

HON. PETE SESSIONS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. SESSIONS. Mr. Speaker, I rise today to recognize the commitment that more than 2000 banks in our great country have made to our Nation's Youth

Last year, the American Bankers Association pledged to enroll 1000 banks in America's Promise, the organization led by General Colin Powell that draws on the talents and resources of public, private and nonprofit organizations to improve the lives of our nation's youth. Banks of Promise agreed to increase their involvement in programs and activities that benefit children in order to provide them with the five fundamental resources they need to succeed in life. Those resources are: (1) An ongoing relationship with a caring adult; (2) a safe place with structured activities during non-school hours; (3) a healthy start in life; (4) a marketable skill through effective education; and (5) a chance to give back through community service.

The response by the industry has been overwhelming. Today, the number of Banks of Promise has more than doubled to 2102, reflecting the banking industry's commitment to its communities, America's youth and the future of our nation. These banks—and state bankers associations across the country—are offering the children in their communities everything from job training and mentoring to safe and accessible playgrounds and financial education. Indeed, our nation's banks are making an invaluable investment: they are investing in our kids.

Mr. Speaker, today I rise not only to recognize the banking industry's commitment but also to encourage other businesses, organizations and individuals to make a similar investment in their local youth. From Fortune 500 companies to government agencies to the local mom and pop store—we all have the ability, and the obligation, to help our children succeed in life.

One familiar quote adequately sums up the importance of America's Promise. It says: "One hundred years from now, it will not matter what my bank account was, the sort of house I lived in, or the kind of car I drove. But the world may be different because I was important in the life of a child."

To learn more about the Banks of Promise program and to see a list of the participating banks go to www.aba.com.

A TRIBUTE TO DR. JUDSON HARPER

HON. BOB SCHAFFER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. SCHAFFER. Mr. Speaker, today, on the eve of his impending retirement, I honor Dr. Judson M. Harper, Vice President for Research and Information Technology and Professor of Chemical and Bioresearch Engineer-

EXTENSIONS OF REMARKS

ing, at Colorado State University (CSU), located in Ft. Collins, Colorado. During his tenure at the University, Dr. Harper has been instrumental in positioning CSU as a world-class leader for research in the fields of animal sciences, information technology, natural resources management, atmospheric sciences, and agriculture.

In 1993, Dr. Harper orchestrated the construction of the Animal Reproduction and Biotechnology Lab, located on the campus of CSU. With the acquisition of this nationally-renowned research facility, CSU became the first in the nation to develop artificial insemination procedures for livestock. Other accomplishments associated with the lab include pioneering efforts in gene splicing and cloning. Research projects from the Animal Reproduction and Biotechnology Lab have also ensured the United States' livestock production industry remains competitive internationally.

Dr. Harper is also primarily responsible for establishing the Center for Geosciences at CSU. The Center, in partnership with the Department of Defense, is entering into a fourth phase of research projects to develop more sophisticated equipment and technology to better understand weather dynamics as it relates to military activities.

Dr. Harper has not only provided leadership in the scientific arena, but as the interim president in 1987, when Dr. Albert Yates, current CSU President, was away on sabbatical. Dr. Harper also directed the University through perhaps its darkest period. The flood of 1997, one of the worst weather disasters in the history of the state, claimed five lives, destroyed 2000 homes, and damaged 212 businesses, resulting in a \$200 million loss. Thirty buildings on the CSU campus sustained damage and nearly 200 faculty, staff, and students were displaced. Many books were ruined, and tragically, many faculty lost much of their life's work. Disaster officials were extremely impressed with CSU's rapid recovery, many attributing the credit to Dr. Harper.

An active administrator and respected researcher, Dr. Harper is recognized internationally as an expert in the area of food extrusion, a process by which food ingredients are heated and fashioned in an effort to achieve desired shapes and textures. Food extrusion is energy efficient, cost effective, and has become a central part of many modern food processing operations. His accomplishments in this area include 77 journal publications, two books, and 10 separate chapters in other works. In addition, he is also the co-holder of five U.S. patents.

Mr. Speaker, I have had the good fortune to work with Dr. Harper for many years and on many projects during my service as a Colorado State Senator and a United States Congressman. I regard him as a friend, an honorable public servant, a scholar, and one of the most decent human beings I've ever met. Dr. Harper's devotion to Colorado State University and the people of Colorado has been the basis for the profound legacy he has established.

Future generations may one day become unfamiliar with the name of Jud Harper, but all will be touched just the same by his exemplary work and his superior intellect. There are many reasons Colorado State University has

July 26, 2000

risen to the top of higher education achievement. Dr. Jud Harper is among the most significant leaders who have positioned the institution in a place of such world-class prestige.

Mr. Speaker, Dr. Jud Harper is leaving behind a tremendous legacy as he moves on from Colorado State University to the next phase of his life. He will truly be missed.

TRIBUTE TO THE RED ARROW CLUB

HON. GERALD D. KLECZKA

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. KLECZKA. Mr. Speaker, today I honor and pay tribute to the Red Arrow Club of Milwaukee. October 15th, 2000 marks the 60th anniversary of the U.S. Army's 32d Infantry Division's call to active duty prior to World War II, and also the 39th anniversary of the October 15th, 1961 call to active duty for the Berlin Crisis. This is a very important day for the club, for those who have worn the "Red Arrow" in war, as well as peacetime.

Comprised of troops from Michigan and Wisconsin, these soldiers were inducted into federal service at Lansing, Michigan on October 15th, 1940. The "Red Arrow" arrived in Australia on May 14, 1942 and participated in a number of heroic WWII campaigns, seeing action in Papua, New Guinea, Leyte, and Luzon, and later in Japan they often withstood bitter hand-to-hand combat, and fought bravely and honorably for their country. During their tour of duty in World War II, the members of the 32d Division laid their lives on the line for their country, asking nothing in return. And once again on October 15th, 1961 the "Red Arrow" answered the call of their country to protect our vital interests overseas, this time for the Berlin Crisis.

For their bravery, members of the 32d have received a total of ten Congressional medals of Honor and fourteen Distinguished Unit Citations. In addition, the unit has received several decorations including the Presidential Unit Citation (Army) and the Philippine Presidential Unit Citation.

This special day serves to honor the many veterans who answered the call to duty to serve their country in this distinguished division, a number of whom made the ultimate sacrifice and never returned home to family and friends. To the veterans, as well as those on active duty, my sincere congratulations on this very special milestone in the 32d Division's history. It is an honor that is well deserved.

HONORING THE LATE DIANE BLAIR

HON. MARION BERRY

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 25, 2000

Mr. BERRY. Mr. Speaker, today I pay tribute to a great Arkansan. Today President Clinton, First Lady Hillary Rodham Clinton, and
