSLEY. Mr. President, there is a saying that success is the repetition of meaningful acts day after day. The most successful individuals identify a single purpose and work toward that cause in any capacity they can find.

An Iowan named Ed Johnston perfectly fits this definition of success. Mr. Johnston, of Humboldt, Iowa, tirelessly devotes his days to helping people with disabilities. He serves on the Governor's Developmental Disabilities Council, a position he earned after immersing himself in learning about the agencies that serve those with disabilities.

Several days a week, he volunteers at the Humboldt County Courthouse to help people with special needs in five surrounding counties. He interacts with legislators about the importance of providing proper job training to persons with disabilities. He offers his expertise when someone seeks a wheelchair ramp or assistive technology to accommodate a physical need.

Mr. Johnston brings the invaluable insight to his work of someone who has lived the life of the people he seeks to help. He himself has a physical disability, although no one would consider him limited in any way.

Those familiar with his work admire his compassion and persistence. He is able to navigate the layers of government agencies that sometimes appear impenetrable to those who need services.

Another impressive element of Mr. Johnston's advocacy work is that it is his second career. In the early 1990s, he retired after 38 years of running his own shoe repair business and devoted himself to his current vocation.

The Humboldt Independent newspaper called Mr. Johnston "a man on the move." The description is accurate. He moves government agencies, legislators and his community to respond to the needs of persons with disabilities. At age 64, Mr. Johnston is the youngest of the Iowans I have honored during Older Americans Month. I wish him many more years of his priceless work.

FRED AND FERN ROBB

Mr. GRASSLEY. Mr. President, the Fairfield Ledger of Fairfield, IA, printed a photo of a newly married couple earlier this month. The groom is wearing a stylish suit and a wide smile. The equally resplendent bride has eyes only for her new husband.

The couple is picture-perfect, just like any other couple starting a new life together. Unlike any other couple, the groom in this case is age 102.
The Rev. Fred Robb of Washington, Iowa, married Fern Claxton, 25 years younger, at the Presbyterian Church in Davenport on April 9, 1999. The couple renewed an old friendship at the Rev. Robb’s 100th birthday celebration in 1996. Among other meetings, they shared in the 100th birthday celebration of the minister’s brother, Milt Robb, in January.

The Rev. Robb is one of more than 750 centenarians in Iowa. I don’t know for a fact, but I’d bet many of them approach aging with the same positive spirit as the Rev. Robb.

I run into a lot of older Iowans who don’t impose unnatural limits on themselves because of their age. They don’t stop doing what’s important to them just because the calendar reflects a certain milestone. These individuals are ages, not due to the years they have lived but in their approach to life.

One of my favorite examples of an ageless Iowan is a 92-year-old woman who was in a hurry because she said she had to deliver meals to the “old people.”

During Older Americans Month, I want to congratulate Fred and Fern Robb on their ageless spirit and wish them a happy life together. By defying the conventional wisdom that newlyweds must be young, the Robbs advance the theme of Older Americans Month: “Honor the Past, Imagine the Future: Toward a Society for All Ages.”

BIRDS THAT DON’T FLY

Mr. GRASSLEY. Mr. President, I would like to draw the Senate’s attention to a growing embarrassment in our efforts to support counter-drug programs in Mexico. The story would be funny if it weren’t so serious and had not been going on for so long.

In 1996, the Department of Defense began the process of giving 73 surplus UH-1H helicopters—Hueys—to Mexico to assist in counter-smuggling operations. The President approved this transfer in September and the helicopters began arriving in December.

The main justification at the time for this contribution was to stop major air smuggling into Mexico. The Colombian and Mexican drug cartels were flying large quantities of drugs into Mexico in private airplanes. Sometimes these were multiple flights, sometimes single ones. Usually they were twin-engine propeller-driven aircraft, but occasionally they were larger, commercial-sized cargo jets. Earlier in the 1990’s, the U.S. State Department had instituted a program with Mexico’s Attorney General of developing a helicopter-based interdiction force. One can only assume that DoD sought to engage Mexico’s military in a similar way. Somewhere along the way, however, something went wrong.

Here’s one for the books. We have a civilian State Department program with the civilian Attorney General’s office in Mexico operating an air force that works. And we have the U.S. military trying to fly the Mexican military to operate an air force that doesn’t work.

It doesn’t only not work, it does not have a purpose, so far as I can tell. I have asked the GAO to look at this twice, and they have had a problem in identifying a purpose or results.

I have asked the Defense Department and it seems to be stumped as well. The Mexican Government is puzzled. We ought to be dumbfounded.

Today, none of the 70-plus helicopters is flying. No one can tell me when they might be flying. No one seems to know how many might fly if they ever do. No one seems to know what they are to do if they do fly. It is unclear how they can tell, we gave Mexico a capability it will cost. Or who is going to pay. Since no one knows the answer to any of these questions, no one can tell me how many helicopters might be needed. Is 70 too many? No one knows. Is this any way to run a program?

I cannot seem to get a straightforward answer from the Administration about what the plan for these helicopters is. As one U.S. embassy official noted to my staff last year, what do to with and about the helicopters is a muddle. It is a muddle all right; but it is one of our making.

When plans were first announced about putting these helicopters in Mexico, I began asking about the need for radars. Mexico lacks any sustained radar coverage of its southern approaches. If you are planning an air interdiction program, it would seem logical to include a plan for developing the eyes needed to make the program work. The response I got from both U.S. and Mexican officials to questions about radars was a deafening silence. Or vague promises. I kept asking. Finally, after about six months, the U.S. and Mexican Administrations informed me that no radars were necessary. And why? Because there was no longer a major air trafficking threat; it was mostly maritime. And when did we know there was no longer a major air threat? In 1995. And when did we give Mexico the helicopters? In 1996. So far as I can tell, we gave Mexico a capability to deal with a problem that both countries knew we no longer faced.

Today the threat is mostly maritime. So why helicopters?

Well, having taken that on board, the next question is, what are we going to have the helicopters do? It turns out that the best idea is to have them ferry troops around to chop poppies or marijuana. But this is mostly in the mountains and the helicopters aren’t very capable in the mountains. And how many helicopters are needed? It turns out there is no very clear answer. But before we got very far down that road, a problem was discovered that grounded all Hueys in 1998. This necessitated a worldwide assessment of the air worthiness of the equipment. Although this was eventually done, we continued to fly the helicopters until they had more assurances that there were no air safety questions. They also wanted more resources to fly the equipment.

So nothing was done and the helos sit. Until it happens. Hueys are old. Vietnam War-vintage aircraft. They are still serviceable, but they are aging and need a lot of care and feeding. It is also harder to get spare parts for them.

And being old, they are sometimes cranky. We gave Mexico 73 of these birds in the spirit of cooperation. So, today, the helos in Mexico have been on the ground becoming very expensive museum-quality memorials to the United States-Mexican partnership. After three years of asking, our frustrations for flying the equipment is in doubt. So even if we could get the birds up tomorrow, it is not clear that the air crews are qualified to fly them. And we still aren’t sure what they are supposed to do if we did. We are not even sure at this point if the Mexicans still want the helos.

It is in this environment that I have asked the Department of Defense to provide me and Congress with a plan. Since no one in the past two to three years seems to have a clue about what we are doing, I think it is reasonable and prudent to have a plan on the record. This is not rocket science. But so far, I have not had much luck. Now, you would think that there would already be a plan.

Given the importance of our drug cooperation with Mexico it would not be unreasonable to expect one. We have bilateral agreements. We have binational strategies. We have joint measurements of effectiveness. We have had “high-level contact group” meetings at great public expense to both countries. But apparently we have no plan. We have had recently several Administration visits to Mexico and more discussions. But there is no plan. The administration cannot seem to tell the difference between “talking” and a “plan.”

I, for one, do not think that this is a situation we can accept any longer. When one is asking, one has to begin to wonder just what it is we think we are doing. I have not mentioned the C-26 airplanes that we gave to Mexico and other countries for which there appears to be just as much lack of thinking. That is for another time. But there is one more piece to the helicopter story.

As of last week, a new problem has developed and all Hueys are grounded again. This doesn’t affect the helicopters in Mexico since they weren’t flying anyway, but it leaves us even more in doubt. The result is an embarrassment for both countries.

I yield the floor.
ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

The PRESIDING OFFICER. Under the previous order, the Senate stands in adjournment until 9:30 a.m. tomorrow.

Thereupon, the Senate, at 9:04 p.m., adjourned until Thursday, May 27, 1999, at 9:30 a.m.

NOMINATIONS

Executive nominations made by the Senate May 26, 1999:

DEPARTMENT OF STATE

A FLETHER BURLEIGH, OF CALIFORNIA, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF CAREER, CANDIDATE TO BE CONSULAR OFFICER AND SECRETARY IN THE DIPLOMATIC SERVICE OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF THE PHILIPPINES AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF THE PHILIPPINES AND TO SERVE CONCURRENTLY AND WITHOUT ADDITIONAL COMPENSATION AS AMBASSADOR TO THE REPUBLIC OF PALAU.

UNITED STATES INFORMATION AGENCY

ALBERTO J. MORA, OF FLORIDA, TO BE A MEMBER OF THE BOARD OF DIRECTORS OF THE UNITED STATES INFORMATION AGENCY FOR A TERM EXPiring AUGUST 13, 2000. (REAPPOINTMENT)

FOREIGN SERVICE

UNITED STATES AIR FORCE

JEFFREY S. TRAVIS, OF NEW JERSEY, TO BE A MEMBERS OF THE UNITED STATES AIR FORCE FOR A TERM EXPiring AUGUST 31, 2000. (REAPPOINTMENT)

FOREIGN SERVICE

DEPARTMENT OF STATE

A FLETHER BURLEIGH, OF CALIFORNIA, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF CAREER, CANDIDATE TO BE CONSULAR OFFICER AND SECRETARY IN THE DIPLOMATIC SERVICE OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF THE PHILIPPINES AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF THE PHILIPPINES AND TO SERVE CONCURRENTLY AND WITHOUT ADDITIONAL COMPENSATION AS AMBASSADOR TO THE REPUBLIC OF PALAU.

UNITED STATES INFORMATION AGENCY

ALBERTO J. MORA, OF FLORIDA, TO BE A MEMBER OF THE BOARD OF DIRECTORS OF THE UNITED STATES INFORMATION AGENCY FOR A TERM EXPiring AUGUST 13, 2000. (REAPPOINTMENT)

FOREIGN SERVICE

UNITED STATES AIR FORCE

JEFFREY S. TRAVIS, OF NEW JERSEY, TO BE A MEMBERS OF THE UNITED STATES AIR FORCE FOR A TERM EXPiring AUGUST 31, 2000. (REAPPOINTMENT)
RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON MAY 12, 1999.

THE FOLLOWING-NAMED OFFICER FOR APPOINTMENT TO THE GRADE INDICATED IN THE UNITED STATES ARMY UNDER TITLE 10, U.S.C., SECTIONS 624 AND 628:

To be lieutenant colonel

TIMOTHY P. EDINGER, 0000

THE FOLLOWING-NAMED OFFICER FOR APPOINTMENT TO THE GRADE INDICATED IN THE UNITED STATES ARMY UNDER TITLE 10, U.S.C., SECTIONS 624 AND 1552:

To be lieutenant colonel

CHRIS A. PHILLIPS, 0000

ARMY NOMINATIONS BEGINNING ROBERT B. HEATHCOCK, AND ENDING JAMES B. MILLS, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON MAY 12, 1999.

IN THE MARINE CORPS

IN THE NAVY

THE FOLLOWING-NAMED OFFICER FOR APPOINTMENT TO THE GRADE INDICATED IN THE UNITED STATES NAVY RESERVE UNDER TITLE 10, U.S.C., SECTION 12203:

To be captain

DON A. FRASIER, 0000

THE FOLLOWING-NAMED OFFICER FOR TEMPORARY APPOINTMENT TO THE GRADE INDICATED IN THE U.S. NAVY UNDER TITLE 10, U.S.C., SECTION 5721:

NORBERTO G. JIMENEZ, 0000

WITHDRAWAL

Executive message transmitted by the President to the Senate on May 26, 1999, withdrawing from further Senate consideration the following nomination:

EXECUTIVE OFFICE OF THE PRESIDENT

MIRTA K. SALE, OF MARYLAND, TO BE CONTROLLER, OFFICE OF FEDERAL FINANCIAL MANAGEMENT, OFFICE OF MANAGEMENT AND BUDGET, VICE G. EDWARD DESERVE WHICH WAS SENT TO THE SENATE ON JANUARY 7, 1999.
The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. Sununu).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The Speaker pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC.
May 26, 1999.

I hereby appoint the Honorable John E. Sununu to act as Speaker pro tempore on this day.

J. Dennis Hastert,
Speaker of the House of Representatives.

PRAYER

The Chaplain, Reverend James David Ford, D.D., offered the following prayer:

We learn from the book of Psalms that we should make a joyful noise to You, O God, and that we should break forth into joyous song and sing praises. With all of the suffering and pain in the world, let us begin our day by giving thanks to You, gracious God, for Your goodness and Your love to us and to all people. You lead us when we are lost; You comfort us when we are weak; You forgive us when we have missed the mark, and You show us the path of good will and peace. With gratefulness and praise we laud Your goodness and Your love to us and to all people. You lead us when we are lost, and yes, in honor of those who gave their lives for our freedom.

AMERICANS DESERVE ANSWERS, NOT QUESTIONS

(Mr. Burr of North Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. Burr of North Carolina. Mr. Speaker, I rise today to tell a story, an entertaining story of spies and secrets. Some may even think it sounds like a James Bond movie, but unfortunately, it is not a fictional tale. I am, of course, referring to the Select Committee’s report that was released yesterday, a report that details acts of espionage compromising our most precious military secrets. These findings frightened me months ago when I was briefed and they disgusted me today.

What is the difference between a Bond movie and the Select Committee’s report? In the Bond movie, the Department of Justice would have allowed wiretaps. In a Bond movie, we would have gotten the bad guy.

All the American people have gotten out of this process are questions. Why did the Department of Justice limit the investigation? Why did the Department of Justice drag their feet? Why was not the President told and, if he was, why did he not do anything? Why, why, why?

The American people, Mr. Speaker, deserve answers, not questions.

CONSUMER SAFETY WITH GUNS

(Ms. Jackson-Lee of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. Jackson-Lee of Texas. Mr. Speaker, as we move toward Memorial Day to honor this Nation’s heroes who have given their lives to save us and to give us liberty and freedom, I want to rise today to say that I am serious about our children, serious about the violence, the death, the pain, the anguish. Serious about Americans who wish that we would act in honor of our children, in honor of those who we have lost, and yes, in honor of those who gave their lives for our freedom.

Mr. Speaker, is it not interesting that this little toy with its plastic eyes is regulated by the Consumer Product Safety Commission, and yes, this little fellow is likewise regulated, because we know children who do not understand the danger of putting things in their mouth have to be protected. But yet, guns, Mr. Speaker, are allowed to be in the hands of our children. There are no safety locks and, in fact, we do not understand that we must be serious about protecting our children, Mr. Speaker.

Pass the Gun Law Safety Act this week.

U.S. NUCLEAR ARSENAL COMPROMISED

(Mr. Schaffer asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. Schaffer. Mr. Speaker, people in the White House talk an awful lot about “the children.” Well, today, our children are a lot less secure because our entire nuclear arsenal has been compromised.

Communist China acquired our most sophisticated technology, some by theft but even more right through the front door. This administration has sold the Chinese communists high-speed supercomputers, sophisticated satellite launch technology, state-of-the-art machine tools and ultra sophisticated nuclear energy design technology. Communist China now sells our technology to Iran and other rogue nations, but we do nothing. The White House covers it up and even denies China has done it.

We are discovering now that in 1995 communist China had stolen the crown jewel of our nuclear arsenal and yet this administration did nothing about it. If the President is to be believed, no one even informed the Commander in Chief.

This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.
Well, now, communist China has 13 nuclear missiles which are more accurate, more deadly, because of White House actions, aimed at our children.

CONGRATULATIONS TO UNION CARBIDE CORPORATION TECHNICAL CENTER

(Mr. WISE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WISE. Mr. Speaker, this is a noteworthy week in South Charleston, West Virginia, as Union Carbide Technical Center celebrates its 50th anniversary. As an innovator for Union Carbide's activities located worldwide, the Tech Center was located in April 1949 in the original research building. I want to recognize the CEO, Dr. William Joyce, the employees and the retirees of the Technical Center, as we look forward to continuing a very productive working relationship.

The Tech Center, in addition to being a highly profitable and decorated organization, has also been an excellent corporate citizen in its involvement as volunteers in the area and a good partner for the community.

Since its location 50 years ago, the site has grown to approximately 650 acres, and the technical center offers worldwide assistance to Union Carbide in its manufacturing businesses and research, development and engineering. It comes as no surprise that Union Carbide has won awards for three of its products and services primarily developed at the technical center.

We want to congratulate again Union Carbide for being a good citizen and its 50th anniversary.

WANG GOT GUNS AND CLINTON GOT CASH

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, I would like to respond to my Second Amendment-loathing friend on the liberal side of the aisle. If the administration and its defenders in Congress are so concerned about guns, then why did the Clinton administration sign a waiver on February 2, 1996 for a Chinese gun company to import 100,000 additional assault weapons and millions of bullets?

Here is some information that my colleagues on the other side might not want to hear. Four days later, on February 6, 1996, the Chinese arms exporter attended a White House fund-raiser; I mean a coffee, that raised money, but it was not a fund-raiser. That exporter was named Wang Jun.

In obtaining a visa he had filed a letter from Ernest Green, a close Clinton friend and top fund-raiser. The day after he had coffee with the President, Ernest Green's wife contributed $50,000 to the DNC. Her contribution the year before was $250.

Can anyone imagine why suddenly Wang got his guns on American streets and Clinton got his campaign cash?

WAR IN KOSOVO

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, the headlines read, crisis in Kosovo. Conflict in Kosovo. Spare me, Mr. Speaker. This is war in Kosovo, stone-cold war. And it is time, it is time to support independence for Kosovo. There will be no long-lasting peace without it. It is time to arm the KLA and send Milosevic looking over his shoulder, and it is time to arrest Milosevic for war crimes.

One last point. After it is over, Europe should clean up Kosovo and Europe should pay for the concrete and steel to rebuild Kosovo, not the American people.

REJECT AMENDMENT TO INCREASE MILK TAX

(Mr. GREEN of Wisconsin asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GREEN of Wisconsin. Mr. Speaker, later today the House is expected to consider an amendment to the agricultural appropriations act that would essentially prevent Secretary Glickman from implementing his proposed very modest milk marketing reforms.

This amendment is terrible public policy. It would reinforce what I call the milk tax, government-imposed costs on dairy products, costs to the tune of $1 billion annually.

In a recent letter, Citizens Against Government Waste said it "opposes any effort to artificially mandate higher milk prices and will score the vote for such an amendment as a vote against the U.S. taxpayer." Against the U.S. taxpayer.

This amendment is bad for taxpayers, it is bad for consumers, and yes, it is bad for family farms. I urge my colleagues to join me later today in rejecting this amendment to increase the milk tax.

GUN VIOLENCE IN OUR SCHOOLS

(Mrs. CAPPS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPPS. Mr. Speaker, as a school nurse I rise today to address a national crisis in our schools: gun violence. I spent last weekend with my two grandchildren. Hugging them, my heart ached for the parents and grandparents whose kids attend Heritage and Columbine High School.

Something is terribly wrong when school shootings become commonplace in our society. There is no simple solution to youth violence, but common sense gun control is an important place to start.

Mr. Speaker, we worry about the safety of our children's toys, but we do not have child safety locks on guns. Let us get real.

Last week, the Senate passed sensible legislation that will save lives. Now the House must act. Not next month, today. Each day, 13 children under age 19 are killed because of guns.

Mr. Speaker, Congress should listen to parents, grandparents and students everywhere and act now to stop this national epidemic.

DOD AUTHORIZATION BILL

(Mr. RYUN of Kansas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RYUN of Kansas. Mr. Speaker, the United States military has been stretched to the point of breaking. Congress has had to increase the President's defense budget by $50 billion over the last five years just to add to important unfunded requirements. While operational commitments around the world have increased by 300 percent since 1989, the Air Force and Army have been reduced by 45 percent, the Navy, 36 percent, and the Marines, 12 percent. Mr. Speaker, these are frightening numbers.

The conflict in Kosovo has revealed to the world the questionable readiness state of the United States military. Readiness of our military equipment goes beyond the state of hardware and encompasses the quality of life of our soldiers.

Mr. Speaker, the United States military has been operationally deployed 30 times in the last 8 years. To retain our skilled military personnel, operation tempo must be reduced and readiness accounts must be increased.

THE WAR IN KOSOVO

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Mr. Speaker, the Los Angeles Times headline points out that the United States or NATO is preparing to send 50,000 troops to Kosovo, to the Kosovo border. They call them
Mr. SHOWS. Mr. Speaker, today I am introducing the NAFTA Impact Relief Act. Since NAFTA was introduced in 1994, factories across the country and in my district, Centreville, Prentiss, Collins and Magee, have shut down and lost thousands of jobs, exploiting cheap foreign labor. The NAFTA job retraining program is sorely underfunded and really not very complete. It misses the point. When people in the rural area lose a factory, there is not a job to be retrained for. They need actual jobs. The NAFTA Impact Relief Act creates new jobs by authorizing the Secretary of Commerce to designate NAFTA-impacted communities similar to enterprise zones. Businesses would receive tax incentives to locate and hire workers in these communities. The NAFTA Impact Relief Act is a win-win for business and labor, and needs to become law. I urge my colleagues to get behind the bill, because there are many, many unemployed Americans in this country because of NAFTA. Please help us.

Mr. Showes. Mr. Speaker, today I am introducing the NAFTA Impact Relief Act. Since NAFTA was introduced in 1994, factories across the country and in my district, Centreville, Prentiss, Collins and Magee, have shut down and lost thousands of jobs, exploiting cheap foreign labor. The NAFTA job retraining program is sorely underfunded and really not very complete. It misses the point. When people in the rural area lose a factory, there is not a job to be retrained for. They need actual jobs. The NAFTA Impact Relief Act creates new jobs by authorizing the Secretary of Commerce to designate NAFTA-impacted communities similar to enterprise zones. Businesses would receive tax incentives to locate and hire workers in these communities. The NAFTA Impact Relief Act is a win-win for business and labor, and needs to become law. I urge my colleagues to get behind the bill, because there are many, many unemployed Americans in this country because of NAFTA. Please help us.

THE ADMINISTRATION HAS FAILED IN PROTECTING AMERICA'S NUCLEAR WEAPONS SECRETS

(Mr. Hefley asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. Hefley. Mr. Speaker, in 1995 the person in charge of counterintelligence at the Department of Energy discovered some devastating information. It appeared that the Communist Chinese had obtained our most important nuclear secrets. The most advanced nuclear weapon in our arsenal, the W-88, had somehow been given to the Communist Chinese. It was so horrific he could hardly believe his ears; the worst possible case, the ultimate national security disaster.

Communist China was the same country that was selling weapons of mass destruction technology to Iran and other rogue regimes, the same country that imprisoned citizens for their political beliefs, the same country that massacred a thousand in Tiananmen Square for believing in freedom.

That Energy Department official then sounded the alarm, but no one listened. The Justice Department unbelievably turned down the FBI's request twice to wiretap the scientist suspected of giving away the most important secret the United States owned, and political appointees at the White House downplayed the disaster. This administration has utterly failed us.

Mr. GIBBONS. Mr. Speaker, my parents told me that the best security is a bright light. Americans want to know if the Chinese nuclear arsenal was built by the genius of American scientists and on the backs of the American taxpayers.

Our counterintelligence at the Department of Energy has been a specific concern of the Permanent Select Committee on Intelligence for some time, and we all deserve answers.

This Congress must pursue investigative public hearings based on information provided by the Cox Committee that examines Chinese-directed espionage against the United States, including efforts to steal nuclear and military secrets; that will examine Chinese-directed covert action type activities conducted against the United States, such as the use of agents to influence and efforts to subvert or otherwise manipulate the U.S. political process.

Mr. Speaker, Motel 6, I think, has a motto: We'll keep the lights on. Unfortunately, the White House has turned the lights off, and now our national security is at stake.

America deserves answers, and that is what they shall get. I yield back to America all the lights they may need and any national security we have left.
CONGRESS SHOULD ENACT GUN SAFETY LEGISLATION NOW

(Mr. CUMMINGS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CUMMINGS. Mr. Speaker, when manufactured products injure our children, we must act. When manufactured products play a role in the death of our children, we must act. This concept is simple and is not new. For years safety regulations have been promulgated aimed at protecting our children from certain products.

I hold in my hand a product that is small but has maimed or taken the lives of thousands, a firecracker. Forty percent of its victims have been children under 15 years of age. Fortunately, however, injury rates from this product are at an all-time low, dropping 30 percent from 1995 to 1996 alone. Why? Federal safety regulations. In other words, we took action.

It took decades of tragic experience to teach us this lesson. We are now facing a similar situation. Thirteen of our Nation’s youth are dying each day from a manufactured product, guns.

I submit that we learn our lesson now. Again, this concept is simple. It is not new. Let us act this week to ensure the safety of our children.

INTRODUCTION OF LEGISLATION TO PROVIDE RELIEF FOR THE MARRIAGE TAX PENALTY

(Mr. KNOLLENBERG asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KNOLLENBERG. Mr. Speaker, with Federal taxes at an all-time high, Congress has, I think, a moral obligation to provide some relief to the American people. While there are several tax cut proposals that are being debated in the House, I believe one deserves immediate attention. That issue is the marriage penalty.

Under current law, 21 million couples, 21 million couples are required to pay an additional $1,400 a year in taxes simply because they are married. This ridiculous policy is undermining the institution of marriage, and making it harder for working families to get ahead.

I have introduced legislation that addresses this problem by increasing the standard deduction provided to married couples so that it equals twice the amount of the deduction provided to single taxpayers. It should make sense.

This commonsense proposal would provide some relief from the marriage penalty, inject some fairness into the Tax Code, and strengthen working families. I urge my colleagues to support it.

INTERNATIONAL CODE-SHARING AGREEMENTS

(Ms. EDDIE BERNICE JOHNSON of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, it is interesting. I have listened to all the speeches, and I can tell the Members that we do have a number of issues that are pressing that we need to address. Gun violence certainly is one we need to address, and not just talk about the issue, but also talk about what it takes to correct it.

We are correcting the Chinese situation. It is going to be addressed. It is being addressed in this administration. It has been going on for 20 years.

I rise today to talk about another issue of great concern to the flying public. We hope we can address it soon, and stop looking for the lack of taking all of these planes crashing that are connected with ours. It is called international code-sharing agreements.

Code sharing agreements are agreements between air carriers, most often a U.S. carrier and a foreign flag carrier, whereby the U.S. carrier can sell seats on the other carrier’s flight while identifying it as their own.

What this means in an international market is that while the passenger’s ticket may say he or she is flying on a U.S. carrier overseas, in reality it is an overseas flight, and they do not meet the same safety standards.

I will continue to work to get this issue addressed.

BLAME AND THE CHINESE ESPIONAGE SCANDAL

(Mr. CHABOT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CHABOT. Mr. Speaker, with regard to the Chinese espionage scandal, I have heard the other side say over and over again; let us not overreact; let us not politicize this; there is plenty of blame to go around; it is Ronald Reagan’s fault, and, of course, the “everybody does it” defense that we hear every single time wrongdoing by this administration is discovered. It is almost as though they have no interest in the real problem, our national security.

This administration’s real attention, its real interest, was raising campaign cash, avoiding blame, avoiding embarrassment, getting reelected. Change the subject, talk about guns, cigarettes, school uniforms. Let us do it for the children.

If the Clinton administration had really wanted to do something to make
the children of this Nation safer, they would have protected them from potential nuclear annihilation some day. That is what they should have been doing. Instead, they were raising campaign cash.

WHY WAIT TO DEBATE GUN SAFETY LEGISLATION?
(Ms. DELAURA asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DELAURA. Mr. Speaker, yesterday the Republican leadership announced that it was willing to bring gun safety legislation to the floor of the House in mid June.

After a week of wrangling and stalling, I applaud their decision to join the Democrats to discuss fair and sensible measures that will in fact save children's lives. But why are we waiting? There is not a reason to put off until tomorrow actions that will reduce the chances of tragedy today.

Why do American parents have to wait, when they are so scared? I quote to my colleagues from USA Today. "Slightly more than half of parents with school-aged children say they fear for their children's safety when they are at school, up from 37 percent 1 year ago."

Parents in this country need to know that this body is willing to act, willing to act quickly to allay their fears and not make them fearful to send their children to school every single day. That is not what the United States is all about.

Why are we stalling the American public? Do we want the additional time to give the NRA the opportunity to twist arms? Measures like this will pass this House in a heartbeat. Let's do it, let us do it in the next 2 days.

ARMING OF COMMUNIST CHINA
(Mr. TANCREDO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TANCREDO. Mr. Speaker, the mantra of the Democrats this day has been gun control. But Mr. Speaker, it is very, very difficult to entrust this country's defense to an administration that has never taken national security issues seriously.

And there is an even bigger scandal, the effort to downplay, to cover up and to thwart investigations into the first assassination attempt on President Kennedy. In 1965, I repeat, the bigger of the two scandals is not that China successfully spied on the U.S., but the almost incomprehensible reaction to that fact when it was discovered in 1995.

The biggest scandal of all is the arming of the communist Chinese after hundreds of thousands of dollars of campaign contributions to the Democratic Party.

HOUSE SHOULD PASS GUN SAFETY LEGISLATION BEFORE MEMORIAL DAY BREAK
(Ms. DEGETTE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DEGETTE. Mr. Speaker, the recent spate of school shootings has left us all saddened, stunned and determined to do something. It is time for all of us to respond to the outrage of the American people. The public wants us to protect children from random gun violence, and they want action on child gun safety legislation. We need to act and we need to act now. Every day we wait, another 13 children die at the hands of a gun.

I do not believe that legislation is the only solution to this complex problem of youth violence, but I do believe that the easy availability of firearms is a clear contributing problem. That is why my Democratic colleagues and I urge the leadership to bring three reasonable gun safety bills to the House floor this week. These three bills are similar to the legislation enacted in the Senate and are commonsense solutions to some of the problems we face.

First is a bill that requires background checks for all firearms sales at gun shows. Second, a bill that requires all handguns to be fitted with child safety locks. And, finally, banning large ammunition magazines. Let us do it this week.

SOCIAL SECURITY
(Mr. HOEKSTRA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOEKSTRA. Mr. Speaker, it is time to review a little history. Just last year Republicans put forward a commonsense proposal to save 90 percent of the budget surplus for Social Security. Simply, it was called the 90-10 Plan, 90 percent for Social Security, 10 percent for tax cuts.

That proposal was vilified every day for months by the Democrats as a raid on the Social Security Trust Fund. Let me repeat that. Democrats repeated day in and day out that because only 90 percent of the surplus was designated to go to Social Security, that proposal was a raid on the Social Security Trust Fund.

Now this year the President has proposed to set aside 68 percent of the surplus for Social Security, which last time I checked was less than the 90 percent which the Republican proposal set out to achieve. Yet the President claims that his proposal saved Social Security while ours was a raid on the Social Security Trust Fund.

Now, there is some reasoning that I just do not trust.

PROTECTING CHILDREN FROM GUN VIOLENCE
(Mr. CROWLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CROWLEY. Mr. Speaker, with horror we have watched a string of school shooting tragedies over the last 2 years: Littleton, Colorado; Springfield, Oregon; Fayetteville, Tennessee; Edinboro, Pennsylvania; Jonesboro, Arkansas; West Paducah, Kentucky; Pearl, Mississippi; and just last week in Conyers, Georgia.

Thirteen children under the age of 19 are killed each and every day because of guns. Families are so afraid of school violence that children are kept home. This is a serious crisis and we need to act now. Our colleagues in the other body took action last week. The House can and should begin debate on how to reduce youth violence before this Memorial weekend break.

Addressing the issue of school gun violence and media violence alone will not solve the problem. We need to address the broader issue of the quality of our children's education. A real solution must deal with the issues of class size, which is especially important in my District of Queens and the Bronx, but also disciplinary officers and guidance counselors in our schools, both in pre- and after-school programs as well.

We cannot wait for another tragedy to happen before Congress acts. Mr. Speaker. We as Democrats stand ready to force a vote now on a juvenile justice bill so we can get it to the President's desk by the end of this school year.

SECURITY OF OUR NATION DEPENDS ON OUR RESPONSE TO CHINESE ESPIONAGE
(Mr. DEMIENT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DEMINT. Winston Churchill once said, "Men occasionally stumble upon the truth, but most of them pick themselves up and hurry off as if nothing happened."

Yesterday, the House Select Committee on U.S. Security and Military/
Commercial Concerns with the People's Republic of China released their report on Chinese spying. We now know the truth. The Chinese communists have obtained virtually all of our nuclear secrets. And today, brand new American-designed Chinese missiles are aimed at our homes.

Mr. Speaker, we know the truth and we are not going to hurry off as if nothing had happened. The security of our Nation depends on how we respond to this report of Chinese espionage. It is not too late to pass a Nation that is safe and secure to our children.

Through a strong defense, more decisive leadership, and a renewed vigilance in protecting our secrets and prosecuting spies, we can make sure that every citizen lives in freedom and security.

CONGRESS MUST DEAL WITH PROBLEM OF YOUTH VIOLENCE NOW

(Mr. WEINER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WEINER. Mr. Speaker, there has emerged a national consensus that we have to deal with the problem of youth violence. Hollywood must help, parents must be involved, and, yes, I say to my colleagues, Congress must act as well.

There are some commonsense proposals that have reached a national consensus level for good reason. We now have laws in this country to require child-proof caps on aspirin bottles, but we do not have any laws that require trigger locks on handguns.

The Speaker of this House deserves great credit for speaking up this week and saying he agrees we need common-sense gun regulations. The other body has spoken, and overwhelming numbers of us in this House, when only by working together can we achieve what is good for America.

TOYS HAVE CHILD SAFETY MECHANISMS BUT NOT GUNS

(Ms. WOOLSEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WOOLSEY. Mr. Speaker, this silly toy has safety regulations, yet today in the United States, guns, that is right, guns do not have child safety regulations. What is wrong with this picture?

The message we are sending to the American people is that toys, this silly stuffed toy, is more dangerous to children than a gun. That is outrageous. It is outrageous that we do not have child safety locks on guns to protect our children from hurting themselves and hurting others if they get a gun in their hands.

How many more accidents, I ask my colleagues, will it take? How many more school shootings before we do something about this? How many lives will be taken? How many children will be killed before we have safety locks on guns?

We must pass gun safety now. We must prevent senseless tragedies from happening to our children, our families, our communities. We must schedule a vote on gun safety legislation and we must do it immediately.

GENERAL LEAVE

Mr. SKEEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill (H.R. 1906) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies for the fiscal year ending September 30, 2000, and for other purposes, and that I may include tabular and extraneous material.

The SPEAKER pro tempore (Mr. SUNUNU). Is there objection to the request of the gentleman from New Mexico?

There was no objection.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2000

The SPEAKER pro tempore. Pursuant to House Resolution 185 and Rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill H.R. 1906.

In the Committee of the Whole

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 1906) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies for the fiscal year ending September 30, 2000, and for other purposes, with Mr. PEASE in the Chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose on Tuesday, May 25, 1999, the amendment by the gentleman from Oklahoma (Mr. COBURN) had been disposed of and the bill was open for amendment from page 10, line 1 to page 11, line 24.

Mr. SKEEN. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I submit for the RECORD tabular material relating to the bill, H.R. 1906.
### AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES
### APPROPRIATIONS BILL, 2000 (H.R. 1906)

#### V: FOREIGN ASSISTANCE AND RELATED PROGRAMS

- **Foreign Agricultural Service and General Sales Manager:**
  - Direct appropriation: 136,203
  - Transfer from export taxes: (3,231)
  - Transfer from F.I.L. 403: (0,039)
  - **Total:** 132,933

- **Public Law 480 Program and Grant Accounts:**
  - Program level: 219,734
  - Direct loans: 290,518
  - Loan subsidy: 16,249
  - **Total:** 526,491

- **Title II: Commodity grants:**
  - Program level: 280,500
  - Loan subsidy: 176,596
  - **Total:** 457,096

- **Salaries and expenses:**
  - General Sales Manager (transfer to FAS): 1,028
  - Farm Service Agency (transfer to FAS): 815
  - **Total:** 1,843

- **Total, Public Law 480:**
  - Program level: 1,061,724
  - **Total:** 1,096,665

- **CCC Export Loans Program Account (administrative expenses):**
  - General Sales Manager (transfer to FAS): 3,231
  - Farm Service Agency (transfer to FAS): 569
  - **Total:** 3,800

- **Total, CCC Export Loans Program Account:**

1/ In addition to appropriation.
The CHAIRMAN. Are there further amendments to this portion of the bill? Amendment offered by Mr. KUCINICH.

Mr. KUCINICH. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. KUCINICH:

Page 10, line 14 (relating to Agricultural Research Service), after the dollar amount, insert the following: “(reduced by $100,000) (increased by $100,000)”.

Mr. KUCINICH. Mr. Chairman, a few years ago I visited an elementary school at the start of the school year. The children celebrating the beginning of their school year had released hundreds and hundreds of butterflies into the air.

Now, a butterfly is a powerful symbol in our society. It is a symbol of transformation, transformation from a caterpillar into beautiful wings being. Butterflies excite the imagination, they enthral us with their possibilities. Yet, the butterfly may become the next casualty of our brave new world.

We are all familiar with the genetically altered crops where pesticides are engineered right into the crop. A recent study indicates that pollen from such crops may have the potential to kill off butterflies, including the majestic and beautiful Monarch butterfly.

Mr. Chairman, my intention with this amendment is to provide the Agricultural Research Service with $100,000 to study the effects of pollen from genetically modified crops on harmless insects, and to study the effect on other species, including animals and humans, that may come in contact with the pollen.

Corn that has been genetically engineered with the pesticide Bt has been approved and was introduced to farmers’ fields in 1996. It now accounts for one-fourth of the Nation’s corn crop. Bt is toxic to European and Southwestern corn borers, caterpillars that mine into corn stalks and destroy developing ears of corn.

According to a recent study conducted at Cornell University, it is also deadly to Monarch butterflies. The Cornell study found that after feeding a group of larvae, milkweed leaves dusted with Bt pollen, almost half died. The larvae that did survive were small and lethargic.

The implications of this are very clear. Pollen from Bt-exuding corn spreads to milkweed plants, which grow wild on the edges of cornfields. Monarch larvae feed exclusively on milkweed. Every year, Monarchs migrate from Mexico and southern states, and many of them grow from caterpillars into beautiful black, orange, and white butterflies in the United States. The monarch belt during the time the corn pollination occurs.

I am sure that millions of Americans have had the experience of taking their children in hand and going into a pasture and watching for beautiful butterflies to come by and visiting an arbor, a field, and a park and watching the butterflies.

Well, now, if we read the Washington Post, it says that pollen from plants can blow onto nearby milkweed plants, the exclusive food upon which the Monarch larvae feed, and get eaten by the tiger-striped caterpillars.

At laboratory studies at Cornell, the engineered pollen killed nearly half of those young before they transformed into the brilliant orange, black, and white butterflies so well-known throughout North America. Several scientists expressed concern that if the new study results are correct, then monarchs, which already face ecological pressures, but so far have managed to hold their own, may soon find themselves on the Endangered Species list.

Other butterflies may soon be at risk.

From the Friends of the Earth we hear, “The failure of Congress and the administration to ensure more careful control of genetically modified organisms has unleashed a frightening experiment on the people and environment of the United States. It is time to look more closely at the flawed review process of the three Federal agencies that regulate genetically modified products: EPA, FDA, and USDA.”

“The implications of the Cornell University study go far beyond Monarch butterflies and point to the need for a revamping of our regulatory framework on biotechnology.”

Monarchs have already lost much of their habitat when tall-grass prairies were converted to farmland. We now need to protect them and other species that are harmless to farmers’ crops, that may be adversely affected by Bt pollen.

It is shocking that more extensive studies like the one performed at Cornell were not done before the crop was approved. It also makes one wonder what effects other genetically altered crops may have on other species, such as birds, bees, and even humans, and if adequate risk assessments are being done on bioengineered products before they are approved and released into the environment.

My fellow colleagues, more research obviously needs to be done on these transgenic crops. I ask my colleagues to support my amendment to protect Monarch butterflies from the harmful effects of genetically modified crops.

Finally, Mr. Chairman, last year I had the opportunity to visit Pelee Island in Canada, which is a migration point for the Monarch butterflies. There is nothing more beautiful than to see hundreds of thousands of these beautiful creatures moving in a migratory pattern. It is an awesome sight. And yet, because of a lack of foresight on the part of our government, there is the possibility that these beautiful creatures may in fact be doomed. That is why this amendment is important.

Mrs. MEEK of Florida. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I would like to enter into a colloquy with the strong, gentle woman from Ohio (Ms. KAPTUR), the ranking member of the subcommittee. I am strongly supporting this bill because agriculture is an essential part to our country. It is as essential to our country as manufacturing, services, transportation, or any other sector of our economy.

I am concerned, however, about two major programs in particular. These programs are the Agricultural Research Service, which conducts and funds a variety of research projects, including those related to animal and plant diseases, soil and water, agriculture, sciences, and agricultural engineering; and the Cooperative State Research Education and Extension Service, which works in partnership with universities to advance research, extension, and education in food and agricultural sciences.

My concern, Mr. Chairman, is not so much about how much money is being spent on these programs or what research projects are being done. My concern is what other hands are needed to do this work. In looking over the list of universities that are conducting research in these programs, I am concerned that land grant colleges and universities in general, and historically black colleges and universities in particular, are underrepresented in research and education funding.

There is still a woeful gap between the capacity of majority land grant colleges and historically black land grant colleges, particularly in the amount of research and the facilities that are available. Despite this, historically black colleges have consistently outperformed majority institutions in the development of minority scientists and engineers.

The assistance of the government in this effort has been essential. I would hope that as the legislative process moves forward today and in conference with the Senate, my colleague will help voice these concerns and work with the distinguished chairman, the gentleman from New Mexico (Mr. SKEEN), in working for a fairer distribution of Federal agriculture research and education funding.

Ms. KAPTUR. Mr. Chairman, will the gentlewoman yield?

Mrs. MEEK of Florida. Mr. Chairman, I yield to the gentlewoman from Ohio.

Ms. KAPTUR. Mr. Chairman, I say to the gentlewoman that she is correct about the lack of funding for historically black colleges and universities. While the bill contains programmatic funding for these institutions, such as capacity-building grants, we must do more for historically black colleges
I promise that I will work with the gentlewoman and the chairman, the gentleman from New Mexico (Mr. SKEEN) of our subcommittee and my colleagues on the full committee to address this problem as the bill moves through the process and through conference, particularly starting with report language to require the Department to report back to us on what is currently being done, if anything, so we can establish the baseline for the future.

Mrs. MEEK of Florida. Mr. Chairman, I thank the gentlewoman for her comments.

Ms. KAPTUR. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise in strong support of the amendment dealing with research by the Agricultural Research Service for the Monarch butterfly. Let me just say that the Committee on Agriculture, which the gentleman from New Mexico (Mr. SKEEN) chairs and of which I am the ranking member, is the chief ecosystem committee of this Congress, and I believe, of this country.

There is an expression: ‘You can’t fool Mother Nature.’ There are some fundamental questions being raised here by the gentleman from Ohio (Mr. KUCINICH) that are very important to the future of botanical life and biological life in our country. Because we have never before had these genetically engineered crops, we really do not know their long-term impacts.

I know recent articles in Scientific American and many newspapers indicate that as a result of butterflies, which spend a substantial part of their life cycle on pollinating crops so we can produce fruit and corn, we are essentially pollinating the eastern part of the eastern corn belt, we know something about corn and soybeans, and these butterflies are essential to our future. After being impacted by this pollen, 40 percent of them died. 40 percent. This is a profound result. So I think the gentleman from Ohio (Mr. KUCINICH) brings to us a very important and current finding that is well deserving of research.

I also would say to the gentleman, I thank him for doing this, because I know he represents the inner part of Cleveland, Ohio; and one of my greatest concerns as another American is that we have the first generation of Americans now that have no connection to the land. We have literally raised the first generation of people in the Nation’s history who do not spend the majority of their time raising their food or with any connection to production at all, so they are divorced from the experiences that he is talking about.

I would just say, for someone from Cleveland, Ohio, a major city in this country, to bring this amendment to the floor, to me, in some ways is a modern-day miracle. So I want to thank the gentlewoman and I look forward to supporting him.

Mr. KUCINICH. Mr. Chairman, will the gentlewoman yield?

Ms. KAPTUR. I yield to the gentleman from Ohio.

Mr. KUCINICH. Mr. Chairman, I appreciate the gentlewoman’s response. And it is an honor to serve with the gentlewoman in this Congress, serving the people of Ohio.

She raised an interesting point, and that is, what effect do these genetically engineered products have on our natural environment? I mean, sometime in the 20th century there was kind of a disconnection between humanity and the natural environment; and I think, I suppose, a good part of the next century trying to reconnect.

The disassociation from the land which the gentlewoman speaks about is a profound disconnection from nature. I think that the schoolschildren, for example, find it so fascinating to study butterflies. Because in some ways, that primal human sympathy which Wordsworth talked about in his poetry shutters in the heart when we see something so beautiful. And I think that as the schoolchildren, who spend time with their parents and their grandparents going to parks and zoos and arboreta, have the knowledge that this very beautiful butterfly could be impacted by this bioengineering. I think that we are going to see a response nationally. And it would be healthy because this country needs to look for opportunities to reconnect with our natural state.

So I thank the gentlewoman. I would hope that the esteemed chairman, the gentleman from New Mexico (Mr. SKEEN) would be able to respond.

Mr. SKEEN. Mr. Chairman, will the gentlewoman yield?

Ms. KAPTUR. I yield to the gentleman from New Mexico.

Mr. SKEEN. Mr. Chairman, I will tell the gentleman I am all aflutter. I would like to say that I understand the concern of the gentleman, and I will continue to work with him to address this situation, and I think he has got a good program.

Mr. KUCINICH. Mr. Chairman, if the gentlewoman would continue to yield, I would be more than happy to work with the chair. I need the help of the gentlewoman from Ohio (Ms. KAPTUR) and I need the help of the Chair. We can work together to address this issue, bring it to the committee.

With that kind of assurance, I say to the gentleman from New Mexico (Mr. SKEEN), I support his amendment, but look forward to working with both of my colleagues to find the appropriate venue within the committee so that we can start to get these agencies to be aware of this major concern of public policy.

Mr. SKEEN. Mr. Chairman, I say to the gentleman from Cleveland, Ohio (Mr. KUCINICH) that I thank him very much for bringing this to the Nation’s attention. He is a leader on this issue, and I look forward to working with our chairman to find an answer to this as we move toward the conference.

The CHAIRMAN. Without objection, the amendment of the gentleman from Ohio (Mr. KUCINICH) is withdrawn. There was no objection.

( Ms. KAPTUR asked for and was given permission to speak out of order for 2 minutes.)

THANKS TO THE FOLKS BACK HOME

Ms. KAPTUR. Mr. Chairman, I will not take long, but to say I should have said this yesterday as I began my remarks on this Agricultural Appropriations bill for the Year 2000. And that is that I am very indebted to the people from back home who have sent me here to serve on their behalf. A number of them are farmers and have spent their life in production and in agriculture.

I want to recognize a few of them on the floor today, in particular, Ray Zwyer and Thelma Zwyer, who are now, I believe, Social Security recipients. And I know Ray is undergoing kidney dialysis several times a week. I want to thank him and his wife, Thelma, for everything they taught me about agriculture, for taking me out on my first combine, for helping me understand chicken production and poultry production, for helping me to understand direct marketing, how hard it was for the average farm family in this country to make it, to watch their son Tom and his children and their family to try to carry on the family tradition on that farm in Monclova Township.

I want to thank his brother, Howard, and his wife, Eleanor Zwyer, right across the street, for all the hard work they have done to create and keep in our area production agriculture.

I also want to thank Herman and Emma Gase up the street, who have worked so very hard to raise their family. And I notice they had a couple of pieces of equipment for sale in their front yard this past week.

I also want to thank Melva and Pete Plocek. Pete is the one that taught me what it is like to have wet beans and that they do not get as much when they take them to the elevator.

There are so many people like this back home in our colleges who truly represent rural life in this country, the very best traditions of our Nation. And I just want to thank them for letting me try to be their voice here, as well as
May 26, 1999

CONGRESSIONAL RECORD—HOUSE

11115

the one million farm families across our country who expect us to do the job for them in this bill.

AMENDMENT OFFERED BY MR. COBURN

Mr. COBURN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. COBURN:

Page 10, line 14, after the dollar amount insert "(reduced by $50,863,000)".

Mr. COBURN. Mr. Chairman, I hope the chairman and ranking member will bear with me on this amendment. I do intend on withdrawing this amendment at some point in the discussion, but I think the American people need to know about the increase in agricultural research. I agree with many of the increases that are in there, but I think it is going to do us a good job of informing the American people where we actually spend this money.

This $50 million increase that this committee has put in for agricultural research. I want to put it in light of the real issues of why we are trying to trim this budget back to last year's level.

I am going to say again, for our seniors out there that are watching and for our children that are watching, that are going to pay the bills for the money that we spend above the caps and the Social Security money that ends up getting spent this year despite the fact that we made a commitment to not spend that money: The graph that you see to the left shows what is going to happen to Social Security revenues. The bars that you see in the black are the increase in the number of dollars that are coming in over expenditures, the amount of money that comes in minus the amount of money that goes out for Social Security payments.

In 2014 we see a tremendous change. We start seeing red show up. That money, that red, is indicative of the amount of money that is going to have to come from the general fund, not the Social Security fund, to meet the obligations for Social Security.

Where is that money going to come from? That money is going to come from increased payroll taxes on our children. The Congressional Budget Office and the Social Security Administration estimate that if we stay on the track that we are staying right now, that in fact our children and grandchildren most likely will be paying twice in payroll taxes as they pay today just to meet the requirements of the baby boomers.

I happen to be a baby boomer. I was born in 1948. I was a product of the postwar greatness that came in this country in terms of we came back from the war and were allowed to have children all the material standard of living rose greatly.

Our commitment in this body, both by the budget that the Democrats provided and the Republicans provided, everybody committed that we would not touch one dollar that Social Security pays or one dollar. Yet we are on a track to make sure that we spend about $45 billion of that money this year. Most people know that but they are not willing to say it. They are not willing to admit that the 202(b) allocations that have been put out will actually in the long run spend Social Security money.

I think that it is unfair to the American public to say that we are going to go through an appropriations process that is going to protect Social Security and protect 100 percent of the dollars in that, when in fact our heart we know that Washington is not going to live up to that commitment. That commitment is going to do the same commitment to the seniors of this country. But, importantly, it is a commitment to our children and our grandchildren.

If you ask the seniors in this country, the people that won World War II, do they want to burden their grandchildren with a PICA tax rate that is twice what they paid so that we can meet the mere obligations of Social Security, they are going to say no. And if you ask them what if we just trim spending a little bit more in Washington so that does not happen, they will all say yes.

I am a grandfather. I will do almost anything for my grandchildren. I will make whatever physical, material sacrifice that I need to make for my grandchildren. The question that we have before us and the debates that we have before us today are about whether or not we are going to meet the mere obligations of Social Security. Agriculture is a very important part of our country. I have said when we discussed this bill and when we discussed the rule, this is a good bill. My friends hope it is somewhat better so that we are back to last year's level, so that we have a chance to fulfill our commitment to the American people by not spending Social Security money. Just so that everybody can know, here is 1999.

The CHAIRMAN. The time of the gentleman from Oklahoma (Mr. COBURN) has expired.

(By unanimous consent, Mr. COBURN was allowed to proceed for 2 additional minutes.)

Mr. COBURN. Mr. Chairman, what we see is 1999 and 2000 estimated numbers for Social Security surplus. Last year there were $127 billion in excess Social Security payments in over what we paid out. What did we do? We started out, we had a budget that spent $1 billion of it. This is before we had made a commitment not to do that. Then we had a $15 billion supplemental. And then at the end of the year we crashed our way through the Omnibus bill at the end of the year.

So what we ended up doing was spending $20 billion of Social Security payments to run this country last year because the Congress did not have the courage million for medical Government to be efficient. It is not a matter of making cuts. It is a matter of demanding efficiency from the Federal Government and living within the budget.

In 1997, we agreed with the President, both bodies of this Congress, that we would live within the 1997 total budget caps. At the time we did that, most of the pain we knew was going to start this year. The actual spending on discretionary programs, programs other than Medicare, Medicaid and mandated programs, has to decline by $10 billion this year if we are not going to spend Social Security money.

Here is where we are going. Right now the President's numbers that say that we are going to have $138 billion in Social Security excess payments, we are on track to spend $57 billion of that money. If you look at it conservatively, the best we will do is that we stay on track is that we will spend $45 billion of that money.

This House has a lot of integrity. It is time for us to stand up and meet that integrity. It is time for us to live within the budget dollars that we agreed that we would live with.

Mr. SKEEN. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, this amendment continues the process that we had yesterday. The gentleman has demonstrated that he has patience and endurance, and I would say that the committee has no shortage of endurance or patience.

Yesterday the House adopted an amendment by the gentleman from Vermont (Mr. SANDERS) which I opposed. It reduced the amount for the Agricultural Research Service by $13 million in order to provide an increase for the Commodity Assistance Program.

I opposed that amendment because I think that research is absolutely essential if we want the 2 percent of our people who are farmers to continue to feed the other 98 percent of our people and much of the rest of the world, too. I am sure that they would like to contribute to that. And contributing a huge amount to our balance of trade and humanitarian assistance. This simply would not be possible if it were not for our agricultural research efforts which are the envy of the entire world.

The gentleman’s amendment would reduce this amount by $51 million in addition to the $13 million reduction that the House agreed to yesterday. This would reduce the Agricultural Research Service well below the fiscal year 1999 level and would make it impossible to maintain the base level of activity. I oppose this amendment. I ask the Members to oppose it and to support the committee.

Ms. KAP T U R. Mr. Chairman, I move to strike the last word.
Mr. Chairman, I also rise in opposition to the gentleman’s amendment. Let me say first of all, regarding Social Security, the most important input to Social Security’s Trust Fund is an America that is working and that is productive. Therefore, the reason we have seen the revenues bounce up in Social Security is because the economy has been stronger in the last several years than in past decades. And so the most important thing we can do is help people’s incomes rise and help people keep working so that that revenue flow increases.

The Social Security Trust Fund is not a static fund. It is a fund that is very connected to what is happening in production America, whether it is in the industrial plants, whether it is in agriculture or in our service industries. But it is a future that is in serious crisis. It is in depression. Our job here should be to be partners with rural America in helping them pull out of the tailspin that they are in so that they again can become productive partners, contributing to the national well-being as well as their own well-being.

And so I would say to the gentleman, I think his efforts to try to be responsible and to deal with the budget issue here are admirable. However, in the context of the way we function as the Congress, we are one of 13 committees. We have been given the budget mark against which we must not go over. When we bump our heads up against it, we know we cannot go over.

As the gentleman admitted on the floor yesterday, we have done our job on this committee. Now, other committees have spending that is cut several hundred million dollars. That is all balanced out by the leadership of our party. Therefore, we on the Committee on Agriculture in some ways are insulted by the fact that you would try to go line item by line item inside our accounts and say, “Well, this isn’t important” or “This isn’t important.” When we have so many tradeoffs that we have had to try to make, especially in Depression level conditions like rural America is facing today.

This agricultural research account is critical, because it is the future. If America is going to have a future in agriculture, it is built on the research that is being done every day by scientists who are not given enough credit here in Congress or in general in the country.

If you look at some of the costs to our economy where we do not have answers, something like soybean nematode which takes 25 percent of our crop, if we could produce 100 percent of the crop or 90 percent rather than 75 percent, how much more wealth and buying power and income that would add to our rural sector. In the South, something like a corn earworm costs farmers over $1.5 billion annually in losses, in chemical costs. We do not have answers to that problem. These may seem like funny names to people about rural America but to people who face this every day, these are vital problems. We had the gentleman from New York (Mr. Crowley) yesterday talk about the Asian Longhorn beetle infecting New York City as well as Illinois. Maple sugar producers in my area are scared to death that that thing is going to come across the State and cause billions of dollars worth of damage and kill all of our hardwoods.

These are not simple issues. We need answers to these questions. The gentleman from Ohio (Mr. Kucinich) was just here on the floor talking about the problem with the Monarch butterfly. We do not have an answer to why nearly half the Monarchs in this country are dying, but we better find an answer because if we do not, production agriculture goes down, income goes down and we do not have dollars flowing into that Social Security Trust Fund.

I would just say to the gentleman also in my time here that he keeps looking at the accounts in our overall budget and he says, “Well, this one is going up,” but he does not look at the ones that went down. We have a lot of accounts, for instance, our surplus commodities and foreign food shipments account has gone down by over $25 million, our P.L. 480 title I by over $11 million, all of our rural community advancement programs by over $56 million. You look at our Agricultural Credit Insurance Fund by over $18 million, the Agricultural Research Service buildings and facilities, over $11 million.

So we feel that we have done what we need to do in each of these accounts, but I would say to the gentleman not to cut America’s future, not cut her seed corn for the future by cutting these agricultural research accounts. And also to say to the gentleman, go back to your leadership, if you have got a budget problem, do not put it all on the backs of this subcommittee. We have done our job, we have met our mark.

We are proud of the work that we have done.

I rise in strong opposition to the gentleman’s amendment.

Mr. SANFORD. Mr. Chairman, I move to strike the requisite number of words. Actually, before I begin with my comments, I would yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, I want to address a couple of things that the ranking member of the committee said.

First of all, my first comments were that I supported the research, that I supported the amendment, that I thought it was good that the American people knew where we were spending the money. So I want to put some of this in so that they can get some flavor of where we are spending the money.

“Sugarbeet research. The Committee is aware of the need for additional funding to adequately support the ARS sugarbeet research program at Fort Collins, Colorado, to strengthen sugarbeet research at the ARS laboratory. The Committee directs the ARS to fund this project in FY 2000 at least at the same level as in FY 1999.”

But in fact what are the prices of sugar in this country and how much are we subsidizing sugar versus what the price is in the rest of the world?

There is no question we should be directing our research to improve our productivity, and I am for that. But now we are directing money to a program where we are subsidizing and falsely charging in this country a higher price for sugar than what the market would ever have us have.

So it is not about not agreeing with the research. It is about money into areas where we have a market that is not working today because we have overproduction, and we are spending research to enhance that overproduction more, which means a lot more money is going to come out of the subsidy programs that are available for sugar beet or sugar.

So the question is, should we not have a discussion about these things? And I am sure there is a defensible position for that. I am not saying that is not, and I am saying that I support without a doubt, and I will make an unanimous consent, and I hope that it is agreed to, to withdraw this amendment.

But we still have a 6.5 percent increase in agricultural research of which most is directed to specific Members’ requests and programs, and we ought to talk about what that is. Do we have a coherent, to talk about what that is. Do you have a coherent, cogent policy for research that is directed fundamentally at the basic needs that we have in this country?

Mr. SANFORD. Mr. Chairman, reclaiming my time, I would just like to interrupt for 2 seconds.

For instance, I want to follow up with the brief comment he made on sugar because this issue of sugar makes my blood boil. The idea that we have a research system set up that costs a little guy a lot of money, I think is crazy. I mean, if we look at the sugar subsidy program that is in place, basically it costs the consumer $1.4 billion a year in the form of higher sugar prices. Our sugar prices domestically are about double that of world prices, and all that benefit goes down to the hands of a few.

I mean, there are about 60 domestic sugar producers in the United States. One of those sugar producers is, for instance, the Fanjul family, who live...
down in Palm Beach. They are on the Forbes 400 list, they have got yachts, they have got helicopters, and they have got airports, and yet they get $60 million a year of personal benefit as a result of this program.

So the idea of sending taxpayer money from somebody that is struggling in my district to help fund the life-style of the rich and famous with the Fanjul family is, to me, nonsensical.

Now, as I understand it, he may actually withdraw this amendment, but to say there is not another dime that could be cut out within ag research I think is a grossly inadequate assumption.

Ms. KAPTUR. Mr. Chairman, will the gentleman yield?

Mr. SANFORD. I yield to the gentlewoman from Ohio.

Ms. KAPTUR. Mr. Chairman, was the gentleman suggesting that there is one dime in money in the agricultural research account that goes to the family that he is talking about, that he claims receives funds? Is he saying agricultural research is dead, or is he trying to distort this argument?

Mr. SANFORD. The gentlwoman from Ohio is absolutely right; they are apples and oranges. The research goes toward sugar, and our sugar system, as it is configured in the United States, Mr. Chairman, very much benefits this one particular family and basically about 60 other domestic sugar producers in the United States.

Ms. KAPTUR. If the gentleman would just be kind enough, Mr. Chairman, I have farmers in my district that raise sugar beets. I would challenge the gentleman any day to come and put in the day of work that they do. That is one heck of a dirty job, to raise beets in this country, and if there is a better way, I would challenge the gentleman any day to come and put in the day of work that they do. That is one heck of a dirty job.

Mr. COBURN. Mr. Chairman, I ask unanimous consent to withdraw this amendment.

Ms. KAPTUR. Mr. Chairman, I offer an amendment.

The Clerk reads as follows:

Amendment offered by Mr. COBURN:

Page 13, line 11, after the dollar amount insert "(reduced by $1,000,000)".

Mr. COBURN. Mr. Chairman, throughout the Federal Government we have multitudes of agencies and departments and grants and billions of dollars that we spend and never see the results. We have a Kyoto Treaty that is going to take jobs away from the United States. We have a Kyoto Treaty that is going to make us live at one standard and the rest of the world, developing world, live at a different standard. We have a Kyoto Treaty that is going to take jobs away from the United States. We have a Kyoto Treaty that is going to make us live at one standard.

We are throwing a million dollars for a favor for somebody on global change, one isolated, small grant program that is going to make no difference whatsoever in the overall study and effect on this issue; and so my question and the reason I have this amendment is that this is not going to accomplish its purpose, this is not going to further our research on global change, it is not going to be a wise use of a million dollars of taxpayers' money, and in fact will encourage us to do the same thing in other areas.

The next time somebody's constitutional comes from my area, who
wants something for a university for a grant, they are going to say, Well, they did it on this one; why will they not do it here? It is not a wise use of our money.

As my colleagues know, we have a lot of seniors out there. There is no question we are going to provide them with their Social Security checks, and I do not want anybody to be able to say that I am trying to scare the first senior into thinking they are not going to get their Social Security. They are. We are going to meet that commitment. But we cannot say that to our children, and anybody in this body that says they can, they have to come up with a plan to do that, and the first plan to do that is to not spend the revenues that are coming into this country, into the Treasury, for Social Security.

So I ask Majority Whip ARMEY and I would ask the ranking member to consider this amendment as a good amendment. This $1 million will not ever contribute positively to the situation on global change. What it will do is send a million dollars of taxpayers' money to somebody else, and it will generate some research; but will it in fact have an impact on the very thing that it was directed for? And I would challenge someone to tell me that out of the billions and billions of dollars that we spend in other areas through the EPA and other areas, how $1 million for one grant system is going to make a difference in terms of global change.

As my colleagues know, in World War II this country recognized that we had an obligation to fight that war, and we downsized every aspect of our Federal Government because we had an emergency. Now we have a war going on, and it is not near the emergency that World War II was, but we have another emergency: empty stomachs. Whether or not our children are going to have the same standard of living that we have had the opportunity to have. Unless we address the issue of spending Social Security money, unless we address the issues associated with Medicare and Social Security, and unless we pay attention to that in every dollar that we spend, whether that comes out in one appropriation bill or all of them, or whether it is at the end of the year, unless we are good stewards of that money, that emergency will overwhelm our children.

And everybody in this body knows that; they know that the baby boomer bust is coming as far as Social Security and Medicare.

So we cannot deny it.

The CHAIRMAN. The time of the gentleman from Oklahoma (Mr. COBURN) has expired.

Mr. COBURN. Mr. Chairman, I ask unanimous consent for 1 additional minute.

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?
spectrum, is harmful to many biological organisms. Fortunately, most of the UV–B radiation from the sun is absorbed by the stratosphere and does not reach the surface of the Earth. The discovery of the deterioration of the stratosphere ozone layer and the ozone hole over polar regions has raised concern about the real potential for increased UV–B irradiance reaching the surface of the earth and the significant negative impact that it would have on all biological systems, including man, animals and plants of agricultural importance. There is an urgent need to determine the amount of UV–B radiation reaching the Earth’s surface and to learn more about the effect of this changing environmental force. The Cooperative State Research, Education and Extension Service, CSREES, is in the process of establishing a network for monitoring surface UV–B radiation which will meet the needs of the science community for the United States, and which will be compatible with similar networks being developed throughout the world.

Grants for this kind of work have been reviewed annually and have been awarded each year since 1992, and the work is performed at Colorado State University.

Mr. Chairman, this is a good project and it deserves the support of all Members, and I support the project and I oppose the gentleman’s amendment to eliminate it.

Mr. BASS. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I want to say that I have nothing but the deepest respect and admiration both on a professional and personal level for the distinguished chairman of this Committee, but, unfortunately, I do not share his views on this matter. I think it is regrettable that Members of Congress get up and imply that a Member’s right to debate line items in the budget is somehow an insult to the Committee on Appropriations or any other committee of the House. In fact, in my opinion it is an opportunity for individual Members of Congress to state their views and positions on issues, regardless. They may seem trite and unimportant and wrong to some Members of Congress, but they are important for other Members of Congress.

And it may take a few hours to get through the agriculture appropriations bill, and I have no doubt that we will pass a fine product in the end. But I hope this body will give every Member of Congress the tolerance that we should exercise in allowing everybody the opportunity to debate their amendments. Because remember, you will be the person at some future date that will want to have that same respect shown for you. Scrutiny is painful, but it is good for the process. So I commend the gentleman from Oklahoma for what he is doing, and I rise in support of this amendment.

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. BASS. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, I thank the gentleman for those words of support.

The gentleman from North Dakota (Mr. Pomme) said that the purpose of this is made and to ridicule and to desecrate the agriculture bill. Far from it. The purpose is to ridicule money that does not go to our farmers.

We had seven votes last night on money that is spent on bureaucracy. This is not going to slow down one penny of money going to our farmers because this bill is going to pass. I said when we first started this debate that this was a good bill. I said that I supported the research.

The fact is we have a rule that allows us to debate these issues, and if one did not like the rule, one had an opportunity to vote against the rule. I voted against the rule because I think we spent money in the wrong ways and I wanted to change it, and I am here exercising my right as a Member of this body to try to change it.

My whole goal is to free agricultural research from the shackles of personal political preferences, and to make sure dollars go to the farmers, not political whims to get somebody reelected. So there is nothing wrong with asking questions about how the money goes.

The question of UV light, we are spending hundreds of millions of dollars on ultraviolet radiation in other areas of this government. This is a pork project, plain and simple, and it has been funded and it continues to be funded. It is $1 million that is going to do something, and it is $1 million that could go to farmers instead of to research for something that is already being researched at a higher level in a much more thorough way in almost every medical university in this country, and to pretend that this is a significant research that we cannot do without or not use somewhere else efficiently is not an accurate statement.

I am not testing and going after the integrity of anyone here. It is the process that I object to and the fact that we have a lot of dollars in this agriculture bill that do not go directly to farmers. I come from a farm State. My district is rural. I have the support of my farmers. They do not want money spent in Washington that should be going to farmers. They do not want money paid out for programs that are not necessary.

Mr. Chairman, I think this debate is all framed in the sense that we are all here to try to make a better America. Well, a better America is not just the Social Security program, it is the totality of what we try to do here. A lot of that totality is regarded in quality of life. If one wants to have a better quality of life, which requires that one has healthier communities and strong economies, one has to remain competitive in the world, when America remains competitive in its research.

I guess if we go through all of the research projects that we do, we would find that there are some that we like and some that we do not like. Certainly the gentleman from Oklahoma, who is a doctor, would agree that if we could cut out medical research, one, we are not going to be competitive with the rest of the world and two, we are not going to provide for a better quality of life.

The same is true with agriculture, this research issue, the ozone issue. It is a big issue in the world. It has become the number one issue for one of our competitive agricultural countries, Australia. They grow the same crops that we grow, only in reverse seasons. They are competitive in markets that we are in. They have made ozone one of the biggest issues in the country. They have made it a national policy. They have a saying there, slip, slop, slap. Slip on a T-shirt, slap on a hat, and slap on some lotion before you go outside. It is that big and that is everywhere, on billboards and everything.

So the issue about research and quality of life and agriculture is that our bodies are what we eat. If we do better research in agriculture, we are going to be eating healthier foods and living healthier life styles.

So I wish that the gentleman would really not attack agricultural research as some kind of big pork that is in here just for Members. This country was...
Mr. SOUDER. Mr. Chairman, I move to strike the requisite number of words.

Some of the attacks on my friend from Oklahoma have been downright humorous, the fact that he was accused of unilaterally trying to tee off on America’s farmers. I want to speak out for my friend from Oklahoma and say he is willing to tee off on anybody who goes over the budget.

This is not about agriculture. This is about a process of how we are going to try to keep within our budget agreement.

I want to say up front that I support this bill and furthermore, I believe we do not devote enough to agricultural research. Furthermore, I will add that I believe that in the specifics of much of this agricultural research, much of it can be easily mocked and made fun of, but it is the backbone of the agriculture of this country.

Furthermore, I do not know enough about this particular project to know whether this is indeed real research or whether not it was put in because some congressmen had clout. It is naive for Members of Congress to walk up here and say that we, in fact, have to trust our leadership, trust our Committee on Appropriations. We should at least be willing to challenge occasionally.

If the Members of Congress do not want their projects struck, they should come up here and defend them, as the gentleman from New Mexico (Mr. SKEEN), the chairman of this subcommittee, eloquently explained what the intent of this was. Where are the Members who represent this particular university in this particular State explaining what it is? Because this should be an opportunity for those who favor agricultural research to explain why this is in the bill.

A lot of this is a fight about the process. We hear that this is a “fliibuster” or that we have had over 100 amendments. We have not had over 100 amendments. We do not know how many amendments there are going to be. But I think that this is going to slow our process down, we should have had more days in session earlier this year; we should not be taking four additional days next week, because this is what Congress is about. We do not presume to know where we go into the appropriations process. There has been a lot of discussion whether we should go to the subcommittee, whether we should offer amendments.

Ms. KAPTUR. Mr. Chairman, will the gentleman yield?

Mr. SOUDER. I yield to the gentlewoman from Ohio.

Ms. KAPTUR. Mr. Chairman, I took to heart what the gentleman said, that we should not bring bills to the floor in an ill-considered manner.

The gentleman is from the State of Indiana. As I recall, I did not receive any letters from the gentleman regarding projects in the gentleman’s State or anywhere in the country relative to this bill.

Did the gentleman come before our committee to testify, or send any correspondence regarding any line item in this bill, yes or no?

Mr. SOUDER. Mr. Chairman, I would tell the gentlewoman, no, I had no line item in this bill.

I reclaim my time because I did put, in fact, a request in to boost agricultural research spending, because I support an increase in agricultural research spending. I support this bill. I believe if there is any part of the overall spending process that we need to be careful not to tinker with, it is agriculture.

I am not fighting with the specifics here. I am fighting on a process; that all the appropriations bills should be allowed to have amendments and a full-fledged debate.

And whether it is one Member or a group of Members, they should be allowed to come here, because we are not trying to micromanage the subcommittees, but when we see the final report we have a right to say, as Members of Congress, that we do not believe that this full amount of money is legitimate; that we take apart pieces of this bill and say, defend this piece.

In fact, the only way an amendment cannot pass this House is if the majority of this country does not favor that amendment. It is not like some kind of a game here where there is some kind of a trick that can get to a majority.

Quite frankly, at least one of our leaders is threatening about this process, that we should not be allowed to offer amendments because it is uncomfortable. We are Members of Congress. We have a right. Not all of us are on a subcommittee of the Committee on Appropriations, on the full Committee on Appropriations or its subcommittees. Some of us are on authorizing committees or on the Committee on the Budget. It would like to know whether we should be here and come here and that at least question.

I will vote for some amendments. I am voting against some amendments. I am going to vote on the end bill. But I do not think it is fair when the attacks come to the floor and they are aimed at a generic, hey, this is an attack on agriculture, this Member is trying to tie up the House.

It sounds to me like, thou dost protest too much. If there are particulars that Members want to defend, come down and defend the particulars, because Members should be able to. There are plenty of reasons; even if it sounds embarrassing on some of these research projects, there are scientific reasons why we are the best agricultural Nation in the world.

If we do not do this research and if we let this get caught up in whether or not somebody had an inside deal, if someone’s project cannot stand the light of day, if their research project in their district cannot get the light of C-Span in this national debate, then it should not be in the bill. Members should be down here defending it, as the subcommittee chairman did.

I commend my friend, the gentleman from Oklahoma, for challenging the structure; for making sure that each part of this bill can either be defended or not defended. I stand with him today because I think it is a healthy process for the United States Congress.

Mr. SOUDER. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in opposition to this amendment. Let me just say, in reference to something the earlier speaker said, when we do not follow regular order, which means when we do not come to the subcommittee and the full committee and do not make views known, and then try to come to the floor and repair it, that is not regular order.

Regular order is making Members’ wishes known to the committee as we go through the regular process, because we have to deal with 435 Members.
May 26, 1999

CONGRESSIONAL RECORD—HOUSE

11121

Now let me say, in reference specifically to this amendment, which is global climate change, in terms of global climate change, this is not a project that will be done in this Member’s district. I know it will not be done in the chairman’s district. But there is no issue more important to agriculture in this country and in the world than climate change.

I can remember one time walking into the office of the gentleman from Texas (Mr. STENHOLM), the ranking member on the Committee on Agriculture, and he was watching television. But what was he watching? He was watching the weather as he was marking up one of the major authorizing bills for agriculture in this country.

I kind of laughed, because the sound was not on. I said, Charlie, what are you really doing? He said, you know how important weather is.

With changes in global climate, just a little bit of melt in any of the poles causes a change in the currents and the water and weather. We have major research going on in terms of genetics, to try to make plants grow in deserts or where there is lack of rainfall.

What about when we have major changes in climate, which happen at the edges, they certainly do, and how we get plant life to survive in those circumstances?

What about the oceans? What about trying to do more in the way of production out of saltwater?

There are all kinds of issues that we deal with relative to the globe and relative to climate. There is nothing more important for us to know about.

Frankly, the Department of Agriculture is the department that farmers trust, only to trust, with all due respect to the Environmental Protection Agency, but it has had a different view of what is in the air and a different perspective on climate.

But in terms of plant life and animal life, the research depository and the intelligence is stored at the Department of Agriculture. We make it available to our farmers in the field through the modern wonders of technology, and frankly, we help the farmers of the world to the best of our ability feed the people of their own country.

So I think to make any recommendation to eliminate this line item is certainly backwards looking.

I would just say, and I am sorry that the gentleman left the floor, but I will bring it up again when he returns, if in fact he has a problem with special grants under the Cooperative State Research Extension and Education Service, I would recommend that the gentleman from Oklahoma (Mr. COBURN) eliminate the programs that he asked for. In fact, I will list just three of them, totaling over $691,000.

We have a letter in our possession that was sent to one of the Members in our committee in which the gentleman from Oklahoma (Mr. COBURN) asked for assistance to the State of Oklahoma, and asks for targeted line item funding through the agricultural appropriations bill.

We do not have any discrimination against Oklahoma. We want to help Oklahoma. They include the following.

Mr. SANFORD. Mr. Chairman, will the gentlewoman yield?

Ms. KAPTUR. I yield to the gentleman from South Carolina.

Mr. SANFORD. Mr. Chairman, it is my understanding that the gentleman from Oklahoma (Mr. COBURN) specifically asked that those be offsets. That is the heart of the matter that he is dealing with here today, and that is the issue of offsetting versus not. So I think everyone will agree.

Ms. KAPTUR. I would reclaim my time and just say that the point is that the gentleman from Oklahoma (Mr. COBURN) put three projects in this bill. There were five projects he put in the bill, totaling well over $1 million. My feeling is that if he wants to eliminate $1 million from the bill, let him eliminate the projects for Oklahoma.

Frankly, this Member would not eliminate projects for Oklahoma, but let me say what the projects are:

- Expanding wheat pasture research, $285,000; integrated production systems for horticulture crops, $180,000; preservation and processing research for fruits and vegetables, $226,000. That is just $691,000 for those three projects alone under the very account that he is now trying to cut for global climate research, which affects every farmer in this country and their future.

So I would just say that I think the gentleman is maybe not quite knowledgeable enough about these accounts, because in fact, why would he add funding to a bill and to a set of accounts that he is trying to have him not cut his own projects, rather than trying to cut a project that deals with the entire Nation’s needs?

My apologies to the State of Oklahoma, because they deserve a voice here. I would not have recommended that their particular projects be cut. But the fact is the gentleman from Oklahoma (Mr. COBURN) sent a letter.

THE CHAIRMAN. The time of the gentlewoman from Ohio (Ms. KAPTUR) has expired.

Ms. KAPTUR. Mr. Chairman, I ask unanimous consent to proceed for an additional 30 seconds.

THE CHAIRMAN. Is there objection to the request of the gentlewoman from Ohio?

Mr. SOUDER. Mr. Chairman, I object.

Mr. SANFORD. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I would just pick up on our last conversation. That is, it seems to me fundamentally that the idea that the gentleman from Oklahoma (Mr. COBURN) and others on this floor are trying to get at is not the idea of should we disenfranchise people within any of our respective congressional districts, but simply the idea of should we offset spending that takes place in the guise of global climate change.

As the gentleman has consistently stated, his struggle is not so much with the agricultural bill, but the larger process we find ourselves in. That is a process headed towards a train wreck.

I would say this, there was an earlier comment talking about how anybody who would offer amendments to this bill was basically one teetering on agriculture. I want to associate my words with those of the gentleman from Indiana, because that is absolutely not the case.

If Members simply think about the contrast that exists, when I think about the average farmer back home, he is getting up this morning, maybe having a cup of coffee in a fairly simple room in the back of his house, he is getting in a pick-up truck, he is going off, getting in a Massey Ferguson or John Deere tractor, and he is spending the day outside in the field. He ends up coming back covered with dust. That is one picture.

We have another picture of somebody getting up and getting, let us say, in a Volkswagen Jetta or a Rabbit, going off to the administration buildings for agriculture here, and spending their day here. Those are very different days.

The bulk of these amendments have been about trying to do something about this huge and bloated bureaucracy that happens to exist within the Department of Agriculture here in Washington, D.C. To me, when we think about the idea of downsizing government, with the Department of Agriculture, there have been 80,000 employees. We have 80,000 contract employees. That works out to be one agriculture employee for every 10 farmers.

Most of the farmers that I talk to are real independent folks. They are hard-working folks. The idea of them needing a handholder or a babysitter to sort of accompany them, or at least to report on them, throughout the day is not something that makes common sense.

One of the amendments that the gentleman from Oklahoma (Mr. COBURN) offered yesterday was in fact a proposal to cut simply 12 percent from an increase in administration here in Washington. That seems to be sensible to farmers that I talk to.

Another had been to cut $400,000 from the Under Secretary of Agriculture. Mr. Chairman, why the Under Secretary of Agriculture needs another $400,000 does not quite fit with, again, that hard and simple idea I see for so many farmers back home.

Another amendment had been to trim $26 million from space planning;
not actually construction of buildings, but just planning on space for the future.

Again, these amendments have made sense when we look at the contrast that exists between the life that the farmer leads and the life that somebody in Washington leads working, for instance, for the Department of Agriculture.

As to this amendment in particular, as has already been indicated, there are a whole number of different projects around this country, and in fact, I sit on the Committee on Science, and there are a number of projects related to ultraviolet research.

So the issue here is this $1 million is duplication. It represents one 100th of 1 percent of the overall agriculture budget, and to say that it will cripple the agriculture budget is not exactly the case. It goes back to the heart of what these amendments have been all about. I have here a letter from Ms. Evelyn Alford, born in 1924. She writes me from Johns Island, South Carolina: "It really is frightening when one thinks about what the Federal Government can get away with. If the politicians would keep their hands out of the social security fund and use it for what it was originally intended for there wouldn't be a problem with the fund. The government takes money from us and tells us that the money is designated for one thing and they use it for something else. Isn't there a word for that?"

And a P.S., please read this letter. Ms. Alford, I read the letter.

This is what these amendments have been all about. They have been about trying to prevent a train wreck that is most certainly headed our way if we do not adopt the proposals of the gentleman from Oklahoma (Mr. Coburn).

Because as we all know, while agriculture has stayed within the caps, Labor-HHS, there is no way we are going to come up with $5 billion worth of trimming in that account; VA-HUD, over $3 billion worth of trimming in that account.

Unless we come up with savings now, we are headed for a train wreck later on.

Mrs. LOWEY. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I came down to the floor with great respect for my colleague, the gentleman from Oklahoma (Mr. Coburn). But I would say to the gentleman that I understand that this committee has met its 302(b) allocation; we are on mark, they met their budget.

As I was listening to this debate, I thought that I would come down to discuss with my colleagues one of the programs that my friend's amendment will cut. I think it is important to know that these programs are not just some programs that are out there that no one knows about and that are not having an impact.

The gentleman from Oklahoma (Mr. Coburn) indiscriminately attacking important programs in this bill without much discussion about the impact of his proposed cuts. I want to take a moment to talk about the program that the gentleman is attacking with this amendment.

The Cornell University Program on Breast Cancer and Environmental Risk Factors was launched in 1995, and responds to the abnormally high incidence of breast cancer in New York.

Mrs. LOWEY. Mr. Chairman, if I may proceed, I would like to discuss another item in that account, because it will be impacted.

The CHAIRMAN. Debate must be relevant to the matter before the Committee. The Chair finds that the debate so far has been so.

The gentlewoman from New York (Mrs. LOWEY) may continue.

Mrs. LOWEY. Mr. Chairman, it is my understanding that this will impact the project. I think it is important for my colleagues to know that the Cornell University program on breast cancer and environmental risk factors was launched in 1995 in response to the abnormally high incidence of breast cancer in New York.

The program investigates the link between risk factors in the environment like chemicals and pesticides and breast cancer. The BCERF, which it is called, takes scientific research on breast cancer, translates it into plain English materials that are easy to understand, and disseminates this information to the public.

They have a web site that is filled with information on BCERF's activities, breast cancer statistics, scientific analyses, and environmental risk factors and links to other sources of information. They sponsor discussion groups that provide a public forum to discuss breast cancer. This amendment will destroy our ability to bring the important work of the BCERF program to more people around New York and around the country.

Let me make this very simple, Mr. Chairman, if my colleagues oppose efforts to educate the public about breast cancer, if they think they have done enough to prevent breast cancer in this country, then vote yes on this amendment.

But if my colleagues agree with me that we need to do more about stopping the terrible scourge of breast cancer in this country, if they agree with me that they cannot sit idly by while one in eight women are diagnosed with breast cancer over the course of their lifetimes, if it outrages them that approximately 43,000 women will die from breast cancer and 175,000 women will be diagnosed this year alone, then join me in voting no on this terribly misguided amendment.

My colleagues, these are just some of the materials that they distribute, avoiding exposure to household pesticides, protective clothing, safe use and storage of hazardous household products, pesticides, and breast cancer risks and evaluations, and on and on and on.

Mr. Chairman, we all want to spend money wisely. We all understand that the hard-earned dollars of taxpayers should not be distributed willy-nilly. But the gentleman from New Mexico (Chairman SKEM), the gentlewoman from Ohio (Ms. KAPTUR), our ranking member, have worked very hard to keep the numbers in this budget within their budget allocation.

I think it is very important that we not get misled by the desire to cut and balance our budget, because we all want to spend wisely. But we have to look at what these potential cuts will do, what kind of impact they will have on the lives of our constituents.

That is why, as I was sitting in my office, I decided to come down here. This is the kind of impact that this unwise, foolish cut will make.

Mrs. EMERSON. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I yield to the gentleman from Oklahoma (Mr. Coburn).

Mr. Chairman, I thank the gentlewoman from Missouri for yielding to me.

What the gentlewoman from New York (Mrs. LOWEY) does not know is my sister has breast cancer. My closest cousin just died from breast cancer. If the gentlewoman will look at this amendment, we do not cut total research. We cut a million dollars out of it, as the chairman just said, because we did not cut the total dollars. We redirected the money in there. This $1 million will say that $1 million cannot go for this, but the total number was not cut in our amendment. The chairman made that point earlier.
I treat women, as the gentlewoman from New York very much knows. Breast cancer is a great concern for me. I do not believe that the gentlewoman’s intention was to say that I was not concerned about breast research, for I am.

If my colleagues will look at the amendment and how it is actually written, it is written to cut this spending, but does not cut the total and allows the committee to spend that money elsewhere.

So the question is, we did not, in fact, attempt to cut that research. We attempted to withdraw an amendment after we had a discussion on total research.

I want to take this time to answer another question that the gentlewoman from Ohio (Ms. KAPTUR) brought up. I am trying to say that I sought funding. I very carefully worded a letter to the gentleman from Oklahoma (Mr. ISTOOK).

I want to read very carefully the wording in it, because here is what I do with these university letters that come to my office. When they ask for money, I ask them, where are they going to get the money.

Then I sent a letter to the gentleman from Oklahoma (Mr. Istook), and I said, “They wish to receive funding.” Then I said, “What support do you plan to give for that funding?”

The gentleman from Oklahoma (Mr. ISTOOK) represents this university as well. My promise to that group of university leaders was, I said, I would ask if he would do it. I did not make a request for funding.

The other thing that most of the chairmen in the Committee on Appropriations will tell my colleagues is that when they receive a specific request for something that I want funded, I send with it a request for something that I want cut. If my colleagues would kindly check with the gentleman from Ohio (Mr. REGULA) on the bills, things that I have asked.

So I want to make very clear that I support breast cancer research, that I support NIH research, that I support the research. But I want to make clear again, a million dollar grant on UV research at one university on ultraviolet radiation has little to do with global change, one.

Number two, we are spending millions and millions and millions of dollars on this same subject in other areas. It is my feeling, as a prerogative, as a Member, to say this: I think that money can be spent better and elsewhere.

Mrs. LOWEY. Mr. Chairman, will the gentlewoman yield?

Mrs. EMERSON. I yield to the gentlewoman from New York.

Mrs. LOWEY. Mr. Chairman, I would like to respond to the gentleman from Oklahoma (Mr. COBURN). It is my understanding that the amendment of the gentleman from Oklahoma (Mr. COBURN) will cut $1 million from the research account. This research project for breast cancer is within that account. In fact, if his amendment will not cut from that account, then I am not sure what we are doing here debating it.

Mrs. EMERSON. Mr. Chairman, reiterating my time, I yield again to the gentlewoman from Oklahoma (Mr. COBURN).

Mr. COBURN. Mr. Chairman, this amendment cuts $1 million from one specific account, but does not cut it from the total account, because we did not lower the total amount in the research. Had we done that, we would have intended to cut the total amount. So it still leaves the money there.

Actually what it does is, it offsets $13 million that was taken last night by the gentleman from Vermont (Mr. SANDERS), out of research, which we did not get, we had a voice vote on and not a recorded vote on, and actually makes $1 million of that go back into general research.

So the gentlewoman from New York misstates the true facts of the amendment.

Mrs. LOWEY. Mr. Chairman, if the gentlewoman from Missouri would yield, based upon the information I have, I believe the gentleman from Oklahoma (Mr. COBURN) has distorted the response, or there is a misunderstanding here between people on this committee. But it is my understanding that the gentleman’s amendment does come from the special research account and that this breast cancer project is within that special research account.

Therefore, although the gentleman from New Mexico (Mr. SKEEN) has supported it, and I thank him, our gentlewoman from Ohio (Ms. KAPTUR) has supported it, it will have an impact in this project.

So, Mr. Chairman, there must be a misunderstanding here. Because on the one hand, it will cut; on the other hand, it will not have any impact.

Mrs. EMERSON. Mr. Chairman, reclaiming my time, I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, I just want to say very specifically that I believe that they are mistakenly pointing this out. What this amendment really does is it will eliminate the million dollars and allow $1 million to go back into the general research against the $13 million losses.

Mrs. CLAYTON. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I want to say, in the furtherance of explaining and giving you a point of what is intended and what is written, I yield to the gentlewoman from Ohio (Ms. KAPTUR), the ranking member of the Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies.

Mr. KAPTUR. Mr. Chairman, I thank the gentlewoman for yielding to me, and I wanted to clarify a couple of matters here for the RECORD in terms of this amendment.

First of all, the amendment of the gentleman from Oklahoma (Mr. COBURN) is to page 13, line 11, which reads: $62,916,000 for special grants for agricultural research. The gentleman’s amendment proposes to eliminate $1 million from that account. Am I correct in reading the gentleman’s amendment? That is exactly what the gentleman’s amendment states, page 13 line 11.

Mr. COBURN. Mr. Chairman, will the gentlewoman yield?

Mrs. CLAYTON. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, if my colleagues will turn the page to page 14, they will see that we did not amend the total amount of research. Therefore, the million dollars is reduced in one area, but the total amount of research is left the same. My colleagues will notice, on line 19, on page 14, that we did not amend $467,327,000.

Ms. KAPTUR. Mr. Chairman, if the gentlewoman from North Carolina will further yield, I thank the gentleman from Oklahoma (Mr. COBURN). That gets to my very point that he amends line 11, page 13, out of the special grant category. The project of the gentlewoman from New York (Mrs. LOWEY) is in the special grant category.

I wanted to get back to the letter that the gentleman from Oklahoma (Mr. COBURN) sent to the committee back on March 4. I am very glad that the gentlewoman brought it up himself here on the floor. The last paragraph says that Oklahoma State University met with him. They did not meet with another member of the committee.

Through that meeting, the gentleman learned about the specific projects, and then I quote from the gentlewoman’s letter, “They have targeted to get line item funding through the Agriculture Appropriations bill this coming spring.” This is the bill. This is the time we are talking about.

The next paragraph goes through five different paragraphs. The last paragraph says that Oklahoma State University says, “They wish to receive funding,” this is what he says to another member of the committee, “in a line item form.” The gentlewoman from Oklahoma (Mr. COBURN) even tells them how he wants it, for each one; each one of the projects, he means. Then the gentlewoman says, “And I wanted to inquire as to what support you plan to give them in regards to these projects as they progress through the Committee on Appropriations.”

I will tell my colleagues, when I receive a letter from a Member, and the gentlewoman from Oklahoma (Mr.
Coburn) did not send this particular letter to me, I would take it that when the gentleman says which projects he wants to cut, he's doing on behalf of his university, that is a request for funds.

So, therefore, if this is not a request for funds, I go back to my original proposal to the gentleman, because I understand he wants to cut funds, why not take the special grants that he has asked for, $285,000 for expanded wheat pasture, $180,000 for integrated production systems for horticulture crops, and $226,000 for preservation and processing research for fruits and vegetables, which total $691,000, and let us eliminate those first.

Mr. Coburn. Mr. Chairman, will the gentlewoman from North Carolina further yield?

Mrs. Clayton. I yield to the gentleman from Oklahoma.

Mr. Coburn. Mr. Chairman, first of all, this was not sent to the Committee on Appropriations. This was sent, one letter, to another Member asking his status on those projects.

Ms. Kaptur. Mr. Chairman, if the gentlewoman from North Carolina will further yield, which committee is that gentleman on?

Mr. Coburn. Mr. Chairman, if the gentlewoman will continue to yield, he is on the Committee on Appropriations, but he is also from Oklahoma, and he also would have to support that, should it take place.

When I make a request, and please go and look at my request, I specifically request things that I ask for. I mean what I say and say what I mean; I think the gentlewoman knows that. I am very cautious with how I do it.

I was also asked to offer other one point. We made legislative history when I specifically asked this amendment to take $1 million for a specific amendment. So that means no money is going to come out of these cancer projects. It is going to continue out of that one specific amendment.

I thank the gentlewoman from North Carolina (Mrs. Clayton) for yielding to me.

Ms. Kaptur. Mr. Chairman, if the gentlewoman will continue to yield, let me say to the gentleman from Oklahoma, I take it, then, he does not wish to support the Oklahoma State University's request for these ongoing research projects. I think that the gentleman's representative from the Committee on Appropriations should know that from the State of Oklahoma. I hope that the people from the University of Oklahoma also would know that.

Mr. Coburn. Mr. Chairman, will the gentlewoman from North Carolina yield? I just want to answer the last statement, if I may.

Mrs. Clayton. Mr. Chairman, I yield to the gentleman, if he can do it briefly.

Mr. Coburn. Mr. Chairman, I will be happy to support Oklahoma State re-

search for that only if they can help us cut some spending from somewhere else.

Mrs. Clayton. Mr. Chairman, when the gentleman from Oklahoma (Mr. Coburn) has a chance to respond, I hope he will respond as if he has written the amendment, if indeed it is designated not to come off the general special grant, because as it is written, it is not what his intentions are. The gentleman's intentions, as he stated, giving him the benefit of the doubt, he does not plan for it to come from cancer, but the result of his action means it will come from cancer.

The Chairman. The question is on the amendment offered by the gentleman from Oklahoma (Mr. Coburn).

The question was taken; and the chairman announced that the noes appeared to have it.

Mr. Coburn. Mr. Chairman, I demand a recorded vote.

The Chairman. Pursuant to House Resolution 185, further proceedings on the amendment offered by the gentleman from Oklahoma (Mr. Coburn) will be postponed.

Mr. Sanford. Mr. Chairman, I offer an amendment.

The Amendment offered by Mr. Sanford.

Mr. Sanford. Mr. Chairman, I offer an amendment. The Amendment offered by Mr. Sanford. Page 13, line 11, after the dollar amount insert "(reduced by $5,136,000)."

Mr. Sanford. Mr. Chairman, this amendment is a very simple amendment. All it does is decrease research in education by $5,136,000 for wood utilization research. These are specific grants to seven States, basically throughout the Southeast.

The real question that has to be asked with an amendment like this, and with wood utilization overall, is who does it best. If we think that the Federal Government, through grants to universities and private interests, is the best place to figure out where best to utilize wood, then my colleagues will want to vote against this amendment.

I happen to have a lot of experience in terms of wood utilization. I grew up on a family farm down south of Charleston. My dad died when I was in college and we converted the farm from basically a row crop and from cattle to pine trees. So over the course of my life, my brothers and I have been out behind a tractor, either mechanically or by hand, planting pine trees, throughout our whole life. And that has given me a lot of experience in this world.

Because with improved loblollies down in the Southeast, a first thin can be had in 12 years. Now, improved loblollies did not come as a result of wood utilization research grants. In fact, $45 million was granted in this category since 1985. It came about because people like Westvaco, people like Georgia Pacific, people like Union Camp were going out and doing research on what would create the fastest-growing loblolly or slash pine down in the Southeast.

Now, what we have in that part of the world are people like Joe Young. Joe Young is an independent timber producer based in Georgetown, South Carolina. And I would ask somebody like Joe Young if he thinks $5 million ought to be spent on wood utilization research or does he think that he, with folks running skidders, folks out in the woods, would have a better idea of, for instance, harvesting the woods. We have people at Union Camp and Georgia Pacific, we have a big plant, actually a Westvaco plant in north Charleston, South Carolina, and the people there put literally millions of dollars each year into basically wood utilization research and coming up with the best ways to mill wood, the best ways to get wood from the stump to the home place.

So this is an amendment that is largely a philosophical amendment about where do we think this kind of research takes place. If we think it takes place best with government, through a Department of Ag grant, then we will want to vote against the amendment. If we think otherwise, we ought to vote for it.

Going back to what this money would do, because again I go back to the original premise behind this series of amendments that the gentleman from Oklahoma (Mr. Coburn) and others are offering, what this amendment is about is simply saying do we want to borrow from Social Security to pay for $5 million worth of wood utilization research; or, if we do not want to think about it in terms of Social Security, we can think about it with competing interests in agriculture itself.

This $5 million would buy 250 tractors for farmers across the country. This $5 million would pay the taxes for 2,500 farmers for their taxes on a family farm for 1 year. This $5 million would buy about 500,000 bags of fertilizer for farmers across the country.

And what I hear from farmers that I talk to is, if given the choice between an abstract grant that is already being handled by the private sector and money that could actually go to a farmer, they say they would take the second option.

Mr. Skeen. Mr. Chairman, I rise in opposition to the amendment.

The special research grant that this amendment proposes to eliminate is described in detail in part four of the committee's hearing record on page
Mr. SANFORD. Mr. Chairman, I move to strike the last word.

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. COBURN. I yield to the gentleman from South Carolina.

Mr. SANFORD. Mr. Chairman, I thank the gentleman for yielding to me, and I want to follow up again on what I have actually seen in the field, because our family actually grows pine trees. And when I talk to people like Joe Young, they used to go out there with a chain saw and cut the wood. Now they have a thing called a feller-buncher, basically a cutter set up on top of a four wheel drive tractor that moves around through the woods.

But these guys out in the woods, without government research grants, without government money, they are able to figure out how best to cut a tree rather than some researcher from the Department of Agriculture in Washington, D.C. telling them how.

Mr. COBURN. Reclaiming my time, Mr. Chairman, again I would make the point that the purpose of this amendment does not cut overall research; rather it allows that money to go for something that we would deem to be more productive.

Mr. SANFORD. Again, I would come back to something I said earlier. There is no question that our Agriculture Committee Appropriations included in the 302(b) and I have heard that thrown up several times. The people bringing that point to the floor have to say if they are going to support the 302(b) for agriculture, they have to support the 302(b) for Labor, HHS and Educa-

nated products where they take wood chips and put glues in it in order to create the fiberboard that is used. In some places we are growing sugar cane and other types of cane products and figuring out how to take the moisture out and put them into a process that would use them for wood construction, or what looks like wood but really is not.

The new knowledge that is gained through this research program has been conducted through six centers around our country. Let me just read some of the new types of products that they have been able to bring to the market.

The design of glued laminated beams that are reinforced with plastics saves up to 25 to 40 percent of the wood fiber that would otherwise have to be used in that construction. So even our forests and our private forests are not growing fast enough to meet the needs that we have domestically and internationally.

In addition to this, they have been working on technology to apply those wood preservatives, using superfluids to reduce the environmental problems associated with present commercial treatments. When they put on these laminates and these various glues, this is a very difficult industrial process and they have been working on that.

They have been working at better harvesting systems that are efficient and environmentally acceptable. Easy to say, hard to do.

They have been looking at the increase of wood machining speeds and the reduction of saw blade widths to increase productivity and save raw material itself. The world of the 21st century and the new millennium will be one of shrinking natural resources and trying to use what we have in wiser ways.

They have been working on a patented system to apply pressure and vibration to prevent the enzymatic sap stain which degrades hardwood lumber by $70 to $200 million a year. I know that because I have a little coffee table in my house, and I cannot get that sap to stop staining up through the covering that is on it. We need to find scientific answers to that so that wood can be fully utilized.

They have been doing research on the reduction of the quantity of wood bleaching chemicals needed by wood pulp producers. In other words, to try to be more environmentally conscious.

They have been working on the design and strength of wood furniture frames to minimize wood requirements. The wood being used today in furniture, if we were to take everything apart that used to use wood, we would be surprised at how that has
been minimized. In States like Michigan, States like Ohio, where many industries use this new research, it has been immediately adapted.

Also, they have been using the adoption of European frame saw technology to composite lumber to provide a new raw material source for industry. It is very interesting to look at some of the layered wood products that have been used across our country. Some of the glues did not work originally. Now they are doing much better at that, where we are using just the top coating is actual wood and what is underneath is various types of composite products.

So I would say that this is extremely important. We are one of the largest forested nations in the world. We are having trouble with many of our softwoods, bringing them to market. People do not want the new wood, they like the feel and look of wood, and many of these wood utilization scientific studies and undertakings do have a direct commercial market application.

So I just wanted to put that on the record and I would support the chairman in his opposition to this amendment.

Mr. SOUDER. Mr. Chairman, I move to strike the requisite number of words.

Once again I want to state that I actually favor increased agricultural research, and having grown up in the furniture industry, as well as understanding a lot of this, I am not even sure I am going to vote for this amendment. I am listening to the debate on it.

But I want to make an additional point, and that is there have been a number of comments about the amendment process and how we, in fact, as Members learn.

I am on seven different subcommittees. The idea that I am going to sit in every single appropriations subcommittee and listen as every single appropriations subcommittee and listen as every single subcommittee, for the committees, for the leadership and then tell the Members of this House that we can amend the appropriations bill, if we are lucky enough to get the appropriations bill before we vote, to look at it and see if there is anything here, if this bill exceeds the budget caps, that we believe should be looked at and debated on the House floor. And that is, in fact, what we are going through.

There are Members who are proposing that we are supposed to sit, as though we do not have other committees, on every single debate item. Now, presumably, if the committee has done its work well, and the subcommittee, they will be able to defend particular things.

But I have another concern and that is that one point that has been made on this floor is the mandate to resonate a lot with me. And that is that agriculture, while I do not believe it is being picked on in the nature of all the bills, guess what the only bill that Members of Congress cannot reduce is? It is our own branch appropriations. We are not allowed to come to the floor and offer amendments to reduce expenditures on Congress because we might micromanage Congress. Now, we are allowed to come to the floor to micromanage other agencies under House rules. But under the Democrats and under the Republicans, we are not allowed to come to the floor and do our own.

The reason this becomes important is because we keep hearing about these allocations to committee and how agriculture, which in fact has been very reasonable and stayed pretty much on an even keel in the budget, is getting battered in this process here, at least 18.7 percent in these great 302(b) allocations we are hearing.

But guess what? The Members of Congress are going to get a 7.3 percent increase for their personal offices. Members of Congress are going to get a 5.6 percent increase for their personal offices. But the leadership is getting an 8.4 percent increase, plus the 660,000 they got in the supplemental bill, meaning they are going to get an 11.7 percent increase for their personal offices, the committees will get 7 percent, the leadership gets 11.7 percent, but these same allocations are reducing education by $5 billion, education and health and interior, by 18 percent.

Ms. KAPTUR. Mr. Chairman, will the gentleman yield?

Mr. SOUDER. I yield to the gentlewoman from Ohio.

Ms. KAPTUR. Mr. Chairman, I thank the gentleman from Indiana for yielding.

Mr. Chairman, the gentleman made a reference to the point this is not this subcommittee's fault, because there are unrealistic allocation numbers given through the budget process to each of the committees.

Could the gentleman tell me who produced those numbers, then, that he is objecting to?

The CHAIRMAN. The time of the gentleman from Indiana (Mr. SOUDER) has expired.

(By unanimous consent, Mr. SOUDER was allowed to proceed for 2 additional minutes.)

Mr. SOUDER. Mr. Chairman, the gentleman is correct. It was not the Democratic side of the aisle that produced these unrealistic expectations.

Many of us have concerns, as the gentleman from Oklahoma has pointed out, that these things should be done in an independent and bipartisan way. When we think our leadership is wrong, we will speak up, as when we think her leadership is wrong.

Ms. KAPTUR. Mr. Chairman, will the gentleman yield?

Mr. SOUDER. I yield to the gentlewoman from Ohio.

Ms. KAPTUR. Mr. Chairman, I guess, as one ranking member on one of the 13 subcommittees, we did our work and we produced a bill under the mark we were given. As my colleague can imagine, I was not very pleased with the fact that we have been dragged out to the floor here, now 2 days, with every line item picked apart when, in fact, we produced a bill under the rules we
were told to play by. And I guess we do not really understand why this is being fought out on the House floor.

Mr. Chairman, is this their only measure to bring it to us? Can my colleagues not do it in their own caucus?

Mr. SOUDER. Mr. Chairman, reclaiming my time, we in fact have been brought as a leadership, as my colleague well knows, has a very small majority and it is very difficult to work out. And when we cannot work it out, we have no choice but to bring it to the full Congress and debate it bill by bill.

Agroindustries has the misfortune of being the first bill up. My colleagues have basically stayed almost at a flat freeze. And the argument here is not with agriculture in particular, but the process. I believe we ought to air this through the entire process because the numbers are going to be greater variations in the future subcommittees than they are in agriculture.

But agriculture was picked because it was supposed to be the least controversial. And what the Americans are seeing and the Speaker is seeing and the Members of the House are, even this bill is controversial because it is a test of where we are going as far as our budget process and how we can try to reach those goals.

But once again, I want to agree with the basic statement of my colleague. The problem is that we have unrealistic 302(b)s and my colleagues did indeed in their subcommittee stay within that, but that the overall category is fallacious and that is what we need to bring out.

Mr. HOEKSTRA. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I am here today to voice my support for the efforts to address this freeze, to not increase spending this year.

I empathize with the comments that my colleague has made and the difficulty that we are having in working some of these issues out through our own leadership. But I think that, as we have taken a look and heard the rhetoric in Washington this year, the President talking about saving 62 or 68 percent of Social Security, Republicans talking about the second largest manufacturer of office furniture in America. I have three of the largest office furniture companies either in my district or very close to my district, and I have got a lot of smaller office furniture manufacturers, many of them who use wood products. I am not sure that they need or want the government to direct or fund this research.

As a matter of fact, we were just up in the Committee on Rules, and I told my colleagues what they really want is, they would rather not have us fund this research; what they really want to have is, they want to have the ability to compete.

The amendment that we brought up in the Committee on Rules goes to an industry like this and says they cannot compete for business with the Federal Government. It is kind of interesting that we are saying we are going to give them $5 to $6 million to be more competitive, but what ever they—earn—learn, they cannot compete for business with the Federal Government.

Why is that? Because their largest competitor in the Federal Government for Federal Government business is Federal prison industries. Federal prison industries make $200 to $300 million every year they—earn—learn, they cannot compete for business with the Federal Government. It is kind of interesting that 10 hours of debate on $61 billion worth of the taxpayers' money is not too little debate. As a matter of fact, it is not enough. And I find very peculiar, to use the word of the gentleman from Michigan, that we would be worried about discussing out in front of the American public where we are spending their money. And 10 hours of debate. Of what we have had thus far on this $61 billion, I think is far too little.

So I find it peculiar that we do not want the light of sunshine come on what we are doing.

Mr. CASTLE. Mr. Chairman, reclaiming my time, if I may, I just wanted to come to the floor to discuss all of this because I have some views on this that may be a little bit different than what we have heard. I support the particular amendment, as I have a number of these amendments, with respect to reductions.

I have a tremendous amount of respect for the chairman of the committee and for the work that the staff has done. I think they have actually worked hard on this. But I have a huge problem with the way that we are managing the finances of the country today. I am not talking about just here in the House. I am not talking about the House and the Senate. I am talking about the House, the Senate, and the White House and the President of the United States.

It is my judgment that there are sufficient revenues on hand today to do
virtually everything that I have heard the people think needs to be done; that is, to help rescue the Social Security and Medicare systems; to make our expenditures proper, particularly in the areas of defense and education and other areas that we agree need a great deal of help, as well as agriculture, I might add; to live well within a balanced budget circumstance, and probably frankly to be able to have a tax cut.

But somehow we have gotten tied into the 302(a) allocation and the 302(b) allocations. Everyone is unwilling to talk about doing anything different. Nobody is willing to get together to sit down and say, “What are we going to do?”

I can tell you exactly what we are going to do. We might pass this particular bill and a number of the other appropriations bills, but we are going to end up with at least five of these bills, and maybe six or seven of them. We are going to have a train crash, and the train crash is going to be the same as the train crash we have had almost every year since I have been here.

Sometime along about November, we are going to be in a circumstance in which we are not able to get the others passed. We are going to get into an omnibus situation, we are then going to break the budget caps, we are probably going to spend about $50 billion more than we should have spent otherwise because we did not sit down now and plan how we are going to manage the revenues and the budget of the United States.

A lot has happened in the last 2 years since we came to the balanced agreement. There are a lot more revenues on the table now. I believe that I am fiscally conservative, as are many members here, but I also believe that we have to make decisions which are astute and which make some sense.

I think the distinguished gentleman from Oklahoma is making some very good points here, but not individually on each of the amendments which he is presenting but on the basic concept of what we are doing. For that reason, I think that we have to start to think outside of the box on the finances of the United States.

I intend to take this up directly with the President, at least in the form of a letter, as well as with our leadership, to stress some of these points and to suggest that we are going down a road that we are not going to be able to complete and we are going to be casting votes here throughout the summer on a series of appropriations bills that are going to end up being very different when it comes to November. In a way it is a shame that somebody as distinguished as the present chairman is sort of at the brunt of the feelings of some of us who do not think the proper decisions are being made.

It is very simple. Why wait until the end when virtually everybody agrees that probably we are going to break out of the budget caps, which allocations will probably change in some way or another? Why can we not get together now? Why can we not get together with the White House, which has a major voice in this, sit down and make the decisions and go from there?

That is what the people of the country want. They want our country managed well from a financial point of view and in a basically conservative way so that we are able to move forward. That is what I would like to do.

Ms. KAPTUR. Mr. Chairman, will the gentleman yield?

Mr. CASTLE. I yield to the gentlewoman from Ohio.

Ms. KAPTUR. Would I ask the gentleman with those very something for me? I heard what he said and that he wants an honest budget process. Our subcommittee came in exactly as we were told on the mark we were given. He does not like the marks the subcommittee did fine. I have a problem with the allocations.

Mr. CASTLE. That is correct.

Ms. KAPTUR. What would make the gentleman happy? This process cannot make him happy. He is nit-picking a bill apart on the floor. What does he want?

Mr. CASTLE. Mr. Chairman, the gentlewoman is correct. I think that her subcommittee did fine. I have a problem with the allocations.

The CHAIRMAN. The time of the gentleman from Delaware (Mr. CASTLE) has expired.

(On request of Ms. KAPTUR, and by unanimous consent, Mr. CASTLE was allowed to proceed for 2 additional minutes.)

Mr. CASTLE. Mr. Chairman, I believe that her subcommittee has done just fine based on the allocations which are there. My problem is that I do not think we can live with the budget caps which are there and get everything in that we are ultimately going to have to do in the course of this year.

You might be able to pass your particular appropriation bill, but, as I said, I think there are at least five and probably more than five, maybe six or seven which simply are not going to pass with the caps. You happen to be sort of in the upper end of that if you really look at it. You are not as high as Defense and a couple of others but you are in the top four or five. Therefore, you are probably in the best circumstance in terms of what you can do.

But if you look down through these, VA-HUD and a series of others, Labor-HHS in particular and Interior and some others simply are not going to make it in this circumstance. We are not going to come to the end, then it will all get rolled together, we will do it in the form of an emergency bill, taking money away from Social Security and other spending we could do; or we will roll it together in some sort of omnibus bill at the end of the year as we did last year with all kinds of extraneous spending.

Unfortunately, you suffer the brunt of the conclusions of people like me and maybe some others who approach you from a different point of view. But because of that we need to express ourselves and try to get the attention of people all over Washington to try to pull this together and come up with some resolution of the matter.

Ms. KAPTUR. But that is my question to the gentleman. Obviously there is a problem on your side of the aisle. What is the mechanism for you to solve that problem internal to your caucus without dividing us on this floor? You had a budget. You did appropriation after appropriation after appropriation. And, Mr. Castle, reclamation my time, it is not, and I say this respectfully—I do not want to pick a political fight today particularly—it is not just on this side of the aisle. For example, the OMB director, Mr. Lew, has been to slam Republicans today for deep, unwarranted cuts in funding, yet he will insist that the GOP resist the temptation to raise the budget caps this year. That is probably a strategy that maybe your side of the aisle will use as well.

The bottom line is it involves all of us. If we are going to resolve this problem, it involves all of us. Yes, I think my side of the aisle should be involved, they should go down to the White House, too, but we should all be talking about this.

The CHAIRMAN. The time of the gentleman from Delaware (Mr. CASTLE) has again expired.

(On request of Ms. KAPTUR, and by unanimous consent, Mr. CASTLE was allowed to proceed for 2 additional minutes.)

Ms. KAPTUR. I do not know what the White House has to do with this. The budget process is for us, the Budget Committee of the House, the Budget Committee of the other body. We do our budget, we get our allocations. What I do not understand, nobody has been able to explain to me in 2 days, if you do not agree with the budget allocations that have been given, why do you not go back and change the budget?

The gentleman from Texas (Mr. ARMYEY), the gentleman from Texas (Mr. DELAY), they were out here yesterday, they voted with the gentleman from Oklahoma (Mr. CONCEN) on the amendments that he brought up. And I am standing here thinking, “Wait a minute, they gave us the budget marks that we used in our committee, so now why are they voting against our own marks?” I do not understand. What is the point of going to the White House if you are not going to come down to Washington?

The Budget Committee? They already did the work. They gave us the marks. How do we avoid what is going on here?
Does the gentleman understand my question?

Mr. CASTLE. I do understand your question. Reclaiming my time, I am going to try to answer your question.

The system of budgeting in this country in general has failed in many ways. I believe that the emergency appropriations, in which the White House was very involved, was a series of expenditures beyond what we should have done, cutting into what could have been used for Social Security and what could have been used for other spending. I believe that the omnibus bill that passed at the end of last year, and the President is involved in that, I am not saying it disrespectfully but the President is involved in that, was a bill which went well beyond any dollars that we should have spent in the course of this year because the President wanted to spend more.

I am cognizant of the fact that the President is going to want to spend more in my judgment by the end of this year. As I said, sometime in October or November is that going to happen. The executive branch is always involved in decisions such as this. It is a political war going on. The White House is saying, ‘Don’t break the budget caps.’ And the House and the Senate are saying, ‘Well, we’re not going to break the budget caps.’

But we are coming up with a methodology that is ultimately going to lead to that happening and it is going to have to happen at the end of the year. I do not think that is proper. I am not excusing what we are doing here, but I am also not going to say that the White House is not involved.

The CHAIRMAN. The time of the gentleman from Delaware (Mr. CASTLE) has expired.

Mr. CASTLE. To suggest that the President of the United States should not be involved in the resolution of the spending of the United States, including the budget allocations, as well as all other decisions which are being made on Social Security and Medicare and the other entitlements is to presume that the President is powerless. And this President is not powerless. The White House is a major player in this.

It is simply not just the prerogative of the majority here or even a majority and a minority together here. It is something that should be worked out with everybody sitting down to try to make a difference. I say that constructively. I do not say it in a political sense. I say it entirely constructively.

Mr. BALDACCI. Mr. Chairman, I move to strike the requisite number of words.

First of all, having only been here three terms, I do understand, though, the process with the budget, and the budget resolution is a document that is approved by both bodies of Congress and does not need to have the President of the United States’ signature on it, and is a blueprint for then how the committees on appropriations should go about doing their work. It is at that point that the initiatives on appropriations are doing their work and working its way through Congress and approving those bills, they are sent on to the White House, and then the White House determines whether to veto it or sign it. So I do not want to get too far along in that discussion, but I thought it was appropriate for some of those that may not be as familiar with the process.

I want to thank the gentlewoman and also the chairman of the sub-committee for the work that they have done in achieving the budget resolution and levels that they were given by leadership and by the Committee on the Budget. I appreciate the work that they put into it.

I also appreciate the amendments by the gentleman from Oklahoma (Mr. COBURN) and those that seek to address the issue of the budget overall in agriculture, because I think frankly it gives the agriculture community an opportunity to talk about agriculture. Sometimes in our country we just take agriculture for granted. We think it is a produce aisle at Shop ‘N Save or some large chain, but it is families out there that are working hard, trying to make ends meet and carrying on from one generation to another. A lot are participating in a 4H program and a lot of other activities throughout rural America that I think make the quality of life second to none.

I think both in proposing these amendments, and not being as familiar with the research that goes on at our land grant institutions, I wanted to come to the floor to better explain and to seek your understanding in regards to wood utilization research. Presently, the State of Maine has an excess of over 22 million acres. The State of Maine has a small population and does not have a population base to be able to spend as much money on pavement as a lot of the States.

So in the State of Maine we have a very good research and development entity at the University of Maine, and they have been studying wood utilization so that we would be able to use a lower grade wood with a laminate added to it to be able to be used in flooring and other kinds of things as being able to use an awful lot of that because in the islands and traveling around the State of Maine, it is one thing to make sure the roads are smooth but it is another thing to be able to get to them. If you do not have the proper bridge and the stress that goes with all of that, then you are not going to be able to do that. The research at the University of Maine is allowing that to happen.

It is also involved in doing environmental work to reduce the amount of chlorine that is used in processing. A lot of the wood that we do have in our State of Maine is of a higher grade and to be able to add value to that, we are creating a line of things to be processed elsewhere because of the processing that has been provided. We do not have that within our State and in a lot of rural States.

So by being able to have the technology and the research, not companies are lining up around that research to then add to the construction and reconstruction efforts, to add to the employment and additional employment of better paying jobs in a part of rural America and rural Maine where there is higher unemployment. This research does mean an awful lot to the people who are working in those areas.

At the same time, because of an environmental concern about the number of trees that get cut, by being able to add value to what they are doing with your natural resources, you find yourself in a situation of not needing as many of those natural resources because of being able to add value on it. So that means that we have people who are not just out there cutting the trees to gain income but they are also working in the in-State processing and value added of that product to get a higher value out of it, better paying jobs and benefits. And more of that is needed.

I think the problem with the border rather than on the other side of the border. So a lot of this research is being done and I think it is important.

The CHAIRMAN. The time of the gentleman from Maine (Mr. BALDACCI) has expired.

Mr. BALDACCI. Mr. Chairman, I think it is important, though, because at first blush it would look as though what we would by reading it. I think it is important that we do explain it, not only for those that may wonder about it but there may be others that have some
Mr. BALDACCI. I yield to the gentleman from South Carolina.

Mr. SANFORD. Mr. Chairman, I would agree, there certainly is a lot of valid research in any of the land grant colleges. My particular reason for offering this amendment, though, ties to part of the research goes, for instance, into better harvesting methods. Though Maine does not have the mosquitoes that South Carolina has, I know that you have a few mosquitoes in the summer.

The old saying is, necessity is the mother of invention. I cannot imagine a more resourceful person than that person laying under a logging truck or laying under a skidded, getting bit up by a mosquito—you have those—we call them dog ticks in South Carolina, they will be the size of your thumb and will be pretty resourceful in coming up with the quickest way to move a tree from a stump to a mill.

The reason for this amendment was not to in any way discount some of the valuable research that takes place, but to say there is also some stuff that is probably extraneous and probably better done by the Joe Youngs of the world in Georgetown, South Carolina.

Mr. BALDACCI. Mr. Chairman, just gaining back an opportunity, I do appreciate that, and I would just like to say for public relations purposes the mosquitoes are not that big, even though they are called black flies, and so if my colleague is interested in coming to Maine rather than South Carolina, he can enjoy that.

The second thing is that the gentleman has helped to do as a Member of Congress, and many other Members, is that now all of a sudden it just does not go out and the research is done through this money, but this money is matched by industry and by private support, and it is actually in collaboration.

The CHAIRMAN. The time of the gentleman from Maine (Mr. BALDACCI) has again expired.

(By unanimous consent, Mr. BALDACCI was allowed to proceed for an additional minute.)

Mr. BALDACCI. Mr. Chairman, last year the University of Maine received about 890,000 in Federal funds, matched with 500,000 in programs support, and industry provided in kind support an additional 250. So the collaboration is there, so it is not being just done by the university and by the money that is being provided here, it is a collaborative effort which has been forged, I believe recently, which I think is going to lend more value because there is actually going to also be an economic gain from that.

Ms. KAPTUR. Mr. Chairman, will the gentleman yield?

Mr. BALDACCI. I yield to the gentleman from Ohio.

Ms. KAPTUR. Mr. Chairman, I would just like to state for the record that the gentleman clarified something very important that I would like to put on the record, and that is the industrial fund match in each of these centers: at Mississippi State, an average of $783,458 for the last 5 years; Oregon State University, over $670,000; Michigan State University, $605,000, and the list goes on. We will submit it for the RECORD.

But the point is there are not only industry matches, there are also State matches. So this is truly a Federal, State, private sector cooperative program, and I thank the gentleman for coming to the floor.

Ms. DELAURO. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I would like to thank the gentleman from New Mexico (Mr. SKEEN) for his leadership on the floor and for holding this colloquy with me to clarify the Agriculture Research Service funding level for rainbow trout research.

Is it correct that the chairman's amendment offered in subcommittee markup provided that within the funds provided to the Agriculture Research Service the committee recommends an increase of $500,000 for research at the University of Connecticut on developing new aquaculture systems focused on the rainbow trout?

Mr. SKEEN. Mr. Chairman, will the gentleman yield?

Ms. DELAURO. I yield to the gentleman from New Mexico.

Mr. SKEEN. Mr. Chairman, the gentlewoman is correct, and this is a typographical error. The amendment adopted in the subcommittee clearly stated $500,000. I regret the error, and I do welcome this opportunity to set the record straight.

Ms. DELAURO. Mr. Chairman, I thank the gentleman from New Mexico. Ms. KAPTUR. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I thank the gentleman, and I just wanted to say for the record there was some references made a little bit earlier to the role of this House and the other body in preparing a budget and approving a budget, the role of the White House. I just wanted to mention that normally the way government at the Federal level works is that the Congress prepares and passes bills.

The President can propose, but it is our job to dispose, and when we finish our work, and it is ours to finish, we send it to the White House, and under the Constitution he has only two options: sign the bill or veto the bill. I do not really understand all this extralegal negotiation that is referenced here on the floor and so forth. We have our job to do, and we ought to do it, and if the President does not like what we do, then let him use his constitutional powers to veto and we will override, or we will come back to the drawing board and do this again.

But truly we are not meeting our constitutional responsibilities through the kind of dilatory tactics that we have experienced now on the floor for 2 days. I do not remember when I have seen a bill, an appropriations bill for certain, come to the floor with hundreds of amendments filed on one particular subcommittee like this one.

So I just wanted to say to the leadership of this institution: "Do your job, send the bill over to the White House, and if they don't like it, let them veto it. If they like it, let them sign it. But let's not be bound up by some sort of private conversations which none of us here on this floor are party to. Let's do our job. That's our constitutional responsibility."
May 26, 1999

Ms. KAPTUR. I yield to the gentleman from Oklahoma.

Mr. COBURN. The problem is, we are not going to be able to take care of our veterans under 302(b) allocations.

Ms. KAPTUR. Mr. Chairman, within the gentleman’s structure, he decided what those levels were. Now he is saying he does not agree. On this side of the aisle we have to act in good faith with the budget the gentleman’s party has given us.

I am saying to my colleague, if he does not like what he was given, other than coming down here and doing this, does he not have some other amending process he can do on his side, inside his caucus, to produce the budget that he wants?

Mr. COBURN. If the gentlewoman would yield, if we had that capability, we would not be here.

Ms. KAPTUR. But they prepared the budget. It is their budget.

Mr. COBURN. The 302(b) allocations are prepared by certain groups within here, and those are the ones we object to. It is not the budget that we object to.

Ms. KAPTUR. Well, which party are they in? Is it the majority party?

Mr. COBURN. Mr. Chairman, I would like the record to show it is the majority party that prepares the budget.

The CHAIRMAN. The question is on the amendment offered by the gentleman from South Carolina (Mr. Sanford).

The question was taken; and the amendment (reduced by $300,000) was agreed to by unanimous consent.

Page 13, line 11, after the dollar amount insert “(reduced by $300,000)”.

Mr. COBURN. Mr. Chairman, Oklahoma is the leading producer in this country of Spanish peanuts. Last year peanut production in this country amounted to 302(b) allocations.

The CHAIRMAN. Pursuant to House Resolution 185, further proceedings on the amendment offered by the gentleman from South Carolina (Mr. Sanford) will be postponed.

Amendment offered by Mr. Coburn.

Mr. COBURN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. Coburn:

Page 13, line 11, after the dollar amount insert “(reduced by $300,000)”.

Mr. COBURN. Mr. Chairman, Oklahoma is the leading producer in this country of Spanish peanuts. Last year peanut production in this country cost the farm $1 billion in revenue. The cost of peanuts in our country and the products that come from there end up being twice as high as they are worldwide.

Now, this amendment asks the question, have we a subsidized peanut program in this country that generates a billion dollars of revenue off the farm each year for peanuts. Why would we want to spend $300,000 on peanut competitiveness when we already know the reasons why we are not competitive in peanuts? It is because we have an oversupply and that we have tried to manage the problems with this oversupply through a subsidy program.

Again, here is $300,000 that is directed for research on why we are not competitive worldwide on peanuts when we already know the answer. So I would again go back to the fact that here is $300,000 that could be better spent, that could be better directed at other areas of research, that could in fact be used to help farmers directly rather than to set up a competitive research program when we already clearly know the answer.

The problem in peanuts is, we have to slowly wean away from this false market, and we all know that; and as my colleagues know, I do not want a peanut producer in my State to have to go out of business.

I understand the friction and the rub associated with these big problems for our farmers, but to turn around and to spend that kind of money in terms of our subsidy programs, to turn around, and those are mandatory spending, to turn around and to spend $300,000 to tell us what we already know makes no sense.

I would rather see that $300,000 go directly to farmers, corn farmers, wheat farmers, soybean farmers or cattle ranchers who are competing with a market that is coming in from Canada, that ignores any type of testing, any type of standards that the rest of our ranchers have to have.

If we really want our ag research directed to help our farmers, then we will not have $300,000 set up for competitive peanut research, and instead we will spend that money somewhere else.

We do. We are demonstrating that we trust the committee because we are not taking this total amount out of the research. We are saying put it somewhere else, but do not spend it on a program that keeps us at the seat of political favors rather than at the best efforts for our farmers.

As my colleagues know, the real debate is, we have allocations of money set for agriculture that I think is really a little too much. That is what I have been trying to do, get $250 million out of this bill because I think that is the only way we are going to meet our commitment to the seniors of not spending their money. But colleagues cannot claim that they did their job for the whole Congress, we as a body and the Committee of the Whole, if we meet a 302(b) here knowing that we have no intentions of meeting those allocations, that 302(b) with the four biggest bills that are going to come before us. It is not intellectually honest for us to say that.

We know that this committee has worked hard. I am sorry that we are where we are, but the fact is, if we made a commitment when the Democrat budget was offered, the commitment was made not to touch Social Security money. When the Republican
budget was offered, the commitment was made not to touch Social Security. When the President's budget was offered, the gentleman offered because nobody from the other side would offer his budget, two Members of this House agreed to spend 38 percent of the Social Security money.

They are the only two people in this body that have the right to have this process go through the way it is setting up, because they already said, "We don't believe you can do that. We believe we ought to spend more money."

The rest of us voted to say we would not spend one penny of Social Security surplus.

Mr. KINGSTON. Mr. Chairman, I will object because right now the gentleman is planning to insert it elsewhere, then if he chooses to withdraw the amendment, I will not object, but if he 

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. KINGSTON. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, I have every intention of withdrawing this amendment and reoffering it. Whether the gentleman objects or not, I will still have the privilege of reoffering the amendment.

Mr. KINGSTON. Mr. Chairman, reclaiming my time, the gentleman is an incessant campaigner for his cause. With that, I will withdraw my reservation of objection and let the gentleman withdraw the amendment.

Mr. COBURN. Mr. Chairman, I thank the gentleman from Georgia. The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

AMENDMENT OFFERED BY MR. COBURN

Mr. COBURN. Mr. Chairman, I offer an amendment.

The Clerk reads as follows:

AMENDMENT OFFERED BY MR. COBURN

Page 14, line 16, after the dollar amount insert "(reduced by $300,000)."

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. KINGSTON. I yield to the gentleman from Georgia.

Mr. KINGSTON. Mr. Chairman, I would like to speak to the intent of the gentleman's previous amendment, and I hope the gentleman is about to reoffer it so that I may do so and not move on to another section.

Mr. COBURN. Absolutely, Mr. Chairman, I thank the gentleman from Georgia (Mr. Kingston) for his courtesies.

Mr. KINGSTON. Mr. Chairman, I will be very brief in what I have to say about this amendment. We have a $300,000 expenditure for peanut competitiveness. We have a subsidized peanut program that produces $1 billion worth of raw peanuts off the farm a year. The prices of peanut-grade products in our country are higher than what they would be if we did not have a subsidized peanut program.

I have voted in the past for the subsidized peanut program. I have lots of peanut farmers. That does not mean in the future that we should not try to change that and weaken that to a competitive model where we have the appropriate amount of production and a competitive international model on that.

My point with this amendment is we know why we are not competitive on peanuts; why we would want to fund $300,000 to answer that question?

Mr. COBURN. Mr. Chairman, I move to strike the last word.

Mr. Chairman, as a representative from the great peanut State of Georgia, I rise to oppose the amendment as offered by the gentleman from Oklahoma.

The National Competitive Center for Peanuts, one would envision by that title a building of bricks and mortar when it in fact is not. This goes into funding research at the University of Georgia, the purpose being to find out if there are more efficient ways to produce peanuts. It is legitimate agricultural research, as is the type of research that we do on a myriad of other crops and fibers and foodstuffs all over the country.

One of the great challenges we have on this Subcommittee on Agriculture is funding research which is open to easy ridicule. For example, if this committee funds something that has to do with the mating habits of the screw, it is a great sound bite for Jay Leno and a great article for the Reader's Digest to say "Look at what these idiots are doing, they are researching the sex life of bugs."

And it is funny, and we all have a big laugh about it, and somebody from the other body says to the President, "I wish they did not spend it."

If we say we are not going to spend their Social Security money, we should not spend it.

Mr. HINCHLEY. Mr. Chairman, I ask unanimous consent that the last word.

Mr. Chairman, I am searching in the report for the language that would be stricken by this amendment. I am searching in vain. I wonder if the gentleman from Oklahoma (Mr. Coburn) could assist me in finding the line where this item exists. It says, page 13, line 11. However, we cannot seem to find it in the report.

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. HINCHLEY. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, the clerk has actually read the wrong line items. It is actually page 14, line 16. The Clerk read page 13, line 11. Our amendment was actually page 14, line 16. They happen to have the same amount of money, and therefore it was read as an inappropriate amendment.

Mr. Chairman, I ask unanimous consent to withdraw this amendment and offer the amendment as offered on the right line item.

The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

Mr. KINGSTON. Mr. Chairman, reserving the right to object, if the gentleman chooses to withdraw the amendment, I will not object, but if he is planning to insert it elsewhere, then I will object because right now the amendment is basically void, am I not correct, Mr. Chairman, since it is an inappropriate amendment?

The CHAIRMAN. The Chair will not interpret the substantive effect of an amendment offered by a Member.

Mr. KINGSTON. Mr. Chairman, further reserving the right to object, I would inquire of the gentleman from Oklahoma (Mr. Coburn), is my good friend planning to offer this amendment elsewhere?

Mr. COBURN. Mr. Chairman, will the gentleman yield?

Mr. KINGSTON. I yield to the gentleman from Oklahoma.

Mr. COBURN. Mr. Chairman, I have every intention of withdrawing this amendment and reoffering it. Whether the gentleman objects or not, I will still have the privilege of reoffering the amendment.

Mr. KINGSTON. Mr. Chairman, reclaiming my time, the gentleman is an incessant campaigner for his cause. With that, I will withdraw my reservation of objection and let the gentleman withdraw the amendment.

Mr. COBURN. Mr. Chairman, I thank the gentleman from Georgia. The CHAIRMAN. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.
percent as good as one can get it in a legislative body of 435 people coming from all over the United States representing the great 260 million people in America.

With that, Mr. Chairman, I would strongly urge my colleagues to soundly reject this amendment. Not for the sake of peanuts, not for the sake of peanut competitiveness, but for the bigger future, the bigger purpose of putting food on the family breakfast, lunch and dinner tables across America. Because we, unlike other nations, only spend 11 cents on the dollar on our groceries. Other countries spend 20, 30 cents, 30 cents, 40 cents. Other places even less fortunate than that spend all day long scratching out a living only to get food on their table.

Agriculture research, Mr. Chairman, is very important. It is part of our agriculture picture, and fortunately, we have very few people as a percentage of our population going to bed hungry at night, but it is because of important agriculture research, as well as this farm program.

Now, the gentleman talked about peanut subsides. I would remind him that peanut subsidies are not there anymore. The peanut program is a program, and yes, it is an elaborate program, and no, it is not the model of capitalism and free market. But what it does do, it allows young people to go back home and farm for a living, because they know if they can make a profit on peanuts, then they can also grow corn, soybeans and hogs/pork which they cannot make a living off of. Protect America's farmers. Vote "no" on this.

Mr. SKEEN. Mr. Chairman, I move to strike the requisite number of words.

Mr. EVERETT. Mr. Chairman, I move to strike the requisite number of words.

Mr. EVERETT. Mr. Chairman, I move to strike the requisite number of words.

Mr. SANFORD. Mr. Chairman, if there was ever a sensible amendment, this one is it. I do not know what could be more clear cut.

How many think it would be a good idea to put $300,000 to study the democracy that exists in Cuba? How many think it would be a good idea to put $300,000 to study government in Libya? None of them exist. That is exactly what this amendment is about.

This is a study of $300,000 for competitiveness in peanuts, which is something which does not exist. We have a market quota system. If you have a quota, you basically get to sell your peanuts for double, more or less double the price of anybody else.

For instance, I grew up on a farm down in Beaufort County, down in South Carolina. I am trying to pass on a few of those traits to my boys.

Can I imagine my boys raising peanuts in the backyard, and then being penalized strictly by the fact that you do not have a quota? What this quota means, if you happen to live in Los Angeles, if you happen to live in Chicago, if you happen to live in New York and you have a quota, you can sell that quota. So you have fat cat quota owners that basically get double what somebody else does simply because they have the quota.

That is not something that makes sense, but more significantly, what it says is this amendment does make sense, because to spend $300,000 studying competitiveness in something that is fundamentally not competitive is big government, at best.

That is what this amendment does. It makes common sense. It highlights, I think, the lunacy of some of the quota systems we have in place.

Can Members imagine a watermelon quota system? If you have a quota with watermelons, you can sell your watermelons for what my boys can raise them for in the backyard.

Can Members imagine a cantaloupe quota system? If you have the quota you can live in New York City, you can sell your right to produce quota cantaloupes to somebody who is down struggling on the farm. This is something that penalizes the family farmer.

Again, this is not something that makes sense. It is the equivalent of saying let us spend $300,000 studying the democracy that exists in Cuba, $300,000 studying the democracy in Iraq. We do not have competitiveness in the peanut program. This simply says, let us admit that and not spend $300,000 of taxpayer money on something that does not exist.

Mr. BOYD. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I want to associate myself with the remarks of my friend, the gentleman from Alabama (Mr. EVERETT). Having listened to the last amendment from South Carolina (Mr. SANFORD), I want to reiterate the problem that we have here in many of us not understanding the issues.
Just the instance that my friend, the gentleman from South Carolina (Mr. SANFORD) mentioned earlier, and I do not know if he is on the floor, but that Members need to be sure to come over and support or defend the attacks that were being leveled on various projects in various districts, as if they were all personal and the work would not be done if it was not being done in that particular district.

It has to be done somewhere. I think probably it is done a lot better out in the communities, rather than it is in Washington, always. I do not have defense that I need to make of this particular amendment. We do not do any peanut research in my district. But I do want to say that I do not feel terribly comfortable in the fact that if each person came over and did defend, and being that made, that would be sufficient to some of the proponents of some of the amendments to make dramatic cuts.

I was the chairman in the last Congress of the Subcommittee on Risk Management, Research, and Specialty Crops, the first time that that title had been reauthorized in a number of years. We spent a great deal of time looking at the value and the significance and the importance, not only to American agriculture but to the entire American population that eat, about the strides and about the accomplishments and about the progress and the success that agriculture research has made. I think it is probably one of the best money that is spent.

Now some people have said, well, we could best this and give it to farmers and buy tractors or whatever. That is not part of the proposal. The proposal is not to take, in this case, $300,000 and give it to anybody, it is to simply eliminate it. So that argument in itself is somewhat hollow.

I do not believe that intentionally people try to do harm to a significant number of very important programs that the chairman of this subcommittee and the ranking member of this subcommittee spent hours deliberating over to try to come up with a balance within what they were told they had to work with.

Some people do not like that, but that is what they were told they had to work within, and they did it. They did a very good balance of a number of very, very important programs, and some new programs. But I hope that we do not totally limit ourselves just to things that have always been done in the past; that we look at how we can do them better, that we look at new programs that ought to be brought into place, that we look at things that should be done on behalf of American agriculture with a very, very limited budget and the very, very small amount that is expended on agriculture.

I would hope that while the gentleman may continue for as long as he can hold out offering his amendments, that this body, that this committee, that the Morrill Act, which established our greatest provider of medical services in the world.

Our agricultural industry is the greatest in the world because of the research and development that enables us to be that. We have the greatest medical community in the world because of the medical research that has been done in this country, mostly in our public universities with public money, to establish us as the greatest provider of medical services in the world.

Our agricultural industry is the greatest in the world because of the research and development, and most of it has been in our public universities over the years. Our industrial basis the same way.

What we have seen in the last couple of days is an attack on our research and development to develop new technology to continue for us to advance into the 21st century.

I would strongly urge that Members defeat the amendment which is before us as it is simply another attack on research dollars which will enable us to continue to advance and be the greatest Nation in the world.

Mr. COMBEST. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, the last couple of days have been somewhat frustrating for a number of us who find that due to some of our committee responsibilities and some of our interests in agriculture, we are finding ourselves going through this.

I need to make it clear to the gentleman from Oklahoma that I have no qualms whatsoever with his rights to do what it is that he is doing.

I have heard a lot of comments here. The gentleman from Indiana (Mr. SOUTER) mentioned earlier, and I do not know if he is on the floor, but that Members need to be sure to come over and support or defend the attacks that were being leveled on various projects in various districts, as if they were all personal and the work would not be done if it was not being done in that particular district.

Mr. WATKINS. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise reluctantly, because I have the greatest respect for my fellow colleague, the gentleman from Oklahoma (Mr. COBURN), and he is one of the brightest men I have ever met, and one of the men that is committed to a lot of different causes. But I could not let this debate go by without taking a few moments to make some remarks about agriculture. I grew up on a peanut farm. I have no financial interest in peanuts, except I do like peanut butter and have Oklahoma peanuts in my pocket. I have studied peanuts most of my life and agriculture most of my life. Because I have a couple of degrees in agriculture, I have an emotional tie about the agriculture position in this country, not just a political one.

Years ago our Founding Fathers set the Morrill Act, which established our land grant universities. One of the most important things they did with the land grant universities is they set up research farms, and those research farms were connected with other private sector farms and private sector research facilities.

Those land grant universities, through that research coupled with the extension agents or county agents, and also with our agriculture teachers, allowed us to make agriculture a role model for transferring technology to use on the farm.

What happened was we had the greatest technology transfer ever recorded in the history of our country, as we developed a food production system, unmatched by any country in the world, which is allowing us today to stay somewhat competitive in world trade. It was caused to happen because of the dollars in research that came about through our land grant universities, like Oklahoma State University. They have done a tremendous amount of research with peanuts and the peanut program.

The peanut program has changed a great deal in the last few years. If a lot of other of our agriculture programs were set up like the peanut program, it would not be costly to the government at all. But unfortunately, that is not the case.

I predict to the Members that somewhere in the near future in agriculture we will be producing a quota for this country, and then we will have a nonquota amount for the international marketplace.

As an agriculturist I was taught how to grow four blades of grass instead of one. We have done that in production agriculture in America.

On April 9, I had a meeting of the Agriculture Round Table leaders in Oklahoma. We talked about what were the policies we were faced with and what were the problems. It was not production. That was not even scored as a...
problem. It was not the actual finances that many were confronted with. It was the agricultural policy of our government, and the subsidizing of agriculture. We have got to be able to learn to market through value-added activities, to meet the markets around the world.

We are in a global competitive world. The European Union spends nearly 75 percent of its budget on subsidizing agriculture, in the production of E.U. agriculture and also subsidizing export markets. We do not have free markets in agriculture. We have to be able to market, and research has to allow us to be competitive in those markets around the world.

I stand in support of, agriculture research dealing with peanuts. Probably not too much of peanut research is done with the land grant universities in Oklahoma anymore, but I do a lot of agencyinterchanging with other land grant universities in order to try to meet the needs of the peanut farmers in Oklahoma and helping them be competitive in the international market.

We have a value-added program at Oklahoma State University today that through research, we are being able to do more and more to allow our farmers and ranchers to benefit with greater profits, instead of just being efficient in production. I wanted to stand in support of this research for peanuts. It is important to Oklahoma agriculture.

Mr. ETHERIDGE. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I will be brief. I will not take all the time. I think most of us know where we are going to be on this bill or this amendment. It is a lot like a lot of the others. The proponent may have his own agenda, but I think we need to have the agenda for America.

If we did away with all the research in every bill that makes a difference in America, where would America be today? Where would we be without research for transportation, research in medical technology, research that comes from our science programs, and all the research for our farmers? Where would we be today in terms of opportunity for food and fiber?

I stand in support of this amendment. The peanut farmers are really the backbone of our economy in some of the poorest counties in the southern and eastern part of this country. For people to come to this floor and say that they are not going to hurt farmers, they just do not understand what they are talking about, or otherwise they are attempting to mislead.

This Congress, this Congress in 1995, when some of the very Members were offered these amendments to distribute to farmers the research to help them stay in business, passed the farm bill, they entered into a contract with the farmers. They said, for 7 years we are going to keep stable prices and they are going to go down. And they said to the peanut farmers, we are going to lower the rates. Where you are getting cut off, quotas are going to be reduced. Number three, the program will be open to new producers. Number four, out-of-State quota holders will be eliminated.

They voted on that, and now they want to come to this floor to eliminate that contract. In my opinion, that is a breach of faith, and this Congress ought not to do it. I do not think we are going to do it.

In return, they gave the farmers a farm bill that had virtually no safety net. We are seeing what is happening now across America; our farmers are in deep trouble.

Let me speak very quickly to peanut farmers and what this research money does. Peanut farmers face many obstacles and should not have to worry about getting the way they do. If we get too much rain, they get soggy peanuts, and there is a loss. If they get a drought, they get dust instead of peanuts. There is no one there to help them.

They are hardworking people. They take great chances. They are the foundation of this country like every other farmer, whether they be in the Midwest, whether it be in the West or whether it be in the East or the South. As I said yesterday when I took this floor very briefly, I am embarrassed for this Congress that we would take a bill that is here to make a difference for agriculture, and we are talking about research to make a difference in our future and the future of our children, to produce food and fiber at a cheaper price with less disease to help not only our people, but to help the people around the world, and we are saying we are doing it to save money.

I learned a long time ago, we cannot be penny wise and pound foolish. When my colleagues cut research, they are penny wise and pound foolish. If they do it in research for medical technology and everything else, we could carry ourselves right back to the Stone Age. I am opposed to this amendment, and I ask every Member in this body to vote against it.

Mr. LATHAM. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I just wanted to make a few comments. Obviously peanuts are not a big crop in Iowa. But it just struck me, I just spent a half an hour outside on the steps here with a group of FFA students from Ocheyedan, Iowa. We had a good conversation, and they asked me questions about Congress, about the agriculture.

One young lady asked me, “What is the future of agriculture?” It is a difficult question to answer. I have to kind of go back in my own mind and see what has transpired.

When I graduated from high school in 1966, there were 50 kids in my class. When my daughter graduated from that same high school in 1995, there were 17 in her class. We are seeing a huge change in agriculture, in rural America. We are seeing communities shrink. The section where I still live, there used to be four families living on that section; now there is one. It is a huge change.

To try and answer the question of this young lady about what is the future, really the answer is that agriculture today is a business, and it has to be treated that way. The people who will be successful are people who are agribusiness people, not just farmers.

The only way that one can make young people, for a future for them, of safe food, ample supply for all Americans and for the rest of the world, depends on a lot on what we do here today.

So I would just ask everyone in the House here, this may look like a good little cutting amendment, but when my colleagues vote today, think about maybe those 36 FFA kids from Ocheyedan, Iowa who maybe will not have the kind of future that a lot of us hope we have in agriculture.

I am a farmer myself, and this means a great deal to me. But think about all of them; do not just think about one little amendment here. We have lived
within our budget constraints. We have done everything to try and focus this research where it should be.

It is about the future of this country. It is about the future of safe food, of the supply that is available. It is for the success of our young people. Please do not do this.

Mr. SANFORD. Mr. Chairman, will the gentleman yield?

Mr. LATHAM. I yield to the gentleman from South Carolina.

Mr. SANFORD. Mr. Chairman, there is no greater friend of the farmers than the gentleman from Iowa (Mr. LATHAM). He has been a consistent advocate of farmers; I profoundly respect that.

I think the particular amendment, though, of the gentleman from Oklahoma (Mr. COBURN) in no way cuts what seems to be an oxymoron, and that is $300,000 for competitiveness research in a quota-based system.

Mr. LATHAM. Mr. Chairman, reclaiming my time, you are going to hurt the future of agriculture with this amendment and all these other amendments.

Mr. POMEROY. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I wish to associate myself with the remarks of the preceding speaker, my Republican friend and colleague, the gentleman from Iowa (Mr. LATHAM).

I think that Members watching this debate ought to pay special attention to the bipartisan nature of the concern we are expressing. The House is, by its very nature, an urban institution, apportionment allocated by population. That is a problem for representation; it is the country side have a particularly difficult task trying to convey why our issues matter.

I do not think anyone watching this spectacle continue to unfold has to have any doubt whatsoever that it is another case of urban interests, this time Republican urban interests, ganging up on agriculture. What is so astounding to me is that the majority leadership continues to let this debacle unfold.

I would ask all of my colleagues how they would feel if that which they care about most in the appropriations bills would be taken apart on the floor, like the agriculture budget is being taken apart here. Bear in mind that this is an appropriations report, brought out by the gentleman from New Mexico (Chairman SKEEN), that is within the allocation. We have a distinguished Member that has done everything right in bringing his appropriations bill forward.

But now we have some Members indulging themselves in trying to play appropriators. They want to turn the floor of the House into an appropriations subcommittee. The thing that is most alarming is, they know not what they don't know. Mr. Coburn once said, "It is not what the gentleman does not know that scares me, it is what he knows for sure that just ain't so; that is the problem."

That is the problem with this slew of amendments, however well intentioned they may be brought by the gentleman from Oklahoma (Mr. COBURN). He might be trying to make some point, some broad macro budget point, some highly principled ideological point, but the real fact is, he is tearing apart the budget for agriculture at a time when family farmers are in the deepest hurt I have ever seen.

I have spent all my life in North Dakota. Agriculture is something that has been a part of my family's life since the time I first formed any cognitive impressions of anything. This is not the time for the Congress of the United States to turn its back on the American farmer. My colleagues are playing politics, and they are trivializing that which they care about the most, their bread and butter, agriculture, family farming. This should stop.

As Members come to the House in a few minutes for votes, I hope they will stand with me and express just how they feel about this being the fiscal year 2000 budget. We are talking today about something that is not going to apply for several months. To the American farmer, in their hour of need, my colleagues are playing politics, and they are trivializing that which they care about the most, their bread and butter, agriculture, family farming. This should stop.

To the majority, this is a matter of principle. As they come to the floor to vote, I hope they will sit and take stock of the spectacle that they have turned the floor of the House into. They are the leaders and they control this place.

To the extent that they allow a Member today to totally tie up this institution, they are unleashing a very unpredictable future course for the rest of this Congress, because what is important to the gentleman from Oklahoma (Mr. COBURN) this afternoon, there will be another issue of equally pressing importance to someone else further; and every appropriator bill about to be considered will be subject to this kind of debacle.

The Nation needs to have its work done. We do not need to turn the floor of the House into a debating chamber for a very narrow spectrum of interests.

Finally, and for me most importantly, the American farmers need help, and it is wrong for the majority to turn its back on them in their hour of need.

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN. Members are reminded that they are to direct their remarks to the Chair and not to other persons.

(By unanimous consent, Mr. WOLF was allowed to speak out of order for 3 minutes.)

Mr. WOLF. Mr. Chairman, I apologize to the Members to come, but I have been listening to the debate, and I support the bill, and I support the gentleman's efforts, but I just found out that the administration is getting ready to lift the gum arabic restrictions that are currently on Sudan.

This is a picture of a young boy that I took in 1989 in southern Sudan, and this young boy is probably dead, but if he is not dead, he has had a terrible life because almost two million people have died in Sudan since that time.

I supported this administration's efforts, some of their efforts in Kosovo with them going to the refugees. I voted to increase the amount of money for the refugees. But what about the Christians in Sudan? There is slavery in Sudan. This young boy's parents may have been in slavery and others.

I now find out that this administration and, I understand, John Podesta at the White House and powerful lobbyists that have been hired by special interest, are now trying to get this administration to lift this embargo with regard to gum arabic in Sudan.

So I urge, whenever this administration thinks of doing it today, not to do it on behalf of this boy, who is probably dead, but may be alive. Do not lift the embargo on gum arabic, because it is fundamentally immoral if they do. If they care about Kosovo and do not care about Sudan is doubly immoral.

I apologize to the Members, but I just heard this coming up. I do rise in support of the bill.

Mr. SISSIKY. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I do not represent any universities in this bill.

1400

The gentleman knows where I am from, he used to live there, and we are good friends. The gentleman from Oklahoma, that is. Eighteen years ago when I first ran for Congress, I remember very vividly standing in a debate with my opponent and my opponent saying, "This guy comes out of the business world. What does he know about agriculture?" And I agreed with him. I did not know much about agriculture, but I knew one thing: that anyone who spent a dollar to grow something that they got 95 cents back on, were in a rotten business. And I kept saying that over and over again.

Now, I happen to meet with my farmers, and they are very small population-wise. They are very large geographically in my district, and very small as it relates to population. And when I go to meetings, whether it is the Farm Bureau or my farmers' advisory board, or whatever it is, guess
I ask my colleagues, why when we go down a supermarket aisle and we look at the names on the produce shelves, why do only certain names reach us right in the eye? If there are local producers, why can’t they get on those shelves? It is an interesting system. And why would America be in a condition today, coming in here faster than exports going out? In fact, 25 percent of the market in this country in agricultural products now is comprised of imported goods. Why would that be, in the most productive Nation in the world?

It is because we have not paid enough attention to those who are actually doing the work of producing. All of the weight has gone to the processing and the distribution ends of the equation, but we have not paid attention to those who are really still struggling down on the farm and losing equity every day.

It does not matter whether we are talking about upland cotton or rice or hog meat or oats or cattle or poultry. It really does not matter today because every single sector is hemorrhaging. Farmers are losing equity. Farm values have started to drop. Prices, probably this year they expect to be 27 percent below last year’s and here we have nitpicking a bill that has come in within budget, within the allocation that we were given.

So I would just say to my colleagues, please, let us get back to the business of doing the work of this Congress, and particularly for that sector in America which is hemorrhaging today, which is rural America. Let us move this bill.

I understand today we are going to pull the bill and perhaps deal with it later. Further, I am referring to the delay that has contributed to all of the difficulties in rural America today, when the Department of Agriculture cannot get the paperwork properly processed. The supplemental bill in so late last year, and the supplemental this year that was just passed came in months late and agriculture got tied up in that, unfortunately.

Let us deal with this bill with dispatch. If there is a budget problem, get rid of it. Deal with it in some other way, but do not make the farmers in America pay any heavier price than they have already paid. The average age of farmers in this country today is 55 and rising. The gentleman from Virginia was right, every young person who is still thinking about farming is saying, is that really worth my time?

So today I rise in opposition to this Coburn amendment just one of many being offered to delay this bill. Why is this in the strategy of the leadership of this Congress to delay this bill is beyond me. They have to power to fix everything. Let them go do it, but do not make the farmers in this country except on Social Security. And to say that there is something wrong with us talking about what is in these bills, discussing how we spend their money, is a little bit arrogant for us as a body. This is the people’s House. We should allow them to have all the light that they would like to have on what
we do here, how we do it and where we spend our money.
So I want to just say I thank the gentleman for yielding me some time. This is about process and whether or not we are going to keep our word to the American people. We are going to have to the bill. We just passed $12 billion in super, above-budgetary supplemental spending this last year for the farmers, and I voted for those. We just passed in the last month a comprehensive bill, and I agree with the gentlewoman from Ohio, we did not offset anything except in ag, and that is inappropriate. And when that bill came back to us, I voted against it because of that.
So we are going to do what we need to do by our farmers, but we are also going to do what we need to do for our seniors and for our children.
Mr. GUTKNECHT. Reclaiming my time, Mr. Chairman, and I am sure the gentleman from Oklahoma knows that sunshine is the best antiseptic, and allowing a little sunshine to shine on the appropriations process here in the Congress is not a bad thing. If it takes an extra day or two, so be it. In the end, I think we will all have a product that we can be more proud of, that we can defend when we go home to our constituencies, and ultimately will keep that promise all of us have made to our kids, and that is every penny of Social Security taxes should go only to Social Security.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Oklahoma (Mr. COBURN).

The question was taken; and the Ayes prevailed by voice vote.

Mr. SUNUNU changed their vote from 'no' to 'aye.'

Mr. GARY MILLER of California and Mr. Oxley changed their vote from 'aye' to 'no.'

Mr. MILLER of California and Mr. SUNUNU changed their vote from 'no' to 'aye.'

So the amendment was rejected.

The result of the vote was announced as above recorded.
CONGRESSIONAL RECORD—HOUSE

May 26, 1999

AMENDMENT OFFERED BY MR. COBURN

The CHAIRMAN. The pending business is the demand for a recorded vote on the amendment offered by the gentleman from Oklahoma (Mr. COBURN) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will designate the amendment.

The Clerk designated the amendment.

RECORDED VOTE

The CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIRMAN. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 79, noes 348, not voting 6, as follows:

[Table with ayes and noes]

So the amendment was rejected.

The result of the vote was announced as above demanded.

AMENDMENT OFFERED BY MR. SANFORD

The CHAIRMAN. The pending business is the demand for a recorded vote on the amendment offered by the gentleman from South Carolina (Mr. SANFORD) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will designate the amendment.

The Clerk designated the amendment.

RECORDED VOTE

The CHAIRMAN. A recorded vote has been ordered.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—a yes 79, noes 348, not voting 6, as follows:

The Clerk will designate the amendment.

The Clerk read the amendment.

The amendment offered by Mr. COBURN.

Mr. COBURN. The pending business is the demand for a recorded vote on the amendment offered by the gentleman from Oklahoma (Mr. COBURN) on which further proceedings were postponed and on which the noes prevailed by voice vote.

...
piece of legislation. If the gentleman could clarify for our side, we would greatly appreciate it.

Mr. YOUNG of Florida. Mr. Chairman, will the gentlewoman yield?

Ms. KAPTUR. I yield to the gentleman from Florida.

Mr. YOUNG of Florida. Mr. Chairman, if I were the plan that we would rise at this point on further consideration of the agricultural appropriations bill and go to the lockbox issue. We would anticipate that the lockbox issue, considering the time for the rule, two hours of general debate, there will be no amendments under the rule, so I would anticipate a vote on final passage and/or possibly a vote on a motion to recommit, should that be the case.

After that, the majority leader will reassert where we are, what time of day it is, and then the gentleman at that time as to what the further activity would be on this bill or any other bill that would come before the House this evening.

Ms. KAPTUR. Mr. Chairman, re-claiming my time, I thank the chairman for that clarification. I notice that the majority leader is on the floor and able to engage in this colloquy. I wonder if he would do me the great honor of giving those of us on our side his view of what the schedule for the remaining part of the day will be like and how the agricultural appropriations bill will fit into the schedule later today.

Mr. ARMY. Mr. Chairman, will the gentlewoman yield?

Ms. KAPTUR. I yield to the gentleman from Texas.

Mr. ARMY. Mr. Chairman, obviously we are, as often has been the case over the years, the week before a district break, to assess everything on the agriculture bill later on in the day, perhaps earlier. As soon as I have a clear picture of things, I will contact the gentlewoman and let her know.

Ms. KAPTUR. Mr. Chairman, the gentleman will let us know perhaps by 5:30 whether or not the agricultural appropriations bill will be coming to the floor later this evening so our Members could be ready?

Mr. ARMY. Mr. Chairman, as soon as I can know something that would be helpful and reliable, yes; 5:30, 4:30, as soon as possible. But I understand the gentlewoman’s point about the time line and I will try to respect that.

Ms. KAPTUR. Mr. Chairman, I thank the gentleman. I would just advise our membership that if we do have Members listening or on the floor who have amendments, call our office no later than 6 o’clock and we will try to let our Members know whether there will be additional votes remaining or not on the agricultural appropriations bill.

I would just ask the forbearance of the leadership of the majority to please treat our Members with respect, and I am sure they will, but to allow us the time necessary to prepare our Members for the floor. If we are not going to bring the bill up tonight, if we do not hear by 6 o’clock, I will assume it will not be coming up.

Mr. ARMY. Mr. Chairman, if the gentlewoman will yield, as an old economist let me just say we should be careful what we assume, but I will try to keep the gentlewoman as informed as possible.

Ms. KAPTUR. Mr. Chairman, I thank the leader.

Mr. PACKARD. Mr. Chairman, today I would like to express my support for H.R. 1906. The Agriculture Appropriations Act of 2000. Our nation’s farmers are by far the most productive in the world and we should continue to support their efforts.

Our nation’s farmers often experience accomplishments reached through the struggles and achievements of past agriculturists. H.R. 1906 will provide necessary funds to help increase agriculture research which in turn will help our farmers achieve the level of commodities needed to feed a hungry world.

I would like to specifically acknowledge the provision which allotts funds for pesticide and crop disease research. This will directly benefit Southern California floriculture and nursery crop producers. With over 20 percent of the total agriculture share, California farmers rank first in the nation in overall production of nursery products. This research can positively impact rural and suburban economies, and increase international competitiveness by helping prevent the spread of pests and diseases among nursery and floriculture crops.

Mr. Chairman, I would also like to commend Chairman SKEEN for once again producing an Agriculture Appropriations bill that is beneficial for the American farmer. Farming is still one of the toughest jobs in America, and I share Mr. SKEEN’s wish to make sure that is not forgotten here in Washington.

Mr. PHILLIPS. Mr. Chairman, I rise today in support of the FY 2000 Agriculture Appropriations bill, but I must also take this opportunity to express my concern that many needs in the agriculture community will remain unmet under this legislation.

I know that all of my colleagues are by now aware that American agriculture is in crisis. We provided some desperately-needed assistance by passing the Emergency Supplemental bill last week, and this appropriations measure will offer still more help. But I caution my colleagues that it will only help so much, and we must not allow it to be twisted into thinking that agriculture’s problems are over.

I applaud the House appropriators for crafting a good bill under extremely tight budget constraints. They have the unenviable task of allocating scarce funds in a responsible manner, and at a time when the needs in the agriculture community are greater than ever. While I plan to support the legislation, it nonetheless falls short in a number of respects, and I would be remiss if I failed to point them out.

First and foremost, the bill does almost nothing to address the farm crisis. It does not provide for any continuation of the emergency assistance provided in last year’s Omnibus Appropriations bill or in the recently-passed Supplemental, and it contains no initiatives to support farm incomes or remove surpluses from markets. And although the bill funds farm credit programs and Farm Service Agency staff at the level requested months ago by the President, this package simply does not reflect the economic conditions that face farmers and the current needs that could not have been accurately anticipated at the beginning of the year.

Furthermore, nutrition programs do not fare well under this bill, particularly the Women, Infants and Children (WIC) program. WIC is one of the most successful and important federal programs ever undertaken and serves millions of pregnant women, nursing mothers, infants and young children. Unfortunately, although H.R. 1906 does include a slight increase over last year’s funding for WIC, the bill provides over $100 million less than the administration’s request for this critical program. The legislation also fails to incorporate the requested $10 million increase for elderly nutrition programs, and other programs receive no funding at all, including the school breakfast pilot program and the Nutrition, Education and Training (NET) program.

I am also disappointed by the funding levels for many conservation programs on which farmers in my district and around the country rely. Unfortunately, in trying to stay within tight budget caps, the bill’s authors have included a number of limitation provisions that produce savings from direct spending programs. For example, the bill cuts the Wetlands Reserve Program and the Environmental Quality Incentives Program below authorized levels. These are extremely popular programs which help farmers while protecting our environment, and I am disappointed that they have been sacrificed.

Having said all that, let me point out again that I understand the tough decisions the appropriators were forced to make, and although we all have different priorities, this bill does provide critical funding for a number of very valuable programs. We have to start somewhere, and I cannot emphasize enough how sadly America’s farmers need our help and our continued attention. I will support the bill and I urge my colleagues to do the same.

Mr. CHAMBLISS. Mr. Chairman, I hope my colleagues will join me in strongly opposing the Coburn amendment to eliminate funding for the National Center for Peanut Competitiveness.

It is no secret the peanut is a very important crop to Georgia and Southern agriculture, and this program is critical to ensuring that peanuts hold an attractive, competitive position in the global marketplace of the 21st century.
The 1996 Farm Bill reformed the federal peanut program; it is now a no-net-cost program to the government. It provides consumers with ample supply of one of the safest, most nutritious foods.

The National Center for Peanut Competitive-ness is a broad-based research program that includes products development, economics, and the fundamental aspects of reducing production costs; additionally, it enhances consumer appeal and improves product safety. This program also encompasses research into nutrition, biotechnology, peanut allergies, and trade liberalization through the World Trade Organization.

Eliminating funding for the National Center for Peanut Competitive ness would be detrimental for both peanut farmers and the peanut industry.

Mr. Chairman, the FY 2000 Agricultural Appropriations bill contains critical funding for agricultural research, and I urge my colleagues to vote against cuts to the National Center for Peanut Competitiveness.

Mr. SKEEN. Mr. Chairman, I move that the Committee do now rise.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. LATOURETTE) having assumed the chair, Mr. Pease, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 1906) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies for the fiscal year ending September 30, 2000, and for other purposes, had come to no resolution thereon.

PROVIDING FOR CONSIDERATION OF H.R. 1259, SOCIAL SECURITY AND MEDICARE SAFE DEPOSIT BOX ACT OF 1999

Mr. LINDER. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 186 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 186

Resolved, That upon the adoption of this resolution it shall be in order to consider in the House the bill (H.R. 1259) to amend the Congressional Budget Act of 1974 to protect Social Security surplus through strengthened budgetary enforcement mechanisms. The bill shall be considered as read for amendment. The amendment specified in section 2 of this resolution shall be considered as adopted. The previous question shall be considered as ordered on the bill, as amended, to final passage without intervening motion except: (1) two hours of debate equally divided and controlled among the chairman and ranking minority members of the Committee on Ways and Means; and (2) one motion to recommit with or without instructions.

Sec. 2. The amendment considered as adopted is as follows: page 1, line 13, strike “cause or increase” and insert “set forth”.

The SPEAKER pro tempore. The gentleman from Georgia (Mr. LINDER) is recognized for 1 hour.

Mr. LINDER. Mr. Speaker, for the purposes of debate only, I yield the customary recognition to the gentleman from Massachusetts (Mr. MOAKLEY), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 186 provides for consideration of H.R. 1259, the Social Security and Medicare Safe Deposit Box Act of 1999, a bill that will help to protect the Social Security Trust Fund.

House Resolution 186 provides two hours of general debate divided and controlled by the chairman and ranking minority members of the Committee on Rules, the Committee on the Budget, and the Committee on Ways and Means.

The rule provides that the bill will be considered as read and provides that the amendment printed in section 2 of the resolution be considered as adopted. Finally, the rule provides one motion to recommit, with or without instructions, as is the right of the minority.

Mr. Speaker, let me start by explaining exactly what this bill will do. First, the bill will establish a parliamentary point of order against any budget resolution utilizing the Social Security surplus in its spending or revenue proposals. Second, the bill establishes a point of order against any legislation, including spending initiatives and tax cuts, that attempts to use any funds from the Social Security surplus. And third, this bill prohibits the Office of Management and Budget, the Congressional Budget Office, or any other Federal Government agency from including Social Security surplus in Federal budget totals when publishing official documents.

Mr. Speaker, it is dishonest to talk openly about a budget surplus when our operating budget is still in deficit. The government continues to borrow money from Social Security, a fact that does not show up on the government’s balance sheet but has dire consequences for the future. This “lockbox” takes Social Security away from budget calculations so budget decisions are made only on non-Social Security dollars, a vital first step in ensuring retirement programs will be there for this generation and generations to come.

In our response to the President’s State of the Union address, the 106th Congress committed itself to saving Social Security. This task has two important components. First, we must ensure that the current system is being managed responsibly by locking away today’s contributions and securing the retirement of current beneficiaries. Today, we deliver our first component. Later, we will have to make fundamental reforms to the system to guarantee the program’s long-term viabil-ity while improving benefits and providing Americans with more control over their retirement security.

We began to fulfill our promise to the bill on the first component when, two months ago, this Congress passed the budget resolution. That resolution outlined our budget goals for the next 10 years and called for enactment of a “lockbox” to reserve the $1.8 trillion in cumulative Social Security surpluses.

Today, we follow through on that original blueprint by taking advantage of this historic opportunity to save Social Security by ensuring that 100 percent of the money destined for the Social Security Trust Fund remain in the trust fund, $1.8 trillion over the next decade.

Now, we will certainly hear the argument that this legislation is being rushed to the floor. To that I must respond that we have waited far too long for this kind of reform. It is the first step in the history of the program that a Congress will protect Social Security funds.

Would opponents rather continue the practices that since 1969 allowed those who ran this Congress to routinely spend the trust funds in order to pay for other government programs and mask the Nation’s deficits? While other Congresses have chosen to use surplus Social Security revenues for other “spending priorities,” this Congress is proud to be the first to preserve the retirement security of all Americans. With this effort today, we are working to ensure that not one dime of America’s Social Security tax dollars are spent on big spending programs.

This is also a big improvement over the plan that the President sent to the Congress. His budget only claimed to save 62 percent of the Social Security surplus for Social Security, plainly stating the other 38 percent would go to his pet spending initiatives.

However, the truth was even worse than that. The Chairman of the Federal Reserve, the Director of the Congressional Budget Office, and the U.S. Comptroller General have all testified before Congress and soundly refuted the notion that the President’s plan saves any additional money for Social Security.

Even Democrat Members of Congress have agreed that the President uses a series of fiscal shell games and double-counting schemes to inflate his projected savings for Social Security. In fact, Federal Reserve Chairman Alan Greenspan noted that the President’s plan actually hurts Social Security by using improper accounting to lend a false sense of security to a program that desperately needs structural reform.

H.R. 1259 strengthens Social Security and ensures that big spenders can no longer raid the fund. This bill continues our determined efforts to provide more security and freedom to the
American people. It is part of a common sense plan to provide security for the American people by preserving every penny of the Social Security surplus.

Mr. Speaker, I urge my colleagues to support the rule so that we may proceed with debate and consideration of this historic bill.

Mr. Speaker, I reserve the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I thank my colleague from Georgia (Mr. LINDER) from yielding me the customary half-hour, and I yield myself such time as I may consume.

Mr. Speaker, it is no secret that Social Security and Medicare are not going to last forever, especially if we do not do something about it very soon. And despite all of the fanfare about the bill, it is a bill that will not do the trick because, Mr. Speaker, although this bill will probably not make things any worse, it also will not make things any better.

This bill merely recreates the point of order that the Democrats enacted some 14 years ago. It does not protect all of the resources we need to reform Social Security and Medicare. It promises not to use the Social Security Trust Fund, which Congress promised not to touch when it was created back in the 1930s. Meanwhile, Mr. Speaker, it leaves the rest of the budget surplus open for the taking, be it for new spending programs or tax cuts for the rich.

Even the chief actuary of the Social Security Administration says that this proposal, and I quote, this proposal would not have any significant effect on the long-range solvency of the old-age, survivors and disability insurance program. But it would not be such a problem. Mr. Speaker, if Social Security were not scheduled to fall apart in the year 2034 and Medicare to fall apart in the year 2015. Congress and the White House need to implement major Social Security and Medicare reforms and we need to do it very, very soon.

These are the most important issues we can address this year, and they just cannot be put off for another week, much less another Congress.

But, Mr. Speaker, as I understand it, this bill is the only social security bill my Republican colleagues are going to bring up this year. All it does is restate the current policy on surpluses and ensure that social security does go broke on time.

I heard that some Republican pols said it was a bad idea to tackle social security, despite its looming demise. So Mr. Speaker, pull aside, we have to do something, and we have to do it very soon.

For that reason, I am disappointed my Republican colleagues did not make in order the Rangel-Moakley-Spratt amendment to prevent Congress from spending budget surplus money until we shore up the Social Security and Medicare.

Our bill says Congress cannot pass any new spending or any new tax cuts that are not completely offset until the social security is secure. Our lockbox contains both social security and on-budget surplus, and unlike the Republican proposal, it actually has a lock.

Our lock consists of the declaration by the trust fund trustees, and only the trust fund trustees, that social security and Medicare are financially sound. Only then can Congress tap into that surplus.

Furthermore, Mr. Speaker, this bill was referred to not one, not two, but three congressional committees: the Committee on Ways and Means, the Committee on Ways and Means, and the Committee on Rules. But not one single one of them, not one of them, held hearings or marked up the bill. It was sent right to the floor. It has become the norm in this Congress, for committees to mark out committees, and that, Mr. Speaker, can get very, very dangerous.

Mr. Speaker, I urge my colleagues to oppose this rule because the problem is not what this bill does for social security. Mr. Speaker, it is what this bill does not do.

Mr. Speaker, I reserve the balance of my time.

Mr. LINDER. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. ROYCE).

Mr. ROYCE. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I am rising in strong support of this bill, the Social Security and Medicare Safe Deposit Box Act. I think it is important that we try to put in place a mechanism to try to establish this lockbox to ensure that social security spending is not spent on other government spending.

The reason I say that is for 40 years in this institution money was spent on other government spending. There were chronic budget deficits. Just recently we have been able to bring that down and bring this budget into balance, but I think it is important that we protect and set aside $1.8 trillion in cumulative budget surpluses over the next 10 years for Social Security and Medicare.

Since Social Security was first created it has been a pay-as-you-go system, benefits to retirees are paid from tax revenue. Interest is credited to the Social Security trust fund, and Social Security tax surpluses become part, unfortunately, in this process, of general government spending.

In reality, there is no cash in the trust fund, and my trust IOUs. They are printed on an ink jet printer. In fact, it is important that we set up a mechanism to, frankly, pay back over time the $359 billion that was borrowed over the last 40 years out of this fund.

If steps are not taken now, in 15 years social security will be insolvent and benefits will have to be funded through either reductions in other spending, or tax increases, or a return to chronic budget deficits.

That is why I will mention that I introduced a bill to pay back the money borrowed from Social Security and create a real trust fund with real assets. Under my bill, 90 percent of the budget surplus would be used to pay down the debt owed the trust funds. Using the budget surplus in this fashion would continue until all IOUs in the trust fund have been eliminated.

I support this. It is a good first step. Mr. MOAKLEY. Mr. Speaker, I yield 2½ minutes to the gentleman from Kentucky (Mr. LUCAS).

Mr. LUCAS of Kentucky. Mr. Speaker, I am pleased that the House will consider legislation to protect the Social Security trust fund which for too long Washington has treated as a pork barrel slush fund. I am proud that today we will debate this issue. Creating a lockbox for Social Security just makes common sense.

The legislation offered by the gentleman from California (Mr. HERGER) and the gentleman from Florida (Mr. SHAW) is a step in the right direction, but it is really the bare minimum that we can do to preserve Social Security and Medicare for future generations.

Mr. Speaker, I intend to offer, along with my colleagues, the gentleman from New Jersey (Mr. HOLT) and the gentleman from Kansas (Mr. MOORE), an amendment that would protect the entire budget surplus for Social Security and Medicare. We intend to offer this proposal as a motion to recommit, and I would urge my colleagues on both sides of the aisle to support it.

The Herger-Shaw legislation does nothing for Medicare. Kentucky seniors know that you cannot talk about Social Security without talking about Medicare. The health of both these programs is crucial to the health of our elderly population.

Kentucky seniors know that, and Congress ought to have the good sense to protect Medicare, too. H.R. 1259 only addresses the social security surplus. It does not commit us to save the entire Federal surplus for Social Security and Medicare. It does nothing to secure the long-term solvency of Social Security and Medicare.

My proposal would save the Social Security surplus, the Medicare surplus, and the overall budget surplus to save Social Security and Medicare, and it would require that we make the solvency of Social Security our first priority.

I ask my colleagues to vote for the real commitment to Social Security and Medicare. I urge Members to vote for our motion.
Mr. LINDER. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois (Mr. WELLER).

Mr. WELLER. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in strong support of this rule, as well as strong support of this historic legislation, the Social Security and Medicare Safe Deposit Box Act of 1999.

How many of us over the last 30 years, and I have only been in the House and had the privilege of serving here for the last 4 1/2 years, have been asked in town meetings and senior citizens centers, union halls, VFWs, and other public forums, when is Washington going to stop dipping into, when is Washington going to stop raiding the social security trust fund to spend social security on other things other than social security?

Today we are going to pass legislation that will do that, that will stop the raid on social security.

Let us review the history here. For over 30 years now Washington has been dipping into the social security fund. Regardless of the rhetoric on the other side where they say it has not, it has gone on.

Back when President Johnson and the Democrat-controlled Congress 30 years ago began raiding the social security trust fund, they have run up quite a bill. According to the social security trustees appointed by President Clinton, the social security trust fund has been raided by more than $730 billion over the last 30 years.

I have a check here written on the social security trust fund. It is a blank check. Washington for the last 30 years has used the social security trust fund as a slush fund and as a blank check to pay for other programs.

This wall off the social security trust fund and puts a stop for those who want to raid it. We set aside those funds for social security and for Medicare. I believe that is an important first step, setting aside 100 percent of social security and locking it away because we consider any other reforms or changes to social security. Let us lock it away first. That is an important first step. We can use those funds to strengthen Medicare and social security. This legislation accomplishes this goal.

I would like to point out, of course, that not only is the social security and Medicare Safe Deposit Box a centerpiece of this year's balanced budget, but there is a big difference between the Clinton-Gore Democratic budget and the Republican budget.

The Republican budget sets aside 100 percent of social security for social security. The $137 billion social security surplus this year will go to social security. If we compare that with the Clinton-Gore Democratic budget, that only uses 62 percent of social security for social security, and the Clinton-Gore Democrat budget spends $52 billion of social security money on other things; all good programs: Edu, action defense, things like that. But the Clinton-Gore Democrat budget raids the social security trust fund. This lockbox will prevent the Clinton-Gore raid on social security.

I would also point out that the social security and Medicare safe deposit box sets aside $1.8 trillion. The President talks about 62 percent. Sixty-two percent is $1.3 billion. Over the next 10 years Clinton-Gore will raid the social security trust fund by $12 billion. Let us put a stop to it.

Mr. MOAKLEY. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota (Mr. MINGE).

Mr. MINGE. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise today to support the underlying legislation, not because I feel that it is the last word on what we need to do to protect the social security trust fund, but because I think we have a humble first step here.

I also rise to support this because I am very disappointed in what this body has done this month. We have passed legislation as an emergency supplemental appropriations bill which unfortunately raids the social security trust fund.

I think there is a level of hypocrisy on both sides of the aisle here that is regrettable. We are not facing up to our responsibilities that this trust fund is something that millions and millions of Americans have been counting on to pay their benefits after retirement, and to pay those benefits without putting an added strain on the Federal budget and on programs that are important to their children and grandchildren.

It is a cruel hoax when they learn that in order to pay for those programs, the Federal Government will either have to cut something in the future or go out and borrow more money.

It is time, and in fact the time is long past, when this lockbox proposal should have been passed. I think the true test of our commitment to this principle will be our willingness to waive points of order in rules that bring bills to the floor. Unfortunately, we have historically done this, and we have undermined our ability to maintain our commitments.

What I would like to urge is that ultimately we take the proposal that is being considered today and turn it into a law so that we do not have the ability to waive these points of order, and instead, we hold ourselves to a very high standard in the House of Representatives of preserving the integrity of the social security trust fund.

I would also like to agree with my colleagues on this side of the aisle that this bill would be stronger if we had had the opportunity for committee consideration and if we had had the opportunity to consider some amendments.

Certainly it could go further. But one of the ironies that I notice is that each time we propose legislation that goes too far, then others in this Chamber or at the other end of Pennsylvania Avenue object to it because it goes too far. So it is regrettable that we never seem to quite identify what is an appropriate and acceptable approach, but we are always in disagreement, no matter what proposal comes up.

I would like to thank my colleague, the gentleman from California (Mr. HERGER) for the work that he has put into this, and emphasize that this is truly a bipartisan gesture. My colleague, the gentleman from Kansas (Mr. MOORE) has supported parallel legislation. The Blue Dog budget had parallel provisions. All of us are committed to this goal.

Mr. LINDER. Mr. Speaker, I yield 3 minutes to the gentleman from Washington (Ms. DUNN).

Ms. DUNN. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise today to support an idea that is long overdue in the Nation's capital, truth in budgeting. For decades the social security surplus has been used by politicians to fund other government spending and mask the scope of our Nation's financial problems. It is time now to put this practice behind us. It is time to build a firewall between the dollars that are used to fund other government programs and the dollars that come to government specifically for social security benefits.

There are three principles that will guide my decisionmaking on budget issues as we move forward through this year. First, 100 percent of the social security surplus must be preserved for social security. Whether it be using this money to credit the social security trust fund or to help preserve social security or Medicare, we must commit these resources to their intended purposes. This lockbox bill is an important step in fulfilling this part of our commitment.

Secondly, we must stick to the fiscal discipline we decided on when we passed the Balanced Budget Amendment of 1997. In 1997, we agreed to spending limits that we absolutely must stick to. Every Member of this House, Republican and Democrat, supported a budget resolution that maintained these caps. We cannot break our word to the American people. They expect us to keep our promises. They should be able to receive that commitment from us.

Third, we must return the nonsocial security surplus to the people in the form of tax relief. This money represents a direct overpayment for government services. Make no mistake, if it is left in the hands of the politicians, it will be spent. It is the people's money. We should give it back.
Mr. Speaker, Members can describe the budget process as a three-legged stool. Today we are putting the first leg in place.

Mr. THOMAS says he has a bill to re-estimate our fiscal discipline, and returning the non-Social Security surplus to the people.

Congress’ ability to finally control spending has helped create an economy with historically low inflation and low unemployment. It has helped millions of Americans and allowed them to pursue their financial independence, to experience the security of homeownership, and to be in a position to give their children a leg up in the new economy through education.

We must not jeopardize this success by going on a spending spree that destroys fiscal discipline. We can guarantee the security of Social Security by putting 100 percent of the Social Security surplus funds into a lockbox. I urge my colleagues to support this bill.

Mr. MOAKLEY. Mr. Speaker, I yield 2 minutes to the gentleman from Washington (Mr. MCDERMOTT), a member of the Committee on Ways and Means.

Mr. MCDERMOTT. Mr. Speaker, when discussing the issue of expected budget surpluses, we need to ask two questions. First, will we stick to the budget caps on which the budget surpluses are based; and, second, will Congress actually use the projected surpluses to strengthen Medicare and Social Security?

Unfortunately, this bill is a sham as an answer to those two questions. The so-called lockbox is of no value beyond making sure Members of Congress have a press release to show their constituents that they support this week’s tax cut.

The budget caps I did not vote for, but I am willing to stick to them if the money will be used for Social Security and Medicare. But the fact is the track record in here is that it is not going to happen.

Just a few weeks ago, this Congress passed a spending bill that grew from $5 billion to $15 billion in a matter of days, three times what the President asked. So are we on our way to blowing the budget caps, and the result is going to be, 2004 is no surplus.

This bill claims to prevent the use of budget surplus dollars for Social Security. It makes this claim by mumbo-jumbo legislative “magic language” that says we cannot create budget deficits. However, it gives any chairman in this Congress the right to ignore everything as long as they say they have self-designated this as reform.

That raises my question, what is reform? The gentleman from California (Mr. THOMAS) says he has a bill to reform Medicare, a voucher plan that would raise the premium on every senior to $400 a year. Is that reform? It would make it impossible for one to get Medicare until one is 67. Is that reform?

It would extend the budget amendments of 1997 for 5 years. Does our hospital and our home health agencies think that is reform? Any of these examples would open the lockbox, the trap door. The money would fall out and, presto, we have money for a tax cut.

If shifting the cost onto Medicare beneficiaries and providers is not what is meant by reform, then we need to have an amendment process. We were denied a hearing in the House, not one single hearing. On this floor, we are denied even one single amendment.

There is no intention to improve this bill. This is a PR gimmick. That is all it is. This has been on the docket for 2 months, and the American people expect us to do something about Medicare and Social Security. This bill does not do it. I urge the Members to vote against this rule.

Mr. LIND. Mr. Speaker, I am happy to yield 3 minutes to the gentleman from California (Mr. HERGER), the sponsor of the legislation.

Mr. HERGER. Mr. Speaker, I would like to respond to the gentleman from Washington (Mr. MCDERMOTT), my Democrat friend. In his statements, he was mentioning that this legislation is not tough enough to defend Social Security. I would like to see it tougher.

The legislation we were originally writing was tougher; but, guess what? We have legislation that is tougher in the Senate, and guess who is opposing it? The President is opposing it. Guess who else is opposing it? The Democrats in the Senate are opposing it.

They say it is too tough. They say it goes too far. They said, in case of an emergency, we do not have enough elbow room, if you will.

So we have worked with the committees involved, with the Committee on Ways and Means, the Committee on Budget, both of which I serve on, the Committee on Rules, to try to come up with some legislation that we can get the support of from our friends on the other side of the aisle, the Democrats, and with the President, to try to at least get something out there which is better than nothing.

So I would like to respond to my friend, if he would like it tougher, I would love to get it tougher; but if he could, could he perhaps get some support from your Democrat colleagues in the Senate as well as our Democrat President?

Mr. MCDERMOTT. Mr. Speaker, will the gentleman yield?

Mr. HERGER. I yield to the gentleman from Washington.

Mr. MCDERMOTT. Mr. Speaker, the bill that the Senate had would have shut down the government if it had been passed. That is why there was a veto threat. It makes no sense to pass that kind of legislation.

If my colleagues do not want any Social Security checks to go out and they want to shut the government down, then pass what the Senate is proposing. We are never going to get this issue done this way. We have a good proposal from the President to take the money and buy down the public debt, actually reducing the public debt.

Mr. HERGER. Mr. Speaker, reclaiming my time, the fact is the President promised to save 100 percent. Then he came back with a plan that saved 62 percent. Then he proposed a budget that was only saving 52 percent.

The fact is what the gentleman from Washington (Mr. MCDERMOTT), my Democrat colleague and good friend, is saying just is not the case. The fact is they wanted it both ways. They say they want it tougher, but then they oppose it. But now they think it is not tough enough, and they oppose it, then, too.

Let us vote out what we have today. Let us begin with what we have today which does bring about a point of order back in the House and the Senate, requires votes in the Senate. Let us at least move forward with something now; and perhaps in the future, we can come up with something tougher.

Mr. MOAKLEY. Mr. Speaker, I yield 4 minutes to the gentleman from New York (Mr. RANGEL), ranking member of the Committee on Ways and Means.

Mr. RANGEL. Mr. Speaker, I am glad that the gentleman from California (Mr. HERGER) explained this procedure, because I was a little baffled as to why this bill was so weak. But I understand it now.

It is weak because the gentleman is concerned about my President and he is concerned about the people in the other body. That is a way to legislate. So I guess it is what we call majority-plus-6, because, in the old days, when we were concerned about strengthening legislation, we took it to the committee. We have hearings. We have an opportunity for people to amend it. We have debate. We have discussion.

But this new way that we have had for the last half dozen years is, we bypass the committees, we bypass the Committee on Ways and Means, we bypass Budget, we bypass the Committee on Rules, but we go on the other side and ask, will they toughen it?

We did something like that yesterday. We wanted to, on the other side, reduce the wages of Customs. I would think that we would be able to debate that on the floor. No. My colleagues put that on the Suspension Calendar, and they followed it with antipornography legislation or antidrug trafficking legislation.

I just do not think that they get it. In the House of Representatives, we legislate. We do not go over there and beg, hat in hand, with the other body for what they would like.
Another thing we do is we give ourselves an opportunity to discuss these things in our committee. I am so proud and honored to be in Mr. Ryan’s Committee on Ways and Means. Our jurisdiction, we jealously guard it. But what good is all of it if we go straight to the Committee on Rules when anything concerns Social Security?

We all know that this so-called lockbox, that every Member of this House has a key to unlock it. We all know when my colleagues are saying that they are going to put the Social Security surplus in there, they are doing what Democrats and Republicans should have been doing years ago, and that is putting the current payroll tax in the box.

But my colleagues cannot talk out of both sides of their mouths. My colleagues cannot give a big tax decrease, which I cannot wait for it to come out of my committee, unless they are taking that to the Committee on Rules, too.

But I understand that my colleagues are working on $300 billion, $800 billion in 10 years. How my colleagues are going to do that and put Social Security surplus in the lockbox, I do not know. But then again, we may never find out. We may find it on the Suspension Calendar, or it may just come out in the rule.

Mr. Speaker, I am just hoping that someone who understands what happened in the House, that the back room will come forward to the mike and explain how much of the Social Security surplus goes into this so-called box. It is my understanding it is only the current payroll tax, and the rest of the surplus we can use for whatever purpose that we would want without violating the spirit and the wording of this law.

Mr. LINDER. Mr. Speaker, I am happy to yield 3 minutes to the gentleman from Wisconsin (Mr. RYAN). Mr. Speaker, I want to thank the gentleman from California (Mr. HERGER) for his long-standing leadership on this bill.

I am a new Member of the House, and I have been working on this issue since getting here. I want to thank the gentleman from California (Mr. HERGER) for his leadership.

This debate is getting out of hand. Here is what our budget resolution does, and I am very happy to have been a part of writing the proposal in the budget resolution that said we are going to set a higher standard in this Congress, that we are not going to raid the Social Security Trust Fund, and that we are going to change the rules in Congress to make it tougher to do so.

We want to go all the way to stopping the raid on the Trust Fund. That requires the President signing a bill into law, dedicating every penny of Social Security going toward the Social Security Trust Fund, going to Social Security.

Sadly, the President is against that legislation, in part because his budget proposal continues to raid Social Security by $341 billion over the next 10 years.

What we are trying to achieve in this bill is the first step in locking away Social Security. We are going to stop the phony accounting. No more smoke and mirrors accounting, hiding the deficit with Social Security surpluses.

We are going to say, when we measure the budget, we are going to put the Social Security budget, the Social Security surplus aside. Then we are going to say, not only for budgets, but for every bill coming to Congress, if it attempts to dip into Social Security, we are going to put a higher vote threshold against it. We are going to say that in the other body, it requires three-fifths of a majority to pass a bill that attempts to raid Social Security.

Why are we doing this? Because we are trying to make it tougher for this body and the other body to stop raiding Social Security. We want to make it more difficult to pass legislation to raid the Trust Fund.

I am the author of the other lockbox bill, the second stage in this process, the bill that simply puts all of the Social Security dollars into Social Security, to pay down debt when we are not doing so, and to make sure that all of our Social Security dollars go to saving this program.

The problem is that the President is against that. So what can be accomplished here and now when the White House is opposed to saving all of the Social Security surplus? What can we do is stop the phony accounting. What we can do is make it tougher for people in Congress to pass legislation that raids Social Security, and that is what this legislation accomplishes.

Please join us in toughening this legislation. Please join us in making it harder to raid Social Security. This is as much as we can get, we hope, from the White House. We would be happy to entertain additional legislation that would make sure that every penny of Social Security goes to Social Security.

The problem is we cannot get it through the Senate. We cannot get it passed by the White House. We want to pass that legislation. We are going as far as possible right now with this legislation.

On the last point of the gentleman from New York (Mr. RANGEL), the ranking member of the Committee on Ways and Means, every penny of the Social Security Trust Fund goes to Social Security. Every penny of the Social Security surplus, including interest, in our budget resolution goes to Social Security.

For those taxpayers who overpay their income taxes, that surplus goes back to the taxpayer. So just as a point of clarification, the budget resolution does not raid Social Security. It saves Social Security surplus for Social Security.

Mr. MOAKLEY. Mr. Speaker, may I ask how much time is remaining on both sides.

The SPEAKER pro tempore (Mr. LATOURETTE). The gentleman from Massachusetts (Mr. MOAKLEY) has 1½ minutes remaining, and the gentleman from Georgia (Mr. LINDER) has 1½ minutes remaining.

Mr. MOAKLEY. Mr. Speaker, I yield 3 minutes to the gentleman from Ohio (Mr. TRAFICANT).

Mr. TRAFICANT. Mr. Speaker, I will vote for the Democrat substitute and, if that fails, I will vote for the Republican bill, but this is not the strongest possible bill that we could bring forth to stabilize and ensure the future of Social Security and Medicare, for several reasons:

Number one, points of order can be waived; and, number two, Congress or a future Congress can simply change the law. The bottom line is it is just too easy to raid this trust fund. And the money coming into this trust fund from one door is already leaving and exiting the other door the next day.

There is an old simple statement from the streets that says, we can do it now or it can do us later, and that is about where we are with Social Security. Both the Democrats and the Republicans want to do the right thing. We are struggling to do the right thing. But neither party, quite frankly, is doing what they say they want to do because there are still the machinations to effect a grab at this money.

I have a little piece of legislation in. We have amended the Constitution to address issues of alcohol, to limit presidential terms, to give women the right to vote, and to give women the right to vote, and these were the right things to do. And there is only one way to ensure that Social Security money cannot be touched, an amendment to the Constitution of the United States that says the money coming into this trust fund cannot be touched for anything or any reason other than Social Security or Medicare.

Now, we are going to have to tell the truth around here. We cannot come out with modest caps trying to make everybody look and say, what a nice conservative budget we have, and then go ahead and expand those caps on every appropriation bill we have. There is no money and there is no surplus except in this trust fund.

I was hoping at least to have a debate looking at that process, to see how the States felt. The American people support an amendment to the Constitution. We do not need a presidential referendum, no President, no Congress, no reason, no cause can jeopardize their trust fund. Social Security has its own revenue measure and, by God, we should not touch it.
Mr. LINDER. Mr. Speaker, I yield 2 minutes to the gentleman from California, Mr. BILBRAY.

Mr. BILBRAY. Mr. Speaker, I would like to echo the comments of my dear colleague from the other side of the aisle on the issue of the trust fund being just at that, a trust fund. In California we have had for decades a law that we cannot raid one trust fund and shift it over to other uses.

I guess in Washington it seems very technical on this issue, but I guess I will try to explain it as simply as possible. Social Security is called a trust fund, not a slush fund. It is not a pool of money to be used in any manner that somebody wants to if they can get enough votes.

Maybe that is why the gentleman from Ohio (Mr. TRAFICANT) is right, a lot of our friends in the House, that there is not enough lock in the lockbox. Let us be brave enough for us to put it before the Constitution. Let us who really stands for protecting the Social Security Trust Fund in the long run.

But this proposal, Mr. Speaker, is the first step. It is the first step in reforming Social Security. If we are not willing to at least vote for a bill that says we are going to start treating it as a trust fund and not a slush fund, if we are not willing to vote for this proposal, for God’s sake, how are we going to find the intestinal fortitude to be able to vote for the other ones we all know are coming down the pike?

This is the statement of credibility and a statement of commitment that we need to start with down the long road towards saving Social Security and Medicare as we know it. I ask my colleagues on both sides of the aisle not to find excuses to walk away from this historic opportunity. I urge my colleagues to vote “yes” on this bill.

Mr. MOORE. Mr. Speaker, I rise today to discuss H.R. 1259, the Social Security and Medicare Safe Deposit Box Act of 1999.

I want to commend the gentleman from California for his leadership in sponsoring this legislation. This legislation would take a step toward protecting the Social Security Trust Fund from being raided by the Congress and to tell the truth to the American people about the Federal budget.

This legislation would tell the American people that in 1998, instead of a $70 billion surplus we actually had a $29 billion deficit. This legislation would send a signal to this body that we must continue to exercise fiscal discipline. Let us not let Washington forget that the 1 percent across-the-board tax cut or new spending programs.

This legislation would prevent, for example, the $13 billion appropriation Congress made from the Social Security trust surplus just last week to pay for a measure that totaled $15 billion in so-called savings. When we were forced to make a choice between funding our troops and saving the Social Security surplus.

Mr. Speaker, I am committed to the principles underlying this bill. As a Nation, we must adopt and adhere to principles of truth in budgeting and fiscal responsibility. On February 10 I introduced H.R. 685, legislation that would permanently ensure that receipts and expenditures from the Social Security trust funds are not included in the unified budget. That was the idea of our former colleague, Mr. Bob Livingston.

H.R. 685 ensures that the Congressional Budget Office and the OMB stop the practice of publishing confusing ag-glomorated numbers that would deceive the American people about the true nature of the Federal budget and tempt Congress to continue conducting irresponsible fiscal policy.

Clearly, we all agree that now is the time to keep faith with our constitu-ents, to present Federal budget information in a manner that demonstrates the state of Federal surpluses or deficits without reference to Social Security trust funds. I believed then and I believe now that the honest approach, the correct approach is to permanently sequester the Social Security Trust Fund today, tomorrow and for all time.

A trust should be just that, it should not be violated.

While H.R. 1259 is a step in the right direction, it does not get the job done. It permits any spending or tax bill, bills that would be paid for by Social Security Trust Funds, as long as the bill is described as one that would be intended for Social Security reform or Medicare reform. It fails to protect the Social Security Trust Fund from cre-ative legislating. In short, Mr. Speaker, it falls short of the standard of honesty the American people deserve.

I believe that proposals to protect and strengthen Social Security and Medicare deserve careful consideration by this Congress. I oppose this rule because it limits debate. When the time comes today, I urge my colleagues to support the adoption of the Holt-Liacoura amendment that would protect the on-budget surplus as well as the Social Security surplus from being spent; I repeat, the on-budget surplus as well as the Social Security surplus from being spent. It specifies that only when the trustees’ report declares Social Security to be sound for 75 years and Medicare for 30 years can the on-budget surplus be spent.

We will see you, and raise you one. Please join us.

Mr. IHLING. Mr. Speaker, I yield 3 minutes to the gentlewoman from Ohio (Ms. PRYCE).

Ms. PRYCE of Ohio. Mr. Speaker, I thank the gentleman from Georgia for yielding me this time, and I rise in support of the Social Security and Medicare Safe Deposit Box Act. I appreciate the work of the gentleman from California (Mr. HERGER), and the part the Committee on Rules played in this. I am very proud of.

Mr. Speaker, in 1995 when Repub-licans took control of Congress, it seemed that budget deficits financed by the Social Security Trust Fund would go on as far as the eye could see. But under Republican leadership, a newfound fiscal discipline contained Congress’ penchant for spending and turned things around. Today, we are looking forward to realizing the first Federal budget surplus in decades.

This moment in history presents us with a perfect opportunity to set a new standard by which we will define a true national surplus. A definition that will ensure that no Social Security money is included in that equation.

For more than 30 years big spenders in Washington have been raiding the Social Security Trust Fund to pay for a variety of programs and pet projects. Even after the Congress claimed that it had put a wall between Social Security and general spending by taking the trust fund off-budget, the big spenders continued to dip into our seniors’ retirement savings.

Today, with the passage of this legislation, we will stop the big spenders by locking away 100 percent of our seniors’ hard-earned retirement dollars for their Social Security and Medicare benefits. Over 10 years’ time this legislation will protect $1.8 trillion, $1.8 trillion, from the greedy grab of those who thrive on immediate spending satisfac-tion and ignore the long-term con-sequences.

The Social Security and Medicare Safe Deposit Box Act prohibits the House and Senate from considering any legislation that spends the Social Security surplus, the one exception being legislation that improves the financial health of the Social Security or Medi-care programs. This act would provide honesty in Federal budgeting, fiscal discipline and financial security for our Nation’s seniors.

I urge my colleagues to vote “yes” on this rule and H.R. 1259, in support of a national surplus. A surplus that honors the social contract among the Federal Government, America’s workers, and our Nation’s seniors. Let us re-store the public’s faith in our govern-ment as the trustees of our hard-earned dollars by locking them safely away for their golden years.

Mr. MOAKLEY. Mr. Speaker, I yield 3 minutes to the gentleman from Wis-consin (Mr. KLECZKA).

Mr. KLECZKA. Mr. Speaker, I thank the ranking member for yielding me this time.

Mr. Speaker, the previous Member of Congress who spoke indicated that the big spenders continue to dip into the
I would like to congratulate my colleague, the gentleman from California (Mr. HERGER), who has worked long and hard on this distinguished ranking member of the Committee on Rules, I have, per usual, acquiesced to his request; and we will, in fact, have the distinguished chairman of the Subcommittee on Legislative and Budget Process join with me in managing the 40 minutes of debate for the Committee on Rules.

Then we will shift, and under the very able management of the author of the legislation, the gentleman from California (Mr. HERGER), we will see the 40 minutes on the Committee on the Budget consumed.

Then the Committee on Ways and Means, under the leadership of the Subcommittee on Social Security chairman, the gentleman from Florida (Mr. HOLT), will shine on our side. I can only assume that the ranking members on the minority side will proceed with management in that way.

So I just wanted my colleagues to know that, per usual, the gentleman from Massachusetts (Mr. MOAKLEY) got his way.

Let me say that that measure is, I believe, a very, very important one. If we were to go back to 1937, at the very beginning of Social Security, one has got to look at what its intent was. It was to provide survivors benefits and to supplement retirement. It was never intended to be a sole source of survival for retirement, but it was to provide a supplement.

We have seen the Social Security system grow to some two programs at its high point; and we have, fortunately, made some modifications of it. But the tragedy was that in 1989, and even earlier, we saw this step made towards getting into the Social Security fund for a wide range of other very well-intentioned programs.

That was wrong. It was wrong because American workers are not given any kind of option as to whether or not they pay into Social Security. They have to pay half of that FICA tax and their employer has to pay the other half. Again, it is not an option.

I remember my first job when I was a teenager, and I looked at the amount of money that was being taken out in that FICA tax and I was appalled. And today I continue to be appalled at the high rate of taxation that we have. But when then one looks at the fact that those dollars that were intended to be put into Social Security to provide assistance to supplement retirement, that they all of a sudden were expended for a wide range of other things, it was wrong. It was wrong.

That is why many of us, being led by the gentleman from California (Mr. HERGER) on this issue stepped up and said, when people are forced to pay into the Social Security Trust Fund and Medicare, they should in fact be able to count on those dollars going there.

That is exactly what we are trying to do here. We are trying to say to the American people, the Federal Government tells them that they are going to put their dollars there, and so the Federal Government is going to meet its responsibility to ensure that they have the resources that they are counting on them at their retirement.

And so what we are doing is, we are saying that a point of order can be raised if an attempt to raid that fund is taking place.

Now, the gentleman from New York (Mr. RANGEL), my friend and the ranking minority member of the Committee on Ways and Means, earlier started talking about some back room deal that we said we are not getting into. That is not going to happen. Why? Because under the Herger proposal that we have, a point of order must be raised and it takes 216 votes. Every Member of this House will have the opportunity to make a determination as to whether or not we proceed or not.

Now, without getting terribly partisan, and I know we have had finger-pointing, the last speaker talked about the fact that big defense contractors who support the Republican Party were responsible for that $15 billion bill. Well, the fact of the matter is, the President has only deployed 265,000 troops to 139 countries around the world. It seems to me that maybe we should try to pay for that and prepare for challenges that we have got.

So that was not what motivated us on this thing. It was an absolute emergency that needed to be addressed. But to tie that with the issue of trying to preserve Social Security and Medicare is wrong.

So we are taking what is a very measured, balanced step to do our doggonedest to make sure that the American people who put dollars aside for retirement will in fact be able to count on them.

So I congratulate again my friend, the gentleman from California (Mr. HERGER), and I thank the distinguished chairman of the subcommittee and the manager of this measure for yielding me this time.

Mr. MOAKLEY. Mr. Speaker, I yield the balance of the time to the gentleman from New Jersey (Mr. HOLT), the author of the amendment that will be proposed by the Committee on Ways and Means.

The SPEAKER pro tempore (Mr. LATOURETTE). The gentleman from New Jersey (Mr. HOLT) is recognized for 6 minutes.

Mr. HOLT. Mr. Speaker, I thank the gentleman from Massachusetts (Mr. MOAKLEY) for yielding me the time.
Mr. Speaker, I rise today in support of H.R. 227, legislation that I wrote with my colleagues, the gentleman from New York (Mr. RANGEL) and the gentleman from Kansas (Mr. MOORE), and which will be offered today by the gentleman from New York (Mr. RANGEL) as the motion to recommit.

Our legislation will safeguard two of our Nation’s most important programs for the elderly: Social Security and Medicare. The Holt-Lucas-Moore Social Security and Medicare lockbox would require that every penny of the entire Federal budget surplus, not just the Social Security surplus, would be saved until legislation is enacted to strengthen and protect Social Security and Medicare first.

This we need to do. We cut into the surplus as recently as last week’s spending bill, which has served only to formalize a new definition of the word “emergency.” Any new spending increases would have to be offset until solvency has been extended for Social Security by 75 years and for Medicare by 30 years.

These requirements would be enforced by creating new points of order against any budget resolution or legislation violating these conditions.

Spending any projected budget surpluses before protecting and strengthening Social Security and Medicare would be wrong. We are offering this proposal now because we are concerned about the haste with which some Social Security lockbox proposals are being brought to the floor and, I might add, being brought to the floor without possibility of amendment.

The proposals to protect and strengthen Social Security and Medicare deserve thorough examination and careful consideration. Congress should not take shortcuts when considering changes of these hallmark programs for America’s seniors.

The Herger-Shaw lockbox bill attempts to protect Social Security surplus. Merely doing this does nothing to extend the solvency of Social Security and it does nothing at all for Medicare.

The Holt-Lucas-Moore bill is superior to the Herger-Shaw lockbox because our lockbox is more secure and has more money in it. The Holt-Lucas-Moore saves the entire surplus, not just the Social Security surplus, by establishing two new points of order under the Congressional Budget Act. A point of order would lie against any budget resolution that would use any projected surplus. This is defined to mean, in effect, reduce a projected surplus or increase a projected deficit.

Further, a point of order would lie against any legislation that would use any projected surplus. In the Senate, 60 votes would be required to waive either of these points of order.

Mr. Speaker, Social Security and Medicare are the most important and successful programs of the Federal Government of the 20th century. We must not forget that they provide vitally important protections for America’s seniors.

A majority of workers have no pension coverage other than Social Security, and more than three-fifths of seniors receive most of their income from Social Security. Let us put the needs of America’s current and future retirees first.

Mr. LINDER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I believe it was the Chinese proverb that says, “A thousand mile journey begins with a single step.” This is that step.

For those who say it is not enough, I wonder where they have been for the last 30 years when they could have done more. Nothing like this has been tried before. For those who say it is not enough, I remind them that the Democrats in the Senate killed a tougher one.

We would like it to be more. But it is the first step for doing something that has been long overdue. That is to say, if we make a payment in our payroll taxes for our retirement and our health care in our retirement years, it ought to go there. That is all we are saying. And we are going to see that it does go there.

I expect this to get a very large vote. I urge my colleagues to support this rule, get the debate under way on the lockbox bill.

Mr. Speaker, I yield back the balance of my time, and I move the previous question.

Mr. MOAKLEY. Mr. Speaker, I object to the vote to the vote on the ground that a quorum has not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. The question was taken; and the previous question was ordered.

Mr. Speaker, I believe it was the Chinese proverb that says, “A thousand mile journey begins with a single step.” This is that step.

Mr. Speaker, I yield the ayes and nays, yeas 223, nays 75, and the ayes appeared to have it. The vote was taken by electronic device, and there were—yeas 223, nay 75, not voting 6, as follows:

[Vote Results]

Mr. Speaker, I object to the vote on the ground that a quorum has not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 223, nays 75, not voting 6, as follows:

[Vote Results]
Mr. BERRY and Mrs. MINK of Hawaii changed their vote from "yea" to "nay."  

So the resolution was agreed to.  

The result of the vote was announced as above recorded.  

A motion to reconsider was laid on the table.

---

**PARLIAMENTARY INQUIRIES**

Mr. CONYERS. Mr. Speaker, a parliamentary inquiry.  

The SPEAKER pro tempore (Mr. LATOURETTE). The gentleman will state his inquiry.

Mr. CONYERS. Mr. Speaker, I understand that S. 254, the Juvenile Justice and Gun Violence bill is at the desk. How would a Member seek to get its immediate consideration?

The SPEAKER pro tempore. The answer, however, is, Senate bills may be held at the desk until such time as there is appropriate clearance within the House, which is not the case at the moment, and the Chair is constrained to decline recognition for that purpose.

---

**MESSAGE FROM THE SENATE**

A message from the Senate by Mr. Landrieu, one of its clerks, announced that the Senate had passed a concurrent resolution of the following title, in which the concurrence of the House is requested:

S. Res. 33, Concurrent resolution providing for an adjournment or recess of the Senate and a conditional adjournment of the House of Representatives.

---

**SOCIAL SECURITY AND MEDICARE SAFE DEPOSIT BOX ACT OF 1999**

Mr. HERGER. Mr. Speaker, pursuant to House Resolution 186, I call up the bill (H.R. 1259) to amend the Congressional Budget Act of 1974 to protect Social Security and Medicare surpluses through strengthened budgetary enforcement mechanisms, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.  

The SPEAKER pro tempore. Pursuant to House Resolution 186, the bill is considered read for amendment, and the amendment printed in section 2 of that resolution is adopted.

The text of H.R. 1259, as amended, is as follows:

```
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,  

TITLE I. SHORT TITLE.  

This Act may be cited as the "Social Security and Medicare Safe Deposit Box Act of 1999."  

SECTION 2. FINDINGS AND PURPOSE.  

(a) FINDINGS.—The Congress finds that—  

(1) the Congress and the President joined together to enact the Balanced Budget Act of 1997 to end decades of deficit spending;  

(2) strong economic growth and fiscal discipline have resulted in strong revenue growth into the Treasury;  

(3) the combination of these factors is expected to enable the Government to balance its budget without the social security surpluses;  

(4) the Congress has chosen to allocate in this Act all social security surpluses toward saving social security and medicare;  

(5) amounts so allocated are even greater than the fiscal years reserved for social security and medicare in the President’s budget, will not require an increase in the statutory debt limit, and will reduce debt held by the public until social security and medicare reform is enacted; and  

(6) this strict enforcement is needed to lock away the amounts necessary for legislation to save social security and medicare.  

(b) PURPOSE.—It is the purpose of this Act to prohibit the use of social security surpluses for any purpose other than reforming social security and medicare.

SECTION 3. PROTECTION OF SOCIAL SECURITY SURPLUSES.  

(a) POINTS OF ORDER TO PROTECT SOCIAL SECURITY SURPLUSES.—Section 312 of the Congressional Budget Act of 1974 is amended by adding at the end the following new subsection:  

```
"(g) POINTS OF ORDER TO PROTECT SOCIAL SECURITY SURPLUSES.—  

(1) CONCURRENT RESOLUTIONS ON THE BUDGET.—It shall not be in order in the House of Representatives or the Senate to consider any concurrent resolution on the budget, or conference report thereof, or amendment thereto, that would set forth an on-budget deficit for any fiscal year.  

(2) SUBSEQUENT LEGISLATION.—It shall not be in order in the House of Representatives or the Senate to consider any bill, joint resolution, amendment, motion, or conference report if—  

(A) the enactment of that bill or resolution as reported;  

(B) the adoption and enactment of that amendment; or  

(C) the enactment of that bill or resolution in the form recommended in that conference report;  

would cause or increase an on-budget deficit for any fiscal year.  

(3) EXCEPTION.—The point of order set forth in paragraph (2) shall not apply to social security reform legislation or medicare reform legislation as defined by section 5(c) of the Social Security and Medicare Safe Deposit Box Act of 1999.  

"(4) DEFINITION.—For purposes of this section, the term 'on-budget deficit', when applied to a fiscal year, means the on-budget deficit in the budget as set forth in the most recently agreed to concurrent resolution on the budget pursuant to section 301(a)(3) for that fiscal year.  

"(b) CONTENT OF CONCURRENT RESOLUTION ON THE BUDGET.—Section 301(a) of the Congressional Budget Act of 1974 is amended by redesignating paragraphs (6) and (7) as paragraphs (7) and (8), respectively, and by inserting after paragraph (5) the following new paragraph:  

"(6) the receipts, outlays, and surplus or deficit in the Federal Old-Age and Survivors
```
The Chair recognizes the gentleman from California (Mr. Dreier).

Mr. DREIER. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1259. The SPEAKER pro tempore. Is there objection to the ruling of the gentleman from California?

There was no objection.

Mr. DREIER. Mr. Speaker, I yield myself such time as I may consume. I rise first to once again state what you just did so well, and that is that it is our intention to have the 40 minutes of debate that the Committee on Rules will be handling on this go ahead right now, and then we will have 40 minutes of debate that will be handled by the gentleman from California (Mr. HERGER) representing the Committee on the Budget, and then 40 minutes of debate handled by the gentleman from Florida (Mr. SHAW) representing the Committee on Ways and Means and then the ranking minority member on the opposite side, for our colleagues who would be requesting time on this.

Mr. Speaker, my colleague from Sanibel, Florida (Mr. Goss) is chairman of the Subcommittee on Legislation and Budget Process of the Committee on Rules and is going to be managing the time for the Committee on Rules here, but I would like to begin by stating that I believe that this is a very important piece of legislation that we are considering. There has consistently been a high level of frustration over the fact that the Social Security and Medicare Trust Funds have been raided for years for a wide range of well-intended programs, but unfortunately it has jeopardized the solvency of the Social Security and Medicare programs. So we today are making an attempt to put into place a procedure that will help us keep from moving into those funds at all; and I think it is the right thing to do.

I believe it is the right thing to do because, as I said during the debate on the rule, the American people have been not voluntarily, they have been raided and used for other programs. We, since 1969, have seen these funds raided and used for other programs.

Mr. ARMey. Mr. Speaker, every time we take on a new legislative issue, bring something to the floor, bring it up in committee or discuss it in leadership, I like to stop and ask for a moment, what is this really all about?

We are going to use a lot of technical talk here, we are going to talk about lockboxes and points of order and so forth, but let me talk for a moment about what it is really all about.

What do I mean by that? Let me illustrate it with a point. My young adult daughter, Cathy, in her middle 30s, working hard as a young professional woman oftentimes wears a little button on her lapel. The button says: Who the devil is FICA and why is he taking my money? She represents a lot of pain and difficulty that is experienced by these young people as they pay these very, very difficult payroll taxes; and the young people feel the stress in their own budgets, in their own household budgets as they try to buy their homes, they try to buy braces for their children, as they try to think forward about their own retirement, they think forward about their own youngsters' college. They know the burden of that tax as well as any other tax.

But do my colleagues know what is beautiful about these children, these young 20- and 30-year-olds, who they are about their own retirement security, believing more in UFOs than young 20- and 30-year-olds, who they believe they will ever see a dime out of Social Security?
They are not complaining. They feel the pressure, they feel the burden, but they do not complain. Why do they not complain? Because Mr. Speaker, they exhibit every day a love for grandma and grandpa. And they will tell us when we talk to these young adults, these payroll taxes are killing me, but this is what pays for grandma and grandpa’s retirement security, and they are happy to do it.

We ought to listen to that. We ought to appreciate that, and indeed, Mr. Speaker, we ought to applaud the generosity and the love we find in these young people.

Now, imagine the hurt and the disappointment they feel as they have exhibited that faith and that love, for them to now realize that for years, for years much of that payroll tax that they have paid so painfully has not been used for grandma and grandpa’s retirement security, has not even been set aside for future needs, but has been spent on other social spending programs. The young people will tell us, I will take the sacrifice for grandma and grandpa, but I really cannot afford it for all of these other programs. I expect you to keep a faith with me; you call it a “trust fund.”

So tonight we are going to honor their commitment, we are going to honor their faith and we are going to honor their trust, and we are going to say, Mr. and Mrs. Young Adult, worried as you are about your own retirement security and sacrificing as you do out of love for grandma and grandpa, we honor you, and we make a commitment with this thing called the lockbox to take those payroll taxes that you pay that are not used today for grandma and grandpa’s retirement security and lock them away for the future.

So that when we look at that button on my daughter’s lapel and it says, “Who the devil is FICA and why is he taking my money?” we can say FICA is a program of the Federal Government called a trust fund for Social Security that asks you to pay your share so we can commit and fulfill a commitment to your grandparents. Watch these young people applaud us. Finally, they will say, finally somebody keeps the faith, honors our parents as we do, respects us, and will keep the trust. And to what degree? To the highest possible degree we can manage, every dime we can, if we can manage it.

They should understand this is a bigger, larger, more solid commitment than what the President asked in his budget. He asked for only 77 percent. We are saying to the absolute very best of our ability, we will set aside every bit of that money. I do have to say, Mr. Speaker, I am proud of us. I oftentimes make this point. Grandma and grandpa and the grandkids love each other most of all.

The reason to me is obvious: They have a common enemy. Maybe after this vote it will not be we that is the common enemy.

Mr. HOYER. Mr. Speaker, will the gentleman yield?

Mr. ARMY. I yield to the gentleman from Maryland.

Mr. HOYER. Mr. Speaker, I understand what the gentleman is saying, so that the surplus would be there. Where would the money go?

Mr. ARMY. Mr. Speaker, in the interim period the money goes to buying down the national debt, thereby making that burden of debt lower on our children in the future. We, of course, anticipate on our side that the President might make good on his promise to advance a serious legislative proposal to fix Social Security. We have waited years for the President to take that presidential leadership. He has not gotten around to doing that yet, but in the meantime that money will, in fact, be committed, as $75 billion is in this fiscal year, to buying down the debt and making it less burdensome for those children.

Mr. HOYER. So essentially, other than the amount of money, the gentleman would adopt the proposal that the President made in his State of the Union?

Mr. ARMY. Mr. Speaker, essentially what we would do is do what the President has been talking about for two years.

Mr. HOYER. Mr. Speaker, I thank the gentleman.

Mr. MOAKLEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the question before the Congress today is do we want to fix Social Security or not? Do we want to take the first test toward shoring up one of our most important social programs, or do we just want to pretend to do something?

Mr. Speaker, make no mistake about it. Social Security will collapse in the year 2034. Today’s workers are paying into a program that is going to collapse just 35 years from now, and it is our job to fix it right now.

But instead of making the tough decision to do something substantial, my Republican colleagues are taking a pass. Instead of acting, they are offering this country this point of order which the Democrats already enacted some 14 years ago and which merely restates congressional policy. In fact, Mr. Speaker, it is weaker than the existing law.

In contrast, Mr. Speaker, the gentleman from New Jersey (Mr. HOLT), along with the gentleman from Oklahoma (Mr. LUCAS) and the gentleman from Kansas (Mr. MOORE), take the first step towards fixing Social Security. The gentleman from New York (Mr. RANGEL), the ranking minority member of the Committee on Ways and Means, will be offering a motion to recommit based on the language of the gentleman from New Jersey (Mr. HOLT) to provide all of the resources we need to fix Social Security and Medicare. The gentleman from New Jersey (Mr. HOLT) says no new tax cuts for the rich and no new spending programs for anyone that are not paid for until Social Security and Medicare are safe.

Unlike the Republican point of order, our motion locks up not only the Social Security surplus but also the budget surplus. Because, Mr. Speaker, until we set about fixing Social Security and Medicare, there is no telling what tools we will need to get the job done. And we cannot sidestep a point of order by simply calling a proposal Social Security or Medicare reform. Unless the Social Security trustees and the Medicare trustees declare their programs financially sound, no money should be spent that is not offset by simultaneous deficit reductions. If our motion to recommit passes, none will.

Mr. Speaker, this is by far the most important issue facing this Congress, and we owe it to the American people to address it. There was a time not too long ago when the elderly constituted a large part of our poor population in this country. Millions of senior citizens did not have enough to eat. They could not pay for rent, they could not afford doctors’ visits. But since the advent of Social Security and Medicare, those times have changed.

On August 14, 1935, President Franklin Delano Roosevelt signed the Social Security Act into law. The first Social Security monthly check was made out and sent to Ida May Fuller of Vermont for all of $22.54. Back then there were 7,620 people in this program. This March that number exceeded 44,247,000 people on Social Security, which averages over $781 a piece for the retirees.

Since the Social Security program began, 390 million Social Security numbers have been assigned and, Mr. Speaker, each one of them carries a promise to American workers that once they reach that specific age, they can count on Social Security to take care of their bills and they can count on Medicare to take care of their health problems.

Today, Mr. Speaker, the majority of American seniors get most of their income from Social Security, and nearly every single one of them has health insurance, thanks to Medicare. This program is a very essential part of our country’s promise to take care of its citizens, and we need to get serious about ensuring that financial health long into the future.

Mr. Speaker, I reserve the balance of my time.

Mr. GOSS. Mr. Speaker, could I inquire as to the time remaining?

The SPEAKER pro tempore (Mr. LATOURETTE). The gentleman from
Mr. MOAKLEY. Mr. Speaker, I yield 4 minutes to the gentleman from Massachusetts (Mr. NEAL), a member of the Committee on Ways and Means.

Mr. NEAL of Massachusetts. Mr. Speaker, I thank the gentleman for yielding me this time.

I think on occasions like this it is important to ask ourselves, individually and collectively, how did we get to this moment? As we close the pages on this century, I think it is important to reflect upon two very important votes that were cast in this decade in this House.

In 1991, the majority of Members of the Democratic Party voted for George Bush’s budget. In retrospect, I think it is kind of sad that not only did we not have a majority of Republicans, we would have had only a small number who would have supported George Bush’s budget. In 1993 we voted for President Clinton’s budget, and we ask ourselves tonight, where did we arrive after those two critical votes?

We went from running $300 billion plus deficits in the early part of this decade to projected surpluses in the area, and I emphasize the word “projected”, of $4.4 trillion. That is what has allowed us to take up this debate.

Now, while I am pleased that the Republican Party has taken this step, I think it is also important to ask, why not tie up or wall off the entire surplus until we fix Social Security and Medicare? Why haven’t we?

Mr. Speaker, we sometimes speak in distant terms to our constituents, but we should remind ourselves today that Social Security is not an esoteric issue. It is a lifeline for millions and millions of Americans. And even as I speak and Members sit here today, the ghost of Mr. Roosevelt hovers around this room, because we can take satisfaction from the fact that there has been no greater domestic achievement in this century than Social Security for the American people, and remind ourselves as well that Medicare is but an amendment to the Social Security Act.

Mr. Speaker, I want to say as forcefully as I can that we are headed down the road eventually to another debate over this issue. On the Democratic side, I think our position is fairly clear: Wall off the surplus, do not do anything until we permanently fix Social Security and Medicare.

But I want to predict this evening with certainty that we are going to be back here in the near future voting on a huge tax cut, because that is really where the majority wants to go on this issue. They want to have a massive tax cut for wealthy Americans who, by the way, to their everlasting credit are not recipients of Medicare, and in a tax cut at this time, and that is where the American people are going to have to watch as to who defends Social Security.

The history of Social Security has been one of initiative by the Democratic Party, and in addition, we have been its chief and sometimes exclusive defenders in this institution, and indeed in this city. We know what Social Security means for millions of widows in this Nation. We know what Social Security means for retirees. It is the difference for many of survival, to have that check from the Federal Government but once a month.

Social Security has worked beyond the expectations of Mr. Roosevelt and Social Security, but Social Security is not Social Security and Medicare, beyond the wildest expectations of those who at the time opposed it.
