LEGISLATIVE BRANCH
APPROPRIATIONS ACT, 2000

Mr. BENNETT. Mr. President, I now call up S. 1206.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1206) making appropriations for the legislative branch for the fiscal year ending September 30, 2000, and for other purposes.

The Senate proceeded to consider the bill.

The PRESIDING OFFICER. The Senator from Utah.

Mr. BENNETT. Mr. President, I understand that the senior Senator from California, Mrs. FEINSTEIN, is on her way to the floor. I will wait until she is here to express to the entire Senate my appreciation for her assistance as the ranking member of the Legislative Branch Subcommittee of Appropriations.

I have been delighted to have the opportunity to work with her on this legislation and I will make that clear when she arrives. I understand she is in another committee meeting, and in the pattern of the Senate, finds herself torn between two equally important responsibilities. That is a situation with which we are all familiar.

I will, for the information of Senators, point out that the legislative branch bill provides \$1.68 billion in budget authority, exclusive of House items, for fiscal year 2000. This is \$114 million or 6.4 percent less than the fiscal 1999 level. It represents \$105 million or a 5.9-percent decrease from the President's budget request. So in this time of difficulty, we are coming in below last year's spending and below where the President recommended.

There are increases in the bill, of course. There always will be in an appropriations bill. You cut some places, and you increase others. The majority of the increases in the bill account for cost-of-living adjustments only, and they are estimated at 4.4 percent across the board.

The Senate portion of the bill increases funding for the Senate by only 3 percent above the fiscal 1999 level, which is less than the 4.4-percent COLA

adjustment. So while the Senate portion of the bill is going up, it is going up less than the mandatory COLA that is required by law.

The bill funds 79 percent of the budget request of the Architect of the Capitol. Of the funds provided, 73 percent will fund operations, with the other 27 percent to fund Capitol projects.

I have always been one who has insisted on funding Capitol projects. As a businessman, I know that sometimes the most expensive savings you can achieve are savings that you take in the name of maintenance deferral. As things begin to deteriorate around the Capitol, it is tempting to say we can put it off for another year and look good in the short term. All you do when you do that is raise your costs in the long term. So throughout my tenure on the Legislative Branch Subcommittee and particularly my tenure as the chairman of that subcommittee, I have always been a champion of funding the Capitol projects and funding the maintenance projects to their fullest level, believing that in the long run that saves money.

Why then am I standing here today and saying that we are not going to do that in this bill, and we are not giving the Architect of the Capitol the funds that were requested? Well, there are several reasons for that. I think it is worth an explanation.

The subcommittee did not fund the Architect's request for \$28 million for Capitol dome renovations. I have been in the Capitol dome with the Architect of the Capitol, and I have seen firsthand how desperately in need of renovation it is. However, the full scope of the project will be determined during the paint removal process which is currently underway. The paint removal process is not expected to be completed until next summer. Therefore, I think it prudent for us to delete the funds from this bill until we have the completion of that process and have the information available to us that will come as a result. That is why we do not recommend proceeding until the full scope of the project has been determined. That is where a large part of the savings that we referred to have come from.

I see the Senator from California has arrived. I wish to make public acknowledgment of the great contribution she has made to the Legislative Branch Subcommittee. This is her first assignment on the subcommittee as its ranking member, and I have found her not only delightful and cooperative to deal with but, perhaps even more appreciated, fully engaged. It is one thing to have a colleague who is nice to deal with but who never shows up and never pays any attention to any of the issues. The Senator from California not only shows up but comes with her homework having been done, a full agenda of her own, and complete understanding
