So keep your eyes on what we are going to do about Social Security in this Congress. Follow this debate with great care. Because I am telling my colleagues, we are coming back to a debate in the near future about a massive tax cut that clearly could undo precisely what we are talking about today.

Mr. Speaker, there are many of us here in my age group that have already drawn social security benefits, survivor benefits. We know what social security is about. We know how it kept families intact. We know how it allowed millions of Americans to finish high school and to go to college. Social security is a critical issue. It is not negotiable.

Mr. Speaker, we know the American people as it is about security of the whole notion of community.

What do we mean by community? We mean a place where no one is ever to be abandoned and no one is ever to be left behind.

Mr. GOSS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise on behalf of the Committee on Rules, which shares original jurisdiction over this legislation with the Committee on Ways and Means. Obviously, I very strongly support this bipartisan procedural mechanism to lock away the social security trust fund. That is what we are here for.

The nuts and bolts of what we are doing here today are actually very simple, but their impact is very, very significant and very reassuring, I think, to our senior citizens and to our younger workers.

What this bill says is that we will completely wall off the social security trust fund, so much so that we will not allow a deficit to be created in the rest of the budget. That is a major departure from where the rules leave us currently. It is big progress.

The not-so-secret secret about the Federal budget is that when there is overspending in the nonsocial security part of the budget, then the social security part of the budget is automatically, automatically tapped to cover the shortfall. That is how it is. That is how it is not going to be anymore, because we are going to fix that.

This social security lockbox says that from now on, this activity will be forced out into the open and will be prohibited by our rules. In order to break the lock on the lockbox, Congress is going to have to explicitly vote to do so in a publicly-recorded vote. In the other body, where recent history suggests to some that spending may indeed be out of control, a three-fifths vote of the American people as it is about locking away social security.

This procedural firewall will remain in effect at least until legislation expressly for the purpose of reforming both the social security and the Medicare programs is enacted. It is important to note that we have taken the extra steps of including Medicare reform in the mix. We are opting to err on the side of caution with this added cushion to make sure we take care of both programs crucial to the retirement security of all Americans.

In addition to the new point of order created by this proposal, there is also the new requirement that the Office of Management and Budget, OMB, as we know it here, the Congressional Budget Office, CBO, and any other government agency must exclude social security receipts in their displays of budget totals.

Currently we allow for two sets of totals to be displayed, one with and one without counting the social security trust fund as a soft landing pillow for the overspending in the nonsocial security Federal budget is that when there is anything until we permanently fix Social Security and Medicare, beyond the wildest expectations of those who at the time opposed it.

This procedural firewall will remain in effect at least until legislation expressly for the purpose of reforming both the social security and the Medicare programs is enacted. It is important to note that we have taken the extra steps of including Medicare reform in the mix. We are opting to err on the side of caution with this added cushion to make sure we take care of both programs crucial to the retirement security of all Americans.

In addition to the new point of order created by this proposal, there is also the new requirement that the Office of Management and Budget, OMB, as we know it here, the Congressional Budget Office, CBO, and any other government agency must exclude social security receipts in their displays of budget totals.

Currently we allow for two sets of totals to be displayed, one with and one without counting the social security trust fund. That is what we are here for.

The not-so-secret secret about the
When we passed our budget resolution this spring, we pledged that we were going to implement a real lockbox for social security. Now we are here. We are delivering on our promise. That is very good news for our seniors, and frankly, it is about time. This is bipartisan and I think it deserves our support.

Mr. Speaker, I reserve the balance of my time.

Mr. MOAKLEY. Mr. Speaker, I yield 4 minutes to the gentleman from Texas (Mr. BENTSEN).

Mr. BENTSEN. Mr. Speaker, let me say at the outset that I have nothing but respect for the authors of this legislation, but I do have some problems with it. I am going to vote for it at the end if the Democratic substitute is not adopted, but this bill really should have. But I think at some point in the future, because I think there are a number of things that could have been corrected.

Let me go through just a few points. First of all, this bill, as I said, is part problematic and part semantical as well.

There is one thing we should remember. This bill does not create new obligations to social security. Social security, the social security surplus, is protected in U.S. Treasury bonds backed by the full faith and credit of the government. We have never, the U.S. government has never defaulted on our Treasury bonds since Alexander Hamilton became the first Secretary of the Treasury. God help us in the day that we do default.

I think that is one thing we have to get across. Second of all, I am afraid that this bill sets us up, perhaps inadvertently, for the stage of breaking the pay-go rules and the caps that got us into the better fiscal condition that we are today.

Finally, I am afraid that this bill is not constructed in the way that even the balanced budget amendment that many of the proponents had endorsed would deal with economic downturns.

I know a lot of us think that the economy is so good now that we are not going to see another economic downturn, or that the Clinton recovery is going to continue on for many, many years. But I think at some point in the future we may get to the end of the business cycle and we will see unemployment go up.

But this bill would put us back to where the Congress was in the early 1990s when we were in a deep recession, and the Bush administration was opposing extending the unemployment compensation. This bill would put that opposition in the hands of 41 Members of the other body. I do not think that is something that we really want to do.

Mr. Speaker, let me talk a little bit about the pay-go situation. This bill inadvertently, I believe, while walling off the off-budget, the social security and Medicare surpluses, would I think put the on budget surplus, to the extent it exists, out there for the taking. We have passed a bill put forward by this Congress that would impose an $800 billion tax cut on a 10-year projection at great risk to the future stability of the economy, and in fact not pay down nearly as much debt as the Democrats proposed in their budget, which would be probably the best thing we could do for the economy and for social security right now.

So I think this is the first step to getting us back down the road to the failure of Gramm–Rudman-Hollings and more debt and deficit spending. Finally, this budget, this plan, really does not do anything for social security or Medicare.

As I pointed out, the obligation to the trust funds is real. It is backed by the full faith and credit of the government; again, a credit that we have never defaulted on. This does nothing to extend social security. It does nothing to extend Medicare. It creates no legal obligation to the extension of those programs.

What it does do is it creates a huge trap door in the future, because it contains a sentence that says that you can get out of this lockbox. "For purposes of the Social Security and Medicare Safe Deposit Act of 1999, this Act constitutes social security reform legislation."

That is a fairly broad term with no definition, so whoever the majority is in the future if this were to become law could make anything that they wanted to be so-called social security reform legislation and get into it.

I presume Members could take a bill that the Republican majority in both the House and Senate, like the supplementaries, started out at about $6 billion when it came from the White House and ended up at about $15 billion, and say it included something to do with social security reform, and pass it and eat into the social security trust fund.

This is well-intentioned, it is probably good for press releases, but it does not do a whole lot.

Mr. GOSS. Mr. Speaker, I am pleased to yield 1½ minutes to the distinguished gentlewoman from North Carolina (Mrs. MYRICK).

Mrs. MYRICK. Mr. Speaker, I rise today in support of this commonsense legislation. It is that. This is the effort to protect social security.

We have made a promise to every American that social security is going to be there for them. It is a promise that many of them do not think we will ever keep. My own children are in that group. They say to me every day, "Mom, give me a break. It is not going to be there for me. I have to take care of myself.

I understand why they think that way, because Congress has continued just over all the years to raise social security to pay for pork barrel projects and even transportation projects, just because we have an easy pot of money to go to whenever we needed a little extra.

It is time to stop the foolishness. We are supposed to be responsible and dependable, and we are supposed to be here to protect the future of our seniors and our kids. This is a real important step in making sure that that happens. It is time that social security taxes are used for social security.

We have not been truthful. We are not being truthful if we say we are balancing the Federal budget, and it is not balanced because we continue to borrow from social security. Let us not pretend that it is. It is time for us to exercise true fiscal discipline. We need to pass this bill and guarantee that this Congress keeps its promises to save social security.

I strongly support the bill offered by the gentleman from California (Mr. HERGER), and urge my colleagues to do the same.

Mr. GOSS. Mr. Speaker, I yield 2 minutes to the gentleman from Kansas (Mr. RYUN).

Mr. RYUN of Kansas. Mr. Speaker, I rise in support of the Social Security and Medicare Safe Deposit Box Act of 1999; I like to call it, the "Put the Social Security Money Where Your Mouth is Act."

As I travel through the Second District of Kansas, there is a lot of skepticism that we in Washington will not be able to actually keep our fingers out of the social security cookie jar. They are asking for proof, not just political rhetoric.

That is why I support this bill. It requires us to talk about bang for numbers and surpluses without using social security money to balance the ledger. It also goes beyond mere truth in budgeting. The bill puts enforcement mechanisms into place to prevent future Congresses from raiding social security without any accountability.

Mr. Speaker, the debate on this issue cannot be more timely, considering the current debate surrounding the appropriations process.

In April, we passed a budget resolution. We stood in the well of this House, in the very place that I am standing now, and we gave our word to the American people that beginning with next year’s appropriations, we would no longer spend social security money.

We must keep our word to the people we represent. There are some very real structural reforms that we can make that will help support and bring about the changes for social security and Medicare. This Congress must exercise the fiscal discipline to set aside this money for requirement security only. We cannot, and I repeat, we cannot commit these scarce dollars to new
spending or we will never be able to make the reforms that are necessary.

The leadership on both sides of the aisle will agree to move forward with the debate on these critical reform issues in the very near future. Mr. Speaker, I encourage each of my colleagues to support the Safe Deposit Box Act, and it is my hope that the other body and the President will do the same.

Mr. GOSS. Mr. Speaker, I yield 2½ minutes to the distinguished gentleman from Missouri (Mr. BLUNT).

Mr. BLUNT. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I rise in strong support of this very important legislation. We are well beyond the time to think about the future of social security. We are well beyond the time to determine if we do or do not invest in the future. What this determines whether we are in fact serious about the future of social security.

We hear about having a plan in place. We hear about the importance of knowing what we are going to do in 2024 or 2035, or whenever it might be.

The key thing we need to be able to do right now is make a commitment to stop spending the Social Security funds that come to the Federal Government. That is pretty easy for us to say, but it is awfully hard for us to do. In fact, it is so hard for us to do, we have not saved a single penny of Social Security until last year for the last 2 years.

If we cannot put the money aside, if we cannot hold on to those resources, it does not matter what kind of reform plan we come up with.

Our first challenge is this challenge. Our first challenge is to stop spending the money. Let us stop calculating the money in the funds available to the Federal Government for general spending.

An important part of this whole concept is quickly moving away from even calculating the Social Security funds coming in as income, to stop calculating them as income, to stop calculating them as funds available to be spent, to truly take them off the table.

We are not just going to lock them in a box that does not pay interest. We are not going to lock them away and not use them in the way that we should use those funds for the future of Social Security. We are going to lock them away from the spenders in Washington, D.C. who have enjoyed the ability since 1969 to spend this money, who have enjoyed the ability to make the deficit appear that much smaller, who have enjoyed the ability to make the deficit appear that much smaller, who have enjoyed the ability to make the deficit appear that much smaller, who have enjoyed the ability to make the deficit appear that much smaller.

The resolution on the budget placed us in a box. It does not do it. When we look inside, there is no Medicare money in it, with or without a key.

So this is the challenge to the majority, to try to get out of the box that the resolution on the budget placed us in and to do something real about Social Security reform, get a bill in front of the Committee on Ways and Means that has the support of the majority leadership, not its covert effort to undermine Social Security reform, and let us get with it and let us do the same as to Medicare. Let us get with it.

People do not want devices like boxes, with or without keys. What they want is to get with it. Let us do away with the tricks, and let us get on with concrete legislation, to do what the American people want, preserve Social Security for 75 years, and reform Medicare so that my kid and my grandchildren know it will be there for them.

Mr. GOSS. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Wisconsin (Mr. RYAN).

Mr. RYAN of Wisconsin. Mr. Speaker, I thank the gentleman from Florida for yielding time to me.

Mr. Speaker, I would like to address some of the misguided criticisms that we have heard from the previous speaker and from speakers prior to that one. One, they mentioned that we passed the budget resolution that places us in a box. We did pass a budget resolution that places us in a box. We did this intentionally. It placed us in a box because we said we did not want to see one penny of Social Security dollars going to other government programs. We wanted to see every penny of Social Security going into Social Security. We passed a budget resolution that said we would do just that.

We are following up now with a lockbox bill, the first step in our long-term effort to stop the phony accounting here in Congress that hides the budget deficits by masking the size of the budget deficits, by covering it up with the Social Security surpluses.

This lockbox bill also says this: We are going to make it tougher for Congress to pass legislation that raids Social Security. Now we think we can go farther, and we in fact want to go farther with this legislation. Unfortunately, the White House and the members of the other body from the other party are against that. We cannot get it passed into law. So we are going as far as we possibly can.

Another criticism we have been hearing from the other side of the aisle is that there is a trap door in this lockbox, that there are some keys that magically unlock these funds for use for other purposes. The prior speaker also said we need to reform Social Security and Medicare. We need comprehensive legislation to reform Social Security. Then after we do that, we have got to stop raiding the trust fund, and that is exactly what this legislation does.

So there is no trap door. What this legislation does is say, stop raiding the trust fund, put Social Security dollars aside; then we can use those Social Security dollars for a comprehensive plan to save Social Security. That is the intent of this legislation, stop raiding the trust fund, put the money aside.

Then after we have stopped that raid, we can use those dollars to save Social Security. That is not a trap door. That is a lockbox.

Mr. Speaker, I rise today in support of this "Lock box" legislation and congratulate my friend from California for his work on this issue. I am a co-sponsor of this bill and am glad to be a part of this effort to protect the Social Security Trust Fund.

For years, the Federal government has been raiding Social Security to pay for other government programs and to mask the true size of the federal deficit. Bringing this to an end is one of my highest priorities in Congress.
Earlier this year, I introduced similar “Lock box” legislation that would establish a point of order against any future budget resolutions which would allocate Social Security Trust Fund to pay for non-Social Security programs. I was pleased that my language was included in the FY 2000 budget resolution.

H.R. 1259 expands this point of order to apply to any bill, considered in either House, which would dip into Social Security. In addition, it prohibits reporting federal budget totals that include Social Security surpluses.

I am committed to exploring every legislative option available to protect Social Security, I, along with the chairman of the House Budget Committee, Mr. Kaschich, have introduced additional “Lock box” legislation which would establish even more protections for the Social Security Trust Fund by implementing new enforceable limits on the amount of debt held by the public.

It is important to note that neither the bill we are considering today, nor the bills I just spoke about, will affect current Social Security benefits. These bills simply protect the money each taxpayer pays into the Social Security Trust Fund before we can move to make improvements to the system. For the purposes of section 3(a) relating to Ways and Means, assumes not only the obligated Social Security Trust Fund, but additional funds, general revenues, for their Social Security plan.

So it is a little semantic to say we can use it later to save it, because we are already obligated to pay it. This is a little bit what we would call belts and suspenders. Sounds good. Again, I am going to vote for it, but I do not think it does a whole lot.

Mr. BENTSEN. Mr. Speaker, let me just say to the gentleman from Wisconsin (Mr. RYAN) that one of the points he made is, we can then use this money for Social Security. The problem is this money is already obligated to Social Security. So we are not saving Social Security with something that we already have.

As I think the gentleman knows, virtually every plan that has come out, even the plan by the distinguished chairman of the full Committee on Ways and Means, assumes not only the obligated Social Security Trust Fund, but additional funds, general revenues, for their Social Security plan.

The budget is drawn up here in the House and in the other body, and we offered a budget that did more. As the gentleman recalls, in fact, I offered an amendment in the committee that would have given all of the unified surplus, which may be out, we may not be able to say that in the future if this becomes law, but both the on-budget and off-budget surplus is to paying down debt, staying within the pay-go rules. That was defeated overwhelmingly in the committee by Members on both sides of the aisle.

Mr. MOAKLEY. Mr. Speaker, I yield back the balance of my time.

Mr. GOSS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, first I include for the RECORD the following letter:

COMMITTEE ON RULES,
H. OF REPRESENTATIVES,
WASHINGTON, DC, MAY 24, 1999.

H. RESOLUTION 436.

Hon. J. Dennis Hastert,
Speaker, House of Representatives,
Washington, DC.

Mr. Speaker, I ask that the Committee on Rules be discharged from further consideration of H.R. 1259, the Social Security and Medicare Safe Deposit Box Act of 1999. As you know, the bill was sequentially referred to the Rules Committee on March 24, 1999.

Specifically, Section 3 (Protection of Social Security Surpluses), among other things, establishing Budget Act points of order against consideration of a budget resolution, an amendment thereto or any conference report thereon and any joint resolution, amendment, motion or conference report that would cause or increase an on-budget deficit for any fiscal year. The provisions of this section fall primarily within the jurisdiction of the Rules Committee.

It is my understanding that the Leadership has scheduled the bill for floor consideration the week of May 24. To accommodate the schedule, I agree to waive the Rules Committee’s jurisdiction over consideration of this legislation at this time. However, in order to assist the Chair in any rulings on these new points of order, I will instruct the analysis of them into the Congressional Record during the floor consideration of this bill. I have included a copy of this analysis with this letter.

Although the Rules Committee has not sought to exercise its original jurisdiction prerogatives on this legislation pursuant to clause 1(m) and 3(i) of House rule X, I reserve the jurisdiction of the Rules Committee over all bills relating to the rules, joint rules and the order of business of the House, including any bills relating to the congressional budget process. Furthermore, it would be my intention to seek to have the Rules Committee represented on any conference committee on this legislation.

Sincerely,

David Dreier.
CONGRESSIONAL RECORD—HOUSE

May 26, 1999

Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, protecting Social Security is to stop spending it on non-Social Security purposes. This bill creates a new point of order in the House and requires a supermajority for passage in the Senate for measures that seek to use Social Security surplus funds.

Secondly, it ends the deceptive practice of masking deficits and inflating surpluses by prohibiting the Congressional Budget Office and the President’s Office of Management and Budget from reporting Federal budget totals that include Social Security surpluses. This bill stops this budget shell game and allows only non-Social Security surpluses or deficits to be reported.

Thirdly, H.R. 1259 locks up the Social Security surpluses and only allows them to be used for Social Security and Medicare reform.

The first step toward saving Social Security is to stop spending it on non-Social Security programs. Once this legislation does that, we as a Congress can continue to move forward on real Social Security and Medicare reform, and may use the money in the Social Security Trust Fund only to accomplish that goal.

Mr. Speaker, the House of Representatives has a unique opportunity to help protect Social Security and place ourselves on the path to substantial Social Security and Medicare reform. I urge my colleagues to join me in voting for this most important legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. LUCAS of Kentucky. Mr. Speaker, the people sent us here to do a job. They sent us here to preserve Social Security and Medicare, and that is exactly what the Social Security and Medicare Lockbox Act of 1999 seeks to do.

The lockbox raises the bar for protecting Social Security and the Medicare trust funds. The bill requires that all spending be fully offset until solvency has been extended for Social Security by 75 years and Medicare by 30 years. We must save Social Security and Medicare first, before squandering any of the Social Security surplus, the Medicare surplus, and any other government surplus.

The Social Security and Medicare lockbox is the only alternative that seeks to extend the life of the Medicare trust fund. The Holt-Lucas-Moore lockbox is the only measure that locks the safe and throws away the key. The lockbox requires that all surpluses be reserved until solvency has been extended by 75 years for Social Security and by 30 years for Medicare.

Paying down the Federal debt is the truly greatest gift that we can give our children and our grandchildren. Paying down the Federal debt means lower interest for our working families, more capital available for small businesses and a brighter future for our children.

Mr. Speaker, I yield 3 minutes to the gentleman from Kentucky (Mr. LUCAS).

Mr. SPRATT. Mr. Speaker, I yield 3 minutes to the gentleman from Kentucky.

Mr. LUCAS. Mr. Speaker, the people sent us here to do a job. They sent us here to preserve Social Security and Medicare, and that is exactly what the Social Security and Medicare Lockbox Act of 1999 seeks to do.

The lockbox raises the bar for protecting Social Security and the Medicare trust funds. The bill requires that all spending be fully offset until solvency has been extended for Social Security by 75 years and Medicare by 30 years. We must save Social Security and Medicare first, before squandering any of the Social Security surplus, the Medicare surplus, and any other government surplus.

The Social Security and Medicare lockbox is the only alternative that seeks to extend the life of the Medicare trust fund. The Holt-Lucas-Moore lockbox is the only measure that locks the safe and throws away the key. The lockbox requires that all surpluses be reserved until solvency has been extended by 75 years for Social Security and by 30 years for Medicare.

Paying down the Federal debt is the truly greatest gift that we can give our children and our grandchildren. Paying down the Federal debt means lower interest for our working families, more capital available for small businesses and a brighter future for our children.

Mr. Speaker, I yield 3 minutes to the gentleman from Kentucky (Mr. LUCAS).

Mr. SPRATT. Mr. Speaker, I yield 3 minutes to the gentleman from Kentucky.

Mr. LUCAS. Mr. Speaker, the people sent us here to do a job. They sent us here to preserve Social Security and Medicare, and that is exactly what the Social Security and Medicare Lockbox Act of 1999 seeks to do.

The lockbox raises the bar for protecting Social Security and the Medicare trust funds. The bill requires that all spending be fully offset until solvency has been extended for Social Security by 75 years and Medicare by 30 years. We must save Social Security and Medicare first, before squandering any of the Social Security surplus, the Medicare surplus, and any other government surplus.

The Social Security and Medicare lockbox is the only alternative that seeks to extend the life of the Medicare trust fund. The Holt-Lucas-Moore lockbox is the only measure that locks the safe and throws away the key. The lockbox requires that all surpluses be reserved until solvency has been extended by 75 years for Social Security and by 30 years for Medicare.

Paying down the Federal debt is the truly greatest gift that we can give our children and our grandchildren. Paying down the Federal debt means lower interest for our working families, more capital available for small businesses and a brighter future for our children.
Social Security and Medicare are vital for protecting the quality of life of our senior citizens. More than three-fifths of senior citizens depend on Social Security for a majority of their income. Social Security is not just retirement. For some families it is insurance that many of the disabled, the widows and the elderly of our community depend on just to get by.

With something this important, we simply cannot afford sleight-of-hand tricks from Washington. For too long we have promised to save Social Security and Medicare. To my colleagues I say it is time we put our money where our mouths are. It is time to support the Social Security and Medicare Lockbox Act of 1999.

Mr. HERGER. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. GARY MILLER).

Mr. GARY MILLER of California. Mr. Speaker, I rise in favor of H.R. 1259, the Social Security and Medicare Safe Deposit Box Act of 1999.

First, I want to thank my fellow committee member and fellow colleague, the gentleman from California (Mr. HERGER) for his tireless work to protect the Social Security Trust Fund.

One of the previous speakers said people do not want devices like boxes. I disagree. Obviously, some people would probably continue using illusion. It is time to stop the campaign rhetoric. We need to make sure no one, I repeat, no one, not the President, not the Congress, not anyone steals the Social Security money in the future.

I urge all the Members of the House to join us in protecting Social Security by supporting this safe deposit box. The safe deposit box follows up on the bedrock on which more than 40 million Americans rely. We have an opportunity in this Congress to make it more secure than ever. It is an opportunity we have not had in the past because in the past we have had annual deficits, and over the last 10 years we have been able to erode those deficits. We have positioned ourselves now to where we can deal finally with the security of Social Security.

We had a proposal in our budget resolution which would have created a lockbox for Social Security, would have required the treasurer to do what he does today; every time he gets excess payroll taxes, to remit those funds to the Social Security administrator in the form of bonds issued by the Treasury, and then to take the proceeds and not spend them, not use them to offset tax cuts, but buy up outstanding public debt so that we buy down the public debt, and therefore make the Treasury more solvent and able in the future to meet the obligations of the Social Security System. It was rejected by the majority when we brought our budget resolution to the floor.

What the other side has brought here is weaker than existing law. It huffs and it puffs. It talks about Social Security, but in the end, the product it presents is weaker than existing law.

What does it provide for enforcement? A point of order. If we send up here something that breaches the provisions of this bill, there is a point of order. We all know in the House, although they may not know in the rest of the country, that points of order are mowed down by the Committee on Rules in this House every week; waived all the time.

Because they are so routinely waived by Rules, when we passed the unfunded mandate, several years ago, we said at least have a mandate pass that will be incumbent upon local government and will increase their obligations, at least we should have a vote on the House floor, an overt vote. A Member has to go out and declare themselves ready to override the mandate. This rule does not even do that. It allows the rule to include a waiver of the point of order. Nobody will know it. It will be completely swept out of the way.

So this is a sham when it comes to a rule, but it even goes further. As if the overriding of a point of order was too much, it provides in section 5 a waiver. And that waiver says if we get the magic words right, if we say this bill is about the reform of Social Security, this bill is about the reform of Medicare, abracadabra, all of the restrictions in this bill disappear. This lockbox fails apart. It does not even apply any more.

This is absurd. A lot of us will vote for this because we do not want to explain why we did not vote for something like this, but we can do something better. We offer something better in the form of our motion to recommit. If Members are really serious about a lockbox, vote for the motion to recommit.

Mr. HERGER. Mr. Speaker, I yield myself such time as I may consume.

It is really incredibly misleading, if not completely incorrect, to say that this legislation is the same as current legislation. That is clearly not the fact. The budget resolution that passed is only for this budget. What we are doing is putting into law the fact that we cannot spend this; that before we do, Members are going to be held accountable in their districts for knowing that they actually spent Social Security.

Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. TOOMEY), a member of the Committee on Ways and Means, Chairman of the Subcommittee.

Mr. TOOMEY. Mr. Speaker, I thank the gentleman for yielding me this time, and I rise today as a proud cosponsor of this legislation.

Mr. Speaker, all across Pennsylvania’s Lehigh Valley, from where I come from, I have heard one message loud and clear, and that is to stop spending our Nation’s Social Security funds on other programs, and this is the measure that will enable us to do just that.

My constituents are right, and they are right for many reasons but I want to emphasize two. The first is that this is the honest thing to do in budgeting. And let us face it, Congress has been engaged in misleading and deceptive budgeting for decades. The American people are told their payroll tax goes to Social Security. In fact, it goes to many other places as well.

Now, some Members of Congress want to oppose this, and they, like the gentleman from California, would rather be able to grab some of that Social Security money and spend it on other programs. And I would suggest if these other programs are so important, so vitally important that they are worth spending Social Security for, then I suggest that my colleagues make the case for these programs to the taxpayers and raise the taxes necessary to fund them. If that fails, I would suggest rethinking the programs and the overall level of spending. The American taxpayers deserve honest, transparent, up-front budgeting, and this helps us to get there.

The second reason, Mr. Speaker, is that the retirement security of baby boomers, my generation, my kids and my grandchildren, absolutely depends on saving this money. Social Security, as currently structured, is simply not sustainable. The system is fundamentally flawed and it will go bankrupt if we do not make fundamental reforms and restructuring.

We need to give workers the freedom to take a portion of their payroll taxes and invest that money so that it will grow and provide a retirement benefit
Mr. KLECZKA. Mr. Speaker, a lot of my colleagues have come to the floor and indicated that, Well, friends, last week it was okay to spend $8 billion for an emergency supplemental bill out of the Social Security trust fund. But now we have got religion today and, my Lord, what we did last week, it was wrong. We have never done it before.

But none of the Republicans would admit to that. I have yet to hear one of my colleagues from the majority party say, ‘‘Yes, that was wrong. We should not have done it. But now we are going to amend our ways.’’

The difference there, my friends and colleagues, is last week’s $8 billion was for defense. Okay? And that is not spending. That is okay. But now we have to stop what is going on.

Let me back up and share with the House what the current system is. Right now, and since 1983, we are collecting more in Social Security receipts than we need for benefits. So what do we do with it? Do we give it to the Secretary of the Treasury to put under the mattress? No. Those excess dollars are invested in treasuries, interest-bearing treasuries. The interest income goes back into the trust fund.

It is just like us taking our dollars, our hard-earned dollars, and putting them in a bank. We can go back the next day and say, ‘‘I want to see those dollars again that I deposited’’ and the bank is going to say, ‘‘they are not there anymore.’’

Did they squander them? No. They lent them out. That is what banks do. And anytime we come to withdraw those funds, the bank will have other revenues, other mortgage payments, other loan payments to give us our money back. And that is what the current system is doing.

Should we deficit spend? Clearly not. To say those treasuries that are in the Social Security trust fund are worthless, that is false. If they are worthless, every savings bond this Government has ever issued is worthless, all the public debt held by corporations and institutions and individuals is worthless. And that is not the case.

The truth of the matter is the full faith and credit is behind that debt to the Social Security trust fund, as well as all other debt.

How does the lock box work? Before I come down here, I went to the Republican side and I said, I need a lock box. Do you have one hanging around? And thank God they did. Here is a Social Security lock box. And here is what this proposal would do.

We are going to collect surplus Social Security trust fund money and we are going to put it into the box. Well, when the majority leader was talking earlier in the debate, the gentleman from Maryland (Mr. HOYER) said, Well, what are they going to do with this money. Just let it sit around? Are they going to invest it. What are they going to do with it? The majority leader indicated, we are going to take this money and pay off a part of the national debt.

So not only are we going to pay for our Social Security trust fund, but we are also going to pay off some of our national debt. So we are going to use other revenues coming into the Government. Hopefully, and I think we all are going to work to that, there are going to be surplus revenues. But the money is not going to sit around under someone’s mattress.

This is the lock box we are talking about. Talk about trap doors. Talk about phony issues. This is one of them, my friends.

Mr. HERGER. Mr. Speaker, I yield 30 seconds to the gentleman from Wisconsin (Mr. RYAN) of Wisconsin. Mr. Speaker, I thank the gentleman from California for yielding me the time.

Mr. Speaker, I have to take issue with my friend and colleague from the great State of Wisconsin. That is simply not the case. The debt we owe to Social Security is also a part of our national debt.

What our budget resolution does is make sure that Social Security is there for them when they retire. And that concern is real. It is not unfounded, as American seniors have witnessed the raiding of Social Security over the last several generations.

I have got two children. One of them is in the workforce as we speak. The other one just graduated from college and is going into the workforce. I also have got the pleasure of having two beautiful grandchildren. I want to make sure that Social Security is going to be there for those children and grandchildren when they become of age.

After years of hard work, the independence that comes from financial security ought to be one thing that our Nation’s seniors and our Nation’s young people can count on. The Social Security and Medicare safe deposit box to be considered by the House today is a step towards restoring that ideal.

Every penny that is taken from the paychecks of America’s hard-working men and women should be locked away and can be locked away in a safe deposit box and used only for retirement benefits. And that is what this bill does. Quite simply stated, it is the right thing to do.

Social Security and Medicare safe deposit boxes before us establish honesty and accountability in the Federal budget process and take the next step in securing and ensuring retirement security, not just for this generation but for generations to come.

I congratulate my colleague and friend from California, who is a member of the Committee on Ways and Means, along with me, for his tireless efforts for promoting honest budgeting and encourage my colleagues to support this common sense legislation.

Mr. DAVIS of Florida. Mr. Speaker, I yield 5 minutes to the gentleman from Texas (Mr. STENHOLM).

Mr. STENHOLM. Mr. Speaker, I rise in support of this legislation. This bill before us endorses a position that we have been advocating for years.

I have come to this well many times to argue that we should not even talk about budget surpluses until we truly have taken Social Security off budget and balance the budget without counting the Social Security surplus. For the last several years, I have joined with my Blue Dog colleagues to offer budgets that incorporate that philosophy.

Thus, I congratulate the House leadership for seeing the wisdom of the Blue Dog philosophy today. Although I must say, I wish they had seen the light a little earlier and supported some of our budgets over the last 2 or 3 years, particularly the last
Mr. HERGER. Mr. Speaker, I yield myself such time as I may consume. Mr. Speaker, I would like to comment that while the party of my good friend from Texas was in control for some 40 years before we took over, there was not a single dime of Social Security that was saved. At least now we are taking that first step to begin saving Social Security. And it is something that I would urge all of us to begin doing.

Mr. Speaker, I yield 1½ minutes to the gentleman from Kentucky (Mr. FLETCHER), my good friend, a member of the Committee on the Budget. Mr. FLETCHER. Mr. Speaker, I rise to speak in support of this resolution. I thank the gentleman from California for the work done on the Committee on the Budget.

I stand amazed that we hear such criticism from the other side when they have had 40 years previously to do this very thing that we have done here today. And I find a great deal of hypocrisy when my colleague stands up and talks about a box that came from a Republican that really will not hold the money when we are here to secure with a lock box the Social Security money that has been paid in FICA taxes by the people of the United States.

So finally, after 30 years of spending Social Security for more and bigger Government, we are locking away the Social Security and protecting both Social Security and Medicare. I am proud to play a role in securing and guaranteeing retirement and Medicare security for our seniors.

The Social Security and Medicare lock box that will look away $1.8 trillion of the budget surplus to pay down the national publicly held debt. I support this resolution because it really stops the raid on Social Security that puts the burdens of IOUs on our children's and our grandchildren's back. We need to stop that, and this is an important move to begin in that direction.

This lock box provision prohibits the passage of future budgets that will raid Social Security and Medicare fund. It locks out in lock box Social Security money that has been paid in FICA taxes by the people of the United States.

I want to take a little bit of exception to the fact that some people think we are just kind of up here giving them the time of day. Quite frankly, I am going to support this legislation. I do not think it does a whole lot. It does not take a rocket scientist, at least from my standpoint. Every month out of my paycheck my employer and myself send up 12.4 percent into the Federal Government. It is going to be saved for me.

Quite frankly, we have not paid a Social Security check. We have expanded and extended Social Security to 2034. I mean, everything is kind of going along. It is just that we are getting into this debate over the surplus. The fact of the matter is I am going to support this. I think we ought to lock this up. I think that is what we should have done for the work of Social Security surplus but the non-Social Security surplus until we can make sure that the system is solvent.

Mr. CALLAHAN. Mr. Speaker, will the gentlewoman yield?

Mrs. THURMAN. Mr. Speaker, I yield to the gentleman from Florida (Mr. DAVIS) has 7½ minutes remaining.

Mr. DAVIS of Florida (Mr. DAVIS) has 7½ minutes remaining. The gentleman from Florida (Mr. DAVIS) has 7½ minutes remaining.

Mr. HERGER. Mr. Speaker, I yield myself such time as I may consume. Mr. Speaker, I would like to comment that while the party of my good friend from Texas was in control for some 40 years before we took over, there was not a single dime of Social Security that was saved. At least now we are taking that first step to begin saving Social Security. And it is something that I would urge all of us to begin doing.

Mr. Speaker, I yield 1½ minutes to the gentleman from Kentucky (Mr. FLETCHER), my good friend, a member of the Committee on the Budget. Mr. FLETCHER. Mr. Speaker, I rise to speak in support of this resolution. I thank the gentleman from California for the work done on the Committee on the Budget.

I stand amazed that we hear such criticism from the other side when they have had 40 years previously to do this very thing that we have done here today. And I find a great deal of hypocrisy when my colleague stands up and talks about a box that came from a Republican that really will not hold the money when we are here to secure with a lock box the Social Security money that has been paid in FICA taxes by the people of the United States.

So finally, after 30 years of spending Social Security for more and bigger Government, we are locking away the Social Security and protecting both Social Security and Medicare. I am proud to play a role in securing and guaranteeing retirement and Medicare security for our seniors.

The Social Security and Medicare lock box that will look away $1.8 trillion of the budget surplus to pay down the national publicly held debt. I support this resolution because it really stops the raid on Social Security that puts the burdens of IOUs on our children's and our grandchildren's back. We need to stop that, and this is an important move to begin in that direction.

This lock box provision prohibits the passage of future budgets that will raid Social Security and Medicare fund. It locks out in lock box Social Security money that has been paid in FICA taxes by the people of the United States.

I want to take a little bit of exception to the fact that some people think we are just kind of up here giving them the time of day. Quite frankly, I am going to support this legislation. I do not think it does a whole lot. It does not take a rocket scientist, at least from my standpoint. Every month out of my paycheck my employer and myself send up 12.4 percent into the Federal Government. It is going to be saved for me.

Quite frankly, we have not paid a Social Security check. We have expanded and extended Social Security to 2034. I mean, everything is kind of going along. It is just that we are getting into this debate over the surplus. The fact of the matter is I am going to support this. I think we ought to lock this up. I think that is what we should have done for the work of Social Security surplus but the non-Social Security surplus until we can make sure that the system is solvent.

That is what we have all been working for. The gentleman from Florida (Mr. DAVIS) has 7½ minutes remaining.

Mr. DAVIS. Mr. Speaker, may I in- quire as to how much time is remain- ing?
How is that paid? That is not money off a tree. That comes from taxpayers. Our young people are going to have to pay for this.

So we are in a problem, and we are beginning to address it. This is only the first step. As you mentioned, we have other steps we are going to have to take after that.

Mr. Speaker, I yield 1 minute to the gentlewoman from New York (Mrs. KELLY).

Mrs. KELLY. Mr. Speaker, we teach our children about the story of the ant and the grasshopper, in which the ant works hard in the summer laying up supplies for the winter while the grasshopper plays the summer away. Come winter, the ant is warm and well fed, but the grasshopper has no food and starves.

While we expect our children to understand the moral of this story, the government itself cannot seem to set the example of saving for the future, which is why I strongly support the Social Security and Medicare Safe Deficit, legislation which locks away 100 percent of the budget surplus attributed to Social Security and Medicare to ensure the long-term solvency of these two vital programs.

Passage of this legislation represents a commitment to today's workers that a tax dollars being set aside for Social Security and Medicare will be there for them when they retire. It also represents a commitment to older Americans that their golden years will be marked by peace of mind, not uncertainty, when it comes to the future of Social Security and Medicare.

The wisdom of the ant and the irresponsibility of the grasshopper teach our children an important lesson, Mr. Speaker, and history will have the wisdom to embrace the fable's meaning and pass this legislation.

Mr. DAVIS of Florida. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from New Jersey (Mr. HOLT), who is the prime sponsor of the motion to recommit on the bill.

Mr. HOLT. Mr. Speaker, I thank my good friend from Florida for yielding me this time. I would like to talk about the importance of the motion to recommit. We are talking about the fundamental programs of Social Security and Medicare, the two great accomplishments of the Federal Government in the 20th century that have removed the fear of destitution from old age and have made a major difference in the lives of the people of this country. We have before us now a lockbox that we cannot debate fully and that is imperfect, with a hole in the bottom.

The gentleman from Kentucky (Mr. LUCAI), the gentleman from Kansas (Mr. MOORE) and I have proposed a stronger lockbox that would preserve Social Security and Medicare. Let me point out that I have just received, addressed to the gentleman from Kentucky, the gentleman from Kansas and to me a letter from the Concord Coalition saying, and I quote: "The Concord Coalition, watchdog of budgetary sanity, 'is pleased to endorse the motion to recommit on H.R. 1259 which would add to that bill the protections of your bill'—that is, our bill—'H.R. 1257. With this bill you have raised an important issue in today's Social Security lockbox debate.'" They go on to say: "The Concord Coalition is very concerned that these 'on-budget surpluses, which are now mere projections, will be squandered before they even materialize.

"Doing so would waste an important opportunity to prepare for the fiscal burdens of the baby boomers' retirement by increasing savings, that is, paying down our debt. Worse, it would risk a return of economically damaging deficits if the hoped-for surpluses fail to materialize."

"The nature and extent of the surpluses to be locked in the box is thus a very important debate and we commend you for raising it in the form of your motion to recommit."

That, I say to my colleagues, would give us an opportunity to really accomplish what my colleagues say they want to accomplish, and that is to really preserve Social Security and, I would add, Medicare.

Mr. HERGER. Mr. Speaker, in response to the gentleman from New Jersey, who mentioned how the Concord Coalition was endorsing his legislation, I would like to mention that the Concord Coalition is also endorsing this piece of legislation as well.

Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Michigan (Mr. SMITH), a member of the Committee on the Budget.

Mr. SMITH of Michigan. Mr. Speaker, this is a very serious occasion. Somehow I wish we could holler a little louder and shout about the fact that there is a greater interest in saving Social Security. I brought with me three bills, one from 1995, one from 1997 and one from 1999, all of which take Social Security off the budget. That is what this bill does, too. I think that is a good point.

Mr. Speaker, I hope our colleagues will say that is good point. I hope our colleagues will do the same thing and says from now on at least we are not going to talk and use the Social Security surplus to mask the deficit, because that is what we have been doing. For most every year for the last 40 years, we have been spending the Social Security surplus and in our eagerness to brag about a balanced budget, we have used Social Security to mask the deficit.

At least this is a beginning. This is saying we are not going to do it anymore, we are going to make an effort to say that we are going to take the surpluses, that amount that is coming in from the Social Security tax that is in excess of what is needed for Social Security benefits and we are going to put it aside.

Mr. Greenspan has said, "Well, look. It's not perfect." That is right. Fifty percent of the Members can change the rule. It is all going to depend on how much guts we have got. It is going to depend on how much intestinal fortitude we have to say, "Look. We're going to live within our means. We're not going to spend Social Security for other government programs and expand the size of government."

I compliment the gentleman from Florida (Mr. SHAW). I compliment the gentleman from California (Mr. HERGER), the gentleman from Texas (Mr. STAHOHL), an early mover in trying to solve Social Security. The fact is that this does not solve the Social Security problem, but the grasshopper has no food and winter, the ant is warm and well fed, and the grasshopper, in which the ant works hard in the summer laying up supplies for the winter while the grasshopper plays the summer away. Come winter, the ant is warm and well fed, but the grasshopper has no food and starves.

We are in a problem, and we are beginning to address it. This is only the first step. As you mentioned, we have other steps we are going to have to take after that.
Mr. HERGER. Mr. Speaker, I yield myself such time as I may consume. This is not a gimmick. I guess the question is, why have we not done something before? Is this going to solve the whole problem? No. But at least it is a beginning. It is a first step. I also have a picture I just pulled out of my eight children. I care about them, one grandchild. This is really for the whole problem? No. But at least it is a beginning. It is a first step. I also have a picture I just pulled out of my eight children. I care about them, one grandchild. This is really for the whole problem? No. But at least it is a beginning. It is a first step.

Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin (Mr. YAN), my good friend on the Committee on the Budget.

Mr. YAN of Wisconsin. I thank the gentleman for yielding me this time. Mr. Speaker, I would like to wrap up this issue. We have heard from a lot of Members from both sides of the aisle, from Members on this other side of the aisle that although they have all these criticisms, they are going to end up voting for this bill.

We can work together on this. I do believe that this should be a bipartisan issue, not a partisan issue. We have heard a lot of partisan talk back and forth. We have heard a lot of criticisms. At the end of these criticisms just about every speaker has said, "But I'll be voting for the bill."

Let us work together on this thing. We all are saying we want to stop the raid on Social Security. We all are saying we believe FICA taxes should go to Social Security, period, end of story. So let us put this partisan talk aside and work on this.

This legislation is necessary. If we thought the discipline was there to make sure that all FICA taxes went to Social Security, we would not need this legislation. However, for over 30 years Congress and the White House, Republicans and Democrats, have been raiding Social Security. That is a fact. That is why we are addressing this issue with this lockbox legislation.

This legislation gives us the necessary tools to fight in Congress for stopping the raid on Social Security. It empowers us with the ability to, when any piece of legislation comes up which seeks to raid Social Security, it gives us the ability to stop that legislation. That is what this legislation achieves.

It also stops the smoke and mirrors accounting by stopping from masking the deficit with Social Security trust funds.

Can we go farther? Absolutely. Will we go farther? I hope so. But is this a gimmick? Absolutely not. This is real legislation that helps us stop the raid on the Social Security Trust Fund. This is a bipartisan issue. We should work on this together. We should stop these partisan spats. Because if you are going to go vote for the bill, then applaud the bill.

Mr. DAVIS of Florida, Mr. Speaker, I yield 1 minute to the gentlewoman from Michigan (Ms. STABENOW).

Ms. STABENOW. I appreciate my colleague yielding me the time.

Mr. Speaker, we all support protecting Social Security. I totally support placing Social Security outside of the budget process. But the larger issue is how we are going to strengthen Social Security and Medicare for the future.

Unfortunately, this lockbox becomes a gimmick when it does not add one dime to the Social Security Trust Fund or one day to the solvency of the Social Security Trust Fund, let alone Medicare. It becomes an empty box without a commitment to have the entire surplus focused on strengthening Social Security and Medicare for the future. That is what we are talking about.

The motion to recommit really does the job. That is what we really want to have from our colleagues, is a commitment that we will join together to strengthen Social Security and Medicare for the future. Without that commitment, we do not in fact have anything but a gimmick.

Mr. HERGER. Mr. Speaker, I yield myself the balance of my time.

The SPEAKER pro tempore (Mr. LATOURETTE). The gentleman from California is recognized for 2 minutes.

Mr. HERGER. Mr. Speaker, I have to begin sometime. Why not now? As those who are seniors today. We serve Social Security, Medicare and pay down our national debt instead of offering legislative gimmicks like the one we are debating here today.

That is what this legislation achieves. The SPEAKER pro tempore (Mr. LATOURETTE). All time allocated under the rule to the Committee on the Budget having expired, it is now in order to proceed with the time allocated to the Committee on Ways and Means. The gentlewoman from Florida (Mr. SHAW) and the gentleman from California (Mr. MATSUI) each will control 20 minutes.

Mr. SHAW. Mr. Speaker, I urge my colleagues to support this very important first step in saving and preserving Social Security.

Mr. Speaker, I appreciate the opportunity today to express my support for H.R. 1259, the Social Security and Medicare Safe Deposit Act of 1999.

Today Social Security protects 44 million Americans. Social Security's core features: risk-free, lifetime benefits, progressivity, inflation protection and family and disability benefits are particularly important to women and to our lower-income people.

In fact, Social Security is the main and only source of income for about one in three seniors today. Thanks mostly to Social Security, poverty among seniors has dropped 69 percent since 1959, making seniors today the least likely group in America to be poor.

Yet despite its success, Social Security will not be able to pay promised benefits in the future as simple. We are living longer and retiring sooner and having fewer kids. By 2014 Social Security will spend more than it receives in taxes. That is right, by 2014. By 2034, the trust fund will be empty, and only about two-thirds of the benefits will be payable.

In the past the answer has always been to cut benefits or raise payroll taxes, but today these traditional fixes are not acceptable. Social Security is the largest tax most workers pay today, and we must not increase that burden. We must avoid benefit cuts like COLA cuts and retirement age hikes that harm today's seniors or tomorrow's seniors.

Mr. Speaker, this debate is very simple. This House has an opportunity today to make it much more difficult to spend Social Security surplus. We have a choice before us. We can take the almost $1.8 trillion of Social Security surplus and spend it as we have been doing for the last 40 years, or we can take that same $1.8 trillion and protect it, put it in a lockbox so it can only be used to save Social Security and Medicare.

No matter what some of my colleagues from the other side of the aisle may say about this bill, they would be hard pressed to say it does not dramatically more difficult to spend Social Security surplus. Let us lock it away as a first step. Then we can move on to reform Social Security and Medicare.

Mr. Speaker, I urge my colleagues to support this very important first step in saving and preserving Social Security.
Mr. SHAW. Reclaiming my time, Mr. Speaker, I might say this is not the solution, but this lockbox proposal is a solution. We should not be playing gimmicks about setting aside money. We have to come up with a solution that will finish the job and really save Social Security for all time. It puts in place a Social Security Guarantee Plan that eliminates Social Security’s long-range deficit and permits payment of full benefits through 2037 and beyond, and that is a quote. In the long run there are budget surpluses and the first payroll tax cuts in the program’s history.

Passing H.R. 1259, the Social Security Guarantee Act of 1999 will be a first critical step in this progress. This legislation, for the first time in history, locks away Social Security surpluses in a safe deposit box, only to be opened to save Social Security and Medicare.

Today there are no rules to protect the Social Security surplus. In contrast, H.R. 1259 sets new rules to protect those surpluses. If a measure does not pay for itself, either the House Committee on Rules or a supermajority of 60 Senators will have to agree to use Social Security surplus to pay for it.

So while the budget resolution made it out of order for the Congress to spend Social Security surpluses this year, this bill goes further to protect Social Security surpluses for as long as it takes to save Social Security and Medicare.

Consider what a difference that will make. For 30 years Federal budgeteers have used Social Security surplus in their reporting to cover up what was really going on in the rest of the Federal budget. This safety deposit box stops the government from hiding behind Social Security surpluses to claim that its budget is balanced. In the future, all official budget documents must include the Social Security surplus in determining the government’s budgetary bottom line. That is a solid foundation for legislation that will do the job and really save Social Security for 75 years and beyond.

I encourage all Members to support this bill, and I must say this bill does not include the remedy to save Social Security for all time. It puts in place a discipline upon this House of Representatives, upon the Senate and upon the White House to live within our means without raiding the Social Security Trust Fund.

Mr. Speaker, I reserve the balance of my time.

Mr. SHAW. Mr. Shaw. I yield myself 4 minutes.

Mr. Speaker, as my colleagues know, it was about January or February of this year that we had a resolution offered by the gentleman from Wisconsin (Mr. Ryan), a new Majority Leader, Congress, who spoke for 4 minutes. In that resolution he basically said we should save Social Security. We all voted for that. That was about 5 months ago. And now we have this proposal, this so-called lockbox proposal.

We have been debating this now for about 4 hours. Mr. Speaker, do our colleagues not think it would be better if we just went to a markup and starting marking up a piece of legislation? We have a real problem on our hands with respect to Social Security. Over the next 35 years benefits paid out will exceed revenues coming in by 25 percent even if the Social Security money is set aside. We have to come up with a solution. We should not be playing gimmicks about setting aside money. Why do they not just go to a markup with that bill? Why do they not put it in legislation?

The problem is that their Republican leadership and Mr. Lott on the Senate side do not support it, and as a result of that, we are now playing around. We are not going to come to any resolution of this this year because the polling data that the Republicans showed says that we should not do Social Security because it is too difficult.

But I tell my colleagues the American public wants Social Security done, and the gentleman from Texas (Mr. Archer) are really trying. They have come up with a bill that maybe I might disagree with, but it is credible. Why do they not just go to a markup with that bill? Why do they not put it in legislation?

The problem is that their Republican leadership and Mr. Lott on the Senate side do not support it, and as a result of that, we are now playing around. We are not going to come to any resolution of this this year because the polling data that the Republicans showed says that we should not do Social Security because it is too difficult.

But I tell my colleagues the American public wants Social Security done, and if we are going to use the lockbox, we ought to do it right because the legislation of the gentleman from Florida (Mr. Shaw) and the gentleman from Texas (Mr. Archer) does a deal with just 62 percent of the Social Security surplus. They actually use general fund surplus in order to make sure that the benefits in this, revenues coming in on Social Security over the next 35 years, balance out.

So what we are going to do is we are going to say. You have got to set aside the Social Security surplus, but the surplus that is on budget we can spend. Well, in the Archer-Shaw bill, one has to use that to save Social Security, so there is an inconsistency in what we are doing now.

I just want everyone to know that we are going to vote for this, but we are going to vote for this on the basis that, why not, it does not do any harm, just like the gentleman from Wisconsin’s resolution earlier in the year did no harm. When the budget day is over, we are not going to extend Social Security by 1 day, or we are not going to actually increase any more revenues or cut expenditures on Social Security. We are not going to do anything.

We are really misleading the American public and pretending, and this Congress has to finally come to grips with the fact that we have been brought here to do the people’s business. We probably will not even get an appropriations bill out. We will probably leave for the Memorial Day recess without getting one appropriations bill out, even though three were promised, and now we are talking about Social Security on Wednesday night after 3 hours, and we are not going to do anything. It is not going to make one senior citizen or one member of the work force feel any better.

And so let us not kid ourselves. Let us pass this, but let us tell nobody that this is really going to save Social Security. It is going to set aside money, it is not going to do anything; and we know it and you know it and everyone else knows it as well.

Mr. Speaker, I reserve the balance of my time.

Mr. SHAW. Mr. Speaker, I yield myself 1 minute.

I would answer the gentleman from California (Mr. Matsui), who is the ranking member on the Subcommittee on Social Security, and the gentleman from Texas (Mr. Archer) are really trying. They have come up with a bill that maybe I might disagree with, but it is credible. Why do they not just go to a markup with that bill? Why do they not put it in legislation?

The problem is that their Republican leadership and Mr. Lott on the Senate side do not support it, and as a result of that, we are now playing around. We are not going to come to any resolution of this this year because the polling data that the Republicans showed says that we should not do Social Security because it is too difficult.

But I tell my colleagues the American public wants Social Security done, and if we are going to use the lockbox, we ought to do it right because the legislation of the gentleman from Florida (Mr. Shaw) and the gentleman from Texas (Mr. Archer) does a deal with just 62 percent of the Social Security surplus. They actually use general fund surplus in order to make sure that the benefits in this, revenues coming in on Social Security over the next 35 years, balance out.

So what we are going to do is we are going to say, You have got to set aside the Social Security surplus, but the surplus that is on budget we can spend. Well, in the Archer-Shaw bill, one has to use that to save Social Security, so there is an inconsistency in what we are doing now.

I just want everyone to know that we are going to vote for this, but we are going to vote for this on the basis that, why not, it does not do any harm, just like the gentleman from Wisconsin’s resolution earlier in the year did no harm. When the budget day is over, we are not going to extend Social Security by 1 day, or we are not going to actually increase any more revenues or cut expenditures on Social Security. We are not going to do anything.

We are really misleading the American public and pretending, and this Congress has to finally come to grips with the fact that we have been brought here to do the people’s business. We probably will not even get an appropriations bill out. We will probably leave for the Memorial Day recess without getting one appropriations bill out, even though three were promised, and now we are talking about Social Security on Wednesday night after 3 hours, and we are not going to do anything. It is not going to make one senior citizen or one member of the work force feel any better.

And so let us not kid ourselves. Let us pass this, but let us tell nobody that this is really going to save Social Security. It is going to set aside money, it is not going to do anything; and we know it and you know it and everyone else knows it as well.

Mr. Speaker, I reserve the balance of my time.

Mr. SHAW. Mr. Speaker, I yield myself 1 minute.

I would answer the gentleman from California (Mr. Matsui), who is the ranking member on the Subcommittee on Social Security, that I look forward to working with him. We do need legislation that is actually drawn up so we can actually look at it. Our conceptual model has been out there for some time, and people are looking at it, and I know the gentleman from California has just recently reviewed this, reviewed the documents that we have supplied, and is becoming knowledgeable and becoming familiar with what it is that we are trying to do.

I also understand that the President will be submitting some legislative language, and this is a positive step. So we do need to get together. This has to be a bipartisan solution, and this is what I think is so important in this whole process.

The gentleman is right. This lockbox is not the solution, but this lockbox does make it more difficult for this Congress to go ahead and continue to raid the Social Security Trust Fund surplus, and that is a fact of life, and that is what this does, and this is why I am supporting this particular bill.

Mr. MATSUI. Mr. Speaker, will the gentleman yield?

Mr. SHAW. I yield to the gentleman from California.

Mr. MATSUI. Mr. Speaker, this is just for a question, because if he plans to do this this year, why do we need a lockbox? We can just do it. I mean, we only have 3 more months in the year. Why do we not try to get this done?

Mr. SHAW. Reclaiming my time, both processes are going forward, and this lockbox simply puts an impediment in front of the Congress to continue to raid the Social Security Trust Fund while we are trying to come together on a solution.
I may be one of the few Members of this House on Capitol Hill that really believe we are going to produce something this year, but I do not have confidence in the process. I have confidence that the President wants to cooperate, I have confidence that there are a sufficient number of Democrats and Republicans that want to get together and put together a good bill that will solve the situation, and I am confident that we will do it.

But in the meantime, as we are going through the appropriation process, as we will be going through tax cuts and what not, I think that the decision has been made to hold this money aside, this surplus aside, and I think it is a positive step.

Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. Houton), a member of the Committee on Ways and Means.

Mr. HOUGHTON. Mr. Speaker, it is good to be here talking about this issue. I really do not think it is playing around. This is an honest debate, and it is a good debate, and I applaud the basic concept of the lockbox. Since Vietnam, we have been digging into the Social Security fund. It does not make any sense. It is not right. It has got to be stopped. This is one method to stop it.

I just do not happen to agree with it, and I know my associate on the other side of the aisle says, we are going to vote for it. But why not? I think there is a real distinction here, and I would like to tell my colleagues why I am going to vote against the bill.

The goal is valid, and we have got to reach that, but we have got to reach it honestly. The thing I fear is that we are so driven by a concept that we will not think through what it means, and this is a pretty exact piece of legislation. It requires that all Social Security receipts, all of them in excess of cost, paying Social Security checks, be set forth separately and immediately into the House and Senate budget resolution.

There are no exceptions for emergencies, and it requires a point of order in the House, and 60 votes of the Senate to act otherwise.

Now, there is going to be a surplus, but there is not a surplus now, and with the supplemental emergency dollars just approved for Kosovo and the military buildup and other natural disasters that we have, as we have in the past, using a part of that Social Security excess.

Now, if we do not, then we have to borrow that money because we do not have that money, and we all want to stop that practice. Now, we have borrowed enough, so all we need to do is to avoid borrowing, or if we do not want to do that, we can wean ourselves away from using Social Security funds.

These are worthy goals. We are within sight of achieving both of them, but we are not there yet, and I think we will be in three years, but we are not today.

So if we insist on passing this lockbox legislation, I predict with almost certainty that before the year is out we will be violating our promise. I cannot believe this is a sound way of approaching our budget and, therefore, I am going to vote against the measure.

Mr. MATSU. Mr. Speaker, I yield 5½ minutes to the gentleman from Maryland (Mr. Cardin).

Mr. CARDIN. Mr. Speaker, I thank my friend from California for yielding me this time. I agree with the point that the gentleman made, and that is that it would be a lot better if we were talking about a bill that would actually help the people on Social Security, that would extend the solvency of the program. We have been here now for many months, and it is time for us to use the regular legislative process of committee to commit to markup to start taking up legislation.

So rather than spending so much time on this lockbox, I wish we would spend the time debating how Social Security should be strengthened and how we should deal with the long-term solvency.

I also agree with the gentleman from California (Mr. Matsui) in that this bill is one that we should vote for because it does contain some provisions that, if we adhere to them, would be good. Why am I skeptical about that? Because we have current budget rules in effect that do pretty much everything that is in this bill, but every time we waive those rules or find ways of getting around that, I just look what we did with emergency spending. We found ways to get around the budget rules. I am afraid that what is contained in this particular legislation, it will be very easy for Congress to get around it.

Mr. Speaker, let me tell my colleagues my problems, though, with the lockbox itself. We normally think of a lockbox that we put in there what we need in order to deal with the problem and we have a strong lock on it in order to make sure it is only used for that purpose. Well, that is not the case in the legislation we have before us. We have not put into this lockbox what we should; that is, all the surplus. We should not be spending the surplus until we have fixed Social Security first. I thought that was the commitment that we made on both sides of the aisle, that both leaderships said we are going to fix Social Security first. Yet, we do not put into the lockbox the resources that will be needed in order to deal with that. That is the first major flaw.

But perhaps even more significant is that there is no lock on this lockbox. All we need to do is pass legislation that says that we fixed the problem and we can spend the money. Let me read the language in the bill. I know that my colleagues do not have a copy of it, but let me read what we are asked to vote on.

It says the term “Social Security reform legislation” means a bill or a joint resolution that is enacted into law and includes a provision stating the following: “For the purposes of the Social Security and Medicare Safe Deposit Box Act of 1999, this act constitutes Social Security reform legislation.”

Mr. Speaker, there is no lock on this lockbox. There is no requirement that we extend solvency of Social Security even one day before we can spend the money that we say that we are locking up for Social Security.

Mr. Speaker, if we insist on this, we are going to have an opportunity to cast a really significant vote, and that significant vote will be on the Holt-Lucas-Moore proposal. It will be in the motion of the gentleman from New York (Mr. Rangel) to recommit. That will be a real vote. Why do I say that?

First, it will put into a lockbox all of the surplus and say that we cannot spend that until we have dealt with Social Security and Medicare. But it goes a second step and puts a lock on the lockbox. It puts a lock on the lockbox by defining what is Social Security reform, defining what is Medicare reform.

We do not do that in the legislation before us. We do not even allow an amendment for the legislation before us. We have a closed rule. We cannot even bring forward suggestions to improve the bill. That is not the democratic process and the bipartisan cooperation that we are asking for, when they will not even give us a chance to really debate the issue before us today.

But the motion to recommit, the Holt-Lucas-Moore proposal actually does define what we need to do in order to be able to spend the money in the lockbox: seventy-five year solvency for Social Security. We all agree on that. Let us put it in the bill. We do not do that. But we will have a chance.

Vote for the motion to recommit. It does not delay the process. It brings the resolution immediately back for passage, but says that we have to deal with the 75-year solvency of Social Security, which we should do. And then on Medicare we say we have to have at least 30-year solvency in Medicare. That makes sense. Then we would really be putting this money aside and putting a real lock on the lockbox to make sure the money, in fact, is not spent until we have, in fact, dealt with the solvency of both Medicare and Social Security.

So, Mr. Speaker, we are being asked for bipartisan cooperation. We agree with that. We do not have any chance...
May 26, 1999

CONGRESSIONAL RECORD—HOUSE

11165

Mr. SHAW. Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania (Mr. ENGLISH), a member of the Committee on Ways and Means.

Mr. ENGLISH. Mr. Speaker, I rise in very strong support of this legislation. Its time has come. This is legislation that is a seminal first step in ensuring that Social Security’s retirement safety net will be there for our seniors when they need it. By putting all of the Social Security surpluses into a lockbox, we ensure that Social Security surplus resources are not diverted into new spending or new programs by Congress.

Under this legislation Congress could only use non-Social Security surpluses, real long-term surpluses with Social Security and tax cuts. In effect, it ends the smoke and mirrors of the budget process by not allowing the Social Security surplus to be invaded.

This legislation commits Congress to setting aside $1 trillion for Social Security and Medicare over the next 10 years. These resources are an essential component of any viable proposal to rescue Social Security. I urge the passage of this legislation.

Mr. MATSU. Mr. Speaker, I yield 4 1⁄2 minutes to the gentleman from California (Mr. BECERRA).

Mr. BECERRA. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I find some difficulty in this debate in that evidently this House is planning to adjourn after this vote takes place and leave for the Memorial Day weekend and recess. It seems odd that we would be leaving, having passed legislation that did not go through committee, because the people that are debating and sitting on the Committee on Ways and Means, including the Members that are here right now, the committee that has jurisdiction, and asked for a chance to have this bill debated to get the substance out, to really discuss what could be done on Social Security, and, in fact, if we could improve it, to add amendments to it, but rather than go through the normal legislative process where we would have a hearing in committee to discuss and debate the merits of the proposal, we are going straight to the floor of the House, never having gone through the committees of jurisdiction.

We could do that with this bill. And, as we have heard, the bill really does not do anything, because current law already requires that we do these things. But yet legislation that would deal with crime and youth violence and try to address the concerns of many Americans when it comes to the safety of their children in schools, sits right now awaiting action on the part of the House, and yet we are getting ready to adjourn without having taken any action on that crime legislation. Yet we are willing to pull something straight out from earth without ever having given it a chance to be debated and heard and the merits be discussed in committee the way we would normally do so on something as important as crime.

Why is it that on crime we have to let it sit and go through the whole committee process and wait who knows how many months before it can come to the House when the Senate has already passed it, when on Social Security, when we are not doing anything that is not already in existing law, we have to rush it through? I do not understand, but let us continue with the debate.

On the merits of this legislation, one, as we have heard, we could do nothing with this bill and the law would require we do what this bill claims it does, and that is to reserve Social Security surpluses for Social Security. Secondly, if we truly intend to send a message to the American people that we want to act on Social Security, then we would do as others have said have as well. We would really lock up the surpluses, because everyone knows that if we lock up just what is considered a surplus in the Social Security Trust Fund, that will not be enough to resolve the issues of long-term solvency for 75 years.

But this bill does not do it, nor are we being given a chance to amend the legislation to allow it to do that, so we really can send a meaningful message to the American people that we really want to do something on Social Security.

If this is all we are going to do on Social Security for the year or for the term, we are in real trouble, because at the end of the day we can tell the American people we did nothing more than already existed in current law. We could have been absent for the entire two-year session as Members of Congress, and Social Security would be in as good a shape as if this bill passed and quite honestly as bad a shape as it could be if we do not do anything over the next two years.

So here we are in a situation where we are going to see this as a way to remedy part of the Social Security problem. In a way, it is a feel-good proposal that maybe makes people believe that we are going to now begin to lock monies up. So in that sense, okay, let us vote for this thing. But the reality is, if we are going to deal with the long-term solvency issues of Social Security, we have to deal with what the President said.

The difficult question is to get us the last 20 or so years of 75 years worth of solvency. This does not do any of that. This does not even come close to doing what the President said would be the easy part of saving the Social Security surpluses, because at the end of the day the President committed to use part of our surpluses for Medicare. This does not help in that regard.

We really need to get to work. If we are going to do something, let us make it meaningful, and certainly if we are going to rush it through, then let us deal with the crime bill as well, because that is just as important as this because this does not really get us anywhere.

I urge the Members to consider doing something meaningful before we move on.

Mr. SHAW. Mr. Speaker, I yield myself such time as I may consume.

I would say to the gentleman from California, who I do not believe was here when his party was in the majority, that it was rare that a motion to recommit was offered to the minority side when the Republicans were in the majority. So I think this is a very Democratic process. The gentleman can come forward with his bill. Many of his Members have already argued in favor of his motion to recommit, so I think the process going forward is very good.

I would also remind the gentleman that but for the grace of God and six Members, you would be in the minority today. Nothing is precluding the gentleman and Members on the other side from coming forward with their own plan. As a matter of fact, I think we are also looking for one from the White House, and I think there is a certain amount of cooperation.

So I am not slamming this side for it, but I think also when the gentleman from Texas (Mr. ARCHER) and I have come forward with a plan before the Committee on Ways and Means and are working that plan and talking to the Members, briefing the Members, and the gentleman from California was at the briefing that we had the day we unveiled it, I think this is important progress. We are making progress. However, it is a slow process.

Mr. Speaker, I yield 2 minutes to the gentleman from Arizona (Mr. HAYWOOD).

Mr. HAYWOOD. Mr. Speaker, I thank my friend from Florida (Mr. SHAW) for yielding me this time.

It is interesting to listen, and our goal is, of course, a bipartisan solution to this challenge of Medicare, and this lockbox challenge with the funds designated for Medicare and Social Security to that purpose. It is different, if we want to get technical,
from what was done in 1990 that dealt with direct reductions.

We have heard throughout our districts, whether we are Republicans or Democrats, and I know there is a temptation to deride any effort made in good faith as some sort of gimmick, but what we have heard, not as Republicans or as Democrats but as Americans, that we need to deal with this problem, devote Social Security surpluses to Social Security, keep the trust fund intact.

I listened with interest to my friend the ranking member from California, who encouraged our side to bring forth legislation, and of course my good friend from Florida, the chairman of the full committee, had brought forward a plan; others folks have, too.

Mr. Speaker, in fairness, my friend, the gentleman from California, also asked that the Treasury Secretary designate, Mr. Summers, where the administration was trying to get out.

I think it is important that we work on this. As we know, a journey of a thousand miles begins with a single step. This is a profound step. It is not a gimmick.

The motion to recommit will be akin to double secret probation. The other side is entitled to do that, but Americans want a rational, reasonable response, and locking up of this fund. That is what it does. It is simple. It is practical. This House should do it.

Mr. MATSUI. Mr. Speaker, I yield myself such time as I may consume.

I would just point out to the gentleman from Arizona that even though the gentleman only has a 6-vote majority, he is a majority. We cannot bring a bill out of the House, we cannot bring a bill to the committee and get it marked up. Only the people in the majority can.

The gentleman's side is in the majority. They have the obligation to mark up a piece of legislation. We are 6 months into this year without it.

Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, let me introduce myself. My name is Hillary Clinton. I say that because I see that we have a bill before us today which says that a bill may in the future declare itself to be whatever it wishes to declare itself. I thought since the majority seems to take that seriously, I would see how seriously they took me if I introduced myself as Hillary Clinton.

Let me simply say that if Members look at this bill, what it says is that no point of order will lodge against a bill if it declares itself to be social security or Medicare reform. Boy, there is really some protection, is there not?

I remember that their leader 2 years ago said that social security should be allowed to wither on the vine. I know that their existing floor leader has said that, as far as he is concerned, there should be money for a program like Medicare in a free society.

I would simply say that letting legislation written by people like that self-declare itself to be reform legislation is a little like asking John Dillinger to pretend that he is Mother Teresa. It may be believable to some people, but it certainly would not be believable to me.

What this bill says, and man, it has muscle, what it says is this Congress will put every dollar on the books into social security unless it votes not to. That is what this wonderful lockbox says. It is just wonderful, what the Congress can do to pass its time when it is not being serious about real legislation.

I would simply suggest to my friends on the major side of the aisle that if they are serious about saving social security, then I would urge the Members to quit promising the American public that we can provide $1.7 trillion in tax cuts in the next 15 years and still protect social security and still protect Medicare. We all know that that is not possible, and we can get on with serious legislation as soon as everybody in this place admits it.

I have a simple suggestion. We were sent here not to adopt gimmicks, we were sent here to deal with our problems in serious legislative ways. If Members want to save social security, bring out a bill that saves social security. Do not bring out something which ought to be labeled the number one legislative fraud of the year.

Mr. SHAW. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would say to my friend, the gentleman from Wisconsin (Mr. OBEY), and for the opportunity to say a few words to my good friend, Mr. Clinton, and he is not Hillary Clinton.

Mr. Speaker, I yield 3 minutes to the gentleman from Illinois (Mr. WELLER), a member of the Committee on Ways and Means.

Mr. WELLER. Mr. Speaker, I thank the chairman for yielding time to me, and for the opportunity to say a few words in support of this important legislation.

Mr. Speaker, let me ask this House a very basic question. My friends on the other side of the aisle have been claiming that existing rules and existing laws already protect the social security trust fund.

If that is the case, then, let me ask Members of this House, why do the social security trustees report that this Congress over the last 30 years and the President have raided the social security trust fund to the tune of $730 billion?

Obviously, the so-called protections that they claim are in place are not really there. That is why this legislation is so important as we take the steps to save social security for future generations, not just today but for the next three. The first step, the important step, is to lock away 100 percent of social security for social security, not part of social security, but all of social security.

I represent a diverse district, the South Side of Chicago, the south suburbs, in Cook county, a lot of bedroom and rural communities. Whether I am at the union hall, the VFW, the grain elevator, the local coffee shop on Main Street, I am often asked a pretty basic question: When I am saying, what are $737 billion politicians in Washington, going to stop raiding the social security trust fund? Because they have been watching Congress and the President do that now for 30 years, to the tune of $730 billion.

This legislation is important because we set aside $1.8 trillion of social security revenues, 100 percent of these revenues, for social security and Medicare. That is a big victory, because when we compare that with the alternative, and I am about to put out, this is the first step as we work to save social security for the long-term.

I would like to point out the alternative here. If we look at why this is the centerpiece of this year's budget, 100 percent of this is for social security.

On this chart I have here, in this coming year $137 billion is the projected social security surplus. With the lockbox, we set aside $137 billion, the entire social security surplus, over the next year. The Clinton-Gore Democrat alternative sets aside only 62 percent, continuing the raid on social security. In fact, the Clinton-Gore budget would spend $52 billion of the social security surplus on other things.

That is why this legislation is so important. We want to wall off the social security trust fund. We need measures that work. Obviously, the current laws, the current laws, do not protect the social security trust fund. That is why the Medicare, social security and Medicare safe deposit box is so important.

Let us give it bipartisan support. Let us take this important first step as we work to save social security.

Mr. SHAW. Mr. Speaker, I yield 30 seconds to the gentleman from Florida (Mr. STEARNS).

Mr. STEARNS. Mr. Speaker, rarely has a government program caused so much confusion and misled so many people and perhaps bedeviled so many of us here in Congress, so it is appropriate tonight that we establish this lockbox on Social Security, and go ahead and pass this legislation.

I might point out to my colleagues who are complaining that this did not go through a committee, I have been here 18 years. As the gentleman from California (Mr. Matsui) knows, there are often times that the Democrats brought legislation that was good without going through the subcommittee or the full committee.
So I think this has wide support. It will pass. I think it is appropriate that we bring this before the committee tonight.

Lastly, I would say that it is a great accommodation for us to be debating and completing this tonight.

Mr. Speaker, the legislation before us would create a lockbox to ensure that Social Security surpluses be dedicated solely for the purpose they were intended to pay seniors their benefits. Today we can make history by standing up for not only what we believe to be right but what is absolutely necessary. If we are to make good on our promise to our country's seniors that we will protect the Social Security program, this can be achieved by putting future surpluses into a lockbox that could not be used to perpetuate the tax and spend policies of the past. In other words, the Social Security surplus could not be used to pay for new spending elsewhere.

Right now the Social Security Trust Fund is running a 126,000,000,000 surplus and it is used to mask the deficit. The Social Security Trust Fund's surplus shouldn't be used to fund other programs. And it should not be used to mask Nation's necessities.

Added to that is the irony that this very same fund is scheduled to go bankrupt soon after the baby boomers start to retire.

And so this trust fund which will soon go bankrupt is now in surplus, hiding the true state of the Federal budget.

Rarely has a Government program caused so much confusion, mislead so many people, and bedeviled so many policy makers. We have been very zealous in cutting wasteful spending and reducing the size of our Government's bureaucracy. We should keep up our efforts and continue to cut out unnecessary spending. Whatever surplus we may have is a result of lower taxes and less government spending.

What would happen if the economy should start to go soft or would that affect the budget process if the surplus were to shrink? How is this window in mind that the true state of our budget surplus is dubious at best.

We can through the passage of H. R. 1259—finally stop this practice which started when President Johnson unified the budget in 1969. It was then that Social Security, and the other Federal trust fund programs, were first officially accounted for in the Federal budget.

The “Safe Deposit Box Act” establishes the submission of separate Social Security budget documents by excluding outlays and receipts of the Old-Age, Survivors, and Disability Programs under the Social Security Act thereby preventing Social Security surpluses being used for any purpose other than for retirement benefits.

Mr. SHAW. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. PORTMAN), a member of the Committee on Ways and Means and a valued member of the Subcommittee on Social Security.

Mr. PORTMAN. Mr. Speaker, I thank the chairman of the Subcommittee on Social Security for yielding time to me.

I want to also commend the gentleman from California (Mr. WALLY HERGER) for bringing this legislation before us tonight. It is my view that the next logical step toward fiscal sanity in this town. The first step was through a Republican majority to actually get a balanced budget in terms of a unified budget, all the receipts in, income taxes, payroll taxes, other fees, and all payments out of the Federal Government for the first time in 30 years, we now have a unified balanced budget.

But it is time now to ensure the integrity of the social security system by taking those payroll taxes and requiring that they indeed go to the trust fund and to the social security system. That is what this does, by walling it off. It is not the last step. It is the next logical step.

The next step is actually to take those funds and put them to work for the American people so that financial security and retirement is ensured. That is why I want to compliment the chairman of the Subcommittee, the gentleman from Florida (Mr. SHAW) and the gentleman from Texas (Mr. ARCHER) for coming forward with a plan that does that over the requisite 75-year period.

That is the challenge of this Congress. It does not mean this step is not important, because it is the foundation upon which real social security reform must be built.

Mr. MATSUI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to commend the gentleman from Florida (Mr. SHAW), because I think he and the gentleman from Texas (Mr. ARCHER) have attempted to come up with a piece of legislation conceptually that at least deserves not only a hearing, but perhaps even a markup.

What I really would suggest we do now is go to a markup. We are 6 months after we had a White House summit or conference last December. It appears to me now that now is the time to mark up a bill.

We have essentially 3 months left, probably 25 to 30 legislatively days left this year, and if we run out of time we are going to get into the year 2000, and everyone can see we probably will not take social security up in an election year, Democrats and Republicans. It is not a partisan observation.

So we have a slight window. That means this window is probably within the next 20 or 30 days at the very most, and this issue is too critical to put off with resolutions, as we saw in January, so this small window, which will do no harm but do no good.

As a result of that, we should begin the markup. We are going to be 25 percent short of paying out benefits over the next 35 years, 25 percent short. As a result of that, we have an obligation to deal with this problem now. We should not be fooling around with gimmicks like lockboxes and resolutions. We should take this issue seriously.

Mr. Speaker, I yield back the balance of my time.

Mr. SHAW. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I would like to say, I compliment the gentleman from California (Mr. MATSUI), the ranking member on the Subcommittee on Social Security of the Committee on Ways and Means, and I take what he says as reaching out to Republicans and wanting to work together to solve this terrible problem that we have.

Mr. Speaker, we talk about the year 2035. The real problem is going to start in 2014, when the fund starts to run out of money. That means that the FICA taxes will not be sufficient to take care of the benefits. That means that those baby-boomers that are getting into the retirement system at that time are going to require those in their benefits, which would be terrible, or an increase in the payroll taxes for the people that are already overtaxed, and particularly the people of low income.

That would be terrible to do that. So let us not kid ourselves, we do not have until 2035. The problem starts at 2015, and the disaster happens at 2035.

Just 2 weeks ago our ninth grandchild was born to Emily and to me, little Casey Carter, a beautiful little girl. And I cannot help but think and all of us think as we look into our children's eyes, our grandchildren's eyes, just go out front and look into the eyes of the young people around this Capitol, we are handing them a hand grenade, pulling the pin and say you hold it, it is your problem.

We can solve it now, and we do need to solve it now. If we do not solve it now, it would be the biggest, biggest curse on this House and the Senate and the White House.

We can work together. There is a way to do it. We have put down a plan. The President is going to be putting down a plan. I hope the Democrats will come out with a plan that they can support. We need to work together. We need to come together and solve this situation.

We can do it now without in any way interfering with the benefits that our seniors rely upon and without increasing the taxes on our kids and our grandkids. But this may be the last Congress that can do this with as little pain as we can put into it.

So let us work together, and I think this has been a very constructive, constructive session. I accept a lot of the criticism that has been given, and I hope that Members will accept a lot of the criticism that has come from this side. Together we can work together to solve the social security crisis in this country.

Ms. ROYBAL-ALLARD. Mr. Speaker, today I will reluctantly vote in favor of the Republican “lock box” proposal. I do so with reluctance because Democrats were not allowed to offer a far better alternative which would have truly
proves it. Finally, we must take this opportunity to pass harmless legislation that make political points instead of tackling the tough steps necessary to solve our nation’s problems. The bill in front of us was not even considered by the committees that have jurisdiction over Social Security. We need real action on Social Security and Medicare, not just procedural bills that do not address the heart of the matter.

The heart of the matter is that 44 million people currently receive Social Security benefits, and Social Security has kept millions of our seniors out of poverty. Without Social Security, a staggering 42% of our seniors would be in poverty. But now due to the pending retirement of the baby boom generation and the very positive fact that people are living longer today, we need to take steps to provide for the long-term health of Social Security.

Democrats are very clear about this—we want to reserve the budget surplus for the long-term health of both Social Security and Medicare. We have a basic difference of opinion with Republicans, who would like to use a significant percentage of the budget surplus for tax cuts which would benefit the richest Americans at a time when the economy is performing superfully.

So while the bill today does no harm, neither does it do anything good. Let’s take the politics out of this debate about Social Security, roll up our sleeves, and get down to work on realistic and lasting reforms that will extend the life of Social Security and Medicare for generations to come.

Mr. STARK. Mr. Speaker, I rise today in support of the Democratic motion to recommit H.R. 1259. I want to go through the normal Committee process and we can actually save the budget surplus for Social Security and Medicare.

This bill appears to protect Medicare and Social Security from the cavalier spending of Congress, but it merely creates shelter for Congress when our constituents ask us why Social Security and Medicare are facing financial failure. Let’s be honest with the American people. We must devise an honest approach to financing and strengthening the two systems.

This bill did not go through the normal legislative process so it does not have the enforcement provisions it could have had if the Ways and Means Committee was allowed to debate and amend it. Furthermore, we must stop blaming the President and take responsibility for enacting—or avoiding—responsible legislation. Not one dollar of taxpayer funds can be spent by the President unless Congress approves it. Finally, we must take this opportunity as a first step in real debate to strengthen Social Security and Medicare.

I. LET’S TAKE A LOOK AT PROCESS SO FAR WITH H.R. 1259

II. CONGRESS, NOT THE PRESIDENT—RAIDS THE TRUST FUNDS

I might point out that Social Security has already been taken “off-budget” by three separate public laws: by the Social Security Amendments of 1983; by the Balanced Budget and Emergency Deficit Control Act of 1985; and once more by the Budget Enforcement Act of 1990. If Congress has been able to circumvent the spirit of the law for this long, what makes us believe that anything will change this time?

The GOP has been blaming the President for raiding the Social Security trust funds. This is simply not the case. This body is responsible for passing all spending bills. Just last week, we spent $12 billion for Kosovo in the Emergency Supplemental bill. Congress spent twice as much as the President requested for a war that the GOP refused to authorize.

This is a clear case of hypocrisy. On the one hand, Congress doesn’t want to authorize the war, but on the other hand they’ll spend an exorbitant amount of money for the mission. On the one hand, Congress claims they want to save the budget surplus for Medicare and Social Security but right after, they spend it on a war they don’t support.

Let’s be honest. Congress controls the spending and they have always been able to control whether it goes for needed programs like Social Security and Medicare or programs like the National Missile Defense system.

III. STRENGTHEN SOCIAL SECURITY AND MEDICARE

I agree that there should be a lockbox for Social Security and Medicare. But I want all surplus money to be used for real reform, not for playing political games. First and foremost we must strengthen Social Security and Medicare and ensure their solvency. Before any tax bills are brought to the floor of the House, we must guarantee the American people that their Old Age, Survivors and Disability Insurance is as strong as they need it to be for a happy and healthy retirement. We must guarantee them that their health care needs will be met with quality in their golden years.

We must lock up all of the budget surpluses until these two systems are strengthened through bipartisan legislation. The big tax cut for the wealthy must be postponed until the American worker is assured that his or her health and retirement insurance is safe for years to come.

The only way to do this is by giving this bill some teeth. We must send this bill back to committee and give it the enforcement provisions it needs. Let’s really lock up the surplus until Medicare and Social Security are solvent for the long-term.

Mr. FORBES. Mr. Speaker, the best way to stop the politicians from spending the tax—tax—tax—tax payers’ money is to pass this bill before they can waste it. Today we have the chance to take Social Security and Medicare’s money away from the politicians.

The Congressional Budget Office has projected a surplus of $1.55 trillion over the next decade. Of that amount, $1.52 trillion—98 percent—is Social Security reserves, which consist of the payroll tax payments made by employees and employers during the next decade and interest earned on the Social Security Trust Fund during that period.

Clearly, the surplus is not extra money which Congress can spend on any worthy cause. Every one of those dollars will be needed to honor our commitment to future retirees. Social Security is sound today, but we in Congress have a responsibility to worry about tomorrow.

We must ensure that Social Security and Medicare will continue to provide the benefits promised to those who have paid into the system. No one should have to worry that one day Social Security will not be there for them. Our children and our grandchildren deserve to know that Social Security and Medicare will be there when they need it. We can give them that guarantee by voting for H.R. 1259, the “Social Security and Medicare Safe Deposit Box Act.”

This bill:

Removes Social Security surpluses from all budget totals used by Congress or the President, so they can no longer be used to mask deficits or inflate overall budget surpluses.

Blocks budgets that spend excess Social Security money by requiring a supermajority (60) in the Senate for passage and allows for a point of order against any legislation in the House—including all spending initiatives or tax cuts.

Creates a safe deposit box shielding Social Security surpluses that can only be opened for Social Security and Medicare reform.

Using Social Security dollars to pay for anything other than retirement benefits would be an act of political larceny. The victims would be those hard-working men and women who are counting on Social Security to protect them in their retirement years.

Save Social Security and Medicare for future generations, vote for this bill.

Mr. BARTLETT of Maryland. Mr. Speaker, I rise today to express my deep concerns about...
the rhetoric that surrounds this bill. I am deeply concerned that some members have stated that this budget will "lock away Social Security and Medicare surplus." I am puzzled as to what this means. Is the money going to be stuffed under a mattress at the Department of Treasury. Will there be a huge safe with armed guards at the Bureau of Public Debt stuffed full of stacks of cash? Obviously not.

When you peel back the rhetoric, you find out that what the bill really does is to use the Social Security Trust Fund Surplus to pay down publicly held debt. This does absolutely nothing to address the long-term problems of Social Security. As a matter of fact, if Congress leaves current law as it is, all of the surplus from all of the trust funds, and any unified budget surplus, will be used to pay down the publicly held debt. When was the last time you heard seniors in your district telling you that they want FICA taxes to be used to pay for Congress' voracious spending during the 1980's and 90's?

While paying down the publicly held debt may be a laudable goal, let's not say it does something to "Save Social Security." All paying down the publicly held debt does is allow the government to pay down publicly held debt now, so that when all of the IOUs in the Social Security Trust Fund come due in 2014 we can take out more debt. I am puzzled why it is good policy to pay down debt now so that we can take out massive amounts of debt in the future.

My colleague, Mr. MARKEY, and I have introduced legislation which will actually do something to save Social Security. Our legislation will add six years to the solvency of the Social Security Trust Fund. Our bill does this by authorizing the investment of a portion of the Social Security Trust Fund in broad-based index stock funds, just like every pension manager in the country does. We have included extensive provisions to protect the fund from political manipulation. By having a private sector fund managers invest in the market, our bill will fund the payment of the trust fund out of the hands of a spend-happy Congress in Washington, and simultaneously grow the assets in the trust fund. This is almost identical to the investment strategy that has been employed by the highly successful Thrift Savings Plan. Most importantly, our bill will add at least six years to the solvency of the Social Security Trust Fund.

While I intend to vote for this bill, let's be honest with the American people. This bill does nothing to "Save Social Security." And if we tell the taxpayer otherwise we are doing them a disservice.

Mr. WELDON of Florida. Mr. Speaker, I am pleased to rise in support of H.R. 1295, the Social Security and Medicare Safe Deposit Act of 1999. We must move this bill forward. For decades politicians in Washington have voted to spend the Social Security surplus on new and larger government programs.

When Republicans took control of the Congress in 1994, we promised to put a cap on government spending and to protect Social Security. Republicans were subjected to a relentless attack by those who wanted to expand the size and scope of government. But our efforts have paid off and the American people are better off because we have a real balanced budget for the first time in decades. When we take all of the Social Security Surplus money and put it into the lock-box, we still have a few dollars left over.

Social Security is much safer today that it was four years ago because we have balanced the budget. Had we not preserved in our efforts to balance the budget no one would be here today talking about a Social Security Trust Fund lock-box. This debate would be impossible.

I am pleased that the Republican Budget Resolution that we passed earlier this year committed us to passing a lock-box. We are doing that with today's passage of H.R. 1295.

The greatest objections to this bill are coming from those who have voted over the past years to use the Social Security Trust Fund money to pay for larger government. They know that after today's vote will be more difficult to do so because they can no longer secretly dip their hand into the Trust Fund to pay for their new program.

The bill will force fiscal discipline on Washington. In order to create a new federal program, politicians who propose new Washington programs will have to say how they are going to pay for their new program because they can no longer dip into Social Security for the money.

Mr. CAMP. Mr. Speaker, I rise in strong support of H.R. 1295, the Social Security Lock Box bill. For too long, our Nation's seniors—and tomorrow's seniors—have been faced with uncertainty. It's an uncertainty about the promises they've been made, that the Social Security benefits they earned will be there for them when it's time for retirement.

Our legislation locks away 100 percent of all Social Security surpluses. It locks them away from Congressional big spenders who'd rather break tomorrow's promises and fill the Social Security Trust Fund with IOUs, keep spending on budget-busting federal spending today. With passage of our bill today, we can ensure that any new federal spending does not come at the expense of Social Security beneficiaries.

Today, we make the guarantee for future beneficiaries, and Social Security recipients, that their benefits will be there. When they step toward retirement, they won't find IOUs in their Social Security accounts. Instead, they'll find their full benefits, and a promise kept.

Mr. SHAW. Mr. Speaker, I urge passage of the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The motion to recommit the bill to the House Committee on Ways and Means, with instructions to report the same back to the House forthwith with the following amendments:

Redesignate sections 4 and 5 as sections 5 and 6, respectively, and insert after section 3 the following new section:

SEC. 4. SURPLUSES RESERVED UNTIL SOCIAL SECURITY AND MEDICARE SOLVENCY LEGISLATION IS ENACTED.

(a) In general.—Until there is both a social security solvency certification and a Medicare solvency certification, it shall not be in order in the House of Representatives or the Senate to consider any concurrent resolution on the budget, or conference report thereon or amendment thereto, that would use any portion of the baseline budget surpluses, or any bill, joint resolution, amendment, motion, or conference report if—

(i) the enactment of that bill or resolution as reported,

(ii) the adoption and enactment of that amendment, or

(iii) the enactment of that bill or resolution in the form recommended in that conference report, would use any portion of the baseline budget surpluses.

(b) Baseline budget surpluses.—

(A) In general.—For purposes of this subsection, the term ‘baseline budget surplus’ means the sum of the on- and off-budget surpluses contained in the most recent baseline budget projections made by the Congress, pursuant to section 312 of the Budget and Emergency Deficit Control Act of 1985 of current year levels of outlays, receipts, and the surplus or deficit into the budget year and future years; except that if outlays for programs subject to statutory appropriations are subject to statutory spending limits then these outlays shall be projected at the level of any applicable statutory discretionary spending limits. For purposes of this subsection, the baseline budget projection shall include both on-budget and off-budget outlays and receipts.

(B) Use of portion of baseline budget projection.—For purposes of this subsection, the term ‘baseline budget projection’ means the projection described in section 257 of the Balanced Budget and Emergency Deficit Control Act of 1985 of current year levels of outlays, receipts, and the surplus or deficit into the budget year and future years; except that if outlays for programs subject to statutory appropriations are subject to statutory spending limits then these outlays shall be projected at the level of any applicable statutory discretionary spending limits. For purposes of this subsection, the baseline budget projection shall include both on-budget and off-budget outlays and receipts.

(C) Use of portion of baseline budget projection.—For purposes of this subsection, the term ‘baseline budget projection’ means the projection described in section 257 of the Balanced Budget and Emergency Deficit Control Act of 1985 of current year levels of outlays, receipts, and the surplus or deficit into the budget year and future years; except that if outlays for programs subject to discretionary appropriations are subject to statutory spending limits then these outlays shall be projected at the level of any applicable statutory discretionary spending limits. For purposes of this subsection, the baseline budget projection shall include both on-budget and off-budget outlays and receipts.
Mr. RANGEL. Mr. Speaker, this is merely a parliamentary maneuver. It does not mean too much as it relates to whether or not this Congress or this House deals with Social Security. It takes the so-called Social Security surplus, puts it into a lockbox, and gives the key to that lockbox to the majority.

I suppose that this is supposed to send a positive message to America that we do recognize the serious nature of the crisis that will face the next generation as they look forward to receiving the benefits that they rightly deserve.

We on this side say that the President has tried to put pressure on the Congress by saying, let us do Social Security first. Let us do Medicare first.

In order to put additional pressure on us, it is suggested, not only by the President, but by this stronger lockbox provision, which is identical to H.R. 1259 introduced by the gentleman from New Jersey (Mr. HOLT), the gentleman from Kentucky (Mr. LUCAS), and the gentleman from Kansas (Mr. MOORE), that says what is just to the Social Security surplus? Why not take the on-budget surplus? Why not take the monies that we will have, and as some people say, while the sun is shining, that is the time to fix the roof?

Why not say that we are going to attempt to work in a bipartisan way, not to see who can outscore each other on points? Because when this motion is analyzed by those who study the work of the Committee on Ways and Means, it is going to be clear to everybody that we have not locked anything in. As long as there is a majority in this House, that box can be unlocked. There is no lock on it.

But if we say that we were going to work together, not as Democrats and Republicans, but as committed Members of this House, it would seem to me that we would start now in trying to cooperate with each other and not bring motions out on the floor without having full debate in the Subcommittee on Social Security and the Committee on Ways and Means.

No one has worked harder to achieve a bipartisan approach to this than the gentleman from Florida (Mr. SHAW). I think that our chairman and my President would like to be able to say that on their watch, they have been able to tackle this very serious problem.

But this problem is not going to be resolved by Republicans, and it is not going to be resolved by Democrats. It is not going to be resolved by demagoguery. It is not going to be resolved by rhetorical motions and amendments.

It then only be done when the leadership of this House decides that it is going to talk with the leadership on the other side, and they agree that we are going to work together, not to make points, but to make history.

These things could have been discussed in the Committee, but then again, if we do that, we have debate, and God knows we do not want any of that anymore.

It seems to me that now is the time for the leadership to be a little more outspoken in terms of lockboxes, but in terms of leadership in saying that they have met, they have decided, and they have talked with the President, and they would like to resolve this problem. That way, we will not spend a lot of time pointing at each other for what we have not done, but we can spend more time taking care of the people’s business.

This motion to recommit, those who are voting for it are saying we made the mistake of fixing this safe deposit box, let us lock up the leadership of the Republicans and Democrats and put them in a room and say they cannot get out of that room until they come up with a Social Security reform package. But my colleagues know and I know, if this is not done this year, it is not going to be done in this session.

So we can bring out these amendments, we can talk about it, and we can move to recommit, but so far, we have no bill.

I just want to thank the gentleman from Florida (Mr. SHAW) for having the courage to put his name at least on the talking paper when his colleagues could not see fit to put their name on a bill.

Mr. HERGER. Mr. Speaker, I rise in opposition to the motion to recommit. The SPEAKER pro tempore. The gentleman from California (Mr. HERGER) is recognized for 5 minutes.

Mr. HERGER. Mr. Speaker, it is important to understand what is going on here. H.R. 1259 proposed to save the Social Security surplus, $1.8 trillion over the next 10 years or $100 billion more than the President proposed in his budget for saving Social Security and Medicare.

Under our safe deposit box, none of that money can be spent on anything else until we actually save Social Security and Medicare. For those who say that is not enough, Mr. Speaker, not enough, the gentleman from Texas (Chairman ARCHER) and the gentleman from Florida (Chairman SHAW) have already offered a proposal to save Social Security for 75 years and beyond, that costs far less than the $1.8 trillion over the next decade, leaving hundreds of billions of dollars for Medicare reform.

But in their zeal to prevent any tax relief for American people, the Democrat proposal would also freeze budget surpluses that have nothing to do with Social Security and Medicare. Apparent what that our fiscal policy of the House Democrat leadership is that hard-working Americans who have paid too much in income taxes cannot get any of their money back.

It all has to stay trapped in Washington until the government agrees on how to save Social Security and Medicare. The longer that takes, the less money there is to return to the taxpayers.

This proposal does not just prevent excess taxes from being returned in the form of income tax cuts. It also locks the money from being spent on building a stronger military, improving public schools, or protecting the environment.

The President said in his State of the Union address, we need to use the surplus wisely, including for such purposes. Is the Democrat leadership now telling the country those important goals do not matter? Or are the Democrats saying that, to the degree that issues other than Social Security and Medicare matter, we have to raise taxes to pay for them? Or are they suggesting we cut current government spending to pay for any new spending?
I seriously doubt it.

Finally, the Democrats’ motion states any legislation opening the Social Security lockbox proposals make the decisions—not Congress. We cannot allow politics to wreck Social Security and Medicare.

Mr. Speaker, I urge my colleagues to support this motion to recommit, and I thank Mr. Rangel for offering it on our behalf.

CONCORD COALITION APPLAUDS SOCIAL SECURITY LOCK BOX PROPOSALS BUT WARNS THEY ARE NOT TAMPER PROOF

Washington.—The Concord Coalition today commended Social Security lock box proposals, specifically bills H.R. 1259 and H.R. 1257, for their efforts to lock away the Social Security surplus.

“Both bills will make it more difficult for Congress to pay for new spending or tax cuts by dipping into the Social Security surplus. While structured somewhat differently, both bills would provide an extra measure of protection for the Social Security surplus. I applaud the sponsors of both bills for their commitment to this issue and give extra credit to Congressman Rush Holt, Ken Lucas and Dennis Moore for their proposal to protect the entire budget surplus, over and above the Social Security surplus, until real entitlement reform is enacted,” said Concord Coalition Policy Director Robert Bixby.

While encouraged by the lock box proposals, the Coalition cautioned that their enforcement measure—a budget point of order—is not tamper proof. “Both lock box proposals make attacking the Social Security surplus vulnerable to a budget point of order requiring additional votes. However, we only have to look at the number of yes votes for last week’s emergency supplemental spending legislation to see that this enforcement mechanism is not tamper proof,” Bixby said.

For example, the Senate requires a super-majority of 60 votes to override a budget point of order. Last week’s emergency spending legislation received 64 votes, more than enough votes to waive a budget point of order.

“The Social Security lock box proposals have raised the important question of how we can best protect surpluses for entitlement reform. However, we cannot let these proposals overshadow the need for real reform. We hope Congress and the President will turn to this task next,” Bixby said.

Mr. STARK. Mr. Speaker, I rise today in support of the Democratic motion to recommit H.R. 1259 so that it can go through the normal Committee process and we can actually save the budget surplus for Social Security and Medicare.

This bill appears to protect Medicare and Social Security from the cavalier spending of Congress, but it merely creates shelter for Congress when our constituents ask us why Social Security and Medicare are facing financial failure. Let’s be honest with the American people. We must devise an honest approach to financing and strengthening the two systems.

The bill did not go through the normal legislative process so it does not have the enforcement provisions it could have had if the Ways & Means Committee was allowed to debate and amend it. Furthermore, we must stop blaming the President and take responsibility for enacting—or avoiding—responsible legislation. Not one dollar of taxpayer funds can be spent by the President unless Congress approves it. Finally, we must take this opportunity as a first step in real debate to strengthen Social Security and Medicare.

Let’s take a look at process so far with H.R. 1259.

H.R. 1259 did not go through the regular Committee process. It was pulled from the Committees with jurisdiction and brought directly to the House floor without any normal deliberation.

The Republicans avoided sending H.R. 1259 through Ways & Means so the Committee was not able to debate or amend the bill prior to coming to the floor.

Had we used the normal legislative process, today’s bill might have the enforcement measures needed to address Medicare and Social Security’s insolvent problems. The Speaker promised to meet us halfway when he took office. He also promised to play by the rules. Neither promise has been honored in this case. Clearly, we will move back to regular order only when it is convenient to do so.

Had the Ways and Means Committee considered the bill, I would have offered an amendment to more clearly define what would qualify as “Medicare reform”. H.R. 1259 makes the “lockbox” provisions of the bill effective until Medicare and Social Security are saved. However, it does not define “saved.” This allows Congress to raise the age of eligibility, to force people into HMOs, and to reduce benefits as the means of “extending” the financial life of the program. Medicare is a vital program for our nation’s seniors and disabled populations. In my mind, reform cannot include reductions in benefits like some would like to achieve. Some Members may believe that this is an adequate definition of “saved” but I don’t. We cannot sacrifice the health and well-being of the American workers for the sake of balancing the books.

II. CONGRESS—NOT THE PRESIDENT—RAIDS THE TRUST FUNDS.

I might point out that Social Security has already been taken “off-budget” by three separate public laws: by the Social Security Amendments of 1983; by the Balanced Budget and Emergency Deficit Control Act of 1985; and once more by the Budget Enforcement Act of 1990. If Congress has been able to circumvent the spirit of the law for this long, what makes us believe that anything will change this time around?

The GOP has been blaming the President for raiding the Social Security trust funds. This is simply not the case. This body is responsible for passing all spending bills. Just last week, we spent $12 billion for Kosovo in the Emergency Supplemental bill. Congress spent twice as much as the President requested for a war that the GOP refused to authorize.
This is a clear case of hypocrisy. On the one hand, Congress doesn’t want to authorize the war, but on the other hand they spend an exorbitant amount on pork for the mission. On the other hand, Congress claims they want to save the budget surplus for Medicare and Social Security but right after they spend it on a war they don’t support.

Let’s be honest. Congress controls the spending and they have always been able to control whether it goes for needed programs like Social Security and Medicare or programs like the National Missile Defense system.

I agree that there should be a lockbox for Social Security and Medicare. But I want all surpluses to be used for these programs. First and foremost we must strengthen Social Security and Medicare and ensure their solvency.

Before any tax bills are brought to the floor of the House, we must guarantee the American people that their Old Age, Survivors and Disability Insurance is as strong as they need it to be. And we must lock up all of the budget surpluses until Medicare and Social Security are solvent and we have always been able to spend and we have always been able to spend and we have always been able to spend and we have always been able to spend.

The SPEAKER pro tempore. The question was taken; and the result of the vote was announced as above recorded.

The motion to recommit was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. Mr. LaTOURETTE. The question is on passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. THOMAS. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The Speaker pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 416, nays 12, not voting 6, as follows:

[Roll No. 164]
The Speaker pro tempore. The gentleman has the floor.

Mr. GEORGE MILLER of California. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman has the floor.

The gentlewoman from Pennsylvania has the floor.

Mr. GEORGE MILLER of California. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman has the floor.

The question is on the Senate concurrent resolution. The question was taken, and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. GEORGE MILLER of California. Mr. Speaker, I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 249, nays 178, not voting 7, as follows:
CONGRESSIONAL RECORD—HOUSE

May 26, 1999

Mr. BROWN (OH). Mr. Speaker, I am unaware of a request for a roll call on H.R. 902.

As such, I was unavoidably detained on May 25, a storm in Connecticut caused me to miss Rollcall Votes 145 and 146, and had I been present, I would have voted on both.

Mr. CROWLEY. Mr. Speaker, on May 26, I was unavoidably detained in New York due to poor weather conditions. The weather delays caused me to miss Rollcall Votes 145 and 146, and had I been present, I would have voted in the affirmative on both.

Mr. PHELPS. Mr. Speaker, I ask permission to address the House on a personal matter.

So the Senate concurrent resolution was concurred in.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Mr. CROWLEY. Mr. Speaker, on May 26, 1999, I was unavoidably detained in New York due to poor weather conditions. The weather delays caused me to miss Rollcall Votes 145 and 146, and had I been present, I would have voted in the affirmative on both Rollcall Vote No. 145 and Rollcall Vote No. 146.

PERSONAL EXPLANATION

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise to indicate that yesterday, on May 25, I was in the district on official business, and I would like to record in the RECORD the rollcall votes that I missed and how I would have voted.

On Rollcall Vote No. 157, if I had been here, I would have voted no. On Rollcall Vote No. 158, I would have voted no; Rollcall Vote 155, no; Rollcall Vote 154, no; Rollcall Vote 153, no; Rollcall Vote 152, no.

And on the suspensions, if I had been present on Rollcall No. 150, I would have voted yes; on Rollcall No. 149 I would have voted yes, and 148, I would have voted yes.

NATIONAL EMERGENCY WITH RESPECT TO IRAN—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES—(H. DOC. NO. 106–73)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on International Relations and ordered to be printed:

To the Congress of the United States:

As required by section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c) and section 204(c) of the International Emergency Economic Powers Act (IEEPA), 50 U.S.C. 1703(c), I transmit herewith a 6-month periodic report on the national emergency with respect to Iran that was declared in Executive Order 12170 of November 14, 1979.

WILLIAM J. CLINTON.

NATIONAL EMERGENCY WITH RESPECT TO BURMA—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 106–74)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on International Relations and ordered to be printed:

To the Congress of the United States:

As required by section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c) and section 204(c) of the International Emergency Economic Powers Act (IEEPA), 50 U.S.C. 1703(c), I transmit herewith a 6-month periodic report on the national emergency with respect to Burma that was declared in Executive Order 13074 of May 20, 1997.

WILLIAM J. CLINTON.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:
WHY I AM A REPUBLICAN

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Wyoming (Ms. CUBIN) is recognized for 5 minutes.

Ms. CUBIN. Madam Speaker, as a Member of Congress and a woman, I am frequently asked why I am a Republican. After all, we all know about the gender gap. As a woman, a wife and a mother of two sons, my values and beliefs are the beliefs that are mirrored in the traditional ideals of individual freedom and personal responsibility. The Republican party best reflects my values and opinions.

I believe the strength of our Nation lies with the individual, and each person's dignity, freedom, ability and responsibility must be honored. I believe in equal rights and equal opportunity for all; that every single child has a right to live in an environment where they can achieve their fullest potential. I believe that free enterprise and the encouragement of individual initiative have brought prosperity, opportunity and economic growth to our country. I believe that the government must practice fiscal responsibility and allow individuals to keep more of the money that they earn.

I believe that the proper role of government is to provide for people only those functions that they cannot perform for themselves, and that the best government is that which governs the least. I believe the most effective, responsible and responsive government is that which governs the least. I believe in equal rights, equal opportunity for all; that every single child has a right to live in an environment where they can achieve their fullest potential. I believe that free enterprise and the encouragement of individual initiative have brought prosperity, opportunity and economic growth to our country. I believe that the government must practice fiscal responsibility and allow individuals to keep more of the money that they earn.

I believe that the government must practice fiscal responsibility and allow individuals to keep more of the money that they earn.
human rights throughout the world. Finally, I believe that the Republican Party is the best vehicle for translating these ideas into positive and successful principles of government.

As America faces tragedies like the shootings that we have seen across the country in the last few months, I remain even more convinced that a return to traditional values and personal responsibility that made this country great are absolutely essential. I think President Reagan said it best when he said, We must reject the idea that every time a law is broken, society is guilty rather than the lawbreaker. It is time to restore the American precept that each individual is accountable for his actions.

As a wife, a woman, a mother of two sons, I believe that only a return to values and principles of personal responsibility will end this sort of violence. That is why I am a Republican.

FULLY FUND THE E-RATE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York (Mr. Crowley) is recognized for 5 minutes.

Mr. CROWLEY. Madam Speaker, I rise this evening to talk about the E-Rate. I strongly urge my colleagues to fully fund the Universal Service Fund program for schools and libraries, commonly called the E-Rate. The E-Rate has successfully helped provide equal access to opportunity and education for schoolchildren and the public at large.

In just 18 months, the E-Rate has connected over 600,000 classrooms in over 80,000 schools and libraries across this great Nation. At a recent roundtable discussion that I held in my district with educators, I asked principals and superintendents in my 7th congressional district, what is the one thing I can do right now in Congress to help education, and unanimously they said, continue the E-Rate program. Do not let the E-Rate program die, do not let it diminish. It is effective, it is working. It is connecting our schools to the future.

Most importantly, the E-Rate program enables all schools and libraries to provide Internet access to children, regardless of their means. For most schools and libraries, the cost of both telephone and Internet access is cut in half, and for some of our most poorest schools, access will be almost free, almost free.

The E-Rate is helping to close the digital divide. Children in the most isolated inner city or rural town will have access to the same expansive knowledge and technology as a child in the most affluent suburbs.

This House supported this program in 1996 and should continue to support this program today, especially because of the scope and influence of the Internet on our children’s lives.

Recently, surveys have shown that the American public strongly supports the introduction of information technology into our Nation’s schools and libraries. A nonpartisan poll was commissioned by EDUINC and conducted by Lake, Snell and Associates and the Tarrance Group. The results of this poll are impressive and send a clear signal that the American people support the concept of the E-Rate.

Madam Speaker, 87 percent of Americans support discounts to schools and libraries. Eighty-three percent of Americans think that access to the Internet in schools and libraries will improve educational opportunities for all Americans. Eighty-seven percent of Americans support continuing discounts for libraries and schools. Seventy-nine percent of Americans believe that PCs are an effective alternative for teaching subjects such as math and reading.

Tomorrow that FCC will vote on the funding level for the Universal Service Fund for America’s schools and libraries for the year beginning July 1, 1999. I urge every member of this House to lend their support to fully funding the E-Rate program.

JOHN HART: ONE OF AMERICA’S TREASURES

Mr. CROWLEY. Madam Speaker, I just want to shift gears for a moment. We all know there is a very, very important weekend coming up and that is Memorial Day. During this Memorial Day weekend we celebrate and commemorate all of those who fought for the saving of this country in all our world wars. In particular, I just want to mention a good friend of mine, a neighbor, a mentor of mine as I was growing up, Mr. John Hart, actually my next door neighbor. I am proud to say that this weekend John Hart will be the grand marshal of the Woodside, Queens Memorial Day Parade.

John Hart is one of America’s treasures. He served our country in World War II and saw action in Europe. He came back from that war and he and his wife, Pat, raised four children in the community. John, like so many other Americans who gave of themselves that we might be free, is still alive today and is having an opportunity to walk amongst his fellow citizens in Woodside so that they can show their appreciation for John and men and women like him.

So when my colleagues are eating hot dogs and hamburgers and having corn on the cob this weekend, think of John Hart and think of all of those men and women who gave so much of themselves so that we today are free.

UNITED STATES’ NATIONAL SECURITY COMPROMISED BY CHINESE ESPIONAGE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York (Mr. Fossella) is recognized for 5 minutes.

Mr. FOSSELLA. Madam Speaker, I would like to compliment my colleague and friend from New York (Mr. Crowley) and congratulate Mr. Hart as well. Memorial Day is I think too often taken for granted in this country, and it is an opportunity, however, for most of us to appreciate and demonstrate our support for those who were willing to give their lives for our country, too many of whom made the supreme sacrifice, physically, mentally scared for life. So I compliment those in Woodside, Queens and of course in Staten Island where I live. I think it is an appropriate opening to what I wanted to talk about tonight.

I will read my colleagues a little clause here, "The People’s Republic of China has stolen classified design information on the United States’s most advanced thermonuclear weapons. The stolen United States’ nuclear secrets give the People’s Republic of China design information on thermonuclear weapons on par with our own."

So begins the United States national security and military commercial concerns of the People’s Republic of China from the Select Committee, commonly known now as the Cox Report that was declassified in the last couple of days. Madam Speaker, we talk about a lot of things here in Washington, and clearly, many of them are important and affect everybody across this country. But I think to me and so many others here, there is nothing more vital than protecting our national security. Frankly, I think if any American can, they should read the Cox report. What I am going to do is just read some excerpts from this.

"The stolen information includes classified information on seven U.S. thermonuclear warheads, including every currently deployed thermonuclear warhead in the United States ballistic missile arsenal. The stolen information also includes classified design information for enhanced radiation weapons, commonly known as the neutron bomb, which neither the United States nor any other Nation has yet deployed. The People’s Republic of China has obtained classified information on the following United States thermonuclear warheads, as well as a number of associated reentry vehicles, the hardened shield that protects the thermonuclear warhead during reentry."
Might I add, this Cox Committee was a bipartisan committee, Democrats and Republicans in the House of Representatives, and clearly demonstrates, for example:

"The People's Republic of China has stolen United States design information and other classified information for neutron bomb warheads. China has stolen classified U.S. information about the neutron bomb from a U.S. national weapons laboratory. The United States learned of the theft of this classified information on the neutron bomb in 1996," and practically nothing was done.

"The Select Committee judges that if the People's Republic of China were successful in stealing nuclear test codes, computer models and data from the United States, it could further accelerate its nuclear development. By using such stolen codes and data in conjunction with the high performance computers already acquired by the People's Republic of China, the PRC could diminish its needs for further nuclear test clear testing to evaluate weapons and proposed design changes."

The small warheads that we talk about, multiple warheads, will make it possible for the People's Republic of China to develop and deploy missiles with multiple reentry vehicles. Multiple reentry vehicles increase the effectiveness of a ballistic missile force by multiplying the number of warheads, and a single missile can carry as many as tenfold.

Multiple reentry vehicles also can help to counter missile defenses. For example, multiple reentry vehicles make it easier for the People's Republic of China to deploy penetration aids with its ICBM warheads in order to defeat antimissile defenses.

At the beginning of the 1990s, the People's Republic of China had only one or two silo-based ICBMs capable of attacking, attacking the United States. Since then, the People's Republic of China has deployed up to two dozen additional silo-based ICBMs capable of attacking the United States. That is 24 additional silo-based ICBMs; has upgraded its silo-based missiles and has continued development of three mobile ICBM systems and associated mobile, thermonuclear warheads, something they never had.

Even though the United States discovered in 1995, in 1995, that is almost four years ago, that the People's Republic of China had stolen design information on the W-88 Trident D-5 warhead and technical information on a number of U.S. thermonuclear warheads, the White House has informed in response to specific interrogatories propounded by the committee that the President was not briefed about the counterintelligence failures until 1998.

Madam Speaker, this is just a disgrace, and unless something happens, we should not be here today discussing anything else until our national security is protected.

WHY I BECAME A REPUBLICAN

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Florida (Mrs. Fowler) is recognized for 5 minutes.

Mrs. Fowler, Madam Speaker, I became a Republican because of the party's long-held principles. The Republican Party was founded on two fundamental issues: free land and abolishing slavery. Since that day, the party embraced the role of leader and never shied away from taking the challenge of taking an unpopular and difficult stance. From striving successfully to abolishing slavery to being the vanguard in the struggle for women's right to vote, the Republican Party has constantly forced all Americans to re-evaluate the role of individuals and the role of the government.

The Republican party has always believed in individuals. We have an abiding faith in the idea that individuals and local communities can accomplish more than a distant Federal Government, a government that tends to become large, bloated, and wasteful, as ours has.

As the great Republican statesman, Abraham Lincoln, said, "The legitimate object of government is to do for a community of people whatever they need to have done but cannot do at all, or cannot so well do, for themselves in their separate and individual capacities. In all that people can individually do as well for themselves, government ought not to interfere."

There is a role for the government. Imagine an individual trying to build a freeway alone. But it is a role that should be limited.

Republicans believe the most effective government is closest to the people. After all, who knows more about educating our children, us and our child's teacher, or a distant bureaucracy across the country in Washington, D.C.?

I chose the Republican party because I believe that each American citizen can best determine his or her needs and interests, and he or she is therefore better able to function in these free, democratic societies. Further, I believe that they know best and that they will make the best decision for themselves, and they will make the wisest choices. Whether it is how to spend their hard-earned money or how to spend their time, they should be in charge.

The Republican party's economic policies of lower taxes and less government have reduced interest rates and sent the stock market soaring, yet inflation has remained stable. Thanks to these smart policies, every one of us is enjoying the largest sustained peace-time expansion ever.

Our commonsense agenda and leadership has produced a healthy and strong economy. Job opportunities have increased significantly, unemployment is down, the budget is balanced, and because of our welfare reform, tens of thousands have moved from the welfare rolls to the payrolls.

I have to say, while I firmly believe that all issues are women's issues, and I resist the popular tendency to view women as a monolithic group in politics or anything else, I still must emphasize the Republican party's accomplishments with regard to women in politics.

I want to take Members back to 1896, when it was the Republican party who became the first major party to officially favor Women's Suffrage. That year Senator A.A. Sargent, a Republican from California, introduced a proposal in the Senate to give women the right to vote. It was defeated four times by a Democratic Senate, and it was not until the Republicans would gain control of Congress that it was finally passed in May of 1919.

The first woman to serve in Congress was a Republican, Jeannette Rankin of Montana.

In 1940, the Republican party became the first major political party to endorse an Equal Rights Amendment for women in its platform.

In 1953, Republican President Eisenhower appointed the first woman Secretary of the Department of Health, Education, and Welfare, and the first woman ambassador to a major power.

In 1964, Republicans were the first major American party to nominate a woman for president, Senator Margaret Chase Smith of Maine.

In 1981, Republican President Reagan appointed the first woman Supreme Court Justice and the first woman U.S. representative to the United Nations.

In 1983, Republican President Reagan had three women serving concurrently in his cabinet, the first time in the history of this country.

Currently, Republican women chair a record seven House subcommittees and three Senate subcommittees. I serve as a deputy majority whip, along with two other women, and as a newly elected Vice Chairman of the Republican conference, I am now the highest ranking woman in the House elected leadership. The gentlewoman from Ohio (Ms. Debrah Pryce) serves as Conference Secretary.

In the 106th Congress, Democrats have no woman in their elected leadership.

We are working hard to ensure that each American has a safe, secure, and positive future.

ASTHMA AWARENESS MONTH

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Maryland (Mrs. Morella) is recognized for 5 minutes.

Mrs. Morella. Madam Speaker, I am a Republican woman Member of the
House, and I want to associate myself with the comments made by my colleague the Gentlewoman from Florida (Mrs. FOLEY).

But tonight I want to address this body with regard to something that is nonpartisan that requires bipartisan support, and that is asthma awareness.

This is Asthma Awareness Month, and I want to focus attention on the asthma epidemic in our country today. This is an epidemic that cannot be cured, but through better education and awareness, it can be a manageable part of one’s life.

More than 14 million people in the United States have asthma, and of these, almost 5 million are children. One in every three children with asthma had to go to an emergency room because of an asthma attack in the past year.

Asthma is a problem among all races, but the asthma death rate and hospitalization rate for African Americans are three times the rate of white Americans. Asthma is a serious lung disease. Forty-one percent of all asthma patients, an estimated 6 million Americans, were hospitalized, treated in emergency rooms, or required other urgent care for asthma in the last year.

Asthma is a problem among all ages, but the asthma death rate and hospitalization rate for children are two times the rate of adults. Asthma limits 25 percent of all Americans, especially our children, to basic knowledge and understanding of how to diagnose and how to control asthma before it becomes a life-threatening condition. We should do no less.

A CRISIS IN AGRICULTURE, AND THE NEED FOR BUDGET REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Dakota (Mr. THUNE) is recognized for 5 minutes.

Mr. THUNE, Madam Speaker, agriculture is in incredible crisis. Earlier today we voted on a number of amendments to the appropriations bill, and the bill funds programs that are very important to my constituency, programs that provide credit dollars for conservation, income support for our farmers and ranchers.

For that reason, I have been very frustrated as I have watched this process and the tactics that have been employed here on the floor to try and slow this process down. It is a bill that is important to me, it is important to those I serve, and so I would hope that we can move this bill forward in a timely way.

Even though the spending does not take effect until October 1, the next fiscal year, it is important to me, it is important to those I serve, and so I would hope that we can move this bill forward in a timely way.

Even though the spending does not take effect until October 1, the next fiscal year, it is important to me, it is important to those I serve, and so I would hope that we can move this bill forward in a timely way.

The American people need to be engaged because it is their money we are talking about. We go about it with the process that we have in place today, and frankly could make the argument that if we had the political courage to make the hard decisions we could get it down, and we could.

But the fact of the matter is that the process lends itself to the very worst instincts I think of all of us here in Washington. There is a bias towards higher spending.

There is a proposal on the table this year to reform the budget process. The gentleman from Iowa (Mr. NUSSELE), this is a bipartisan bill, and the gentleman from Maryland (Mr. CARDIN) have come up with a proposal to reform the budget process. Last year I was a cosponsor of the bill of the gentleman from California (Mr. CHRIS COX) that will hit most of us had not even seen, let alone read, done in the middle of the night with a handful of people, and we are asked to vote on it.

This is a process which begs and cries out for reform. We are the guardians of the public trust in Washington. This is a national tragedy. The American people ought to get engaged on this issue, because there is nothing that we could do that would more fundamentally change the way Washington operates and the way the taxpayer dollars are spent than for us to reform the budget process.

The American people need to be engaged, because it is their money we are talking about. We go about it with the process that we have in place today, and frankly could make the argument that if we had the political courage to make the hard decisions we could get it down, and we could.

do not end up at the end of the year with all this pressure and with nowhere to go but to get into a bidding war, whereby we continue to spend more and more and more of the American people’s money.

We need budget reform in this town more than just about anything else that I can think of. Watching the debate today reaffirmed in my mind how important it is that we deal with this issue now, we do it this year.

I urge all my colleagues to get on board and the American people to get on board with this issue.

CALLING ON LEADERSHIP TO BRING UP HMO REFORM LEGISLATION

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 6, 1999, the gentleman from New Jersey (Mr. PALLONE) is recognized for 60 minutes as the designee of the minority leader.

Mr. PALLONE. Madam Speaker, it is very important that we keep up the pressure in this House to pass HMO reform.

Despite the overwhelming support among the American people for HMO or managed care reform, the Republican leadership continues to let the issue languish. We still have no indication when or even if they will allow the Patients’ Bill of Rights to come to the House floor for a vote.

I urge all my colleagues to get on board and the American people to get on board with this issue.

The reason for this activity is the same as it was last year. The Republican leadership cannot figure out how they can pass a good managed care bill without alienating the insurance agency.

So instead of doing what is right and best for the American people, they are once again appeasing the insurance industry and hoping an answer to this problem will magically fall from out of the sky.

Unfortunately, Madam Speaker, as the leadership sits and waits and does nothing, the shortcomings of the system continue to forever change the lives of countless Americans. We need only to turn on the TV or open the newspaper to see this.

I would like to use one example here tonight, and that is the issue of emergency room care. Earlier this month, USA Today ran an editorial on this issue. It was called “Early Last Year” starts the editorial.

It mentions that a Seattle woman began suffering chest pains and numbness while driving. The pain was so severe that she pulled into a fire station seeking help only to be whisked to the nearest hospital where she was promptly admitted.

To most, that would seem a prudent course of action, but not to her health plan. It denied payment because she did not call the plan first to get preauthorized, according to an investigation by the Washington State Insurance Commissioner.

I mentioned this editorial, Madam Speaker, as an example of the problems people have with their HMOs in terms of access and paying to for emergency room care.

Let me just go on to talk about this editorial again. The editorial says that this incident is typical of the enumerable bureaucratic hassles patients confront as HMOs and other managed care companies attempt to control costs.

But denial of payment for emergency care presents a particularly dangerous double-whammy. Patients facing emergencies might feel they have to choose between putting their health at risk and paying a huge bill they may not be able to afford.

The editorial in USA Today goes on to suggest a solution to the problem, noting that a national prudent layperson standard law covering all health plans would help fill in the gaps left by the current patchwork of State and Federal laws.

Democrats have been basically making this point about managed care for a long time. We know that people have problems with their HMOs if they need to use an emergency room either because they are told to go to a hospital emergency room a lot further away from where they live or where the accident occurred, or, as in this case that I just mentioned, the actual payment afterwards is denied because they did not seek preauthorization, which seems nonsensical certainly in the context of emergency room care.

One only goes to an emergency room if it is an emergency, if one has to get preauthorization for it. It really is not an emergency. That is the dilemma that more and more Americans face, that their HMO plan does not cover emergency room care.

The Democrats, in response to this, have introduced a bill called the Patients’ Bill of Rights. Basically what we do in the Patients’ Bill of Rights is say that the prudent layperson’s standard applies.

In other words, if the average person, the average, prudent person, if you will, suspects chest pains or they have a problem that necessitated going to the local emergency room, then they can go to the emergency room that is closest by, and the HMO has to pay, has to compensate for that care, has to pay for that emergency room care.

In the last Congress, the Democratic Task Force on Health Care, which basically put together the Patients’ Bill of Rights, had problems with their HMOs if they needed to use an emergency room either because they were told to go to a hospital emergency room a lot further away from where they live or where the accident occurred, or, as in this case that I just mentioned, the actual payment afterwards is denied because they did not seek preauthorization, which seems nonsensical certainly in the context of emergency room care.

One only goes to an emergency room if it is an emergency, if one has to get preauthorization for it. It really is not an emergency. That is the dilemma that more and more Americans face, that their HMO plan does not cover emergency room care.

The Democrats, in response to this, have introduced a bill called the Patients’ Bill of Rights. Basically what we do in the Patients’ Bill of Rights is say that the prudent layperson’s standard applies.

In other words, if the average person, the average, prudent person, if you will, suspects chest pains or they have a problem that necessitated going to the local emergency room, then they can go to the emergency room that is closest by, and the HMO has to pay, has to compensate for that care, has to pay for that emergency room care.

In the last Congress, we, the Democrats, tried to bring up the Patients’ Bill of Rights. The Patients’ Bill of Rights provides a number of patient protections for emergency care, including emergency room care, but access to specialists.

It basically applies the principle that says, if particular care is necessary, medically necessary, and in the opinion
when we had this hearing. We invited a Dr. Charlotte Yeh, who is a practicing emergency physician at the New England Medical Center in Boston. She told us our task force about a boy whose leg was seriously injured in an auto accident. At a nearby hospital in Boston, emergency room doctors told the parents he needed vascular surgery to save his leg and that a surgeon was ready at that hospital to perform the operation.

Unfortunately for this young man, his insurer insisted he be transferred to an in-network hospital for the surgery. His parents were told, if they allowed the independent doctor done anywhere else, they would be responsible to the bill. They agreed to the move. Surgery was performed 3 hours after the accident. By then, it was too late to save the boy’s leg.

Dr. Yeh went on to express her very strong support to making the prudent layperson’s standard the national standard for emergency room care. As I said before, basically the prudent layperson’s standard says, if one does go to the emergency room to seek treatment under conditions that would prompt any reasonable person to go there, one’s HMO would pay for it.

But in addition to the prudent layperson’s standard, Dr. Yeh also emphasized the need to eliminate restrictive prior authorization requirements and the establishment of post-stabilization services between emergency physicians and managed care plans.

The Patients’ Bill of Rights includes all of these provisions, and provides that if one could for a minute, Madam Speaker, just run through some of the protections that are included in the Patients’ Bill of Rights, it guarantees access to needed health care specialists, very important. It provides, as I said, access to emergency room services when and where the need arise. It provides continuity of care protections to assure patient care if a patient’s health care provider is dropped.

It gives access to a timely internal and independent external appeals process. Let me mention that for a minute. If one is denied care right now because one’s HMO decides that they will not pay for it, one of the things that my constituents complain to me about is that they have no way to appeal that decision other than internally within the HMO.

So if the HMO decides, for example, that a particular type of treatment is not medically necessary or that one does not need care in the hospital for a couple more days, even though one’s doctor thinks that one should be staying there, or a number of other things that they consider not medically necessary, well, most of the times, under current law, there is no appeal other than to the HMO itself; and they of course, they are the HMOs before us, I shall be addressing the issue to them, is largely a cost issue.

What we are saying in the Patients’ Bill of Rights is that that person should be able to go to an external appeal, someone outside the HMO, or a panel outside the HMO that would review the case and decide whether or not that care should be provided and paid for by the HMO.

In addition, what we say is that, if one has been damaged for some reason, God forbid, that one needed some kind of procedure or one needed to stay in the hospital a few more days and the HMO refused to allow that and, as a result, one suffered injury and damage, there should be due process in a court of law and recover for those damages.

Most people do not realize that option does not exist today for a lot of people who are in HMO plans because the Federal Government has said that in the case of people covered by a Federal plan or where the Federal Government has usurped or preempted the State law for those who are mostly self-insured by their employer, that there is no recourse to seek damages in a court of law.

That is not right. It is not right. Someone should be able to sue for damages and sue the HMO if they have been denied care and if they have been hurt or damaged as a result of that.

Just to mention a couple more things, we also have in the Patients’ Bill of Rights, we assure that doctors and patients can openly discuss treatment options, because, oftentimes, HMOs tell the doctors they cannot tell patients about treatment options that are not covered, the so-called gag rule.

We assure that women have direct access to an OB/GYN. As I said, we provide an enforcement mechanism that ensures recourse for patients who have been maimed or die as a result of health plan actions.

There are a lot more things that we can go into, and we will tonight; but I yield to the gentlewoman from Texas (Ms. JACKSON–LEE), who has been outspoken on this issue and has often times talked about how in her own State of Texas a lot of these protections exist. They exist in Texas. They should exist nationally.

Ms. JACKSON–LEE of Texas, Mr. Speaker, I thank the gentleman from New Jersey (Mr. PALLONE) for his persistent leadership on the issue.

He is very right. Some two sessions ago, the legislative team or the legislative body and houses of the State of Texas took up the bipartisan Patients’ Bill of Rights and one that has been effective in assisting the individuals of my State in better health care. We can always do better, however.

I think to follow up on the gentleman’s line of reasoning about the discharge petition, I think it is important to note that just as the discharge petition is something that most Members would rather not have to procedurally utilize, it is really a cry of anguish and frustration as well as an emphasis on the national, if you will, priority that this issue has.

We have done it with campaign finance reform, which the American people over and over again have indicated that it is high time to get special interests out of politics. We are now doing it and have done it in the past with the Patients’ Bill of Rights because we have seen the response by the American people.

In fact, I just recently saw, about 2 weeks ago, a poll done that indicated the high level of frustration with the American people, just an enormous amount of frustration, not with the physicians who have already said get the business or the insurance companies out of my health care, but, if I have it correct in their phraseology, let me be a physician, a nurturer.

But the American people have now spoken. So this discharge petition is a response to the fact that we have a crisis. We have a road of no return. We have no light at the end of the tunnel.

The American people are over and over speaking about the need to be able to make personal decisions about their health care with their physicians. We already understand the value of efficiency. We already under the value of making sure that we do not wastefully spend monies that are not necessary, unnecessary procedures, or unnecessarily equipment, if you will. I can think of a box of tissues that showed up on a bill more than 10 times or so. We have already gone through that.

I think the American people, the Congress has addressed the question of waste. So waste is not. The issue is what kind of care are we giving our patients and those who work every day and deserve health care.

I think that there is something so pivotal to the relationship and the confidence that people would have in their HMOs and their health care; and that is to be able to go somewhere and say, “Doctor, I have a pain”, to the emergency room. “I have a severe pain”, and being considered legitimate in one’s expression.

The Democrats’ Patients’ Bill of Rights allows for severe pain to be established as a legitimate reason to be able to go to the emergency room.

Why is this so very important? My colleague already evidenced where there was a situation where there was so much emphasis on procedural utilization. The issue where a young man’s leg could have been saved if they only had not shipped him from one place to the other 3 hours later.
What about a situation where it is not visible that there is something very tragic happening? My example is that I offered to my colleagues is not the same. But a very outstanding member of our committee, someone who did not think that they were sick and went with their spouse to the emergency room when they were experiencing pain, and they had to sit down.

Now, this is not directly. But it shows what happens when we have delayed circumstances with hospitals because they are checking on their HMO rather than the ability to go to the nearest emergency room because of an expressed pain. And of course, they had to take time checking whether they were at the right place.

And behold, that individual had a massive cardiac arrest and did not survive. The tragedy of the family having to be delayed with paperwork, “where is your identification? do you belong here?” realizing that they had some coverage but they had to detail whether they were at the right location.

The Patients’ Bill of Rights that we, as Democrats, are offering deals with these kinds of delays because it provides them the opportunity to be at almost any emergency room if they have a severe pain and they can be covered.

I listened as there were discussions on the floor of the House earlier about the values between the Democrats and the Republicans, particularly the Republican Party. I want to remind the gentleman from New Jersey (Mr. PALLONE) that we are always to be counted upon. I believe, when there are crises around survival.

I am reminded of Franklin Delano Roosevelt and Social Security. Social Security now is the infrastructure, is the backbone of survival for our senior citizens. I am very proud that a Democratic president saw that it was crucial to deal with this issue. And it has survived.

Lyndon Baines Johnson saw the great need in providing senior citizens with a basic kind of coverage so that they would have the ability to have good health care, Medicare. And although we are in the midst of trying to fix and extend Social Security and Medicare, those two entities have withstood the test of time.

Unfortunately, the Republican bill dealing with the Patients’ Bill of Rights does not allow people with chronic health conditions to obtain standing referrals. Our Patients’ Bill of Rights does. The Republican bill purports to prohibit gag clauses but in reality does not do such things, and that is that they cannot have the ability of doctors talking to their patients about their health care and, therefore, keeping information away from both the patients and another doctor about what is transpiring with their condition.

The Republican bill does not require plans to collect data on quality. Our Patients’ Bill of Rights does. And the Republican bill does not establish an ombudsman program to help consumers navigate their way through the confusing array of health options available to them.

The other thing that is so very important to many women who I have met in my district is that it does not, whereas ours does, the Republican bill does not allow women to choose their OB-GYN as their primary care provider. That is key in the private relationship between physician and patients.

Let me say, as well, in closing to my friend from New Jersey, I would like to again thank him for consistent and persistent leadership dealing with getting this bill passed. It is important to let the American people know that we do not bypass procedures.

I remember 2 or 3 or 4 years ago having hearings out on the lawn about Medicare. We were so serious about the issue that we could not get hearings here in the Congress, that we as Democrats would be out on the front lawn. We may be relegated to this.

I know there have been a number of hearings dealing with this particular issue. But we have been bogged down by the allegations that we have lifted up this right to sue and medical necessity and that these are issues that are maybe holding us back. And I think people should understand that this is not an issue of attack, this right to sue. This is not to encourage frivolous litigation.

But even the physicians who two-to-one have supported and are supporting the Democratic Patients’ Bill of Rights have said, “We need, sometimes we are blocked from giving good health care or providing a specialist because someone far away with a computer is saying ‘you cannot do it’.”

Why should they be vulnerable and the actual decision was made by an HMO, an insurance company, or someone looking at the bottom line and not looking at good health care?

I think America deserves better. And I would just simply say that all the people who have suffered, the loved ones, because of countless deaths, my fear of an injury being in the United States Congress, why should I be in fear? Because it still happens to any one of us that would be confronted with the choices of an emergency room that would say they are not eligible to come in here. This is a fear that happens more to our constituents that have no other options.

I think it is the time that we take the time out as we are moving to discuss passing gun safety laws that should be passed this week. I voted against adjourning because we have so many things to be doing. It is important that we get the Patients’ Bill of Rights here to the floor of the House and the Senate and let the Republicans debate it we have got all the talent, but we do not have the procedures to allow them to have it. I hope our colleagues will sign the discharge petition. It is not something we do lightly. But we have a problem here. American people are losing faith, and I think now is the time for us to respond to that.

Mr. PALLONE. Madam Speaker, I want to thank the gentlewoman and particularly emphasize again what she said about the extraordinary nature of the procedure of the discharge petition. And it is unfortunate.

As my colleague mentioned, there are major differences between the Democrats’ Patients’ Bill of Rights and the Republican leadership bill, which we know is really defective in terms of providing patients’ protections compared to what the Democrats have put forward.

The bottom line is that the Republican leadership refuses to bring any bill up. So it is not even a question, as my colleague pointed out, whether this is a good bill or bad bill. They just refused to bring the issue up and let us have a debate on the floor of the House of Representatives.

We had the same problem last year. We had to use this discharge petition. As my colleague knows, back a month ago, I guess in April around the time of Easter and Passover, we actually had the President going to Philadelphia with a number of us and start this whole national petition drive on the Internet to show how many people supported bringing up the Patients’ Bill of Rights.

Since that time, a number of us on the Committee on Commerce, and I see my colleague the gentleman from Texas (Mr. GREEN) is here, also on the Committee on Commerce, have pleaded and sent letters to the Republican leadership and our committee asking that they have hearings and mark up this legislation or any legislation related to HMOs, managed care reform.

So far, we have been told we will have no hearings sometime this summer. Well, that is a long time. That brings us into the fall. And if there is no action on this because we are having hearings all summer, that is not going to solve the problem. So we have no recourse, essentially, other than to go to the petition route. That is what we are doing. It and it is extraordinary.

Ms. JACKSON-LEE of Texas. Mr. Speaker, if the gentleman would yield,
I am glad he reminds me. While he was in Philadelphia, as he well knows, we agreed, if you will, to not go just upon our opinion and a lot of us were in our districts.

So I do want to share with my colleagues that I was at the Purview A&M School of Nursing; and two-to-one, the nursing staff professional staff, students, joined in signing on-line for the Patients’ Bill of Rights. I understand that all over the country people joined voluntarily to say that we needed to pass this.

I think that was a very important point that my colleague made. So we are not just here speaking on our personal behalf or we are not trying to get a discharge petition because we are over anxious for personal legislation to pass.

But I tell my colleagues, everywhere I go in my district, and I have talked to my colleagues, people are talking about getting some fair treatment with HMOs and needing our assistance, and I think that is important to bring to the floor’s attention.

Mr. PALLONE. Mr. Speaker, I yield to the gentlewoman from North Carolina (Mrs. CLAYTON), who is one of the co-chairs of our Health Care Task Force.

Mrs. CLAYTON. Mr. Speaker, I thank the gentleman for yielding. I want to thank him also for the leadership. And I like the word that the gentlewoman from Texas (Ms. JACKSON-LEE) used, his “persistent leadership,” his dogged persistent leadership, his patient leadership. It takes all of that to get an issue of this magnitude in the consciousness of us. So I want to thank him for that.

Madam Speaker, when a child suffers with a disease that can be cured, should that decision on whether to provide the needed treatment be made by a doctor or the child’s parents or by a bureaucrat who is counting dollars and dimes?

When a wife and mother undergo surgery for a mastectomy and the anesthesia has yet to wear off, should she be forced to leave the hospital that very day because of a rigid routine that puts saving money and sparing pain and suffering?

When a husband and father forced to go to the emergency room is unable to get approval from his insurance provider, the very provider he pays for insurance, should he be required to pay the medical bill himself?

When a grandmother is stricken with a life-threatening stroke, should those transporting him to the hospital emergency care be forced to pass one hospital to go to another far away because narrow thinking people are more interested in crunching numbers and saving lives?

These are not rhetorical questions. They are not even hypothetical situations. These are real-life examples of what can happen to anyone, in fact what is happening all too often across this country under the current Federal law.

So that is the reason we need the Patients’ Bill of Rights. The Patients’ Bill of Rights effectively provides basic and fundamental rights to patients. The Patients’ Bill of Rights provides real choices because patients are entitled to choose their health care provider and treatment decisions are made by the patient’s doctor and not the insurance company bureaucrat.

The Patients’ Bill of Rights that we are talking about provides real access. Managed care plans are required to ensure timely and necessary care. Patients would also have the right to go to the emergency room when they need to without prior authorization.

The Patients’ Bill of Rights actually provides open communication between their doctor and the patient. Physicians are free to discuss any and all aspects of their care with the patient. That is what we are trying to guarantee in the Patients’ Bill of Rights. That is why we need health care now and we need health care protected by the Patients’ Bill of Rights. This is not an isolated issue. This is a national challenge. However, our national challenge does not stop here. We have an even deeper-rooted problem. Approximately 45 million Americans are uninsured. The numbers of Americans without health insurance has grown by nearly 10 million over the past decade.

A smaller share of Americans have health insurance today through their jobs than 10 years ago. And even more would be uninsured if it were not for the extension of eligibility under the Medicaid program.

In 1997, about one-third of nonelderly adults were uninsured at times in a two-year period. Of these, over 40 percent were uninsured over 2 years.

Why are these persons without insurance? Because, simply, it is too expensive or their employers do not provide it. And even though the Medicaid expansion in the 1980s and the 1990s lowered the number of uninsured children, why does it remain almost one out of ten Americans are uninsured? Because job-based insurance coverage is decreasing and our country’s working families is increasing. And, therefore, we have a real serious problem.

We heard reference to the April event when we were announcing our intentions about the Patients’ Bill of Rights. I sponsored an April event in the First Congressional District at my community college where I engaged nurses. In fact, I had a town hall meeting through the information highway where we were in four locations.

In addition to that, we went out into the community and got people to sign up. All too often what I found, many of these individuals were not indeed included by anyone. Therefore, the Patients’ Bill of Rights petition that they signed, they wanted for themselves, they were not eligible. Too many of my constituents do not even have the opportunity of being insured. However, if they were insured, they need the protection that the Democratic Patients’ Bill of Rights would provide for them.

Therefore, Madam Speaker, we must focus on two issues in health care reform. First, to reform the Patients’ Bill of Rights, and, second, we must protect the right of uninsured persons to get health insurance. Again, I want to say that when we are asked to find opportunities for the Patients’ Bill of Rights to ensure that of us who are fortunate enough to have insurance, we cannot forget the millions of individuals and families who are not insured at all.

I thank the gentleman for providing the leadership on the Patients’ Bill of Rights and just say that we are approaching tomorrow one phase of our national crisis but not the total phase of it. I am pleased that we will indeed do that. I agree with my colleague who said that the discharge procedure indeed is a radical method that we have to undertake simply because we are denied an opportunity to discuss it in the formal legislative processes that are available to us. We are using this process because that is the only way we can get it as a full debate. I think on tomorrow the American people will understand the difference between our commitment to health care and certain our commitment to have a Patients’ Bill of Rights that protects those who are not insured.

But I want to say, I am further committed, our goal is even greater than just protecting those who have insurance. Our goal must be to provide health coverage for all those who need health coverage.

Mr. PALLONE. I want to thank the gentlewoman. I think it is very important as she did to point out that as much as we support the Patients’ Bill of Rights and we want to bring it up, that we also need to address the problems of the uninsured and the fact that the numbers are growing. Of course part of our Democratic platform that has been pushed, also, by President Clinton is to address some of the problems of the uninsured.

Of course, a few years ago, our health care task force worked on the Kennedy-Kassebaum bill which allows people to take their insurance with them if they lose their job or they go from one job to another, and then we moved on the kids health care initiative which is now insuring a lot of the children who were uninsured, and, of course, the President and the Democrats had the proposal for the near elderly where people who are between 55
and 65, depending on the circumstances, can buy into Medicare.

But the gentlewoman is right. We are trying to address the larger issue of the uninsured also needs attention.

Mrs. CLAYTON. I would just say that the gentleman is absolutely correct. We try to address this large, pressing issue, I guess, about 6 years ago. At that time we had 40 million who were uninsured, where it is reported now we may have 45 to 46 million who are uninsured. As we try to address this issue, the pool is getting larger and a larger number of individuals are falling through the cracks.

Now, I am very pleased the effort we indeed did make and were successful as it related to children. I am also very pleased that we were able to have portability, and remove existing conditions as a means of eligibility for coverage. All of those enabled us to expand the coverage in a meaningful way. But I would be remiss if I ignore the suffering, and we are talking about the working poor, who are just not able to buy into insurance and they need it desperately.

I just want to commend the gentleman for what he is doing on the Patients’ Bill of Rights. I think it will be a great first step tomorrow and we will push to make sure that this is successful, but we also have a higher goal, to make sure that those who are unfortunate enough to have no insurance whatsoever, indeed we are speaking for the poorest of the poor as well as for those who are fortunate enough to have insurance.

Mr. PALLONE. I agree and I appreciate the gentlewoman bringing it up. We can also continue to address and find ways of providing coverage as part of our health care task force which the gentlewoman cochaired.

I yield to the gentleman from Texas (Mr. GHEEN). He is the second Texan we have had tonight. I think part of the reason is because he has had a very successful type of patients’ bill of rights passed in Texas that applies statewide.

One of the things we have been pointing out tonight is that even States like Texas that have gone very far in providing these kind of patient protections that we would like to see done nationally, because of the Federal preemption that exists for those where the employer is self-insured, the Texas law in many cases does not apply. That is why we need Federal legislation.

Mr. GHEEN of Texas. I would like to thank my colleague again for this special order like my other friends, and neighbors even, because to talk about managed care reform is so important, and also in light of the filing of the rule for a discharge petition, which is a major step in the legislative process.

I am proud to serve on the Committee on Commerce. It took me a couple of terms to get there. I would like for the Committee on Commerce, both Democrats and Republicans, to able to deal with that bill. The last session we were not. The bill was actually drafted by a health care task force of the Republican majority and written in the Speaker’s office. It was placed here on the floor that we could not amend except we had one shot at it. We came pretty close, lost by six votes, it went to Senate and died which it should have because it actually was a step backward in reform. I am glad you mentioned Texas, New Jersey and other States have passed managed care reform that affect the policies that are issued under State regulation. But in Texas, I think the percentage is about 60 percent of the insurance policies are interstate and it is national in scope, so they come under ERISA.

A little history. ERISA, I understand, was never intended to cover health insurance, it was really a pension protection effort. But be that as it may, that is why we have to deal with it in Congress to learn from what our States have done and to say, “Okay, let see what we can do to help the States in doing it.” The State of Texas now has had the law for 2 years. I know there is some concern about the additional cost, for example, that these protections would provide, emergency, without having to drive by an emergency room, to go to the closest emergency room, outside appeals process, accountability and eliminate the gag rules. In Texas it is very cheap. In fact there was only one lawsuit filed, and that was actually by an insurance company challenging the law that was passed. Now, maybe there have been other ones recently, but it is not this avalanche of lawsuits, suing, whether it was the gentlewoman even at that same discussion, the State of Texas, very diverse population, both ethnically and racially but also with a State, very diverse population, both ethnically and racially but also with a State, very diverse population, both ethnically and racially but also with a State, very diverse population, both ethnically and racially but also with a
different kind of managed care that has been successful type of patients’ bill of rights passed in Texas that applies statewide.

In fact, my district in Houston, Houston and Harris County, is the fourth largest city in the country. So you can tell that it is a very urban area and it is providing some relief, but again only for about 40 percent of our folks. So we need to pass real managed care reform. And we need to deal with it in the committee process, not like we did last session. And the discharge petition that I hope would be available by the middle of June, and both Democrats and Republicans hopefully will sign that petition to have us a hearing on it and to have the bill here so we can debate, so we can benefit those folks.

The read of the bill tonight, I take advantage of the hour difference in Texas and try to return phone calls. A young lady called my office and was having trouble with her HMO. She was asking us to intervene. We have done that. We have sent letters to lots of individual HMOs. Frankly they are taking the other Members of Congress oftentimes, but we each represent approximately 600,000 people, and how many of those folks call their Member of Congress to have that intervention? We need to structure it where people can do it. This outside the process, timely appeals, not something that will stretch out, because again health care delayed is health care denied.

If, for example, you have cancer, then you want the quickest decision by the health care provider that you can. That is why it is important. I am looking forward to being able to work on the bill, whether it be through our committee or on the floor of the House and send to the Senate real managed care reform. I am working on managed care, and I do not think I want to. What I want to do is give the managed care companies some guidelines to live by, just like all of us have in our businesses, or in our offices and individual lives. We just need to give them some parameters and say, “This is the street you have to drive on. You can’t deviate. You can’t deny someone access to some of the cutting-edge technology that’s being developed around the country for health care.” We just want to give them that guideline and go their merry way and make their money but also provide the health care.

Let me tell the gentleman a story. My wife and I are fortunate, our daughter just completed her first year of medical school. Last August, she had just started, and I had the opportunity to speak to the Harris County Medical Society and talk about a number of issues. During the question and answer session, the President of the Harris County Medical Society had a question, is, when I explained that I am a lawyer, and normally legislators and Democrats do not speak to medical societies in Texas. He congratulated me on my daughter who had been in medical school all of 2 weeks.

And so I joked, I said, “She’s not ready for brain surgery yet.” The President of the medical society said, “You know, your daughter after 2 weeks of medical school has more knowledge. We couldn’t call to get permission to treat my patients.” That is atrocious in this great country. That is, that it is affecting your and my constituents and all the people in our country. Sure, we want the most reasonable cost health care and I think we can get it. We are doing it in Texas, at least for the policies that come under State law. But we also want to make sure we have some criteria there so our constituents will be able to know the right to have.

Let me just touch lastly on accountability. At that same discussion, the physician said, they are accountable for what they do. That if they make a
mistake, they can go to the courthouse. And in Texas we have lots of different ways. You do not necessarily go to the courthouse. You can go to alternative means, instead of filing lawsuits, to have some type of resolution of the dispute. But accountability is so important, because if that physician calls someone who has less than a 2-week history in medical school, did that decision that that person makes, that doctor has to live with.

That doctor has to say, “Well, I can’t do that.” Or hopefully they would say that. But that accountability needs to go with the decision-making process. If that physician cannot say, “This is what I recommend for my patient who I see here, I’ve seen the tests, and I’m just calling you and you’re saying no, we can’t do that.”

We do not have cases in our office, and I think all Members of Congress do, where, for example, someone under managed care may have a prescription benefit but their doctor prescribed a certain prescription, but the HMO says, “No, that’s what we’re going to give you something else.” I supported as a State legislator generic drugs if they are the same component, but oftentimes we are seeing the managed care reform not agree to the latest prescription medication that has the most success rate that a lot of our National Institutes of Health dollars go into research, and they are prescribing something or saying, no, we will only pay for something that maybe is 5 or 10-year-old technology. Again, that is not what people pay for. They want the latest because again the most success rate. And it ought to be in the long run cheaper for insurance companies to be able to pay up front instead of having someone go into the hospital and have huge hospitalization costs. I think they do not provide the most successful prescription medication.

There are a lot of things in managed care reform, antagig rules, and I know some managed care companies are changing their processes and they are changing it because of the market system. That is great. I encourage them to do it. But city councils, State legislators and Members of Congress, we do not pass the laws for the people who do right. We do not pass the laws for the companies who treat their customers right. We have to pass the laws for the people who treat their customers wrong. That is why we have to pass this and put it in statute and say even though XYZ company may allow doctors to freely discuss with their patients potential medical services, or they may have an outside appeals process, a timely outside appeals process, but we still need to address those people who are not providing that care.

I can tell you just from the calls and the letters we get in our own office, without doing any scientific surveys, we get a lot of calls from people, partly because I talk about it a lot not only here but in the district. But people need some type of reform.

Mr. Speaker, I hope this Congress will do it timely. When the gentleman mentioned a while ago that he said our committee may conduct hearings all summer, that is great. I mean I would like to have hearings in our committee, but we got to go to mark up what we learn from our committee. We have to make the legislative process work within reason and so that the accountability needs to go with that. I think we will have a committee work. We will put our amendments up and see if they work, and maybe they are not good, and we can sit down with the Members of the other side.

But that is what this democracy and this legislative process about, and last session it was terminated, it was wrong, and we saw what happened. We delayed, and there was no bill passed. It did not even receive a hearing in the Senate because it actually was a step backward in changing State laws like in Texas.

So I would hope this session, maybe with the discharge rule being filed tomorrow, we will see that we are going down that road, but maybe we can actually see maybe hearings in June when we come back after celebrating Memorial Day, and with a short time we can, a lot of us have worked on this issue. So, sure, I would like to have some hearings, but maybe we could have a markup before the end of July or June or mid July, something like that, so we could set it on a time frame where we would vote maybe before the August recess on this floor of the House for a real managed care reform, and when we vote on the House floor, let us not just pass it and say, “Take it or leave it.” As my colleagues know, let us have the legislative process work within reason and so we can come up with different ideas on how it works and the success.

So again, I thank the gentleman for the time tonight and my colleagues here, and particularly glad we had the first hour.

Mr. PALLONE, I want to thank the gentleman from Texas (Mr. GREEN). He brought up a number of really good points, if I could just, as my colleague knows, comment on them a little bit. I mean first of all I think it is important to stress that with this discharge petition, we are not doing it out of spite or disrespect or anything like that. We just want this issue brought to the floor, and as my colleague said, as my colleagues know, having hearings all summer does not do the trick. So far we have not gotten any indication from the Republican leadership or the committee leadership that there is any date certain to mark up this bill in committee and to bring it to the floor, and that is why we need to go to the discharge petition way.

The other thing the gentleman said I think is so important is he talked about how the Texas law, which does apply to a significant number of people in Texas, even not everyone, that both the cost issue and the issue of the fear, I guess, of frivolous lawsuits has so far proven not to be the case. In other words, the, as my colleagues know, one of the criticisms of HMO reform or Patients’ Bill of Rights that the insurance companies raise unfairly is the fact that it is going to cost more, and in fact in Texas it has been found that the cost, there is practically no increased costs whatsoever. I think it was a couple of pennies or something that I read about.

And in terms of this fear that there are going to be so many lawsuits and everybody is going to be suing, actually there have been very few suits filed, and the reason that is because when we put in the law that people can sue the HMO, prevention starts to take place. They become a lot more careful about what they do, they take preventive measures, and the lawsuits do not become necessary because you do not have the damages that people sue for. So I think that is a very important point.

The other point the gentleman made that I think is really crucial is the suggestion that somehow because of the debate and because of the pressure that is coming from, as my colleagues know, the talk that is out there, that somehow many; some HMOs I should say; are starting to provide some of these patient protections, and the gentleman’s point is well taken, that even though some of them may be doing it, and there are not really that many that are, but even though some of them are doing it, that does not mean that somehow the HMO legislation passed as a matter of law for those, as my colleagues know, bad actors, if you will, who are not implementing these Patients’ Bill of Rights.

So there needs to be a floor. These are nothing more than commonsense proposals that are sort of a floor of protections. They are not really that outrageous, they are just, as my colleagues know, the commonsense kind of protections that we need.

So I think that our time is up, but I just wanted to thank the gentleman from Texas. We are going to continue to push. Tomorrow the gentleman from Michigan (Mr. DINGELL) is going to file the rule for this discharge petition, and we are going to get people to sign it so we can bring up the Patient Bill of Rights.

RECESS

The SPEAKER pro tempore (Mrs. Wilson). Pursuant to clause 12 of rule I, the Chair declares the House in recess subject to the call of the Chair.
Accordingly (at 9 o'clock and 35 minutes p.m.), the House stood in recess subject to the call of the Chair.

\[0033\]

**AFTER RECESS**

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. DREIER) at 12 o'clock and 33 minutes a.m.

**REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 1401, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000**

Mrs. MYRICK, from the Committee on Rules, submitted a privileged resolution (Rept. No. 106–169) on the resolution (H. Res. 195) providing for consideration of the bill (H.R. 1401) to authorize appropriations for fiscal years 2000 and 2001 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal years 2000 and 2001, and for other purposes, which was referred to the House Calendar and ordered to be printed.

**SENATE BILLS AND JOINT RESOLUTIONS APPROVED BY THE PRESIDENT SUBSEQUENT TO SINE DIE ADJOURNMENT**

The President, subsequent to sine die adjournment of the 2nd Session, 105th Congress, notified the Clerk of the House that on the following dates he had approved and signed bills and joint resolutions of the Senate of the following titles:

November 10, 1998:

S. 459. An act to amend the Native American Programs Act of 1974 to extend certain authorizations of law for other purposes.

S. 1364. An act to eliminate unnecessary and wasteful Federal reports.

S. 1718. An act to amend the Weir Farm National Historic Site Establishment Act of 1990 to authorize the acquisition of additional acreage for the historic site to permit the development of visitor and administrative facilities and to authorize the appropriation of additional amounts for the acquisition of real and personal property, and for other purposes.

S. 2241. An act to provide for the acquisition of certain land contiguous to the Bandelier National Monument in New Mexico and to authorize appropriations for the acquisition of additional amounts for the acquisition of such land, and for other purposes.

S. 1735. An act to amend the Food Stamp Act of 1977 to require food stamp State agencies to take certain actions to ensure that food stamp coupons are not issued for deceased individuals, to require the Secretary of Agriculture to conduct a study of options for the design, development, implementation, and operation of a national database to track participation in Federal means-tested public assistance programs, and for other purposes.

S. 2139. An act to eliminate restrictions on the acquisition of certain lands contiguous to the Hawaiian Volcanoes National Park.

S.J. Res. 35. Joint Resolution granting the consent of Congress to the Pacific Northwest Emergency Management Arrangement.

November 13, 1998:

S. 191. An act to throttle criminal use of guns.

S. 391. An act to provide for the disposition of certain funds appropriated to pay judgment in favor of the Mississippi Sioux Indians, and for other purposes.

S. 417. An act to extend certain programs under the Energy Policy and Conservation Act and the Energy Conservation and Production Act, and for other purposes.

S. 1825. An act to provide financial assistance for higher education to the dependents of Federal, State, and local public safety officers who are killed or permanently and totally disabled as a result of a line of duty injury sustained in the line of duty.

S. 1693. An act to provide for improved management and increased accountability for certain National Park Service programs, and for other purposes.

S. 1754. An act to amend the Public Health Service Act to consolidate and reauthorize health professions and minority and disadvantaged health education programs, and for other purposes.

S. 2352. An act to support programs of grants to States and local governments to address the assistive technology needs of individuals with disabilities, and for other purposes.

**BILLS AND JOINT RESOLUTIONS APPROVED BY THE PRESIDENT SUBSEQUENT TO SINE DIE ADJOURNMENT**

The President, subsequent to sine die adjournment of the 2nd Session, 105th Congress, notified the Clerk of the House that on the following dates he had approved and signed bills and joint resolutions of the following titles:

November 10, 1998:

H.R. 578. An act for the relief of Heraclio Tolley.

H.R. 1834. An act for the relief of Mercedes Del Carmen Guerro Martinez Cruz.

H.R. 1499. An act for the relief of Nuratu Olayewa Abeke Kadiiri.

H.R. 3633. An act to amend the Controlled Substances Import and Export Act to place limitations on controlled substances brought into the United States.

H.R. 3723. An act to authorize funds for the payment of salaries and expenses of the Patent and Trademark Office, and for other purposes.

H.R. 4501. An act to require the Secretary of Agriculture and the Secretary of the Interior to conduct a study to improve the access for persons with disabilities to outdoor recreational opportunities made available to the public.

H.R. 4231. An act to extend into fiscal year 1999 the visa processing period for diversification for aliens whose petitioning was suspended during fiscal year 1998 due to embassy bombings.

November 11, 1998:

H.R. 4110. An act to amend title 38, United States Code, to improve benefits and services provided to Persian Gulf War veterans, to provide a cost-of-living adjustment in rates of compensation paid to veterans with service-connected disabilities, to enhance programs providing health care, compensation, education, insurance, and other benefits for veterans, and for other purposes.

November 12, 1998:

H.R. 1023. An act to provide for compensation to individuals with blood-clotting disorders, such as hemophilia, who contracted human immunodeficiency virus due to contaminated transfusions.

H.R. 1256. An act to establish the Lower East Side Tenement National Historic Site, and for other purposes.

H.R. 1733. An act to amend the Food Stamp Act of 1977 to require food stamp State agencies to take certain actions to ensure that food stamp coupons are not issued for deceased individuals, to require the Secretary of Agriculture to conduct a study of options for the design, development, implementation, and operation of a national database to track participation in Federal means-tested public assistance programs, and for other purposes.

H.R. 1754. An act to amend the Public Health Service Act to consolidate and reauthorize health professions and minority and disadvantaged health education programs, and for other purposes.

H.R. 2070. An act to amend title 18, United States Code, to provide for the revocation of a visa for certain persons who are incarcerated of ordered detained before trial, for the presence of the human immunodeficiency virus, and for other purposes.

H.R. 2283. An act to authorize and request the President to award the Congressional Medal of Honor posthumously to Theodore Roosevelt for his gallant and heroic actions in the attack on San Juan Heights, Cuba, during the Spanish-American War.

H.R. 2267. An act to direct the Secretary of the Interior, acting through the Bureau of Reclamation, to conduct a feasibility study and construct a project to reclaim the Salton Sea, and for other purposes.

H.R. 4083. An act to make available to the Ukrainian Museum and Archives the USIA television program “Window on America”.

H.R. 4167. An act to amend title 28, United States Code, with respect to the enforcement of child custody and visitation orders.

November 15, 1998:

H.R. 633. An act to amend the Foreign Service Act of 1980 to provide that the annuities of certain special agents and security personnel of the Department of State be computed in the same way as applies generally with respect to Federal law enforcement officers, and for other purposes.

H.R. 2204. An act to authorize appropriations for fiscal years 1998 and 1999 for the Coast Guard, and for other purposes.
H.R. 3461. An act to approve a governing international fisheries agreement between the United States and the Republic of Poland, and for other purposes.

H.R. 4283. An act to support sustainable and biodiversity-friendly rural development in sub-Saharan Africa, and for other purposes.

LEAVE OF ABSENCE
By unanimous consent, leave of absence was granted to:

Mr. YOUNG of Alaska (at the request of Mr. ARMED) for today and the balance of the week on account of official business.

Mr. SCARBOROUGH (at the request of Mr. ARMED) after 6:30 p.m. today and Thursday, May 27, on account of family matters.

Mr. UNDERWOOD (at the request of Mr. GEPHARDT) for today and Thursday, May 27, on account of official business.

SPECIAL ORDERS GRANTED
By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. FOSSELLA) to revise and extend their remarks and include extraneous material:)

Mr. BECERRA of California, for 5 minutes, today.

Ms. MURKOWSKI of Alaska, for 5 minutes, today.

Mr. THUNE, for 5 minutes, today.

Mrs. MORELLA, for 5 minutes, today.

The following Members (at the request of Mr. McNULTY) to revise and extend their remarks and include extraneous material:

Ms. NORTON, for 5 minutes, today.

Mr. BROWN of Ohio, for 5 minutes, today.

Mr. RUSH, for 5 minutes, today.

Ms. MILLENDER-MCDONALD, for 5 minutes, today.

Mr. HOLT, for 5 minutes, today.

Mr. BECERRA, for 5 minutes, today.

Mr. PALLONE, for 60 minutes, today.

Mr. FILNER, for 60 minutes, today.

ADJOURNMENT
Mrs. MYRICK. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly, at 12:30 p.m. (the hour of adjournment), the House adjourned until today, Thursday, May 27, 1999, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

2333. A letter from the Director, Office of Regulatory Management and Information, Environmental Protection Agency, transmitting the Agency's final rule—Spinosad; Pesticide Tolerance [OPP–300865; FRL–6061–8]; (RIN: 2070–AR78) received May 18, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

2335. A letter from the Regulations Policy and Management Staff, Food and Drug Administration, Department of Health and Human Services, transmitting the Service's final rule—Secondary Direct Food Additives Permitted in Food for Human Consumption [Docket No. 98F–0342] received May 20, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

2336. A letter from the Regulations Policy and Management Staff, FDA, Department of Health and Human Services, transmitting the Department's final rule—Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers [Docket No. 91F–0399] received May 12, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Commerce.

2348. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting Copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112(b)(a); to the Committee on International Relations.

2349. A communication from the President of the United States, transmitting a report as part of his efforts to keep the Congress fully informed, consistent with the War Powers Resolution; (H. Doc. No. 106–72) to the Committee on International Relations and ordered to be printed.

2350. A letter from the Under Secretary for Export Administration, Department of Commerce, transmitting notification of certain foreign policy-based export controls which are being imposed on Serbia; to the Committee on International Relations.

2351. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting a report on “Economic and Political Transition in Indonesia”; to the Committee on International Relations.

2352. A letter from the Director, Administrative Office of the United States Courts,
transmitting the actuarial reports on the Judicial Retirement System, the Judicial Officers' Retirement Fund, the Judicial Survivors' Annuities System, and the Court of Federal Claims Judges' Retirement System for the fiscal years ending September 30, 1996, pursuant to 5 U.S.C. 803(a)(1)(B); to the Committee on Government Reform.

2375. A letter from the Attorney General, transmitting the Triennial Comprehensive Report on Immigration; to the Committee on the Judiciary.

2376. A letter from the Assistant Secretary (Civil Works), Department of the Army, transmitting a final response to a resolution adopted by the Committee on Public Works and Transportation on August 25, 1960; to the Committee on Transportation and Infrastructure.

2377. A letter from the Program Analyst, Office of the Chief Counsel, Department of Transportation, transmitting the Department's final rule—Standard Instrument Approach Procedures; Miscellaneous Amendments (Docket No. 25976; Amdt. No. 1936) received May 24, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2378. A letter from the Program Analyst, Office of the Chief Counsel, Department of Transportation, transmitting the Department's final rule—Standard Instrument Approach Procedures; Miscellaneous Amendments (Docket No. 25977; Amdt. No. 1931) received May 24, 1999, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2379. A letter from the Administrator, General Services Administration, transmitting an information copy of the alteration project for the A. Spears Judicial Training Center''; to the Committee on Transportation and Infrastructure.

2380. A letter from the Director, National Science Foundation, transmitting a report on Women, Minorities, and Persons with Disabilities in Science and Engineering; 1998, pursuant to 42 U.S.C. 1885(d); to the Committee on Science.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mrs. MYRICK: Committee on Rules, House Resolution 195. Resolution providing for consideration of the bill (H.R. 1401) to authorize appropriations for fiscal years 1999 and 2000 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal years 2000 to 2001, and for other purposes (Rept. 106-165). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. CRANE (for himself, Mr. DREIER, Mrs. JOHNSON of Connecticut, Mr. A. SPEARS, Mr. WINTER, Mr. McCAIN, and Mr. HAGGERTY): H.R. 42. A bill to encourage the establishment of free trade areas between the United States and certain Pacific Rim countries; to the Committee on Ways and Means.

By Mr. SHADEGG: H.R. 43. A bill to amend the Internal Revenue Code of 1986 to treat as unemployment compensation payments to Indian tribes pursuant to the Indian Tribal Government Consolidations Act, the same as State or local units of government or as nonprofit organizations; to the Committee on Ways and Means.

H.R. 44. A bill to approve a mutual settlement of the Water Rights of the Gila River Indian Community and the United States, and to provide for the payment of sums to the Gila River Indian Community and the United States; to the Committee on Resources.

H.R. 45. A bill to amend the Internal Revenue Code of 1986 to provide tax credits for Indian investment and employment, and for other purposes; to the Committee on Ways and Means.

H.R. 46. A bill to amend the Internal Revenue Code of 1986 to provide for the issuance of tax-exempt bonds by Indian tribes that governs the same as State or local units of government or as nonprofit organizations; to the Committee on Ways and Means.

By Mr. SHUSTER (for himself and Mr. OBRYAN, Mrs. JOHNSON of Connecticut, Mr. CROOK, and Mr. TOWNS): H.R. 47. A bill to provide for the development, operation, and maintenance of the Nation's harbors, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. RUSH (for himself, Mr. HILLARD, and Mr. TALLMAN): H.R. 48. A bill to amend the Communications Act of 1934 to prohibit the discrimination, in the purchase or placement of advertising for wire or cable communications, against minority owned or formatted communications entities, and for other purposes; to the Committee on Commerce.

By Mr. BONO (for himself, Mr. KILDRE, Mr. MARTINEZ, Mr. OWENS, Mr. PAYNE, Mrs. MINK of Hawaii, Mr. ANDREWS, Mr. ROEMER, Mr. SCOTT, Mr. WOOSLEY, Mr. ROMERO-BARCIELO, Mr. FATTALI, Mr. HINOJOSA, Mrs. MCCARTHY of New York, Mr. TERRY, Mr. KIND, Ms. SANCHEZ, Mr. FORD, Mr. KUCINICH, Mr. HOLT, and Mr. WU): H.R. 49. A bill to authorize and make improvements to that Act, and for other purposes; to the Committee on Education and the Workforce.

By Mr. BECERRA (for himself, Mr. BOEHLERT, and Mr. GILLHOLLAND, and Mr. TOWNS): H.R. 50. A bill to amend the Federal Agriculture Improvement and Reform Act of 1996 to improve the farmland protection program; to the Committee on Agriculture.

By Mr. BRADY of Pennsylvania, Mr. ROONEY, Mr. BRENNER, Mr. BOIE, and Mr. BRADY of Pennsylvania, Mr. SCHUMER, Mr. KANJORSKI, Mr. GOODLING, and Mr. LAGUARDIA): H.R. 51. A bill to suspend temporarily the duties on HIV/AIDS drugs; to the Committee on Ways and Means.

By Mrs. BONO (for herself and Mr. KILDRE, Mr. MARTINEZ, Mr. OWENS, Mr. PAYNE, Mrs. MINK of Hawaii, Mr. ANDREWS, Mr. ROEMER, Mr. SCOTT, Mr. WOOSLEY, Mr. ROMERO-BARCIELO, Mr. FATTALI, Mr. HINOJOSA, Mrs. MCCARTHY of New York, Mr. TERRY, Mr. KIND, Ms. SANCHEZ, Mr. FORD, Mr. KUCINICH, Mr. HOLT, and Mr. WU): H.R. 52. A bill to authorize leases for the Plan Year Ending September 30, 1996 to improve the farmland protection program; to the Committee on Agriculture.
Mr. KLINK, Mr. PITTS, Mr. DOYLE, Mr. CUMMINGS, Mr. DUMSTERS, Mr. COYNE, and Mr. TOOMEY:

H. R. 1961. A bill to designate certain lands in the Valley Forge National Historical Park as the Valley Forge National Cemetery; to the Committee on Veterans’ Affairs, and in addition to the Committee on Government Reform.

By Mr. HUNTER:

H. R. 1962. A bill to prohibit the export of high-performance computers to certain countries until certain applicable provisions of the National Defense Authorization Act for Fiscal Year 1999 are fulfilled; to the Committee on International Relations, and in addition to the Committee on Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. JOHNSON of Connecticut:

H. R. 1963. A bill to extend until December 31, 2002, the duty on triacetone; to the Committee on Ways and Means.

By Mr. LAZIO (for himself, Mrs. KIM, Mr. MCKECHNEE, Mr. HORN, and Mrs. WILSON):

H. R. 1964. A bill to empower our educators; to the Committee on Education and the Workforce.

By Mrs. LOWEY (for herself and Mr. BAULTON of Texas):

H. R. 1965. A bill to provide the Secretary of Health and Human Services and the Secretary of Education with increased authority with respect to asthma programs, and to provide for increased funding for such programs; to the Committee on Commerce, and in addition to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. MILLENDER-McCONEALD (for himself, Ms. BROWN of Florida, Mr. BROWN of California, Mr. CAPUANO, Ms. CARSON, Mrs. CHRISTENSEN, Mr. CLYBURN, Mr. CUMMINGS, Ms. DANNENBERG, Mr. GREEN, Mr. TRIPPI, Mr. HASTINGS of Florida, Mr. HILLARD, Ms. NORTON, Ms. HOOLEY of Oregon, Ms. JACKSON-Lee of Texas, Mr. JEFFERSON, Mr. KENNEDY of Rhode Island, Ms. KILPATRICK, Ms. LEWIS, Ms. McCARTHY of Mississippi, Ms. McKINNEY, Mrs. MECK of Hawaii, Ms. MORELLA, Mr. OWENS, Ms. PELOSI, Ms. ROYAL-ALLARD, Mr. RUSH, Ms. SANCHEZ, Ms. SERRANO, Mr. THOMPSON of Mississippi, Mr. TOWNS, Ms. JONES of Ohio, Mr. WEYGAND, and Mr. WYNN):

H. R. 1966. A bill to authorize the Secretary of Health and Human Services to carry out programs regarding the prevention and management of asthma, allergies, and related respiratory problems, to establish a tax credit regarding pest control services for multifamily residences in low-income communities, and for other purposes; to the Committee on Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. MCKEE of South Carolina:

Mr. BROWN of Ohio, Mr. BOYD, Ms. CLARK, Mr. CRAWFORD, Ms. CRAWFORD, Mr. CROMER, Ms. DANNEN, Mr. DUNCAN, Mr. EVANS, Mr. GONZALEZ, Mr. GOODE, Mr. GREEN of Texas, Mr. HALL of Texas, Mr. HAYES, Mr. HILLARD, Mr. HINCHY, Mr. HOFFMAN, Mr. HOLDEN, Mr. JOHN, Ms. KAPTur, Mr. KLECKZA, Mr. KUCINICH, Mr. LATOURBETTE, Ms. LEE, Ms. LEWIS of Kentucky, Mr. MCGOVERN, Mr. MCHUGH, Mr. MCINTYRE, Mrs. NAPOLITANO, Mr. NEY, Mr. NORWOOD, Mr. PRICE, Mr. RILEY, Mr. ROYBAL-ALLARD, Ms. SANCHEZ, Mr. SANDLIN, Mr. TAYLOR of Mississippi, Mrs. THURMAN, Mr. WINTFIELD, Mr. WISH, and Mr. WU:

H. R. 1967. A bill to amend the Internal Revenue Code of 1986 to provide tax incentives and job training grants for communities affected by the migration of businesses and jobs to Canada or Mexico as a result of the North American Free Trade Agreement; to the Committee on Ways and Means, and in addition to the Committee on Human Development and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. STARK:

H. R. 1968. A bill to amend title XVIII of the Social Security Act to provide additional benefits under the Medicare Program to prevent or delay the onset of illnesses, and for other purposes; to the Committee on Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. STUMP:

H. R. 1969. A bill to authorize the Secretary of Agriculture to convey certain administrative sites in the Galisteo Basin of New Mexico, Arizona, to convey certain land to the City of Agriculture to convey certain administrative sites in the Galisteo Basin of New Mexico, Arizona, to convey certain land to the City of Sedona, Arizona for a wastewater treatment facility, and for other purposes; to the Committee on Resources.

By Mr. UDALL of New Mexico:

H. R. 1970. A bill to designate the Galisteo Basin Archaeological Sites as National Monuments; to provide for the protection of archaeological sites in the Galisteo Basin of New Mexico, and for other purposes; to the Committee on Resources.

By Mr. WATKINS (for himself, Mr. JOHN, and Mr. WATTS of Oklahoma):

H. R. 1971. A bill to amend the Internal Revenue Code of 1986 to encourage domestic oil and gas production, and for other purposes; to the Committee on Ways and Means.

By Mr. FRANKS of New Jersey (for himself, Mr. L’HORNO, Mr. SMITH of New Jersey, Mr. FRELINGHUYSEN, Mr. SAXTON, Mr. ROTHMAN, Mr. PAYNE, Mr. PASCRELL, Mr. FALLONE, Mr. MENENDEZ, Mr. ANDREWS, and Mrs. ROCKEMA):

H. Con. Res. 119. Concurrent resolution expressing the sense of the Congress that a commemorative postage stamp should be issued in honor of the U.S.S. New Jersey and pressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that a press release be issued in honor of the U.S.S. New Jersey and expressing the sense of the Congress that the commemorative postage stamp should be issued in honor of the United States Submarine Force on its 100th anniversary; to the Committee on Government Reform.

By Ms. CARSON:

H. Res. 191. A resolution recognizing and honoring Medal of Honor recipients for their service, and authorizing the Postmaster General of the United States Postal Service and IPALCO Enterprises for its contributions to honor each these American heroes; to the Committee on Armed Services.

By Ms. DEGUETTE (for herself, Mr. BLAZOJEVIC, and Ms. CARSON):

H. Res. 192. A resolution providing for consideration of the bill (H. R. 1037) to ban the importation of large capacity ammunition feeding devices, and to extend the ban on transferring such devices to those that were manufactured before the ban became law; to the Committee on Rules.

H. Res. 193. A resolution providing for consideration of the bill (H. R. 902) to regulate the sale of firearms at gun shows; to the Committee on Rules.

H. Res. 194. A resolution providing for consideration of the bill (H. R. 515) to prevent children from injuring themselves with handhelds; to the Committee on Rules.

PRIVATE BILLS AND RESOLUTIONS

Under clause 3 of rule XII,

MRS. CUBIN introduced a bill (H.R. 1972) for the relief of Arnold R. Fuller; which was referred to the Committee on Judiciar-
DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:

H.R. 902: Mr. Phelps.
WORLD POPULATION AND THE ENVIRONMENT

HON. CONSTANCE A. MORELLA
OF MARYLAND
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mrs. MORELLA. Mr. Speaker, in my capacity as Chairman of the Technology Subcommittee of the Committee on Science, I have come across many interesting facts about the relationship between science and the environment. This editorial from The Keene (New Hampshire) Sentinel at first seems humorous in discussing the idea that lawnmowers cause smog. However, as one reads further one realizes that the main point of the editorial is that the ever growing number of people on the Earth stretch the environment's resources to the point where it is ever more difficult to provide for the needs of the world’s population. While written in a humorous vein, this editorial provides a strong reason to support international family planning programs.

[From the Keene (New Hampshire) Sentinel]
(By Sentinel Editorial)
PEOPLE SMOG
In what has to be the ultimate insult to the American way of life, scientists studying the source of dangerous chemicals in the air have determined that mowing the lawn causes air pollution.

The report, issued on April 1, seemed like a joke at first. We waited for the big hoot at the end. But apparently it is serious, and the problem isn’t just lawnmower engines.

“Wound-induced and drying-induced . . . compounds are expected to be significant in the atmosphere,” said the team of researchers, in a study that’s about to be published in a journal called Geophysical Research Letters. Among the chemicals released by “wounded” grass are methanol, hexanal, acetaldehyde, acetone and butatone. The team adds that the same chemicals are also produced in small amounts when people and animals eat raw vegetables.

Okay, even one of the researchers admits this is funny stuff. “It just doesn’t seem likely to me that the smell of newly mown grass is toxic,” said biochemist Ray Fall. But eventually, who knows, when too many freshly cut lawns are added to too many lawnmower exhaust pipes, and too many cars, and too many factory smokestacks and too many wood stoves and so on?

This apparently trivial grass-clipping story, like reports of so many environmental and social problems, should be seen in the context of a deadly serious dilemma that’s often ignored by governments and news media: the world’s burgeoning population.

When we read of, hear of and occasionally experience urban blight, environmental pollution, traffic jams, waves of illegal immigrants, filled-in wetlands and other maddening challenges of modern life, we really ought to think more often of the common denominator. People. People have to work, play, build, heat their homes and businesses, travel from place to place. And as we do so, bit by bit we inevitably degrade our physical and social environments. No single activity is particularly troublesome. But the more of us there are, the more degradation there is. Where will it end, with a standing-room-only society shrouded in a poison fog?

These thoughts are prompted not so much by the lawn mowing story, but by some alarming testimony presented last month to a U.S. House committee. Werner Fornos, the indefatigable head of the nonprofit Population Institute was practically on his knees trying to persuade indifferent members of Congress to spend a mere $25 million on international family planning assistance next year.

Fornos outlined the situation in stark terms, noting that the world population grew from one billion to two billion between 1830 and 1950—in 100 years—then added a third billion by 1987, in just 30 years. Since then, it has doubled to six billion. We publish this typeface indicates statements or insertions which are not spoken by a Member of the Senate on the floor. Mr. SHADEGG. Mr. Speaker, I rise today to introduce legislation authorizing a water rights settlement which was entered into on May 4, 1998, by the Gila River Indian Community and the Phelps Dodge Corp.

As my colleagues who are involved with western water issues know, reaching a settlement to an Indian water rights dispute is an incredibly complex and contentious task. The parties to this settlement are recommended for their willingness to work cooperatively to settle their differences and for their perseverance in striving to reach an agreement.

While the settlement which my legislation authorizes is an important step in the right direction, it is in many ways the vanguard for a much larger settlement currently under negotiation. These negotiations are intended to permanently and comprehensively address the water needs of central Arizona and the Phoenix metropolitan area while providing a final settlement of all water claims by the Gila River Indian Community.

The issue of long-term water supplies is of the utmost importance to Arizona. Phoenix is currently the sixth largest metropolitan area in the United States and it continues to grow rapidly. It must have permanently assured, affordable water supplies to maintain its prosperity and sustain its growth. Any settlement which is ultimately reached must be crafted to ensure that water is readily available a century and more from now.

The legislation which I introduce today provides a vehicle for advancing the process of negotiating a comprehensive settlement. I will work tirelessly to ensure that any settlement which is reached protects the water supplies of all Arizonans in perpetuity and acknowledges the primacy of State water law over allocation of this precious resource.

REGARDING THE PASSING OF MS. SANDRA CHAVIS
HON. EDDIE BERNICE JOHNSON
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise to express my heartfelt sadness on the recent passing of an individual who provided tremendous service to our country and in particular, to the Dallas/Fort Worth area.

Mr. Speaker, on Saturday, May 22, 1999, Ms. Sandra Chavis passed away after suffering a heart attack. She was 50 years young.

Mr. Speaker, I join many individuals in my district and the Washington area in mourning Ms. Chavis. Her dedication to our Nation’s fair housing laws and her commitment to public service are recognized and cherished by many.

Indeed, there are many families throughout our Nation’s cities who have equal access to home ownership because of her tireless efforts to open the doors to homes everywhere, for everyone.

Her dedication in this area is as well-known as her gracious demeanor and her love for her family.

Mr. Speaker, Ms. Chavis first showed her dedication to public service in San Francisco in 1973, where she worked for the Social Security Administration. In 1978, she joined the Department of Housing and Urban Development’s Office of Fair Housing and Office of Human Resources. She joined the Department at a time when fair housing laws were still in their nascent.

At the time of her unexpected death, she was serving as Director of the Department’s Office of Equal Employment Opportunity in Washington, D.C. Her cumulative work at the Department of Housing and Urban Development represented a career of fighting for fairness and equality for all Americans.

Mr. Speaker, her life and work were held in such high esteem that the Department of Housing and Urban Development led by Secretary Andrew Cuomo are opening their hearts
and doors with a memorial service at HUD headquarters. This is truly because she touched so many lives.

Mr. Speaker, it was once said that “nothing great in the world has been accomplished without passion.” I truly believe that Ms. Chavis had a great and intense passion to serve others and promote fairness. That great passion allowed her to accomplish so many great things that we are indebted to her now and forever.

particularly, I want to recognize a host of family and friends she left behind: her husband; her son; her siblings, Jamie Chavis; her parents, William Ira and Arlanda Chavis; her four brothers, William Ray Buston, Gerald Patterson, Ira Rudolph, and William Randolph; two sisters, Ruth Bryant and Linda Randolph; three grandchildren, Carlton, Jamillia, and William Patrick Chavis; nine nephews, and six nieces; three close friends; Vyliora A. Evans, Evelyn Okie, and Shirley Wells. I join them in celebrating the life of a great human being, public servant, and American.

1999 SIXTH DISTRICT ESSAY CONTEST WINNERS

HON. HENRY J. HYDE OF ILLINOIS IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. HYDE. Mr. Speaker, please permit me to share with my colleagues the work of some bright young men and women in my district. Each year, my office—in cooperation with junior and senior high schools in Northern Illinois—sponsors an essay writing contest. The contest’s board, chaired by my good friend Vivian Turner, a former principal of Blackhawk High School, Park Ridge, IL, won the junior high division with an essay titled, “Coach—One Who Teaches or Trains an Athlete,” a text of which I include in the Record. Placing second was Jennifer C. Miller of St. Peter the Apostle School in Itasca. This year, we had a three-way tie for third place in the junior high division among: Omar Germino of St. Charles Borromeo School in Bensenville, Sam Francis of Glen Crest Middle School in Glen Ellyn, and Rachel Soden of Westfield High School in Bloomingdale.

In the Senior High School Division, the first place award went to Paul McGovern of Driscoll Catholic High School in Addison for his essay, “Teofilo Lindio,” a text of which I include in the Record. Carl Hughes of Maine South High School in Park Ridge finished second, and Fairlawn went to Kathryn Okie of Park Ridge, also from Driscoll Catholic High School.

I wish to offer my congratulations to all this year’s winners.

TEOFILO LINDIO—THE SIX PILLARS OF CHARACTER

(By Paul McGovern, Driscoll Catholic, Addison, IL)

I consider my grandfather, Teofilo Lindio, to be an exemplary role model. My Lolo (the Philippine word for grandfather) was born on May 26, 1900. A church in the Philippines, in his presence, was dedicated to the Philippines. Though I have been to the Philippines, I have seen him only once. I have heard much of him from my mother. According to her, Teofilo was an honest, caring individual who showed his love not to himself but to others. He never exhibited Christian beliefs formed the foundation on which the Six Pillars of Character were laid—the pillars, which ultimately formed and upheld our foundation as a great man within his community.

Teofilo was the fifth of seven children of a wealthy commercial farmer. However, when his father died, Teofilo inherited little, since most of the land went to the older sons. At this point, Teofilo had to make a choice. He was already married, and his wife was about to have a child. Teofilo had been at the top of his high school class, so college was a very possible option for him. After considering the consequences of this option, he made the responsible choice. Instead of using the money he had to start his own carpentry business so that he could better support his family.

Eventually, Teofilo’s business grew and he began to amass a fortune. Rather than indulge himself in luxuries, he decided to make a difference in his community of Legaspi. Teofilo would make free coffins for the poor and the poor. Every Sunday after church, he would host a picnic in which all of the impoverished people in the community could eat for free. This compassion turned him into a generous, caring man. Eventually, however, the amount of money that he spent on feeding the poor became too much, as more and more people began to eat every Sunday. His business underwent tough times, and soon he was forced to stop his charity. In one particularly difficult period during the 50’s, Teofilo and his family had trouble finding enough food to eat. All of his children who were old enough to work had jobs so that the family could feed and clothe itself. Even in tough times, Teofilo’s fairness in his dealings with customers, and continued to do quality work for a fair price. Morals were more important to him than money. He did not blame the poor for being fed, or himself for the state of poverty he was in. Knowing that Teofilo was a generous man, wealthy people offered him aid in his time of trouble. Teofilo “took turns and shared,” and thus moved others to do the same.

In my opinion, my Lolo was simply an all-around outstanding individual. His trustworthiness was shown in his commitment to his family. Teofilo was honest in his marriage, and put his family first in his life. According to my mother, he spent every night with the family, asking all nine of his children how their days went, telling jokes, and discussing Bible stories. He promised to always be there for them, and he was. He continually said to me over the phone, “No family gathering can be complete without you and your dad.” Another instance of this trustworthiness is when his wife became very sick in the 50’s. Teofilo made a promise to his wife that if his wife recovered, he would sing the Pasyon (Passion and Resurrection of Christ) on every Holy Thursday and Good Friday—2 whole days, without sleep—until the end of his life. His wife recovered, and he faithfully kept his promise.

Teofilo showed respect for others as well. He respected the poor as human beings who had the right to eat just as he did. He respected his children’s right to make decisions about their future. He did not force his sons to work in his business to make money. Mr. Speaker, it was once said that “nothing great in the world has been accomplished without passion.” I truly believe that Ms. Chavis had a great and intense passion to serve others and promote fairness. That great passion allowed her to accomplish so many great things that we are indebted to her now and forever.

Particularly, I want to recognize a host of family and friends she left behind: her husband; her son; her siblings, Jamie Chavis; her parents, William Ira and Arlanda Chavis; her four brothers, William Ray Buston, Gerald Patterson, Ira Rudolph, and William Randolph; two sisters, Ruth Bryant and Linda Coley; three grandchildren, Carlton, Jamillia, and William Patrick Chavis; nine nephews, and six nieces; three close friends; Vyliora A. Evans, Evelyn Okie, and Shirley Wells. I join them in celebrating the life of a great human being, public servant, and American.

1999 SIXTH DISTRICT ESSAY CONTEST WINNERS

HON. HENRY J. HYDE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. HYDE. Mr. Speaker, please permit me to share with my colleagues the work of some bright young men and women in my district. Each year, my office—in cooperation with junior and senior high schools in Northern Illinois—sponsors an essay writing contest. The contest’s board, chaired by my good friend Vivian Turner, a former principal of Blackhawk Junior High School in Bensenville, IL, chooses a topic and judges the entries. Winners of the contest share in more than $1,000 in scholarship funds.

Today, I have the honor of naming for the Record the winners of this year’s contest. This year, Kathryn Solaris of Mary, Seat of Wisdom School in Park Ridge, IL, won the junior high division with an essay titled, “Coach—One Who Teaches or Trains an Athlete,” a text of which I include in the Record. Placing second was Jennifer C. Miller of St. Peter the Apostle School in Itasca. This year, we had a three-way tie for third place in the junior high division among: Omar Germino of St. Charles Borromeo School in Bensenville, Sam Francis of Glen Crest Middle School in Glen Ellyn, and Rachel Soden of Westfield High School in Bloomingdale.

In the Senior High School Division, the first place award went to Paul McGovern of Driscoll Catholic High School in Addison for his essay, “Teofilo Lindio,” a text of which I include in the Record. Carl Hughes of Maine South High School in Park Ridge finished second, and Fairlawn went to Kathryn Okie of Park Ridge, also from Driscoll Catholic High School.

I wish to offer my congratulations to all this year’s winners.

TEOFILO LINDIO—THE SIX PILLARS OF CHARACTER

(By Paul McGovern, Driscoll Catholic, Addison, IL)

I consider my grandfather, Teofilo Lindio, to be an exemplary role model. My Lolo (the Philippine word for grandfather) was born on May 26, 1900. A church in the Philippines, in his presence, was dedicated to the Philippines. Though I have been to the Philippines, I have seen him only once. I have heard much of him from my mother. According to her, Teofilo was an honest, caring individual who showed his love not to himself but to others. He never exhibited Christian beliefs formed the foundation on which the Six Pillars of Character were laid—the pillars, which ultimately formed and upheld our foundation as a great man within his community.

Teofilo was the fifth of seven children of a wealthy commercial farmer. However, when his father died, Teofilo inherited little, since most of the land went to the older sons. At this point, Teofilo had to make a choice. He was already married, and his wife was about to have a child. Teofilo had been at the top of his high school class, so college was a very possible option for him. After considering the consequences of this option, he made the responsible choice. Instead of using the money he had to start his own carpentry business so that he could better support his family.

Eventually, Teofilo’s business grew and he began to amass a fortune. Rather than indulge himself in luxuries, he decided to make a difference in his community of Legaspi. Teofilo would make free coffins for the poor and the poor. Every Sunday after church, he would host a picnic in which all of the impoverished people in the community could eat for free. This compassion turned him into a generous, caring man. Eventually, however, the amount of money that he spent on feeding the poor became too much, as more and more people began to eat every Sunday. His business underwent tough times, and soon he was forced to stop his charity. In one particularly difficult period during the 50’s, Teofilo and his family had trouble finding enough food to eat. All of his children who were old enough to work had jobs so that the family could feed and clothe itself. Even in tough times, Teofilo’s fairness in his dealings with customers, and continued to do quality work for a fair price. Morals were more important to him than money. He did not blame the poor for being fed, or himself for the state of poverty he was in. Knowing that Teofilo was a generous man, wealthy people offered him aid in his time of trouble. Teofilo “took turns and shared,” and thus moved others to do the same.

In my opinion, my Lolo was simply an all-around outstanding individual. His trustworthiness was shown in his commitment to his family. Teofilo was honest in his marriage, and put his family first in his life. According to my mother, he spent every night with the family, asking all nine of his children how their days went, telling jokes, and discussing Bible stories. He promised to always be there for them, and he was. He continually said to me over the phone, “No family gathering can be complete without you and your dad.” Another instance of this trustworthiness is when his wife became very sick in the 50’s. Teofilo made a promise to his wife that if his wife recovered, he would sing the Pasyon (Passion and Resurrection of Christ) on every Holy Thursday and Good Friday—2 whole days, without sleep—until the end of his life. His wife recovered, and he faithfully kept his promise.

Teofilo showed respect for others as well. He respected the poor as human beings who had the right to eat just as he did. He respected his children’s right to make decisions about their future. He did not force his sons to work in his business to make money.
quizzing us on vocabulary or testing us on our science, however, our grades don’t matter as much to him as long as we try our best. His guidance in decision making is always helpful. On Thursday and Friday mornings he gets up early with my sister and me to help us get ready for band. He takes care of us when we are sick, comforts us when we are sad, and laughs with us when we are happy. Most of all, he makes each of us feel important and special in our own way.

My dad shows how caring he is through his service to the community. If anyone in the neighborhood needs help, my dad will help them with anything from taking care of a pet to vacuuming out a flooded basement. He is currently coaching four basketball teams because he feels all children should have the opportunity to play. During parish mission projects, my dad generously donates his time to assist however possible. During the shoe box drive at church, for example, he wrapped shoe boxes, bought needed supplies at the store, and cleaned up after everyone left. He has delivered furniture to a family in Roger’s Park as well as packed peanut butter sandwich lunches for the needy. My father is a person who truly loves and cares for others.

My father tries to respect everyone. To me, respect is treating others the way you want to be treated no matter how they treat you. My father is very fair. He has probably learned that from raising four children. He is going to let my sister stay up a little later, then he lets us all stay up a little later. He also gave everyone on my basketball team equal playing time this year. He is very polite and shows good sportsmanship. Being considerate, my father tries to think about how things will affect others. He is always open and never laughs at things unless they are meant to be funny. If there was an award for the most patient and easy going person, I am sure my dad would win it. His positive outlook on life and his gentle ways of speaking win him others’ respect. My father never yells at anyone. Instead, he talks things out and treats people with respect. He tries to bring out the best in everyone.

My father has a lot of responsibilities in his life, which he handles well. He is, first of all, responsible to his family. He is responsible every day to provide for us. He also helps around the house doing various chores. His responsibilities as a father are endless. He also has a responsibility to love and be faithful to my mom. He is responsible for helping his parents and my mom’s parents with things around their homes as well as with financial advice. Many of his responsibilities lie outside our family. He is involved in many of the decisions regarding our school’s expansion project this year. He is on the finance committee at his old high school, as well as many committees in our parish. To fulfill his religious responsibilities, he attends church regularly, is a Eucharistic minister, makes financial contributions to the church, and tries to live out the Gospel.

My dad is a very important and irreplaceable part of my life. He has taught me much about life and my life on a strong foundation. I know that my dad will always be there to guide me, comfort me, help me, and celebrate with me. Next year, I will be off to college. There will be many changes in my life. I know that things won’t be as difficult because I have a great role model and coach walking with me every step of the way. My dad, the best way to thank him would be to live my life as he has coached me, to be a caring, respectful, and responsible person. With a coach like my dad and God on my side, I know I’ll be a winner in the game of life.

VFW’S 100TH ANNIVERSARY

HON. PETE SESSIONS
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. SESSIONS. Mr. Speaker, in celebration of VFW’s 100th anniversary, I want to recognize the efforts of this worthwhile organization that continues to assist tens of thousands of veterans, as well as their dependents and survivors. Today, the VFW’s 2 million veterans, and its auxiliaries’ 750,000 members, provide $2.7 million annually in scholarships and awards. U.S. high school students. In addition, the VFW provides $3 million annually for cancer research and $15 million for veteran-service programs.

In Texas alone, there are approximately 174,452 retired military who have done their part in defending our country—we need to recognize their service every day. I will be presenting the Bronze Star Medal to Captain James Flowers who served our country during World War II. During an invasion of Normandy, Mr. Flowers lost both legs. The tragedy Mr. Flowers suffered should not go unrewarded.

I am consistently awed by the great sacrifice committed by so many of behalf of this great nation. Let us not forget the goals of the VFW as noted in the 1936 congressional charter:

‘‘To assist worthy comrades; to perpetuate the memory . . .; and to assist their widows and orphans; to maintain true allegiance to the Government of the United States; to maintain and extend the institutions of freedom; and to preserve and defend the United States from all her enemies, whomsoever.”

Because open markets increase competition, eliminate inefficiencies, and result in lower costs to consumers and manufacturers, trade liberalizing agreements improve our prosperity and encourage the creation of secure, higher wage jobs. Sadly, the President’s failure to support the passage of trade negotiating authority in this Congress has crippled the United States trade agenda and has brought a halt to the expansion of international markets for U.S. exports.

This legislation responds to the President’s inaction by calling on him to investigate opportunities for negotiating free trade agreements with long time U.S. allies in working to increase economic growth through trade liberalization, both in the World Trade Organization and in APEC. Countries such as Australia, New Zealand, and Singapore, because of the largely open nature of their economies and their track record of supporting United States trade negotiating objectives, are countries which would be eligible immediately under the criteria established in this bill.

Building closer ties and coordinating with countries whose interests are largely friendly to the United States will have immense payoffs as trade negotiations in APEC and the World Trade Organization proceed. Bilateral and multilateral trade agreement negotiations, such as the NAFTA, have been shown to exert constructive pressure on multilateral and regional trade negotiations. Bilateral trade talks enlarge common areas of agreement on trade rules and disciplines which can then be advanced more successfully in the context of larger negotiations among additional trading partners. This bill is all about finding opportunities wherever we can to break down barriers to United States exports and keep the trade agenda moving forward.

The real advantage of this legislation is that it will improve and expand our trade ties with countries in the Pacific Rim region and reassure countries that the United States, despite the absence of trade negotiating authority, is not turning inward and adopting a trade policy defined by narrow and inward-looking special interests. H.R. 1942 would direct the President to pursue aggressively more open, equitable, and reciprocal market access for United States goods and services. Continuing the pursuit of lower economic barriers and standardized rules and procedures governing international business will yield enormous benefits to our firms and workers. I urge my colleagues to join me in cosponsoring this important bill.

Hon. Philip M. Crane
Of Illinois
In the House of Representatives
Wednesday, May 26, 1999

Mr. CRANE. Mr. Speaker, today I am introducing legislation to encourage the establishment of free trade agreements between the United States and certain Pacific Rim countries.

H.R. 1942 directs the President to initiate preliminary consultations with the governments of each eligible Pacific Rim country to determine the feasibility and desirability of negotiating the elimination of tariff and non-tariff barriers in the context of a bilateral free trade agreement. If a positive determination is made, the President shall request a meeting at the ministerial level to consider the conditions under which formal negotiations regarding a free trade agreement could be commenced. The countries that may be considered for eligibility are the members of the Asia Pacific Economic Cooperation Group (APEC).

Establishing free trade agreements with Pacific Rim countries

Hon. Walter J. Jones
Of North Carolina
In the House of Representatives
Wednesday, May 26, 1999

Mr. JONES of North Carolina. Mr. Speaker, I rise today to honor a constituent who has rendered great service to his country and his community and who will turn 80 on June 19. His family and friends will honor him at a surprise fete on Saturday, May 29, in Duck, North Carolina.

Robert (Bob) Cook worked for the U.S. Department of Agriculture for 26 years before he
Mr. KANJORSKI. Mr. Speaker, I rise today to pay tribute to a close friend and a community and spiritual leader in Northeastern Pennsylvania, Monsignor Andrew J. McGowan. A community-wide celebration will honor Monsignor McGowan in June for his Golden Jubilee of Ordination. I am extremely pleased and proud to have been asked to participate in this significant milestone for a man who is a true treasure in our community.

A native of the area, Monsignor McGowan is fond of saying that his claim to fame is his famous brother, William McGowan, the founder of MCI. But those of us who know Monsignor McGowan know that he has made his own legacy in Northeastern Pennsylvania. He helped found Leadership Wilkes-Barre. He served as Community Affairs director for all the hospitals and colleges in the diocese of Scranton. He served as the vice-chair of Allied Services Hospital Foundation, the Commission on Economic Opportunity, and the Heinzi Institute of Rehab medicine. He has served on so many community Boards of Directors that the list is too long for me to recount today. He has been a strong supporter of the new Moosic County Arena since its inception and he currently sits on the Arena's Board of Directors.

Mr. Speaker, Monsignor McGowan is most renowned for his skill in public speaking and is the most sought-after speaker in Northeastern Pennsylvania, sharing his famous humor and insight with his audiences. Politicians such as myself who regularly attend the countless community events sponsored by Monsignor McGowan look forward to his trenchant observations on life in Northeastern Pennsylvania, even though we know we are fair game for his good-natured, but barbed, wit. Even nationally-known humorist Regis Philbin once found himself upstaged by this deceptively gentle man of the cloth.

This is not the first time Monsignor McGowan has been honored in this chamber, nor in Northeastern Pennsylvania. Among the many honors that have been awarded to him are the Distinguished Service Award of the Association for Excellence of the Independent Colleges and Universities of Pennsylvania, the B'nai B'rith Americanism award, and the 1994 Award of Excellence of the Independent Colleges and Universities of Pennsylvania.

I have been privileged to work with this fine and distinguished individual many times before and after my election to Congress. His leadership, compassion, and understanding have always been an inspiration to me. Mr. Speaker, in addition to being among Monsignor McGowan’s legion of admirers, I am very proud to call him a good friend. I send my most sincere best wishes for his continued good health and success, and join with the community in thanking him for his dedication to the people of Northeastern Pennsylvania.
IN HONOR OF HANK WILLIAMS III
HON. JO ANN EMERSON
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mrs. EMERSON. Mr. Speaker, today I rise in recognition of a young man that understands the meaning of heritage and tradition. Hank Williams III is the third generation of country music performers to come from the legendary Hank Williams family. Hank Williams III has strong ties to the great State of Missouri as he spent most of his childhood in Jane, a small town in southwestern Missouri.

On June 5, 1999, Hank Williams III will help maintain those strong Missouri ties by performing for the Maiden Chamber of Commerce’s annual country music concert. The concert originally started as a benefit show that was performed by country legend Tammy Wynette. Unfortunately, due to Ms. Wynette’s untimely death, the Chamber had to find a replacement act. What better person could the Chamber have chosen to help out but Hank Williams III?

All three generations of the Hank Williams family should be commended for their contributions to our American culture. Hank Williams, Sr. was country music’s first super star. Hank Williams, Jr. was one of the first artists to combine southern rock music with country music, and he is credited by many for his role in broadening the popularity of country music. Hank Williams III is now carrying on an already stellar family name and working to further enhance the country music industry that rests on the foundation built by his grandfather and father.

The rich tradition of the Williams family and their positive contribution to our American culture is truly an inspiration to us all.

BEIJING’S BRINKMANSHIP IS DANGEROUS
HON. DOUG BEREUTER
OF NEBRASKA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. BEREUTER. Mr. Speaker, in April, during Chinese Premier Zhu Rongji’s visit to Washington, and after thirteen years of off-and-on again negotiations, China finally agreed to the kind of comprehensive trade concessions necessary to gain U.S. support for Beijing’s entry into the World Trade Organization. For what this Member believes were the economic and social interests of China, the Chinese embassy in Belgrade, China should be careful, though, and temper its growing overreaction to this unfortunate incident as overplaying its hand could jeopardize China’s WTO accession and China’s relations with the foreign investors it needs to attract for further economic growth. Such developments would certainly not be in the national interests of either China or the United States. Mr. Speaker, I urge this Congress that as Member recommends to his colleagues the following editorial from The May 24, 1999, edition of Business Week.

BEIJING IS PLAYING A PERILOUS GAME

China’s anti-U.S. rage over the accidental bombing of its embassy in Belgrade should be a sobering moment for the American business community. Despite decades of economic and social change, China is still governed by an authoritarian regime fully capable of wielding all the tools of a dictatorship. The markets may be more open and people may be freer to travel, but Beijing is still able to control the media and cynically manipulate the truth to whip people into a nationalistic anti-American frenzy. By treating the U.S. as an enemy, China’s leaders run the risk of turning America into just that.

This kind of brinkmanship was last seen when China lobbed missiles over Taiwan to protest its president’s visit to the U.S. A pattern of repeated quick-to-anger behavior could begin to raise the political risk factor for foreign corporations investing in China. It may already have put China’s entry into the World Trade Organization in jeopardy.

Washington’s own blunders haven’t helped. After years of boasting about smart bombs, the U.S. must now explain how it accidentally bombed China’s clearly marked embassy. This disaster follows hard on the heels of President Clinton’s humiliation of reform-minded Premier Zhu Rongji. Clinton made a huge mistake when he rejected a generous offer to U.S. businesses in exchange for Beijing’s entry into the WTO. Zhu went over the heads of conservatives in state companies, the bureaucracy, and the military to make the deal. But Clinton sent him home empty-handed. The organized demonstrations are part of an effort by these conservatives to roll back Zhu’s economic concessions. They might also reflect Zhu’s own anger at Clinton.

Unfortunately, the intense wave of anti-Americanism may change China’s investment climate for years to come. U.S. and European corporations must now include in their financial calculations the possibility of Beijing lashing out against foreigners whenever international disputes arise. This higher political risk compounds a basic business problem: Most investments in China have yet to turn a profit.

For Americans who believe that China was quickly moving toward a market-driven democracy, recent events should signal a new caution. Clearly, the seeds of a civil society according to law have been planted in China. The country is far more open today than 20 years ago. But it took Taiwan and Korea nearly 50 years to evolve into democracies. It may take China that long as well. Or China could become a far more threatening country. The point is, no one knows.

The long-term goal of U.S. policy should continue to be the peaceful integration of China into the economic order. If Zhu can still deliver on the WTO deal, Washington should sign it. And certainly, Washington owes China a full and detailed explanation of the bombing error. It is also incumbent upon the U.S. to clarify its post-accident interventionism. Is the U.S. the defender of last resort for every minority anywhere in the world? Is it willing to sacrifice good relations with Russia and China, both of whom have restive minorities, for a foreign policy of unfettered global moralism?

Mr. Speaker, it is in this context that this Member would certainly not be in the national interest of either China or the United States.

DEA ADMINISTRATOR TOM CONSTANTINE RETIRES
HON. BENJAMIN A. GILMAN
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. GILMAN. Mr. Speaker, yesterday we regrettably learned that our nation’s leading drug fighter, our distinguished DEA Administrator Thomas Constantine, has announced his retirement after five years of service in Washington. Prior to coming to Washington, Mr. Constantine had long served with distinction in New York State as a state police officer. He became the first state trooper to rise to Superintendent of the N.Y. State Police after more than 30 years as a state trooper.

Considered a “cop’s cop” by our nation’s law enforcement community and an expert on organized crime, he courageously called it as he saw it, particularly the laxness and corruption, drug trafficking and organized crime in Mexico. His candor, his integrity and honesty were always welcome, and significantly helped us to develop our drug control policy and thinking on this difficult criminal justice subject.

Director Constantine leaves just after opening a new DEA training academy at Quantico, Virginia that will serve as a leading international training center for fighting drugs in our hemisphere. He also led the way to opening of a second International Law Enforcement Academy (ILEA) in the world established with Thai Police in Bangkok, Thailand. That ILEA will help develop vital “cop to cop” links in Asia against the spread of illicit narcotics and transnational crime.

Director Constantine leaves just after opening a new DEA training academy at Quantico, Virginia that will serve as a leading international training center for fighting drugs in our hemisphere. He also led the way to opening of a second International Law Enforcement Academy (ILEA) in the world established with Thai Police in Bangkok, Thailand. That ILEA will help develop vital “cop to cop” links in Asia against the spread of illicit narcotics and transnational crime.

During Director Constantine’s tenure as Superintendent of the New York State Police, the 4,800 member department received numerous awards, including the Governor’s Excellence Award given to the best quality agency in state government. In 1994, Mr. Constantine was selected as the Governor’s Law Enforcement Executive of the Year. He was also awarded the 1997 National Executive Institute’s Pennth Award for outstanding law enforcement leadership.

My colleagues, our nation, and especially our young people, have lost an outstanding and invaluable public servant. We all join in wishing Tom and his family good health and happiness in his retirement years.
THE ADMINISTRATION’S HARBOR SERVICES FUND ACT OF 1999

HON. BUD SHUSTER
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. SHUSTER. Mr. Speaker, today I am pleased to introduce by request the Administration’s Harbor Services Fund Act of 1999 which provides a source of funding for the development, operation and maintenance of our Nation’s harbors. This legislation establishes a fee that would be charged to commercial vessels for the services provided at ports within the United States. Generally, these services are those provided by the Army Corps of Engineers in their maintenance dredging program and in their construction of new navigation channels.

This bill also repeals the Harbor Maintenance Tax that has served as a source of funding for maintenance activities since 1986. It also transfers the surplus in the Harbor Maintenance Trust Fund to a new fund where it could be spent for intended services. Last year the Supreme Court ruled that this tax, as it applies to exports, is unconstitutional. The intent of the Administration’s bill is to structure a revenue mechanism to meet the constitutional test for a user fee and to prevent a large surplus from developing in the fund.

The Administration’s bill raises a number of significant questions and issues. Predictably, this controversial proposal has raised concerns among those who would pay—either directly or indirectly—the new fee. One common principle shared by both proponents and opponents of the bill, however, is the need to find a replacement to finance port infrastructure needs.

Our Nation’s ports are a vital link in our intermodal transportation network that is the foundation of our competitiveness in international trade and our economic well-being. Our deep draft ports move over 95% of US trade by weight and 75% by value. International trade accounts for $2.3 trillion, or 30% of our Gross Domestic Product. Addressing the question of how to fund the Federal cost of maintaining and improving our harbors is an important part of the Transportation and Infrastructure Committee’s business this year.

The Transportation and Infrastructure Committee intends to explore this proposal and others over the next several months. We will be working with the Administration, ports, shippers, carriers and others in order to develop a fair and dependable source of funding for this important Federal function.

A TRIBUTE TO PIETER BOELHOUWER

HON. JOHN B. LARSON
OF CONNECTICUT
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. LARSON. Mr. Speaker, I rise today to pay tribute to Pieter Boelhouwer of Wethersfield, CT, a distinguished 1998–99 White House Fellow.

EXTENSIONS OF REMARKS

For nearly three decades, the White House Fellowship Program has honored and employed the talents of outstanding citizens who have demonstrated excellence in academics, community service, leadership, and professional achievement. Each year there are between 500 and 800 applicants nationwide for 11 to 19 fellowships. White House Fellows are chosen on the merit of remarkable achievement early in their career and the evidence of growth potential. It is the country’s most prestigious fellowship for public service leadership development.

As a White House Fellow, Mr. Boelhouwer works in the Office of the Vice President. In this capacity, he focuses on domestic policy issues such as Social Security reform, domestic impact of foreign trade, creating livable communities, agriculture and transportation issues. He has also had the unique opportunity to meet and work with America’s leaders in the private, public and non-profit sectors as part of his White House Fellowship curriculum.

Mr. Boelhouwer earned a bachelor’s degree in history, Phi Beta Kappa, from Trinity College and a JD from Yale Law School. He is a management consultant with McKinsey & Co., where he has designed an innovative approach to connecting schools to homes via the internet to improve children’s education. Prior to joining McKinsey & Co., he served as a legislator aide in the U.S. Senate, where he developed and drafted legislation creating the National Civilian Community Corps, a resident service program passed as part of President Clinton’s AmeriCorps bill. Mr. Boelhouwer’s community involvement is quite extensive. Most notably, he originated and led a probono project to help the President’s Summit for America’s Future design its plan to reach the nation’s communities. In addition, he created and wrote a guidebook, published by America’s Promise, to help neighborhoods and communities around the country develop their own local action plans.

Mr. Speaker, I urge my colleagues to join me today in commending Pieter Boelhouwer for his service as a White House Fellow and for his distinguished leadership in civic and community endeavors.

A TRIBUTE TO THE SAN MANUEL BAND OF MISSION INDIANS AND THE UNITED STATES DEPARTMENT OF COMMERCE

HON. GEORGE E. BROWN, JR.
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. BROWN of California. Mr. Speaker, it is with a great sense of pride that I rise today to pay tribute to the San Manuel Band of Mission Indians and the U.S. Department of Commerce on the occasion of the opening of the newest associate office of the U.S. and Foreign Commercial Service on June 4th, 1999. This joint venture marks the first time that the Department of Commerce has opened an office of this nature on tribal lands. The San Manuel Band of Mission Indians and the Department of Commerce are forging a new path for future expansion of these types of programs to other tribes. It is my hope that more agencies will follow this path and work with all tribal governments to open new offices on tribal lands. Future expansion of United States government agencies on these lands not only helps tribal governments, but also benefits local communities, and can help foster more interaction between a tribe and the community around it.

The purpose of the Foreign Commercial Service is to support U.S. commercial interests by increasing sales and market shares of domestic companies in overseas markets. The San Manuels, by bringing this agency to their tribal lands, have given all local businesses an advantage in increasing their sales and the local workforce, by increasing the avenues for locating new customers overseas.

By locating the offices at the San Bernardino International Trade Center, which is located at the former Norton Air Force Base, I see an even greater opportunity for new local business. Not only can entrepreneurs get help in opening new ventures by
working with the Small Business Incubator, which is already located on the grounds of the Trade Center, but now they will also have assistance from the Foreign Commercial Services office which can reach out to its 90 domestic and 160 international offices that operate in the Foreign Commercial Service system.

Mr. Speaker, I ask my colleagues to join me in congratulating both the San Manuels and the Department of Commerce for this joint effort. At home in my district in California, we are proud of the contributions both these groups are making to the community. This joint venture is representative of the emerging international economic force that will make San Bernadino an international trade leader in California.

INTRODUCTION OF INDIAN ECONOMIC DEVELOPMENT LEGISLATION

HON. JOHN B. SHADEGG
OF ARIZONA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. SHADEGG. Mr. Speaker, I rise today to introduce three bills which will assist Indian tribes in their efforts to develop their economies. The federal government has an important obligation to the Indian community; however, simply increasing federal funding for various programs will not solve the long-term economic and social needs of all Native Americans. While the federal government has spent billions of dollars to aid Native Americans, thousands still live in substandard conditions with no real opportunity to overcome the cycle of poverty. Funds earmarked for Native Americans are in many cases being wasted by the federal bureaucracy.

I believe there is a better approach. Rather than spending ever-increasing amounts of money on wasteful programs, Congress should promote real, long-term economic development for Native Americans.

Let me be clear about what I believe is real economic development. I do not believe that gambling on reservations will provide lasting economic stability for Indians. While a small number of tribes have enjoyed huge windfalls of economic prosperity, the majority of Native Americans live in areas that do not facilitate profitable gambling operations. This is aside from the fact that we have yet to determine the true cost of increased gambling to Indian communities and neighborhoods surrounding the reservations with casinos.

Because of my concern for the long-term negative impacts of wasted federal dollars and increased gambling operations, I am introducing the following three bills to help tribes with economic development by providing various tax and investment incentives.

The first of these bills is the Indian Reservation Jobs and Investment Act of 1999. This bill provides tax credits to otherwise taxable business entities if they locate certain kinds of income-producing property on Indian reservations. Eligible types of property include new personal property, new construction property, and infrastructure investment property.

The second bill is the Indian Tribal Government Unemployment Compensation Act Tax Relief Amendments of 1999. This bill clarifies existing law so that tribal governments are treated identically to State and local units of government for unemployment tax purposes.

The third piece of legislation is the Tribal Government Tax-Exempt Bond Authority Amendments Act of 1999. This bill provides additional tax-exempt bond authority to tribal governments to fund infrastructure and capital formation. Currently, reservations are restricted to issue tax-exempt bonds only for "essential government functions" and certain, narrowly defined, tribally-owned manufacturing. By providing additional tax-exempt bond authority, new sources of capital can be attracted to reservations and may provide additional economic development. Incidentally, the bond authority would not be extended for the construction of gaming-related operations.

PRIVATE MALCOLM BARNES
SHERROD OF IRVING

HON. EDDIE BERNICE JOHNSON
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise to pay tribute to Pvt. Malcolm Barnes Sherrod of Irving, TX, regarding his recent graduation of the Young Marine Training Course in Tarrant County sponsored by the Young Marine Corps League. His successful completion has promoted him from recruit to private.

I join with his proud family and the constituents of the 30th Congressional District of Texas in commending his achievements. His completion of the course and subsequent promotion are testimonials to his leadership abilities, focus, and dedication to service. I trust that these abilities will continue to serve him well for what appears to be a successful career.

Mr. Speaker, Private Sherrod certainly has the motivation and the lineage to be a great marine and serve his country. His mother, Ms. Jeanie Sherrod was a woman marine, serving as a corporal. In addition, his father, Lewis Barnes is an Active Reserve lieutenant colonel officer in the Armed Forces. Private Sherrod will continue the legacy of a family serving and protecting their country.

Private Sherrod was inducted into the Marine Corps in January 1999. With the completion of his training, Private Sherrod has been selected for survival school where he will hone his skills and abilities. He will also enter into leadership school from July 14 to August 14.

Mr. Speaker, all these activities that I mentioned are demanding and challenging for any young man or woman. It is an understatement to say that such care is not for everyone. Indeed, it takes a determined and motivated individual to master these challenges and demands.

Mr. Speaker, I am confident that Private Sherrod will take on the challenges at both survival and leadership school with tremendous focus and effort.

Mr. Speaker, Private Sherrod plans to serve in another capacity after the Marine Corps as a lawyer. His training and time in the Marine Corps will definitely prepare him for such an endeavor. His goal to be a lawyer is an example of how he seeks to succeed in life.

Mr. Speaker, again, I join the constituents of the 30th Congressional District of Texas in congratulating the wonderful achievements of Pvt. Malcolm Barnes Sherrod.

TRIBUTE TO CHARLES W.
DAVENPORT

HON. JAMES E. CLYBURN
OF SOUTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. CLYBURN. Mr. Speaker, I rise to pay tribute to Charles W. Davenport, the Most Worshipful Grand Master of the Most Worshipful Prince Hall Grand Lodge of South Carolina, for his service to his lodge and community.

A lifelong resident of Batesburg, South Carolina, Grand Master Davenport is the husband of the late Viola C. Anderson Davenport of Saluda, and they have three children and two grandchildren. He is a 1962 graduate of Twin City High School in Batesburg, and the DeVry Institute of Technology. He has also completed various courses in supervision and personnel management, and he is a graduate of insurance information services and the United States Air Force Security and Law Enforcement School.

Grand Master Davenport was elected at the 127th Grand Lodge Session in December of 1995. He is a former Master of the Twin City Lodge #316, Commander in Chief of the C.C. Johnson Consistory #136, Potentate and Imperial Deputy of the Oasis of Cairo Temple #125. He has also previously served as Chief Deputy for Golf of the Imperial Recreation Department, Grand High Priest Prince Hall Grand Chapter Holy Royal Arch Masons of South Carolina, and General Grand High Priest of the General Conference Holy Royal Arch Masons USA and Bahamas, Inc. Grand Master Davenport is also an Honorary past Grand Master of Georgia and North Carolina. He is the Imperial Outer Guard of the A.E.A.O.N.M.S.Inc., and a member of Twin City Chapter #243 Order of Eastern Star and Ethiopia Chapter Royal Arch Masons. Grand Master Davenport is also a Sovereign Grand Inspector General Active Emeritus and a Kentucky Colonel.

Grand Master Davenport is also very active in his church community, St. Mark Baptist Church of Leesville, where he is currently serving in his 9th year as Chairman of the Board of Trustees of Lexington School District Three. Grand Master Davenport is a life member of the N.A.C.P., a Member of the Twin City Alumni Association and the Good Sam Recreational Vehicle Club.

Mr. Speaker, I ask you and my colleagues to join me today in paying tribute to an individual who epitomizes the virtue of being a
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. HOYER. Mr. Speaker, I rise today to honor an extraordinary man, my good friend Dr. Robert Bickford, who is retiring after 27 years as president of Prince George's Community College.

Dr. Bickford began his service to the State of Maryland as a physical education teacher at Maryland Park High School. He then spent 13 years as a physical education teacher at Suitland High School, where he also coached basketball, baseball, lacrosse, football and golf.

In 1962, Dr. Bickford began his tenure with Prince George's Community College as a part-time physical education instructor and has never left. In 1964, Dr. Bickford assumed full-time employment status as the college's director of student activities and director. And, in 1967, he was appointed dean of the evening division, community instruction and summer sessions as the college moved to its new campus in Largo, Maryland.

In November 1972, Dr. Bickford was appointed to the position he currently holds, president of Prince George’s Community College.

In his tenure as president of Prince George’s Community College, Dr. Bickford has been honored time and time again by the community for his commitment to education. In 1981, he received the Citizen of the Year Award from the Board of Trade of Prince George’s County. In 1983, the George Washington University School of Education honored Dr. Bickford with the Outstanding Achievement Award. In 1991, the Prince George’s Community College new physical education addition was aptly named the “Robert I. Bickford Natatorium.”

But Dr. Bickford’s greatest honors lie in the legacy he leaves at Prince George’s Community College. During his tenure, the college’s budget increased from $7.7 million to $50 million. Annual enrollment increased from approximately 10,000 students to over 35,000 students. He doubled the number of academic programs and greatly increased minority student attendance at the college.

Dr. Bickford has left an indelible mark of excellence on Prince George’s Community College, leading it to its greatest level of achievement and success. He has made a profound impact on his students, his colleagues and his community in his many years of service to education in Maryland.

Today, on behalf of the citizens of the Fifth District of Maryland, I offer our thanks and our deepest gratitude for Dr. Bickford’s lifelong work to provide a quality education for so many of our residents and I congratulate him on his retirement.

HONORING DR. ROBERT BICKFORD

SPEECH OF
HON. GREG WALDEN
OF OREGON
IN THE HOUSE OF REPRESENTATIVES
Monday, May 24, 1999

Mr. WALDEN. Mr. Speaker, I would like to address the problems that occur when the federal government is the owner of a high percentage of the property in a given area. This week, my distinguished colleague from Virginia, Mr. Davis, has done his part to address these problems as they affect the District of Columbia. Mr. Davis’ bill, The District of Columbia College Access Act (H.R. 974), is a recognition of the fact that the federal government’s ownership of land in D.C. has so badly affected the income and infrastructure of the city that it has been unable to create a public university system that offers students a quality education at a reasonable cost. H.R. 974 would create a fund to allow students to attend public universities in other states at the in-state tuition rate, giving students from Washington, D.C. a better chance to succeed.

I salute my friend from Virginia for his effort to help students from one area where local tax rolls are hurt by having a large federal presence. I think he and others from the D.C. area would be surprised, however, to discover just how much they have in common with residents of the counties in the Second District of Oregon. In fact, while the federal government owns approximately 26% of the land in D.C., it owns nearly three times that percentage of Lake County (76%) in eastern Oregon and Deschutes County (77.5%) in central Oregon. In fact, in 10 of the 20 counties of the Second District, the Federal Government owns over 50% of the land, and thirteen of the 20 contain a greater percentage of federally owned land than does D.C.

Similar to the situation in D.C., this high percentage of federal land means that these counties have very limited taxable property, very heavy school district debt, roads, and other necessities. Exacerbating the problems for these Oregon counties is the fact that, unlike in D.C. where the federal government uses its land to employ people and contribute to the local economy, the Forest Service and BLM lands that dominate the Second District are increasingly off-limits to economic productivity. While in the Washington, D.C., counties could depend upon federal timber receipts, grazing fees, and other economic activity on federal lands to partially make up for low taxable property, in the 1990’s the Clinton administration has sacrificed the economic well-being of Oregon’s counties and turned its back on responsible management of federal lands. As you can see, Mr. Speaker, the prevalence of federal land that is closed to economic activity has created a serious problem for many counties in Oregon and elsewhere in the West.

I would like to once again thank my colleague, Mr. Davis, for addressing the problems created by federal land ownership in the District of Columbia. I hope that he and others from the East Coast will join me and my fellow Westerners in addressing the desperate needs of rural counties in Oregon and elsewhere in the West. Unfortunately, in some counties in Oregon, the question is not whether students can afford to go to college, but whether public schools can fix leaky roofs and counties can afford to maintain crumbling roads. These problems get to the most basic services provided by local government, and the federal government must be held accountable for the damage its land management policies have caused rural counties. I look forward to continuing to work with other Members of Congress to help counties in Oregon and other Western states provide decent schools, roads and other essential services to their students.

IN RECOGNITION AND HONOR OF JUDGE MARTHA GLAZE

SPEECH OF
HON. MAC COLLINS
OF GEORGIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. COLLINS. Mr. Speaker, I rise today to honor Judge Martha Glaze and her distinguished career. Judge Glaze’s twenty-two year career on the bench comes to an end in June, but her contributions to juvenile justice in Clayton County will long be remembered.

At a time when juvenile justice is at the forefront of national discussion, Clayton County and Georgia can be proud of Judge Glaze’s accomplishments in adopting innovative new approaches to serve children and their families. Judge Glaze’s leadership has been instrumental in bringing together professionals throughout Clayton County who work with children. This unity eliminated much of the conflict that often plagues juvenile justice programs across America.

On a personal level, Judge Glaze has always been a friend and responsive to the concerns of Third District residents. I thank her for her leadership and her devotion to our children. Her presence on the Clayton County Juvenile Court will be missed, but her impact will live on in the families of Clayton County.
EXTENSIONS OF REMARKS

TRIBUTE TO GILBERT COLLIER

HON. MARION BERRY
OF ARKANSAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. BERRY. Mr. Speaker, I rise today to honor a great Arkansan, a man who served our country in the Korean War, and is a Medal of Honor recipient, Mr. Gilbert Collier.

Mr. Collier served as a Sergeant in U.S. Army's Company F, 223rd Infantry Regiment, 40th Infantry Division near Tutayon, Korea in 1953. Sergeant Collier was pointman and assistant leader of a combat patrol. While serving his country in Korea, he was injured after he and his commanding officer slipped and fell from a steep, 60-foot cliff and were injured. Although he suffered a badly sprained ankle and painful back injury, Sergeant Collier stayed with his leader and ordered the patrol to return to the safety of friendly lines. Before daylight, Sergeant Collier and his commanding officer managed to crawl back up and over the mountainous terrain to the opposite valley where they concealed themselves in the brush until nightfall, then edged toward their company positions. Shortly after they were ambushed, Sergeant Collier received painful wounds after killing two hostile soldiers. He was also separated from his leader. Sergeant Collier ran out of ammunition and was forced to attack four hostile infantrymen with his bayonet. He was mortally wounded but made a valiant attempt to reach and assist his leader in a desperate effort to save his comrade's life without regard for his own personal safety.

This Memorial Day, all Americans will honor the men and women who fought for our country. I would like to pay a special tribute today to Sergeant Collier, who's life has been committed to the principles of duty, honor, and country. He is a courageous and outstanding Arkansan, who fought for the meaning of bravery and is truly a great American hero.

ARIZONA NATIONAL FOREST IMPROVEMENT ACT OF 1999

HON. BOB STUMP
OF ARIZONA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. STUMP. Mr. Speaker, the United States Forest Service is planning on exchangining or selling six unmanageable and/or excess parcels of land in the Prescott, Tonto, Kaibab, and Coconino National Forests. The Forest Service has also agreed to sell land to the city of Sedona for use as an effluent disposal system. If the Forest Service sells the parcels, they want to use the proceeds from five of these sales to pay for the construction or upgrade current administrative facilities at these national forests. The funds generated from the sale of the other parcels could be used to fund acquisition of sites, or construction of administrative facilities at any national forest in Arizona. Transfers of land completed under the Arizona National Forest Improvement Act will be completed in accordance with all other applicable laws, including environmental laws.

MISSING, EXPLOITED, AND RUNAWAY CHILDREN PROTECTION ACT

SPEECH OF

HON. SHEILA JACKSON-LEE
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, May 25, 1999

Ms. JACKSON-LEE of Texas. Mr. Speaker, as the chair of the Congressional Children's Caucus and a member of the National Missing and Exploited Children's Caucus, I rise to strongly support the Missing, Exploited, and Runaway Children Protection Act.

In 1990, the Department of Justice reported that annually there are approximately: 114,600 attempted abductions of children by non-family members; 4,600 abductions by non-family members reported to police; 300 abductions by non-family members where the children are gone for long periods of time or were murdered; 354,000 children abducted by family members; 450,700 children who ran away; and 127,100 children who were thrown away. These are children who are either told to leave their households, or abandoned or deserted.

We must do something to protect these children. The average age of a homeless runaway was 15 years old. Of all runaways, 66% of the males and 33% of the females have been assaulted since being on the streets. At the same time, 47% of the females have been sexually assaulted while they were without shelter. To make matters worse, female runaways between 13 and 16 years old, have a 50% likelihood of being raped in the first 90 days on the street.

And these children come from all sorts of neighborhoods. They are the children next door. Fifty-two percent of the youth come from families with at least some post high school education.

Based upon a study by Project Youth between 1989 and 1994, most homeless youth come from backgrounds marked by instability, dysfunction, and most homeless adolescents have a diagnosable psychiatric disorder. Forty-three percent of the youth had attempted suicide at least once. Homeless adolescents, when they receive appropriate treatment, significantly improve, lead healthier and happier lives, and are likelier to get off the streets.

This bill reauthorizes the Runaway and Homeless Youth Act and the Missing Children's Assistance Act through FY 2003, authorizing such sums as necessary for activities under those acts each year, and it amends the Missing Children's Assistance Act to authorize $10 million a year through FY 2003 for grants

Mr. Speaker, in essence, this bill will improve customer and administrative services by allowing the Forest Service to consolidate and update facilities and construct new facilities to more convenient locations. This bill will not only enhance services for national forest users in Arizona, but it will also facilitate the disposal of unmanageable, undesirable and/or excess parcels of national forest lands. This bill will also facilitate the construction of a much needed wastewater treatment plant for the city of Sedona.
to support activities of the National Center for Missing and Exploited Children.

Programs under the Runaway and Homeless Youth Act have received a total appropriation of $59 million in FY 1999, while existing activities under the Missing Children’s Assistance Act received a total of $17 million. The National Center for Missing and Exploited Children has received federal grants for the past 14 years, with the FY 1999 Commerce-Justice-State Appropriations Act earmarking $8 million for the center.

The measure authorizes $10 million a year for grants to the National Center, with the funds to be used to operate the national resource center and its 24-hour toll-free telephone line; provide assistance to families and law enforcement agencies in locating and recovering missing and exploited children; coordinate public and private missing children programs; and provide technical assistance and training to law enforcement agencies and others in preventing, investigating, prosecuting and treating cases of missing and exploited children.

The measure allows the Department of Health and Human Services (HHS) to establish a single consolidated application review process for funding requests under the law, but requires that funds be separately identified in all grants and contracts. As under current law, 90% of program funds would have to be used to establish and operate basic runaway centers and transitional living programs, with transitional living programs to receive between 20% and 30% of annual appropriations. Furthermore, this bill allows basic center grants to be used for drug education programs—which are crucial to making sure that children stay off the streets.

The bill also recodifies much of the act to remove duplicative provisions and more clearly defines the types of services that may be provided under the programs. It also allows HHS, in awarding grants, to take into consideration the geographical distribution of proposed services and areas of a state that have the greatest needs, and then requires HHS to conduct on-site evaluations of grant recipients that have received funds for three consecutive years—a good oversight provision. Furthermore, this bill requires HHS to report to Congress every two years on the status and activities of grant recipients, along with HHS evaluations of those grantees.

S. 249 also authorizes such sums as necessary through FY 2003 for the Sexual Abuse Prevention Program, under which HHS is authorized to make grants to private nonprofit agencies for street-based outreach and education activities to runaway, homeless and street youth who are at risk of sexual abuse. Along these lines, the bill requires HHS to conduct a study on the relationship between sexual abuse and running away from home.

Mr. Speaker, our purpose in passing this bill is to build awareness around the issue of missing children, find those who are currently missing and to prevent future abductions. By passing this legislation we will continue our efforts in identifying ways to work effectively in our districts to address this very important issue and stem future suffering amongst our families.

EXTENSIONS OF REMARKS

GALISTEBO BASIN INTRODUCTORY REMARKS

HON. TOM UDALL
OF NEW MEXICO
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. UDALL of New Mexico. Mr. Speaker, today I rise to introduce legislation to provide for the protection of various historical sites in the Galisteo Basin of New Mexico. The Galisteo Basin has a rich cultural history dating back to 1598 when Spanish Conquistadors arrived in the area and found thriving Pueblo Indian communities. These communities, dating back to prehistoric times, had their own unique traditions of religion, architecture and art. The interaction of the Spanish and Pueblo Indian cultures witnessed periods of coexistence and conflict which has contributed significantly to present day “New Mexican” culture. Protecting what remains of the early pueblo communities is important to New Mexicans and those who seek an understanding of early Southwestern history.

These sites include examples of stone and adobe pueblo architectural styles, typical of Native American pueblo communities, both prior to and during early Spanish colonization periods; Native American petroglyph art, and historic missions constructed by the Spaniards as they sought to convert the native populace to Catholicism. Unfortunately, many of these sites may be lost through weathering, erosion, vandalism, and amateur excavations. This legislation however, creates a program under the Department of the Interior to preserve twenty-six archeological sites in the Galisteo Basin, conduct additional archeological research in the area, and provide for public interpretation of the sites.

Although many of the sites are on federal public lands, other sites are on either state trust lands or on private property. Under this legislation, sites preservation, research and public interpretation would be conducted on federal public lands and could be augmented with voluntary cooperative agreements with state agencies and private land owners. These agreements would provide state and private landowners technical and financial assistance to preserve sites located on their property. This legislation also provides for the purchase or exchange of property where the parties deem it appropriate.

Mr. Speaker, this is a companion bill to a bill introduced in the other chamber by Senator Bingaman of New Mexico. By preserving these sites, we should be able to preserve the history and culture embodied in these sites for future generations. I am confident that this chamber realizes the importance of this bill in preserving New Mexican history for current and future generations. Therefore, I ask immediate consideration and passage of this bill.

CARDISS COLLINS POST OFFICE BUILDING, OTIS GRANT COLLINS POST OFFICE BUILDING, MARY ALICE (MA) HENRY POST OFFICE BUILDING, AND ROBERT LEFLORE, JR. POST OFFICE BUILDING

SPEECH OF
HON. DANNY K. DAVIS
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Monday, May 24, 1999

Mr. DAVIS of Illinois. Mr. Speaker, I am pleased to sponsor H.R. 1191, a bill to designate four postal facilities in the Seventh Congressional District of Illinois. The four persons who I seek to name these postal facilities after have a long history of being servants, activists heroes and heroines in their respective communities. In fact, the first person the Honorable Cardiss Collins is a former Member of Congress, and she served as the first woman member of the Government Reform Committee before she retired in 1996. She represented the residents of the Seventh Congressional District for 23 years. Mrs. Collins established herself as a real advocate for Airline Safety, protection of children, gender equity in College athletics, women’s health, establishment of the Office of Minority Health in HHS and has the distinction of...
being the longest serving African American female to serve in the House of Representatives.

In 1991, she wrote the law which extends Medicare Coverage for mammography screening, thereby, allowing millions of elderly and disabled women to receive this vital service. She was successful in praising legislation which expanded Medicaid coverage for pap smears in order to better provide for the early detection of cervical uterine cancers.

In 1979, Congresswoman Collins served as Chairperson for the Congressional Black Caucus and was the first African American woman to serve as a Democratic Whip at-large.

The second postal facility is named after Otis Grant Collins, who prior to his death in 1992, was recognized as one of the premier activists in apprenticeship training in this country. In addition, while serving as a State Representative in the Illinois General Assembly he was a champion of laws that protected minority communities from redlining.

The third postal facility is named after Mary Alice “Ma” Henry, who prior to her death in 1995, was recognized as one of Chicago’s most caring and compassionate community activists. She is remembered as a courageous leader for the poor, uninsured and left out of our society. In 1976, the Mary Alice “Ma” Henry Family Health Center was dedicated and now serves over 20,000 patients every year.

The fourth postal facility is named after former State Representative Robert LeFlore, Jr. who prior to his death in 1993, was recognized as a leading advocate for the disadvantaged and underprivileged. He was a tireless worker, on behalf of seniors and children and his contributions will be remembered a long time.

These individuals represent the best of Chicago and the nation. Their contributions have been significant and their legacies have been embedded in the communities they touched. Therefore, I am pleased to sponsor this bill on behalf of the greatest leaders in the African American community.

INTRODUCTION OF MEDICARE MODERNIZATION NO. 6: MEDICARE PREVENTIVE CARE IMPROVEMENT ACT OF 1999

HON. FORTNEY PETE STARK OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. STARK. Mr. Speaker, I am very pleased today to introduce the sixth bill in my Medicare modernization effort: the “Medicare Preventive Care Improvement Act of 1999.” This bill carries forward the overall theme of modernization: to improve the quality of health services for Medicare beneficiaries, and achieve potential savings for the program.

Medicare should provide state-of-the-art health services to its beneficiaries. But in order to achieve this, Medicare needs more flexibility to adapt and change with today’s ever-changing health sciences. Currently, Medicare relies on Congressional decision-making for too many of its day-to-day operations. For example, my colleagues and I have often been asked to consider whether or not to include additional services in Medicare’s benefits package. In order to do this, we have to weigh the costs and benefits of highly technical information that we know virtually nothing about. Often, our decisions are based more on political motivations than sound scientific analysis. This is no way to run a health insurance plan.

Fortunately, we have experts in the Department of Health and Human Services who are qualified to make these decisions. Now we just need to give them the authority to do so. The “Medicare Preventive Care Improvement Act of 1999” would allow the Secretary of Health and Human Services to make decisions about whether or not to cover new preventive health measures. If the Secretary determines that covering a new preventive service would be cost effective, she may implement it. The legislation allows the Secretary to make the final decision without the need for an Act of Congress.

In 1997, Congress passed a series of preventive health initiatives for Medicare including: Yearly Mammography Screening; Yearly Pap Smear; Prostate Cancer Screening; Colorectal Cancer Screening; Diabetes Self Management and Training Services (and coverage of blood test strips and glucose monitors); and Bone Mass Measurement tests (osteoporosis screening).

Recognizing the importance of preventive health care to the Medicare population, the BBA also provided for a study to analyze the potential expansion or modification of preventive and other services covered under Medicare. Unfortunately, the BBA did not take this commitment to preventive care one step further by allowing the Secretary to implement preventive services that are found to be cost effective. This bill leaves the technical, medical, cost-benefit analysis issues up to the Secretary and the expert doctors in the Department to resolve.

If we want Medicare beneficiaries to avail themselves of preventive services, we must make it simple and affordable for them to do so. This bill also makes two necessary improvements in that regard. Currently, some preventive services are subject to the $100 Part B deductible while others are specifically exempted from the application of the deductible. The Medicare Preventive Care Improvement Act would standardize the policy so that all preventive benefits are exempt from the deductible. In addition, under current Medicare rules, providers can balance bill for some preventive services, but not others. This legislation would firmly establish in law that balance billing for all preventive services is prohibited.

What type of preventive care services might be allowed under the bill I am introducing today? In recent years, I have received a number of letters and reports from kidney disease specialists saying that if Medicare were more flexible in providing care to those affected with end stage renal disease, we could save in many cases delay the onset of ESRD and the need for dialysis by months or even years.

Each year a person is on dialysis with terminal ESRD, it costs Medicare and the taxpayer $40,000 to $60,000. ESRD patients are consistently the most expensive patients enrolled in the program. Yet experts have said that dietary consultation, occasional dialysis and early placement of dialysis access, are all tools which can save money, pain, and improve the quality of life of ESRD patients. I do not know if these claims are valid. I am not a doctor. But HHS has the experts, and if the Department’s physicians and researchers find these claims are true, of course we should start to cover those preventive services. The Secretary should have the flexibility to provide these services when she finds that the evidence supports their use as cost-saving, quality-improving actions, without requiring an Act of Congress.

Another example of a qualified preventive service is independent living services for the blind. When someone is stricken with blindness, they can access several training programs that help them learn to live independently. Without this training, blind persons risk becoming institutionalized. Until this bill, if the Secretary determines that rehabilitation such as this would prevent a blind person from having to move to a more intensive setting, she may cover such services.

Modern medicine keeps developing new miracles to delay or prevent terrible illnesses. If Medicare is to be a modern health insurance plan, it must be able to cover these preventive care services quickly. Forward looking treatments like those included in the BBA take the position that a disease prevented is a dollar saved. Logically, if we prevent diseases from occurring, Medicare will save money in the long run. In the case of Medicare, the savings can be considerable. The bill I am introducing today gives the Medicare Administrator the tools to use modern health advances to save lives and money.

The BBA of 1997 was a good first step, but did not go far enough toward improving the overall service available to Medicare beneficiaries. The “Medicare Preventive Care Improvement Act of 1999” provides for greater flexibility to adopt preventive health measures without having Members of Congress play doctor.

IN HONOR OF ST. COLUMBKIILE PARISH SCHOOL

HON. DENNIS J. KUCINICH OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. KUCINICH. Mr. Speaker, I rise today to honor S. Colombkille Parish School, which has been named a 1999 Blue Ribbon School of Excellence by the U.S. Department of Education.

Only 266 schools in the country earned this prestigious award this year. Blue Ribbon Schools are considered to be models of both excellence and equity where educational excellence for all students is a high priority. St. Colombkille Parish School had to demonstrate its effectiveness in meeting local, state and national educational standards.
national educational goals and had to success-fully complete a rigorous application proc-ess. The Ribbon Schools must offer instruc-tional programs that meet the highest aca-demic standards, have supportive and learn-ing-centered school environments, and dem-onstrate student outcome results that are sig-nificantly above average.

This is a great achievement for the stu-dents, parents, teachers and staff. The hard work of the teaching and administrative staff at St. Columbkille Parish School, combined with the outstanding involvement of parents, has created an excellent climate for learning. The entire St. Columbkille Parish School community should be very proud of this national rec-ognition. Its academic programs and environ-ment will serve as a model for schools across the country.

My fellow colleagues, please join me in con-gratulating the students, teachers and adminis-tration of St. through the Parish School for their commitment to excellence.

RECOGNIZING AND HONORING MEDAL OF HONOR RECIPIENTS AND COMMENDING IPALCO ENTERPRISES

HON. JULIA CARSON
OF INDIANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Ms. CARSON. Mr. Speaker, the end of May brings us to Memorial Day, a time of national remembrance and honor for those who have passed on. Once known as Decoration Day, devoted to the decoration of the graves of vet-erans of service in the Civil War, in the years between its focus has changed.

I rise to pay a special tribute to a man of vi-sion and the company he leads in Indiana-polis, Indiana, for their work this year to bring the Memorial Day tradition back to our minds and our hearts in a new and important way.

Mr. Speaker, downtown Indianapolis is lined with stone memorials to the men and women in uniform who served our nation at war and at peace down through the years. Nearby, a memorial to the men of the USS Indianapolis marks their service. On Monument Circle, at the very heart of downtown Indianapolis, stands the Soldiers’ and Sailors’ Monument, standing nearly as tall as the Statue of Liberty, a multifaceted recognition of the contributions of Indiana’s Soldiers, Sailors and Marines from the Civil War through the Spanish American War, the Boxer Rebellion and our other for-eign military engagements up to World War I. Across the street, facing the monument, is the corporate headquarters of IPALCO. Look-ing out upon that memorial are the offices of John Hodowal, President and Chairman of the Board.

For many years, Memorial Day has been associated with a world-famous sporting event—the Indianapolis 500. In our hometown, the arrival of the weekend of the race is cele-brated with a major civic event, the 500 Fest-i-val Parade, through our city’s downtown, passing block after block of those memorials.

Just last June, John Hodowal and his wife Caroline were reading an article in The New York Times about America’s winners of the Congressional Medal of Honor. They learned to their dismay that, since the Civil War, 3400 heroes and heroines had earned the honor but that there was no place in America devoted to their remembrance. Then came the glimmer of an idea.

This year, thanks to the civic virtue of John Hodowal, and the civic enterprise of the cor-poration he leads, IPALCO Enterprises and the IPALCO Enterprises Foundation, some-thing truly special is planned.

While IPALCO deserves praise for leading the 500 Festival this year, there is more. The Hodowals’ idea has produced a wonderful new memorial in honor of those special American heroes who, for military service above and be-yond the call of duty, were awarded the Con-gressional Medal of Honor down through the years of our history as a nation.

In recognition of the valor of these American heroes and to commemorate IPALCO for its generosity, I have sponsored a resolution hon-oring these champions.

This Memorial Day weekend in Indianapolis, nearly 100 of the 157 surviving Medal of Honor recipients will be honored as special guests for the dedication of the memorials and will serve as honorary Grand Marshals of the parade.

Our remembrance this day of those who earned our nation’s highest military recognition by their heroism is a wondrous way to com-memorate the service of all veterans.

For Mr. Hodowal’s idea, expressed in glass and sound and light and stone, transcends and transforms the traditional notion of such honors in our city. This monument, reminding and inspiring all who walk by the bank of the canal in Military Park, is an important piece, a cen-tral place, for the eternal honor these heroes are due.

For Mr. Hodowal, and for IPALCO Enter-prises, this day is yours, as well. I am prouder than words can express to say that I know you. For this gift to the city and to the nation, for your civic service above and beyond the call, I salute you.

DON’T ABANDON PUBLIC SCHOOLS

HON. MAJOR R. OWENS
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. OWENS. Mr. Speaker, Washington is bloated with rhetoric about education reform. But when we examine the actual programs and projects being proposed there is a trem-endous shortfall between the giant needs and the tiny proposed solutions. Our nation’s children are being denied adequate Opportuni-ties-to-Learn. The opportunity to learn begins with a safe, conducive school building. But the federal government is spending almost nothing to improve the education infrastructure of school systems across the nation. We ne-glect and abandon school buildings we send a highly visible signal to our children and their parents. The message is that Congress members only want to play word games about education. The situation is ser-ious, however, and requires a significant ap-propriation of dollars. For a mere 417 dollars per student per year we can turn the current Blue Ribbon process toward. It is time that this minimum effort we are stumbling into a process where our cities will be doomed to pa-ralysis and deadly shrinkage. The following RAP poem sums up the looming possible fate of our neglected cities. Also, attached is a Dear Colleague letter recognizing co-sponsor-ship of H.R. 1820, an amendment to the Ele-mentary and Secondary Schools Assistance Act. H.R. 1820 provides adequate direct fed-eral appropriations for school construction, modernization, repair, technology, security and renovation.

URBAN CLEANING
Forget all Godly rules
Go strip them of their schools
Leave neighborhoods naked
Ethnic cleansing is now banned
But urban shrinkage is still planned
Budgets will be raped
Streets left uncertain
Cops mandated to act real mean
Forget all Godly rules
Don’t pay for education tools
Go strip them of their schools
Ethnic cleansing is now banned
But urban shrinkage is still planned.

IN THE YEAR 2000 WE LAUNCH THE MARCH TO-WARD A NEW CYBERCIVILIZATION—WE ARE SPENDING 218 BILLION DOLLARS ON HIGHWAYS AND ROADS IN SIX YEARS

LET US INVEST HALF THIS AMOUNT—110 BILLION—IN FIVE YEARS TO BUILD, REPAIR AND MODERNIZE SCHOOLS

DEAR COLLEAGUE: Please join me as a co-sponsor for H.R. 1820, an amendment to the Elementary and Secondary Education As-sistance Act which mandates a worthy fed-eral investment in education for the children of America. Public opinion polls consistently show that our voters consider Federal Aid to Education as the nation’s number one prior-ity. We must now move beyond paltry pilot projects in our response to this long-term public outcry.

H.R. 1820 commits the Federal government to make the contribution most suitable to its purpose. Through direct appropriations we must make capital investments in the school infrastructures. Offer leadership in the build-ing of schools and then leave the details of the day to day operations to local and state authorities.

H.R. 1820 proposes to help all schools by authorizing a per capita (on the basis of school age children) distribution of the allo-cations for the purposes of modernization, security, repair, technology and renovations as well as new school construction. H.R. 1820 deserves national priority consid-eration for the following reasons:

The best protection for Social Security is an educated work force able to qualify for hi-tech jobs and steadily pay dollars into the Social Security trust fund.

The effective performance of our military in action utilizing hi-tech weaponry requires an educated pool of recruits.

The U.S. economy will continue to be the pace setter for the globe only if we maintain a steady flow of qualified brainpower and up-dated know-how at all performance levels—theoretical, scientific, technical and me-chanical.

Invest in education and all other national goals become reachable.

Sincerely,

MAJOR R. OWENS, Member of Congress.
EXTENSIONS OF REMARKS

TO AMEND TITLE XII OF THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965 TO PROVIDE GRANTS TO IMPROVE THE INFRASTRUCTURE OF ELEMENTARY AND SECONDARY SCHOOLS.

SEC. 12001. FINDINGS.

(1) There are 52,700,000 students in 88,220 elementary and secondary schools across the United States. The current Federal expenditure for education infrastructure is $12,000,000. The Federal expenditure per enrolled student is $23 cents. An appropriation of $22,000,000,000 would result in a Federal expenditure for education infrastructure of $417 per student per fiscal year.

(2) The General Accounting Office in 1995 reported that the Nation’s elementary and secondary schools need approximately $112,000,000,000 to repair or upgrade facilities. Increased enrollments and continued building decay has raised this need to an estimated $200,000,000,000. Local education agencies, particularly those in central cities or those with populations that do not obtain adequate financial resources to complete necessary repairs or construction. These local education agencies face an annual struggle to meet their operating budgets.

(3) According to a 1991 survey conducted by the American Association of School Administrators, 74 percent of all public school buildings need to be replaced. Almost one-third of such buildings were built prior to World War II.

(4) The majority of the schools in unsatisfactory conditions are concentrated in central cities and serve large populations of poor or minority students.

(5) In the large cities of America, numerous schools still have polluting coal burning furnaces. Decaying buildings threaten the health, safety, and learning opportunities of students. A growing body of research has linked student achievement and behavior to the physical conditions and overcrowding. Asthma and other respiratory illnesses exist in average above normal rates in areas of coal burning pollution.

(6) According to a study conducted by the General Accounting Office in 1995, most schools are unprepared in critical areas for the 21st century. Most schools do not use modern technology and lack access to the information superhighway. Schools in central cities and schools with minority populations above 50 percent are more likely to fall short of adequate technology elements and have a greater number of unsatisfactory environmental conditions than other schools.

(7) School facilities such as libraries and science laboratories are inadequate in old buildings and have outdated equipment. Frequently, in overcrowded schools, these same facilities are utilized as classrooms for expanding school population.

(8) Overcrowded classrooms have a dire impact on learning. Students in overcrowded schools score lower on both mathematics and reading exams than do students in schools with adequate space. In addition, overcrowding in schools negatively affect both classroom activities and instructional techniques. Overcrowding also disrupts normal operating procedures, such as lunch periods beginning as early as 11 a.m. and extending into the afternoon; teachers being unable to use a single room for an entire day; too few lockers for students, and jammed hallways and restrooms which encourage disorder and rowdy behavior.

(9) School modernization for information technology is an absolute necessity for education for a coming CyberCivilization. The General Accounting Office has reported that many schools are not using modern technology and many students do not have access to facilities that can support education into the 21st century. It is imperative that we now view computer literacy as basic as reading, writing, and arithmetic.

(10) Both the national economy and national security require an investment in school construction. Students educated in modern, safe, and well-equipped schools will contribute to the continued strength of the American economy and will ensure that our Armed Forces are the best trained and best prepared in the world. The shortage of qualified information technology workers continue to escalate and presently many foreign workers are being recruited to staff jobs in America. Military manpower shortages of personnel capable of operating high tech equipment are already acute in the Navy and increasing in other branches of the Armed Forces.

SEC. 12003. FEDERAL ASSISTANCE IN THE FORM OF GRANTS.

(4) AUTHORITY AND CONDITIONS FOR GRANTS. (a) IN GENERAL.—To assist in the construction, reconstruction, renovation, or modernization for information technology of elementary and secondary schools, the Secretary shall make grants of funds to State educational agencies for the construction, reconstruction, or renovation, or for modernization for information technology, of such schools.

(b) FORMULA FOR ALLOCATION.—From the amount appropriated under section 12006 for any fiscal year, the Secretary shall allocate each State an amount that bears the same ratio to such appropriated amount as the number of school-age children in such State bears to the total number of school-age children in all the States. The Secretary shall determine the number of school-age children on the basis of the most recent satisfactory data available to the Secretary.

SEC. 12006. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this title, $22,000,000,000 for fiscal year 2000 and a sum no less than this amount for each of the 4 succeeding fiscal years.

ASTHMA AWARENESS, EDUCATION AND TREATMENT ACT

HON. JUANITA MILLENDER-MCDONALD OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Ms. MILLENDER-MCDONALD. Mr. Speaker, today I was honored to be joined by six-time Olympic medalist, Jackie Joyner-Kersee, for the unveiling of the Asthma Awareness, Education and Treatment Act. I am introducing tonight. I am joined by 35 of my colleagues from both sides of the aisle introducing this important legislation to help children suffering from asthma.

Over the past several weeks, the safety, health and well-being of America’s children have been in the hearts and minds of parents and teachers throughout the land. Today, we are addressing a critical health issue that is affecting the health of our children: asthma.

The Asthma Awareness, Education and Treatment Act establishes a grant to reach out to inner-city, minority and low income communities to fight asthma. Some of the initiatives include: asthma and allergy screenings; education programs for parents and teachers; a nationwide media campaign; tax incentives for pest control and air climate control businesses to alleviate the suffering of asthmatic children; and community outreach through nontraditional medical settings, including schools and welfare offices.

We must act now to help our children breathe more easily. African-Americans are five times more likely than other Americans to seek emergency room care for asthma. The asthma death rate is also twice as high among African-Americans and a staggering four times higher for African-American children. Asthma is also more prevalent among all age groups in lower income families. In families with an annual income of less than $10,000, 79.2 out of 1,000 individuals have asthma while in families with an annual income of $20,000 to $34,999, 53.6 out of 1,000 individuals have asthma—that means close to 400,000 more people with extremely limited earnings have asthma.

Whatever your income, we are all paying the price for the 160 percent increase in asthma among preschool children over the past decade. The total cost of asthma to Americans was close to $12 billion last year. Simply put, parents miss work, children miss school, and too many cases are treated in emergency rooms that could have been treated, or in some cases prevented, by medication and ongoing management by a physician.

Today, we are taking steps to curb this staggering growth in asthma cases, its high cost to society, and its disproportionate effect on minorities and low income families. With the Asthma Awareness, Education and Treatment Act, we will empower teachers, parents, coaches, and anyone who works with children to help those with asthma.

I represent some of the poorest areas of the country in South Central Los Angeles. I have seen the dire need for community assistance. And I know the tax incentives in this bill will jump start businesses that can make our communities better and ultimately save lives that otherwise may have been cut short by asthma.

I have been working with the Allergies and Asthmatics Network/Mothers of Asthmatics, the American Medical Women’s Association, the American Lung Association, the Children’s Environment Network, the Children’s Defense Fund, the American Academy of Pediatrics, and the National Association of Children’s Hospitals to help children and their families face and manage this critical disease.

I hope that my colleagues will join me, Jackie Joyner-Kersee and all of these groups in raising awareness of asthma and making sure that this bill is brought to the floor as soon as possible.
HONORING LEELA DE SOUZA AS A WHITE HOUSE FELLOW

HON. BOBBY L. RUSH
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. RUSH. Mr. Speaker, it is with great pleasure today that I rise to commend Leela de Souza of Chicago, Illinois in recognition of her achievements this year as a distinguished White House Fellow.

A native of Chicago, Ms. de Souza graduated Phi Beta Kappa from the University of Chicago, earning an AB in biopsychology. She received her MBA degree from Stanford University Graduate School of Business. After college, she moved to Spain and became a volunteer teacher at the American School of Madrid. Prior to college, at the age of 18, she became a professional ballet dancer. By age 23, she was the prima ballerina for the Hubbard Street Dance Company, one of America’s premier contemporary dance troupes. Ms. de Souza is a management consultant with McKinsey & Co. in San Francisco, where she works with clients in the packaged goods, energy and health care industries. In addition to her professional career, she has done extensive pro bono work with two national symphonies. Ms. de Souza has also been involved as a mentor and tutor in the I Have a Dream Program in East Palo Alto, California, and serves on the Business Arts Council of San Francisco.

Established in 1965, the White House Fellowship program honors outstanding citizens across the United States who demonstrate excellence in community service, leadership, academic and professional endeavors. The nearly 500 alumni of the program have gone on to become leaders in all fields of endeavors, fulfilling the fellowship’s mission to encourage active citizenship and service to the nation. It is the nation’s most prestigious fellowship for public service and leadership development.

As a White House Fellow, Ms. de Souza serves in a position with the Office of the First Lady. She works at the White House Millennium Council to help create national projects and initiatives to celebrate the promise of the new millennium. In this capacity, Ms. de Souza assists with various initiatives such as Millennium Evenings at the White House and Save America’s Treasures. She is also the acting liaison with several of the First Lady’s millennium projects, including speech writing, federal agency millennium initiatives, and with non-governmental organizations seeking to partner with the White House on national millennium projects.

Mr. Speaker and fellow colleagues, it is an honor to pay tribute to Leela de Souza for her outstanding service as a White House Fellow.

EXTENSIONS OF REMARKS

HEALTH INFORMATION PRIVACY ACT

HON. EDWARD J. MARKEY
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. MARKEY. Mr. Speaker, last night I joined Mr. CONDIT and Mr. WAXMAN in introducing the Health Information Privacy Act of 1999, the “Condit-Waxman-Markey” bill.

Without question, the rapid advance of the Information Age is revolutionizing the American economy and forcing the evolution of new relationships both good and bad. There is no area of its development that causes more anxiety for ordinary people than the area of privacy. And there is no area of privacy that causes more anxiety for Americans than the privacy of their most personal health information.

Today, we are experiencing the erosion of our medical privacy. With the stroke of a few keys on a computer or the swipe of the prescription drug card, our personal health information is being accumulated and tracked.

This erosion of our privacy threatens the very heart of quality health care—doctor/patient confidentiality. By undermining this sacred relationship, we destroy the trust that patients rely on for peace of mind, and doctors depend on for sound judgment.

In an HMO today, anywhere from 80–100 employees may have access to a patient’s medical record according to the Privacy Rights Clearinghouse in San Diego California. With such unrestricted access to one’s personal health information, it’s impossible to separate the health privacy keepers from the “just curious” peepers.

Not to mention the greatest threat to your medical privacy—the information reapers.

The evolution of technology has provided the ability to compile, store and cross reference personal health information, and the dawning of the Information Age has made your intimate health history a valuable commodity.

Last March, the Wall Street Journal wrote about the ultimate information reaper—a company that is “seeking the mother lode in health ‘data mining’”. This company is in the process of acquiring medical data on millions of Americans to sell to any buyer.

Currently there is no federal medical privacy law to constrain the information reapers as they delve into large data bases filled with the secrets of millions of individuals. These data bases represent a treasure chest to privacy pirates and every facet of your medical information represents a precious jewel to be mined for commercial gain.

With this unfettered access, patient confidentiality has become a virtual myth, and the sale of your secrets a virtual reality.

Because of the rapid evolution of technology, we have fallen behind in assuring a right that we have come to expect—the fundamental right to keep our personal health information private.

Due to the deadline imposed by the Health Insurance Portability and Accountability Act 1996, Congress has until August 21st to enact a medical privacy law. We have no time to waste. Now is the time to unite in an effort to move legislation forward. The Condit/Waxman-Markey bill is a good consensus and comes at a time when consensus is crucial.

This bill creates an incentive to use information which is not personally identifiable wherever possible, it would require a warrant for law enforcement to access medical records and it would provide a federal floor creating a uniform standard without preempting stronger state laws.

I look forward to working with Rep. CONDIT and Rep. WAXMAN and the rest of my colleagues in the House of Representatives on this important issue. I believe together we will succeed in passing a strong federal medical privacy bill which will give patients the right they deserve—the right to medical privacy.

CRISIS IN KOSOVO (ITEM NO. 6), REMARKS BY AMBASSADOR JONATHAN DEAN, UNION OF CONCERNED SCIENTISTS

HON. DENNIS J. KUCINICH
OF OHIO
IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. KUCINICH. Mr. Speaker, on May 6, 1999, I joined with Representative JOHN CONYERS, Representatives PETE STARK, and Representative CYNTHIA MCKINNEY to host the third in a series of Congressional Teach-In sessions on the Crisis in Kosovo. If a peaceful resolution to this conflict is to be found in the coming weeks, it is essential that we cultivate a consciousness of peace and actively search for creative solutions. We must construct a foundation for peace through negotiation, mediation, and diplomacy.

Part of the dynamic of peace is a willingness to engage in meaningful dialogue, to listen to one another openly and to share our views in a constructive manner. I hope that these Teach-In sessions will contribute to this process by providing a forum for Members of Congress and the public to explore alternatives so the bombing and options for a peaceful resolution. We will hear from a variety of speakers on different sides of the Kosovo situation. I will be introducing into the CONGRESSIONAL RECORD transcripts of their remarks and essays that shed light on the many dimensions of the crisis.

This presentation is by Ambassador Jonathan Dean, who joined the Union of Concerned Scientists in 1984 as advisor on international security issues. He was United States Representative to the NATO-Warsaw Pact force reduction negotiations in Vienna between 1978 and 1981. Before that, he was deputy U.S. negotiator for the 1971 Four Power Berlin Agreement with the Soviet Union.

Ambassador Dean discusses the need to negotiate a peace with Russia as the leading mediator. With regards to the peace keeping force to be in place after the conflict, Mr. Dean reiterated the necessity to have a UN peacekeeping force in place rather than a NATO led force. He also addresses the importance of having more preventative measures in place to help avert such conflicts in the future.
I think the big lesson of this entire experience should be that we do have to start with conflict prevention, in the whole meaning of that term, very clearly, as a necessary assurance against a very probably degeneration of this kind of armed conflict. The better off we will be as a nation to adapt that as part of our national interest, and part of our activities and to do so early. I am saying this with a sense ax to grind. Mr. Chairman, and my colleagues have a program called Global Action to Prevent War which is also directed at preventing future Kosovos. You can find it on the World Wide Web.

INTRODUCTION OF THE EDUCATIONAL EXCELLENCE FOR ALL CHILDREN ACT OF 1999

HON. WILLIAM (BILL) CLAY
OF MISSOURI

Wednesday, May 26, 1999

Mr. CLAY. Mr. Speaker, today I am introducing the Educational Excellence for All Children Act of 1999 (ESEA). This proposal will reauthorize the Elementary and Secondary Education Act (ESEA). This will reauthorize our government’s single largest investment in elementary and secondary education. Through a comprehensive reauthorization, the President will reaffirm and strengthen the Federal role in promoting academic excellence and equal educational opportunity for every American.

This reauthorization of ESEA comes at a critical time for our country. The restructuring of ESEA that was done during the last review in 1994, to establish challenging State-developed standards and assessments, put us on the path to greater academic achievement for all students. This legislation builds upon this focus and targets improvement towards the lowest performing schools and students through comprehensive interventions and assistance, and if necessary, requires consequences for non-success in these schools. Overall, this reauthorization gives Congress the opportunity to complete the work done in 1994 by strengthening our focus on quality and accountability for results.

Coupled with the strong emphasis on achievement in this bill is an equally vigorous and complimentary focus on improving the quality of our teaching force. Qualified teachers are the most single critical in-school factor in improving student achievement. Unfortunately, too many of our teachers still do not receive on-going high-quality professional development. This bill refocuses the professional development programs in ESEA to bring the...
challenging academic standards which all States have developed into the classroom. In addition, this legislation authorizes the President's high-priority $100,000 teacher class-size program enacted as a part of last year's appropriation process. We must ensure that all children in America have talented, dedicated, teachers in small classes and this bill puts on this path.

Another important priority in this legislation is the fostering of supportive learning environments which reduces the likelihood of disruptive behavior and school violence while encouraging personal growth and academic development. This legislation strengthens the Safe and Drug-Free Schools and Act by emphasizing the funding of research-based approaches to violence prevention; expands the comprehensive prevention efforts through the Safe Schools/Healthy Students initiative; and encourages reform of America's high schools through increased individualized attention and learning.

In 1994, Congress and the President worked together to set standards for all children and to provide a quality education for them to achieve those standards. Five years later, there is evidence that standards-based reform has increased achievement in many states, while helping spark reforms in others. With this bill, we must build upon the accomplishments of 1994. We can no longer tolerate lower expectations and results for poor and disadvantaged students. We must take the next step by helping schools and teachers bring high standards into every classroom and help every child achieve. The legislation I am introducing today will provide us with the tools to accomplish these vital missions.

TRIBUTE TO THREE MISSOURI PHYSICIANS: DR. GREGORY GUNN, DR. RAY LYLE, AND DR. RUTH KAUFMAN

HON. IKE SKELTON
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. SKELTEN. Mr. Speaker, let me take this opportunity to pay tribute to three excellent physicians who have devoted most of their lives to healing. These dedicated doctors practiced together at the Gunn Clinic in Versailles, Missouri, for over forty years.

Dr. Gregory Gunn is a fourth generation physician. He began as a country doctor, making house calls from Jefferson City to Sedalia. He performed difficult surgeries when internal medicine was still an unexplored territory. He thrived on working long hours, as his shifts often lasted 36 hours at a stretch, with only 12 hours off between them. Dr. Gunn also served for 16 years as the coroner of Morgan County, Missouri. He continues to be fascinated by the waltz of medicine and loves the daily challenges it presents him.

Dr. Ray Lyle served at the Gunn Clinic from August, 1952, until his retirement on August 31, 1995. As a family physician, Dr. Lyle treated patients of all ages with consistent kindness and compassion, whether treating the sick, saving lives, making house calls or delivering babies. He served as a member and fellow of the American Academy of Family Physicians, as a Diplomat of the American Board of Family Physicians, and as President of the Missouri Academy of Family Physicians. As well as a competent physician, Dr. Lyle has also been an active participant in community affairs, contributing to such organizations as the Boy Scouts of the County School Board, Chairman of the Versailles Industrial Trust, Morgan County Coroner, Mid-Mo P.R.S.O. Chairman and charter member of the Rolling Hills Country Club. He also served his country as a Lieutenant Commander in the Medical Corps of the Naval Reserve.

Dr. Ruth Kaufman also selflessly served the people of the City of Versailles and Morgan County as a family physician with the Gunn Clinic from 1949 until her retirement on August 2, 1996. In her first year of practice, she performed 65 home deliveries. She served as a member of the American Medical Association, the Missouri State Medical Association, and was both a member and fellow of the American Academy of Family Physicians. She, too, was active in the community as Methodist Civic Chairman, Morgan County Coroner, Medical Director at Good Shepherd Nursing and Family Planning doctor at the Morgan County Health Center. She was also involved with Girl Scouting and as a charter member of the Rolling Hills Country Club.

Mr. Speaker, I know the Members of the House will join me in paying tribute to these fine Missourians for their unselfish dedication to the people and community of Versailles, Missouri.

ASIAN PACIFIC AMERICAN HERITAGE MONTH

SPEECH OF
HON. TOM LANTOS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 25, 1999

Mr. LANTOS. Mr. Speaker, I invite my colleagues to join me in celebrating Asian/Pacific American Heritage month from May 1 to May 31, 1999.

Mr. Speaker, the greatness of our nation rests in its diversity: the diversity of its ideas, the diversity of its experiences, and, above all, the diversity of its peoples. America's institutions are constantly being reinvigorated by the vitality of our country's component communities, with their distinct but equally wondrous values. These distinct cultures fuses together to form a magnificent social mosaic, one made bolder and more dynamic by the contributions of citizens of diverse national origins. We learn from each other, and we share with each other the dividends of our differences.

Throughout the month of May, we celebrate the achievements of millions of Americans by commemorating Asian/Pacific American Heritage Month. This year's theme, "Celebrating Our Legacy," calls attention to the extraordinary gifts that Asian and Pacific Americans have bestowed upon our nation. From the scientific community to the sports world, from the arts to the Internet, the perseverance and patriotism of Asian and Pacific Americans add to this country's greatness.

Internet pioneers such as Jerry Yang prepare our economy for the twenty-first century, while Dr. David Ho leads the crusade against one of the new millennium's most alarming dangers: AIDS. Congressman Bob Matsui and Congresswoman Patsy Mink stand at the forefront of our government's fight for civil rights and social justice, and respected ABC news correspondent Connie Chung keeps America informed about these challenges and others with her insightful investigative report. This nation's cultural heritage has been enriched by the musical brilliance of Seiji Ozawa and Yo-Yo Ma, the creative genius of author Deepak Chopra and fashion designers Vera Wang, and the athletic skills of golfing superstar Tiger Woods and Olympic figure skating legends Kristi Yamaguchi and Michelle Kwan.

Mr. Speaker, these exceptional contributions are all the more evident when one considers the formidable obstacles which Asian and Pacific Americans had to overcome to achieve them. Their long history has featured pervasive discrimination in the form of restrictive quotas, unfounded stereotypes, and, all too often, violent hate crimes. The most infamous example of this bigotry involved the forced detention of Japanese-Americans during World War II, when innocent men, women, and children were expelled from their homes and banished to camps in remote parts of the country. This outrage remains a permanent stain on the history of the American people, sullying an otherwise proud record of support for human rights and individual dignity.

While the American government officially questioned the patriotism of Japanese-Americans on our West Coast, other Japanese-Americans serving in our nation's armed forces in remote corners of the globe were demonstrating the fallacy of such unjust accusations. During the Second World War, the Japanese-American 100th Infantry Battalion and 442nd Regimental Combat units earned more than 18,000 medals for bravery and valor in battle—52 Distinguished Service Crosses, 560 Silver Stars, and 9,480 Purple Hearts. The 442nd remains to this day the most decorated combat team of its size in the history of the United States Army. Yet, while the brave soldiers of these units were risking their lives to preserve freedom, the government for which they so courageously fought was evicting their family members from their homes and communities.

Mr. Speaker, this is only one of a multitude of examples of Asian and Pacific Americans combating the hurdles of prejudice and discrimination to make a difference in every sector of society. It is these innumerable stories of perseverance and success that we celebrate Asian/Pacific American Heritage Month.

Mr. Speaker, I ask my colleagues to join me in celebrating the legacy of all Americans of Asian and Pacific descent.
ASThma Awareness Month

HON. CARRIE P. MEEK
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mrs. MEEK of Florida. Mr. Speaker, this is Asthma Awareness Month. I rise to commend my colleagues, the gentile ladies from California, Congresswoman JANUETA MILLER-McDONALD, and the gentilelady from Maryland, Congresswoman CONSTANCE A. MORELLA, for introducing the Asthma Awareness, Education And Treatment Act, and for their leadership in protesting America's children, minorities, women and the poor from the devastating effects of asthma.

Asthma is a chronic respiratory disease characterized by inflammation of the airways, and increased responsiveness to various stimuli commonly triggered. Many episodes involve progressively worsening shortness of breath, cough, wheezing, or chest tightness, or some combination of these systems. The severity of asthma may range from mild to life-threatening.

An estimated 14.6 million persons in the United States have asthma. The Centers For Disease Control and Prevention reported a 61 percent increase in the asthma rate between 1982 and 1994. According to The American Lung Association, more than 5,600 people die of asthma in the United States annually. This represents a 45.3 percent increase in mortality between 1985 and 1995.

The death rate from asthma for African Americans is almost three times that of whites. Among chronic illnesses in children, asthma is the most common. Approximately 33 percent of asthma patients are under the age of 18.

In the United States, asthma is the number one cause of school absences attributed to chronic conditions, leading to an average 7.3 school days missed annually. One study estimated that in 1994, school days lost to asthma amounted to 32 million in a caretaker's time lost from work, including outside employment and housekeeping.

Low income families are struck the hardest by asthma. Seventy nine of every 1,000 people under 45 years old earning less than $10,000 per year have asthma. Fifty three of every 1,000 people earning less than $35,000 per year have asthma.

The American Lung Association has been fighting lung disease for more than 90 years. With the generous support of the public and the help of volunteers, they have seen many advances against lung disease. However, the fight against asthma is far from won and governmentmust do more if we are to conquer this dreaded disease.

We must work with community-based organizations to educate one another on this serious illness and how it can be managed through medication, clean environments, and regular physical activity. We must provide screening for asthma in non-traditional medical settings; we must establish a nationwide media campaign to educate the public about the symptoms of asthma, and the treatment for asthma.

Most importantly, we must create clean environments. To do so, we must take appropriate measures to eliminate dustmites, animal dander, cockroaches, and mold and poor ventilation in schools, child care centers and homes. I am proud to be an original cosponsor of the Asthma Awareness, Education And Treatment Act.

As we look forward to the millennium, working together with the American Lung Association and other community-based organizations all over America, we can ease the burdens of asthma and make breathing easier for everyone.

IN HONOR OF NATIONAL FOSTER PARENT AWARENESS MONTH

HON. JULIA CARSON
OF INDIANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Ms. CARSON. Mr. Speaker, this month marks the 11th observance of the National Foster Parent Awareness Month. Originally conceived at the 1987 National Foster Parent Training Conference, National Foster Parent Awareness Month is the impetus for communities around the nation to host activities and events to honor foster parents for making a difference in the lives of children in foster care.

In my home state of Indiana, nearly 15,000 children are in the foster care system. Nationwide, the number is an alarming one half million children. These children often have special needs. They are victims of physical abuse, sexual abuse or neglect. They may suffer emotional, behavioral or developmental problems that range from moderate to severe. Most children reside only temporarily with foster parents, until it is considered safe for them to return home. A child's stay with foster parents can be as short as one night or as long as several years or more.

This month we honor the individuals and families who open their homes and hearts to the children in need of a safe and nurturing living environment—Foster Parents. Foster parents can be single, married or divorced. They own homes or live in apartments. Some are as young as 21 years old while others are retired. What they have in common is that they have demonstrated attentiveness, tenacity, patience and empathy along with a willingness to grow and learn from the experience of fostering and an equal capacity to love and let go. Foster parents provide a vital service to our nation's displaced children. They are a valuable resource for families and children.

Their work is extremely difficult, knowing that they are working to help reunite a child with a biological parent, or care for a child until that child is adopted.

Mr. Speaker, while I rise today to praise and applaud foster parents for the very important work they do, I want to acknowledge an amazing organization and an outstanding individual, from my District, supporting the foster care system.

Because foster parents take on the awesome responsibility of providing both emotional and financial support for the neediest children at a great personal expense, it is very important that we encourage our communities to support foster parents as they support foster kids.

EXPOSING RACISM

HON. BENNIE G. THOMPSON
OF MISSISSIPPI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. THOMPSON of Mississippi. Mr. Speaker, in my continuing efforts to document and expose racism in America, I submit the following articles into the CONGRESSIONAL RECORD.

HOMOSEXUALS, DISABLED, ELDERLY ADDED TO HATE CRIMES LAW

(By Dennis Patterson)

RALEIGH—People who are homosexuals, the disabled or the elderly and target them for crimes could face increased sentences under a bill approved by a House committee. The measure, which now goes to the full House, expands North Carolina's hate crimes law to include sexual orientation, disabilities, gender and age. Crimes that are proven to be motivated by hate would be increased to at least a felony.

The hate crimes law now applies to race, religion and national origin.

"This bill doesn't protect anybody," Rep. Martin Nesbitt, D-Buncombe, said Tuesday as the House Judiciary I Committee debated the bill. "It punishes people for perpetrating a crime because they hate a class of people."

The bill "centers on the question of whether we will be civil in North Carolina," said Rep. Paul Luebke, R-Buncombe, one of the bill's two primary sponsors. "It is, to put it in a phrase, a statement that we will not hate."

The bill is named after Matthew Shepard, a homosexual with North Carolina connections who was beaten to death in Wyoming. John Rustin of the North Carolina Family Policy Council called Shepard's death a "brutal and inexcusable crime." But the homosexual acts that would be covered by the

**MINISTER COMMAND ORDERS PUNISHMENT**

**AFTER RACIAL INCIDENT**

**JACKSONVILLE, N.C.—**Three Marines now deployed in the Mediterranean Sea were to be punished for their involvement in writing racial epithets on the face and arm of a black Marine.

Lance Cpl. Todd C. Patrick of the 26th Marine Expeditionary Unit based at Camp Lejeune called Jacksonville police April 11 and reported he woke up in a motel room with the words "Kaffir" and "nigger" on his forehead and "Go back to Africa" on his left arm. He told police three white Marines in his unit wrote the words on him.

Patrick decided not to press charges and instead asked the Onslow County magistrate to contact his battalion commander.

Lance Cpls. David P.H. Brown and Jeremy J. Goggins were found guilty of using provoking words during summary courts martial on board the USS Kearsarge. Camp Lejeune officials said Tuesday. They were reduced to private first class and will be confined to the ship’s brig for 24 days.

A third Marine, Bobby Ray Gurler, identified through summary court proceedings, was found guilty after an Article 15 hearing for the same charge. The Marine was ordered to three days confinement in the ship’s brig with bread and water, forfeiture of one-half of his one month’s pay and reduction to private first class.

An investigation ordered by the battalion commander found racial overtones but no malicious intent in the part of the three Marines. All of the marines have reconnected on a personal level, base officials said.

All four Marines were on the same ship which deployed to the Mediterranean on April 15.

**HUNTER SUPPORTS AWARD FOR PARKS**

**WASHINGTON.—**Rosa Parks is getting the gold.

Congress voted Tuesday to give the 86-year-old former NAACP leader and South African President Nelson Mandela and the “Little Rock Nine,” the group that braved threats and jeers from white mobs to integrate Central High School in Little Rock, Ark., in 1957.

“Mr. Parks is very excited to have this honor,” said Anita Peek, executive director of the Rosa and Raymond S. Johnson Corporation for Self-Development. Parks co-founded the nonprofit group in 1987 to help young people in Detroit, where she now lives.

She moved there in 1967 after losing the seamstress’ job and her family was harassed and threatened. She joined the staff of Rep. John Conyers, D-Mich., in 1965 and worked there until retiring in 1987.

Lawmakers initially used the Congressional Gold Medal to honor military leaders but began using it during the 20th century to recognize excellence in a range of fields, including the arts, athletics, politics, science and entertainment.

The first such medal was approved in March 1776 for George Washington for “wise and spirited conduct” during the Revolutionary War.

More than 320 medals have been awarded. Recent honorees include Frank Sinatra, Mother Teresa, the Rev. Billy Graham, South African President Nelson Mandela and the “Little Rock Nine,” the group that braved threats and jeers from white mobs to integrate Central High School in Little Rock, Ark., in 1957.

**[From the New York Times, April 21, 1999]**

**COURT ASKED TO REVIEW HOPWOOD CASE**

**AUSTIN, TX.—**The University of Texas has asked a federal appeals court to reconsider a decision that led to the elimination of affirmative action policies at the state’s public colleges and universities.

School officials asked the 5th U.S. Circuit Court of Appeals on Tuesday to reconsider its so-called Hopwood ruling.

“This case addresses one of the most important issues of our day: Is affirmative action policy discriminated against whites, it was allowed to stand in 1996 by the U.S. Supreme Court.
EXTENSIONS OF REMARKS

The school shootings in Jonesboro, Edinboro, Fayetteville, Springfield, Richmond, West Pascua, Littleton and most recently, Conyers, should be a wake up call for this body to act.

Gun related violence has plagued our nation and jeopardized the safety of our children.

The American people are demanding action by this body, and the people want a safe environment in our nation’s urban and rural areas for our children.

Each day in America, thirteen children under the age of 19 die from gunfire. In 1996, 4,643 children were killed by firearms. Firearms cause 1 of every 4 deaths of teenagers from the ages of 15 to 19. In addition to this, firearms are the fourth leading cause of accidental death among children from the ages of 5 to 14.

The rate of gun related crimes is increasing. From 1984 to 1994, the firearm homicide death rate for youth from the ages of 15 to 19 has increased 222%, while the non-firearm homicide death rate decreased 12.8%

It is our responsibility, as leaders and legislators, to protect our nation’s children. These statistics illustrate the need for stronger measures from Congress. Yet, despite the statistics and recent developments, which clearly prove that there is a problem with firearms, many Members of Congress refuse to push forward substantive gun legislation.

To address this problem, I have reintroduced my bill, the Firearm Child Safety Lock Act of 1999. My bill, H.R. 1512, the Firearm Child Safety Lock Act of 1999, will prohibit any person from transferring or selling a firearm, in the United States, unless it is sold with a child safety lock.

In addition, this legislation will prohibit the transfer or sale of firearms by federal or state law enforcement.

A Child Safety Lock, when properly attached to the trigger guard of a firearm, will prevent a firearm from unintentionally discharging. Once the safety lock is properly applied, it cannot be removed unless it is unlocked.

Public support for child safety locks is strong. 75% of Americans have voiced support for mandatory trigger locks.

This legislation will protect our children and increase the safety of firearms.

However, child safety locks are not enough. We must determine why young people commit these horrible acts of violence. We must take the proper steps to educate and counsel our children, to prevent future acts of violence. We must be proactive and diligent in our efforts to help our children, and stop these violent acts.

My bill, H.R. 1512, also has an education provision which provides for a portion of the firearms tax revenue to be used for education on the safe storage and use of firearms. The mental health of our children must also be addressed.

We must determine what the problems are. Find solutions to those problems, and then act.

We can address this issue without violating the second amendment to the Constitution. The right of the people to keep and bear arms, shall not be infringed. The right to life without fear will be preserved by this legislation and other necessary legislation that should be passed by Congress.

We must have the courage to stand firm and take steps to avoid the continued senseless bloodshed of the lives of children around this country. This bill and our efforts can do just that, we can protect our children and protect their future. In doing so, we are protecting ourselves.

INTRODUCTION OF THE RENTAL FAIRNESS ACT

HON. ED BRYANT
OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. BRYANT. Mr. Speaker, I rise to introduce the “Rental Fairness Act of 1999.” This measure addresses two important issues. First, the impact of state vicarious liability laws on interstate commerce and motor vehicle renting and leasing consumers across the nation.

Second, the question as to whether vehicle renting companies must be licensed to sell insurance products to their customers—insurance that is optional but very important to many car and truck rental customers who are under insured or have no insurance at all.

Title I of the Rental Fairness Act will, for a limited period of 3 years, adopt a federal presumption that companies that rent motor vehicles need not be licensed to sell insurance products to their customers for the term of the rental. Recently, class action lawsuits have been filed in three states accusing these rental companies of selling insurance without a license—despite the fact these companies have been offering these products to their customers for almost three decades.

For many car and truck rental customers, these supplemental insurance purchases are not just a luxury—they are a necessity.

For customers who carry minimal automobile insurance, or no insurance at all, the insurance products offered by car and truck rental companies are an important and inexpensive method of buying short-term, comprehensive insurance to protect themselves against accidents or theft. If this federal presumption is not adopted, these companies may cease to offer these products altogether—leaving many customers with no means of protecting themselves from potential liability during the rental of a motor vehicle.

The car and truck rental industry already has undertaken a huge effort to clarify these laws so that companies will know what is required. This legislation addresses the issues we need to act on.

Title I of the Rental Fairness Act will address this issue. Title I will offer this industry protection against the threat of complaint from these states accusing these companies of failing to enforce their laws on a state-by-state basis.

First, the impact of state vicarious liability laws on interstate commerce and motor vehicle renting and leasing consumers across the nation.

Second, the question as to whether vehicle renting companies need to be licensed under each state’s insurance laws on a state-by-state basis. To date, twenty-four states have clarified, either through regulation or legislation, their positions on this issue. Until the other states can act on this issue, Title I will offer this industry protection against the threat of complaint from these states accusing these companies of failing to enforce their laws on a state-by-state basis.

Title I in no way undermines the primacy of the states in regulatory insurance. In fact, it specifically restates the primary role of the states in insurance regulation. Title I of the Act has the support of the trade associations representing insurance agents because these groups realize the rental companies do not compete directly with insurance agents on these types of face-to-face, rental transaction-specific insurance sales.
Title II of this act will pre-empt the laws of a small number of states that impose unlimited vicarious liability on companies that rent or lease motor vehicles. Normally under our system of jurisprudence, defendants in lawsuits are held liable based upon their actions or inactions only. Unfortunately, a small number of jurisdictions—six states and the District of Columbia—ignore his general principle this minority of states subject rental and leasing companies to unlimited liability for accidents caused or could have prevented. The only remedy that these states and impacting all customers that rent or lease the vehicle. The bill also would hold the companies liable if the vehicle did not operate properly. It makes clear that these companies are not, under this bill, excused from meeting state minimum insurance requirements on their motor vehicles.

Forty-four states have discarded the unfair and outdated doctrine of vicarious liability for companies that rent or lease motor vehicles. This policy change requires companies to receive and act upon complaints about their vehicles—despite the fact that the company was not at fault for the accident in any way. This type of vicarious liability—liability without fault—holds these companies liable even when they have not been negligent in any way and the vehicle operated perfectly.

The measure I am introducing prevents states from holding companies liable for accidents involving their vehicles based solely upon their ownership of the vehicles. The bill makes clear that rental and leasing companies would still be liable if they negligently rent or lease the vehicle. The bill also would hold the companies liable if the vehicle did not operate properly. It makes clear that these companies are not, under this bill, excused from meeting state minimum insurance requirements on their motor vehicles.

In addition, vicarious liability discourages competition in these states. There are motor vehicle rental companies that will not do business in these states for the fear of being held vicariously liable—reducing competition in these states and impacting all customers that rent or lease in these states. Finally, vicarious liability establishes an absurd legal disconnect. If a vehicle is purchased from a bank or finance company, then there is no vicarious liability. However, if that same vehicle is leased, vicarious liability applies.

For these collective reasons, Title II of the Act and the reforms it implements are long overdue. Everyone, companies and individuals alike, should be held liable only for harm they caused or could have prevented. The only way these companies can prevent this harm would be to go out of business. This is an absurd expectation that will be remedied by this bill.

I look forward to hearing on this matter and working with my colleagues to ensure its passage.

EXTENSIONS OF REMARKS

PERSONAL EXPLANATION

HON. BOB CLEMENT
OF TENNESSEE
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. CLEMENT. Mr. Speaker, on rollcall votes 145 and 146, I was unavoidably detained on official business. Had I been present, I would have voted "aye" on both measures.

RONALD AND ARLENE HAUSER: MODELS FOR US ALL

HON. JAMES A. BARCIA
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. BARCIA. Mr. Speaker, people who devote their lives to teaching young people many of life's diverse lessons provide one of the most valuable services that anyone can. This weekend, the members of Immanuel Lutheran Church in Bay City were honored to honor Ronald and Arlene Hauser for their years of teaching and music ministry, and leadership within the school and church. This is a most deserved tribute to two people who have touched the lives of literally thousands of young people, making a difference for many young people at an impressionable age.

Ron Hauser has been a Called Lutheran school teacher for forty five years, and Arlene Hauser has been a Called Lutheran school teacher for thirty six years. They have provided instruction to children and adults in reading, writing, arithmetic, music, and most importantly, God's love in Christian faith.

In 1954, Ron Hauser taught grades 1–4, served as Director of Music, and assisted the Sunday School, Bible Class, and Youth programs of Trinity Lutheran Church in West Seneca, New York. He went on to Peace Lutheran Church in Chicago in 1958, where he served as Principal. He went on to St. John's Lutheran Church in LaGrange, Illinois in 1968, before coming to Immanuel Lutheran Church in Bay City in 1988. Here he has been a teacher and Coordinator of Music, the Bible class teacher, organist, director of the Senior Choir, Men's Choir and Cantate Choir, as well as the school Advanced Band. He has also served in a number of professional and syn-odical positions with distinction.

Arlene Maier first taught at St. James Lutheran School in Grand Rapids in 1955. She and Ron Hauser married on June 23, 1956, and have three daughters—Lynn Little, Beth Peterson, and Ellen Nyahwihwiri. From 1964 through 1968 she was a preschool teacher and organist at Hope Lutheran School in Chicago, and then taught at St. John's Lutheran School in LaGrange, Illinois from 1968 through 1988. She also came to Immanuel in Bay City in 1988, where she taught 2nd grade, and directed the handbell choirs, the Women's Choir, Cherub Choir, and other special music activities.

Blessed with three daughters and nine grandchildren, Ronald and Arlene Hauser extended their own blessings to every person with whom they interacted throughout their careers of caring and devotion. Mr. Speaker, as they are honored at their retirement, I urge you and all of our colleagues to join me in thanking Ron and Arlene Hauser for their years of dedication and accomplishment, and in wishing them the greatest happiness possible as they move on to new activities.

H.R.—THE VALLEY FORGE NATIONAL CEMETERY ACT

HON. JOSEPH M. HOEFFEL
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. Hoeffel. Mr. Speaker, earlier today I introduced the Valley Forge National Cemetery Act. This bill would establish a new national cemetery for our nation's veterans on land within the boundaries of Valley Forge National Historical Park. I am pleased to be joined in this effort by the entire Pennsylvania delegation.

The National Cemetery Administration is running out of space for the burial of deceased veterans of all conflicts of the United States. New cemeteries must be established for our veterans. The Philadelphia National Cemetery in Pennsylvania and the Beverly National Cemetery and Finn's Point National Cemetery in Delaware do no longer open for in-ground, full casket burials, other than those who already have existing plots. There is also no national cemetery in the State of Delaware. Thus, the need for an additional national cemetery in our area is immediate.

Current population figures from the Department of Veterans Affairs show a population of 574,584 veterans in the 11-county Philadelphia region. The next decade will challenge the National Cemetery Administration to accommodate World War II and Korean War veterans, as well as veterans from the Vietnam era. Each of our veterans deserves the honor of burial in a national cemetery. In order to best be able to honor and remember these loved ones, families need access to those gravesites within a reasonable distance from their homes. The best opportunity to meet this need in the Philadelphia area is to dedicate existing federally owned property in the Valley Forge National Historical Park.

The Valley Forge National Historical Park is dedicated to the earliest American military veterans and the long winter of their suffering during the War of the American Revolution. Although no battle was fought on this land, it is nevertheless symbolic of our nation's military valor and triumph over adversity. This bill will designate 100 acres of the 3,600 acre National Park for use as a national cemetery. The section of land north of the Schuylkill River would be the ideal location for the national cemetery. This area is historically significant and is separated from the rest of the park by the river. Dedication of this portion of the Historical Park as a national cemetery would thus add a solemn and appropriate place to honor and remember those who have served this country in the military.

Mr. Speaker, I urge swift consideration of this bill as an important and timely opportunity to honor our nation's military veterans.
HON. SOLOMON P. ORTIZ
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. ORTIZ. Mr. Speaker, because of official business in my District (27th Congressional District of Texas) I was absent for rollcall votes 147–154. If I had been present for these votes, I would have voted as indicated below.

Rollcall No.—Vote: 147—"yes"; 148—"yes"; 149—"yes"; 150—"yes"; 151—"Present"; 152—"no"; 153—"no"; and 154—"no".

CONGRATULATING THE RIDGEWOOD CHAMBER OF COMMERCE ON ITS 75TH ANNIVERSARY

HON. MARGE ROUKEMA
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mrs. ROUKEMA. Mr. Speaker, I rise to congratulate the Ridgewood Chamber of Commerce on its 75th anniversary as one of the leading business/civic organizations in New Jersey. The Ridgewood Chamber has played a leading role in making Ridgewood the first-rate place to live, work, and raise a family that it is today. I know—I have lived most of my life in Ridgewood and raised my family there. From President Lawrence Keller through each and every business that is a member, these are people who truly care about their community.

The Ridgewood Chamber of Commerce was founded in 1898 as the Businessmen’s Association of Ridgewood, changing its name in 1924. The mission of the organization has remained the same over the years—to “develop and advance the business, professional and civic interests of Ridgewood.”

Today’s Chamber of Commerce is a voluntary organization of individuals, businesses, professionals and organizations dedicated to advancing the commercial, financial, civic and general interests of Ridgewood. The Chamber acts as a public relations counselor, representative to local government, a problem solver, information and resource center, and coordinator of business and professional programs and promotions. The Chamber promotes the maintenance of a dignified and successful business and professional district.

Membership represents almost every facet of our business/professional community, including merchants, doctors, lawyers, bankers, newspaper editors, business owners/managers, civic leaders and clergy. A 10-member Board of Directors sets goals and policy carried out by the five officers—President Lawrence Koller of Koller Financial Group, Vice President Joan Groome of the YWCA of Bergen County, Treasurer Kenneth Porkka of Kenneth Porkka & Co., Secretary Sally Jones of Valley Hospital and Past President Tom Hillmann of Hillmann Electric. Executive Director Angela Cautillo is responsible for day-to-day operations.

The Chamber of Commerce brings a sense of unity to our business community. Ridge-wood is a regional business center, growing larger and stronger every day. The Chamber successfully pursues its mission to promote Ridgewood and its businesses through effective advertising, planned events, community service, networking and education of the public. The Chamber is true to the entrepreneurial spirit of our free enterprise system. That spirit has been and always will be at the heart of our American democracy.

The Chamber’s activities go beyond just promoting the business interests of our community. The Chamber annually sponsors Easter in Ridgewood, the Ridgewood Car Show, the Santa Parade and the Downtown for the Holidays festival. These are all programs that enrich our community.

I ask my colleagues to join me in congratulating the Ridgewood Chamber of Commerce on a successful 75 years and wishing the Chamber and its members many more years of continued success and prosperity.

TRIBUTE TO THE KANKAKEE—IROQUOIS REGIONAL PLANNING COMMISSION

HON. STEPHEN E. BUYER
OF INDIANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. BUYER. Mr. Speaker, I rise today to give tribute to the Kankakee-Iroquois Regional Planning Commission, which for the past 25 years has improved the economics, health, and well-being of the residents in North Central Indiana.

The Kankakee-Iroquois Regional Planning Commission (KIRPC) has been an integral part in generating community and economic development opportunities for the citizens and local communities of Indiana since July 2, 1973. The KIRPC continues to be a positive influence upon the regional economic well-being by helping communities and residents in North Central Indiana maintain their economic viability.

The Commission has been instrumental in providing a means of communication between local, state, and federal government organizations and the citizens of North Central Indiana. The KIRPC monitors an Overall Economic Development Plan that helps to identify the needs of people and businesses within the community, while reducing government waste. In addition, it has been a valuable partner in helping the region’s development through such programs and services as grants-in-aid; grants administration; comprehensive planning; and forums to address local issues. The KIRPC has also helped the people in the region with transportation needs by providing the Arrowhead County Public Transit Service which provides more than 150,000 routes annually.

The KIRPC was key in helping bring Head Start to the area in 1997. The Head Start program now provides services for 122 children and supplies necessary developmental services for the children; all within an education setting.

I commend the Kankakee-Iroquois Regional Planning Commission for its unwavering support to the region by providing a wide range of services and programs. I wish the Commission continued success in its endeavor to make a difference in the lives of the citizens of Indiana.

TRIBUTE TO FIRST LIEUTENANT JAMES F. MUELLER

HON. DAVE CAMP
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. CAMP. Mr. Speaker, I rise to pay tribute to First Lieutenant James F. Mueller of Houghton Lake, Michigan, who will retire from the Michigan State Police on May 29.

I would like to draw the attention of my colleagues in the U.S. House of Representatives and my constituents in the 4th Congressional District to First Lieutenant Mueller’s distinguished career.

For three decades, First Lieutenant James F. Mueller has served his country and his community. Soon after graduating from Valparaiso University in Indiana, he enlisted in the U.S. Army and fought for his country in the fields of Vietnam, earning numerous service awards.

He returned home in 1971 and began his career with the Michigan State Police. In 1987, he was promoted to First Lieutenant at Houghton Lake Post #75. He soon became more than a state trooper to the residents of northern Michigan; he became a role model to young children and a key figure in the creation of the D.A.R.E. drug use prevention program in local schools.

In addition to his professional career, First Lieutenant James F. Mueller’s extensive personal community service proves his dedication to his neighbors. He is a member of the Lions and Kiwanis, has served in the United Way and Houghton Lake Merchant’s Association and has served on the board of directors for the St. John’s Lutheran Church, the River House Shelter and Roscommon County 911.

On June 26, a banquet will be held for First Lieutenant Mueller at the Houghton Lake Elks’ Club. He will be joined by his colleagues, who honor him for his career; many friends and neighbors who will wish him well; and his wife, Holly; son, Michael; and daughters Laura, Shannon and Kristen.

I join them in thanking him for his years of service and add my personal best wishes to him in his future endeavors.

CONGRATULATIONS ON THE RESTORATION OF DEMOCRACY IN NIGERIA

HON. JIM SAXTON
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. SAXTON. Mr. Speaker, it is not often at this particularly troubled era in world affairs that we can take time to celebrate a major advance in freedom and democracy. However, on May 29th we may do just that, as Nigeria, the most populous state and largest economy...
in Africa, moves firmly back into the camp of democratic nations. On May 29th, President Olusegun Obasanjo will become President of Nigeria, a critical vote in democratic elections in February. President Obasanjo assumes the leadership of more than 120 million Nigerians, and he will be assisted in this task by a democratically elected bicameral Assembly, elected state Assemblies, and elected state governors, in a political system which now mirrors the United States’ own democratic process.

The new government in Abuja is determined to develop a democratic and a living democracy, a friend of the West. During his transition period, President Obasanjo visited many world capitals, including Washington, to begin the process of binding Nigeria into the global diplomatic framework. No other African state has introduced a new government with greater care and preparation, and President Obasanjo has been careful to learn the attitudes of the world’s major trading states and to brief them in return on Nigeria’s great challenge of rebuilding its economy and its state.

President Obasanjo, in a position with a strong electoral mandate, and with many decades of experience as a statesman, diplomat, soldier and farmer. He was heavily involved in helping to negotiate the transition from apartheid to democratic government in South Africa some years ago. He was a political prisoner under the military government of General Sani Abacha, who died last year, paving the way for the restoration of Nigerian democracy. President Obasanjo is therefore highly conscious of Nigeria’s need to play a leading role in African and international peacekeeping and diplomacy, and is, of course, thoroughly familiar with Nigeria’s historic commitment to UN and OAU peacekeeping efforts. Furthermore, Nigeria is once again poised to become a major force for peace and stability in Africa.

The US is going to benefit from a democratic and prosperous Nigeria. After all, Nigeria is the largest single supplier of foreign oil to the United States, and is, as a result, integrally linked in our economy. It is potentially a large export customer for the US, as well. Therefore, I believe the United States should cooperate with Nigeria to its fullest extent possible in order to ensure that its democratic, economic and governmental structures flourish to the fullest degree possible.

Mr. Speaker, we need to send our congratulations today to President Obasanjo, and all of the officials elected to the two houses of Nigeria’s Federal Assembly, and to the newly elected State Assemblies, and State Governors, and to the elected municipal officials. This is a great watershed for Nigeria, a great day for Africa, and a great opportunity for us to participate in helping to make Africa a vibrant, democratic and self-sustaining continent and a healthy part of the world trading system.

PERSONAL EXPLANATION

HON. MICHAEL BILIRAKIS
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. BILIRAKIS. Mr. Speaker, on May 20, 1999, I missed the vote on the motion to continue in the Senate amendment to H.R. 4, the National Missile Defense Act of 1999, because I was unavoidably detained. Had I been present, I would have voted “aye.”

TRIBUTE TO CHANCELLOR HILDA RICHARDS

HON. PETER J. VISCOLSKY
OF INDIANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mr. VISCOLSKY. Mr. Speaker, it is with the greatest pleasure that I pay tribute to an exceptionally dedicated, compassionate, and distinguished member of Indiana’s First Congressional District, Chancellor Hilda Richards of Gary, Indiana. After serving as Chancellor of Indiana University Northwest for six years, Hilda Richards will be retiring next month. On June 5, 1999, Chancellor Richards will be honored with a final, formal salute for her service, effort, and dedication, at Innisbrook Country Club in Merrillville, Indiana.

Born in St. Joseph County, Indiana, Chancellor Hilda Richards received her Diploma in Nursing from St. John’s School of Nursing in 1956 and continued her education in New York City, New York, where she graduated cum laude from Hunter College with her Bachelor of Science degree in 1961. Chancellor Richards continued her education at Columbia University, where she received her Masters in Education in 1965, Masters of Public Administration in 1971, and her Doctorate of Education in 1976. Chancellor Richards understands that a solid educational foundation will challenge one’s mind, empower one’s sense of well-being, and rekindle one’s heart, with a commitment to values and beliefs essential to becoming and being a whole individual. In the words of Chancellor Hilda Richards herself, “I knew I wanted to make a difference—and I needed a good education to do that. My personality would not allow it to be any other way.” Chancellor Richards has continued to challenge herself by doing post-doctoral work at Harvard University.

Chancellor Hilda Richards began her professional life as a staff nurse at Payne Whitney Clinic of New York Hospital in 1956. Four years later she became an instructor of nursing in the Department of Psychiatry at City Hospital in New York, where she also rose to the position of head nurse in the Department of Psychiatry. From 1971 to 1976 she served as the Director of Nursing Programs and Chair of the Health Science Division at Medgar Evers College in New York City, and from 1976–1979 she served as the Associate Dean of Academic Affairs for Medgar Evers College. Chancellor Richards continued her professional career as Dean of the College of Health and Human Services at Ohio University in Athens, Ohio. Before coming to Indiana University Northwest to serve as Chancellor, she served as Provost and Vice President for Academic Affairs at Indiana University of Pennsylvania from 1986–1993.

Though extremely dedicated to her academic work, Chancellor Hilda Richards selflessly gives her free time and energy to her community. Chancellor Richards is a life member of the National Association for the Advancement of Colored People and a member of the American Nurses Association. She also serves as a board member of several organizations in Northwest Indiana, including: The Gary Education Development Foundation, Inc.; Tradewinds Rehabilitation Center, Inc.; Boys and Girls Club of Northwest Indiana; WYIN-Channel 56, and the Northwest Indiana Forum. Additionally, Hilda Richards has volunteered countless hours of service to the Times Newspaper Editorial Advisory Board, the Indiana Youth Institute, and The Methodist Hospital.

Mr. Speaker, I ask that you and my distinguished colleagues join me in commending Chancellor Hilda Richards for her dedication, service, and leadership to the students and faculty of Indiana University Northwest, as well as the people of the First Congressional District. Northwest Indiana’s community has certainly been rewarded by her tireless service and uncompromising dedication displayed by Chancellor Hilda Richards.

A TRIBUTE TO AMERICAN SERVICE MEN AND WOMEN

HON. CARRIE P. MEEK
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, May 26, 1999

Mrs. MEEK of Florida. Mr. Speaker, I rise today to pay tribute to America’s servicemen and women for their heroic sacrifices made to preserve freedom. With the upcoming observance of Memorial Day, the United States recalls once again how freedom is not free. This hallowed national holiday is followed on June 6 by the 55th anniversary of D-Day, the date of the 1944 Invasion of Normandy by the Allied Forces to liberate the European continent from the darkness of Nazi tyranny.

It is the spirit that compels Americans to defend freedom at all costs that we honor at this solemn Memorial Day holiday. Senator Robert Kennedy once wrote: “Every time a man stands up for an ideal, or acts to improve the lot of others, or strikes out against injustice, he sends forth a tiny ripple of hope. And crossing each other from a million different centers of energy and daring, those ripples build a current that can sweep down the mightiest walls of oppression and resistance.”

President Reagan once mentioned that we don’t have to look in history books to find heroes; heroes are all around us, in every American city and town, as well as in the towns of our Allies. On Memorial Day, I pause to pay tribute to such heroes as the late Tom O’Connor of Quebec, Canada, who, as a young Canadian paratrooper, landed in Normandy, France, on June 6, 1944, fought in the dreadful Falaise Gap during the following Battle of Normandy, was severely wounded by machine gun fire, and spent the rest of the war in a German hospital.

I pay tribute to John J. McDonough who, as a reliable young sergeant in the U.S. Army Air Corps, served the Allies in the China-Burma-India Theater of Operations. At the same time, his teenage brother, Thomas J. McDonough, was a faithful seaman in the U.S. Navy who...
EXTENSIONS OF REMARKS

I pay tribute to Corporal Francis McDonough of Bowie, aged 20 in 1944, who, with 10,000 other young American soldiers, boarded the USS Nevada in shallow water there to avoid sinking. The ship had been refitted to a troop ship, was as swift as the German U-boats, and sailed unescorted without convoy protection on a risky voyage across the cold North Atlantic.

Once fully loaded with troops, Aquitania steamed out of New York Harbor. Corporal McDonough and other soldiers lined in the decks of the huge liner and stared at the Statue of Liberty until it disappeared from view. For much of the first three days of the journey, a Navy seaplane, the PBY Catalina, watched for enemy submarines as it accompanied Aquitania to the extent of the plane's range of fuel. The PBY signaled the ship with its findings, and finally had to turn back as the liner sailed beyond the perimeter of the plane's range.

After a harrowing voyage, the U.S. troops disembarked safely in Scotland a week later.

Several months later, after hazardous amphibious training off of England's coast at Slapton Sands, the Allies launched the invasion of Europe against Nazi enslavement, on D-Day, June 6, 1944, landing on five code-named beaches in occupied Normandy, France: Gold, Sword, Juno, Utah, and Omaha.

Long before crossing the English Channel to Utah Beach on D-Day, Corporal McDonough had been trained in the United States as an anti-aircraft gunner on a half-track vehicle equipped with four 50-caliber machine guns. A half-track had a truck cab and front wheels, and tank-like tracks in the rear.

On D-Day, while on the English Channel, the young corporal felt encouraged when the nearby battleship, USS Nevada, opened fire on the German batteries along the French coast ahead. The booming of the ship's huge guns sent flaming projectiles above in the dim light, yet the young soldier considered the ship's presence reassuring.

Previously, USS Nevada had been heavily damaged when attempting to proceed under way during the Japanese attack at Pearl Harbor on December 7, 1941. But due to the innovation of her valiant crew, she was beached in shallow water there to avoid sinking. The USS Nevada was among the ships returned for later service.

On the early morning of June 6, 1944, Corporal McDonough's outfit saw that at Utah Beach in Normandy, many of the forward observers—among them—were dead, and their radios were gone, lost underwater only three U.S. tanks out of about 30 made the shore (that they saw) during the morning landings. Thus, there was no one to coordinate the ships' firepower, no one to tell the ships' crews where to direct their powerful artillery.

U.S. crews atop the Navy destroyers, 1,000 yards offshore urged the help those Americans trapped under German fire on the Normandy beach, but didn't know where to direct their gunfire.

Then, suddenly, on Utah Beach, the outfit of a disabled American tank began firing at the Germans entrenched on a cliff above. The crew of a U.S. destroyer saw where the tank was firing, determined the coordinates, and directed its artillery towards the Nazi pillbox on the cliff. Then a second destroyer also aimed its guns on the same target, and that increased firepower helped the Americans on the beach to move inland.

The tide was coming in fast on Utah Beach; therefore, wounded men who were able to do so crawled inland to avoid drowning. But many young men who were able to do so crawled inland to avoid drowning. But many young men died on the beach, too injured to escape the tide. After serving in the U.S. First Army in the D-Day landings, in the Battle of Normandy, in the Battle of France, in the Battle of the Bulge, and in the battles in Germany, Corporal McDonough later recalled quietly how heartbreaking it had been at Utah Beach on D-Day to see the American bodies floating on the waves. Yet, years afterwards, we know that their ripples had built a current.

As Senator Robert Kennedy later noted, such an American current was capable of sweeping down the mightiest walls of oppression and resistance. It is this spirit of Americans who love freedom that we honor on Memorial Day and on the 5th anniversary of D-Day, June 6, 1944. It is a privilege to pay tribute to American soldiers, sailors, and airmen of all wars who have given the noble example of handing over their country not less than us even greater and better than they received it.

RAILWAY SAFETY AND FUNDING EQUITY ACT OF 1999

HON. ROBERT E. (BUD) CRAMER, JR., OF ALABAMA, IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. CRAMER. Mr. Speaker, I rise today to join my friend and colleague, Congressman BILL LIPINSKI to introduce the Railway Safety and Funding Equity Act of 1999, also known as RSAFE.

This legislation addresses the dangerous lack of adequate safety infrastructure, such as crossing gates, at highway and railroad grade crossings across the country. In many grade crossings, the only safety infrastructure between motorists and oncoming trains is a stop sign or a crossbuck. In my state of Alabama, only about 30 percent of the grade crossings are signalized with gates, lights, or bells. All too often, the end result of this lack of adequate safety infrastructure is a tragic accident in which someone is horribly injured or killed. Last year alone, 428 people died in accidents at railroad grade crossings. Indeed, my home state of Alabama is 17th in the nation in terms of vehicle train crashes.

These statistics are appalling and unacceptable, especially when we have the resources and know how to greatly reduce them. That’s why I’ve joined with my colleagues, BILL LIPINSKI, in introducing RSAFE. This legislation would tax rail diesel fuel and use the revenue raised to improve railroad crossing safety infrastructure at railroad crossings. RSAFE does this by setting aside the 4.3-cent per gallon fuel tax that railroads currently pay toward deficit reduction and transfers it into the Federal Highway Administration’s Section 130 grade crossing safety program. This will increase the monies available through this program by approximately $125 million, raising the total level from $150 million to approximately $275 million for the next 5 years.

Dedicating the monies derived from this fuel tax toward railroad safety infrastructure will have a real and tangible impact on countless communities across the country. However, while installing new crossing gates and lights will help decrease the number of tragic accidents we’ve seen so many times in the news, this alone is not enough. In addition to putting up more physical barriers at railroad crossings, we also need to put more money toward educating motorists. That’s why RSAFE sets aside five percent of this new funding for education and awareness campaigns, such as those conducted by Operation Lifesaver. Operation Lifesaver is a unique, non-profit organization that works with local law enforcement officials and others to make pedestrians and motorists aware of the dangers of railroad crossings. It is through these combined efforts that we will have the most impact on communities and save the most lives.

I know that my friends in the railroad industry will argue that even the imposition of the 4.3-cents tax is unfair and punitive. They will argue that they have already invested billions of dollars in maintaining and improving their infrastructure. Well, I applaud the investment the industry has put into improving grade crossing infrastructure. But, I say to my friends in the railroad industry, more needs to be done.

RSAFE does more. Rather than using the revenue raised by this 4.3-cents tax on deficit reduction, RSAFE plows the money right back into railroads, making them safer for the public. Furthermore, after five years of increased investment in making our nation’s railroad crossings safer, RSAFE repeals the 4.3-cents tax. Therefore, with this bill, my colleague and I are not trying to penalize or unfairly burden the railroad industry. On the contrary, through this bill we are simply trying to use the funds the railroad industry is already paying wiser. We believe it is far wiser and fairer to use these funds to improve railroad grade crossing safety over the next five years and then put in place a mechanism by which this tax is repealed, than to put it toward deficit reduction.

The Railroad Safety and Funding Equity Act of 1999 is a good bill which strikes a good balance between industry and public safety. I urge my colleagues in the railroad industry to join Representative LIPINSKI and I in moving this legislation forward. Each day we wait, is another day a life is needlessly put at risk.
COMMENDATION OF MR. H. BEECHER HICKS III, WHITE HOUSE FELLOW FROM CHARLOTTE, NORTH CAROLINA

HON. MELVIN L. WATT
OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. WATT of North Carolina. Mr. Speaker, I want to take this opportunity to commend H. Beecher Hicks, III of Charlotte, North Carolina for serving as a distinguished White House Fellow this year.

Mr. Hicks earned his BA in marketing from Morehouse College and MBA from the University of North Carolina Kenan-Flagler Business School. He is an investment banker with Bank of America Corporation (formerly NationsBank Corporation) where he serves as Vice President and provides mergers and acquisitions advice to middle-market companies. While serving as assistant to the chairman of NationsBank, Mr. Hicks led the formation of the bank’s vendor development program and proposed a $30 million equity-investment company focusing on urban communities. He also helped start The Investment Group of Charlotte, which invests in local firms and real estate projects and provides technical aid to entrepreneurs. Beyond his success in the private sector, Mr. Hicks serves on the Board of Directors of the Charlotte-Mecklenburg Development Corporation and works with students at Johnson C. Smith University.

Mr. Hicks was selected as one of 17 individuals nationwide to receive the White House Fellowship for 1998–1999. The fellowship allows outstanding citizens to participate in a once-in-a-lifetime experience by working hand-in-hand with leaders in government. Applications are chosen based on demonstration of excellence in community service, academic achievement, leadership and professional experience. It is the nation’s most prestigious fellowship for public service and leadership development.

As a White House fellow, Mr. Hicks has been assigned to the Corporation for National Service. In that capacity, he serves as Director of the AmeriCorps Promise Fellows Program, where he is responsible for implementing a partnership program between the AmeriCorps and America’s Promise, which was founded by former White House Fellow General Colin Powell. Mr. Hicks also evaluates the effectiveness of the investment strategies for the $400 million National Community Service Trust. His other responsibilities include developing an effort to better link the Corporation with AmeriCorps members, developing a clearer national identity for the program and working with senior management on organizational, management accountability and cultural issues.

Mr. Speaker, I ask my colleagues to join me today in paying tribute to Mr. H. Beecher Hicks III for his service to the White House Fellows Program—a rare honor. I applaud his selection and wish him much continued success.

EXTENSIONS OF REMARKS

IN MEMORY OF BILL SCOTT

HON. BENJAMIN A. GILMAN
OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 26, 1999

Mr. GILMAN. Mr. Speaker, it is with deep regret that I inform my colleagues of the passing of a remarkable resident of my 20th Congressional District in New York. Bill Scott, a resident of Rockland County, NY, for over fifty years, passed away earlier this week at the age of 72. With his passing, New York State has lost one of its distinguished citizens.

Bill Scott helped found the N.A.A.C.P. chapter in Spring Valley, New York, back in 1951—nearly fifty years ago. It is an interesting fact that Bill felt compelled to do so because he believed that the existing N.A.A.C.P. chapter in Rockland County was not vigilant enough in pursuing discrimination and injustice against African Americans.

Ironically, years later, in the 1960’s Bill broke away from the N.A.A.C.P. chapter that he had founded because he believe that more militant times demanded a more militant response. Accordingly, he founded the Rockland chapter of the Congress of Racial Equality (CORE). But, he soon left that organization also, because he believed their national leadership had come to espouse Black separatism—a philosophy Bill could not abide. Bill devoted his life to equality between the races, but at no time did he condone separation of the races which he viewed as self-defeating. Throughout the fifties and the sixties, Bill organized marches, sit ins, and demonstrations to integrate the police forces, the Y.M.C.A., and other institutions in Rockland County which, regrettably, were not color blind at that time. It is hard for our young people today to fully understand how ingrained racism was in our society just a few short decades ago. Nor are younger generations aware that by no means was racial segregation restricted to the South. I can recall from my own experiences as an N.A.A.C.P. member in the 1950’s that quite often we were considered too “radical” for our times, even in New York State.

Thanks to people such as Bill Scott in Rockland, who were courageous enough to speak out and to act at a time when it was not popular, we are well on the road today to a society where all are truly equal, although we still have a long way to go.

Bill Scott hosted a popular television show on cable, “Black Perspectives,” which made him a household word in Rockland during the last few decades of his life. I was honored to be his guest on several broadcasts and, like his viewership, I never ceased to marvel at his enthusiasm, his knowledge, and his commitment.

Bill Scott, a native of New Jersey, moved to Rockland County, NY, when he was stationed at Camp Shanks during World War II. In the over half century that he called Rockland home, he made a genuine impact upon his neighbors and his community. Bill will truly be missed, and we extend our sympathy and condolences to his widow Barbara, his three sons, two daughters, and ten grandchildren, and to his family, friends, loved ones and admirers who appreciated the gifts of this truly caring leader.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, May 27, 1999 may be found in the Daily Digest of today’s RECORD.

MEETINGS SCHEDULED

JUNE 8
9:30 a.m.
Armed Services
To hold hearings on the nominations of Gen Eric K. Shinseki, USA, for appointment as Chief of Staff, United States Army, and Lieutent General James L. Jones, Jr., USMC, to be general and for appointment as Commandant of the Marine Corps.

JUNE 9
9:30 a.m.
Environment and Public Works
Transportation and Infrastructure Subcommittee
To resume hearings on the implementation of the Transportation Equity Act for the 21st century.

Indian Affairs
To hold hearings on S. 438, to provide for the settlement of the water rights claims of the Chippewa Cree Tribe of the Rocky Boy’s Reservation; and S. 94, to amend Public Law 105–188 to provide for the mineral leasing of certain Indian lands in Oklahoma.

2 p.m.
Energy and Natural Resources
Water and Power Subcommittee
To hold oversight hearings on the process to determine the future of the four lower Snake River dams and conduct oversight on the Northwest Power Planning Council’s Framework Process.
May 26, 1999

9:30 a.m.
Energy and Natural Resources
To hold oversight hearings on the report of the National Recreation Lakes Study Commission.
SD–366

10 a.m.
Judiciary
Business meeting to markup S. 467, to restate and improve section 7A of the Clayton Act; and S. 606, for the relief of Global Exploration and Development Corporation, Kerr-Mcgee Corporation, and Kerr-Mcgee Chemical, LLC (successor to Kerr-McGee Chemical Corporation).
SD–226

JUNE 10
9:30 a.m.
JUNE 17
9:30 a.m.
Commerce, Science, and Transportation
To hold hearings on mergers and consolidations in the communications industry.
SR–253

Environment and Public Works
To hold hearings on S. 533, to amend the Solid Waste Disposal Act to authorize local governments and Governors to restrict receipt of out-of-State municipal solid waste; and S. 872, to impose certain limits on the receipt of out-of-State municipal solid waste, to authorize State and local controls over the flow of municipal solid waste.
SD–406

SEPTEMBER 28
9:30 a.m.
Veterans’ Affairs
To hold joint hearings with the House Committee on Veterans’ Affairs to review the legislative recommendations of the American Legion.
345 Cannon Building
Baldwin  
Bachus  
Archer 

not voting 49, as follows:

Yeas 309, Nays 76, as above recorded.

Speaker, I object to the vote on the approval of the Journal.

Had I been present, I would have voted "yea."

Mr. FRANK of Massachusetts, Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker’s approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. FRANK of Massachusetts, Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The Speaker pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yes 309, nays 76, not voting 49, as follows:

[Roll No 166] 

The SPEAKER pro tempore (Mr. Callahan). Mr. Speaker, during rollcall vote No. 166, on approving the Journal, I was unavoidably detained. Had I been present, I would have voted “yea.”

Ms. MILLER-MCDONALD. Mr. Speaker, on Thursday, May 27, 1999, I was unavoidably detained while conducting official business and missed rollcall vote 166, a motion to approve the Journal. Had I been present, I would have voted “yea.”

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore (Mr. LaHood). Will the gentleman from New
CONGRESSIONAL RECORD—HOUSE

York (Mr. REYNOLDS) come forward and lead the House in the Pledge of Allegiance.

Mr. REYNOLDS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate had passed without amendment bills of the House of the following titles:

H.R. 1091. An act to declare a portion of the James River and Kanawha Canal in Richmond, Virginia, to be nonnavigable waters of the United States for purposes of title 46, United States Code, and the other maritime laws of the United States.

H.R. 1121. An act to designate the Federal building and United States courthouse located at 18 Greenville Street in Newman, Georgia, as the "Lewis R. Morgan Federal Building and United States courthouse".

The message also announced that pursuant to Public Law 94-201, as amended by Public Law 105-275, the gentleman from Ohio (Mr. BOEHNER), the Chair, on behalf of the President pro tempore, appoints the following individuals as members of the Board of Trustees of the American Folklife Center of the Library of Congress—Janet L. Brown, of South Dakota; and Mickey Hart, of California.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Ohio (Mr. BOEHNER). Other 1-minutes will be taken up at the end of the day.

WELCOME TO FATHER JOHN PUTKA

(Mr. BOEHNER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOEHNER. Mr. Speaker, we are very glad this morning to have Father John Putka as our guest chaplain. President Andrew Jackson is famous for saying, and I will quote, "One man with courage makes a majority." That description I think is particularly suited to Father Putka.

As a priest of the Society of Mary, and as a professor at the University of Dayton, Father Putka has had a dramatic and positive impact on the lives of tens of thousands of students over the years. I know of few professors who take such a personal interest in the academic and spiritual growth of their students.

Before going to the University of Dayton in 1988, though, Father Putka taught at my alma mater and the alma mater of our colleague, the gentleman from Colorado (Mr. SCHAFFER), Moeller High School in Cincinnati.

Although I was gone, Father Putka did teach most of my eight younger brothers, and the gentleman from Colorado (Mr. SCHAFFER) as well.

He is truly one of a kind, and not just because there are not many Marianist priests out there sporting a flat top haircut. He is a dear friend to many, and through his service to his church, his community, and his country, I think he is a unique leader for all of us. I might also add that as a professor at the University of Dayton, he has done a marvelous job in attracting many of us to come speak to his class, Members from both sides of the political aisle.

I am very glad this morning to have Father Putka as our guest chaplain.
a designee announces from the floor a request to that effect.

SEC. 6. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the amendment in the nature of a substitute made in order as original text. The previous question shall be considered as ordered on the bill and amendments thereto to final form intervening to except one motion to recommit with or without instructions.

Mrs. MYRICK. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Texas (Mr. Frost), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Yesterday, the Committee on Rules met and granted a structured rule for H.R. 1401, the Fiscal Year 2000 Department of Defense Appropriations Act.

The rule provides for 1 hour of general debate equally divided between the chairman and ranking minority member of the Committee on Armed Services.

The rule waives all points of order against consideration of the bill. It makes in order the Committee on Armed Services’ amendment in the nature of a substitute now printed in the bill, modified by the amendment printed in part A of the Committee on Rules report, which shall be considered as read.

The rule also waives all points of order against the amendment in the nature of a substitute, as modified.

The rule makes in order only those amendments printed in the Committee on Rules report and any pro forma amendments offered by the chairman and ranking minority member of the Committee on Armed Services for the purpose of debate.

Amendments printed in part C of the Committee on Rules report may be offered en bloc. Except as specified in section 5 of the resolution, amendments will be considered only in the order specified in the report, and shall be considered as read, and shall not be subject to a demand for division of the question.

Unless otherwise specified in the report, each amendment printed in the report shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent, and shall not be subject to amendment, except that the chairman and ranking minority member of the Committee on Armed Services each may offer one pro forma amendment for the purpose of further debate on any pending amendment.

The rule waives all points of order against amendments printed in the Committee on Rules report and those amendments en bloc described in section 3 of the resolution.

The rule provides for an additional 1 hour of general debate at the beginning of the second legislative day of consideration of H.R. 1401, which also shall be equally divided and controlled by the chairman and ranking minority member of the Committee on Armed Services.

The rule authorizes the Chairman of the Committee on Armed Services or his designee to offer amendments on bloc consisting of the amendments in part C of the Committee on Rules report or germane modifications thereto, which shall be considered as read, except that modifications shall be reported, shall be debatable for 20 minutes equally divided between the chairman and ranking member of the Committee on Armed Services or their designees, and shall not be subject to amendment or demand for a division of the question.

For the purpose of inclusion in such amendments on bloc, an amendment printed in the form of a motion to strike may be modified to the form of a germane perfecting amendment to the text originally proposed to be stricken.

The original proponent of an amendment, included in such amendments en bloc, may insert a statement in the Congressional Record immediately before the dispositions of the en bloc amendments.

The rule allows the Chairman of the Committee of the Whole to postpone votes during consideration of the bill and to reduce voting time to 5 minutes on a postponed question if the vote follows a 15-minute vote.

The rule allows the Chairman of the Committee of the Whole to recognize for consideration of any amendment printed in the report out of order in which printed, but not sooner than 1 hour after the Chairman of the Committee on Armed Services or a designee announces from the floor a request to that effect.

Finally, the rule provides for one motion to recommit, with or without instructions.

Mr. Speaker, H.R. 1401 is a good bill. It is a bill that will allow all of us to rest a little easier at night knowing that our national defense is stronger and that we have taken good care of our troops.

We now know that China has stolen our nuclear technology, something the Soviet Union could not do during the Cold War.

We live in a dangerous world, but Congress is doing something about it. We are working to protect our friends and family back home from our enemies abroad. We are helping to take some of our enlisted men off of food stamps. It has been absolutely ridiculous that our enlisted men are on food stamps to survive. We are giving them a 4.5 percent pay raise.

The rule provides for a national missile defense system so that we can stop a warhead from China if that day ever comes. We are boosting the military’s budget for weapons and ammunition, and we are tightening security at our nuclear labs, doing everything we can to stop the wholesale loss of our military secrets.

Mr. Speaker, the Committee on Rules received 89 amendments to this bill. We delivered the best bill that we could make as many amendments in order as we could. The rule allows for a full and open debate on all the major sources of controversy, including publicly funded abortions and nuclear lab security. It allows for debate on a lot of smaller issues, too.

I urge my colleagues to strongly support this rule and to support the underlying bill so we can have this good discussion on the floor. Today, more than ever we must provide for our national security.

Mr. Speaker, I include the following letter for the RECORD:

EXECUTIVE OFFICE OF THE PRESIDENT, OFFICE OF MANAGEMENT AND BUDGET,

Hon. J. DENNIS HASTERT,
Speaker, U.S. House of Representatives, Washington, DC.

DEAR MR. SPEAKER: In his recent letter, the President indicated that the Administration considers unacceptable Section 1006 of the House Armed Services Committee’s FY 2000 National Defense Authorization bill, which restricts FY 2000 funds available to the Department of the Air Force to be used for supporting Kosovo military operations. Thus, the President indicated that if Congress were to enact a Defense Authorization bill that included Section 1006, he would veto it. In an effort to resolve this issue, you asked for my thoughts regarding the Administration’s possible actions to ensure that our military forces in Kosovo receive adequate resources.

Throughout the debate on the recently passed emergency supplemental for Kosovo and other activities, the Administration was clear about its objectives for funding Department of Defense needs—that our forces involved in the Kosovo military operation are fully funded to conduct their mission and that the military readiness of all other U.S. forces is protected. We believe the President’s supplemental request achieved these objectives. Consistent with current practice, the President must retain the flexibility to access various DoD funding sources to respond to immediate needs, much as he has done in the past. We, of course, will work with the Congress to ensure that any contingency requirements that may develop beyond the FY 1999 Emergency Supplemental Appropriation, to the extent that these requirements exceed an amount that could be managed within the normal reprogramming process without harming military readiness, we will submit either a budget amendment or a supplemental appropriations request.

Sincerely,

JACOB J. LAW,
Director.
Mr. Speaker, I reserve the balance of my time.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. DIXON).

Mr. DIXON. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise to announce that on Thursday, June 10, the House Permanent Select Committee on Intelligence will hold a public meeting to examine the Chinese embassy bombing. Witnesses from the Permanent Select Committee on Intelligence community, including the Director of Central Intelligence and from the Department of Defense are expected to attend.

It is the committee’s intention that this hearing will provide the American people with a clear understanding of why this tragic event occurred.

Mr. Speaker, on May 7, 1999, the Embassy of the People’s Republic of China in Belgrade was bombed by U.S. aircraft acting as part of the NATO operation in Yugoslavia. The embassy building was mis-identified as the Yugoslavian Federal Directorate of Supply and Procurement as the intended target.

That mistakes were made, is clear. We need to know why, and what can be done to lessen the chance that similar mistakes will be made in the future.

On June 10, the House Permanent Select Committee on Intelligence will hold a public hearing to examine the Chinese embassy bombing. Witnesses from the intelligence community, including the Director of Central Intelligence, and from the Department of Defense are expected to attend. It is the committee’s intention that this hearing will provide the American people with a clear understanding of why this tragic event occurred.

Mr. Speaker, I am pleased to yield to the gentleman from Florida (Mr. GOSS), chairman of the Permanent Select Committee on Intelligence.

Mr. GOSS. Mr. Speaker, I thank the distinguished gentleman from California for yielding to me. I want to confirm that the bipartisan House Permanent Select Committee on Intelligence is obviously well aware of our colleagues’ concerns on what went wrong in the bombing, and we are going to do our best to provide information to our colleagues and to all Americans who are interested in the subject.

It was a bad mistake. It had serious consequences and we believe the public right to know in this matter needs to be brought forth in a timely way, and we believe this schedule will work.

Mr. FROST. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1401, the Fiscal Year 2000 National Defense Authorization Act, and I will reluctantly support this rule.

The Republican majority on the Committee on Rules has recommended a rule to the House which denies Democratic Members the right to offer important policy amendments, and it is for that reason that some Members of the Democratic Caucus will not support this rule.

Mr. Speaker, the committee on Rules reported this rule at 11 o’clock last night on a straight party line vote. I opposed this rule in committee because the Republican majority specifically excluded four major amendments that Democrats had considered top priority amendments. Two of those amendments were truly bipartisan amendments relating to matters of great importance to our national security.

It only seems logical that for matters of such a serious nature that the House be afforded the opportunity to consider a bipartisan response. This rule closes off that opportunity, and the debate in the House will suffer as a result.

Specifically, Mr. Speaker, this rule does not allow an amendment proposed by the gentleman from Washington (Mr. DICKS), which relates to counter-intelligence activities at the Department of Energy.

The gentleman from Washington (Mr. DICKS) was the Ranking Democrat on the Cox committee, and his amendment reflects the important recommendations made by that committee.

This amendment was cosponsored not only by the gentleman from South Carolina (Mr. SPRAT), but by the gentlewoman from New Mexico (Ms. WATERS), the gentleman from Texas (Mr. THORNBERY), and the gentlewoman from California (Ms. WATERS). These amendments seek to extend a program which has established contract goals for minority and other disadvantaged businesses for the Department of Defense, yet the Republican majority on the Committee on Rules failed to make this important matter part of our discussion during the consideration of the bill.

Mr. Speaker, there will be a number of speakers who will follow me in this debate who oppose the rule, and I would certainly hope that the Republican leadership will listen very carefully to what they have to say. These are Members who have substantive expertise in the issues before us, and it is, quite frankly, demeaning to this body that they should have been excluded from the debate.

I would like to say, however, that the bill made in order by the rule is a good bill. Mr. Speaker, when we ask our men and women in uniform to do the heavy lifting for us, we should not put upon those shoulders such an important burden, it is vital that we make sure that they have the best training and the best equipment and that they be fully compensated for the work they do. It is our responsibility to make sure that all of those things happen. Mr. Speaker, I believe this bill goes a long way toward meeting that responsibility.

The bill provides a 4.8 percent pay raise effective next January and, more importantly, ensures that future pay raises for the military will keep pace with private sector pay increases. I cannot stress too much how important this provision is to the retention problem we currently face with our active duty military.

The bill also reforms retirement pay which will help with retention. The housing allowance budget is significantly increased in the bill, which will result in lower out-of-pocket costs for housing for military personnel.
The bill extends several special pay and bonus provisions, reforms the reenlistment program and creates several new programs specifically designed to enhance retention. The Committee on Armed Services is to be commended for its excellent work in this area.

I would also like to commend the committee for its inclusion of $325.1 million to procure 10 F–16C aircraft, as the President had requested, as well as the requested funds for the F–22 Raptor, the next-generation air dominance fighter. The bill contains $1.2 billion for research and development, $1.6 billion for six low-rate initial production aircraft, and $277.1 million for advance procurement of 10 LRIp aircraft in fiscal year 2001.

The bill also provides $967.4 million for 11, V–22s, one aircraft more than the President’s request. The Committee on Armed Services has acted wisely by adding this additional aircraft so that the Marine Corps will be able to more quickly replace its aging fleet of CH–46 helicopters.

Mr. Speaker. H.R. 1401 is a good bill, a bill we can be proud of. But, Mr. Speaker, this rule does not reflect the bipartisan support of the bill it makes out of committee, it said that monies in this bill should be used for defense, not for aggressive warfare in Kosovo, and yet that was struck in the Committee on Rules. That is a serious change this can out of committee, I think all our colleagues must remember this when it comes time to vote for the final passage.

We could have had a bill that made a statement against spending this money to perpetuate this illegal NATO war, and yet it was explicitly removed from the bill. I think this is reason to question the efforts on this rule. Certainly it should challenge all of us on the final passage of this bill, because much of this money is not spent on the national defense, but to perpetuate war, which is a direct distraction from our national defense because it involves increasing threats to our national security. It does not protect our national security.

It might be well to also note that this bill does not do much more for fiscal conservatives. The President asked for a certain amount for the defense of this country, but we have seen fit to raise him more than $5 billion, spend more money, more money that is so often not spent in our national defense. At the same time, we must also remember that when we vote on this bill, and this rule allows it, more than $10 billion will be in excess of the budget agreement of 1997.

Mr. Speaker, I yield 4 minutes to the gentleman from Texas (Mr. PAUL).

Mr. PAUL. Mr. Speaker, I thank the gentlewoman for yielding me this time. I would like to point out that this is a rule of which I do not believe the author should be proud. This rule, I believe, creates a serious debate with regards to our national defense and our involvement in war at this particular time.

Today, the International War Crimes Tribunal decided to indict Milosevic. Milosevic is obviously a character that deserves severe criticism, but at this particular juncture in the debate over this erroneous and ill-gotten war in Yugoslavia, this indicates to most of the world that there is no attempt whatsoever on the part of NATO to attempt any peace negotiations. This is a guarantee of the perpetuation of war.

Milosevic is going to be further strengthened by this. He will not be weakened. It was said the bombing would weaken Milosevic, and yet he was strengthened. This same move, this pretense that this kangaroo court can indict Milosevic and carry this to fruition indicates only that there are some who will enjoy perpetuating this war, because there is no way this can enhance peace. This is a sign of total hypocrisy, I believe, on the part of NATO. NATO, eventually, by history, will be indicted.

But today we are dealing with this process, and this is related to the bill that is about to be brought to the floor because, historically, this bill came out of committee, it said that monies in this bill should be used for defense, not for aggressive warfare in Kosovo, and yet that was struck in the Committee on Rules. That is a serious change this can out of committee, I think all our colleagues must remember this when it comes time to vote for the final passage.

We could have had a bill that made a statement against spending this money to perpetuate this illegal NATO war, and yet it was explicitly removed from the bill. I think this is reason to question the efforts on this rule. Certainly it should challenge all of us on the final passage of this bill, because much of this money is not spent on the national defense, but to perpetuate war, which is a direct distraction from our national defense because it involves increasing threats to our national security. It does not protect our national security.

It might be well to also note that this bill does not do much more for fiscal conservatives. The President asked for a certain amount for the defense of this country, but we have seen fit to raise him more than $5 billion, spend more money, more money that is so often not spent in our national defense. At the same time, we must also remember that when we vote on this bill, and this rule allows it, more than $10 billion will be in excess of the budget agreement of 1997.

Mr. Speaker, I yield 4 minutes to the gentleman from Washington (Mr. DICKS).

Mr. DICKS. Mr. Speaker, we must defeat this rule today. We must defeat it because it became a part of the bipartisan bill that was agreed to by both Republicans and Democrats.

I also understand that an amendment offered by two Republican full committee chairmen and the gentleman from Michigan (Mr. DINGELL), the longest serving and one of the most respected Members of this House, who warned everyone about problems at DOE when everything we have lost today could have still been saved, was denied a vote in the House.

Today is a low day for the House, Mr. Speaker, unless we turn back this rule and start over.

The gentleman from California (Mr. COX) and I worked very hard together on a bipartisan basis to bring to this House our best recommendations on what could be done to improve national security at these labs, and I am very disappointed that the Republican leadership has chosen to take a partisan approach to implementing our report. We spent 9 months working on this. We did our very best to give the House our best work product and to have the first effort here to implement these recommendations turned down by the Committee on Rules is an insult to the people who served on this committee, to the people who served on this committee.

of the fact that within hours of our report being presented to the House, already partisan considerations in terms of how these recommendations are being put forward. It is an insult.

Mrs. MYRICK. Mr. Speaker, I yield 3 minutes to the gentleman from Utah (Mr. HANSEN).

Mr. HANSEN. Mr. Speaker, I rise on this particular bill as a Member of the Committee on Armed Services. I am distraught and somewhat upset that there is so little money going into the military at a time when it is being cut back so dramatically.

Mr. Speaker, what I wanted to talk about today is a provision I put in the bill in the subcommittee chaired by the gentleman from Colorado (Mr. HEFLEY). In Utah, we have what is called the Utah Test and Training Range. It is a huge range, and probably one of the best ranges as far as training ranges go. It has a place for the cruise missile, the tactical missile. The F-16 out of Hill is used there; the F-15 out of Nellis; the Navy uses out of Fallon, Nevada, it is used out of Mountain Home. It is 0 to 58,000 feet of clear airspace. There is no other place like that in the world that the United States has.

We tried to protect that and have done our very best to do it. At the present time, the Governor of the State of Utah, Mike Leavitt, and the Secretary of the Interior, Mr. Babbitt, are working on trying to come up with some kind of wilderness issue along the west side of Utah. I have to compliment both the Secretary and the Governor for the good work they have done.

As it has been a while, bringing this to pass, we found ourselves in a situation that we had to protect the Utah Test and Training Range, and so in this bill that we have coming up there is an issue about protecting that range. I have now talked to both the Secretary and the Governor and this language is no longer necessary with the bill that will come about eventually; and therefore, at the proper time, and working with leadership and working with the Parliamentary and others, we will strike this language.

I am not quite sure where that is, but I wanted to make people aware of that. There are a lot of folks, though, who have a total misunderstanding of how this system worked, who thought this was one of the jewels as far as training ranges go. It was done correctly and in the open light of day, and this will be done at the proper time. I wanted to let the House know that that will be done, which will take care of the problem that seems to be bothering some of the folks from the environmental community who, frankly, do not understand the procedure.

Mr. FROST. Mr. Speaker, I yield 3 minutes to the gentleman from South Carolina (Mr. SPRATT).

Mr. SPRATT. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, you need to have served here in the 1980s when the Democrats had a majority, and by a wide margin, to understand how unfair, outrageous and insulting this rule is. We had contested rules then. We had closed rules then. But when the defense authorization bill came to the floor in those days, we were spending big money and it was felt that this was a free marketplace of ideas.

I have seen years in the past when we had hundreds of amendments, 200 or more amendments, filed in the Committee on Rules, and half of them were made in order. We came to the floor on some occasions and it took us 2 to 3 weeks to get off the floor, but we had free marks and a full and robust debate. We will not have that full and robust debate today on a matter of utmost importance.

The gentleman from Washington (Mr. DICKS) has told us that together with the other Members, bipartisan, we sat down and took the recommendations of the Select Committee on U.S. National Security and Military/Commercial Concerns with the People's Republic of China and implemented them with respect to the Department of Energy and the national laboratories. We made a series of serious substantive recommendations supported by Members who know best because they come from those areas where these facilities are located: the gentleman from New Mexico (Mrs. HEATHER WILSON), who has Los Alamos; the gentleman from South Carolina (Mr. GRAHAM), who has Savannah River; the gentleman from California (Mrs. TAUSSCHER), who has Lawrence Livermore. They supported the formulation of this amendment. A truly bipartisan effort. Is it made in order? No.

Now, in years past it was unthought of for senior members of the committee, for ranking members of serious committees of the House, when they offered a substantive, serious amendment, not a curve ball, not an under-cut, and this is not that at all anyway, this is substantive legislation, to be stiff-armed like this by the Committee on Rules and the other side of the aisle. This rule says we have time to consider how lease proceeds from the dairy farmer in Annapolis will be allocated, but we cannot talk about security in the national labs. We have time to talk about how whether or not we will buy American when we buy weight training equipment, but we cannot talk about espionage in the national labs, not at least with respect to our well-thought-out bill. We have time to talk about how the Air Force will buy modular firefighting equipment, but not this important bipartisan amendment.

This is a travesty. This is not the way to run the House of Representa-

tives. We should defeat this rule and let everyone know that in the future, when efforts like this are made, they deserve at least a hearing in the well of the House.

Mrs. MYRICK. Mr. Speaker, I yield myself such time as I may consume.

I would like to assure the gentleman from South Carolina that there is going to be a lot of discussion on the nuclear labs problem on this House floor.

Mr. SPRATT. But, if the gentleman will yield, there is no discussion about the amendment which we offered which we have worked on for 2 weeks and in which there has been broad bipartisan participation. This is an outrage. We should at least be able to make it in order on the House floor. Mrs. MYRICK. Reclaiming my time, we had 89 amendments to consider in that.

Mr. Speaker, I yield 3 minutes to the gentleman from Pennsylvania (Mr. WELDON).

Mr. WELDON of Pennsylvania. First of all, I thank the gentleman for yielding.

Mr. Speaker, just to respond to my good friend and someone for whom I have the highest respect, I do not know of any Republican on the Cox committee that was consulted on the amendment. I was not. As the gentleman knows, I spend a lot of time on these issues in the Cox committee. I take my work on the Cox committee very seriously. There is no member of the Cox committee on our side of the aisle who is on that amendment because I was not aware of it.

Mr. SPRATT. Mr. Speaker, will the gentleman yield?

Mr. WELDON of Pennsylvania. I yield to the gentleman from South Carolina.

Mr. SPRATT. It is my understanding that the gentleman from Washington (Mr. DICKS) talked to the gentleman from South Carolina (Mr. COX) about it and that my staff talked to your staff about it.

Mr. WELDON of Pennsylvania. No. I am not a cosponsor of the amendment, did not know it was coming up, would have helped the gentleman in the Committee on Rules if I would have known. But I was just out from the gentleman from Texas (Mr. THORNBERY). He is on it.

I am just saying, I think we would have had a better chance for a truly bipartisan effort if the Republicans on the Cox committee had been involved and engaged to help make this process before it.

Mr. DICKS. Mr. Speaker, will the gentleman yield?

Mr. WELDON of Pennsylvania. I yield to the gentleman from Washington.

Mr. DICKS. We gave this to the chairman, and I talked to him about it.
two or three times as we were doing these various joint appearances. Admittedly, with all the attention there has been to this report out, we may not have done our finest job in getting this to everybody as quickly as possible, and I regret that, but the chairman was given the amendment and I asked him to cosponsor it.

Mr. SPRATT. I am told that our staff met with your staff last week and gave you a copy. We would have been happy to have you as a cosponsor.

Mr. DICKS. The chairman was busy, too, though.

Mr. WELDON of Pennsylvania. Reclaiming my time, I would be happy to work with my colleagues and friends because they do have good ideas. As our friends know, there were 38 recommendations in the Cox committee. In fact, stabilizing issues in working with the White House spun a public response to those 38 confidential recommendations on February 1, before the Director of the CIA had even read the report, which he said 2 days later on February 3.

I think a constructive as opposed to a political approach to solving the problems identified in the Cox committee is in order. I will plead to work with both of my friends in that regard.

Mr. DICKS. We appreciate that.

Mr. WELDON of Pennsylvania. I just wanted to clarify that, that I would liked to have been a part of that effort and will pledge to work with you in the future.

This rule, I ask that our Members support. It is a good rule. There are some things I perhaps would have done differently, but it is a good rule in a very large bill.

I want to point to some specific things that are in here. We took the recommendations of Deputy Secretary John Hamre and his Chief Information Dominance Officer Art Money and we increased what they asked us for.

We see cyberterrorism and the use of information technology as a major weapon in the future of rogue nations. We increase the requests in those areas, so this Congress has been moving ahead of the request by the Pentagon in that area. We, I think, reversed what would have been one of the most disturbing issues in working with the Russians that we have. The administration originally proposed defunding the only cooperative program we have with Russia on missile defense technology. That was the RAMOS program. That alarmed the Russians. We have heard a lot of the rhetoric about missile defense itself and steps that we are taking to back Russia into a corner.

It was in this bill that we restore that funding with the cooperation of our colleague on the other side, Senator LEVIN, who felt it was critically important that we reverse this decision by the administration.

This rule is worthy of our support. I ask our colleagues to vote "yes." Mr. FRANK, Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts (Mr. FRANK).

Mr. FRANK of Massachusetts. Mr. Speaker, this rule degrades democracy. It is a conscious decision for the democratic process. Representatives to avoid open discussion and debate on the most important national security issues. Let us put aside the suggestion that time dictated that.

The gentlewoman from North Carolina said, well, there were 89 amendments submitted. The leadership that decided not to go forward with the debate on these significant issues gave us all a present a week ago of 3 days off next week that were scheduled for work. The original work schedule put together an announcement to say, let us days were canceled. So it was not time. It was a political decision.

We have on the other side Members who say, and some on this side, that one of the problems that is driving the problems is budget strains in the budget like we just saw agony on this floor over the agriculture bill. Why? Because there is a general perception that the amount of money we have to work with does not equal the amount that people think is necessary to meet various programmatic needs. Clearly, as you increase military spending, you cause a problem there.

One argument has been, we have to increase military spending because the Clinton administration has exceeded its capacity by overcommitment. Now, that is a valid argument to be debated, but we will not be debating it here, because that is too hard. That is one that might make people mad politically. That is something we will debate the precedes of the dairy farm, that the Naval Academy and strength equipment and whether or not it is being bought right, and nonsecure tactical radios for the 82nd Airborne. Those will all be separately debated.

But should America continue to have 100,000 ground troops in Western Europe? Mr. ROHRABACHER is here. The gentleman from California (Mr. ROHRABACHER) is here. The gentleman from Michigan (Mr. BONIOR), Ms. Moore of Pennsylvania, Ms. ROHRABACHER is here. The gentleman from California (Mr. ROHRABACHER) is here. The gentleman from Michigan (Mr. BONIOR), Ms. Moore of Pennsylvania, Mr. ROHRABACHER of California. The gentleman from California (Mr. ROHRABACHER) is here. The gentleman from Michigan (Mr. BONIOR), Ms. Moore of Pennsylvania, Mr. ROHRABACHER of California. The gentleman from California (Mr. ROHRABACHER) is here. The gentleman from Michigan (Mr. BONIOR), Ms. Moore of Pennsylvania, Mr. ROHRABACHER of California.

The original work schedule put together an amendment to say, let us cut that to 25,000, subject to the President's right to send more if there is an emergency, an absolutely untrammeled right to say in an emergency, they go over, but as an ongoing, permanent situation, let us not continue to have 100,000 American troops there.

Many of my Republican colleagues say, "Well, we don't want ground troops going into Kosovo. We didn't want ground troops in Bosnia." I have agreed with that, but I am willing to vote that way. What we have are people who want the easy rhetorical out of denouncing something, but do not want to get caught voting for it because voting for it might someday have political consequences.

In this leadership refuses to allow the House to debate an amendment put forward by five Republican, three Democratic and one Independent Member to say, "Let's reduce troops from Europe."

In 1989, a group of us began working on burdensharing, on saying to our wealthy allies in Japan and Europe and in a few other places, the American taxpayer cannot keep paying that defense burden. We have had some successes. It has been bipartisan. My friend from Connecticut and I have been working on it.

The gentleman from California (Mr. ROHRABACHER) is here. The gentleman from Michigan (Mr. BONIOR), Ms. Moore of Pennsylvania, Mr. ROHRABACHER of California. The gentleman from California (Mr. ROHRABACHER) is here. The gentleman from Michigan (Mr. BONIOR), Ms. Moore of Pennsylvania, Mr. ROHRABACHER of California.

Mr. SHAYS. Mr. Speaker, I yield myself such time as I may consume. I would just like to clarify that for the last 15 years this bill has always been structured. There are over 16 hours of debate. There are 39 amendments, the same as always, on this defense bill.

As to the question of the gentleman from Washington (Mr. DICKS) regarding that subject, there are 10 amendments that have been made in order on that subject, one of which is the gentleman from Washington.

I would also like to say that yesterday in the Committee on Rules that the ranking minority member, the gentleman from Missouri (Mr. SKELTON), said it was the best defense authorization bill he had ever seen except for one provision regarding Kosovo which we have dealt with.

According to the ratio, also there are more Republican amendments filed than Democrat amendments that were filed, which is the norm.

Mr. Speaker, I yield 3 minutes to the gentleman from Connecticut (Mr. SHAYS).

Mr. SHAYS. Mr. Speaker, I thank the gentlewoman for yielding me time. I just want to say from the outset that I have serious reservations about this rule, and I have serious reservations about our military. I believe our military is in trouble and needs significant help and assistance from this Congress.

Our military is not as strong as it should be because, in my judgment, we have too many bases at home and abroad. Our military is not as strong as it should be because we are oversubscribed in weapons systems. Our military is not as strong as it should be because we have not asked our allies to pay their fair share of the nonsalary costs of stationing our troops overseas.

We have asked the Japanese to pay their fair share. They pay over 75 percent of the nonsalary costs. The Japanese gave us more than $3 billion in actual cash payment for the 40,000 U.S. troops stationed in Japan.

The Europeans have more than 100,000 of our troops on their soil and they give us a grand total of $200 million. We offered an amendment, five Republicans and four Democrats, to initiate a U.S. troop reduction in Europe from 100,000 to 25,000 over 3 years. We thought this was a sensible proposal. We thought it should have been debated.

I just want to express again my reservation that this amendment was not made in order. Europeans have the ability to do more for the defense of their part of this world. They have the ability to pay more, but if we do not ask them to, they will not do so. They will be more than grateful to get this welfare from these United States.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. TRAFICANT).

Mr. TRAFICANT. Mr. Speaker, I am disgusted today. We are going to debate defense, and we are not addressing our subsidies to Japan and Germany, who attacked us and took us to war in World War II. We are not going to talk about financing the Chinese military arsenal that has 21 rockets pointed at us and not one of those rockets has a trigger lock. And we are going to have a debate on national security and we are not going to debate our borders and cities that could be destroyed by a Chinese missile across it, and launch it from within America at any one of our cities.

I am disgusted today. Literally, I do not see a major foreign debate. I see a national insecurity Congress, afraid of their shadow, afraid of some of the politics on our border. Literally. While, we are talking about politics, we are placing the American people at risk. I am disappointed.

I have been a very objective Member. That debate on the border should have been allowed in this bill and, shame, shame on this Congress for making the American people vulnerable. Vulnerable to terrorism, vulnerable to narcotics.

And I even struck out immigration. That is too damn political around here. Let narcotics come into the country and destroy our cities, let terrorists come into the country and blow up our trade centers, but let us not debate it, Congress. It is just too damn hot.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. LAHOUPT). Members should avoid using profanity during their speeches on the floor.

Mrs. MYRICK. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana (Mr. SOUDER).

Mr. SOUDER. Mr. Speaker, I rise with grave concern today, both for the stature and status of our United States armed forces which desperately need a buildup and revisions with our national capacity to defend ourselves because of the trickling and actual flood of secrets from this country to China. But how can we debate today a bill without dealing with the issue of Kosovo, I do not understand.

In the NO peace supplemental appropriations bill, we were supposedly rebuilding our armed forces. But we allowed reprogramming to occur from the buildup towards Kosovo. We had rapid deployment force money without a request for Kosovo. And in this bill, as of last night, the bill that went to the membership had a ban on funds from this bill being used for the war in the Balkans.

But mysteriously it disappeared. Apparently, the other party was notified this morning that it was out, but it was not allowed to our members. We did not realize until we come to the floor and get ready for debate that no longer is there a protection in this bill and the bill that was distributed to the membership; not only were they not going to allow the debate, but the bill that was given to us had the impression that it had a ban in. I had an amendment that would have restricted the funds even more broadly than that, but that is not in order.

How can we debate about our Armed Forces and whether we need to rebuild and restructure our armed forces and not debate the one thing that is depleting, that is unifying Jimmy Carter and his great editorial today in the New York Times saying Bill is victims of our flawed approach, and Henry Kissinger and an increasing majority of Americans realizing that we are burning up in a futile effort, in an effort over there that is actually worsening world conditions without accomplishing its goals; how can we have a defense authorization debate and, for that matter, an appropriations debate without allowing amendments that would restrict these funds in the name of a military buildup while armed forces are being destroyed is beyond me.

I have not voted against a rule this year or a procedure, but I cannot in good conscience vote for this rule.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio (Mr. KUCINICH).

Mr. KUCINICH. Mr. Speaker, I rise to register my concern and my disappointment that this rule eliminates a number of the bill that would have blocked funding for the further prosecution of the war in Kosovo and Serbia beyond October 1, 1999. As such, it has canceled debate over U.S. and NATO policy at a critical moment. The war is proceeding without the requisite permission of Congress prescribed by Article I, Section 8, of the Constitution. We are correctly concerned about the plight of the Kosovar Albanians, but we should be no less concerned about our own constitutional process. An air war has continued despite Congress' disapproval.

This war has imposed death and destruction on innocent civilians. A ground war is being planned. As we speak, 50,000 NATO troops are massing at the Kosovo border. British Defense Secretary George Robertson yesterday told NBC news that said troops would go into the southern Serbian province at the earliest opportunity and may well be in a battle soon.

The United States is about to send its sons and daughters into a death trap in Kosovo, and this Congress will not have, with this rule, a moment to
Increasingly distant without imposing further debate, and peace becomes increasingly difficult without possible without further war, but peace becomes national peacekeepers.

move Serb troops from Kosovo, cease peaceful resolution of this war through House Resolution 99 which calls for a dictament of Slobodan Milosevic are as we proceed with an authorization of U.S. sat-ellites and then going to Communist satellite manufacturers building U.S. sat-ellite manufacturers building U.S. tech-ology through the Communist concerned about the proliferation of U.S. doing anything about this problem. We are not doing anything about it. Mr. TAYLOR of Mississippi. Mr. Speaker, I rise in opposition to this rule. I would like to remind my col-leagues that they have but one chance to make rules for the government and to provide and maintain a Navy, to to authorize the continuation of this defense policy for the United States, nor the Congress of the United States, has said what we hope to accomplish.

Mr. Speaker, I had an amendment that was not made in order that was attempting to address this issue simply by implementing something that the Air Force itself recommended in one of its own studies, and that is to add additional personnel at a launch range that would allow them to increase the capacity at the range, and I was ex-tremely disappointed that this was not made in order, and I am extremely con-cerned that we, as a Congress, are not doing anything about this problem. We are complaining and getting very con-cerned about the proliferation of U.S. technology through the Communist Chinese going to all of these rogue na-tions like Iran and Iraq and North Korea, but here we are. We have a bill before us that attempts to do absolutely nothing to address this very, very critical issue. We have U.S. sat-ellite manufacturers building U.S. sat-ellites and then going to Communist

China to launch those satellites, and one of the reasons they do that is that they cannot actually get it scheduled at the Capeveral, and my amendment simply would have called for the expense of a very modest amount of money, $7 million, that would have dramatically increased the capacity at the launch range, and I am extremely disappointed that that amendment was not made in order.

Another feature of my amendment, which is something that is another ex-tremely critical issue, is the Air Force has for years been raiding the accounts that are used to modernize the launch range. We still have equipment at these ranges that operate on vacuum tubes, and my amendment simply would say: Stop raiding this account, let us mod-ernize the launch range and make sure it is operating efficiently and at low costs.

Mr. Speaker, I am extremely dis-appointed in this rule. This is truly a national security issue, the prolifera-tion and the transmission of U.S. tech-nology to the Communist Chinese. We are not doing anything about it.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentleman from Mississippi (Mr. TAYLOR).

Mr. TAYLOR of Mississippi. Mr. Speaker, I rise in opposition to this rule. I would like to remind my col-leagues that they have but one chance a year to define defense policy for the United States of America, and that is the defense authorization bill.

But I also like to remind my col-leagues that Article I, Section 8 of the United States Constitution provides that Congress shall have the power to provide for the common defense, to de-clare war, to raise and support armies, to provide and maintain a Navy, to make rules for the government and regulation of the land and naval forces.

For over 60 days American airmen have been at war in the Federal Repub-lic of Yugoslavia, and for 60 days nei-ther the President of the United States, nor the Congress of the United States, has said what we hope to ac-complish.

I had offered an amendment that would state America’s goals in this conflict. I realize many of my col-leagues wish it had not happened. I think for the sake of the people who are fighting this war we need to do one or the other. Either let those who are opposed to it prevail and get the troops out or establish a clearly definable set of goals so that we know what we are aiming for as a Nation in Yugoslavia.

Mrs. MYRICK. Mr. Speaker, I yield 1 minute to the gentleman from Cali-fornia (Mr. ROHRABACHER).

Mr. ROHRABACHER. Mr. Speaker, I rise in this opposition; that is, oppo-sition, to this rule.

When the Committee on Armed Serv-ices reported this bill, it very wisely included a provision saying that the funds in this bill for fiscal year 2000 could not be used for continuing the war in Kosovo for another year. But the House Rules Committee has decided and have taken it upon themselves to use this rule to strike out that provi-sion. That means, if we are to adopt this rule, this bill would become an authorization to continue the war for another year.

This is unconscionable. If our leader-ship or the Committee on Rules wants to authorize the continuation of this war in the Balkans, they should allow an up-or-down vote on that issue. In stead, they have made this rule a vote on whether or not to continue the war in the Balkans.

I say vote no on keeping this war going into the next millennium, vote no on this rule, and send a message to the world that we expect this body to be handled in a democratic fashion and not autocratically.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentlewoman from Calif-ornia (Mrs. TAUSCHER).

Mrs. TAUSCHER. Mr. Speaker, I rise in opposition to this rule.

For the past 3 weeks, Mr. Speaker, a bipartisan group of Members has worked to develop a comprehensive, re sponsible approach to addressing our concerns over insufficient security at the national laboratories. This group included the gentleman from Wash-ington (Mr. FroST), the gentleman from Texas (Mr. THORNBERY), the gen-tleman from South Carolina (Mr. SPRATT), the gentlewoman from New Mexico (Mrs. WILSON) and me.

Incredibly, the Committee on Rules has refused to allow this amendment to be considered by the House. Instead, the Committee on Rules has decided to turn our Nation's secu-rity into a partisan issue. It has re jected a sincere bipartisan effort to im-prove our counterintelligence pro grams and protect the secrets at our labs. The Dicks amendment, Mr. Speaker, would put into law many of the measures Energy Secretary Rich ardson has pledged to undertake. We would provide the Secretary the au-thority to implement polygraph exami-nations of scientists with access to the most sensitive information. We would increase financial penalties for employ-ees who mishandle classified material, provide whistleblower protection for employees who report misdeeds and clarify that the Energy Secretary has the authority to order the examination of computers in offices owned by the Federal Government. Most impor-tantly, our legislation would establish direct lines of counterintelligence au-thority at the Department of Energy with the ultimate responsibility rest-ing with the Secretary. The greatest error in our counterintelligence efforts has been a lack of any clear individual responsible for protecting our Nation's
Mrs. MYRICK. Mr. Speaker, I rise to strongly support this rule; I repeat, to strongly support this rule.

So I would simply ask that these very important issues not be laid aside but be temporarily displaced so that we can send a message and the material that are badly needed by our troops.

This rule is about advancing the cause of our men and women in the Armed Services, and both parties have done an excellent job of speaking out and saying this is the year of the troops.

So please join me, support this rule, and let us support our troops.

Mr. FROST. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina (Mr. HAYES).

Mr. HAYES. Mr. Speaker, I rise to strongly support this rule; I repeat, to strongly support this rule.

I can understand the difficult task of the Committee on Rules in crafting this rule. Let us go back and do this right.

Mrs. MYRICK. Mr. Speaker, I ask unanimous consent to extend the debate for 30 minutes.

The SPEAKER pro tempore (Mr. LAHOOD). Objection is heard.

Mr. FROST. Mr. Speaker, I object.

The SPEAKER pro tempore (Mr. LAHOOD). Objection is heard.

Mr. REYNOLDS. Mr. Speaker, as a member of the Committee on Rules, I think it is important to remind my colleagues that the Committee on Rules received 89 amendments to this bill. We did our best to be fair and to make as many amendments in order as we could.

The rule clearly allows for full and open debate on all major sources of controversy, including publicly funded abortions and nuclear lab security. It also allows a lot of debate on a lot of smaller issues as well.

We live in a dangerous world, but Congress is doing something about it. Congress is working to protect our friends and family back home from our enemies abroad. There are some very important things that need to be understood that are contained in this legislation as it comes to the floor.

Mr. Speaker, H.R. 1401 helps take some of our enlisted men off of food stamps by giving them a 4.8 percent pay raise. It provides for a national missile defense system so we can stop a warhead from China if that day ever comes. H.R. 1401 boosts the military budget for weapons and ammunition, providing $55.6 billion, $2.6 billion more than the President requested. And H.R. 1401 tightens security at our nuclear labs, doing something to stop the wholesale loss of our military secrets.

Mr. Speaker, I urge passage of this rule so that debate can begin on the appropriations for our armed services.

Mr. FROST. Mr. Speaker, I yield 1 minute to the gentleman from Florida (Mr. DAVIS).

Mr. DAVIS of Florida. Mr. Speaker, I think the case has been made here today by a broad number of Members, both Democrat and Republican, to defeat this rule. Let us go back and do this right.

The point has been made by the gentleman from California (Mr. DICKES), the gentleman from South Carolina (Mr. SPRATT) and others. Let us look at the
very important lessons from the report that has just come out with respect to national security. In fairness to the committee, the report was just issued. But let us do it right the first time.

Let me offer one specific example. The Weldon amendment that was not allowed to be made in order by the Committee on Rules provides a perfect opportunity to respond to the recommendation that we begin to invest in the United States domestic launch capacity instead of relying, unduly so, on other countries to launch communications satellites. The Weldon amendment, which was the product of a study done by the Air Force, recommended a very specific investment by the Kennedy Space Center. There are other space centers around the country that are well suited for this investment.

Let us go back and do this right the first time. Let us begin to respond to the solutions identified by the Chris Cox report, and the Weldon amendment would be a good place to start.

Mrs. MYRICK. Mr. Speaker, I withdraw the resolution.

The SPEAKER pro tempore. The gentleman from North Carolina withdraws the resolution.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 11 o'clock and 38 minutes a.m.), the House stood in recess subject to the call of the Chair.

ANNOUNCEMENT REGARDING AMENDMENT PROCESS FOR H.R. 45, NUCLEAR WASTE POLICY ACT OF 1999

Mrs. MYRICK. Mr. Speaker, the Committee on Rules is expected to meet the second week of June, when we return, to grant a rule which may restrict amendments for consideration of H.R. 45, the Nuclear Waste Policy Act of 1999.

Any Member contemplating an amendment to H.R. 45 should submit 55 copies of the amendment and a brief explanation of the amendment to the Committee on Rules no later than noon on Tuesday, June 8. The Committee on Rules office is in H–312 of the Capitol.

Amendments should be drafted to the text of the bill as reported by the Committee on Commerce on May 20.

Members should use the Office of Legislative Counsel to ensure their amendments are properly drafted and should check with the Office of the Parliamentarian to be certain their amendments comply with the Rules of the House.

PERMISSION FOR COMMITTEE ON TRANSPORTATION AND INFRA-STRUCTURE TO HAVE UNTIL 6 P.M., FRIDAY, MAY 28, 1999, TO FILE A REPORT ON H.R. 1000, AVIATION INVESTMENT AND RE- FORM ACT FOR THE 21ST CENTURY

Mr. SWEENEY. Mr. Speaker, I ask unanimous consent that the Committee on Transportation and Infrastructure have until 6 p.m. on Friday, May 28, 1999, to file a report on the bill (H.R. 1000) to amend title 49, United States Code, to reauthorize programs of the Federal Aviation Administration, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 853

Mr. REGULA. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 853.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

DESIGNATION OF THE HONORABLE THOMAS M. DAVIS TO ACT AS SPEAKER PRO TEMPORE TO SIGN ENROLLED BILLS AND JOINT RESOLUTIONS THROUGH JUNE 7, 1999

The SPEAKER pro tempore laid before the House the following communication from the Speaker of the House:

WASHINGTON, DC, May 27, 1999.

I hereby appoint the Honorable Thomas M. Davis to act as Speaker pro tempore to sign enrolled bills and joint resolutions through June 7, 1999.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

The SPEAKER pro tempore. Without objection, the designation is agreed to.

There was no objection.

COMMUNICATION FROM THE HONORABLE ALCEE L. HASTINGS, MEMBER OF CONGRESS

The Speaker pro tempore laid before the House the following communication from the Honorable Alcee L. Hastings, Member of Congress:

WASHINGTON, DC, May 19, 1999.

Hon. Dennis Hastert,
Speaker of the House of Representatives.

Dear Mr. Speaker: I believe that I have been remiss in informing you that I have taken a leave of absence from the Committee on Science.

At the beginning of the 106th Congress I was appointed to the Select Committee on Intelligence. I am of the understanding that to serve on this select committee I am required to take a leave from one of my two permanent committee assignments. Therefore I have chosen to take a leave from the Committee on Science.

If you have any questions please feel free to contact either me or Ann Jacobs in my office at 5-1143. Thank you very much.

Sincerely,

ALCEE L. HASTINGS.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Sherman Williams, one of his secretaries.

CONINUATION OF EMERGENCY WITH RESPECT TO THE FEDERAL REPUBLIC OF YUGOSLAVIA (SERBIA AND MONTENEGRO)—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. 106–75)

The SPEAKER pro tempore laid before the House the following message from the President of the United States, which was read and, together with the accompanying papers, without objection, referred to the Committee on International Relations and ordered to be printed:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice to the Federal Register for publication, stating that the emergency declared with respect to the Federal Republic of Yugoslavia (Serbia and Montenegro) is to continue in effect beyond May 30, 1999, and the emergency declared with respect to the situation in Kosovo is to continue in effect beyond June 9, 1999.

On December 27, 1995, I issued Presidential Determination 96–7, directing the Secretary of the Treasury, inter alia, to suspend the application of sanctions imposed on the Federal Republic of Yugoslavia (Serbia and Montenegro) and to continue to block property previously blocked until provision is made to address claims or encumbrances, including the claims of the other successor states of the former Yugoslavia. This sanctions relief, in conformity with United Nations Security Council Resolution 1022 of November 22, 1995 (hereinafter the Resolution”), was an essential factor motivating Serbia and Montenegro’s acceptance of the General Framework Agreement for Peace in Bosnia and
Herzegovina initiated by the parties in Dayton, Ohio, on November 21, 1995, and signed in Paris, France, on December 14, 1995 (hereinafter the "Peace Agreement"). The sanctions imposed on the Federal Republic of Yugoslavia (Serbia and Montenegro) were accordingly suspended prospectively, effective January 16, 1996. Sanctions imposed on the territories controlled by the Serbs and authorities and on the territory they control within Bosnia and Herzegovina were subsequently suspended prospectively, effective May 10, 1996, also in conformity with the Peace Agreement and the Resolution.

Sanctions against both the Federal Republic of Yugoslavia (Serbia and Montenegro) and the Bosnian Serbs were subsequently terminated by United Nations Security Council Resolution 1074 of October 1, 1996. This termination, however, did not end the requirement of the Resolution that blocked those funds and assets that are subject to restrictions and encumbrances remain blocked, until unblocked in accordance with applicable law. Until the status of all remaining blocked property is resolved, the Peace Agreement implemented, and the terms of the Resolution met, this situation continues to pose a continuing unusual and extraordinary threat to the national security, foreign policy interests, and the economy of the United States. For these reasons, I have determined that it is necessary to maintain in force these emergency authorities beyond May 30, 1999.

On June 9, 1998, I issued Executive Order 13088, “Blocking Property of the Governments of the Federal Republic of Yugoslavia (Serbia and Montenegro), the Republic of Serbia, and the Republic of Montenegro: Prohibiting Transactions in the Republic of Serbia in Response to the Situation in Kosovo.” Since then, the government of President Milosevic has rejected the international community’s efforts to find a peaceful settlement for the crisis in Kosovo and has launched a massive campaign of ethnic cleansing that has displaced a large percentage of the population and been accompanied by an increasing number of atrocities. President Milosevic’s brutal assault against the people of Kosovo and his complete disregard for the requirements of the international community pose a threat to regional peace and stability.

President Milosevic’s actions continue to pose a continuing unusual and extraordinary threat to the national security, foreign policy interests, and the economy of the United States. For these reasons, I have determined that it is necessary to maintain in force these emergency authorities beyond June 9, 1999.

WILLIAM J. CLINTON.

CONGRESSIONAL RECORD—HOUSE

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY, JUNE 9, 1999

Mr. GOSS. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday, June 9, 1999.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

AUTHORIZING THE SPEAKER, MAJORITY LEADER AND MINORITY LEADER TO ACCEPT RESIGNATIONS AND MAKE APPOINTMENTS, NOTWITHSTANDING ADJOURNMENT

Mr. GOSS. Mr. Speaker, I ask unanimous consent that notwithstanding any adjournment of the House until Monday, June 7, 1999, the Speaker, majority leader and minority leader be authorized to accept resignations and to make appointments authorized by law or by the House.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

ADJOURNMENT

Mr. GOSS. Mr. Speaker, as the designee of the majority leader, I move that the House do now adjourn. The motion was agreed to.

Mr. GOSS. Mr. Speaker, I ask unanimous consent that the provisions of Senate Concurrent Resolution 35, 106th Congress, the joint resolution that was subsequently terminated by Senate Concurrent Resolution 35, the House adjourned until Monday, June 7, 1999, at 12:30 p.m., for morning hour debates.

The SPEAKER pro tempore. There was no objection.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker’s table and referred as follows:

2384. A letter from the Director, Office of Regulatory Management and Information, Environmental Protection Agency, transmitting the Agency’s final rule—Aspergillus flavus AFS–2060 (RIN: 2070–AB78) received May 24, 1999, pursuant to 5 U.S.C. 581(a)(1)(A); to the Committee on Agriculture.

2386. A letter from the Director, Office of Regulatory Management and Information, Environmental Protection Agency, transmitting the Agency’s final rule—Approval and Propagation of Air Quality Implementation Plans; Rhode Island; Amendments to Air Pollution Control Regulation Number 9 [RI–39–6988a; A–1–FRL–6346–5] received May 24, 1999, pursuant to 5 U.S.C. 581(a)(1)(A); to the Committee on Commerce.

2387. A letter from the Director, Office of Regulatory Management and Information, Environmental Protection Agency, transmitting the Agency’s final rule—Approval and Propagation of Air Quality Implementation Plans; Texas; Dallas/Fort Worth Ozone Nonattainment Area [TX 107–1–7907; FRL–6349–5] received May 24, 1999, pursuant to 5 U.S.C. 581(a)(1)(A); to the Committee on Commerce.
TANNER, Mr. PUCKETT, Mr. TAUSIN, Mr. KING, Mr. JOHNSON, Mr. PRATKIS, Mr. THOMPSON of California, Mr. SANDLIN, and Mr. BILIRAY:

H.R. 1979. A bill to amend the Internal Revenue Code of 1986 to clarify the application of the excise tax imposed on arrow components; to the Committee on Ways and Means.

By Mr. BILIRAY (for himself and Mr. KOLBER):

H.R. 1980. A bill to prohibit employment discrimination on any basis other than factors pertaining to job performance; to the Committee on Education and the Workforce, and in addition to the Committees on the Judiciary, Government Reform, and House Administration, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BILIRAY:

H.R. 1981. A bill to authorize the Small Business Administration to provide financial and business development services to military reservists’ small businesses, and for other purposes; to the Committee on Small Business.

By Mr. BOEHLERT (for himself, Mr. KING, Mrs. KELLY, Mr. McNULTY, Mr. WALSH, Mr. McHUGH, Mr. WERNER, Mr. OWENS, Mr. LAFALCE, Mr. HINCHMAN, Mr. GILMAN, Mr. SERRANO, Mr. MEYERS of New York, Mr. ACKERMAN, Mr. FOSSELLA, Mrs. LOWEY of New York, Mr. SWERNY, Mr. REYNOLDS, Ms. SLAUGHTER, Ms. VILAQUEZ, Mrs. MCCARTHY of New York, Mr. CROWLEY, Mr. TOWNS, Mr. HOUGHTON, Mr. RANGEL, and Mrs. LOWEY):

H.R. 1982. A bill to name the Department of Veterans Affairs outpatient clinic located at 123 Brookley Drive, Rome, New York, as the “Donald J. Mitchell Department of Veterans Affairs Outpatient Clinic”; to the Committee on Veterans’ Affairs.

By Mrs. CLAYTON (for herself, Mr. POMEROY, Mrs. THURMAN, Mr. RESHOULDS, Mr. PASTOR, Mr. TOWNS, and Mr. BISHOP):

H.R. 1983. A bill to amend the Consolidated Farm and Rural Development Act to improve credit programs for farmers in the Department of Agriculture, and for other purposes; to the Committee on Agriculture.

By Mr. CROWLEY (for himself, Ms. SLAUGHTER, Mrs. CLAYTON, Ms. KILPATRICK, Ms. EDDIE BERNICHO Johnson of Texas, and Mr. BENTSCH):

H.R. 1984. A bill to prevent the abuse of elderly people; to the Committee on Education and the Workforce, and in addition to the Committees on the Judiciary, Banking and Financial Services, Ways and Means, Commerce, and Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mrs. CUBIN (for herself and Mr. SKEMINSKI):

H.R. 1985. A bill to improve the administration of oil and gas leases on Federal land, and for other purposes; to the Committee on Resources.

By Ms. DUNN (for herself, Mr. SHAW, and Mr. PORTMAN):

H.R. 1986. A bill to amend the Internal Revenue Code of 1986 to clarify the rules relating to leasehold allowances and contributions to the capital of retailers; to the Committee on Ways and Means.

By Mr. GOODLING:

H.R. 1987. A bill to show the recovery of attorneys’ fees and costs by certain employers and labor organizations who are prevailing parties in proceedings brought against them before the National Labor Relations Board or by the Occupational Safety and Health Administration; to the Committee on Education and the Workforce.

By Mr. GREEN of Wisconsin (for himself, Mr. ARMSTRONG, Mr. GARY MILLER of California, Mr. SIMKUS, Mr. SHOWS, Mr. FOLEY, Mr. TAYLOR of Mississippi, Mr. ENGLISH, and Mr. NEY):

H.R. 1988. A bill to amend title 18 of the United States Code to provide life imprisonment for repeat offenders who commit sex offenses against children; to the Committee on the Judiciary.

By Mr. HALL of Ohio (for himself and Mr. WALKER):

H.R. 1990. A bill to direct the Secretary of Transportation to take certain actions to improve the safety of persons present at roadside emergency scenes, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. SAM JOHNSON of Texas (for himself, Mr. WATERSON, Mr. Houghton, Mr. McNINNs, and Mr. CAMP):

H.R. 1991. A bill to amend the Internal Revenue Code of 1986 to clarify that natural gas gathering lines are 7-year property for purposes of depreciation; to the Committee on Ways and Means.

By Mr. KLINK (for himself, Mr. UPTON, Mr. DINDLING, Mr. WEAVER of Georgia, Mr. HALL of Texas, Mr. KNOLLINGBERG, Mr. TOWNS, Mr. LATOURETTE, Mr. SAWYER, Mr. JERGULA, Mr. DOYLE, Mr. WATTS of Oklahoma, Mr. LEVIN, Mr. McHUGH, Mr. HALL of Ohio, Mr. CAMP, Mr. TRAPANCY, Mr. HOEKSTRA, Mr. BLACK, Mr. SMITH of Michigan, and Mr. STUMP):

H.R. 1992. A bill to provide for a reduction in regulatory costs by maintaining Federal laws and fuel taxes applicable to automobiles in effect at current levels until changed by law; to the Committee on Commerce.

By Mr. MANZULLO (for himself, Mr. MENENDEZ, Mr. GILMAN, Mr. GILDESEN, Mr. ACKERMAN, Mr. BENTSCH, Mr. BEREUTER, Mr. BERMAN, Mrs. BIGEDEB, Mr. BLUNT, Mr. BRADY of Texas, Mr. CALLAHAN, Mrs. CLAYTON, Mr. COOKSEY, Mr. COSTELLO, Mr. DAVIS of Illinois, Mr. DELAHUNT, Mr. DELAY, Mr. DIAZ-BALART, Mr. GALLUP, Mr. EMIN, Mr. EWING, Mr. FATTAH, Mr. FROST, Mr. GALLEGLY, Mr. GUTIERREZ, Mr. HASTINGS of Florida, Mr. HOEFLER, Mr. Houghton, Mr. JACKSON-LEE of Texas, Mr. KILPATRICK, Mr. KNOLLINGBERG, Mr. KOLBE, Mr. LAHOOD, Mr. LANTOS, Mr. LEACH, Mrs. LEHRMAN of New York, Mr. MATSUI, Mrs. MEIK of Florida, Mrs. NAPOLITANO, Mr. ORTIZ, Mr. PACKARD, Mr. PORTER, Mr. RANGEL, Mr. ROTENBERG, Mr. SAWYER, Mr. SHERMAN, and Mr. BERRY):

H.R. 1993. A bill to reauthorize the Overseas Private Investment Corporation and the Trade and Development Agency; and for other purposes; to the Committee on International Relations.

By Mr. McNINNS (for himself, Mr. McKENNEDY, Mr. BUCHUS, Mr. RILEY, Mr. HEPLEY, Mr. SCHAEFFER, Mr. TANCHEJO, and Mr. GARY MILLER of California):

H.R. 1994. A bill to amend the Internal Revenue Code of 1986 to expand S corporation eligibility for banks, and for other purposes; to the Committee on Ways and Means.

By Mr. MCKEON (for himself, Mr. HASTERT, Mr. ARMSTRONG, Mr. WATTS of Oklahoma, Mr. BLUNT, Ms. PRYCE of Ohio, Mr. GOODLING, Mr. CASTLE, Mr. HOFFNER of Nebraska, Mr. SAM JOHNSON of Texas, Mr. GRAHAM, Mr. MCGINNIS, Mr. NORWOOD, Mr. HILLAERY, Mr. FLETCHER, Mr. JOHNSTON, Mr. NORTHUP, Mr. CUNNINGHAM, and Mr. HILL of Montana):

H.R. 1995. A bill to amend the Elementary and Secondary Education Act of 1965 to empower teachers, improve student achievement through high-quality professional development, and to increase the Reading Excellence Act, and for other purposes; to the Committee on Education and the Workforce, and in addition to the Committee on Armed Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. MENENDEZ (for himself, Mr. RUSH, Mr. MILLER, and Mr. Scharowsky):

H.R. 1996. A bill to ensure that children enrolled in Medicaid and other Federal means-tested programs at highest risk for lead poisoning are identified and treated, and for other purposes; to the Committee on Commerce, and in addition to the Committee on Education and the Workforce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. PRYCE of Ohio (for herself and Mr. Lewis of Georgia):

H.R. 1997. A bill to amend the Internal Revenue Code of 1986 to exclude from gross income amounts received as claims based on certain unlawful discrimination and to allow income averaging for backpay and frontpay awards received on account of such claims; to the Committee on Ways and Means.

By Mr. RAMSTAD (for himself and Mr. CARDIN):

H.R. 1998. A bill to amend title XVIII of the Social Security Act to promote the coverage of frail elderly Medicare beneficiaries permanently residing in nursing facilities in specialized health insurance programs for the frail elderly; to the Committee on Ways and Means, and in addition to the Committee on Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. RAMSTAD:

H.R. 1999. A bill to extend certain Medicare community nursing organization demonstration projects; to the Committee on Ways and Means, and in addition to the Committee on Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. SCARBROUGH (for himself, Mr. WELDON of Florida, Mr. NOESWORTH, Mr. PICKERING, and Mr. SMITH of Washington):
CONGRESSIONAL RECORD—HOUSE

May 27, 1999

H.R. 1968: Mr. Cardin.
H.J. Res. 55: Mr. Sam Johnson of Texas.
H. Con. Res. 114: Mr.azio, Mr. Ramstad, Mr. Greenwood, Mr. Castle, Mr. Regula, Mr. Bass, Mr. Gilman, and Mr. Thomas.
H. Res. 94: Mr. LaHood, Mr. Stark, Mr. Foley, and Mr. Rangel.
H. Res. 169: Mr. Talent, Mr. Forbes, and Mr. Radanovich.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:
H.R. 853: Mr. Regula.

DISCHARGE PETITIONS—ADDITIONS OR DELETIONS

The following Members added their names to the following discharge petition:
Petition 1 by Mr. Turner on House Resolution 122: Michael P. Forbes, Michael N. Castle, Christopher Shays, Greg Ganske, Constance A. Morella, and Nancy L. Johnson.

Petition 2 by Mr. Campbell on House Resolution 126: Christopher Shays and Michael P. Forbes.

The following Member’s name was withdrawn from the following discharge petition:
Petition 2 by Mr. CAMPBELL on House Resolution 126: David D. Phelps.
The Senate met at 9:30 a.m. and was called to order by the President pro tempore [Mr. THURMOND].

The PRESIDENT pro tempore. Today's prayer will be offered by our guest Chaplain, Dr. Thomas Tewell, of the Fifth Avenue Presbyterian Church, New York City.

We are very pleased to have you with us.

PRAYER

The guest Chaplain, the Reverend Dr. Thomas K. Tewell, the Fifth Avenue Presbyterian Church, New York, NY, offered the following prayer:

Will you pray with me.

Our Lord and our God, in this era of violence and confusion, we ask Your richest blessings to be poured out on the United States of America. We thank You for the destiny that You have given to us to be a living illustration of the righteousness and justice that You desire for all nations. Today we pray for the women and men in the United States Senate who work for long hours fulfilling their enormous responsibilities. They sometimes expend an incredible amount of energy on an issue, only to see it voted down. So often the good things they try to do meet with stubborn resistance. Their physical stress is aggravated as emotions are stretched and strained in this pressure cooker of responsibility.

Gracious God of love, protect the Senators from going beyond their human limitations where burnout brings discouragement. Make them wise in their responsibilities to their families, themselves, and most of all to You. Grant them the humility to remember their need for Sabbath rest, daily relaxation, and spiritual renewal. Most of all, O God, teach the Members of the Senate and all leaders in our Nation to wait upon You and thus renew their strength. May we put You first in our lives by remembering the words of the prophet Isaiah who said, "They that wait upon the Lord shall renew their strength, they shall mount up with wings like eagles; they shall run and not be weary, they shall walk and not faint." We pray in the strong name of the One who was never in a hurry, yet finished the work He came to do. Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The able majority leader, Senator LOTT of Mississippi, is recognized.

Mr. LOTT. I thank the President pro tempore.

APPRECIATION TO THE GUEST CHAPLAIN

Mr. LOTT. Mr. President, I extend my appreciation to Dr. Tom Tewell. I understand he is from the Fifth Avenue Presbyterian Church in New York City, and he is a friend of the Chaplain. A friend of the Chaplain is a friend of us all. We appreciate having you here with us today.

SCHEDULE

Mr. LOTT. Mr. President, today the Senate will resume consideration of the defense authorization bill and immediately begin debate on the Allard amendment regarding the Civil Air Patrol. A vote in relation to the Allard amendment has been ordered for 10 a.m. I understand discussions are still continuing with regard to that amendment. Other amendments will be offered, I am sure. They are pending. I am sure Senators will want to have them offered and considered one way or another today. There will be votes throughout the day.

It is the intention of the managers—and certainly my intention—to complete action on this bill. I urge the managers to complete action during today, not tonight. There are a number of Senators who are planning on proceeding to their States tonight, late tonight, or early in the morning, so we really need to get this legislation completed.

I commend the managers on both sides of the aisle for the work they have done, but I do think we need to get a definite list of amendments locked in. Otherwise, I am sure some Senators will continue to think of ideas they may want to have addressed. If Senators have amendments they want to have considered today, they need to see the managers during this next vote. After that, we hope to limit the amendments, limit the time, get the votes, and complete this work. This is very important legislation that needs to be completed and must be completed before tonight.

I thank my colleagues for their cooperation.

MEASURE PLACED ON CALENDAR

Mr. LOTT. I understand there is a bill at the desk due for its second reading.

The PRESIDING OFFICER (Mr. BUNNING). The clerk will report.

The legislative assistant read as follows:

A bill (S. 1138) to regulate interstate commerce by making provision for dealing with losses arising from Year 2000 Problem-related failures that may disrupt communications, intermodal transportation, and other matters affecting interstate commerce.

Mr. LOTT. I object, Mr. President, to further proceeding on this matter at this time.

The PRESIDING OFFICER. The bill will go to the calendar.

RESERVATION OF LEADER TIME

The PRESIDING OFFICER. Under the previous order, the leadership time is reserved.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000

The PRESIDING OFFICER. Under the previous order, the Senate will now resume consideration of S. 1059, which the clerk will report.

The legislative assistant read as follows:

A bill (S. 1059) to authorize appropriations for fiscal year 2000 military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

Pending:

Lott amendment No. 394, to improve the monitoring of the export of advanced satellite technology, to require annual reports with respect to Taiwan, and to improve the provisions relating to safeguards, security, and counterintelligence at Department of Energy facilities.

Allard/Harkin amendment No. 396, to express the sense of Congress that no major change to the governance structure of the Civil Air Patrol should be mandated by the Congress until a review of potential improvements in the management and oversight of Civil Air Patrol operations is conducted.

AMENDMENTS Nos. 411 through 45, EN BLOC

Mr. WARNER. Mr. President, it is the intention of the manager to try to do the cleared amendments. I want to make certain that the distinguished ranking member is in concurrence. That is indicated, so I think I will proceed.

On behalf of myself and the ranking member, the Senator from Michigan, I send 31 amendments to the desk. I would say before the clerk reports that this package of amendments is for Senators on both sides of the aisle and has been cleared by the minority.

I send the amendments to the desk at this time and ask that they be considered en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.
on-force exercises where multiple aircraft and ground vehicle tracking is intended over water using the large footprint autonomous guided and unguided munitions; and enable an improvement to existing aging radar presently in service. It is mobile and can support testing at other major ranges and locations in support of other Service’s requirements.

The Air Force has identified the 3-Data System as having high military value as it will enable the effective evaluation of the performance of advanced weapon systems to be utilized in future conflicts. The Air Force has informed me that precision engagement is one of the emerging operational concepts in Joint Vision 2010. A system would provide a capability to effectively evaluate the performance of advanced precision guided munitions and smart weapons prior to their use in a wartime environment. It would also directly support ongoing activities and initiatives of the Pentagon Renovation Program to effectively track multiple objects to the fidelity levels required and which require extensive post-mission data reduction times. This system will provide the capability to effectively track multiple targets simultaneously.

Mr. President, I thank the Committee for their willingness to support this amendment. The 3-Data System will play a vital role in enabling the Air Force to evaluate the capabilities and limitations of multiple smart weapons and their delivery systems during their development.

AMENDMENT NO. 415

(Purpose: To amend a per purchase dollar limitation of funding assistance for procurement of equipment for the National Guard for drug interdiction and counter-drug activities so as to apply the limitation to each item of equipment procured.)

In title III, at the end of subtitle D, add the following:

SEC. 340. MODIFICATION OF LIMITATION ON FUNDING ASSISTANCE FOR PROCUREMENT OF EQUIPMENT FOR THE NATIONAL GUARD FOR DRUG INTERDICATION AND COUNTER-DRUG ACTIVITIES.

Section 112(a)(3) of title 32, United States Code, is amended by striking "per purchase order" in the second sentence and inserting "per item".

AMENDMENT NO. 416

(Purpose: To require the Secretary of the Army to review the incidence of violations of State and local motor vehicle laws and to submit a report on the review to Congress)

On page 357, between lines 11 and 12, insert the following:
CONGRESSIONAL RECORD—SENATE
May 27, 1999

SEC. 1032. REVIEW OF INCIDENCE OF STATE MOTOR VEHICLE VIOLATIONS BY ARMY PERSONNEL.

(a) REVIEW AND REPORT REQUIRED.—The Secretary of the Army shall review the incidence of violations of State and local motor vehicle laws applicable to the operation and parking of Army motor vehicles by Army personnel during fiscal year 1999, and, not later than March 31, 2000, submit a report on the results of the review to Congress.

(b) CONTENT OF REPORT.—The report under subsection (a) shall include the following:

(1) A quantitative description of the extent of the violations described in subsection (a).

(2) An estimate of the total amount of the fines that are associated with citations issued for the violations.

(3) Any recommendations that the Inspector General considers appropriate to curtail the incidence of the violations.

AMENDMENT NO. 417
(Purpose: To substitute for section 654 a repeal of the reduction in military retired pay for civilian employees of the Federal Government.)

Strike section 654, and insert the following:

SEC. 654. REPEAL OF REDUCTION IN RETIRED PAY FOR CIVILIAN EMPLOYEES.

(a) REPEAL.—(1) Section 5532 of title 5, United States Code, is repealed.

(2) The chapter analysis at the beginning of chapter 55 of such title is amended by striking the item relating to section 5532.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on the first day of the first month that begins after the date of the enactment of this Act.

REPEAL LIMITATIONS

Mr. CRAPO. Mr. President, my amendment is co-sponsored by the Senate Majority Leader, Senator LOTT. On February 23, 1999, the Senate voted 87 to 11 in favor of this same amendment during consideration of S. 4.

My amendment would repeal the current statute that reduces retirement pay for regular officers of an uniformed service who chose to work for the federal government.

The uniformed services include the Army, Navy, Air Force, Marine Corps, Coast Guard, Public Health Service and the National Oceanographic and Atmospheric Agency.

If a retired officer from the uniformed services comes to work for the Senate, his or her retirement pay is reduced by about 50 percent, after the first $3,000, to offset for payments from the Senate.

The retired officer can request a waiver but the executive, legislative and judicial branches of government handle the waiver process differently on a case by case basis.

The current dual compensation limitation is also discriminatory in that regular officers are covered but reservists andy non-federal personnel are not covered by the limitation.

The Congressional Budget Office has recently looked at the current dual compensation limitation and it is estimated that around 6,000 military retirees lose an average of $800 per month because of this prohibition.

I have been unable to find one good reason to explain why we should want our law to discourage retired members of the uniformed services from seeking full time employment with the Federal Government.

My amendment would fix this inequity. It would give retired officers equal pay for equal work from the federal government and it would give the federal government access to a workforce that currently avoids employment with the Federal Government.

I am pleased the managers of the bill have agreed to accept my amendment and I thank them for their support for this important amendment.

AMENDMENT NO. 418
(Purpose: To establish as a policy of the United States that the United States will seek to maintain an economic embargo against any foreign country with which the United States is engaged in armed conflict, and for other purposes.)

In title X, at the end of subtitle D, add the following:

SEC. 1061. MULTINATIONAL ECONOMIC EMBARGOES AGAINST GOVERNMENTS IN ARMED CONFLICT WITH THE UNITED STATES.

(a) POLICY ON THE ESTABLISHMENT OF EMBARGOES.

(1) IN GENERAL.—It is the policy of the United States that, upon the use of the Armed Forces of the United States to engage in hostilities against any foreign country, the President shall—

(A) an independent study of all requirements, technologies, and acquisition strategies essential to the formulation of a sound Distributed Mission Training program is under way; and

(B) all Air Force laboratories and other Air Force facilities necessary to the research, development, testing, and evaluation of the Distributed Mission Training program have been assessed regarding the availability of the necessary resources to demonstrate and prove the Air Force Distributed Mission Training concept.

AMENDMENT NO. 421
(Purpose: To authorize land conveyances with respect to the Twin Cities Army Ammunition Plant, Minnesota.)

On page 453, between lines 10 and 11, insert the following:

SEC. 2832. LAND CONVEYANCES, TWIN CITIES ARMY AMMUNITION PLANT, MINNESOTA.

(a) CONVEYANCE TO CITY AUTHORIZED.—The Secretary of the Army may convey to the City of Arden Hills, Minnesota (in this section referred to as the "City"), all right, title, and interest of the United States in and to a parcel of real property, consisting of approximately 4 acres at the Twin Cities Army Ammunition Plant, for the purpose of permitting the City to construct a city hall complex on the parcel.

(b) CONVEYANCE TO COUNTY AUTHORIZED.—The Secretary of the Army may convey to Ramsey County, Minnesota (in this section referred to as the "County"), all right, title, and interest of the United States in and to a parcel of real property, including improvements thereon, consisting of approximately 4 acres at the Twin Cities Army Ammunition Plant, for the purpose of permitting the County to construct a maintenance facility on the parcel.
May 27, 1999

CONGRESSIONAL RECORD—SENATE

11235

County, and the Commanding General of the
Minnesota National Guard. Use of the city
call complex and maintenance facility by
the Minnesota National Guard shall be with-
out cost to the Minnesota National Guard.

(d) DESCRIPTION OF PROPERTY.—The exact
acres of land and legal description of the real
property to be conveyed under this section
shall be determined by surveys satisfactory
to the Secretary. The cost of the survey
shall be borne by the recipient of the real
property.

(e) ADDITIONAL TERMS AND CONDITIONS.—
The Secretary may require such additional
terms and conditions in connection with the
conveyances under this section as the Sec-
retary considers appropriate to protect the
interests of the United States.

AMENDMENT NO. 422

(Purpose: To require a land conveyance,
Navy Training Center, Orlando, Florida)

On page 459, between lines 17 and 18, insert the following:

SEC. 2844. LAND CONVEYANCE, NAVAL TRAINING CENTER, ORLANDO, FLORIDA.

(a) CONVEYANCE REQUIRED.—The Secretary of the Navy shall convey all right, title, and interest of the United States in and to the Naval Training Center, Orlando, Florida, in accordance with the terms
and conditions set forth in the Memorandum
of Land Conveyance, Orlando, Florida, executed by the Parties on December 19, 1997, as amended.

AMENDMENT NO. 423

(Purpose: To modify the conditions for issuing obsolete or condemned rifles of the Army and blank ammunition without charge)

In title X, at the end of subtitle D, add the following:

SEC. 1061. CONDITIONS FOR LENDING OBSOLETE OR CONDEMNED RIFLES FOR FUNERAL CEREMONIES.

Section 4683(a)(2) of title 10, United States Code, is amended to read as follows:

“(2) issue and deliver those rifles, together with blank ammunition, to those units without charge if the rifles and ammunition are to be used for ceremonies and funerals in honor of veterans at national or other ceme-
teries.”.

AMENDMENT NO. 424

(Purpose: To authorize use of Navy procure-
ment funds for advance procurement for the Arleigh Burke class destroyer pro-
gram)

On page 25, between lines 17 and 18, insert the following:

(c) OTHER FUNDS FOR ADVANCE PROCURE-
MENT FUND.—Notwithstanding any other provision of this Act, the funds authorized to be ap-
propriated under section 102(a) for procure-
ment programs, projects, and activities of the Navy, up to $190,000,000 may be made
available, as the Secretary of the Navy may
direct, for advance procurement for the Arleigh Burke class destroyer program.

AMENDMENT NO. 425

(Purpose: To set aside funds for the procure-
ment of the MLRS rocket inventory and reuse model)

In title I, at the end of subtitle B, add the following:

SEC. 114. MULTIPLE LAUNCH ROCKET SYSTEM.

Of the funds authorized to be appropriated under section 101(2), $950,000 may be made
available to complete the development of reuse and demilitarization tools and tech-
nologies for use in the disposition of Army MLRS inventory.

AMENDMENT NO. 426

(Purpose: To expand the entities eligible to participate in a noncompetitive authority for ac-
quision and improvement of military housing)

On page 460, between lines 6 and 7, insert the following:

SEC. 2807. EXPANSION OF ENTITIES ELIGIBLE TO PARTICIPATE IN ALTERNATIVE AUTHORITY FOR ACQUISITION AND IMPROVEMENT OF MILITARY HOUSING.

(a) DEFINITION OF ELIGIBLE ENTITY.—Sec-
tion 2871 of title 10, United States Code, is amended—
(1) by redesignating paragraphs (5) through (7) as paragraphs (6) through (8) respectively; and
(2) by inserting after paragraph (4) the follow-
ing new paragraph (5):

“(b) The term ‘eligible entity’ means any individual, corporation, firm, partnership,
company, State or local government, or
housing authority of a State or local govern-
ment.”.

(b) GENERAL AUTHORITY.—Section 2872 of this title is amended by striking “private persons” and inserting “an eligible entity”.

(c) DIRECT LOANS AND LOAN GUARANTEES.— Section 2873 of this title is amended—
(1) in subsection (a)—
(A) by striking “persons in private sector” and inserting “an eligible entity”; and
(B) by striking “such persons” and inserting “the eligible entity”; and
(2) in subsection (b)—
(A) by striking “any person in the private
sector” and inserting “an eligible entity”; and
(B) by striking “the person” and inserting “the eligible entity”.

(d) INVESTMENTS.—Section 2875 of this title is amended—
(1) in subsection (a), by striking “non-
governmental entities” and inserting “an eligible entity”;
(2) in subsection (c), by striking “a non-
governmental entity” both places it appears and inserting “an eligible entity”;
(3) in subsection (d), by striking “non-
governmental” and inserting “eligible”;
and
(4) in subsection (e), by striking “a non-
governmental entity” and inserting “an eligible entity”.

(e) RENTAL GUARANTEES.—Section 2876 of this title is amended by striking “private persons” and inserting “an eligible entity”.

(f) DIFFERENTIAL LEASE PAYMENTS.—Sec-
tion 2877 of this title is amended by striking “private persons”.

(g) CONVEYANCE OR LEASE OF EXISTING PROPERTY AND FACILITIES.—Section 2878(a) of this title is amended by striking “private persons” and inserting “eligible entities”.

(h) CLELAND, MR. PRESIDENT, I AM PLEASED TO OFFER THIS AMENDMENT TO S. 1059, THE NATIONAL DEFENSE AUTHORIZA-
TION ACT FOR FISCAL YEAR 2000, WHICH SEeks TO PROTECT THE MEN AND WOMEN OF OUR RESERVE MILITARY COMPONENTS. THE 1998 NATIONAL DEFENSE AUTHORIZATION ACT PROVIDED HEALTH CARE COVERAGE FOR RESERVISTS AND GUARDSMEN INJURING INJURY, ILLNESS OR DISEASE WHILE PERFORMING DUTY IN AN ACTIVE-DUTY STATUS. HOWEVER, IT OVERLOOKED THOSE SERVICE-MEN AND WOMEN PERFORMING DUTY IN “INACTIVE-DUTY” STATUS, WHICH IS THE STATUS THEY ARE IN WHILE PERFORMING THEIR MONTHLY “DRILL WEEKENDS.”

AMENDMENT NO. 427

(Purpose: To authorize medical and dental care for certain members of the Armed Forces incurring injuries on inactive-duty training)

On page 272, between lines 8 and 9, insert the following:

SEC. 717. MEDICAL AND DENTAL CARE FOR CERTAIN MEMBERS INCURRING INJURIES ON INACTIVE-DUTY TRAINING.

(a) ORDER TO ACTIVE DUTY AUTHORIZED.—
(1) Chapter 1209 of title 10, United States Code, is amended by adding at the end the following:

“12322. Active duty for health care.”

(b) MEDICAL AND DENTAL CARE FOR MEM-
BERS.—Subsection (e) of section 1074a of such title is amended to read as follows:

“(e)(1) A member of a uniformed service on active duty for health care or recuperation reasons, as described in paragraph (2), is entitled to medical and dental care on the same basis and to the same extent as members covered by section 1074a(a) of this title while the member remains on active duty.
(2) Paragraph (1) applies to a member de-
scribed in paragraph (1) or (2) of subsection (a) who, while being treated for (or recov-
ering from) an injury, illness, or disease in-
curred or aggravated in the line of duty, is
continued on active duty pursuant to a
modification or extension of orders, or is or-
dered to active duty, so as to result in active duty for a period of more than 30 days.”

(c) MEDICAL AND DENTAL CARE FOR DE-
PENDENTS.—Subparagraph (D) of section 1074a(a)(2) of such title is amended to read as follows:

“(D) A member on active duty who is enti-
tled to benefits under subsection (e) of sec-
tion 1074a of this title by reason of paragraph
(1), (2), or (3) of subsection (a) of such sec-
tion.”.

Mr. CLELAND. Mr. President, I am pleased to offer this amendment to S. 1059, the National Defense Authorization Act for Fiscal Year 2000, which seeks to protect the men and women of our reserve military components. The 1998 National Defense Authorization Act provided health care coverage for Reservists and Guardsmen incurring injury, illness or disease while performing duty in an active-duty status. However, it overlooked those service-men and women performing duty in ‘‘inactive-duty’’ status, which is the status they are in while performing their monthly ‘‘drill weekends.’’
This problem was dramatically illustrated recently when an Air Force Reserve C-130 crashed in Honduras, killing three crew members. One of the survivors was unable to work for over a year due to the serious nature of his injuries. While he was reimbursed for lost earnings, this serviceman was only eligible for military medical care related to injuries sustained in the crash. His family lost their civilian health insurance and was ineligible to receive medical care from the military. Had he been on military orders of more than 30 days, both he and his family would have been eligible for full military medical benefits for the duration of his recovery.

My dear colleagues, this is unacceptable. We must plug this loophole so that these tragic circumstances are not repeated.

Why is it so important that we look out for our Guardsmen and Reservists? It is because our military services have been reduced by one-third, while worldwide commitments have increased fourfold, leading to a dramatic increase in the dependence on our reserve components to meet our worldwide commitments. Like their active duty counterparts, they are dealing with the demands of a high operations tempo; yet they must meet the additional challenge of balancing their military duty with their civilian employment.

Members of the Guard and Reserve have been participating at record levels. Nearly 270,000 Reservists and Guardsmen were mobilized during Operations Desert Shield and Desert Storm. Over 17,000 Reservists and Guardsmen have answered the Nation’s call to bring peace to Bosnia. And, recently, over 4,000 Reservists and Guardsmen have been called up to support current operations in Kosovo. The days of the “weekend warrior” are long gone.

In addition to significant contributions to military operations, members of the reserve components have delivered millions of pounds of humanitarian cargo to all corners of the globe. Closer to home, they have responded to numerous state emergencies, such as the devastating floods that struck in America’s heartland last year. The men and women of the Reserve Components are on duty all over the world, every day of the year.

Considering everything our citizen soldiers, sailors, airmen and marines have done for us, we must not turn our backs on them and their families in their times of need. Please join me in supporting this amendment providing for those who provide for us.

Amendment No. 438
(Purpose: To refine and extend Federal acquisition streamlining)

At the end of title VIII, add the following:

SEC. 807. STREAMLINED APPLICABILITY OF COST ACCOUNTING STANDARDS

(a) APPLICABILITY.—Paragraph (2) of section 26(c) of the Office of Federal Procurement Policy Act (41 U.S.C. 422(f)(2)) is amended—

(1) by redesignating subparagraph (C) as subparagraph (D);

(2) by striking subparagraph (B) and inserting the following:

‘‘(B) The cost accounting standards shall not apply to a contractor or subcontractor for a fiscal year (or other one-year period used for cost accounting by the contractor or subcontractor) if the total value of all of the contracts and subcontracts covered by the cost accounting standards that were entered into by the contractor or subcontractor, respectively, in the previous or current fiscal year (or other one-year cost accounting period) was less than $50,000,000.’’

(b) Subparagraph (A) does not apply to the following contracts or subcontracts for the purpose of determining whether the contractor or subcontractor is subject to the cost accounting standards:

(1) Contracts or subcontracts for the acquisition of commercial items.

(2) Contracts or subcontracts where the price negotiated is based on prices set by law or regulation.

(3) Firm, fixed-price contracts or subcontracts awarded on the basis of adequate price competition and submission of certified cost or pricing data.

(4) Contracts or subcontracts with a value that is less than $5,000,000.

(c) WAIVER.—Section 422(f)(2) is further amended by adding at the end the following:

‘‘(5)(A) The head of an executive agency may waive the applicability of cost accounting standards for a contract or subcontract with a value less than $10,000,000 if that official determines in writing that—

(i) the contractor or subcontractor is primarily engaged in the sale of commercial items; and

(ii) the contractor or subcontractor would not otherwise be subject to the cost accounting standards.

(B) The head of an executive agency may also waive the applicability of cost accounting standards for a contract or subcontract entered into as an order issued under extraordinary circumstances when it is necessary to meet the needs of the agency. A determination to waive the applicability of cost accounting standards under this subsection shall include a statement of the circumstances justifying the waiver.

(C) The head of an executive agency may not delegate the authority under subparagraph (A) or (B) to any official in the executive agency below the senior policymaking level in the executive agency.

(D) The Federal Acquisition Regulation shall include the following:

(i) Criteria for selecting an official to be delegated authority to grant waivers under subparagraph (A) or (B).

(ii) The specific circumstances under which such a waiver may be granted.

(E) The head of each executive agency shall report the waivers granted under subparagraphs (A) and (B) to that agency to the Board on an annual basis.’’.

(c) CONSTRUCTION REGARDING CERTAIN NOT-FOR-PROFIT ENTITIES.—The amendments made by this section shall not be construed as modifying or superseding, nor as intended to impair or restrict, the applicability of the cost accounting standards to—

(i) any educational institution or federally funded research and development center that is associated with an educational institution, as defined in Office of Management and Budget Circular A-21, as in effect on January 1, 1999; or

(ii) any contract with a nonprofit entity that provides research and development and related products or services to the Department of Defense.

SEC. 808. GUIDANCE IN USE OF TASK ORDER AND DELIVERY ORDER CONTRACTS

(a) GUIDANCE IN THE FEDERAL ACQUISITION REGULATION.—Not later than 180 days after the date of the enactment of this Act, the Federal Acquisition Regulation issued in accordance with section 2306a of the Office of Federal Procurement Policy Act shall be revised to provide guidance to agencies on the appropriate use of task order and delivery order contracts, as defined in sections 2306a through 2306d of title 10, United States Code, and sections 303H through 303K of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253h through 253k).

(b) CONTENT OF GUIDANCE.—The regulations issued pursuant to subsection (a) shall, at a minimum, provide the following:

(1) Specific guidance on the appropriate use of government-wide and other multiple award task order and delivery order contracts to ensure compliance with—

(A) the requirement in section 5122 of the Clinger-Cohen Act (40 U.S.C. 1422) for capital planning and investment control in purchases of information technology products and services;

(B) the requirement in section 2304(b) of title 10, United States Code, and section 303J(b) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253J(b)) to ensure that all contractors are afforded a fair opportunity to be considered for the award of task orders and delivery orders; and

(C) the requirement in section 2304(c) of title 10, United States Code, and section 303J(c) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253J(c)) for a statement of work in each task order or delivery order issued that clearly specifies for a statement of work in each task order or delivery order

(2) any contract with a nonprofit entity that provides research and development and related products or services to the Department of Defense.

SEC. 809. CLARIFICATION OF DEFINITION OF COMMERCIAL ITEMS WITH RESPECT TO ASSOCIATED AGENCIES

Section 4(12) (E) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(E)) is amended to read as follows:
May 27, 1999

CONGRESSIONAL RECORD—SENATE 11237

"(E) Installation services, maintenance service, repair services, training services, and other services if—

"(i) the services are procured for support of an item referred to in subparagraph (A), (B), (C), or (D), regardless of whether such services are procured to improve a source or at the same time as the item; and

"(ii) the source of the services provides similar services contemporaneously to the general public under terms and conditions similar to those offered to the Federal Government.

SEC. 810. USE OF SPECIAL SIMPLIFIED PROCEDURES FOR PURCHASES OF COMMERCIAL ITEMS IN EXCESS OF THE SIMPLIFIED ACQUISITION THRESHOLD.

(a) EXTENSION OF AUTHORITY.—Section 4202(e) of the Clinger-Cohen Act of 1996 (divisions D and E of Public Law 104–106; 110 Stat. 654; 10 U.S.C. 2301 note) is amended by striking "three years after the date on which such amendments take effect pursuant to section 4461(b)(1)" and inserting "October 1, 2004".

(b) GAO REPORT.—Not later than March 1, 2001, the Comptroller General shall submit to Congress an evaluation of the test program authorized by section 4461 of the Clinger-Cohen Act of 1996, together with any recommendations that the Comptroller General considers appropriate regarding the test program or the use of special simplified procedures for purchases of commercial items in excess of the simplified acquisition threshold.

SEC. 811. EXTENSION OF INTERIM REPORTING RULE FOR CERTAIN PROCUREMENTS LESS THAN $100,000.

Section 315(b) of the Office of Federal Procurement Policy Act (41 U.S.C. 427(e)) is amended by striking "October 1, 1999" and inserting "October 1, 2004".

Mr. THOMPSON. Mr. President, I offer this amendment on behalf of myself as chairman of the Governmental Affairs Committee and Senator Lieberman, the Committee's ranking minority member, and Senators Warner and Levin, the chairman and ranking minority member of the Services Committee. Senator Lieberman and I thank the Armed Services chairman and ranking member for their cooperation and assistance in preparing this amendment which will benefit not only the procurement process within the Department of Defense, but other agencies across the Federal government as well.

The amendment which we offer today began as a request from the Administration and others to include additional procurement-related reforms to those enacted over the past several years and those already included in §1059. Our amendment includes five provisions, as follows: (1) Streamlined Applicability of Cost Accounting Standards; (2) Task Order and Delivery Order Contracts; (3) Clarification of the Definition of Commercial Items; (4) Two-Year Extension of Commercial Items Test Program; and (5) Extension of Interim Reporting Rule on Contracts with GSA. I ask unanimous consent that a joint statement of sponsors explaining the amendment be placed in the RECORD immediately following my statement. This statement represents the consensus view of the sponsors as to the meaning and intent of the amendment.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

JOINT STATEMENT OF SPONSORS

1. STREAMLINED APPLICABILITY OF COST ACCOUNTING STANDARDS

In recent years, Congress has enacted two major acquisition reform statutes—the Federal Acquisition Streamlining Act of 1994 (FASA) and the Clinger-Cohen Act of 1996. These statutes are designed to make government contracting more responsive and efficient. In this regard, Congress intended to make government contracting toward simplifying the government's acquisition process and eliminating many government-unique requirements. The goal of these changes in the government's purchasing processes has been to modify or eliminate unnecessary and burdensome legislative mandates, increase the use of commercial items, and provide more discretion to contracting agencies in making their procurement decisions.

Since the early 1990's, the Federal government has required certain unique accounting standards or criteria designed to protect it from the risk of overpaying for goods and services. These standards vary the manner or degree to which Federal contractors apportion costs to their contracts with the government. The Cost Accounting Standards (CAS standards) are a set of 19 accounting principles developed and maintained by the Cost Accounting Standards Board, a body created by Congress to develop uniform and consistent standards. The CAS standards require government contractors to account for their costs on a consistent basis and prohibit any shifting of overhead or other costs from commercial contracts to government contracts, or from fixed-priced contracts to cost-type contracts.

FASA and the Clinger-Cohen Act took significant steps to exempt commercial items from the applicability of the CAS standards. Nonetheless, the Department of Defense and others have continued to consider the need for certain new or modified standards not otherwise covered by the existing CAS standards. The sponsors of this legislation indicate that the CAS standards require government contractors to account for their costs in a manner consistent with the government in cost-type contracts. They believe that the added cost of developing the required accounting systems has discouraged some commercial companies from doing business with the government and led others to set up separate assembly lines for government products, substantially increasing costs to the government.

This provision carefully balances the government's need for greater access to commercial items, particularly those of non-traditional suppliers, with the need for a strong set of CAS standards to protect the taxpayers from paying for unused dollars that are currently covered. In particular, the provision would raise the threshold for coverage under the CAS standards for commercial items and technologies from $5 million to $25 million. It also establishes special procedures for contractors of coverage if they do not have a contract in excess of $5 million; and exclude coverage based on firm, fixed price contracts awarded on the basis of adequate price competition without the submission of certified cost or pricing data.

The provision also would provide for waivers of the CAS standards to agencies in limited circumstances. This would allow contracting agencies to handle this contract administration function, in limited circumstances, as part of their traditional role in administering the government's need for greater access to commercial products and technologies. However, the sponsors note that waivers would be available for contracts in excess of $10 million only in "exceptional circumstances." Additionally, the "exceptional circumstances" waiver may be used only when a waiver is necessary to meet the needs of an agency, and i.e., the agency determines that it would not be able to procure products or services in the absence of a waiver.

2. TASK ORDER AND DELIVERY ORDER CONTRACTS

FASA authorized Federal agencies to enter into multiple award task and delivery order contracts for the procurement of goods and services. Multiple award contracts occur when two or more contracts are awarded from one solicitation. Multiple award contracting allows the government to procure products and services more quickly using streamlined acquisition procedures while taking advantage of competition to obtain the optimum prices and quality on individual task orders or delivery orders.

FASA requires orders under multiple-award contracts to contain a clear description of the services or supplies ordered and—except under specified circumstances—requires that each of the multiple vendors be provided a fair opportunity to be considered for specific orders. Concerns have been raised that the simplicity of these multiple-award contracts has brought with it the potential for abuse. The General Accounting Office and the Department of Defense Inspector General have reported that agencies have routinely failed to comply with the basic requirements of FASA, including the requirement to provide vendors a fair opportunity to be considered for specific orders. While performance guidance was established by the Office of Federal Procurement Policy (OFPP) in 1996, the regulations implementing FASA do not establish any specific procedures for awarding orders or any specific safeguards to ensure compliance with the requirements.

This provision would require that the Federal Acquisition Regulation provide the necessary guidance on the appropriate use of task and delivery order contracts as authorized in FASA. It also directs that the Administrator of OFPP work with the Administrator of the General Services Administration (GSA) to review the ordering procedures and practices of the Federal Supply Schedule program administered by GSA. This review should include an assessment as to whether the GSA program should be modified to provide consistency with the regulations for task order and delivery order contracts required by this provision.

3. CLARIFICATION TO THE DEFINITION OF COMMERCIAL ITEMS

FASA included a broad new definition of "commercial items," designed to give the Federal government greater access to previously unavailable advanced commercial products from non-traditional suppliers, including small businesses, and technologies. The FASA definition of commercial items included only a limited definition of commercial items. Under FASA, commercial items include services, regardless of whether they are provided at the same time or from the same vendor as the commercial item the service is intended to support.

"Commercial item" is defined as an item of non-federally funded commercial design and manufacture that is not a service. The definition of "commercial item", however, excluded certain items, including those purchased to support the Federal government or previously unavailable advanced commercial items and technologies. The FASA definition of commercial items included only a limited definition of commercial items. Under FASA, commercial items include services, regardless of whether they are provided at the same time or from the same vendor as the commercial item the service is intended to support.

This language has been interpreted by some to mean that these ancillary services are commercial products. This provision amends the definition of "commercial item" to clarify that the term does not include services.
This provision would clarify that services ancillary to commercial items, such as installation, maintenance, repair, training, and other support services, would be considered a commercial service regardless of whether the service is provided by the same vendor or at the site where the commercial item is located. The service is provided contemporaneously to the general public under similar terms and conditions.

4. TWO-YEAR EXTENSION OF COMMERCIAL ITEMS TEST PROGRAM

Section 4320 of the Clinger-Cohen Act of 1996 provided the authority for Federal agencies to use special simplified procedures to purchase commercial items in a dollar range that is not greater than $5 million if the agency reasonably expects that the offers will include only commercial items. The purpose of this test program was to give agencies additional procedural discretion and flexibility so that purchases of commercial items in this dollar range could be solicited, offered, evaluated, and awarded in a simplified manner that maximizes efficiency and economy and minimizes paperwork burden and administration costs for both government and industry. Authority to use this test program expires on January 1, 2000.

The Administration has reported that, due to delays in implementing the test program, the data available from the test program is insufficient to assess the effectiveness of the test, and additional data is required to determine whether this authority should be made permanent. This provision would extend the authority to January 1, 2002.

The provision also requires the Comptroller General to report to Congress on the impact of the commercial items test program on competition for agency contracts and on the small business impact of the test program on competition for acquisition programs, such as Small Business, woman-owned small businesses. It also enables the government to track progress with the United States Government Standard General Ledger at the transaction level that applies government-wide regarding use of double-entry bookkeeping and complies with the United States Government Standards and accountability to the citizens of the United States, Congress, the President, and managers within the Department of Defense. The period that would be required to implement the processes and controls.

5. EXCLUSION OF IVY ELECTRONIC FUND TRANSFERS RULE ON CONTRACTS WITH SMALL BUSINESS

Section 31(f) of the OFPP Act, as amended by FASA, requires detailed reporting of contract activity between $25,000 and $100,000 in the Federal Procurement Data System Data. This requirement gives the government the ability to track the impact of acquisition reform on the share of contracts in this dollar range that are awarded to small businesses, small disadvantaged businesses and woman-owned small businesses. It also enables the government to track progress with the small business share of such contracts. The Comptroller General’s report also should assess the extent to which the test program has streamlined the procurement process.

DEPARTMENT OF DEFENSE ELECTRONIC FUND TRANSFERS.—(1) Section 315 of title 10, United States Code, is amended—

(A) by redesignating subsections (d) and (e) as subsections (e) and (f), respectively; and

(B) by inserting after subsection (c) the following:

(‘‘(d)(1) The Under Secretary is responsible for ensuring that the financial statements of the Department of Defense are in compliance with United States generally accepted auditing standards issued by the Public Company Accounting Oversight Board. The Under Secretary shall report to the Congress containing the results of the study required by paragraph (1).’’).

(2) In section 315(c)(1) of such section is amended by inserting ‘‘and to ensure accountability to the citizens of the United States, Congress, the President, and managers within the Department of Defense’’ before the semicolon at the end.

MANAGEMENT OF CREDIT CARDS.—(1) The Under Secretary of Defense (Comptroller) shall prescribe regulations governing the use and control of all credit cards and convenience checks that are issued to Department of Defense personnel for official use. The regulations shall be consistent with regulations that apply government-wide regarding use of credit cards by Federal Government personnel for official purposes.

(2) The regulations shall include safeguards and internal controls to ensure the following:

(A) There is a record of all credit card holders that is annotated with the limitations on amounts that are applicable to the use of each card by each credit card holder.

(B) The credit card holders and authorizing officials are responsible for reconciling the charges appearing on each statement of account with receipts and other supporting documentation and for forwarding reconciled statements to the designated disbursing office in a timely manner.

(C) Disputes and discrepancies are resolved in the manner prescribed in the applicable Governmentwide credit card contracts entered into by the Administrator of General Services.

(D) Credit card payments are made promptly within prescribed deadlines to avoid interest penalties.

(E) Payments and refunds based on prompt payment on credit card accounts are properly recorded in the books of account.

CONGRESSIONAL RECORD—SENATE
May 27, 1999
The Armed Services Committee has taken the next logical step. The bill before us today contains much more than a strong message. It mandates financial management reform. If adopted in conference, the language in this bill would become the law of the land. And with it, I hope we are able to generate more pressure for financial reform at the Pentagon. The legislative language on financial management reform is reflected in several provisions in Title X [ten] of the bill.

Mr. President, if financial reforms were not in the bill, I would be standing here with a different kind of amendment in my hand. I would be asking my colleagues to support an amendment to cut the DOD budget. Fortunately, that's not necessary. It's not necessary because the Armed Services Committee has seen the light and seized the initiative.

The Armed Services Committee is demanding financial management reforms at the Pentagon. First, I would like to thank my friend from Virginia, Senator Warner—the Committee Chairman—for recognizing and accepting the need for financial management reform at the Pentagon. I would also like to thank my friend from Oklahoma, Senator Inhofe—Chairman of the Readiness Subcommittee—for putting some horsepower behind DOD financial management reform.

His hearing on DOD Financial Management on April 14th helped to highlight the need for reform and set the stage for the corrective measures in the bill.

But above all, I would like to thank the entire Armed Services Committee for taking time to listen to my concerns and for addressing them in the bill in a meaningful way.

I hope the Committee's efforts to strengthen internal controls—when combined with mine—will improve DOD's ability to detect and prevent fraud and better protect the peoples' money.

Mr. President, this bill does not contain all the new financial management controls that I wanted. There had to be give-and-take along the way. I remain especially concerned about the need for restrictions on the use of credit cards for making large payments on R&D and procurement contracts.

The Committee has assured me that there will be a good faith effort to examine this issue before the conference on this bill is concluded. Based on information to be provided by the Department and the General Accounting Office and Inspector General, the final version of the bill may include: (1) a dollar ceiling on credit card transactions; and (2) strict limits on using credit cards to make large contract payments.

I hope that is possible. There will be no improvement in the dismal DOD financial management picture without reform—and some pressure from this Committee and the other committees of Congress. We need to lean on the Pentagon bureaucrats to make it happen. Without reform, the vast effort dedicated to auditing the annual financial statements will be a wasted effort.

The bill before us will hopefully establish a solid foundation—and create a new environment—where financial management reform can begin to happen. In doing what we are doing, I hope we are providing the Pentagon with the wherewithal to get its financial house in order.

And with it, I hope we are able to examine the department's financial transactions—including all receipts and expenditures. It needs to be able to do this once a year—accurately and completely.

The GAO and IG auditors should be able to examine the department's books and its financial statements and render a "clean" audit opinion. That's the goal.

I want to see us reach that goal reached in my lifetime. Mr. President, I would like to extend a special word of thanks to the entire Armed Services Committee for helping...
me with my DOD financial management reform initiatives.

I would like to thank the committee for helping to push the Pentagon in the right direction—toward sound financial management practices.

I would like to thank the Committee Chairman, Senator WARNER, and his Subcommittee Chairman, Senator INHOFE, for throwing their weight behind the effort.

I would like to thank them for working with me and helping me craft an acceptable piece of legislation.

Mr. President, my mind, DOD financial management reform is mandatory as we move to larger DOD budgets.

Higher defense budgets need to be hooked up to financial reforms—just like a horse and buggy—one behind the other. They need to move together.

AMENDMENT NO. 431
(Purpose: To authorize $4,500,000 for research, development, test, and evaluation, Defense-wide, relating to a hot gas decontamination facility, and to reduce by $4,500,000 the amount authorized for chemical demilitarization activities to take into account inflation savings in the account for such activities.

On page 18, line 13, strike “$1,169,000,000” and insert “$1,164,500,000”.

On page 29, line 14, strike “$9,400,081,000” and insert “$9,404,581,000”.

AMENDMENT NO. 432
(Purpose: To provide $3,500,000 (in PE 62633N) for Navy research in computational engineering design, and to provide an offset.

On page 29, line 11, increase the amount by $3,500,000.

On page 29, line 14, decrease the amount by $3,500,000.

AMENDMENT NO. 433
(Purpose: To extend certain temporary authorities to provide benefits for Department of Defense employees in connection with defense workforce reductions and re-structuring.

At the end of title XI, add the following:

SEC. 1107. EXTENSION OF CERTAIN TEMPORARY AUTHORITIES TO PROVIDE BENEFITS FOR EMPLOYEES IN CONNECTION WITH DEFENSE WORKFORCE REDUCTIONS AND RESTRUCTURING.

(a) LUMP-SUM PAYMENT FOR SEVERANCE PAY.—Section 5595(i)(4) of title 5, United States Code, is amended by striking “the date of the enactment of the National Defense Authorization Act for Fiscal Year 1996 and before October 1, 1999” and inserting “February 10, 1996, and before October 1, 2003”.

(b) VOLUNTARY SEPARATION INCENTIVE.—Section 5597(e) of such title is amended by striking “September 30, 2001” and inserting “September 30, 2003”.

(c) CONTINUATION OF FEHB ELIGIBILITY.—Section 6820a(d)(4)(B) of such title is amended by striking “(i) and (ii)” and inserting the following:

“(i) October 1, 2003; or

(ii) February 1, 2004, if specific notice of such separation was given to such individual before October 1, 2003.”.

EXIT SURVEY
Ms. LANDRIEU. Mr. President, I thank our chairman, Senator WARNER, and the ranking member, Senator LEVIN, for agreeing to this very important amendment. As a new member of this Committee, I was a little taken aback by the way the Committee launched into major legislation at the very start of this session. I am glad that we did. From the very start of the year, it was clear that our national security priorities were already in trouble that threatened to reach crisis proportions.

Furthermore, this crisis was looming just when our country most needed every talented soldier, sailor, and airman that we could keep in the service.

The structural reasons behind the retention shortfall have already been well documented on the floor; a booming economy, long deployment, and a lack of predictability for family life have all taken their toll.

However, what I have found very frustrating is that we have no sense of priority behind these problems. Are soldiers leaving because the pay is too low, or because the retirement package is insufficient? Do we need to address our operations tempo first, or health care? The evidence is all anecdotal. We have a strong sense of the universe of problems, but no qualifiable data on their relative importance.

As it stands, each service is responsible for exit surveys which are conducted on a voluntary basis when a person separates from the military. These surveys are not standardized, do not seek the same information, nor are they scientifically tested. In short, they are not much better than the anecdotal evidence that we collect by word of mouth. The dimensions of our difficulties in retention demand that we have much better information. For that reason, I have introduced this amendment to the Defense Authorization bill which will give us the data that we need to assess the steps Congress needs to take in coming years to stem this tide.

The amendment instructs the Secretary of Defense to develop and implement a survey of all military personnel leaving the service starting in January 2000 and ending six months later. The survey will provide uniformity of data, and be scientifically tested so as to give us some real feedback as to why our men and women are leaving the service. Additionally, there are specific issues of content that the survey must address, namely: the reasons for leaving military service, plans for activities after the separation, affiliation with a Reserve component, attitude toward pay and benefits, and the extent of job satisfaction during their tenure.

I believe that the answers to these questions are vital to the Senate’s role in addressing retention and other readiness concerns of our all-volunteer force depends on our ability to continue to recruit and retain the manpower necessary to support our national security priorities. To do so, we need forward thinking policy which makes the most of our scarce resources and protects the quality of life of our armed services. This amendment will give us the data and intellectual framework to begin such policy. Again, I thank Senators WARNER and LEVIN for accepting it.

AMENDMENT NO. 434
(Purpose: To require the Secretary of Defense to carry out an exit survey on military service for members of the Armed Forces separating from the Armed Forces.

In title V, at the end of subtitle F, add the following:

SECTION 522. EXIT SURVEY FOR SEPARATING MEMBERS.

(a) REQUIREMENT.—The Secretary of Defense shall develop and carry out a survey on attitudes toward military service to be completed by members of the Armed Forces who voluntarily separate from the Armed Forces or transfer from a regular component to a reserve component during the period beginning on January 1, 2000, and ending on June 30, 2003, or such later date as the Secretary determines necessary in order to obtain enough survey responses to provide a sufficient basis for meaningful analysis of survey results.

(b) PURPOSE.—The purpose of the survey shall be to assess the factors which may influence military personnel to separate from the Armed Forces, to evaluate the factors which may influence their decision to remain in service, to assess the factors which may cause the retirement package to be insufficient, and to assess the factors which may cause the service to carry out an exit survey on military service for members of the Armed Forces separating from the Armed Forces.

(c) SURVEY CONTENT.—The survey shall, at a minimum, cover the following subjects:

(1) Reasons for leaving military service.

(2) Plans for activities after separation (such as enrollment in school, use of Montgomery GI Bill benefits, and work).

(3) Affiliation with a Reserve component, together with the reasons for affiliating or not affiliating, as the case may be.

(4) Attitude toward pay and benefits for service in the Armed Forces.

(5) Extent of job satisfaction during service as a member of the Armed Forces.

(6) Such other matters as the Secretary determines appropriate, including reasons for choosing to separate from the Armed Forces.

(d) REPORT.—Not later than February 1, 2001, the Secretary shall submit to Congress a report containing the results of the surveys.

The report shall include an analysis of the reasons why military personnel voluntarily separate from the Armed Forces and the post-separation plans of those personnel. The Secretary shall utilize the report’s findings in crafting future responses to declining retention and recruitment.

AMENDMENT NO. 435
(Purpose: To authorize the use of amounts for award fees for Department of Energy closure projects for purposes of funding additional cleanup projects at closure project sites.

On page 574, strike lines 1 through 24 and insert the following:

SEC. 3173. USE OF AMOUNTS FOR AWARD FEES FOR DEPARTMENT OF ENERGY CLOSURE PROJECTS FOR ADDITIONAL CLEANUP PROJECTS AT CLOSURE PROJECT SITES.

(a) AUTHORITY TO USE AMOUNTS.—The Secretary of Energy may use an amount authorized to be appropriated for the payment of award fees for a Department of Energy closure project for purposes of conducting additional cleanup activities at the closure project site if the Secretary—
On March 16, 1966, bullets flew and grenades exploded as Rascon led his squad on a patrol that found itself in a maelstrom of North Vietnamese firepower. When an American machine gunner went down and someone called for a medic, Rascon, 20 at the time, ignored his orders to remain covered and rushed down the trail amid a hail of enemy gunfire and grenades. To better protect the wounded soldier, Rascon dove between the enemy machine gun fire and the soldier. Rascon turned. He was shot in the hip. Although wounded, he managed to drag the soldier off the trail and discovered the man he was dragging was dead.

Specialist 4th Class Larry Gibson crawled forward looking for ammunition. The other machine gunner was already dead and Gibson had no ammunition with which to defend the platoon. Rascon grabbed the dead soldier’s ammo and gave it to Gibson. Then, amid relentless enemy fire and grenades, Rascon hobbled back up the trail, snared the dead soldier’s machine gun and, most importantly, 400 rounds of additional ammunition. The pressure of the grenades was dropped. One ripped open Rascon’s face. It didn’t stop him. He saw another grenade drop five feet from a wounded Neil Haffy. He tackled Haffy so the grenade blast himself, saving Haffy’s life.

Though severely wounded, Rascon crawled back among the other wounded and gave them aid. A few minutes later, Rascon saw Sergeant Ray Compton being hit by gunfire. As Rascon moved toward him, another hand grenade dropped. Instead of seeking cover Rascon dove on top of the wounded sergeant and again absorbed the blow. That time the explosion smashed through Rascon’s helmet and ripped into his scalp. He saved Compton’s life.

When the firefight ended, Rascon refused aid for himself until the other wounded were evacuated. So bloodied by the conflict was Rascon that when soldiers placed him on the evacuation helicopter, a chaplain saw his condition and gave him last rites. But Alfred Rascon survived.

Today, Rascon, now 50, lives in Howard County, Maryland. The soldiers who witnessed Rascon’s deeds that day recommended him in time for the Medal of Honor. Years later, these soldiers were shocked to discover that he had not received one. The men continued to this day to seek full recognition and the awarding of the Medal of Honor for Alfred Rascon.

Perhaps the best description of Alfred Rascon’s actions came 30 years later from fellow platoon member Larry Gibson: I was a 19-year-old gunner with a recon section. We were under intense and accurate enemy fire that had pinned down the point squad, making it almost impossible to move without being killed. Unhesitatingly, Doc [as he was called] went forward to aid the wounded and was killed. When Doc died, the brunt of several enemy grenades, shielding the wounded with his body . . . In these few words I cannot fully describe the events of that day. The acts of selfless heroism Doc performed while saving the many wounded, though severely wounded himself, speak for themselves. This country needs genuine heroes and one of those is Alfred Rascon. Rascon was once asked why he acted with such courage on the battlefield even though he was an immigrant and not yet a citizen. Rascon replied, “I was always an American in my heart.”

Mr. President, the approach of Memorial Day is a proper occasion for us to reflect on what it means to live in a nation that can attract young men and women who were not even born here to volunteer and, if necessary, die for the country they have chosen to serve. It is a reflection on what we mean to live in a country where to this day the children of immigrants volunteer and serve.

Today, over 60,000 active military personnel are immigrants to his country. This desire to serve is consistent with our history. More than 20 percent of the recipients of our highest military award, the Congressional Medal of Honor, have been immigrants. Indeed America remains free because in no small part she has been blessed with many American heroes willing to give their lives in her defense.

During his last year in office, Ronald Reagan traveled out to a high school in Suitland, MD. Surrounded by students, he said: "We owe a debt to all those people, wherever they or their parents were born, who have kept our Nation free and safe in a dangerous world. And we owe a continuing debt of gratitude to those today who serve, guarding our country, our homes and our freedom. Like all good things, freedom must be won again and again. I hope all of us will remember those, immigrants and native born, who have won freedom for us in the past, and stand ready to win freedom for us again, if they must. May we never allow ourselves to forget the brave and the brave who stand ready to fight."

I believe the awarding of the Medal of Honor to Alfred Rascon is richly deserved. This award will demonstrate America’s appreciation of Alfred Rascon’s valor in combat and recognize his extraordinary service to this country. Mr. President, I yield the floor.
Mr. THOMAS. Mr. President, amendment No. 437 to S. 1059, the Defense Authorization bill, prohibits the return to a foreign country of any portion of a memorial to American veterans without the express authorization of Congress.

I would not have thought that an amendment such as this was necessary, Mr. President. It would never have occurred to me that an administration would even briefly consider dismantling part of a memorial to American soldiers who died in the line of duty in order to send a piece of that memorial to a foreign country; but a real possibility of just that happening exists in my state of Wyoming involving what are known as the “Bells of Balangiga.”

In 1898, the Treaty of Paris brought the Spanish-American War to an end. The Philippines were ceded to the United States. At about the same time, the Filipino people began an insurrection against the United States. In August 1901, a Filipino delegation brought to the United States a silver bell and a bronze cannon taken from Balangiga in the Philippines. Most recently, the Philippine government—having run into President Clinton’s administration—has not disavowed its earlier intent to dispose of the bells. Mr. President, I ask unanimous consent that the text of that letter be inserted at this point in the RECORD.

In response, the administration might still dispose of the bells. In addition, Mr. President, I ask unanimous consent that the text of that letter be inserted at this point in the RECORD.

To head off any move by the administration to dispose of the bells, I and Senator ENZI introduced S. 1903 on April 1, 1998. The bill had 18 cosponsors, including the distinguished Chairmen of the Committees on Armed Services, Foreign Relations, Finance, Energy and Natural Resources, Rules, Ethics, and Appropriations; the Chairman andive Subcommittees of the Foreign Relations Committee; and five members of the Armed Services Committee.

While time has passed since this issue came to a head last April, Mr. President, my deep concern that the administration might still dispose of the bells has not. The administration has not disavowed its earlier intent to seek to return the bells—an intent detailed by the introduction of S. 1903 last year. In addition, that article IV, section 3, clause 2 of the Constitution, which states that the “Congress shall have the power to dispose of . . . Property belonging to the United States,” is the Justice Department has issued an informal memorandum stating that the bells could possibly be disposed of by the President pursuant to the provisions of 10 U.S.C. § 2572.

I continue to be amazed, even in these days of political correctness and revisionist history, that a U.S. President—our Commander in Chief—would appear to be ready to ignore the wishes of our veterans and tear down a memorial to U.S. soldiers who died in the Philippines.
line of duty in order to send part of it back to the country in which they were killed. Amazing, that is, until I recall this President’s fondness for sweeping apologies and what some might view as flashy P.R. gestures. Consequently, Senator Enzi and I decided to pursue the issue again in the 106th Congress.

Mr. President, to the veterans of Wyoming, and the United States as a whole, the bell represent a lasting memorial to those 54 American soldiers killed as a result of an unprovoked insurgent attack in Balangiga on September 28, 1901. In their view, which I share, any attempt to remove either or both of the bells—and in doing so actually physically dismantling a war memorial—is a desecration of that memory.

This amendment will protect the bells and similar veterans memorials from such an ignoble fate. The bill is quite simple; it prohibits the transfer of a bell or similar property or any part thereof to a foreign country or government unless specifically authorized by law. I would like to thank the distinguished Chairman of the Committee [Senator WARNER] for his assistance, and that of his staff, in moving this amendment forward.

AMENDMENT NO. 438

(Purpose: To authorize emergency supplemental appropriations for fiscal year 1999)

In title X, at the end of subtitle A, add the following:

SEC. 1009. AUTHORIZATION OF EMERGENCY SUPPLEMENTAL APPROPRIATIONS FOR FISCAL YEAR 1999.

Amounts authorized to be appropriated to the Department of Defense for fiscal year 1999 in the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105-261) are hereby adjusted, with respect to any such authorized amount, by the amount by which appropriations pursuant to such authorization were increased (by a supplemental appropriation) or decreased (by a rescission), or both, in the 1999 Emergency Supplemental Appropriations Act.

AMENDMENT NO. 439

(Purpose: To clarify the scope of the requirements of section 1049, relating to the prevention of interference with Department of Defense use of the frequency spectrum)

On page 371, at the end of line 13, add the following: "The preceding sentence does not apply to the operation, by a non-Department of Defense entity, of a communication system, developed or approved on any portion of the frequency spectrum that is reserved for exclusively non-government use."

On page 372, line 3, insert "fielded" after "apparatus.

(d) This section does not apply to any upgrades, modifications, or system redesign that would result in interference with or receiving interference from a non-Department of Defense system.

AMENDMENT NO. 440

(Purpose: To ensure continued participation by small businesses in providing services of a commercial nature)

On page 281, line 13, after "Government," insert the following: "These items shall not be considered commercial items for purposes of Section 2322(e) of the Clinger-Cohen Act (10 U.S.C. 2304 note)."

On page 282, line 19, after "concerns," insert the following: "HUBZone small business concerns."

On page 283, line 19, strike "(A)" and insert "(1)"

On page 283, line 21, strike "(B)" and insert "(2)"

On page 284, line 3, strike "(C)" and insert "(3)"

On page 284, between lines 6 and 7, insert the following:

The term "HUBZone small business concern" has the meaning given the term in section 3(p)(3) of the Small Business Act (15 U.S.C. 632(p)(3)).

AMENDMENT NO. 441

(Purpose: To authorize the Secretary of Defense to provide assistance to civil authorities in responding to terrorism)

In title X, at the end of subtitle D, add the following:

SEC. 1061. MILITARY ASSISTANCE TO CIVIL AUTHORITIES FOR RESPONDING TO TERRORISM.

(a) AUTHORITY.—During fiscal year 2000, the Secretary of Defense, upon the request of the Attorney General, may provide assistance to civil authorities in responding to an act or threat of an act of terrorism, including an act or threat of an act of terrorism that involves a weapon of mass destruction, within the United States if the Secretary of Defense determines that—

(1) special capabilities and expertise of the Department of Defense are necessary and critical to respond to the act or threat; and

(2) the provision of such assistance will not adversely affect the military preparedness of the armed forces.

(b) NATURE OF ASSISTANCE.—Assistance provided under subsection (a) may include the deployment of Department of Defense personnel and equipment and the use of Defense resources to the extent and for such period as the Secretary of Defense determines necessary to prepare for, prevent, or respond to an act or threat described in that subsection. Actions taken to provide the assistance may include the prepositioning of Department of Defense personnel, equipment, and supplies.

(c) REIMBURSEMENT.—(1) Assistance provided under this section shall normally be provided on a reimbursable basis. Notwithstanding any other provision of law, the amounts of reimbursement shall be limited to the amounts of the incremental costs of providing the assistance. In extraordinary circumstances, the Secretary of Defense may waive reimbursement upon determining that a waiver of the reimbursement is in the national security interests of the United States and submitting to Congress a notification of the determination.

(2) If funds are appropriated for the Department of Justice to cover the costs of responding to an act or threat for which assistance is provided under subsection (a), the Department of Defense shall be reimbursed out of such funds for the costs incurred by the department in providing the assistance without regard to whether the assistance was provided on a nonreimbursable basis.

AMENDMENT NO. 396

RELATIONSHIP TO OTHER AUTHORITY

The authority provided in this section is in addition to any other authority available to the Secretary of Defense.

(2) Nothing in this section shall be construed to restrict any authority regarding use of members of the armed forces or equipment of the Department of Defense that was in effect before the date of enactment of this Act.

AMENDMENT NO. 442

RELATIONSHIP TO OTHER AUTHORITY

The term "threat of an act of terrorism" includes any circumstance providing a basis for reasonably anticipating an act of terrorism, as determined by the Secretary of Defense in consultation with the Attorney General and the Secretary of the Treasury.

Mr. WARNER. Now, Mr. President, momentarily we will proceed to the amendment by Mr. ALLARD. If the Senators are ready, I will yield the floor.

The PRESIDING OFFICER. Under the previous order, there will now be 30 minutes remaining for debate on the Allard amendment numbered 396, with 20 minutes under the control of the Senator from Iowa, Mr. HARKIN, and 10 minutes equally divided between the Senator from Colorado, Mr. ALLARD, and the Senator from Virginia, Mr. WARNER.

Mr. ALLARD addressed the Chair.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. ALLARD. If I might just briefly before I yield the floor for Senator HARKIN, I ask unanimous consent to add Senator Enzi as a cosponsor of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ALLARD. I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. HARKIN. Mr. President, I understand I have 20 minutes. Is that right? The PRESIDING OFFICER. Correct.

Mr. HARKIN. Will the Chair please advise the Senator when he has used 15 minutes.

The PRESIDING OFFICER. We will.

Mr. HARKIN. I appreciate that.

Mr. President, I would like to take a few minutes to speak about the Civil
Air Patrol, a unique group of volunteer civilian airmen and others, who support the nation in a variety of ways.

CAP members represent a cross-section of America and include pilots, emergency medical technicians, and teachers who use their professional skills to provide emergency services, youth programs, and aerospace education. Its more than 60,000 senior and cadet members are located in small towns and large cities across this country. Day in and day out, its aircrews fly search and rescue, disaster relief, counter-drug and Air Force operational support missions while teachers and others run a youth program for thousands of cadets and support aerospace education programs in hundreds of schools.

CAP began its service to the nation under very unusual circumstances. As World War II approached, civilian pilots began to look for ways to help with the expected war effort. They organized together as an arm of the Office of Civil Defense and, in the first month of the war, they were quick to respond as ships were torpedoed within sight of land. During a period when we lacked the Army and Navy aircraft needed to patrol thousands of square miles off our coasts looking for German submarines, the CAP was there. Flying their own aircraft, sometimes using automobile inner tubes for life preservers, CAP pilots did what the military could not, find enemy submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarines in the Atlantic and Gulf of Mexico. They spotted so many submarine combat missions and had spotted and reported the location of 173 submarines to the military. CAP itself attacked 57 of those submarines and sank or damaged two. Hundreds of survivors from sink ships and military aircraft crashes (at sea) were rescued as part of CAP’s anti-submarine patrol efforts. Twenty-six CAP volunteer lives and 90 aircraft were lost on these civilian-crewed combat missions.

CAP’s World War II service also set the foundation for its modern day service to America. During the war, CAP became a part of the Army Air Force and flew hundreds of thousands of hours nationwide on border patrol, search and rescue, forest fire watch, target-towing, courier flights, and military training exercises. It began its cadet program to help the military recruit young Americans and to teach them about aviation. These were invaluable contributions that contributed greatly to the war effort. Many of the cadets too joined the tradition of service established then, continues today.

Today, CAP again flies support missions off the coast of America in support of another kind of war, the war against drugs. Since 1983, CAP has flown hundreds of thousands of hours in support of the U.S. Customs, U.S. Drug Enforcement Agency, and other federal and local law enforcement agencies. CAP aircrews fly reconnaissance, communications relay, and transport missions which take place over water along the 12-mile territorial limit, along the nation’s borders, and in most of the 50 states. The cost to the taxpayer is very little as CAP has been flown by volunteer aircrews for about $55 an hour. Aircrew members donate their time, often using their own personal leave from work to fly these missions. They provide essential support to the government, which would cost the taxpayer, even if the government had the pilots and aircraft to use, up to $2,000 an hour. In 1998 alone, Civil Air Patrol flew 41,721 hours in support of counter-drug efforts.

CAP also flies and conducts more traditional missions. While it is the official auxiliary of the Air Force, it also performs numerous emergency services missions, youth programs and aerospace education programs in support of states and local communities across this nation. It’s pilots routinely fly about 85 percent of all the search and rescue hours flown in the United States. Whether searching for a lost child in a state park or looking for downed military aircrew, CAP is there. In 1998, Civil Air Patrol conducted 3,155 search and rescue missions and saved 116 lives. CAP also supports local communities and states during time of disaster. In 1998, during a period lasting weeks, hundreds of CAP members in drought-stricken Florida and Texas flew emergency fire watch while others maintained airborne communications relay stations, around the clock, supporting fire fighters on the ground. As recently as three weeks ago, when the Oklahoma tornadoes killed 45, CAP aerial and ground units quickly joined with community and state disaster relief efforts. Other emergency and humanitarian missions include flood surveillance, tornado and hurricane reconnaissance, blood collection and distribution flights, and the emergency airlift of medical material.

Over 26,000 young people participate in CAP’s growing cadet program where they not only have opportunities to fly, but they too learn discipline, leadership and public service skills. Not only are many of these cadets model citizens but they help their communities and states during times of emergency. Indeed, during CAP’s emergency operations cadets operate many of its radios and make up the bulk of its ground support. The CAP cadet program also includes local unit activities, physical fitness, leadership laboratories, aerospace education, and moral leadership. A wide range of annual special cadet activities include nationwide flight exercises where cadets each summer, working with adult flight instructors, learn how to fly powered aircraft and gliders. In 1998, 180 young men and women learned how to fly at these encampments. CAP also conducts nearly 200 aerospace education workshops that reach over 5,000 educators annually and routinely provides Air Force ROTC and CAP cadets in a series of orientation flights—over 17,500 in 1998—to introduce them to flight.

It is impossible to adequately capture the essence of the Civil Air Patrol in just a few short words, however, I hope it is clear that the CAP is a unique organization that touches Americans at all levels. While it is the official auxiliary of the Air Force, it is also a benevolent, civilian non-profit corporation chartered by Congress to support emergency service and educational organizations such as the American Red Cross, all fifty states, the District of Columbia and the Commonwealth of Puerto Rico as well as thousands of local communities across the nation. Its more than 50,000 members, 1,700 squadrons, 535 light aircraft and thousands of communications stations stand ready to support not only the Air Force and other Federal agencies but all the citizens of the United States, no matter where they live. Civil Air Patrol does this valuable humanitarian and public service mission 24 hours a day, 365 days a year; little or no fan fare. Its volunteers deserve our thanks and appreciation.

AIR FORCE PROPOSAL

I rise in support of the Allard amendment to ensure civilian leadership of the Civil Air Patrol and to require studies of proposals to improve its operations.

The Air Force has proposed a takeover of the governance of CAP. The Defense Authorization bill includes this proposal. It is not warranted, nor will it necessarily address alleged problem with CAP.

I am joining with Senator ALLARD and a long, bipartisan list of cosponsors to offer an alternative that has both support in the Senate and the House of Representatives, and I urge my colleagues to support it.

The Air Force has proposed some huge and abrupt changes to the operations and governance of the Civil Air Patrol. The Air Force wants to place all decision-making in the hands of the Air Force Reserve Command and operations. The proposal would put an Air Force Reserve Major General in charge of Headquarters, place an oversight Board—appointed by the Air Force on
May 27, 1999

CONGRESSIONAL RECORD—SENATE

The Air Force—in control of CAP and replace a lot of the civilian staff with Air Force uniformed staff. This represents a major change to the CAP. It represents a higher financial cost to the taxpayer. It also represents placing a civilian volunteer nonprofit organization under the control of the Air Force.

Strangely, the Armed Services Committee has adopted the Air Force proposal. I say strangely, because the Committee adopted the language with very little review or discussion. There has been no hearings on the Air Force proposal.

The Air Force is citing allegations of financial mismanagement and safety lapses as the reasons for the change. While the Air Force has told the press there are serious problems with CAP, they have yet to make clear the evidence of mismanagement on which they are acting. There has been no report by the Air Force Inspector General, no report by the DOD IG, nor by the GAO. The Air Force did write a report a year ago arguing for an adoption of a new financial management process—the adoption of an OMB circular—but CAP is waiting for the OMB to review the plan.

The Civil Air Patrol leadership has rejected the allegations. We don't need to rush to a hasty decision. In fact, I have talked to both Acting Secretary Peters of the Air Force and CAP leadership. Both want to get together upon my behest to discuss any differences and think through any proposals. I would like to invite other Senators to attend if they so desire.

The Senator from Oklahoma described many allegations of CAP missteps. All I heard were allegations. In fact, many were made by unnamed former members. Where is the evidence? Where is the formal review? Where are the hearings? Are we going to base legislation on unchecked allegations?

Let me address just one allegation made by the Air Force and repeated by the Senator from Oklahoma—the infamous CAP cruise, which has been purported as the worst of CAP's missteps.

I have looked into the matter and here is what I have found. It is true that, in 1998 the southeast region had a meeting aboard a ship instead of at a hotel. CAP旮 was cited as being inappropriate. This, in fact, is not the case. CAP is an arm of the Air Force and has to follow Air Force regulations and policies. The meeting was held on board a ship and staff were reimbursed for the cost. The Air Force had no criticism of the staff attendance, but said that staff members received unauthorized reimbursement.

But this is the key point: the reimbursement was approved by the Air Force before the event. The Air Force has about thirty Air Force staff overseeing operations and financial matters at headquarters, at the CAP headquarters in Alabama. Before the event, these Air Force staff, at the headquarters, approved the event for reimbursement.

In other words, the Air Force already had authority to oversee CAP financial matters, exercised the authority and approved the reimbursement. Where is the lack of Air Force control?

The Air Force has also pointed to safety concerns. Although we only have allegations, I talked to the CAP leadership. Acting Colonel Peters made them. I asked if there is a need for a safety officer. His response was fairly open. He doesn't know about the incident cited—again, they are from letters from unknown sources—but would welcome an Inspector General study. The Air Force can place one at the headquarters without this legislation and always could, but perhaps the Air Force did not think it was a serious concern.

Let me also turn to an important down-side to the Air Force proposal: cost. The Air Force proposes to use many more uniformed military personnel to run CAP headquarters, replacing the civilian employees. I don't have to point out the financial implication to my colleagues. Uniformed Air Force personnel simply cost more. In fact, the Air Force is even talking about making major changes to an important organization to make them. I am already aware of this. The Air Force can place one at the headquarters without this legislation and always could, but perhaps the Air Force did not think it was a serious concern.

Rather than simply take the Air Force proposal, we should require the DOD Inspector General to do a study of the allegations. I have already started the GAO on a study. We should also require an Inspector General study. This way, we in Congress, can make an informed decision that considers all possible alternatives.

I must pose a question to my colleagues. Why would anyone make a last minute decision to make major changes to an important organization using unilateral input—in this case from the Air Force? Right or wrong, would it not be better to have an unbiased and factual determination, and then make a judgment based on the facts?

Our amendment simply requires that we take some time to look at the Air Force proposal on CAP, examine other potentially better proposals, and have the GAO do a study. As I said, 85 percent of all the search and rescue is done by the Civil Air Patrol. We have youth programs for thousands of youth groups. America's Civil Air Patrol squadron, all young African Americans, male and female, taken out of the inner city. They had uniforms. They were given discipline. They had summer programs. It was just a wonderful thing to see, this cadet program instilling good American values in these young people.

Again, I point out that as a way of saying that this is a very proud, very good organization, one that has done a lot of good. As I said, 85 percent of all search and rescue is done by the Civil Air Patrol. In 1998, we conducted 3,155 search and rescue missions and saved 116 lives.
We also support communities and States in times of disaster. In 1998, during a period lasting weeks, when we saw the fires in Florida and Texas, hundreds of CAP members flew emergency fire watch, while others maintained airborne communication relay stations.

Three weeks ago during the terrible Oklahoma tornadoes that killed 45 people, CAP was there with aerial and ground units and quickly joined with community and State disaster relief efforts. I can tell you that in 1993, during the terrible floods we had in the Midwest, in Iowa, the Civil Air Patrol was there day after day after day helping with logistics, helping with communication, helping fly aircraft over rivers to warn of propane tanks floating downstream.

All of these things are done by volunteers. The people flying these planes don't get paid a dime.

One other thing that most people don't know about is the drug interdiction efforts by the Civil Air Patrol. This is something that I had a proud involvement with back in the 1980s. We changed the law to give the Civil Air Patrol the authority to join with the DEA and others to fly drug interdiction, both off our coasts and looking for drugs within the continental United States.

At that time, if I am not mistaken, much of what was being done in that regard was done by the National Guard. They were charging over $1,100 an hour for that. The Civil Air Patrol did it for about $80 an hour. Why? Because it was all volunteers. In fact, many of the flying volunteers took their own cameras with them, paid for developing, their own film, paid for developing, many of the flying volunteers took their own film, paid for developing, pictures they then turned over to the DEA.

Again, I point out that because I am very proud of the Civil Air Patrol, very proud of their history, proud of what they have been doing recently, proud of what they are doing yet today to help our States, our local communities, and the great cadet programs they have to instill good values and discipline among so many young people in America.

Now what do we have? In front of us we have this provision that was put into the bill. I understand it was voice voted in committee. We have had no hearings on it, not one hearing. Yet, this provision would basically allow the Air Force to completely take over the Civil Air Patrol.

The Air Force has always had a relationship with the Civil Air Patrol—quite frankly, a pretty decent relationship. But because of some unfounded allegations, all of a sudden we have this provision in the bill that basically would allow the Air Force to take it over.

Well, what the Allard and Harkin amendment—joined by so many others—says is, what we have are allegations. When you have allegations, the best thing to do is to have the GAO investigate and do a study. Have the inspector general's office investigate these allegations. Let's find out where the truth lies. That is what our amendment says.

The worst is not going to end in the next year if we do not make this massive change to let the Air Force take over the Civil Air Patrol. What we need to do is to approach it in a logical manner. That is what the Allard-Harkin amendment does.

It simply says, GAO, IG, do an investigation, report back by February 15 of the year 2000, next year, in time for the next cycle. I am also going to ask the chairman and the ranking member of the Armed Services Committee if they would consider having the Civil Air Patrol, bring in the Civil Air Patrol. Let's find out if there are any bases to these allegations.

I called the present commanding officer of the Civil Air Patrol, Jay Bobick, last night. I talked to him about some of the allegations that were made on the record by my friend from Oklahoma. Quite frankly, I got a completely different story.

There have been allegations of financial mismanagement and safety lapses. There has been no report by the Air Force inspector general, no report by DOD, nor by GAO. The Civil Air Patrol leadership rejects these allegations.

We don't need to rush to a hasty decision. I talked personally to both the Acting Secretary of the Air Force and to the CAP leadership. I asked them if we could get them both together in the same room, across the table from each other, and have a meeting. They said they would be there. Senator ALLARD would be there. Anybody else is invited to come, too. Let's get these two entities together, and let's talk it out, just see what is the basis of this problem. I think that is the proper way to proceed.

The Senator from Oklahoma described many of the allegations of CAP missteps. Some were made, as I understand, in the record by unnamed former members. Again I ask, where is the evidence? Where is the formal review? Where are the hearings? Are we going to base this legislation on unchecked allegations by unnamed former members?

I must say at the outset, I know of some former members of the Civil Air Patrol who are still upset because they were run out because they were mismanaging things. Now they are coming back, writing letters, and doing things like that. Well, OK, if they want to do that, that is fine. But let's check into it.

We heard last night about the infamous CAP cruise, I say to my friend from Oklahoma, a CAP cruise to wherever it was, the Bahamas or Nassau, some place like that, purported as one of the worse CAP missteps, I looked into the matter, and here is what I found.

It is true that in 1998 the southeast region—that is basically Florida, Alabama, Mississippi, Georgia, Tennessee; I may have missed a couple States—had a meeting. They had it aboard a ship instead of at a hotel.

I point out the Civil Air Patrol regions have meetings regularly within the region and all the wings come together and they decide on the location. They decided on having it on a ship.

Let's look at the facts. First, no Civil Air Patrol member used Federal dollars to pay for that cruise, not one. They paid for it out of their own pocket, volunteer members. It is true that proved by the Air Force before their headquarters staff at Maxwell Air Force Base attended the meeting. They were reimbursed for the cost. But this has long been the normal practice. They are paid Federal employees. They are not volunteer members. When they go to meetings like this, they get reimbursed.

Now, we were told they were reimbursed. They got the meals free on the ship, but they then got reimbursed for that.

This, I must say to my friend from Oklahoma, is not so. What they got reimbursed for was breakfast and lunch on the way to the ship, and they got reimbursed for breakfast and lunch and dinner on the way back, which is normal, accepted Federal practice. They were not reimbursed for any of the meals while they were on the ship. Anyway, that is what I have been told.

I would point this out also, to my friend from Oklahoma: The Air Force had no criticism of this. In fact, another key point: The Air Force has about 30 staff overseeing operations and financial matters at headquarters at Maxwell Air Force Base in Alabama.

Before this cruise took place, the southeast region sent it up to the Air Force for approval. Guess what. The Air Force approved the cruise before it ever took place. That is true. The reimbursement and the cruise were approved by the Air Force before it ever took place. In other words, the Air Force already had the authority to oversize Civil Air Patrol financial matters. They exercised that authority and they approved it.

So I ask, where is the lack of Air Force control? They had it. And now we have allegations that they took this cruise, but the Air Force approved it in the first place.

Well, now I hear there are some safety concerns. Again, we only have allegations. I talked to Mr. Bobick about them. I asked if there is a need for a safety officer, an Air Force safety officer. I say to my friend from Oklahoma...
that his response was fairly open. He didn't know about the incident cited. Again, these are letters from unknown sources, unsubstantiated. But he said they would welcome an Air Force safety officer. He pointed this out, I say to my friend from Oklahoma. The Air Force can place a safety officer at headquarters without this legislation. They always could. They could tomorrow. Why haven't they? Perhaps the Air Force didn't think it was a very serious matter.

Yes, I want to point out that the Air Force could—today, if they want—place a safety officer at headquarters in Alabama. They have never done so. I am not saying they should not, but I am saying let's get some studies done here and have some hearings on this before we run off and do something without even knowing what the facts are.

I want to make just one other observation. Prior to 1995, we had some 170-plus—I will leave myself a little room—Air Force personnel at Maxwell running the Civil Air Patrol, The Air Force, as I have stated, didn't want to do any more. We replaced them with civilians over a period of time. We replaced 170-some Air Force personnel—they drew them down—with I think about 104 civilians. They pay less and we are actually saving the taxpayers money.

Now, I understand the Air Force is talking about placing a two-star general as the executive director of the Civil Air Patrol instead of the civilian we have there now. I asked for a cost estimate on that. It would cost about $60,000 more per year to do that.

The PRESIDING OFFICER. The Senator has used 15 minutes.

Mr. HARKIN. I thank the Chair. I also ask the sense in doing this? Again, I am not going to say we should not make some changes in the Civil Air Patrol. I believe some changes are warranted, I have been involved in this a long time. I am not going to say I have all the knowledge on exactly how to do it, but I believe we ought to bring the Air Force and Civil Air Patrol together and hammer this thing out. We need hearings, a GAO investigation, an IG investigation, and then let's do it in a logical manner, in a manner which really is going to keep the civilian nature of the Civil Air Patrol and even make it better than it is today, I believe that can be done.

That is why I am so strongly supportive of the Allard amendment. I think it takes that kind of a commonsense, logical approach to improve and make the Civil Air Patrol even better in the next century.

I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. INHOFE. How much time do I have remaining?

The PRESIDING OFFICER. The Senator from Colorado and the Senator from Virginia are the only ones who have time left.

Mr. INHOFE. I will yield myself a couple of minutes and I will reserve the remainder of my time.

First of all, I disagree with many of the things the Senator from Iowa is saying. The only thing I disagree with much, much better than he is implying in terms of mismanagement.

I find something very interesting, and that is a letter that went out last night over the web site from one of the communication centers, named Cameron Warner, to all his fellow members. In this letter he makes it very specific that we at CAP have problems—problems at the top—and they are going to have to be addressed. He goes on to say that if we are doing about those things, those things that we said yesterday on the floor of the Senate as to “60 Minutes” coming in and looking at all these abuses could actually be a reality. So here is a request from members of the CAP saying they want to clean up this act.

I ask unanimous consent that this be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

A SAD COMMENTARY
(By Cameron F. Warner)

DEAR CAP MEMBERSHIP: Folks, today as I watched the debate about CAP versus USAF take place on the Senate floor, I couldn’t help but think how sad it is. Just listen to the subject matter. All this dirty laundry about CAP being aired out on the Senate floor in front of the American public.

Today, the image given step in the wrong direction relative to public perception. How embarrassing to say the least! Years of good work and wonderful acts by members being tarnished by the actions of a few. Indeed, this is a dark day in the history of CAP.

It is a personal heartbreak to see just where the leadership of Bobick and Albano have taken CAP. Here is CAP, center stage on the United States Senate floor for all to see, but not for all its good deeds or accomplishments. Quite the contrary! Rather, we have United States Senators on the Senate floor talking about all the wrong doings of leadership and the bad management of CAP. Sen. Inhofe talks about FBI investigations of CAP. Ask yourself, how bad does that sound to the American public? How does that really sound to you?

The Allard amendment was not resolved as earlier thought, so the debate will continue early tomorrow morning with a vote to follow. For those of you who are interested, live Senate coverage on CBS/FNN first thing in the morning. No matter what the outcome, it will only get worse for CAP and CAP will end up the big loser. Tomorrow is going to be a long Arial day. We could go on and on; however, the longer this goes on the more public this becomes, the worse CAP will look in the public eye no matter how you cut it. Don’t be surprised if Sen. Warner comes back about the 60 Minutes bad press possibility becomes a reality. CAP will not be portrayed in a positive light at all.

I am saying that this is right where Bobick, Albano, the NEC and NB have lead CAP at the end of this century! Today is tomorrow’s history. Good work, guys!

Mr. INHOFE. Mr. President, the other thing I want to mention is that we all love the CAP. There isn’t a person in the 100 Members here who has worked closer with them than I have. I was a flight instructor, and I have been involved with these people. We love them. We don’t want something to happen where all of a sudden we find out bad things are going on and the Air Force says we can’t be responsible for it, dump the program. We all want to save the CAP.

Third, I don’t buy the argument when they say we are using our own money. It is 95 percent paid for by public funds. But it is always easy to say these funds were the ones that were the 5 percent. I am not criticizing anybody for saying that, because I hear that all the time on the floor of the Senate.

I have no problem with accepting this amendment. I think we can probably do it by voice vote. I would like to address these things together. The Senator from Iowa and I have talked, and certainly the Senator from Colorado also shares the concern that there could be mismanagement that has to be stopped, and this is actually the request of the members of the CAP. I reserve the remainder of my time.

Mr. ALLARD. Mr. President, first of all, I want to reiterate how important the Civil Air Patrol is to States such as Colorado, particularly in the mountainous regions. They have played such a vital role when we have had downed people in the mountains. They have been a nonprofit civilian organization ever since 1946, and they have been designated since 2 years after that as an auxiliary. After all, it is the Civil Air Patrol, not the Defense Air Patrol or the Air Force Air Patrol. This is the Civil Air Patrol, and it is volunteers. That has been its focus. That is the strength of the organization. I think any effort at this point to put it under the control of the Air Force is premature.

I am glad to hear that my colleague from Oklahoma has recognized the fact that we can do a GAO study to look at the budget aspects of some of the discrepancies that supposedly come out; and then if we can get the inspector general to go in and look at how the management side of it is handled and get concrete recommendations back to the Senate, then we can go ahead and have some hearings next year. That makes good sense to me. I hope we can accept that plan this week.

So if they want to go with a voice vote, that is acceptable to me, with the idea that we have a GAO study and we
have an inspector general study, and then we have some hearings and get the facts here. I think Senator HARKIN, my colleague from Iowa, has made a good suggestion, that we need to get both of these differences. I think there is all sorts of room to correct some misunderstandings between the Air Force and Civil Air Patrol. I think we can do it in an honest manner.

So I think the Allard amendment is reasonable. I think it has a reasonable approach, and I urge my colleagues on the Armed Services Committee to work with us on the Allard amendment.

I ask unanimous consent to add another cosponsor to the amendment, Senator ROD GRAMS of Minnesota. I think Senator HARKIN, my colleague from Iowa, has made a good suggestion, that we need to get both of them in the same room to talk about these differences. I think there is all sorts of room to correct some misunderstandings between the Air Force and Civil Air Patrol. I think we can do it in an honest manner.

I appreciate the debate we have had. I think we all are very justly proud of the Civil Air Patrol and what they have done in the past. I really believe that in the future, with drug interdiction, with national disasters, the Civil Air Patrol will continue to play a vital role in our society. Plus, I also want to work with my friend from Oklahoma and my friend from Colorado.

I have been trying for a long time to beef up the cadet program in the Civil Air Patrol. We need to strengthen the cadet program. These inner-city kids especially are looking for things to do. They need some order. They need some structure and discipline in their lives. This is what the Civil Air Patrol can do for them. It will help build up our summer camps where these kids get to go for a couple of weeks. They can learn some technology and get some discipline and order in their lives. They can wear a uniform of which they can be proud. Believe me, I think we ought to do more to strengthen and to build up the cadet program in the Civil Air Patrol. I think it would be one of the best things we could do for the future of our country.

Again, I appreciate all the work that Senator ALLARD has done on this. I have talked to so many Democrats on my side who are supporting the Allard amendment. I believe there is overwhelming support on both sides for this approach.

Again, if we want to have a voice vote on it, that is fine with me. I thank my friend from Colorado. I thank my friend from Oklahoma. I think he has done a service here by at least highlighting the problem and pointing out that we have to do something. We may have disagreed a little bit on how to do it, but that is normal. I think now we are set on a course that is really going to improve and make the Civil Air Patrol even better.

I yield the floor. The PRESIDING OFFICER. Who yields the floor?

The Senator from Oklahoma has 3 minutes remaining.

Mr. INHOFE. The other side?

The PRESIDING OFFICER. The PRESIDING OFFICER. The time of the Senator from Iowa last expired. Mr. INHOFE. Mr. President, I agree with a lot of the things the Senator from Iowa is saying. I felt that we were in a position where we couldn't do nothing. We had the accusations out there. I think, quite frankly, "60 Minutes" has uncovered more of some of this than the CAP has. However, that is the reality. Any time there are accusations like this and 95 percent of the taxpayers' money is being spent, we have a responsibility for oversight. I think we will be able to do that. I certainly have no objection to working on this and making it happen.

I also say, since I have a minute remaining, that I am particularly concerned, because 2 weeks ago I was thinking about this ACP while flying an airplane which had an engine blow, and I wasn't sure I was going to be able to land safely gliding into the airport. I could very well have been their product a couple of weeks ago. I yield the remaining time.

Mr. ALLARD. Mr. President, I would like to summarize briefly before we go to a vote. I think the Allard amendment is a reasonable plan. It sets out the process in which we can gather our facts through a GAO report, and I am sure the report from the Inspector General, then hold some hearings and make some reasonable decisions. We all, I think, agree that we need to understand the problem before we can come to some satisfactory conclusion. I think the plan does that.

I urge the Members to vote aye. I yield any remaining time.

The PRESIDING OFFICER. The question is on agreeing to the amendment. The amendment (No. 396) was agreed to.

Mr. ALLARD. Mr. President, I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. WELLSTONE. Mr. President, I wanted to ask my colleagues whether or not they are ready to go to an amendment right this second, or whether I could have 3 minutes as if in my name.

Mr. WARNER. Mr. President, can I get more clearly in mind the amount of time the Senator needs?

Mr. WELLSTONE. I say to my colleagues that I think I can do everything in 5 minutes.

Mr. WARNER. Is it related to the bill?

Mr. WELLSTONE. Yes.

Mr. WARNER. We have a Senator that is anxious to address a matter on the bill.

Mr. WELLSTONE. Mr. President, I have the floor, but I know we want to move forward.

Mr. President, while I have the floor, we are going to go forward with the Kennedy amendment. Is that correct? Can I ask unanimous consent that after we dispense with the Kennedy amendment I have language?

Mr. WARNER. Mr. President, allow the managers to represent to the Senator that we will find a window in which the Senator from Minnesota can address the matter not related to the bill. But we have good momentum on this bill. I would like to ask the Senator from Massachusetts as to what his desire is.
May 27, 1999

Mr. KENNEDY. Mr. President, I would like to submit the amendment.

Mr. WELLSTONE. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. I will send the amendment to the desk and speak probably for 4 or 5 minutes on it. I think my colleague, Senator Lautenberg, may want to talk for a similar period of time. We are prepared. There is virtual support for it, and no opposition. Then we would obviously like to get a vote on it and have it at a time that is suitable with the managers any time during the course of the day.

Mr. WARNER. If I might inquire, Mr. President, of the Senator from Massachusetts, he said get the vote. Would a voice vote be suitable?

Mr. KENNEDY. This issue is sufficiently important, Mr. President, dealing with Libya that I think it is advantageous to the Secretary of State and on the whole issue of Qadhafi that we have a strong vote in the Senate. We would be glad to accommodate leaders to vote at any time during the course of the day.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Mr. President, here is a schedule that the ranking member and I are considering; that is, to have the debate by the Senator from Massachusetts and the Senator from New Jersey. That would take, say, 10 minutes.

Mr. KENNEDY. Mr. President, I will only take about 4 or 5. I believe that is what the Senator from New Jersey desires. But I have not heard from him this morning. I think we could at least present the amendment, and I will speak briefly. I am trying to get the Senator from New Jersey here at the present time.

Mr. WARNER. Then I would suggest the following: The Senator from Minnesota is very anxious and very patient to try to get 5 minutes to address the Senate on a matter other than the bill. I am perfectly willing, as this manager, to grant him 5 minutes within which time the Senator can contact Senator Lautenberg. Then that will be followed, as soon as the Senator from Minnesota has concluded his remarks, with 20 minutes of debate on the Kennedy amendment. We will reserve for the Senator from New Jersey, 10 minutes under the control of the Senator from Massachusetts, and 8 minutes under the control of Senator Brownback.

Then we will proceed to a record vote on the Kennedy amendment.

Mr. KENNEDY. If the Senator wanted to modify 10 minutes on our side, that is fine. Senator Lautenberg indicated he only wanted 5 minutes, so that would be fine.

Mr. LEVIN. Is that modification agreeable?

Mr. WARNER. I withhold the request momentarily, because I am just now informed that Senator Feingold is ready, in which case we would stack that amendment. If it is convenient, if we can determine the time the Senator from Wisconsin desires.

Mr. FEINGOLD. I have two amendments. It is perfectly acceptable to have the votes stacked after they are presented. The only issue is the time agreement.

Mr. WARNER. The Senator desires a record vote on both amendments?

Mr. FEINGOLD. I do. In terms of time on my side for the presentation, 30 minutes.

Mr. LEVIN. Could the Senator identify which amendment that is?

Mr. FEINGOLD. The first amendment is the so-called cost cap amendment which I ask for a total of 30 minutes on my side; the other is the amendment having to do with contract specifications, and we only need 15 minutes on my side.

Mr. WARNER. Could the Senator possibly reduce 30 minutes to 20 minutes?

Mr. FEINGOLD. That would be difficult. We started off with 45 minutes and we are going down. It is a very complicated issue.

Mr. WARNER. I appreciate that, but it is a subject that I think is pretty well known. The Senator has raised it very conscientiously through the years. We have the necessity to get this bill completed by early afternoon. If the Senator could grant us 20 minutes on the first amendment, say 10 minutes on the second amendment, then I ask for only 5 minutes on each amendment on this side.

Excuse me, I am told on the first amendment the Senator from Wisconsin would have 20 minutes; on this side, we would have 15 minutes; is that agreeable?

Mr. FEINGOLD. That is pretty tough, but I will agree to it and proceed accordingly.

Mr. WARNER. That is the first amendment.

As to the second amendment, the amount of time?

Mr. FEINGOLD. I would like 15 minutes.

Mr. WARNER. Fifteen minutes; we would take 10 minutes on this side.

So that concludes those two amendments.

With that thought, I think the Senator from Massachusetts is agreeable now. The Senator has 10 minutes equally divided and the Senator from New Jersey—

Mr. KENNEDY. Ten minutes on our side. There is no opposition to this.

Mr. WARNER. The Senator from Wisconsin and the Senator from Massachusetts, with 10 minutes under his control; 5 minutes under the control of the Senator from Virginia, if necessary. That will require a record vote, and it will be stacked. We will then proceed to the Feingold amendments, the first one with 20 minutes under the control of the Senator from Wisconsin, 15 under the control of the Senator from Virginia; then to the second Feingold amendment, 15 minutes under the control of the Senator from Wisconsin and 10 minutes under the control of the Senator from Virginia. That will be two record votes.

So we will have three record votes in approximately about an hour's time. We will add no amendments in order to any of the three amendments that we just rejected.

Mr. LEVIN. Mr. President, reserving the right to object, I understand the three votes will not only be stacked at the end of the debate on the third amendment but that we would vote on them in the order in which they are presented; is that correct?

Mr. WARNER. That is correct.

The PRESIDING OFFICER (Mr. Santorum). Without objection, it is so ordered.

The Senator from Minnesota is recognized for 5 minutes.

Mr. WELLSTONE. Mr. President, let me thank the Senator from Virginia for his graciousness, together with both of my colleagues, Senator Kennedy and Senator Feingold.

KOSOVO

Mr. WELLSTONE. Mr. President, I ask unanimous consent to have printed in the Record a very eloquent, powerful and important piece written by President Jimmy Carter, entitled, “Have We Forgotten the Path to Peace?” from the New York Times.

There being no objection, the material was ordered to be printed in the Record, as follows:

[From the New York Times, May 27, 1999]

HAVE WE FORGOTTEN THE PATH TO PEACE?

(By Jimmy Carter)

After the cold war, many expected that the world would enter an era of unprecedented peace and prosperity. Those who live in developed nations might think this is the case today, with the possible exception of the war in Kosovo. But at the Carter Center we monitor all serious conflicts in the world, and the reality is that the number of such wars has increased dramatically.

One reason is that the United Nations was designed to deal with international conflicts, and almost all the current ones are civil wars in developing countries. This creates a peacemaking vacuum that is most often filled by powerful nations that concentrate their attention on conflicts that affect them, like those in Iraq, Bosnia and Serbia. While...
the war in Kosovo rages and dominates the world’s attention, conflicts in developing nations are systematically ignored by the United States and other powerful nations.

One can traverse Africa, from the Red Sea in the east to the southwestern Atlantic coast, and never step on peaceful territory. Fifty thousand people have recently perished in the war between Eritrea and Ethiopia, and almost two million have died during the 16-year conflict in neighboring Sudan. That war has now spilled into northern Uganda, where troops have joined those from Rwanda to fight in the Democratic Republic of Congo (formerly Zaire). The other Congo (Brazzaville) is also ravaged by civil war, and all attempts to bring peace to Angola have failed. Although formidable commitments are being made in the Balkans, where white Europeans are involved, no such concerted efforts are being made by leaders outside of Africa to resolve the disputes.

This gives the strong impression of racism.

Because of its dominant role in the United Nations, the United States tends to orchestrate global peacemaking. Unfortunately, many of these efforts are seriously flawed. We have become increasingly tied to use of anti-personnel cluster bombs, designed to kill or maim humans and animals by American and other leaders, the recent decision to deploy a military force of 200,000 missiles and bombs, 4,000 of which were not precision guided.

The expected few days of aerial attacks have now lengthened into months, while all attempts to bring peace to Yugoslavia (including Kosovo and Montenegro) are almost totally destroyed, to rely on Russia to resolve our dilemma through indirect diplomacy, or to accept American casualties by sending military forces into Kosovo.

So far, we are following the first, and worst, option—and seem to be moving toward including the third. Despite earlier denials by American and other leaders, the recent decision to deploy a military force of 200,000 missiles and bombs, 4,000 of which were not precision guided.

The reason I read from this piece today is to build on what I said last night in the debate. Today there is a report in the Washington Post that we are going to be going after telephone systems, communications, in Yugoslavia, as well as bombing electrical grids. This ends up targeting the people that committed the crimes.

Slobodan Milosevic has been indicted as a war criminal. He has committed brutal crimes against the Kosovars. But the citizens of Yugoslavia have not been the ones who have committed these crimes.

I come to the floor to say to all of my colleagues, I hope you have time to read President Carter’s piece. I believe we are severely underestimating our own moral authority by targeting the civilian infrastructure. I think we are making a terrible mistake by doing so. I come to the floor of the Senate to speak out against this and to make it clear that this goes far beyond what we said was our original goal of these airstrikes. It was to degrade the military capacity of Milosevic.

Now this infrastructure is being targeted. Too many civilians are being targeted. As a Senator, I call into question these airstrikes. I think Jimmy Carter has done a real service for the country by writing this piece, putting the emphasis on diplomacy, putting the emphasis on a diplomatic solution to this conflict.

VETERANS ACCOUNTABILITY DAY

Mr. WELLSTONE. Mr. President, I rise today to inform my colleagues about a nationwide event which is going to be taking place the Memorial Day weekend.

Every year on Memorial Day, going to be an accountability day. It is organized by the Disabled American Veterans. It is an extremely important gathering.

I ask unanimous consent to have the list of the locations and the dates of these events printed in the RECORD.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

Congressional Record—Senate
The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Massachusetts [Mr. KENNEDY], for himself, Mr. LAUTENBERG, Mr. BROWNACK, Mr. SMITH of Oregon, Mr. MOYNIHAN, Mr. SCHUMER, Mr. TORRICELLI, Ms. MUKULSKI, and Mr. KYL, proposes an amendment numbered 442.

Mr. KENNEDY. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the bill, insert the following:

SEC. 2. SENSE OF THE CONGRESS REGARDING THE CONTINUATION OF SANCTIONS AGAINST LIBYA.

(a) FINDINGS.—Congress makes the following findings:

(1) On December 21, 1988, 270 people, including 189 United States citizens, were killed in a terrorist bombing on Pan Am 103 Flight over Lockerbie, Scotland.

(2) Britain and the United States indicted two Libyan agents, Abdel Basset Ali-Megrahi and Al-Amin Khalifa Fhimah, in 1991 and sought their extradition from Libya to the United States or the United Kingdom to stand trial for this heinous terrorist act.

(3) The United Nations Security Council called for the extradition of the suspects in Security Council Resolution 731 and imposed sanctions on Libya in Security Council Resolutions 748 and 883 because Libyan leader Colonel Muammar Qadhafi refused to transfer the suspects to the United States or the United Kingdom to stand trial.

(4) The United Nations Security Council Resolutions 731, 748, and 883 demand that Libya cease all support for terrorism, turn over the two suspects, cooperate with the investigation and trial, and address the issue of appropriate compensation.

(5) The sanctions in United Nations Security Council Resolutions 731, 748, and 883 include—

(A) a worldwide ban on Libya's national airline;

(B) a ban on flights into and out of Libya by other nations' airlines; and

(C) a prohibition on supplying arms, airplane parts, and certain oil equipment to Libya, and a blocking of Libyan Government funds in other countries.

(6) Colonel Muammar Qadhafi for many years refused to extradite the suspects to either the United States or the United Kingdom, and had insisted that he would only transfer the suspects to a third and neutral country to stand trial.

(7) On August 24, 1998, the United States and the United Kingdom agreed to the proposal that Colonel Qadhafi transfer the suspects to The Netherlands, where they would stand trial under a Scottish court, under Scottish law, and with a panel of Scottish judges.

(9) The United States, consistent with United Nations Security Council resolutions, called for the production of evidence, including the presence of witnesses before the court, and to comply fully with all the requirements of the United Nations Security Council.

(10) After years of intensive diplomacy, Colonel Qadhafi finally transferred the two Libyan suspects to The Netherlands on April 5, 1999, and the United Nations Security Council, in turn, suspended its sanctions against Libya that same day.

(11) Libya has only fulfilled one of four conditions (the transfer of the two suspects held in the Lockerbie bombing) set forth in United Nations Security Council Resolutions 731, 748, and 883 that would justify the lifting of United Nations Security Council sanctions against Libya.

(12) Libya has not fulfilled the other three conditions (cooperation with the Lockerbie investigation and trial; renunciation of and ending support for terrorism; and payment of appropriate compensation) necessary to lift the United Nations Security Council sanctions.

(13) The United Nations Secretary General is expected to issue a report to the Security Council on or before July 5, 1999, on the issue of Libya's compliance with the remaining conditions.

(14) Any member of the United Nations Security Council has the right to introduce a resolution to lift the sanctions against Libya after the United Nations Secretary General's report has been issued.

(15) The United States Government considers Libya a state sponsor of terrorism and the State Department Report, "Patterns of Global Terrorism; 1998", stated that Colonel Qadhafi "continued publicly and privately to support Palestinian terrorist groups, including the PLJ and the PFLP-GC".

(16) United States Government sanctions (other than sanctions on food or medicine) should be maintained on Libya, and in accordance with U.S. law, the Secretary of State should keep Libya on the list of countries the governments of which have repeatedly provided support for acts of international terrorism under section 6(j) of the Export Administration Act of 1979 in light of Libya's ongoing support for terrorists groups.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the President should use all diplomatic means necessary, including the sanctions imposed in United Nations Security Council to prevent the Security Council from lifting sanctions against Libya, unless Libya meets all the conditions set forth in United Nations Security Council Resolutions 731, 748, and 883.

Mr. KENNEDY. Mr. President, I yield myself 4 minutes.

This is an amendment on behalf of myself and Senators LAUTENBERG, BROWNACK, GORDON SMITH, MOYNIHAN, SCHEUMER, TORRICELLI, MUKULSKI, and KYL. This amendment states the sense of the Congress that UN Security Council sanctions against Libya should not be lifted until Libya meets all the conditions specified in UN Security Council Resolutions 731, 748, and 883, and urges the Secretary of State to use all diplomatic means necessary to prevent sanctions from being lifted before these conditions are met.

On December 21, 1988, 270 people, including 189 U.S. citizens, were killed in the terrorist bombing of Pan Am 103 Flight over Lockerbie, Scotland. In 1991, Britain and the United States indicted two Libyan intelligence agents and sought their extradition from Libya to the United States or the United Kingdom to stand trial for this despicable act. Libyan leader Qadhafi...
refused to transfer the suspects, and the United Nations Security Council imposed sanctions on Libya.

The sanctions in United Nations Security Council Resolutions 748 and 883 include a worldwide ban on Libya’s national airline; a ban on flights into and out of Libya by other nations’ airlines; a prohibition on supplying arms, airplane parts, and certain oil equipment to Libya, and a blocking of Libyan Government funds in other countries.

The Security Council demanded that Libya cease all support for terrorism and terrorist groups, turn over the two suspects, cooperate with the investigation and the trial, and address the issue of appropriate compensation for the victims’ families before sanctions could be lifted.

Last month, after years of intensive diplomacy, a compromise was finally reached, and Colonel Qadhafi transferred the two suspects to The Netherlands, where they will be tried under a Scottish court, under Scottish law, before a panel of Scottish judges. The United Nations Security Council, in turn, suspended its sanctions against Libya that same day.

On or before July 5, the United Nations Secretary General will issue a report to the Security Council on the issue of Libya’s compliance with the remaining conditions. I hope he will recommend that the sanctions against Libya should not be permanently lifted.

It is clear that Libya has only fulfilled one of the four conditions—the transfer of the suspects accused in the Lockerbie bombing—in the UN Security Council resolutions. Libya has not ceased its support for terrorist groups. The State Department’s “Patterns of Global Terrorism: 1998” clearly states that Colonel Qadhafi “continued publicly and privately to support Palestinian terrorist groups ...” In addition, because the trial has not begun and is expected to last at least several months, it would be premature to conclude that Libya has fulfilled the other remaining conditions.

The amendment I am offering expresses our view that the United Nations Security Council should not permanently lift the sanctions against Libya, until Libya has fulfilled all of the remaining conditions in the Security Council resolutions. It also calls upon the Secretary of State to use all diplomatic means necessary, including the use of our veto at the U.N. Security Council, to prevent the Security Council from lifting sanctions against Libya until Libya fulfills all of the conditions.

The Secretary of State has steadfastly and commendably maintained a vigilant stand against Libya, and this amendment will provide the strong support of Congress for using all diplomatic means necessary, including the use of the veto, to block the lifting of the sanctions.

Mr. President, it would be a gross injustice to the Pan Am 103 families, who have suffered so much in this ordeal, to reward Libya in violation of the same.

We must all remain vigilant and make sure that justice is served in all of its aspects in the Lockerbie bombing trial. We must remain vigilant and make sure that Libya ceases—not just in words, but in deeds—its support for terrorist groups.

I know of no opposition to this amendment, and I urge my colleagues to support it.

Mr. President, I ask unanimous consent my colleague, Senator Lautenberg, be able to retain his 5 minutes on this.

It is the intention, if I could ask the floor managers, to ask for the yeas and nays at the appropriate time for all the amendments. Mr. LEVIN. Can we get the yeas and nays on the Kennedy amendment now?

Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. KENNEDY. I thank the Chair.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Wisconsin [Mr. Feingold] proposes an amendment numbered 443.

Mr. FEINGOLD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 26, after line 25, insert the following:

(A) The amounts of increases or decreases in costs attributable to economic inflation occurring since September 30, 1999.

(B) The amounts of increases or decreases in costs attributable to compliance with changes in Federal, State, or local laws enacted after September 30, 1999.

(C) The amounts of increases or decreases in costs resulting from aircraft quantity changes within the scope of the multiyear contract.

(3) The Secretary of the Navy shall annually submit to Congress, at the same time the budget is submitted under section 1105(a) of title 31, United States Code, written notice of any change in the amount set forth in paragraph (1) during the preceding fiscal year that the Secretary has determined to be associated with a cost referred to in paragraph (2).

Mr. FEINGOLD. Mr. President, this amendment is a straightforward, commonsense measure that establishes greater accountability in the Navy’s F/A-18E/F Super Hornet program.

The Navy and Boeing say they need $8.8 billion over the next five years to procure the Super Hornet. Specifically, they say the $8.8 billion would include the airframe, contractor furnished equipment, and engines. My amendment simply sets a cost cap that holds them to that amount. My amendment

CONGRESSIONAL RECORD—SENATE 11253

May 27, 1999

Mr. WARNER. Mr. President, as I understand it, the Democratic leader has no objection to this amendment, and I urge my colleagues to support it.

Mr. WARNER. I ask unanimous consent to vacate that order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. We will continue with the debate and conclude all amendments.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. FEINGOLD. Mr. President, I ask to be informed by the Chair at a point when I have consumed 15 minutes of my time.
doesn’t terminate the funding; it doesn’t hold that money up; it doesn’t even recover any of the money. My amendment just holds them to the amount that they say they need.

I would like to discuss the spectacular mediocrity of the Navy’s F/A–18E/F, or Super Hornet, aircraft program, and to raise concerns about the poor decisions that have been made with regard to this breathtakingly expensive program.

President Eisenhower warned us four decades ago about the inexorable momentum of the military-industrial complex. Today we face the military-industrial-congressional complex that plods forward with a relentlessness that Ike, for all his foresight, could not have imagined. I have long feared that the Super Hornet is not the future of naval aviation but rather a step backward. The Super Hornet just isn’t worth the cost. It’s as simple as that.

The Pentagon wants to spend 45 billion of our tax dollars to buy the Super Hornet for the Navy. But the plane isn’t as good in some respects, as the one they currently use, and may have design problems that could cost billions more to fix. “Super” is not the way to describe this plane—“superfluous” really is.

For very limited gain, the American taxpayers are getting hit with a 100 percent premium on the sticker price.

At this point in the program’s development and testing, my colleagues may be asking why I continue to tilt at this windmill. I continue this effort in part because pilots’ lives may be placed at risk in the E/F for the next 25 to 30 years. I come to the floor today to point out not just the failings of the Super Hornet but the failed decision-making process that has brought us to this point.

This strategy has been roundly criticized by experts such as President Reagan’s Assistant Secretary of Defense Lawrence Korb.

The Navy’s Super Hornet is just the crown jewel in this misguided tactical aviation acquisition strategy.

The story of the Super Hornet is one of huge sums of money spent with really very disappointing returns. The plane’s failings have been expensive and alarming. These problems do not just empty our pocketbook; they could endanger our pilots.

I want to highlight what the Navy has described as the “pillars” of the Super Hornet program. These are the performance parameters that the Navy touts as justifications for this expensive program. But these pillars have become problems.

First and foremost is the plane’s range. The Navy argues that the Super Hornet will fly significantly farther than the Hornet. But these improvements have yet to be proven in reality. What is worse, initial Super Hornet range predictions have actually declined as flight data has been gathered. By continuing to base range predictions on actual flight test data, the Super Hornet range in the interdiction mission is 8 percent lower than the upgraded range over the Hornet, and this is not particularly impressive.

Adding to the range shortcoming is the wing-drop problem. When the Super Hornet is in-air-to-air combat, when it needs to change its precise ability to position itself, the plane can lose wing lift, a problem beyond the pilot’s control that essentially causes the plane to roll out of position.

We have been wrestling with the wing problem for a couple of years now, and it still is not resolved. Potential fixes for the wing-drop problem will decrease range, but since we do not know which solution the Navy will employ, the actual decrease is not yet known.

Also affecting the range, believe it or not, is the potential of bombs colliding with each other or with the aircraft. The Navy’s solution increases drag, thus resulting in a deficiency that would preclude the aircraft from carrying external fuel tanks. If the aircraft does not carry the two 480-gallon tanks, it will not be able to meet its required range specification. The Navy and its contractor now have little choice but to redesign the wing pylons.

A second pillar of the program is survivability. Since the inception of the Super Hornet program, the Navy has asserted that the aircraft will be more survivable than the current Hornet. Based on operational tests, however, survivability issues now comprise the majority of the program’s deficiencies, as identified by the Procurement Executive Office for Tactical Aircraft. A chief survivability problem is that the plane’s exhaust will actually burn missiles away from the aircraft. Obviously, losing a decoy will not increase survivability.

A third pillar put forth is growth space, or space availability to accommodate the upgrades planned for the Super Hornet. The Navy has already planned to be installed on the Hornet as well.

The remaining pillars are that of payload and bringback. The Navy claims that the Super Hornet would provide greater payload and bringback than the Hornet. Increased payload should mean the Super Hornet is able to carry more weapons and fuel, and increased bringback should mean that the Super Hornet should return from its mission carrying more of its unused weapons.

What all this technical talk is about, simply stated, is that the pillars supporting the Super Hornet program are crumbling. But don’t take my word for it. Just look at the troubling evidence amassed by the GAO which makes the best case yet against the Super Hornet program.

According to GAO, the aircraft’s performance is less than stellar. In fact, GAO reports that the aircraft offers only marginal improvements over the Hornet, the same finding it made in 1996. Over the last 3 years, GAO has offered evidence of shortcomings in each and every area the Navy declared as justifications for the Super Hornet. In addition, the Super Hornet is actually worse than the Hornet in turning, accelerating, and climbing—actually worse than the plane we are using now that is less expensive.

GAO testified recently before Congress that the Super Hornet is not meeting all of its requirements. It is behind schedule, and it is above cost, regardless of Navy boasts to the contrary. The Navy’s statements on performance actually reflect the
It is not unreasonable to ask that all deficiency corrections be incorporated into the aircraft design and successfully tested as the Navy has agreed. The $9 billion procurement commitment. Not only is it not unreasonable, it is consistent with existing Navy criteria.

What concerns me most here is the conduct of the Navy and the Pentagon as they have tried to ensure that the Super Hornet has a place in its aviation program. At every turn, they have pushed this plane, despite all logic to the contrary. They have even resisted answering simple, straightforward questions about the plane’s performance.

My own experiences trying to extract information from the Pentagon about the Super Hornet’s performance have been fraught with difficulties. Last November, I sent a straightforward letter to the Secretary of Defense that asked some simple questions about the status of the E/F. At the time, Congress had just appropriated more than $2 billion for the third lot of production. After that letter, we had additional times urging DOD to answer very specific, clear questions regarding the performance of the aircraft in its latest flight test.

Three months later, I received a memorandum stating that it “addresses some of my concerns.” This was unfortunate because I was assured by Pentagon officials familiar with the report that my questions could be easily answered in full. I can assure everyone who is listening that I will not stop asking until I get answers.

I would like to conclude my initial remarks by telling my favorite story about this profoundly flawed program. This past January, the Assistant Secretary for Research, Development, and Acquisition commissioned an independent study to address my questions. I had been asking for a study for some time, so I was heartened and relieved and looking forward to the results.

Unfortunately, the person chosen to lead the inquiry is a well known Washington defense lobbyist who had a long-standing business relationship with Boeing, the Super Hornet’s primary contractor. During the meeting with my staff, the lobbyist disclosed his firm’s association with Boeing. Later my staff telephoned him, and he described his firm’s association with Boeing in response to direct questions from my staff. Then he went on to say that he had terminated his relationship with Boeing “a few days” after Mr. Buchanan asked him to perform the independent review—“a few days.”

No one will be shocked to hear that the report was very favorable to the Super Hornet. That is exactly what the President and Congress need to consider.

This latest episode with the Super Hornet highlights a pervasive Pentagon mindset that sometimes sacrifices the interests of our men and women in uniform to the assumption that bigger and more expensive programs are always better. It puts in stark relief the power of the defense industry which gave more than $10 million in PAC money and soft money to parties and candidates in the last election cycle.

In the last 10 years, the defense industry gave almost $40 million to the two national political parties. You know, for that much money, they could buy their own Hornet.

The PRESIDING OFFICER. The Senator has used 15 of his 20 minutes.

Mr. FEINGOLD. I yield myself 3 additional minutes.

The PRESIDING OFFICER. The Senator is recognized for 3 additional minutes.

Mr. FEINGOLD. Mr. President, in the last 10 years, the defense industry gave almost $40 million to the two national political parties. For that kind of money, these interests could have gotten their own Hornet. Unfortunately, they would have needed another $36 million to get themselves a Super Hornet.

Boeing, the Super Hornet’s primary contractor, gave more than $3 million in PAC money and more than $1.5 million in soft money during that same period. There were no PACs in Eisenhower’s day, but this is what he warned us about, only with higher stakes than he may have imagined.

I have stood on the floor of the Senate for 3 years now discussing the inadequacy of the Super Hornet program. And for 3 years, Congress has turned a deaf ear to the facts. I harbor no illusions that the Super Hornet will be terminated. I do hold out hope that this body will use some common sense in procuring the aircraft.

My amendment does nothing more than set a cost cap using the exact dollar amount put forward by the Navy—nothing more, nothing less.

We owe it to our naval aviators to give them a product worthy of their courage and dedication. And we owe it to the American taxpayers to ensure that we are using their money to modernize our Armed Forces wisely.

Mr. President, I ask for the yeas and nays and reserve the remainder of my time.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second. The yeas and nays were ordered. The PRESIDING OFFICER (Mr. Bennett). The Senator from Missouri is recognized.

Mr. BOND. Mr. President, I thank the Chair and I thank the manager of this bill for giving me the opportunity to talk about one of the best amendments offered by my colleague from Wisconsin.

This is becoming an annual ritual where the Senator from Wisconsin...
seeks to undermine the Navy’s No. 1 procurement priority against the will of the administration, the Department of Defense, and at the expense of our Navy warfighters.

There are quite a few problems with this amendment and the one that he will offer to follow it. But on this first one, it is absolutely not necessary. A fixed-price contract is already in place. So submitting an amendment that purports to do what is already being done is redundant.

Cost caps are normally reserved for problem programs to control cost overruns in the development phase. The F–18 E/F program of today is a model program which has consistently come in under budget. It is a well controlled program with cost incentives in place.

The attacks on this program can best be summed up by the words: Don’t confuse me with the facts, I have my prejudices, and I have my viewpoints that I am going to argue, regardless of what the facts are. Because the facts are that the F–18 E/F procurement program is under budget and it is ahead of schedule.

It absolutely amazes me that the Senator from Wisconsin would seek one more time to hamper the program by adding further administrative cost controls for a program that has already been reviewed by the Senate Armed Services Committee, the House Armed Services Committee, and the Senate Appropriations Committee. All three of these bodies reviewed the F–18 program and found no need to add further administrative constraints to this successful program.

There is a report out, that was put out a year ago by Rear Admiral Nathman, the “N88 Position on OT–IIB,” that in essence answers all the contentions raised by the Senator from Wisconsin. I ask unanimous consent that this summary be printed in the RECORD.

We will have it available for anybody who wants to read it, the specific responses to all the points raised. They have been available to the Senator from Wisconsin, and all of us, for over a year.

There being no objection, the summary was ordered to be printed in the RECORD and, as is customary, it is agreed by the words: Don’t confuse me with the facts, I have my prejudices, and I have my viewpoints that I am going to argue, regardless of what the facts are. Because the facts are that the F–18 E/F procurement program is under budget and it is ahead of schedule.

The OT–IIB Report has done an excellent job of further quantifying and qualifying known issues with the F/A–18E/F. The Navy Developmental and Operational Test process is structured to identify issues prior to production to avoid costly production modifications.

The OT–IIB Report has revalidated that process, confirming that no such issues exist. The F/A–18E/F Hornet Program remains a model program, on cost, on schedule, under budget, and meeting or exceeding all performance parameters. — RADM Nathman.

Mr. BOND. Admiral Nathman says:

The OT–IIB Report has done an excellent job of further quantifying and qualifying

sion of time of this debate to accommodate a number of Senators on the vote schedule, they will understand. I do not propose a vote at this time.

The PRESIDING OFFICER. The Senator from Missouri is recognized for 2 minutes from the time of the Senator from Pennsylvania.

Mr. LEVIN. Will the Senator yield for a unanimous consent request?

Mr. BOND. Surely.

Mr. LEVIN. So we can sequence Senator LAUTENBERG’s 5 minutes for an earlier amendment in this process, after the Senator from Missouri is finished his time and the Senator from Pennsylvania is recognized, the Senator from Missouri is recognized.

Mr. WARNER. You have a few Missouri mixed up. So for the Navy, the Secretary of Defense, and at the expense of our warfighters.

The F/A–18 multiyear contract will be a fixed price incentive contract. It is a capped program in application. But the agency retains contract administration decision-making flexibility, and the contractor maintains inherent cost control incentives. The statutory cap being proposed would undoubtedly increase contract administration costs.

In an era where we are experiencing vexing retention problems, I see no need to add additional burdens to a major acquisition program intended to give our warfighters the best equipment available.

The viability of the Navy’s tactical aviation program is directly tied to the success of this program, and any effort to tie up this program with needless administrative controls is counter-productive. The amendment also contains no cost exemptions that would exclude costs beyond the control of the contractor, such as allowance for new technology built into later models or changes in aircraft quantity.

To date, the F–18E/F has flown 4,665 hours during more than 3,100 flights with no mishaps. The aircraft just finished its fourth fleet evaluation and Development phase and is scheduled to enter the Operational Test and Evaluation Phase, or OPEVAL, this week. It is anticipated that OPEVAL will be complete, looking to have a decision on full rate production by March 2000.

The PRESIDING OFFICER. The Senator has used 5 minutes.

Mr. BOND. Mr. President, I ask if I might be accorded 2 more minutes.

Mr. WARNER. Mr. President, if the Senator would yield for a moment, we are very anxious to start voting.

Mr. SANTORUM. I yield the Senator 2 of my 5 minutes.

Mr. WARNER. I think this would be an appropriate time for the managers to address the Senate as to the schedule of voting.

We are now hoping to start the first vote at about 11:30. That vote would be in the normal sequencing of time, and we have scheduled two following votes at 10 minutes each. I will not propose that at this moment. I wish to alert the Senate and those debating so when I object to any exten-
OPEVAL, who is appointed by the President with advice and consent of the Senate, to make these decisions. I believe in legislative oversight. I believe in the GAO having a responsibility to raise questions. The people who have the responsibility in the executive branch have answered these questions.

I think it is time to quit hampering the program, trying to kill or cripple a program that is providing us the best tactical aircraft for the Navy’s carriers.

I urge my colleagues to join in what I trust will be a tabling motion to table both of the amendments or to vote against them if they are not tabled.

I thank the Chair and the chairman of the subcommittee for giving me this opportunity.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. ASHCROFT. Mr. President, I am pleased to rise in response to the amendment proposed by the Senator from Wisconsin.

The senior Senator from Missouri has stated eloquently the need to respond to the military demands of America in ways that the military believes are effective. We have in the E/F a program that is under budget, under cost. It is on schedule. It is certified ready for operational test and evaluation.

Those who have had the ability and opportunity to fly it have certified it to its character and its characteristics as those that are needed. Every aircraft that we have in our arsenal has some characteristics which preclude others. Those are tradeoffs. So there will be those who attack this aircraft and say it doesn’t do this as well as something else does, or it doesn’t do that as well as another plane does. The fact of the matter is, a plane must do what it is designed to do. When it does what it is designed to do, it meets the needs of the defense of this United States of America.

Aircraft fighters and attack aircraft are designed to do specific things. There is a need—and we have seen it: we are seeing it plainly in the arena of conflict today in the Balkans—for additional mission radius. There is a need for the ability to fly further. There is a need for increasing the payload. If you look at the strike-sortie to just general sortie ratio in the war in the Balkans, it is far different than it was in the war in Desert Storm. That is because we are basing our planes in a different place.

The particular aircraft has a 37-percent increase in mission radius. That is important. It is a design feature. It is needed. It is something the Defense Department and those who fly these airplanes understand we have to have in order to meet our interests and to protect the most important resource we have in our defense operations, and that is the human resource of our pilots.

There is a 60-percent increase in recovery payload. Depending on the mission, the E/F has two to five times the strike capability of the earlier model, two to five times the strike capability, being able to put destruction on a target. That is an important thing to understand.

There is a 25-percent increase in frame size to accommodate 20 years of upgrades in cooling, power, and other internal systems. That is important. It may be said this aircraft is only marginally better. Well, the margin is what wins races. The winner in the 100-yard dash does it in 10.4 seconds. The loser does it in 10.5 seconds. It is only marginally better, but marginal superiority is what wins conflicts. It is what saves lives. It is what makes a difference.

In testimony before the Armed Services Committee, Phil Coyle, Director, Operational Test and Evaluation, Department of Defense, said it this way: "The Department of Defense embarked upon the F/A-18E/F program primarily to increase the Navy’s capability to attack ground targets at longer ranges. Does that sound familiar? That is where we are right now in the Balkans. We are having to fly lots of sorties, because we have to have lots of refueling and other things, because the current things that we have do not have the ability to attack and increase our ability to attack ground targets at longer ranges."

In order to obtain this objective, the principal improved characteristics were increased range and payload; increased capability to bring back unused weapons to a carrier; improved survivability; and growth capacity to incorporate future advanced subsystems...

Three to five times the strike capability. We need to be able to add improved technology. It is my understanding the Senator from Wisconsin wants to flatten the plane out, simplify it to say it can be this plane and no further. If there is a generation of technology available to upgrade this, we need to be able to add the upgrades.

I think we need to be in a position where we can do for those who fight for America and freedom that which will serve their best interests. The idea, somehow, that the GAO should make a determination about whether an airplane is ready—I served as an auditor. For 2 years I was the auditor for the State of Missouri. It is a great job. It is a wonderful responsibility. But those flying green eyeshades and walnut desks in Washington should not be compared to those who fly fighters to defend freedom. We shouldn't have the green eyeshade accountant flying a desk in Washington telling us whether or not the fighter is fit to fight. We need to rely on the responsible testimony and information provided to us by those whose job it is to defend America and whose lives depend on the fighter being fit to fight.

The PRESIDING OFFICER. The Senator has used his 5 minutes.

The Senator from Pennsylvania.

Mr. LAUTENBERG. What was the order?

The PRESIDING OFFICER. Under the order, the Senator from Pennsylvania has 3 minutes, the Senator from Wisconsin has 3 minutes, and then the Senator from New Jersey will be recognized for 5 minutes.

The Senator from Pennsylvania.

Mr. SANTORUM. Mr. President, I think the fine representatives from the State of Missouri, Senators BOND and ASHCROFT, addressed the issue of the F/A-18E/F adequately on the merits. Frankly, I will not address that because that is not what this amendment does.

This amendment has nothing to do with the merits of the F/A-18E/F. This has to do with a cost cap on a fixed price contract. Frankly, I was willing to accept this amendment because a fixed price contract is a fixed price contract. Putting a cost cap on the fixed price times the number doesn’t really have any impact.

What we are going to pay for this is already in law. What his amendment did, which I objected to, was that it did not allow any increase in money for what is called technology insertion. What does that mean? Well, if we come up with a better radar system in the next few years while we are procuring these F/A-18E/Fs, and if we want to put a new radar system in, which would cost more money, under the Feingold amendment we can’t do that.

The Senator from Wisconsin talked about how we have an obligation to our aviators, to make sure they have the most competent equipment to be out there flying. I agree. That is why I can’t support this amendment. If we put this in, we would be denying those very aviators a technology insertion that would be important in improving the survivability of the aircraft, or their ability to locate targets, or whatever the case may be.

This is a dangerous amendment. It threatens our naval aviators who are going to be flying these aircraft because we are not going to allow the insertion of technology for an additional cost that may increase the efficacy of that aircraft.

One other comment. This was in response to the comment of the Senator from Wisconsin that we should not be approving this multiyear contract, which we do under this bill, without having the operational evaluation of testing go on, which could fail.

I say to the Senator from Wisconsin, if it fails, under our bill, there is no multiyear contract. We spell out specifically in this legislation that it has to pass OPEVAL. If it doesn’t, there is no multiyear.
Mr. FEINGOLD. How much time do I have remaining?  

The PRESIDING OFFICER. Three minutes.

Mr. FEINGOLD. Mr. President, it is pretty obvious at this point that any effort to question any weapons system is considered an effort to somehow undermine the country. The fact is that we have a responsibility to do some oversight on our own. We should not just take the word of Government bureaucrats, whether they are in one Department or the other—the Defense Department or Department of Agriculture. We should not just take their word for it. We have some responsibility to look at the questions that have been raised by independent bodies such as the General Accounting Office that say there are real problems.

There has been a great effort here to distort my amendment. It takes the Navy’s figure of $8.8 billion and uses that for the cost cap. That is what it does. We have done this before on this particular airplane. My amendment to do this in another phase of the program a couple of years ago was accepted, and it worked just fine.

On the engineering and manufacturing development portion of it, it was not a radical attack. This simply takes the Navy’s own numbers and holds them to it. We all know what happens with the incredible cost increases that occur with these planes.

Where is the role of oversight of the Senate? There is a attitude of “don’t confuse me with the facts” when it comes to such a complicated, expensive program. It is a $45 billion program, and we are whitewashing the whole thing, even though the General Accounting Office—not me, but the GAO—has identified problems on each of the five pillars of the program. There is no substantive response to any of the points the GAO made that I laid out. They just repeated the facts of the original claims without saying one thing about what has been determined about problems with survivability, and with the additional capability is not as good as originally claimed.

So what we are left with is a blank check. This is the only challenge to any weapons system on the floor of the Senate on this entire bill. Where have we come to, that we scrutinize and cut so many other programs of Government? I have worked hard on that and have a good record on it. But why doesn’t the Defense Department, and why don’t these weapons systems have to share in the scrutiny of everything else?

There are problems with this plane. My amendment doesn’t terminate the plane; it says we ought to hold them to a dollar amount that the Navy itself has identified.

Regarding the Senator’s point, that technology improvement language he thinks would help is a giant loophole that will allow anything to get through to add to the cost. In fact, you could fly a Super Hornet through that loophole.

How much time do I have remaining?

The PRESIDING OFFICER (Mr. BROWNBACK). The Senator’s time has expired.

Mr. LEVIN. Mr. President, how much time is remaining?

The PRESIDING OFFICER. All time on the amendment has expired.

Mr. SANTORUM. Mr. President, I move to table the Feingold amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

The yeas and nays were ordered.

The yeas and nays were ordered.

Mr. LAUTENBERG addressed the Chair.

The PRESIDING OFFICER. The Senator from New Jersey is recognized for 5 minutes.

AMENDMENT NO. 442

Mr. LAUTENBERG. Mr. President, it was on December 21, 1988, over 10 years ago, that Pan Am flight 103 was blown out of the sky over Lockerbie, Scotland killing 270 people, including 189 American citizens. Two Libyan intelligence agents have been indicted for planting the bomb in this deliberate terrorist attack.

Over the past decade, I have watched with respect and admiration as the victims’ families have courageously pieced together their shattered lives. While these families have tried to move on, the agony of losing their loved ones will never disappear. Neither they nor we as a nation will find closure until those responsible for the bombing are prosecuted and Libya rejects terrorism in word and in deed.

I therefore rise today to join with my friend and colleague from Massachusetts and in offering an amendment expressing the sense of Congress that sanctions against Libya should not be lifted.

Last month, Senator KENNEDY and other colleagues joined me in writing to Secretary of State Madeleine Albright to support her decision to keep U.S. sanctions in place at the U.N. until Libya demonstrates it has rejected terrorism.

We also called for the United States to pursue an investigation to identify all those responsible for the Pan Am 103 bombing, including those who ordered, organized, and financed this terrible crime. Libya and other terrorist nations must know that the U.S. will not allow criminal acts against its citizens to go unpunished. We will use all available means to ensure justice prevails.

Mr. President, I ask unanimous consent to have the text of the letter that we sent to the Secretary of State printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,  
Washington, DC, April 27, 1999.  

Hon. MADELEINE K. ALBRIGHT,  
Secretary of State, Department of State,  
Washington, DC.

DEAR SECRETARY ALBRIGHT: We commend you and Ambassador Burleigh for the diplomacy which has brought Abd al-Basset Ali al-Megrahi and Ali-Amin Khalifah Fhimah to the Netherlands to stand trial before a Scottish court for the bombing of Pan Am flight 103.

The families of the victims of this heinous terrorist act have waited too long—for more than a decade—for the first suspects to be brought to justice. We must ensure that they are prosecuted effectively. We hope the families and their representatives will also have access to the trial, if possible through a video link to the United States.

United Nations sanctions on Libya have already been suspended. The United States should not consent to permanently lifting the sanctions before the trial is concluded to ensure continued Libyan cooperation. We agree with your decision to keep U.S. sanctions in place until it can be demonstrated that Libya has renounced terrorism in word and deed.

Our shared commitment to justice for the victims’ families cannot end with this trial. We would appreciate your assurances that no Libyan who has in any way supported, financed, or organized as well as carrying out this terrible crime can avoid the full penalty.

Our national interest demands that we demonstrate to terrorists who attack our citizens will be tracked down and will find no sanctuary.

We stand ready to support your efforts to punish terrorists as well as those who support and encourage such unlawful and uncivilized conduct.

Sincerely,

Edward M. Kennedy; Barbara A. Mikulski; Daniel Patrick Moynihan; Robert G. Torricelli; Charles Schumer; Dianne Feinstein; Frank R. Lautenberg; Gordon Smith; Arlen Specter; Sam Brownback; Paul D. Wellstone; Paul S. Sarbanes.

Mr. LAUTENBERG. Mr. President, the amendment Senator KENNEDY and I offer sends a message to Tripoli that the United States will do everything in its power to ensure continuing sanctions against Libya until it complies with international demands and renounces terrorism as state policy.

Since the 1988 bombing, three United Nations Security Council resolutions—
Numbers 731, 748 and 883—have demanded that Libya cease all support for terrorism, turn over the bombing suspects with the proper safeguards, to stand trial in a specially-constituted court in the Netherlands. We have seen no indication that the Libyans intend to fulfill the other requirements.

In early July, the U.N. Secretary General will report to the Security Council on Libya's compliance with the conditions set by the international community. Once he submits that report, members of the Security Council may well introduce a resolution to lift sanctions against Libya. We are told that condition until now have only been suspended.

Mr. President, Libya must not be allowed to gain relief from sanctions through half-measures. This Amendment therefore calls on President Clinton to use all diplomatic means necessary, including the use of the U.S. veto, to prevent sanctions from being lifted until Tripoli fulfills all the conditions set out in the resolutions.

As Americans, we must take action to ensure such horrors never happen again. We must punish the guilty and continue to exert pressure until Libya resolves to become an accepted member of the world community. This amendment is one step in the right direction. I thank the Chair and yield the floor.

Mr. BROWNBACK. Mr. President, I ask unanimous consent to speak for up to 3 minutes on the Kennedy amendment.

The PRESIDING OFFICER (Mr. SANTORUM). The Senator from Kansas has 5 minutes.

Mr. BROWNBACK. I thank the Chair. Mr. President, 189 Americans were killed in the bombing of Pan Am 103. Their families have longed for peace for more than a decade. While it is true that Libya has labored under mild United Nations sanctions for much of that time, it is also true that the perpetrators of this hideous act of terrorism have lived a life of freedom with their families.

For reasons best known to himself, Colonel Qadhafi has decided to turn over the two suspects in the Pan Am 103 bombing to a Scottish court constituting a specially-constituted court in the Netherlands. In return, the U.N. sanctions against Libya have been suspended.

This measure, a sense of the Congress, highlights some of the inadequacies of the current arrangement. For example, Libya has only fulfilled one of the four requirements set forth in the resolution. Colonel Qadhafi has yet to reassure us he will fully cooperate with the investigation and trial; he has yet to renounce his support for international terrorism; and he has failed to pay compensation to the victims' families.

I have little confidence that no matter what the outcome of this trial, Qadhafi will not change his stripes. He is a dictator and a criminal. Indeed, the London Sunday Times of May 23, 1999, reported that British intelligence has information clearly linking Qadhafi himself to the bombing.

This amendment states the sense of Congress that the President should use all means, including our veto in the Security Council, to preclude the lifting of sanctions on Libya until all conditions are fulfilled. I would go further. Until we know just who ordered this bombing, and until that person is duly punished, Libya must remain a pariah state, isolated not only by the United States but by all the decent nations of the world.

I urge colleagues to support this amendment, and commend Senator KENNEDY for his many efforts of the Pan Am 103 victims and families.

I yield the floor.

The PRESIDING OFFICER. Under the previous order, the Senator from Wisconsin is recognized.

AMENDMENT NO. 444

(Purpose: To ensure compliance with contract specifications prior to multi-year contracting and entry into full-rate production under the F/A-18E/F aircraft program)

Mr. FEINGOLD. Mr. President, I send an amendment to the desk.

Mr. FEINGOLD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Wisconsin (Mr. FEINGOLD) proposes an amendment numbered 444.

Mr. FEINGOLD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 26, strike lines 20 through 25, and insert the following:

(b) LIMITATION.—The Secretary may not exercise the authority under subsection (a) to enter into a multiyear contract for the procurement of F/A-18E/F aircraft or authorize entry of the F/A-18E/F aircraft program into full-rate production until—

(1) the Secretary certifies to the Committees on Armed Services of the Senate and House of Representatives that the F/A-18E/F aircraft has successfully completed initial operational evaluation;

(2) the Secretary of the Navy—

(A) determines that the results of operational test and evaluation demonstrate that the aircraft to be procured under the multiyear contract in the higher quantity than the other version satisfies all key performance parameters in the operational requirements document for the F/A-18E/F program, as submitted on April 1, 1997; and

(b) certifies those results of operational test and evaluation.

(3) the Comptroller General reviews those results of operational test and evaluation and transmits to the Secretary of the Navy and the Comptroller General a concurrence with the Secretary's certification.

Mr. WARNER. Mr. President, we have now reached concurrence among leadership and the managers that the three votes that were to begin at 1:30 today will begin 20 minutes thereafter, at 1:50 a.m. In sequence back to back. At the conclusion of the first vote, it is the intention of the managers to seek a 10-minute limitation on the remaining two.

I thank the Chair.

Mr. FEINGOLD. Mr. President, the Navy would like to rely on flight test data from the single seat E version of the Super Hornet to claim that the aircraft procured under the Navy's F/A-18E/F program will perform up to specifications. Here is the problem. Fifty-six percent of the planes the Navy intends to buy will be the lower performing two-seat F models. My amendment to address this sleight of hand is simple and sensible. It would require that the majority of aircraft ordered under the Navy's F/A-18E/F Super Hornet program meet the key performance parameters in the Operational Requirements Document before going into full-rate production and before the Navy enters into a multi-year procurement contract.

Mr. President, my colleagues are well aware of my concerns about the Navy's F/A-18E/F Super Hornet aircraft program. Over the past three years, I've delved into the program's flaws in agonizing detail. Earlier, I was on the floor to offer an amendment that institutes a cost cap on the E/F program. At the time, I took this body through a wide-ranging review of facts and figures from the Pentagon's Director of Operational Test and Evaluation and the General Accounting Office, on the Super Hornet's shortcomings. So I won't subject my colleagues to more of the same facts showing how the Super Hornet program fails to improve on the existing Hornet program, more than marginally, or in a cost-effective manner.

Mr. President, I'm sure many of my colleagues wonder why I continue on this lonesome crusade. I continue this effort pilots' lives will be placed at risk in the F/A-18E/F for the next 25 to 30 years. On top of that, taxpayers are being asked to pay more than $45 billion for this program.

Mr. President, the amendment I offer simply requires the Super Hornet to
meet existing performance specifications before going into full-rate production. It is simply a common sense measure.

To briefly summarize the contracting process, in 1992, the Secretary of the Navy and the aircraft’s primary contractor, Boeing, entered into a contract for the development, testing, and production of the Super Hornet. Within a follow-up Operational Requirements Document, or ORD, which was signed off by the Navy in April, 1997, are a number of key performance parameters. Essentially, Mr. President, the contract states explicitly what the Navy wants the plane to be able to do.

Mr. President, the Navy wanted, and I assume still wants, a plane with increased range, increased payload, greater bringback capability, improved survivability, and an increased growth space over the existing F/A–18C Hornet aircraft. The Navy calls these improvements the pillars of the Super Hornet program.

As I stated earlier, premier among the Navy’s justifications for the purchase of the Super Hornet is that it fly significantly farther than the Hornet. As recently as this past January, the Navy claimed the E/F would be able to fly up to 50 percent farther than the Hornet.

Mr. President, again, these improvements have yet to be proven in reality. And in the realm of reality, initial Super Hornet range predictions have declined as actual flight data has been gathered and incorporated into further prediction models. If the anticipated, but yet to be demonstrated range improvements are not included in the estimates, the Super Hornet range in the interdiction role amounts to a mere 8 percent improvement over the Hornet. According to GAO, this is not a significant improvement.

Mr. President, not only does the Super Hornet fall short in its range, but also in its payload capacity, and growth space improvements. On top of that, the Super Hornet is worse than the Hornet is turning, acceleration, and ability to climb. Again, this plane will cost far more, perhaps twice as much as the current model.

As I mentioned earlier, the General Accounting Office, as I indicated recently before Congress that the Super Hornet is not meeting all of its performance requirements, is behind schedule, and above cost, regardless of Navy boasts to the contrary. The agency offered evidence of shortcomings in each and every area of the Navy declared as justifications for the aircraft. GAO also states that some of the Navy’s assumed improvements to the aircraft have yet to be demonstrated.

Mr. President, the Navy’s statements on performance reflect the single-seat E model of the aircraft, not the less-capable two-seat F model. This is troubling because the model of the aircraft, not the less-capable two-seat F model. This is troubling because the model of the aircraft, not the less-capable two-seat F model. This is troubling because the model of the aircraft, not the less-capable two-seat F model. This is troubling because the model of the aircraft, not the less-capable two-seat F model. This is troubling because the model of the aircraft, not the less-capable two-seat F model. This is troubling because the model of the aircraft, not the less-capable two-seat F model. This is troubling because the model of the aircraft, not the less-capable two-seat F model.
I can say to the Senator from Wisconsin, the junior Senator from Missouri, I went through that extensively, spending the better part of a day at the facility in St. Louis. This is a program of which I think everyone will be proud. They are using state-of-the-art manufacturing techniques. They are, as the Senators have said, ahead of schedule, meeting every single benchmark. They have 4,000 hours of flight time, more than any other aircraft that has been tested in history.

I think this is an additional hurdle that is unnecessary and potentially dangerous. That is why I will at the appropriate time move to table the amendment of the Senator from Wisconsin.

Mr. FEINGOLD. How much time remains?

The PRESIDING OFFICER. The Senator from Wisconsin controls 9 minutes.

Mr. FEINGOLD. I yield myself the time required at this point.

Let me say exactly what this amendment does rather than rely on the characterization that was given. This appears to be something of a sleight-of-hand with regard to proving that this plane actually meets the performance parameters it is supposed to meet.

There are two versions of the Super Hornet aircraft, a one-seat E model and another that has been proven to be less capable, a two-seat F model. The Navy now states that 56 percent of the Super Hornet will be F models, but they are trying to rely on the performance of the E model to determine compliance with performance parameters.

The amendment simply requires that the version of the Super Hornet aircraft, as the majority—of the Navy's purchasing plan has to satisfy all the key performance parameters in the program Operational Requirements Documents. That is what this amendment does.

For this to be characterized as an additional hurdle, as has been done by the Senator from Pennsylvania, is simply not accurate. It simply says that the flight test data used by the Navy, represent the version of the plane they intend to purchase. All we are trying to do is to make sure that the information we are getting and the assumptions are based on the planes that are actually being purchased and that they actually do what they said they would do.

That is not an additional step. That is just somebody buying something, making sure they are actually getting what they contracted for. Shouldn't we, as the guardians of the taxpayers' dollars, be sure we are getting what we contracted for? How can that be an additional hurdle, unless we want to allow the contractor to give us something we didn't want and, in fact, paid a fortune for?

The Senator from Pennsylvania reasonably asked whether or not there is a problem with the GAO having a limited time to look at this. I am happy to enter into an agreement for a time limit for the GAO, with the Senator's indication that he would regard that as a reasonable change. That is not a problem that was intended, and we can solve that quite simply:

This is an incredibly expensive program. Hopefully, this plane, if it goes through, will work as well as has been advertised. Hopefully, it will not cause problems for our pilots, although there are those who are concerned about that.

All this amendment does is say that when we make the decision to move to the next phase, it is actually based on the plane we are buying. Any householder knows that you have to take that much caution when buying something. We talked a lot as we brought down the deficit, on a bipartisan basis, about doing things like American families have to do. Don't we have a responsibility to make sure we are getting the plane we are paying for? We are not paying for it, the taxpayers are paying for it, and they will pay $45 billion for it. It ought to be the plane that we are supposed to get.

I reserve the remainder of my time.

Mr. LEVIN. Mr. President, how much time do the opponents have?

The PRESIDING OFFICER. Mr. President, 6 minutes remain.

Mr. LEVIN. I ask that they yield 2 minutes.

Mr. ASHCROFT. Mr. President, the Senator from Missouri?

Mr. SANTORUM. I am happy to yield an additional minute.

Mr. LEVIN. Will the Senator yield an additional 30 seconds?

Mr. SANTORUM. I yield 30 seconds.

Mr. LEVIN. The Comptroller General must concur with the Secretary's certification. I believe that is a clear violation of the separation of powers. In Bowsher v. Synar, the Supreme Court ruled:

To permit the execution of the laws to be vested in an officer answerable only to Congress would, in practical terms, reserve in Congress control over the execution of the laws.

So, except for that part requiring a legislative concurrence or legislative officer's concurrence with the Secretary's certification, I think that amendment would have been acceptable. With that additional provision, I think it is unacceptable as it violates separation of powers and the Supreme Court ruling in the Bowsher case.

Mr. ASHCROFT addressed the Chair.

The PRESIDING OFFICER. Who yields time? Who yields time to the Senator from Missouri?

Mr. SANTORUM. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator has 3 minutes remaining.

Mr. SANTORUM. I yield the Senator from Missouri 2½ minutes.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. ASHCROFT. Mr. President, the F-18 is underbudget and early. The Department of Defense is making very, very careful evaluations, and will continue to do so. This contracting will not go forward without their professional critical evaluation that the plane succeeded.

The Senator from Wisconsin says these two different planes in the F-18 package, the single-seater and the two-seater, must meet the same flight characteristics. That does not make sense.
When you put an extra seat in an airplane it changes the characteristics, but it also changes the fighting capacity of the airplane. You can have two pilots—or one plus a person operating radar or other things in a hostile environment in terms of locating targets—which you can’t do with one person both flying the airplane and doing that.

The Senator from Wisconsin asks about oversight. Frankly, we have had substantial oversight here. We have had oversight in the Senate Armed Services Committee, oversight in the House Armed Services Committee, oversight in the Senate Appropriations Committee. There will be, again, evaluation in the House Appropriations Committee.

This is a circumstance where, obviously, there has been substantial oversight. The members of the committee and committee chairman are saying we should approve this. I believe we should. For us to say the Department of Defense—those whose lives depend on this airplane performing, are to have their judgment about the airplane set aside or deferred or delayed until accountants or auditors from the General Accounting Office make a decision on this plane. It is not only unwise, it has been clearly demonstrated, I think, in the arguments that it is unconstitutional as well.

The F-18 is an outstanding aircraft with characteristics that will serve well—extended range, extended load-carrying capacity, and ability in the two-seat configuration to do things not available in the one-seat configuration. It is a well-made airplane that will serve our interests well by serving well those who fly them. It will serve us well by allowing those conflicts to be survivable. The margin of improvement provides the margin of difference that means we win instead of losing.

It is time for us to move forward with this program; stop unnecessary attacks on it. This is an airplane that will serve us well.

The PRESIDING OFFICER. The time of the Senator has expired. Who yields time?

Mr. FEINGOLD. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator has 5 minutes and 22 seconds.

Mr. FEINGOLD. Mr. President, first with regard to the second amendment, the one before us now having to do with regard to the second amendment, I am sorry. I can’t hear the Senator.

Mr. WARNER. Mr. President, I am simply trying to protect other Senators. At the moment, there is an objection.

The PRESIDING OFFICER. Objection is heard. The Senator from Wisconsin?

Mr. FEINGOLD. Mr. President, I will provide the Senate with a copy of the amendment as I would modify it and simply delete the section relating to the Comptroller General.

Mr. LEVIN. If the Senator will yield? The PRESIDING OFFICER. The Senator from Michigan.

Mr. FEINGOLD. As I understand the objection, it is perhaps a temporary one. Is that the understanding of the Senator from Wisconsin? My understanding of what the Senator from Virginia said is that in order to protect the rights of other Senators, he would object. At the moment, but I suggest at least the possibility that the Senator renew his unanimous-consent request and perhaps there will be no objection, after there has been an opportunity for people to read the modification.

Mr. FEINGOLD. If the Senator from Michigan advise me of the appropriate time to raise that unanimous-consent request?

Mr. LEVIN. They are checking it out now.

Mr. FEINGOLD. Mr. President, I appreciate that. I reserve a few moments of my time because the response to this will affect my argument. The only real objection to this is primarily to the role of the GAO in this process. The only other objection raised by the Senator from Missouri who made much of the fact that of course there is a difference between the E and F plane.

The problem is that originally the Navy and the contractor sold this plane on the assumption that only 18 percent of the planes would be the ‘F’ version. The reality now is that 56 percent of the planes are going to be the lower-performing ‘F’ version. That is why it is essential that we have this certification, at least by the Navy, that in fact a majority of the planes will meet the performance parameters.

So I am very interested to see if the Senators here who have raised this concern will allow me to meet their concerns so we can pass this commonsense amendment which, as the Senator from Michigan indicated, without that flaw would be a worthwhile amendment.

With regard to the other amendment, the cost containment amendment, let me make a couple of points in response to the Senator from Michigan. I do want to say he has been a tremendous advocate for appropriate cost containment and careful evaluation of military programs throughout his career.

First of all, regarding our cap that we propose, which of course is a figure the Navy proposed in the first place, that $8.8 billion is only for over a 4-year period. It is not a permanent cap. Second, if there is a need for new technology, as has been pointed out by the Senator from Michigan, if something comes up that absolutely has to be done—we are here. We are not going anywhere. If something dramatic happens that requires additional technology, we are in a position to respond to that. In fact, the amendment I have proposed allows a number of flexibilities. It is not an absolute $8.8 billion cap. It allows cost increases and decreases for inflation. It allows changes for compliance in Federal, State, and local law, and it also contemplates the possibility of quantity changes in the number of planes within the scope of the multiyear contract, which we all know dramatically affect the cost of a plane.

There is substantial flexibility built into this amendment, and if there is a need for the new technology, we are here and able to respond to that. Otherwise, all we are doing, as I indicated earlier, by including this language for new technology, we are essentially gutting our own amendment. We are removing the cost cap provision in our amendment.

How many people would do that? If you are buying a car, if a car manufacturer says: Well, we reserve the right, if we come up with a new thing to put on this car, to charge you a couple thousand bucks after we cut the contract, after we cut the deal. I do not think we should be doing business that way. We have built flexibility into this amendment.

Again, I indicate that all this is the Navy’s own figure of $8.8 billion. We did a similar cost cap on the same plane previously.

I reserve the remainder of my time.

The PRESIDING OFFICER (Mr. ALLEN). Who yields time? The Senator from Virginia.

Mr. WARNER. Mr. President, I am hopeful this matter can be resolved in a matter of minutes. In the interim, I suggest the absence of a quorum.

The PRESIDING OFFICER. Without objection, the clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEVIN. Mr. President, I ask unanimous consent that Eden Murrie in Senator LIEBERMAN’s office and Dana Krupa in Senator BINGHAMAN’s office be granted the privilege of the floor for the remainder of this bill.
The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Mr. President, I yield the 1½ minutes to myself for a statement.

Mr. WARNER. Mr. President, I yield to the chairman of the subcommittee, the Senator from Pennsylvania.

Mr. SANTORUM. Mr. President, on the second Feingold amendment, we are attempting to work some accommodation so we can accept the amendment. I ask unanimous consent that the yeas and nays which were ordered on the second Feingold amendment be vitiated.

The PRESIDING OFFICER. Is there objection?

Mr. FEINGOLD. Reserving the right to object, I assume it is the intent of the Senator that if we do not work it out, there will be no problem getting a rollcall vote.

Mr. SANTORUM. Absolutely.

Mr. FEINGOLD. I thank the Senator.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Let’s give the number of that amendment so there is absolute clarity.

The PRESIDING OFFICER. No. 443 is the second Feingold amendment.

Mr. WARNER. Mr. President, we are still trying to start our series of two votes now at approximately 11:50. To keep Senators advised, the ranking member and I are rapidly clearing amendments. I know of only a few remaining amendments that will require rollcall votes. I am anxious to complete the bill, as are all Senators. I see now that possibility taking place perhaps early to mid-afternoon. We will be addressing the Senate on that after the two votes.

The PRESIDING OFFICER. Under the previous order, the two votes have been ordered at 11:50 with 2 minutes evenly divided before each vote.

Mr. WARNER. I think we waived the 2 minutes before the first vote and we will proceed to the vote.

Are the yeas and nays ordered on the amendment?

The PRESIDING OFFICER. The yeas and nays have been ordered on the first vote as well as the second vote.

The Senator from Michigan.

Mr. LEVIN. The 2-minute request was between the first and the second vote, not before the first vote.

Mr. WARNER. It is clear now.

We are proceeding to the next vote for the full period of time. At the conclusion of that, I will, in all probability, ask the next vote be 10 minutes, and then there will be a period of time, 2 minutes total, prior to the second vote.

The PRESIDING OFFICER. The question is on agreeing to amendment No. 442. The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from Arizona (Mr. MCCAIN) and the Senator from Pennsylvania (Mr. SPECTER) are necessarily absent.

The result was announced—yeas 98, nays 0, as follows:

[Rollcall Vote No. 132 Leg.]

NOT VOTING—2

McCaIN Specter

The amendment (No. 442) was agreed to.

Mr. WARNER. Mr. President, I move to reconsider the vote.

Mr. KENNEDY. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. WARNER. Mr. President, I ask unanimous consent that the next vote be 10 minutes in length.

The PRESIDING OFFICER (Mr. ROBINETT). Is there objection?

Without objection, it is so ordered.

AMENDMENT NO. 443

The PRESIDING OFFICER. Under the previous order, there will now be 2 minutes equally divided on the Feingold amendment.

Who yields time?

Mr. FEINGOLD addressed the Chair.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. FEINGOLD. Mr. President, this amendment holds the yeas and nays which were ordered at 11:50 with 2 minutes in length.

The amendment does nothing more than set a cost cap using the exact dollar amount put forward by the Navy; nothing more, nothing less. We owe it to our naval aviators and to the taxpayers to make sure we provide a modernized plane that does what it is supposed to do within the parameters the Navy has set forth itself.

Mr. SANTORUM addressed the Chair.

The PRESIDING OFFICER. The Senator from Pennsylvania is recognized.

Mr. SANTORUM. Mr. President, the F/A-18E/F is a fixed-price contract. It is a fixed-price contract for the extent of the contract. What the Senator from Wisconsin does is put a price cap on a fixed-price contract. Fine. I am willing to accept that. But what he did not include in his amendment was a provision for technology insertion. In other words, if we come up with a new radar system that can improve the quality of the aircraft, under his amendment we could not buy that improvement and put it on the aircraft. I was willing to accept his amendment, if he would allow for that technical improvement insertion provision. But he refused to do so.

So, unfortunately, while I think the amendment is somewhat meaningless because it is a fixed price contract, I have to oppose the amendment, and would ask, for the sake of our naval aviators to make sure they have the best equipment to fly, that my colleagues join in supporting the motion to table.

The PRESIDING OFFICER. The question is on agreeing to the motion to table amendment No. 443. On this question the yeas and nays have been ordered, and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from Pennsylvania (Mr. SPECTER) is necessarily absent.

Mr. REID. I announce that the Senator from New Jersey (Mr. LAUTENBERG) is necessarily absent.

The result was announced—yeas 87, nays 11, as follows:

CONGRESSIONAL RECORD—SENATE

11263
and sensitive law enforcement information relating to intelligence sources and methods, and sensitive law enforcement information that is furnished to Congress pursuant to this section shall include—

"(e) EXCEPTION.—The requirements of subsections (a) and (b) shall not apply if the President determines that notification that Congress would jeopardize an ongoing criminal investigation. If the President makes such a determination, he shall provide written notification to the Majority Leader of the Senate, the Minority Leader of the Senate, the Speaker of the House of Representatives and the Minority Leader of the House of Representatives. Such notification shall include a justification for any such determination."

SEC. 1062. ENHANCEMENT OF ACTIVITIES OF DEFENSE THREAT REDUCTION AGENCY.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall prescribe regulations—

(1) to authorize the personnel of the Defense Threat Reduction Agency (DTRA) who monitor satellite launch campaigns overseas to suspend such personnel at any time if the suspension is required for purposes of the national security of the United States;

(2) to establish appropriate professional and technical qualifications for such personnel;

(3) to allocate funds and other resources to the Agency at levels sufficient to prevent shortfalls in the number of such personnel;

(4) to establish mechanisms in accordance with the provisions of section 1514(a)(2)(A) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105-261; 112 Stat. 2175; 22 U.S.C. 2778 note) that provide for—

(A) the allocation to the Agency, in advance of a launch campaign, of an amount equal to the amount estimated to be required by the Agency to monitor the launch campaign;

(B) the reimbursement of the Department, at the end of a launch campaign, for amounts expended by the Agency in monitoring the campaign;

(5) to establish a formal technology training program for personnel of the Agency who monitor satellite launch campaigns overseas, including a structured framework for providing training in areas of export control laws;

(6) to review and improve guidelines on the scope of permissible discussions with foreign persons regarding technology and technical information, including the technology and technical information that should not be included in such discussions;

(7) to provide, on at least an annual basis, briefings to the officers and employees of United States commercial satellite entities on United States export licensing standards, guidelines, and restrictions, and encourage such officers and employees to participate in such briefings;

(8) to establish a system for—

(A) the preparation and filing by personnel of the Agency who monitor satellite launch campaigns overseas of detailed reports of all activities observed by such personnel in the course of monitoring such campaigns;

(B) the systematic archiving of reports filed under subparagraph (A); and

(C) the preservation of such reports in classified form and unclassified form.

(b) ANNUAL REPORT ON IMPLEMENTATION OF SENSITIVE UNITED STATES TECHNOLOGY CONTROL REGIME.

(1) REQUIRED REPORT.—The Secretary of Defense and the Secretary of State shall—

(A) submit to Congress an annual report that the Secretary of Defense and the Secretary of State shall submit to Congress each year, as part of the annual report for that year under section 154a(b)(8) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999, the following:

(B) A description of any license infractions or violations that may have occurred during such campaigns and activities.

(C) A description of the personnel, funds, and other resources dedicated to the satellite launch monitoring program of the Agency during that year.

(2) EFFECT.—An assessment of the record of United States satellite makers in cooperating with United States export control laws, and in complying with United States export control laws, during that year.

(c) ANNUAL REPORTS ON EFFORTS TO ACQUIRE SENSITIVE UNITED STATES TECHNOLOGY AND TECHNICAL INFORMATION.—The Director of Central Intelligence shall submit each year to Congress and appropriate officials of the executive branch a report on the efforts of foreign governments and entities during the preceding year to acquire sensitive United States technology and technical information. The report shall include an analysis of the applications for licenses for export that were submitted to the United States during that year.

(d) INTELLIGENCE COMMUNITY DEFINED.—In this section, the term "intelligence community" has the meaning given that term in the National Security Act of 1947 (50 U.S.C. 401a(4)).

SEC. 1065. ADHERENCE OF PEOPLE'S REPUBLIC OF CHINA TO MISSILE TECHNOLOGY CONTROL REGIME.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—
SEC. 1067. ANNUAL REPORTS ON SECURITY IN
such launches.

(a) The President shall take all actions appropriate under a bilateral agreement with the People’s Republic of China to ad- here to the Missile Technology Control Re- gime (MTCR) and the MTCR Annex; and

(b) the People’s Republic of China should not be permitted to join the Missile Technology Control Regime as a member without having—
(A) demonstrated a sustained and verified commitment to the nonproliferation of mis- siles and missile technology; and

(ii) in subsection d., as so redesignated, by
(B) The chairman of the Commission may
(c) The appropriate congressional com- mittees'' means the Com- mittee on Foreign Relations and the Com- mittee on Armed Services of the Senate and the Committee on International Relations and the Committee on Armed Services of the House of Representa- tives.

SEC. 1066. UNITED STATES COMMERCIAL SPACE LAUNCH CAPACITY.

It is the sense of Congress that—

(1) Congress and the President should work together to stimulate and encourage the ex- pansion of a commercial space launch capac- ity in the United States, including by taking actions to eliminate legal or regulatory bar- riers to long-term competitiveness in the United States commercial space launch indus- try; and

(2) Congress and the President should—

(A) review the advantages and disadvan- tages of phasing out the policy over time, in- cluding advantages and disadvantages iden- tified by Congress, the executive branch, the United States commercial space launch industry, the United States space launch industry, the United States telecommunications industry, and other interested persons; and

(B) consult the Secretary of Defense and the President on the desirability of adopting and implementing guidelines under the Missile Technology Control Regime, and any amendments thereto.

SEC. 1068. DECLASSIFICATION OF RESTRICTED DATA AND FORMERLY RESTRICTED DATA.

Section 3161(b) of the Strom Thurmond Na- tional Defense Authorization Act for Fiscal Year 1996 (Public Law 104–208; 122 Stat. 2260; 50 U.S.C. 435 note) is amended by adding at the end the following:

“(9) The actions to be taken to ensure that records subject to Executive Order No. 12958 that have previously been determined to be suitable for release to the public are re- viewed on a page by page basis for Restricted Data and Formerly Restricted Data unless such records have been determined to be highly unlikely to contain Restricted Data or Formerly Restricted Data.”.

On page 541, line 22, insert “(A)” after “(4)”. On page 542, between lines 2 and 3, insert the following:

“(B) The chairman of the Commission may designate once five members of the Com- mission have been appointed under para- graph (1).”.

On page 542, between lines 11 and 12, insert the following:

“(C) The Commission may commence its ac- tivities under this section upon the designa- tion of the chairman of the Commission under paragraph (4).”.

On page 546, strike lines 20 through 23. On page 547, line 1, strike “(9)” and insert “(10).”.

On page 564, between lines 17 and 18, insert the following:

SEC. 3164. CONDUCT OF SECURITY CLEARANCES.

(a) PROVISION OF TRAINING.—The Secretary of Defense shall ensure that all Department of Energy employees and Department contractor em- ployees who are specially trained to counter threats of espionage and intelligence-gath- ering by foreign nationals against the Depart- ment employees and Department contractor employees who travel for any reason to countries designated to be a sensitive country for lab- oratory-to-laboratory exchange activities or other cooperative exchange activities on behalf of the Department.

(b) COUNTERING OF ESPIONAGE AND INTEL- LIGENCE-GATHERING ABROAD.—(1) The Sec- retary shall establish a pool of Department employees and Department contractor em- ployees who travel abroad for laboratory- to-laboratory exchange activities or other cooperative exchange activities on behalf of the Department.

The PRESIDING OFFICER. Without objection, the amendment is modified.

Mr. LEVIN. Section 1061(a) of the amendment would require the Presi- dent to promptly notify Congress whenever an “investigation” is under- taken. The term “investigation” is not defined in the amendment.

I am concerned that some could inter- pret in such a way that the President to report to Congress every time the exec- utive branch receives an allegation, even if the Justice Department or others have an opportunity to deter- mine whether the allegations are based in fact. Such an interpretation could lead to the disclosure of a flood of unsubstantiated allegations to Congress, with a resulting injustice to innocent individuals who may be the subject of such allegations.

Mr. LOTT. I thank the Senator for his comments and I appreciate his con- cerns. I am pleased to agree to work closely with him on this from Michi- gan during the conference on this bill, and to solicit the views of the adminis- tration, on how this provision will be implemented and in an effort to address his concerns.

Mr. WARNER. Mr. President, the amendment has been cleared on both sides. I urge the Senate to adopt this amendment.

the amendment (No. 394), as modi- fied, was agreed to.

The amendment being agreed to, the Senate proceeded to a consideration of the question on the passage of the amendment.}
Mr. LEVIN. Mr. President, on that amendment I ask Senator BAUCUS be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Mr. President, with regard to the remaining business, I am hopeful the leadership clears a unanimous consent request, agreed upon between Mr. LEVIN and myself. It is in the process now. It will give clarity to the balance of the day.

At the moment, there are two Senators who have been waiting for 3 days. I want to accommodate them. The Senator from Mississippi, Mr. COCHRAN, would like to lay down an amendment and speak to it for 10 minutes. The amendment is not cleared, so I reserve 10 minutes for the opposition to that amendment prior to any vote that is required.

AMENDMENT NO. 444

The PRESIDING OFFICER. There is a pending amendment. The Chair tells the distinguished Senator the pending amendment at the desk is No. 444 by the Senator from Wisconsin.

Mr. FEINGOLD addressed the Chair.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. FEINGOLD. My understanding is the various Senators have negotiated agreement on this, and it is acceptable on both sides. As modified, the Senate is prepared to accept it.

AMENDMENT NO. 444, AS MODIFIED

The PRESIDING OFFICER. Will the Senator send the modification to the desk.

Mr. FEINGOLD. I send the modification to the desk.

The amendment (No. 444), as modified, is as follows:

On page 26, strike lines 20 through 25, and insert the following:

(b) Limitation.—The Secretary may not—

(A) exercise the authority under subsection (a) to enter into a multiyear contract for the procurement of F/A-18E/F aircraft or authorize entry of the F/A-18E/F aircraft program into full-rate production until—

(1) the Secretary of Defense certifies to the Committees on Armed Services of the Senate and House of Representatives the results of operational test and evaluation of the F/A-18E/F aircraft.

(2) The Secretary of Defense—

(A) determines that the results of operational test and evaluation demonstrate that the version of the aircraft to be procured under the multiyear contract in the higher quantity than the other version satisfies all key performance parameters appropriate to that version of aircraft in the operational requirements document for the F/A-18E/F program, as submitted on April 1, 1997, except that with respect to the range performance parameter a deviation of 1 percent shall be permitted.

The PRESIDING OFFICER. Without objection, the amendment is modified and agreed to.

The amendment (No. 444), as modified, was agreed to.

Mr. LEVIN. Mr. President, I move to reconsider the vote.

Mr. WARNER. I move to lay down that motion on the table. The motion to lay on the table was agreed to.

Mr. WARNER. Now, it is the request of the manager that Mr. COCHRAN be recognized for not to exceed 10 minutes to lay down an amendment. If that amendment cannot be agreed upon by a voice vote, we would just lay it aside. With the understanding there is 10 minutes for opposition at some point in the afternoon.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. The Senator from Florida has waited very patiently for about 2 or 3 days. He has an amendment which is to be laid down following the Cochran amendment. I ask there be a period of 30 minutes, 15 minutes under the joint control of the Senator from Florida, 15 minutes under the joint control of Senators SHELBY and ROBERT KERREY.

The PRESIDING OFFICER. Is there objection?

Mr. KYL. I object, Mr. President.

The PRESIDING OFFICER. Objection is heard.

Mr. WARNER. I guess that is the end of the ability to move things. We just have to put that request in abeyance.

The PRESIDING OFFICER. The distinguished Senator from Mississippi is recognized.

AMENDMENT NO. 445

(Purpose: To authorize the transfer of a naval vessel to Thailand)

Mr. COCHRAN. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Mississippi [Mr. COCHRAN] proposes the amendment numbered 445. Mr. COCHRAN, Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In title X, at the end of subtitle B, insert the following:

SEC. 1013. TRANSFER OF NAVAL VESSEL TO FOREIGN COUNTRY.

(a) THAILAND.—The Secretary of the Navy is authorized to transfer to the Government of Thailand the CYCLONE class coastal patrol craft CYCLONE (PC1) or a craft with a similar hull. The transfer shall be made on a grant basis under section 516 of the Foreign Assistance Act of 1961 (22 U.S.C. 2321).

(b) COSTS.—Any expense incurred by the United States in connection with the transfer authorized under subsection (a) shall be charged to the Government of Thailand.

(c) REPAIR AND REFURBISHMENT IN UNITED STATES SHIPYARDS.—To the maximum extent practical, the Navy shall require, as a condition of the transfer of the vessel to the Government of Thailand under this section, that the Government of Thailand have such repair or refurbishment of the vessel as is needed, before the vessel joins the naval forces of that country, performed at a United States Naval shipyard or other shipyard located in the United States.

(d) EXPIRATION OF AUTHORITY.—The authority to transfer a vessel under subsection (a) shall expire at the end of the two-year period beginning on the date of the enactment of this Act.

The PRESIDING OFFICER. The Senator is recognized for 10 minutes.

Mr. COCHRAN. Mr. President, for the information of the Senate, this amendment would authorize the transfer of a naval vessel to Thailand and would authorize the Secretary of the Navy to receive in exchange a ship that is now in the fleet of Thailand. The purpose of the amendment is to provide authority to the Secretary of the Navy to give to a retiring U.S. Navy Cyclone class ship to the Government of Thailand in exchange for a former U.S. Navy ship which served in World War II in the Pacific. That ship is the LCS 102, LCS 102 is a former land-based craft support. It is presently in the service of the Royal Navy of Thailand.

For some history on this subject, 3 years ago in Public Law 104–201, the Congress went on record in favor of trying to bring back to the United States the LCS 102. It is the last surviving ship of its class. This ship saw heavy combat action in the western Pacific during World War II. It was transferred after the war to Japan and then later was transferred to Thailand where she has been in service for 30 years. This ship is of great historical significance. It is the last one of its kind in existence in the world. Just a few years ago, it was entered on the Register of the World Ship Trust.

Many sailors from World War II might not recognize this class of ship, because it was one of many different types of amphibious ships used in the Pacific during World War II. But it was highly appreciated by the navy admirals and the Marines because it was a heavily armed gunboat which gave close-in fire support to the Marines in amphibious landings. In fact, the LCS ships had more firepower per ton than an Iowa class battleship.

These ships were in the thick of it in Iwo Jima, Okinawa, the Philippines, and New Guinea. They also served in an anti-aircraft role against kamikaze aircraft at Okinawa and Iwo Jima, because of their tremendous firepower.

Mr. President, 26 of the 130 LCSs that were built were sunk, or badly damaged in the first 6 months of their duty in the Pacific. Historians have begun to write about these ships and the role they played in the successful war in the Pacific. There is one illustrative title, "Mighty Midgets At War: The Saga of the LCS(L) Ships from Iwo Jima to Vietnam," by Robert L. Reilly.

Our distinguished former colleague, who is now the chairman of the Armed Services Committee, John Tower of Texas, served aboard the LCS 112. He was chief bosun's mate during World War II on that ship. Also, former Secretary of the
Navy William Middendorf served as an officer abroad LCS 53 and former Secretary of the Navy John Lehman's father served as commanding officer of LCS 18 in the Pacific. He received the Bronze Star for bravery during his service at Okinawa.

In addition, the commanding officer of LCS 13, then Lieutenant, Richard M. McCool, who now resides in Bainbridge Island in the State of Washington, received the Congressional Medal of Honor from President Truman for his service during a kamikaze attack at Okinawa.

There are several former LCS sailors from my State who have written me in support of this transfer: Robert Wells of Ocean Springs, MS, recently wrote me a letter saying he was the only medical officer abroad LCS 31. Here is what he said: . . . The LCS-31, along with approximately 20 other LCSs, invaded Iwo Jima in February, 1945, assisting the Marines in landing. From there, the LCS 31 went to Okinawa and from there patrolled radar picket duty where the #31 shot down 6 suicide planes and was hit by 3, killing 9 sailors and wounding 15. The 31 received the Presidential Unit Citation for their efforts. Please help in returning the LCS 102 to the United States and receiving the recognition that the LCSs deserve.

Mr. President, these ships were a part of the U.S. Navy that fought and won the war in the Pacific. The LCS 102 is the last remaining ship of its class, and I believe it would be appropriate for it to come home and serve as a floating museum and a monument to the brave service of tens of thousands of sailors who served on these ships with the nickname "Mighty Midgets."

Since the Congress adopted an amendment 3 years ago urging the Secretary of Defense to bring home the LCS 102 the Navy has determined that the Thai Navy will give up the LCS from its fleet for a return to the United States, but they need a replacement ship to fulfill the shallow water mission now accomplished by the LCS 102. This year, the Navy is retiring a small, fast gunboat from our fleet that will meet the Thai Navy's requirement now accomplished by the LCS 102. From then on it will be raised from the private sector to put this ship in condition to serve as a museum, and there are still many details to be worked out before the LCS can be brought home. But by approving this amendment, which is necessary as a first step, the Senate will guarantee in support, as we did 3 years ago when we suggested this should be done by the Navy.

I hope my colleagues will support the amendment and join the Chief of Naval Operations, Jay Johnson, who has written me a letter in support of this amendment. I ask unanimous consent that the letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

HON. THAD COCHRAN, U.S. Senate, Washington, DC.

DEAR SENATOR COCHRAN: I wanted to offer my thanks and support for your proposed amendment to help return the last ex-LCS 102 from Thailand to the United States. This ship would make an excellent public memorial in honor of those who served in ships like her during WWII. Further, it would provide an additional monument for generations to come of the sacrifices of this special generation.

My staff stands ready to brief yours on the details involved in making the transfer of a retiring Cyclone-class Patrol Craft (PC) come about. Thank you again for your support. If I may be of further assistance, please do not hesitate to let me know.

Sincerely,

JAY L. JOHNSON, Admiral, U.S. Navy.

Mr. COCHRAN, Mr. President, for the information of the members, I want to read just one sentence from this letter:

This ship would make an excellent public memorial in honor of those who served in ships like her during World War II.

ADM. JAY JOHNSON, Chief of Naval Operations.

Mr. REID. Will the Senator yield?

Mr. COCHRAN. Mr. President, for the information of the members, I want to read just one sentence from this letter:

This ship would make an excellent public memorial in honor of those who served in ships like her during World War II.

Mr. REID. Mr. President, I rise to support the amendment. Mr. President, I want to editorialize on what Mr. Johnson says.

Mr. COCHRAN. That is right. It is authorizing legislation.

Mr. REID. Also, on page 2 of the Senator's amendment, it says, "on a grant basis." Is it clear that it could also be done on a sale basis, lease basis or a lease with an option to buy basis?

Mr. COCHRAN. We want to swap it. We want to swap the Cyclone for the LCS 102. It authorizes the trade.

Mr. REID. It says, "the transfer shall be made on a grant basis." Can you explain what that is? That is a legal word of art. I have explained the meaning of it. If we had been able to get the committee to adopt the amendment as we had hoped they would, there would be report language in the committee report. I will be happy to give the Senator a copy of that which further explains. If he will let me, I will read it:

The committee recommends that the Secretary of the Navy be authorized to transfer to the Government of Thailand one Cyclone class patrol vessel for the purpose of supporting Thailand's counterdrug and counterpiracy operations. The committee intends this transfer to replace the former LCS currently in service with the Royal Thai Navy, should the discussions urged in section 1025 of PL 104-201 result in the Government of Thailand's decision to return LCS 102 to the Government of the United States. The committee understands that the Secretary of the Navy supports the return of LCS 102 to the United States for public display as a naval museum.

Mr. REID. Will the Senator yield for another question?

Mr. COCHRAN. I will be happy to yield.

Mr. REID. This is just to give the Secretary more options—sale, lease, lease option. It will give more discretion to the Secretary. Further, what is not clear, I believe, is also saying the transfer shall be made by grant. There are other ways it can be done. I think it would be in the best interest of all concerned if these other options are available. I repeat: sale, lease, lease with an option to buy.

Mr. COCHRAN. I will be happy to consider that, and I appreciate the Senator raising it as an alternative.

The PRESIDING OFFICER. The time allotted to the Senator has expired.

The Senator from Virginia is recognized.

Mr. WARNER. Let me clarify, Mr. President, there still remains some time in opposition to the amendment of the Senator from Mississippi; am I correct in that?

The PRESIDING OFFICER. The Chair observes that Senators said there would be 10 minutes allotted to the opposition of the Senator's amendment. It was not stated in the form of a request.

Mr. WARNER. Mr. President, I think some time should be reserved. I indicate for the RECORD, I support the Senator from Mississippi, but I am sure there should be reserved on this side, 10 minutes, and then we will determine whether or not a recorded vote is necessary in this matter, or it may be voice voted. I put that in the form of a unanimous consent request.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SMITH of New Hampshire. Mr. President, I rise to support the amendment of the Senator from Mississippi. This amendment deserves the support of every Senator because it is the right thing to do.

During World War II more than 10,000 Americans served their country on LCS ships, and these ships were heavily involved in combat in the Pacific. There is only one LCS left in the world, and a group of World War II sailors wants
to bring that ship back to the United States and make it a floating museum.

Three years ago I sponsored an amendment to the Defense Authorization bill urging the Secretary of Defense to seek the expeditious return of the LCS 102 from Thailand. That amendment passed the Congress and became part of Public Law 104–201.

For three years not much has happened because the Thai Navy still needed the LCS 102, even though it is now more than 55 years old. Thai officials have indicated that they would be prepared to return the LCS 102 to the United States if we could provide a suitable ship to take its place. The U.S. Navy is planning to retire just such a ship this year, and that is what this amendment is about.

The ranks of those World War II sailors are thinning each year, and there is a need to move expeditiously. We need to bring this historic ship home before all of our World War II veterans are gone.

Let me list briefly some facts about LCS ships and their service to our country.

These ships were born out of desperate need. In the early years of World War II, our Navy and Marine Corps discovered that they needed more close-in gunfire support to protect our troops as they went ashore in amphibious landings. With typical American ingenuity, a new small gunboat was designed and quickly moved into production. The result was the LCS(L) which stood for Landing Craft Support Ship (Large).

This newly designed ship had more firepower per ton than a battleship, and it was capable of going all the way in to the beach and providing close-in fire support for our troops going ashore.

One hundred and thirty of these ships were built and rushed into service in 1944 and 1945. These ships and their brave crews helped save the lives of countless soldiers and Marines by providing heavy close-in firepower to support amphibious landings at Okinawa, Iwo Jima, and many other Pacific Islands. Twenty-six of these ships were sunk or badly damaged in the Pacific campaign.

These ships were nicknamed the “Mighty Midgets” because of their firepower and their service in World War II. These ships, like so many others, received little notice when the history books were written because Carriers, Battleships, and Cruisers took most of the glory. However, the sailors aboard LCSs served bravely and well, and their part of World War II needs to be preserved as a part of our Navy’s history.

LCS sailors received many decorations for their service during World War II. A young Lieutenant by the name of Richard McCool from Washington State received the Congressional Medal of Honor from President Truman for his service at Okinawa. A young Lieutenant by the name of John F. Lehman received a Bronze Star for his service at Okinawa, as well. His son, John, Jr. served as a naval officer many years later and became Secretary of the Navy under President Reagan.

Since the mid-1990s, several books have been published covering the history of the LCS ships. Former Secretary of the Navy John F. Lehman, Jr. wrote the foreword to one of those books. This foreword provides eloquent summary of the service to our Nation provided by LCSs and their brave sailors.

Finally, Mr. President, a distinguished former Senator whose service as Chairman of the Armed Services Committee in this body served ably as a Boatswain’s Mate on an LCS during World War II. John Tower served his nation in World War II on an LCS. This body showed his service and that of all the LCS sailors by helping to save the LCS 102—the only one left in the world.

I urge my colleagues to support this amendment and to do what they can to help in the task of bringing this ship home to the United States to serve as a museum and a memorial to the valiant service of thousands of LCS sailors.

Mr. WARNER. Mr. President, I want to propose a unanimous consent request, which is agreed upon on the other side, with regard to a procedural matter. As soon as that is concluded, then I want to state a UC request on behalf of my two colleagues, Mr. DOMENICI and Mr. KYL, on this side. I think we can work it out.

Mr. MURKOWSKI. Mr. President, I am also a sponsor of this legislation and would like to be recognized.

Mr. WARNER. With regard to the balance of the afternoon: I ask unanimous consent that all remaining first-degree amendments be offered by 2:30 p.m. today, and at 2:10 p.m., Senator LEVIN be recognized to offer and lay aside amendments for Members on his side of the aisle, and at 2:20 p.m., the chairman of the committee be recognized to offer and lay aside amendments for Members on his side of the aisle, and at 2:30 p.m., the chairman of the committee be recognized to offer and lay aside amendments for Members on his side of the aisle, and that those amendments be subject to relevant second-degree amendments. I further ask that all first-degree amendments must be relevant to the text of the bill.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. WARNER. Mr. President, in light of this agreement, all first-degree amendments must be relevant and offered by 2:30 p.m. today. It is the intention of the managers and leaders to complete action on this bill, hopefully, no later than 5 o’clock today.

We have had a number of Senators patiently waiting. The Senator from Florida is willing to accommodate the chairman in his request that a period of 30 minutes, under the control of the amendment, be allocated for an amendment which they will lay down within that period of time, and at the conclusion of the 30-minute period, that amendment will be laid aside for the purpose of an amendment to be laid down by the Senator from Florida, which amendment will require 30 minutes of debate, 15 minutes under the control of the Senator from Florida, 15 minutes under the control of the Senator from Alabama, Mr. SHELBY, and that 15 minutes will be shared between Mr. SHELBY and Mr. KERREY, the ranking member of the Intelligence Committee.

I propose that to the Chair.

Mr. WARNER. That being in order, we will now proceed with the 30 minutes.

The PRESIDING OFFICER. The distinguished Senator from New Mexico is recognized.

Mr. KYL addressed the Chair.

The PRESIDING OFFICER (Mr. VOINOVIČ). The distinguished Senator from Arizona is recognized.

Mr. KYL. Thank you.

Under the agreement just announced by Senator WARNER, it would be the intention of Senator DOMENICI and Senator MURKOWSKI and myself to divide the next half-hour into roughly 10 minute segments. I would appreciate an indication from the Chair when we have achieved those three milestones, if the Chair would, please.

AMENDMENT NO. 446

Mr. KYL. At this time I send an amendment to the bill, on behalf of myself, Senator DOMENICI, Senator MURKOWSKI, Senator SHELBY, Senator HUTCHINSON, and Senator HELMS.

Mr. REID. Would the Senator yield for a parliamentary inquiry?

Mr. KYL. I am happy to yield.

Mr. REID. I say to the manager of the bill, the chairman of the committee, there has been no unanimous consent agreement regarding the Domenici amendment.

The PRESIDING OFFICER. My understanding is that the Senator from Virginia proposed a UC to give the three Senators Senator KYL just designated 30 minutes in which to lay down an amendment, and at the end of the 30 minutes the amendment be laid aside. There is no restriction whatsoever on the remainder of the time with respect to further consideration of the amendment, I say to my distinguished colleague.

Mr. REID. I appreciate the Senator yielding.

Mr. KYL. Thank you.

The PRESIDING OFFICER. The clerk will report.
The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. KYL], for himself and Mr. MUNKOWSKI, Mr. SHELY, Mr. HUTCHINSON, and Mr. HELMS, proposes an amendment numbered 466.

Mr. KYL. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike Section 315 and insert the following:

"SEC. 315(a). ORGANIZATION OF DEPARTMENT OF ENERGY, COUNTERINTELLIGENCE, INTELLIGENCE, AND NUCLEAR SECURITY PROGRAMS AND FACILITIES." (1) OFFICE OF COUNTERINTELLIGENCE.—

Title II of the Department of Energy Organization Act (42 U.S.C. 7151 et seq.) is amended by adding a new section to read--

"OFFICE OF COUNTERINTELLIGENCE" "Sec. 213. (a) There is within the Department an Office of Counterintelligence.

"(b)(1) The head of the Office shall be the Director of the Office of Counterintelligence.

"(2) The Secretary shall, with the concurrence of the Director of the Federal Bureau of Investigation, designate the head of the office from among senior executive service employees of the Federal Bureau of Investigation who have expertise in matters relating to counterintelligence.

"(3) The Director of the Federal Bureau of Investigation may detail, on a reimbursable basis, any employee of the Bureau to the Department for service as Director of the Office. The service of any employee of the Bureau as Director of the Office shall not result in any loss of status, right, or privilege by the employee within the Bureau.

"(4) The Director of the Office of Counterintelligence shall report directly to the Secretary.

"(c)(1) The Director of the Office of Counterintelligence shall develop and ensure the implementation of security and counterintelligence programs and activities at Department facilities in order to reduce the threat of loss of classified and other sensitive information at such facilities.

"(2) The Director of the Office of Counterintelligence shall be responsible for the administration of the personnel assurance programs of the Department.

"(3) The Director of the Office of Counterintelligence shall inform the Secretary, the Director of Central Intelligence, and the Director of the Federal Bureau of Investigation on a regular basis, and upon specific request by any official or employee of the Department of Energy, whether there is an actual or potential significant threat to, or loss of, national security information.

"(4) The Director of the Office of Counterintelligence shall report immediately to the President of the United States, the Senate and the House of Representatives any actual or potential significant threat to, or loss of, national security information.

"(5) The Director of the Office of Counterintelligence shall not be required to obtain the approval of any officer or employee of the Department of Energy for the preparation or delivery to Congress of any report required by this section."

"(d)(1) Not later than March 1 each year, the Director of the Office of Counterintelligence shall submit to the Secretary, the Director of Central Intelligence, and the Director of the Office of Counterintelligence the results of the investigation and to the Committees on Armed Services of the Senate and House of Representatives, the Committee on Energy and Natural Resources of the Senate, and the Committee on Commerce of the House of Representatives, and the Select Committee on Intelligence of the Senate, and the Select Committee on Intelligence of the House of Representatives, a report on the status and effectiveness of the security and counterintelligence programs and activities at Department facilities during the preceding year.

"(2) Each report shall include for the year covered by the report the following:

"(A) A description of the status and effectiveness of the security and counterintelligence programs and activities at Department facilities.

"(B) The adequacy of the Department of Energy’s procedures and policies for protecting national security information, making such recommendations to Congress as may be appropriate.

"(C) Whether each Department of Energy national laboratory is in full compliance with all Departmental security requirements and if so, what recommendations are being taken to bring such laboratory into compliance.

"(D) A description of any violation of law or requirement relating to intelligence, counterintelligence, or security at such facilities, including—

"(i) the number of violations that were investigated;

"(ii) the number of violations that remain unresolved.

"(E) A description of the number of foreign visitors to Department facilities, including the locations of the visits of such visitors.

"(F) Each report submitted under this subsection shall be submitted in unclassified form, but may include a classified annex.

"(G) Every employee or officer of the Department of Energy, every officer or employee of a Department of Energy national laboratory, and every officer or employee of a Department of Energy contractor, who has reason to believe that there is an actual or potential significant threat to, or loss of, national security information shall immediately report such information to the Director of the Office of Counterintelligence.

"(H) Thirty days prior to the report required by subsection (d)(1), the Director of each Department of Energy national laboratory shall certify in writing to the Director of the Office of Counterintelligence whether that laboratory is in full compliance with all Departmental national security information protection requirements. If the laboratory is not in full compliance, the Director of the laboratory shall report on why it is not in compliance, what recommendations are being taken to bring it into compliance, and when it will be in compliance.

"(I) Within 180 days of the date of enactment of this Act, the Secretary shall report to the Senate and the House of Representatives on the adequacy of the Department of Energy’s procedures and policies for protecting national security information, including national security information at the Department’s laboratories, making such recommendations to Congress as may be appropriate.

"OFFICE OF INTELLIGENCE" "Sec. 214. (a) There is within the Department an Office of Intelligence.

"(b)(1) The head of the Office of Intelligence shall be the Director of the Office of Intelligence.

"(2) The Director of the Office of Intelligence shall be a senior executive service employee of the Department.

"(3) The Director of the Office of Intelligence shall report directly to the Secretary.

"(c) The Director of the Office of Intelligence shall be responsible for the programs and activities of the Department relating to analysis of intelligence with respect to nuclear weapons and materials, other nuclear matters, and energy security.

"NUCLEAR SECURITY ADMINISTRATION" "Sec. 215. (a) There shall be within the Department an agency to be known as the Nuclear Security Administration, to be headed by an Administrator, who shall report directly to, and shall be accountable directly to, the Secretary. The Administrator may not delegate to any Department official the duty to supervise the Administrator.

"(b)(1) The Assistant Secretary assigned the function under section 203(a)(5) shall serve as the Administrator.

"(2) The Administrator shall be responsible for the executive and administrative operation of the functions assigned to the Administration, including functions with respect to (A) the selection, appointment, and fixing of the compensation of such personnel as the Administrator considers necessary, (B) the supervision of personnel employed by or assigned to the Administration, (C) the distribution of business among personnel and among administrative units of the Administration, and (D) the procurement of services of experts and consultants in accordance with title 5, United States Code. The Secretary shall provide to the Administrator such support and facilities as the Administrator determines is needed to carry out the functions of the Administration.

"(c)(1) The personnel of the Administration, in carrying out any function assigned to the Administrator, shall be responsible to, and subject to the supervision and direction of, the Administrator, and shall not be responsible to, or subject to the supervision or direction of, any officer, employee, or agent of any other part of the Department of Energy.

"(2) For purposes of this subsection, the term ‘‘personnel of the Administration’’ means each officer or employee within the Department of Energy, and each officer or employee of any contractor of the Department, whose—

"(A) responsibilities include carrying out a function assigned to the Administrator; or

"(B) employment is a function performed for the Weapons Activities budget function of the Department.

"(d) The Secretary shall assign to the Administrator direct authority over, and responsibility for, the nuclear weapons production facilities and the national laboratories. The functions assigned to the Administrator with respect to the nuclear weapons production facilities and the national laboratories shall include, but not be limited to, authorization, oversight, and responsibility for the following:

"(1) Strategic management.

"(2) Policy development and guidance.

"(3) Budget formulation and guidance.

"(4) Resource requirements determination and allocation.
The essence of this amendment is to establish, in the Department of Energy, a new Office of Counterintelligence which would be headed by a senior executive from the FBI. I will turn to for that kind of consideration.

Mr. KYL. Mr. President, I express my gratitude to Senator GRAHAM for permitting us to take this next half hour to at least lay this down to begin setting the framework for the discussion. Mr. BINGAMAN. Would the Senator yield for a procedural question? Mr. KYL. Yes, I hope this will not come out of the 30 minutes.

Mr. BINGAMAN. I am not intending to take long. I just ask, since we have no time allotted during this time, will the sponsors be available later in the afternoon to answer questions about the amendment, because we have not seen the amendment.

Mr. BINGAMAN. The centerpiece of his ideas was the decision of the manager of the bill that the importance of this amendment was such that the sooner it was shared on both sides of the aisle the better, because this is an important amendment. We are making progress towards completing this bill by the hour of 5 o'clock. This is simply the one unknown quantity that we have to assess. This procedure, in my judgment, enables the Senate to get an assessment of the probability of the resolution of this amendment.

Mr. BINGAMAN. Thank you.

Mr. WARNER. If the Senator will yield for a moment, it was the decision that the sooner it was shared on both sides of the aisle the better, because this is an important amendment. We are making progress towards completing this bill by the hour of 5 o'clock. This is simply the one unknown quantity that we have to assess. This procedure, in my judgment, enables the Senate to get an assessment of the probability of the resolution of this amendment.

Mr. BINGAMAN. Mr. President, I thank the manager for that statement.
come back to that. But that office has been identified in the defense authorization bill. We simply flush out the provisions of that office in that bill and ensure that that officer will have total authority here to deal with issues of counterintelligence at our National Laboratories.

Then the second part of this amendment is to address the longstanding management problems of the Department of Energy, especially relating to the nuclear weapons complex and reorganizing the Department of Energy in such a way that there is a very clear line of authority over the nuclear weapons programs, with a person at the top of that, an administrator, who has the responsibility over all of these nuclear programs, and nothing else, within the Department. And, by the same token, nobody else in the Department, except those who are senior to him, including the Secretary of the Department of Energy, would have any authority over his programs.

In effect, what we are replacing in the Department of Energy is a situation in which all of the rules and regulations and management policies, and everything else that applies to everybody within the Department—including the weapons complex—have created a situation in which, literally, they have not been able to focus on the management of the nuclear weapons complexes, especially with regard to security.

So what this amendment does—in the intelligence community terminology—is to create a ‘stovepipe’ within the Department of Energy. At the top, of course, is the Secretary of Energy. Below him is a person with the rank of Assistant Secretary, called the “administrator,” who would, within that stovepipe, have the total authority to operate the Department of Energy weapons programs, including the security functions of those programs.

He would be doing this, of course, in coordination with the office that would be created by the language put in the bill by the Armed Services Committee relating to counterintelligence, with the FBI presence here, and the two of them would coordinate the national security portions of this program.

I think it is, really, the people within the Department of Energy responsible for all kinds of other things. Somebody talked about refrigerator standards and powerplant issues and all of the rest of it. Those people would not have anything to do with this. This group would not have anything to do with them. This would be a discrete function within the Department that would have nothing to do except manage our nuclear weapons programs, including, first and foremost, the security of those programs.

We will have much more to say about the details of this after a bit. Certainly Senator DOMENICI can go into many of the reasons he has helped to craft this in the way that organizationally it will work.

Let me just make two concluding points.

First of all, I do not think we can emphasize enough the need to do something about security at the Laboratories now. One concern that has been raised about the amendment we have offered here is that it is premature, that we should hold hearings, and we should take a long time so we can “do this right.”

We have since 1995. And this administration has not done it right. It is time for the Senate to get involved in this issue and begin the debate by putting this amendment out there. We will have plenty of time to deal with this before this bill ever goes to the President, I am sure by this time, we can “do this right.”

This is our approach to the best management for this weapons program. We believe that to delay anymore is to engage in the same obfuscation and delay and, frankly, dereliction of duty that has characterized this administration’s approach to national security at our Nation’s Laboratories, our nuclear weapons programs. We can’t delay any longer.

If I were to go home over this Memorial Day recess, the first thing my constituents would talk to me about is, what about this Chinese espionage? What about security at the Laboratories? If I say to them, well, we were in such a hurry to get this Department of Defense authorization bill done that we didn’t really do anything about security at our Nation’s Laboratories, we are going to take our time and do that later. I think I would be pilloried, and so would all the rest of my colleagues, our constituents, I would act with alacrity. I don’t see how we can complain about the Department of Energy and about the administration taking their sweet time to deal with this problem if we don’t address it up front and right now.

The second point I make in closing is, with regard to a previous draft of this legislation, the Secretary of Energy is indicating that he doesn’t approve of everything in here and might even recommend a veto of the legislation. I have done my best hearing the debate and conferring with us and reading the actual language of the amendment, he will be willing to cooperate with us rather than threaten vetoes. We need to work together on this.

I commend Secretary Richardson because from the time he has come in, he has tried to do the job of making reforms at the Department of Energy. But it will not do to say that he is the only one who has any ideas that could work here and for the Congress to but out, thank you.

The Congress has held numerous hearings, both in the House and the Senate. We have a lot of good ideas. Frankly, this management proposal, which has gone through a great deal of thought and work about how to provide security at our National Laboratories, is going to be part of that reorganization. I know my colleagues and I look forward to working with the Secretary of Energy to make this work.

As I conclude, might I ask how much time we have remaining?

The PRESIDING OFFICER. Twenty-one minutes remaining.

Mr. KYL. Within 1 minute, I will close. I will come back with more discussion of the rationale for the specific changes we have made in here.

I close by saying this: The only way we are going to be able to provide security for the nuclear programs at our National Laboratories in the future is to make sure that this Office, full responsibility over those programs in the Department of Energy, responsible for nothing else, and nobody else in the Department responsible for those programs. This person should be able to report directly to the Secretary of Energy and to the President of the United States, which is what our amendment calls for. Finally, he should be able to work very closely with the Office of Counterintelligence established in the other part of this bill.

That is the essence of what this does. It detracts nothing from what Secretary Richardson is trying to do. As a matter of fact, it fits very nicely with what the Secretary is trying to do. I believe that, working together, we can provide security at our Nation’s Laboratories and, therefore, security for the people of the United States.

I thank the Chair, and I yield to Senator DOMENICI from New Mexico.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. I wonder if the Chair will advise me when I have used 10 minutes so there will be 10 minutes remaining for Senator MURkowski.

The PRESIDING OFFICER. The Chair will be more than happy to do that.

Mr. DOMENICI. Mr. President, I note the presence on the floor of my distinguished colleague from New Mexico, Senator RINGELMAN. He can rest assured that we intend to answer any questions he might have, debate any amendments he might have, and do this in a way that all of us can feel is right.

Nobody was more saddened than this Senator when the Cox report was issued and when many of the facts broke in the New York Times and other newspapers about a Chinese espionage effort.

I have been working with those Labs for a long time. I believe we are very fortunate as a people to have these National Laboratories in our midst. Looking at the science they practice, the technology they develop, and the way
they have protected and preserved our nuclear options during a long cold war, with a formidable opponent in America and another formidable threat of making nuclear weapons but is nonetheless formidable both in capacity and number, we are very fortunate that up until this time in history, with a few times when it wasn’t true, almost without limit the very best scientists in America and those from other countries have been working at one of these three great Labs and at the defense portion of the Lab in Tennessee at Oak Ridge. Great scientists, great Nobel laureates serving America well.

The problem now is, it has become obvious that for a long time, with the biggest emphasis here in the last 3 or 4 years, the Chinese, the People's Republic of China, and their spies and cohorts have engaged in a solid effort on many fronts to extract as many secrets as they could from these Laboratories. We now know there is a high probability that they have succeeded and that our children in the future will have a much more formidable Communist Chinese leadership confronting the world with a much more formidable set of rockets, delivery systems, and nuclear weapons.

All of their sabotage did not occur, all of their efforts to spy did not occur, at just the Laboratories. They have had a concerted effort across our land. But there is an adage that says, if it ain’t broke, don’t fix it. The counter one to that is, if it is broke, fix it. Frankly, before the day is out, as I at-tempt to answer questions about this approach, I will read to the Senate reams of reports, many of which have occurred in the last 4 or 5 years, telling us that we must change the way we manage the nuclear defense part of the Department of Energy. Now we have a reason to do it and a reason to get on with that business.

Frankly, I have struggled mightily to try to figure out what is the best approach under these circumstances. I am firmly convinced that with the assault on the Laboratories and our scientists that is coming from the Congress and coming from across this land, we had better take a giant step right now to move in the right direction and to assure people and assure the Laboratories that we are not going to do anything to hurt their science base and their professionalism and their capacity to stay on the cutting edge for us and our children and our future.

The Laboratories, under this proposal, will retain their multiple-use approach. They can do work beyond and outside of what they do for the nuclear deterrent part of this bill.

I am very disturbed when I hear that the President of the United States is against this. It is a way of changing the focus of what they are known, by this Assistant Secretary who is totally in charge of this new administration within the Department of Energy. They will have their rules and regulations, and they will conduct the affairs singularly and purposefully to make sure our nuclear deterrent is handled correctly and that the security apparatus is done efficiently and appropriately.

Once again, I say to the Senators on the other side of the aisle, including my friend Senator BINGAMAN, and the Secretary of Energy, who, obviously, is working hard to defeat this amendment, we ought not to defeat this amendment. If you have some constructive changes, let’s get them before us. We ought to send to that conference at least something that is much more formidable and apt to do the job than we have done in this bill, because we are apt to find some very serious suggestions coming from the House.

If this bill goes there with no serious changes in the Department of Energy, they are apt to be changed by the House. We ought to have our input, and I am very proud that every chairman of every committee on our side of the aisle who will have anything to do with this in the future do it. If they adopted this amendment—the Intelligence Committee chairman, the Energy and Natural Resources chairman, Government Operations, and I am the Senator who appropriates the money. We are all on board asking that we take a step in the direction of real reform and that we can go home saying this defense bill, when it finally comes out, may indeed start us down a path that not only the Chinese, but nobody will be able to breach the security the way they have in the past.

Now, from my standpoint, there is not going to be a perfect structure ever designed for the nuclear deterrent work, nuclear weapons work, of the Department of Energy. It is complicated, it is complex. That Department is complicated and complex, but there is nothing within that Department more important than this. I have been listening, as people have ideas about what ought to happen, and I am worried about some of those ideas. I am not worried about this idea.

I am not worried about this idea; this idea will work. What I am worried about are ideas that are talking about putting these Laboratories in the Department of Defense, which started from Harry Truman on down that it was something we thought we should not do as a Nation. I am worried when this bill goes to conference and, in the heat of all this, we will do something we know not to do. If they adopted this amendment, I would feel very comfortable, as a Senator, with these Laboratories. I have probably worked longer and harder on these issues than any Senator around, and I would be much more comfortable that we are starting down a path to make it work and yet keep alive that enormous prestige and scientific prowess that has served us so well.

Before the afternoon is finished, we will have more remarks. I yield the remainder of my time to the chairman of the Energy and Natural Resources Committee and thank him for his efforts in this regard.
The PRESIDING OFFICER. The Senator from Alaska is recognized.

Mr. K conflated the President from New Mexico. I rise to join with Senators Kyl, Domenici, and Shelby to offer an amendment which I feel confident creates accountability in the Department of Energy for protecting our country's national security information.

Mr. President, it is clear that the Cox committee report and the Senate's investigation of Chinese espionage at the Labs highlighted, in a sense, a dysfunctional Department of Energy. Even though the Department of Energy's chief of intelligence, Nota Trulock, was ringing alarm bells starting back in 1995, it simply seems that nobody was listening. Today, we find that nobody is accountable.

We know the structure of the system simply didn't work. For Mr. Trulock to get approval to brief senior officials, he had to go through more junior officials. He could not brief the Congress without approval. He didn't have access to the executive branch. What the amendment that is pending creates is real accountability—accountability at DOE, accountability for the President, and accountability for the Congress. It puts into law an Office of Counterintelligence and mandates that the director report to the Secretary, the President, and the Congress, any actual or potential threat to or loss of national security information.

We have seen a situation where the individual responsible simply didn't have the capability to get the message through the process—to any of the four Secretaries of Energy whom we could identify for the record.

Further, this would require a report once a year to the Congress regarding the adequacy of the Department of Energy's procedures and policies for protecting national security information, and whether each Department of Energy Lab is in full compliance with all Department of Energy security requirements. The National Labs clearly had different security arrangements previously.

The amendment also would prohibit any officer or employee of the Department of Energy or any other Federal agency from interfering with the director's reporting. No interference, Mr. President.

Secretary Richardson has introduced several initiatives aimed at correcting the security problems at the Labs. I commend him for his efforts. I welcome the Secretary's initiative, energy, and enthusiasm, but without a legislative overhaul, I doubt his ability to change the mindset at the Department of Energy which has plagued every other reform initiative.

It is kind of interesting to go back and look at the attempted reforms. Victor Rezendes, a director of the GAO, who has closely followed security initiatives at the Labs, made the following observation:

"DOE has acknowledged that it needs to take corrective action, but the implementation has not been successful.

A former head of security at Rocky Flats weapons plant, David Ridenour, was more blunt. He was quoted in USA Today on March 19: It's all the same people and I think they'll continue to fall back into old ways. If there's a problem, classify it, hide it and get rid of the people who brought it up."

Recall the so-called Curtis plan, which was put forth by Deputy Secretary Curtis. A good plan, but after Mr. Curtis left the Department, it was either disregarded or forgotten. It was so quickly forgotten, as a matter of fact, that Mr. Curtis' successor as Deputy Secretary designed it on informed of its existence. There is no excuse for that.

The New York Times reported that a November 1998 counterintelligence report contained some shocking warnings, including that foreign spies "rightly view the Department of Energy as an inviting, diverse and soft target that is easy to access and that employees are willing to share information."

So change is necessary. I think creating this new line of responsibility will help change the mindset at the Department of Energy. The amendment puts the DOE on the road to accountability by creating under the law an Office of Counterintelligence, an Office of Intelligence, and a Nuclear Security Administration.

More legislation, obviously, is going to be needed. We simply don't have all of the answers now. But the Cox report fills in some of the shocking details. After months of investigation, they have revealed frightening information about the true ineptness of the espionage investigation.

I understand that the Secretary of Energy opposes this amendment. I am sorry to hear that. I gather he sent a letter up here indicating that he will recommend that the President veto the bill because Congress is taking action to fix the problem. But what does he want Congress to do? Wait to take action until U.S.-designed nuclear weapons are launched at U.S. cities?

The problem is precisely that serious. After what we have learned about security failures at the Department of Energy, I dare—I dare—the President to veto this legislation.

It is time for action, and that is what we are talking about with this amendment.

If one looks at where we are today, I am struck by three revelations. First, we have in the Cox report stunning information about a compromise of our national security that was self-inflicted. We can blame the Chinese for spying. But this happened as a consequence of our own failure to maintain adequate security in the Laboratories. Security of the most important Laboratories has been marginal at best.

We find that U.S. companies—Loral and Hughes—allowed their commercial interests to override our national security interests. We gave the Chinese a roadmap on how to shoot their missiles straight and how to arm those missiles with nuclear weapons. Aimed at whom? Well, that is another concern.

Second, how much of this happened on President Clinton's watch?

Third, the balance of power in the Asia-Pacific region could be affected by the information they have obtained.

Based on these findings, I believe now is the time for Congress to demand accountability from those who allowed this to happen. We should not allow the administration to simply promise change with reforms that in previous efforts have been tried but have failed.

One would not respond to, say, a burglar by saying that the robber is irrelevant. Our Nation has been robbed. Years of research and hundreds of billions of taxpayer dollars are lost to the Chinese. Who is responsible?

What should be done is that the Attorney General should testify in public as to why the FISA warrant was inadequate. Director Freeh should also explain the so-called "misinformation" on Wen Ho Lee's signed waiver of consent to access his computer.

Sandy Berger should testify. He might require a subpoena. So be it. The public is entitled to his testimony. Mr. Berger was briefed in April of 1996 and July of 1997. Berger should be forced to testify as to what precisely he told the President and when.

Congress should also subpoena the written summary of the Cox report to President Clinton, which the President received in January of 1999.

Let us judge whether the President was being forthcoming in his March 1999 statement when he said:

"To the best of my knowledge, no one has said anything to me about any espionage that occurred by the Chinese against the laboratories during my presidency."

What did the Vice President know? When did he know it?

The Vice President told the American people on March 10:

"Please keep in mind that the [alleged espionage] happened during the previous administration."

Now the Vice President is rather silent. What was he told by his National Security Adviser, Leon Panetta, who was briefed in 1995 and 1996?

I have held six Energy Committee hearings. At another time I want to detail what I have learned from those
RULES OF USE

X-DIVISION OPEN LOCAL AREA NETWORK

WARNING: To protect the LAN systems from unauthorized use and to ensure that the systems are functioning properly, activities on these systems are monitored and recorded and subject to audit. Use of these systems is expressly conditioned upon such monitoring and recording. Any unauthorized access or use of this LAN is prohibited and could be subject to criminal and civil penalties.

Passwords. User passwords are assigned by the X-Division Computing Services (XCS) Team. Exceptions may only be granted by the CSSO. Users may not use their unclassified ICN Passwords.

User Responsibilities. Users are responsible for:

Ensuring that information, especially sensitive information, is properly protected.

Restricting access to their workstation or terminal whenever it is unattended.

Properly requesting a computer, protecting, accounting for, and disposing of their computer output containing sensitive unclassified information.

Properly labeling and logging of all recording media, including local storage devices.

Properly registering all computer systems they own or use on the LAN, and that I may receive a security infraction for a violation of these rules.

Signed: Wen Ho Lee.
Date: April 19, 1995.

Mr. MURKOWSKI. I thank my friend, the floor manager, for the time. I wish the President a good day.

Mr. WARNER. Mr. President, we have negotiated the amendment of the Senator from Florida. I ask unanimous consent to speak for 2 minutes on this amendment prior to going to the amendment of the Senator from Florida.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Mr. President, I strongly support this amendment. I view it as an augmentation of what we have in the defense bill. I understand my colleague from New Mexico addressed the defense bill. I ask the question of my colleague from Alaska. The position recited by the three Senators who are sponsors of this amendment of the Senator from Florida incorporated a portion of that in his bill. So there is some redundancy. But I look upon the two as joining forces and, indeed, putting forth what is essential at this point in time.

Does the Senator share that view?

Mr. MURKOWSKI. I share that view with the senior Senator from Virginia. It is my understanding that the leader is still prepared to go ahead with his amendment known as the Lott amendment.

Mr. WARNER. Mr. President, I wish to advise my colleague that the amendment has been agreed to and is in the bill now.

Mr. MURKOWSKI. Good.

Mr. WARNER. There are really three components: One, the Armed Services’ position; Leader Lott’s position; and the position recited by the three Senators who are sponsors of this amendment. But it all comes together as a very strong package. I hope it will be accepted on the other side.

I yield the floor.

Mr. President, I hope that Senators SHELLY and ROBERT KERREY are aware that this amendment is now up, and they have 15 minutes under their joint control reserved.

The PRESIDING OFFICER. The Senator from Florida.

Mr. GRAHAM. Thank you, Mr. President.

AMENDMENT NO. 447

(Purpose: To establish a commission on the counterintelligence capabilities of the United States)

Mr. GRAHAM. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative assistant read as follows:
May 27, 1999  

The Senator from Florida (Mr. GRAHAM) proposes an amendment numbered 477.

Mr. GRAHAM. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today’s RECORD under “Amendments Submitted.”)

PRIVILEGE OF THE FLOOR

Mr. GRAHAM. Mr. President, I also ask unanimous consent that Sandi Dittig of our staff be allowed on the floor for the duration of the debate on the Department of Defense authorization bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRAHAM. Mr. President, thank you.

Mr. President, I have presented the Senate with an amendment to the Defense Department authorization bill. The amendment would establish a national commission to conduct an in-depth assessment of our Government’s counterintelligence programs.

The discussion we just had for the past 30 minutes I think underscores the necessity of the amendment I am offering. I am afraid we are about to be put into a position in which there is a rush to action. It is almost analogous to the metaphor of firing before you aim.

We have in the defense bill, as an example, a very comprehensive commission on safeguarding security and counterintelligence at the Department of Energy facilities. That begins on page 540 of the committee bill. Among other things, it states that the commission will determine the adequacy of those activities to ensure the security of sensitive information, processes, and activities within the jurisdiction of the Department against threats of the disclosure of such information, processes, and activities.

In the same bill where we are establishing a commission to review those issues of process, we are now about to adopt an amendment which countermands this commission by making a decision based on 30 minutes of floor debate for answers to provide greater security at the Department of Energy.

I suggest these proposals have not received the thought and consideration which their importance to the Nation deserves. I also am concerned that there is a highly partisan atmosphere being developed.

In today’s Roll Call magazine there is an article which quotes one congressional staffer as saying, “We’re going to milk this [the Chinese espionage issue] for all it’s worth.”

Mr. President, I ask unanimous consent to have printed in the RECORD immediately after my remarks a copy of that article.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

Mr. GRAHAM. Mr. President, as members of the Congress, we need to accept our responsibility and accept the importance of counterintelligence to our national security. The country cannot afford a partisan debate. We cannot afford a piecemeal solution to what is a complex set of issues. Yet with the amendments that are being offered in both Houses, that is exactly what we are getting.

My amendment represents an attempt to transform a potentially destructive partisan debate into a non-partisan, objective, dispassionate, and comprehensive review of current counterintelligence policies—not just at the Department of Energy, but across the government—a review that is long overdue.

Such a review would address a number of issues: What is the nature of the counterintelligence threat? The nature of the threat goes far beyond China and it goes far beyond our Department of Energy National Laboratories. For example, there are 24 countries on the Defense Department’s list of hostile countries. Those countries include those that we would expect to be on such a list—China, Cuba, Iran, Iraq—but the list also includes India, Israel, and Taiwan—countries, I suspect, many Americans would be surprised to find on that list.

Another example of the threat relates to the missile programs in India, Pakistan, and North Korea. To what extent have their programs benefited from American technology and knowledge gleaned from our Labs or other high-tech institutions? What leads us to believe that our only vulnerability is from China?

The threat goes beyond the traditional security parameters of gates, and guards at the Department of Energy. We must include an in-depth look across the government and at the new areas of security vulnerability.

I have a report from the General Accounting Office issued to the Congress on May 20, 1999. That was an analysis of the vulnerability of the NASA, the National Aeronautics and Space Administration, about the vulnerability of its system to security penetration. I will read a paragraph titled “Results in Brief.”

We successfully penetrated several mission-critical systems, including one responsible for calculating detailed positioning data for spacecraft, and another that processes and distributes the scientific data received from these spacecraft. Having obtained access to these systems, we could have disrupted NASA’s ongoing command and control operations and stolen, modified, or destroyed systems software and data.

That is just another example of our national vulnerability.

Who should oversee this threat? I believe that the commission that should be established by this amendment would appropriately represent the interest of the American people through the administration and the legislative branch. It would necessarily include persons with strategic vision and specific counterintelligence experience. I have used as the model for the establishment of this commission, a commission which was established by the Congress in 1994 under the leadership of Senator WARNER, a commission which became known as the Aspin-Brown Commission, to look at our intelligence community.

Like that commission, this would have 17 members. The President would appoint 9, the leadership of the Senate and the House—majority and minority—and would appoint a total of 8 commissioners.

The commission would be charged with assessing the current counterintelligence threat and the adequacy of resources being applied to that threat. Commissioners would also examine current personnel levels and training oversight—both executive and legislative—coordination among government agencies, the laws now on the books and their adequacy, the adequacy of current investigative techniques and, last but not least, attempt to determine whether vigorous counterintelligence capability can coexist with important work carried out by our National Laboratories and other important technological institutions.

It is important that we not lose the counterintelligence problems and possible solutions in some perspective. There is no doubt that counterintelligence deficiencies of the Department of Energy are longstanding. They have been excruciatingly well documented over a long period of time. We should have addressed these issues years ago. But as serious as our counterintelligence weaknesses are at the Department of Energy and at our National Laboratories, effective focus on counterintelligence issues must take into account many other agencies of the government. It must do this if we are to construct a comprehensive and effective counterintelligence response.

Those agencies, of course, include those belonging to the intelligence community, but also must include agencies such as NASA, whose vulnerability I have just outlined, and the Department of Commerce, which has had the responsibility for reviewing highly technical decisions on whether it is appropriate to license for export particular dual-use machinery that might serve a military purpose.

These reviews of agencies like NASA and the Department of Commerce have not been viewed in the past as warranting the degree of counterintelligence focus which I believe they deserve. For those who argue that we can’t wait for the commission, that we must act today, I point out that the immediate counterintelligence issues facing our Department of Energy National Labs are being addressed.
According to Ed Curran, a highly respected 37-year FBI veteran who now heads the Division of Energy's Counterintelligence Office, 75 to 80 percent of the Tier One recommendations resulting from a 1998 FBI evaluation of Lab counterintelligence are now in place. The remainder will be in place within 7 months. These are important steps that will go a long way in the short term to protect the work going on at the Labs.

In the heat of the moment, numerous recommendations are being put forward to improve counterintelligence at the Department of Energy. Some of them may be useful. Others, such as placing counterintelligence at the Labs under the FBI's control, may not be. All recommendations deserve careful, objective, and dispassionate attention. I believe a commission of the type that All recommendations are being put forward to improve counterintelligence at the Labs.

I believe a commission of the type that All recommendations are being put forward to improve counterintelligence at the Labs.

I suggest that we draw a collective breath, that we step back, that we take an serious indepth look at this very complex issue, and that we reach a consensus as Americans on the best way to proceed. I am convinced if we force solutions and force them beyond our current analysis and rush our deliberations, that we are likely to end up asking the wrong questions and coming up with the wrong answer. America will be blessed by this pattern of action and the Congress will be the culprit.

I suggest that we draw a collective breath, that we step back, that we take a serious indepth look at this very complex issue, and that we reach a consensus as Americans on the best way to proceed. I am convinced if we force solutions and force them beyond our current analysis and rush our deliberations, that we are likely to end up asking the wrong questions and coming up with the wrong answer. America will be blessed by this pattern of action and the Congress will be the culprit.

EXHIBIT 1
[From Roll Call, May 27, 1999]
Cox Report Sparks Wave of GOP Initiatives
(By John Bresnahan)

This week's release of the report on Chinese espionage by the House committee chaired by Rep. Christopher Cox (R-Calif.) has triggered a wave of legislative initiatives.

Senate Republicans are mounting a serious administrative officials, including Attorney General Janet Reno, for their perceived failure to address some of the most serious allegations dealing with the scandal, including the Justice Department's refusal to go along with an FBI wiretap of a scientist suspected of transferring sensitive nuclear data to the Chinese government.

Reno is scheduled to appear today before the Senate Select Committee in closed session to talk about her role in the denial of the wiretap request.

Wen Ho Lee, a Taiwanese-born scientist, was fired recently from his job at the Los Alamos National Laboratory in New Mexico due to his alleged involvement with Chinese intelligence officials.

Lee first came under scrutiny in 1996 after U.S. intelligence officials learned the Chinese government may have acquired data on an advanced U.S. nuclear weapons systems. The FBI and the Justice Department declined to seek a warrant to conduct electronic surveillance on him, with officials arguing that they did not have sufficient evidence to support the request.

Senate Majority Leader Trent Lott (R-Miss.) now believes Reno personally denied the FBI request for electronic surveillance on Lee, a reversal of his earlier position that he did not think she was directly involved in the controversy.

"It looks to me like the line goes directly to her," said Lott. "I don't know if it's in my mind these two [search] requests were turned down."

Lott, though, backed away from any suggestion that Reno should step down from her post.

"I have not called for [her] resignation," noted the Majority Leader.

Sen. Richard Shelby (R-Ala.), the chairman of the Select Committee on Intelligence, has already called on Reno to resign.

Reno was also facing tough questions from Sen. Robert Torricelli (D-N.J.), who has been highly critical of Reno's behavior, during her Thursday appearance.

"I believe President Clinton needs to make an assessment whether Janet Reno is properly administering the department and whether she has any culpability for this failure to find probable cause," Torricelli said this week.

National Security Adviser Sandy Berger has also come under fire from GOP congressional leaders over the scandal.

Senate Republicans plan a broad legislative offensive on China, possibly including new restrictions on the ability of the Chinese officials to travel within the United States during visits here, although they are promising to move slowly on the issue. Republicans are using the recommendations included in an earlier Intelligence Committee report, as well as the Cox report, as the basis for the legislation, said GOP staffs.

But Lott is still hedging on whether to set up a special investigative committee to look into Chinese espionage, despite calls from some Senate Republicans to do just that.

Sen. Bob Smith (R-N.H.) introduced a bill this week calling for a special committee, while Sens. Tim Hutchinson (R-Ark.) and Arlen Specter (R-Pa.) support the idea, according to GOP sources.

The GOP staffers say senior Republicans, including several committee chairmen, are opposed to the idea that Clinton and the Democrats may use the panel as an opportunity to attack Republicans for conducting a witch hunt for Chinese spies.

"This is a good idea to have a special Senate committee. It's going back and forth. It's still percolating."

Lott has inaugrated weekly meetings of his China task force, which includes Shelby, Armed Services Chairman John Warner (R-Va.), Foreign Relations Chairman Jesse Helms (R-N.C.), Governmental Affairs Chairman Fred Thompson (R-Tenn.), Energy and Natural Resources Chairman Frank Murkowski (R-Alaska), as well as GOP Sens. Specter, Thad Cochran (R-Miss.), Pete Domenici (N.M.), Jon Kyl (Ariz.), Tim Hutchinson (Ark.) and Craig Thomas (Wyo.).

That group is giving Lott weekly updates on China, although the Mississippi Republican also wants to get the most political mileage he can out of the Cox report.

"We're going to milk this for all its worth," said Specter. "But we're not telling "What we do next is still being considered."

Senate Minority Leader Tom Daschle (D-S.D.) has been echoing the White House line that past administrations, including those of former Presidents Ronald Reagan and George Bush, were guilty of lax oversight of Chinese intelligence activities within the United States.

Daschle cited an 1988 internal Energy Department study that found "a significant amount of important technology may have been transferred to China, and possibly "through visits" that took place in the early 1980s."

Mr. WARNER. Mr. President, I ask that amendments sent prior to the passage of the bill—that the chairman and ranking minority member be recognized to offer a managers' package of amendments, notwithstanding the previous consent agreement with respect to the 2:30 p.m. deadline today.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. KERREY. Mr. President, I rise unfortunately to speak in opposition to the amendment offered by the Senator from Florida, Senator Graham. Let me say, first of all, I think the intent of this bipartisan commission is right on target; that is, that we take care not to rush to judgment, and in our rush to judgment.

Mr. WARNER. Mr. President, could I ask the Senator to yield for one administrative announcement? I ask all Senators and their staff to pay attention to a hotline call, which will come very shortly, to clarify the earlier unanimous consent agreement regarding filing of first-degree amendments. That includes the need for the offices to re-submit certain amendments that may have otherwise been informally sent over to the floor staff. So a complete список is needed indicated on the hotline. I thank the Senator.

Mr. KERREY. Mr. President, the Senator from Florida has identified a very serious potential problem, which is that we have now, in the aftermath of the report that was produced and made public by Congressman Cox and Congressman Dicks, a great deal of interest in doing something, to take some action to look like we are solving this problem.

What I understand the Senator from Florida to be saying is we should take a collective deep breath, and I quite agree with him. Because I think not only is it possible, it is likely, if we are not careful, we will, in our actions, do things that will make the country less safe, not more safe and secure.

Perhaps the most important thing to be saying about the Cox and the Dicks report is that there is a lot less there than meets the eye. By that, I don't mean to say I am critical of the report, although there are three or four conclusions they reach with which I do not agree, that I do not think are supported by the classified report they have filed. I see in the Cox-Dicks report—and in fact in their own evaluation they say: This was not a comprehensive study; there were a lot of things we were not able to check out.

I believe that is essentially what the Senator from Florida said. There is still a lot that neither the Cox-Dicks committee, the Temporary Special Committee, nor the House and the Senate Select Committees on Intelligence,
Mr. GRAHAM. Will the Senator from Nebraska yield for a question?
Mr. KERREY. It depends on the question.

Mr. GRAHAM. One of the principal purposes of this commission starts with a recognition that our counterintelligence problems, or vulnerabilities, are not limited to Chinese penetration and are not limited to Department of Energy Laboratories. In fact, I have quoted from a study by the General Accounting Office that is less than 10 days old about a major potential penetration in NASA of its computer systems.

The question: “Would the Senator agree that whatever form Congress took to look at this issue, in addition to being rational, prudent, thoughtful, that it should also be comprehensive, in terms that we talk about it? Government and the potential sources of efforts to penetrate these agencies?”

Mr. KERREY. I answer emphatically yes. It needs to be Governmentwide. Indeed, I would say to the Senator, as he no doubt knows, there is also vulnerability with contractors, current and former employees. There is a significant amount of vulnerability.

Let me point out in the case of the transfer of these designs that have been reported to the public, we are not 100 percent certain that they were transferred out of Los Alamos. That is the problem. This design was held by many other people other than Los Alamos. So that is one of the problems here. When you take this particular situation, if you are 100 percent certain it is Los Alamos, tighten up security at the Lab. If you are not 100 percent certain and we tighten up security in the Lab, we may be tightening up security in a place that is not the problem.

So I think there is reason to believe the changes that have been suggested thus far will not damage us. But I think what the Senator is saying is exactly right. It needs to be Governmentwide. It needs to look at the contractors.

Another thing I think needs to be considered, there was an op-ed piece written by Edward Teller, published in the New York Times. Mr. Teller can best be described as somebody whose lifetime, I think, it is the task of making certain the United States of America has a robust nuclear deterrent and that nuclear deterrent was adequate to protect the people of the United States of America and our interests.

Mr. Teller says, and I agree with him, by the way, by the time you put all other security measures in place, the most important deterrent against losing our technological superiority is not defensive measures but making certain we allocate enough for research and development and we keep the pointy edge of our technological spear sharp. So long as we continue in research and development, not just in design but construction and deployment, Mr. Teller is saying you decrease the possibility that they will succeed or some other transfers—in some cases transfers you do not even think about—will do damage to the security of the United States of America.

Mr. GRAHAM. Mr. President, will the Senator from Nebraska yield for another question?
Mr. KERREY. Yes.

Mr. GRAHAM. The Senator’s last point about trade-offs highlights the fact that we risk making our nation less secure if we are not careful with our solutions. We could potentially be lured into doing what Hitler did in the 1930s and 1940s; that is, prevent intelligent and capable people from participating in our nation’s government and our laboratories. So we do not want, as some have suggested, ethnic standards determining who will have an opportunity to access our laboratories. In my judgement, security should be based on the individual who is involved, not on that individual’s membership in a larger ethnic group. The danger of denying our nation a pool of talent due to ethnic stereotyping illustrates the complexity of this issue.

Would the Senator agree also that in order to sort through all of those complexities?

The PRESIDING OFFICER. The 7½ minutes of the Senator is up.

Mr. GRAHAM. Since I don’t think Senator SHELBY has arrived——
Mr. KERREY. He is here.

Mr. GRAHAM. I ask unanimous consent to complete my question and give Senator KERREY 2 minutes to respond.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. GRAHAM. Does the Senator agree that in order to sort through those complexities, we would need a group of Americans who can look at this both from a strategic perspective as well as from the technical competencies of what is required to do appropriate counterintelligence protective processes and methods?

Mr. KERREY. Yes, I do. I have to answer the first part of the Senator’s question. Do I not think we are in any danger of following Adolf Hitler’s example, but I do think we need to be careful that in an effort to restrict who gets to know things we do not create an additional security problem.

We have had many examples, as we try to figure out what goes wrong with a national security decision, especially intelligence, where we discover that the problem was Jim knew it; Mary didn’t know it. Neither one of them had a right or need to know what each other was doing. As a consequence of them simply walking from one cubicle to the other talking, a mistake is made.
We have to be very careful in exercising our judgment in what ought to be done in tightening things that we do not actually create additional security problems.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SHELBY. Mr. President, how much time do I have left?

The PRESIDING OFFICER. The Senator has 7 1/2 minutes.

Mr. SHELBY. Mr. President, I oppose the Graham amendment as the chairman of the Senate Intelligence Committee. We should, as an institution, oppose all efforts to devolve the authority and the responsibility of any congressional committee to an outside group, such as this commission, when there is no compelling reason to do so, and there is certainly no compelling reason to do so in this instance at this time.

As my colleagues probably know, the Intelligence Committee is already aware of the state of our counterintelligence capabilities. I have worked with the vice chairman, Senator KERRY, and other Members on both sides of the aisle, in dealing with our counterintelligence capabilities because we are engaged in the committee now in an ongoing legislative oversight of the intelligence community’s approach to counterintelligence activities and espionage investigations. That is an ongoing, very much alive investigation.

We have a tremendous staff, I believe—and I believe the Senate from Nebraska, the vice chairman, joins me in saying this—a very able staff on the Senate Intelligence Committee that is deeply involved in a bipartisan way in this investigation.

The committee has recommended, and will continue to recommend as our investigation unfolds, substantive changes in this area. We are working with the majority leader, with the minority leader, and their staffs in this regard.

I believe the Intelligence Committee is completely capable—and I believe the vice chairman has already indicated this—of addressing this relatively small but very, very critical area within the National Foreign Intelligence Program.

Most important, though, this legislation presumes the failure of congressional oversight, and that did not happen. It did not happen in this instance, and the Senator from Nebraska, who has just come back on the floor, was very involved as the vice chairman of this committee in pushing for more money for counterintelligence. That goes without saying.

The failure of congressional oversight, as far as the Intel Committee is concerned, did not happen. For nearly 10 years, the Intelligence Committee has repeatedly directed the intelligence community to improve its counterintelligence capabilities communitywide and specifically at the Department of Energy where our most precious and our most important Labs are located.

I believe this is really a case of the executive branch failing to heed congressional warnings, and I think we will see more and more of this as the investigation unfolds.

Finally, counterintelligence has been a specific priority of the Intelligence Committee in the Senate and will continue to be a high priority, as it should, as long as I am chairman and as long as I am involved.

This amendment ignores the past and ongoing work of the Intelligence Committee in the Senate. I urge my colleagues to oppose it.

The PRESIDING OFFICER. Who yields time?

Mrs. HUTCHISON addressed the Chair.

The PRESIDING OFFICER. Time is under the control of the Senator from Alabama and the Senator from Florida.

Who yields time?

Mrs. HUTCHISON. Mr. President, we are trying to work this out right now. The Senator from Florida has authorized the managers to make a request on his behalf that this amendment be laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WARNER. Mr. President, I see the distinguished minority whip.

Mr. REID. Mr. President, this is a question—more of a statement—for the purpose of understanding the schedule for the rest of the day. I say at this time, so there are no surprises later on, as you know, there has been an amendment offered by the Senator from Arizona and the Senator from New Mexico which is pending. I want the body to know that this amendment is not satisfactory with the minority and with the administration.

The debate on this amendment is going to take a very, very long time. I want everyone to understand that. I have several hours of information that I need to explain to the body. Senator BINGAMAN and others wish to speak at length in this regard.

It is getting late in the day, and I did not want at 4 o’clock for people to ask: Why didn’t you tell us earlier? I have suggested to both managers of the bill that this amendment causes some problem over here, in addition to the fact the President said he will veto it. In short, I will not belabor the point other than to say I hope we can finish this bill, but this amendment is going to prevent us from doing so in an expeditious fashion.

Mr. DURBIN. Will the Senator yield?

Mr. REID. Yes, I yield.

Mr. DURBIN. I have not taken much time to debate. I admire the leadership of the Senators from Virginia and Michigan. But I have to concur with what the Senator from Nevada said. If we are going into this new debate topic about security at the Laboratories, we are going to have to give it an adequate amount of time, and that will be substantial. I hope the Senator understands and will advise his side of the aisle.

Mr. WARNER. Mr. President, I hear very clearly what our two colleagues have said. I believe that information was imparted to the three sponsors of the amendment earlier today. We will just have to await their response. At the moment, the Kyl-Domenici amendment is laid down. It is the pending business; am I not correct?

The PRESIDING OFFICER. It has been laid aside but it is still pending.

Mr. WARNER. I see other Senators anxious to speak to the Senate. I yield the floor.

Mrs. HUTCHISON addressed the Chair.

The PRESIDING OFFICER. Under the previous order, the Senator from Michigan yield for a question by the Senator from Texas? The PRESIDING OFFICER. Does the Senator from Michigan yield for a question by the Senator from Texas? Mr. LEVIN. I would ask unanimous consent that the Senator from Texas be recognized, and then we return to the previous order. But before offering that suggestion, I ask the Senator what her amendment is.

Mrs. HUTCHISON. Mr. President, I am privileged to be a cosponsor of this important amendment. However, in the course of the last hour we have had a chance to make a suggestion to the Senator from Texas. Has she incorporated that suggestion?

Mrs. HUTCHISON. No. I say to the distinguished cosponsor of my amendment, I discussed that particular issue and was told that it would be put in an addendum that would be classified if there were any such missions that needed to be disclosed.

Mr. LEVIN. Mr. President, reserving the right to object, it is my understanding now from my staff—staffs have been working on this and are still working on it. I ask that the Senator withhold that until we can see whether or not that can be worked out, because my staff indicates that they were actually in the process of discussion, and we are not sure what version it is that the Senator is offering.

So I would not be able to agree to a change in our order unless we take a
few minutes here to see if we can first work it out. Then I would assure the Senator that if it is not worked out—I know the good friend from Virginia would assure you as well—there would be an opportunity to offer the amendment.

Mrs. HUTCHISON. I would want to be assured from both the distinguished chairman and ranking member that if we go past the 2:30 unanimous consent deadline I would be allowed to offer my amendment if there is not an agreement.

Mr. WARNER. Mr. President, I assure my colleague that her amendment will be included in the 2:30 unanimous consent agreement. But I thought perhaps the Senator from Texas could address the general content of the amendment for a few minutes, and perhaps within that period we can work out a resolution.

I note the Senator from Alabama was anxious to speak to the Senate. I do not see him at the moment. He has an amendment which I think is going to be accepted. He wants to speak to it. I yield the floor at this time.

Mrs. HUTCHISON addressed the Chair.

The PRESIDING OFFICER. The Senator from Texas.

Mrs. HUTCHISON. I am in no need of speaking to my amendment until I am able to offer it.

Mr. WARNER. We ask that she withhold it, but will consider it to be within the deadline.

Mrs. HUTCHISON. As long as I am assured I will be able to offer it.

Mr. WARNER. Mr. President, I believe the managers are prepared to submit to the Chair a package of amendments.

Mr. LEVIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Michigan.

AMENDMENTS NOS. 376, 386, 387, 398, 399, AND 403

Mr. LEVIN. Pursuant to the prior unanimous consent agreement, I now call up the following amendments at the desk:

The Kerrey amendment, No. 376; the two Sarbanes amendments, Nos. 386 and 387; two Harkin amendments, Nos. 398 and 399; and one Boxer amendment, No. 403.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Michigan [Mr. LEVIN], for other Senators, proposes amendments numbered 376, 386, 387, 398, 399, and 403.

The amendments are as follows:

AMENDMENT NO. 376

(Purpose: To provide for a one-year delay in the demolition of certain naval radio transmitting towers at Naval Station, Annapolis, Maryland, to facilitate the transfer of such towers)

At the end of subtitle E of title XXVIII, add the following:

SEC. 2844. MODIFICATION OF LAND CONVEYANCE AUTHORITY, FORMER NAVAL TRAINING CENTER, BAINBRIDGE, CECIL COUNTY, MARYLAND.

(a) ONE-YEAR DELAY.—Notwithstanding any other provision of law, the Secretary of the Navy may not obligate or expend any funds for the demolition of the naval radio transmitting facility (NRTF) towers described in subsection (b) during the one-year period beginning on the date of the enactment of this Act.

(b) COVERED TOWERS.—The naval radio transmitting facility towers described in this subsection are the three southeastern most naval radio transmitting facility towers located at Naval Station, Annapolis, Maryland, that are scheduled for demolition as of the date of the enactment of this Act.

(c) TRANSFER OF TOWERS.—The Secretary shall transfer to the State of Maryland, or to Anne Arundel County, Maryland, all right, title, and interest of the United States in and to the towers described in subsection (b) if the State of Maryland or Anne Arundel County Maryland, as the case may be, agrees to accept such right, title, and interest from the United States during the one-year period referred to in subsection (a).

AMENDMENT NO. 387

(Purpose: To modify land conveyance authority relating to the former Naval Training Center, Bainbridge, Cecil County, Maryland)

On page 459, between lines 17 and 18, insert the following:

SEC. 2844. MODIFICATION OF LAND CONVEYANCE AUTHORITY, FORMER NAVAL TRAINING CENTER, BAINBRIDGE, CECIL COUNTY, MARYLAND.

Section 1 of Public Law 99–596 (100 Stat. 3549) is amended—

(1) in subsection (a), by striking "subsections (b) through (f)" and inserting "subsections (b) through (e)";

(2) by striking subsection (b) and inserting the following new subsection:

"(b) CONSIDERATION.—(1) In the event of the transfer of the property under subsection (a) to the State of Maryland, the transfer shall be with consideration or without consideration from the State of Maryland, at the election of the Secretary.

(2) If the Secretary elects to receive consideration from the State of Maryland under paragraph (1), the Secretary may reduce the amount of consideration to be received from the State of Maryland under that paragraph by an amount equal to the cost, estimated as of the time of the transfer of the property under this section, of the restoration of the naval radio transmitting buildings on the property. The total amount of the reduction of consideration under this paragraph may not exceed $500,000.");

(3) by striking subsection (d); and

(4) by redesignating subsections (e) and (f) as subsections (d) and (e), respectively.

AMENDMENT NO. 388

(Purpose: To require the implementation of the Department of Defense supplemental nutrition program, and to offset the cost of implementing that program by striking the $18,000,000 provided for procurement of three executive (UC–35A) aircraft for the Navy)

In title VI, at the end of subtitle E, add the following:

SEC. 676. IMPLEMENTATION OF THE SPECIAL SUPPLEMENTAL NUTRITION PROGRAM.

(a) CLARIFICATION OF BENEFITS RESPONSIBILITY.—Subsection (a) of section 1060 of title 10, United States Code, is amended by striking "may carry out a program to provide special supplemental food benefits" and inserting "shall carry out a program to provide supplemental food and nutrition education."

(b) FUNDING.—Subsection (b) of such section is amended to read as follows:

"(b) FEDERAL PAYMENTS.—The Secretary of Defense shall use funds available for the Department of Defense to provide supplemental foods and nutrition education and to pay for costs for nutrition services and administration under the program required under subsection (a)."

(c) PROGRAM ADMINISTRATION.—Subsection (c)(1)(A) of such section is amended by adding at the end of the following:

"In the determination of eligibility for the program benefits, a person already certified for participation in the special supplemental nutrition program for women, infants, and children under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1766) shall be considered eligible for the duration of the certification period under that program."

(d) NUTRITIONAL RISK STANDARDS.—Subsection (c)(1)(B) of such section is amended by inserting "and nutritional risk standards" after "income eligibility standards".

(e) DEFINITIONS.—Subsection (f) of such section is amended by adding at the end the following:

"(4) The terms 'costs for nutrition services and administration', 'nutrition education' and 'supplemental foods' have the meanings given the terms in paragraphs (4), (7), and (14), respectively, of section 17(b) of the Child Nutrition Act of 1966 (42 U.S.C. 1766(b))."

On page 17, line 6, reduce the amount by $18,000,000.

AMENDMENT NO. 389

(Purpose: To direct the Secretary of Defense to eliminate the backlog in satisfying requests of former members of the Armed Forces for the issuance or replacement of military medals and decorations)

In title V, at the end of subtitle D, add the following:

SEC. 552. ELIMINATION OF BACKLOG IN REQUiëSTSES FOR REPLACEMENT OF MILITARY MEDALS AND OTHER DECORATIONS.

(a) SUFFICIENT RESOURCES REQUIRED.—The Secretary of Defense shall make available funds and other resources at the levels that are necessary for ensuring the elimination of the backlog of the unsatisfied requests made to the Department of Defense for the issuance or replacement of military decorations for former members of the Armed Forces. The organization to which the necessary funds and other resources are to be made available for that purpose are as follows:

(1) The Army Reserve Personnel Command.

(2) The Bureau of Naval Personnel.

and their families. Affect the quality of life of such personnel in pay and other benefits for Armed Forces significant harm to the readiness of the funder under this subsection, and make the shall select the source of the funds for trans- fer under this subsection. The Secretary of Defense shall transfer $100,000 to the Depart- ment of Veterans Affairs. The Secretary of Defense shall submit a report on the status of the backlog in title X, at the end of subtitle A, add the following:

SEC. 10. TRANSFERS FOR THE ESTABLISH- MENT OF ADDITIONAL NATIONAL VETERANS CEMETERIES.

(a) AUTHORITY.—Of the amounts appro- priated for the Department of Defense for fiscal year 2000 pursuant to authorizations of appropriations in this Act, the Secretary of Defense shall transfer $100,000 to the Depart- ment of Veterans Affairs. The Secretary shall select the source of the funds for transfer under this subsection, and make the transfers in a manner that causes the least significant harm to the readiness of the Armed Forces, does not affect the increases in pay and other benefits for Armed Forces personnel, and does not otherwise adversely affect the quality of life of such personnel and their families.

(b) USE OF AMOUNTS TRANSFERRED.—Funds transferred to the Department of Veterans Affairs under subsection (a) shall be made available to establish, in accordance with chapter 24 of title 38, United States Code, na- tional cemeteries in areas in the United States that the Secretary of Veterans Affairs determines to best meet in need of such cemeteries to serve the needs of veterans and their families.

(c) RELATIONSHIP TO OTHER TRANSFER AUTHORITY.—The authority to make transfers under subsection (a) is in addition to the transfer authority provided in section 1001.

The PRESIDING OFFICER. Under the order the amendments will be set aside.

Mr. WARNER. Mr. President, I will just have to ask the indulgence of my colleagues for a minute or two. I hope that I can be achieved.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk pro- ceeded to call the roll.

Mr. LEVIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENTS NO. 403 THROUGH 457

Mr. LEVIN. Mr. President, on behalf of Senator REID, I send an amendment to the desk; on behalf of Senator BRYAN, I send an amendment to the desk; on behalf of Senators HARKIN and BOXER, I send an amendment to the desk; on behalf of Senator LEAHY, I send an amendment to the desk; on behalf of Senator CONRAD, I send three amendments to the desk; on behalf of Senator LAUTENBERG, I send two amendments to the desk; and on behalf of Senator SABANES, I send an amend- ment to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Michigan (Mr. Levin), for other Senators, opposes amendments numbered 448 through 457. The amendments are as follows:

AMENDMENT NO. 448

(Purpose: To designate the new hospital bed replacement building at the Ioannis A. Lougaris Department of Veterans Affairs Medical Center in Reno, Nevada, in honor of Jack Streeter).

On page 387, below line 24, add the follow- ing:

SEC. 1006. DESIGNATION OF DEPARTMENT OF VETERANS AFFAIRS HOSPITAL BED REPLACEMENT BUILDING IN RENO, NEVADA.

The hospital bed replacement building under construction at the Ioannis A. Lougaris Department of Veterans Affairs Medical Center in Reno, Nevada, is hereby designated as the ‘‘Jack Streeter Building’’. Any reference to that building in any law, regulation, map, document, record, or other paper on the United States shall be consid- ered to be a reference to the Jack Streeter Building.

AMENDMENT NO. 449

(Purpose: To authorize $11,600,000 for the Air Force for a military construction project at Nellis Air Force Base, Nevada (Project RKMF983144)).

On page 416, in the table following line 13, insert after the item relating to Nellis Air Force Base, Nevada, the following new item:

| Nellis Air Force Base | $11,600,000 |

On page 417, in the table preceding line 1, strike ‘‘$626,133,000’’ in the amount column of the item relating to the total and insert ‘‘$639,733,000’’. On page 419, line 15, strike ‘‘$1,871,191,000’’ and insert ‘‘$1,872,791,000’’. On page 419, line 19, strike ‘‘$626,133,000’’ and insert ‘‘$639,733,000’’. On page 420, line 17, strike ‘‘$626,133,000’’ and insert ‘‘$639,733,000’’.

AMENDMENT NO. 450

(Purpose: To require the implementation of the Department of Defense special supple- mental nutrition program, and to offset the cost of implementing that program by striking the $18,000,000 provided for procure- ment of three executive (UC-35A) air- craft for the Navy)

In title VI, at the end of subtitle E, add the following:

SEC. 676. IMPLEMENTATION OF THE SPECIAL SUPPLEMENTAL NUTRITION PRO- GRAM.

(a) CLARIFICATION OF BENEFITS RESPONSIBILITY.—Subsection (a) of section 1066a of title 10, United States Code, is amended by striking ‘‘may carry out a program to pro- vide supplemental nutrition benefits’’ and inserting ‘‘shall carry out a program to pro- vide supplemental foods and nutrition edu- cation’’.

(b) FUNDING.—Subsection (b) of such sec- tion is amended to read as follows:

“(b) FEDERAL PAYMENTS.—The Secretary of Defense shall use funds available for the Department of Defense to provide supple- mental foods and nutrition education and to pay for costs for nutrition services and ad- ministration under the program required under subsection (a).”.

(c) PROGRAM ADMINISTRATION.—Subsection (c)(1)(A) of such section is amended by adding at the end the following: ‘‘In the deter- mining of eligibility for the program bene- fits, a person already certified for participa- tion in the special supplemental nutrition program for women, infants, and children under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786) shall be considered eligible for the duration of the certification pe- riod under that program’’.

(d) NUTRITIONAL RISK STANDARDS.—Sub- section (c)(1)(B) of such section is amended by striking ‘‘and ‘standards’ after ‘income eligibility standards’’.

(e) DEFINITIONS.—Subsection (f) of such section is amended by adding at the end the following:

“(4) The terms ‘costs for nutrition services and administration’, ‘nutrition education’ and ‘supplemental foods’ have the meanings given the terms in paragraphs (4), (7), and (14), respectively, of section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1766(b)).’’

On page 17, line 6, reduce the amount by $18,000,000.

AMENDMENT NO. 451

At the appropriate place in the bill, insert the following:

SEC. . TRAINING AND OTHER PROGRAMS.

(a) PROHIBITION.—None of the funds author- ized to be appropriated by this Act may be used to support any training program involv- ing state or local military service of the United States that a member of such unit has committed a gross violation of human rights, unless all necessary corrective steps have been taken.

(b) MONITORING.—Not more than 90 days after enactment of this Act, the Secretary of Defense, after consultation with the Secretary of State, shall establish procedures to ensure that prior to a decision to conduct any train- ing program referred to in paragraph (a), full consideration is given to the following:

(1) The purpose and duration of the training program;

(2) The training activity involved;

(3) The costs associated with the training program;

(4) The information available to the Department of State relating to human rights violations by foreign security forces;

(5) Any waiver from subparagraph (a) by the Secretary of Defense, after consultation with the Secretary of State, and the criteria for waiving subparagraph (a); and

(6) The Department of Defense’s failure to provide necessary corrective action.

(c) WAIVER.—If the Secretary of Defense, after consultation with the Secretary of State, may waive the prohibition in para- graph (a), the Secretary of Defense, in consultation with the Secretary of State, may waive the prohibition in paragraph (a), if he determines that such waiver is required by extraordinary circumstances.

(d) REPORT.—Not more than 15 days after the exercise of any waiver under paragraph (c), the Secretary of Defense shall submit a report to the congressional defense committees describing the extraordinary cir- cumstances, the purpose and duration of the training program, the United States forces and the foreign security forces involved in the training program, and information relating to human rights violations that ne- cessitates the waiver.
AMENDMENT NO. 453
(Purpose: To encourage reductions in Russian nonstrategic ‘‘tactical’’ nuclear arms, and to require annual reports on Russia’s non-strategic nuclear arsenal)
In title X, at the end of subtitle D, add the following:

SEC. 1061. RUSSIAN NONSTRATEGIC NUCLEAR ARMS.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—
(1) it is in the interest of Russia to fully implement the Presidential Nuclear Initiatives announced in 1991 and 1992 by then-President of the Soviet Union Gorbachev and then-President of Russia Yeltsin;
(2) the President of the United States should call on Russia to match the unilateral reductions in the United States inventory of tactical nuclear weapons, which have reduced the inventory by nearly 90 percent; and
(3) if the certification under section 1044 is made, the President should emphasize the continued interest of the United States in working cooperatively with Russia to reduce the dangers associated with Russia’s tactical nuclear arsenal.

(b) ANNUAL REPORTING REQUIREMENT.—(1) Each annual report on accounting for United States assistance under Cooperative Threat Reduction Programs that is submitted to Congress under section 1206 of Public Law 104-106 (110 Stat. 471; 22 U.S.C. 5955 note) after fiscal year 1999 shall include, regarding Russia’s arsenal of tactical nuclear weapons, which have reduced the inventory by nearly 90 percent; and
(2) if the certification under section 1044 is made, the President should emphasize the continued interest of the United States in working cooperatively with Russia to reduce the dangers associated with Russia’s tactical nuclear arsenal.

AMENDMENT NO. 454
(Purpose: To require a study and report regarding the options for Air Force cruise missiles)
In title II, at the end of subtitle C, add the following:

SEC. 225. OPTIONS FOR AIR FORCE CRUISE MISSILES.

(a) STUDY.—(1) The Secretary of the Air Force shall conduct a study of the options for meeting the requirements being set forth as of the date of the enactment of this Act by the conventional air launched cruise missile (CALCM) once the inventory of that missile has been depleted. In conducting the study, the Secretary shall consider the following options:

(A) Restarting of production of the conventional air launched cruise missile.

(B) Acquisition of a new type of weapon with the same lethality characteristics as those of the conventional air launched cruise missile or improved lethality characteristics.

(C) Utilization of current or planned munitions, with upgrades as necessary.

(D) A summary of past, current, and projected threats to the United States assistance under Cooperative Threat Reduction Programs that is submitted to Congress as required under section 1105 of title 31, United States Code; and

(b) REPORT.—The report shall include a statement of how the Secretary intends to meet the requirements referred to in subsection (a)(1) in a timely manner as described in that subsection.

SEC. 1061. CONVEYANCE OF FIREFIGHTING EQUIPMENT AT MILITARY OCEAN TERMINAL, NEW JERSEY.

(a) PURPOSE.—The purpose of this section is to provide means for the City of Bayonne, New Jersey, to furnish fire protection through the municipal fire department for the tenants of the United States.

(b) AUTHORITY TO CONVEY.—The Secretary of the Army shall, notwithstanding title II of the Federal Property and Administrative Services Act of 1949, convey without consideration, to the County of Anne Arundel, Maryland, all interests of the United States in and to the towers described in subsection (b) of this section as the Secretary considers appropriate to protect the interests of the United States.

(c) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

AMENDMENT NO. 455
(Purpose: To require a study and report regarding the options for Air Force cruise missiles)
In title II, at the end of subtitle C, add the following:

SEC. 225. OPTIONS FOR AIR FORCE CRUISE MISSILES.

(a) STUDY.—(1) The Secretary of the Air Force shall conduct a study of the options for meeting the requirements being set forth as of the date of the enactment of this Act by the conventional air launched cruise missile (CALCM) once the inventory of that missile has been depleted. In conducting the study, the Secretary shall consider the following options:

(A) Restarting of production of the conventional air launched cruise missile.

(B) Acquisition of a new type of weapon with the same lethality characteristics as those of the conventional air launched cruise missile or improved lethality characteristics.

(C) Utilization of current or planned munitions, with upgrades as necessary.

(D) A summary of past, current, and projected threats to the United States assistance under Cooperative Threat Reduction Programs that is submitted to Congress as required under section 1105 of title 31, United States Code; and

(b) REPORT.—The report shall include a statement of how the Secretary intends to meet the requirements referred to in subsection (a)(1) in a timely manner as described in that subsection.

AMENDMENT NO. 456
(Purpose: To authorize a land conveyance, Nike Battery 80 family housing site, East Hanover Township, New Jersey)
On page 453, between lines 10 and 11, insert the following:

SEC. 2852. LAND CONVEYANCE, NIKE BATTERY 80 FAMILY HOUSING SITE, EAST HANOVER TOWNSHIP, NEW JERSEY.

(a) CONVEYANCE AUTHORIZED.—The Secretary of the Army may convey, without consideration, to the County of Morris, New Jersey (in this section referred to as the ‘‘County’’), all right, title, and interest of the United States in and to a parcel of real property, including improvements thereon, consisting of approximately 13.88 acres located near the unincorporated area of Hanover Township, East Hanover Township, New Jersey, the former family housing site for Nike Battery 80. The purpose of the conveyance is to permit the Township to develop the parcel for affordable housing and for recreational purposes.

(b) DESCRIPTION OF PROPERTY.—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined in a survey satisfactory to the Secretary. The cost of the survey shall be borne by the Township.

(c) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

AMENDMENT NO. 457
(Purpose: To authorize a one-year delay in the demolition of the transmitting tower facilities at Naval Station, Annapolis, Maryland and to facilitate transfer of towers)
At the end of subtitle E of title XXVIII, add the following: SEC. 103. ONE-YEAR DELAY IN DEMOLITION OF RADIO TRANSMITTING FACILITIES TOWERS AT NAVAL STATION, ANNAPOlis, MARYLAND, TO FACILITATE TRANSFER OF TOWER BY COUNTRY OF ANNE ARUNDEL, MARYLAND.

(a) ONE-YEAR DELAY.—The Secretary of the Navy may not obligate or expend any funds for the demolition of the naval radio transmitting towers described in subsection (b) during the one-year period beginning on the date of enactment of this Act.

(b) COVERED TOWERS.—The naval radio transmitting towers described in subsection (b) of this section are the three southeastern most naval radio transmitting towers located at Naval Station, Annapolis, Maryland that are being conveyed for demolition as of the date of enactment of this Act.

(c) TRANSFER OF TOWERS.—The Secretary may transfer to the State of Maryland, or the County of Anne Arundel, Maryland, all right, title, and interest (including maintenance responsibility) of the United States in

ORDERS OF THE DAY
May 27, 1999
11822

AMENDMENT NO. 458
(Purpose: To require a report regarding National Missile Defense)
In title II, at the end of subtitle C, add the following:

SEC. 225. REPORT ON NATIONAL MISSILE DEFENSE.

Not later than March 15, 2000, the Secretary of Defense shall submit to Congress the Secretary’s assessment of the advantages of a two-site deployment of a ground-based National Missile Defense system, with special reference to increased coverage, redundancy and survivability, and economies of scale.
and to the towers described in subsection (b) if the State of Maryland, or the County of Anne Arundel, Maryland, as the case may be, agrees to accept such right, title, and interest (including accrued maintenance responsibility) during the one-year period referred to in subsection (a).

The PRESIDING OFFICER. Under the order, the amendments will be set aside.

Mr. SPECTER addressed the Chair.

The PRESIDING OFFICER. The Senator from Pennsylvania.

AMENDMENT NO. 458
(Purpose: To prohibit the United States from negotiating a peace agreement relating to the Federal Republic of Yugoslavia (Serbia and Montenegro) with any individual who is an indicted war criminal)

Mr. SPECTER. Mr. President, of course, within the unanimous consent agreement which requires submission of amendments before 2:30—and it is now 2:17—I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Pennsylvania [Mr. SPECTER] proposes an amendment numbered 458.

The amendment is as follows:

In title X, at the end of subtitle D, add the following:

SEC. 1601. PROHIBITION ON NEGOTIATIONS WITH INDICTED WAR CRIMINALS.

(a) In general.—The United States, as a member of NATO, may not negotiate with Slobodan Milosevic, an indicted war criminal, with respect to reaching an end to the conflict in the Federal Republic of Yugoslavia.

(b) YUGOSLAVIA DEFINED.—In this section, the term “Federal Republic of Yugoslavia” means the Federal Republic of Yugoslavia (Serbia and Montenegro).

The PRESIDING OFFICER. The amendment will be set aside.

Mr. SPECTER. Mr. President, parliamentary inquiry. Is there any established procedure for the consideration of amendments like the one I just sent to the desk?

Mr. WARNER addressed the Chair.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. We are trying to repose as much discretion in the managers as possible. Your amendment will be treated equally with the others. But at the moment we are not going to try to sequence the deliberation.

Mr. SPECTER. I thank my colleague.

Mr. LEVIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Michigan.

AMENDMENT NO. 459
(Purpose: To amend title XXIX, relating to defense and the Secretary of the Interior the opportunity to complete a comprehensive legislative withdrawal proposal, and to provide an opportunity for public comment and review)

Mr. LEVIN. On behalf of Senator Bingaman, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

Mr. Bingaman proposes an amendment numbered 459.

The amendment is as follows:

On page 476, line 13, through page 502, line 3, strike title XXIX in its entirety and insert in lieu thereof:

"TITLE XXIX—RENEWAL OF MILITARY LAND WITHDRAWALS."

"SEC. 2901. FINDINGS.

"The Congress finds that—"

"(1) Public Law 102–181 authorized public land withdrawals for several military installations, including the Barry M. Goldwater Air Force Range in Arizona, the McGregor Range in New Mexico, and Fort Wainwright and Fort Greely in Alaska, collectively comprising over 4 million acres of public land;

"(2) these military ranges provide important military training opportunities and serve a critical role in the national security of the United States and their use for these purposes should be continued;

"(3) in addition to military purposes, these ranges contain significant natural and cultural resources, and provide important wildlife habitats;

"(4) the future use of these ranges is important not only for the affected military branches, but also for local residents and other public land users;

"(5) the public land withdrawals authorized in 1986 under Public Law 99–606 were for a period of 15 years, and expire in November, 2001; and

"(6) it is important that the renewal of these public land withdrawals be completed in a timely manner, consistent with the process established in Public Law 99–606 and other applicable laws, including the completion of appropriate environmental impact studies and opportunities for public comment and review.

"SEC. 2902. SENSE OF THE SENATE.

"It is the Sense of the Senate that the Secretary of Defense and the Secretary of the Interior, consistent with their responsibilities and applicable laws, should jointly prepare a comprehensive legislative proposal to renew the public land withdrawals for the four ranges referenced in section 2901 and transmit such proposal to the Congress no later than July 1, 1999."

The PRESIDING OFFICER. The amendment will be set aside.

AMENDMENT NO. 460
Mr. WARNER. Mr. President, on behalf of the Senator from Virginia, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Virginia [Mr. WARNER] proposes an amendment numbered 460.

The amendment is as follows:

SEC. 3. ARMY RESERVE RELOCATION FROM FORT DODGE, IOWA

With regard to the conveyance of a portion of Fort Douglas, Utah to the University of Utah and the resulting relocation of Army Reserve activities to temporary and permanent relocation facilities, the Secretary of the Army may accept the funds paid by the University of Utah or State of Utah to pay relocation costs associated with such relocation. Funds received under this section shall be credited to the appropriation, fund or account from which the expenses are otherwise paid. Amounts so credited shall be available until expended.

The PRESIDING OFFICER. The amendment will be set aside.

Mr. LEVIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Michigan.

AMENDMENT NO. 461
(Purpose: To authorize payments in settlement of claims arising from the accident involving a United States Marine Corps EA–6B aircraft on February 3, 1998, near Cavalese, Italy and the subsequent determination that parties involved in the accident obstructed the investigation by disposing of evidence)

Mr. LEVIN. On behalf of Senator Robb, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Michigan [Mr. LEVIN] for Mr. Robb, proposes an amendment numbered 461.

The amendment is as follows:

On page 93, between lines 2 and 3, insert the following:

Sec. 349. (a) AUTHORITY TO MAKE PAYMENTS.—Subject to the provisions of this section, the Secretary of Defense is authorized to make payments for the settlement of the claims arising from the deaths caused by the accident involving a United States Marine Corps EA–6B aircraft on February 3, 1998, near Cavalese, Italy and the subsequent determination that parties involved in the accident obstructed the investigation by disposing of evidence.

(b) DEADLINE FOR EXERCISE OF AUTHORITY.—The Secretary shall make the decision to exercise the authority in subsection (a) not later than 90 days after the date of enactment of this Act.

(c) SOURCE OF PAYMENTS.—Notwithstanding any other provision of law, of the amounts appropriated or otherwise made available for the Department of Navy for operational and maintenance costs under section 2000 or other unexpended balances from prior years, the Secretary shall make available $40 million only for emergency and extraordinary expenses associated with the settlement of the claims arising from the accident and the subsequent determination that parties involved in the accident obstructed the investigation by disposing of evidence described in subsection (a).

(d) AMOUNT OF PAYMENT.—The amount of the payment under this section for settlement of the claims arising from the death of any person association with the accident described in subsection (a) may not exceed $2,000,000.

(e) TREATMENT OF PAYMENTS.—Any amount paid to a person under this section is intended to supplement any amount subsequently determined to be payable to the person under section 127 or chapter 163 of title 10, United States Code, or any other provision of law for administrative settlement of claims against the United States with respect to damages arising from the accident described in subsection (a).

(f) CONSTRUCTION.—The payment of an amount under this section shall not be considered to constitute a statement of legal liability on the part of the United States or otherwise as evidence of any material fact in any judicial proceeding or investigation arising from the accident described in subsection (a).
On page 414, line 18, strike out "$66,299,000".

On page 414, line 9, strike out "$673,960,000" and insert in lieu thereof "$677,810,000".

On page 412, in the table line Total strike out "$168,340,000" and insert in lieu thereof "$168,400,000".

On page 411, in the table below, insert after "New Hampshire NSY Portsmouth" the following amounts for the following purposes:

(a) $6,000,000 shall be available for Operations Support.

(b) $8,000,000 shall be available for Enhanced Intelligence capabilities.

(c) $5,000,000 shall be used for Mothership Operations.

(d) $20,000,000 shall be used for National Guard State plans.

As amended by this Act, the total amount authorized for Operations Support is $59,200,000.

On page 412, in the table line Total strike out "$3,850,000" and insert in lieu thereof "$3,850,000".

Pursuant to section 301(a)(20) of this Act, the total amount authorized for Operations Support is hereby increased by $39,200,000.
The amendment is as follows:

At the appropriate place, insert the following:

SEC. 2912. SENSE OF SENATE REGARDING WITHDRAWAL OF CERTAIN LANDS IN ARIZONA. (1) it is vital to the national interest that the withdrawal be withdrawn by section 1(c) of the Military Lands Withdrawal Act of 1986 (Public Law 99–606), relating to Barry M. Goldwater Air Force Range and the Cabra Prieta National Wildlife Refuge, which would otherwise expire in 2001, be renewed in 1999;

(b) The Secretary shall report to the Congress on the conditions of the area and adjacent shorelines of the Toussaint River, Ohio. The Secretary shall also evaluate any ongoing use of Lake Erie as an ordnance firing range and justifying the need to continue such activities by the Department of Defense or its contractors. The Secretary shall report not later than April 1, 2000.

(c) This provision shall not modify any responsibilities and authorities provided in the Water Resources Development Act of 1986, as amended (Public Law 99–662).

(d) The Secretary is authorized to use any funds available to the Secretary to carry out the authority provided in subsection (a).

The PRESIDING OFFICER. The Voinovich amendment will be set aside.

AMENDMENT NO. 468
(Purpose: To strike the portions of the military lands withdrawals relating to lands located in Arizona)

Mr. WARNER. Mr. President, I send to the desk an amendment on behalf of the Senator from Arizona, Mr. MCCAIN.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The amendment is as follows:

In section 2902, strike subsection (a). In section 2902, redesignate subsections (b), (c), and (d) as subsections (a), (b), and (c), respectively.

In section 2903(c), strike paragraphs (4) and (7).

In section 2903(c), redesignate paragraphs (5) and (6) as paragraphs (4) and (5), respectively.

In section 2903(a)(1)(A), strike "(except those lands within a unit of the National Wildlife Refuge System)".

In section 2904(a)(1), strike subparagraph (B).

In section 2904, strike subsection (g). Strike section 2905.

Redesignate sections 2907 through 2914 as sections 2905 through 2912, respectively.

In section 2907(h), as so redesignated, strike "section 2902(c) or 2902(d)" and insert "section 2902(c) or 2902(d)"

In section 2908(b), as so redesignated, strike "section 2909(g)" and insert "section 2909(g)"

In section 2910, as so redesignated, strike "except that hunting," and all that follows and insert a period.

In section 2911(a)(1), as so redesignated, strike "subsection (b), (c), and (d)" and insert "subsections (a), (b), and (c)".

In section 2911(a)(2), as so redesignated, strike "except that lands" and all that follows and insert a period.

At the end, add the following:

SEC. 2912. SENSE OF SENATE REGARDING WITHDRAWAL OF CERTAIN LANDS IN ARIZONA 

It is the sense of the Senate that—

The legislative clerk read as follows:

The amendment is as follows:

On page 283, line 13, add the following: "However, the commercial services so designated by the Secretary shall not be treated under the pilot program as being commercial items for purposes of the special simplified procedures included in the Federal Acquisition Regulation pursuant to the section 2304(g)(1)(B) of title 10, United States Code, section 3005(g)(1)(B) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 256(g)(1)(B)), and section 31(a)(2) of the Office of Federal Procurement Policy Act (41 U.S.C. 427(a)(2))".

On page 282, line 19, after "concerns," insert the following: "HUBZone small business concerns,"

On page 283, line 21, strike "(A)" and insert "(1)"

On page 283, line 23, strike "(B)" and insert "(2)"

On page 284, line 3, strike "(C)" and insert "(3)"

On page 284, between lines 6 and 7, insert the following:

(4) The term "HUBZone small business concern" has the meaning given the term in section 3(p)(3) of the Small Business Act (15 U.S.C. 632(p)(3)).

The PRESIDING OFFICER. The Bond amendment will be set aside.

AMENDMENT NO. 471
(Purpose: To set aside $600,000 for providing procurement technical assistance for Indian reservations out of the funds authorized to be appropriated for the Procurement Technical Assistance program)

Mr. WARNER. Mr. President, I send to the desk an amendment on behalf of the Senator from Arizona, Mr. MCCAIN.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The amendment is as follows:

In title III, at the end of subtitle A, add the following:

SEC. 395. PROCUREMENT TECHNICAL ASSISTANCE PROGRAMS.

Of the amount authorized to be appropriated under section 3015 for carrying out the provisions of chapter 142 of title 10, United States Code, $600,000 is authorized for fiscal year 2000 for the purpose of carrying out programs sponsored by eligible entities referred to in subparagraph (D) of section 2411(1) of title 10, United States Code, that provide procurement technical assistance in distressed areas referred to in subparagraph (B) of section 2411(2) of such title. If there is an insufficient number of satisfactory proposals for cooperative agreements in such distressed areas to allow effective use of the funds made available in accordance with this subsection in such areas, the funds shall be allocated among the Department of Defense Contract Administration Services regions in accordance with section 2415 of such title.

The PRESIDING OFFICER. The Bond amendment will be set aside.

AMENDMENT NO. 472
(Purpose: To require a report on the Air Force distributed mission training)
The amendment is as follows:

SEC. 1061. COMMEMORATION OF THE VICTORY IN THE COLD WAR.

(a) FINDINGS.—Congress makes the following findings:

(1) The Cold War between the United States and the former Union of Soviet Socialist Republics was the longest and most costly struggle for democracy and freedom in the history of the world.

(2) Whether millions of people all over the world would have lived in freedom hinged on the outcome of the Cold War.

(3) Many countries bore the burden of the struggle and paid the costs in order to preserve and promote democracy and freedom.

(4) The Armed Forces and the taxpayers of the United States bore the greatest portion of such a burden and struggle in order to protect such principles.

(b) Tens of thousands of United States soldiers, sailors, Marines, and airmen paid the ultimate price during the Cold War in order to preserve the freedoms and liberties enjoyed in democratic countries.

(c) The Berlin Wall erected in Berlin, Germany, epitomized the totalitarianism that the United States struggled to eradicate during the Cold War.

(4) The fall of the Berlin Wall on November 9, 1989, marked the beginning of the end for Soviet totalitarianism, and thus the end of the Cold War.

(d) The fall of the Berlin Wall, on November 9, 1989, is the 10th anniversary of the fall of the Berlin Wall.

(b) DESIGNATION OF VICTORY IN THE COLD WAR DAY.—Congress hereby:

(1) designates November 9, 1999, as "Victory in the Cold War Day"; and

(2) requests that the President issue a proclamation declaring that the people of the United States to observe the week with appropriate ceremonies and activities.

The PRESIDENT Pro Tempore of the Senate, in consultation with the Minority Leader of the Senate and the Majority Leader of the Senate, shall be designated as the "Commission on Victory in the Cold War".

The Commission shall have as its purpose to design and award a decoration called the "Reagan–Truman Victory in the Cold War Medal". The decoration shall be of appropriate design, with ribbons and appurtenances.

The amount of funds available under paragraph (1) for the purpose set forth in that paragraph may not exceed $15,000,000.

(2) The Secretary of Defense may accept contributions from the private sector for the purpose of reducing the costs of the Armed Forces described in paragraph (1).

(3) The Secretary of Defense may accept contributions from the private sector for the purpose of reducing the costs of the Armed Forces described in paragraph (1) for the purpose set forth in that paragraph shall be reduced by an amount equal to the amount of contributions accepted by the Secretary under subparagraph (A).

(c) Cold War Victory Medal.—Chapter 57 of Title 10, United States Code, is amended by adding at the end the following:

"1133. Cold War medal: award; issue

(1) There is hereby authorized an award of an appropriate decoration, as provided for under subsection (b), to all individuals who served honorably in the United States Armed Forces, other than members of the Armed Forces during the Cold War, in order to recognize the contributions of such individuals to United States victory in the Cold War.

(2) The President, after consultation with the Congress, shall, under regulations prescribed by the President, design for purposes of this section a decoration called the "Reagan–Truman Victory in the Cold War Medal". The decoration shall be of appropriate design, with ribbons and appurtenances.

(3) For purposes of subsection (a), the term "Cold War" shall mean the period beginning on August 1, 1945, and ending on November 9, 1989.

(4) The amount of funds available under paragraph (1) for the purpose set forth in that paragraph may not exceed $15,000,000.

The amount of funds available under paragraph (1) for the purpose set forth in that paragraph shall be reduced by an amount equal to the amount of contributions accepted by the Secretary under subparagraph (A).

The Commission on Victory in the Cold War shall be composed of seven individuals, as follows:

(A) Three shall be appointed by the President, in consultation with the Minority Leader of the Senate and the Majority Leader of the House of Representatives.

(B) Two shall be appointed by the Majority Leader of the Senate.

(C) Two shall be appointed by the Speaker of the House of Representatives.

(D) The Commission shall have as its duty the review and approval of the expenditure of the Armed Forces described in paragraph (1) prior to the participation of the Armed Forces in the celebration referred to in paragraph (1) of that subsection, whether such funds are derived from funds of the United States or from amounts contributed by the private sector under paragraph (3)(A) of that subsection.

The Commission on Victory in the Cold War shall be a self-perpetuating body and shall function as the President determines is necessary.

The President shall transmit a report on the activities of the Commission to the Congress at least once each year.
AMENDMENT NO. 475

(Purpose: To require a report on military-to-
meeting between the United
States and the People's Republic of China and the United
States)

Mr. WARNER. Mr. President, I send to the
desk an amendment on behalf of
Mr. SMITH of New Hampshire.

The PRESIDING OFFICER.

The clerk will report.

The legislative clerk read as follows:

The Senator from Virginia [Mr. WARNER],
for United States Navy, proposes an amendment numbered 475.

The amendment is as follows:

On page 357, between lines 11 and 12, insert the following:

SEC. 1032. REPORT ON MILITARY-TO-MILITARY
CONTACTS WITH THE PEOPLE'S REPUBLIC
OF CHINA.

(a) REPORT.—The Secretary of Defense
shall submit to Congress a report on mili-
tary-to-military contacts between the United
States and the People's Republic of China.

(b) REPORT ELEMENTS.—The report shall
include the following:

(1) A list of the general and flag grade
officers of the People's Liberation Army who have
visited United States military installations
since January 1, 1993.

(2) The itinerary of the visits referred to in
paragraph (2), including the installations vis-
ited, the duration of the visits, and the ac-
tivities conducted during the visits.

(3) The involvement, if any, of the general
and flag officers referred to in paragraph (2) in the

(4) A list of facilities in the People's Rep-
ublic of China that United States military
officers have visited as a result of any mili-
tary-to-military contact program between the

(5) A list of facilities in the People's Rep-
ublic of China that have been the subject of a
request made by the Department of De-
fense which has been denied by People's Rep-
ublic of China authorities.

(6) A list of facilities in the United States
that are the subject of a requested visit by
the People's Liberation Army which has
been denied by the United States.

(7) Any official documentation, such as
memorandums, reports, after-action re-
ports, and final itineraries, and any receipts
for expenses over $1,000, concerning mili-
tary-to-military contacts or exchanges between
the United States and the People's Republic of
China in 1999.

(8) An assessment regarding whether or not
any People's Republic of China military offi-
cials have been shown classified material as a
result of military-to-military contacts or
exchanges between the United States and the
People's Republic of China.

(9) The report shall be submitted no later
than March 31, 2000 and shall be unclassified
but may contain a classified annex.

The PRESIDING OFFICER. The
amendment will be set aside.

AMENDMENT NO. 476

(Purpose: To require a report on military-to-
meeting between the United
States and the People's Republic of China and the United
States)

Mr. WARNER. Mr. President, I send to the
desk an amendment on behalf of
Mr. THOMAS.

The PRESIDING OFFICER. The
clerk will report.

The assistant legislative clerk read as follows:

The Senator from Virginia [Mr. WARNER],
for Mr. THOMAS, proposes an amendment
numbered 476.

The amendment is as follows:

At the appropriate place in the bill, insert
the following:

SEC. . IMPROVEMENTS TO THE FEDERAL ACTIVITIES INVENTORY REFORM ACT.

The Federal Activities Inventory Reform Act of 1998 (P.L. 105-270) shall be imple-
mented by an Executive Order issued by the President.

The PRESIDING OFFICER. The
Thomas amendment will be set aside.

AMENDMENT NO. 477

(Purpose: To require the President to submit
to Congress a proposal to prioritize and
begin disengaging from non-critical over-
seas missions involving U.S. combat
forces)

Mr. WARNER. Mr. President, I send
an amendment to the desk on behalf of
Senator HUTCHISON.

The PRESIDING OFFICER. The
clerk will report.

The assistant legislative clerk read as follows:

The Senator from Virginia [Mr. WARNER],
for Mrs. HUTCHISON, proposes an amendment
numbered 477.

The amendment is as follows:

At the appropriate place in the bill, insert
the following:

SEC. . Congress makes the following
findings:

(1) It is the National Security Strategy of
the United States to “deter and defeat large-
scale, cross-border aggression in two distant
theaters in overlapping time frames;”

(2) The deterrence of Iraq and Iran in
Southeast Asia and the deterrence of North
Korea in Northeast Asia represent two such
potential large-scale, cross-border theater
requirements;

(3) The United States has 120,000 troops
permanently assigned to those theaters;

(4) The United States has an additional
70,000 forces assigned to non-NATO/non-Pa-
cific threat foreign countries;

(5) The United States has more than 6,000
troops in Bosnia-Hercegovina on indefinite
assignment;

(6) The United States has diverted perma-

mently assigned resources from other theaters
to support operations in the Balkans;

(7) The United States provides military
forces to seven active United Nations peace-
keeping operations, including some missions
that have continued for decades;

(8) Between 1986 and 1998, the number of
American military deployments per year has
nearly tripled at the same time the Depart-
ment of Defense budget has been reduced in
real terms by 38 percent;

(9) The Army has 10 active-duty divisions
today, down from 18 in 1991, while on an av-

erage day in FY98, 28,000 U.S. Army soldiers
were deployed to more than 70 countries for
over 300 separate missions;

(10) Active Air Force fighter wings have
gone from 22 to 13 since 1991, while 70 percent
of air sorties in Operation Allied Force over
the Balkans are U.S.-flown and the Air Force
continues to enforce northern and southern
no-fly zones in Iraq. In response, the Air
Force has initiated a “stop loss” program to
block normal retirements and separations;

(11) The Army has been reduced in size to 339 ships, its lowest level
since 1938, necessitating the redeployment of
the only overseas homeported aircraft car-
rier from the Western Pacific to the Medi-
terranean to support Operation Allied Force;

(12) In 1998 just 10 percent of eligible car-
rier naval aviators—27 out of 261—accepted
collocation bonuses and remained in serv-

ice;

(13) In 1998 48 percent of Air Force pilots el-
igible for continuation opted to leave the service.

(14) The Army could fall 6,000 below Con-
gressionally authorized troop strength by the end of 1998.

(b) Sense of Congress:

(1) It is the sense of Congress that—

(A) The readiness of U.S. military forces to
execute the National Security Strategy of
the United States is being eroded from a
combination of declining defense budgets and
expanded missions;

(B) There may be missions to which the
United States is contributing Armed Forces
from which the United States can begin dis-
engaging.

(c) Report Requirement.

(1) Not later than March 1, 2000, the Presi-
dent shall submit to the Committee on
Armed Services of the Senate and the Com-
mittee on National Security of the House of
Representatives, and to the Committees on
Appropriations in both Houses, a report
prioritizing the ongoing global missions to
which the United States is contributing
troops. The President shall include in the re-
port a feasibility analysis of how the United
States can:

(1) Shift resources from low priority mis-
ions in support of higher priority missions;

(2) Consolidate or reduce U.S. troop com-
mitments worldwide;

(3) End low priority missions.

The PRESIDING OFFICER. The
Hutchison amendment will be laid
aside.

AMENDMENT NO. 478

(Purpose: Relating to chemical
demilitarization activities)

Mr. WARNER. Mr. President, I send
an amendment to the desk on behalf of
Mr. WYDEN and Mr. SMITH of Oregon.

The PRESIDING OFFICER. The
clerk will report.

The assistant legislative clerk read as follows:

The Senator from Virginia [Mr. WARNER],
for Mr. SMITH of Oregon, for himself, and Mr.
WYDEN, proposes an amendment numbered
478.

The text of the amendment is print-
ed in today’s RECORD under “Amend-
ments Submitted.”

The PRESIDING OFFICER. The
Wydensmith amendment will be set
aside.

AMENDMENT NO. 479

(Purpose: Expressing the sense of the Senate
regarding settlement of claims with re-
spect to the deaths of members of the
United States Air Force resulting from the
accident off Namibia on September 13, 1987)

Mr. WARNER. Mr. President, I send
an amendment to the desk on behalf of
Mr. THURMOND.

The PRESIDING OFFICER. The
clerk will report.

The assistant legislative clerk read as follows:

The Senator from Virginia [Mr. WARNER],
for Mr. THURMOND, proposes an amendment
numbered 479.
(a) FINDINGS.—The Senate makes the following findings:

(1) On September 13, 1997, a German Luftwaffe Tupolev TU–154M aircraft collided with a United States Air Force C-141 Starlifter aircraft off the coast of Namibia.

(2) As a result of that collision nine members of the United States Air Force were killed, namely Staff Sergeant Stacey D. Bryner, 28, pilot, Byrns Road, Maryland; Airman 1st Class Justin R. Drager, 19, loadmaster, Colorado Springs, Colorado; Captain Robert W. Evans, 31, flight engineer, Garrison, Kentucky; Captain Jonathan B. Ramsey, 27, pilot, South Boston, Virginia; Senior Staff Sergeant Michael J. Schrock, 27, loadmaster, Fosterville, Pennsylvania; Captain Peter C. Vallejo, 34, aircraft commander, Crestwood, New York; and Senior Airman Frankie L. Walker, 23, crew chief, Windber, Pennsylvania.

(3) The Final Report of the Ministry of Defense of the Defense Committee of the German Bundestag unequivocally that, following an investigation, the Directorate of Flight Safety of the German Federal Armed Forces assigned responsibility for the collision to the Aircraft Commander/Commandant of the Luftwaffe Tupolev TU–154M aircraft for flying at a flight level that did not conform to international flight rules.

(4) The United States Air Force accident investigation report concluded that the primary cause of the collision was the Luftwaffe Tupolev TU–154M aircraft flying at an incorrect flight altitude.

(5) Procedures for filing claims under the Status of Forces Agreement are unavailable to the families of the members of the United States Air Force killed in the collision.

(6) The families of the members of the United States Air Force killed in the collision have filed claims against the Government of Germany.

(7) The Senate has adopted an amendment authorizing the payment to citizens of Germany of a supplemental settlement of claims arising from the deaths caused by the accident involving a United States Marine Corps EA–6B aircraft on February 3, 1998, near Cavalese, Italy.

(b) SENSE OF SENATE.—It is the sense of the Senate that:

(1) The Government of Germany should promptly settle with the families of the United States Air Force killed in a collision between a United States Air Force C-141 Starlifter aircraft and a German Luftwaffe Tupolev TU–154M aircraft off the coast of Namibia on September 13, 1997.

(2) The United States should not make any payment to citizens of Germany as settlement of such citizens’ claims for deaths arising from the accident involving a United States Marine Corps EA–6B aircraft on February 3, 1998, near Cavalese, Italy, until a comparable settlement is reached between the Government of Germany and the families described in paragraph (1) with respect to the collision described in that paragraph.
requirements for equipment and resources, as well as installations from which they provide combat power. In the Air Force there is a very simple way to measure power, you can count the senior officers—specifically the generals and admirals who make the decisions for their components. In the Army there are a total of 357 general and flag officers. In the Air Force the number is 282. When compared to the 118 United States Army Reserve General Officers and the 75 United States Air Force Reserve General Officers or the 195 Army National Guard General Officers and the Army and Air Force National Guard, the answer is one three-star—the Chief of the National Guard Bureau who represents both the Army and the Air National Guard. This means that in the case of the Army, Navy, Air Force, and Marine Corps Reserves and the Army Reserve Components, the Army Reserve: the Chief, Army Reserve has full responsibility for $3.5 billion of fiscal year 1999 appropriations—nearly triple that ($1.2 billion) of a three-star general in the field and over 62% of that ($5.6 billion) of a four-star general in the field.

The Commander Naval Reserve provides 51 percent of the Navy’s combat forces, 46 percent of the Combat Support capability, and about one third of the Combat Service Support forces. Likewise, the Air National Guard is a fully integrated partner in the theater airlift capability, 45 percent of the aerial tanker forces, 34 percent of the fighters and 36 percent of the Air Rescue resources.

The Air Force Reserve, 74,000 strong, with 30 percent of the Air Force Reserve providing 20 percent of the Air Force and 30 percent of the theater airlift capability. The Air National Guard and Reserves together provide 20 percent of all U.S. tactical air. The Marine Corps Reserve provides the Marine Corps the following: 100 percent of the adversary aircraft, 100 percent of the civil affairs groups, 50 percent of the theater missile defense, 50 percent of the tanks, 40 percent of the force reconnaissance, 40 percent of the air refueling, and 30 percent of the artillery. We find similar core competencies in the Army Reserve where the USAR provides 97% of Civil Affairs units, 81% of all psychological units, 100% of Chemical Brigades, 75% of Chemical battalions; and 85% of all medical brigades or roughly 47% of all Army Combat Support Service.

What are the implications for the Reserve Components? Well, when reserve commanders, by virtue of their ranks, are outgunned so to speak by active counterparts, it means that the men and women in the Reserve Components, which are deploying more and more frequently, might be deploying with less than the best resources because of the type of unit, where it fits in the equipping matrix or the deployment matrix. I am greatly concerned that ALL TROOP’S training they need before they deploy. I am concerned you see because I was an Army reservist for 13 years and understand what it means to be on the short end of things they need like professional development training or specialty training.

Admittedly, in some cases there are valid reasons for these disparities. In other cases there are not. What is clearly needed is a level playing field to ensure that the limited defense resources, whether equipment, personnel, or training slots, are fairly distributed. Because the nation has come to depend on such a great extent on the readiness of the Reserves and the National Guard, decisions taken within the Pentagon must be discussed, made and agreed to among individuals more nearly alike in authority. To expect a two-star major general to compete
equally with three- and four-star generals is unrealistic. To not compete for funds on an equal basis is to guarantee the command structure the advantage in the mission it is asked to perform.

The need for three star ranks for the Reserve and Guard chiefs has been understood for years. In 1989, a study by General William Richardson recommended elevation of the Chief, Army Reserve to (four-star) general. In 1992 the Hay Group, which reviewed all Reserve Component general and flag officer billets, specifically recommended elevation of the Chiefs of the Army, Navy and Air Force Reserve and the Directors of the Army and Air Force National Guard to three-star rank. In 1992, an independent commission chaired by General John Foss, USA (Ret) recommended elevation of the three-star positions, does not exacerbate that situation by increasing the overall numbers of senior officers in the Department of Defense. This overabundance of high grade officers is not the case for the Navy and the Marines, who are not now flush with senior grade billets; therefore, my amendment does provide new billets that the Navy and Marines really would need.

Mr. President, I am very pleased today that Chairman WARNER, Senator LEVIN, and others who have been working on this bill have seen it fitting to agree and to accept as an amendment that there will be a series of three-star ranks given to the Reserve Forces of the United States. That is a critically important matter.

For a few minutes, I would like to explain why it is equitable and fair and why this will be an important step forward for the Reserves. I served for 13 years in the Army Reserve. In the unit I served there was a chief of staff. I remember getting out after 13 years and he remained in and was activated for 6 months for Desert Storm. Reservists all over America, like those in the 11th, to 14th out of 15 that I served during Desert Storm, 33,000 have now been called up for the Kosovo activities.

In Desert Storm, in Kuwait, the Iraq war, 33 percent of the forces committed to that war were Reserves or National Guard commanders. It is here when I talk about the Reserve components. They play a critical role. Yet, in our allocation of rank, they have not been treated, in my opinion, fairly. It impacts on them when they seek to make sure that the interests of the National Guard and Reserves are properly taken care of. When the brass sits around the table and decides how we are going to deal with the limited amount of resources available, the Army Reserve, the Air Force Reserve and the Marine Reserve—their officers sit there with just two stars. They do not have the same level of clout that they would otherwise have.

I would like to share a few things with you. I have some charts that deal primarily with the United States Army Reserve, but the numbers are similar regarding the Navy, Air Force, and the National Guard units. The Chief of the Army Reserve is now a two-star general. In the course of his duties, he is required to evaluate 57 brigadier generals. That is one star, and there are 42 major generals with two stars just like himself. That is a responsibility he has, whereas in the Active Army a four-star general is only required to evaluate 31 brigadier generals, one star, and ten major generals, two stars.

This shows you what a four-star has responsibility for and what the Chief of Army Reserve has. In the Active Army, a three-star general is responsible for evaluating an average of just sevenbrigadier generals and two major generals, but he has a higher rank than the Chief of the Army Reserve who has to rate 57 brigadiers and 42 major generals.

It strikes me that we have gone a little bit too far in containing the rank available for the important position of Chief of Army Reserve.

The Chief of the Army Reserve also, for example, has full responsibility for $3.372 billion in the fiscal year 1999 appropriations for the Army Reserve and the Guard. That was the turning point, a recognition for those men and women who so proudly and in a great deal of sacrifice in terms of their private lives—because they have to balance a full-time job in most instances with Reserve and Guard commitments requiring them to perform in their obligations—contribute that time to their desired slots in the Reserve and the Guard.

Therefore, I strongly support this amendment.
I want to clarify one thing. This does not add any more numbers of general or flag officers to the total number now in the Pentagon. The numbers that will be used for these promotions are to be drawn from a number within the ranks of each of the departments of the military.

Am I not correct on that?

Mr. SESSIONS. That is correct. In fact, there are 45, now, three-star generals in the Army. This would only involve two of those.

Mr. WARNER. Just by way of quick anecdote, when I was Secretary of Navy, I felt so strongly about the Naval Reserve that I promoted the then two-star admiral to the grade of three, and he served in that grade throughout my tenure. The day after I left the Department, the third star disappeared, and it never reappeared again until this moment when we agree to this amendment. I hope it will become law. I commend the Senator. I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

AMENDMENT NO. 477

Mrs. HUTCHISON. Thank you, Mr. President. I call up amendment No. 477. The PRESIDING OFFICER. The amendment is now pending.

Mrs. HUTCHISON. Thank you, Mr. President.

This amendment requires that the President and the Department of Defense come forward and report on the missions we have throughout the world.

One thing that has become very clear to me as I have visited with our troops—whether it is in Saudi Arabia or Kuwait, whether it is in Bosnia or in Albania just 2 weeks ago—is that our troops are overdeployed.

Secretary Bill Cohen said in testimony just last week to the Defense Appropriations Committee that we have either too few people or too many missions. The fact is that this is beginning to show the wear and tear on our military. Between 1986 and 1998, the number of American military deployments per year nearly tripled at the same time that the Department of Defense budget was reduced by 38 percent. There is no question that our military is stretched. No one disagrees with that.

The Department of Defense is asking for help. Congress realizes that this is a problem and has continually tried to increase the military spending, including pay raises for our military to give them more chances to live a quality of life. But the fact is that we have to do something about either overdeployment or too few numbers. In fact, our present military strategy is to deter and defeat large-scale cross-border aggression in two distant theaters in an overlapping timeframe.

We have the deterrence of Iraq and Iran in southwest Asia and the deterrence of North Korea in northeast Asia. Initially, we initiated a large-scale cross-border theater requirements. In addition to that, we have 120,000 troops permanently assigned to those theaters and 70,000 in addition to that assigned to non-NATO, non-North Atlantic Treaty Organization, and other countries. The United States has more than 6,000 in Bosnia-Herzegovina and many others around the world. What we need to do is to start to prioritize where our missions are and where American troops should be deployed.

On May 27 of this year, the Secretary of the Air Force announced a stop-loss program that places a temporary hold on transfers, separation, and retirement from the Air Force. This is a decision that is normally reserved for wartime or severe conflicts. And, yet, we now have in place that no one can separate from the Air Force.

My amendment says it is the sense of Congress that the readiness of our U.S. military forces and the national security strategy is being eroded from a combination of declining defense budgets and expanded mission. It says to the President that we must have a report that prioritizes ongoing global missions that the President shall include a report on the feasibility and analysis of how the United States can shift resources from low-priority missions in support of high-priority missions, and consolidate the use of U.S. troop commitments worldwide, and end low-priority missions. This is a report that the President would make through the Department of Defense to prioritize these missions.

I believe the Department of Defense has been looking for this type of opportunity to prioritize the missions we are going to look at the wear and tear on our military and we are going to have to make some final decisions. I think when we get this report we will be able to see if, in fact, we need more military and we need to “ramp up” the military force strength in our country or whether we can prioritize the overseas missions and stop the overdeployment and the mission fatigue that so many of our military people have.

I am very pleased to offer this amendment. I think it is a step in the right direction. It is a positive step toward relieving our very stretched military. Certainly, as we are watching events unfold in Kosovo and we are seeing more and more of our military being called up, I think it is time for Members to assess everywhere we are in the world and ask the President to prioritize those. Then Congress can make a judgment as to whether or not we need to ramp up our military force structure or ramp down the number of deployments that we have around the world.

I ask that the amendment be agreed to.

Mr. WARNER. I commend the Senator from Texas. This is a very important amendment. I am a cosponsor. I believe it is acceptable on this side.

Mr. LEVIN. Mr. President, the amendment is acceptable here. It performs a useful purpose. The Defense Department has in the past given the Senate these lists, but this updates it and gives us a little more detail. I think it is very important we know all of our missions and how many people are involved around the world.

We have no objection to it at all.

The AMENDMENT NO. 446

Mr. REID. I ask unanimous consent that we return to the amendment number 446. I also ask unanimous consent that the two-speech rule not apply to the remarks about which I am about to make.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, the country established the independence of the weapons laboratory directors for a reason. We are lucky to have had the weapons laboratories that have been such an important, integral part of this country. They are one of the main reasons the cold war ended. They have been established independently so that the President and the Congress could expect independent and objective recommendations of the Department of Defense with regard to the safety and reliability of nuclear weapon stockpile. We are talking about thousands of nuclear warheads.

The problem in the world today is the fact that we have too many nuclear warheads, but those that we have must be maintained to be safe and reliable. It is a responsibility of our weapons laboratories to make sure that, in fact, is the case.

This amendment, No. 446, strips our laboratory directors of this independent objective status. The amendment makes the laboratory directors directly subject to the supervision and direction of the administration.

What this means, in very direct language, is that we will get the opinion of the administration regarding stockpile safety and reliability—not the lab director’s expertise and, therefore, their opinion. They will say what the President tells them to say, what the administration tells them to say—not what their scientists and engineers tell them is appropriate with these weapons of mass destruction. There will no
longer be any reason to believe that stockpile assessments are founded on scientific and technical fact.

If this amendment comes to be we should just declare the stockpile adequate and simply not bother evaluating it for safety and reliability. This would be a tragedy not only for this country but the world.

That is the reason that the Secretary of Energy, Bill Richardson, wrote a letter yesterday to the chairman of the Armed Services Committee, the senior Senator from Virginia. He said, among other things in this letter, "The proposal would effectively cancel my 6-month effort to strengthen security at the Department in the wake of the Chinese espionage issue," and he goes on to say if this proposal is adopted by the Congress, "I will recommend to the President not to veto the defense authorization bill.

This has gone a step further, separate and apart from the letter—the President will veto this bill if this language is in the bill.

The proposal would reverse reforms in the Department of Energy. According to the Secretary of Energy, still referring to this letter to Chairman WARNER:

This proposal would reverse reforms in the Department of Energy going back to the Bush Administration by placing oversight responsibilities within defense programs. A program would be in charge of its own security oversight, its own health oversight and its own safety oversight.

He says the fox will, in fact, be guarding the chicken coop.

Secretary Richardson says in the final paragraph of this letter:

In short, I rise in strong opposition to this amendment. As I have said earlier today, this amendment is not going to go away. This deals with the security of this Nation. When I finish speaking, there are other Senators wishing to speak. I see the junior Senator from New Mexico who is going to speak; the senior Senator from Illinois said he will speak, we will have Senator BOXER from California speak. It will take a considerable period of time before enough is said about this amendment...

If adopted, this amendment would make the most sweeping changes in the Department structure and management since the Department's creation in 1977. This amendment fundamentally overturns the most basic organizational decisions made about the Department when it was created. It does it without any congressional hearings, without any oversight hearings, without any investigations having taken place. These changes will result in decreased scientific capabilities at the Department of Energy. The defense National Laboratories will be tremendously compromised as scientific institutions.

The weapons laboratories have always been held out as being scientific institutions, not political institutions. Those who deal with these laboratories—and I had the good fortune the last 3 years to be the ranking member of the Energy and Water Subcommittee that appropriates money for these laboratories—have found the people that work in these laboratories to be some of the most nonpolitical people I have ever dealt with in my entire political career. They are not involved in politics. They are involved in science. We should not change that.

The proposal would reverse reforms in the Department of Energy going back to the Bush Administration by placing oversight responsibilities within defense programs. A program would be in charge of its own security oversight, its own health oversight and its own safety oversight.

He says the fox will, in fact, be guarding the chicken coop.

Secretary Richardson says in the final paragraph of this letter:

In short, I rise in strong opposition to this amendment. As I have said earlier today, this amendment is not going to go away. This deals with the security of this Nation. When I finish speaking, there are other Senators wishing to speak. I see the junior Senator from New Mexico who is going to speak; the senior Senator from Illinois said he will speak, we will have Senator BOXER from California speak. It will take a considerable period of time before enough is said about this amendment...

If adopted, this amendment would make the most sweeping changes in the Department structure and management since the Department's creation in 1977. This amendment fundamentally overturns the most basic organizational decisions made about the Department when it was created. It does it without any congressional hearings, without any oversight hearings, without any investigations having taken place. These changes will result in decreased scientific capabilities at the Department of Energy. The defense National Laboratories will be tremendously compromised as scientific institutions.

The weapons laboratories have always been held out as being scientific institutions, not political institutions. Those who deal with these laboratories—and I had the good fortune the last 3 years to be the ranking member of the Energy and Water Subcommittee that appropriates money for these laboratories—have found the people that work in these laboratories to be some of the most nonpolitical people I have ever dealt with in my entire political career. They are not involved in politics. They are involved in science. We should not change that.
These two very competent managers are completing this bill, if we get rid of this, completing this bill in 4 days. We should be proud of them.

There are so many important things in this bill that need to be completed that we should do that. If my friends on the other side—my friends, the Senator from Arizona, and the senior Senator from New Mexico—if they really think there are problems in this regard I will work with them. I will work from my position as the ranking member of the Energy and Water Subcommittee. I will do whatever I can to make sure, if they believe a bill needs to come forward on the floor dealing with these things, we would not object to a motion to proceed, that they could bring this bill forward on the floor. We do not want to hold up this bill. But the bill is crucial in the Department of Energy. Anything we are doing on this side but because of this mischievous legislation. I say to my two friends, the Senator from Arizona and the Senator from New Mexico—who are not on the floor; they are two Senators for whom I have the greatest respect—this is not the way to proceed on this. No matter how strongly they feel about what went on with the Chinese espionage, whatever the reasons might be, let’s work together and see if, in fact, after we go through the normal legislative process, with hearings, with committees of jurisdiction, that their method is the way to proceed. Certainly, we are not going to proceed on an afternoon with a bill of this importance, without, I repeat, committee hearings and the other things that go into good legislation.

These sweeping changes are being proposed with no supporting analysis, no public record. Indeed, the changes to be made fly in the face of past recommendations made by distinguished experts and past reports of congressional hearings on the subject—DOE Organization, Reorganization and Management.

These changes are firmly opposed, and that is an understatement, by the administration, and I think we should pull this amendment so we can go forward on this bill. The absurdity of this amendment is even more striking when you see who the senior management officials in the Department of Energy are at this time. Think of this. It needs all of our attention and energy because we must demonstrate with high confidence that this job can be done.

We have developed a program called subcritical testing. What does that mean? It means that components of a nuclear device are tested in a high explosive detonation. The fact is, the components cannot develop into a critical mass, necessary for a nuclear detonation. Subcritical is subcritical. As a result of the developments in computerization, they are able to determine what would have happened had the tests become critical. We are working on that. We think it works, but there is a lot more we need to do. We need, for example, to develop computers that are 100 times faster than the ones now in existence. Some say, we need computers 1,000 times faster than the ones now in existence to ensure these nuclear weapons, nuclear devices, are safe and reliable.

This tremendous job is made even more difficult by all the other problems with managing the nuclear stockpile. For example, we have to clean up the legacy of the cold war at our production facilities. We are spending billions of dollars every year doing that. We need to develop the facilities and skills for stockpile stewardship. We need to maintain an enduring, skilled workforce.

The people who worked in this nuclear testing for so long are an aging population. We have to make sure we have people who have the expertise and the ability to continue ensuring that these weapons are safe and reliable. We need to provide the special nuclear materials for the stockpile, because the material that makes up a nuclear weapon does not last forever. Tritium, for example, has a life expectancy in a weapon of maybe 12 years. Weapons have to be continually monitored to determine if they are safe and reliable.

All of these things are complicated by the discovery that some of our most closely guarded nuclear secrets about our stockpile have been compromised.
over the past 20 years. That makes it even more difficult and makes it even more important that we proceed to ensure that we are doing everything possible to do that our nuclear stockpile is safe, that it is not seen by others that should not see the secrets that go into our nuclear stockpile. We should not be determining the afternoon before the Memorial Day recess how we are going to do that.

Secretary Richardson is one of the most open, available Secretaries with whom I have dealt in my 17 years. He is open to the majority; he is open to the minority. We should not do this to him. He is a dedicated public servant. We need to concentrate on the most important things right now, not later. I do not think an ill-conceived administrative change—and that is what it is; we are legislating administrative change now—to say that this most important, difficult job is being managed—is the most important thing we can do right now. Clearly, it is not. We have far more pressing matters to attend to in the nuclear stockpile.

We talk about the stockpile, but it is a nuclear stockpile. It is something we have to maintain closely, carefully, to make sure it is safe and reliable. We need to improve our computational capability; I said by 100, others say by 1,000 or more, beyond the advances we have already made. That is where we need to direct our attention. We need to develop new simulation computer programs that will make effective use of these advanced performance machines. I have been in the tunnels where these subcritical tests are conducted. I have been in the tunnels where the critical tests were conducted. We need to continue, I repeat, making sure these weapons of mass destruction are safe and reliable.

We need to design, as I say, advanced experimental facilities to provide the data for this advanced simulation capability.

We need to hire and train the next generation of weapons physicists and technicians before our experienced workforce really withers away.

We have to continue the training of these individuals, not only continue the training but we have work for them to do, which we will surely do.

We need to work to improve and more effective controls in how we do these jobs to ensure no further environmental contamination at our working sites. Hanford, that is an environmental disaster; Savannah River, environmental disaster. We cannot let that take place anymore.

We should be directing our attention to those efforts, not legislating on a bill that we should have completed by now. We could have completed this bill, and I think it will do in the future some way to get rid of this amendment.

We need to establish better and more effective controls in how we do those jobs, making sure we do not have Savannah Rivers or Hanford, WA, sites where we are spending billions upon billions of dollars in those places environmentally sensitive and clean.

Just as important—maybe more important—we need to implement effective security measures that will protect our secrets without unnecessary interference in this very important work. Whatever we do in this terribly important job, we need to do it right.

There is neither the time nor the money to make mistakes. This proposed change in management of the nuclear weapons program is not the right thing to do right now. I feel fairly confident, having spent considerable time speaking to Secretary Richardson, that he is really dedicated to doing the right thing. He does not want to rem-"
of activities in the Department of Energy. Security of nuclear materials and information is necessary for activities that would not be included in the administration proposed by this amendment. This would require separate security organizations to undertake the same and other very similar functions. There is enough money to allow this kind of inefficiency to creep into the weapons program.

The Secretary of Energy and the President of the United States oppose this amendment. The President promises to veto the defense authorization bill if it is included in the bill. I personally oppose this proposal for the reasons I have mentioned, and many other reasons that at the right time I will be happy to discuss.

I have worked with the senior Senator from New Mexico now for 3 years as ranking member, and many other years as a member of his subcommittee. I just think there is a better way to do this. I know of the time and effort spent with the Armed Services Committee, which I believe this amendment compromises the National Laboratories. I believe this amendment compromises the National Laboratories.

I urge my colleagues to vote against this amendment or to vote for the motion to table, which I am sure will precipitate an opportunity to vote on this ill-conceived and untimely measure.

Mr. BINGAMAN addressed the Chair. The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that my remarks not count against the two-speech rule. The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, let me first just say that I have had a chance now to read the amendment. We received it at about 1:15, about 10 minutes into the description of the amendment from thet Department of Energy.

I have had that chance to read it. It is really three separate provisions. I just want to briefly point out that two of them are totally acceptable to this Senator, at least as I see it. The first, of course, would put into statute the provision establishing an Office of Counterintelligence in the Department of Energy. This is something which was done as a result of President Decision Directive 61 in February of 1998. It is something which the previous Secretary of Energy has done administratively. This Secretary has carried through on that. Clearly, this is a good thing to do, and putting it in statutory form is also helpful.

So I am not quite sure with that part of the amendment at all. I would support that. In fact, I point out that those provisions, with very few changes, are in the underlying bill. But I can certainly agree to whatever changes the Armed Services Committee would like to see in that section.

The second part of the three parts in this bill is establishing the Office of Intelligence. Again, I believe this is totally appropriate. Again, this is something that the administration has already done. But if we go into this, clearly there can be a good argument made that we should put this in statute. I have no problem with that. Again, the underlying bill which we are considering has in it the establishment of the Office of Intelligence. So if this version of that legislative provision has some improvements in it, that certainly is appropriate. I do not oppose that.

The third part of the amendment is the part which I find very objectionable. Let me use the rest of my time to just describe the nature of my concern about the rest of it.

The third part of the amendment is the part designated "Nuclear Security Administration." This sets up a totally new organization within the Department of Energy which is, as my good friend and colleague from Nevada said, by far the most far-reaching reorganization of the Department of Energy since that Department was created 22 years ago.

The reasons I object to this provision, as it now stands, are several. Let me start by saying that I object to it because of the procedure we followed in getting to where we are today. This is an important proposal. It has far-reaching ramifications. Much of what we do here in the Senate is impacted by the law of unintended consequences, and this is a prime example of something that is going to produce substantial unintended consequences, in my opinion.

We have had many studies about the problems in the Department of Energy. Some of those have been very useful. None of those studies have suggested that we solve the problems with this solution.

The last time we had a hearing on the problems of organization in the Department of Energy was in September of 1996. That was nearly 3 years ago. I sit on the committee, as does my colleague from New Mexico, as do many of us involved in this discussion. I sit on the committee that has jurisdiction over this Department, the Energy and Natural Resources Committee. In that committee, we have had a great many hearings on the reorganization problem. We have had six hearings in that committee alone. We have had one joint hearing with the Armed Services Committee, which I also sit on. That is seven hearings.

In none of those hearings have we considered any of this set of recommendations. In none of those hearings have we asked the Secretary of Energy to come forward and explain what changes he thinks might be appropriate, whether or not those kinds of proposals might be appropriate as a way to fix the problem.

My friend, the Senator from Arizona, said it would be a derogation of our duty if we didn't go ahead and pass this this afternoon. I say it is almost a derogation of our duty if we do pass it this afternoon, because we will not have given the administration a chance to react. We will not have given the administration a chance to explain why they oppose this. I think that is the only reasonable course to follow.

Another suggestion was made by my colleague from Arizona that although Secretary Richardson had objected to an earlier draft, he was fairly confident that those problems had been resolved in the latest bill, which is the one we received at 1:15.

I have in my hand here—I will ask unanimous consent that it be printed in the RECORD— a letter from Secretary Richardson just received a few minutes ago in which he says:

I have reviewed the most recent version of the amendment being offered by Senator Domenici to the Defense Authorization bill. I am still deeply concerned that it moves the Department of Energy and its effort to improve security in the wrong direction. I remain firmly opposed to the amendment, and I want to reiterate my intention to recommend to the President that he veto the Defense Authorization bill if this proposal is adopted by the Congress.

He goes on to explain in more detail why that is his view.

I ask unanimous consent that the letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

Hon. JEFF BINGAMAN, U.S. Senate, Washington, DC.

DEAR SENATOR BINGAMAN: I have reviewed the most recent version of the amendment being offered by Senator Domenici to the defense authorization bill. I am still deeply concerned that it moves the Department of Energy and its effort to improve security in the wrong direction. I remain firmly opposed to the amendment, and I want to reiterate my intention to recommend to the President that he veto the Defense Authorization bill if this proposal is adopted by the Congress.

As I stated in my letter of May 25, 1999, our security program deserves a senior departmental advocate, with no missions “conflict of interest” to focus full time on the security mission. The requirements of the security program should not compete with other programmatic priorities in Defense Programs for the time and attention of the senior management of that program, as well as for budgetary resources. Resource competition has been a core problem of Department of Energy security for decades, and we have seen firsthand that inherent conflicts arise and security suffers when the office that must devote resources to the security mission has a competing primary mission, such as Stockpile Stewardship. It is critical that we have a separate office setting security policy and requirements separate from financial and other pressures from limiting security requirements and operations.

Also, it is important to recognize that the Environmental Management program has significant security responsibilities for securing large quantities of nuclear weapons
Mr. BINGAMAN. So procedurally, we should not be here on a Thursday afternoon, where the very distinguished manager of the bill, the chairman of the Armed Services Committee, has said we need to finish this bill in the next hour and a half. We need to leave town with their plane reservations. We have to fly out. And by the way, before we leave, let’s reorganize the Department of Energy.

This is not a responsible way for us to proceed. Accordingly, I do object to the procedure.

Let me talk about the substance. My friend from Arizona, who is a prime sponsor on the bill, described the bill fairly accurately when he said, this bill, this provision, the third part of the amendment that I have said is objectionable, the establishment of this Nuclear Security Administration, says this bill creates a stovepipe. That is his exact quote. I agree that that is what happens.

Let me use this chart beside me here to describe very briefly how the Department of Energy functions now.

The Secretary of Energy is in charge of the Department of Energy. There are, under the Secretary, various sub-departments or defense programs. We have environmental management, energy efficiency, nuclear nonproliferation, fossil energy and science.

With regard to each of those, the Secretary has established—and much of this has been done by Secretary Richardson in the 6 months he has been there—some crosscutting responsibilities. Some people with crosscutting responsibilities are directly answerable to the Secretary. One is the director of counterintelligence. This was a major step forward, and I think everybody who sat through these hearings would acknowledge that this was a major step forward. This was one of the actions that was taken, really, by Secretary Richardson’s predecessor, when Ed Curran, who is the gentleman who has been put in the Office of Director of Counterintelligence, was hired. This was in April of 1998.

The other individual, the director of counterintelligence, under the administrative procedure now in place, and under the provisions of this bill, has crosscutting responsibility for counterintelligence in each of the parts of the Department of Energy; in fact, in each laboratory. Mr. Curran has testified to various committees here that he will have a person who is responsible to him and who has authority by virtue of his position to demand certain actions on the issue of counterintelligence in each of our National Laboratories. That is as it should be. That is putting accountability into the counterintelligence system. It is a good step forward. That is a step in the right direction.

A second crosscutting responsibility is the security czar on security policy. A third is this independent Safety and Security Oversight Office that Secretary Richardson has established.

So at the present time there are those three entities that report directly to the Secretary on these issues related to security.

These are the reforms that Secretary Richardson has been trying to put into place. These are the reforms that are called for under Presidential Decision Directive 61, and they authorize administrative steps that have been taken by this Secretary of Energy. I believe the system is structured in a way that makes some sense.

Let me now show the stovepipe organizational chart, because we have one of those as well. This, as Senator Kyl indicated, is a major change, this third part; the establishment of this Nuclear Security Administration is a major change in the way the Department operates.

What essentially is done is you eliminate the defense programs portion of the Department of Energy and you rename that the “Nuclear Security Administration.” You put that in the so-called stovepipe. You may have no independent counterintelligence authority over how that agency functions. There will be no independent security oversight over how that agency, that independent agency or administration functions. There will be no environmental oversight, through the Department, on that. And there will be no oversight regarding health and safety factors relating to workers.

Under that we put all of the facilities that relate to nuclear weapons. One reason I am particularly concerned, frankly, about this, is that the two National Laboratories in my State would be in this stovepipe. I do not know that that is good for them long term. I have great doubts that that is good for them long term. I really do have doubts as to whether that is a wise course for us to follow.

One problem—and I think the Senator from Nevada referred to this—is that under this new arrangement, it makes it very clear with very specific language here; it says the administrator of this new stovepipe agency, who shall report directly to and shall be accountable directly to the Secretary, “the secretary may not delegate to any department official the duty of serving as administrator.”

Presumably, what that means is that Secretary Richardson could not ask his Under Secretary, in this case Dr. Moniz, to take on any of the responsibility for supervising what is going on in this so-called stovepipe agency. Regardless of the experience or the qualifications of Secretary Moniz, or any other Under Secretary, Secretary Richardson would have to personally exercise that oversight, or it would not be exercised. That is clearly not a good management arrangement.

This stovepipe agency, as it is contemplated in this Nuclear Security Administration, eliminates the ability of the Secretary of the Interior to integrate important work on nuclear weapons with other important scientific work going on in the Department of Energy.

I believe very strongly that our laboratories and our nuclear weapons program are strengthened by the interaction that scientists and engineers in that nuclear weapons program have with other scientists and other engineers working elsewhere in the Department of Energy. That would be stopped. That would be much more difficult under this kind of a stovepipe arrangement. There is no prohibition against it happening here, but it is very clear that the head of this Nuclear Security Administration has all authority, and exclusive authority, for what goes on in his department, and there is very little incentive for anyone else to try to put work in those laboratories or interact necessarily with those laboratories on nonnuclear weapons activity.

As a result of this, I fear very much—and I know my good friend and colleague from New Mexico, Senator Durham, who is a co-sponsor of this amendment, says he believes that something like this amendment should be adopted by the Senate because it will keep the Congress, ultimately, after we confer with the House, from going even further and taking a step toward shifting some of this nuclear weapons responsibility to the Department of Defense.

My fear is somewhat different. My fear is that this is a first and sort of a logical step toward giving in that direction, and that if you are going to set up all of this nuclear weapons activity in a stovepipe and it is going to be cordoned off from the rest of the Department of Energy, as is proposed in this bill, I think we will go from that point to the point of saying let’s just cut this loose entirely from the Secretary of Energy and make it responsible to the Secretary of Defense.

I think that would be a serious mistake. That is a mistake that our predecessors had the wisdom to avoid. President Truman had the wisdom to avoid...
that. Those who set up the nuclear weapons program in this country decided early on that it should be in a civilian Department of Defense agency; and, clearly, the closer we move toward making this defense-specific, defense-only, I think we would be making a mistake.

Creating the stovepipe, in my view, does threaten the long-term vitality of our laboratories. I believe it threatens the long-term ability to attract people we need to these laboratories, to keep them world-class, cutting-edge scientific institutions.

I may be overdramatizing, but my own view is that we have seen the stovepipe model in action. Two years ago, I went to the Soviet Union and visited Chelyabinsk-70, also referred to as Shnezinsk. Shnezinsk is one of the nuclear sites. I have a series of questions. When you go there, you see how stovepipe organizations function. There is nobody there doing any research on solar energy. There is nobody there worrying about environmental problems that might be a result of research or work going on at that facility. There is nobody there interacting with much of anyone.

That is one of the big problems. That is why we have the nuclear cities initiative in this bill that we are trying to get going, to help these laboratories in Russia break out of the stovepipe and begin to interact with other elements in the society, with other scientists, and begin to apply their talents to other activities.

So I am sure this is well intentioned. I am sure this proposal is well intentioned, and I would like very much to have some hearings and bring in some experts to tell us what they think of this and allow the administration to give the House a response. I thought that is an appropriate course for us to follow. But my initial reaction, after reading it here for the last hour and a half, or 2 hours that I have had this, is that it does not do what the sponsors intend. It does not solve the problem of Chinese espionage. It does create or result in many other unintended consequences that will be long-term adverse to our nuclear weapons program.

Mr. DOMENICI. Mr. President, how much time has been used on the other side of the aisle with reference to this amendment?

The PRESIDING OFFICER. There is no time on this amendment.

Mr. DOMENICI. I understand that, but did somebody keep time?

The PRESIDING OFFICER. We will check the records.

Mr. DOMENICI. There is no need to do that. Let me say to Senator Bingaman, first of all, I believe that over the last 25 years, has been a major change. We have been on the Hill, 2 or 3 years, 6 or 7—and I am not casting aspersions in any way on anybody else, but I believe I have had as much to do with keeping the labs diversified as any single Member of Congress.

I believe we have done an exciting job in dealing with the cards that were dealt to us when we decided not to do anymore underground testing. And I believe what Senator Reed spoke about, which has the very fancy words surrounding it—"science-based stockpiled stewardship"—you have no idea how long it was difficult for me to put all four of those words together. I used to leave half of them off. But I think I have got it now. It was a very complicated department, and I mean on a laboratory system that, I regret to say to you and everybody, was broken down.

In fact, I am going to quote from some reports—all current ones, because they got back to me asking the Department of Energy, in terms of doing its work right for the nuclear weapons part—I haven’t seen an analysis about solar, but that is a little program, whether they run it or fund it. I have not seen a report in the last decade, and there are two within the last 6 years, that does not say the Department of Energy’s ability to handle nuclear weapons development is not broken to the core. That is principally because it is stuck in a department with so many other things to do that are, with reference to urgency, much different and much easier and not as important as nuclear weaponry and all that goes with it.

Yet, decisionmakers are making decisions on refrigerator efficiency, and then they move over and make a decision on nuclear weapons. I would almost say with certainty—but I am not going to say I will predict—if they don’t adopt this amendment—and we are going to stay here for a while and see if we are going to adopt it. Maybe some of you want to filibuster it. Some of you haven’t filibustered yet, so it might be exciting. But I can tell you, either this model or a totally independent department for nuclear weapons is going to be the aftermath of this espionage.

I am not worried that it is going to be the Department of Energy managing this because I think too many people have spoken out about that. But when those looking at the management end up saying it cannot fit in a department of the type that is the Department of Energy and be run in a regular, ordinary chain of command decision-making, which is what this proposal—you can allude to it as stovepipe. I choose the Marine concept that is chain of command—I almost would predict today—but not quite—that it will be one of those, freestanding. When, finally, it is determined what I have been frustrated with for years is that Department of Energy, perhaps you can manage the other aspects that are not so critical, but you can’t manage the nuclear part under the current environment. It needs dramatic change.

The reason we are on the floor and the reason we are going to finally get it done is because we are scared, because now it is not a question of efficiency and how long it takes to make decisions for nuclear weaponry. It is because we are frightened that we are getting kicked to death. So being frightened, we are going to fix something. This fix is not going to be a little tiny fix as we have done in the past. If anybody chooses to say this is the lab director’s “chunnel,” those 4 or 5 days it was created from its former underpinnings called ERDA, which was another department put together with bits and pieces from everywhere, they are right. It is the most significant proposal to streamline nuclear weaponry that has ever been put forward.

But let me suggest that this administration has had two reports, or three, suggesting that dramatic changes ought to be made, and nothing has been done of any significance.

Secretary Richardson, in the aftermath of what some have called the “greatest espionage” in our whole history, is busy and is to be admired and respected for trying to reform. But if you try to reform it, and you are the Secretary of Energy, and you are as diligent as Bill Richardson—and one who likes to run a lot of things, which I admire him for, and one who is a good politician, so he wants to do things politically acceptable, especially for the White House and those who work for— you will never come to the conclusion that this Department should be streamlined such that the Secretary has only one person to be responsible for the nuclear weapons and they will run it inside out, because in a sense it diminishes the role of the Secretary.

I don’t know whether Secretary Richardson does or not. But they are not in office more than 6 months, and they run around calling these great laboratories “chunnels,” those 4 or 5 days it was created from its former underpinnings called ERDA. “My State, “my laboratories.” It is just like: Isn’t this great? The Secretary of Energy has this big, $3 billion laboratory, and he calls it “my laboratory.”

I did not say Secretary Richardson does that. I have not heard him. But, if he did, he would be consistent with the other ones.

We have a suggestion here that is probably going to make it a little more difficult for Secretaries of Energy to manage these laboratories, those laboratories,” because they are going to be a laboratory system run by an administrator within the Department, whether he ends up being an Under Secretary or...
May 27, 1999

CONGRESSIONAL RECORD—SENATE 11297

an Assistant Secretary who is going to run the whole show.

For that reason, I do not think there are models such as this, there are. You can take a look at DARPA. You can take a look within the Energy Department at the nuclear Navy. It is different than this, but if you want to look at a model that is within a big department where you have something structured to handle a very important role and mission, there are such models. As a matter of fact, there are experts who say this is a good model, if you want to keep it within the department.

I want to add two other things, and I want to read some notes.

First, if this Senator thought for 1 minute that the implementation of this approach would minimize the diversification and versatility of these three major laboratories to do outside work for the government and others, I would pull it this afternoon. I don’t believe that will happen. I don’t believe it is inherent in this amendment. I believe that concern can be fixed with language, because the fact that it is so poorly managed under this structure that we have is not what is contributing one way or another to its versatility. It is the efficiency and effectiveness of the scientists that are making the laboratories multisectional, multipurpose, multifaceted and that do work beyond nuclear work.

Since my colleague asked that his first speech not be counted as two speeches, which I didn’t object to, I gather that the other side doesn’t intend to let us vote on this. I don’t know what we should do about that. I will meet with our leadership. If it is just up to me, I will debate it as long as we can tonight, and I will go home without it being completed and bring it up and take another week on it when we come back.

The time is now to fix this tremendous deficiency in terms of how our nuclear weapons and everything attendant to it are managed.

Secretary Richardson is doing a mighty job, but he will never fix it without reorganization and streamlining and chain of command that is provided in this amendment, which is not perfect and not the only one. But this is what it is intended to do.

Let me just read a couple of things. This is Admiral Chiles’ report, the so-called Chiles report of March 1, 1999:

Establish clear lines of authority within DOE. The commission believes that the disorderly organization within DOE has a pervasive and negative impact on the working environment. Furthermore, on recruitment and retention, accordingly the commission recommends that the Secretary of Energy organize defense programs—

That is what we are talking about.

In addition, consistent with the recommendations of the 120-day study, we recommend three structural changes.

They recommend three, for starters.

I use this because anybody, including my colleagues and Senator HIEF, who has today reported about how well the laboratories have done, would almost have to admit that they have done well in spite of the absolute chaotic condition with reference to sustained accountability within the laboratories as a piece of DOE.

Frankly, I have appropriated for 5 years—this is my sixth—the Committee on Energy and Water, which funds totally the laboratories, to some extent, not totally, with reference to nuclear work and to some extent on nonnuclear.

There were Congressmen asking that we create some new regional centers for headquarters, Albuquerque, for example, or a greater region somewhere in Texas and the like. We asked, rather than do what the appropriations fund a 120-day study. That was done. I am sure my colleague has that. If he doesn’t, his staff does.

I am going to quote from the executive summary of this, which is dated, incidentally, the 1997 report, which is not well served by the ES&H review—

At the bottom of page ES–1, “These practices”—after describing practices within this Department of Energy as it pertains to nuclear weaponry—are constituting the system. I am quoting.

They undermine accountability, making the entire system less safe. Further, the process prevents timely decisions and their implementation. Untold millions of dollars are wasted on idle plants and equipment awaiting approvals of various types, or on investments which age and become obsolete and expensive to maintain without ever having been used for the original productive purposes. Finally, the defense program has a job to do—maintenance of a nuclear deterrent, which is not well served by the ES&H review and approval process that drags on forever.

That is the current system of environmental safety and health review in this Department.

People worry about what this amendment is going to do.

Let me tell you. This report says that we are not well served by that which exists in the Department now, and an approval process that drags on forever helps no one.

There is much more to be read in the most current studies that kind of clamor for doing something dramatic and different.

The largest problem [says this same 120-day study on page ES–1] uncovered is that the defense program practices for managing safety, health and environmental concerns are based on nonproductive, hybrid, or centralized management practices that have evolved over the past decade. It goes on to say that because they have evolved doesn’t mean they are effective or operate.

I very much am pleased that Senator BINGANAGA yielded so I could have a few words. Senator, I will be back shortly, but I am called to the majority leader’s office to discuss this issue. It will not take me over 15 minutes, and I will return.

I yield the floor.

Mr. PRESIDENT. The Senator from Maine.

Ms. SOWNE. I rise to speak on behalf of an amendment I sponsored that was agreed to previously as part of the managers’ package.

The PRESIDENT OFFICER (Mr. GORDON). Without objection, it is so ordered.

Mr. HUTCHINSON. Mr. President, I rise in support of the Kyl amendment, which brings new security accountability and intelligent administration to the Department of Energy’s (DOE) nuclear weapons program.

The Cox report has shown us that we have ceded design information on all of our most sensitive nuclear warheads and the neutron bomb to China. These designs, our legacy codes, and our computer data have been lost because of lax security at our national labs (Los Alamos, Lawrence Livermore, Oak Ridge, and Sandia), incompetent administrations, and possibly, obstructions of investigations.

What have we lost because of this espionage? According to the Cox report, “Information on seven U.S. thermonuclear warheads, including every currently deployed thermonuclear warhead in the U.S. ballistic missile arsenal.” These warheads are the W–86, W–77, W–73, W–76, W–70, W–62, and W–56. China has also obtained information on a number of associated reentry vehicles. But it does not end there. China also has classified design information for the neutron bomb, which no nation has yet deployed. Other classified information, not available to the public, has also been stolen.

With this information, China has made a quantum leap in the modernization of its nuclear arsenal. China will now be able to deploy a mobile nuclear force, with its first deployment as soon as 2002.

The cost of these nuclear thefts is the security of the U.S. and the security of our allies in the Asia-Pacific. The ability to miniaturize and place multiple warheads on a single ballistic missile will have serious destabilizing effects in the region. India is watching China warily, as are Japan, South Korea, and Taiwan.

I hope that our troops in the Asia-Pacific will not have to suffer for a domino security failure. I hope that we will not have to pay for these thefts in American lives.

But the costs will not be limited to the Asia-Pacific region. We can bet that this information will not stay in the hands of China. China has supplied Iran, Pakistan, South Arabia, North Korea, and Libya with sensitive military technology in the past. We have no real guarantees that China will not spread our lost secrets again.
This fiasco of security did not happen by accident. There was a concerted effort by both the Chinese government to obtain this information and a lack of effort on part of certain individuals to protect those secrets. Janet Reno must be held accountable if she denied her own FBI the authority to investigate suspected spies. Likewise, Sandy Berger must be held accountable if he delayed notification of the President of the United States or if he delayed action on these security breaches.

Mr. President, for two decades we have left the door to our DOE facilities open to thieves. We have exposed our most sensitive details to China. It is time to secure the door of security.

We cannot reverse what has taken place. We cannot take back the information that has been stolen. But we must prevent further theft of our secrets.

The Kyl amendment takes necessary steps in enhancing security at our DOE facilities. It establishes increased reporting requirements to Congress and the President, as well as layers of checks and balances to knock down the stone walls of silence. This amendment also gives the Assistant Secretary of Energy for Nuclear Weapons programs statutory authority to competently administer our nuclear programs and enforce regulations.

But we must also recognize that this measure is not an iron sheath for our weapons secrets. Beyond espionage at our national labs, there have also been illegal transfers of sensitive missile defense information by Loral and Hughes, two U.S. satellite manufacturers, to China. With this information, China can improve its military command and control through communications satellites.

In its efforts to engage a "strategic partnership," the Clinton Administration loosened export controls, allowing satellite and high performance computer experts. Within two years of relaxing export controls, a steady stream of high performance computers flowed from the U.S. to China, giving China 600 supercomputers. Once again, China is using these supercomputers to advance military capabilities. These high performance computers are useful for enhancing almost every sector of the military, including the development of nuclear weapons.

We have not reached the bottom of this pit of security failures. The investigations will continue and Congress will hold the Administration accountable. In the meantime I urge my colleagues to support the Kyl amendment.

AMENDMENT NO. 418

Ms. SNOWE. Mr. President, Members of the Senate, the Senate has before it a matter of great concern to the American people. The Chinese government has been using the supercomputers and the high performance computers we have exported to China to enhance its military capabilities. These high performance computers are useful for enhancing almost every sector of the military, including the development of nuclear weapons.

Once our Armed Forces have become engaged in hostilities, I thank the chairman of the Senate Armed Services Committee, Senator WARNER, and Senator LEVIN, as well as minority and majority staffs of the Armed Services Committee and the Foreign Relations Committee for working with me on this initiative.

This amendment would impose a requirement on Presidents to seek multilateral economic embargoes, as well as foreign asset seizures, against governments with which the United States engages in armed hostilities. After 1 month of conflict in Kosovo, the Pentagon had announced that NATO had destroyed most of Yugoslavia's interior oil-refining capacity. At approximately the same point in time, we had the Secretary of State acknowledging that the Serbs had continued to fortify with imported oil their hidden armed forces in the province.

Just 3 weeks ago, the allies first agreed to an American proposal, one which had been put forward by this administration, to intercept petroleum exports bound for Serbia but then declined to enforce the ban against their own ships. On May 1, 5 weeks after the Kosovo operation had begun, the President finally signed an Executive order imposing an American embargo against Belgrade on oil, software, and other sensitive products.

Yet, NATO and the United States have paid a steep price for failing to impose a comprehensive economic sanction on Serbia from the beginning of the air campaign, which started in March. As recently as May 13, a Government source told Reuters that the Yugoslav Army continued to smuggle significant amounts of oil over land and water.

At the end of April, General Clark gave the alliance a plan for the interdiction of oil tankers coming into the Adriatic towards Serbian ports. To justify this proposal, he cited the fact that through approximately 11 shipments, the Yugoslavs had imported 450,000 barrels containing 19 million gallons of petroleum vital to their war effort. Let me repeat: 450,000 barrels, containing 19 million gallons of oil, that supported the war effort. Half of those 19 million gallons of oil would support them for 2 months; half of the 19 million gallons of oil supported the Serbian war effort for 2 months, yet we allowed 11 shipments to come through since the beginning of this air campaign.

Unfortunately, it has been economic business as usual for the Serbs as our missiles try to grind their will. The President declared on March 24 the beginning of the NATO campaign and set a goal of deterring a bloody offensive against the Muslim civilians. We know what happened.

I have a chart that illustrates a chronology of the situation when it comes to economic business as usual. We have issued the air briefings on March 21. Then on April 13, while we were adding more aircraft to the engagement, Serbia had reached the midpoint of receiving 11 shipments of oil from abroad.

Of course, on April 27, General Clark announced:

We have destroyed his oil production capacity.

NATO estimates of displaced Kosovars rise to 820,000. Serbia receives 165,000 barrels of imported fuel over a 24-hour period.

While we were adding more aircraft, it now had been a month later since the campaign began, we find they are still bringing in more oil. A month after the start, they were at the midpoint of receiving 450,000 barrels of oil. By the close of April, General Clark confirmed the destruction of Yugoslavia's oil production capacity. On the same day, however, the Serbs took in 165,000 barrels of imported oil. As I mentioned earlier in this chronology, while we are still bringing in the aircraft, they are still bringing in the oil. Interestingly enough, just today, in the Financial Times of London, General Wesley Clark was understood to have expressed concern about the oil issue when he briefed NATO ambassadors yesterday on the progress of the 9-week-old air campaign. He has expressed disappointment that U.S. proposals for using force to support the embargo, at least in the Adriatic, were rejected by other allies—notably France. NATO is still working out how the details of a voluntary "visit and search" regime under which the alliance warships would check on ships sailing up the Adriatic Sea. Let me repeat, they are still working out the details of a voluntary visit and search regime.

Now we are in the ninth week of the campaign, well over 400 aircraft, 23, 24 Apache helicopters, the President has called up 33,000 reservists, and they have yet to establish procedures for an oil embargo. They are still working out the details.

The article goes on to say the North Atlantic Council agreed this week to introduce the regime but has to approve the rules of engagement. It is clear that the air campaign is still being operated, and, obviously, the oil embargo, according to committee.

On May 1, when the President signed the Executive order barring oil and software receipts, there were 11 foreign oil shipments of 450,000 barrels. Milosevic has now received the last of the 11 April oil shipments, for a total of 450,000 barrels on the day when the President signed the Executive order banning the oil and software imports.

As of 3 weeks ago, the number of displaced Kosovars had topped 1 million, and NATO acknowledges the continuation—as we have certainly learned
today in the most recent news updates—of energy imports by the enemy. These imported energy reserves play a significant role in supporting Serbian ground operations.

The U.S. Energy Information Agency estimates that Yugoslavian forces consume about 4,000 barrels of oil per day. This fact means that if Serbian armed units in Kosovo used only one half of the imported fuel just from the month of April alone, they could have operated for nearly 2 months, just half the amount they imported in April, yet as we well know, the air campaign began on March 24.

It took nearly 1 month after the start of the NATO campaign, however, for Milosevic to uproot the vast majority of the ethnic Albanian population of the province. By the timeframe that NATO had claimed to destroy Serbia's oil refining capacity, which was mid to late April, as we have seen here when General Clark announced it on April 27, the Yugoslavians still managed to perpetrate Europe's worst humanitarian crisis since World War II. We now face the strategic and operational challenge of uprooting dispersed tank, artillery and infantry units in Kosovo. This challenge confounds NATO because our military campaign ignored the offshore economic base sustaining the aggression that we had pledged to overcome.

This example teaches us that military victory involves more than the decisive application of force. It also demands, as Operation Desert Storm so dramatically illustrated, a coordinated diplomatic and economic enemy isolation effort among the United States and its allies.

Iraq invaded Kuwait on August 1, 1990. On August 5, the United Nations Security Council, with only Cuba and Yemen in opposition, passed a resolution directing "all States" to bar Iraqi commodity and product imports. This action first helped to freeze Saddam in Kuwait before he could move into Saudi Arabia. The wartime coalition subsequently faced the more manageable task of expelling this dictator from a small country rather than the entire Arabian peninsula.

The point is, during Operation Desert Storm the President of the United States had worked in concert with the allies to establish an embargo. That was effective. What is difficult to understand is why the President and the NATO alliance did not agree to this at the outset? Why, at a time when we were conducting—initiating an air campaign, this oil embargo was not in place? We must always try to damage or destroy the offensive military apparatus of a hostile State, but as the Persian Gulf war taught us, it should also be starved of its resources.

No law can mandate an immediate multinational embargo. But this amendment that will be included in this reauthorization will make it more difficult for future Presidents to repeat the administration's mistake of waiting a month—and actually it is even more than that, because we do not have it in full force. There is no immediate impact of a voluntary embargo currently, as we have obviously heard today with General Clark's concerns about this issue that continues to fortify Milosevic's defenses. So we do not want future Presidents to repeat the mistake of waiting a month, waiting longer to allow the enemy to conserve fuel, to get more fuel and to be able to become more entrenched on the ground as we have seen Milosevic has done in Kosovo, and to cloud the prospects for victory.

The United States, as a matter of standing policy, should pursue an international embargo immediately. In fact, that should have been done even before the campaign had been initiated. That should have been part of the planning process. It should not have been an afterthought. It should not have been ad hoc. It should not have been a few days later we will get to it. In this case, obviously, it was more than a month and it is still running. It should be done immediately. If we are willing to place our men and women in harm's way in the middle of a conflict, in the midst of hostilities, then at the very least the ability of any adversaries to reinforce their military machine should cease. Dictators, tyrants, would further know in advance that we would wage a parallel diplomatic and trade campaign next to the military one to disable their war machinery.

This amendment is not micromanaging policy, but it provides increased tools, but take decisive action to break the aggression that we have seen Milosevic has done in Kosovo, and to cloud the prospects for victory.

So I hope this amendment will enforce greater clarity in our strategies of isolating our adversaries of tomorrow.

I am pleased the Senate has given its unanimous support of this amendment. I yield the floor.

Mr. LEVIN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative assistant proceeded to call the roll.

Mr. STEVENS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

Mr. LEVIN. Object.

Mr. REID. Mr. President, I ask unanimous consent that the quorum call be put in effect after I finish this statement. It will take about 5 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. Mr. President, I ask unanimous consent that the quorum call be put in effect after I finish this statement. It will take about 5 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

The remarks of Mr. STEVENS pertaining to the introduction of S. 1159 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. STEVENS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LEVIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. Mr. President, I ask that Senator Reid be recognized to talk about the bill for 10 minutes and that then the quorum call be reinstated.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

May 27, 1999
The Senator from Rhode Island is recognized.

Mr. REED. Mr. President, as a preliminary matter, I ask unanimous consent that Herb Cupo, a fellow in Senator Robb's office, and that Sheila Jazayeri and Eric Barry of Senator Johnson's staff be granted floor privileges during the debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REED. Mr. President, I rise today in support of S. 1058, the fiscal year 2000 defense authorization bill. As a new member of the Senate Armed Services Committee, I would like to thank Chairman WARNER and Ranking Member LEVIN for their leadership on this legislation and, also, the subcommittee chairmen and ranking members for their work. We need a very strong defense.

The staff of the committee has also given us able support and assistance throughout this process.

This bill represents a significant increase in funding for national defense, $289.8 billion. This is an $8.3 billion increase over the request of the Administration. I must admit that although I recognize the need for increasing defense spending, this is a substantial increase that puts tremendous pressure on other priorities of the nation. Nevertheless, I think at this time in our history it is important to reinvest in our military forces to give them the support they need to do the very critical job they perform every day to defend the United States.

I am also pleased that, given this increase, the committee has very wisely allocated dollars to needs of the services that are paramount. We have been able, for example, to increase research and development by $1.5 billion. In an increasingly technological world, we have to continue to invest in research and development if our military forces are going to have the technology, equipment and the sophisticated new weapons systems that they need to be effective forces in the world.

In addition, we have added about a billion dollars to the operation and maintenance accounts. These are critical accounts because equipment needs to be maintained and our troops need to be trained. These dollars are integral parts of an effective fighting force, and we have made that commitment.

In addition, we have tried with those extra dollars to fund, as best we can, the Service Chiefs' unfunded requirements. Those items they have identified—the Chiefs of Staff of the Army, Air Force, CNO of the Navy—are critical systems they think are vital to the performance of their service's mission. In this area, we have also looked at and dealt with a very critical problem, and that is recruitment and retention of the military forces. We are finding ourselves each month, in many services, falling behind our goals for enrolling new enlists to the military services and retaining the valuable members of the military services coming up for reenlistment.

This bill, which incorporates many provisions of S. 4, increases pay by 4.8 percent and significantly changes the retirement provisions to those that were adopted in the 1980s to more favorably represent a retirement system for our military. It also will incorporate the provisions of Senator CLARKLAND's bill with respect to Montgomery G.I. bill benefits, making them more flexible for military personnel so they can be used for a spouse or child. This is a very important development, not only because of the substance, but also in the fact that it represents that type of innovative thinking about dealing with the problem of recruitment and retention, not simply by doing the obvious, but something that is innovative and, in the long term, helpful. I commend the Senator from Georgia for his great leadership on this issue.

What we are also recognizing here is that among the quality of life issues that affect the military is the issue of health care. I am pleased to note that we have attempted to deal with a nagging problem with the military, and that is the difficulty of obtaining assistance regarding the TriCare system—that is the HMO, if you will, that military families and personnel use. We have heard complaints about TriCare. Indeed, they are many of the same complaints we hear about civilian HMOs from constituents back home.

It is interesting to note that this legislation incorporates an ombudsman program for TriCare. There will be an 800 number where a military person can call with a complaint, with a question, or with a concern, and we will have an individual at that number who will help to negotiate and navigate through the intricate system of managed care. This is such an interesting program, and, indeed, we are working on this in the context of civilian health care. Senator WYDEN and I introduced legislation to create an ombudsman program for all managed care in the United States. Our program would authorize States to set up ombudsman programs to assist our constituents in dealing with problems just as real and just as complicated as problems facing military personnel in the TriCare system.

I hope that our unanimous support of this provision today in this legislation will be helpful as we consider managed care reform on this floor in the days ahead so that we can, in fact, adopt an ombudsman provision for our civilian programs as well as our military TriCare program.

I am also pleased to note that we have actively supported the non-proliferation provisions in this legislation.

The Cooperative Threat Reduction program is absolutely essential to our national security. We authorize $475 million, an increase of $35 million.

The crucial area of concern obviously is the stockpile of nuclear weapons in the newly independent states of the former Soviet Union. We want to make sure that they safeguard that system. We want to also make sure that we can work with them to dismantle those systems which will lead both to their security and our security and the security of the world.

I am somewhat regretful, however, that the Senate chose to table Senator KERREY's amendment which would strike the requirement that the United States maintain strategic force levels consistent with START I until START II provisions come into effect. We all are fortunate that we have in fact pushed ahead on another provision which touches on our nuclear security and a strategic posture, and that is the approval of the decision of the Department of Defense to reduce our Trident submarine force from 18 ships to 14 ships. That is a step in the right direction towards the START II level.

I am also pleased that this bill will authorize funding to begin design activity regarding the conversion of the four Trident ballistic nuclear submarines to conventional submarines which are more in line with the current situation in the world. In fact, when I have talked to commanders in chiefs throughout the world, they say they are continually asked to use those submarines for conventional missions. This will give us four more very high quality platforms to use in conventional situations. I think that is an improvement, both in our strategic posture in terms of nuclear forces and also in terms of our conventional posture.

I am, however, also disappointed with respect to another issue. And that is the failure to adopt a base closing amendment as proposed by Senator MCCAIN and Senator LEVIN. We are maintaining a cold war infrastructure in the post-cold-war world. We reduced our forces but we can't reduce our real estate. It is not effective.

We owe our military and our Secretary of Defense and our military chiefs the flexibility in the base closing process to identify and to close excess military installations, we will be spending
May 27, 1999

money that we don’t have. And we will be taking that money from readiness, from modernization, and from our forces in the field. To try not to decrease that reduction in resources, but in fact deserve the shift of those resources from real estate that is excess to the real needs of our fighting forces. The real needs are taking care of their families, being ready for the mission, and having equipment to do the mission. And every dollar that we continue to invest in resources and installations that we don’t need is one dollar less that we don’t have for the real needs of our soldiers, sailors, airmen and marines who are out in harm’s way standing up and protecting this great country.

I hope we can pass a base closing amendment. I am encouraged that we have strong support this year than last year. I hope that we can do so, because it is the one way we cannot only eliminate excess space but also do it in a way that is not political. I know there have been many charges on this floor about politicization. As I hear these charges and these arguments against base closings, I fear that we are the ones that are the issue, that we are the ones that are letting politics get in the way of national security policy. The longer we do that, the more detriment will be our impact upon the true interests of the country and the needs of our military forces.

Again, let me say in conclusion that this effort, led by Senator Warner and Senator Levin, by the ranking Members, and the Chairpersons of the subcommittees and assisting agencies, results, I think, in excellent legislation. I encourage all of my colleagues to support this bill.

I yield the floor.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LOTT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BENNETT). Without objection, it is so ordered.

Mr. LOTT. Mr. President, I have a unanimous consent request that I will propound at this time. I do think the issue which has been before the Senate is a very important issue. I have shown my interest and my concern regarding security and more reports with regard to China, satellite technology, and security of our labs. We have added a significant amount of language into this bill. I also think an important part of making sure we have secure labs in the future and that the administration is behandling it will involve reorganization at the Department of Energy. Obviously, what is now in place is not working. But this is not about organization; this is about security.

I ask unanimous consent that there be 1 hour for debate to be equally divided on amendment No. 446, the amendment by Senators DOMENICI, and others; following that time, the Senate proceed to vote on or in relation to the amendment, with no amendments in order prior to the vote.

I might add before the Chair rules, this agreement is the same type of agreement that we have been reaching for dozens of amendments throughout the consideration of the DOD bill.

The PRESIDING OFFICER. Is there objection?

Mr. REID. I object.

Mr. LOTT. I ask consent that a vote occur on or in relation to this amendment with the same parameters as outlined above, but the vote occur at a time to be determined by the majority leader and the Democratic leader.

The PRESIDING OFFICER. Is there objection?

Mr. REID. I object.

The PRESIDING OFFICER. The objection is heard.

Mr. LOTT. I inquire of the assistant Democratic leader, is the Senator objecting because he does not want a direct vote on the amendment No. 446, or is there some other problem with that request?

Mr. REID. I say with the deepest respect for the majority leader, I have spent considerable time here this afternoon indicating why I think this is the wrong time for this amendment. I have stated there are parts of the amendment that I think are acceptable and agreeable to the minority, but this is not the time for a full debate on reorganizing the Department of Energy. This is on the eve of the recess for the Memorial Day weekend. We have had no congressional hearings; we have not heard from the Secretary of Energy, except over the telephone. This is not the appropriate way to legislate.

For these and other reasons, I ask there be other arrangements made so that we can proceed to this most important bill, the defense authorization bill.

Mr. LOTT. Mr. President, in light of that objection, I ask consent that when the Senate considers H.R. 1555—that is the DOD authorization bill—following the opening statement by the manager, Senator Kyl, be recognized to offer an amendment relative to national security at the Department of Energy; I further ask consent that if this agreement is agreed to, amendment No. 446 be withdrawn, following 60 minutes of debate to be equally divided between Senators Kyl and Domenici and Reid and Levin, or their designees.

Mr. REID. Reserving the right to object, and I shall not object. I do say to the majority leader, I appreciate on behalf of the minority, very much, this arrangement being made. This we acknowledge is important legislation. It is an important amendment, one that deserves the consideration of this body. I think it is an appropriate time. As indicated, H.R. 1555 will be the time we can fully debate this issue.

So I say to the sponsors of the amendment, Senators Kyl, Domenici, and others, we look forward to debate and express our appreciation for resolving this the most important legislation today. There is no objection from this side.

The PRESIDING OFFICER. Is there objection? The Senator from New Mexico.

Mr. DOMENICI. Mr. Leader, would you take the time you have allotted to the two of us, the Arizona Senator and myself, and add Senator Munzowski, equally divided?

Mr. LOTT. I will so amend my request.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LOTT. Mr. President, in light of this agreement, then we will continue. The managers have some work they need to do with regard to some amendments that are still pending. During this 60 minutes of debate, I hope that can be resolved. We are expecting that final passage on the Department of Defense authorization bill would occur this evening, hopefully before 8 o’clock. If we can make it any sooner than that, certainly we will try to, but 8 o’clock is still our goal.

Just one final point. I must say, I do not like having to pull aside this amendment. I thought we should have full debate, that it was a very important amendment and we should have had a vote on it. But we will have an opportunity. This is an issue that is important. It does go to the fundamental question of security at our energy and nuclear labs. But I think this Department of Defense authorization bill is the best defense authorization bill we have had in several years. A lot of good work has been done and I thought it would not have been wise to leave tonight without this Department of Defense authorization bill being completed.

I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. I thank both leaders for arranging for this bill to go forward now.

Senators will recall, pursuant to an earlier unanimous consent, we asked Senators to send to the desk such amendments and those have not been as yet cleared by the managers. We are continuing to work on those amendments, but we cannot guarantee we will be able to include all of them into the package.

When we finish this debate, it is the intention of the managers to move to third reading unless Senators come down with regard to these amendments that are pending at the desk.
CONGRESSIONAL RECORD—SENATE
May 27, 1999

Mr. BINGAMAN. Mr. President, I do not know if the other proponents of
the bill are able to clear many more of them because of differences on both sides.
Mr. WARNER. We do not want to raise false hopes that we will be able to clear many more of them because we have cleared, I believe, a goodly number.
Mr. WARNER. There were about 40.
Mr. LEVIN. We are doing the best we can, but it is going to get more and more difficult to clear additional amendments. We have, I believe, cleared about 25 of the 40, roughly, that were sent to the desk. We just may not be able to clear many more because of differences on both sides.
Mr. LEVIN. At this moment that is correct. We are going to do our best to see if we cannot get a few more to be acceptable, but it is getting difficult.
Mr. WARNER. I thank the Chair and yield the floor.

AMENDMENT NO. 446
The PRESIDING OFFICER. Who yields time on the pending Kyl amendment? The Senator from New Mexico.
Mr. DOMENICI. Mr. President, I believe I have 10 minutes.
The PRESIDING OFFICER. The Senator from New Mexico.
Mr. DOMENICI. Mr. President, I would greatly appreciate it if you notify me when I have used up 8 minutes.
The PRESIDING OFFICER. The Senator from New Mexico.
Mr. DOMENICI. Mr. President, I first want to say how sorry I am at the treatment of this amendment, the first major, significant effort to put our nuclear weapons development house in order and stop the espionage we have been hearing about. The American people are now very fearful of the consequences of this situation. There can be all the talk the other side wants that the Secretary of Energy is going to fix this. The truth of the matter is, the Secretary of Energy is lobbying very hard against this, even calling the President about it. I think it is because the Secretary wants to fix it himself.
As good a friend as I am of his, and as complimentary as I am about his work, the truth of the matter is he cannot fix what is wrong with the Department of Energy as it pertains to nuclear weapons development and maintenance.
Second, he cannot correct the lack of accountability among those various elements of the Department that are charged with security transgression activities. It is impossible under the current structure of the Department.
Some have said this is being done too quickly with not enough notice. One of my fellow Senators was saying the Chinese did not give us very much notice when they set about to steal our secrets. We already know the right hand doesn’t know what the left hand is doing. We already know about that. It is not new. I believe until we decide to change things dramatically and raise, within the Department, the concern about the tremendous value of nuclear secrets and nuclear weapons development information. It cannot any longer be dealt with in the same way we deal with all the other things in the Department of Energy. There are hundreds of energy issues in that Department that take up the same time of the same people, the same regulators who are supposed to be concerned about nuclear energy. Sooner or later something like we proposed here is going to take shape.
I hear some have said it is the status quo. It is the opposite of the status quo. I understand our Secretary has said it is the status quo. It is the very opposite of it. I understand some have said it gives the nuclear part of this, the nuclear weapons people, total control where they are not responsible to anyone. That is not true. The Secretary is still in charge. The truth of the matter is, if we made them a little less responsible for all the goings on in this monster department, we would all be better off. So in that regard, we will take some credit for that.
There are others who suggest this has not previously been thought of in this way. I want to read from a 1990 report of the Defense Committee in the House.
We concur with the recommendation of the Clark task force group to “strengthen DOE's management, oversight and control of national security responsibilities.” These steps should include raising the stature of nuclear weapons programs management within DOE, for example, by establishing a presidential entity and administration with a clearly enunciated budget, reporting directly to the Secretary.
That is precisely what we have done. I want to close tonight by saying this issue will be revisited. We can say to the Secretary and the Democratic whip, and those on that side who would not let us vote—who did not bother to vote—just decided they would threaten a filibuster and be prepared to do it—that they have not seen the last day of this approach. Because it is imperative, if our country is going to do justice to the future and be fair with our children and their children, we cannot continue down the path we have been on with reference to nuclear weapons and nuclear weapons design and development. We must do better.
Or if you were to design a system calculated to give the most important and most effective part of the Department the least attention, that is what you would do. You would do it like we are doing it.

The PRESIDING OFFICER. Who yields time?
Mr. BINGAMAN addressed the Chair.
The PRESIDING OFFICER. The Senator from New Mexico.
Mr. BINGAMAN. Mr. President, I do not know if the other proponents of the
I would like to respond to the point of Senator DOMENICI, made about a 1990 report by the Clark task force. Admiral Watkins. That was not a a Democratic administration; that was a Republican administration. Admiral Watkins was a very, very qualified individual to be our Secretary of Energy. His credentials for line management and command and control and maintaining military security cannot be questioned.

Admiral Watkins, of course, evidently did not think the recommendations from that Clark task force added to should be followed up and implemented. I can only assume the minority is disappointed we were denied that opportunity today.

As chairman of the Energy and Natural Resources Committee, I held seven hearings. These hearings have revealed the shocking, dismal state of security at our weapons labs. Those on the other side do not want to repair it now; they want to study. How long have they studied it? It has gone through at least four Secretaries, that it would provide, if you will, reporting not just to the Secretary but to the Congress and to the President.

This would have provided accountability to the people of the United States. They are entitled to it. But not now. The administration and the minority have succeeded in derailing it.

The opponents of the amendment claim that it would make the DOE, the Department of Energy, accountable. Well, I have news for you. That is unworkable. It is already unworkable. That bureaucracy is so unworkable, it has allowed all our secrets—all our sequences. That bureaucracy is so unworkable, it has already done it. We have the Chinese, and perhaps other nations as well.

The Department of Energy's bureaucracy has proven time and time again that no matter how diligent any individual Secretary of Energy is, the bureaucracy can ignore the Secretary. The bureaucracy can ignore the Secretary. The minority have succeeded in derailing it.

I am further shocked that the administration seems to be more concerned about the Department of Energy than whether the national security of the United States is protected. We had an obligation prior to this recess to initiate a corrective action within the Department of Energy. The minority has precluded us from proceeding with that opportunity today.

We had an obligation prior to this recess to initiate a corrective action within the Department of Energy. The minority has precluded us from proceeding with that opportunity today.

I am further shocked that the administration seems to be more concerned about the Department of Energy than whether the national security of the United States is protected. We had an obligation prior to this recess to initiate a corrective action within the Department of Energy. The minority has precluded us from proceeding with that opportunity today.

I am further shocked that the administration seems to be more concerned about the Department of Energy than whether the national security of the United States is protected. We had an obligation prior to this recess to initiate a corrective action within the Department of Energy. The minority has precluded us from proceeding with that opportunity today.
I have had the opportunity in hearings to personally ask the new Secretary if he was familiar with the Carter Plan. The specific response was: Well, it was never transmitted.

Why wasn’t it transmitted?

Well, we don’t know. We just have fingers pointing the fingers back and forth.

I certainly commend Secretary Richardson for his efforts to improve security. He has improved security. But the plans, the traditional Department of Energy security plans, seem to have the life of a fruit fly.

The loss of our nuclear weapons secrets is just too important to ignore or to trust to the bureaucracy of an agency that has time and time again proven that it simply cannot be trusted, because the bureaucracy does not work, the checks and balances are not there.

So I am extremely disappointed that the Secretary has said in a letter he will demand that the President veto the bill because Congress is taking action—Congress is taking action—to fix the problem. Can you imagine that we are taking action to fix the problem, and they are saying it is too hasty, we should not fix the problem.

This is just part of the problem. This amendment is just part of the answer. But at least we are trying to do something. The Democrats on the other side say: Oh, no, you’re too early.

The pending amendment would have created accountability and responsibility for protecting the national security at the Department of Energy; but not now, as a result of the administration’s objections.

The pending amendment would have created three new organizations within the Department of Energy to protect our nation, but not now, as a result of the objections of the minority and the administration.

The pending amendment would require the Department of Energy to fully inform the President and the Congress about any threat to or loss of our nuclear secrets; but not now, as a result of the objections of the minority and the administration.

President Clinton will rightfully be able to claim ignorance—claim ignorance—again on what is going on, because he will be ignorant of what is going on.

The amendment would have prohibited anyone in the Department of Energy or the administration from interfering with reporting to Congress about any threat to or loss of our nation’s national security information; but not now, as a result of the objections of the minority and the administration.

The amendment would have required the Department of Energy to report to Congress every year regarding the adequacy of the Department of Energy’s procedures and policies for protection of national security information and whether each DOE laboratory is in full compliance with all the DOE security requirements; but not now, as a result of the objections of the minority and the administration.

The amendment would have required each Department of Energy laboratory director to certify in writing whether that laboratory is in full compliance with all departmental national security information protection requirements; but not now, as a result of the objections of the minority and the administration.

In short, this amendment would have gone far—not all the way—but it would have gone far in preventing further loss of our nuclear weapons secrets to China; but not now—well, it is evident—as a result of the objections of the minority and the administration.

I suggest that the administration has made a tragic mistake, that the minority has made a tragic mistake. The American people expect a response from the Congress, the Senate, now in this matter—not next week or next month.

Mr. President, I reserve the remainder of my time.

I ask what the time remaining is.

The PRESIDING OFFICER (Mr. Sessions). Two minutes 13 seconds.

Mr. MURKOWSKI. I thank the Chair. I believe there are other Senators wishing to speak at this time.

The PRESIDING OFFICER. Who yields time?

Mr. KYL. Mr. President, might I inquire, was the time on the Republican side equally divided, 10 minutes each, among Senators MURKOWSKI, DOMENICI, and myself?

The PRESIDING OFFICER. The Senator is correct.

Mr. KYL. In that event, I suggest that Senator MURKOWSKI yield the remainder of his time to Senator HUTCHINSON—he has comments to make—unless Senator MURKOWSKI has further comments.

Mr. MURKOWSKI. I will need another 30 seconds to a minute at the end. You have 10 minutes.

Mr. KYL. Mr. President, let me yield 2 minutes to the Senator from Arkansas.

The PRESIDING OFFICER. The Senator from Arkansas is recognized for 2 minutes.

Mr. HUTCHINSON. I thank Senator KYL and Senator MURKOWSKI for their efforts in this area.

I, along with every Member of this body, received the three volumes of the Cox report. I share the absolute shock at the indescribable breach of our national security at our labs. I think it is inexcusable that we would leave for the Memorial Day recess without taking even this step.

Senator KYL has presented to us—and I am glad to cosponsor the amendment—an amendment that makes eminent good sense. It calls for the head of DOE counterintelligence to report immediately to the President and the Congress on any actual or potential significant loss or threatened loss of national security information. That is an indisputable need. It is clear in the Cox report that that was one area of failure.

For the Democrats, at a time when this Nation is at war, to threaten that they are going to block, through filibuster, a national security reauthorization bill because they do not want us to debate an amendment to address this shocking failure of security, I think is inexplicable, disappointing, and is going to be hard to explain to our constituents.

I wish we had debated the Kyl amendment, had enough time to spend on it, have a vote on it, and take the Senate back to work. Senator LEVIN’s time be assigned to me.

The PRESIDING OFFICER. Who yields time?

Mr. BINGAMAN addressed the Chair.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, how much time remains on our side?

The PRESIDING OFFICER. The Senator from New Mexico has 9 minutes 30 seconds. The Senator from Michigan has 15 minutes.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that Senator LEVIN’s time be assigned to me.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, let me respond to a few of the points that have been made. Then I will yield, because I know the Senator from Arizona, who is the prime sponsor on the amendment, is here and wishes to speak.

The suggestion that we are leaving without knowing anything about security in our National Laboratories in the Department of Energy is just wrong.

I am on the Armed Services Committee. I participated in the drafting of the language that is included in this bill. We have 24 pages in the defense authorization bill which is the best— the best—we could come up with in the Armed Services Committee to deal with this problem of security and put in some more nightmares.

We start on page 540, establishing a Commission on Safeguards, Security, and Counterintelligence at Department of Energy Facilities. We go on; that commission is established. We move on to increase the background investigations of certain personnel at the Department of Energy facilities. We move on to requiring a plan for polygraph examinations of certain personnel at the
Department of Energy facilities. We then go on to establish civil monetary penalties for violations of the Department of Energy regulations related to safeguarding and security of restricted data.

We have a moratorium on lab-to-lab and foreign visitors and assignment programs unless there is a certification made by the head of the FBI, the head of the CIA, the Secretary of Energy himself as to the fact that safeguards are in place.

We increase penalties for misuse of restricted data. We establish the Office of Counterintelligence in statute, which is essentially a third of the amendment that the Senator from Arizona is proposing. So two of the three parts of the amendment the Senator from Arizona and my colleague from New Mexico proposed are included in this amendment.

It is just not accurate to say we are leaving here without having done anything. We also provide for increased protection for whistle-blowers in the Department of Energy. We provide for investigation and remediation of alleged reprisals for disclosure of certain information to Congress. We provide for notification to Congress of certain security and counterintelligence failures at the Department of Energy facilities. All of these provisions are in the bill the way it now reads.

I say again what I said before: Maybe there should be more. I hope very much we will have some hearings in the Armed Services Committee, perhaps on the Energy Committee. I know my colleague from Alaska, the chairman of the Energy Committee, expressed his great concern that we are not moving ahead this afternoon on this. Since we have an opportunity to go ahead and have an eighth hearing, hopefully the week after next, and we should look at this proposal or similar proposals to see what can be done.

One other minor item: There has been reference made to the failure to implement the recommendations that Charles Curtis, our former Under Secretary, made with regard to security. I agree, this was a failing. The information was not properly passed from one group of appointed officials to the next group of appointed officials when they came into office. That is a very unfortunate lapse. Under this amendment, Secretary Curtis would have been stripped of any authority over the nuclear weapons program. It would be prohibited for the Secretary of Energy to allow the Under Secretary any authority over that program under this proposal.

One of our outstanding Secretaries of Energy, since I have been serving in the Senate, has been Secretary Watkins. He is known for his attention to the detail of management and administration. During the time he was Secretary of Energy, he issued a great many management directives or "notices," as he called them. I have here a notebook containing 37 of these management directives that Secretary Watkins issued. They are all related to the organization and management of the Department of Energy. None of them contain the provisions or anything like the provisions that are contained in here.

I hope when we have hearings in the Armed Services Committee, in the Energy Committee, in whatever committee the majority would like to hold hearings, let's call Secretary Watkins, Admiral Watkins, to come and explain to us his view of this proposal. Surely we cannot question his commitment to dealing with safeguards and security and with the problem of Chinese espionage at the Department of Energy. None of them contain the provisions or anything like the provisions that are contained in here.

I hope when we have hearings in the Armed Services Committee, in the Energy Committee, in whatever committee the majority would like to hold hearings, let's call Secretary Watkins and see whether he is less than concerned about some of these issues.

I am persuaded that he is very concerned. I am persuaded that all of my colleagues in the Senate, Democrat and Republican, are very concerned. We need to do the right thing. We need to be sure that whatever we legislate helps, rather than hinders, our ability to deal with this problem.

I yield the floor at this point and reserve the remainder of my time.

The PRESIDING OFFICER. Who yields time?

Mr. WARNER addressed the Chair.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WARNER. Mr. President, might I just address the Senator to say that Senator Levin and I are still working with regard to the managers' package and reviewing such amendments at the desk when Senators come and discuss them. It is the intention of this Senator to move to third reading very shortly, just minutes following the debate on the current amendment by the distinguished Senator from Arizona, Mr. KYL.

Mr. KYL. Mr. President, is there anybody else on the Democratic side who wishes to speak at this point?

Mr. LEVIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, the time now is being controlled by Senator BINGAMAN. I ask him for 1 minute.

The PRESIDING OFFICER. The Senator may proceed.

Mr. BINGAMAN. I yield the Senator such time as he wants.

Mr. LEVIN. Mr. President, Senator BINGAMAN has just put in the RECORD the extensive actions that are taken in this bill in order to enhance security at these labs, actions which were taken after some very thoughtful debate and discussion by the Armed Services Committee. Senator BINGAMAN has outlined those for the RECORD and for the Nation.

I want to put in the RECORD at this time the summary of the amendment that we adopted here today. Senator Lott offered an amendment earlier today. It was modified somewhat. In essence, it does some of the following things:

First, it requires the President to notify the Congress whenever an investigation is undertaken of an alleged violation of export control laws. It would require the President to notify Congress whenever an export license or waiver is granted on behalf of any person who is the subject of a criminal investigation. It would require the Secretary of Defense to undertake certain actions that would enhance the performance and effectiveness of the Department of Defense program for monitoring so-called satellite launch campaigns. It would enhance the intelligence community's role in the export license review process. It proposes a mechanism for determining the extent to which the classified weapons information has been released by the Department of Energy. It proposes putting the FBI in charge of conducting security background investigations of DOE laboratory employees.

These are a long list of actions which are now in this bill, that started off in this bill from the Armed Services Committee, a commission on foreign espionage activities which have been going on for 20 years at these labs, it seems to me, is a total misstatement of what is in this bill that we will be voting on in a few minutes.

I ask unanimous consent that a summary of the Lott amendment, again, slightly modified since this list has been prepared, but that a summary of the Lott amendment be printed in the RECORD at this time.

Mr. WARNER. Reserving the right to object—I do not intend to—could you describe who prepared the summary?

Mr. LEVIN. This was prepared by Senator Lott's staff. Again, there were some slight modifications in this, which Senator Lott agreed to, which I proposed prior to the adoption of the amendment. This, in essence, is the summary of the Lott amendment. This, plus the numerous provisions in the Senate bill that came out of the Armed Services Committee, a commission on safeguarding security, counterintelligence at the facility, background check investigations now going on that had not been taking place.
programs, counterintelligence and intelligence program activities being organized, whistleblowers, foreign ship protection, notification of Congress of certain security and counterintelligence failures at these labs.

This is a significant effort on the part of the Armed Services Committee. It was supposed to be on the full Senate today. I don’t think we ought to denigrate this effort on the part of the Armed Services Committee or of the Senate in adopting the amendment we adopted today by just suggesting we are not doing anything because in a few hours prior to a recess, without one hearing on the subject, we are not reorganizing the Department of Energy without even hearing from the Secretary of Energy. I think that suggestion is a denigration of what is in this bill, to pick a parallel platfo in this bill by the Armed Services Committee, and a denigration of the amendment of the majority leader, which we adopted here this morning on this floor.

We should not characterize these kinds of efforts and diminish these kinds of efforts by sort of saying we are not doing anything before we are going home on recess. We are doing an awful lot, and there is more to be done. But we ought to do it in a way that will do credit to this institution, the Senate. We ought to do it promptly after the recess. We ought to do it after a hearing, where the Secretary of Energy is heard. The head of the Department should at least be heard. We received a letter from him today. Do we not want to hear from him prior to reorganizing the Department? That is not thoughtful.

That is not the way to proceed to close a hole. That is a way of precipitously trying to do something, trying to get some advantage from the refusal of others to go along with that kind of precipitous action. But more important, I believe it would denigrate the significant steps that are in this bill, both as it came to the floor and as it was added by the majority leader with modifications, which I suggested, and that work is significant. It will close, we hope, most of the holes that have been in these labs in terms of trying to protect against espionage for 20 years, where nothing was done until finally last year the President issued a Presidential directive that started the process of tightening up the security at these laboratories.

We should be proud of these efforts. They were done thoughtfully in committee by the majority leader, by Senators on the floor. We should not denigrate them and simply slough them off because there is not a precipitous reorganization of the entire Department 2 hours before the recess, without even having a hearing on the subject and hearing from the Secretary of the Department.

That is more than 1 minute, Mr. President. I ask unanimous consent that the summary of the Lott amendment be printed in the RECORD.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered. There being no objection, the material was ordered to be printed in the RECORD, as follows:

LOTT AMENDMENT SUMMARY

First, this amendment would require the President to notify the Congress whenever the President or any other executive department or agency determines that classified nuclear weapons information was released by the Department of Energy. It would require the Secretary of Energy to take corrective action to protect against espionage for 20 years, and it would prohibit the export of classified nuclear weapons information and classified nuclear weapons information that is contained in the transfer of a commercial satellite.

Second, this amendment would require the President to notify the Congress when the Department of Energy discovers that any export license was granted on behalf of an export-controlled item that is subject to the Arms Export Control Act.

Third, this amendment requires the Secretary of Defense to submit annual reports to the Congress on the military balance of China, the People's Republic of China, and any other country, including the Federative Republic of Yugoslavia, to which the United States considers China.

Fourth, this amendment requires the President to notify the Congress whenever any commercial satellite is launched.

Fifth, this amendment requires the President to notify the Congress whenever any commercial satellite is launched.

Sixth, this amendment requires the President to notify the Congress whenever any commercial satellite is launched.

Seventh, this amendment requires the President to notify the Congress whenever any commercial satellite is launched.

Eighth, this amendment requires the President to notify the Congress whenever any commercial satellite is launched.

Ninth, the amendment requires the President to notify the Congress whenever any commercial satellite is launched.

Tenth, the amendment requires the President to notify the Congress whenever any commercial satellite is launched.

AMENDMENT NO. 458, AS MODIFIED

MR. WARNER. Mr. President, I send a modification of amendment No. 458 to the desk.

The PRESIDING OFFICER. The amendment will be so modified.

The amendment (No. 458), as modified, is as follows:
CONGRESSIONAL RECORD—SENATE 11307

May 27, 1999

What is frightening, as well as frustrating, is that nobody put our national security as the priority. The FBI and the Department of Justice were more concerned about jumping through unnecessary legal hoops than about preventing one of the most catastrophic losses in history. The events involved throughout the Lee case are not only irresponsible, they are unacceptable.

I thank the Chair.

The PRESIDING OFFICER. The time of the Senator has expired.

Who yields time?

Mr. BINGAMAN. Mr. President, I agree that there was substantial bungling by various officials and, clearly, that computer should have been investigated. Maybe we ought to have an amendment out here to reorganize the FBI. Maybe that is the solution to this problem, and we can consider it tonight before we leave town. Clearly, there is no disagreement between Democrats and Republicans about the fact that serious problems exist and they need correcting.

The question is, Should we do a major reorganization of the Department of Energy with no hearings, no opportunity for the Secretary of Energy to come forward, and do so here as everyone is trying to rush out to National Airport and fly home? In my view, that is clearly not the responsible approach. Accordingly, we did object to that portion of the amendment. I think that is the right thing to do. After hearings, after consideration and meaningful discussion with the Department and with other experts about how to proceed, we may well find some ways to improve that Department through changes in its organization. If we do find those, I will certainly be the first to support such a proposal. But I do think it is appropriate for us, at this stage, to stay with what we know has worked and continue to look for other ways to help in the weeks and days ahead.

I yield the floor.

Mr. KYL addressed the Chair.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. KYL. Mr. President, I suggest that the example of the FBI and the Department of Energy not knowing that the waiver existed that Senator Murkowski spoke about is the perfect case of the right hand not knowing what the left hand was doing, and it is precisely what this amendment seeks to correct. There is an old debate technique called the “red herring.” If you find the real argument of your opponent, throw something out there that you can defeat and pretend like that is the issue.

Members of the Democratic side have said, why didn’t we give all kinds of security provisions in this bill. How dare the Republicans suggest that we haven’t done anything about security in the bill.

The security provisions in the bill were put there by Republicans. We know full well this flaw has security provisions in the bill. Virtually everyone of one of them were put there by Republicans. And I am informed that in the Armed Services Committee, Democrats fought many of them. Now they come to the floor and say, it is just the bill—not having sponsored them, having opposed some of them, but now contend that we have solved the problems, because the Republicans on the Armed Services Committee put some provisions in the bill, and because the Republican majority leader, Senator Lott, brought a whole series of things to the floor. Much of what was quoted by the Democrats came from the Lott amendment. In fact, Senator Levin even put into the record a summary of the Lott amendment.

I am glad. These are all very good provisions. Republicans are serious about our national security. But I suggest that what was done there is the end of it. now we can go home, is to quit way before this problem has been solved.

The Kyl-Domenici-Murkowski amendment is an amendment that seeks to get to the core of the problem. As Senator BINGAMAN said, two-thirds of the Armed Services Committee amendments were incorporated into our amendment. That is true. We did that for stylistic purposes.

What is the problem? It is the remaining one-third. They don’t want to get to the core of the problem, which is the organization of the Department of Energy.

Here is what it boils down to: Who do you trust? Do you trust the Clinton administration with the national security of the United States saying: Trust us; we will do the reorganization down here at the Department of Energy. We are going to get it figured out.

Is that who you trust?

I don’t think the American people can afford to continue to put their trust in an administration which has known about this problem since 1995, and only in 1999 did it begin to do anything about it because of public pressure. From the management review report of the Department of Energy itself, as recently as last month, it recognized that, “Significant problems exist in that the roles and responsibilities are unclear.”

That is precisely what we are trying to fix—to get these roles and responsibilities straight.

Only a month before, a congressionally created administration said, “The Assistant Secretary of Defense programs should be given direct line management over all aspects of the nuclear weapons complex.” That is our amendment.

The GAO report—a whole list of reports, all highly critical of the management at the Department of Energy and the defense weapons complex.

I finally conclude with this point: The GAO testified that the continuing management problems at the Department were a key factor contributing to security problems at the laboratories and a major reason why DOE has been unable to develop long-term solutions to the recurring problems reported by advisory groups.

Is that who you want to trust to clean this up and fix it up, and make sure that we don’t have any more problems? I think not. I think it is time for Congress to get involved.

What is so amazing to me tonight is that the Democrat minority would hold up the defense authorization bill at a time when we are at war in Kosovo, because they don’t even want to debate our amendment. They called a quorum call and wouldn’t take it off so that Republican Members couldn’t even come to the floor. Senator DOMENICI asked to be allowed to speak on our amendment. He is a coauthor. The minority refused him the opportunity ever to speak.

So not only will they not allow us to vote on our amendment, but they won’t even allow it to be debated. Yet their ostensible reasoning for opposing it is not because they don’t think it has some good ideas in it but because we have to have a lot more discussion and debate about this; we haven’t had hearings; we need to talk about this. And they have offered them the opportunity to talk about it. They don’t want to talk about it because it gets right to the guts of the problem—the Department of Energy has to be reformed.

This amendment does that.

The national security of the United States cannot be protected until we do that. And the suggestion of the distinguished minority whip that now is not the time, on the eve of the Memorial Day recess is absurd. What is more important, that Members get to go home for the Memorial Day recess, or that we act with alacrity to fix the problems of national security at our laboratories?

I am astonished that the Democratic minority would take this kind of cavalier approach to the national security of the United States—we need to talk about it more, but we are not going to let you talk about it. We need to get out of town for the recess. So withdraw your amendment.

Only because the Department of Defense needs the authorization bill are the authors of this amendment willing to withdraw it at this time.

There is a war in Kosovo. It is irresponsible for the minority to threaten to filibuster this bill until kingdom come while that war is going on, because they don’t even want to talk about an amendment that would guarantee the security at our National Laboratories.

This is a sad day for those who are opposing this amendment. It is a sad...
day when Members of this Senate won't let their colleagues talk about this amendment, won't allow us to work on it, and then let us go out of town to brag about whatever it is that they have done, but without doing the unfinished business of protecting the security of our National Laboratories.

I retain the remainder of my time.

Mr. WARNER. Mr. President, I ask unanimous consent not to take from the time of the debate and to continue to work on the bill.

The PRESIDING OFFICER. The Senate from Virginia.

Mr. WARNER. Mr. President, I ask unanimous consent not to take from the time of the debate and to continue to work on this problem which exists in our Department of Energy and we should do so with hearings. We can have them as soon as the week after next. I am happy to stay late and play politics with them if the Senator is suggesting we are trying to leave town without doing our duty to the country. I am happy to have them next week in the committees I serve on. If the Energy Committee and the Armed Services Committee schedule hearings next week, I will be there and I will do all I can to help make whatever legislative provisions we propose out of those committees be constructive and effective in improving the security of our National Laboratories and our Department of Energy, generally, and improving the organization of that Department.

It is highly improper, in my view, to try to legislate something here without this administration being requested to testify, without allowing him to give his input into it, and without looking at how other Secretaries of Energy feel about some of these major, far-reaching changes as well. We should do it right. We should do it quickly. We should take whatever action we determine makes sense for the country's good, and we should not play politics with this issue. This is not a Democrat or Republican issue. We are all very concerned about our national security. We are all anxious to do the right thing—Secretary Richardson as much as anyone in this body, and we need to ask his advice. We need to talk to all the experts we can find. I hope we can come up with some good solutions here.

I yield the floor.

Mr. REID. Parliamentary inquiry. How much time remains on this unanimous-consent request?

The PRESIDING OFFICER. The Senator from New Mexico has 2 minutes, the Senator from Arizona 1 minute 42 seconds.

Mr. REID. Mr. President, the junior Senator from Arizona, in my absence, talked about how I had improperly held up this bill. I complied with every Senate rule. The rules of the Senate have been in effect for a long time.

I think what we should understand is that it appears there was some kind of game playing here, that late in the day, Senator Inouye would say ‘I had no airplane today’—and I am not one of those Senators who had some desire to rush out of here; I had no airplane today—there would be a capitulation to this amendment which was filed late in the game. It was filed at a time when there were no congressional hearings, there had been no time to review this responsibly. The minority would not cave in to that.

There are not talking about Memorial Day recess. We are talking about good legislation. This is not good legislation. We have acknowledged that there are certain pieces of this amendment...
On May 27, 1999, the Senate discussed various amendments to legislation. The amendments varied in subject matter, including provisions for the repair and conveyance of Red Butte Dam and Reservoir, funding for the Army Digital Information Technology Test Bed, and additional terms and conditions for the Navy's basic research on advanced composite materials processing.

The amendments also included provisions for the consolidation of Air Force Research Laboratory facilities at the Rome Research Site and the Central Utah Water Conservation District. The amendments discussed the importance of bipartisan cooperation and the need for continued funding for various projects.

The Senate also debated the importance of protecting the prerogatives of a Senator and a minority, with one Senator noting that they should be dealt with on a bipartisan basis. The debate highlighted the need for careful consideration and the importance of protecting all parties involved.

Overall, the amendments demonstrated the Senate's commitment to carefully scrutinizing and approving legislation, ensuring that it is in the best interest of all parties involved.

Amendment No. 488

(1) Chapter 71 of title 10, United States Code, is amended by striking “2000” both places it appears and inserting “2003”.

(2) The table of parts at the beginning of such chapter is amended by adding at the end the following new item:

"1413. Special compensation for certain severely disabled uniformed services retirees.

(a) Authority. —Chapter 71 of title 10, United States Code, is amended by adding at the end the following new section:

"1413. Special compensation for certain severely disabled uniformed services retirees.

(b) Effective date. —Section 1413 of title 10, United States Code, as added by subsection (a), shall take effect on October 1, 1999, and shall apply to months that begin on or after that date.

Mr. MCCAIN. Mr. President, I am pleased that the Senate has adopted my amendment to the National Defense Authorization Act for Fiscal Year 2000, to authorize special compensation for severely disabled military retirees who suffer under an existing law regarding "concurrent receipt." As many of my colleagues know, current law requires military retirees who are rated as disabled to offset their military retired pay by the amount they receive in veterans' disability compensation. This requirement is discriminatory and wrong.

Today, America's disabled military retirees—those individuals who dedicated their careers to military service, and who suffered disabling injuries in the course of that service—cannot receive concurrently their military retirement pay and disability compensation. They have earned through at least 20 years of service in the Armed Forces, and their veterans' disability compensation, which they are owed due to pain and suffering incurred from military service. In other words, the law penalizes the very men and women who have sacrificed their physical or psychological well-being in uniformed service to their country.

My amendment does not provide for full payment to eligible veterans of both the disability compensation and the retirement pay earned. I regret that such a proposal, which I support in principle, would be far more expensive than many of my colleagues could accept. I learned that lesson the hard way in the course of sponsoring more ambitious concurrent receipt proposals in previous Congresses.

The amendment instead authorizes special compensation for the most severely disabled retired veterans—those who have served for at least 20 years, and who have disability ratings of between 70 and 100 percent. More specifically, it would authorize monthly payments of $300 for totally disabled retired veterans; $200 for retirees rated as 90 percent disabled; and $100 for retirees with disability ratings of 70–80 percent.

These men and women suffer from disabilities that have kept them from pursuing second careers. If we cannot muster the votes to provide them with their disability pay and retired pay concurrently, the least we can do is authorize a modest special compensation package to demonstrate that we have not forgotten their sacrifices.

The Military Coalition, an organization of 30 prominent veterans' and retirees' advocacy groups, supports this legislation, as do many other veterans' service organizations, including the American Legion and Disabled American Veterans. These highly respected organizations recognize, as I do, that severely disabled military retirees deserve, at a minimum, special compensation for the honorable service they have rendered to the United States.

The existing requirement that military retired pay be offset dollar-for-dollar by veterans' disability compensation is inequitable. I firmly believe that non-disability military retired pay is post-service compensation for services rendered in the United States military. Veterans' disability pay, on the other hand, is compensation for a physical or mental disability incurred from the performance of such service. In my view, the two pays are for very different purposes: one for service rendered and the other for physical or mental "pain and suffering." This is an important distinction evident to any military retiree currently forced to offset his retirement pay with disability compensation.

Concurrent receipt is, at its core, a fairness issue, and present law simply discriminates against career military people. Retired veterans are the only group of federal retirees who are required to waive their retirement pay in order to receive VA disability. This inequity needs to be corrected. The Senate has made important progress toward that end with the adoption of this amendment.

I continue to hope that the Pentagon, once it finally understands our message that it cannot continue to unfairly penalize disabled military retirees, will provide Congress with a fair and equitable plan to properly compensate retired service members with disabilities. It is high time to eliminate with the simple logic that disabled veterans both need and deserve our full support after the untold sacrifices they made in defense of this country.

I look forward to the day when our disabled retirees are no longer unduly penalized by existing limitations on concurrent receipt of the benefits they deserve. And I thank Senators WARNER and LEVIN, the managers of S. 1059, for accepting my amendment to provide
CONGRESSIONAL RECORD—SENATE

is headed for further descent in the future.

The Ballistic Missile Defense Technology program is in the category of research and development, a category that bridges the gap between basic research and full-scale weapon system development and it is critical to preventing technical obsolescence and to meeting emerging threats.

Historically, this applied research in the area of ballistic Missile Defense has been vital to the evolution of systems that are being developed and deployed today to meet an ever-growing missile threat. It is the wellspring of new defense systems and the source of demonstrated technology that is needed to make upgrades to systems already in the field.

The emphasis in the Ballistic Defense Technology program for the past 7 to 8 years has been on acquisition, getting systems on and fielded. Following Desert Storm in 1991, it was clear that ballistic missiles were a real threat and that the problem of proliferation of these missiles would be of grave concern for many years to come. There were understandable calls to rapidly build defense systems to counter this threat.

While this emphasis is on deployment certainly justified by the pace and scale of the threat, it has resulted in a serious reduction in the advanced development budget. This means the missile defense systems entering the inventory today are the products of laboratories of the services over a number of years, in some cases over a span of 20 or more years.

If we are to remain the world's leader in missile systems, it is imperative that we do all we can to stop this dramatic erosion of Ballistic Missile Defense Advanced Technology funding and strengthen the chain of development upon which future defense capability depends. We are indeed “eating our seed corn” when we pull from our research efforts to fund the deployment of systems or carry out other military missions such as those found in the contingency operation arena such as Bosnia or Kosovo.

This Sense of the Congress calls upon the Secretary of Defense to take a hard look at the Future Years Defense Program to ensure that funding in the future years defense program is adequate for both the advanced ballistic missile defense technology development and for existing ballistic defense major defense acquisition and improvement programs. To that end we look forward to the Secretary's report by March 15th, 2000 on his plan for dealing with the matters identified in the amendment.

AMENDMENT NO. 491

(Purpose: To require a report regarding National Missile Defense)

In title II, at the end of subtitle C, add the following:

SEC. 225. REPORT ON NATIONAL MISSILE DEFENSE.

Not later than March 15, 2000, the Secretary of Defense shall submit to Congress the Secretary's assessment of the advantages or disadvantages of a ground-based National Missile Defense system, with special reference to considerations of the worldwide ballistic missile threat, defense coverage, redundancy and survivability, and economies of scale.

AMENDMENT NO. 494

(Purpose: To require a report from the Comptroller General on the closure of the Rocky Flats Environmental Technology Site, Colorado.)

On page 578, below line 21, add the following:

SEC. 3179. COMPTROLLER GENERAL REPORT ON CLOSURE OF ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE, COLORADO.

(a) REPORT.—Not later than December 31, 2000, the Comptroller General shall submit to the Congress a report assessing the progress toward the closure of the Rocky Flats Environmental Technology Site, Colorado.

(b) REPORT ELEMENTS.—The report shall address the following:

(1) How decisions with respect to the future use of the Rocky Flats Environmental Technology Site effect ongoing cleanup at the site.

(2) Whether the Secretary of Energy could provide flexibility to the contractor at the site in order to quicken the cleanup of the site.

(3) Whether the Secretary could take additional actions throughout the nuclear weapons complex of the Department of Energy in order to quicken the closure of the site.

(4) The developments, if any, since the April 1999 report of the Comptroller General that could alter the pace of the closure of the site.

(5) The possibility of closure of the site by 2006.

(6) The actions that could be taken by the Secretary of Energy to ensure that the site would be closed by 2006.

AMENDMENT NO. 495

(The text of the amendment is printed in today's Record under "Amendments Submitted.")

Mr. CLELAND. Mr. President, this dynamic legislative year has seen some monumental events. This body began the year by passing S. 4, the Soldiers, Sailors', Airmen's and Marines' Bill of Rights Act of 1999. With an overwhelming vote of 91-8, the United States Senate did not hesitate to show this great Nation that we appreciate the sacrifices and contributions of our service men and women. We also sent a message to the senior leaders of our military services that their pleas for assistance in stemming the flow of highly qualified service members from the military would not go unanswered.

The Soldiers', Sailors', Airmen's and Marines' Bill of Rights Act of 1999 included a 4.8% pay raise, pay table reform, retirement savings plan, and improvements to the current GI Bill. These GI Bill improvements included an increase in GI Bill benefits from $526 to $600 per month, elimination of the now-required $1200 service member contribution, permission to accelerate lump sum benefits and finally, authority to transfer GI Bill benefits to immediate family members.

While the bill we are considering today addresses pay and retirement system reforms, it does not address the GI Bill enhancements. You, my distinguished colleagues, showed your support for these GI Bill enhancements earlier this year, and the members of our armed services—and their families, asks for your support again.

Since the end of the Cold War, our military services have been reduced by one-third, yet worldwide commitments have increased fourfold. Our forces are poised in Asia, standing guard in the Sinai, providing assistance in south America and Haiti, flying combat missions in Iraq, and still working in Kosovo. They are providing invaluable humanitarian assistance to those who have been devastated by a number of natural disasters around the world. And, members of our Guard and Reserve components will be this country's sole providers of a "Homeland Defense" against the challenge of weapons of mass destruction presented by this uncertain world.

Sadly, these men and women who sacrifice so much for our country are bearing the brunt of these competing demands. By improving pay and benefits, as well as providing for increases in equipment upgrades, weapons procurement and replenishment, and spare parts funding, we can show America's brightest that we value their service and recognized their sacrifices.

In my opinion, improvements to the GI Bill may be the single most important step the Congress can take in assisting the recruiting and retaining of America's best. Data we are seeing indicate that education benefits are an essential component in attracting young people to join the armed services. As the costs of college tuition rise, we must remain in step by increasing in GI Bill benefits, or the benefits themselves will become less effective over time. The transferability option under which service members would be allowed to transfer their GI Bill benefits to their spouse or children, is an innovative, powerful tool that sends the right message to those young people we are trying to attract into the military and those we are trying to retain.

This Nation changed dramatically, and for the better, under the original GI Bill. Now we have another chance to address future national needs by creating the GI Bill of the 21st Century. I ask that you join me as we choose the right path at this important historical crossroads.
risks.—The Secretary of Defense shall take such actions as are necessitated by the amendments made by subsection (b) and the requirements of subsection (c)(1)(B) to ensure that the reductions in retired pay under section 1457 of title 10, United States Code, are adjusted to achieve the objectives set forth in subsection (b) of that section.

Mr. THURMOND. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

Mr. President, the amendment is the text of S. 763 as introduced on April 12. It would increase the minimum Survivor Benefit Plan basic annuity for surviving spouses age 62 and older. I am pleased to have join me as cosponsors of the amendment: Senators LOTT, BURNS, COCHRAN, CLELAND, COLLINS, HUTCHINSON of Arkansas, MACK, McCaIN and SNowE.

Mr. President, as our Armed Forces are engaged in operations over Yugoslavia, it is appropriate for the Congress to correct a long-standing economic injustice to the widows of our military retirees. My amendment would immediately increase for survivors over the age 62 the minimum Survivor Benefit Plan annuity from 35 percent to 40 percent of the Survivor Benefit Plan-covered retired pay. The amendment would provide a further increase to 45 percent of covered retired pay as of October 1, 2004.

Mr. President, I expect every member of the Senate has received mail from military spouses expressing dismay that they would not be receiving the 55 percent of their husband’s retirement pay as advertised in the Survivor Benefit Plan literature provided by the military. The reason that they do not receive the 55 percent of retired pay is that current law mandates that at age 62 this amount be reduced either by the amount of their own Social Security benefit or to 35 percent of the SBP. This law is especially irksome to those retirees who joined the plan when it was first offered in 1972. These service members were never informed of the age-62 reduction until they had made an irrevocable decision to participate. Many retirees and their spouses, as the constituent mail attests, believed their premium payments would guarantee 55 percent of retired pay for the life of the survivor. It is not hard to imagine the shock and financial disadvantage these men and women who so loyally served the Nation in troubled spots throughout the world undergo when they learn of the annuity reduction.

Mr. President, when the Survivor Benefit Plan was enacted in 1972, the Congress intended that the government would pay 40 percent of the cost to parallel the government subsidy of the Federal civilian survivor benefit plan. That was short-lived. Over time, the government’s cost sharing has declined to about 26 percent. In other words, the retiree’s premiums now cover 74 percent of expected long-term program costs versus the intended 60 percent.

Contrast this with the federal civilian SBP, which has a 42 percent subsidy for those personnel under the Federal Employees Retirement System and a 50 percent subsidy for those under the Civil Service Retirement System. Further, Federal civilian survivors receive 50 percent of retired pay with no offset at age 62. Although Federal civilian premiums are 10 percent retired pay compared to 6.5 percent for military retirees, the difference in the percent of contribution is offset by the fact that our service personnel retire at a much younger age than the civil servant and, therefore pay premiums much longer than the federal civilian retiree.

Mr. President, 2 years ago, with the significant support from the Members of the Senate Armed Services Committee, I was successful in gaining approval for a proposal decreasing the Survivor Benefit Plan benefits for the so-called Forgotten Widows. This is the second step toward correcting the Survivors Benefit Plan and providing the surviving spouses of our military personnel greater compensation and paid for benefits.

Mr. President, I urge the adoption of the amendment.

Thank you, Mr. President.

AMENDMENT NO. 497

(Purpose: To authorize the award of the Navy Combat Action Ribbon based upon participation in ground or surface combat as a member of the Navy or Marine Corps during the period between December 7, 1941, and March 1, 1961.)

On page 134, between lines 2 and 3, insert the following:

SEC. 552. RETROACTIVE AWARD OF NAVY COMBAT ACTION RIBBON.

The Secretary of the Navy may award the Navy Combat Action Ribbon (established by the Navy Notice 150, dated February 17, 1969) to a member of the Navy and Marine Corps for participation in ground or surface combat during any period after December 6, 1941, and before March 1, 1961 (or of the other applicable limitation on retroactivity for the award of such decoration), if the Secretary determines that the member has not been previously recognized in appropriate manner for such participation.

Mr. DORGAN. Mr. President, I rise today to offer an amendment for myself and Senator SMITH of New Hampshire, to ensure that Navy and Marine Corps Combat veterans get the recognition they deeply deserve.

The ongoing action in Kosovo reminds us of the dangers our men and women in uniform face when called upon during a time of conflict. In recognition of their service, they are awarded significant combat decorations to identify them as those who have faced this nation’s fiercest challenge—enemy fire. America’s combat veterans risk their lives to preserve our freedoms, and carry out the orders of the President in answering the challenges to our nation.

During World War II, the Army created the combat infantry badge to identify those soldiers who had faced...
combat. The Navy had no similar award until the 1960's. Although the Navy awarded Combat Stars prior to that point, the Combat Action Ribbon was created as a way to better recognize those who had served in combat. Recently, legislation was introduced in the House of Representatives to make Navy and Marine combat veterans who served in combat for any period after July 4, 1943, and before March 1, 1961, eligible for the Navy Combat Action Ribbon. In response to this legislation, a Pearl Harbor survivor from my state wrote to me and pointed out that the dates included in the legislation exclude many of the combat veterans who served in the war's fiercest naval battles, Pearl Harbor and Midway among them.

In response to this oversight, our legislation will make eligible for the Navy Combat Action Ribbon those Marine combat veterans who served in combat for any period after December 6, 1941, and before March 1, 1961. The Secretary of the Navy will review those who apply for these awards to ensure that those who have not yet been recognized are not forgotten. We believe it is only appropriate that we honor those who were willing to sacrifice their lives for this country.

AMENDMENT NO. 498

(Purpose: To authorize Coast Guard participation in DoD education programs, and for other purposes)

At the appropriate place, insert the following:

SEC. 2. COAST GUARD EDUCATION FUNDING.

Section 2006 of title 10, United States Code, is amended—

(1) by striking "Department of Defense education liabilities" in subsection (a) and inserting "armed forces education liabilities";

(2) by striking paragraph (1) of subsection (b) and inserting the following:

"(1) The term 'armed forces educational liabilities' means liabilities of the armed forces for benefits under chapter 30 of title 38, for education purposes (other than as specified in subsection (a)(1)), and for Department of Defense education programs, and for Department of Defense education programs and for veterans (other than as specified in subsection (a)(1));"

(3) by inserting "Department of Defense" after "future" in subsection (b)(2)(C); and

(4) by striking "106" in subsection (b)(2)(C) and inserting "1066";

(5) by inserting "and the Secretary of the Department in which the Coast Guard is operating" after "Defense" in subsection (c)(1); and

(6) by striking "Department of Defense" and inserting "Department of Defense";

(7) by inserting "the Secretary of the Department in which the Coast Guard is operating" in subsection (d) after "Secretary of Defense";

(8) by inserting "and the Department in which the Coast Guard is operating" after "Department of Defense" in subsection (f)(5); and

(9) by striking the Secretary of the Department in which the Coast Guard is operating" in paragraphs (1) and (2) of subsection (g) after "The Secretary of Defense";

(10) by striking "of a military department" in subsection (g)(3) and inserting "concerned.";

SEC. . TECHNICAL AMENDMENT TO PROHIBITION ON RELEASE OF CONTRACTOR PROPOSALS UNDER THE FREEDOM OF INFORMATION ACT

TITLE 10, UNITED STATES CODE, IS AMENDED IN PARAGRAPH (1) BY STRIKING "THE DEPARTMENT OF DEFENSE" AND INSERTING "AN AGENCY NAMED IN SECTION 2003 OF THIS TITLE".

AMENDMENT 69

(Purpose: To designate the officials to administer the defense reform initiative enterprise pilot program for military manpower and personnel information)

In title V, at the end of subtitle F, add the following:

SEC. 582. ADMINISTRATION OF DEFENSE REFORM INITIATIVE ENTERPRISE PROGRAM FOR MILITARY MANPOWER AND PERSONNEL INFORMATION.

(a) EXECUTIVE AGENT.—The Secretary of Defense shall designate the Secretary of Defense as the executive agent for carrying out the defense reform initiative enterprise pilot program for military manpower and personnel information established under section 8147 of the Department of Defense Appropriations Act, 1999 (Public Law 105–262; 112 Stat. 2941; 10 U.S.C. 2303).

(b) ACTION OFFICIALS.—In carrying out the pilot program, the Secretary of the Navy shall establish the Systems Executive Office for Manpower and Personnel, who shall act in coordination with the Under Secretary of Defense for Personnel and Readiness and the Chief Information Officer of the Department of Defense.

Ms. LANDRIEU. Mr. President, just a little over a week ago, I had the privilege of traveling with the Secretary of Defense down to my home state. It was a terrific trip and I believe the Secretary was very impressed with the work that we are doing in Louisiana at our military installations and with our defense industry. One of the real highlights of the trip was the ribbon cutting ceremony for the Naval Information Technology Center in New Orleans. This facility, hosted by the University of New Orleans, is home to the Defense Integrated Military Human Resources System, as well as other personnel software projects for the Navy.

The DIHMRS project is one of those rare proposals that instantly captures the support of those that understand it. The military services have spent countless billions of dollars in developing and supporting "stove pipe" personnel software systems, that were out-of-date before they were complete, had no capacity for interconnectivity and did not provide the breadth of personnel information to be of real utility to our military leadership.

DIHMRS seeks to change all of that. It will provide an integrated system of personnel information, that will ultimately tie all the services all the personnel systems and records, and do so in a easily accessible fashion that will give commanders the information about trained and experienced personnel that they need to make deployment decisions.

This project fits perfectly into our efforts to craft smaller, faster and more flexible force structures. One of the key ingredients to creating smaller, more effective forces, is the ability to quickly identify individuals with the experience and training that needed for particular missions. This is daunting task for any service now, it becomes more so if you are trying to put together an inter-service task force. When fully operational DIHMRS will address this need.

These advantages do not even address the enormous savings that the Department of Defense will realize by terminating the innumerable individual human resource computer systems that track only one kind of data for one branch of the military. Thus, this project is a boon to both readiness and economic efficiency.

For that reason, I have introduced an amendment which emphasizes the Senate Armed Services Committee's support for this effort. It is important to note that a project like DIHMRS requires innovation and division. Thus, the management structure for the program has also required a degree of innovation and flexibility that the unique structure adopted for the DIHMRS project is critical for its ultimate success. For that reason, the amendment reemphasizes the support for the program.

The President's budget request includes $65 million dollars for DIHMRS. I believe that these monies must be used according to the direction given in last year's Defense Appropriation's conference report to maintain the success of the program. Specifically, these funds should be used to: (1) address modernization and migration systems support for service information systems within the enterprise of manpower, personnel, training and compensation; (2) to continue support for infrastructure improvements at the Naval Information Technology Center; and (3) to continue Navy central design activity consolidations and relocations already begun under the Systems Executive Officer and the Naval Reserve Information Systems Office.

The consolidation of the personnel information reform efforts is necessary for both budgetary concerns, and valuable as a tool that provides a greater understanding of our soldiers, sailors and airman better. I believe that DIHMRS will make an invaluable contribution to that effort. I thank the managers for accepting this
amendment, and I look forward to working with the Navy to make this project a real success.

SEC. 705. OPEN ENROLLMENT DEMONSTRATION PROGRAM

Section 724 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 10 U.S.C. 1673 note) is amended by adding at the end the following:

(g) OPEN ENROLLMENT DEMONSTRATION PROGRAM.—(1) The Secretary of Defense shall conduct a demonstration program under which covered beneficiaries shall be permitted to enroll at any time in a managed care plan offered by a designated provider consistent with the enrollment requirements for the TRICARE Prime option under the TRICARE program but without regard to the limitation in subsection (b). Any demonstration program under this subsection shall cover designated providers selected by the Secretary and the service areas of the designated providers.

(2) Any demonstration program carried out under this section shall commence on October 1, 1999, and end on September 30, 2001.

(3) Not later than March 15, 2001, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report on any demonstration program carried out under this subsection. The report shall include, at a minimum, an evaluation of the benefits of the open enrollment opportunity to covered beneficiaries and a recommendation concerning whether to authorize open enrollment in the managed care plans of designated providers permanently."

Ms. SNOWE. Mr. President, access to quality health care concerns many of our military men and women, both active and retired. My amendment would allow the Department of Defense to start a pilot project allowing continuous open enrollment in managed health care plans form military retirees at 2 sites selected by the Defense Department.

The term “continuous enrollment” means the opportunity for military beneficiaries to join the Prime option in TRICARE at any time. Currently, military retirees and their beneficiaries wishing to enroll in the Uniformed Services Family Health Plan (USFHP) may only do so during an annual 30-day long open session.

This arrangement inconsistent with the enrollment rules under TRICARE Prime option. These same beneficiaries can join Prime on a continuous basis, but are restricted from joining the USFHP to joint once a year for a 30-day period.

Coupled with the many changes in TriCare, including new enrollment fees and limits, many military beneficiaries are confused and unsure if the HMO option in TriCare, either Prime through the managed care support contractor of the USFHP, is the right choice for them and their families. Thus, as I have been informed by physicians from my own state, many military beneficiaries have decided not to join either program.

What this restriction means in practical terms for retirees is that they are not able to take advantage of health care providers that may practice in close proximity to their residences, but instead travel significant distances to a military treatment facility. In location where there are no TriCarePrime network providers, the retirees are acced with limited choices and higher costs.

The Department of Defense has indicated that this open enrollment would be too costly; however, there is limited data to support their contention that this provision will generate a significant influx of enrollees in the program. DOD’s key concerns are based on two factors: the possible increase in cost due to the number of enrollees, and the risk adjustment in the Medicare plan scheduled to take effect January 1, 2001. Based on a r a view of the actual enrollment data the number of people enrolled in the USFHP program has actually declined from 29,256 in October 1997 to 26,950 in March 1999.

This trend represents a decline of 7.6% over eighteen months and an annual rate of decline of 5.0%.

As of June 1, six of seven designated providers which operate the USFHP will have completed “open season” enrollment. The preliminary results show a net increase of 3,754 individuals enrolled in the USFHP. Of this number, approximately 18% or 676, were 65 and older. This is a much lower percentage—18% compared to 28%—than the 65 and older enrollees were as a percent of active retirees before the current open season started.

This amendment would authorize the Department of Defense to demonstrate the continuous open enrollment program at a minimum of two sites for a two year period. During the second year of the demonstration period, DOD would submit a report to Congress evaluating the benefits of the program and a recommendation concerning whether the authorize open enrollment in the managed care plans on a permanent basis.

This proposal is supported by numerous organizations such as the National Military Family Association and the National Military and Veterans Alliance. The national Military and Veterans Alliance includes organizations such as: The Retired Officers Association, Non-Commissioned Officers Association, Naval Reserve Association, National Association of Uniformed Services, Reserve Enlisted Association, and the Korean War Veterans Association.

In testimony before the Personnel Subcommittee earlier this year, repre-
to fully integrate Poland, Hungary, and the Czech Republic, new members of the North Atlantic Treaty Organization, into the NATO alliance as quickly as possible.

(b) MILITARY EDUCATION AND TRAINING PROGRAMS.—The Secretary of each military department shall give due consideration to accounting a high priority to the attendance of military personnel of Poland, Hungary, and the Czech Republic at professional military education schools and training programs in the United States, including the United States Military Academy, the United States Naval Academy, the United States Air Force Academy, the National Defense University, the war colleges of the Armed Forces, the command and general staff officer courses of the Armed Forces, and other schools and training programs of the Armed Forces that admit personnel of foreign armed forces.

Mrs. HUTCHISON. Mr. President, I am offering this amendment on behalf of myself and Senator LUTENBERG. The amendment is designed to encourage the Secretaries of each military department to give due consideration to providing a higher priority to the officers from Poland, Hungary and the Czech Republic for attendance at our military schools.

Our professional military schools and training programs including the service academies, the senior service colleges and the command and general staff colleges provide an outstanding opportunity for these officers to become fully immersed in our military doctrine and develop a deeper understanding for the American military culture. As new member nations of NATO, it is important that the officers of these countries become fully integrated as quickly as possible. The professional friendships and the mutual understanding which results from attendance at these courses is invaluable for both American officers and for foreign military officers.

I recently led a Congressional delegation to the Balkans. In Budapest we met with Hungarian Chief of Defense Staff, General Ferenc Vegh, who was proud to inform the delegation that he was a graduate of the United States Army War College in Carlisle, Pennsylvania. As a direct result of the professional association gained as a student at the War College, General Vegh has been key in directing Hungary's rapid integration into NATO. His story is one example among many of how the United States and the NATO Alliance has reaped an enormous benefit by providing the opportunity for foreign officer attendance at our military schools.

Attendance at our service academies on a priority basis will also provide an outstanding opportunity for future officers from our new NATO allies to foster long-term relationships with future U.S. military leaders. Historically, the relationships developed through attendance at the Military Academy, the Naval Academy and the Air Force Academy among American and foreign cadets over the four-year curriculum at the service academies have formed the basis for closer long-term military-to-military relations. Numerous foreign cadets who have graduated from our service academies have gone on to serve at the very highest levels as military and civilian leaders, including many heads of state.

It is my hope that this legislation will encourage the Secretaries of our military departments to give the officers and cadets from Poland, Hungary and the Czech Republic, our new NATO allies, a priority for attendance at our professional military schools and academies.

AMENDMENT NO. 504

(Purpose: To enhance the technology of health care quality surveillance and accountability)

In title VII, at the end of subtitile B, add the following:

SEC. 717. HEALTH CARE QUALITY INFORMATION AND TECHNOLOGY ENHANCEMENT.

(a) PURPOSE.—It is the purpose of this section to ensure that the Department of Defense addresses issues of medical quality surveillance and implements solutions for those issues that are consistent with national policy and industry standards.

(b) DEPARTMENT OF DEFENSE CENTER FOR MEDICAL INFORMATICS AND DATA.—(1) The Secretary of Defense shall establish a Department of Defense Center for Medical Informatics to carry out a program to support the Assistant Secretary of Defense for Health Affairs in:

(A) to develop parameters for assessing the quality of health care information;

(B) to develop the defense digital patient record;

(C) to conduct research for data on quality of health care;

(D) to develop a capability for conducting research on quality of health care;

(E) to conduct research on matters of quality of health care;

(F) to develop decision support tools for health care providers;

(G) to refine medical performance report cards; and

(H) to conduct educational programs on medical informatics to meet identified needs.

(2) The Center shall serve as a primary resource for the Department of Defense for matters concerning the capture, processing, and dissemination of data on health care quality.

(c) AUTOMATION AND CAPTURE OF CLINICAL DATA.—The Secretary of Defense shall accelerate the efforts of the Department of Defense to automate, capture, and exchange controlled clinical data and present providers with clinical guidance using a personal information carrier, clinical lexicon, or digital patient record.

(d) ENHANCEMENT THROUGH DOD-DVA MEDICAL INFORMATICS COUNCIL.—(1) The Secretary of Defense shall establish a Medical Informatics Council consisting of the following:

(A) The Assistant Secretary of Defense for Health Affairs

(B) The Director of the TRICARE Management Activity of the Department of Defense

(C) The Surgeon General of the Army

(D) The Surgeon General of the Navy

(E) The Surgeon General of the Air Force

(F) The Secretary of Veterans Affairs, whom the Secretary of Veterans Affairs shall designate.

(2) The Council shall submit an annual report on the activities of the Council to the Secretary of Veterans Affairs and to the appropriations committees of Congress.

(e) ANNUAL REPORT.—The Secretary of Defense shall submit to Congress an annual report on the progress of the Department of Defense in coordinating the development, deployment, and maintenance of health care informatics systems within the Department of Defense and the private sector.

(f) The Secretary of Defense shall ensure that the development of operational capabilities for executive information systems and clinical decision support systems within the Departments of Defense and Veterans Affairs.

(g) Standardization of processes used to collect, evaluate, and disseminate health care quality information.

(h) Refinement of methodologies by which the quality of health care provided within the Department of Defense and Veterans Administration is evaluated.

(i) Protecting the confidentiality of personal health information.

(j) The Council shall submit an annual report on the activities of the Council to the Secretary of Veterans Affairs and to the appropriations committees of Congress.

(k) A member of the Council is not, by reason of service on the Council, an officer or employee of the United States.

(l) No compensation shall be paid to members of the Council for service on the Council.

(m) The Secretary of Health and Human Services, whom the Secretary of Veterans Affairs shall designate.

(5) A member of the Council is not, by reason of service on the Council, an officer or employee of the Federal Government, the preceding sentence does not apply to compensation paid to the member as an officer or employee of the Federal Government.

(e) ANNUAL REPORT.—The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(f) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(g) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(h) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(i) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(j) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(k) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(l) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(m) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(n) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(o) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(p) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(q) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(r) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(s) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(t) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(u) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(v) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(w) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(x) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.

(y) The Federal Advisory Committee Act (5 U.S.C. App. 2) shall not apply to the Council.

(z) The Assistant Secretary of Defense for Health Affairs shall submit to Congress each year a report on the progress of the Department of Defense in developing, maintaining, and providing computerized and information systems to improve health care.
(2) Extent of use of health report cards.
(3) Extent of use of standard clinical pathways.
(4) Extent of use of innovative processes for surveillance.
(5) GRANT INSTRUCTION: APPROPRIATIONS.—In addition to other amounts authorized to be appropriated for the Department of Defense for fiscal year 2000 by other provisions of this Act, that are available to carry out subsection (b), there is authorized to be appropriated for the Department of Defense for such fiscal year for carrying out this subsection the sum of $2,000,000.

AMENDMENT NO. 505
(Purpose: To guarantee the right of all active duty military personnel, merchant mariners, and their dependents to vote in Federal, State, and local elections)

At the appropriate place, insert the following:

SECTION 1. SHORT TITLE.
This Act may be cited as the “Military Voting Rights Act of 1999.”

SEC. 2. GUARANTEE OF RESIDENCY.
Article VII of the Soldiers' and Sailors' Civil Relief Act of 1940 (50 U.S.C. 700 et seq.) is amended by adding at end the following:

“Sec. 704. (a) For purposes of voting for an office of the United States or of a State, a person who is absent from a State in compliance with military or naval orders shall not, solely by reason of that absence—

(1) be deemed to have lost a residence or domicile in that State;

(2) be deemed to have acquired a residence or domicile in any other State; or

(3) be deemed to have become resident in or a resident of any other State.

(b) In this section, the term ‘State’ includes a territory or possession of the United States, a political subdivision of a State, territory, or possession, and the District of Columbia.

SEC. 3. STATE RESPONSIBILITY TO GUARANTEE MILITARY VOTING RIGHTS.

(a) REGISTRATION AND BALLOTING.—Section 102 of the Uniformed and Overseas Absentee Voting Act (42 U.S.C. 1973ff-5) is amended—

(1) by inserting “(a) ELECTIONS FOR FEDERAL OFFICES.—” before “each State shall”;

(2) by adding at the end the following:

“(b) ELECTIONS FOR STATE AND LOCAL OFFICES.—Each State shall—

(1) permit absent uniformed services voters to sue absentee registration procedures and to vote by absentee ballot in general, special, primary, and run-off elections for State and local offices; and

(2) accept and process, with respect to any election described in paragraph (1), any otherwise valid voter registration application from an absent uniformed services voter if the application is received by the appropriate State election official not less than 30 days before the election.”

(b) CONFORMING AMENDMENT.—The heading for title I of such Act is amended by striking out “FOR FEDERAL OFFICE.”

AMENDMENT NO. 506
(Purpose: To express the sense of Congress regarding United States-Russian cooperation in commercial space launch services)

In title X, at the end of subtitle D, add the following:

SEC. 2. SENSE OF CONGRESS REGARDING UNITED STATES-RUSSIAN COOPERATION IN COMMERCIAL SPACE LAUNCH SERVICES.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should agree to increase the quantitative limitations applicable to commercial space launch services provided by Russian space launch service providers if the Government of the Russian Federation demonstrates a sustained commitment to seek out and prevent the illegal transfer from Russia to Iran or any other country of any prohibited ballistic missile equipment or any technology necessary for the acquisition or development by the recipient country of any ballistic missile;

(2) the United States should demand full and complete separation from the Government of the Russian Federation on preventing the illegal transfer from Russia to Iran or any other country of any prohibited fissile material or ballistic missile equipment or any technology necessary for the acquisition or development by the recipient country of any nuclear weapon or ballistic missile;

(3) the United States should take every appropriate measure necessary to encourage the Government of the Russian Federation to seek out and prevent the illegal transfer from Russia to Iran or any other country of any prohibited fissile material or ballistic missile equipment or any technology necessary for the acquisition or development by the recipient country of any nuclear weapon or ballistic missile.

(b) DEFINITIONS.—

(1) IN GENERAL.—The terms “commercial space launch services” and “Russian space launch service providers” have the same meanings given those terms in Article I of the Agreement Between the Government of the United States of America and the Government of the Russian Federation Regarding International Trade in Commercial Space Launch Services, signed in Washington, D.C., on September 2, 1993.

(2) QUANTITATIVE LIMITATIONS APPLICABLE TO COMMERCIAL SPACE LAUNCH SERVICES.—The term “quantitative limitations applicable to commercial space launch services” means the quantitative limits applicable to commercial space launch services contained in Article IV of the Agreement Between the Government of the United States of America and the Government of the Russian Federation Regarding International Trade in Commercial Space Launch Services, signed in Washington, D.C., on September 2, 1993, as amended by the agreement between the United States and the Russian Federation done at Washington, D.C., on January 30, 1996.

Mrs. FEINSTEIN. Mr. President, I rise to offer an amendment to the Department of Defense Authorization bill regarding Russian nonproliferation and U.S.-Russian cooperation on commercial space launch services.

This amendment is very simple: It states that a sustained Russian commitment to cooperation with the United States in preventing the proliferation of ballistic missile technology to Iran can provide the basis for an increase in the current quota limit on commercial space launches. Lifting the launch quota is an important incentive for Russia to cooperate with the U.S. on this issue.

This amendment also demands continued Russian cooperation on non-proliferation, and calls on the United States to take every appropriate measure to encourage the Russian government to seek out and prevent the illegal transfer of fissile material or missile equipment or any other technology necessary for the development of nuclear weapons or ballistic missiles.

I offer this amendment because I believe that there may be no greater long term threat to peace and stability in the Middle East than an Iran actively seeking ballistic missile and nuclear weapons.

Preventing the transfer of illegal nuclear and missile technology from Russia to Iran must be at the top of the U.S. policy agenda.

There have been numerous reports over the past several years of Russian missile technology reaching Iran, sometimes with a semi-official wink from government authorities in Moscow, sometimes outright approvals.

Either way, the Russian Government must put a stop to these transfers.

As much as we want good relations with Russia, cooperation in this area is crucial. In some ways, I believe it is a litmus test of what sort of player Russia wants to be in the post-cold war international system.

There is ample reason for concern. According to a Congressional Research Service report—

Despite pledges by Soviet leaders in 1990 and by various Russian leaders since then to ban missile exports, President Yeltsin’s 1994 agreement to refrain from new arms sales to Iran, and Russia’s entry into the Missile Technology Control Regime in 1995, there are recurring reports that Russian companies are selling missile technology to Iran and other countries.

On February 6, 1997, Vice President Gore issued a diplomatic warning to the Premier Chirac regarding Russian transfers to Iran of parts and technology associated with SS-4 medium-range ballistic missiles. Over the next several months, press reports indicated that Russian enterprises provided Iran specialty steels and alloys, tungsten coated graphite, wind tunnel facilities, gyroscopes and other guidance technology, rocket engine and fuel technology, laser equipment, machine tools, and maintenance manuals.

Russian assistance has apparently helped Iran overcome a number of obstacles and advance its missile development program faster than expected. The Rumsfeld Commission said, “The ballistic missile infrastructure in Iran is now more sophisticated than that of North Korea and has benefitted from the broad, essential assistance from Russia.”

In February 1998, the Washington Times reported that Russia’s Federal Security Service (FSB), a successor to the KGB, was still working with Iran’s intelligence service to pass technology through a joint research center, Persepolis, with facilities in St. Petersburg and Tehran.
In March 1998, the State Department listed (but did not make public) 20 Russian entities suspected of transferring missile technology to Iran. Lastly, there are still unanswered questions about Russian-Iranian nuclear cooperation raised by the January, 1995 contract signed by the Russian nuclear agency MINATOM to finish the unit of the Bushehr nuclear power project. Although the Bushehr plant itself is not considered a source of weapons material, the project is viewed as a proliferation risk because it entails massive involvement of Iranian personnel in nuclear technology, and extensive training and technical support from Russian nuclear experts.

Last year, the American Jewish Committee released a report, "The Russian Connection: Russia, Iran, and the Proliferation of Weapons of Mass Destruction" which provides an excellent overview of Russia's record in this area, as well as U.S.-Russian cooperation.

In addition to the troubling questions raised by Russia's past actions, however, there are also indications that the Russian government is making efforts to control the proliferation of missile and nuclear technology to Iran.

Although initially Moscow denied that its missiles or missile technology had been transferred to Iran, in September 1997, Russian officials reportedly stated that such transfers were being made without the consent of the government.

In January 1998, in response to concerns raised by numerous U.S. officials, Yuri Koptev, head of the Russian space agency, said of 13 cases raised by the U.S. Government, 11 had no connection to transfers related to weapons of mass destruction (nuclear, biological, or chemical) that were banned under a 1996 agreement.

On July 15, 1998, Russian authorities announced that nine Russian entities were being investigated for suspected violation of laws governing export of dual-use technologies. The nine include the Inor NPO, Polyus Research Institute, and Baltic State Technical University cited earlier, plus the Grafit Research Institute, Tikhomirov Institute, and Baltic State Technical University cited earlier, plus the Grafit Research Institute, Tikhomirov Institute, and Baltic State Technical University cited earlier.

Also last year, Russia announced the cancellation of a 1997 contract between a Russian entity, NPO Trud, and Iran in which rocket engine components were to have been shipped under the guise of gas pipeline compressors.

According to an April 15 letter I received from the Vice President, which I would like to submit for the RECORD, U.S. Special Ambassador Gallucci and Mr. Koptev have agreed to a work plan that addresses many of the concerns the U.S. has about missile proliferation, including the establishment of international compliance offices at several of the entities of concern.

U.S. experts have also developed a work plan with the Russian Ministry of Atomic Energy on measures to sever the links between NIKEIET, a leading Russian nuclear institute, and Iran, according to the Vice President.

I believe that we should try to build on Russia's record of cooperation, and that the best and most effective way to work with Russia on this issue is to offer them a carrot—lifting the launch quota—as an inducement to continued cooperation on this vital matter.

The current quota on commercial space launches is set at sixteen. Pending Russian cooperation, I believe that this quota can be raised to 20 and, if Russia continues to cooperate, incrementally raised again in the coming years. Each of the 20 launches would be paid for approximately $10 million in hard currency—a good incentive to cooperate.

This amendment also states, however, that the United States must continue to cooperate with respect to missile cooperation from Russia on this issue, and that the United States should take every appropriate measure to assure that the government of Russia continues to cooperate on this issue.

The missile work plan represents some forward movement and in my judgment reflects Russia's intense desire to see the launch quota increased and sanctions lifted. It is not, however, a complete or apologetic gesture. It may create a credible foundation to inhibit future cooperation. I have underscored that we will be watching Russian implementation of the agreement closely. I have also made clear that a solid track record is needed for us to consider an increase in the launch quota.

United States experts have also developed a work plan with the Russian Ministry of Atomic Energy on measures to sever the links between NIKEIET, a leading Russian nuclear institute, and Iran. Again, the key principle underlying this work plan is performance, which we are in a position to judge through our intelligence information. If we are satisfied that Russia's commitments are being implemented, we can begin to incrementally lift our sanctions against NIKEIET, beginning with the nuclear reactor safety projects that have been suspended.

The work plans I have described could represent a path forward if the Russian government acts effectively and quickly. I am by no means ready to succeed in solving either the missile or the nuclear proliferation problem. However, we now have a clear delineation of steps in that direction which we are in a position to verify. Positive, concrete actions by Russia will be the basis for any decisions we take to increase commercial and other forms of cooperation with Russian space and nuclear entities.

I will continue to raise this issue in discussions with my Russian counterparts until I am satisfied that all our concerns have been addressed.

Sincerely,

AL GORE.

AMENDMENT NO. 507

At the appropriate place in the bill, insert the following:

"AMENDMENT NO. 507

At the appropriate place in section 301(a), $23,000,000 shall be made available to the American Red Cross to fund the Armed Forces Emergency Services.

AMENDMENT NO. 508

(Purpose: To require the Department of Defense and the Department of Veterans Affairs to carry out programs and projects (telemedicine and telepharmacy demonstration projects))

On page 272, between lines 8 and 9, insert the following:
Telemedicine is technology’s version of the “doctor’s housecall.” Many recipients find care, such as the homebound, find making a visit to the doctor a very difficult and often painful experience. Health care outreach is needed in the home, remote deployment sites, rural clinics and other underserved areas. I also propose a tele-pharmacy project, which will study more efficient ways to bring drug and pharmaceutical expertise, as well as supplies, to the patient. For example, the Navy has reported its Battlegroup Telemedicine Program as cost-saving and groundbreaking in providing on-board ship medical treatment of military personnel, thus preventing unnecessary transport.

Support of collaborative endeavors between DoD and VA to reduce escalating health care costs and for more accessible, quality care has already been strongly advocated and discussed in the 1999 Report of the Congressional Commission on Servicemembers and Veterans Transition Assistance and endorsed by the Congress in the Cleland-Kempthorne Bill, S. 1394, which was made part of the Strom Thurmond National Defense Authorization Act (P. L. 105-261).

I urge my colleagues to support my amendment to further advance DoD/VA collaboration, to explore innovative ways of providing health care for veterans and members of the Armed Services and possible cost-reduction strategies, and to help military and veterans’ health care set an example of quality health care.

AMENDMENT NO. 509
(Purpose: To permit certain members of the Armed Forces not currently participating in the Montgomery GI Bill educational assistance program to participate in that program)

On page 254, between lines 3 and 4, insert the following new section:

SEC. 676. PARTICIPATION OF ADDITIONAL MEMBERS OF THE ARMED FORCES IN GI BILL EDUCATIONAL ASSISTANCE PROGRAM

(a) PARTICIPATION AUTHORIZED.—(1) Subchapter II of chapter 30 of title 38, United States Code, is amended by inserting after section 3012C the following new section:

*3018D. Opportunity to enroll: certain VEAP participants; active duty personnel not previously enrolled

(1) Notwithstanding any other provision of law, an individual who—

(A) is an eligible individual who—

(i) either—

(A) is a participant on the date of the enactment of this section in the educational benefits program provided by chapter 32 of this title; or

(ii) was enrolled in the Department of Education Account under section 3222(a) of this title; or

(B) has made an election under section 3011(c)(1) or 3012(d)(1) of this title not to receive educational assistance under this chapter and has not withdrawn that election under section 3222(b)(3) of this title before the date on which the individual makes an election described in paragraph (1)(A) on the date of the enactment of this section;

(2) is serving on active duty (excluding periods referred to in section 3222(b)(4)(A) of this title) before the date on which the individual described in paragraph (1)(A) on the date of the enactment of this section;

(3) before applying for benefits under this section, has completed the requirements of a secondary school diploma (or equivalency certificate) or has successfully completed the equivalent of 12 semester hours in a program of education leading to a standard college degree;

(4) if discharged or released from active duty before the date on which the individual makes an election described in paragraph (5), is discharged with an honorable discharge or released with service characterized as honorable by the Secretary concerned; and

(5) during the one-year period beginning on the date of the enactment of this section, makes an irrevocable election to receive benefits under this section in lieu of benefits under chapter 32 of this title or withdraws the election made under section 3011(c)(1) or 3012(d)(1) of this title, as the case may be, pursuant to procedures which the Secretary of each military department shall provide in accordance with regulations prescribed by the Secretary of Defense for the purpose of carrying out this section or which the Secretary of Transportation may prescribe for such purpose with respect to the Coast Guard when it is not operating as a service in the Navy;

is entitled to basic educational assistance under this chapter.

(1) Except as provided in paragraphs (2) and (3), in the case of an individual who makes an election under subsection (a)(5) to become entitled to basic educational assistance under this chapter—

(A) the basic pay of the individual shall be reduced (in a manner determined by the Secretary of Defense) until the total amount by which such basic pay is reduced is—

(i) $1,200, in the case of an individual described in subsection (a)(1)(A); or

(ii) $1,500, in the case of an individual described in subsection (a)(1)(B);

(B) to the extent that basic pay is not so reduced before the individual’s discharge or release from active duty as specified in subsection (a)(4), the Secretary shall—

(i) pay the individual benefits under the individual under subparagraph (A) and

(ii) pay the individual the amount equal to the difference between the amount specified for the individual under subparagraph (A) and the total amount of reductions with respect to the individual under that subparagraph, which will be paid into the Treasury of the United States as miscellaneous receipts.

(2) In the case of an individual previously enrolled in the educational benefits program provided by chapter 32 of this title, the Secretary shall reduce the total amount of the reduction in basic pay otherwise required by paragraph (1) by an amount equal to so much of the unused contributions made by the individual to the Post-Vietnam Era Veterans Education Account under section 3222(a) of this title as do not exceed $1,200.

(3) An individual may at any time pay the Secretary an amount equal to the difference between the total amount of the reduction in basic pay otherwise required with respect to the individual under this subsection and the total amount of the reductions with respect to the individual under this subsection at any time prior to the payment. Amounts paid under this paragraph shall be paid into the Treasury of the United States as miscellaneous receipts.

(4) Except as provided in paragraph (3), an individual who is enrolled in the educational benefits program provided by chapter 32 of this title and who makes the election described in subsection (a)(5) shall be disqualified from such program as of the date of such election.

My amendment would authorize $5 million a year for three years for five DoD/VA Telemedicine and Telepharmacy demonstration projects. Under my proposal DoD/VA researchers and clinicians will develop rigorous, outcome-oriented telemedicine and telepharmacy projects that will benefit military and veteran study participants and potentially future servicemembers and veteran recipients of health care.
"(A) to the individual in the manner pro-
vided for in such section shall be the com-
pletion of the period of active duty being 

served by the individual on the date of the 
enactment of this Act which includes 
the following:

(a) I N GENERAL.—Clause (C) of the third 
subsection of section 3680(a) of title 38, 
United States Code, is amended to read as 
follows:

"(C) during periods between school 
terms when the educational institution certifies 

the enrollment of the eligible veteran or 
eligible person on an individual term basis if (i) 
the period between such terms does not ex-
cede eight weeks.

(b) CONFORMING AMENDMENT.—Section 
3618D of title 38, United States Code, is amended 
by inserting "or 3618C" in its fourth paragraph.

(c) SENSE OF CONGRESS.—It is the sense of 
Congress that any law enacted after the date of 
the enactment of this Act which includes 
provisions terminating or reducing the con-
tributions of the Armed Forces for 

basic educational assistance under sub-
chapter II of chapter 30 of title 38, United 
States Code, to the same extent or by an 
identical amount the contributions of 

members of the Armed Forces for such as-
sistance under section of section 3618D of 

that title, as added by subsection (a).

Mr. FRIST. Mr. President, this 

amendment is meant to assist the men 
and women serving in our armed forces 

in attaining an education. This amend-
ment is targeted at a group serving in 

our military that has been forgotten 
since the passage of the Montgomery 

GI Bill.

Before the GI Bill was enacted in 
1952, new servicemen were invited to 
participate in a program called the 
Veterans' Educational Assistance Pro-
gram. This program offered only a modest return on the service 
member's investment and, as a con-
sequence, provided little assistance to 

men and women in the armed services 
who wanted to pursue additional edu-
cation. It was also inferior to the 

Montgomery GI Bill that every new 
serviceman is offered today.

My amendment would allow active 
duty members of the armed services 

who entered the service December 
31, 1976 and before July 1, 1985 and who 

were otherwise eligible for the Veterans' Educational Assistance 
Program to participate in the Montgomery 

GI Bill. This group of military profes-
sionals largely consists of the mid-ca-
career and senior noncommissioned offi-
cers-ranks of our services—the exact 
group that new recruits have as men-
tors and leaders.

If we really believe in the importance 
of providing our service men and 

women with the education opportuni-
ties afforded by the Montgomery GI bill, it is critical that we offer all serv-

ice members the opportunity to par-
ticipate if they choose.

It is important to remember that 
much of the impetus for the creation of 
the Montgomery GI Bill was that the 

Veterans' Educational Assistance Pro-
gram was not doing the job. It was not 

providing sufficient assistance for 

young men and women to go to college. 

It was expensive for them to partici-
pate, and provided little incentive for 

young men and women to enter the 
military.

The Montgomery GI Bill offers those 
serving in the military a significant in-
crease in benefits over its predecessor 

and has been one of the most impor-
tant recruiting tools over the last de-
cade. It is essential that active military 

still covered under VEAP but not by 

the Montgomery GI Bill be brought 

into the fold.

The injustice that my bill attempts 
to address is that new recruits are eli-

gible for a better education program 

than the noncommissioned officers 

responsible for their training and well-

being. Expanding Montgomery Bill eli-

gibility to those currently eligible for 

VEAP would, in many cases, help mid-
career and senior noncommissioned offi-
cers, who are the backbone of our 

force and set the example for younger 
troops, become better educated. 

This legislation is modest in its scope 

and approach, but is enormously important 

for the individual attempting to better 
himself through education.

Moreover, this legislation sends a 
meaningful message to those serving 
to protect the American interest that 

Congress cares. S. 3, the Soldiers, 

Sailors, Airmen and Marines Bill of 

Rights Act which I was proud to co-sponsor was an 

enormous step in this direction, and 

my legislation complements that ef-

fort.

Some of the common sense provisions 
of this amendment are:

1. Regardless of previous enrollment 
or disenrollment in the VEAP, active 
military personnel may choose to 
participate in the GI Bill.

2. Participation for VEAP-eligible 

members of the GI Bill is to be based 
on the same "buy in requirements" as 
are currently applicable to any new GI 

Bill participant. For example, an 
active duty member is required to pay 

$100 a month for twelve months in 

order to be eligible for the Mont-

gomery GI Bill. The same would be 

required of someone previously eligible 

for VEAP.

3. Any active duty member who has 

previously declined participation in 

the GI bill may also participate.

There will be a one year period of 

eligibility for enrollment.

I believe that if we are to maintain 
the best trained, and most capable 

military force in the world, we must be 

committed to allowing the people that 

enlist to choose their own military 

force to pursue further education opportunities. I also 

believe that the modest amendment will 

have a positive effect on morale and 
give our noncommissioned officers ad-

ditional opportunities for self-improve-

ment and life-long learning. I ask for 
my colleagues support in this effort. 

thank you Mr. President.

AMENDMENT NO. 510

(Purpose: To authorize the Secretary of Vet-

erans Affairs to continue payment of 

monthly educational assistance benefits to 

veterans enrolled at educational institu-

tions during periods between terms if the 

interval between such periods does not ex-
cede eight weeks).

On page 254, between lines 3 and 4, insert 

the following:

SEC. 467. REVISION OF EDUCATIONAL ASSIST-

ANCE INTERVAL PAYMENT REQUIRE-

MENTS.

(a) In General.—Clause (C) of the third 
subsection of section 3680(a) of title 38, 
United States Code, is amended to read as 
follows:

"(C) during periods between school terms 
when the educational institution certifies 

the enrollment of the eligible veteran or 
eligible person on an individual term basis if (i) 
the period between such terms does not ex-
cede eight weeks, and (ii) both the term preced-
ing and the term following the period are 

not shorter in length than the period.

",.

(b) Effective Date.—The amendment 
made by section (a) shall apply with respect 

to payments of educational assistance under 

title 38, United States Code, for periods begin-
ing on or after the date of the 
enactment of this Act.

Mr. DeWINE. Mr. President, this 

amendment, which I offer along with 

Senator Voinovich, would fix an uninten-
tioned oversight in veterans' edu-
cational benefits. This amendment is 
similar to legislation I introduced 

in the Senate. The amendment would 

authorize the Secretary of Veterans 

Affairs to continue payment of 

educational assistance benefits to 

veterans enrolled at educational institu-

tions during periods between terms if 

the interval between such periods does not ex-
cede eight weeks.)
on the quarter system, which can have a vacation period of eight weeks between the first and second quarters during the winter holiday season. As a result, many veterans unfairly lose their benefits during this period because of the institution’s course structure.

Mr. President, it is my understanding that some educational institutions that have a sizable veteran enrollment frequently create a one-credit hour course on military history or a similar topic specifically geared towards veterans in order for them to remain enrolled and eligible for their educational benefits. It is my understanding that, the cost of extending the current eligibility period to eight weeks would have a minimal, if not negligible, cost.

The Department of Veterans’ Administration has recognized the need to correct this oversight and assisted in the drafting of this legislation and has given it their full support.

I have no doubt that this very simple fix will be well-received by our veterans and the educational institutions that operate under the quarter system. I already know that Wright State University, Bowling Green State University, Ohio University and Methodist Theological School in Ohio have expressed their support for this legislation.

I urge my colleagues to support this common sense fix and allow all veterans to receive the uninterrupted educational assistance they earned.

**AMENDMENT NO. 513**

(Purpose: To increase the grade established for the chiefs of reserve components and the additional general officers assigned to the National Guard Bureau, and to exclude those officers from a limitation on number of general and flag officers)

In title V, at the end of subtitle B, add the following:

**SEC. 522. CHIEFS OF RESERVE COMPONENTS AND THE ADDITIONAL GENERAL OFFICERS AT THE NATIONAL GUARD BUREAU.**

(a) **GRADE OF CHIEF OF ARMY RESERVE.—** Section 5143(c)(2) of such title is amended by striking “major general” and inserting “lieutenant general”.

(b) **GRADE OF CHIEF OF NAVAL RESERVE.—** Section 5143(c)(2) of such title is amended by striking “major general” and inserting “lieutenant general”.

(c) **GRADE OF COMMANDER, MARINES FORCES RESERVE.—** Section 5146(c)(2) of such title is amended by striking “brigadier general” and inserting “major general” and inserting “lieutenant general”.

(d) **GRADE OF CHIEF OF NAVAL AIR FORCES RESERVE.—** Section 5142(c) of such title is amended by striking “major general” and inserting “lieutenant general”.

(e) **THE ADDITIONAL GENERAL OFFICERS FOR THE NATIONAL GUARD BUREAU.—** Paragraphs (A) and (B) of section 10506(a)(1) of such title are each amended by striking “major general” and inserting “lieutenant general”.

(f) **EXCLUSION FROM LIMITATION ON GENERAL AND FLAG OFFICERS.—** Section 526(d) of such title is amended to read as follows:

“EXCLUSION OF CERTAIN RESERVE COMPONENT OFFICERS.—The limitations of this section do not apply to the following reserve component general or flag officers:

“(1) An officer on active duty for training.

“(2) An officer on active duty under a call or order specifying a period of less than 180 days.

“(3) The Chief of Army Reserve, the Chief of Naval Reserve, the Chief of Air Force Reserve, the Commander, Marine Forces Reserve, and the additional general officers assigned to the National Guard Bureau under section 10506(a)(1) of this title.”.

(g) **EFFECTIVE DATE.—** This section and the amendments made by this section shall take effect 90 days after the date of the enactment of this Act.

**AMENDMENT NO. 514**

(Purpose: To increase the grade established for the chiefs of reserve components and the additional general officers assigned to the National Guard Bureau, and to exclude those officers from a limitation on number of general and flag officers)

In title V, at the end of subtitle B, add the following:

**SEC. 629. SENSE OF THE SENATE REGARDING TAX TREATMENT OF MEMBERS RECEIVING SPECIAL PAY.**

It is the sense of the Senate that members of the Armed Forces who receive special pay should receive the same tax treatment as members serving in combat zones.

Mr. EDWARDS. Mr. President, this amendment expresses the sense of the Senate that members of the Armed Forces who receive special pay should receive the same tax treatment as members serving in combat zones.

Currently, members of the U.S. Armed Forces who serve in a 'combat
These demands are contributing to both back-to-back deployments, particularly when there are repeated or members deployed and their families, presence—such as our forces in the duration; some are part of a continuous rise 400 percent while its active duty Air Force has seen its deployed forces responses have doubled in the 90's. The in the less than 10 years since the fall security strategy has lead us into an era based primarily in the United States. our armed forces and a withdrawal of the members of our armed forces and their fam-

world that repeatedly affects the mem-

hostile zones. The original tax exemption for comba-

And I also believe that making this change in the Tax Code would correct an inequity. I think it is only right that soldiers in the Kosovo engagement are receiving the tax exemptions. But during a recent visit to Fort Bragg, many soldiers and their families commented that the same benefits should have been extended to the soldiers who served in Haiti and in Somalia. I have to say that I agreed with them. Indeed, I would introduce legislation after Mem-

This Sense of the Senate addresses the needs of the post-cold war world that repeatedly affects the members of our armed forces and their families. As the Senate knows all too well, the end of the cold war brought with it a significant drawdown in the size of our armed forces and a withdrawal from an overseas based force to one based primarily in the United States. Almost concurrently, our national security strategy has lead us into an era of seemingly continuous deployments. In the 40 years between 1950 and 1990, the U.S. Army was deployed 10 times. In the less than 10 years since the fall of the Berlin Wall, the Army has been deployed 33 times. The Navy’s responses have doubled in the 90’s. The Air Force has seen its deployed forces rise 400 percent while its active duty personnel dropped 33 percent. Some of these deployments are a few months in duration; some are part of a continuous presence—such as our forces in the Sinai. All work hardship on both the members deployed and their families, particularly when they are repeated or back-to-back deployments.

Again, as the Senate well knows these demands are contributing to both recruitment and retention problems. In recognition of these demands and of the likelihood that we will continue to see more of these deployments, this Sense of the Senate recognizes that we need to bring our Tax Code up to date so that it too acknowledges these new realities.

As we approach Memorial Day, I ask the Senate to approve this amendment as a means of acknowledging the sacrifices demanded of our service members and their families.

(AMENDMENT NO. 515)

(Purpose: To increase the funding for the Formerly Used Defense Sites account) (1) On page 56, line 16, add "$40,000,000". (2) On page 55, line 15, reduce "$80,000,000".

(AMENDMENT NO. 558)

(Purpose: To strike the portions of the military lands withdrawals relating to lands located in Arizona) In section 2902, strike subsection (a). In section 2902, redesignate subsections (b), (c), and (d) as subsections (a), (b), and (c), respectively. In section 2903(c), strike paragraphs (4) and (7). In section 2903(c), redesignate paragraphs (5) and (6) as paragraphs (4) and (5), respectively. In section 2904(a)(1)(A), strike "(except those lands within a unit of the National Wildlife Refuge System)". In section 2904(a)(1), strike subparagraph (B).

In section 2004, strike subsection (g). Strike section 2905. Strike section 2906. Redesignate section 2907 through 2914 as sections 2905 through 2912, respectively. In section 2907(h), as so redesignated, strike "section 2902(c) or 2902(d)" and insert "section 2902(d) or 2902(c)". In section 2908(b), as so redesignated, strike "section 2909(g)" and insert "section 2909(g)". In section 2910, as so redesignated, strike ", except that hunting," and all that follows and insert a period. In section 2911(a), as so redesignated, strike "subsections (b), (c), and (d)" and insert "subsections (a), (b), and (c)". In section 2911(a)(2), as so redesignated, strike "..., except that lands" and all that follows and insert a period.

At the end, add the following:

SEC. 2912. SENSE OF SENATE REGARDING WITHDRAWALS OF CERTAIN LANDS IN ARIZONA.

It is the sense of the Senate that—
(1) it is vital to the national interest that the withdrawal of the lands withdrawn by section 1(c) of the Military Lands Withdrawal Act of 1986 (Public Law 99–606), relating to Barry M. Goldwater Air Force Range and the Cabeza Prieta National Wildlife Refuge, which would otherwise expire in 2001, be renewed in 1999;
(2) the renewed withdrawal of such lands is critical to maintaining annual training requirements of the Armed Forces and to provide the Armed Forces with experience necessary to defend the national interests;
(3) the Army currently carry out environmental stewardship of such lands in a comprehensive and focused manner; and
(4) a continuation in high-quality management of United States natural and cultural resources is required if the United States is to preserve its national heritage.
proposed withdrawal appears to have been inadequate. In addition, concerns about the process by which this legislation is being undertaken have been raised. Therefore, in order to ensure that all interested parties have a full opportunity to participate in the drafting of the final legislation withdrawing the Goldwater Range, I am proposing this amendment to replace the existing language with a “sense of the Senate” provision expressing the desire to complete the withdrawal process this year.

As I have said, there has been some controversy about the language of Title 29. The placeholder language in Title 29 was the inclusion of this language in the bill intended to preclude the ability of those Committees to conduct oversight hearings and provide input in the final legislation to withdraw the Goldwater Range and other ranges covered in Title 29. In full respect, however, of these Committees’ interest in ensuring this bill in no way prejudices the outcome of the legislative process, I agree that a placeholder which simply expresses the desire to the Senate to enact legislation this year is more appropriate at this time. I fully expect to work closely with all members of the Senate and interested outside parties to reach a consensus on legislation that can be re-inserted in this bill in conference.

I also sympathize with the concerns raised by several organizations regarding future environmental stewardship of the Goldwater Range, just as I fully appreciate the support the range has received for essential military training.

Let me reiterate what I said more fully in my additional views filed with the bill. This language was intended simply to be a placeholder to ensure that, if an Administration proposal is submitted to Congress this year for the withdrawal of these lands, it can be appropriately considered in the normal legislative process. I have been and will remain committed to protecting and preserving the natural and cultural resources on these lands and the critical need to conduct military training, both of which would end with the expiration of the current law.

The Administration has stated their desire to complete the legislative process for withdrawal of these lands during this session of the Congress—a goal which I and the Committee fully support—and has now committed to send a final legislative proposal to Congress by approximately June 9, 1999. I urge the Administration to finalize and submit a legislative proposal as early as possible so that all interested parties may review it carefully and efforts can be undertaken quickly to achieve a consensus on legislation that can be enacted this year in this bill.

Mr. President, I hope this amendment to replace the existing language on the Goldwater Range withdrawal, as well as the Chairmen of the Environment and Energy Committees. I look forward to working with the relevant committees and interested parties to reach a consensus on a final legislative package regarding the Goldwater Range that can be included in the conference agreement on this bill.

AMENDMENT NO. 517

(Purpose: To increase by $2,000,000 the amount authorized for the Navy for procurement of MJU-52/B air expendable countermeasures and to offset the increase by a decrease by $2,000,000 of the amount authorized for the Army for UH-1 helicopter modifications)

On page 16, line 17, strike “$1,500,188,000” and insert “$1,498,188,000.”

On page 17, line 18, strike “$540,700,000” and insert “$542,700,000.”

AMENDMENT NO. 518

(Purpose: To authorize a one-year delay in the demolition of three certain radio transmitting facility towers at Naval Station, Annapolis, Maryland and to facilitate transfer of towers)

At the end of subtitle E of title XXVIII, add the following: SEC: ONE-YEAR DELAY IN DEMOLITION OF RADIO TRANSMITTING FACILITY TOWERS AT NAVAL STATION, ANNAPOlis, MARYLAND, TO FACILITATE TRANSFER OF TOWERS.

(a) One-Year Delay.—The Secretary of the Navy may not obligate or expend any funds for the demolition of the naval radio transmitting towers described in subsection (b) during the one-year period beginning on the date of enactment of this Act.

(b) Covered Towers.—The naval radio transmitting towers described in this subsection are the three southeastern most naval radio transmitting towers located at Naval Station, Annapolis, Maryland that are scheduled for demolition as of the date of enactment of this Act.

(c) Transfer of Towers.—The Secretary may transfer the Naval Radio Transmitting Facility at Naval Station, Annapolis, Maryland to an eligible entity. The Secretary shall determine which of the naval radio transmitting towers described in subsection (b) may be transferred to the entity.

AMENDMENT NO. 519

(Purpose: To impose certain requirements relating to the recovery and identification of remains of World War II servicemen in the Pacific theater of operations)

In title X, at the end of subtitle D, add the following:

SEC. 1061. RECOVERY AND IDENTIFICATION OF REMAINS OF CERTAIN WORLD WAR II SERVICEMEN.

(a) Responsibilities of the Secretary of the Army.—(1) The Secretary of the Army, in consultation with the Secretary of Defense, shall make every reasonable effort, as a matter of high priority, to search for, recover, and identify the remains of United States servicemen of the United States aircraft lost in the Pacific theater of operations during World War II, including in New Guinea.

(2) The Secretary of the Army shall submit to Congress not later than September 30,
Mr. SMITH of New Hampshire. Mr. President, I want to thank the managers of this bill for accepting this amendment, and I thank all of my colleagues for their support.

Let me say this is a very simple amendment, but one that becomes profoundly relevant as we approach Memorial Day next Monday, especially for the families of unaccounted for servicemen from World War II.

This amendment instructs the Secretary of the Army to make every reasonable effort to search for, recover, and identify the remains of U.S. servicemen from World War II crashsites in the South Pacific. As many of my colleagues know, the Army is DoD's executive agent for this kind of recovery work.

Mr. President, earlier this month I attended a military funeral for a World War II Army Air Corps pilot from Worcester, Massachusetts. I can't begin to tell you how moved I was to attend this funeral and listen to the eulogy about this young pilot, who joined the Army the day after Pearl Harbor, went on to get his wings in the Army Air Corps, married his sweetheart, only to have to leave her two days later. He was never to come home. He was lost over New Guinea flying his P-47 Thunderbolt in 1943.

Fifty-three years later, in 1996, his remains inside his crashed plane were accidently located by a private American citizen, Mr. Fred Hagen, who was searching for his great uncle's B-25 bomber.

Only then, did the emotional rollercoaster ride for the surviving elder family members really begin because it took almost 3 additional years, and my continuous intervention along the way, for the remains to be formally recovered and identified by the Army. That company the world in New Guinea at one point, and that delayed things, and there were also competing priorities that the Army was trying to balance.

That case is now behind us, but I am aware that there are other World War II crashsites in New Guinea where the remains of American servicemen are presently located, yet they have not been formally recovered by the Army. Indeed, Mr. President, I would like to enclose for the record a letter I received yesterday from one American who has located several crash sites in New Guinea.

All this amendment does, Mr. President, is ensure that the Army works hard at locating, excavating, and identifying remains from these crash sites. By passing this amendment, we increase the likelihood that some of these families of missing World War II aviators will finally have a grave at which to lay flowers during a future Memorial Day. It's the least we can do, Mr. President, to honor those who made the ultimate sacrifice, and their aging family members.

Accounting for missing servicemen from World War II is just as important as accounting for missing servicemen from the Vietnam or Korean Wars. Each of these brave men made the ultimate sacrifice for our country. This amendment makes sure every effort is made to account for these missing servicemen.

I ask unanimous consent to have the letter printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

ALFRED (FRED) HAGEN.
Philadelphia, P.A.

Senator SMITH, c/o Dino Carluccio.

DEAR SIR: In September, 1998 Cil-Hi apparently flew over the site of a B-25 that I found in November, 1997 and decided that the site should not be recovered due to the danger of landslides and the difficulty of working on the precipitous slope. If Cil-Hi does not change their position on this matter, I plan to organize a private team and recover the site myself.

We were able to identify the plane as a B-25D-1, 42–30092, 18th Bomb Group, 71st Bomb Squadron. The B-25 had departed Saidor on a shuttle flight to Nadzab on July 1, 1944/09/07. There were 9 persons aboard:

- They were: Pilot, Richard Hurst, 1st Lt.; Co-Pilot, James Henderson, 1stLt.; Navigator, Aloysius Steele, 2ndLt.; Radio-Gunner, John Creighton, Pfc.; Gunner, Henry Miga, Sgt.; Passenger, A. Milazzo, TEC; Passenger, B. Durham, Pfc.; Passenger, S. Russell; Pfc.; Passenger, G. Norris, Cpl.

Their exact fate had been unknown until Friday, November 7th, 1997. I picked up the bones of what turned out to be partial remains of three men and put them in my backpack. The remains had already been moved by the natives and no site integrity was lost by my action. I returned the remains to the US Ambassador in Port Moresby.

After years of searching, I also located the wreckage of the B-25 in which my late relative, Bill Benn was killed in 1947. The site was located in a very rugged terrain in 1957 and was visited by an Australian who performed a cursory "look around", salvaged a few bones and left the site littered with remains. I returned a number of bones to Cil-Hi after my June 1998 visit and requested that they do a formal site investigation. The site has never been visited by a US serviceman, in fact, there is little doubt in my mind that no one had re-visited the site until my team located it in 1998. The scarce remains of the crew were interred in a single box in Zachary Taylor National Cemetery (chosen due to its central location). I would like all the recoverable remains to come home, the 1957 burial site exhumed and all the remains to be segregated utilizing today's DNA technology. It would be very meaningful to my family to be able to give Bill Benn a proper burial in Arlington, minutes away from the residence of his widow and daughter.

I don't think that is too much to ask for a man who really deserved the following commendation from General Kenney: "No one in the theatre made a greater contribution to victory than Bill Benn". He has subsequently been forgotten by the world but not by his family.

This may not be a high priority for Cil-Hi because the case is supposedly already resolved. The bulk of remains appear to still be in New Guinea, however, and the question is whether it is good enough to appear to recover remains or whether the US military is committed enough to recover all possible remains. I cut a large heli-pad nearby and the site is readily accessible. I am also willing to accompany the team to guide them and render any assistance possible.

I appreciate your interest and assistance. I understand that you are busy and probably not available on short notice but I want to invite you to attend the burial of another P-47 pilot that I discovered in New Guinea named George Gaffney. He is being buried at Arlington on June 9th, 1999. After I found Desilets, Gaffney's daughter contacted me and asked me to look for his father. In what can only be described as a "miraculous" turn of good fortune, I succeeded in finding his remains.

Thank you so much.

FRED HAGEN.

AMENDMENT NO. 528

(Purpose: To make technical and clarifying amendments)

On page 33, beginning on line 3, strike "that involve" and insert "as well as for use for".

On page 278, line 4, strike "1998" and insert "1999".

On page 283, line 19, strike "(A)" and insert "(1)".

On page 283, line 23, strike "(B)" and insert "(2)".

On page 284, line 3, strike "(C)" and insert "(3)".

On page 368, line 14, strike "$40,000,000" and insert "$85,000,000".

On page 397, beginning on line 2, strike "readily accessible and adequately preserved artifacts and readily accessible representations" and insert "adequately visited and adequately preserved artifacts and representations".

On page 411, in the table below line 12, strike the item relating to "Naval Air Station Atlanta, Georgia".

On page 412, in the table above line 1, strike "$74,140,000" in the amount column in the item relating to the total and insert "$117,702,000".

On page 413, in the table following line 2, strike the first item relating to Naval Base, Pearl Harbor, Hawaii, and insert the following new item:
On page 414, line 6, strike "$2,078,015,000" and insert "$2,072,589,000".
On page 414, line 9, strike "$673,360,000" and insert "$668,530,000".
On page 429, line 20, strike "$179,271,000" and insert "$169,639,000".
On page 429, line 21, strike "$115,185,000" and insert "$101,817,000".
On page 429, line 23, strike "$23,045,000" and insert "$24,675,000".
On page 509, line 10, strike "$592,629,000" and insert "$880,629,000".
On page 509, line 16, strike "$86,290,000" and insert "$101,290,000".
On page 509, between lines 16 and 17, insert the following:

Project 00-D-400, Site Operations Center, Idaho National Engineering and Environmental Laboratory, Idaho Falls, Idaho, $1,306,000.

On page 541, line 22, strike "The" and insert "After five members of the Commission have been appointed under paragraph (1), the".

On page 542, between lines 11 and 12, insert the following:

(8) The Commission may commence its activities under this section upon the designation of the chairman of the Commission under paragraph (4).

On page 546, strike lines 20 through 23.

On page 547, line 1, strike "(3)" and insert "(2)".

On page 577, line 16, strike "PROJECT" and insert "PLANT".

On page 577, line 23, strike "PROJECT" and insert "PLANT".

On page 578, line 3, strike "PROJECT" and insert "PLANT".

On page 578, line 6, strike "PROJECT" and insert "PLANT".

On page 578, line 14, strike "PROJECT" and insert "PLANT".

On page 578, strike lines 17 through 21, and insert the following:

(3) That, to the maximum extent practicable, shipments of waste from the Rocky Flats Plant Waste Isolation Pilot Plant will be carried out on an expedited schedule, but not interfere with other shipments of waste to the Waste Isolation Pilot Plant that are planned as of the date of the enactment of this Act.

AMENDMENT NO. 521

(Purpose: To require a report on military-to-military contacts between the United States and the People’s Republic of China)

On page 357, between lines 11 and 12, insert the following:

SEC. 1061. REPORT ON MILITARY-TO-MILITARY CONTACTS WITH THE PEOPLE’S REPUBLIC OF CHINA.

(a) REPORT.—The Secretary of Defense shall submit to Congress a report on military-to-military contacts between the United States and the People’s Republic of China.

(b) REPORT ELEMENTS.—The report shall include the following:

(1) A list of the general and flag officers referred to in paragraph (2), including the installations visited, the duration of the visits, and the activities conducted during the visits.

(2) The itinerary of the visits referred to in paragraph (1), including the installations visited, the duration of the visits, and the activities conducted during the visits.

(3) The involvement, if any, of the general and flag officers referred to in paragraph (2), in the Tiananmen Square massacre of June 1989.

(4) A list of facilities in the People’s Republic of China where United States military officials have visited as a result of any military-to-military contact program between the United States and the People’s Republic of China since January 1, 1993.

(5) A list of facilities in the People’s Republic of China that have been the subject of a requested visit by the Department of Defense which has been denied by People’s Republic of China authorities.

(6) A list of facilities in the United States that have been the subject of a requested visit by the People’s Liberation Army which has been denied by the United States.

(7) Any official documentation such as memoranda for the record, official reports, and final itineraries, and receipts for expenses over $1,000 concerning military-to-military contacts or exchanges between the United States and the People’s Republic of China.

(8) An assessment regarding whether or not any People’s Republic of China military officials have been shown classified material as a result of military-to-military contacts or exchanges between the United States and the People’s Republic of China.

(9) The report shall be submitted no later than March 1, 1999.

AMENDMENT NO. 522

(Purpose: To authorize the Secretary of Defense to transfer to the Attorney General quantities of lethal chemical agents required to support training at the Chemical Defense Training Facility at the Center for Domestic Preparedness, Fort McClellan, Alabama.)

In title X, at the end of subtitle D, add the following:

SEC. 1061. CHEMICAL AGENTS USED FOR DEFENSE TRAINING.

(a) AUTHORITY TO TRANSFER AGENTS.—(1) The Secretary of Defense may transfer to the Attorney General, in accordance with the Chemical Weapons Convention, quantities of lethal chemical agents required to support training at the Chemical Defense Training Facility at the Center for Domestic Preparedness, Fort McClellan, Alabama.

(b) ANNUAL REPORT.—The Secretary of Defense, in consultation with the Attorney General, shall report annually to Congress regarding the disposition of lethal chemical agents transferred under this section.

(c) NON-INTERFERENCE WITH TREATY OBLIGATIONS.—Nothing in this section may be construed as interfering with United States treaty obligations under the Chemical Weapons Convention.

(d) CHEMICAL WEAPONS CONVENTION DEFINED.—In this section, the term ‘‘Chemical Weapons Convention’’ means the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on their Destruction, opened for signature on January 13, 1993.

AMENDMENT NO. 523

SEC. 225. ORDNANCE MITIGATION STUDY.

(a) The Secretary of Defense is directed to undertake a study and is authorized to remove ordnance infiltrating the federal navigation channel and adjacent shorelines of the Toussaint River.

(b) The Secretary shall report to the congressional defense committees and the Senate Environment and Public Works on long-term solutions and costs related to the removal of ordnance in the Toussaint River, Ohio. The Secretary shall also evaluate any ongoing use of Lake Erie as an ordnance firing range and justify the need to continue such activities by the Department of Defense or its contractors. The Secretary shall report not later than April 1, 2000.

(c) This provision shall not modify any responsibilities and authorities provided in the Water Resources Development Act of 1986, as amended (Public Law 99–662).

(d) The Secretary is authorized to use any funds available to the Secretary to carry out the authority provided in subsection (a).

AMENDMENT NO. 524

(Purpose: To require a study and report regarding the options for Air Force cruise missiles)

In title II, at the end of subtitle C, add the following:

SEC. 225. OPTIONS FOR AIR FORCE CRUISE MIS- SILES.

(a) STUDY.—(1) The Secretary of the Air Force shall conduct a study of the options for meeting the requirements being met as of the date of the enactment of this Act by the conventional air-launched cruise missile (CALCM) once the inventory of that missile is depleted. In conducting the study, the Secretary shall consider the following options:
(A) Restarting of production of the conventional air launched cruise missile.

(B) Acquisition of a new type of weapon with the same lethality characteristics as those of the conventional air launched cruise missile or improved lethality characteristics.

(C) Utilization of current or planned munitions, with upgrades as necessary.

(2) The Secretary shall submit the results of this study to the Armed Services Committees of the House and Senate by January 15, 2000, the results might be—

"(A) reflected in the budget for fiscal year 2001 submitted to Congress under section 1105 of title 31, United States Code; and

(b) reported to Congress as required under subsection (b).

(2) REPORT.—The report shall include a statement of how the Secretary intends to meet the requirements referred to in subsection (a)(1) in a timely manner as described in that subsection.

AMENDMENT NO. 521

(Purpose: To authorize reductions in Russian nonstrategic nuclear arms, and to require annual reports on Russia’s nuclear arsenal)

In title X, at the end of subtitle D, add the following:

SEC. 1061. RUSSIAN NONSTRATEGIC NUCLEAR ARMS.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) it is in the interest of Russia to fully implement the Presidential Nuclear Initiatives announced in 1991 and 1992 by then-President of the Soviet Union Gorbachev and then-President of Russia Yeltsin;

(2) the President of the United States should call on Russia to reduce the unilateral reductions in the United States inventory of tactical nuclear weapons, which have reduced the inventory by nearly 90 percent; and

(3) if the certification under section 1044 is made, President should emphasize the continued interest of the United States in working cooperatively with Russia to reduce the dangers associated with Russia’s tactical nuclear arsenal.

(b) ANNUAL REPORTING REQUIREMENT.—(1) Each annual report on accounting for United States assistance under Cooperative Threat Reduction programs that is submitted to Congress under section 1209 of Public Law 104–106 (110 Stat. 471; 22 U.S.C. 5955 note) after fiscal year 1999 shall include, regarding Russia’s arsenal of tactical nuclear warheads, the following:

(A) Estimates regarding current types, numbers, yields, viability, locations, and deployment status of the warheads.

(B) An assessment of the strategic relevance of the warheads.

(C) An assessment of the current and projected threat of theft, sale, or unauthorized use of the warheads.

(D) A summary of past, current, and planned United States efforts to work cooperatively with Russia to account for, secure, and reduce Russia’s stockpile of tactical nuclear warheads and associated fissile materials.

(2) The Secretary shall include in the annual report, with the matters included under paragraph (1), the views of the Director of Central Intelligence and the views of the Commander in Chief of the United States Strategic Command regarding those matters.

(c) VIEWS OF THE DIRECTOR OF CENTRAL INTELLIGENCE.—The Director of Central Intelligence shall submit to the Secretary of Defense, for inclusion in the annual report under subsection (b), the Director’s views on—

(1) the future uses of these ranges is important not only for the affected military branches, but for local residents and other public land users;

(2) the public land withdrawals authorized in 1986 under Public Law 99–606 were for a period of 15 years, and expire in November, 2001; and

(3) it is important that the renewal of these public land withdrawals be completed in a timely manner, consistent with the process established in Public Law 99–606 and other applicable laws, including the completion of appropriate environmental impact studies and opportunities for public comment and review.

AMENDMENT NO. 528

(Purpose: To amend title XXIX, relating to renewal of public land withdrawals for certain military ranges, to include a placeholder to allow the Secretary of Defense and the Secretary of the Interior the opportunity to complete a comprehensive legislative withdrawal proposal, and to provide an opportunity for public comment and review)

On page 417, in the table preceding line 1, strike “$628,133,000” in the amount column of the item relating to the total and insert “$640,233,000.”

On page 418, in the table following line 5, strike “$196,088,000” in the amount column of the item relating to the total and insert “$186,248,000.”

On page 419, line 15, strike “$1,917,191,000” and insert “$1,919,451,000.”

On page 419, line 19, strike “$628,133,000” and insert “$640,233,000.”

On page 420, line 7, strike “$345,511,000” and insert “$333,671,000.”

On page 420, line 17, strike “$628,133,000” and insert “$640,233,000.”

On page 420, line 5, strike “$172,472,000” and insert “$170,472,000.”

"(4) the future uses of these ranges is important not only for the affected military branches, but also for local residents and other public land users.

(5) the public land withdrawals authorized in 1986 under Public Law 99–606 were for a period of 15 years, and expire in November, 2001; and

“(5) it is important that the renewal of these public land withdrawals be completed in a timely manner, consistent with the process established in Public Law 99–606 and other applicable laws, including the completion of appropriate environmental impact studies and opportunities for public comment and review.

SEC. 2902. SENSE OF THE SENATE.

“IT IS THE SENSE OF THE SENATE THAT THE SECRETARY OF DEFENSE AND THE SECRETARY OF THE INTERIOR, CONSISTENT WITH THEIR RESPONSIBILITIES AND REQUIREMENTS UNDER APPLICABLE LAWS, SHOULD JOINTLY PREPARE A COMPREHENSIVE LEGISLATIVE PROPOSAL TO RENEW THE PUBLIC LAND WITHDRAWALS FOR THE FOUR RANGES REFERENCED IN SECTION 2901 AND TRANSMIT SUCH PROPOSAL TO THE CONGRESS NO LATER THAN JULY 1, 1999.”

AMENDMENT NO. 529

(Purpose: To authorize $3,850,000 for construction of a control tower at Cannon Air Force Base, New Mexico, and $8,000,000 for runway improvements at Cannon Air Force Base, New Mexico, and to offset such authorizations by striking a military family housing project at Holloman Air Force Base, New Mexico, and by reducing the amount authorized for the United States share of projects of the NATO Security Investment program)

On page 420, line 17, strike “$628,133,000” and insert “$639,733,000.”

AMENDMENT NO. 531

At the end of Section E of Title XXVIII insert the following:

SEC. 314. ADDITIONAL AMOUNTS FOR DRUG INTERDICT AND COUNTER-DRUG ACTIVITIES.

(a) AUTHORIZATION OF ADDITIONAL AMOUNT.—Notwithstanding any other provision of this Act, the amount authorized to be appropriated by section 301(a)(20) is hereby increased by $9,200,000. 

(b) USE OF ADDITIONAL AMOUNT.—Of the amounts authorized to be appropriated by section 301(a)(20), as increased by subsection (a) of this section, funds shall be available for Operation Caper Focus.

(2) $17,500,000 shall be available for a Relocatable Over-the-Horizon (ROTH) capability for the Eastern Pacific based in the continental United States.

(3) $2,700,000 shall be available for forward looking infrared radar for P-3 aircraft.

(4) $8,000,000 shall be available for enhanced intelligence capabilities.

(5) $5,000,000 shall be used for Mothership Operations.

(6) $20,000,000 shall be used for National Guard State plans.

Mr. DEWINE. Mr. President, last year the Congress provided an $800 million down payment to restore viability to our counter drug eradication and interdiction strategy in the region. This funding was the first installment of the Western Hemisphere Drug Elimination Act, which was passed as part of last year’s omnibus appropriations bill. Our goal is to reduce significantly the flow of cocaine and heroin flowing into the United States. This would be done by driving up drug trafficking costs, reducing drug availability, and ultimately keeping these horrendous drugs out of the reach of our children.

We made great progress last year to secure the funds for an enhanced counter-drug strategy. Today, I am seeking additional resources for this important national security interest.

Today, Senator COVERDELL and I are offering an amendment that would authorize more funds for Defense counter-drug programs. This amendment is taken from a provision contained in S. 5, the Drug Free Century Act, which I introduced with seven of my Senate colleagues.

Mr. President, since the late 1980’s, the Department of Defense has been called upon to support counter narcotics activities in transit areas in the Caribbean, and these dedicated members of our armed services have done an extraordinary job. Unfortunately, we in the Congress, and those all over the United States, are keenly aware that the Armed Forces of the United States are being deployed in the Gulf with the ongoing hostilities against Saddam Hussein in Iraq, and the enormous air campaign against Slobodan Milosevic in Kosovo, material and manpower dedicated to the interdiction of drugs entering our country have been divested to these “higher priority” duties, leaving the drug transit areas vulnerable and ungarded.

In addition, this year we have seen the closure of Howard Air Force Base in Panama, which caused the United States to lose a premier airfield for conducting counter-drug aerial detection and monitoring missions. Without this aerial surveillance of the coca fields and production sites in Colombia, and the major transit areas for bringing cocaine into the United States, timely and actionable intelligence cannot be relayed to the Colombian government forces in time for seizure and eradication actions.

Fortunately, the current bill already would authorize $42.5 million for the creation of forward operating locations to replace the capability lost with the closure of Howard Air Force Base.

These sites will be critical to the continuing ability of the U.S. Armed Forces and law enforcement agencies to effectively detect and interdict illegal drug traffic. However, it will take time to get these sites identified and operational.

Mr. President, that is why this amendment is timely and important. Our amendment would shore up deficient funding in the critical areas of intelligence gathering, monitoring, and tracking of suspect drug activity heading toward the United States.

This amendment would authorize for an additional $59.2 million in counter-drug intelligence gathering and interdiction operations.

We need to have a reliable and efficient means of monitoring, identifying, and tracking suspect traffickers before assigning interdiction aircraft or marine craft to intercept. The key to our success is accurate intelligence. Without accurate intelligence, we are wasting time and valuable resources.

This amendment would enable such intelligence gathering technologies as a CONUS-based, over-the-horizon radar that could be used in detecting and tracking both air and maritime targets in the eastern Pacific and Mexico. This technology would greatly enhance the ability of law enforcement agencies of both the United States and Mexico to interdict and disrupt shipments of narcotics destined for the United States.

This amendment also would authorize funds for enhanced intelligence capabilities such as signals intelligence, collections, and translation that would significantly improve the overall effectiveness of the counter drug effort.

Mr. President, it is time to renew drug interdiction efforts, provide the necessary equipment to our drug-enforcement agencies, and make the issue a national priority once again. I urge my colleagues to support this amendment and help turn the tide of the drug crisis in our country.

AMENDMENT NO. 533

(Purpose: Expressing the Sense of the Senate regarding settlement of claims with respect to the deaths of members of the United States Air Force resulting from the accident off Namibia on September 13, 1997)

At the appropriate place insert the following:

(a) FINDINGS.—The Senate makes the following findings:

(1) On September 13, 1997, a German Luftwaffe Tupolev TU-154M aircraft collided with a United States Air Force C-141 Starlifter aircraft off the coast of Namibia.

(2) As a result of that collision, 28 members of the United States Air Force were killed, namely Staff Sergeant Stacey D. Bryant, 22, loadmaster, Providence, Rhode Island; Staff Sergeant Gary Bucknam, 25, flight engineer, Oakland, Maine; Captain Gregory M. Cindrich, 28, pilot, Byrnes Road,
Maryland; Airman 1st Class Justin R. Drager, Colorado Springs, Colorado; Staff Sergeant Robert K. Evans, 31, flight engineer, Garrison, Kentucky; Captain Jason S. Ramsey, 27, pilot, South Boston, Virginia; Sergeant Scott S. Grafters, 27, flight engineer, Library, Pennsylvania; Captain Peter C. Vallesio, 34, aircraft commander, Crestwood, New York; and Senator Airman Frankie L. Walker, 25, crew chief, Windber, Pennsylvania.

The families of the members of the United States Air Force killed in the collision have filed claims against the Government of Germany.

The Senate has adopted an amendment authorizing the payment to citizens of Germany of a supplemental settlement of claims arising from the deaths caused by the accident involving a United States Marine Corps EA–6B aircraft on February 3, 1998, near Cavalese, Italy, until a comparable settlement is reached between the United States and the former Union of Soviet Socialist Republics.

The Berlin Wall erected in Berlin, Germany, epitomized the totalitarianism that existed in the United States was struggled to eradicate during the Cold War.

The fall of the Berlin Wall on November 9, 1989, marked the beginning of the end for Soviet totalitarianism, and thus the end of the Cold War.

November 9, 1999, is the 10th anniversary of the fall of the Berlin Wall.

AMENDMENT NO. 534

Purpose: To commemorate the victory of freedom in the Cold War.

On page 387, below line 24, add the following:

SEC. 1061. COMMEMORATION OF THE VICTORY OF FREEDOM IN THE COLD WAR.

(a) FINDINGS.—Congress makes the following findings:  

(1) The Cold War between the United States and the former Union of Soviet Socialist Republics was the longest and most costly struggle for democracy and freedom in the history of mankind.

(2) Whether millions of people all over the world would live in freedom hinged on the outcome of the Cold War.

(3) Democratic countries bore the burden of the struggle and paid the costs in order to preserve and promote democracy and freedom.

(4) The Armed Forces and the taxpayers of the United States bore the greatest portion of such a burden and struggle in order to protect such principles.

(5) Tens of thousands of United States soldiers, sailors, Marines, and airmen paid the ultimate price during the Cold War in order to preserve the freedoms and liberties enjoyed in democratic countries.

(6) The Berlin Wall erected in Berlin, Germany, epitomized the totalitarianism that existed in the United States was struggled to eradicate during the Cold War.

(7) The fall of the Berlin Wall on November 9, 1989, marked the beginning of the end for Soviet totalitarianism, and thus the end of the Cold War.

November 9, 1999, is the 10th anniversary of the fall of the Berlin Wall.

AMENDMENT NO. 535

Purpose: To require the implementation of the Department of Defense special supplemental nutrition program.

In title VI, at the end of subtitle E, add the following:

SEC. 678. IMPLEMENTATION OF THE SPECIAL SUPPLEMENTAL NUTRITION PROGRAM.

(a) CLARIFICATION OF BENEFITS RESPONSIBILITY.—Subsection (a) of section 1066a of title 7, United States Code, is amended by inserting—

‘‘(a) AWARD.—There is hereby authorized an award of a decoration, as provided for under subsection (b), to all individuals who served honorably in the United States armed forces during the Cold War in order to recognize the contributions of such individual to United States victory in the Cold War.’’

(d) PARTICIPATION OF ARMED FORCES IN CELEBRATION OF ANNIVERSARY OF END OF COLD WAR.—(1) The Secretary of Defense shall carry out a program to provide supplemental foods and nutrition education.

(3) amounts authorized to be appropriated under subsection (a).’’

(b) FUNDING.—Subsection (b) of such section is amended as follows:

‘‘(2) The total amount of funds available under subsection (a) for the purpose set forth in that paragraph may not exceed $15,000,000.  

(3) The Secretary of Defense may accept contributions from the private sector for the purpose of reducing the costs of the Armed Forces in participating in a celebration of the 10th anniversary of the end of the Cold War to be held in Washington, District of Columbia, on November 9, 1999.

(4) The amount of funds available under paragraph (1) for the purpose set forth in that paragraph shall be reduced by an amount equal to the amount of contributions accepted by the Secretary under subsection (c).’’

(e) COMMISSION ON VICTORY IN THE COLD WAR.—(1) There is hereby established a commission to be known as the ‘‘Commission on Victory in the Cold War’’ (in this subsection to be referred to as the ‘‘Commission’’).

(2) The Commission shall be composed of twelve individuals, as follows:

(A) Two shall be appointed by the President.

(B) Two shall be appointed by the Minority Leader of the Senate.

(C) Two shall be appointed by the Minority Leader of the House of Representatives.

(D) Three shall be appointed by the Majority Leader of the Senate.

(E) Three shall be appointed by the Speaker of the House of Representatives.

(3) The Commission shall have as its duties the planning and approval of the expenditure of funds by the Armed Forces under subsection (d) prior to the participation of the Armed Forces in the celebration referred to in paragraph (1) of that subsection.

(f) DEFINITIONS.—Subsection (f) of such section is amended as follows:

‘‘(4) The terms ‘costs for nutrition services and administration’, ‘nutrition education’
CONGRESSIONAL RECORD—SENATE

May 27, 1999

and 'supplemental foods' have the meanings given to them in paragraphs (4), (7), and (14), respectively, of section 17(b) of the Child Nutrition Act of 1966 (42 U.S.C. 1786(b)).'

AMENDMENT NO. 356

(Purpose: To provide $1,000,000 for testing of airblast and improvised explosives in PE 65122D; and to reduce the amount provided for sensor and guidance technology in PE 63762E)

In title II, at the end of subtitle B, add the following:

SEC. 216. TESTING OF AIRBLAST AND IMPROVED EXPLOSIVES.

Of the amount authorized to be appropriated under section 201(4):

(1) $4,000,000 is available for testing of airblast and improvised explosives (in PE 65122D); and

(2) the amount provided for sensor and guidance technology (in PE 63762E) is reduced by $4,000,000.

The PRESIDING OFFICER. Is there further debate on the amendments?

Mr. KYL. I ask unanimous consent that the amendments be agreed to en bloc, the motion to reconsider be laid on the table, and that any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments (Nos. 482 through 538) were agreed to.

Mr. WARNER. Mr. President, I ask all remaining amendments at the desk be withdrawn.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. WARNER. It is the intention of the managers to move to third reading momentarily.

Mr. LEVIN. We are ready.

Mr. WARNER. In the moment I have here, I just want to acknowledge, again, the tremendous cooperation and the spirit with which my distinguished colleague from Michigan and I—we have worked together for many years—came together. We were supported by superb staffs; our staff directors, I tell you, they are pretty tough. At this moment we will withdraw that, but the balance of the staffs on both sides have done magnificent work.

Mr. LEVIN. Mr. President, I join my dear friend, the chairman, in that sentiment about our staffs and our colleagues. This is a very complex bill. I think we have done it in record time, but it has taken the cooperation of all of our colleagues, the leadership on both sides, and of course our staff made it possible. We will have more to say about that after final passage. I think we are now waiting for the final high sign from our staff that everything has been prepared.

Mr. WARNER. Mr. President, of course we include Les Brownlee and David Lyles in those accolades.

Mr. Kyl. Mr. President, I inquire how much time is remaining?

The PRESIDING OFFICER. There remain 1 minute 42 seconds.

Mr. KYL. The minority has yielded back its time?
medals they earned, but were never awarded. While my staff and I pursue these cases vigorously, the limitations that no amount of pressure and follow-through can overcome what is essentially a resource problem.

The medal issue revolves around a huge backlog of requests. The personnel centers, which process applications for the separate services for never-issued awards and replacement medals, have accumulated huge backlogs of requests by veterans. In one personnel center alone, 98,000 requests have been allowed to back up, resulting in years of waiting time. These time delays have denied veterans across the nation the medals and honors they have rightfully earned through heroic actions.

Let me briefly share the story of Mr. Dale Holmes, a Korean War veteran. I have shared this story on the floor before, but I think it bears repeating. Mr. Holmes fired a mortar on the front lines of the Korean War. Stacy Groff, the daughter of Mr. Holmes, tried unsuccessfully for three years on her own through the normal Department of Defense channels, to get the medals her father earned and deserved. Ms. Groff turned to me after her letter writing produced no results. My office began an inquiry in January of 1997 and we were not able to resolve this issue favorably until September 1997.

Ms. Groff made a statement about the delays that sum up my sentiments perfectly: “I don’t think it’s fair. My dad deserves, everybody deserves, better treatment than that.” Ms. Groff could not be more correct. Our veterans deserve better from the country they served so courageously.

DOD claims that it does not have the personnel to speed up the process. But it would not take much to make a dent in the problem. For example, the Navy Liaison Office was averaging a relatively quick turnaround time of only four to five months when it had five personnel working cases. Now that it has only three people in the office, it is having a hard time keeping up with the crush of requests. DOD must make putting more resources necessary to eliminate the backlog in decoration requests.

Specifically, my amendment says the Secretary of Defense shall make available to the Army Reserve Personnel Command, the Bureau of Naval Personnel, the Air Force Personnel Center, the National Archives and Records Administration, and any other relevant office or command, the resources necessary to solve the problem. These resources could be in the form of increased personnel, equipment or whatever these offices need for this problem.

My amendment also directs that funding and resources should not come at the expense of other personnel service and support activities within DOD. It is a commonsense approach which will allow DOD to structure a quick and efficient office to process these requests.

Our veterans are not asking for much. Their brave actions in time of war deserve our highest respect, recognition, and admiration. My amendment will help expedite the recognition they richly deserve. Our veterans deserve nothing less.

I thank the Veterans of Foreign Wars for strongly supporting this amendment. Their support meant a great deal to my efforts.

I thank the managers of the Defense Authorization bill, Senator WARNER and Senator LEVIN, for their cooperation and understanding in agreeing to accept this important amendment.

While this is only a small change to the Defense authorization bill, it will send a clear message to our Nation’s veterans and active duty personnel: we recognize and value the sacrifices you have made on our behalf.

Ms. COLLINS. Mr. President, I rise today as a cosponsor of the majority leader’s amendment to the defense authorization bill. The amendment takes important steps to improve the monitoring of the export of advanced U.S. satellite technology and to strengthen security and counterintelligence measures at Department of Energy facilities.

As a Senator, I have been privy to a wide range of classified and unclassified information relating to efforts by the People’s Republic of China to acquire our sensitive technology and influence our political process. As a United States citizen, I am really concerned.

As a member of the Governmental Affairs Committee, I learned during the campaign finance investigation ably lead by Chairman THOMPSON that China developed and implemented a plan to influence U.S. politicians and elections. And from Charlie Trie and John Huang, both of whom have recently plead to felony offenses and agreed to cooperate with the Justice Department, I suspect we could learn more. More recently, I reviewed the Cox report, and just yesterday, listened to testimony concerning the report during a hearing of the Subcommittee on International Security, Proliferation, and Federal Services. The evidence is clear that China stole very sensitive military secrets involving virtually all of our nuclear weapons. What is more, I believe that the lax security at our government labs is completely inexcusable as is the Clinton Administration’s abject failure to take swift and strong action when it became aware of evidence of serious breaches in our national security.

This administration is faced now with the opportunity to focus the country on constructive solutions to our problems concerning espionage and undue foreign influence. I fear, however, that we will be mired for a long time in disputes over what happened, because those who know will not tell. Instead of a swift accounting of what went wrong, I am afraid we can expect the stonewalling and lack of cooperation we received during the campaign finance inquiry.

Yet there are things Congress can do now to improve security at our national labs, and the majority leader’s amendment is one of them. The Amendment increases the exchange of information between the Administration and the Congress and requires changes at the Departments of State, Energy, Defense as well as other intelligence agencies. These changes will help strengthen security checks, licensing procedures, and access to classified information. I am hopeful that these provisions will enhance the security and protection of our most vital technological secrets and ensure that if violations do occur, swift and decisive action is taken to correct them.

I urge my colleagues to support this measure.

BQM-74 TARGET DRONE PROCUREMENT

Mr. CONRAD. Mr. President, I ask unanimous consent on behalf of myself, Senator DORGAN, and Senator BINGAMAN to spread the amendment in the record. Mr. Conrad. I thank the chair. Mr. President, I ask unanimous consent on behalf of myself, Senator DORGAN, and Senator BINGAMAN, and I have come to the Senate floor today to discuss with the Armed Services Committee’s able leadership how the Congress might go about ensuring funding for procurement in fiscal year 2000 of the BQM-74, a Navy target drone.

Mr. DORGAN. I understand that the Senator from New Mexico has some expertise on this subject.

Mr. BINGAMAN. I have been pleased to support the BQM-74. This target drone plays an important role in Navy air-to-air and surface warfare training, representing enemy fighters, bombers, and cruise missiles during live-fire
CONGRESSIONAL RECORD—SENATE

May 27, 1999

11331

training operations. The Chief of Naval Operations has a requirement that at least 20 BQM-74 drones be kept in the active inventory. We have, for this number in the past, and I hope that the Navy will be able to continue to do so.

Mr. CONRAD. I wonder if I could direct a question to my colleague from North Dakota, who also has some familiarity with this program. Senator DORGAN, am I correct to understand that a lack of BQM-74 procurement in fiscal year 2000 could result in the Navy’s inventory falling below the CNO’s requirement?

Mr. DORGAN. My colleague from North Dakota is entirely correct. I am informed that no production in the coming fiscal year would likely result in a dangerous reduction to the inventory, and I would like to see efforts made to curtail this number by at least 240 of these drones be kept in the inventory.

Mr. WARNER. I thank the Senators for their valuable input. The BQM-74 is one of several critical defense priorities that will be addressed in conference.

Mr. DORGAN. Senator LEVIN, might I ask if you concur with the Chairman?

Mr. LEVIN. The issue will certainly have to be addressed in conference. The BQM-74 target drone is important to peacetime training and readiness. I know that the House Armed Services Committee has recommended funding. It is my intention to work with the Chairman and our House counterparts in the upcoming conference to try to provide authorization funding for BQM-74 procurement in fiscal year 2000.

Mr. CONRAD. On behalf of myself, Senator DORGAN, and Senator BINGMAN, I thank the distinguished Chairman and Ranking Members for their important assurances.

Ms. SNOWE. Mr. President, this amendment imposes a straightforward but neglected requirement on the administration to seek multilateral economic and foreign asset seizures against governments with which the United States engages in armed hostilities.

After one month of conflict in Kosovo, the Pentagon had announced that NATO had destroyed most of Yugoslavia’s internal oil refining capacity. But the Secretary of State then acknowledged that the Serbs continued to fortify their hidden armed forces in the province with imported oil.

And just three weeks ago, the allies first agreed to an American proposal to intercept petroleum exports bound for Serbia on the high seas but then declined to enforce the ban against their own ships. This is most distressing. I wonder, could the Senator from New Mexico provide some background on the BQM-74’s current funding status?

Mr. BINGMAN. As my colleagues may be aware, the Navy had allocated $37 million for procurement of 183 BQM-74 drones in fiscal year 2000. This funding was zeroed out by the Office of the Secretary of Defense prior to submission of the budget request to Congress.

Mr. DORGAN. The Office of the Secretary of Defense clearly did not act prudently in this regard, and I am pleased to report that this week the Senate Defense Appropriations Subcommittee—on which I serve—added $45 million for procurement of this important weapon system. This move followed an authorization by the House Armed Services Committee of $27 million for BQM-74 procurement.

Mr. CONRAD. In light of the unquestioned importance of the BQM-74 and the action taken by the House authorizes and Senate appropriators, I wonder if the distinguished Chairman of the Senate Armed Services Committee believes that this matter can be addressed in conference.

Mr. WARNER. I thank the Senators for the valuable input. The BQM-74 is one of several critical defense priorities that will be addressed in conference.

Mr. DORGAN. Senator LEVIN, might I ask if you concur with the Chairman?

Mr. LEVIN. The issue will certainly have to be addressed in conference. The BQM-74 target drone is important to peacetime training and readiness. I know that the House Armed Services Committee has recommended funding. It is my intention to work with the Chairman and our House counterparts in the upcoming conference to try to provide authorization funding for BQM-74 procurement in fiscal year 2000.

amendment, however, puts the tyrants of the globe on notice that as a matter of policy the United States will take immediate steps to deprive them of the finances and the imports to wage war should America and its international partners engage in hostilities against them.

The language of this provision instructs the President to ‘seek the establishment of a multinational economic embargo’ against an enemy government upon the engagement of our Armed Forces in hostilities. If the conflict continues for more than 10 days, the President must also report to Congress on the actions taken by the administration to implement the embargo and to publish any foreign sources of trade and revenue that sustain an adversary’s war-making capabilities.

This amendment will not constrain, but strengthen, future Presidents in organizing the international community against regional zealots like Milosevic. We must remember that the former Union states declined to enforce the Adriatic Sea embargo against the advice of the United States. But if we lend the force of law to administration’s embargo efforts from the outset of a war, we could gain more allied partners to force an aggressor into military bankruptcy.

As our Balkan campaign reveals, the foreign energy and assets at the disposal of dictators can provide their forgers with unwanted, unintended leverage. But this seamless embargo amendment signals that the United States will not only remember these tools, but take decisive action to break them. It signals that we should not bomb only so the enemy can trade and hide.

It is important to reflect on NATO’s role in the Balkans. As our Balkan campaign reveals, the foreign energy and assets at the disposal of dictators can provide their forgers with unwanted, unintended leverage. But this seamless embargo amendment signals that the United States will not only remember these tools, but take decisive action to break them. It signals that we should not bomb only so the enemy can trade and hide.

We must, however, be conscious and careful in applying the lessons of the past to current circumstances. None of what I have just talked about should be interpreted as an argument for current NATO action in the region of Yugoslavia, Albania, Macedonia, and Montenegro.

The administration repeatedly suggests that violence in the Balkans ignited the First World War. This is true. A member of the Black Hand, a Serbian nationalist group, assassinated Archduke Franz Ferdinand. Serbia, at that time, was a small nation fighting for independence within a crumbling Austrian-Hungarian Empire.

Due to Russia’s alliance with Serbia and Germany’s open-ended military pact with Austria, both Germany and Russia mobilized immediately. Other than a few neutral countries—Norway, Sweden, Italy, Switzerland, and Spain—the rest were locked in polarized blocs that set the Tripartite Alliance against the Triple Entente. Such polarized blocs do not exist today. Serbien’s aggression against Kosovar Albanians and has created regional instabilities. But this would not lead to World War Three. This is not 1914. Only one alliance dominates Europe. NATO can be used as a force for peace. Acting without regard to security perceptions outside of NATO, however, can lead us down a very different and dangerous path.

Our current actions disregarded the views others of their own security. Our actions in Kosovo may yet unbalance any gains achieved in nuclear arms reductions and cooperative security alliances since the Soviet Union collapsed. Furthermore, NATO’s response in Kosovo has accelerated and exacerbated regional instability. We have managed to create a humanitarian crisis, while not achieving any of our military objectives. Of course, any rational person could see that an air campaign from 20,000 feet would not prevent executions, rapes, and purges on the ground. This is especially true given the 5 months of time we gave President Milosevic to plan, prepare, and position his forces.

Furthermore, the relevant aspect of today’s world is that the administration failed to mention in their arguments for involvement in this campaign is the impact this would have on U.S.-Russian relations. We have a tendency to believe that Russia is so weak and needs our money so bad that we can disregard their views or interests.

I ask you to consider two key facts: as Russia’s conventional military declines, reliance on their nuclear arsenal increases; global stability cannot be achieved without cooperation between the U.S. and Russia.

We must, however, be conscious and careful in applying the lessons of the past to current circumstances. None of what I have just talked about should be interpreted as an argument for current NATO action in the region of Yugoslavia, Albania, Macedonia, and Montenegro.

The administration repeatedly suggests that violence in the Balkans ignited the First World War. This is true. A member of the Black Hand, a Serbian nationalist group, assassinated Archduke Franz Ferdinand. Serbia, at that time, was a small nation fighting for independence within a crumbling Austrian-Hungarian Empire.

Due to Russia’s alliance with Serbia and Germany’s open-ended military pact with Austria, both Germany and Russia mobilized immediately. Other than a few neutral countries—Norway, Sweden, Italy, Switzerland, and Spain—the rest were locked in polarized blocs that set the Tripartite Alliance against the Triple Entente. Such polarized blocs do not exist today. Serbien’s aggression against Kosovar Albanians and has created regional instabilities. But this would not lead to World War Three. This is not 1914. Only one alliance dominates Europe. NATO can be used as a force for peace. Acting without regard to security perceptions outside of NATO, however, can lead us down a very different and dangerous path.

Our current actions disregarded the views others of their own security. Our actions in Kosovo may yet unbalance any gains achieved in nuclear arms reductions and cooperative security alliances since the Soviet Union collapsed. Furthermore, NATO’s response in Kosovo has accelerated and exacerbated regional instability. We have managed to create a humanitarian crisis, while not achieving any of our military objectives. Of course, any rational person could see that an air campaign from 20,000 feet would not prevent executions, rapes, and purges on the ground. This is especially true given the 5 months of time we gave President Milosevic to plan, prepare, and position his forces.

Furthermore, the relevant aspect of today’s world is that the administration failed to mention in their arguments for involvement in this campaign is the impact this would have on U.S.-Russian relations. We have a tendency to believe that Russia is so weak and needs our money so bad that we can disregard their views or interests.

I ask you to consider two key facts: as Russia’s conventional military declines, reliance on their nuclear arsenal increases; global stability cannot be achieved without cooperation between the U.S. and Russia.

The administration never suggested that NATO strikes against Serbs may lead to a worst-case scenario over the next few years in Russian politics. Russia faces Parliamentary elections this year and a Presidential election next.

According to one of the most pro-American Duma members, the U.S. Administration picked the best route to influence the upcoming elections in favor of Communist and ultra-nationalist parties. In Russia, 90 percent of the public support the Serbs and are against NATO.

This war will have profoundly negative impact on the relationship between Russia and the U.S. for a long time.

The U.S. was supposedly not fighting for either side. We were trying to be the honest broker, at least in the beginning. Our actions have created enemies. These enemies have historical ties to Russia. Russia’s economy is in tatters, but Russia still controls the only means to obliterate the United States.

We feel we are in the right, because we are fighting a tyrant, one capable of great evil. I don’t disagree with the objectives sought, but I do believe that the Administration should have taken into account the possible political consequences of our actions on Russia’s political future, as well as our future relationship with Russia.

There are those who suggest that NATO must be victorious in the Kosovo conflict. Victory in Kosovo is short-term if we do not sort out the broader consequences of a victory dictated on NATO’s terms.

Russia is edging closer to China, and India. Our blatant disregard of the security needs of others and perceptions may culminate in a Eurasian bloc allied against us—against NATO. And
e election campaigns in Russia will begin very soon.

As European leaders converged to celebrate NATO’s 50th birthday, they spent much time debating and deliberating on NATO’s future. NATO’s present reflects poor policy decisions and an ineffective military approach.

I also take this opportunity to discuss the grievous situation of our military today. Recent actions in Kosovo underscore the self-inflicted damage we have done to our national security in the years since the Cold War.

I was one of many Senators during the 1980’s who supported seeing our Nation’s defenses bolstered in order to bring the Soviet Union to its knees. We defeated them—not through hot war—but by demonstrating the unparalleled power of American democracy and free market dominance over a command economy.

The collapse of the Soviet state was inevitable, but it would have taken a lot longer without the catalyst of our rapid defense buildup. This change greatly accelerated the breakdown in the Soviet Union’s economy. Their political and economic institutions unraveled in light of America’s clear superiority.

In 1991, after years of focus on a strong defense, when the Iraqis occupied Kuwait, U.S. forces were able to demonstrate their dominance. The U.S. military liberated Kuwait in a short, decisive campaign. The Gulf war was a ground and air war. It was a full blown offensive.

And at no time during the Gulf war did anyone even so much as hint that U.S. forces were spread too thin. There were no reports of not being able to thwart an attack from North Korea due to our commitments in the Gulf. Nor did we hear of depleted munitions stores, shortages in spare parts for our equipment, or waning missile supplies.

Eight years later, the cracks in our defense capabilities emerged after less than 60 days of an air campaign in the Kosovo region. In less than forty days of what have been limited air strikes, respected officials reported that U.S. defense are spread too thin. If North Korea or Saddam wanted to capitalize on our distraction in the Balkans, we currently would not have the means to defend our interests.

We have been forced to divert resources from other regions in the world to meet NATO’s needs in the Balkans. Our transport capabilities are insufficient. We evidently have too few carriers. Our munitions reserves are depleted. And, as ludicrous as it may sound, for years our military personnel have had to scramble to find spare parts.

In the early nineties, after the collapse of the Soviet Union, the U.S. was viewed as the only remaining “superpower.” Our global economic and military dominance was unquestioned.

That time was, in the words of respected scholars and strategists, the Unipolar Moment. There was no doubt that the U.S. had interests in any situation—whether military action or political persuasion was necessary.

We have squandered that moment and missed many opportunities to capitalize on our success. In fact, out of complacency and misplaced perceptions of the post-Cold War world, our defense capacity today is insufficient to match the threats to our national interests.

Many years of self-indulgence and inattention to our nation’s defense cannot be corrected with a one-time boost. This is a complex and long-term problem. But I’m committed to ensuring that our nation’s defenses are not further eroded. I’m fed up with the complacency that has created our current situation.

We must have a strong defense. We must ensure that the men and women in uniform have the right equipment, the best training, and are afforded a quality of life sufficient to keep them in the military. This cannot be done by sitting on our hands and hoping that the world remains calm.

Additions to readiness accounts, ammunition, and missile stocks in the emergency supplemental for Kosovo will help ensure that our fighting forces are not in worse shape than before this engagement. It provides a small, but significant, step forward.

The Defense authorization bill before us takes additional steps in the right direction. I commend Senator WARNER and his diligent staff on the hard work they have done to balance priorities and provide for our men and women in uniform.

Let me briefly outline some major provisions of this bill that I consider important and appropriate to address some of our military’s most pressing needs.

As an additional boost to problems in readiness, this bill authorizes an additional $1.2 billion in operations and maintenance funding.

The bill also includes over $740 million for DoD and Department of Energy programs that provide assistance to Russia and other states of the former Soviet Union. These programs address the most prevalent proliferation threat in our world today.

The $3.4 billion increase in military construction and family housing is an essential element of providing our armed forces with the quality of life they deserve. In addition, pay raises and improved retirement plans demonstrate our commitment to the people who serve in our military.

I do not believe increased pay and better retirement address the full spectrum of issues that feed into retention problems. The preliminary findings of a GAO study requested by myself and Senator Stevens indicate that the main problem is not pay, but rather working conditions. Lack of spare parts and deficient support are the most frequent reasons offered for dissatisfaction with their current situation.

These are important findings, because it is something we can address. As more conclusions come to light, we can do a better job in fixing the problems that currently contribute to recruitment and retention. We must pay close attention to these issues. The men and women serving in our military are the sole assurance of a strong, capable U.S. defense capability.

A strong defense must be coupled with a consistent set of foreign policy objectives that strive to reduce or contain security threats. At present, we have neither.

Mr. President, it seems we must focus on shifting the balance back in our favor. This cannot be done ad hoc. Securing U.S. interests requires sustained commitment and well-planned execution. First, we must provide our domestic means for a strong, capable armed forces. Second, we must be calculated and careful in the application of force as a fix to failed diplomacy.

THE NUCLEAR CITIES INITIATIVE

Mr. BINGAMAN. Mr. President, I would like to clarify a provision, section 3136(b), of the National Defense Authorization Bill for Fiscal Year 2000, concerning the Nuclear Cities Initiative (NCI). The Nuclear Cities Initiative is a Department of Energy cooperative effort with Russia to assist Russia in downsizing its nuclear weapons complex. The report accompanying the Defense Bill, Senate Report 106-50, states that Russia has not agreed to close or dismantle weapons-related facilities. It states that the nuclear receiving U.S. technical and financial assistance. As a result, Section 3136 of the Defense Authorization bill contains a provision the would prohibit the obligation or expenditure of funding until the Secretary of Energy certifies to the Congress that Russia has agreed to close some of its facilities engaged in work on weapons of mass destruction.

Because of several past interpretations by the Department of Defense of the wording similar to that in section 3136(b), I believe that the wording of this provision would effectively prevent the implementation of the Nuclear Cities Initiative.

While I share the goal of Senator ROBERTS, to ensure that the Russian weapons complex is downsized, I am concerned that the specific certification is unachievable. Russia has publicly committed to shut down or downsize some of its nuclear weapons complexes or related infrastructure. Even if the certification is achievable, the logistics of the required certification process could delay the program for a very long time.
The Nuclear Cities program is just getting started, but has already made some real progress. To stop the funding in fiscal year 2000, particularly as many of the TRICARE Designated Providers in the demonstration as possible. The agreement-to amendment does not restrict the size of the demonstration. Since the seven Designated Providers run the same Unified Services Family Health Program, I believe it makes sense to include all of them in the demonstration.

At a minimum, I urge the Department to include the PacMed Clinics in my state in this demonstration. The PacMed Clinics pioneered managed health care for military beneficiaries and have provided quality care to military families for a generation. Beneficiaries should have the opportunity to enroll at PacMed during any time of the year, just like TRICARE Prime. Accordingly, the demonstration mandated by this amendment should include the PacMed clinics and as many of the other Designated Provider as possible.

Mr. SMITH of New Hampshire. Mr. President, I rise today to express my strong support for S. 1059, the National Defense Authorization Bill for Fiscal Year 2000. As Chairman of the Strategic Subcommittee, I want to briefly summarize the Strategic Subcommittee portion of the Armed Services Committee markup and the philosophy that it is based on. As in the past, the Strategic Subcommittee has reviewed the adequacy of programs and policies in five key areas: (1) ballistic and cruise missile defense; (2) national security space programs; (3) strategic nuclear delivery systems; (4) military intelligence; and (5) Department of Energy activities regarding the nuclear weapons stockpile, nuclear waste cleanup, and other defense activities.

This year, the subcommittee’s review included two field hearings—one at the Lawrence Livermore National Laboratory on DOE weapons programs, and one at U.S. Space Command in Colorado Springs on U.S. national security space programs. As a result, the subcommittee visited the U.S. Army Space and Missile Defense Command in Huntsville Alabama, Barksdale Air Force Base in Louisiana, the Capistrano High Energy Laser Test Facility in California, Beale Air Force Base in California, and a variety of military facilities in the Denver and Colorado Springs area. These visits greatly enhanced my understanding of the issues under the subcommittee’s jurisdiction and significantly influenced the bill before us today.

The Strategic Subcommittee recommended funding increases for critical programs under the subcommittee’s jurisdiction by approximately $850 million, including an increase of $500 million for Ballistic Missile Defense programs, $220 million for national security space programs, $10 million for...
May 27, 1999

CONGRESSIONAL RECORD—SENATE

11335

Mr. LEVIN. I thank the senior Senator from New Jersey for his willingness to expedite our consideration of this bill. We understand the House has a similar provision. During conference, we will give full consideration to the project as the Senator from New Jersey has recommended.

Mr. WARNER. I concur with my distinguished colleague from Michigan.

Mr. LIEBERMAN. Mr. President, I rise to discuss several provisions within the FY 2000 Defense Authorization Act. These provisions can be found in Title II, Subtitle D, Sections 231–239 within the FY 2000 Defense Authorization Act. The provisions are intended to stimulate intense technical innovation in military research and development (R&D) enterprise and hence lay the foundation for revolutionary changes in future war concepts. Before giving an extended introduction to these defense innovation provisions, I would like to thank Senator ROBERTS and Senator BINGMAN and the staff who have worked on this subtitle—particularly Pamela Farrell, Peter Levine, John Jennings, Frederick Downey, Merrilea Mayo, and William Bonvillian—for their hard and thoughtful work on this legislation. The technical superiority of our military is something we have come to take for granted, yet it is founded in an R&D system that has seen little transformation over the course of the cold war era. These defense innovation provisions attempt to reposition our R&D system so that it can keep up with the pace of technological change in the very different world we are in today.

It is my belief that the explosive advances in technology may provide the basis for not just a "revolution in military affairs," but a complete paradigm shift. With advanced communication and information systems, it may become possible to fight a war without concentrating forces, making force organizations impossible to kill. With advances in robotics and miniaturization, it may become possible to fight a ground war with far fewer people. With advances in nuclear power, hydrolysis, and hydrogen storage, it may be possible to create virtually unlimited sources of on-site power. These opportunities are complemented by numerous challenges, also brought forth by technology: urban warfare, space warfare, electronic/information warfare, chemical, nuclear, and biological warfare, and warfare relying on underground storage centers and facilities. As the variety of opportunities and
threats continues to climb, and as increasing numbers of nations emerge into the high tech arena, I believe the military arms race of the past will be replaced by a military technology race. Instead of simply accumulating ever greater numbers of conventional armaments against a well-established foe, as we did in the Cold War era, we will have to concentrate on producing fewer, but ever more rapidly evolving, and ever more specialized weapons systems to counter specific asymmetric threats.

To meet these new challenges, we need to transform our R&D enterprise from its antiquated Cold War structure to a fast-moving, well-integrated R&D machine that can seize the leading edge of technological innovation. For this reason, Senator ROBERTS, Senator BINGAMAN and I have inserted provisions within Title II, Subtitle D of the FY2000 Defense Authorization Act, whose purpose is to stimulate a much greater and faster degree of technical innovation within the military.

The defense innovation provisions address three goals—establishing a new vision for military R&D, changing the structure of the military R&D enterprise, and correcting the driving forces for R&D in our current system. For the first task, establishing a new vision, Section 231 of the FY2000 Defense Authorization Act requires DoD to determine what dangerous adversarial threats we will likely face two to three decades from now, and what technologies will be needed on our part to prevail against those threats. Given that it takes 20-30 years to translate basic science to fielded application, our R&D vision needs to be founded on a set of required operational capabilities that is equally distant in time, and far beyond the 5 year vision of our current Progression of Military Capabilities (POM’s). We need not strive for perfect clairvoyance in this exercise; however, we should be able to create an open conceptual architecture which successfully frames the many potential future opportunities and threats. Once the far future threats and hence future operational capabilities are outlined, Section 231 asks DoD to give Congress a roadmap of future systems hardware and technologies our services will have to deploy within two to three decades to assure US military dominance in that time frame. From the first roadmap, we are requesting DoD derive a second roadmap—the R&D path that DoD, in cooperation with the private sector, must follow to be able to implement these new defense technologies and systems. To add depth and perspective to the results, I encourage the Secretary of Defense to utilize an independent review panel of outside experts in these exercises, a panel to supplement the work done by in-house personnel. The broader our vision, the more likely it is to be inclusive of whatever surprises the actual future may bring.

A second goal of the defense innovation provisions, Subtitle D, is to lay the groundwork for a new organizational structure for R&D. Unless we fix the innovation structure, we will be unable to deliver to DoD the rapid technological advances it will need to secure and maintain world dominance. In the report of the Upcoming Decades, the Defense Science Board has recommended that at least one third of the technologies pursued by DoD be ones that offer 5 to 10 fold improvements in military capabilities. However, the current structure, which was founded on Cold War realities, will require large organizational change to enable it to pursue revolutionary, rather than evolutionary, technology goals. The segregated and insulated components of the military's rigid command and control structure will need to be seamlessly interwoven, and the system as a whole will need to be much more flexible in its interactions with the outside world. We can learn from the success of the commercial sector, which takes advantage of temporary alliances with the private sector, competitors and peers to develop technologies at a breathtaking pace.

The defense innovation provisions ask DoD to formulate a modern blue-print for the structure, of not only its laboratories, but of the extended set of policies, institutions, and organizations which together make up its entire innovation system. As noted earlier, the Defense Science Board has called for the military R&D system to increase its focus on revolutionary new technologies. The overarching goal of the new structural plan requested by Section 233 is to deliver the conceptual architecture for an innovation system that is capable of routinely providing such revolutionary breakthroughs critical to changing the face of warfare as we know it. For various reasons, however, that vision is in danger of becoming lost. One specific problem is that DoD's rigid command and control structure, with its many hierarchical layers and the corresponding lack of performance-based compensation, is causing the labs to rapidly hemorrhage talent to the more competitive and less bureaucratic private sector. To address these issues, a defense innovation provision within the FY2000 Defense Authorization Act—specifically, Section 237—repeals several of the labs’ restrictive personnel regulations. The intent of this Section is to drastically reduce hiring times and eliminate artificial salary constraints to the point where defense laboratories can hire new talent in a time frame and at a salary level that is similar to that offered by the private and university sectors. Currently, the two processes are not even close to competitive: the military R&D labs take several months to over a year to extend an offer, with the result that the laboratories, over and over again, lose the hiring race to private sector interests which can hire top-notch talent in one or two weeks. As noted by the Defense Science Board report, the salaries which can be offered by the laboratories are also about 50 percent lower (for higher grade new hires), compared to the salaries those same new hires could obtain in the private sector. It is significant that the hiring time problem, as well as the high grade caps problem, were universally cited by laboratory managers as the key obstacles in upgrading their laboratory talent.

In addition to improving the quality of the laboratories’ effort by attracting and retaining highly qualified personnel, the defense innovation provisions ask the Secretary of Defense to improve the quality of work itself by developing a system of modern business performance metrics which can be implemented within and across all military laboratories (Section 239(b)).
Such metrics can help ensure that the best work and the best talent are identified, so that they may be rewarded, nurtured and used accordingly. Without a word of caution, the ultimate impact of science and technology innovation is very hard to measure, especially in the early stages. Overly mechanical assessments of innovation do much more harm than good. Nevertheless, advanced technology companies have been making great strides in better assessing (and assisting) their innovation efforts, and DoD is encouraged to work with industry R&D leaders in implementing this section. Examples of metrics which may be useful for DoD labs include measurement of lab quality through formal annual peer reviews of its divisions, measurement of technical relevance through required customer approval, evaluation of R&D projects both before and after they are undertaken, and measurement of organizational relevance through annual board meetings of senior military with the heads of the R&D laboratories. The first three metrics can help identify projects that bring attention to promising work in its earliest stages, while the last two can help bridge the gap between later stage innovation and new products.

The need for structural reform within the laboratories is a pressing one. The above-mentioned reforms are intended to be jump started with a pilot program, found in Section 236 of the Defense Authorization Provisions. This pilot program may address any of the issues mentioned above but is particularly focused on the problem of attracting and retaining the best possible talent for the laboratories. To be more competitive with working conditions in the commercial sector, this pilot program might include pay for performance, starting bonuses (e.g., in the form of equipment start-up funds) for attracting key scientists, ability to alter reduction in force (RIF) retention rules to favor high performers, broadening of pay grades, simplified employee classification, educational programs which allow employees to receive advanced degrees while still employed, modification of priority placement procedures, and creation of employee participation and reward programs.

To attract the best possible outside talent for collaborations with the laboratories, Section 236 also encourages expansion of exchange programs at both the personal and institutional level. Programs for exchanges within DoD, with the private sector, and with academic institutions are all encouraged. Examples of such programs include the sponsorship of talented students through college or graduate school exchanges or later work commitments to the laboratories, expansion of the federated laboratory concept, increased exchanges between the defense laboratories and the war colleges, training programs, and extension of IPA authority to hire commercial employee designers. The Defense Science Board recommends that the laboratories emulate DARPA in its mix of temporary and permanent workers in order to be able to quickly bring in relevant talent when needs shift. Section 236(b)(2) creates this option and can be used in conjunction with other provisions in Subtitle D.

A new structure and a new vision are all well and good, but if there is no motivation for the new structure to proceed toward the new vision, nothing is gained. Consequently, the third goal of the defense innovation provisions is to correct current forces which tend to drive DoD away from technical innovation. Three of these driving forces are described below.

The first “counter-innovation” driving force is the lack of a well-defined customer within the military for far future military technologies. Ideally, this customer would be at the Joint Chiefs level, so that broadly sweeping technology changes can be implemented. Novel technologies can be rapidly incorporated into our existing military structure, doctrine, and systems. Unfortunately, there is little connection at present between that level and the service laboratories. Section 239(b) should be used to improve this situation. Furthermore, as part of the legislation’s mandated study on improving the structure of our R&D system (Section 233), we also request the Under Secretary of Defense to address the issue of a suitable internal customer for truly long range R&D. For maximum impact and credibility, this customer—whether it be a person, position, or organization—should be a bona fide paying customer who has responsibility not just for the long range technology itself, but for the unconventional military options such technology provides.

The lack of an internal customer for long range R&D is one driving force pulling the military away from technical innovation. The second is the vacuum-like force created by the absence of an intimate connection between the R&D customers and producers within the later stages of R&D. Specifically, there is an insufficient connection between the program managers who sponsor product development and the R&D workforce performing later stage R&D. In contrast, the industrial experience has shown that if the customer, researchers, and designers share in all product development decisions from the very initial stages of concept design, the degree of innovation is much higher, the product acceptance rate is much higher, and, ultimately, the pace of technological change is dramatically accelerated. Section 233(b)(5) directs the Under Secretary of Defense to identify how new technologies can be rapidly transitioned from late stage R&D to product development and prepare an appropriate plan for doing so. One issue within this larger problem is this need to create a DoD customer—DoD researcher—DoD designer interaction that is early enough and robust enough to ensure that maturing innovations can be drawn into a military system on a time scale similar to that experienced in the commercial sector. This sub-issue should be addressed in the Under Secretary’s plan under Section 233(b)(5).

The third force which drives the military away from technological innovation is the lack of a customer outside the military for innovative military technologies. Were such a customer present, it might partially make up for the lack of the other two forces in terms of motivating innovation. Currently, the most important external customer for military R&D is the industrial half of the military-industrial complex. However, the structure of our procurement regulations give virtually every military unit the ability to make contracts for new systems. Companies no matter how difficult the technical path or how many risks are undertaken in the process of producing a military system. Therefore, the continued production of legacy systems is guaranteed to be profitable, while gambling with innovative new systems is not. Essentially, our procurement regulations are a direct disincentive to innovation, giving the defense industry a strong vested interest in adhering to incremental change. The resulting lobbying by industry, aimed squarely at preserving the “state-of-yesterdays,” then significantly slows the rate at which the military can innovate. Accordingly, one of the defense innovation provisions is to authorize DoD to change its profit margins for acquisitions in order to alter the innovation incentives for industry. Given substantially higher profit margins for the development of innovative systems, than for the continued production of legacy systems, industry could become much more receptive to the idea of cultivating innovation in fielded hardware. Substantive, consistent economic rewards are critical to incentivizing companies to take the necessary and serious technological risks required to produce the innovations DoD must have.

In closing, I thank my colleagues Senators ROBERTS and BINGAMAN for joining me in developing a set of stimulating and thought-provoking defense innovation provisions within Subtitle D, Title II of the FY2000 Defense Authorization bill. These provisions should launch us towards a new vision, a new structure, and a new set of driving forces for military R&D. In the past 48 years, DoD has funded the pre-award research of 58 percent of this
country’s Nobel laureates in Chemistry, and 43 percent of this country’s Nobel laureates in Physics. This is a phenomenal base on which to build. However, the Cold War structure and rationale for our R&D enterprise needs to be shed so that leading edge technology can emerge. The time to do this is now, because, in many senses, the future is already here. The military systems of 2020 and 2030 will be founded

Mr. KOHL. Mr. President, I come to the floor today to draw the Senate’s attention to the CBO cost estimate on the Defense Authorization bill. In the Budget Resolution Congress agreed that the national defense account would have $288 billion in Budget authority and $276 in outlays for fiscal year 2000.

The CBO estimates that the Defense Authorization bill as it currently stands in the Senate, would exceed the outlay level by almost $7 billion. The Budget Committees of the House and Senate have told CBO to reduce their scores by $10 billion in order that the bill fit under the caps. While this changes the scoring number, it does not change the fact that the bill still authorizes the Department of Defense to spend $284 billion next year, $7 billion over the caps.

Whether someone agrees with the Budget Resolution or not, these sorts of end runs are destructive to the process by undermining popular confidence in the institution.

If there is not enough money for Defense in the Budget Resolution, then members should not have supported it back in March. If there was enough in March, nothing has changed, and it should be enough now. The Congress recently passed supplemental Appropriations bill that include $11 billion for funding the Kosovo operation, almost $5 billion over the President’s request, so there should be plenty of money for our operation in Europe. Now, if members grudgingly supported the Resolution because of the assurances of the Budget Committee Chairman that he would “fix the outlay problem” I ask them to show me the fix. It looks as though the Budget Committee did nothing but allow Defense spending to exceed the budget caps without letting any other program do the same.

Congress should own up to the fact that the Budget caps are being exceeded. They are being quietly raised by hiding the increase in a scoring gimmick. Members should take notice that the way to get more money for your appropriations priorities is to petition the Budget Committee for an “outlay fix.”

There is going to be a train wreck at the end of this year, and we all know it. There is going to be a train wreck, and it will happen because no one is driving the train, we are all just nervously looking out the window admiring the scenery and trying not to think of our impending doom. It may be that American people will eventually figure out how much we are going to spend next year. The increases in Defense spending will no doubt be joined by a tremendous amount of last minute spending at the end of the year. The American people will look at what Congress told them we would spend at the beginning of the year, and what we will eventually agree to at the close of the year and they will be very surprised at the difference. I hope they hold us accountable.

It is worth noting that we do not have to be in this situation. Congress could take action to cut unnecessary spending in the defense account. This could be done by disallowing CBO discretionary budget, and free up resources for other needs around the country.

Another two rounds of base closures for example, while increasing outlays in the short run, would yield savings of $1 billion over ten years according to the Congressional Budget Office. I co-sponsored Senator MCCAIN’s legislation on this matter, and I co-sponsored the McCain-Levin amendment, which would only authorize one additional round. I was disappointed the Senate refused to support this worthy alternative. The military has come to the Senate time and again pleading with us to give them the authority to close bases through the Commission process in a manner isolated from political pressures. Had we supported base closure rounds when they were initially requested we might not now be pushing so tightly against the budget caps, while straining under draconian cuts in the non-defense accounts.

Senator KERREY has also offered an amendment that could help reduce the need to rely on budget gimmickry without reducing our capacity overseas. He would simply allow the Department of Defense to reduce our nuclear forces below the START I levels of 6,500 warheads. According to CBO, if we reduce our warheads to the START II level of 3,500 the Department of Defense could save $12.7 billion by 2009. All of that saving would come without reducing our conventional capability one iota. While nuclear deterrence is still important, it can be accomplished with many fewer missiles, and at less cost.

My point, Mr. President, is defense spending does not have to be this high. It is only this high because Congress and the Department of Defense are unwilling to make the tough choices to bring the cost of defending our nation and its interests down to a sustainable level. When our troops are deployed overseas, and in harms way, it is hard to critically look at the defense budget for unnecessary or unwise spending. Our instinct is to give our brave men and women whatever they need and then some to get the job done. This is even more important now than ever to closely examine our spending priorities. We need to stretch every defense dollar as far as it can go, and to do that we need to look for efficiencies and cut wasteful projects and items that contribute little to our defense.

Careful spending is the way to reduce outlays, not budget gimmicks. Congress needs to be more critical, not more clever.

Mr. ASHCROFT. Mr. President, I rise today to speak for a few moments about the F–15 Eagle, the finest fighter plane in the world. The F–15 arguably has been the most successful fighter in the history of U.S. aviation warfare. Tasked primarily in the Air Force, the F–15 is in danger of losing this aircraft. The Administration is well aware of the performance record of the F–15, but in not taking the steps necessary to save the line.

The Senator from Wisconsin, Senator FEINGOLD, and I had a debate this morning on congressional oversight of the Department of Defense. I agreed with the Senator from Wisconsin that Congress has oversight responsibilities for the Pentagon, but disagreed with abdicating that responsibility to GAO.

In the case of the F/A–18E/F, Congress has exercised its oversight responsibilities. Three of the four oversight committees already have approved the multiyear contract for the F/E, and the House appropriators are expected to next month.

But Congress does have a responsibility to address deficiencies in judgment within the Defense Department when it sees them. That is why the F–15 is an important issue. General Richard Hawley, Commander of the Air Force’s Combat Command, stated just this month that “...the F–15 is the most stressed fighter in Air Combat Command’s inventory right now in terms of its use in engagements and the operational tempo of the aircrews.”

Given the nature of the threats we face today, which require the strike, range, and versatility of the F–15, it is easy to see why this fighter is the most stressed. The loss of the F–15 will harm national security and harm my home state of Missouri.

Seven thousand highly skilled aerospace workers will lose their jobs if the F–15 line closes. Those workers and their knowledge is a national security asset that must not be lost.

On almost every front, the arguments are compelling for maintaining this national security asset. There is plenty of work for the F–15 to do. Purchasing more planes will preserve the production capability of this critical national security asset. Finally, Congress wants
to encourage budgetary discipline in other tactical fighter programs. Purchasing more F-15s would encourage budgetary discipline in the F-22 program.

I and many of the members from the Missouri and Illinois delegations have written to the President requesting a meeting concerning the F-15. We have not received a reply. We have asked the President that he take the steps necessary to keep the F-15 line open. Unfortunately, the Clinton administration has blocked efforts to do so.

The F-15 program was initiated with a Request for Proposal in December 1968. The first model, the F-15A, entered operational service in 1976. The F-15A was a single mission, air superiority fighter with a maximum gross weight of 56,000 pounds.

The F-15 entered the world stage as the dominant air superiority fighter in 1976, and the evolution of the program demonstrates just how much this great fighter has improved over the years. Twelve and subsequent models of the F-15 were developed, the latest model, the F-15E, was delivered to the Air Force in 1988.

The F-15E's gross weight was 45 percent greater than the A model. Engineers increased fuel capacity over 50 percent to 34,000 pounds, giving the aircraft record range. Payload was enhanced and the dominant air-to-air platform was given critical air-to-ground capabilities. Avionics, engine, and weapons technology were also upgraded.

The F-15 is arguably the most versatile and effective fighter in the history of the U.S. Air Force. The F-15 never lost in air-to-air combat. It has the best air-to-air kill ratio of any fighter in the history of U.S. aviation warfare: 96.5 to 0. That was certainly the case in Desert Storm, where F-15s destroyed 33 of the 35 fixed-wing aircraft Iraq lost in air combat. The F-15E maintained a 95.5 percent average mission capable rate, the highest of any fighter in the war. The F-15's stellar performance also has been on display in Kosovo. General Johnny Jumper, Commander of U.S. Air Forces Europe, has lauded the performance of the F-15 as the workhorse of the operation.

In addition, the F-15 has the best safety record of any Air Force fighter. 2.42 losses per 100,000 flying hours. With a record like that—the best safety record, the most successful air-to-air combat record, the most versatile aircraft in the Air Force inventory—it is not difficult to see why the plane is in such demand.

One of the major concerns about the F-15 is the cost of the airplane. When you compare a $50 million F-15 to an F-22 that costs over $100 million, the F-15 doesn’t look so bad. But even against the newer F-16, the cost differential is not as great as it appears.

The greater capabilities of the F-15 over the F-16 negate much of the cost differential. RAND completed a study for the Air Force entitled “Measuring Effectiveness of Differences of Fighter Aircraft.” Let me mention several of the major conclusions of the report which were made in light of the nature of future conflicts. First, increasing the use of inertially/GPS-aided weapons could exploit the inherent payload carriage advantage of the F-15E. Second, most regional conflicts involve long distances from bases to targets, favoring aircraft having greater combat radius. Third, as the fighter force structure contracts, higher quality systems can help maintain force capability.

Each of those conclusions point to the desirability of the F-15. A major conclusion of the report was that “over a wide spectrum of cases, our analysis suggests that an equal cost but smaller force of F-15s is a more cost effective carrier of weapons to the target area than an alternative larger cost force. As a result of this finding, the employment characteristics of future precision weapons, the size of many potential regional conflict theaters, and the reality of expected force structure contractions seem consistent with the capabilities offered by large payload, long radius vehicles such as the F-15E.”

Another reason to maintain the production capability of the F-15 is uncertainty over the future of the F-22 and Joint Strike Fighter. These fighter programs may have additional developmental difficulties. The F-22 is not expected to be in operational service until 2005. The Joint Strike Fighter will not be in service until 2010 or later. Remember, these are the best case scenarios.

Since its inception, the F-22 program has been restructured three times, with a 50 percent reduction in the number of planes to be procured. The F-22 is up against budget cuts and is on the ropes out of political capital in Congress. Additional, significant increases in cost could jeopardize the program, which still has five years to go to Initial Operational Capability.

Because the Air Force has had to reduce the number of F-22s it will buy, it will need to rely more on the F-15. Colonel Frederick Richardson, chief of F-22 requirements at Air Combat Command, stated from a pure numbers standpoint, we’re clearly not going to be able to replace the F-15 with F-22s on a one-to-one basis, which means we’ll have to assume some more risks and probably keep the F-15 around for a while. But if the F-15 line is shut down, there won’t be the production capabilities to fill the gap.

To conclude, Mr. President, the F-15 is the best fighter in the world. Its unique capabilities have made it the most heavily tasked aircraft in the force today, according to General Hawley, Commander of the Air Force’s Combat Command.

The RAND study concludes that the F-15E is the kind of airplane we need to meet the security threats of the future. Therefore, we need to keep the F-15 line open. Unfortunately, the Clinton administration has blocked efforts to do so.

By purchasing additional F-15Es, not only are we taking appropriate steps to meet our current force needs, we are preserving a critical national security asset for an uncertain future. I reiterate my call on the President to take the necessary steps to keep the F-15 line open.

Mr. LIEBERMAN. Mr. President, I rise in support of the FY 2000 defense authorization bill. As the challenges facing us today demonstrate, the effectiveness of our military, and its readiness to act immediately to protect our national interests, must always be a priority concern for Congress. The $288.8 billion proposed in this bill is a 2 percent real increase over last year’s budget and is the first real increase in topline defense funding since FY 1985, the middle of the Reagan administration. After fourteen years of declining, or flat defense spending, we increased authorization for readiness programs by $1.1 billion, we increased authorizations for procurement by $2.9 billion, and we increased authorizations for reseach and development by $1.5 billion. I firmly believe this bill makes an important statement at a critical time, affirming our commitment to having the best equipped, and most effective military in the world, both today and tomorrow.

Under the excellent leadership of our colleagues, Senator JOHN WARNER, chairman of the Senate Armed Services Committee, and the ranking Democrat, Senator CARL LEVIN, we stepped up to our responsibility to provide what our soldiers, sailors, and airmen need today, and we took some very important steps to move toward the military that will protect our nation in the next century.

The past 14 years of inadequate defense spending has taken a toll on the readiness of our force today. We simply were not able to keep our training and maintenance at the levels that our role as a superpower demands. The struggle to do so, and the increasing need to use our forces to meet the many challenges of the post cold war world has taken its toll not just on equipment, but on our people in uniform. Simply put, the morale of our forces is suffering. This past
year, we not only sought out and listened to our nation’s top military leaders as they outlined the problems facing our services in this biennium. The assessments addressed the most critical of those problems, including falling recruitment and retention in critical skill areas; aging equipment that costs more to keep operational; and improved levels of reliability: a need for more support services for a force with a high percentage of married personnel.

So I am pleased and proud that we reversed the 15 years of declining defense dollars and added the money to readiness and procurement to fix the most urgent near-term readiness problems. But many of these problems are not simple to address, and simply adding money to budget lines will not fix them any more than adding money to welfare programs fixed the underlying welfare problem in America. Adding money was necessary, but it won’t be enough. How we spend the money we spend is as important as how much money we spend. We will have to be sure to do what we ask of it, and the capabilities that our military will bring to bear to successfully accomplish its mission. This body has been in the forefront of demanding rigorous assessments about our needs and our potential, and in the May 1997 Force Structure Review Act of 1996, the Secretary of Defense to complete a comprehensive assessment of the defense strategy, force structure, force modernization plans, infrastructure, and other elements of the defense policies and programs with a view toward determining and expressing the defense strategy of the United States and establishing a revised program. This assessment, completed by the Secretary of Defense in 1997, declared that our future force will be different in character than our current force, and placed great emphasis on the need to prepare now for an uncertain future by exploiting the revolution in technology and transforming the force toward that environment in Joint Vision 2020. The independent National Defense Panel report published in December 1997 concluded “the Department of Defense should accord the highest priority to executing a transformation strategy for the U.S. military starting now.” These assessments, and others that have come to our attention, have reinforced the wisdom of Congress in passing in 1986, over the Pentagon’s strenuous objections, the Goldwater-Nichols act and have provided us here with a compelling argument that the future security environment requires new capabilities. In last year’s defense authorization bill we sent a strong signal to the Pentagon that we must begin to build the future force needed by including a provision strongly supporting Joint Experimentation to objectively examine our future needs and how we can best fulfill them.

This year, once again, Congress is stepping up to the responsibility to ensure our future security. By establishing this year the Emerging Threats and Capabilities Subcommittee, Senator Warner addressed the growing consensus that transformation of our military to deal with the uncertain future we face is one of our most important objectives and that promoting innovation is among our greatest challenges. Under the leadership of the subcommittee chairman, Senator Roberts and the Ranking Senator Bingaman, we focused on the critical threats facing our nation and the emerging capabilities to deal with these threats. I would like to highlight what I think are important legislative provisions that this subcommittee placed in this bill that further both transformation and innovation. An ongoing initiative of transformation supported by this bill is joint experimentation. The committee recognized the program’s progress in developing joint service warfighting requirements, doctrinal improvements, and in promoting the values and benefits of joint operations for future wars and contingency operations. We need to continue to identify and assess interdependent areas that will be key in transforming the conduct of future U.S. military operations, and expanding projected joint experimentation activities this year will be a strong base for future efforts. To this end the committee has placed in this bill on its previous support for Joint Experimentation by adding $10 million to accelerate the establishment of the organization responsible for joint experimentation, and to accelerate the conduct of the initial joint experiments. The committee also modified the reporting requirements of the commander responsible for joint experimentation to send a strong signal that we expect him to make important and difficult recommendations about future requirements for forces, organizations, and doctrine and that we expect the Secretary of Defense fully inform us about what action he takes as a result of these recommendations. The bill also includes very important provisions to stimulate a greater degree of technical innovation faster within the military. It is my belief that the expansive advances in technology provide the basis for not just a “revolution in military affairs,” but ultimately a complete paradigm shift. The opportunity provided by technology give us the promise of achieving an order of magnitude increase in military capability over that which we have today. The U.S. military of 2020 and 2030 will be based on the science we begin to develop in the year 2000. But to take advantage of this promise and defend ourselves against its use against us by future adversaries, we need to transform our R&D enterprise from its antiquated cold war structure to a fast-moving, better-integrated structure and a process that can seize the leading edge of techno-warfare. The Defense Innovation provisions in this bill establish a new vision for military R&D that is based more on how we want to fight in the future, and begin to change the structure of the military R&D enterprise to achieve that objective through better integration and less inefficiency.

To help establish a new vision, the provisions require the Secretary of Defense to determine the most dangerous adversarial threats we will likely face two to three decades from now and the technologies on which we will depend on our part to prevail against those threats, and merge the strategic and technological decision-making processes. To help lay the groundwork for a new organizational structure for R&D, the Department of Defense could develop a plan which ensures the crossflow of technologies into and across R&D labs, and close the gap between the R&D pipeline and the acquisition pipeline, to ensure the customer is able to benefit from the research conducted in the process. Our R&D structure needs to be revamped now so that leading edge techno-warfare can emerge.

Along the same lines as innovation, the bill has provisions that ensure we continue to step up to our responsibility to oversee the transformation of our military to the future force that will protect our security in the 21st century. We need a permanent requirement that the Secretary of Defense conduct a Quadrennial Defense Review at the beginning of each new administration to determine and express the defense strategy of our nation, and establish a revised defense plan for the next 10 to 20 years. Complementing the QDR will be a National Defense Panel that would conduct an assessment of the defense strategy, force structure, force modernization plans, infrastructure, budget plan, and other elements of our defense policy established under the previous quadrennial defense review. Based on our previous experiences with the QDR and NDP, and the debate they raised, it is obvious that any one time assessment is not going to provide all the answers we need. Periodic assessments as prescribed by this legislation will continue to provide Congress with a compelling forecast of the future security
May 27, 1999

CONGRESSIONAL RECORD—SENATE

11341

The requirement for the provisions I have mentioned is paramount. The need for renewed emphasis on innovation and transformation has never been more apparent to me than after my time this year as the Ranking Member of the Army Subcommittee. That committee, under the excellent leadership of Senator RICK SANTORUM, examined many modernization issues affecting the Army and the Air Force. Some of the findings were disturbing, and reinforce the fact that despite the widespread and growing consensus that transformation is essential to our military, our budgets continue to look much as they have for a decade, focused on today’s force at the expense of tomorrow’s. I would like to discuss some of the disturbing findings, and some of the important provisions we included in the bill to begin to address these concerns.

We found that some responsible voices are concerned that the United States Army is facing a condition of deteriorating strategic relevance. The Army force structure is essentially still a cold war force structure built around very heavy weapons systems. The Army modernization program is based on incremental improvements to this force and is largely unfunded due to hard choices made in the past. This has resulted in inefficient programs and extended program timelines. Consequently we have a force that looks essentially the same today as it did yesterday, and that doesn’t have enough money to maintain an increasingly expensive current force and invest in the Army After Next which is the future. Kosovo is an example of the future, and we have to bear in mind the implications that are increasingly urbanized, with growing deployment and access problems, and the need for lighter weight, self-deployable systems becomes compelling. We reviewed the Army’s modernization plan to understand the relationship between the current service modernization program and projected land force challenges. The Army’s modernization plans do not appear adequately to address these issues.

So we have required the Army to take a fresh look at its modernization plans generally, and its armor and aviation modernization programs specifically, to address these challenges and to provide us with modernization plans that are complete and that will be fully funded in future budgets. We direct this analysis include the operational capabilities that are necessary for the Army to prevail against the future land force challenges, including asymmetrical threats, and the key capabilities and characteristics of the future Army systems needed to achieve these operational capabilities. We are especially concerned about the ability of the Army to maintain the current fleet of helicopters that is rapidly aging and we have included a provision to require them to provide a complete plan for the funding needed to upgrade, modernize, or retire the entire range of aircraft currently in the fleet, or provide an alternative that is sufficient and affordable. Similarly, the Army’s armor modernization plan seems to be inadequate to modernize the current armor force while designing the tank of the future, and leads me to believe that the Army must reassess armor system plans and provide us with the most appropriate path to accelerate the development of the future combat vehicle.

The Air Force has fewer apparent modernization problems than the Army, but I wonder if their modernization plan is on the right track. Our hearings strongly suggest that the Department of Defense needs to answer several questions about our tactical air requirements, not the least of which is the characteristics, mix, and numbers of aircraft best suited for future conflicts. Kosovo is an example of how important the right mix of platforms and weapons really is to success on the battlefields of the future. We are embarked on three new TAC air programs which may report increasing costs coming dangerously close to the caps we have established, and in the case of the F-22 we must be alert to the danger that we will delay critical testing in order to not exceed the caps. And in the out years, the combined costs of these programs will consume a very large share of the overall procurement budget. We must make sure that we are not sacrificing other leading-edge capabilities, like unmanned aerial vehicles, information technology, or space technology. The specific aircraft programs we are scrutinizing as we will the strategy for their use as we attempt to decide on the right course in future authorization bills.

We must overcome our cold war mentality and further examine and direct our trek into the 21st Century. The provisions in this bill concerning innovation and transformation lay the foundation for the required changes in our defense mind set that will become mandatory as we face far different conflicts in the future—and, as we see on CNN everyday, much of that future is already here.

In closing, I express my appreciation to the committee for agreeing to include in the bill a provision to extend and expand the highly successful Troops to Teachers program, which I joined Senators MCCAIN and ROBB in sponsoring.

As my colleagues may know, this program was initially authorized by legislation that sought to recruit, retrain, and provide incentives to help transition retiring and downsized military personnel into jobs where they could continue their commitment to public service and bring their valuable skills to bear for the benefit of America’s students. The Troops to Teachers has placed more than 3,000 retired or downsized service members in public schools in 48 different states, providing participants with assistance in obtaining the proper certification or licensing and matching them up with prospective employers. In return, these new teachers bring to the classroom what educators say our schools need most: mature and disciplined role models, most of them male and many of them minorities, well-trained in math and science and high tech fields, highly motivated, and highly capable of working in challenging environments. The legislation we introduced earlier in the year, and which the President has endorsed, aims to build on this success to expand incentives to serve in areas of concentrations of at-risk children and severe shortages of qualified teaching candidates.

Even with the new incentives we are creating, which we hope will recruit as many as 3,000 new teachers each year, we recognize that Troops to Teachers will still only make a modest dent in solving the national teacher shortage. The Department of Education estimates that America’s public schools will need to hire more than two million new teachers over the next decade.

But we are confident that, with an extremely modest investment, we will make a substantial contribution to our common goals of not just filling classroom slots, but doing so in way that re-energizes different professions to serve in our public schools. This really is an ingenious idea, helping us to harness a unique national resource to meet a pressing national need, and I think we would be well served as country to build on it.

What’s more, with this bill, we may well galvanize support for a recruitment method that, as Education Secretary Richard Riley has suggested, could serve as a model for bringing many more bright, talented people from different professions to serve in our public schools. This really is an ingenious idea, helping us to harness a unique national resource to meet a pressing national need, and I think we would be well served as country to build on it.

In putting together this bill, once again hard choices had to be made. We closely examined and analyzed the critical defense issues, and we ended up with an effective and affordable defense authorization bill which meets the growing readiness and retention challenges facing our armed forces, and augments our investment in the research, development, and procurement
of the weapon systems necessary to maintain our military superiority well into the 21st Century. This bill compensates for the valuable programs, our service men and women, plus lays the groundwork for a sensible and executable programs for our military. I urge all of my colleagues to support this legislation and send an unequivocal message of support to our troops and their families.

Mr. CONRAD. Mr. President, I rise in support of the bill before us.

In this bill the Armed Service Committee has done a good job of reconciling important yet competing needs for defense funding under daunting fiscal constraints. This bill will be an important contribution to our efforts to strengthen our already first-class military, and enhance important benefits for Air Force and the current war, their dependents, retirees, and veterans.

I am especially pleased that this legislation includes my amendments concerning Russia’s tactical nuclear stockpile, National Missile Defense, and Air Force cruise missiles. I would offer to the distinguished Chairman and Ranking Member my most sincere thanks for working with me on these important amendments, as I would for the assurances they offered regarding the Navy’s BQM-74 in a colloquy with Senator DORGAN, Senator BINGAMAN, and myself.

Before reviewing several of the bill’s provisions, I would like to reflect for a moment on the context in which the Senate is considering this year’s defense authorization bill.

Mr. President, I have had the honor and privilege of serving the people of North Dakota and the nation in the United States Senate for 13 years. However, last time during tenure that the Senate has taken up a defense authorization bill while our forces are engaged in hostilities. I know I am not alone in being especially mindful of the fact that the provisions we approve here today will have a significant impact on our brave men and women in uniform as they do their jobs in Balkans and over Iraq. I am pleased that several sections of this bill address concerns and needs that have been identified during Operation Desert Storm and our current air campaign against Yugoslavia.

Now, Mr. President, allow me to highlight several particularly good provisions of this bill, for which Chairman WARNER and Senator LEVIN should be congratulated.

First, this measure wisely provides full funding for vital missile defense programs. National Missile Defense that is affordable, makes sense in the context of our arms control agreements, and utilizes proven technology has always had my support, and it is encouraging to see that it has been fully funded for fiscal year 2000. After damaging cuts in recent years, the revolutionary Airborne Laser program has also been fully supported this year by the Committee.

Chairman WARNER and Senator LEVIN must also be praised for including many of the provisions passed earlier this year by the Senate as part of S. 4, the Soldier’s Sailor’s, Airmen’s, and Marine’s Bill of Rights. Several of the most beneficial include a base COLA of 4.8 percent for all personnel, coupled with reform of the pay tables. Servicemembers will also now be able to participate in a Thrift Savings Plan.

Third, the bill recommends significant funding boosts for vital strategic forces. The Minuteman III Guidance Replacement Program will be kept on schedule with a $40 million hike, and $41.4 million has been wisely added for B-52 upgrades identified as top unfunded priorities as far back.

Additionally, the Committee has also supported important housing improvement projects at Minot and Grand Forks Air Force Bases in North Dakota, and acted to accelerate construction of a $33 million apron extension at Grand Forks.

Finally, I am pleased that the Strategic Forces Subcommittee has recommended a reduction in the minimum START I Trident submarine force level that must be maintained until START II is ratified by the Russian Duma. The Commander in Chief of the U.S. Strategic Command has assured me that we can meet our deterrence needs with 14 Trident boats, and that retirement of four submarines will not adversely affect our nation’s security.

All of these provisions are steps in the right direction, but there are a number of matters in this bill of great concern.

First, the Committee yet again did not provide adequate funding for the B-52H bomber force. Today, part of the fleet is deployed to keep an eye on Saddam, and 15 B-52s are participating in Operation Allied Force. The B-52 is the backbone of the long range bomber force, and it is my hope that the Committee will review its decision not the fund the entire force during conference.

As I have said many times before, no airborne platform can deliver a greater quantity or quality of nuclear and conventional munitions without refueling at as little cost to taxpayers than today’s thoroughly modernized, battle-tested B-52. I applaud Senator STEVENS and Senator INOUYE—the distinguished leadership of the Defense Appropriations Subcommittee—for acting to fund all 94 B-52s in the fiscal year 2000 defense appropriations bill.

Additionally, the bill unnecessarily increases spending on the Space Based Laser by $25 million. One day we will likely see this missile from space. But that time is not now, when ground-based NMD will soon be available. Today, the SBL is unaffordable, a clear violation of the ABM Treaty, and simply not feasible. I hope the extra funding is reallocated in conference.

Mr. President, I have had the honor and privilege of serving the people of North Dakota and the nation in the United States Senate for 13 years. How-
May 27, 1999

Mr. President, even the pay raise and retirement change is fraught with uncertainty and was addressed in a less than proper manner. In February, this body passed the Soldiers’, Sailors’, Airmen’s, and Marines’ Retirement Modernization Act of 1999. We did so without benefit of hearings, prior to the budget resolution, and prior to the issuance of three reports on whether such changes would improve recruitment and retention in our armed forces. Then, this month, we paid for the entire $1.8 billion price tag for the pay raise and benefit reform in the emergency supplemental bill. Yet we still await reports from the General Accounting Office, the Congressional Budget Office, and the Department of Defense on the efficacy of that action. Earlier this year, GAO offered preliminary data on a study showing that money has been overstated as a factor affecting decisions to stay in or leave the military.

Instead, GAO found that issues like a lack of spare parts; concerns with the health care system; increased deployments; and dissatisfaction with military leadership are at least as much effect on retention, if not more, then pay issues. These are the same concerns that I have heard from the men and women on the front lines.

Mr. President, there’s no question that certain services have a recruiting and retention problem. For a variety of reasons, officers and enlisted members are leaving the Army, Navy, and Air Force, and these services are having problems bringing enough new people on board. Serious questions remain unresolved about the cause of this problem, or its best solution, yet we will authorize and appropriate the entire $1.8 billion in an extraordinary and inappropriate manner. This is a quick fix that fails to address the recruitment and retention problem in a comprehensive and thoughtful manner.

I agree that many service members need a raise. These men and women have chosen to represent our country. They deserve to be paid adequately.

Meanwhile, in this bill, Mr. President, programs that didn’t even warranty DoD’s request will receive $3.3 billion. Additionally, weapons procurement is up $2.9 billion beyond DoD’s request. Missile defense programs, that garner a strong efficiency and effectiveness, is up $509 million. These and other provisions raise the question, just how important does the Pentagon think our men and women in uniform are?

Mr. President, the bill authorizes 2.9 billion dollars for the Navy’s F/A-18E/F Super Hornet program. It also authorizes the Navy to enter into a five-year $9 billion multi-year procurement contract for the Super Hornet. It’s no secret that I have numerous concerns about the Super Hornet program, and today I am troubled by the manner in which the Pentagon and the Navy have moved the Super Hornet forward. And my concerns are not addressed in the least by this bill. In fact, this bill makes them worse.

The current Hornet program has been proven reliable and cost-effective. Why do we want to replace the Hornet with a bloated, cost-prohibitive aircraft that offers marginal benefits over a reliable fighter?

Mr. President, this bill has some remarkable budgetary issues. Essentially, we can’t pay for what this bill authorizes, and remain under the budget caps. The bill meets the fiscal year 2000 Budget Resolution target for budget authority, but current estimates state that the bill exceeds the outlay target in the Budget Resolution by $2 to $3 billion. Even by Washington standards, that is real money.

Mr. President, one concern goes to the heart of the entire debate on our national defense. The underlying question is this: Why should the Pentagon receive billions dollars more in funding when it has failed utterly to manage its budget?

In a 1998 audit of the Department of Defense, GAO, the official auditors for the U.S. Congress, could not match more than $22 billion in DoD expenditures with obligations; it could not find over $3 billion in inventory; and it documented millions in overpayments to contractors. GAO concluded that “no part of DoD has been able to pass the test of an independent audit.” Throwing good money after bad without accountability is not the answer.

Instead, Mr. President, we will sharply increase defense spending. The fiscal year 1999 DoD authorization bill assumed a budget of $250.6 billion. Since that time, the Congress has added $17 billion in emergency spending for defense. That spending boost is not offset and takes money directly from the Social Security Trust Fund.

Mr. President, we have done a tremendous job of eliminating our budget deficit. We’re staring a huge budget surplus in the face, but we can’t seem to find the political will to fund it. To spend it before we address Social Security and Medicare is irresponsible, Mr. President.

Mr. President, a large part of that success has been due to the willingness of both the Congress and the President to do more with less, to trim excessive spending wherever possible and maintain important services with fewer resources. We have begun to succeed in...
many areas of government—education, health care, veterans' care, welfare benefits, environmental programs—but not in defense spending, where we continue to build destroyers the Navy does not ask for and continue to build bombers the Air Force does not want. This bill continues this sad tradition.

I yield the floor.

Mr. KENNEDY. Mr. President, I support the National Defense Authorization bill for fiscal year 2000. This past year has demonstrated once again how important it is for the nation to maintain a well-prepared military. There is no doubt that the Nation's armed forces are more active today than they were during cold war. Our servicemen and women are currently conducting combat operations in Kosovo and Iraq. They are serving as peacekeepers in Bosnia and humanitarian support personnel in Central America. All of this is taking place in addition to the day-to-day routine operations and exercises in which the military participates throughout the year in this country and in many other parts of the globe.

The Nation is also calling on its National Guard and Reserve units at an increased rate. This past year, Guard and Reserve units from Massachusetts were deployed in support of operation Northern Watch in Iraq. Hurricane Mitch relief in Central America, and most recently Operation Allied Force in the Balkans. Our country is proud of their service and grateful for the sacrifices that they, their families and their civilian employers are making for all of us.

Our armed forces continue to do all that is asked of them. This year, many of us in Congress have been concerned about the fact that too many of our personnel are being deployed operations tempo are having on our service personnel and equipment. We have no doubt about the dedication and skills of our .14 million men and women in the Army, Navy, Air Force and Marine Corps who make our military the most capable fighting force in the world today. But there are increasing questions about whether they are receiving the full support they need to do their job well.

This bill addresses many of the current challenges about declining readiness, insufficient equipment, and inadequate recruitment and retention. It provides greater support for our military forces, while maintaining a realistic balance between readiness to take care of immediate needs, and the investments needed to develop and procure the best systems for the future.

The cornerstone of the Nation's military preeminence rests on many factors, but the most critical is its people. Without men and women willing to volunteer for military duty, the Nation would not be able to respond to crises around the globe as it does today. We need to have cutting-edge weapon systems, but we also need dedicated service members to operate these systems. It is imperative for us to provide effective and well-trained families for our military personnel.

Today's force is truly an all volunteer force. Its ranks contain well-educated professionals who have chosen to serve their country in the armed forces. We must treat them as professionals or we will lose them in their families.

The bill provides a fully-funded and well-deserved 4.8% pay raise for military personnel, as well as expanded authority to offer additional pay and other incentives to critical military specialties. The bill also improves retirement benefits for those who are serving by addressing concerns with the current system and allowing service men and women to participate in a Thrift Savings Plan.

The bill also restores the very successful Troops-to-Teachers Program. Troops-to-Teachers was established by Congress in 1993 and has enabled over 3,000 service men and women to go into the teaching profession. These teachers have filled positions in high-need schools in 48 states. The bill shifts the responsibility for this program to the Department of Education in order to see that it is coordinated as effectively as possible with our overall education reform initiatives.

Well over half of today's military is married. In many cases both parent are employed. The military also contains many single mothers and fathers. Each of these constituencies has unique characteristic and need that must be recognized so that we can encourage continued service and careers in the Nation's armed forces.

The bill contains a provision which I strongly support to authorize the Secretary of Defense to provide financial assistance for child care services and youth programs for members of the armed services. These expanded provisions will ensure that many more military families have access to adequate child care and worthwhile activities for their children.

The Nation's service men and women operate in a demanding and stressful environment that is being exacerbated by the increased operations of the last decade. One unfortunate result has been an increase in domestic violence involving military families. We have a responsibility to these families to help them cope more effectively with this problem.

An important provision in this year's bill require the Secretary of Defense to appoint a military-civilian task force to review domestic violence in the military. In addition, the bill takes other steps to guarantee that the Services are more sensitive to this problem and take steps to prevent it.

With the Nation's two fronts to address modernization requirements that have been deferred for too long. As the ranking member on the Seapower Subcommittee, I am pleased that this bill takes needed steps to ensure that the Nation's naval forces have the vessels and equipment they need to sustain naval operations throughout the world.

The bill authorizes the extension of the DDG-51 destroyer procurement for fiscal year 2002 and 2003 and increases multiyear procurement of 12 to 18 ships. The bill also authorizes the Navy to enter into a 5-year multiyear procurement contract for the F/A-18E/F Super Hornet. In addition, it increases the budget request for the Marine Corps' MV-22 Osprey tilt-rotor aircraft from 10 to 12. These are all strong steps in strengthening the readiness of the Nation's Navy-Marine Corps team.

Last year, the Defense authorization bill called for a 2 percent annual increase in military spending on science and technology from 2000 to 2008. Unfortunately, the Department's proposed Fiscal Year 2000 budget reduced spending on science and technology programs. The Air Force allocated for $95 million in cuts in science and technology funding. Such a decline would be detrimental to national defense, particularly when the battlefield environment is becoming more and more reliant on technology. Fortunately, under the leadership of the Chairman of the Emerging Threats and Capabilities Committee, Senator Roberts, this bill restores $70 million in Air Force Science and Technology funding to ensure that sufficient scientists and engineers are available to conduct research to address the Defense Department's technology needs for the future.

One of the most important technology fields is in the area of cyber-security. The growing frequency and sophistication of attacks on the Department of Defense's computer systems are cause for concern, and they highlight the need for improved protection of the Nation's critical defense networks. This bill includes a substantial increase in research and development on defenses against cyber attacks. This increase will greatly improve the Department's focus on this emerging threat.

Existing threats from the cold war are also addressed in this legislation. The efforts to provide financial assistance to the former Soviet Union for nonproliferation programs such as the Nunn-Lugar Comprehensive Threat Reduction programs are essential for our national security. I commend the administration's plans to continue funding these valuable initiatives and the committee's support of them.

One of the greatest threats to our national security is the danger of terrorism, particularly using weapons of mass destruction. We must do all we can to prevent our enemies from acquiring these devastating weapons and from being able to conduct successful terrorist attacks on the Nation. Significant progress has been made toward...
strengthening the Nation’s response to such attacks, but more must be done. This bill strengthens counter-terrorism activities and provides additional support for the National Guard teams that are part of this important effort.

I commend my colleagues on the committee for their leadership in dealing with the many challenges facing us on national defense. This measure is important to our national security in the years ahead and I urge the Senate to approve it.

Mr. REID. Mr. President, I thank my colleagues for their hard work over the last few days on this very important bill. The events in Kosovo underscore the importance of the work that we are doing here.

I think that we have worked to put together a good bill. It doesn’t satisfy everyone, I myself have some reservations about some parts of it, but overall I think that it is a good bill. I want to make a brief statement clarifying the substance of one of the amendments in the manager’s package that I passed today.

I want to make it clear that the amendment relating to the authorization of $4,500,000 for the procurement and development of a hot gas decontamination facility, is directed to the development of such a facility at Hawthorne Army Depot in Hawthorne, Nevada. That reflects the prior agreement of the managers. The text of the amendment does not specify the location of the facility, and I want to make it clear in the record of the proceedings associated with this bill where that facility is to be located and how that money is intended by this Congress to be appropriated and spent.

Mr. WARNER. Mr. President, I rise to enter into a colloquy with the distinguished Chairman of the Armed Services Committee, Senator WARNER, concerning his amendment, No. 439, on radio frequency spectrums.

Mr. WARNER. Mr. President, I am pleased to enter into this colloquy with the distinguished Senator from Virginia. I understand his concern in my understanding that that is not his intended effort.

Mr. WARNER. Mr. President, the gentleman from South Carolina is correct in his assessment.

Mr. THURMOND. Mr. President, I look forward to working with the distinguished Chairman during Conference with the House to ensure the successful use of radio frequency spectrums by the military, appropriate government agencies, and the private sector.

Mr. WARNER. Mr. President, I will be pleased to work with my friend from South Carolina to ensure that this important amendment has its intended affect.

Mr. THURMOND. Mr. President, I yield the floor.

Mr. ROBB. Mr. President, the amendment I have offered today is about accepting responsibility. On February 3, 1998, United States Marine Corps EA–6B Prowler severed a ski gondola cable near Cavalese, Italy, plummeting twenty people nearly 400 feet to their deaths. We later learned, to our great disappointment, that the pilot and the navigator during their respective evidence of the circumstances leading to the accident.

This amendment, cosponsored by Senators SNOWE, BINGAMAN, LEAHY and KERRY, upholds the honor of the United States Marine Corps and our military both here and abroad, permits the United States to accept responsibility for this tragic accident, and sends an unambiguous message that we will not tolerate efforts to cover-up our mistakes.

The Congress has already authorized payment to rebuild the gondola we destroyed. We have not yet authorized payment to help rebuild the lives of the families we destroyed. This amendment allows the Secretary of Defense to compensate the victims’ families both for the accident and the effort to hide evidence of the accident.

A similar amendment was passed by the Senate during consideration of the Emergency Supplemental. The amendment passed unanimously, but was dropped during Conference consideration. I urge the Senate to adopt the amendment for the families of the victims to begin healing.

Mr. THURMOND. Mr. President, I am in opposition to the amendment offered by the Senator from Virginia. I understand his desire to settle claims resulting from the accident involving a Marine Corps aircraft, which resulted in the unfortunate deaths of civilians in Italy. I note, Mr. President, that this case is covered by the Status of Forces Agreement or SOFA, which provides a mechanism for the settlement of claims. The Robb amendment would provide additional compensation, above and beyond that which might be provided by a SOFA settlement.

While I have sympathy for the families of the victims of this tragedy, I must bring to the attention of my colleagues another tragic occurrence which took the lives of nine American servicemen. I spoke in some detail on this matter last week, when I introduced Senate Resolution 83. Let me summarize the facts of this accident.

On September 13, 1997, a German Luftwaffe Tupolev TU–154M collided with a U.S. Air Force C–141 Starlifter off the coast of Namibia, Africa. As a result of that mid-air collision nine American airmen were killed. Accident investigations conducted by the United States and Germany both assigned responsibility for the collision and deaths to the German crew, who not only filed an inaccurate flight plan, but were flying at the wrong altitude.

The families of the nine victims, having endured tremendous suffering and significant financial losses, are seeking compensation from the German government. Sadly, the German government has not been fully cooperative. Because these claims do not fall under the Status of Forces Agreement, the families were instructed to file their claims with Germany and wait for Germany to address this matter. I introduced a Sense of the Senate Resolution calling upon the German government to make quick and generous compensation to the families of the U.S. servicemen. In addition, it prohibits payment to the families of any German national killed in the gondola accident caused by the United States Marine Corps aircraft until the German government has made comparable restitution to the families of the U.S. air crew killed in September 1997. My Resolution will not block payment to the families of any victim who is not a German national.

Mr. President, I addressed my concerns on this matter to the Secretary of Defense. I requested that he bring his attention to this matter his attention and raise this issue with the German Ministry of Defense. In addition, I have invited the German Ambassador to meet with me and family members of those killed in the air collision. To date, the Ambassador has not accepted my invitation.

Mr. President, the Robb amendment is unnecessary at this time. The claims of family members of those killed in the ski gondola accident should first go through the SOFA process. In the meantime, the German government should quickly and fairly settle the claims of Americans killed as a result of the negligence of the German aircrew. I reiterate that the American claims do not fall under SOFA.

My amendment expresses the Sense of the Senate that the Government of Germany should promptly settle with the families of members of the United States Air Force killed in a collision between a United States C–141 Starlifter aircraft and a German Luftwaffe Tupolev TU–154M that fell off the coast of Namibia on September 12, 1997. My amendment also states the Sense of the Senate that the United States should not make any payment
to citizens of Germany as settlement of such citizens claims for deaths arising from the medicine involving the United States Marine Corps EA-6B aircraft on February 3, 1998, near Cavalese, Italy, until a comparable settlement is reached between the German Government and the American service members’ families.

Mr. DOENNICI. Mr. President, I rise today to discuss three interrelated aspects of our country’s security at the brink of the new millennium. There has already been discussion of NATO in this new world. We have also intermittently discussed the war in the region of Kosovo.

It’s important to reflect on NATO’s mission under changed circumstances. It is critical to address the U.S. role as part of NATO. At the same time, we must also talk globally, and we must be vigilant in safeguarding our security and defense capabilities.

In April we celebrated NATO’s 50th Anniversary. Despite the circumstances, we had good reason to celebrate. As I discuss the War of World War I and II, U.S. decision makers sought to construct European structures for integration, peace, and security. U.S. policy focused on two tracks: the Marshall Plan for economic reconstruction and NATO for transatlantic security cooperation.

The creation of the North Atlantic Treaty Organization in 1949 acknowledged what we failed to admit after World War I. Europe was and is a precarious continent. Twice in the first fifty years of this century America fought against tyrannical and malevolent forces in Europe.

It is important to remember that NATO did not begin as a response to the Warsaw Pact. This primary objective of the Monroe Doctrine result of Stalinist expansion into Central Europe.

Fifty years later NATO remains the strategic link between the Old World and the New. NATO achieved its Cold War mission and even now, in a changed era and very different world, NATO is a vital element of transatlantic cooperation and security.

We must, however, be conscious and careful in applying the lessons of the past to current circumstances. None of what I’ve just talked about should be interpreted as an argument for current NATO action in the region of Yugoslavia, Albania, Macedonia, and Montenegro.

The Administration repeatedly suggests that violence in the Balkans ignited the First World War. This is true. A member of the Black Hand, A Serbian nationalist group, assassinated Archduke Franz Ferdinand. Serbia, at that time was a small nation fighting for freedom within a crumbling Austrian-Hungarian Empire.

Due to Russia’s alliance with Serbia and Germany’s open-ended military pact with Austria, both Germany and Russia mobilized immediately. Other than a few neutral countries—Norway, Sweden, Italy, Switzerland, and Spain—other nations were locked in polarized blocs that set the Triple Alliance against the Triple Entente.

Such polarized blocks do not exist today. Serbia’s aggression against Kosovar Albanians can and has created regional instability. But this would not lead to World War Three.

This is not 1914. Only one alliance dominates Europe—NATO. NATO can be used as a force for peace. Acting without regard to security perceptions outside of NATO, however, can lead us down a very different and dangerous path.

Our current actions disregarded others’ views of their own security. Our actions in Kosovo may yet unravel any gains we were on a path toward arms reductions and cooperative security alliances since the Soviet Union collapsed.

Furthermore, NATO’s response in Kosovo has accelerated and exacerbated regional instability. We’ve managed our own crisis, while not achieving any of our military objectives. Of course, any rational person could see that an air campaign from 20,000 feet would not prevent executions, rapes, and purges on the ground. This is especially true given the five months of time we gave President Milosevic to plan, prepare, and position his forces.

One relevant aspect of today’s world that the Administration failed to mention in their arguments for involvement in this campaign is the impact this would have on U.S.-Russian relations. We have a tendency to believe that Russia is so weak and needs our money so bad that we can disregard their views or interests.

I ask you to consider two key facts: as Russia’s conventional military declines, reliance on their nuclear arsenal increases; global stability cannot be achieved without cooperation between the U.S. and Russia.

The reciprocal unilateral withdrawal of thousands of tactical nuclear warheads between the U.S. and Russia may also be reversed. Russia has recently announced its intent to redeploy components of its tactical nuclear arsenal. We would lose through arms reduction and steps toward increased transparency to addressing tactical weapons. These gains are steadily unraveling.

The Administration never suggested that NATO strikes against Serbia may lead to a worst-case scenario over the next five years in Russian politics. Russia faces Parliamentary elections this year and a Presidential election next year.

According to one of the most pro-American Duma members, the U.S. Administration picked the best route to influence the upcoming elections in favor of Communist and ultra-nationalist parties. In Russia, 90 percent of the public support the Serbs and are against NATO.

We shall Plan for economic reconstruction I and II, U.S. decision makers sought to celebrate. After the horrors of World War II, we’ve sought to avoid World War Three. Europe was and is a prelude to our national security in the years since the Cold War.

We feel we’re in the right, because we are fighting a tyrant, one capable of great evil. I don’t disagree with the objectives sought, but I do believe that the Administration should have taken into account the possible political consequences of our actions on Russia’s political future, as well as our future relationship with Russia.

There are those who suggest that NATO must be victorious in the Kosovo conflict. Victory in Kosovo is short-term if we do not sort out the broader consequences of a victory dictated on NATO’s terms.

Russia is edging closer to China, and India. Our blunt disregard of other’s security needs and perceptions may culminate in a Eurasian bloc allied against us—against NATO. And election campaigns in Russia will begin very soon.

As European leaders converged to celebrate NATO’s 50th birthday, they spent much time debating and deliberating on NATO’s future. NATO’s present reflects poor policy decisions and an ineffective military approach.

Mr. President, I’d also like to take this opportunity to discuss the grievous situation of our military today. Recent actions in Kosovo underscore the self-inflicted damage we have done to our national security in the years since the Cold War.

I was one of many Senators during the 1980s who supported seeing our nation’s defenses bolstered in order to bring the Soviet Union to its knees. We defeated them—not through hot war—but by demonstrating the unparalleled power of American democracy and free market dominance over a command economy.

The collapse of the Soviet state was inevitable, but it would have taken a lot longer without the catalyst of our rapid defense buildup. This charge greatly accelerated the breakdown in the Soviet Union’s economy. Their political and economic institutions unraveled in light of America’s clear superiority.

In 1991, after years of focus on a strong defense, when the Iraqis occupied Kuwait, U.S. forces were able to demonstrate their dominance. The U.S. military liberated Kuwait in a short, decisive campaign. The Gulf war was a
May 27, 1999

CONGRESSIONAL RECORD—SENATE 11347

The Defense Authorization bill before us takes additional steps in the right direction. I commend Senator Warner and his staff, and the hand work they’ve done to balance priorities and provide for our men and women in uniform.

Let me briefly outline some major provisions of this bill that I consider important and appropriate to address some of our military’s most pressing needs.

As an additional boost to problems in readiness, this bill authorizes an additional $1.2 billion in operations and maintenance funding.

The bill also includes over $740 million for DoD and Department of Energy (DoE) programs that provide assistance to Russia and other states of the former Soviet Union. These programs address the most prevalent proliferation threat in the world today.

The $3.4 billion increase in military construction and family housing is an essential element of providing our armed forces with the quality of life they deserve. In addition, pay raises and improved retirement plans demonstrate our commitment to the people who serve in our military.

I do not believe that increased pay and better retirement address the full spectrum of issues that feed into retention problems. The preliminary findings of a GAO study requested by myself and Senator STEVENS indicate that the main problem is not pay, but rather working conditions. Lack of spare parts and deficient manning were the most frequent reasons offered for dissatisfaction with their current situation.

These are important findings, because it’s something we can address. As much as we would like to light a firework, we can do a better job in fixing the problems that currently contribute to recruitment and retention. We must pay close attention to these issues. The men and women serving in our military are the sole assurance of a strong, capable U.S. defense capability.

A strong defense must be coupled with a consistent set of foreign policy objectives that strive to reduce or contain security threats. At present, we have neither. Mr. President, it seems we must focus on shifting the balance back in our favor. This cannot be done ad hoc. Securing U.S. interests requires sustained commitment and well-planned execution. First, we must provide the domestic means for strong, capable armed forces. Second, we must be calculated and careful in the application of force as a fix to failed diplomacy.

Mr. DODD. Mr. President, I rise to state my views on the Fiscal Year 2000 Defense Authorization bill. First, I congratulate the Chairman, Senator WARNER, and the Ranking Member, Senator LEVIN, for their work on this bill. Together they helped move this bill through the Senate in record time. The broad support for this bill provides a promising beginning to Senator Warner’s tenure as Chairman of the committee, and it is a tribute to Senator LEVIN’s ability to work with members from both parties on matters of national defense.

This bill provides an increase in defense spending that will maintain this nation’s superpower status as we enter the 21st Century. As always, this defense bill relies heavily on Connecticut—the Provisions State. In procurement and modernization, Blackhawk helicopters, Comanche helicopters, the F-22 program, the Joint Strike Fighter program, Joint STARS aircraft, and submarine programs were all funded at or above the President’s request. For our military personnel, this bill authorizes much deserved pay and pension increases. Other important programs that this bill funds include: military construction, cooperative threat reduction and ballistic missile defense.

I commend the Senate Armed Services Committee for increasing the number of H-60 helicopters requested in this bill from 21 to 33. The Committee added nine UH-60L Blackhawk helicopters for a total of 15 that will begin to fill the Guard’s requirement for 90 Blackhaws. I feel strongly that it is important to fill this requirement, especially as we continue to call up our Guard and Reserve forces to serve in the Balkans. Those forces deserve to have the most modern equipment that this country can provide. The Committee also added three CH-60 helicopters, the Navy version of the Blackhawk. The CH-60 will replace several models of the Navy’s helicopter fleet and will perform all the missions for which those models were responsible.

The committee gave a vote of confidence to the Comanche helicopter program by adding over $56 million in research and development funding to the Administration’s request. Likewise, it supported the purchase of a fifteenth Joint STARS aircraft. Those aircraft are performing magnificently in the Balkans, and I feel that this nation should continue to build these aircraft until the Air Force has the 19 aircraft it needs.

The guided missile submarine concept received a boost by this committee in the form of $13 million in needed research and development funding. The concept proposes converting Trident submarines into guided-missile submarines which would be capable of launching more tomahawk missiles than any ship afloat today. As important as the funding authorization was the provision the committee included in the bill to reduce the lower threshold of our Trident submarine force. That action will allow the Navy to reduce the number of Trident submarines from 18 to 14, an adjustment to
the fleet that the Chief of Naval Operations has requested. By including the provision, the committee surmounted an obstacle to implementing the submarine concept and saved taxpayers billions of dollars which would have gone towards upgrading Trident missiles.

This bill authorizes important increases in military pay and pensions that this nation’s servicemen and servicewomen deserve. I note that this bill not only calls for more pay and higher pensions, but it also identifies how this nation will pay for those important increases. Furthermore, through the regular hearings with Defense Department officials over the last few months, the Department has had ample opportunity to air its views with respect to provisions of this bill that address pay and pensions. I am proud to support these provisions.

As for the prospect of additional military base closures, a minority of the Senate once again sought to mandate another Base Realignment and Closure round in 2001. I opposed that amendment for a few reasons. Even after a Defense Department report and a General Accounting Office report, there is no clear accounting of how much this nation saves from base closure rounds. Furthermore, the long-term environmental clean up costs are virtually impossible to estimate. I think that before we put communities across the country through the wrenching experience of another base closure round, we must better understand the costs and benefits of another round. Finally, I want to remind my colleagues that some of the bases ordered to be closed under previous rounds have yet to be closed. Of those that have been closed, some have not yet been turned over to the surrounding communities. I would like to know the full impact of the previous rounds, and I will not put communities in my state at risk by rushing into another round without being absolutely certain that this nation is ready.

The Senate wisely voted to table an amendment offered by Senator Specter which would have sent a dangerous signal to Slobodan Milosevic that the United States is not committed to ending his horrific campaign of genocide. As we debate these issues, we must be cognizant of the fact that our men and women in uniform are risking their lives in the Balkans. They deserve to know that our Nation’s leaders, including the Senate, stand firmly behind them. An amendment which limits our Commander-in-Chief’s ability to act sends exactly the opposite message. It tells every soldier, sailor and airman and woman that the United States Senate is waiving in our support for their efforts and sacrifices. That is a statement we must never send.

Similarly, we must remember that there are innocent men, women and children, desperately looking to the United States and NATO for relief from Slobodan Milosevic’s hateful campaign of terror. The Specter amendment would have likewise sent a signal to the 1.4 million ethnic-Albanians who have been displaced from their homes that we were waivering at the moment they needed us most.

As we debate these issues, we must be mindful of the United States role as a world leader and the degree to which our NATO allies look to us for guidance. The Specter amendment would have precluded the President and our military from effectively responding to urgent military requirements and putting an end to Slobodan Milosevic’s murderous campaign as expeditiously as possible. It would also have precluded the United States from taking the lead in an important potential avenue to bringing a lasting peace to the Balkans.

In closing, I again commend the managers of this bill for their efforts. This legislation is a fitting tribute to our soldiers, sailors, airmen and marines who protect this Nation’s freedom and liberty. It comes at an appropriate time—just before Memorial Day when we will honor the sacrifices that the members of our armed forces have made.

Mr. McCain. Mr. President, as my colleagues in the Senate know, I make a point of going through spending bills very carefully and compiling lists of programs added at the request of individual members that were not included in the Defense Department’s budget request. I should state at the outset that I believe Chairman Warner and Senator Levin, the ranking member, should be commended for their efforts at producing a bill that addresses a number of spending problems. As American pilots continue to fly missions over Yugoslavia and Iraq while maintaining commitments in virtually every part of the globe, the care and maintenance of the armed forces cannot be taken for granted. What on earth does someone logical need to accumulate grenade stockpiled these things out of some psychological need to accumulate grenade launchers as a substitute for balls of string. What on earth does someone think the Marines are doing with its automatic grenade launchers that compels this body to repeatedly add them to the budget? How do we justify continuing to allocate significant amounts of money for a program that the Corps does not even include on its unfunded priority list?

Every single year we add funding—this year, $15 million—for the NULKA anti-ship missile decoy system. An Israeli destroyer during the Six Day War, a British destroyer during the battle for the Falklands, and the USS Stark incident are all testimony to the threat of anti-ship missiles. That only one U.S. ship has been so targeted since World War II, however, and under rather unique circumstances at that, makes greasy to understand why we spend so much money every year for decoys.

I have been critical in the past about earmarking funds for the National Automotive Center, an old member-created entity that has taken on a life of its own. The bill includes $6.5 million for development of a Smart Truck, with half of the money earmarked for the National Automotive Center. Presumably, this will be a really smart truck inasmuch as it is taking us for over $18 million. I hope it will be able to change its own oil.
Byzantine budgeting. Incrementally funding the entire military construction program was not something’s better idea and the committee’s rejection of that proposal. I must condemn, however, that same committee’s decision to add $923 million in projects not requested by the services. A new $3.6 million C-17 simulator building at Jackson Airport; a new $5.8 million C-130J simulator building at Keesler Air Force Base; a new $6 million visiting officers’ quarters at Niagara Falls; $17 million to replace family housing at the Marine Corps Air Station at Yuma; and an addition of $10 million for a new education center and library at Ellsworth are just a few of the items added to the budget by members for parochial reasons.

Let me note at this junction that many of these projects may very well be meritorious upon further review. For example, I know there is a dire need for new family housing at the Marine base in Yuma, Arizona. But is that need greater than exists at some other base? The method by which that project was added does not allow for the kind of comparative analysis that should be an integral part of the process by which these budgets are drafted.

Of particular interest is the $241 million for ammunition demilitarization facilities, none of which was requested by the military. I recognize the legitimate need to expeditiously dismantle aging chemical weapons and deal with the environmental contamination resulting from their construction and storage over many years. My concern lies in the perpetually uncertain environment in which spending bills are prepared. Are each of these facilities necessary, and does each one need to be funded during a fiscal year for which funding was not requested? Chemical demilitarization has been an important priority for the Armed Services Committee, but the case has not been made that these programs had to be added to this bill.

Mr. President, it may make light of some of these programs, but the issue is deadly serious. Our armed forces are stretched perilously thin as global commitments grow and operations like those in Kosovo and the continuing operation in Bosnia continue to take their devastating toll on our ability to remain prepared for the major regional contingencies that are inarguably tied to our vital national interests. Not every program on the list that I am submitting for the RECORD is impractical or worthy of ridicule. But to argue their worth individually and in a vacuum is to miss the point.

I do not include on these lists most programs related to defense against weapons of mass destruction, which generally give classified programs a free ride. The nature of the process, however, is such that a certain amount of skepticism is warranted. It is too much of a matter of routine practice that items are added for primarily parochial reasons under headings that sound logical and which are low or no priority for the services. As absolutely important as areas like chemical and biological defense are, it is equally important that funds allocated to deal with those threats are not wasted on programs added to the budget solely because a contractor convinced his or her senator that they deserve $2 million to investigate that program’s potential when other higher priority programs already exist to fulfill the requirement.

I have respected the unfunded priority lists this year because they provide the only roadmap as to where the services would allocate additional dollars if such funding were made available. It is far from a perfect process, but it is all we have. That there are still over $4 billion in member adds in this bill is testament to the indomitable will of members of this body to force projects into a strained defense budget in defiance of fiscal prudence and operational requirements. That is not intended as a compliment; it is simple acknowledgment that there is still ample room for improvement.

Finally, let me also note for the record my concerns regarding the amendment offered by Senator Lott to narrow the scope of the Pilot Program for Commercial Services. I believe the amendment will restrict the ability of the Secretary of Defense to explore all options for fair and reasonable procurement of transportation services. This will continue to artificially inflate the Defense Department’s transportation cost and will directly impact the findings of the program.

Mr. President, I ask unanimous consent that this list be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

**NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2000 MEMBER ADDITIONS, INCREASES & EARMARKS**

**Army Procurement**

- aircraft Procurement, Army (page 25):

Mr. WARNER. Mr. President. I thank the Honorable Chairman and myself, I wish to engage in a colloquy with the Honorable Chairman and Ranking Member of the Chemical Demilitarization Program to meet the obligations under the Chemical Weapons Convention. The future and success of the Chemical Demilitarization program will depend on that, the cooperative solution that we produce. This is a very challenging program for both the Army and the good people of the depot states. We acknowledge and appreciate all the hard work that has been done. I very much look forward to the completion of the chemical demilitarization project in Oregon.

Mr. BYRD. Mr. President, the United States is engaged in a dangerous air war against Yugoslavia. More than 30,000 members of the U.S. military have been deployed to the Balkans to prosecute this campaign. While we read the latest news from the front every morning in the comfort of our homes and offices, American men and women in uniform are living the harrowing details day in and day out. It is fitting that the Senate, in the midst of this conflict, enact without delay the National Defense Authorization Bill. This bill, which includes a significant pay raise for the military as well as a healthy increase in funding intended to improve military readiness—sends a strong signal of support to the men and women of the United States military, and to their families.

I commend Senator WARNER, the new and capable Chairman of the Senate Armed Services Committee, and Senator WYDEN, the able ranking minority member, for their leadership in producing an excellent bill. This legislation bears testament to the skills and willingness of both of these distinguished Senators to craft meaningful policy decisions in the context of bipartisanship.

Earlier this week, the Senate Appropriations Committee, of which I am the ranking member, approved a Defense Appropriations Bill for Fiscal Year 2000 that includes a healthy increase in defense funding, including a significant pay raise for the military as well as a healthy increase in funding intended to improve military readiness. This bill, which includes a significant pay raise for the military as well as a healthy increase in funding intended to improve military readiness—sends a strong signal of support to the men and women of the United States military, and to their families.

While the air war over Yugoslavia is on the front pages of the newspapers every day, we must never forget that behind the headlines, scores of other U.S. forces are engaged in difficult, and often dangerous, missions around the globe. From the peacekeeping patrols in Bosnia to the dangerous skies over Iraq to the tense border between North and South Korea, U.S. military personnel face the potential peril of combat every day. Resources have been stretched thin while operating tempo is constantly being accelerated. These are difficult times for the military, and I salute the dedication of the
men and women who serve their nation so diligently. These are the individuals who stake their very lives on the policies that we debate here in the Senate. These are the individuals to whom we must dedicate our best legislative efforts.

Mr. President, this bill delivers the goods. It includes a 4.8 percent pay raise for the military, and it restores full retirement benefits to service members. It adds more than $1.2 billion to the nuts-and-bolts readiness accounts—base operations, infrastructure repairs, training, and ammunition—that are so vitally needed to improve the long term readiness of the armed forces. It funds the purchase of essential equipment and weapons systems. And, through the efforts of the newly established and forward looking Emerging Threats and Capabilities Subcommittee, on which I am pleased to serve, it invests in programs to combat the ever increasing threat to the United States of terrorist attack, information warfare, and chemical and biological weapons.

Mr. President, we cannot put a price on the sacrifices and contributions of our military, but we can make sure that the best fighting forces in the world have the necessary tools of their trade. That is the purpose of this bill. We are sending a message to the troops that we have heard their concerns and we have responded to them. I urge the Senate to move quickly to pass this legislation.

I yield the floor.

Mr. Hatch. Mr. President, when Congress enacted the BRAC legislation, it left little doubt that the local community was intended to be the prime beneficiary of surplus facilities. Agency rules and procedures were designed and created to determine the best use of the facilities deemed surplus by BRAC. In many cases, it has been determined that local school districts are the best recipient for use of these facilities.

Unfortunately, local school districts and other public education entities today face a barrier in acquiring the surplus facility. This barrier is a highly punitive fee established by the Department of Education that actually discourages local education entities from acquiring surplus defense facilities.

ED has determined that certain non-instructional uses of these facilities, such as the vaguely defined “research, disqualify the district for a 100 percent exemption from the costs of acquiring the surplus facility. Similarly, ED has determined that certain other uses of these facilities, such as storage, even if directly related to instruction, warrant payment of a fee.

For example, if a school district wants to use 70% of a facility for instructional purposes and 30% for storage of related supplies, this district could be charged upwards of $300,000.

Additionally, the President, I find it somewhat ironic that, when the President’s own education agenda calls for another federal program and more federal funding to provide school construction funds, the Clinton administration’s Department of Education has concocted this schedule of fees to charge local school districts which wish to use surplus military property.

I know that in my state of Utah, we have a great need for additional facilities, for instance, Ogden-Weber School District which was granted eligibility by the Ogden LRA to acquire a DDO warehouse. The District applied for a public benefit allowance (“PBA”) to the Department of Education (“ED”) under the Federal Property and Administrative Services Act (40 U.S.C. 484(k)(1)(A)); in applying 34 CFR 12.15, ED allotted a 70 percent PBA, whereas the installation and the surrounding community was intended to be the prime beneficiary of surplused facilities.

Unfortunately, local school districts such as Ogden-Weber will be disqualifying the district for a 100 percent exemption from the costs of acquiring the facility when the surplus defense facility is used for instructional purposes, since the Department of Education has a role in carrying out the President’s decision.

Mr. WARNER. I agree with my good friend from Utah that BRAC procedures should produce reasonable opportunities for communities to turn facilities into productive use. I believe the Defense Base Closure and Realignment Act of 1990 provision does that, by allowing a cost-free transfer for economic development. I don’t believe anything in the provision’s language cases an obstacle to what the Senator from Utah wishes to accomplish.

Mr. Hatch. The problem with the language is that it’s too vague. For the past two years, I have asked OSD, the Army General Counsel, and the real estate advisor at the Department of Education to tell me how a local school district could benefit from the President’s proposal that is in this provision of the bill. They could not explain it to me. I ask unanimous consent to place in the Record a copy of my letter to the Army General Counsel.

There being no objection, the letter was ordered to be printed in the Record, as follows:

Mr. Earl Stockdale,
Office of General Counsel, Department of the Army, Washington, DC.

Dear Mr. Stockdale: Your assistance is requested in clarifying the intent of the President’s recent request to amend the Defense Base Closure and Realignment Act of 1990 (P.L. 101-113, 10 U.S.C. 2677 note) as it relates to the Ogden-Weber School District (“District”) for a warehouse facility on the former Defense Depot Ogden [‘‘DDO’’], a Utah military installation closed under a prior BRAC action.

In amending sec. 2005(b)(4), the President would ‘‘authorize the Secretary of Defense to transfer property to the local redevelopment authorities, without charging the LRA the full or partial amounts of the current or anticipated costs of the property to reinvest in the economic redevelopment of the installation and the surrounding community.‘‘ The change does not appear to remove the LRA’s decisional authority from compiling a reuse plan, among other statements by which DOD overseas and approves the actions of the LRA.

My interest in this matter extends to the Ogden-Weber School District which was granted eligibility by the Ogden LRA to acquire a DDO warehouse. The District applied for a public benefit allowance (“PBA”) to the Department of Education (“ED”) under the Federal Property and Administrative Services Act (40 U.S.C. 484(k)(1)(A)); in applying 34 CFR 12.15, ED allotted a 70 percent PBA, whereas the installation and the surrounding community was intended to be the prime beneficiary of surplused facilities.

The principal use of the facility was clearly educational in nature but involved a complex vocational program to train automated material handling equipment operators. This function required shelving, bins, conveyors, and warehouse vehicles that consumed great amounts of space.

My question, therefore, is twofold. First, can the District make an application for an educational PBA, with a second PBA sought under the economic development category for the balance of the space that did not qualify for the education PBA? Second, whether the split filing procedure is allowable or not, will the application for the PBA under the economic development category, for whole or for part of the installation, remain with the Secretary of the Army or does the LRA make that determination with final approval authority resting with the Secretary of the Army?

I look forward to your reply at the earliest possible time so that I may advise the District accordingly.

Sincerely,

Orrin G. Hatch.
May 27, 1999

because the community has already been hit by an economically devast-

Mr. WARNER. Mr. President, I ask for the third reading of this historic bill.

The PRESIDING OFFICER. The clerk will conduct a third reading.

The bill (S. 1059) was read the third time.

Mr. WARNER. Mr. President, I urge my colleagues to support this historic piece of legislation. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. All time has been yielded back. The question is, Shall the bill pass?

The clerk will call the roll.

The legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from Florida (Mr. MACK) and the Senator from Indiana (Mr. LUGAR) are necessarily absent.

Mr. REID. I announce that the Senator from South Carolina (Mr. HOL-

LINGS), the Senator from New Jersey (Mr. LAUTENBERG) and the Senator from New York (Mr. MOYNIHAN) are necessarily absent.

I further announce that, if present and voting, the Senator from New York (Mr. MOYNIHAN), would vote "aye."

The result was announced—yeas 92, nays 3, as follows:

The bill (S. 1059) as amended, was passed.

Mr. ROBERTS. Mr. President, I move to reconsider the vote by which the bill was passed.
the Year, Mississippi’s Economic Development Outstanding Volunteer of the Year, Goodwill’s Outstanding Volunteer, and he received the Hope Award from Mississippi’s Multiple Sclerosis Chapter. It is clear that he has given his time and energy to all facets of Mississippi.

Mr. Melness is a family man caring for four generations of his relatives. He is devoted to Patricia Stone, his high school sweetheart and wife for 42 years. He also cares for his 90-year-old father. His sons, Christopher and Charles, have truly made him proud, and his two granddaughters, Hannah and Mallory light up his life. He is also an active member of Christ United Methodist Church.

I must not forget to mention that Don, a Hazlehurst native, my friend. I respect his patriotism and dedication to Mississippi. He is a true southern gentleman, and he will be missed. I wish Don and Pat the best as they pursue a well-earned retirement.

HONORING SOUTH DAKOTA’S SMALL BUSINESSMAN OF THE YEAR

Mr. DASCHLE. Mr. President, the values and spirit that helped early settlers thrive and prosper in the harsh conditions of life on the prairie are alive and well today in South Dakota. Yesterday, I had the opportunity to meet someone who embodies many of the values and ideals that the great state of South Dakota was built upon.

Phillip Clark, owner and President of Hansen Manufacturing Corporation of Sioux Falls, is one of 53 persons honored as part of its celebration of National Small Business Week. Over the past two decades, Phil has guided his company through a variety of complex challenges and built a thriving business. In the process, he has made an important contribution to our state, and to the city of Sioux Falls.

As a manufacturer of conveyor belt assemblies, Phil invented an enclosed belt conveyor system. Anyone who has worked in or around a grain elevator knows the importance of minimizing dust; it is one of the most important safety steps that can be taken to prevent fires and explosions. This enclosed belt system has helped a number of grain facilities improve the safety of their operations, and dramatically changed the way that grain and other bulk materials are moved.

Phil was able to develop this system because he listened to what his customers wanted, and he acted to fill that need. It is a basic lesson that every successful business owner must know: listen to your customer.

While Phil has maintained a clear focus on his company’s future, he has also taken the steps necessary to position his company to deal with current business conditions. As a manufacturer of conveyor belt systems, Hansen Manufacturing derives much of its business from grain elevators, feed manufacturers, and other companies that process agricultural goods and other bulk materials. Because of the continued crisis in our agricultural markets, many of these companies have faced extremely difficult business conditions over the past few years, resulting in equally difficult times for their suppliers. Furthermore, domestic weakness has been compounded by weakness in foreign markets, which have become increasingly important for Hansen Manufacturing.

While short-term business conditions have been challenging, Phil has been able to successfully grow his business while making critical investments in new product lines. His successful stewardship of Hansen Manufacturing serves as an example to all small business people in South Dakota. I commend the Small Business Administration for recognizing his outstanding work.

In South Dakota, almost all businesses are small businesses, and that’s true nationwide. But in South Dakota, small businesses are big business. I thank the Small Business Administration for its work with business owners such as Phil Clark, and I congratulate Phil for his hard work and his outstanding contributions to his community and state.

THE VERY BAD DEBT BOXSCORE

Mr. HELMS. Mr. President, at the close of business yesterday, Wednesday, May 26, 1999, the federal debt stood at $5,602,150,880,893.50 (Five trillion, six hundred two billion, one hundred fifty million, eight hundred eighty dollars and ninety-three cents).

One year ago, May 26, 1998, the federal debt stood at $5,506,917,000,000 (Five trillion, five hundred sixty million, nine hundred seventeen million). Five years ago, May 26, 1994, the federal debt stood at $4,596,085,000,000 (Four trillion, five hundred ninety-six billion, eight hundred eighty-five million). Ten years ago, May 26, 1989, the federal debt stood at $2,779,342,000,000 (Two trillion, seven hundred seventy-nine billion, three hundred forty-two million). Twenty years ago, May 26, 1979, the federal debt stood at $1,380,880,000,000 (One trillion, three hundred eighty billion, eight hundred eighty million). Thirty years ago, May 26, 1969, the federal debt stood at $800,000,000,000 (Eight hundred billion dollars).

Parents Are the Only Answer to Teens’ Problems

I’m sure all of those who are reading this paper have heard of the recent Columbine High School shooting incident in which two students walked into the school and started a massacre that left 15 people dead. My heart goes out to those families and their loss. Upon hearing about this incident, I found myself very disturbed. How could two seemingly “normal” high school students (I use the term loosely because there is really no such thing as a normal high school student) be capable of doing something like this? I listened to television reports about what might have caused this incident. The two that seemed to be most stressed were harassment from peers and guns. It seemed as though the combination of those two automatically justifies a killing spree.

First, let’s think about the issue of harassment from peers. Every day I go to school,
and I am judged. So is everybody else around me. I understand the burdens and biases of insults, and they still keep coming. And I know many people around me have it worse than I do, especially my school’s own group of trench coat-wearers, commonly referred to as “Goths.” To admit there are firearms in my household: I’m even proud of it. I’m not especially popular, and I could easily find out how to make bombs on the Internet. I’m sure many of the “Goths” at my school have access to the same materials. Given this information, I think that it’s time for my school to talk to parents about a homicidal rampage, don’t you think? I don’t think so! Just because people are harass- ed doesn’t justify a killing.

In the real world, people are harassed all the time. I think it’s just life. There are mean people out there. Live with it. The killers at Columbine High School were lack- ing something in their personalities to do something like this. That is self-control, self-esteem and an understanding of the value of life. I think this has less to do with harassment, with the kills themselves. If the killers had better values, this never would have happened.

Maybe firearms are to blame? I’m sure many of you are thinking that immediately. For this incident, a series of gun-control laws were proposed, including a proposal to raise the age limit to own a handgun from 18 to 21. Do people really think that if the handgun age limit was higher, this incident would have never happened? I hate to say it, but welcome to politics. In the words of the late, great Bill Clinton, “It happens the same way that immediately after a major tragic event, all the people just have to think it does. So what happens? Well, they scream, “Guns are the problem!” and we all lose more rights.

The truth is, if somebody wants to kill someone with a firearm laws banning guns aren’t going to stop them. A lot of guns used in robberies and murders are stolen. Well, if we got rid of the runs in the world, then we would have a solution, right? Nope, people would use other homemade weapons, bombs, knives, etc.

A gun is a tool, not a weapon. It is a tool for hunting, recreation and protection. It can be a historical piece. It can be a keep- sake, it can represent something. Guns are not to blame for the Columbine High School incident.

By now you might be asking yourself what is to blame. Unfortunately, it’s a problem not many people want to face. It starts at the home. It starts with a lack of discipline, a lack of love, and a lack of values. I’m sure that if the parents of the boys involved in this shooting incident has been more in- volved with their kids, this incident would have never occurred.

The parents are not completely to blame. Today’s violent televised society illustrates this violence as a normal everyday thing. This makes it difficult to draw the line be- tween real and on-screen violence. These things added together, resulted in the final problem: The boys responsible for this shooting. In the end, it is they who are responsible.

So, what needs to be done to prevent another tragedy like this one? To all the parents who are reading this talk to your kids! Even though you may not want to and your kids may not want to talk to you, just their knowing you’re willing to talk often helps. Spend time with them, draw them to activities that keep them busy and feeling happy. Even if the target shooting! If parents teach their kids how to use and respect a firearm, they’ll be less likely to abuse it than if their parents avoid telling them about guns.

Other things you can do include compli- menting people instead of insulting them, al- ways remembering that you are important, having good friends, and reporting to autho- rities if anyone you know makes dan- gerous threats against you or anyone else. By doing this we might be able to prevent another incident like the one that occurred at Columbine High School. I hope that every- one reading this will pray for the families af- fected by the shooting and take my advice to heart.

RECOGNITION OF SERVICE TO THE SENATE

Mr. DOMENICI. Mr. President, it is with some sadness but also with some pride today to recognize Austin Smythe—a longstanding and highly respected member of the Senate Budget Com- mittee staff. After nearly 15 years of service to the Senate and the Congress, Austin will begin employment in the private sector at the end of this week.

Who knows Austin in this Chamber, know he is a Senator’s dream staffer. Austin is dedicated, loyal, in- telligent, and above all else possessing integrity beyond reproach. He came to the Senate Budget Committee in De- cember 1983, as the committee’s energy budget expert. Over the years, he gradually took on more responsibilities to where today, as he leaves the Sen- ate, he is my staff director’s right-hand man on issues relating to the budget act, process reform issues, and the often arcane world of budget score keeping.

He has been instrumental in the pas- sage of many a budget resolution and reconciliation bills over these last many years. He has also taken the lead on helping to reform the process by his work on the Federal Credit Reform Act of 1990, the Unfunded Mandates Control Act of 1985, and the Line Item Veto Act of 1996. What unfortunately was ruled unconstitutional. He has been my key budget committee staffer on my quest to get Congress to change its appro- priation and budget process into a bi- ennial system—that work, I promise you Austin, will continue.

Along the way, Austin was able to find the time to get married and start a family. It is his wife, Katie, and his two young girls that have borne the real burden of Austin’s dedicated serv- ice to the Senate and his country.

The American public is unaware of the role staff play in helping us elected officials “to do the right thing.” Some- times even with good staff, we get it wrong, and of course, when it doesn’t come out right we blame our staff. But if the legislation advances public pol- icy in an affirmative way, we take the credit for it. In truth, of course, it is to staff like Austin Smythe, who work under very difficult circum- stances, long hours, and sleep- less nights, that we—and indeed the country—all owe a tremendous debt of gratitude. For without Austin’s dedica- tion, and staff like him, the things we have gotten right would never have happened.

I wish Austin and his family the best. And on behalf of all the Budget Com- mittee members, the committee staff, and indeed the entire Senate, thank you Austin for a job well done. We all will miss you.

KIDNAPPING OF SENATOR CORDOBA IN COLOMBIA

Mr. KENNEDY. Mr. President, I rise today to express my deep concern over the kidnapping of Colombian Senator Piedad Córdoba de Castro. Senator Córdoba was abducted on May 21 by paramilitary forces under the command of Carlos Castaño. I urge the Government of Colombia to take all appropriate measures to obtain her safe release and to bring those respon- sible for this kidnapping to justice.

Senator Córdoba, as President of the Colombian Senate’s Human Rights Commission, is a strong voice in Co- lombia for the promotion of human rights. She has also been a leader in ef- forts to bring peace to Colombia after fifty years of political violence. Sen- ator Córdoba’s role as a leading advo- cate of human rights and peace makes this crime particularly shocking.

UN Secretary-General Kofi Annan has also condemned the kidnapping of Senator Córdoba and has urged the Co- lombian authorities to do everything possible to obtain her release. Secre- tary-General Annan called Senator Córdoba “a firm supporter of peace” who had “performed invaluable work towards the achievement of funda- mental rights and freedom”.

It is extremely disturbing to see that paramilitary forces and guerrilla groups involved in Colombia’s internal conflict continue to resort to kidnap- ping and terror as means of political pressure. This violent action against a promi- nent human rights advocate empha- sizes the importance of the efforts of President Pastrana to eliminate all links between the Colombian Govern- ment and the paramilitaries.

I urge the Government of Colombia to take all necessary and appropriate measures to break these links, obtain Senator Córdoba’s release, and bring to justice those responsible for her kidnap- ping.
COSPONSORSHIP OF THE MOTOR VEHICLE RENTAL FAIRNESS ACT

Mr. McCAIN. Mr. President, yesterday, I introduced two bills, S. 1130, the Motor Vehicle Rental Fairness Act and S. 1125, the Telecommunications Merger Review Act of 1999. Later in the day, I asked that Senator CONNIE MACK be added as an original cosponsor to the Motor Vehicle Rental Fairness Act. Despite the fact that my request specifically stated “the Motor Vehicle Rental Fairness Act”, the Bill Clerk’s office inadvertently added Senator Mack as a cosponsor to the Telecommunications Merger Review Act. It is my understanding that this error has been corrected. I want the record to reflect that Senator Mack was an original Cosponsor of the Motor Vehicle Rental Fairness Act.

“SHALL ISSUE” LAWS

Mr. LEVIN. Mr. President, I rise today to discuss concealed weapons laws. Currently, in Michigan, if a person wants to obtain a permit for a concealed weapon, he or she must apply at the local county gun board. Each one of these gun boards is made up of three members: the local sheriff, county prosecutor and a designee of the state police. The gun boards base their decisions on a person’s demonstrated need for a gun, and that person’s criminal record, if any, and on local conditions. Local decisionmaking makes sense. Local law enforcement officials know the local environment, local citizens, and can best assess the local impact of increasing the numbers of weapons carried in public. Last night, the Michigan State Senate passed a bill that, if signed into law, would take discretion away from the gun boards and put more weapons on our streets and in public places. In my view, eliminating the authority of local gun boards would be detrimental to public safety in Michigan and take us in the opposite direction than we are heading in Congress. More important than my opinions are the views of the law enforcement community in Michigan. Every major law enforcement agency in the state of Michigan including the State Police, Michigan Association of Chiefs of Police, Michigan Prosecuting Attorneys Association, Michigan Municipal League as well as many other organizations such as the Michigan Municipal League have made statements opposing this bill.

One of the bills that is now before a conference committee of the Michigan Legislature is referred to as a “shall issue” bill. The NRA has been lobbying Michigan legislators to support a “shall issue” policy. The legislation is called “shall issue” because it mandates that if a person passes an FBI Federal background check, the gun board “shall issue” him a permit to carry a concealed weapon, without requiring a show of need or the condition of other local circumstances.

This legislation goes in the wrong direction. It would increase the danger of gun violence in our communities. I have seen no evidence, that people who have a legitimate need to carry a gun for protection are being denied the ability to do so. The numbers demonstrate that the overwhelming majority of requests for concealed weapons permits are approved. It’s important for public safety that local gun boards continue to make such judgments.

Here in Congress, we are working hard to reduce the easy availability of lethal weapons to people who should not have them. I do not want to see my State go in the other direction by passing a law that encourages the spread of concealed weapons in public places.

Michigan is one in the few state targeted for these NRA-backed concealed weapons bills. Yet, despite the best efforts of the NRA, the “shall issue” policy has been rejected by a bipartisan group of legislators in more than 10 States. That’s because of the power of people in those States who united to demand action. Voters in the State of Missouri recently defeated a “shall issue” proposal much like the one in the Michigan Legislature. Missourians voted to keep in place prudent regulations for carrying concealed weapons—regulations that were first enacted in reaction to the days of Jesse James and the outlaw gangs.

I believe the majority of Michigan’s citizens feel the same way.

MEMORIAL DAY COMMEMORATION

Mr. SPECTER. Mr. President, in anticipation of the 50th anniversary of this coming Monday, I wish to honor the memories of the 1.1 million Americans who gave their lives in defense of America and American ideals. Americans have fought and died in various wars spanning over two centuries. Her fallen soldiers have left indelible marks on the annals of history in conflicts notable for the good attained over the evil vanquished: independence over monarchial tyranny; freedom over slavery; and democracy over fascism and communism. Indeed, in this century alone, American servicemen can be hailed for turning the tide of history’s two world wars. As we head towards the dawn of a new millennium, I ask my colleagues to join with me to give homage to America’s patriots, in deed as well as word.

I believe the best way to commemorate the spirit of those who gave their lives is to honor, respect, and care for the 26 million American veterans living today. As Chairman of the Committee on Veterans’ Affairs, I have striven to accomplish this goal through a number of legislative measures and processes. After a successful battle over the budget resolution, I and 52 of my Senate colleagues signed on to a letter urging the Appropriation’s Committee to strongly support the resolution’s recommendation of an additional $1.66 billion for veterans’ health care. This funding is vital to ensure that our nation’s veterans get the highest quality of health care available. I have also pushed for enactment of legislation which would increase veterans’ education benefits; allow for a Medicare Subvention demonstration project; require additional national cemeteries to be built in areas with high veteran populations; and ensure that construction of the World War II Memorial begins next year.

The Athenian leader Pericles had these words to say about those who lost their lives in the Peloponnesian War: “Not only are they commemorated by columns and inscriptions, but there dwells also an unwritten memorial of them, graven not on stone but in the hearts of men.” This Memorial Day, I challenge my colleagues to make a commitment to ensure the memory of these million Americans not only in our hearts, but in the legislation we enact for veterans and servicemen during the remainder of the 106th Congress.

ELECTION OF EUHOD BARAK AS PRIME MINISTER OF ISRAEL

Mr. DODD. Mr. President, I rise to congratulate Ehud Barak, on his victory in the recent Prime Ministerial election in Israel. Mr. Barak is a man of courage and a proven leader. He is eminently capable of leading our closest ally in the Middle East at this important juncture in its history. His re-election is a victory for the Israeli people’s strong desire for peace.

Not only was the election a victory for Mr. Barak, it was also a victory for Israeli democracy. Nearly four out of five Israeli citizens over the age of 18 cast ballots on May 17, 1999. That figure is even more astounding when you consider that Israelis—even those living overseas—are not permitted to cast absentee ballots. More than ten thousand Israelis purchased airline tickets and traveled great distances in order to exercise their right to vote. The Israeli people’s dedication to the most basic pillar of democracy is enviable, for if people fail to exercise their right to vote they quickly lose their voice.

This election also marked an important milestone. For the first time in Israeli history, an Arab campaigned for Prime Minister. Although Azmi Bishara withdrew from the race shortly before the election in order to boost the chances of Mr. Barak, he should be commended for his courage in running. While members of Israel’s Arab minority have long been represented in the Knesset—Israel’s parliament—Mr. Bishara’s campaign demonstrated that...
Arabs are welcome in all segments of Israel's political life.

Mr. Barak is not only a true son of Israel and a worthy leader of the only democracy in the Middle East. Born on a Kibbutz six years before Israel's independence, he has served his country well as its most decorated soldier, Chief of Staff of the Israeli Defense Forces, Member of the Knesset, Minister of the Interior and Foreign Minister.

After the polls closed on May 17th, when it was clear that he had been elected, Mr. Barak traveled to Rabin Square in the center of Tel Aviv. Standing just feet from the spot where an assassin’s bullet struck Prime Minister Yitzhak Rabin three and a half years ago, the Prime Minister-elect renewed his commitment to the Peace Process Prime Minister Rabin courageously began. It was a fitting tribute to Israel’s fallen leader.

Making peace is not an easy endeavor. Indeed, it is often more difficult to make peace than to wage war. As Prime Minister Rabin often said, one does not make peace with one’s enemies. One makes peace with one’s enemies. Barak, like Rabin, has proven himself a great general on the battlefield. Now he must prove himself worthy of the even more exalted title of peacemaker. I am confident that Ehud Barak will indeed earn that title, making Israel’s second fifty-years devoid of the wars which characterized its first fifty years.

Mr. President, the United States is one of Israel’s closest allies. Under the stewardship of Mr. Barak, I am confident that relationship will only grow stronger. I look forward to a close collaboration between our two nations on issues ranging from security to trade. Most importantly, however, is the struggle for peace in a region which has seen far too many wars.

MEMORIAL DAY OBSERVANCE

Mr. DORGAN. Mr. President, I received a very touching letter from a Vietnam Veteran from my state, who was recently awarded the Silver Star for his bravery during the Vietnam Conflict.

Helping Al Myers get that Silver Star and the recognition he deserved for so long was a very rewarding experience. Al sent me this letter. It is a fictional remembrance of a soldier who’s name is on the Vietnam Memorial.

The letter defines the importance of paying tribute to our nation’s honored soldiers who have fought for, won, and kept our freedom, whether that tribute comes in the form of our nation building a great “Black Granite Wall,” or simply a family member putting flowers on a beloved white tombstone at a veteran’s cemetery. It exemplifies the strength, dedication, and sacrifice of our nation’s military men and women, and their families. We are forever indebted to them, and it fills me with great pride and humility to honor those who have put their life on the line to protect and sacrifice to preserve our way of life as Americans.

I thought it was very important to read it in honor of the Memorial Day Observance on Monday. It touched my heart and made me want to share it here on the Floor today. It is called “The Wall from the Other Side.”

THE WALL FROM THE OTHER SIDE (Pat Camunes)

At first there was no place for us to go until someone put up that “Black Granite Wall.” Now, every day and night, my Brothers and Sisters wait to see the many people from places afar file in front of this “Wall.” Many people stopping briefly and many for hours and some that come on a regular basis. It was hard at first, not that it’s gotten any easier, but it seems that many of the attitudes towards Vietnam War we were involved in. It’s hard to believe that if the ones on the other side have learned something, and more “Walls” as this one, needn’t be。”

Several members of my unit, and many that I did not recognize, have called me to The Wall by touching my name engraved upon it. The tears aren’t necessary, but are hard even for me to hold back. Don’t feel guilty for not being with me, my Brothers. This was my destiny as it is yours to be on that side of The Wall. Touch The Wall, my Brothers, and you’ll see memories of the war that we had together. Touch our other Brothers out there to come and visit me, not to say Good-bye but to say Hello and be together again . . . even for a short time . . . and to ease that pain of loss that we all still share.

Today, an irressistible and loving call summons me to The Wall. As I approach, I can see an elderly lady . . . and as I get closer, I recognize her—It’s Momma! As much as I have looked forward to this day, I have also dreaded it, because I didn’t know what reaction I would have.

Next to her, I suddenly see my wife and immediately think how hard it must have been for her to come to this place, and my mind floods with the pleasant memories of 30 years past. There’s a young man in a military uniform standing with his arm around her—My God—he has to be my son! Look at him trying to be the man without a tear in his eye. I yearn to tell him how proud I am, seeing him stand tall, straight and proud in his uniform.

Momma comes closer and touches The Wall, and I feel the soft and gentle touch I had not felt in so many years. Dad has crossed to this side of The Wall, and through my tears I touch his hand that I feared Dad is doing fine and is no longer suffering or feeling pain. I see my wife’s courage building as she sees Momma touch The Wall and she approaches and looks at my name engraved in the Wall. I feel the pride in my voice and in my heart when she tells Dad that I am doing fine and is no longer suffering or feeling pain. I see my wife’s courage building as she sees Momma touch The Wall and she approaches and looks at my name engraved in the Wall. I feel the pride in my voice and in my heart when she tells Dad that I am doing fine and is no longer suffering or feeling pain. I see my wife’s courage building as she sees Momma touch The Wall and she approaches and looks at my name engraved in the Wall. I feel the pride in my voice and in my heart when she tells Dad that I am doing fine and is no longer suffering or feeling pain. I see my wife’s courage building as she sees Momma touch The Wall and she approaches and looks at my name engraved in the Wall. I feel the pride in my voice and in my heart when she tells Dad that I am doing fine and is no longer suffering or feeling pain. I see my wife’s courage building as she sees Momma touch The Wall and she approaches and looks at my name engraved in the Wall. I feel the pride in my voice and in my heart when she tells Dad that I am doing fine and is no longer suffering or feeling pain.

May 27, 1999

CONGRESSIONAL RECORD—SENATE

“His unparalleled action saved the lives of many, and the platoon who otherwise would have fallen to the sniper fire,” reads the official citation. “Private First Class Albanese’s extraordinary heroism and supreme dedication to his comrades was completely in keeping with the finest traditions of the military service and remain a tribute to himself, his unit, and the U.S. Army.” Lewis Albanese was 20 when killed.

Mexican-born immigrant Marcaro Garcia was acting squad leader of Company B (22nd Infantry) near Grossau, Germany during World War II. Garcia was wounded and in pain when he found his company pinned down by the heavy machine gun fire of Nazi troops and by an artillery and mortar barrage. Garcia crawled forward under fire to aid his wounded, then redeployed his squads under fire and directed the attack. For his actions, he was awarded the Medal of Honor.

Garcia returned to the German position and again singlehandedly stormed the enemy, destroying three more German soldiers, and capturing four prisoners.

Finally, Lieutenant John Koelsch was a London-born immigrant who flew a helicopter rescue mission during the Korean War. On July 3, 1951, he received word that the North Koreans had shot down a U.S. marine aviator and had him trapped in hostile territory. The terrain was mountainous and it was growing dark. John Koelsch volunteered to rescue him.

Koelsch’s aircraft was unarmed and due to the overcast and low altitude he flew without a fighter escort. He drew enemy fire as he descended beneath the clouds to search for the downed aviator.

After being hit, Koelsch kept flying until he located the downed pilot, who had suffered serious burns. While the injured pilot was being hoisted up, a burst of enemy fire hit the helicopter, causing it to crash into the side of the mountain. Koelsch helped his crew and the downed pilot out of the wreckage, and led the men out of the area just ahead of the enemy troops. With the leading them, they spent nine days on the run evading the North Koreans and caring for the burned pilot. Finally, the North Koreans ordered him and his men out.

“His great personal valor and heroic spirit of self-sacrifice throughout sustain and enhance the finest traditions of the U.S. Naval Service,” his citation for the Medal of Honor reads. That self-sacrifice, the citation notes, included the inspiration of other prisoners of war, for during the interrogation he “refused to aid his captors in any manner” and died in the hands of the North Koreans.

These and other immigrant Medal of Honor recipients tell the story not only of America’s wars but of America’s people. After all, we must never forget that all of us are either immigrants or the descendants of immigrants.

Tens of thousands of immigrants and hundreds of thousands of the descendants of immigrants have died in combat fighting for America. I put to you that there is a standard, a basic standard, by which to judge whether America is correct to maintain a generous legal immigration policy: Have immigrants and their children and grandchildren been willing to fight and die for the United States of America? The answer—right up to the present day—remains a resounding “yes.”

DETROIT FREE PRESS ARTICLE ON GUN-RELATED PROSECUTIONS

Mr. ABRAHAM. Mr. President, I rise today to call attention to a Detroit Free Press article published Tuesday of this week, entitled, “Federal gun cases decrease: Decline in Michigan greater than in U.S.” This article notes that from 1993 to 1997, there has been a very significant decline in the number of gun prosecutions brought in Detroit.

Mr. President, over the last two weeks, we in this body engaged in lengthy debate on the question of how effective or useful different proposals to regulate firearms were likely to be in stemming violent crime, most especially juvenile crime. I supported some of the proposals and opposed others. This week’s article provides some important points raised in this debate: no matter what laws this Congress passes, their effect on violent crime will almost certainly be negligible if the Administration is not willing to use the existing federal laws. Unfortunately, the Free Press article provides little ground for optimism on this score.

According to the Free Press, between 1993 and 1997 the number of people prosecuted in Detroit in cases investigated by the BATF dropped by 55%, compared with a 36% drop nationally. The Free Press also reports that there has been a nearly 50% decrease in prosecutions involving the three largest categories of federal gun laws, from 221 to 112 respectively.

When asked about this, U.S. Attorney Saul Green of Detroit reportedly stated that the decrease in prosecutions in the Eastern District of Michigan follows a downward trend in crimes. In fact, however, while there has been some improvement on that score, Detroit’s violent crime rate has been falling significantly less than that of most major cities, and it remains unacceptably high. Meanwhile, the much more dramatic decline of violent crime in Richmond, Virginia, where federal officials have pursued a policy of vigorous prosecution of gun offenders, strongly suggests that if the Administration were following the same course in Detroit, we would be doing better.

As the Detroit Free Press article points out, police records show that there were 559 murders in Detroit in 1993, compared to 453 in 1998. But that still left Detroit with the highest murder rate per capita for cities with a population of approximately one million, one of the ten largest cities among the U.S.’s 225 largest cities.

Moreover, while in 1998 the rate of reported violent crimes decreased 6% nationally, in Detroit it actually increased by 13%, according to FBI figures. Nor is this simply a one-year anomaly.

In 1997, the number of murderers in Detroit increased by 9% from 1996 and Detroit’s murder rate ranked 5th worst among the U.S.’s 225 largest cities. Meanwhile, our serious crime decrease by only 1%, compared to a 3.2% decrease nationally. Similarly, in 1996, Detroit’s rate of violent crimes decreased by only 3%, compared to a 7% decrease nationally.

Nor is Detroit’s relatively small numerical improvement explained by the fact that it is a major metropolitan area. To the contrary, it is mostly the biggest cities, like New York, that have seen the largest drops in crime rates over the past few years.

The fact that Detroit is lagging behind the nation’s improving violent crime rates, along with the fact that it is continually among nation’s 5-7 worst cities with respect to its homicide rate, clearly indicates that this is no time for the Administration to relax its enforcement of federal gun laws, including Project EXILE, the federal government, to be relaxing our crime-fighting efforts. Meanwhile, recent data from Richmond, Virginia’s Project EXILE strongly suggest that aggressive prosecution and severe punishment of gun law violations would be of major help. In 1998, the year following the implementation of Project Exile in Richmond, the homicide rate in Richmond decreased by approximately 1/3. The rate of firearm-related homicides in Richmond dropped even more—66%, from 122 in 1997 to 78 in 1998.

This takes me back to where I started. I voted in favor of several of the measures the Senate adopted last week because I believe that they can be useful tools in stopping gun violence. But quite simply, no gun laws, either those currently on the books or any new ones that Congress may enact, can be effective if the Attorney General does not enforce them through aggressive prosecution.

The Detroit Free Press article points out that the number of gun law violations prosecuted itself decreased by 55%, from 221 in 1993 to 112 in 1997.

[From the Detroit Free Press, May 25, 1999]

FEDERAL GUN CASES DECREASE DECLINE IN MICHIGAN GREATER THAN IN U.S.

(By Tim Doran)

Federal gun law prosecutions declined sharply in the eastern half of Michigan between 1993 and 1997. The number of people prosecuted in cases investigated by the federal Bureau of Alcohol, Tobacco and Firearms plummeted 55 percent nationally, but dropped only 36 percent, according to data analyzed by the Free Press.

For the three largest categories of gun law violations, the number of people prosecuted in eastern Michigan dropped from 221 in 1993 to 112 in 1997.
The analysis comes at a time when Congress, looking to tighten access to guns, and the state Legislature is considering laws to make it easier to get a concealed weapons permit.

If the federal government wants to reduce gun crime, it should enforce existing laws, said Dave LaCourse, public affairs director for the Second Amendment Foundation, which supports gun ownership.

"But the agency that's set up to put the screws to the bad guy is almost being cut in half," LaCourse said.

Last week, Wayne County and the City of Detroit sued gun manufacturers and dealers, saying they used a strategy of "willful blindness," looking the other way when guns are sold illegally. A sitting by county law enforce-
ment alleged that nine of 10 dealers sold guns to people who indicated they were buy-
ing on behalf of a minor or felon with them.

Both U.S. Attorney Saul Green of Detroit and Special Agent Michael Morrissey, head of the ATF in Michigan, dispute the numbers from the Free Press study. The reports ana-
lyzed for the study came from the Executive Office for U.S. Attorneys and are made pub-
lic by the Transactional Records Access Clearinghouse (TRAC) at Syracuse Univer-
ity.

"The numbers have gone down," Green said. But he said he does not accept the data the Free Press analyzed as definitive.

Green said that the decline follows a gen-
eral downward trend in crimes.

For example, according to police records, Detroit had 559 homicides in 1993 and 453 in 1998.

The increased use of local-federal task forces may play a role in the decreased fed-
eral gun cases, he said. "We have a lot more cooperation than we had in the past and some of the cases developed might go to local prosecution, rather than federal."

Morrisey and ATF officials in Washington said the bureau shifted its investiga-
tive strategy, targeting more serious violators.

The number of ATF investigators on the street declined both nationally and in Michi-
gan, and some of the remaining agents have taken on added duties.

The number of licensed gun dealers in the state has dropped, from about 11,000 in the early 1990s to 2,498 as of earlier this month, and victims have gone down.

"We're doing more with less," Morrissey said. "I think we're doing better quality with less, too.

And a program started in the last two months in Detroit could reverse the down-
ward trend. Operation Countdown hopes to use tough federal gun laws to take felons caught with guns off the streets.

REDUCTIONS DEBATED

Green and Morrissey disputed TRAC's numbers, but reports from other sources, in-
cluding the ATF's national office in Wash-
ington, show a drop in prosecutions.

For example, in Richmond, federal prosecutors began in March 1997 to prosecute every gun case from Wayne County, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Af-
fairs.

REPORT ON THE NATIONAL EMER-
GENCY—WITH RESPECT TO IRAN—MESSAGE FROM THE PRESI-
DENT—PM 34

The PRESIDING OFFICER laid be-
fore the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Com-
mittee on Banking, Housing, and Urban Affairs.

11360 CONGRESSIONAL RECORD—SENATE May 27, 1999
To the Congress of the United States:

As required by section 401(c) of the National Emergencies Act, 5 U.S.C. 1641(c) and section 204(c) of the International Emergency Economic Powers Act (IEEPA), 50 U.S.C. 1703(c), I transmit herewith a 6-month periodic report on the national emergency with respect to Iran that was declared in Executive Order 12170 of November 14, 1979.

WILLIAM J. CLINTON

REPORT OF THE NOTICE OF THE CONTINUATION OF THE EMERGENCY WITH RESPECT TO THE FEDERAL REPUBLIC OF YUGOSLAVIA (SERBIA AND MONTENEGRO)—MESSAGE FROM THE PRESIDENT

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report, which was referred to the Committee on Finance.

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report, which was referred to the Committee on Banking, Housing, and Urban Affairs.

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice to the Federal Register for publication, stating that the emergency declared with respect to the Federal Republic of Yugoslavia (Serbia and Montenegro) is to continue in effect beyond May 30, 1999, and the emergency declared with respect to the situation in Kosovo is to continue in effect beyond June 9, 1999.

On December 27, 1995, I issued Presidential Determination 96-7, directing the Secretary of the Treasury, inter alia, to suspend the application of sanctions imposed on the Federal Republic of Yugoslavia (Serbia and Montenegro) and to continue to block property previously blocked until provision is made to address claims or encumbrances, including the claims of the other successor states of the former Yugoslavia. This sanctions relief, in conformity with United Nations Security Council Resolution 1022 of November 22, 1995 (hereinafter the “Resolution”), was an essential factor motivating Serbia and Montenegro’s acceptance of the General Framework Agreement for Peace in Bosnia and Herzegovina initialed by the parties in Dayton, Ohio, on November 21, 1995, and signed in Paris, France, on December 14, 1995 (hereinafter the “Peace Agreement”). The sanctions imposed on the Federal Republic of Yugoslavia (Serbia and Montenegro) were accordingly suspended prospectively, effective January 16, 1996. Sanctions imposed on the Bosnian Serbs and authorities and on the territory that they control within Bosnia and Herzegovina were subsequently suspended prospectively, effective May 10, 1996, also in conformity with the Peace Agreement and the Resolution.

Sanctions against the Federal Republic of Yugoslavia (Serbia and Montenegro) and the Bosnian Serbs were subsequently terminated by United Nations Security Council Resolution 1074 of October 1, 1996. This termination, however, did not end the requirement of the Resolution that blocked those funds and assets that are subject to claims and encumbrances remain blocked, until unblocked in accordance with applicable law. Until the status of all remaining blocked property is resolved, the Peace Agreement implemented, and the terms of the Resolution met, this situation continues to pose a continuing unusual and extraordinary threat to the national security, foreign policy interests, and the economy of the United States. For these reasons, I have determined that it is necessary to maintain in force these emergency authorities beyond May 30, 1999.

On June 9, 1996, I issued Executive Order 13088, “Blocking Property of the Governments of the Federal Republic of Yugoslavia (Serbia and Montenegro), the Republic of Serbia, and the Republic of Montenegro, and Prohibiting New Investment in the Republic of Serbia in Response to the Situation in Kosovo.” Since then, the government of President Milosevic has rejected the international community’s efforts to find a peaceful settlement for the crisis in Kosovo and has launched a massive campaign of ethnic cleansing that has displaced a large percentage of the population and been accompanied by an increasing number of atrocities. President Milosevic’s brutal assault against the people of Kosovo and his complete disregard for the requirements of the international community pose a threat to regional peace and stability.

President Milosevic’s actions continue to pose a continuing unusual and extraordinary threat to the national security, foreign policy interests, and the economy of the United States. For these reasons, I have determined that it is necessary to maintain in force these emergency authorities beyond June 9, 1999.

WILLIAM J. CLINTON

REPORT RELATIVE TO THE INTERNAL REVENUE SERVICE OVERSIGHT BOARD—MESSAGE FROM THE PRESIDENT—PM 36

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report, which was referred to the Committee on Finance.

THE WHITE HOUSE,

May 27, 1999.

MESSAGE FROM THE HOUSE

At 9:45 a.m., a message from the House of Representatives, signed by Mr. Hanrahan, one of its reading clerks, announced that the House has passed the following bill, with an amendment, in which it requests the concurrence of the Senate:

S. 249. An act to provide funding for the National Center for Runaway and Homeless Youth Act, and for other purposes.
MEASURES REFERRED

The following bills were read the first and second times by unanimous consent and referred as indicated:

H.R. 197. An act to designate the facility of the United States Postal Service at 410 North 6th Street in Garden City, Kansas, as the “Clifford R. Hope Post Office.”

H.R. 441. An act to amend the Immigration and Nationality Act with respect to the requirements for the admission of non-immigrant nurses who will practice in health professional shortage areas.

H.R. 974. An act to establish a program to afford high school graduates from the District of Columbia the benefits of in-State tuition at State colleges and universities outside the District of Columbia, and for other purposes.

H.R. 1231. An act to designate the United States Postal Service building located at 8850 South 700 East, Sandy, Utah, as the “Noal Cushing Bateman Post Office Building”.

H.R. 1377. An act to designate the facility of the United States Postal Service at 13234 South Baltimore Avenue in Chicago, Illinois, as the “John J. Buchanan Post Office Building”.

H.R. 1833. An act to authorize appropriations for fiscal years 2000 and 2001 for the United States Customs Service for drug interdiction and other operations, for the Office of the United States Trade Representative, for the United States International Trade Commission, and for other purposes.

At 1:52 p.m., a message from the House of Representatives, delivered by Mr. Hanrahan, one of its reading clerks, announced that the House had agreed to the following concurrent resolution; in which it requests the concurrence of the Senate:

S. Con. Res. 35. Concurrent resolution providing for the settlement of the Water Rights Claims of the Chippewa Tribe of the Chippewa Cree Tribe of the Rocky Boy’s Reservation, and for other purposes.

ENROLLED BILLS SIGNED

At 2:00 p.m., a message from the House of Representatives, delivered by one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

H.R. 1183. An act to declare a portion of the James River and Kanawha Canal in Richmond, Virginia, to be navigable waters of the United States for purposes of title 33, United States Code, and the other maritime laws of the United States.

H.R. 1121. An act to designate the Federal building and United States courthouse located at 18 Greenville Street in Newman, Georgia, as the “Lewis R. Morgan Federal Building and United States Courthouse.”

H.R. 234. An act to amend the Airline Quality Act to strengthen the protection against the sale of mismarked, misrepresented, and counterfeit fasteners and eliminate unnecessary requirements, and for other purposes.

The enrolled bills were signed subsequently by the President pro tempore (Mr. Thurmond).

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC–3346. A communication from the Chief, Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Electricity Produced from Certain Renewable Resources; Calendar Year 1999 Inflation Adjustment Factors and Average Update” (Notice 99–26), received May 24, 1999; to the Committee on Finance.

EC–3347. A communication from the Chief, Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Notice 99–28, Election to Claim Education Tax Credit” (Notice 99–28), received May 24, 1999; to the Committee on Finance.

EC–3348. A communication from the Chief, Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Notice 99–32, Election to Claim Education Tax Credit” (Notice 99–32), received May 24, 1999; to the Committee on Finance.

EC–3349. A communication from the Chief, Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “April–June Bond Factor Amounts” (Revenue Rule 99–24), received May 24, 1999; to the Committee on Finance.

EC–3350. A communication from the Chief, Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Uniform Closing Agreement Procedures for Modified Endowment Contracts” (Rev. Proc. 99–27), received May 18, 1999; to the Committee on Finance.

EC–3351. A communication from the Chief, Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Notice 99–31, Guidance Regarding Section 664 Regulations” (OGI–108611–99), received May 20, 1999; to the Committee on Finance.

EC–3352. A communication from the Chief, Regulations Unit, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Notice 99–29, Treatment of Rent and Interest Under Certain Agreements for the Lease of Tangible Property” (RIN1545–AU11), received May 18, 1999; to the Committee on Finance.

EC–3353. A communication from the Secretary of Health and Human Services, transmitting, a draft of proposed legislation entitled the “Medicare Contracting Reform Amendments of 1999”; to the Committee on Finance.

EC–3354. A communication from the Director, Office of Management and Budget, Executive Office of the President, transmitting, a draft of proposed legislation relative to the President’s Fiscal Year 2000 Budget; to the Committees on Finance and Appropriations.

EC–3355. A communication from the Program Support Specialist, Aircraft Certification Service, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Airworthiness Directives; Boeing Model 74–100, 200, 300, 400, SP, and 500; and L-1011 Series Airplanes” (Rev. Proc. 99–27, Notice 99–17); Amendment 39–11116; AD 99–08–10” (Rev. Proc. 99–27), received April 12, 1999; to the Committee on Commerce, Science, and Transportation.

EC–3356. A communication from the Program Support Specialist, Aircraft Certification Service, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled “Airworthiness Directives;

S. Res. 110. A resolution designating June 5, 1999, as “National Race for the Cure Day”;

considered and agreed to.

Mr. GRAHAM (for himself, Mr. BROWNBACK, Mr. ASHCROFT, Mr. COVINGTON, Mr. NICKLES, Mr. BROWNBACK, Mr. DASCHEL, Mr. DEWINE, Mr. ROBERTS, Mr. SPECTER, Ms. MIKULSKI, Mr. MACK, Mr. THURMOND, Mr. VINOVICH, Mr. TORRICELLI, Mr. CRAIG, Mr. JOHNSEN, Mr. GRASSLEY, Ms. LANDRIEU, Ms. SNOWE, Mr. LEVIN, Mr. WARNER, Mr. ROBB, Mr. ENZI, Mr. LAUTENBERG, Mr. CRAPO, Mr. AKaka, Mr. GORTON, Mr. DODD, Mr. DOMENICI,
As our population ages, more and more elderly will become residents of retirement communities because of the comfort and security they provide. CCRC's provide independent living, assisted living, as well as continuing care retirement community or a nursing facility who goes to the hospital will not be allowed to return to CCRC or nursing facility for post acute follow up care. The MCO can dictate that the resident go to a different facility that is in the MCO network for that follow up care, even if the home facility is medically necessary and able to provide the needed care.

Let me give you a few examples:

In the fall of 1996, a resident of Collington Episcopal Life Care Community in my home state of Maryland, was transferred from a hospital to an HMO-participating nursing home located on the opposite side of the county. The resident’s husband who had visited the resident and permitted him to return to Collington. The CCRC had room in their skilled nursing facility on campus. Despite pleas from all those involved, the HMO would not allow the wife to recuperate in a familiar setting, close to her husband and friends. She later died at the HMO nursing facility, without the benefit of frequent visits by her husband and friends.

Collington Episcopal Life Care Community, in my home state of Maryland, has been facing problems with its frail elderly having to obtain psychiatric services, including medication monitoring, off campus, even though the services are available at Collington—how disruptive to good patient care! A residents' husband was in a nursing facility. When she was hospitalized, and then discharged, she was able to be admitted to the same nursing facility because of the Ohio law that protected that right.

Seniors coming out of the hospital should not be passed around like a baton. Their care should be decided based on what is clinically appropriate, NOT what is financially mandated. Why is that important? What are the consequences?

Residents consider their retirement community or long term care facility as their home. And being away from home for any reason can be very disruptive. The trauma of being in unfamiliar surroundings can increase recovery time. The staff of the resident's 'home' facility often knows best about the person's chronic care and service needs. Being away from 'home' separates the resident from his or her emotional support system. Refusal to allow a resident to return to his or her home takes away the person's choice. All of this leads to greater recovery time and unnecessary trauma for the patient.

And should a woman's husband have to hitch a ride or catch a cab in order to see his recovering spouse if the facility where they live can provide the care? NO. Retirement communities and other long term care facilities are not just health care facilities. They provide an entire living environment for their residents, in other words, a home. We need to protect the choice of our seniors to return to their 'home' after a hospitalization. And that is what my bill does.

It protects residents of CCRC's and nursing facilities by: enabling them to return to their facility after a hospitalization; and requiring the resident's insurer or MCO to cover the cost of the care, even if the insurer does not have a contract with the resident's facility.

In order for the resident to return to the facility and have the services covered by the insurer or MCO: 1. The service to be provided must be a service that the insurer covers; 2. The resident must have resided at the facility before hospitalization, have a right to return, and choose to return; 3. The facility must have the capacity to provide the necessary service and meet applicable licensing and certification requirements of the state; 4. The facility must be willing to accept substantially similar payment and/or contract with the insurer or MCO.

My bill also requires an insurer or MCO to pay for a service to one of its...
beneficiaries, without a prior hospital stay, if the service is necessary to prevent the hospitalization of the beneficiary and the service is provided as an additional benefit. Lastly, the bill requires an insurer or MCO to provide coverage to a beneficiary for services provided at a facility in which the beneficiary's spouse already resides, even if the facility is not under contract with the MCO, provided the other requirements are met.

In conclusion, Mr. President, I am committed to providing a safety net for our seniors—this bill is part of that safety net. Seniors deserve quality, affordable health care and they deserve choice. This bill offers those residing in retirement communities and long term care facilities assurance to have their choices respected, to have where they reside recognized as their "home," and to be permitted to return to that "home" after a hospitalization. It ensures that spouses can be together as long as possible. And it ensures access to care in order to PREVENT a hospitalization. I want to thank my co-sponsors Senators DODD, HOLLINGS, JEFFORDS, KENNEDY, MURRAY and WELLSTONE for their support. I urge my colleagues to join me in passing this important legislation. I ask that a resolution be printed into the RECORD.

By Mr. VOINOVICH (for himself, Mr. CHAFFEE, Mr. JEFFords, Mr. MOYNIHAN, Mr. WARNER, Mrs. HUTCHINSON, Mr. REID, Mr. LAUTENBERG, and Mr. LEAHY).

S. 1144. A bill to provide increased flexibility in use of highway funding, and for other purposes; to the Committee on Environment and Public Works.

SURFACE TRANSPORTATION ACT OF 1999

Mr. VOINOVICH. Mr. President, I am pleased today to introduce the Surface Transportation Act of 1999 along with my colleagues, Chairman CHAFFEE of the Senate Environment and Public Works Committee, Senators DODD, JEFFords, REID, WARNER, HUTCHINSON, REID, LAUTENBERG and LEAHY. The purpose of this bill is to provide additional flexibility to the States and localities in implementing the Federal transportation program.

Let me briefly describe the three most significant provisions of the bill.

1. State infrastructure banks—the bill authorizes all 50 states to participate in the State Infrastructure Bank (SIB) program. SIBs are revolving funds, capitalized with Federal and State contributions, which are empowered to make loans and provide other forms of non-grant assistance to transportation projects. Before TEA–21 was enacted, transferring Federal highway funding to a State Infrastructure Bank was an option available to all 50 states, with 39 states actively participating. Regrettably, TEA–21 limited the SIB program to just four states. This section would restore the program as it existed prior to TEA–21.

The American Association of State Highway and Transportation Officials (AASHTO), the National Association of State Treasurers, and numerous industry groups, including the American Road & Transportation Builders Association (ARTBA), strongly supported legislation giving all states the opportunity to participate in the SIB program.

The availability of SIB financial assistance has attracted additional investment. According to the U.S. Department of Transportation, SIBs made 21 loans and signed agreements for another 33 loans as of November 1, 1998. Together, these 54 projects are scheduled to receive SIB loan disbursements totaling $408 million to support project investments of more than $2.3 billion—resulting in a leverage ratio of about 5.6 to 1 (total project investment to amount of SIB investment).

2. High priority project flexibility—the bill includes a provision that allows States the flexibility to advance a "high priority" project faster than is allowed by TEA–21, which provides the funding for high priority projects spread over the six-year life of TEA–21. This provision would allow States to accelerate the construction of their "high priority" projects by borrowing funds from other highway funding categories (e.g., NHS, STP, CMAQ). The flexibility is particularly important for states who are ready to construct some of the high priority projects in the first few years of TEA–21, and without this provision, may need to defer completion until the later years of TEA–21.

3. Funding flexibility for Intercity passenger rail—the bill also gives States the option to use their National Highway System, Congestion Mitigation and Air Quality funds, and Surface Transportation Program funds to fund capital expenses associated with intercity passenger rail service, including high-speed rail service. The National Governors’ Association, has passed a resolution requesting this additional flexibility.

In closing, I would like to encourage my colleagues to support this bill, especially for those States who are supportive of the State Infrastructure Bank program, have high priority projects that are ready-to-go, or would like the option of using available Federal transportation funding to support intercity passenger rail needs in their state.

I encourage my colleagues to support this important legislation. I ask that a section by section description of the bill be printed into the RECORD.
meet their transportation needs. In testimony before the committee, the U.S. Conference of Mayors and the National Council of State Legislatures also requested this additional flexibility.

Section 5—Historic Bridges

This section eliminates a restriction that caps the amount of Federal-aid highway funds that can be spent on a historic bridge to an amount equal to the cost of demolition. The restriction unnecessarily limits States’ flexibility to preserve historic bridges. This measure is supported by nine of the 12 members of the bipartisan U.S. Conference of Mayors and by two of the 14 states that have historic bridges in their plans. The proposal also studies the potential for alternative transportation uses. A similar provision was included in the Senate-passed version of the reauthorization, but was not considered by the conference due to time constraints.

Section 6—Accounting Simplification

This section makes a minor change to the distribution of Federal-aid obligation limitation that simplifies accounting for states. Currently, a very small amount of the obligation authority directed to the minimum project cost limit on an obligation program is made available for one year even though the overwhelming majority is made available for several years. This section would make all obligation authority for this program available as multi-year funding. Therefore, this section eliminates the need to account for the States to plan for the small amount of funding separately.

By Mr. LEAHY (for himself, Mr. INOUYE, Mr. SARBAES, Mr. REID, Mr. ROBB, Mr. AKAKA, Mr. SCHUMER, and Mrs. FEINSTEIN):

S. 1145. A bill to provide for the appointment of additional Federal circuit and district judges, and for other purposes; to the Committee on the Judiciary.

T H E F E D E R A L J U D G E S H I P A C T O F 1 9 9 9

Mr. LEAHY. Mr. President, today I am introducing the Federal Judgeship Act of 1999. I am pleased that Senators INOUYE, SARBAES, REID, ROBB, AKAKA, and SCHUMER are joining me as original cosponsors of this measure.

Our bill creates 99 new judgeships across the country to address the increased caseloads of the Federal judiciary. Specifically, our legislation would: create 7 additional permanent judgeships and 4 temporary judgeships for the U.S. Courts of Appeal; create 33 additional permanent judgeships and 26 temporary judgeships for the U.S. District Courts; and convert 10 existing temporary district judgeships to permanent positions.

This bill is based on the recommendations of the Judicial Conference of the United States, the nonpartisan policy-making arm of the judicial branch. Federal judges across the nation believe that the continuing heavy caseload of our courts of appeals and district courts merit these additional judges. Indeed, the Chief Justice of the United States in his 1998 year-end report of the U.S. Judiciary declared: “The number of cases brought to federal courts is one of the most serious problems facing them today.”

Chief Justice Rehnquist is right. The filings of the U.S. Courts of Appeals Federal courts has reached record heights. For instance, criminal case filings in Federal courts rose 15 percent in 1998—nearly tripling the 5.2 percent increase in 1997. The number of criminal cases filed since 1991 increased 25 percent with the number of criminal defendants rising 21 percent. In fact, the filings of criminal cases and defendants reached their highest levels since the Prohibition Amendment was repealed in 1933. Federal civil caseloads have similarly increased. For the past eight years, total civil case filings have increased 22 percent in our Federal courts. This increase includes jumps of 145 percent in personal injury product liability cases, 142 percent in patent and trademark filings, and 29 percent prisoner petitions from 1991 to 1998.

But despite these dramatic increases in case filings, Congress has failed to authorize new judgeships since 1990, thus endangering the administration of justice in our nation’s Federal courts.

Historically, every six years Congress has reviewed the need for new judgeships. In 1964, Congress passed legislation to address the need for additional judgeships. Six years later, in 1990, Congress again fulfilled its constitutional responsibility and enacted the Federal Judgeship Act of 1990 because of a sharply increasing caseload, particularly for drug-related crimes. But in the last two Congresses, the Republican majority failed to follow this tradition. Two years ago the Judicial Conference requested an additional 55 judgeships to address the growing backlog. My legislation, based on the Judicial Conference’s 1997 recommendations, S. 678, the Judicial Judgeship Act of 1997, languished in the Judicial Committee without action during both sessions of the last Congress.

It is now nine years since Congress last seriously reexamined the caseload of the federal judiciary and the need for more federal judges. Congress ignored the needs of the federal judiciary at the peril of the American people. Overworked judges and heavy caseloads slow down the judicial process and delay justice. In some cases, justice is in danger of being denied because witnesses and evidence are lost due to long delays in citizens having their day in court.

We have the greatest judicial system in the world, the envy of people around the globe who are struggling for freedom. It is the independent and co-equal branch of government that gives it the ability to act fairly and impartially. It is our judiciary that has for so long protected our fundamental rights and freedoms and served as a necessary check on overreaching by the other two branches, the executive and the legislative. The political winds of the moment.

We are fortunate to have dedicated women and men throughout the Federal Judiciary in this country who do a tremendous job under difficult circumstances. They are examples of the hard-working public servants that deserve our respect and our support.

Let us act now to ensure that justice is not delayed or denied for anyone. I urge the Senate to enact the Federal Judgeship Act of 1999 without further delay.

By Mr. DASCHLE (for himself and Mr. ROCKEFELLER):

S. 1146. A bill to amend title 38, United States Code, to improve access of veterans to emergency medical care in non-Department of Veterans Affairs medical facilities; to the Committee on Veterans’ Affairs.

Mr. DASCHLE. Mr. President, the American people continue to say they want a comprehensive, enforceable Patients’ Bill of Rights. Toward that goal, several of my Democratic colleagues and I introduced S. 6, the Patients’ Bill of Rights Act of 1999, earlier this year. That legislation, which we first introduced in the 106th Congress, addresses the growing concerns among Americans about the quality of care delivered by health maintenance organizations. I am disappointed that some of my colleagues on the other side of the aisle prevented the Senate from considering managed care reform legislation last year. I am hopeful that the Republican leadership will allow an open and honest debate on this important issue this year.

I am hopeful that my colleagues will also take a moment to listen to veterans in this country who are raising legitimate concerns about the medical care they receive from the Department of Veterans Affairs (VA). Many veterans are understandably concerned that the Administration requested approximately $18 billion for VA health care in FY99—almost the same amount it requested last year. They fear that if this flat-lined budget is enacted, the VA would be forced to make significant reductions in personnel, health care services and facilities. I share their concerns and agree that we simply cannot allow that to happen. On the contrary, Congress and the Administration need to work together to provide the funds necessary to improve the health care that veterans receive.

Toward that end, and as we prepare to celebrate Memorial Day, I am re-introducing the Veterans’ Access to Emergency Care Act of 1999. I am pleased that Senator ROCKEFELLER, the
The problem addressed in the bill stems from the fact that veterans who rely on the VA for health care often do not receive reimbursement for emergency medical care they receive at non-VA facilities. According to the VA, veterans may only be reimbursed by the VA for service-connected care at a non-VA facility that was not pre-authorized if all of the following criteria are met:

First, care must have been rendered for a medical emergency of such nature that any delay would have been life-threatening; second, the VA or other federal facilities must not have been feasibly available; and, third, the treatment must have been rendered for a service-connected disability, a condition associated with a service-connected disability, or for any disability of a veteran who has a 100-percent service-connected disability.

Many veterans who receive emergency health care at non-VA facilities are able to meet the first two criteria. Unless they are 100-percent disabled, however, they generally fail to meet the third criterion because they have suffered heart attacks or other medical emergencies that were unrelated to their service-connected disabilities. Considering the enormous costs associated with emergency health care, current law has been financially and emotionally devastating to countless veterans with limited income and no other health insurance. The bottom line is that veterans are forced to pay for emergency care out of their own pockets until they can be stabilized and transferred to VA facilities.

During medical emergencies, veterans often do not have a say about whether they should be taken to a VA or non-VA medical center. Even when they specifically ask to be taken to a VA facility, emergency medical personnel often transport them to a nearby hospital instead because it is the closest facility. In many emergencies, that is the only sound medical decision to make. It is simply unfair to penalize veterans for receiving emergency medical care at non-VA facilities. Veterans were asked to make enormous sacrifices for this country, and we should not turn our backs on them during their time of need.

There is no misunderstanding that affects countless veterans in South Dakota and throughout the country. I would like to cite just three examples of veterans being denied reimbursement for emergency care at non-VA facilities in western South Dakota.

The first involves Edward Sanders, who is a World War II veteran from Custer, South Dakota. On March 6, 1994, Edward was taken to the hospital by his son because he was suffering chest pains. He was monitored for several hours before a doctor at the hospital called the VA Medical Center in Hot Springs and indicated that Edward was in need of emergency services. Although Edward asked to be taken to a VA facility, VA officials advised him to seek care elsewhere. He was then transported by ambulance to the Rapid City Regional Hospital where he underwent a cardiac catheterization and coronary artery bypass grafting. Because the emergency did not meet the criteria I mentioned previously, the VA did not reimburse Edward for the care he received at Rapid City Regional. His medical bills totaled more than $50,000.

On May 17, 1997, John Lind suffered a heart attack while he was at work. John is a Vietnam veteran exposed to Agent Orange who served his country for 14 years until he was discharged in 1981. John lives in Rapid City, South Dakota, and he points out that he would have preferred to be taken to the VA Medical Center in Fort Meade for care, but he was semi-conscious, and emergency medical personnel transported him to Rapid City Regional. After 4 days in the non-VA facility, John incurred nearly $20,000 in medical bills. Although he filed a claim with the VA for reimbursement, he was turned down because the emergency was not related to his service-connected disability.

Just over one month later, Delmer Paulson, a veteran from Quinn, South Dakota, suffered a heart attack on June 26, 1997. Since he had no other health care insurance, he asked to be taken to the VA Medical Center in Fort Meade. Again, despite his request, the emergency medical personnel transported him to Rapid City Regional. Even though Delmer was there for just over a day before being transferred to Fort Meade, he was charged with almost a $20,000 medical bill. Again, the VA refused to reimburse Delmer for the unauthorized medical care because the emergency did not meet VA criteria.

The Veterans’ Access to Emergency Care Act of 1999 would address this serious problem. It would authorize the VA to reimburse veterans enrolled in the VA health care system for the cost of emergency care or services received in non-VA facilities for the following:

1. A serious threat to the life or health of a veteran.
2. Serious jeopardy.
3. A medical emergency of such nature that any delay would have been life-threatening.
4. A condition associated with a service-connected disability.
5. A related condition.

For any emergency care that meets these criteria, veterans should receive reimbursement for emergency care. There should be no misunderstanding.

The Veterans’ Access to Emergency Care Act of 1999 would address this serious problem. It would authorize the VA to reimburse veterans enrolled in the VA health care system for the cost of emergency care or services received in non-VA facilities for the following:

1. A serious threat to the life or health of a veteran.
2. Serious jeopardy.
3. A medical emergency of such nature that any delay would have been life-threatening.
4. A condition associated with a service-connected disability.
5. A related condition.

For any emergency care that meets these criteria, veterans should receive reimbursement for emergency care. There should be no misunderstanding.
Mr. ROCKEFELLER. Mr. President, I am pleased to offer my support to the Veterans' Access to Emergency Care Act of 1999. This bill will authorize VA to cover emergency care at non-Department of Veterans Affairs (VA) facilities for those veterans who have enrolled with VA for their healthcare. I join my colleague, Senator DASCHLE, in cosponsoring this valuable initiative and thank him for his leadership.

Currently, VA is restricted by law from authorizing payment of comprehensive emergency care services in non-VA facilities except to veterans with special eligibility. Most veterans must rely on other insurance or pay out of pocket for emergency services. In many ways, this is a very generous package, which includes such things as pharmaceuticals. Enrolled veterans are, however, missing out on one essential part of healthcare coverage: the standard benefits package does not allow for comprehensive emergency care. So, in effect, we are asking veterans to choose VA health care, but leaving them out in the cold when it comes to emergency care.

Mr. President, we have left too many veterans out in the cold already. When veterans call their VA health care provider in the middle of the night, many reach a telephone recording. This recording tells veterans that veterans who have emergencies dial “911.” Veterans who call for help are then transported to non-VA facilities. After the emergency is over, veterans are presented with huge bills. These are bills which VA cannot pay in most cases, and which are, therefore, potentially financially crushing. We cannot abandon these veterans in their time of need.

Let me tell you a little bit about some of the problems that veterans face when they need emergency care. In January of this year, a low-income, non-service-connected, World War II veteran with a history of heart problems, from my State of West Virginia, presented to the nearest non-VA hospital with severe chest pain. In an attempt to get the veteran admitted to the VA medical center, the private physician placed calls to the Clarksburg VA Medical Center, where the veteran was enrolled, on three separate occasions over the course of three days. The response was always the same—“no beds available.”

Ultimately, a different VA medical center, from outside the veteran’s service area, accepted the patient, and two days later transferred him back to the Clarksburg VA Medical Center where he underwent a surgical procedure to resolve the problem. By this time, however, complications had set in, and the veteran was critically ill.

The veteran’s wife told me that “no one should have to endure the pain and suffering” they had to endure over a five-day period to get the emergency care her husband needed. But in addition to that emotional distress, the veteran now also faces a medical bill of almost $800 at the private hospital, the net amount due after Medicare paid its portion. This is an incredible burden for a veteran and his wife whose sole income are their small Social Security checks.

In another example from my state, in February 1998, a 100 percent service-connected veteran with post-traumatic stress disorder suffered an acute onset of mid-ternal chest pain, and an ambulance was called. The ambulance took him to the nearest hospital, a non-VA facility. Staff at the private facility contacted the Clarksburg VA Medical Center and was told there were no ICU beds available and advised transferring the patient to the Pittsburgh VA Medical Center. When contacted, Pittsburgh refused the patient because of the length of necessary transport. A call to the Beckley VAMC was also fruitless. The doctor was advised by VA staff that the trip to Beckley would be “too risky for the three hour ambulance travel.”

The veteran was kept overnight at the private hospital for observation, and then was billed for the care—$900, after Medicare paid its share. Two more cases quickly come to mind involving 100 percent service-connected combat veterans, both of whom had to turn to the private sector in emergency situations.

One veteran had a heart attack and as I recall, his heart stopped twice before the ambulance got him to the closest non-VA hospital. The Huntington VA Medical Center was his health care provider and it was more than an hour away from the veteran’s home. This veteran had Medicare, but he was still left with a sizeable medical bill for the emergency services that saved his life.

The other veteran suffered a fall that rendered him unconscious and caused considerable physical damage. He also was taken to the closest non-VA hospital—and was left with a $14,000 bill after Medicare paid its share.

Both contacted me to complain about the unfairness of these bills. As 100 percent service-connected veterans, they rely totally on VA for their health care. In the case of one of them, nor the other two West Virginia veterans I referred to, ever expected to be in the situation in which they all suddenly found themselves—strapped with large health care bills because they needed emergency treatment in life-threatening situations, when they couldn’t rely totally on VA for their health care.

Coverage of emergency care services for all veterans is supported by the consortium of veterans services organizations that authored the Independent Budget for Fiscal Year 2000—AMVETS, Disabled American Veterans, The Paralyzed Veterans of America, and the Veterans of Foreign Wars. The concept is also included in the Administration’s FY 2000 budget request for VA and the Consumer Bill of Rights, which President Clinton has directed every federal agency engaged in managing or delivering health care to adopt.

To quote from the Consumer Bill of Rights, “Consumers have the right to access emergency health care services when and where the need arises. Health plans should provide, when a consumer presents to an emergency department with acute symptoms of sufficient severity—including severe pain—such that a prudent layperson could reasonably expect the absence of medical attention to result in placing their health in serious jeopardy, serious impairment to bodily functions, or serious dysfunction of any bodily organ or part.” This “prudent layperson” standard is included in the Veterans’ Access to Emergency Care Services Act of 1999 and is intended to protect both the veteran and the VA.

To my colleagues who would argue that this expansion of benefits is something which the VA cannot afford, I would say that denying veterans access to care would not be the way to balance our budget. The Budget Resolution includes an additional $1.7 billion for VA. I call on appropriators to ensure that this funding makes its way to VA hospitals and clinics across the country.

Truly, approval of the Veterans’ Access to Emergency Care Services Act of 1999 would ensure appropriate access to emergency medical services. Thus, we would be providing our nation’s veterans greater continuity of care.

Mr. President, veterans currently have the opportunity to come to VA facilities for their care, but they lack coverage for the one of the most important health care services. I look forward to working with my colleagues on the House and Senate Committees on Veterans’ Affairs to make this proposal a reality.

By Mr. GRAHAM (for himself, Mr. JEFFORDS, Mr. KOHL, and Mrs. HUTCHISON):

S. 1147. A bill to amend the Internal Revenue Code of 1986 to provide a credit against tax employers who provide child care assistance for dependents of their employees, and for other purposes; to the Committee on Finance.
Mr. GRAHAM. Mr. President, I am extremely proud to introduce the “Worksite Child Care Development Act of 1999” with Senators HUTCHISON, KOHL, and JEFFORDS. This measure will make child care more accessible and affordable to the many millions of Americans who find it not only important, but necessary, to work.

This legislation would grant tax credits to employers who assist their employees with child care expenses by providing:

- A one-time 50 percent tax credit not to exceed $100,000 for startup expenses, including expansion and renovations of an employer-sponsored child care facility;
- A 50 percent tax credit for employers not to exceed $25,000 annually for the operating costs to maintain a child care facility; and
- A 50 percent tax credit yearly not to exceed $50,000 for this employers who provide payments or reimbursements for their employees’ child care costs.

Why is this legislation important?

First, the workplace has changed over the years. In 1947, just over one-quarter of all mothers with children under 6 and 17 years of age were in the labor force. By 1996, their labor force participation rate had tripled.

Indeed, the Bureau of Labor Statistics reports that 65 percent of all women with children under 18 years of age are now working and that the growth in the number of working women will continue into the next century.

Second, child care is one of the most pressing social issues of the day. It impacts every family, including the poor, the working poor, middle class families, and stay-at-home parents.

Last June, I hosted a Florida statewide summit on child care where over 500 residents of my State shared with me their concerns and frustration on child care issues.

They told me that quality child care, when available, is often not affordable. Those who qualify told me there are often long waiting lists for subsidized child care.

They told me that working parents struggle to find ways to cope with the often conflicting time demands of both work and child care.

They told me that their school-age children are at risk because before and after-school supervised care programs are not readily available.

Mr. President, quality child care should be a concern to all Americans.

The care and nurturing that children receive early in life has a profound influence on their future—and their future is our future.

In the 21st century, women will comprise more than 60 percent of all new entrants into the labor market. A large proportion of these women are expected to be mothers of children under the age of 6.

The implications for employers are clear. They understand that our Nation’s work force is changing rapidly and that those employers who can help their employees with child care will have a competitive advantage. In Florida, for instance, Ryder System’s Kids’ Corner in Miami has enrolled approximately 100 children in a top-notch day care program.

I commend the many corporations in Florida and across the nation that have taken the important step of providing child care for its employees. Many smaller businesses would like to join them, but do not have the resources to offer child care to employees. Our legislation would help to lower the obstacles to child care.

Mr. President, we believe that this legislation will assist businesses in providing attractive, cost-effective tools for recruiting and retaining employees in a tight labor market.

We believe that encouraging businesses to help employees care for children will make it easier for parents to be more involved in their children’s education.

Most of all, Mr. President, we believe that this bill is good for employers and families and will go far in addressing the issue of child care for working families of America. I urge all of my colleagues to support this important piece of legislation.

Mr. President, I ask unanimous consent that letters of support from the Chief Executive Officers of the Ryder Corporation and Bright Horizons Corporation be included in the Record.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

BRIGHT HORIZONS, FAMILY SOLUTIONS, May 6, 1999.

Dear Senator Graham: Thank you for allowing our company the opportunity to review and comment on the Worksite Child Care Development Center Act of 1999. We strongly support this bill and want to do all that we can to support you as the primary sponsor.

We applaud your strategy of targeting tax credits for small businesses. Your approach makes perfect sense. Experience has shown that employer-supported child care is not as financially feasible for many small businesses. Since the majority of working parents work for small businesses, their needs have not been adequately addressed. We believe that your bill will have far reaching impact by making it possible for a greater number of working parents to benefit from support offered by their employers.

For your consideration, we respectfully submit comments and suggestions, which we think will strengthen the impact of your bill. I welcome the opportunity to share our experience with you and to discuss these or any other ideas you may have, so please feel free to call me.

Thank you for your willingness to champion the cause for more and better child care
CONGRESSIONAL RECORD—SENATE May 27, 1999

initially flooded 2,851 acres of tribal land, forcing the relocation and resettlement of at least 86 families, including the traditional and self-sustaining community of White Swan, one of the four major settlement areas on the reservation. On other reservations, such as Crow Creek, Lower Brule, Cheyenne River, Standing Rock, and Fort Berthold, communities affected by the Pick-Sloan dams were relocated to higher ground. In contrast, the White Swan community was completely dissolved, and its residents dispersed to whatever areas they could settle and start again.

The bill I am introducing today is the latest in a series of laws that have been enacted in the 1990s to address similar claims by other tribes in South Dakota for losses caused by the Pick-Sloan dams. In 1924, Congress funded the Three Affiliated Tribes of Fort Berthold Reservation and the Standing Rock Sioux Tribe compensation for direct damages, including lost reservation infrastructure, relocation and resettlement expenses, the general rehabilitation of the tribes, and for unfulfilled government commitments regarding replacement facilities. In 1996, Congress enacted legislation compensating the Crow Creek tribe for its losses, while in 1997, legislation was enacted to compensate the Lower Brule tribe. The Yankton Sioux Tribe and Santee Sioux Tribe have not yet received fair compensation for their losses. Their time has come.

Mr. President, the flooding caused by the Pick-Sloan projects touched every aspect of life on the Yankton and Santee Sioux reservations, as large portions of their communities were forced to relocate wherever they could find shelter. Never were these effects fully considered, as federal government was acquiring these lands or designing the Pick-Sloan projects. The Yankton Sioux Tribe and Santee Sioux Tribe of Nebraska Development Trust Fund Act represents an important step in our continuing effort to compensate fairly the tribes of the Missouri River Basin for the sacrifices they made decades ago for the construction of the dams. Passage of this legislation not only will right a historic wrong and improve the lives of Native Americans living on these reservations. It has taken decades for us to recognize the unfilled federal obligation to compensate the tribes for the effects of the dams. We cannot, of course, remake the land, but we can offer help to ensure that the tribe can improve its infrastructure on their reservation in turn, which will enhance opportunities for economic development that will benefit all members of the tribe. Now that we have reached this stage, the importance of passing this legislation as soon as possible cannot be stated too strongly. I am strongly urging my colleagues to approve this legislation this year. Providing compensation to the Yankton Sioux Tribe and the Santee Sioux Tribe of Nebraska for past harm inflicted by the federal government is long overdue and any further delay only compounds that harm. I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1148

Be it enacted by the Senate and House of Representaives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE. This Act may be cited as the “Yankton Sioux Tribe and Santee Sioux Tribe of Nebraska Development Trust Fund Act”.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) by enacting the Act of December 22, 1944, commonly known as the “Flood Control Act of 1944” (58 Stat. 867, chapter 665; 33 U.S.C. 701–1 et seq.) Congress approved the Pick-Sloan Missouri River Basin program (referred to in this section as the “Pick-Sloan program”);

(A) to provide for irrigation above Sioux City, Iowa;

(B) to provide for irrigation and flood control above and below Sioux City;

(C) to protect urban and rural areas from devastating floods of the Missouri River; and

(D) for other purposes.

(2) the waters impounded for the Fort Randall and Gavins Point projects of the Pick-Sloan program have inundated the fertile, wooded bottom lands along the Missouri River that constituted the most productive agricultural and pastoral lands of, and the homelands of, the members of the Yankton Sioux Tribe and the Santee Sioux Tribe;

(3) the Fort Randall project (including the Fort Randall Dam and Reservoir)—

(A) overlies a portion of the Yankton Sioux Tribe Indian Reservation; and

(B) has caused the erosion of more than 2,000 acres of the Yankton Sioux Reservation adjoining the east bank of the Missouri River;

(4) the Gavins Point project (including the Gavins Point Dam and Reservoir) overlies the eastern boundary of the Santee Sioux Tribe;

(5) although the Fort Randall and Gavins Point projects are major components of the Pick-Sloan program, and contribute to the economy of the United States by generating a substantial amount of hydroelectric power and impounding a substantial amount of water, the reservations of the Yankton Sioux Tribe and the Santee Sioux Tribe remain undeveloped;

(6) the United States Army Corps of Engineers took the Indian lands used for the Fort Randall and Gavins Point projects by condemnation in the year 1944.

(7) the Federal Government did not give Yankton Sioux Tribe and the Santee Sioux Tribe an opportunity to receive compensation for direct damages from the Pick-Sloan program, even though the Federal Government gave 5 Indian reservations upstream from the reservations of those Indian tribes such an opportunity;

(8) the Yankton Sioux Tribe and the Santee Sioux Tribe did not receive just compensation for the taking of productive agricultural Indian lands through the condemnation referred to in paragraph (6);

(9) the settlement agreement that the United States entered into with the Yankton Sioux Tribe and the Santee Sioux Tribe to provide compensation for the taking by condemnation referred to in paragraph (6) did not take into account the increase in property values over the years between the date of taking and the date of settlement; and

(10) in addition to the financial compensation provided under the settlement agreements referred to in paragraphs (6), (8), and (9), the Yankton Sioux Tribe should receive an aggregate amount equal to $34,323,743 for the loss value of 2,851.40 acres of Indian land on the Fort Randall Dam and Reservoir of the Pick-Sloan program; and

(11) the use value of 468.40 acres of Indian land on the reservation of that Indian tribe that was lost as a result of stream bank erosion that has occurred since 1983.

(b) PURPOSES.—The purposes of this Act are—

(A) to provide compensation for the taking by condemnation of Yankton and Santee Sioux Tribe lands and for the loss value of their Indian lands through the condemnation referred to in paragraphs (6), (8), and (9); and

(B) to provide compensation for the taking of Yankton and Santee Sioux Tribe lands and for the loss value of their Indian lands through the condemnation referred to in paragraphs (6), (8), and (9) shall be to—

(i) provide compensation to the Yankton Sioux Tribe and the Santee Sioux Tribe for all losses incurred by the United States and its agencies in connection with the Pick-Sloan projects; and

(ii) in addition to the financial compensation provided under subsection (b) in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States, the United States shall deposit interest resulting from the above financial compensation guaranteed as to both principal and interest by the United States to the Yankton Sioux Tribe and the Santee Sioux Tribe.

SEC. 3. DEFINITIONS.

In this Act:

(1) INDIAN TRIBE.—The term “Indian tribe” has the meaning given that term in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)).

(2) PROGRAM.—The term “Program” means the power program of the Pick-Sloan Missouri River Basin program, administered by the Western Area Power Administration.

(3) SANTEE SIOUX TRIBE.—The term “Santee Sioux Tribe” means the Santee Sioux Tribe of Nebraska.

SEC. 4. YANKTON SIOUX TRIBE DEVELOPMENT TRUST FUND.

(a) ESTABLISHMENT.—There is established in the Treasury of the United States a fund known as the “Yankton Sioux Tribe Development Trust Fund” (referred to in this section as the “Fund”). The Fund shall consist of any amounts deposited in the Fund under this Act.

(b) FUNDING.—Out of any money in the Treasury not otherwise appropriated, the Secretary of the Treasury shall deposit $34,323,743 into the Fund not later than 60 days after the date of enactment of this Act.

(c) INVESTMENTS.—The Secretary of the Treasury shall invest the amounts deposited under subsection (b) in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. The Secretary of the Treasury shall deposit interest resulting from such investments into the Fund.

(d) PAYMENT OF INTEREST TO YANKTON SIOUX TRIBE.—

(1) IN GENERAL.—The Secretary of the Interior shall use the amounts deposited under paragraph (1) only for the purpose of making payments to the Yankton Sioux...
Tribe, as such payments are requested by that Indian tribe pursuant to tribal resolution.

(B) LIMITATION.—Payments may be made by the Secretary of the Interior under subparagraph (A) only after the Yankton Sioux Tribe has adopted a tribal plan under section 6.

(C) USE OF PAYMENTS BY YANKTON SIOUX TRIBE.—The Yankton Sioux Tribe shall use the payments made under subparagraph (A) only for carrying out projects and programs under the tribal plan prepared under section 6.

(D) PLEDGE OF FUTURE PAYMENTS.—(I) IN GENERAL.—Subject to clause (ii), the Santee Sioux Tribe may enter into an agreement under which that Tribe pledges future payments under this paragraph as security for a loan or other financial transaction.

(ii) LIMITATIONS.—The Yankton Sioux Tribe—

(I) may enter into an agreement under clause (i) only in connection with the purchase of a capital asset; and

(II) may not pledge, for any year under an agreement referred to in clause (i), an amount greater than 40 percent of any payment made under this paragraph for that year.

(e) TRANSFERS AND WITHDRAWALS.—Except as provided in subsections (c) and (d)(1), the Secretary of the Treasury may not transfer or withdraw any amount deposited under subsection (b).

SEC. 5. SANTEE SIOUX TRIBE OF NEBRASKA DEVELOPMENT TRUST FUND

(a) Establishment.—There is established in the Treasury of the United States a fund to be known as the “Santee Sioux Tribe of Nebraska Development Trust Fund” (referred to in this section as the “Fund”). The Fund shall consist of any amounts deposited in the Fund under this Act.

(b) FUNDING.—Out of any money in the Treasury not otherwise appropriated, the Secretary of the Treasury shall deposit $8,132,838 into the Fund not later than 60 days after the date of enactment of this Act.

(c) INVESTMENTS.—The Secretary of the Treasury shall invest the amounts deposited in the Fund for that fiscal year and transfer at the end of the first fiscal year in which interest is deposited into the Fund, the Secretary of the Treasury shall withdraw the aggregate amount of interest deposited into the Fund for that fiscal year and transfer that amount to the Secretary of the Interior for use in accordance with paragraph (2).

Each amount so transferred shall be available without fiscal year limitation.

(2) PAYMENTS TO SANTEE SIOUX TRIBE.—(A) IN GENERAL.—The Secretary of the Interior shall use the amounts transferred under paragraph (1) only for the purpose of making payments to the Santee Sioux Tribe, as such payments are requested by that Indian tribe pursuant to tribal resolution.

(B) LIMITATION.—Payments may be made by the Secretary of the Interior under subparagraph (A) only after the Santee Sioux Tribe has adopted a tribal plan under section 6.

(C) USE OF PAYMENTS BY SANTEE SIOUX TRIBE.—The Santee Sioux Tribe shall use the payments made under subparagraph (A) only for carrying out projects and programs under the tribal plan pursuant to section 6.

(D) PLEDGE OF FUTURE PAYMENTS.—(I) IN GENERAL.—Subject to clause (ii), the Santee Sioux Tribe may enter into an agreement under which that tribe pledges future payments under this paragraph as security for a loan or other financial transaction.

(ii) LIMITATIONS.—The Santee Sioux Tribe—

(I) may enter into an agreement under clause (i) only in connection with the purchase of a capital asset; and

(II) may not pledge, for any year under an agreement referred to in clause (i), an amount greater than 40 percent of any payment made under this paragraph for that year.

(e) TRANSFERS AND WITHDRAWALS.—Except as provided in subsections (c) and (d)(1), the Secretary of the Treasury may not transfer or withdraw any amount deposited under subsection (b).

SEC. 6. TRIBAL PLANS.

(a) IN GENERAL.—Not later than 24 months after the date of enactment of this Act, the tribal council of each of the Yankton and Santee Sioux Tribes shall prepare a plan for the use of the payments to the tribe under section 5 referred to in this subsection as a “tribal plan”.

(b) CONTENTS OF TRIBAL PLAN.—Each tribal plan shall provide for the manner in which the tribe shall expend payments to the tribe under subsection (d) to promote—

(1) economic development;

(2) infrastructure development;

(3) the educational, health, recreational, and social welfare objectives of the tribe and its members; or

(4) any combination of the activities described in paragraphs (1), (2), and (3).

(c) TRIBAL PLAN REVIEW AND REVISION.—(1) IN GENERAL.—Each tribal council referred to in subsection (a) shall make available for review and comment by the members of the tribe a copy of the tribal plan for the Indian tribe before the tribal plan becomes final. The Secretary of the Interior shall review the tribal plan and shall request the tribe to revise the tribal plan. In revising the tribal plan under this paragraph, the tribal council shall provide the members of the tribe opportunity to review and comment on any proposed revision to the tribal plan.

(d) PLEDGE OF FUTURE PAYMENTS.—(I) IN GENERAL.—Each tribal council referred to in subsection (a) shall make available for review and comment by the members of the tribe a copy of the tribal plan for the Indian tribe before the tribal plan becomes final. The Secretary of the Interior shall review the tribal plan and shall request the tribe to revise the tribal plan. In revising the tribal plan under this paragraph, the tribal council shall provide the members of the tribe opportunity to review and comment on any proposed revision to the tribal plan.

SEC. 7. ELIGIBILITY OF TRIBE FOR CERTAIN PROBLEMS AND SERVICES.

(a) IN GENERAL.—No payment made to the Yankton Sioux Tribe or Santee Sioux Tribe pursuant to this Act shall result in the reduction or denial of any service or program to which, pursuant to Federal law—

(1) the Yankton and Santee Sioux Tribes are otherwise entitled because of the status of the tribe as a federally recognized Indian tribe; or

(2) any individual who is a member of a tribe under paragraph (1) is entitled because of the status of the individual as a member of the tribe.

(b) EXEMPTIONS FROM TAXATION.—No payment made pursuant to this Act shall be subject to any Federal or State income tax.

(c) POWER RATES.—No payment made pursuant to this Act shall affect Pick-Sloan Missouri River Basin rates.

SEC. 8. STATUTORY CONSTRUCTION.

Nothing in this Act may be construed as diminishing or affecting any water right of an Indian tribe, except as specifically provided in another provision of this Act, any treaty right that is in effect on the date of enactment of this Act, any authority of the Secretary of the Interior or the head of any other Federal agency under a law in effect on the date of enactment of this Act, or any Federal or State law or regulation.

SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act, including such sums as are necessary for the administration of the Yankton Sioux Tribe Development Trust Fund under section 4 and the Santee Sioux Tribe of Nebraska Development Trust Fund under section 5.

Mr. KERREY. Mr. President, today, I join with my colleagues to introduce the Yankton Sioux Tribe and the Santee Sioux Tribe of Nebraska Development Trust Fund Act. This legislation will provide compensation to the Yankton and Santee Sioux Tribes for damages incurred by the development of the Pick-Sloan Missouri River Basin program.

As a result of the construction of Pick-Sloan development projects on tribally-held land adjacent to the Missouri river, Tribes were subjected to forced land takings, involuntary resettlement of families, and the loss of irreplaceable reservation resources.

The Santee Sioux Tribe of Nebraska lost approximately 600 acres of Indian land located near the Santee village and an additional 400 acres on the Nebraska Island of the Santee Sioux Tribe Indian Reservation.

Congress provided compensation to other Native American Tribes for losses caused by the Pick-Sloan projects. However, the Yankton and the Santee Sioux Tribes were not provided opportunities to receive compensation by Congress. Instead, they received settlements based on the compromised value of their property through condemnation proceedings in U.S. District Court. But these Tribes did not receive rehabilitation compensation. As a result, the Yankton and Santee Sioux Tribes are entitled to this additional compensation.

This legislation seeks to utilize revenues from the sale of hydropower generated by the Pick-Sloan dams to readdress tribal claims for land takings. Congress has endorsed this approach on three separate occasions by enacting legislation which established compensation for several other Tribes adversely impacted by the Pick-Sloan projects.

We propose to establish trust funds for the Yankton and Santee Sioux Tribes from a portion of the revenues of hydropower sales made by the Western Area Power Administration. More specifically, the Santee Sioux Tribe of Nebraska would receive a yearly payment of interest on its share of the principal in the trust fund. Our legislation encourages the Santee Sioux Tribe to craft an economic development plan for use of the interest income. This
By Mr. LAUTENBERG:

S. 1149. A bill to amend the Safe Drinking Water Act to increase consumer confidence in safe drinking water and source water assessments, and for other purposes; to the Committee on Environment and Public Works.

The DRINKING WATER RIGHT-TO-KNOW ACT OF 1999

Mr. LAUTENBERG. Mr. President, I am introducing today the Drinking Water Right-To-Know Act of 1999. This legislation is designed to give the public the Right to Know about contaminants in their drinking water that are unregulated, but still may present a threat to their health.

Mr. President, when we passed the Safe Drinking Water Act Amendments of 1996, I praised the bill because I believed it would enhance both the quality of our drinking water and America's confidence in its safety. While the bill did not require that states perform every measure necessary to protect public health, it provided tremendous flexibility and discretion to allow the states to do so.

I was especially hopeful that in my state—the most densely-populated state in the country, a state with an unfortunate legacy of industrial pollution, a state whose newspaper articles describing threats to drinking water seem to appear every few days—that our state agencies would exercise their discretion to be more protective of public health than the minimum required under our 1996 bill.

Mr. President, I am sad to say I have been disappointed. I am sad to say that in my state, and probably in some of my colleagues' as well, the state agency has clung too closely to the bare minimum requirements. A good example of this is in the “Source Water Assessment Plan,” proposed by the state of New Jersey last November, as required by the 1996 law.

Under the law, the state is required to perform Source Water Assessments to identify geographic areas that are sources of public drinking water, assess the water systems' susceptibility to contamination, and inform the public of the results. The state's Source Water Assessment Plan describes the program for carrying out the assessments.

An aggressive Source Water Assessment program is essential if a state is going to achieve the goals we had for the 1996 Safe Drinking Water Act. Source Water Assessment is the keystone of the program by which the public will be able to know, immediately, and treat, but prevent—contamination of our drinking water resources. Source Water Assessment also underpins what I believe will be the most far-reaching provisions of the law—those giving the public the Right to Know about potential threats to its drinking water.

Mr. Chairman, there are serious deficiencies in my state’s proposed Source Water Assessment Plan. These are deficiencies that I fear may characterize other states' plans as well.

First, under the proposed plan, the state will not identify and evaluate the threat presented by contaminants unless they are among the 80 or so specifically regulated under the Safe Drinking Water Act. Under my bill, the state might ignore even contaminants known to be leaching into drinking water from toxic waste sites. For example, the chemical being studied as a possible cause of childhood cancer at Tomahawk, New Jersey would not be evaluated under the state’s plan. Radium 224, recently discovered in drinking water across my state, might not be evaluated under the state’s plan until specifically regulated. With gaps like that in our information, what do I tell the families when they want to know what is in their drinking water?

In addition, under its proposed plan, the state would not consult the public in identifying and evaluating threats to drinking water. This exclusion would almost certainly result in exclusion of the detailed information known to the watershed groups and other community groups which exist across New Jersey and across the country. Also, the state plan does disclose the assessments are vague and imply that only summary data would be made available to the public. The public must have complete and easy access to assessments for the Right to Know component of the drinking water program to be effective.

The Drinking Water Right-To-Know Act of 1999 will address these deficiencies by amending the Safe Drinking Water Act to improve Source Water Assessments and Consumer Confidence Reports. First, under my bill, when the state performs Source Water Assessments, it will assess the threat posed, not just by regulated contaminants, but by certain unregulated contaminants believed by EPA and U.S. Geological Survey to cause health problems, and contaminants known to be released from local pollution sites, such as Superfund sites, other waste sites, and factories. The bill will also require the state to identify potential contamination of groundwater, even outside the immediate area of the well, perform the assessments with full involvement from the public, and update the assessments every five years.

Second, the Drinking Water Right-To-Know Act of 1999 will make several important improvements to the “Consumer Confidence Reports” required under the 1996 law to notify the public of water contamination. The bill will require monitoring and public notification, not only of regulated contaminants, but of significant unregulated contaminants identified through the Source Water Assessments, and of sources of contamination. The bill will not require local water purveyors to monitor for every conceivable contaminant—only those identified by the state as posing a threat and having been released by a potentially significant source. In addition, the bill will require notification of new or sharply-increased contamination.

Third, the bill will require that testing for the presence of radium 224 take place within 48 hours of sampling the drinking water, so that public water supplies can have an accurate assessment of this rapidly-decaying radioactive contaminant.

Mr. President, the public has the Right-to-Know about the full range of contaminants they might find in their tap water. The Drinking Water Right-To-Know Act of 1999 will guarantee them that right. I urge my colleagues to co-sponsor this legislation.

Thank you, Mr. President. I ask unanimous consent that the text of the bill be printed into the RECORD. There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1149

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Drinking Water Right-To-Know Act of 1999”.

SEC. 2. RADIIUM 224 IN DRINKING WATER.

Section 142(b)(13) of the Safe Drinking Water Act (42 U.S.C. 300g–1(b)(13)) is amended by adding at the end the following:

“(H) RADIIUM 224 IN DRINKING WATER.—A national primary drinking water regulation for radionuclides promulgated under this paragraph shall require testing drinking water for the presence of radium 224 not later than 48 hours after taking a sample of the drinking water.”.

SEC. 3. CONSUMER CONFIDENCE REPORTS BY COMMUNITY WATER SYSTEMS.

Section 1424(c)(4) of the Safe Drinking Water Act (42 U.S.C. 300g–1(c)(4)) is amended—

(1) in subparagraph (A)—

(A) by striking “The Administrator” and inserting the following:

“(i) in GENERAL.—The Administrator”;

(B) in the first sentence—

(1) by striking “consumer of” and inserting “consumer of the drinking water provided by”; and
(ii) by inserting before the period at the end of the paragraph, the term ‘‘consumer’’ includes—

(i) any detection of a contaminant described in section 1433(a)(2)(D);

(ii) any known or potential health effects of each contaminant detected in the drinking water, to the maximum level of specification, including adverse health effects of each contaminant on children, pregnant women, and other vulnerable subpopulations, as determined by the Administrator;

(iii) known or suspected sources of contaminants detected in the drinking water identified by name and location; and

(iv) any advisory issued for the contaminant, including actions that consumers can take to protect themselves from contamination in the drinking water supplied by the community water system;''

(3) by adding at the end the following:

‘‘(a) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

(b) the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.);’’

(cc) the Clean Air Act (42 U.S.C. 7401 et seq.); or

(dd) section 313 of the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. 11023); or

(iv) is monitored under the source water assessment program established under this subsection;

(v) is known or suspected to be from a pollution source, including—

(I) a nonpoint source;

(II) a facility subject to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.); or

(III) a factory or other operating facility that generates, treats, stores, disposes of, or discharges a material regulated or reported under—

(aa) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

(bb) the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.);’’

(cc) the Clean Air Act (42 U.S.C. 7401 et seq.) or

(dd) section 313 of the Superfund Amendments and Reauthorization Act of 1986 (42 U.S.C. 11023); or

(vi) is monitored by the United States Geological Survey under the National Water Quality Assessment program;

(D) identify each contaminant described in subparagraph (C) that the State determines presents a threat to public health;

(E) for each assessment under subparagraph (C), require monitoring for contaminants described in subparagraph (C) and the State determines that a contaminant may have been released by a potentially significant source;

(F) identify, with the maximum specificity practicable, known or suspected sources of pollution that may threaten public health;

(G) apply to wells, groundwater recharge areas, and other assessment areas determined to be appropriate by the Administrator; and

(H) be developed, updated, and implemented in cooperation with the general public that are served by each source water assessment area included in the program;’’

(ii) as soon as practicable, but not later than 30 days after the date of the discovery of new contamination or the detection of a significant increase in contamination (as compared to the level of contamination reported in any previous consumer confidence report) by an unregulated contaminant.

‘‘(A) INITIAL PLAN.—Not later than 1 year after the date of enactment of this paragraph, the State shall submit to the Administrator the plan of the State for carrying out this subsection.

(B) UPDATES.—Not later than 5 years after the date of the initial submission of the plan, and every 5 years thereafter the State shall update, and submit to the Administrator, the plan of the State for carrying out this subsection.’’

By Mr. HATCH (for himself, Mr. BAUCUS, MRS. FEINSTEIN, MR. KYL, MR. ROBB, and MR. BINGMAN):

S. 1150. A bill to amend the Internal Revenue Code of 1986 to more accurately codify the depreciable life of semiconductor manufacturing equipment; to the Committee on Finance.

THE SEMICONDUCTOR EQUIPMENT INVESTMENT DEDUCTION

Mr. HATCH. Mr. President, I rise today to introduce the Semiconductor Investment Act of 1999. I am joined by Senators BAUCUS, FEINSTEIN, KYL, ROBB, and BINGMAN. This bill is designed to help the American semiconductor industry compete globally by shortening the depreciable life of semiconductor manufacturing equipment from 5 years to 3.

The U.S. semiconductor industry employs more than 275,000 Americans, sells over $67 billion of products annually, and currently controls 55 percent of the $122 billion world market. Its products form the foundation of practically every electronic device used today. Growth in this industry translates directly into new employment opportunities for American workers and to economic growth for the nation as a whole.

The American semiconductor industry is a success story because it has invested heavily in the most productive, cutting-edge technology available, and currently spends 14% of its revenues on research and development and 19% on capital investment. Unfortunately, Mr. President, our semiconductor industry is threatened.

While the equipment used to manufacture semiconductors has a useful life of only about 3 years, current tax depreciation rules require that cost of the equipment be written off over a full 5 years. The Semiconductor Investment Act would correct this flaw, Mr. President, by allowing equipment used in the manufacture of semiconductors to be depreciated over a more appropriate 3-year period. Given the massive level of investment in the semiconductor industry, accurate depreciation is critical to industry success.

The key reason for this 3-year depreciation period is that the equipment used to make semiconductors grows

and all documentation related to the assessments after ‘‘assessments’’.

(c) PLAN.—Section 1453(a) of the Safe Drinking Water Act (42 U.S.C. 300j–13(a)) is amended by adding at the end the following:

‘‘(A) INITIAL PLAN.—Not later than 1 year after the date of enactment of this paragraph, the State shall submit to the Administrator the plan of the State for carrying out this subsection.

(B) UPDATES.—Not later than 5 years after the date of initial submission of the plan, and every 5 years thereafter the State shall update, and submit to the Administrator, the plan of the State for carrying out this subsection.’’

CONGRESSIONAL RECORD—SENATE

The American semiconductor industry is a success story because it has invested heavily in the most productive, cutting-edge technology available, and currently spends 14% of its revenues on research and development and 19% on capital investment. Unfortunately, Mr. President, our semiconductor industry is threatened.

While the equipment used to manufacture semiconductors has a useful life of only about 3 years, current tax depreciation rules require that cost of the equipment be written off over a full 5 years. The Semiconductor Investment Act would correct this flaw, Mr. President, by allowing equipment used in the manufacture of semiconductors to be depreciated over a more appropriate 3-year period. Given the massive level of investment in the semiconductor industry, accurate depreciation is critical to industry success.

The key reason for this 3-year depreciation period is that the equipment used to make semiconductors grows
 SEC. 2. 3-YEAR DEPRECIABLE LIFE FOR SEMICONDUCTOR MANUFACTURING EQUIPMENT.

(a) IN GENERAL.—Subparagraph (A) of section 168(e)(3) of the Internal Revenue Code of 1986 (relating to classification of property) is amended by striking “and” at the end of clause (ii), by striking the period at the end of clause (iii) and inserting “; and”, and by adding at the end the following new clause: “(iv) any semiconductor manufacturing equipment.”

(b) CONFORMING AMENDMENTS.—

(1) Subparagraph (B) of section 168(e)(3) of such Code is amended—

(A) by striking clause (ii),

(B) by redesignating clauses (iii) through (vi) as clauses (ii) through (v) respectively, and

(C) by striking “clause (vi)” in the last sentence and inserting “clause (v)”.

(2) Subparagraph (B) of section 168(g)(3) of such Code is amended by striking the items relating to subparagraphs (B)(ii) and subparagraph (B)(iii) and inserting the following: (A)(iv) ..................................... 3

(B)(ii) ......................... 9.5”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to equipment placed in service after the date of the enactment of this Act.

By Mr. THOMPSON (for himself, Mr. LIEBERMAN, Mr. WARNER, and Mr. LEVIN).

S. 1151. A bill to amend the Office of Federal Procurement Policy Act to streamline the application of cost accounting standards; to the Committee on Governmental Affairs.

COST ACCOUNTING STANDARDS AMENDMENTS OF 1999

Mr. THOMPSON Mr. President, I rise today to introduce a bill on behalf of myself as chairman of the Governmental Affairs Committee and Senator LIEBERMAN, the Committee’s ranking minority member, and Senators WARNER and LEVIN, the ranking minority member of the Armed Services Committee. This legislation will benefit the procurement process in all agencies across the Federal government.

In recent years, Congress has enacted two major acquisition reform statutes—the Federal Acquisition Streamlining Act of 1994 (FASA) and the Clinger-Cohen Act of 1996. These statutes changed the trend in government contracting toward simplifying the government’s acquisition process and eliminating many government-unique requirements. The goal of these changes in the government’s purchasing processes has been to modify or eliminate unnecessary and burdensome legislative mandates, increase the use of commercial items to meet government needs, and give more discretion to contracting agencies in making their procurement decisions.

Since the early 1900’s, the Federal government has required certain companies to create unique accounting systems to do business with the government in cost-type contracts. Advocates of relaxing the CAS standards argue that they require companies to create unique accounting systems that have discouraged some commercial companies from doing business with the government, and led others to set up separate assembly lines for government products, substantially increasing costs to the government.

This bill carefully balances the government’s need for greater access to commercial items, particularly those of nontraditional suppliers, with the need for a strong set of CAS standards to protect the taxpayers from overpaying for government contracts. The bill would modify the CAS standards to streamline their applicability, while maintaining the acceptability of the standards to the vast majority of contract dollars that are currently covered. In particular, the bill would raise the threshold for coverage under the CAS standards from $25 million to $50 million; exempt contractors from coverage if they do not have a contract in excess of $5 million; and exclude coverage based on firm, fixed price contracts awarded on the basis of Defense, and of adequate price competition without the submission of certified cost or pricing data.

The bill also would provide for waivers of the CAS standards by Federal agencies in limited circumstances. This would allow contracting agencies to handle this contract administration function, in limited circumstances, as part of their traditional role in administering contracts. Our intent is that waivers would be available for contracts in excess of $20 million only in ‘exceptional circumstances.’ The ‘exceptional circumstances’ waiver may be used only when a waiver is necessary to meet the needs of an agency,
and i.e., the agency determines that it would not be able to obtain the products or services in the absence of a waiver.

I ask unanimous consent that a copy of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1151

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Cost Accounting Standards Amendments of 1999”.

SEC. 2. STREAMLINED APPLICABILITY OF COST ACCOUNTING STANDARDS.

(a) APPLICABILITY.—Paragraph (2) of section 26(f) of the Office of Federal Procurement Policy Act (41 U.S.C. 422(r)(2)) is amended—

(1) by redesignating subparagraph (C) as subparagraph (D);

(2) by striking subparagraph (B) and inserting the following:

“(B) The cost accounting standards shall not apply to a contractor or subcontractor for a fiscal year (or other one-year period used for cost accounting by the contractor or subcontractor) if the total value of all of the contracts and subcontracts covered by the cost accounting standards that were entered into by the contractor or subcontractor, respectively, in the previous fiscal year (or other one-year cost accounting period) was less than $50,000,000.

“(C) Paragraph (A) does not apply to the following contracts or subcontracts for the purpose of determining whether the contractor or subcontractor is subject to the cost accounting standards:

(i) Contracts for the acquisition of commercial items.

(ii) Contracts or subcontracts where the price negotiated is based on prices set by law or regulation.

(iii) Firm, fixed-price contracts or subcontracts awarded on the basis of adequate price competition without submission of certificated cost or pricing data.

(iv) Contracts or subcontracts with a value that is less than $5,000,000.

(b) Waiver. Section 26(f) of the Office of Federal Procurement Policy Act (41 U.S.C. 422(f)) is amended by adding at the end the following:

“(5)(A) The head of an executive agency may waive the applicability of cost accounting standards for a contract or subcontract with a value less than $10,000,000 if that official determines in writing that—

(i) the contractor or subcontractor is primarily engaged in the sale of commercial items; and

(ii) the contractor or subcontractor would not otherwise be subject to the cost accounting standards.

“(B) The head of an executive agency may also waive the applicability of cost accounting standards for a contract or subcontract under extraordinary circumstances when necessary to meet the needs of the agency. A determination to waive the applicability of cost accounting standards under this subparagraph shall be set forth in writing and shall include a statement of the circumstances justifying the waiver.

“(C) An executive agency may not delegate the authority under subparagraph (A) or (B) to any official in the executive agency below the senior policymaking level of the executive agency.

“(D) The Federal Acquisition Regulation shall include the following:

(i) Criteria for selecting an official to be delegated authority to grant waivers under subparagraph (A) or (B).

(ii) The specific circumstances under which such a waiver may be granted.

(E) The head of each executive agency shall report the waivers granted under subparagraphs (A) and (B) for that agency to the Board on an annual basis.

(F) CONSTRUCTION REGARDING CERTAIN NOT-FOR-PROFIT ENTITIES.—The amendments made by this section shall not be construed as modifying or superseding, nor as intended to impair or restrict, the applicability of the cost accounting standards to—

(1) any educational institution or federally funded research and development center that is associated with an educational institution in accordance with Office of Management and Budget Circular A-21, as in effect on January 1, 1999; or

(2) any contract with a nonprofit entity that provides research and development and related products or services to the Department of Defense.

SEC. 3. EFFECTIVE DATE.

This Act and the amendments made by this Act shall take effect 180 days after the date of enactment of this Act.

By Ms. SNOWE:

S. 1152. A bill to amend title 5, United States Code, to ensure that coverage of bone mass measurements is provided under the health benefits program for Federal employees; to the Committee on Governmental Affairs.

OSTEOPOROSIS FEDERAL EMPLOYEE HEALTH BENEFITS STANDARDIZATION ACT

• Ms. SNOWE. Mr. President, I rise today to reintroduce legislation that will standardize coverage for bone mass measurement for people at risk for osteoporosis under the Federal Employee Health Benefits Program. This legislation is similar to my bill which was enacted as part of the Balanced Budget Act to standardize coverage of bone mass measurement under Medicare. The bill I reintroduce today guarantees the same uniformity of coverage to Federal employees and retirees as Congress provided to Medicare beneficiaries two years ago.

Osteoporosis is a major public health problem affecting 28 million Americans, who either have the disease or are at risk due to low bone mass; 80 percent of its victims are women. This devastating disease causes 1.5 million fractures annually at a cost of $13.8 billion—$33 billion per year—in direct medical expenses. In their lifetime, one in two women and one in eight men over the age of 50 will fracture a bone due to osteoporosis. Amazingly, a woman’s risk of a hip fracture is equal to her combined risk of contracting breast, uterine, and ovarian cancer.

Osteoporosis is largely preventable and thousands of fractures could be avoided if low bone mass were detected early and treated. Though we now have drugs that promise to reduce fractures by 50 percent and new drugs have been proven to actually rebuild bone mass, a bone mass measurement is the only way to diagnose osteoporosis and determine one’s risk for future fractures. And we have learned that there are some prominent risk facts: age, gender, family history of bone fractures, early menopause, risky health behaviors such as smoking and excessive alcohol consumption, and some medications all have been identified as contributing factors to bone loss. But identification of risk factors alone cannot predict how much bone a person has and how strong bone is—experts estimate that without bone density tests, up to 40 percent of women with low bone mass could be missed.

Unfortunately, coverage of bone density tests under the Federal Employee Health Benefit Program (FEHBP) is inconsistent. Instead of a comprehensive national coverage policy, FEHBP leaves it to each of the nearly 300 participating plans to decide who is eligible to receive a bone mass measurement and what constitutes medical necessity. Many plans have no specific rules to guide reimbursement and cover the tests on a case-by-case basis. Some plans refuse to provide coverage, some cover after some amount of time, and others do not provide information indicating when the plan covers the test and when it does not and some plans cover the test only for people who already have osteoporosis.

Mr. President, we owe the people who serve our Government more than that. We know that osteoporosis is highly preventable, but only if it is discovered in time. There is simply no substitute for early detection. My legislation standardizes coverage for bone mass measurement under the FEHBP and I urge my colleagues to support this legislation.

By Mr. HARKIN (for himself, Mr. DASCHLE, Mr. MURRAY, Mr. BAUCUS, Mr. CONRAD, Mr. WELLSTONE, Mr. JOHNSON, Mr. WYDEN, Mr. REID, Mr. KERRY, Mr. ROCKEFELLER, and Mrs. MURRAY):

S. 1153. A bill to establish the Office of Rural Advocacy in the Federal Communications Commission, and for other purposes; to the Committee on Commerce, Science, and Transportation.

RURAL TELECOMMUNICATIONS IMPROVEMENT ACT OF 1999

Mr. HARKIN. Mr. President, today I am introducing important legislation to assist rural America, the Rural Telecommunications Improvement Act of 1999. I am pleased to be joined in this effort by our distinguished Democratic leaders, Senator DASCHLE, as well as Senators DORGAN, BAUCUS, CONRAD, WELLSTONE, JOHNSON, WYDEN, REID, KERRY, ROCKEFELLER and MURRAY. I would like to thank each of them for joining me in this effort to promote the interests of rural America within the Federal Communications Commission (FCC).

Our legislation will establish an Office of Rural Advocacy within the FCC
to promote access to advanced telecommunications in rural areas. The Rural Advocate will be responsible for focusing the Commission’s attention on the importance of rural areas to the future of American prosperity, as well as on ensuring that Universal Service provisions mandated by the Communications Act and the Telecommunications Act are being met and implemented.

Our proposal is modeled on the Small Business Administration’s Office of Advocacy, which has been very successful in promoting the interests of small businesses within the U.S. government.

Under our bill, the Office of Rural Advocacy will have 9 chief responsibilities:

- To promote access to advanced telecommunications service for populations in the rural United States.
- To develop proposals to better fulfill the commitment of the Federal Government to universal service and access to advanced telecommunications services in rural areas.
- To assess the effectiveness of existing Federal programs for providers of telecommunications services in rural areas.
- To measure the costs and other effects of Federal regulations on telecommunications services in rural areas.
- To counsel providers of telecommunications services in rural areas.
- To represent the views and interests of rural populations and providers of telecommunications services in rural areas; and
- To enlist the cooperation and assistance of public and private agencies, businesses, and other organizations in providing information about the telecommunications programs and services of the Federal Government which benefit rural areas and telecommunications companies.

Mr. President, such an office within the FCC is needed for one very important reason, no bureau or Commissioner at the FCC has as an institutional role with the responsibility to promote the interests of rural telecommunications. The FCC has a great number of issues to consider due to the ever changing role of communications.

Our legislation will ensure the FCC has the resources necessary to focus the Commission’s attention on rural issues and will help establish an agenda at the FCC to address rural America’s telecommunications needs, something the Commission has not done in the recent past. For example, the FCC’s report on Advanced Telecommunications Services stated “deployment of advanced telecommunications generally appears to be fragmented and timely.” I can tell you Mr. President, this is not the case in Iowa where, according to the Iowa Utilities Board (IUB), approximately 8% of our exchanges have no access to the Internet. Additionally, access in many rural areas is of low speed and poor quality. This doesn’t even include access to broadband, or high-speed Internet access, which is not available in numerous rural areas and small towns in Iowa and across the country.

Other examples of the FCC’s lack of focus on rural issues include a failure to understand how rural telephone cooperatives interact with their members, such as preventing rural telephone cooperatives from calling members to check on long distance preference changes, and an FCC definition that establishes a 3000 hertz level of basic voice grade service, when such a low level prevents Internet access on longer loops in rural areas.

In order to effectively influence policy on rural telecommunications, this legislation gives the Rural Advocate the rank of a bureau chief within the FCC. The Rural Advocate will also have the authority to file complaints or reports on any matter before the Federal Government affecting rural telecommunications without having to clear the testimony with the OMB or the FCC. Additionally, the Rural Advocate can file reports with the Administration, Congress and the FCC to recommend legislation or changes in policy. Finally, the Rural Advocate will be appointed directly by the President and confirmed by the Senate.

Mr. President, this legislation would allow rural America to enter the fast lane of the Information Superhighway. Again, thank you to my colleagues who have joined me in sponsoring this proposal. I urge all Senators to consider joining us in moving this initiative forward.

I ask unanimous consent that a copy of our proposal be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1153

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Rural Telecommunications Improvement Act of 1999”.

SEC. 2. ESTABLISHMENT OFFICE OF RURAL ADVOCACY IN THE FEDERAL COMMUNICATIONS COMMISSION.

(a) ESTABLISHMENT.—Title I of the Communications Act of 1934 (47 U.S.C. 151 et seq.) is amended by adding at the end the following:

“SEC. 12. OFFICE OF RURAL ADVOCACY.

(a) ESTABLISHMENT.—There shall be in the Commission an office to be known as the ‘Office of Rural Advocacy’. The office shall not be a bureau of the Commission.

(b) HEAD OF OFFICE.—(1) The Office shall be headed by the Rural Advocate of the Federal Communications Commission. The Rural Advocate shall be appointed by the President, by and with the advice and consent of the Senate, from among citizens of the United States.

(2) The Rural Advocate shall have a status and rank in the Commission commensurate with the status and rank in the Commission of the heads of the bureaus of the Commission.

(c) RESPONSIBILITIES OF OFFICE.—The responsibilities of the Office shall be:

(1) To promote access to advanced telecommunications service for populations in the rural United States.

(2) To develop proposals for the modification of policies and activities of the departments and agencies of the Federal Government in order to better fulfill the commitment of the Federal Government to universal service and access to advanced telecommunications services in rural areas, and submit such proposals to the departments and agencies.

(3) To assess the effectiveness of existing Federal programs for providers of telecommunications services in rural areas, and make recommendations for legislative and non-legislative actions to improve such programs.

(4) To measure the costs and other effects of Federal regulations on the capability of telecommunication carriers in rural areas to provide adequate telecommunications services (including advanced telecommunications and information services) in such areas, and make recommendations for legislative and non-legislative actions to modify such regulations so as to minimize the interference of such regulations with that capability.

(5) To determine the effect of Federal tax laws on providers of telecommunications services in rural areas, and make recommendations for legislative and non-legislative actions to modify Federal tax laws so as to enhance the availability of telecommunications services in rural areas.

(6) To serve as a focal point for the receipt of complaints, criticisms, and suggestions concerning policies and activities of any department or agency of the Federal Government affecting rural telecommunications services, and make recommendations for legislative and non-legislative actions to modify such regulations so as to enhance the availability of telecommunications services in rural areas.

(7) To counsel providers of telecommunications services in rural areas on the effective resolution of questions and problems in the relationships between such providers and the Federal Government.

(8) To represent the views and interests of rural populations and providers of telecommunications services in rural areas before any department or agency of the Federal Government whose policies and activities affect the receipt of telecommunications services in rural areas.

(9) To enlist the cooperation and assistance of public and private agencies, businesses, and other organizations in disseminating information about the telecommunications programs and services of the Federal Government which benefit rural areas and telecommunications companies.

(10) STAFF AND POWERS OF OFFICE.—

(A) IN GENERAL.—For purposes of carrying out the responsibilities of the Office under this section, the Rural Advocate may employ such personnel as the Commission shall determine are necessary for the operation of the Office as the Rural Advocate considers appropriate.
Mr. VOINOVICH. Mr. President, I rise today to introduce legislation with several of my Senate colleagues that will address the physical, cognitive and social development of an over-looked segment of our nation’s population—children from prenatal to three years old.

Our bill, the “Prenatal, Infant and Child Development Act of 1999,” will give states the necessary tools to help prepare and educate families expecting a child. It will aid patterns and abilities that they will use throughout their lives. We need to do all that we can to create healthy, early childhood development systems across the country, and Senator Graham and I believe it is within the first three years the most important years of a child’s life—prenatal to three—that the most beneficial influence can be provided by parents, grandparents and caregivers.

Every field of endeavor has peak moments of discovery, when past knowledge converges with new information, new insights and new technologies to produce startling opportunities for advancement. For the healthy development of young children—we are faced with one such moment. Today, thanks to decades of research on brain chemistry and sophisticated new technologies, neuroscientists have the data that tells us the experiences that fill a baby’s first days, months, and years have a decisive impact on the architecture of the future and the extent of one’s adult capabilities. It is the education, the love and the nurturing that our children receive during the years prenatal to three that will help determine who they become 10, 20 and 30 years down the road.

Consequently, a tremendous opportunity exists to assist those individuals and families most at risk in the area of prenatal care through age three. We must work to create systems that support and educate families expecting a baby and those already with young children. We must present a message that is perfectly clear—education does not and cannot begin in kindergarten, or even in a quality preschool. Thus, we must support parents and caregivers, to help them understand that day-to-day interaction with young children helps children develop cognitively, socially and emotionally.

To ensure that children have the best possible start in life, supports must exist to help parents and other adults who care for young children. Supports that are critical for young children from prenatal through age three include health care, nutrition programs, childcare, early development services, adoption assistance, education programs, and other support services.

There are three ways we can enhance these supports and create new ones. The first is to build on existing programs well underway in the states and the local communities by protecting and increasing federal commitments to worthwhile programs such as WIC (Women, Infants, and Children), CCDBG (Child Care and Development Block Grant), and S–CHIP (State Children’s Health Insurance Program). The second is to improve coordination among federal agencies in the administration of early childhood programs. As Chairman of the Senate Governmental Affairs Committee, I believe it is crucial that federal agencies coordinate their efforts to provide the best possible support for young children and their families.

The Results Act contemplates that agencies should be using their Performance Plans to demonstrate how daily activities, including coordination, contribute to the achievement of strategic
goals. GAO evaluated the Departments of Education and Health and Human Services Strategic Plans for FY 1999 and FY 2000 Annual Performance Plans with regard to their coordination efforts. GAO found that both departments’ plans are not living up to their full potential. While they address the issue of coordination, the plans provide little detail about their intentions to implement such coordination efforts. I met with both departments and asked that they submit an amended Performance Plan that provided a more detailed compilation of coordination activities and examples. We should emerge from this exercise with a consensus on the most promising programs for our children.

The third way to improve support services is to encourage states to make prenatal care available for all pregnant women. Our bill gives state and local governments additional resources to provide needed support services. At the same time, it recognizes that tight spending restraints limit available resources. Consequently, it is a modest, incremental bill that encourages collaboration and integration among existing programs and services and provides additional flexibility to states and local governments if they implement programs to provide coordinated services dedicated to meeting the needs of young children.

Most child advocacy groups rank collaboration on the local level as fundamental to successful programs for healthy childhood development. Under the bill, funds will be provided through the CCDBG program and will reward states that initiate such collaboration in creating state and local councils. It will also encourage states with existing collaboratives to help other states expand their focus to social, emotional and cognitive development so that children have the best possible start in life. Funds could be used for a variety of coordinated services, such as child care, child development, pediatric literacy, parent education, home visits, or health services. States will lay out plans that identify ways to further promote the importance of early childhood care and education. Plans should also identify existing supports available and services state and local councils can work with already established early development programs.

In addition, the bill focuses on three particular areas to increase public awareness and enhance training opportunities for parents and other adults caring for young children.

The first would provide funding to expand a satellite television network nationally. In order to help parents and caregivers do a better job of helping children learn, an environment where kids can learn, the legislation provides funds to support satellite television network services directly connected to child care centers, preschools, colleges, Early Head Start sites and the Internet. These services include high quality training, and provide medical information dedicated to the specific needs of the Head Start staff and others in the early childhood community. In my state of Ohio, we already have networks in place at 1,500 sites.

The second would provide incentives for child-care workers to pursue credentialing or accreditation in early childhood education. Although many states do not have formal credentialing standards, there are several national organizations with accreditation curricula. The legislation would encourage caregivers to pursue skills-based training (including via satellite or on the Internet) that leads to credentialing or accreditation by the state or national organization. Whatever qualified incentive program is initiated, employers would be required to match each dollar of the Federal contribution.

The third would reauthorize and expand the multimedia parenting resources through video, print and interactive resources in the PBS “Ready to Learn” initiative. These resources include:

- Expanded Internet offerings that enable parents to reinforce PBS’ “Ready to Learn” curriculum at home. “Ready to Learn” courseware is directly accessible from the web for parents to utilize in reinforcing their child’s appreciation of public television programs prior to and after program viewing.
- Expanded national programming, such as Mr. Rogers and Sesame Street.
- Formalized and expanded “Ready to Learn Teachers’” training and certifi cate programs using “The Whole Child” video courseware, collateral print materials and the development of new video and print courseware.
- Expanded caregiver/parent training which would include workshops, distribution of material, and broadcasting of educational video vignettes regarding developmentally appropriate activities for young children.

Deployment of a 24-hour channel of Ready to Learn-based children’s programming and parenting training through digital technology.

Our bill is now the Temporary Assistance for Needy Families (TANF) program to serve young children in a more effective manner by allowing states the ability to transfer up to 10 percent of a state’s TANF grant to the Social Services Block Grant (SSBG). Originally, the 1996 welfare reform block grant to states which includes the TANF. However, this was restricted in 1998 to allow states to transfer just 4.25 percent of their TANF grant as an offset to help pay for new highway investments in TEA–21. Social Services Block Grants (Title XX of the Social Security Act) are a flexible source of funds that states may use to support a wide variety of social services for children and families, including child day care, protective services for children, foster care, and home-based services.

The bill would also allow an additional 15 percent transfer of TANF money to the Child Care and Development Block Grant (CCDBG) for expenditures under a state early childhood collaboration program. Currently, states are permitted to transfer up to 30 percent of TANF to a combination of the CCDBG and SSBG. The Welfare Reform Act restructured federal childcare programs, repealed three welfare-related childcare programs and amended the Child Care Development Block Grant (CCDBG). Under current law, states receive a combination of mandatory and discretionary grants, part of which is subject to a state match. These funds would allow states to create or expand local early childhood development coordination councils (10 percent of the transfer authority), or to enhance child care quality in existing programs (5 percent of the transfer authority).

Using these new resources, states can implement coordinated programs at the local level, such as “one-stop shopping” for parents with young children. Under this particular program, parents could have a well-baby care visit, medical appointments, and concerns about the baby’s development or receive referrals for help in enrollment in child-care.

Further, the legislation would alter the high performance bonus fund within TANF to include criteria related to child welfare. The current criteria are based upon the recommendations of the National Governors’ Association (NGA) high performance bonus fund work group. The bonus fund currently provides an annual incentive to states for meeting certain work-related performance targets, such as improvement of long-term self-sufficiency rates by current and former TANF recipients. The performance targets should be expanded to include family- and child-related criteria, such as increases in immunization rates, literacy and preschool participation.

Finally, our bill encourages States to use their Maternal and Child Health Services Block Grant to target activities that address the needs of children from prenatal to three. The Maternal and Child Health Services Block Grant funds a broad range of health services...

TITLE II—EXPANSION OF THE MATER-NAL AND CHILD HEALTH SERVICES BLOCK GRANT

Sec. 201. Authority to provide State programs for the development of children under age 5.

TITLE III—SATELLITE TRAINING

Sec. 301. Short title.
Sec. 303. Satellite television network.

TITLE IV—HEALTHY EARLY CHILDHOOD DEVELOPMENT SYSTEMS OF CARE

Sec. 401. Block grants to States for healthy early childhood development systems of care.

TITLE V—CREDENTIALING AND ACCREDITATION

Sec. 501. Definitions.
Sec. 502. Authorization of appropriation.
Sec. 503. State allotments.
Sec. 504. Application.
Sec. 505. State child care credentialing and accreditation incentive program.
Sec. 506. Administration.
Sec. 507. Credentialing, accreditation, and improvement of qualified child care workers.

SEC. 2. FINDINGS.
Congress makes the following findings:
(1) Babies are born with all of the 100,000,000,000 brain cells, or neurons, that the babies will need as adults.
(2) By age 3, children have nearly all of the necessary connections, or synapses, between brain cells that cause the brain to function properly.
(3) The pace at which children grow and learn during the first years of life makes that period the most critical in their overall development.
(4) Children who lack proper nutrition, health care, and nurturing during their first three years of life, and who lack adequate social, motor, and language skills, tend to lack the most critical in their overall development.
(5) All young children, and parents and caregivers of these children, should have access to coordinated information and support services appropriate for healthy early childhood development in the first three years of life. The changing structure of the family requires that States streamline and coordinate healthy early childhood development systems of care to meet the needs of parents and children in the 21st century.

The Federal Government’s role in the development of these systems of care is minimal; it must give States flexibility in finding money to devote more resources to existing or new healthy early childhood development systems.

Mr. President, the pace at which children grow and learn during the first three years of life makes that period the most critical in their overall development. Children who lack proper nutrition, health care and nurturing during their early years tend to also lack adequate social, motor and language skills needed to perform well in school.

I believe that all children, parents, and caregivers should have access to coordinated information and support services appropriate for healthy early childhood development in the first three years of life. The changing structure of the family requires that States streamline and coordinate healthy early childhood development systems of care to meet the needs of parents and children in the 21st century.

The Federal Government’s role in the development of these systems of care should be minimal. The Federal Government must give States the flexibility to implement systems involving programs that respond to local needs and conditions.

TITLE I—FUNDS PROVIDED UNDER THE TEMPORARY ASSISTANCE TO NEEDY FAMILIES PROGRAM

SEC. 101. AUTHORITY TO TRANSFER FUNDS FOR OTHER PURPOSES.
(a) TRANSFER OF FUNDS FOR BLOCK GRANTS FOR SOCIAL SERVICES.—
(1) ELIMINATION OF REDUCTION IN AMOUNT TRANSFERABLE FOR FISCAL YEAR 2001 AND THEREAFT—
Section 659H of the Child Care and Development Block Grant Act of 1999 is amended by redesigning paragraph (1) as follows:
(2) LIMITATION ON AMOUNT TRANSFERABLE TO TITL—X PROGRAMS.—A State may use not more than 10 percent of the amount of any grant made to the State under section 403(a) for a fiscal year to carry out State programs pursuant to title XX.
(3) EFFECTIVE DATE.—The amendment made by paragraph (1) takes effect on October 1, 1999.
(b) TRANSFER OF FUNDS FOR EARLY CHILD—HOOD COLLABORATIVE EFFORTS UNDER THE CCDBG.—
(1) IN GENERAL.—Section 404(d) of the Social Security Act (42 U.S.C. 604(d)) is amended—
(A) in paragraph (1), by striking “paragraph (2)” and inserting “paragraphs (2) and (3)”; and
(B) by redesignating paragraph (3) as paragraph (4) and
(C) by inserting after paragraph (2), the fol—lowing:
“(2) ADDITIONAL AMOUNTS TRANSFERABLE TO EARLY CHILDHOOD COLLABORATIVE COUNCILS.—The percentage described in paragraph (1) may be increased by up to 10 percentage points if the additional funds resulting from that increase are provided to local early childhood development coordinating councils described in section 659H of the Child Care and Development Block Grant Act of 1999 to carry out activities described in section 659H of that Act.”
(2) EFFECTIVE DATE.—The amendments made by paragraph (1) take effect on October 1, 1999.
(c) TRANSFER OF FUNDS TO ENHANCE CHILD CARE QUALITY UNDER THE CCDBG.—
(1) IN GENERAL.—Section 404(d) of the Social Security Act (42 U.S.C. 604(d)), as amended by subsection (b), is amended—
(A) in paragraph (1), by striking “(and)” and inserting “(and)”; and
(B) by redesignating paragraph (4) as parag—raph (5); and
(C) by inserting after paragraph (3), the fol—lowing:
“(4) ADDITIONAL AMOUNTS TRANSFERABLE FOR THE ENHANCEMENT OF CHILD CARE QUALITY.—The percentage described in paragraph (1) determined without regard to any in—crease in that percentage as a result of the application of paragraph (3) may be increased by up to 5 percentage points if the additional funds resulting from that increase are used to enhance child care quality under a State program pursuant to the Child Care and Development Block Grant Act of 1990.”
(2) EFFECTIVE DATE.—The amendments made by paragraph (1) take effect on October 1, 1999.

SEC. 102. BONUS TO REWARD HIGH PERFORM—ANCE STATE PROGRAMS.
(a) ADDITIONAL MEASURES OF STATE PE—FORMANCE.—Section 403(a)(4)(C) of the Social Security Act (42 U.S.C. 603(a)(4)(C)) is amend—ed—
(1) by striking “Not later” and inserting the following:
TITLE III—SATELLITE TRAINING

SEC. 301. SHORT TITLE. This title may be cited as the "Digital Education Act of 1999".

Part C of title III of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 672 et seq.) is amended—

"(C) AUTHORITY TO PROVIDE STATE PROGRAMS.

"(1) In general.—(A) The Secretary shall make grants to States under this part in an amount equal to

"(2) AUTHORITY TO PROVIDE LOCAL PROGRAMS.

"(B) The Secretary shall provide grants to local educational agencies, or combinations of local educational agencies, and public television stations in the States.

"(3) EXTENSION.—(A) This section shall be in effect for the fiscal years 1999, 2000, and 2001.

"SEC. 303. FINDINGS.

"(1) In general.—The findings made by the Ready to Learn Television Program are as follows:

"(A) The Ready to Learn Television Program has been in operation since January 1, 1994.

"(B) The Ready to Learn Television Program has been successful in reaching millions of children and their families.

"(C) The Ready to Learn Television Program has been effective in improving children's educational outcomes.

"(D) The Ready to Learn Television Program has been supported by the Congress and the Administration.

"(E) The Ready to Learn Television Program has been endorsed by national organizations.

"SEC. 304. PROGRAM ELEMENTS.

"(1) In general.—The Ready to Learn Television Program shall include the following:

"(A) Early childhood education and care programs

"(B) Parent education programs

"(C) Family support programs

"(D) Community outreach programs

"SEC. 305. GRANTS TO STATES.

"(1) In general.—The Secretary shall make grants to States under this part in an amount equal to

"(2) AUTHORITY TO PROVIDE LOCAL PROGRAMS.

"(B) The Secretary shall provide grants to local educational agencies, or combinations of local educational agencies, and public television stations in the States.

"(3) EXTENSION.—(A) This section shall be in effect for the fiscal years 1999, 2000, and 2001.

"SEC. 306. FUNDING.

"(1) In general.—The Ready to Learn Television Program shall be funded at the level of $100,000,000 per fiscal year.
SEC. 3302. READY-TO-LEARN.
"(a) AWARD.—The Secretary shall award grants, contracts, or cooperative agreements under section 3302 to eligible entities to—
"(1) facilitate the development directly, or through contracts or cooperative agreements, local educational agencies, or local educational agencies acting in conjunction with other State educational agencies, early childhood programs, and other organizations, of content-based children’s programming and related services, to prepare young children for school readiness and academic achievement; and
"(2) to provide, through contracts or cooperative agreements with early childhood education providers, materials and services to assist such individuals and entities in accessing programs and projects under this part, and
"(3) to coordinate activities assisted under this part with the Secretary of Health and Human Services in order to—
"(A) maximize the utilization of quality educational programming by preschool and elementary school children, and make such programming widely available to the public through the Internet.

SEC. 3303. EDUCATIONAL PROGRAMMING.
"(a) AWARD.—The Secretary shall award grants, contracts, or cooperative agreements under section 3303 to eligible entities to—
"(1) facilitate the development directly, or through contracts or cooperative agreements, local educational agencies, or local educational agencies acting in conjunction with other State educational agencies, early childhood programs, and other organizations, of content-based children’s programming and related services, to prepare young children for school readiness and academic achievement; and
"(2) to provide, through contracts or cooperative agreements with early childhood education providers, materials and services to assist such individuals and entities in accessing programs and projects under this part, and
"(3) to coordinate activities assisted under this part with the Secretary of Health and Human Services in order to—
"(A) maximize the utilization of quality educational programming by preschool and elementary school children, and make such programming widely available to the public through the Internet.

SEC. 3304. DUTIES OF SECRETARY.
"The Secretary shall—
"(1) award grants, contracts, or cooperative agreements to eligible entities described in section 3303(b), public television stations, and local educational agencies acting in conjunction with other State educational agencies, to assist them in preparing young children for school readiness and academic achievement; and
"(2) administer a centralized child development and national assessment program leading to recognized credentials for personnel.
working in early childhood development and child care programs, within the meaning of section 648(e) of the Head Start Act (42 U.S.C. 9843(e)); and
“(2) demonstrate that the organization has entered into a partnership, to establish and operate the training network, that includes—
“(A) a nonprofit organization; and
“(B) a public or private entity that specializes in providing broadcast programs for parents and professionals in fields relating to early childhood.
“(c) Application.—To be eligible to receive a grant or contract under subsection (a), an organization shall submit an application to the Secretary of Education and the Secretary of Health and Human Services at such time, in such manner, and containing such information as the Secretary may require.
“(d) Cooperative Agreement.—The Secretary of Education and the Secretary of Health and Human Services shall enter into a cooperative agreement to carry out this section.
“(e) Authorization of Appropriations.—There is authorized to be appropriated to carry out this part $20,000,000 for each of fiscal years 2000 and 2001 and such sums as may be necessary for each agency with programs relating to early childhood.

TITLE IV—HEALTHY EARLY CHILDHOOD DEVELOPMENT SYSTEMS OF CARE

SEC. 401. BLOCK GRANTS TO STATES FOR HEALTHY EARLY CHILDHOOD DEVELOPMENT SYSTEMS OF CARE.

(a) Block Grant.—The Child Care and Development Block Grant Act of 1990 (42 U.S.C. 9858 et seq.) is amended—
“(1) by inserting after the subchapter heading the following:

“PART I—CHILD CARE ACTIVITIES; and
“(2) by adding at the end the following:

“PART II—HEALTHY EARLY CHILDHOOD DEVELOPMENT SYSTEMS OF CARE.

“(a) IN GENERAL.—There is authorized to be appropriated to carry out this part $200,000,000 for each of fiscal years 2000 through 2004.
“(b) Availability of Funds.—Funds appropriated for a fiscal year under subsection (a) shall remain available for the succeeding 2 fiscal years.

SEC. 402. ELIGIBILITY.

“(a) IN GENERAL.—There is authorized to be appropriated to carry out this part $200,000,000 for each of fiscal years 2000 through 2004.
“(b) Availability of Funds.—Funds appropriated for a fiscal year under subsection (a) shall remain available for the succeeding 2 fiscal years.

SEC. 403. AlLOTTMENT TO STATES.

“(a) RESERVATION.—The Secretary shall reserve not less than 1 percent, and not more than 2 percent, of the funds appropriated under subsection (b) for each fiscal year for payments to Indian tribes and tribal organizations to assist the tribes and organizations in supporting healthy early childhood development systems of care under this part.
“(b) AlLOTTMENT.—From the funds appropriated under section 659B for a fiscal year, the Secretary shall allot to each eligible State, to pay for the Federal share of the cost of supporting healthy early childhood development systems of care under this part, the sum of—

“(1) an amount that bears the same ratio to 50 percent of such funds as the number of young children in the State bears to the number of such children in all eligible States; and
“(2) an amount that bears the same ratio to 50 percent of such funds as the number of children in poverty in the State bears to the number of such children in all eligible States.

“(c) FEDERAL SHARE.—The Federal share of the costs described in subsection (b) shall be 75 percent. The Non-Federal share of the cost may be provided in cash or in kind, fairly evaluated, including plant, equipment or services obtained from State or local public sources or through donations from private entities.

“(d) IN GENERAL.—To be eligible to receive an allotment under section 659C, a State shall submit a State plan to the Secretary at such time, and in such manner, as the Secretary may require, including—

“(1) in the case of a State in which the Governor elects to establish or designate a State council, sufficient information about the head of the State department or the designee of the head; and
“(2) the State early childhood development system of care in the State.

“(2) a description of the political subdivisions designated by the State to receive funds under section 659F and how political subdivisions in the State will carry out activities described in section 659F; and
“(3) a description of the political subdivisions designated by the Governor to receive funds under section 659F and how political subdivisions in the State will carry out activities described in section 659F; and

“SEC. 659D. STATE COUNCIL.—(a) The Governor of a State seeking an allotment under section 659C may, at the election of the Governor—

“(1) establish and appoint the members of a State early childhood development coordinating council, as described in subsection (b); or
“(2) designate an entity to serve as such a council, as described in subsection (c).
“(b) APPOINTED STATE COUNCIL.—The Governor may establish and appoint the members of a State council that—

“(1) may include—

“(A) the State superintendent of schools, or the designee of the superintendent;
“(B) the chief State budget officer or the designee of the officer;
“(C) the head of the State health department or the designee of the head; and
“(D) the heads of the State agencies with primary responsibility for child welfare, child care, and the Medicaid program carried out under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.), or the designees of such heads;
“(E) the heads of other State agencies with primary responsibility for services for young children or pregnant women, which may be agencies with primary responsibility for alcohol and drug addiction services, mental health services, mental retardation services, food assistance services, and juvenile justice services, or the designees of the heads;
“(F) a representative of parents or consumers;
“(G) representatives of early childhood development agencies; and
“(H) the Governor; and
“(i) may include—

“(1) members that are substantially similar to the members described in subsection (b); and
“(2) provide integrated and coordinated early childhood development services.
“(d) CHAIRPERSON.—The Governor shall serve as the chairperson of the State council.

“(e) ALLOTMENT.—In a State with a State council, the State council shall—

“(1) submit the State plan described in section 659E;
“(2) make the allocation described in section 659F(b); and
“(3) may carry out activities described in section 659F(c); and
“(4) shall prepare and submit the report described in section 659F(e).

“SEC. 659E. STATE PLAN.

“(a) IN GENERAL.—To be eligible to receive an allotment under section 659C, a State shall submit a State plan to the Secretary at such time, and in such manner, as the Secretary may require, including—

“(1) a comprehensive description of the political subdivisions designated by the State to receive funds under section 659F and how political subdivisions in the State will carry out activities described in section 659F; and

“SEC. 659F. ELIGIBILITY.

“(a) IN GENERAL.—The term ‘eligible child’ means a child described in section 658P(4)(B).
“(b) Federal Share.—The term ‘Federal share’ means the Federal share of the costs described in subsection (b) shall be 75 percent. The Non-Federal share of the cost may be provided in cash or in kind, fairly evaluated, including plant, equipment or services obtained from State or local public sources or through donations from private entities.
The State may require political subdivisions in the State to submit information to the State, and may compile the information.

**SEC. 656G. ALLOCATION TO POLITICAL SUBDIVISIONS.**

From the funds reserved by a State under section 659F(b) for a fiscal year, the State shall allot to each eligible political subdivision in the State the sum of:

(1) an amount that bears the same ratio to 50 percent of such funds as the number of young children in the political subdivision bears to the number of such children in all eligible political subdivisions in the State; and

(2) an amount that bears the same ratio to 50 percent of such funds as the number of children in poverty in the political subdivision bears to the number of such children in all eligible political subdivisions in the State.

**SEC. 659H. LOCAL COUNCILS.**

(a) IN GENERAL.—The chief executive officer of a political subdivision that is located in a State with a State council and that seeks an allocation under section 659G may, at the election of the officer—

(1) establish and appoint the members of a local early childhood development coordinating council, as described in subsection (b); or

(2) designate an entity to serve as such a council, as described in subsection (c).

(b) APPOINTED LOCAL COUNCIL.—The officer may establish and appoint the members of a local council that may include—

(1) representatives of any public or private agency that funds, advocates the provision of, or provides services to children and families;

(2) representatives of schools;

(3) representatives of child care credentialing or accreditation entities;

(4) representatives of courts; and

(5) private providers of social services for families and children.

(c) DESIGNATED LOCAL COUNCIL.—The officer may designate an entity to serve as the local council if the entity—

(1) includes members that are substantially similar to the members described in subsection (b); and

(2) is a public or private agency that funds, advocates the provision of, or provides services to children and families.

**SEC. 659I. LOCAL PLANNING.**

To be eligible to receive an allocation under section 659G, a political subdivision shall submit a local plan to the State at such time, in such manner, and containing such information as the State may require.

**SEC. 659J. LOCAL ACTIVITIES.**

(a) MAJOR ACTIVITIES.—A political subdivision that receives an allocation under section 659G shall use the funds made available through the allocation—

(1) to provide assistance to entities carrying out early childhood development services through a healthy early childhood development system of care, in order to meet assessed needs for the services, expand the results for families and children through services provided through the healthy early childhood development system of care for the political subdivision; and

(2) to establish and maintain a mechanism to ensure ongoing input from a broad range of early childhood stakeholders who are receiving services through the healthy early childhood development system of care for the political subdivision.

(b) PERMISSIBLE ACTIVITIES.—A political subdivision that receives an allocation under section 659G may use the funds made available through the allocation—

(1) to improve the healthy early childhood development system of care by enhancing efforts and building new opportunities for—

(A) innovation in early childhood development services; and

(B) formation of partnerships with businesses, associations, churches or other religious institutions, and philanthropic organizations to provide early childhood development services on behalf of young children; and

(2) to develop and implement a process that annually evaluates and prioritizes services provided through the healthy early childhood development system of care, fills service gaps in that system where possible, and invests in new approaches to achieve better results for families and children through that system.

**SEC. 659K. LOCAL PLANNING.**

The chief executive officer of a political subdivision that is located in a State and that seeks an allocation under section 659G may, at the election of the chief executive officer—

(1) establish and appoint the members of a local early childhood development coordinating council, as described in subsection (b); or

(2) designate an entity to serve as such a council, as described in subsection (c).

(b) APPOINTED LOCAL COUNCIL.—The officer may establish and appoint the members of a local council that may include—

(1) representatives of any public or private agency that funds, advocates the provision of, or provides services to children and families;

(2) representatives of schools;

(3) representatives of child care credentialing or accreditation entities;

(4) representatives of courts; and

(5) private providers of social services for families and children.

(c) DESIGNATED LOCAL COUNCIL.—The officer may designate an entity to serve as the local council if the entity—

(1) includes members that are substantially similar to the members described in subsection (b); and

(2) is a public or private agency that funds, advocates the provision of, or provides services to children and families.

**SEC. 659L. LOCAL PLANNING.**

To be eligible to receive an allocation under section 659G, a political subdivision shall submit a local plan to the State at such time, in such manner, and containing such information as the State may require.

**SEC. 659M. LOCAL ACTIVITIES.**

(a) MAJOR ACTIVITIES.—A political subdivision that receives an allocation under section 659G shall use the funds made available through the allocation—

(1) to provide assistance to entities carrying out early childhood development services through a healthy early childhood development system of care, in order to meet assessed needs for the services, expand the results for families and children through services provided through the healthy early childhood development system of care for the political subdivision; and

(2) to establish and maintain a mechanism to ensure ongoing input from a broad range of early childhood stakeholders who are receiving services through the healthy early childhood development system of care for the political subdivision.

(b) PERMISSIBLE ACTIVITIES.—A political subdivision that receives an allocation under section 659G may use the funds made available through the allocation—

(1) to improve the healthy early childhood development system of care by enhancing efforts and building new opportunities for—

(A) innovation in early childhood development services; and

(B) formation of partnerships with businesses, associations, churches or other religious institutions, and philanthropic organizations to provide early childhood development services on behalf of young children; and

(2) to develop and implement a process that annually evaluates and prioritizes services provided through the healthy early childhood development system of care, fills service gaps in that system where possible, and invests in new approaches to achieve better results for families and children through that system.

(c) DESIGNATED LOCAL COUNCIL.—The officer may designate an entity to serve as the local council if the entity—

(1) includes members that are substantially similar to the members described in subsection (b); and

(2) is a public or private agency that funds, advocates the provision of, or provides services to children and families.

(d) APPOINTED LOCAL COUNCIL.—The officer may establish and appoint the members of a local council that may include—

(1) representatives of any public or private agency that funds, advocates the provision of, or provides services to children and families;

(2) representatives of schools;

(3) representatives of child care credentialing or accreditation entities;

(4) representatives of courts; and

(5) private providers of social services for families and children.

(e) DESIGNATED LOCAL COUNCIL.—The officer may designate an entity to serve as the local council if the entity—

(1) includes members that are substantially similar to the members described in subsection (b); and

(2) is a public or private agency that funds, advocates the provision of, or provides services to children and families.

CONGRESSIONAL RECORD—SENATE
May 27, 1999

leased by the Department of Defense or the Coast Guard.

(2) CHILD CARE CREDENTIALING OR ACCREDITATION ENTITY.—The term "child care credentialing or accreditation entity" means a nonprofit private organization or public agency that

(A) is recognized by a State agency, a tribal organization, or a national organization that serves as a peer review panel on the standards and procedures of public and private child care or school accrediting bodies; and

(B) accredits a facility or credentials an individual to provide child care on the basis of—

(i) an accreditation or credentialing instrument based on peer-validated research;

(ii) a quality assurance program applying State and local licensing requirements, or standards described in section 658E(c)(2)(E)(11) of the Child Care and Development Block Grant Act (42 U.S.C. 9858n)) in military family housing appropriate, for the facility or individual; and

(iii) outside monitoring of the facility or individual; and

(iv) criteria that provide assurances of—

(I) compliance with age-appropriate health and safety standards at the facility or by the individual;

(II) the facility of age-appropriate developmental and educational activities, as an integral part of the child care program carried out at the facility or by the individual; and

(III) staff development or training activities for the staff of the facility or the individual, including related skills-based testing.

(3) CREDENTIALED CHILD CARE PROFESSIONAL.—The term "credentialled child care professional" means—

(A) an individual who—

(i) is credentialled, by a child care credentialing or accreditation entity recognized by a State or a national organization described in paragraph (2)(A), to provide child care (except children who a tribal organization, a State or a national organization recognizes the term "tribal organization" to mean the Secretary of Health and Human Services.

(b) APPLICATION.—To be eligible to receive an allotment under section 503, a State shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

(1) In General.—A State that receives an allotment under section 503 shall use funds made available through the allotment to establish and carry out a State child care credentialing and accreditation incentive program. In carrying out the program, the State shall establish and accredit child care providers who serve children under age 5 to assist the providers in making financial assistance available for employees of the providers who are pursuing skills-based training to—

(A) enable the employee to obtain credentialing as a child care professional; or

(B) enable the facility involved to obtain accreditation as an accredited child care facility.

(2) The Secretary may require, at a minimum—

(I) information demonstrating that an employee of the provider is pursuing skills-based training; or

(II) a report of the employee or the facility involved to obtain credentialing or accreditation as described in subsection (a).

(3) The Secretary may require, at a minimum—

(A) that the provider will make available contributions toward the costs of providing the financial assistance described in subsection (a), in an amount that is not less than $1 for every $1 of Federal funds provided through the payment.

SEC. 506. ADMINISTRATION.

A State that receives an allotment under section 503 may use not more than 5 percent of the funds made available through the allotment to pay for the costs of administering the program described in section 505.

(1) AUTHORIZATION OF APPROPRIATION.

There is hereby appropriated to carry out this title, $20,000,000 for each of fiscal years 2000 through 2004.

(2) STATE ALLLOTMENTS.

From the funds appropriated under section 502 for a fiscal year, the Secretary shall allot to each eligible State, to pay for the cost of establishing and carrying out State child care credentialing and accreditation incentive programs, an amount that bears the same ratio to such funds as the number of children in poverty under age 5 in the State bears to the number of such children in all States.

SEC. 504. APPLICATION.

To be eligible to receive an allotment under section 503, a State shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

(1) In General.—A State that receives an allotment under section 503 shall use funds made available through the allotment to establish and carry out a State child care credentialing and accreditation incentive program.

(a) IN GENERAL.—A State that receives an allotment under section 503 shall use funds made available through the allotment to establish and carry out a State child care credentialing and accreditation incentive program. In carrying out the program, the State shall establish and accredit child care providers who serve children under age 5 to assist the providers in making financial assistance available for employees of the providers who are pursuing skills-based training to—

(1) enable the employee to obtain credentialing as a child care professional; or

(2) enable the facility involved to obtain accreditation as an accredited child care facility.

(b) APPLICATION.—To be eligible to receive a payment under subsection (a), a child care provider shall submit an application to the State at such time, in such manner, and containing such information as the State may require including, at a minimum—

(I) information demonstrating that an employee of the provider is pursuing skills-based training; or

(II) a report of the employee or the facility involved to obtain credentialing or accreditation as described in subsection (a).

(c) The Secretary may require, at a minimum—

(1) information demonstrating that an employee of the provider is pursuing skills-based training; or

(2) a report of the employee or the facility involved to obtain credentialing or accreditation as described in subsection (a).

(d) The Secretary may require, at a minimum—

(1) that the provider will make available contributions toward the costs of providing the financial assistance described in subsection (a), in an amount that is not less than $1 for every $1 of Federal funds provided through the payment.

SEC. 505. STATE CHILD CARE CREDENTIALING AND ACCREDITATION INCENTIVE PROGRAM.

(1) Authorization of Appropriation.

There is hereby appropriated to carry out this title, $20,000,000 for each of fiscal years 2000 through 2004.

(2) STATE ALLLOTMENTS.

From the funds appropriated under section 502 for a fiscal year, the Secretary shall allot to each eligible State, to pay for the cost of establishing and carrying out State child care credentialing and accreditation incentive programs, an amount that bears the same ratio to such funds as the number of children in poverty under age 5 in the State bears to the number of such children in all States.

SEC. 504. APPLICATION.

To be eligible to receive an allotment under section 503, a State shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

(1) In General.—A State that receives an allotment under section 503 shall use funds made available through the allotment to establish and carry out a State child care credentialing and accreditation incentive program. In carrying out the program, the State shall establish and accredit child care providers who serve children under age 5 to assist the providers in making financial assistance available for employees of the providers who are pursuing skills-based training to—

(1) enable the employee to obtain credentialing as a child care professional; or

(2) enable the facility involved to obtain accreditation as an accredited child care facility.

(b) APPLICATION.—To be eligible to receive a payment under subsection (a), a child care provider shall submit an application to the State at such time, in such manner, and containing such information as the State may require including, at a minimum—

(I) information demonstrating that an employee of the provider is pursuing skills-based training; or

(II) a report of the employee or the facility involved to obtain credentialing or accreditation as described in subsection (a).

(c) The Secretary may require, at a minimum—

(1) information demonstrating that an employee of the provider is pursuing skills-based training; or

(2) a report of the employee or the facility involved to obtain credentialing or accreditation as described in subsection (a).

(d) The Secretary may require, at a minimum—

(1) that the provider will make available contributions toward the costs of providing the financial assistance described in subsection (a), in an amount that is not less than $1 for every $1 of Federal funds provided through the payment.

SEC. 506. ADMINISTRATION.

A State that receives an allotment under section 503 may use not more than 5 percent of the funds made available through the allotment to pay for the costs of administering the program described in section 505.

SEC. 507. CREDENTIALING, ACCREDITATION, AND RETENTION OF QUALIFIED CHILD CARE WORKERS.

(1) AUTHORIZATION OF APPROPRIATION.

There is hereby appropriated to carry out this title, $20,000,000 for each of fiscal years 2000 through 2004.

(2) STATE ALLLOTMENTS.

From the funds appropriated under section 502 for a fiscal year, the Secretary shall allot to each eligible State, to pay for the cost of establishing and carrying out State child care credentialing and accreditation incentive programs, an amount that bears the same ratio to such funds as the number of children in poverty under age 5 in the State bears to the number of such children in all States.

Ms. BAYH. Mr. President, today I arise as an original co-sponsor of the Prenatal Child and Infant Development Act, a bipartisan bill to provide states with the flexibility they need to address the needs of children during their formative years.

Children are born into this world with all the potential they need to make their dreams come true. The ages 0 to 3 are the most critical for a child’s development both mentally and socially. They have all the 100 billion brains cells they will need as adults. By age three, children have nearly all the necessary connections between the unique neural pathways that will determine a child’s future. If a child is not provided with proper health care, nutritional food, and a nurturing environment to grow within, we are leading down a very dark path.

Sadly, it has been confirmed that children who lack proper nutrition, health care, and nurturing during their first years also lack the adequate social, motor, and language skills needed to perform well in school and in life. That is why I have joined efforts with Senator Voinovich and Senator Graham and support the Prenatal Child and Infant Development Act. This initiative will allow the states to spend the money they receive for Temporary Assistance for Needy Families to the Prenatal Child and Infant Development Block Grant. This new flexibility will allow states to spend the money needed to ensure our children are not sentenced to unfulfillment of their dreams just because they were denied child care services during their most vital development stages.

In Indiana, there are over 488,000 children under the age of six. 70% of those children are in child care.Indiana is one of those states that has transferred the 100 billion brain cells needed for the brain to function fully and properly. It is up to us, families, teachers, childcare providers, and communities to help our children live up to their potential. It is important that our children are ready to learn and we allow them the opportunity to maximize their potential.

What income bracket a child is born into should not determine that child’s future. If a child is not provided with proper health care, nutritional food, and a nurturing environment to grow within, we are leading down a very dark path.

Specifically, this bill will allow States to transfer up to 45% of the money they receive for Temporary Assistance for Needy Families to the Child Care Development Block Grant. This new flexibility will allow states to spend the money needed to ensure our children are not sentenced to unfulfillment of their dreams just because they were denied child care services during their most vital development stages.

In Indiana, there are over 488,000 children under the age of six. 70% of those children are in child care. Indiana is one of those states that has transferred the entire amount currently allowed
from Temporary Assistance for Needy Families funds to the Child Care Development Block Grant for child care services. As the child care initiatives that the State could implement after the State was able to provide services for 65,185 children, there still remains a need to help at least an additional 267,500 children. There is a need in my State to have the flexibility to transform and utilize funds that otherwise are not being spent so these children can be served.

One of the programs this new flexibility will allow to expand in Indiana is the Building Bright Beginnings Coalition. This coalition is focused on assessor children that are prenatal to four years old. They have reached over 150,000 parents of newborns through their publication "A Parent's Guide to Raising Healthy, Happily Babies." The coalition that implemented the "See and Demand Quality Child Care" campaign consisting of public service announcements, billboards, pamphlets, and a toll-free telephone line for parent information in cooperation with local resources and referral agencies. It also makes loans available to child care providers who are considered non-traditional borrowers, and it has formed an institute that creates a public private partnership with higher education as well as the health, education, and early childhood communities. In the short time this program has been in place, it has helped over 100,000 parents of newborns be better informed, over 10,000 new private public partnerships have been formed, and it has directly impacted the lives of over 15,000 children. We need more programs like this and in order for them to exist States need more flexibility with their funding streams.

These quality initiatives are administered by Indiana's Step Ahead Councils. Step Ahead Councils are the types of councils this bill hopes to promote. Indiana has had a council in each of its 92 counties since 1991. These councils allow for locally based focused initiatives to locally based challenges with child care, parent information, early intervention, child nutrition and health screening. Local responses to local problems can create better solutions. This bill encourages such local involvement.

In addition, there are several other important goals this bill helps to accomplish. It will allow more programs to address the needs of prenatal to three year old, it will increase satellite training for Head Start and other childhood program staff, it will increase direct child care and health services, and will encourage States to implement training programs for childcare providers.

As a member of a father of two 3½ year old boys, I am proud to support this bill and publically voice the need to invest in all children. There is no better way to utilize a dollar than to invest it in our future. Thank you Senator VOINOVICH and Senator GRAHAM for initiating this legislation, I urge my colleagues who the time comes, to support this bill and the message behind it.

By Mr. BOND (for himself and Mr. KERRY):

S. 1156. A bill to amend provisions of law enacted by the Small Business Regulatory Enforcement Fairness Act of 1996 to ensure full analysis of potential impacts on small entities of rules proposed by certain agencies and for other purposes; to the Committee on Small Business.

SMALL BUSINESS ADVOCACY REVIEW PANEL TECHNICAL AMENDMENTS ACT OF 1999

Mr. BOND, Mr. President, I rise today to introduce the Small Business Advocacy Review Panel Technical Amendments Act of 1999. I am pleased to be joined by Senator KERRY, the Ranking Member on the Small Business Committee, which I chair. Our bill is simple and straightforward. It clarifies certain provisions of existing law enacted as part of my "Red Tape Reduction Act," the Small Business Regulatory Enforcement Fairness Act of 1996. In 1996, this body led the way toward enactment of this important law. With a unanimous vote, we took a major step to ensure that small businesses are treated fairly by federal agencies.

Like the Regulatory Flexibility Act, which it amended, the Red Tape Reduction Act is a remedial statute, designed to redress the fact that uniform federal regulations impose disproportionate impacts on small entities, including small business, small not-for-profits and small governments. A recent study conducted by the Office of Advocacy of the Small Business Administration documented, yet again, that small businesses continue to face higher regulatory compliance costs than their big-business counterparts. With the vast majority of businesses in this nation being small enterprises, it only makes sense for the rulemaking process to ensure that the concerns of such small entities get a fair airing early in the development of a federal regulation.

The bill Senator KERRY and I are introducing focuses on Section 244 of the Small Business Regulatory Enforcement Fairness Act of 1996, which amended chapter 6 of title 5, United States Code (commonly known as the Regulatory Flexibility Act). As a result, each "covered agency" is required to convene a Small Business Advocacy Review Panel (Panel) to receive advice and comments from small entities. Specifically, under section 609(b), each covered agency is to convene a sub-panel of federal employees, representing the Office of Information and Regulatory Affairs within the Office of Management and Budget, the Chief Counsel of Advocacy of the Small Business Administration, and the covered agency promulgating the regulation, to receive input from a panel containing comments from the small entities and the Panel's own recommendations. The report is provided to the head of the agency, who reviews the report and, where appropriate, modifies the proposed rule, initial regulatory analysis or the decision on whether the rule significantly impacts small entities. The Panel report becomes a part of the rulemaking record.

Consistent with the overall purpose of the Regulatory Flexibility Act and the Small Business Regulatory Enforcement Fairness Act, the objective of the Panel process is to minimize the adverse impacts and increase the benefits to small entities affected by the agency's actions. Consequently, the Panel must be able to identify existing laws or regulations in reducing the regulatory burden on small entities is not known until the agency issues the proposed and final rules. So far, the results are encouraging.

Under current law, the Occupational Safety and Health Administration (OSHA) and the Environmental Protection Agency (EPA) are the only agencies currently covered by the Panel process. Our bill adds the Internal Revenue Service (IRS) as a covered agency. In 1996, the Red Tape Reduction Act expressly included the IRS under the Regulatory Flexibility Act; however, the Treasury Department has interpreted the language in the law in a manner that essentially puts them outside of the law. The Small Business Advocacy Review Panel Technical Amendments Act of 1999 clarifies which interpretive rules involving the Internal Revenue Code are to be subject to compliance with the Regulatory Flexibility Act, for those rules with a significant economic impact on a substantial number of small entities, the IRS would be required to convene a Small Business Advocacy Review Panel.

If the Treasury Department and the IRS had implemented the Red Tape Reduction Act as Congress originally intended, the regulatory burdens on small businesses could have been reduced, and small businesses could have been saved considerable trouble in fighting unwarranted rulemaking actions. For instance, with input from the small business community early in the process, the IRS' 1997 temporary regulations on the uniform capitalization rules could have had taken into consideration the adverse effects that inventory accounting would have on farming businesses, and especially nursery growers. Similarly, if the IRS had conducted an initial Regulatory
Flexibility, it would have learned of the enormous problems surrounding its limited partner regulations prior to issuing the proposal in January 1997. These regulations, which became known as the “stealth tax regulations,” would have raised self-employment taxes on countless small businesses operated as limited partnerships or limited liability companies, and also would have imposed burdensome new recordkeeping and collection of information requirements.

Specifically, the bill strikes the language in section 603 of title 5 that included IRS interpretative rules under the Regulatory Flexibility Act, “but only to the extent that such interpretative rules impose on small entities a collection of information requirement.” The Treasury Department has misconstrued this language in two ways. On the one hand, the IRS imposes a requirement on small businesses to complete a new OMB-approved form, the Treasury says Reg Flex does not apply. Second, in the limited circumstances where the IRS has acknowledged imposing a new reporting requirement, the Treasury has limited its analysis of the impact on small businesses to the burden imposed by the form. As a result, the Treasury Department and the IRS have turned Reg Flex compliance into an unnecessary, second Paperwork Reduction Act.

To address this problem, our bill reverses the critical sentence in Section 603 to read as follows:

In the case of an interpretative rule involving the internal revenue laws of the United States, this chapter applies to interpretative rules (including proposed, temporary and final regulations) published in the Federal Register under the Code of Federal Regulations.

Coverage of the IRS under the Panel process and the technical changes I have just described are strongly supported by the Small Business Legislative Council, the National Association for the Self-Employed, and many other organizations representing small businesses. Even more significantly, these changes have the support of the Chief Counsel for Advocacy. I ask unanimous consent to include in the RECORD following this statement copies of letters and statements from these small business advocates.

The remaining provisions of our bill address the mechanics of convening a Panel and the selection of the small entity representatives invited to submit advising and participation documents to the Panel. While these provisions are very similar to the legislation introduced in the other body (H.R. 1882) by our colleagues Representatives TALENT, VELÁRZUEZ, KELLY, BARTLETT, and EWING, the Treasury has expressed some specific concerns regarding the potential for certain provisions to be misconstrued. I have agreed to work with him to address his concerns in respect language, and, if necessary, with minor revisions to the bill text.

Our mutual goal is to ensure that the views of affected small entities are brought forth through the Panel process and taken to heart by the “covered agency” and other federal agencies represented on the Panel—in short, to continue the success that EPA and OSHA have shown this process has for small businesses. I thank the Senator from Massachusetts for his support, and ask unanimous consent that the Small Business Advocacy Review Panel Technical Amendments Act of 1999 be included, following this statement.

Mr. President, I ask unanimous consent that the bill and additional material be printed in the RECORD. There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1156
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.
This Act may be cited as the “Small Business Advocacy Review Panel Technical Amendments Act of 1999.”

SEC. 2. FINDINGS AND PURPOSES.
(a) FINDINGS.—The Congress finds the following:

(1) A vibrant and growing small business sector is critical to creating jobs in a dynamic economy.

(2) Small businesses bear a disproportionate share of regulatory costs and burdens.

(3) Federal agencies must consider the impact of their regulations on small businesses early in the rulemaking process.

(4) The Small Business Advocacy Review Panel process that was established by the Small Business Regulatory Enforcement Fairness Act of 1996 has been effective in allowing small businesses to participate in the rulemaking process in a way that is meaningful to the Environmental Protection Agency and the Occupational Safety and Health Administration.

(b) PURPOSES.—The purposes of this Act are the following:

(1) To provide a forum for the effective participation of small businesses in the Federal regulatory process.

(2) To clarify and strengthen the Small Business Advocacy Review Panel process.

(3) To expand the number of Federal agencies that are required to convene Small Business Advocacy Review Panels.

SEC. 3. ENSURING FULL ANALYSIS OF POTENTIAL IMPACTS ON SMALL ENTITIES OF RULES PROPOSED BY CERTAIN AGENCIES.
Section 609(b) of title 5, United States Code, is amended to read as follows:

‘‘(4)(A) Before the publication of an initial regulatory flexibility analysis that a covered agency is required to conduct under this chapter, the head of the covered agency shall:

‘‘(i) notify the Chief Counsel for Advocacy of the Small Business Administration (in this subsection referred to as the ‘Chief Counsel’) in writing;

‘‘(B) provide the Chief Counsel with information on the potential impacts of the proposed rule on small entities and the type of small entities that might be affected; and

‘‘(C) not later than 30 days after complying with subparagraphs (A) and (B)—

‘‘(i) with the concurrence of the Chief Counsel, identify affected small entity representatives; and

‘‘(ii) transmit to the identified small entity representatives a detailed summary of the information referred to in subparagraph (B), information in full, if so requested by the small entity representative, for the purposes of obtaining advice and recommendations about the potential impacts of the draft proposed rule.

‘‘(2)(A) Not earlier than 30 days after the covered agency transmits information pursuant to paragraph (1)(C)(ii), the head of the covered agency shall convene a review panel for the draft proposed rule. The panel shall consist solely of full-time Federal employees of the office within the covered agency that will be responsible for carrying out the proposed rule, the Office of Information and Regulatory Affairs of the Office of Management and Budget, and the Chief Counsel.

‘‘(B) The review panel shall—

‘‘(i) review any material the covered agency has prepared in connection with this chapter, including any rule, and

‘‘(ii) collect advice and recommendations from the small entity representatives identified under paragraph (1)(C)(ii) on issues related to paragraphs (1)(C)(i) through (D); the review panel shall report to the head of the covered agency on—

‘‘(I) the comments received from the small entity representatives identified under paragraph (1)(C)(i) to make an oral presentation to the panel, if requested.

‘‘(C) Not later than 60 days after the date the covered agency convenes a review panel pursuant to this paragraph, the review panel shall report to the head of the covered agency on—

‘‘(i) 180 days after the date the head of the covered agency receives the report; or

‘‘(ii) the date of the publication of the notice of proposed rulemaking for the proposed rule.

‘‘(B) The report of the review panel printed in the Federal Register shall not include any confidential business information submitted by any small entity representative.

‘‘(4) Where appropriate, the covered agency shall modify the draft proposed rule, the initial regulatory flexibility analysis for the draft proposed rule, or the decision on whether an initial regulatory flexibility analysis is required for the draft proposed rule.’’

SEC. 4. DEFINITIONS.
Section 609(d) of title 5, United States Code, is amended to read as follows:

‘‘(9) For the purposes of this section—

‘‘(i) the term ‘covered agency’ means the Environmental Protection Agency, the Occupational Safety and Health Administration of the Department of Labor, and the Internal Revenue Service of the Department of the Treasury; and

‘‘(ii) the term ‘small entity representative’ means a small entity, or an individual or organization that represents the interests of 1 or more small entities.’’

OFFICE OF ADVOCACY,
U.S. SMALL BUSINESS ADMINISTRATION,
Hon. Kit Bond,
Chairman, Committee on Small Business, U.S. Senate, Washington, D.C.

DEAR CHAIRMAN BOND: This is in response to your request for my views as to whether the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA) should be amended to include more activities of the Internal Revenue Service (IRS).

The proposed amendments to SBREFA are constructive. In particular, applying the requirement that IRS convene Small Business Advocacy Review Panels to consider the impact of proposed rules involving the internal revenue laws is a goal that certainly would give small businesses a stronger voice in a process that affects them so dramatically.

The panel process has applied since 1996 to the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA). Those two agencies must go out and collect information and participate in agency rulemaking activities by convening a Small Business Advocacy Review Panel for a proposed rule with a significant economic impact on small entities. For such rules, the agencies must notify SBA’s Chief Counsel of Advocacy that the rule is under development and provide sufficient information so that the Chief Counsel can identify affected small entities and gather advice and comments on the effects of the proposed rule. A Small Business Advocacy Review Panel, comprising Federal government employees from the agency, the Office of Advocacy, and OMB, must be convened to review the proposed rule and to collect comments from small businesses. Within 60 days, the panel must issue a report of the comments received from small entities and the panel’s findings, which become part of the public record.

As we have said many times before, we believe your “red tape cutting” law, SBREFA, is one of the most significant small business laws of all time. As you know first hand, for a variety of reasons, the IRS was not included. This omission should be corrected. If there is one agency with ongoing rulemaking responsibilities that have an impact on small business, it is the IRS.

In the other provisions of SBREFA apply only to the IRS when the interpretative rule of the IRS will “impose on small entities a collection of information requirement.” We already know the IRS has embraced an extraordinarily narrow interpretation of that phrase. We should take this opportunity to amend SBREFA to ensure the IRS complies with SBREFA any time it issues an interpretative regulation.

As you know, the SBLC is a permanent, independent coalition of eighty trade and professional associations that share a common commitment to the future of small business. Our members represent the interests of small businesses in such diverse economic sectors as manufacturing, distribution, professional and technical services, construction, transportation, tourism, and agriculture. Our policies are developed through a consensus among our membership. Individual associations may express their own views. For your information, a list of our members is enclosed.

As always, we appreciate your outstanding leadership on behalf of small business.

Sincerely,

DAVID GORIN,
Chairman.

Counsel for Advocacy of the Small Business Administration, and the director of the Office of Information and Regulatory Affairs, collects comments from representatives of small entities. Then the panel issues a report on the comments and the panel’s findings within 60 days. This process has been extremely helpful in identifying the likely impact of major rules on small entities, yet it’s tight schedule has assured that needed rules are not delayed unduly.

Tax regulations impose the most widespread burdens on small business. Therefore, it is in the small business interest at the earliest possible stage of rulemaking. This amendment builds on an existing panel process that is working well. The panel process would bring a new level of scrutiny to tax regulations, some of which have added immensely to small entity burdens in the past.

At the same time, I am mindful that this expansion will add significantly to the workload of both the Office of Advocacy and the IRS, and I hope suitable staffing adjustments to accommodate this important added work will be made. Thank you for soliciting my views.

Sincerely,

JUBB W. GOLOVER
Chief Counsel for Advocacy.

Mr. KERRY. Mr. President, as Ranking Democrat on the Committee on Small Business, I join Committee Chairman BOND in introducing the Small Business Advocacy Review Panel Technical Amendments Act of 1999.

While there are a few minor points that Chairman BOND and I have agreed to work out before the Committee considers the bill, we both agree that this is an important piece of legislation which should be enacted promptly to facilitate the Small Business Enforcement Fairness Act process. This process enables small entity representatives to participate in rulemakings by the Environmental Protection Agency (EPA), the Occupational Safety and Health Administration (OSHA), and, under this bill, the Internal Revenue Service (IRS) of the Department of Treasury.

This bill improves and enhances the Small Business Regulatory Enforcement Fairness Act of 1996, which has not only reduced regulatory burdens that otherwise would have been placed on small businesses, but also has begun to institute a fundamental change in the way Federal agencies promulgate rules that could have “a substantial economic impact on a substantial number of small businesses.” Federal agencies are required under existing law to form so-called SBREFA panels in conjunction with the Office of Information and Regulatory Affairs in the Office of Management and Budget, and to permit small entities, or their representatives. These SBREFA panels are charged with creating flexible regulatory options that would allow small businesses to continue to operate without sacrificing the environmental, or health and safety goals of the proposed rule.

These panels have been highly effective in saving small businesses regulatory compliance costs. To date, sev-}

The Department of Labor’s Office of the Inspector General recently issues a devastating report showing that inaccurate information had been used in Davis-Bacon wage determinations in several states. The errors caused wages or fringe benefits to be overstated by as much as $1.00 per hour, in some cases. If Davis-Bacon were repealed, American taxpayers would save more than $3 billion over a 5-year period, according to the Congressional Budget Office.

Davis-Bacon also stifles competition in Federal bidding for construction projects, especially with respect to small businesses. Small construction companies are not knowledgeable about Federal contracting procedures; and they simply cannot afford to hire

Paul BONDO and his staff for their efforts working with me and my staff to produce this important bill.

By Mr. SMITH of New Hampshire (for himself, Mr. INHOFE, Mr. THURMOND, Mr. NICHOLS, Mr. HELMS, and Mr. COCHRAN):

S. 1157. A bill to repeal the Davis-Bacon Act and the Copeland Act; to the Committee on Health, Education, Labor, and Pensions.

DAVIS-BACON REPEAL ACT OF 1999

Mr. SMITH of New Hampshire. Mr. President, I rise today to introduce the Davis-Bacon Repeal Act of 1999. This legislation would repeal the Davis-Bacon Act of 1931, which guarantees high wages for workers on Federal construction projects, and the Copeland Act, which imposes weekly payroll reporting requirements.

Davis-Bacon requires contractors on Federal construction projects costing over $2,000 to pay their workers no less than the prevailing wage rate for comparable work in their local area. The U.S. Department of Labor has the final say on what the term “prevailing wage” means, but the prevailing wage usually is based on union-negotiated wage rates.

My bill would allow free market forces, rather than bureaucrats at the Labor Department in Washington, DC., to determine the amount of construction wages. There is simply no need to have the Labor Department dictating wage rates for workers on Federal construction projects in every locality in the United States.

The Department of Labor’s Office of the Inspector General recently issues a devastating report showing that inaccurate information had been used in Davis-Bacon wage determinations in several states. The errors caused wages or fringe benefits to be overstated by as much as $1.00 per hour, in some cases. If Davis-Bacon were repealed, American taxpayers would save more than $3 billion over a 5-year period, according to the Congressional Budget Office.

Davis-Bacon also stifles competition in Federal bidding for construction projects, especially with respect to small businesses. Small construction companies are not knowledgeable about Federal contracting procedures; and they simply cannot afford to hire
The staff needed to comply with Davis-Bacon’s complex work rules and reporting requirements.

Congress passed Davis-Bacon during the Great Depression, a period in which work was scarce. In those days, construction workers were willing to take what jobs they could find, regardless of the wage rate; most construction was publicly financed; and there were no other Federal worker protections on the books.

Conditions in the construction industry have changed a lot since then, however. Today, unemployment rates are low, and public works construction makes up only about 20 percent of the construction industry’s activity. Also, we now have many Federal laws on the books to protect workers. Such laws include the Fair Labor Standards Act of 1933, which imposes a general minimum wage, the Occupational Safety and Health Act of 1970, the Miller Act of 1935, the Contract Work Hours and Safety Standards Act of 1962, and the Social Security Act.

Yet the construction industry still has to operate under Davis-Bacon’s inflexible 1930s work requirements and play by its payroll reporting rules. Under the law’s craft-by-craft requirements, for example, contractors must pay Davis-Bacon wages for individuals who perform a given craft’s work. In many cases, that means a contractor either must pay a high wage to an unskilled worker for performing menial tasks, or he must pay a high wage to an experienced worker for these menial tasks. These requirements reduce productivity.

A related problem with Davis-Bacon is that it reduces entry-level jobs and training opportunities for the disadvantaged because the law makes it costly for contractors to hire lower-skilled workers on construction projects. The statute creates a disincentive to hire entry-level workers and provides on-the-job training.

The Congressional Budget Office raised this issue in its analysis, “Modifying the Davis-Bacon Act: Implications for the Labor Market and the Federal Budget.” As stated in that 1983 study:

Although the effect of Davis-Bacon on wage levels receives the most attention, the Act’s largest potential cost impact may derive from its effect on the use of labor. For one thing, DOL wage determinations require that, if an employee does the work of a particular craft, the wage paid should be for the craft.

For example, carpentry work must be paid for at carpenters’ wages, even if performed by a general laborer, helper or member of another craft.

Moreover, the General Accounting Office has maintained that the Davis-Bacon Act is no longer needed. GAO began to openly question Davis-Bacon in the 1960s; and in 1979, it issued a report calling for the Act’s repeal. Titled “The Davis-Bacon Act Should Be Repealed,” the report states: “[o]ther wage legislation and changes in economic conditions and in the construction industry have made the law obsolete; and the law is inflationary.”

To those who remain unconvinced that Davis-Bacon is bad public policy, I urge a review of the Act’s legislative history. Some early supporters of Davis-Bacon advocated its passage as a means to discriminate against minorities. For instance, Clayton Allgood, a member of the 71st Congress, argued on the House floor that Davis-Bacon would keep contractors from employing “cheap colored labor” on construction projects. As stated by Congresswoman Allgood on February 28, 1931, “it is labor of that sort that is in competition with white labor throughout the country.” Unfortunately, Davis-Bacon still has the effect of keeping minority-owned construction firms from competing for Federal construction contracts, because many such firms are small businesses.

Early supporters of Davis-Bacon also believed that the law would prevent outside contractors from undermining local firms in the Federal bidding process. In practice, however, Davis-Bacon wages hurt local businesses and make it more likely that outside contractors will win bids for Federal projects.

Mr. President, for all of the above reasons, I believe that the Davis-Bacon Act should be repealed. I urge my colleagues to support the Davis-Bacon Repeal Act of 1999.

Mr. President, I ask unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1357
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DAVIS-BACON ACT.
(a) REPEAL.—The Act of March 3, 1931 (40 U.S.C. 276a et seq.) (commonly referred to as the Davis-Bacon Act) is repealed.
(b) REFERENCES.—Any reference in any law to a wage requirement of the Act of March 3, 1931, shall after the date of the enactment of this Act be null and void.

SEC. 2. COPELAND ACT.
Section 2 of the Act of June 13, 1934 (40 U.S.C. 276a) (commonly referred to as the ‘‘Copeland Act’’) is repealed.

SEC. 3. EFFECTIVE DATE.
The amendments made by sections 1 and 2 shall take effect 30 days after the date of the enactment of this Act but shall not affect any contract in existence on such date of enactment or made pursuant to invitation for bids outstanding on such date of enactment.

Mr. NICKLES. Mr. President, I am happy to join Senator Bob Smith as a cosponsor of the Davis-Bacon Repeal Act of 1999.

I believe Davis-Bacon repeal is long overdue. This 68-year-old legislation requires contractors to pay workers on federally-subsidized projects what the Labor Department determines is the local prevailing wage. What Davis-Bacon actually does cost the Federal Government billions of dollars, divert funds out of vitally important projects, and limit opportunities for employment.

In my own State of Oklahoma, it has been proven that many ‘‘prevailing wages’’ have been calculated using fictitious projects, ghost workers, and companies established to pay artificially high wages. Oklahoma officials have reported that many of the wage survey forms submitted to the U.S. Department of Labor to calculate Federal wage rates in Oklahoma were wrong or fraudulent.

Records showed that an underground storage tank was built using 20 plumbers, reaching $15 an hour. Repeal of but no such tank was ever built. In another case, several asphalt machine operators were reported to have been employed at $15 an hour to build a parking lot but the lot was made of concrete. There were no asphalt operators, and the actual Davis-Bacon wage should have been $8 an hour. Ultimately, the Oklahoma Secretary of Labor established that at least two of the inflated Oklahoma reports were filled out by union officials.

The Davis-Bacon Act also diverts urgently needed Federal funds. After the 1995 bombing of the Murrah Federal building in Oklahoma City, Mayor Ron Norick of Oklahoma City estimated that the city could have saved $15 million in construction costs had the President waived the Davis-Bacon Act.

This money could have been used to provide additional assistance to those impacted by the bombing and to further rebuild the area around the Murrah site. The Federal role in disaster situations should be to empower communities and foster flexibility so that rebuilding efforts can proceed in the best manner possible.

The Congress should repeal a law that discourages, rather than encourages, the employment of lower skilled or non-skilled workers.

Davis-Bacon began as a way to keep construction industry for youth, minorities, and women; and more small businesses bidding on Federal contracts.

The Davis-Bacon Repeal Act will provide increased job opportunities for those who might not ordinarily have the chance to enter the workforce, the
opportunity to learn a trade, and the opportunity to climb the economic ladder.

I applaud Senator SMITH for his efforts and appreciate the chance to co-sponsor this bill.

By Mr. HUTCHINSON:  
S. 1158. A bill to allow the recovery of attorney’s fees and costs by certain employers and labor organizations who are prevailing parties in proceedings brought against them by the National Labor Relations Board or by the Occupational Safety and Health Administration; to the Committee on Health, Education, Labor, and Pensions.

FAIR ACCESS TO INDENMITY AND REIMBURSEMENT ACT

Mr. HUTCHINSON. Mr. President, it is my honor today to introduce the “FAIR Access to Indemnity and Reimbursement Act” (the “FAIR Act”), which will amend the National Labor Relations Act and the Occupational Safety and Health Act to provide that a small employer prevailing against either of these agencies automatically entitles to recover the attorney’s fees and expenses it incurred to defend itself.

The FAIR Act is necessary because the National Labor Relations Board (“NLRB”) and Occupational Safety and Health Agency (“OSHA”) are two aggressive, well-funded agencies which share a “find and fine” philosophy. The deterrent consequences of which small businesses suffer as a result of these agencies’ “find and fine” approach are magnified by the abuse of “salting” or the placement of paid union organizers and their agents in non-union workplaces for the sole purpose of disrupting the workforce. “Salting abuse” occurs when salting create labor law violations or workplace hazards and then file frivolous claims with the NLRB or OSHA. Businesses are then often forced to spend thousands and sometimes hundreds of thousands of dollars to defend themselves against NLRB or OSHA as these agencies vigorously prosecute these frivolous claims. Accordingly, many businesses, when faced with the cost of a successful defense, make a bottom-line decision to settle these frivolous claims rather than going out of business or laying off employees in order to finance costly litigation.

The “FAIR Act” will allow these employers to defend themselves rather than settling, and, more importantly, it will force the NLRB or OSHA to ensure that the claims they pursue are worthy of their efforts. The FAIR Act will accomplish this by allowing employers with up to 100 employees and a net worth of up to $7,000,000 to recover their attorneys fees and litigation expense directly from the NLRB or OSHA, regardless of whether those agencies’ decision to pursue the case was “substantially justified” or “special circumstances” make an award of attorneys fees unjust. Thus, the Congressional intent behind the broadly supported “Equal Access to Justice Act” (“EAJA”) to “level the playing field” for small businesses will finally be realized.

The “FAIR Act” is solid legislation; it is a common sense effort to give small businesses the ability to defend themselves against unfair actions. Accordingly, I ask my colleagues for their cooperation and assistance as I work to ensure that the “FAIR Act” is enacted into law.

By Mr. STEVENS (for himself, Mr. COCHRAN, Mr. INOUYE, Mr. HAGEL, Mr. BINGAMAN, Mr. SHELBY, Mr. LEVIN, Mr. DODD, and Mr. THURMOND):  
S. 1159. A bill to provide grants and contracts to local educational agencies to initiate, expand, and improve physical education programs for all kindergarten through 12th grade students; to the Committee on Health, Education, Labor, and Pensions.

PHYSICAL EDUCATION FOR PROGRESS ACT

Mr. STEVENS. Mr. President, today I send to the desk and introduce the Physical Education for Progress—or “PEP”—Act. My bill would provide incentive grants for local school districts to develop minimum weekly requirements for physical education, and daily physical education if possible.

Every student in our Nation’s schools, from kindergarten through grade 12, should have the opportunity to participate in quality physical education. Children need to know that physical activity can help them feel good, be successful in school and work, and stay healthy.

Engaging in sports activities provides lessons about teamwork and dealing with defeat. In my judgment, physical activity and sports are an important educational tool, and the lessons of sports may help resolve some of the problems that lead to violence in schools.

Regular physical activity produces short-term health benefits and reduces long-term risks for chronic disease, disability and premature death. Despite the proven benefits of being physically active, more than 60 percent of American adults do not engage in levels of physical activity necessary to provide health benefits.

More than a third of young people in our country aged 12 to 21 years do not regularly engage in vigorous physical activity, and the percentage of overweight Americans has more than doubled in the past 30 years. Daily participation in high school physical education classes dropped from 42 percent in 1991 to 27 percent in 1997. Right now, only one state in our union—Illinois—currently requires daily physical education for grades K through 12. I think that is a staggering statistic. Only one State requires daily physical education for our children.

The impact of our poor health habits is staggering: obesity-related diseases cost the Nation more than $100 billion per year, and inactivity and poor diet cause more than 300,000 deaths per year in the United States.

We know from the Centers for Disease Control and others that lifelong health-related habits—physical activity and eating patterns, are often established in childhood. Because ingrained behaviors are difficult to change as people grow older, we need to reach out to young people early, before health-damaging behaviors are adopted.

To me, schools provide an ideal opportunity to make an enormous, positive impact on the health of our Nation. The PEP Act, to me, is an important step toward improving the health of our Nation. The PEP Act would help schools get regular physical activity back into their programs. We can, and should, help our youth establish healthy habits at an early age.

The incentive grants provided for by my bill could be used to provide physical education equipment and support for students, to enhance physical education curricula, and to train and educate physical education teachers.

The future cost savings in health care for emphasizing the importance of physical activity to a long and healthy life, to me, are immense.

By Mr. GRASSLEY (for himself and Mrs. FEINSTEIN):  
S. 1160. A bill to amend the Internal Revenue Service Code of 1986 to provide marriage penalty relief, incentives to encourage health coverage, and increased child care assistance, to extend certain expiring tax provisions, and for other purposes; to the Committee on Finance.

TAX RELIEF FOR WORKING AMERICANS ACT OF 1999

Mr. GRASSLEY. Mr. President, today I am being joined by Senator FEINSTEIN in introducing the “Tax Relief for Working Americans Act of 1999.” Congresswoman NANCY JOHNSON is introducing companion legislation in the House. We’re here today to declare victory in the debate over whether or not we should have significant tax relief for the American people. The President and most congressional Democrats have now joined Republicans in support of cutting taxes. The question now is whether there should be tax cuts, but what kind, and how much. I can’t think of a better problem to have.

With our core tax cut plan, we’re proposing a major first step in sending hard-earned dollars out of Washington and back to the taxpayer. I support an across the board tax cut. But, I am afraid that if we do not have any money left over to pay for tax cuts that people are telling me they really want, like addressing the marriage penalty, providing health care
May 27, 1999

CONGRESSIONAL RECORD—SENATE

11393

S. 1163. A bill to amend the Public Health Service Act to provide for research and treatment with respect to lupus; to the Committee on Health, Education, Labor, and Pensions.

LUPUS RESEARCH AND CARE AMENDMENTS OF 1999

• Mr. BENNETT. Mr. President, I rise today to introduce the Lupus Research and Care Amendments of 1999. This legislation would authorize additional funds for lupus research and grants for state and local governments to support the delivery of essential services to low-income individuals with lupus and their families. The National Institute of Health (NIH) spent about $42 million less than one half of one percent of its budget on lupus research last year. I believe that we need to increase the funds that are available for research of this debilitating disease.

Lupus is not a well-known disease, nor is it well understood. Yet, at least 1,400,000 Americans have been diagnosed with lupus and many more are either misdiagnosed or not diagnosed at all. More Americans have lupus than AIDS, cerebral palsy, multiple sclerosis, sickle-cell anemia or cystic fibrosis. Lupus is a disease that attacks and weakens the immune system and is often life-threatening. Lupus is nine times more likely to affect women than men. African-American women are diagnosed with lupus two to three times more often than Caucasian women. Lupus is also more prevalent among certain minority groups including Latinos, Native Americans and Asians.

Because lupus is not well understood, it is difficult to diagnose, leading to uncertainty on the actual number of patients suffering from lupus. The symptoms of lupus make diagnosis difficult because they can mimic and imitate the symptoms of many other illnesses. If diagnosed early and with proper treatment, the majority of lupus cases can be controlled. Unfortunately, because of the difficulties in diagnosing lupus and inadequate research, many lupus patients suffer debilitating pain and fatigue. The resulting effects make it difficult, if not impossible, for individuals suffering from lupus to carry on normal everyday activities, find a job, or to care for themselves. Thousands of these debilitating cases needlessly end in death each year.

Title I of the Lupus Research and Care Amendments of 1999 authorizes $75 million in grants starting in fiscal year 2000 to be earmarked for lupus research at NIH. This new authorization would amount to less than one half of one percent of NIH’s total budget but would greatly enhance NIH’s research.

Title II of the Lupus Research and Care Amendments of 1999 authorizes $40 million in grants to state and local governments as well as to nonprofit organizations starting in fiscal year 2000. These funds would support the delivery
The complexities and inconsistencies in the trade barriers imposed by our foreign markets that distinguish the U.S. economy must overcome in order to remain competitive that Congress needs tax relief from complex and inconsistent tax laws that burden our American companies attempting to compete effectively.

Mr. President, the American economy has experienced significant growth and prosperity. That success, however, is becoming more and more intertwined with the success of our business in the global marketplace. This has become even more obvious during the recent financial distress in Asia and Latin America. Yet, most people still do not realize the important contributions to our economy from U.S. companies with global operations. We have seen the share of U.S. corporate profits attributed to foreign operations rise from 7.5 percent in the 1960’s to 17.7 percent in the 1990’s.

As technology blurs traditional boundaries, and as competition continues to increase from previously lesser-developed nations, it is imperative that American-owned businesses be able to compete effectively. It seems to me that any rule, regulation, requirement, or tax that we can alleviate is needed to compete. We must inure to the benefit of American companies, their employees, and shareholders.

There are many barriers that the U.S. economy must overcome in order to remain competitive that Congress cannot hurdle by itself. For example, we have international trade negotiators working hard to remove the barriers to foreign markets that discourage and hamper U.S. trade. It is ironic, therefore, that one of the largest trade barriers is imposed by our own tax code on American companies operating abroad. Make no mistake: the complexities and inconsistencies in this section of the Tax Code have an appreciable adverse effect on our domestic economy.

The failure to deal with the barriers in our own backyard will serve only to drive more American companies to other countries with simple, more favorable tax treatment. We just saw this occur with the merger of Daimler Benz and Chrysler. The new corporation will be headquartered in Germany due to the complex international laws of the United States.

The business world is changing at an increasingly rapid pace. Tax laws have failed to keep pace with the rapid changes in the world technology and economy. Too many of the international provisions in the Internal Revenue Code have not been substantially debated and revised in over a decade, providing a window that international markets have changed significantly, and we have seen new markets created. The U.S. Tax Code needs to adapt to the changing times as well. Our current confusing and archaic tax code is woefully out of step with commercial realities as we approach the 21st century.

U.S. businesses frequently find themselves at a competitive disadvantage to their foreign competitors due to the high taxes and stiff regulations they often face. A U.S. company selling products abroad is often charged a higher tax rate by our own government, than a foreign company is. For example, when Kodak sells film in the U.K. or Germany, they pay higher taxes than their foreign competitor Fuji does for those same sales.

If we close American companies out of the international arena due to complex and burdensome tax rules on exports and foreign production, then we are denying our companies the ability to compete. Dooming them, and ourselves, to mediocrity. These companies are an important part of our growing economy. Corporations are an important part of our growing economy. Corporations are an important part of our growing economy.

Mr. President, I rise today with my friend and colleagues Senator HATCH, Mr. President, and Senator Baucus to introduce the International Tax Simplification for American Competitiveness Act of 1999. This bill will provide much-needed tax relief from complex and inconsistent tax laws that burden our American companies attempting to complete in the world marketplace.

Our foreign tax code is in desperate need of reform and simplification. The rules in this arena are too complex and, often, their results are perverse. Introducing the International Tax Simplification for American Competitiveness Act of 1999 is the first order of business we need to pass this year. The failure to deal with these changes will be catastrophic to American businesses.

The bill we are introducing today is a modest, but important package of tax reforms to fix some of the rules relating to the taxation of U.S. corporations, fix some of the rules relating to the taxation of U.S. companies, and fix some of the rules relating to the taxation of U.S. subsidiaries. These companies are an important part of our growing economy. They employ 4.9 million American workers. In my home state of Utah, employees at U.S. subsidiaries constitute 3.6 percent of the work force. We must ensure that U.S. tax law is written and fairly enforced for all companies in the United States.

This bill is not the end of the international tax debate. If we were to pass every provision it contains, we would still not have a simple Tax Code. We would need to make more reforms yet. We cannot limit this debate to only the intermediate changes such as those in this bill. We must not lose sight of the long term. I intend to urge broader debate about other areas in need of reform such as interest allocation, issues raised by the European Union, and subpart F itself. I believe that we must address these concerns in the next five years if we are to put U.S. corporations and the U.S. economy in a position to maintain economic position in the global economy of tomorrow.

This bill is important to the future of every American citizen. Without these changes, American businesses will see their ability to compete diminished, and the United States will have an uphill battle to remain the preeminent economic force in a changing world. This modest, but important package of international tax reforms will help to keep our businesses and our economy competitive and a driving force in the world economic landscape.

Mr. President, I ask unanimous consent to print the text of the bill in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1164

May 27, 1999

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE: AMENDMENT OF 1986 CODE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “International Tax Simplification for American Competitiveness Act of 1999”.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; amendment of 1986 Code; table of contents.
TITLE I—TREATMENT OF CONTROLLED FOREIGN CORPORATIONS

Sec. 101. Permanent subpart F exemption for active financing income.

Sec. 102. Study of proper treatment of European Union under same country exception.

Sec. 103. Expansion of de minimis rule under subpart F.

Sec. 104. Subpart F earnings and profits determined under generally accepted accounting principles.

Sec. 105. Clarification of treatment of pipeline transportation income.

Sec. 106. Subpart F treatment of income from transmission of high voltage electricity.

Sec. 107. Look-through treatment for sales of partnership interests.

Sec. 108. Effective date.

TITLE II—PROVISIONS RELATING TO FOREIGN TAX CREDIT

Sec. 201. Extension of period to which excess foreign taxes may be carried.

Sec. 203. Special rules relating to financial services income.

Sec. 204. Look-through rules to apply to dividends from noncontrolled sections 952 corporations.

Sec. 205. Application of look-through rules to foreign tax credit.

Sec. 206. Ordering rules for foreign tax credits.

Sec. 207. Repeal of limitation of foreign tax credit under alternative minimum tax.

Sec. 208. Repeal of special rules for applying foreign tax credit in case of foreign oil and gas income.

TITLE III—OTHER PROVISIONS

Sec. 301. Deduction for dividends received from certain foreign corporations.

Sec. 302. Application of uniform capitalization rules to foreign persons.

Sec. 303. Treatment of military property of foreign sales corporations.

Sec. 304. United States property not to include certain assets acquired by dealers in a normal course of trade or business.

Sec. 305. Treatment of certain dividends of regulated investment companies.

Sec. 306. Regulatory authority to exclude certain preliminary agreements from definition of intangible personal property.

Sec. 307. Airliner mileage awards to certain foreign persons.

Sec. 308. Repeal of reduction of subpart F income of export trade corporations.

Sec. 309. Study of interest allocation.

Sec. 310. Investment distributions deductible where disqualified guarantee has economic effect.

Sec. 311. Modifications of reporting requirements for certain foreign owned corporations.

TITLE I—TREATMENT OF CONTROLLED FOREIGN CORPORATIONS

SEC. 101 PERMANENT SUBPART F EXEMPTION FOR ACTIVE FINANCING INCOME.

(a) Banking, financing, or similar businesses.—Section 954(h) (relating to special rule for income derived in the active conduct of banking, financing, or similar businesses) is amended by striking paragraph (9).

(b) Insurance businesses.—Section 953(e) (defining exempt insurance income) is amended by adding at the end the following new paragraph:

"(b) EXCEPTION FOR INCOME FROM TRANSMISSION OF HIGH VOLTAGE ELECTRICITY.—The term "foreign base company services income" does not include income derived in connection with the performance of services which are related to the transmission of high voltage electricity."

SEC. 102 STUDY OF PROPER TREATMENT OF EUROPEAN UNION UNDER SAME COUNTRY EXCEPTIONS.

(a) Study.—The Secretary of the Treasury shall conduct a study on the feasibility of treating all countries included in the European Union as 1 country for purposes of applying the same country exceptions under subpart F of part III of subchapter N of chapter 1 of the Internal Revenue Code of 1986. Such study shall include consideration of methods of ensuring that taxpayers are subject to a substantial effective rate of foreign tax in such countries if such treatment is adopted.

(b) Report.—Not later than 6 months after the date of the enactment of this Act, the Secretary of the Treasury shall report to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate the results of the study conducted under subsection (a), including recommendations (if any) for legislation.

SEC. 103 EXPANSION OF DE MINIMUS RULE UNDER SUBPART F.

(a) In General.—Subparagraph (A) of section 954(b)(3) (relating to de minimis, etc., rules) is amended by—

"(1) by striking "5 percent" in clause (i) and inserting "10 percent"; and

"(2) by striking "$1,000,000" in clause (ii) and inserting "$2,000,000";"

(b) Technical Amendments.—

"(1) Clause (ii) of section 865(d)(5)(A) is amended by striking "5 percent or $1,000,000" and inserting "10 percent or $2,000,000".

"(2) Clause (i) of section 881(c)(5)(A) is amended by striking "5 percent or $1,000,000" and inserting "10 percent or $2,000,000".

SEC. 104 SUBPART F EARNINGS AND PROFITS DETERMINED UNDER GENERALLY ACCEPTED ACCOUNTING PRINCIPLES.

(a) In General.—Section 964(a) (relating to earnings and profits) is amended by striking "rules substantially similar to those applicable to domestic corporations, under regulations prescribed by the Secretary" and inserting "generally accepted accounting principles in the United States".

(b) Effective Date.—The amendment made by subsection (a) shall apply to distributions during, and the determination of the inclusion under section 951 of the Internal Revenue Code of 1986 with respect to taxable years of foreign corporations beginning after December 31, 1999.

SEC. 105 CLARIFICATION OF TREATMENT OF PIPELINE TRANSPORTATION INCOME.

Section 954(g)(1) (defining foreign base company oil related income) is amended by striking "or" at the end of subparagraph (A), by striking the period following subparagraph (B) and inserting "or", and by inserting after subparagraph (B) the following new subparagraph:

"(C) the pipeline transportation of oil or gas within such foreign country."

SEC. 106 SUBPART F TREATMENT OF INCOME FROM TRANSMISSION OF HIGH VOLTAGE ELECTRICITY.

Section 954(e) (relating to foreign base company services income) is amended by
“(B) 50 percent of the taxpayer’s taxable income from sources without the United States for such succeeding taxable year.

(3) Characterization of subsequent income.

“(A) In general.—Any income from sources within the United States that is treated as income from sources without the United States under paragraph (1) shall be allocated among and increase the income categories in proportion to the loss from sources within the United States previously allocated to such income categories.

“(B) Income category.—For purposes of this paragraph, the term ‘income category’ has the meaning given such term by subsection (c)(5)(D)(i).

“(4) Coordination with subsection (l).—The Secretary shall prescribe such regulations as may be necessary to coordinate the provisions of this subsection with the provisions of subsection (l).”.

(b) Conforming Amendments.—

(1) Section 535(d)(3) is amended by striking “section 904(g)(6)” and inserting “section 904(h)(6)”.

(2) Subparagraph (A) of section 936(a)(2) is amended by striking “section 1105 of the Taxpayer Relief Act of 1997” and inserting “section 911 of the Internal Revenue Code of 1986 by reason of section 902 of such Code, the amending of section 901 of the Internal Revenue Code of 1986 by reason of section 902 of such Code, or section 901 of such Code, or section 901 of such Code, or section 901 of such Code.”.

(c) Effective date.—The amendments made by this section shall apply to taxable years beginning after December 31, 1999.

SEC. 205. APPLICATION OF LOOK-THRU RULES TO FOREIGN TAX CREDIT.

(a) Interest, Rents, and Royalties.—

(1) Noncontrolled Section 902 Corporations.—Section 904(d)(4)(A), as amended by section 204, is amended to read as follows:

“(A) Credit only.—A credit may be claimed with respect to dividends from noncontrolled section 902 corporations by the holder of a section 902 stock only if the stockholder chooses to have such excess (to the extent attributable to the section 902 corporation with respect to the distribution in question) treated as income from sources within the United States and treated as financial services income.”

(2) Partnertships.—Section 904(d)(6)(C) (relating to regulations) is amended—

“(A) by inserting “or (4)(A)(ii)” after “(3)(G)” and

“(B) by inserting “or noncontrolled section 902 corporations, whichever is applicable” after “controlled foreign corporations”.

(3) Conforming amendment.—The heading for section 904(d)(4), as amended by section 204, is amended to read as follows:

“(c) Carryback and Carryover of Excess Tax Paid.—

“(1) In general.—If the sum of—

“(A) the foreign tax paid by a noncontrolled section 902 corporation, used for the taxable year and for which the taxpayer elects to have the benefits of this subpart apply,

“(B) the amount of all taxes paid to foreign countries or possessions of the United States for the taxable year and for which the taxpayer elects to have the benefits of this subpart apply, exceeds the limitation under subsection (a), such excess (to the extent attributable to the taxes described in subparagraph (B)) shall be a foreign tax credit to carryback to each of the 2 preceding taxable years and a foreign tax credit to carryforward to each of the 10 following taxable years.

“(2) Ordering rules.—For purposes of any provision of the title where it is necessary to ascertain the extent to which the credits to which this subpart applies are used in a taxable year or as a carryback or carryforward, such taxes shall be treated as used—

“(A) first from carryovers to such taxable year,

“(B) from credits arising in such taxable year, and

“(C) finally from carrybacks to such taxable year.

“(3) Limitations on carryovers.—

“(A) Credit only.—A credit may be carried to a taxable year under this subsection only if the taxpayer chooses to have such excess (to the extent attributable to the taxes described in subparagraph (B)) carry forward to each of the 10 following taxable years to have the benefits of this subpart apply to taxes paid or accrued to foreign
countries or any possessions of the United States. Any amount so carried may be availed of only as a credit and not a deduction.

“(B) LIMITATION TO APPLY.—The amount of the credit carryforward or carryback to any taxable year (the ‘carryover year’) from a taxable year under this subsection shall not exceed the excess (if any) of—

”(i) the limitation under subsection (a) for the carryover year, over

”(ii) the sum of—

”(I) the credits arising in the carryover year,

”(II) carryforwards and carrybacks to the carryover year from taxable years earlier than the taxable year from which the credit is being carried (whether or not the taxpayer chooses to have the benefits of this subpart apply with respect to such earlier taxable years),

”(c) EFFECTIVE DATE.—The amendment made by this section applies to taxable years beginning after December 31, 1999.

SEC. 302. REPEAL OF LIMITATION OF FOREIGN TAX CREDIT UNDER ALTERNATIVE MINIMUM TAX.

(a) In GENERAL.—Section 59(a) (relating to alternative minimum tax credit) is amended by—

(B) redesignating paragraphs (2) and (4) as paragraphs (2) and (3), respectively.

(b) CONFORMING AMENDMENT.—Section 59(c)(4)(C) is amended by striking “and” if section 59(a)(2) did not apply”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1999.

SEC. 298. REPEAL OF SPECIAL RULES FOR APPLYING FOREIGN TAX CREDIT IN CASE OF FOREIGN OIL AND GAS INCOME.

(a) In GENERAL.—Section 907 (relating to special rules in case of foreign oil and gas income) is repealed.

(b) CONFORMING AMENDMENTS.—

(1) Each of the following provisions are amended by striking “907.”:

(A) Section 245(a)(2).

(B) Section 865(h)(1)(B).

(C) Section 904(d)(1).

(D) Section 904(g)(10)(A).

(2) Section 904(g)(2)(C)(i) is amended by inserting “, as in effect before its repeal by the International Tax Simplification for American Competitiveness Act of 1999” after “section 907(c)(4)”,

(3) Section 954(g)(1) is amended by inserting “, as in effect before its repeal by the International Tax Simplification for American Competitiveness Act of 1999” after “907(c)”,

(4) Section 6501(a) is amended—

(A) by striking “, or under section 907(f) (relating to carryback and carryover of divested oil and gas extraction taxes)”, and

(B) by striking “or 907(f)”,

(5) The table of sections for subpart A of part V of chapter N of chapter 1 is amended by striking the item relating to section 907.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1999.

TITLE III—OTHER PROVISIONS

SEC. 301. DEDUCTION FOR DIVIDENDS RECEIVED FROM CERTAIN FOREIGN CORPORATIONS.

(a) CONSTRUCTIVE OWNERSHIP RULES TO APPLY IN DETERMINING 80-PERCENT OWNERSHIP.—Section 245(a)(5) (relating to post-1986 undistributed U.S. earnings) is amended by adding at the end the following flush sentence:

“Section 318(a) shall apply for purposes of subparagraph (A) of section 245(a)(5).”

(b) DIVIDENDS TO INCLUDE SUBPART F DISTRIBUTIONS.—Section 245(a) (relating to dividends from 10-percent owned foreign corporations) is amended by striking at the end the following new paragraph:

“(12) SUBPART F INCLUSIONS TREATED AS DIVIDENDS.—For purposes of this subsection, the term ‘dividend’ shall include any amount the taxpayer is required to include in gross income for the taxable year under section 951(a).”

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1999.

SEC. 302. APPLICATION OF UNIFORM CAPITALIZATION RULES TO FOREIGN PERSONS.

(a) In GENERAL.—Section 263A(c) (relating to exceptions) is amended by adding at the end the following new paragraph:

“(7) ‘FOREIGN PERSONS.’—This section shall apply to any taxpayer who is not a United States person only for purposes of applying sections 871(b)(1) and 882(a)(1).”

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1999.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1999.

SEC. 303. TREATMENT OF MILITARY PROPERTY OF FOREIGN SALES CORPORATIONS.

(a) In GENERAL.—Section 923(a) (defining exempt foreign trade income) is amended by—

(B) redesignating paragraphs (3) and (4) as paragraphs (3) and (4), respectively.

(b) CONFORMING AMENDMENT.—Section 865(h)(1)(B) is amended by striking paragraph (6) as paragraph (5).

(c) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 1999.

SEC. 304. UNITED STATES PROPERTY NOT TO INCLUDE CERTAIN ASSETS ACQUIRED FROM REGULATED INVESTMENT COMPANIES.

(a) In GENERAL.—Section 856(c)(2) (relating to exceptions from property treated as United States property) is amended by—

(B) redesignating paragraphs (3) and (4) as paragraphs (4) and (5), and

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years of United States shareholders or with or within which such taxable years of foreign corporations end.

SEC. 305. TREATMENT OF CERTAIN DIVIDENDS OF REGULATED INVESTMENT COMPANIES.

(a) TREATMENT OF CERTAIN DIVIDENDS.—

(1) NONRESIDENT ALIEN INDIVIDUALS.—Section 856(a) (relating to tax on nonresident alien individuals) is amended by—

(A) redesignating paragraphs (1) through (3) as subsection (1) and by inserting after subsection (j) the following new subsection:

“(k) EXEMPTION FOR CERTAIN DIVIDENDS OF REGULATED INVESTMENT COMPANIES.—

“(1) INTEREST-RELATED DIVIDENDS.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), no tax shall be imposed under paragraph (1)(A) of section 1(h) on any interest-related dividend received from a regulated investment company.

“(B) EXCEPTIONS.—Subparagraph (A) shall not apply—

“(i) to any interest-related dividend received from a regulated investment company by a person to the extent such dividend is attributable to interest (other than interest described in subparagraph (E)(1) or (iii)) received by such company on indebtedness issued by such person or by any corporation or partnership with respect to which such person is a 10-percent shareholder.

“(ii) to any interest-related dividend with respect to stock of a regulated investment company unless the person who would otherwise be required to deduct and withhold tax from such dividend under paragraph 3 receives a statement (which meets requirements similar to the registration statement (h)(5)) that the beneficial owner of such stock is not a United States person, and

“(iii) to any interest-related dividend paid to foreign person (or such person’s resident within a foreign country or any interest-related dividend payment addressed to, or for the account of, persons within such foreign country) during any period described in subsection (h)(6) with respect to such country.

“Clause (iii) shall not apply to any dividend with respect to any stock which was acquired or before the date of the publication of the Secretary’s determination under subsection (h)(6).

“(C) INTEREST-RELATED DIVIDEND.—For purposes of subparagraph (C) of section 856, an interest-related dividend is any dividend (or part thereof) which is designated by the regulated investment company as an interest-related dividend in a written notice mailed to its shareholders not later than 60 days after the close of its taxable year. If the aggregate amount so designated with respect to taxable year of the company (as designated with respect to dividends paid after the close of the taxable year described in section 855) is greater than the qualified net interest income of the foreign corporation for a taxable year, the portion of each distribution which shall be an interest-related dividend shall be only that portion of the amounts so designated which such qualified net interest income bears to the aggregate amount so designated.

“(D) QUALIFIED NET INTEREST INCOME.—For purposes of subparagraph (C), the term ‘qualified net interest income’ means the qualified interest income of the regulated investment company reduced by the deductions properly allocable to such income.

“(E) QUALIFIED INTEREST INCOME.—For purposes of subparagraph (D), the term ‘qualified interest income’ means the sum of the following amounts derived by the regulated investment company from sources within the United States:

(I) any amount included in gross income as original issue discount (as defined in section 1273) on an obligation payable 183 days or less from the date of original issue (without regard to the period held by the company),

(ii) any interest includible in gross income (including amounts recognized as ordinary income in respect of original issue discount under part V of subchapter P and such other amounts as regulations may provide)
on an obligation which is in registered form; except that the rules of subsection (a) shall not apply—

 '(i) any interest on an obligation issued by a corporation or partnership if the regulated investment company is a 10-percent shareholder in such corporation or partnership, and

 '(ii) any interest which is treated as not being portfolio interest under the rules of subsection (a)(1)(A) of section 881(a) of the Internal Revenue Code.

 '(iii) Any interest referred to in subsection (1)(B)(ii) (without regard to the trade or business of the regulated investment company).

 '(iv) Any interest-related dividend attributable in gross income with respect to stock of another regulated investment company.

 '(F) 10-PERCENT SHAREHOLDER.—For purposes of this paragraph, the term "10-percent shareholder" has the meaning given such term by subsection (h)(3)(B).

 '(2) SHORT-TERM CAPITAL GAIN DIVIDENDS.—

 (A) IN GENERAL.—Except as provided in subparagraph (B), no tax shall be imposed under paragraph (1)(A) of subsection (a) on any short-term capital gain dividend received from a regulated investment company.

 (B) EXCEPTION FOR ALIENS TAXABLE UNDER SUBCHAPTER A.—Subparagraph (A) shall not apply in the case of any nonresident alien individual subject to tax under subsection (a)(2).

 (C) SHORT-TERM CAPITAL GAIN DIVIDEND.—For purposes of this paragraph, a short-term capital gain dividend is any dividend (or part thereof) which is designated by the regulated investment company as a short-term capital gain dividend in a written notice mailed to its shareholders not later than 60 days after the close of its taxable year. If the aggregate amount so designated with respect to a taxable year of the company (including amounts so designated with respect to dividends paid after the close of the taxable year described in section 855) is greater than the qualified short-term gain of the company for such taxable year, the portion of each distribution which shall be a short-term capital gain dividend is that portion of the amounts so designated which such qualified short-term gain bears to the aggregate amount so designated.

 (D) QUALIFIED SHORT-TERM GAIN.—For purposes of subparagraph (C), the term "qualified short-term gain" means the excess of the net short-term capital gain of the regulated investment company for the taxable year over the net long-term capital loss (if any) of such company for such taxable year. For purposes of this subparagraph—

 (i) the net short-term capital gain of the regulated investment company shall be computed by treating any short-term capital gain dividend includible in gross income with respect to stock of another regulated investment company as a short-term capital gain, and

 (ii) the excess of the net short-term capital gain over the net long-term capital loss for a taxable year (to which an election under section 4962(e)(4) does not apply) shall be determined without regard to any net short-term capital loss attributable to transactions after October 31 of such year, and any such net capital loss or net short-term capital loss shall be treated as arising on the 1st day of the next taxable year.

 To the extent provided in regulations, clause (ii) shall apply also for purposes of computing the taxable income of the regulated investment company.

 (2) FOREIGN CORPORATIONS.—Section 881 (relating to tax on income of foreign corporations not connected with United States possessions is amended by redesignating subsection (e) of such section (f) and by inserting after subsection (d) the following new subsection:

 '(e) TAX NOT TO APPLY TO CERTAIN DIVIDENDS OF REGULATED INVESTMENT COMPANIES.—

 ' (1) INTEREST-RELATED DIVIDENDS.—

 (A) IN GENERAL.—Except as provided in subparagraph (B), no tax shall be imposed under paragraph (1) of subsection (a) on any interest-related dividend (as defined in section 871(k)(1)) received from a regulated investment company.

 (B) EXCEPTION.—Subparagraph (A) shall not apply—

 (i) to any dividend referred to in section 871(k)(1)(B), and

 (ii) to any interest-related dividend received by a controlled foreign corporation (within the meaning of section 957(a)) to the extent such dividend is attributable to interest received by the regulated investment company from a person who is a related person (within the meaning of section 864(d)(4)) with respect to such controlled foreign corporation.

 ' (2) SHORT-TERM CAPITAL GAIN DIVIDENDS.—No tax shall be imposed under paragraph (1) of subsection (a) on any short-term capital gain dividend (as defined in section 871(k)(2)) received from a regulated investment company.

 (3) WITHHOLDING TAXES.—

 (A) Section 1441(c) (relating to withholding taxes) is amended by adding at the end the following new paragraph:

 '(12) CERTAIN INVESTMENT ENTITIES.—The term "qualified investment entity" means any real estate investment trust and any regulated investment company (within the meaning of section 851) owned by a person who is a controlled foreign corporation if such person knows that such dividend is a dividend referred to in clause (a) of such section.

 (B) Section 1441(d) (relating to the withholding of tax on foreign corporatiosns) is amended by:—

 '(1) striking from the definition of "qualified investment entity", the term 'REIT' and inserting 'qualified investment entity';

 '(2) striking from the definition of "qualified investment entity", the term 'REIT' and inserting 'qualified investment entity in which at all times during the testing period the gross assets held directly or indirectly by foreign persons are stock or securities in qualified investment entities'; and

 '(3) the amendment made by subsection (b) shall apply to estates of decedents dying after the date of the enactment of this Act.

 (C) OTHER PROPERTY NOT WITHIN THE UNITED STATES.—

 (1) TREATMENT OF REGULATED INVESTMENT COMPANIES UNDER SECTION 897.—

 (a) TREATMENT OF INTEREST-RELATED DIVIDENDS.—

 (1) INTEREST-RELATED DIVIDENDS.—

 (A) Section 1441(c) (relating to exceptions) is amended by inserting ''and the reference in section 1441(c)(10)'', and the references in section 1441(c)(10)'' and inserting ''the reference to property described in section 1441(c)(10)'' and inserting 'qualified investment entities'.

 (B) DISTRIBUTIONS BY DOMESTICALLY CONTROLLED QUALIFIED INVESTMENT ENTITIES.—In the case of a domestically controlled qualified investment entity, rules similar to the rules of subsection (d) shall apply to the foreign ownership percentage of any gain.

 (C) QUALIFIED INVESTMENT ENTITIES.—The term 'qualified investment entity' means any real estate investment trust and any regulated investment company.

 (2) DOMESTICALLY CONTROLLED.—The term 'domestically controlled qualified investment entity' means any qualified investment entity in which at all times during the testing period less than 50 percent in value of the stock of the company held directly or indirectly by foreign persons.

 (3) The subsection heading for subsection (b) of section 897 is amended by striking ''REIT'' and inserting "QUALIFIED INVESTMENT ENTITIES".

 (4) Subparagraphs (C) and (D) of section 897(e)(4) are amended by adding at the end the following new subparagraph:

 '(2) QUALIFIED INVESTMENT ENTITIES.—The term 'qualified investment entity' means any real estate investment trust and any regulated investment company.

 (5) The subsection heading for subsection (h) of section 897 is amended by striking ''REIT'' and inserting 'qualified investment entities'.

 (d) EFFECTIVE DATE.—

 (1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section apply with respect to taxable years of regulated investment companies beginning after the date of the enactment of this Act.

 (2) ESTATE TAX TREATMENT.—The amendment made by subsection (b) shall apply to estates of decedents dying after the date of the enactment of this Act.

 (3) THE AMENDMENTS MADE BY SUBSECTION—The amendments made by subsection (e) (other than paragraph (1) thereof) shall take effect on the date of the enactment of this Act.
May 27, 1999

CONGRESSIONAL RECORD— SENATE

11399

Mr. MACK. Mr. President, I rise to introduce the Defense Jobs and Trade Promotion Act of 1999. This bill, co-sponsored by Senator Feinstein and 16 of our colleagues, will eliminate a provision of tax law which discriminates against United States exporters of defense products.

Other nations have systems of taxation which rely less on corporate income taxes and more on value-added taxes. By rebating the value-added taxes for products that are exported, these nations lower the costs of their exports and provide their companies a competitive advantage that is not based on quality, ingenuity, or resources but rather on tax policy.

In an attempt to level the playing field, our tax code allows U.S. companies to establish Foreign Sales Corporations (FSCs) through which U.S.-manufactured products may be exported. A portion of the profits from FSC sales are exempted from corporate income taxes, giving U.S. companies an advantage that other countries give their exporters through value-added tax rebates.

But the tax benefits of a FSC are cut in half for defense exporters. This 50% limitation is the result of a compromise enacted 23 years ago as part of the predecessor to the FSC provisions. This compromise was not based on policy considerations, but instead merely split the difference between members of both parties who believed that the U.S. defense industry was so dominant in world markets that the foreign tax advantages were inconsequential, and members who believed that all U.S. exporters should be treated equally.

U.S. defense manufacturers face intense competition from foreign businesses. With the sharp decline in the defense budget over the past decade, exports of defense products play a prominent role in maintaining a viable U.S. defense industrial base. It makes no sense to allow differences in international tax systems to stand as an obstacle to exports of U.S. defense products. We must level the international playing field for U.S. defense product manufacturers.

The fifty percent exclusion for sales of defense products makes even less sense when one considers that the sale of every defense product to a foreign government requires the determination of both the President and the Congress that the sale will strengthen the security of the United States and promote world peace. This is more than a matter of fair treatment for all U.S. exporters. National security is enhanced when our allies use U.S.-manufactured military equipment, because of its compatibility with equipment used by our armed forces.

The Department of Defense supports repeal of this provision. In an August
I believe that these assets should currently be depreciated over seven years under existing law, and that this is the long-standing practice of members of the industry. However, it has come to my attention that the Internal Revenue Service has been asserting both on audits and in litigation that seven-year depreciation is available only for gathering assets owned by producers. The IRS has asserted that all other gathering equipment is to be depreciated as transmission pipelines over a fifteen-year period. This confounding position ignores not only the plain language of the asset class guidelines governing depreciation, but would result in disparate treatment of the same assets based upon ownership for no discernible policy reason. Moreover, this position represents a fundamental distinction between gathering and transmission of natural gas long enshrined in energy regulation and recognized by the Federal Energy Regulatory Commission as well as other state and federal regulators.

Nonetheless, the IRS' position on this issue has resulted in the past in a division of authority among the lower courts. Although the United States Court of Appeals for the Tenth Circuit recently held that the seven-year cost recovery period was properly applied to natural gas gathering systems under existing law, this legislation is needed to provide certainty and uniformity regarding the proper depreciation of those assets throughout the country. With extensive gathering systems totaling many thousands of miles, we cannot afford to allow the proper depreciation of these substantial investments to remain subjects of dispute. I urge my fellow Senators to join me in securing the adoption of this important legislation.

By Mr. MCCAIN:

S. 1168. A bill to eliminate the social security earnings test for individuals who have attained retirement age, to protect and preserve the social security trust funds, and for other purposes; to the Committee on Finance.
similar to other “lock box” proposals, except that it eliminates all the loopholes and exceptions, and truly locks up the money.

I support and applaud the efforts of my Republican colleagues to move forward on the Social Security Lock Box legislation that has been delayed by members of the other party. However, I am concerned that it contains loopholes which would allow Social Security funds to be spent on items other than retirement benefits for seniors. It includes exceptions for emergencies, including economic recession, and allows the surpluses to be used to reduce the public debt. While I understand the intent of these provisions, I believe that we must stop making exceptions and lock up Social Security funds for Social Security purposes only.

For too long, Social Security funds have been used to pay for existing federal programs, create new government programs, and to mask our nation’s deficit. We must stop using Social Security funds for general government activities. We must save Social Security to pay retirement benefits to hard-working Americans, as promised in the law.

The legislation I am introducing puts the Social Security trust fund surpluses safely away in a “lock box” without holes, so that neither we nor our successors can spend the people’s retirement money on anything other than their retirement.

Finally, the legislation requires that 62 percent of the non-Social Security budget surpluses from fiscal year 2001 through 2009 be transferred into the Social Security Trust Funds to strengthen and extend the solvency of the system. This amounts to $514 billion, based on current estimates of the non-Social Security surplus, which would shore up the system and ensure the availability of benefits for today’s seniors and those working and paying into the system today.

Locking up the Social Security Trust Fund and shoring up the fund with $514 billion in new money will extend the solvency of the system until about 2057, more than 20 years beyond the date when the system is currently expected to be bankrupt. This bill will provide senior citizens with the peace of mind that their Social Security checks will continue arriving each and every month. It will provide time for the Administration, the Congress, and the American people to develop and agree upon a structural reform plan which will save Social Security for future generations.

Mr. President, I would like to note that the National Committee to Preserve Social Security and Medicare has reviewed this legislation and has provided a letter in support of it that I would like to insert in the Record at this point.

Mr. President, this legislation that will truly preserve and protect Social Security for the future, and it will remove the unfair tax on working seniors. I urge my colleagues to support the bill and I intend to work for its passage this Congress.

Mr. President, I ask unanimous consent that the bill and additional material be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1168
Be it enacted by the Senate and House of Representa-
tives of the United States of America in Congress assembled.

TITLE I—ELIMINATION OF SOCIAL SECURITY EARNINGS TEST

SEC. 101. SHORT TITLE.
This title may be cited as the “Older Americans Freedom to Work Act”.

SEC. 102. ELIMINATION OF EARNINGS TEST FOR INDIVIDUALS WHO HAVE ACHIEVED RETIREMENT AGE.

(a) IN GENERAL.—Section 203 of the Social Security Act (42 U.S.C. 403) is amended—

(1) in subsection (b), by striking “the age of seventy and inserting “retirement age (as defined in section 216(l))’’;

(2) in paragraphs (1) and (2) of subsection (d), by striking “age of seventy” and inserting “retirement age (as defined in section 216(l))’’;

(3) in subsection (f)(1)(B), by striking “was at age seventy or over” and inserting “was at or above retirement age (as defined in section 216(l))’’;

(4) in subsection (f)(3)—

(A) by striking “33 percent” and all that follows through “any other individual,” and inserting “50 percent of such individual’s earnings for such year in excess of the product of the exempt amount as determined under paragraph (8),”’’; and

(B) by striking “age 70” and inserting “re-
tirement age (as defined in section 216(l))’’;

(5) in subsection (h)(1)(A), by striking “age 70” each place it appears and inserting “retirement age (as defined in section 216(l))’’;

(6) in subsection (i)—

(A) in the heading, by striking “Age Sev-
enity” and inserting “Retirement Age”; and

(B) by striking “seventy years of age” and
inserting “having attained retirement age (as defined in section 216(l))’’.

(b) CONFORMING AMENDMENTS ELIMINATING THE SPECIAL EXEMPT AMOUNT FOR INDIVIDUALS WHO HAVE ATTAINED RETIREMENT AGE.—

(1) UNIFORM EXEMPT AMOUNT.—Section 208(b)(A) of the Social Security Act (42 U.S.C. 408(b)(A)) is amended by striking “the new exempt amounts (separately stated for individuals described in subparagraph (D) and for other individuals which are to be applicable)” and inserting “a new exempt amount which shall be applicable”.

(2) CONFORMING AMENDMENTS.—Section 208(b)(B) of the Social Security Act (42 U.S.C. 408(b)(B)) is amended—

(A) in the matter preceding clause (i), by striking “Except” and all that follows through “with the consent of.” The exempt amount which is applicable for each month of a particular taxable year shall be whichever of any

(B) in clause (i) and (ii), by striking “cor-
responding” each place it appears; and

(C) in the last sentence, by striking “an ex-
empt amount” and inserting “the exempt amount”.

(3) REPEAL OF BASIS FOR COMPUTATION OF SPECIAL EXEMPT AMOUNT.—Section

208(b)(8)(D) of the Social Security Act (42 U.S.C. 408(b)(8)(D)) is repealed.
funds shall not be counted for the purposes of the budget, as defined by the President, the congressional budget, or the Balanced Budget and Emergency Deficit Control Act of 1985.

(2) PROTECTION OF SOCIAL SECURITY BENEFITS.——Balances in the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund shall be used solely for paying social security benefit payments as promised to be paid by law.

(b) POINTS OF ORDER.—Section 301 of the Congressional Budget Act of 1974 is amended by adding the following:

"(1) SOCIAL SECURITY POINT OF ORDER.—It shall not be in order in the Senate to consider a concurrent resolution on the budget, an amendment thereto, or a conference report thereon that violates section 13301 of the Budget Enforcement Act of 1990.

(2) SOCIAL SECURITY SURPLUS PROTECTION POINT OF ORDER.—It shall not be in order in the Senate to consider a concurrent resolution on the budget, an amendment thereto, or a conference report thereon that would cause or increase an on-budget deficit for any fiscal year.

(3) SUBSEQUENT LEGISLATION.—

(a) IN GENERAL.—It shall not be in order in the Senate to consider any bill, joint resolution, amendment, motion, or conference report if—

(1) the enactment of the bill or resolution is reported;

(2) the adoption and enactment of that amendment; or

(3) the enactment of the bill or resolution in the form recommended in the conference report; would cause or increase an on-budget deficit for any fiscal year.

(b) EXCEPTION TO POINT OF ORDER.—This subsection shall not apply to social security reform legislation that would protect the social security system from insolvent and preserve benefits as promised to beneficiaries.

(c) SUPERMAJORITY WAIVER AND APPEAL.—Subsection (2) of section 301(b) of the Congressional Budget Act of 1974 are amended by striking "305(b)(2)," and inserting "303(b), 301(k), 301(i), 305(b)(2)".

SEC. 204. SEPARATE BUDGET FOR SOCIAL SECURITY.

(a) EXCLUSION.—The outlays and receipts of the social security program under title II of the Social Security Act, including the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund and the related provisions of the Internal Revenue Code of 1986, shall be excluded from—

(1) any official documents by Federal agencies regarding the surplus or deficit totals of the budget or any other document submitted by the President or of the surplus or deficit totals of the congressional budget; and

(2) any description or reference in any official publication or material issued by any other agency or instrumentality of the Federal Government.

(b) SEPARATE BUDGET.—The outlays and receipts of the social security program under title II of the Social Security Act, including the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund and the related provisions of the Internal Revenue Code of 1986, shall be submitted as a separate budget.

SEC. 205. PRESIDENT'S BUDGET.

Section 350 of title 31, United States Code, is amended by striking "in a manner consistent" and inserting "in compliance".

SEC. 301. DESIGNATION OF ON-BUDGET SURPLUSES.

(a) IN GENERAL.—Notwithstanding any other provision of law, not less than the amount referred to in subsection (b) for a fiscal year shall be reserved for and applied to the social security trust funds for that fiscal year in addition to the Social Security Trust Fund surpluses.

(b) AMOUNT—RESERVED.—The amount referred to in this subsection is—

(1) for fiscal year 2001, $6,820,000,000;

(2) for fiscal year 2002, $36,580,000,000;

(3) for fiscal year 2003, $56,000,000,000;

(4) for fiscal year 2004, $21,120,000,000;

(5) for fiscal year 2005, $48,980,000,000;

(6) for fiscal year 2006, $71,920,000,000;

(7) for fiscal year 2007, $85,080,000,000;

(8) for fiscal year 2008, $90,520,000,000; and

(9) for fiscal year 2009, $102,300,000,000.

SEC. 302. SENSE OF THE SENATE ON DEDICATING SOCIAL SECURITY SURPLUS AMOUNTS.

It is the sense of the Senate if the budget surplus in future years is greater than the currently projected surplus, serious consideration should be given to directing more of the surplus to strengthening the social security trust funds.

Hon. John McCain, Russell Building, U.S. Senate, Washington, DC.

Dear Senator McCain: On behalf of the approximately five million members and supporters of the Committee, I commend your leadership on the issue of protecting the Social Security trust funds and eliminating the Social Security earnings test.

The National Committee’s members earnestly believe in the future of the Social Security system and its critical importance to America’s hard working families. Your legislation would not only safeguard the Social Security surplus and reaffirm Social Security’s off-budget status, but would also strengthen this program’s solvency by committing 62 percent of projected off-budget surpluses to Social Security. Using the off-budget surpluses to fortify Social Security’s solvency and win help our nation better meet the challenge of the baby-boom generation’s retirement.

We also commend you for your long commitment to eliminating the earnings test for individuals who have reached normal retirement age. Encouraging seniors to remain in the work force as long as they are willing and able to work strengthens their ability to remain financially independent throughout their retirement years.

Sincerely,

Max Richtman, Executive Vice President.

By Mr. McCain (for himself, Mr. Cochran, and Mr. Burns):

S. 1169. A bill to require that certain multilateral development banks and other lending institutions implement independent third party procurement monitoring, and for other purposes; to the Committee on Foreign Relations, for consideration in Foreign Commerce Act of 1999.

Mr. McCain. Mr. President, I along with Senators Cochran and Burns are proud to introduce the Fair Competition in Foreign Commerce Act of 1999, to address the serious problem of waste, fraud and abuse resulting from bribery and corruption in international development projects. This legislation will set conditions for U.S. funding through multilateral development banks. These conditions will require the country receiving aid to adopt substantive procurement reforms and independent third-party procurement monitoring of their international development projects.

During the cold war, banks and governments often looked the other way as pro-western leaders in developing countries treated national treasuries as their personal treasury troves. Today, we cannot afford to look the other way when we see bribery and corruption running rampant in other countries because these practices undermine our goals of promoting democracy and accountability, fostering economic development and trade liberalization, and achieving a level playing field throughout the world for American businesses.

The United States is increasingly called upon to lead multilateral efforts to provide much-needed economic assistance to developing nations. The American taxpayers make substantial contributions to the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, the Inter-American Development Bank, the International Monetary Fund, the Asian Development Bank, the Inter-American Investment Corporation, the North American Development Bank, and the African Development Fund.

However, it is critical that we take steps to ensure that Americans’ hard-earned tax dollars are being used appropriately. The Fair Competition in Foreign Commerce Act of 1999 is designed to decrease the stifling effects of bribery and corruption and improve world development contracts. By doing so, we will (1) enable U.S. businesses to become more competitive when bidding against foreign firms which secure government contracts through bribery and corruption; (2) encourage additional direct investment to developing nations, thus increasing their economic growth, and (3) increase opportunities for U.S. businesses to export to these nations as their economies expand and mature.

Multilateral lending efforts are only effective in spurring economic development if the funds are used to further the intended development projects, not to stuff the pockets of foreign bureaucrats and their well-connected political allies. When used for its intended purpose, foreign aid yields both short- and long-term benefits to U.S. businesses. Direct foreign aid assists developing nations to develop their infrastructure. A developed infrastructure is vital to creating and sustaining a modern dynamic
CONGRESSIONAL RECORD—SENATE

Mr. President, bribery and corruption have many faces. Bribery and corruption hamper vital U.S. interests. Both harm consumers, taxpayers, and honest traders who lose contracts, production, and profits because they refuse to offer bribes to secure foreign contracts.

Bribery and corruption have become a serious problem. A World Bank survey of 3,600 firms in 69 countries showed 40% of businesses paying bribes. More startling is that Germany showed 40% of businesses paying bribes. Commerce Secretary Daley summed up the serious impact of bribery and corruption upon American businesses ability to compete for foreign contracts in 1997:

Since mid-1994, foreign firms have used bribery to win approximately 180 commercial contracts valued at nearly $80 billion. We estimate that over the past year, American companies have lost at least 50 of these contracts, valued at $15 billion. And since many of these contracts were for groundbreaking projects—the kind that produce exports for America—foreign competitors have gained. In addition, despite the importance of international markets to U.S. exporters, Bribery and corruption have hurt America's ability to compete in international procurements for the past year, American companies have lost at least 50 of these contracts, valued at $15 billion. And since many of these contracts were for groundbreaking projects—the kind that produce exports for America—foreign competitors have gained. In addition, despite the importance of international markets to U.S. exporters, American businesses have been harmed by the cost of corruption, which is not the amount of the bribe itself, but the inefficient use of resources that the bribes encourage. Bribery and corruption drive up costs. Companies are forced to increase prices to cover the cost of bribes they are forced to pay. A 2% bribe on a contract can raise costs by 15%. Over time, tax revenues will have to be raised or diverted from other more deserving projects to fund these excesses. Higher taxes and the inefficient use of resources both hinder growth. The World Bank and the IMF both recognize the link between bribery and corruption, and decreased economic growth. Recent studies also indicate that high levels of corruption are associated with low levels of investment and growth. Furthermore, corruption lessons the effectiveness of industrial policies and encourages businesses to operate in the unofficial sector in violation of tax and regulatory laws. More important, corruption breeds corruption and discourages legitimate investment. In short, bribery and corruption create a “lose-lose” situation for the U.S. and developing nations.

The U.S. recognizes the damaging effects bribery and corruption have at home and abroad. The U.S. continues to combat foreign corruption, waste, and abuse on many fronts—from prohibiting U.S. firms from bribing foreign officials, to leading the anti-corruption efforts in the United Nations, the Organization for Economic Cooperation and Development (“OECD”). The U.S. was the first country to enact legislation (the Foreign Corrupt Practices Act) to prohibit its nationals and corporations from bribing foreign public officials in international and business transactions.

However, we must do more. The Foreign Corrupt Practices Act prevents U.S. nationals and corporations from bribing foreign officials, but does nothing to prevent foreign nationals and corporations from bribing foreign officials to obtain foreign contracts. Valuable resources are often diverted from the development of critical infrastructure projects to pay the pockets of corrupt officials. More money in Americans' pockets means more money for Americans to save and invest in their future.

Bribery and corruption also harm the country receiving the aid because bribery and corruption often inflate the cost of international development projects. For example, state sponsorship of massive infrastructure projects that are deliberately beyond the required specification needed to meet the cost of foreign corruption practices. Here, the cost of corruption is not the amount of the bribe itself, but the inefficient use of resources that the bribes encourage. Bribery and corruption drive up costs. Companies are forced to increase prices to cover the cost of bribes they are forced to pay. A 2% bribe on a contract can raise costs by 15%. Over time, tax revenues will have to be raised or diverted from other more deserving projects to fund these excesses. Higher taxes and the inefficient use of resources both hinder growth. The World Bank and the IMF both recognize the link between bribery and corruption, and decreased economic growth. Recent studies also indicate that high levels of corruption are associated with low levels of investment and growth. Furthermore, corruption lessons the effectiveness of industrial policies and encourages businesses to operate in the unofficial sector in violation of tax and regulatory laws. More important, corruption breeds corruption and discourages legitimate investment. In short, bribery and corruption create a “lose-lose” situation for the U.S. and developing nations.

The U.S. recognizes the damaging effects bribery and corruption have at home and abroad. More money in Americans' pockets means more money for Americans to save and invest in their future.
SEC. 2. FINDINGS AND STATEMENT OF PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) The United States makes substantial contributions and provides significant funding for major international development projects through the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, the Inter-American Development Bank, the International Monetary Fund, the Asian Development Bank, the Inter-American Investment Corporation, the North American Development Bank, the African Development Fund, and other multilateral lending institutions.

(2) These international development projects are often plagued with fraud, corruption, waste, inefficiency, misuse, and abuse that are major impediments to the use of funds appropriated or made available by the United States for any non-humanitarian assistance, until—

(3) Fraud, corruption, waste, inefficiency, misuse, and abuse are major impediments to the use of funds appropriated or made available by the United States for any non-humanitarian assistance, until—

(b) OTHER EXCEPTIONS.—Section 4 shall not apply with respect to a country if the President determines that such with respect to such country that making funds available is important to the national security interest of the United States. Any such determination shall cease to be effective 6 months after being made unless the President determines that its continuance is important to the national security interest of the United States.

(c) ANNUAL REPORTS.—Not later than June 29 of each year, the Secretary of the Treasury shall transmit to the Committee on Finance of the Senate and the Committee on Commerce, Science, and Technology of the House of Representatives a report describing the extent to which each multilateral development bank and other lending institution has demonstrated that it has adopted an anti-corruption plan that requires the use of independent third-party procurement monitoring services and ensures the openness and transparency in government procurement; and

SEC. 3. EXCEPTIONS.

(a) NATIONAL SECURITY INTEREST.—Section 4 shall not apply with respect to a country if the President determines that such with respect to such country that making funds available is important to the national security interest of the United States.

(b) OTHER EXCEPTIONS.—Section 4 shall not apply with respect to a country if the President determines that such with respect to such country that making funds available is important to the national security interest of the United States.
growing popularity of extending both the school day and the school year, have driven the funding for programs that can be valuable ones for many school districts.

Students in the United States currently attend school an average of only 180 days per year, compared to 220 days in Japan, and 222 days in both South Korea and Taiwan. American students also receive fewer hours of formal instruction per year compared to their counterparts in Taiwan, France, and Germany. We cannot expect our students to remain competitive with those in other industrialized countries if they must learn the same amount of information in less time.

Our school calendar is based on a no longer relevant agricultural cycle that existed when most American families lived in rural areas and depended on their farms for survival. The long summer vacation allowed children to help their parents work in the fields. Today, summer is a time for vacations, summer camp, and part-time jobs. Young people can certainly earn a great deal at summer camp, and a job gives them maturity and confidence. However, more time in school would provide the same opportunities while helping students remain competitive with those in other countries. As we debate the need to bring in skilled workers from other countries, the need to improve our system of education has become increasingly important.

In 1994, the Commission on Time and Learning recommended keeping schools open longer in order to meet the needs of both children and communities, and the growing popularity of extended-day programs is significant. Between 1987 and 1993, the availability of extended-day programs in public elementary schools has almost doubled. While school systems have begun to respond to the demand for lengthening the school day, the need for more widespread implementation still exists. Extended-day programs are much more common in private schools than public schools, and only 18 percent of rural schools have reported an extended-day program.

This bill would authorize $25 million per year over the next five years for the Department of Education to administer a demonstration grant program. Local education agencies would then be able to conduct a variety of longer school day and school year programs, such as extending the school year, studying the feasibility of extending the school day, and implementing strategies to maximize the quality of extending time.

The constant changes in technology, and greater international competition, have increased the pressure on American students to meet these challenges. Providing the funding for programs to lengthen the school day and school year would leave American students better prepared to meet the challenges facing them in the next century.

By Mr. COVERDELL (for himself, Mrs. FEINSTEIN, Mr. DEWINE, Mr. HELMS, Mr. LOTT, Mr. TORRICE, Mr. MURPHY, Mr. CHAFKIS, and Mr. REID):

S. 1171. A bill to block assets of narcotics traffickers who pose an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States; to the Committee on Banking, Housing, and Urban Affairs.

LEGISLATION TO BLOCK ASSETS OF NARCOTICS TRAFFICKERS

Mr. COVERDELL. Mr. President, I am pleased to join my colleague from California, Senator FEINSTEIN, in introducing legislation that will intensify our fight against the terrible scourge of drugs. A version of this bill was signed into law on March 2. Since then, we have conferred with various agencies, including the Department of the Treasury's Office of Foreign Assets Control, the Department of Justice, and the Office of National Drug Control Policy, and have developed a useful concept. The current bill includes some of their comments and suggestions.

Simply put, Mr. President, this legislation decertifies the drug kingpins by preventing them, and any of their associates, from conducting business with the United States. The bill codifies and expands a 1995 Executive Order created under the International Emergency Economic Powers Act (IEEPA) which targeted Colombia drug traffickers. The bill expands the existing Executive Order to include other foreign drug traffickers considered a threat to our national security. The bill freezes the assets of the identified drug traffickers and their associates and prohibits these individuals and organizations from conducting any financial or commercial dealings with the United States.

In the case of the Cali cartel in Colombia, these actions were remarkably effective in weakening the drug kingpins. The United States targeted over 150 companies and nearly 300 individuals involved in the ownership and management of the Colombian drug cartels' non-narcotics business empire, everything from drugstores to poultry farms. Once labeled as drug-linked businesses, these companies found themselves financially isolated. Banks and legitimate companies chose not to do business with the blacklisted firms, cutting off key revenue flows to the cartels.

The goal is to isolate the leaders of the drug cartels and prevent them from doing business in the United States. Taking legitimate U.S. dollars out of drug dealers' pockets is a vital step in destroying their ability to traffic narcotics across our borders. This is a bold but necessary new tool to wage war against illegal drugs and to curb the increasing power of the drug cartels.

By Mr. TORRICE:

S. 1173. A bill to provide for a teacher quality enhancement and incentive program; to the Committee on Health, Education, Labor, and Pensions.
Mrs. COLLINS. Mr. President, I rise today to introduce a bill that will give consumers important information many want to factor into their decisions when they shop for a new vehicle. My legislation will ensure that consumers have the information they need to compare the pollution emissions of new vehicles. The Automobile Emissions Consumer Information Act of 1999 simply takes data already collected by the Environmental Protection Agency and requires that this information be presented to consumers in an understandable format as they purchase cars. This proposal, if enacted into law, will benefit both the consumer and the environment.

This measure is modeled after existing requirements for gas mileage information. It ensures that emissions information will be on the window sticker of new cars, just as fuel efficiency information is currently displayed. Additionally, emissions information for all new vehicles will be published by the EPA in an easy-to-understand booklet for consumers.

Ms. COLLINS, Mr. President, I urge my colleagues to join me in enacting the Automobile Emissions Consumer Information Act, and I ask unanimous consent that one page from the EPA’s 1999 Annual Certification Test Results of emission standards be printed in the Record. These results shall be published in the same non-technical manner as will responsibly disclose to prospective ultimate purchasers of new motor vehicles and new motor vehicle engines the comparative performance of the vehicles and engines.

It is important to note that the Automobile Emissions Consumer Information Act of 1999 does not require either motor vehicle manufacturers or the EPA to conduct new tests. Manufacturers must already test emissions of all new vehicles and submit the test results to the EPA. Unfortunately, the gathering of this information does not translate into useful information for consumers.

While all vehicles must meet the Federal standards, some vehicles exceed the standards. Consumers who are concerned about vehicle emissions deserve to be able to exercise their right to buy from manufacturers who take extra steps in reducing emissions, if they so choose.

By Mr. ROBB (for himself, Mr. WARNER, and Mr. SARBANES):
S. 1176. A bill to provide for greater access to child care services for Federal employees; to the Committee on Governmental Affairs.

CHILD CARE SERVICES FOR FEDERAL EMPLOYEES

Mr. ROBB, Mr. President, today I am introducing legislation to assist federal workers seeking affordable care for their young children.

Many federal facilities provide child care centers for their employees’ use. But for many lower and middle income employees, these services are simply unaffordable—their costs put them beyond the reach of these families. The bill I am introducing today, along with Senators WARNER and SARBANES, will make this option affordable for these employees.

This legislation authorizes federal agencies to use appropriated funds to help lower middle income federal workers better afford the child care services they need. Let me emphasize that these funds have already been appropriated, meaning no new government spending is involved. This is a modest, cost-effective solution that will certainly ease the minds of parents who are understandably concerned about their child care needs.

Our federal employees should not have to choose between their desire for public service and their need for child care services.

By Mr. DASCHLE:
S. 1178. A bill to direct the Secretary of the Interior to convey certain parcels of land acquired for the Blunt Reservoir and Pierre Canal features of the
The first land for the Pierre Canal feature was purchased in July 1975 and included the 1.3 miles of Reach 1B. An additional 1,204 acres were acquired from 1976 through 1977, also from willing sellers.

Organized opposition to the Oahe Irrigation Project surfaced in 1973 and continued to build until a series of public meetings were held in 1977 to determine if the project should continue. In late 1977, the Oahe project was made a part of President Carter's Federal Water Project review process.

The Oahe project construction was then halted on September 30, 1977, when Congress did not include funding in the FY1978 appropriations.

Thus, all major construction contract activities ceased and land acquisition was halted. The Oahe Project restructured some of the project with a bleak future and minimal chances of being completed as authorized. Consequently, the Department of Interior, through the Bureau of Reclamation, gave to those persons who were large landowners and sold their lands to the project the right for them and their descendants to lease those lands and use them as they had in the past until needed by the Federal government for project purposes.

As I noted previously, the Oahe Irrigation Project was related directly to the overall project purposes of the Pick-Sloan Missouri Basin program authorized under the Flood Control Act of 1944. Under this program, the U.S. Army Corps of Engineers constructed four major dams across the Missouri River in South Dakota. The two largest reservoirs formed by these dams, Oahe Reservoir and Sharpe Reservoir, caused the loss of approximately 221,000 acres of fertile, wooded bottomland which was the most productive, unique and irreplaceable wildlife habitat in the State of South Dakota. This included habitat for both game and non-game species, including several species which are now listed as threatened or endangered.

In summary, Mr. President, the State of South Dakota, the Federal government, the original landowners, the sportmen and wildlife will benefit...
Congressional Record—Senate
May 27, 1999

from this bill. It provides for a fair and just resolution to the private property and environmental problems caused by the Oahe Irrigation Project some 25 years ago. We have waited long enough to right some of the wrongs suffered by our landowners and South Dakota's wildlife resources.

I am hopeful that the Senate will act quickly on this legislation. Our goal is to enact a bill that will allow meaningful wildlife habitat mitigation to begin, give certainty to local landowners who sacrificed their lands for a defunct federal project they once supported, ensure the viability of the local land base and tax base, and provide well maintained and managed recreation areas for sportsmen. I ask unanimous consent that the bill appear in the Record.

There being no objection, the bill was ordered to be printed in the Record, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.
This Act may be cited as the “Blunt Reservoir and Pierre Canal Land Conveyance Act of 1999”.

SEC. 2. FINDINGS.
Congress finds that—
(1) under the Act of December 22, 1944 (commonly known as the “Flood Control Act of 1944”) (58 Stat. 887, chapter 665; 33 U.S.C. 701–1 et seq.), Congress approved the Pick-Sloan Missouri River Basin program—
(A) to provide the general economic development of the United States;
(B) to provide for irrigation above Sioux City, Iowa;
(C) to protect urban and rural areas from devastating floods of the Missouri River; and
(D) for other purposes;
(2) the purpose of the Oahe Irrigation Project was to meet the requirements of that Act by providing irrigation above Sioux City, Iowa;
(3) the principle features of the Oahe Irrigation Project including—
(A) a system of main canals, including the Pierre Canal, running east from the Oahe Reservoir; and
(B) the establishment of regulating reservoirs, including the Blunt Dam and Reservoir, located approximately 35 miles east of Pierre, South Dakota;
(4) land to establish the Pierre Canal and Blunt Reservoir was purchased from willing sellers between 1972 and 1977, when construction on the Oahe Irrigation Project was halted;
(5) since 1978, the Commissioner of Reclamation has administered the land—
(A) on a preferential lease basis to original landowners or their descendants; and
(B) on a nonpreferential lease basis to other persons;
(6) the 2 largest reservoirs created by the Pick-Sloan Missouri River Basin Program, Lake Oahe and Lake Sharpe, caused the loss of approximately 221,000 acres of fertile, wooded bottomland in South Dakota that constitutes some of the most productive, unique, and irreplaceable wildlife habitat in the State;
(7) the State of South Dakota has developed a plan to meet the Federal obligation under the Fish and Wildlife Coordination Act (16 U.S.C. 661 et seq.) to mitigate the loss of wildlife habitat, the implementation of which is authorized by section 602 of title V of Public Law 105–277 (122 Stat. 2681–660); and
(8) it is in the interests of the United States and the State of South Dakota to—
(A) provide original landowners or their descendants with an opportunity to purchase back their land; and
(B) transfer the remaining land to the State of South Dakota to allow implementation of its habitat mitigation plan.

SEC. 3. BLUNT RESERVOIR AND PIERRE CANAL.
(a) DEFINITIONS.—In this section:
(1) BLUNT RESERVOIR.—The term “Blunt Reservoir feature” means the Blunt Reservoir feature of the Oahe Irrigation Project authorized by section 9 of the Act of December 22, 1944 (58 Stat. 887, chapter 665), as part of the Pick-Sloan Missouri River Basin Program.
(2) PIERRE CANAL FEATURE.—The term “Pierre Canal feature” means the Pierre Canal feature of the Oahe Irrigation Project authorized by section 9 of the Act of December 22, 1944 (58 Stat. 887, chapter 665), as part of the Pick-Sloan Missouri River Basin Program.
(b) COMMISSION.—The term “Commission” means the Commission of Schools and Public Lands of the State of South Dakota.
(c) NONPREFERENTIAL LEASE PARCEL.—The term “nonpreferential lease parcel” means a parcel of land that—
(A) was purchased by the Secretary for use in connection with the Blunt Reservoir feature or the Pierre Canal feature; and
(B) is under lease to a person other than a preferential leaseholder as of the date of enactment of this Act.
(d) PREFERENTIAL LEASEHOLDER.—The term “preferential leaseholder” means a leaseholder of a parcel of land who is—
(A) the person from whom the Secretary purchased the parcel for use in connection with the Blunt Reservoir feature or the Pierre Canal feature;
(B) the original operator of the parcel at the time of acquisition; or
(C) a descendant of a person described in subparagraph (A) or (B).
(e) PREFERENTIAL LEASE PARCEL.—The term “preferential lease parcel” means a parcel of land that—
(A) was purchased by the Secretary for use in connection with the Blunt Reservoir feature or the Pierre Canal feature; and
(B) is under lease to a preferential leaseholder as of the date of enactment of this Act.
(f) SECRETARY.—The term “Secretary” means the Secretary of the Interior, acting through the Commissioner of Reclamation.
(g) UNLEASED PARCEL.—The term “unleased parcel” means a parcel of land that—
(A) was purchased by the Secretary for use in connection with the Blunt Reservoir feature or the Pierre Canal feature; and
(B) is not under lease as of the date of enactment of this Act.
(h) DEAUTHORIZATION.—The Blunt Reservoir feature is deauthorized.
(i) CONVEYANCE.—The Secretary shall convey all of the preferential lease parcels to the Commission, without consideration, on the condition that the Commission honor the purchase option provided to preferential landowners under subsection (d).
(j) PURCHASE OPTION.—(1) IN GENERAL.—A preferential leaseholder shall have an option to purchase from the Commission the preferential lease parcel that is the subject of the lease.
(2) TERMS.—(A) IN GENERAL.—Except as provided in subparagraph (B), a preferential leaseholder may elect to purchase a parcel on 1 of the following terms:
(i) Cash purchase for the amount that is equal to—
(I) the value of the parcel determined under paragraph (4); minus
(II) 10 percent of that value.
(ii) Installment purchase, with 20 percent of the value of the parcel determined under paragraph (4) to be paid on the date of purchase and the remainder to be paid over not more than 30 years at 3 percent annual interest.
(B) VALUE UNDER $15,000.—If the value of the parcel is under $15,000, the purchase shall be made on a cash basis in accordance with subparagraph (A)(i).
(k) OPTION EXERCISE PERIOD.—(1) IN GENERAL.—A preferential leaseholder shall have until the date that is 10 years after the date of the conveyance under subsection (c) to exercise the option under paragraph (j).
(2) CONTINUATION OF LEASES.—Until the date specified in subparagraph (A), a preferential leaseholder shall be entitled to continue to lease from the parcel leased by the preferential leaseholder under the same terms and conditions as under the lease, as in effect as of the date of conveyance.
(l) VALUATION.—(A) IN GENERAL.—The value of a preferential lease parcel shall be determined to be, at the election of the preferential leaseholder—
(i) the amount that is equal to—
(I) the number of acres of the preferential lease parcel; multiplied by
(II) the amount of the per-acre assessment of adjacent parcels made by the Director of Equalization of the county in which the preferential lease parcel is situated; or
(ii) the amount of a valuation of the preferential lease parcel for agricultural use made by an independent appraiser.
(m) COST OF APPRAISAL.—If a preferential leaseholder elects to use the method of valuation described in subparagraph (A)(i), the cost of the valuation shall be paid by the preferential leaseholder.
(n) CONVEYANCE TO THE STATE OF SOUTH DAKOTA.—(1) IN GENERAL.—If a preferential leaseholder fails to purchase a parcel within the time specified in paragraph (k), the Commission shall convey the parcel to the State of South Dakota Department of Game, Fish, and Parks.
(o) WILDLIFE HABITAT MITIGATION.—Land conveyed under subparagraph (A) shall be used by the South Dakota Department of Game, Fish, and Parks for the purpose of mitigating the wildlife habitat that was lost as a result of the development of the Pick-Sloan Project.
(p) USE OF PROCEEDS.—Of the proceeds of sales of land under this subsection—
(A) not more than $500,000 shall be used to reimburse the Secretary for expenses incurred in implementing this Act;
(B) an amount not exceeding 10 percent of the cost of each transaction conducted under this Act shall be used to reimburse the Commission for expenses incurred implementing this Act;
(C) $3,095,000 shall be deposited in the South Dakota Wildlife Habitat Mitigation Trust Fund established by section 603 of division C of Public Law 106–277 (122 Stat. 2681–660) for the purpose of paying property taxes on land transferred to the State of South Dakota;
CONGRESSIONAL RECORD—SENATE

May 27, 1999

S. 1179. A bill to amend title 18, United States Code, to prohibit the sale, delivery, or other transfer of any type of firearm to a juvenile, with certain exceptions.

Mr. BOXER. S. 1179. A bill to amend title 18, United States Code, to prohibit the sale, delivery, or other transfer of any type of firearm to a juvenile, with certain exceptions.

The Youth Access to Firearms Act of 1999

This precisely what happened in Littleton, Colorado. The two teenage boys who shot up Columbine High School in April bought their guns—two shotguns and a rifle—from a private gun store. They were given to them by an 18-year-old female friend. Under federal law, that was perfectly legal.

I should not be. You should not be able to give a gun to a juvenile, unless you are the parent or grandparent.

As I said earlier, there are certain things that are legally off-limits to juveniles. Selling and giving them guns, if you are not their parent, should be one of those things.

I urge my colleagues to support this bill.

By Mr. KENNEDY:

S. 1180. A bill to amend the Elementary and Secondary Education Act of 1965, to reauthorize and make improvements to that Act, and for other purposes.

EDUCATIONAL EXCELLENCE FOR ALL CHILDREN ACT OF 1999

Mr. KENNEDY. Mr. President, it is a privilege to introduce President Clinton's proposal for reauthorizing the Elementary and Secondary Education Act, the "Educational Excellence for All Children Act of 1999," along with Senators DODD, DASCHLE, MURRAY, SCHUMER, LEVIN, and DORGAN. This is another strong step by the President to ensure that all children have the benefit of the best possible education.

Since President Clinton has consistently led the way on improving schools and making sure that all children meet high standards.

Today, as a result, almost every state has established high standards for its students. "High standards" is no longer just a term for academics experts and policy-makers—it is becoming a reality for the nation's schools and students.

The recently released National Assessment of Title I shows that student achievement is improving—and that the federal government is an effective partner in that success. This result is good news for schools, good news for parents, and good news for students—and it should be a wake-up call to Congress. We need to do more to build on these emerging successes to ensure that every child has the opportunity for an excellent education.

At dinner tables and boardrooms across America, the topic of discussion is education. As a result of the progress we have made the past few years, we can look at the education glass on the table and say it's "half full"—not "half empty." Educators in public schools would have the country believe.

Since the reauthorization of Title I in 1994, a non-partisan Independent Review Panel of twenty-two experts from...
across the country has been overseeing the evaluation of the program. As the largest federal investment in improving educational opportunity, Title I is improving education for 11 million children in 45,000 schools with high concentrations of poverty. It helps schools provide professional development for teachers, improve curricula, and extend learning time, so that students meet high state standards of achievement.

Under the 1994 amendments to Title I, states were no longer allowed to set lower standards for children in the poorest communities than for students in more affluent communities. The results are clear. Students do well when expectations are set high and they are given the support they need and deserve.

Student achievement in reading and math has increased—particularly the achievement of the poorest students. Since 1992, reading achievement for 9-year-olds in the highest poverty schools has increased by one whole grade level nationwide. Between 1990 and 1996, math scores of the poorest students also rose by a grade level.

Students are meeting higher state standards. According to state-reported results, students in the highest poverty elementary schools improved in 5 of 6 states reporting three-year data in reading and in 4 out of 5 states in math. Students in Connecticut, Maryland, North Carolina, and Texas made progress in both subjects.

Many urban school districts report that achievement also improved in their highest-poverty schools. In 10 of 13 large urban districts that report three-year trend data, more elementary students in the highest poverty schools are now meeting district or state standards in reading or math. Six districts, including Houston, Dade County, New York, Philadelphia, San Antonio, and San Francisco, made progress in both subjects.

Federal funds are increasingly targeted to the poorest schools. The 1994 amendments to Title I shifted funds away from low-poverty schools and into high-poverty schools. Today, 95 percent of the highest-poverty schools receive Title I funds, up from 80 percent in 1993.

In addition, Title I funds help improve teaching and learning in the classroom. 99 percent of Title I funds go to the local level. 93 percent of those federal dollars are spent directly on instruction, while only 62 percent of all state and local education dollars are spent on instruction.

The best illustrations of these successes are in local districts and schools in Baltimore County, Maryland, all but one of the 19 Title I schools increased student performance between 1993 and 1998. The success has come from Title I support for extended year programs, implementation of effective programs in reading, and intensive professional development for teachers.

At Roosevelt High School in Dallas, Texas, where 80 percent of the students are poor, Title I funds were used to increase parent involvement, train teachers to work more effectively with parents, and make other changes to bring high standards into every classroom. Student reading scores have nearly doubled, from the 40th percentile in 1992 to the 77th percentile in 1996. During the same period, math scores soared from the 16th to the 73rd percentile, and writing scores rose from the 58th to the 84th percentile.

In addition to the successes supported by Title I, other indicators demonstrate that student achievement is improving on the top of the latest international assessment of reading. American 4th graders out-performed students from all other nations except Finland.

At Baldwin Elementary School in Boston, Massachusetts, some of the students are poor. Performance on the Stanford 9 test rose substantially from 1996 to 1998 because of increases in teacher professional development and implementation of a whole-school reform plan to raise standards and achievement for all children. In 1996, 66 percent of the 3rd grade students scored in the lowest levels in math. In 1998, 100 percent scored in the highest levels. In 1997, 75 percent of 4th graders scored in the lowest levels in reading. In 1998, no 4th graders scored at the lowest level, and 56 percent scored in the highest levels.

The combined verbal and math scores on the SAT increased 19 points from 1982 to 1997, with the largest gain of 15 points occurring between 1992 and 1997. The average math score is at its highest level in 26 years.

Students are taking more rigorous subjects than ever—and doing better in them. The proportion of high school graduates taking the core courses recommended in the 1983 report, A Nation At Risk, has increased to 52 percent by 1994, up from 44 percent in 1982 and 40 percent in 1990. Since 1982, the percentage of graduates taking biology, chemistry, and physics has doubled, rising from 10 percent in 1982 to 21 percent in 1994. With increased participation in advanced placement courses, the number of students that scored at 3 or above on the AP exams has risen nearly five-fold since 1982, from 131,871 in that year to 635,922 in 1998.

Clearly, the work is not done. These improvements are gratifying, but there is no cause for complacency. We must do more to ensure that all children have high academic standards. We must do more to increase support for programs like Title I to build on these successes and make them available to all children.

President Clinton’s “Educational Excellence for All Children Act of 1999” builds on the success of the 1994 reauthorization of ESEA to ensure that all children are held to the same high academic standards. This bill makes high standards the core of classroom activities in every school across the country—and holds schools and school districts responsible for making sure all children meet those standards. The bill focuses on three fundamental ways to accomplish this goal: improving teacher quality, increasing accountability for results, and creating safe, healthy, and disciplined learning environments for children.

This year, the nation set a new record for elementary and secondary student enrollment. The figure will reach an all-time high of 53 million students—500,000 more students than last year. Communities in every state and Congress must work together to see that these students receive a good education.

Serious teacher shortages are being caused by the rising student enrollments, and also by the growing number of teacher retirements. The nation’s schools need to hire 2.2 million public school teachers over the next ten years, just to hold their own. If we don’t act now, the need for more teachers will put even greater pressure in the future on school districts to lower their standards and hire more unqualified teachers. Too many teachers leave within the first three years of teaching—including 30-50% of teachers in urban areas—because they don’t get the support and mentoring they need. Veteran teachers need ongoing professional development opportunities to enhance their knowledge and skills, to integrate technology into the curriculum, and to help children meet high state standards.

Many communities are working hard to attract, keep, and support good teachers—and often they’re succeeding. The North Carolina Teaching Fellows Program has recruited 3,600 high-ability high school graduates to go into teaching. The students agree to teach for four years in the state’s public schools, in exchange for a four-year college scholarship. School principals in the state report that the performance of the fellows far exceeds that of other new teachers.

In Chicago, a program called the “Golden Apple Scholars of Illinois” recruits promising young men and women into teaching by selecting them during their junior year of high school, then mentoring them through the rest of high school, college, and five years of actual teaching. 60 Golden Apple Scholars enter the teaching field each year, and 90 percent of them stay in the classroom.

Colorado State University’s “Project Promise” recruits prospective teachers
from fields such as law, geology, chemistry, stock trading and medicine. Current teachers mentor graduates in their first professional year. More than 90 percent of the recruits go into teaching, and 80 percent stay for at least five years.

New York City’s Mentor Teacher Internship Program has increased the retention of new teachers. In Montana, only 4 percent of new teachers in mentoring programs left after their first year of teaching, compared with 28 percent of teachers without the benefit of mentoring.

New York City’s District 2 has made professional development the central component for improving schools. The idea is that student learning will increase as the knowledge of educators grows—and it’s working. In 1996, student math scores were second in the city.

Massachusetts has invested $60 million in the Teacher Quality Endowment Fund to launch the 12-to-62 Plan for Strengthening Massachusetts Future Teaching Force. The program is a comprehensive effort to improve recruitment, retention, and professional development of teachers throughout their careers.

Congress should build on and support these successful efforts across the country to ensure that the nation’s teaching force is strong and successful in the years ahead.

The Administration’s proposal makes a major investment in ensuring quality teachers in every classroom, especially in areas where the needs are greatest. It authorizes funds to help states and communities improve the recruitment, retention, and on-going professional development of teachers. It will provide central school districts with the support they need to recruit excellent teacher candidates, to retain and support promising beginning teachers through mentoring programs, and to provide veteran teachers with the on-going professional development they need to help all children meet high standards of achievement. It will also support a national effort to recruit and train school principals.

In recognition of the national need to recruit 2.2 million teachers over the next decade, the Administration’s proposal will fund projects to recruit and retain high-quality teachers and school principals in high-need areas. The Transition to Teaching proposal will continue and expand the successful “Troops to Teachers” initiative by recruiting and supporting mid-career professionals in the armed forces as teachers, particularly in high-poverty school districts and high-need subjects.

The proposal holds states accountable for having qualified teachers in the classroom. It requires that within four years, 95 percent of all teachers must be certified, working toward full certification through an alternative route that will lead to full certification within three years, or are fully certified in another state and working toward state-specific requirements. It also requires states to ensure that at least 95 percent of secondary school teachers have academic training or demonstrated competence in the subject area in which they teach.

Parents and educators across the country also say that reducing class size is at the top of their priorities for education reform. It is obvious that smaller class sizes, particularly in the early grades, improve student achievement. We must help states and communities reduce class sizes in the early grades, when individual attention is needed most. Congress made a down-payment last year on helping communities reduce class size, and we can’t walk away from that commitment now.

The Educational Excellence for All Children Act authorizes the full 7 years of this program, so that communities will be able to hire 100,000 teachers across the country.

We know qualified teachers in small classes make a difference for students. There is also mounting evidence that the President and Congress took the right step in 1994 by making standards-based reform the centerpiece of the 1994 reauthorization. In schools and school districts across the country that have set high standards and required accountability for results, student performance has risen, and the numbers of falling schools has fallen.

Nevertheless, 10 to 15 percent of high school graduates today—up to 340,000 graduates each year—do not continue their education. Often, they cannot balance a checkbook or write a letter to a credit card company to explain an error. They are more likely to drop out. Clearly, these students need support.

The proposal also holds schools and districts accountable for children meeting the standards. The bill requires schools and districts to end the unsound educational practices of socially promoting children or making them repeat a grade. States must collect data on social promotion and retention rates as an indicator of whether children are meeting high standards, and schools must implement responsible promotion policies. The proposal is designed to eliminate the dismal choice between social promotion and repeating a grade. It does so in several ways—by increasing support for early education programs, by improving early reading skills, by improving the quality of the teaching force, by providing extended learning time through after-school and summer-school programs, and by creating safe, disciplined learning environments for children.

Parents and educators across the country also say that reducing class size, when individual attention is needed most, is important. The proposal also holds schools and districts accountable for children meeting the standards. The bill requires schools and districts to end the unsound educational practices of socially promoting children or making them repeat a grade. States must collect data on social promotion and retention rates as an indicator of whether children are meeting high standards, and schools must implement responsible promotion policies. The proposal is designed to eliminate the dismal choice between social promotion and repeating a grade. It does so in several ways—by increasing support for early education programs, by improving early reading skills, by improving the quality of the teaching force, by providing extended learning time through after-school and summer-school programs, and by creating safe, disciplined learning environments for children.

The proposal also holds schools and districts accountable for children meeting the standards. The bill requires schools and districts to end the unsound educational practices of socially promoting children or making them repeat a grade. States must collect data on social promotion and retention rates as an indicator of whether children are meeting high standards, and schools must implement responsible promotion policies. The proposal is designed to eliminate the dismal choice between social promotion and repeating a grade. It does so in several ways—by increasing support for early education programs, by improving early reading skills, by improving the quality of the teaching force, by providing extended learning time through after-school and summer-school programs, and by creating safe, disciplined learning environments for children.
Finally, the President’s proposal helps create safe, disciplined, and healthy environments for children. Last year, President Clinton led a successful effort to increase funding for after-school programs in the current year. But far more needs to be done.

Effective programs are urgently needed for children of all ages during the many hours they are not in school each week and during the summer. The “Home Alone” problem is serious, and deserves urgent attention. Every day, 5 million children, many as young as 8 or 9 years old, are left alone after school. Juvenile crime peaks in the hours between 3 p.m. and 8 p.m. A recent study of gang crimes by juveniles in Orange County, California, shows that 60 percent of all juvenile gang crimes occur on school days and peak immediately after school dismissal. Children left un-supervised are more likely to be involved in illegal activities and destructive behavior. We need constructive alternatives to keep children off the streets, away from drugs, and out of trouble.

We need to do all we can to encourage communities to develop after-school activities that will engage children. The proposal will triple our investment in after-school programs, so that one million children will have access to worthwhile activities.

The Act also requires school districts and schools to have sound discipline policies that are consistent with the Individual with Disabilities Education Act, are fair, and are developed with the participation of the school community. In addition, the Safe and Drug-Free Schools and Communities Act is strengthened to support research-based prevention programs to address violence and drug-use by youth.

In order to develop a healthy environment for children, local school districts will be able to use 5 percent of their funds to support coordinated services, so that children and their families will have better access to social, health, and educational services necessary for students to do well in school.

In all of these ways and more ways, President Clinton’s proposal will help schools and communities bring high standards of learning to every student, ensuring that all children meet them. Major new investments are needed to improve teacher quality—hold schools, school districts, and states accountable for results—increase parent involvement—expand after-school programs—reduce class size in the early grades—and ensure that schools meet strict discipline standards. With investments like these, we are doing all we can to ensure that the nation’s public schools are the best in the world.

Education must continue to be a top priority in this Congress. We must address the needs of public schools, families, and children so that we ensure that all children have an opportunity to attend an excellent public school now and throughout the 21st Century. The President’s proposal is an excellent series of needed initiatives, and it deserves broad bipartisan support. I look forward to working with my colleagues to make it the heart of this year’s ESEA Reauthorization Bill.

Mr. President, I am unanimous in the conviction that additional material be printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

Section 2. Table of Contents. Section 2 of the bill would set out the table of contents for the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq., hereinafter in the section-by-section analysis referred to as “the ESEA”) as it would be amended by the bill.

Section 3. America’s Education Goals. Section 3 of the bill would rename the National Education Goals (currently in Title I of the Goals 2000: Educate America Act, P.L. 105–227), as “America’s Education Goals” and update the Goals to reflect our Nation’s continuing need for the Goals. Even though all the Goals will not have been reached by the year 2000 as originally hoped, nor accomplished to equal degrees, the Goals were purposefully designed to set high expectations for educational performance at every stage of an individual’s life, and there is a continued need to reaffirm these Goals as a benchmark to which all students can strive and attain. With policymakers, educators, and the public united in an effort to achieve America’s Education Goals, the Nation will be able to raise its overall level of educational achievement.

Section 3(a) of the bill would contain findings concerning America’s Education Goals, as well as discussion in which the Nation as a whole, as well as individual States, have been successful (or unsuccessful) at making progress toward achieving the various Goals of the past decade. In order to reflect the overarching importance to America’s Education Goals, section 3(b) of the bill would amend the ESEA to place the Goals in a proposed new section 3 of the ESEA. Proposed new section 3(a) of the ESEA would state the purpose of America’s Education Goals as: setting forth a common set of national goals for the education of our Nation’s students that the Federal Government and all States and local communities will work to achieve; identifying the Nation’s highest education priorities related to preparing students for responsible citizenship, further learning, and the technological, scientific, economic, and social challenges of the 21st century; and establishing a framework for educational excellence at the national, State, and local levels. Proposed new section 3(b) of the ESEA would state the Goals.

Title I of the Goals 2000: Educate America Act, the current authority for the National Education Goals, would be repealed by section 1211 of the bill.

Section 4. Transition. Section 4 of the bill would specify the actions that the Secretary must, and a recipient of ESEA funds may, take to comply with the requirements of the ESEA as in effect the day before the date of enactment of the Educational Excellence for All Children Act of 1999 and the requirements of the ESEA as amended by the bill.

Under section 4(a) of the bill, the Secretary would be required to take such steps as the Secretary determines to provide for the orderly transition to programs and activities under the ESEA, as amended by the bill, from programs and activities under the ESEA as in effect the date before the date of enactment of the bill.

Under section 4(b) of the bill, a recipient of funds under the ESEA, as it was in effect the date before the date of enactment of the bill, may use such funds to carry out necessary and reasonable planning and transition activities in order to ensure a smooth implementation of programs and activities under the ESEA, as amended by the bill.

Section 5. Effective Dates. Section 5 of the bill would set the effective dates for the bill. The bill would take effect July 1, 2000, except for those amendments made by the bill that pertain to programs administered by the Secretary on a competitive basis, and the amendments made by Title VIII of the bill (Impact Aid), which would take effect with respect to appropriations for fiscal year 2001 and subsequent fiscal years, and amendments made by sections 4, 5, 6, and 7 (transition requirements), which would take effect upon enactment.

Title I—Helping Disadvantaged Children Meet High Standards Section 101. Declaration of policy and statement of purpose (ESEA, §1001). Section 101(a) of the bill would amend the statement of policy in section 101(a) of the ESEA by deleting (1) the reference to a general increase in appropriations of at least $750 million from fiscal year 1996 through 1999, and (2) the provisions related to the transition from Title I of the Goals 2000: Educate America Act to section 3 of the ESEA, and to add a paragraph (6) noting the benefits of holding local educational agencies (LEAs) and schools accountable for results. Section 101(b) would amend the statement of need in section 101(b) of the ESEA to reflect the bill’s proposal to move the text of the National Education Goals from the Goals 2000: Educate America Act to section 3 of the ESEA, and to add a paragraph (6) noting the benefits of holding local educational agencies (LEAs) and schools accountable for results.

Section 101(c) would update the statement, in section 101(c), of what has been learned, and the experience and results that the statement was enacted in 1994, including the addition of six new findings.

Section 101(d) would redefine the list of activities through which Title I’s purpose is to be achieved, promoting comprehensive schoolwide reforms that are based on reliable research and effective practices.

Section 102. Authorization of appropriations (ESEA, §1002). Section 102 of the bill would restate, in its entirety, section 1002 of the ESEA, which authorizes the appropriation of funds to carry out the various Title I programs. As revised, section 1002 would authorize the appropriations of “such sums as may be necessary” for fiscal years 2001 through 2005 for grants to LEAs under Part A, the Even Start program under Part B, the educational assistance to migrant children under Part C, State agency programs for neglected or delinquent children under Part D, the Reading Excellence program (to be transferred to Part C from Title II), and all fiscal year 2002 through 2005 funds under Part D (except Title I funds). Funds under Part D (except Title I funds) would be allocated to States to carry out their Title I education activities, rather than through a separate authorization as in current law.
Section 103(b) of the ESEA would permit the Secretary to reserve up to 0.30 percent of each State's reserve fund for technical assistance, evaluations and studies, collect data, and carry out other activities under section 1501.

Section 111(2)(A) would add a reference to the heading of section 1111(a)(1) of the ESEA, which requires a State that wishes to receive a Basic Grant under Part A of Title I to submit a State plan to the Secretary of Education (the Secretary). Section 111(1)(A)(i) would add language emphasizing that the purpose of a State's plan is to help all children achieve to high standards and to improve teaching and learning in the State.

Section 111(2)(A)(ii) would add, to the list of other programs with which the plan must be coordinated, a specific reference to the Individuals with Disabilities Education Act (IDEA) and the Carl D. Perkins Vocational and Technical Education Act of 1998.

Section 111(2)(B) would improve the readability of section 1111(a)(2), which permits a State to include in Part A a plan as part of a consolidated plan under section 14302 (to be redesignated as §14302).

Section 111(2)(C) would add a reference to accountability to the heading of section 1111(b), to reflect the proposed addition of language on that topic as section 1111(b)(3).

Section 111(2)(B)(i) would streamline section 1111(b)(1)(B), which requires that the challenging content and student-performance standards each State must use in carrying out Part A be the same standards that the State uses for all schools and children in the State, to reflect the progress that States are expected to have made under current law by the effective date of the bill.

Section 111(2)(B)(ii) would delete outdated language from section 1111(b)(1)(C), which provides that, if a State has not adopted content and student-performance standards for all students, it must have those standards for children served under Part A in subjects determined by the State, which must include at least mathematics and reading or language arts.

Section 111(2)(C) would delete current section 1111(b)(2), which requires States to describe what constitutes adequate yearly progress by LEAs and schools participating in the Part A program. This requirement would be replaced by the new provision described in section 1111(c)(3), described below. Section 111(2)(C) would also redesignate paragraph (3) of section 1111(b), relating to assessments, as paragraph (2).

Section 111(2)(D)(i) would clarify that States must start using the yearly assessments described in current paragraph (3) of section 1111(b) (which the bill would redesignate as paragraph (2)) no later than the 2000-2001 school year.

Section 111(2)(D)(ii) would amend subparagraph (A) to emphasize that the purpose of the annual assessment of limited English proficient (LEP) children is to reflect the proposed addition of accountability to the heading of section 1111(b), to require the LEA's plan to describe the assessments of limited English proficient (LEP) children. Clauses (iv) and (v) would be added to require, respectively, that: (1) LEP students who speak Spanish be assessed with tests written in Spanish, if Spanish-language tests are more than likely to reflect the language abilities of any student who has attended school in the United States for three or more consecutive years.

Section 111(2)(D)(E) would add a new provision on accountability systems that the State uses (other than those described in section 4111). It would replace the current requirement that States establish criteria for “adequate yearly progress” in LEAs and schools with a requirement that the accountability system as part of their State applications, reflecting the critical role that accountability plays as a component of overall systems. In addition, the bill would require a State to have an accountability system that is based on challenging standards, includes all students, promotes continuous improvement, and is used to identify and intervening in schools and districts in need of improvement. This proposal addresses concerns that many current accountability systems focus only on overall school performance and divert attention away from the students who need the greatest help.

Section 111(2)(F) would make a conforming amendment to section 1111(b)(4).

Section 111(2)(G) would delete paragraphs (5), (6), and (7) from section 1111(b). Paragraph (5) would require States to identify languages other than English that are present in the participating school population, to indicate the languages for which assessments are not available, and to make every effort to develop those assessments. That provision is burdensome and unnecessary. Paragraph (6) describes the schedule, established in 1994, for States to develop the necessary standards and assessments, while paragraph (7) governs the transition period during which States were not required to have “final” standards and assessments in place. Those provisions would be obsolete by the time the bill takes effect. Instead, section 112(2)(G) would enact a new paragraph (5), providing that while a State may revise its assessments at any time, it must comply with the statutory timelines for identifying, assisting, and taking corrective action with respect to, LEAs and schools serving students who are English language learners.

Section 111(2)(H) and (I) would redesignate paragraph (8) of section 1111(b) as paragraph (6) and make conforming amendments to cross-references in that paragraph.

Section 111(3) of the bill would amend section 1111(c) of the ESEA, to significantly shorten the list of assurances that each State must make to receive Basic Grants, as described below.

Section 111(4)(A) would add section 1111(d)(2), relating to withholding of funds from States whose plans do not meet section 1111’s requirements.

Section 111(6) would replace subsection (g) of section 1111, which is obsolete by its terms, with language permitting the Secretary to take any of the actions described in subparagraph (G) of that subsection.

Section 111(7) would replace subparagraph (H) of section 1111, which applies the authority in that section to the case of a State that fails to carry out its responsibilities under proposed Part B of Title VI (relating to teacher quality, social promotion, and technical assistance), and how the Secretary would fund those programs, including the ESEA programs, administrated by the Department of Education.
of children for whom an LEA’s plan must describe, coordination of Title I services with other educational services those children receive.

Section 112(2)(F) would amend section 1112(b)(9), relating to preschool programs, to replace the proviso in that provision with a cross-reference to new language that the bill would add to section 112B.

Section 113(2)(C) would amend section 1112(b) to require LEAs to include two additional items in their plans: (1) a description of the options it will take to assist its low-performing, high-rofitivity schools; and (2) a description of how the LEA will promote the use of extended learning time, such as an extended school year, before- and after-school programs, and summer programs.

Section 112(3) would amend section 1112(c), which describes the assurances that an LEA must include in its application, to conform to other provisions in the bill and to delete obsolete provisions relating to the Head Start program. The new Head Start standards would be incorporated into proposed section 1120B. Section 112(3) would also require that an LEA include new assurances that it will assess the proficiency of all LEA students participating in Part A programs, use the results of those assessments to help guide and modify instruction in those areas, and provide those results to the parents of those children; and (2) comply with the requirements of section 119 regarding teacher qualifications and the use of paraprofessionals.

Section 112(4) would amend section 1112(d), regarding to the development and duration of an LEA’s plan, to require the LEA to submit the plan for annual approval. LEAs would be subject to further conditions, areas, and provide those results to the parents of those children and, (2) comply with the requirements of section 119 regarding teacher qualifications and the use of paraprofessionals.

Section 113, eligible school attendance areas (ESEA, §1113). Section 113(1) of the bill would amend section 1113, relating to eligible school attendance areas, to clarify that waivers relating to the requirements of section 1113 for school attendance areas covered by State-ordered or court-ordered desegregation plans approved by the Secretary.

Section 113(2)(C) would restore to section 1112 the authority for an LEA to continue serving an attendance area for one year after it loses its eligibility, which language, which was removed from the Act in 1994, would give LEAs flexibility to prevent the abrupt loss of services to children who can clearly benefit from them, as individual attendance areas move in and out of eligibility from year to year.

Section 113(3)(A) would add, as section 1113(2)(C), language to clarify that an LEA may allocate greater per-child amounts of Title I funds to higher-poverty areas and schools than it provides to lower-poverty areas and schools.

Section 113(3)(B) would amend section 1113(c)(2)(D) to require an LEA to reserve sufficient funds to serve homeless children who do not attend participating schools, but not entitled to serve on the basis of those funds.

Section 113(c)(2) would amend section 1113(c)(3) to define an LEA to reserve sufficent funds to serve homeless children who do not attend participating schools, not just when the LEA finds it ‘‘appropriate’’. Some LEAs have invoked the current language as a justification for failing to provide services to these children.

Section 114, schoolwide programs (ESEA, §1114). Section 114(a)(1) and (2) of the bill would amend section 1114(a) of the ESEA, which describes the eligibility for, schoolwide programs under section 1114, by revising the subsection heading to more accurately reflect subsection (a)’s content, and to delete current paragraph (2), which describes the criteria a State could use in designating LEAs for schoolwide programs.

Section 114(a)(3)(A) would make a conforming amendment to section 1114(a)(4)(A) to reflect the revised structure of section 1114(b)(2) as section 1114(c)(2).

Section 114(a)(3)(B) would make the prohibition on using IDEA funds to support a schoolwide plan conform to current law. Section 63(a)(2)(D) of the IDEA, as enacted by the IDEA Amendments of 1997, no longer specifies that instructional programs are to be used to support schoolwide programs, subject to certain conditions.

Section 114(a)(4) would delete paragraph (5) of section 1114(a), relating to professional development in schoolwide programs. That topic is addressed by other applicable provisions, including the revised statement of the required elements of schoolwide programs. See, especially, proposed sections 1114(b)(2)(C) and 1119.

Section 114(b)(1) would delete section 1114(c), which describes the criteria an LEA must meet to receive current subsection (b)(2) as subsection (c). Under this revised structure, subsection (b) would list the required components of a schoolwide program, and subsection (c) would describe the contents of a plan for a schoolwide program.

Section 114(c) would revise the statement of the elements of a schoolwide program in section 1114(b) in its entirety. The revised statement would strengthen current law, to reflect experience and research over the past several years, including significant aspects of the Comprehensive School Reform Demonstration program.

Section 114(d)(1)–(4) would amend the requirements of section 1114 relating to plans for schoolwide programs (current subsection (b)(2), which the bill would redesignate as subsection (c)); the submission of plans subject to certain conditions.

Section 114(d)(5) would add, as section 1114(c)(3), language requiring LEA approval of a schoolwide plan before the school implements it.

Section 115, required assistance schools (ESEA, §1115). Section 115(1)(A)(1)(I) would make a technical amendment to section 1115(b)(1)(A)(I) of the ESEA.

Section 115(1)(A)(1)(H) would delete the requirement that children be at an age at which they can benefit from an organized instructional program provided at a school or other educational setting in order to be eligible for services under section 1115. This change would make clear that preschool children of any age may be served under Part A as long as they can benefit from an organized instructional program.

Section 115(1)(B)(I) would amend section 1115(b)(1)(B)(I) to address the eligibility of certain groups of children, by deleting references to children who are economically disadvantaged. The current reference to that category is outdated, because it erroneously assumes that there are specific eligibility requirements for them.

Section 115(1)(B)(II) would clarify that children who are served under other provisions of the bill relating to accountability for achievement, to remove obsolete provisions; and to require an LEA that has been identified by the SEA as having made a reduction in the number of students served under Part A of the bill to provide a peer review and endorsement of the plan. In addition, the bill would...
strenthen and clarify language relating to the case of an LEA that fails to make sufficient progress within three years of being identified by the SEA as in need of improvement.

Section 117, State assistance for school support and improvement [ESEA, §1117]. Section 117 of the bill would substantially streamline section 1117 of the ESEA, relating to State support for LEA and school support and improvement. Much of current section 1117 is needlessly prescriptive and otherwise unnecessary, particularly in light of the strengthened provisions on LEA and school improvement and corrective actions in revised sections 1105(a)(2) and 1116.

Section 117(a) would retain the requirement of current law that each SEA establish a statewide system of intensive and sustained support and improvement for LEAs and schools, in order to increase the opportunity for all students in those LEAs and schools to meet State standards.

Section 117(b) would replace the statement in current section 1116 and add a 3-step statement of priorities. The SEA would first provide support and assistance to LEAs that it has identified for corrective action. Finally, the SEA would support and assist LEAs with individual schools that need those services in order to achieve Title I's purpose.

Section 117(c) would provide examples of approaches that the SEA could use in providing support and assistance to LEAs and schools.

Section 117(d) would direct each SEA to use the funds available to it for technical assistance and support under section 1003(a)(1) (other than the 70 percent or more that it reserves for State administration under redesignated section 1003(a)(2)) to carry out section 1117, and would permit the SEA to also provide support and assistance to schools that need those services in order to achieve Title I's purpose.

Section 118, parental involvement [ESEA, §1118]. Section 118(a), (b), (c), and (d) would make conforming amendments to section 1118, relating to parental involvement in Part A programs.

Section 118(e) would amend section 1118(f) so that the requirement to provide full opportunities for participation by parents with limited English proficiency and parents with disabilities, to the extent practicable, applies to all Part A activities, not just to the specific provisions relating to parental involvement.

Section 118(f) would repeal subsection (g) of section 1118, to reflect the bill's proposed repeal of the Goals 2000: Educate America Act.

Section 119, teacher qualification and professional development [ESEA, §1119]. Section 119(a) would change the heading of section 1119 to "Instruction" to reflect amendments made to this section that are designed to ensure that participating children receive high-quality instruction.

Section 119(b) of the bill would delete subsection (f) of section 1119, which is not needed, and redesignate subsections (b) through (e) and (g) of that section as subsections (d) through (h), respectively.

Section 119(c) would insert a new subsection (a) in section 1119 to require that each participating LEA hire qualified in-service teachers to ensure high-quality professional development to its staff members, and use at least five percent of its Part A grant for fiscal years 2001 and 2002, and 10 percent of its grant for each year thereafter, for that professional development.

Section 119(d) would insert new subsections (b) and (c) in section 1119 to specify the minimum qualifications for teachers and for paraprofessionals in programs supported with Part A funds. These requirements are designed to ensure that participating children receive high-quality instruction and assistance, so that they can meet challenging State standards.

Section 119(e)(A) would revise the list of required professional development activities in current section 1119(b), which would be redesignated as section 1119(c), to reflect experience and research on the most effective approaches to professional development.

Section 119(f)(B)(ii) would add child-care providers to those with whom an LEA could choose to conduct joint professional development under current section 1119(d)(2)(H) (current section 1119(b)(2)(H)).

Section 119(g) would make a conforming amendment to section 1119(g), which would be redesignated as section 1119(h), to reflect the combined use of funds from multiple sources to provide professional development.

Section 119, participation of children enrolled in private schools [ESEA, §1119]. Section 119(a)(A) of the bill would add a statement of an LEA's responsibility to provide for the equitable participation of students from private schools, language to make clear that the services provided those children are to address their needs, and that the teachers and parents of those students have an equitable basis in services and activities under sections 1118 and 1119 (parental involvement and professional development).

Section 120, allocations [ESEA, §§1121–1127]. Section 120(a)(1) of the bill would amend the heading of section 1120(b) of the ESEA to read "Preschool Services; Coordination Requirements" to more accurately reflect its content.

Section 120(b) would add a subsection (d) to section 1120(b) to provide additional direction to preschool programs carried out with Part A funds, and to ensure that those programs are of high quality. This language replaces, and builds on, current section 1120(c)(1)(H).

Section 120C, allocations [ESEA, §§1121–1127]. Section 120C(a) of the bill would amend section 1120(b)(1) of the ESEA to authorize an LEA to provide for the combined use of funds from multiple sources to provide services to those children.

Section 120C(b) would add a subsection (d) to section 1120(b) to provide additional direction to preschool programs carried out with Part A funds, and to ensure that those programs are of high quality. This language replaces, and builds on, current section 1120(c)(1)(H).

Section 120C, allocations [ESEA, §§1121–1127]. Section 120C(a) of the bill would amend section 1120(b)(1) of the ESEA to authorize an LEA to provide for the combined use of funds from multiple sources to provide services to those children.

Section 120C(b) would add a subsection (d) to section 1120(b) to provide additional direction to preschool programs carried out with Part A funds, and to ensure that those programs are of high quality. This language replaces, and builds on, current section 1120(c)(1)(H).

Section 120C, allocations [ESEA, §§1121–1127]. Section 120C(a) of the bill would amend section 1120(b)(1) of the ESEA to authorize an LEA to provide for the combined use of funds from multiple sources to provide services to those children.
Section 120C(c)(1)(C) would revise, in their entirety, several provisions governing the calculation of LEA basic grants in section 1124(a)(2) and move some of those provisions to section 1124(a)(3) to improve the section’s structure and readability. As amended, section 1125(d) would direct the Secretary to make allocations on an LEA-by-LEA basis, unless the Secretary and the Secretary of Education (who is responsible for the decennial census and other activities of the Bureau of the Census) determine the LEA-level data on poor children is unreliable or that the data would otherwise be inappropriate. In that case, the two Secretaries would announce the reasons for their determination, and the Secretary would make allocations on the basis of county data, rather than LEA data, in accordance with new paragraph (3).

For any fiscal year for which the Secretary allocates funds to LEAs, rather than to counties, section 1124(a)(2)(B) would clarify that the amount of a grant to any LEA with a population of 20,000 or more is the amount determined by the Secretary on the basis of the number of poor children in the LEA’s school district that qualify for grants under section 1125(a). The bill would provide that this amount would be equal to the amount that would have been allocated to the LEA under section 1125(a) if it had not been determined by the Secretary.

In general, paragraphs (2) and (3) of section 1124(a) would retain current law, while eliminating extraneous or obsolete provisions, and making this portion of the statute much easier to read and understand than current law.

Section 120C(c)(1)(D) would revise language relating to Puerto Rico’s Part A allocation (current section 1124(a)(3)), which the bill would replace. This section provides that, over a 5-year phase-in period, its allocation would be determined on the same basis as are the allocations to the 50 States and the District of Columbia. Section 120C(c)(2) would amend section 1124(b), relating to the minimum number of poor children needed to qualify for a basic grant, to improve its readability and to delete obsolete language.

Section 120C(c)(3)(A)(ii) would amend section 1124(c)(1), which describes the children to be counted in determining an LEA’s eligibility for, and the amount of, a basic grant, to delete subparagraph (B), which permits the inclusion of certain children whose families have income above the poverty level. The number of these children is now quite small, and collection of reliable data on them is burdensome.

Section 120C(c)(3)(A)(ii) would amend section 1124(c)(1)(C), relating to counts of certain children who are neglected or delinquent, to give the Secretary the flexibility to use LEA-level data instead of county data where the available data indicates that, over a 5-year phase-in period, its allocation would be determined on the same basis as are the allocations to the 50 States and the District of Columbia.

Section 120C(c)(3)(D) would repeal section 1124(c)(4), relating to a study by the National Academy of Sciences, which has been completed, and redesignate paragraphs (5) and (6) of section 1124(c) as subsections (4) and (5). Section 120C(c)(3)(E)(i) would delete the first sentence of current section 1124(c)(5), which the bill would redesignate as section 1124(c)(4). This language, relating to counts of certain children from families with incomes above the poverty level, would no longer be necessary if it is determined that these children from the count of children under section 1124(c)(1), described above. Section 120C(c)(3)(E)(ii) and (iii) would move, from current section 1124(c)(8) to current section 1124(c)(5) (to be redesignated as section 1124(c)(4)) a sentence about the counting of children in correctional institutions. This provides a more logical location for this provision.

Section 120C(c)(4)(B) would make a conforming amendment to section 1124(d).

In general, sections 1124A(a)(1) and (a)(2) (current section 1124A(a)(1)) would retain current law, while eliminating extraneous or obsolete language from section 1124A(a)(1)(A) of the ESEA, which sets eligibility criteria for LEAs to receive concentration grants under section 1125. The bill would clarify that certain eligibility criteria might be retained.

Section 120C(d)(1)(A)(ii) would make conforming amendments to section 1124A(a)(1) relating to minimum allocations to States.

Section 120C(d)(2)(B) would replace the lengthy and complicated language in section 1124A(d), relating to calculation of LEA concentration grant amounts, with a simple cross-reference to the streamlined allocation provisions in section 1124(a)(3) and (4). Since these provisions allow the Secretary discretion to determine whether funds would be allocated to LEAs that meet the numerical eligibility criteria, the bill would provide that, if the Secretary determines that there is no need to allocate funds, then the allocation would be determined under the second of subsection (b). Section (c), providing for ratable reduced allocations in the case of insufficient funds, duplicates proposed section 1122(c).

Section 120C(e)(1) would make conforming amendments to section 1125(b) of the ESEA, relating to the calculation of targeted assistance grants under section 1125.

Section 120C(e)(2) would amend section 1125(c), which establishes weighted child counts used to calculate targeted assistance grants for both counties and LEAs, by deleting obsolete provisions and making technical and conforming amendments.

Section 120C(e)(3) would replace the lengthy and complicated language in section 1125(d), relating to calculation of targeted assistance grant amounts, with a simple cross-reference to the streamlined allocation provisions in section 1124(a)(3) and (4). Since the applicable rules are the same, there is no need to repeat them. In addition, the revised section 1124A(a)(4)(B) would retain the authority, unique to the allocation of concentration grants, under which a State may use up to two percent of its allocation for subgrants to LEAs that meet the numerical eligibility thresholds but are located in ineligible cost.

Section 120C(d)(2) would replace the lengthy and complicated language in section 1125(d), relating to calculation of targeted assistance grant amounts, with a simple cross-reference to the streamlined allocation provisions in section 1124(a)(3) and (4). Since the applicable rules are the same, there is no need to repeat them.

Section 120C(e)(3) would make a conforming amendment to section 1125(e).

Section 120C(f) would repeal section 1125A(e) of the ESEA, which authorizes appropriations to provide technical assistance directly, as well as through grants and contracts.

Section 120C(g) would make a conforming amendment to section 1126(a), relating to allocations for neglected children. Section 120D, program indicators [ESEA, §1311]. Section 120D of the bill would add a new Subpart 3, Program Indicators, to Part A of Title I of the ESEA. Subpart 3 would contain only one section, §1311, which would identify 7 program indicators relating to schools participating in the Part A program, on whom the Secretary would report annually to the Secretary.

Part B—Even Start

Part B of Title I of the bill would amend Part B of Title I of the ESEA, which authorizes the Even Start program.

Section 121, statement of purpose [ESEA, §1201]. Section 121 of the bill would amend the Even Start statement of purposes in section 1201 of the ESEA by requiring that the existing community resources on which Even Start programs are built be of high quality, that the requirements for Even Start programs be based on the best available research on language development, reading instruction, and prevention of reading difficulties, and that any amendments made to other provisions of the Even Start statute in 1998 and enactment of the Reading Excellence Act (Title II, Part C of the ESEA) in that same year.

Section 122, program authorized [ESEA, §1201]. Section 122(1) of the bill would amend section 1202(a) of the ESEA, which directs the Secretary to reserve 5 percent of each year’s Even Start appropriation for certain populations and areas. As revised, section 122(1) would emphasize that funds reserved under the 5-percent reservation are meant to serve as national models; retain the current requirement to award funds in a woman’s prison when appropriations reach a certain level.

Section 122(2) of the bill would amend section 1202(b) of the ESEA, which authorizes the Secretary to reserve up to 3 percent of each year’s appropriation for evaluation and technical assistance. Because other provisions of the bill would provide a new authority to fund evaluations across the entire range of ESEA programs, the specific reference to evaluations would be deleted here, and the maximum set-aside for technical assistance (the remaining activity under this provision) would be one percent. In addition, section 122(2) would permit the Secretary to provide technical assistance directly, as well as through grants and contracts.

Section 122(3) of the bill would amend section 1202(c)(1) of the ESEA, which requires the Secretary to spend $10 million each year on competitive grants for interagency coordination of statewide family literacy initiatives, to provide these awards for initiatives that include severe disabilities, and families that include incarcerated mothers of young children. The latter provision would replace the current requirement to award grants in a woman’s prison when appropriations reach a certain level.
Section 124, uses of funds [ESEA, §1204]. Section 124(1) of the bill would amend section 120(a)(1) of the ESEA, relating to the permissible uses of ESEA funds, by replacing a reference to "family-centered education programs" with "family literacy services". 'Family literacy services' is the term used elsewhere in statute and defined in section 120(e)(3).

Section 124(2) would make a conforming amendment to section 1204(b)(1).

Section 125, program elements [ESEA, §1205]. Section 125 of the bill would restate, in its entirety, section 1205 of the ESEA, which lists the required elements of each Even Start plan. The language incorporated from section 1205 would provide helpful clarification and greater readability for some of these elements; reorder the elements in a more logical sequence; add some new elements; and remove certain elements that now apply to local applications and State award of subgrants (under sections 120(c)(1) and 1203(a)(1)) to the list of program elements, where they more logically belong.

In particular, career counseling and job-placement services would be added to the examples of services that can be offered as a way to accommodate participants' work schedules and other responsibilities under paragraph (3). Paragraph (4) would be revised to require that instructional programs integrate all the elements of family literacy services and use instructional approaches that, according to the best available research, will be most effective. Paragraph (5) would contain new requirements relating to the qualifications of instructional staff and paraprofessionals that parallel the requirements of section 1118 of the ESEA and that are designed to ensure that Even Start participants receive high-quality services. Paragraph (6) (currently (b)) would add a new subparagraph that would clarify that Even Start programs are aimed at helping staff obtain certification in relevant instructional areas, as well as the necessary skills. Paragraph (8) (currently (b)) would provide that the current section 1207(c)(1)(E)(ii) a specific reference to individuals with disabilities as included among those who may be most in need of services provided by the State and consistent with the requirements of section 1202(b). The current limitation unnecessarily limits the pool of providers, excluding some who are highly qualified.

Section 126, eligible participants [ESEA, §1206]. Section 126 of the bill would amend section 1206(a)(1)(B) of the ESEA to restore the eligibility of teenage parents who are attending school, but who are above the State's age for compulsory school attendance. As amended in 1994, the current statute terminates a parent's eligibility when he or she is no longer within the State's age range for compulsory school attendance. Excluding many teen parents and their children who might benefit from Even Start services.

Section 127, applications [ESEA, §1207]. Section 127 of the bill would amend section 1207(c) of the ESEA, relating to local Even Start plans, by emphasizing the importance of continuous program improvement; requiring a local program to include outcome goals for participating children and families that are consistent with the State's program indicators; emphasize that the program must address program elements in the revised section 1205; and require each program to have a plan for rigorous and objective evaluation. Current subparagraphs (E) and (F) of section 1207(c)(1) would be deleted because the substance of those provisions would be addressed in the revised statement of program elements in section 1205. Section 127(a) of the bill would amend section 1207(c) of the ESEA, relating to the local Even Start plans, by establishing minimum and maximums for annual Federal allotments for States and localities to begin their development of Even Start plans. This provision is somewhat ambiguous, and as mentor sites for other family literacy programs that are more appropriately addressed under section 1202(b).

Section 131, program indicators [ESEA, §1210]. Section 131 of the bill would amend section 1210 of the ESEA to require that the national evaluation provision in section 1209 of the ESEA. That paragraph describes certain technical assistance activities that are more appropriately addressed under section 1202(b).

Section 132, award of subgrants [ESEA, §1208]. Section 132(a)(1) of the bill would amend section 1208(a)(1) of the ESEA, relating to a State's criteria for selecting local programs for Even Start subgrants, by deleting subparagraph (C), which referred to a three-year age range for providing services, because that provision would be converted to a program element under section 1205. Section 132(a)(1) would also make technical and clarifying amendments to section 1208(a)(1).

Section 132(a)(2) would amend section 1208(a)(3) to require a State's review panel to include an individual with expertise in family literacy programs, to enhance the quality of the panel's review and selections. Exclusion of one or more of the types of individuals described in section 1118(a)(1)–(a)(3) would be made optional, rather than mandatory.

Section 132(b) of the bill would add a new authority, section 1208(c), for each State to continue Even Start funding, for up to two years beyond the statutory 8-year limit, for not more than two projects in the State. This authorization would ensure that States would show substantial potential to serve as models for other projects throughout the Nation and as mentor sites for other family literacy programs that are more appropriately addressed under section 1202(b).

Section 133, use of funds [ESEA, §1209]. Section 133 of the bill would amend section 1209 of the ESEA, relating to the use of funds for the currently required indicators. In particular, this provision would be converted to a program element under section 1205.

Section 134, sections 1208 and 1209 [ESEA, §1211 and 1212]. Section 134(a) of the bill would repeal section 1212 of the ESEA, relating to research. The essential elements of the section would be added to the revised section on evaluations (§1209). Section 134(b) of the bill would redesignate section 1212 of the ESEA as section 1211.

Part C—Education of migratory children

Section 135, purpose [ESEA, §1213]. Part C of Title I of the bill would amend Part C of Title I of the ESEA, which authorizes grants to State educational agencies to establish and improve programs of education for children of migratory farmworkers and fishermen, to enable them to meet the same high academic standards as other children.

Section 136, grants [ESEA, §1214]. Section 136 of the bill would amend section 1214 of the ESEA, which authorizes grants to States and other eligible entities to establish and improve education programs for migratory farmworkers and fishermen, to enable them to meet the same high academic standards as other children.

Section 137, appropriated amounts [ESEA, §1215]. Section 137 of the bill would amend section 1215 of the ESEA, which determines the amounts that may be appropriated for each fiscal year, by deleting reference to "migratory children" and including "children who are migrants" and "children who are the children of migratory farmworkers and fishermen, to enable them to meet the same high academic standards as other children.

Section 141, award of funds [ESEA, §1217]. Section 141 of the bill would amend section 1217 of the ESEA, which requires that funds be awarded in a manner that will ensure that the amount of funds awarded to a State in any fiscal year is no less than the amount awarded to the State in the prior fiscal year, by deleting reference to "migratory children" and including "children who are migrants" and "children who are the children of migratory farmworkers and fishermen, to enable them to meet the same high academic standards as other children.

Section 142, reporting [ESEA, §1218]. Section 142 of the bill would amend section 1218 of the ESEA, which requires that the Secretary of Education report to the Congress on the effects of grants under this part, by deleting reference to "migratory children" and including "children who are migrants".
Section 132 revises subsection (b), which describes the computation of Puerto Rico's allocation, so that, after a 5-year phase-in period, its allocation would be determined on the same basis as are the allocations of the 50 States.

Section 132(b)(1)(E) would amend section 1304 of the ESEA, which requires States to submit a comprehensive service-delivery plan to the Secretary as part of their application for funds under section 1304. The important elements of this plan would be incorporated into section 1304, as amended by section 132(b) of the bill. Specifically, section 132(b)(1)(E) would clarify current provisions regarding priority in the use of program funds; the use of those funds to provide services described in Part A to children who are eligible for services under both the Migrant Education program and Part A; and the prohibition on using program funds to provide services that are available from other sources.

Section 134, coordination of migrant education activities (ESEA, §1308). Section 134 of the bill would amend section 1308 of the ESEA, which authorizes assistance to States in providing educational services to migratory children whose education is interrupted. These grants would be increased from $1.5 million to $3 million so that, in years when federal funds are available from other sources.

Section 134(a) would amend section 1401(a) of the ESEA, because the term "parent" is defined, or to provide larger awards to consortia to improve the delivery of services to migratory children whose education is interrupted. These grants would be increased from $1.5 million to $3 million so that, in years when federal funds are available from other sources.

Section 134(b) would amend section 1408(a)(2). Section 134(c) would amend section 1404(a)(3), which requires that States retain funds generated through the program for use in conducting program evaluations, while consistent with section 1414(a)(2) of the Act, relating to the contents of a State's plan, to require the plan to provide that participating children will be held to the same challenging academic standards, as well as given the same opportunity to learn, as they would if they were attending local public schools.

Section 144, local agency programs (ESEA, §§1412-1426). Section 14 of the bill would clarify the bill's proposed deletion of the authority for local programs in Subpart 2 of Part D.

Section 144, payments for programs under Part D (ESEA, §1412). Section 14 of the bill would amend section 1412(b) of the ESEA, which describes the computation of Puerto Rico's allocation under Part D, so that, over a 5-year phase-in period, its allocation would be determined on the same basis as are the allocations of the 50 States. Section 144 also contains conforming and technical amendments to section 1412(a).

Section 145, State plan and State agency applications (ESEA, §§1421-1426). Section 145 of the bill would amend section 1414(a)(2) of the Act, relating to the permissible use of Part D funds.

Section 146, use of funds (ESEA, §1414). Section 146 of the bill would correct an error made in section 1414(a)(2) of the ESEA, relating to the permissible use of Part D funds.

Section 147, local agency programs (ESEA, §§1412-1426). Section 147 of the bill would repeal Subpart 2 (Local Agency Programs) of Part D and redesignate Subpart 3 (General Provisions) as Subpart 2. The local agency program is unduly complicated for States to administer and does not promote effective services for children who are, or have been, neglected or delinquent. Those services are better provided through other local, State, and Federal programs, including other ESEA programs, such as Basic Grants under Part A.

Section 148, program evaluations (ESEA, §1431). Section 148 of the bill would amend section 1413(a) of the ESEA, relating to the scope of evaluations under Part D, to conform to the proposed redesignation of Subpart 2 of Part D.

Section 149, program name. Section 149 of the bill would amend title II of Part D of Title I of the ESEA to read, "State Agency Programs for Children and Youth Who Are Neglected or Delinquent". This name would conform to the bill's proposed deletion of the authority for local programs in Subpart 2 of Part D.

Section 142 findings; purpose; program authorities (ESEA, §1412). Section 142(a) of the bill would update the findings in section 1410(a) of the ESEA, and shorten them to reflect the proposed deletion of Subpart 2. Section 142(b) would amend the statement of purpose in section 1410(b) to reflect the proposed deletion of Subpart 2.

Section 141, payments for programs under Part D (ESEA, §1412). Section 14 of the bill would delete section 1402(b) of the ESEA, which requires that States retain funds generated through the program for use in conducting program evaluations, while consistent with section 1414(a)(2) of the Act, relating to the contents of a State's plan, to require the plan to provide that participating children will be held to the same challenging academic standards, as well as given the same opportunity to learn, as they would if they were attending local public schools. Section 144 also contains conforming and technical amendments to section 1412(a).

Section 145, State plan and State agency applications (ESEA, §§1421-1426). Section 14 of the bill would amend section 1412(b) of the ESEA, which describes the computation of Puerto Rico's allocation under Part D, so that, over a 5-year phase-in period, its allocation would be determined on the same basis as are the allocations of the 50 States. Section 144 also contains conforming and technical amendments to section 1412(a).

Section 146, use of funds (ESEA, §1414). Section 146 of the bill would correct an error made in section 1414(a)(2) of the ESEA, relating to the permissible use of Part D funds.

Section 147, local agency programs (ESEA, §§1412-1426). Section 147 of the bill would repeal Subpart 2 (Local Agency Programs) of Part D and redesignate Subpart 3 (General Provisions) as Subpart 2. The local agency program is unduly complicated for States to administer and does not promote effective services for children who are, or have been, neglected or delinquent. Those services are better provided through other local, State, and Federal programs, including other ESEA programs, such as Basic Grants under Part A.

Section 148, program evaluations (ESEA, §1431). Section 148 of the bill would amend section 1413(a) of the ESEA, relating to the scope of evaluations under Part D, to conform to the proposed redesignation of Subpart 2 of Part D.

Section 149, program name. Section 149 of the bill would amend title II of Part D of Title I of the ESEA to read, "State Agency Programs for Children and Youth Who Are Neglected or Delinquent". This name would conform to the bill's proposed deletion of the authority for local programs in Subpart 2 of Part D.

Section 142 findings; purpose; program authorities (ESEA, §1412). Section 142(a) of the bill would update the findings in section 1410(a) of the ESEA, and shorten them to reflect the proposed deletion of Subpart 2. Section 142(b) would amend the statement of purpose in section 1410(b) to reflect the proposed deletion of Subpart 2.

Section 141, payments for programs under Part D (ESEA, §1412). Section 14 of the bill would delete section 1402(b) of the ESEA, which requires that States retain funds generated through the program for use in conducting program evaluations, while consistent with section 1414(a)(2) of the Act, relating to the contents of a State's plan, to require the plan to provide that participating children will be held to the same challenging academic standards, as well as given the same opportunity to learn, as they would if they were attending local public schools. Section 144 also contains conforming and technical amendments to section 1412(a).

Section 145, State plan and State agency applications (ESEA, §§1421-1426). Section 14 of the bill would amend section 1412(b) of the ESEA, which describes the computation of Puerto Rico's allocation under Part D, so that, over a 5-year phase-in period, its allocation would be determined on the same basis as are the allocations of the 50 States. Section 144 also contains conforming and technical amendments to section 1412(a).

Section 146, use of funds (ESEA, §1414). Section 146 of the bill would correct an error made in section 1414(a)(2) of the ESEA, relating to the permissible use of Part D funds.

Section 147, local agency programs (ESEA, §§1412-1426). Section 147 of the bill would repeal Subpart 2 (Local Agency Programs) of Part D and redesignate Subpart 3 (General Provisions) as Subpart 2. The local agency program is unduly complicated for States to administer and does not promote effective services for children who are, or have been, neglected or delinquent. Those services are better provided through other local, State, and Federal programs, including other ESEA programs, such as Basic Grants under Part A.

Section 148, program evaluations (ESEA, §1431). Section 148 of the bill would amend section 1413(a) of the ESEA, relating to the scope of evaluations under Part D, to conform to the proposed redesignation of Subpart 2 of Part D.

Section 149, program name. Section 149 of the bill would amend title II of Part D of Title I of the ESEA to read, "State Agency Programs for Children and Youth Who Are Neglected or Delinquent". This name would conform to the bill's proposed deletion of the authority for local programs in Subpart 2 of Part D.
Thus, a State could receive a second grant sequentially, but not simultaneous grants.

Section 148(b)(1) of the bill would amend section 1431(c), relating to the results of evaluations, to reflect the proposed repeal of Subpart 2.

Section 149, definitions [ESEA, §1432]. Section 149 of the bill would delete the definition of "part," in paragraph (b), section 1402, and rename the remaining paragraphs. The deleted term is used only in Subpart 2, which would be repealed.

Section 151, evaluations, management information, and other Federal activities [ESEA, §1001]. Section 151 of the bill would amend, in its entirety, section 1501 of the ESEA, which authorizes the Secretary to conduct evaluations and assessments, collect data, and carry out other activities that support the Title I program, to provide information useful to those who authorize and administer that title. As revised, section 1501 would support the activities that are essential for the Secretary to assure over the next several years: evaluating Title I programs; helping States, LEAs, and schools develop management-information systems; carrying out applied research, technical assistance, dissemination, and recognition activities; and obtaining updated census information so that funds are allocated using the most up-to-date information about our nation to ensure that the Title I programs are effective. Section 1501 would also provide for the continued conduct of the national assessment of Title I and the national longitudinal study of Title I schools.

Section 152, demonstrations of innovative practices. Section 152 of the bill would make conforming amendments to section 1502 of the ESEA.

Section F—Federal evaluations, demonstrations, and transition projects

Section 151, evaluations, management information, and other Federal activities [ESEA, §1001]. Section 151 of the bill would amend, in its entirety, section 1501 of the ESEA, which authorizes the Secretary to conduct evaluations and assessments, collect data, and carry out other activities that support the Title I program, to provide information useful to those who authorize and administer that title. As revised, section 1501 would support the activities that are essential for the Secretary to assure over the next several years: evaluating Title I programs; helping States, LEAs, and schools develop management-information systems; carrying out applied research, technical assistance, dissemination, and recognition activities; and obtaining updated census information so that funds are allocated using the most up-to-date information about our nation to ensure that the Title I programs are effective. Section 1501 would also provide for the continued conduct of the national assessment of Title I and the national longitudinal study of Title I schools.

Section 152, demonstrations of innovative practices. Section 152 of the bill would make conforming amendments to section 1502 of the ESEA.

Part E—Federal evaluations, demonstrations, and transition projects

Section 151, evaluations, management information, and other Federal activities [ESEA, §1001]. Section 151 of the bill would amend, in its entirety, section 1501 of the ESEA, which authorizes the Secretary to conduct evaluations and assessments, collect data, and carry out other activities that support the Title I program, to provide information useful to those who authorize and administer that title. As revised, section 1501 would support the activities that are essential for the Secretary to assure over the next several years: evaluating Title I programs; helping States, LEAs, and schools develop management-information systems; carrying out applied research, technical assistance, dissemination, and recognition activities; and obtaining updated census information so that funds are allocated using the most up-to-date information about our nation to ensure that the Title I programs are effective. Section 1501 would also provide for the continued conduct of the national assessment of Title I and the national longitudinal study of Title I schools.

Section 152, demonstrations of innovative practices. Section 152 of the bill would make conforming amendments to section 1502 of the ESEA.

Title II—High Standards in the Classroom

Section 171, reading and literacy grants to State educational agencies [ESEA, §2253]. Section 171 of the bill would amend section 2253 of the ESEA (which directs the Secretary to award grants to SEAs to carry out the reading and literacy activities described in Part C of Title II of the ESEA), which section authorizes grants to SEAs to carry out the Reading Excellence Program, to reflect the proposed repeal of Subpart 2. Paragraph (2) would add, to the State application for the two types of subgrants, as described in section 2253(b)(2)(B), a clause (1A) to require an SEA’s application to include the process and criteria it will use to review and approve LEA applications for the two types of subgrants available under the Reading Excellence Program (under section 172), including a peer-review process that includes individuals with relevant expertise.

Section 171, reading and literacy grants to State educational agencies [ESEA, §2253]. Section 171 of the bill would amend section 2253 of the ESEA (which directs the Secretary to award grants to SEAs to carry out the reading and literacy activities described in Part C of Title II of the ESEA), which section authorizes grants to SEAs to carry out the Reading Excellence Program, to reflect the proposed repeal of Subpart 2. Paragraph (2) would add, to the State application for the two types of subgrants, as described in section 2253(b)(2)(B), a clause (1A) to require an SEA’s application to include the process and criteria it will use to review and approve LEA applications for the two types of subgrants available under the Reading Excellence Program (under section 172), including a peer-review process that includes individuals with relevant expertise.

Paragraph (3) would clarify the unclear language in section 2253(c)(2)(C), which requires the Secretary to make funding recommendations to the Secretary, to give priority to States that have modified, are modifying, or will modify their teacher certification requirements to require effective training of prospective teachers in methods of reading instruction that reflect scientifically based reading research.

Paragraph (4) would make a technical amendment to section 2253(d)(3), which permits States to use certain consortia or similar entities to prepare the Title I report and the national evaluation of the Reading Excellence Act on October 21, 1998, in lieu of a partnership that meets that Act’s requirements.

Section 172, amounts by State educational agencies [ESEA, §2254]. Section 172 of the bill would amend section 2254 of the ESEA so that the State’s cost of administering the program and tutorial assistance subgrants under section 2256 would be subject to the overall five percent limit on State administrative costs. That amount should be sufficient for all the State’s costs of administering the Reading Excellence Program. Any amounts set aside under the 15 percent limit in section 2254(2) would have to be used for the LEAs and not for State administrative expenses.

Section 173, local reading improvement subgrants [ESEA, §2255]. Section 173(a) of the bill would amend section 2255(a) of the ESEA, which describes the LEAs that are eligible to apply for a local reading improvement subgrant under section 2255, to limit eligibility for the program’s tutorial assistance subgrants, to schools for grades 1 through 3. LEAs that serve only middle and/or high school students should not be eligible for this program, which is intended to be used for schools that serve students at or below the third grade.

Section 173(b) would amend section 2255(d)(1), which describes the activities that an LEA may carry out with its subgrant, to require that the schools in which reading instruction is provided serve children in the first through third grades. As with the provision described above relating to LEA eligibility, this amendment will ensure that the program’s objective of helping children to read by the third grade is met.

Section 173, tutorial assistance subgrants [ESEA, §2255]. Section 173(a) and (b) of the bill would make amendments to section 2256 of the ESEA, which authorizes subgrants to LEAs for tutorial assistance, that correspond to the amendments to section 2255 (local reading improvement subgrants) that ensure that the program focuses on its intended age range. Children from pre-kindergarten through third grade.

Section 173(a) would also make the following amendments to section 2256:

Paragraph (2) would add, to the State application under subsection (a)(1)(A), which makes an LEA eligible for a tutorial assistance subgrant if any school in its jurisdiction is located in an empowerment zone or enterprise community, the eligibility criteria for local reading improvement subgrants under section 2255. Making the eligibility criteria for local reading improvement subgrants under section 2255, the eligibility criteria for the two types of subgrants, as provided by this amendment, will increase the likelihood that tutorial activities are carried out in the same LEAs that receive local reading improvement subgrants, promoting the coordination of the activities supported by the two types of subgrants.

Paragraph (5) would delete, from current section 2256(a)(2)(C), which the bill would redesignate as section 2256(a)(3)(B), language conditioning the receipt of all Title I funds by each LEA that is currently eligible under section 2256 on its providing public notice of the tutorial assistance program to parents and possible providers of tutoring services. This provision is grossly disproportionate in its severity and is not logically related to the large amounts of funds it affects under the other Title I programs. Any failure to remove notice described in this section should be subject to the same range of consequences that attach to possible noncompliance with any other requirement of the statute.

Paragraph (6) would make conforming amendments to current section 2256(a)(3), which the bill would redesignate as section 2256(a)(4), which makes other technical and conforming amendments to current subsection (a)(4), which the bill would redesignate as subsection (a)(5).

Section 175, national evaluation [ESEA, §2257]. Section 175 of the bill would amend section 2257 of the ESEA, which provides for a national evaluation of the program under this part, to remove a cross-reference to a continuation of the earmarks funds for the evaluation. Other provisions of the will provide the Secretary with authority to pay for evaluations of all ESEA programs, removing the need for individual evaluation earmarks.

Section 176, information dissemination [ESEA, §2258]. Section 176 of the bill would amend section 2258 of the ESEA, which provides for the dissemination of program information, to reflect the transfer of the program’s authorization of appropriations to section 1002 of the bill, which authorizes appropriations for the National Institute for Literacy, which administers section 2258, to use up to five percent of the amount available each year to pay for the costs of administering that section.

Section 176(d) would add, as subsection (c) of section 2258, authority for the Secretary to reserve up to one percent of each fiscal year’s appropriation for the Reading Excellence program for technical assistance, program improvement, and replication activities.

Section 177, authorizations of appropriations [ESEA, §2259]. Section 177 of the bill would amend section 2259 of the ESEA, which authorizes appropriations for the program, to reflect the transfer of the program’s authorization of appropriations to section 1002(e) of the ESEA.

Section 178, transfers and redesignations. Section 178 of the bill would transfer the authorization for the Reading Excellence program, currently in Part C of Title II of the ESEA, to Part E of Title II, redesignate current Parts F and E of Title I as Parts F and G, and make other technical and conforming amendments.

Title II—High Standards in the Classroom

Section 201 of the bill would amend Title II of the ESEA in its entirety, as follows:
CONGRESSIONAL RECORD—SENATE  May 27, 1999

11420

Part A—Teaching to high standards

Part A of Title II would authorize a new program in the ESEA by consolidation of the existing Eisenhower State Grants (Title II) and Innovative Education Program Strategies (Title VI) programs in the ESEA and Title III of the Goals 2000: Educate America Act.

Subpart 1—Findings, purpose and Authorization of appropriations

Section 2111, findings. Section 2111 would set out findings for Part A.

Section 2112, purpose. Section 2112 would state that the purpose of Part A is to: (1) Support States and LEAs in continuing the task of developing challenging content and student performance standards and aligned assessments, revising curricula and teacher certification requirements, and using challenging instructional programs and that will advance school-level standards-based school reform efforts.

Section 2113, authorizations of appropriations. Section 2113 would authorize the appropriation of sums as may be necessary for each of the two operational subparts of Part A for fiscal years 2001, through 2005.

Subpart 2—State and local activities.

Section 2121, allocations to States. Section 2121 would provide for allocations to the States, including the District of Columbia and Puerto Rico; the outlying areas; and States operated or funded by the Bureau of Indian Affairs (BIA). The Secretary would reserve a total of one percent for the outlying areas and the BIA. The remaining funds would be apportioned equally to each State, based on each State’s share of funds under Part A of Title I for the previous fiscal year and one-half on each State’s relative share of the population as of July 1, 1999. No State would receive a grant that is less than one-half of one percent of the amount available for State grants.

Section 2122, priority for professional development in mathematics and science. Section 2122(a) would establish rules for the use of Part A funds for professional development in mathematics and science at various appropriations levels. A key priority of the Teaching to High Standards proposal is directing Federal resources to support professional development that is aligned with challenging instructional programs and student performance standards in the core academic subjects, instead of professional development that uses general strategies for improving classroom instruction that are not based on academic content. Toward that end, the bill would require States and LEAs to use funds for professional development only in the academic core subjects. These awards would be for 3 years (which would be extended for 2 more years if the subgrantee is making substantial progress and making use of a peer-review process).

The SAHE would give priority to projects that focus on teacher induction programs and could make awards only to projects that include an LEA, are coordinated with activities carried out under Title II of the Higher Education Act of 1965 (if the LEA or IHE is participating in that program), and involve the school or department of education and the school or departments in the specific disciplines in which the professional development will be provided.

Section 2127 would also describe the activities that award recipients must carry out and require them to submit an annual report to the SAHE, beginning with fiscal year 2002, on their progress against indicators of program performance that the Secretary may establish. The SAHE would provide the SEA with copies of these reports.

Section 2128, competitive local awards. Section 2128 would require SEAs to award competitive subgrants to LEAs from the funds reserved under section 2125. The SEA would use a peer-review process that includes reviewers who are knowledgeable and able in the academic content areas. SEAs would award subgrants based on the quality of the applicants’ proposals and their likelihood of success, and on the demonstrated need of applicants, based on specified criteria.

Section 2129 would also require SEAs to adopt strategies to ensure that LEAs with the greatest need are provided a reasonable opportunity to receive an award. Subgrants would be for a three-year period, which the SEA would extend for an additional two years if it determines that the LEA is making substantial progress toward meeting the goals in the LEA’s district-wide plan for raising student achievement against State standards and against the performance indicators identified by the Secretary under section 2136.

Section 2129, local applications. Section 2129 would require an LEA to submit an application to the State that describes its plan for using the funds. The application would include a district-wide plan that describes how the LEA will raise student achievement with respect to each indicator of program performance that the Secretary identifies; (5) describe how the LEA will address the needs of teachers of students with limited English proficiency and other students with special needs; (6) include an assurance that the LEA will collect data on LEA’s and LEA’s subgrantees’ progress toward the indicators of program performance that the Secretary identifies; (7) describe how the LEA will coordinate funds under this subpart with funds under other programs, including those authorized under Subpart 1 of such title; (8) include an assurance that the LEA will use the subgrants funds awarded by formula to add— (A) new instructional materials (including nonacademic subjects) that are developed by the LEA and the State agency that the LEA or IHE is participating in that program; and (9) describe how the LEA would use the additional funds from a competitive
May 27, 1999

CONGRESSIONAL RECORD—SENATE

Section 2211, findings. Section 2211 of the ESEA would set out the Congressional findings that would lead to the creation of a new Part B of Title II, and that the Secretary would be required to consider when awarding grants under this Part. This section would require that the Secretary use the results of TIMSS to determine the need of high-poverty school districts, and that the Secretary consider the results of TIMSS when awarding grants under this Part. The Secretary would be required to make grants to high-poverty LEAs for the purpose of improving the quality of their schools, and that the Secretary would be required to work with the Secretary of Education to ensure that the grants awarded under this Part would be used to improve the quality of schools in high-poverty LEAs.

Section 2212, purpose. Section 2212 of the ESEA would establish the purpose of Part B of Title II, and that the Secretary would be required to consider when awarding grants under this Part. This section would require that the Secretary use the results of TIMSS to determine the need of high-poverty school districts, and that the Secretary consider the results of TIMSS when awarding grants under this Part. The Secretary would be required to make grants to high-poverty LEAs for the purpose of improving the quality of their schools, and that the Secretary would be required to work with the Secretary of Education to ensure that the grants awarded under this Part would be used to improve the quality of schools in high-poverty LEAs.

Section 2213, uses of funds and period of service. Section 2213 of the ESEA would establish the purposes for which grants would be used under this Part, and that the Secretary would be required to consider when awarding grants under this Part. This section would require that the Secretary use the results of TIMSS to determine the need of high-poverty school districts, and that the Secretary consider the results of TIMSS when awarding grants under this Part. The Secretary would be required to make grants to high-poverty LEAs for the purpose of improving the quality of their schools, and that the Secretary would be required to work with the Secretary of Education to ensure that the grants awarded under this Part would be used to improve the quality of schools in high-poverty LEAs.

Section 2214, application. Section 2214 of the ESEA would establish the requirements that would be required for an application for a grant under this Part. This section would require that the Secretary use the results of TIMSS to determine the need of high-poverty school districts, and that the Secretary consider the results of TIMSS when awarding grants under this Part. The Secretary would be required to make grants to high-poverty LEAs for the purpose of improving the quality of their schools, and that the Secretary would be required to work with the Secretary of Education to ensure that the grants awarded under this Part would be used to improve the quality of schools in high-poverty LEAs.
and characteristics of the newly trained program participants to obtain employment in those LEAs; and (5) authorize post-placement induction or support activities for program participants.

Section 221(b) would establish the required period of service for program participants. Under section 221(b), a program participant who completes his or her training would be required to teach in a high-poverty LEA for at least three years. Section 221(c) would allow the Secretary to establish appropriate requirements to ensure that program participants who receive a training stipend or other financial incentive, fail to complete their service obligation, repay all or a portion of such stipend or other incentive.

Section 221, equitable distribution. Section 2216 of the ESEA would require the Secretary, to the extent practical, to make awards under Part B that support programs in different geographic regions of the Nation.

Section 2217, definitions. Section 2217 of the ESEA would define the terms for the program. Section 2217(1) would define the term “high-poverty local educational agency” as an LEA in which the percentage of children below the poverty line is 20 percent or greater, or the number of such children exceeds 10,000. Section 2217(2) would define the term “program participants” as career-changing professionals who hold at least a baccalaureate degree, demonstrate interest in, and commitment to, becoming a teacher, and have at least one year of relevant experience related to teaching a high-need subject area in a high-poverty LEA.

Part C—Early childhood educator professional development

Section 2301, purpose. Section 2301 of the ESEA would establish the purpose of the new Part C program, which is to support the national effort to attain the first of America’s Education Goals by enhancing school readiness and preventing reading difficulties in young children, through early childhood education programs that improve the knowledge and skills of children who are at risk of being to create a comprehensive and cohesive national system of technical assistance and dissemination that is based on market principles in responding to the demand for, and expanding the supply of, high-quality technical assistance. This system would support States, LEAs, tribes, schools, and other recipients of funds under the ESEA in implementing benchmarks-based reform and improving student performance through: (1) the provision of financial and technical assistance and select technical assistance centers in areas that reflect identified national needs, in order to ensure the availability of strong technical assistance in those areas; (2) the establishment of technical assistance and dissemination activities carried out or supported by the Department of Education in order to ensure comprehensive support for implementation of a technology-based system, for disseminating information about ways to improve
educational practices throughout the Nation, from students, teachers, administrators, and other individuals who participate in, or may be affected by, the Nation’s educational system; and (5) nationwide evaluations of effective technical assistance.

Subpart 1—Strengthening the capacity of State and local educational agencies to become effective, informed consumers of ESEA technical assistance

Section 2411. Purpose. Section 2411 of the ESEA would state the purposes of Subpart 1 of Part D of Title II. Section 2411(1) would state that the purposes of Subpart 1 are to (1) enable SEAs and LEAs, and other consumers of ESEA technical assistance activities and providers, in order to assist SEAs and LEAs in acquiring high-quality technical assistance; (2) encourage SEAs and LEAs to assess their technical assistance needs and how their various sources of funding could be coordinated to meet those needs (including their needs to collect and analyze data); (3) build the capacity of SEAs and LEAs to use ESEA technical assistance effectively and thereby improve their ability to provide the opportunity for all children to achieve to challenging State academic content standards, and to implement the State’s, or its own, plan or policies for comprehensive, standards-based education reform; (4) how, in carrying out technical assistance activities that meet the purposes of Subpart 1, the Secretary would be required to carry out the activities for which such amount has been allocated for a fiscal year.

Section 2414. State application. Section 2414 of the ESEA would describe the application requirements. Each State seeking a grant under Subpart 1 would be required to submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require. Each such application would be required to describe: (1) the State’s need for, and the capacity of the SEA to provide, technical assistance outside of educational programs under the ESEA (including assistance on the collection and analysis of data) and how they would use ESEA technical assistance funds through the 1124(d) for the previous fiscal year. The Secretary would allocate grants to States. The Secretary would allocate formula grants to State educational agencies.

Section 2415. Uses of funds. Section 2415 of the ESEA would describe the permissible uses of State formula grant funds under Subpart 1. The State would allocate such funds to (1) build its capacity (and the capacity of other State agencies that implement ESEA programs) to use ESEA technical assistance funds effectively through the acquisition of high-quality technical assistance, and the selection of high-quality technical assistance activities and providers, that meet the technical assistance needs identified by the State; (2) develop, coordinate, and implement an integrated system of providing technical assistance to LEAs and other recipients of funds under the ESEA, within the State and implement that system; (3) the SEA’s plan for using funds from all sources under the ESEA to build its capacity, and provide outside technical assistance and other means, to provide technical assistance to LEAs and other recipients within the State; (4) how, in carrying out technical assistance activities that meet the purposes of Subpart 1, the Secretary would be required to take into consideration the advice of peer reviewers, and could not disapprove any application without giving the State notice and opportunity for a hearing.

Section 2418. Local uses of funds. Section 2418 of the ESEA would describe the ways in which an LEA could use direct grant funds under Subpart 1. Each LEA would be required to submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require. Each such application would be required to describe: (1) the LEA’s need for technical assistance in implementing ESEA programs; (2) how the LEA will use the grant funds to coordinate all its various sources of funds for technical assistance, including all ESEA sources and other sources, into an integrated system of providing and using outside technical assistance and other means of building its own capacity to provide the opportunity for all children to achieve to challenging State academic content standards and student performance standards implementing programs under the ESEA, and implement that system. In determining whether to approve a State’s application, the Secretary would be required to take into consideration the advice of peer reviewers, and could not disapprove any application without giving the State notice and opportunity for a hearing.
all ESEA sources; and (3) acquire the technical assistance they need to increase the capacity of all ESEA services for children to achieve challenging State academic content standards and student performance standards and to implement, or its own programs for comprehensive standards-based education reform. An LEA may use these funds for technical assistance activities as those described in section 2419(b) of the ESEA.

Section 2419, equitable services for private schools. Section 2419 of the ESEA would describe services that would be provided to private schools. First, if an SEA or LEA uses funds under Subpart 1 to provide professional development for teachers or school administrators, the SEA or LEA would be required to provide for professional development for teachers or school administrators in private schools located in the same geographic area on an equitable basis. Similarly, if an SEA or LEA uses funds under Subpart 1 to provide information about State educational goals, standards, or assessments, or other recipient of funds under the ESEA, in selecting technical assistance activities and providers for their use. Such a contract could be awarded for a period of up to five years, and the Secretary could reserve, from the funds appropriated to carry out Subpart 1 for such sums as the Secretary determines necessary to carry out section 2419A.

Section 2419B, authorization of appropriations. Section 2419B of the ESEA would authorize the appropriation of such sums as may be necessary for fiscal year 2001 and for each of the four succeeding fiscal years to carry out Subpart 1.

Subpart 2—Technical assistance centers serving special needs

Section 2421, general provisions. Section 2421 of the ESEA would set out the general provisions applicable to all technical assistance providers that receive funds under Subpart 2, all consortium that receive funds under proposed Subpart 2 of Part B of Title III of the ESEA (a) assistance network with the Department and other federally supported technical assistance providers in order to coordinate services and resources; (2) ensure that the services are high quality, cost-effective, reflect the best information available from research and practice, and are aligned with State and local education reform initiatives.

Section 2422, centers for technical assistance on education reform. Section 2422 of the ESEA would authorize the Secretary to award grants, contracts, or cooperative agreements to nonprofit organizations that serve private schools (particularly those organizations that make substantial efforts to reach low-income, minority, or limited English proficient private schools) to establish the PICs. The PICs would coordinate the efforts of the Federal, State, and local education and family involvement initiatives. In addition, the PICs would provide training, information, and support to SEAs, LEAs, and private schools, and to LEAs serving low-income, minority, or limited-English-proficient schools, and organizations that support private schools, such as parent and family organizations. In making awards, the Secretary would be required to establish, to the greatest extent possible, to ensure that each PIC would serve at least one recipient. Currently, there are PICs in all 50 States. The District of Columbia, Puerto Rico, and each territory.

Section 2423, parental information and resource centers. Section 2423 of the ESEA would authorize Parental Information and Resource Centers (PIRCs), which are currently authorized under Title IV of the Goals 2000: Educate America Act.

Section 2423(b) would authorize the Secretary to award grants, contracts, or cooperative agreements to nonprofit organizations that serve parents (particularly those organizations that make substantial efforts to reach low-income, minority, or limited English proficient parents) to establish the PIRCs. The PIRCs would coordinate the efforts of the Federal, State, and local education and family involvement initiatives. In addition, the PIRCs would provide training, information, and support to SEAs, LEAs, and other ESEA funding recipients, particularly those organizations that make substantial efforts to reach low-income, minority, or limited-English-proficient schools, and organizations that support parents and their children (such as parent and family organizations). In making awards, the Secretary would be required, to the greatest extent possible, to ensure that each PIRC would serve at least one recipient. Currently, there are PIRCs in all 50 States. The District of Columbia, Puerto Rico, and each territory.

Section 2423(b) would establish the application requirements for the PIRCs. Applicants desiring assistance under section 2423 would be required to submit an application at such time and in such form as the Secretary shall determine. At a minimum, the application would include: a description of the applicant's capacity and expertise to implement a grant under section 2423; a description of how the applicant would use its award to help SEAs and LEAs, schools, and non-profit organizations in the State (particularly those organizations that make substantial efforts to reach low-income, minority, or limited-English proficient children) to: (1) identify the barriers to parent involvement; (2) develop and implement effective strategies to overcome those barriers; and (2) implement high-quality parent education and family involvement programs that improve the capacity of parents to participate more effectively in the education of their children, support the effective implementation of research-based instructional activities that support parents and families in promoting early language and literacy development and support schools in promoting meaningful parent and family involvement; a description of the applicant's plan to disseminate information on high-quality parent education and family involvement programs to LEAs, schools, and non-profit organizations that serve parents in the State; a description of how the applicant would coordinate its activities with the activities of other Federal, State, and local education and family involvement programs and with national, State and local organizations that provide parents and families with training, information, and support; a description of the success in school and achieve high academic standards; a description of how the applicant would use technology, particularly the Internet, to disseminate information; and a description of the applicant's goals for the center, as well as baseline indicators for...
each of the goals, a timeline for achieving the goals, and metrics to measure success toward achieving the goals.

Section 2423(c) would limit the Federal share to not more than 75 percent of the cost of a PIRC. The remaining funds share may be used for grants in cash or in kind. Under current law, a grant recipient must provide a match in each fiscal year after the first year of the grant, but does not specify the amount of the match.

Section 2423(d)(1) would establish the allowable uses for program funds. Recipients would be required to use their awards to support parent centers that provide services to low-income areas. The program would authorize the appropriation of such sums as may be necessary for fiscal years 2001 through 2005 to carry out the PIRC program.

Section 2424, Eisenhower Regional Mathematics and Science Education Consortia. Section 2424 of the ESEA would authorize the establishment of the Eisenhower Regional Mathematics and Science Education Consortia. The Eisenhower Consortia are currently authorized under Part C of Title III of the ESEA. Title X of the bill would update the current law to eliminate outdated or unnecessary provisions and making structural changes, section 2424 would eliminate some of the current authorized uses of funds for the Eisenhower Consortia in order to focus the uses of funds more closely on the program's core purposes.

Section 2424 would also authorize the appropriation of such sums as may be necessary for fiscal years 2001 through 2005 to carry out the Eisenhower Consortia.

Subpart 3—Technology-based technical assistance information dissemination

Section 2431, Web-based and other information dissemination. Section 2431 of the ESEA would authorize the Secretary to carry out, through grants or cooperative agreements, a national system, through the Worldwide Web and other advanced telecommunications technologies, that supports interactive information sharing and dissemination about ways to improve educational practices throughout the Nation. In designing and implementing this proposed information dissemination system, the Secretary would be required to create opportunities for the continuous input of students, teachers, administrators, and other individuals who participate in, or may be affected by, the Nation's educational system.

The proposed new information dissemination would include information on: (1) stimulating instructional practices that are aligned with challenging content standards; and (2) successful and innovative practices in instruction, professional development, challenging academic content and student performance standards, assessments, effective school management, and other such areas as the Secretary determines are appropriate.

Under section 2431(d), the Secretary could require the technical assistance providers funded under proposed Part D of Title II of the ESEA (as amended by Title III of the bill), or the educational laboratories and clearinghouses of the Educational Resources Information Center supported under the Educational Research, Development, Dissemination, and Improvement Act, to: (1) provide information (including information on practices employed in the regions or States served by such providers) for use in the proposed information dissemination system; (2) coordinate their activities in order to ensure a unified system of technical assistance; and (3) if the Secretary determines that duplication, the dissemination activities of the Office of Educational Research and Improvement (OEIRI), and that the public has access, through this system, to the latest research, statistics, and other information supported by, or available from, OEIRI.

Section 2431(b) would authorize the Secretary to carry out national activities, using advanced telecommunications technologies where appropriate, to assist LEAs, SEAs, tribes, and other ESEA recipients in meeting the requirements of the Government Performance and Results Act of 1993. This assistance could include information on measuring and benchmarking program performance and student outcomes.

Section 2432 would authorize the appropriation of such sums as may be necessary for fiscal years 2001 through 2005 to carry out the proposed information dissemination activities.

Subpart 4—National evaluation activities

Section 2441, national evaluation activities. Section 2441 of the ESEA would require the Secretary to make grants to eligible entities for program evaluation and the use of data for research and evaluation purposes. The bill would authorize the appropriation of such sums as may be necessary for fiscal years 2001 through 2005 to carry out the proposed activities.
Section 303. Statement of Purpose. Section 303 of the bill would amend section 311 of the ESEA to better align the purposes of Title III of the ESEA to the national technology goals and the Department's goals for the use of educational technology to improve teaching and learning. These purposes of Title III are: (1) help provide all classrooms with access to educational technology through support for the acquisition of advanced multimedia computers, Internet connections, and other technologies; (2) help ensure access to, and effective use of, educational technology in all classrooms through the provision of sustained and intensive, high-quality professional development that improves teachers' capability to integrate educational technology effectively into their classrooms by actively engaging students and teachers in the use of technology; (3) help improve the capability of teachers to design and construct new learning experiences using technology, and actively engage students in that design and construction; (4) support efforts by SEAs and LEAs to create learning environments designed to help students to achieve to challenging State academic content and performance standards through the use of research-based teaching practices and technologies; (5) support technical assistance to State educational agencies, local educational agencies, and communities to help them use technology-based resources and improve systems to support school reform and meet the needs of students and teachers; (6) support the development of applications that make use of such technologies as telecommunications, hand-held devices, web-based learning resources, distance learning networks, and modeling and simulation software; (7) promote partnerships between business and industry to realize more rapidly the potential of digital communications to expand the scope of, and opportunities for, learning; (8) support evaluation and research on the effective use of technology in preparing all students to achieve to challenging State academic content and performance standards through the use of technology and related standards, and the impact of technology on teaching and learning; (9) provide national leadership to stimulate and coordinate broad national efforts to increase the national, State and local levels, that support the development and integration of advanced technologies and applications to improve school planning and classroom instruction; (10) support the development, or redesign, of teacher preparation programs to enable prospective teachers to integrate the use of technology in teaching and learning; (11) increase the capacity of State and local educational agencies to improve student achievement, particularly that of students in high-poverty, low-performing schools; (12) promote the formation of partnerships and consortia to stimulate the development of, and new uses for, technology in teaching and learning; (13) support the creation or expansion of community technology centers that will provide disadvantaged residents of economically distressed urban and rural communities access to educational technology and related training; and (14) help ensure that technology is accessible to, and usable by, all students, particularly students with disabilities or limited English proficiency.

Section 304. Prohibition Against Supplanting. Section 304 of the bill would repeal section 3113 of the ESEA, which currently prohibits the definitions applicable to Title III of the ESEA. Definitions would instead be placed in the part of the title to which they apply. In addition, this section would amend section 3113 of the ESEA to require a recipient of funds awarded under this title to use that award only to supplement the amount of funds or resources that would, in the absence of the Federal funds, be made available from non-Federal sources for the purposes of the programs authorized by this title. These changes would be made by the bill of appropriations section would be included in the part of Title III of the ESEA to which it applies. These changes would also eliminate the current statutory prohibition that funds be used for a discretionary grant program when appropriations for current Part A of Title III of the ESEA are less than $75 million, and for a State formula grant program when the appropriation exceeds that amount. This provision must currently be overridden in appropriation language each year in order to operate both the Technology Literacy Challenge Fund and the Technology Innovation Challenge Grants program.

Section 310. Structure of Part. Section 310 of the bill would amend section 311 of the ESEA to include technical changes to Title III of the ESEA to eliminate the current structure of Part A of Title III of the ESEA and add a new heading for Part A, Federal Leadership and National Activities. This section would also repeal the current Product Development program, which has never received funding.

Section 311. Long Range Technology Plan. Section 311 of the bill would amend section 3121 of the ESEA, which currently requires the Secretary to publish a national long-range technology plan one year of the enactment of the Improving America's Schools Act of 1994. Instead, section 3121(1) of the bill would amend section 3121(a) of the ESEA to require the Secretary to develop the national long-range technology plan within one year of the enactment of the bill and to broadly disseminate the updated plan.

Section 312. Technology Innovation Challenge Grants Program. Section 312 of the bill would amend section 3121(c) of the ESEA, which establishes the requirements for the national long-range technology plan, by adding the requirements that the plan describe: the Secretary will: promote the full integration of technology into learning, including the creation of new instructional opportunities through access to challenging courses and information that would otherwise not have been available, and independent learning opportunities for students through technology; encourage the creation of opportunities for teachers to develop, through the use of technology, their own networks and resources for sustained and intensive, high-quality professional development to support the commercial development of effective, high-quality, cost-competitive educational technology and software.

Section 313. Federal Leadership. Section 313 of the bill would amend section 3122 of the ESEA, which authorizes a program of Federal leadership in promoting the use of technology in education. Section 313(1) of the bill would amend 3122(a) of the ESEA by eliminating a reference to the United States National Commission on Libraries and Information Systems, and replacing it with the White House Office of Science and Technology Policy, on the list of agencies with which the Secretary consults under this program.

Section 313(2) of the bill would amend section 3122(b)(1) of the ESEA by removing the reference to the National Education Act, which would be repealed by another section of this bill. The National Education Goals would be named America's Education Goals and added to the ESEA by section 2 of the bill.

Section 313(3) of the bill would amend current 3122(c) of the ESEA by eliminating the authority for the Secretary to undertake activities designed to facilitate maximum interoperability of educational technologies. Instead, the Secretary would be authorized to develop and disseminate information on the effective uses of educational technology, including its use of sustained and intensive, high-quality professional development, and the dissemination of that information nationwide.

Section 314. Repeals; Redesignations; Authorization of Appropriations. Section 314 of the bill would repeal sections 3115 (Limitation on Appropriations), 3115 (Limitation on Costs), and 3123 (Study, Evaluation, and Report of Funding Alternatives) of the ESEA. It would also amend section 3113 of the bill of appropriations section would be included in the part of Title III of the ESEA to which it applies. These changes would also eliminate the current statutory provision that funds be used for a discretionary grant program when appropriations for current Part A of Title III of the ESEA are less than $75 million, and for a State formula grant program when the appropriation exceeds that amount. This provision must currently be overridden in appropriation language each year in order to operate both the Technology Literacy Challenge Fund and the Technology Innovation Challenge Grants program.

Section 315. Repeal of Section 3101 of the ESEA. Section 315 of the bill would redesignate several sections of the ESEA and add new sections 3101 and 3104 of the ESEA. Proposed new section 3101 of the ESEA ("National Evaluation of Education Technology" would require the Secretary to: develop and carry out a strategy for an ongoing evaluation of existing and anticipated future uses of educational technology. This national evaluation strategy should be designed to better inform the Federal role in supporting the use of educational technology, in stimulating reform and innovation in teaching and learning with technology, and in advancing the development of more advanced and new types and applications of such technology. As part of this evaluation strategy, the Secretary would be authorized to: conduct long-term controlled studies on the effectiveness of the uses of educational technology; convene panels of experts to identify uses of educational technology that hold the greatest promise for improving teaching and learning; assist the Secretary with the evaluation of the assessment and effectiveness of programs that are funded under this title, and identify barriers to the commercial development of effective, high-quality, cost-competitive educational technology and software; conduct evaluations and applied research studies that examine how students learn using educational technology, whether singly or in groups, and across age groups, student populations (including students with special needs, such as students with limited English proficiency and students with disabilities) and settings, and the characteristics of classrooms and other educational settings that use educational technology effectively; collaborate with other Federal agencies that support research on, and evaluation of, the use of network technology in educational settings; and carry out other activities as the Secretary determines to be appropriate. The Secretary would be authorized to use up to 4 percent of the funds appropriated to carry out Title III of the ESEA for any fiscal year to carry out national evaluation strategy, national plan, and Federal Leadership activities for fiscal years 2001 through 2005.

Section 316. Special Projects. Section 316 of the bill would make several structural and conforming changes to...
May 27, 1999

CONGRESSIONAL RECORD—SENATE

11427

Title III of the ESEA. Section 321(a) of the bill would amend the subpart heading for Subpart 2 of Part B of Title III of the ESEA (as redesignated by section 321(b) of the bill) to reflect advances in digital technology by replacing the term "television" with a reference to "digital television."

In addition, section 322 of the bill would amend the provisions of this subpart to reflect the redesignations made by section 321(c) of the bill, and to authorize the appropriation of such sums as may be necessary to carry out this subpart for fiscal years 2001 through 2005.

Section 323. Telecommunications Program for Professional Development in the Core Content Areas. Section 323(a) of the bill would amend the heading for Subpart 3 of Part B of Title III (as redesignated by section 321(b) of the bill) from the current "Telecommunications Demonstration Project for Mathematics" to "Telecommunications Program for Professional Development in the Core Content Areas."

Section 323(b) of the bill would amend section 3231 of the ESEA (as redesignated by section 321(c) of the bill), which currently states the purpose of carrying out a national telecommunications-based demonstration project to improve the teaching of mathematics and to assist elementary and secondary school teachers in preparing all students for achieving State content standards. As amended by section 323(b) of the bill, this program would no longer be only a demonstration project, and its purposes would be expanded to assist elementary and secondary school teachers in preparing all students to achieve to challenging State academic content and performance standards through a national telecommunications-based demonstration program to improve teaching in all core content areas, not just mathematics.

Section 323(c) of the bill would amend the application requirements in section 3232 of the ESEA (as redesignated by section 321(c) of the bill) to eliminate references to the program as a demonstration project, update the references to technology, expand the types of proposals that could be made under this proposed new subpart, and require proposals to make programs accessible to special needs students, students with disabilities, students in rural areas, and students with limited English proficiency; (5) projects in which applicants provide substantial financial and other resources to achieve the goals of the project; and (6) projects that develop innovative models for using electronic networks to provide challenging courses, such as Advanced Placement courses.

Proposed new section 3211 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3212 of the ESEA, in order to be eligible to receive an award, an applicant would have to be a consortium that includes: (1) at least one SEA or LEA; and (2) at least one institution of higher education, for-profit business, museum, library, other public or private entity with a particular expertise that would assist in carrying out the purposes of the proposed new subpart.

Proposed new section 3212 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3213 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3214 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3215 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program.

State and involving large-scale innovations in teaching and learning; (4) projects that develop innovative models that serve traditionally underserved populations, including low-income students, students with limited English proficiency; (5) projects in which applicants provide substantial financial and other resources to achieve the goals of the project; and (6) projects that develop innovative models for using electronic networks to provide challenging courses, such as Advanced Placement courses.

Proposed new section 3211 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3212 of the ESEA, in order to be eligible to receive an award, an applicant would have to be a consortium that includes: (1) at least one SEA or LEA; and (2) at least one institution of higher education, for-profit business, museum, library, other public or private entity with a particular expertise that would assist in carrying out the purposes of the proposed new subpart. Under proposed new section 3212 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3213 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3214 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3215 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program.

Proposed new section 3211 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3212 of the ESEA, in order to be eligible to receive an award, an applicant would have to be a consortium that includes: (1) at least one SEA or LEA; and (2) at least one institution of higher education, for-profit business, museum, library, other public or private entity with a particular expertise that would assist in carrying out the purposes of the proposed new subpart.

Under proposed new section 3212(b) of the ESEA, applicants would be required to provide a description of the proposed project and how it would carry out the purposes of the program, and a detailed plan for the independent evaluation of the program, which must include benchmarks to monitor progress toward the specific project objectives.

Proposed new section 3212(c) of the ESEA would allow the Secretary, when making awards, to give priority to projects that develop innovative models of effective use of educational technology, including the development of distance learning networks, software (including software deliverable through the Internet), and online-learning resources; (3) projects serving more than one

State and involving large-scale innovations in teaching and learning; (4) projects that develop innovative models that serve traditionally underserved populations, including low-income students, students with limited English proficiency; (5) projects in which applicants provide substantial financial and other resources to achieve the goals of the project; and (6) projects that develop innovative models for using electronic networks to provide challenging courses, such as Advanced Placement courses.

Proposed new section 3211 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3212 of the ESEA, in order to be eligible to receive an award, an applicant would have to be a consortium that includes: (1) at least one SEA or LEA; and (2) at least one institution of higher education, for-profit business, museum, library, other public or private entity with a particular expertise that would assist in carrying out the purposes of the proposed new subpart. Under proposed new section 3212 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3213 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3214 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3215 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program.

Proposed new section 3211 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3212 of the ESEA, in order to be eligible to receive an award, an applicant would have to be a consortium that includes: (1) at least one SEA or LEA; and (2) at least one institution of higher education, for-profit business, museum, library, other public or private entity with a particular expertise that would assist in carrying out the purposes of the proposed new subpart. Under proposed new section 3212 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3213 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3214 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3215 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program.

Proposed new section 3211 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3212 of the ESEA, in order to be eligible to receive an award, an applicant would have to be a consortium that includes: (1) at least one SEA or LEA; and (2) at least one institution of higher education, for-profit business, museum, library, other public or private entity with a particular expertise that would assist in carrying out the purposes of the proposed new subpart. Under proposed new section 3212 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3213 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3214 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3215 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program.

Proposed new section 3211 of the ESEA ("Eligibility") would specify the eligibility and application requirements for the proposed new program. Under proposed new section 3212 of the ESEA, in order to be eligible to receive an award, an applicant would have to be a consortium that includes: (1) at least one SEA or LEA; and (2) at least one institution of higher education, for-profit business, museum, library, other public or private entity with a particular expertise that would assist in carrying out the purposes of the proposed new subpart.

Under proposed new section 3212(b) of the ESEA, applicants would be required to provide a description of the proposed project and how it would carry out the purposes of the program, and a detailed plan for the independent evaluation of the program, which must include benchmarks to monitor progress toward the specific project objectives.

Proposed new section 3212(c) of the ESEA would allow the Secretary, when making awards, to give priority to projects with the following priorities: (1) projects that develop innovative models of effective use of educational technology, including the development of distance learning networks, software (including software deliverable through the Internet), and online-learning resources; (3) projects serving more than one...
Proposed new section 3242 of the ESEA (‘‘Eligibility and Application Requirements’’) would set out the eligibility and application requirements for the proposed new subpart. Under proposed new section 3242(a) of the ESEA, an applicant must (1) have the capacity to expand significantly access to computers and related services for disadvantaged residents of economically distressed urban and rural communities (who would otherwise be denied such access); and (2) be an entity such as a foundation, museum, library, for-profit business, public or private nonprofit organization, community-based organization, an institution of higher education, an SEA, and LEA, or a consortium of these entities.

Under proposed new section 3242(b) of the ESEA, an applicant would be required to submit an application to the Secretary at such time, and containing such information, as the Secretary may require, and that application must include: (1) a description of the purpose, scope, and magnitude of the need for the services and how the project would expand access to information technology and related services to disadvantaged residents of an economically distressed urban or rural community; (2) a demonstration of the commitment, including the financial commitment, of entities such as institutions, organizations, business, and other groups in the community that will provide support for the creation, expansion, and continuation of the proposed project, and the extent to which the proposed project establishes linkages with other appropriate agencies, efforts, and organizations providing services to disadvantaged residents of an economically distressed urban or rural community; (3) a description of how the proposed project would be sustained once the Federal funds awarded under this subpart end; and (4) a plan for the evaluation of the program, including benchmarks to monitor progress toward specific project objectives.

Under proposed new section 3242(c) of the ESEA, the Federal share of the cost of any project funded under the proposed new subpart could not exceed 50 percent, and the non-Federal share may be in cash or in kind, fairly evaluated, including services.

Proposed new section 3243 of the ESEA (‘‘Uses of Funds’’) would describe the required and permissible uses of funds awarded under the proposed new subpart. Under proposed new section 3243(a) of the ESEA, a recipient could use funds awarded under the proposed new subpart for activities that it described in its application that carry out the purposes of this subpart such as: (1) supporting a center coordinator, and staff, to supervise instruction and build community partnerships; (2) acquiring equipment, networking capabilities, and infrastructure to carry out the project; and (3) developing and providing services and activities for community residents that provide access to computers and related technology, and development of such technology in support of pre-school preparation, academic achievement, lifelong learning, and workforce development job preparation.

Proposed new section 3244 of the Act (‘‘Authorization of Appropriations’’) would authorize the appropriation of such sums as may be necessary to carry out the purposes of any new subpart for each of the fiscal years 2001 through 2005.

Part C—Preparing tomorrow’s teachers to use technology

Section 331. New Part. Section 331 of the bill would amend Title III of the ESEA by adding a new Part C, Preparing Tomorrow’s Teachers To Use Technology.

Proposed new section 3301 of the ESEA (‘‘Purpose; Program Authority’’) would state, in subsection (a), that the purpose of the proposed new part is to assist consortia in carrying out programs that prepare prospective teachers to use advanced technology to foster learning environments conducive to preparing all students to achieve challenging State and local content and student performance standards.

Proposed new section 3301(b) of the ESEA would authorize the Secretary, through the Office of Educational Technology, to award grants, contracts, or cooperative agreements on a competitive basis to applicants in order to assist them in developing or redesigning teacher preparation programs to enable prospective teachers to use technology effectively in their classrooms. The Secretary could make these awards for a period of not more than five years.

Proposed new section 3302 of the ESEA (‘‘Eligibility’’) would detail the eligibility, application, and matching requirements for the proposed new part. To be eligible under proposed new section 3302(a), an applicant must be a consortium that includes at least one institution of higher education that offers a baccalaureate degree and prepares beginning teachers through teaching, and at least one SEA or LEA. In addition, each consortium must include at least one of the following entities: an institution of higher education (other than the institution described above); a school or department of education at an institution of higher education; a school or college of arts and sciences; an institution of higher education; a private elementary or secondary school; or a professional association, foundation, corporation, business, public or private nonprofit organization, community-based organization, or other entity with the capacity to contribute to the technology-related reform of teacher preparation programs.

The application requirements in proposed new section 3302(b) of the ESEA would require an applicant to submit an application to the Secretary at such time, and containing such information, as the Secretary may require, and that application would be required to include: a description of the proposed project, including how the project would ensure that individuals participating in the project would be prepared to use technology to create learning environments conducive to preparing all students to achieve challenging State and local content and student performance standards; (1) a demonstration of the commitment, including the financial commitment, of each of the members of the consortium to the proposed project; a description of how the proposed project would be sustained once the Federal funds awarded under this part end; and a plan for the evaluation of the technology-related reform project that would include benchmarks to monitor progress toward specific project objectives.

Proposed new section 3303 of the ESEA (‘‘Authorization of Appropriations’’) would authorize the appropriation of such sums as may be necessary to carry out the purposes of this new part for each of the fiscal years 2001 through 2005.

Part D—Regional, State, and local educational technology resources

Section 341. Repeal; New Part. Section 341 of the bill would add a new Part D, Regional, State, and Local Educational Technology Resources, to Title III of the ESEA that would consist of two subparts: Subpart 1, the Technology Literacy Challenge Fund (TLCF), and Subpart 2, Regional Technology Literacy Councils.

Proposed new section 3304 of the ESEA (‘‘Purpose’’) would state that it is the purpose of the TLCF to increase the capacity of States, SEAs and LEAs to carry out, in accordance with the requirements of this subpart, and in consultation with students, teachers, parents and other stakeholders, programs that improve students’ knowledge, evaluate educational technologies and their potential for use in instruction, and help students develop their own digital learning environments; developing alternative teacher development paths that provide elementary and secondary schools with well-prepared, technology-proficient educators; developing performance-based standards and aligned assessments to measure the capacity of prospective teachers to use technology effectively in their classrooms; providing technical assistance to other teacher preparation programs; developing and disseminating resources and information in order to assist in the development of high-quality teacher preparation programs that prepare teachers to use technology effectively in their classrooms; and acquiring equipment, networking capabilities, and infrastructure to carry out the project.

Proposed new section 3304 of the ESEA (‘‘Authorization of Appropriations’’) would authorize the appropriation of such sums as may be necessary to carry out the purposes of this new part for each of the fiscal years 2001 through 2005.

May 27, 1999
capacity to create improved learning environments through the integration of educational technology into instruction. These purposes would focus program efforts on activities that have been proven to improve teaching and learning.

Section 344. Local Use of Funds. Section 345 of the bill would amend section 3133 of the ESEA, which permits the use of TLCF funds for planning or restructuring of LEAs. An LEA could use the remainder of its allocation for administrative costs and technical assistance. This change is necessary because section 3133 of the ESEA, as added by the current definition of the Outlying Areas is accomplished through appropriations language each year.

Next, section 342 of the bill would amend section 3313(a)(2) of the ESEA by modifying the minimum TLCF State grant amount in two ways. First, the minimum amount would be the lesser of one-half of one percent of the appropriations for TLCF for a fiscal year, or $2,250,000. Second, the new minimum amount would apply in the aggregate to the amount received by the Outlying Areas. Currently, this aggregate minimum amount for the Outlying Areas is accomplished through appropriations language each year.

Section 343. Literacy Challenge Fund. Fund. Section 343 of the bill would amend current section 3313(a)(2) of the ESEA to require an SE to award not less than 65 percent of its allocation to local applicants (from which up to 2 percent of its total allocation could be used for planning subgrants to LEAs that need assistance in developing local technology plans). An SEA could use the remainder of its allocation for administrative costs and technical assistance. This change is necessary because section 3134 of the ESEA, as added by the current definition of the ESEA, which limited the amount of any grant that could be used for administrative expenses.

Section 343 of the bill would also require an SEA to provide a priority for eligible local applicants that are partnerships. ("Eligible local applicant" is defined in proposed new section 3311 of the ESEA, as added by section 348 of the bill.)

Section 343(b)(3) of the bill would amend section 3313(b)(2) of the ESEA, which currently requires the use of TLCF funds in developing applications for program funds to LEAs with high concentrations of poor children and a demonstrated need for such assistance. In addition to this requirement, the amended section 3313(b)(2) of the ESEA would also require that an SEA provide an eligible local applicant with assistance in forming partnerships to apply for program funds and developing performance indicators.

Section 341. State Application. Section 341 of the bill would completely revise the application requirements for the State formula grant program in section 3313 of the ESEA. As revised, section 3313 of the ESEA would require an SE to: (1) provide a new or updated State technology plan that is aligned with the State plan or policies for comprehensive standards-based education reform; (2) meet the State technology goals; (3) describe its long-term strategies for financing educational technology, including how it would use other Federal and non-Federal funds, institutional fees before using TLCF funds for those purposes; (4) describe and explain its criteria for identifying an LEA as high-poverty and having a substantial need for technology to improve student achievement; (5) establish performance indicators for each of its goals described in the plan; (6) detail the indicators' time frame for achieving the goals, and interim measures of success toward achieving the goals; (7) describe how it would ensure that grants awarded under this subpart are of sufficient size, scope, and quality to meet the purposes of this subpart effectively; (8) describe how it would provide technical assistance to eligible local applicants and its capacity for providing that assistance; (9) how it would ensure that educational technology is accessible to, and usable by, students with special needs, such as students who have disabilities or limited English proficiency; and (10) how it would evaluate its activities under the plan. The application requirements would also require an SEA to provide an assurance that, before using any funds received under this subpart for acquiring wiring or advanced telecommunications, it would use all the resources available to it through the E-Rate. This would ensure that districts were using their E-Rate funds, which have more limited uses than TLCF funds, for wiring and telecommunications fees before using TLCF funds for those purposes.

Section 347. Repeals; Conforming Changes; Redesignations. Section 347 of the bill would also repeal current sections 3316 and 3317 of the ESEA. Section 3316 of the ESEA currently authorizes the National Challenge Grants for Educational Technology; Section 3317 of the ESEA would also repeal current sections 3316 and 3317 of the ESEA. Section 3316 of the ESEA currently authorizes the National Challenge Grants for Educational Technology; Section 3317 of the ESEA would also repeal current sections 3316 and 3317 of the ESEA. Section 3317 of the ESEA contains now outdated evaluation requirements. Section 347 of the bill would also make several conforming changes to, and redesignations of, provisions in Title III of the ESEA.

Section 348. Definitions; Authorization of Appropriations. Section 348 of the bill would add several new terms to the ESEA, including "low-performing school." The definitions would be included to better target funds on high-poverty schools with the greatest need for educational technology.

An "eligible local applicant" would be defined as: (1) an LEA with high numbers or percentages of children from households living in poverty, that includes one or more low-performing schools, and has a substantial need for educational technology; or (2) a local partnership that includes at least one LEA that meets those requirements and at least one LEA that can demonstrate that teachers in schools served by that agency are using technology effectively in their classrooms; other LEAs; or has substantial expertise in the application of technology; or public or private non-profit organization with demonstrated experience in the application of educational technology.

A "low-performing school" would be defined as a school identified for school improvement under section 1116 of the ESEA, or in which a substantial majority of students fail to meet State performance standards.

The proposed new section 3418 of the ESEA ("Authorization of Appropriations") would authorize the appropriation of such sums as may be necessary to carry out this subpart for fiscal years 2001 through 2005.

Section 349. Regional Technology in Education Consortia. Section 349(a) of the bill would add a new subpart heading and description of Subpart C of Title III of the ESEA, to Part B of Title III of the ESEA. This proposed new
subpart is based on current section 3141 of the ESEA, as amended by this section of the bill.

Section 349(b) of the bill would amend section 3141 of the bill in several ways. First, section 349(b)(1)(B) of the bill would authorize the Secretary to enter into contracts and cooperative agreements, in addition to the Secretary’s current authority to award grants, to carry out the purposes of the proposed new subpart. In addition, the priority for various regional entities would be eliminated (though the Secretary would still be required to ensure, to the extent possible, that each geographic region of the United States is served by a project funded under this program).

Section 349(b)(1)(C) of the bill would add a new section 3141(a)(2)(B) of the ESEA that would require the RTECs to meet the generous provisions relating to technical assistance providers contained in proposed new section 3241 of the ESEA. Section 349(b) of the bill would also make several conforming changes and updates to references in section 3141 of the ESEA, including updating provisions to reflect recent advances in technology.

Section 349(b)(2)(B)(ii) of the bill would amend section 3141(b)(2)(A) of the ESEA, which currently requires RTECs, to the extent possible, to develop and implement technology-specific, ongoing professional development programs for teachers, administrators, school librarians, and other education personnel. As amended, the ESEA would also require that the professional development is to be provided to teachers, administrators, school librarians, and other education personnel.

Section 349(b)(2)(B)(iv) of the bill would amend section 3141(b)(2)(F) of the ESEA, which currently requires the RTECs to assist colleges and universities to develop and implement preservice training programs for students enrolled in teacher education programs. As amended, this provision would require the RTECs to coordinate high-quality preservice professional development that prepares educators to be effective developers, users, and evaluators of educational technology. As amended, the ESEA would also require that the professional development is to be provided to teachers, administrators, school librarians, and other education personnel.

Finally, section 349(b)(2)(B)(iv) of the bill would amend section 3421 of the ESEA, and section 349(d) of the bill would amend Title III of the ESEA by inserting proposed new section 3422 of the ESEA, which would authorize the appropriation of such sums as may be necessary for this subpart for fiscal years 2001 through 2005.

Title IV—SAFE AND DRUG-FREE SCHOOLS AND COMMUNITIES ACT

Section 401 Safe and Drug Free Schools and Communities. Section 401 of the bill would amend and restate Title IV of the ESEA, which authorizes assistance to States, LEAs, and public entities and nonprofit organizations for programs to create and maintain drug-free, safe, and orderly schools, as described below.

Proposed new section 4003 ("Purpose") of the ESEA would revise the statement of purpose in section 4003 of the current law to focus on the need for program quality and accountability.

Proposed new section 4004 ("Findings") of the ESEA would authorize the appropriation of such sums as may be necessary for Title IV of the bill for fiscal years 2001 through 2005.

Part A—State grants for drug and violence prevention programs

Proposed new section 4111 ("Reservations and Allotments") of the ESEA would authorize the appropriation of such sums as may be necessary for Title IV of the bill for fiscal years 2001 through 2005.

Proposed new section 4111a ("Purpose") of the ESEA would authorize the appropriation of such sums as may be necessary for Title IV of the bill for fiscal years 2001 through 2005.
Proposed new section 4111(b) of the ESEA would retain the provisions in current law; (1) requiring States to develop their SDFSC State grant applications, and how Governors must award their funds under section 4115(c) of the ESEA. These changes would significantly strengthen the current law, which does not specify any criteria for how Governors must award their funds under this section.

States would also be required to include in their applications a description of how the SEA and Governor will use the funds received. Proposed new section 4113(b) and 4115(b) of the ESEA for coordinated capacity-building, technical assistance, and program accountability services and activities would be based on need and quality, as required by proposed new section 4113(b)(4)(B)(i) to promote program accountability and prevention.

Proposed new section 4113(b)(4)(B)(i) of the ESEA would add new language to the statute clarifying that the SEA and Governor must award their funds under this program, and implement capacity building and technical assistance and accountability services designed to support the effective implementation of local drug and violence prevention activities throughout the State, as well as promote program accountability and prevention.

Proposed new section 4113(b)(4)(B)(i) of the ESEA would add new language to the statute clarifying that the SEA and Governor must award their funds under this program, and implement capacity building and technical assistance and accountability services designed to support the effective implementation of local drug and violence prevention programs throughout the State, as well as promote program accountability and prevention.

Proposed new section 4113(b)(4)(B)(i) of the ESEA would add new language to the statute clarifying that the SEA and Governor must award their funds under this program, and implement capacity building and technical assistance and accountability services designed to support the effective implementation of local drug and violence prevention programs throughout the State, as well as promote program accountability and prevention.

Proposed new section 4113(b)(4)(B)(i) of the ESEA would add new language to the statute clarifying that the SEA and Governor must award their funds under this program, and implement capacity building and technical assistance and accountability services designed to support the effective implementation of local drug and violence prevention programs throughout the State, as well as promote program accountability and prevention.
established a set of measurable goals and objectives, that all services to be provided by LEAs under proposed new section 4113(c)(2)(A) to no more than 50 percent of the LEAs in the State, unless the State demonstrates in its application that the SEA can make subgrants to more than 50 percent of the LEAs in the State and still comply with proposed new subparagraph (E) of this section.

Proposed new section 4113(c)(2)(E) of the ESEA would require SEAs to make competitive subgrants to LEAs under proposed new section 4113(c)(2) of sufficient size to support high-quality, effective programs and activities that are designed to create safe, disciplined, and drug-free learning environments in schools and that are consistent with the needs, goals, and objectives identified in the State's plan under proposed new section 4112.

Proposed new section 4113(c)(3)(A) of the ESEA would depart from the current statute to permit SEAs to use up to 10 percent of their allocations under proposed new section 4113(c)(2)(B), that did not receive a competitive award under section 4113(c)(2)(A), to support community efforts that are consistent to the satisfaction of its SEA, in its application for funding under proposed new section 4116 of the ESEA, that it has a compelling interest in doing so.

Proposed new section 4115(c) of the ESEA would authorize the Governor to use up to 5 percent of their total funding under proposed new section 4111(b) to support community efforts that directly complement the efforts of LEAs to foster drug-free, safe, and orderly learning environments in local or regional advisory council that in- cludes, to the extent possible, representa- tives of LEAs, community-based organizations, local officials, students, teachers, public school personnel, mental health service providers, appropriate State agencies, private schools, law enforce- ment, and other groups interested in, and knowledge- able about, drug and violence prevention.

Proposed new section 4116(a)(2)(B) of the ESEA would add similar consultation requirements for the development of applications by other than LEAs seeking subgrants, under the Governor's program authorized by proposed new section 4115(c) of the ESEA.
new section 4113(c)(2) of the ESEA, or the non-competitive LEA grant programs. Proposed new section 4113(c)(3) of the ESEA, include in its application assurances that it: (1) has a policy, consistent with State law, that requires the expulsion of students who possess firearms and other weapons, and who have committed offenses with the Gun-Free Schools Act; (2) has, or will have, a full- or part-time program coordination whose primary responsibility is planning, designing, implementing, and evaluating the applicant’s programs (unless the applicant demonstrates in its application, to the satisfaction of the SEA, that such a program coordinator is not needed); (3) will evaluate its program every two years to assess its progress toward meeting its goals and objectives, and will use the results of its evaluation to improve its program and refine its goals and objectives, as needed; and (4) has, or the schools to be served have, a comprehensive Safe and Drug-Free Schools plan that includes: (a) appropriate and effective discipline policies that prohibit disorderly conduct, the possession of firearms and other weapons, and drug use, possession, and sale of tobacco, alcohol, and other drugs by students, and that mandates predetermined consequences, sanctions, or interventions for off-campus offenses; (b) due process and security procedures at school and while students are on the way to and from school which may include the use of metal detectors and the developed and implemented procedures for addressing the needs of victims, and communicating with parents, the media, law enforcement officials, and other service providers; (c) activities that connect students and the schools and school system, such as efforts to reduce class size or improve classroom discipline; (d) procedures to identify and intervene with troubled students, including establishing linkages with, and referring students to, juvenile justice, community mental heath, and other service providers; (g) activities that connect students and the schools and school system, including activities such as after-school or mentoring programs; and (h) a crisis management plan for responding to violent incidents.

Proposed new section 416(a)(5) of the ESEA would add a requirement that any eligible entity that applies to the Governor for a subgrant under proposed new section 4115(c) include in its application: (1) a description of how the services and activities to be supported will be coordinated with relevant EDFSC State grant programs that are supported by SEAs, including how recipients will share resources, services, and data; (2) a description of how the applicant will coordinate its activities under this part with those implemented under the Drug-Free Communities Act, if any; and (3) an assurance that it will evaluate its program every two years to assess its progress toward meeting its goals and objectives, and will use the results of its evaluation to improve its program and refine its goals and objectives as needed (if the applicant is an LEA), or, if the applicant is a subgrantee, by giving Governors the flexibility to prioritize their efforts. Proposed new section 4116 of the ESEA are funded on the basis of need and quality, while requiring SEAs to use a peer review process.

Proposed new section 417 (“National Evaluations and Data Collections”) of the ESEA would authorize the Secretary to provide for the identification and monitoring of the impact of programs under this title, make minor technical changes to current law to give the Secretaries increased flexibility in meeting the national evaluation and data collection requirements in this section, and add a new requirement for the Secretary and the Attorney General to publish an annual report on school safety.

Proposed new section 4117(b) of the ESEA would make minor technical changes to the current law to refocus the State reports required by this section on the State’s progress toward attaining its performance indicators for achieving drug-free, safe, and orderly learning environments in its schools, consistent with the changes proposed throughout this Act. The ESEA would add a new requirement for States to report, in such form as the Secretary, in consultation with the Secretary of Health and Human Services, may require, that school-related suicides and homicides within the State, whether at school or at a school sponsored function, or on the way to or from school or a school sponsored function, within 30 days of the incident. This requirement will enable the Federal Government to collect longitudinal data on this statistic more cost-effectively, and will impose little administrative burden on the States.

Proposed new section 4117(c)(1)(A) of the ESEA would make minor technical changes to the current law to refocus the local reports required by this section on the LEA’s progress toward attaining its performance indicators for achieving drug-free, safe, and orderly learning environments in its schools, consistent with the changes proposed for the State reports. Proposed new section 4117(c)(1)(B) of the ESEA would add a new requirement that the LEA include in its annual report a program that the LEA has encountered in implementing its program that warrant the provision of technical assistance by the SEA, to assist the LEA in maintaining its assurance activities. These changes would apply to LEAs that receive SDFSC subgrants through their SEA under proposed new sections 4113(c)(2) or 4113(c)(3).

Proposed new section 4117(c)(1)(B) of the ESEA would add a new requirement that LEAs review the annual LEA reports, and terminate funding for the second or third year of an LEA’s program unless the SEA determines that the LEA is making reasonable progress toward meeting its objectives.

Proposed new section 4117(c)(2) of the ESEA would add new language to the ESEA requiring that Governors’ award recipients under proposed new section 4115(c) of the ESEA submit an annual progress report to the Governor and to the public containing the same type of information required for LEA progress reports under proposed new section 4117(c)(1)(A) of the ESEA. The Governor would be required to review the annual progress reports and allocate the funding for the second or third year of a subgrantee’s program unless the Governor determines that the subgrantee is making reasonable progress toward meeting its objectives. PART B—National programs. Proposed new section 4211(b)(2) of the ESEA would authorize the Secretary to make programs authorized under proposed new section 4211(a) directly, or through grants, contracts, or cooperative agreements with States, local governments, or other public and private nonprofit organizations that are engaged in programs that promote drug-free, safe, and orderly learning environments for students at all educational levels, for the second or third year of an LEA’s program unless the SEA determines that the LEA is making reasonable progress toward meeting its objectives. Proposed new section 4211(c)(1) of the ESEA would authorize the Secretary to use national programs authorized under proposed new section 4211(a) directly, or through grants, contracts, or cooperative agreements, to promote lifelong physical activity directly, or through grants, contracts, or cooperative agreements, that meet emerging or unmet national needs, that meet the needs of victims, and that meet the needs of youth who are out of the education mainstream, including school dropouts, students who have been suspended or expelled from their regular education program, and runaway or homeless children and youth; (10) programs implemented in conjunction with other Federal agencies that support LEAs and communities in developing and implementing comprehensive programs that create safe, disciplined, and drug-free learning environments and promote healthy childhood development; (11) services and activities that reduce the need for suspension and expulsion in maintaining classroom order and discipline; (12) services and activities to prevent and reduce truancy; (13) programs to support the development of well-functioning youth, including support for the recruitment and hiring of counselors and the operation of telephone help lines; and (14) other activities that address the health and safety needs consistent with the purposes of this title.

Proposed new section 4211(c)(1) of the ESEA would authorize the Secretary to use national programs authorized under proposed new section 4211(a) directly, or through grants, contracts, or cooperative agreements, to promote lifelong physical activity directly, or through grants, contracts, or cooperative agreements,
agreements with public and private organizations to provide supplemental services to schools and to coordinate with the Centers for Disease Control and Prevention, the President's Council on Physical Fitness and Sports, and other Federal agencies as appropriate. Such agreements could include conducting demonstrations of school-based programs that promote lifelong physical activity; training, technical assistance, and other activities to enhance their capacity to develop and implement sound school-based programs that promote lifelong physical activity; and activities designed to build State capacity to provide leadership and strengthen schools' capabilities to provide school-based programs that promote lifelong physical activity.

Proposed new section 4211(d) of the ESEA would retain the requirement in the current statute that the Secretary use a peer review process in reviewing applications for funds under proposed new section 4211(a) of the ESEA.

Part C—School emergency response to violence

Proposed new section 4311 ("Project SERV") of the ESEA would authorize Project SERV, a program designed to provide emergency services to local educational systems in which the learning environment has been disrupted due to a violent or traumatic crisis, such as a shooting or major accident. The Secretary would be authorized to carry out Project SERV directly, through contracts, grants, or cooperative agreements with public and private organizations, agencies, or through agreements with other Federal agencies. Under proposed new section 4311(b) of the ESEA, Project SERV would provide: (1) assistance to school personnel in assessing a crisis situation, including assessing the resources available to the LEA and community in response to the situation, and developing a response plan to coordinate services provided at the Federal, State, and local level; (2) mental health crisis counseling to students and individuals affected by the crisis, with this counseling being carried out by LEAs having the appropriate mental health services; (3) increased school security; (4) training and technical assistance for SEAs and LEAs, State and local mental health agencies, school enforcement agencies, and communities to enhance their capacity to develop and implement crisis intervention plans; (5) services and activities designed to identify and disseminate the best practices of school- and community-related plans for responding to crises; and (6) other needed services and activities that are consistent with the purposes of Project SERV.

Proposed new section 4311(b) of the ESEA would require the Secretary of Education, in consultation with the Attorney General, the Secretary of Health and Human Services, and the Director of the Federal Emergency Management Agency, to establish criteria and application requirements as may be needed to select which LEAs are assisted under Project SERV, and permit the Secretary to establish reporting requirements for use of any information provided from all LEAs assisted under Project SERV.

Proposed new section 4311(c) of the ESEA would require the establishment of a Federal Coordinating Committee on school crisis intervention comprised of the Secretary (who shall serve as chair of the Committee), the Attorney General, the Secretary of Health and Human Services, the Director of the Federal Emergency Management Agency, the Director of the Office of National Drug Control Policy, and such other members as the Secretary determines. The Committee shall be charged with coordinating the Federal responses to crises that occur in schools or directly affect the learning environment in schools.

Part D—Related provisions

Proposed new section 4411 ("Gun-Free Schools Act") of the ESEA would authorize the Gun-Free Schools Act as proposed new Part D of Title IV of the ESEA because of its close relationship with the SDFPS program. The Gun-Free Schools Act is currently authorized under Part F of Title XIV of the ESEA.

Proposed new section 4411(b) of the ESEA would continue, with minor technical changes, the current requirement that each State receiving Federal funds under the ESEA have in effect a State law requiring LEAs to expel from school, for a period of not less than one year, a student who possesses a firearm at school who has been determined by the State, in the application, to pose an imminent threat of harm to himself, herself, or others. The Gun-Free Schools Act would require the Secretary of Education, in consultation with the Attorney General, the Secretary of Homeland Security, and States to encourage States and LEAs to develop and implement policies that: (1) it has a policy ensuring that a student who possesses a firearm at school is referred to a mental health professional for assessment as to whether he or she poses an imminent threat of harm to himself, herself, or others and needs appropriate mental health services to qualify for enrollment in any school; and (2) it has a policy that a student who possesses a firearm at school who has been determined by a mental health professional to possess an imminent threat of harm to himself, herself, or others receive, in addition to appropriate services under section 11206(g) of the ESEA, appropriate mental health services before being permitted to return to school.

Proposed new section 4412(b) of the ESEA would restate the current Gun-Free Schools Act requirement that proposed new section 4412 be construed in a manner consistent with the Individuals with Disabilities Education Act, and proposed new section 4413(c) of the ESEA would continue the current definition of the terms "firearm" and "school." Proposed new section 4413 ("Materials") of the ESEA would restate the current requirement that the use of firearms, drugs, and other dangerous drugs supported under Title IV of the ESEA convey a clear and consistent message that the illegal use of alcohol and other drugs is wrong and harmful.

Proposed new section 4413(b) of the ESEA would continue, with minor changes, the current law provision that the Secretary shall not prescribe the use of particular curricula for programs under Title IV of the ESEA, but may evaluate and disseminate information about the effectiveness of such curricula and programs.

Proposed new section 4414 ("Prohibited Uses of Funds") of the ESEA would restate the current prohibition on the use of Title IV ESEA funds for: (1) construction (except for minor remodeling needed to accomplish the purposes of this part; and (2) medical services, drug treatment, or rehabilitation, except for pupil services or referral to treatment for students who are victims of, or witnesses to, crime or who use alcohol, tobacco, or drugs.

Proposed new section 4415 ("Drug-Free, Alcohol-Free, and Tobacco-Free Schools") of the ESEA would add a new requirement that each SEA and LEA that receives Title IV ESEA funds have a policy that prohibits possession or use of tobacco, and the illegal use of drugs or alcohol, in any form, at any time, and by any person, in school buildings, on school grounds, or at any school-sponsored event. Each LEA requesting assistance under the ESEA must include in its application for funds an assurance of compliance with this new requirement, and each SEA would be required to report annually to the Secretary if any of its LEAs is not in compliance with this new requirement.

Proposed new section 4416 ("Prohibition on Supplanting") of the ESEA would require that funds under this title be used to increase the level of funding of other non-Federal funds that would, in the absence of funds under this title, be made available for programs and activities authorized under this title, and in no case to supplant such State, local, and other non-Federal funds.

Proposed new section 4417 ("Definitions of Terms") of the ESEA would restate the current law definitions for the terms "drug and violence prevention" and "hate crime," and definitions for the terms "drug treatment" and "drug rehabilitation" and "medical services."
of Title V of the ESEA; (4) move Charter Schools Program (Title X of the ESEA) to Part B of Title V of the ESEA; and (5) add a new initiative, “Options: Opportunities to Improve Our Nation’s Schools”, to be new Part C of Title V of the ESEA that would provide SEAs and LEAs in experimenting with different kinds of public elementary and secondary schools, such as worksite and college-based schools.

Section 501. Renaming the Title. Section 501 of the bill would change the name of Title V of the ESEA to “Promoting Equity, Excellence, and Public School Choice”.

MAGNET SCHOOL ASSISTANCE

Section 502. Findings. Section 502 of the bill would amend Part A (Magnet School Assistance) of Title V of the ESEA. Section 502(a) of the bill would make editorial changes to, and update, section 5101 of the ESEA, the findings for the Magnet School Assistance Program.

Section 502(b) of the bill would amend section 5102(3) of the ESEA (Statement of Purpose) to clarify that the purpose of providing financial assistance to develop and design innovative methods and programs is to promote diversity and increase choices in public elementary and secondary schools and educational programs.

Section 502(c) of the bill would amend section 5106(b)(1)(D) of the ESEA (Information and Assurances), a part of the application requirements, to eliminate reference to the Goals 2000: Educate America Act and to make an editorial change.

Section 502(d) of the bill would amend section 5107 of the ESEA (Priority) to eliminate the current priorities for greatest need and new, or significantly revised, projects. These priorities are not well defined and have not helped to determine which grant applications are most deserving. Section 502(d) would also add a new priority for projects that propose activities, which may include professional development, that will build local capacity to operate the magnet program once Federal assistance has ended.

Section 502(e) of the bill would amend section 5108 of the ESEA (Uses of Funds) to: (1) revise paragraph (3) to allow for the payment, or subsidization of the compensation, of elementary and secondary school teachers who are licensed by the State, and instructional staff who have expertise and professional skills necessary for the conduct of programs in magnet schools or who demonstrate knowledge, experience, or skills in the relevant field of expertise; and (2) allow grantees to use funds for activities, including professional development, that will build the applicant’s capacity to operate the magnet program once Federal assistance has ended.

Section 502(f) of the bill would repeal section 5111 of the ESEA (Innovative Programs). Activities are subsumed under the new Public School Choice program.

Section 502(g) of the bill would redesignate current section 5111 of the ESEA (Evaluation, Technical Assistance, and Dissemination) as section 5111, and incorporate its requirements into proposed new section (“Evaluation, Technical Assistance, and Dissemination”) that would authorize the Secretary to reserve not more than five percent (rather than two percent) of appropriated funds to collect and disseminate information on success of the magnet program, as well as provide technical assistance to applicants and grantees and collect and disseminate information on successful schools programs, as well as provide technical assistance to applicants and grantees and collect and disseminate information on successful schools programs. Section 502(g) of the bill would also require each evaluation, in addition to current items, to address the extent to which magnet school programs provide once grant assistance under this part ends.

Section 502(h) of the bill would amend section 5113(a) of the ESEA (Authorization to make appropriations) to authorize appropriations for fiscal year 2001 and for each of the four succeeding fiscal years to be appropriated to carry out the part. Section 501(b) of the bill would redesignate section 5113 as section 5112.

WOMEN’S EDUCATIONAL EQUITY

Section 503. Amendments to the Women’s Educational Equity Program. Section 503(a)(1)(A) of the bill would amend section 5301(b) of the ESEA (Short Title) to update and change the short title from the “Women’s Educational Equity Act of 1994” to the “Women’s Educational Equity Act”.

Section 503(a)(1)(B) of the bill would amend section 5301(b) of the ESEA (Findings) to make it clear, in paragraph (3)(B), that classroom-based programs “are dramatically underrepresented in higher-level computer science courses.

Section 503(a)(2)(A) of the bill would amend section 5304 of the ESEA (Applications) to change the internal section references to conform section numbers to the part redesignation and to clarify that the application requirements in which these references appeal apply to all grants under Section 501(b) of the ESEA would also be amended by slightly editing paragraph (3)(C) and adding a recent finding to that paragraph that girls are dramatically underrepresented in higher-level computer science courses.

Section 503(a)(2)(B) of the bill would amend section 5304(b)(2) of the ESEA to change a reference to “the National Education Goals” to “America’s Education Goals.” Section 503(a)(2)(C) of the bill would eliminate section 5304(4) of the ESEA, which requires an application description of how program funds would be used in a consistent manner with the School-to-Work Opportunities Act of 1994. The School-to-Work Opportunities Act sunsets in 2001, and this reference will be obsolete. Paragraphs (5) and (6) in the section would be redesignated.

Section 503(a)(3) of the bill would amend section 5305(1) of the ESEA to eliminate “Title VIII” and allow SEAs and LEAs to develop and implement strategies other than magnet schools.

Section 503(a)(4) of the bill would repeal section 5306 of the ESEA (Report). The report required by this section will be submitted, satisfying the requirement and making it obsolete.

Section 503(a)(5) of the bill would amend section 5307 of the ESEA (Administration) by eliminating subsection (a), requiring the Secretary to conduct an evaluation of materials and programs developed under the program and to submit a report to Congress by January 1, 1999. Congress did not provide funding for the mandated evaluation, and the report was not done.

Section 503(a)(6) of the bill would amend section 5308 of the ESEA to authorize appropriations of such sums as may be necessary for fiscal year 2001 and for each of the four succeeding fiscal years to carry out this section. The purpose for the Women’s Educational Equity program has been small in recent years, using two thirds of this appropriation for local implementation (research and development grants) has not been the most effective and development grants) has not been the most effective use of program resources.

Section 503(b) of the bill would redesignate Part B of Title V of the ESEA as Part D of
be used for transportation; and (3) not be used for anything that are specifically authorized under Part A or B of the title.

Proposed new section 5304(a) of the ESEA would require a SEA or LEA desiring to receive funds under this part to submit an application to the Secretary, in such form and containing such information, as the Secretary may require. Each application would be required to include a description of the program for which funds are sought and the goals for such program, a description of how the program funded under this part will be coordinated with and will complement and enhance, programs under other related Federal and non-Federal projects, and, if the program includes partners, the name of each partner and a description of its responsibilities. Also, each application would be required to include a description of the policies and procedures the applicant will use to ensure its accountability for results, including its goals and performance indicators, and that the program is open and accessible to, and will promote high-academic standards for, and will help ensure access to high-quality schools, while allowing, for example, public-private partnerships to create public worksite schools that allow children who attend such a school. The Secretary would be required to give a priority to applications demonstrating that the applicant will carry out its project in partnership with one or more public and private agencies, organizations, and institutions, including institutions of higher education and public and private employers.

Proposed new section 5305(a) of the ESEA would authorize such sums as may be necessary for fiscal year 2001 and for each of the four succeeding fiscal years to carry out the part. Proposed new section 5305(b) of the ESEA would, from amounts appropriated for any fiscal year, authorize the Secretary to reserve not more than five percent to carry out evaluations, provide technical assistance, and information. Proposed new section 5305(c) of the ESEA would authorize the Secretary to use funds reserved under this section to carry out or for more evaluations of programs assisted under this part. Those evaluations would, at a minimum, address: (1) how and the extent to which programs supported with funds under the part promote educational equity and excellence; and (2) the extent to which public schools of choice supported with funds under the part are held accountable to the public, effective in improving public education, and open and accessible to all students.

TITLE VI—CLASS-SIZE REDUCTION

Section 601, class-size (ESEA, Title I), section 601 of the bill would replace Title VI of the ESEA with a multi-year extension of the 1-year initiative, enacted in the Department’s appropriation Act for fiscal year 1999, to help States and LEAs improve educational outcomes through reducing class sizes in the early grades, as follows:

ESEA, § 6001, purpose. Section 6001 of the ESEA would set out 8 findings in support of the new Title VI.

ESEA, § 6002, purpose. Section 6002 of the ESEA would authorize the Secretary to provide each participating SEA with substantial grants for purposes that the Secretary may determine. Section 6003 of the ESEA would authorize the appropriations of such sums as may be necessary for fiscal year 2001 and for each of the succeeding fiscal years.

ESEA, § 6004, allocations to States. Section 6004(a) of the ESEA would direct the Secretary to reserve a total of not more than 1 percent of each year’s appropriation for Title VI to make payments, on the basis of their respective needs, to the several outlying areas and the District of Columbia for activities in schools operated or supported by the Bureau of Indian Affairs (BIA).

The Secretary would direct the Secretary to allocate the remaining amount among the States on the basis of each State’s share of Federal Title I funds for the purpose of reducing class size in grades 1 through 3 to 18 or fewer children.

Subsection (b) would require each application to include: (1) the State’s goals for using program funds to reduce average class sizes in grades 1 through 3; (2) a description of the State’s plan for allocating program funds within the State; (3) a description of the methods the State will use to ensure that program funds are used for activities that reduce class sizes and improve teacher quality and reading achievement within the State; and (4) an assurance that the SEA will submit such reports and information as the Secretary may reasonably require.

Subsection (c) would direct the Secretary to approve a State’s application if it meets the requirements of (a) and (b) and holds reasonable promise of achieving the program’s purposes.

ESEA, § 6006, within-State allocations. Section 6006 of the ESEA would require each participating State to reserve up to one percent of each year’s Title I allocation for each LEA to pay for the full cost of local programs, and to distribute all remaining funds to LEAs. A State would distribute 80 percent of its allocation on the basis of the relative need of children from low-income families in LEAs, and the remaining 20 percent on the basis of school-age children enrolled in public and private nonprofit schools in LEAs.

Section 6007 of the ESEA would require each LEA to use its Title VI funds to reduce class sizes in grades 1 through 3 to 18 children, or to provide benefits to, a teacher who it already employs (or has employed).

Subsection (d) would permit an LEA from using its Title VI funds to increase the salary of, or to provide benefits to, a teacher who it already employs (or has employed).

Subsection (e) would permit an LEA that has already reduced class size in grades 1 through 3 or 18 or fewer children to use its Title VI funds to make further class-size reductions in grades 1 through 3, reduce class sizes in other grades, or for activities, including professional development, to improve teacher quality.

Subsection (f) would permit and LEA whose subgrant is too small to pay the starting salary for a new teacher to use its subgrant funds to form a consortium with one or more other LEAs for the purpose of increasing the number of LEAs with a full-time or part-time teacher hired to reduce class size; or, if the subgrant is less than $10,000, for professional development.

Subsection (g) would authorize the Secretary to reserve a total of not more than 1 percent of each year’s Title I allocation for the purpose of reducing class size in grades 1 through 3 to 18 children.

Subsection (h) of the ESEA would allow program funds to pay the full cost of local programs under the in schools with child pov-

Subsection (i) of the ESEA would authorize the Secretary to use funds under Part A of Title I that Act to pay the non-Federal share of services provided with Title I funds for the purpose of reducing class size in grades 1 through 3 to 18 children.

Subsection (j) of the ESEA would require each participating LEA to use its Title VI funds to carry out one or more other LEAs for the purpose of reducing class size in grades 1 through 3 to 18 children.

Subsection (k) of the ESEA would require each participating LEA to use its Title VI funds to carry out one or more other LEAs for the purpose of reducing class size in grades 1 through 3 to 18 children.

Subsection (l) of the ESEA would require each participating LEA to use its Title VI funds to carry out one or more other LEAs for the purpose of reducing class size in grades 1 through 3 to 18 children.

Subsection (m) of the ESEA would require each participating LEA to use its Title VI funds to carry out one or more other LEAs for the purpose of reducing class size in grades 1 through 3 to 18 children.

Subsection (n) of the ESEA would authorize the Secretary to use funds under Part A of Title I of the Act to pay the non-Federal share of services provided with Title I funds in non-Title I schools. This option would not, however, be available with respect to services operating schoolwide programs through a waiver of the normal eligibility rules governing schoolwide programs (current section 1114(a)(1)(B), which the bill would re-enact as section 1114(a)(2)).

ESEA, § 6010, new programs. Section 6010 of the ESEA would require each participating LEA to use its Title VI funds to increase the overall amount of its expenditures for the combination of: (1) teachers in regular classrooms in schools receiving assistance; (2) assessing new teachers and assisting them to take tests required for State certification; and (3) professional development for teachers.

ESEA, § 6011, annual State reports. Section 6011 of the ESEA would require each participating State to submit an annual report to the Secretary on its activities under Title VI.

ESEA, § 6012, participation of private school teachers. Section 6012 of the ESEA would require each participating LEA to provide for the equitable participation of teachers from private schools in professional development activities carried out under Title VI.

ESEA, § 6013, definition. Section 6013 of the ESEA would define “State”, for the purpose of Title VI, as meaning each of the States, the District of Columbia, and the Commonwealth of Puerto Rico. The outlying areas, which would otherwise be treated as States under the definition in
Section 701. Findings, Policy, and Purpose. 

Section 701 of the bill would amend sections 7102(a)(12) and 7102(a)(13) of the ESEA to incorporate recent research findings and to add the policy that limited English proficient students be tested in English. This requirement is consistent with the school accountability requirements associated with limited English proficient students in section 1111(b)(3)(C) of Title I of the ESEA. Section 701 of the bill would also amend section 7102(c) (Purpose) of the ESEA to add helping to ensure that limited English proficient students master English as a stated purpose and to make minor editorial changes.

Section 702. Authorization of Appropriations for Part A. Section 702 of the bill would amend section 7103(a) of the ESEA to authorize the appropriation of such sums as may be necessary to carry out programs under Part A of the Title from fiscal year 2001 through 2005.

Section 703. Program Development and Enhancements Grants. In order to simplify and improve the ESEA, section 703 of the bill would amend section 7111 of the ESEA to require that a State include, in its application, information on (A) the plans for the improvement of the next three years that are designed to increase the accountability of the local educational agency (LEA) to ensure that children and youth with limited English proficiency participating in the program make progress in learning English and achieving to challenging State content and performance standards; (B) the amount of Federal funds to be used to implement the plan; (C) a description of the effective instructional practices and the use of technology in the classroom; (D) the indicators established for determining if the program is making substantial progress in implementing the program improvement plan, the Secretary would be required to deny a continuation award.

Section 704. Program Evaluation. Section 704 of the bill would amend section 7115(a) of the ESEA to require that a recipient of a grant under this section be required to promptly develop and submit to the Secretary a program improvement plan for its program. The Secretary would be required to approve a program improvement plan only if he or she determines that it held reasonable promise of enabling students with limited English proficiency participating in the program to learn English and achieve to challenging State content and performance standards. If the Secretary determines that the program is making substantial progress in implementing the program improvement plan, the Secretary would be required to deny a continuation award.

Section 705. Program Development and Enhancements Grants. In order to simplify and improve the ESEA, section 705 of the bill would amend section 7113 of the ESEA (Enhancement Grants) to consolidate the activities of the Preschool and Improving School Improvement Grants program (currently in section 7122 of the bill and in subsection section 730 of the bill) and the Enhancement Grants proposed into a new three-year grant program, “Program Development and Enhancement Grants.”

Section 706. Applications for Awards under Subpart 1. Section 706 of the bill would amend section 7116 of the ESEA (Applications) to make changes designed to increase program accountability. If the Secretary determines that the recipient is not making substantial progress in implementing the program improvement plan, the recipient would be re¬quired to deny a continuation award.

Section 707. Reauthorization of Title I. Section 707 of the bill would amend section 7111 of the ESEA (State Review and Comments) to clarify that SEAs must notify all SEAs that will be affected by the bill. Section 707 of the bill would also amend current language on allow¬able activities to, among other things, emphasize effective instructional practice, developing student proficiency in two lan¬guages, and the use of technology in the classroom.

Section 708. Reauthorization of Title II. Section 708 of the bill would amend section 7116 of the ESEA (Required Documenta¬tion) to require documentation that the leadership of each participating school had been involved in the development and planning of the program in the school.

Section 709. Reauthorization of Title III. Section 709 of the bill would amend section 7116(g) of the ESEA (Contents) to reorganize paragraph (A) and to add to the list of data to be included in the application, data on: (1) current achievement data of the limited English proficient students to be served by the program; (2) reclassifi¬cation rates for limited English proficient students in the district; (3) the previous school experiences of participating students; and (4) the professional development and training required to do services for limited English proficient students, including the need for certi¬fied teachers; and (5) how the grant would provide services to limited English proficient students. Many school districts already collect such data and its collection would help ensure that data on the application would be used to establish a baseline against which instruc¬tional progress could be measured.
Section 706(3) of the bill would also make editorial changes. Section 7116(c)(1)(E) of the ESEA, an assurance that the applicant will employ teachers in the proposed program who individually, or in combination, are qualified to teach the majority of students they teach, if instruction in the program is also in the native language.

Section 706(4) of the bill would amend section 7116(i) of the ESEA (Priorities and Special Rules) to add two new priorities for applications. These are: to assist families in the number of limited English proficient students enrolled and demonstrate that they have a proven record of success in helping children and youth with limited English proficiency learn English and achieve to high academic standards and make editorial revisions.

Section 707. Evaluations under Subpart 1. Section 707(1) of the bill would amend current section 7123(a) of the ESEA (Evaluation) to require that grantees conduct an annual, rather than a triennial, evaluation of how the activities funded under the section to: (1) assist LEAs with program design, capacity building, assessment of student performance, program evaluation, and development of data collection; (2) collect data on LEAs’ programs; and (3) develop a data base management and other parts of the program to the outlying territories and for developing instructional materials that reflect challenging State content standards, in collaboration with the Department.

Section 707(2) of the bill would revise the list of allowable activities. In section 7123(c) of the ESEA, to require a recipient to: (1) data the use provided in the application as baseline data against which to report academic achievement and gains in English proficiency for students in the program; (2) report on the validity and reliability of all instruments used to measure student progress; and (3) to be disaggregated by any relevant factors such as a student’s grade, gender, and language group and whether the student has a disability. Evaluations would be required to include: (1) data on the project’s progress in achieving its objectives; (2) data showing the extent to which all students served by the program are achieving to the State’s student performance standards; (3) program implementation indicators that address each of the program’s objectives and components, including the extent to which program-specific activities have resulted in improved classroom practices and improved student achievement; (4) a description of how the activities funded under the grant are coordinated and integrated with the overall school program and other Federal, State, or local programs serving limited English proficient children and youth; and (5) such other information as the Secretary may require. This revision is necessary to ensure that grantees submit data needed to make a determination on whether the project should be continued at the end of the third year or at the end of the fourth year, and also provide the Department with data needed to assess grantee progress toward meeting goals established for the Bilingual Education program under the Government Performance and Results Act (GPRA).

Section 707(3) of the bill would add a new subsection (d) (Performance Measures) that would require the Secretary to establish performance indicators to determine if programs (as redesignated) are making continuous and substantial progress, and allow the Secretary to establish such indicators to determine if programs (as redesignated) are making continuous and substantial progress, toward assisting children and youth with limited English proficiency to learn English and meeting State content and performance standards.

Section 708, Research. Section 708 of the bill would amend current section 7231 of the ESEA (Research) to support the use of the results of research and development conducted through the Office of Educational Research and Improvement in collaboration with the Office of Bilingual Education and Minority Languages Affairs and also to provide a list of allowable research activities (including data collection needed for compliance with GPRA and identifying technology-based approaches that show effectiveness in helping limited English proficient students reach challenging State standards).

Section 708(3) of the bill would make conforming amendments to section 713 (Data Collection) of the ESEA and eliminate the authorization for grantees under Subparts 1 and 2 to submit research applications at the same time as the project application in year 1 and amendment in year 2. The current provision unnecessarily complicates the conduct of these grant competitions. Section 708(4) of the bill would eliminate section 7133(c) (Data Collection) since data collection is an activity authorized in subsection (a).

Section 709. Academic Excellence Awards. Section 709 of the bill would replace current section 7133 of the ESEA (Academic Excellence Awards) that authorizes grants, contracts, and cooperative agreements to promote the adoption of promising instructional and professional development programs, with a State discretionary grant program. Under the new program, the Secretary would be authorized to make grants to SEAs to assist them in recognizing LEAs and other public and non-profit entities whose programs have demonstrated significant progress in assisting LEAs and LEAs in their LEAs to learn English and to meet the same challenging State content standards expected of all children and youth, within three years.

Section 710, State Grant Program. Section 710 of the bill would amend subsection (c) (Use of Funds) of section 7134 (State Grant Program) of the ESEA to require State to use funds under the section to: (1) assist LEAs with program design, capacity building, assessment of student performance, program evaluation, and development of data collection and accountability systems for limited English proficient students that are aligned with State reform efforts; and (2) collect data on LEAs’ programs and services available to such populations. This would improve the quality of data collected by LEAs relating to services for limited English proficient students.

Section 711, National Clearinghouse on the Education of Children and Youth with Limited English Proficiency. Section 711 would amend section 7136 of the ESEA (National Clearinghouse on the Education of Children and Youth with Limited English Proficiency) to require that the Clearinghouse be administered as an adjunct to the Educational Resources Information Center Clearinghouse system to develop a data and monitoring system, and develop, maintain, and disseminate a listing of bilingual education professionals.

Section 712, Instructional Materials Development. Section 712 of the bill would amend section 7136 of the ESEA (Instructional Materials) to expand the current authorization for LEAs to develop bilingual instructional materials with limited English proficient students. The proposed amendment recognizes that instructional materials may be needed in languages other than those listed interstate and that materials may be needed to prepare parents to become more involved in the education of their children.

Section 712 of the bill would also require the Secretary to give priority to applications for developing instructional materials in languages indigenous to the United States or to the outlying territories and for developing and evaluating instructional materials that reflect challenging State and local content standards, in collaboration with the Department.

Section 713. Purpose of Subpart 3. Section 713 of the bill would amend section 7141 (Purpose) of Subpart 3 (Professional Development) of Part A of the Title to eliminate a reference to dissemination of information. This activity is not directly related to professional development.

Section 714, Training for all Teachers Program. Section 714 of the bill would amend section 7142 of the ESEA (Training for all Teachers Program) to provide LEAs with additional professional development. This change would provide greater focus to the activity since the current statute covers both in-service and preservice programs. The Secretary would be authorized to award grants to LEAs or to one or more LEAs in consortium with one or more institutions of higher education, SEAs, or nonprofit organizations. This change would help ensure that the professional development supported by the grant directly addresses the staffing needs of one or more LEAs.

Section 714 of the ESEA would be further amended to reduce the grant period from 5 to 3 years, thus easing the program to assist a greater number of communities. Also, funded professional development activities would be required to be of high-quality and long-term in nature, thus no longer could they be simply a few weekend seminars. The list of allowable activities would be expanded to, among other things, include in-service training, clarifying that grantees may use grants to cover the costs of coaching by teachers experienced in serving limited English proficient students for teachers preparing to serve LEAs, and support for teacher use of education technologies. The proposed amendments reflect current research findings on effective professional development.

Section 715, Bilingual Education Teachers and Personnel Grants. Section 715 of the bill with Limited English Proficiency’’, and to whom the Clearinghouse should be administered as an adjunct to the Educational Resources Information Center Clearinghouse system to develop a data and monitoring system, and develop, maintain, and disseminate a listing of bilingual education professionals.

Section 711 of the bill would amend section 7136 of the ESEA (Instructional Materials) to expand the current authorization for LEAs to develop bilingual instructional materials with limited English proficient students. The proposed amendment recognizes that instructional materials may be needed in languages other than those listed interstate and that materials may be needed to prepare parents to become more involved in the education of their children.

Section 712 of the bill would also require the Secretary to give priority to applications for developing instructional materials in languages indigenous to the United States or to the outlying territories and for developing and evaluating instructional materials that reflect challenging State and local content standards, in collaboration with the Department.

Section 713. Purpose of Subpart 3. Section 713 of the bill would amend section 7141 (Purpose) of Subpart 3 (Professional Development) of Part A of the Title to eliminate a reference to dissemination of information. This activity is not directly related to professional development.

Section 714, Training for all Teachers Program. Section 714 of the bill would amend section 7142 of the ESEA (Training for all Teachers Program) to provide LEAs with additional professional development. This change would provide greater focus to the activity since the current statute covers both in-service and preservice programs. The Secretary would be authorized to award grants to LEAs or to one or more LEAs in consortium with one or more institutions of higher education, SEAs, or nonprofit organizations. This change would help ensure that the professional development supported by the grant directly addresses the staffing needs of one or more LEAs.
May 27, 1999

CONGRESSIONAL RECORD—SENATE

11439

would amend section 7143 of the ESEA (Bilingual Education Careers, Grants) to limit grants to institutions of higher education for preservice professional development. This change would provide greater clarity since the current statute covers both inservice and preservice professional development.

Also, section 7143(c) of the bill would add a new subsection requiring that funds be used to put in place a course of study that prepares teachers to serve limited English proficient students, integrate course content related to meeting the needs of limited English proficient students into all programs for prospective teachers, assign tenure and faculty to train teachers to serve limited English proficient students, incorporate State content and performance standards into the institution’s coursework, and expand clinical experiences for participants. The new subsection would also authorize grantees to use funds for such activities as supporting partnerships with LEAs, restructuring high-need bilingual education career ladder programs, and assisting other institutions of higher education to improve the quality of relevant professional development programs and expanding recruitment and retention efforts for students who will participate in relevant professional development programs.

The proposed amendments recognize that all prospective teachers should have a basic understanding of effective methods for serving limited English proficient students. Because of the rapid growth in this population, all teachers can expect to have limited English proficient students in their classrooms at some point in their teaching career. So, it is also important to recognize the importance of creating a closer link between schools of education that produce new teachers and the schools that hire them.

Section 716. Bilingual Education Career Ladder Program. Section 716 of the bill would amend section 7144 of the ESEA (Bilingual Education Career Ladder Program) to authorize grants to a consortia of one or more institutions of higher education and one or more institutions of higher education and one or more SEAs or LEAs to develop and implement bilingual education career ladder programs. A bilingual education career ladder program would be a program designed to provide high-quality, pre-baccalaureate coursework, preservice and inservice training, and pre-doctoral level fellowships for teachers who do not have a baccalaureate degree and that would lead to timely receipt of a baccalaureate degree and certification or licensure of program participants as bilingual education teachers or other educational personnel who serve limited English proficient students. Recipients of grants would be required to coordinate with programs under title II of the Higher Education Act of 1965, and other relevant programs, for the enrollment of bilingual students in postsecondary programs to train them to become bilingual educators, and make use of all existing sources of student financial aid before using grant funds to pay tuition and stipends for participating students.

Also, section 716(d) of the bill would amend section 7144 of the ESEA (Special Considerations) to eliminate the current special considerations and require the Secretary, instead, to give special consideration to applicants training students in English as a second language, including developing proficiency in the instructional use of English and, as appropriate, a second language in classrooms for English learners.

Section 717. Graduate Fellowships in Bilingual Education Program. Section 717 of the bill would amend section 7145(a) of the ESEA (Graduate Fellowships) in Bilingual Education Program, to eliminate the authorization for fellowships at the post-doctoral level and the requirement that the Secretary make a specific number of fellowships available in given areas. Masters and doctoral level fellowships are more likely to provide a direct benefit to classroom instruction than fellows at the post-doctoral level.

Section 718. Applications for Awards under Subpart 3. Section 718 of the bill would amend section 7146 of the ESEA (Applications for Awards) in order to ensure that institutional and governmental agencies must review and submit written comments on all applications for professional development grants, with the exception of those for fellowships, to the Secretary.

Section 719. Evaluations under Subpart 3. Section 719 of the bill would amend section 7149 of the ESEA (Program Evaluations) to reduce the number of annual evaluation and to clarify evaluation requirements. The purpose of these proposed amendments is to increase project accountability and ensure that the evaluation component of grants that are required to address performance goals established under the G-PR.

Section 720. Transition. Section 720 of the bill would amend section 7149 of the ESEA (Transition) to provide that a recipient of a grant under subpart 1 of Part A of this title that is in its third or fourth year of the grant period on the date of enactment of the Education Excellence for All Children Act of 1999 shall be eligible to receive continuation funding under the terms and conditions of the original grant.

EMERGENCY IMMIGRANT EDUCATION PROGRAM

Section 721. Findings of the emergency immigrant Education Program. Section 721 of the bill would amend section 7301 (Findings and Purpose) of Part C (Emergency Immigrant Education Program) of Title VII of the ESEA to add an additional finding to better justify the program.

Section 722. State Administrative Costs. Section 722 of the bill would amend section 7302 of the ESEA (State Administrative Costs) to authorize States to use up to 2 percent of their allocation under Part C to pay for administrative costs incurred in implementing the program. This would make it possible for States to use greater focus to the activity since the current statute is insufficient to cover the costs associated with implementation.

Section 723. Competitive State Grants to Local Educational Agencies. Section 723 of the bill would amend section 7304(e)(1) of the ESEA to eliminate the $50 million appropriations trigger on, and the 20 percent cap for, allowing States each year to reserve funds from their program allotments and award grants, on a competitive basis, to LEAs with the State. This change reflects current budget policy so as to provide States the opportunity to allow LEAs to compete for funds.

Section 724. Authorization of Appropriations for Part C. Section 724 of the bill would amend section 7309 of the ESEA (Authorizations of Appropriations) to authorize the appropriation of such sums as may be necessary for each of fiscal years 2000 through 2005 to carry out Part C of Title VII.

GENERAL PROVISIONS

Section 725. Definitions. Section 725 of the bill would amend section 7501 (Definitions) of Part E (General provisions) of Title VII of the ESEA, including the definition of ‘‘reclassification rate,’’ a term used in the proposed amendments to the Applications and Evaluations sections of Subpart 1 of Part C of Title VII of the ESEA. The term would mean the annual percentage of limited English proficient students who have met the State criteria for no longer being considered limited English proficient. Also, the term ‘‘Emergency Immigrant Education Program,’’ would be eliminated.

Section 726. Regulations, Parental Notification, and Use of Paraprofessionals, Section 726 of the bill would amend section 7502 (Regulations and Notification) of Part E to add requirements for projects funded under subpart 1 of Part A of the title relating to parental notification and the use of instructional staff who are not certified in the field in which they teach. Section 726(1) of the bill would amend the section heading to read: ‘‘REGULATIONS, PARENTAL NOTIFICATION, AND USE OF PARAPROFESIONALS.’’

Section 726(2) of the bill would amend section 7502(b) (Parental Notification) of the ESEA by making conforming amendments in paragraphs (1)(A) and (2)(A) of the subsection and amending paragraph (2)(A) of the subsection to change the paragraph heading to ‘‘Option to Withdraw’’ and to require a recipient of funds under Part A to provide a written notice to parents of children who will participate in the programs under that subpart, in a form and language understandable to the parent, that informs them that they may withdraw their child from the program at any time.

Section 726(3) of the bill would add a new subsection (c) to require that, on the date of enactment of the Educational Excellence for All Children Act of 1999, all new staff hired to provide academic instruction in programs supported under Part A, Subpart 1, will be in accordance with the requirements of section 1112(c) of the ESEA, relating to the employment of paraprofessionals. These amendments are designed to lead to an improvement of the professional skills of instructional staff providing services to limited English proficient students.

Section 727. Terminology. Section 727 of the bill would amend subparts 1 and 2 of Part A and section 7501(6) of the ESEA to conform the terminology to bilingual alternative instruction programs to instructional programs for children and youth with limited English proficiency.

Section 728. Repeals. Section 728 of the bill would repeal current sections 7112, 7117, 7119, 720, 721, 7147 and Part B of Title VII of the ESEA.

Section 7112 would no longer be needed since the authorized activity would be consolidated with the activity authorized by section 7113.

Section 7117 (Intensified Instruction), 7119 (Subgrants), 7210 (Priority on Funding), and 7211 (Coordination) of the ESEA would be repealed since these sections repeat language appearing elsewhere in the statute or cover situations that are unlikely to occur.

Section 7117 (Program Requirements) of the bill would be repealed because it requires that all professional development grants assist educational personnel in meeting State and local certification requirements, and no longer provides requirements that are the same as those of all of the authorized professional development activities.

Part B of Title VII of the ESEA would be moved from new Part I of Title X of the ESEA.

Section 729. Redesignations and Conforming Amendments. Section 731 of the bill would
provide for the redesignation of various sections of the ESEA and for conforming references to those redesignations to other sections of the ESEA that have been changed.

TITLe VIII—IMPACT AID

Title VIII of the bill would amend Title VIII of the ESEA, which authorizes the Impact Aid Program. Section 801, purpose [ESEA, § 8001]. Section 801 of the bill would amend section 8001 of the ESEA so that the purpose of the Impact Aid Program is to provide assistance to those LEAs that are financially burdened as a result of activities of the Federal Government located in their jurisdictions, in order to help those LEAs provide educational services to their children, including federally connected children, so that they can meet challenging State standards. This will provide a succinct statement of the program’s purpose, as is typical of other programs, in place of the statement in the current statute, which is overly long and which refers to certain categories of eligibility that other provisions of the bill would repeal.

Section 802, payments relating to Federal acquisitions of property [ESEA, § 8002]. Section 802 of the bill would amend section 8002 of the ESEA, which authorizes the Secretary to partially compensate certain LEAs for revenue lost as a result of the presence of non-Federal property, such as a military base or a national park, in their jurisdictions. The amendments made by section 802 would better target funds on the LEAs most burdened by the presence of Federal property, so that appropriations for section 8002, which are not warranted under current law, may be justified in the future.

Section 802(a)(1) of the bill would delete unneeded language in section 8002(a) of the ESEA that refers to the fiscal years for which payments under section 8002 are authorized. That issue is fully covered by the authorization of appropriations in section 8014 of the ESEA.

Section 802(a)(2) would delete an alternative eligibility criterion (current section 8002(a)(1)(C)(ii)), which was enacted to benefit a particular LEA and would add a requirement that the Federal property claimed as property under section 8002(b)(3) be assessed at a value of all real property in the LEA. (The current statutory requirement that Federal property must be assessed at at least 10 percent of the total assessed value of all real property in the LEA. (The current statutory requirement that Federal property must be assessed at at least 10 percent of the total assessed value of all real property in the LEA. (The current statutory requirement that Federal property must be assessed at at least 10 percent of the total assessed value when the Federal Government acquired it would be retained.) The new provision will ensure that payments under section 8002 are made only to LEAs in which the presence of Federal property continues to have a significant effect on the local tax base.

Section 802(b) would repeal subsections (d) through (g) and (i) through (k) of section 8002. Each of these provisions was enacted for the benefit of a single LEA (or a limited number of LEAs) and describes a situation in which the Secretary, from Federal property, would not provide funds to LEAs that legitimate, discussed above, that Federal property constitute at least 10 percent of the current assessed value of all real property in the LEA. This phaseout would occur over a reasonable period for these LEAs to adjust to the loss of their eligibility, while making more funds available to those LEAs whose local tax bases continue to be affected by the presence of Federal property.

Section 802(d) would make minor conforming amendments to section 8002(b)(1).

Section 803, payments for eligible federally connected children [ESEA, § 8003]. Section 803(a)(1) of the bill would amend the list of categories of children who may be counted as eligible students under section 8003(a), by deleting the various categories of so-called "(b)" children, whose attendance at LEA schools imposes a much lower burden that does not warrant Federal compensation. As amended, these payments would be made on behalf of approximately 300,000 "(a)" students throughout the Nation, i.e.,: (1) children of Federal employees who both live and work on Federal property; (2) children of military personnel (and other members of the uniformed services) living on Federal property; (3) children living on Indian lands; and (4) children of foreign military officers living on Federal property.

Section 803(a)(2) would conform the statement of purposes of section 8003(a) to reflect the elimination of "(b)" students from eligibility.

Section 803(a)(3) would delete section 8003(a)(2)(A) and each clause which relates to categories of children whose eligibility would be ended under paragraph (1).

Section 803(b)(1)(B) would delete the requirement that an LEA have at least 100 eligible students or that those students constitute at least three percent of its average daily attendance in order to receive a payment. Thus, any LEA with "(a)" children would qualify for a basic support payment.

Section 803(b)(1)(D) would amend section 8003(b)(1)(C) (which would be redesignated as subparagraph (B) to delete two of the four options for determining an LEA’s local contribution rate) to include a measure of the amount or proportion of funds that are provided at the local level.

Section 803(b)(1)(E) would add a new subparagraph (C) to section 8003(b)(1) to provide that, generally, local contribution rates would be determined using data from the third preceding fiscal year. This is the most recent fiscal year for which satisfactory data on average per-pupil expenditures are usually available.

Section 803(b)(2)(B) would amend section 8003(b)(2)(B), which describes how the Secretary computes each LEA’s “learning opportunity threshold” (LOT), a factor used in determining actual payment amounts when sufficient funds are not available, as is the norm, to pay the maximum statutory amount. Under current law, an LEA’s LOT would be computed by adding the percentage of its students who are federally connected and the percentage that its maximum payment is of the total amount of funds from LEAs that have a greater need, based on the statutory criteria.

Section 803(f) would add Section 8003(f) of the ESEA, which authorizes additional payments to LEAs on behalf of children with disabilities, to conform to the deletion of “(b)” children from eligibility for basic support payments, and to reflect the fact that these children receive services in early intervention services, rather than a free appropriate public education, under the Individuals with Disabilities Education Act. Section 803(e) would delete the “hold-harmless” provisions relating to basic support payments in section 8003(e) of the ESEA. By guaranteeing that certain LEAs continue to receive a high percentage of the amounts they received in prior years, without regard to current circumstances, these provisions inappropriately divert a substantial amount of funds from LEAs that truly have a greater need, based on the statutory criteria.

Section 804(a) would amend section 8004(a) of the ESEA, which authorizes payments to LEAs on behalf of children with disabilities, to conform to the deletion of “(b)” children from eligibility for basic support payments, and to reflect the fact that these children receive services in early intervention services, rather than a free appropriate public education, under the Individuals with Disabilities Education Act.

Section 804(b) would delete section 8004(b)(3), which provides an unwarranted benefit to a particular State in which there is only one LEA by requiring the Secretary to treat each of the Southwest districts of that LEA as if they were individual LEAs. As with other LEAs (many of which have more students than the State in question and that also have internal administrative districts), this LEA’s eligibility for a payment, and the amount of any payment, should be determined with regard to the entire LEA, not its administrative units.

Section 805(a) would make a technical amendment to section 8005(a) of the ESEA, which generally requires the use of data from the immediately preceding fiscal year in making determinations under section 8003, to reflect the addition of section 8003(b)(1)(C), which provides for the use of data from the third preceding fiscal year in determining LEA local contribution rates.

Section 805(b) would amend section 8005(b) of the ESEA, which authorizes additional payments to LEAs on behalf of children with disabilities, to conform to the deletion of “(b)” children from eligibility for basic support payments, and to reflect the fact that these children receive services in early intervention services, rather than a free appropriate public education, under the Individuals with Disabilities Education Act.
Constitution at least 40 percent of the LEA’s enrollment would have to have a tax rate for general-fund purposes that is at least 100 percent of the average tax rate of comparable LEAs in the State. Any LEA whose boundaries are the same as those of a military installation is also excluded. Second, the LEA would have to be exercising due diligence to obtain financial assistance from the State and from other sources. Third, the State would have to make State aid available to the LEA on at least as favorable a basis as it does to other LEAs.

Section 804 would replace the highly complicated provisions of current law relating to the computation of payment amounts for heavily impacted LEAs, including its multiple formulas, with a single formula that, for each eligible LEA, would factor in pupil expenditures, the number of its federally connected children, the amount available to it from other sources for current expenditures, and the amount of basic support payments it receives under section 8003(b) and the amount of supplemental payments for other programs (other than Impact Aid funds) that provide a substantial increase in attendance of children who it serves under Title I. Finally, an LEA would have to comply with the parental involvement provisions of Title I and must demonstrate that it can provide its share of the costs of an Assistance Program. An LEA that serves Indian children.

Section 806 of the bill would authorize payments to LEAs with sudden and substantial increases in attendance of Indian children. This authority has never been used and is not now needed by any LEA. The bill makes a technical amendment to section 8009 of the ESEA to correct a clerical error.

Subsection (a) of section 8007 would authorize payments to LEAs with sudden and substantial increases in attendance of Indian children. This authority has never been used and is not now needed by any LEA. The bill makes a technical amendment to section 8009 of the ESEA to correct a clerical error.
ties, to increase educational achievement of demonstration programs and related activities, and formula grants to LEAs, as well as certain educational and culturally related academic purposes in sections 9101 and 9102 of the ESEA by changing references to the "special education for Indian children" in the ESEA.

Section 905. Authorized services and activities. Section 905 of the bill would make a conforming amendment to section 9122(b)(5) of the ESEA to reflect the renumbering of the Perkins Act by P.L. 105–332. Section 905(c) would add four activities to the examples of authorized activities in section 9122(b)(5) of the ESEA, which allows consortia of eligible LEAs to apply for assistance for a variety of projects, selected on a competitive basis, to develop, test, and demonstrate the effectiveness of services and activities that improve opportunities for Indian children. In particular, the bill would amend section 9122(d)(2), relating to project applications, to: (1) clarify that certain applications may not apply in the case of applicants for dissemination grants under subsection (d)(1)(D); and (2) require applications for planning, pilot, and demonstration projects to include information demonstrating that the program is either a research-based program or that it is a research-based program that has been modified to be culturally appropriate for the students who will be served, as well as a description of how the applicant will incorporate the proposed services into the ongoing school program once the grant period is over.

Section 910. Professional development. Section 910 of the bill would amend section 9122 of the ESEA, which authorizes grants for professional development, by clarifying the term "Indian," which is defined to include American Indian and Alaska Native students to students who are enrolled in a program of instruction in which they can serve Indian peoples. Section 910(1) of the bill would repeal section 9122(e)(2) of the Act, which authorizes professional development projects to include information demonstrating that the program is either a research-based program or that it is a research-based program that has been modified to be culturally appropriate for the students who will be served, as well as a description of how the applicant will incorporate the proposed services into the ongoing school program once the grant period is over.

Section 910(2) would amend section 9122(h)(1), which requires individuals who receive training under section 9122 to perform related work that benefits Indian people or repay the assistance they received, so that it would continue to apply to preserve training, but would not apply to in-service training. Individuals receiving in-service training are already serving Indian people, and that training is relatively inexpensive to the taxpayers, is generally of short duration, and frequently does not involve an established per-person cost of participating, such as the substantial tuition and fees that are charged for students enrolled in degree courses and programs.

Section 910(3) of the bill would add to section 9122 a new authority for grants to consortia of eligible LEAs to support a schoolwide program under Title I of the ESEA, as is permitted by section 9118(b). Under the amendment, the parent committee would have to determine that using program funds in that manner would enhance, rather than simply not diminish, the ability of culturally related activities to improve opportunities for American Indian and Alaska Native students.
that awards a degree in education, or either or both, along with or for more tribal schools, tribal educational agencies, or LEAs serving Indian children. This new authority will help ensure that classroom teachers are aware of, and responsive to, the unique needs of the Indian children they teach.

Section 911, repeal of authorities (ESEA, §§9152, 9124, 9125, and 9131). Section 911 of the bill would repeal various sections of Part A of Title IX of the ESEA that have not been recently funded and for which the Administration is not requesting funds for fiscal year 2000. The goals of these provisions (fellowships for Indian students, gifted and talented education, tribal administrative planning, and adult education) are more effectively addressed through other programs. Because Subpart 3 of Part A would be repealed, section 911 would also redesignate the remaining subparts.

Section 912, Federal administration (ESEA, §§9152 and 9153). Section 912 of the bill would make technical amendments to sections 9152 and 9153 of the ESEA. Section 912 would repeal Subpart 3 and the redesignation of the remaining subparts.

Section 913, Authorizations of Appropriations (ESEA, §9162). Section 913 of the bill would amend section 9162 of the ESEA to authorize appropriations for the Indian education program under Part A of Title IX of the ESEA through fiscal year 2000.

Part B—Native Hawaiian Education Act

Sec. 921, Native Hawaiian Education. Section 901 of the bill would amend Part B of title IX of the ESEA in order to replace a series of categorical programs serving Native Hawaiian children and adults with a single, more flexible authority to accomplish those purposes. In addition to technical and conforming changes, section 901 of the bill would repeal sections 9204 through 9210 of the ESEA. In place of the repealed sections, section 901 of the bill would insert a new section 9204 of the ESEA that would permit all of the types of activities currently carried out under the program to continue. However, it would give the Department more flexibility in operating the program in a manner that meets the educational needs of Native Hawaiian children and adults.

Proposed new section 9204 (‘‘Program Authorized’’) of the ESEA would authorize the new Native Hawaiian Education program. Proposed new section 9204(a) would authorize the Secretary to award grants or enter into contracts with, Native Hawaiian educational organizations, Native Hawaiian community-based organizations, public and private nonprofit organizations, agencies, or institutions that have experience in developing Native Hawaiian programs of instruction in the Native Hawaiian language, and consortia of these organizations, agencies, or institutions in order to carry out Native Hawaiian Education programs.

Permissible Native Hawaiian Education programs under Part B of Title IX of the ESEA would include: (1) the operation of one or more councils to coordinate the provisions of education and related services and programs; (2) the development, implementation, and operation of family-based education centers; (3) activities to enable Native Hawaiian teachers to enter and complete programs of postsecondary instruction; (4) activities that address the special needs of gifted and talented Native Hawaiian students; (5) activities to meet the special needs of Native Hawaiian students; (6) the development, implementation, and operation of academic and vocational curricula to address the needs of Native Hawaiian children and adults, including curriculum materials in the Hawaiian language and mathematics and science curricula that incorporate Native Hawaiian tradition and culture; (7) the operation of community-based learning centers that address the needs of Native Hawaiian children and adults; (8) activities that address the special needs of Native Hawaiian children and adults; (9) activities that address the special needs of gifted and talented Native Hawaiian children and adults; (10) the development, operation, and implementation of programs to improve the quality of elementary and secondary education; (11) the development, operation, and implementation of programs to foster student community service, encourage responsible citizenship; and improve academic learning; (12) the identification and recognition of exemplary schools and programs, such as Blue Ribbon Schools; (13) activities to study and implement strategies for creating smaller learning communities; (14) programs under section 2004 of the bill to promote family involvement in education; and (15) other programs that meet the purposes of this section.

Proposed new section 1001(c) of the bill would amend section 1001(c) of the ESEA to require an applicant for an award to establish clear goals and objectives for its project and describe the activities it will carry out in order to meet these goals and objectives. It would also require recipients of funds to report to the Secretary such information as may be necessary to assess the effectiveness of all funded programs can be fully assessed. This language is also aligned with the performance indicators in the PIH plan under GPRA.

This section of the bill would also allow the Secretary to require recipients of awards under this project to provide matching funds or other resources, and to limit competitions to particular types of entities, such as State or local educational agencies.

Section 1001(d) of the bill would amend section 1001(d) of the ESEA to authorize such sums as may be necessary to carry out this part through fiscal year 2005. Section 1001(e) of the bill would redesignate section 10101(d) of the ESEA as section 10101(e) and add a new requirement that each recipient of a grant under this section to submit a comprehensive evaluation on the effectiveness of its program in achieving its goals and objectives, including the impact of the program on students, teachers, administrators, and parents, to the Secretary by the mid-point of the program, and no later than one year after completion of the program.

Section 1002 of the bill would repeal section 10102 of the ESEA. Section 1003(3) of the bill would make substantial changes to section 10103 of the ESEA, relating to Character Education. It would preserve for matching programs most of the current provisions by removing the limit of 10 character education grants per year and maximum award of $1 million to SEAs, and instead authorize the Secretary to make up to 5-year grants to SEAs, LEAs, or consortia of educational agencies for the design and implementation of character education programs. These programs would be required, in addition to the applicant’s overall reform efforts, performance standards, and activities to improve State performance standards, and to promote the achievement of America’s Education Goals.

Section 1001(a) of the bill would amend section 1001(a) of the ESEA to emphasize that the Fund for the Improvement of Education (FIE) may be used to improve elementary and secondary education.

Section 1001(b) of the bill would amend section 10101(b) of the ESEA to strengthen the program by focusing the authorized use of funds more narrowly. Authorized activities would include: (1) development, evaluation, and implementation of secondary education; (2) the development, implementation, and evaluation of programs designed to foster student community service, encourage responsible citizenship; and improve academic learning; (3) the identification and recognition of exemplary schools and programs, such as Blue Ribbon Schools; (4) activities to study and implement strategies for creating smaller learning communities; (5) programs under section 2004 of the bill to promote family involvement in education; and (7) other programs that meet the purposes of this section.

Section 1001(b)(1) of the bill would authorize the appropriation of such sums as may be necessary for each of the fiscal years 2001 through 2005 to carry out Part B of Title IX of the ESEA.

Part C—Alaska Native Education

Sec. 931, Alaska Native Education. Section 902 of the bill would amend Part C of title IX of the ESEA in order to replace a series of categorical programs serving Alaska Natives with a single, more flexible authorization to accomplish those purposes. In addition to technical and conforming changes, section 902 of the bill would repeal sections 9304 through 9306 of the ESEA. In place of the repealed sections, section 902 of the bill would insert a new section 9304 of the ESEA that would permit all of the types of activities currently carried out under the program to continue. However, it would give the Department more flexibility in operating the program in a manner that meets the educational needs of Alaska Native children and adults.

Proposed new section 9304 (‘‘Program Authorized’’) of the ESEA would authorize the new Alaska Native Education program. Proposed new section 9304(a) would authorize the Secretary to make grants to, or enter into contracts with, Alaska Native organizations, educational entities with experience in developing or operating Alaska Native programs or programs of instruction conducted in Alaska Native languages, and to consortia of these organizations and entities in order to carry out programs that meet the purposes of this part.

The activities that would be carried out under this section include the development and implementation of plans, methods, and strategies to improve the education of Alaska Natives; (2) development of curricula and educational programs to address the educational needs of Alaska Native students; (3) professional development activities for educators; (4) the development and operation of home instruction programs for Alaska Native preschool children; (5) the development and operation of student enrichment programs in science and mathematics; (6) research and data-collection activities to determine the educational status and needs of Alaska Native children and adults; and (7) other activities, consistent with the purposes of this part, the educational needs of Alaska Native children and adults.

Proposed new section 9304(b) of the ESEA would authorize the appropriation of such sums as may be necessary for each of the fiscal years 2001 through 2005 to carry out Part C of Title IX of the ESEA.

TITLE X—PROGRAMS OF NATIONAL SIGNIFICANCE

Section 1001. Fund for the Improvement of Education. Section 1001 of the bill provides for matching grants to SEAs, LEAs, or consortia of educational agencies for the design and implementation of character education programs. These programs would be required to improve elementary and secondary education; to assist students to meet challenging State content standards and challenging State performance standards, and to promote the achievement of America’s Education Goals.
school climate. Allowing LEAs and consortia of educational agencies to apply for grants to implement innovative programs in school districts where the State is not interested in making an application.

Section 1001(3) of the bill would also streamline the application requirements under current law. The application would include: (1) a description of any partnership and other collaborative effort between the applicant and other educational agencies; (2) a description of the program’s goals and objectives; (3) a description of activities to be carried out; and (4) a description of how the programs will be linked to broader educational reforms being instituted by the applicant and applicable State and local standards for student performance; (5) a description of how the applicant will evaluate its progress in meeting its goals and objectives; and (6) such other information as the Secretary may require.

Finally, section 1001(3) of the bill would require the Secretary to make awards that serve different areas of the Nation, including urban, suburban, and rural areas.

Section 1001(4) of the bill would redesignate section 10103 of the ESEA, as amended by section 1001(3), as section 10102, and add a new section 10103 of the ESEA. Specifically, proposed new section 10103 (‘‘State and Local Character Education Program’’) of the ESEA would authorize a new program, under which the Secretary could make awards to SEAs, LEAs, institutions of higher education (IHEs), tribal organizations, and other public or private agencies to carry out research, development, dissemination, technical assistance, and evaluation activities that support character education programs under new section 10102 of the ESEA.

Proposed new section 10103(b) of the ESEA would authorize funds under this section to be used to: (1) conduct research and development activities; (2) provide technical assistance to the agencies receiving awards under the program, particularly on matters of program evaluation; (3) conduct a national evaluation of the character education program; and (4) disseminate information on model character education programs, character education materials and curricula, research findings in the area of character education, and other information that would be useful to character education program participants, and to other educators and administrators, nationwide.

Section 1001(5) of the bill would repeal sections 10104, 10105, 10106, and 10107 of the ESEA.

Section 1002. Gifted and Talented Children. Section 1002 of the bill would authorize and make minor improvements to Part B of Title X of the ESEA, which provides financial assistance to support educational reform by strengthening arts education reform by strengthening arts education, and urban and rural areas of the United States.

Section 1003. International Education Exchange. Section 1003 of the bill would: (1) move the International Education Exchange program from Title VI of the Goals 2000: Educate America Act (P.L. 103–227) to Part C of Title X of the ESEA; (2) authorize the appropriation of such sums as may be necessary to carry out the Gifted and Talented Children program through fiscal year 2005; and (3) add the Republic of Ireland, Northern Ireland, and any other emerging democracy in a developing country to the definition of democracy in the ESEA.

Section 1004. Arts in Education. Section 1004 of the bill would authorize and streamline Part D of Title X of the ESEA, which provides financial assistance to support educational reform by strengthening arts education as an integral part of the elementary and secondary school curriculum.

Section 1005. Inexpensive Book Distribution Program. Section 1005 of the bill would strike out the heading and designation of Subpart 1 of Part D of Title X of the ESEA.

Section 1006. Civic Education. Section 1006 of the bill would amend section 1006 of the ESEA, by adding a new authorized activity, model arts and cultural programs in the arts for at-risk children and youth, particularly programs that use arts and culture as a way of broadening academic progress, to the list of authorized activities of the Arts in Education program.

Section 1007. Allen J. Ellender Program. Section 1007 of the bill would repeal Part G of Title X of the ESEA.

Section 1008. 21st Century Community Learning Centers. Section 1008 of the bill would authorize and improve Part I of Title X of the ESEA, which authorizes grants to urban and rural public schools to plan, implement, or expand projects that benefit the educational, health, social service, cultural, and recreational needs of a rural or inner-city community. Section 1008 of the bill would amend section 1009(b) of the ESEA to change the eligibility applicant for a grant under this part from a school to an LEA (which would apply on behalf of one or more communities) or a community-based organization. This provision of the bill would also add a new requirement that the applicant provide information that it will provide at least 50 percent of the cost of the project from other sources, which may include other Federal funds and may be provided in cash or in kind, fairly evaluated. The bill would also add a new requirement to section 1004 of the ESEA to change the duration of grants awarded under this part from 3-years to 5-years.

Section 1009 of the bill would amend section 10104 of the ESEA to change the eligibility of applicant for a grant under this part from a school to an LEA (which would apply on behalf of one or more communities) or a community-based organization. This provision of the bill would also add a new requirement to section 1004 of the ESEA to change the duration of grants awarded under this part from 3-years to 5-years.

Section 1009 of the bill would amend section 1009(a) of the ESEA to authorize the appropriation of such sums as may be necessary to carry out the Gifted and Talented Children program through fiscal year 2005; and (3) add the Republic of Ireland, Northern Ireland, and any other emerging democracy in a developing country to the definition of democracy in the ESEA.
Section 1008 (6) of the bill would amend section 10907 of the ESEA to authorize the appropriation of such sums as may be necessary to carry out this part through fiscal year 2005.

Proposed new section 10908 (‘‘Authorization of Appropriations’’) of the ESEA would authorize the appropriation of such sums as may be necessary for fiscal years 2001 through 2005 to carry out Part H.

Proposed new section 10909 (‘‘Applicants’’) would require that the application to the Secretary at such time, in such form, and containing such information and certifications that are required by this part, and identifying the components of the educational reforms that would have to be carried out in those schools in order to attain those outcomes.

Proposed new section 10910 (‘‘High School Reform. ’’) of the ESEA would authorize the Secretary to use funds appropriated under this part to make grants to local educational agencies (but not a CBO) to provide for the further development of educational reforms, designed specifically for high schools, that help students meet challenging educational standards, and that increase connections between students and adults and provide safe learning environments; (3) would include performance data on the academic achievement of students from low-income families; (2) support the further development of educational reforms, designed specifically for high schools, that help students meet challenging educational standards, and that increase connections between students and adults and provide safe learning environments; (3) would include performance data on the academic achievement of students from low-income families; (2) support the implementation of reforms in at least 5,000 American high schools by the year 2007.

Proposed new section 10903 (‘‘Grants to LEAs to Implement High School Reform. ’’) of the ESEA would authorize the Secretary to make competitive grants to LEAs to carry out the program purposes in their high schools. Sub-section (b) would establish a maximum grant period of three years for each grant. Sub-section (c) would provide that a particular high school could not be assisted by more than one grant. An LEA could thus serve one or more of its high schools with one grant and one or more different high schools with a subsequent grant.

Proposed new section 10803 (‘‘Applicants’’) of the ESEA would require that the application to the Secretary at such time, in such form, and containing such information and descriptions that are required by this part.

Proposed new section 10804 (‘‘Selection of Grantees’’) of the ESEA would establish the procedures and criteria the Secretary would use in making grants.

Proposed new section 10805 (‘‘Principles and Components of Educational Reforms’’) of the ESEA would describe the outcomes that the Secretary expects the program to achieve, and would identify the components of the educational reforms that would have to be carried out in those schools in order to attain those outcomes.

Proposed new section 10806 (‘‘Private Schools’’) of the ESEA would provide for the equitable participation of personnel from private schools in any professional development carried out with Part H funds. A grantee that uses Part H funds to develop curricular materials would also be required to make those materials available to private schools at their request.

Proposed new section 10807 (‘‘Additional Activities’’) of the ESEA would direct the Secretary to reserve funds from each year’s appropriation for Part H to carry out certain activities relating to the program’s purpose, including testing the effect of offering financial rewards to teachers and administrators in high schools if their students demonstrate significant gains in educational outcomes.

Proposed new section 10808 (‘‘Definition’’) of the ESEA would change the term ‘‘high school’’ as used in part H. Finally, proposed new section 10809 (‘‘Authorization of Appropriations’’) of the ESEA would authorize the appropriation of such sums as may be necessary for fiscal years 2001 through 2005 to carry out Part H.

Proposed new section 10902(b)(1) would require that grants to LEAs under this section be used for activities to develop and implement high-quality, standards-based elementary school foreign language programs, including assistance to LEAs in the State in developing and disseminating information on promising or effective practices in elementary schools; (2) professional development for teachers and other staff; (3) partnerships with institutions of higher education to provide for the preparation of the teachers needed to implement programs under this section; (4) technical assistance to LEAs in the State in developing secondary school foreign language instruction, and to provide students with a smooth transition from secondary to elementary school foreign language programs, including testing the effect of offering financial rewards to teachers and administrators in high schools if their students demonstrate significant gains in educational outcomes.

Proposed new section 10902(b)(2) would require that grants to LEAs under this section be used for activities to develop and implement high-quality, standards-based elementary school foreign language programs, including assistance to LEAs in the State in developing and disseminating information on promising or effective practices in elementary schools; (2) professional development for teachers and other staff; (3) partnerships with institutions of higher education to provide for the preparation of the teachers needed to implement programs under this section; (4) technical assistance to LEAs in the State in developing secondary school foreign language instruction, and to provide students with a smooth transition from secondary to elementary school foreign language programs, including testing the effect of offering financial rewards to teachers and administrators in high schools if their students demonstrate significant gains in educational outcomes.

Proposed new section 10902(b)(3) would allow efforts under the fourth LEA activity described above to include special instructions for students who are learning English as a second language, and to include a description of: (1) the goals that the applicant will attempt to accomplish through the project; (2) the activities to be supported through the project; and (3) how the applicant will determine the extent to which the project meets its goals.
Proposed new section 10902(d) would authorize
the Federal share of a program under this section for each fiscal year be not more than 50 percent. The Secretary would be authorized to waive the requirement of cost sharing if the Secretary determines does not have adequate resources to pay the non-Federal share of the cost of the activities assisted under this section.

Proposed new section 10902(e) would authorize appropriations of such sums as may be necessary for fiscal year 2001 and for each of the four succeeding fiscal years for the purpose of carrying out this section. Proposed new section 10902(g)(1) would, for any fiscal year, authorize the Secretary to reserve up to five percent of the amount appropriated to: (1) conduct independent evaluations of the activities assisted under this section; (2) provide technical assistance to recipients of awards under this section; and (3) disseminate findings and methodologies from evaluations required by, or funded under, this section and other information obtained from such programs.

Section 1012. National Writing Project. Section 1012 of the bill would reauthorize and improve Part K of Title X of the ESEA, which is reauthorized as the National Writing Project for the improvement of the quality of student writing and learning, and the teaching of writing as a learning process. Section 1012 of the bill would: (1) amend section 10901 of the ESEA to update the findings; (2) amend section 10992 of the ESEA to authorize the Secretary to conduct an independent evaluation of the National Writing Project program; (3) authorize the appropriation of such sums as may be necessary to carry out his program through fiscal year 2006; and (4) make conforming changes.

Title XI—GENERAL PROVISIONS, DEFINITIONS, AND ACCOUNTABILITY

Title XI of the bill would amend Title XIV of the ESEA containing general provisions relating to the ESEA.

Section 1101. Definitions. Section 1101 of the bill would amend various provisions of Part A of Title XIV of the ESEA to: (1) amend the definition of covered program in the form; (2) add a new definition for the term “family literacy services;” and (3) make a number of cross-references changes from provisions and parts in Title IV of the ESEA to Parts and parts in Title XI of the ESEA to reflect the redesignation of Title XIV as Title XI by section 1109 of the bill. As amended, covered program means the entire Federal share of a program under Part A of Title I; Part A of Title II; Subpart 1 of Part D of Title III; Part A of Title IV (other than section 4115), the Comprehensive School Reform Demonstration Program, Title VI of the ESEA, the term “family literacy services” would mean services provided to eligible participants on a voluntary basis that are of sufficient intensity, both in hours and in the content and features of the services provided, to enable the parent and child to learn together in a family, and that integrate interactive literacy activities between parents and their children, training for parents on how to be the primary teachers for their children and full partners in the education of their children, parent literacy training leading to self-sufficiency, appropriate education to prepare children for success in school and life experiences.

Section 1102. Administrative Funds. Section 1102 of the bill would amend various provisions of: (1) Part B of Title XIV of the ESEA to: (1) revise the list of programs that are subject to the authority to consolidate administrative funds; (2) expand the list of additional uses for consolidated administrative funds; (3) clarify that local consolidated administrative funds may be used at the school district and local consolidated funding levels. Section 1102(a)(2) of the ESEA would further direct the Secretary to approve local consolidated plans for the purposes of making consolidated administrative funds available at the school district and local consolidated funding levels; and (4) make additional changes to section 1109 of the ESEA to ensure that a consolidated State plan contains, for each program included in the plan,
May 27, 1999

CONGRESSIONAL RECORD—SENATE

11447

the descriptions and information needed to ensure the effective administration of that program in accordance with its purposes. This provision is designed to strengthen the consolidated plan as an instrument of effective administration of each program included.

Proposed new section 14302(b)(2) of the ESEA would require an SEA to describe in its plan how funds under the included programs will be integrated to best serve the needs of the students and teachers intended to benefit and how such funds will be coordinated with other programs included in the plan and related programs.

Proposed new section 14302(c) of the ESEA would require an SEA to include in its consolidated State plan any information required by the Secretary under proposed new section 11912 of the ESEA regarding performance indicators, benchmarks and targets and any other indicators or measures that the State determines are appropriate for evaluating its performance.

Proposed new section 14302(d) would require an SEA that submits a description in its consolidated State plan a description of the strategies it will use to improve the State’s educational performance in order to meet the requirements of the ESEA. The Secretary would be required to establish a process to assist in the review of consolidated State plans and provide recommendations for revision. To the extent practicable, the Secretary would be directed by proposed new section 14302(e)(1) to appoint individuals who: (1) are knowledgeable about the programs and target populations; (2) are representatives of the parents of students served under the programs, and (3) have expertise on educational standards, assessment, and accountability.

Proposed new section 14302(e)(2) of the ESEA would direct the Secretary to approve a plan if it meets the requirements of the section and would authorize the Secretary to take such actions as it deems necessary to ensure proper and effective administration of the program.

Section 1103(4) of the bill would repeal section 14304 of the ESEA (Additional Coordination). Section 1103(5) of the bill would amend section 14305 of the ESEA (‘‘Consolidated Local Plans’’). Proposed new sections 14305(a) through (d) of the ESEA would clarify and define terms and they would require an SEA to include in the State plan any information regarding the State’s performance under those programs and the criteria under which an SEA must submit plans to the SEA under such programs on a consolidated basis.

Proposed new section 14305(b) of the ESEA would authorize the State to submit its consolidated State plan to the Secretary for approval. Proposed new section 14305(c) of the ESEA would make it clear that an SEA that has an approved consolidated State plan must receive funds under more than one program included in the consolidated State plan to submit consolidated local plans for such programs.

Proposed new section 14305(c)(2) of the ESEA would require an SEA to agree in writing with the Secretary to develop and implement a plan to address the needs of those students.

Section 1103(6) of the bill would make constitutional amendments to section 14306 of the ESEA (General Assurances), and section 1103(7) of the bill would repeal section 14307 of the ESEA (Relationship of State and Local Plans to Plans under the Goals 2000: Educate America Act).

Section 1104. Waivers. Section 1104 of the bill would amend section 14401 of the ESEA (Waivers). Section 1104(1) of the bill would amend section 14401(a) of the ESEA to add the Carl D. Perkins Vocational and Technical Education Act of 1998 and Subtitle B of Title VII of the Stewart B. McKinney Homeless Assistance Act as programs to which section 14401 applies. Section 1104(2) of the bill would amend section 14401(b)(1) of the ESEA to require that an SEA, LEA, or Indian tribe that desires a waiver submit an application to the Secretary. The Secretary may require such application to be submitted in a form and manner as the Secretary may reasonably require. Each such application would be required to: (1) indicate each Federal program affected and the amount of funds that would be affected; (2) describe the purpose and expected results of the waiver; (3) describe, for each school year, specific, measurable, and non-discretionary criteria that the Secretary may reasonably require. Each such application would be required to: (1) describe the Federal program affected and the amount of funds that would be affected; (2) describe the purpose and expected results of the waiver; (3) describe, for each school year, specific, measurable, and non-discretionary criteria that the Secretary may reasonably require. Each such application would be required to: (1) describe the Federal program affected and the amount of funds that would be affected; (2) describe the purpose and expected results of the waiver; (3) describe, for each school year, specific, measurable, and non-discretionary criteria that the Secretary may reasonably require.

Proposed new section 1105 of the bill would further amend section 14303(a) of the ESEA by adding a new paragraph (5) requiring the State to assure that the data the State makes available (and that of its LEAs under the ESEA) are complete, reliable, an accurate, or, if not, the State will take such steps as are necessary to make those data complete, reliable and accurate.

Section 1103(4) of the bill would repeal section 14304 of the ESEA (Additional Coordination). Section 1103(5) of the bill would amend section 14305 of the ESEA (‘‘Consolidated Local Plans’’). Proposed new sections 14305(a) through (d) of the ESEA would clarify and define terms and they would require an SEA to include in the State plan any information required under new section 14305(a), and LEAs receiving funds under more than one covered program may submit plans to the SEA under such programs on a consolidated basis. Proposed new section 14305(b) of the ESEA would authorize an SEA that has an approved consolidated State plan to require its LEAs that receive funds under more than one program included in the consolidated State plan to submit consolidated local plans for such programs.

Proposed new section 14305(c) of the ESEA would require LEAs to incorporate with the LEAs in the State in establishing criteria and procedures for the submission of the consolidated local plans. For each program included in a local consolidated plan, proposed new section 14305(d) of the ESEA would authorize the Secretary to designate the descriptions and information needed to be submitted in a local consolidated plan to ensure that each program is administered in a proper and effective manner in accordance with its purposes.

Section 1103(6) of the bill would make constitutional amendments to section 14306 of the ESEA (General Assurances), and section 1103(7) of the bill would repeal section 14307 of the ESEA (Relationship of State and Local Plans to Plans under the Goals 2000: Educate America Act).

Section 1104. Waivers. Section 1104 of the bill would amend section 14401 of the ESEA (Waivers). Section 1104(1) of the bill would amend section 14401(a) of the ESEA to add the Carl D. Perkins Vocational and Technical Education Act of 1998 and Subtitle B of Title VII of the Stewart B. McKinney Homeless Assistance Act as programs to which section 14401 applies. Section 1104(2) of the bill would amend section 14401(b)(1) of the ESEA to require that an SEA, LEA, or Indian tribe that desires a waiver submit an application to the Secretary. The Secretary may require such application to be submitted in a form and manner as the Secretary may reasonably require. Each such application would be required to: (1) indicate each Federal program affected and the amount of funds that would be affected; (2) describe the purpose and expected results of the waiver; (3) describe, for each school year, specific, measurable, and non-discretionary criteria that the Secretary may reasonably require.
to carry out the purposes of the Government and School Improvement Grant Program, work in partnership with the States to develop information relating to program performance that can be used to help achieve continuous improvement at the State, school district, and school level. Proposed new section 14701(b) of the ESEA would direct the Secretary to use reserved funds to conduct independent studies of programs under the ESEA and the effectiveness of those programs in achieving their purposes, to determine whether the programs are achieving the standards set forth in the subsection. The Secretary may, as determined appropriate, authorize the Secretary to require an applicant for funds from the ESEA in establishing performance indicators, benchmarks, and targets for each program under the Act, that will be used for the project, consistent with section 11405(b) and the purposes for which the funds will be used.

Proposed new section 11903(b) of the ESEA would require each eligible entity desiring to use funds from the ESEA for school improvement projects (including coordinated services) to submit an application to the appropriate SEA. Proposed new section 11903(b) of the ESEA would require an eligible entity that wishes to conduct a study under the ESEA to submit an application that contains: (1) the results of its assessment of economic, social, and health barriers to educational achievement experienced by children and families in the community and of the services available to meet those needs; (2) a description of the entities operating collaborative services projects and how that project addresses the health and welfare needs of migratory families. Proposed new section 11903(c) of the ESEA would provide for an independent panel to review these studies, to make clear that the authorizing provisions to other Acts (but without the substantive changes to those provisions). Finally, section 1110(b) of the bill would make appropriate redesignations and add a part heading.

Accountability. Section 1111 of the bill would amend Title XI of the Act by adding a new Part B, Improving Education Through Accountability. Proposed new section 1203 (‘‘Short Title’’) of the ESEA would establish the short title of this part as the ‘‘Education Accountability Act of 1999.’’ Proposed new section 1202 (‘‘Purpose’’) of the ESEA would set out the statement of purpose for the new part. Under proposed new section 1202, the purpose of the part would be to improve academic achievement for all children, assist in meeting America’s Education Goals under section 2 of the ESEA, promote the incorporation of challenging standards and high standards of performance, and ensure that the educational opportunities of the students that they serve.

Proposed new section 1203 (‘‘Turning Around Failing Schools’’) of the ESEA would require a State that receives assistance under the ESEA to develop and implement a statewide system for holding its LEAs and schools accountable for student performance, including a procedure for identifying LEAs and schools in need of improvement; intervening in those agencies and schools to improve teaching and learning; and implementing corrective actions, if those interventions are not effective.

Proposed new section 1204 (‘‘Student Progress and Promotion Policy’’) of the ESEA would require any State that receives assistance under the ESEA to have in effect, at the time it submits its accountability report to the Secretary, a policy that is designed to end the practices of social promotion and retention. Proposed new subsection (a)(2) would also define the terms ‘‘social promotion’’ and ‘‘retention.’’ Proposed new section 1204(b) would outline specific requirements for the State’s...
policy under subsection (a). Under proposed new section 11205 of the ESEA, it would require its LEAs to implement continuous, intensive and comprehensive educational interventions as may be necessary to ensure that all students can meet the challenging academic content and student performance standards before being promoted at three key transition points (one of which must be graduation from secondary school), as determined by the State, consistent with section 1111(b)(4) of the ESEA. It would require the SEA to examine, through the collection of appropriate data, whether LEAs and schools are ending the practices of social promotion and retention; (3) require its LEAs to provide to all students educational opportunities in classrooms with qualified teachers who use proven instructional practices that are aligned to the State’s challenging standards and who are supported by high-quality professional development; and (4) require its LEAs to use effective, research-based prevention and early intervention strategies to identify and support students who need additional help to meet those promotion standards.

Proposed new subsection (b) would also require the LEA to provide parents and the student with limited English proficiency with a full, clear, and understandable description of the students' performance, on the key transition points in their education, including, but not limited to, state content standards, reading (or language arts) and mathematics, educationally or otherwise disabled, and limited English proficiency, to the greatest extent practicable, in the language and form most likely to yield accurate and reliable information about what those students know and can do; and provide that Spanish-speaking students with limited English proficiency are assessed using tests written in Spanish, if Spanish-language assessments are more likely than English-language tests to yield accurate and reliable information on what those students know and can do.

Proposed new section 11204(c) of the ESEA would require the SEA to include in its accountability plan a detailed description of its policy under proposed new subsection (b). Additionally, a State would be required to include in its plan the strategies and steps (including timeliness and performance indicators) it will take to ensure that its policy is fully implemented no later than four years from the date of the adoption of its accountability plan. The State would also be required to address in its plan the steps that it will take to ensure that the policy will be disseminated to all LEAs and the schools in the State and to the general public.

Proposed new section 11205 ("Ensuring Teacher Quality") of the ESEA would establish, maintain, and improve teacher quality. Specifically, proposed new section 11205(a) would provide that a State that receives funds under the ESEA must have in effect, at the time it submits its accountability plan, a policy designated to ensure that there are qualified teachers in every classroom in the State, and that meets the requirements of proposed new subsection (b). Proposed new section 11205(b) of the ESEA would establish requirements for the content of the State’s policy on teacher quality. Under proposed new section 11205(b), a policy to ensure teacher quality must include the strategies that the State will carry out to ensure that, within four years from the date of the submission of its accountability plan, certain goals are met. Proposed new section 11205(b)(1) would require the State to include strategies to ensure that not less than 95% of teachers in the State are either certified, have a baccalaureate degree and are enrolled in a program, such as an alternative certification program, leading to full certification in their field within three years, or have full certification in another State and are establishing certification where they are teaching. Proposed new section 11205(b)(2) would require the State to include strategies to ensure that not less than 95% of the teachers in public secondary schools in the State have demonstrated competency in the subject area in which they teach. A State would also have to include strategies to ensure that there is no disproportionate concentration in particular school districts of teachers who are not described in paragraphs (1) and (2) of proposed new section 11205(b). Additionally, a State would be required to include in its accountability policy strategies to ensure that its certification process for new teachers includes an assessment of content knowledge and teaching skills attained by students with limited English proficiency; provide that students with limited English proficiency are assessed using the language and form most likely to yield accurate and reliable information about what those students know and can do; and provide that Spanish-speaking students with limited English proficiency are assessed using tests written in Spanish, if Spanish-language assessments are more likely than English-language tests to yield accurate and reliable information on what those students know and can do.

Proposed new section 11204(c) of the ESEA would require a State to include in its accountability plan the performance indicators and requirements it will use to assess the progress of students with disabilities and students with limited English proficiency; provide that students

include the benchmarks by which it will measure the percent of teachers in the State teaching without full licenses or credentials. Proposed new section 11205(c)(1)(B) would require a State to include the benchmarks by which it will measure the percentage of secondary school classes in core academic subject areas taught by teachers who either have a postsecondary-level academic major or minor in the subject area they teach or a related field, or otherwise demonstrate a high level of competence to teach, through rigorous tests in their academic subject.

Finally, proposed new section 11204(c)(2) of the ESEA would require a State to assure in its accountability plan that in carrying out its teacher quality policy, it would not decrease the rigor or quality of its teacher certification requirements.

Subsection (a) of proposed new section 11206 ("Sound Discipline Policy") of the ESEA would require a State that receives assistance under the ESEA; to have in effect, at the time it submits its accountability plan, a policy that would require its LEAs and schools to have in place and implement sound and equitable discipline policies, to ensure that students in every school are in a learning environment in every school. A State would also be required under section 11206(c) to include in its accountability plan an assurance that it has in effect a policy that meets the requirements of this section.

Under proposed new section 11206(b) of the ESEA, the required disciplinary policy would require LEAs and schools to implement disciplinary policies that focus on prevention and are coordinated with prevention strategies and programs under Title IV of the ESEA. Additionally, LEA and school policies would have to: apply to all students; be enforced consistently and equitably; be clear and understandable; be developed with the participation of school staff, students, and parents; be broadly disseminated; ensure that due process is provided; be consistent with applicable Federal, State and local laws; and be designed to be uniformly applied, so that all students receive appropriate disciplinary support under the ESEA, to have in effect, at the time it submits its accountability plan, a policy that requires the development and dissemination of annual report cards regarding the status of education and educational progress in the State and in its LEAs and schools. Under proposed new section 11207(a), report cards would have to be concise and disseminated in a format and manner that parents could understand, and focus on educational results.

Subsection (a) of proposed new section 11207 ("Education Report Cards") of the ESEA would require a State that receives assistance under the ESEA, to have in effect, at the time it submits its accountability plan, a policy that requires the development and dissemination of annual report cards regarding the status of education and educational progress in the State and in its LEAs and schools. Under proposed new section 11207(a), report cards would have to be concise and disseminated in a format and manner that parents could understand, and focus on educational results.

Subsection (b) of proposed new section 11207(b) of the ESEA would establish the information that, at a minimum, the State must include in its annual State-level report card. Under proposed new section 11207(b)(1), a State would be required to include information regarding state assessments, set forth on an aggregated basis, in both reading (or language arts) and mathematics, as well as any other subject area for which the State measures student performance using state assessments, set forth on an aggregated basis, in both reading (or language arts) and mathematics, as well as any other subject area for which the State measures student performance using state assessments.
Proposed new section 11207(b)(2) of the ESEA would require that student achievement data in the State’s report card contain statistically sound, disaggregated results with respect to the following categories: gender; racial and ethnic group; migrant status; students with disabilities, as compared to students without disabilities; economically disadvantaged students, as compared to students who are not economically disadvantaged; and students with limited English proficiency, as compared to students proficient in English. Under proposed new section 11207(b)(2), a State would also include in its report card any other information it determines appropriate to reflect school quality and student achievement. This could include information on: longitudinal achievement scores from the National Assessment of Educational Progress or State assessments; parent involvement, as determined by such measures as the extent of parental participation in school parental involvement; extended learning time programs, such as after-school and summer programs; and the performance of students in meeting physical education goals.

Under proposed new section 11207(c) of the ESEA, a State would be required to ensure that each LEA and each school in the State includes in its report card, at a minimum, the information required by proposed new sections 11207(b) (1) and (2). Additionally, a State would be required under proposed new section 11207(c) to require that LEAs report the number of their low-performing schools, such as schools identified as in need of improvement under section 1116(c)(1) of the ESEA, and information that shows how students in their schools performed on statewide assessments compared to students in the rest of the State (including such comparisons over time, if the information is available), and schools include in their annual report cards whether they have been identified as a low-performing school and information that shows how their students performed on statewide assessments compared to students in the rest of the LEAs and the State (including such comparisons over time, if the information is available). LEAs and schools should also include in their annual report cards the information described in proposed new section 11207(b)(3) and other appropriate information.

Proposed new section 11207(d) of the ESEA would establish requirements for the dissemination of report cards. Under proposed new section 11207(d), State-level report cards would be required to be posted on the Internet, disseminated to all schools within the State, and made broadly available to the public. LEA report cards would have to be disseminated to all their schools and to all parents of students attending those schools. Under proposed new section 11207(e) of the ESEA, a State would be required to include in its accountability plan an assurance that it has in effect an education report card policy that meets the requirements of proposed new section 11207.

Proposed new section 11208 ("Education Accountability Act") would revise the requirements of the Education Accountability Act; and (9) taking other appropriate steps, including referral to the Department of Justice for enforcement.

Proposed new section 11209(b) of the ESEA would require the Secretary to take one or more additional steps under proposed new section 11209(a) of the ESEA to bring the State into compliance if he determines that previous steps under that provision have failed to correct the State's non-compliance.

Proposed new section 11210 ("Recognition and Rewards") of the ESEA would require the Secretary to recognize and reward States that the Secretary determines have demonstrated significant, statewide achievement gains in the ESEA. Rewards could include conferring a priority in competitive programs under the ESEA, increased flexibility in administering programs under the ESEA (consistent with maintaining accountability), and supplemental grants or administrative funds to carry out the purposes of the ESEA. Proposed new section 11212 ("Construction") of the ESEA would require the Secretary to establish, in implementing this part, to disseminate information regarding best practices, and to provide technical assistance, after consulting with State and LEAs and other agencies, institutions, and organizations with experience or information relevant to the purposes of this part.

Proposed new section 11213 ("Con-struction") of the ESEA would provide that nothing in this Part may be construed as affecting the application of the civil rights laws or the Individuals with Disabilities.
Section 1112. America's Education Goals Panel. Title II of the Goals 2000: Educate America Act, would be repealed by this bill.

Section 1113. Repeal. Section 1112 of the bill would repeal Title XII of the ESEA.

TITLe XII—AMENDMENTS TO OTHER LAWS; COMPAET-IVITIES
Part A—Amendments to other laws
Section 1201. Amendments to the Stewart B. McKinney Homeless Assistance Act. Section 1201 of the bill would set forth amendments to the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11421 et seq.; hereinafter referred to in this section as the "Act"). Among other things, these amendments would improve the McKinney program by: (1) helping ensure that students are not segregated based on their status as homeless; (2) enhancing coordination at the State and local levels; (3) facilitating parental involvement; and (4) clarifying that subgrants to LEAs are to be awarded competitively on the basis of the quality of the program and the need for the assistance; and (5) enhancing data collection and dissemination at the national level. The program would also be reauthorized for five years.

Section 1201(a) of the bill would amend section 721(c) of the Act (Statement of Policy), by changing the current statement to make it clear that homelessness alone is not an insufficient reason to separate students from the mainstream school environment. This language, which is reflected in amendments that follow, makes a strong statement against segregating homeless children on the basis of their homelessness. This responds to some local actions being taken around the country to create separate, generally inferior, schools for homeless children. Homeless advocacy groups and State coordinators have strongly encouraged this action.

Section 1201(b) of the bill would amend section 722 of the Act (Grants for State and Local Activities for the Education of Homeless Children and Youth), Section 1201(b)(1) of the bill would amend sections 722(c)(2) and (3) of the Act, reserving funds for the territories and defining the term "State," to remove Palau from those provisions. Palau does not participate in the program. The administration of the Compact of Free Association was ratified.

Section 1201(b)(2) of the bill would amend section 722(e) of the Act (State and Local Grants). New paragraph (d) that would prohibit a State receiving funds under this subtitle from segregating a homeless child or youth, either in a separate school or in a school within the jurisdiction of the school on that child or youth's status as homeless, except as is necessary for short periods of time because of health and safety emergencies, to provide temporary, special supplementary services to meet the unique needs of homeless children and youth. Section 1201(b)(3) of the bill would amend section 722(f) of the Act (Functions of the State Coordinator). Section 1201(b)(4)(A) of the bill would amend section 722(h)(1) of the Act to eliminate the requirement that the Coordinator designate an adequate staff person, who may also be a coordinator for other Federal programs, as a liaison for homeless children and youth. Section 1201(b)(4)(B) of the bill would amend section 722(g)(3)(B) of the Act to require LEAs in determining the best interests of homeless children and youth residing or attending school, to: (1) post public notice of the educational rights of such children and youth in a manner and by means that will provide assurance in their plans that SEAs served by the program; (3) the involvement of parents or guardians; (4) the extent to which homeless children and youth will be integrated within the regular education program; (5) the quality of the applicant's evaluation plan for the program; (6) the extent to which services provided under this subtitle will be coordinated with other available services; and (7) such other measures as the SEA deems indicative of a high-quality program.

Section 1201(d) of the bill would amend section 724 of the Act (Secretarial Responsibilities). Section 1201(d) of the bill would replace current subsection (f) (Reports), with a new subsection (f) ("Information"), and a new subsection (g) ("Report"). Proposed new section (f) of the Act would require the Secretary, from funds appropriated under section 726 of the Act, and either directly or through grants, contracts, or cooperative agreements, to periodically disseminate data and information on the number and location of homeless children and youth, the education and related services to homeless children and youth, to the extent to which such needs are being met, and such other data and information as the Secretary...
congressional record—senate

May 27, 1999

deems necessary and relevant to carry out this subtitle. The Secretary would also be re-
quited to coordinate such collection and dis-
semination with the other agencies and enti-
ties that receive assistance and administer pro-
grams under this subtitle. Proposed new sec-
tion 903(a) of the Act would require the
Secretary, not later than four years after the
date of the enactment of the bill, to prepare and
submit to the President and appropriate com-
mittees of the House of Representatives and the
Senate a report on the status of edu-
cation of homeless youth and children.

Section 1201(e) of the bill would amend sec-
tion 726 of the Act to authorize the appro-
riation of such sums as may be necessary for
each of the fiscal years 2001 through 2005 to
carry out the subtitle.

Section 1202, Amendments to Other Laws.
Section 1202 of the bill would make con-
forming amendments to other statutes that
reflect the changes to the ESEA that are
proposed in this bill.

Section 1202(a) of the bill would eliminate an
outdated cross-reference in section 101(a)(14) of
the Perkins Vocational and Technical Education Act of 1998 (20 U.S.C. 3126(a)(5)).

Section 1202(b) of the bill would update a
cross-reference in section 317(b)(1) of the
Higher Education Act of 1965 (20 U.S.C. 1059d(b)(10)).

Section 1202(c) of the bill would amend the
Pro-Children Act of 1994 (20 U.S.C. 6081 et
seq.) to eliminate references to kindergarten,
elementary, and secondary education serv-
ces from the prohibition against smoking
contained in that Act. Proposed new Title IV of
the ESEA, as amended by Title IV of the
bill, contains a comparable prohibition agains-
schools and the education references in the
Pro-Children Act are no longer nec-

Part B—Repeals

Section 1211 of the bill would repeal section 1201 of the ESEA, several parts and titles of the Goals 2000: Educate America Act (P.L. 103-227), and Title III of the Economic Security Act of 1974 (20 U.S.C. 3001 et seq.). This provision has
between accomplished their purpose, authorize
activities that are more appropriately car-
rried out by local, regional, and local resources,
or have been incorporated into the ESEA as
amended by the bill.

Title XIII, Support and Assistance Pro-
grams to Improve Education, of the ESEA
would be repealed. Proposed new Part D of
Title II of the ESEA contains the new ESEA
technical assistance and information dis-
semination programs.

In the Goals 2000 statute, Title I, National Education Goals; Title II, National Edu-
cation Reform Leadership, Standards, and
Assessments; Title III, State and Local Edu-
cation Systemic Improvement; Title IV, Pa-

ternal Assistance; Title VII, Safe Schools; and
Title VIII, Minority-focused Civic Educa-
tion, would be repealed. Proposed new Part D of
Title X of the Goals 2000 statute would also be repealed.

Next, the Educational Research, Develop-
ment, Improvement, and Innovation Act of
1994 (Title IX of P.L. 103-227) would be
amended by repealing Part F, Star Schools;
Part G, Office of Comprehensive School
Health; Part H, Field Research; and Part I, Amend-
ments to the Carl D. Per-
kins Vocational and Applied Technology
Act.

Title III, Partnerships in Education for
Mathematics, Science, and Engineering,
of the Education for Economic Security Act
would also be repealed by section 1211 of the

By Mr. LEAHY:
S. 1181. A bill to appropriate funds to carry out the commodity supplemental food program and the emergency food assistance program fiscal year 2000 to the Committee on Agriculture, Nutri-
tion, and Forestry.

COMMODITY SUPPLEMENTAL FOOD PROGRAM

Mr. LEAHY. Mr. President, I am

providing to introduce a bill to increase
funding for the Commodity Supple-
mental Food Program for Fiscal Year
2000. I look forward to working with
Appropriate Committee members on this
and other important matters through the
appropriations process.

The Commodity Supplemental Food
Program as currently defined in its
name suggests—it provides supplemental
foods to states who distribute them to
low-income postpartum, pregnant and
breastfeeding women, infants, children
up to age six, as well as senior citizens.

The Commodity Supplemental Food
Program currently operates in 42
states and last year more than 370,000
people participated in it every month.

There still remains a great need to ex-
and this program, as there is a wait-
ing list of states—including my state of
Vermont—who want to participate, but
are not able to because of lack of fund-
ing. The bill I am introducing will fix
this problem, by increasing the funding
so that more women, children and sen-

iors in need could participate. I look
forward to working with the Vermont
Congressional delegation on this mat-
ter.

The Commodity Supplemental Food
Program has proven itself to be vitally
important to senior citizens, as 243,000
of the 370,000 people who participated
every month are seniors. There con-
tinues to be a great need for our sen-

iors in Vermont, and in the rest of the
nation.

This has been true for sometime, and still is the case. I successfully fought
efforts a few years ago to terminate
the Meals on Wheels Program. Ending
that program would have been a dis-
aster for our seniors.

According to an evaluation of the
El-
derly Nutrition Program of the Older
Americans Act, approximately 67% to
88% of the participants are at moderate
to high nutritional risk. It is further
estimated that 40% of older adults have
inappropriate intakes of three or more

By Mr. DOMENICI:
S. 1182. A bill to authorize the use of flat
grove markers to extend the useful
life of the Santa Fe National Cemetery,
New Mexico, and to allow more vet-

erans the honor and choice of being
buried in the cemetery; to the Com-
mitee on Veterans' Affairs.

SANTA FE NATIONAL CEMETERY LEGISLATION

Mr. DOMENICI. It is with great pleasure
and honor that I rise today to introduce a
bill to extend the useful life of the Santa Fe National
Cemetery in New Mexico.

The men and women who have served
in the United States Armed Forces have
made immeasurable sacrifices for
the principles of freedom and liberty
that make this Nation unique through-
out civilization. The service of vet-

erans has been vital to the history of
the Nation, and the sacrifices made by

veterans and their families should not
be forgotten.

These veterans at the very least de-
serve every opportunity to be buried at
a National Cemetery of their choosing.
However, unless Congressional action
is taken the Santa Fe National Ceme-
tery will run out of space to provide
casketed burials for our veterans at the
conclusion of 2000.

I believe all New Mexicans can be
proud of the Santa Fe National Ceme-
tery that has grown from 39/100 of an
acre to its current 77 acres. The ceme-
tery first opened in 1868 and within sev-

eral years was designated a National
Cemetery in April of 1875.

Many, many years have fought in all
of nation’s wars hold an honored

This Congress, I have taken a number
of steps to address the nutritional
problems facing our seniors, and have
made some success. In response to a
budget request that I submitted last

year, the Administration increased
their funding request for the Elderly
Nutrition Program by $10 million to
$150 million for fiscal year 2000. I will
continue to work to see that the full
$150 million is included in the final

budget.

This past April I also cosponsored the
Medicare Medical Nutrition Therapy
Act, which provides for Medicare cov-

savings to states who distribute

these healthy packages of food including

items such as infant formula juice,

rice, pasta, and canned fruits and vege-
tables.

The Commodity Supplemental Food
Program currently operates in 42

states and last year more than 370,000

people participated in it every month.

There still remains a great need to ex-
and this program, as there is a wait-

list of states—including my state of

Vermont—who want to participate, but

are not able to because of lack of fund-

veterans and their families should not
be forgotten.

These veterans at the very least de-
serve every opportunity to be buried at
a National Cemetery of their choosing.
However, unless Congressional action
is taken the Santa Fe National Ceme-
tery will run out of space to provide
casketed burials for our veterans at the
conclusion of 2000.

I believe all New Mexicans can be
proud of the Santa Fe National Ceme-
tery that has grown from 39/100 of an
acre to its current 77 acres. The ceme-
tery first opened in 1868 and within sev-

eral years was designated a National
Cemetery in April of 1875.

Many, many years have fought in all
of nation’s wars hold an honored

space within the hallowed ground of
the cemetery. Today the Santa Fe Na-
tional Cemetery contains almost 27,000
graves that are mostly marked by up-
right headstones.

However, as I have already stated,
unless Congress acts the Santa Fe Na-
tional Cemetery will be forced to close.
The Bill I am introducing today allows the Secretary of Veterans Affairs to provide for the use of flat grave markers that will extend the useful life of the cemetery until 2008. While I wish the practice of utilizing headstones could continue indefinitely if a veteran chose, my wishes are outweighed by my desire to extend the useful life of the cemetery. I would note that my desire is shared by the New Mexico Chapter of the American Legion, the Albuquerque Chapter of the Retired Officers’ Association, and the New Mexico Chapter of the VFW who have all endorsed the use of flat grave markers.

Finally, this is not without precedent because exceptions to the law have been granted on six prior occasions with the most recent action occurring in 1994 when Congress authorized the Secretary of Veterans Affairs to provide for flat grave markers at the Wil-lamette National Cemetery in Oregon.

Mr. President, I ask unanimous consent that a copy of the Bill and four letters of support for the use of flat grave markers be printed in the RECORD.

There being no objection, the materials were ordered to be printed in the RECORD, as follows:

S. 1192

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORITY TO USE FLAT GRAVE MARKERS AT SANTA FE NATIONAL CEMETERY, NEW MEXICO.

(a) FINDINGS.—Congress makes the following findings:

(1) The men and women who have served in the Armed Forces have made immeasurable sacrifices for the principles of freedom and liberty that make this Nation unique in all civilization.

(2) The service of veterans has been vital to the history of the Nation, and the sacrifices made by veterans and their families should not be forgotten.

(3) These veterans at the very least deserve every opportunity to be buried in a National Cemetery of their choosing.

(4) The Santa Fe National Cemetery in New Mexico opened in 1868 and was designated a National Cemetery in April 1875.

(5) The Santa Fe National Cemetery now has 77 acres with almost 27,000 graves most of which are are marked by upright headstones.

(6) The Santa Fe National Cemetery will run out of space to provide for casketed burials at the end of 2000 unless Congress acts to allow the use of flat grave markers to extend the useful life of the cemetery until 2008.

(b) AUTHORITY.—Notwithstanding section 2404(c)(2) of title 38, United States Code, the Secretary of Veterans Affairs may provide for flat grave markers at the Santa Fe National Cemetery, New Mexico.

THE AMERICAN LEGION,
DEPARTMENT OF NEW MEXICO,

Mr. GIL GALLO,
Director, Santa Fe National Cemetery,
Santa Fe, NM.

Dear Mr. GALLO: The American Legion has discussed your proposal on having a section of flat cemetery markers at the National Cemetery, which would decrease the size of the individual plots; therefore making more room for our veterans, at the National Cemetery.

We are in complete agreement and in support of this venture. If we can be of assistance in any way, please advise.

Sincerely,

HARRY C. RHIZOR,
Department Commander.

ALBUQUERQUE CHAPTER,
THE RETIRED OFFICERS' ASSOCIATION,

Mr. President, I ask unanimous consent that a copy of the Bill and four letters of support for the use of flat grave markers be printed in the RECORD.

There being no objection, the materials were ordered to be printed in the RECORD, as follows:

S. 1192

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORITY TO USE FLAT GRAVE MARKERS AT SANTA FE NATIONAL CEMETERY, NEW MEXICO.

(a) FINDINGS.—Congress makes the following findings:

(1) The men and women who have served in the Armed Forces have made immeasurable sacrifices for the principles of freedom and liberty that make this Nation unique in all civilization.

(2) The service of veterans has been vital to the history of the Nation, and the sacrifices made by veterans and their families should not be forgotten.

(3) These veterans at the very least deserve every opportunity to be buried in a National Cemetery of their choosing.

(4) The Santa Fe National Cemetery in New Mexico opened in 1868 and was designated a National Cemetery in April 1875.

(5) The Santa Fe National Cemetery now has 77 acres with almost 27,000 graves most of which are are marked by upright headstones.

(6) The Santa Fe National Cemetery will run out of space to provide for casketed burials at the end of 2000 unless Congress acts to allow the use of flat grave markers to extend the useful life of the cemetery until 2008.

(b) AUTHORITY.—Notwithstanding section 2404(c)(2) of title 38, United States Code, the Secretary of Veterans Affairs may provide for flat grave markers at the Santa Fe National Cemetery, New Mexico.

THE AMERICAN LEGION,
DEPARTMENT OF NEW MEXICO,

Mr. GIL GALLO,
Director, Santa Fe National Cemetery,
Santa Fe, NM.

Dear Mr. GALLO: This letter will acknowledge receipt of your informational letter concerning the Santa Fe National Cemetery dated April 4, 1997. Please be advised that I took the liberty to circulate the information to VFW Post Commanders located in Northern New Mexico. The following is our consensus.

Although we would want to continue with the upright marble headstones which are provided with the 5x10 grave site, we found it more important to extend the life of the National Cemetery therefore we support your efforts to utilize the granite markers and the recommended 4x8 grave sites. We are also in agreement with your recommendations for a columbarium for the burial of our cremated Comrades.

Please thank your staff for the outstanding work and service which they provided for qualified veterans and their families.

Let me also thank you for providing us with the specific information needed to come to our decision.

As State Commander of the Veterans of Foreign Wars of the United States of America Department of New Mexico I pledge our full support of your recommendation and would ask that you forward this letter of support to your Washington Office.

May God Bless America and our men and women who served and serve in our military armed forces.

Yours in comradeship,

ROBERT O. PEREA,
State Commander.

DEPARTMENT OF VETERANS AFFAIRS,
DIRECTOR NATIONAL CEMETARY SYSTEM,

MICHAEL C. D’ARCO,
Director, New Mexico Veterans Services Commission
Santa Fe, NM.

Dear Mr. D’ARCO, I know that you are completing your study on the issue of veter- ans cemeteries in New Mexico. Following is information on the Santa Fe National Cemetery.

There is approximately a three-year inven-tory of casketed sites readily available for immediate use in the recently developed sec-tions of the cemetery, sections 10, 11, and 12. If no other casketed sites are developed, then we would exhaust this inventory in 2001. Based on our understanding that future flat marker grave sites on the east side of the cemetery are acceptable to veter- ans and the neighboring community, an additional seven-year inventory of sites can be developed in that portion of the cemetery. This would extend the useful life of the cem-etery for casketed burials to the year 2008. While this is just a general estimate, and exact details will not be available until a more formal design is completed, we anticip-ate developing and using these sites. Accor-dingly, the 2008 date is the date to use in your study for casketed grave sites closure of the Santa Fe National Cemetery.

It is important to note that we anticipate being able to provide for inground cremation service well beyond the year 2030. Consideration will also be given toward columbarium development.

Incidentally, we are estimating Fort Bay-nard National Cemetery’s closure date as 2027, but we are optimistic that potential exists beyond that date. I hope this information is useful to you. If you have any questions, please contact me or Roger R. Rapp on my staff at 202-273-3225.

Sincerely yours,

JERRY W. BOWEN.

By Mr. NICKLES: S. 1183. A bill to direct the Secretary of Energy to convey to the city of Bartlesville, Oklahoma, the former site of the NIPER facility of the Department of Energy; to the Committee on Energy and Natural Resources.

NIPER LEGISLATION

Mr. NICKLES. Mr. President, today I am introducing legislation that will transfer ownership of land owned by the Department of Energy (DOE) and known as the National Institute for Petroleum Energy Research (NIPER) to the City of Bartlesville for business and educational purposes.

The NIPER facility was originally es-tablished in 1918 as the Petroleum Ex-periment Station by the U.S. Bureau of Mines. Its purpose was to provide re-search targeted to oil and gas field problems. In 1936, as World War II ap-proached, additions to the Work Project Administration building were erected. Its research was expanded to help the war effort. During the 1973-1974 energy crisis, the center was re-named the Bartlesville Energy Re-search Center. When the Center privatized in 1983, it was renamed the National Institute for Petroleum and Energy Research (NIPER). NIPER closed its operations on December 22, 1998.

According to the Surplus Property Act of 1949, excess federal property is screened for use by the following: Housing and Urban Development, Health and Human Services, and local and state organizations including non-profit organizations. At the conclusion of the screening process, a negotiated sale conducted. If no other sale is conducted, the property is still undeclared it goes to auction.

Unfortunately this process can take many years, thus preventing the city
of Bartlesville from realizing any near-term economic boost from NIPER’s re-development. Consequently, this legislation is needed to ensure that the NIPER facilities are redeveloped as quickly as possible in order to provide a prompt economic boost to the community. This legislation also will ensure that the NIPER facilities do not deteriorate while the property is being processed through the lengthy steps of the Surplus Property Act and therefore make re-use impossible.

The City of Bartlesville intends to provide an educational facility and a place for business and industry that would facilitate job creation through technology and investment. The NIPER facility will also provide housing for administrative services for community development organization such as Child Advocates, Child Abuse Prevention, and Coalition Against Domestic Violence, and various homeless community development organizations. This project enjoys the strong support of the Mayor of Bartlesville and other locally elected officials.

By Mr. DOMENICI (for himself and Mr. KYL):

S. 1184. A bill to authorize the Secretary of Agriculture to dispose of land for recreation or other public purposes; to the Committee on Energy and Natural Resources.

NATIONAL FOREST SYSTEM COMMUNITY PURPOSES ACT

Mr. DOMENICI. Mr. President, I rise to introduce important legislation, co-sponsored by Senator KYL, that would allow the Forest Service to convey parcels of land to States and local governments, on the condition that it be used for a specific recreational or local public purpose. The National Forest System Community Purposes Act is patterned after an existing law that set in place one of the most successful local community assistance programs under the Bureau of Land Management (BLM).

That law, the Recreation and Public Purposes Act, was enacted in 1926. Under its authority, the BLM has been able to work cooperatively with States and communities to provide land needed for recreational areas and other public projects to benefit local communities in areas where Federal land dominates the landscape. With skyrocketing demands on the Forest Service and local communities to provide accommodations and other services for an ever-increasing number of Americans who take advantage of all the opportunities available in the national forests, I believe the time has come to provide this ability to the Forest Service.

In the 1996 Omnibus Parks and Public Lands Management Act, there were no fewer than 31 boundary adjustments, land conveyances, and exchanges authorized, many of which dealt with national forests. Had this legislation been enacted at that time, I cannot say for sure how many of these provisions would have been unnecessary, but I expect the number would have been reduced by at least one-third.

During the 105th Congress, I sponsored three bills that directed the Secretary of Agriculture to convey small tracts Forest Service land to communities in New Mexico. All three bills were subsequently passed in the Senate unanimously, but two of these bills were not enacted last year, and the Senate has once again seen fit to pass them in the 106th Congress. We now await action in the House. I know that other Senators are faced with a similar situation of having to shepherd bills through the legislative process simply to give the Forest Service the authority to cooperate with local communities on local needs.

Over one-third of the land in New Mexico is owned by the federal government, and therefore finding appropriate sites for community and educational purposes can be difficult. Communities adjacent and surrounding the National Forest System land have limited opportunities to acquire land for certain recreational and other local public purposes. In many cases, these recreational and other local needs are not within the mission of the Forest Service, but would not be inconsistent with forest plans developed for the adjacent national forest. To compound the problem, small communities are often unable to acquire land due to its extremely high market value resulting from the predominance of Federal land in the local area.

The subject of one of the bills I just alluded to provides an excellent example of the problem. That bill provided for a one-acre conveyance to the Village of Jemez Springs in New Mexico. The land is to be used for a desperately needed fire substation, which will obviously benefit public safety for the local community. Since over 70 percent of the emergency calls in this particular community are for assistance on the Santa Fe National Forest, however, the Forest Service would also benefit greatly from this new station.

In fairness, the Forest Service was very willing to sell this land to the village but constrained by current law to charge the appraised fair market value. Herein lies the biggest problem for small communities like Jemez Springs. In this case, the appraised value of an acre of land along the highway, obviously necessary for this kind of a facility, was estimated to be around $50,000. Combined with the cost of building the station itself, this additional cost put the project out of reach of the community’s 400 residents.

The small business community is often constrained by the current legal climate in which they conduct their activities. The Small Business Liability Reform Act of 1999, legislation that will provide targeted relief to small businesses nationwide, addresses the problem of lawsuit abuse, and I find it particularly difficult to bear the high cost of defending themselves against unjustified and unfair litigation.

Small businesses in Michigan and across this nation are faced with a daily threat of burdensome litigation, a circumstance which has created a desperate need for relief from unwarranted and costly lawsuits. While other sectors of our society and our economy also need relief from litigation excesses, small businesses by their very nature are particularly vulnerable to lawsuit abuse, and find it particularly difficult to bear the high cost of defending themselves against unjustified and unfair litigation.

Small businesses represent the engine of our growing economy and provide countless benefits to our communities across America. The Research Institute for Small and Emerging Business, for example, has estimated that there are over 20 million small businesses in America, and that these small businesses generate 50 percent of our country’s private sector output.

My small business constituents relate story after story describing the...
constrains, limitations and fear posed by the very real threat of abusive and unwarranted litigation. The real world impact is high-cost liability insurance, which wastes resources that could instead be used to expand small businesses, to provide more jobs, or to offer more benefits to employees. According to a recent Gallup survey, one out of every five small businesses decides not to hire more employees, expand its business, introduce a new product, or improve an existing product because of the fear of lawsuits—not entrepreneurial risk, not lack of capital resources, but lawsuits.

In the same vein, innocent product sellers—often small businesses like your neighborhood corner grocery store—have also described the high legal costs they incur when they are named in product liability lawsuits. The unfairness in these cases is astonishing—the business may not even produce a product, but is still sued for product defects. The reason? It is no secret that courts differ in how favorably they look upon product liability suits—some are receptive, others outright hostile. So even though a local store neither designs nor manufactures the product, it is routinely dragged into court because the plaintiff’s attorney desires to pull manufacturers into a favorable forum. That’s called “forum shopping” on the part of the plaintiff, and the practice causes needless financial damage to America’s small businesses. And while the nonculpable product seller is rarely found liable for damages, it must still bear the enormous cost of defending itself against these unwarranted suits. Rental and leasing companies are in a similarly vulnerable position, as they are commonly held liable for the wrongful conduct of their customers. And even though the companies themselves are found to have committed no wrong.

The 105th Congress passed the Volunteer Protection Act, which provides specific protections from abusive litigation to volunteers. The Senate passed that legislation by an overwhelming margin of 99-1, and the President signed it, making it Public Law 105-19. That legislation provides a model for further targeted reforms for sectors of our economy that are particularly hard hit and in need of immediate relief. I believe it is high time for small business liability reform, time to take this small step, time to shield those not at fault from needless expense and unwarranted distress.

Mr. President, I’d like to take a moment and provide a little background on our effort, as I believe it will highlight the desperate need for reform. Small businesses shoulder an often unburdened and unjustified suits. Data from San Diego’s Superior Court published by the Washington Legal Foundation reveals that punitive damages are requested in 41 percent of suits against small businesses. It is simply unfathomable that such a large proportion of these lawsuits would be engaging in the sort of egregious misconduct that would warrant a claim of punitive damages. Similarly, the National Federal of Independent Business reports that 34 percent of Texas small business owners are sued or threatened with court action seeking punitive damages; again, the outrageously high rate of prayer for punitive damages simply cannot have anything to do with actual wrongdoing by the defendant.

The specifics of the cases are no better. In a case reported by the American Consulting Engineers Council, a drunk driver had an accident after speeding and bypassing detour signs. Eight hours later, in the history of how he had a blood alcohol level of .09. Nonetheless, the driver sued the engineering firm that designed the road, the contractor, the subcontractor, and the state highway department. Five years later, and after expending exorbitant amounts on legal fees, the defendants settled the case for $35,000. The engineering firm, a small 15 person firm, was swamped with over $200,000 in legal costs—an intolerable amount for a small business to have to pay in defending an unwarranted lawsuit.

There are more examples. An Ann Landers column from October, 1995, reported a case in which a minister and his wife sued a guide-dog school for $160,000 after a blind man who was learning to use a seeing-eye dog stepped on the minister’s wife’s toes in a shopping mall. The guide-dog school, Southeastern Guide Dogs, Inc., which provided the instructor supervising the man, was the only school of its kind in the southeast. Theи guide dogs at no cost to the visually impaired. The couple filed their lawsuit 13 months after the so-called accident, in which witnesses reported that the woman did not move out of the blind man’s way because she wanted to see if the dog would walk around her.

The experience of a small business in Michigan, the Michigan Furnace Company, is likewise alarming. The President of that company has reported that of our history of how his company has been a nuisance lawsuit. She indicates that if the money the company spends on liability insurance and legal fees were distributed among employees, it would amount to a $10,000 annual raise. That’s real money, and that’s a real cost coming right out of the pocket of Michigan workers.

These costs are stifling our small businesses and the careers of people in their employ. The straightforward proposals to reform liability laws and reduce punitive damages that the Volunteer Protection Act will provide small businesses with relief by discouraging abusive litigation. This section contains two principal reforms.

First, the bill limits punitive damages that may be awarded against a small business. In most civil lawsuits against small businesses, punitive damages would be available against the small business only if the claimant proves by clear and convincing evidence that the harm was caused by the small business through at least a conscious, fraudulent indifference to the rights and safety of the claimant. Punitive damages would also be limited in amount to the lesser of $250,000 or two times the compensatory damages awarded for the harm. That formulation is exactly the same as that in the small business protection provision that was included in the Product Liability Conference Report passed in the 104th Congress.

Second, joint and several liability reforms for small businesses are included under the exact same formulation used in the Volunteer Protection Act passed in the 105th Congress and in the Product Liability Conference Report passed in the 104th Congress. Joint and several liability would be limited such that a small business would be liable for economic damages only in proportion to the small business’s responsibility for causing the harm. If a small business is responsible for 100 percent of an accident, then it will be liable for 100 percent of noneconomic damages. But if it is only 10 percent, 10 percent or any other percent responsible, then the small business will be liable only for a like percentage of non-economic damages.

Small businesses would still be jointly and severally liable for economic damages, and any other defendants in the action that were not small businesses could be held jointly and severally liable for all damages. But the intent of this provision is to provide some protection to small businesses, so that they will not be sought out as “deep pocket” defendants by trial lawyers who would otherwise try to get small businesses on the hook for harms that they have not caused. The fact is that many small businesses simply do not have deep pockets, and they frequently need all of their resources just to stay in business, take care of their employees, and make ends meet.

Other provisions in this title specify the situations in which its reforms apply. The title defines small business as any business having fewer than 25 employees, the same definition included in the Product Liability Conference Report. Like the Volunteer Protection Act, this title covers all civil lawsuits except those involving certain types of egregious misconduct. The limitations on liability would not apply to any misconduct that constitutes a crime of violence, act of international terrorism, hate crime, sexual offense, civil rights law violation, or natural resource damages, or...
Title II of the Act addresses liability reform for non-culpable product sellers, commonly small businesses, who have long sought help in gaining a degree of protection from unwarranted lawsuits. Product sellers, like your corner grocery store, provide a crucial service to all of us by offering a convenient source for a wide assortment of goods. Unfortunately, current law subjects them to harassment and unnecessary litigation; in about twenty-nine states, product sellers are drawn into the overwhelming majority of product liability cases even though they play no part in the designing and manufacturing process, and are not to blame in any way for the harm. It is pointless to haul a product seller into the litigation when everyone in the system knows that the seller is not at fault. Dragging a product seller into a product liability suit even though the product it sold was shipped directly from the manufacturer to the plaintiff. In the end, the manufacturer—not the product seller, and certainly not the consumer. All it does is increase the cost to all product sellers of doing business in our neighborhoods, because these businesses are unnecessarily forced to bear the cost of court expenses in their defense.

Again, the real-world background presents a compelling case. In one instance, a product seller was dragged into a product liability suit even though the product it sold was shipped directly from the manufacturer to the plaintiff. In the end, the manufacturer—not the product seller—had to pay compensation to the plaintiff. Unfortunately, this was after the product seller had been forced to spend $25,000 in court expenses $25,000 that could have been used to expand the business or to provide higher salaries.

Title II would make it possible to sue a product seller only when the product seller is responsible for the harm or when the plaintiff cannot collect from the manufacturer. This limitation would cover all product liability actions brought in any Federal or State Court. However, we have specifically ensured that the provision does not apply to actions brought for certain commercial losses, and actions brought under a theory of dram-shop or third party liability arising out of the sale of alcoholic products to intoxicated persons or minors.

Additionally, rental or leasing companies are often unfairly subjected to lawsuits based on vicarious liability, which holds these companies responsible for acts committed by an individual in their employ. In several states, these companies are subject to liability for the negligent tortious acts of their customers even if the rental company is not negligent and the product is not defective. This type of fault-ignorant liability is detrimental to the economy because it increases non-culpable companies' costs, costs which are ultimately passed along to the rental customers.

Settlements and judgments from vicarious liability claims against auto rental companies cost the industry approximately $100 million annually. In Michigan, for example, a renter lost control of a car and drove off the highway. The care flipped over several times, killing an innocent bystander who was not wearing a seat belt. The car rental company, which was not at fault, nevertheless settled for $1.226 million out of fear of being held vicariously liable for the passenger's death.

In another case, four British sailors rented a car from Alamo to drive from Fort Lauderdale to Naples. The driver fell asleep at the wheel, and his car left the road and ended up in a canal. The driver and two passengers were killed, while the fourth passenger was seriously injured. Although the Court found Alamo not to have acted negligently, Alamo was ordered by a jury to pay the plaintiffs $7.7 million solely due to Alamo's ownership of the vehicle.

Often even when the injured party and the driver are both at fault, it is the innocent rental company that has to bear the resulting expenses. For example, an individual in a rented auto struck a pedestrian at an intersection in suburban commercial area on Long Island. The pedestrian, who was intoxicated, was jay-walking on her way from one bar to another. The driver was also intoxicated. The pedestrian unfortunately sustained a traumatic injury and was left in a permanent vegetative state. Although the auto rental company was clearly not at fault in this case, the result is predictable: the rental company was forced to settle for $8.5 million out of fear of a much larger jury award.

We believe that subjecting product renters and lessors to vicarious liability is not only unfair, but also increases the cost to all consumers. Title II resolves this problem by providing that product renters and lessors shall not be liable for the wrongful acts of another solely by reason of product ownership—product renters and lessors would only be responsible for their own acts.

I am pleased to have Senators Lieberman, Hatch, McCain, McConnel, Lott, Bond, Ashcroft, Coverdell, Nickles, Brownback, Gorton, Grassley, Sessions, Burns, Inhofe, Helms, Allard, Hagel, Mack, Bunning, Jeffords, DeWine, Craig, Hutchison, and Enzi as original cosponsors of the legislation and very much appreciate their support for our small businesses and for meaningful litigation reform. The list of business organizations supporting this bill is also impressive, and includes the following: National Federation of Independent Business, the National Restaurant Association, the National Association of Wholesalers, the National Retail Federation, the American Auto Leasing Association, the American Consulting Engineers Council, the Small Business Legislative Council, the National Small Business United, the National Association of Convenience Stores, the American Car Rental Association, the International Mass Retail Association, the Associated Builders and Contractors and the National Equipment Leasing Association.

Mr. President, I ask unanimous consent that the bill and additional material be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1185

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE. Sec. 1. Short title. TITLE I—SMALL BUSINESS LAWSUIT ABUSE PROTECTION

TITLE I—SMALL BUSINESS LAWSUIT ABUSE PROTECTION

Sec. 102. Definitions. Sec. 203. Applicability; preemption. Sec. 204. Liability rules applicable to product sellers, renters, and lessors.

Sec. 103. Limitation on punitive damages for small businesses. Sec. 205. Federal cause of action precluded.

Sec. 104. Limitation on several liability for noneconomic loss for small businesses. Sec. 206. Effective date.

Sec. 105. Exceptions to limitations on liability. Sec. 207. Effective date.

Sec. 106. Preemption and election of State nonapplicability. Sec. 108. Nonapplicability.

Sec. 107. Effective date. Title I—SMALL BUSINESS LAWSUIT ABUSE PROTECTION

TITLE I—SMALL BUSINESS LAWSUIT ABUSE PROTECTION

Title II—PRODUCT SELLER FAIR TREATMENT

Title II—PRODUCT SELLER FAIR TREATMENT

Sec. 201. Findings; purposes. Sec. 201. Findings; purposes.

Sec. 203. Applicability; preemption. Sec. 204. Liability rules applicable to product sellers, renters, and lessors.

Sec. 205. Federal cause of action precluded. Sec. 206. Effective date.

Sec. 207. Effective date.

Congress finds that—

(1) the United States civil justice system is inefficient, unpredictable, unfair, costly, and impedes competitiveness in the marketplace for goods, services, business, and employees;

(2) the defects in the civil justice system have a direct and undesirable effect on interstate commerce by decreasing the availability of goods and services in commerce;

(3) there is a need to restore rationality, certainty, and fairness to the legal system;
CONGRESSIONAL RECORD—SENATE

AUGUST 24, 1999

May 27, 1999

The Honorable John D. Ashcroft, Chairman, Small Business Committee, U.S. Congress, 11457

SEGMENT 6

SEC. 105. EXCEPTIONS TO LIMITATIONS ON LIABILITY

1. The limitations on liability under sections 108 and 104 do not apply to any misconduct of a defendant—

(a) that constitutes—

(1) a crime of violence;

(2) an act of international terrorism; or

(3) a hate crime;

(b) that results in liability for damages relating to the injury to, destruction of, loss of, or loss of use of, natural resources described in—

(A) section 106(b)(2)(A) of the Oil Pollution Act of 1990 (33 U.S.C. 2702(b)(2)(A)); or

(c) that involves—

(A) a sexual offense, as defined by applicable State law; or

(B) a violation of a Federal or State civil rights law;

(d) if the defendant was under the influence (as determined under applicable State law) of intoxicating alcohol or a drug at the time of the misconduct, and the defendant was under the influence was the cause of any harm alleged by the plaintiff in the subject action.

SEC. 106. PREEMPTION AND ELECTION OF STATE NONAPPLICABILITY.

(a) PREEMPTION.—Subject to subsection (b), this title preempts the laws of any State to the extent that State laws are inconsistent with this title, except that this title shall not preempt any State law that provides additional protections from liability for small businesses.

(b) ELECTION OF STATE REGARDING NONAPPLICABILITY.—This title does not apply to any action in a State court against a small business in which all parties are citizens of the State, if the State enacts a statute—

(1) citing the authority of this subsection;

(2) declaring the election of such State that this title does not apply as of a date certain to such actions in the State; and

(3) containing no other provision.

SEC. 107. EFFECTIVE DATE.

(a) IN GENERAL.—This title shall take effect 90 days after the date of enactment of this Act.

(b) APPLICABILITY.—This title applies to any claim for harm caused by an act or omission of a small business, if the claim is filed on or after the effective date of this title, without regard to whether the harm that is the subject of the claim or the conduct that caused the harm occurred before such effective date.

TITLE II—PRODUCT SELLER FAIR TREATMENT

SEC. 201. FINDINGS; PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) although damage awards in product liability actions may encourage the production of safer products, they may also have a direct effect on interstate commerce and consumers of the United States by increasing the cost of, and decreasing the availability of, products;

(2) some of the rules of law governing product liability actions are inconsistent within and among the States, resulting in differences in State laws that may be inequitable with respect to plaintiffs and defendants and may impose burdens on interstate commerce and consumers of the United States;

(3) product liability awards may jeopardize the financial well-being of individuals and industries, particularly the small businesses of the United States;

(4) because the product liability laws of a State may have adverse effects on consumers...
and businesses in many other States, it is appropriate for the Federal Government to enact national, uniform product liability laws that preempt State laws; and
(5) under clause 3 of section 8 of article I of the United States Constitution, it is the constitutional role of the Federal Government to remove barriers to interstate commerce.
(b) PURPOSES.—The purposes of this Act, based on the principles of federalism and the need to promote the free flow of goods and services and lessen the burdens on interstate commerce, are—
(1) establishing certain uniform federal legal principles of product liability that provide a fair balance among the interests of all parties in the chain of production, distribution, and use of products; and
(2) reducing the unacceptable costs and delays in product liability actions caused by excessive litigation that harms both plaintiffs and defendants.

SEC. 202. DEFINITIONS. In this title—
(1) ALCOHOL PRODUCT.—The term "alcohol product" includes any product that contains not less than 1/2 of 1 percent of alcohol by volume and is intended for human consumption.
(2) CLAIMANT.—The term "claimant" means any person who brings an action covered by this title on behalf of any person on whose behalf such an action is brought. If such an action is brought through or on behalf of an estate, the term includes the claimant's devisees, if any, or in the absence of such devisees, the claimant's administrators, if any.
(3) COMMERCIAL LOSS.—The term "commercial loss" means—
(A) the loss relating to a dispute over the value of such property; or
(B) economic loss relating to a dispute over the value of such property.
(4) COMPENSATORY DAMAGES.—The term "compensatory damages" means damages awarded for economic and noneconomic losses.
(5) DRAWSHOP.—The term "drawshop" means a drinking establishment where alcoholic beverages are sold to be consumed on the premises.
(6) ECONOMIC LOSS.—The term "economic loss" means any pecuniary loss resulting from harm (including the loss of earnings or other benefits related to employment, medical expense loss, replacement services loss, loss due to death, burial costs, and loss of business or employment opportunities) to the extent recovery for that loss is allowed under applicable State law.
(7) HARM.—The term "harm" includes physical, nonphysical, economic, and noneconomic loss.
(8) MANUFACTURER.—The term "manufacturer" means—
(A) any person who—
(i) is engaged in a business to produce, create, make, or construct any product (or component part of a product); and
(ii) designs or formulates the product (or component part of the product); or
(B) a product seller, but only with respect to those aspects of a product (or component part of a product) that are created or affected when, before placing the product in the stream of commerce, the product seller—
(i) produces, creates, makes, constructs, and designs, or in any manner, alters an aspect of the product (or component part of the product) made by another person; or
(ii) has engaged another person to design or formulate an aspect of the product (or component part of the product) made by another person; or
(C) any product seller not described in subparagraph (B) that holds itself out as a manufacturer to the user of the product.
(9) NONECONOMIC LOSS.—The term "noneconomic loss" means loss for physical or mental pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic services), injury to reputation, or any other noneconomic loss of any kind or nature.
(10) PERSON.—The term "person" means any individual, corporation, company, association, firm, partnership, society, joint stock company, or any other entity (including any governmental entity).
(11) PRODUCT.—
(A) IN GENERAL.—The term "product" means any object, substance, mixture, or raw material in a gaseous, liquid, or solid state that—
(i) is capable of delivery itself or as an assembled whole, in a mixed or combined state, or as a component part or ingredient; or
(ii) is produced for introduction into trade or commerce;
(b) SALES.—The term "sales" refers to—
(i) a seller or lessor of real property; or
(ii) a seller or lessor of personal property that is not an alcoholic beverage, except in the case of a manufacturer of alcoholic beverages; and
(C) WHOLESALE.—The term "wholesale" means—
(i) sales to retailers, lessors, or other commercial users for resale; or
(ii) sales to government agencies or to independent contractors or businesses engaged in the business of manufacturing, processing, or assembling products for resale.
(12) PURCHASE.—The term "purchase" means—
(A) a sale, lease, or license of property, or an agreement to sell, lease, or license property; or
(B) a contract or agreement under which a person agrees to deliver the property or a component part of the property to another person.
(13) RETAILER.—The term "retailer" means—
(A) any person who—
(i) is engaged in a business to sell, lease, or license personal property or to perform services; or
(ii) in the course of conducting a business, delivers or agrees to deliver the property or a component part of the property to any other person.
(14) STATE.—The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the territories and possessions of the United States in the Pacific, or any political subdivision of any such State, territory, or possession.

SECTION 203. APPLICABILITY; PREEMPTION.
(a) PREEMPTION.—
(1) IN GENERAL.—Except as provided in paragraph (2), this title governs any product liability action brought in any Federal or State court.
(2) ACTIONS EXCLUDED.—
(A) ACTIONS FOR COMMERCIAL LOSS.—A civil action brought for commercial loss shall be governed only by applicable State commercial or contract laws that are similar to the Uniform Commercial Code.
(B) NEGLIGENCE PER SE CONCERNING FIREARMS AND AMMUNITION; DRAM-SHOP.—
(i) NEGLIGENCE PER SE CONCERNING FIREARMS AND AMMUNITION.—A civil action brought under a theory that negligence per se concerning the use of a firearm or ammunition shall not be subject to the provisions of this title governing product liability actions, but shall be subject to any applicable Federal or State law.
(C) RELATIONSHIP TO STATE LAW.—This title supersedes a State law only to the extent that the State law applies to an issue covered by this title. Any issue that is not governed by this title, including any standard of liability applicable to a manufacturer,零售商, or other person or entity that is engaged in a business to sell, lease, or license personal property or to perform services, shall be governed by any applicable Federal or State law.
(D) EFFECT ON OTHER LAW.—Nothing in this title shall be construed to—
(i) affect the right of any court to transfer or to dismiss a claim of a foreign nation or any individual with immunity asserted by the United States; or
(ii) affect the right of any court to transfer venue or to apply the law of a foreign nation or to dismiss a claim of a foreign nation or a citizen of a foreign nation;
(E) applicable law.—Nothing in this title shall be construed to—
(i) affect the right of any court to transfer venue or to apply the law of a foreign nation or to dismiss a claim of a foreign nation or a citizen of a foreign nation;
(F) affect the right of any court to transfer venue or to apply the law of a foreign nation or to dismiss a claim of a foreign nation or a citizen of a foreign nation; or
(G) affect any other law.

SEC. 204. LIABILITY RULES APPLICABLE TO PRODUCT SELLERS, RENTERS, AND LESSORS.
(a) GENERAL RULE.—
(1) IN GENERAL.—In any product liability action covered under this Act, a product seller other than a manufacturer shall be liable
to a claimant only if the claimant establishes (A)(i) the product that allegedly caused the harm that is the subject of the complaint was sold, rented, or leased by the product seller; (ii) the product seller failed to exercise reasonable care with respect to the product; and (iii) the failure to exercise reasonable care was a proximate cause of the harm to the claimant; or (C)(i) the product seller engaged in intentional wrongdoing, as determined under applicable State law; and (ii) the intentional wrongdoing caused the harm that is the subject of the complaint.

(2) Reasonable opportunity for inspection.—For purposes of paragraph (1)(A), a product seller shall not be considered to have failed to exercise reasonable care with respect to a product based upon an alleged failure to inspect the product, if—

(A) the failure occurred because there was no reasonable opportunity to inspect the product; or

(B) the inspection, in the exercise of reasonable care, would not have revealed the aspect of the product that allegedly caused the claimant’s harm.

(b) GENERAL RULE.—

(1) IN GENERAL.—A product shall be deemed to be liable as a manufacturer of a product for harm caused by the product, if—

(A) the product is not subject to service of process under the laws of any State in which the action may be brought; or

(B) the court determines that the claimant is or may be an intended third-party beneficiary of the warranty made by a manufacturer as to the same product;

(ii) the product failed to conform to the warranty; and

(iii) the failure of the product to conform to the warranty caused the harm to the claimant; or

(C)(i) the product seller engaged in intentional wrongdoing, as determined under applicable State law; and

(ii) the intentional wrongdoing caused the harm that is the subject of the complaint.

(2) Reasonable opportunity for inspection.—For purposes of paragraph (1)(A), a product seller shall not be considered to have failed to exercise reasonable care with respect to a product based upon an alleged failure to inspect the product, if—

(A) the failure occurred because there was no reasonable opportunity to inspect the product; or

(B) the inspection, in the exercise of reasonable care, would not have revealed the aspect of the product that allegedly caused the claimant’s harm.

(c) HINTED OR LEASED PRODUCTS.—

(1) DEFINITION.—For purposes of paragraph (2), and for determining the applicability of this title to any person subject to that paragraph, the term “product liability action” means a civil action brought on any theory for harm caused by a product or product use.

(2) LIABILITY.—Notwithstanding any other provision of law, any person engaged in the business of renting or leasing a product (other than a person excluded from the definition of product seller under section 202(13)(B)) shall be subject to liability in a product liability action under subsection (a), but only in respect to the business of renting or leasing a product shall not be liable to a claimant for the tortious act of another solely by reason of ownership of that product.

SEC. 206. EFFECTIVE DATE.

The district courts of the United States shall not have jurisdiction under this title based on section 1331 or 1337 of title 28, United States Code.

SEC. 207. EFFECTIVE DATE.

This title shall become effective on the date of enactment of this Act without regard to subsection (a).

The Small Business Liability Reform Act of 1999—Section-by-Section Analysis

A bill to offer small businesses and product sellers certain protections from litigation excesses.

TITLE I: SMALL BUSINESS LAWSUIT AVOIDANCE AND PROTECTION

Section 101: Findings

This section sets out congressional findings concerning the litigation excesses facing small businesses, and the need for litigation reforms to provide certain protections to small businesses from abusive litigation.

Section 102: Definitions

Various terms used in this title are defined.

Section 103: Limitation on punitive damages for small businesses

This section provides that punitive damages may be imposed by a court only if permitted by applicable State law, and only if permitted by applicable State law, be awarded against a defendant that is a small business only if the claimant establishes by clear and convincing evidence that conduct carried out by that defendant with a conscious, flagrant indifference to the rights or safety of others was the proximate cause of the harm that is the subject of the complaint.

This section also limits the amount of punitive damages that may be awarded against a small business. In any civil action against a small business, punitive damages may not exceed the lesser of two times the amount awarded to the claimant for economic and noneconomic losses, or $250,000.

Section 104: Limitation on several liability for noneconomic loss

This section provides that, in any civil action against a small business, for each defendant that is a small business, the liability of that defendant for noneconomic loss will be reduced in proportion to that defendant’s responsibility for causing the harm. Those defendants would continue, however, to be held jointly and severally liable for economic loss. In addition, any other defendants in the action that are small businesses would continue to be held jointly and severally liable for both economic and noneconomic loss.

Section 105: Exceptions to limitations on liability

The limitations on liability included in this title shall not apply to any misconduct that constitutes a crime of violence, act of international terrorism, hate crime, sexual offense, civil rights law violation, or natural resource damages, or which occurred while the defendant was under the influence of intoxicating alcohol or any drug.

Section 106: Prevention and election of State nonapplicability

This title preempts State laws to the extent that any such law is inconsistent with it, but it does not preempt any State law that conforms to the provisions of this title.

Section 202: Definitions

Various terms and phrases used in this title are defined.

Section 203: Applicability; preemption

This title applies to any product liability action brought in any Federal or State court. Civil actions for commercial loss; negligence, intentional tort, and negligence per se, concern firearms and ammunition; and civil actions for damages applicable to the product liability laws.

Section 204: Liability rules applicable to product sellers, renters and lessors

Product sellers other than the manufacturer (wholesalers-distributors and retailers, for example) may be held liable only if they are directly at fault; or if the harm was caused by the failure of the product to conform to the product seller’s own, independent express warranty; or if harm was the result of the product seller’s intentional wrongdoing.

Product sellers shall “stand in the shoes” of a culpable manufacturer when the manufacturer is “judgment-proof.” The statute of limitations in such cases is tolled.

Finally, product renters and lessors shall not be liable for the tortious acts of another solely by reason of product ownership.

Section 205: Federal cause of action precluded

This title does not create Federal district court jurisdiction pursuant to Sections 1331 or 1337 of title 28, United States Code.

Section 206: Effective date

This title shall apply to any action commenced on or after the date of enactment.

NAY ENDORSES ABRAHAM-LIEBERMAN LEGAL REFORM BILL

LEGISLATION WOULD REDUCE UNNECESSARY LITIGATION; COSTS

WASHINGTON, D.C.—The National Association of Wholesalers-Distributors (NAW) today gave its “enthusiastic and wholehearted support” to the Small Business Liability Reform Act of 1999, which would significantly reduce the exposure of wholesalers-distributors and retailers to unwarranted product liability suits and legal costs.
The Abraham-Lieberman bill would limit liability in two types of civil lawsuits for businesses, with fewer than 25 employees. NFIB’s Danner estimated the liability limitations would apply to “a little more than 90 percent” of all employing businesses. “Passing this legislation would bring relief to literally millions of small-business owners and their families,” he said. “It would certainly ease Main Street’s long anxiety about being slapped—with ruined—by a Mickey Mouse lawsuit.”

“When we asked our members in Alabama to identify their greatest problem facing their businesses, the most frequent answer, by far, was ‘cost of liability insurance/fees of lawyers,’” Danner noted. “Another problem, ‘street crime,’ drew only a third as many responses.”

“There’s something dreadfully wrong with our justice system when small-business owners are three times more fearful of being mugged by trial lawyers than by common street thugs.”

A nationwide survey of NFIB’s 600,000 members earlier this year found only 93 percent favor capping punitive damages. “Small-business owners support any measures that will restore fairness, balance and common sense to our civil justice system,” Danner said. “We have pledged our full support to Senators Abraham and Lieberman in their efforts to do just that, through their Small Business Liability Reform Act.”

Eliminating frivolous lawsuits is a priority in NFIB’s Small Business Growth Agenda for the 106th Congress. To learn more about the Act of NFIB’s Agenda, please contact McCall at 202-544-9000.

NFIB BACKS NEW LEGAL REFORM INITIATIVE
WASHINGTON, D.C.—The National Federation of Independent Business (NFIB) will champion a new legal reform proposal that aims to protect small-business owners from frivolous lawsuits and the threat of being “stuck with the whole tab” for damage awards arising from incidents in which they were not responsible.

The nation’s leading small-business advocacy group, NFIB hailed today’s introduction of the Small Business Liability Reform Act of 1999 as the very top of our agenda for the 106th Congress and I commend Senators Abraham and Lieberman for their continuing, tireless leadership of this important effort.

NFIB APPLAUDS SENATOR ABRAHAM’S SMALL BUSINESS LIABILITY REFORM LEGISLATION
WASHINGTON, D.C.—“We are pleased that Senator Spencer Abraham has introduced legislation that will have a significant impact on small business and the legal system,” said David Gorin, Chairman of the Small Business Legislative Council (SBLC).

“Senator Abraham’s legislation is a permanent, independent co-ordination group, NFIB hailed today’s introduction of the Small Business Liability Reform Act of 1999. Sponsored by U.S. Sens. Spencer Abraham (Mich.) and Joseph Lieberman (Conn.), the proposal would limit the amount of punitive damages that might be awarded from a small firm to two times the amount of compensatory damages or $250,000, whichever is less.

The measure also would eliminate joint-and-several liability for small firms, leaving them responsible for paying only their “proportionate” share of non-economic damages. Under the current doctrine of joint-and-several liability, defendants found to be as little as 1 percent “at fault” in a civil case may end up paying all assessed damages, if no other defendants are able to pay.

“This bill strikes a long-overdue blow on behalf of fairness, common sense and true justice,” said Dan Danner, NFIB’s vice president of federal public policy. “Limiting punitive damages and exposure to liability will make small businesses a much less lucrative—and, thus, a much less attractive—target for fraud and other tortious behavior.”

“Ending joint-and-several liability will improve justice by making sure small-business owners are aware of damages—but not more,” he continued. “Under the current doctrine, the effort to compensate one victim often creates yet another victim—the marginal business owner left holding the bag for everyone else involved.”

Our policies are developed through a consensus among our membership. Individual associations may express their own views.
CONGRESSIONAL RECORD—SENATE

John Abraham (R-MI) and Joseph Lieberman (D-CT), introduced the Small Business Lawsuit Protection Act of 1999. The bill, which is sponsored by Senators Spencer Abraham (R-MI) and Joseph Lieberman (D-CT), would limit small business liability stemming from frivolous lawsuits.

"Retailers often find themselves party to product liability lawsuits where no direct liability for the seller actually exists, leaving the retailers exposed to liability stemming from products they sell. "

"Business owners fear of litigation may impact critical operational decisions. The revolving 'litigation effect' on the growth potential of small businesses underscores the need for reform, according to NRF. "

"This bill would provide long-overdue and much-needed protection for entrepreneurs whose businesses could succeed or fail as the result of a single lawsuit," Dun can said. "Most small business owners lack the resources to both defend themselves against legal action and remain solvent. This bill will give them some peace of mind and the confidence to manage their business without undue fear of financial ruin."

The National Retail Federation (NRF) is the world's largest retail trade association, representing all retail formats and located in every state and 90 countries, defines small business as having 25 or fewer employees. The measures would protect small businesses from non-manufacturer product sellers (local wholesaler-distributors, and retailers) liable for product-related injuries only when the seller is directly responsible for the harm. "More than 70 percent of the over 37,000 stores operated by NACS members are either one-store operations or part of a chain of 10 or fewer stores. These small businesses own an essential service to their communities, and represent significantly local economies and employ hundreds of thousands of people," said Lyle Beckwith, Director of Government Affairs, NACS. "Because this bill protects those small businesses people from rising liability insurance costs and frivolous lawsuits, NACS will work hard for its passage and strongly encourage other senators to follow the leadership of Senators Abraham and Lieberman."

WASHINGTON, D.C.—The American Consulting Engineers Council (ACEC) strongly supports the “Small Business Liability Reformation Act of 1999” which was introduced today by Senators Spencer Abraham (R-MI) and Joseph Lieberman (D-CT). The legislation, which builds on proposals that have earned strong bipartisan support in recent Congresses, will improve our nation's civil justice system through a package of carefully-targeted reforms—reforms that will deter unwarranted, frivolous, and needlessly wasteful litigation against employers, and particularly small businesses.

The threat of litigation and frivolous lawsuits continues to be a primary concern for construction firms operating today. According to ACEC’s recent Professional Liability Survey report, 75% of survey respondents indicated that the threat of litigation stifled the use of innovative and creative technologies while working on projects. Over one-third of all claims filed against ACEC member firms resulted in no payment of any kind to the claimant, a fact which underscores that “frivolous” litigation remains a problem for the industry.

ABC President David Bush said, "ABC has long been supportive of lawsuit reform as a beneficial solution of the pressing problem of frivolous lawsuits which raise the cost of doing business and clog the nation's court systems."

The legislation would limit punitive damages and joint liability for non-economic damages against small businesses in any civil lawsuit. Under current law, punitive damages against small businesses are limited only by the amount of economic losses, thus resulting in a windfall to plaintiffs. The bill would also allow a plaintiff to recover only punitive damages if liability for punitive damages has been proven, and joint or several liability would not be imposed on small business sellers which are not in any way to blame for the harm that the product is alleged to cause.

Mr. McCONNELL. Mr. President, I rise today to join my esteemed colleagues in the introduction of the Small Business Liability Reform Act of 1999.

Over the last 30 years, the American civil justice system has become inefficient, unpredictable and costly. Consequently, I have spent a great deal of my time in the United States Senate working to reform the legal system. I was particularly pleased to help lead in the efforts to pass the Volunteer Protection Act, which offers much-needed litigation protection for our country's battalion of volunteers. America's litigation crisis, however, goes well beyond our volunteerism.

Lawsuits and the mere threat of lawsuits impede invention and innovation, and the competitive position our nation has enjoyed in the world marketplace. The litigation craze has several pernicious effects. For example, it discourages the production of more and better products, while encouraging the production of more and more attorneys. In the 1950s, there was one lawyer for every 685 Americans. Today, in contrast, there is one lawyer for every 200 people. In fact, we have more lawyers per capita than any other western democracy. Mr. President, don't get me wrong—there is nothing inherently wrong with being a lawyer. I am proud to be a graduate of the University of Kentucky College of Law. My point, however, is simple: government and society should promote a world where its more desirable to create goods and services than to litigate.

The chilling effects of our country's litigation epidemic are felt throughout our national economy—especially by our small businesses. We must act to remove the litigation harness that constrains our nation's small businesses.

Small businesses are vital to our national economy. My state provides a perfect example of the importance of small business. In Kentucky, more than 85% of our businesses are small businesses.

The Small Business Lawsuit Abuse Protection Act is a narrowly-crafted bill which seeks to restore some rationality, certainty and civility to the legal system. First, Title I of this bill would offer limited relief to businesses or organizations that have fewer than 25 full-time employees. Title I seeks to provide some reasonable limits on punitive damages, which typically serve as a windfall to plaintiffs. It also provides that a business's responsibility for non-economic losses would be in proportion to the business's responsibility for causing the harm.

The other Title in the bill includes liability reforms for innocent product sellers—which are often small businesses. These businesses are often dragged into product liability lawsuits even though they did not produce, design or manufacture the product, and are not in any way to blame for the harm that the product is alleged to have caused. Title II would help protect product sellers from being subjected to frivolous lawsuits when they are not responsible for the alleged harm.

Now, let me explain what this bill does not do. It does not close the courthouse doors to plaintiffs who sue small businesses. For example, this bill does not limit a plaintiff's ability to sue a small business for an act of negligence, or any other act, for that manner. It also does not prevent a plaintiff from recovering from product sellers when they are more responsible than the small businesses. Mr. President, this is a sensible, narrowly-tailored piece of legislation that is greatly needed to free up the enterprising spirit of our small businesses. I look forward to the Senate's consideration of this important legislation.

ADDITIONAL COSPONSORS

Mr. SCHUMER. At the request of Mr. DASCHLE, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 10, a bill to provide health protection and needed assistance for older Americans, including access to health insurance for 55 to 65 year olds, assistance for individuals with long-term care needs, and social services for older Americans.

Mr. ROBB. At the request of Mr. ROBB, his name was added as a cosponsor of S. 13, a bill to amend the Internal Revenue Code of 1986 to provide additional tax incentives for education.
Carl, the name of the Senator from New Hampshire (Mr. Smith) was added as a cosponsor of S. 343, a bill to amend the Internal Revenue Code of 1986 to allow a deduction for 100 percent of the health insurance costs of self-employed individuals.

At the request of Mr. Bond, the name of the Senator from New Hampshire (Mr. Gregg) was added as a cosponsor of S. 344, a bill to amend the Internal Revenue Code of 1986 to provide a safe harbor for determining that certain individuals are not employees.

At the request of Mr. Durbin, the name of the Senator from Maryland (Mr. Sarbanes) was added as a cosponsor of S. 429, a bill to designate the legal public holiday of "Washington's Birthday" as "Presidents' Day" in honor of George Washington, Abraham Lincoln, and Franklin Roosevelt and in recognition of the importance of the institution of the Presidency and the contributions that Presidents have made to the development of our Nation and the principles of freedom and democracy.

At the request of Mr. Breaux, the name of the Senator from Iowa (Mr. Grassley) was added as a cosponsor of S. 434, supra.

At the request of Mr. Robb, his name was added as a cosponsor of S. 288, a bill to amend the Internal Revenue Code of 1986 to exclude from income certain amounts received under the National Health Service Corps Scholarship Program and F. Edward Hebert Armed Forces Health Professions Scholarship and Financial Assistance Program.

At the request of Mr. Jeffords, the name of the Senator from Missouri (Mr. Ashcroft) was added as a cosponsor of S. 331, a bill to amend the Social Security Act to expand the availability of health care coverage for working individuals with disabilities, to establish a Ticket to Work and Self-Sufficiency Program in the Social Security Administration to provide such individuals with meaningful opportunities to work, and for other purposes.

At the request of Mr. Bond, the name of the Senator from Indiana (Mr. Lugar) was added as a cosponsor of S. 343, a bill to amend the Internal Revenue Code of 1986 to allow a deduction for 100 percent of the health insurance costs of self-employed individuals.

At the request of Mr. Gorton, the names of the Senator from Texas (Mr. Gramm) and the Senator from Arkansas (Mrs. Lincoln) were added as cosponsors of S. 512, a bill to amend the Public Health Service Act to provide for the expansion, identification, and coordination of the activities of the Department of Health and Human Services with respect to research on autism.

At the request of Mr. Cochran, the names of the Senator from Virginia (Mr. Robb) and the Senator from Alabama (Mr. Sessions) were added as cosponsors of S. 514, a bill to improve the National Writing Project.

At the request of Mr. Dorgan, the name of the Senator from Arkansas (Mrs. Lincoln) was added as a cosponsor of S. 546, a bill to amend the Internal Revenue Code of 1986 to allow a deduction for 100 percent of the health insurance costs of self-employed individuals.

At the request of Mr. Lugar, the names of the Senator from Indiana (Mr. Bayh) and the Senator from North Dakota (Mr. Conrad) were added as cosponsors of S. 566, a bill to amend the Agricultural Trade Act of 1978 to exempt agricultural commodities, livestock, and value-added products from unilateral economic sanctions, to prepare for future bilateral and multilateral trade negotiations affecting United States agriculture, and for other purposes.

At the request of Mr. Coverdell, the name of the Senator from Texas (Mr. Gramm) was added as a cosponsor of S. 593, a bill to amend the Internal Revenue Code of 1986 to increase maximum taxable income for the 15 percent rate bracket, to provide a partial exclusion from gross income for dividends and interest received by individuals, to provide a long-term capital gains deduction for individuals, to increase the traditional IRA contribution limit, and for other purposes.

At the request of Mr. Craig, the name of the Senator from North Carolina (Mr. Helms) was added as a cosponsor of S. 607, a bill to reauthorize and amend the National Geologic Mapping Act of 1992.

At the request of Mr. Sarbanes, the name of the Senator from Maine (Ms. Snowe) was added as a cosponsor of S. 620, a bill to grant a Federal charter to Korean War Veterans Association, Incorporated, and for other purposes.
At the request of Mr. Hutchinson, the name of the Senator from Arizona (Mr. Kyl) was added as a cosponsor of S. 627, a bill to terminate the Internal Revenue Code of 1986.

S. 631

At the request of Mr. DeWine, the name of the Senator from Arkansas (Mrs. Lincoln) was added as a cosponsor of S. 631, a bill to amend the Social Security Act to eliminate the time limitation on benefits for immunosuppressive drugs under the medicare program, to provide continued entitlement for such drugs for certain individuals after medicare benefits end, and to extend certain medicare secondary payer requirements.

S. 633

At the request of Mr. Robb, his name was added as a cosponsor of S. 633, a bill to amend the Internal Revenue Code of 1986 to more accurately codify the depreciable life of printed wiring board and printed wiring assembly equipment.

S. 642

At the request of Mr. Grassley, the name of the Senator from Washington (Mr. Gorton) was added as a cosponsor of S. 642, a bill to amend the Internal Revenue Code of 1986 to provide for Farm and Ranch Risk Management Accounts, and for other purposes.

S. 657

At the request of Mr. Frist, his name was added as a cosponsor of S. 657, a bill to amend the Internal Revenue Code of 1986 to expand the availability of medical savings accounts, and for other purposes.

S. 660

At the request of Mr. Bingaman, the name of the Senator from Arkansas (Mrs. Lincoln) was added as a cosponsor of S. 660, a bill to amend title XVIII of the Social Security Act to provide for coverage under part B of the medicare program of medical nutrition therapy services furnished by registered dietitians and nutrition professionals.

S. 661

At the request of Mr. Abraham, the name of the Senator from Missouri (Mr. Bond) was added as a cosponsor of S. 661, a bill to amend title XV, United States Code, to prohibit taking minors across State lines in circumvention of laws requiring the involvement of parents in abortion decisions.

S. 662

At the request of Mr. Chafee, the name of the Senator from Iowa (Mr. Grassley) was added as a cosponsor of S. 662, a bill to amend title XIX of the Social Security Act to provide medical assistance for certain women screened and found to have breast or cervical cancer under a federally funded screening program.

S. 664

At the request of Mr. Robb, his name was added as a cosponsor of S. 664, a bill to amend the Internal Revenue Code of 1986 to provide a credit against income tax to individuals who rehabilitate historic homes or who are the first purchasers of rehabilitated historic homes for use as a principal residence.

S. 665

At the request of Mr. Chafee, the name of the Senator from Vermont (Mr. Leahy) was added as a cosponsor of S. 665, supra.

S. 712

At the request of Mr. Lott, the name of the Senator from Illinois (Mr. Fitzgerald) was added as a cosponsor of S. 712, a bill to amend title XV, United States Code, to allow postal patrons to contribute to funding for highway-rail grade crossing safety through the voluntary purchase of certain specially issued United States postage stamps.

S. 729

At the request of Mr. Craig, the name of the Senator from Oklahoma (Mr. Inhofe) was added as a cosponsor of S. 729, a bill to ensure that Congress and the public have the right to participate in the declaration of national monuments on federal land.

S. 784
