

In 1954 Coach Brown graduated from Roosevelt High School in Gary, Indiana, and enrolled as an undergraduate at Wiley College. He began his graduate work at Indiana University, where he earned his Master's degree. Mr. Brown continued his education at Texas Southern University where he took advance courses.

An educator and coach for more than four decades in the Gary Community School Corporation, Ivory Brown's accomplishments in the classroom and on the court are shining examples of the pride and dedication he exhibited in his work. Mr. Brown began his teaching career with the Gary Community School Corporation in 1958 where he served as an elementary, middle, and high school teacher until 1968. From 1969-1972, he was a driver education specialist and in 1972 until his retirement, he served as a physical education instructor and head basketball coach at West Side High School.

From the beginning of his coaching career, Ivory Brown has served as an inspiration to thousands of students, fans, and players at West Side High School and throughout Northwest Indiana. Through his tireless efforts, he has assisted more than one hundred fifty high school athletes in their pursuit of higher education by helping them obtain college scholarships in basketball and track.

Mr. Speaker, I ask that you and my other distinguished colleagues join me in commending Ivory "Ike" Brown for his lifetime of dedication, service, and leadership to the students and faculty of the Gary Community School Corporation, as well as the people of Northwest Indiana. Coach Brown's efforts as an educator and a basketball coach blended together to help kids make the most of their potential and earn their success in the world. Northwest Indiana's community has certainly been rewarded by the true service and uncompromising dedication displayed by Mr. Ivory Brown.

CONGRATULATIONS TO THE JEWISH COMMUNITY HOUSE OF BENSONHURST

HON. ANTHONY D. WEINER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 9, 1999

Mr. WEINER. Mr. Speaker, I rise today to invite my colleagues to pay tribute to the Jewish Community House of Bensonhurst on the occasion of its 72nd Anniversary Celebration.

The members of the Jewish Community House of Bensonhurst have long been known for their commitment to community service and to enhancing the quality of life for all New York City residents.

This year's gathering is not only a festive happening, it is a chance for all of us to celebrate and pay tribute to a group of individuals who have dedicated their lives to helping others. This year's honorees truly represent the best of what our community has to offer.

Vic Damone, America's legendary vocalist and entertainer, is a Bensonhurst native and graduate of Lafayette High School. This year's recipient of the Coach Gold Alumni Achieve-

ment Award, Vic Damone has entertained audiences throughout the world and was recently presented with the prestigious Sammy Cahn Award by the Songwriters Hall of Fame. A JCH alumnus, Vic Damone remains friends with many JCH alumni including Larry King and Herb Cohen.

Gerry Farber, this year's recipient of the Joseph W. Press Humanitarian Award, has long been known as a supporter of early childhood education at the JCH. When the JCH needed support to renovate its nursery school in 1992, Gerry and his wife, Gail, were as there to help see it through. Recently, the Farbers created an endowment for the benefit of the JCH's early childhood programs. Gerry is a Bensonhurst native and an alumnus of the JCH and maintains close contact with fellow alumni throughout the country. In 1975, Gerry joined the investment firm of Weiss, Peck & Greer and currently serves as the manager of its Farber-Weber Fund.

Each of this evening's honorees has long been known as innovators and beacons of good will to all those with whom they come into contact. Through their dedicated efforts, they have each helped to improve my constituents' quality of life. In recognition of their many accomplishments on behalf of my constituents, I offer my congratulations on their being honored by the Jewish Community Hour of Bensonhurst on the occasion of its 72nd anniversary celebration.

HONORING RUSSELL MAJOR

HON. STEVEN R. ROTHMAN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 9, 1999

Mr. ROTHMAN. Mr. Speaker, I rise today to honor the memory of Russell Major.

Russell Major devoted every single waking moment to making Englewood, New Jersey a city that could boast of being a haven for all people, regardless of their race, color or ethnic background.

The countless hours that Russell spent organizing sit-ins and circulating petitions to achieve this end were oriented particularly towards providing the children of Englewood with the opportunity to realize the American Dream. He rightly recognized that to deny a child an opportunity for a quality education is to deny that child a lifetime of opportunities.

Russell Major believed that every child should be educated in schools that are safe and well-maintained, schools that have access to advanced educational technology, and schools with classes that are small enough to facilitate the best teaching and learning.

On June 12, 1999, the Englewood Board of Education will be renaming the Liberty School after Russell Major. From now on, when the students walk into the Russell Major Liberty School on Tenafly Road, they will be walking into a school whose namesake embodies the values that they are being taught: tolerance, patience, fairness, vigilance, and excellence. These are the values that will help these young people realize the vision that Russell had for them and for all Americans, a vision that was grounded in family, community and education.

It was also a vision that enabled Russell Major to give of his heart, as much as he gave of his mind. And it was a vision that gained him the respect of every person who ever came into contact with him.

Russell Major fought to make the America he envisioned a reality for the people of Englewood and beyond. By renaming the Liberty School in Russell's memory, we are honoring his legacy and challenging future generations to continue his important work.

INTRODUCTION OF NETWORKING AND INFORMATION TECHNOLOGY RESEARCH AND DEVELOPMENT ACT

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 9, 1999

Mr. SENSENBRENNER. Mr. Speaker, I rise today to introduce H.R. 2086 the Networking and Information Technology Research and Development Act of 1999. And I recommend that all my colleagues join with Science Committee Ranking Member GEORGE BROWN, Congressman TOM DAVIS and 23 other Republican and Democrat Members of the Science Committee in cosponsoring this important bipartisan research initiative.

Two decades ago, the changes wrought by information technology were unimaginable. The scope and scale of the changes produced by the explosion in information technology are comparable to those created during the Industrial Revolution of the 17th and 18th centuries. But whereas the Industrial Revolution ushered in the era of the machine—symbolized by the steam engine, the factory, and the captain of industry—the Information Revolution promises to create the era of the mind—symbolized by the silicon chip, the microprocessor, and the high-tech entrepreneur.

Today, the United States is the undisputed global leader in computing and communications, and a healthy information-technology industry is a critical component of U.S. economic and National security. The impact of information technology on the economy is telling. It represents one of the fastest growing sectors of the U.S. economy, growing at an annual rate of 12 percent between 1993 and 1997. Since 1992, businesses producing computers, semiconductors, software, and communications equipment have accounted for one-third of the economic growth in the U.S.

Fundamental information-technology research has played an essential role in fueling the Information Revolution and creating new industries and millions of new, high-paying jobs. But maintaining the Nation's global leadership in information technology will require keeping open the pipeline of new ideas, technologies, and innovations that flow from fundamental research. Although the private sector provides the lion's share of the research funding, its spending tends to focus on short-term, applied work. The Federal Government, therefore, has a critical role to play in supporting the long-term, basic research the private sector requires but is ill-suited to pursue.

However, as the Congressionally-chartered President's Information Technology Advisory
